SCHEDULED CASTES TABLES

INTRODUCTORY NOTE

There are no Scheduled Tribes in Uttar Pradesh.

2. Part VA of the Census Report presents six Tables specially prepared from the material collected at the 1961 Census on Scheduled Castes. These Tables give the population of each Scheduled Caste and its distribution by sex, age, marital status, educational levels, religion and economic activity. There is a Table on household cultivation and another on non-workers for all Scheduled Castes combined. Such detailed information on Scheduled Castes has never been published before.

3. Article 46 of the Constitution reproduced below lays down :

> 'The State shall promote with special care the educational and economic interests of the weaker sections of the people, and, in particular, of the Scheduled Castes and Scheduled Tribes, and shall protect them from social injustice and all forms of exploitation'.

According to Article 341, the President may "with respect to any State or Union Territory, and where it is a State after consultation with the Governor thereof, by public notification, specify the castes, races or tribes or parts of or groups within castes, races, or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union Territory as the case may be."

The Parliament may by law include in or exclude from the list of Scheduled Castes specified in a notification issued under clause (1) any caste, race or tribe or part of or group within any caste, race or tribe, but save as aforesaid a notification issued under the said clause shall not be varied by any subsequent notification.

4. The Scheduled Castes and Scheduled Tribes have been last notified under the Government of India, Ministry of Home Affairs Notification No. SRO-2477A, dated the 29th October, 1956, issued under Article 341 (1) and 342 (2) of the Constitution. Extracts relevant to Uttar Pradesh are given below :—

The Scheduled Castes of 1951 differ to a slight extent from those of 1961 as follows :—

(i) 'Tarmali' has been added as a synonym to 'Pasi' in 1961 ;

(ii) Four more castes, viz., 'Balai', 'Khatik', 'Mazhabi' and 'Musahar', have since been added to the list as it existed in 1951 ; and,

(iii) 'Bhoksa' has now been taken off the list.

5. It will thus be observed that under the President's order while some castes are Scheduled Castes throughout the State, there are two which are so only in part of the State. A statement showing the total population of Scheduled Castes by persons, males and females according to the area restrictions is given below :—

6. At this Census information relating to Scheduled Castes has been collected through Question No. 5 of the Individual Slip. The instructions issued to enumerators for recording the answers to this question are reproduced below :—

"The answer to this question will be recorded only if a person belongs to a Scheduled Caste. If the person belongs to a Scheduled Caste obtaining in the State or in your district, write the name of the caste to which he belongs. For all others, write 'X' in this column. A list of Scheduled Castes obtaining in the State or in your district is given.

"If the person belonging to a Scheduled Caste returns his caste by a synonym or a generic name of a caste as given in your list, write the name as returned and the name of the relevant caste, as per printed list, within brackets.

"Do not write the names of Scheduled Castes in general terms as 'Harijan', 'Achhut'. You should ascertain the name of the caste when it is returned and write it. If a person is negligent and insists on calling himself merely 'Harijan' tell him that this description will not earn the person any benefits permissible under the Constitution. This may persuade him to give out the correct name.

"Scheduled Castes can belong only to the Hindu or Sikh religions. If a person belongs to a Scheduled Caste, there will be either 'H' or 'S' in the answer to Question 5(b)".

Despite specific instructions, vague returns have been made in many cases. The returns of Harijans had to be treated as 'Unclassified Scheduled Castes'. Persons so returned constitute 0·71 per cent of the total Scheduled Caste population. The list of Scheduled Castes gives only the names of the main castes and in some

cases synonyms. However, a caste is quite often known by a local name which may be either a generic name or a synonym. Enumerators were, therefore, supplied with lists of synonyms and generic names which proved useful at the stages of enumeration, sorting and compilation.

7. The list of Tables is given below :

SCT-I Part A	Industrial Classification of Persons at Work and Non-workers by Sex for Scheduled Castes.
SCT-II Part A	Age and Marital Status for Scheduled Castes.
SCT-III Part A(i)	Education in Urban Areas only for Scheduled Castes.
Part B(i)	Education in Rural Areas only for Scheduled Castes.
SCT-IV Part A	Religion for Scheduled Castes.
SCT-V Part A	Sample Households Engaged in cultivation classified by Interest in Land and Size of Land Cultivated in Rural Areas only.
SC-I	Persons not at work classified by sex, type of activity and educational levels.

Tables which concern Scheduled Tribes have been omitted. All Tables, except SCT-V, are based on full count. Table SCT-V is based on a 20 per cent sample of households drawn from Household Schedules and processed by mechanical tabulation. As all returns of Scheduled Castes are from Hindus only, Table SCT-IV has not been prepared.

8. The concepts of 'Worker' and 'Non-worker' and the broad industrial categories of work are explained as under :—

Workers and Non-workers

In 1951 the population was classified into eight livelihood classes and each class was further divided with reference to economic status into—

(i) self-supporting persons ;
(ii) earning dependents ; and
(iii) non-earning dependents.

The concept of dependence has been abandoned in the economic classification of the 1961 Census. Instead, the population has been classified into 'workers' and 'non-workers'. The emphasis is on work and not on income or economic dependence.

A person is classified as worker if—

(*a*) in the case of seasonal work like cultivation, livestock, dairying, household industry, etc., he has had some regular work of more than one hour a day throughout the greater part of the working season ; and

(*b*) in the case of regular employment in any industry, trade, profession, or service, he was employed during any of the fifteen days preceding the day of enumerator's visit to the household.

A person who was absent from work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes has been treated as a worker. A person who had been offered work but had not actually joined has been treated as a non-worker.

"Work" includes not only actual work but effective supervision and direction of work also.

Persons under training as apprentices with or without stipend or wages have been regarded as workers.

An adult woman engaged in household duties but doing no other productive work to augment the family resources has not been considered as working. If, however, in addition to her household work she engaged herself in work such as rice-pounding for sale or wages, or domestic service for wages, or minding cattle, or selling firewood, or making and selling cowdung cakes, cutting and selling grass, etc., she has been treated as a worker.

Persons like beggars, pensioners, or receivers of agricultural or non-agricultural royalty, rent or dividend who earn an income, but who are not participating in any productive work, have not been treated as workers unless they also work in cultivation, industry, trade, profession, or service.

A public or social service worker who is engaged in public service activity or a political worker who is actively engaged in furthering the political activity of his party has been regarded as a worker.

The population classified as 'workers' is the economically active population, including family workers.

The Census questionnaire did not have any question to determine the extent of full employment or underemployment.

Classification of workers doing two or more different types of work has been done on the basis of their principal work, i.e., the work which takes larger portion of their time and not necessarily the work which earns larger portion of their income.

Persons who have not been included among 'workers' have been classified as 'non-workers'.

Broad Industrial Categories of Workers

Workers have been further classified by sex into the following nine categories of economic activity:—

I. As Cultivator.
II. As Agricultural Labourer.
III. In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities.
IV. At Household Industry.
V. In Manufacturing other than Household Industry.
VI. In Construction.
VII. In Trade and Commerce.
VIII. In Transport, Storage and Communications.
IX. In Other Services.

Category I

This category includes both the owner cultivators and tenant cultivators. Along with workers personally doing work on land are also included persons who are engaged in supervision or direction of cultivation. All persons working in cultivation of land on which they have either ownership or tenancy rights are included in this category.

Category II

All other persons working on land as labourers on wages without holding any rights upon the land are classified as agricultural labourers and included in the second category.

Category III

Workers in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities are included in this category.

Category IV

'Household Industry' is defined as an industry conducted by the head of the household himself and/or mainly by members of the household at home or within the village in rural areas and *only at home in urban areas.* A Household industry is not run on the scale of a registered factory. Thus, the main criterion for a household industry is the participation of one or more members of a household in rural areas. In the urban areas, household industry is confined to the home.

A household industry relates to production, processing, servicing, repairing or making and selling of goods. It does not include professions. Persons working in another persons's household industry as paid employees are also treated as workers at household industry.

Category V

'Manufacturing' includes all types of production, processing, servicing or repairing of goods. This category does not include production or processing which may be classified as household industry.

Category VI

This category includes workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph and telephone lines, canals, waterways, reserviors, etc.

Category VII

This category includes workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estate and properties, stocks and shares, insurance, moneylending, banking, etc.

Category VIII

This category includes workers engaged in transport activities by air, rail, road or water and in services incidental to transport, such as, packing, carting, loading, unloading, etc. Workers engaged in storage, warehousing and communication services, such as, Posts, Telegraphs, Telephones, Wireless Signalling, Information and Broadcasting are also included in this category.

Category IX

This category includes (i) public utility services like electricity or gas or water supply or sanitary services; (ii) Central, State or Municipal employees in administrative departments and offices ; (iii) professional services ; and (iv) trade or labour associations, recreation services, etc.

Size and Distribution of Scheduled Caste Population

9. The population of Scheduled Castes in this State is 15,399,881 which is 20·88 per cent of the total population of the State. The following Table gives the

TABLE SCT-I—INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX

Fly-Leaf

This Table presents data for the State, Divisions and Districts for their rural and urban area separately. This is a very important Table as it gives population of each Scheduled Caste separately alongwith the sector (s) of industry in which the members of each Scheduled Caste are engaged. The classification of Scheduled Caste population by economic activity is into workers and non-workers and of the workers into nine broad industrial categories. The description of the concept of workers and non-workers and the nine industrial categories (I to IX) will be found in the Introductory Note. The proportion of workers for rural and urban areas and for males and females out of the Scheduled Caste population and the General population of the State are as follows:

	Proportion of workers to total population of each sex	
	Rural	Urban
General Population		
Males	59·20	51·74
Females	19·90	5·34
Scheduled Caste Population		
Males	60·45	54·60
Females	28·67	11·90

For males in rural areas, the labour participation rate (proportion of workers to total population) among the Scheduled Castes is slightly higher than that of the General Population. In urban areas it is higher by about three points. For Scheduled Caste females, however, the participation rate is higher only in the rural area.

2. The last group of 'Unclassified Scheduled Caste' given in the Table is of persons who were returned as belonging to Scheduled Castes but in whose case the name of the Scheduled Caste concerned had not been entered in the Census Slip.

3. A special feature of this Table is the presentation of data in special occupations of (i) tanning and currying of hides and skins, and (ii) scavenging, in which some members of Scheduled Castes are working. The number of persons shown as engaged in these two occupations consists of only those who are engaged in them as their principal work.
