Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and collage),

medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri Samir Kumar Biswas, Director of Census Operations, Maharashtra. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective State Governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated: 17.10.2006

Preface

The Registrar General and Census Commissioner of India has in his foreword to this series of publications, not only provided the reader with the historical background of the District Census Handbooks but has also explained at some length the scope and coverage envisaged for this country-wide project. This volume contains the salient results based on the data gathered at the actual head-count and in addition contain a wealth of other non-census information in respect of Villages and Towns of the District. It is hoped that this volume would go a long way to meet the ever-increasing demand for the micro-level data in this era-planned development.

District Census Handbook of Maharashtra is a joint venture of the Government of Maharashtra and the Census Organization of the Government of India. The design for the 2001 District Census Handbook was evolved centrally by the Census Commissioner, India. In the preparation of the District Census Handbook, the role played by the Census Organization is that of data gatherer. In accomplishing this task we have had the ready and whole-hearted co-operation of the staff at various levels of different departments of the State Government. Much of the data so provided by this field –level officers have been cross checked with the data obtained from various departments and an attempt has been made to reconcile the discrepencies as well. The Village Directory data in addition were also examined logically and possible errors list generated village wise for select facilities was rechecked and revalidated with the revenue officers in the respective collectorate.

I am extremely grateful to Shri D.K. Sikri, Additional Secretary and Registrar General, India for his guidance in bringing out this publication. I am equally grateful to Shri J. K. Banthia, I.A.S. the former Registrar General and Census Commissioner, India for his constant inspiration, help and guidance at every stage.

I also express my thanks to Dr. R.P. Singh, Dy. Registrar General, India (Map), Shri R.G. Mitra, Dy. Registrar General, India (Census Division), Dr. I.C. Agrawal, Assistant Registrar General (SS Division), Shri S.L. Jain Deputy Director (SS Division), Shri C.S. Arora, Director (EDP), Shri Himakar, Additional Director (EDP), Shri M.R. Balakrishnan, Joint Director (EDP), Shri Anil Kumar, Deputy Director (EDP) and their colleagues for their co-operation and support in bringing out this volume.

Shri Samir Kumar Biswas, IAS held the office of Director of Census Operations, Maharashtra and guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the direction and guidance of Shri Biswas. We would deem it our duty; therefore, to offer him our sincere and grateful thanks for all that he did for this project.

In this Directorate, Shri R.S. Meena, Joint Director guided this project in a meticulous manner and received all help from Dr. S.S. Hiremath, Deputy Director. The DCHB unit was spearheaded by Smt. Sushma Monga, Assistant Director, who was on deputation from the Planning Commission, New Delhi.

The physical features have been concurred by the Map section, after incorporating necessary changes, wherever required. The Maps, inserted are prepared by the Cartography section under the guidance of Shri D.N. Chaurasia, R.O.

I take this opportunity to offer my grateful thanks to all officials in various grades who have been actively involved in voluminous work of compilation and preparation of this volume. The list of the officials of this Directorate closely associated with this work is given separately.

Definition of Census Town:

All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns:

i) A minimum population of 5,000;
ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and
iii) A density of population of at least 400 per square kilometres (1,000 per square mile).

		Urban	5.8	15,851	0	0
	Udgir (M Cl)	Urban	5.8	15,851	0	0

Note : Since the source for the total area figures in respect of the State and districts is the Surveyor General while that for the total area figures in respect of the tahsils is the Settlement Commissioner and Director of State Land Records Department the total areas, as also the rural areas, for the tahsils in district, may not add upto the corresponding figures shown against the district.

The population per square kilometres workedout from actual area figure upto 2 decimal point and then area presented in 1 decimal point.

M Cl stands for Municipal Council.

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of District Census Handbook

The origin of DCHB lay in the 1951 Census when it began as a joint venture between the Government of India and the State Government. The present volume pertaining to 2001 Census is sixth in series since then. The District Census Handbook (DCHB) is a unique publication from the Census Organization that, in a condensed form, gives details of the Census and non-Census information from the village level upwards to the district level. It has therefore, been acclaimed & recognized as one of the best source of information next only to the district gazetteer.

The District Census Handbook as published in 1951 incorporated, some basic demographic and economic information of the district, village wise and town wise separately, besides having some important Census Tables. However, it underwent a radical change in the 1961 Census as a much more descriptive account of the district and a lot of non-census information on climate, rainfall, agriculture, industry, education, etc. was added to it besides a number of cross tables being picked up from various series of Census tables. In 1971 the District Census Handbook was divided into Part - A relating to Village and Town Directory, Part - B containing village and town wise Primary Census Abstract and Part - C reported on the administrative aspect and Census tables based on Primary Census Abstract etc. For the state of Maharashtra only Part A and B were published. The 1981 Census again saw the scope of it increasing to contain the data on literacy rate, Primary Health Centers etc. It was published as part A and B and the same pattern was again followed in 1991. However, in 1991 some of the non-census data included information on girls schools, social forestry area etc. as separate Appendices. The DCHB, 2001 Census have been made more informative and exhaustive in terms of coverage and content. The scope of village directory has been broadened by including more types of facilities such as bank, recreational and cultural facilities, newspapers and magazines available in villages. Information on most important commodity manufactured in village and also income and expenditure of Gram Panchayat, wherever possible are provided. Specific details on distances, in case a basic amenity is not available in the referent village is also given. These include distances in respect of availability of primary and middle school and college (in respect of the educational facility), Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre (in respect of the medical facility), Drinking water, Post Office and Phone, Communication, Bank, Credit societies and Recreational facilities. The Non-Census information collected at the village level or town level by the Tahsildar/ Chief officer was scrutinized and verified in each district by the District Planning Officer and District Statistical Officer. The Collectorate were also requested to once again verify this in case serious discrepancies were observed. Logical checks were applied to the data and the scrutiny points which emerged after this exercise were further verified in the field by officials of this Directorate. With reference to the town concerned, the nearest city with 5 lakh and above population has also been given in addition to 1 lakh and above population. The non-census information was cross-checked with parent department also. For example, information on electricity was cross-checked with Maharashtra State Electricity Board, that on roads with Public Works Department, on health with the Directorate of health and so on. It is felt that because of this extra validation, information provided in the 2001 District Census Handbook should become more reliable and can be used without any hitch by Scholars and Planners alike.In town directory, information on all types of slums, whether notified/recognised by the respective town authority or not and in respect of all statutory towns irrespective of their class as against only Class I and Class II towns of the 1981 and 1991

Censuses are provided. The varied basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. A number of tables based on Primary Census Abstract are also made to correlate data with geography of the tahsils A significant addition in the publication is inclusion of analytical notes as annexures on important aspects concerning Census data on (i) fertility, mortality and migration, (ii) various measures of fertility and mean age at marriage, (iii) percentage distribution of migrants by place of birth/place of last residence, (iv) main religions, (v) marital status of population, (vi) age, sex and education, and (vii) distribution of different mother tongue, all based on 1991 Census. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The Village and Town Directory as also the Primary Census Abstract included in this Handbook should quench the thirst of the planners involved in micro level planning.

(ii) Brief History of The District

Latur district lies to the South-East of Maharashtra on the border of Maharashtra and Karnataka. It was a part of Osmanabad district till 15th August 1982. Latur, the headquarters of the district is an ancient town and the home of Ratta or Rashtrakutas. The Rashtrakuta king Amoghvarsa I is described as the Lord of Lattalura i.e. the best of town (Lattalurappuravaradhisa). The Rattas of Saudatti declare in their records that they had emigrated from the town of Lattaalura. The Rashtrakuta seem to have originally belonged to this place.

Reference to this district since Puranas, Epics, Ramayana and Mahabharata suggest that it was situated in the Deccan, known as Dandakaranya. In the historical times, this territory was included in the empire of Ashoka. After the death of Ashoka, Satvahna rose to power and his capital was at Pratisthana (Paithan in Aurangabad district). During the age of Satvahnas, the district seems to have been very prosperous. Contemporary with the Vakataka of Vidarbha and the early Rashtrakuta of Kuntala, there was a Saka family ruling over the territory in which Latur district was comprised. The Chalukya and then Yadavas of Deogiri ruled over the territory.

In the beginning of 14th century in 1317, the kingdom of Yadavas passed into the hands of the Sultan of Delhi. The territory of Latur district thus for the first time passed under Mahammedans. From 1351 to 1518 dynasty of Bahamanis ruled the territory after which it came under Adilshaha. In 1724 A.D. after a century of direct rule of Mughals, Latur district passed under the Nizam of Hyderabad sovereignty.

The district was temporarily ceded to the British Government in 1853 and it was reverted to Hyderabad state in 1860, with its headquarters at naldurga. The district was known as Naldurga district. In 1904 Naldurga district was abolished and a new district of Osmanabad was carved out with headquarter at Osmanabad. In 1905, two tahsils with their headquartes at Wasi and Naldurga were abolished. Wasi was merged in Kalamb and Naldurga in Tuljapur, Headquarter of Ausa taluka were shifted to Latur and the taluka was named as Latur taluka.

Among the Marathwada region, Osmanabad had the biggest area under the Nizam's own estate called "Sarf-e-Khas". The Sarf-e-Khas was merged with Government area under the Sarf-e-Khas (merger) regulation in the year 1949. In the same year all the Jagirs were abolished and put under direct Government administration. Consequent upon the abolition of Sarf-e-Khas and Jagirs, the boundries of all the tahsils were re-constituted in 1950. Two new tahsils with headquarters at Ausa and Umarga and a new Mahal with headquarters at Bhum were created. In 1950 again, 11 enclve villages were transferred from Solapur to the district in return of 52 villages from the district to Solapur. With the reorganization of states, the district became a part of Bombay State in 1956. three tahsils viz. Aahmadpur, Nilanga and Udgir were transferred from the neighbouring Bidar district (Karnataka) to Osmanabad district.

In 1960, Mumbai State was bifurcated into Maharashtra and Gujarat and Osmanabad became an integral part of Maharashtra State. Since then, the district had 5 tahsils and 5 towns in 1991.Now Latur district has 10 tahsils and 5 towns and 944 villages in the district.

(iii) Administrative Set-Up

There were Major changes in the administrative set-up of Maharashtra after the 1991 Census, resulting in increase of five districts. The number of division unchanged it is same in 1991 census and 2001 census. The number of districts rose from 30 in 1991 census to 35 in 2001 census. Greater Bombay district of 1991 census divided into two forming Mumbai and Mumbai suburban districts. Similarly new districts Nandurbar, Washim, Hingoli and Gondia district were formed bifurcating, Dhule, Akola, Parbhani and Bhandara district respectively. Konkan division includes 6 districts, Nashik division has 5 districts, Pune division has 5 districts, Aurangabad division has 8 districts, Amravati division 5 districts and Nagpur division 6 districts. Latur district is included in Aurangabad division.Thus for 2001 census the State has 35 districts spread over 6 divisions in Maharashtra. Latur district has 5 towns, 10 tahsils and 944 villages spread over Latur (119), Renapur (79), Ahmadpur (123), Jalkot (47), Chakur (85), Shirur-Anantpal (51), Ausa (132), Nilanga (155), Deoni (57) and Udgir (96) tahsils. The following statement indicates the changes, which occurred after 1991 census in the number of villages, towns in each tahsils and also the reasons for variation in brief:-

For administrative purposes, the district is divided into 2 sub-divisions of Latur and Udgir and 10 tahsils. Latur sub-division includes Latur and Ausa tahsils and Udgir sub-division includes Udgir, Ahmadpur, Nilanga, Chakur, Renapur, Deoni, Jalkot and Shirur-Anantpal tahsils. The district collector along with the district Judge, Superintendent of Police, Chief Executive Officer of Zilla Parishad and other senior officers of the State Government look after the development and regulatory functions in the district. At the tahsil level Tahsildar Block Development Officer, Judicial Magistsrate, Deputy Enginees and other officers look after their respective department for development and regulatory functions.

Local self Governments, its composition, jurisdiction and the role in the Development.

Gram Panchayat is the lower most rung of the democratic set-up of India. It is governed by the 'Bombay Village Panchayat Act, 1958'. The 'Sarpanch' and in the absence of Sarpanch, the 'Upa-Sarpanch' preside over every meeting of 'Gram Sabha'. At least four meetings of the 'Gram Sabha' are held every year. Sarpanch and Upa-Sarpanch are elected from amongst the elected members of the Panchayat.

73rd Constitutional Amendment

To make Panchayat Raj Institutions strong and to give more power to the people, the State Panchayat Act has been amended in confirmation with the 73 rd Constitutional amendment, which is implemented in the State in April 1994. The Main fundamental provisions of the 73 rd Constitutional amendments are as follows:

1. Constitution of Panchayat Raj Institutions at Village, Intermediate (Development Block) and district level.

2. The seats and the offices of the chairpersons in the Panchayats at all the levels to be reserved in favour of Scheduled Castes and Scheduled Tribes in proportion to the percentage of population of the Scheduled Castes or Scheduled Tribes, as the case may be.

3. The elections to these Panchayat Raj Bodies to be held at the interval of every five years.

4. Powers, Authority and Responsibilities of Panchayats: -

(a)The preparation of plans for economic development and social justice

(b)The implementation of schemes for economic development and social justice as may be entrusted to them including those in relation to the matters listed in the Eleventh Schedule.

5. An independent State Election Commission to conduct the elections.

6. Powers to impose taxes by, and funds of, the Panchayats.

7. Constitution of Finance Commission by the State at the expiry of every five years term to review the financial position of the Panchayats and to make recommendation regarding distribution of State resources between the State and the Panchayat.

Constitution of Gram Panchayat

The gram panchayat consists of not less than seven and not more than seventeen members elected from wards on the basis of adult franchise. They hold office for a term of five years. Among these a few seats are reserved for persons belonging to the Scheduled Castes, the Scheduled Tribes, Backward Class of citizens and Women, as may be determined by the State Election Commission in the prescribed manner.

Administrative powers and duties of Panchayats

Administrative powers and duties of Panchayats are - to take care of the funds at its disposal, to take over and maintain water supply schemes through "Village Water Supply Fund", to make provision for carrying out within/outside the village any work subject to any directions made by State Government for any scheme or for any purpose sponsored by the Government, to make provision for carrying out work which is likely to promote health, safety, education, comfort, convenience or social or economic or cultural well- being of the inhabitants of the village, to make provision for entertainment, public reception, contribution towards annual gathering, to encourage farmers and co-operative societies to increase and improve agricultural production etc.

Powers and duties of Panchayats in the scheduled areas

Powers and duties of Panchayats are - to obtain from the Gram Sabha a certification of utilization of funds for the plans, programmes and projects, prospecting licence or mining lease for minor minerals, control on erection of building, to remove any obstructions and encroachments upon public streets and open sites etc.

Establishment, Budget and Accounts

The day to day work of the Panchayat is done by Secretary of panchayat. The Chief Executive

Officer of Zilla Parishad appoints the secretary of Panchayat. His salary is paid from the district fund.

The budget of the village Panchayat is submitted to the Panchayat samiti. It covers opening balance in the fund, estimated income, proposed expenditure and the amount to be contributed to the District Village Development Fund. The sanctioning authority of the village budget is panchayat samiti.

Taxation and Recovery of Claims

The taxes levied by the panchayat are - tax on buildings and lands, betterment charge or the lands benefited from schemes or projects undertaken by Panchayat from 'Village Fund', pilgrim tax, tax on fairs, festivals and other entertainments, tax on bicycles and on vehicles drawn by animals, tax on professions, trades, callings or employments, shop keeping and hotel-keeping, general sanitary cess, general water rate, a lighting tax, fee on markets and weekly bazars, fee on car stands/tonga stands, special water tax for water supplied through pipes, fee for the supply of water from well and tank for purposes other than domestic use and for cattle, fee for temporary occupation on public street, special sanitary cess upon private latrines, fee for cleaning cess pool, fee for grazing cattle, fee on the registration of animals, lump sum contribution by factories in lieu of taxes levied by Panchayat, farming of fees on markets, collection of cess on every rupee of land revenue etc.

Financial Assistance to Panchayats

Gram Panchayat receives financial assistance from the State Government, loan by Zilla Parishad, Equalisation grant, Village water supply fund and District village development fund.

Gram Panchayat-role in the Development of the village

Since the Gram Panchayat controls the village fund, it has an immense role in the Development of the villages. It makes reasonable provision within the village and submits to the Panchayat Samiti for approval. It supervises the village water supply scheme. It makes provision for carrying out within the village any work which promotes health, safety, education, comfort, convenience or social or economic or cultural well-being of the inhabitants of the village.

Gram Panchayat can make provision for any public reception, ceremony or entertainment within the villages or make contribution towards at annual gathering or such other gathering of Panchayats in the district or the state.

It encourages farmers of the village to make use of co-operative societies in increasing and improving agricultural production. It supervises primary schools situated within the area of its jurisdiction.

Last but not the least, it is duty bound to take measures for the amelioration of the condition of Scheduled Castes and Scheduled Tribes and other Backward Classes and in particular, in the removal of untouchability carry out the directions issued in this regard from time to time by the State Government.

Objectives of the Local Self Government

With a view to promote development of democratic institutions and to secure greater measure of participation by the people in Development Plans and in local and governmental affairs by decentralization of powers and functions, Zilla Parishad and Panchayat Samities (C. D. Blocks) have been established in the district of Maharashtra in the year 1962 under the Maharashtra Zilla Parishad and Panchayat Samiti Act of 1961. The jurisdiction of Zilla Parishad and Panchayat Samiti i.e. C.D. Blocks corresponds to the district and tahsil boundaries except that the statutory towns are not covered by them.

The local self bodies are working as agencies of State Government. The 73rd Constitutional Amendment gave local self bodies the constitutional status. The new power bestowed upon them gave a great impetus to the development plans and its implementation.

Zilla Parishad

The Zilla Parishad has the authority for the purposes of the Act over the area for which it is established. The authorities charged with carrying out the provision of this Act for each district are–

a) The Zilla Parishad

b) Panchayat Samitis

c) The Standing Committee

d) The Subjects Committees

e) Presiding authorities

f) The Chief Executive Officer

g) Block Development Officer

The Zilla Parishad is assisted in its function by number of departments and each department is headed by class I or class II officers of the State Services.

Zilla Parishad consists of councillors directly elected on the basis of adult franchise from electoral divisions in the district for a term of five years. The number of councillors being not more than seventy-five and not less than fifty. Some seats of councillors are reserved for the persons belonging to Scheduled Castes, Scheduled Tribes, Women and Backward Class citizens.

Grants to Zilla Parishad

1. Grant of 7 percent of forest revenue to Zilla Parishad.

2. Purposive grant – State Government pays every year to Zilla Parishad a grant for works and development schemes transferred to Zilla Parishad.

3. Establishment grant – State Government pays by way of establishment grant, the average cost on account of the salaries and allowances.

4. Local cess matching grant – State Government pays a local cess matching grant to be paid to Panchayat Samiti through the Zilla Parishad.

5. Incentive grant – State Government pays to Zilla Parishad an incentive to speedier development.

6. Grants for plan schemes – State Government pays grant for such works and development schemes relating to any subject enumerated in the district List as are included in the development plan of the State.

7. Block grant – State Government pays to each Panchayat Samiti through Zilla Parishad for carrying one such work and development scheme.

The development work of the district is carried out through the various committees appointed for the purpose by the Zilla Parishad. The executive power for the purpose of carrying out the provisions of the Act lies with the Chief Executive Officer, who is appointed by the State Government.

All the development work within the district is carried out by the Zilla Parishad through the District Fund at its disposal.

The Deputy Chief Executive Officer works as the ex-officio secretary of the Zilla Parishad.

Panchayat Samiti

Panchayat Samiti Consists of members elected by direct election, its jurisdiction being the C.D. Block. The term of the members is five years. The Block Development Officer is the ex-Officio Secretary of the Panchayat Samiti. The Chairman and Deputy Chairman are elected by and from amongst the members of the Panchayat Samiti.

The overall plan of work and development schemes within the block is prepared and executed by the Panchayat Samiti.

Devolution of Powers and functions.

As per the 73rd Constitutional Amendment, Articles 243-G and Schedule 11 of the Constitution, 29 subjects are to be transferred to the Panchayat Raj Institution. The State Government implemented this amendment in April 1994 and provisions were made in the State Panchayat Raj Act to transfer these subjects to the Zilla Parishads, Panchayat Samitis and the Village Panchayats.

Source : 1. Bombay Act No. III of 1959 (The Bombay Village Panchayats Act,1958).

2. Maharashtra Act No. V of 1962 (The Maharashtra Zilla Parishads and Panchayat Samitis Act, 1961).

3. 73rd Constitutional Amendment.

Urban Local Bodies

The statutory urban local bodies are cantonments, municipalities or municipal corporations. The urban local bodies elect a councillor from each of the wards and his term is 5 years. The President of the Municipal Council or the Mayor of the Corporation as also his Deputy are elected from amongst elected councillors. The Chairmen of various committees are also elected

from amongst the elected councillors. Although for day to day administration the Chief Officer is responsible in a municipal council, he works under the administrative control of the President of Municipal Council. In Corporations, a senior IAS Officer is deputed by the State Government as Municipal Commissioner who is responsible for day to day administration and the executive authority lies in him.

(iv) Physical features

Location and Size

Latur district is situated between 17^0 52' and 18^0 50' north latitudes and 76^0 12' and 77^0 18' east longitudes. It is surrounded by Bid and Parbhani districts in the north, Nanded district in the north-east, Karnataka State in the south east and Osmanabad district in the south-west and west.

The district has an area of 7,157 sq.kms. and a population of 2,080,285 persons as per Census 2001. While the area of the district accounts for 2.3 percent of the total area of the State, the districts population constitutes 2.1 percent of the total population of the State. The density of population is 291 persons per sq. km. Among the 35 districts of the State, the district ranks 23rd in terms of area, 20th in terms of population and 11th in terms of density.

Latur is the headquarters of the district to which it gives its name. Latur city is connected to Kurduwadi by narrow gauge railway and has a population of 299,985 persons as per the 2001 Census.

Physiography

India has been divided into four macro level physical divisions i.e. The Northern Mountains, The Great Plains, The Deccan Plateau, and The Coastal Plains and Islands.

Maharashtra falls under two of these macro level divisions 1)The Deccan Plateau, and 2) The Coastal Plains and Islands. The north-south running Sahyadri range separates these two divisions. The Deccan Plateau lies to the east while the Coastal Plains and Islands lie to the west up to the Arabian Sea. The Deccan Plateau is much larger of the two divisions and includes twenty nine districts of the State while only six districts lie in the Coastal Plains and Islands.

The whole Deccan Plateau is sub-divided into 12 meso regions. Of these, only 2 meso regions i.e. Northern Maharashtra and The Maharashtra Plateau lie within the State. Northern Maharashtra is further divided into 2 micro regions i.e. The Tapi-Purna Valley and The Wardha-Penganga-Wainganga Plain. The Maharashtra Plateau is also further sub-divided into 2 micro regions i.e. The Eastern Plateau and The Western Plateau with Protruded Hills.

The Coastal Plains and Islands is divided into 4 meso regions i.e. Gujarat Region, Western Coastal Region, Eastern Coastal Region and The Islands. Of these, The Western Coastal Region covers Maharashtra. This region is divided into 4 micro level regions i.e. Maharashtra Littoral, Goa Coast, Karnataka Coast and North Kerala Coast. Only Maharashtra Littoral falls within the state of Maharashtra.

The hierarchy of these macro, meso and micro level physiographical divisions within Maharashtra State are as below :

(A) Deccan Plateau :

(i) Northern Maharashtra :

(a) Tapi-Purna Valley : Includes the districts of Nandurbar, Dhule, Jalgaon, Buldana, Akola, Washim and Amravati.

(b) Wardha-Penganga-Wainganga Plain : Includes the districts of Wardha, Nagpur, Yavatmal, Bhandara, Gondiya, Gadchiroli and Chandrapur.

(ii) Maharashtra Plateau :

(a) Eastern Maharashtra : Includes the districts of Aurangabad, Jalna, Parbhani, Hingoli, Nanded, Bid, Osmanabad, Latur, Solapur, Sangli and Kolhapur.

(b) Western Maharashtra with Protruded Hills: Includes the districts of Nashik, Ahmadnagar, Pune and Satara.

(B) Coastal Plains and Islands:

(i) Western Coastal Plains:

(a) Maharashtra Littoral : Includes the districts of Thane, Mumbai (Suburban), Mumbai, Raigarh, Ratnagiri and Sindhudurg.

The district forms a part of the eastern plateau, the micro level division of Deccan Plateau and it is situated in the Southern half of Maharashtra state. The district as a whole is a Table land sloping towards south-east and has been incised by Manjra river and its tributaries dividing the tableland of district into two elevated parts. Physiographically it can broadly be divided into two parts, (i) The elevated lands which includes the Ausa Plateua and Ahmadpur plateau and (ii) The lowlands which includes Manjra river basin.

Ausa plateau covers parts of Ausa, Nilanga and Latur tahsils. This plateau in general, has attitudes varying between 600 metres to 700 metres and slopes gently towards east. The interfluves between the streams are rocky with poor stony soils. In the proximity of steams richer soils are found where rabi Wheat and Jowar are grown. The barren rocky plateau surface which is not dissected by many streams has enabled the construction of good roads.

Ahmadpur plateau spreads over the entire tahsil of Ahmadpur, Jalkot, Udgir and Chakur and parts of Shirur Anantpal and Deoni tahsils. This plateau slopes towards east and south-east and is located at the height about 600 metres. This area is drained by Manar, Tiru and Lendi rivers. The area drained by Tiru is rugged and soils are generally shallow with a depth of less than nine inches. Here also Jowar is of considerable importance but is grown mainly as a Kharif crop. In general Jowar, Cotton and Pulses are grown in the plateau. Tur is the dominant crop amongst the pulses.

The low land of Manjra river basin in a narrow strip covers Renapur and parts of Latur, Nilanga, Shirur Anantpal and Deoni tahsil. It gently slopes towards south-east and attains height varying between 500 to 600 metres from mean sea level. The southern parts of basin have a thick layer of soils having clayey texture, which are very fertile. Jowar is the most important crop in the basin and next the most important is groundnut. Wheat and pulses are also grown here. Amongst the pulses Udid is the dominant crop.

Drainage

The district is drained by the Manjra river and its tributaries. The Manjra together with its tributaries the Tirna, the Towarja and the Gharni drain the Balaghat plateau region, while three other tributaries, the Manar, the Tiru and the Lendi drain the north, north-eastern region. The Manjra river rise above Gaurwadi near the northern edge of the Balaghat Plateau in Bid district and flows in a south-easterly direction. The Gharni is the only river of some size that forms a left bank tributary of the Manjra. The chief right bank tributaries of the Manjra are the Tawarja and the Tirna. The Tawarja, about 50 kms. long, flows in a general eastward direction and joins the Manjra near Seoni village. The Tirna river has a length of over 150 kms. from its source to its confluence with the Manjra. The Manar is the northernmost river of the district. It rises near Dharmapuri in Bid district and flows in a north-easterly direction. The Tiru rises on the eastern edge of the plateau near Chakur. It flows in a general eastward direction. The Lendi also rises on the edge of the plateau near Udgir and has only a small course within the district.

Climate

Except during the monsoon season the climate of the district is dry. The year may be divided into four seasons. The cold season is from December to about the middle of February and is followed by the hot season which lasts upto the end of May. The south-west monsoon season is from June to September and October and November constitute the post-monsoon or retreating monsoon season.

The average annual rainfall in the district is about 900 mm., which is unevenly distributed. About 84 per cent of the annual rainfall in the district is received during the south-west monsoon season, the rainiest month being July. The variation in the annual rainfall from year to year is large in the district.

The cold season commences towards the end of November when temperature begin to fall rapidly. December is the coldest month of the year and the mean minimum temperature is about 15^0C. Occasionally the minimum temperature may fall to about 4^0C or 5^0C. The period from about the middle of February to the onset of the south-west monsoon is one of continuous rise in temperature. May is generally the hottest month of the year with the mean

daily maximum temperature may rise to about 45^0C. Thunderstorms which occur in summer bring welcome relief from the intense heat but only temporarily.

With the onset of the south-west monsoon the air is humid and the skies are generally heavily clouded to overcast. During the rest of the year the air is generally dry and the skies are clear or lightly clouded. Winds are light but increase in force during the latter half of summer and in the monsoon season. Thunderstorm occurs in the summer and monsoon season while dust storms occur in summer.

Natural Wealth

The geology of the entire district consist of dark coloured volcanic lava flows spread out in the form of horizontal sheets or beds. Because of their dominantly basaltic composition and the tendency to form flat-topped plateau, the lavas are termed plateau basalts. Since these basaltic lava flows cover an extensive region in the Deccan frequently present step-like appearance to the hills and ridges they are commonly terms as “Deccan traps”, the word trap meaning “stap like’.

Minerals

Trap rocks being hard, dense and durable are most suitable for building purposes but generally lack any economically useful and important minerals.

Fisheries

Latur district is not rich in fisheries. Fresh water fishing is carried out mainly in the rivers, tanks, ponds and reservoirs built for irrigation purposes. There are few fishermen who are scattered about in the district and they mainly belong to the Dheemer, Kahar, Bhoi and Koli communities. Besides hook and line, fishing is also done by cast, gill and drag nets. Fast growing varieties of fish like Rohu, Catla and Mrigal are imported from Kolkata and stocked in reservoirs, tanks and ponds.

Soil and Cropping Pattern

The soils of the district are essentially derived from the trap rocks and can broadly be classified into four groups, viz., shallow soils having thickness upto 9 inches, medium soils (9-18 inches), medium deep soils (18-36 inches) and deep soils (above 36 inches).

Shallow soils are mainly located in the north-eastern part of the district. They are light brown to dark gray brown in colour, loamy to clay loam in texture with granular to sub-angular blocky in structure. These soils tends to be alkaline in reaction. They are deficient in nitrogen and organic matter and will give better yields on the application of the same with provisions of adequate water.

Patches of medium soils occur mainly near Nilanga and central portions of the district. They are dark brown to dark gray brown in colour, clay loam to clayey in texture and sub-angular blocky to blocky in structure. These soils are alkaline in reaction and have a fair amount of phosphate but need the application of nitrogen and organic mater for better yields.

Medium deep soils vary from dark gray brown to very dark brown in colour and are found scattered in the northern parts of the district. They are clay loam to clayey in texture and granular to sub-angular blocky in structure. These soils are alkaline in reaction and are deficient in nitrogen.

Deep soils are generally seen in the south and in the Tirna and Manjra river valleys. They are clayey in texture and vary from dark gray brown to very dark gray in colour. The structure of these soils are sub-angular blocky to blocky. The lower zones of the profile show compact to massive structure. They are alkaline in reaction and the total soluble salts are fairly high.

Land and Land Use Pattern

The Ministry of Food and Agriculture, Government of India has recommended a standard pattern of land use classification for the maintenance of records. Columns 19–23 of the village directory give land use pattern in each village in the district. The data furnished here are based on the village records and pertain to the year 1999.

Forest

This includes all land classified as forest under any legal enactment dealing with forest or administered as forest, whether state owned or private

and whether wooded or simply maintained as forest land. Within the forest area itself there may be occasionally cultivated patches or grazing lands, but such area are shown under column 19 as forest. The process of regularization of land grants and effecting relevant changes in the basic records of survey and settlement are somewhat protracted and time consuming. Therefore the information based on records is in some cases at least, likely to be different when compared with the actual field situation.

Tahsil Latur, tahsil Udgir and tahsil Nilanga have some limited forest area. The common forest produce are Khair, Hiwar, Hankal, Aroni, Apta, Babul, Bar and Neem. Sale of Tendu leaves and grass in plantation area are the items of income to forest department.

Irrigated by Source and Unirrigated land

Column 20 and 21 of the Village Directory give all the agricultural land and when added together would correspond to the net area shown plus the current and other fallow lands. Area shown more than once during the same year, if any, in the village is counted only once under this column. In column 20 source wise breakup of the irrigated area is furnished by using abbreviation. All lands that are lying uncultivated as fallow for more than 5 years in succession are regarded as permanent fallow (Cultivable waste) and are covered under column 22.

The Concept of irrigation implies the existence of source of water supply within a reasonable distance and an arrangement to regulate the supply of the water according to the day-to-day needs of the crops raised in the fields. Naturally therefore all areas, which are cultivated under purely rain fed conditions, are treated as unirrigated lands.

Animal Husbandry

As per sixteenth Quinquennial census of livestoack of 1997, the information on important number of livestock and livestock indicators are given below.

Statement showing number of Livestock (Position as on 15th Oct. 1997)

1)	Total Cross bred/Indigenous Cattle	394,283
2)	Total Buffaloes	228,750
3)	Total Goats	199,587
4)	Total Sheep	54,220
5)	Total Pigs	10,471
6)	Total Equine	1,942
7)	Total Camels	11
8)	Total Rabbits	226
9)	Total Livestock (excluding dogs)	889,490
10)	Total Poultry (including Ducks)	283,238

Source: Sixteenth All India Livestock & Farm Equipment Census 1997.

The total livestock (excluding dogs) are 889,490 and total poultry (including ducks) are 283,238 in the district. Out of the total livestock, the total crossbred/ indigenous cattle are 394283, total buffaloes are 228,750, goats 199,587, sheeps 54,220, pigs 10,471, equine 1942, camels 11 and rabbits are 226.

Statement showing Selected Livestock indicators (Position as on 15th Oct. 1997).

	Category	Value
1)	Density of Livestock population (per sq.km.)	124
2)	Average Livestock per village	973
3)	No. of livestock per thousand human population	530
4)	No. of in-Milk cows per thousand human population	40
5)	No. of in-Milk buffaloes per thousand human population	48
6)	No. of poultry fowls per thousand human population	169
7)	No. of Bullocks and male Buffaloes per hundred hectares of gross cropped area	24
8)	No. of tractors per thousand hectares of gross cropped area	2
9)	No. of Veterinary Institute per lakh livestock	15

Source: Sixteenth All India Livestock & Farm Equipment Census 1997.

The density of livestock population per sq. km. works out to124 while average livestock per village is 973 For every thousand human population there are 530 livestock, 40 in-milk cows, 48 in-milk buffaloes and 169 poultry fowls. While there are 24 bullocks and male buffaloes per hundred hectares of gross cropped area and 2 tractors per thousand hectares of gross cropped area, the number of Veterinary institute per lakh livestock has reported to be 15.

Industry

Industrially, Maharashtra is one of the advanced states in the country. However Latur district is not yet developed industrially. There are practically very few major manufacturing industries in the district. Most of the existing industrial establishment is of very small size. The employment in non-agricultural sector depends mainly on the village and cottage industries.

The industrial policy of the state is based on the basic decision to encourage industries in the developing and under developed areas in the district and to disperse industries from the heavily congested areas of Mumbai, Thane and Pune. In the district, MIDC has started developing site for setting of industries in the district.

The important small scale industries in the district are oil mills, tanned leather and leather goods, cotton bales and handloom cloth manufacturing. Other small scale and household industries are bakery products, handmade papers, utensils furniture , engineering, rubber and plastic goods, kumkum, bricks and confectionery etc. By the size of employment, cotton bales and spinning mills employ the largest number of persons in the district. Milk powder manufacturing is the large scale industry in the district. There are sugar factories in Latur and Ahmadpur tahsils. The following table gives in detail the number of registered factories with number of workers employed at the state and district level since 1982.

Trade and Commerce

Chief export of the disrict are Jowar, Sugar. Wheat, Tur, Udid, Groundnut, Sunflower, Cotton, Chillies, Milk Powder and Tanned Leather, Cotton and Oil seeds are exported to Mumbai. Jowar is the most widely grown crop in the district. Wheat and tur are also grown all over the district.

The most import articles are electric goods, cloth, timber, medicine, etc. these are imported from Mumbai to Pune apart from the weekly market and fairs, Latur, Udgir, Ahmadpur are important trade centres in the district. Latur is one of the leading market of agricultural produce in the Marathwada region.

Transport

Number of Motor Vehicles registered in the district (as on 31.03.1999)

Motor Vehicles 1999		
	Item	No. of Vehicles
	1	2
1	Buses	450
2	Cars & Station Wagons	1,809
3	Jeeps	2,119
4	Taxies	149
5	Autorickshaws	3,000
6	Mopeds	12,082
7	Scooters	5,595
8	Motor Cycles	15,594
9	Total Goods Vehicles	3,257
10	Tractors	3,076
11	Trailors	3,288
12	Others	7
	Total	**50,426**

Source: Transport Commissioner office

It may be seen that the district had 15,594 Motor Cycles, 12,082 Mopeds and 5,595 scooters.There were 450 buses 1,809 Cars and Station Wagons, 2,119 Jeeps, 149 taxies and 3,000 autorickshaws. Besides, 7 other modes of transport ,the district also had 3,076 tractors and 3,288 trailors as means of transport.

Electricity and Power Supply

All the 5 towns and 919 (99.8 percent) villages are enjoying the power supply facility

(v) Census concepts

Building :

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses :

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses :

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 metres and a breadth of at least 1.5 metres and a height of 2 metres. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house :

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership

flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000.

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Castes in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:

Scheduled Castes

1) Ager
2) Anamuk
3) Aray Mala
4) Arwa Mala
5) Bahna, Bahana
6) Bakad, Bant
7) Balahi, Balai
8) Basor, Burud, Bansor, Bansodi
9) Beda Jangam, Budga Jangam
10) Bedar
11) Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chamari, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar , Madar, Madig, Mochi, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Nona, Ramnami, Rohit, Samgar, Samagara, Satnami, Surjyabanshi, Surjyaramnami
12) Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli
13) Bindla
14) Byagara
15) Chalvadi, Channayya
16) Chenna Dasar, Holaya Dasar, Holeya Dasari
17) Dakkal, Dokkalwar
18) Dhor, Kakkayya, Kankayya, Dohor
19) Dom, Dumar
20) Ellamalvar, Yellammalawandlu
21) Ganda, Gandi
22) Garoda, Garo
23) Ghasi, Ghasia
24) Halleer
25) Halsar, Haslar, Hulasvar, Halasvar
26) Holar, Valhar
27) Holaya, Holer, Holeya, Holiya
28) Kaikadi (in Akola, Amravati, Bhandara, Gondiya, Buldana, Nagpur, Wardha and Yavatmal districts and Chandrapur district, other than Rajura tahsil)
29) Katia, Patharia
30) Khangar, Kanera, Mirdha
31) Khatik, Chikwa, Chikvi
32) Kolupulvandlu
33) Kori
34) Lingader
35) Madgi

36) Madiga
37) Mahar, Mehra, Taral, Dhegu Megu
38) Mahyavanshi, Dhed, Vankar, Maru Vankar
39) Mala
40) Mala Dasari
41) Mala Hannai
42) Mala Jangam
43) Mala Masti
44) Mala Sale, Netkani
45) Mala Sanyasi
46) Mang, Matang, Minimadig, Dhankhni Mang, Mang Mahashi, Madari, Garudi, Radhe Mang
47) Mang Garodi, Mang Garudi
48) Manne
49) Mashti
50) Meghval, Menghvar
51) Mitha Ayyalvar
52) Mukri
53) Nadia, Hadi
54) Pasi
55) Sansi
56) Shenva, Chenva, Sedma, Ravat
57) Sindhollu, Chindollu
58) Tirgar, Tirbanda
59) Turi

Scheduled Tribes

1) Andh
2) Baiga
3) Barda
4) Bavacha, Bamcha
5) Bhaina
6) Bharia Bhumia, Bhuinhar Bhumia, Pando
7) Bhattra
8) Bhil, Bhil Garasia, Dholi Bhil, Dungir Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave
9) Bhunjia
10) Binjhwar
11) Birhul, Birhor
12) Chodhara (excluding Akola, Amravati, Bhandara, Gondiya, Buldana, Chandrapur, Nagpur, Wardha, Yavatmal, Aurangabad, Jalna, Bid, Nanded, Osmanabad, Latur, Parbhani and Hingoli districts)
13) Dhanka, Tadvi, Tetaria, Valvi
14) Dhanwar
15) Dhodia
16) Dubla, Talavia, Halpati
17) Gamit, Gamta, Gavit, Mavchi, Padvi
18) Gond Rajgond, Arakh, Arrakh, Agaria, Asur, Badi Maria, Bada Maria, Bhatola, Bhimma, Bhuta, Koilabhuta, Koilabhuti, Bhar, Bisonhorn Maria, Chota Maria, Danddami Maria, Dhuru, Dhurwa, Dhoba, Dhulia, Dorla, Gaiki, Gatta, Gatti, Gaita, Gond, Gowari, Hill Maria, Kandra, Kalanga, Khatola, Koitar, Koya, Khirwar, Khirwara, Kucha Maria, Kuchaki Maria, Madia, Maria, Mana, Mannewar, Moghya, Mogia, Monghya, Mudia, Muria, Nagarchi, Naikpod, Nagwanshi, Ojha, Raj, Sonjhari Jhareka, Thatia, Thotya, Wade Maria, Vade Maria
19) Halba, Halbi
20) Kamar
21) Kathodi, Katkari, Dhor Kathodi, Dhor Kathkari, Son Kathodi, Son Katkari
22) Kawar, Kanwar, Kaur, Cherwa, Rathia, Tanwar, Chattri
23) Khairwar
24) Kharia
25) Kokna, Kokni, Kukna
26) Kol
27) Kolam, Mannervarlu
28) Koli Dhor, Tokre Koli, Kolcha, Kolgha
29) Koli Mahadev, Dongar Koli
30) Koli Malhar
31) Kondh, Khond, Kandh
32) Korku, Bopchi, Mouasi, Nihal, Nahul, Bondhi, Bondeya
33) Koya, Bhine Koya, Rajkoya
34) Nagesia, Nagasia
35) Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
36) Oraon, Dhangad
37) Pardhan, Pathari, Saroti
38) Pardhi; Advichincher, Phans Pardhi, Phanse Pardhi, Langoli Pardhi, Bahelia, Bahellia, Chita Pardhi, Shikari, Takankar, Takia
39) Parja
40) Patelia

41) Pomla
42) Rathawa
43) Sawar, Sawara
44) Thakur, Thakar, Ka Thakur, Ka Thakar, Ma Thakur, Ma Thakar
45) Thoti (in Aurangabad, Jalna, Bid, Nanded, Osmanabad, Latur, Parbhani and Hingoli districts and Rajura tahsil of Chandrapur district)
46) Varli
47) Vitolia, Kotwalia, Barodia

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops–tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate :

Percentage of workers (main + marginal) to total population.

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years.

Sex -ratio :

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which

are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine andMethod of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging.This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid–year Population.}} \times 1{,}000$$

Crude death rate(CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid–year Population}} \times 1{,}000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1{,}000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1{,}000$$

General fertility rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age group (15-49) years}} \times 1{,}000$$

General marital fertility rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1{,}000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = 5 \times \frac{\sum_{15\text{-}19}^{45\text{-}49} ASFR}{1{,}000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = 5 \times \frac{\sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1{,}000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age group}} \times 1{,}000$$

q1 Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 Probability of dying between birth and age 2.

q5 Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early neo- natal mortality rate :

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late neo-natal mortality rate :

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

Post neo-natal mortality rate (PNMR) :

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1,000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Still birth rate (SBR) :

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100,000$$

Eligible couple (Couples per 1,000 population) :

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child woman ratio (0-4) :

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9) :

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA/Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population are classified as Class I UAs./ Towns. These Class I UAs./Towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings – Population, its distribution

Brief Note on Census

Census taking is a massive operation carried out in a short span of time with the active participation of a veritable army of enumerators. The reference moment for the 2001 Census was the 00.00 hrs. March 1, 2001 i.e. the census provides a snapshot of the population of the country, as on 1st march 2001. Actual enumeration was spread over a period of 20 days from 9th February 2001 to 28 Feb.2001, followed by a rivisional round up to 5th March 2001 for updating of the population figures with reference to 00.00 hours of March 1, 2001. Household schedule having 23 questions regarding each and every person in the family is newly introduced in this Census. These questions are mainly self-explanatory and answers are in code language. Question No. 1 to 15 are related to general and socio-cultural characteristic individual. Question 16 to 20 is about economic activity of the person. Question 21 and 22 about migration and question no. 23 is for women, related to fertility. In addition one question is added in 2001 census which is related to household engaged in cultivation/ plantation in part III.

As a prelude to the actual Census, the urban and rural areas were identified and listed out in respect of each administrative unit. The Director of Census Operations has prepared the list of urban area (which is generally referred to as town list) and simultaneously, a list of villages. These lists form the basic frame for the organization of the Census Operations. Thereafter geographical area that could be conveniently covered out to constitute the enumerator's block.

The next major step was the house listing Operation that was carried in the state during May-June 2000. Thereafter, in order to adhere to the prescribed workload norms, the actual Census enumeration's blocks were carefully demarked on the basis of the layout sketches and the notional maps prepared was also utilised to collect wealth of information on items such as predominant construction material used for houses, amenities available to the Census households, number of living rooms etc. Information regarding number of bedrooms in the household, if couples having separate room, availability of amenities like telephone, TV, Car/Scooter was asked first time in this Census. From this information we can have an idea of standard of living of the people in the country.

In Maharashtra, tahsil and the C.D.Block are co-terminus and therefore the data shown in tables on C.D. Blocks and the rural areas shown in the tables on tahsils are same.

Distribution of Population in Rural-Urban Areas

According to Census 2001, district Latur has a total population of 2,080,285 comprising 1,075,257 males and 1,005,028 females. The population of the district is 24.1 percent higher than the district population of 1,676,641 in 1991 Census. Latur tahsil is most populous 542,414. Other tahsils in order of population size are tahsil Nilanga 286089, tahsil Ausa 280,240, tahsil Udgir 261,521, tahsil Ahmadpur 199,053, tahsil Chakur 157,135, tahsil Renapur 122,192, tahsil Deoni 88,362, tahsil Shirur-Anantpal 74,081 and tahsil Jalkot 69,198 respectively.

An examination of rural urban distribution of population reveals that 1,590,024 persons constituting 76.4 percent of the total population are concentrated in rural areas, while 490,261 persons forming 23.6 percent are living in urban areas of the district.

Although in absolute numbers, the number of people living in rural areas 1,334,773 in 1991 which increased to 11,590,024 in 2001. In terms of percentage was decreased from 79.6 percent in 1991 to 76.4 percent in Census 2001.

In the district there are 5 tahsils viz. tahsil Latur 55.3 percent, tahsil Udgir 35.2 percent, tahsil Ahmadpur 18.0 percent, tahsil Nilanga 11.1 percent and tahsil Ausa 11.0 percent having urban population and remaining five tahsil viz. tahsil Renapur, tahsil Jalkot, tahsil Chakur, tahsil Shirur-Anantpal and tahsil Deoni have nil urban population.

The highest percentage of urban population is seen in tahsil Latur 55.3 percent while lowest percentage is seen in tahsil Ausa 11.0 percent.

TABLE 1 : DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001						1991	2001

9	Deoni	75,065	75,065	0	88,362	88,362	0	17.7	17.7	0.0	0.0	0.0
10	Udgir	213,553	143,100	70,453	261,521	169,588	91,933	22.5	18.5	30.5	33.0	35.2
District Total:		**1,676,641**	**1,334,773**	**341,868**	**2,080,285**	**1,590,024**	**490,261**	**24.1**	**19.1**	**43.4**	**20.4**	**23.6**

The average growth rates for the rural and urban areas of the district are 19.1 percent and 43.4 percent respectively, Latur tahsil has registered the highest rural growth rate (25.0 percent) while Jalkot tahsil has the lowest growth rate of (13.8 percent), tahsil Ausa (23.0 percent) which is above the district average i.e. (19.1percent), tahsil Udgir (18.5 percent), tahsil Chakur (18.2 percent), tahsil Nilanga (18.1percent), tahsil Deoni (17.7 percent),tahsil Ahmadpur (16.5 percent), tahsil Shirur-Anantpal (15.6 percent), tahsil Renapur (14.6 percent) and tahsil Jalkot (13.8 percent) are below the district averge. Latur and Ausa tahsils are above the district average decadal growth (19.1 percent) and remaining 8 tahsils are below the district average decadal growth.

In urban areas, the growth rate is above the district average in Latur tahsil (52.0 percent) and below in tahsil Nilanga (27.2 percent), tahsil Ausa (32.8percent), tahsil Udgir (30.5percent) and tahsil Ahmadpur tahsil (38.4 percent)are below the district average. Tahsil Renapur, tahsil Jalkot, tahsil Chakur, tahsil Shirur-Anantpal and tahsil Deoni have no urban areas. Highest urban growth rate of 52.0 percent in tahsil Latur, while tahsil Nilanga has the lowest urban growth rate 27.2 percent.

The proportion of urban to total population of Latur district stood at 23.6 percent in Census 2001, against 20.4 percent urban population in 1991 Census. It is observed that proportion of urban population has increased in all five tahsils viz. tahsil Latur (55.3 percent), tahsil Ahmadpur (18.0 percent), tahsil Ausa (11.0 percent), tahsil Nilanga (11.1 percent) and tahsil Udgir (35.2percent) Remaining tahsils have no urban areas at all.

TABLE 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Percentages in brackets.

Table – 2 gives the percentage distribution of inhanbited villages by population size ranges in each tahsil in 2001 Census.

Out of the 921 inhabited villages 9 villages (1.0 percent) are small sized with population below 200, in the size of 200-499, 89 (9.7 percent) villages 252 villages (27.4 percent) are in the size–class 500–999, 331 (35.9 percent) villages are in the size class 1,000 –1999, 203 (22.0 percent) are in 2000-4999, 29 villages (3.1 percent) are in 5,000-9,999 and only 8 villages (0.9 percent) having population 10000 and above. For a broader generalization villages have been further grouped as small sized (below 500); Medium sized (500–1999); large sized (2000-4999); and Exceptionally large sized (5000 +). Within the district small sized villages less than 500 inhabitants together account for 10.7 per cent of the total inhabited villages, covering 2.1 per cent of the rural population of the district. Medium sized (500–1999) villages constitute 63.3 percent of the total inhabited villages covering 42.4 percent of the rural population, large sized (2000 –4999) are 22.0 per cent of total inhabited villages with 36.3 per cent of the rural population and exceptionally large sized (5000 +) are 4 per cent of the total inhabited villages and cover 19.2 per cent of the total rural population.

Within the 10 C.D. Blocks of the district, percentage of less than 200 size villages is the highest in C.D. Block Deoni (3.6 percent) and the lowest in C.D. Block Ahmadpur/Ausa (0.8 percent), while C.D. Block Latur, C.D. Block Jalkot, C.D. Block Shirur-Anantpal and C.D. Block Udgir are nil populated C.D.Blocks .The percentage of 200-499 size villages is higher in Renapur and Nilanga C.D. Block (12.7 percent) and lowest in C.D. Block Latur (4.3 percent). The percentage of villages with 1000-1999 is higher in Latur (49.6 percent) and lowest in Ahmadpur (26.0 percent), in 2000-4999 population sized villages is higher is Ausa C.D. Block (32.8percent) and lower in Shirur-Anantpal C.D. Block (11.8 percent), in 5000-9999 population sized villages is higher in Udgir (5.3 percent) and lowest in Renapur (1.3 percent), Deoni C.D. Block has no villages in this range. In 10000 and above population

sized villages is highest in Renapur C.D. Block (2.5 percent) and lowest in Nilanga C.D. Block (0.7 percent), while Ahmadpur, Jalkot, Shirur-Anantpal and Udgir C.D. Block have no villages in this range.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town	
1	
(a) New	
(i) Statutory town	Nil
(ii) Census town	Nil
(b) Denotified	
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns	Nil
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria	Nil
(iii) Census towns of 1991 census are notified as statutory town in 2001 census	Nil
(c) Declassified	Nil
(d) Wholly merged with other town(s)	Nil

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

There are no new towns, no denotified towns, no declassified and no wholly merged with other town in 2001 Census.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	3	0.3	1,041	0.1
11-20	0	0.0	0	0.0
21-50	5	0.5	1,763	0.1
51-100	35	3.8	18,895	1.2
101-200	382	41.5	513,573	32.3
201-300	374	40.6	675,016	42.5
301-500	98	10.6	249,983	15.7
501 +	24	2.6	129,753	8.2
Not known	0	0.0	0	0.0
District Total:	**921**	**100.0**	**1,590,024**	**100.0**

Population Density (Rural) of the district: 224

The distribution of villages by density ranges shows that as much as 82.1 percent villages have high density in range of 101 - 300 while very low densities of less than 20 persons per square Kms. are noticeable in 3 village i.e. 0.3 per cent of villages. 10.6 percent of villages have medium

density ranges of 301-500, 2.6 per cent of villages have a density of 501 and above. A negligible 0.5 per cent of villages have a density of 21-50 persons per square kms.

Table 5 :SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	978	1,003	862	980	982	945
1911	966	1,000	796	965	964	988
1921	950	994	776	940	943	896
1931	947	987	790	943	950	883
1941	949	989	810	941	942	935
1951	941	1,000	807	947	951	924
1961	936	995	801	950	955	909
1971	930	985	820	942	953	870
1981	937	987	850	959	971	899
1991	934	972	875	942	954	898
2001	922	960	873	935	940	916

Note: Sex ratio has been defined here as the number of females per 1000 males.

Table 5 shows the Sex Ratio for the district and the State. Census 2001 recorded a sex ratio of 935 females per 1000 males in the district. This is higher compared to the state average (922). The sex ratio in Latur district has remained higher in the year 1901, 1951, 1961, 1971, 1981, 1991 and 2001 than that of state average. As regards total areas, the sex ratio at the state level declined by 56 points and at district level it declined by 45 points during the last 100 years. Similarly, the sex ratio for the rural areas of the state decreased by 43 points and for the district it decreased by 42 points during 1901-2001. For the urban areas of the state, the sex ratio increased by 11 points and for the district it decreased by 29 points during the above period (i.e. 1901-2001).

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Latur	921	927	916
2	Renapur	940	940	
3	Ahmadpur	929	936	899
4	Jalkot	945	945	

TABLE 6 : - (Contd.)

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
5	Chakur	937	937	
6	Shirur-Anantpal	938	938	
7	Ausa	941	941	948
8	Nilanga	950	953	925
9	Deoni	956	956	
10	Udgir	929	940	909
	District Total:	**935**	**940**	**916**

In Latur district there are 935 females for every thousand males. Within the district the sex ratio varies from tahsil to tahsil. The highest sex ratio 956 is seen in Deoni tahsil followed by tahsil Nilanga (950), tahsil Jalkot (945), tahsil Ausa (941), tahsil Renapur (940), tahsil Shirur-Anantpal (938), tahsil Chakur (937), tahsil Ahmadpur, Udgir (929) and (921) in Lautr tahsil. In rural areas the sex ratio is 940 and for urban areas the sex ratio is 916. In rural areas 4 tahsils namely tahsil Jalkot, tahsil Ausa, tahsil Nilanga and tahsil Deoni have higher sex ratios than the districts rural average (940), tahsil Renapur and tahsil Udgir have

sex ratio at par with the districts rural average. Remaining six tahsils i.e. tahsil Latur, tahsil Ahmadpur, tahsil Chakur and tahsil Shirur-Anantpal have lower sex ratios than the districts rural average. In urban areas highest sex ratio is seen in Ausa tahsil (i.e. 948) and lowest in tahsil Ahmadpur (899). In Latur tahsil the sex ratio is at par with the district urban average (916).

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Latur	927
2	Renapur	940
3	Ahmadpur	936
4	Jalkot	945
5	Chakur	937
6	Shirur-Anantpal	938
7	Ausa	941
8	Nilanga	953
9	Deoni	956
10	Udgir	940
	District (Rural) Total:	**940**

The sex ratio in rural areas is 940, four C.D. Blocks viz. Jalkot (945), Ausa (941), Nilanga (953) and Deoni (956) respectively have sex ratios above the district average (940). Renapur and Udgir C.D. Blocks have at par with sex ratio districts rural average. The sex ratio remaining in 4 C.D. Blocks is below the district rural average.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population

District Total:	**921**	**100.0**	**1,590,024**	**100.0**
Sex ratio (Rural) for District:		**940**		

A perusal of the table reveals that 13 villages constituting 1.3 percent of the total inhabited villages covering 0.7 percent of the total district rural population have a sex ratio less than 799; while 21 villages forming 2.3 percent of total villages and covering 2.5 percent districts rural population has a sex ratio in the range of 800–849; 110 villages constituting 11.9 percent of the total inhabited villages and covering 10.6 percent of districts rural population have sex ratio in the range of 850–899; 647 villages constituting 70.2 percent of villages covering 77.9 percent of district rural population have sex ratio in the range of 900–999, 130 villages constituting 14.1 percent of villages covering 8.3 percent of districts rural population has sex ratio of 1000 and above.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A/ Town	Urban status of town	Sex ratio
1	2	3	4
1	Ahmadpur (M Cl)	M Cl	899
2	Ausa (M Cl)	M Cl	948
3	Latur (M Cl)	M Cl	916
4	Nilanga (M Cl)	M Cl	925
5	Udgir (M Cl)	M Cl	909
Sex ratio (Urban) for the district:			**916**

In the urban areas of the district, the sex ratio varies considerably. The highest sex ratio is in Ausa (MCl) (948) and lowest sex ratio is in Udgir (MCl) (909). Among five towns in the district two towns namely Ausa (MCl) (948) and Nilanga (MCl) (925) have sex ratio above the district average (916) and two towns namely Ahmadpur (MCl) (899) and Udgir (MCl) (909) have sex ratio below the district average and Latur (MCl) (916) has sex ratio at par with district urban average.

		Urban	**74,751**	**39,228**	**35,523**	**906**

The sex ratio for the Latur district for 0–6 age group is 918. Tahsil Renapur (923), tahsil Jalkot (929), tahsil Ausa (929), tahsil Nilanga (924), tahsil Deoni (935) and tahsil Udgir (937) have higher sex ratio in 0–6 age group as compared to district average. Remaining tahsils viz. Latur, Ahmadpur, Chakur and Shirur–Anantpal have low sex ratio as compared to district average. In urban areas two out of ten tahsils namely tahsil Ausa and tahsil Udgir have sex ratio above the districts average and tahsil Latur, tahsil Ahmadpur and tahsil Nilanga have sex ratio below the districts average. In rural areas, sex ratio is highest in tahsil Deoni (935) and lowest (898) in Latur tahsil.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6

10	Udgir	26,190	13,566	12,624	931
	District (Rural) Total:	**252,026**	**131,164**	**120,862**	**921**

District (Rural) sex ratio for 0–6 age group is 921. In the ten C.D. Blocks of the district, there are 131,164 males and 120,862 females as per 2001 census. C.D. Blocks namely Deoni, Jalkot, Udgir, Nilanga, Ausa, Renapur and Ahmandpur have higher sex ratio than districts rural average, while remaining three C.D. Blocks namely Latur, Chakur, Shirur-Anantpal have lower sex ratio than district rural average.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	36	3.9	4,075	1.6
700-749	34	3.7	5,604	2.2
750-799	67	7.3	13,752	5.5
800-849	105	11.4	29,210	11.6
850-899	149	16.2	51,604	20.5
900-949	146	15.9	51,652	20.5
950-999	118	12.8	41,866	16.6
1000-1099	155	16.8	39,097	15.5

5	Udgir (M Cl)	M Cl	14,289	7,329	6,960	950
	District(Urban) Total		**74,751**	**39,228**	**35,523**	**906**

Average sex ratio for 0–6 age group for the districts (Urban) areas is 906 in the urban areas of different towns, the sex ratio of population in the age – group 0–6 varies considerably. The highest sex ratio is in Udgir (MCl) (950) and lowest in Ahmadpur (MCl) (872). The sex ratio in two towns of the district namely Ausa (MCl) (910) and Udgir (MCl) (950) is above the districts average and three towns viz. Latur (MCl) (896), Ahmadpur (MCl) (872) and Nilganga (MCl) (905) have sex ratio below the district average.

The Scheduled Castes population as per Census 2001 in Latur district is 404,251 which constitutes 19.4 percent of the total population. Scheduled Tribes population of Latur district is 47,836, which constitutes 2.3 percent of the total population. The Scheduled Castes and Scheduled Tribes population is concentrated in rural areas than urban areas of the district. Tahsil Renapur, tahsil Jalkot, tahsil Chakur, tahsil Shirur-Anantpal and tahsil Deoni are totally rural. Tahsilwise perusal shows that Scheduled Castes population proportion is highest in Jalkot tahsil (25.9 percent) and lowest in Ausa tahsil (16.6 percent). In the rural areas, the highest proportion of Scheduled Caste population is seen in tahsil Udgir (26.2 percent) and lowest in tahsil Ausa (17.2 percent). In the urban areas, high proportion of Scheduled Caste population is in tahsil Nilanga (19.0 percent) and lowest in tahsil Ausa (11.4 percent). In total areas the highest proportion of Scheduled Tribes population is in tahsil Deoni (3.9 percent) and lowest in tahsil Ausa (1.3 percent). In the rural areas, the highest proportion of Scheduled Tribe population is seen in tahsil Nilanga and tahsil Deoni (3.9 percent) and lowest in tahsil Ausa (1.3 percent) and in the urban areas, highest proportion of Scheduled Tribe population is in tahsil Nilanga and tahsil Udgir (1.8 percent) and lowest in Ausa tahsil (0.6 percent).

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C. D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Latur	242,429	48,717	4,575	20.1	1.9
2	Renapur	122,192	21,199	2,109	17.3	1.7

	District (Rural) Total:	**1,590,024**	**325,298**	**40,654**	**20.5**	**2.6**

Scheduled Castes and Scheduled Tribes constitute 20.5 percent and 2.6 percent respectively of the total population. The proportion of Scheduled Castes population in C.D. Block Ahmadpur (21.2 percent), C.D. Block Jalkot (25.9 percent), C.D. Block Shirur-Anantpal (24.8 percent) and C.D. Block Udgir (26.2 percent) have above the district (Rural) average. In remaining C.D. Block Latur, C.D. Block Renapur, C.D. Block Ausa and C.D. Block Nilanga have proportion of Scheduled Castes population below the district (Rural) average. C.D. Block Chakur and C.D. Block Deoni have Scheduled Castes population at par with lowest in C.D. Block Ausa (17.2 percent). The highest proportion of Scheduled Castes population is seen in C.D. Block Udgir (26.2 percent) and lowest in C.D. Block Ausa (17.2 percent). The highest proportion of Scheduled Tribes population is in both C.D. Block Nilanga and Deoni (3.9 percent) and lowest in C.D. Block Ausa (1.3 percent).

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

District(Urban) Total		**490,261**	**78,953**	**7,182**	**16.1**	**1.5**

Percentage of Scheduled Castes and Scheduled Tribes population is 16.1 and 1.5 percent respectively in the urban areas of the district. The percentage of Scheduled Caste population is highest and above the district (Urban) average in Udgir (MCI) and Nilanga (MCI) (i.e.18.2 percent and 19.0 percent respectively). Remaining 3 towns namely Latur (MCI), Ahmadpur (MCI) and Ausa (MCI) are below the district (Urban) average. The percentage of Scheduled Tribes population is highest and above the district (Urban) average in Nilanga (MCI) and Udgir (MCI) (i.e. 1.8 percent) and below the district (Urban) average in Ahmadpur (MCI) and Ausa (MCI) and remaining one town i.e. Latur (MCI) has percentage of Scheduled Tribes (Urban) population at par with district (Urban) average.

District (Rural) sex ratio for Scheduled Castes is 942, while for Scheduled Tribes population it is 930. The Sex Ratio among Scheduled Castes is highest in Nilanga (958) C.D. Block and lowest in Shirur-Anantpal C.D. Block (933). The Scheduled Castes Sex Ratio is above the district average in 4 C.D. Blocks namely Renapur (947), Jalkot and Ausa (944) and Nilanga C.D. Block (958). The highest Sex Ratio among Scheduled Tribes is seen in Shirur-Anantpal C.D. Block (1,015) and lowest in Latur C.D. Block (871). The Scheduled Tribes Sex Ratio is above the district (Rural) average in 4 C.D. Blocks namely Chakur (941), Shirur-Anantpal (1,015), Deoni (1,006) and Udgir (937) respectively and remaining 6 C.D. Blocks having Sex Ratio below the district (Rural) average (930).

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

Serial number	Name of C D block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Latur	934	871
2	Renapur	947	923
3	Ahmadpur	937	914
4	Jalkot	944	922
5	Chakur	936	941
6	Shirur-Anantpal	933	1,015
7	Ausa	944	901
8	Nilanga	958	924
9	Deoni	938	1,006
10	Udgir	940	937
	District (Rural) Total	**942**	**930**

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A./Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Ahmadpur (M Cl)	937	1,082
2	Ausa (M Cl)	963	808
3	Latur (M Cl)	936	913
4	Nilanga (M Cl)	926	955
5	Udgir (M Cl)	955	931
Sex ratio (Urban) for the district:		**940**	**926**

Sex Ratio among Scheduled Castes and Scheduled Tribes in urban areas of the district is 940 and 926 respectively. In Scheduled Castes population, the Sex Ratio is above the district (Urban) average in two towns i.e. Ausa (MCI) (963) and Udgir (MCI) (955) and remaining three towns have Sex Ratio below the district (Urban) average i.e. Latur (MCI) (936), Ahmadpur (MCI) (937) and Nilanga (MCI) (926). For Scheduled Tribes population, the Sex Ratio is above the district average in three towns i.e. Ahmadpur (MCI) (1,082) which is highest followed by Nilanga (MCI) (955) and Udgir (MCI) (931) and below in remaining 2 towns ie, Latur (MCI) (913) and Ausa (MCI) (808).

		Urban	**332,635**	**191,644**	**140,991**	**157,626**	**64,200**	**93,426**	**80.1**	**88.5**	**70.9**	**17.6**

For the district, as a whole literacy rates for males are substantially higher as compared to females in both rural and urban areas. The tahsilwise break up shows that Latur tahsil has highest literacy rate (75.4 percent) while Renapur tahsil has lowest literacy rate (66.4 percent). Male literacy rate is highest in Latur/Udgir tahsil (85.2 percent) and lowest literacy rate is in Renapur tahsil (78.7 percent). Female literacy rate is the highest in Latur tahsil (64.7 percent) and lowest in Jalkot tahsil (51.9 percent). Tahsils Latur, Ahmadpur, Chakur, Shirur-Anantpal and Udgir have male literacy rate above the districts average. Two tahsils i.e. Latur (64.7 percent) and tahsil Udgir (62.3 percent) have female literacy rates above the districts average.

As regards rural areas of the district, the literacy rate is 68.9 percent for the district with male and female literacy rates being 81.2 percent and 55.9 percent respectively. Ahmadpur tahsil has the highest Male literacy rate of 84.4 percent and lowest in Ausa tahsil (79.5 percent). Tahsil Shirur-Anantpal has the highest female literacy rate of 58.9 percent and lowest female literacy rate is seen in Jalkot tahsil (51.9 percent).

For urban areas of the district, the literacy rate is 80.1 percent for the district with male and female literacy rates of 88.5 percent and 70.9 percent respectively. Udgir tahsil has the highest male literacy rate of 89.4 percent and lowest male literacy rate is seen in Ausa tahsil (83.6 percent). Udgir tahsil has the highest female literacy rate of 72.5 percent and lowest is in Ausa as well as in Nilanga tahsil (65.9 percent).

There is significant difference in literacy rates between males and females in all the tahsils. Females are lagging behind males in literacy in all the tahsil. However the gap varies from tahsil to tahsil. The average gap for the district is 23.5 percent; while in rural areas it is 25.3 percent and in urban areas it is 17.6 percent.

The gap in male female literacy rate varies from 20.5 percent in tahsil Latur to 28.6 percent in tahsil Jalkot.

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

District (Rural) Total:		**921,899**	**558,811**	**363,088**	**668,125**	**260,602**	**407,523**	**68.9**	**81.2**	**55.9**	**25.3**

It is seen that 68.9 percent of the population are literates in Latur district. Among the males, literates account for 81.2 percent while for females the literacy rate is substantially lower 55.9 percent. The highest literacy rate among males is seen in Ahmadpur C.D. Block (84.4 percent) and lowest literacy rate is in Renapur C.D. Block (78.7 percent). For the female, the highest literacy rate is in Shirur-Anantpal C.D. Block (58.9 percent) and lowest female literacy rate is in Jalkot C.D. Block (51.9 percent).

The literacy rate for males is higher than that of district level for C.D. Block Ahmadpur (84.4 percent); C.D. Block Chakur (83.2 percent); C.D. Block Shirur-Anantpal/ C.D. Block Udgir (83.0 percent) and C.D. Block Deoni (82.3 percent). The literacy rate for females is higher than that of district level for C.D. Block Latur (56.1 percent); C.D. Block Ahmadpur (56.3 percent), C.D. Block Chakur (57.5 percent); C.D. Block Shirur-Anantpal (58.9 percent); C.D. Block Deoni (58.0 percent) and C.D. Block Udgir (56.9 percent). The gap in male female literacy rate is 25.3 percent for district (Rural) areas. The gap in male-female literacy rate varies from 24.0 percent in C.D. Block Ausa to 28.6 percent in C.D. Block Jalkot.

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

5	Udgir (M Cl)	63,191	36,482	26,709	28,742	11,666	17,076	81.4	89.4	72.5	16.8
District(Urban) Total		**332,635**	**191,644**	**140,991**	**157,626**	**64,200**	**93,426**	**80.1**	**88.5**	**70.9**	**17.6**

The district (Urban) literacy rate is 80.1 percent. The percentage of literates for males and females is 88.5 percent and 70.9 percent respectively. Udgir (MCl) has highest literacy rate among 5 towns i.e. 81.4 percent and lowest percentage seen in Ausa (MCl), 74.9 percent. The percentage of literates in Latur (MCl) is 80.8 percent and Udgir (MCl) is 81.4 percent is above the district average. Among males the highest percentage literates is seen in Udgir (MCl) 89.4 percent and lowest in Ausa (MCl) 83.6 percent. Latur (MCl) 89.1 percent and Udgir (MCl) 89.4 percent have higher percentage of literates as compared to district urban average i.e. 88.5 percent and lower in Ahmadpur (MCl), Ausa (MCl) and Nilanga (MCl) For females, the highest literacy rate is in Udgir (MCl) 72.5 percent and lowest in both Ausa (MCl) and Nilanga (MCl) i.e. 65.9 percent. Latur (MCl) 71.7 percent and Udgir (MCl) 72.5 percent have proportion of literates above the district urban average and below in Ahmadpur (MCl), Ausa (MCl) and in Nilanga (MCl).

The average gap in male–female literacy rate is 17.6 percent for district (Urban) areas. The gap in male-female literacy rate varies from 16.8 percent in Udgir (MCl) to 20.1 percent in Nilanga (MCl).

TABLE 25: NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN C.D. BLOCKS, 2001

Serial number	Name of C.D.block	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate

District (Rural) Total:		**171,320**	**105,522**	**65,798**	**153,978**	**62,020**	**91,958**	**63.5**	**75.9**	**50.3**	**25.6**

According to 2001 Census, 171,320 Scheduled Castes persons are literates in the rural areas of Latur district. Of these, 105,522 are males and 65,798 females. In other words 63.5 percent of total Scheduled Castes population in rural areas are literates. Among males, the literates constitute 75.9 percent while females literacy rate is substantially lower i.e. 50.3 percent. Within the district the highest literacy is seen in C.D. Block Shirur-Anantpal (66.8 percent) and lowest in C.D. Block Renapur (59.7 percent). The highest literacy among males is seen in C.D. Block Ahmadpur (80.5 percent) and lowest in C.D. Block Renapur (72.6 percent). C.D. Block Shirur-Anantpal and C.D. Block Deoni are also leading in female literacy (53.8 percent) and Renapur C.D. Block is at the lowest level in female literacy (46.1 percent).

The gap in male-female literacy rate varies from 22.8 percent in C.D. Block Deoni to 28.5 percent in C.D. Block Ahmadpur.

TABLE 26 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

100	6	0.7	111	0.0
District Total:	**884**	**100.0**	**325,298**	**100.0**

Literacy rate for District (Rural): 63.5

Literacy rate for districts (Rural) areas is 63.5 percent. It is observed from the table that of the total 884 inhabited villages, 881 villages have Scheduled Castes population, numbering 325,298.

As per distribution of villages according to literacy range, 3 villages have nil literacy rate and none of the villages fall in the literacy range group of 1-10. There are 5 villages constituting 0.5 percent of total villages with literacy range of 11-30; 66 villages form 7.4 percent of total villages are in the literacy range of 31-50. 654 villages constituting 74.0 percent of total villages having rural population have literacy range of 51-70; 148 villages constituting 16.7 percent of total villages with rural population 17.6 percent in literacy range of 71-90; only 2 villages have 91-99 literacy range and also literacy rate range 100, there are only 6 villages with nil percentage of population.

TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Ahmadpur (M Cl)	3,203	1,916	1,287	1,970	755	1,215	72.8	84.1	60.7	23.5
2	Ausa (M Cl)	2,089	1,237	852	1,437	559	878	70.4	80.8	59.3	21.5
3	Latur (M Cl)	28,448	16,986	11,462	19,016	7,534	11,482	72.1	83.2	60.1	23.1
4	Nilanga (M Cl)	3,703	2,239	1,464	2,325	891	1,434	72.7	84.4	60.0	24.5
5	Udgir (M Cl)	10,349	6,120	4,229	6,413	2,454	3,959	73.8	84.5	62.3	22.2
	Latur (Urban)	**47,792**	**28,498**	**19,294**	**31,161**	**12,193**	**18,968**	**72.5**	**83.6**	**60.6**	**23.0**

According to Census 2001, 47,792 Scheduled Castes persons are literates in the urban areas of Latur district, comprising 28,498 males and 19,294 females. The percentage of scheduled Castes literates is 72.5 percent in urban areas of the district. Among the males it accounts for 83.6 percent while female literacy rate is 60.6 percent. Within the five towns of Latur district, Udgir (MCI) has highest literacy rate (73.8 percent) and the lowest literacy rate is in Ausa (MCI) (70.4 percent). Among the five towns, three towns namely Ahmadpur (MCI) (72.8 percent), Nilanga (MCI) (72.7 percent) and Udgir (MCI) (73.8 percent) have literacy rate above the district (Urban) average and remaining two towns

namely Latur (MCI) (72.1 percent) and Ausa (MCI) (70.4 percent) have literacy rate below the district (Urban) average. Among males the highest literacy rate is seen in Udgir (MCI) (84.5 percent) and lowest literacy rate is in Ausa (MCI) (80.8 percent). The male literacy rate is higher than district (Urban) average of males in Ahmadpur (MCI) (84.1 percent), Nilanga (MCI) (84.4 percent) and 84.5 percent in Udgir (MCI). Whereas among females the higher proportion of literates is seen in Udgir (MCI) (62.3 percent) and lowest literacy rate is in Ausa (MCI) (59.3 percent). Ahmadpur (MCI) (60.7 percent) and Udgir (MCI) (62.3 percent) have literacy rates above the district (Urban) average for the females. Latur (MCl), Ausa (MCl) and Nilanga (MCl) have literacy rate below the district urban average.

The average gap in male/female literacy rate for the district is 23.0 percent. The highest gap of literacy rate is in Nilanga (MCl) 24.5 percent and lowest in Ausa (MCl) 21.5 percent.

TABLE 28: NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Serial number	Name of C. D. block	Number of literates and illiterates									Gap in male/female literacy rate
		Number of literates			Number of illiterates			Percentage of literates

10	Udgir	2,599	1,594	1,005	1,984	772	1,212	68.1	80.8	54.5	26.3
District (Rural) Total:		**21,371**	**13,374**	**7,997**	**19,283**	**7,686**	**11,597**	**63.5**	**76.6**	**49.3**	**27.2**

According to Census 2001, 21,371 persons are literates in rural areas of the Latur district. Of these, 13374 are males and 7,997 are females. It is seen that 63.5 percent of the Scheduled Tribes population in rural areas of the Latur district are literates. While among the males the literates constitute 76.6 percent. The literacy rate among females is substantially lower (49.3 percent). Within the district the highest literacy rate is seen in C.D. Block Udgir (68.1 percent). Also the highest literacy rate among males is seen in C.D. Block Udgir (80.8 percent) and lowest in C.D. Block Nilanga (72.4 percent). Similarly among females, the highest literacy rate is seen is C.D. Block Udgir (54.5 percent) and lowest in C.D. Block Nilanga (45.2 percent).

There are six C.D. Blocks namely C.D. Block Latur, C.D. Block Ahmadpur, C.D Block Jalkot, C.D. Block Chakur, C.D. Block Shirur-Anantpal and C.D. Block Udgir which have percent of literates above the district average (76.6 percent) for males and remaining four C.D. Blocks namely C.D. Block Renapur, C.D Block Ausa, C.D Block Nilanga and C.D. Block Deoni are having percentage of male literates below the district average.

For females, there are also six C.D. Blocks namely C.D. Block Latur, C.D. Block Ahmadpur, C.D. Block Chakur, C.D Block Shirur-Anantpal, C.D. Block Deoni and C.D. Block Udgir with literacy

above the district average and four C.D. Block i.e. C.D. Block Renapur, C.D. Block Jalkot, C.D. Block Ausa and C.D. Block Nilanga with literacy below the district average (49.3 percent).

Average gap in male-female literacy rate for the district is 27.2 percent. The gap in male-female literacy rate is varies from 23.4 percent in C.D. Block Deoni to 31.0 percent in C.D. Block Jalkot.

TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population
1	2	3	4	5

91-99	7	1.4	187	0.5
100	33	6.5	128	0.3
District Total:	**504**	**100.0**	**40,654**	**100.0**
Literacy rate for District (Rural):		**63.5**		

It is observed from this table that 504 inhabited villages covers Scheduled Tribes population numbering 40,654. 417 villages do not have any Scheduled Tribes population.

As per the distribution of villages according to the range of literacy rate 10 (2.0 percent) Villages have nil literacy rate; 2 villages (0.4 percent) are in 1-20 literacy rate range; 6 villages (1.2 percent) are in 21-30 literacy range; 61 villages (12.1 percent) in 31-50 literacy range with 10.5 percent of population; 90(17.9 percent villages having population 25.7 percent are in literacy range 51-60; 250 villages (49.6 percent) having 58.1 percent of population are in literacy rate range 61-80; 45 villages (8.9 percent) having population 4.3 percent are in literacy rate range 81-90; 7 (1.4 percent) villages having population 0.5 percent in the literacy range 91-99; and 33 (6.5 percent) of villages having 0.3 percent of population is 100.0 percent literates. The literacy rate for District (Rural) is 63.5 percent.

TABLE 30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Ahmadpur (M Cl)	214	121	93	167	62	105	68.8	77.1	60.4	16.7
2	Ausa (M Cl)	118	78	40	61	21	40	74.7	90.7	55.6	35.1
3	Latur (M Cl)	2,873	1,695	1,178	1,568	626	942	77.7	87.9	66.6	21.4
4	Nilanga (M Cl)	266	156	110	295	131	164	60.9	72.6	49.5	23.0
5	Udgir (M Cl)	1,043	623	420	577	216	361	77.0	88.2	64.8	23.4
	Latur (Urban)	**4,514**	**2,673**	**1,841**	**2,668**	**1,056**	**1,612**	**75.8**	**86.4**	**64.2**	**22.2**

According to Census 2001, 4,514 Scheduled Tribes persons comprising 2,673 males and 1,841 females are literates in the urban areas in the district Latur. The percentage of Scheduled Tribes literates is 75.8 percent in urban areas of the district. Among the males, it accounts for 86.4 percent while for females the literacy rate is 64.2 percent. Within the five towns, of Latur district Latur (MCI) has highest literacy rate (77.7 percent) and lowest is in Nilanga (MCI) (60.9 percent). The percentage of Latur (MCI) and Udgir (MCI) is above the district average (75.8 percent). Among males, Ausa (MCI) has highest literacy rate (90.7 percent) and lowest is in Nilanga (MCI) (72.6 percent).

Latur (MCI) (87.9 percent), Ausa (MCI) (90.7 percent) and Udgir (MCI) (88.2 percent) is above the district (males) average (86.4 percent). While in females the highest percentage of literates is in Latur (MCI) (66.6 percent) and lowest in Nilanga (MCI) (49.5 percent). Latur (MCI) (66.6 percent) and Udgir (MCI) (64.8 percent) is above the district average (64.2 percent) and lowest in Ahmadpur (MCl) 60.4 percent, Ausa (MCl) 55.6 percent and Nilanga (MCl) 49.5 percent.

The average gap in male-female literacy rate is 22.2 percent. The gap in male-female literacy rate varies from 16.7 percent in Ahmadpur (MCl) to 35.1 percent in Ausa (MCl)

Census 2001 recorded 34.3 percent of district population, as main workers, 6.1 percent as marginal workers and 59.6 percent are non-workers in the district. Among 34.3 percent main workers, male participation rate in the district is 45.8 percent, while that of females is 21.9 percent, as per 2001 Census.

The percentage of main workers is highest in Renapur tahsil (41.1 percent) and lowest in Udgir tahsil (28.0 percent). The sex-wise break-up shows that among male and females 3.1 percent and 9.4 percent marginal workers respectively. It is seen that the percentage of female's marginal workers is substantially higher than that of males. The percentage of marginal workers is the highest in Jalkot tahsil (9.1 percent) and lowest in tahsil Latur (4.0 percent).

About 40.0 percent of population in the district is main workers and marginal workers and remaining 60.0 percent persons are non-workers in the district.

District (Rural) Total:		**Persons**	**1,590,024**	**591,195**	**37.2**	**117,701**	**7.4**	**708,896**	**44.6**	**881,128**	**55.4**
		Males	**819,413**	**386,785**	**47.2**	**27,598**	**3.4**	**414,383**	**50.6**	**405,030**	**49.4**
		Females	**770,611**	**204,410**	**26.5**	**90,103**	**11.7**	**294,513**	**38.2**	**476,098**	**61.8**

Census 2001 recorded 37.2 percent of the district population as main workers. 7.4 percent of as marginal workers and remaining 55.4 percent as non-workers. Among the main workers, male participation rate in the district is 47.2 percent while that of females is 26.5 percent. The proportion of main workers is highest in Renapur C.D. Block 41.1 percent and lowest in Udgir C.D. Block (30.8 percent). The sex-wise break-up shows that among males and females, 3.4 percent and 11.7 percent of the population respectively are marginal workers. It is seen that the proportion of female's marginal workers is substantially higher than that of males. The proportion of marginal workers is the highest in C.D. Block Udgir (10.9 percent) and lowest in C.D. Block Deoni (5.6 percent).

Non-workers constitute 55.4 percent of the total population in the district. Female non-workers constitute 61.8 percent of total female population, while 49.4 percent males are non-workers.

Census 2001 recorded 24.8 percent of the district urban population as main workers, 2 percent as marginal workers and the remaining 73.2 percent as non-workers. The sex-wise breakup shows that among males and females 41.2 percent and 6.9 percent of the population are main workers, 2.2 percent males and 1.9 percent females are marginal workers, 56.6 and 91.2 percent males and females respectively as non-workers.

In urban areas Ausa (M Cl) has the highest participation rate of 26.7 percent while Ahmadpur (M Cl) has the lowest rate of 21.9 percent main workers in the districts urban areas. The main workers in Latur (M Cl) (25.7 percent) and Ausa (M Cl) (26.7 percent) are above the percentage of main workers in the district, (24.8 percent) while in Ahmadpur (M Cl) (21.9 percent), Nilanga (M Cl) (24.2 percent) and Udgir (M Cl) (22.8 percent). The percentage of main workers is below the district urban average.

The percentage of marginal workers is the highest in Ahmadpur (M Cl) (5.7 percent) and the lowest in Udgir (M Cl) (1.4 percent). The work participation rate of marginal workers in urban area the district is 2.0 percent. Only two towns namely Ahmadpur (M Cl) (5.7 percent) and Ausa (M Cl) (2.1 percent) have participation rate of marginal workers above district urban average and Nilanga (M Cl) has work participation rate at par with to the district urban average i.e. Latur (M Cl) (1.8 percent) and Udgir (M Cl) (1.4 percent) have participation rate below the district urban average.

Note: Percent of Worker to total worker are given in brackets

The relative importance of the main shares of economic activity may be gauged from the pattern of distribution of workers according to the broad four ford classification namely, Cultivators, Agricultural labourers, Household industry workers and other workers. The economy of the district is primarily agricultural which is supported by cultivator factor (35.7 percent) and Agricultural labourers (37.4 percent) together constitute 73.1 percent of the total workers in the district. The Agricultural sector has

absorbed nearly 73 percent of the total workers in the district and remaining 27 percent of population engaged in household industry and other work.

The proportion of both cultivators and agricultural Labourers differs considerably from tahsil to tahsil. The proportion of cultivators varies between 44.4 percent in Shirur-Anantpal tahsil to 21.5 percent in Latur tahsil. The proportion of Agricultural labourers varies between 44.3 percent in Jalkot tahsil to 24.4 percent in Latur tahsil. Household Industry workers varies between 2.1 percent in Ausa tahsil to 1.3 percent in Renapur tahsil and remaining other workers varies between 52.2 percent in Latur tahsil to 10.0 percent in Shirur-Anantpal.

Note: Percent of Worker to total worker are given in brackets

Table 35 gives the distribution of workers in fourfold economic categories as cultivators, Agricultural labourers, household industry and other workers in C.D. Blocks of the district. The cultivators 41.8 percent and Agricultural labourers 43.0 percent together constitute 84.8 percent of the total main workers of the district. Remaining 15.1 percent main workers are engaged in household industry and other workers (1.6 percent and 13.5 percent respectively).

The proportion of cultivators varies from 45.3 percent in Nilanga C.D. Block to 36.5 percent both in Latur C.D. Block and Udgir C.D. Block. In agricultural labourers it is 47.1 percent in Udgir C.D. Block and 40.7 percent in Nilanga C.D. Block. In household industry it is 2.0 percent in Ausa C.D. Block to 1.3 percent in Renapur C.D. Block. For other workers it is 20.9 percent in Latur C.D. Block to 10.0 percent in Shirur-Anantpal C.D. Block.

Note: Percentage of workers to total workers are given in brackets.

Table 36 gives the distribution of workers in four fold economic categories as cultivators, Agricultural labourers, household industry and other workers of U.A. / Towns or 2001 Census. Cultivator's accounts for 2.8 percent followed by 7.2 percent are agricultural labourers. They together constitute 10 percent of the total main workers of the district urban areas.

It is seen that 90 percent of main workers are engaged in household industry and other works and remaining 10 percent of main workers are engaged in agricultural activities. The proportions of household industry workers are 2.6 percent and 87.4 percent respectively. The proportion of cultivators varies from 8.3 percent in Nilanga (M Cl) to 1.6 percent in Udgir (M Cl). The proportion of agricultural labourers varies from 30.0 percent in Ausa (M Cl) to 2.5 percent in Latur (M Cl). For the district as a whole male share in agricultural labourers is 5.3 percent as against female 17.5 percent respectively.

The work participation rate is more in rural (44.6 percent) areas than urban areas (26.8 percent). Similarly between the two sexes the rural-urban differential is larger among females (38.2 percent) in rural and (8.8 percent) in urban as compared to males (50.6 percent in rural and (43.4 percent) in urban in the district.

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Educational

The education amenity is available in 917 villages, which constitute 99.6 percent of the total 921 inhabited villages of the district. In C.D. Block Latur, C.D. Block Renapur, C.D. Block Ahmadpur, C.D. Block Chakur, C.D. Block Shirur-Anantpal, C.D. Block Ausa, C.D. Block Deoni and C.D. Block Udgir have education amenity available in all the inhabited villages. This is followed by Jalkot and Nilanga C.D. Blocks with 97.9 percent coverage. The educational amenity is available to 99.9percent of rural population in the district. (Table 37 and 38).

There are only 4 villages, which do not have primary school. The amenity to these 4 villages is available within less than 5 kilometer's distance. For middle school education the students of 235 villages have to cover a distance of less than 5 Kms., 43 villages at a distance of 5-10 Kms., and only 3 villages at a distance beyond 10 Kms.. For higher education 76 villages have to cover less than 5 Kms., 178 villages at a distance 5-10 Kms. and 654 villages have to cover 10 Kms. and above for degree level education.

As per distribution of villages according to the distance range from nearest statutory town, the education amenity is available in all the 19 villages (100.0 percent) within 5 Kms. 262 villages have education amenity within 5-15 Kms. 634 villages

within 16-50 Kms. and 2 villages at a distance of 51 Kms. and above from the nearest statutory town. (Table 40).

As per distribution of villages with amenity according to population ranges there are 95 villages constituting 96.9 percent with population ranging 1-499 have the education amenity available to them within their revenue limits. 251 villages (99.6 percent) in 500-999-population size, 331 villages (100.0 percent) in 1,000-1999, 203 villages (100.0 percent) in 2,000-4,999, 29 villages (100.0 percent) in 5,000-9999 and 8 villages also have cent percent educational amenity in 10,000 and beyond population range.

Medical

Medical amenity of any type specified in the village directory is available in 409 villages constituting 44.4 percent and it cover 64.0 percent of the rural population. The amenities of health centers, sub centers and dispensaries do not serve only the resident population of concerned villages but also those residing in surrounding villages.

409 villages, out of 921 inhabited villages have medical amenity within their revenue limits and 512 villages do not have any type of medical amenity within their revenue limits. Of these, as many as 35 and 307 villages are situated at a distance of less than 5 Kms. with reference to the nearest place with Hospital and PHCs respectively. Another 117 and 393 villages are located at a distance 5-10 Kms. from the Hospital and PHCs respectively. But in the case of 767 and 202 villages, the resident have to travel more than 10 Kms. to reach a place where the Hospital land PHC respectively as located.

As per the distribution of villages with amenity from the nearest statutory towns, 4 villages (21.1 percent of villages) are at a distance 5 Kms. from the nearest statutory town; 131 villages (49.4percent) at a distance of 5-15 Kms.; 273 villages (43.0percent) at a distance of 16-50 Kms.; and only one village at a distance range of 51 Kms. and above from the nearest statutory town.

As per the distribution of villages, according to population range, the medical amenity is available to17 villages (17.3 percent). With population less than 500; 60 villages (23.8 percent) with population 500-999; 131 villages (39.6 percent) with population range 1000-1999; 168 villages (82.8 percent). With population range 2000-4999; 25 villages (86.2 percent) with population range 5000-9999 and remaining 8 villages (cent-percent of villages) with population range of 10000 and above within their revenue limits. (Table-41).

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Drinking Water

Drinking water supplied from a tap or hand pumps or tube wells situated within or outside premises is considered as 'improved water amenity'. This amenity is available in 913 villages (99.1 percent) and 99.6 percent of rural population avails of this amenity.

There are 97 villages (99.0 percent) in population range of below 500 having this facility, 246 villages (97.6 percent) with population range 500-999, 330 villages (99.7 percent) with population range 1000-1999, 240 villages (cent percent) with population range 2000 and above avail this drinking water facility.

Postal

Post office facility includes Post Office; Telegraph office and Post and Telegraph Office. As regards rural areas of the district as a whole the amenity of post and telegraph is available to 306 (33.2 percent) villages out of 921 inhabited villages serving 59.0 percent of rural population of the district. Within 10 C.D. Blocks of the district, the percentage of villages having postal and telegraph amenity varies considerably. C.D. Block Udgir the post office amenity is available to as high as 43.2 percent of villages out of and 66.5 percent of rural population enjoying this facility.

Postal facilities are not available in 615 villages. Out of these the post office amenity is available to

476 villages at a distance of less than 5 kms, 133 villages at a distance of 5-10 Kms., 6 villages at a distance beyond 10 Kms. (Table 39).

As per distribution of villages according to the distance villages with amenities for nearest statutory town there are 6 villages (31.6 percent) at a distance range of less than 5 Kms. from the nearest statutory town; 94 villages (35.5 percent) at a distance range of 5-15 Kms.; 205 villages (32.3 percent) at a distance range of 16-50; and only 1 village at a distance of 51 Kms. and above from the nearest statutory town. (Table 40).

Among the 306 villages with facility of post and telegraph, 2 villages are having less than 500 population; 16 villages are in population range 500-999; 88 villages are in the range i.e. 1,000-1999; 164 villages are in the range of 2,000-4,999; 28 villages are in the range of 5,000-9,999; and only 8 villages with population range 10,000 and above.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Telephone

There are 413 villages with telephone amenity serving 62.4 percent of rural population of the district. In C.D. Block Latur telephone is available to a highest 86 villages serving of 73.5 percent of total villages, whereas Shirur-Anantpal C.D. Block with 15 villages ie, 29.4 percent coverage holds last rank. (Table-37, 38).

Telephone facility is available to 62.4 percent of rural population in the district. The highest proportion of population seen in Latur C.D. Block is 83.8 percent of population. And lowest proportion in Shirur-Anantpal C.D. Block i.e. 47.7 percent.

Telephone amenity is not available in 508 villages. Out of these, telephone amenity is available in as many as 174 villages at a distance of less than 5 kilometres; 137 village at a distance between 5-10 Kms.; and 197 villages at a distance of more than 10 Kms. (Table 39).

As per the distribution of villages according to distance range from nearest statutory town, 47.4 percent of villages are at a distance of less than 5 Kms.; 43.4 percent of villages at a distance range 5-15 Kms.; 45.4 percent of villages at a distance range 16-50 Kms.; only 1 village at a distance of 51 Kms.; and above (Table 40).

Among 413 villages (44.8 percent) with the amenity of telephone, 16 villages are having less than 500 population; 67 villages are in the population size 500-999; 155 villages are in the population size 1000-1999; 140 villages are in the population size 2000-4999; and 35 villages are in the population size 5000 and beyond (Table 41).

Transport and communication

Transport and communication includes bus service, rail facility and navigable waterways. If a bus stop of a railway station or navigable waterways is located within the territorial Jurisdiction of village, it is considered to have been served by such facility even it is little away from the actual settlement, 773 (83.9 percent) villages have communication facility available and serving 93.6 percent of rural population of the district. 113 villages in Latur C.D. Block constituting

(96.6percent) have the highest proportion of village where communication / transport amenity is available, while the Chakur C.D. Block with 69.9 percent coverage of village holds the last rank.

Transport communication facility is available to 93.6 percent of rural population in the district. The highest proportion of population is seen in Latur C.D. Block is 98.8 percent of population and lowest proportion of population in Chakur C.D. Block i.e. 88.8 percent, Latur, Shirur-Anantpal, Ausa, Deoni and Udgir C.D. Block have the percentage above the district average. (Table 38).

Out of 921 inhabited villages 148 villages do not have any communication amenity, of these 140 villages have to cover a distance up to 5 Kms. to reach a place with such amenity for 8 villages it is between 5-10 Kms.. The availability of this amenity depends upon the location of the village with reference to road. (Table 39).

According to distance range from the nearest statutory town 16 villages with less than 5 Kms. range 223 villages at a distance between 5-15 Kms., 532 villages at a distance 16-50 Kms. and only 2 villages at a distance of 51 Kms. and above from the nearest statutory town. (Table 40).

Among the 773 villages, 38 villages which have the availability of communication amenity within less than 500 population, for 188 villages in the range of 500-999; 310 villages in the range of 1,000-1,999; 200 villages in the range of 2,000-4,999; 29 villages in the range of 5,000-9,999 and only 8 villages in population range of 10,000 and above.

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Banking

The banking service is available in 101(11.0 percent) villages out of 921 inhabited villages serving 29.5 per cent of rural population of the district Latur C.D. Block with highest percent of villages (14.5 percent) while lowest percentage of villages (6.4 percent) in Jalkot C.D. Block.

Banking amenity available to 29.5 per cent of rural population in the district. The highest proportion of population (40.4 percent) seen in Chakur and lowest in Jalkot C.D. Block (19.8 percent). Renapur, Chakur, Shirur-Anantpal, Ausa and Deoni C.D. Block having proportion above the district (Rural) average.

Commercial banking service and co-operative banking service 858 and 838 villages do not have banking amenity, of these 262 and 357 villages having this amenity at a distance up to 5 Kms. 295 and 315 villages at a distance among 5-10 Kms. and 301 and 166 villages at a distance above 10 Kms. for such banking amenity.

According to the distance range from the nearest statutory town less than 5 Kms. there has been nil villages, 18 villages (6.8 percent) at a distance of 5-15 Kms. and 83 villages (13.1 percent) are at a distance 16-50 from the nearest statutory town.

Among 101 villages with amenity of banking, 4 villages with banking amenity are having less than 500 population, 1 village in the range of 500-999, 11 villages in the range of 1,000-1999, 53 villages in the range of 2,000-4,999, 24 villages in the range of 5,000-9,999 and remaining 8 villages in the range of 10,000 and above.

Agricultural Credit Societies

There are 578 villages having agricultural credit societies in the district. These villages serve 77.5 per cent of the rural population. The highest proportion of villages in Ahmadpur 94 (76.4 percent) and lowest proportion in C.D. Block Deoni 19 (33.9 percent) villages. 6 C.D. Block having proportion of villages above the district (Rural) average and remaining 4 C.D. Block have below the district average. (Table-37, 38).

343 villages are not having this amenity. Out of these, 252 villages are situated at a distance up to 5 Kms.; 53 villages at a distance between 5-10 Kms. where the amenity is available; 38 villages at a distance beyond 10 Kms.. (Table-39).

A perusal of the data on distribution of villages according to distance from nearest statutory town, it is seen that 10 villages are situated at a distance of less than 5 Kms. from the nearest statutory town; while 184 villages at a distance 5-15; 383 villages at a distance 16-50; and only one village is at distance 51 Kms. and above. (Table-40).

21 villages where this amenity is availability have population less than 500, 349 villages are with population range 500-1,999; 174 villages are with population 2,000-4,999 and the remaining 34 villages population 5,000 and above. (Table-41).

$ Transport communications includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Approch By Pucca Road

Road whether "Pucca or Kaccha" are the nerve system of district. They act as pull factor for the development and upliftment of the areas. Roads with macadam etc. come under pucca roads and the remaining are treated as kaccha roads.

Pucca road amenity is available to 768 villages (83.4 percent) out of 921 inhabited villages in the district. The highest proportion of villages seen in Ausa C.D.Block (92.2 percent) and lowest in Shirur-Anantpal C.D.Block (62.7 percent). Of the 10 C.D. Blocks, 6 C.D Blocks namely, C.D. Block Latur (90.6 percent), C.D. Block Renapur (83.5 percent), C.D. Block Jalkot (87.2percent), C.D. Block Ausa (92.2 percent) C.D. Block, Deoni (87.5 percent) and C.D. Block Udgir (88.4 percent) are above the district average (83.4 percent). While remaining 4 C.D. Blocks are below the district average.

A perusal of the data on distribution of villages according to distance from nearest statutory town, shows that 17 villages are situated at a distance of less than 5 Kms. from the nearest statutory town; 226 villages at a distance of 5-15 Kms.; 523 villages are at a distance range of 16-50 Kms.; only 2 villages are a distance from 51 Kms. and above from the nearest statutory town. (Table-40).

42 villages where this amenity is available has a population less than 500; 184 villages with population range 500-999; 305 villages with population 1,000-1,999; 200 villages with population range 2,000-4,999; 29 villages with population with 5,000-9,999; and remaining 8 villages with population range 10,000 and above. (Table-41).

Power Supply

919 villages are having power supply amenity in the district, two village are not having power supply amenity, which is located in Nilanga C.D. Block 140 villages. (98.6 percent) of Nilanga C.D. Block are enjoying this facility except two village. Remaining C.D. Blocks namely, C.D. Block Latur, C.D. Block Renapur, C.D. Block Ahmadpur, C.D. Block Jalkot, C.D. Block Chakur, C.D. Block Shirur-Anantpal, C.D. Block Ausa, C.D. Block Deoni and C.D. Block Udgir having this amenity in all inhabited villages. (Cent percent).

Total population in all C.D. Block namely, C.D Block Latur, C.D. Block Renapur, C.D. Block Ahmadpur, C.D. Block Jalkot, C.D. Block Chakur, C.D. Block Shirur-Anantpal, C.D. Block Ausa, C.D. Block Deoni and C.D. Block Udgir are enjoying power supply amenity except Nilanga C.D. Block having some proportion of population do not have this facility (99.9 percent).

The power supply is available to cent percent villages with population size 500-10,000 and above

population range. Two village does not have the power supply with population less than 500.

It may be summed up from forgoing paragraphs that in respect of availability of different type of amenities considered, the larger villages have an advantage over the smaller ones. Population size and availability of amenities are directly associated with each other.

TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Latur	117	96,906	90.4	17.8
2	Renapur	79	58,001	94.6	11.1
3	Ahmadpur	123	76,537	91.4	4.2
4	Jalkot	47	35,268	88.6	3.0
5	Chakur	83	68,500	91.9	7.6
6	Shirur-Anantpal	51	32,949	94.7	9.5
7	Ausa	128	122,919	92.5	8.4
8	Nilanga	142	100,824	91.5	6.7
9	Deoni	56	43,410	94.1	7.2
10	Udgir	95	75,878	88.2	4.0
	District Total:	**921**	**711,192**	**91.6**	**8.4**

Note : - Cultivable area = irrigated area + unirrigated area

For the district as a whole, total cultivated area is 91.6 percent of the total areas. C.D. Blocks exceeding the districts average the highest percentage of cultivated area are Shirur-Anantpal (94.7 percent); Remaining C.D. Blocks namely Renapur (94.6 percent); Deoni (94.1 percent); Ausa (92.5 percent) and Chakur (91.9 percent). The cultivated area in Nilanga C.D. Block is almost equal to districts average and the remaining four C.D. Blocks viz. Latur; Ahmadpur; Jalkot and Udgir are below the districts average cultivated area. Only 8.4 percent of the cultivated area is irrigated in the district. C.D. Block Latur (17.8 percent); C.D. Block Renapur (11.1 percent); and C.D Block Shirur-Anantpal (9.5 percent) have higher proportion of the cultivated area under irrigation compared to districts average, six C.D. Blocks are below the district average and Ausa C.D Block (8.4 percent) is equal to district's average cultivated area.

Table 43 gives per capita receipt and expenditure for each town in the district. The average per capita receipt for five towns of the district works out to Rs.250.8. Of these, Rs.104.3 are received through taxes and remaining Rs. 146.5 from all other sources. The total per capita expenditure incurred is Rs. 240.6. Of which Rs 23.0 are spent on General Administration, Rs. 49.8 on Public Health and Conveniences, Rs.57.2 on Public Works, Rs.1.2 on Public Institutions and Rs. 109.5 on Others. Among all the five towns, both the receipt and expenditure incurred is highest in the per capita receipt and expenditure in Udgir (MCl) i.e. Rs.685.7 and Rs. 686.2 respectively and lowest in Latur (MCl) Rs. 54.3 and Rs. 50.3 respectively.

TABLE 44 : SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Ahmadpur (M Cl)	3.9	3.1	3.1	1.1	0.3
2	Ausa (M Cl)	1.3	1.3	1.3	0.6	0.3
3	Latur (M Cl)	2.1	0.9	0.9	0.1	0.4
4	Nilanga (M Cl)	4.7	1.3	0.9	0.9	0.3
5	Udgir (M Cl)	2.1	1.6	1.6	0.3	0.3
	District Total	**2.3**	**1.2**	**1.2**	**0.3**	**0.3**

Table 44 shows the number of schools and colleges per ten thousand population in towns. On an average, there are 2.3 primary schools; 1.2 Junior secondary/Middle schools; and also Secondary/ Matriculation; 0.3 senior secondary and 0.3 colleges, in the district per 10,000 population.

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Ahmadpur (M Cl)	19
2	Ausa (M Cl)	13
3	Latur (M Cl)	13
4	Nilanga (M Cl)	9
5	Udgir (M Cl)	3
	Distrct Total	**11**

Table 45 gives the number of beds per ten thousand population in medical Institutions in towns. On an average, there are 11 beds per ten thousand population in urban areas of the district. Ahmadpur (M Cl) has maximum number of beds i.e. 19, followed by Ausa (M Cl) and Latur (M Cl) 13 beds, each Nilanga (M Cl) with 9 beds and Udgir (M Cl) with 3 beds in the district.

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Serial number	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Ahmadpur	35,805	3,122	8.7
2	Ausa	30,876	7,000	22.7
3	Latur	299,985	18,629	6.2
4	Nilanga	31,662	805	2.5
5	Udgir	91,933	12,510	13.6
	District Total	**490,261**	**42,066**	**8.6**

8.6 percent of the total population in the district is slum population. The percentage in slum population in Ahmadpur (M Cl) (8.7 percent), Ausa (M Cl) (22.7 percent) and Udgir (M Cl) (13.6 percent) is higher than the districts average. Slum population percentage in absolute terms slum population in Latur (M Cl) is highest among five towns having slum population i.e.18,629 forming 6.2 percent of the total town's population in the district.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Ahmadpur (M Cl)	Cotton Bales	Cotton Bales
		Groundnut Oil	Groundnut Oil
		Tanned Leather	Tanned Leather
2	Ausa (M Cl)	Wheat	Hand Made Paper
		Khadi Cloth	Khadi Cloth
		Hand Made Paper	Bricks
3	Latur (M Cl)	Sugar	Sugar
		Dal	Tur Dal
		Edible Oil	Edible Oil
4	Nilanga (M Cl)	Edible Oil	Jowar
		Jaggery	Udid (Black Gram)
		--	Tur
5	Udgir (M Cl)	Milk Powder	Jowar
		Lather Goods	Pulses
		Ghee	Cotton Bales

The main items manufactured in the district are Cotton bales, Groundnut oil, Tanned leather and leather goods, Wheat, Khadi cloth, Hand made paper, Sugar, Dal, Edible oil, Jaggery, Milk powder and Ghee and the chief export articles of the district are cotton bales, Groundnut oil, Tanned leather, Handmade paper, Khadi cloth, Bricks, Sugar, Edible oil, Jowar and pulses.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Bathroom means bathroom within the house

Toilet means toilet within the house

Drainage means closed and open drainage

The table 50 gives the percentage of households having improved drinking water source, Electricity, Bathroom, toilet and drainage facility available in the district. According to Census 2001 the amenity of improved drinking water is available for 320,513 households constituting 85.9 percent of the total households. In rural and urban areas of the district, this amenity is available for 248,766 (84.6 percent) and 71,747 (90.6 percent) respectively. Electricity is being enjoyed by 273,393 households (73.2 percent). In rural and urban areas of district, electricity is available to 202,237 households (68.8 percent) and 71,156 households (89.9 percent) respectively. The bathroom is available in 182,595 households (48.9 percent). For rural and urban areas this amenity is available for 127,840 households (43.5 percent) and 54,755 households (69.2 percent) respectively.

The amenity of toilet is available to 89,248 households constituting 23.9 percent of the total households in the district. In rural and urban areas, toilet facility is available for 39,969 (13.6 percent) and 49,279 households (62.2 percent) respectively.

The amenity of drainage is available for 177,206 households constituting 47.5 percent in the district. For rural and urban areas drainage amenity is available for 128,448 households (43.7 percent) and 48,758 households (61.6 percent) respectively.

Percentage in brackets

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 51 gives the number and percentage of households by type of fuel used for cooking in rural and urban areas.

Of the 373,283 households, 226,101 (60.6 percent) households use firewood for cooking; 50,877 (13.6 percent) households use crop residue; 26,267 (7.0 percent) households use cowdung cake; 1,071 (0.3 percent) households use electricity; 484 (0.1 percent) households use coal/lignite (charcoal); 37,495 (10.0 percent) households use cooking gas (L.P.G.); 938 (0.3 percent) households use Bio-gas; 28,386 (7.6 percent) households use kerosene; 770 (0.2 percent) households use other means for cooking; There are 894 households who reported no cooking (0.2 percent) being done by them.

In the rural areas, 202,995 households constituting (69.0 percent of the total households) use firewood for cooking. This is followed by 47,651 households using crop residue (16.2 percent); 25,721 (8.7 percent) households use cow dung cake; 953 (0.3 percent) households use electricity; 421 (0.1 percent) households use coal / lignite (charcoal); 7,696 (2.6 percent) households use cooking gas (L.P.G.); 669 (0.2 percent) households use Bio-gas; 6,889 (2.3

percent) households use kerosene; 734 (0.2 percent) household use other means for cooking. There are 386 (0.1 percent) households who reported no cooking being done by them.

It may be seen that while firewood continues to be the predominant fuel used in rural areas, the cooking gas in urban areas is used to a large extent.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 52 gives the number of households availing banking services and number of households having each of the specified asset in 2001.

There are 373,283 households, of which 294,115 are rural and 79,168 are urban. Of these, banking amenities are being availed of by 120,532 households of which 86,833 households are rural and 33,699 households urban. It may be seen that a higher proportion of households in urban areas (42.6 percent to total urban households) utilize the banking facility as compared to the rural areas (29.5 percent to the total rural households).

In the districts 61,617 households have radio transistor, 105,151 households have television; 22,657 households have telephone; 58,556 households have bicycles; 27,705 households have scooter; Motorcycle and Moped; 6,882 households have Car, Jeep and Van. It may be noticed that from the information available in the table that a higher proportion of households in the urban areas possess these specified assets. Of these 373,283 households, 219,439 households possess none of the above specified assets. In the rural and urban areas, there are 194,033 and 25,406 households respectively who do not possess any of the specified asset.

(viii) Major Social and Cultural events, Natural and Administrative developments and Significant activities during the decade.

During 1991-2001 decade, 5 new tahsils viz., Renapur, Jalkot, Chakur, Shirur-Anantpal and Deoni were created after 1991 census in Latur district.

(ix) Brief Description of Places of Religious, Historical or Archeological importance in the Villages and Places of Tourist interest in the towns of the district.

Most of the fairs held in the district are associated with the important duties and religions festivals. So far as trade is concerned, fairs are complementary to the weekly markets. In the fairs, the traders and shop keepers set up temporary stalls. Large quantities of agricultural produce and other articles of daily use are brought for sale, the people buy necessary articles in these fairs. In this district Shri siddheshwar fair at Latur is very famous. The fair start from Magh Vadhya Magh (Amavashya). Another important fair is at Hatttibet in Udgir tahsil. Thousands of people visit on every Ekadashi for darshana of Gangaram Maharaj Samadhi. The main fair is held on Ashwin Sud Dashami i.e. Dasara.

Place of Historical and Tourist importance

The district is situated on the plato and Maharashtra and the major portion of the district is plain. South west part of the district, i.e. part at Ausa, Nilanga and Udgir tahsils are hilly.

Hattibet

Hattibet is situated, near Devarjan village in Udgir tahsil. It is a beautiful place for tourists. There is a Samadhi of Gangaram Maharaj and thousands of people come for darshana. There aare famous caves on the hills which are visited by the tourirs. In 1946, Hyderabad freedom fighters fought here against Nizam ad sacrifice their lives.

Kharosa Caves

Kharosa village in Ausa tahsil is famous for caves. These caves are covered on the hill in the period of Vakatak emperors in 6th century. There are idols of Narsinha, Shiva-Parvati, Ravana, Kartikeya, Tandav Nrutya, Samudramanthan, Dhanurdhari and Ram carried on this hill.

Nilkantheshwar Mandir in Nilanga is very old temple and it is famous for hemadpanthi construction built in 12 the century. Also Keshavraj Mandir, jain Dharmapitha and Sural Shahvali Dargah are religious places in Latur town. In Ausa town the temple of Virnath Malkenath Maharaj is famous among the devotees.

Forts

There is a huge historical fort at Ausa. The fort is situated in a depression surroundd by high grounds on all the sides, so that from highest point one could have a view of the approaching armies in olden days even at a great distance while the main parts remain hidden from the later. There is a famous historical fort at Udgir. The Samadhi of Udgir Buva is located in this fort.

Latur

Latur is an ancient city and it is famous for ancient Nathas and Mandiras, Latur market is an ideal market in Maharashtra and has 16 roads around Ganjgolai and any person can go in the market from any of the road in a very short time. The town planner of Ganjgolai, Falyyajaddinsahab had designed this market.

(x) Major Characteristics of the district, Contribution of the district in the form of any Historical figure associated with the district

The district is covered mostly by Deccan trap a material of great use in building industry. Latur is the important market place in Maharashtra. In respect of transport and communication it has a uniquely advantageous location, there being road connections with all the major towns of Marathwada region. It is the collecting centre for udid, groundnut, jaggery, wheat, coriander seed and cotton, which are the important agricultural products of its surrounding areas. Merchants from such distant places as Madras, Gujarat and Mumbai come here for purchase of udid specially and for many other commodities.

In 1891 Lokamanya Tilak inspired the opening of Latur ginning factory. Due to this cotton production was increased. Because of this and Barshi Light Railway, Latur market went on to become the first grade market. The government accorded this market the highest status on 1st October 1982. Latur is one of the fastest growing cities of Maharashtra. It was a well laid out town plan. A circular market 'Golai' is the centre of the town forming the hub of activities from which radiate a number of streets.

Majority of the people in this district speak Marathi. Apart from this Hindi, Gujarati, Rajasthani, Urdu, Telugu, and Kanadi people are also staying in this district. They celebrate festivals like Gokulastami, Pola, Geneshostsav, Diwali, Dasara, Mahaveer Jayanti, Muharram, Id etc. in a big scale.

Contribution of the district

People of Latur had participated in the liberation movement of former State of Hyderabad. During the 1938-39 Arya Samaj's struggle against Nizam's regime, the freedom fighters of Latur, Udgir, Nilanga, Ahmadpur and Ausa tahsils came under the leadership of Late Vidyanand, Bansilal and Seshrao Waghmare and participated in a big way and even were put in the jail.

(xi) Scope of Village Directory and Town Directory

Information on this aspect is furnished in detail in the village and town directory statements and in a consolidated form in the appendix and also in the tables presented. The non-census information collected at the village level or town level by the Tahsildar / chief officer was scrutinized and verified in each district by the district planning officer / district

statistical officer. The Collectors were also requested to once again reverify the data in case serious discrepancies were observed. Logical tests were applied to the data and the officials of this directorate visited the districts to revalidate the data. Besides this, the non-census information was cross-checked with the parent department. For example information on electricity was cross checked with Maharashtra State Electricity Board, that on roads with Public Works Department, on health with the Directorate of Health and so on.

Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Column 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.<5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X are included in secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools respectively.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

This column provides data available on medical amenities in the village.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

Column 8 gives information regarding availability of drinking water within the village. In case more than one source is available to the village the same has been indicated.

Column 9 : Post, Telegraph and Telephone

Column 9 provides the postal facilities such as post office, telegraph office, post and telegraph office and telephone connections available in the village.

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc.the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given.

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given.

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded.

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water way, the same has been indicated in this column.

Column 14 : Approach to village

Approach to village refers to the state of road leading to village.

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

This column relates availability of Power Supply in the village.

Column 17 : News Paper / Magazine

If a village receives any News Paper/Magazines the same is noted in this column.

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23: Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Unirrigated land, Culturable waste and Area

not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) upto one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department.

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C. D. Block wise of the district.

Appendix-I-A Indicates number of villages C. D. Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / Non-municipal Towns.

Appendix-IV C. D. Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B List of villages according to the proportion of the Scheduled Tribes to the total Population by ranges.

Town Directory :

The town directory is presented for each town covering different aspects of urban life. In 2001 Census, Statement I – VII have been included for presentation of this data. The data contained in these statements are the area, population in 2001 and past Censuses, growth rates, density, sex ratio, physical aspects of towns, communications, municipal finance, civic, medical, and educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutory notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns the Tahsildar and cantonment executive officers supplied the information.

Statement I-Status and Growth History

Statement I shows the status and growth history of the towns in the district, column 2 in this statement indicates class, name and civic administration status of a town. Class of the town indicated under this column has been introduced to facilitate the analysis of town directory data at the State and National level. Census towns have no urban civic status.

Column 3 indicates location code number of the town, column 4 gives name of tahsil and column 5 shows the name of C.D.Block. Column 6 presents area in Sq. Kms., Column 7 presents number of households including houseless households.

Column 8 to 18 gives population and growth rate of town since 1901 and would help in drawing the trends in their growth rate, Column 19 presents density and Column 20 to 22 presents sex ratio.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with

distance from the referent town in kilometres, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV-Civic and other Amenities, 1999

Statement IV provides information on the civic and other amenities available in the town. Total population given under column 3 and Schedule Castes/ Scheduled Tribes population given in column 4 and 5 have been added to help in measuring amenities in respect of population size of the weaker sections in the towns. The information on the road length within the town shown under column 6 has been obtained from Municipality.

Column 7 to 12 reflects the information on system of sewerage, number of latrines, and method of disposal of night soil.

Column 13 indicates sources of protected water supply to the inhabitants of the towns. The information on storage and capacity is shown under column 14.

Column 15 gives information regarding availability of fire fighting services. In case it is not available in the referent town, the name of the nearest place where it is available has been mentioned and the distance from the town has also been indicated within brackets. Column 16 to 20 pertains to the number of electricity supply connections available for domestic, industrial, commercial and road lighting points etc.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 and 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, are treated as independent units.

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc.

Column 6 to 9 :

The information on educational facilities is reflected in columns 6 to 9

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

Schools upto class IV are treated as Primary or Elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like Middle schools with Primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P (4), M (3).

Column 15: Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational and cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded.

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : **Number of Agricultural Credit Societies and Non-Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non-Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area committee etc.

PART A
VILLAGE AND TOWN DIRECTORY

Section I - Village Directory

(a)Note Explaining the abbreviations used in Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X are included in secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12:Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable waterway they are mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If a village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE

(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A The appendix shows the list of villages according to proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B The appendix shows the list of villages according to proportion of the Scheduled Tribes to the total population by ranges.

Section II - Town Directory

(a) Note Explaining the abbreviations used in Town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows:

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board / Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate Office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Other columns need no comments

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different type of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) and others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 and 5 : Medical

The data covers all such medical institutions run by or aided by Government / Semi Government / Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family

planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres are treated as independent units and counted separately using following codes:

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution(s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

Column 6 to 9 :Educational

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocation institutions like - Applied Art / Painting college, Pharmacy college, B.Ed. college, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :Higher Secondary / Intermediate/ Senior Secondary /PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class IV are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats.

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of the nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities.

Stadium, Cinema, Auditorium / Drama / Community Hall are covered under recreational and cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading Room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies.

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area Committee etc.

PART B
PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the

quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 Census only main workers were presented in to four categories. One of the novel features of the Primary Census Abstract of 1991 Census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE - II

Fertility and Mortality, 1991 Census

Fertility Levels

Fertility is a major component of population growth. In the 1991 Census questions on fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year were asked. The first three questions were asked to all ever-married women and the last question related to currently married women. The measures of fertility worked out are based on the F-Series Tables of 1991 Census pertaining to Maharashtra State.

Mortality Levels

Information on the questions on children ever born and children surviving canvassed for all ever-married women have been tabulated by age of the mother. From this estimates of child mortality have been worked out by using brass technique.

ANNEXURE II (i)
Estimates of Child Mortality, 1991

Item		Latur District	Maharashtra State
		Total	Total
1	2	3	4
Q1	P	57	74
	M	64	72
	F	50	76
Q2	P	61	79
	M	69	78
	F	56	81
Q3	P	63	86
	M	63	84
	F	63	89
Q5	P	71	91
	M	67	89
	F	76	93

Mortality

From the estimate of child mortality (number of deaths by ages 1, 2, 3 and 5 given above as q(1), q (2), q (3) and q (5)). It is observed that the level of child mortality in the district is substantially lower as compared to the state in 1991 census. A notable feature is the lower female mortality compared to male mortality in the district as against higher female mortality for the state. However, the sex differentials in child mortality appear to be more pronounced in the district compared to the State.

ANNEXURE II (ii)
Estimate of Fertility Indicators at district level, Maharashtra, 1981 and 1991

Fertility Measures	Latur District		Maharashtra State	
	1981	1991	1981	1991
1	2	3	4	5
GFR	145	140	134	124
GMFR	169	165	168	157
TFR	4.6	4.3	4.3	3.7
TMFR	5.2	5.3	5.2	5.2
Crude Birth Rate (CBR)	32.5	31.2	31.8	29.8
No. of children ever born per women in the age group 45-49	--	4.6	--	4.2
Mean Age at Marriage	--	16.7	--	17.9
Child Women Ratio	--	64.3	--	49.6

Fertility

A perusal of the various fertility measures namely GFR (General Fertility Rates), GMFR (General Marital Fertility Rate), TFR (Total Fertility Rate), TMFR (Total Marital Fertility Rate), CBR (Crude Birth Rate) for the district vis-à-vis State reveals higher rates for the district as compared to State as a whole. In 1981, the GFR, GMFR, TFR, TMFR and CBR were 145, 169, 4.6, 5.2 and 32.5 respectively as compared with State average of 134, 168, 4.3, 5.2, and 31.8 in Census 1981. Similar trend is observed in 1991 Census. In 1991 GFR, GMFR, TFR, TMFR & CBR were 140, 165, 4.3, 5.3 and 31.2 respectively for the district as against the State average of 124, 157, 3.7, 5.2, and 29.8 respectively.

It may be seen that, while during both Census 1981 and 1991 the fertility rates are higher for the district than the State as a whole. But the gap in fertility rates between the district and the State has increased in 1991.

Mean age at marriage

Mean age at marriage was lower for the district than the State in 1991.

Child Woman Ratio

The Child Woman Ratio for 1991 Census i.e. the number of children 0-4 years age groups for every 1,000 women of 15-44 years age groups indicates a higher ratio for the district as compared to the State.

ANNEXURE III

Various Measures of Fertility and Mean Age at Marriage,1991

Urban	2,392,567	184,302	2,208,265
	32.7	2.5	30.2

Note: The place of last residence unclassifiable as 'Rural' or 'Urban' is included in 'Total'.

Of the total 34,225,081 intrastate migrants, 50.5 per cent are from rural to rural, 15.5 per cent from urban to urban, 19.9 per cent from rural to urban and 5.8 per cent from urban to rural. In case of Latur district of the total 646,681 interstate migrants 62.7 per cent are from rural to rural, 7.2 per cent from urban to urban, 18.3 per cent from rural to urban and 4.3 per cent from urban to rural.

ANNEXURE IV (x)

Rural And Urban Composition of Internal Migrants by Place of last Residence,2001 Census - Latur

Place of last residence	Place of Enumeration		
	Total	Rural	Urban
1	2	3	4
Total Internal Migrant :			
1) Within the State			
Total	646,681	468,700	177,981
	100.0	72.5	27.5
Rural	523,743	405,594	118,149
	81.0	62.7	18.3
Urban	74,499	28,022	46,477
	11.5	4.3	7.2
2) In other States of India			
Total	42,007	26,987	15,020
	100.0	64.2	35.8
Rural	31,275	23,176	8,099
	74.5	55.2	19.3
Urban	8,875	2,560	6,315
	21.1	6.1	15.0

Note: The place of last residence unclassifiable as 'Rural' or 'Urban' is included in 'Total'.

In case of 7,313,139 migrants from other states; 12.7 per cent have migrated from rural to rural, 30.2 per cent from urban to urban, 50.8 per cent from rural to urban and 2.5 per cent urban to rural. In

case of Latur district of the total 42,007 migrants, 55.2 per cent are from rural to rural, 15.0 per cent from urban to urban, 19.3 per cent from rural to urban and 6.1 per cent from urban to rural.

ANNEXURE IV (xi)
Percentage of migrants to total population, 1991-2001
Latur district

Serial number	Place of birth/Place of last residence	Total population	Total Migrants		
			Persons	Males	Females
1	**2**	3	4	5	6
1	**Migrants by place of birth**				
	2001 Census	2,080,285	672,126	171,383	500,743
			32.3	8.2	24.1
	1991 Census	1,676,641	489,019	113,308	375,711
			29.2	6.8	22.4
2	**Migrants by place of last residence**				
	2001 Census	2,080,285	688,773	178,874	509,899
			33.1	8.6	24.5
	1991 Census	1,676,641	498,423	115,078	383,345
			29.7	6.9	22.9

There are 672,126 (32.3 per cent) migrants by place of birth comprising 171,383 (8.2 per cent) males and 500,743 (24.1 per cent) females to total population in 2001. Similarly 688,773 (33.1 per cent) migrants by place of last residence comprising 178,874 (8.6 per cent) males and 509,899 (24.5 per cent) females to total population are found in Latur district.

It may be seen that the percentage of migrants by place of birth has marginally increased in Latur district during the decade 1991-2001.This observation holds good for migrants by place of last residence also.

Source : Table 31 of Maharashtra State District Profile 1991

Marathi is the principal language of the district and is the mother tongue of 81.4 per cent of the district population. In rural areas Marathi speakers account for 85.4 per cent whereas in urban areas 68.2 per cent. Urdu is the second largest language spoken in the district. It accounts for 7.6 per cent of the total

population. The proportion of Urdu speakers is higher in urban areas (17.6 per cent) than the rural areas (4.6 per cent). The third largest language spoken in the district is Hindi, its percentage to the total population is 5.9 and mainly spoken in urban areas by 8.9 per cent people, whereas 5.0 per cent in rural areas.

The speakers of the minority languages like Kannada, Marwari, Telugu and Vadari are mainly concentrated in urban and the remaining Banjari and Lamani/Lambadi are concentrated in rural areas.

It is found that during the last decade proportion of Marathi and Urdu speaking persons has decreased from 82.9 per cent to 81.4 per cent and 10.2 per cent to 7.6 per cent respectively while Hindi speakers proportion has increased from 2.8 per cent to 5.9 per cent.
