VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

Samir Kumar Biswas
of the Indian Administrative Service
Director of Census Operations, Maharashtra

Product Code Number

MOTIF

Wooden Toys factory

Sawantwadi, 367 feet above the sea, founded by Phond Savant in 1670, the town almost buried in palm groves, stretches round the border of a lake, over rocky uneven ground seamed by ravines and water-courses. Well-wooded hills rise on all sides, the highest, Vadi Peak on the west rising, 1,200 feet above the sea.

Sawantwadi manufactures are almost all ornamental. They are lacquered toys, mats, boxes and baskets, small tables, and other ornaments of bison and buffalo horn and pipe bowls of the inner shell of the coconut polished and inlaid with quicksilver.

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and collage),

medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri Samir Kumar Biswas, Director of Census Operations, Maharashtra. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective State Governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated: 17.10.2006

Preface

The Registrar General and Census Commissioner of India has in his foreword to this series of publications, not only provided the reader with the historical background of the District Census Handbooks but has also explained at some length the scope and coverage envisaged for this country-wide project. This volume contains the salient results based on the data gathered at the actual head-count and in addition contain a wealth of other non-census information in respect of Villages and Towns of the District. It is hoped that this volume would go a long way to meet the ever-increasing demand for the micro-level data in this era-planned development.

District Census Handbook of Maharashtra is a joint venture of the Government of Maharashtra and the Census Organization of the Government of India. The design for the 2001 District Census Handbook was evolved centrally by the Census Commissioner, India. In the preparation of the District Census Handbook, the role played by the Census Organization is that of data gatherer. In accomplishing this task we have had the ready and whole-hearted co-operation of the staff at various levels of different departments of the State Government. Much of the data so provided by this field –level officers have been cross checked with the data obtained from various departments and an attempt has been made to reconcile the discrepencies as well. The Village Directory data in addition were also examined logically and possible errors list generated village wise for select facilities was rechecked and revalidated with the revenue officers in the respective Collectorate.

I am extremely grateful to Shri D.K. Sikri, Additional Secretary and Registrar General, India for his guidance in bringing out this publication. I am equally grateful to Shri J. K. Banthia, I.A.S. the former Registrar General and Census Commissioner, India for his constant inspiration, help and guidance at every stage.

I also express my thanks to Dr. R.P. Singh, Dy. Registrar General, India (Map), Shri R.G. Mitra, Dy. Registrar General, India (Census Division), Dr. I.C. Agrawal, Assistant Registrar General (SS Division), Shri S.L. Jain Deputy Director (SS Division), Shri C.S. Arora, Director (EDP), Shri Himakar, Additional Director (EDP), Shri M.R. Balakrishnan, Joint Director (EDP), Shri Anil Kumar, Deputy Director (EDP) and their colleagues for their co-operation and support in bringing out this volume.

Shri Samir Kumar Biswas, IAS held the office of Director of Census Operations, Maharashtra and guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the direction and guidance of Shri Biswas. We would deem it our duty; therefore, to offer him our sincere and grateful thanks for all that he did for this project.

In this Directorate, Shri R.S. Meena, Joint Director guided this project in a meticulous manner and received all help from Dr. S.S. Hiremath, Deputy Director. The DCHB unit was spearheaded by Smt. Sushma Monga, Assistant Director, who was on deputation from the Planning Commission, New Delhi.

The physical features have been concurred by the Map section, after incorporating necessary changes, wherever required. The Maps, inserted are prepared by the Cartography section under the guidance of Shri D.N. Chaurasia, R.O.

I take this opportunity to offer my grateful thanks to all officials in various grades who have been actively involved in voluminous work of compilation and preparation of this volume. The list of the officials of this Directorate closely associated with this work is given separately.

Definition of Census Town:

All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns:

i) A minimum population of 5,000;
ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and
iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

		Urban	0.0	0	0	0

Note : Since the source for the total area figures in respect of the State and districts is the Surveyor General while that for the total area figures in respect of the tahsils is the Settlement Commissioner and Director of State Land Records Department the total areas, as also the rural areas, for the tahsils in district, may not add upto the corresponding figures shown against the district.

The population per square kilometre worked out from actual area figure upto 2 decimal point and then area presented in 1 decimal point.

M.Cl stands for Municipal Council and C.T. for Census Town

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of District Census Handbook

The origin of DCHB lay in the 1951 Census when it began as a joint venture between the Government of India and the State Government. The present volume pertaining to 2001 Census is sixth in series since then. The District Census Handbook (DCHB) is a unique publication from the Census Organization that, in a condensed form, gives details of the Census and non-Census information from the village level upwards to the district level. It has therefore, been acclaimed & recognized as one of the best source of information next only to the district gazetteer.

The District Census Handbook as published in 1951 incorporated, some basic demographic and economic information of the district, village wise and town wise separately, besides having some important Census Tables. However, it underwent a radical change in the 1961 Census as a much more descriptive account of the district and a lot of non-census information on climate, rainfall, agriculture, industry, education, etc. was added to it besides a number of cross tables being picked up from various series of Census tables. In 1971 the District Census Handbook was divided into Part - A relating to Village and Town Directory, Part - B containing village and town wise Primary Census Abstract and Part - C reported on the administrative aspect and Census tables based on Primary Census Abstract etc. For the state of Maharashtra only Part A and B were published. The 1981 Census again saw the scope of it increasing to contain the data on literacy rate, Primary Health Centers etc. It was published as part A and B and the same pattern was again followed in 1991. However, in 1991 some of the non-census data included information on girls schools, social forestry area etc. as separate Appendices. The DCHB, 2001 Census have been made more informative and exhaustive in terms of coverage and content. The scope of village directory has been broadened by including more types of facilities such as banks, recreational and cultural facilities, newspapers and magazines available in villages. Information on most important commodity manufactured in village and also income and expenditure of Gram Panchayat, wherever possible are provided. Specific details on distances, in case a basic amenity is not available in the referent village is also given. These include distances in respect of availability of primary and middle school and college (in respect of the educational facility), Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre (in respect of the medical facility), Drinking water, Post Office and Phone, Communication, Bank, Credit societies and Recreational facilities. The Non-Census information collected at the village level or town level by the Tahsildar/ Chief officer was scrutinized and verified in each district by the District Planning Officer and District Statistical Officer. The Collectorate were also requested to once again verify this in case serious discrepancies were observed. Logical checks were applied to the data and the scrutiny points which emerged after this exercise were further verified in the field by officials of this Directorate. With reference to the town concerned, the nearest city with 5 lakh and above population has also been given in addition to 1 lakh and above population. The non-census information was cross-checked with parent department also. For example, information on electricity was cross-checked with Maharashtra State Electricity Board, that on roads with Public Works Department, on health with the Directorate of health and so on. It is felt that because of this extra validation, information provided in the 2001 District Census Handbook should become more reliable and can be used without any hitch by Scholars and Planners alike. In town directory, information on all types of slums, whether notified/recognised by the respective town authority or not and in respect of all statutory towns irrespective of their class as against only Class I and Class II towns of the 1981 and 1991

Censuses are provided. The varied basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. A number of tables based on Primary Census Abstract are also made to correlate data with geography of the tahsils. A significant addition in the publication is inclusion of analytical notes as annexures on important aspects concerning Census data on (i) fertility, mortality and migration, (ii) various measures of fertility and mean age at marriage, (iii) percentage distribution of migrants by place of birth/place of last residence, (iv) main religions, (v) marital status of population, (vi) age, sex and education, and (vii) distribution of different mother tongue, all based on 1991 Census. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The Village and Town Directory as also the Primary Census Abstract included in this Handbook should quench the thirst of the planners involved in micro level planning.

(ii) Brief History of the District

Sindhudurg district is the southern part of the greater tract known as the 'Konkan', which is historically famous for its long coastline and safe harbours. Sindhudurg district was a part of the Ratnagiri district, but for administrative convenience and industrial and agriculturel development Ratnagiri district was divided into Ratnagiri and Sindhudurg with effect from 1st May 1981. Sindhudurg district now comprises the talukas of Devgad, Vaibhavwadi, Kankavli, Malwan, Vengurla, Kudal and Sawantwadi. After 1991 Census new tahsil Dodamarg was created by transfer of 56 villages from Sawantwadi Tahsil.

The word 'Konkan' is of Indian origin and of considerable antiquity, though the origin of the name has never been sufficiently explained. The seven kingdoms of Konkan of Hindu mythology are mentioned in the 'Hindu History of Kashmir' and are said to have included nearly the whole west coast of India. The Pandavas, are said to have passed through this region in the 13th year of their exicle and had settled in this area for some time. The Raja of this region veerat Ray had accompanied them in the famous war at Kurukshetra with the Kauravas.

In the second century A.D. the great empire of Mauryas annexed the entire Konkan coast. In the middle of the sixth century, kings of the Maurya and Nala dynasties appear to have been ruling in the Konkan. The district of Ratnagiri was under the Silaharas and the capital of their kingdom was probably Goa and leter it may have been transferred to a more central place in the vicinity of Ratnagiri or Kharepatan. Chandrapur was one of the most ancient towns in Konkan, probably founded by Chandraditya a son of the Chalukay King Pulkeshin II.

The 16th century saw the advent and rise of Portuguese power on the west coast of India and Sindhudurg was no exception. The sultan lost hold on the district in 1675 with the rise of Shivaji leading finally into the hands of Marathas. Marathas continued to rule the district till 1817 i.e. when the struggle between the British and the Peshvas came to an end and the whole of Konkan was transferred to the British.

In 1819 south Konkan was formed as a separate district with its headquarters first at Bankot and later at Ratnagiri. The three northern sub divisions were transferred to Thane District in 1830 and the district was reduced to a sub-collectorate level under Thane district. In 1832, it was again made a fullfledged district and named as Ratnagiri district. In the year 1945, a new mahal (Tahsil) called Kankavli Mahal (Tahsil) was formed. The former Indian State of Sawantwadi was merged with the district and the taluka boundaries were reorganised in the year 1949. In the same year the new taluka of Sawantwadi was created and two new mahals (tahsils) namely, Kudal and Lanja were formed. With the reorgenisation of States in 1956, the district was included in the Bombay State and since 1960; it forms a part of Maharashtra.

The name of the district has been adopted from the famous sea fort of Sindhudurg. This was built by Shivaji Maharaj near Malwan and it literally means 'Sea Fort'. Its construction was started on November 25, 1664 and after 3 years it was completed in such a fashion that it could not be seen easily by the enemy coming from the Arabian Sea.

(iii) Administrative Set-Up

There were Major changes in the administrative set-up of Maharashtra after the 1991 Census, resulting

in increase of five districts. The number of division unchanged it is same in 1991 census and 2001 census. The number of districts rose from 30 in 1991 census to 35 in 2001 census. Greater Bombay district of 1991 census divided into two forming Mumbai and Mumbai suburban districts. Similarly new districts Nandurbar, Washim, Hingoli and Gondiya district wear formed bifurcating, Dhule, Akola, Parbhani and Bhandara district respectively. Konkan division includes 6 districts, Nashik division has 5 districts, Pune division has 5 districts, Aurangabad division has 8 districts, Amravati division 5 districts and Nagpur division 6 districts. Sindhudurg district is included in Konkan division. Thus for 2001 census the State has 35 districts spread over 6 divisions in Maharashtra. Sindhudurg District has 7 tahsils in 1991 and in 2001 a new tahsil Dodamarg was created by the transfer of 56 villages from Sawantwadi tahsil. Thus Sindhudurg presently has 5 towns, 8 tahsils and 743 villages spread over Devgad (97), Vaibhavvadi (59), Kankavli (104), Malwan (135), Vengurla (83), Kudal (124), Sawantwadi (85) and Dodamarg (56) tahsils. The following statement indicates the changes, which occurred after 1991 census in the number of villages, towns in each tahsils and also the reasons for variation in brief:-

JURISDICTIONAL CHANGES DURING 1991-2001

Name of District/Tahsil	No. of villages as per 1991 Census as in Sindhudurg district	No. of villages as per Adjusted as per 2001 Jurisdiction	No. of villages as per 2001 Census	No. of New villages created	No. of Towns 1991 census	No. of Towns 2001 census	Changes since 1991 and Govt. Notification No.
1	2	3	4	5	6	7	8

JURISDICTIONAL CHANGES DURING 1991-2001 - (Contd.)

Name of District/Tahsil	No. of villages as per 1991 Census while in Sindhudurg district	No. of villages as per Adjusted as per 2001 Jurisdiction	No. of villages as per 2001 Census	No. of New villages created	No. of Towns 1991 census	No. of Towns 2001 census	Changes since 1991 and Govt. Notification No.
1	2	3	4	5	6	7	8
7 Sawantwadi	140	84	85	1	1	1	56 Villages transferred to newly formed Dodamarg Tahsil 1 New Village created after 1991 Census
8 Dodamarg	--	56	56	--	--	--	56 Villages transferred from Sawantwadi Tahsil LC Nos. 35,80,85-89 & 92-140.

* At the time of 1981 Census Shirale-Arule were two separate villages but in 1991 Census these two villages shown as one village i.e. Shirale-Arule , now in 2001 census again Shirale and Arule are shown two separate villages.

The district is divided into 2 sub-divisions and 8 tahsils. Kankavli sub-division includes Kankavli, Vaibhavvadi, Devgad and Malwan tahsils and Sawantwadi sub-division includes Sawantwadi, Kudal, Vengurla and Dodamarg tahsils. The District Collecter alongwith the District Judge, Superintendent of Police, Chief Executive Officer of Zilla Parishad and other Senior Officers of the State Government look after the development and regulatory functions in the district. At the tahsil level the Tahsildar, Block Development Officer, Judicial Magistrate, Deputy Engineers and other officers look after their respective department for development and regulatory functions.

Local self Governments, its composition, jurisdiction and the role in the Development.

Gram Panchayat is the lower most rung of the democratic set-up of India. It is governed by the 'Bombay Village Panchayat Act, 1958'. The 'Sarpanch' and in the absence of Sarpanch, the 'Upa-Sarpanch' preside over every meeting of 'Gram Sabha'. At least four meetings of the 'Gram Sabha' are held every year. Sarpanch and Upa-Sarpanch are elected from amongst the elected members of the Panchayat.

73rd Constitutional Amendment

To make Panchayat Raj Institutions strong and to give more power to the people, the State Panchayat Act has been amended in confirmation with the 73 rd Constitutional amendment, which is implemented in the State in April 1994. The Main fundamental provisions of the 73 rd Constitutional amendments are as follows:

1. Constitution of Panchayat Raj Institutions at Village, Intermediate (Development Block) and district level.

2. The seats and the offices of the chairpersons in the Panchayats at all the levels to be reserved in favour of Scheduled Castes and Scheduled Tribes in proportion to the percentage of population of the Scheduled Castes or Scheduled Tribes, as the case may be.

3. The elections to these Panchayat Raj Bodies to be held at the interval of every five years.

4. Powers, Authority and Responsibilities of Panchayats: -

(a)The preparation of plans for economic development and social justice

(b)The implementation of schemes for economic development and social justice as may be entrusted to them including those in relation to the matters listed in the Eleventh Schedule.

5. An independent State Election Commission to conduct the elections.

6. Powers to impose taxes by, and funds of, the Panchayats.

7. Constitution of Finance Commission by the State at the expiry of every five years term to review the financial position of the Panchayats and to make recommendation regarding distribution of State resources between the State and the Panchayat.

Constitution of Gram Panchayat

The gram panchayat consists of not less than seven and not more than seventeen members elected from wards on the basis of adult franchise. They hold office for a term of five years. Among these a few seats are reserved for persons belonging to the Scheduled Castes, the Scheduled Tribes, Backward Class of citizens and Women, as may be determined by the State Election Commission in the prescribed manner.

Administrative powers and duties of Panchayats

Administrative powers and duties of Panchayats are - to take care of the funds at its disposal, to take over and maintain water supply schemes through "Village Water Supply Fund", to make provision for carrying out within/outside the village any work subject to any directions made by State Government for any scheme or for any purpose sponsored by the Government, to make provision for carrying out work which is likely to promote health, safety, education, comfort, convenience or social or economic or cultural well- being of the inhabitants of the village, to make provision for entertainment, public reception, contribution towards annual gathering, to encourage farmers and co-operative societies to increase and improve agricultural production etc.

Powers and duties of Panchayats in the scheduled areas

Powers and duties of Panchayats are - to obtain from the Gram Sabha a certification of utilization of funds for the plans, programmes and projects, prospecting licence or mining lease for minor minerals, control on erection of building, to remove any obstructions and encroachments upon public streets and open sites etc.

Establishment, Budget and Accounts

The day to day work of the Panchayat is done by Secretary of panchayat. The Chief Executive Officer of Zilla Parishad appoints the secretary of Panchayat. His salary is paid from the district fund.

The budget of the village Panchayat is submitted to the Panchayat samiti. It covers opening balance in the fund, estimated income, proposed expenditure and the amount to be contributed to the District Village Development Fund. The sanctioning authority of the village budget is panchayat samiti.

Taxation and Recovery of Claims

The taxes levied by the panchayat are - tax on buildings and lands, betterment charge or the lands benefited from schemes or projects undertaken by Panchayat from 'Village Fund', pilgrim tax, tax on fairs, festivals and other entertainments, tax on bicycles and on vehicles drawn by animals, tax on professions, trades, callings or employments, shop keeping and hotel-keeping, general sanitary cess, general water rate, a lighting tax, fee on markets and weekly bazars, fee on car stands/tonga stands, special water tax for water supplied through pipes, fee for the supply of water from well and tank for purposes other than domestic use and for cattle, fee for temporary occupation on public street, special sanitary cess upon private latrines, fee for cleaning cess pool, fee for grazing cattle, fee on the registration of animals, lump sum contribution by factories in lieu of taxes levied by Panchayat, farming of fees on markets, collection of cess on every rupee of land revenue etc.

Financial Assistance to Panchayats

Gram Panchayat receives financial assistance from the State Government, loan by Zilla Parishad, Equalisation grant, Village water supply fund and District village development fund.

Gram Panchayat-role in the Development of the village

Since the Gram Panchayat controls the village fund, it has an immense role in the Development of the villages. It makes reasonable provision within the village and submits to the Panchayat Samiti for approval. It supervises the village water supply scheme. It makes provision for carrying out within the village any work which promotes health, safety, education, comfort, convenience or social or economic or cultural well-being of the inhabitants of the village.

Gram Panchayat can make provision for any public reception, ceremony or entertainment within the villages or make contribution towards at annual gathering or such other gathering of Panchayats in the district or the state.

It encourages farmers of the village to make use of co-operative societies in increasing and improving agricultural production. It supervises primary schools situated within the area of its jurisdiction.

Last but not the least, it is duty bound to take measures for the amelioration of the condition of Scheduled Castes and Scheduled Tribes and other Backward Classes and in particular, in the removal of untouchability carry out the directions issued in this regard from time to time by the State Government.

Objectives of the Local Self Government

With a view to promote development of democratic institutions and to secure greater measure of participation by the people in Development Plans and in local and governmental affairs by decentralization of powers and functions, Zilla Parishad and Panchayat Samities (C. D. Blocks) have been established in the district of Maharashtra in the year 1962 under the Maharashtra Zilla Parishad and Panchayat Samiti Act of 1961. The jurisdiction of Zilla Parishad and Panchayat Samiti i.e. C.D. Blocks corresponds to the district and tahsil boundaries except that the statutory towns are not covered by them.

The local self bodies are working as agencies of State Government. The 73rd Constitutional Amendment gave local self bodies the constitutional status. The new power bestowed upon them gave a great impetus to the development plans and its implementation.

Zilla Parishad

The Zilla Parishad has the authority for the purposes of the Act over the area for which it is established. The authorities charged with carrying out the provision of this Act for each district are–

a) The Zilla Parishad
b) Panchayat Samitis
c) The Standing Committee
d) The Subjects Committees
e) Presiding authorities
f) The Chief Executive Officer
g) Block Development Officer

The Zilla Parishad is assisted in its function by number of departments and each department is headed by class I or class II officers of the State Services.

Zilla Parishad consists of councillors directly elected on the basis of adult franchise from electoral divisions in the district for a term of five years. The number of councillors being not more than seventy-five and not less than fifty. Some seats of councillors are reserved for the persons belonging to Scheduled Castes, Scheduled Tribes, Women and Backward Class citizens.

Grants to Zilla Parishad

1. Grant of 7 percent of forest revenue to Zilla Parishad.

2. Purposive grant – State Government pays every year to Zilla Parishad a grant for works and development schemes transferred to Zilla Parishad.

3. Establishment grant – State Government pays by way of establishment grant, the average cost on account of the salaries and allowances.

4. Local cess matching grant – State Government pays a local cess matching grant to be paid to Panchayat Samiti through the Zilla Parishad.

5. Incentive grant – State Government pays to Zilla Parishad an incentive to speedier development.

6. Grants for plan schemes – State Government pays grant for such works and development schemes relating to any subject enumerated in the district List as are included in the development plan of the State.

7. Block grant – State Government pays to each Panchayat Samiti through Zilla Parishad for carrying one such work and development scheme.

The development work of the district is carried out through the various committees appointed for the purpose by the Zilla Parishad. The executive power for the purpose of carrying out the provisions of the Act lies with the Chief Executive Officer, who is appointed by the State Government.

All the development work within the district is carried out by the Zilla Parishad through the District Fund at its disposal.

The Deputy Chief Executive Officer works as the ex-officio secretary of the Zilla Parishad.

Panchayat Samiti

Panchayat Samiti Consists of members elected by direct election, its jurisdiction being the C.D. Block. The term of the members is five years. The Block Development Officer is the ex-Officio Secretary of the Panchayat Samiti. The Chairman and Deputy Chairman are elected by and from amongst the members of the Panchayat Samiti.

The overall plan of work and development schemes within the block is prepared and executed by the Panchayat Samiti.

Devolution of Powers and functions.

As per the 73rd Constitutional Amendment, Articles 243-G and Schedule 11 of the Constitution, 29 subjects are to be transferred to the Panchayat Raj Institution. The State Government implemented this amendment in April 1994 and provisions were made in the State Panchayat Raj Act to transfer these subjects to the Zilla Parishads, Panchayat Samitis and the Village Panchayats.

Source : 1. Bombay Act No. III of 1959 (The Bombay Village Panchayats Act,1958).

2. Maharashtra Act No. V of 1962 (The Maharashtra Zilla Parishads and Panchayat Samitis Act, 1961).

3. 73rd Constitutional Amendment.

Urban Local Bodies

The statutory urban local bodies are Cantonments, Municipalities or Municipal Corporations. The urban local bodies elect a councilor from each of the wards, and his term is 5 years. The President of the Municipal Council or Mayor of the Corporation as also his Deputy are elected from amongst elected Councillors.The Chairman of various committees are also elected from amongst the elected Councilors. Although for day-to-day administration the Chief Officer is responsible in Municipal Council, he works under the administrative control of the President of Municipal Council. In corporations a senior IAS officer is deputed by the State Government as a Municipal Commissioner, who is responsible for day-to-day administration, and the executive authority lies in him.

(iv) Physical features

Location and Size

Sindhudurg district is the southern most district of the state, is located on the west coast of India. It spreads between 15° 37' and 16° 40' north latitudes and between 73° 19' and 74° 13' east longitudes. The district is surrounded by Kolhapur district in the east, Ratnagiri district in the north, Arabian Sea towards the west and Karnataka and Goa States to the south. On the west, Arabian sea gives the district a seaboard of about 121 kilomertres.

The headquarters of Sindhudurg district is situated in Oras Budruk village, which has a population of 4,266 persons as per 2001 census. This township is newly planned by the City and Industrial Development Corporation of Maharashtra.

The district has an area of 5,207.0 sq.kms. and a population of 868,825 persons as per Census 2001. While the area of the district accounts for 1.7 percent of the total area of the State, the districts population constitutes 0.9 percent of the total population of the State. The density of population is 167 persons per sq. km. Among the 35 districts of the State, the district ranks 30th in terms of area, 35th in terms of population and 34th in terms of density.

The district is well connected to Mumbai and Kanyakumari by the Konkan Railway, which traverses through the district. It also has a good network of roads connecting it to other parts of the country.

Physiography

India has been divided into four macro level physical divisions i.e. The Northern Mountains, The Great Plains, The Deccan Plateau, and The Coastal Plains and Islands.

Maharashtra falls under two of these macro level divisions 1)The Deccan Plateau, and 2) The Coastal Plains and Islands. The north-south running Sahyadri range separates these two divisions. The Deccan Plateau lies to the east while the Coastal Plains and Islands lie to the west up to the Arabian Sea. The Deccan Plateau is much larger of the two divisions and includes twenty nine districts of the State while only six districts lie in the Coastal Plains and Islands.

The whole Deccan Plateau is sub-divided into 12 meso regions. Of these, only 2 meso regions i.e. Northern Maharashtra and The Maharashtra Plateau lie within the State. Northern Maharashtra is further divided into 2 micro regions i.e. The Tapi-Purna Valley and The Wardha-Penganga-Wainganga Plain. The Maharashtra Plateau is also further sub-divided into 2 micro regions i.e. The Eastern Plateau and The Western Plateau with Protruded Hills.

The Coastal Plains and Islands is divided into 4 meso regions i.e. Gujarat Region, Western Coastal Region, Eastern Coastal Region and The Islands. Of these, The Western Coastal Region covers Maharashtra. This region is divided into 4 micro level regions i.e. Maharashtra Littoral, Goa Coast, Karnataka Coast and North Kerala Coast. Only Maharashtra Littoral falls within the state of Maharashtra.

The hierarchy of these macro, meso and micro level physiographical divisions within Maharashtra State are as below :

(A) Deccan Plateau :

(i) Northern Maharashtra :

(a) Tapi-Purna Valley : Includes the districts of Nandurbar, Dhule, Jalgaon, Buldana, Akola, Washim and Amravati.

(b) Wardha-Penganga-Wainganga Plain : Includes the districts of Wardha, Nagpur, Yavatmal, Bhandara, Gondiya, Gadchiroli and Chandrapur.

(ii) Maharashtra Plateau :

(a) Eastern Maharashtra : Includes the districts of Aurangabad, Jalna, Parbhani, Hingoli, Nanded, Bid, Osmanabad, Latur, Solapur, Sangli and Kolhapur.

(b) Western Maharashtra with Protruded Hills: Includes the districts of Nashik, Ahmadnagar, Pune and Satara.

(B) Coastal Plains and Islands:

(i) Western Coastal Plains:

(a) Maharashtra Littoral : Includes the districts of Thane, Mumbai (Suburban), Mumbai, Raigarh, Ratnagiri and Sindhudurg.

Sindhudurg district falls under the Maharashtra littoral micro region of the Coastal Plains. The district forms a part of the traditional 'konkan lowlands' which are a platform of marine denudation raised to form a narrow plain. But ruggedness and uneven topography form the governing theme in its physical features. A major portion of the district is hilly. On the basis of local variation in relief and other characteristics the district can be grouped into three parts (i) The Sahyadri Hills-the main system of hills which runs along the eastern boundary of the district. (ii) Sindhudurg Plateau and (iii) The Sindhudurg Coast.

(i) The Sahyadri hills cover the eastern portion of the district in three parts. The first part occupies Vaibhavvadi tahsil, the second spreads over the parts of Kankavli, kudal and Sawantwadi tahsils and the third occupies part of Dodamarg tahsil. The hills have an elevation of over 200 metres at the bottom while at the upper reaches they attain a height of about 700 metres. This region has very steep slopes and are fairly covered by forests. This is the source region for most of the rivers in the district.

(ii) Sindhudurg Plateau extends in a north-south direction through the central portion of the district and covers parts of all tahsils of the district except Vaibhavvadi tahsil. It has transverse chains of small hills, which are projecting from the Sahyadri hills, develop higher elevation in middle portions. The hill runs parallel to each other and forms small valleys in the intervening land. In general the plateau attains height varying between 100 and 200 metres but there are a number of spot heights that rise to more than 200 metres, 455 metres in Sawantwadi tahsil being the highest. The plateau is drained mainly by parallel westward flowing streams. Forest cover is limited in this region. The soils on the slopes of the hills are partly eroded, yellowish red and poor in fertility having shallow depth and coarse texture. These soils are known as Rice soils and Warkas soils. Rice and ragi (nagli) are the principal crops in this region. Cashewnut grows in plenty in this area and the world famous "Alphanso" or "Hapus" mangoes are also grown mainly in Devgad, Malwan and Vengurla. Ratamba is an other important fruit which is grown widely and after cutting into pieces is dried and is known as "Kokam".

(iii) Sindhudurg Coast is situated along the extreme western fringe of the district and comprises of parts of Devgad, Malwan, Vengurla and Sawantwadi tahsils. It is a long narrow strip of land running the entire length of the district and generally lies below 100 metres. In this region unlike the coast around Mumbai and to the north, which is lowlying, this coast is cliffy. However in the upper part of the strip rice, coconut and arecanut gardening is practiced.

Drainage

All the rivers in the district orginate from the Sahyadri ranges and flow from east to west and merge in the Arabian Sea. The important rivers are Vaghothan, Devgad, Karli, Terekhol, Sukhshanta, Gadhkalawal, Achara and Mochemad. The Creeks of Achara, Mochemad and Devgad and the rivers in this district are of little value from navigation and fisheries point of view

Climate

Sindhudurg district being a coastal district the variation of temperature during the day and through the seasons is not large. Owing to the proximity of the sea, the percent of humidity is more and the climate is generally moist and humid. Broadly the year may be divided in to three seasons, the summer season from March to May, the monsoon season from June to October and the winter season from November to February.

During the hot season, temperature rises slowly from March to May which is the hottest month. With the onset of the monsoon, the temperatures drop by three to four degrees. Day temperatures during the monsoon are lower than those in the cold season. In the post-monsoon months of October and November day temperatures increase and days in October are as hot as in May. Night temperature is the lowest in January. In summer, sea breezes make the weather pleasant throughout the day. While further inland both days and nights can be oppressive, more so in the tract at the foot of the Western Ghats. Along the coast the maximum temperature rarely goes beyond 38^{o} centigrade.

During the monsoon, skies are heavily clouded and winds are very strong being mainly westerly or south-westerly. The monsoon bursts over the district generally by the beginning of June and the rains continue with little intermission till about the middle of October. Rainfall is not uniform in all part of the district. It increases rapidly from the coast towards the Western Ghats on the eastern boarder of the district. In and around the Ghats rainfall is very heavy. The Amboli Station of Sawantwadi tahsil, which is at the foot of the Western Ghats gets a rainfall nearly three times as much as at some other stations in the district. Amboli gets annually on an average 7446 m.m. of rain. The coastal Stations of Malwan and Vengurla get annually 2275.0 and 2447.0 m.m. of rain respectively. Practically the entire annual rainfall occurs during the months from June to October. July is the month of the year when about one-third at the annual rainfall is received. The rainfall in the district is generally high and variation from year to year in the rainfall is not large.

During the pre and post monsoon months in association with cyclonic storms which develop in the Arabian sea and move in close proximity to the coast, the district experiences very strong winds sometimes reaching gale force particularly near the coast and heavy rains, hunderstorms are common in the post monsoon months and the latter part of the hot season.

Natural Wealth

Minerals

Of all the districts in Konkan Division, Sindhudurg district seems to be favourably placed with regard to the availability of some of the important minerals. The southern part of the coastline, Kudal and Kankavli tahsils have important deposits of minerals. Iron ores are found at Redi (Vengurla tahsil), Banda, Tirwade and Aros (Sawantwadi tahsil). In the district abundant iron ores are found in Redi. The proportion of ore carrying between 58-60 percent of iron is found perticularly in Redi. Approximately 48 lakh tons of iron can be extracted from Redi. Bauxite and limenite are found at a few places along the coast near Vijaydurg, Devgad and at Amboli of Sawantwadi tahsil.

The reserves of lavish chromite are found in Kankavli tahsil. Kankavli tahsil is also blessed with deposits of silica sand and annually thousand of tons of silica sand is being dispatched to places like Mumbai, Pune, Kolhapur, Belgaum, Ichalkaranji etc.

Manganese is found in the district at Phondye, Sasoli, Netarde and Dingne. Feldspar, a minor mineral found in this district, can be used in the manufacture of potteries. Other minor minerals found in the district are mica, mineral pigments such as clay, asbestos, building, stones, glass sand, copper, salt, limestone etc. Radio active minerals like Uranium oxide are also found in some parts of the district.

Fisheries

Sindhudurg is one of the important maritime districts in Maharahstra and therefore marine fishery is naturally an important economic activity of the district. The coastal belt of the district stretches approximatelly to 121 kms. Fishing is done all along the coast. The important fishery centres in the district are Vengurla, Malwan and Devgad. Fishery activities are carried out during nine months from September to May.

The commercially important varieties of fish available in large quantities are Bangada, Tarli, Pedva, Mushi, Shingada, Paplet, Halwa, Gendar, Surmai, Zinga, Dhoma, Ghol, and Karli etc. Besides these clam and oysters are also available along the entire coastal line.

Soil And Cropping Pattern

The soils of the district are generally classified into three parts i.e.

Laterite soil
Salty soil, and
Coastal alluviums.

(i) Laterite soil-The predominant soils in the district are laterite soils and extensive spreades of laterites are noticed throughout the district. They vary in colour from red to brownish red , owing to the preponderance of hydrated iron oxides. They are fairly well supplied with nitrogen and organic matter and their texture is loamy. They are porous and not retentive of moisture. These soils are found in several grades, the main being rice soil and varkas soil. Both of there soils are available on the slopes of the hills. There are yellowish red in colour and poor in fertility. Paddy, the principal crop of the district grows in these soils and more than 50 per cent of the area is under this crop. The balance land is traditionally cultivated for Ragi, Vari, Nagli, etc., but this practice is being abandoned and there is a definite shift towards horticultural crops in the recent years. The cultivation of groundnut has also picked up in the recent years.

The district is famous for its mango crop specially the world renowned Alphonso. There has been rapid increase in the area under Cashew-nuts and mangoes with more and more Varkas soil being brought under plantations. Entire land-scape is also dotted with Coconut, Kokum, Arecaanut and Jackfruit trees which thrive well in these soils and climate. Pulses and spices like pepper are also cultivated specially in the coastal areas.

(ii)Salty Soil - Due to the inundation of the sea, a part of the coastal soils has become salty. They are locally known as 'Khar' or 'Khajan'. In Devgad, Malwan and Vengural tahsils, the entire western strips are salty while in other tahsils only salt patches are noticed.

(iii)Coastal Alluviums - The coastal strips have deep sandy loams and in these soils coconut and arecanut gardens thrive well.

Land And Land Use Pattern

The Ministry of Food and Agriculture, Government of India has recommended a standard pattern of land use classification for the maintenance of records. Columns 19 – 23 of the village directory give land use pattern in each village in the district. The data furnished here are based on the village records and pertain to the year 1999.

Forest

This includes all land classified as forest under any legal enactment dealing with forest or administered as forest, whether state owned or private and whether wooded or simply maintained as forest land. Within the forest area itself there may be occasionally cultivated patches or grazing lands, but such area are shown under column 19 as forest. The process of regularization of land grants and effecting relevant changes in the basic records of survey and settlement are somewhat protracted and time consuming. Therefore the information based on records is in some cases at least, likely to be different when compared with the actual field situation.

Irrigated by Source and Unirrigated land

Column 20 and 21 of the Village Directory give all the agricultural land and when added together would correspond to the net area shown plus the current and other fallow lands. Area shown more than once during the same year, if any, in the village is counted only once under this column. In column 20 source wise break-up of the irrigated area is furnished by using abbreviation. All lands that are lying uncultivated as fallow for more than 5 years in succession are recorded as permanent fallow (Cultivable waste) and are covered under column 22.

The Concept of irrigation implies the existence of source of water supply within a reasonable distance and an arrangement to regulate the supply of the water according to the day-to-day needs of the crops raised in these fields. Naturally therefore all areas, which are cultivated under purely rain fed conditions, are treated as unirrigated lands.

Animal Husbandry

As per sixteenth Quinquennial census of livestock of 1997, the information on important number of livestock and livestock indicators are given below.

Statement showing number of Livestock (Position as on 15th Oct. 1997)

1) Total Cross bred/Indigenous Cattle	228,271
2) Total Buffaloes	104,859
3) Total Goats	36,291
4) Total Sheep	214
5) Total Pigs	2,748
6) Total Equine	2
7) Total Camels	0
8) Total Rabbits	12
9) Total Livestock (excluding dogs)	372,397
10) Total Poultry (including Ducks)	859,602

Source: Sixteenth All India Livestock & Farm Equipment Census 1997.

The total livestock (excluding dogs) are 372,397 and total poultry (including ducks) are 859,602 in the district. Out of the total livestock, the total crossbred/ indigenous cattle are 228,271, total buffaloes are 104,859, goats 36,291, sheeps 214, pigs 2,748, equine 2 and rabbits are 12.

Statement showing Selected Livestock indicators (Position as on 15th Oct. 1997).

	Category	Value
1)	Density of Livestock population (per sq.km.)	72
2)	Average Livestock per village	506
3)	No. of livestock per thousand human population	446
4)	No. of in-Milk cows per thous and human population	31
5)	No. of in-Milk buffaloes per thousand human population	25
6)	No. of poultry fowls per thousand human population	1,033
7)	No. of Bullocks and male Buffaloes per hundred hectares of gross cropped area	98
8)	No. of tractors per thousand hectares of gross cropped area	N
9)	No. of Veterinary Institute per lakh livestock	27

Source: Sixteenth All India Livestock & Farm Equipment Census 1997.

The density of livestock population per sq. km. works out to 72 while average livestock per village is 506. For every thousand human population there are 446 livestock, 31 in-milk cows, 25 in-milk buffaloes and 1,033 poultry fowls. While there are 98 bullocks and male buffaloes per hundred hectares of gross cropped area, the number of Veterinary institute per lakh livestock has reported to be 27. The number of tractors per thousand hectares of gross cropped area is reported to be negligible.

Industry

Industrailly, Maharashtra is one of the advanced states in the country but Sindhudurg is one of the most

industrially under-developed districts in the state. There is practically no major manufacturing industry in the district. The existing industrial establishments are mostly very small in size. The employment in non-agricultural sector depends mainly upon the village and cottage industries.

The industrial policy of the state is based on the basic decision to encourage industries in the developing and under developed areas in the district and to disperse industries from the heavily congested areas of Mumbai, Thane and Pune. In the district, there are industrial estates in Kudal, Kankavli and Majgaon (Sawantwadi Tahsil) MIDC has developed 127 hectars of land for setting up of industries. This area is given to small scale industries as well as large scale industries.

The most important small scale industries in the district are cashewnut processing, having a great demand in national market, fruit preservation and silica processing. Other registered units are oil mills, saw mills, cements products, sodium silicate, laundry soap, printing, book binding, bidi making etc. Which are located in Vengurla, Malwan and Kudal tahsils. By the size of employment generated, fishing is the largest accupation in the district. Kankavli, Kudal, Sawantwadi are also Known for handloom, weaving. Wooden toys and decorative articles of the fine quality are prepared in Sawantwadi tahsils.

Trade and Commerce

The district is well known for the "Alphonso" and "Raiwal" varities of mangoes cashewnut plantations are mainly grown in Kudal, Malwan and Vengurla tahsils.

The chief manufactured articles of the district are cashewnuts, groundnut oil, kokam juice, cashewnut oil, electronic parts, TV, steel utensils, iron chips, dry fish, kuda bidi, leather bags, wooden decorative, wooden boxes and tin containers. The chief exports articles of the district are mangoes, cashewnuts, coconuts, kokam, kokam juice, groundnut, cashewnut oil, kokam oil, fish, wooden decoration pieces. They are mainly exported to Mumbai, Pune, Kolhapur and Belgaum, Cashewnuts are mainly exported to Mumbai and U.S.A.

The chief import articles are food grains of all varities, cloth, oil, timber, sugar, gur, medicines, hardware and kerosene etc. Most of these goods are imported from Mumbai, Pune, and Kolhapur. Apart from the weekly markets and fairs, Malwan, Vengurla, Sawanrwadi and Devgad are important trade centres also.

Transport

If a bus stop or a railway station or a navigable waterway is located within the territorial jiridiction of a village, it is considered to have been served by this facility even if it is a little away from the actual settlement. There is comparatively good system of transport communication facility through bus service and railway service. There are navigable rivers in Malwan, Devgad and Kankavli tahsils. Due to marine time district, it enjoys better comminication facility by sea.

The table regarding major vehicles shows the number of various types of vehicles available in the district in year 1999.

Number of Motor Vehicles registered in the district (as on 31.03.1999)

Motor Vehicles 1999		
	Item	**No. of Vehicles**
	1	2
1	Buses	393
2	Cars and Station Wagons	1,947
3	Jeeps	537
4	Taxies	20
5	Autorickshaw	4,424
6	Moped	1,219
7	Scooters	7,700
8	Motor Cycles	9,031
9	Total Goods Vehicles	2,398
10	Tractors	146
11	Trailors	214
12	Others	40
	Total	**28,069**

Source- Transport Commissioner's Office

From the above table it is seen that the various types of motor vehicles types of motor vehicles available in the district, motorcycles and scooters constitute the largest number.

Electricity and Power supply

735 inhabited villages (98.9 percent) and 5 towns are enjoying the power supply facility.

(v) Census concepts

Building :

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses :

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses :

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 metres and a breadth of at least 1.5 metres and a height of 2 metres. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house :

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership

flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000.

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:

Scheduled Castes

1) Ager
2) Anamuk
3) Aray Mala
4) Arwa Mala
5) Bahna, Bahana
6) Bakad, Bant
7) Balahi, Balai
8) Basor, Burud, Bansor, Bansodi
9) Beda Jangam, Budga Jangam
10) Bedar
11) Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chamari, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar , Madar, Madig, Mochi, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Nona, Ramnami, Rohit, Samgar, Samagara, Satnami, Surjyabanshi, Surjyaramnami
12) Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli
13) Bindla
14) Byagara
15) Chalvadi, Channayya
16) Chenna Dasar, Holaya Dasar, Holeya Dasari
17) Dakkal, Dokkalwar
18) Dhor, Kakkayya, Kankayya, Dohor
19) Dom, Dumar
20) Ellamalvar, Yellammalawandlu
21) Ganda, Gandi
22) Garoda, Garo
23) Ghasi, Ghasia
24) Halleer
25) Halsar, Haslar, Hulasvar, Halasvar
26) Holar, Valhar
27) Holaya, Holer, Holeya, Holiya
28) Kaikadi (in Akola, Amravati, Bhandara, Gondiya, Buldana, Nagpur, Wardha and Yavatmal districts and Chandrapur district, other than Rajura tahsil)
29) Katia, Patharia
30) Khangar, Kanera, Mirdha
31) Khatik, Chikwa, Chikvi
32) Kolupulvandlu
33) Kori
34) Lingader
35) Madgi

36) Madiga
37) Mahar, Mehra, Taral, Dhegu Megu
38) Mahyavanshi, Dhed, Vankar, Maru Vankar
39) Mala
40) Mala Dasari
41) Mala Hannai
42) Mala Jangam
43) Mala Masti
44) Mala Sale, Netkani
45) Mala Sanyasi
46) Mang, Matang, Minimadig, Dhankhni Mang, Mang Mahashi, Madari, Garudi, Radhe Mang
47) Mang Garodi, Mang Garudi
48) Manne
49) Mashti
50) Meghval, Menghvar
51) Mitha Ayyalvar
52) Mukri
53) Nadia, Hadi
54) Pasi
55) Sansi
56) Shenva, Chenva, Sedma, Ravat
57) Sindhollu, Chindollu
58) Tirgar, Tirbanda
59) Turi

Scheduled Tribes

1) Andh
2) Baiga
3) Barda
4) Bavacha, Bamcha
5) Bhaina
6) Bharia Bhumia, Bhuinhar Bhumia, Pando
7) Bhattra
8) Bhil, Bhil Garasia, Dholi Bhil, Dungir Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave
9) Bhunjia
10) Binjhwar
11) Birhul, Birhor
12) Chodhara (excluding Akola, Amravati, Bhandara, Gondiya, Buldana, Chandrapur, Nagpur, Wardha, Yavatmal, Aurangabad, Jalna, Bid, Nanded, Osmanabad, Latur, Parbhani and Hingoli districts)
13) Dhanka, Tadvi, Tetaria, Valvi
14) Dhanwar
15) Dhodia
16) Dubla, Talavia, Halpati
17) Gamit, Gamta, Gavit, Mavchi, Padvi
18) Gond Rajgond, Arakh, Arrakh, Agaria, Asur, Badi Maria, Bada Maria, Bhatola, Bhimma, Bhuta, Koilabhuta, Koilabhuti, Bhar, Bisonhorn Maria, Chota Maria, Danddami Maria, Dhuru, Dhurwa, Dhoba, Dhulia, Dorla, Gaiki, Gatta, Gatti, Gaita, Gond, Gowari, Hill Maria, Kandra, Kalanga, Khatola, Koitar, Koya, Khirwar, Khirwara, Kucha Maria, Kuchaki Maria, Madia, Maria, Mana, Mannewar, Moghya, Mogia, Monghya, Mudia, Muria, Nagarchi, Naikpod, Nagwanshi, Ojha, Raj, Sonjhari Jhareka, Thatia, Thotya, Wade Maria, Vade Maria
19) Halba, Halbi
20) Kamar
21) Kathodi, Katkari, Dhor Kathodi, Dhor Kathkari, Son Kathodi, Son Katkari
22) Kawar, Kanwar, Kaur, Cherwa, Rathia, Tanwar, Chattri
23) Khairwar
24) Kharia
25) Kokna, Kokni, Kukna
26) Kol
27) Kolam, Mannervarlu
28) Koli Dhor, Tokre Koli, Kolcha, Kolgha
29) Koli Mahadev, Dongar Koli
30) Koli Malhar
31) Kondh, Khond, Kandh
32) Korku, Bopchi, Mouasi, Nihal, Nahul, Bondhi, Bondeya
33) Koya, Bhine Koya, Rajkoya
34) Nagesia, Nagasia
35) Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
36) Oraon, Dhangad
37) Pardhan, Pathari, Saroti
38) Pardhi; Advichincher, Phans Pardhi, Phanse Pardhi, Langoli Pardhi, Bahelia, Bahellia, Chita Pardhi, Shikari, Takankar, Takia
39) Parja
40) Patelia

41) Pomla
42) Rathawa
43) Sawar, Sawara
44) Thakur, Thakar, Ka Thakur, Ka Thakar, Ma Thakur, Ma Thakar
45) Thoti (in Aurangabad, Jalna, Bid, Nanded, Osmanabad, Latur, Parbhani and Hingoli districts and Rajura tahsil of Chandrapur district)
46) Varli
47) Vitolia, Kotwalia, Barodia

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops–tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate :

Percentage of workers (main + marginal) to total population.

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years.

Sex -ratio :

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which

are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine andMethod of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging.This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid–year Population.}} \times 1{,}000$$

Crude death rate(CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid–year Population}} \times 1{,}000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1{,}000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1{,}000$$

General fertility rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age group (15-49) years}} \times 1{,}000$$

General marital fertility rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1{,}000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = 5 \times \frac{\sum_{15\text{-}19}^{45\text{-}49} ASFR}{1{,}000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = 5 \times \frac{\sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1{,}000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age group}} \times 1{,}000$$

q1 Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 Probability of dying between birth and age 2.

q5 Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early neo- natal mortality rate :

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late neo-natal mortality rate :

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

Post neo-natal mortality rate (PNMR) :

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1,000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Still birth rate (SBR) :

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100,000$$

Eligible couple (Couples per 1,000 population) :

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child woman ratio (0-4) :

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9) :

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA/Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population are classified as Class I UAs./ Towns. These Class I UAs./Towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings – Population, its distribution

Brief Note on Census

Census taking is a massive operation carried out in a short span of time with the active participation of a veritable army of enumerators. The reference moment for the 2001 Census was the 00.00 hrs. March 1, 2001 i.e. the census provides a snapshot of the population of the country, as on 1st march 2001. Actual enumeration was spread over a period of 20 days from 9th February 2001 to 28 Feb.2001, followed by a rivisional round up to 5th March 2001 for updating of the population figures with reference to 00.00 hours of March 1, 2001. Household schedule having 23 questions regarding each and every person in the family is newly introduced in this Census. These questions are mainly self-explanatory and answers are in code language. Question No. 1 to 15 are related to general and socio-cultural characteristic individual. Question 16 to 20 is about economic activity of the person. Question 21 and 22 about migration and question no. 23 is for women, related to fertility. In addition one question is added in 2001 census which is related to household engaged in cultivation/ plantation in part III.

As a prelude to the actual Census, the urban and rural areas were identified and listed out in respect of each administrative unit. The Director of Census Operations has prepared the list of urban area (which is generally referred to as town list) and simultaneously, a list of villages. These lists form the basic frame for the organization of the Census Operations. Thereafter geographical area that could be conveniently covered out to constitute the enumerator's block.

The next major step was the house listing Operation that was carried in the state during May-June 2000. Thereafter, in order to adhere to the prescribed workload norms, the actual Census enumeration's blocks were carefully demarked on the basis of the layout sketches and the notional maps prepared was also utilised to collect wealth of information on items such as predominant construction material used for houses, amenities available to the Census households, number of living rooms etc. Information regarding number of bedrooms in the household, if couples having separate room, availability of amenities like telephone, TV, Car/Scooter was asked first time in this Census. From this information we can have an idea of standard of living of the people in the country.

In Maharashtra, tahsil and the C.D.Block are co-terminus and therefore the data shown in tables on C.D.Blocks and the rural areas shown in the tables on tahsils are same.

Distribution of Population in Rural-Urban Areas

According to Census 2001 the district Sindhudurg has total population of 868,825 comprising of 417,890 males and 450,935 females. The population of the district in Cenusus 2001 is 4.4 percent higher than the population 832,152 in 1991 Census.

Among 8 tahsils of district Kudal tahsil (152,939) is te most populous and vaibhavvadi (48,350) the least. Other tahsils in order of their population are 1) Sawntwadi (148,980), 2) Kankavli (138,167), 3) Devgad (125,288), 4) Malwan (116,682), 5) Vengurla (88,387), 6) Dodamarg (50,032).

An examination of rural – uraban distribution of population reveals that 786,506 persons consistituting 90.5 percent of total population is concentrated in rural areas while 82,319 persons constituting 9.5 percent of the total population are living in urban areas of the district. Although in absolute numbers, the number of people living inrural areas has increased from 832,152 in 1991 to 868,825 in 2001, in terms of percentage the people residing in rural areas has decreased 92.4 percent in 1991 to 90.5 percent in Census 2001, while in urban areas it has corresponding by increased in terms of percentage from 7.6 percent in 1991 to 9.5 percent in Census 2001. Among 8 tahsils three tahsils i.e. (Devgad, Vaibhavvadi, and Dodamarg) have no urban population.

TABLE 1 : DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001						1991	2001
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban		
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Devgad	119,552	119,552	0	125,288	125,288	0	4.8	4.8	0.0	0.0	0.0
2	Vaibhavvadi	48,536	48,536	0	48,350	48,350	0	-0.4	-0.4	0.0	0.0	0.0
3	Kankavli	130,181	130,181	0	138,167	123,542	14,625	6.1	-5.1	0.0	0.0	10.6
4	Malwan	116,503	98,517	17,986	116,682	98,002	18,680	0.2	-0.5	3.9	15.4	16.0
5	Vengurla	87,679	75,422	12,257	88,387	75,916	12,471	0.8	0.7	1.7	14.0	14.1
6	Kudal	143,486	131,884	11,602	152,939	139,297	13,642	6.6	5.6	17.6	8.1	8.9
7	Sawantwadi	138,622	117,317	21,305	148,980	126,079	22,901	7.5	7.5	7.5	15.4	15.4
8	Dodamarg	47,593	47,593	0	50,032	50,032	0	5.1	5.1	0.0	0.0	0.0
District Total:		**832,152**	**769,002**	**63,150**	**868,825**	**786,506**	**82,319**	**4.4**	**2.3**	**30.4**	**7.6**	**9.5**

Table 1 shows decadal change in population of tahsils by residence, 1991 – 2001. The average growth rates for the rural and urban area of the district are 2.3 percent and 30.4 percent respectively. Sawantwadi tahsil has registered the highest rural growth rate of 7.5 percent, while vaibhavvadi tahsil has the lowest growth rate of – 0.4 percent. Rural growth rates are above the district average in four tahsils i.e. Devgad, Kudal, Sawantwadi, Dodamarg viz; below the district average in remaining four tahsils i.e (Vaibhavvadi, Kankavli, Malwan, Vengurla).

In urban areas three tahsils have no urban population i.e. Devgad, Vaibhavvadi, and Dodamarg and remaining four tahsils i.e. Malwan, Vengurla, Kudal and Sawantwadi have below urban district average (30.4 percent). The highest urban growth rate of 17.6 percent registered by Kudal tahsil while Vengurla tahsil have lowest growth rate of 1.7 percent. The district urban growth rate is 30.4 percent while that of rural is 2.3 percent. The proportion of urban to total population in Sindhudurg district stands at 9.5 percent in Census 2001 as against 7.6 percent in 1991 indicating a slow pace of urbanization in the district.

TABLE 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200		Number and percentage of villages
			Persons	Males	Females		Males	Females	
1	2	3	4	5	6	7	8	9	10
1	Devgad	97	125,288	60,272	65,016	3 (3.1)	148	167	11 (11.3)
2	Vaibhavvadi	59	48,350	22,067	26,283	1 (1.7)	38	56	20 (33.9)
3	Kankavli	104	123,542	59,125	64,417	2 (1.9)	90	87	23 (22.1)
4	Malwan	135	98,002	46,389	51,613	12 (8.9)	774	905	43 (31.9)
5	Vengurla	83	75,916	36,470	39,446	0 (0.0)	0	0	20 (24.1)

Table 2 gives the percentage distribution of inhabited villages by population size range in each tahsil in 2001 Census. Out of 743 inhabited villages 30 villages (4.0 percent) are small sized with population below 200, in the size of 200-499 there are 154 villages (20.7 percent), in the size class 500-999 there are 257 villages (34.6 percent), 232 villages (31.2 percent) are in the size class 1,000-1,999; 65 villages (8.7 percent) are in the size class 2,000-4,999; 5 villages (0.7 percent) are in the size class 5,000-9,999 and there is no inhabited villages in the size of 10,000 and above, for a broader generalization villages have been further group as small sized (below 500) medium sized (500-1,999), large sized (2,000-4,999) and exceptionally large sized (5,000+) with in the district small sized villages less than 500 inhabitants together account for 24.7 percent of the total inhabited villages, 7.6 percent of the rural population of the district. Medium sized (500-1,999) are contribute 65.8 percent of the total inhabited villages 64.7 percent of rural population, large sized (2,000-4,999) are 8.7 percent of total inbabited villages with 23.2 percent

of the rural population and exceptionally large size (5,000+) are 0.7 percent of the total inbabited villages and 4.5 percent of the total rural population.

Within eight C.D. Blocks of the district percentage of less than 200 sized villages is the highest Dodamarg C.D. Block (16.1 percent) and lowest in Vaibhavvadi C.D. Block (1.7 percent). The percentage of 200-499 sized villages is highest in Vaibhavvadi C.D. Block (33.9 percent) and lowest in Sawantwadi C.D. Block (10.6 percent). In 500-999 sized villages is highest in Vengurla C.D. Block (48.2 percent) and lowest in Dodamarg C.D. Block (25.0 percent), in sized 1,000-1,999 villages highest in Kudal C.D. Block (43.5 percent) and lowest in Vengurla C.D. Block (22.9 percent) in 2000-4999 sized villages highest in Sawantwadi C.D. Block (25.9 percent) and lowest in Malwan C.D. Block (1.5 percent) and in 5,000-9,999 sized villages highest in Devgad C.D. Block (2.1 percent) and lowest in Sawantwadi C.D. Block (1.2 percent). Only 3 C.D. Blocks are in this sized i.e. Sawantwadi, Kankavli and Devgad remaining C.D. Blocks have no villages in this range and also there is no inhabited villages in 10,000 and above range.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town
1
(a) New
(i) Statutory town -- Nil
(ii) Census town --
1 Kankavli
(b) Denotified
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns Nil
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria Nil
(iii) Census towns of 1991 census are notified as statutory town in 2001 census Nil
(c) Declassified Nil
(d) Wholly merged with other town(s) Nil

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

Table 3 shows new towns, denotified, declassified and wholly merged with other towns in Census 2001. In 2001 Census one town i.e. Kankavli is declared as Census ttown which was rural in 1991 Census. There are no denotified, declassified and wholly merged with other towns.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	6	0.8	261	0.0
11-20	5	0.7	862	0.1
21-50	32	4.3	14,665	1.9
51-100	128	17.2	92,190	11.7
101-200	286	38.5	302,603	38.5
201-300	131	17.6	177,368	22.6

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001 - (Contd.)

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
301-500	85	11.4	105,181	13.4
501 +	70	9.4	93,376	11.9
Not known	0	0.0	0	0.0
District Total:	**743**	**100.0**	**786,506**	**100.0**

Population Density (Rural) of the district: 158

Table 4 shows distribution of villages by population according to density ranges. The patters of villages have been grouped under eight different density ranges in this table. The distribution of villages by density ranges indicate that 0-50 form 5.8 percent of total 43 inhabited villages covering with 2.0 percent of total population. 51-100 form 17.2 percent of total 128 inhabited villages covering with 11.7 percent of total population. 101-200 form 38.5 percent of total 286 inhabited villages covering with 38.5 percent of total population. 201-300 form 17.6 percent of total 131 inhabited villages covering with 22.6 percent of total population, 301 and above form 20.8 percent of total 155 inhabited villages covering with 25.3 percent of total population.

Table 5 :SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	978	1,003	862	1,111	1,118	1,042
1911	966	1,000	796	1,154	1,160	1,089
1921	950	994	776	1,174	1,181	1,066
1931	947	987	790	1,119	1,125	1,036
1941	949	989	810	1,148	1,154	1,061
1951	941	1,000	807	1,200	1,205	1,146
1961	936	995	801	1,194	1,214	977
1971	930	985	820	1,213	1,225	1,063
1981	937	987	850	1,205	1,217	1,047
1991	934	972	875	1,137	1,149	998
2001	922	960	873	1,079	1,090	978

Note: Sex ratio has been defined here as the number of females per 1000 males.

Table 5 shows sex ratio for the district and Maharashtra state. Census 2001 recorded a sex ratio of 1079 females per 1000 males in the district. This is higher compared to the state average 922. The sex ratio in Sindhudurg district has remained higher than that of state from 1901 to 2001. As regards total areas sex ratio of the state level declined by 56 points and at the district level it declined by 32 points during the last 100 years. Similary the sex ratio for the rural areas of the state decreased by 43 points and for the district it decreased by 28 points during 1901-2001. For the urban areas of the state, the sex ratio increased by 11 points and for the district it decreased by 64 points during the period 1901-2001.

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Devgad	1,079	1,079	-
2	Vaibhavvadi	1,191	1,191	-
3	Kankavli	1,074	1,090	949
4	Malwan	1,088	1,113	967
5	Vengurla	1,073	1,082	1,024
6	Kudal	1,063	1,072	972
7	Sawantwadi	1,071	1,088	984
8	Dodamarg	1,054	1,054	-
	District Total:	**1,079**	**1,090**	**978**

In the district as a whole there are 1,079 females for every thousand males within the district sex ratio varies from 1,054 in Dodamarg tahsil followed by tahsil Kudal (1,063), tahsil Sawantwadi (1,071), tahsil Vengurla (1,073), tahsil Kankavli (1,074), tahsil Devgad (1,079), tahsil Malwan (1,088) and tahsil Vaibhavvadi (1,191). In general the rural area have a higher proportion of females than in urban areas. Sindhudurg district also confirms to this pattern. The sex ratio figures for rural and urban areas of the district are 1090 and 978 respectively. In rural areas only two tahsils have higher sex ratios than the district rural average. (i.e. Vaibhavvadi and Malwan) and five tahsils have lower sex ratio than the district rural average and sex ratio of Kankavli tahsil is at par with district rural average. In urban areas tahsil Vengurla (1,024) and tahsil Sawantwadi (984) have higher sex ratio than district urban average, tahsil Kankavli, tahsil Malwan and tahsil Kudal have lower sex ratio than districts urban average.

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Devgad	1,079
2	Vaibhavvadi	1,191
3	Kankavli	1,090
4	Malwan	1,113
5	Vengurla	1,082
6	Kudal	1,072
7	Sawantwadi	1,088
8	Dodamarg	1,054
	District (Rural) Total:	**1,090**

The sex ratio in the districts (rural) areas is 1090. Vaibhavvadi C.D. Block (1,191) and Malwan C.D. Block (1,113) is above the district average. The sex ratio in remaining C.D. Blocks i.e. Devgad (1,079), Vengurla (1,082), Kudal (1,072), Sawantwadi (1,088) and Dodamarg (1,054) have lower than the district average rural sex ratio. The sex ratio in Kankavli C.D. Block is at par with the districts rural average sex ratio.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	1	0.1	4	0.0
700-749	0	0.0	0	0.0
750-799	2	0.3	321	0.0
800-849	3	0.4	12,264	1.6
850-899	5	0.7	3,952	0.5
900-949	23	3.1	19,270	2.5
950-999	42	5.7	58,453	7.4
1000-1099	297	40.0	360,492	45.8
1100+	370	49.8	331,750	42.2
District Total:	**743**	**100.0**	**786,506**	**100.0**

Sex ratio (Rural) for District: 1,090

A perusal of the table reveals that 11 villages constituting 1.5 percent of the total inhabited villages covering 2.1 percent of the total district rural population have a sex ratio in the range of less than 850-899 (except in range of 700-749). While 65 villages forming 8.8 percent of total inhabited villages and covering 9.9 percent of total district rural population have sex ratio in the range of 900-999, 297 villages forming 40.0 percent of total inhabited villages and covering 45.8 percent of total district rural population have sex ratio in the range of 1,000-1,099 and 370 villages forming 49.8 percent of total inhabited villages and covering 42.2 percent of total district rural population have sex ratio in the range of 1,100 and above.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A/Town	Urban status of town	Sex ratio
1	2	3	4
1	Kankavli (CT)	CT	949
2	Kudal (CT)	CT	972
3	Malwan (M Cl)	M Cl	967
4	Sawantwadi (M Cl)	M Cl	984
5	Vengurla (M Cl)	M Cl	1024
Sex ratio (Urban) for the district:			**978**

Average sex ratio for district urban areas is 978. In urban areas highest sex ratio in Vengurla MCl. (1,024) and lowest sex ratio being in Kankavli Census Town (949). Among 5 towns two towns i.e. Vengurla MCl. (1,024) and Sawantwadi MCl. (984) are above the district average and remaining towns i.e. Kankavli Census Town (949), Malwan MCl. (967), Kudal Census Town (972) are having sex ratio below the district average.

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

Serial number	Name of Tahsil	Total/ Rural/ Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females

District Total:		**Total**	**105,518**	**54,277**	**51,241**	**944**
		Rural	**96,362**	**49,533**	**46,829**	**945**
		Urban	**9,156**	**4,744**	**4,412**	**930**

TABLE 10 : - (Contd.)

The sex ratio for the district in 0-6 age group is 944. The sex ratio in 0-6 age group tahsils Devgad (966), Vaibhavvadi (1,015), Vengurla (984) is higher than districts total average (944). Tahsils Kankavli (925), Malwan (935),Dodamarg (920), Kudal (921) and Sawantwadi (934) have lower sex ratio as compared to districts average. District rural average of sex ratio is 945. Only 3 tahsils i.e. Devgad (966), Vaibhavvadi (1,015) and Vengurla (966) have high sex ratio than the district rural average. District urban average of sex ratio is 930. In urban areas only two tahsils i.e. Malwan (948) and Vengurla (1,114) have high sex ratio above the district urban average.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Devgad	16,308	8,295	8,013	966
2	Vaibhavvadi	6,870	3,409	3,461	1,015
3	Kankavli	15,516	8,037	7,479	931
4	Malwan	10,996	5,689	5,307	933
5	Vengurla	8,526	4,336	4,190	966
6	Kudal	16,889	8,782	8,107	923
7	Sawantwadi	15,070	7,762	7,308	942
8	Dodamarg	6,187	3,223	2,964	920
	District (Rural) Total:	**96,362**	**49,533**	**46,829**	**945**

In the eight C.D. Blocks of the district there are 49,533 males and 46,829 females in 0-6 age group as per 2001 Census. The sex ratio for the rural population is 945 for 0-6 age group. The C.D. Blocks of Devgad (966), Vaibhavvadi (1,015) and Vengurla (966) have higher sex ratio than district rural average and remaining C.D. Blocks i.e. Kankavli (931), Malwan (933), Kudal (923), Sawantwadi (942) and Dodamarg (920) have lower sex ratio than rural district average.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	60	8.1	3,564	3.7
700-749	30	4.0	2,628	2.7
750-799	63	8.5	7,138	7.4
800-849	65	8.7	9,582	9.9
850-899	72	9.7	11,244	11.7
900-949	95	12.8	16,300	16.9
950-999	68	9.2	11,312	11.7
1000-1099	126	17.0	19,073	19.8
1100+	164	22.1	15,521	16.1
District (Rural) Total	**743**	**100.0**	**96,362**	**100.0**
Sex ratio (Rural) for District:		**945**		

A perusal of the table reveals that 90 villages constituting 12.1 percent of the total inhabited villages covering 6.4 percent of the total district rural population have a sex ratio in the range of less than 700-749., 128 villages constituting 17.2 percent of the total inhabited villages covering 17.3 percent of the total district rural population have a sex ratio in the range of 750-849, 167 villages constituting 22.5 percent of the total inhabited villages covering 28.6 percent of the total district rural population have a sex ratio in the range of 850-949, 68 villages constituting 9.2 percent of the total inhabited villages covering 11.7 percent of the total district rural population have a sex ratio in the range of 950-999, 126 villages constituting 17.0 percent of the total inhabited villages covering 19.8 percent of the total district rural

population have a sex ratio in the range of 1,000-1,099 and 164 villages constituting 22.1 percent of the total inhabited villages covering 16.1 percent of the total district rural population have a sex ratio in the range of 1,100 and above.

TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Kankavli (CT)	CT	1,838	978	860	879
2	Kudal (CT)	CT	1,730	911	819	899
3	Malwan (M Cl)	M Cl	1,833	941	892	948
4	Sawantwadi (M Cl)	M Cl	2,472	1,307	1,165	891
5	Vengurla (M Cl)	M Cl	1,283	607	676	1,114
	District(Urban) Total		**9,156**	**4,744**	**4,412**	**930**

The average sex ratio in districts (urban) areas for 0-6 age group is 930. In urban areas of different towns the sex ratio of population in the age-group 0-6 varies considerably. The highest sex ratio is in Vengurla MCl (1,114) and lowest in Kankavli Census Town (879). Among the five towns of the district two towns i.e. Malwan MCl. (948) and Vengurla MCl. (1,114) have a sex ratio above the district average and remaining towns i.e. Kankavli Census Town (879) Kudal Census Town (899) and Sawantwadi MCl (891) have a sex ratio below the district average.

TABLE 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TAHSILS, 2001

		Urban	**82,319**	**3,337**	**356**	**4.1**	**0.4**

Number and percentage of Scheduled Castes and Scheduled Tribes population in tahsils are given in this table. Total population of the district is returned as 868,825 persons comprising 38,536 (4.4 percent) Scheduled Castes and 4,952 (0.6 percent) Scheduled Tribes. Scheduled Castes population accounts for 4.5 per cent in rural and 4.1 per cent in urban area respectively. While Scheduled Tribes population accounts 0.6 percent in rural area and 0.4 percent in urban areas of the district.

Tahsil Dodamarg shows the highest percentage of Sheduled Castes population (6.1 percent) and tahsil Devgad is the lowest (2.1 percent) in all tahsils of the district. According to Scheduled Tribes population Kudal tahsil and Dodamarg tahsil is having highest percentage i.e. (0.9 percent) and Malwan tahsil and Vengurla tahsil is lowest i.e. (0.2 percent) in the district.

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C. D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7

7	Sawantwadi	126,079	6,785	804	5.4	0.6
8	Dodamarg	50,032	3,043	450	6.1	0.9
	District (Rural) Total:	**786,506**	**35,199**	**4,596**	**4.5**	**0.6**

Number and percentage of Scheduled Castes and Scheduled Tribes population in C.D. Blocks are given in this table. The proportion of Scheduled Castes and Scheduled Tribes population to total population in each C.D. Block can be seen in the table. Within the C.D. Blocks Dodamarg C.D. Block recorded highest Scheduled Castes population (6.1 percent) and lowest in Devgad C.D. Block (2.1 percent) while Kudal C.D. Block highest in Scheduled Tribes population i.e. (1.0 percent) and lowest in Malwan C.D. Block (0.1 percent). The proportion of Scheduled Castes population is above the district average (4.5 percent) is namely Kankavli C.D. Block (4.8 percent) Malwan C.D. Block (4.7 percent), Kudal C.D. Block (5.3 percent), Sawantwadi C.D. Block (5.4 percent) and Dodamarg C.D. Block (6.1 percent) and below the district average is in only Devgad C.D. Block (2.1 percent), Vaibhavvadi C.D. Block (3.6 percent) and Vengurla C.D. Block (3.9 percent).

Proportion of Scheduled Tribes population is above the district average (0.6 percent) in Devgad C.D. Block (0.7 percent) Kudal C.D. Block (1.0 percent) and Dodamarg C.D. Block (0.9 percent) and lowest in Kankavli C.D. Block (0.4 percent) Malwan C.D. Block (0.1 percent), Vengurla C.D. Block (0.2 percent) and Vaibhavvadi C.D. Block and Sawantwadi C.D. Block at par with the districts rural average of Scheduled Tribes.

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	255	34.3	0	0.0
Less than 5	258	34.7	7,837	22.3
5-10	154	20.7	16,127	45.8

21-30	11	1.5	1,842	5.2
31-40	3	0.4	397	1.1
41-50	0	0.0	0	0.0
51-75	1	0.1	298	0.8
76 and above	0	0.0	0	0.0
District Total	**743**	**100.0**	**35,199**	**100.0**

The district rural Scheduled Castes population is 35,199. From a perusal of the table on proportion of scheduled Castes population to total population in villages, it is seen that of 743 villages, there are no Scheduled Castes in 255 villages. Of the remaining 488 villages, 258 villages forming 34.7 percent of total villages covering 22.3 percent Scheduled Castes are less than 5 range groups in their respective villages. 154 villages forming 20.7 percent of total villages covering 45.8 percent Scheduled Castes are 5 – 10 range group and remaining 76 villages forming 10.2 percent of total villages covering 31.8 percent Scheduled Castes are 11–20 to 51-75 range group Scheduled Castes population.

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	507	68.2	0	0.0
Less than 5	223	30.0	2,507	54.5
5-10	12	1.6	1,436	31.2
11-20	0	0.0	0	0.0
21-30	0	0.0	0	0.0
31-40	1	0.1	653	14.2

51-75	0	0.0	0	0.0
76 and above	0	0.0	0	0.0
District Total	**743**	**100.0**	**4,596**	**100.0**

Scheduled Tribes population in the district rural areas is 4,596. A perusal of the data on proportion of Scheduled Tribes population to total population in villages, 2001 revealed that out of 743 total villages in the district, 507 villages do not have any Scheduled Tribes population. Of the remaining villages, 223 villages forming 30.0 percent of total villages covering 54.5 percent Scheduled Tribes are less than 5 range groups. 12 villages forming 1.6 percent of total villages covering 31.2 percent Scheduled Tribes are 5 – 10 range group and remaining 1 village forming 0.1 percent of total villages covering 14.2 percent Scheduled Tribes are 31 – 40 range group Scheduled Tribes population, and remaining ranges have no Scheduled Tribes population in the district.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Kankavli (CT)	14,625	646	99	4.4	0.7
2	Kudal (CT)	13,642	615	54	4.5	0.4
3	Malwan (M Cl)	18,680	503	81	2.7	0.4
4	Sawantwadi (M Cl)	22,901	809	89	3.5	0.4

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS/OWNS, 2001 - (Contd.)

Serial number	Name of UA/Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
5	Vengurla (M Cl)	12,471	764	33	6.1	0.3
	District(Urban) Total	**82,319**	**3,337**	**356**	**4.1**	**0.4**

In urban areas, the Scheduled Castes and Scheduled Tribes consistitute 4.1 percent and 0.4 percent of the total urban population respectively.

The percentage of Scheduled Castes population in Kankavli Census Town (4.4 percent), Kudal Census Town (4.5 percent) and Vengurla M.Cl (6.1 percent) are above the district urban average and Malwan M.Cl (2.7 percent) and Sawantwadi M.Cl (3.5 percent) are below the district urban average. The highest percentage of Scheduled Castes population is seen in Vengurla M.Cl (6.1 percent) and lowest in Malwan M.Cl (2.7 percent).

The percentage of Scheduled Tribes population is above the district urban average in only one town i.e Kankavali Census Town (0.7 percent) and Vengurla M.Cl is below district urban average (0.3 percent) and remaining towns i.e Malwan M.Cl, Kudal Census Town and Sawantwadi M.Cl at par to the district urban average.

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

Serial number	Name of C D block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Devgad	1,111	989
2	Vaibhavvadi	1,203	855
3	Kankavli	1,084	1,034
4	Malwan	1,128	842
5	Vengurla	1,104	1,038
6	Kudal	1,086	967
7	Sawantwadi	1,088	937
8	Dodamarg	1,087	1,027
	District (Rural) Total	**1,101**	**970**

Sex ratio among Scheduled Castes and Scheduled Tribes is 1,101 and 970 respectively. The highest sex ratio in Scheduled Castes is 1,203 in Vaibhavvadi C.D Block. While lowest is in Kankavli C.D. Block (1,084). Devgad, Vaibhavvadi, Malwan and Vengurla C.D. Blocks are above the district rural average and remaining C.D. Blocks i.e. Kankavli, Kudal, Sawantwadi and Dodamarg are below the district average.

The highest sex ratio in Scheduled Tribes population is 1,038 in Vengurla C.D Block while lowest is 842 in Malwan C.D Block. Devgad, Kankavli, Vengurla and Dodamarg C.D. Blocks are above the district average and remaining C.D. Blocks i.e. Vaibhavvadi, Malwan, Kudal and Sawantwadi are below the district average.

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A/Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Kankavli (CT)	928	941
2	Kudal (CT)	1,071	1,250
3	Malwan (M Cl)	905	929
4	Sawantwadi (M Cl)	998	854
5	Vengurla (M Cl)	964	941
	Sex ratio (Urban) for the district:	**975**	**956**

In urban areas sex ratio among Scheduled Castes and Scheduled Tribes is 975 and 956 respectively. The highest sex ratio of Scheduled Castes population is 1071 in Kudal Census Town. While lowest is 905 in Malwan M.Cl. The highest sex ratio of Schedued Tribes population is 1250 in Kudal Census Town. While lowest is 854 in Sawantwadi M.Cl.

TABLE 21 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY TAHSILS, 2001

Number and percentage of literates and illiterates by tahsil are given in this table. Within the district percentage of male literates is higher than female literates i.e 90.3 and 71.2 percent respectively. Urban literacy rate in both sexes is much higher than their total literacy rate. In all eight tahsils Vengurla tahsil has highest percentage of literates i.e.85.1 percent and Vaibhavvadi tahsil is lower 68.4 percent. In male and female lieracy rate four tahsils i.e. Malwan, Vengurla, Kudal and Sawantwadi are above district average. While remaining four tahsils i.e. Devgad, Vaibhavvdi, Kankavli, Dodamarg are below the district average. Gap in male female literacy rate is 19.0 percent. Gap in rural areas is higher than in urban areas in all tahsils. Gap in male female literacy varies from 16.7 percent in Vengurla tahsil to 24.7 percent in Vaibhavvadi tahsil

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Serial number	Name of C.D.block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Devgad	86,952	46,766	40,186	38,336	13,506	24,830	79.8	90.0	70.5	19.5
2	Vaibhavvadi	28,384	15,305	13,079	19,966	6,762	13,204	68.4	82.0	57.3	24.7
3	Kankavli	83,321	45,200	38,121	40,221	13,925	26,296	77.1	88.5	67.0	21.5
4	Malwan	71,167	37,250	33,917	26,835	9,139	17,696	81.8	91.5	73.2	18.3
5	Vengurla	56,838	30,046	26,792	19,078	6,424	12,654	84.3	93.5	76.0	17.5
6	Kudal	98,676	52,867	45,809	40,621	14,349	26,272	80.6	90.5	71.6	18.9
7	Sawantwadi	88,497	47,400	41,097	37,582	12,980	24,602	79.7	90.1	70.4	19.7
8	Dodamarg	33,443	18,670	14,773	16,589	5,683	10,906	76.3	88.4	65.0	23.3
District (Rural) Total:		**547,278**	**293,504**	**253,774**	**239,228**	**82,768**	**156,460**	**79.3**	**89.8**	**69.8**	**20.0**

It is seen that 79.3 percent of the rural population are literates in Sindhudurg district. The highest literacy rate recorded in Vengurla C.D. Block i.e. 84.3 percent and lowest in Vaibhavvadi C.D. Block (68.4 percent). Among the males it account for 89.8 percent while for females the literacy rate is substantially lower 69.8 percent. The highest literacy rate among male is seen in Vengurla C.D Block (93.5 percent) and lowest is in Vaibhavvadi C.D Block (82.0 percent). Vengurla C.D Block also leads in female literacy (76.0 percent) and Vaibhavvadi C.D Block has the lowest (57.3 percent).

The literacy rate for male is higher than that of district level i.e Devgad, Malwan, Vengurla, Kudal and Sawantwadi and females literacy rates in C.D Blocks Devgad, Malwan, Vengurla, Kudal and Sawantwadi are above the district average.

Gap in male-female literacy rate of the district is 20.0 percent. Highest literacy rate gap in male–female recorded in Vaibhavvadi C.D Block (24.7 percent) and lowest in Vengurla C.D Block (17.5 percent).

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population

		Females	**450,935**	**72,338**	**16.0**	**104,290**	**23.1**	**176,628**	**39.2**	**274,307**	**60.8**

Table 31 shows number and percentage of main workers, marginal workers and non – workers by sex in tahsils. Among the main workers, male participation rate in the district is 38.6 percent. While that of females is 16.0 percent. The sexwise breakup shows that among male females, 16.0 percent and 23.1 percent of the population are marginal workers in the district. Remaining 45.4 percent and 60.8 percent of population are non-workers in the district. Among the marginal workers the proportion of females marginal workers is higher than that of males. Within the district Kankavli tahsil shows highest percentage of main workers (28.9 percent) and Devgad tahsil shows lowest percentage of main workers i.e. 23.7 percent. Dodamarg tahsil shows highest percentage of marginal workers (21.9 percent) and Sawantwadi tahsil shows lowest percentage (17.6 percent). While Devgad tahsil shows highest percentage (57.3 percent) of non workers and Vaibhavadi tahsil shows lowest percentage of non workers (50.6 percent).

TABLE 32: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN C. D. BLOCKS, 2001

Serial number	Name of C.D. block	Persons/ Males / Females	Total Population	Main workers		Marginal workers		Total workers (Main and marginal workers)		Non workers

District (Rural) Total:		**Persons**	**786,506**	**210,484**	**26.8**	**165,415**	**21.0**	**375,899**	**47.8**	**410,607**	**52.2**
		Males	**376,272**	**142,216**	**37.8**	**63,784**	**17.0**	**206,000**	**54.7**	**170,272**	**45.3**
		Females	**410,234**	**68,268**	**16.6**	**101,631**	**24.8**	**169,899**	**41.4**	**240,335**	**58.6**

Number and percentage of main workers, marginal workers and non-workers by sex in C.D Blocks is shown in this table. In the district as a whole 26.8 rural population recoded in main workers, 21.0 percent recorded as marginal workers and remaining 52.2 percent as non workers. Among the main workers percentage of male and female is 37.8 percent and 16.6 percent, 17.0 percent and 24.8

percent recorded as marginal workers and 45.3 and 58.6 percent recorded as non workers of male and female respectively.

Proportion of male population is higher than female in main workers. It has been observed that Kankavli C.D Block recorded the highest percentage (29.0 percent) and Devgad C.D Block recorded the lowest percentage (23.7 percent) in main workers. While marginal workers Vengurla C.D Block recorded highest percentage (22.8 percent) and Devgad C.D Block recorded lowest percentage (19.0 percent).

Devgad C.D Block recorded the highest percentage (57.3 percent) in non-workers and Kankavli C.D Block recorded the lowest percentage (49.9 percent).

Table 33 shows number and percentage of main workers, marginal workers and non-workers by sex in urban agglomerations/towns. In urban population of the district 28.4 percent workers recorded as main workers, 7.0 percent as marginal workers and 64.7 percent as non-workers. Among main workers there is vast difference in male and female share. Male recorded 46.3 percent while females recorded 10.0 percent workers, male and female share in marginal workers is 7.4 percent and 6.5 percent respectively. While 46.3 percent and 83.5 percent population of male and female recorded as non-workers respectively in urban area of the district. Among the main and marginal workers, proportion of male workers is higher than females. Within

the towns Malwan MCl. recorded highest percentage (29.6 percent) of main workers and Vengurla MCl. recorded the lowest percentage (26.2 percent). In marginal workers Vengurla MCl. recorded the highest percentage (12.0 percent) and Sawantwadi MCl. recorded the lowest (2.8 percent) and in non-workers highest percentage is seen in Sawantwadi MCl. (68.0 percent) and Vengurla MCl recorded the lowest (61.8 percent) in urban area.

Note: Percent of Workers to total workers are given in brackets

Table 34 shows distribution of workers by sex in four categories of economic activity in tahsils. There are 46.6 percent total workers. A majority of workers primarily depend upon agricultural which is supported by the fact that cultivators (46.7 percent) and agricultural labourrs (19.5 percent) together constitute 66.2 percent of the total workers of the district. Percentage of household Industry workers is 3.5 percent and percentage of other workers is 30.3 percent. Vaibhavvadi tahsil records the highest percentage (74.1 percent) in cultivators category and lowest records Vengurla tahsil (35.0 percent). Highest percentage of agricultural labourers is in Dodamarg tahsil (25.9 percent) and Vaibhavvadi tahsil records the lowest percentage (10.0 percent). In Household Industry Workers category Sawantwadi tahsil recorded the highest percentage (5.4 percent) and Vaibhavvadi tahsil recorded the lowest percentage (1.6 percent). Other workers in Vengurla tahsil recorded the highest percentage (40.1 percent) and Vaibhavadi tahsil recorded the lowest (14.2 percent) percentage. In the district cultivators

agricultural labourers and Household Industry female accounts highest percentage than male and other workers category male accounts highest percentage than female.

TABLE 35 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN C.D. BLOCKS, 2001

Note: Percentage of Workers to total workers are given in brackets

Distribution of workers by sex in four categories of economic activity in C.D.Blocks are shown in this table. There are 47.8 percent workers in total rural population of the district. Percentage of cultivators (50.0 percent), Agricultural Labourers (20.8 percent), Household Industry is only (3.5 percent) and other workers category of percentage is 25.7 percent in rural areas of the district. In cultivators category Vaibhavvadi C.D. Block records high st percentage (74.1 percent) and Vengurla C.D. Block reco ded the lowest (38.7 percent). In Agricultural Labourers category Dodamarg C.D. Block records the highest percentage (25.9 percent) and Vaibhavvadi C.D. Block recorded the lowest (10.0 percent). In Household Industry Category Sawantwadi C.D. Block records the highest percentage (5.8 percent) and Vaibhavvadi C.D. Block recorded lowest (1.6 percent). In other workers category Vengurla C.D. Block records the highest percentage (34.6 percent) and Vaibhavvadi C.D. Block recorded the lowest percentage (14.2 percent). A perusal of the male and female share in workers shows that females have higher percentage than males in cultivators, Agricultural labourers and Household Industry. In other workers category males accounts higher percentage than females (i.e. 35.5 percent and 13.9 percent respectively).

Note: Percentage of Workers to total workers are given in brackets.

Distribution of workers by sex in four categories of economic activity of urban agglomerations/towns is shown in this table. There are 35.3 percent workers in total urban population of the district. Percentage of cultivators (3.4 percent), Agricultural laborers (2.5 percent) Household Industry (4.6 percent) and other workers category of percentage is (89.5 percent) in urban areas of the district. In cultivators category Vengurla MCl. records the highest percentage (6.7 percent) and Sawantwadi MCl. records the lowest percentage (0.7 percent). Highest percentage of Agricultural labourers is in Vengurla MCl. (5.7 percent) and Malwan MCl. and Sawantwadi MCl. both records the lowest percentage i.e. (1.4 percent). In Household Industry workers category Kankavli Census Town recorded the highest percentage (5.5 percent) and Sawantwadi MCl. recorded the lowest percentage (2.5 percent). Other workers in Sawantwadi MCl. recorded the highest percentage (95.5 percent) and Vengurla MCl. recorded the lowest percentage (82.6 percent).

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Eucational

The educational amenity is available in 722 villages, which constitute 97.2 percent of the total 743 inhabited villages of the district. All the villages in C.D. Block Kudal have educational amenity. (Table–37) available within its revenue limits.

The educational amenity is available 99.1 percent population in the district. The educational amenity is available to all (cent-percent) population in C.D. Blocks Devgad, Kankavli, Kudal and Sawantwadi in the district (Table–38).

There are 21 villages, which do not have primary school within its revenue limits. The students of theses 20 villages have to cover a distance of at least 5 kms. to reach a place as such amenity and 1 village they have to cover a distance 10 and above kms. 187 villages have no middle school amenity. The amenity is available to 166 villages within 5 kms. 8 villages within 5-10 kms. and 13 villages beyond 10+ kms. There are 739 villages which do not have degree College. These degree colleges are located within 5 kms. for 45 villages, within 5-10 kms. for 52 villages, beyond 10 kms. for 642 villages within their revenue limits (Table 39).

As per distribution of villages distance range from nearest statutory town the education amenity is available in 10 villages (90.9 percent) within 5 Kms.. 94 villages (95.9 percent) in range within 5 – 15 Kms., 539 villages (97.5 percent) within 16 – 50 Kms.. 79 villages (97.5 percent) at a distance of 51 and above Kms. (table 40).

168 inhabited villages, constituting 91.3 percent of the total 184 inhabited villages in population range upto 499 have the educational amenity available to them within their revenue limits, 252 villages (98.1 percent) with population size 500 – 999, 232 villages (cent percent) within population size 1,000 – 1,999; 65 villages (cent percent) in population size 2,000 – 4,999; 5 villages (cent percent) in population size 5,000-9,999 have the availability of educational amenity within revenue limits of the villages.

Medical

Medical institutions of one or the other type are functioning in 593 villages (79.8 percent). Out of 743 inhabited villages in the district Kankavli C.D Block has reported the medical amenity for 103 villages (99.0 percent) is highest coverage in 8 C.D Blocks. Devgad (93.8 percent), Vaibhavvadi (98.3 percent), Kankavli (99.0 percent), Saawantwadi (80.0 percent) and Dodamarg (94.6 percent) C.D Blocks are higher than the district average (79.8 percent) (Table – 37) and 87.2 percent of its 685642 population gets the benefit. (Table – 38).

The village enjoying this facility through primary health centres, sub- centers and dispensaries served not only the resident – population of concerned villages but also those residing in surrounding villages. Out of 743 inhabited villages 593 villages have medical amenity in their respective village limits. While 150 villages do not have any type of medical amenity (Table – 37).

There are 724 villages without the amenity of Hospitals and 706 villages without PHCs, of these as many as 119 and 259 villages are situated at a distance of less than 5 Kms. with reference to the nearest place with medical amenities such as hospital and PHC respectively. Another 98 and 207 villages are located at a distance of 5 – 10 Kms. for the same medical amenities. But in the case of 507 and 240 villages the residents have to travel more than 10 Kms. to reach a place with these medical amenities. (Table – 39).

As per the distribution of villages, according to the distance range from nearest statutory town, the medical amenity is available in all 7 villages within 5kms, 74 villages have medical amenity within 5-15 kms., 433 villages within 16 – 50 Kms. and 79 villages at a distance of 51 and above Kms.. (Table – 40).

As per distribution of villages, according to the population range, the medical amenity is available to 123 villages (66.8 percent) covering population range upto 499, 197 villages with population range 500 – 999, 203 villages with population range 1000 – 1999, 65 villages with population range 2000 – 4999 and remaining 5 villages with population range 5000 to 9999 have medical amenity available within their revenue limits (Table – 41).

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communications includes bus service, rail facility and navigable waterways.

Drinking water

Water supplied from a tap or hand pump or tube well situated within or outside the premises is considered as improved water amenity. The improved drinking water source is available in 677 villages (91.1 percent) out of 743 inhabited villages.

Postal

The amenity of post and telegraph is available to 369 villages (49.7 percent) serving 68.6 percent of rural population of the district. Within 8 C.D Blocks of the district, the percentage of villages having amenity of post and telegraph varies considerably. In

Kankavli C.D Block the post office amenity is available to 78.0 percent of the total population Devgad (74.5 percent), Malwan (68.2 percent), Vaibhavvdi (63.0 percent), Vengurla (45.3 percent), Kudal (66.4 percent), Sawantwadi (73.4 percent) and Dodamarg (66.5 percent), population respectively (table – 38).

Postal amenities are not available at all in 374 villages. Out of these the amenity is available to 290 villages at a distance of less than5 kms., 46 villages at a distance between 5 - 10 Kms. and 38 villages at a distance beyond 10 Kms. for the postal amenity (table – 39).

As per the distribution of villages according to the distance from nearest statutory town, 7 villages are stituated at a distance of less than 5 Kms., 46 villages at a distance of 5 – 15 Kms.. 275 villages at a distance of 16 – 50 Kms. and 41 villages are at a distance of 51 and above Kms.. (Table – 40).

Among the 369 villages with amenity of post and telegraph 34 villages are having less than 500 population, 102 villages are in population range 500 – 999, 166 villages are in range of 1,000 – 1,999, 62 villages are in range of 2,000 – 4,999 and remainig 5 villages have the population range of 5,000 - 9,999 (Table – 41).

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Telephone

The amenity of telephone is available in 528 villages (71.1 percent) of the district. These villages serve 82.3 percent of rural population of the district. Sawantwadi C.D Block covers as high as 99.7 percent population where as Vaibhavvadi C.D Block with 54.3 percent population, which is lowest of all C.D Blocks (T–38).

Telephone amenity is not available in 215 villages. Out of these the amenity is available to as many as 66 villages at a distance of less than 5 Kms. 33 villages have the amenity accessible at between 5–10 kilometres. While the amenity to 116 villages are accessible at a distance beyond 10 Kms.. (Table–39).

As per distribution of villages, according to the distance from the nearest statutory town. There are 11 villages with the amenity at a distance of less than 5 Kms.. 85 villages at a distance of 5-15 kms, 384 villages at a distance of 16-50 kms. and 48 villages are at a distance of 51 and above kms. (Table – 40)

Among 528 villages with the amenity of telephone, 87 villages are having less than 500 populations; 187 villages are in range of 500 – 999 population. 185 villages in range of 1,000 – 1,999; 64 villages in range of 2,000 – 4,999 and remaining 5 villages in 5,000–9999 population range.

Transport and Communication

Transport communications includes bus service, rail amenity and navigable waterway. If a bus stop or a railway station or navigable waterway is located with in the territorial juridiction of a village it is considered to have been served by such amenity even it is little away from the actual settlement 662 (89.1 percent) villages have communication amenity available serving95.1 percent of rural population of the district. 94 villages of Devgad C.D Block constituting 96.9 percent of total villages have the highest proportion of villages where communication/ transport amenity is available. While 42 villages of Dodamarg C.D Block with 75.0 percent coverage of the village holds the last rank (Table– 37).

Out of 743 inhabited villages, 85 villages do not have any bus service amenity. Of these villages, the residents of 70 villages have to cover a distance upto 5 Kms. to reach a place with such amenity, 10 villages it is between 5 – 10 Kms. and for 5 villages it is more than 10 Kms.. (Table – 39). As per the distribution of villages, according to the distance range from nearest statutory town, the transport communication amenity is available in 11 villages within 5 Kms.. 89 villages at a distance of 5 – 15 Kms.. 492 villages at a distance of 16 – 50 Kms.. and 70 villages are at distance of 51 and above Kms. (Table – 40).

The availability of this amenity is depend upon the location of the village with reference to road. Among the 662 villages which have the availability of communication amenity within their respective limits.. The populations for 133 villages are in less than 500, 233 villages in range of 500 – 999 for 226 villages in range of 1000 – 1999, 65 villages in range of 2000 – 4999 and remaining 5 villages fall in the range of 5000 - 9999. Thus the population size of a village has an impact on the availability of communication amenity.

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Banking

The amenity of banking services is available in 123 villages (16.6 percent) out of 743 inhabited villages, serving 28.4 percent rural population of the district. 24 villages (24.7 percent) having highest banking amenity available in Devgad C.D. Block and 15 villages (11.1 percent) having lowest banking amenity available in Malwan C.D. Blocks (Table 37).

Out of 743 inhabited villages the people of 217 and 264 villages have to cover a distance up to 5 kms. for availing the amenity of commercial bank and co-operative bank respectively, for 152 and 152 villages the amenity is available at a distance of 5-10 kms; and for remaining 307 and 242 villages the amenities available at a distance of more than 10 kms. (Table 39).

As per the distribution of villages according to the distance range from nearest statutory town. The banking amenity is available only one villages with a distance of less than 5 kms; 14 villages at a distance of 5-15 kms. 95 villages at a distanceof 16-50 kms. and 13 villages are at distance of 51 and above kms. (Table-40).

As per distribution o villages according to the population range, the banking amenity is available to 5 villages (2.7 percent) covering population range upto 499, 27 villages with population range 500-999, 56 villages with population range 1000-1999, 31 villages with population range 2000-4999, and remining 4 villages with population range 5000 - 9999 have banking amenity available within their revenue limits (Table – 41).

Agricultural Credit Societies

There are 157 villages having agricultural credit societies in the district 32.9 percent of rural population is concentrated in these villages. The amenity is available 22 villages (37.3 percent) in Vaibhavvadi C.D. Block is highest and lowest in 8 villages (6.5 percent) in Kudal C.D. Block (Table 37).

586 villages are not having this amenity. Out of these, the amenity is available as many as 216 villages at a distance up to 5 Kms; 94 villages within 5-10 kms; and 276 villages at a distance beyond 10 kms. (Table 39)

As per the distribution according to availability of agricultural and credit societies amenity from nearest statutory town, only one village is situated at a distance of less than 5 kms. While 29 villages at a distance of 5-15 kms. 102 villages are at distance of 16-50 kms. 25 villages are at a distance of 51 and above kms. (Table 40)

There are 14 villages having this amenity with population less than 500, 38 villages with population of 500-999, 68 villages with population of 1000-1999, 32 villages with population of 2000-4999 and remaining 5 villages with population of 5000 - 9999. (Table 41).

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Approach by Pucca Road

Road weather pucca or kachcha are the never system of a district. They act as factor for the development and uplittment of the areas. Roads with cement concret, black top, water bound macadam etc; come under pucca roads and the remaining are treated as Kachcha roads.

Pucca road amenity is available to 597 villages (80.3 percent) out of 743 inhabited villages in the district. Population of 709,548 (90.2 percent) avails of the approach road amenity. A perusal of the amenity in C.D. Blocks shows that Vaibhavvadi C.D. Block have highest number 52 villages (88.1 percent) of this amenity and Dodamarg C.D. Block (31 villaages, 55.4 percent) is the lowest in district (Table 37).

There are 11 villages at a distance of upto 5 kms. from the nearest statutory town, 85 villages at a distance 5-15 kms, 441 villages at a distance 16-50 kms. and remaining 60 villages are at a distance range of 51 and above kms. from nearest statutory town. (Table-40).

The population in 107 villages (58.2 percent) served by pucca road is less than 500, for 199 villages (77.4 percent) is in range of 500 to 999, for 221 villages (95.3 percent) in range of 1000-1999, for 65 villages (cent percent) in range of 2000-4999, and remaining 5 villages (cent percent) having population range 5000 and above population size is an important factor directly associated with availability of pucca road amenity larger the size of a village, greater are the chances of its having this amenity.

Power Supply

735 village (98.9 percent) are having power supply amenity in the district. Devgad, Vaibhavvadi, Kankavli, Malwan, Vengurla and Kudal C.D. Block have cent percent power supply amenity except Sawantwadi and Dodamarg tahsils. (Table 37).

Out of 743 inhabited villages in the district population of 783,528 (99.6 percent) avails of the power supply amenity (Table 38).

The amenity of power supply is available 180 villages in the population ranges less than 500 population, 253 villages are in range of 500-999 population, 232 villages in range of 1,000-1999, 65 villages in 2,000-4,999 and remaining 5 villages (cent percent) are in 5,000-9,999 population range.

It may be summed up from foregoing paragraphs that in respect of availability of different types of amenities considered. The larger villages have an advantage over the smaller ones population size and availability of amenities are associated with each other.

TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Devgad	97	77,834	52.9	0.0
2	Vaibhavvadi	59	42,700	52.6	0.1
3	Kankavli	104	77,039	41.1	8.2
4	Malwan	135	60,783	42.0	1.7
5	Vengurla	83	27,680	44.3	0.1
6	Kudal	124	80,824	59.3	2.5
7	Sawantwadi	85	83,087	35.7	4.8
8	Dodamarg	56	49,557	24.0	15.0
	District Total:	**743**	**499,504**	**44.6**	**3.4**

Note : Cultivable area = irrigated area + unirrigated area

The district as a whole total cultivated area is 44.6 percent of the total area. Out of eight C.D. Blocks, three C.D. Blocks are above the district average i.e. Devgad 52.9 percent; Vaibhavvadi 52.6 percent, and Kudal 59.3 percent and remaining five C.D.Blocks are below district average i.e. Kankavli (41.1 percent), Malwan (42.0 percent), Vengurla (44.3 percent), Sawantwadi (35.7 percent) and Dodamarg (24.0 percent).

Only 3.4 percent of the total cultivable area is irrigated in the district. In Dodamarg C.D. Block the proportion of irrigated area is maximum 15.0 percent and minimum in Vaibhavvadi C.D. Block (0.1 percent) and Vengurla C.D. Block (0.1 percent). Dodamarg (15.0 percent), Kankavli (8.2 percent) and Sawantwadi (4.8 percent) C.D. Blocks are reported the percentage of irrigated area higher than the district average.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

		Per capita receipt			Per capita expenditure					
Serial number	Class, name & urban status of the Town	Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	IV Malwan (M.Cl.)	767.6	482.9	284.7	767.6	216.9	230.7	237.3	9.2	73.6
2	III Sawantwadi (M.Cl.)	1,023.4	517.4	506.0	942.9	267.4	176.6	83.4	10.7	404.8
3	IV Vengurla (M.Cl.)	1,224.9	451.8	773.2	1,224.9	289.7	49.2	354.1	2.4	529.5
	District Total	**981.5**	**490.3**	**491.2**	**947.4**	**255.1**	**165.9**	**199.1**	**8.2**	**319.1**

Table 43 gives per capita receipts and expenditure in statutory towns. The average per capita receipts for three towns of the district works out to Rs. 981.5 of which Rs. 490.3 are received through local taxes

and the remaining Rs. 491.2 are received from all other sources.

The total expenditure incurred per head is Rs. 947.4 of which Rs. 255.1 are spent in general administration Rs. 165.9 on public health and conveniences. Rs. 199.1 on public work, Rs. 8.2 on public institutions and Rs. 319.1 on others. Among all the towns, both the receipt received and expenditure incurred per head are highest in Vengurla (MCl) and lowest in Malwan (MCl).

TABLE 44 : SCHOOLS/COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Malwan (M.Cl.)	3.2	3.2	2.1	1.1	0.5
2	Sawantwadi (M.Cl.)	9.2	1.3	2.2	1.3	0.4

	District Total	**7.2**	**2.2**	**2.0**	**1.1**	**0.6**

Table 44 indicates the number of schools and colleges per ten thousand population in towns. On an average there are 7.2 primary schools per ten thousand population in urban areas of the Sindhudurg district. 2.2 Junior secondary/Middle schools. 2.0 Secondary/Matriculation schools, 1.1 senior secondary school and 0.6 colleges.

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Kankavli(C.T.)	94
2	Kudal(C.T.)	10
3	Malwan(M.Cl.)	43
4	Sawantwadi(M.Cl.)	107
5	Vengurla(M.Cl.)	152
	Distrct Total	**81**

Table 45 gives the number of beds per 10,000 population in medical institutions in towns. On an average there are 81 beds per ten thousand population in urban areas of the district. Vengurla (MCl) has maximum number of beds i.e. 152, followed by Sawantwadi (MCl) with 107 beds, Kankavli (Census Town) with 94 beds, Malwan (MCl) with 43 beds and Kudal (Census Town) with 10 beds.

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Serial number	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Malwan	18,680	0	0.0
2	Sawantwadi	22,901	0	0.0
3	Vengurla	12,471	0	0.0
	District Total	**54,052**	**0**	**0.0**

There is no slum population in Sindhudurg district.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Kankavli (C.T.)	Ground Nut Oil	Ground Nut
		Kokam Juice	Cashew Nut Oil
		Cashew Nut	Kokam Juice
2	Kudal (C.T.)	Electronic Parts-Tv	Mango
		Steel Utensils	Cashew Seeds
		Iron Chips	Kokam Oil
3	Malwan (M.Cl.)	Dry Fish	Fish
		Cashew Nut-Oil	Mango
		Kuda Bidi	Cashew Nut

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001 - (Contd.)

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
4	Sawantwadi (M.Cl.)	Kuda Bidi Wooden Decorative Pieces And Toys Leather Bags	Processed Cashewnuts Kokam Wooden Toys
5	Vengurla (M.Cl.)	Cashew Nut Oil Tin Containers Wooden Boxes	Cashew Nut Mango Fish

The three main items manufactured and exported from each of the five towns of the district are given in this table.

In Kankavli (Census Town) Groundnut oil, Kokam Juice, Cashew nut are three important commodity manufactured. While Groundnut, Cashew nut oil and Kokam juice are exported. In Kudal (Census Town) Electronics parts, TV, Steel utensils and Iron chips are manufactured while mango, Cashew seeds and Kokam oil are exported. In Malwan (MCl) dry fish, Cashew nut oil and Kuda bidi are manufactured while Fish, Mango and Cashew nut are exported. In Sawantwadi (MCl) Kuda Bidi, Wooden decorative furniture and leather bags are manufactured while processed Cashewnuts, Kokam and Wooden toys are exported. In Vengurla (MCl) Cashew nut oil, Tin containers and wooden boxes are manufactured while Cashew nut, Mango and Fish are exported.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

This table gives the distribution of households by tenure status and number of rooms occupied per total rural and urban areas of the district. This table also gives similar information for Scheduled Castes and Scheduled Tribes households for the district. According to 2001 Census there are 10,317 households having no exclucive room, 47,757 household having one room, 56,200 households having two rooms, 34,205 households having three rooms and 41,799 households having 3+ rooms.

Regarding rural and urban areas of the district there are 9,656 and 661, households respectively having no exclusive room, 44,473 and 3,284 households having one room. 51,357 and 4,843 households having two room's, 29,889 and 4,316 hiuseholds having three rooms, 36,759 and 5,040 households having 3+ rooms respectively.

Among the Scheduled Castes households 1685 households comprising 1610 rural and 75 urban households have no exclusive room, 4,993 households comprising 4,688 rural and 305 urban households having one room, 4,830 households comprising 4,479 rural and 351 urban households having two rooms, 2,381 households comprising 2,069 rural and 312 urban households having three rooms and 2,009 comprising 1,825 rural and 184 urban households having 3+ rooms respectively.

Within Scheduled Tribes households of Sindhudurg district there are 361 households comprising 289 rural and 72 urban households having no exclusive room, 906 households comprising 726 rural and 180 urban households having one room. 675 households comprising 559 rural and 116 urban households having two rooms. 333 households comprising 255 rural and 78 urban having three rooms. And 299 households comprising 256 rural and 43 urban households having 3+ rooms respectively.

TABLE 49 : PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Serial number	District/ Tahsil	Total			Rural			Urban

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Note:-

Permanent:-1 Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concreate are used for roof.

Semi permanent:-2 Semi-permanent houses refer to those houses made of other types of materials

Temporary:-3 Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

The total percentage for the three categories viz.Permanent, Semi Permanent and Temportary may not add to 100 percent, the percentage remaining is for the 4th category Unclassified not shown in the table.

This table gives the distribution of households in permanent, semi permanent, and temporary houses in the district.

According to 2001 Census out of total houses of the district 33.2 percent households are living in permanent houses. Followed by 64.3 percent households are living in semi permanent houses and 2.5 percent households are living in temporary houses as per defination given in note below the table – 49. Regarding rural areas of the district 31.2 percent households are living in permanent houses, 66.2 percent households are living in semi permanent houses and 2.5 percent households are living in temporary houses. With in the urban areas of the district 52.0 percent households are living in permanent households, 45.6 percent households are living in semi permanent houses and 2.1 percent households are living in temporary houses.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Bathroom means bathroom within the house

Toilet means toilet within the house

Drainage means closed and open drainage

This table gives the classification of households having improved drinking water source, electricity, bathroom, toilet and drainage facility available in the district.

According to 2001 Census, the amenity of improved drinking water is available for 49,179 households consistitting 25.8 percent of the total households. In rural and urban areas of the district this amenity is available for 43014 (25.0 percent) and 6165 households (34.0 percent) respectively. The amenity of electricity is being enjoyed by 176,683 households (92.9 percent). In rural and urban areas of the district this amenity is being enjoyed by159,237 households (92.5 percent) and 17,446 households (96.2 percent) respectively. The amenity of bathroom is available in 97,768 households constituting 51.4 percent. For rural and urban areas this amenity is available for 83,663 households constituting 48.6 percent and 14,105 households constituting 77.7 percent respectoively. The amenity of toilet is available of 61,205 households, which constitute 32.2 percent of the total households in the district. In rural and urban areas toilet amenity is available for 47,963 (27.9 percent) and 13,242 (73.0 percent) respectively.

The amenity of drainage is available 34,554 households which constitute 18.2 percent in the district for rural and urban areas this amenity is available for 25,020 households (14.5 percent) and 9,534 households (52.5 percent) respectively.

Percentage in brackets

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 51 gives the number and percent of households by type of fuel used for cooking in rural and urban areas of the district.

Out of 190,278 households 144,109 (75.7 percent) households use firewood for cooking, 2,391 households (1.3 percent) use crop residue, 132 households (0.1 percent) use cowdung cake, 60 households (negligible) use electricity, 90 hoseholds (negligible) use coal/lignite (charcoal), 26,013 (13.7 percent) use cooking gas (L.P.G), 3,883 (2.0 percent) households use Bio gas, 12,836 (6.7 percent) households use Kerosene, 54 households (negligible) use others, 710 (0.4 percent) households reported no cooking being done by them.

In the rural areas 141,474 households constituting (82.2 percent) of the total households use firewood for cooking. This is followed by use of crop residue (1.3 percent), 110 households (0.1 percent) use cowdung cake, 60 households (negligible) use electricity, 64 households (negligible) use coal/lignite (charcoal), cooking gas (L.P.G) 8.7 percent, Bio gas (2.2 percent), Kerosene (5.1 percent).

In urban areas 10,991 households (60.6 percent) use cooking gas (L.P.G) followed by Kerosene (22.6 percent), Firewood (14.5 percent), crop residue (0.4 percent), no cooking (1.3 percent).

It may seen that while firewood continues to be the predominant fuel used in rural areas, cooking gas predominantly used in urban areas for cooking.

TABLE 52 : NUMBER OF HOUSEHOLDS AVAILING BANKING SERVICES AND NUMBER OF HOUSEHOLDS HAVING EACH OF THE SPECIFIED ASSET, 2001

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table gives the number of households availing banking service and number of households having each of the specified assets 2001.

There are 190,278 households of which 172,134 are rural and 18,144 households are urban. The banking facilities are being availed by 74,301 households of which 62,711 households are rural and 11,590 households are urban. It may be seen that a higher proportion of households in urban areas 63.9 percent of total urban households utilize the banking amenity as compared to the rural areas where 36.4 percent of the total rural households.

In the district 63,875 households have own radio/ transistor, 57,794 households have own television, 13,178 households have own telephone, 38,113 have own bicycle, 18,186 households have posses scooter, motor cycle, moped, 3,992 households have posses car, jeep or van, it may be noticed from the

information available that of these, 190,278 households, 88,353 households do not possess of the above specified assets. In the rural and urban areas there are 84,684 and 3,669 such households respectively, who do not posses any of the specified assets.

(viii) Major Social and Cultural Events, Natural and Administrative Developments and Significant activities during the decade.

During decade 1991-2001, one new tahsil i.e Dodmarg and 8 new villages were created after 1991 census in Sindhudurg district. One revenue village received the status of census town, one village merged in another village, one Arule village separated from Shirale-Arule village. Shirale and Arule are shown two separate villages.

There are now 8 tahsils instead of 7 tahsils and five towns in Sindhudurg district.

(ix) Brief Description of Places of Religious, Historical or Archeological Importance in the Villages and Places of Tourist interest in the towns of the district.

The concentration of fairs is heavier in the district. Most of the fairs held in the district are associated with important deities and religious festivals. So far as trade is concerned fairs are complementary to the weekly markets. In the fairs the traders and shopkeepers set up temporary stalls. Large quantities of agricultural produce and other articles of daily use are brought for sale. The people buy necessary articles in these fairs. In this district two fairs are very famous. One is held in February – March ie. On the day of Mahashivratri at Kunkeshwar, about 5 kms away from Devgad and the other is held in December – January at Anganewadi in Malwan tahsil. These two fairs have about 100,000 or more gathering. Besides these two fairs, the other important fairs in the district are held at Sonurli and Hiranyakheshi.

Places of Historical and Tourist importance

Certain forts, a few old temples and picnic points in the district play an important role in shaping the socio-econimic pattern of the district. The fort was surrounded by water and hence was decribed as 'Janjira Fort'. Devgad is the only sheltered part of the section of western coast from Karwar to Jaygad. Near Kudal and Sawantwadi tahsils Dhamapur is chiefly interesting for a lake, which waters a large area of rice and garden land both in Dhamapur and in the neighbouring village of Kalsa. Major portion of the district is hilly. The Sahyaddrian traps end abruptly in some places to create spectacular seen attract many people not only from this District out from outside also. The centre of attraction of this district is its natural scenery and historical places which can be best enjoyed while driving through the district along the coast or in hilly terrain.

Amboli

Amboli is about 21 kms North-East of Sawantwadi. It is a sanatorium for Belgaum and Sawantwadi. The nearest railway station is Belgaum at a distanct of 64 kms but after the inauguration of new railwayroute plying from Mumbai to Mangao, Sawantwadi is the nearest railway station at a distance of 26 kms. Amboli is situated at about 725 metres above the coastal plain and enjoys good, cool and invigorating climate in summar. Amboli is a tourist centre and soon after the rainy season is during the Diwali and Christmas season a very big crowd from neighbouring districts and the state visit this cool place. Every year about 50000 persons enjoys the natural scenery and the cool climate. Adjustant to Amboli a Chaukul village having a dense forest area and a different kinds of wild animals gives the addition attraction to the tourist coming from outside. There are about 13 picnic points and other places of interest at this hill station. The prominent among them are Mahadev gad, Narayan gad, Nutt point, Khemraj point and Sawantwadi view.

Lester gate (1895)

This Lester gate was build up in 1895. It is a great Historical symbol of Historical Khemraj family. On 10th October 1865 Sir Desai Rajebahadur Raghunath Sawant of Sawantwadi opened this gate for transport.

Moti Lake

Moti lake is surrounded by beautiful green scenery of Mango and Tad trees. It is located admist the Sawantwadi City and the water of this lakes looks like moti garlands. The lake is decorated by the light and water fountains which gives the attraction to the road side tourist. Boating and different kinds of water games facilities are also available.

Sawantwadi

Sawantwadi is one of the important craft centre in Maharashtra. Sawantwadi is well known for wood carving work. Wooden fruits and toys are prepared in large number of size. This craft still is about 250 years old. Wooden toys of Sawantwadi are famous not only in our country but also outside the country. Sawantwadi is endowed by green valley and the sunrise in this valley gives the special attraction to the tourist. Sawantwadi market area is centrally located and it is famous for communication and trade.

Palace

There are various and many historical places in Sawantwadi. Palace is one of the important historal place. This Palace was built up at the time of "Third King Khem Sawant Bhosale of Sawantwadi (1775 – 1803). It future, it will be converted into 'Tiveston Hotel' which will become a main attraction to the tourist coming from all over the world. This Palace is divided into three sub-parts like residential, Darbar and Management hall. This management hall is likely to be converted into Hotel. The view of Moti Lake is marvelous from this hotel.

Kunkeshwar

Kunkeshwar, a small village on the coast is notewarthy on account of the beautiful temple from which it takes it name. The surrounding area of this temple is very beautiful. The temple with granite foundation and with laterite superstructure and the dome of this important temple is said to have been built by a Musalman trader in the year 1100 A.D. The temple is in a very good condition.

Satam Maharaj Mandir and Bharati Maharaj Math in Sawantwadi tahsil, Datta Mandir in Kudal tahsil, Bhalchandra Maharaj Math in Kankavli tahsil are also beautiful places. The other important religious places in the district are Sonurli, Anganewadi and Hiranyakheshi.

Hanuman Mandir

Hanuman Mandir is one of the picnic spot in the Sawantwadi tahsil. It is located at the Narendra hill. Near to Hanuman Mandir there is a small garden called Narendra Garden. From this garden it gives very beautiful and picturigine view of Sawantwadi town. There is another temple of Vithal Mandir which is having a kalash on the top. This kalash of Vithal Mandir is a great attraction to the tourist coming to Sawantwadi.

Jagannath Rao Bhosale Garden

Jagannath Rao Bhosale Garden is one of the biggest garden having an area of 5 acre. It is divided into three separate parts in the capacity of entertainment. One part of the garden is having water fountain, lawn and the small water fall. The second one is developed with instrumental items which are made for playing to the children and the third part is having hotels for tourist. In the same garden Government of Tourism and Development opend a centres of Information and Suvidha.

Atmeshwar Lake

Atmeshwar Lake is one of the religious place to the people of Sawantwadi. It was constructed 300 years back in 1891. This place is very famous for mathological story.One Shiv devotee known as Giri had piers a trishul in the ground out of which water fountains were appeared which was later on known as "Atmeshwar Tali" This lake is also famous as Atmeshwar temple where your can see two Shivlings at one place. The water of this Atmeshwar lake is 10 feet high above the land.

Shilpagram

In association with th Government of Maharashtra and the Tourism development, the Government of India has sponsored this Shilpagram to the articians and sculpturians This Shilpagram is very beneficial to the people of Sawantwadi for the various activities

such as carring good wooden goods, golden ornaments, knitting work and other Hastakala goods. This is another attraction to the tourist. Near to Shilpagram Government has decided to build oval shaped Lake which gives the another attraction to the tourist coming to Sawantwadi.

Forts

Malwan port is having three small islands, two of them are about one fourth kms. away from the shore and the third is separated from the main land by a narrow channel. The famous fort, Sindhudurg is situated an one of the larges of the two outer island and on the smaller, the ruined fort of Padmagad. The main object of interest is Shivaji's fortness and coast capital Sindhudurg on the Ocean Fort. Of the two main land forts viz; Rajkot and Sarjekot, Rajkot fort stands within the boundaries of the Malwan town, on rising ground surrounded on three sides by the sea. A little away from the fort on the Vaghotan road is the very old temple of Rameshwar built by Gangadhar Bhau, a brother of Nana Fadnis. Apart from these forts there are some other forts in the distric. They are Rangna, Manohargad, Narayangad, Shivgad, Ramgad, Songad, Avra, Santoshgad, Kharepatan, etc.

(x) Major Characteristics of the district, Contribution of the district in the form of any Historical figure associated with the district

Sindhudurg district is endowed with three major economic resources, viz, agricultural land, maritime fishery and an abundance of mineral deposits. The district is famous for its mango fruit plantation and the best 'Alphonso'are from this district. It is known for its typical taste, fragrance, long shelf life and good quality pulp and has a great demand both in the country and outside. There is a rapid and dramatic increase in the area under cashew and mongo. Large areas of Varkas land have been brought under this plantation. In addition to this Coconut, Kokum, Arecanut trees dot the landscape of the district. The district has a long coastline and has a considerable fishing activities of prawns, tuna and other fishes.

In addition to the fruit processing industries, a considerable deposit of iron are found in the district and bulk of this is being exported from the village Redi through Mineral and Metal Trading Corporation as there is an increasing demand for high grade of iron. Even though the district is fortunate of have the deposits of minerals such as chromite, silica, manganese, bauxite, mica, granite, laterite rocks, limestone, uranium oxide, the chief among all of these is the iron ore. Recently, large deposits of granite have been located in the district and efforts are being made to extract the same especially for export.

Tourism is the sun-rise industry in the district. As per the recent survey conducted by the M.T.D.C. on the western coast, they have identified a large number of sites suitable for development of tourism in which beaches of Mithbav (Devgad), Shiroda (Vengurla) and Mochemad (Vengurla) have been indentified as some of the best beaches on the western coast. The district is also on its way to achieve cent per cent literacy with the help of a huge mass campaign.

'Malvani' is the local language of the district and these people are famous for malvani meal (rice and fish curry). Several special dishes are prepared from rice flour. Ganesh Utsav, Shimga (Holi), Diwali, Ramnavmi, Hanuman Jayanti, Christmas, Muharram etc. are the religious festivals of the people but Gauri-Ganapati and Shimga are the most important festivals of the district. People staying in Mumbai, Pune, Kolhapur and other big cities visit their native places with a view to participate in these festivals. In general the social and cultural life of the people as been quite placid during the decade. One of the major administrative changes is the reorganisation of Ratnagiri district, which resulted in creation of the newly formed, Sindhudurg district. In this process the district boundaries of both Ratnagiri and Kolhapur districts have also changed.

Contribution of the district

Sindhudurg has given many authors, scientists, and freedom fighters, sportsmen, artists and social workers to the nation. The well knownMarathi authors S/Shri N.C. Kelkar, G.T. Madkholkar, V.S. Khandekar, M.M. Karnik, a great Cinema artist Smt. Hansa Wadkar and world famous Cricketers S/Shri Vijay Manjrekar, Sunil Gavaskar, Dileep Vengsarker and Sanjay Manjrekar hail from this district.

(xi) Scope of Village Directory and Town Directory

Information on this aspect is furnished in detail in the village and town directory statements and in a consolidated form in the appendix and also in the tables presented. The non-census information collected at the village level or town level by the Tahsildar / chief officer was scrutinized and verified in each district by the district planning officer / district statistical officer. The Collectors were also requested to once again reverify the data in case serious discrepancies were observed. Logical tests were applied to the data and the officials of this directorate visited the districts to revalidate the data. Besides this, the non-census information was cross-checked with the parent department. For example information on electricity was cross checked with Maharashtra State Electricity Board, that on roads with Public Works Department, on health with the Directorate of Health and so on.

Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village.

The Village Directory format has 23 columns and the details given under each column for the village are as follows:-

Column 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X are included in secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

This column provides data available on medical amenities in the village.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

Column 8 gives information regarding availability of drinking water within the village. In case more than one source is available to the village the same has been indicated.

Column 9 : Post, Telegraph and Telephone

Column 9 provides the postal facilities such as post office, telegraph office, post and telegraph office and telephone connections available in the village.

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc., the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given.

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given.

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded.

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable waterway, the same has been indicated in this column.

Column 14 : Approach to village

Approach to village refers to the state of road leading to village.

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

This column relates availability of Power Supply in the village.

Column 17 : News Paper / Magazine

If a village receives any News Paper/Magazines the same is noted in this column.

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23: Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Unirrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) upto one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department.

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / Non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B List of villages according to the proportion of the Scheduled Tribes to the total Population by ranges.

Town Directory :

The town directory is presented for each town covering different aspects of urban life. In 2001 Census, Statement I – VII have been included for presentation of this data. The data contained in these statements are the area, population in 2001 and past Censuses, growth rates, density, sex ratio, physical aspects of towns, communications, municipal finance, civic, medical, and educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutory notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns the Tahsildar and cantonment executive officers supplied the information.

Statement I-Status and Growth History

Statement I shows the status and growth history of the towns in the district, column 2 in this statement indicates class, name and civic administration status of a town. Class of the town indicated under this column has been introduced to facilitate the analysis of town directory data at the State and National level. Census towns have no urban civic status.

Column 3 indicates location code number of the town, column 4 gives name of tahsil and column 5 shows the name of C.D.Block. Column 6 presents area in Sq. Kms., Column 7 presents number of households including houseless households.

Column 8 to 18 gives population and growth rate of town since 1901 and would help in drawing the trends in their growth rate, Column 19 presents density and Column 20 to 22 presents sex ratio.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV-Civic and other Amenities, 1999

Statement IV provides information on the civic and other amenities available in the town. Total population given under column 3 and Schedule Castes/ Scheduled Tribes population given in column 4 and 5 have been added to help in measuring amenities in respect of population size of the weaker sections in the towns. The information on the road length within the town shown under column 6 has been obtained from Municipality.

Column 7 to 12 reflects the information on system of sewerage, number of latrines, and method of disposal of night soil.

Column 13 indicates sources of protected water supply to the inhabitants of the towns. The information on storage and capacity is shown under column 14.

Column 15 gives information regarding availability of fire fighting services. In case it is not available in the referent town, the name of the nearest place where it is available has been mentioned and the distance from the town has also been indicated within brackets. Column 16 to 20 pertains to the number of electricity supply connections available for domestic, industrial, commercial and road lighting points etc.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 and 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, are treated as independent units.

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc.

Column 6 to 9 :

The information on educational facilities is reflected in columns 6 to 9

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

Schools upto class IV are treated as Primary or Elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like Middle schools with Primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P (4), M (3).

Column 15: Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational and cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded.

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : **Number of Agricultural Credit Societies and Non-Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non-Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area committee etc.

PART A
VILLAGE AND TOWN DIRECTORY

Section I - Village Directory

(a)Note Explaining the abbreviations used in Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X are included in secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12:Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water way they are mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If a village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) upto one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE

(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A The appendix shows the list of villages according to proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B The appendix shows the list of villages according to proportion of the Scheduled Tribes to the total population by ranges.

(b) List of Villages fully merged in towns and outgrowth at 2001 Census

Section II - Town Directory

(a) Note Explaining the abbreviations used in Town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows:

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/ Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate Office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Other columns need no comments

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called seperate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) and others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 and 5 : Medical

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning

centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres are treated as independent units and counted separately using following codes:

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution(s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

Column 6 to 9 :Educational

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocation institutions like - Applied Art/Painting college, Pharmacy college, B.Ed. college, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :Higher Secondary/Intermediate/ Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/Junior Secondary and Primary Schools.

Schools upto class IV are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University/Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats.

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of the nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities.

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational and cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading Room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies.

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area Committee etc.

PART B
PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the

quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE - II

Fertility And Mortality, 1991 Census

Fertility Levels

Fertility is a major component of population growth. In the 1991 Census question on fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year were asked. The first three questions were asked to all ever-married women and the last question related to currently married woman. The measures of fertility worked out are based on the F series Tables of 1991 Census pertaining to Maharashtra State.

Mortality Levels

Information on questions on children ever born and children surviving canvassed for all ever-married woman has been tabulated by age of the mother. From this, estimates of child mortality have been worked out using Brass technique.

ANNEXURE II (i)
Estimates of Child Mortality, 1991

Item		Sindhudurg District Total	Maharashtra State Total
1	2	3	4
Q1	P	70	74
	M	74	72
	F	61	76
Q2	P	74	79
	M	79	78
	F	69	81
Q3	P	80	86
	M	84	84
	F	77	89
Q5	P	87	91
	M	89	89
	F	82	93

Mortality

The estimates of Child Mortality in 1991 for q(1), q(2), q(3), and q(5) is lower for the district as compared to the State. But estimates of male Child Mortality is higher for the district as compared to the state for q(1) and q(2). A notable feature is the lower female mortality compared to male mortality in the district as against higher female mortality in the State.

ANNEXURE II (ii)
Estimate of Fertility Indicators at district level, Maharashtra, 1981 and 1991

Fertility Measures	Sindhudurg District 1981	Sindhudurg District 1991	Maharashtra State 1981	Maharashtra State 1991
1	2	3	4	5
GFR	110	95	134	124
GMFR	159	152	168	157
TFR	4.0	3.3	4.3	3.7
TMFR	5.3	5.5	5.2	5.2
Crude Birth Rate (CBR)	29.4	25.9	31.8	29.8
No. of children ever born per women in the age group 45-49	--	4.0	--	4.2
Mean Age at Marriage	--	19.9	--	17.9
Child Women Ratio	--	34.8	--	49.6

Fertility

A perusal of the various fertility measures namely GFR (General Fertility Rates), GMFR (General Marital Fertility Rate), TFR (Total Fertility Rate), TMFR (Total Marital Fertility Rate), CBR (Crudes Birth Rate) for the district vis-à-vis State reveals lower rates for the district as compared to State as a whole except TMFR. In 1981, the GFR, GMFR, TFR, TMFR & CBR were 110, 159, 4.0, 5.3 and 29.4 respectively as compared with State average of 134, 168, 4.3, 5.2, and 31.8 in Census 1981. Similar trend is observed in 1991 Census. In 1991 GFR, GMFR, TFR, TMFR & CBR were 95, 152, 3.3, 5.5 and 25.9 respectively for the district as against the State average of 124, 157, 3.7, 5.2, and 29.8 respectively.

But the gap in fertility rates between the district and the State has marginally increased in 1991.

Mean age at marriage

Mean age at marriage is recorded higher for the district than the State in 1991.

Child Woman Ratio

The Child Woman Ratio is recorded lower for the district than the state in 1991 Census.

ANNEXURE III

		21.3	5.8	15.5
2)	In other States of India			
	Total	7,313,139	1,165,461	6,147,678
		100.0	15.9	84.1
	Rural	4,644,986	931,705	3,713,281
		63.5	12.7	50.8
	Urban	2,392,567	184,302	2,208,265
		32.7	2.5	30.2

Note: The place of last residence unclassifiable as 'Rural' or 'Urban' is included in 'Total'.

Of the total 34,225,081 intrastate migrants, 50.5 per cent are from rural to rural, 15.5 per cent from urban to urban, 19.9 per cent from rural to urban and 5.8 per cent from urban to rural. In case of Sindhudurg district of the total 368,803 intrastate migrants 63.4 per cent are from rural to rural, 3.8 per cent from urban to urban, 4.3 per cent from rural to urban and 19.0 per cent from urban to rural.

ANNEXURE IV (x)
Rural And Urban Composition of Internal Migrants by Place of last Residence,2001 Census - Sindhudurg

Place of last residence	Place of Enumeration		
	Total	Rural	Urban
1	2	3	4
Total Internal Migrant :			
1) Within the State			
Total	368,803	336,434	32,369
	100.0	91.2	8.8
Rural	249,726	233,918	15,808
	67.7	63.4	4.3
Urban	84,222	70,128	14,094
	22.8	19.0	3.8
2) In other States of India			
Total	38,083	30,548	7,535
	100.0	80.2	19.8
Rural	23,781	20,269	3,512
	62.4	53.2	9.2
Urban	12,217	8,517	3,700
	32.1	22.4	9.7

Note: The place of last residence unclassifiable as 'Rural' or 'Urban' is included in 'Total'.

In case of migrants from other states 7,313,139; 12.7 per cent have migrated from rural to rural, 30.2 per cent from urban to urban, 50.8 per cent from rural to urban and 2.5 per cent from urban to rural. In case of Sindhudurg district of the total 38083 migrants, 53.2 per cent are from rural to rural, 9.7 per cent from urban to urban, 9.2 per cent from rural to urban and 22.4 per cent from urban to rural.

ANNEXURE IV (xi)
Percentage of migrants to total population, 1991-2001, Sindhudurg district

Serial number	Place of birth/Place of last residence	Total population	Total Migrants		
			Persons	Males	Females
1	**2**	3	4	5	6
1	**Migrants by place of birth**				
	2001 Census	868,825	392,988	120,001	272,987
			45.2	13.8	31.4
	1991 Census	832,152	304,012	87,567	216,445
			36.5	10.5	26.0
2	**Migrants by place of last residence**				
	2001 Census	868,825	407,169	126,676	280,493
			46.9	14.6	32.3
	1991 Census	832,152	315,539	95,784	219,755
			37.9	11.5	26.4

There are 392,988 (45.2 per cent) migrants by place of birth comprising 120,001 (13.8 per cent) males and 272,987 (31.4 per cent) females to total population in 2001. Similarly 407,169 (46.9 per cent) migrants by place of last residence comprising 126,676 (14.6 per cent) males and 280,493 (32.3 per cent) females to total population are found in Sindhudurg district.

It may be seen that the percentage of migrants by place of birth has increased in Sindhudurg district during the decade 1991-2001 for both males and females. Similar trend can be seen for the migrants by place of last residence also.

ANNEXURE

Note: # The 1991 Census could not be conducted in 33 villages of Akkalkuwa and Akrani C.D. Blocks of Dhule District. The population of these villages (Persons 16,052 Male 8,200 and Females 7,852) has been obtained from secondary sources and included in the population of district and Maharashtra. However, further details are not available.

Source: Table C-2 of Part IV-A, C series - Socio Cultural Tables, 1991 census.

When compared to 1991 data, it is found that during the last decade the literacy rate of the state has jumped from 64.9 per cent to 76.9 per cent. While during the same period the districts' literacy rate has increased from 75.8 per cent to 80.3 per cent.

Source : Table 31 of Maharashtra State District Profile 1991

Marathi is the principal language of the district and is the mother tongue of 88.3 per cent of the district population. In rural areas Marathi speakers account for 89.7 per cent whereas in urban areas 75.5 per cent. Malwani is the second largest language spoken in the district. It accounts for 4.4 per cent of

the total population. The proportion of Malwani speakers is higher in urban areas (8.0 per cent) than the rural areas (4.0 per cent). The third largest language spoken in the district is Konkani, its percentage to the total population is 1.6 and mainly spoken in urban areas by 3.5 per cent people, whereas 1.4 per cent in rural areas.

The speakers of the minority languages are mainly concentrated in urban areas and their proportion in rural areas is very less (except Marwari).

It is found that during the last decade proportion of Marathi has decreased from 92.6 per cent to 88.3 per cent whereas Malwani speakers proportion has increased from 2.2 per cent to 4.4 per cent.
