Director of Census Operations, Maharashtra

Product Code Number

MOTIF

Nrusinha Saraswati Guru Mandir – Karanja

Karanja is considered to be the place of birth of Shri Guru Nrisinhasaraswati, the Second incarnation of Shri Guru Dattatreya. The construction of the temple dedicated to Shri Guru Nrisinhasaraswati commenced on December 3, 1933 and it was completed in four months. The problem arose about the image of the Swamiji as no one had seen him. As a preliminary measure Shri R.B. Dhurandhar, the then Principal of the Bombay School of Arts and Mr. Soloman were asked to paint the picture of *Swamiji* on the basis of the description of him given in Gurucharitra. Both of them painted the picture of Swamiji and it was found that they were exactly identical. An image that closely resembled the picture was prepared at Jaipur in marble and was installed on April 1, 1934. Besides, the idol of Nrisinhasaraswati, the temple contains the shrine of lord Dattatreya, Chintamani Ganpati, Kashi Vishveshvara and the *Padukas* of Nrisinhasaraswati.

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and collage),

medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri Samir Kumar Biswas, Director of Census Operations, Maharashtra. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective State Governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated: 17.10.2006

Preface

The Registrar General and Census Commissioner of India has in his foreword to this series of publications, not only provided the reader with the historical background of the District Census Handbooks but has also explained at some length the scope and coverage envisaged for this country-wide project. This volume contains the salient results based on the data gathered at the actual head-count and in addition contain a wealth of other non-census information in respect of Villages and Towns of the District. It is hoped that this volume would go a long way to meet the ever-increasing demand for the micro-level data in this era-planned development.

District Census Handbook of Maharashtra is a joint venture of the Government of Maharashtra and the Census Organisation of the Government of India. The design for the 2001 District Census Handbook was evolved centrally by the Census Commissioner, India. In the preparation of the District Census Handbook, the role played by the Census Organisation is that of data gatherer. In accomplishing this task we have had the ready and whole-hearted co-operation of the staff at various levels of different departments of the State Government. Much of the data so provided by this field –level officers have been cross checked with the data obtained from various departments and an attempt has been made to reconcile the discrepencies as well. The Village Directory data in addition were also examined logically and possible errors list generated village wise for select facilities was rechecked and revalidated with the revenue officers in the respective Collectorate.

I am extremely grateful to Shri D.K. Sikri, Additional Secretary and Registrar General, India for his guidance in bringing out this publication. I am equally grateful to Shri J. K. Banthia, I.A.S. the former Registrar General and Census Commissioner, India for his constant inspiration, help and guidance at every stage.

I also express my thanks to Dr. R.P. Singh, Dy. Registrar General, India (Map), Shri R.G. Mitra, Dy. Registrar General, India (Census Division), Dr. I.C. Agrawal, Assistant Registrar General (SS Division), Shri S.L. Jain Deputy Director (SS Division), Shri C.S. Arora, Director (EDP), Shri Himakar, Additional Director (EDP), Shri M.R. Balakrishnan, Joint Director (EDP), Shri Anil Kumar, Deputy Director (EDP) and their colleagues for their co-operation and support in bringing out this volume.

Shri Samir Kumar Biswas, IAS held the office of Director of Census Operations, Maharashtra and guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the direction and guidance of Shri Biswas. We would deem it our duty; therefore, to offer him our sincere and grateful thanks for all that he did for this project.

In this Directorate, Shri R.S. Meena, Joint Director guided this project in a meticulous manner and received all help from Dr. S.S. Hiremath, Deputy Director. The DCHB unit was spearheaded by Smt. Sushma Monga, Assistant Director, who was on deputation from the Planning Commission, New Delhi.

The physical features have been concurred by the Map section, after incorporating necessary changes, wherever required. The Maps, inserted are prepared by the Cartography section under the guidance of Shri D.N. Chaurasia, R.O.

I take this opportunity to offer my grateful thanks to all officials in various grades who have been actively involved in voluminous work of compilation and preparation of this volume. The list of the officials of this Directorate closely associated with this work is given separately.

District Highlights – 2001 Census

1 Washim is one of the least urbanized districts having about one-fifth of its population in urban areas whereas two-fifth of the States population lives in urban areas.

2 The literacy rate of Washim district is 73.4 percent.

3 The economy of district is primarily dependent on agricultural sector, more than 83 percent persons are engaged in agricultural activity.

4 Village Shirpur has the largest area (3,942.00 hectares) and Hasanapur village has the smallest area (39.00) among the villages of the district.

5 The percentage of Scheduled Tribes population in the district is 7.0.

6 The percentage of urban population (17.5 percent) is lower as compared to State urban population (42.4 percent).

7 Village Malegaon Jahangir is the most populated (17,677) and village Tapowan Kh. has a negligible population of only one person.

Definition of Census Town:

All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns:

i) A minimum population of 5,000;
ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and
iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

Note : Since the source for the total area figures in respect of the State and districts is the Surveyor General while that for the total area figures in respect of the tahsils is the Settlement Commissioner and Director of State Land Records Department the total areas, as also the rural areas, for the tahsils in district, may not add upto the corresponding figures shown against the district.

The population per square kilometre worked out from actual area figure upto 2 decimal point and then area presented in 1 decimal point.

M.Cl stands for Municipal Council

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of District Census Handbook

The origin of DCHB lay in the 1951 Census when it began as a joint venture between the Government of India and the State Government. The present volume pertaining to 2001 Census is sixth in series since then. The District Census Handbook (DCHB) is a unique publication from the Census Organisation that, in a condensed form, gives details of the Census and non-Census information from the village level upwards to the district level. It has therefore, been acclaimed & recognised as one of the best source of information next only to the district gazetteer.

The District Census Handbook as published in 1951 incorporated, some basic demographic and economic information of the district, village wise and town wise separately, besides having some important Census Tables. However, it underwent a radical change in the 1961 Census as a much more descriptive account of the district and a lot of non-census information on climate, rainfall, agriculture, industry, education, etc. was added to it besides a number of cross tables being picked up from various series of Census tables. In 1971 the District Census Handbook was divided into Part - A relating to Village and Town Directory, Part - B containing village and town wise Primary Census Abstract and Part - C reported on the administrative aspect and Census tables based on Primary Census Abstract etc. For the state of Maharashtra only Part A and B were published. The 1981 Census again saw the scope of it increasing to contain the data on literacy rate, Primary Health Centers etc. It was published as part A and B and the same pattern was again followed in 1991. However, in 1991 some of the non-census data included viz. information on girls schools, social forestry area etc., as separate Appendices. The DCHB, 2001 Census have been made more informative and exhaustive in terms of coverage and content. The scope of village directory has been broadened by including more types of facilities such as banks, recreational and cultural facilities, newspapers and magazines available in villages. Information on most important commodity manufactured in village and also income and expenditure of Gram Panchayat, wherever possible are provided.. Specific details on distances, in case a basic amenity is not available in the referent village is also given. These include distances in respect of availability of Primary and Middle school and College (in respect of the educational facility), Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre (in respect of the medical facility), Drinking water, Post Office and Phone, Communication, Bank, Credit Societies and Recreational facilities. The Non-Census information collected at the village level or town level by the Tahsildar/Chief officer was scrutinized and verified in each district by the District Planning Officer and District Statistical Officer. The Collectorates were also requested to once again verify this in case serious discrepancies were observed. Logical checks were applied to the data and the scrutiny points which emerged after this exercise were further verified in the field by officials of this Directorate. With reference to the town concerned, the nearest city with 5 lakh and above population has also been given in addition to 1 lakh and above population. The non-census information was cross-checked with parent department also. For example, information on electricity was cross-checked with Maharashtra State Electricity Board, that on roads with Public Works Department, on health with the Directorate of health and so on. It is felt that because of this extra validation, information provided in the 2001 District Census Handbook should become more reliable and can be used without any hitch by Scholars and Planners, alike in town directory, information on all types of slums, whether notified/recognised by the respective town authority or not and in respect of all statutory towns irrespective of their class as against

only Class I and Class II towns of the 1981 and 1991 Censuses are provided. The varied basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. A number of tables based on Primary Census Abstract are also made to correlate data with geography of the tahsils. A significant addition in the publication is inclusion of analytical notes as annexures on important aspects concerning Census data on (i) fertility, mortality and migration, (ii) various measures of fertility and mean age at marriage, (iii) percentage distribution of migrants by place of birth/place of last residence, (iv) main religions, (v) marital status of population, (vi) age, sex and education, and (vii) distribution of different mother tongue, all based on 1991 Census. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The Village and Town Directory as also the Primary Census Abstract included in this Handbook should quench the thirst of the planners involved in micro level planning.

(ii) Brief History of The District

In the tretrayunga the part of this country was a part of Dandakaranya and the Rishi Vasta had his ashram hermitage here were noted for being the centers of education. Washim is a place with antiquity and according to some scholars it is the place where vasta rishi performed penance and where many Gods come to bless him as a result of which, it comes to be known as Vastagulma. It mentain as Vastsagulma is traced in Padma Purana. Later a king named Vasuki from Karnataka come here and settled down near this place and called it Vasuki Nagar and afterwards it became complited to Washim or Bashim. Historically Washim was the capital of a branch of Vatakatas which is known as the Vastugulam branch of Vatakatas. The existence of the branch of the Vatakatas was unknown until the discovery of the Washim plates in 1939.

The rule of yadavas is known for their liberal potrouage to art and literature. During their rule a peculiar style of architecture called Hemadpanti after Hemadpant or Hemadri a Minister of Mahadeva and Ramchandra came in to vogue. During their rule the temples built in this style are found in Akola district (including Washim) at Ausing, Kutasa, Goregaon, Patched, Pinjar, Maheshpur, Vyala and Sindkhed.

In 1312 Kapur entitled Malik and Naib red an expedition to Devagiri marching through the district defeated and slew shankar and annexed his kingdom including Berar to the empire. The Washim district (Akola); thus come for the first time directly under Muhammedan administration. In 1572 Washim district alongwith rest of Berar become a province of the Nizam-shahi kingdom of Ahmadnagar in 1853, Berar (including Washim district) which formed a part of the Nizams dominion was assigned to the east India company in linguidation of the large debt due on account of arrears of pay of the Hyderabad contingent and as a security for the further payment of that force.

In 1857 Berar was reconstituted into two districts, East berar with its headquarters at Amravati and west berar with headquarters of Akola. In 1903 Nizam resigned a treaty for permanant control of Berar. But after some time the administrative control of Berar was given to the commissioner of Madhya Pradesh. After the formation of Buldana district in the year 1864 Washim district was initially formed in the year 1868 while Achalpur and Mhekar which had been at one time district were abolished and at the same time the western part of Berar was annexed to Washim district. Later Washim district was broken up and two tahsils of Washim and Magrulpir were included in Akola district. There were no major changes in the boundaries of the district or its tahsil between 1911 and 1956 with the reorganization of the state in 1956, the district was transferred from Madhya Pradesh to the Bombay State. Thus state of Gujarat was separated and the present state of Maharashtra was born on 1st May 1960. Though the state today had expression of the cultural and social homogeneity for the people. It was within the larger frame work of unity of the Indian nation.

At the time of 1961 saw the undivided Akola district (including Washim district) comprising of 6 tahsils including 1507 inhabited villages and 9 Towns at the time of 1971 census. The district had 6 tahsils comprising 1708 villages (including 219 uninhabited) and 9 towns with the upgradation of hamlets / wadies in the district, the number of villages have gone upto 1743 (including 197 uninhabited villages) and 9 towns in 1981

Census. At the time of 1991 census the district has 13 tahsils comprising 1,776 villages (202 uninhabited). After the 1991 census for administrative reason Akola district was bifurcated in to Akola and Washim districts by government of Maharashtra w.e.f. 1.7.1998 vide notification No.REN-4597/CR-5/ M-10 dt.30th June 1998. At the time of 2001 census the newly created district has 6 tahsils and 4 towns. Comprising 789 villages (including 87 uninhabited villages).

(iii) Administrative Set-Up

After the conduct the 1991 census many changes have been occurred in the administrative set up of Maharashtra resulting in increase of five districts. The number of divisions remain unchanged. It is same in 1991 and 2001 census. The total number of district rose from 30 in 1991 census to 35 in 2001 census. Mumbai district of 1991 census divided into two forming Mumbai and Mumbai subrbhan districts. Similarly new districts viz. Nandurbar, Washim, Hingoli and Gondiya were formed bifurcating Dhule, Akola, Parbhani and Bhandara districts respectively. Kokan division has 6 districts Nashik division has 5 districts, Pune division has 5 districts, Aurangabad division 8 districts, Amravati division 5 districts and Nagpur division 6 districts. Thus for 2001 census the state has 35 districts spread over 6 divisions. Washim district is included in Amravati division. It came in to existence form 1.7.1998 due to the bifuraction of Akola district from where 6 tahsils were transferred to Washim district. Thus Washim district now has 6 tahsils and 4 towns and 789 villages spread over Washim (128), Karanja (169), Manora (136), Mangrulpir (135), Malegaon (121), and Risod (100) tahsils. The changes which occurred after 1991 census in the number of villages, towns in each tahsil and also the reasons for variation in brief is presented in the following statement.

JURISDICTIONAL CHANGES DURING 1991-2001

Name of District/Tahsil	No. of villages as per 1991 Census while in Washim district	No. of villages as per Adjusted as per 2001 Jurisdiction	No. of villages as per 2001 Census	No. of New villages created	No. of Towns 1991 census	No. of Towns 2001 census	Changes since 1991 and Govt. Notification No.
1	2	3	4	5	6	7	8
Washim district	787	787	789	3	4	4	6 Tahsils (787 villages) Karanja, Mangrulpir, Risod, Malegaon, Manora & Washim and 4 towns transferred from Akola district to newly formed Washim district. No. REN.4597 / CR-5 / M-10 dated 30th June 1998. 3 new villages created after 1991 census. 1 villages merged in Mangrulpir (M Cl) 2 villages transferred from Malegaon Tahsil to Washim tahsil
1 Malegaon	122	120	121	1	--	--	1 New village created after 1991 census 2 Villages transferred to Washim Tahsil Noficiation No. REN/4587/545/M-6 dated 30-4-98
2 Mangrulpir	136	136	135	--	1	1	1 Village merged in Municipality (L.C.No. 66)
3 Karanja	169	169	169	--	1	1	--

JURISDICTIONAL CHANGES DURING 1991-2001 -(Contd.)

Name of District/Tahsil	No. of villages as per 1991 Census while in Washim district	No. of villages as per Adjusted as per 2001 Jurisdiction	No. of villages as per 2001 Census	No. of New villages created	No. of Towns 1991 census	No. of Towns 2001 census	Changes since 1991 and Govt. Notification No.
1	2	3	4	5	6	7	8
4 Manora	135	135	136	1	--	--	1 New village created after 1991 census
5 Washim	126	128	128	--	1	1	2 Villages transferred from Malegaon Tahsil Nofification No. REN/4587/545/M-6 dated 30-4-98
6 Risod	99	99	100	1	1	1	1 New village created after 1991 census.

For administrative purpose the district is divided into 2 sub-divisions viz., Washim and Mangrulpir. Washim sub-division includes Washim, Risod and Malegaon tahsils, Mangrulpir sub-division includes Mangrulpir, Karanja and Manora tahsils. The District Collector along with district Judge, Superintendent of Police, Chief executive officer of Zilla Parishad and other Senior Officers of the state Government look after the development and regulatory functions in the district. At the tahsil level the Tahsildar, Block development officer, Judicial Magistrate, Deputy Engineer and other officers look after their respective department for development and regulatory functions.

Local self Governments, its composition, jurisdiction and the role in the Development.

Gram Panchayat is the lower most rung of the democratic set-up of India. It is governed by the 'Bombay Village Panchayat Act, 1958'. The 'Sarpanch' and in the absence of Sarpanch, the 'Upa-Sarpanch' preside over every meeting of 'Gram Sabha'. At least four meetings of the 'Gram Sabha' are held every year. Sarpanch and Upa-Sarpanch are elected from amongst the elected members of the Panchayat.

73rd Constitutional Amendment

To make Panchayat Raj Institutions strong and to give more power to the people, the State Panchayat Act has been amended in confirmation with the 73 rd Constitutional amendment, which is implemented in the State in April 1994. The Main fundamental provisions of the 73 rd Constitutional amendments are as follows:

1. Constitution of Panchayat Raj Institutions at Village, Intermediate (Development Block) and district level.

2. The seats and the offices of the chairpersons in the Panchayats at all the levels to be reserved in favour of Scheduled Castes and Scheduled Tribes in proportion to the percentage of population of the Scheduled Castes or Scheduled Tribes, as the case may be.

3. The elections to these Panchayat Raj Bodies to be held at the interval of every five years.

4. Powers, Authority and Responsibilities of Panchayats: -

(a)The preparation of plans for economic development and social justice

(b)The implementation of schemes for economic development and social justice as may be entrusted to them including those in relation to the matters listed in the Eleventh Schedule.

5. An independent State Election Commission to conduct the elections.

6. Powers to impose taxes by, and funds of, the Panchayats.

7. Constitution of Finance Commission by the State at the expiry of every five years term to review the financial position of the Panchayats and to make recommendation regarding distribution of State resources between the State and the Panchayat.

Constitution of Gram Panchayat

The Gram Panchayat consists of not less than seven and not more than seventeen members elected from wards on the basis of adult franchise. They hold office for a term of five years. Among these a few seats are reserved for persons belonging to the Scheduled Castes, the Scheduled Tribes, Backward Class of citizens and Women, as may be determined by the State Election Commission in the prescribed manner.

Administrative powers and duties of Panchayats

Administrative powers and duties of Panchayats are - to take care of the funds at its disposal, to take over and maintain water supply schemes through "Village Water Supply Fund", to make provision for carrying out within/outside the village any work subject to any directions made by State Government for any scheme or for any purpose sponsored by the Government, to make provision for carrying out work which is likely to promote health, safety, education, comfort, convenience or social or economic or cultural well- being of the inhabitants of the village, to make provision for entertainment, public reception, contribution towards annual gathering, to encourage farmers and co-operative societies to increase and improve agricultural production etc.

Powers and duties of Panchayats in the scheduled areas

Powers and duties of Panchayats are - to obtain from the Gram Sabha a certification of utilization of funds for the plans, programmes and projects, prospecting licence or mining lease for minor minerals, control on erection of building, to remove any obstructions and encroachments upon public streets and open sites etc.

Establishment, Budget and Accounts

The day to day work of the Panchayat is done by Secretary of panchayat. The Chief Executive Officer of Zilla Parishad appoints the secretary of Panchayat. His salary is paid from the district fund.

The budget of the village Panchayat is submitted to the Panchayat samiti. It covers opening balance in the fund, estimated income, proposed expenditure and the amount to be contributed to the District Village Development Fund. The sanctioning authority of the village budget is panchayat samiti.

Taxation and Recovery of Claims

The taxes levied by the panchayat are - tax on buildings and lands, betterment charge or the lands benefited from schemes or projects undertaken by Panchayat from 'Village Fund', pilgrim tax, tax on fairs, festivals and other entertainments, tax on bicycles and on vehicles drawn by animals, tax on professions, trades, callings or employments, shop keeping and hotel-keeping, general sanitary cess, general water rate, a lighting tax, fee on markets and weekly bazars, fee on car stands/tonga stands, special water tax for water supplied through pipes, fee for the supply of water from well and tank for purposes other than domestic use and for cattle, fee for temporary occupation on public street, special sanitary cess upon private latrines, fee for cleaning cess pool, fee for grazing cattle, fee on the registration of animals, lump sum contribution by factories in lieu of taxes levied by Panchayat, farming of fees on markets, collection of cess on every rupee of land revenue etc.

Financial Assistance to Panchayats

Gram Panchayat receives financial assistance from the State Government, loan by Zilla Parishad, Equalisation grant, Village water supply fund and District village development fund.

Gram Panchayat-role in the Development of the village

Since the Gram Panchayat controls the village fund, it has an immense role in the Development of the villages. It makes reasonable provision within the village and submits to the Panchayat Samiti for approval. It supervises the village water supply scheme. It makes provision for carrying out within the village any work which promotes health, safety, education, comfort, convenience or social or

economic or cultural well-being of the inhabitants of the village.

Gram Panchayat can make provision for any public reception, ceremony or entertainment within the villages or make contribution towards at annual gathering or such other gathering of Panchayats in the district or the state.

It encourages farmers of the village to make use of co-operative societies in increasing and improving agricultural production. It supervises primary schools situated within the area of its jurisdiction.

Last but not the least, it is duty bound to take measures for the amelioration of the condition of Scheduled Castes and Scheduled Tribes and other Backward Classes and in particular, in the removal of untouchability carry out the directions issued in this regard from time to time by the State Government.

Objectives of the Local Self Government

With a view to promote development of democratic institutions and to secure greater measure of participation by the people in Development Plans and in local and governmental affairs by decentralization of powers and functions, Zilla Parishad and Panchayat Samities (C. D. Blocks) have been established in the district of Maharashtra in the year 1962 under the Maharashtra Zilla Parishad and Panchayat Samiti Act of 1961. The jurisdiction of Zilla Parishad and Panchayat Samiti i.e. C.D. Blocks corresponds to the district and tahsil boundaries except that the statutory towns are not covered by them.

The local self bodies are working as agencies of State Government. The 73rd Constitutional Amendment gave local self bodies the constitutional status. The new power bestowed upon them gave a great impetus to the development plans and its implementation.

Zilla Parishad

The Zilla Parishad has the authority for the purposes of the Act over the area for which it is established. The authorities charged with carrying out the provision of this Act for each district are–

a) The Zilla Parishad
b) Panchayat Samitis
c) The Standing Committee
d) The Subjects Committees
e) Presiding authorities
f) The Chief Executive Officer
g) Block Development Officer

The Zilla Parishad is assisted in its function by number of departments and each department is headed by class I or class II officers of the State Services.

Zilla Parishad consists of councillors directly elected on the basis of adult franchise from electoral divisions in the district for a term of five years. The number of councillors being not more than seventy-five and not less than fifty. Some seats of councillors are reserved for the persons belonging to Scheduled Castes, Scheduled Tribes, Women and Backward Class citizens.

Grants to Zilla Parishad

1. Grant of 7 percent of forest revenue to Zilla Parishad.

2. Purposive grant – State Government pays every year to Zilla Parishad a grant for works and development schemes transferred to Zilla Parishad.

3. Establishment grant – State Government pays by way of establishment grant, the average cost on account of the salaries and allowances.

4. Local cess matching grant – State Government pays a local cess matching grant to be paid to Panchayat Samiti through the Zilla Parishad.

5. Incentive grant – State Government pays to Zilla Parishad an incentive to speedier development.

6. Grants for plan schemes – State Government pays grant for such works and development schemes relating to any subject enumerated in the district List as are included in the development plan of the State.

7. Block grant – State Government pays to each Panchayat Samiti through Zilla Parishad for carrying one such work and development scheme.

The development work of the district is carried out through the various committees appointed for the purpose by the Zilla Parishad. The executive power for the purpose of carrying out the provisions of the Act lies with the Chief Executive Officer, who is appointed by the State Government.

All the development work within the district is carried out by the Zilla Parishad through the District Fund at its disposal.

The Deputy Chief Executive Officer works as the ex-officio secretary of the Zilla Parishad.

Panchayat Samiti

Panchayat Samiti Consists of members elected by direct election, its jurisdiction being the C.D. Block. The term of the members is five years. The Block Development Officer is the ex-Officio Secretary of the Panchayat Samiti. The Chairman and Deputy Chairman are elected by and from amongst the members of the Panchayat Samiti.

The overall plan of work and development schemes within the block is prepared and executed by the Panchayat Samiti.

Devolution of Powers and functions.

As per the 73rd Constitutional Amendment, Articles 243-G and Schedule 11 of the Constitution, 29 subjects are to be transferred to the Panchayat Raj Institution. The State Government implemented this amendment in April 1994 and provisions were made in the State Panchayat Raj Act to transfer these subjects to the Zilla Parishads, Panchayat Samitis and the Village Panchayats.

Source : 1. Bombay Act No. III of 1959 (The Bombay Village Panchayats Act,1958).

2. Maharashtra Act No. V of 1962 (The Maharashtra Zilla Parishads and Panchayat Samitis Act, 1961).

3. 73rd Constitutional Amendment.

Urban Local Bodies

The statutory urban local bodies are contonments, Municipallties or Municipal Corporations. The urban local bodies elects a councillor from each of the ward and his term is five years. The President of Municipal council or the Mayor of the Corportion and there deputy are elected from amongst elected councillors. The chairman of various committees are also elected from amongst elected councillors. Although for day to day administration the chief officer is responsible in a Municipal council, he work under the administrative control of the President of Municipal Council. In corporation a senior I.A.S. officer is deputed by state Government as Municipal Commissioner who is responsible for day to day administration and executive authority lies in him.

(iv) Physical features

Location and Size

Washim district lies in north central Maharashtra. It is located between 19º 45' and 20º 45' North latitudes, and 76º 30' and 77º 45' East longitudes. It is surrounded by Akola district to the north, Yavatmal and Amravati districts to the east, Hingoli district to the south and Buldana district to the west.

The headquarters of Washim district is located at Washim, a town having a population 62,956 as per the 2001 Census. It is a railway station on the metre gauge railway line running between Akola and Hingoli.

The district has an area of 4,898.0 sq.kms. and a population of 1,020,216 persons as per Census 2001. While the area of the district accounts for 1.6 percent of the total area of the State, the districts population constitutes 1.1 percent of the total population of the State. The density of population is 208 persons per sq. km. Among the 35 districts of the State, the district ranks 31st in terms of area, 32nd in terms of population and 26th in terms of density.

Physiography

India has been divided into four macro level physical divisions i.e. The Northern Mountains, The Great Plains, The Deccan Plateau, and The Coastal Plains and Islands.

Maharashtra falls under two of these macro level divisions 1)The Deccan Plateau, and 2) The

Coastal Plains and Islands. The north-south running Sahyadri range separates these two divisions. The Deccan Plateau lies to the east while the Coastal Plains and Islands lie to the west up to the Arabian Sea. The Deccan Plateau is much larger of the two divisions and includes twenty nine districts of the State while only six districts lie in the Coastal Plains and Islands.

The whole Deccan Plateau is sub-divided into 12 meso regions. Of these, only 2 meso regions i.e. Northern Maharashtra and The Maharashtra Plateau lie within the State. Northern Maharashtra is further divided into 2 micro regions i.e. The Tapi-Purna Valley and The Wardha-Penganga-Wainganga Plain. The Maharashtra Plateau is also further sub-divided into 2 micro regions i.e. The Eastern Plateau and The Western Plateau with Protruded Hills.

The Coastal Plains and Islands is divided into 4 meso regions i.e. Gujarat Region, Western Coastal Region, Eastern Coastal Region and The Islands. Of these, The Western Coastal Region covers Maharashtra. This region is divided into 4 micro level regions i.e. Maharashtra Littoral, Goa Coast, Karnataka Coast and North Kerala Coast. Only Maharashtra Littoral falls within the state of Maharashtra.

The hierarchy of these macro, meso and micro level physiographical divisions within Maharashtra State are as below :

(A) Deccan Plateau :

(i) Northern Maharashtra :

(a) Tapi-Purna Valley : Includes the districts of Nandurbar, Dhule, Jalgaon, Buldana, Akola, Washim and Amravati.

(b) Wardha-Penganga-Wainganga Plain : Includes the districts of Wardha, Nagpur, Yavatmal, Bhandara, Gondiya, Gadchiroli and Chandrapur.

(ii) Maharashtra Plateau :

(a) Eastern Maharashtra : Includes the districts of Aurangabad, Jalna, Parbhani, Hingoli, Nanded, Bid, Osmanabad, Latur, Solapur, Sangli and Kolhapur.

(b) Western Maharashtra with Protruded Hills: Includes the districts of Nashik, Ahmadnagar, Pune and Satara.

(B) Coastal Plains and Islands:

(i) Western Coastal Plains:

(a) Maharashtra Littoral : Includes the districts of Thane, Mumbai (Suburban), Mumbai, Raigarh, Ratnagiri and Sindhudurg.

Physiographically the district forms a part of Tapi – Purna valley, the micro level division of the Deccan Plateau. On the basis of relief, the district may be divided into four parts i.e. 1) Ajanta Hills, 2) Paladi Hills, 3) Washim Plateau, and 4) Bembla Basin.

The Ajanta Hills spread over the northern part of Malegaon and Mangrulpir tahsils of the district. In fact it is the northern escarpment of the Washim Plateau which is dissected by numerous streams and has taken the shape of a rugged hill country. This area attains a height of about 500 meters and is covered with moist deciduous forests.

The Paladi Hills are located in the southern portion of Manora tahsil. These hills are less dissected and have an elevation varying between 450 and 550 meters. This area is the south eastern slope of the Washim Plateau and is partly covered by forests.

The Washim Plateau spreads over Washim, Risod, Malegaon, Mangrulpir and Manora tahsils. The area is a rolling upland country with an elevation of between 550 and 600 meters. This area gently slopes towards southeast and is relatively plain in nature. On the plateau the soils are shallow with murum substratum which vary considerably both in nature and depth. This plateau grows Kharif crops and specially the pulses. Wheat and other rabi crops are also grown.

The Bembla Basin lies in the northeastern part of the district in Karanja tahsil. This area has the characteristics of the 'Payanghat' plain of Akola district. It slopes towards west and has an elevation varying between 350 and 400 meters. It is even in surface and has rich fertile soil known as black cotton soil. In which Cotton and Jowar are grown in abundance.

Drainage

The Plateau is drained mainly eastwards and to a lesser extent to the north, by the Katepurna River, a tributary of Purna River. The main river of the district is the Penganga which rises in Buldana District close to the northern scarp edge of the Buldana Plateau in the Deulgaon Hills. It flows towards east

through Risod Tahsil and then forms the southern district boundary of Washim Tahsil. Pus, Arna and Aran are the main tributaries of the Penganga River. All these tributaries originate in the Washim Plateau and flow eastwards to meet the Penganga River in Yavatmal District. Bembla River flows northwards and then turns towards east and enters Amravati District. Later it meets the Wardha River in Yavatmal District. All the tributaries of the Penganga within the district are non perennial and hold water only for about four months of the year.

Climate

In general, the climate of the district is dry through out the year except during the southwest monsoon season. There are four seasons in a year. The rainy season (southwest monsoon season) starts in the beginning of June and last up to the end of September. It is followed by the post monsoon season from October to mid November. The winter season is from about the middle of November to the end of February and the hot dry season from March to May.

The district receives moderate rainfall. The average annual rainfall varies between 750 and 1000 mm. July is the rainiest month of the year. Rainfall received during the monsoon season constitutes about 85 per cent of the annual rainfall. The variation in rainfall from year to year is quite large. The district sometimes experiences strong winds and widespread heavy rainfall.

Temperatures increase rapidly after March till the end of May. May is the hottest month of the year. The heat in summer is intense and on individual days, day temperatures rise to 47 degrees centigrade. The afternoon heat is sometimes relieved by thunder showers. With the arrival of the monsoons, there is an appreciable drop in day temperatures and the weather becomes pleasant. From mid November day and night temperatures fall rapidly till December which is the coldest month of the year. Sometimes due to cold waves over north India the minimum temperature drops to between 8 and 10 degrees centigrade.

Natrual Wealth

Deccan Traps cover a major part of the district. Trap rocks are very hard and compact and are dark gray in colour. The vesicles of rock are filled by secondary minerals like zeolites, quartz, calcite etc. which are of little use. Trap rocks being dense, hard and compact are extensively used as building stones, road metal, railway ballast and as an aggregate in cement concrete. Erosive agents and weathering together have formed good fertile soils near the river beds.

Fishries

Fishing activities are restricted to inland waters i.e. rivers, ponds and tanks. Due to limited source and scope fishing is done as a part time job by the Deemar, Bhoi and Kahar communities in the district. Nets are used to catch fish and are locally called Udan or Tangar, Bhawan Jal, Odhe Jal and Dhawan. These are made of cotton or nylon threads.

The important varieties of fish found in the district are Murrel, Dhadkya, Botri, Tambu, Poshti, Chela, Chandani, Magur and Zinga. Bengal Carps i.e. Rohu, Catla and Mrigal are also stocked in the tanks of Risod and Karanja Tahsils.

Soil and Cropping pattern

The soils are basically derived from volcanic trap rocks. The top of table land of Washim is an extensive black soil plain, devoted chiefly to the growth of Wheat, Pulses and other winter crops. The soils are shallow with murum stratum. Areas drained by Bemla River have a medium black soil having the characteristics of “Payanghat” plain of Akola district, in which Cotton and Jowar are grown in abundance. The southern portion of Manora, northern portion of Malegaon and Mangrulpir are hilly tracts and has mostly poor and shallow soils in which Kharif crops are grown.

Land and Land Use Pattern

The Ministry of Food and Agriculture, Government of India has recommended a standard pattern of land use classification for the maintenance of records. Columns 19 – 23 of the village directory give land use pattern in each village in the district. The data furnished here are based on the village records and pertain to the year 1999.

Forest

This includes all land classified as forest under any legal enactment dealing with forest or administered as forest, whether state owned or private and whether wooded or simply maintained as forest

land. Within the forest area itself there may be occasionally cultivated patches or grazing lands, but such area are shown under column 19 as forest. The process of regularization of land grants and effecting relevant changes in the basic records of survey and settlement are somewhat protracted and time consuming. Therefore the information based on records is in some cases at least, likely to be different when compared with the actual field situation.

Irrigation by Source and Unirrigated land

Column 20 and 21 of the Village Directory give all the agricultural land and when added together would correspond to the net area shown plus the current and other fallow lands. Area shown more than once during the same year, if any, in the village is counted only once under this column. In column 20 source wise break up of the irrigated area is furnished by using abbreviation. All lands that are lying uncultivated as fallow for more than 5 years in succession are recorded as permanent fallow (Cultivable waste) and are covered under column 22.

The Concept of irrigation implies the existence of source of water supply within a reasonable distance and an arrangement to regulate the supply of the water according to the day-to-day needs of the crops raised in these fields. Naturally therefore all areas, which are cultivated under purely rain fed conditions, are treated as unirrigated lands.

Animal Husbandry

As per sixteenth Quinquennial census of livestoack of 1997, the information on important number of livestock and livestock indicators are given below.

Statement showing no. of Livestock (Position as on 15th Oct. 1997).

1)	Total Cross bred/Indigenous Cattle	667,421
2)	Total Buffaloes	149,336
3)	Total Goats	360,152
4)	Total Sheep	22,583
5)	Total Pigs	17,140
6)	Total Equine	7,644
7)	Total Camels	536
8)	Total Rabbits	51
9)	Total Livestock (excluding dogs)	1,224,863
10)	Total Poultry (including Ducks)	537,359

Source: Sixteenth All India Livestock & Farm Equipment Census 1997.

The total livestock (excluding dogs) are 1,224,863 and total poultry (including ducks) are 537,359 in the district. Out of the total livestock, the total crossbred/ indigenous cattle are 667,421, total buffaloes are 149,336,, goats 360,152, sheeps 22,583, pigs 17,140, equine 7,644, camels 536 and rabbits are 51.

Statement showing Selected Livestock indicators (Position as on 15th Oct. 1997).

	Category	Value
1)	Density of Livestock population (per sq.km.)	116
2)	Average Livestock per village	778
3)	No. of livestock per thousand human population	553
4)	No. of in-Milk cows per thous and human population	46
5)	No. of in-Milk buffaloes per thousand human population	24
6)	No. of poultry fowls per thousand human population	243
7)	No. of Bullocks and male Buffaloes per hundred hectares of gross cropped area	27
8)	No. of tractors per thousand hectares of gross cropped area	2
9)	No. of Veterinary Institute per lakh livestock	11

Source: Sixteenth All India Livestock & Farm Equipment Census 1997.

The density of livestock population per sq. km. works out to 116 while average livestock per village is 778 For every thousand human population there are 553 livestock, 46 in-milk cows, 24 in-milk buffaloes and 243 poultry fowls. While there are 27 bullocks and male buffaloes per hundred hectares of gross cropped area and 2 tractors per thousand hectares of gross cropped area, the number of Veterinary institute per lakh livestock has reported to be 11.

Industry

The most important small scale industries in the district are dal mills, oil pressers, confectionery, bidi making, saw mills, soap making, metal plating etc. Oil mills are located in Risod and Washim tahsils. Some of these industries manufacture traditional crafts run as household and cotton industries.

Trade and Commerce

The chief manufactured articles are cotton thread, aluminum utensils, paper, bricks, bakery products, wooden furniture, edible oil, poha, oil cake, dal and cotton bales. The main exported articles are cotton thread, aluminium utensils, paper, cotton bales, dal, edible oil, food grains, processed foodgrains etc. The main foodgrain market centre is located at Risod.

Transport

Number of Motor Vehicles registered in the district (as on 31.03.1999)

Motor Vehicles 1999		
	Item	No. of Vehicles
	1	2
1	Buses	737
2	Cars & Station Wagons	3,023
3	Jeeps	3,614
4	Taxies	220
5	Autorickshaws	4,287
6	Mopeds	25,240
7	Scooters	20,209
8	Motor Cycles	28,575
9	Total Goods Vehicles	3,848
10	Tractors	4,739
11	Trailors	4,313
12	Others	119
	Total	**98,924**

Source: Transport Commissioner office.

It may be seen that the district had 28,575 motor cycles, 25,240 mopeds and 20,209 scooters. There were 737 buses, 3,023 cars and station wagons, 3,614 jeeps, 220 taxies, 4,287 auto rickshaws and 3848 total goods vehicles. Besides 119 other modes of transport, the district also had 4,739 tractors and 4,313 trailors as means of transport.

Electricity & Power supply

All the 4 towns and 687 villages are enjoying the power supply facility.

(v) Census concepts

Building :

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses :

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses :

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house :

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons, in such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously :

i) A minimum population of 5,000.

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban

outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and

the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:

Scheduled Castes

1) Ager
2) Anamuk
3) Aray Mala
4) Arwa Mala
5) Bahna, Bahana
6) Bakad Bant
7) Balahi, Balai
8) Basor,Burud, Bansor, Bansodi
9) Beda Jangam, Budga Jangam
10) Bedar
11) Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chamari, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar , Madar, Madig, Mochi, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Nona, Ramnami, Rohit, Samgar, Samagara, Satnami, Surjyabanshi, Surjyaramnami
12) Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli
13) Bindla
14) Byagara
15) Chalvadi, Channayya
16) Chenna Dasar, Holaya Dasar, Holeya Dasari
17) Dakkal, Dokkalwar
18) Dhor, Kakkayya, Kankayya, Dohor
19) Dom, Dumar
20) Ellamalvar, Yellammalawandlu
21) Ganda, Gandi
22) Garoda, Garo
23) Ghasi, Ghasia
24) Halleer
25) Halsar, Haslar, Hulasvar, Halasvar
26) Holar, Valhar
27) Holaya, Holer, Holeya, Holiya
28) Kaikadi (in Akola, Amravati, Bhandara, Gondiya, Buldana, Nagpur, Wardha and Yavatmal districts and Chandrapur district, other than Rajura tahsil)
29) Katia, Patharia
30) Khangar, Kanera, Mirdha
31) Khatik, Chikwa, Chikvi
32) Kolupulvandlu
33) Kori
34) Lingader
35) Madgi
36) Madiga
37) Mahar, Mehra, Taral, Dhegu Megu
38) Mahyavanshi, Dhed, Vankar, Maru Vankar
39) Mala
40) Mala Dasari
41) Mala Hannai
42) Mala Jangam
43) Mala Masti
44) Mala Sale, Netkani
45) Mala Sanyasi
46) Mang, Matang, Minimadig, Dankhni Mang, Mang Mahashi, Madari, Garudi, Radhe Mang
47) Mang Garodi, Mang Garudi
48) Manne
49) Mashti
50) Meghval, Menghvar
51) Mitha Ayyalvar
52) Mukri
53) Nadia, Hadi
54) Pasi

55) Sansi

56) Shenva, Chenva, Sedma, Ravat

57) Sindhollu, Chindollu

58) Tirgar, Tirbanda

59) Turi

Scheduled Tribes

1) Andh

2) Baiga

3) Barda

4) Bavacha, Bamcha

5) Bhaina

6) Bharia Bhumia, Bhuinhar Bhumia, Pando

7) Bhattra

8) Bhil, Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave

9) Bhunjia

10) Binjhwar

11) Birhul, Birhor

12) Chodhara (excluding Akola, Amravati, Bhandara, Gondiya, Buldana, Chandrapur, Nagpur, Wardha, Yavatmal, Aurangabad, Jalna, Bid, Nanded, Osmanabad, Latur, Parbhani and Hingoli districts)

13) Dhanka, Tadvi, Tetaria, Valvi

14) Dhanwar

15) Dhodia

16) Dubla, Talavia, Halpati

17) Gamit, Gamta, Gavit, Mavchi, Padvi

18) Gond Rajgond, Arakh, Arrakh, Agaria, Asur, Badi Maria, Bada Maria, Bhatola, Bhimma, Bhuta, Koilabhuta, Koilabhuti, Bhar, Bisonhorn Maria, Chota Maria, Dandami Maria, Dhuru, Dhurwa, Dhoba, Dhulia, Dorla, Gaiki, Gatta, Gatti, Gaita, Gond, Gowari, Hill Maria,Kandra, Kalanga, Khatola, Koitar, Koya, Khirwar, Khirwara, Kucha Maria, Kuchaki Maria , Madia, Maria , Mana, Mannewar, Moghya, Mogia, Monghya, Mudia, Muria, Nagarchi, Naikpod, Nagwanshi, Ojha,Raj, Sonjhari Jhareka, Thatia, Thotya, Wade Maria, Vade Maria

19) Halba,Halbi

20) Kamar

21) Kathodi, Katkari, Dhor Kathodi, Dhor Kathkari, Son Kathodi, Son Katkari

22) Kawar, Kanwar, Kaur, Cherwa, Rathia, Tanwar, Chattri

23) Khairwar

24) Kharia

25) Kokna, Kokni, Kukna

26) Kol

27) Kolam, Mannervarlu

28) Koli Dhor, Tokre Koli, Kolcha, Kolgha

29) Koli Mahadev, Dongar Koli

30) Koli Malhar

31) Kondh, Khond, Kandh

32) Korku, Bopchi, Mouasi, Nihal, Nahul, Bondhi, Bondeya

33) Koya, Bhine Koya, Rajkoya

34) Nagesia, Nagasia

35) Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka

36) Oraon, Dhangad

37) Pardhan, Pathari, Saroti

38) Pardhi; Advichincher, Phans Pardhi, Phanse Pardhi, Langoli Pardhi, Bahelia, Bahellia, Chita Pardhi, Shikari, Takankar, Takia

39) Parja

40) Patelia

41) Pomla

42) Rathawa

43) Sawar, Sawara

44) Thakur, Thakar, Ka Thakur, Ka Thakar, Ma Thakur, Ma Thakar

45) Thoti (in Aurangabad, Jalna, Bid, Nanded, Osmanabad, Latur, Parbhani and Hingoli districts and Rajura tahsil of Chandrapur district)

46) Varli

47) Vitolia, Kotwalia, Barodia

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker' .

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton,

cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate :

Percentage of workers (main + marginal) to total population.

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years.

Sex -ratio :

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population.}} \times 1{,}000$$

Crude death rate(CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1{,}000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1{,}000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1{,}000$$

General fertility rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1{,}000$$

General marital fertility rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1{,}000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = 5 \times \frac{\sum_{15-19}^{45-49} ASFR}{1{,}000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = 5 \times \frac{\sum_{15-19}^{45-49} ASMFR}{1{,}000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

Number of deaths in a particular age-group

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1{,}000$$

q1 Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 Probability of dying between birth and age 2.

q5 Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early neo- natal mortality rate :

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate :

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post neo-natal mortality rate (PNMR) :

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Still birth rate (SBR) :

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible couple (Couples per 1,000 population) :

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child woman ratio (0-4) :

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9) :

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that.

For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/Municipal council, Municipality etc.

Size class of UA/Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / Towns. These Class I UAs. / Towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum Area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega City

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings – Population, its distribution

Brief Note on Census

Census taking is a massive operation carried out in a short span of time with the active participation of a veritable army of enumerators. The reference moment for the 2001 Census was the 00.00 hrs. March 1, 2001 i.e. the census provides a snapshot of the population of the country, as on 1st march 2001. Actual enumeration was spread over a period of 20 days from 9th February 2001 to 28 Feb.2001, followed by a rivisional round up to 5th March 2001 for updating of the population figures with reference to 00.00 hours of March 1, 2001. Household schedule having 23 questions regarding each and every person in the family is newly introduced in this Census. These questions are mainly self-explanatory and answers are in code language. Question No. 1 to 15 are related to general and socio-cultural characteristic of each individual. Question 16 to 20 is about economic activity of the person. Question 21 and 22 about migration and question no. 23 is for women, related to fertility. In addition one question is added in 2001 census which is related to household engaged in cultivation/plantation in part III.

As a prelude to the actual Census, the urban and rural areas were identified and listed out in respect of each administrative unit. The Director of Census Operations has prepared the list of urban area (which is generally referred to as town list) and simultaneously, a list of villages. These lists form the basic frame for the organization of the Census Operations. Thereafter geographical area that could be conveniently covered out to constitute the enumerator's block.

The next major step was the house listing Operation that was carried in the state during May-June 2000. Thereafter, in order to adhere to the prescribed workload norms, the actual Census enumeration's blocks were carefully demarked on the basis of the layout sketches and the notional maps prepared was also utilised to collect wealth of information on items such as predominant construction material used for houses, amenities available to the Census households, number of living rooms etc. Information regarding number of bedrooms in the household, if couples having separate room, availability of amenities like telephone, TV, Car/Scooter was asked first time in this Census. From this information we can have an idea of standard of living of the people in the country.

In Maharashtra, tahsil and the C.D.Block are co-terminus and therefore the data shown in tables on C.D.Blocks and the rural areas shown in the tables on tahsils are same.

Distribution of Population in Rural-Urban Areas

According to Census 2001, the district Washim has a total population of 1,020,216. The population of the district in Census 2001, i.e. 18.3 percent higher than the district population of 862,312 in 1991 Census. The district has been bifurcated after 1991 Census and a new district Washim carved out with six tahsils from district Akola. At present the district has six tahsils. The recasted population of six tahsils in 1991 Census have been taken for comparison. In Census 2001, tahsil Washim is most populous with a population of 212,644. As much as 20.4 percent of the population is concentrated in tahsil Washim. Other tahsils in order of population size are tahsil Karanja (188,540), Risod (177,123), Malegaon (156,922), Mangrulpir (149,855) and Manora (135,132).

An examination of the rural–urban distribution of population reveals that 841,771 persons constituting 82.5 percent of the total population are concentrated in rural areas, while 178,445 persons (17.5 percent) are living in urban areas of the district. Although in absolute numbers, the number of people living in rural areas has increased from 719,232 in 1991 to 841,771 in 2001 in terms of percentage the people residing in rural areas has decreased from 83.4 percent in 1991 to 82.5 percent in Census 2001.

While tahsil Malegaon and Manora has no urban population, tahsils Karanja 31.9 percent urban popualation, tahsil Washim 29.6 percent and Mangrulpir 18.6 percent, Risod have 15.5 percent urban population respectively.

TABLE 1 : DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001						1991	2001
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban		
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Malegaon	134,722	134,722	0	156,922	156,922	0	16.5	16.5	0.0	0.0	0.0
2	Mangrulpir	124,449	100,713	23,736	149,855	122,040	27,815	20.4	21.2	17.2	19.1	18.6
3	Karanja	159,604	110,738	48,866	188,540	128,382	60,158	18.1	15.9	23.1	30.6	31.9
4	Manora	113,385	113,385	0	135,132	135,132	0	19.2	19.2	0.0	0.0	0.0
5	Washim	176,604	127,464	49,140	212,644	149,688	62,956	20.4	17.4	28.1	27.8	29.6
6	Risod	153,548	132,210	21,338	177,123	149,607	27,516	15.4	13.2	29.0	13.9	15.5
District Total:		**862,312**	**719,232**	**143,080**	**1,020,216**	**841,771**	**178,445**	**18.3**	**17.0**	**24.7**	**16.6**	**17.5**

The average growth rates for the rural and urban areas of the district are 17.0 percent and 24.7 percent respectively. Mangrulpir tahsil has registered the highest rural growth rate (21.2 percent), while Risod tahsil has the lowest growth rate of 13.2 percent. Rural growth rates are above the district average in three tahsils i.e., Mangrulpir, Manora and Washim. And below the district average in three tahsils viz., Malegaon, Karanja and Risod. In urban areas the growth rate is above the district average in two tahsils and below the district average in two tahsils. The higher urban growth rate of 29.0 percent is registered by Risod tahsil. While Mangrulpir tahsil has the lowest urban growth rate of 17.2 percent proportion of urban to total population in Washim district stands at 17.5 percent against 16.6 percent in 1991 indicating a very slow pace of urbanization in the district.

TABLE 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Serial number	District/C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200		Number and percentage of villages
			Persons	Males	Females		Males	Females	
1	2	3	4	5	6	7	8	9	10
1	Malegaon	117	156,922	80,819	76,103	7 (6.0)	375	380	19 (16.2)
2	Mangrulpir	117	122,040	63,422	58,618	15 (12.8)	724	716	13 (11.1)

5	Washim	14 (11.4)	21,613	20,233	0 (0.0)	0	0	1 (0.8)	5,161	4,965
6	Risod	21 (21.6)	33,203	31,605	0 (0.0)	0	0	0 (0.0)	0	0
Districts (Rural) Total:		**84 (12.0)**	**129,188**	**121,496**	**3 (0.4)**	**10,502**	**9,836**	**3 (0.4)**	**21,684**	**20,232**

Percentages are given in brackets.

Among the 702 inhabited villages 52 villages (7.4 percent) are small sized with a population below 200, 108 villages (15.4 percent) are in the size class 200 – 499, 221 villages (31.5 percent) are in the size class 500 – 999, 231 villages (32.9 percent) are in the size class 1,000 – 1,999, 84 villages (12.0 percent) are in the size class 2,000 – 4,999, 3 villages (0.4 percent) are in the size class 5,000 –9,999, and the remaining 3 villages (0.4 percent) are in the size class of 10,000 and above. Villages with less than 200 inhabitants accounts for 7.4 percent of total inhabited villages with 0.5 percent of rural population of the district. Villages with population 200-499 account for 15.4 percent of the total villages and 4.8 percent of the total rural population. Villages with population size 500 – 999 constitute 31.5 percent of the total inhabited villages and cover 20.1 percent of the rural population. Villages with population size 1,000 – 1,999 constitute 32.9 percent of the total inhabited villages and cover 37.4 percent of the total population, villages in size 2,000-4,999 are 12.0 percent of the total inhabited villages and cover 29.8 percent

of the total rural population. Villages in population size 5,000-9,999 form 0.4 percent of the total inhabited villages covering 2.4 percent of the total rural population. The villages with population 10000 and above form 0.4 percent of the total inhabited villages covering 5.0 percent of the total rural population.

Among the 6 C.D Blocks, the percentage of less than 200 village is the highest in Karanja C.D Block (13.2 percent) and lowest in Risod C.D Block (2.1 percent). The percentage 200-499 villages is highest in Karanja (20.6 percent) C.D Block and in lowest Risod (8.2 percent). The percentage of 500-999 sized villages is highest in Mangrulpir and Washim C.D Blocks (35.0 percent) and lowest in Risod(19.6 percent). The percentage of 1,000-1,999 sized villages is the highest in Risod (48.5 percent) and lowest in Manora C.D Block(27.7 percent). The percentage of 2,000-4,999 sized villages is highest in Risod (21.6 percent) and lowest in Karanja C.D Block(5.1 percent). The percentage of 5,000–9,999 sized villages is the highest in Malegaon and Manora (0.9 percent) and lowest in Karanja C.D Block(0.7 percent). The percentage of 10,000 and above sized villages is the highest in Malegaon (1.7 percent) and lowest in Washim (0.8 percent). While Mangrulpir, Karanja, Manora and Risod have no villages in this range.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town	
1	
(a) New	
(i) Statutory town -- Nil	
(ii) Census town -- Nil	
(b) Denotified	
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns	Nil
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria	Nil
(iii) Census towns of 1991 census are notified as statutory town in 2001 census	Nil
(c) Declassified	Nil
(d) Wholly merged with other town(s)	Nil

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

There are no new towns, no denotified, no declassified and no wholly merged town in 2001 census.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	15	2.1	324	0.0
11-20	5	0.7	212	0.0
21-50	25	3.6	5,633	0.7
51-100	85	12.1	47,364	5.6
101-200	370	52.7	416,120	49.4
201-300	138	19.7	218,510	26.0
301-500	42	6.0	84,246	10.0
501 +	22	3.1	69,362	8.2
Not known	0	0.0	0	0.0
District Total:	**702**	**100.0**	**841,771**	**100.0**

Population Density (Rural) of the district: 174

The distribution of villages by density ranges reveals that those with medium densities in ranges 101 to 300 account for 72.4 percent of the total inhabited villages, while very low densities of less than 20 persons per sq. km. are noticed in 20 villages constituting 2.8 percent of the villages. At the same time there are only a few villages that can be grouped as having very high densities while 3.1 percent of villages have a density of 501 and above persons 6.0 percent villages have density range of 301 to 500.

Table 5 :SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	978	1,003	862	968	972	945
1911	966	1,000	796	968	968	958
1921	950	994	776	958	962	921
1931	947	987	790	952	958	908
1941	949	989	810	957	961	923
1951	941	1,000	807	971	979	920
1961	936	995	801	956	963	911
1971	930	985	820	957	962	926
1981	937	987	850	963	966	940
1991	934	972	875	946	948	937
2001	922	960	873	939	941	933

Note: Sex ratio has been defined here as the number of females per 1,000 males.

Table 5 shows the sex ratio for the district and the state. Census 2001 recorded a sex ratio of 939 females per 1,000 males in the district. This is higher than the state average (922). The sex ratio in Washim district has remained higher than that of state right from 1901. As regards total areas, sex ratio at the state level declined by 56 points and at district level it declined by 29 points during the last 100 years. Similarly the sex ratio for the rural areas of the state decreased by 43 points and for the district is decreased by 31 points during 1901-2001. For the urban areas of the state, the sex ratio increased by 11 points and for the district it decreased by 12 point during the above period i.e. 1901 – 2001.

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Malegaon	942	942	0
2	Mangrulpir	925	924	928
3	Karanja	944	946	941
4	Manora	933	933	0
5	Washim	940	944	929
6	Risod	948	952	928
	District Total:	**939**	**941**	**933**

In Washim district as a whole, there are 939 females for every thousand males. Within the district sex ratio varies from 948 in Risod tahsil to 925 in Mangrulpir tahsil. The rural sex ratios are higher compared to urban sex ratios except in Mangrulpir tahsil. The highest sex ratio is seen in Risod (952) while the lowest is in Mangrulpir (924). Generally, rural areas have higher proporation of females than urban areas. Washim also conforms to this pattern. The sex ratio for rural and urban areas of Washim district are 941 and 933 respectively. In rural areas four out of six tahsils have higher sex ratios than the district rural average. Only two tahsils i.e. Mangrulpir and Manora has lower sex ratio to the districts rural average. In urban areas sex ratio in Karanja tahsil is above the district average. Tahsils Malegaon and Karanja are totally rural.

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Malegaon	942
2	Mangrulpir	924
3	Karanja	946
4	Manora	933
5	Washim	944
6	Risod	952
	District (Rural) Total:	**941**

The sex ratios in all the C.D. Blocks except Mangrulpir and Manora are above the district average (941).

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	8	1.1	1,979	0.2
700-749	4	0.6	2,731	0.3
750-799	4	0.6	2,018	0.2
800-849	23	3.3	17,742	2.1
850-899	95	13.5	102,869	12.2
900-949	230	32.8	331,842	39.4
950-999	207	29.5	300,517	35.7
1000-1099	110	15.7	76,720	9.1
1100+	21	3.0	5,353	0.6
District Total:	**702**	**100.0**	**841,771**	**100.0**

Sex ratio (Rural) for District: 941

A perusal of the table reveals the 207 villages constituting 29.5 percent of the total inhabited villages covering 35.7 percent of the total district rural population have sex ratio in the range of 950-999, while 230 villages for covering 32.8 percent of total inhabited villages and 39.4 percent total district rural population have sex ratio in the range 900-949, 110 villages constitute 15.7 percent of the total inhabited villages and covering a population of 76,720 (9.1 percent) of total rural district population has a sex ratio in the range of 1000-1099. The sex ratio for 21 villages (3.0 percent) falls in the range of 1100 and above and it covers 0.6 percent of the district population. 118 villages (16.8 percent) covering (14.3 percent) population are in the range of 800-899.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A. / Town	Urban status of town	Sex ratio
1	2	3	4
1	Karanja	MCI	941
2	Mangrulpir	MCI	928
3	Risod	MCI	928
4	Washim	MCI	929
Sex ratio (Urban) for the district:			**933**

In the urban areas of different towns, the sex ratio varies considerably. The sex ratio in both Magrulpir (MCl.) and Risod (MCl.) is 928. In Karanja (MCl.) sex ratio is highest i.e. (941). Among the four towns of the district, three towns have sex ratio below the district urban average and one town has the sex ratio above the district urban average (941).

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

District(Urban) Total		**178,445**	**21,281**	**3,190**	**11.9**	**1.8**

In urban areas the Scheduled Castes and Scheduled Tribes constitute 11.9 percent and 1.8 percent of the total urban population respectively. The percentage of Scheduled Castes population in Washim (M Cl) (15.0 percent) and Risod (M Cl)(14.9 percent) is above the districts urban average and below in two towns namely Mangrulpir (M Cl)(11.2 percent) and Karanja (M Cl)(7.7 percent). The highest percentage of Scheduled Castes population is found in Washim (MCl)(15.0 percent) and lowest in Karanja (MCl) (7.7 percent). The percentage of Scheduled Tribes population is above the district urban average in Mangrulpir(MCl)(2.6 percent) and below in two towns viz., Karanja (MCl) (1.5 percent) and Risod(MCl) (1.7 percent). While Washim (M Cl) it is equal to district urban average (1.8 percent).

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

Serial number	Name of C D block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Malegaon	963	959
2	Mangrulpir	924	951
3	Karanja	942	923
4	Manora	946	941
5	Washim	959	957
6	Risod	972	984
	District (Rural) Total	**952**	**952**

Sex ratio among both Scheduled Castes and Scheduled Tribes rural population stood a 952 in 2001. The highest rural sex ratio of Scheduled Castes is 972 in Risod C.D. Blocks. While the lowest is in Mangrulpir C.D. Block (924). The sex ratios in C.D.Blocks viz., Malegaon (963), Washim (959) and Risod (972) are above the district rural average and Mangrulpir (924), Karanja (942) and Manora (946) are below the district rural average (952).

Among the Scheduled Tribes, in rural areas, the sex ratio was highest in C.D. Blocks Risod (984) and lowest in C.D. Block Karanja (923). The Scheduled Tribes sex ratios in C.D. Block Malegaon (959), C.D. Block Risod (984) and C.D. Block Washim (957) are above the district rural average. while it is below the district rural average in C.D. Block Mangrulpir (951), C.D. Block Manora (941) and C.D. Block Karanja (923).

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A./Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4

For the district as a whole literacy rates for males are substantially higher compared to females in both rural and urban areas. The tahsilwise break-up shows that Karanja tahsil has the highest literacy rates 78.6 percent and it is also above the district average level of literacy. Manora tahsil has the lowest rate of 70.1 percent. Male literacy rate is highest in Mangrulpir tahsil (87.5 percent). Two tahsils have male literacy rate above district average. Female literacy is the highest in Karanja tahsil (69.3 percent) and lowest in Manora tahsil (55.7 percent). Two out of six tahsils have female literacy above the district average i.e. Mangrulpir and Karanja.

As regards rural areas of the district, the literacy rate is 71.4 percent for the district with male and female literacy rates of 84.6 percent and 57.6 percent respectively. Karanja tahsil has the highest literacy rate of 76.0 percent. In this tahsil 86.1 percent of the males and 65.3 percent females are literates. The lowest literacy rate is noted in Manora tahsil (70.1 percent). As far as males and females literacy rate is concerned Washim tahsil is at the bottom of the list with 83.2 percent males and 53.5 percent females.

The percentage of literates in urban areas is 82.4 percent. Among them 89.5 percent are males and 74.8 percent are females. There is significant difference in literacy rate between males and females in all the tahsils. Females are laying behind males in literacy in all the tahsils, however the gap varies from tahsil to tahsil.

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS. 2001

Serial number	Name of C.D.block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12

31-40	9	1.4	557	0.4
41-50	33	5.3	3,574	2.5
51-60	97	15.5	17,676	12.5
61-70	263	42.0	68,457	48.4
71-80	163	26.0	44,232	31.3
81-90	45	7.2	6,703	4.7
91-99	0	0.0	0	0.0
100	5	0.8	17	0.0
District Total:	**626**	**100.0**	**141,382**	**100.0**

Literacy rate for District (Rural): 67.7

It is observed from the table that Scheduled Castes numbering 141,382 are spread over in 626 villages. There are 76 villages with no Scheduled Castes population. Of these 626 villages, there are 4 villages have 0 literacy rate, 1 Village in range 1-10 literacy rate, 6 villages in range of 21-30 literacy rate. 9 villages in range of 31-40 literacy rate, 33 villages in range of 41-50 literacy rate, 97 villages in range of 51-60 literacy rate. 263 villages are in range of 61-70 literacy rate. 163 villages are in range of 71-80 literacy rate. 45 villages are in range of 81-90 literacy rate. There are 5 villages are in the range of 100 percent literacy rate.

It may be seen that the literacy rate for scheduled castes numbering 112,689 and constituting 79.7 percent of total scheduled castes spread over in 426 villages have literacy ranging from 61-80 percent. The literacy rate for district (rural) is 67.7 percent.

TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates									Gap in male/female literacy rate
		Number of literates			Number of illiterates			Percentage of literates			
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12

61-70	81	19.0	15,955	23.5
71-80	51	12.0	5,844	8.6
81-90	25	5.9	2,159	3.2
91-99	7	1.6	1,132	1.7
100	28	6.6	150	0.2
District Total:	**426**	**100.0**	**67,797**	**100.0**

Literacy rate for District (Rural): 59.0

It is observed from the table that out of total 702 inhabited villages, 426 villages have Scheduled Tribes population numbering 67,797. There are 276 villages in the district which do not have any Scheduled Tribes population. Of these 426 villages there are 9 villages with 0 literacy rate, 3 villages in range of 1-10 literacy rate, 11 villages in range of 11-20 literacy rates, 14 villages in range of 21-30 literacy rate. 24 villages in range of 31-40 literacy range. 63 villages in range of 41-50 literacy rate. 110 villages are in 51-60 range, 81 villages in 61-70 literacy range, 51 villages in range of 71-80 literacy rate and remaining 32 villages in the range of 81-99 literacy rate. There are 28 villages having 150 Scheduled Tribes persons, who are 100 percent literate.

It may be seen that a total Scheduled Tribes numbering 55,529 constituting 81.9 percent of total Scheduled Tribes spread over in 254 villages have literacy rate ranging for 41-70.

TABLE 30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

2	Mangrulpir (M Cl)	539	352	187	187	79	108	84.6	91.4	74.2	17.2
3	Risod (M Cl)	220	141	79	241	92	149	58.8	72.3	44.1	28.2
4	Washim (M Cl)	836	457	379	268	132	136	86.5	88.4	84.4	4.0
	Washim (Urban)	**2,280**	**1,322**	**958**	**910**	**388**	**522**	**82.9**	**88.4**	**76.3**	**12.1**

According to 2001 Census 2,280 Scheduled Tribes persons comprising 1322 males and 958 females are literates in urban areas in Washim District. The percentage of Scheduled Tribes literates is 82.9 percent in urban areas of the district. Among the males, its accounts for 88.4 percent while for females the literacy rate is 76.3 percent. Within the towns of Washim district, Karanja town has highest literacy rate among the four towns. i.e. 88.6 percent and lowest Scheduled Tribes literacy is in Risod town (58.8 percent). Among the four towns Mangrulpir, Karanja and Washim have literacy rate above the district urban average (82.9 percent). Among the males Mangrulpir and Karanja have literacy rate above the district urban average (88.4 percent) Washim has literacy rate same as that of district urban average. While in female literacy Risod town is the lowest (44.1 percent) in urban area of Washim district.

The gap in male female literacy rate in the district is 12.1 points. It is highest in Risod (M.Cl) (28.2 points) and lowest in Washim (M.Cl) (4.0 points).

There has been no conceptual change in defining the workers 1991 and 2001 Census. In 2001 Census, there has been mainly three fold classification of population namely main workers, marginal workers and non-workers which was adopted for 1991 also. The main workers of 2001 are distributed in four categories of economic activities instead of nine industrial categories of economic activities in earlier Census 1991.

The main workers of 2001 are distributed in four categories of economic activities. Nature of one's activity and extent of participation in economic and productive work are the decisive factor for such a classification level of economic development of different regions within the district availability of opportunities besides willingness to work especially among women, and entrepreneurship evinced by menfolk in general etc. are the important factors that influence the distribution of population under these three categories i.e. main workers, marginal workers and non- workers. Table 31 shows the distribution of main workers, marginal workers and non-workers for total males, females in 2001.

The Census 2001 recorded 38.8 percent of the district population as main workers, 5.8 percent as marginal workers and the remaining 55.4 percent as non workers.

Among the 38.8 percent main workers, male participation rate in the districts is 47.1 percent while that of females is 29.9 percent as per 2001 Census.

		Females	**408,005**	**140,265**	**34.4**	**38,119**	**9.3**	**178,384**	**43.7**	**229,621**	**56.3**

2001 census recorded 41.2 percent of the district population as main workers, 6.7 percent as marginal workers and remaining 52.1 percent a non-workers. Among the main workers, male participation rate in the district is 47.7 percent while that of females 34.4 percent. The proportion of main workers is highest in C.D.Block Karanja (43.0 percent) and lowest in Manora C.D.Block. The sexwise break up of 6.7 percent marginal workers shows that among males and females 4.2 percent and 9.3 percent of the population respectively are marginal workers. It is seen that the proportion of female marginal workers is substantially higher than that of males.

The proportion of marginal workers is the highest in C.D.Block Manora (9.0 percent) and the lowest in Mangrulpir C.D.Block (5.4 percent) among the six C.D.Blocks of the district.

The urban area of the district recorded 27.1 percent of district population as main workers 2.0 percent as marginal workers and the remaining 70.9 percent as non-workers.

The work participation rate for main workers in urban areas for the district is 27.1 percent. In urban areas Washim town has the highest participation rate 27.5 percent of main workers while Mangrulpir (MCl) has the lowest participation rate of 26.3 percent of main workers in the district. Among the four towns of the district in two towns viz. Washim MCl (27.5 percent) and Risod MCl (27.2 percent) are above the district urban average, while Mangrulpir (MCl) has below the district urban average.

The sexwise breakup shows that among males and females 44.4 percent and 8.6 percent of the population respectively are main workers. The percentage of Marginal workers is the highest in Risod (MCl) (4.0 percent) and the lowest in Washim (MCl) (1.4 percent) among the four towns of the district. The work participation rate for marginal workers in urban areas for the district is 2.0 percent. Only two towns have participation rate above the district urban average. 1.9 percent males and 2.1 females are working as marginal workers in the district.

Note: Percentage of Workers to total workers are given in brackets.

Table 34 indicates the distribution of male and female workers by four categories of economic activities for the district.

The relative importance of the main shares of economic activity may be gauged from the pattern of distribution of workers according to the broad four-fold classification namely cultivators, agricultural labourers, household industry workers and other workers. The economy of the district is primarily agricultural which is supported by the fact that the cultivators (31.4 percent) and agricultural labourers (52.4 percent) together constitute 83.8 percent of the

total workers of the district. The agricultural sector has absorbed more than three-fourth of the total workers in the district.

The proportion of both cultivators and agricultural labourers differ considerably from tahsil to tahsil. The proportion of cultivators varies between 36.7 percent in Risod tahsil to 23.6 percent for Karanja tahsil. The proportion of agricultural labourers varies between 61.3 percent for Manora tahsil to 46.9 percent for Washim tahsil. More than 83.8 percent of workers in the district are directly engaged in agriculture as cultivators or agricultural labourers.

Only 16.3 percent workers are engaged in work other than agriculture. Among them 1.3 percent are in household industry workers and remaining 15.0 percent are other workers.

Note: Percentage of Workers to total workers are given in brackets.

Table 35 indicates the distribution of workers by sex (male and females workers) for four categories for the district.

The proportion of cultivators varies between 39.9 percent for Risod C.D. Block and 28.4 percent to Karanja. The proportion for agricultural labourers varies between 52.0 percent for malegaon C.D. Block 62.4 percent for Karanja C.D. Block. Over 90.3 percent of the workers in the district are directly engaged in agricuture as cultivators or agricultural labourers. The remaining 9.7 percent of workers are engaged in household industry and other work.

Note: Percentage of Workers to total workers are given in brackets.

The proportion of cultivators varies between 8.6 percent for Risod MCl and 6.2 percent for Washim (M Cl). The proportion for agricultural labourers varies between 31.0 percent for Mangrulpir and 21.9 percent for Washim (M Cl). 33.3. percent of the workers in urban areas are directly engaged in agriculture as cultivators or agricultural labourers.

The proportion of Household Industry workers varies between 3.3 percent for Risod (M Cl) and 1.9 percent for Mangrulpir (M Cl). The proportion of household Industry for district is 2.4 percent. Among four towns only Risod town has higher number of Industry workers, than district average and it is lower in remaining towns.

The proportion of other workers varies between 58.9 percent to 69.7 percent. Percentage of other workers in Washim (M Cl) (69.7 percent) and lower in Mangrulpir (M Cl) (58.9 percent). The district urban average is 64.3 percent for other workers. Proporation of male workers higher than female workers in all four towns of the district.

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Educational

The educational amenity is available in 668 villages which constitute 95.2 percent of the total 702 inhabited villages of the district. In Risod C.D.Block the educational amenity is available to 99.0 percent of the total villages (96 villages). While in Washim C.D.Block the educational amenity is available in 97.6 percent inhabited villages (120 villages), the educational amenity is available to 97.3 percent villages in C.D. Block Manora, 96.6 pecent villages in C.D.Block Malegaon, 94.0 percent villages in C.D.Block Mangrulpir and 88.2 percent villages in C.D.Block Karanja (Table 37).

In 2001, 99.5 percent of rural population is served by educational amenity in the district (Table 38). There are only 36 villages, which do not have primary school amenity. Out of 36 villages not having educational amenity, 32 villages have the amenity available at a distance of within 5 kms. while for 4 villages the amenity is available at a distance from 5 to 10 kms. (Table 39)

According to distance range from nearest statutory town, the educational amenity is available for 20 villages (62.5 percent) within 5 kms., 255 (96.6 percent) villages within a distance range of 5-15 kms., 391 (96.8 percent) villages from 16-50 kms. and 2 (100.0 percent) villages at a distance of 51 kms. and above (Table 40).

Table 41 shows the distribution of villages according to population and amenity available in 2001 census. It has been observed that, of the 668 villages having educational amenity, 129 villages (80.6 percent) have population up to 499 , 218 villages (98.6 percent) with population range 500-999, 231 villages (100.0

percent) with population range 1,000-19,99, and remaining 90 villages (100.0 percent) with population range 2,000 and above have the educational amenity available within the revenue limits of the respective villages.

Medical

Medical institutions of one or the other type are functioning in 292 (41.6 percent) villages out of 702 inhabited villages in the district. Only Risod C.D.Block has reported the medical amenity for 57 villages (58.8 percent) which is higher than the district average (41.6 percent) and 75.1 percent of its population gets the benefit.

292 villages constituting 41.6 percent of the total inhabited villages have medical amenity available in the district. Risod C.D.Block alone with amenity in 57 villages has 58.8 percent coverage with medical amenity. These villages provide the amenity not only to residents population to concerned villages but also those residing in surrounding villages. These villages enjoy central location and are somewhat away from towns and tend to be large in population size.

410 villages out of 702 inhabitanted villages do not have any type of medical facility in these respective village limits. Of these as many as 132 and 175 villages are sitiuated at a distance of hardly 5 Km with reference to the nearest place with medical amenity. Another 135 and 185 villages are located at a distance of 5 to 10 Kms for the same medical amenity, but in the case of 425 and 333 villages , the resident have to cover more than 10 Kms to reach a place with these medical facilities (Table-39).

It may be seen that big size villages (500-10,000)are equipped with some kind of medical amenity within the villages, while small sized villages (below 500)barely have these amenities (Table-41).

TABLE 38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Drinking Water

Improved drinking water is available in 659 villages constituting 93.9 percent out of 702 inhabited villages. If a household has access to drinking villages .Water supplied from tap or a hand pump or tube well situated within or outside the primisses is considered as have access to improved drinking water source.

Postal

As regards rural areas of the district as a whole the facility posts and telegraphs is available to only 172 (24.5 percent) villages out of 702 inhabited villages surving 49.4 percent of rural population of the district.Within 6 C.D.Blocks of the district, the percentage of villages having amenity of post and telegraphs varies considerably. Risod C.D.Block with 35.1 percent villages with post office has the highest proportion of availability of amenity, whearas Mangrulpir C.D.Block with 19.7 percent holds the least number of post offices. Of the remaning four C.D.Blocks, three have post offices' proportion less than the district average.

Postal facilities are not available in 533 villages. Out of these in 421 villages, the amenity is available at distance of less than 5 Kms ,while for 61 villages the postal amenity is available at a distance between 5 and 10 Kms. The postal amenity for 51 villages is available at a distance of more than 10 Kms.Among 172 villages with post and telegraph amenity, 3 villages have less than 500 population, 87 villages have population range from 500-1,999 and for 82 villages population range is above 2,000.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Telephone

Of the 702 inhabited villages, in 233 villages (33.2 percent of the total villages) are enjoying the facility of telephone covering 50.4 percent of total rural population. Karanja CD block has 47.8 percent villages having the telephone facility whereas 21.4 percent villages in Malegaon CD block have the facility.

Telephone aminety is not available in 469 villages. Out of these, as many as 176 villages have the aminety available at a distance of up to 5 Kms; 68 villages at a distance between 5-10 Kms; and 225 villages have the amenity available at a distance of beyond 10 Kms. Among the 233 villages with the amenity of telephone, 26 villages are having less than 500 populatuion while the population in 143 villages is in range of 500-1,999, 58 villages is in range of 2,000-4,999 and 6 villages have population of 5,000 and above.

Transport and communication

Transport communication includes bus service, rail amenity and navigable waterways. If a bus stop or railway station or navigable waterway is located within the territorial jurisdiction of a village, it is considered to have been served by such facilities even if it is little away from the actual settlement. 507 (72.2 percent) villages have communication amenity available, serving 85.6 percent of the rural population of the district. Risod CD block covers 92.5 percent of rural population with the communication amenity

whereas Mangrulpir CD block covers 78.6 percent of the rural population.

Out of 702 inhabited villages, 195 villages do not have any communication amenity. Of these 195 villages residents of 175 villages have to cover a distance up to 5 Kms to reach a place with such amenity, for 11 villages the distance is between 5–10 Kms and for 9 villages, it is more than 10 Kms. The availability of these amenities depends upon the location of the village with reference to road. Among the 702 villages which have the availiablity of communication amenity within their respective revenue limits, 63 villages fall in the population range of less than 500; 358 villages in the range of 500-1,999; 80 villages in the range of 2,000-4,999 and the remaining 6 villages fall in the population range of 5,000 and above.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available							
		Education	Medical	Post Office #	Telephone	Transport communi-cations $	Banks	Agricultural Credit Societies	Approach by pucca road

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Banking

The amenity of banking services is available in 62 (8.8 percent) villages out of 702 inhabited villages, serving 26.0 percent rural population of the district. 15 (15.5 percent) villages having banking amenity in Risod CD Block and 7 (6.0 percent) villages having banking amenity in Malegaon CD Block. 33.1 percent of the population served by banking amenity in Malegaon CD Block.

Of the 651 and 662 villages without commercial bank and co-operative bank amenity respectely, the amenity of commercial bank and co-operative bank is available within 5 Kms distance for 163 and 203 villages respectively; commercial and co-operative bank amenity is available at a distance of 5-10 Kms for 152 and 177 villages respectively while for remaining 336 and 282 villages it is available beyond 10 Kms.

The banking amenity is available for 2 villages with less than 500 population range; 15 villages with 500-1999 range; 39 villages with range of 2000 -4999 and remaining 6 villages fall in the range of 5000 and above.

Agricultural Credit Societies

There are 446 villages (63.5 percent) having agricultural credit societies in the district. In these villages 76.8 percent of the rural population is

concentrated. The highest proportion of this is amenity is available in Malegaon C.D.Block with 90 villages (76.9 percent) and the lowest is in Karanja C.D.Block with 67 villages (49.3 percent).

256 villages are not having this facility of agricultural credit society. Of these the agricultural credit society in as many as 146 villages is available within 5 kms; for 47 villages between 5-10 Kms; and 63 villages it is available beyond 10 Kms distance.

As per the distribution of villages according to the distance from the nearest statutory towns, there are 8 villages at a distance of less than 5 kms from the nearest statutory town; 437 villages at a distance range 5-50 kms; and only 1 village at a distance 51 Kms and above.

The population in 52 villages having agricultural society amenity in the population range of less than 500, in 317 villages it is in the range of 500-1999; in 71 villages it is in the range of 2,000-4,999 and in the remaining 6 villages the population is 5,000 and above.

TABLE 41: DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Approach By Pucca Road

Road whether "Pucca or Kuchcha" are the herve system of a distance.They act as a pull factor for a development and upliftment of the areas roads with cement concrete ,black top,water buoyant macadam etc., come under pucca roads and the remaining are treated as kuchcha roads.

Pucca road facility is available to 593 (84.5 percent) villages out of 702 inhabited villages in the district. C.D.Blocks Mangrulpir, Karanja and Washim

are having pucca road amenity to 99, 113 and 109 villages respectively.

20 villages with pucca approach road are located at a distance of less than 5 kms. to approach the nearest statutatory town by pucca road; 573 villages at a distance from 5-50 Kms to approach nearest statutory town by pucca road.

The population in 84 villages with pucca road is less than 500; 419 villages it is in between 500-1,999; 84 villages it is in between 2,000-4,999 and in 6 villages populations is 5,000 and above.

Power supply

There are 687 (97.9 percent) villages with power supply amenity in the district. The amenity is available to a highest proportion of villages i.e., 112 (100.0 percent) in Manora and 97 (100.0 percent) Risod CD Blocks and to a lowest propotion of villages i.e., 131(96.3 percent) in Karanja C D Block. Risod and and Manora C D Blocks have cent per cent electrification.

Of the 687 villages having power supply, 149 villages have population less than 500; 449 villages are with population 500 –1,999; and 83 villages have 2,000 -4,999 population.The remaining 6 villages have population of 5,000 and above.

It may be summed up from the foregoing paragraphs that in respect of availabity of different types of amineties considered, the larger villages have an advantage over the smaller ones, population size and availiablity of amineties are directly associated with each other.

TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Malegaon	117	88,811.00	174.7	6.2
2	Mangrulpir	117	73,757.00	185.6	4.1
3	Karanja	136	79,200.00	208.2	3.0
4	Manora	112	72,876.00	171.6	3.0
5	Washim	123	86,317.00	197.7	7.2
6	Risod	97	82,087.00	208.6	7.4
	District Total:	**702**	**483,048.00**	**191.3**	**5.3**

Note : - Cultivable area = irrigated area + unirrigated area

Total Area figures do not match with the sub-category wise breakup given by the collectorates. Hence the data analysis has not been attempted.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Serial number	Class, name & urban status of the Town	Per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General Adminis tration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	II Karanja (M.Cl.)	840.0	240.0	600.7	784.3	139.4	189.1	143.7	141.2	154.8
2	III Mangrulpir (M.Cl.)	625.4	181.8	443.6	609.2	141.5	194.1	46.9	211.1	15.6
3	III Risod (M.Cl.)	391.2	170.5	220.7	313.1	82.2	85.6	101.7	0.0	43.6
4	II Washim (M.Cl.)	83.6	30.3	53.3	83.3	13.2	18.4	17.1	9.9	24.7
	District Total :	**470.7**	**146.2**	**324.5**	**437.0**	**86.4**	**113.7**	**77.5**	**84.0**	**62.7**

Table-43 gives per capita receipt and expenditure for each statutory town in the district. The average per capita receipts for 4 towns of the district work out to Rs. 470.7 of which 146.2 are received through local taxes and remaninig, 324.5 from all other sources. The total expenditure incurred per head is Rs.437.0 of which Rs 86.4 are spent on general administration Rs.113.7 on public health and convineance Rs.77.5 on public works Rs. 84.0 on public institutions and 62.7 on all other items. All the towns both the receipts and expenditure incured per head are the highest at M.CI.

TABLE 44 : SCHOOLS/COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Karanja (M.Cl.)	2.3	1.5	1.5	0.8	0.2
2	Mangrulpir (M.Cl.)	5.4	3.2	2.2	2.2	0.7
3	Risod (M.Cl.)	2.2	1.8	1.8	1.5	0.4
4	Washim (M.Cl.)	2.4	1.1	1.1	0.8	0.6
	District Total :	**2.8**	**1.7**	**1.5**	**1.1**	**0.4**

Table-44 indicates the number of schools and colleges per 10,000 population in towns. On an average the ratio of primary schools per 10,000 population in urban areas of the Washim district,Works out to 2.8. The number in junior secondary/middle school is 1.7 while for secondary and matriculation institution 1.5 and senior secondary schools are 1.1 per thousand population while colleges work out to 0.4 per thousand population only.

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Karanja (M.Cl.)	5
2	Mangrulpir (M.Cl.)	13
3	Risod (M.Cl.)	11
4	Washim (M.Cl.)	8
	Distrct Total :	**8**

Table-45 gives the number of beds per 10,000 population in medical institutions in towns. On an average there are 8 beds per 10,000 population. Mangrulpir municipal council has maximum number of beds i.e. 13, followed by Risod (M.Cl.) with 11 beds Washim (M.Cl.) with 8 beds and Karanja (M.Cl.) with 5 beds.

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Serial number	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Karanja	60,158	8,410	14.0
2	Mangrulpir	27,815	6,900	24.8
3	Risod	27,516	2,357	8.6
4	Washim	62,956	1,530	2.4
District Total :		**178,445**	**19,197**	**10.8**

The propotion of slum population to total population is 10.8 percent in the district. In absolute numbers the slum population is highest in Karanja town (8,410). This is followed by Mangrulpir town (6,900), Risod town (2,357) and Washim (1,530). The percentage of slum population to total population, Mangrulpir town has the highest percentage of slum population (24.8 percent). The slum population in the remaining towns i.e Karanja, Risod and Washim is 14.0 percent, 8.6 percent and 2.4 percent respectively.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Karanja (M.Cl.)	Cotton Thread Aluminium Utensils Paper	Cotton Thread Aluminium Utensils Paper
2	Mangrulpir (M.Cl.)	Bricks Bakery Product Wooden Furniture	Cotton Bales Edible Oil Dal
3	Risod (M.Cl.)	Edible Oil Poha Oil Cake	Cotton Bales Edible Oil Food Grains
4	Washim (M.Cl.)	Edible Oil Dal Cotton Bales	Processed Grain Cotton Bales Edible Oil

The three main items manufactured and exported from each of the four towns of the district are given in this table.

In Karanja M.Cl. cotton thread ,aluminium utensils and papers are both manufactured as well as exported. In Mangrulpir M.Cl. bricks , backery products and wooden furnitures are the three important commodities manufactured, while exported items includes cotton bales, edible oil and dal. Similarly in Risod (M.Cl.) edible oil, poha and oil cake are three important commodities manufactured, oil cotton bales, edible oil and food grains are three important commodities exported.

In Washim M.Cl. edible oil, dal and cotton bales are important items manufactured, while processed grains, cotton bales and edible oil are exported.

TABLE 48 : HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

This table gives the distribution of households by tenure status and number of rooms occupied per total, rural and urban areas of the district. This table also gives similar information for scheduled castes and scheduled tribes households for the district. According to 2001 census there are 7,003 households having no exclusive room, 94,980 households having one room, 69,976 households having two rooms, 19,759 households having three rooms and 10,916 households having 3+ rooms.

Regarding rural and urban areas of the district there are 6,631 and 372 households respectively having no exclusive room, 85,560 and 9,420 households having one room, 58,903 and 11,073 households having two rooms, 14,738 and 5,021 households having three rooms and 6,832 and 4,084 households having three plus rooms respectively.

Among the scheduled castes households there are 1,928 households comprising 1,814 rural and 114 urban households having no exclusive room. 23,520 households comprising of 21,533 rural and 1,987 urban households having one room, 12,287 households comprising 10,708 rural and 1,579 urban households having two rooms. There are 2,257 households comprising 1,696 rural and 561 urban having three rooms and 954 households comprising 590 rural and 364 urban having above three rooms respectively.

Within scheduled tribes households of Washim district, there are 632 households comprising 615 rural and 17 urban households having no exclusive room, 9,962 households comprising 9,610 rural and 352 urban having one room, 4,797 households comprising 4,416 rural and 381 urban having two rooms, 803 households comprising 614 rural and 189 urban having three rooms and 316 households comprising 183 rural and 133 urban having 3 rooms and above respectively.

TABLE 49 : PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Serial number	District/ Tahsil	Total			Rural			Urban		
		Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary

6	Risod	34.5	60.4	5.1	30.8	64.0	5.2	58.0	37.3	4.7
District Total		**33.8**	**63.0**	**3.1**	**29.4**	**67.2**	**3.4**	**59.7**	**38.9**	**1.4**

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Note:-

Permanent:-1 Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concreate are used for roof.

Semi permanent:-2 Semi-permanent houses refer to those houses made of other types of materials

Temporary:-3 Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

The total percentage for the three categories viz.Permanent, Semi Permanent and Temportary may not add to 100 percent, the percentage remaining is for the 4th category Unclassified not shown in the table.

Table 49 gives the distribution of households living in permanent, semi-permanent and temporary houses in Washim district. According to 2001 census, of the total households of the district 33.8 percent are living in permanent houses, 63.0 percent are living in semi-permanent houses and 3.1 percent are living in temporary houses. In rural areas 29.4 percent, 67.2 percent and 3.4 percent households are living in permanent, semi-permanent and temporary houses respectively. Within the urban areas, 59.7 percent, 38.9 percent and 1.4 percent households are living in permanent, semi-permanent and temporary houses respectively.

The households living in temporary houses in urban areas constitute only 1.4 percent of the total households against 3.4 percent househoulds in the rural areas.

TABLE 50 : PERCENTAGE OF HOUSEHOLDS HAVING IMPROVED DRINKING WATER SOURCE, ELECTRICITY, BATHROOM, TOILET AND DRAINAGE FACILITY, 2001

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or o utside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Bathroom means bathroom within the house

Toilet means toilet within the house

Drainage means closed and open drainage

This table gives the classification of households having improved drinking water source, electricity, bathroom, toilet and drainage facility available in the district. According to 2001 census the facility of improved drinking water is available for 118,645 households constituting 58.6 percent of the total households. In rural and urban areas of the district, this facility is available for 91,385 (52.9 percent) and 27,260 households (91.0 percent) respectively. The facility of electicity is being enjoyed by 115,966 households (57.2 percent). In rural and urban areas of the district this facility is being enjoyed by 91,805 households (53.2 percent) and 24,161 households (80.6 percent) respectively.

The facility of bathroom is available in 115,914 households constituting 57.2 percent of total households for rural and urban areas, this facility is available for 92,531 households constituting 53.6 percent of total households and 23,383 households constituting 78.0 percent of the total households respectively.

The facility of toilet is available in 38,595 households constituting 19.0 percent. For rural and urban areas this facility is available for 20,757 households constituting 12.0 percent and 17,838 households constituting 59.5 percent respectively.

The facility of drainage is available in 114,959 households constituting 56.7 percent of total households. For rural and urban areas this facility is available for 92,152 households constituting 53.4 percent and 22,807 households constituting 76.1 percent of total households respectively.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 51 gives the number and percentage of households by type of fuel used for cooking in rural and urban areas.

Of the 202,634 households 161,405 (79.7 percent) households use firewood for cooking, 14,709 (7.3 percent) households crop residue, 2,321 cowdung cake, 211 electricity, 15,776 (7.8 percent) cooking gas, 393 bio-gas, 7,085 households (3.5 percent) kerosene and 199 (0.1 percent) use other means. 387 households reported no cooking (0.2 percent) in the district.

In the rural areas, 148,381 households constituting (85.9 percent) of the total households use firewood for cooking.This is followed by use of crop residue (7.8 percent), cowdung cake (1.1 percent), kerosene (1.6 percent), bio-gas (0.2 percent), cooking gas (3.0 percent). In the urban areas 35.3 percent households use cooking gas LPG, followed by firewood (43.5 percent), kerosene (14.6 percent), cowdung cake (1.6 percent).

It may be seen that while firewood continues to be the predominant fuel used in rural areas. It is the cooking gas in urban areas.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 52 gives the number of households availing banking services and number of households each of the specified assets in 2001 census.

There are 202,634 households of which 172,664 are rural and 29970 urban. Of these banking facilities are being availed by 85,292 households of which 73,277 households are rural and 12,015 urban. It may be seen that higher proportion of households in urban areas (40.1 percent of total urban households) utilize the banking facility, as compared to the rural areas (42.4 percent). Two out of the six tahsils viz., malegaon and Manora are totally rural tahsils.

In the district 39,181 households have radio/ transistor, 46,705 households have television, 7,433 have telephone, 49,625 households have bicycle, 12,161 households possess scooters and 2098 households possess car, jeep, van.

A perusal of the data available for the tahsil shows that a higher proportion of households in urban areas possess these specified assets. However 115,191 households constituting 56.8 percent possess none of the above specified assets.

(viii) Major Social and Cultural events, Natural and Administrative developments and significant activities during the decade.

A new district viz., Washim was carved out from Akola District vide Govt. Notification No. REN 4597/ CR-5/M-10 Dated 30th June1998. Six tahsils viz., Malegaon Mangrulpir, Karanja, Manora, Washim and Risod were transferred from Akola district to newly formed Washim district.

(ix) Brief description of places of Religious, Historical or Archeological importance in the villages and Places of Tourist interest in the towns of the district.

Fairs

The fair India usually serves more than one purpose. No doubt they primarily religious gathering of persons belonging more often than not one particular religion. However, they also bring into the market various indigenous articles produce by the villages and thus, serve as a place of exchange of the goods produce by the village artisans. Except that they are much larger gathering these fairs differ title from weekly markets. Besides local panlards and traveling dealers, most fairs are attended by agents of many traders. The chief articles of sale / purchase are cloth, pots and live stock. People buy necessary articles in these fairs. Important fairs are held in various parts of the district. Among them a few viz., Birbalinath fair at Mangrulpur tahsil, Poheradevi goddess fair at Manora tahsil, Sakharam Maharaj temple at Loni in Resod tahsil are famous fairs of the district. Various stalls opened at the fairs, important among them being those of brass utensils, cloths, sweetmeats, bangles, stationery and fancy goods etc.

Fort old temples darghas, maths in the district play an important role in shaping the socio-cultural pattern of the district and are major tourist attractions.

In Washim district there are a number of temples located. The chief among them are Pedmatirtha, Balaji temple, Rama temple, Madhyameshvara temple godeshvara temple, two Jains temples and Narayana Maharaja temple. In Karanja tahsil there are old temples, mosques tombs and well built havelies many of which have their own tales to tell. The Rishi Talav is the most spriking feature in the neighbourhood of Karanja. It is said that the talav was originally created in order to heat of disease which afflicated the sage karanja from whom the town takes its name. A Mohammedam Saint at Karanja was a scholar in Hindu dharmashtra and was so much attached to Hinduism that he wrote a criticism on Bhagavatgita is evidenced by the Bhokta Rahasya Anant Kavi. There are three Jain temples in Karanja town. The first temple which contains an image of Parasnath, has very elaborate wood carving. One of the temple maintains a huge stock of religious treatises on Jainism as well as ancient Prakrit and Apabhransha work some of which have been published recently. The idols in these temples are very fine and they have a lot of rare jewellary. A Jain festival on a moderate scale, is held in Bhadrapada (August-September) Shri Guru Nrisinhasarsvati born at Karanja. Nrisinsarsvati Mandir and Jain temple are among the main histrorical places in Mangrulpir tahsil the only features of interest are the dargahs and tombs of sah Badr-ul-din and other Mahammadan Saints and Pirs. Tarhala is a famous place located in Mangrupir tahsil and this place is famous for pathanis peoples holy place. Resod is the main trade centre for food grains in the district. Amardasbaba's temple is situated in this tahsil.

Washim

1st July, 1998 district was created ancient name 'Vastagulma' Washim is a place with antiquity and according to some scholars, it is the place where Vatsa Rishi performed penace and where many Gods come to blese him as a results of which it come to be known as Vatsagulma. Its mention as vatsagulma is traced in Padma Purana.

Dargah

Among the dargahs in the town Aga-Miya dargah and the zulpikarali dargah are important. The Aga-Miya dargah is the oldest dargah in the town and is situated on eastern bank of the Manora. The zulpikaralli dargah is also an old dargah situated on the western bank of the Manora on the distilliery road near the railway line. Annual urus is held at the dargah which is attended by the large number of people.

Padmatirth

Washim is known to have had 108 tirthas holy places or seased springs associated with different Gods and Rishis. The Padmatrith is one of the tirthas created Vishnu. The people use the tirtha for the immersion of bones and ashes of the dead whose last rites are performed on its bank. The tirtha is also use for swimming purpose.

Balaji Mandir

The temple of Balaji is one of the oldest temple in the town and was constructed by Bhavani Kalu who rose to bethedivan of Sabaji Bhosale and Janoji Bhosale. The temple was constructed in 1779 A.D. when he was the Subhedar of the thana at Karanja.

Rama Mandir

On the other side of the Deo talav is a temple dedicated to Ramchandra a large enclosed building. It contains image of Lakshmana, Sita, Maruti and Radha Krishna beside that of Ramchandra. In front of the temple a two storied dharmashala is located. It is used by the bairagis who visit the temple. Marriage and such other regions function also take place in the darmashala. Ramnavami is celebrated at this temple with great pump.

Narayan Maharaja Temple

A temple has recently have been constructed over the samadhi of Narayan Maharaja who stayed at the Washim. The image Narayan Maharaja has been placed over the Samadhi of Shri Dattatraya image is also located nearby this Samadhi. The whole construction is of white marble. Every year a small fair attended by the local people is held in Datta Jayanti.

(x) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district

Washim district has one the biggest cotton markets in Maharashtra. Cotton is exported to all over Maharashtra as well as outside the state. Natural resources required for agriculture based industries are available to a great extent. In the district as is evident from the existence of a large number of cotton ginning, pressing and weaving units, in all tahsils of the district a large scale of sugar factory is situated as Masalapen, in Risod tahsil. Filling of gas cylender Project is done in Dhanaj at Karanja tahsil alluminium utensils production factory is also located at Karanja tahsil. In Washim chemical fertilizers factory is also located.

Another important features of the district is the hydrogenated oil mill known as Birar oil Industries and Produces hydrogenated oil besides non-fatty vegetables and soaps. Other small scale establishments like ethy alcohol, cold drinks, paper mills, soap making units, metal plating and instructments, rubber producer etc. provide employment to many people. In Washim district many centres of Iron and steel based workshops are found in Washim and malegaon tahsils these units were mainly engaged in the manufacture of steel furniture, agricultural impliments and other iron still product. In addition to this there are many soap factories in the district, village and cottage industries play an important role in the industrial development of the district. Handloom weaving has been the age old occupation in the district.

The Government has provided many travel and tourisum facilities in Washim district. There are 40 rest houses maintained by government of Maharashtra. Marathi is the principle language spoken and understood by the majority of people. Jawar wheat constitute the main staple food of the rural people in the district. Ganesh Utsave, Holy Diwali, Ramnavami, Christmas and Moharram are the important religious festivals of the people.

(xi) Scope of Village Directory and Town Directory

Information on this aspect is furnished in detail in the village and town directory statements and in a consolidated form in the appendix and also in the tables presented. The non-census information collected at the village level or town level by the Tahsildar / chief officer was scrutinized and verified in each district by the district planning officer / district statistical officer. The Collectors were also requested to once again reverify the data in case serious discrepancies were observed. Logical tests were applied to the data and the officials of this directorate visited the districts to revalidate the data. Besides this, the non-census information was cross-checked with the parent department. For example information on electricity was cross checked with Maharashtra State Electricity Board, that on roads with Public Works Department, on health with the Directorate of Health and so on.

Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number

of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village.

The Village Directory format has 23 columns and the details given under each column for the village are as follows:-

Column 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X are included in secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

This column provides data available on medical amenities in the village.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

Column 8 gives information regarding availability of drinking water within the village. In case more

than one source is available to the village the same has been indicated.

Column 9 : Post, Telegraph and Telephone

Column 9 provides the postal facilities such as post office, telegraph office, post and telegraph office and telephone connections available in the village.

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc., the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given.

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given.

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded.

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable waterway, the same has been indicated in this column.

Column 14 : Approach to village

Approach to village refers to the state of road leading to village.

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

This column relates availability of Power Supply in the village.

Column 17 : News Paper / Magazine

If the village receives any News Paper/ Magazines the same is noted in this column.

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23: Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Unirrigated land, Culturable waste and area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) upto one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department.

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages CD Block wise of the district.

Appendix-I-A Indicates number of villages CD Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages CD Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages CD Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / Non-municipal Towns.

Appendix - IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A, VII B The appendix shows the list of villages according to proportion of the Scheduled Castes and Scheduled Tribes to the total population by ranges.

Town Directory :

The town directory is presented for each town covering different aspects of urban life. In 2001 Census, Statement I – VII have been included for presentation of this data. The data contained in these statements are the area, population in 2001 and past Censuses, growth rates, density, sex ratio, physical aspects of towns, communications, municipal finance, civic, medical, and educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutory notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns the Tahsildar and cantonment executive officers supplied the information.

Statement I-Status and Growth History

Statement I shows the status and growth history of the towns in the district, column 2 in this statement indicates class, name and civic administration status of a town. Class of the town indicated under this column has been introduced to facilitate the analysis of town directory data at the State and National level. Census towns have no urban civic status.

Column 3 indicates location code number of the town, column 4 gives name of tahsil and column 5 shows the name of C.D.Block. Column 6 presents area in Sq. Kms., Column 7 presents number of households including houseless households.

Column 8 to 18 gives population and growth rate of town since 1901 and would help in drawing the trends in their growth rate, Column 19 presents density and Column 20 to 22 presents sex ratio.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV-Civic and other Amenities, 1999

Statement IV provides information on the civic and other amenities available in the town. Total population given under column 3 and Scheduled Castes / Scheduled Tribes population given in column 4 and 5 have been added to help in measuring amenities in respect of population size of the weaker sections in the towns. The information on the road length within the town shown under column 6 has been obtained from Municipality.

Column 7 to 12 reflects the information on system of sewerage, number of latrines, and method of disposal of night soil.

Column 13 indicates sources of protected water supply to the inhabitants of the towns. The information on storage and capacity is shown under column 14.

Column 15 gives information regarding availability of fire fighting services. In case it is not available in the referent town, the name of the nearest place where it is available has been mentioned and the distance from the town has also been indicated within brackets. Column 16 to 20 pertains to the number of electricity supply connections available for domestic, industrial, commercial and road lighting points etc.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 and 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, are treated as independent units.

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc.

Column 6 to 9 :

The information on educational facilities is reflected in columns 6 to 9

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14: Higher Secondary/ Intermediate/Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

Schools up to class IV are treated as Primary or Elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class IV and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like Middle schools with Primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P (4), M (3).

Column 15: Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostels if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational and cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded.

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non-Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area committee etc.

PART A
VILLAGE AND TOWN DIRECTORY

Section I - Village Directory

(a)Note Explaining the abbreviations used in Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X are included in secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12:Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water way they are mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If a village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) upto one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK

(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A The appendix shows the list of villages according to proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B The appendix shows the list of villages according to proportion of the Scheduled Tribes to the total population by ranges.

(b) List of Villages fully merged in towns and outgrowth at 2001 Census

Serial Number	Name of Villages	Location Code No. 1991	Merged in towns and Outgrowths
1	2	3	4
1	Mangrulpir (Mangrulpir Tahsil)	66	Mangrulpir (M.Cl.)

Section II - Town Directory

(a) Note Explaining the abbreviations used in Town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) :Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows:

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board / Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate Office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Other columns need no comments

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha/pucca road is recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called seperate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) and others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 and 5 : Medical

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning

centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres are treated as independent units and counted separately using following codes:

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution(s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

Column 6 to 9 :Educational

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocationl institutions like - Applied Art/ Painting college, Pharmacy college, B.Ed. college, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :Higher Secondary/Intermediate/ Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/Junior Secondary and Primary Schools.

Schools upto class IV are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University/Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats.

The number of working women's hostels if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of the nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities.

Stadium, Cinema, Auditorium/ Drama / Community Hall are covered under recreational and cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading Room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies.

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area Committee etc.

STATEMENT
Status and

Serial Number	Class, name and civic status of town	Location code number	Name of Taluk/ Tahsil / Police Station /	Name of C.D. block	Area (in sq. km.)	Number of households incl. Houseless households (2001 Census)	Population and growth rate (in brackets) of the town at the Censuses of		
							1901	1911	1921

There is no outgrowth in this district; hence the information is ‘ Nil ’.

PART B
PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the

quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union Territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE - II

Fertility and Mortality, 1991 Census

Fertility Levels :

Fertility is a major component of population growth. In the 1991 Census questions on fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year were asked. The first three questions were asked to all ever married women and last questions related to currently married women. The measures of fertility worked out are based on the F- series of 1991 Census pertaining to Maharashtra State.

Different fertility measures reveal that the level of fertility of the district is higher compared to the State average; child woman ratio is also high as compared to State. But mean age at marriage is slightly low as compared to State average.

Mortality Levels

Information on the question on children ever born and children surviving canvassed for all ever-married women have been tabulated by age of the mother. From this estimates of the child mortality have been worked out by using brass technique.

ANNEXURE II (i)
Estimates of Child Mortality, 1991

		Akola* District	Maharashtra State
Item		Total	Total
1	2	3	4
Q1	P	101	74
	M	103	72
	F	96	76
Q2	P	103	79
	M	106	78
	F	101	81
Q3	P	108	86
	M	109	84
	F	107	89
Q5	P	115	91
	M	117	89
	F	112	93

* Washim district included in undivided Akola District.

Mortality

The estimates of child mortality in 1991 of q(1), q(2), q(3) and q(5) it is observed that child mortality in the district is higher compared to the state.

ANNEXURE II (ii)
Estimate of Fertility Indicators at district level, Maharashtra, 1981 and 1991

	Akola* District		Maharashtra State	
Fertility Measures	1981	1991	1981	1991
1	2	3	4	5
GFR	146	148	134	124
GMFR	183	190	168	157
TFR	4.7	4.6	4.3	3.7
TMFR	5.7	6.3	5.2	5.2
Crude Birth Rate (CBR)	35.5	34.1	31.8	29.8
No. of children ever born per women in the age group 45-49	--	4.7	--	4.2
Mean Age at Marriage	--	17.9	--	17.9
Child Women Ratio	--	56.0	--	49.6

* Washim district included in undivided Akola District.

Fertility

A perusal of the various fertility measures namely GFR (General Fertility Rates), GMFR (General Marital Fertility Rate), TFR (Total Fertility Rate), TMFR (Total Marital Fertility Rate), CBR (Crude Birth Rate) for the district vis-à-vis State reveals higher rates for the district as compared to State as a whole. In 1981, the GFR, GMFR, TFR, TMFR & CBR were 146, 183, 4.7, 5.7 and 35.5 respectively as compared with State average 134, 168, 4.3, 5.2, and 31.8 in Census 1981. Similar trend is observed in 1991 Census. In 1991 GFR, GMFR, TFR, TMFR & CBR were 148, 190, 4.6, 6.3 and 34.1 respectively for the district as against the State average of 124, 157, 3.7, 5.2, and 29.8 respectively.

It may be seen that, while during both Census 1981 and 1991 the fertility rates are higher for the district than the State as a whole. But the gap in fertility rates between the district and the State has reduced in 1991.

Mean age at marriage

Mean age at marriage for the district and the State in 1991 found to be the same.

Child Woman Ratio

The Child Woman Ratio for the district is recorded higher than the state in 1991 Census.

ANNEXURE III

Various Measures of Fertility and Mean Age at Marriage,1991

ANNEXURE - IV

Percentage distribution of Migrants by Place of Birth/Place of last residence, 2001 Census.

Migrants by Place of Birth

ANNEXURE IV (i)
Percentage distribution of Migrants by Place of Birth – Maharashtra

Serial number	Place of Birth	2001 Census		
		Person	Males	Females
1	**2**	**3**	**4**	**5**
1	A. Migrants born within the state of enumeration	32,939,182	11,858,299	21,080,883
		80.5	72.3	86.1
	i) Migrants born elsewhere in district of enumeration.	20,718,400	6,618,661	14,099,739
		50.7	40.4	57.6
	ii) Migrants born in other district of the state	12,220,782	5,239,638	6,981,144
		29.9	32.0	28.5
2	B. Migrants born in other states of India	7,756,307	4,427,935	3,328,372
		19.0	27.0	13.6
3	C. Migrants born in other countries	197,731	109,447	88,284
		0.5	0.7	0.4
4	D. Unclassifiable	9	3	6
		0.0	0.0	0.0
	Total Migrants :	**40,893,229**	**16,395,684**	**24,497,545**
		100.0	**100.0**	**100.0**

On the basis of migrants by place of birth, there are 40,893,229 migrants in Maharashtra in 2001 comprising 16,395,684 males and 24,497,545 females. These migrants constitute 42.2 percent of total population. Male migrants constitute 32.5 percent of male population while female migrants account for 52.7 per cent of female population.

ANNEXURE IV (ii)
Percentage distribution of Migrants by Place of Birth – Washim

Serial number	Place of Birth	2001 Census		
		Person	Males	Females
1	**2**	**3**	**4**	**5**
1	A. Migrants born within the state of enumeration	340,901	84,284	256,617
		98.6	97.5	98.9
	i) Migrants born elsewhere in district of enumeration.	193,250	47,841	145,409
		55.9	55.3	56.1
	ii) Migrants born in other district of the state	147,651	36,443	111,208
		42.7	42.1	42.9
2	B. Migrants born in other states of India	4,674	2,057	2,617
		1.4	2.4	1.0
3	C. Migrants born in other countries	232	122	110
		0.1	0.1	0.0
4	D. Unclassifiable	0	0	0
		0.0	0.0	0.0
	Total Migrants :	**345,807**	**86,463**	**259,344**
		100.0	**100.0**	**100.0**

In Washim district there are 345,807 migrants comprising 86,463 males and 259,344 females. The migrants of this district constitute 33.9 percent of total population. Male and female migrants constitute for 16.4 and 52.5 percent respectively.

From the distribution of total migrants in Maharashtra by place of birth, it can be clearly seen that females predominate in intradistrict and interdistrict migration while males predominate in interstate and international migration. In Washim district females predominate in all streams except international migration.

ANNEXURE IV (iii)
Inter State Migrants to Maharashtra

Serial number	Place of Birth	2001 Census	
		Migrants	Percentage to total Migrants
1	2	3	4
1	Andhra Pradesh	450,898	5.8
2	Bihar	386,799	5.0
3	Gujarat	890,428	11.5
4	Karnataka	1,267,421	16.3
5	Kerala	307,676	4.0
6	Madhya Pradesh	616,059	7.9
7	Rajasthan	463,875	6.0
8	Tamil Nadu	267,477	3.4
9	Uttar Pradesh	2,172,971	28.0
	Total for Nine States	6,823,604	88.0
	Other States	932,703	12.0
	Total	**7,756,307**	**100.0**

The number of migrants born in other states of India is 7,756,307. It is seen that 19.0 percent of the total migrants in Maharashtra are from other states. In case of Washim district 4,674 (1.4 percent) of the total migrants are from other states.

In case of Maharashtra 9 States viz., Uttar Pradesh, Karnataka, Gujarat, Madhya Pradesh, Andhra Pradesh, Rajasthan, Kerala, Tamil Nadu and Bihar together account for 6,823,604 migrants (88.0 percent) out of 7,756,307 interstate migrants.

ANNEXURE IV (iv)
Inter State Migrants to Washim

Serial number	Place of Birth	2001 Census	
		Migrants	Percentage to total Migrants
1	2	3	4
1	Andhra Pradesh	662	14.2
2	Bihar	118	2.5
3	Chhatisgargh	418	8.9
4	Gujarat	435	9.3
5	Karnataka	137	2.9
6	Kerala	108	2.3
7	Madhya Pradesh	1,365	29.2
8	Rajasthan	677	14.5
9	Uttar Pradesh	377	8.1
	Total for Nine States	4,297	91.9
	Other States	377	8.1
	Total	**4,674**	**100.0**

In respect of Washim district out of 4,674 interstate migrants, Madhya Pradesh account for 29.2 per cent, Rajasthan account for 14.5 per cent and Andhra Pradesh account for 14.2 per cent.

Migrants by Place of last residence

ANNEXURE IV (v)
Percentage distribution of migrants by place of last residence - Maharashtra

	Place of last residence	2001 Census		
		Persons	Males	Females
	1	2	3	4
A)	Last residence within the State of Enumeration	34,225,081 82.0	12,486,174 74.5	21,738,907 87.1

		0.1	0.1	0.0
D)	Unclassifiable	0	0	0
		0.0	0.0	0.0
	Total migrants :	**354,153**	**89,200**	**264,953**
		100.0	**100.0**	**100.0**

In Washim district there are 354,153 migrants comprising 89,200 males and 264,953 females. The migrants of this district constitute 34.7 percent of total population. Male and female migrants constitute 17.0 and 53.6 percent respectively.

From the distribution of total migrants in Maharashtra by place of last residence, it can be clearly seen that females predominate in intradistrict and interdistrict migration while male predominate in interstate and international migration. In Washim district females predominate in all streams except international migration.

The number of migrants by last residence from other States of India is 7,313,139. It is seen that 17.5 per cent of the total migrants are from other states. In case of Washim district 4671 (1.3 percent) of total migrants are from other states.

ANNEXURE IV (vii)

Inter State Migrants to Maharashtra

Serial number	Place of Last residence	2001 Census	
		Migrants	Percentage to total Migrants
1	2	3	4
1	Andhra Pradesh	431,774	5.9
2	Bihar	361,351	4.9
3	Gujarat	849,045	11.6
4	Karnataka	1,165,351	15.9
5	Kerala	258,952	3.5
6	Madhya Pradesh	589,745	8.1
7	Rajasthan	431,190	5.9
8	Tamil Nadu	249,989	3.4
9	Uttar Pradesh	2,072,193	28.3
	Total for Nine States	6,409,590	87.6
	Other States	903,549	12.4
	Total	**7,313,139**	**100.0**

In Maharashtra, 9 states viz., Uttar Pradesh, Karnataka, Gujarat, Madhya Pradesh, Andhra Pradesh, Rajasthan, Bihar, Kerala and Tamil Nadu together account for 6,409,590 migrants (87.6 per cent) out of 7,313,139 interstate migrants.

ANNEXURE IV (viii)
Inter State Migrants to Washim

Serial number	Place of Last residence	2001 Census	
		Migrants	Percentage to total Migrants
1	2	3	4
1	Andhra Pradesh	674	14.4
2	Bihar	119	2.5
3	Chhatisgargh	421	9.0
4	Gujarat	497	10.6
5	Karnataka	136	2.9
6	Kerala	100	2.1
7	Madhya Pradesh	1,320	28.3
8	Rajasthan	662	14.2
9	Uttar Pradesh	358	7.7

ANNEXURE IV (viii) - (Contd.)

Serial number	Place of Last residence	2001 Census	
		Migrants	Percentage to total Migrants
1	2	3	4
	Total for Nine States	4,287	91.8
	Other States	384	8.2
	Total	**4,671**	**100.0**

In respect of Washim district out of 4,671 interstate migrants Madhya Pradesh accounts for 28.3 per cent, Andhra Pradesh 14.4 per cent and Rajasthan 14.2 percent.

Rural – Urban Components Of Migration

The flow of migrants would consist of four streams viz., rural to rural, rural to urban, urban to rural and urban to urban. The data on the basis of these various streams in case of migrants is classified by place of last residence. It presents data only in relation to internal migrants. The data for Washim district is presented separately.

ANNEXURE IV (ix)
Rural And Urban Composition of Internal Migrants by Place of last Residence, 2001 Census - Maharashtra

	Place of last residence	Place of Enumeration		
		Total	Rural	Urban
	1	2	3	4
	Total Internal Migrant :			
1)	Within the State			
	Total	34,225,081	21,265,808	12,959,273
		100.0	62.1	37.9
	Rural	24,089,515	17,275,775	6,813,740
		70.4	50.5	19.9
	Urban	7,281,769	1,988,464	5,293,305
		21.3	5.8	15.5
2)	In other States of India			
	Total	7,313,139	1,165,461	6,147,678
		100.0	15.9	84.1
	Rural	4,644,986	931,705	3,713,281
		63.5	12.7	50.8
	Urban	2,392,567	184,302	2,208,265
		32.7	2.5	30.2

Note: The place of last residence unclassifiable as 'Rural' or 'Urban' is included in 'Total'.

Of the total 34,225,081 intrastate migrants, 50.5 per cent are from rural to rural, 15.5 per cent from urban to urban, 19.9 percent from rural to urban and 5.8 per cent from urban to rural. In case of Washim district of the total 349259 intrastate migrants 71.3 per cent are from rural to rural, 6.7 percent from urban to urban, 9.3 per cent from rural to urban and 6.9 per cent from urban to rural.

ANNEXURE IV (x)
Rural And Urban Composition of Internal Migrants by Place of last Residence, 2001 Census - Washim

Place of last residence	Place of Enumeration		
	Total	Rural	Urban
1	2	3	4
Total Internal Migrant :			
1) Within the State			
Total	349,259	290,182	59,077
	100.0	83.1	16.9
Rural	281,294	248,945	32,349
	80.5	71.3	9.3
Urban	47,636	24,235	23,401
	13.6	6.9	6.7
2) In other States of India			
Total	4,671	2,295	2,376
	100.0	49.1	50.9
Rural	2,035	1,267	768
	43.6	27.1	16.4
Urban	2,427	908	1,519
	52.0	19.4	32.5

Note: The place of last residence unclassifiable as 'Rural' or 'Urban' is included in 'Total'.

In case of migrants from other states 7,313,139; 12.7 per cent have migrated from rural to rural, 30.2 per cent from urban to urban, 50.8 per cent from rural to urban and 2.5 per cent urban to rural. In case of Washim district of the total 4671 migrants, 27.1, per cent are from rural to rural, 32.5 per cent from urban to urban, 16.4 per cent from rural to urban and 19.4 per cent from urban to rural.

ANNEXURE IV (xi)
Percentage of migrants to total population, 1991-2001
Washim district

Source: Table C-9 of Part IV-(B)(ii), Religion, 1991 Census

* Washim district was included in undivided Akola district in 1991

The distribution of religions by rural and urban areas of the district shows that about 73.2 per cent of the population is reported their religion as Hindu (76.8 per cent in rural and 56.2 per cent in urban areas). Muslim account for 6.5 percent in rural areas and 32.1 per cent in urban areas. Buddhist are 16.2 percent in rural areas and 8.2 per cent in urban areas. Christian, Sikh and Jain are found numerous in urban areas.

Since in 1991 Washim district was included in undivided Akola district, the comparison has not been attempted.

Source: Table C-2 2001 census, Table C-1 of Part IV-A, C Series, Socio-Cultural Tables,1991 Census

* Washim district was included in undivided Akola district in 1991 census.

During the 1991-2001 decade in Maharashtra state, the proportion of never married has decreased both for males and females, the proportions of married, widowed and divorced/separated has increased both for males and females (except widowed males).

The proportion of never married in age group 0-14 and 15-34 has increased in males and females while the proportion of married in the same age group has decreased in males and females.

Since in 1991 Washim district was included in undivided Akola district, the comparison has not been attempted.

Note: # The 1991 Census could not be conducted in 33 villages of Akkalkuwa and Akrani C.D. Blocks of Dhule District. The population of these villages (Persons 16,052 Male 8,200 and Females 7,852) has been obtained from secondary sources and included in the population of district and Maharashtra. However, further details are not available.

Source: Table C-2 of Part IV-A, C series - Socio Cultural Tables, 1991 census.

* Washim district included in undivided Akola District.

The literacy rate for the district is reported 73.4 percent as a whole and the rate in urban area is 82.4 per cent, which is higher than that of rural area i.e., 71.4 percent. General trend is that the male literacy rate is always higher than the female literacy rate.

When compared to 1991 data, it is found that during the last decade the literacy rate of the state has jumped from 64.9 percent to 76.9 percent. Since in 1991 Washim district was included in undivided Akola district, the comparison has not been attempted.

ANNEXURE VIII

Distribution of different Mother Tongues returned in 2001 Census

Table below shows the percentage distribution of 9 major languages returned as Mother tongue and percentage of each language in Rural/Urban areas in 2001 Census in district.

Percentage distribution of different Mother Tongues returned in 2001 Census

		Percentage to total population			Percentage of each mother tongue in	
	Mother Tongue	Total	Rural	Urban	Rural	Urban
	1	2	3	4	5	6
1	Banjari	8.5	10.1	0.7	98.5	1.5
2	Hindi	4.7	3.2	12.1	55.1	44.9
3	Marathi	75.4	80.0	53.9	87.5	12.5
4	Marwari	1.2	0.8	3.4	51.6	48.4
5	Paradhi	0.1	0.1	0.1	86.4	13.6
6	Sindhi	0.3	0.0	1.3	8.1	91.9
7	Telugu	0.1	0.1	0.3	59.4	40.6
8	Urdu	7.9	3.9	26.3	41.4	58.6
9	Vadari	0.5	0.6	0.2	94.3	5.7
	Total of other mother tongues	1.2	1.2	1.6	77.1	22.9
	All Mother Tongues	**100.0**	**100.0**	**100.0**	**82.5**	**17.5**

Source : Table 31 of Maharashtra State District Profile, 1991.

* Washim district was included in undivided Akola district in 1991

Marathi is the main language of the district and is spoken by 75.4 per cent of the district population. In rural areas Marathi speakers account for 80.0 per cent whereas in urban areas 53.9 per cent. Banjari is the second largest language spoken in the district. It accounts for 8.5 per cent of the total population. The proportion of Banjari speakers is higher in rural areas (10.1 per cent) than the urban areas (0.7 per cent). The third largest language spoken in the district is Urdu, its percentage to the total population is 7.9 and mainly spoken in urban areas by 26.3per cent, whereas it is 3.9 per cent in rural areas.

The speakers of the minority languages viz., Hindi, Marwari, Sindhi and Telugu are mainly concentrated in urban areas and Vadari is concentrated in rural areas of the district. Pardhi is spoken equally in rural and urban areas.

Since in 1991 Washim district was included in undivided Akola district, the comparison has not been attempted.

Annexure VIII

District level distribution of different mother tongues returned in Washim district, 2001 Census

		Number of Persons who returned the mother tongue as their mother tongue					
			Percentage of			Proportion	
	Mother Tongue	Total	Total Population	Rural	Urban	Rural	Urban
