VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

Samir Kumar Biswas
of the Indian Administrative Service
Director of Census Operations, Maharashtra

Product Code Number

MOTIF

Mahoor Fort

Mahoor Fort is encircled on the three sides by Penganga River and the access from these sides is very difficult. The fort is to be seen in all the majesty of its ramparts, built along the ridge of two high hills lends a very charming view and attracts the attention of the visitors form a long distance. The fortifications cover a circumference of about 9 kms. and run across the ridges of the two hills.

The place is also revered as a place of birth of God Dattatraya.

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and collage),

medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri Samir Kumar Biswas, Director of Census Operations, Maharashtra. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective State Governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated: 17.10.2006

Preface

The Registrar General and Census Commissioner of India has in his foreword to this series of publications, not only provided the reader with the historical background of the District Census Handbooks but has also explained at some length the scope and coverage envisaged for this country-wide project. This volume contains the salient results based on the data gathered at the actual head-count and in addition contain a wealth of other non-census information in respect of Villages and Towns of the District. It is hoped that this volume would go a long way to meet the ever-increasing demand for the micro-level data in this era-planned development.

District Census Handbook of Maharashtra is a joint venture of the Government of Maharashtra and the Census Organization of the Government of India. The design for the 2001 District Census Handbook was evolved centrally by the Census Commissioner, India. In the preparation of the District Census Handbook, the role played by the Census Organization is that of data gatherer. In accomplishing this task we have had the ready and whole-hearted co-operation of the staff at various levels of different departments of the State Government. Much of the data so provided by this field –level officers have been cross checked with the data obtained from various departments and an attempt has been made to reconcile the discrepencies as well. The Village Directory data in addition were also examined logically and possible errors list generated village wise for select facilities was rechecked and revalidated with the revenue officers in the respective collectorate.

I am extremely grateful to Shri D.K. Sikri, Additional Secretary and Registrar General, India for his guidance in bringing out this publication. I am equally grateful to Shri J. K. Banthia, I.A.S. the former Registrar General and Census Commissioner, India for his constant inspiration, help and guidance at every stage.

I also express my thanks to Dr. R.P. Singh, Dy. Registrar General, India (Map), Shri R.G. Mitra, Dy. Registrar General, India (Census Division), Dr. I.C. Agrawal, Assistant Registrar General (SS Division), Shri S.L. Jain Deputy Director (SS Division), Shri C.S. Arora, Director (EDP), Shri Himakar, Additional Director (EDP), Shri M.R. Balakrishnan, Joint Director (EDP), Shri Anil Kumar, Deputy Director (EDP) and their colleagues for their co-operation and support in bringing out this volume.

Shri Samir Kumar Biswas, IAS held the office of Director of Census Operations, Maharashtra and guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the direction and guidance of Shri Biswas. We would deem it our duty; therefore, to offer him our sincere and grateful thanks for all that he did for this project.

In this Directorate, Shri R.S. Meena, Joint Director guided this project in a meticulous manner and received all help from Dr. S.S. Hiremath, Deputy Director. The DCHB unit was spearheaded by Smt. Sushma Monga, Assistant Director, who was on deputation from the Planning Commission, New Delhi.

The physical features have been concurred by the Map section, after incorporating necessary changes, wherever required. The Maps, inserted are prepared by the Cartography section under the guidance of Shri D.N. Chaurasia, R.O.

I take this opportunity to offer my grateful thanks to all officials in various grades who have been actively involved in voluminous work of compilation and preparation of this volume. The list of the officials of this Directorate closely associated with this work is given separately.

STATEMENT 1

NAME OF THE HEADQUARTERS OF DISTRICT/TAHSIL, THEIR RURAL-URBAN STATUS AND DISTANCE FROM DISTRICT HEADQUARTERS, 2001

Serial number	Name of District/Tahsil	Name of District/Tahsil headquarters	Whether Urban/ Rural	Distance from tahsil headquarters to district headquarters by road (in km.)
1	**2**	**3**	**4**	**5**
	Nanded*	**Nanded**	**Urban***	**0**
1	Mahoor	Mahoor	Rural	195
2	Kinwat*	Kinwat	Urban*	150
3	Himayatnagar*	Himayatnagar	Rural	107
4	Hadgaon	Hadgaon	Urban*	62
5	Ardhapur	Ardhapur	Rural	5
6	Nanded*	Nanded	Urban*	0
7	Mudkhed*	Mudkhed	Urban*	25
8	Bhokar*	Bhokar	Rural	70
9	Umri*	Peth Umri	Urban*	42
10	Dharmabad*	Dharmabad	Urban*	100
11	Biloli	Biloli	Urban*	99
12	Naigaon (Khairgaon)	Naigaon (Khairgaon)	Rural	32
13	Loha	Loha	Urban*	40
14	Kandhar	Kandhar	Urban*	52
15	Mukhed	Mukhed	Urban*	75
16	Deglur	Deglur	Urban*	82

Note: * In column 2 denotes that the district/tahsil headquarters is a rail head.

* In column 4 denotes that the district/tahsil headquarters is a statutory town.

STATEMENT 2

NAME OF THE HEADQUARTERS OF DISTRICT/C. D. BLOCK THEIR RURAL-URBAN STATUS AND DISTANCE FROM DISTRICT HEADQUARTERS, 2001

Serial Number	Name of District/C.D. Block#	Name of District/C.D. Block headquarters	Whether Urban/	Rural	Distance from C.D. Block headquarters to district headquarters by Road (in km.)
1	2	3	4		5
	Nanded*	**Nanded**	**Urban***		**0**
1	Mahoor	Mahoor	Rural		195
2	Kinwat*	Kinwat	Urban*		150
3	Himayatnagar*	Himayatnagar	Rural		107
4	Hadgaon	Hadgaon	Urban*		62
5	Ardhapur	Ardhapur	Rural		5
6	Nanded*	Nanded	Urban*		0
7	Mudkhed*	Mudkhed	Urban*		25
8	Bhokar*	Bhokar	Rural		70
9	Umri*	Peth Umri	Urban*		42
10	Dharmabad*	Dharmabad	Urban*		100
11	Biloli	Biloli	Urban*		99
12	Naigaon (Khairgaon)	Naigaon (Khairgaon)	Rural		32
13	Loha	Loha	Urban*		40
14	Kandhar	Kandhar	Urban*		52
15	Mukhed	Mukhed	Urban*		75
16	Deglur	Deglur	Urban*		82

Note: * In column 2 denotes that the district/C.D. Block headquarters is a rail head.

* In column 4 denotes that the district/C.D. Block headquarters is a statutory town.

In Maharashtra, the C.D. Block and tahsil are co-terminus.

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of District Census Handbook

The origin of DCHB lay in the 1951 Census when it began as a joint venture between the Government of India and the State Government. The present volume pertaining to 2001 Census is sixth in series since then. The District Census Handbook (DCHB) is a unique publication from the Census Organization that, in a condensed form, gives details of the Census and non-Census information from the village level upwards to the district level. It has therefore, been acclaimed & recognized as one of the best source of information next only to the district gazetteer.

The District Census Handbook as published in 1951 incorporated, some basic demographic and economic information of the district, village wise and town wise separately, besides having some important Census Tables. However, it underwent a radical change in the 1961 Census as a much more descriptive account of the district and a lot of non-census information on climate, rainfall, agriculture, industry, education, etc. was added to it besides a number of cross tables being picked up from various series of Census tables. In 1971 the District Census Handbook was divided into Part - A relating to Village and Town Directory, Part - B containing village and town wise Primary Census Abstract and Part - C reported on the administrative aspect and Census tables based on Primary Census Abstract etc. For the state of Maharashtra only Part A and B were published. The 1981 Census again saw the scope of it increasing to contain the data on literacy rate, Primary Health Centers etc. It was published as part A and B and the same pattern was again followed in 1991. However, in 1991 some of the non-census data included information on girls schools, social forestry area etc. as separate Appendices. The DCHB, 2001 Census have been made more informative and exhaustive in terms of coverage and content. The scope of village directory has been broadened by including more types of facilities such as bank, recreational and cultural facilities, newspapers and magazines available in villages. Information on most important commodity manufactured in village and also income and expenditure of Gram Panchayat, wherever possible are provided. Specific details on distances, in case a basic amenity is not available in the referent village is also given. These include distances in respect of availability of primary and middle school and college (in respect of the educational facility), Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre (in respect of the medical facility), Drinking water, Post Office and Phone, Communication, Bank, Credit societies and Recreational facilities. The Non-Census information collected at the village level or town level by the Tahsildar/ Chief officer was scrutinized and verified in each district by the District Planning Officer and District Statistical Officer. The Collectorate were also requested to once again verify this in case serious discrepancies were observed. Logical checks were applied to the data and the scrutiny points which emerged after this exercise were further verified in the field by officials of this Directorate. With reference to the town concerned, the nearest city with 5 lakh and above population has also been given in addition to 1 lakh and above population. The non-census information was cross-checked with parent department also. For example, information on electricity was cross-checked with Maharashtra State Electricity Board, that on roads with Public Works Department, on health with the Directorate of health and so on. It is felt that because of this extra validation, information provided in the 2001 District Census Handbook should become more reliable and can be used without any hitch by Scholars and Planners alike.In town directory, information on all types of slums, whether notified/recognised by the respective town authority or not and in respect of all statutory towns irrespective of their class as against

only Class I and Class II towns of the 1981 and 1991 Censuses are provided. The varied basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. A number of tables based on Primary Census Abstract are also made to correlate data with geography of the tahsils A significant addition in the publication is inclusion of analytical notes as annexures on important aspects concerning Census data on (i) fertility, mortality and migration, (ii) various measures of fertility and mean age at marriage, (iii) percentage distribution of migrants by place of birth/place of last residence, (iv) main religions, (v) marital status of population, (vi) age, sex and education, and (vii) distribution of different mother tongue, all based on 1991 Census. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The Village and Town Directory as also the Primary Census Abstract included in this Handbook should quench the thirst of the planners involved in micro level planning.

(ii) Brief History of The District

The name Nanded is derived from its Sanskrit form Nanditat, which was so called probably because it comprised the territory on both the sides of the river Nandi. There are several explanations offered from the origin of the name Nanded given to the headquarters of the district. The bank of the Godavari where Nandi, the vahan of Lord Shiva is said to have performed penance come to be called the Nandi tat which later changed into Nanded. It is also said that nine rishis known as Nand performed penance on the bank of the Godavari and hence the name Nand tat. A third explanation is that it formed the boundary of tat of the nine Nanda rulers of Maghadha empire.

In ancient period, the district was included in Vidarbha region along with the modern districts of Amravati, Akola, Buldana, Yavatmal and Parbhani. In the same period, under the ruler of Bahamanis the district of Nanded formed part of the province of Bidar of Telangana. It included the towns and districts of Bidar, Kandhar (Nanded district), Indur, Kaulas, Kotgir and Medak. A part of Nanded district north of the river Godavari and south of Penganga formed part of the province of Berar. From the excavations in the neighbouring district of Ahmadnagar, it is suggested that Nanded region was also inhabited in the early stone age. With subsequent migrations the region went through different rules formed by the rulers of ancient period (such as Satavahanas, Chalukyas of Badami, Rashtrakutas and Yadavas of Devgiri). Mediaeval period (like Bahamanis, Nizamsahi, the Moghals and Marathas) and mordern period (such as Nizams of Hyderabad and Britishers).

Under the Moghals, Nanded district was roughly composed of two districts viz. Mahur and Nanded. Nanded was at that time the district headquarters. It stated that Mahur district was composed of 20 talukas and 1141 villages and Nanded district was composed of 30 talukas and 949 villages. In 1724, the district was passed under the Nizam's sovereignty. More than a third of the district was Jagir area under the Nizam's reign. The Nizam's own estate was clled "Sarf-e-Khas": which along with the other Jagirs were merged with the government area in 1949 under the Hyderabad, Regulation and the district formed part of the Hyderabad State.

Consequent upon the integration of Sarf-e-khas and jagir area, the boundaries of all the talukas were reconstituted in the year 1950. Two new mahals were created one with head quarters at Mukhed and other at Bhokar.

With the reorganization of States in 1956, the district of Nanded was transferred from Hyderabad State to Bombay State. The district forms a part of Maharashtra State since 1st May 1960.

At the time of 1981 Census the district comprised of 8 tahsils and 11 towns with 1425 inhabited villages. In 1991 Census, there is no change in the number of tahsils, however, the number of towns an inhabited villages have increased from 11 in 1981 to 13 in 1991 and 31 in 2001 and 1425 in 1981 to 1515 in 1991 and 1546 in 2001 census respectively.

(iii) Administrative Set-Up

There were Major changes in the administrative set-up of Maharashtra after the 1991 Census, resulting in increase of five districts. The number of division unchanged it is same in 1991 census and 2001 census. The number of districts rose from 30 in 1991 census

to 35 in 2001 census. Mumbai district of 1991 census divided into two forming Mumbai and Mumbai suburban districts. Similarly new districts Nandurbar, Washim, Hingoli and Gondia district were formed bifurcating, Dhule, Akola, Parbhani and Bhandara district respectively. Konkan division includes 6 districts, Nashik division has 5 districts, Pune division has 5 districts, Aurangabad division has 8 districts, Amravati division 5 districts and Nagpur division 6 districts. Nanded district is included in Aurangabad division. Thus for 2001 census the State has 35 districts spread over 6 divisions in Maharashtra. Nanded district presently has 13 towns and 1609 villages spread over 16 tahsils viz., Mahoor (93), Kinwat (190), Himayatnagar (73), Hadgaon (154), Ardhapur (56), Nanded (90), Mudkhed (53), Bhokar (83), Umri (66), Dharmabad (54), Biloli (89), Naigaon (Khairgaon) (90), Loha (125), Kandhar (127), Mukhed (151) and Deglur (115). The following statement indicates the changes, which occurred after 1991 census in the number of villages, towns in each tahsils and also the reason for variation in brief.

JURISDICTIONAL CHANGES DURING 1991-2001

Name of District/Tahsil	No. of villages as per 1991 Census as in Nanded district	No. of villages as per Adjusted as per 2001 Jurisdiction	No. of villages as per 2001 Census	No. of New villages created	No. of Towns 1991 census	No. of Towns 2001 census	Changes since 1991 and Govt. Notification No.
1	2	3	4	5	6	7	8
Nanded District	1580	1580	1609	33	13	13	8 new Tahsil s created after 1991 census. 33 New villages created after 1991 census. 3 villages merged in Nanded-Waghala M.Corp. 1 village received the status of new census Town.
1 Mahoor	-	83	93	10	-	-	83 Villages transferred from Kinwat tahsil 10 new villages created after 1991 census.
2 Kinwat	258	175	190	15	1	1	83 villages transferred to Mahoor tahsil 15 New villages created after 1991 census
3 Himayatnagar	-	73	73	-	-	-	73 villages transferred from Hadgaon Tahsil
4 Hadgaon	227	154	154	-	1	1	73 villages transferred to Himayatnagar Tahsil
5 Ardhapur	-	55	56	1	-	-	1 new villages created after 1991Census, 55 villages transferred from Nanded Tahsil
6 Nanded	197	94	90	-	3	2	48 villages transferred to Mudkhed Tahsil 55 Villages transferred to Ardhapur Tahsil 3 villages merged in Nanded-Waghala M.Corp 1 New census town created after 1991 census

JURISDICTIONAL CHANGES DURING 1991-2001 -(Contd.)

Name of District/Tahsil	No. of villages as per 1991 Census as in Nanded district	No. of villages as per Adjusted as per 2001 Jurisdiction	No. of villages as per 2001 Census	No. of New villages created	No. of Towns 1991 census	No. of Towns 2001 census	Changes since 1991 and Govt. Notification No.
1	2	3	4	5	6	7	8
7 Mudkhed	-	53	53	-	-	1	48 villages transferred from Nanded Tahsil. 5 Villages transferred from Bhokar tahsil
8 Bhokar	151	83	83	-	1	-	5 villages transferred to Mudkhed Tahsil 63 villages transferred to Umri Tahsil
9 Umri	-	66	66	-	-	1	3 villages transferred from Biloli Tahsil 63 villages transferred from Bhokar Tahsil
10 Dharmabad	-	54	54	-	-	1	54 villages transferred from Biloli Tahsil
11 Biloli	236	89	89	-	3	2	54 villages transferred to Dharmabad Tahsil 3 Villages transferred to Umri Tahsil 90 Villages transferred to Naigaon (Khairgaon) tahsil.
12 Naigaon (Khairgaon)	-	90	90	-	-	-	90 villages transferred from Biloli Tahsil
13 Loha	-	125	125	-	-	1	125 villages transferred from Kandhar Tahsil
14 Kandhar	252	127	127	-	2	1	125 villages transferred to Loha Tahsil
15 Mukhed	148	148	151	3	1	1	3 New villages created after 1991 census
16 Deglur	111	111	115	4	1	1	4 new villages created after 1991 Census.

For administrative purposes the district is divided into 3 sub-divisions viz., Nanded, Deglur and Kinwat and 16 tahsils. Nanded sub-division includes Nanded, Kandhar, Bhokar, Mudkhed, Ardhapur, Loha and Umri tahsils, Deglur sub-division includes Deglur, Biloli, Naigaon (Khairgaon), Mukhed and Dharmabad tahsils and Kinwat sub-division includes Kinwat, Mahoor, Hadgaon and Himayatnagar tahsils. The district collector alongwith the District, Judge superintendent of Police, Chief Executive officer of Zilla Parishad and other senior officers of the State Government look after the development and regulatory functions in the district. At the tahsil level the Tahsildars,Block Development Officer, Judicial Magistrate, Dy. Engineers and other officers look after their respective departments for development and regulatory functions. Municipal Commissioner is overall authority responsible for the civic affairs of the Municipal Corporation such as health and sanitation, supply of safe drinking water and taking preventive measures for the outbreak of epidemics etc.

Local self Governments, its composition, jurisdiction and the role in the Development.

Gram Panchayat is the lower most rung of the democratic set-up of India. It is governed by the 'Bombay Village Panchayat Act, 1958'. The 'Sarpanch' and in the absence of Sarpanch, the 'Upa-Sarpanch' preside over every meeting of 'Gram Sabha'. At least four meetings of the 'Gram Sabha' are held every year. Sarpanch and Upa-Sarpanch are elected from amongst the elected members of the Panchayat.

73rd Constitutional Amendment

To make Panchayat Raj Institutions strong and to give more power to the people, the State Panchayat Act has been amended in confirmation with the 73 rd Constitutional amendment, which is implemented in the State in April 1994. The Main fundamental provisions of the 73 rd Constitutional amendments are as follows:

1. Constitution of Panchayat Raj Institutions at Village, Intermediate (Development Block) and district level.

2. The seats and the offices of the chairpersons in the Panchayats at all the levels to be reserved in favour of Scheduled Castes and Scheduled Tribes in proportion to the percentage of population of the Scheduled Castes or Scheduled Tribes, as the case may be.

3. The elections to these Panchayat Raj Bodies to be held at the interval of every five years.

4. Powers, Authority and Responsibilities of Panchayats: -

(a)The preparation of plans for economic development and social justice

(b)The implementation of schemes for economic development and social justice as may be entrusted to them including those in relation to the matters listed in the Eleventh Schedule.

5. An independent State Election Commission to conduct the elections.

6. Powers to impose taxes by, and funds of, the Panchayats.

7. Constitution of Finance Commission by the State at the expiry of every five years term to review the financial position of the Panchayats and to make recommendation regarding distribution of State resources between the State and the Panchayat.

Constitution of Gram Panchayat

The gram panchayat consists of not less than seven and not more than seventeen members elected from wards on the basis of adult franchise. They hold office for a term of five years. Among these a few seats are reserved for persons belonging to the Scheduled Castes, the Scheduled Tribes, Backward Class of citizens and Women, as may be determined by the State Election Commission in the prescribed manner.

Administrative powers and duties of Panchayats

Administrative powers and duties of Panchayats are - to take care of the funds at its disposal, to take over and maintain water supply schemes through "Village Water Supply Fund", to make provision for carrying out within/outside the village any work subject to any directions made by State Government for any scheme or for any purpose sponsored by the Government, to make provision for carrying out work which is likely to promote health, safety, education, comfort, convenience or social or economic or cultural well- being of the inhabitants of the village, to make provision for entertainment, public reception, contribution towards annual gathering, to encourage farmers and co-operative societies to increase and improve agricultural production etc.

Powers and duties of Panchayats in the scheduled areas

Powers and duties of Panchayats are - to obtain from the Gram Sabha a certification of utilization of funds for the plans, programmes and projects, prospecting licence or mining lease for minor minerals, control on erection of building, to remove any obstructions and encroachments upon public streets and open sites etc.

Establishment, Budget and Accounts

The day to day work of the Panchayat is done by Secretary of panchayat. The Chief Executive

Officer of Zilla Parishad appoints the secretary of Panchayat. His salary is paid from the district fund.

The budget of the village Panchayat is submitted to the Panchayat samiti. It covers opening balance in the fund, estimated income, proposed expenditure and the amount to be contributed to the District Village Development Fund. The sanctioning authority of the village budget is panchayat samiti.

Taxation and Recovery of Claims

The taxes levied by the panchayat are - tax on buildings and lands, betterment charge or the lands benefited from schemes or projects undertaken by Panchayat from 'Village Fund', pilgrim tax, tax on fairs, festivals and other entertainments, tax on bicycles and on vehicles drawn by animals, tax on professions, trades, callings or employments, shop keeping and hotel-keeping, general sanitary cess, general water rate, a lighting tax, fee on markets and weekly bazars, fee on car stands/tonga stands, special water tax for water supplied through pipes, fee for the supply of water from well and tank for purposes other than domestic use and for cattle, fee for temporary occupation on public street, special sanitary cess upon private latrines, fee for cleaning cess pool, fee for grazing cattle, fee on the registration of animals, lump sum contribution by factories in lieu of taxes levied by Panchayat, farming of fees on markets, collection of cess on every rupee of land revenue etc.

Financial Assistance to Panchayats

Gram Panchayat receives financial assistance from the State Government, loan by Zilla Parishad, Equalisation grant, Village water supply fund and District village development fund.

Gram Panchayat-role in the Development of the village

Since the Gram Panchayat controls the village fund, it has an immense role in the Development of the villages. It makes reasonable provision within the village and submits to the Panchayat Samiti for approval. It supervises the village water supply scheme. It makes provision for carrying out within the village any work which promotes health, safety, education, comfort, convenience or social or economic or cultural well-being of the inhabitants of the village.

Gram Panchayat can make provision for any public reception, ceremony or entertainment within the villages or make contribution towards at annual gathering or such other gathering of Panchayats in the district or the state.

It encourages farmers of the village to make use of co-operative societies in increasing and improving agricultural production. It supervises primary schools situated within the area of its jurisdiction.

Last but not the least, it is duty bound to take measures for the amelioration of the condition of Scheduled Castes and Scheduled Tribes and other Backward Classes and in particular, in the removal of untouchability carry out the directions issued in this regard from time to time by the State Government.

Objectives of the Local Self Government

With a view to promote development of democratic institutions and to secure greater measure of participation by the people in Development Plans and in local and governmental affairs by decentralization of powers and functions, Zilla Parishad and Panchayat Samities (C. D. Blocks) have been established in the district of Maharashtra in the year 1962 under the Maharashtra Zilla Parishad and Panchayat Samiti Act of 1961. The jurisdiction of Zilla Parishad and Panchayat Samiti i.e. C.D. Blocks corresponds to the district and tahsil boundaries except that the statutory towns are not covered by them.

The local self bodies are working as agencies of State Government. The 73rd Constitutional Amendment gave local self bodies the constitutional status. The new power bestowed upon them gave a great impetus to the development plans and its implementation.

Zilla Parishad

The Zilla Parishad has the authority for the purposes of the Act over the area for which it is established. The authorities charged with carrying out the provision of this Act for each district are–

a) The Zilla Parishad

b) Panchayat Samitis

c) The Standing Committee

d) The Subjects Committees

e) Presiding authorities

f) The Chief Executive Officer

g) Block Development Officer

The Zilla Parishad is assisted in its function by number of departments and each department is headed by class I or class II officers of the State Services.

Zilla Parishad consists of councillors directly elected on the basis of adult franchise from electoral divisions in the district for a term of five years. The number of councillors being not more than seventy-five and not less than fifty. Some seats of councillors are reserved for the persons belonging to Scheduled Castes, Scheduled Tribes, Women and Backward Class citizens.

Grants to Zilla Parishad

1. Grant of 7 percent of forest revenue to Zilla Parishad.

2. Purposive grant – State Government pays every year to Zilla Parishad a grant for works and development schemes transferred to Zilla Parishad.

3. Establishment grant – State Government pays by way of establishment grant, the average cost on account of the salaries and allowances.

4. Local cess matching grant – State Government pays a local cess matching grant to be paid to Panchayat Samiti through the Zilla Parishad.

5. Incentive grant – State Government pays to Zilla Parishad an incentive to speedier development.

6. Grants for plan schemes – State Government pays grant for such works and development schemes relating to any subject enumerated in the district List as are included in the development plan of the State.

7. Block grant – State Government pays to each Panchayat Samiti through Zilla Parishad for carrying one such work and development scheme.

The development work of the district is carried out through the various committees appointed for the purpose by the Zilla Parishad. The executive power for the purpose of carrying out the provisions of the Act lies with the Chief Executive Officer, who is appointed by the State Government.

All the development work within the district is carried out by the Zilla Parishad through the District Fund at its disposal.

The Deputy Chief Executive Officer works as the ex-officio secretary of the Zilla Parishad.

Panchayat Samiti

Panchayat Samiti Consists of members elected by direct election, its jurisdiction being the C.D. Block. The term of the members is five years. The Block Development Officer is the ex-Officio Secretary of the Panchayat Samiti. The Chairman and Deputy Chairman are elected by and from amongst the members of the Panchayat Samiti.

The overall plan of work and development schemes within the block is prepared and executed by the Panchayat Samiti.

Devolution of Powers and functions.

As per the 73rd Constitutional Amendment, Articles 243-G and Schedule 11 of the Constitution, 29 subjects are to be transferred to the Panchayat Raj Institution. The State Government implemented this amendment in April 1994 and provisions were made in the State Panchayat Raj Act to transfer these subjects to the Zilla Parishads, Panchayat Samitis and the Village Panchayats.

Source : 1. Bombay Act No. III of 1959 (The Bombay Village Panchayats Act,1958).

2. Maharashtra Act No. V of 1962 (The Maharashtra Zilla Parishads and Panchayat Samitis Act, 1961).

3. 73rd Constitutional Amendment.

Urban Local Bodies

The statutory urban local bodies are cantonments, municipalities or municipal corporations. The urban local bodies elect a councillor from each of the wards and his term is 5 years. The President of the Municipal Council or the Mayor of the Corporation as also his Deputy

are elected from amongst elected councillors. The Chairmen of various committees are also elected from amongst the elected councillors. Although for day to day administration the Chief Officer is responsible in a municipal council, he works under the administrative control of the President of Municipal Council. In Corporations, a senior IAS Officer is deputed by the State Government as Municipal Commissioner who is responsible for day to day administration and the executive authority lies in him.

(iv) Physical features

Location and Size

Nanded district lies in the Godavari basin, in the southeastern part of the State. It is situated between 18° 16' to 19° 55' north latitudes and 76° 56' to 78° 22' east longitudes. It is surrounded by Yavatmal district to the north, Andhra Pradesh State to the east, Karnataka State to the south, Latur district to the southwest and Parbhani and Hingoli districts to the west.

Nanded – Waghala town is the headquarters town of the district to which it gives its name. It has a population of 430733 persons as per the 2001 Census and is famous for the Sikh Gurudwara. It is situated on the northern bank of the Godavari and has grown in importance as a commercial centre. It is a railway station on the Kacheguda-Manmad route of the central railway.

The district has an area of 10,528 sq.kms. and a population of 2,876,259 persons as per Census 2001. While the area of the district accounts for 3.4 percent of the total area of the State, the districts population constitutes 3.0 percent of the total population of the State. The density of population is 273 persons per sq. km. Among the 35 districts of the State, the district ranks 11th in terms of area, 12th in terms of population and 15th in terms of density.

Physiography

India has been divided into four macro level physical divisions i.e. The Northern Mountains, The Great Plains, The Deccan Plateau, and The Coastal Plains and Islands.

Maharashtra falls under two of these macro level divisions 1)The Deccan Plateau, and 2) The Coastal Plains and Islands. The north-south running Sahyadri range separates these two divisions. The Deccan Plateau lies to the east while the Coastal Plains and Islands lie to the west up to the Arabian Sea. The Deccan Plateau is much larger of the two divisions and includes twenty nine districts of the State while only six districts lie in the Coastal Plains and Islands.

The whole Deccan Plateau is sub-divided into 12 meso regions. Of these, only 2 meso regions i.e. Northern Maharashtra and The Maharashtra Plateau lie within the State. Northern Maharashtra is further divided into 2 micro regions i.e. The Tapi-Purna Valley and The Wardha-Penganga-Wainganga Plain. The Maharashtra Plateau is also further sub-divided into 2 micro regions i.e. The Eastern Plateau and The Western Plateau with Protruded Hills.

The Coastal Plains and Islands is divided into 4 meso regions i.e. Gujarat Region, Western Coastal Region, Eastern Coastal Region and The Islands. Of these, The Western Coastal Region covers Maharashtra. This region is divided into 4 micro level regions i.e. Maharashtra Littoral, Goa Coast, Karnataka Coast and North Kerala Coast. Only Maharashtra Littoral falls within the state of Maharashtra.

The hierarchy of these macro, meso and micro level physiographical divisions within Maharashtra State are as below :

(A) Deccan Plateau :

(i) Northern Maharashtra :

(a) Tapi-Purna Valley : Includes the districts of Nandurbar, Dhule, Jalgaon, Buldana, Akola, Washim and Amravati.

(b) Wardha-Penganga-Wainganga Plain : Includes the districts of Wardha, Nagpur, Yavatmal, Bhandara, Gondiya, Gadchiroli and Chandrapur.

(ii) Maharashtra Plateau :

(a) Eastern Maharashtra : Includes the districts of Aurangabad, Jalna, Parbhani, Hingoli, Nanded, Bid, Osmanabad, Latur, Solapur, Sangli and Kolhapur.

(b) Western Maharashtra with Protruded Hills: Includes the districts of Nashik, Ahmadnagar, Pune and Satara.

(B) Coastal Plains and Islands:

(i) Western Coastal Plains:

(a) Maharashtra Littoral : Includes the districts of Thane, Mumbai (Suburban), Mumbai, Raigarh, Ratnagiri and Sindhudurg.

Nanded district falls under the Eastern Plateau micro region of the Deccan Plateau. On the basis of local relief and other characteristics the district can be grouped into 5 sub-micro level divisions i.e. 1) Mukhed-Deglur Plateau, 2) Godavari Basin, 3) Bhokar Plateau, 4) Satmala and Nirmal Hills, and 5) Penganga Valley.

The Mukhed-Deglur Plateau includes the southern part of the district covering the entire tahsils of Mukhed and Deglur and parts of Loha, Kandhar, Naigaon-Khairgaon and Biloli. The plateau attains a height of around 450 meters and in general and descends down towards the east. The western part of the plateau in Loha and Kandhar tahsils is stony and has a thin layer of soil, as a consequence there is only one crop viz. Kharif. The eastern part consisting of Mukhed, Deglur and Biloli is more fertile and have a greater depth of soils. Hence, rabi crops are also grown in addition to the kharif crop.

The Godavari Basin is situated in the middle of the district spreading over the entire tahsils of Nanded, Ardhapur, Mudkhed, Umri and Dharmabad, and parts of Loha, Naigaon-Khairgaon and Biloli. It is a relatively a low land of the district and varies in height between 300 and 400 meters. It slopes gently towards the southeast. The Godavari river is deeply entrenched which makes canal irrigation difficult, but the rich soils on either bank are used for intensive cultivation of rice, chilies, cotton and jowar. Nanded, the district headquarters, is a large cotton market and is located in the basin. Intensive cultivation of vegetables is also carried out in the vicinity of towns.

Bhokar Plateau covers parts of Hadgaon, Himayatnagar and Bhokar tahsils. This plateau has an altitude varying between 400 and 550 meters and makes the water divide between the Godavari and the Penganga rivers. It is partly covered with dry mixed deciduous forests. The surface is stony in nature and the soils are thin. However, Jowar, Tur, Cotton, Sugarcane and in patches Bananas are grown.

Nirmal Hills are located in the southern part of Kinwat tahsil while Satmala Hills are located in Mahoor and the northern part of Kinwat tahsil. These hills are also known as Bhag or Thanvari or Kinwat Hills. These hills attain elevations varying between 450 and 600 meters. Most parts of these hills are covered by forests, which belong to dry mixed deciduous type of forests. The most valuable species found in these forests is teak. Other species found are bamboo, bhawda, babul and grass.

The Penganga Valley is a narrow strip, which covers parts of Hadgaon, Himayatnagar, Kinwat and Mahoor tahsils. The top of the valley has an altitude of nearly 500 meters and it descends to nearly 300 meters near the riverbed. It is an incised part between the high lands of Yavatmal and Nanded districts. Near the river, the valley has very deep black soils. The floodwaters of Penganga river may extend as far as half a mile and the extreme limit of this is marked by a line of mango trees. Within this flood zone Kharif Jowar is planted. If there is no serious floods in the year there is a rich crop of Jowar. On the other hand if the Jowar is washed away by floods, its stalks help in trapping the silt and hence a bumper crop of wheat is got during the rabbi season. Cotton, sugarcane and banana are also grown.

Drainage

Nanded district as a whole pertains to the Godavari drainage system. The Penganga, Manjra and Manar, all tributaries of the Godavari are the main rivers flowing in the district. The Godavari rises in the Sahyadri range near Trimbak in Nashik district and flows in a general southeasterly direction. Initially it has a general northeasterly course up to Mugat and thereafter it continues its south-easterly course up to its confluence with the Manjra. Thereafter it again resumes a northeasterly course. Within the district the Godavari has a length of about 140 Kms.. The river is deeply entrenched which makes canal irrigation difficult. The Manjra is the most important right bank tributary of the Godavari within the district. It rises in Andhra Pradesh and forms the district boundary on the southeast for a distance of about 40 Kms. up to its confluence with the Godavari. The Manar and Lendi are important tributaries of the Manjra. The Penganga river rises in the Ajantha

range a little to the south-west of Buldana town. It is a major tributary of the Wardha drainage system and drains the northern portion of the district. The river is deeply entrenched and has a meandering course. The Penganga forms the northern district boundary throughout its long sinuous course. The river changes twice from one longitudinal valley to a parallel longitudinal valley northwards by making big 'S' shaped curves.

Climate

The climate of the district is generally dry except during the south-west monsoon season. The year may be divided into four seasons. The hot season begins in March and extends upto the first week of June. This is followed by the south-east monsoon season which lasts till the end of September. October and the first half of November constitute the post-monsoon season and is followed by the cold season which lasts upto February.

Towards the end of November temperatures begin to fall rapidly. December is generally the coldest month of the year with the mean daily minimum temperature of about 13°C. The district is sometimes affected by the cold waves across north India and on such occasions the temperature may drop to about 5°C. The period from March to May is one of continuous rise in both day and night temperature. May is generally the hottest month of the year with the mean daily maximum temperature at about 42 ^{0} C. On individual days the temperature sometimes soars to 45^0 or 46^0 C. With the onset of the south-west monsoons by about the second week of June there is an appreciable drop in temperatures and the weather remains pleasant throughout the south-west monsoon season. With the withdrawal of the monsoons day temperatures increase slightly and a secondary maximum is reached in October. Thereafter both day and night temperatures begin to decrease.

The average annual rainfall in the district is 897.8 mm which is not evenly distributed .In general the amount of rainfall increases as one proceeds from west to east .About 88 per cent of the total rainfall is received during the south – west monsoon season. July is generally the rainiest month of the year .The variation of rainfall from year to year in the district is large.

The air is generally dry except during the southwest monsoon season when the relative humidity is high. The skies are generally clear or lightly clouded and the winds are light or moderate. During the southwest monsoon season the skies are heavily clouded to overcast and there is an increase in the force of winds. Thunderstorms occur in the summer and monsoon months, their frequency being higher in June and in September. Dust raising winds are common in the summer afternoons.

Natural Wealth

Minerals

The Deccan traps occupy more than two-thirds of the district. They overlie the granites over most of the area except at Dhagaon where they lie over infratrappean grits and sandstones. The Deccan traps are volcanic lava flows, which are spread out in the form of horizontal sheets or beds. The trap rocks are massive, thick-bedded, and uniform in composition, greenish grey in colour and medium grained. The transported recent deposits are confined to the valleys of rivers and streams. The oldest recent deposits occur at the bottom of these valleys or on the flanks of lower levels. The gravel beds consist of round of sub-rounded gravels of trap, chert and chalcedony in the valleys traversing the trap country. But in the grainite area there is a mixture of the above mentioned gravels and those derived from the granites. Silt and sand beds at places are intercalated with gravel beds and contain lime kankar nodules in abundance. There are two main types of soils. The traps on disintegration and decomposition give rise to a rich black cotton soil. The granites on decomposition give rise to a poor, coarse sandy to loamy soil. The sandy soil mostly consists of quartaz and felspar.

Trap rocks being hard, dense and durable are most suitable for building purposes, road metal, railway ballast and as an aggregate for concrete mixtures. Granites in various shades form excellent building stones. Green, red and variegated clays occur associated with limestones and cherts of the intertrappean beds. These clays are gritty and non-plastic, and are unsuitable for any economic use. The

rich red variety may be used in paints. White granular quartz suitable for glaws is available in enormous quantities from the quartz veins near Tarora. Kankar on burning yields good lime, which is locally used for construction purposes.

Fisheries

Fishing in the district is carried out mainly as a part-time occupation. The rivers Godavari, Penganga, Lendi, Manar and Manjra draining the district provide good scope for riverine fisheries. In addition to these rivers fishing is also carried out in tanks reservoirs and nalas. Fishing is done with cast nets, drift nets, drag nets and hook and lines. The chief fishing communities found in the district are Machindar Bhoi, Partik War, Nele War, Pardesi bhoi, Kadi Bhoi, Dembar Bhoi, Khe Bhoi and Koli.

Tam, Karooti, Murrel, Dokh, Patola, Tamboo and Baam are some of the commercial important varieties of fish cought in the district. Fast growing verities of major carps like Rohu, Catla and Mrigal are imported from Kolkata and are stocked in tanks so as to augment the fish supply.

Soils and Cropping Pattern

Of the soil forming factors topography shows a dominating influence on soil variations in the district. The soils of the district are mostly derived from the Deccan traps and are in general black and fertile. The calcium carbonate and clay contents of the soils are high but show wide variations. Deep fertile soils are confined to the valleys of rivers and streams. The best black soils are found in a narrow strip of land on the banks of the Godavari and its tributaries.

A thick layer of good black alluvial soil is found in the center of the district along the banks of Godavari and Manjra river covering Nanded, Deglur, Biloli, Dharmabad, Naigaon- Khairgaon and parts of Ardhapur, Mudkhed, Umri and Loha Tahsils. Hadgaon and Himayatnagar tahsils also have a thick layer of alluvial soils along the bank of Penganga river. Rice, Cotton, Bananas Chillies and Jowar are the main crops gown here. In the wide flood plain of Penganga Kharif Jowar is sown and if there is no serious flood there is a rich crop of Jowar. On the other hand if Jowar is washed away by the floods its stalks help in trapping the silt and as a result there is bumper crop wheat in the rabbi season.

The tahsils of Bhokar, Kinwat and Mahoor are hilly and hence soils are shallow and of inferior quality. Most of the area of Kinwat and Mahoor tahsils have extensive forest and barren areas.

South-Western portion of Kandhar and Mukhed tahsil have poor hilly soils which are stony, thin layered and undulating but the ground water resources are abundant and Sugarcane, Jowar, Cotton and Ambadi are main crops grown here.

Land and Land Use Pattern

The Ministry of Food and Agriculture, Government of India has recommended a standard pattern of land use classification for the maintenance of records. Columns 19 – 23 of the village directory give land use pattern in each village in the district. The data furnished here are based on the village records and pertain to the year 1999.

Forest

This includes all land classified as forest under any legal enactment dealing with forest or administered as forest, whether state owned or private and whether wooded or simply maintained as forest land. Within the forest area itself there may be occasionally cultivated patches or grazing lands, but such area are shown under column 19 as forest. The process of regularization of land grants and effecting relevant changes in the basic records of survey and settlement are somewhat protracted and time consuming. Therefore the information based on records is in some cases at least, likely to be different when compared with the actual field situation.

Irrigated by Source and Unirrigated land

Column 20 and 21 of the Village Directory give all the agricultural land and when added together would correspond to the net area shown plus the current and other fallow lands. Area shown more than once during the same year, if any, in the village is counted only once under this column. In column 20 source wise breakup of the irrigated area is furnished by using abbreviation. All lands that are lying uncultivated as fallow for more than 5 years in

succession are recorded as permanent fallow (Cultivable waste) and are covered under column 22.

The Concept of irrigation implies the existence of source of water supply within a reasonable distance and an arrangement to regulate the supply of the water according to the day-to-day needs of the crops raised in these fields. Naturally therefore all areas, which are cultivated under purely rain fed conditions, are treated as unirrigated lands.

Animal Husbandry

As per sixteenth Quinquennial census of livestoack of 1997, the information on important number of livestock and livestock indicators are given below.

Statement showing number of Livestock (Position as on 15th Oct. 1997)

1)	Total Cross bred/Indigenous Cattle	731,589
2)	Total Buffaloes	260,457
3)	Total Goats	356,413
4)	Total Sheep	50,170
5)	Total Pigs	19,502
6)	Total Equine	11,763
7)	Total Camels	82
8)	Total Rabbits	119
9)	Total Livestock (excluding dogs)	1,430,095
10)	Total Poultry (including Ducks)	520,779

Source: Sixteenth All India Livestock & Farm Equipment Census 1997.

The total livestock (excluding dogs) are 1,430,095 and total poultry (including ducks) are 520,779 in the district. Out of the total livestock, the total crossbred/ indigenous cattle are 731,589; total buffaloes are 260,457; and goats 356,413; sheep 50,170; pigs 19,502; equine11,763; and camels 82 and rabbits are 119.

Statement showing Selected Livestock indicators (Position as on 15th Oct. 1997).

	Category	Value
1)	Density of Livestock population (per sq.km.)	136
2)	Average Livestock per village	944
3)	No. of livestock per thousand human population	614
4)	No. of in-Milk cows per thousand human population	55
5)	No. of in-Milk buffaloes per thousand human population	37
6)	No. of poultry fowls per thousand human population	223
7)	No. of Bullocks and male Buffaloes per hundred hectares of gross cropped area	31
8)	No. of tractors per thousand hectares of gross cropped area	1
9)	No. of Veterinary Institute per lakh livestock	12

Source: Sixteenth All India Livestock & Farm Equipment Census 1997.

The density of livestock population per sq. km. works out to136, while average livestock per village is 944. For every thousand human population there are 614 livestock, 55 in-milk cows, 37 in-milk buffaloes and 223 poultry fowls. While there are 31 bullocks and male buffalloes per hundred hectares of gross cropped area and 1 tractors per thousand hectares of gross cropped area, the number of Veterinary institute per lakh livestock has reported to be 12.

Industry

Industrially, Maharashtra is one of the advanced states in the country. In Nanded district, the industries are newly developing. Availability of rail, road, transport, water, electricity and manpower have contributed in the development of various types of industries in the distict. Nanded is linked with south-central railway and it passes through the district. There is an old textile mill at Nanded. There are also many small size as well as big size industries functioning in the distict. The employment in non-agricultural sector mainly depends upon the cottage and village industries.

The 'Marathwada Textile Corporation (Texcom)' project established in the district is famous in Marathwada region. 'Sista' a private company in MIDC area, manufactures iron rods, tin sheets etc. Large-scale industries like fertilizer, pesticide factory, electric cable and wire, cement pipes, tiles and sugar factories are also located in the district.

The other processing industries like cotton ginning and pressing, oil mills and dal processing mills, cotton cloths are functioning at Pet Umri. Handloom cloth is also manufactured in Kandhar town. There are small scale units manufacturing oil cakes, steel cots, tiles, steel furniture and steel products in the district. These industries are generally located in all the towns. However, the small scale industries are mainly located at Phalwal in Kandhar tahsil and at Khanapur in Deglur tahsil. Other small scale industries like handloom weaving, tanning, carpentry and brick making etc. are also functioning in the district. Cheap power from Paras Thermal Station near Akola and the Hydro Electric Project on Purna river has helped to accelerate the industrial activity in the district.

Trade and Commerce

The main items manufactured in the district are handloom cloth, steel cots and vanaspati ghee. Kandhar (M Cl) is the main manufacturing centre for handloom cloth, steel cots and vanaspati ghee. While Biloli (M Cl) is main centre for rice products in Nanded district. Other towns are main centers for edible oil, sweet oil, steel products and choona. Deglur (M Cl) is the main manufacturing centre for steel products, choona and bidi.

The district exports rice, steel products, cotton bales, food grains etc. Deglur (M Cl) and Biloli (M Cl) are the main export centre of these products. The chief import articles are grocery, hardware, wooden goods, cloth, rice etc. are imported from Mumbai.

Transport

Transport includes bus/truck service, railway and waterways. The district is well connected by train and bus service with the adjoining districts of Parbhani, Osmanabad, Yavatmal and Latur district as well as other neighbouring states.

Transport

Number of Motor Vehicles registered in the district (as on 31.03.1999)

Motor Vehicles 1999		
	Item	No. of Vehicles
	1	2
1	Buses	454
2	Cars & Station Wagons	2,109
3	Jeeps	2,975
4	Taxies	142
5	Autorickshaws	4,265
6	Mopeds	14,625
7	Scooters	9,133
8	Motor Cycles	15,924
9	Total Goods Vehicles	4,768
10	Tractors	1,753
11	Trailors	1,614
12	Others	41
	Total	**57,803**

Source: Transport Commissioner office

It may be seen that the district had 15,924 Motor Cycles, 14,625 Mopeds and 9,133 scooters.There were 454 buses, 2,109 Cars and Station Wagons, 2,975 Jeeps, 142 taxies and 4,265 autorickshaws. Besides, 41 other modes of transport, the district also had 1,753 tractors and 1,614 trailors as means of transport.

Electricity and Power supply

The district enjoys a good proportion of electric supply. All the 13 towns and 1,531 villages out of 1,546 inhabited villages are enjoying the power supply amenity.

(v) Census concepts

Building :

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses :

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses :

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 metres and a breadth of at least 1.5 metres and a height of 2 metres. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house :

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership

flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000.

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Castes in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:

Scheduled Castes

1) Ager
2) Anamuk
3) Aray Mala
4) Arwa Mala
5) Bahna, Bahana
6) Bakad, Bant
7) Balahi, Balai
8) Basor, Burud, Bansor, Bansodi
9) Beda Jangam, Budga Jangam
10) Bedar
11) Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chamari, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar , Madar, Madig, Mochi, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Nona, Ramnami, Rohit, Samgar, Samagara, Satnami, Surjyabanshi, Surjyaramnami
12) Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli
13) Bindla
14) Byagara
15) Chalvadi, Channayya
16) Chenna Dasar, Holaya Dasar, Holeya Dasari
17) Dakkal, Dokkalwar
18) Dhor, Kakkayya, Kankayya, Dohor
19) Dom, Dumar
20) Ellamalvar, Yellammalawandlu
21) Ganda, Gandi
22) Garoda, Garo
23) Ghasi, Ghasia
24) Halleer
25) Halsar, Haslar, Hulasvar, Halasvar
26) Holar, Valhar
27) Holaya, Holer, Holeya, Holiya
28) Kaikadi (in Akola, Amravati, Bhandara, Gondiya, Buldana, Nagpur, Wardha and Yavatmal districts and Chandrapur district, other than Rajura tahsil)
29) Katia, Patharia
30) Khangar, Kanera, Mirdha
31) Khatik, Chikwa, Chikvi
32) Kolupulvandlu
33) Kori
34) Lingader
35) Madgi

36) Madiga
37) Mahar, Mehra, Taral, Dhegu Megu
38) Mahyavanshi, Dhed, Vankar, Maru Vankar
39) Mala
40) Mala Dasari
41) Mala Hannai
42) Mala Jangam
43) Mala Masti
44) Mala Sale, Netkani
45) Mala Sanyasi
46) Mang, Matang, Minimadig, Dhankhni Mang, Mang Mahashi, Madari, Garudi, Radhe Mang
47) Mang Garodi, Mang Garudi
48) Manne
49) Mashti
50) Meghval, Menghvar
51) Mitha Ayyalvar
52) Mukri
53) Nadia, Hadi
54) Pasi
55) Sansi
56) Shenva, Chenva, Sedma, Ravat
57) Sindhollu, Chindollu
58) Tirgar, Tirbanda
59) Turi

Scheduled Tribes

1) Andh
2) Baiga
3) Barda
4) Bavacha, Bamcha
5) Bhaina
6) Bharia Bhumia, Bhuinhar Bhumia, Pando
7) Bhattra
8) Bhil, Bhil Garasia, Dholi Bhil, Dungir Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave
9) Bhunjia
10) Binjhwar
11) Birhul, Birhor
12) Chodhara (excluding Akola, Amravati, Bhandara, Gondiya, Buldana, Chandrapur, Nagpur, Wardha, Yavatmal, Aurangabad, Jalna, Bid, Nanded, Osmanabad, Latur, Parbhani and Hingoli districts)
13) Dhanka, Tadvi, Tetaria, Valvi
14) Dhanwar
15) Dhodia
16) Dubla, Talavia, Halpati
17) Gamit, Gamta, Gavit, Mavchi, Padvi
18) Gond Rajgond, Arakh, Arrakh, Agaria, Asur, Badi Maria, Bada Maria, Bhatola, Bhimma, Bhuta, Koilabhuta, Koilabhuti, Bhar, Bisonhorn Maria, Chota Maria, Danddami Maria, Dhuru, Dhurwa, Dhoba, Dhulia, Dorla, Gaiki, Gatta, Gatti, Gaita, Gond, Gowari, Hill Maria, Kandra, Kalanga, Khatola, Koitar, Koya, Khirwar, Khirwara, Kucha Maria, Kuchaki Maria, Madia, Maria, Mana, Mannewar, Moghya, Mogia, Monghya, Mudia, Muria, Nagarchi, Naikpod, Nagwanshi, Ojha, Raj, Sonjhari Jhareka, Thatia, Thotya, Wade Maria, Vade Maria
19) Halba, Halbi
20) Kamar
21) Kathodi, Katkari, Dhor Kathodi, Dhor Kathkari, Son Kathodi, Son Katkari
22) Kawar, Kanwar, Kaur, Cherwa, Rathia, Tanwar, Chattri
23) Khairwar
24) Kharia
25) Kokna, Kokni, Kukna
26) Kol
27) Kolam, Mannervarlu
28) Koli Dhor, Tokre Koli, Kolcha, Kolgha
29) Koli Mahadev, Dongar Koli
30) Koli Malhar
31) Kondh, Khond, Kandh
32) Korku, Bopchi, Mouasi, Nihal, Nahul, Bondhi, Bondeya
33) Koya, Bhine Koya, Rajkoya
34) Nagesia, Nagasia
35) Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
36) Oraon, Dhangad
37) Pardhan, Pathari, Saroti
38) Pardhi; Advichincher, Phans Pardhi, Phanse Pardhi, Langoli Pardhi, Bahelia, Bahellia, Chita Pardhi, Shikari, Takankar, Takia
39) Parja
40) Patelia

41) Pomla
42) Rathawa
43) Sawar, Sawara
44) Thakur, Thakar, Ka Thakur, Ka Thakar, Ma Thakur, Ma Thakar
45) Thoti (in Aurangabad, Jalna, Bid, Nanded, Osmanabad, Latur, Parbhani and Hingoli districts and Rajura tahsil of Chandrapur district)
46) Varli
47) Vitolia, Kotwalia, Barodia

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops–tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate :

Percentage of workers (main + marginal) to total population.

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years.

Sex -ratio :

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which

are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine andMethod of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging.This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid–year Population.}} \times 1{,}000$$

Crude death rate(CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid–year Population}} \times 1{,}000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1{,}000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1{,}000$$

General fertility rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age group (15-49) years}} \times 1{,}000$$

General marital fertility rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1{,}000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = 5 \times \frac{\sum_{15\text{-}19}^{45\text{-}49} ASFR}{1{,}000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = 5 \times \frac{\sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1{,}000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age group}} \times 1{,}000$$

q1 Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 Probability of dying between birth and age 2.

q5 Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early neo- natal mortality rate :

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late neo-natal mortality rate :

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

Post neo-natal mortality rate (PNMR) :

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1,000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Still birth rate (SBR) :

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100,000$$

Eligible couple (Couples per 1,000 population) :

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child woman ratio (0-4) :

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9) :

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA/Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population are classified as Class I UAs./ Towns. These Class I UAs./Towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings – Population, its distribution

Brief Note on Census

Census taking is a massive operation carried out in a short span of time with the active participation of a veritable army of enumerators. The reference moment for the 2001 Census was the 00.00 hrs. March 1, 2001 i.e. the census provides a snapshot of the population of the country, as on 1st march 2001. Actual enumeration was spread over a period of 20 days from 9th February 2001 to 28 Feb.2001, followed by a rivisional round up to 5th March 2001 for updating of the population figures with reference to 00.00 hours of March 1, 2001. Household schedule having 23 questions regarding each and every person in the family is newly introduced in this Census. These questions are mainly self-explanatory and answers are in code language. Question No. 1 to 15 are related to general and socio-cultural characteristic individual. Question 16 to 20 is about economic activity of the person. Question 21 and 22 about migration and question no. 23 is for women, related to fertility. In addition one question is added in 2001 census which is related to household engaged in cultivation/ plantation in part III.

As a prelude to the actual Census, the urban and rural areas were identified and listed out in respect of each administrative unit. The Director of Census Operations has prepared the list of urban area (which is generally referred to as town list) and simultaneously, a list of villages. These lists form the basic frame for the organization of the Census Operations. Thereafter geographical area that could be conveniently covered out to constitute the enumerator's block.

The next major step was the house listing Operation that was carried in the state during May-June 2000. Thereafter, in order to adhere to the prescribed workload norms, the actual Census enumeration's blocks were carefully demarked on the basis of the layout sketches and the notional maps prepared was also utilised to collect wealth of information on items such as predominant construction material used for houses, amenities available to the Census households, number of living rooms etc. Information regarding number of bedrooms in the household, if couples having separate room, availability of amenities like telephone, TV, Car/ Scooter was asked first time in this Census. From this information we can have an idea of standard of living of the people in the country.

In Maharashtra, tahsil and the C.D.Block are co-terminus and therefore the data shown in tables on C.D.Blocks and the rural areas shown in the tables on tahsils are same.

Distribution of Population in Rural-Urban Areas

According to Census 2001, the district Nanded has a total population of 2,876,259 comprising of 1,481,358 males and 1,394,901 females. The population of the district in 2001 Census is 23.4 percent higher than the district population of 2,330,374 in 1991 Census. Nanded tahsil is most populous (5,98,969), while Umri is least populous tahsil (86,206). Other tahsils in order of population size are tahsil Mukhed (243030 persons), tahsil Hadgaon (224,354 persons), tahsil Kandhar (211,347 persons), tahsil Kinwat (210,630 persons), tahsil Loha (207,306 persons), tahsil Deglur (200627 persons), tahsil Naigaon (Khairgaon) (161,134 persons), tahsil Biloli (155,318 persons), tahsil Bhokar (119,229 persons) tahsil Ardhapur (98,755 persons), tahsil Mudkhed (97,286 persons), tahsil Himayatnagar (88,924 persons), tahsil Mahoor (86,782 persons), tahsil Dharmabad (86,362 persons) and tahsil Umari (86,206 persons).

An examination of rural-urban distribution of population reveals that 2,187,195 persons constituting 76.0 percent of the total population are concentrated in rural areas, while 689,064 persons, 24.0 percent are living in urban areas of the district. Although in absolute numbers, the number of people living in rural areas has increased from 1,824,234 in 1991 to 2,187,195 in 2001, in terms of percentage it has decreased from 78.3 percent in 1991 to 76.0 percent in Census 2001.

In the district there are 11 tahsils viz. tahsil Kinwat 11.8 percent, tahsil Hadgaon 10.4 percent tahsil Nanded 73.2 percent, tahsil Mudkhed 19.2 percent, tahsil Umri

12.9 percent, tahsil Dharmbad 34.7 percent tahsil Biloli 17.9 percent tahsil Loha 9.7 percent, tahsil Kandhar 9.8 percent, tahsil Mukhed 10.7 percent and tahsil Deglur 23.9 percent having urban population and remaining five tahsils have nil urban population.

The higest percentage of urban population is seen in tahsil Nanded 73.2 percent, while lowest percentage is in tahsil Loha 9.7 percent. Tahsil Mahoor, tahsil Himayatnagar, tahsil Ardhapur, tahsil Bhokar and tahsil Naigaon (Khairgaon) have nil urban areas.

TABLE 1 : DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001						1991	2001
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban		
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Mahoor	69,040	69,040	0	86,782	86,782	0	25.7	25.7	0.0	0.0	0.0

District Total:		**2,330,374**	**1,824,234**	**506,140**	**2,876,259**	**2,187,195**	**689,064**	**23.4**	**19.9**	**36.1**	**21.7**	**24.0**

According to Census 2001, the district Nanded has a total population of 2,876,259 comprising of 1,481,358 males and 1,394,901 females. The population of the district in 2001 Census is 23.4 percent higher than the district population of 2,330,374 in 1991 Census. Nanded tahsils is most populous (598,969), while Umari is least populous tahsil (86,206). The average growth rates for the rural and urban areas of the district are 19.9 percent and 36.1 percent respectively. In the rural areas for the district, six tahsils have growth rates above the district rural average (19.9 percent) and higher rural and urban growth rate is seen in Nanded tahsil (36.1percent) and (41.7percent) respectively followed by Hadgaon tahsil (41.7percent).

The proportion of urban to total population of Nanded district stood at 24.0 percent in Census 2001 as against 21.7 percent in 1991 Census. It is observed that the proportion of urban population has increased in 10 tahsils while slightly decreased in Kinwat tahsil from 12.6 to 11.8 percent. Five tahsils viz. Mahoor, Himayatnagar, Ardhapur, Bhokar and Naigaon (Khairgaon) do not have urban population.

TABLE 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200		Number and percentage of villages

Table 2 gives the percentage distribution of inhabited villages by population-size ranges in each tahsil in 2001 Census. Out of the 1,546 inhabited villages 43(2.8 percent) are small size with population below 200, 202(13.1percent) villages, in the size class 200-499, there are 476(30.8 percent) villages, with population size 500-999, 555(35.9 percent) are in the size class 1,000-1,999, 229(14.8 percent) villages are in the size class 2,000-4,999, 34(2.2 percent) villages are in the size class 5,000-9,999 and only 7(0.5 percent) villages have population 10,000 and above. For a broader generalisation villages have been further grouped as small size (below 500), Medium size (500-1,999), large size (2,000-4,999) and Exceptionally large size (5,000+). Within the district small size villages with less than 500 inhabitants account for 15.9 percent of the total inhabited villages, covering 3.6 percent of the rural population of the district. Medium size villages (500-1,999) constitute 66.7 percent of total inhabited villages covering 51.4 percent of the rural population, large size villages are 14.8 percent of total inhabited villages with 29.4 percent of the rural population and exceptionally large size (5,000+) villages are 2.7 percent of the total inhabited villages and cover 15.6 percent of the total rural population.

Within the sixteen tahsils of the district, percentage of villages with less than 200 population is the highest in Dharmabad tahsil (9.6 percent) and the lowest in Bhokar tahsil (1.2 percent). The percentage of 200-499 size villages is highest in Ardhapur tahsil (22.6 percent) and lowest in Mudkhed tahsil(7.8 percent), the percentage of villages in 500-999 size villages is highest in Mahoor tahsil (41.6 percent) and lowest in Ardhapur tahsil (17.0 percent), the percentage of villages in 1,000-1,999 size villages is highest in Dharmabad tahsil (44.2percent) and lowest in Ardhapur tahsil (24.5percent), the percentage of villages in 2,000-4,999 size villages is highest in Biloli tahsil (27.2 percent) and lowest in Mahoor tahsil (4.5 percent), the percentage of villages in 5,000-9,999 sized villages is highest in Nanded tahsil (5.9 percent) and lowest in Hadgaon tahsil (0.7percent). the percentage of villages in 10,000 and above size villages is highest in Nanded tahsil (2.4percent) and lowest in Hadgaon tahsil (0.7percent).

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town	
1	
(a) New	
(i) Statutory town	Nil
(ii) Census town	
1 Wajegaon	
(b) Denotified	
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns	Nil
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria	Nil
(iii) Census towns of 1991 census are notified as statutory town in 2001 census	Nil
(c) Declassified	Nil
(d) Wholly merged with other town(s)	
1 Waghala C. T. merged in Nanded -Waghala M. Corp.	

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

There is only one Census town namely Wajegaon newly created after 1991 Census. One Census town namely Waghala is wholly merged in Nanded Waghala (M.Corp). There is no denotified, declassified town for 2001 Census.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	36	2.3	18,011	0.8
11-20	6	0.4	996	0.0
21-50	48	3.1	25,359	1.2
51-100	130	8.4	89,967	4.1
101-200	535	34.6	624,388	28.5
201-300	473	30.6	732,450	33.5
301-500	254	16.4	445,071	20.3
501 +	64	4.1	250,953	11.5
Not known	0	0.0	0	0.0
District Total:	**1,546**	**100.0**	**2,187,195**	**100.0**

Population Density (Rural) of the district: 207

The density of population in rural areas of Nanded district is 207 persons per sq.kms. The distribution of villages by density ranges indicates that there are 1,008 villages with medium density ranges i.e. 101-300 accounting for 65.2 percent of the total inhabited villages. Very low densities of 11-20 persons are noticeable in 6 villages constituting 0.4 percent of the total inhabited villages. At the same time there are only a few villages that can be classified as having high density above 300. 4.1 percent of villages have a density of 501 and above persons (11.5 percent of population). There are 2.3 percent villages with density range less than 10 persons per sq.km.

TABLE 5 :SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	978	1,003	862	1,004	1,004	991
1911	966	1,000	796	995	996	975
1921	950	994	776	981	981	977
1931	947	987	790	966	969	931
1941	949	989	810	965	968	939
1951	941	1,000	807	983	988	959
1961	936	995	801	970	979	921
1971	930	985	820	955	967	900
1981	937	987	850	960	970	918
1991	934	972	875	945	955	913
2001	922	960	873	942	947	925

Note: Sex ratio has been defined here as the number of females per 1000 males.

Table-5 Shows the sex ratio for the district and the state. Census 2001 recorded a sex ratio of 942 females per 1000 males in the district. This is higher compared to the state average (922.) The sex ratio in Nanded district has remained higher than that of state. Since Census 1901. As regards total areas, sex ratio at the state level declined by 56 points and at district level, it declined by 62 points during the last 100 years. Similarly, the sex ratio for the rural areas of the state, decreased by 43 points and for the district, it decreased by 57 points during 1901-2001. For the urban areas of the state, the sex ratio increased by 11 points and for the district it decreased by 66 points during the above period (i.e.1901-2001)

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Mahoor	938	938	--
2	Kinwat	962	963	957
3	Himayatnagar	949	949	--
4	Hadgaon	941	943	924
5	Ardhapur	938	938	--

10	Dharmabad	981	987	969
11	Biloli	948	944	967

TABLE 6 : -(Contd.)

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
12	Naigaon (Khairgaon)	939	939	--
13	Loha	944	944	941
14	Kandhar	926	930	887
15	Mukhed	950	951	944
16	Deglur	953	953	953
	District Total:	**942**	**947**	**925**

Table 6 indicates the sex ratio by tahsils. There are 942 females for every thousand males in Nanded district. The sex ratio varies from 981 in Dharmabad tahsil to 921 in Nanded tahsil. It is also observed that the proportion of females in rural area is higher than urban areas. The district sex ratio for rural area is 947. The rural sex ratio of the tahsil varies from 987 in Dharmabad tahsil to 930 in Kandhar tahsil.

The district sex ratio for urban areas is 925. The sex ratio of urban area is highest in Dharmabad tahsil (969), which is above the districts urban average and the lowest in Nanded tahsil (916). 7 out of 11 tahsils viz tahsil Kinwat (957), Umri (936), Dharmabad (969), Biloli (967), Loha (941), Mukhed (944) and Deglur (953) respectively, are above the district's urban average while four are below the districts urban average. Tahsils Mahoor, Himayatnagar, Ardhapur and Bhokar do not have urban population..

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Mahoor	938
2	Kinwat	963
3	Himayatnagar	949
4	Hadgaon	943
5	Ardhapur	938
6	Nanded	932
7	Mudkhed	955
8	Bhokar	952
9	Umri	967
10	Dharmabad	987
11	Biloli	944
12	Naigaon (Khairgaon)	939
13	Loha	944
14	Kandhar	930
15	Mukhed	951
16	Deglur	953
	District (Rural) Total:	**947**

Table 7 gives the sex ratio for C. D. Blocks. Among the 16 C.D. Blocks, the sex ratio varies between 930 in Kandhar C.D. Block to 987 In C. D. Block Dharmabad. The total districts rural sex ratio is 947.C.D. Block Dharmabad has the highest sex ratio, while C. D. Block Kandhar has the lowest sex ratio. Out of 16 C.D. Blocks 8 C.D. Blocks viz. Kinwat (963), Himayatnagar (949), Mudkhed (955), Bhokar (952), Umri (967), Dharmabad (987), Mukhed (951) and Deglur (953) respectively are above the district rural average, while remaining 8 are below the district rural average.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	10	0.6	4,231	0.2
700-749	4	0.3	5,526	0.3
750-799	8	0.5	12,245	0.6
800-849	31	2.0	28,131	1.3
850-899	196	12.7	247,267	11.3
900-949	502	32.5	884,087	40.4
950-999	477	30.9	707,806	32.4

TABLE 8 -(Contd.)

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
1000-1099	293	19.0	286,752	13.1
1100+	25	1.6	11,150	0.5
District Total:	**1,546**	**100.0**	**2,187,195**	**100.0**

Sex ratio (Rural) for District: 947

A perusal of the table reveals that 502 villages constituting 32.5 percent of the total inhabited villages, covering 40.4 percent of the districts rural population has sex ratio in the range of 900-949. While 477 villages forming 30.9 percent of total inhabited villages covering 32.4 percent of total districts rural population have sex ratio in the range 950-999. 293 villages constituting 19.0 percent of total inhabited villages and covering population of 286752 (13.1 percent) of the total districts rural population has a sex ratio in the range 1000-1099. The sex ratio for 196 villages (12.7 percent) is in the range 850-899 and it covers 11.3 percent total districts rural population. The sex ratio for 25 villages (1.6 percent) is 1100 and above and it covers 0.5 percent of total districts rural population. The sex ratio for 43 villages (2.8 percent) covering 2.2 percent total districts rural population comes under 700-849 ranges. Only 10 villages comes under less than 700 sex ratio forming 0.6 percent villages and covering 0.2 percent of total districts rural population.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A/ Town	Urban status of town	Sex ratio

16	Deglur	24,944	13,032	11,912	914
	District (Rural) Total:	**369,342**	**191,438**	**177,904**	**929**

In the 16C.D. Blocks of the district, there are 191,438 males and 177,904 females as per 2001 Census. This works out to 929 females for every 1,000 males in the age-group 0-6 years. Thus the Sex Ratio in age group 0-6 years for rural area is 929. Out of 16 C.D. Blocks, 8 C.D. Blocks viz Kinwat (954), Hadgaon (932), Mudkhed (936), Umri (948), Dharmabad (950), Biloli (932), Loha (934) and Mukhed (933) respectively are above the district rural average while remaining 8 C.D. Blocks are below the district rural average.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	86	5.6	7,897	2.1
700-749	59	3.8	8,410	2.3
750-799	123	8.0	24,124	6.5
800-849	155	10.0	37,348	10.1

Census provides the necessary data about the Scheduled Castes andScheduled Tribes for evolving suitable plans for their Socio-economic upliftment and both the planners and administrators heavily depend on this data. The highlights of 2001 Census as that of the previous Census is the collection of detailed information on the Socio-economic characteristics of Scheduled Castes andScheduled Tribes.

The Scheduled Castes population at the time of 2001 Census in Nanded district is 498,196 which constituted 17.3 percent of the total population. The percentage of Scheduled Castes population is higher in rural areas of the district (18.6 percent) than the urban areas.

Among 16 tahsils of the district, the percentage of Scheduled Castes is above the districts urban average in 7 tahsils and below in remaining 9 tahsils. The highest percentage of Scheduled Castes is seen in Deglur tahisl (25 percent) and the lowest in Mahoor tahsil (8.7 percent).

The Scheduled Tribes population at the time of 2001 Census in Nanded district is 253596 which constituted 8.8 percent of the total population. The percentage of Scheduled Tribes is higher in rural area of the district (10.2) than urban areas. Among 16 tahsils of the district, the percentage of Scheduled Tribes is above the districts urban average in 8 tahsils viz Mahoor (15.5 percent), Kinwat (27.8 percent), Himayatnagar (15.5 percent), Hadgaon (11.1 percent), Bhokar (18.6 percent), Umri (10.5 percent), Dharmabad (17.1 percent) and Biloli (12.6 percent) respectively and below the district urban average in 7 tahsils. Deglur tahsil is at par with district average (8.8 percent).

Table 21 indicates number and percentage of literates and illiterates by tahsils Census 2001. The districts literacy rate is 67.8 percent. Literacy rate for males are substantially higher as compared to females in both rural and urban areas. The tahsilwise break-up of the total literacy rates shows that Nanded tahsil has highest literacy rate of (77.7 Percent) and it is also above the districts average of literacy. Biloli tahsil has lowest total literacy rate of 59.4 percent. Male and female literates are highest in Nanded tahsil (86.5 percent and 68.2 percent respectively).

As regards rural area of the district, the literacy rate is 64.6percent for the district with male and female literacy rate of 78.4 percent and 50.0 percent respectively. Mahoor tahsil has the highest literacy rate of 71.7 percent. Male and female literates are 84.4 percent and 58.1 percent respectively.

The lowest literacy rate is seen in Dharmabad tahsil of 57.5 percent. In this tahsil male and female literates are 72.3 percent and 42.6 percent respectively.

There is significant difference in literacy rate between male and female in all the tahsils. Females are lagging behind males in literacy in all the tahsils, However the gap varies from tahsil to tahsil. The gap in the male and female literacy rate is 26.1 percent. For the district as a whole of the 16 tahsils, gap is most wide in tahsil Loha 30.5 percent and least gap is seen in tahsil Nanded (18.4 percent).

District (Rural) Total:		**1,173,603**	**731,129**	**442,474**	**1,013,592**	**392,339**	**621,253**	**64.6**	**78.4**	**50.0**	**28.5**

It is seen that 64.6 percent population is literate in Nanded district. Among the males, literates account for 78.4 percent while for females the literacy rate is substantially low (50.0 percent). The highest literacy rate among males is seen in Mahoor C.D Block (71.7 percent) and the lowest in Dharmabad C.D Block (57.5). The highest literacy rate among males and females is seen in Mahoor C.D Block i.e. 84.4 percent

and 58.1 percent respectively and lowest in Dharmabad C.D. Block for males and females is 72.3 percent and 42.6 percent respectively. Among 16 C.D. Blocks, the literacy rate is above the district average in 8 C.D. Blocks viz; Mahoor (84.4 perecnt), Kinwat (78.5 percent), Hadgaon (81.2 percent), Nanded (80.2 percent), Naigaon Khairgaon (79.1 percent), Loha (81.9 percent), Kandhar (81.0 percent), Mukhed (78.7 percent) respectively and below in remaining 8 C.D. Blocks Among females the literacy rate is highest in 6 C.D. Blocks viz; Mahoor (58.1 percent), Hadgaon (54.3 percent) Ardhapur (51.2 percent), Nanded (55.3 percent), Loha (50.6 percent), Mukhed (50.6 percent) respectively and lowest in remaining 10 C.D. Blocks.

The gap in male female literacy ranges from 26.1 in Ardhapur C.D. Block to 31.3 in Loha C.D. Block.

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population

Literacy rate for District:		**67.8**		

Table 23 gives distribution of villages by literacy rate ranges in Census 2001. There is one village in literacy range 0-10 and only 1 village constituting 0.1 percent of total villages covering 47 persons constituting negligible proportion in 11–20 literacy range. There are 5 villages constituting 0.3 percent of total villages in 21-30 range of literacy covering 0.1 percent negligible population. In 31-40 literacy range there are 12 villages, constituting 0.8 percent of villages covering 0.4 percent of total population while 1198 villages constituting 77.5 percent of villages covering 1,687,660 persons i.e. 77.2 percent are in the range of 41–70; in the literacy range 71-80, there are 277 villages (17.9 percent of villages) covering 19.1 percent of the total population; in the literacy range 81-90 there are 47 villages (3.0 percent of villages covering 3.1 percent of the total population). In the literacy range 91-99 there are two villages (0.1 percent of villages covering 590 persons constituting a negligible proportion. There are 3 villages (0.2 percent of the total villages) covering 273 persons constituting a negligible proportion to the total population with cent percent literacy.

The average literacy rate for district's urban areas is 77.8 percent. The literacy rate among males is 86.6 percent while for females it is 68.3 percent. Nanded Waghala (M.Corp) has highest literacy rate of 81.5 percent and the lowest literacy rate is seen in Kundalwadi(M Cl)(54.1 percent). Among 13 towns one town i.e.Nanded-Waghala (M.Corp) is above the district urban average while 12 towns are below the district average. Among males and females the highest literacy rate is seen Nanded Waghala (M.Corp) 89.0 percent and 73.2 percent respectively. While lowest in Kundalwadi(M Cl) of 67.5 percent and 40.7 percent respectively. Among males out of 13 towns, two towns have literacy rate above the district average, while 10 are below the district average and one (Loha MCl) is equal to the district average.

The gap in the male female literacy rate is 18.3 percent for the district as a whole. Of the 13 towns, the gap is not wide except Kinwat (MCl) (18.9 percent) and Nanded Waghala (M.Corp) (15.8 percent).

According to 2001 Census, the literacy rate for Scheduled Castes is 62.1 percent in the districts rural areas. The literacy rate for males is 75.3 percent while for females it is 48.2 percent respectively. Of the 16 C.D. Blocks, Mahoor C.D. Block has highest literacy rate (75.3 percent), while Dharmabad C.D. Block has lowest literacy rate of 54.4 percent. Among the males, Mahoor C.D. Block has highest literacy rate of 87.1 percent while Dharmabad C.D. Block has lowest literacy rate of 68.9 percent. The male literacy rate in 6 C.D Blocks viz; Mahoor (87.1 percent), Kinawat (83.0 percent), Hadgaon (79.0 percent), Nanded (77.7 percent), Loha (79.5 percent) and Kandhar (78.9 percent) respectively is above the districts rural average, while remaining 10 C.D. Blocks are below the district rural average. Among females, out of 16 C.D.Blocks, 7 C.D Blocks viz; Mahoor (63.2 percent), Kinwat (56.6 percent), Hadgaon (51.3 percent), Nanded (53.2 percent) Loha (51.2 percent), Kandhar (49.3 percent) and Mukhed (49.0 percent) are above the district rural average, while 8 C.D. Blocks are below the district rural average and Ardhapur C.D. Block is at par with the district rural average (48.2 percent).

The literacy rate for females is not at par with males and the gap between male and female literacy rate is 27.1 percent for the districts rural areas. The gap varies from 23.9 percent in Mahoor C.D Block to 29.6 percent in Kandhar C.D. Block.

		Females	**1,394,901**	**322,393**	**23.1**	**157,722**	**11.3**	**480,115**	**34.4**	**914,786**	**65.6**

The total main workers constitute 33.6 percent of total population in the district. Among the main workers, male participation rate in the district is 43.4 percent while that of females is 23.1 percent. The sex-wise break – up shows that among males and females 5.3 percent and 11.3 percent of the population are marginal workers in the district, remaining 51.3 percent and 65.6 percent are non-workers in the district. Among the marginal workers, the proportion of female marginal workers is higher than that of males because the females besides attending their household duties also perform one or more economic activities to suppliment the farmily income. Wihin the district, Himayatnagar tahsil shows the highest percentage of main workers i.e, 41.8 percent and Nanded tahsil shows lowest percentage of main workers i.e, 26.1 percent. Umri tahsil shows highest percentage of marginal workers i.e, 13.9 percent and Nanded tahsil shows lowest percentage i.e, 3.4 percent. While Nanded tahsil shows highest percentage of non–workers i.e, 70.5 percent, Mahoor tahsil shows lowest percentage of non– workers i.e, 50.2 percent in the district.

		Females	74,472	16,368	22.0	14,416	19.4	30,784	41.3	43,688	58.7
District (Rural) Total:		**Persons**	**2,187,195**	**795,375**	**36.4**	**215,120**	**9.8**	**1,010,495**	**46.2**	**1,176,700**	**53.8**
		Males	**1,123,468**	**498,309**	**44.4**	**67,649**	**6.0**	**565,958**	**50.4**	**557,510**	**49.6**
		Females	**1,063,727**	**297,066**	**27.9**	**147,471**	**13.9**	**444,537**	**41.8**	**619,190**	**58.2**

In the district as a whole, the percentage of main workers is 36.4 percent. Among males, it is 44.4 percent and for females it is 27.9 percent. The percentage of marginal workers is 9.8 for the district. Male and female marginal workers are 6.0 percent and 13.9 percent respectively. Male and female non-workers account for 49.6 and 58.2 percent respectively. Among 16 C.D. Blocks of the district, Himayatnagar C.D. Block shows the highest percentage (41.8 percent) of main workers and lowest percentage of Main workers is in Deglur C.D. Block i.e. 32.0 percent. Umri C.D. Block shows highest percentage of marginal workers i.e. 15.3 percentage and Nanded C.D. Block shows lowest percentage i.e.6.7 percent. While Nanded C.D. Block shows highest percentage of non-workers i.e.60.9 percent, Umri C.D Block shows lowest percentage of non-workers i.e. 50.0 percent in the district.

Note: Percent of Worker to total worker are given in brackets

Table 34 indicates the relative importance of the main shares of economic activity distribution of male and female workers by four categories of economic activity may be gauged from the pattern of distribution of workers according to the agricultural labour, household industry workers and other workers. The economy of the district is primarily cultivation (32.2 percent), which is supported by the fact that cultivators and agricultural labourers (41.7 percent) together constitute (73.9 percent) of the total workers of district. The agriculture sector has absorbed three-fourth of the total workers in the district. Tahsilwise distribution of workers in four categories of economic activities is given in table 34.

The proportion of both cultivators and agricultural labourers differ considerably from tahsil to tahsil. The proportion of cultivators varies between 43.0 percent in Himayatnagar tahsil and 11.5 percent in Nanded tahsil. The proportion of Agricultural labourers varies

between 53.2 percent in Biloli tahsil and 13.6 percent in Nanded tahsil. About 73.9 percent of workers in the district are directly engaged in agricultural activities as cultivators or agricultural labourers, which is but natural in the context of the agriculture economy of the district. 2.4 percent of the workers are engaged in household industries. Among the males, 1.8 percent workers are engaged in household industries while 3.3 percent females are engaged as household industry workers. Other workers account for 23.7 percent of the population. Among males and females household industry workers are 33.5 and 9.0 percent respectively.

Note: Percent of Worker to total worker are given in brackets

Table 35 gives the distribution of workers in fourfold economic categories as cultivators, Agricultural labourers, household industry and other workers in C.D. Blocks of the district. The cultivator's (37.6 percent) and Agricultural labourers (47.4 percent) together constitute 85.0 percent of the total main workers of the district. Remaining 15 percent main workers are engaged household industry and other works (2.2 percent and 12.8 percent respectively). The proportion of cultivators varies from 47.8 percent in Mudkhed C.D. Block to 30.1 percent in Deglur C.D Block. In agricultural labourers; it is 57.9 percent in Deglur C.D Block and 34.4 percent in Nanded C.D Block of the district. In household industry it is 4.1 percent in BhokarC.D Block and 1.4 percent in Mudkhed C.D Block. For other workers it is 32.7 percent in Nanded C.D. Block and 9.0 percent in Mudkhed C.D. Block.

Note: Percentage of workers to total workers are given in brackets.

Table 36 gives the distribution of workers in four fold economic categories as Cultivators, Agricultural labourers, Household industry workers and Other workers of U.A./Towns for 2001 Census. Cultivator's account for 3.4 percent followed by 11.9 percent Agricultural labourers. They together constitute 15.3 percent of the total main workers of the district (urban areas).

It is seen that about 15 percent main workers are engaged in agricultural activities and more than 84 percent main workers are engaged in household industry and other works. The proportion of household industry workers and other workers are 3.5 percent and 81.2 percent respectively. The proportion of cultivators varies from 15.9 pecent in Kandalwadi (MCI) to 0.9 percent in Wajegaon (CT). Similarly the proportion of Agricultural labourers varies from 1.9 percent in Nanded Waghala Census Town to 47.6 pecent in Kundalwadi (MCI). For the district as a whole, male share in agricultural labourers is 7.4 percent against 31.6 percent share for females.

The work participation rate is more in rural (46.2 percent) areas than urban areas (27.8 percent). Similarly between the two sexes, the rural-urban differential is larger among females (41.8percent in rural and 10.7percent in urban) as compared to males (50.4percent in rural and 43.6 percent in urban) in the district.

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Educational

The minimum level educational amenity is available in 1,536 villages i.e. 99.4 percent of the 1,546 inhabited villages of the district. While in Mahoor, Kinwat C.D. Blocks the proportion of the education amenity i.e. available in 98.9 percent of villages. While in Ardhapur C.D. Block 92.5 percent villages; in Kandhar C.D. Block 99.2 percent in Dharmabad C.B. Block 96.2 percent of villages have the educational amenity. Remaining C.D. Blocks have cent percent available of education amenity in the district (Table 37)

In rural areas of the district, as a whole, 99.4 percent of villages are enjoying educational amenities cent percent of rural population is covered by this amenity. Ardhapur C.D. Block is enjoying 99.6 percent education amenity and Kandhar C.D. Block has 99.9 percent, remaining C.D. Blocks have cent percent rural population enjoying this amenity (Table 38)

The distribution of villages not having certain amenities arranged by distance ranges from the places where these amenities are available shows that only 10 villages have primary school at within 5 kms. There are 778 villages without the middle school amenity, of which the middle school is available to 751 villages at a distance of less than 5 kms, 26 villages within 5- 10 kms and only one village has the middle school beyond 10 Kms. 1,520 villages are not having the degree college amenity of these 85 villages have the amenity available within 5 kms, 183 villages within 5-10 kms, and in 1,252 villages beyond 10 Kms. (Table 39)

As per the distribution of villages according to distance range from nearest statutory town, the education amenity is available in 41 villages within 5 kms. 761 villages within 5-15 kms., 659 villages within 16-50 kms. And 75 villages at a distance of 51 and above Kms. from the nearest statutory town (Table 40).

235 inhabited villages constituting 95.9 percent of the total 245 inhabited villages in population range upto 499 have the educational amenty available to them within their revenue limits, 476 villages (100.0 percent) with population range 500-999, 555 villages (100.0 percent) with population size 1,000-1,999, 229 villages (100.0 percent) with population size 2,000-4,999, 34 villages (100.0 percent) with population size 5,000-9,999 and remaining 7 villages (also having cent percent) have educational amenity within their revenue limits (Table 41).

Medical

Medical amenity of any type specified in the village directory is available in 13.5 percent of villages and it cover 31.9 percent of the rural population being served with this amenity. The villages enjoying this

amenity through Primary Health Centres, Sub Centres, and dispensaries serve not only the resident population and concerned villages but also those residing in surrounding villages.

209 villages out of 1,546 inhabited villages have medical amenity in their respective village limits, and 1,337 villages do not have any type of medical amenity within their revenue limits. As many as 188 and 495 villages are situated at a distance of less than 5 kms. With reference to the nearest place with medical amenities such as hospital and PHC respectively. Another 543 and 649 villages are located at a distance of 5-10 Kms. for the same medical amenities. But in the case of 784 and 331 villages, the villagers have to travel beyond 10 kilomereres to reach a place for the medical amenity (Table 39).

As per the distribution of villages, according to the distance range from nearest statutory town, the medical amenity is available in 6 villages at distance upto 5 kms., 116 villages at a distance between 5-15 kms., 84 villages at a distance 16-50 kms., and only 3 villages at a distance 0f 51 and above Kms.. (Table 40).

Medical amenity is available for 3 villages out of 245 inhabited villages in the population range upto 499, 9 villages (1.9 percent) with population range 500-999, 57 villages (10.3 percent) with population ranging 1,000-1,999, 104 villages(45.4 percent) with population ranging 2,000-4,999, 31 villages (91.2 percent) with population ranging 5,000-9,999 and remaining 5 villages (71.4 percent) covering population range 10,000 and above have medical amenity available within their revenue limits (Table 41).

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Drinking water

Water supplied from a tap or handpump or tube well, situated within or outside the premises is considered as improved water amenity. The improved drinking water source is available in 1,510 villages (97.7 percent) out of 1,546 inhabited village.

Postal

As regards rural areas of the district as a whole, the amenity of Post and Telegraph is available to 453 villages (29.3 percent) out of 1,546 inhabited villages serving 53.1 percent of rural population of the district. Within 16 tahsils of the district, the percentage of villages having Post and Telegraph amenity varies from 45.7 percent in Biloli C.DBlock to 15.7 percent in Mudkhed C.D. Block.

Postal amenities are not available at all in 1,094 villages. Out of these amenity is available to 669 villages at a distance of less than 5 kms., to 354 villages at a distance between 5-10 kms., and to the remaining 71 villages at a distance of 10 kilometors and above.

As per the distribution of villages according to the distance range location of 453 villages with post office from nearest statutory town, the postal amenity is available to 13 villages within 5kms., 204 villages within 5-15 kms., 217 villages within 16-50 kms. And 19 villages with 51 and above kms, from the nearest statutory town in the district.

Among 453 villages with amenity of post and telegraphs, 10 villages are having less than 500 population, 48 villages are in population range 500-999; 174 villages are in the population range of 1,000-1,999, 181 villages are in the population range of 2,000-4,999, 33 villages are in the population range of 5000-9999 and there are only 7 villages in the population range of 10,000 and above.(Table 41).

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available

Telephone

87 (5.6 percent) villages of the district are enjoying the telephone amenity. These villages serve 15.3 percent of the rural population of the district. Kinwat C.D Block with 13.7 percent telephone has the highest proportion. Where as Kandhar C.D Block with only 0.8 percent Telephone holds last rank. Of the 16 C.D Blocks, 6 C.D Bocks viz; Mahoor (11.2 percent), Kinwat (13.7 percent), Himayatnagar (5.8 percent), Ardhapur (7.5 percent), Biloli (7.4 percent) and Loha (9.8 percent) C.D Blocks having proportion of villages more than district average. C.D Blocks Mudkhed and Dharmabad do not have telephone amenity.

Telephone amenity is not available in 1,459 villages. Out of these 469 are situated at a distance within 5 Kms. of availability of amenity, while 511 villages have to cover a distance between 5–10 Kms. to avail the telephone amenity. The amenity for 479 villages is available at a distance of more than 10 Kms..

Among 87 villages, 5 villages with amenity of telephone available at a distance within 5 Kms. from the nearest statutory towns; 30 villages at 5–15 Kms.; 50 villages at a distance of 16–50 Kms. and 2 villages at a distance beyond 51 Kms. from the nearest statutory town.

Only 1 village out of 87 villages has less than 500 population; 8 villages are with population of 500 –999; 23 villages with population of 1,000–1,999; 37 villages with population of 2,000 – 4,999 and 18 villages are having population of 5,000 and above.

Transport and communications

Transports and communications includes bus service, rail amenity and navigable waterways. If a bus stop or a railway station or navigable waterways is located within the territorial jurisdiction of a village, it considered to have been served by such amenity even if it is little away from the actual settlement. 1,143 (73.9 percent) villages have communication amenity available, serving 85.6 percent of rural population of the district. 59 villages of UmriC.D. Block constituting 90.8 percent of total villages have the highest proportion of villages where communications / Transport amenity is available, while the Mahoor C.D. Block with 46.1 percent coverage of villages holds the last rank among 16 C.D. Blocks of the district.

Out of 1,546 inhabited villages 405 villages do not have any communication amenity. Of these 1,546 villages, the residents of 299 villages have to cover a distance upto 5 Kms., 101 villages it is between 5-

10 kilometres and for 5 villages it is beyond 10 Kms. and above to reach a place with such amenity.

As per the distribution of villages according to the distance range from nearest statutory town from the villages where the communication amenity is available in 1,143 (73.9 percent) villages out of 1,546 inhabited villages, there are 27 villages within 5 kms from the nearest statutory town, 595 villages within 5-15 kms; 472 villages within 16-50 kms and 49 villages beyond 51 kilometeres of the statutory town. The availability of this amenity depends upon the location of the village with reference to road.

Among the 1,143 villages, which have the availability of communication amenity within their respective limits, the population for 129 villages is less than 500, while 308 villages are in the population range of 500-999, 443 villages in population range of 1,000-1,999, 222 villages in population ranging of 2,000-4,999 and remaining 41 villages in 5,000 and above population range.

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Banking

The amenity of banking services is available in 172 (11.1 percent) villages serving 30.6 percent rural population of the district. The proportion of villages with bank amenity varies between 47.1 percent of villages in Naigaon – KhairgaonC.D. Block to 15.6 percent in Kinwat C.D. Block .

While the amenity of commercial bank is not available in 1470 villages that of co-operative bank is not available in 1399 villages. The commercial and co-operative bank for 443 and 609 villages respectively is available at a distance within 5 Kms. 638 and 590 villages at a distance between 5-10 kms, and 389 and 200 villages have to cover 10 kilometre and above distance from availing this amenity of commercial and co-operative banks respectively.

As per the distribution of villages from the nearest statutory town where the amenity is available, there are 5 villages with banking amenity at a distance upto 5 kms form the nearest statutory town and 81 villages with amenity available at a distance from 5 to 15

kilometres, 81 villages at a distance at 16-50 kms, and remaining 5 villages with banking amenity at a distance of more than 51 kms and above from the nearest statutory town.

Among 172 villages with amenity of Banking 2 villages are having less than 500 population, 34 villages are with population of 500-1,999, 100 villages are with population 2,000-4,999 and remaining 36 villages having population of 5,000 and above.

Agricultural credit societies

There are 1,002 villages ie, 64.8 percent of total villages having agricultural credit societies in the district serving 79.8 percent of the rural population. The highest proportion of villages with the amenity available is in Naigaon (Khairgaon) C.D.Block with 72 villages (83.7 percent) and lowest 22.5 percent in Mahoor C.D.Block.

544 villages are not having this amenity. Out of these the amenity is available to as many as 305 villages within 5 Kms., 195 villages within 5-10 kms, and 44 villages at a distance beyond 10 kilometres.

There are 24 villages without Agricultural Credit Societies which are situated at a distance of less than 5 kilometres from the nearest statutory town, 495 villages without Agricultural Credit Societies at a distance of 5-15 kilometres, 441 villages at a distance of 16-50 kilometere and only 42 villages without agricultural credit societies are at a distance of 51 kilometer and beyond.

This amenity is available to 81 villages with population less than 500; 237 villages with population 500-999, 429 villages with population 1,000-1,999, 217 villages with population 2,000-4,999; 31 villages with population 5,000-9,999 and remaining 7 villages have cent percent with population of 10,000 and above.

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Approach by pucca road

Road whether pucca or kuchcha are the nervous system of a district. They act as factor for the development and upliftment of the areas. Roads with cement concrete, Black top, water bound macadam etc. Come under pucca roads and the remaining are treated as kuchcha roads.

Pucca road amenity is available to 1,049 villages (67.9 percent), out of 1,546 inhabited villages in the district. Among the 16 C.D. Blocks in the district, the proportion of villages with approach by pucca road is highest in Ardhapur C.D. Block 50 villages constituting (94.3 percent) of villages. And lowest in Himayatnagar C.D. Block 21 villages constituting 30.4 percent of villages in C.D. Block. A rural population of 1,718,598 persons (78.6percent) avail this approach by pucca road amenity (Table 38).

Of the 1,049 villages, 25 villages (59.5 percent) are at a distance of less than 5 Kms. from the nearest statutory town; 515 villages are at a distance of 5-15 kilometres; 455 villages are at a distance of 16-50 kilometres; and 54 villages are at a distance of 51 and beyond Kms. to approach nearest town by Pucca Road (Table 40)

The population of 133 villages (54.3 percent) served by pucca road is less than 500, 287 villages (60.3 percent) with population 500-999; 380 villages (68.5 percent) with population 1,000-1,999; 208 villages (90.8 percent) with population 2,000-4,999 and remaining 41 villages (100.0 percent) with population 5,000 and above are served by Pucca approach road amenity.

It may be seen that smaller the population size of the villages lesser is the availability of amenity of Pucca road. Larger the size of a village, greater are the chances of its having amenity.

Power Supply

1,531 villages are having power supply in the district. The power supply is available to the highest proportion of villages i.e. 88 (98.9 percent) in Mahoor C.D. Block and lowest in proportion with the amenity available in 51 villages (96.2 percent) and 50 villages (96.2 percent) in Ardhapur C.D. Block and Dharmabad C.D. Block respectively. Himayatnagar, Nanded, Hadgaon, Mudkhed, Bhokar, Umri, Naigaon (khairgaon), Loha and Deglur C.D. Blocks are having cent percent power supply available in its villages.

Total population in Mahoor, Himayatnagar, Hadgaon, Nanded, Mudkhed, Bhokar, Umri, Naigaon (Khairgaon), Loha and Deglur C.D. Blocks have the power supply available to them. The proportion of power supply amenity is in 99.7 percent in Ardhapur, 99.1 percent in Kinwat, 99.0 percent in Biloli, 98.8 percent in Mukhed, 98.2 percent in Kandhar and 95.7 percent population is served by this amenity in Dharmabad C.D. Block (Table 38)

The power supply is available to 238 villages (97.1 percent) with population less than 500, 475 villages (99.8 percent) with population 500-999; 550 villages (99.1 percent) with population 1,000-1,999; 227 villages (99.1 percent) with population 2,000-4,999; and remaining 41 villages (100.0 percent) with population 5,000 and above.

It may be summed up from foregoing paragraphs that in respect of availability of different types of amenities and facilities considered. The larger villages have an advantage over the smaller ones. Population size and availability of amenities are associated with each other.

TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Note:-

Permanent:-1 Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concreate are used for roof.

Semi permanent:-2 Semi-permanent houses refer to those houses made of other types of materials

Temporary:-3 Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

The total percentage for the three categories viz.Permanent, Semi Permanent and Temporary may not add to 100 percent, the percentage remaining is for the 4th category Unclassified not shown in the table.

The table 49 gives the distribution of households living in permanent; Semi-permanent and temporary houses in Nanded district. According to 2001 Census out of total households of the district, 49.4 percent households are living in permanent houses; 44.0 percent households are living in semi-permanent houses; 6.5 percent households are living in temporary houses as per definition given in note below the table No. 49. Regarding rural areas of the district 46.1 percent households are living in permanent houses; 46.0 percent households are living in semi-permanent houses; and 7.9 percent households are living in temporary houses. In urban areas of the district, there are 61.4 percent households are living in permanent houses; 36.9 percent households are living in semi-permanent houses; and 1.6 percent households are living in temporary houses.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or o utside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Bathroom means bathroom within the house

Toilet means toilet within the house

Drainage means closed and open drainage

According to 2001 Census the amenity of improved drinking water is available for 404,967 households constituting 77.4 percent of the total households. In rural and urban areas of the district, this amenity is available for 297,424 (72.4 percent) and 107,543 (95.2 percent) households respectively. The amenity of electricity is being enjoyed 320,779 (61.3 pecent) households. In rural and urban areas of the district, this amenity is being enjoyed by 220,258 (53.7 percent) households and 100,521 (89.0 percent) households respectively.

The amenity of Bathroom is available in 252,421 (48.2 percent households) constituting 40.1 percent rural and 77.8 percent urban areas this amenity is available for 164,471 and 87,950 households respectively.

The amenity of toilet is available in 127,552 (24.4 percent) households. For rural and urban areas this amenity is available for 52,872 (12.9 percent) and 74,680 (66.1percent) respectively.

The Drainage is available in 265,975 (50.8 percent) households are enjoying this amenity. For rural and urban areas this amenity is available for 177,107 (43.1percent) and 88,868 (78.6percent) households respectively.

Percentage in brackets

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

This table gives the number and percentage of households by type of fuel used for cooking for total rural and urban areas of the district. According to 2001 census, of the 523,539 households 383,665 (73.3 percent) use fire wood fuel for cooking. Of these 339,013 rural households (82.6 percent) and 44,652 (39.5 percent) households use firewood for cooking respectively. The crop residue is used for cooking in 48,927 (9.3 percent) households in the district. Of these there are 45,410 (11.1 percent) rural and 3,517 (3.1 percent) urban households respectively. Cowdung Cake fuel is used by 5,735 (1.1) total households, including 5,238 (1.3 percent) rural and 497 (0.4 percent) urban households respectively. Electricity is available for 939 (0.2 percent) of the total household. In rural and urban areas 639 (0.2 percent) and 300 (0.3 percent) households respectively enjoy electricity amenity. There are 193 households using coal / lignite fuel for cooking. The rural and urban households using coal / lignite as fuel are 114 and 79 households respectively.

The cooking gas (L.P.G.) is available to 48,837 (9.3 percent) total households in the district. In rural and urban areas 11,264 (2.7 percent) and 37,573 (33.3 percent) households respectively avail of this amenity.

Bio-gas fuel is used for cooking by 393 (0.1 percent) households. In rural and urban areas, 338 (0.1 percent) and 55 (negligible) households use this amenity.

Kerosene oil is used by 33,521 (6.4 percent) total households. 0f these 7,939 (1.9 percent) rural and 25,582 (22.6 percent) urban households using Kerosene as fuel respectively in 2001.

Beside these, 310(0.1 percent) households are using some other fuel for cooking. In rural and urban areas 167 (negligible percent) and 143 (0.1 percent) households use some other fuel for cooking.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

There are 523,539 households, of which 410,545 are rural and 112,994 urban. Of these, banking amenities are being availed it by 185,090 households, of which 141,142 are rural and 43,948 are urban.

In the district 79,906 households have radio/ transistor, 114,399 households have television, 28,038 households have telephone, 65,100 households have bicycles, 28,928 houeholds possess scooters, motor cycles and mopeds, 6,781 households have car, jeep or van. It may be noticed from the information available in the table that a higher proportion of households in the urban areas possess these specified assets. Of the total 523,539 households, 345,750 households have none of the above specified assets.

(viii) Major Social and Cultural Events, Natural and Administrative developments and Significant activities during the decade.

During 1991-2001 decade 8 new tahsils viz., Mahoor, Himayatnagar, Ardhapur, Mudkhed, Umri, Dharmabad, Naigaon (Khairgaon) and Loha are created after 1991 Census.

33 new villages are created after 1991 Census. 3 villages have merged with Nanded-Waghala (M Corp.) and one village has received the status of new census town. At present there are 16 tahsils with 1546 inhabited villages and 13 towns.

(ix) Brief Description of Places of Religious, Historical or Archeological importance in the villages and Places of Tourist interest in the towns of the district.

A large number of fairs are held in the district. Most of the fairs held in the district are associated with important deities and religious festivals. So far as trade is concerned, fairs complementary to the weekly market. In the fairs the traders and shopkeepers set up temporary stalls. Large quantities of agricultural produce and other articles of daily use are brought for sale. The two important fairs held in the district are Datta Janma fair ad Khandoba fair.

Datta Janma Fair at Mahoor- This fair is held annually from Margashirsha Sud. 11 to Sud 15 at Mahoor in Kinwat tahsil to celebrate the birth anniversary of Lord Dattatraya which falls on Margashirsha Sud. 15. It is one of the biggest fairs in the district. Mahor is to the North-west of Kinwat, the taluka headquarters. The temple is situated at the top of the hill and it is about 8 Kms. away. The pilgrims from surrounding villages and from Western Maharashtra, Gujarat and Vidharbha region are attending this fair. The temple is an old construction in stone built in Samvat 1297 Shri Mukund Bharati Maharaja. There are many legends in connection with the temple. Anusaya was a chaste and beautiful wife of the Sage Atri. Her reputation was carried to the heavens by Sage Narad on hearing which Goddesses Parvati, Laxmi and Savitri were upsets and envied the position of Anusaya. In order to test her chastity Shiva, Vishnu and Brahma went to her house in the guise of poor Brahmins and begged alms of her. They told her that they were hungry and needed meals which should be served by her only without wearing any clothes. Anusaya told this story to her husband the Sage Atri. The Sage Atri sprinkled the water from his 'Kamandalu' on them. As soon as the water sprinkled on them three Brahmins were transformed into three small babies. Anusaya then kept them in a cradle. When Paravati, Laxmi and Savitri heard about this event they repented for what they had done in thir jealousy and requested Anusaya to restore their husbands to their original forms. Anusaya said since I have treated Shiva, Vishnu and Mahesh as my children, may be for a short time, I wish I could give birth to a child who will possess the qualities of each of these 3 Gods. Her wish was granted and Lord Dattatraya was born to her on Margashirsha Sud. 15.

Khandoba Fair at Malegaon - This fair is held in honour of popular deity 'Khandoba'. The 'Khandoba' has remained a favourite deity of Marathas since generations. The deity is supposed to be a warrior incarnation of Shiva and was particularly looked for support against the struggle with oppressors. The village Malegaon is situated on the main road from Nanded to Latur. It is on the border of Nanded and Osmanabad district and is about 32 kms. west of Kandhar, the tahsil headquarters. Special arrangements to ply buses are made at Nanded during the days of the fair. The main fair of 'Khandoba' is held in the month of Margashirsha corresponding to the months of Novemeber-December every year and lasts for eight days from Margashirsha Vad.12 to Pausha Sud. 4.

The people attending the fair are mainly businessmen and customers intending to purchase cattle and horse. They come form Marathawada area and also from Gujrat, Mysore, Rajasthan, Andhra Pradesh etc.

Place of Historical and Tourist importance

Certain forts, a few old temples and picnic points in the district play an important role in shaping the socio-economic pattern of the district. The Nanded district is the eastern most district of the Marathwada area of the Maharashtra State. The southern part of the district lies in the Godavari basin, whereas the northern portion lies in the valley

of Penganga. In the Nanded district, the main trend of the hills is from north-west to south-east.

Nanded town is famous for Sikh Gurudwara which is next to the Gurudwara at Amritsar. It is said that Sant Guru Govind Singhji resided at Nanded and in his pious memory this Gurudwara was built up. Nanded is a railway station on the Kanchiguda-Manmad route of the central railways.

Unakdeo

This village situated on the bank of the Penganga, the village is famous for its natural hot water springs. There is also a temple known as Unakeshwar dedicated to God Shiva. The hot water tanks possess medicinal value and to cure skin disease. In front of the Ling of Unakeshwar there is carved figure of Rama with bow and arrows. In the adjacent room the padukas of the Sage Sarabahanga are kept.

The Mahoor village is famous for a very big fair held in honour of the Goddess Renukadevi on the day of Dasara every year. The temple of Renukadevi is situated on a hillock abounding in natural beauty at a distance of about 2 Kms. from the village of Mahoor. The temple is said to have been constructed by the Yadava kings of Devagiri about eight to nine hundred year ago. The place is also revered as a place of birth of God Dattatraya.

Fort

Mahoor fort is another attraction for tourists. It can be approached by a cart-road which passes through the village of Mahoor and lies at a distance of about 32 Kms. from Unakdeo. The fort is encircled on the three sides by Penganga river and access from these sides is very difficult. The only way to the fort is from Kinwat railway station. The fort is to be seen in all the majesty of its ramparts, built along the ridge of two high hills lends a very charming view and attracts the attention of the visitors form a long distance. The fortification cover a circumference of about 9 kms. and run across the ridges of the two hills.

Kandhar fort is situated in the heart of the town. Encircling the fort, is a ditch 90' in width and 15' in depth filled with water. It is said that either there are natural springs in the ditch or some arrangement prevails for the supply of water to the ditch from the nearby tank. Its construction is attributed to the Rastrakuta Krishna III of Malkhed who styled himself as Kandharpuradhisva.

Nanded Fort

The Dilapidated fort of Nanded is situated at a distance of about 4 kms. from Nanded railway station and is surrounded by the Godavari on three sides. Its bastions stand at a height of about 60' to 65' and are in good condition

(x) Major Characteristics of the district, Contribution of the district in the form of any Historical figure associated with the district

Nanded district from generation to generation has got most historical importance and has mythology. In ancient time it was famous for teaching of 'Vedant studies, classical music, dramas, literature and arts. It was successful centre of these studies. The district is endowed with economic resources viz. agricultural land growing of cotton, forestry, fishing and industries. The district has planned to develop the industries with new machinery. The most important industry named 'Marathwada Textile Corporation'. Texcom has been set up and which is famous in Marathwada region. Rice, jowar, bajari, oilseeds and cotton are the main crops of the district.

The scientific and technical training project is functioning in Nanded district. This project has been situated in Nanded district. The irrigation project has also been set up for supplying ample water to the various industries.

Nanded town is famous for the Sikh Gurudwara which is next to the Gurudwara at Amritsar. Thousand of pilgrims and people from the country and abroad are coming to see the temple. In 'Vasarni' village near Nanded a broadcasting centre is being set up. The amenities of the cultural programmes will be available to the people of the surrounding area of 50-60 kms. A T.V. centre is functioning in the district and the people of the surrounding villages got its benefit. Nanded is well connected with railway lines. Maanmad-Kachiguda and Mudkhed-Adilabad railway routes passes through the district. Due to this amenity

the other districts have been linked with communication and expanding of the industry of the district.

The Marathi is the principal language spoken by the majority of the people in the district. Urdu is the second language in the district. The people from Biloli and Deglur tahsils speak Telugu language. The Staple food of the people Bhakri (bread) is made of jowar, chatni, varan i.e. Cooked dal, and vegetables. Occasionally they eat eggs, fowl, meat and other flesh. Special dishes or feast menus differ according to the caste, status and economic condition. On feast occasions are prepared dishes such as Poli, Puran Poli or rolls sugar and dough and stuffed cakes, sweet balls or ladus. Ganesh Utsav, Ram-Navami, Hanuman Jayanti, Rakhi-Puornima, Gokulashtami, Pola, Diwali, Christmas, Muharram are the religious festivals of the people has been quite placed. From the point of administrative view the jurisdictional changes have been taken place in Nanded district. There were 8 tahsils in 1991 and for 2001 there are 16 tahsils in the district.

Contribution of the distict

Nanded has given many authors, kirtankars social workers and freedom fighters to the nation. The Late Vidvanmani Shri Ramkrishna Bapu Sonyaji who written literature in Sanskrit, well known authors such as Vishnupant Shesh, Vishnukavi Raghunath Shesh, the well known Marathi poet Vaman Pandit were also from this district. The famous Kirtankar Hari Bhakta Parayan Sant Dasgun Maharaj Deglur was also from this district. The editor like Shri D.L. Mahajan from the Nanded district.

(xi) Scope of Village Directory and Town Directory

Information on this aspect is furnished in detail in the village and town directory statements and in a consolidated form in the appendix and also in the tables presented. The non-census information collected at the village level or town level by the Tahsildar / chief officer was scrutinized and verified in each district by the district planning officer / district statistical officer. The Collectors were also requested to once again reverify the data in case serious discrepancies were observed. Logical tests were applied to the data and the officials of this directorate visited the districts to revalidate the data. Besides this, the non-census information was cross-checked with the parent department. For example information on electricity was cross checked with Maharashtra State Electricity Board, that on roads with Public Works Department, on health with the Directorate of Health and so on.

Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village.

The Village Directory format has 23 columns and the details given under each column for the village are as follows:-

Column 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X are included in secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools respectively.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

This column provides data available on medical amenities in the village.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

Column 8 gives information regarding availability of drinking water within the village. In case more than one source is available to the village the same has been indicated.

Column 9 : Post, Telegraph and Telephone

Column 9 provides the postal facilities such as post office, telegraph office, post and telegraph office and telephone connections available in the village.

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given.

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given.

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded.

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water way, the same has been indicated in this column.

Column 14 : Approach to village

Approach to village refers to the state of road leading to village.

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

This column relates availability of Power Supply in the village.

Column 17 : News Paper / Magazine

If a village receives any News Paper/Magazines the same is noted in this column.

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23: Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Unirrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) upto one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department.

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / Non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B List of villages according to the proportion of the Scheduled Tribes to the total Population by ranges.

Town Directory :

The town directory is presented for each town covering different aspects of urban life. In 2001 Census, Statement I – VII have been included for presentation of this data. The data contained in these statements are the area, population in 2001 and past Censuses, growth rates, density, sex ratio, physical aspects of towns, communications, municipal finance, civic, medical, and educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutory notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns the Tahsildar and cantonment executive officers supplied the information.

Statement I-Status and Growth History

Statement I shows the status and growth history of the towns in the district, column 2 in this statement indicates class, name and civic administration status of a town. Class of the town indicated under this column has been introduced to facilitate the analysis of town directory data at the State and National level. Census towns have no urban civic status.

Column 3 indicates location code number of the town, column 4 gives name of tahsil and column 5 shows the name of C.D.Block. Column 6 presents area in Sq. Kms., Column 7 presents number of households including houseless households.

Column 8 to 18 gives population and growth rate of town since 1901 and would help in drawing the trends in their growth rate, Column 19 presents density and Column 20 to 22 presents sex ratio.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV-Civic and other Amenities, 1999

Statement IV provides information on the civic and other amenities available in the town. Total population given under column 3 and Schedule Castes/ Scheduled Tribes population given in column 4 and 5 have been added to help in measuring amenities in respect of population size of the weaker sections in the towns. The information on the road length within the town shown under column 6 has been obtained from Municipality.

Column 7 to 12 reflects the information on system of sewerage, number of latrines, and method of disposal of night soil.

Column 13 indicates sources of protected water supply to the inhabitants of the towns. The information on storage and capacity is shown under column 14.

Column 15 gives information regarding availability of fire fighting services. In case it is not available in the referent town, the name of the nearest place where it is available has been mentioned and the distance from the town has also been indicated within brackets. Column 16 to 20 pertains to the number of electricity supply connections available for domestic, industrial, commercial and road lighting points etc.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 and 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, are treated as independent units.

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc.

Column 6 to 9 :

The information on educational facilities is reflected in columns 6 to 9.

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

Schools upto class IV are treated as Primary or Elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like Middle schools with Primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P (4), M (3).

Column 15: Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational and cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded.

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : **Number of Agricultural Credit Societies and Non-Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non-Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area committee etc.

PART A
VILLAGE AND TOWN DIRECTORY

Section I - Village Directory

(a)Note Explaining the abbreviations used in Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X are included in secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12:Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water way they are mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If a village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) upto one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE

(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A The appendix shows the list of villages according to proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B The appendix shows the list of villages according to proportion of the Scheduled Tribes to the total population by ranges.

(b) List of Villages fully merged in towns and outgrowth at 2001 Census

Serial Number	Name of Villages	Location Code No. 1991	Merged in towns and Outgrowths
1	2	3	4
1	Jangamwadi	87	Nanded-Waghala M. Corp.
2	Sangvi Bk	88	Nanded-Waghala M. Corp.
3	Mahalja	90	Nanded-Waghala M. Corp.

Section II - Town Directory

(a) Note Explaining the abbreviations used in Town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows:

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board / Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate Office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Other columns need no comments

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different type of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) and others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 and 5 : Medical

The data covers all such medical institutions run by or aided by Government / Semi Government / Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family

planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres are treated as independent units and counted separately using following codes:

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution(s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

Column 6 to 9 :Educational

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocation institutions like - Applied Art / Painting college, Pharmacy college, B.Ed. college, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :Higher Secondary / Intermediate/ Senior Secondary /PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class IV are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility available is mentioned.

Column 16 : Working Women's hostels with number of seats.

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of the nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities.

Stadium, Cinema, Auditorium / Drama / Community Hall are covered under recreational and cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading Room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies.

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area Committee etc.

APPENDIX TO TOWN DIRECTORY
TOWNS SHOWING THEIR OUTGROWTH WITH POPUOLATION

Serial number	Name of the town with location codes	Population of core town	Outgrowth	Population of outgrowth
1	2	3	4	5

There is no outgrowth in this district; hence the information is ‘ Nil ’.

PART B
PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the

quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 Census only main workers were presented in to four categories. One of the novel features of the Primary Census Abstract of 1991 Census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE - II

Fertility and Mortality, 1991 Census

Fertility Levels

Fertility is a major component of population growth. In the 1991 Census questions on fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year were asked. The first three questions were asked to all ever-married women and the last question related to currently married women. The measures of fertility worked out are based on the F-Series Tables of 1991 Census pertaining to Maharashtra State.

Mortality Levels

Information on the questions on children ever born and children surviving canvassed for all ever-married women have been tabulated by age of the mother. From this estimates of child mortality have been worked out by using brass technique.

ANNEXURE II (i)
Estimates of Child Mortality, 1991

Item		Nanded District Total	Maharashtra State Total
1	2	3	4
Q1	P	68	74
	M	76	72
	F	66	76
Q2	P	72	79
	M	76	78
	F	69	81
Q3	P	75	86
	M	78	84
	F	73	89
Q5	P	87	91
	M	87	89
	F	87	93

Mortality

From the estimate of child mortality (number of deaths by ages 1, 2, 3 and 5 given above as q(1), q (2), q (3) and q (5)). It is observed that the level of child mortality in the district is substantially lower as compared to the state in 1991 census. A notable feature is the lower female mortality compared to male mortality in the district as against higher female mortality for the state. However, the sex differentials in child mortality appear to be more pronounced in the district compared to the State.

ANNEXURE II (ii)
Estimate of Fertility Indicators at district level, Maharashtra, 1981 and 1991

Fertility Measures	Nanded District 1981	Nanded District 1991	Maharashtra State 1981	Maharashtra State 1991
1	2	3	4	5
GFR	158	150	134	124
GMFR	181	174	168	157
TFR	5.0	4.6	4.3	3.7
TMFR	5.6	5.4	5.2	5.2
Crude Birth Rate (CBR)	34.3	32.9	31.8	29.8
No. of children ever born per women in the age group 45-49	--	4.8	--	4.2
Mean Age at Marriage	--	16.6	--	17.9
Child Women Ratio	--	66.0	--	49.6

Fertility

A perusal of the various fertility measures namely GFR (General Fertility Rates), GMFR (General Marital Fertility Rate), TFR (Total Fertility Rate), TMFR (Total Marital Fertility Rate), CBR (Crudes Birth Rate) for the district vis-à-vis State reveals higher rates for the district as compared to State as a whole in 1981, the GFR, GMFR, TFR, TMFR and CBR were 158, 181, 5.0, 5.6 and 34.3 respectively as compared with State average of 134, 168, 4.3, 5.2, and 31.8 in Census 1981. Similar trend is observed in 1991 Census. In 1991 GFR, GMFR, TFR, TMFR & CBR were 150, 174, 4.6, 5.4 and 32.9 respectively for the district as against the State average of 124, 157, 3.7, 5.2, and 29.8 respectively.

It may be seen that, while during both Census 1981 and 1991 the fertility rates are higher for the district than the State as a whole. But the gap in fertility rates between the district and the State has reduced in 1991.

Mean age at marriage

Mean age at marriage is recorded to be lower for the district than the State in 1991.

Child Woman Ratio

The Child Woman Ratios for 1991 Census i.e. the number of children 0-4 years age groups for every 1000 women of 15-44 years age groups indicates a higher ratio for the district as compared to the State.

ANNEXURE III

Various Measures of Fertility and Mean Age at Marriage,1991

Serial number	State / District	GFR	GMFR	TFR	TMFR	CBR	No.of children ever born per ever married women in age-group 45-49	Child - Women ratio	Mean Age at Marriage

ANNEXURE IV

Percentage distribution of Migrants by place of birth/place of last residence, 2001Census

Migrants by place of birth

ANNEXURE IV (i)
Percentage distribution of Migrants by Place of Birth – Maharashtra

Serial number	Place of Birth	2001 Census		
		Person	Males	Females
1	**2**	**3**	**4**	**5**
1	A. Migrants born within the state of enumeration	32,939,182	11,858,299	21,080,883
		80.5	72.3	86.1
	i) Migrants born elsewhere in district of enumeration.	20,718,400	6,618,661	14,099,739
		50.7	40.4	57.6
	ii) Migrants born in other district of the state	12,220,782	5,239,638	6,981,144
		29.9	32.0	28.5
2	B. Migrants born in other states of India	7,756,307	4,427,935	3,328,372
		19.0	27.0	13.6
3	C. Migrants born in other countries	197,731	109,447	88,284
		0.5	0.7	0.4
4	D. Unclassifiable	9	3	6
		0.0	0.0	0.0
	Total Migrants :	**40,893,229**	**16,395,684**	**24,497,545**
		100.0	**100.0**	**100.0**

On the basis of migrants by place of birth, there are 40,893,229 migrants in Maharashtra in 2001 comprising 16,395,684 males and 24,497,545 females. These migrants constitute 42.2 per cent of total population. Male migrants constitute 32.5 per cent of male population while female migrants account for 52.7 per cent of female population.

ANNEXURE IV (ii)
Percentage distribution of Migrants by Place of Birth – Nanded

Serial number	Place of Birth	2001 Census		
		Person	Males	Females
1	**2**	**3**	**4**	**5**
1	A. Migrants born within the state of enumeration	806,260	217,540	588,720
		92.8	93.1	92.8
	i) Migrants born elsewhere in district of enumeration.	638,804	167,159	471,645
		73.6	71.5	74.3
	ii) Migrants born in other district of the state	167,456	50,381	117,075
		19.3	21.6	18.4
2	B. Migrants born in other states of India	61,870	15,970	45,900
		7.1	6.8	7.2
3	C. Migrants born in other countries	275	171	104
		0.0	0.1	0.0
4	D. Unclassifiable	0	0	0
		0.0	0.0	0.0
	Total Migrants :	**868,405**	**233,681**	**634,724**
		100.0	**100.0**	**100.0**

In Nanded district there are 868,405 migrants comprising 233,681 males and 634,724 females. The migrants of this district constitute 30.2 per cent of total population. Male and female migrants constitute for 15.8 and 45.5 per cent respectively.

From the distribution of total migrants in Maharashtra by place of birth, it can be clearly seen that females predominate in intradistrict and interdistrict migration while males predominate in interstate and international migration. In case of Nanded district females predominate in all streams of migration except international migration.

ANNEXURE IV (iii)
Inter State Migrants to Maharashtra

Serial number	Place of Birth	2001 Census	
		Migrants	Percentage to total Migrants
1	2	3	4
1	Andhra Pradesh	450,898	5.8
2	Bihar	386,799	5.0
3	Gujarat	890,428	11.5
4	Karnataka	1,267,421	16.3
5	Kerala	307,676	4.0
6	Madhya Pradesh	616,059	7.9
7	Rajasthan	463,875	6.0
8	Tamil Nadu	267,477	3.4
9	Uttar Pradesh	2,172,971	28.0
	Total for Nine States	6,823,604	88.0
	Other States	932,703	12.0
	Total	**7,756,307**	**100.0**

The number of migrants born in other states of India is 7,756,307 in 2001. It is seen that 19.0 per cent of the total migrants in Maharashtra are from other states. In case of Nanded district 7.1 per cent of the total migrants are from other states.

In case of Maharashtra 9 States viz., Uttar Pradesh, Karnataka, Gujarat, Madhya Pradesh, Andhra Pradesh, Rajasthan, Kerala, Tamil Nadu and Bihar together account for 6,823,604 migrants (88.0 per cent) out of 7,756,307 interstate migrants.

ANNEXURE IV (iv)
Inter State Migrants to Nanded

Serial number	Place of Birth	2001 Census	
		Migrants	Percentage to total Migrants
1	2	3	4
1	Andhra Pradesh	41,905	67.7
2	Gujarat	1,490	2.4
3	Karnataka	10,556	17.1
4	Madhya Pradesh	826	1.3

		0.0	0.0	0.0
	Total migrants :	**41,715,711**	**16,763,943**	**24,951,768**
		100.0	**100.0**	**100.0**

On the basis of migrants by place of last residence, there are 41,715,711 migrants in Maharashtra comprising 16,763,943 males and 24,951,768 females. These migrants constitute 43.1 per cent of total population. Male migrants constitute 33.3 per cent of male population while female migrants account for 53.7 per cent of female population.

ANNEXURE IV (vi)

Percentage distribution of migrants by place of last residence - Nanded

Place of last residence		2001 Census		
		Persons	Males	Females
1		2	3	4
A)	Last residence within State of Enumeration	833,390	227,668	605,722
		93.3	93.6	93.2
i)	Last residence elsewhere in the district of enumeration	673,206	179,432	493,774
		75.4	73.8	76.0
ii)	Last residence in other district of Maharashtra	160,184	48,236	111,948
		17.9	19.8	17.2
B)	Last residence in other States/UTs	59,608	15,336	44,272
		6.7	6.3	6.8
C)	Last residence in other Countries	250	155	95
		0.0	0.1	0.0
D)	Unclassifiable	0	0	0
		0.0	0.0	0.0
	Total migrants :	**893,248**	**243,159**	**650,089**
		100.0	**100.0**	**100.0**

In Nanded district there are 893,248 migrants comprising 243,159 males and 650,089 females. The migrants of this district constitute 31.1 per cent of total population. Male and female migrants constitute 16.4 and 46.6 per cent respectively.

From the distribution of total migrants in Maharashtra by place of last residence, it can be clearly seen that females predominate in intradistrict and interdistrict migration while male predominate in interstate and international migration. In case of Nanded district females predominate in all streams of migration except international migration.

ANNEXURE IV (vii)

Inter State Migrants to Maharashtra

Serial number	Place of Last residence	2001 Census Migrants	2001 Census Percentage to total Migrants
1	2	3	4
1	Andhra Pradesh	431,774	5.9
2	Bihar	361,351	4.9
3	Gujarat	849,045	11.6
4	Karnataka	1,165,351	15.9
5	Kerala	258,952	3.5
6	Madhya Pradesh	589,745	8.1
7	Rajasthan	431,190	5.9
8	Tamil Nadu	249,989	3.4
9	Uttar Pradesh	2,072,193	28.3
	Total for Nine States	6,409,590	87.6
	Other States	903,549	12.4
	Total	**7,313,139**	**100.0**

The number of migrants by last residence from other States of India is 7,313,139. It is seen that 17.5 per cent of the total migrants are from other states. In case of Nanded district 6.7 per cent of total migrants are from other states.

In Maharashtra, 9 states viz., Uttar Pradesh, Karnataka, Gujarat, Madhya Pradesh, Andhra Pradesh, Rajasthan, Bihar, Kerala and Tamil Nadu together account for 6,409,590 migrants (87.6 per cent) out of 7,313,139 interstate migrants.

ANNEXURE IV (viii)

Inter State Migrants to Nanded

Serial number	Place of Last residence	2001 Census Migrants	2001 Census Percentage to total Migrants
1	2	3	4
1	Andhra Pradesh	40,658	68.2
2	Gujarat	1,434	2.4
3	Karnataka	10,074	16.9

Urban	2,392,567	184,302	2,208,265
	32.7	2.5	30.2

Note: The place of last residence unclassifiable as 'Rural' or 'Urban' is included in 'Total'.

Of the total 34,225,081 intrastate migrants, 50.5 per cent are from rural to rural, 15.5 per cent from urban to urban, 19.9 per cent from rural to urban and 5.8 per cent from urban to rural. In case of Nanded district of the total 833,390 interstate migrants 61.6 per cent are from rural to rural, 6.6 per cent from urban to urban, 15.4 per cent from rural to urban and 3.9 per cent from urban to rural.

ANNEXURE IV (x)

Rural And Urban Composition of Internal Migrants by Place of last Residence,2001 Census - Nanded

Place of last residence	Place of Enumeration		
	Total	Rural	Urban
1	2	3	4
Total Internal Migrant :			
1) Within the State			
Total	833,390	630,903	202,487
	100.0	75.7	24.3
Rural	641,756	513,490	128,266
	77.0	61.6	15.4
Urban	86,821	32,197	54,624
	10.4	3.9	6.6
2) In other States of India			
Total	59,608	33,518	26,090
	100.0	56.2	43.8
Rural	39,634	28,284	11,350
	66.5	47.5	19.0
Urban	16,875	3,448	13,427
	28.3	5.8	22.5

Note: The place of last residence unclassifiable as 'Rural' or 'Urban' is included in 'Total'.

In case of migrants from other states 7,313,139; 12.7 per cent have migrated from rural to rural, 30.2 per cent from urban to urban, 50.8 per cent from rural to urban and 2.5 per cent urban to rural. In case of Nanded district of the total 59,608 migrants, 47.5 per cent are from rural to rural, 22.5 per cent from urban to urban, 19.0 per cent from rural to urban and 5.8 per cent from urban to rural.

ANNEXURE IV (xi)
Percentage of migrants to total population, 1991-2001
Nanded district

Serial number	Place of birth/Place of last residence	Total population	Total Migrants		
			Persons	Males	Females
1	**2**	3	4	5	6
1	**Migrants by place of birth**				
	2001 Census	2,876,259	868,405	233,681	634,724
			30.2	8.1	22.1
	1991 Census	2,330,374	693,871	181,127	512,744
			29.8	7.8	22.0
2	**Migrants by place of last residence**				
	2001 Census	2,876,259	893,248	243,159	650,089
			31.1	8.5	22.6
	1991 Census	2,330,374	700,021	182,417	517,604
			30.0	7.8	22.2

There are 868,405 (30.2 per cent) migrants by place of birth comprising 233,681 (8.1 per cent) males and 634,724 (22.1 per cent) females to total population in 2001. Similarly 893,248 (31.1 per cent) migrants by place of last residence comprising 243,159 (8.5 per cent) males and 650,089 (22.6 per cent) females to total population are found in Nanded district.

It may be seen that the percentage of migrants by place of birth has marginally increased in Nanded district during the decade 1991-2001.This observation holds good for males and females also. Similar trend can be seen for the migrants by place of last residence also.

ANNEXURE

ANNEXURE V

Brief account of Main Religions in the district/ tahsil as per 2001Census

The table presented below shows the percentage distribution of religions by rural/urban areas.

Percentage distribution of main religions in the district as per 2001 census

Religion	Percentage to Total Population			Percentage of each religions in	
	Total	Rural	Urban	Rural areas	Urban areas
1	2	3	4	5	6
Hindu	75.2	81.7	54.5	82.6	17.4
Muslim	13.4	8.0	30.6	45.2	54.8
Christian	0.1	0.1	0.3	44.8	55.2
Sikh	0.4	0.1	1.5	20.9	79.1
Buddhist	10.5	9.9	12.4	71.6	28.4
Jain	0.2	0.1	0.5	34.8	65.2
Other religions and persuasions	0.0	0.0	0.0	78.6	21.4
Religion not stated	0.1	0.2	0.1	76.5	23.5
All religions	**100.0**	**100.0**	**100.0**	**76.0**	**24.0**

Source : Table C-15 2001 census

Percentage distribution of main Religion in the district as per 1991 census.

Religion	Percentage to Total Population			Percentage of each religions in	
	Total	Rural	Urban	Rural areas	Urban areas
1	2	3	4	5	6
Hindu	76.9	82.5	56.5	84.0	16.0
Muslim	12.2	7.4	29.6	47.4	52.7
Buddhist	10.3	9.9	11.9	75.0	25.0
Jain	0.2	0.1	0.4	36.4	63.7
Christian	0.1	0.0	0.2	13.1	86.9
Sikh	0.3	0.1	1.3	20.4	79.6
Other religions and persuasions	0.0	0.0	0.0	47.7	52.3
Religion not stated	0.1	0.1	0.1	66.4	33.6
All religions	**100.0**	**100.0**	**100.0**	**78.3**	**21.7**

The distribution of religions by rural and urban areas of the district shows that about 75.2 per cent of the population is reported their religion as Hindu (81.7 per cent in rural and 54.5 per cent in urban areas), Muslim account 8.0 per cent in rural areas whereas 30.6 per cent in urban areas. Buddhist are 9.9 per cent in rural areas and 12.4 per cent in urban areas. Christian, Sikh and Jain are found numerous in urban areas. There is a marginal decrease in the percentages of Hindu population during the last ten years.

Note- * Owing to administrative reasons census could not be conducted in 33 villages of Akrani and Akkalkuwa tahsils of Dhule district. Only their population (Persons, Males and Females) was obtained through secondary source. Consistancy checks for Dhule district and Maharashtra cannot be applied except for population (Persons, Males and Females)

Source: Table C-2 of Part IV-A, C Series, Soci0-Cultural Tables, 1991 census.

When compared to 1991 data, it is found that during the last decade the literacy rate of the state has jumped from 64.9 per cent to 76.9 per cent. While during the same period the districts literacy rate has increased from 48.2 per cent to 67.8 per cent.

Source : Table C-16 2001 census.

Marathi is the principal language of the district and is the mother tongue of 74.9 per cent of the district population. In rural areas Marathi speakers account for 80.7 per cent whereas in urban areas 56.5 per cent. Urdu is the second largest language spoken in the

district. It accounts for 10.0 per cent of the total population. The proportion of Urdu speakers is higher in urban areas (26.0 per cent) than the rural areas (5.0 per cent). The third largest language spoken in the district is Banjari, its percentage to the total population is 4.8 and mainly spoken in rural areas by 6.1 per cent , whereas 0.8 per cent in urban areas.

The speakers of the minority languages like Marwari, Hindi and Telugu are mainly concentrated in urban and the remaining Gondi, Kannada and Lamani/Lambadi are concentrated in rural areas.

It is found that during the last decade proportion of Urdu speaking persons has decreased from 11.2 per cent to 10.0 per cent whereas Marathi and Banjari speakers proportion has increased from 74.3 per cent to 74.9 and 4.5 per cent to 4.8 per cent respectively.
