VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

Samir Kumar Biswas
of the Indian Administrative Service
Director of Census Operations, Maharashtra

Product Code Number

MOTIF

Shah Turab Ul Haq's Dargah

At the Dargah, the urus is held in honour of the famous saint Shah Turab Ul Haq every year, during Ramzan month. The tomb of Shah Turab has become a source of inspiration and guidance to the people of all religions. The total congregation during the days of fair is estimated at about 30,000 to 40,000.

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and collage), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre),

drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri Samir Kumar Biswas, Director of Census Operations, Maharashtra. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective State Governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India

Preface

The Registrar General and Census Commissioner of India has in his foreword to this series of publications, not only provided the reader with the historical background of the District Census Handbooks but has also explained at some length the scope and coverage envisaged for this country-wide project. This volume contains the salient results based on the data gathered at the actual head-count and in addition contain a wealth of other non-census information in respect of Villages and Towns of the District. It is hoped that this volume would go a long way to meet the ever-increasing demand for the micro-level data in this era-planned development.

District Census Handbook of Maharashtra is a joint venture of the Government of Maharashtra and the Census Organization of the Government of India. The design for the 2001 District Census Handbook was evolved centrally by the Census Commissioner, India. In the preparation of the District Census Handbook, the role played by the Census Organization is that of data gatherer. In accomplishing this task we have had the ready and whole-hearted co-operation of the staff at various levels of different departments of the State Government. Much of the data so provided by this field–level officers have been cross-checked with the data obtained from various departments and an attempt has been made to reconcile the discrepencies as well. The Village Directory data in addition were also examined logically and possible errors list generated village wise for select facilities was rechecked and revalidated with the revenue officers in the respective Collectorate.

I am extremely grateful to Shri D.K. Sikri, Additional Secretary and Registrar General, India for his guidance in bringing out this publication. I am equally grateful to Shri J. K. Banthia, I.A.S. the former Registrar General and Census Commissioner, India for his constant inspiration, help and guidance at every stage.

I also express my thanks to Dr. R.P. Singh, Dy. Registrar General, India (Map), Shri R.G. Mitra, Dy. Registrar General, India (Census Division), Dr. I.C. Agrawal, Assistant Registrar General (SS Division), Shri S.L. Jain Deputy Director (SS Division), Shri C.S. Arora, Director (EDP), Shri Himakar, Additional Director (EDP), Shri M.R. Balakrishnan, Joint Director (EDP), Shri Anil Kumar, Deputy Director (EDP) and their colleagues for their co-operation and support in bringing out this volume.

Shri Samir Kumar Biswas, IAS held the office of Director of Census Operations, Maharashtra and guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the direction and guidance of Shri Biswas. We would deem it our duty; therefore, to offer him our sincere and grateful thanks for all that he did for this project.

In this Directorate, Shri R.S. Meena, Joint Director guided this project in a meticulous manner and received all help from Dr. S.S. Hiremath, Deputy Director. The DCHB unit was spearheaded by Smt. Sushma Monga, Assistant Director, who was on deputation from the Planning Commission, New Delhi.

The physical features have been concurred by the Map section, after incorporating necessary changes, wherever required. The Maps, inserted are prepared by the Cartography section under the guidance of Shri D.N. Chaurasia, R.O.

I take this opportunity to offer my grateful thanks to all officials in various grades who have been actively involved in voluminous work of compilation and preparation of this volume. The list of the officials of this Directorate closely associated with this work is given separately.

Definition of Census Town:

All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns:

i) A minimum population of 5,000;
ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and
iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of District Census Handbook

The origin of DCHB lay in the 1951 Census when it began as a joint venture between the Government of India and the State Government. The present volume pertaining to 2001 Census is sixth in series since then. The District Census Handbook (DCHB) is a unique publication from the Census Organization that, in a condensed form, gives details of the Census and non-Census information from the village level upwards to the district level. It has therefore, been acclaimed & recognized as one of the best source of information next only to the district gazetteer.

The District Census Handbook as published in 1951 incorporated, some basic demographic and economic information of the district, village wise and town wise separately, besides having some important Census Tables. However, it underwent a radical change in the 1961 Census as a much more descriptive account of the district and a lot of non-census information on climate, rainfall, agriculture, industry, education, etc. was added to it besides a number of cross tables being picked up from various series of Census tables. In 1971 the District Census Handbook was divided into Part - A relating to Village and Town Directory, Part - B containing village and town wise Primary Census Abstract and Part - C reported on the administrative aspect and Census tables based on Primary Census Abstract etc. For the state of Maharashtra only Part A and B were published. The 1981 Census again saw the scope of it increasing to contain the data on literacy rate, Primary Health Centers etc. It was published as part A and B and the same pattern was again followed in 1991. However, in 1991 some of the non-census data included information on girls schools, social forestry area etc. as separate Appendices. The DCHB, 2001 Census have been made more informative and exhaustive in terms of coverage and content. The scope of village directory has been broadened by including more types of facilities such as banks, recreational and cultural facilities, newspapers and magazines available in villages. Information on most important commodity manufactured in village and also income and expenditure of Gram Panchayat, wherever possible are provided. Specific details on distances, in case a basic amenity is not available in the referent village is also given. These include distances in respect of availability of primary and middle school and college (in respect of the educational facility), Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre (in respect of the medical facility), Drinking water, Post Office and Phone, Communication, Bank, Credit societies and Recreational facilities. The Non-Census information collected at the village level or town level by the Tahsildar/ Chief officer was scrutinized and verified in each district by the District Planning Officer and District Statistical Officer. The Collectorates were also requested to once again verify this in case serious discrepancies were observed. Logical checks were applied to the data and the scrutiny points which emerged after this exercise were further verified in the field by officials of this Directorate. With reference to the town concerned, the nearest city with 5 lakh and above population has also been given in addition to 1 lakh and above population. The non-census information was cross-checked with parent department also. For example, information on electricity was cross-checked with Maharashtra State Electricity Board, that on roads with Public Works Department, on health with the Directorate of health and so on. It is felt that because of this extra validation, information provided in the 2001 District Census Handbook should become more reliable and can be used without any hitch by Scholars and Planners alike.In town directory, information on all types of slums, whether notified/recognised by the respective town authority or not and in respect of all statutory towns irrespective of their class as against

only Class I and Class II towns of the 1981 and 1991 Censuses are provided. The varied basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. A number of tables based on Primary Census Abstract are also made to correlate data with geography of the tahsils. A significant addition in the publication is inclusion of analytical notes as annexures on important aspects concerning Census data on (i) fertility, mortality and migration, (ii) various measures of fertility and mean age at marriage, (iii) percentage distribution of migrants by place of birth/place of last residence, (iv) main religions, (v) marital status of population, (vi) age, sex and education, and (vii) distribution of different mother tongue, all based on 1991 Census. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The Village and Town Directory as also the Primary Census Abstract included in this Handbook should quench the thirst of the planners involved in micro level planning.

(ii) Brief History of the District

Parbhani district forms part of the greater tract known as Maharashtra and till 1853 was included in Berar along with Buldana, Akola, Amravati and Yavatmal districts. The ancient history of this region could be traced to the legends recorded in the Epics and the Puranas which states that the country to the south of the Vindhayas was in those days covered by dense forests. Valhurgram village in Parbhani district also claims epic connections. The former is supposed to be the birth place of Valya Koli who later became the celebrated author of Ramayana. Parbhani town was known as Prabhavati on account of the existence of a beautiful temple of Goddess Prabhavati. Therefore, it is quite likely that the present name Parbhani is a modified form of Prabhavati.

In historical times the entire area in Vidharbha was a part of empire of Ashoka then Maurya in 184 B.C. The Satvahnas held Sway over Vidarbha for about 450 years from 200 B.C. to 250 A.D. After declining the power of Satvahanas in about 250 A.D., their place was taken over by the Vakatakas. The Vakatakas family ceased to exist by about A.D. 490 and the Parbhani district of Maharashtra formed part of the dominion of the Vatsagulma. In ancient period, after Vatsagulma, Kalacuris of Mahismati, Rashtraktas, then Chanakya ,Yadavas ,the mediaval period begins from Ala-ud-din in1316. Parbhani thus passed again with the rest of Berar into the hands of Musalmans. After the rule of Bahamani and Imadsahi, the Nizam of Ahmadnagar became emperor from 1565 till 1595 In the Moghal period from seventeenth century, the emperors like Akbar, Murad, Malik Ambar and Jahagir ruled successfully and then Aurangzeb became a powerful ruler. After the death of Aurangzeb in 1707 the Moghal empire at this period was on the verge of decline and the Nizam Asf Jah became the ruler and he established his capital at Hyderabad. After a period of about 140 years, due to bankruptcy of the Hyderabad Government, and their disorganized administration districts yielding gross revenue of 50 lakhs a year were handed over to the British by a treaty. The districts thus ceded constituted a major portion of Berar heart of Osmanabad (Naldurg) and Raichur . From the remaining portion of Berar, which was left with the Nizam, district Parbhani was formed under the reforms of salar-Jang, in the year 1853.

In 1905 the northern villages of Nanded tahsil of Nanded Dist. were added to Kalamnuri tahsil. Eight villages from Ambad tahsil of Aurangabad district were added to Pathri tahsil and six villages from Pathri tahsil were transferred to Ambad tahsil. There were no major changes in the boundaries of the district or its tahsils during 1906 to 1948.

The future of Nizam of Hyderabad was settled after the Independence of India. This was opposed by the leader of Razakars. The district of Parbhani too had its share of public workers who fought and suffered with the activities of the Razakars. At last on September 13, 1948 the Government of India moved into Nizam's estate and after a brief but brilliant action put an end to the intolerable contiontions prevailing in the state. The state of Hyderabad thus acceded to the Indian union. Palam taluka, the part of Nizam's estate was abolished in 1949 under Surf-e- Khas (merger) regulations.All other jagirs were also abolished under the Hyderabad Regulation, 1949 and their villages taken over under direct Govt. administration and consequently all taluka boundaries

were reorganized in the year 1950. A new Taluka was constituted with Headquarters at Gangakhed. It included the earstwhile Surf-e- Khas area from Palam taluka and villages from jagirs of Sonpeth and Gangakhed talukas. Partur was retained as a new taluka in the district. Rest of the jagir area and few villages being transferred from Pathri and Jintur talukas. Thus Parbhani district was devided into 8 talukas.

With the reorganization of the state 1956 Parbhani became a part of Bombay State and since 1960 it forms a part of Maharashtra State. Parbhani district comprised 8 tahsils at the time of 1971 census, consisting of 1505 inhabited villages and 12 towns. New Hingoli district was formed after 1991 census from Parbhani district. Three tahsils and three towns were transferred from Parbhani district to Hingoli district in 2001 census.

(iii) Administrative Set-Up

There were Major changes in the administrative set-up of Maharashtra after the 1991 Census, resulting in increase of five districts. The number of division unchanged it is same in 1991 census and 2001 census. The number of districts rose from 30 in 1991 census to 35 in 2001 census. Mumbai district of 1991 census divided into two, forming Mumbai and Mumbai suburban districts. Similarly new districts Nandurbar, Washim, Hingoli and Gondiya district were formed bifurcating, Dhule, Akola, Parbhani and Bhandara district respectively. Konkan division includes 6 districts, Nashik division has 5 districts, Pune division has 5 districts, Aurangabad division has 8 districts, Amravati division 5 districts and Nagpur division 6 districts. Parbhani district is included in Aurangabad division. Thus for 2001 census the State has 35 districts spread over 6 divisions in Maharashtra.

The district Parbhani had 7 tahsils and 11 towns at the time of 1991 census. During 1991-2001 the jurisdictional changes included carving out of a new district 'Hingoli' out of Parbhani district on 1st May 1999. 693 villages and 3 towns in the three tahsils namely Hingoli, Basmath and Kalamnuri were transferred to the newly created Hingoli district with an area of 4633.63 Sq. km. Parbhani district at present has 9 tahsils with 8 towns,which include the newly created tahsils viz., Sailu, Manwath, Sonpeth, Palam and Purna. There are 841 villages spread over Sailu (94), Jintur (169), Parbhani (130), Manwath (54), Pathri (56), Sonpeth (57), Gangakhed (106), Palam (82) and Purna (93) tahsils. The following statement indicates the changes, which occurred after 1991 census in the number of villages, towns in each tahsils and also the reasons for variation in brief:-

For administrative purpose, the district is divided into two sub-divisions viz., Parbhani and Sailu. Parbhani sub-division includes Parbhani, Gangakhed, Palam, Purna and Sonpeth tahsils and Sailu sub-division includes Sailu, Pathri, Jintur and Manwath tahsils. The District Collector along with the District Judge, Superintendent of Police, Chief Executive Officer of Zilla Parishad and other senior officers of the State Government look after the development and regulatory functions in the district. At the tahsil level, the Tahsildar, Block Development Officer, Judicial Magistrate, Deputy Engineers and other Officers look after their respective departments for development and regulatory functions.

Local self Governments, its composition, jurisdiction and the role in the Development.

Gram Panchayat is the lower most rung of the democratic set-up of India. It is governed by the 'Bombay Village Panchayat Act, 1958'. The 'Sarpanch' and in the absence of Sarpanch, the 'Upa-Sarpanch' preside over every meeting of 'Gram Sabha'. At least four meetings of the 'Gram Sabha' are held every year. Sarpanch and Upa-Sarpanch are elected from amongst the elected members of the Panchayat.

73rd Constitutional Amendment

To make Panchayat Raj Institutions strong and to give more power to the people, the State Panchayat Act has been amended in confirmation with the 73 rd Constitutional amendment, which is implemented in the State in April 1994. The Main fundamental provisions of the 73 rd Constitutional amendments are as follows:

1. Constitution of Panchayat Raj Institutions at Village, Intermediate (Development Block) and district level.

2. The seats and the offices of the chairpersons in the Panchayats at all the levels to be reserved in favour of Scheduled Castes and Scheduled Tribes in proportion to the percentage of population of the Scheduled Castes or Scheduled Tribes, as the case may be.

3. The elections to these Panchayat Raj Bodies to be held at the interval of every five years.

4. Powers, Authority and Responsibilities of Panchayats: -

(a)The preparation of plans for economic development and social justice

(b)The implementation of schemes for economic development and social justice as may be entrusted to them including those in relation to the matters listed in the Eleventh Schedule.

5. An independent State Election Commission to conduct the elections.

6. Powers to impose taxes by, and funds of, the Panchayats.

7. Constitution of Finance Commission by the State at the expiry of every five years term to review the financial position of the Panchayats and to make recommendation regarding distribution of State resources between the State and the Panchayat.

Constitution of Gram Panchayat

The gram panchayat consists of not less than seven and not more than seventeen members elected from wards on the basis of adult franchise. They hold

office for a term of five years. Among these a few seats are reserved for persons belonging to the Scheduled Castes, the Scheduled Tribes, Backward Class of citizens and Women, as may be determined by the State Election Commission in the prescribed manner.

Administrative powers and duties of Panchayats

Administrative powers and duties of Panchayats are - to take care of the funds at its disposal, to take over and maintain water supply schemes through "Village Water Supply Fund", to make provision for carrying out within/outside the village any work subject to any directions made by State Government for any scheme or for any purpose sponsored by the Government, to make provision for carrying out work which is likely to promote health, safety, education, comfort, convenience or social or economic or cultural well- being of the inhabitants of the village, to make provision for entertainment, public reception, contribution towards annual gathering, to encourage farmers and co-operative societies to increase and improve agricultural production etc.

Powers and duties of Panchayats in the scheduled areas

Powers and duties of Panchayats are - to obtain from the Gram Sabha a certification of utilization of funds for the plans, programmes and projects, prospecting licence or mining lease for minor minerals, control on erection of building, to remove any obstructions and encroachments upon public streets and open sites etc.

Establishment, Budget and Accounts

The day to day work of the Panchayat is done by Secretary of panchayat. The Chief Executive Officer of Zilla Parishad appoints the secretary of Panchayat. His salary is paid from the district fund.

The budget of the village Panchayat is submitted to the Panchayat samiti. It covers opening balance in the fund, estimated income, proposed expenditure and the amount to be contributed to the District Village Development Fund. The sanctioning authority of the village budget is panchayat samiti.

Taxation and Recovery of Claims

The taxes levied by the panchayat are - tax on buildings and lands, betterment charge or the lands benefited from schemes or projects undertaken by Panchayat from 'Village Fund', pilgrim tax, tax on fairs, festivals and other entertainments, tax on bicycles and on vehicles drawn by animals, tax on professions, trades, callings or employments, shop keeping and hotel-keeping, general sanitary cess, general water rate, a lighting tax, fee on markets and weekly bazars, fee on car stands/tonga stands, special water tax for water supplied through pipes, fee for the supply of water from well and tank for purposes other than domestic use and for cattle, fee for temporary occupation on public street, special sanitary cess upon private latrines, fee for cleaning cess pool, fee for grazing cattle, fee on the registration of animals, lump sum contribution by factories in lieu of taxes levied by Panchayat, farming of fees on markets, collection of cess on every rupee of land revenue etc.

Financial Assistance to Panchayats

Gram Panchayat receives financial assistance from the State Government, loan by Zilla Parishad, Equalisation grant, Village water supply fund and District village development fund.

Gram Panchayat-role in the Development of the village

Since the Gram Panchayat controls the village fund, it has an immense role in the Development of the villages. It makes reasonable provision within the village and submits to the Panchayat Samiti for approval. It supervises the village water supply scheme. It makes provision for carrying out within the village any work which promotes health, safety, education, comfort, convenience or social or economic or cultural well-being of the inhabitants of the village.

Gram Panchayat can make provision for any public reception, ceremony or entertainment within the villages or make contribution towards at annual gathering or such other gathering of Panchayats in the district or the state.

It encourages farmers of the village to make use of co-operative societies in increasing and improving

agricultural production. It supervises primary schools situated within the area of its jurisdiction.

Last but not the least, it is duty bound to take measures for the amelioration of the condition of Scheduled Castes and Scheduled Tribes and other Backward Classes and in particular, in the removal of untouchability carry out the directions issued in this regard from time to time by the State Government.

Objectives of the Local Self Government

With a view to promote development of democratic institutions and to secure greater measure of participation by the people in Development Plans and in local and governmental affairs by decentralization of powers and functions, Zilla Parishad and Panchayat Samities (C. D. Blocks) have been established in the district of Maharashtra in the year 1962 under the Maharashtra Zilla Parishad and Panchayat Samiti Act of 1961. The jurisdiction of Zilla Parishad and Panchayat Samiti i.e. C.D. Blocks corresponds to the district and tahsil boundaries except that the statutory towns are not covered by them.

The local self bodies are working as agencies of State Government. The 73rd Constitutional Amendment gave local self bodies the constitutional status. The new power bestowed upon them gave a great impetus to the development plans and its implementation.

Zilla Parishad

The Zilla Parishad has the authority for the purposes of the Act over the area for which it is established. The authorities charged with carrying out the provision of this Act for each district are–

a) The Zilla Parishad

b) Panchayat Samitis

c) The Standing Committee

d) The Subjects Committees

e) Presiding authorities

f) The Chief Executive Officer

g) Block Development Officer

The Zilla Parishad is assisted in its function by number of departments and each department is headed by class I or class II officers of the State Services.

Zilla Parishad consists of councillors directly elected on the basis of adult franchise from electoral divisions in the district for a term of five years. The number of councillors being not more than seventy-five and not less than fifty. Some seats of councillors are reserved for the persons belonging to Scheduled Castes, Scheduled Tribes, Women and Backward Class citizens.

Grants to Zilla Parishad

1. Grant of 7 percent of forest revenue to Zilla Parishad.

2. Purposive grant – State Government pays every year to Zilla Parishad a grant for works and development schemes transferred to Zilla Parishad.

3. Establishment grant – State Government pays by way of establishment grant, the average cost on account of the salaries and allowances.

4. Local cess matching grant – State Government pays a local cess matching grant to be paid to Panchayat Samiti through the Zilla Parishad.

5. Incentive grant – State Government pays to Zilla Parishad an incentive to speedier development.

6. Grants for plan schemes – State Government pays grant for such works and development schemes relating to any subject enumerated in the district List as are included in the development plan of the State.

7. Block grant – State Government pays to each Panchayat Samiti through Zilla Parishad for carrying one such work and development scheme.

The development work of the district is carried out through the various committees appointed for the purpose by the Zilla Parishad. The executive power for the purpose of carrying out the provisions of the Act lies with the Chief Executive Officer, who is appointed by the State Government.

All the development work within the district is carried out by the Zilla Parishad through the District Fund at its disposal.

The Deputy Chief Executive Officer works as the ex-officio secretary of the Zilla Parishad.

Panchayat Samiti

Panchayat Samiti Consists of members elected by direct election, its jurisdiction being the C.D. Block. The term of the members is five years. The Block Development Officer is the ex-Officio Secretary of the Panchayat Samiti. The Chairman and Deputy Chairman are elected by and from amongst the members of the Panchayat Samiti.

The overall plan of work and development schemes within the block is prepared and executed by the Panchayat Samiti.

Devolution of Powers and functions.

As per the 73rd Constitutional Amendment, Articles 243-G and Schedule 11 of the Constitution, 29 subjects are to be transferred to the Panchayat Raj Institution. The State Government implemented this amendment in April 1994 and provisions were made in the State Panchayat Raj Act to transfer these subjects to the Zilla Parishads, Panchayat Samitis and the Village Panchayats.

Source : 1. Bombay Act No. III of 1959 (The Bombay Village Panchayats Act,1958).

2. Maharashtra Act No. V of 1962 (The Maharashtra Zilla Parishads and Panchayat Samitis Act, 1961).

3. 73rd Constitutional Amendment.

Urban Local Bodies

The statutory urban local bodies are cantonments, municipalities or municipal corporations. The urban local bodies elect of councillor from each of the wards and his term is 5 years. The President of Municipal Council or the Mayor of the Corporation as also his Deputy are elected from amongst the elected councillors. The chairman of various committees are also elected from amongst the elected councillors. Although for day to day administration the Chief Officer is responsible in a Municipal Council, he works under the administrative control of the President of Municipal Council. In Corporations a senior I.A.S. Officer is deputed by the State Government as Municipal Commissioner, who is responsible for day to day administration and the executive authority lies in him.

(iv) Physical features

Location and Size

Parbhani district is situated in the central part of Maharashtra and lies between, 18º 40' and 19º 55' north latitudes and 70º 10' and 77º 15' east longitudes. The district is flanked by Hingoli and Jalna districts to the north, Nanded and Hingoli districts to the east, Latur district to the south and Jalna and Bid districts to the west.

Parbhani town is the headquarters of the district, which has a population of 259,329 persons as per the 2001 Census. It is located on the Manmad-Kacheguda railway route, and the Parbhani- Vaijanath railway starts from Parbhani.

The district has an area of 6,214.0 sq.kms. and a population of 1,527,715 persons as per Census 2001. While the area of the district accounts for 2.0 percent of the total area of the State. The districts population constitutes 1.6 percent of the total population of the State. The density of population is 246 persons per sq. km. Among the 35 districts of the State, the district ranks 26th in terms of area, 26th in terms of population and 18th in terms of density.

Physiography

India has been divided into four macro level physical divisions i.e. The Northern Mountains, The Great Plains, The Deccan Plateau, and The Coastal Plains and Islands.

Maharashtra falls under two of these macro level divisions 1)The Deccan Plateau, and 2) The Coastal Plains and Islands. The north-south running Sahyadri range separates these two divisions. The Deccan Plateau lies to the east while the Coastal Plains and Islands lie to the west up to the Arabian Sea. The Deccan Plateau is much larger of the two divisions and includes twenty nine districts of the State while only six districts lie in the Coastal Plains and Islands.

The whole Deccan Plateau is sub-divided into 12 meso regions. Of these, only 2 meso regions i.e. Northern Maharashtra and The Maharashtra Plateau lie within the State. Northern Maharashtra is further divided into 2 micro regions i.e. The Tapi-Purna Valley and The Wardha-Penganga-Wainganga Plain. The Maharashtra Plateau is also further sub-divided into

2 micro regions i.e. The Eastern Plateau and The Western Plateau with Protruded Hills.

The Coastal Plains and Islands is divided into 4 meso regions i.e. Gujarat Region, Western Coastal Region, Eastern Coastal Region and The Islands. Of these, The Western Coastal Region covers Maharashtra. This region is divided into 4 micro level regions i.e. Maharashtra Littoral, Goa Coast, Karnataka Coast and North Kerala Coast. Only Maharashtra Littoral falls within the state of Maharashtra.

The hierarchy of these macro, meso and micro level physiographical divisions within Maharashtra State are as below :

(A) Deccan Plateau :

(i) Northern Maharashtra :

(a) Tapi-Purna Valley : Includes the districts of Nandurbar, Dhule, Jalgaon, Buldana, Akola, Washim and Amravati.

(b) Wardha-Penganga-Wainganga Plain : Includes the districts of Wardha, Nagpur, Yavatmal, Bhandara, Gondiya, Gadchiroli and Chandrapur.

(ii) Maharashtra Plateau :

(a) Eastern Maharashtra : Includes the districts of Aurangabad, Jalna, Parbhani, Hingoli, Nanded, Bid, Osmanabad, Latur, Solapur, Sangli and Kolhapur.

(b) Western Maharashtra with Protruded Hills: Includes the districts of Nashik, Ahmadnagar, Pune and Satara.

(B) Coastal Plains and Islands:

(i) Western Coastal Plains:

(a) Maharashtra Littoral : Includes the districts of Thane, Mumbai (Suburban), Mumbai, Raigarh, Ratnagiri and Sindhudurg.

The entire district of Parbhani falls under eastern Maharashtra the micro level division of the Deccan Plateau and gently slopes towards southeast. The elevation of the district varies from 564 meters in the Jintur Hills to 366 meters on the bank of the Godavari River. The northern part of the district in Jintur tashil is hilly and rugged while the rest of the district is flat and plain in nature. Physiographically, the district can be grouped as (1) Jintur Hills and (2) Godavari river plain.

The Jintur Hills is a chain of residual small hills which spreads in a northwest to southeast direction in Jintur Tahsil. The hills have remnant peaks of rounded forms and small plateau tops. The heights of these hills vary between 500 m. to 564 m. above mean sea level. The hills are partly covered with scrub, grass and medium sized trees. A major part of the land is given to sheep and cattle grazing though small belts of dry cultivation occur along stream courses.

The area drained by Kopra and Dudhana, the tributaries of the Purna River and by Godavari is plain in nature and descends from 450 m. near the hills in the north to 366 m. near the bank of the Godavari River in the southeast. In general, this area slopes towards east. This plain covers a major part of the district spreading over the tahsils of Sailu, Pathri, Manwath, Sonpeth, Parbhani, Purna, Gangakhed, Palam and parts of Jintur. Dudhana and Godavari Rivers in the district have intensive erosive action along the banks. They have deeply entrenched and meandering courses which make canal irrigation difficult. This area has dry crop cultivation like cotton, jowar and bajara. In addition, wheat, pulses, oilseeds and some sugarcane is also grown.

Drainage

The district as a whole belongs to the Godavari drainage system. The river Purna is the main tributary of the Godavari in the district. Which rises in the Ajanta Range about 56 kms. north of Aurangabad City. It enters the district near Wazar Bk. Village of Jintur tahsil and forms the north and north-eastern boundary of the district. It flows south-eastwards and after Siddheshwar reservoir turns to the south till it meets the Godavari River. Kopra River, which originates in Jintur Hills joins the Purna on its right bank near Sawangi village of Parbhani Tahsil. The Purna River has a length of about 145 Kms. in the district. It has a deeply entrenched and meandering course.

The Dudhana originates in Khuldabad-Mahismal range of Aurangabad District and enters in the district near Karajkheda village of Sailu Tahsil. It has a length

of about 80 Kms. before it joins the Purna near Nandgaon Bk. Village of Parbhani Tahsil. Kastura Nadi is a tributary of Dudhana River, which also joins it near Gagalgaon village. Gully erosion, uneven surfaces furrowed by large and small streams, meandering water courses are the characteristic features of the Dudhana River.

The Godavari originates in the Sahyadri range near Trimbak in Nashik district. Within the district it has a length of about 79 km but the direct drainage is only a narrow belt of about 16 km. width on either side. The river has a wide meandering course with high alluvial banks that are crumbling under gully erosion .The deeply entrenched course of the river makes canal irrigation difficult. Pingalgad, Khadki, Indrayani, Ashti and other small streams join the Godavari on its left bank. All of these streams are seasonal in nature. On the right bank Borna, Macchili, Galati and Dhond, which are perennial in nature, meet the Godavari River.

The important streams are all direct tributaries of the Godavari and drain and rich agricultural area of Gagankhed tahsil. They are mostly perennial and derive their source waters from the Balaghat range in the South.

Climate

In general, the district experiences dry climate throughout the year except during the south-west monsoon season. The year may be divided into four seasons. The cold season from December to February is followed by the hot season from March to May. The south-west Monsoon season starts from June and ends in September. October and November are treated as the post monsoon season.

The average annual rainfall in the district is 773.50 mm. and most of the rainfall is received during the south west monsoon season. The variation in rainfall from year to year is fairly large.

The period from March to May is one of continuous increase in both day and night temperatures. May is generally the hottest month of the year with the mean daily maximum temperature at 42.4 degrees centigrade. With the onset of the southwest monsoons by the mid of June, temperatures fall appreciably and weather becomes pleasant till the end of the monsoon season. After the withdrawal of the monsoon, day temperatures increase slightly and a secondary maximum is reached in October. By the end of November temperatures fall rapidly. December is the coldest month of the year with the mean daily minimum temperature at 14.9 degree centigrade. Sometimes, in association with cold waves over northern India, the minimum temperature may drop to 5 or 6 degrees centigrade.

In the monsoon season, the air becomes humid and the skies are heavily clouded, while during the rest of the year the air is dry and skies are clear or lightly clouded. Winds are generally light to moderate with some increase in force in the later part of summer and during the monsoon months.

Natural Wealth

Minerals

Geologically, the district of Parbhani consists of Deccan Traps with inter-trapean beds, which are generally barren of any economically useful and important minerals. Being dense, hard and compact in nature, these trap rocks are used as building stones, road metal, railway ballast and as an aggregate for concrete mixtures. Small irregular pieces of kankar are found scattered in the soil which are locally burnt for lime.

Erosive agents and weathering together have formed good fertile soils near the river beds.

Fisheries

Fishing in the district is restricted to rivers, tanks and reservoirs. Fishing in rivers and tanks is done with cast nets, drift nets, drag nets and hook and lines. The chief fishing communities are Kahar bhoi, Pratikwar, Bhoi, Macchindva bhoi, Nilwar bhoi and koli. Except in the villages situated along the banks of the Godavari, the fishermen population in the district is scattered.

Bam wambat, Tambu, Dhok, ,Murrel , Tambhir and Singhi are some of the commercially important varieties of fish caught in the district. Fast growing varieties of major carps like Rohu, Catla and Mrigal are imported from Kolkata and are stocked in reservoirs and Tanks so as to augment the fish supply. This has provided as additional source of gainful employment to the fishermen in the district.

Soil and cropping pattern

The soils of the district are mostly black which can be divided into two broad groups viz. (i) light to medium black soils and (ii) medium to deep black soils. The northern up-ghat areas of Jintur tahsil have light to medium black soils which are sandy loam in texture, brownish black in colour and underlaid with murum derived from the basaltic rocks. This type of the soils is also found in southern part of Gangakhed and Palam tahsils. These soils are more suitable for Kharif crops like Jowar, Bajri, Groundnuts etc.

The central portion of district occupying Parbhani, Manwath , Purna, Pathri Sailu, Sonpeth and northern parts of Gangakhed and Palam have medium to the black soils which vary in texture from clay to clay loams. These soils are retentive in moisture and rich in lime contents having a depth varying between five to thirty feets. It is a rich fertile black soil and occurs in river valleys especially the river valleys of the Godavari and its tributaries the Dudhana and the Purna. These soils suite both Kharif and Rabi crops. Wheat, Jowar, Cotton and Rice are the main crops grown here.

Land and Land Use Pattern

The Ministry of Food and Agriculture, Government of India has recommended a standard pattern of land use classification for the maintenance of records. Columns 19 – 23 of the village directory give land use pattern in each village in the district. The data furnished here are based on the village records and pertain to the year 1999.

Forest

This includes all land classified as forest under any legal enactment dealing with forest or administered as forest, whether state owned or private and whether wooded or simply maintained as forest land. Within the forest area itself there may be occasionally cultivated patches or grazing lands, but such area are shown under column 19 as forest. The process of regularization of land grants and effecting relevant changes in the basic records of survey and settlement are somewhat protracted and time consuming. Therefore the information based on records is in some cases at least, likely to be different when compared with the actual field situation.

The forest produce consists of teak, tirman, salai, palas, khair and babul. The forests have also large grassy areas. Kusat and shada species of grass are well represented.

Irrigation by Source and Unirrigated land

Column 20 and 21 of the Village Directory give all the agricultural land and when added together would correspond to the net area shown plus the current and other fallow lands. Area shown more than once during the same year, if any, in the village is counted only once under this column. In column 20 source wise break-up of the irrigated area is furnished by using abbreviation. All lands that are lying uncultivated as fallow for more than 5 years in succession are recorded as permanent fallow (Cultivable waste) and are covered under column 22.

The Concept of irrigation implies the existence of source of water supply within a reasonable distance and an arrangement to regulate the supply of the water according to the day-to-day needs of the crops raised in these fields. Naturally therefore all areas, which are cultivated under purely rain fed conditions, are treated as unirrigated lands.

Animal Husbandry

As per sixteenth Quinquennial census of livestoack of 1997, the information on important number of livestock and livestock indicators are given below.

Statement showing no. of Livestock (Position as on 15th Oct. 1997).

1)	Total Cross bred/Indigenous Cattle	765,120
2)	Total Buffaloes	203,130
3)	Total Goats	400,870
4)	Total Sheep	40,636
5)	Total Pigs	19,431
6)	Total Equine	3,280
7)	Total Camel	31
8)	Total Rabbits	16
9)	Total Livestock (excluding dogs)	1,432,514
10)	Total Poultry (including Ducks)	451,708

Source: Sixteenth All India Livestock & Farm Equipment Census 1997.

The total livestock (excluding dogs) are 1,432,514 and total poultry (including ducks) are 451,708 in the district. Out of the total livestock, the total crossbred/ indigenous cattle are 765,120, total buffaloes are 203,130, and goats 400,870, sheeps 40,636, pigs 19,431, equine 3,280, camels 31 and rabbits are 16.

Statement showing Selected Livestock indicators (Position as on 15th Oct. 1997).

	Category	Value
1)	Density of Livestock population (per sq.km.)	130
2)	Average Livestock per village	975
3)	No. of livestock per thousand human population	677
4)	No. of in-Milk cows per thousand human population	56
5)	No. of in-Milk buffaloes per thousand human population	31
6)	No. of poultry fowls per thousand human population	213
7)	No. of Bullocks and male Buffaloes per hundred hectares of gross cropped area	33
8)	No. of tractors per thousand hectares of gross cropped area	1
9)	No. of Veterinary Institute per lakh livestock	11

Source: Sixteenth All India Livestock & Farm Equipment Census 1997.

The density of livestock population per sq. km. works out to 130 while average livestock per village is 975. For every thousand human population there are 677 livestock, 56 in-milk cows, 31 in-milk buffaloes and 213 poultry fowls. While there are 33 bullocks and male buffaloes per hundred hectares of gross cropped area and 1 tractor per thousand hectares of gross cropped area, the number of Veterinary Institutes per lakh livestock has reported to be 11.

Industry

Industrially Parbhani district is however underdeveloped district in the state. Due to direct linkage with railway, the district is gradually contributing in the development of industries predominance of agricultural production. Parbhani is an industrially backward district. Ginning and pressing is the important industry followed by oil mills. Other servicing and processing units in the district are wool weaving, leather goods, brick making, poltery making, gur making and oil ghanies. There are industrial estates in Parbhani and Sailu. For small scale industries Khadi Gramodyog Development Corporation is functioning.

Trade and Commerce

The chief commodities of export from the district are jowar, other food grains, cotton bales, sweet oil, chillies, bananas, gur and udid etc. The export products are collected at certain important centres in the district and then distributed to other markets and cities. The district imports main articles such as raw cotton, sugar, cloth, groundnuts, salt, steel, copper, brass, pulses, rice and wheat etc. Most of these goods are imported from Jalna, Nanded and Bombay. Parbhani and Sailu are important trade centres.

Transport

Number of Motor Vehicles registered in the district (as on 31.03.1999)

Motor Vehicles 1999		
Item		No. of Vehicles
1	2	
1	Buses	433
2	Cars & Station Wagons	826
3	Jeeps	2,553
4	Taxies	181
5	Autorickshaws	929
6	Mopeds	11,120
7	Scooters	4,813
8	Motor Cycles	14,007
9	Total Goods Vehicles	1,873
10	Tractors	2,004
11	Trailors	1,701
12	Others	15
	Total	**40,455**

(Source: Transport Commissioner Office and figures of original Parbhani district.)

It may be seen that the district had 14,007 Motor Cycles, 11,120 Mopeds and 4,813 scooters. There were 433 buses, 826 Cars and Station Wagons, 2,553 Jeeps, 181 taxies and 929 autorickshaws, 1873 total goods vehicles. Besides, these 15 other modes of transport, the district also had 2,004 tractors and 1,701 trailors.

Electricity and Power supply

All the eight towns and 824 (99.3 percent) villages are enjoying the power supply facility in the district.

(v) Census concepts

Building :

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses :

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses :

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 metres and a breadth of at least 1.5 metres and a height of 2 metres. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house :

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership

flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000.

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:

Scheduled Castes

1) Ager
2) Anamuk
3) Aray Mala
4) Arwa Mala
5) Bahna, Bahana
6) Bakad, Bant
7) Balahi, Balai
8) Basor, Burud, Bansor, Bansodi
9) Beda Jangam, Budga Jangam
10) Bedar

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops–tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate :

Percentage of workers (main + marginal) to total population.

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years.

Sex -ratio :

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which

are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine andMethod of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging.This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid–year Population.}} \times 1{,}000$$

Crude death rate(CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid–year Population}} \times 1{,}000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1{,}000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1{,}000$$

General fertility rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age group (15-49) years}} \times 1{,}000$$

General marital fertility rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1{,}000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = 5 \times \frac{\sum_{15\text{-}19}^{45\text{-}49} ASFR}{1{,}000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = 5 \times \frac{\sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1{,}000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age group}} \times 1{,}000$$

q1 Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 Probability of dying between birth and age 2.

q5 Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early neo- natal mortality rate :

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late neo-natal mortality rate :

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

Post neo-natal mortality rate (PNMR) :

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1,000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Still birth rate (SBR) :

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100,000$$

Eligible couple (Couples per 1,000 population) :

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child woman ratio (0-4) :

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9) :

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that laste for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA/Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population are classified as Class I UAs./ Towns. These Class I UAs. / Towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings – Population, its distribution

Brief Note on Census

Census taking is a massive operation carried out in a short span of time with the active participation of a veritable army of enumerators. The reference moment for the 2001 Census was the 00.00 hrs. March 1, 2001 i.e. the census provides a snapshot of the population of the country, as on 1st march 2001. Actual enumeration was spread over a period of 20 days from 9th February 2001 to 28 Feb.2001, followed by a rivisional round up to 5th March 2001 for updating of the population figures with reference to 00.00 hours of March 1, 2001. Household schedule having 23 questions regarding each and every person in the family is newly introduced in this Census. These questions are mainly self-explanatory and answers are in code language. Question No. 1 to 15 are related to general and socio-cultural characteristic individual. Question 16 to 20 are about economic activity of the person. Question 21 and 22 are about migration and question no. 23 is for women, related to fertility. In addition one question is added in 2001 census which is related to household engaged in cultivation/plantation in part III.

As a prelude to the actual Census, the urban and rural areas were identified and listed out in respect of each administrative unit. The Director of Census Operations has prepared the list of urban area (which is generally referred to as town list) and simultaneously, a list of villages. These lists form the basic frame for the organization of the Census Operations. Thereafter geographical area that could be conveniently covered out to constitute the enumerator's block.

The next major step was the house listing Operation that was carried in the state during May-June 2000. Thereafter, in order to adhere to the prescribed workload norms, the actual Census enumeration's blocks were carefully demarked on the basis of the layout sketches and the notional maps prepared was also utilised to collect wealth of information on items such as predominant construction material used for houses, amenities available to the Census households, number of living rooms etc. Information regarding number of bedrooms in the household, if couples having separate room, availability of amenities like telephone, TV, Car/Scooter was asked first time in this Census. From this information we can have an idea of standard of living of the people in the country.

In Maharashtra, tahsil and the C.D.Block are co-terminus and therefore the data shown in tables on C.D.Blocks and the rural areas shown in the tables on tahsils are same.

Distribution of Population in Rural-Urban Areas

According to Census 2001 the district Parbhani has a total population of 1,527,715 0f which 780,191 are males and 747,524 are females. The population of the district in 2001 Census is (18.1 percent) higher than the districts population, (1,293,104 persons) in 1991 Census. The Parbhani tahsil is most populous (460,778 persons). Other tahsils in order of population size are tahsil Jintur (234,405 persons), tahsil Gangakhed (164,080 persons), tahsil Purna (162,306 persons), tahsil Sailu (139,352 persons), tahsil Pathri (110,218 persons), tahsil Manwath (97,024 persons), tahsil Palam (92,804 persons) and tahsil Sonpeth (66,748 persons).

An examination of Rural-Urban distribution of population reveals that 1,042,529 persons constituting 68.2 percent of the total population are concentrated in rural areas, while 485,186 persons forming 31.8 percent are living in urban areas of the district. Although in absolute numbers, the number of people living in rural areas 929,064 persons in 1991 which increased to 1,042,529 persons in 2001.

In the district there are eight tahsils viz. Sailu 28.6 percent, tahsil Jintur 16.3 percent, tahsil Parbhani 56.3 percent, tahsil Manwath 30.1 percent, tahsil Pathari 29.0 percent, tahsils Sonpeth 19.5 percent, tahsil Gangakhed 24.6 percent and tahsil Purna 20.5 percent having urban population and remaining one tahsil have nil urban population.

The highest percentage of urban population is seen in tahsil Parbhani 56.3 percent, while lowest percentage is in tahsil Jintur 16.3 percent. Tahsil Palam have nil urban population.

TABLE 1 : DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001						1991	2001
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban		
1	2	3	4	5	6	7	8	9	10	11	12	13

District Total :		**1,293,104**	**929,064**	**364,040**	**1,527,715**	**1,042,529**	**485,186**	**18.1**	**12.2**	**33.3**	**28.2**	**31.8**

According to Census 2001 the district Parbhani has a total population of 1,527,715 of which 780,191 are males and 747,524 are females. The population of the district in 2001 Census is 18.1 percent higher than the district population 1,293,104 persons in 1991 Census. The average growth rates for the rural and urban areas of the districts are (12.2 and 33.3 percent) respectively. In the rural areas of the district, four tahsils have growth rates above the districts rural average (12.2 percent) and the highest growth rate is found in Purna tahsil (20.1 percent) and lowest in Pathri tahsil i.e. (0.7 percent). Of the nine tahsils of the district, urban growth rate of Pathri tahsil is the highest (56.4 percent) followed by Gangakhed (46.2 percent). Parbhani tahsil (36.3 percent) and Jintur tahsil (34.8 percent) are above the district urban average growth rate (33.3 percent). The percentage of urban population to total population is an indicator of the level of urbanization of an area. Parbhani is the most urbanized tahsil with (56.3 percent) population being urban, while Jintur tahsil has (16.3 percent) population in urban areas. Parbhani is the only tahsil having proportion of urban population above the district average (31.8 percent). The proportion of urban population in the district has increased from (28.2 percent) in 1991 to (31.8 percent) in 2001. While tahsil Palam has no urban population, Parbhani tahsil has 56.3 percent urban population, Manwath tahsil 30.1 percent, Pathri (29.0 percent), Sailu tahsil (28.6 percent), Gangakhed tahsil (24.6 percent), Purna tahsil (20.5 percent), Sonpeth tahsil (19.5 percent) and Jintur tahsil (16.3 percent) urban population in the district.

TABLE 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200		Number and percentage of villages

Note : Percentages are given in brackets.

Table 2 gives the percentage distribution of inhabited villages by population size ranges in each tahsil in 2001.

Out of the 830 inhabited villages 24 villages (2.9 percent) are small sized with population below 200, while in the size of 200 to 499 there are 162 villages (19.5 percent), in the size class 500-999 there are 254 villages (30.6 percent), 261 villages (31.4 percent) are in the size class 1000-1999, 115 villages (13.9 percent) are in the size class 2000-4999, 12 villages (1.4 percent) are in the size class 5000-9999 and only 2 villages (0.2 percent) having population 10000 and above. For a broader generalization villages have been further grouped as small size (below 500), Medium size (500-1999), large size (2000-4999) and exceptionally large sized (5000+). Within the district small sized villages with less than 500 inhabitants together account for 22.4 percent of the total inhabited villages covering (6.0 percent) of the rural population of the district. Medium sized (500-1999) villages contribute (62.0 percent) of the total inhabited villages covering (52.7 percent) of the district rural population; large sized (2000-4999) are 13.9 percent of the total inhabited villages with (31.2 percent) of the rural population and exceptionally large sized (5000+) are 1.6 percent of the total inhabited villages and cover only 10.0 percent of the rural population of the district.

Within nine C.D. Blocks of the district, percentage of less than 200 sized villages is the highest in Purna C.D. Block (5.4 percent) and the lowest in Palam C.D. Block (1.2percent). The percentage of 200-499 size villages is highest in Sonpeth C.D. Block (29.8 percent) and lowest in Pathri C.D. Block (10.7 percent). The percentage of 500-999 sized villages is highest in Palam C.D. Block (38.3 percent) and lowest in Manwath C.D. Block (16.7 percent). The percentage of 1000-1999 sized villages is highest in Manwath C.D. Block (46.3 percent) and lowest in Sonpeth C.D. Block (19.3 percent) and 2000-4999 sized villages are the highest in Purna C.D. Block (20.7 percent) and lowest in Sailu C.D. Block (8.6 percent). The percentage of 5000-9999 sized villages is highest in Parbhani C.D. Block (3.9 percent) and lowest in Gangakhed C.D. Block (1.0 percent). The percentage of 10000 and above sized villages is the highest in Palam C.D. Block (1.2 percent) and lowest in Jintur C.D. Block (0.6 percent).

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town	
1	
(a) New	
(i) Statutory town -- Nil	
(ii) Census town -- Nil	
(b) Denotified	
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns	Nil
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria	Nil
(iii) Census towns of 1991 census are notified as statutory town in 2001 census	Nil
(c) Declassified	Nil
(d) Wholly merged with other town(s)	Nil

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

There are no new towns, no denotified, no declassified and no wholly merged with other town in 2001 census.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	3	0.4	279	0.0
11-20	3	0.4	183	0.0
21-50	10	1.2	1,742	0.2
51-100	92	11.1	50,505	4.8
101-200	486	58.6	558,822	53.6
201-300	191	23.0	322,596	30.9
301-500	42	5.1	99,810	9.6
501 +	3	0.4	8,592	0.8
Not known	0	0.0	0	0.0
District Total :	**830**	**100.0**	**1,042,529**	**100.0**

Population Density (Rural) of the district : 170

Table 4 gives the distribution of villages by population ranges. For convenient understanding of patterns villages have been grouped under eight different density ranges. Villages distributed by density ranges indicate that those with medium densities in the range of 51 to 200 account for 69.7 percent of the inhabited villages. Very low densities of 20 and below persons per sq.km. are noted in 6 villages (0.8percent); in the range of 21 to 50 there are 10 villages (1.2percent); and only 3 villages (0.4percent) have very high density with more than 500 persons per sq.km.. The density 201 to 500 is seen in 28.1 percent of the total inhabited villages.

Table 5 : SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	978	1,003	862	996	996	993
1911	966	1,000	796	993	994	973
1921	950	994	776	978	982	946
1931	947	987	790	963	971	917
1941	949	989	810	960	965	930
1951	941	1,000	807	974	978	956
1961	936	995	801	969	978	927
1971	930	985	820	954	966	909
1981	937	987	850	968	980	932
1991	934	972	875	954	966	924
2001	922	960	873	958	968	937

Note: Sex ratio has been defined here as the number of females per 1000 males.

Table 5 shows the sex ratio for the district and the state. Census 2001 recorded a sex ratio of 958 females per 1000 males in the district. This is higher compared to the state average (922). The sex ratio in Parbhani district has remained higher than that of the state since 1901 census. As regards total areas, the sex ratio at the state level declined by 56 points and at district level it declined by 38 points during the last 100 years. Similarly, the sex ratio for the rural areas of the state decreased by 43 points and for the district, it decreases by 28 points during 1901-2001. For the urban area of the state the sex ratio increased by 11 points and for the district it decreased by 56 points during the above period (i.e., 1901-2001).

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Sailu	969	988	923
2	Jintur	968	979	912
3	Parbhani	946	959	936
4	Manwath	982	990	964
5	Pathri	965	974	944
6	Sonpeth	975	985	936
7	Gangakhed	950	950	950
8	Palam	957	957	--
9	Purna	952	954	947
	District Total:	**958**	**968**	**937**

There are 958 females for every thousand males in Parbhani district. The sex ratio varies from 982 in Manwath tahsil to 946 in Parbhani tahsil. It is observed that, the proportion of females in rural areas is higher than that of urban areas. Table 6 gives sex ratio for total, rural and urban areas in each tahsil of Parbhani district.

It is seen from table 6 that the rural sex ratios of the tahsils are between 950 to 990. The sex ratio of tahsil Sailu, tahsil Jintur, tahsil Manwath, tahsil Pathri and tahsil Sonpeth are higher than the district rural average (968). Manwath tahsil has the highest rural sex ratio (990) and Gangakhed tahsil has the lowest sex ratio (950).

In the urban areas, the highest sex ratio is in Manwath tahsil (964) and the lowest in Jintur tahsil (912).

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Sailu	988
2	Jintur	979
3	Parbhani	959
4	Manwath	990
5	Pathri	974
6	Sonpeth	985
7	Gangakhed	950
8	Palam	957
9	Purna	954
	District (Rural) Total:	**968**

Table 7 gives sex ratio by C.D Blocks. Among 9 C.D Blocks in the district, the sex ratio varies from 950 in Gangakhed C.D Block to 990 in Manwath C.D Block. In the district the sex ratio for C.D Block Sailu (988), C.D Block Jintur (979), C.D Block Manwath (990), C.D Block Pathri (974) and C.D Block Sonpeth (985) have the sex ratio above the district average (968) and remaining four C.D Blocks namely C.D Block Parbhani, C.D Block Gangakhed, C.D Block Palam and C.D Block Purna are below the district average.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	3	0.4	725	0.1
700-749	4	0.5	1,566	0.2
750-799	3	0.4	4,124	0.4
800-849	14	1.7	6,583	0.6
850-899	58	7.0	49,187	4.7
900-949	189	22.8	230,080	22.1
950-999	319	38.4	507,072	48.6
1000-1099	218	26.3	233,526	22.4
1100+	22	2.7	9,666	0.9
District Total:	**830**	**100.0**	**1,042,529**	**100.0**

Sex ratio (Rural) for District: 968

Table 8 gives the sex ratio of rural population by ranges. A perusal of the table reveals that 319 villages constituting 38.4 percent of the total inhabited villages covering 48.6 percent of the district rural population has sex ratio in the range of 950-999, while 218 villages forming 26.3 percent of total inhabited villages covering 22.4 percent of the district rural population with 1000-1099, range, The sex ratio for 189 villages (22.8 percent) is in the range 900-949 and it covers 22.1 percent of rural population. The sex ratio for 22 villages (2.7 percent) is in 1100 and above and it covers 0.9 percent of the district rural population. The sex ratio for 58 villages, 7.0 percent is in the range of 850-899 and it covers 4.7 percent of the district rural population. The sex ratio for 21 villages (2.6 percent) covering 1.2 percent of district rural population has sex ratio range 700-849. Only 3 villages (0.4 percent) comes under less than 700 range of sex ratio and it covers 0.1 percent of district rural population.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A./Town	Urban status of town	Sex ratio
1	2	3	4
1	Gangakhed	M Cl	950
2	Jintur	M Cl	912
3	Manwath	M Cl	964
4	Parbhani	M Cl	936
5	Pathri	M Cl	944
6	Purna	M Cl	947
7	Sailu	M Cl	923
8	Sonpeth	M Cl	936
Sex ratio (Urban) for the district:			**937**

According to Census 2001 sex ratio in urban Agglomerations /Towns is 937. Among the eight U.A./ towns the sex ratio varies considerably between 912 to 964. Manwath (MCl) has the highest sex ratio (964), while Jintur (MCl) has the lowest sex ratio (912). The sex ratio in four towns viz. Manwath (MCl) (964), Pathri (MCl) (944), Gangakhed (MCl) (950) and Purna (MCl) (947) respectively have sex ratio above the district average and remaining four towns have below the district average.(Table 9).

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

Serial number	Name of Tahsil	Total/ Rural/ Urban	Total population in 0-6 age group			Sex ratio for 0-6 age
			Persons	Males	Females

		Urban	**76,031**	**39,841**	**36,190**	**908**

Sex ratio of population in the age-group 0-6 for the district is 923. Six tahsils viz. Jintur (939), Sonpeth (937), Manwath (928), Palam (927), Sailu (930) and Pathri tahsil (925) have sex ratio above the district average (923). The sex ratio in Parbhani and Gangakhed tahsils is below the district average. The sex ratio in Purna tahsil is at par with districts average i.e.923.

For the rural areas the districts sex ratio is 929. Four tahsils viz. Sailu (950), Jintur (944), Sonpeth (948) and Gangakhed (930) have sex ratio above the district (rural average (929). The remaining five tahsils have sex ratio below the districts (Rural) average.

For the urban areas the districts sex ratio is 908. Four tahsils viz. Jintur (913), Manwath (960), Pathri (953) and Purna (919) have sex ratio above the district (Urban) average (908) and four tahsils viz. Sailu, Parbhani, Sonpeth and Gangakhed tahsils have sex ratio below the districts (Urban) average. The highest sex ratio of urban population in the age group 0-6 is in Manwath tahsil (960) and lowest is in Sailu tahsil (878).

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group

	District (Rural) Total:	**176,404**	**91,435**	**84,969**	**929**

In the nine C.D Blocks of the district there are 91,435 males and 84,969 females according to 2001 Census. The sex ratio of rural population in the age group 0-6 for the district is 929. Among the nine C.D. Blocks of the district the sex ratio varies between 914 to 950. Sailu C.D. Block has the highest sex ratio (950), while Pathri C.D. Block has the lowest sex ratio (914). The sex ratio of Sailu (950), Jintur(944), Sonpeth (948) and Gangakhed (930) C.D. Blocks are higher than the district rural average (929). The sex ratio of population in the age group 0-6 for C.D Blocks are shown in Table 11.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	57	6.9	5,361	3.0
700-749	30	3.6	4,289	2.4
750-799	58	7.0	10,272	5.8

District (Rural) Total	**830**	**100.0**	**176,404**	**100.0**

Sex ratio (Rural) for District: 929

The sex ratio of rural population for the district is 929. Table 12 gives the sex ratio of rural population in the age group 0-6 by ranges. Villages distributed by ranges of sex ratio shows that 6.9 percent villages have sex ratio in the range below 700. 10.6 percent villages have sex ratio in the range of 700-799; 48.2 percent villages have sex ratio from 800 to 999; 18.7 percent villages have sex ratio in range 1,000-1,099; 15.7 percent of villages is in the last range group 1,100+.

TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Gangakhed (M Cl)	M Cl	6,720	3,540	3,180	898
2	Jintur (M Cl)	M Cl	6,567	3,433	3,134	913
3	Manwath (M Cl)	M Cl	4,472	2,282	2,190	960
4	Parbhani (M Cl)	M Cl	40,165	21,118	19,047	902
5	Pathri (M Cl)	M Cl	5,271	2,699	2,572	953
6	Purna (M Cl)	M Cl	4,825	2,514	2,311	919
7	Sailu (M Cl)	M Cl	5,849	3,114	2,735	878
8	Sonpeth (M Cl)	M Cl	2,162	1,141	1,021	895
District(Urban) Total :			**76,031**	**39,841**	**36,190**	**908**

Sex ratio for 0-6 age-group of U.A/Towns is 908. The sex ratio varies between 878 to 960. Manwath (MCl) has the highest sex ratio (960) and lowest sex ratio (878) is in Sailu (MCl). Among the eight towns of the district four towns have the sex ratio above the district average viz. Jintur (MCl) (913), Manwath (MCl) (960), Pathri (MCl) (953) and Purna (MCl) (919) and remaining four towns i.e. Sailu (MCl), Parbhani (MCl), Sonpeth (MCl) and Gangakhed (MCl) have the sex ratio below the district average.

Census provides the necessary data about the Scheduled Castes and Scheduled Tribes evolving suitable plans for their Socio-economic upliftment and both the planners and the administrators heavily depend on this data. The highlights of 1991 Census as that of the previous Census, is the collection of detailed information on the Socio-economic characteristics of Scheduled Castes and Scheduled Tribes.

As per Census 2001, the Scheduled Castes population in Parbhani district is 152,463, of these 108,900 Scheduled Castes population from rural and 43,563 from urban areas. There are 35,210 Scheduled Tribes population in the district contribute 26,961 population from rural and 8,249 from urban. In other word there are 10.0 percent of population is Scheduled Castes and 2.3 percent of population is Scheduled Tribes. Tahsil Pathri 10.2 percent, tahsil Sonpeth and tahsil Gangakhed (13.4 percent), tahsil Palam (13.6 percent) and tahsil Purna (11.1 percent) having proportion of Scheduled Castes population above the district average 10.0 percent. Tahsil Sailu, tahsil Jintur, tahsil Manwath and tahsil Parbhani have Scheduled Castes population below the district average. In the rural areas, five tahsils namely tahsil Pathri (11.4 percent), tahsil Sonpeth (14.0 percent), tahsil Gangakhed (13.2 percent), tahsil Palam (13.6 percent) and tahsil Purna (11.1 percent) above the district rural average (10.4 percent). Tahsil Sailu, tahsil Jintur, tahsil Parbhani, tahsil Manwath have proportion of Scheduled Castes population below the district (Rural) average.

In urban areas three tahsils namely tahsil Sonpeth (10.7 percent), tahsil Gangakhed (14.0 percent) and tahsil Purna (11.3 percent) have proportion of Scheduled Castes (Urban) population above the district average and tahsil Sailu, tahsil Jintur, tahsil Parbhani, tahsil Manwath and tahsil Pathri have proportion of Scheduled Castes (Urban) population below the district average.

Tahsil Jintur (5.2 percent), tahsil Gangakhed (3.0 percent) and tahsil Palam (3.4 percent) having proportion of Scheduled Tribes population above the district average (2.3 percent). Tahsil Sailu, tahsil Parbhani, tahsil Manwath, tahsil Pathri, tahsil Sonpeth, and tahsil Purna have below the district average. In the rural areas three tahsils viz.,Jintur (5.8 percent), tahsil Gangakhed and tahsil Palam (3.4 percent) having proportion of Scheduled Tribes (Rural) population above the district average and tahsil Sailu, tahsil Parbhani, tahsil Manwath, tahsil Pathri, tahsil Sonpeth and tahsil Purna having proportion of Scheduled Tribes (Rural) population below the district average. In urban areas tahsil Sailu (2.1 percent), tahsil Jintur (1.9 percent), tahsil Pathri (3.0 percent),

tahsil Gangakhed (2.0 percent) and tahsil Purna (2.7 percent) having Scheduled Tribes having (Urban) population above the district average (1.7 percent) and tahsil Parbhani, tahsil Manwath and tahsil Sonpeth having proportion of Scheduled Tribes (Urban) population below the district average.

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C. D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Sailu	99,501	8,223	715	8.3	0.7
2	Jintur	196,293	16,464	11,380	8.4	5.8
3	Parbhani	201,449	17,874	3,319	8.9	1.6
4	Manwath	67,806	6,592	643	9.7	0.9
5	Pathri	78,217	8,880	940	11.4	1.2
6	Sonpeth	53,726	7,544	579	14.0	1.1
7	Gangakhed	123,652	16,333	4,171	13.2	3.4
8	Palam	92,804	12,664	3,178	13.6	3.4
9	Purna	129,081	14,326	2,036	11.1	1.6
District (Rural) Total:		**1,042,529**	**108,900**	**26,961**	**10.4**	**2.6**

Scheduled Castes and Scheduled Tribes constitute 10.4 percent and 2.6 percent of the total population in C.D Blocks respectively.

It is seen from table 15 that the proportion of Scheduled Caste population in C.D Block is much higher (10.4percent) than that of Scheduled Tribe population (2.6 percent) in the district. The proportion of Scheduled Caste population is above the district average in five C.D. Blocks namely C.D Block Pathri (11.4 percent), C.D Block Sonpeth (14.0 percent), C.D Block Gangakhed (13.2 percent), C.D Block Palam (13.6 percent) and C.D Block Purna (11.1 percent) and below in remaining four C.D. Blocks. The highest proportion of Scheduled Castes population is seen in Sonpeth C.D. Block (14.0percent) and lowest in Sailu C.D. Block (8.3percent). The proportion of Scheduled Tribes population is above the district average in three C.D. Blocks namely C.D. Block Jintur (5.8 percent), C.D Block Ganagakhed and C.D. Block Palam (3.4 percent) and below in remaining six C.D. Blocks. The highest proportion of Scheduled Tribes population is seen in Jintur C.D. Block (5.8 percent) and lowest in Sailu C.D. Block i.e (0.7 percent).

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	102	12.3	0	0.0
Less than 5	188	22.7	6,119	5.6
5-10	224	27.0	26,634	24.5
11-20	224	27.0	50,250	46.1
21-30	62	7.5	16,807	15.4
31-40	19	2.3	5,982	5.5
41-50	6	0.7	1,283	1.2
51-75	4	0.5	521	0.5
76 and above	1	0.1	1,304	1.2
District Total :	**830**	**100.0**	**108,900**	**100.0**

Out of 830 inhabited villages, 102 villages do not have Scheduled Castes population. The percentage of Scheduled Castes population in 188 villages is less than 5.0 percent and it accounts for 22.7 percent villages covering 5.6 percent Scheduled Castes population of the district; 224 villages have Scheduled Castes population in range of 5-10 percent and it accounts for 27.0 percent villages covering 24.5 percent of Scheduled Castes population of the district; 224 villages come under 11-20 range accounting for 27.0 percent villages with 46.1 percent of Scheduled Castes population; 62 villages comes under 21-30 range group and it accounts for 7.5 percent of total villages with 15.4 percent of Scheduled Castes population; 19 villages comes under 31-40 range accounting 2.3 percent of total villages with 5.5 percent of Scheduled Castes population; 6 villages comes under 41-50 range and it accounts for 0.7 percent of total villages with 1.2 percent of Scheduled Castes population. Remaining 5 villages comes under 51-75 range and above 76 range accounting for 0.6 percent of total villages covering 1.7 percent of Scheduled Castes population in the district.

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	458	55.2	0	0.0
Less than 5	272	32.8	6,494	24.1
5-10	42	5.1	3,991	14.8
11-20	27	3.3	5,377	19.9
21-30	11	1.3	2,307	8.6
31-40	6	0.7	3,024	11.2
41-50	3	0.4	1,024	3.8
51-75	3	0.4	928	3.4
76 and above	8	1.0	3,816	14.2
District Total :	**830**	**100.0**	**26,961**	**100.0**

It is seen that out of 830 inhabited villages, 458 villages (55.2 percent) of total villages do not have Scheduled Tribes population. The proportion and percentage of Scheduled Tribes in 272 villages comes under less than 5.0 percent range group and it accounts for 32.8 percent of villages covering 24.1 percent of Scheduled Tribes population; 42 villages comes under 5-10 percent range group accounting for 5.1 percent of total villages with 14.8 percent of Scheduled Tribes population; 27 villages comes under 11.20 percent range group and it accounts for 3.3 percent of total villages covering 19.9 percent of Scheduled Tribes population; In 11 villages 1.3 percent of total villages Scheduled Tribes constitute 8.6 percent of their total population are in percentage range of 21-30; Scheduled Tribes concentrated in 6 villages are in proportion ranging from 31-40; 0.8 percent of villages are concentrated in proportion ranging from 41-50 and 51-75 in 6 villages and 8 villages comes under percentage range group 76 and above.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS/TOWNS, 2001

1	2	3	4	5	6	7
1	Gangakhed (M Cl)	40,428	5,641	816	14.0	2.0
2	Jintur (M Cl)	38,112	1,871	708	4.9	1.9

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS/TOWNS, 2001 - (Contd.)

Serial number	Name of UA/Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
3	Manwath (M Cl)	29,218	1,879	454	6.4	1.6
4	Parbhani (M Cl)	259,329	23,047	3,419	8.9	1.3
5	Pathri (M Cl)	32,001	2,412	949	7.5	3.0
6	Purna (M Cl)	33,225	3,761	903	11.3	2.7
7	Sailu (M Cl)	39,851	3,565	832	8.9	2.1
8	Sonpeth (M Cl)	13,022	1,387	168	10.7	1.3
District(Urban) Total :		**485,186**	**43,563**	**8,249**	**9.0**	**1.7**

Scheduled Castes and Scheduled Tribes population constitutes 9.0 and 1.7 percent respectively in urban U.A./ Towns. The proportion of the Scheduled Castes population is higher in three towns namely Sonpeth (MCl) (10.7 percent), Gangakhed (MCl) (14.0 percent) and Purna (MCl) (11.3 percent) compared to the respective district urban average 9.0 percent and the proportion of Scheduled Tribes population higher in five towns namely Sailu (MCl) (2.1 percent), Jintur (MCl) (1.9 percent), Pathri (MCl) (3.0 percent), Gangakhed (MCl) (2.0 percent) and Purna (MCl) (2.7 percent) are above the district average (1.7 percent). The percentage of Scheduled Castes population in Purna (MCl), Gangakhed (MCl), Sonpeth (MCl) is above the district urban average and below in Jintur(MCl), Manwath (MCl), Pathri (MCl), Sailu (MCl) and Parbhani (MCl). The highest percentage of Scheduled Castes is recorded in Gangakhed (MCl) (14.0 percent) and lowest is in Jintur (MCl) (4.9 percent). The percentage of Scheduled Tribes population in Purna (MCl), Sailu (MCl), Pathri (MCl), Gangakhed (MCl) and Jintur (MCl) is above the districts urban average and below in Manwath (MCl), Parbhani (MCl) and Sonpeth (MCl). The highest percent of Scheduled Tribes population is found in Pathri (MCl) (3.0 percent) and lowest in Parbhani (MCl) and Sonpeth (MCl) (1.3 percent).

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

Serial number	Name of C D block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Sailu	1,006	992
2	Jintur	991	989
3	Parbhani	951	1,004
4	Manwath	1,021	972
5	Pathri	1,017	926
6	Sonpeth	992	924
7	Gangakhed	969	909
8	Palam	962	1,008
9	Purna	933	928
District (Rural) Total :		**975**	**971**

The sex ratio among Scheduled Castes vary from 1,021 in Manwath C.D. Block to 933 in Purna C.D. Block. For the district the sex ratio among Scheduled caste is 975. The sex ratio of C.D. Block Sailu, C.D. Block Manwath and C.D. Block Pathri are 1,006, 1,021 and 1,017 respectively. The sex ratio above the district average in five C.D. Blocks namely C.D. Block Sailu (1,006), C.D. Block Jintur (991), C.D Block Manwath (1,021), C.D. Block Pathri (1,017) and C.D. Block Sonpeth (992) and below in remaining four C.D. Blocks.

The sex ratio among Scheduled Tribes vary from 1,008 in Palam C.D. Block to 909 in Gangakhed C.D. Block. For the district, the sex ratio among Scheduled Tribes is 971. There are two C.D. Blocks having sex ratio above thousand. These C.D. Blocks Parbhani (1,004) and C.D. Block Palam (1,008). The sex ratio is above the district average in five C.D. Blocks, C.D. Block Sailu (992), C.D. Block Jintur (989), C.D. Block Parbhani (1,004), C.D. Block Manwath (972) and C.D. Block Palam (1,008) and below in remaining four C.D. Blocks.

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A/Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Gangakhed (M Cl)	960	962
2	Jintur (M Cl)	901	950
3	Manwath (M Cl)	970	900
4	Parbhani (M Cl)	966	940
5	Pathri (M Cl)	925	921
6	Purna (M Cl)	959	938
7	Sailu (M Cl)	979	995
8	Sonpeth (M Cl)	924	1,000
Sex ratio (Urban) for the district:		**959**	**945**

Sex ratio among Scheduled Castes and Scheduled Tribes in urban areas for the district is 959 and 945 respectively. Among the eight towns the sex ratio varies between 901 to 979 for Scheduled Castes. Sailu (MCl) has highest sex ratio (979), while Jintur (MCl) has the lowest sex ratio (901). The sex ratio varies between 900 to 1,000 for Scheduled Tribes. Sonpeth (MCl) has the highest sex ratio (1,000) and the lowest is in Manwath (MCl) (900). The sex ratio is higher than the district (urban) average (959) for Scheduled Castes in four towns namely Sailu (MCl) (979), Parbhani (MCl) (966), Manwath (MCl) (970) and Gangakhed (MCl) (960) and below in three towns. Purna town has sex ratio at par with the district average for Scheduled Castes. For the Scheduled Tirbes the sex ratio is higher than the district (Urban) average in four towns namely Sailu (MCl) (995), Jintur (MCl) (950), Sonpeth (MCl) (1,000) and Gangakhed (MCl) (962) and below in remaining four towns.

Table 21 indicates number and percentage of literates and illiterates by tahsils in Census 2001.

The district literacy rate is 66.1 percent. Literacy rate for males are substantially higher as compared to females in both rural and urban areas. The tahsilwise breakup of the total literacy rates shows that Parbhani tahsil has highest literacy rate of (70.6 percent) and it is also above the districts average of literacy. Palam tahsil has lowest total literacy rate of (62.5 percent). Male and female literates are highest in Parbhani tahsil 82.1 percent and 58.5 percent respectively.

As regards rural areas of the district, the literacy rate is 61.4 percent for the district with male and female literacy rate of 77.0 percent and 45.5 percent respectively. Palam tahsil has highest literacy rate of 62.5 percent and lowest 59.6 percent is in Manwath tahsil. The highest literacy rate for males are 77.8 percent in Purna tahsil and lowest 75.7 percent in Manwath tahsil. Among females the highest literacy rate is seen in Palam tahsil (47.3 percent) and the lowest in Manwath tahsil (43.7 percent).

For urban areas of the district, the literacy rate is 75.9 percent, with male and female literacy rate is 85.1 percent and 66.1 percent respectively. Purna tahsil has higest literacy rate of 78.6 percent and lowest in Sonpeth tahsil 70.6 percent. The highest literacy rate for male literates are 89.4 percent in Purna tahsil and lowest in Gangakhed tahsil 80.9 percent. Among females the highest literacy rate is seen in Parbhani tahsil (68.7 percent) and lowest in Sonpeth tahsil (57.6 percent).

There is significant difference in literacy rate between male and female in all the tahsils. Females are lagging behind males in literacy in all the tahsils, However the gap varies from tahsil to tahsil. The gap in the male and female is 27.6 percent for the district as a whole of the 9 tahsils, gap is most wide in tahsil Palam 30.0 percent and least gap in Parbhani tahsil (23.6 percent).

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS. 2001

Serial number	Name of C.D. Block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates

District (Rural) Total :		**532,161**	**337,569**	**194,592**	**510,368**	**192,160**	**318,208**	**61.4**	**77.0**	**45.5**	**31.5**

The literacy rate for district is 61.4 percent. The literacy rate for males is 77.0 percent and 45.5 percent for females for the District (Rural) areas. Among the nine C.D. Blocks of the district, C.D. Block Palam has the highest literacy rate (62.5percent); male literacy rate is highest in Purna C.D. Block (77.8 percent) and for female literacy rate is the highest (47.3 percent) in Palam C.D. Block. The percentage of literates is above the district average in 5 C.D. Blocks viz. Jintur C.D Block (77.7 percent), Sonpeth C.D. Block (77.2 percent), Gangakhed C.D. Block (77.5 percent), Palam C.D Block (77.2 percent) and Purna C.D. Block (77.8 percent) and lowest in four C.D Blocks for males and for females literacy rate is above the districts average in four C.D. Blocks viz. Sonpeth C.D Block (46.5 percent), Gangakhed C.D Block (46.1 percent), Palam C.D. Block (47.3 percent) and Purna C.D Block (45.9 percent) respectively and below in remaining five C.D. Blocks.

The gap in male-female literacy ranges from 30.0 percent in Palam C.D. Block to 32.4 percent in Jintur C.D. Block.

District(Urban) Total :		**310,375**	**179,145**	**131,230**	**174,811**	**71,317**	**103,494**	**75.9**	**85.1**	**66.1**	**19.0**

The literacy rate for districts urban area is 75.9 percent. The literacy rate for males is 85.1 percent and 66.1 percent for females for district (urban) areas. Among the eight towns of the district, Purna (MCl) has the highest literacy rate (78.6 percent). Male literacy rate is 89.4 percent for Purna (MCl) and female literacy rate is 68.7 percent in Parbhani (MCl). Lowest literacy rate is found in Sonpeth (MCl) 70.6 percent and for males 80.9 percent in Gangakhed (MCl) and for female 57.6 percent in Sonpeth (MCl).

Only two towns have higher literacy rate than the district (urban) average are Parbhani (MCl) (77.8 percent) and Purna (MCl) (78.6 percent) for the district.

The gap in the male female literacy rate is 19.0 percent for the district as a whole. The gap in male and female literacy varies from 16.4 percent in Jintur (MCl) to 25.3 percent in Sonpeth (MCl).

TABLE 25: NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN C.D. BLOCKS, 2001

Serial number	Name of C.D. Block	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate

9	Purna	7,000	4,481	2,519	7,326	2,929	4,397	59.6	74.0	44.2	29.8
District (Rural) Total:		**50,513**	**32,121**	**18,392**	**58,387**	**23,017**	**35,370**	**56.4**	**71.1**	**41.5**	**29.6**

According to 2001 census 50,513 Scheduled Castes persons are literates in the rural areas of the Parbhani district. Of these 32,121 are males and 18,392 are females. It is seen that 56.4 percent of the Scheduled Castes in rural areas of Parbhani district are literates, while among the males the literates constitute 71.1 percent. The literacy rate among females is substantially lower (41.5 percent).

Within district the highest literacy rate is seen in Palam C.D. Block (61.3 percent) and lowest in Sailu C.D. Block (49.8 percent). Also the highest literacy among males is seen in Palam C.D. Block (76.0 percent) and lowest literacy rate Sailu C.D. Block (65.1 percent). Palam C.D. Block is also leading in females literacy (46.2 percent) and lowest in Sailu C.D. Block (34.6 percent).

Among males four C.D. Blocks namely C.D Block Jintur (72.7 percent), Gangakhed (71.5 percent), C.D Block Palam (76.0 percent) and C.D Block Purna (74.0 percent) have literacy percentage is above the district average (71.1 percent) and remaining five C.D. Blocks have below the district average. For females five C.D. Blocks namely C.D. Block Jintur (42.3 percent), C.D Block Sonpeth (42.0 percent), C.D Block Gangakhed (43.1 percent), C.D. Block Palam (46.2 percent) and Purna (44.2 percent) have percentage of literacy above the district average and remaining four C.D. Blocks have below the district average. The gap between male and female literacy rate is 29.6 percent for the district rural areas. The gap varies from 27.5 percent in Sonpeth C.D. Block to 30.5 percent in Sailu C.D. Block.

TABLE 26 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

9	Purna	826	552	274	1,210	504	706	52.5	68.8	35.5	33.3
District (Rural) Total:		**11,878**	**7,804**	**4,074**	**15,083**	**5,872**	**9,211**	**54.5**	**71.0**	**37.7**	**33.3**

According to 2001 census, 11,878 Scheduled tribe persons are literates in the rural areas of the Parbhani district, of these 7,804 are males and 4,074 are females. It is seen that 54.5 percent of the Scheduled tribe in rural areas of the Parbhani district are literates while among the males the literates constitute 71.0 percent, the rate among the females is substantially lower (37.7 percent). Within the district the highest literacy rate is seen in Gangakhed C.D. Block (60.2 percent) and the lowest in Manwath C.D. Block (46.4 percent). The highest literacy among males is seen in Gangakhed C.D. Block (76.4 percent) and lowest in Manwath C.D. Block (60.6 percent). Among females the highest literacy rate is seen in Parbhani C.D. Block (43.5 percent). While Manwath C.D. Block is at the lowest level in female literacy (32.1 percent).

The gap in male-female literacy rate is 33.3 percent in rural areas. The gap varies from 26.3 percent in Sailu C.D. Block to 35.8 percent in Jintur C.D Block.

TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population
1	2	3	4	5
0	28	7.5	118	0.4

		Females	**747,524**	**198,291**	**26.5**	**62,056**	**8.3**	**260,347**	**34.8**	**487,177**	**65.2**

According to 2001 census recorded 36.7 percent of the district population as main workers, 5.6 percent as marginal workers and the remaining 57.8 percent are non-workers. Among the 36.7 percent main workers, male participation rate in the district is 46.4 percent while that of female is 26.5 percent.

The percentage of main workers is highest in Sonpeth tahsil (41.4 percent) and the lowest in Parbhani tahsil (31.5 percent). The sex wise break-up shows that among males and females 2.9 percent and 8.3 percent are marginal workers respectively. It is seen that the percentage of female marginal workers is substantially higher than that of males. The percentage of marginal workers is the highest in Palam tahsil (13.1 percent) and the lowest in Gangakhed tahsil (4.2 percent) among nine tahsils in the district.

The highest percentage of non-workers is seen in Parbhani tahsil (64.2 percent) and the lowest in Palam tahsil (51.8 percent).

2001 census recorded 42.0 percent of the district population as main workers, 7.0 percent as marginal workers and remaining 51.0 percent as non-workers. Among the main workers, male participation rate in the district is 48.9 percent while that of females is 34.9 percent. The proportion of main workers is highest in Manwath (45.9 percent) and the lowest in Palam C.D. Block (35.0 percent). The sex wise

break-up shows that among males and females 3.1 percent and 11.0 percent of population respectively are marginal workers. It is seen that the proportion of female marginal workers is substantially higher than that of males. The proportion to marginal workers is the highest in Palam C.D. Block (13.1percent) and the lowest in Gangakhed C.D Block (4.6 percent). The highest percentage of non-workers is seen in Gangakhed C.D Block (52.9 percent) and lowest in Sailu C.D Block (48.8 percent).

District (Urban) Total :		**Persons**	**485,186**	**121,775**	**25.1**	**12,019**	**2.5**	**133,794**	**27.6**	**351,392**	**72.4**
		Males	**250,462**	**102,612**	**41.0**	**6,272**	**2.5**	**108,884**	**43.5**	**141,578**	**56.5**
		Females	**234,724**	**19,163**	**8.2**	**5,747**	**2.4**	**24,910**	**10.6**	**209,814**	**89.4**

According to 2001 Census the main workers are 25.1 percent, marginal workers are 2.5 percent and the remaining 72.4 percent are non-workers in the district. Among the urban units, Sonpeth (MCl) has the highest (33.7 percent) while Purna (MCl) has the lowest (23.0 percent) work participation rate for main

workers in the district. The work participation rate for main workers in urban areas of the district is 25.1 percent. Out of eight towns in four towns namely Sailu (MCl) (26.2 percent), Manwath (MCl) (28.4 percent), Pathri (MCl) (28.6 percent) and Sonpeth (MCl) (33.7 percent), the work participation rate is above the district average, while the remaining four towns fall below the district urban average (25.1 percent).

It is observed that in the urban areas of the district the proportion of male main workers is considerably higher than that of the female main workers. The same pattern is seen in Parbhani district. The proportions of male main workers in urban areas of the district are 41.0 percent and 8.2 percent for female main workers respectively. Manwath (MCl) has the highest (4.2 percent) while Pathri (MCl) has the lowest (1.8 percent) work participation rate for marginal workers in the district. The work participation rate for marginal workers in urban areas of the district is 2.5 percent. Five towns viz. Sailu (MCl) (2.8 percent), Jintur (MCl) (2.7 percent), Manwath (MCl) (4.2 percent), Gangakhed (MCl) (2.7 percent) and Purna (MCl) (3.6 percent) have above the district average (2.5 percent) and remaining towns have below the district average. The proportion of female marginal workers is slightly lower than males, as the females are attending to one or more economic activities in addition to their household duties, to supplement the family income.

The proportion of female non-workers (89.4 percent) as against male non-workers (56.5 percent) in the district.

Note: Percentage of Workers to total workers are given in brackets.

Table 34 gives the distribution of workers in four fold economic categories as cultivators, Agricultural labourers, Household Industry and other workers in the district. The economy at the district is primarily agricultural as supported by the fact that cultivators (36.9 percent) and agricultural labourers (38.0 percent) together constitute 74.9 percent of the total workers of the district. The agricultural sector has thus absorbed a predominant proportion of working force and only about 25.2 percent of main workers are engaged in non-agricultural activities, as household industry workers and other workers are 1.4 percent and 23.8 percent respectively. The proportion of both cultivators and agricultural labourers differ considerable from tahsil to tahsil. The proportion of cultivators varies between 24.1 percent in Parbhani tahsil to 50.0 percent in Palam tahsil. Similarly for Agricultural Laborers it is 30.1 percent in Parbhani tahsil to 47.1 percent in Sonpeth tahsil. These variations within the district may be due to cropping and land holding patterns. About 75.0 percent of the workers in the district are directly engaged in agriculture as cultivators and agricultural laborers obviously in view of the agricultural economy of the district. 1.4 percent of workers are engaged in household industries. Both for male-female household industry workers are 1.4 percent in the district. Other workers account for 23.8 percent of the population. Among males and females other workers are 34.6 and 7.8 percent percent respectively.

Note: Percentage of Workers to total workers are given in brackets.

Table 35 gives the distribution of workers in four fold economic categories as cultivators, Agricultural laborers, Household Industry and other workers in C.D. Blocks of the district. The cultivator's accounts for 45.5 percent followed by Agricultural laborers 44.2 percent together constitute 89.7 percent of the total main workers of the district. Remaining 10.2 percent main workers are engaged in household indu try and other work.i.e. (1.1 percent) and (9.1 per ent) respectively. The proportion of cultivators varies from 38.4 percent in Pathri C.D. Block and 54.7 percent in Purna C.D. Block. In Agricultural labourers it is 36.3 percent in Purna to 50.5 percent in Pathri C.D. Block of the district. In household industry it is 0.9 percent in Gangakhed C.D. Block to 1.4 percent in Pathri C.D. Block. For other workers it is 7.2 percent in Sailu C.D. Block to 11.2 percent in Parbhani C.D. Block.

Note: Percentage of workers to total workers are given in brackets.

Table 36 gives the distribution of workers in fourfold economic categories as cultivators, Agricultural labourers, Household industry and other workers of U.A./Towns for 2001 census. Cultivator's account for 3.8 percent followed by 14.2 percent Agricultural labourers. They together constitute 18.0 percent of the total main workers of the district(Urban). It is seen that 18.0 percent main workers are engaged in agricultural activities and 82.0 percent main workers busy with household industry and other work. The maximum gap is seen in economic activity in urban areas due to better education and facilities in the district. The proportion of household industry workers and other workers are 2.4 percent and 79.6 percent respectively. The proportion of cultivators varies from 1.4 percent in Parbhani (MCI) to 12.1 percent in Sonpeth (MCI). Similarly in Agricultural labourers varies from 5.5 percent in Parbhani (MCI) to 46.2 percent in Sonpeth (MCI). For the district as a whole male share in agricultural labourers is 8.7 percent against 37.8 percent for females.

The work participation rate is more in rural (49.0 percent) than urban areas (27.6 percent). Similarly between the two sexes the rural – urban differential is larger among females (45.9 percent in rural and 10.6 percent in urban) as compared to males (52.0 percent in rural and 43.5 percent in urban).

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Educational

Out of 830 inhabited villages of the district 822 villages (99.0 percent) in the district, have educational facility and these villages contain 99.9 percent of the rural population of the district. Among the nine C.D. Blocks in the district Pathri and Palam C.D. Block have educational facility available in all inhabited villages. This is followed by Jintur C.D. Block with 99.4 percent and Parbhani C.D. Block with 99.2 percent villages with education facility (Table 37).

Manwath C.D Block is enjoying 99.8 percent educational amenity, Sonpeth C.D Block has 98.8 percent and Gangakhed C.D Block has 99.7 percent, Jintur C.D Block and Purna C.D Block have 99.9 percent of rural population and remaining four C.D Blocks have cent percent rural population enjoying this amenity. (Table-38).

The distribution of villages not having certain amenities arranged by distance ranges from the place where these amenities are available shows that only 9 villages which do not have primary school facility. The students of these 9 villages have to cover a distance of at least 5 kms to reach a place with such facility. There are 443 villages without middle school amenity, of which 273 villages have to cover a distance of 5 Kms., 135 villages within 5–10 Kms. and 35

villages have middle school beyond 10 Kms. 828 villages are not having the degree college amenity, of these, 33 villages have amenity available within 5 Kms., 137 villages within 5–10 Kms. and 658 villages beyond 10 Kms. (Table 39).

According to distance range from nearest statutory town, the education facility is available in 24 (96.0 percent) villages within 5 kms., 313 (98.7percent) villages have educational facility within 5-15 kms., 481 (99.4 percent) villages within 16-50 kms. and remaining four villages having cent percent education facility at a distance of 51 and above Kms. (Table 40).

179 inhabited villages constituting 96.2 percent of the total 186 inhabited villages in population range upto 499 have the educational facility available to them within their revenue limits. All the 261 villages (cent percent) with population size 1,000–1,999, 115 villages (cent percent) with population size 2,000–4,999, 12 villages (cent percent) with population size 5,000–9,999 and 2 villages (cent percent) with population size 10,000 and above population size have the cent percent educational facility within their revenue limits of the village. Out of 254 villages in population size 500– 999, of which 253 villages have the educational facility available, one village does not have the educational facility available within the revenue limits of the village. (Table 41).

Medical

Medical institutions of one or the other type are functioning in 386 (46.5 percent) villages out of 830 inhabited villages in the district. Purna Tahsil has reported the medical facility for 70 villages (76.1 percent) which is higher than the district average (46.5 percent) and 61.5 percent of its population gets the benefit (Table 37).

Medical facilities of any type specified in the village directory is 46.5 percent and it covers 61.5 percent of the rural population having this facility. The villages enjoying this facility through primary health centres, sub centres and dispensaries served not only the resident population of concerned villages but also those residing in surrounding villages. (Table 38)

386 villages out of 830 inhabited villages having medical facility in their respective village limits and 444 villages do not have any type of medical facility. Of these as many as 92 and 144 villages are situated at a distance of less than 5 Kms. with reference to the nearest place with medical facilities such as hospital and PHC respectively . Another 254 and 262 villages are located at a distance of 5–10 Kms. for the same medical facility, but in the case of 463 and 391 villages, the resident have to travel more than 10 Kms. to reach a place with these medical facilities (Table 39).

As per distribution of villages according to the distance range from nearest statutory town, 8 villages having this amenity at a distance within 5 Kms., 147 villages at a distance between 5 to 15 Kms. 230 villages at a distance between 16–50 Kms. and only one village having medical facility at a distance 51 Kms. and above from the nearest statutory town. (Table 40)

According to the population range the medical facility available for 55 villages (29.6 percent) covering population range up to 499; 101 villages (39.8 percent) with population range 500–999; 128 villages (49.0 percent) with population range 1,000–1,999, 88 villages (76.5 percent) with population range 2,000–4,999 and remaining 14 villages covering population range 5,000 and above have cent percent medical facility available within their revenue limits. (Table 41).

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Drinking water

Drinking water amenity available to villages is based on the improved drinking water sourse, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However the concept of improved drinking water is state specific and this is to considered accordingly.

The improved drinking water source is available in 815 villages (98.2 percent) out of 830 inhabited villages. 15 villages have to cover distance range for this amenity.

Postal

As regards rural areas of the district as a whole, the facility of post and telegraph is available to 176 villages (21.2 percent) out of 830 inhabited villages serving 43.9 percent of rural population of the district, within nine C.D. Blocks of the district, the percentage of villages having facility of post and telegraph varies

as 30.4 percent in Pathri tahsil and 14.1 percent in Purna tahsil.

In Jintur tahsil,the post and telegraph facility is available to 53.1 percent of the total rural population. This is followed by Parbhani and Pathri tahsils covering 48.4 percent and 47.4 percent respectively Remaining tahsils have percentage of population below district average.

Postal facilities are not available at all in 665 villages. Out of these 344 villages are situated at a distance of less than 5 kms, 215 villages at a distance between 5–10 Kms. and 106 villages at a distance 10 Kms. and above.

Out of 830 villages 6 villages having postal facility are situated at a distance of within 5 Kms. from the nearest statutory town, 67 villages at a distance of 5–15 Kms. and 103 villages are situated at a distance of 16 to 50 Kms.

Only 5 villages out of 176 villages in population range up to 499 are having postal facility within their revenue limits, 18 villages in 500–999 population range, 55 villages in 1000–1999, 84 villages in 2000–4999 population range and remaining 14 villages having postal facility 5000 and above population range.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available

Telephone

The amenity of telephone is available in 241 villages (29.0 percent) of the district. These villages serve 46.0 percent of rural population of the district; Purna C.D. Block with 67.3 percent has the highest proportion whereas Manwath C.D. Block with 21.5 percent holds last rank. (Table 37), (Table 38).

Telephone amenity is not at all available in 589 villages, Out of these as many as 164 villages are situated at a distance of less than 5 Kms., 131 villages have to cover a distance between 5–10 Kms. to avail the telephone facility. 294 villages have to cover a distance of more than 10 Kms. to get telephone facility. 6 villages out of total 241 villages at a distance of 5 Kms. from the nearest statutory town 96 villages at 5–15 Kms. distance and 139 villages are at a distance range of 16–50. Among 241 villages with the amenity of telephone, 24 villages are having less than 500 population, 132 villages are in the size class of 500–1999, 71 villages are in the size class of 2000–4999 and 14 villages having population of 5000 and above. (Table 41)

Transport and Communications

Transport communications includes bus service, rail facility and navigable waterways. If a bus stop, or a railway station or navigable waterway is located within the territorial jurisdiction of a village it is considered to have been served by such facility even if it is little away from the actual settlement. 588 (70.8 percent) villages have communication facility and it serve 83.7 percent of rural population of the district, 52 villages of Pathri C.D. Block constituting 92.9 percent of villages where communication / Transport amenity is available which have the highest proportion while the palam C.D. Block coverage 36 villages (44.4 percent) holds the last rank (Table 37). Five C.D. Blocks viz., Sailu C.D. Block with 86.6 percent, Jintur C.D. Block with 88.8 percent; Parbhani C.D. Block with 84.9 percent; Pathari C.D. Block with 96.4 percent and Purna C.D. Block with 85.8 percent proportion of rural population above the districts population average 83.7 percent. Pathri C.D. Block has highest proportion of rural population i.e 96.4 percent (Table 38).

Out of 830 inhabited villages 243 villages do not have bus communications amenity. Of these 243 villages, the resident of 160 villages have to cover a

distance up to 5 Kms. to reach a place with such amenity. For 48 villages it is between 5–10 Kms., and for 35 villages it is more than 10 Kms. The availability of this amenity depends upon the location of the village with reference to road (Table 39). 19 villages out of 588 villages having transport communications amenity available at a distance within 5 Kms., 242 villages at a distance of 5–15 Kms., 326 villages at a distance of 16-50 Kms. and only 1 village has this type of amenity at above 51 Kms. from the nearest statutory towns in the district. (Table 40).

Among the 588 (70.8 percent) villages which have the availablility of communication amenity within their respective limits, 86 villages in the population range less than 500, 379 villages with population range 500–1999, 109 villages with population range 2000–4999 and remaining 14 villages fall in the range 5000 and above (Table 41).

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

Banking

The amenity of banking services is available in 50 (6.0 percent) villages out of 830 inhabited villages, serving 19.7 percent rural population at this district. The proportion of villages with bank amenity varies between 7.8 percent of villages in Parbhani C.D. Block to 3.3 percent in Purna C.D. Block.

Out of 830 inhabited villages the people of 172 and 218 villages have to cover a distance upto 5 Kms. for availing the amenity of commercial bank and co-operative bank respectively. For 278 and 296 villages the amenity is available at a distance of 5–10 Kms. and for remaining 340 and 288 villages the amenity is available at a distance at more than 10 Kms. 19 villages are having banking facility at a distance upto 15 Kms. from the nearest statutory town and 31 villages are having the amenity available to the distance range of 16–50 from the nearest statutory town.

In Parbhani district 9 villages having banking amenity are in the population range of 500–1999, 29 villages in the range of 2000–4999 and remaining 12 villages in the range of 5000 and above.

Agricultural Credit Societies

There are 546 villages 65.8 percent of villages having Agricultural credit societies in the district. These villages serve 80.8 percent of the rural

population. The highest proportion of villages (83.6 percent) in the Parbhani C.D. Block which is above the district average (65.8 percent) and lowest i.e. (47.6 percent) in Gangakhed C.D Block. 4 C.D Blocks namely Sailu C.D. Block (86.9 percent), Parbhani C.D. Block (93.3 percent), Palam C.D Block with (86.8 percent) and Purna C.D. Block with (92.4 percent) are having higher proportion of rural population and above the district average (80.8 percent). 284 villages are not having this amenity out of these as many as 170 villages are situated at a distance upto 5 Kms., 66 villages within 5–10 Kms. and 48 villages at a distance of more than 10 Kms. where the amenity is available.

9 villages are situated at a distance of less than 5 Kms. from the nearest statutory town, 535 villages at a distance of 5 to 50 Kms. and only 2 villages are at a distance of 51 Kms. and above.

This amenity is available to 61 villages with population less than 500. 157 villages with population 500-999, 207 villages with 1,000–1,999. 107 villages with population 2,000–4,999 and remaining 14 villages with population 5,000 and above.

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Approach by Pucca Road

Road whether "Pucca or Kuchcha" are the nerve system of a district. They act as a factor for the development and upliftment of the areas. Roads with cement concrete, black top, water bound macadam etc. come under pucca roads and the remaining treated as kuchcha roads.

Pucca road amenity is available to 824 (99.3 percent) out of 830 inhabited villages in the district.

Sailu, Parbhani and Purna C.D. Blocks are having pucca road facility to 92 (98.9 percent), 125 (97.7 percent) and 90 villages (97.8 percent) respectively. Jintur, Manwath, Pathri, Sonpeth Gangakhed and Palam C.D. Blocks having pucca approach road to amenity to all villages (Table 37).

Pucca road amenity served by 99.7 percent of the total rural population of the district. Jintur, Manwath, Pathri, Sonpeth, Gangakhed and Palam C.D. Blocks having cent percent rural population served by this amenity (Table 38).

Of the 824 villages 25 villages at a distance of less than 5 Kms. from the nearest statutory town, 795 villages at a distance of 5 to 50 Kms. to approach nearest statutory town by pucca road and only 4 villages are at distance of 51 and above Kms. from nearest statutory town (Table 40).

The population of 183 villages (98.4 percent) served by pucca road is less than 500 for 252 villages (99.2 percent) in the range of 500–999, 260 villages (99.6 percent) in the range of 1,000–1,999,and remaining 129 villages in the range of 2,000 and above population range the pucca road amenity available to cent percent villages (Table 41).

It may be seen that smaller the population size of the villages lesser is availability of amenity of pucca approach road.

There is an improvement is respect of pucca road facility in rural area. Population size is an important factor directly associated availability of pucca road facility larger the size of a villages. Greater are the chances of its having this facility.

Power supply

824 villages are having power supply amenity in the district. Power supply available to cent percent of villages in C.D. Block Jintur, C.D. Block Manwath, C.D. Block Gangakhed, C.D. Block Pathri and C.D. Block Palam.

The facility of power supply is available to cent percent villages in the population rage 500–999 (254 villages), 2,000–4,999 (115 villages), 5,000–9,999, (12 villages), however small size population range 1–499 (182 villages out of 186), 1,000–1,999 population range (259 villages out of 261) have power supply facility.

It may be summed up from foregoing paragraphs that in respect of availability of different type of amenities and facilities consider the larger villages have an advantage over the smaller ones. Population size and availability of amenities are directly associated with each other.

TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

7	Sailu (M.Cl.)	8
8	Sonpeth (M.Cl.)	8
	Distrct Total :	**16**

In the urban areas of the district, the position of the number of beds per 10,000 population is given in table 45. On an average, there are 16 beds per ten thousand urban population in the district. In Pathri (MCI) only 2 beds in medical institution are available per ten thousand population. Only one town, namely Parbhani (MCI) has more number of beds (24) available than the district average (16).

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Serial number	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Gangakhed	40,428	9,172	22.7
2	Jintur	38,112	300	0.8
3	Manwath	29,218	1,000	3.4
4	Parbhani	259,329	104,573	40.3
5	Pathri	32,001	6,755	21.1
6	Purna	33,225	8,880	26.7
7	Sailu	39,851	3,127	7.8
8	Sonpeth	13,022	697	5.4
District Total :		**485,186**	**134,504**	**27.7**

Table- 46 gives proportion of slum population are 134,504 out of 485,186 district (Urban) population in the towns. In other word the percentage of slum population to total population is (27.7 percent). Parbhani town has maximum slum population (40.3 percent), which is higher than the district average (27.7 percent) and lower in Jintur town i.e. (0.8 percent)

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Gangakhed (M.Cl.)	Cotton Bales Cement Pipes Cotton Seeds Oil	Cotton Jowar Pulses
2	Jintur (M.Cl.)	Single Superphosphate -- --	Banana Sugar Cane Jowar
3	Manwath (M.Cl.)	Kardai Oil Cattle Fodder --	-- Sweet Oil --
4	Parbhani (M.Cl.)	Cement Pipes Cotton Spun Pipes Steel Wires	Cotton Wheat Ground Nut
5	Pathri (M.Cl.)	-- -- --	Jawar Cotton Ground Nut
6	Purna (M.Cl.)	Cotton Bales Groundnut Oil Bricks	Sugarcane Banana Groundnut Oil
7	Sailu (M.Cl.)	Oil Plastic Dal	Oil Plastic Dal
8	Sonpeth (M.Cl.)	Cotton Bales Sweet Oil --	Cotton Bales Sweet Oil --

The chief items manufactured in the district are Cotton bales, Cement pipes, Cotton seeds oil, Single superphosphate, Cattle fodder, Cotton spun pipes, Steel wire, Groundnut oil, Dal, Bricks and Plastic. The chief export items are cotton, Jowar, Pules, Banana, Sugar Cane, Sweet oil, Wheat, Groundnut Oil, Dal, Plastic and Cotton Bales.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

This table gives the distribution of households by tenure status and number of rooms occupied for total, rural and urban areas of the district. This table also gives similar information for Scheduled Castes and Scheduled Tribes households for the district. According to Census 2001 there are 3,779 households having no exclusive room, 136,962 households having one room, 92,848 households having two rooms, 29,583 having three rooms and 20,431 households having 3+ rooms.

Regarding rural and urban areas of the district, there are 3,335 and 444 households respectively having no exclusive rooms; 111,502 and 25,460 households having one room; 64,640 and 28,208 households having two rooms; 16,171 and 13,412 households having three rooms; and 7,917 and 12,514 households having three plus rooms respectively.

Among the Scheduled Castes households, there are 767 households comprising 685 rural and 82 urban households having no exclusive room; 31,536 households comprising 25,125 Rural and 6411 urban households having one room; 13,512 total households comprising 8,140 rural and 5,372 urban households having two rooms; 2,917 households comprising 1,146 rural and 1,771 urban households having three

rooms; and 1,523 households comprising 323 rural and 1,200 urban households having 3+ rooms respectively.

Within Scheduled Tribes households of Parbhani district there are 292 households comprising 270 rural households and 22 urban households having no exclusive room; 6,634 households comprising 5,643 rural and 991 urban having one room; 3,307 households comprising 2,092 rural and 1,215 urban households having two rooms; 934 households comprising 415 rural and 519 urban households having three rooms; and 529 households comprising 154 rural and 375 urban households having 3+ rooms respectively.

TABLE 49 : PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Serial number	District/ Tahsil	Total			Rural			Urban		
		Permanent	Semi-permanent	Tempo-rary	Permanent	Semi-permanent	Tempo-rary	Permanent	Semi-permanent	Tempo-rary

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Note:-

Permanent:-1 Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concreate are used for roof.

Semi permanent:-2 Semi-permanent houses refer to those houses made of other types of materials

Temporary:-3 Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

The total percentage for the three categories viz.Permanent, Semi Permanent and Temportary may not add to 100 percent, the percentage remaining is for the 4th category Unclassified not shown in the table.

This table 49 gives the distribution of households living in permanent, semi permanent and temporary houses in Parbhani district. According to Census 2001 out of total houses of the district; 47.5 percent households are living in permanent houses, 48.0 percent households are living in semi permanent houses; and 4.3 percent households are living in temporary houses, as per defination given in note below the Table No.49. Regarding rural areas of the district, 40.8 percent households are living in permanent houses; 53.8 percent households are living in semi permanent houses; and 5.3 percent households are living in temporary houses. Within the urban areas of the district, 64.6 percent households are living in permanent houses; 33.2 percent households are living in semi-permanent houses and 1.8 percent housesholds are living in temporary houses.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or o utside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Bathroom means bathroom within the house

Toilet means toilet within the house

Drainage means closed and open drainage

The table 50 gives the classification of households having improved drinking water source, Electricity, Bathroom, Toilet and drainage facility available in district. According to Census 2001 the amenity of improved drinking water is available for 238,870 households constituting 84.2 percent of the total households. In rural and urban areas of the district, this amenity is available to 162,784 (80.0 percent) and 76,086 households (95.1 percent) respectively. The amenity of Electricity is being enjoyed 176,772 (62.3 percent) households. In rural and urban areas of the district, this amenity is being enjoyed by 108,646 (53.4 percent) households and 68,126 (85.1 percent) households respectively. The amenity of bathroom is available in 127,947 households constituting 45.1 percent of total households. For rural and urban areas this amenity is available for 71,583 households constituting 35.2 percent and 56,364 households constituting 70.4 percent respectively. The amenity of toilet is available to 72,331 households constituting 25.5 percent of total households. For rural and urban areas, this facility is available for 25,304 household constituting 12.4 percent and 47,027 households constituting 58.8 percent of households respectively. The amenity of drainage is available in 173,358 households constituting 61.1 percent of total households. For rural and urban areas this amenity is available for 110,989 households constituting 54.5 percent and 62,369 households constituting 77.9 percent of total households respectively.

Percentage in brackets

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 51 gives the number and percentage of households by type of fuel used for cooking for Total, Rural and Urban areas of the district. According to Census 2001, of the total 283,603 households, 187,774 (66.2 percent) households used firewood for cooking, of these 151,486 (74.4 percent) rural households and 36,288 (45.3 percent) urban households used firewood for cooking. The crop residue is used for cooking in 41,013 (14.5 percent) households in the district. Of these there are 37,778 (18.6 percent) rural and 3,235 (4.0 percent) urban households used crop residue, for cooking. Cowdung cake fuel is used by 8,921 (3.1 percent), including 8,179 (4.0 percent) rural and 742 (0.9 percent) urban households respectively. Electricity is available for 1,099 (0.4 percent) of the total households. In rural and urban areas 525 (0.3 percent) and 574 (0.7 percent) households respectively enjoy electricity amenity. There are 128 households using coal/lignite fuel for cooking. The rural and urban households using coal/lignite as fuel are 29 and 99 households respectively.

The cooking gas (L.P.G) is available to 25,107 (8.9 percent) total households in the district. In rural and urban areas 2,039 (1.0 percent) and 23,068 (28.8 percent) households respectively avail of this amenity. Bio gas fuel is used for cooking by 404 (0.1 percent) households. In rural and urban areas 153 (0.1 percent) and 251 (0.3 percent) households used this amenity. Kerosene oil is used by 18,394 (6.5 percent) total households, of these 2,962 (1.5 percent) rural and 15,432 (19.3 percent) urban households used kerosene as fuel respectively in 2001. Besides these, 212 (0.1 percent) total households used some other fuel for cooking. In rural and urban areas 180 and 32 households used some other fuel respectively for cooking. 234 households in rural areas and 317 households in urban areas are reported no cooking being done by them.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 52 gives the number of households availing banking services and number of households each of the specified asset, 2001. There are 283,603 households of which 203,565 are rural and 80,038 urban. Of these households, banking amenities available to 118,205 households, of which 84,256 households are rural and 33,949 of urban.

In the district, 46,301 households have radio, transistor; 75,211 households have television; 14,360 households have telephone; 53,417 households have bicycles; 17,704 households posses scooter; 3,097 households have car, jeep or van.

It may be noticed from the information available in the table that a higher proportion of households in the urban areas possess these specified assets. Of the total 283,603 households, 172,406 households possess none of the above specified assets.

(viii) Major Social and Cultural events, Natural and Administrative developments and significant activities during the decade.

The new Hingoli district formed after 1991 census from Parbhani district. Three tahsils and three towns were transferred from Parbhani district to Hingoli district. Five new tahsils viz., Sailu, Manwath, Sonpeth, Palam and Purna alongwith 34 new villages were created after 1991 census. Three villages merged in MCl, of these two villages were merged in Pathri (M Cl) and one village merged in Sonpeth (M Cl).

(ix) Brief description of places of Religious, Historical or Archeological importance in the villages and Places of Tourist interest in the towns of the district.

Parbhani is not a tourist place as such. However there are a few pilgrimage places in the district. Which attract local people only. Thousands of people assembled in these fairs. There is a famous Radhakrishna mandir, which is about 100 years old and is situated on the bank of the river Godavari. The idols of Radha and Krishana are carved out of black stone. The temple was founded by Gopalrao Ranjendra Gangakhedkar. The Gokulastami is celebrated in the temple.

Newly constructed a Saibaba mandir in Pathri attract the people. The fairs in the district are

associated with important cities and religious festivals. Large quantities of agricultural product and other articles of daily use are brought for sale. People buy necessary articles in these fairs.

(x) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district

Major characteristics of the district is agricultural land. Of the total area of the district 70 percent is under cultivation. The district is covered mostly by Daccan trap and hence deposits of any type of minerals are not reported anywhere in the district. This district is famous for jowar and cottan product. Cotton ginning and pressing factories mostly found in Parbhani, Manwath, and Gangakhed tahsils.

Marathi is the local language of the district as well as mother tongue of more than 80percent of the people in the district. Mainly jowar and wheat and gram is the staple food of the people. Gudi padwa, Ram navmi, Hanuman Jayanti, Ganesh chaturthi, Navaratra, Dasera, Diwali, Muharram are the most popular festivals in the district.

Contribution of the District

Parbhani is the place of saints. The district has given well known saints i.e. Saint Namdeo and Saint Janabai and their followers to the nation. The well known personality. Shri Govindrao Nanal a pleader of Parbhani participated in satyagruha in 1938. Agricultural university at Parbhani established in 1972 in Marathwada region and one of the Agricultural University in the state.

(xi) Scope of Village Directory and Town Directory

Information on this aspect is furnished in detail in the village and town directory statements and in a consolidated form in the appendix and also in the tables presented. The non-census information collected at the village level or town level by the Tahsildar/chief officer was scrutinized and verified in each district by the district planning officer / district statistical officer. The Collectors were also requested to once again reverify the data in case serious discrepancies were observed. Logical tests were applied to the data and the officials of this directorate visited the districts to revalidate the data. Besides this, the non-census information was cross-checked with the parent department. For example information on electricity was cross checked with Maharashtra State Electricity Board, that on roads with Public Works Department, on health with the Directorate of Health and so on.

Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village.

The Village Directory format has 23 columns and the details given under each column for the village are as follows:-

Column 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X are included in secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

This column provides data available on medical amenities in the village.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

Column 8 gives information regarding availability of drinking water within the village. In case more than one source is available to the village the same has been indicated.

Column 9 : Post, Telegraph and Telephone

Column 9 provides the postal facilities such as post office, telegraph office, post and telegraph office and telephone connections available in the village.

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc., the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given.

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given.

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded.

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable waterway, the same has been indicated in this column.

Column 14 : Approach to village

Approach to village refers to the state of road leading to village.

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

This column relates availability of Power Supply in the village.

Column 17 : News Paper / Magazine

If a village receives any News Paper/Magazines the same is noted in this column.

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23: Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Unirrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) upto one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department.

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / Non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B List of villages according to the proportion of the Scheduled Tribes to the total Population by ranges.

Town Directory :

The town directory is presented for each town covering different aspects of urban life. In 2001 Census, Statement I – VII have been included for presentation of this data. The data contained in these statements are the area, population in 2001 and past Censuses, growth rates, density, sex ratio, physical aspects of towns, communications, municipal finance, civic, medical, and educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutory notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns the Tahsildar and cantonment executive officers supplied the information.

Statement I-Status and Growth History

Statement I shows the status and growth history of the towns in the district, column 2 in this statement indicates class, name and civic administration status of a town. Class of the town indicated under this column has been introduced to facilitate the analysis of town directory data at the State and National level. Census towns have no urban civic status.

Column 3 indicates location code number of the town, column 4 gives name of tahsil and column 5 shows the name of C.D.Block. Column 6 presents area in Sq. Kms., Column 7 presents number of households including houseless households.

Column 8 to 18 gives population and growth rate of town since 1901 and would help in drawing the trends in their growth rate, Column 19 presents density and Column 20 to 22 presents sex ratio.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV-Civic and other Amenities, 1999

Statement IV provides information on the civic and other amenities available in the town. Total population given under column 3 and Schedule Castes/ Scheduled Tribes population given in column 4 and 5 have been added to help in measuring amenities in respect of population size of the weaker sections in the towns. The information on the road length within the town shown under column 6 has been obtained from Municipality.

Column 7 to 12 reflects the information on system of sewerage, number of latrines, and method of disposal of night soil.

Column 13 indicates sources of protected water supply to the inhabitants of the towns. The information on storage and capacity is shown under column 14.

Column 15 gives information regarding availability of fire fighting services. In case it is not available in the referent town, the name of the nearest place where it is available has been mentioned and the distance from the town has also been indicated within brackets. Column 16 to 20 pertains to the number of electricity supply connections available for domestic, industrial, commercial and road lighting points etc.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 and 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, are treated as independent units.

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc.

Column 6 to 9 :

The information on educational facilities is reflected in columns 6 to 9

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

Schools upto class IV are treated as Primary or Elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like Middle schools with Primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P (4), M (3).

Column 15: Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostels if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational and cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded.

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : **Number of Agricultural Credit Societies and Non-Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non-Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area committee etc.

PART A
VILLAGE AND TOWN DIRECTORY

Section I - Village Directory

(a)Note Explaining the abbreviations used in Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X are included in secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12:Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water way they are mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If a village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE

(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A The appendix shows the list of villages according to proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B The appendix shows the list of villages according to proportion of the Scheduled Tribes to the total population by ranges.

(b) List of Villages fully merged in towns and outgrowth at 2001 Census

Serial Number	Name of Villages	Location Code No. 1991	Merged in towns and Outgrowths
1	2	3	4
1	Maliwada	120	Merged in Pathri M Cl.
2	Pathri (Rural)	121	Merged in Pathri M Cl.
3	Sonpeth (R)	229	Merged in Sonpeth M Cl.

Section II - Town Directory

(a) Note Explaining the abbreviations used in Town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows:

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board / Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate Office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Other columns need no comments

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called seperate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) and others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 and 5 : Medical

The data covers all such medical institutions run by or aided by Government / Semi Government / Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family

planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres are treated as independent units and counted separately using following codes:

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution(s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

Column 6 to 9 :Educational

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocation institutions like - Applied Art / Painting college, Pharmacy college, B.Ed. college, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :Higher Secondary / Intermediate/ Senior Secondary /PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

Schools up to class IV are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class IV and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are consdered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like middle schools withs primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats.

The number of working women's hostels if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of the nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities.

Stadium, Cinema, Auditorium / Drama / Community Hall are covered under recreational and cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading Room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies.

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area Committee etc.

STATEMENT
Status and

Serial Number	Class, name and civic status of town	Location code number	Name of Taluk/ Tahsil / Police Station / Island etc.	Name of C.D. block	Area (in sq. km.) 1	2	3	4	5

There is no outgrowth in this district; hence the information is ‘ Nil ’.

PART B
PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the

quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE - II

Fertility and Mortality, 1991 Census

Fertility Levels :

Fertility is a major component of population growth. In the 1991 census, questions on fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year. The first three questions were asked to all ever married women and the last questions related to currently married women the various measures of fertility worked out are based on the F-series Tables of 1991 census pertaining to Maharashtra state and are defined as below.

Mortality Levels

Information on the question on children ever born and children surviving canvassed for all ever-married women have been tabulated by age of the mother. From this estimates of child mortality have been worked out by using brass technique.

ANNEXURE II (i)
Estimates of Child Mortality, 1991

Item		Parbhani District Total	Maharashtra State Total
1	2	3	4
Q1	P	50	74
	M	52	72
	F	48	76
Q2	P	74	79
	M	71	78
	F	76	81
Q3	P	79	86
	M	77	84
	F	80	89
Q5	P	95	91
	M	97	89
	F	93	93

Mortality

The estimates of Child Mortality measures viz., q(1), q(2), and q(3) are lower in case of district compared to the state in 1991, whereas q(5) is higher for the district compared to the state.

ANNEXURE II (ii)
Estimate of Fertility Indicators at district level, Maharashtra, 1981 and 1991

Fertility Measures	Parbhani District 1981	Parbhani District 1991	Maharashtra State 1981	Maharashtra State 1991
1	2	3	4	5
GFR	137	149	134	124
GMFR	157	169	168	157
TFR	4.3	4.5	4.3	3.7
TMFR	4.9	5.3	5.2	5.2
Crude Birth Rate (CBR)	31.1	33.6	31.8	29.8
No. of children ever born per women in the age group 45-49	--	4.6	--	4.2
Mean Age at Marriage	--	16.7	--	17.9
Child Women Ratio	--	64.5	--	49.6

Fertility

A perusal of the various fertility measures namely GFR (General Fertility Rates), GMFR (General Marital Fertility Rate), TFR (Total Fertility Rate), TMFR (Total Marital Fertility Rate), CBR (Crude Birth Rate) for the district vis-à-vis State reveals higher rates for the district as compared to State as a whole. In 1981 the GFR, GMFR, TFR, TMFR and CBR were 137, 157, 4.3, 4.9 and 31.1 respectively as compared with State average of 134, 168, 4.3, 5.2, and 31.8. Similar trend is observed in 1991 Census. In 1991 GFR, GMFR, TFR, TMFR and CBR were 149, 169, 4.5, 5.3 and 33.6 respectively for the district as against the State average of 124, 157, 3.7, 5.2, and 29.8 respectively.

It may be seen that, in 1981 Census the GFR was higher for the district whereas remaining all rates for the district were lower compared to the state rates. But in 1991, the fertility rates are found higher for the district than the State. But the gap in fertility rates between the district and the State has increased in 1991.

Mean age at marriage

Mean age at marriage recorded lower for the district than the State in 1991

Child Woman Ratio

The child woman ratio is found higher for the district compared to the state.

ANNEXURE III

Various Measures of Fertility and Mean Age at Marriage,1991

Serial number	State / District	GFR	GMFR	TFR	TMFR	CBR	No.of children ever born per ever married women in age-group 45-49	Child - Women ratio	Mean Age at Marriage

ANNEXURE - IV

Percentage distribution of Migrants by place of birth/place of last residence, 2001Census

Migrants by place of birth

ANNEXURE IV (i)

Percentage distribution of Migrants by Place of Birth – Maharashtra

Serial number	Place of Birth	2001 Census		
		Person	Males	Females
1	**2**	**3**	**4**	**5**
1	A. Migrants born within the state of enumeration	32,939,182	11,858,299	21,080,883
		80.5	72.3	86.1
	i) Migrants born elsewhere in district of enumeration.	20,718,400	6,618,661	14,099,739
		50.7	40.4	57.6
	ii) Migrants born in other district of the state	12,220,782	5,239,638	6,981,144
		29.9	32.0	28.5
2	B. Migrants born in other states of India	7,756,307	4,427,935	3,328,372
		19.0	27.0	13.6
3	C. Migrants born in other countries	197,731	109,447	88,284
		0.5	0.7	0.4
4	D. Unclassifiable	9	3	6
		0.0	0.0	0.0
	Total Migrants :	**40,893,229**	**16,395,684**	**24,497,545**
		100.0	**100.0**	**100.0**

On the basis of migrants by place of birth, there are 40,893,229 migrants in Maharashtra in 2001 comprising 16,395,684 males and 24,497,545 females. These migrants constitute 42.2 per cent of total population. Male migrants constitute 32.5 per cent of male population while female migrants account for 52.7 per cent of female population.

ANNEXURE IV (ii)

Percentage distribution of Migrants by Place of Birth – Parbhani

Serial number	Place of Birth	2001 Census		
		Person	Males	Females
1	**2**	**3**	**4**	**5**
1	A. Migrants born within the state of enumeration	496,892	126,115	370,777
		98.5	97.4	98.9
	i) Migrants born elsewhere in district of enumeration.	338,140	82,684	255,456
		67.1	63.9	68.1
	ii) Migrants born in other district of the state	158,752	43,431	115,321
		31.5	33.6	30.8

Note : * Hingoli district was included in undivided Parbhani district in 1991 census.

Source: Table C-2 2001 census, Table C-1 of Part IV-A 1991 census.

During the 1991-2001 decade in Maharashtra state, the proportion of never married has decreased both for males and females, the proportions of married, widowed, divorced and separated has increased both for males and females (except widowed males).

The proportion of never married in age group 0-14 and 15-34 has increased in males and females while the proportion of married in the same age group has decreased in males and females.

Since in 1991 Hingoli was included in undivided Parbhani district, the comparison has not been attempted.

Note: # The 1991 Census could not be conducted in 33 villages of Akkalkuwa and Akrani C.D. Blocks of Dhule District. The population of these villages (Persons 16,052 Male 8,200 and Females 7,852) has been obtained from secondary sources and included in the population of district and Maharashtra. However, further details are not available.

* Hingoli district was included in undivided Parbhani District in 1991.

Source: Table C-2 of Part IV-A, C series - Socio Cultural Tables, 1991 census.

When compared to 1991 data, it is found that during the last decade the literacy rate of the state has jumped from 64.9 per cent to 76.9 per cent. Since in 1991 Hingoli was included in undivided Parbhani district, the comparison has not been attempted.

Source : Table 31 of Maharashtra State District Profile 1991

* Hingoli district was included in undivided Parbhani district in 1991.

Marathi is the principal language of the district and is the mother tongue of 79.4 per cent of the district population. In rural areas Marathi speakers account for 89.0 per cent whereas in urban areas 58.9 per cent. Urdu is the second largest language spoken in the district. It

accounts for 13.0 per cent of the total population. The proportion of Urdu speakers is higher in urban areas (30.9 per cent) than the rural areas (4.7 per cent). The third largest language spoken in the district is Hindi, its percentage to the total population is 3.4 and mainly spoken in urban areas by 6.2 per cent, whereas 2.1 per cent in rural areas.

The speakers of the minority languages (Gujarati, Marwari and Telugu) are mainly concentrated in urban areas and the remaining three languages (Banjari, Lamani/Lambadi and Vadari) are concentrated in rural areas.

Since in 1991 Hingoli district was included in undivided Parbhani district, the comparison has not been attempted.
