VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

Samir Kumar Biswas
of the Indian Administrative Service
Director of Census Operations, Maharashtra

Product Code Number

MOTIF

Naldurg Fort

Naldurg Fort built by one of the Hindu Kings from Chalukyas Kingdom of Kalyani. Ibrahim Adil Shah II constructed a dam across the river Bori to supply fort garrisons with water and also built the Pani Mahal for his own pleasure. “Pani Mahal” is the major attraction in the fort during the monsoon; the over flowing waters of the river passes through the palace; but the arrangement is such that it does not enter the palace. This calls for tribute to the engineering skill of the builder.

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and collage),

medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri Samir Kumar Biswas, Director of Census Operations, Maharashtra. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective State Governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated: 17.10.2006

Preface

The Registrar General and Census Commissioner of India has in his foreword to this series of publications, not only provided the reader with the historical background of the District Census Handbooks but has also explained at some length the scope and coverage envisaged for this country-wide project. This volume contains the salient results based on the data gathered at the actual head-count and in addition contain a wealth of other non-census information in respect of Villages and Towns of the District. It is hoped that this volume would go a long way to meet the ever-increasing demand for the micro-level data in this era-planned development.

District Census Handbook of Maharashtra is a joint venture of the Government of Maharashtra and the Census Organisation of the Government of India. The design for the 2001 District Census Handbook was evolved centrally by the Census Commissioner, India. In the preparation of the District Census Handbook, the role played by the Census Organisation is that of data gatherer. In accomplishing this task we have had the ready and whole-hearted co-operation of the staff at various levels of different departments of the State Government. Much of the data so provided by this field –level officers have been cross checked with the data obtained from various departments and an attempt has been made to reconcile the discrepencies as well. The Village Directory data in addition were also examined logically and possible errors list generated village wise for select facilities was rechecked and revalidated with the revenue officers in the respective Collectorate.

I am extremely grateful to Shri D.K. Sikri, Additional Secretary and Registrar General, India for his guidance in bringing out this publication. I am equally grateful to Shri J. K. Banthia, I.A.S. the former Registrar General and Census Commissioner, India for his constant inspiration, help and guidance at every stage.

I also express my thanks to Dr. R.P. Singh, Dy. Registrar General, India (Map), Shri R.G. Mitra, Dy. Registrar General, India (Census Division), Dr. I.C. Agrawal, Assistant Registrar General (SS Division), Shri S.L. Jain Deputy Director (SS Division), Shri C.S. Arora, Director (EDP), Shri Himakar, Additional Director (EDP), Shri M.R. Balakrishnan, Joint Director (EDP), Shri Anil Kumar, Deputy Director (EDP) and their colleagues for their co-operation and support in bringing out this volume.

Shri Samir Kumar Biswas, IAS held the office of Director of Census Operations, Maharashtra and guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the direction and guidance of Shri Biswas. We would deem it our duty; therefore, to offer him our sincere and grateful thanks for all that he did for this project.

In this Directorate, Shri R.S. Meena, Joint Director guided this project in a meticulous manner and received all help from Dr. S.S. Hiremath, Deputy Director. The DCHB unit was spearheaded by Smt. Sushma Monga, Assistant Director, who was on deputation from the Planning Commission, New Delhi.

The physical features have been concurred by the Map section, after incorporating necessary changes, wherever required. The Maps, inserted are prepared by the Cartography section under the guidance of Shri D.N. Chaurasia, R.O.

I take this opportunity to offer my grateful thanks to all officials in various grades who have been actively involved in voluminous work of compilation and preparation of this volume. The list of the officials of this Directorate closely associated with this work is given separately.

	Umarga (M Cl)	Urban	3.2	9,314	0	0

Note : Since the source for the total area figures in respect of the State and districts is the Surveyor General while that for the total area figures in respect of the tahsils is the Settlement Commissioner and Director of State Land Records Department the total areas, as also the rurla areas, for the tahsils in district, may not add upto the corresponding figures shown against the district.

The population per square kilometre worked out from actual area figure upto 2 decimal point and then area presented in 1 decimal point.

M.Cl stands for Municipal Council.

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of District Census Handbook

The origin of DCHB lay in the 1951 Census when it began as a joint venture between the Government of India and the State Government. The present volume pertaining to 2001 Census is sixth in series since then. The District Census Handbook (DCHB) is a unique publication from the Census Organization that, in a condensed form, gives details of the Census and non-Census information from the village level upwards to the district level. It has therefore, been acclaimed & recognized as one of the best source of information next only to the district gazetteer.

The District Census Handbook as published in 1951 incorporated, some basic demographic and economic information of the district, village wise and town wise separately, besides having some important Census Tables. However, it underwent a radical change in the 1961 Census as a much more descriptive account of the district and a lot of non-census information on climate, rainfall, agriculture, industry, education, etc. was added to it besides a number of cross tables being picked up from various series of Census tables. In 1971 the District Census Handbook was divided into Part - A relating to Village and Town Directory, Part - B containing village and town wise Primary Census Abstract and Part - C reported on the administrative aspect and Census tables based on Primary Census Abstract etc. For the state of Maharashtra only Part A and B were published. The 1981 Census again saw the scope of it increasing to contain the data on literacy rate, Primary Health Centers etc. It was published as part A and B and the same pattern was again followed in 1991. However, in 1991 some of the non-census data included information on girls schools, social forestry area etc. as separate Appendices. The DCHB, 2001 Census have been made more informative and exhaustive in terms of coverage and content. The scope of village directory has been broadened by including more types of facilities such as bank, recreational and cultural facilities, newspapers and magazines available in villages. Information on most important commodity manufactured in village and also income and expenditure of Gram Panchayat, wherever possible are provided. Specific details on distances, in case a basic amenity is not available in the referent village is also given. These include distances in respect of availability of Primary and Middle school and college (in respect of the educational facility), Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre (in respect of the medical facility), Drinking water, Post Office and Phone, Communication, Bank, Credit Societies and Recreational facilities. The Non-Census information collected at the village level or town level by the Tahsildar/ Chief officer was scrutinized and verified in each district by the District Planning Officer and District Statistical Officer. The Collectorate were also requested to once again verify this in case serious discrepancies were observed. Logical checks were applied to the data and the scrutiny points which emerged after this exercise were further verified in the field by officials of this Directorate. With reference to the town concerned, the nearest city with 5 lakh and above population has also been given in addition to 1 lakh and above population. The non-census information was cross-checked with parent department also. For example, information on electricity was cross-checked with Maharashtra State Electricity Board, that on roads with Public Works Department, on health with the Directorate of health and so on. It is felt that because of this extra validation, information provided in the 2001 District Census Handbook should become more reliable and can be used without any hitch by Scholars and Planners alike.In town directory, information on all types of slums, whether notified/recognised by the respective town authority or not and in respect of all statutory towns irrespective of their class as against

only Class I and Class II towns of the 1981 and 1991 Censuses are provided. The varied basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. A number of tables based on Primary Census Abstract are also made to correlate data with geography of the tahsils. A significant addition in the publication is inclusion of analytical notes as annexures on important aspects concerning Census data on (i) fertility, mortality and migration, (ii) various measures of fertility and mean age at marriage, (iii) percentage distribution of migrants by place of birth/place of last residence, (iv) main religions, (v) marital status of population, (vi) age, sex and education, and (vii) distribution of different mother tongue, all based on 1991 Census. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The Village and Town Directory as also the Primary Census Abstract included in this Handbook should quench the thirst of the planners involved in micro level planning.

(ii) Brief History of The District

The old name of the Osmanabad district was Dharasiva. During the age of the Satavahanas; Osmanabad district seems to have been very prosperous. Tagara; modern Ter; is mentioned in the Periplus of the Erythrean Sea as one of the two pre-eminent trading centers; the other being Pratisthana; modern Paithan in the Aurangabad district. From there; various kinds of merchandise were taken to Barygaza (modern Broach) by wagon loads-from Paithan; a great quantity of onyx-stone and from Tagara a plentiful supply of fine lines cloth; and all kinds of muslins and mallow coloured stuffs and several other kinds of merchandise; pertaining to various places; which were taken thither from districts bordering on the sea.

In 1317, the Kingdom of the Yadavas finally passed into the hands of the Sultans of Delhi. The Deccan now began to be ruled by the Governors appointed from Delhi. The district of Osmanabad thus for the first time passed under Muhammedans. Under the Moghals; the Deccan was divided into six Subhas viz. Khandes; Berar; Aurangabad; Bidar; Bijapur and Hyderabad. The present district of Osmabad which was roughly divided into two district viz. Paranda and Naldurg then formed part of Aurangabad and Bijapur Subhas. In 1722; Nizam –UI-Mulk was appointed as the Vazir of Moghal Empire; but he soon got tired of the court intrigues and returned to the Deccan in the following year. The emperor ordered the Subhedar of Hyderabad; Mubariz Khan to oppose him. A battle was fought at Fatehkharda in October 1724 in which the Nizam emerged victorious. This battle established the independence of the Nizam-UI- Mulk. Osmanabad district thus after a centur;y of direct rule by the Delhi Emperors passed under the Nizam's sovereignty.

The district was temporarily ceded to the British Government in 1853 and it was reverted to Hyderabad State in the year 1860; with its headquarters at Naldurg. The district was known as Naldug district till 1904. Naldurg district was subsequently abolished and new district of Osmanabad was carved out with headquarters at Osmanabad. 1905 witnessed the abolition of 2 tahsils with their headquarters at Washi and Naldurg. The former was merged in Kalamb and latter in Tuljapur.

Among the Marathwada region; Osmanabad had the biggest area under the Nizam's own estate called "Sarf-e-Khas". The Sarf-e-Khas was merged with Government area under the Sarf-e-Khas (merger) regulation in the year 1949. In the same year all the Jagirs were abolished and put under direct Government administration. Consequent upon the abolition of Sarf-e-Khas and Jagirs; the boundaries of all the tahsils were reconstituted in 1950. Two new tahsils with headquarters at Ausa and Umarga and a new Mahal with headquarters at Bhum were created. In 1950 again; 11 enclave villages were transferred from Solapur to the district in return to 52 villages from the district to Solapur. With the reorganization of States; the district became a part of Mumbai State in 1956. Three tahsils viz. Ahmadpur; Nilanga and Udgir were transferred from the neighbouring Bidar district (Karnataka) to Osmanabad distriact. In 1960; Bombay State was bifurcated into Maharashtra andGujarat and Osmanabad became an intergral part of Maharashtra State. Since then the district had 6 tahsils and 8 towns upto 1991. For 2001 Census the Osmanabad district has 8 tahsils and 8 towns.

(iii) Administrative Set up

There were Major changes in the administrative set-up of Maharashtra after the 1991 Census; resulting in increase of five districts. The number of division unchanged it is same in 1991 Census and 2001 Census. The number of districts rose from 30 in 1991 Census to 35 in 2001 Census. Greater Bombay district of 1991 Census divided into two forming Mumbai and Mumbai suburban districts. Similarly new districts Nandurbar; Washim; Hingoli and Gondiya districts were formed bifurcating; Dhule; Akola; Parbhani and Bhandara districts respectively. Konkan division includes 6 districts; Nashik division has 5 districts; Pune division has 5 districts; and Aurangabad division has 8 districts; Amravati division 5 districts and Nagpur division 6 districts. Osmanabad district is included in Aurangabad division. Thus for 2001 Census the State has 35 districts spread over 6 divisions in Maharashtra. Osmanabad district has now 8 towns; 8 tahsils and 734 villages spread over Osmanabad (128); Kalamb (91); Umarga (96); Tuljapur (123); Paranda (97) and Bhum (90); Washi (62) and Lohara (47) tahsils. The following statement indicates the changes in the number of villages and towns in each tahsil during 1981-91.

JURISDICTIONAL CHANGES DURING 1991-2001

Name of District/Tahsil	No. of villages as per while in Osmanabad district	No. of villages as per Adjusted as per 2001 Jurisdiction	No. of villages as per 2001 Census	No. of New villages created	No. of Towns 1991 census	No. of Towns 2001 census	Changes since 1991 and Govt. Notification No.
1	2	3	4	5	6	7	8
Osmanabad District	722	722	734	13	8	8	2 New tahsils created after 1991 Census 13 New Villages created after 1991 Census 1 village merged in Kalamb (MCl)
1 Paranda	118	94	97	3	1	1	3 New Villages created after 1991 Census 24 Villages transferred to Bhum Tahsil
2 Bhum	98	87	90	3	1	1	3 New Villages created after 1991 Census 24 Villages transferred from Paranda Tahsil. 35 Villages transferred to Washi Tahsil.
3 Washi	--	62	62	--	--	--	27 Villages transferred from Kalamb Tahsil 35 Villages transferred from Bhum Tahsil
4 Kalamb	119	92	91	--	1	1	27 Villages transferred to Washi Tahsil 1 Village merged in Kalamb (MCl)
5 Osmanabad	128	128	128	--	1	1	--
6 Tuljapur	126	123	123	--	2	2	3 Villages transferred to Lohara Tahsil
7 Lohara	--	47	47	--	--	--	44 Villages transferred from Umarga Tahsil 3 Villages transferred from Tuljapur Tahsil
8 Umarga	133	89	96	7	2	2	7 New Villages created after 1991 Census 44 Villages transferred to Lohara Tahsil.

The district is divided into two sub-divisions of Osmanabad and Bhum and 8 tahsils for administrative purposes. Osmanabad sub-division includes Osmanabad; Tuljapur; Umarga and Lohara tahsils and Bhum sub-division includes Bhum; Kalamb; Paranda and Washi tahsils. The district Collector along with

District Judge; Superintendent of Police; Chief Executive Officer of Zilla Parishad and other senior officers of the State Government look after the development and regulatory functions in the district. At the tahsil level the Tahsilar; Block Development Officer; Judicial Magistrate; Deputy Engineers and other Officers look after their respective departments for development and regulatory functions.

Local self Governments, its composition, jurisdiction and the role in the Development.

Gram Panchayat is the lower most rung of the democratic set-up of India. It is governed by the 'Bombay Village Panchayat Act, 1958'. The 'Sarpanch' and in the absence of Sarpanch, the 'Upa-Sarpanch' preside over every meeting of 'Gram Sabha'. At least four meetings of the 'Gram Sabha' are held every year. Sarpanch and Upa-Sarpanch are elected from amongst the elected members of the Panchayat.

73rd Constitutional Amendment

To make Panchayat Raj Institutions strong and to give more power to the people, the State Panchayat Act has been amended in confirmation with the 73 rd Constitutional amendment, which is implemented in the State in April 1994. The Main fundamental provisions of the 73 rd Constitutional amendments are as follows:

1. Constitution of Panchayat Raj Institutions at Village, Intermediate (Development Block) and district level.

2. The seats and the offices of the chairpersons in the Panchayats at all the levels to be reserved in favour of Scheduled Castes and Scheduled Tribes in proportion to the percentage of population of the Scheduled Castes or Scheduled Tribes as the case may be.

3. The elections to these Panchayat Raj Bodies to be held at the interval of every five years.

4. Powers, Authority and Responsibilities of Panchayats: -

(a)The preparation of plans for economic development and social justice

(b)The implementation of schemes for economic development and social justice as may be entrusted to them including those in relation to the matters listed in the Eleventh Schedule.

5. An independent State Election Commission to conduct the elections.

6. Powers to impose taxes by, and funds of, the Panchayats.

7. Constitution of Finance Commission by the State at the expiry of every five years term to review the financial position of the Panchayats and to make recommendation regarding distribution of State resources between the State and the Panchayat.

Constitution of Gram Panchayat

The gram panchayat consists of not less than seven and not more than seventeen members elected from wards on the basis of adult franchise. They hold office for a term of five years. Among these a few seats are reserved for persons belonging to the Scheduled Castes, the Scheduled Tribes, Backward Class of citizens and Women, as may be determined by the State Election Commission in the prescribed manner.

Administrative powers and duties of Panchayats

Administrative powers and duties of Panchayats are - to take care of the funds at its disposal, to take over and maintain water supply schemes through "Village Water Supply Fund", to make provision for carrying out within/outside the village any work subject to any directions made by State Government for any scheme or for any purpose sponsored by the Government, to make provision for carrying out work which is likely to promote health, safety, education, comfort, convenience or social or economic or cultural well- being of the inhabitants of the village, to make provision for entertainment, public reception, contribution towards annual gathering, to encourage farmers and co-operative societies to increase and improve agricultural production etc.

Powers and duties of Panchayats in the scheduled areas

Powers and duties of Panchayats are - to obtain from the Gram Sabha a certification of utilization of funds for the plans, programmes and projects,

prospecting licence or mining lease for minor minerals, control on erection of building, to remove any obstructions and encroachments upon public streets and open sites etc.

Establishment, Budget and Accounts

The day to day work of the Panchayat is done by Secretary of panchayat. The Chief Executive Officer of Zilla Parishad appoints the secretary of Panchayat. His salary is paid from the district fund.

The budget of the village Panchayat is submitted to the Panchayat samiti. It covers opening balance in the fund, estimated income, proposed expenditure and the amount to be contributed to the District Village Development Fund. The sanctioning authority of the village budget is panchayat samiti.

Taxation and Recovery of Claims

The taxes levied by the panchayat are - tax on buildings and lands, betterment charge or the lands benefited from schemes or projects undertaken by Panchayat from 'Village Fund', pilgrim tax, tax on fairs, festivals and other entertainments, tax on bicycles and on vehicles drawn by animals, tax on professions, trades, callings or employments, shop keeping and hotel-keeping, general sanitary cess, general water rate, a lighting tax, fee on markets and weekly bazars, fee on car stands/tonga stands, special water tax for water supplied through pipes, fee for the supply of water from well and tank for purposes other than domestic use and for cattle, fee for temporary occupation on public street, special sanitary cess upon private latrines, fee for cleaning cess pool, fee for grazing cattle, fee on the registration of animals, lump sum contribution by factories in lieu of taxes levied by Panchayat, farming of fees on markets, collection of cess on every rupee of land revenue etc.

Financial Assistance to Panchayats

Gram Panchayat receives financial assistance from the State Government, loan by Zilla Parishad, Equalisation grant, Village water supply fund and District village development fund.

Gram Panchayat-role in the Development of the village

Since the Gram Panchayat controls the village fund, it has an immense role in the Development of the villages. It makes reasonable provision within the village and submits to the Panchayat Samiti for approval. It supervises the village water supply scheme. It makes provision for carrying out within the village any work which promotes health, safety, education, comfort, convenience or social or economic or cultural well-being of the inhabitants of the village.

Gram Panchayat can make provision for any public reception, ceremony or entertainment within the villages or make contribution towards at annual gathering or such other gathering of Panchayats in the district or the state.

It encourages farmers of the village to make use of co-operative societies in increasing and improving agricultural production. It supervises primary schools situated within the area of its jurisdiction.

Last but not the least, it is duty bound to take measures for the amelioration of the condition of Scheduled Castes and Scheduled Tribes and other Backward Classes and in particular, in the removal of untouchability carry out the directions issued in this regard from time to time by the State Government.

Objectives of the Local Self Government

With a view to promote development of democratic institutions and to secure greater measure of participation by the people in Development Plans and in local and governmental affairs by decentralization of powers and functions, Zilla Parishad and Panchayat Samities (C. D. Blocks) have been established in the district of Maharashtra in the year 1962 under the Maharashtra Zilla Parishad and Panchayat Samiti Act of 1961. The jurisdiction of Zilla Parishad and Panchayat Samiti i.e. C.D. Blocks corresponds to the district and tahsil boundaries except that the statutory towns are not covered by them.

The local self bodies are working as agencies of State Government. The 73rd Constitutional Amendment gave local self bodies the constitutional status. The new power bestowed upon them gave a great impetus to the development plans and its implementation.

Zilla Parishad

The Zilla Parishad has the authority for the purposes of the Act over the area for which it is established. The authorities charged with carrying out the provision of this Act for each district are–

a) The Zilla Parishad

b) Panchayat Samitis

c) The Standing Committee

d) The Subjects Committees

e) Presiding authorities

f) The Chief Executive Officer

g) Block Development Officer

The Zilla Parishad is assisted in its function by number of departments and each department is headed by class I or class II officers of the State Services.

Zilla Parishad consists of councillors directly elected on the basis of adult franchise from electoral divisions in the district for a term of five years. The number of councillors being not more than seventy-five and not less than fifty. Some seats of councillors are reserved for the persons belonging to Scheduled Castes, Scheduled Tribes, Women and Backward Class citizens.

Grants to Zilla Parishad

1. Grant of 7 percent of forest revenue to Zilla Parishad.

2. Purposive grant – State Government pays every year to Zilla Parishad a grant for works and development schemes transferred to Zilla Parishad.

3. Establishment grant – State Government pays by way of establishment grant, the average cost on account of the salaries and allowances.

4. Local cess matching grant – State Government pays a local cess matching grant to be paid to Panchayat Samiti through the Zilla Parishad.

5. Incentive grant – State Government pays to Zilla Parishad an incentive to speedier development.

6. Grants for plan schemes – State Government pays grant for such works and development schemes relating to any subject enumerated in the district List as are included in the development plan of the State.

7. Block grant – State Government pays to each Panchayat Samiti through Zilla Parishad for carrying one such work and development scheme.

The development work of the district is carried out through the various committees appointed for the purpose by the Zilla Parishad. The executive power for the purpose of carrying out the provisions of the Act lies with the Chief Executive Officer, who is appointed by the State Government.

All the development work within the district is carried out by the Zilla Parishad through the District Fund at its disposal.

The Deputy Chief Executive Officer works as the ex-officio secretary of the Zilla Parishad.

Panchayat Samiti

Panchayat Samiti Consists of members elected by direct election, its jurisdiction being the C.D. Block. The term of the members is five years. The Block Development Officer is the ex-Officio Secretary of the Panchayat Samiti. The Chairman and Deputy Chairman are elected by and from amongst the members of the Panchayat Samiti.

The overall plan of work and development schemes within the block is prepared and executed by the Panchayat Samiti.

Devolution of Powers and functions.

As per the 73rd Constitutional Amendment, Articles 243-G and Schedule 11 of the Constitution, 29 subjects are to be transferred to the Panchayat Raj Institution. The State Government implemented this amendment in April 1994 and provisions were made in the State Panchayat Raj Act to transfer these subjects to the Zilla Parishads, Panchayat Samitis and the Village Panchayats.

Source : 1. Bombay Act No. III of 1959 (The Bombay Village Panchayats Act,1958).

2. Maharashtra Act No. V of 1962 (The Maharashtra Zilla Parishads and Panchayat Samitis Act, 1961).

3. 73rd Constitutional Amendment.

Urban Local Bodies

The Statutory urban local bodies are cantonments, Municipalities or municipal corporations. The urban

local bodies elect councillors from each of the ward and his term is 5 years. The President of the Municipal Council or the Mayor of the corporation as also their Deputy are elected from amongst elected councilors. The Chairmen of various committees are also elected from amongst the elected councilors. Although for day to day administration the chief officer is responsible in a municipal council, he works under the administrative control of the President of Municipal Council. In Corporations a senior IAS Officer is deputed by the State Government as Municipal Commissioner who is responsible for day to day administration and the executive authority lies in him.

(iv) Physical features

Location and Size

Osmanabad district is situated between 17^0 37' and 18^0 42' north latitudes and 75^0 17' and 76^0 47' east longitudes. It is surrounded by Bid district in the North; Latur district in the East; Karnataka State in the South East; Solapur district in the South West and West; and Ahmadnagar district in the North West.

The district has an area of 7,569.0 sq.kms. and a population of 1,486,586 persons as per Census 2001. While the area of the district accounts for 2.5 percent of the total area of the State; the district's population constitutes 1.5 percent of the total population of the State. The density of population is 196 persons per sq. km. Among the 35 districts of the State; the district ranks 21st in terms of area; 27th in terms of population and 31st in terms of density.

The headquarters of the district is located at Osmanabad; a town having a population of 80,625 persons as per the 2001 Census. A narrow gauge railway line passes through the district connecting Miraj and Latur. The nearest railway station is Yedsi; about 18 kms. to the north; on this route. The district has a well-developed network of roads and it is well connected to the other parts of the State.

Physiography

India has been divided into four macro level physical divisions i.e. The Northern Mountains, The Great Plains, The Deccan Plateau, and The Coastal Plains and Islands.

Maharashtra falls under two of these macro level divisions 1)The Deccan Plateau, and 2) The Coastal Plains and Islands. The north-south running Sahyadri range separates these two divisions. The Deccan Plateau lies to the east while the Coastal Plains and Islands lie to the west up to the Arabian Sea. The Deccan Plateau is much larger of the two divisions and includes twenty nine districts of the State while only six districts lie in the Coastal Plains and Islands.

The whole Deccan Plateau is sub-divided into 12 meso regions. Of these, only 2 meso regions i.e. Northern Maharashtra and The Maharashtra Plateau lie within the State. Northern Maharashtra is further divided into 2 micro regions i.e. The Tapi-Purna Valley and The Wardha-Penganga-Wainganga Plain. The Maharashtra Plateau is also further sub-divided into 2 micro regions i.e. The Eastern Plateau and The Western Plateau with Protruded Hills.

The Coastal Plains and Islands is divided into 4 meso regions i.e. Gujarat Region, Western Coastal Region, Eastern Coastal Region and The Islands. Of these, The Western Coastal Region covers Maharashtra. This region is divided into 4 micro level regions i.e. Maharashtra Littoral, Goa Coast, Karnataka Coast and North Kerala Coast. Only Maharashtra Littoral falls within the state of Maharashtra.

The hierarchy of these macro, meso and micro level physiographical divisions within Maharashtra State are as below :

(A) Deccan Plateau :

(i) Northern Maharashtra :

(a) Tapi-Purna Valley : Includes the districts of Nandurbar, Dhule, Jalgaon, Buldana, Akola, Washim and Amravati.

(b) Wardha-Penganga-Wainganga Plain : Includes the districts of Wardha, Nagpur, Yavatmal, Bhandara, Gondiya, Gadchiroli and Chandrapur.

(ii) Maharashtra Plateau :

(a) Eastern Maharashtra : Includes the districts of Aurangabad, Jalna, Parbhani, Hingoli, Nanded, Bid, Osmanabad, Latur, Solapur, Sangli and Kolhapur.

(b) Western Maharashtra with Protruded Hills:

Includes the districts of Nashik, Ahmadnagar, Pune and Satara.

(B) Coastal Plains and Islands:

(i) Western Coastal Plains:

(a) Maharashtra Littoral : Includes the districts of Thane, Mumbai (Suburban), Mumbai, Raigarh, Ratnagiri and Sindhudurg.

The district is a tableland of Balaghat plateau and falls under the Eastern Plateau micro region of the Deccan Plateau. The plateau region rises rather steeply from the plains in the west and slopes gently towards the east. It is narrow and high in the northwest but broader and lower in the southeast. The interfluves between the streams are rocky with poor stony soils and are mostly barren. The valleys of the streams have better soils and rabi wheat and jowar are grown.

The district can broadly be divided into two types of landforms. (1) The elevated lands or plateaus; which includes the Bhum plateau; Osmanabad plateau and Umarga plateau. (2) The basins or the lowlands; which include the Sina and Manjra river basin.

Bhum Plateau spreads over the western part of the district. It includes major parts of Paranda and Bhum tahsils; and parts of Kalamb and Washi tahsils. In general; this plateau has an elevation varying between 600 and 700 metres and it slopes towards southeast. The surface is uneven in nature as it has been dissected by numerous small streams originating from the plateau. Soils found in this plateau are shallow and poor. Jowar is the main crop grown in this area.

Located in the central part of the district; Osmanabad Plateau covers major parts of Osmanabad and Umarga tahsils and a very small part of Kalamb tahsil. This plateau in general has an altitude varying between 600 and 700 meters. In the extreme southeastern part; the altitude is below 600 meters. The plateau slopes gently towards east and has an undulating stony surface. Soils are medium and have a depth of between 9 and 18 inches and are alkaline in reaction. Mainly kharif crops are grown in this area.

Umarga Plateau covers major parts of Tuljapur and Umarga tahsils; and a small part of Osmanabad tahsil in the southern part of the district. This plateau has an altitude of about 600 meters. The land slopes towards southeast. The upper reaches of Bori and Benitmora rivers drain this region. Soils are medium and alkaline in nature.

Sina basin stretches in a narrow belt running in a northwest to southeast direction. Owing to the shape of the district the basin is separated into two parts. It covers the extreme western parts of Paranda and Tuljapur tahsils. The region; in general; has an elevation of nearly 500 meters and the land slopes gently towards southeast. In the upper part of the region; river Sina flows along the district boundary. Thereafter it enters into Solapur district. Deep soils are found in patches and wheat and jowar are grown in this area.

Running in a narrow strip along the northern boundary and then turning southeastwards Manjra basin covers parts of Kalamb; Washi and small parts of Bhum tahsils. This river basin has an altitude varying between 500 and 600 meters. It is nearly 600 metres in the northwest and little below 500 meters in the southeast. As such the land slopes towards east and southeast. Manjra is the main river of this region. It flows along the district boundary in the north. A thick layer of soil is found in this area in which wheat and jowar are grown. Paddy is also grown in this area.

Drainage

The district is a tableland of Balaghat plateau and falls under the Eastern Plateau micro region of the Deccan Plateau. The plateau region rises rather steeply from the plains in the west and slopes gently towards the east. It is narrow and high in the northwest but broader and lower in the southeast. The interfluves between the streams are rocky with poor stony soils and are mostly barren. The valleys of the streams have better soils and rabi wheat and jowar are grown.

The district can broadly be divided into two types of landforms. (1) The elevated lands or plateaus; which includes the Bhum plateau; Osmanabad plateau and Umarga plateau. (2) The basins or the lowlands; which include the Sina and Manjra river basin.

Bhum Plateau spreads over the western part of the district. It includes major parts of Paranda and

Bhum tahsils; and parts of Kalamb and Washi tahsils. In general; this plateau has an elevation varying between 600 and 700 metres and it slopes towards southeast. The surface is uneven in nature as it has been dissected by numerous small streams originating from the plateau. Soils found in this plateau are shallow and poor. Jowar is the main crop grown in this area.

Located in the central part of the district; Osmanabad Plateau covers major parts of Osmanabad and Umarga tahsils and a very small part of Kalamb tahsil. This plateau in general has an altitude varying between 600 and 700 meters. In the extreme southeastern part; the altitude is below 600 meters. The plateau slopes gently towards east and has an undulating stony surface. Soils are medium and have a depth of between 9 and 18 inches and are alkaline in reaction. Mainly kharif crops are grown in this area.

Umarga Plateau covers major parts of Tuljapur and Umarga tahsils; and a small part of Osmanabad tahsil in the southern part of the district. This plateau has an altitude of about 600 meters. The land slopes towards southeast. The upper reaches of Bori and Benitmora rivers drain this region. Soils are medium and alkaline in nature.

Sina basin stretches in a narrow belt running in a northwest to southeast direction. Owing to the shape of the district the basin is separated into two parts. It covers the extreme western parts of Paranda and Tuljapur tahsils. The region; in general; has an elevation of nearly 500 meters and the land slopes gently towards southeast. In the upper part of the region; river Sina flows along the district boundary. Thereafter it enters into Solapur district. Deep soils are found in patches and wheat and jowar are grown in this area.

Running in a narrow strip along the northern boundary and then turning southeastwards Manjra basin covers parts of Kalamb; Washi and small parts of Bhum tahsils. This river basin has an altitude varying between 500 and 600 meters. It is nearly 600 metres in the northwest and little below 500 meters in the southeast. As such the land slopes towards east and southeast. Manjra is the main river of this region. It flows along the district boundary in the north. A thick layer of soil is found in this area in which wheat and jowar are grown. Paddy is also grown in this area.

Climate

The climate of the district is generally dry except during the monsoon season. The year may be divided into four seasons. The cold season from December to about the middle of February is followed by the hot season; which lasts till the end of May. June to September is the southwest monsoon season and October to November the post monsoon or retreating monsoon season.

The average annual rainfall in the district is about 800 mm.; however; this is not evenly distributed. In general; the rainfall increases as one proceeds towards North East. About 84 per cent of the annual rainfall in the district is received during the South West monsoon season. The variation in the annual rainfall from year to year is large.

Towards the end of November temperatures begin to fall rapidly. December is the coldest month of the year with the mean daily minimum temperature at about 15^0 C. Occasionally the minimum temperature may drop to about 4^0 C or 5^0 C due to cold waves in northern India. From about the middle of February temperatures begin to rise. May is generally the hottest month of the year with the mean daily maximum temperature at about 40 ^{0}C. The heat during the summer is intense and the maximum temperature may rise to 45 ^{0}C. With the onset of the South West monsoons there is an appreciable drop in day temperatures. With the withdrawal of the monsoons; day temperatures increase slightly while night temperatures progressively decline.

Except during the south-west monsoon season; the air is generally dry particularly in the afternoons. Skies are mostly clear or lightly clouded. During the south-west monsoon season the skies are heavily clouded to overcast.

Winds are light but increase in the force during the latter half of summer and in the south-west monsoon season. Dust storms occur in summer while thunderstorms occur in the summer and monsoon seasons.

Natural Wealth

Minerals

The district as a whole is monotonously covered by Deccan Traps basaltic lava flows; which are spread out in the form of horizontal sheets or beds. Trap rocks are generally barren of any economically useful and important minerals but being hard; dense and durable are most suitable for building purposes.

Fisheries

Osmanabad district is not rich in fisheries; as it is not richly endowed with fluvial waters. However; reservoirs built for irrigation purposes have enhanced the prospects of fisheries. There are very few fishermen and they are mainly from the Dheemer; Kahar; Bhoi and Koli communities. Fishing is generally done by cast; gill; or drag nets besides hook and line. Fast growing varieties of fish viz. Rohu; Catla and Mrigal are imported from Kolkata and are stocked in reservoirs; tanks and privately owned ponds.

Soil And Cropping Pattern

The soils of the district are essentially derived from the Deccan Trap; which is the predominant rock formation of the district. The cropping pattern is strongly influenced by the climate and the total quantity and distribution of rainfall.

The soils of the district on the basis of thickness can broadly be classified into four groups viz. shallow soils having thickness upto 9 inches; medium soils (9-18 inches); medium deep soils (18-36 inches) and deep soils (above 36 inches).

Shallow soils

Small patches of shallow soils occur in the western and north-western parts of the district. These soils are light brown to dark grey in colour. They are loamy to clay loam in texture and granular to subangular blocky in structure. The soils tends to be alkaline in reaction and deficient in nitrogen and organic matter.

Medium soils

Medium soils are found in part of Bhum; Washi; Kalamb and Osmanabad tahsils. They are dark brown to dark grey brown in colour. These soils are subangular blocky to blocky in structure. The soils are alkaline in reaction. They have a fair amount of phosphate but are deficient in nitrogen.

Medium and deep soils

Deep soils occur in patches in Tuljapur tahsil. The colour of these soils vary from dark grey brown to vary dark grey. They are clayey in texture and subangular blocky to blocky in structure. The soils are alkaline in reaction and total soluble salts are fairly high.

Land And Land Use Pattern

The ministry of food and Agricultural Government of India has recommended a standard pattern of land use classification for thr maintainance of records. Column 19-23 of the village directory give land use pattern in the district. The data furnishd here are based on the village records and pertain to the year 1999.

Forest

This includes all land classified as forest under any legal enactment dealing with forest or administered as forest, whether state owned or private and whether wooded or simply maintained as forest land. Within the forest area itself there may be occasionally cultivated patches or grazing lands, but such area are shown under column 19 as forest. The process of regularization of land grants and effecting relevant changes in the basic records of survey and settlement are somewhat protracted and time consuming. Therefore the information based on records is in some cases at least, likely to be different when compared with the actual field situation.

Among the 8 tahsils of the district. Tujapur, Kalamb and Osmanabad tahsil account for 80.0 percent of the forest area of the district. The forest produce is divided into two main classes i.e major and minor. The major forest produce is timber and firewood and much of it goes to Solapur, Pune and Mumbai. The minor forsest produce is Khair, Hivar Apta, Bor and Babhul etc.

Irrigated by Source and Unirrigated land

Column 20 and 21 of the Village Directory give all the agricultural land and when added together would correspond to the net area shown plus the current and other fallow lands. Area shown more than once during the same year, if any, in the village is counted only once under this column. In column

20 source wise breakup of the irrigated area is furnished by using abbreviation. All lands that are lying uncultivated as fallow for more than 5 years in succession are regarded as permanent fallow (Cultivable waste) and are covered under column 22.

The Concept of irrigation implies the existence of source of water supply within a reasonable distance and an arrangement to regulate the supply of the water according to the day-to-day needs of the crops raised in the fields. Naturally therefore all areas, which are cultivated under purely rain fed conditions, are treated as unirrigated lands.

Animal Husbandry

As per sixteenth Quinquennial census of livestoack of 1997, the information on important number of livestock and livestock indicators are given below.

Statement showing no. of Livestock (Position as on 15th Oct. 1997).

1)	Total Cross bred/Indigenous Cattle	379,558
2)	Total Buffaloes	147,565
3)	Total Goats	289,776
4)	Total Sheep	53,915
5)	Total Pigs	8,776
6)	Total Equine	3,592
7)	Total Camels	5
8)	Total Rabbits	131
9)	Total Livestock (excluding dogs)	883,318
10)	Total Poultry (including Ducks)	563,019

Source: Sixteenth All India Livestock & Farm Equipment Census 1997.

The total livestock (excluding dogs) are 883318 and total poultry (including ducks) are 563019 in the district. Out of the total livestock; the total crossbred/indigenous cattle are 379558; total buffaloes are 147565; and goats 289776; sheeps 53915 pigs 8776 equine 3592; camels 5 and rabbits are 131.

Statement showing Selected Livestock indicators (Position as on 15th Oct. 1997).

	Category	Value
1)	Density of Livestock population (per sq.km.)	117
2)	Average Livestock per village	1,234
3)	No. of livestock per thousand human population	692
4)	No. of in-Milk cows per thous and human population	57
5)	No. of in-Milk buffaloes per thousand human population	41
6)	No. of poultry fowls per thousand human population	441
7)	No. of Bullocks and male Buffaloes per hundred hectares of gross cropped area	20
8)	No. of tractors per thousand hectares of gross cropped area	1
9)	No. of Veterinary Institute per lakh livestock	11

Source: Sixteenth All India Livestock & Farm Equipment Census 1997.

The density of livestock population per sq. km. works out to117 while average livestock per village is 1234. For every thousand human population there are 692 livestock; 57 in-milk cows; 41 in-milk buffaloes and 441 poultry fowls. While there are 20 bullocks and male buffaloes per hundred hectares of gross cropped area and 1 tractor per thousand hectares of gross cropped area; the number of Veterinary institute per lakh livestock has reported to be 11.

Industry

In the Osmanabad district there are sugar factories in Osmanabad and Tuljapur M.I.D.C has developed only one industrial estate for setting up of industries. This area is given to small scale as well as large scale industries. The most important small scale industries in the district is gur making having a great demand in the state. Other registered units are oilmills, saw mills, handloom weaving, carpentary, pot making sugar factory, cement products, dal mills, printing and book binding.

Trade and Commerce

The district is well known for Jowar and edible oil. Jowar and oil seeds plantation are mainly grown in Tuljapur and Paranda tahsils. The chief export

articles of the district are Jowar, milk and Ground nuts. They are mainly exported to Mumbai, Solapur and Pune.

The chief import articles are foodgrains of all varieties. Cattle fodder, oil seeds, medicines hardware, sugar and raw iron. Most of these goods are imported from Mumbai, Pune and Solapur. Apart from the weekly markets and fairs, Osmanabad, Tuljapur, Bhum, Umarga are the important trade centres.

Transport

Number of Motor Vehicles registered in the district (as on 31.03.1999)

Motor Vehicles 1999		
	Item	No. of Vehicles
	1	2
1	Buses	334
2	Cars & Station Wagons	962
3	Jeeps	1,580
4	Taxies	84
5	Autorickshaws	961
6	Mopeds	2,622
7	Scooters	1,321
8	Motor Cycles	8,068
9	Total Goods Vehicles	2,101
10	Tractors	2,429
11	Trailors	2,061
12	Others	13
	Total	**22,536**

(Source: Transport Commissioner office)

It may be seen that the district had 8068 motor-cycles, 2622 mopeds and 1321 scooters. There were 334 buses, 962 cars and station wagons 1580 jeeps, 84 taxies, 961 autorickshaw, 2101 total goods vehicles. Besides 13 other mode of transport the district also had 2429 tractors and 2061 tailors as means of transports.

Electricity and Power

727 (99.7 percent) villages and all the 8 towns are enjoying the power supply facility.

(v) Census concepts

Building :

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses :

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses :

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 metres and a breadth of at least 1.5 metres and a height of 2 metres. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house :

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously :

i) A minimum population of 5,000.

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically

contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes andScheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential

Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:

Scheduled Castes

1) Ager
2) Anamuk
3) Aray Mala
4) Arwa Mala
5) Bahna, Bahana
6) Bakad, Bant
7) Balahi, Balai
8) Basor, Burud, Bansor, Bansodi
9) Beda Jangam, Budga Jangam
10) Bedar
11) Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chamari, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar , Madar, Madig, Mochi, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Nona, Ramnami, Rohit, Samgar, Samagara, Satnami, Surjyabanshi, Surjyaramnami
12) Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli
13) Bindla
14) Byagara
15) Chalvadi, Channayya
16) Chenna Dasar, Holaya Dasar, Holeya Dasari
17) Dakkal, Dokkalwar
18) Dhor, Kakkayya, Kankayya, Dohor
19) Dom, Dumar
20) Ellamalvar, Yellammalawandlu
21) Ganda, Gandi
22) Garoda, Garo
23) Ghasi, Ghasia
24) Halleer
25) Halsar, Haslar, Hulasvar, Halasvar
26) Holar, Valhar
27) Holaya, Holer, Holeya, Holiya
28) Kaikadi (in Akola, Amravati, Bhandara, Gondiya, Buldana, Nagpur, Wardha and Yavatmal districts and Chandrapur district, other than Rajura tahsil)
29) Katia, Patharia
30) Khangar, Kanera, Mirdha
31) Khatik, Chikwa, Chikvi
32) Kolupulvandlu
33) Kori
34) Lingader
35) Madgi
36) Madiga
37) Mahar, Mehra, Taral, Dhegu Megu
38) Mahyavanshi, Dhed, Vankar, Maru Vankar
39) Mala
40) Mala Dasari
41) Mala Hannai
42) Mala Jangam
43) Mala Masti
44) Mala Sale, Netkani
45) Mala Sanyasi
46) Mang, Matang, Minimadig, Dankhni Mang, Mang Mahashi, Madari, Garudi, Radhe Mang
47) Mang Garodi, Mang Garudi
48) Manne
49) Mashti

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf

mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker' .

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate :

Percentage of workers (main + marginal) to total population.

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years.

Sex -ratio :

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the

pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid–year Population.}} \times 1,000$$

Crude death rate(CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1,000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1,000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1,000$$

General fertility rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1,000$$

General marital fertility rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1,000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = 5 \times \frac{\sum_{15-19}^{45-49} ASFR}{1,000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = 5 \times \frac{\sum_{15-19}^{45-49} ASMFR}{1{,}000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1{,}000$$

q1 Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 Probability of dying between birth and age 2.

q5 Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early neo- natal mortality rate :

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late neo-natal mortality rate :

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post neo-natal mortality rate (PNMR) :

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Still birth rate (SBR) :

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible couple (Couples per 1,000 population) :

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child woman ratio (0-4) :

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9) :

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA/Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs./ Towns. These Class I UAs./Towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings – Population, its distribution

Brief Note on Census

Census taking is a massive operation carried out in a short span of time with the active participation of a veritable army of enumerators. The reference moment for the 2001 Census was the 00.00 hrs. March 1, 2001 i.e. the census provides a snapshot of the population of the country, as on 1st march 2001. Actual enumeration was spread over a period of 20 days from 9th February 2001 to 28 Feb.2001, followed by a revisional round up to 5th March 2001 for updating of the population figures with reference to 00.00 hours of March 1, 2001. Household schedule having 23 questions regarding each and every person in the family is newly introduced in this Census. These questions are mainly self-explanatory and answers are in code language. Question No. 1 to 15 are related to general and socio-cultural characteristic individual. Question 16 to 20 is about economic activity of the person. Question 21 and 22 about migration and question no. 23 is for women, related to fertility. In addition one question is added in 2001 census which is related to household engaged in cultivation/ plantation in part III.

As a prelude to the actual Census, the urban and rural areas were identified and listed out in respect of each administrative unit. The Director of Census Operations has prepared the list of urban area (which is generally referred to as town list) and simultaneously, a list of villages. These lists form the basic frame for the organization of the Census Operations. Thereafter geographical area that could be conveniently covered out to constitute the enumerator's block.

The next major step was the house listing Operation that was carried in the state during May-June 2000. Thereafter, in order to adhere to the prescribed workload norms, the actual Census enumeration's blocks were carefully demarked on the basis of the layout sketches and the notional maps prepared was also utilised to collect wealth of information on items such as predominant construction

material used for houses, amenities available to the Census households, number of living rooms etc. Information regarding number of bedrooms in the household, if couples having separate room, availability of amenities like telephone, TV, Car/Scooter was asked first time in this Census. From this information we can have an idea of standard of living of the people in the country.

In Maharashtra, tahsil and the C.D.Block are co-terminus and therefore the data shown in tables on C.D.Blocks and the rural areas shown in the tables on tahsils are same.

Distribution of Population in Rural-Urban Areas.

According to Census 2001; district Osmanabad has a total population of 1,486,586 comprising 769,368 Males and 717,218 females. The population of the district is 16.5 percent higher than the district population of 1,276,327 in 1991 Census. Osmanabad tahsil is most populatious (359,234). Other tahsils in order of population size are tahsil Tuljapur (250,149); tahsil Umarga (241,339); tahsil Kalamb (188,237); tahsil Paranda (125,136); tahsil Bhum (116,894); tahsil Lohara (110,163) and tahsil Washi (95,434).

An examination of rural-urban distribution of population reveals that 1,253,330 persons constituting 84.3 percent of the total population are concerntrated in rural areas; while 233,256 persons forming 15.7 percent are living in urban areas of the district. Although in absolute numbers; the number of people living in rural areas 1,082,447 in 1991 which increased to 1,253,330 in 2001.

In the district there are six tahsils; viz. tahsil Paranda (13.6 percent); tahsil Bhum (15.0 percent); tahsil Kalamb (12.2 percent); tahsil Osmanabad (22.4 percent); tashil Tuljapur (19.1 percent) and tahsil Umarga (19.6 percent) having urban population and remaining two tahsils have nil urban population.

The highest percentage of urban population is seen in tahsil Osmanabad (22.4 percent); while lowest percentage is in tahsil Kalamb (12.2 percent). Tahsil Washi and tahsil Lohara have nil urban areas.

TABLE 1 : DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Paranda	113,067	98,800	14,267	125,136	108,146	16,990	10.7	9.5	19.1	12.6	13.6
2	Bhum	105,493	90,648	14,845	116,894	99,385	17,509	10.8	9.6	17.9	14.1	15.0
3	Washi	87,263	87,263	-	95,434	95,434	-	9.4	9.4	-	-	-
4	Kalamb	166,574	146,712	19,862	188,237	165,215	23,022	13.0	12.6	15.9	11.9	12.2
5	Osmanabad	296,892	228,873	68,019	359,234	278,609	80,625	21.0	21.7	18.5	22.9	22.4
6	Tuljapur	215,059	179,167	35,892	250,149	202,454	47,695	16.3	13.0	32.9	16.7	19.1
7	Lohara	92,306	92,306	-	110,163	110,163	-	19.3	19.3	-	-	-
8	Umarga	199,673	158,678	40,995	241,339	193,924	47,415	20.9	22.2	15.7	20.5	19.6
District Total:		**1,276,327**	**1,082,447**	**193,880**	**1,486,586**	**1,253,330**	**233,256**	**16.5**	**15.8**	**20.3**	**15.2**	**15.7**

The average growth rates for the rural and urban areas of the district are 15.8 percent and 20.3 percent respectively. Umarga tahsil has registered the highest rural growth rate (22.2 percent); while tahsil Washi has the lowest growth rate of (9.4 percent). Tahsil Osmanabad (21.7 percent); tahsil Lohara (19.3 percent) and tahsil Umarga (22.2 percent) are above the district (Rural) average decadal growth. Tahsil Paranda (9.5 percent); tahsil Bhum (9.6 percent) tahsil Washi (9.4 percent); tahsil Kalamb (12.6 percent) and tahsil Tuljapur (13.0 percent) are below the district (Rural) average decadal growth.

In urban areas the growth rate is above the district average in tahsil Tuljapur (32.9 percent) and below

in remaining seven tahsils. Tahsil Washi and tahsil Lohara have no urban areas. The highest urban growth rate of 32.9 percent is in tahsil Tuljapur and the lowest urban growth rate is seen in tahsil Umarga (15.7 percent).

The proportion of urban to total population of Osmanabad district stood at 15.7 percent in Census 2001; against 15.2 percent in 1991 Census. It is observed that proportion of urban population has increased in four tahsils viz; tahsil Paranda (13.6 percent); tahsil Bhm (15.0 percent); tahsil Kalamb (12.2 percent) and tahsil Tuljapur (19.1 percent) and decreased in two tahsils viz. tahsil Osmanabad (22.4 percent) and tahsil Umrga (19.6 percent).

Districts (Rural) Total:		**149 (20.4)**	**227,901**	**212,746**	**28 (3.8)**	**93,202**	**87,223**	**7 (1.0)**	**45,365**	**41,374**

The districts (Rural) population in Census 2001 is 1,253,330. It is spread out in 729 inhabited Villages.

Villages (12) with less than 200 inhabitants accounts for 1.6 percent of total inhabited villages with 0.14 percent of rural population of the district, 200-499 sized villages (83) account for 11.4 percent of the total villages and cover 2.6 percent of the total rural population, Villages in size 500-999 (186) are 25.5 percent of the total inhabited villages with 11.0 percent of the rural population, Villages in size class 1,000-1,999 (264) are 36.2 percent of the total inhabited villages with 29.9 percent of the total rural population; Villages in size class 2,000-4,999 (149) are 20.4 percent of total inhabited villages covering 35.2 percent of the total rural population, villages in size class 5,000-9,999 (28) are 3.8 percent of the total inhabited villages with 14.4 percent of the total rural population; and villages in size class 10,000 and above (7) are 1.0 percent of total inhabited villages with 6.9 percent of the total rural population.

Among the 8 tahsils of the district; the percentage of villages with less than 200 population is the highest in C.D. Block Bhum. (3.4percent) and lowest in C.D. Block Osmanabad (1.6 percent). The percentage with 200-499 villages is highest in C.D. Block Bhum (20.5 percent) and the lowest in C.D Block Lohara (2.1percent); the percentage of 500-999 sized villages is highest in C.D Block Paranda (39.6 percent) and the lowest in C.D Block Osmanabad (14.3percent); the percentage of 1,000-1,999 sized villages is the highest in C.D Block Osmanabad (42.9 percent) and lowest in C.D Block Paranda (27.1 percent); the percentage of 2,000-4,999 sized villages is the highest in C.D Block Osmanabad (26.2 percent); and the lowest in C.D Block Bhum (8.0 percent), the percentage of 5000-9999 sized villages is the highest in C.D Block Lohara (10.6 percent) and lowest in C.D Block Washi (1.6 percent); the percentage of 10,000 and above sized villages is the highest in C.D Block Osmanabad (3.2 percent) and the lowest in C.D Block Tuljapur (0.8 percent); C.D Block Paranda; C.D Block Bhum; C.D Block Kalamb and C.D Block Umarga do not have any population size 10,000 and above.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town	
1	
(a) New	
(i) Statutory town	Nil
(ii) Census town	Nil
(b) Denotified	
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns	Nil
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria	Nil
(iii) Census towns of 1991 census are notified as statutory town in 2001 census	Nil
(c) Declassified	Nil
(d) Wholly merged with other town(s)	Nil

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

Declassified means the Census town of 1991 Census; which failed to satisfy the demographic and economic criteria.

There are no new towns; no denotified towns, no declassified towns and no wholly merged with other towns in 2001 Census.

There is no statutory town; Census Town denotifed declassified and wholly marged with other towns in Osmanabad district for Census 2001.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	2	0.3	1,669	0.1
11-20	2	0.3	434	0.0
21-50	16	2.2	10,838	0.9
51-100	104	14.3	103,486	8.3
101-200	408	56.0	653,881	52.2
201-300	152	20.9	336,030	26.8
301-500	33	4.5	99,346	7.9
501 +	12	1.6	47,646	3.8
Not known	0	0.0	0	0.0
District Total:	**729**	**100.0**	**1,253,330**	**100.0**

Population Density (Rural) of the district: 162

The density of population in rural areas of Osmanabad District is 162 persons per sq km. The distribution of villages by density ranges indicates that the villages with medium density ranges 101-300 accounts for 76.9 percent of the total inhabited villages . While very low density below 20 persons per sq km are noticeable in only 4 villages constituting 0.6 percent of the total inhabited villages. At the same time; there are only 33 villages that can be classified as having (4.5 percent) densities above 300; covering 7.9 percent total population of district. While 1.6 percent of the total inhabited villages have a density

501 and above persons covering a population of 3.8 percent. There are 104 (14.3 percent) villages in the 51-100-range covering 8.3 percent of total population of district.

Table 5 : SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	978	1,003	862	980	979	989
1911	966	1,000	796	964	964	967
1921	950	994	776	939	937	954
1931	947	987	790	942	942	944
1941	949	989	810	942	940	962
1951	941	1,000	807	948	949	934
1961	936	995	801	948	952	912
1971	930	985	820	947	952	909
1981	937	987	850	958	962	933
1991	934	972	875	937	943	904
2001	922	960	873	932	933	926

Note: Sex ratio has been defined here as the number of females per 1000 males.

Table 5 shows the sex ratio for the district and the state. Census 2001 recorded a sex ratio of 932 females per 1,000 males in the district. This is higher compared to the state average (922). The sex ratio in Osmanabad district has remained higher as compared to State's in 1901; 1951; 1961; 1971; 1981; 1991; As regards total areas; the sex ratio at the state level; declined by 56 points and at district level it declined by 48 points during the last 100 years. Similarly; the sex ratio for the rural areas of the state decreased by 43 points and for the district; it decreased by 46 points during 1901-2001. For the urban areas of the state; the sex ratio increased by 11 points and for the district it decreased by 63 points during the above period.

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Paranda	934	933	938
2	Bhum	928	929	925
3	Washi	934	934	-
4	Kalamb	930	933	909
5	Osmanabad	920	920	920
6	Tuljapur	930	931	924
7	Lohara	945	945	-
8	Umarga	949	950	943
	District Total:	**932**	**933**	**926**

Table 6 indicates sex ratio by tahsil. There are 932 females for every 1000 males in Osmanabad district. The sex ratio varies from 949 in Umarga tahsil.to 920 in Osmanabad tahsil. It is also observed that; the proportion of females in rural area is higher than that of urban areas. The rural sex ratio of the tahsil ranges from 920-950. The districts total sex ratio for rural area is 933. Tahsil Washi; tahsil Lohara and tahsil Umerga are above the districts average; while tahsil Bhum; tahsil Osmanabad and tahsil Tuljapur are below the district average. Tahsil Paranda and tahsil kalamb are at par with district rural average (933).

The districts sex ratio for urban areas is 926. The sex ratio of urban areas is the highest in Umerga tahsil (943) and the lowest in Kalamb tahsil (909). Tahsil Paranda and tahsil Umerga are above the district average. Tahsil washi and tahsil Lohara do not have urban population.

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Paranda	933
2	Bhum	929
3	Washi	934
4	Kalamb	933
5	Osmanabad	920
6	Tuljapur	931
7	Lohara	945
8	Umarga	950
	District (Rural) Total:	**933**

The districts (Rural) sex ratio is 933. Among the 8 C.D Blocks; the sex ratio varies between 920 in C.D Block Osmanabad to 950 in C.D Block Umarga. C.D Block Umarga has highest sex ratio (950), while C.D Block Osmanabad has lowest sex ratio (920). The sex ratio in C.D Block Washi; C.D Block Lohara and C.D Block Umarga is above the district average; while C.D Block Bhum; C.D Block Osmanabad and C.D Block Tuljapur have sex ratio below the district's average. The sex ratio in C.D Block Paranda and C.D Block Kalamb are at par with districts rural average (933).

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	2	0.3	1,383	0.1
700-749	0	0.0	0	0.0
750-799	6	0.8	6,236	0.5
800-849	24	3.3	28,153	2.2
850-899	118	16.2	176,692	14.1
900-949	297	40.7	597,228	47.7
950-999	209	28.7	374,570	29.9
1,000-1,099	70	9.6	67,625	5.4
1,100+	3	0.4	1,443	0.1
District Total:	**729**	**100.0**	**1,253,330**	**100.0**

Sex ratio (Rural) for District: 933

A perusal of the table reveals that 297 villages constituting 40.7 percent of the total inhabited villages covering 47.7 percent of the total districts rural population has sex ratio in the range of 900 – 949; while 209 villages forming 28.7 percent of total inhabited villages covering 29.9 percent of total districts rural population have sex ratio in the range 950 – 999; 70 villages forming 9.6 percent of total inhabited villages covering 5.4 percent of total districts rural population have sex ratio in the range 1,000 – 1,099; 3 villages constituting 0.4 percent of total inhabited villages and covering population of 1,443 (0.1percent) of the total district rural population has a sex ratio above 1,100; 118 villages forming 16.2 percent of total inhabited villages covering 14.1 percent of total district rural population have sex ratio in range 850-899; 24 villages forming 3.3 percent of total inhabited villages covering 2.2 percent of total districts rural population have sex ratio in range 800-849; 6 villages forming 0.8 percent of total inhabited villages covering population of 6,236 (0.5 percent) have sex ratio in the range of 750-799; Only 2 villages forming 0.3 percent of total inhabited villages covering 1,383(0.1 percent) rural population have sex ratio is less than 700. None of the inhabited villages have sex ratio in 700-749 population range.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A/Town	Urban status of town	Sex ratio
1	2	3	4
1	Bhum (M Cl)	M Cl	925
2	Kalamb (M Cl)	M Cl	909
3	Murum (M Cl)	M Cl	971
4	Naldurg (M Cl)	M Cl	920
5	Osmanabad (M Cl)	M Cl	920
6	Paranda (M Cl)	M Cl	938
7	Tuljapur (M Cl)	M Cl	926
8	Umarga (M Cl)	M Cl	927
Sex ratio (Urban) for the district:			**926**

In urban areas of different towns; the sex ratio varies considerably. The lowest sex ratio is in Kalamb (MCl) (909) and the highest is in Murum (MCl) (971). Among the 8 towns of the district; three towns viz. Paranda (MCl) (938); Murum (MCl) (971) and

Umarga (MCl) (927) have sex ratio above the district urban average and remaining four towns have below the districts urban average. Tuljapur (MCl) has sex ratio at par with districts urban average i.e.926.

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

		Urban	**34,447**	**18,207**	**16,240**	**892**

The sex ratio for Osmanabad district for 0-6 age group is 894. Umarga tahsil has more balanced sex ratio (921) in 0-6 age group. As compared to districts average in 0-6 age group, Tahsil Osmanabad; tahsil Tuljapur, tahsil Lohara andtahsil Umarga have higher sex ratio as compared to district average, while tahsil Paranda, tahsil Bhum, tahsil Washi and tahsil Kalamb have lower sex ratio as compared to district's average. In rural areas of the district the sex ratio is 894. The sex ratio in tahsil Osmanabad tahsil Tuljapur, tahsil Lohara and tahsil Umarga is higher than districts rural average. In remaining four tahsils, the sex ratio is lower as compared to districts rural average. In urban areas the sex ratio is above the districts average for tahsil Paranda; tahsil Osmanabad, tahsil Tuljapur i. e. 948, 907 and 896 respectively. While sex ratio in tahsil Bhum; tahsil Kalamb, and tahsil Umarga are below the districts average in population 0-6 age group. Tahsil Washi and tahsil Lohara do not have urban population.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

District (Rural) Total:		**188,736**	**99,654**	**89,082**	**894**

In the eight C.D. Blocks of the district, there are 99,654 males and 89,082 females as per 2001 Census. This works out to 894 females for every thousand males in the age-group 0-6 years. The C.D. Block Osmanabad, C.D. Block Tuljapur, C.D. Block Lohara and C.D. Block Umarga have higher sex ratio than the district rural average. Remaining four C.D. Block namely, C.D. Block Paranda, C.D. Block Bhum, C.D. Block Washi and C.D. Block Kalamb have lower sex ratio than districts rural average.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	62	8.5	7,164	3.8
700-749	31	4.3	4,954	2.6
750-799	68	9.3	17,770	9.4
800-849	104	14.3	28,661	15.2
850-899	117	16.0	40,606	21.5

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001 - (Contd.)

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population

Census provides the necessary data about the Scheduled Castes and Scheduled Tribes for evolving suitable plans for their socio – economic upliftment and both the planners and the administrators heavily depend on this data. The highlights of 2001 Census as that of the previous Census is the collection of detailed information on the socio – economic characteristics of Scheduled Castes and Scheduled Tribes.

The Scheduled Castes population at the time of 2001 Census in Osmanabad district is 245,790 which constitute 16.5 percent of total population. The Scheduled Tribes population for 2001 Census is 27,857, which constitutes 1.9 percent of total population.

The percentage of Scheduled Castes population is higher in rural area of the district (17.0percent) than that of urban areas. Among the 8 tahsils of the district; the percentage of Scheduled Castes is higher in tahsil Kalamb; tahsil Tuljapur; tahsil Lohara and tahsil Umarga is above the districts average; while tahsil Paranda; tahsil Bhum; tahsil Washi and tahsil Osmanabad are below the district's average.

The Scheduled Tribes population in tahsil washi; tahsil Kalamb; tahsil Osmanabad and tahsil Umarga is above the districts average while remaining four tahsils are below the districts average.

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7

8	Umarga	193,924	36,468	3,994	18.8	2.1
District (Rural) Total:		**1,253,330**	**212,666**	**23,440**	**17.0**	**1.9**

The percentage of Scheduled Castes and Scheduled Tribes in rural areas of the district is 17.0 percent and 1.9 percent respectively. The proportion of Scheduled Castes population is above the districts rural average in four C.D Blocks viz. C.D Block Kalamb (19.3 percent); C.D Block Tuljapur (18.8 percent); C.D Block Lohara (17.7 percent) and C.D Block Umarga (18.8 percent) and below the district average in rest of four C.D Blocks. The highest proportion of Scheduled Castes is seen in Kalamb C.D Block (19.3 percent) and lowest in Paranda C.D Block (11.5percent). The proportion of Scheduled Tribes population is above the district average in four C.D Blocks viz. C.D Block Washi (2.5 percent); C.D Block Kalamb (2.0 percent); C.D Block Osmanabad (3.1 percent) and C.D Block Umarga (2.1 percent) and below in rest of four C.D Blocks. The highest propotion of Scheduled Tribes population is seen in Osmanabad C.D Block (3.1 percent) and lowest in C.D Block Paranda and C.D Block Bhum (0.8 percent) respectively.

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	27	3.7	0	0.0
Less than 5	72	9.9	1,495	0.7

51-75	3	0.4	1,284	0.6
76 and above	3	0.4	2,146	1.0
District Total	**729**	**100.0**	**212,666**	**100.0**

Out of 729 inhabited villages; 27 villages do not have Scheduled Castes population. The percentage of Scheduled Castes population in 72 villages is less than 5.0 percent and it accounts for 9.9 percent of total villages; covering 0.7 per cent Scheduled Castes population of district. The proportion of Scheduled Castes population in 143 villages comes under 5-10 percent range. This comes to 19.6 per cent of total villages; which cover 6.8 per cent of total Scheduled Castes.

The proporton of Scheduled Castes population in302 villages come under 11-20 ranges. These villages constitutes 41.4 percent of total villages covering 51.8 percent of total Scheduled Castes population; 140 villages come under 21-30 range group accounting for 19.2 percent villages with 31.2 percent of Scheduled Castes population; 45 villages come under 31 onwards range accounting for 6.2 percent villages with 9.6 percent of Scheduled Castes population of the district.

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	302	41.4	0	0.0
Less than 5	369	50.6	11,270	48.1
5-10	38	5.2	6,957	29.7
11-20	11	1.5	2,025	8.6
21-30	4	0.5	1,330	5.7
31-40	2	0.3	816	3.5
41-50	0	0.0	0	0.0
51-75	2	0.3	731	3.1
76 and above	1	0.1	311	1.3
District Total	**729**	**100.0**	**23,440**	**100.0**

It is observed that out of total 729 inhabited villages, 302 villages i.e. 41.4 percent of total villages do not have Scheduled Tribes population. In 369 villages (50.6 percent of total villages) 48.1 percent of total Scheduled Tribes population is spread out in percentage range of less than 5; in 38 villages (5.2 percent) of total villages; Scheduled Tribes population constituting 29.7 percent of their total population are spread out in percentage range of 5-10; in 11 villages (1.5percent of total villages) constituting 8.6 per cent of their total total population are spread out in percentage range of 11-20. Remaining 9 villages come under above 20 percent range (1.2 percent) of total villages constituting 13.6 percent of their total population. None of the villages have Scheduled Tribes population in the range of 41-50.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS/TOWNS, 2001

7	Tuljapur (M Cl)	31,706	4,563	355	14.4	1.1
8	Umarga (M Cl)	30,178	4,695	909	15.6	3.0
District(Urban) Total		**233,256**	**33,124**	**4,417**	**14.2**	**1.9**

In urban areas; the Scheduled Castes and Scheduled Tribes constitute 14.2 per cent and 1.9 per cent of the total urban population respectively. The percentage of Scheduled Castes population in four towns viz. Bhum (MCl) (14.7 percent); Tuljapur (MCl) (14.4 percent); Murum (MCl) (17.3 percent) and Umarga (MCl) (15.6 percent) are above the districts average and below the district average in remaining four towns. The highest percentage of Scheduled Castes population is found in Murum (MCl) (17.3 percent) and the lowest in Paranda (MCl) (12.3 percent).

The percentage of Scheduled Tribes population is above the district urban average in five towns viz. Bhum (MCl) (2.7 percent); Kalamb (MCl) (2.7 percent); Osmanabad (MCl) (2.1 percent); Tuljapur (MCl) (1.1 percent) and Umarga (MCl) (3.0 percent) and below in remaining three towns. The highest percentage of population is found in Umarga (MCl) (3.0 percent) and the lowest in Murum (MCl) (0.4 percent).

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

Serial number	Name of C D block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Paranda	949	929
2	Bhum	962	960
3	Washi	947	945
4	Kalamb	937	971
5	Osmanabad	940	878
6	Tuljapur	940	942
7	Lohara	944	988
8	Umarga	948	963
	District (Rural) Total	**944**	**928**

The sex ratio among Scheduled Castes and Scheduled Tribes in Census 2001 was 944 and 928 respectively. The highest sex ratio of Scheduled castes is found in Bhum C.D Block (962) and lowest in Kalamb C.D. Block (937). Of the eight C.D Blocks four C.D. Blocks viz. Paranda C.D Block (949), Bhum C.D Block (962), Washi C.D Block (947) and Umarga C.D Block (948) are above the district rural average, remaining three are below the districts rural average. The sex ratio in Lahora C.D Block is at par with districts rural average (944).

The highest sex ratio in Scheduled Tribes population is in Lohara C.D Block (988) and the lowest in Osmanabad C.D Block (878). Of the eight C.D. Blocks, 7 are above the district urban average i.e. Paranda C.D Block (929); Bhum C.D Block (960); Washi C.D Block (945); Kalamb C.D Block (971); Tuljapur C.D Block (942); Lohara C.D Block (988) and Umarga C.D Block (963); while one C.D. Block namely Osmanabad C.D Block is below the district urban average (878).

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A./Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Bhum (M Cl)	904	1,034
2	Kalamb (M Cl)	887	918
3	Murum (M Cl)	969	698
4	Naldurg (M Cl)	943	848
5	Osmanabad (M Cl)	913	882
6	Paranda (M Cl)	935	1,014
7	Tuljapur (M Cl)	984	849
8	Umarga (M Cl)	933	938
Sex ratio (Urban) for the district:		**930**	**910**

The Sex Ratio among Scheduled Castes and Scheduled Tribes in urban areas is 930; and 910 in Census 2001 respectively. The highest sex ratio of Scheduled Castes is in Tuljapur (MC1) (984) and the lowest in Kalamb (MC1) (887). Of the eight towns; five towns viz Paranda (MCl) (935); Tuljapur (MCl) (984); Naldurg (MCl) (943); Murum (MCl) (969) and Umarga (MCl) (933) are above the district urban average and remaining three towns are below the district urban average.

The highest sex ratio of Scheduled Tribes population is in Bhum (MC1) (1,034) and lowest in Murum (MC1) (698). Of the 8 towns; 4 towns viz. Paranda (MCl) (1,014); Bhum (MCl) (1,034); Kalamb (MCl) (918) and Umarga (MCl) (938) are above the districts urban average and remaining 4 are below the districts urban average.

Table 21 indicates number and percentage of literates and illiterates by tahsils, 2001. The district total literacy rate is 69.0 percent. For the district, as a whole, literacy rate for males are substantially higher compared to females in both rural and urban areas. The tahsil wise break-up of the total literacy rates; shows that Osmanabad tahsil has the highest literacy rate of (72.5 percent) whereas Paranda tahsil has lowest total literacy rate (64.3 percent). Of the eight tahsils, tahsil Osmabad and tahsil Kalamb have literacy rates bove the districts average, while remaining six are below the districts average.

The districts male literacy rate is 80.4 percent. The male literacy rate is highest in Osmanabad tahsil (83.0 percent) and the lowest in paranda tahsil (75.3 percent).Tahsil Kalamb and tahsil Osmanabad are above the districts average. Female literacy rate is highest in Osmanabad tahsil (61.1 percent) and the lowest in Paranda tahsil (52.6 percent)

As regards rural areas of the district; the literacy rate is 67.1 percent for the district with male and female literacy rate of 78.9 percent and 54.4 percent respectively. Rural highest literacy rate is seen in Kalamb tahsil (69.6 percent) and lowest is in Paranda tahsil (62.6 percent). In Kalamb tahsil, 81.5 percent males and 57.1 percent females are literates.

In urban areas of the district; the literacy rate is 79.6 percent for the district with male and female literacy rate of 88.3 percent and 70.3 percent respectively. Urban highest literacy rate is seen in

Osmanabad tahsil (84.5 percent) and lowest in Paranda tahsil (74.7 percent). In Osmanabad tahsil 91.5 percent males and 77.0 percent females are literates.

There is significant difference in literacy rate between males and females in all the tahsils. Females are lagging behind males in literacy in all the tahsils, however the gap varies from tahsil to tahsil. The gap in the male and female literacy rate is 23.5 percent for the district as a whole. Of the 8 tahsils; gap is most wide in tahsil Umarga (25.1 percent) and least gap is seen in tahsil Osmanabad (21.9 percent).

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

	Osmanabad (Urban)	**2,476**	**1,503**	**973**	**1,941**	**809**	**1,132**	**69.0**	**79.4**	**57.3**	**22.1**

The total literacy rate for the district is 69.0 percent. For males; it accounts for 79.4 percent while for females it is 57.3 percent. The highest literacy rate is seen in Murum (MC1) (86.2 percent) as also for both males and females i.e. 93.9 percent and 76.0 percent respectively.

The lowest literacy rate is seen in Bhum (MC1) 54.8 percent. Among males; the highest literacy rate is seen in Murum (MC1) (93.9 percent) and lowest in Tuljapur (MC1) (66.7 percent).

Of the 8 towns; among males four towns viz; Paranda (MCl) (86.0 percent); Osmanabad (MCl) (83.6 percent); Naldurg (MCl) (92.6 percent) and Murum (MCl)) (93.9 percent) are above the districts average; while remaining three are below the district urban average. Umeraga (MCl) is at par district urban average (79.4 percent). Among females the highest literacy rate is seen in Murum (MC1) (76.0 percent) and the lowest in Bhum (MC1) (42.9percent). Of the 8 towns; 5 towns viz; Paramda (MCl) (59.3 percent); Bhm (MCl) (42.9 percent); Osmanabad (MCl) (67.0 percent); Naldurg (MCl) (71.7 percent) and Murm (MCl) (76.0 percent) are above the district average. The remaining Three towns are below the district urban average.

The gap in male-female literacy rate is 22.1percent. It varies considerabely from (10.6 percent) in Tuljapur (MC1) to (33.5 percent) in Kalamb (MC1).

There has been no conceptual change in defining the workers between 1991 and 2001 Census. In 2001 Census there has been mainly a three fold classification of population. Namely workers; marginal workers and non-workers which was adopted for 1991 also. The main workers of 2001 are distributed on four categories of econ o activities instead of none industrial categories of economic activities in earlier Census 1991.

Census 2001 recorded 37.3 percent main workers. 6.6 percent marginal workers and 56.0 percent non-workers. The male participation rate in the district is 46.6 percent while for female is 27.4 percent respectively.

As against a total of 37.3 percent main workers in 8 tahsil of the district; there are 44.3 percent main workers which is highest in Washi tahsil. It is followed but 43.9 percent main workers in Paranda tahsil.

Against 6.6 percent marginal workers in the district; there are 8.5 percent marginal workers in tahsil Umeraga.

Main and marginal workers together account for 44.0 percent total workers; while 56.0 percent are non-workers. 49.3 percent of the males and 63.3 percent of the females are non-workers in Census 2001.

As per Census 2001, there are 46.8 percent workers, and 53.2 percent are non-workers. The percentage of male workers and female workers is 52.0 percent and 41.3 percent respectively . The female workers account for 41.3 percent while 58.7 percent females are non-workers. In Paranda C.D. Blocks, there are 54.6 percent total workers. This is followed by 51.3 percent total workers in Washi C.D. Block. Of the total 46.8 percent workers, 39.6 percent of the district population as main workers as per 2001 Census, 7.2 percent as marginal workers and the remaining 53.2 percent as non-workers.

There are 39.6 percent main workers in the district. Among males, it is 47.8 percent and for

females it is 30.9 percent. The highest percentage of main workers is seen in C.D. Block Paranda 46.2 percent and lowest in C.D. Block Umarga 32.9 percent. The percentage of marginal workers is 7.2 percent for the district. Male and female marginal workers are 4.2 percent and 10.4 percent respectively. Umarga C.D. Block shows higher percentage of marginal workers i.e. 9.5 percent and lowest in Kalamb C.D. Block i.e. 5.4 percent; while Umarga C.D. Block, shows highest percentage of non-workers i.e. 57.6 percent and C.D. Block Paranda shows lowest percentage of non-workers i.e. 45.4 percent in the district.

		Females	**112,164**	**9,948**	**8.9**	**3,585**	**3.2**	**13,533**	**12.1**	**98,631**	**87.9**

Census 2001 recorded 25.2 percent of the district urban population as main workers; 3.4 percent as marginal workers and the remaining 71.4 percent as non workers. The sex wise break-up shows that 40.4 percent males and 8.9 percent females of the total population are main workers; 3.5 percent males and 3.2 percent females are marginal workers and 56.0 percent males and 87.9 percent females are non-workers in the district.

In urban areas Paranda (MCl) has the highest

participation rate of 29.7 percent while Naldurg (MCl) has the lowest rate of (21.6 percent) main workers in the district urban areas. The main workers in Paranda (MCl) (29.7 percent); Kalamb (MCl) (26.7 percent); Taljapur (MCl) (25.5 percent); Murum (MCl) (29.1 percent) is above the percentage of main workers and remaining four towns are below the district urban average.

The percentage of marginal workers is the highest in Umarga (MCl) (5.3 percent) and the lowest in Tuljapur (MCl) (2.2 percent). The work participation rate of marginal workers in urban areas of the district is 3.4 percent. Only three towns namely Bhum (MCl) (5.2 percent); Naldurg (MCl) (4.7 percent) and Umarga (MCl) (5.3 percent) have participation rate of marginal workers is above district urban average and remaining five towns have participation rate below the district urban average 3.4 percent.

There are 71.4 percent of non-workers in urban areas of the district. Among these 56.0 percent is males and 87.9 percent is female non-workers.

Note: Percentage of Workers to total workers are given in brackets.

Table 34 indicates the distribution of male and female workers by four categories of economic activities in tahsils of the district.

The relative importance of the main shares of economic activity may be gauged from the pattern of distribution of workers according to the agricultural labourer; household industry workers and other workers. The economy of the district is primarily agricultural which is supported by the cultivators 39.3 percent and agricultural labourers 39.3 percent together constitutes 78.6 percent of the total workers of the district. The agricultural sector has absorbed more than three fourth of the total workers in the district. Tahsil wise distribution of workers in four categories of economic activities is given in table 34.

The proportion of both cultivators and agricultural labourers differ considerably from tahsil to tahsil. The proportion of cultivators varies between 57.1 percent in Paranda tahsil to 30.2 percent in Umarga tahsil. The proportion of agricultural lbaourers varies between 50.7 percent for Lohara tahsil to 29.0 percent in Paranda tahsil respectively. About 78.6 percent of workers in the district are directly engaged in agricultural activities as cultivators or agricultural labourers which is but natural in the contact of the agricultural economy of the district.

2.5 percent of the workers are engaged in household industries. Among the males 2.0 percent workers are engaged in household industries while 3.2 percent females are engaged as household industry workers. Other workers account for 18.9 percent of the population.

				(41.3)	**(38.0)**	**(53.8)**	**(2.9)**	**(5.4)**

Note: Percentage of Workers to total workers are given in brackets.

Table 35 indicate the distribution of workers by sex in four categories of economic activity in C.D.Blocks. In this district; 46.8 percent workers (Main and Marginal) are engaged in different categories of work i.e. cultivators; agricultural labourers; household industry workers and other workers. The economy of the district is primarily agricultural as supported by the fact that cultivators (43.1 percent) and agricultural labourers are (41.8 percent) together constitute 84.9percent of the total main workers of the district.

Of this remaining 15.1 percent; only 2.3percent workers are engaged in household industry while 12.8 percent are engaged in other works. Out of 46.8percent total worker 52.0 percent workers are males; as against 41.3 percent female workers.

The agriculture sector has thus absorbed a predominant proportion of working force and only about 15.0 percent of main workers are engaged in non-agricultural activities.

The proportion of cultivators varies from 33.5 percent for Umarga C.D.Block to 61.4 percent in Paranda C.D;Block. The proportion of agricultural labourers varies between 50.7 percent for Lohara C.D.Block to 29.2percent for Paranda C.D.Block.

Note: Percentage of workers to total workers are given in brackets.

Table 36 gives the distribution of workers in four fold economic categories as cultivators; agricultural labourers; household industry and other workers of Urban Agglomeration/Towns for 2001 Census. Cultivators account for 6.2 percent followed by 17.6 percent agricultural labourers. They together constitute 23.8 percent of the total main workers of the district urban areas.

It is seen that 76.2 percent of main workers are engaged in household industry and other works and remaining 23.8 percent of main workers are engaged in agricultural activities. The proportion of household industry workers and other workers are 3.6 percent and 72.6 percent respectively. The proportion of cultivators varies from 16.9 percent in Murum (MCl) to 2.1 percent in Osmanabad (MCl). The proportion of agricultural labourers varies from 43.8 percent in Murum (MCl) to 5.2 percent in Tuljapur (MCl). For the district as a whole male share in agricultural labourers is 12.4 percent as against female 38.0 percent respectively.

The work pariticipation rate is more in rural areas (46.8 percent) than urban areas (28.6 percent). Similarlly between two sexes the rural-urban differential is larger among females (41.3 percent in rural and 12.1 percent in urban) as compared to males (52.0 percent in rural and 44.0 percent urban) in the district.

TABLE 37 : DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Educational

The education amenity is available in 726 villages; which constitute 99.6 percent of total inhabited villages of the district. In C.D. Block Bhum; C.D. Block Washi; C.D. Block Kalamb; C.D.Block Osmanabad; C.D. Block Lohara have cent percent of villages enjoying educational amenity. Remaining three C.D. Blocks viz; C.D. Block Paranda and C.D. Block Umarga (99.0 percent); C.D. Block Tuljapur (99.2 percent) of villages have this amenity.

The education amenity is available to cent percent of rural population in the district. There are only three villages, which do not have primary school. The amenity to these three villages is available within five Kms. distance. Middle school education not available to 237 villages; of these 177 villages available this amenity of education within five Kms.; 45 villages have to cover a distance between 5-10 Kms.; 15 villages have to cover a distance beyond 10 Kms. for middle school amenity. Degree college education is not available to 724 villages. Students of 74 villages have to cover within five Kms. distance for degree level education; for 146 villages; students have to cover between 5-10 Kms.; for 504 villages students have to cover a distance beyond 10 Kms.. (Table – 39)

Table 40 shows distribution of villages from the nearest statutory town. Out of 729 villages 726 (99.6

percent) are distributed in the distance from the nearest statutory town where this amenity is available. 27 (100.0 percent) villages are in the distance range within five Kms.; 248 (99.2 percent) villages are in 5-15 distance range; 427 (99.8 percent) villages are in 16-50 distance range and 24 (100.0 percent) villages are in the range 51 and above from the nearest statutory town in the district.

As per distribution of villages according to the population range; 92 (96.8 percent) villages are in the range below 499; 186 villages (100.0 percent) are in the population range of 500-999; 264 (100.0 percent) villages come in population range 1,000-1,999; 149 (100.0 percent) villages come in the population range of 2,000-4,999 and remaining 35 (100.0 percent) villages are in the population range of 5,000 and above. Out of 95 villages; three villages from the 1-499 population range does not have any type of education amenity in the district.

Medical

It is seen that out of 729 inhabited villages; 400 (54.9 percent) villages are enjoying some type of medical amenity. Out of 8 C.D.Blocks; C.D. Block Lohara has availability of medical amenity in 97.9 percent villages; while in Bhum C.D.Block medical amenity is available in 23.9 percent villages. (Table 37).

74.3 percent of the rural population of the district numbering 931,009 persons are enjoying the medical amenity in their villages. Out of eight C.D.Blocks; Lohara C.D. Block serves maximum population with the medical amenity i.e.99.4 percent while in Bhum C.D.Block only 42.6 percent population is enjoying medical amenity. (Table :38)

Distribution of villages according to distance ranges from the places where the medical amenities such as Hospital and PHC are available in 720 and 692 villages respectively of these; as many as 116 and 198 villages are situated at a distance within 5 kms. with reference to the nearest place with medical amenity as Hospoital and PHC. respectively. Another 185 and 274 villages are situated at a distance 5-10kms for such amenity; while in the case of 419 and 220 villages; the residents have to cover more than 10 kms to reach a place with the Hospital and PHC medical amenities respectively (Table :39)

Out of 729 inhabited villages; 400 (54.9 percent) are distributed in the distance from the nearest statutory town; where this amenity is available. 14 (51.9 percent) villages come in range within 5 kms.; 137 (54.8 percent) are in the range of 5-15 kms.; 239 (55.8 percent) are in the range of 16-50 and only 10 villages (41.7 percent) are in the range of 51 and above.(Table :40)

Of the 400(54.9 percent); 24 villages (25.3percent) come in the range 1-499; 59(31.7 percent) are in the range of 500-999; 149 (56.4 percent) villages are in the range of 1,000-1,999; 134 (89.9 percent) villages come in the range of 2,000-4,999 and 27 villages (96.4percent) come in the range of 5,000-9,999; 7 villages (100.00percent) come in the range of 10,000 and above (Table: 41)

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or o utside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Drinking water

Improved drinking water amenity is available in 721(98.9percent) villages out of 729 inhabited villages. 92 villages come in the range of 1-499 have this amenity available and 184 villages come in the range of 500-999; 1,000 and above ranges area covering cent percent population of this amenity. Concept of improved means water supplied from a tap or a hand pump or tube well situated within the premises (Table 41).

Postal

Postal amenity is available in 301(41.3percent) villages out of 729 inhabited villages; serving 857,191(68.4percent) of population Within 8 C.D. Blocks of the district; the percentage of villages having amenity of post and telegraph varies considerably. Lohara C.D.Block with 75.2 percent villages with postal amenity has the higest proportion followed by 74.4 percent in Osmananbad C.D.Block; while Paranda C.D.Block with 50.1 percent villages being covered with the amenity holds the last rant. (Table :38)

As per the distribution of villages according to the distance range location of 301 villages with post office from nearest statutory town; the postal amenity is available to 7 villages within five Kms.; 107 villages within 5-15 Kms.; 181 villages within 16-50 Kms. and six villages with 51 and above Kms. from the nearest statutory town. (Table – 40)

Among 301 villages with amenity of post and telegraph 6 villages are having less than 500 population; 21 villages are with population of 500-999; 98 villages with population of 1,000-1,999; 142 villages with population range 2,000-4,999; 27 villages with population range 5,000-9,999 and 7 villages are having population beyond 10,000; enjoying post and telegraph amenity. (Table – 41).

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available

Telephone

Out of 729 inhabited villages; 536(73.5percent) villages of the district are enjoying the telephone amenity. These villages serve 81.6 percent of rural population of the district. Washi C.D.Block with 93.5 percent has the highest proportion where as Umarga C.D. Block with 52.1 percent holds the last rank. Washi; Kalamb; Osmanabad; Tuljapur C.D.Blocks having proportion of villages more than district average.(Table :37)

Telephone amenity is not available in 194 villages. Out of these as many as 144 are situated at a distance within 5 kms. of availability of amenity while 44 villages have to cover a distance between 5-10 km. to avail the telephone amenity; 6 villages is available at a distance of more than 10kms.(Table:39)

Table:40 shows the distribution of villages according to the distance from the nearest statutory town and availability of different amenities. 2001 Census has recorded 536(73.5percent) having telephone amenity available in town. OF these; 16(59.3percent) come in the range within 5 kms; 183(73.2percent) come in the range of 5-15kms; 323(75.5percent)comes in the range of 16-50 kms; 14 (58.3percent) come in the distance range of 51 and above from the nearest statutory town (Table – 40).

Among 536 villages with the amenity of telephone 39(41.1percent) villages have less than 500 population; 332 villages have population ranging from 500 to 1.999; 133(89.3percent) villages are in the range of 2,000-4,999; 27 villages (96.4percent) are in the population ranging from 5,000-9,999; 5 villages (71.4percent) population are in the range of 10,000 and above (Table:41)

Transport and Communication

Transport communication includes bus service; rail amenity and navigable waterways. If a bus stop or railway station or navigable way is located within the territorial jurisdiction of a village; it is considered to have been served by such amenity even if it is little away from the actual settlement.

575(78.9percent) villages have communication amenity available serving 91.5 percent of rural population of the district. Kalamb C.D.Block with 87.9 percent has the highest proportion of villages followed by Osmanabad C.D. Block(87.3percent) where as Paranda C.D.Block with 62.5 percent holds the last rank.(Table:37)

Out of 729 inhabited villages; 154; villages do not have any communication amenity. Of these 154 villages the residents of 133 villages have to cover a distance of less than 5kms. to reach a place with such amenity; 17 villages it is available at a distance 5-10kms; and for 4 villages the amenity is available at the distance more than 10kms(Table:39)

575 villages are distributed according to the distance from the nearest statutory town and availability of different amenities; the 17 villages (63.0 percent) come in the ranging less than 5 kms; 214(85.6percent) villages come in the range of 5-15 kms; 327(76.4 percent) villages come in the range of 16-50kms; 17(70.8percent) villages come in the range of 51 and above from the nearest statutory town.(table:40).

The availability of this amenity depends upon the location of the villages with reference to road; among the 575 villages which have the availability of

communication amenity within their respective limits; The population range less than 500; 37(38.9percent) villages come under this range. 117 villages(62.9percent) come in the range of 500-999; 240(90.9percent) villages come in the range of 1,000-1,999; 146(98.0percent) villages come in the range of 2,000-4,999; 28 villages with cent population come in the range of 5,000-9,999 and 7 villages with cent percent population come in the range of 10,000 and above.(Table:41)

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Banking

The amenity of banking service is available in 87(11.9percent) villages out of 729 inhabited villages serving 32.7 percent rural population of the district. The maximum amenity is being avail by Lohara C.D.Block with 9 villages (19.1 percent) followed by Umerga C.D.Block with 14 villages (14.6 percent). Bhum C.D.Block serve least villages 6(6.8 percent) enjoying this amenity.(Table :37)

Out of 685 and 648 villages regarding commercial and co-operative banking service amenity is not available in the district; of these 179 and 262 villages have to cover a distance up to 5 km for availing the amenity of commercial bank and co-operative bank respectively. 225 villages and 254 villages have the amenity available at a distance of 5-10 km. And remaining 281 and 132 villages it is more than 10 kms to avail the amenity of commercial bank and co-operative bank respectively (Table:39).

Among 87 villages there are 20 villages in the range of 5-15 kms; One village come in less than 5 km range; 66 villages come in the range 16 to 51 and above range. None on village has banking amenity less than 500 population; 8 villages come under 500-1,999 range; 48(32.2percent) come under 2,000-4,999; 25(89.3percent) villages come in the range 5,000-9,999; 6 villages come in the range 10,000 and above(Table:41).

Agricultural Credit Societies

There are 462 villages having agricultural credit societies in the district. These villages serve 80.0 percent rural population of the district. The highest proportion of villages 95 (75.4percent) with this amenity are in Osmanabad C.D.Block and lowest in Bhum C.D.Block with 38 (43.2percent). Nearly 247,109 (88.7percent) rural population of Osmanabad C.D. Block enjoying this amenity.(Table:37).

267 villages are not having any agricultural credit society. Out of these as many as 221 villages are situated at a distance of less than 5 km; 46 villages between 5-10 kms. None of village come in the range 10 kms and above.(Table 39)

There are 12 villages at a distance of less than 5 kms. from the nearest statutory town; 435 villages at a distance range 5-50 kms; 15 villages come at a distance range of 51 kms and above.(Table : 40)

22 villages having the availability of the population range of less than 500; 270 villages have population ranging from 500-1,999; 136 villages have the population in the range 2,000-4,999; 27 villages have the population range 5,000-9,999; 7 villages have the population range of 10,000 and above (Table 42).

TABLE 41: DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Approach by pucca road

Road whether pucca or kuchcha serve system of a distance. They act as pull factor for the development and upliftment of the areas. Roads with cement concrete; black top; water bound macadam etc. come under pucca road and the remaining are treated as kuchcha road.

Pucca road amenity is available to 605 (83.0percent) villages out of 729 inhabited villages in the district Kalamb C.D. Block 84 villages (92.3 percent) villages followed by Osmanabad C.D. Block 116 (92.1 percent villages; Tuljapur C.D.Block 105 villlages (85.4 percent) are having pucca road amenity while Paranda C.D. Block with 61 (63.5 percent) villages holds the last rank.

There are 21 villages at a distance of less than 5 kms. from the approach the nearest statutory town by pucca road. 568 villages at a distance from 5-50

kms. to approach nearest statutory town by pucca road. 16 villages are at a distance from 51 and above to approach nearest statutory town by pucca road.

The amenity of pucca road is available to 45 villages in the population range of less than 500; 376 villages in the range of 500-1,999; 149 villages in the range of 2,000-4,999; 28 villages in the range of 5,000-9,999 and 7 villages have the range of 10,000 and above.

Power supply

727 villages are having power supply amenity in the district. Only two villages does not have power supply amenity; which are located one village in Paranda C.D. Block 95 villages (99.0 percent) and another village in Washi C.D. Block 61 villages (98.4 percent). Remaining C.D. Block Bhum; C.D. Block Kalamb; C.D. Block Osmanabad; C.D. Block Tuljapur; C.D. Block Lohara and C.D. Block Umarga have this amenity in all inhabited villages.

Total population in all C.D. Blocks namely C.D. Block Bhum; C.D. Block Kalamb; C.D. Block Osmanabad; C.D. Block Tuljapur; C.D. Block Lohara and C.D. Block Umarga are enjoying power supply amenity except Paranda C.D. Block (99.8 percent) and Washi C.D. Block (99.3 percent) having some proportion of population does not have this amenity.

The power supply is available to cent per cent villages with population size 1,000-10,000 population range. Each one village with population size 1- 499 range and with population size 500-999 population range does not have power supply.

It may be summed up from forgoing paragraph that in respect of availability of different type of amenities considered; the larger villages have an advantage over the smaller ones. Population size and availability of amenities are directly associated with each other.

TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Paranda	96	93,536.7	91.2	7.8
2	Bhum	88	81,697.9	83.4	15.2
3	Washi	62	62,653.0	91.3	7.3
4	Kalamb	91	89,507.0	94.5	12.1
5	Osmanabad	126	133,875.0	87.4	9.4
6	Tuljapur	123	156,907.0	92.5	12.5
7	Lohara	47	53,598.0	91.0	8.1
8	Umarga	96	99,918.7	90.9	11.1
	District Total:	**729**	**771,693.3**	**90.3**	**10.7**

Note : - Cultivable area = irrigated area + unirrigated area

For the district as a whole 90.3 percent of the total area is cultivable. The highest proportion of cultivable area is seen in Kalamb C.D.Block (94.5 percent) Seven C.D.Blocks viz. C.D. Block Paranda (91.2 percent); C.D. Block Bhum (83.4 percent); C.D. Block Washi (91.3 percent); C.D. Block Osmanabad (87.4 percent); C.D. Block Tuljapur (92.5 percent); C.D. Block Lohara (91 percent) and C.D. Block Umarga (90.9percent) of their as cultivable area respectively.

Barely 10.7 percent of the cultivated area of the district is irrigated. Bhum C.D.Block has highest proportion of the cultivated area under irrigation (15.2percent) and remaining 7 C.D.Blocks viz. Paranda 7.8 percent; Washi 7.3 percent; Kalamb 12.1 percent; Osmanabad 9.4 percent; Tuljapur 12.5 percent; Lohara 8.1 percent and Umarga C.D.Block 11.1 percent of their cultivated areas respectively as irrigated.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Serial number	Class, name & urban status of the Town	Per capita receipt			Per capita expenditure

Table 43 shows per capita receipts and expenditure for each statutory town of the district in 2001 census. The average per capita receipts for 8 towns of the district works out to Rs. 21,227.1 of which 5,118.3 are received through local taxes and remaining 16,108.9 are received through all other sources. The total expenditure incurred per capita is Rs. 17,454.0 of which Rs. 3,106.9 are spent on General Administration; Rs. 3,795.1 on Public Health and Conveniences; Rs. 4,468.7 on Public Works; Rs. 981.6 on Public Institutions and Rs. 5,101.7 on all other items. Among all the towns Kalamb (MCI) has the highest receipt and expenditures. In Kalamb (MCl) i.e. Rs. 103,936.6 and Rs. 92,657.0 respectively and lowest in Tuljapur (MCl) Rs.156.0 and Rs.97.4 respectively.

TABLE 44 : SCHOOLS/COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary/ Middle	Secondary/ Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Bhum (M.Cl.)	4.6	4.0	2.9	0.6	0.6
2	Kalamb (M.Cl.)	4.3	0.9	3.0	0.9	0.4
3	Murum (M.Cl.)	4.6	3.5	2.3	2.3	0.6
4	Naldurg (M.Cl.)	4.4	4.4	3.1	1.3	0.6
5	Osmanabad (M.Cl.)	6.0	5.0	2.2	0.9	0.6
6	Paranda (M.Cl.)	4.7	4.7	4.7	2.4	1.2
7	Tuljapur (M.Cl.)	2.2	1.3	1.3	1.3	0.6
8	Umarga (M.Cl.)	2.7	2.0	1.7	0.7	0.7
District Total		**4.5**	**3.4**	**2.4**	**1.1**	**0.6**

The table 44 indicates the number of schools and colleges per ten thousand population in towns. On an average there are 4.5 primary schools per ten thousand population in urban areas of the Osmanabad district. The number of Junior Secondary/ Middle Schools and Secondary/Matriculation School is 3.4 and 2.4 respectively. There are 1.1senior secondary and 0.6 Colleges per 10,000 population.

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Bhum(M.Cl.)	11
2	Kalamb(M.Cl.)	13
3	Murum(M.Cl.)	29
4	Naldurg(M.Cl.)	16
5	Osmanabad(M.Cl.)	40
6	Paranda(M.Cl.)	26
7	Tuljapur(M.Cl.)	56
8	Umarga(M.Cl.)	80
	Distrct Total	**39**

Table 45 gives the number of Beds per 10,000 population in medical institutions in towns. On an average there are 39 Beds per ten thousand population in urban areas of the district.

Umarga municipal council has maximum number of Beds (i.e. 80). There are 11 Beds in Bhum (MCI); 13 Beds in Kalamb (MCI); 29 Beds in Murum (MCI); 16 Beds in Naldurg (MCI); 40 Beds in Osmanabad (MCI); 26 Beds in Paranda (MCI); 56 Beds in Tuljapur (MCI) respectively. Of the eight towns Tuljapur (MCI) and Umarga (MCI) has maximum number of Beds per ten thousand population in urban areas of the district.

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Serial number	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Bhum	17,509	0	0.0
2	Kalamb	23,022	0	0.0
3	Murum	17,237	0	0.0
4	Naldurg	15,989	6,378	39.9
5	Osmanabad	80,625	11,474	14.2
6	Paranda	16,990	3,806	22.4
7	Tuljapur	31,706	9,095	28.7
8	Umarga	30,178	665	2.2
District Total		**233,256**	**31,418**	**13.5**

The proportion of slum population to total population is 13.5 percent in district. The highest proportion of slum population is in Naldurg (MCI) (39.9 percent); Osmanabad (MCl) (14.2 percent); Paranda (MCl) (22.4 percent) Tuljapur (MCl) (28.7percent) and Umarga (MCl) (2.2 percent). Three towns namely Bhum (MCl) Kalamb (MCl) and Murum (MCl) do not have any slum population.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Bhum (M.Cl.)	Handloom Cloth	Milk
		Wood Furniture	Jowar
		Confectionery	Ground Nut
2	Kalamb (M.Cl.)	Sweet Oil	Edible Oil
		Confectionery	Ground Nut
		--	Leather
3	Murum (M.Cl.)	Edible Oil	Jowar
		Ice	Ground Nut
		Bakery Products	Tur
4	Naldurg (M.Cl.)	Wooden Furniture	Milk
		Cold Drinks	Ground Nut
		Bakery Products	Fish
5	Osmanabad (M.Cl.)	Agri.Equipments	Textiles
		Steel Furniture	Leather
		Pvc Pipes	Food Grains
6	Paranda (M.Cl.)	Leather Belt	Jowar
		Bakery Products	Kardi
		Bricks	Ground Nut
7	Tuljapur (M.Cl.)	Rice	Jowar
		Kumkum	Pulses
		--	Ground Nut
8	Umarga (M.Cl.)	Sandal Wood Agarbatti	Sandal Wood Agarbatti
		Leather Shoes	Register & Notebook
		Register & Notebook	Readymade Garments

The main items manufactured in the district are Agriculture equipments in Osmanabad (MCI) and Bhum (MCI) is main manufacturing center of Handloom cloth; wood furniture and confectionery items. Osmanabad (MCI) is main manufacturing centre for steel furniture and PVC pipes also.

The district export's Edible Oil; Ready made garments; ground nuts; Leather etc.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Note:-

Permanent:-1 Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concreate are used for roof.

Semi permanent:-2 Semi-permanent houses refer to those houses made of other types of materials

Temporary:-3 Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

The total percentage for the three categories viz.Permanent, Semi Permanent and Temportary may not add to 100 percent, the percentage remaining is for the 4th category Unclassified not shown in the table.

The table 49 gives the distribution of households living in permanent; semi-permanent and temporary houses in Osmanabad district.

According to Census 2001 out of total households of the district; 60.6 percent households are living in permanent houses; 32.6 percent households are living in semi-permanent houses and 6.7 percent households are living in temporary houses as per definition given in note below the table no. 49. Regarding rural areas of the district; 58.1 percent households are living in permanent houses; 34.3 percent households are living in semi-permanent houses and 7.5 percent households are living in temporary houses. Within urban area of the district, 75.7 percent households are living in permanent houses; 22.1 percent households are living in semi-permanent houses and 1.6 percent households are living in temporary houses.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Bathroom means bathroom within the house

Toilet means toilet within the house

Drainage means closed and open drainage

According to 2001 Census the amenity of improved drinking water is available for 258,916 households constituting 88.3 percent of total households. In rural and urban areas; of the district; this amenity is available for 220,096(87.3 percent) and 38,820(94.6percent) households respectively. The amenity of electricity is being enjoyed 191,638(65.4 percent) households of the district. In rural and urban

areas of the district; this amenity is being enjoyed by 155,959 (61.9 percent) and 35,679 (87.0 percent); households respectively

.The amenity of Bathroom is available in 133,109 households constituting 45.4 percent of the district. For rural and urban areas; this amenity is available for 104,657 households constituting 41.5 percent households and 28,452 (69.4 percent) households respectively.

The amenity of toilet is available in 67,101 households constituting 22.9 percent. For rural and urban areas this amenity is available for 47,957 (19.0 percent) and 19,144 (46.7 percent) households respectively.

The amenity of drainage is available in 145,594 households constituting 49.7 percent of total households. In rural and urban areas of the district this amenity is being enjoyed by 115,947 households (46.0 percent) and 29,647 (72.3 percent) households respectively.

Percentage in brackets.
Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 51 gives the number and percentage of households by type of fuel used for cooking in rural and urban areas.

Of the 293,109 total households; 190,844 (65.1 percent) households use firewood for cooking; 30,511 (10.4 percent) households use crop residue; 29,711 (10.1 percent) households use cowdung cake; 941 (0.3 percent) households use electricity; 106 households use coal/lignite (charcoal); 15,778 (5.4 percent) households use cooking gas (LPG); 628 (0.2 percent) households use Bio-gas; 23,201 (7.9 percent) households use kerosene; 668 (0.2 percent) households use other means for cooking; there are 721 (0.2 percent) households who reported no cooking being done by them.

In the rural areas; of the total 252,083 households 178,583 (70.8 percent) households use firewood for cooking. This is followed by 28,997 (11.5 percent) households use crop residue; 28,858 (11.4 percent) households use cowdung cake; 692 (0.3 percent) households use electricity; 72 households use coal/ lignite (charcoal); 4,513 (1.8 percent) households use cooking gas (LPG); 479 (0.2 percent) households use Bio-gas; 8,850 (3.5 percent) households use kerosene; 610 (0.2 percent) households use some other means for cooking. There are 429 (0.2 percent) households who reported no cooking being done by them.

It may be seen that while firewood continues to be the predominant fuel used in rural areas; the cooking gas in urban areas is used to a large extent.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

According to Census 2001 there are 293,109 of total households comprising of 252,083 rural households and 41,026 households urban. Of these; banking amenities are being availed by 129,553 households; of these 108,833 households are rural and 20,720 households are urban.

It is observed that a higher proportion of households in urban areas (50.5percent) utilize the banking amenity; as compared to the rural areas (43.2 percent). Out of 8 tahsils; Washi tahsil and lohara

tahsil are totally rural.

In the district; 57,400 households posses radio transistor; 68,254 households posses television; 13,955 households are having telephone; 61,979 are having bicycle; 16,501 households are having Scooter; Motorcycle; Moped; 5,009 posses Car; Jeep; Van.

It may be notice that from the information available in the table that a higher proportion of households in the urban areas posses these specified assets Of the 293,109 households 167,934 households posses none of the above specified assets. In the rural and urban areas, there are 154,855 and 13,079 households respectively who do not possess any of the specified asset.

(viii) Major Social and Cultural events, Natural and Administrative developments and Significant Activities during the decade.

Two new tahsils viz., Washi and Lohara and 13 new villages were created after 1991 census.

(ix) Brief description of Places of Religious, Historical or Archeological importance in the Villages and Places of Tourist Interest in the towns of the district.

Fairs

A large number of fairs are held in the district. Most of the fairs are associated with important deities and religious festivals. So far trade is concered; fairs are complemen tary to the weekly markets. In the fairs; the; shopkeepers and traders set up temporary stalls. Large quantities of clothing; Utensils; Stationery; Sweetmeats; Coconut; “Kumkum”; “haladi” etc. are brought for sale. People buy necessary articles in these fairs. Two fairs are very famous in this district. The Tulja Bhavani fair at Tulajapur; about 20 kms. away from Osmanabad district head quarters and 45 kms. from Solapur district head quarters; is held in Ashvina Sud 1. to Ashvina Sud. 10 i.e. during NAVRATRA in the month of September – October. Tulja Bhavani is not only the Goddess of Maharashtra; but she is also the KULSWAMINI of Hindu family of other states. Another fair is held at Yermala in Kalamb Tahsil. That in the name of Yedeshwari Devi which startes from Chaitra Sud.14 to Chaitra Vad.5 i.e. in the month of January. During the period of these fairs lacs of people visit the temple from all parts of Maharashtra. The devoties delieve that the Devi is most propitious and is capable of showering blessings on them. Saint Gorobafair at Ter; fair of Ramlinga at Osmanabad tahsil and fair of Bhairavnath at Sonari Paranda tahsil are other important fairs in the district.

Places of Historical and Tourist Importance

Forts; a few old temples and picnic pointsin the district play an important role in shaping the socio-economic pattern of the district. Some portion of the district is hilly creating spectacular scenery and attract many people from this district and from out side the district also. The centre of attraction of this district is its natural scenery and historical places; which can be best enjoyed while passing through the district.

Kunthalgiri

Kunthalgiri is famous for Digambar panthi Jain Temple in Bhum tahsil of Osmanabad district. There are direct buses from Solapur via Osmanabad. Thousands of people belonging to Jain Panth from all over India visit this holy temple and holy samadhi of Jain Muni; Shanti Sagar.

Andora

The place is known for an ancient shrine of Khandoba. The temple held “inam” lands from Chhatrapati Shahu. The deity is held in deep veneration by the village folk and on Sunday many devotees pay visit to the temple. All the major Hindu festivals are celebrated at the temple. The temple premises is also used for solemnizing marriages and other ceremonies.

Jamia Masjid located at Kate is said to have been built during the reign of Aurangzeb. The mosque is the most attractive of all places in the villages Kate. This villages is famous for Kamithesvar temple cincubais vihar. Situated on the western fringe of the villages; the “Hemadpanthi” Shrine of Khanthesvar is held in great reverence by village folk.

Forts

Two famous forts are situated in this district. Naldurg is renowned for its fort and was built by one of the Hindu kings from Chalukyas kingdom of Kalyani. Ibrahim Adil Sah II constructed a dam across the river Bori to supply fort garrisons with water and

also built the pani Mahal for his own pleasure. "Pani Mahal" is the major attraction in the fort and during the monsoon; the over flowing waters of the river pass through the palace; but the arrangement is such that it does not enter the palace. This calls for tribute to the engineering skill of the builder. The second famous historical fort at Paranda was the Capital of Nizamshahi emperor. It is said that the famous Malikmaidon Gun kept at present at Bijapur fort originally pertains to Paranda fort. The same was shifted to Bijapur by adilshahi commander Mura in 1632 A.D. Besides this; there is a Math of Shri Hansraj Swami; a famous saint poet of 18th century.

Ter

Ter from the point of view of archeology. This is the native place of saint Goroba Kumbhar. There is temple of Gora Kumbhar and thousands of pilgrims visit the temple to have darshana of "Samadhi". There is a museum of state archeological department. From the articles available in the museum it is said that there was direct trade with the Greek and Roman countries from Ter.

(x) Major Characteristics of the district, Contribution of the district in the form of any Historical Figure associated with the district

Osmanabad district is endowed with three major economic resources i.e. agricultural land; trade and commerce. The district is famous for Jowar and Goundnuts of good quality. Large areas of land have been brought under this plantation in addition of Cotton; Milk products and gur Edible oil is also available in the district. Fishing activites have been started in this district from 1964-65 in a limited area and from 1971 expanded in 4319 hectares of area. There are considerable fishing activities of prawns; tuna and other fish.

In addition to foodgrains like Jower and Groundnut; the district is famous for production of Tur. Out of total area under cereal productions Tur contribute more than 40 per cent area. Now the production of Sunflower is in significant progress in the district. Similarly; the cultivators are now taking interest in production of Ber in large quantities.

Marathi is the principal language and is the mother-tongue of more than 80 per cent of the population of the district. The staple food of the people is roti (made from Jowar) and Chatani; Bajra; Wheat and rice is used occasionally. The special dish of the people in the district is "Puranpoli". The Hindus observe a variety of fasts; feasts and festivals throughout the year. Pola; Dasara; Diwali; Holi; Ramnavami; Hanuman Jayanti; Ganesh Utsav; Buddha Jayanti; Muharram are the religious festivals observed by the people. Dasara festival is particularly notable in the district.

Contribution Of The District

Osmanabad district has given many famous saints like Gora Kumbhar from Ter Village of Osmanabad tahsil; Saint Kalyanswami from Domgaon village and Saint Hansaraj swami from Paranda tahsil.

(xi) Scope of Village Directory and Town Directory

Information on this aspect is furnished in detail in the village and town directory statements and in a consolidated form in the appendix and also in the tables presented. The non-census information collected at the village level or town level by the Tahsildar / chief officer was scrutinized and verified in each district by the district planning officer / district statistical officer. The Collectors were also requested to once again reverify the data in case serious discrepancies were observed. Logical tests were applied to the data and the officials of this directorate visited the districts to revalidate the data. Besides this, the non-census information was cross-checked with the parent department. For example information on electricity was cross checked with Maharashtra State Electricity Board, that on roads with Public Works Department, on health with the Directorate of Health and so on.

Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to

village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village.

The Village Directory format has 23 columns and the details given under each column for the village are as follows:-

Column 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X are included in secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

This column provides data available on medical amenities in the village.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

Column 8 gives information regarding availability of drinking water within the village. In case more than one source is available to the village the same has been indicated.

Column 9 : Post, Telegraph and Telephone

Column 9 provides the postal facilities such as post office, telegraph office, post and telegraph office and telephone connections available in the village.

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc., the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given.

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given.

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded.

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable waterway, the same has been indicated in this column.

Column 14 : Approach to village

Approach to village refers to the state of road leading to village.

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

This column relates availability of Power Supply in the village.

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column.

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23: Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Unirrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) upto one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department.

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / Non-municipal Towns.

Appendix - IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix - VII A, VII B The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.

Town Directory :

The town directory is presented for each town covering different aspects of urban life. In 2001 Census, Statement I – VII have been included for presentation of this data. The data contained in these statements are the area, population in 2001 and past Censuses, growth rates, density, sex ratio, physical aspects of towns, communications, municipal finance, civic, medical, and educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutory notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns the Tahsildar and cantonment executive officers supplied the information.

Statement I-Status and Growth History

Statement I shows the status and growth history of the towns in the district, column 2 in this statement indicates class, name and civic administration status of a town. Class of the town indicated under this column has been introduced to facilitate the analysis of town directory data at the State and National level. Census towns have no urban civic status.

Column 3 indicates location code number of the town, column 4 gives name of tahsil and column 5 shows the name of C.D.Block. Column 6 presents area in Sq. Kms., Column 7 presents number of households including houseless households.

Column 8 to 18 gives population and growth rate of town since 1901 and would help in drawing the trends in their growth rate, Column 19 presents density and Column 20 to 22 presents sex ratio.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV-Civic and other Amenities, 1999

Statement IV provides information on the civic and other amenities available in the town. Total population given under column 3 and Schedule Castes/ Scheduled Tribes population given in column 4 and 5 have been added to help in measuring amenities in respect of population size of the weaker sections in the towns. The information on the road length within the town shown under column 6 has been obtained from Municipality.

Column 7 to 12 reflects the information on system of sewerage, number of latrines, and method of disposal of night soil.

Column 13 indicates sources of protected water supply to the inhabitants of the towns. The information on storage and capacity is shown under column 14.

Column 15 gives information regarding availability of fire fighting services. In case it is not available in the referent town, the name of the nearest place where it is available has been mentioned and the distance from the town has also been indicated within brackets. Column 16 to 20 pertains to the number of electricity supply connections available for domestic, industrial, commercial and road lighting points etc.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 and 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres are treated as independent units.

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc.

Column 6 to 9 :

The information on educational facilities is reflected in columns 6 to 9

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14: Higher Secondary/ Intermediate/Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

Schools up to class IV are treated as Primary or Elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class IV and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like Middle schools with Primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P (4), M (3).

Column 15: Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostels if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational and cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded.

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area committee etc.

PART A
VILLAGE AND TOWN DIRECTORY

Section I - Village Directory

(a)Note Explaining the abbreviations used in Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X are included in secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12:Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water way they are mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If a village receives any News Paper/Magazine the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) upto one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK

(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A The appendix shows the list of villages according to proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B The appendix shows the list of villages according to proportion of the Scheduled Tribes to the total population by ranges.

Section II - Town Directory

(a) Note Explaining the abbreviations used in Town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) :Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows:

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board / Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate Office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Other columns need no comments

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha/pucca road is recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called seperate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) and others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 and 5 : Medical

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning

centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres are treated as independent units and counted separately using following codes:

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution(s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

Column 6 to 9 :Educational

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocationl institutions like - Applied Art/ Painting college, Pharmacy college, B.Ed. college, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :Higher Secondary/Intermediate/ Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/Junior Secondary and Primary Schools.

Schools upto class IV are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University/Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats.

The number of working women's hostels if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of the nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities.

Stadium, Cinema, Auditorium/ Drama / Community Hall are covered under recreational and cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading Room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies.

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area Committee etc.

There is no outgrowth in this district; hence the information is ‘ Nil ’.

PART B
PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the

quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE - II

Fertility and Mortality, 1991 Census

Fertility Levels :

Fertility is a major component of population growth. In the 1991 census, questions on fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year were asked. The first three questions were asked to all ever-married women and the last question related to currently married women. The measures of fertility worked out are based on the F-Series Tables of 1991 Census pertaining to Maharashtra State.

Mortality Levels

Information on questions on children ever born and children surviving canvassed for all ever-married woman has been tabulated by age of the mother. From this, estimates of child mortality have been worked out using Brass technique.

ANNEXURE II (i)
Estimates of Child Mortality, 1991

Item		Osmanabad District Total	Maharashtra State Total
1	2	3	4
Q1	P	70	74
	M	61	72
	F	83	76
Q2	P	84	79
	M	81	78
	F	89	81
Q3	P	92	86
	M	91	84
	F	94	89
Q5	P	96	91
	M	95	89
	F	97	93

Mortality

From the estimate of child mortality (number of deaths by ages 1; 2; 3 and 5 given above as q(1); q (2); q (3) and q (5)) it is observed that the level of child mortality is the district is substantially higher compared to the state in 1991 Census except for q(1) male and persons. A notable feature is the higher female mortality compared to male mortality in the district as well as for the state. However; the sex differential in child mortality appear to be more pronounced in the district for q(1).

ANNEXURE II (ii)
Estimate of Fertility Indicators at district level, Maharashtra,1981 And 1991

Fertility Measures	Osmanabad District 1981	Osmanabad District 1991	Maharashtra State 1981	Maharashtra State 1991
1	2	3	4	5
GFR	145	126	134	124
GMFR	169	148	168	157
TFR	4.6	3.9	4.3	3.7
TMFR	5.2	4.8	5.2	5.2
Crude Birth Rate (CBR)	32.5	28.3	31.8	29.8
No. of children ever born per women in the age group 45-49	--	4.5	--	4.2
Mean Age at Marriage	--	17.0	--	17.9
Child Women Ratio	--	58.8	--	49.6

Fertility

A perusal of the various fertility measures namely GFR (General Fertility Rates); GMFR (General Marital Fertility Rate); TFR (Total Fertility Rate); TMFR (Total Marital Fertility Rate); CBR (Crudes Birth Rate) for the district vis-à-vis State reveals higher rates for the district as compared to State as a whole. In 1981, the GFR; GMFR; TFR; TMFR and CBR were 145; 169; 4.6; 5.2 and 32.5 respectively as compared to State average of 134; 168; 4.3; 5.2; and 31.8 respectively. In 1991 GFR; GMFR; TFR; TMFR and CBR were 126; 148; 3.9; 4.8 and 28.3 respectively for the district as against the State average of 124; 157; 3.7; 5.2; and 29.8 respectively.

It may be seen that; in 1981Census the fertility rates are higher for the district than the State as a whole. Whereas in 1991; GMFR; TMFR and CBR were recorded lower for the district. But the gap in fertility rate between the district and the State has increased substantially in 1991 for GMFR

Mean age at marriage

Mean age at marriage is recorded to be lower for the district than the State in 1991.

Child Woman Ratio

The Child Woman Ratio for 1991 Census indicates a higher ratio for the district as compared to the State.

ANNEXURE III

Various Measures of Fertility and Mean Age at Marriage,1991

Percentage distribution of Migrants by Place of Birth – Maharashtra

Serial number	Place of Birth	2001 Census		
		Person	Males	Females
1	**2**	**3**	**4**	**5**
1	A. Migrants born within the state of enumeration	32,939,182	11,858,299	21,080,883
		80.5	72.3	86.1
	i) Migrants born elsewhere in district of enumeration.	20,718,400	6,618,661	14,099,739
		50.7	40.4	57.6
	ii) Migrants born in other district of the state	12,220,782	5,239,638	6,981,144
		29.9	32.0	28.5
2	B. Migrants born in other states of India	7,756,307	4,427,935	3,328,372
		19.0	27.0	13.6
3	C. Migrants born in other countries	197,731	109,447	88,284
		0.5	0.7	0.4
4	D. Unclassifiable	9	3	6
		0.0	0.0	0.0
	Total Migrants :	**40,893,229**	**16,395,684**	**24,497,545**
		100.0	**100.0**	**100.0**

On the basis of migrants by place of birth, there are 40,893,229 migrants in Maharashtra in 2001 comprising 16,395,684 males and 24,497,545 females. These migrants constitute 42.2 per cent of total population. Male migrants constitute 32.5 per cent of male population while female migrants account for 52.7 per cent of female population.

ANNEXURE IV (ii)

Percentage distribution of Migrants by Place of Birth – Osmanabad

Serial number	Place of Birth	2001 Census		
		Person	Males	Females
1	**2**	**3**	**4**	**5**
1	A. Migrants born within the state of enumeration	459,055	116,472	342,583
		95.8	95.6	95.8
	i) Migrants born elsewhere in district of enumeration.	295,164	75,012	220,152
		61.6	61.6	61.6
	ii) Migrants born in other district of the state	163,891	41,460	122,431
		34.2	34.0	34.2
2	B. Migrants born in other states of India	20,306	5,331	14,975
		4.2	4.4	4.2
3	C. Migrants born in other countries	60	33	27
		0.0	0.0	0.0
4	D. Unclassifiable	0	0	0
		0.0	0.0	0.0
	Total Migrants :	**479,421**	**121,836**	**357,585**
		100.0	**100.0**	**100.0**

In Osmanabad district there are 479,421 migrants comprising 121,836 males and 357,585 females. The migrants of this district constitute 32.2 per cent of total population. Male and female migrants constitute for 15.8 and 49.9 per cent respectively.

From the distribution of total migrants in Maharashtra by place of birth, it can be clearly seen that females predominate in intradistrict and interdistrict migration while males predominate in interstate and international migration. In case of Osmanabad district females predominate in all except international migration.

The number of migrants born in other states of India is 7,756,307 in 2001. It is seen that 19.0 per cent of the total migrants in Maharashtra are from other states. In case of Osmanabad district 4.2 per cent of the total migrants are from other states.

ANNEXURE IV (iii)

Inter State Migrants to Maharashtra

Serial number	Place of Birth	2001 Census	
		Migrants	Percentage to total Migrants
1	2	3	4
1	Andhra Pradesh	450,898	5.8
2	Bihar	386,799	5.0
3	Gujarat	890,428	11.5

9	West Bengal	161	0.8
	Total for Nine States	19,814	97.6
	Other States	492	2.4
	Total	**20,306**	**100.0**

In respect of Osmanabad district out of 20,306 interstate migrants Karnataka accounts for 79.6 per cent and Andhra Pradesh account for 7.4 per cent.

Migrants by Place of last residence

ANNEXURE IV (v)
Percentage distribution of migrants by place of last residence - Maharashtra

	Place of last residence	2001 Census Persons	Males	Females
	1	2	3	4
A)	Last residence within the State of Enumeration	34,225,081 82.0	12,486,174 74.5	21,738,907 87.1
i)	Last residence elsewhere in the district of enumeration	22,137,959 53.1	7,237,350 43.2	14,900,609 59.7
ii)	Last residence in other district of Maharashtra	12,087,122 29.0	5,248,824 31.3	6,838,298 27.4
B)	Last residence in other States/UTs	7,313,139 17.5	4,178,677 24.9	3,134,462 12.6
C)	Last residence in other Countries	177,478 0.4	99,086 0.6	78,392 0.3
D)	Unclassifiable	13 0.0	6 0.0	7 0.0
	Total migrants :	**41,715,711** **100.0**	**16,763,943** **100.0**	**24,951,768** **100.0**

On the basis of migrants by place of last residence, there are 41,715,711 migrants in Maharashtra comprising 16,763,943 males and 24,951,768 females. These migrants constitute 43.1 per cent of total population. Male migrants constitute 33.3 per cent of male population while female migrants account for 53.7 per cent of female population.

ANNEXURE IV (vi)
Percentage distribution of migrants by place of last residence - Osmanabad

	Place of last residence	2001 Census Persons	Males	Females
	1	2	3	4
A)	Last residence within the State of Enumeration	472,918 96.0	121,163 96.0	351,755 96.0
i)	Last residence elsewhere in the district of enumeration	316,662 64.3	81,128 64.3	235,534 64.3
ii)	Last residence in other district of Maharashtra	156,256 31.7	40,035 31.7	116,221 31.7
B)	Last residence in other States/UTs	19,698 4.0	5,022 4.0	14,676 4.0
C)	Last residence in other Countries	56 0.0	34 0.0	22 0.0
D)	Unclassifiable	0 0.0	0 0.0	0 0.0
	Total migrants :	**492,672** **100.0**	**126,219** **100.0**	**366,453** **100.0**

In Osmanabad district there are 492,672 migrants comprising 126,219 males and 366,453 females. The migrants of this district constitute 33.1 per cent of total population. Male and female migrants constitute 16.4 and 51.1 per cent respectively.

From the distribution of total migrants in Maharashtra by place of last residence, it can be clearly seen that females predominate in intradistrict and interdistrict migration while male predominate in interstate and international migration. In case of Osmanabad district females predominate in all except international migration.

The number of migrants by last residence from other States of India is 7,313,139. It is seen that 17.5 per cent of the total migrants are from other states. In case of Osmanabad district (4.0 per cent) of total migrants are from other states.

ANNEXURE IV (vii)
Inter State Migrants to Maharashtra

Serial number	Place of Last residence	2001 Census Migrants	2001 Census Percentage to total Migrants
1	2	3	4
1	Andhra Pradesh	431,774	5.9
2	Bihar	361,351	4.9

	Total for Nine States	19,192	97.4
	Other States	506	2.6
	Total	**19,698**	**100.0**

In respect of Osmanabad district out of 19,698 interstate migrants Karnataka account for 80.3 per cent and Andhra Pradesh account for 7.0 per cent.

Rural – Urban Components Of Migration

The flow of migrants would consist of four streams viz., rural to rural, rural to urban, urban to rural and urban to urban. The data on the basis of these various streams in case of migrants is classified by place of last residence. It presents data only in relation to internal migrants. The data for Osmanabad district is presented separately.

ANNEXURE IV (ix)
Rural And Urban Composition of Internal Migrants by Place of last Residence, 2001 Census - Maharashtra

Place of last residence	Place of Enumeration Total	Rural	Urban
1	2	3	4
Total Internal Migrant :			
1) Within the State			
Total	34,225,081	21,265,808	12,959,273
	100.0	62.1	37.9
Rural	24,089,515	17,275,775	6,813,740
	70.4	50.5	19.9
Urban	7,281,769	1,988,464	5,293,305
	21.3	5.8	15.5
2) In other States of India			
Total	7,313,139	1,165,461	6,147,678
	100.0	15.9	84.1
Rural	4,644,986	931,705	3,713,281
	63.5	12.7	50.8
Urban	2,392,567	184,302	2,208,265
	32.7	2.5	30.2

Note: The place of last residence unclassifiable as 'Rural' or 'Urban' is included in 'Total'.

Of the total 34,225,081 intrastate migrants, 50.5 per cent are from rural to rural, 15.5 per cent from urban to urban, 19.9 per cent from rural to urban and 5.8 per cent from urban to rural. In case of Osmanabad district of the total 472,918 intrastate migrants 66.3 per cent are from rural to rural, 6.7 per cent from urban to urban, 10.8 per cent from rural to urban and 5.8 per cent from urban to rural.

ANNEXURE IV (x)

Rural And Urban Composition of Internal Migrants by Place of last Residence,2001 Census - Osmanabad

Place of last residence	Place of Enumeration		
	Total	Rural	Urban
1	2	3	4
Total Internal Migrant :			
1) Within the State			
Total	472,918	381,878	91,040
	100.0	80.7	19.3
Rural	364,909	313,754	51,155
	77.2	66.3	10.8
Urban	58,937	27,270	31,667
	12.5	5.8	6.7
2) In other States of India			
Total	19,698	13,955	5,743
	100.0	70.8	29.2
Rural	14,503	11,572	2,931
	73.6	58.7	14.9
Urban	4,380	1,828	2,552
	22.2	9.3	13.0

Note: The place of last residence unclassifiable as 'Rural' or 'Urban' is included in 'Total'.

In case of 7,313,139 migrants from other states; 12.7 per cent have migrated from rural to rural, 30.2 per cent from urban to urban, 50.8 per cent from rural to urban and 2.5 per cent from urban to rural. In case of Osmanabad district of the total 19,698 migrants, 58.7 per cent are from rural to rural, 13.0 per cent from urban to urban, 14.9 per cent from rural to urban and 9.3 per cent from urban to rural.

ANNEXURE IV (xi)

Percentage of migrants to total population, 1991-2001, Osmanabad district

Serial number	Place of birth/Place of last residence	Total population	Total Migrants		
			Persons	Males	Females
1	**2**	3	4	5	6
1	**Migrants by place of birth**				
	2001 Census	1,486,586	479,421	121,836	357,585
			32.2	8.2	24.1
	1991 Census	1,276,327	403,225	100,777	302,448
			31.6	7.9	23.7
2	**Migrants by place of last residence**				
	2001 Census	1,486,586	492,672	126,219	366,453
			33.1	8.5	24.7
	1991 Census	1,276,327	413,805	104,277	309,528
			32.4	8.2	24.3

There are 479,421 (32.2 per cent) migrants by place of birth comprising 121,836 (8.2 per cent) males and 357,585 (24.1 per cent) females to total population in 2001. Similarly 492,672 (33.1 per cent) migrants by place of last residence comprising 126,219 (8.5 per cent) males and 366,453 (24.7 per cent) females to total population are found in Osmanabad district.

It may be seen that the percentage of migrants by place of birth has marginally increased in Osmanabad district during the decade 1991-2001.This observation holds good for males and females also. Similar trend can be seen for the migrants by place of last residence also.

Note: # The 1991 Census could not be conducted in 33 villages of Akkalkuwa and Akrani C.D. Blocks of Dhule District. The population of these villages (Persons 16,052 Male 8,200 and Females 7,852) has been obtained from secondary sources and included in the population of district and Maharashtra. However, further details are not available.

Source: Table C-2 of Part IV-A, C series - Socio Cultural Tables, 1991 census.

When compared to 1991 data, it is found that during the last decade the literacy rate of the state has jumped from 64.9 per cent to 76.9 per cent. While during the same period the districts literacy rate has increased from 54.3 per cent to 69.0 per cent.

Source : Table 31 of Maharashtra State District Profile 1991 census.

Marathi is the principal language of the district and is the mother tongue of 84.4 per cent of the district population. In rural areas Marathi speakers account for 87.2 per cent whereas in urban areas 69.3 per cent. Urdu is the second largest language spoken in the district. It accounts for 5.4 per cent of

the total population. The proportion of Urdu speakers is higher in urban areas (17.1 per cent) than the rural areas (3.2 per cent). The third largest language spoken in the district is Hindi, its percentage to the total population is 4.4 and mainly spoken in urban areas by 7.0 per cent people, whereas 3.9 per cent in rural areas.

The speakers of the minority languages i.e. Kannada, Marwari and, Telugu are mainly concentrated in urban and Banjari and Lamani/ Lambadi are concentrated in rural areas while Paradhi is equally spoken in rural and urban areas..

It is found that during the last decade proportion of Marathi and Urdu speaking persons has decreased from 84.9 per cent to 84.4 per cent and 7.3 per cent to 5.4 per cent respectively while Hindi speakers proportion has marginally increased from 2.1 per cent to 4.4 per cent.
