VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

Samir Kumar Biswas
of the Indian Administrative Service
Director of Census Operations, Maharashtra

Product Code Number

MOTIF

Janjira Fort

The forts unique to Maharashtra are Seaforts. About 165 kms. from Mumbai is the 300 year old Janjira fort, an architectural marvel with its strong walls yet standing intact despite beings battered on all four sides by sea waves and 40 feet high even at full tide. Never conquered by an enemy for over 350 years since its construction by the Ahmednagar rulers under the supervision of their regent Malik Ambar in the 15th century, Janjira is probably the only impregnable fort on the 720 km Maharashtra coastline. Neither the Portuguese nor the British could subjugate the fort. And the Marathas, despite their repeated attempts failed to subjugate the Siddi power. Once the naval headquarters of the saddis of Janjira, today, it is popular for its alluring closeby clear beach Murud with a whispering causuria, coconut of betal palms, where one discovers the charms of island fortress, Janjira.

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and collage), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre),

drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri Samir Kumar Biswas, Director of Census Operations, Maharashtra. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective State Governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated: 17.10.2006

Preface

The Registrar General and Census Commissioner of India has in his foreword to this series of publications, not only provided the reader with the historical background of the District Census Handbooks but has also explained at some length the scope and coverage envisaged for this country-wide project. This volume contains the salient results based on the data gathered at the actual head-count and in addition contain a wealth of other non-census information in respect of Villages and Towns of the District. It is hoped that this volume would go a long way to meet the ever-increasing demand for the micro-level data in this era-planned development.

District Census Handbook of Maharashtra is a joint venture of the Government of Maharashtra and the Census Organization of the Government of India. The design for the 2001 District Census Handbook was evolved centrally by the Census Commissioner, India. In the preparation of the District Census Handbook, the role played by the Census Organization is that of data gatherer. In accomplishing this task we have had the ready and whole-hearted co-operation of the staff at various levels of different departments of the State Government. Much of the data so provided by this field –level officers have been cross checked with the data obtained from various departments and an attempt has been made to reconcile the discrepencies as well. The Village Directory data in addition were also examined logically and possible errors list generated village wise for select facilities was rechecked and revalidated with the revenue officers in the respective Collectorate.

I am extremely grateful to Shri D.K. Sikri, Additional Secretary and Registrar General, India for his guidance in bringing out this publication. I am equally grateful to Shri J. K. Banthia, I.A.S. the former Registrar General and Census Commissioner, India for his constant inspiration, help and guidance at every stage.

I also express my thanks to Dr. R.P. Singh, Dy. Registrar General, India (Map), Shri R.G. Mitra, Dy. Registrar General, India (Census Division), Dr. I.C. Agrawal, Assistant Registrar General (SS Division), Shri S.L. Jain Deputy Director (SS Division), Shri C.S. Arora, Director (EDP), Shri Himakar, Additional Director (EDP), Shri M.R. Balakrishnan, Joint Director (EDP), Shri Anil Kumar, Deputy Director (EDP) and their colleagues for their co-operation and support in bringing out this volume.

Shri Samir Kumar Biswas, IAS held the office of Director of Census Operations, Maharashtra and guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the direction and guidance of Shri Biswas. We would deem it our duty; therefore, to offer him our sincere and grateful thanks for all that he did for this project.

In this Directorate, Shri R.S. Meena, Joint Director guided this project in a meticulous manner and received all help from Dr. S.S. Hiremath, Deputy Director. The DCHB unit was spearheaded by Smt. Sushma Monga, Assistant Director, who was on deputation from the Planning Commission, New Delhi.

The physical features have been concurred by the Map section, after incorporating necessary changes, wherever required. The Maps, inserted are prepared by the Cartography section under the guidance of Shri D.N. Chaurasia, R.O.

I take this opportunity to offer my grateful thanks to all officials in various grades who have been actively involved in voluminous work of compilation and preparation of this volume. The list of the officials of this Directorate closely associated with this work is given separately.

District Highlights – 2001 Census

1) Raigarh is the coastal district of Mahrashtra. There are many small ports on the seashore of the district. Nhava-Sheva is famous international port located at Uran.

2) Rasayani is the main industrial centre developed with large scale public and private limited industries.

3) Thal Vayshet is famous for fertilizer plants.

4) The 125 years old famous observatory is located in Alibag.

5) Pen town is famous for manufacturing of Ganesh idols in Maharashtra. Thousands of Ganesh idols are manufactured every year in this town.

6) Raigarh fort, the capital of Shivaji Maharaj's Kingdom is located near Mahad, where Samadhi of Shivaji Maharaj is existed.

7) 'Harihareshwar' in Shrivardhan tahsil is famous for old Shiv Mandir. It is known as south kashi.

8) The famous Ashtavinayaka mandir, Shri Ballaleshwar temple is located at Pali on Nagothane Khopoli Road in Sudhagad tahsil and Shri Varadvinayak temple is at Mahad village in Khalapur tahsil.

9) Elephanta caves in Uran tahsil are tourists main attractions. Hundreds of people visit these caves daily.

10) Matheran, the hill station of tourists attractions is located in this district.

11) There are 60 uninhabited villages in the district.

12) Alibag tahsil is having the highest number of villages (215) in the district.

13) Raigarh district has higher sex ratio (976) compared to the the state (922).

14) Chanje Village in Uran C.D. Block is the most populated (16,707 persons) and Khanderi village in Alibag C.D. Block is the least populated (9 persons).

15) Ghera Sudhagad village in Sudhagad C.D. Block has the largest area (3757.0 hectares) and Shivasangh village in Alibag C.D. Block has the smallest area (1.0 hectare) among all villages of the district.

Definition of Census Town:

All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns:

i) A minimum population of 5,000;
ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and
iii) A density of population of at least 400 per square kilometer (1,000 per square mile).

	Poladpur (CT)	Urban	4.9	1,083	0	0

Note : Since the source for the total area figures in respect of the State and districts is the Surveyor General while that for the total area figures in respect of the tahsils is the Settlement Commissioner and Director of State Land Records Department the total areas, as also the rural areas, for the tahsils in district, may not add upto the corresponding figures shown against the district.

The population per square kilometer workout from actual area figure upto 2 decimal point and then area presented in 1 decimal.

M.Cl stands for Municipal Council, C.T. for Census Town, M.Corp. for Municipal Corporations, C.B. for Cantonment Board.

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of District Census Handbook

The origin of DCHB lay in the 1951 Census when it began as a joint venture between the Government of India and the State Government. The present volume pertaining to 2001 Census is sixth in series since then. The District Census Handbook (DCHB) is a unique publication from the Census Organisation that, in a condensed form, gives details of the Census and non-Census information from the village level upwards to the district level. It has therefore, been acclaimed & recognised as one of the best source of information next only to the district gazetteer.

The District Census Handbook as published in 1951 incorporated, some basic demographic and economic information of the district, village wise and town wise separately, besides having some important Census Tables. However, it underwent a radical change in the 1961 Census as a much more descriptive account of the district and a lot of non-census information on climate, rainfall, agriculture, industry, education, etc. was added to it besides a number of cross tables being picked up from various series of Census tables. In 1971 the District Census Handbook was divided into Part - A relating to Village and Town Directory, Part - B containing village and town wise Primary Census Abstract and Part - C reported on the administrative aspect and Census tables based on Primary Census Abstract etc. For the state of Maharashtra only Part A and B were published. The 1981 Census again saw the scope of it increasing to contain the data on literacy rate, Primary Health Centers etc. It was published as part A and B and the same pattern was again followed in 1991. However, in 1991 some of the non-census data included viz., information on girls schools, social forestry area etc. as separate Appendices. The DCHB, 2001 Census have been made more informative and exhaustive in terms of coverage and content. The scope of village directory has been broadened by including more types of facilities such as banks, recreational and cultural facilities, newspapers and magazines available in villages. Information on most important commodity manufactured in village and also income and expenditure of Gram Panchayat, wherever possible are provided. Specific details on distances, in case a basic amenity is not available in the referent village is also given. These include distances in respect of availability of primary and middle school and college (in respect of the educational facility), Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre (in respect of the medical facility), Drinking water, Post Office and Phone, Communication, Bank, Credit societies and Recreational facilities. The Non-Census information collected at the village level or town level by the Tahsildar/ Chief officer was scrutinized and verified in each district by the District Planning Officer and District Statistical Officer. The Collectorate were also requested to once again verify this in case serious discrepancies were observed. Logical checks were applied to the data and the scrutiny points which emerged after this exercise were further verified in the field by officials of this Directorate. With reference to the town concerned, the nearest city with 5 lakh and above population has also been given in addition to 1 lakh and above population. The non-census information was cross-checked with parent department also. For example, information on electricity was cross-checked with Maharashtra State Electricity Board, that on roads with Public Works Department, on health with the Directorate of health and so on. It is felt that because of this extra validation, information provided in the 2001 District Census Handbook should become more reliable and can be used without any hitch by Scholars and Planners alike in town directory, information on all types of slums, whether notified/recognised by the respective town authority or not and in respect of all statutory towns irrespective of their class as against

only Class I and Class II towns of the 1981 and 1991 Censuses are provided. The varied basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. A number of tables based on Primary Census Abstract are also made to correlate data with geography of the tahsils. A significant addition in the publication is inclusion of analytical notes as annexures on important aspects concerning Census data on (i) fertility, mortality and migration, (ii) various measures of fertility and mean age at marriage, (iii) percentage distribution of migrants by place of birth/place of last residence, (iv) main religions, (v) marital status of population, (vi) age, sex and education, and (vii) distribution of different mother tongue, all based on 1991 Census. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The Village and Town Directory as also the Primary Census Abstract included in this Handbook should quench the thirst of the planners involved in micro level planning.

(ii) Brief History of The District

The present Raigarh district owes its name from the historical fort of Raigarh and is the erstwhile Kolaba district of Maharashtra State. Raja Shivaji's contact with the present Raigarh district can be traced to the year 1656 when he marched to invade Rairi (Raygad) in the course of his campaign against the More's of Javli, Krashaji and Baji, the two sons of the late Chandra Rav More who had met in death at the hands of Shivaji's officer, together with many women of the family had taken refuge in the fort. Rairi was than a very lofty and almost inaccessible plateau without fortification, which Shivaji later strengthened and named it as Raygad in 1656. Shivaji enriched Raygad with spoils of Surat and made it the seat of his Government in the year 1664, on the death of his father, Shahaji Raje, Shivaji assumed the title of Raja and struck coins. The reorganization of State in 1956, the Kolaba district was incorporated in Mumbai State. Since 1960, it forms a part of Maharashtra State. It is belived that as early as B.C.225 Kolaba parts of Ceul, Mahad Chodegan and Rajpuri in Jangira State were centres of trade. At the time probably the entire Kolaba coast was ruled by a power, which had its way over both the Konkan and deccan.

The word Konkan is of Indian Origin and of considerable antiquity, though the origin of the name has never been sufficiently explained. The seven kingdoms of the Konkan of Hindi mythology are mentioned in the "Hindu History of Kashmir"and are said to have included nearly the whole west coast of India. The Pandavas are said to have passed through this region in the thirteenth year of their exile and had settled in this area for sometime. The Raja of this region Veerat Ray had accompanied them the famous war at Kurukshetra with the Kauravas.

In the 2nd century A.D. the great empire of Maurya annexed the entire Konkan coast. In the middle of the sixth century, king of the Maurya and Nalu dynasties appears to have been ruling in the Konkan. The district of Raigarh was under the Silharas and capital of their kingdom was probably Goa and later it may have been transferred to a more central place in the vicinity of Ratnagiri and Kharepatan. Chandrapur was one of the most ancient towns in Konkan probably fonded by Chandradiya, a son of the Chalukya King Pulkeshin.

The 16th century saw the advent and rise of Portuguese power on the west coast of India and Raigaarh was no exception. The sultan lost hold on the district in 1675 with the rise of Shivaji leading finally into the hands of Marathas. Marathas continued to rule the district till 1817 i.e. when struggle between the British and the Peshvas came to an end and the whole of Konkan was transferred to the British. In 1819, South Kokan was formed as a separte district with headquarters first at Bankot and later at Ratnagiri three Northern sub-divisions were transferred to Thane district in 1830.

The trade in these ports shrank from foreign commerce to local traffic when Kolaba became a part of Gujarat ruled by a local chief.

(iii) Administrative Set up

There were Major changes in the administrative set-up of Maharashtra after the 1991 Census, resulting in increase of five districts. The number of division unchanged it is same in 1991 census and 2001 census. The number of districts rose from 30 in 1991 census to 35 in 2001 census. Mumbai district of 1991

census divided into two forming Mumbai and Mumbai suburban districts. Similarly new districts Nandurbar, Washim, Hingoli and Gondia district were formed bifurcating, Dhule, Akola, Parbhani and Bhandara district respectively. Konkan division includes 6 districts, Nashik division has 5 districts, Pune division has 5 districts, and Aurangabad division has 8 districts, Amravati division 5 districts and Nagpur division 6 districts. Raigarh district is included in Konkan division. Thus for 2001 census the State has 35 districts spread over 6 divisions in Maharashtra. Raigarh district presently consisst of 26 towns, 15 tahsils and 1919 villages spread over Uran (62), Panvel (162), Karjat (176), Khalapur (120), Pen (170), Alibag (215), Murud (73), Roha (168), Sudhagad (98), Mangaon (184), Tala (62), Shrivardhan (79), Mhasla (82), Mahad (182) and Poladpur (86). The following statement indicates the changes which accured after 1991 Census in the number of villages, towns in each tahsil and also the reasons for variation in brief.

JURISDICTIONAL CHANGES DURING 1991-2001

Name of District/Tahsil	No. of villages as per 1991 Census while in Raigarh district	No. of villages as per Adjusted as per 2001 Jurisdiction	No. of villages as per 2001 Census	No. of New villages created	No. of Towns 1991 census	No. of Towns 2001 census	Changes since 1991 and Govt. 13 Mhasla	82	82	82	1	1	1	1 New Village created after 1991 census 1 village merged in another village L.C. No.43 merged in LC. No.31
14 Mahad	183	183	182	--	1	2	1 New Census Town
15 Poladpur	87	87	86	--	--	1	1 New Census Town

For administrative purposes the district is divided into 4 sub divisions viz., Alibag, Panvel, Mangaon and Mahad. Alibag sub-division includes Alibag, Murud, and Pen tahsils, Panvel sub-division includes Panvel, Uran, Khalapur and Karjat tahsils, Mangaon sub-division includes Mangaon, Roha, Sudhagad and Tala tahsils and Mahad sub-division includes Mahad, Poladpur, Mhasla and Shrivardhan tahsils. The District Collector alongwith the District Judge, Superintendent of Police, Chief Executive Officers of the State Government look after the development and regulatory functions in the district. At the tahsil level the Tahsildar, Block Development Officer, Judicial Magistrate, Deputy Engineers and other officers look after their respective department for development and regulatory functions.

Local self Governments, its composition, jurisdiction and the role in the Development.

Gram Panchayat is the lower most rung of the democratic set-up of India. It is governed by the 'Bombay Village Panchayat Act, 1958'. The 'Sarpanch' and in the absence of Sarpanch, the 'Upa-Sarpanch' preside over every meeting of 'Gram Sabha'. At least four meetings of the 'Gram Sabha' are held every year. Sarpanch and Upa-Sarpanch are elected from amongst the elected members of the Panchayat.

73rd Constitutional Amendment

To make Panchayat Raj Institutions strong and to give more power to the people, the State Panchayat Act has been amended in confirmation with the 73 rd Constitutional amendment, which is implemented in the State in April 1994. The Main fundamental provisions of the 73 rd Constitutional amendments are as follows:

1. Constitution of Panchayat Raj Institutions at Village, Intermediate (Development Block) and district level.

2. The seats and the offices of the chairpersons in the Panchayats at all the levels to be reserved in favour of Scheduled Castes and Scheduled Tribes in proportion to the percentage of population of the Scheduled Castes or Scheduled Tribes, as the case may be.

3. The elections to these Panchayat Raj Bodies to be held at the interval of every five years.

4. Powers, Authority and Responsibilities of Panchayats: -

(a)The preparation of plans for economic development and social justice

(b)The implementation of schemes for economic development and social justice as

may be entrusted to them including those in relation to the matters listed in the Eleventh Schedule.

5. An independent State Election Commission to conduct the elections.

6. Powers to impose taxes by, and funds of, the Panchayats.

7. Constitution of Finance Commission by the State at the expiry of every five years term to review the financial position of the Panchayats and to make recommendation regarding distribution of State resources between the State and the Panchayat.

Constitution of Gram Panchayat

The gram panchayat consists of not less than seven and not more than seventeen members elected from wards on the basis of adult franchise. They hold office for a term of five years. Among these a few seats are reserved for persons belonging to the Scheduled Castes, the Scheduled Tribes, Backward Class of citizens and Women, as may be determined by the State Election Commission in the prescribed manner.

Administrative powers and duties of Panchayats

Administrative powers and duties of Panchayats are - to take care of the funds at its disposal, to take over and maintain water supply schemes through "Village Water Supply Fund", to make provision for carrying out within/outside the village any work subject to any directions made by State Government for any scheme or for any purpose sponsored by the Government, to make provision for carrying out work which is likely to promote health, safety, education, comfort, convenience or social or economic or cultural well- being of the inhabitants of the village, to make provision for entertainment, public reception, contribution towards annual gathering, to encourage farmers and co-operative societies to increase and improve agricultural production etc.

Powers and duties of Panchayats in the scheduled areas

Powers and duties of Panchayats are - to obtain from the Gram Sabha a certification of utilization of funds for the plans, programmes and projects, prospecting licence or mining lease for minor minerals, control on erection of building, to remove any obstructions and encroachments upon public streets and open sites etc.

Establishment, Budget and Accounts

The day to day work of the Panchayat is done by Secretary of panchayat. The Chief Executive Officer of Zilla Parishad appoints the secretary of Panchayat. His salary is paid from the district fund.

The budget of the village Panchayat is submitted to the Panchayat samiti. It covers opening balance in the fund, estimated income, proposed expenditure and the amount to be contributed to the District Village Development Fund. The sanctioning authority of the village budget is panchayat samiti.

Taxation and Recovery of Claims

The taxes levied by the panchayat are - tax on buildings and lands, betterment charge or the lands benefited from schemes or projects undertaken by Panchayat from 'Village Fund', pilgrim tax, tax on fairs, festivals and other entertainments, tax on bicycles and on vehicles drawn by animals, tax on professions, trades, callings or employments, shop keeping and hotel-keeping, general sanitary cess, general water rate, a lighting tax, fee on markets and weekly bazars, fee on car stands/tonga stands, special water tax for water supplied through pipes, fee for the supply of water from well and tank for purposes other than domestic use and for cattle, fee for temporary occupation on public street, special sanitary cess upon private latrines, fee for cleaning cess pool, fee for grazing cattle, fee on the registration of animals, lump sum contribution by factories in lieu of taxes levied by Panchayat, farming of fees on markets, collection of cess on every rupee of land revenue etc.

Financial Assistance to Panchayats

Gram Panchayat receives financial assistance from the State Government, loan by Zilla Parishad, Equalisation grant, Village water supply fund and District village development fund.

Gram Panchayat-role in the Development of the village

Since the Gram Panchayat controls the village fund, it has an immense role in the Development of the villages. It makes reasonable provision within the village and submits to the Panchayat Samiti for approval. It supervises the village water supply scheme. It makes provision for carrying out within the village any work which promotes health, safety, education, comfort, convenience or social or economic or cultural well-being of the inhabitants of the village.

Gram Panchayat can make provision for any public reception, ceremony or entertainment within the villages or make contribution towards at annual gathering or such other gathering of Panchayats in the district or the state.

It encourages farmers of the village to make use of co-operative societies in increasing and improving agricultural production. It supervises primary schools situated within the area of its jurisdiction.

Last but not the least, it is duty bound to take measures for the amelioration of the condition of Scheduled Castes and Scheduled Tribes and other Backward Classes and in particular, in the removal of untouchability carry out the directions issued in this regard from time to time by the State Government.

Objectives of the Local Self Government

With a view to promote development of democratic institutions and to secure greater measure of participation by the people in Development Plans and in local and governmental affairs by decentralization of powers and functions, Zilla Parishad and Panchayat Samities (C. D. Blocks) have been established in the district of Maharashtra in the year 1962 under the Maharashtra Zilla Parishad and Panchayat Samiti Act of 1961. The jurisdiction of Zilla Parishad and Panchayat Samiti i.e. C.D. Blocks corresponds to the district and tahsil boundaries except that the statutory towns are not covered by them.

The local self bodies are working as agencies of State Government. The 73rd Constitutional Amendment gave local self bodies the constitutional status. The new power bestowed upon them gave a great impetus to the development plans and its implementation.

Zilla Parishad

The Zilla Parishad has the authority for the purposes of the Act over the area for which it is established. The authorities charged with carrying out the provision of this Act for each district are–

a) The Zilla Parishad

b) Panchayat Samitis

c) The Standing Committee

d) The Subjects Committees

e) Presiding authorities

f) The Chief Executive Officer

g) Block Development Officer

The Zilla Parishad is assisted in its function by number of departments and each department is headed by class I or class II officers of the State Services.

Zilla Parishad consists of councillors directly elected on the basis of adult franchise from electoral divisions in the district for a term of five years. The number of councillors being not more than seventy-five and not less than fifty. Some seats of councillors are reserved for the persons belonging to Scheduled Castes, Scheduled Tribes, Women and Backward Class citizens.

Grants to Zilla Parishad

1. Grant of 7 percent of forest revenue to Zilla Parishad.

2. Purposive grant – State Government pays every year to Zilla Parishad a grant for works and development schemes transferred to Zilla Parishad.

3. Establishment grant – State Government pays by way of establishment grant, the average cost on account of the salaries and allowances.

4. Local cess matching grant – State Government pays a local cess matching grant to be paid to Panchayat Samiti through the Zilla Parishad.

5. Incentive grant – State Government pays to Zilla Parishad an incentive to speedier development.

6. Grants for plan schemes – State Government pays grant for such works and development schemes relating to any subject enumerated in the district List as are included in the development plan of the State.

7. Block grant – State Government pays to each Panchayat Samiti through Zilla Parishad for carrying one such work and development scheme.

The development work of the district is carried out through the various committees appointed for the purpose by the Zilla Parishad. The executive power for the purpose of carrying out the provisions of the Act lies with the Chief Executive Officer, who is appointed by the State Government.

All the development work within the district is carried out by the Zilla Parishad through the District Fund at its disposal.

The Deputy Chief Executive Officer works as the ex-officio secretary of the Zilla Parishad.

Panchayat Samiti

Panchayat Samiti Consists of members elected by direct election, its jurisdiction being the C.D. Block. The term of the members is five years. The Block Development Officer is the ex-Officio Secretary of the Panchayat Samiti. The Chairman and Deputy Chairman are elected by and from amongst the members of the Panchayat Samiti.

The overall plan of work and development schemes within the block is prepared and executed by the Panchayat Samiti.

Devolution of Powers and functions.

As per the 73rd Constitutional Amendment, Articles 243-G and Schedule 11 of the Constitution, 29 subjects are to be transferred to the Panchayat Raj Institution. The State Government implemented this amendment in April 1994 and provisions were made in the State Panchayat Raj Act to transfer these subjects to the Zilla Parishads, Panchayat Samitis and the Village Panchayats.

Source : 1. Bombay Act No. III of 1959 (The Bombay Village Panchayats Act,1958).

2. Maharashtra Act No. V of 1962 (The Maharashtra Zilla Parishads and Panchayat Samitis Act, 1961).

3. 73rd Constitutional Amendment.

Urban Local Bodies

The statutory urban local bodies are cantonments, municipalities or municipal corporations. The urban local bodies elect a councillor from each of the wards and his term is 5 years. The President of the Municipal Council or the Mayor of the Corporation as also his Deputy are elected from amongst elected councillors. The Chairmen of various committees are also elected from amongst the elected councillors. Although for day to day administration the Chief Officer is responsible in a municipal council, he works under the administrative control of the President of Municipal Council. In Corporations, a senior IAS Officer is deputed by the State Government as Municipal Commissioner who is responsible for day to day administration and the executive authority lies in him.

(iv) Physical features

Location and Size

Raigarh is a coastal district situated on the west coast of India. It is slightly elongated in the north-south direction and has a long indented coastline. It spreads between 17° 51' to 19° 10' north latitudes and 72° 47' to 73° 40' east longitudes. It is bounded by Thane district to the north and Ratnagiri district to the south; Pune district lies to its east and Satara district to its south-east. On the west the district is bounded by the Arabian Sea.

The headquarters of the district is located at Alibag, a coastal town with a population of 19496 as per the 2001 Census. The district headquarters is well connected by roads to Mumbai, the main commercial center of the country and other parts of the state. Konkan railway passes through the district

The district has an area of 7,152.0 sq.kms. and a population of 2,207,929 persons as per Census 2001. While the area of the district accounts for 2.3 percent of the total area of the State. The districts population constitutes 2.3 percent of the total population of the State. The density of population is 309 persons per

sq. km. Among the 35 districts of the State, the district ranks 24th in terms of area, 18th in terms of population and 9th in terms of density.

Physiography

India has been divided into four macro level physical divisions i.e. The Northern Mountains, The Great Plains, The Deccan Plateau, and The Coastal Plains and Islands.

Maharashtra falls under two of these macro level divisions 1)The Deccan Plateau, and 2) The Coastal Plains and Islands. The north-south running Sahyadri range separates these two divisions. The Deccan Plateau lies to the east while the Coastal Plains and Islands lie to the west up to the Arabian Sea. The Deccan Plateau is much larger of the two divisions and includes twenty nine districts of the State while only six districts lie in the Coastal Plains and Islands.

The whole Deccan Plateau is sub-divided into 12 meso regions. Of these, only 2 meso regions i.e. Northern Maharashtra and The Maharashtra Plateau lie within the State. Northern Maharashtra is further divided into 2 micro regions i.e. The Tapi-Purna Valley and The Wardha-Penganga-Wainganga Plain. The Maharashtra Plateau is also further sub-divided into 2 micro regions i.e. The Eastern Plateau and The Western Plateau with Protruded Hills.

The Coastal Plains and Islands is divided into 4 meso regions i.e. Gujarat Region, Western Coastal Region, Eastern Coastal Region and The Islands. Of these, The Western Coastal Region covers Maharashtra. This region is divided into 4 micro level regions i.e. Maharashtra Littoral, Goa Coast, Karnataka Coast and North Kerala Coast. Only Maharashtra Littoral falls within the state of Maharashtra.

The hierarchy of these macro, meso and micro level physiographical divisions within Maharashtra State are as below :

(A) Deccan Plateau :

(i) Northern Maharashtra :

(a) Tapi-Purna Valley : Includes the districts of Nandurbar, Dhule, Jalgaon, Buldana, Akola, Washim and Amravati.

(b) Wardha-Penganga-Wainganga Plain : Includes the districts of Wardha, Nagpur, Yavatmal, Bhandara, Gondiya, Gadchiroli and Chandrapur.

(ii) Maharashtra Plateau :

(a) Eastern Maharashtra : Includes the districts of Aurangabad, Jalna, Parbhani, Hingoli, Nanded, Bid, Osmanabad, Latur, Solapur, Sangli and Kolhapur.

(b) Western Maharashtra with Protruded Hills: Includes the districts of Nashik, Ahmadnagar, Pune and Satara.

(B) Coastal Plains and Islands:

(i) Western Coastal Plains:

(a) Maharashtra Littoral : Includes the districts of Thane, Mumbai (Suburban), Mumbai, Raigarh, Ratnagiri and Sindhudurg.

Raigarh district forms a part of the Maharashtra Littoral, the micro level division of coastal plain. It is slightly elongated in the north-south direction. Raigarh has a long indented coastline. The length of the coasts is about 160 kms. and the length of the coast line is about 240 kms. with a number of creeks and inlets, suggesting submergence confirmed by the submerged Khair forest in Thane creek and Mumbai Harbour. Though the district forms an important part of the traditional 'Konkan Plain' ruggedness and uneven topography form the governing theme in its physical features. The Sahyadries in the east send several tranverse numbers of subsidiary hills westwards denying the plains of a uniform level and continuous character. Many of the subsidiary hills of varying heights reach the coastline to form headlands or promotories. On the basis of variation in local relief and other characteristics the district can be grouped into 6 parts i.e., (i) Sahyadri Hills, (ii) Konkan Forested Hills, (iii) Sudhagad Plateau, (iv) Ulhas Basin, (v) Kal-Savitri Valley and (vi) Raigarh Coast.

(i) Sahyadri Hills are located in the extreme eastern part of the district. This region is a narrow belt comprising of parts of Mahad, Poladpur, Karjat, Khalapur, Sudhagad and Mangaon tahsils. Although the Sahyadries form a long unbroken range, within the district, this region is broken almost in the center for a distance of about 5 kms by the Sudhagad plateau

and the Kal-Savitri valley. The hills at bottom have height above 200 metres, which reach upto more than 600 metres at the upper reaches. The region is characterized by having very steep slopes. Pratapgarh at 1084 metres is the highest point. Most of the rivers have their source in these hills. The hills are fairly covered with forest which are mainly reserved forests.

(ii) Located in the centre of the district the Konkan Forested Hills comprise of parts of Panvel, Khalapur, Alibag, Pen, Roha, Mangaon, Tala, Murud, Mhasla and Shrivardhan tahsils and a small part of Karjat tahsil. These hills are basically an extension of the Sahyadri Hills formed by the offshoots of the Sahyadries, which run westward to the coast. These hills give rise to the characteristic of parallel drainage pattern of the district. The hills in general attains height above 200 meters. The spot heights of 791 meters on the northern boundary of the district at Malang garh and 766 meters near Matheran being the highest. A number of rivers and streams transverse through these hills breaking their continuity and forms alternate valleys. The streams are swift and bring vast quantity of eroded materials and deposit in the lowest zone. As a result, the valleys have relatively rich and fertile soils as compared to the hill slopes. Kharif millets and rice are the main crops grown here. Gardening of Arecanuts and coconuts is also practiced.

(iii) Sudhagad Plateau region comprises of a major part of Sudhagad Tahsil, a part of Khalapur Tahsil, and very small parts of Mangaon and Karjat tahsils. The plateau is practically sandwiched between the Sahyadri hills in the east and Konkan forested hills in the west and north-west This plateau is located at a height of about 100 metres though there are spot heights, which rise to more than 100 metres, the highest being 529 metres near Khemvadi and 444 meters near Pali. The plateau slopes towards the west. The important rivers flowing through this plateau are the Patalganga, Amba and Kundalika. Forest cover is negligible. Soils are shallow and poor but yields hill millets and paddy.

(iv) Ulhas Basin is located in the north-eastern corner of the district. This is the smallest region in the district comprising only a part of Karjat Tahsil. The region slopes towards the north. Though the highest spot height is 610 metres, the general elevation of the basin is about 150 metres. The Ulhas River is the only important river in the region and it flows northwards. An interesting and economically important feature of the Ulhas drainage is that it receives the tailwaters of Bhivapuri Hydel System and this regulated flow of water is capable of agricultural and industrial utilization. Forest cover is adequate.

(v) Kal-Savitri Valley is located in the south of the district. It comprises of parts of Mangaon and Mahad tahsils, and small parts of Mhasla and Poladpur thasilsThe height of valley is around 100 metres but the upper reaches are higher and rise to a height of above 500 metres at some places. As the name suggests, the Kal and the Savitri rivers are the main rivers draining this region. The Kal River flows south into the Savitri River, which flows westwards. The Savitri River is tidal for a very long distance. The tidal stream moves up to the Kal Nadi, a tributary of the Savitri River, a little north of Goregaon town. Forest cover is limited. The valley has 2-6 feet deep soils which are loamy in texture. Intensive paddy cultivation is carried out in the valley. Coconuts and Arecanuts gardening is also practiced.

(vi) Located in the west of the district in a narrow strip, the Raigarh Coast region comprises of the entire Tahsil of Uran and parts of Panvel, Pen, Alibag, Roha, Murud, Tala, Mhasla and Shrivardhan tahsils. The region generally lies below 100 metres but there are a number of spot heights rising to more than 100 metres, 321 metres in Mhasla Tahsil being the highest. There is limited forest cover. Small pockets of reserved forests occur mainly in the south, in Murud and Shrivardhan tahsils. There are a number of creeks all along the coast. Mangroves, marshes and tidal flats are common especially in the Pen, Uran and Tala tahsils where they are more wide spread. All the rivers are tidal for a considerable extent. At the upper reaches coastal alluvium soils are suitable for cultivation where intensive cultivation of paddy is carried out. Coconut and Arecanut are also grown. Sea salt is also produced in this region.

Drainage

The district is drained mostly by short westward flowing parallel streams, which originate in the Sahyadri hills in the east and flow into the Arabian

Sea. These streams are swift and bring vast quantities of eroded material and deposit in the lowest zone that a but the shoreline. Besides the general parallel pattern of the rivers, the tributary pattern tends, at places, to be rectangular suggesting the adaptation of the streams to the local rock structure. All the rivers are tidal for a considerable extent and can be divided into two well-marked sections above and below the limit of the tide. The upper courses are steep and rugged, with torrential waters flowing during the monsoon season. Fording is difficult and often dangerous during the monsoons, but during the dry season they cease of flow and form chains of pools separated by banks of gravel and ridges of rock. Below the tidal limit the bed is muddy, broken by occasional dykes of rock and the creeks wind between banks which are high in places, but in others are so low that they have to be raised to prevent the over flow of the tide.

Raigarh district has six main drainage systems. In the extreme North lies the Ulhas drainage. An interesting and economically important feature of the Ulhas drainage is that it receives the tail waters of Bhivapuri Hydel System and this regulated flow of water is capable of agricultural and industrial utilization. In the north-west the Panvel creek collects water from a radial pattern of short streams of which the Kalundri is a major stream but others are very short and seasonal. The Patalganga, Bhogawati and Amba rivers drain mainly Khalapur, Sudhagad and Pen tahsils into the Dharmtar creek. The Patalganga receive the tail waters of the Khopoli Hydel Works. The Kundalika or Roha River drains a narrow central belt into the Chaul creek. The Mandad drainage is like an amphitheater closing round the wide estuary at the mouth of which stands the Jangira fort. The southern part of the district is drained by the well developed system of the Savitri. The main tributaries of the Savitri are the Ghod, the Gandhari, the Kal and the Nageshri.

Climate

The climate of the district is typical of that on the west coast of India, with plentiful, regular and seasonal rainfall during the monsoon season. Being a coastal district, the diurnal (daily) and seasonal variations in temperature are not large. The year may be divided into four seasons; the summer season from March to May, the rainy season from June to September, the post-monsoon season in October and November, and the winter season from December to February.

The south-west monsoon commences by about the first week of June and the rains continue till about the beginning of October. The average annual rainfall for the district as a whole is 3028.9 mm. The rainfall increases rapidly from the coast towards the Sahyadries on the eastern border of the district. In the coastal strip the annual rainfall decreases from south to north. Nearly 95 per cent of the annual rainfall is received during the south-west monsoon season. The rainfall is regular and the variations are from year to year.

The summer from March to May is a period of increasing temperatures. May is the hottest month of the year; in the afternoon's sea breezes relieve the oppressive heat particularly in the coastal regions. The onset of the south-west monsoons brings down the temperature slightly. With the withdrawal of the south-west monsoon, day temperatures increase slightly even in October and November. The air is humid throughout the year. During the south-west monsoon season skies are overcast with clouds. In May, and October the skies are moderately clouded and during the rest of the year the skies are clear to lightly clouded.

Winds are very strong during the monsoon season and blow from west or south-west. From October to December the winds are generally moderate and blow from directions between north-west and south-east. Between January and March the winds continue to be moderate but blow from directions between south-west and north-west. In association with cyclonic storms in the Arabian Sea in the post monsoon months, and to a lesser extent in May, the district experiences very strong winds, sometimes reaching gale force, and heavy widespread rain. Occasionally these storms cross the coast in the northern part of the district and cause heavy damage. Thunder storms occur in April and May and from late September to the middle of November.

Natural Wealth

Minerals

Geologically, the Konkan lowlands are a platform of marine denudation raised to form a narrow plain.

The geology of the entire district consists of dark coloured volcanic lava flows and laterites which date back to the Mesozoice Era. These are spread out in the form of horizontal sheets or beds and have innumerable spurs, hills, ridge, peaks and plateaux.

The Deccan traps generally lack minerals of economic importance but being hard, dense and durable are most suitable as building materials. Along the north-south coastal tract between the sea and the Sahyadris there are three well known groups of springs in the district namely the Unhere. Sav and Vadavli springs. These are known to possess medicinal value in curing skin diseases and rheumatic complains.

Nodular Kankar, a concretionary lime carbonate, is usually found sporadically on soils and alluvium covering the Deccan trap in the district. The Kankar, on burning yields good time almost comparable in quality with the hydraulic lime. In addition to Kankar, the sea shells found along the coast at places are used for the manufacture of lime. Salt is produced by direct solar evaporation of sea water near Uran, Sheva, Karanja, Pen and Panvel.

Fisheries

Raigarh district with a coastline of about 240 kms. is one of the most important maritime districts of the State. Fishing though considered under developed ranks only next to agriculture as far as means of livelihood is concerned. The fishing industry is mainly dependent upon the exploitation of marine resources. The fishing season commences from September and lasts till the end of May. There is practically no fishing in the monsoon season except in the creeks, lakes and rivers. Sharks, skates, rays, mackerels, sardines, tuna, surmai, 'pomfret, Karel, dagol and cat fish are the main varieties of the district. Bulk of the catch is sent to Mumbai Markets.

Soil and Cropping pattern

The main types of soils found in the district are forest soils, varkas soils, rice soils, khar or salt soils, coastal alluvium and laterite soils.

A thin layer of soils containing humus and organic materials are found in the deep-forested area, which yealds valuable forest products and are not used for agriculture. These soils are heavily eroded due to grazing and cutting of forest trees.

Varkas soils are found all along the steeper slopes. They are shallow in depth, heavily eroded, sandy in texture and yellowish red to yellowish grey in colour. These soils are poor in organic matter and nitrogen and posses very little retentivity of moisture. Kharif crops are mainly grown in these soils.

Rice soils are mainly found in the valley of river and in the low-lying intervening spaces between hills. These soils are formed from the trap rock under heavy rainfall and humid conditions. They have a depth of between 2 to 6 feet. They are loamy in texture, yellowish or redish grey in colour, nutral in reaction and almost devoid of time. Rice is the main crop of this soils.

Khar or salts soils are formed due to the deposition of salts by the sea or from land reclaimed from the sea. These soils are found on the flat, leveled land near the sea. They are flat clay to clay loam in texture and redish or yellowish grey in colour. Salts are produced in these soils by evaporating the sea water.

Coastal alluvium is found all along the coast and at places where there are no creeks. They are developed on flat land and are loamy in texture with reddish grey colour. They are devoid of clay fraction of humus and are open in nature. Good garden crops like coconut, arecanut, plantation etc. are grown in these soils depending upon the availability of water.

Laterite soils occur mostly on the mountain peaks. They are coarser in texture wherever there are no forest. They are yellowish-red in colour and shallow in depth. They yield coarse millets and niger. The heavy rains in the hilly regions thoroughly leach the soils turning them acidic in reaction and devoid of calcium carbonate.

Land and Land use pattern

The Ministry of Food and Agriculture, Government of India has recommended a standard pattern of land use classification for the maintenance of records. Columns 19–23 of the village directory give land use pattern in each village in the district. The data furnished here are based on the village records and pertain to the year 1999.

Forest

This includes all land classified as forest under any legal enactment dealing with forest or administered as forest, whether state owned or private and whether wooded or simply maintained as forest land. Within the forest area itself there may be occasionally cultivated patches or grazing lands, but such area are shown under column 19 as forest. The process of regularisation of land grants and effecting relevant changes in the basic records of survey and settlement are somewhat protracted and time consuming. Therefore the information based on records is in some cases at least, likely to be different when compared with the actual field situation.

Irrigation by Source and Unirrigated land

Column 20 and 21 of the Village Directory give all the agricultural land and when added together would correspond to the net area shown plus the current and other fallow lands. Area shown more than once during the same year, if any, in the village is counted only once under this column. In column 20 source wise break up of the irrigated area is furnished by using abbreviation. All lands that are lying uncultivated as fallow for more than 5 years in succession are recorded as permanent fallow (Cultivable waste) and are covered under column 22.

The Concept of irrigation implies the existence of source of water supply within a reasonable distance and an arrangement to regulate the supply of the water according to the day-to-day needs of the crops raised in these fields. Naturally therefore all areas, which are cultivated under purely rain fed conditions, are treated as unirrigated lands.

Animal Husbandry

As per sixteenth Quinquennial census of livestoack of 1997, the information on important number of livestock and livestock indicators are given below.

Statement showing no. of Livestock (Position as on 15th Oct. 1997).

1)	Total Cross bred/Indigenous Cattle	451,692
2)	Total Buffaloes	147,027
3)	Total Goats	159,556
4)	Total Sheep	675
5)	Total Pigs	2,542
6)	Total Equine	1,818
7)	Total Camel	6
8)	Total Rabbits	106
9)	Total Livestock (excluding dogs)	763,422
10)	Total Poultry (including Ducks)	1,680,401

Source: Sixteenth All India Livestock & Farm Equipment Census 1997.

The total livestock (excluding dogs) are 763422 and total poultry (including ducks) are 1680401 in the district. Out of the total livestock, the total crossbred/ indigenous cattle are 451692, total buffaloes are 147027, and goats 159556, sheeps 675, pigs 2542, equine 1818, camels 6 and rabbits are 106.

Statement showing Selected Livestock indicators (Position as on 15th Oct. 1997).

	Category	Value
1)	Density of Livestock population (per sq.km.)	107
2)	Average Livestock per village	412
3)	No. of livestock per thousand human population	418
4)	No. of in-Milk cows per thousand human population	38
5)	No. of in-Milk buffaloes per thousand human population	18
6)	No. of poultry fowls per thousand human population	920
7)	No. of Bullocks and male Buffaloes per hundred hectares of gross cropped area	94
8)	No. of tractors per thousand hectares of gross cropped area	N
9)	No. of Veterinary Institute per lakh livestock	14

Source: Sixteenth All India Livestock & Farm Equipment Census 1997.
N - Negligible

The density of livestock population per sq. km. works out to 107 while average livestock per village is 412. For every thousand human population there are 418 livestock, 38 in-milk cows, 18 in-milk buffaloes and 920 poultry fowls. While there are 94 bullocks and male buffaloes per hundred hectares of gross cropped area, the number of Veterinary institute per lakh livestock has

reported to be 14. The number of tractors found to be negligible per thousand hectares of gross cropped area.

Industry

Maharashtra is one of the industrially advance state of India. Raigarh district on thewhole is not much developed Industrially except for Khopoli, Karjat, Panvel and Taloje Panchnad towns. These towns have industrial units manufacturing steel pipes and medicines M.I.D.C is encouraging industrial units in Panvel tahsil to increase industrial productions. Existing industrial units in the district are in general on a small scale, salt manufacturing at Uran and Panvel, Paper and Pulp, coated fabric and chemicals at Khopoli, R.C.C. pipes at Pen, grinding wheels, segments stones and sticks etc at Mora (Uran) are the main large scale industries in the districts. Agro based industries areRice, Barli food and yeast powder.

The industrial policy of the state is based on the basic decision to encourage industries in the developing and under-developed areas in the district and to disperse industries from the heavely congested area of Mumbai, Thane and Pune. In the district there are ndustrial estates in Panvel, Uran, Mahad and Roha. The small scale as well as large scale industries are running in these areas. Petrochemicals industry at Nagothane (Roha tahsil) and fertilizer project at Thal-Vayshet are large scale industries recently states in the district. Hindustan Organic chemicals and Reliance chemical industries are the other private projects located at Rasayani and Patalganga.

The most important small scale industry manufacturing Ganseh iols is located in Pen tahsil. Thousands of these idols are sent to Mumbai and Pune during Ganpati festival. Brick manufacturing industry is located in Mahad, Alibag, Roha and Khalapur tahsil. Brass and Copper utensils manufacturing industry is located at Mahad, Roha and Pali (Sudhagad tahsil). Pharmacitical and Chemical industries are located at Mahad and Panvel tahsil. Handloom sarees are made in Goregaon Mahad, Murud, Mangaon and Roha tahsils and leather goods industries are located at Matheran, Mahad, Murud and Roha tahsils. A number of Rice mills are found in Alibag, Mahad, Pen and Panvel tahsils. In Panvel tahsil there are many mills making 'Poha' from paddy. Plastics goods manufacturing industries are located in Panvel tahsil.

Trade and Commerce

The chief manufactured articles of the district are medicines, chemicals products, cloths, drugs, pepsi soft drink, beer, yeast, steel pipes, ingots, alloy, benzene, chikhi, copper utensils, lord Ganpati idols, medical oil (bat oil), leather goods, sticks, timber, cashew nut, bricks, rice, poha, bullock cart wheels, colour, tiles, cement products, clay pots, ayurvedic medicine, grinding wheels, handlooms cloths and ice etc.

The chief export articles in the district are dry fish, coconut, cloths, chemical products, medicines, pepsi soft drink, colour, rice, vegetables, pulses, milk, beer, yeast, steel pipes and rods, acitic acid, benzene, copper utensils, vari, nachani, chikhi, leather goods, honey, timber, mango, paddy, cashew nut, betel nut, fish, brick, poha, bullock cart wheels, ayurvedic medicine statues and idols, grinding wheels, handloom cloths etc. Most of these are sent to Mumbai.

Transport

Number of Motor Vehicles registered in the district (as on 31.03.1999)

Motor Vehicles 1999		
	Item	No. of Vehicles
	1	2
1	Buses	948
2	Cars & Station Wagons	14,823
3	Jeeps	7,236
4	Taxies	3,022
5	Autorickshaws	12,974
6	Mopeds	2,710
7	Scooters	31,008
8	Motor Cycles	24,846
9	Total Goods Vehicles	13,266
10	Tractors	370
11	Trailors	396
12	Others	529
	Total	**112,128**

Source: Transport Commissioner office

From the above table it is seen that of the various types of motor vehicles available in the district, scooters, motor cycles, cars and station wagons constitute the largest number.

Electricity & Power

1848 inhabited villages (99.4 percent) villages and all 26 towns are enjoying the power supply facility. (T.D. Statement).

(v) Census concepts

Building :

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses :

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses :

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house :

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its

constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria

simultaneously :

i) A minimum population of 5,000.

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams,

orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes andScheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union Territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union Territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Castes in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:

Scheduled Castes

1) Ager
2) Anamuk
3) Aray Mala
4) Arwa Mala
5) Bahna, Bahana
6) Bakad, Bant
7) Balahi, Balai
8) Basor, Burud, Bansor, Bansodi
9) Beda Jangam, Budga Jangam
10) Bedar
11) Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chamari, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar , Madar, Madig, Mochi, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Nona, Ramnami, Rohit, Samgar, Samagara, Satnami, Surjyabanshi, Surjyaramnami
12) Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli
13) Bindla
14) Byagara
15) Chalvadi, Channayya
16) Chenna Dasar, Holaya Dasar, Holeya Dasari
17) Dakkal, Dokkalwar
18) Dhor, Kakkayya, Kankayya, Dohor
19) Dom, Dumar
20) Ellamalvar, Yellammalawandlu
21) Ganda, Gandi
22) Garoda, Garo
23) Ghasi, Ghasia
24) Halleer
25) Halsar, Haslar, Hulasvar, Halasvar
26) Holar, Valhar
27) Holaya, Holer, Holeya, Holiya

28) Kaikadi (in Akola, Amravati, Bhandara, Gondiya, Buldana, Nagpur, Wardha and Yavatmal districts and Chandrapur district, other than Rajura tahsil)

29) Katia, Patharia

30) Khangar, Kanera, Mirdha

31) Khatik, Chikwa, Chikvi

32) Kolupulvandlu

33) Kori

34) Lingader

35) Madgi

36) Madiga

37) Mahar, Mehra, Taral, Dhegu Megu

38) Mahyavanshi, Dhed, Vankar, Maru Vankar

39) Mala

40) Mala Dasari

41) Mala Hannai

42) Mala Jangam

43) Mala Masti

44) Mala Sale, Netkani

45) Mala Sanyasi

46) Mang, Matang, Minimadig, Dankhni Mang, Mang Mahashi, Madari, Garudi, Radhe Mang

47) Mang Garodi, Mang Garudi

48) Manne

49) Mashti

50) Meghval, Menghvar

51) Mitha Ayyalvar

52) Mukri

53) Nadia, Hadi

54) Pasi

55) Sansi

56) Shenva, Chenva, Sedma, Ravat

57) Sindhollu, Chindollu

58) Tirgar, Tirbanda

59) Turi

Scheduled Tribes

1) Andh

2) Baiga

3) Barda

4) Bavacha, Bamcha

5) Bhaina

6) Bharia Bhumia, Bhuinhar Bhumia, Pando

7) Bhattra

8) Bhil, Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave

9) Bhunjia

10) Binjhwar

11) Birhul, Birhor

12) Chodhara (excluding Akola, Amravati, Bhandara, Gondiya, Buldana, Chandrapur, Nagpur, Wardha, Yavatmal, Aurangabad, Jalna, Bid, Nanded, Osmanabad, Latur, Parbhani and Hingoli districts)

13) Dhanka, Tadvi, Tetaria, Valvi

14) Dhanwar

15) Dhodia

16) Dubla, Talavia, Halpati

17) Gamit, Gamta, Gavit, Mavchi, Padvi

46) Varli

47) Vitolia, Kotwalia, Barodia

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker' .

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate :

Percentage of workers (main + marginal) to total population.

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years.

Sex -ratio :

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population.}} \times 1000$$

Crude death rate(CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR) :

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR) :

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = 5 \times \frac{\sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = 5 \times \frac{\sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1000 population of the same age group.

Number of deaths in a particular age-group

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1 Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 Probability of dying between birth and age 2.

q5 Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate :

$$= \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate :

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR) :

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate (SBR) :

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100000$$

Eligible couple (Couples per 1000 population) :

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4) :

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9) :

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / Towns. These Class I UAs. / Towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum Area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of

management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings – Population, its distribution

Brief Note on Census

Census taking is a massive operation carried out in a short span of time with the active participation of a veritable army of enumerators. The reference moment for the 2001 Census was the 00.00 hrs. March 1, 2001 i.e. the census provides a snapshot of the population of the country, as on 1st march 2001. Actual enumeration was spread over a period of 20 days from 9th February 2001 to 28 Feb.2001, followed by a rivisional round up to 5th March 2001 for updating of the population figures with reference to 00.00 hours of March 1, 2001. Household schedule having 23 questions regarding each and every person in the family is newly introduced in this Census. These questions are mainly self-explanatory and answers are in code language. Question No. 1 to 15 are related to general and socio-cultural characteristic individual. Question 16 to 20 is about economic activity of the person. Question 21 and 22 about migration and question no. 23 is for women, related to fertility. In addition one question is added in 2001 census which is related to household engaged in cultivation/plantation in part III.

As a prelude to the actual Census, the urban and rural areas were identified and listed out in respect of each administrative unit. The Director of Census Operations has prepared the list of urban area (which is generally referred to as town list) and simultaneously, a list of villages. These lists form the basic frame for the organization of the Census Operations. Thereafter geographical area that could be conveniently covered out to constitute the enumerator's block.

The next major step was the house listing Operation that was carried in the state during May-June 2000. Thereafter, in order to adhere to the prescribed workload norms, the actual Census enumeration's blocks were carefully demarked on the basis of the layout sketches and the notional maps prepared was also utilised to collect wealth of information on items such as predominant construction material used for houses, amenities available to the Census households, number of living rooms etc. Information regarding number of bedrooms in the household, if couples having separate room, availability of amenities like telephone, TV, Car/Scooter was asked first time in this Census. From this information we can have an idea of standard of living of the people in the country.

In Maharashtra, tahsil and the C.D.Block are co-terminus and therefore the data shown in tables on C.D.Blocks and the rural areas shown in the tables on tahsils are same.

Distribution of Population in Rural-Urban Areas

According to Census 2001, district Raigarh has a total population 2,207,929, comprising of 1,117,628 males and 1,090,301 females. The population of the district in Census 2001 is 21.0 percent higher than the district population of 1,824,816 in 1991 Census.

Among the 15 tahsils of the district, Panvel tahsil (422,522) is the most populous and Tala tahsil (42,869) the least. Other tahsils in order of their population are 1) Alibag (221,661), 2) Mahad (186,521), 3) Karjat (184,420), 4) Khalapur (183,604), 5) Pen (1,766,811), 6) Roha (161,750), 7) Mangaon (152,270), 8) Uran (140,351), 9) Shrivardhan (85,071), 10) Murud (72,046), 11) Sudhagad (62,852), 12) Mhasla (61,010), 13) Poladpur (54,301).

An examination of rural urban distribution of population reveals that 1,673,094 persons constituting 75.8 percent of total population is concentrated in rural areas while 534,835 persons constituting 24.2 percent of the total population are living in urban areas of the district. Although in absolute numbers, the number of people living in rural areas has increased from 1,496,176 in 1991 to 1,673,094 in 2001, in terms of percentage the people residing in rural areas has decreased from 82.0 percent in 1991 to 75.8 percent in Census 2001,While in urban areas it has corresponding increased in terms of percentage from 18.0 percent in 1991 to 24.2 percnt in Census 2001. Among 15 tahsils only one tahsil (Tala Tahsil) has no urban population.

TABLE 1 : DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Uran	106,703	82,525	24,178	140,351	109,177	31,174	31.5	32.3	28.9	22.7	22.2
2	Panvel	281,397	172,217	109,180	422,522	218,186	204,336	50.2	26.7	87.2	38.8	48.4
3	Karjat	155,236	131,280	23,956	184,420	139,011	45,409	18.8	5.9	89.6	15.4	24.6
4	Khalapur	144,402	99,363	45,039	183,604	109,407	74,197	27.1	10.1	64.7	31.2	40.4
5	Pen	148,527	126,939	21,588	176,681	146,480	30,201	19.0	15.4	39.9	14.5	17.1
6	Alibag	186,077	161,836	24,241	221,661	202,165	19,496	19.1	24.9	-19.6	13.0	8.8
7	Murud	64,307	52,196	12,111	72,046	59,494	12,552	12.0	14.0	3.6	18.8	17.4
8	Roha	138,704	123,877	14,827	161,750	127,405	34,345	16.6	2.8	131.6	10.7	21.2

15	Poladpur	55,300	55,300	0	54,301	49,004	5,297	-1.8	-11.4	0.0	0.0	9.8
District Total:		**1,824,816**	**1,496,176**	**328,640**	**2,207,929**	**1,673,094**	**534,835**	**21.0**	**11.8**	**62.7**	**18.0**	**24.2**

Table 1 shows the growth rates for the district and tahsils in total, rural and urban areas and percentage of urban population to total population.

The avarege growth rates for the rural and urban areas of the district are 11.8 percent and 62.7 percent respectively. Tahsil Tala has no urban area. In the rural areas of the district, Uran tahsil recorded the highest growth rate of 32.3 percent and Poladpur tahsil recorded the lowest growth rate –11.4 percent. Uran, Panvel, Pen, Alibag and Murud tahsils are above the district average (11.8 percent) and remaining tahsils i.e. Karjat, Khalapur, Roha, Sudhagad, Mangaon, Tala, Shrivardhan, Mhasla, Mahad and Poladpur are below the district average.

In urban areas of the district Roha tahsil recorded the highest growth rate of 131.6 percent and Alibag tahsil recorded the lowest growth rate –19.6 percent. Panvel, Karjat, Khalapur, Roha, Mangaon and Mahad tahsils are above the district average (62.7 percent) and remaining tahsil i.e. Uran, Pen, Alibag, Murud, Sudhagad, Shrivardhan and Mhasla are below the district avarege.

The proportion of urban to total population in Raigarh district stands at 24.2 percent in Census 2001 as against 18.0 percent in 1991 indicating a slow pace of urbanization in the district.

TABLE 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200		Number and percentage of villages
			Persons	Males	Females		Males	Females

Percentage in brackets.

The distribution of the inhabited villages according to population size ranges with their percentage is given in table 2 . There are 1859 inhabited villages in Raigarh district. There are 149 villages (8.0 percent) with population less than 200, 546 villages (29.4 percent) with population ranging from 200 – 499, 657 villages (35.3 percent) with population ranging 500 – 999, 365 villages (19.6 percent) with population ranging 1000 – 1999, 124 villages (6.7 percent) with population ranging 2000 – 4999, 17 villages (0.9 percent) with population ranging 5000 – 9999 and only one village (0.1 percent) with population ranging 10000 and above population.

Within 15 C.D. Blocks of the district percentage of small sized villages with less than 200 population are in Murud C.D. Block shows highest percentage (16.7 percent) and lowest in Mahad C.D. Block (3.3 percent). The percentage of 200 – 499 sized villages is highest in Poladpur C.D. Block (43.0 percent) and lowest in Uran C.D. Block (5.7 percent). The percentage of 500-999 sized villages is highest in Tala C.D. Block (45.2 percent) and lowest in Uran C.D. Block (18.9 percent). The percentage of 1000 – 1999 sized villages is highest in Panvel C.D. Block (30.6 percent) and lowest in Poladpur in C.D. Block (7.0 percent). The percentage of 2000 – 4999 sized villages is highest in Uran C.D. Block (32.1 percent) and lowest in Sudhagad C.D. Block (1.0 percent). The percentage of 5000 – 9999 sized villages is highest in Uran C.D. Block (3.8 percent) and lowest in Roha C.D. Block (0.6 percent), only one C.D. Block is in 10000 and above sized i.e. Uran C.D. Block and remaining C.D. Blocks i.e. Panvel, Karjat, Khalapur, Pen, Alibag, Murud, Roha, Sudhagad, Mangaon, Tala, Shrivardhan, Mhasla, Mahad and Poladpur have no villages in this range.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town
1
(a) New
(i) Statutory town - Nil
(ii) Census town
1 Kalundre
2 Ambivali Turf Wankhal
3 Mohpada Alias Wasambe
4 Nagothana
5 Dhatau

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS - (Contd.)

Name of town	
1	
6 Utekhol	
7 Birwadi	
8 Poladpur	
(b) Denotified	
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns	Nil
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria	Nil
(iii) Census towns of 1991 census are notified as statutory town in 2001 census	Nil
(c) Declassified	
1 Revdanda	
(d) Wholly merged with other town(s)	Nil

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

Table 3 shows new towns, denotified, declassified and wholly merged with other towns in 2001 Census. In 2001 eight towns namely Kalundre, Ambivali- Tarf Wankhal, Mohpada Alias Wasambe, Nagothana, Dhatau, Utekhol, Birwadi and Poladpur are declared as Census Town which were villages in 1991 Census. Revdanda Census Town of 1991 has been declassified as village in 2001 Census. There are no denotified and no whooly merged with other towns.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	2	0.1	241	0.0
11-20	9	0.5	1,685	0.1
21-50	73	3.9	19,221	1.1
51-100	232	12.5	104,253	6.2
101-200	505	27.2	303,855	18.2
201-300	335	18.0	261,607	15.6
301-500	310	16.7	314,999	18.8
501 +	393	21.1	667,233	39.9
Not known	0	0.0	0	0.0
District Total:	**1,859**	**100.0**	**1,673,094**	**100.0**

Population Density (Rural) of the district: 251

Table 4 shows distribution of villages by population according to density ranges. The patterns of villages have been grouped under eight different density ranges in this table. The distribution of villages by density ranges indicate that 0–50 form 4.5 percent of total 84 inhabited villages covering with 1.2 percent of total population. 51-100 form 12.5 percent of total 232 inhabited villages covering with 6.2 percent of total population. 101-200 form 27.2 percent of total 505 inhabited villages covering with 18.2 percent of total population. 201-300 form 18.0 percent of total 335 inhabited villages covering with 15.6 percent of total population. 301-500 form 16.7 percent of total 310 inhabited villages covering with 18.8 percent of total population. 500 and above form 21.1 percent of total 393 inhabited villages covering with 39.9 percent of total population.

Table 5 :SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	978	1,003	862	1000	1009	926
1911	966	1,000	796	1023	1025	986
1921	950	994	776	1028	1034	949
1931	947	987	790	1009	1019	901
1941	949	989	810	1036	1045	941
1951	941	1,000	807	1040	1052	945
1961	936	995	801	1058	1072	943
1971	930	985	820	1056	1077	917
1981	937	987	850	1046	1071	904
1991	934	972	875	1010	1035	905
2001	922	960	873	976	1006	885

Note: Sex ratio has been defined here as the number of females per 1000 males.

Table 5 shows the sex ratio for the district and state. Census 2001 recorded a sex ratio of 976 females per 1000 males in the district. This is higher compared to state average 922. The sex ratio in Raigarh district has remained higher than that of state from 1901 to 2001. As regards total areas sex ratio of the state level declined by 56 points and at the district level it declined by 24 points during the last 100 years. Similarly the sex ratio for the rural areas of the state decreased by 43 points and for the district it decreased by 3 points during 1901-2001. For the urban areas of the state, the sex ratio increased by 11 points and for the district it decreased by 41 points during the 1901-2001 period.

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Uran	922	934	880
2	Panvel	882	922	841

7	Murud	1,061	1,059	1,070
8	Roha	960	976	901
9	Sudhagad	987	991	957
10	Mangaon	1,070	1,081	966
11	Tala	1,274	1,274	-
12	Shrivardhan	1,186	1,217	1,052
13	Mhasla	1,295	1,341	1,055

TABLE 6 : - (Contd.)

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
14	Mahad	1,035	1,068	887
15	Poladpur	1,153	1,171	994
	District Total:	**976**	**1,006**	**885**

In Raigarh district as a whole there are 976 females for every thousand males. Within the district sex ratio varies from 869 in Khalapur tahsil to 1295 in Mhasla tahsil. Generally rural areas have higher proportion of females than the urban areas. The sex ratio figures for rural and urban areas of Raigarh district are 1006 and 885 respectively. In rural areas highest sex ratio is in Mhasla tahsil (1341) and lowest in Khalapur tahsil (873). In urban areas highest sex ratio is in Murud tahsil (1070) and lowest in Panvel tahsil (841). In rural areas seven tahsils have higher sex ratio than the district rural average (1006). i.e. Murud (1059), Mangaon (1081), Tala (1274), Shrivardhan (1217), Mhasla (1341), Mahad (1068) and Poladpur (1171) and remaining tahsils have lower sex ratio than the district rural average i.e. Uran (934), Panvel (922), Karjat (958), Khalapur (873), Pen (953), Alibag (978), Roha (976) and Sudhagad (991).

In urban areas 11 tahsil i.e. Karjat (913), Pen (906), Alibag (923), Murud (1070), Roha (901), Sudhagad (957), Mangaon (966), Shrivardhan (1052), Mhasla (1055) Mahad (887) and Poladpur (994) have higher sex ratio than the district urban averge. Only three tahsils Uran (880), Panvel (841), Khalapur (864) have lower sex ratio than the district urban averge.

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Uran	934
2	Panvel	922
3	Karjat	958
4	Khalapur	873
5	Pen	953
6	Alibag	978
7	Murud	1,059
8	Roha	976
9	Sudhagad	991
10	Mangaon	1,081
11	Tala	1,274
12	Shrivardhan	1,217
13	Mhasla	1,341
14	Mahad	1,068
15	Poladpur	1,171
	District (Rural) Total:	**1,006**

Table 7 shows sex ratio by C.D. Blocks. The sex ratio in the districts (rural) areas is 1006. Murud (1059), Mangaon (1081), Tala (1274), Shrivardhan (1217), Mhasla (1341), Mahad (1068) and Poladpur (1171) C.D. Blocks have sex ratio above the district rural average. The sex ratios in C.D. Blocks Uran (934), Panvel (922), Karjat (958), Khalapur (873), Pen (953), Alibag (978), Roha (976) and Sudhagad (991) have lower than the district rural average sex ratio.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	29	1.6	25,322	1.5
700-749	8	0.4	9,687	0.6
750-799	28	1.5	33,446	2.0
800-849	50	2.7	54,816	3.3
850-899	129	6.9	150,437	9.0
900-949	255	13.7	312,553	18.7

26	Utekhol (CT)	CT	923
Sex ratio (Urban) for the district:			**885**

Average sex ratio for district urban areas is 885. In the urban areas of different towns varies considerably, the lowest sex ratio being in Matheran (MCl) (725) and highest sex ratio in Murud (MCl) (1,070). Among 26 towns of the district nine towns i.e. Kegaon (Census Town) (827) Navi Mumbai (Panvel, Raigarh) (Census Town) (771), Taloje Panchanad (Census Town) (836), Matheran (MCl) (725), Ambivali Tarf Wankhal (Census Town) (804), Mohpada Alias Wasambe (Census Town) (845), Khopoli (MCl) (875), Dhatau (Census Town) (787) and Birwadi (Census Town) (839) have sex ratio below the district average and remaining 17 towns Uran (MCl) (898), Panvel (MCl) (893), Kalundre (Census Town) (931), Neral (Census Town) (952), Karjat (MCl) (933), Pen (MCl) (906), Alibag (MCl) (923), Murud (MCl) (1,070), Nagothana (Census Town) (903), Roha Ashtami (MCl) (932), Pali (Census Town) (957), Utekhol (Census Town) (923), Goregaon (Census Town) (1,015), Shrivardhan (MCl) (1,052), Mhasla (Census Town) (1,055), Mahad (MCl) (902) and Poladpur Census Town (994) have sex ratio above the district average.

		Urban	**71,683**	**37,456**	**34,227**	**914**

The sex ratio for Raigarh district for 0-6 age group is 939. The sex ratio in 0-6 age group in tahsils Panvel (941), Karjat (944), Murud (977), Mangaon (957), Tala (941), Shrivardhan (974), Mhasla (947) and Mahad (957) is higher than districts total average (939). Tahsils Uran (938), Khalapur (920), Pen (937), Alibag (908), Roha (917), Sudhagad (938) and Poladpur (916) have lower sex ratio as compared to districts average. District rural sex ratio average is 946. Seven tahsils i.e. Uran, Panvel, Karjat, Murud, Mangaon, Shrivardhan and Mahad have high, sex ratio than the district rural average. District urban average sex ratio is 914. 7 tahsils i.e. Panvel, Karjat, Murud, Sudhagad, Shrivardhan, Mhasla and Poladpur have high sex ratios above the districts urban average.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

		Urban	**534,835**	**21,249**	**24,855**	**4.0**	**4.6**

Number and percentage of Scheduled Castes and Scheduled Tribes population in tahsils are given in this table. Total population of the district is refurned 2,207,929 persons comprising 53,667 (2.4 percent) Scheduled Castes and 269,124 (12.2 percent) Scheduled Tribes. Among the Scheduled Castes population 1.9 percent and 4.0 percent are found in rural and urban area respectively. While Scheduled Tribes population accounts 14.6 percent and 4.6 percent in rural and urban area respectively.

Within the district tahsil Tala shows the highest percentage of Scheduled Castes population (4.9 percent) and tahsil Pen is the lowest (1.3 percent). According to Scheduled Tribes population Sudhagad tahsil shows higest percentage (24.8 percent) and Poladpur tahsil lowest percentage (4.2 percent) in the district.

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population

District (Rural) Total:		**1,673,094**	**32,418**	**244,269**	**1.9**	**14.6**

Number and percentage of Scheduled Castes and Scheduled Tribes population in C.D blocks are given in this table.

The proportion of Scheduled Castes and Scheduled Tribes population to total population in each C.D Block can be seen in this table. Within the C.D Blocks Tala C.D Block recorded highest Scheduled Castes population (4.9 percent) and lowest in Karjat C.D Block (0.7 percent). While Sudhagad C.D Block highest in Scheduled Tribes population (28.2 percent) and lowest in Poladpur C.D Block (4.5 percent).

The proportion of Scheduled Castes population is above the district average (1.9 percent) is namely Sudhagad C.D Block (3.8 percent), Mangaon C.D Block (2.7 percent), Tala C.D Block (4.9 percent), Shrivardhan C.D Block (2.9 percent), Mhasla C.D Block (2.1 percent), Mahad C.D Block (2.1 percent) and Poladpur C.D Block (3.3 percent) and lowest in Karjat C.D Block (0.7 percent), Pen C.D Block (0.8 percent), Alibag C.D Block (1.4 percent), Murud and Roha C.D Block both are (1.7 percent). Uran, Panvel and Khalapur C.D Blocks are at par with the districts rural average.

Proportion of Scheduled Tribes population is above the district average (14.6 percent) in Karjat C.D Block (27.0 percent), Khalapur C.D Block (20.2 percent), Pen C.D Block (17.9 percent), Alibag C.D Block (15.5 percent), Murud C.D Block (19.6 percent), Roha C.D Block (17.8 percent), Sudhagad C.D Block (28.2 percent) and lowest in Uran C.D Block (7.6 percent), Panvel C.D Block (14.2 percent), Mangaon C.D Block (7.2 percent), Tala C.D Block (11.7 percent), Shrivardhan C.D Block (12.2 percent), Mhasla C.D Block (9.0 percent), Mahad C.D Block (5.0 percent) and Poladpur C.D Block (4.5 percent).

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	1,107	59.5	0	0.0
Less than 5	566	30.4	13,089	40.4

Table 21 shows the number and percentage of literates and illiterates by tahsils 2001. The literacy rate for the district as a whole is 77.0 percent. The rural and urban literacy rate are 73.8 percent and 87.1 percent respectively. For the district as a whole, the literacy rate for males is much higher than females. 86.2 percent of the males are literates while females account only 67.8 percent. Uran tahsil shows the highest percentage of male and female literate i.e. 91.4 percent and 73.3 percent respectively and Sudhagad tahsil shows the lowest percentage of males and females i.e. 75.4 percent and 55.8 percent respectively. Urban literacy rate in both sexes is higher than rural literacy rate.

In male's literacy rate tahsil Uran, Panvel, Alibag, Murud, Shrivardhan, Mhasla and Mahad are above the district average (86.2 percent) while in females Uran, Panvel, Khalapur, Alibag, Murud, Roha, Shrivardhan and Mahad tahsils are above the district average (67.8 percent). Gap in male–female literacy rate is 18.4 percent. Gap in rural literacy rate is higher than in urban areas in all tahsils and district also.

District (Rural) Total:		**1,055,120**	**596,315**	**458,805**	**617,974**	**237,650**	**380,324**	**73.8**	**84.1**	**63.6**	**20.5**

It is seen that 73.8 percent of the rural population are literates in the district. Among the males it accounts for 84.1 percent while for females the literacy rate is substantially lower 63.6 percent. The highest literacy rate among males is seen in Uran C.D. Block (90.5 percent) and lowest in Sudhagad C.D. Block (72.5 percent) while in females Alibag C.D. Block shows the highest perentage of literacy (71.7 percent) and lowest in Sudhagad C.D. Block (51.7 percent). In males Uran, Panvel, Alibag, Murud, Shrivardhan, Mhasla and Mahad C.D. Blocks are above the district average (84.1 percent) and remaining C.D. Blocks are below the district average. While in females literacy rate, Uran, Panvel, Alibag, Murud, Roha, Mangaon, Shrivardhan, Mhasla and Mahad C.D. Blocks are above the district average (63.6 percent) and remaining C.D. Blocks are below the district average.

Gap in male – female literacy rate is 20.5 percent. highest literacy rate gap in male–female recorded in Poladpur C.D. Block (23.9 percent) and lowest in Alibag C.D. Block (18.2 percent).

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population

The average literacy rate in the urban areas of the district is 87.1 percent. In the district percentage of male literates is higher than female literates i.e. 92.0 percent and 81.4 percent respectively. Kegaon C.T. has highest literacy rate (92.6 percent) among 26 towns and Matheran (MCl) has lowest (79.4 percent).

Kegaon (Census Town) has highest literacy rate (96.9 percent) of male and lowest in Matheran (MCl) (82.6 percent) while in female Mahad (MCl) recorded highest literacy rate (88.6 percent) and Neral (Census Town) has lowest (72.9 percent) literacy rate. Gap in male-female literacy rate of the district is 10.6 percent. Highest literacy rate gap in male-female recorded in Navi Mumbai (Panvel, Raigarh) (15.3 percent) and lowest in Mahad (MCl) (7.0 percent) in urban area.

District (Rural) Total:		**21,316**	**11,980**	**9,336**	**11,102**	**4,176**	**6,926**	**77.4**	**87.6**	**67.5**	**20.1**

According to 2001 Census, 21316 Scheduled Castes persons are literates in rural areas of the Raigarh district. Of these 11980 are males and 9336 females. It is seen that 77.4 percent of Scheduled Castes in rural areas of the district are literates while among male literates 87.6 percent. The rate among females is substantially lower 67.5 percent. Within the district the highest literacy rate is seen in Pen C.D. Block (85.0 percent) and lowest in Sudhagad C.D. Block (71.6 percent). Highest literacy rate among males is seen in Uran C.D. Block (92.0 percent) and lowest in Poladpur C.D. Block (81.1 percent). While in females highest literacy rate seen in Pen C.D. Block (77.9 percent) and lowest in Poladpur C.D. Block (55.8 percent). Gap in male-female literacy rate of the district is 20.1 percent. Mhasla C.D. Block and Poladpur C.D. Block both are highest gap in male female literacy rate i.e. 25.3 percent and lowest in Alibag C.D. Block (12.9 percent).

There has been no conceptual change in difining the workers between 1991 and 2001 Census. At 2001 Census there has been mainly three-fold classification of population. viz. main workers, marginal workers and non-workers. Which was adopted for 1991 also. The main workers of 2001 are distributed in four categories of economic activities instead of nine industrial categories in earlier Census 1991.

The work participation rate for workers is defined as the percentage of total workers to total population. In a similar way it is defined for main and marginal workers. 2001 Census recorded 30.1 percent of district population as main workers, 11.3 percent as marginal workers and the remaining 58.6 percent as non-workers.

Among the 30.1 percent main workers, male participation rate in the district is 43.3 percent. While that of females is 16.5 percent as per 2001 Census.

The percentage of main workers is highest in Sudhagad tahsil (38.9 percent) and the lowest in Shrivardhan tahsil (21.0 percent). Among the 15 tahsils of the district 8 tahsils are above the district average i.e. Uran (30.8 percent), Alibag (30.4 percent), Roha (31.3 percent), Sudhagad (38.9 percent), Mangaon (32.3 percent), Tala (34.1 percent), Mahad (32.9 percnt), Poladpur (38.2 percent) and 6 tahsils are below the district average i.e. Panvel (29.9 percent), Karjat (27.0 percent), Pen (26.2 percent), Murud (28.2 percent), Shrivardhan (21.0 percent), Mhasla (28.2 percent) and in Khalapur tahsil has equal percentage of main workers as district i.e. 30.1 percent.

Among the 11.3 percent marginal workers males participation rate in the district is 9.4 percent, while that of female is 13.3 percent.

The percentage of marginal workers is highest in Pen tahsil (19.6 percent) and lowest in Panvel tahsil (7.3 percent).

Among 15 tahsils of the district 8 tahsils are above the district average i.e. Karjat (13.4 percent), Pen tahsil (19.6 percent), Alibag (14.1 percent), Murud (11.7 percent), Roha (12.2 percent), Mangaon (12.1 percent), Tala (13.1 percent), Shrivardhan (12.3 percent) and 7 tahsils are below the district average i.e. Uran (8.6 percent), Panvel (7.3 percent), Khalapur (9.5 percent), Sudhagad (10.0 percent), Mhasla (10.7 percent), Mahad (9.3 percent) and Poladpur (10.0 percent).

The proportion of female marginal workers (13.3 percent) is substantially higher compared to males (9.4 percent).

In this district 58.6 percent population is recorded as non-workers within this 47.3 percent males and 70.2 percent females are non-workers.

In rural areas of the district it is seen that 30.0 percent are main workers, 13.7 percent are marginal workers and the remaining 56.3 percent are non-workers. Among the main workers male participation rate in rural areas of the district is 41.3 percent, while that of females is 18.8 percent as per 2001 Census. The proportion of main workers is highest in Sudhagad (40.4 percent) C.D. Blocks and lowest in Shrivardhan (20.3 percent) C.D. Blocks. In Uran C.D. Block (31.2 percnt), Khalpur C.D. Block (31.3 percent), Roha (31.2 percent) C.D. Block, Sudhagad C.D. Block (40.4 percent), Mangaon (32.8 percent) C.D. Block, Tala (34.1 percent) C.D. Block. Mahad (33.2 percent) C.D. Block, and Poladpur (38.8 percent), the main workers are the above district rural average (30.0 percent). The disparity between the proportions of main workers among males and females in rural areas is comparatively low in C.D. Block of Panvel (27.9 percent), Karjat (26.3 percent), Pen (25.2 percent), Murud (28.4 percent), Shrivardhan (20.3 percent), Mhasla (29.2 percent).

Among the rural marginal workers (13.7 percent) male participation rate is 11.1 perceent while that of female 16.3 percent. The proportion of marginal workers is the highest in Pen (23.1 percent) C.D. Block and the lowest in Uran (9.8 percent) C.D. Blocks among 15 C.D. Blocks of the district.

In rural areas of the district 56.3 percent are non-workers. In that 47.6 percent are males and 64.9 percent females.

2001 Census recorded 30.4 percent of the urban district population as main workers, 3.7 percent marginal workers and the remaining 65.8 percent as non-workers.

In case of urban areas Matheran (M Cl) has the highest work participation rate main workers (39.8 percent) while Mhasla Census town has the lowest rate (22.4 percent). The main workers constitutes in Panvel (M Cl) (32.8 percent), Navi Mumbai (Panvel, Raigarh) Census Town (31.9 percent), Matheran (MCl) (39.8 percent), Ambivali Tarf Wankhal Census Town (31.0 percent) Mohapada Alias Wasambe Census Town (31.8 percent), Pen (M Cl) (30.8 percent), Alibag (M Cl) (34.0 percent), Roha Ashtami (M Cl) (30.6 percent), Dhatau Census Town (38.4 percent), Mahad (M Cl) (32.0 percent), Birwadi Census Town (30.5 percent) and Poladpur Census Town (32.4 percent), respectively are above the district urban average of 30.4 percent.

The proportion of main workers below the district urban average, towns are Kegaon Census Town (29.8 percent), Uran (MCl) (29.2 percent), Kalundre

Census Town (27.4 percent), Taloje Panchanad Census Town (29.1 percent), Neral Census Town (26.8 percent), Karjat (MCl) (28.2 percent), Khopoli (M Cl) (27.5 percent), Murud (M Cl) (27.7 percent), Nagotana Census Town (30.3 percent), Pali Census Town (28.8 percent), Utekhol Census Town (29.9 percent), Goregaon Census Town (24.6 percent), Shrivardhan (M Cl) (24.1 percent), Mhasla Census Town (22.4 percent) respectively.

The sex wise break up shows that among males and females 49.3 percent and 9.0 percent of the population are main workers. The work participation rate for marginal workers in urban areas for the district is 3.7 percent with 4.2 percent males, and 3.2 percent females. The percentage of marginal workers is the highest in Shrivardhan (M Cl) (8.1 percent) and lowest in Mohada Alias Wasambe CensusTown (1.3 percent). Sixteen towns have marginal workers, average above the district urban average, Nine towns below the district average and one town qual average as district average (3.7 percent).

In urban areas of the district non-workers contributed 65.8 percent, 46.5 percent males and 87.8 percent females.

Note: Percentage of Workers to total workers are given in brackets.

The table 34 gives the distribution of male and female workers, in four categories of economic activities of the district. The relative importance of the main spheres of economic activity may be gauged from the pattern of distribution of workers according to the broad four fold classification namely, cultivators, agricultural labourers, household industry, workers and other economic activity workers. The economic activity of the district is primarily agricultural supported by the fact that cultivators (28.6 percent) and agricultural labourers (20.4 percent) together constitute (49.0 percent) of the workers in the district. The agriculture sector has absorbed nearly fifty percent of the total workers in the district. Percentage of household industry workers is 2.7 percent and percentage of other workers is 48.4 percent. Poladpur tahsil records the highest percentage (69.6 percent) in cultivators category and lowest records 13.9 percent in Panvel tahsil. Highest percentage of agricultural labourers is in Pen tahsil i.e. 35.0 percent and Poladpur tahsil records the lowest percentage (9.0 percent). In household industry workers category Alibag tahsil (4.1 percent) recorded the highest percentage and Tala tahsil (1.0 percent) recorded the lowest percentage. In other workers category Panvel tahsil recorded (72.7 percent) the highest percentage and Tala tahsil recorded (16.4 percent) the lowest percentage. In the district females in cultivators, agricultural labourers and household industry workers, are higher percentage than males and other workers category males percentage are higher than females percentage.

Note: Percentage of Workers to total workers are given in brackets.

Table 35 indicates the distribution of workers by male and female workers in four categories of economic activity in C.D. Blocks of the district.

The economy of the district is primarily agricultural which is supported by the fact that cultivators (35.3 percent) and agricultural labourers (25.0 percent) together constitute 60.3 percent of the total workers of the district. The remaining 39.8 percent of workers are engaged in household industry and other work.

The proportion of cultivators varies between 74.6 percent for Poladpur C.D. Block and 19.9 percent for Shrivardhan C.D. Block. The proportion of agricultural labourers varies between 39.9 percent for Pen C.D. Block and 9.1 percent for Poladpur C.D. Block

The proportion of household industry for district is 2.7 percent. The proportion of household industry workers, varies between 4.4 percent for Alibag C.D. Block to 0.9 percent in Poladpur C.D. Block. Among 15 C.D. Blocks four C.D. Blocks have higher household industry workers than the districts average (2.7 percent) and their proportion is lower in the remaining Eleven C.D. Blocks.

The proportion of other workers for district is 37.1 percent. The proportion of other workers varies between 60.6 percent in Uran C.D. Block and 15.4 percent in Poladpur C.D. Block. Among 15 C.D. Blocks six C.D. Blocks proportion of other workers have higher than that of district average (37.1 percent) and their proportion is lower in the remaining nine C.D. Blocks.

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Educational

The educational amenity is available in 1,737 villages, which constitute 93.4 percent of the total 1,859 inhabited villages of the district. (Table-37). The educational facility is available to 97.5 percent of rural population in the district (Table-38).

There are 136 villages do not have primary school facility. The students of these 124 villages have to cover a distance of at least 5 kms. to reach a place as such facility, for 10 villages they have to cover a distance between 5-10 kms. and two villages they have to cover a distance 10 and above kms. There are 1146 villages which do not have middle school facility. The students of these 939 villages have to cover a distance of atleast 5 kms. to reach a place with such facility, 176 villages they have to cover a distance between 5-10 kms. and 31 villages they have to cover a distance 10 and above kms. There are 1,854 villages which do not have degree college. The students of 251 villages have to cover a distance atleast 5 kms. to reach a place as such facility, 446 villages they have to cover a distance between 5-10 kms and 1,157 villages they have to cover a distance 10 and above kms. (Table –39).

As per the distribution of villages, according to distance range from nerarest statutory town the educational amenity is available in 99 villages within less than 5 kms. 651 villages have the amenity at a distance range of 5 –15 kms. 980 villages at a distance of 16-50 kms. and 7 villages at a distance of 51 and above kms.

According to the population range the availability of educational amenity, there are 1,737 inhabited villages constituting 93.4 percent out of 1859 inhabited villages. It has been observed of the 1,737 villages have educational amenity of these 593 villages have population upto 499 (85.3 percent), 640 villages have population range from 500-999, 365 villages have population ranging 1000-1999, 122 villages have population ranging from 2000-4999 and remaining 17 villages have population ranging 5000 and above. The educational amenities are available within the revenue limits by their respective villages.

Medical

Medical institution of one or the other type are functioning in 562 (30.2 percent) villages out of 1,859 inhabited villages in the district, Uran C.D. Block has reported the medical amenity for 32 (60.4 percent) villages which is higher than the remaining C.D. Blocks and the district average (30.2 percent). 49.7 percent of rural population of the district gets the benefit. These villages provide the amenity not only to the resident population concerned villages but to also those residing in surrounding villages. Generally these villages enjoy central location and are away from towns and trend to be large in population size.

1,297 villages out of 1,859 villages do not have any type of medical amenity in their respective village limits. Of these as many as 221 and 608 villages are situated at a distance of hardly 5 Kms. with reference to the nearest place with medical amenities uch as hospital and PHC respectively. Another 515 and 689 are located at a distance of 5-10 kms. for the same

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or o utside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

medical amenities. But in case of 1,106 and 516 villages, the residents have to cover more than 10 kms. to reach a place with these medical amenities.

As per the distribution of villages, according to the distance range from nearest statutory town, the medical amenity is available in 31 villages within 5 kms., 216 villages have medical amenity within 5-15 kms. 314 villages within 16-50 kms. and 1 village at a distance of 51 and above kms. from the nearest statutory towns (Table 40).

It may be seen that big sized villages (500-10000) are equipped with same kind of medical amenity within the villages, while small sized villages (below 500) barely have this amenity.

Drinking Water

The household has access to drinking water supplied from a tap or a hand pump or tube well situated within or outside the premises is considered as have a access to improved drinking water source. The improved drinking water is available in 1522 villages constituting 81.9 percent of 1859 villages.

Postal

The amenity of post and telegraph is available to 383 villages (20.6 percent) out of 1859 inhabited villages serving 38.9 percent of the rural population of the district. With in 15 C.D Blocks of the district, the percentage of villages having amenity of post and telegraph varies considerably, Shrivardhan C.D Block with 35.4 percent villages with post office amenity has the highest proportion whereas Khalapur C.D Block with 10.9 percent holds the last rank.

Postal amenities are not available in 1480 villages. Out of these 1105 villages have to cover a distance of less than 5 kms. 273 villages have to cover a distance between 5-10 kms. to avail the postal amenity people of 102 villages have to cover a distance more than 10 kms. for availing postal amenity. (Table-39).

According to the distance range location of 383 villages with post office from nearest statutory town. Among the 383 villages with amenity of post office, 23 villages with less than 5 kms. distance range from the nearest statutory town, 149 villages with distance range of 5-15 kms., 210 villages with 16-50 kms., one village with range of 51 and above kms. from nearest statutory town. (Table-40).

It has been obsereved that of the 383 villages having postal amenity. 32 villages have population upto 499, 120 villages with range of 500-999, 134 villages with a range of 1000-1999, 84 villages with range of 2000-4999, and remaining 13 villages within population range of 5000 and above are availing postal amenities. (Table-41).

Telephone

1104 villages constituting 59.4 percent of the 1,859 inhabited villages in the district are enjoying the telephone amenity, 74.2 percent of the total rural population is located in these villages of the district, Shrivardhan C.D. Block covers as high as 98.9 percent population. Tala C.D Block with 31.4 percent population, which is lowest of all C.D. Blocks.

Telephone amenity is not available in 755 villages. Out of thses the amenity is available to as many as 344 villages at a distance of less than 5 kms., 166 villages have the amenity accessible at a distance between 5-10 kms. while the amenity to 245 villages is accessible at a distance beyond 10 kms (Table–39).

As per distribution of villages, according to the distance from the nearest statutory towns. There are 77 villages with the amenity at a distance of less than 5 kms. 476 villages at a distance of 5-15 kms., 550

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Transport and Communications

Transport communications includes bus service, rail amenity and navigable waterway. If a bus stop or a railway station or navigable waterway is located within the territorial Juridiction of a village. It is considered to have been served by such facility even it is little away from the actual settlement 1,386 (74.6 percent) villages have communication amenity available serving 84.0 percent of the rural population of the district. 76 villages of Shrivardhan C.D. Block constituting 96.2 percent of total villages have the highest proportion of villages. Where communication/ transport amenity is available while the Khalapur C.D. Block with 62.2 percent coverage of villages holds the last rank. (Table-37).

Out of 1,859 inhabited villages 485 villages do not have any communication amenity of these villages, the resident of 417 villages have to cover a distance upto 5 kms. to reach a place with such amenity for 59 villages it is between 5-10 kms. and for 9 villages it is more than 10kms. (Table-39).

As per the distribution of villages, according to the distance range from nearest statutory town, the transport communications amenity is available in 85 villages within 5 kms. from nearest statutory town, 538 villages at a distance of 5-15 kms. 760 villages are at a distance of 16-50 kms. and 3 villages are at a distance of 51 and above kms.

The availability of this amenity depends upon the location of the villages with reference to road. Among the 1,386 villages which have the availability of communication amenity within their respective limits. The population for 439 villages is less than 500, 501 villages in range of 500-999, 308 villages in range of 1000-1999, 121 villages in range of 2000-4999, and the remaining 17 villages fall in the range of 5000

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

and above. Thus the population size of a village has an impact on the availability of communication amenity. (Table-41).

Banking

The amenity of banking service is available in 96 villages (5.2 percent). Out of 1859 inhabited villages serving 14.5 percent rural population of the district. 15 villages (7.9 percent) having highest banking amenity available in Alibag C.D Block and 1 village (1.6 percent) having lowest banking amenity available in Tala C.D Block.

Out of 1859 inhabited villages the people of 726 and 533 villages have to cover a distance upto 5 kms. for availing the amenity of commercial bank and co-operative bank respectively for 581 and 618 villages the amenity is available at a distanct of 5-10 kms and remaining 472 and 666 villages the amenities available at a distance of more than 10 kms. (Table 39).

5 villages are having banking amenity at a distance up to 5 kms form the nearest statutory town and 40 villages are having the amenity available to the distance range 5-15, 51 villages are having the amenity available to the distance range of 16-50 from the nearest statutory town and no villages a distance of 51 and above kms (Table 40).

Among 96 villages with the amenity of Bank, 19 villages have banking amenity in the range of 1-999, 68 villages are in range of 1000-4999, 8 villages are in the range of 5000-9999 and remaining one village in the range of 10,000 and above (Table 41).

Agricultural Credit Societies

There are 404 villages (21.7 percent villages) having agricultural credit societies, in the district. 32.0 percent of rural population is concertrated in these villages. The amenity is available to the highest 88 villages (48.4 percent) in Mahad C.D. Block and lowest in one village (0.6 percent) in Roha C.D. Block 1,455 villages are not having this amenity. Out of these the amenity is available to as many as 758 villages at a distance upto 5 Kms.. 360 villages within 5-10 kms. and 337 villages at a distance beyond 10 kms. (Table 39).

As per the distribution of villages according to availability of amenity from the nearest statutory town 20 villages are situated at a distance of less than 5kms. while 142 villages at a distance between 5-15 kms. 241 villages at a distance of 16-50 and one village is at a distance of 51and above kms (Table 40).

There are 74 villages having this amenity with population less than 500, 142 villages with population of 500-999, 118 villages with population of 1000-1999, 61 villages with population of 2000-4999 and remaining 9 villages with population of 5000 and above (Table-41).

Approach by Pucca Road

Road weather pucca or kachcha are the nervous system of a district. They act as factor for the development and upliftment of the areas. Roads with cement concrete, black top, water bound macadam etc. come under pucca roads and the remaining are treated as kachcha roads.

Pucca road amenity is available to 1,331 villages (71.6 percent) out of 1,859 inhabited villages in the district. Population of 1,412,003 persons (84.4 percent) avails of the approach road amenity.

A perusal of the amenity in C.D. Blocks shows that Uran C.D. Block 47 villages (88.7 percent) have highest number of this amenity and the lowest 91 villages (54.2 percent) in Roha C.D. Block (Table 37).

There are 99 villages at a distance of up to 5 kms. from the nearest statutory town. 520 villages at a distance 5-15 kms. 710 villages at a distance 16-50 kms. and remaining 2 villages are at a distance range of 51 and above kms. from nearest statutory town. (Table 40).

According to the population range the approach to pucca road amenity is available for 374 villages (53.8 percent) with population range up to 499, for 487 villages (74.1 percent) are in the range of 500-999, for 332 villages (91.0 percent) in the range of 1000-1999, for 120 villages (96.8 percent) in the range of 2000-4999, and remaining 18 villages (cent percent) having population range 5000 and above population size is an important factor directly associated with availability of pucca road facility larger the size of a villages, greater are the chances of its having this facility.

Power Supply

1,848 villages (99.4 percent) are having power supply facility in the district. There are only 11 villages do not have power supply amenity. A perusal of the C.D. Block wise data reveals that the power supply is available to the Khalapur, Pen, Roha, Sudhagad, Mangaon, Tala, Shrivardhan, Mhasla, Mahad and Poladpur C.D. Blocks have cent percent power supply amenity. Out of 1859 inhabited villages in the district, population of 1,669,564 (99.8 percent) avails of the power supply amenity.

The amenity of power supply is available 686 (98.7 percent) villages in the population range less than 500, 655 villages are in the range of 500-999, 365 villages are in the range of 1000-1999, 124 villages are in the range of 2000-4999 and remaining 18 villages are in range of 5000 and above.

It may be summed up from foregoing paragraphs that in respect of availability of different types of amenities and facilities considered. The larger villages have an advantage over the smaller ones population size and availability of amenities are associated with each other.

TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Uran	53	18,140.00	24.9	0.0
2	Panvel	160	52,338.00	26.5	0.0
3	Karjat	175	62,087.41	25.8	15.7
4	Khalapur	119	36,517.00	17.0	5.0
5	Pen	153	49,439.00	40.0	0.7
6	Alibag	189	48,437.02	42.8	2.6
7	Murud	72	25,093.00	39.2	1.2
8	Roha	168	62,875.00	30.1	10.5
9	Sudhagad	97	45,567.00	16.4	6.1
10	Mangaon	184	67,556.13	26.9	12.2
11	Tala	62	25,006.00	13.4	0.3
12	Shrivardhan	79	25,389.00	42.3	2.4
13	Mhasla	80	31,020.00	55.0	0.1
14	Mahad	182	80,919.00	31.0	4.1
15	Poladpur	86	36,925.00	69.1	0.0
	District Total:	**1,859**	**667,308.56**	**32.5**	**4.4**

Note : - Cultivable area = irrigated area + unirrigated area

Table 42 shows distribution of villages according to land use. The district as a whole total cultivable area is 32.5 percent of the total area, out of 15 C.D Blocks 6 C.D Blocks are above the district average i.e. Pen 40.0 percent. Alibag 42.8 percent, Murud 39.2 percent, Shrivardhan 42.3 percent. Mhasla 55.0 percent and Poladpur 69.1 percent and remaining nine C.D Blocks are below district average Uran 24.9 percent, Panvel 26.5 percent, Karjat 25.8 percent, Khalapur 17.0 percent, Roha 30.1 percent, Sudhagad 16.4 percent, Mangaon 26.9 percent, Tala 13.4 percent and Mahad 31.0 percent.

Only 4.4 percent of the total cultivable area is irrigated in the district. In Karjat C.D Block the proportion of irrigated area is maximum 15.7 percent and minimum in Mhasla C.D Block (0.1 percent) and zero percent in Uran, Panvel and Poladpur C.D Blocks. Karjat (15.7 percent), Khalapur (5.0 percent), Roha (10.5 percent), Sudhagad (6.1 percent), Mangaon (12.2 percent) C.D Blocks are reported the percentage of irrigated area higher than the district average.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or o utside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Bathroom means bathroom within the house

Toilet means toilet within the house

Drainage means closed and open drainage

This table gives the classification of households having improved drinking water sources, electricity, bathroom toilet and drainage facility available in the district.

According to 2001 Census the facility of improved drinking water is available for 323,755 households constituting 68.6 percent of the total households. In rural and urban areas of the district this facility is available for 216,279 (60.3 percent) and 107,476 households (95.2 percent) respectively. The facility of electricity is being enjoyed by 410,822 households (87.1 percent). In rural and urban areas of the district this facility is being enjoyed by 303,153 (84.5 percent) and 107,669 (95.4 percent) respectively. The facility of bathroom is available in 327097 households constituting (69.4 percent) households. For rural and urban areas this facility is available for 223,864 (62.4 percent) and 103,233 households constituting 91.5 percent respectively. The facility of toilet is available to 156,129 households, which constitute 33.1 percent of total households in the district. In rural and urban areas toilet facility is available for 81,431 (22.7 percent) and 74,698 households (66.2 percent) respectively. The facility of drainage is available 180,852 households which constitute 38.3 percent in the districts. Total households for rural and urban areas this facility is available for 90,491 households (25.2 percent) and 90,361 households (80.0 percent) respectively.

Percentage in brackets.
Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 51 gives the number and percent of households by type of fuel used for cooking in rural and urban areas of the district. Out of 471628 households 242405 (51.4 percent) households use firewood for cooking 6858 (1.5 percent) households use crop residue 1336 households (0.3 percent) use cowdung cake, 320 households (0.1 percent) use electricity 191 households use coal/lignite, (charcoal), 149930 (31.8 percent) households use cooking gas (LPG), 2157 (0.5 percent) households use Bio-gas, 66454 (14.1 percent) households used kerosene, 89 households use others 1888 (0.4 percent) households reported no cooking being done by them.

In the rural areas 233788 households constituting (65.2 percent) of the total households use firewood for cooking. This is followed by use of crop residue (1.7 percent), cooking gas (20.4 percent), Kerosene (11.5 percent), electricity (0.1 percent) cowdung cake (0.3 percent), Bio-gas (0.5 percent).

In urban areas 8617 households (7.6 percent) use fire-wood, 824 households (0.7 percent) use crop-residue, 145 (0.1 percent) households use cowdung cake, 119 households (0.1 percent) use electricity. 58 households (0.1 percent) use coal/ lignite, 76710 (68.8 percent) households use cooking gas (LPG), 357 (0.3 percent) households use Bio-gas, 25215 (22.3 percent) households use kerosene and 805 (0.7 percent) households reported no cooking being done by them.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table gives the number of households availing banking services and numbeer of households having each of the specified asset 2001.

There are 471,628 households of which 358,745 are rural and 112,883 are urban. The banking facilities are being availed by 177,426 households of which 103,028 households are rural and 74,398 are urban. It may be seen that a higher proportion of households in urban areas 65.9 percent of total urban households utilize the banking facility as compared to the rural areas 28.7 percent of the total rural households avail of the banking facility.

In the district 182,906 households have own radio/ transistor, 188,501 households have own television, 68,856 households have own telephone, 107,562 households have own Bicycle, 55,101 housseholds possess scooter/motor cycle, 13,243 housseholds possesses car jeep or van. It may be noticed from the information available that of these 471,628 households, 197,379 housseholds do not possessof the above specified assets. In the rural and urban areas there are 176,330 and 21,049 such households respectively, who do not possess any of the specified assets.

(viii) Major Social And Cultural Events, Natural And Administrative Developments And Significant Activities During The Decade.

During decade 1991-2001, one new tahsil viz., Tala and 25 new villages were created in Raigarh district. Eight revenue villages attained the status of Census towns, 6 villages of Karjat tahsil merged in Karjat MCl, one village has been merged in another village and one Census town has been declassified.

There are now 15 tahsils instead of 14 tahsils and 26 towns in Raigarh district.

(ix) Brief Description of Places of Religious, Historical or Archeological Importance in the Villages and Places of Tourist Interest in the Towns of the district.

Fairs

Bombly Vithoba fair is held at village Talai in Khalapur tahsil. People from the neighbouring villages in Raigarh and Pune districts attend the fair. The maximum attendance during the fair period exceeds one lakh. The fair is open for all communities and religions. Various types of shops dealing in dry and fresh fish, cloth, garment and other articles of daily use are seen in the fair. A larg number of fairs are held in rural and urban areas.

Place of Historical and Tourist Importance

Important tourist attractions in the district include Elephanta cave in Gharapuri island of Uran tahsil and Matheran in Karjat tahsil, Raigarh fort in Mahad tahsil and Shirdhon fort in Panvel tahsil are important Historical places. Harihareshwar in the district is known for its tranquil and picturesque beach and is also landmarked by Kalbhairav, the Shiva temple. Other places of tourist interest are Khopoli, Kihim and Murud-Janjira.

Harihareshwar

Harihareshwar is famous for stranquil and picturesque beach. Kalbhairav the Shiva Temple is also worth seeing. One can also see the original residence of the Peshwas or Prime Ministers of the Maratha Kingdom to the north side of the bay 'Peshwa Smarak and the Bonkot Fort' can also be visited at Bagmandala, about four kms. away.

Khopoli

Khopoli provides a refreshing breathe to motorists plying the busiest Mumbai – Pune highway. It also provides very interesting sightseeing places like Dukes Nose, Rajmachi Point, Tiger's leap and the Ashtavinayaka temple of Shri Ballaleshwar at Pali (38 kms.) and Shri Varad Vinayak at Madh (7 kms).

Raigarh

Raigarh, Shivaji's impregnable capital is the place where he was crowned and later died. His samadhi and the remains at his palace can also be seen. Gangasagar lake and Jeejamata palace of Pachad are other places worth seeing. Raigarh remain a hikers paradise due to its immense beauty. The formidable Pratapgad Fort with equestrian status of Shivaji provides an interesting excursion.

Matheran

A famous hill resort in Karjat tahsil. Tourists from Mumbai and other places visit this town to enjoy the cool climate during the hot season. It is an enjoyable picnic spot. The government has set up fully furnished holiday camp and restaurants for the tourists. The hill station is linked by Railway with narrow gauge. Train is available from Neral station of Central Railway (Mumbai-Pune section) and nearly two hours journey to Matheran is enjoyable and pleasant. Other places of interest in Matheran are lake Charlotte, Honey-moon Hill and Panther' Cave. Matheran is also famous for leather goods.

Forts

There are nine forts in the district. Raigarh and Jangira are the famous among these fort. Raigarh fort is the very heart of Marathas. Raigarh, the capital of Shivaji's kingdom. It is strategically perched a top a wedge shaped block of hill split off from the western ghats and inaccessible from three sides. If stones could talk, every pebble at Raigarh would have tales to tell of gallant men and women and their incredible valour and heroic deeds. Inspired by their dauntless courage scale the Takmak Cliff or Lingmala rock face. Scramble up the pritilous Hirakani Buruj or pitt your skills against Bhavani Kada. An qura of pomp and grandear a spirit of striring adventure pervades Raigarh with its life size 800 km. Bronze statue of Shivaji and the Spartan samadhi where the last remnants of that great warrior are sheltered beneath a chartri (cupola). Another rocky pathway leads from Raigarh to Pratapgad where the fateful "Waghnakh" tryst with Afzalkhan took place.

(x) Major Characteristics of the district, Contribution of the district in the form of any Historical figure associated with the district

Raigarh district is endowed with three major economic resources viz. Agricultural land, maritime fishery and an Abundance of mineral deposits. The district is famous for paddy and large areas of land have been brought under paddy cultivation. In addition Coconut, Kokum and Arecanut trees present a beautiful landscape of the district.

The district has a long coastline and has considerable fishing activities of prawns, tuna and other varieties of fish. Many types of fish are being send from this district to Mumbai and Pune districts.

As per the recent survey conducted by M.I.D.C. on the western coast, they have indentified a large number of sites suitable for development of tourism in which beaches of Elephanta, Alibag, Uran and Murud have been indentified as some of the best beaches on the western coast. Development of tourism and the Konkan Railway which has been

completed trains are running smoothly in the coastal area. Arabean sea in western and southern India.

Marathi is the local language of the district and rice and fish curry is quite popular several dishes are prepared from rice flour. Ganesh Utsav, Shimga(Holi), Diwali, Ramnavami, Hanumn Jayanti, Muharram, Shivaji Jayanti, Ambedkar Jayanti are the religious festivals of the people. But Gauri-Ganpati and Shimga (Holi) are the most important festivals of the district. People from the neighbouring towns visit Raigarh to participate in these festivals.

Contribution Of The District

The eminent economist of India Shri C.D. Deshmukh belonged to Raigarh district.

(xi) Scope of Village Directory and Town Directory

Information on this aspect is furnished in detail in the village and town directory statements and in a consolidated form in the appendix and also in the tables presented. The non-census information collected at the village level or town level by the Tahsildar / chief officer was scrutinized and verified in each district by the district planning officer / district statistical officer. The Collectors were also requested to once again reverify the data in case serious discrepancies were observed. Logical tests were applied to the data and the officials of this directorate visited the districts to revalidate the data. Besides this, the non-census information was cross-checked with the parent department. For example information on electricity was cross checked with Maharashtra State Electricity Board, that on roads with Public Works Department, on health with the Directorate of Health and so on.

Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village.

The Village Directory format has 23 columns and the details given under each column for the village are as follows:-

Column 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical,

drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII and X are included in Higher secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

This column provides data available on medical amenities in the village.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

Column 8 gives information regarding availability of drinking water within the village. In case more than one source is available to the village the same has been indicated.

Column 9 : Post, Telegraph and Telephone

Column 9 provides the postal facilities such as post office, telegraph office, post and telegraph office and telephone connections available in the village.

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc., the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given.

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given.

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded.

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable waterway, the same has been indicated in this column.

Column 14 : Approach to village

Approach to village refers to the state of road leading to village.

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

This column relates availability of Power Supply in the village.

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column.

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23: Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) upto one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department.

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / Non-municipal Towns.

Appendix - IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix - VII A, VII B The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.

Town Directory :

The town directory is presented for each town covering different aspects of urban life. In 2001 Census, Statement I – VII have been included for presentation of this data. The data contained in these statements are the area, population in 2001 and past Censuses, growth rates, density, sex ratio, physical aspects of towns, communications, municipal finance, civic, medical, and educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutory notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns the Tahsildar and cantonment executive officers supplied the information.

Statement I-Status and Growth History

Statement I shows the status and growth history of the towns in the district, column 2 in this statement indicates class, name and civic administration status of a town. Class of the town indicated under this column has been introduced to facilitate the analysis of town directory data at the State and National level. Census towns have no urban civic status.

Column 3 indicates location code number of the town, column 4 gives name of tahsil and column 5 shows the name of C.D.Block. Column 6 presents area in Sq. Kms., Column 7 presents number of households including houseless households.

Column 8 to 18 gives population and growth rate of town since 1901 and would help in drawing the trends in their growth rate, Column 19 presents density and Column 20 to 22 presents sex ratio.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV-Civic and other Amenities, 1999

Statement IV provides information on the civic and other amenities available in the town. Total population given under column 3 and Schedule Castes/ Scheduled Tribes population given in column 4 and 5 have been added to help in measuring amenities in respect of population size of the weaker sections in the towns. The information on the road length within the town shown under column 6 has been obtained from Municipality.

Column 7 to 12 reflects the information on system of sewerage, number of latrines, and method of disposal of night soil.

Column 13 indicates sources of protected water supply to the inhabitants of the towns. The information on storage and capacity is shown under column 14.

Column 15 gives information regarding availability of fire fighting services. In case it is not available in the referent town, the name of the nearest place where it is available has been mentioned and the distance from the town has also been indicated within brackets. Column 16 to 20 pertains to the number of electricity supply connections available for domestic, industrial, commercial and road lighting points etc.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres are treated as independent units.

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc.

Column 6 to 9 :

The information on educational facilities is reflected in columns 6 to 9

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14: Higher Secondary/ Intermediate/Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

Schools up to class IV are treated as Primary or Elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class IV and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University /Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like Middle schools with Primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P (4), M (3).

Column 15: Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostels if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational and cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded.

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

PART A
VILLAGE AND TOWN DIRECTORY

Section I - Village Directory

(a)Note Explaining the abbreviations used in Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X are included in secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12:Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water way they are mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If a village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK

(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A The appendix shows the list of villages according to proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B The appendix shows the list of villages according to proportion of the Scheduled Tribes to the total population by ranges.

(b) List of Villages fully merged in towns and outgrowth at 2001 Census

Serial Number	Name of Villages	Location Code No. 1991	Merged in towns and Outgrowths

Section II - Town Directory

(a) Note Explaining the abbreviations used in Town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) :Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows:

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board / Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate Office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Other columns need no comments

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha/pucca road is recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called seperate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) and others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 and 5 : Medical

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning

centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres are treated as independent units and counted separately using following codes:

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution(s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

Column 6 to 9 :Educational

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocationl institutions like - Applied Art/ Painting college, Pharmacy college, B.Ed. college, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :Higher Secondary/Intermediate/ Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/Junior Secondary and Primary Schools.

Schools up to class IV are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University/Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats.

The number of working women's hostels if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of the nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities.

Stadium, Cinema, Auditorium/ Drama / Community Hall are covered under recreational and cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading Room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies.

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area Committee etc.

PART B
PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the

quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE - II

Fertility and Mortality, 1991 Census

Fertility Levels :

Fertility is a major component of population growth. In the 1991 census, questions on fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year were asked. The first three questions were asked to all ever-married women and the last question related to currently married women. The measures of fertility worked out are based on the F-Series Tables of 1991 Census pertaining to Maharashtra State.

Mortality Levels

Information on questions on children ever born and children surviving canvassed for all ever-married woman has been tabulated by age of the mother. From this, estimates of child mortality have been worked out using Brass technique.

ANNEXURE II (i)
Estimates of Child Mortality, 1991

Item		Raigarh District Total	Maharashtra State Total
1	2	3	4
Q1	P	63	74
	M	74	72
	F	56	76
Q2	P	71	79
	M	89	78
	F	64	81
Q3	P	78	86
	M	94	84
	F	69	89
Q5	P	87	91
	M	101	89
	F	75	93

Mortality

From the estimate of child mortality (number of deaths by ages 1, 2, 3 and 5 given above as q(1), q (2), q (3) and q (5)) it is observed that the level of child mortality in the district is higher for males compared to the state males in 1991 census. A notable feature is the lower female mortality compared to male mortality in the district as against higher female mortality for the state. However, the sex differentials in child mortality appear to be more pronounced in the district compared to the State.

Fertility

ANNEXURE II (ii)
Estimate of Fertility Indicators at district level, Maharashtra,1981 And 1991

Fertility Measures	Raigarh District 1981	Raigarh District 1991	Maharashtra State 1981	Maharashtra State 1991
1	2	3	4	5
GFR	133	120	134	124
GMFR	174	160	168	157
TFR	4.4	3.8	4.3	3.7
TMFR	5.5	5.3	5.2	5.2
Crude Birth Rate (CBR)	32.9	30.9	31.8	29.8
No. of children ever born per women in the age group 45-49	--	4.1	--	4.2
Mean Age at Marriage	--	18.7	--	17.9
Child Women Ratio	--	46.0	--	49.6

A perusal of the various fertility measures namely GFR (General Fertility Rates), GMFR (General Marital Fertility Rate), TFR (Total Fertility Rate), TMFR (Total Marital Fertility Rate), CBR (Crudes Birth Rate) for the district vis-à-vis State reveals higher rates for the district as compared to State as a whole except GFR. In 1981, the GFR, GMFR, TFR, TMFR & CBR were 133, 174, 4.4, 5.5 and 32.9 respectively as compared with State average of 134 , 168 , 4.3 , 5.2 and 31.8 in Census 1981. Similar trend is observed in 1991 Census. In 1991 GFR, GMFR, TFR, TMFR & CBR were 120, 160, 3.8, 5.3 and 30.9 respectively for the district as against the State average of 124, 157, 3.7, 5.2, and 29.8 respectively.

It may be seen that, while during both Census 1981 and 1991 the fertility rates are higher for the district than the State as a whole except GFR. But the gap in fertility rates between the district and the State has marginally reduced in 1991 except GFR.

Mean age at marriage

Mean age at marriage is recorded slightly higher for the district than the State in 1991 Census.

Child Woman Ratio

The Child Woman Ratio is recorded lower for the district as compared to the State in 1991 census.

ANNEXURE III

Various Measures of Fertility and Mean Age at Marriage,1991

ANNEXURE - IV

Percentage distribution of Migrants by Place of Birth/Place of last residence, — 2001 Census.

Migrants by Place of Birth

ANNEXURE IV (i)

Percentage distribution of Migrants by Place of Birth – Maharashtra

Serial number	Place of Birth	2001 Census		
		Person	Males	Females
1	2	3	4	5
1	A. Migrants born within the state of enumeration	32,939,182	11,858,299	21,080,883
		80.5	72.3	86.1
	i) Migrants born elsewhere in district of enumeration.	20,718,400	6,618,661	14,099,739
		50.7	40.4	57.6
	ii) Migrants born in other district of the state	12,220,782	5,239,638	6,981,144
		29.9	32.0	28.5
2	B. Migrants born in other states of India	7,756,307	4,427,935	3,328,372
		19.0	27.0	13.6
3	C. Migrants born in other countries	197,731	109,447	88,284
		0.5	0.7	0.4
4	D. Unclassifiable	9	3	6
		0.0	0.0	0.0
	Total Migrants :	**40,893,229**	**16,395,684**	**24,497,545**
		100.0	**100.0**	**100.0**

On the basis of migrants by place of birth, there are 40,893,229 migrants in Maharashtra in 2001 comprising 16,395,684 males and 24,497,545 females. These migrants constitute 42.2 per cent of total population. Male migrants constitute 32.5 per cent of male population while female migrants account for 52.7 per cent of female population.

ANNEXURE IV (ii)

Percentage distribution of Migrants by Place of Birth – Raigarh

Serial number	Place of Birth	2001 Census		
		Person	Males	Females
1	**2**	**3**	**4**	**5**
1	A. Migrants born within the state of enumeration	774,412	274,472	499,940
		83.9	74.8	89.9
	i) Migrants born elsewhere in district of enumeration.	530,270	158,763	371,507
		57.4	43.2	66.8
	ii) Migrants born in other district of the state	244,142	115,709	128,433
		26.4	31.5	23.1
2	B. Migrants born in other states of India	145,690	90,572	55,118
		15.8	24.7	9.9
3	C. Migrants born in other countries	3,095	2,132	963
		0.3	0.6	0.2
4	D. Unclassifiable	0	0	0
		0.0	0.0	0.0
	Total Migrants :	**923,197**	**367,176**	**556,021**
		100.0	**100.0**	**100.0**

In Raigarh district there are 923,197 migrants comprising 367,176 males and 556,021 females. The migrants of this district constitute 41.8 per cent of total population. Male and female migrants constitute for 32.9 and 51.0 per cent respectively.

From the distribution of total migrants in Maharashtra by place of birth, it can be clearly seen that females predominate in intradistrict and interdistrict migration while males predominate in interstate and international migration. Similar trend can be seen in Raigarh district also.

ANNEXURE IV (iii)
Inter State Migrants to Maharashtra

Serial number	Place of Birth	2001 Census	
		Migrants	Percentage to total Migrants
1	2	3	4
1	Andhra Pradesh	450,898	5.8
2	Bihar	386,799	5.0
3	Gujarat	890,428	11.5
4	Karnataka	1,267,421	16.3
5	Kerala	307,676	4.0
6	Madhya Pradesh	616,059	7.9
7	Rajasthan	463,875	6.0
8	Tamil Nadu	267,477	3.4
9	Uttar Pradesh	2,172,971	28.0
	Total for Nine States	6,823,604	88.0
	Other States	932,703	12.0
	Total	**7,756,307**	**100.0**

The number of migrants born in other states of India is 7,756,307. It is seen that 19.0 per cent of the total migrants in Maharashtra are from other states. In case of Raigarh district 145,690 (15.8) per cent of the total migrants are from other states.

In case of Maharashtra 9 States viz., Uttar Pradesh, Karnataka, Gujarat, Madhya Pradesh, Andhra Pradesh, Rajasthan, Kerala, Tamil Nadu and Bihar together account for 6,823,604 migrants (88.0 per cent) out of 7,756,307 interstate migrants.

ANNEXURE IV (iv)
Inter State Migrants to Raigarh

Serial number	Place of Birth	2001 Census	
		Migrants	Percentage to total Migrants
1	2	3	4
1	Andhra Pradesh	8,854	6.1
2	Bihar	13,995	9.6
3	Gujarat	9,159	6.3
4	Karnataka	28,038	19.2
5	Kerala	9,937	6.8
6	Madhya Pradesh	4,395	3.0
7	Rajasthan	10,206	7.0
8	Uttar Pradesh	34,139	23.4
9	West Bengal	5,556	3.8
	Total for Nine States	124,279	85.3
	Other States	21,411	14.7
	Total	**145,690**	**100.0**

In respect of Raigarh district out of 145,690 interstate migrants Uttar Pradesh accounts for 23.4 per cent, Karnataka accounts for 19.2 per cent and Bihar account for 9.6 per cent.

Migrants by Place of last residence

ANNEXURE IV (v)
Percentage distribution of migrants by place of last residence - Maharashtra

	Place of last residence	2001 Census		
		Persons	Males	Females
	1	2	3	4
A)	Last residence within the State of Enumeration	34,225,081 82.0	12,486,174 74.5	21,738,907 87.1
i)	Last residence elsewhere in the district of enumeration	22,137,959 53.1	7,237,350 43.2	14,900,609 59.7

7	Rajasthan	8,763	6.8
8	Uttar Pradesh	29,079	22.7
9	West Bengal	4,657	3.6

ANNEXURE IV (viii) - (Contd.)

Serial number	Place of Last residence	2001 Census	
		Migrants	Percentage to total Migrants
1	2	3	4
	Total for Nine States	108,217	84.5
	Other States	19,808	15.5
	Total	**128,025**	**100.0**

In respect of Raigarh district out of 128,025 interstate migrants Uttar Pradesh account for 22.7 per cent and Karnataka account for 19.3 per cent.

Rural – Urban Components Of Migration

The flow of migrants would consist of four streams viz., rural to rural, rural to urban, urban to rural and urban to urban. The data on the basis of these various streams in case of migrants is classified by place of last residence. It presents data only in relation to internal migrants. The data for Raigarh district is presented separately.

ANNEXURE IV (ix)
Rural And Urban Composition of Internal Migrants by Place of last Residence, 2001 Census - Maharashtra

Place of last residence	Place of Enumeration		
	Total	Rural	Urban
1	2	3	4
Total Internal Migrant :			
1) Within the State			
Total	34,225,081	21,265,808	12,959,273
	100.0	62.1	37.9
Rural	24,089,515	17,275,775	6,813,740
	70.4	50.5	19.9
Urban	7,281,769	1,988,464	5,293,305
	21.3	5.8	15.5
2) In other States of India			
Total	7,313,139	1,165,461	6,147,678
	100.0	15.9	84.1
Rural	4,644,986	931,705	3,713,281
	63.5	12.7	50.8
Urban	2,392,567	184,302	2,208,265
	32.7	2.5	30.2

Note: The place of last residence unclassifiable as 'Rural' or 'Urban' is included in 'Total'.

Of the total 34,225,081 intrastate migrants, 50.5 per cent are from rural to rural, 15.5 per cent from urban to urban, 19.9 per cent from rural to urban and 5.8 per cent from urban to rural. In case of Raigarh district of the total 813,377 intrastate migrants 51.6 per cent are from rural to rural, 14.0 per cent from urban to urban, 14.9 per cent from rural to urban and 10.4 per cent from urban to rural.

ANNEXURE IV (x)
Rural And Urban Composition of Internal Migrants by Place of last Residence, 2001 Census - Raigarh

Place of last residence	Place of Enumeration		
	Total	Rural	Urban
1	2	3	4
Total Internal Migrant :			
1) Within the State			
Total	813,377	562,498	250,879
	100.0	69.2	30.8
Rural	540,858	419,837	121,021
	66.5	51.6	14.9
Urban	198,664	84,715	113,949
	24.4	10.4	14.0
2) In other States of India			
Total	128,025	54,982	73,043
	100.0	42.9	57.1
Rural	77,218	36,805	40,413
	60.3	28.7	31.6
Urban	45,700	15,510	30,190
	35.7	12.1	23.6

Note: The place of last residence unclassifiable as 'Rural' or 'Urban' is included in 'Total'.

In case of migrants from other states 7,313,139; 12.7 per cent have migrated from rural to rural, 30.2 per cent from urban to urban, 50.8 per cent from rural to urban and 2.5 per cent from urban to rural. In case of Raigarh district of the total 128,025 migrants, 28.7 per cent are from rural to rural, 23.6 per cent from urban to urban, 31.6 per cent from rural to urban and 12.1 per cent from urban to rural.

ANNEXURE IV (xi)
Percentage of migrants to total population, 1991-2001
Raigarh district

Serial number	Place of birth/Place of last residence	Total population	Total Migrants		
			Persons	Males	Females
1	**2**	3	4	5	6
1	**Migrants by place of birth**				
	2001 Census	2,207,929	923,197	367,176	556,021
			41.8	16.6	25.2
	1991 Census	1,824,816	642,535	223,311	419,224
			35.2	12.2	23.0
2	**Migrants by place of last residence**				
	2001 Census	2,207,929	944,333	376,835	567,498
			42.8	17.1	25.7
	1991 Census	1,824,816	646,825	225,031	421,794
			35.4	12.3	23.1

There are 923,197 (41.8 per cent) migrants by place of birth comprising 367,176 (16.6 per cent) males and 556,021 (25.2 per cent) females to total population in 2001. Similarly 944,333 (42.8 per cent) migrants by place of last residence comprising 376,835 (17.1 per cent) males and 567,498 (25.7 per cent) females to total population are found in Raigarh district.

It may be seen that the percentage of migrants by place of birth has increased in Raigarh district during the decade 1991-2001 for both males and females. Similar trend can be seen for the migrants by place of last residence also.

Note: # The 1991 Census could not be conducted in 33 villages of Akkalkuwa and Akrani C.D. Blocks of Dhule District. The population of these villages (Persons 16,052 Male 8,200 and Females 7,852) has been obtained from secondary sources and included in the population of district and Maharashtra. However, further details are not available.

Source:Table C-2 of Part IV-A, C Series, Socio-Cultural Tables,1991 Census

When compared to 1991 data, it is found that during the last decade the literacy rate of the state has jumped from 64.9 per cent to 76.9 per cent. While during the same period the districts' literacy rate has increased from 64.0 per cent to 77.0 per cent.

Source : Table 31 of Maharashtra State District Profile 1991

Marathi is the principal language of the district and is the mother tongue of 83.1 per cent of the district population. In rural areas Marathi speakers account for 88.9 per cent whereas in urban areas 65.1 per cent. Urdu is the second largest language spoken in the district. It

accounts for 6.1 per cent of the total population. The proportion of Urdu speakers is higher in urban areas (9.8 per cent) than the rural areas (4.9 per cent). The third largest language spoken in the district is Hindi, its percentage to the total population is 3.9 and mainly spoken in urban areas by 9.9 per cent people, whereas 2.0 per cent in rural areas.

The speakers of the minority languages are mainly concentrated in urban areas and their proportion in rural areas is very less.

It is found that during the last decade proportion of Marathi speaking persons has decreased from 87.7 per cent to 83.1 per cent whereas Urdu speakers proportion has marginally increased from 6.0 per cent to 6.1 per cent.
