VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

Samir Kumar Biswas
of the Indian Administrative Service
Director of Census Operations, Maharashtra

Product Code Number

MOTIF

Shri Rama Rathotsava Fair

The fair is held at Jalgaon, the district headquarters, which is 420 kms. to the north-east of Mumbai on the Central Railway. This fair is associated with an ancient temple belonging to Peshwa period. Excepting the shrine of the temple (gabhara), the other parts of the temple including the auditorium and the seating room were built about 70-80 years ago by one Appa Maharaj, a devotee of Rama, with the financial help of his disciples. The annual festival begins on Kartika Sud. 1. On the day, the images of Rama, Laxmana and Sita are carried in a palanquin to the Girnar River for bath. After bath the images duly decorated with ornaments and garlands are seated on a wooden horse and carried in procession through different parts of the town and brought back. The persons visiting the temple on the festival days are mostly from Jalgaon and nearby villages. More than 25,000 people visit the temple during the days of the fair.

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and collage), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre),

drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri Samir Kumar Biswas, Director of Census Operations, Maharashtra. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective State Governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated: 17.10.2006

Preface

The Registrar General and Census Commissioner of India has in his foreword to this series of publications, not only provided the reader with the historical background of the District Census Handbooks but has also explained at some length the scope and coverage envisaged for this country-wide project. This volume contains the salient results based on the data gathered at the actual head-count and in addition contain a wealth of other non-census information in respect of Villages and Towns of the District. It is hoped that this volume would go a long way to meet the ever-increasing demand for the micro-level data in this era-planned development.

District Census Handbook of Maharashtra is a joint venture of the Government of Maharashtra and the Census Organization of the Government of India. The design for the 2001 District Census Handbook was evolved centrally by the Census Commissioner, India. In the preparation of the District Census Handbook, the role played by the Census Organization is that of data gatherer. In accomplishing this task we have had the ready and whole-hearted co-operation of the staff at various levels of different departments of the State Government. Much of the data so provided by this field –level officers have been cross checked with the data obtained from various departments and an attempt has been made to reconcile the discrepencies as well. The Village Directory data in addition were also examined logically and possible errors list generated village wise for select facilities was rechecked and revalidated with the revenue officers in the respective collectorate.

I am extremely grateful to Shri D.K. Sikri, Additional Secretary and Registrar General, India for his guidance in bringing out this publication. I am equally grateful to Shri J. K. Banthia, I.A.S. the former Registrar General and Census Commissioner, India for his constant inspiration, help and guidance at every stage.

I also express my thanks to Dr. R.P. Singh, Dy. Registrar General, India (Map), Shri R.G. Mitra, Dy. Registrar General, India (Census Division), Dr. I.C. Agrawal, Assistant Registrar General (SS Division), Shri S.L. Jain Deputy Director (SS Division), Shri C.S. Arora, Director (EDP), Shri Himakar, Additional Director (EDP), Shri M.R. Balakrishnan, Joint Director (EDP), Shri Anil Kumar, Deputy Director (EDP) and their colleagues for their co-operation and support in bringing out this volume.

Shri Samir Kumar Biswas, IAS held the office of Director of Census Operations, Maharashtra and guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the direction and guidance of Shri Biswas. We would deem it our duty; therefore, to offer him our sincere and grateful thanks for all that he did for this project.

In this Directorate, Shri R.S. Meena, Joint Director guided this project in a meticulous manner and received all help from Dr. S.S. Hiremath, Deputy Director. The DCHB unit was spearheaded by Smt. Sushma Monga, Assistant Director, who was on deputation from the Planning Commission, New Delhi.

The physical features have been concurred by the Map section, after incorporating necessary changes, wherever required. The Maps, inserted are prepared by the Cartography section under the guidance of Shri D.N. Chaurasia, R.O.

I take this opportunity to offer my grateful thanks to all officials in various grades who have been actively involved in voluminous work of compilation and preparation of this volume. The list of the officials of this Directorate closely associated with this work is given separately.

District Highlights – 2001 Census

1) The district is famous for production of Bananas. Bananas produced in the district are of delicious quality and are exported to most of the districts of the state and Delhi as well as some foreign countries also. Out of total area under Banana production in Maharashtra State, the ¾ of the area is in Jalgaon district alone.

2) Jalgaon is called the main gate of world famous caves of Ajantha.

3) The economy of the district is primarily dependant on agriculture 70.8 per cent of the total workers are engaged as cultivators and agricultural labourers.

4) Jamner Village in Jamner tahsil is the most populated (36,386) and Chinchkhede Digar village is the least populated (5) in Jamner tahsil.

5) Bhusawal tahsil is having the lowest number of villages (51) in the district.

6) Rajdehare sett village in Chalisgaon C.D. Block has the highest area (6071.00 hectares) and Pimparkund village in Raver C.D. Block has the smallest area (21.00 hectares) among all villages of the district.

Definition of Census Town:

All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns:

i) A minimum population of 5,000;
ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and
iii) A density of population of at least 400 per square kilometres (1,000 per square mile).

		Rural	1,348.0	214	158	2
		Urban	-	-	0	0

Note : Since the source for the total area figures in respect of the State and districts is the Surveyor General while that for the total area figures in respect of the tahsils is the Settlement Commissioner and Director of State Land Records Department the total areas, as also the rural areas, for the tahsils in district, may not add upto the corresponding figures shown against the district.

The population per square kilometer workout from actual area figure upto 2 decimal point and then area presented in 1 decimal.

M.Cl stands for Municipal Council, C.T. for Census Town.

- 4 (Contd.)

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of District Census Handbook

The origin of DCHB lay in the 1951 Census when it began as a joint venture between the Government of India and the State Government. The present volume pertaining to 2001 Census is sixth in series since then. The District Census Handbook (DCHB) is a unique publication from the Census Organization that, in a condensed form, gives details of the Census and non-Census information from the village level upwards to the district level. It has therefore, been acclaimed & recognized as one of the best source of information next only to the district gazetteer.

The District Census Handbook as published in 1951 incorporated, some basic demographic and economic information of the district, village wise and town wise separately, besides having some important Census Tables. However, it underwent a radical change in the 1961 Census as a much more descriptive account of the district and a lot of non-census information on climate, rainfall, agriculture, industry, education, etc. was added to it besides a number of cross tables being picked up from various series of Census tables. In 1971 the District Census Handbook was divided into Part - A relating to Village and Town Directory, Part - B containing village and town wise Primary Census Abstract and Part - C reported on the administrative aspect and Census tables based on Primary Census Abstract etc. For the state of Maharashtra only Part A and B were published. The 1981 Census again saw the scope of it increasing to contain the data on literacy rate, Primary Health Centers etc. It was published as part A and B and the same pattern was again followed in 1991. However, in 1991 some of the non-census data included information on girl schools, social forestry area etc. as separate Appendices. The DCHB, 2001 Census have been made more informative and exhaustive in terms of coverage and content. The scope of village directory has been broadened by including more types of facilities such as bank, recreational and cultural facilities, newspapers and magazines available in villages. Information on most important commodity manufactured in village and also income and expenditure of Gram Panchayat, wherever possible are provided. Specific details on distances, in case a basic amenity is not available in the referent village is also given. These include distances in respect of availability of primary and middle school and college (in respect of the educational facility), Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre (in respect of the medical facility), Drinking water, Post Office and Phone, Communication, Bank, Credit societies and Recreational facilities. The Non-Census information collected at the village level or town level by the Tahsildar/ Chief officer was scrutinized and verified in each district by the District Planning Officer and District Statistical Officer. The Collectorate were also requested to once again verify this in case serious discrepancies were observed. Logical checks were applied to the data and the scrutiny points which emerged after this exercise were further verified in the field by officials of this Directorate. With reference to the town concerned, the nearest city with 5 lakh and above population has also been given in addition to 1 lakh and above population. The non-census information was cross-checked with parent department also. For example, information on electricity was cross-checked with Maharashtra State Electricity Board, that on roads with Public Works Department, on health with the Directorate of health and so on. It is felt that because of this extra validation, information provided in the 2001 District Census Handbook should become more reliable and can be used without any hitch by Scholars and Planners alike.In town directory, information on all types of slums, whether notified/recognised by the respective town authority or not and in respect of all statutory towns irrespective of their class as against

only Class I and Class II towns of the 1981 and 1991 Censuses are provided. The varied basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. A number of tables based on Primary Census Abstract are also made to correlate data with geography of the tahsils. A significant addition in the publication is inclusion of analytical notes as annexures on important aspects concerning Census data on (i) fertility, mortality and migration, (ii) various measures of fertility and mean age at marriage, (iii) percentage distribution of migrants by place of birth/place of last residence, (iv) main religions, (v) marital status of population, (vi) age, sex and education, and (vii) distribution of different mother tongue, all based on 1991 Census. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The Village and Town Directory as also the Primary Census Abstract included in this Handbook should quench the thirst of the planners involved in micro level planning.

(ii) Brief History of The District

Much of the early history of the region now known as Jalgaon district is still obscure. It is the eastern part of what was formerly called Khandesh. The early name of Khandesh was Rasika. In 10-12th century A.D; it constituted a part of Seuna- desa under the Yadavas and later with the advent of Muslims it came to be known as Khaandesh-the country of Khans.

In about the fifth century A.D. a portion of Khandesh seems to have been ruled by the Vakatakas. The main branch of this family was matrimonially connected with the Imperial Gupta dynasty and were a powerful force in Vidarbha. It is, however, the Vastagulma branch of the family which seems to have dominated the southern portion of Khandesh from their capital at Vatsagulma (modern Vasim, district-Akola). Their inscriptions are the first authentic records in the history of Jalgaon. It may incidentally be noted that some copper-plate grants of certain rulers named Svamidasa, Bhulunda and Rudradasa, dated in their regnal years, are believed to have flourished between A.D. 316-367. Two of these plates are issued from Valkha, which is identified as Vaghil, near Chalisgaon. Their contribution though useful for the reconstruction of the history of Khandesh is still problematical.

On 13th March 1795, the Nizam was defeated at Kharda by Marathas. By the treaty that followed, the Nizam had to cede his Khandesh possessions to the Peshwa. A considerable portion of Khandesh was possessed by the Holkar family, having been divided among the Peshwa. Sindia and Holkar. The part left to the Peshwa was formed into a separate subha. This subha "included Gaulana, Khandesh proper, Meiwar, Bejagur, Pallnemaur, Hindia".

The present Jalgoan district formed a part of erstwhile Khandesh district. In 1906, the erstwhile Khandesh district was divided into two districts called West Khandesh and East Khandesh with their headquarters at Dhule and Jalgaon respectively. The following tahsils were separated from Khandesh district to form East Khandesh district:

(i) Amalner (ii) Parola Peta (iii) Bhusawal (iv) Eddlabad Peta (v) Chalisgaon (vi) Chopda (vii) Erondol (viii) Jalgaon (ix) Jamner (x) Pachora (xi) Bhadgaon Peta (xii) Raver (xiii) Yawal.

In 1917 Parola Peta was upgraded as tahsil. Subsequently Edlabad Peta and Bhadgaon Peta were also elevated to tahsil status. In 1950, thirteen villages of Chalisgaon tahsil were transferred to Aurangabad district. In 1956, re-organization of states resulted in the inclusion of the district in Bombay state and subsequently in 1960 it became a part of Maharashtra state. On 10th October 1960, the name of the district was changed to 'Jalgaon District' instead of East Khandesh District.

At 2001 Census two new tahsils were created namely Bodwad and Dharangaon including this two tahsils the district had 15 tahsils comprising 1,519 villages and 15 towns. No Jurisdictional changes have occurred in the district boundary since 1961.

(iii) Administrative Set up

There were major changes in the administrative set up of Maharashtra, immediately after the 1991 Census resulting in increase of 5 districts. In 2001 Census Konkan division includes 6 districts, Nashik division 5 districts, Pune division 5 districts, Aurangabad division 8 district, Amravati division 5 districts and Nagpur division 6 districts. Thus in 2001, the state has 35 districts spread over 6 divisions. Jalgaon district is included in Nashik division. Jalgaon district has 15 towns and 1,519 villages are spread

over 15 tahsils, viz. chopda (119), Yawal (91), Raver (116), Muktainagar (84), Bodwad (53), Bhusawal (51), Jalgaon (87), Erandol (65), Dharangaon (96), Amalner (147), Parola (116), Bhadgaon (63), Chalisgaon (143), Pachora (128) and Jamner (160). The following statement indicates the changes, which occurred after 1991 census, in number of villages and towns in each tahsil and also the reasons for variation in brief :

JURISDICTIONAL CHANGES DURING 1991-2001

Name of District/Tahsil	No. of villages as per 1991 Census while in Jalgaon district	No. of villages as per Adjusted as per 2001 Jurisdiction	No. of villages as per 2001 Census	No. of New villages created	No. of Towns 1991 census	No. of Towns 2001 census	Changes since 1991 and Govt. Notification No.
1	2	3	4	5	6	7	8
Jalgaon district	1,510	1,510	1,519	8	17	15	2 New Tahsils created after 1991 Census 8 New Villages created after 1991 Census 1 Village merged in other village 2 Census towns declassified
1 Chopda	119	119	119	1	1	1	1 Village merged in other village (Angurne) 1 New Village created after 1991 Census.
2 Yawal	91	91	91	--	2	2	--
3 Raver	116	116	116	--	2	2	--
4 Muktainagar	84	84	84	--	--	--	--
5 Bodvad	--	53	53		--		53 Villages transferred from Bhusawal Tahsil
6 Bhusawal	102	49	51	--	5	3	53 Villages transferred to Bodvad Tahsil 2 Census towns declassified
7 Jalgaon	87	87	87		1	1	--
8 Erandol	152	65	65	--	1	1	87 Villages transferred to Dharangaon Tahsil
9 Dharangaon	--	96	96		1	1	87 Villages transferred from Erandol Tahsil 9 Villages transferred from Amalner Tahsil.
10 Amalner	155	146	147	1	1	1	1 New village created after 1991 Census 9 Villages transferred to Dharangaon Tahsil
11 Parola	115	115	116	1	1	1	1 New village created after 1991 Census.
12 Bhadgaon	63	63	63	--	--	--	--
13 Chalisgaon	139	139	143	4	1	1	4 Villages created after 1991 Census.
14 Pachora	128	128	128	--	1	1	--
15 Jamner	159	159	160	1	--	--	1 New village created after 1991 Census.

For administrative purpose the district is divided into four sub division, 1) Jalgaon 2) Bhusawal 3) Amalner and 4) Pachora. The Jalgaon sub-division includes 4 tahsils, Amalner sub-division includes 3 tahsils, Pachora sub-division includes 3 tahsils and Bhusaval sub-division includes 5 tahsils. The District collector alongwith the district Judge, Superintendent of Police, Chief Executive Officer of Zilla Parishad and other Senior Officers of State Government look after the development and regulatory functions in the district. At tahsil level, the Tahsildar Block Development Officer, Judicial Magistrate, Deputy Engineers and other Officers, look after their respective departments for development and regulatory functions.

Local self Governments, its composition, jurisdiction and the role in the Development.

Gram Panchayat is the lower most rung of the democratic set-up of India. It is governed by the 'Bombay Village Panchayat Act, 1958'. The 'Sarpanch' and in the absence of Sarpanch, the 'Upa-Sarpanch' preside over every meeting of 'Gram Sabha'. At least four meetings of the 'Gram Sabha' are held every year. Sarpanch and Upa-Sarpanch are elected from amongst the elected members of the Panchayat.

73rd Constitutional Amendment

To make Panchayat Raj Institutions strong and to give more power to the people, the State Panchayat Act has been amended in confirmation with the 73 rd Constitutional amendment, which is implemented in the State in April 1994. The Main fundamental provisions of the 73 rd Constitutional amendments are as follows:

1. Constitution of Panchayat Raj Institutions at Village, Intermediate (Development Block) and district level.

2. The seats and the offices of the chairpersons in the Panchayats at all the levels to be reserved in favour of Scheduled Castes and Scheduled Tribes in proportion to the percentage of population of the Scheduled Caste or Scheduled Tribes, as the case may be.

3. The elections to these Panchayat Raj Bodies to be held at the interval of every five years.

4. Powers, Authority and Responsibilities of Panchayats: -

(a)The preparation of plans for economic development and social justice

(b)The implementation of schemes for economic development and social justice as may be entrusted to them including those in relation to the matters listed in the Eleventh Schedule.

5. An independent State Election Commission to conduct the elections.

6. Powers to impose taxes by, and funds of, the Panchayats.

7. Constitution of Finance Commission by the State at the expiry of every five years term to review the financial position of the Panchayats and to make recommendation regarding distribution of State resources between the State and the Panchayat.

Constitution of Gram Panchayat

The gram panchayat consists of not less than seven and not more than seventeen members elected from wards on the basis of adult franchise. They hold office for a term of five years. Among these a few seats are reserved for persons belonging to the Scheduled Castes, the Scheduled Tribes, Backward Class of citizens and Women, as may be determined by the State Election Commission in the prescribed manner.

Administrative powers and duties of Panchayats

Administrative powers and duties of Panchayats are - to take care of the funds at its disposal, to take over and maintain water supply schemes through "Village Water Supply Fund", to make provision for carrying out within/outside the village any work subject to any directions made by State Government for any scheme or for any purpose sponsored by the Government, to make provision for carrying out work which is likely to promote health, safety, education, comfort, convenience or social or economic or cultural well- being of the inhabitants of the village, to make provision for entertainment, public reception, contribution towards annual gathering, to encourage farmers and co-operative societies to increase and improve agricultural production etc.

Powers and duties of Panchayats in the scheduled areas

Powers and duties of Panchayats are - to obtain from the Gram Sabha a certification of utilization of funds for the plans, programmes and projects, prospecting licence or mining lease for minor minerals, control on erection of building, to remove any obstructions and encroachments upon public streets and open sites etc.

Establishment, Budget and Accounts

The day to day work of the Panchayat is done by Secretary of panchayat. The Chief Executive Officer of Zilla Parishad appoints the secretary of Panchayat. His salary is paid from the district fund.

The budget of the village Panchayat is submitted to the Panchayat samiti. It covers opening balance in the fund, estimated income, proposed expenditure and the amount to be contributed to the District Village Development Fund. The sanctioning authority of the village budget is panchayat samiti.

Taxation and Recovery of Claims

The taxes levied by the panchayat are - tax on buildings and lands, betterment charge or the lands benefited from schemes or projects undertaken by Panchayat from 'Village Fund', pilgrim tax, tax on fairs, festivals and other entertainments, tax on bicycles and on vehicles drawn by animals, tax on professions, trades, callings or employments, shop keeping and hotel-keeping, general sanitary cess, general water rate, a lighting tax, fee on markets and weekly bazars, fee on car stands/tonga stands, special water tax for water supplied through pipes, fee for the supply of water from well and tank for purposes other than domestic use and for cattle, fee for temporary occupation on public street, special sanitary cess upon private latrines, fee for cleaning cess pool, fee for grazing cattle, fee on the registration of animals, lump sum contribution by factories in lieu of taxes levied by Panchayat, farming of fees on markets, collection of cess on every rupee of land revenue etc.

Financial Assistance to Panchayats

Gram Panchayat receives financial assistance from the State Government, loan by Zilla Parishad, Equalisation grant, Village water supply fund and District village development fund.

Gram Panchayat-role in the Development of the village

Since the Gram Panchayat controls the village fund, it has an immense role in the Development of the villages. It makes reasonable provision within the village and submits to the Panchayat Samiti for approval. It supervises the village water supply scheme. It makes provision for carrying out within the village any work which promotes health, safety, education, comfort, convenience or social or economic or cultural well-being of the inhabitants of the village.

Gram Panchayat can make provision for any public reception, ceremony or entertainment within the villages or make contribution towards at annual gathering or such other gathering of Panchayats in the district or the state.

It encourages farmers of the village to make use of co-operative societies in increasing and improving agricultural production. It supervises primary schools situated within the area of its jurisdiction.

Last but not the least, it is duty bound to take measures for the amelioration of the condition of Scheduled Castes and Scheduled Tribes and other Backward Classes and in particular, in the removal of untouchability carry out the directions issued in this regard from time to time by the State Government.

Objectives of the Local Self Government

With a view to promote development of democratic institutions and to secure greater measure of participation by the people in Development Plans and in local and governmental affairs by decentralization of powers and functions, Zilla Parishad and Panchayat Samities (C. D. Blocks) have been established in the district of Maharashtra in the year 1962 under the Maharashtra Zilla Parishad and Panchayat Samiti Act of 1961. The jurisdiction of Zilla Parishad and Panchayat Samiti i.e. C.D. Blocks corresponds to the district and tahsil boundaries except that the statutory towns are not covered by them.

The local self bodies are working as agencies of State Government. The 73rd Constitutional Amendment gave local self bodies the constitutional status. The new power bestowed upon them gave a great impetus to the development plans and its implementation.

Zilla Parishad

The Zilla Parishad has the authority for the purposes of the Act over the area for which it is established. The authorities charged with carrying out the provision of this Act for each district are–

a) The Zilla Parishad

b) Panchayat Samitis

c) The Standing Committee

d) The Subjects Committees

e) Presiding authorities

f) The Chief Executive Officer

g) Block Development Officer

The Zilla Parishad is assisted in its function by number of departments and each department is headed by class I or class II officers of the State Services.

Zilla Parishad consists of councillors directly elected on the basis of adult franchise from electoral divisions in the district for a term of five years. The number of councillors being not more than seventy-five and not less than fifty. Some seats of councillors are reserved for the persons belonging to Scheduled Castes, Scheduled Tribes, Women and Backward Class citizens.

Grants to Zilla Parishad

1. Grant of 7 percent of forest revenue to Zilla Parishad.

2. Purposive grant – State Government pays every year to Zilla Parishad a grant for works and development schemes transferred to Zilla Parishad.

3. Establishment grant – State Government pays by way of establishment grant, the average cost on account of the salaries and allowances.

4. Local cess matching grant – State Government pays a local cess matching grant to be paid to Panchayat Samiti through the Zilla Parishad.

5. Incentive grant – State Government pays to Zilla Parishad an incentive to speedier development.

6. Grants for plan schemes – State Government pays grant for such works and development schemes relating to any subject enumerated in the district List as are included in the development plan of the State.

7. Block grant – State Government pays to each Panchayat Samiti through Zilla Parishad for carrying one such work and development scheme.

The development work of the district is carried out through the various committees appointed for the purpose by the Zilla Parishad. The executive power for the purpose of carrying out the provisions of the Act lies with the Chief Executive Officer, who is appointed by the State Government.

All the development work within the district is carried out by the Zilla Parishad through the District Fund at its disposal.

The Deputy Chief Executive Officer works as the ex-officio secretary of the Zilla Parishad.

Panchayat Samiti

Panchayat Samiti Consists of members elected by direct election, its jurisdiction being the C.D. Block. The term of the members is five years. The Block Development Officer is the ex-Officio Secretary of the Panchayat Samiti. The Chairman and Deputy Chairman are elected by and from amongst the members of the Panchayat Samiti.

The overall plan of work and development schemes within the block is prepared and executed by the Panchayat Samiti.

Devolution of Powers and functions.

As per the 73rd Constitutional Amendment, Articles 243-G and Schedule 11 of the Constitution, 29 subjects are to be transferred to the Panchayat Raj Institution. The State Government implemented this amendment in April 1994 and provisions were made in the State Panchayat Raj Act to transfer these subjects to the Zilla Parishads, Panchayat Samitis and the Village Panchayats.

Source : 1. Bombay Act No. III of 1959 (The Bombay Village Panchayats Act,1958).

2. Maharashtra Act No. V of 1962 (The Maharashtra Zilla Parishads and Panchayat Samitis Act, 1961).

3. 73rd Constitutional Amendment.

Urban Local Bodies

The statutory urban local bodies are cantonments, municipalities or municipal corporations. The urban local bodies elect a councillor from each of the wards and his term is 5 years. The President of the Municipal Council or the Mayor of the Corporation as also his Deputy are elected from amongst elected councillors. The Chairmen of various committees are also elected from amongst the elected councillors. Although for day to day administration the Chief Officer is responsible in a municipal council, he works under the administrative control of the President of Municipal Council. In Corporations, a senior IAS Officer is deputed by the State Government as Municipal Commissioner who is responsible for day to day administration and the executive authority lies in him.

(iv) Physical features

Location and Size

Jalgaon district lies between 20° 10' and 21° 28' North Latitudes and 74° 45' and 76° 28' East Longitude in the north-central portion of the State. It is surrounded by Dhule and Nashik districts to the west, Aurangabad and Jalna districts to the south, Buldana district and Madhya Pradesh State to the east and Madhya Pradesh State again to the north.

The headquarters of Jalgaon district is at Jalgaon, town having a population of 368,618 and is located almost in the centre of the district and the major transport lines, i.e. the Railways and the National highway pass through it.

Jalgaon district has an area of 11,765.00 sq.kms. and has a population of 3,682,690. The density of population is 313 persons per sq.km.

Physiography

India has been divided into four macro level physical divisions i.e. The Northern Mountains, The Great Plains, The Deccan Plateau, and The Coastal Plains and Islands.

Maharashtra falls under two of these macro level divisions 1)The Deccan Plateau, and 2) The Coastal Plains and Islands. The north-south running Sahyadri range separates these two divisions. The Deccan Plateau lies to the east while the Coastal Plains and Islands lie to the west up to the Arabian Sea. The Deccan Plateau is much larger of the two divisions and includes twenty nine districts of the State while only six districts lie in the Coastal Plains and Islands.

The whole Deccan Plateau is sub-divided into 12 meso regions. Of these, only 2 meso regions i.e. Northern Maharashtra and The Maharashtra Plateau lie within the State. Northern Maharashtra is further divided into 2 micro regions i.e. The Tapi-Purna Valley and The Wardha-Penganga-Wainganga Plain. The Maharashtra Plateau is also further sub-divided into 2 micro regions i.e. The Eastern Plateau and The Western Plateau with Protruded Hills.

The Coastal Plains and Islands is divided into 4 meso regions i.e. Gujarat Region, Western Coastal Region, Eastern Coastal Region and The Islands. Of these, The Western Coastal Region covers Maharashtra. This region is divided into 4 micro level regions i.e. Maharashtra Littoral, Goa Coast, Karnataka Coast and North Kerala Coast. Only Maharashtra Littoral falls within the state of Maharashtra.

The hierarchy of these macro, meso and micro level physiographical divisions within Maharashtra State are as below :

(A) Deccan Plateau :

(i) Northern Maharashtra :

(a) Tapi-Purna Valley : Includes the districts of Nandurbar, Dhule, **Jalgaon**, Buldana, Akola, Washim and Amravati.

(b) Wardha-Penganga-Wainganga Plain : Includes the districts of Wardha, Nagpur, Yavatmal, Bhandara, Gondiya, Gadchiroli and Chandrapur.

(ii) Maharashtra Plateau :

(a) Eastern Maharashtra : Includes the districts of Aurangabad, Jalna, Parbhani, Hingoli, Nanded, Bid, Osmanabad, Latur, Solapur, Sangli and Kolhapur.

(b) Western Maharashtra with Protruded Hills: Includes the districts of Nashik, Ahmadnagar, Pune and Satara.

(B) Coastal Plains and Islands:

(i) Western Coastal Plains:

(a) Maharashtra Littoral : Includes the districts of Thane, Mumbai (Suburban), Mumbai, Raigarh, Ratnagiri and Sindhudurg.

The district as a whole falls under the Tapi-Purna Valley, the micro level division of Deccan Plateau. On the basis of local variation in relief the district can be broadly grouped into three parts i.e. 1) Satpura Range 2) The river basins of Tapi and its tributaries, and 3) Ajanta Range.

1) Exending horizontally in the northern part of the district, the Satpura Range occupies northern parts of Chopda, Yawal and Raver tahsils. This is the foothill zone of Satpura range and has an altitude varying between approximately 400 meters in the south and 1,000 meters in the north. The land slopes towards south and west. Small streams, which rise from this range flow southwards almost parallel and finally meet the west flowing Tapi River. This range is covered with dense mixed jungle (mainly teak). Geologically, the region consists of Deccan Trap with inter-trappean beds.

2) The basin of the river Tapi and its tributaries i.e. Bori, Girna, Vaghur and Purna, cover a major portion of the district and includes all the tahsils of the district either fully or partly. The altitude of the basin varies between 150 meters and 300 meters. This area is badly dissected and hence the surface is undulating in nature. The basin slopes in a general westward direction. The soils of the region are old alluvium which are very heavy and the underlying material is impervious yellow clay. The soils develop cracks during the dry season. Cotton, wheat and jowar are the main crops grown in the basins. This area is one of the important Banana producing regions of the State.

3) Situated in the south-eastern part of the district, Ajanta Range coveres small parts of Jamner, Bhusawal,Bodvad and Muktainagar tahsils. This in fact is an offshoot of Ajanta range and has an elevation of nearly 400 metres. The range is partly covered under mixed forests and is drained only by small streams. From Geology point of view, the region is comprised of Deccan Trap with inter-trappean beds.

Drainage

The main river of the district is the westward flowing Tapi, which flows for about 125 kms. within the district. The Tapi receives many tributaries from both sides. On the right bank are Bhokar, Suki, Mora, Manki and Guli which originate in the Satpudas. They are small and are of little use for irrigation. Purna, Bhogawati, Vaghur, Girna and Bori are the main rivers which flow from the south and join the Tapi on its left bank. The rivers flowing from the south emanate from the Sahyadris except for Purna and Vaghur. They drain much wide tracks.

Climate

Being far away from the coast there are large variations in temperatures in the district. Skies are generally clear or lightly clouded except during the monsoon when heavily clouded to overcast conditions prevailed. Again, except during the monsoon, the air is generally dry particularly in the afternoon. Summer is the driest part of the year.

The year may be divided into four seasons. December to February form the cold season, followed by the hot season from March to May. The monsoon season is from June to September while October and November form the post-monsoon season. December is the coldest month. The cold waves over northern India sometimes affect the district and minimum temperature may drop to within a few degrees above zero degrees Celsius. Temperature rises steadily from March and by May, the hottest month of the year; the mean daily maximum temperature reaches 42.5 degree Celsius. With the onset of the monsoon the temperature drops and the weather is pleasant. With the withdrawal of the monsoon, by the end of September, day temperature rises a little and then both day and night temperatures begin to drop rapidly by November.

Winds are generally light to moderate. During the monsoon season, the winds are stronger and blow predominantly from the southwesterly or westerly directions. In association with monsoon depressions

and to lesser extent post-monsoon storms, the district experiences strong winds and widespread rains.

The district enjoys moderate rainfall. The central and eastern portions get slightly higher rainfall than the western parts of the district. The variation in the rainfall in the district from year to year is larger. The average annual rainfall is 763.6 mm. of which about 87 per cent is received during the monsoon months of June to September, July being the month with the highest rainfall. Winter precipitation is almost negligible.

Statement II of Town Directory gives the rainfall in mm. and the maximum and minimum temperatures of towns in the district.

Natural Wealth

Minerals

Deccan traps cover almost the whole of the district except for a few strips of alluvium-covered land on both sides of the major rivers. These traps are the result of out-pouring of enormous lava-flows, which date back to the Mesozoic era. These are spread out in the form of horizontal Sheets of beds. Trap rocks are generally barren of any economically useful and important minerals. Secondary minerals like agate, jasper, chalcedony and rock crystals, which fill up cavities in vesicular basalts, are sometimes used as semi-precious stones. However, trap being hard, dense and durable is a most suitable material for building purposes and is extensively used as road metal, railway ballast and in cement concrete.

Fisheries

Fishing activities in the district are restricted to inland waters rivers, tanks and ponds being the chief sources. The total perennial river length in the district is 730 kms. Perinnial and seasonal tanks provide water spread areas, which is rather inadequate for the development of fishing industry. The commercially important varieties of fish found in the district are Kirkit or Shingala, Murrel, Shivda, Pahadi or Daku, Chamaror Cchalat, Pal or Dondaonya, Khavlya, Khaval, Kolshi, Zinga, Boi, Kalundar, Kharebi and Muri.

Soil and cropping pattern

The soils of the district are generally derived from the underlying basalt though older alluvium has a deep cover all among the broad Tapi valley. The soils mainly fall into five categories, viz. medium black soils, deep black soils, forest soils, loamy soils and sandy soils.

Medium black soils

Medium black soils (Mandhyam kali) are clay loams, brownish black to black in colour. They Cover a large portion of the district and include most of the cultivated area in southern parts of Raver, Yawal and Chopda tahsils and the northern portions of Pachora and Jamner tahsils. Most of the soils of Chalisgaon, Erandol, Bhusawal, Jalgaon and Bhadgaon tahsils also belong to this type.

Deep black soils

Deep black soils (bhari kali) are found in northern parts of Amalner, Erandol Jalgaon, Bhusawal and Muktai Nagar tahsils. Cotton, Wheat and Jowar are the main crops grown.

Forest soils

Forest soils are dark brown and occur on slopes mainly in the Satpuda ranges. They are well drained and rich in organic matter.

Loam soils

Loam soils (Malai or galwat) are fertile and are observed on the banks of rivers. They occur in a continuous strip in the southern most portions of Amalner, Erandol, Jalgaon, Bhusawal, Bodvad and Muktai Nagar tahsils.

Sandary soils

Sandary soils occur in large patches on the slopes of the satpuda ranges and near the southern hillocks in Chalisgaon , Pachora, Jamner , Bhusawal, Parola, Erandol and Bhadgaon tahsils.

Jalgaon is one of the important banana producing district of the state, Banana are grown mainly in black and loam soils in the district.

Land and land use pattern

The Ministry of Food and Agriculture, Government of India has recommended a standard pattern of land use classification for the maintenance of records. Columns 19 – 23 of the village directory give land use pattern in each village in the district. The data furnished here are based on the village records and pertain to the year 1999.

Forest

This includes all land classified as forest under any legal enactment dealing with forest or administered as forest, whether state owned or private and whether wooded or simply maintained as forest land. Within the forest area itself there may be occasionally cultivated patches or grazing lands, but such area are shown under column 19 as forest. The process of regularization of land grants and effecting relevant changes in the basic records of survey and settlement are somewhat protracted and time consuming. Therefore the information based on records is in some cases at least, likely to be different when compared with the actual field situation.

Irrigated by Source and Uninrrigated land

Column 20 and 21 of the Village Directory give all the agricultural land and when added together would correspond to the net area shown plus the current and other fallow lands. Area shown more than once during the same year, if any, in the village is counted only once under this column. In column 20 source wise breakup of the irrigated area is furnished by using abbreviation. All lands that are lying uncultivated as fallow for more than 5 years in succession are recorded as permanent fallow (Cultivable waste) and are covered under column 22.

The Concept of irrigation implies the existence of source of water supply within a reasonable distance and an arrangement to regulate the supply of the water according to the day-to-day needs of the crops raised in these fields. Naturally therefore all areas, which are cultivated under purely rain fed conditions, are treated as unirrigated lands.

Animal Husbandry

As per sixteenth Quinquennial census of livestoack of 1997, the information on important number of livestock and livestock indicators are given below.

Statement showing no. of Livestock (Position as on 15th Oct. 1997).

1)	Total Cross bred/Indigenous Cattle	721,791
2)	Total Buffaloes	362,634
3)	Total Goats	558,653
4)	Total Sheep	42,634
5)	Total Pigs	33,316
6)	Total Equine	9,294
7)	Total Camels	4
8)	Total Rabbits	331
9)	Total Livestock (excluding dogs)	1,728,657
10)	Total Poultry (including Ducks)	685,734

Source: Sixteenth All India Livestock & Farm Equipment Census 1997.

The total livestock (excluding dogs) are 1728657 and total poultry (including ducks) are 685734 in the district. Out of the total livestock, the total crossbred/ indigenous cattle are 721791, total buffaloes are 362634, and goats 558653, sheeps 42634, pigs 33316, equine 9294, camels 4 and rabbits are 331.

Statement showing Selected Livestock indicators (Position as on 15th Oct. 1997).

	Category	Value
1)	Density of Livestock population (per sq.km.)	147
2)	Average Livestock per village	1,168
3)	No. of livestock per thousand human population	542
4)	No. of in-Milk cows per thous and human population	36
5)	No. of in-Milk buffaloes per thousand human population	38
6)	No. of poultry fowls per thousand human population	215
7)	No. of Bullocks and male Buffalloes per hundred hectares of gross cropped area	32
8)	No. of tractors per thousand hectares of gross cropped area	5
9)	No. of Veterinary Institute per lakh livestock	10

Source: Sixteenth All India Livestock & Farm Equipment Census 1997.

The density of livestock population per sq. km. works out to 147 while average livestock per village

is 1,168. For every thousand human population there are 542 livestock, 36 in-milk cows, 38 in-milk buffaloes and 215 poultry fowls. While there are 32 bullocks and male buffaloes per hundred hectares of gross cropped area and 5 tractors per thousand hectares of gross cropped area, the number of Veterinary institute per lakh livestock has reported to be 10.

Industry

Industrial Maharashtra is one of the advanced state in the country .Due to the availability of raw cotton, cheap labour and means of transport, cotton ginning, pressing and spinning mills has grown in the district. Large-scale industries like sugar factories, groundnut oil mills, dairy products and electrical materials and plastics factories are among the important industries located in the district. Besides there is also ayurvedic medicine factory in the district. In adddtion there is a factory producing firecracker, an ordinance factory and workshop of Central Railway along with a paper mill. All these factory are expanding their scale of production gradually.

The industrial policy of the state is based on the basic decision to encourage industries in the developing and under developed areas in the state and to disperse industries from the heavily congested areas of Mumbai, Thane and Pune. At Jalgaon the M.I.D.C. has developed large area of land for setting up of industries and industrialists from Mumbai and Pune have already set up their plants.

The most important small scale industries in the district are handloom weaving, leather-workers, oil seed, pressing, bamboo-work, gur-making, saw mills and manufacturing of bollock carts. Moreover, apart from the above industries, there are cottage industries like tanning, paper-making, brick-making, bidi-making, lime burning, carpentry, pottery, handmade paper, manufacturing of ink, wool weaving.

Trade And Commerce

The district is well known for production of banana. The main items manufactured are Vanaspati ghee, Ayurvedic medicines, Leather, Electrical Cotton, Yarn, Power loom Cloth, Sugar and Plastic goods. The chief export articles of the district are bananas, Vanspati ghee, milk and milk products, cotton bales, groundnut oil and foodgrains. Delicious qualities of banana are exported to Delhi, Mumbai and all other states of the country and also outside the India. The district is also exporting milk and milk products i.e., butter and ghee and groundnut oil to Mumbai and other nearby districts.

Chief import articles are food grains, tea, cloth, oilseeds, fertilizers, medicines, machinery, electrical equipments, coal, jowar and wheat etc. Most of the goods are imported from Mumbai, Nashik and Pune.

Transport

Number of Motor Vehicles registered in the district (as on 31.03.1999)

Motor Vehicles 1999		
	Item	No. of Vehicles
1		2
1	Buses	967
2	Cars & Station Wagons	4,351
3	Jeep	3,646
4	Taxies	514
5	Autorickshaw	8,964
6	Moped	36,264
7	Scooters	25,893
8	Motor Cycles	59,387
9	Total Goods Vehicles	5,878
10	Tractors	9,685
11	Trailors	10,556
12	Others	80
	Total	**166,185**

(Source: Transport Commissioner office)

It is seen from the table that among various types of motor vehicles available in the district Motor cycles, Scooters, Moped are predominant.

Electricity and Power

All the 15 towns and 1,486 villages (99.7 percent) are enjoying the power supply facility.

(v) Census concepts

Building :

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses :

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses :

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 metres and a breadth of at least 1.5 metres and a height of 2 metres. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house :

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership

flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000.

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:

Scheduled Castes

1) Ager
2) Anamuk
3) Aray Mala
4) Arwa Mala
5) Bahna, Bahana
6) Bakad, Bant
7) Balahi, Balai
8) Basor, Burud, Bansor, Bansodi
9) Beda Jangam, Budga Jangam
10) Bedar
11) Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chamari, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar , Madar, Madig, Mochi, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Nona, Ramnami, Rohit, Samgar, Samagara, Satnami, Surjyabanshi, Surjyaramnami
12) Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli
13) Bindla
14) Byagara
15) Chalvadi, Channayya
16) Chenna Dasar, Holaya Dasar, Holeya Dasari
17) Dakkal, Dokkalwar
18) Dhor, Kakkayya, Kankayya, Dohor
19) Dom, Dumar
20) Ellamalvar, Yellammalawandlu
21) Ganda, Gandi
22) Garoda, Garo
23) Ghasi, Ghasia
24) Halleer
25) Halsar, Haslar, Hulasvar, Halasvar
26) Holar, Valhar
27) Holaya, Holer, Holeya, Holiya
28) Kaikadi (in Akola, Amravati, Bhandara, Gondiya, Buldana, Nagpur, Wardha and Yavatmal districts and Chandrapur district, other than Rajura tahsil)
29) Katia, Patharia
30) Khangar, Kanera, Mirdha
31) Khatik, Chikwa, Chikvi
32) Kolupulvandlu
33) Kori
34) Lingader
35) Madgi

36) Madiga
37) Mahar, Mehra, Taral, Dhegu Megu
38) Mahyavanshi, Dhed, Vankar, Maru Vankar
39) Mala
40) Mala Dasari
41) Mala Hannai
42) Mala Jangam
43) Mala Masti
44) Mala Sale, Netkani
45) Mala Sanyasi
46) Mang, Matang, Minimadig, Dhankhni Mang, Mang Mahashi, Madari, Garudi, Radhe Mang
47) Mang Garodi, Mang Garudi

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops–tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate :

Percentage of workers (main + marginal) to total population.

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years.

Sex -ratio :

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which

are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine andMethod of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging.This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid–year Population.}} \times 1{,}000$$

Crude death rate(CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid–year Population}} \times 1{,}000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1{,}000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1{,}000$$

General fertility rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age group (15-49) years}} \times 1{,}000$$

General marital fertility rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1{,}000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = 5 \times \frac{\sum_{15\text{-}19}^{45\text{-}49} ASFR}{1{,}000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = 5 \times \frac{\sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1{,}000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age group}} \times 1{,}000$$

q1 Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 Probability of dying between birth and age 2.

q5 Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early neo- natal mortality rate :

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late neo-natal mortality rate :

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

Post neo-natal mortality rate (PNMR) :

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1,000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Still birth rate (SBR) :

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100,000$$

Eligible couple (Couples per 1,000 population) :

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child woman ratio (0-4) :

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9) :

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population are classified as Class I UAs. /Towns. These Class I UAs. / Towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings – Population, its distribution

Brief Note on Census

Census taking is a massive operation carried out in a short span of time with the active participation of a veritable army of enumerators. The reference moment for the 2001 Census was the 00.00 hrs. March 1, 2001 i.e. the census provides a snapshot of the population of the country, as on 1st march 2001. Actual enumeration was spread over a period of 20 days from 9th February 2001 to 28 Feb.2001, followed by a rivisional round up to 5th March 2001 for updating of the population figures with reference to 00.00 hours of March 1, 2001. Household schedule having 23 questions regarding each and every person in the family is newly introduced in this Census. These questions are mainly self-explanatory and answers are in code language. Question No. 1 to 15 are related to general and socio-cultural characteristic individual. Question 16 to 20 is about economic activity of the person. Question 21 and 22 about migration and question no. 23 is for women, related to fertility. In addition one question is added in 2001 census which is related to household engaged in cultivation/plantation in part III.

As a prelude to the actual Census, the urban and rural areas were identified and listed out in respect of each administrative unit. The Director of Census Operations has prepared the list of urban area (which is generally referred to as town list) and simultaneously, a list of villages. These lists form the basic frame for the organization of the Census Operations. Thereafter geographical area that could be conveniently covered out to constitute the enumerator's block.

The next major step was the house listing Operation that was carried in the state during May-June 2000. Thereafter, in order to adhere to the prescribed workload norms, the actual Census enumeration's blocks were carefully demarked on the basis of the layout sketches and the notional maps prepared was also utilised to collect wealth of information on items such as predominant construction material used for houses, amenities available to the Census households, number of living rooms etc. Information regarding number of bedrooms in the household, if couples having separate room, availability of amenities like telephone, TV, Car/Scooter was asked first time in this Census. From this information we can have an idea of standard of living of the people in the country.

In Maharashtra, tahsil and the C.D.Block are co-terminus and therefore the data shown in tables on C.D.Blocks and the rural areas shown in the tables on tahsils are same.

Distribution of Population in Rural-Urban Areas

According to census 2001. The total population of district Jalgaon is 3,682,690. As against the population 3,187,634 persons in 1991 census for the district. Thus during 1991-2001 decade, there has bee an addition of 495,056 persons. The decadal growth ate is 15.5 percent. Within the district growth rate aries from one tahsil to another. Out if 15 tahsil of the district Jalgaon tahsil has the highest

growth rate of 37.4 percent whereas Chalisgaon tahsil has the lowest growth rate. Chopda, Muktainagar (Edlabad), Jalgaon and Jamner tahsils are above the district average, while the remaining Yawal, Raver, Bodvad, Bhusawal, Erandol, Dharangaon, Amalner, Parola, Bhadgaon, Chalisgaon and Pachora fall below the district average. The growth rate for the district and tahsils in total rural and urban areas and percentage of urban population to total population are given in the following table.

TABLE 1 : DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001						1991	2001
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban		
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Chopda	232,795	183,561	49,234	271,863	210,998	60,865	16.8	14.9	23.6	21.1	22.4
2	Yawal	225,751	175,688	50,063	248,596	193,099	55,497	10.1	9.9	10.9	22.2	22.3
3	Raver	250,521	208,927	41,594	285,236	239,911	45,325	13.9	14.8	9.0	16.6	15.9
4	Muktainagar (Edlabad)	115,323	115,323	0	137,753	137,753	0	19.4	19.4	0.0	0.0	0.0

TABLE 1 : DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001 (Contd.)

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001						1991	2001
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban		
1	2	3	4	5	6	7	8	9	10	11	12	13
5	Bodvad	70,854	70,854	0	79,126	79,126	0	11.7	11.7	0.0	0.0	0.0
6	Bhusawal	284,380	77,692	206,688	325,527	129,515	196,012	14.5	66.7	-5.2	72.7	60.2
7	Jalgaon	402,914	160,721	242,193	553,725	185,107	368,618	37.4	15.2	52.2	60.1	66.6
8	Erandol	133,488	105,758	27,730	148,114	117,994	30,120	11.0	11.6	8.6	20.8	20.3

District Total:		**3,187,634**	**2,312,965**	**874,669**	**3,682,690**	**2,629,896**	**1,052,794**	**15.5**	**13.7**	**20.4**	**27.4**	**28.6**

The average growth rate for the rural and urban areas of the district are 13.7 percent and 20.4 percent respectively. Bhusawal tahsil has registered the highest rural growth rate (66.7percent), while Amalner tahsil has the lowest growth rate of 3.7 percent. Rural growth rates are above the district rural average in 6 tahsils i.e, Chopda, Raver, Muktainagar, Bhusawal, Jalgaon and Jamner and below the district rural average in remaining 9 tahsils. In urban areas, the growth rate is above district urban average in 2 tahsils i.e Chopda and Jalgaon tahsil and below in the remaining 9 tahsils. The highest urban growth rate of 52.2 percent is registered by Jalgaon tahsil while Bhusawal tahsil has the lowest urban growth rate of (-5.2 percent). The proportion of urban to total population in Jalgaon district stands at 28.6 percent as against 27.4 percent in 1991 census indicating a very slow pace of urbanisation in the district.

TABLE 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Percentage in brackets.

Among the 1491 inhabited villages 44(3.0 percent) villages are small sized with a population below 200, 189 (12.7 percent) villages are in the size class 200-499, 419 (28.1 percent) villages are in the size class 500-999, 482 (32.3 percent) villages are in the size class 1000-1999, 271 (18.2 percent) villages are in the size class 2000-4999, 70 (4.7 percent) villages are in the size class 5000-9999 and the remaining 16

(1.1 percent) villages are in the size class of 10,000 and above. Villages with population, less than 200 inhabitants account for 3.0 percent of the total inhabited villages with 0.2 percent of the rural population of the district; villages with population 200-499 account for 12.7 percent of the total villages with 2.7 percent of the total rural population, villages in population size 500-999 are 28.1 percent of the total inhabited villages with 11.8 percent of the rural population; villages in population size 1000-1999 are 32.3 percent of the total inhabited villages with 25.7 percent of the rural population; villages in population size 2000-4999 are 18.2 percent of total villages with 30.3 percent of total rural population. Villages in size 5000-9999 are 4.7 percent of the total inhabited villages with 17.9 percent of the total rural population, and villages in size 10,000 and above are 1.1 percent of the total inhabited villages with 11.4 percent of the total rural population.

Among the 15 C.D.Blocks of the district the percentage of less than 200 population villages is the highest in Parola C.D Block (9.6 peercent) and lowest in Raver C.D Block (0.9 percent). The percentage of 200-499 population villages is the highest in Amalner C.D Block (19.9 percent) and lowest in Raver C.D Block (7.0 percent). The percentage of population size 500-999 villages is the highest in Amalner C.D Block (35.6 percent) and lowest in Yawal C.D Block (14.6 percent). The percentage of villages with population 1000-1999 is the highest in Erandol C.D Block (39.1 percent) and lowest in Amalner C.D Block (28.1 percent). The percentage of villages with 2000-4999 is the highest in Chalisgaon C.D Block (31.5 percent) and lowest in Dharangaon C.D Block (8.5 percent). The percentage of villages with population 5000-9999 is the highest in Yawal C.D Block (13.5 percent) and lowest in Parola C.D Block (0-9 percent). The percentage of villages with population 10,000 and above is the highest in Bhadgaon C.D.Block (3.2 percent) and lowest in Raver C.D.Block (0.9 percent). Dharangaon, Amalner, Parola and Chalisgaon C.D Blocks have no villages in this range.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town	
1	
(a) New	
(i) Statutory town -- Nil	
(ii) Census town -- Nil	
(b) Denotified	
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns	Nil
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria	Nil
(iii) Census towns of 1991 census are notified as statutory town in 2001 census	Nil
(c) Declassified	
1 Varangaon	
2 Fekari	
(d) Wholly merged with other town(s)	Nil

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

There is no new towns, no denotified, no declassified and no wholly merged town in 2001 census. There are only two declassified towns i.e, Varangaon and Fekari C.T. in the district.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	11	0.7	12,198	0.5
11-20	11	0.7	2,847	0.1
21-50	42	2.8	13,291	0.5
51-100	122	8.2	92,711	3.5
101-200	469	31.5	545,702	20.7
201-300	348	23.3	598,683	22.8
301-500	316	21.2	731,641	27.8
501 +	172	11.5	632,823	24.1
Not known	0	0.0	0	0.0
District Total:	**1,491**	**100.0**	**2,629,896**	**100.0**

Population Density (Rural) of the district: 248

The density of population in rural areas of Jalgaon district is 248 persons per square km.

The distribution of villages by density ranges indicates that those with medium densities in ranges 101 to 500 account for 76.0 percent of the total inhabited villages, while 22 villages constituting 1.4 percent of total inhabited villages have very low densities of less than 20 persons per square kilometer. 172 villages (11.5 percent) are having density range of 501 and above.

Table 5 :SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	978	1,003	862	975	975	977
1911	966	1,000	796	983	984	979
1921	950	994	776	971	978	948
1931	947	987	790	968	982	927
1941	949	989	810	970	982	938
1951	941	1,000	807	971	984	944
1961	936	995	801	957	968	920
1971	930	985	820	948	958	917
1981	937	987	850	950	957	929
1991	934	972	875	940	948	921
2001	922	960	873	933	938	920

Note: Sex ratio has been defined here as the number of females per 1000 males.

Table 5 shows the sex ratio for the district and the state. Census 2001 recorded a sex ratio of 933 females per 1000 males in the district. This is higher compared to the state average (922). The sex ratio in Jalgaon district has remained higher from 1911 to 2001 than the state sex ratio. In Census 1901 the sex ratio of the district was slightly lower than state average. As regards total areas, sex ratio at the state level declined by 56 points and at district level it declined by 42 points during the last 100 years. Similarly sex ratio for the rural areas of the state decreased by 43 points and for the district it decreased by 37 points during the decade 1901-2001. For the urban areas of the state, the sex ratio is increased by 11 points and for the district, it decreased by 57 points during the period 1901–2001.

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Chopda	948	954	926
2	Yawal	938	940	932

12	Bhadgaon	947	947	-
13	Chalisgaon	913	914	913
14	Pachora	938	940	928
15	Jamner	942	942	-
	District Total:	**933**	**938**	**920**

In Jalgaon district as a whole, there are 933 females per 1000 males. Within the district sex ratio varies from 911 in Jalgaon tahsil to 948 in Chopda tahsil. The rural areas in general have a higher proportion of females than urban areas. Jalgaon district also conforms to this pattern. The sex ratio figures for rural and urban areas of Jalgaon district are 938 and 920 respectively. In rural areas the highest sex ratio is in Chopda tahsil (954) and lowest in Chalisgaon and Bhusawal tahsils (914). Among 15 tahsils in the district. 10 tahsils have higher rural sex ratio than the districts rural average. They are Chopda (954), Yawal (940) Raver (944) Erandol (950), Dharangaon (943), Amalner (950), Parola (944), Bhadgaon (947), Pachora (940) and Jamner (942).

The sex ratio in urban areas also varies from one tahsil to another. The highest urban sex ratio is noted in Dharangaon tahsil (946), while the lowest sex ratio is shown by Jalgaon tahsil (905). In urban areas, 9 tahsils have sex ratio above the district urban average. These tahsils are Chopda (926), Yawal (932), Raver (935), Bhusawal (927), Erandol (935), Dharangaon (946), Amalner (926), Parola (932) and Pachora (928).

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Chopda	954
2	Yawal	940
3	Raver	944
4	Muktainagar (Edlabad)	937
5	Bodvad	937
6	Bhusawal	914
7	Jalgaon	922
8	Erandol	950
9	Dharangaon	943
10	Amalner	950
11	Parola	944
12	Bhadgaon	947
13	Chalisgaon	914
14	Pachora	940
15	Jamner	942
	District (Rural) Total:	**938**

The sex ratio in all the C.D Blocks except Muktainagar, Bodvad, Jalgaon, Bhusawal and Chalisgaon is above the district average sex ratio 938.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	11	0.7	12,671	0.5
700-749	7	0.5	11,670	0.4
750-799	21	1.4	19,181	0.7
800-849	51	3.4	58,798	2.2
850-899	188	12.6	261,406	9.9
900-949	492	33.0	1,175,099	44.7
950-999	470	31.5	879,725	33.5
1000-1099	219	14.7	197,621	7.5
1100+	32	2.1	13,725	0.5
District Total:	**1,491**	**100.0**	**2,629,896**	**100.0**

Sex ratio (Rural) for District: 938

A perusal of the table reveals that 492 villages constituting 33.0 percent of the total inhabited villages covering 44.7 percent of the total districts

rural population has a sex ratio in the range of 900-949, while 470 villages forming 31.5 percent of total inhabited villages and covering 33.5 percent of total district rural population have sex ratio in the range of 950 – 999, 219 villages constituting 14.7 percent of total inhabited villages and covering population of 197,621 (7.5 percent) of the total district rural population has a sex ratio in the range of 1000 – 1099. The sex ratio for 32 villages (2.1 percent) falls in the range of 1100 + and covers only 0.5 percent of district rural population.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A./Town	Urban status of town	Sex ratio
1	2	3	4
1	Amalner	MCI	926
2	Bhusawal UA	UA	929
	(a) Bhusawal	MCI	932
	(b) Kandari	CT	891

District(Urban) Total		**1,052,794**	**76,625**	**44,262**	**7.3**	**4.2**

In urban areas, the Scheduled Castes and Scheduled Tribes constitute 7.3 percent and 4.2 percent of the total urban population respectively. The percentage of Scheduled Castes population in towns Yawal (MCl), Nimbhore Budruk (CT), Bhusawal (MCl), Kandari (CT), Amalner (MCl), Chalisgaon (MCl) and Pachora is above the district urban average and below in Chopda, Faizpur, Savda, Raver (MCl), Jalgaon (MCl), Erandol (MC), Dharangaon (MCl) and Parola (MCl). Besides this Bhusawal urban Agglomeration has also 9.7 percent of Scheduled Castes population, which is above the district urban average. The highest percentage of Scheduled Castes population is found in Kandari Census Town (16.7 percent) and lowest in Faizpur (MCl) (3.8 percent). The percentage of Scheduled Tribes population is above the district average in 8 towns viz, Chopda (MCl), Faizpur (MCl), Savda (MCl), Raver (MCl), Kandari (CT), Jalgaon (MCl), Erandol (MC), Amalner (MCl) etc. The highest percentage of Scheduled Tribes is found in Nimbhore Budruk Census Town (9.4 percent) and lowest percentage of Scheduled Tribes is found in Raver (MCl) (1.9 percent), Bhusawal urban Agglomeration has a lower Scheduled Tribes population than the district urban average.

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

	Sex ratio (Urban) for the district:	**939**	**931**

The sex ratio among Scheduled Castes in urban areas stood at 939 in 2001. The sex ratio among Scheduled Caste in urban areas is above the district urban average in 10 towns. These towns are Yawal MCl., Faizpur MCl., Savda MCl., Raver MCl., Bhusawal MCl., Erandol MC., Dharangaon MCl., Amalner MCl., Parola MCl., Chalisgaon MCl. and Pachora MCl. respectively. The highest sex ratio among the Scheduled Castes is found in Savda (1021) MCl, and lowest in Nimbhore Budruk (Census Town) (806).

The sex ratio among the Scheduled Tribes population is above the districts urban average is in 9 towns viz Yawal MCl., Faizpur MCl., Savda MCl., Nimbhore Budruk Census Town, Bhusawal MCl., Kandari Census Town, Erandol MC., Dharangaon MCl., Parola MCl., and Pachora MCl., respecetively and below district average in remaining 6 towns. The sex ratio in 4 towns namely Faizpur (1015), Erandol (1039), Parola (1027), and Pachora (1023) is above one thousand.

For the district as a whole the literacy rates for males are substantially higher compared to females in both rural and urban areas. The general total literacy rate in the district is 75.4 percent. It is seen that the male literacy rate is 85.9 percent while female literacy rate is 64.3 percent in the district The tahsilwise break-up shows that the Bhusawal tahsil has the highest total literacy rate of 85.5 percent while Chopda tahsil has the lowest literacy rate of 68.6 percent. Male literacy rate is also high in Bhusawal tahsil (92.7 percent). Female literacy rate is also highest in Bhusawal tahsil (77.9 percent) and lowest in Jamner tahsil (56.0 percent). Four out of 15 tahsils viz., tahsil Yawal, tahsil Bhusawal, tahsil Jalgaon, tahsil Dharangaon have female literacy rate above district average (64.3 percent).

As regards rural areas of the district, the literacy rate is 72.1 percent for the district with male and female literacy rates of 84.0 percent and 59.6 percent respectively. Bhusawal tahsil has the highest literacy rate of 82.7 percent. In this tahsil 91.6 percent of males and 73.1 percent of females are literates.

There is significant difference in literacy rates between males and females in all the tahsils. Females are lagging behind males in literacy in all the tahsil, however the gap varies from tahsil to tahsil. The gap between male and female literacy rate is 24.4 percent for the district.

There has been no conceptual change in defining the workers between 1991 and 2001Census. At 2001 Census, there has been mainly a three fold classification of population namely main workers, marginal workers and non-workers, which was adopted for 1991 also. The main workers of 2001 are distributed in four categories of economic activities instead of nine industrial categories of economic activities in earlier Census 1991.

Table 31 shows that the distribution of main workers, marginal workers and non-workers for total male and females in 2001.

The work participation for total workers is defined as the percentage of total workers to total population. In a similar way it is defined for main and marginal workers, Census 2001 recorded 35.3 percent of the districts population as main workers, 7.2 percent as marginal workers and the remaining 57.5 percent as non-workers.

Among the 35.3 percent main workers, male participation rate in the district is 46.2 percent while that of female is 23.7 percent as per 2001 Census. Among the 7.2 percent marginal workers, the male participation rate is 5.1 percent, while female participation rate is 9.4 percent of their respective population. There are 57.5 percent non-workers in the district. Female non-workers are 67.0 percent as against 48.7 percent male non-workers.

Census 2001 recorded 38.8 percent of the district population as main workers, 8.7 percent as marginal workers and the remaining 52.5 percent as non-workers in the rural areas of the district. Among the main workers, male participation rate in the district is 47.0 percent and that of females is 30.2 percent. The proportion of main workers is highest in Muktainagar C.D Block (44.6 percent) and the lowest in Chalisgaon C.D Block (35.4 percent). The sex-wise breakup shows that among males and females 5.7 percent and 11.9 percent respectively are marginal workers. It is seen that the proportion of female marginal workers is substantially higher than that of males. The proportion of marginal worker is highest in Parola C.D. Block (13.9 percent) and lowest in Raver CD Block (5.5 percent) in the district.

The urban areas of the district recorded 26.5 percent of the total district population as main workers, 3.3 percent are marginal workers and 70.2 percent are non-workers.

The sex-wise break up shows that among males and females 44.1 percent and 7.2 percent of the population are main workers. The percentage of main workers is the highest in Savda town (33.1 percent) and lowest in Nimbhore Budruk (Census Town) (23.4 percent). The percentage of marginal workers is the highest in Parola MCl. (7.9 percent) and lowest is Savda MCl. (0.9 percent). The work participation rate for marginal workers in urban areas, for the males is 3.7 percent and for females it is 3.0 percent only.

Note: Percentage of Workers to total workers are given in brackets.

Table 34 indicates the distribution of male and female workers by four categories of economic activities for the district.

The relative importance of main spheres of economic activity may be gauged from the pattern of distribution of workers according to the broad four fold classification namely cultivators, agricultural labour, household industry workers and other workers. The economy of the district is primarily agricultural which is supported by fact that cultivators (24.1 percent) and agricultural labourers (46.7 percent) together constitute (70.8 percent) of the total workers of the districts. The agricultural sector has absorbed more than threeforth of the total workers in the districts. Tahsilwise distribution of workers in four categories of economic activities is given in table 34.

The proportion of both cultivators and agricultural labourers differ considerably from tahsil to tahsil. The proportion of cultivators varies between 35.4 percent for Parola tahsil and 10.9 percent for Jalgaon tahsil. The proportion of agricultural labourers varies between 60.3 percent for Raver tahsil and 23.7 percent for Bhusawal tahsil. Over 70.8 percent of workers in the district are directly engaged in agriculture, as cultivators and agriculture labourers, which is but natural in the district of the agricultural economy of the district.

It may be seen that 29.2 percent workers are engaged in work other than agriculture. Among them 2.4 percent are in household industry workers and remaining 26.8 percent are engaged in other workers.

Note: Percentage of workers to total workers are given in brackets.

The relative importance of the main sphere of economic activity may be gauged from the pattern of distribution of main workers according to the four fold classification namely Cultivators, Agricultural labourers, household industry workers and other economic activities.

The proportion of cultivators varies between 14.9 percent for Dharangaon MCl. and 0.2 percent for Kandari Census Town. The proportion for agricultural labourers varies between 43.2 percent for Yawal MCl. and 1.8 percent for Kandari Census Town.

The proportion of household industry workers varies between 6.0 percent for Faizpur MCl. and 1.2 percent for Kandari Census Town. The proportion of household industry for district is 3.4 percent.

The proportion of other workers varies between 96.8 percent for Kandari Census Town and 45.5 percent for Dharangaon MCl.. The districts urban average is 79.7 percent for other workers. The proportion of male workers is higher than female workers in all the 15 towns of the district.

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Education :

The educational amenity is available in 1,477 villages, which constitutes 99.1 percent of total 1,491 inhabited villages of the district. Muktainagar (Edlabad), Bodvad, Jalgaon, Dharangaon, Amalner, Bhadgaon and Chalisgaon C.D. Blocks have cent percent educational amenity. This is followed by Jamner (99.4 percent) and Raver with (99.1 percent) Pachora with (98.4 percent) Chopda and Parola with (98.2 percent), Bhusawal with (98.0 percent), Erandol with (96.9 percent), Yawal with (96.6 percent) educational amenity.

In 2001, 99.8 percent of rural population is served by the educational amenity in the district.

There are only 21 villages, which do not have primary school. Out of 21 villages not having educational amenity the students of 20 villages have to travel at least 5 km to reach a place with such amenity and for 1 village has amenity available at a distance between 5 to 10 kms.

As per the distribution of villages, according to distance range from nearest statutory town the educational amenity is available in 54 villages within less than 5 kms. 675 villages have the amenity at a distance range of 5–15 kms., 691 villages at a distance of 16–50 kms., and 57 villages at a distance of 51 and above kms.

Table 41 shows the distribution of villages according to population and amenities available in Census 2001. It has been observed of the 1,477 villages have educational amenity of these, 222 villages have population up to 499 (95.3 percent), 417 villages have population range from 500–999, 481 villages have population ranging 1000–1999, 271 villages have population ranging from 2000–4999 and remaining 86 villages have population ranging 5000 and above. The educational amenities are available within the revenue limits by their respective villages.

Medical :

Medical institutions of one or the other type are functioning in 934 (62.6 percent) villages out of 1,491 inhabited villages in the district, Jamner C.D. Block has reported the medical amenity for 154 (97.5 percent) villages which is higher than the remaining C.D. Blocks and the district average (62.6 percent), 99.3 percent of its population gets the benefit. These villages provide the amenity not only to the resident population concerned villages but to also those residing in surrounding villages. Generally these villages enjoy central location and are away from towns and trend to be large in population size.

557 villages out of 1,491 villages do not have any type of medical amenity in their respective village limit. 165 and 432 villages are situated at a distance of hardly 5 kilometers with reference to the nearest place with medical amenities as Hospital and Primary Health Centres. Another 459 and 645 are located at a distance of 5–10 kilometers for the same medical amenities. But in case of 852 and 340 villages, the residents have to cover more than 10 kilometers to a reach a place with these medical amenities.

It may be seen that big sized villages (500–10,000) are equipped with some kind of medical amenity within the villages, while small sized villages (below 500) barely have this amenity.

$ Transport communication includes bus service, rail facility and navigable waterways.

Drinking Water :

The improved drinking water is available in 1,438 villages constituting 96.4 percent of 1,491 villages. If the household has access to drinking water supplied from a tap or a hand pump or tube well situated within or outside the premises is considered as have a access to improved drinking water source.

Post Office :

As regards rural areas of the district as a whole, the amenity of post and telegraph is available to only

503 (33.7 percent) villages out of 1,491 inhabited villages serving 64.3 percent of rural population of the district within 15 C.D Blocks of the district the percentage of villages having amenity of post and telegraph varies considerably. Bhusawal C.D. Block with 43.1 percent villages with post office amenity has the highest proportion whereas Dharangaon C.D. Block with 26.6 percent holds the last rank.

Postal amenities are not available in 988 villages, out of these, 716 villages have to cover a distance of less than 5 kms.; 231 villages have to cover a distance between 5–10 kms.to avail the postal amenity. People of 41 villages have to cover a distance more than 10 kms. for availing postal amenity. Among the 503 villages with amenity of post office, 23 villages with less than 5 kms., distance range from the nearest statutory town, 238 villages with distance range of 5–15 kms., 227 villages with 16–50 kms., 15 villages with range of 51 and above kms. from nearest statutory town.

It has been observed that of the 503 villages having postal amenity, 4 villages have population up to 499, 30 villages with range of 500–999, 163 villages with a range of 1,000–1999, 223 villages with range of 2,000–4,999 and remaining 83 villages within population range of 5,000 and above are availing postal amenities.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col.2 - 4)

Telephone :

1,421 villages constituting 95.3 percent of the 1,491 inhabited villages in the district are enjoying the telephone amenity. 98.3 percent of the total rural population is located in these villages of the district. Parola C.D. Block has the highest 99.1 percent villages have the telephone amenity whereas the Chopda C.D. Block with the 85.7 percent have the telephone amenity.

Telephone amenity is not available in 70 villages. Out of these as many as 31 are situated at a distance of up to 5 kms., 22 villages have to cover a distance between 5 – 10 kms. to avail telephone amenity. People of 17 villages have to cover a distance of more than 10 kms. to get telephone amenity. Among the 1,421 villages with amenity of telephone 58 villages with a distance range of less than 5 kms., 651 villages with range of 16 – 50 kms.. 57 villages with range of 51 kms. and above from the nearest statutory town. Among the 1,421 villages with a amenity of telephone 194 villages are having less than 500 population range, 400 villages are in the size class of 500 - 999, 472 villages are in the size class of 1,000 – 1,999 and 269 villages are in the size class 2,000 – 4,999 and remaining 86 villages are in the range of 5,000 and above.

Transport communications

Transport communication includes bus service, rail amenity and navigable waterways. If a bus stop, or a railway station or navigable waterway is located within the territorial jurisdication of a village, it is considered to have been served by such amenity even if it is little away from the actual settlement. 1,428 (95.8 percent) villages have communication amenity available serving 99.0 percent of the rural population of the district. Amalner C.D. Block covers cent percent rural population with the communication amenity whereas Erandol C.D. Block covers 97.6 percent rural population with this amenity.

Out of 1,491 inhabited villages 63 villages do not have any communication amenity. Of these 63 villages the residents of 22 villages have to cover a distance upto 5 kilometers to reach a place with such amenity. For 32 villages it is between 5-10 kilometers and for 9 villages it is more than 10 kilometers. The availability of this amenity is depends upon the location

of the village with reference to road. Among the 1,491 villages which have the availability of communication amenity within their respective revenue limits, 189 villages fall in the range of less than 500, 403 villages fall in the range 500 – 999, 479 villages in the range of 1000 – 1999, 271 villages in the range of 2000 – 4999 and remaining 86 villages falls in the range of 5000 and above.

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Banking :

The amenity of banking services is available in 279(18.7 percent) villages, out of 1,491 inhabited villages serving 48.3 percent of total rural population of the district, 33 villages (28.9 percent) have banking amenity in Raver C.D. Block and 8 villages (15.7 percent) have banking amenity in Bodvad C.D Block.

Of the 1,387 and 1,228 villages without commercial co-operative amenity or commercial banks is the amenity is available within five kms. distance for 543 and 676 villages respectively. The commercial / co-operative bank amenity is available a distance of 5–10 kms. for 474 villages and 351 villages respectively, while for 370 villages and 201 villages it is available beyond 10 kms.

The banking amenity is available for one village with less than 500 population range, 52 villages with 500–1,999 range; 145 villages with 2,000–4,999 range; and remaining 81 villages with 5,000 and above range of population.

Agricultural Credit Societies :

There are 843 (56.5 percent) villages having agricultural credit societies in the district 78.1 percent of the rural population is concentrated in these villages. The highest proportion of villages i.e, 90 (57.0 percent) with agricultural credit society is found in Jamner C.D. Block and lowest i.e. 28 (54.9 percent) in Bhusawal C.D. Block. The rural population of Jamner C.D. Block is 237,510.

648 villages are not having the amenity of Agricultural credit society. Out of these 496 villages have the agriculture credit society amenity upto a distance of 5 kilometers, for 111 villages between 5 – 10 kilometers and for 41 villages it is available at more than 10 kilometers distance.

The population in 32 villages having agriculture society amenity is less than 500 population range; 154 villages with the agriculture society amenity have population in range 500–999, 335 villages in 1,000–1,999 population range, 307 villages 2,000–9,999 range of population and remaining 15 villages fall in the population range of 10,000 and above.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Approach by Pucca Road

Road whether 'Pucca or Kachcha' are the nerve system of a district. They act as pull factor for the development and upliftment of the areas. Roads with cement concrete, Black top, water bound macadam etc. come under pucca roads and the remaining are treated as kachcha roads.

Pucca road amenity is available to 1,376 villages (92.3 percent) out of 1491 inhabited villages in the district. Pachora, Chalisgaon and Jamner C.D. Blocks have pucca road amenity to 122, 134 and 137 villages respectively.

53 villages with pucca approach road are located at a distance of less than 5 kilometers to approach the nearest statutory town, 1,269 villages are at a distance from 5 to 50 kilometers and the remaining 54 villages at a distance from 51 and above kilometers from the nearest statutory town.

The population in 232 villages with pucca road is less than 500; in 897 villages population ranges from 500 – 1999; in 271 villages it is 2000 – 4999 and in 86 villages population is 5000 and above.

Power Supply :

There are 1,486 villages (99.7 percent) having power supply amenity in the district. Out of 15 C.D. Blocks, 11 C.D. Blocks have cent percent electric amenity.

Of the 1,486 villages having power supply 232 villages have population less than 500, 416 villages have population range 500–999; 481 villages with 1000–1999; 271 villages with 2000–4999; and remaining 86 villages with 5000 and above population range.

It may be summed up from the foregoing paragraphs that in respect of availability of different types of amenities considered, the larger villages have an advantage over the smaller ones. Population size and availability of amenities are directly associated with each other.

TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Chopda	112	73,919.90	80.4	16.7
2	Yawal	89	65,355.94	81.9	20.5
3	Raver	114	67,826.04	79.6	45.1
4	Muktainagar (Edlabad)	79	60,286.17	61.5	12.3
5	Bodvad	51	37,327.00	77.4	2.4
6	Bhusawal	51	42,306.02	73.2	10.6
7	Jalgaon	86	75,999.44	69.5	7.5
8	Erandol	64	47,316.98	78.5	27.4
9	Dharangaon	94	50,190.56	80.8	8.2
10	Amalner	146	75,055.76	81.8	9.1
11	Parola	114	77,411.35	70.8	14.4
12	Bhadgaon	63	48,643.98	75.2	16.7
13	Chalisgaon	143	128,148.10	68.6	8.6
14	Pachora	127	80,994.90	80.9	7.9
15	Jamner	158	129,811.30	75.0	5.5
	District Total:	**1,491**	**1,060,593.44**	**75.2**	**13.6**

Note : - Cultivable area = irrigated area + unirrigated area

For the district as a whole 75.2 percent of the total area is cultivated, while 81.9 percent of the total area in C.D. Block Yawal is cultivable, it is 81.8 percent in C.D. Block Amalner, 80.9 percent in C.D. Block Pachora, 80.8 percent in C.D. Block Dharangaon. Only 13.6 percent of the cultivated area of the district is irrigated. C.D. Block Raver (45.1 percent) has a highest proportion of the cultivated area under irrigation, followed by Erandol C.D. Block (27.4 percent), Yawal C.D. Block (20.5 percent), Chopda and Bhadgaon C.D. Block (16.7 prcent), Parola C.D. Block (14.4 percent) respectively. Remaining 9 C.D. Blocks have irrigated area below the district average (13.6 percent).

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

This table gives the distribution of households by tenure status and number of rooms occupied for total, rural and urban areas of the district. This tables also gives similar information for Scheduled Castes and Scheduled Tribes households of the district. According to Census 2001 there are 43,685 households having no exclusive room, 382310 households having one room, 201,567 households having two rooms, 68,055 households having three rooms and 34,446 households having 3 + rooms.

Regarding rural and urban areas of the district, there are 37,975 and 5,710 households respectively having no exclusive room, 301,829 and 80,481 households respectively having one room, 141,927 and 59,640 households having two roms, 39,078 and 28,977 households having three rooms and 15,085 and 19,361 households having 3 + rooms respectively.

Among the Scheduled Castes households, there are 5,725 households comprising 4,614 rural and 1,111

urban households having no exclusive room, 53,442 households comprising 41,279 rural and 12,163 urban having one room, 17,735 households having 11,839 rural and 5,896 urban having two rooms. There are 4,046 households comprising 1,888 rural and 2,158 urban having three rooms and 1,511 households comprising 592 rural and 919 urban having above three rooms reapectively.

Within Scheduled Tribes households, there are 9,295 households comprising 8,711 rural and 584 urban households having no exclusive room, 74,057 households comprising 65,967 rural and 8090 urban households have one room, 19,104 households comprising 15,166 rural and 3938 urban households having two rooms 3,524 households comprising 2,142 rural and 1,382 urban households having three rooms, 1,293 households comprising 738 rural and 555 urban households having above three rooms respectively.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Bathroom means bathroom within the house

Toilet means toilet within the house

Drainage means closed and open drainage

This table gives the classification of households having improved drinking water source, electricity, bathroom, toilet and drainage amenity available in district. According to 2001 Census the amenity of improved drinking water is available for 679,912 households constituting 93.1 percent of the total households. In rural and urban areas of the district, this amenity is available for 492836 households (92.0 percent) and 187,076 households (96.3 percent) respectively. The amenity of electricity is being enjoyed by 579,129 households (79.3 percent). In rural and urban areas of the district this amenity is being enjoyed by 399,964 households (74.6 percent) and 179,165 households (92.3 percent) respectively. The amenity of bathroom is available in 495,249 households (67.8 percent). For rural and urban areas this amenity is available for 333,788 households (62.3 percent) and 161,461 households constituting 83.2 percent respectively. Regarding the amenity of toilet 194,517 households have this amenity, which constitutes for 26.6 percent of the total households in the district. In rural and urban areas, toilet amenity is available for 89,881 households (16.8 percent) and 104,636 households (53.9 percent) respectively. The amenity of drainage is available for 549,709 households (75.3 percent). For rural and urban areas, drainage amenity is available for 383,387 households (71.5 percent) and 166,322 households (85.7 percent) respectively.

Percentage in brackets.
Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 51 gives the number and percent of households by type of fuel used for cooking in rural and urban areas.

Of the 730,063 households, 417,308 (57.2 percent) households use firewood for cooking, 54,469 households use crop residue (7.5 percent), 3823 households use cowdung cake, 617 use electricity, 206,454 households (28.3 percent) use cooking gas, 2,128 households use bio-gas, 41,953 households (5.7 percent) use kerosene and 841 households use other means. 1,701 households (0.2 percent) reported no cooking in the district.

In the rural areas, 374,980 households constituting 70.0 percent of the total households use firewood for cooking. This is followed by use of crop residue (9.3 percent), cowdung cake (0.5 percent) cooking gas (17.0 percent), kerosene (2.5 pecent) bio-gas (0.3 percent).

In the urban areas 59.5 percent households use cooking gas followed by firewood (21.8 percent), kerosene (14.6 percent), crop residue (2.5 percent).

It may be seen that while firewood continues to be the predominant fuel used in rural areas, it is the cooking gas in urban areas.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 52 gives the number of households availing banking services and number of households each of the specified assets in Census 2001.

There are 730,063 households, of which 535,894 are rural and 194,169 are urban. Of these, banking amenities are being availed by 279,447 households, of which 185,935 households are rural and 93,512 are urban. It may be seen that a higher proportion of households in urban areas (48.2 percent) of total urban households avail of the banking amenity compared to the rural areas (34.7 percent) of the total rural households. This is despite the fact 4 out of 15 tahsils namely Muktainagar, Bodvad, Bhadgaon and Jamner tahsils are totally rural tahsil.

In the district, 196,528 households have radio transistor, 289,624 households have television, 56,691 households have telephone, 196,037 households have bicycle, 81,629 households possess scooter, 11,863 households possess car, jeep or van. It may be noticed that from the information available in the table, that a higher proportion of households in the urban areas possess these specified assets.

Of the 730,063 households 334,217 households possess none of the above-specified assets.

(viii) Major Social and Cultural events, Natural and Administrative developments and significant activities during the decade.

Two new Taluka's Bodwad and Dharangaon has been created from 26th June 1999,in the district. Asper Government notification No.REN 3299/C.R.60/M-10 dated 25th May 1999, after reorganise the Taluka Bhusawal to constitute an additional new Taluka known as Bodwad with its headquarters at Bodwad. And asper Government notification No.REN.3299/ C.R.79/M-10 dated 23rd June 1999, after reorganise the Talukas of Erandol and Amalner to constitute an additional new Taluka known as Dharangaon with its headquarters at Dharangaon in Jalgaon district with effect from 26th June 1999.

(ix) Brief description of places of Religious, Historical or Archeological importance in the villages and Places of Tourist interest in the towns of the district.

A large number of fairs are held in the district are associated with important deities and religious festivals. So far as trade is concerned, fairs are complementary to the weekly markets. In the fairs the traders and shopkeepers set up temporary stalls. Large quantities of agricultural produce and other

articles of daily use are brought for sale. There are four fairs, which are very famous in the district.

Shri Rama Rathotsava Fair

The fair is held at Jalgaon, the district headquarters, which is 420 kms. to the north –east of Bombay on the Central railway. This fair is associated with an ancient temple belonging to Peshwa period. Excepting the shrine of the temple (gabhara), the other parts of the temple including the auditorium and the seating room were built about 70-80 years ago by one appa Maharaj, a devotee of Rama, with the financial help of his disciples. The annual festival begins on Kartika Sud.1. On the day, the images of Rama, Laxman and Sita are carried in a palanquin to the Girnar River for bath. After bath the images duly decorated with ornaments and garlands are seated on a wooden horse and carried in procession through different parts of the town and brought back. The persons visiting the temple on the festival days are mostly from Jalgaon and nearby villages. More than 25,000 people visit the temple during the days of the fair.

Navaratra – Mahalaxmi Fair

The Mahalaxmi temple in Bhawani Peth, where the fair is held, is in the heart of Jalgaon town. The fair is held for 10 days from Ashvina Sud..1 to Ashvina Sud.10. However, Ashvina Sud 8 and Ashvina Sud 10, the Dassara day, are the principal days of the fair. The temple is a storeyed stone building with a 'Kalas' at the top. On all the four sides, brass bars have been fitted instead of walls to allow sufficient light to enter the temple. In front of the temple, there is a spacious auditorium. The back of the deity's throne is plated with silver sheets 4' x 4' in size bearing fine engravings. At the back of the Goddess there is a pindi of Lord Shiva and an image of Ganapati and in the rear is installed an idol of God Hanuman 31/2' high facing the west. It is said that about 90-100 years back this part of the area was full of thick forest and without any habitation. People from nearby places used to visit the place for offering homage to the deity. The total congregation during the period of the fair is about twenty-five thousand. People come to pay homage to the deity in large number on every Tuesday and Friday.

Changdeo Fair

It is the place where the well-known sage Markandeya is believed to have practiced penance. In the "Tapi Mahatmya' in 'Skand Puran' it is referred to as 'Sundar Kshetra Bhiganapur'. Changdeo temple is about 6kms. in the north-west of Edlabad, the tahsil headquarters. The temple is a storeyed building of stone 125' x 50'. It is carved in a rock and inside and outside there are superb patterns of ancient Hemadpanti architecute. In the shrine there is a stone idol of Changdeo besmeared with red lead. Changdeo is believed to have practiced penance for 1400 years, in the open spaces at the spot of Changvateshwar. Changdeo is known s the 14th Indra. The annual fair is held from Magha Vad. 13 to Magha Vad. 30 (Amavasya) after the Muktabai fair is over when the pilgrims move to Changdeo. The total number of pilgrims is about 80,000. They are mostly from peasants and majority of them are from Vidarbha region of the State.

Muktabai Fair at Kothali

The fair is held at village Kothali in Edlabad tahsil. The village is at a distance of about 2 kms. from the bus-stand of Edlabad. The annual fair of Muktabai is held on Magha Vad. 10 to Magha Vad. 12. There is monthly vari on every 11th day in the dark half of Hindu months in the year beginning from Vaishakha Vad. 11 on which day Muktabai is believed to have departed from this world. The premises of the shrine of Muktabai is 250' x 25' with a central platform of 50' x 20' whereon stands the shrine of Muktabai measuring 10' x 10'. The image of Muktabai made of marble stone stands facing the east with images of Vithal and Rukmini made of sand stone by the side. The temple of Muktabai is said to have been built about 700 years back. During the three days (Magha Vad. 10 to Magha Vad..12) of the annual fair about fifty thousand pilgrims visit the temple. The majority of the pilgrims are from the districts of Vidarbha and some of them are from Bombay and Pune. The pilgrims are mostly from amongst the husbandmen and labourers and belonging to the Varkari cult.

Places of Historical and Tourist importance

Forts, old temples and picnic points in a district play an important role in shaping the socio-economic

pattern of the district. The district is bounded by the Satpuda ranges, a mountain tract 64 kms. wide. On the north-easstern side, the territories of the Madhya Pradesh State bound the district. Jalgaon includes varied topographical features and landscapes, consisting of wild hills and forests, rich gardens and groves, stretches of barren plain, low rolling rocky hills and tensely gullied (bad land) topography near major river banks.

Pandava's Vada

Pandava's Vada, a ruined stone building, is the most remarkable building in the centre of the Erandol town. It forms a large quadrangle, surrounded by a wall, a great part of which has a succession of windows with stone lattice work of various patterns. The sides of the central shrine are arched recesses surrounded by beautiful and varied scroll work, with the crescent and star on the top of each. Above one such arch are the remains of a beautiful Persian inscription.

Bhokari

Bhokari is in Raver tahil. It is about 3 kms. east of Raver and has a well preserved temple of Omkareshwar, with an inscription bearing the date Sak 1199 (1277 A.D.). There is also on the banks of the Bhokari a rest house recently repaired nd saud to have been built by Ahilya Bai Holkar (1800).

Farkande

It is about 9 kms. to the south-west of Erandol and has a mosque built about 230 years ago by one Chand Mohim, with two minarets said to be so sensitive that when one is shaken the other moves.

Forts

There is a land fort at Parola, which many tourists used to visit. Beside this Amalner fort is one of the chief forts in Khandesh. It was described as 200 feet square surrounded on three sides by the town and on the fourth washed by the river Bori. In Patan and Waghali villages in Chalisgaon tahsil there are old Hemadpanti temples. Apart from this fort, 8 kolimetres from Jamner has an underground temple of Mahadeo. The villagers' still worship the ling.

Jalgaon

It is said that Jalgaon is the main gate to caves of Ajanta, the famous caves all over the world. The tourists from abroad are coming to see them. The Ajanta caves are 55 kms. away from Jalgaon. In addition, there is a permanent Government Agricultural Reseach Station at Jalgaon where botanical research on cotton, groundnut and agronomical research are carried out.

(x) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district

Jalgaon district is endowed with three major economic resurces, viz. agricultural land, industry and trade and commerce. The district is famous for its banana and cotton plantation in Maharashtra. The bananas have a typical taste and are of good quality and have a great demand from every corner of Maharashtra. Cotton is the most important commodity exported from the district.

In addition to banana plantations, the main food crops of the district are jowar, bajri, wheat, ragi and maize. Among non-food crops, cotton is important among fibres, groundnut and sesame among oilseeds and tobacco and betel leaves among others. Jalgaon district does not possess coal, iron or such other mineral deposits which could be mined commercially. There are some factories manufacturing crackers in Jalgaon district. The factories are seasonal and production reaches its peak on such occasions as Diwali and other religious festivities. There are also three factories including an ordnance factory and a workshop of the central railway engaged in engineering works.

Jalgaon is the main gate to see the world famous caves of Ajantha. It is away only 55 kilometres from Jalgaon town. Many tourists from abroad come via Jalgaon. There are still old monuments seen in many villages. Moving towers are very famous at Farkande. Jalgaon is main railway junction. The district is linked with important cities like Bombay, Delhi, Calcutta, Nagpur and Allahabad.

Marathi is the local language of the district. The staple food of practically all sectors of the population is bread made from Jowar. Wheat and rice also occupy a considerable proportion of daily diet. A spicy 'Kadhi' i.e. buttermilk boiled with salt and spices is a favourite dish of all Khandeshis and forms part of the menu almost every day. People of Jalgaon only

on festive occasions or in some cases, once in a week may take meat diet. Pola, Dasara, Diwali, Holi, Ramnavami, Hanuman Jayanti, Ganesh Utsav, Muharram and Akshaya Tritiya are the religious festivals observed by the people amongst them 'Pola' festival is specially observed by the village folk.

The district has given many "Sant". Authors, poets, historical researchers, lecturers, stage performers, sculptors and artist to the nation. The well known Sant Dnyaneshwar, Pandduras Deo alias Sakharam Maharaj, The great poetess Bahinabai Chouddhary and her son Sopandeo, The great famous poet 'Balkavi', Trimbak Bapuji Thombare are from Jalgaon district. Pandurang Sadashiv Sane alias, Sane Guruji stayed in Jalgaon district.

(xi) Scope of Village Directory and Town Directory

Information on this aspect is furnished in detail in the village and town directory statements and in a consolidated form in the appendix and also in the tables presented. The non-census information collected at the village level or town level by the Tahsildar / chief officer was scrutinized and verified in each district by the district planning officer / district statistical officer. The Collectors were also requested to once again reverify the data in case serious discrepancies were observed. Logical tests were applied to the data and the officials of this directorate visited the districts to revalidate the data. Besides this, the non-census information was cross-checked with the parent department. For example information on electricity was cross checked with Maharashtra State Electricity Board, that on roads with Public Works Department, on health with the Directorate of Health and so on.

Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village.

The Village Directory format has 23 columns and the details given under each column for the village are as follows:-

Column 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical,

drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X are included in secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

This column provides data available on medical amenities in the village.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

Column 8 gives information regarding availability of drinking water within the village. In case more than one source is available to the village the same has been indicated.

Column 9 : Post, Telegraph and Telephone

Column 9 provides the postal facilities such as post office, telegraph office, post and telegraph office and telephone connections available in the village.

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc., the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given.

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given.

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded.

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable waterway, the same has been indicated in this column.

Column 14 : Approach to village

Approach to village refers to the state of road leading to village.

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

This column relates availability of Power Supply in the village.

Column 17 : News Paper / Magazine

If a village receives any News Paper/Magazines the same is noted in this column.

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23: Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Unirrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) upto one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department.

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / Non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B List of villages according to the proportion of the Scheduled Tribes to the total Population by ranges.

Town Directory :

The town directory is presented for each town covering different aspects of urban life. In 2001 Census, Statement I – VII have been included for presentation of this data. The data contained in these statements are the area, population in 2001 and past Censuses, growth rates, density, sex ratio, physical aspects of towns, communications, municipal finance, civic, medical, and educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutory notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns the Tahsildar and cantonment executive officers supplied the information.

Statement I-Status and Growth History

Statement I shows the status and growth history of the towns in the district, column 2 in this statement indicates class, name and civic administration status of a town. Class of the town indicated under this column has been introduced to facilitate the analysis of town directory data at the State and National level. Census towns have no urban civic status.

Column 3 indicates location code number of the town, column 4 gives name of tahsil and column 5 shows the name of C.D.Block. Column 6 presents area in Sq. Kms., Column 7 presents number of households including houseless households.

Column 8 to 18 gives population and growth rate of town since 1901 and would help in drawing the trends in their growth rate, Column 19 presents density and Column 20 to 22 presents sex ratio.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV-Civic and other Amenities, 1999

Statement IV provides information on the civic and other amenities available in the town. Total population given under column 3 and Schedule Castes/ Scheduled Tribes population given in column 4 and 5 have been added to help in measuring amenities in respect of population size of the weaker sections in the towns. The information on the road length within the town shown under column 6 has been obtained from Municipality.

Column 7 to 12 reflects the information on system of sewerage, number of latrines, and method of disposal of night soil.

Column 13 indicates sources of protected water supply to the inhabitants of the towns. The information on storage and capacity is shown under column 14.

Column 15 gives information regarding availability of fire fighting services. In case it is not available in the referent town, the name of the nearest place where it is available has been mentioned and the distance from the town has also been indicated within brackets. Column 16 to 20 pertains to the number of electricity supply connections available for domestic, industrial, commercial and road lighting points etc.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 and 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, are treated as independent units.

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc.

Column 6 to 9 :

The information on educational facilities is reflected in columns 6 to 9

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

Schools upto class IV are treated as Primary or Elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University/Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like Middle schools with Primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P (4), M (3).

Column 15: Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostels if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational and cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded.

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : **Number of Agricultural Credit Societies and Non-Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non-Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area committee etc.

PART A
VILLAGE AND TOWN DIRECTORY

Section I - Village Directory

(a)Note Explaining the abbreviations used in Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X are included in secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12:Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable waterway they are mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If a village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) upto one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE

(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A The appendix shows the list of villages according to proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B The appendix shows the list of villages according to proportion of the Scheduled Tribes to the total population by ranges.

(b) List of Villages fully merged in towns and outgrowth at 2001 Census

Serial Number	Name of Villages	Location Code No. 1991	Merged in towns and Outgrowths
1	2	3	4

No Village is merged in town hence no outgrowth at 2001 Census

Section II - Town Directory

(a) Note Explaining the abbreviations used in Town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows:

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board / Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate Office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Other columns need no comments

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) and others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 and 5 : Medical

The data covers all such medical institutions run by or aided by Government / Semi Government / Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family

planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres are treated as independent units and counted separately using following codes:

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution(s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

Column 6 to 9 :Educational

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocation institutions like - Applied Art / Painting college, Pharmacy college, B.Ed. college, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :Higher Secondary / Intermediate/ Senior Secondary /PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

Schools upto class IV are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class IV and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like middle schools withs primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats.

The number of working women's hostels if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of the nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities.

Stadium, Cinema, Auditorium / Drama / Community Hall are covered under recreational and cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading Room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies.

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area Committee etc.

There is no outgrowth in this district; hence the information is ‘ Nil ’.

PART B
PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the

quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE - II

Fertility and Mortality, 1991 Census

Fertility Levels :

Fertility is a major component of population growth. In the 1991 Census questions on fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year were asked. The first three questions were asked to all ever married women and last questions related to currently married women. The measures of fertility worked out are based on the F- series of 1991 Census pertaining to Maharashtra State.

Mortality Levels

Information on the question on children ever born and children surviving canvassed for all ever-married women have been tabulated by age of the mother. From this estimates of the child mortality have been worked out by using brass technique.

ANNEXURE II (i)
Estimates of Child Mortality, 1991

Item		Jalgaon District Total	Maharashtra State Total
1	2	3	4
Q1	P	71	74
	M	72	72
	F	70	76
Q2	P	74	79
	M	78	78
	F	76	81
Q3	P	79	86
	M	79	84
	F	79	89
Q5	P	84	91
	M	81	89
	F	88	93

The estimates of child mortality in 1991 of q(1), q(2), q(3) and q(5) it is observed that child mortality in the state is higher compared to the district.

ANNEXURE II (ii)
Estimate of Fertility Indicators at district level, Maharashtra,1981 And 1991

Fertility Measures	Jalgaon District 1981	Jalgaon District 1991	Maharashtra State 1981	Maharashtra State 1991
1	2	3	4	5
GFR	149	130	134	124
GMFR	180	158	168	157
TFR	4.8	3.9	4.3	3.7
TMFR	5.5	5.0	5.2	5.2
Crude Birth Rate (CBR)	39.7	29.9	31.8	29.8
No. of children ever born per women in the age group 45-49	--	4.6	--	4.2
Mean Age at Marriage	--	17.4	--	17.9
Child Women Ratio	--	51.4	--	49.6

Fertility

As perusal of the various fertility measures namely GFR (General Fertility Rates), GMFR (General Marital Fertility Rate), TFR (Total Fertility Rate), TMFR (Total Marital Fertility Rate), CBR (Crudes Birth Rate) for the district Vis-à-vis State reveals higher rates for the district as compared to State as a whole. In 1981, the GFR, GMFR, TFR, TMFR and CBR were 149, 180, 4.8, 5.5 and 34.7 respectively as compared with State average of 134, 168, 4.3, 5.2, and 31.8 in 1981. Similar trend is observed in 1991 Census. In 1991 GFR, GMFR, TFR, TMFR & CBR were 130, 158, 3.9, 5.0, and 29.9 respectively for the district Jalgaon as against the State average of 124, 157, 3.7, 5.2, and 29.8 respectively.

Different fertility measures except TMFR of 1991 reveal a higher level of fertility in the district compared to the state average. Child woman ratio in the district is also higher compared to the State average. But the gap in fertility rates between the district and the State has reduced in 1991, as compared to 1981 Census.

Mean age at marriage

Mean age at marriage continuous to be lower for the district than the State in 1991 Census.

Child Woman Ratio

The child woman ratio is found more in the district compared to the state.

1	**Migrants by place of birth**				
	2001 Census	3,682,690	1,588,393	564,408	1,023,985
			43.1	15.3	27.8
	1991 Census	3,187,634	1,346,688	464,282	882,406
			42.2	14.6	27.7
2	**Migrants by place of last residence**				
	2001 Census	3,682,690	1,631,670	584,842	1,046,828
			44.3	15.9	28.4
	1991 Census	3,187,634	1,370,728	472,432	898,296
			43.0	14.8	28.2

There are 1,588,393 (43.1 per cent) migrants by place of birth comprising 564,408 (15.3 per cent) males and 1,023,985 (27.8 per cent) females to total population in 2001. Similarly 1,631,670 (44.3 per cent) migrants by place of last residence comprising 584,842 (15.9 per cent) males and 1,046,828 (28.4 per cent) females to total population are found in Jalgaon district.

It may be seen that the percentage of migrants by place of birth has marginally increased in Jalgaon district during the decade 1991-2001. This observation holds good only for both males and females. Similar trend can be seen for the migrants by place of last residence.

ANNEXURE

Percentage distribution of migrants

Note: # The 1991 Census could not be conducted in 33 villages of Akkalkuwa and Akrani C.D. Blocks of Dhule District. The population of these villages (Persons 16,052 Male 8,200 and Females 7,852) has been obtained from secondary sources and included in the population of district and Maharashtra. However, further details are not available.

Source : Table C-2 of Part IV-A, C-Series, Socio-Cultural Tables, 1991 Census.

When compared to 1991 data, it is found that during the last decade the literacy rate of the state has jumped from 64.9 per cent to 76.9 per cent. While during the same period the districts literacy rate has increased from 64.3 per cent to 75.4 per cent.

8	Sindhi	0.7	0.0	2.4	2.1	97.9
9	Urdu	7.5	4.4	15.4	43.3	56.7
	Total of other Mother tongues	1.8	2.0	1.4	78.5	21.5
	All Mother tongues	**100.0**	**100.0**	**100.0**	**72.6**	**27.4**

Source : Table 31 of Maharashtra State District Profile, 1991.

Marathi is the main language of the district and is the mother tongue of 61.9 per cent of the district population. In rural areas Marathi speakers account for 61.0 per cent whereas in urban areas 64.3 per cent. Ahirani is the second largest language spoken in the district. It accounts for 15.8 per cent of the total population. The proportion of Ahirani speakers is higher in rural areas (20.3 per cent) than the urban areas (4.6 per cent). The third largest language spoken in the district is Urdu, its percentage to the total population is 7.9 and mainly spoken in urban areas by 16.0 per cent, whereas it is 4.6 per cent in rural areas.

The speakers of the minority languages viz., Banjari, Bhili/Bhilodi and Tadavi are mainly concentrated in rural areas and the remaining three languages (Hindi, Marwari and Sindhi) are concentrated in urban areas of the district.

It is found that during the last decade proportion of Marathi speaking persons has decreased from 76.6 per cent to 61.9 per cent whereas Ahirani speakers proportion has increased from 6.0 per cent to 15.8 per cent.
