Director of Census Operations, Mizoram

CHERAW

One of the most unique and interesting dance called **"Cheraw"** is sometimes known as ôBamboo Danceôjust because of using bamboos during the dancing. The dancer performs the dance by an alternate stepping in and out from between and across a pair of horizontal bamboos, which are held against the ground by boys. The bamboos open and close in rhythmic beats. The horizontal bamboos are supported by two bases one at each end. The bamboos when clapped, producing a sharp clapping sound which give the rhythm and timing to the dance. The dancers steps in and out to the beat of the bamboos and maintain the dance with confidence and grace. There are many variations in pattern and steps in Cheraw, imitation of the movement of birds, the swaying of the tree and so on.

The origin of Cheraw is not known for sure. Probably the forefather of the Mizos brought it from far East. Although Cheraw is performed now on any occasion, originally it was performed, so says the legend, with a specific purpose to pave a safe and victorious passage for a child (on leaving this mortal world) to the abode of the dead ôPiaralô(Paraside). Cheraw is therefore, a dance of sanctification and redemption performed with calculated precision and elegance.

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 Census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census - DCHB series was in three parts : Part-A related to vilage and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in tow parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA upto tahsil/town levels. New features alongwith restusturing of the formats of village and town directory were added into it. In village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory. a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notifioed slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrual classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illeterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of the 2001 Census DCHB have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ómost important commodityô manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance (s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In town directory, the statement of Slums has been modified and its coverage enlarged by including

details of all slums instead of ónotified slumsô. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analyzed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion ómotifô highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occured in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, complied and computerized in prescribed record structure under the supervision of Shri P.K. Bhattacharjee, Director of Census of Operations, Mizoram. Thereafter, effort has been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective State Governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C.Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director, I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

New Delhi

Preface

In the forward to this publication a summary of the background, coverage and content to the District Census Handbook have been provided. This volume contains the salient features and information on census and non-census data collected respectively during Census of India 2001 and from various states and Central Government Organisations so as to enable the data users to make full of fruitful utilisation of the data and various information presented herein. It is hoped that the microlevel information incorporated in this publication will quench the thirst of planners and other users including research scholars for such details.

The publication of the District Census Handbooks for all eight districts of Mizoram is a joint ventures of the State Government of Mizoram and the Census Organisation of Government of India. The design layout and various formats presented in the District Census Handbook have been provided by the Census Commissioner India. The compilation of various data, preparation of the analytical notes and gathering of all relevant information for incorporation in the DCHB have been attempted by this Directorate and the cost of publication is borne by the State Government. It may be mentioned here that the process of compilation of various data initially collected mainly from the Block Development Officer and respective Deputy Commissioners was finalised after cross checking with data obtained from concerned State and Central Government agencies so that as far as practicable, the discrepancies could be reconciled, we are grateful to all Block Development Officers, Deputy Commissioners, various Heads of Departments of the State and Central Government for their whole-hearted help and co-operation. I am grateful to the Secretary to the Government of Mizoram, General Administration Department (GAD), Additional Secretary, GAD, Under Secretary, GAD and all their helpers for sparing their valuable time during the preparation and publication of the District Census Handbook.

I convey my deep sense of gratitude to Shri J.K. Banthia, Registrar General and Census Commissioner, India for his valuable guidance and advice received from him right from the beginning. I am thankful to Shri R.G. Mitra, Dy. Registrar General (C & T) and Dr. I.C. Agrawal, Senior Research Officer, Social Studies Division of the Office of the Registra General and Census Commissioner, India, who have been a source of constant help and guidance to us on all technical matters including planning and designing the formats. Because of their continuous help to us this volume could be produced in all India pattern. My thanks are also due to Dr. R.P. Singh, Deputy Registrar General (Map) for providing technical guidance in the preparation of maps as well as for printing of a large number of maps under his direct supervision and active guidance at the Headquarters office.

At the Directorate level, the preparation of this volume has been a product of a joint effort and team work of all my colleagues led by Shri Sylvester Kispotta, Dy. Director, Shri R. Lalthlamuana, Assistant Director and Shri Lalhmingthanga, Statistical Investigator Gr. I. Because of their hardwork and dedication of duties this volume could be published in time. I also convey my deep feeling of appreciation to all the officials of this Directorate who have put their efforts in the publication of the District Census Handbook.

District Highlights 2001 Census

1. By population size Aizawl district stands as the most populated district of Mizoram.
2. The district with urban population of 76.2% is the most urbanised among all eight districts of the State.
3. Sex Ratio of the district is 952 against the average figure of 935 for the state and occupies at 3rd place among all eight districts of the State.
4. In terms of literacy Aizawl district with a literacy rate of 96.5 against the states average literacy rate of 88.8 ranks at number one among all districts of the State.
5. The capital city of Aizawl with population of 228,280 persons is the most populous city/town in Mizoram and is the only Class I town in the state. The percentage growth of population of Aizawl Town during 1991-2001 has been found to be 47% against the average decadal growth of 28.8% for the whole state during the same period.
6. Out of 22 Notified Towns in Mizoram, there are 4 such towns in the district and there was no change in this total number of towns since 1991.
7. Village Sihphir with a population of 5,457 is the most populous village and village Sairum with a population of 4 persons is the least populated village in the district.
8. Out of 110 un-inhabited villages in the state, there are only 7 such villages in the district.
9. The density of population of Aizawl district is 91 against the average density of 42 for the whole state and it ranks at number 1 among all the districts of Mizoram.

1. Definition of Census Town :

All places which satisfy or are expected to satisfy the following criteria are treated as Census Town:

(i) A minimum population of 5,000;

(ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and

(iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

2. Percentge figure in category of workers has been calculated from total workers.

Statement 3 contains total, rural and urban population of Aizawl district. Since the Aizawl district had been subdivided into five districts after 1991 Census, population details from the year 1901 could not be given and that the population of 1991 has also been calculated taking the present jurisdiction of the district into consideration while there was a population growth of more than 20% in the state during 1991-2001 and average growth rate in this district became 38.1% during the decade. The statement also presents growth rate of rural and urban during the same period. The growth rate of urban is much higher than the rural growth rate while rural growth rate is recorded as 19.1%, the growth rate of urban thus then recorded as 45.3%. This shows that many people were migrated from rural to urban for earning of livelihood where it is more easier than in rural areas. In rural areas largest population were depend upon the shifting cultivation, by this cultivation people of those in rural areas could not grow enough food for feeding the people. This might be reason why people were coming to urban areas from rural areas.

10	Saitual (NT)	Urban	9	1,218	0	0	1	0	2,623	10,966	5,768	5,198

A scrutiny of the data given above will reveal that out of the total population of 325,676 of Aizawl district consisting of 64,753 households in Aizawl Town itself there were 44,812 households with 228,280 population and the remaining households and corresponding population were spread over all other notified towns (urban areas) and villages (rural areas) of the district. For the same reason Tlangnuam R.D. Block (part) was having largest number of households among all R.D. Blocks of the district since Aizawl (NT) is situated in this R.D. Block. It may also be noticed that in Phullen R.D. Block area the smallest number of household and coresponding population were residing which consisted of only 12 inhabited villages with 2,050 households and 12,337 population.

STATEMENT - 5

R.D. BLOCK WISE NUMBER OF VILLAGES AND RURAL POPULATION, 2001

Serial Number	Name of R.D. Block	Number of villages		Rural population		
		Total	Inhabited	Persons	Males	Females
1	2	3	4	5	6	7
1	Darlawn	32	29	20,304	10,409	9,895
2	Phullen	12	12	12,337	6,368	5,969
3	Aibawk	25	22	15,987	8,171	7,816
4	Tlangnuam (Part)	12	11	9,475	4,949	4,526
5	Thingsulthliah (Part)	22	22	19,428	10,436	8,992
	District (Rural) Total :	**103**	**96**	**77,531**	**40,333**	**37,198**

In Aizawl district (Rural) there were 103 villages out of which 96 villages were inhabited by 77,531 persons and 7 uninhabited. It may also be noticed that Darlawn R.D. Block was having the largest population of 20,304 (Males-10,409 and Females-9,895) closely followed by Thingsulthliah (part) R.D. Block with 19,428 (Males-10,436 and Females-8,992) population. The population of next most populous R.D. Block was found in Aibawk with a population of 15,987 (Males-8,171 and Females-7,816) followed by Phullen with the population of 12,337 (Males-6,368 and Females-5,969) and Tlangnuam (part) R.D. Block with population of 9,475 (Males-4,949 and Females-4,526).

STATEMENT - 6

POPULATION OF URBAN AGGLOMERATIONS (INCLUDING CONSTITUENT UNITS)/TOWNS, 2001

Serial Number	Name of UA/Town	Urban status	Name of R.D. Block where town is located	Population		
				Persons	Males	Females
1	2	3	4	5	6	7
1	Aizawl (NT)	I	Tlangnuam (Part)	228,280	115,986	112,294
2	Darlawn (NT)	VI	Darlawn	3,865	1,961	1,904

		Urban	-	-	-	-	4	55	10	45
10	Saitual (NT)	Urban	-	-	-	-	4	55	10	45

In the statement-9 it is seen that there are 59 houseless households in Aizawl district out of which 3 were in rural areas and the remaining 56 were in urban areas. In respect of R.D. Blocks, there are no houseless household under Phullen and Aibawl R.D. Blocks. In most cases the houseless households are mostly concentrated in urban areas at the same time only 1 (one) household of each were found in Thingsulthliah (Part) and Darlawn R.D. Block of rural areas.

There are 299 Institutional households in the district consisting of 5,541 population (3,495 males and 2,046 females). Again out of these 299 Institutional households 255 households were found in Tlangnuam (part) RD Block (with population of 5,297) and only a small number of remaining households of 44 were spread over the other three RD Blocks of the district. Among the towns the largest number of Institutional households (237) is recorded in Aizawl city and the smallest i.e., 4 is found in Saitual town with a population of 4,579 and 55 respectively.

ANALYTICAL NOTE

Analytical Note

(i) History and scope of the District Census Handbook

After the completion of the Census of India 1951, the Government of India handed over a large number of Census Tables and other relevant information to the State Governments which were collected by the Census Organisation during the field operations of the Census of 1951 and compiled subsequently by the same organisation. It was further suggested to all concerned State Government authorities that these data along with any other relevant basic information pertaining to a particular district be published in a consolidated form. The respective State Governments accepted the above suggestion of the Government of India and the first addition of the District Census Handbook (DCHB) for each of the existing districts of those days was published through the respective State Governments. In Mizoram the District Census Handbook for all three districts of Aizawl, Lunglei and Chhimtuipui were published for the first time by the newly established Directorate of the Census Operations, Mizoram, after 1981 Census. As the DCHB was found to be of immense help to the public in general and to the planners, social workers, researchers, administrators and Government officials in particular throughout the country, DCHBs were also published after the Census of 1961, 1971, 1981 and 1991 after making certain modification and improvement on its contents so that certain basic economic data in respect of smallest administrative units i.e., the villages and towns in each district could be found in such handbooks. Since 1991, the DCHB has been made in two parts, namely Part A and Part B. Part A relates to the village and town directories of all the inhabited villages and towns of each district while Part B contains relevant information pertaining to the Primary Census Abstracts (PCA). In the DCHB 2001, besides restructuring the formats of the Directory, certain individual features have been adopted presuming that such presentation would be of better use of the planners in formulating socio-economic programmes.

As already mentioned else where the District Census Handbook continues to be a joint ventured of the Census Organisation and the concerned State Governments. The scope of the District Census Handbook has been widely increased and restructured in 1981 to meet the minimum requirement of the revised Minimum Needs Programme of the Planning Commission. In this volume the poulation in the age group 0-6 has been compiled by sex and has been incorporated to enable computation to realistic literacy rate by taking all children below 7 years as illiterates. This time for the benefit of data users of Village Directories and PCA, data from floppies or from published records, the computer codes as well as the manual codes of 2001 and corresponding location code of 1991 Census are given in detail.

As already mentioned earlier, the District Census Handbook is being published in two parts ï Part A and Part B but in one volume separately for each of the eight districts of Mizoram. In the process of collection of various data published in this volume, various State and Central Government Departments have extended their whole hearted help and cooperation particularly with regard to infrastructural amenities incorporated in Part A ï Village and Town Directories. The PCA data presented in Part B of this volume were collected during Census Operations in February ï March 2001, the reference date and time being 00:00 Hrs of 01 March 2001.

Scanning of Household Schedules have been done at Direct Data Entry Centre Guwahati. We are thankful to the Director Census Operations Assam and his officers and members of the staff for undertaking huge volume of works and enabling us to complete and include the present PCA in all the District Census Handbooks of Mizoram including that of Aizawl district.

number of subordinate officers, the Superintendent of Police and his establishment, Project Director DRDA and other Officers and various other district level Officers. Out of 22 Notified Towns of Mizoram 4 such towns are located in Aizawl District. There are 96 inhabited villages in the district. As in the case of all other Notified Towns in Mizoram, Municipal System is not functioning in any of these towns including the State Capital of Aizawl but locally elected Village Councils have been constituted in all these four towns and in all inhabited villages.

(iv) Physical features

Location and size :

Aizawl district is located between 23°21´ N and 24°24´ N Latitude and 92°39´ E and 93°03´ E Longitude. As briefly mentioned earlier the district is located in the central part of the northern half of the State. It is surrounded by the State of Manipur in the North, Champhai district in the East, Serchhip and Lunglei district in the South and by Mamit district in the West. In the North-Western part of the district, a substantial length of the boundary is shared by Kolasib district. The average altitude of the district is 1,132 mtrs above M.S.L. It has an area of 3,576 sq.km. and occupies second position in terms of area of a district in the state.

The North South extension of the district is 128.7 Km. and the East-West extension is 72.4 km.

Physiography :

The district falls within the Mizo Hills Zone of Eastern Hills Zones and is covered mostly by Aizawl Mountainous Region and partly by Chalfilh - Kawlkulh Tlang Region. The topography of the district is rugged having steep hill slopes. Most of the area in the district is having structural sharp edge hills running from north to south and a small portion of the western region is disected plateau. Having an average elevation of 1,132 mtrs from M.S.L. The highest peack in Aizawl district is Chalfilh with an altitude of 1,866 metres. The other important peacks are Hniangtlang, Tawitlang, Hmuifang peacks. It has the geology of Surma series and Baghmara formation (Garo Hills) of Miocene age and Tipam series, Chengapara formation (Garo Hills) of Pliocene era. The soil sub-order associations of this area are Ochrepts - Aquepts - Fluvents - Udalfs - Ochrepts and Udalfs - Ochrepts Orthents - Fluvents. The soil of this region is generally very clay as they are derived from shale and slate. The density of population is the highest in this area due to high productiveness of the soil and good transport and communication facilities. It has rich forest resources.

Drainage :

All the four major rivers as listed below are deep and turbulant and are fed only by Monsoon rains. For this reason they swell rapidly during the rains and recede afterwards. The general direction of flow of these rivers are from south to the north.

1. Tlawng : Length of flow within the district is 88 km.
2. Tuirial : The length of the river within the district is 128 km.
3. Tuivawl : The length of the flow of the river within Aizawl District is 62 km.
4. Tuirini : Having a length of 53 km. within the district.

Besides the above many other minor rivers and streams are flowing in the district and except a few streams flowing from South to West, West to East and vice versa most of these are flowing from North to South direction.

In respect of the formation of tank, lake etc. it can be added that Tamdil is the only lake located in the district.

Climate :

The temperature ranges between 10°c and 32°c hottest and coldest months being June and January respectively. Wind characteristic can be termed as mild and average annual rainfall is about 2,300 mm. The Tropic of Cancer (23°30´) runs through the district along with Mamit and Champhai districts and hence climate should have been hot and humid but due to moderately high alititude hilly terrain, heavy rainfall and continuous flow of mild wind, a pleasant climate prevails in this area throughout the year. Normally early monsoon rains strats pouring down in the month of April and rainy season continues upto the month of September although occasional rains are experienced in the months of March and October also. The climate is therefore suitable for production

not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room.

In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses.

If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servantôs household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household.

Census house :

A Census House is a building or a part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

Village :

The basic unit for rural area is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognised boundaries is treated as one village.

Town/Urban areas :

The following areas are treated as towns/urban area

(a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.

(b) All other places which satisfy or are expected to satisfy the following criteria simultaneously

(i) A minimum population of 5,000;

(ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits; and

(iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of the village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites :

(a) The core town or at least one of the constituents towns of an urban agglomeration should necessarily be a statutory town: and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted :

(i) a city or town with one or more contiguous outgrowths;

(ii) two or more adjoining towns with their outgrowths; and

(iii) a city and one or more adjoining towns with their outgrowths all of which form a contiguous spread.

9. Kaibartta, Jaliya
10. Lalbegi
11. Mahara
12. Mehtar, Bhangi
13. Muchi, Rishi
14. Namasudra
15. Patni
16. Sutradhar

Scheduled Tribes :

1. Chakma
2. Dimasa (Kachari)
3. Garo
4. Hajong
5. Hmar
6. Khasi and Jaintia (including Khasi Synteng or Pnar, War, Bhoi or Lyngngam)
7. Any Kuki Tribes, including :
   - (i) Biate, Biete
   - (ii) Changsan
   - (iii) Chongloi
   - (iv) Doungel
   - (v) Gamalhou
   - (vi) Gangte
   - (vii) Guite
   - (viii) Hanneng
   - (ix) Haokip, Haupit
   - (x) Haolai
   - (xi) Hengna
   - (xii) Hongsungh
   - (xiii) Hrangkhwal, Rangkhol
   - (xiv) Jongbe
   - (xv) Khawchung
   - (xvi) Khawathlang, Khothalong
   - (xvii) Khelma
   - (xviii) Kholhou
   - (xix) Kipgen
   - (xx) Kuki
   - (xxi) Lengthang
   - (xxii) Lhangum
   - (xxiii) Lhoujem
   - (xxiv) Lhouvun
   - (xxv) Lupheng
   - (xxvi) Mangjel
   - (xxvii) Misao
   - (xxviii) Riang
   - (xxix) Sairhem
   - (xxx) Selnam
   - (xxxi) Singson
   - (xxxii) Sitlhou
   - (xxxiii) Sukte
   - (xxxiv) Thado
   - (xxxv) Thangngeu
   - (xxxvi) Uibuh
   - (xxxvii) Viaphei
8. Lakher
9. Man (Tai speaking)
10. Any Mizo (Lushai) tribes
11. Mikir
12. Any Naga Tribes
13. Pawi
14. Synteng

Language and mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue is defined as the language spoken in childhood by the personôs mother of the person. If the mother died in infancy, the language mainly spoken in the personôs home in childhood will be the mother tongue. In case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have as script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is

would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musicians, Dancer, Washerman, Astrologer, Dhobi, Barber etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in household industry is termed as a óOther Workers (OW)ô. The type of workers that come under this category of óOWô include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artist, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are óOther Workersô.

Work participation rate :

Percentage of workers (main + marginal) to total population.

Population Density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of completed number of years.

Sex ratio :

Number of females per 1000 males in a population.

(vi) Non-census concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system means a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in those towns.

Type of latrine and method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz. (i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the street sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrine from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows.

$$\text{ASMR} = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR).

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$\text{IMR} = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR) :

Number of infant dying within the first month of life (28 days or under) in a tear per 1000 live births of the same year.

$$\text{NMR} = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early Neo-natal mortality rate :

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Late Neo-natal mortality rate :

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post Neo-natal mortality rate (PNMR) :

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri Natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$= \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate (SBR) :

$$= \frac{\text{Number of still birth during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of woman in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to womanin the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible couple (Couples per 1000 population) :

Number of currently married females in the age group 15-44 years per 1000 persons of all ages.

Child woman ratio (0-4) :

Number of children in the age group 0-4 years per 1000 woman in the age group 15-49 years.

Child woman ratio (5-9) :

Number of children in the age group 5-9 years per 1000 woman in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than his/her place of his/her birth.

Similarly a person is considered as migrant by place of last residence if the place in which he/she

M4 (500,000 to 999,999); M3 (300,000 to 499,999); M2 (200,000 to 299,999) and M1 (100,000 to 199,999) towns with 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000 ï 19,999 are Class IV towns, population with 5000 and 9999 are Class V and towns with less than 5000 population are Class VI towns.

Slum area :

The Slum Areas (improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) area by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or family arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are determined to safety, health or morals.

Mega city :

The concept of ôMega Cityô is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastucture Development in Mega Cities the Ministry of Urban Affairs and Employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega Cities.

(vii) 2001 Census findings - Population, its distribution

a) As per 2001 census the total population of Aizawl district is 325,676 out of which 166,877 are males and 158,799 females. In other words 36.7% of the population of Mizoram have been residing over 17% of the area of the state. The district comprises of five R.D. Blocks out of which Tlangnuam (part) having the highest number of population 242,789. The Phullen R.D. Block was having the lowest number of population (12,337). Out of the five R.D. Blocks two R.D. Blocks i.e., Phullen and Aibawk were not having any urban population and the whole population of these R.D. Blocks concentrated in rural areas only. The population of 77,531 were in rural and the remaining 248,145 were again concentrated in urban areas of the district.

(b) In the district there are only 4 (four) notified towns viz., Sairang, Aizawl, Darlawn and Saitual. Out of which only one town namely Aizawl is being classified as Class I category, Sairang and Saitual towns were classified as Class V and IV respectively and the last one Darlawn is classified as VI cetegory. In the district as a whole 248,145 persons resides in urban areas consisting of 126,544 males and 121,601 females. In otherwords out of the total district population 76.2% are concetrated in urban areas, it may be noted that this district is the most urbanized district in Mizoram. The growth of population during 1991-2001 in urban areas of Aizawl District has been found to be 45.3%. The density and sex ratio of population of urban areas of Aizawl district were 1,410 and 961 respectively. The percentge of literates of the urban areas of the district was as high as 97.2% out of which 97.2% were males and 97.2% females. The literacy rate among male and female is equal in the district. Among female literates there is 4.1% gap between rural and urban. Work Participation Rate for the urban areas was 45.5% to total worker in this district consisting of 53.4% males and 37.3% females. In general, the urban population consisted Christian religion followed by Muslims. Mizoram University is located in this district. Most of the Hospitals available in the state are located in this district.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Serial number	District/R.D. Block	Number and percentage of villages	Population 2000-4999		Number and percentage of villages	Population 5000-9999		Number and percentage of villages	Population 10000 and above	
			Males	Females		Males	Females		Males	Females
1	2	19	20	21	22	23	24	25	26	27
1	Darlawn	2 (6.9)	2,196	2,134	0 (0.0)	0	0	0 (0.0)	0	0
2	Phullen	1 (8.3)	1,119	1,064	0 (0.0)	0	0	0 (0.0)	0	0
3	Aibawk	1 (4.5)	1,043	1,052	0 (0.0)	0	0	0 (0.0)	0	0
4	Tlangnuam (Part)	0 (0.0)	0	0	1 (9.1)	2,791	2,666	0 (0.0)	0	0
5	Thingsulthliah (Part)	4 (18.2)	6,406	5,279	0 (0.0)	0	0	0 (0.0)	0	0
	District (Rural) Total :	**8 (8.3)**	**10,764**	**9,529**	**1 (1.0)**	**2,791**	**2,666**	**0 (0.0)**	**0**	**0**

It may be noted that altogether there were 96 inhabited villages in Aizawl district in 2001 and that out of these villages there were (i) 18 villages where population was less than 200, (ii) 23 villages where population was in the range of 200-499, (iii) 34 villages where population was in the range of 500-999, (iv) 12 villages in the range of 1000-1999 persons, (v) 8 villages in the range of 2000-4999 and only one village in the population range of 5000-9999. There was no village having population of 10,000 and above.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWN IN 2001 CENSUS

During 1991 to 2001 no new towns were established in the district and no cases of declassification and merging of towns also took place. Thus infor-mation regarding above items can be treated as nil.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	96	100.0	77,531	100.0
11-20	0	0.0	0	0.0
21-50	0	0.0	0	0.0
51-100	0	0.0	0	0.0
101-200	0	0.0	0	0.0
201-300	0	0.0	0	0.0
301-500	0	0.0	0	0.0
501 +	0	0.0	0	0.0
Not known	0	0.0	0	0.0
District Total :	**96**	**100.0**	**77,531**	**100.0**
Population Density (Rural) of the district :		**23**		

It may be interesting to note that the density of population of all 96 villages of the district was in the lowest range of 0-10 consisting of total rural population of 77,531.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A./Town	Urban status of town	Sex ratio
1	2	3	4
1	Aizawl (NT)	I	968
2	Darlawn (NT)	VI	971
3	Sairang (NT)	V	779
4	Saitual (NT)	IV	901
	Sex ratio (Urban) for the district :		**961**

Note : NT = Notified Town

The sex ratio of Aizawl district as well as that of all 4 Notified Towns of the district has been compiled in the above table. It can be seen that against the sex ratio of 961 of the district as a whole. Darlawn (NT) is having the highest figure of 971 among all 4 Towns which is closely followed by Aizawl (NT) with the ratio of 968 but the sex ratio of Saitual (NT) and Sairang (NT) are far below the district average where the same has been found to be 901 and so low as 779 in these two towns respectively.

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR R.D. BLOCK, 2001

Serial number	Name of R. D. Block	Total/ Rural/ Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Darlawn	Total	3,950	2,055	1,895	922
		Rural	3,465	1,789	1,676	937
		Urban	485	266	219	823
2	Phullen	Total	2,125	1,059	1,066	1,007
		Rural	2,125	1,059	1,066	1,007
		Urban	0	0	0	0
3	Aibawk	Total	2,498	1,268	1,230	970
		Rural	2,498	1,268	1,230	970
		Urban	0	0	0	0
4	Tlangnuam (Part)	Total	33,342	16,872	16,470	976
		Rural	1,482	777	705	907
		Urban	31,860	16,095	15,765	979
5	Thingsulthliah (Part)	Total	4,308	2,174	2,134	982
		Rural	2,773	1,398	1,375	984
		Urban	1,535	776	759	978
	District Total :	**Total**	**46,223**	**23,428**	**22,795**	**973**
		Rural	**12,343**	**6,291**	**6,052**	**962**
		Urban	**33,880**	**17,137**	**16,743**	**977**

Sex ratio of population in the age group 0-6 for the R.D. Blocks of the district as well as the average of the whole district have been included in the above table. A scrutiny of the data given above will reveal that while the sex ratio of the district as a whole among the above mentioned population was 973 (Rural-962, Urban-977) the highest ratio of 1,007 (only rural area) was found in Phullen R.D. Block, the 2nd, 3rd and 4th position being occupied by Thingsulthliah (part) R.D. Block (982), Aibawk R.D. Block (970) and Darlawn R.D. Block (922) respectively. It may also be seen that among the urban areas of each of these R.D. Blocks Tlangnuam (part) with a figure of 979 was at the top which was followed by Thingsulthliah (part) (978) and Darlawn (823). (There was no urban area in Phullen and Aibawk R.D. Block areas for which no data has been included). Regarding rural areas it may be noted that Phullen R.D.with sex ratio of 1007 was at the top position which was folowed by Thingsul-thliah (part) area (984), Aibawk (970), Darlawn (937) and Tlangnuam (part) area (907) which happen to be the lowest among all R.D.Blocks (rural areas).

It can be seen from the above table that the average sex ratio of the total population in the age group of 0-6 in urban areas of the district was 977 and that Sairang (NT) was having the highest ratio of 1103, followed by Saitual (NT), Aizawl (NT) and Darlawn (NT) having the sex ratio of 978, 977 and 823 respectively.

TABLE 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN R.D. BLOCK, 2001

Serial number	Name of R.D. Block	Total/ Rural/ Urban	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7	8
1	Darlawn	Total	24,169	2	23,918	0.0	99.0
		Rural	20,304	2	20,084	0.0	98.9
		Urban	3,865	0	3,834	0.0	99.2
2	Phullen	Total	12,337	0	12,281	0.0	99.5
		Rural	12,337	0	12,281	0.0	99.5
		Urban	0	0	0	0.0	0.0
3	Aibawk	Total	15,987	1	15,867	0.0	99.2
		Rural	15,987	1	15,867	0.0	99.2
		Urban	0	0	0	0.0	0.0
4	Tlangnuam (Part)	Total	242,789	138	223,841	0.1	92.2
		Rural	9,475	0	9,169	0.0	96.8
		Urban	233,314	138	214,672	0.1	92.0
5	Thingsulthliah (Part)	Total	30,394	41	27,734	0.1	91.2
		Rural	19,428	25	17,623	0.1	90.7
		Urban	10,966	16	10,111	0.1	92.2
	District Total:	**Total**	**325,676**	**182**	**303,641**	**0.1**	**93.2**
		Rural	**77,531**	**28**	**75,024**	**0.0**	**96.8**
		Urban	**248,145**	**154**	**228,617**	**0.1**	**92.1**

The number and percentage of the Scheduled Caste (SC) and Scheduled Tribe (ST) population in R.D. Blocks as well as the district totals have been compiled in the above table. A scrutiny of the data given above will reveal that in the district as a whole there were only 182 persons belonging to SC and as many as 303,641 belonged to ST. The corresponding percentage to the total population of the district being 0.1 (Rural-0, Urban-0.1) and 93.2 (Rural-96.8, Urban-92.1) respectively. It may also be seen that among the respective R.D. Block areas of the district the highest number of 138 SC population was found in the urban areas of Tlangnuam (part) R.D. Block (Rural-0) and the lowest population in this category was in Phullen (nil). Although all the R.D. Block areas were predominantly populated by ST it may be worthwhile to note that the vast majority of such population was found in Tlangnuam (part) (223,841) and the smallest number of such population (12,281) were residing in Phullen R.D. Block. It may also be seen that the percentage Scheduled Tribe population to the total population of any R.D. Block was highest in Phullen (99.5) and the lowest was in Thingsulthliah (part) (91.2).

21-30, 31-40, 41-50 there were only two villages where ST population was in the range of 51-75 and as many as 94 other remaining villages have the ST population in the range of 76 and above.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Aizawl (NT)	228,280	138	209,911	0.1	92.0
2	Darlawn (NT)	3,865	0	3,834	0.0	99.2
3	Sairang (NT)	5,034	0	4,761	0.0	94.6
4	Saitual (NT)	10,966	16	10,111	0.1	92.2
	District (Urban) Total :	**248,145**	**154**	**228,617**	**0.1**	**92.1**

Note : NT = Notified Town

The number and percentage of Scheduled Castes and Scheduled Tribes population in the district (total) as well as in the Notified Towns (urban areas) of the disrtict have been incorporated in the above table.

A scrutiny of the data given above indicates that there were 154 persons belonging to SC in the district (0.1%) and 228,617 persons belonging to ST were residing in the same area (92.1%) and that in Darlawn there were no SC population but the highest percentage of 99.2% ST population were residing in the town - the lowest figure of ST being 92% in Aizawl Town (NT).

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN R. D. BLOCKS, 2001

Serial number	Name of R.D. Block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Darlawn	0	962
2	Phullen	0	940
3	Aibawk	0	964
4	Tlangnuam (Part)	0	948
5	Thingsulthliah (Part)	0	987
	District (Rural) Total :	**0**	**963**

A scrutiny of the figures given above indicates that there were no SC population in the rural areas of the district and hence the sex ratio of SC population was nil and that the sex ratio of ST population was 963. Among the R.D. Block areas Thingsulthliah (part) having a sex ratio of 987 which was closely followed by Aibawk (964), Darlawn (962), Tlangnuam (part) (948) and lasly Phullen (940).

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A./Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Aizawl (NT)	394	1,032
2	Darlawn (NT)	0	979
3	Sairang (NT)	0	800
4	Saitual (NT)	0	1,020
	Sex ratio (Urban) for the district :	**339**	**1,025**

Note : NT = Notified Town

It may be of interest to note that the sex ratio of SC population of the district was 339 and that of ST population was 1,025 in the urban areas of the district and that in respect of ST population. Among the notified towns of the district Aizawl was at the top with sex ratio of 1,032, closely followed by Saitual (1,020). The sex ratio of the remaining Notified Tonws of Darlawn and Sairang were 979 and 800 respectively.

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN RD BLOCKS, 2001

Serial number	Name of R.D.Block	Number of literates and illiterates									Gap in male-female literacy rate
		Number of literates			Number of illiterates			Percentage of literates			
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
4	Tlangnuam (Part)	7,681	4,061	3,620	1,794	888	906	96.1	97.3	94.7	2.6
5	Thingsulthliah (Part)	15,651	8,514	7,137	3,777	1,922	1,855	94.0	94.2	93.7	0.5
	District (Rural) Total :	**61,410**	**32,407**	**29,003**	**16,121**	**7,926**	**8,195**	**94.2**	**95.2**	**93.1**	**2.1**

It may be seen that in the rural areas of the district (total) the literacy rate was 94.2 (Males-95.2, Females-93.1) and the gap between male-female literacy was 2.1.

In respect of the R.D. Block areas it may be noted that average literacy rate Aibawk was the higiest among all 5 R.D.Block areas (96.8) and the lowest rate was found in Darlawn R.D. Block (91.7). Regarding the gap in male-female literacy rate in these areas it can be seen that the same varied from 0.5% in Thingsulthliah (part) to 3.2% in Darlwn.

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	0	0.0	0	0.0
1-10	0	0.0	0	0.0
11-20	0	0.0	0	0.0
21-30	0	0.0	0	0.0
31-40	0	0.0	0	0.0
41-50	0	0.0	0	0.0
51-60	0	0.0	0	0.0
61-70	0	0.0	0	0.0

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
71-80	1	1.0	417	0.5
81-90	11	11.5	10,257	13.2
91-99	78	81.3	66,384	85.6
100	6	6.3	473	0.6
District Total : 96		**100.0**	**77,531**	**100.0**
Literacy rate for District :			**96.5**	

Distribution by villages by range of literacy rate has been compiled in the above table.

A scrutiny of the data given above will reveal a very interesting fact that out of 96 inhabited villages in the district there were not a single village where literacy rate was either nil or were in the succeeding seven ranges ending with 61-70. It may also be seen that there was only one village in the range of 71-80, 11 in the range 81-90 and as many as 78 villages where the range of literacy was 91-99 and that there were 6 villages where literacy was 100%. In fact the total literacy rate of the district was also very high (96.5%).

TABLE 24 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name and urban status of UA/Town	Number of literates and illiterates									Gap in male-female literacy rate
		Number of literates			Number of illiterates			Percentage of literates			
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Aizawl (NT)	191,997	97,584	94,413	36,283	18,402	17,881	97.4	97.3	97.4	-0.1
2	Darlawn (NT)	3,187	1,630	1,557	678	331	347	94.3	96.2	92.4	3.8
3	Sairang (NT)	4,092	2,397	1,695	942	432	510	96.5	97.8	94.8	3.0
4	Saitual (NT)	9,013	4,765	4,248	1,953	1,003	950	95.6	95.5	95.7	-0.2
	District (Urban) Total :	**208,289**	**106,376**	**101,913**	**39,856**	**20,168**	**19,688**	**97.2**	**97.2**	**97.2**	**0.0**

Note : NT = Notified Town

TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Aizawl (NT)	103	75	28	35	24	11	84.4	82.4	90.3	-7.9
2	Saitual (NT)	16	16	0	0	0	0	100.0	100.0	0.0	100.0
	Aizawl (Urban) :	**119**	**91**	**28**	**35**	**24**	**11**	**86.2**	**85.0**	**90.3**	**-5.3**

Note : 1. NT = Notified Town

It may be seen that the whole population of 119 of Scheduled Castes were concentrated only in Aizawl (103) and Saitual (16) towns and that there were 91 male and 28 female population. Other data given above are self explanatory and hence it may not be necessary to give further explanation.

TABLE 28 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN R.D. BLOCKS, 2001

Serial number	Name of R. D. Block	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Darlawn	15,259	7,883	7,376	4,825	2,353	2,472	91.7	93.2	90.1	3.0
2	Phullen	9,532	5,025	4,507	2,749	1,305	1,444	93.8	95.2	92.2	3.1
3	Aibawk	12,953	6,655	6,298	2,914	1,425	1,489	96.8	97.6	96.0	1.7
4	Tlangnuam (Part)	7,420	3,842	3,578	1,749	865	884	96.2	97.4	94.9	2.5
5	Thingsulthliah (Part)	14,191	7,214	6,977	3,432	1,657	1,775	94.9	95.8	93.9	1.9
	District (Rural) Total :	**59,355**	**30,619**	**28,736**	**15,669**	**7,605**	**8,064**	**94.4**	**95.6**	**93.2**	**2.4**

The number and percentage of Scheduled Tribes (ST) literates and illiterates by sex in R.D. Blocks have been given in detail in the above table.

A scrutiny of the data given above will reveal that 94.4 percent of the ST population of the district were literates (Males-95.6, Females-93.2) and that the highest percentage of literates were in Aibawk R.D. Block (Total-96.8, Males-97.6, Females-96.0) which was followed by Tlangnuam (part) (Total-96.2, Males-97.4, Females-94.9), Thingsulthliah (part) (Total-94.9, Males-95.8, Females-93.9), Phullen (Total-93.8, Males-95.2, Females-92.2) and lastly by Darlawn (Total-91.7, Males-93.2, Females-90.1). It may also be noted that the female literacy rates in all these 4 R.D. Block areas were marginally lower than that of the males.

TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population
1	2	3	4	5
0	0	0.0	0	0.0
1-10	0	0.0	0	0.0
11-20	0	0.0	0	0.0
21-30	0	0.0	0	0.0
31-40	0	0.0	0	0.0
41-50	0	0.0	0	0.0
51-60	0	0.0	0	0.0
61-70	0	0.0	0	0.0

TABLE 31 : NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS AND NON-WORKERS BY SEX IN R. D. BLOCK, 2001

Serial number	Name of R.D. Block	Persons/ Males/ Females	Total population	Main workers		Marginal workers		Total workers (Main and marginal workers)		Non workers	
				Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage
1	2	3	4	5	6	7	8	9	10	11	12
3	Aibawk	Persons	15,987	7,945	49.7	3,119	19.5	11,064	69.2	4,923	30.8
		Males	8,171	4,564	55.9	1,177	14.4	5,741	70.3	2,430	29.7
		Females	7,816	3,381	43.3	1,942	24.8	5,323	68.1	2,493	31.9
4	Tlangnuam (Part)	Persons	242,789	83,920	34.6	25,674	10.6	109,594	45.1	133,195	54.9
		Males	123,764	55,139	44.6	10,477	8.5	65,616	53.0	58,148	47.0
		Females	119,025	28,781	24.2	15,197	12.8	43,978	36.9	75,047	63.1
5	Thingsulthliah (Part)	Persons	30,394	15,180	49.9	4,295	14.1	19,475	64.1	10,919	35.9
		Males	16,204	9,559	59.0	1,527	9.4	11,086	68.4	5,118	31.6
		Females	14,190	5,621	39.6	2,768	19.5	8,389	59.1	5,801	40.9
	District Total :	**Persons**	**325,676**	**125,328**	**38.5**	**37,633**	**11.6**	**162,961**	**50.0**	**162,715**	**50.0**
		Males	**166,877**	**79,579**	**47.7**	**14,902**	**8.9**	**94,481**	**56.6**	**72,396**	**43.4**
		Females	**158,799**	**45,749**	**28.8**	**22,731**	**14.3**	**68,480**	**43.1**	**90,319**	**56.9**

Number and percentage of main workers, marginal workers and non-workers by sex in the R.D. Block of the district have been compiled in the above table.

A study of the data given above will reveal that in the district as a whole there were 38.5% main workers (Males-47.7, Females-28.8), 11.6% marginal workers in the district, total percentage of workers in the district (main + marginal) was 50 leaving the other 50% as non-workers (Males-43.4, Females-56.9). In respect of the data regarding the R.D. Blocks it can be seen that the highest percentage of workers were found in Aibawk (Total-69.2, Males-70.3, Females-68.1) and the lowest was in Tlangnuam (part) (Total-45.1, Males-53.0, Females-36.9).

TABLE 32 : NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS AND NON-WORKERS BY SEX IN R. D. BLOCKS, 2001

Serial number	Name of R.D. Block	Persons/ Males/ Females	Total Population	Main workers		Marginal workers		Total workers (Main and marginal workers)		Non workers

				(43.1)	**(36.4)**	**(5.1)**	**(2.3)**	**(56.2)**

Note : Percent of Worker to total worker are given in brackets

A scrutiny of the data given above shows that 50% of the population of the district were engaged in various works (Males-56.6, Females-43.1) out of which 31% (Males-27.0, Females-36.4) were engaged in cultivation, 4.1% (Males-3.5, Females-5.1) were engaged as agricultural labourers, 1.9% (Males-1.5, Females-2.3) were engaged in household industries but as much as 63.0% (Males-68.0, Females-56.2) were engaged in other works. It may also be noted that among 5 R.D. Blocks of the district Aibawk with 69.2% (Males-70.3, Females-68.1) workers was having the highest percentage of workers which was followed Thingsulthliah (part) (Total-64.1, Males-68.4, Females-59.1), Darlawn (Total-63.5, Males-64.6, Females-62.3), Phullen (Total-60.7, Males-63.5, Females-57.6) and Tlangnuam (part) (Total-45.1, Males-53.0, Females-36.9). It may be of interest to note that in all 5 R.D. Block areas the percentage of female workers were less than that of male workers and except Tlangnuam (part) R.D. Block where as much as 85.5% (Males-88.1, Females-81.6) of the total workers were engaged in other works and only 7.6% (Males-6.4, Females-9.5) were enagged in cultivation whereas the percentage of cultivators in Phullen was as high as 90.5% (Males-87.0, Females-94.7) which was slightly less in Aibawk (Total-89.7, Males-86.1, Females-93.6), Darlawn (Total-80.0, Males-77.9, Females-82.3) and Thingsulthliah (part) (Total-67.4, Males-59.8, Females-77.4).

TABLE 36 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS/TOWNS, 2001

				(53.4)	**(7.4)**	**(3.6)**	**(1.8)**	**(87.2)**
		Females	**121,601**	**45,372**	**5,036**	**2,720**	**1,334**	**36,282**
				(37.3)	**(11.1)**	**(6.0)**	**(2.9)**	**(80.0)**

Note : NT = Notified Town

A study of the data regarding distribution of workers by sex in four categories of economic activities in urban areas of Aizawl district consisting of aforementioned 4 Notified Towns will reveal that in the district 45.5% (Males-53.4, Females-37.3) of the population were workers out of which only 8.9% (Males-7.4, Females-11.1) were Cultivators, 4.6% (Males-3.6, Females-6.0) were Agricultural labourers, 2.2% (Males-1.8, Females-2.9) were Household Industries Workers and as high as 84.3% (Males-87.2, Females-80.0) were Other workers. Among the four notified towns the highest percentage of 65.0 (Males-71.9, Females-56.1) were workers in Sairang town followed by Saitual (Total-62.1, Males-67.3, Females-56.3), Darlawn (Total-55.2, Males-57.1, Females-53.2) and the lowest was in Aizawl (Total-44.2, Males-52.2, Females-35.8) the capital of the state. It may be noted that in all these towns the percentage of female workers were lower than that of male workers. Regarding category-wise distribution of workers it can be seen that Saitual was having the highest percentage (61.4) of cultivators, the lowest (3.8%) being in Aizawl. However in respect of other workers Aizawl was having the highest percentage of 90.3 (Males-92.2, Females-87.4) and the lowest was in Saitual town (Total-29.4, Males-39.8, Females-15.6). It may be interest to note that 24.6% of the workers in Sairang were engaged as Agricultural labourers, the lowest being at Aizawl town (3.6%). It can also be seen that although the percentage of female Cultivators and female Agricultural labourers were higher than male Cultivators and male Agricultural labourers in all four towns of the district, in the category of Other workers less percentage was noticed in respect of females in all these towns and hence in the district as a whole.

TABLE 38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Serial number	Name of R.D. Block	Total population of inhabited villages	Type of amenity available									
			Education	Medical	Improved drinking water*	Post Office#	Tele phone	Transport communications $	Banks	Agricultural Credit Societies	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10	11	12	13
5	Thingsulthliah (Part)	19,428 (100)	19,090 (98.3)	15,082 (77.6)	17,897 (92.1)	16,109 (82.9)	12,332 (63.5)	14,416 (74.2)	5,978 (30.8)	0 (0.0)	14,416 (74.2)	19,428 (100.0)
	District Total:	**77,531 (100)**	**76,989 (99.3)**	**59,063 (76.2)**	**48,804 (62.9)**	**65,676 (84.7)**	**22,697 (29.3)**	**56,104 (72.4)**	**22,613 (29.2)**	**0 (0.0)**	**47,372 (61.1)**	**73,912 (95.3)**

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Number and percentage of rural population served by various amenities have been compiled in above table. It can be seen that out of total rural population of 77,531 of the district, 99.3% of this population were covered by educational amenity, 76.2% by medical, 62.9% by improved drinking water, 84.7% by post offices, 29.3% by telephones, 72.4% by transport-communication, 29.2% by banks, 61.1% by pucca approach roads and 95.3% by power supply but nowhere in this villages Agricultural Credit Societies were available. Among the R.D. Block areas, it can be seen that while education, medical, post office and power supply were available in most of the villages of each of these 5 R.D. Block areas, availability of improved drinking water facility was poor in respect of Aibawk and Tlangnuam (part), telephone was not available at all in Darlawn and Phullen R.D. Block villages, pucca approach roads were not available in any of the villages of Phullen R.D. Block area and banking facilities were not available in most of the villages in all R.D. Block areas.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2-4)

Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.
* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Distributing of villages according to the population range and menities available have been indicated above. Although the data compiled above are simple and self explanatory, it may be briefly mention that largest number of villages (41 out of 96 inhabited villages) in the population range of 1-449 followed by 34 villages in the population range of 500-999, 12 in the range of 1000-1999, 8 in the range of 2000-4999 and only one in the range of 5000-9999 and that there was no village where population was more than 10000.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of R. D. Block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area

Data source : Census of India 2001, H- series: ñTables on Houses, Household amenities and Assets.ò

As indicated above in the table there are altogether 60,092 households in Aizawl district as per the result of houselisting operation conducted during May 2000. Out of the total households, 11,165 households were having two rooms and were living in their own houses and 4,354 household were having only one living rooms owned by them. Among the total of 1,530 SC households more than 50 percent household were having 2 living rooms, while 10,994 household of ST out of total of 56,138 were having only two living rooms at their respective houses.

In respect of households living in rented house, it can be seen that out of total number of the household i.e., 27,045 households in this category, 7,992 households were having only one room and 12,399 with two rooms. The same trend has also been found in case of SC households. In case of ST household, 11,318 households were having 2 dwelling rooms and only a large number of household i.e., 6,675 were having one dwelling room.

Among the other category i.e., the households not covered by the above mentioned two categories, it can be seen that more households concentrated in urban areas in comparison with rural areas in respect of all dwelling households. The same trend has been found in case of SC and ST households.

TABLE 50 : PERCENTAGE OF HOUSEHOLDS HAVING IMPROVED DRINKING WATER SOURCE, ELECTRICITY, BATHROOM, TOILET AND DRAINAGE FACILITY, 2001

				47.0	**90.2**	**16.5**	**97.3**	**66.8**

Data source : Census of India 2001, H- series: ñTables on Houses, Household amenities and Assets.ò

It can be seen in Table-50 that only 28,225 (47.0%) households were having improved drinking water facility out of total households of 60,092 in the district. In case of drainage facility 40,126 (66.8%) households were having this facility. Besides the above facility a total of 9,936 households (16.5%) were having attached bathroom in their houses whereas majority of the households in the district i.e., 58,489 households were having toilet facilities which is 97.3% of the total households of the district.

In respect of R.D. Blocks, the highest percentage of improved drinking water facility were found in Tlangnuam (part) R.D. Block. In other words out of 45,238 households in this R.D. Block, 24,810 households were having improved drinking water facility and the lowest is again found in Phullen R.D. Block (7.7%). In case of Electricity among the R.D. Block the highest number of households recorded at Tlangnuam (part) R.D. Block 43,810 (96.8%) followed by Thingsulthliah (part) R.D. Block 4,764 (88.6%) households. The lowest percentage recorded at Phullen R.D. Block (46.9%) households. Number of households having bathroom, toilet and drainage facilities in the district and R.D. Blocks are shown in the table.

TABLE 52 : NUMBER OF HOUSEHOLDS AVAILING BANKING SERVICES AND NUMBER OF HOUSEHOLDS HAVING EACH OF THE SPECIFIED ASSET, 2001

Data source : Census of India 2001, H- series: ñTables on Houses, Household amenities and Assets.ò

It can be seen from the above table that 27,735 households were availing banking services which is 46.2% of the total households. In case of availability of other amenities Radio was available in the largest number of households (32,241) followed by a narrowly small number of T.V. sets (20,920). Again 14,720 households was availed Telephone and Scooter, Motor Cycle, Moped are having 5,890 households.

In respect of R.D. Blocks out of 45,238 households, 26,853 households of Tlangnuam (part) R.D. Block were availing Radio and out of 5,380 households, 2,698 households were having radio in Thingsulthliah (part) R.D. Block. Good number of households were availing banking services in all the five R.D. Blocks. Only one household was availing Telephone facility under Phullen R.D. Block.

(viii) Major social and cultural events :

During the decade 1991 to 2001 there was hardly any specific social or cultural event worth mentionig. However as the capital of the state is located in this district at Aizawl and hence the seat of all highest level of administrators elected leaders, sociologists and religious headquarters, following events are celebrated with pomp and grandeur every year :

(a) Christmas and New Year festivals which fall on 25th December and 1st of January every year are the main festivals. These two festivals are celebrated in the form of religious activity like offering prayers at the Church and feasts for a certain time.

(b) Mimkut is celebrated during August and September after the end of the harvest of maize. Mimkut is celebrated with a spirit of thanks giving and singing and dancing. The first harvest of the year are offered at the memorial platform of the departed relatives called ñLungdawhò according to the old days traditional religion of the Mizos.

(c) Chapcharkut is celebrated after the completion of the arduous task of Jhum preparatory jungle cutting. It is celebrated with much gaiety and fanfare during March which is taken as the period of the advent of spring.

Power Supply and Newspaper/Magazine etc.. The name of villages of each Rural Development Block of the District has been arranged alphabetically and location codes number of the Census of India 2001 and corresponding code number of 1991 Census have been given for each village for easy reference.

Generally a óvillageô is taken as a statutorily recognised unit of an area having definite and recognised boundary and separate land records. Thus in Census the basic unit of rural areas is taken as a revenue village which has definite surveyed boundaries. A revenue village may comprise of several hamlets but the entire village is treated as one nit for presentation of data. In Mizoram, however, the concept of village is different from what have been mentioned above since there is no surveyed village in the State. Therefore an inhabited area with locally recognised boundaries and having a name of its own is treated as a village. The un-inhabited villages i.e., the villages where no population was found during Census Operations have also be included in the list of villages and R.D. Block wise in the Village Directory.

Although there is no Panchayat Institution in the District, the villages have Village Councils which are democratically elected local bodies. In addition to the information as to the availability or otherwise of the basic amenities as mentioned in the preceding paragraphs, following nine appendices have also been included :

1. Appendix I — Abstract of Educational, Medical and other amenities in villages - R.D. Block level.
2. Appendix II — Villages with 5,000 and above population which do not have one or more amenities.
3. Appendix III — Land Utilization Data in respect of Census Towns/Non-Municipal Towns.
4. Appendix IV — R.D. Block-wise list of inhabited villages where no amenities other than drinking water facility is available.
5. Appendix V — Summary showing number of villages not having Scheduled Castes population.
6. Appendix VI — Summary showing number of villages not having Scheduled Tribes population.
7. Appendix VII — List of villages according to the proportion of the Scheduled Caste and the Scheduled Tribes to the total population by ranges.
8. Appendix VIII — Number of villages under each Gram Panchayat (R.D. Block wise)
9. Appendix IX — State showing number of girls schools in the villages.

Since a large number of abbreviations had to be used due to space problems, a detail and explanatory notes on each of these abbreviations has also been incorporated for easy clarification of the subject concerned.

PART-A
VILLAGE AND TOWN DIRECTORY

Section-I : Village Directory

Note explaining the abbreviations used in the village directory :

The ñVillage Directoryò is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply, availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The óun-inhabitedô villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the RD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column - wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS-

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown

against these columns. The area figures are given in hectare(s) up to one decimal. Desh ó-ó is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages RD Block wise of the district.

Appendix-I-A Indicates number of villages RD Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages RD Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages RD Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV RD Block wise list of inhabited villages where no amenity other than drinking water facility is available.

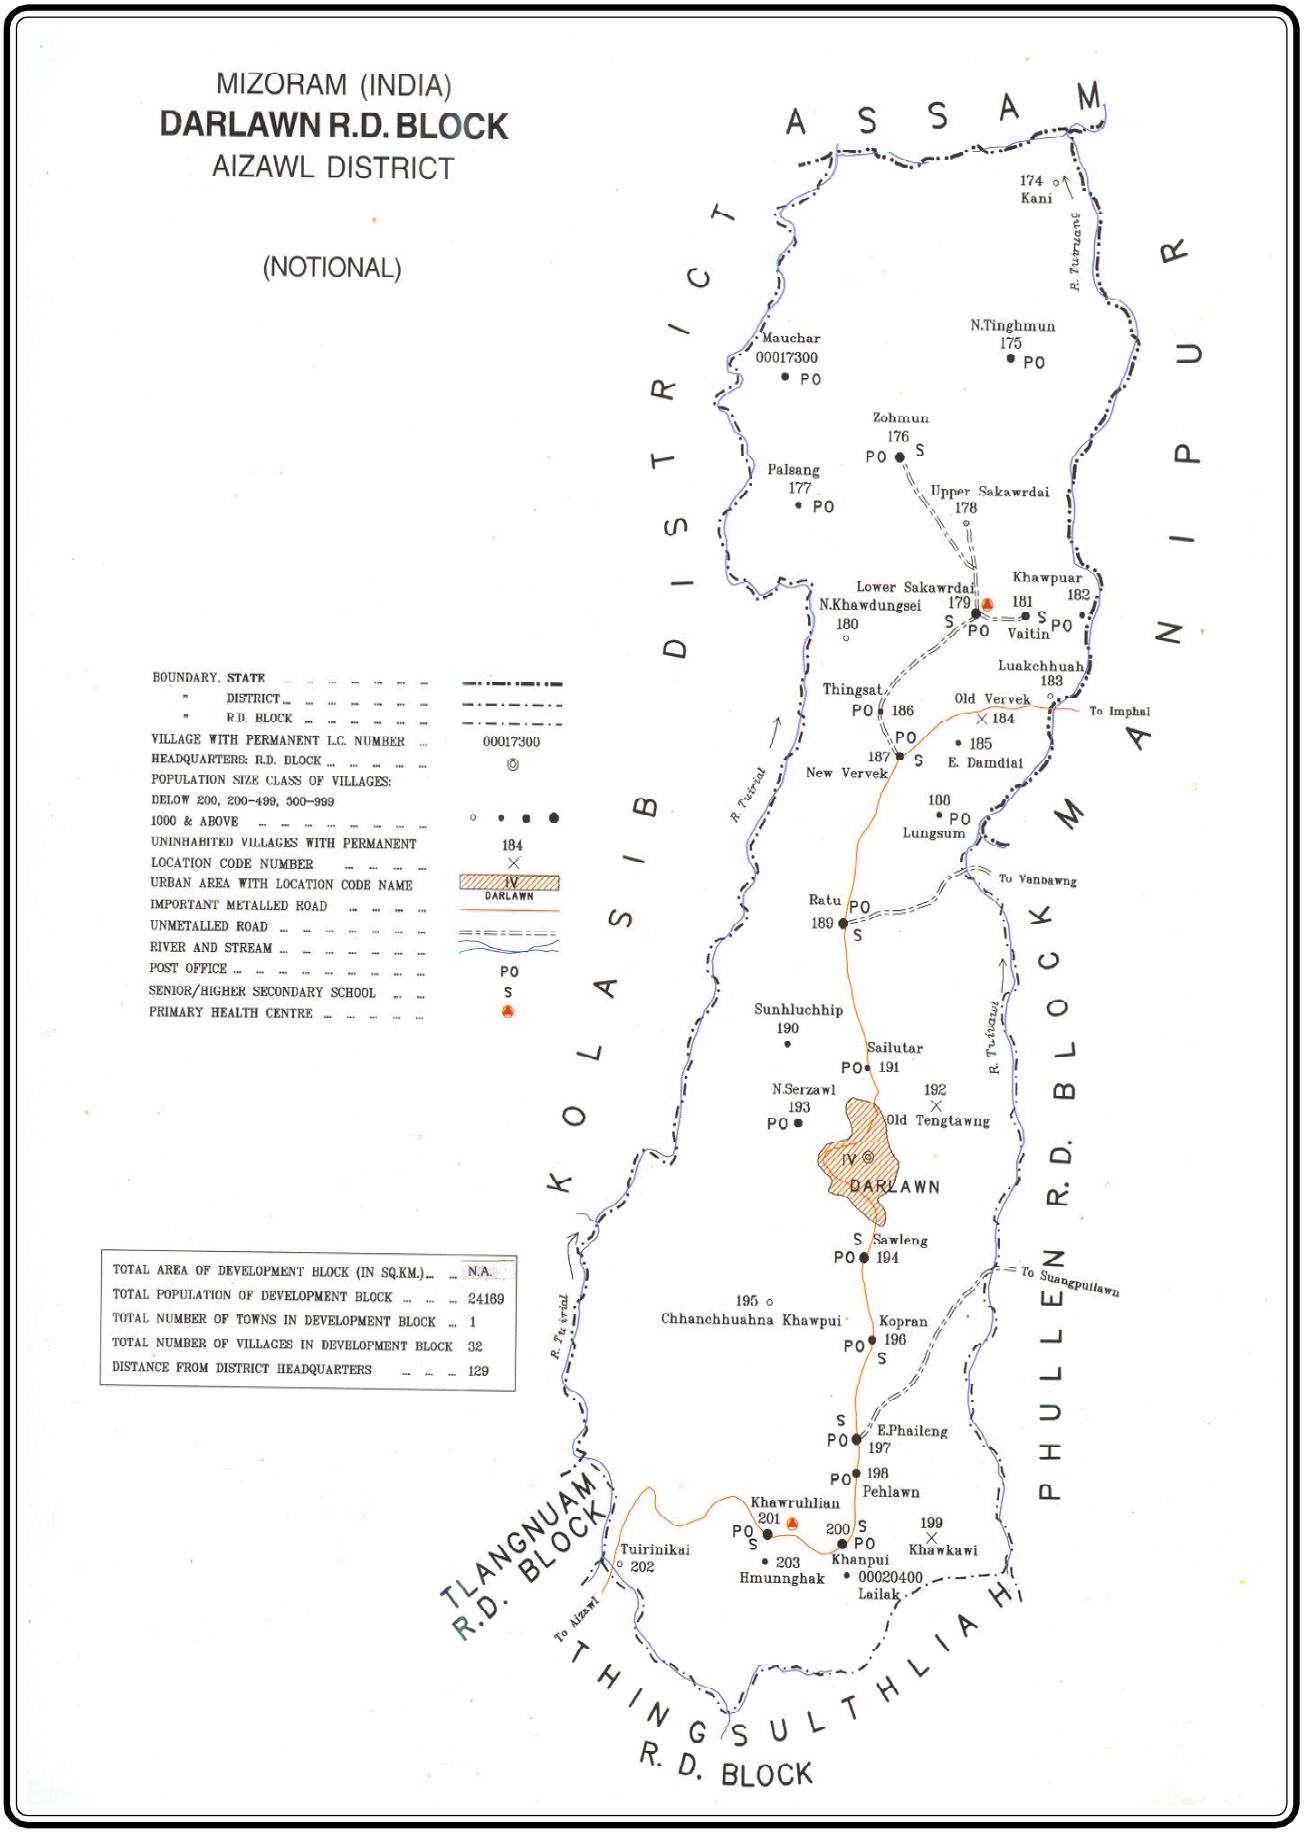

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII The appendix shows the list of villages according to proportion of the A, VII B Scheduled castes and Scheduled Tribes to the total population by ranges.

Appendix-VIII Indicates RD Block wise number of villages under each Gram Panchayat.

Appendix-IX Shows number of different types of girls school in a village.

	00027000	Lenchim
	00027300	Phulmawi
	00027400	Tawizo
	00027500	Maite

Note : Villages having NIL Scheduled Tribes Population have been excluded

APPENDIX VIII - VILLAGE DIRECTORY
NUMBER OF VILLAGES UNDER EACH GRAM PANCHAYAT (R.D. BLOCK WISE)

In Mizoram as per relevant Acts and Rules Village Councils have been functioning in the whole district for which introduction of Panchayati Raj has not yet been done any where in the District/State. Hence the above mentioned appendix could not be compiled.

APPENDIX IX - VILLAGE DIRECTORY
STATEMENT SHOWING NUMBER OF GIRLS SCHOOLS IN THE VILLAGES

In Mizoram no school for girls only are established at yet. Hence such data can be treated as NIL in respect of Aizawl District.

Section-II : Town Directory

Note explaining the abbreviations used in Town Directory :

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M. Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M Cl
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M
(viii)	Cantonment Board/ Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC
(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate office	EO
(xxi)	Gram Panchayat	GP
(xxii)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects

In these columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District head-quarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal, its name is to be mentioned. If not available, then the

name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha/pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

(i)	Head Loads	HL
(ii)	Basket	B
(iii)	Wheel Barrows	WB
(iv)	Septic Tank	ST
(v)	Pit System	Pt
(vi)	Sewerage	S
(vii)	Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town ôyesô is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/

Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

ñRecognisedò should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Shorthand	SH
(ii)	Typewriting	Type
(iii)	Shorthand & Typewriting	SH Type
(iv)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B.Ed. College, Teacherôs Training Institute, Music/Dance School, Nursing School etc. are covered under óOthersô.

Column 11 to 14 :

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University/Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

STATEMENT VII
CIVIC AND OTHER AMENITIES IN SLUMS

This statement is not applicable for this district.

APPENDIX TO TOWN DIRECTORY
TOWNS SHOWING THEIR OUTGROWTH WITH POPULATION

As no towns having any outgrowth in the district was found, relevant information could not be compiled and therefore may be treated as ôNILõ.

PART B
PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the

quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series óSpecial Tables for Scheduled Castes/Scheduled Tribesô.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both ómain workersô and ómarginal workersô are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks :

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under :

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/RD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/RD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/RD Block/Town
4.	Village Primary Census Abstract	RD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented RD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each RD Block is presented both for rural and urban areas separately. All the villages within the RD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the RD Block. In case a RD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the RD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading óCensus Conceptsô in the Analytical Note. The term óTotal Populationô includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the RD Block is the total of the village areas coming under each RD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/RD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURES

ANNEXURE - I
NUMBER OF VILLAGES UNDER EACH GRAM PANCHAYAT

This annexure is not applicable for this district as this district has no Gram Panchayat.

ANNEXURE - II
FERTILITY AND MORTALITY, 1991 CENSUS

Serial number	State/ District	CBR	TFR	GFR	Persons				Male				Female			
					q(1)	q(2)	q(3)	q(5)	q(1)	q(2)	q(3)	q(5)	q(1)	q(2)	q(3)	q(5)
1	2	3	4	6	7	8	9	10	11	12	13	14	15	16	17	18
	Mizoram	**37.0**	**5.2**	**158**	**53**	**64**	**66**	**68**	**51**	**68**	**69**	**72**	**56**	**59**	**60**	**65**
1	Aizawl	35.3	5.0	151	60	63	69	75	61	64	71	76	58	62	67	74

Note : As per 1991 Census Aizawl district has sub-divided into five districts. So the data of present Aizawl district is not been able to shown seperately.

In 1991 census the question about the number of children born alive by ever married woman was asked of each of them and the question whether any child was born during the last year preceding the date of enumeration is asked of each currently married woman. On the answers given to their questions, the fertility of the woman are measured by various indices. The indices of fertility are many. The questions asked for obtaining important data for special fertility table were age at marriage, number of children survived, number of children ever born and whether any child was born during the last one year. While the first three questions were asked from all ever married woman, the last one was meant only for currently married women.

In India it is observed that the Infant Mortality has shown drastic decline from 129 in 1971 to 80 in 1991. In Mizoram the child mortality rate was 53 and male and female mortality rates were 51 and 56 respectively in 1991. However, due to the incomplete registration of births and deaths in the state latest mortality rate under Sample Registration System (SRS) and Civil Registration System (CRS) on an annual basis is not available at present. The Infant Mortality Rate in India was 79 in 1992 and in 2000 it was 68 that indicates a slight decline.

ANNEXURE - III
VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE, 1991 CENSUS

Serial number	State/District	Various fertility measures for all the districts and the state (1991 census)							
		CBR	TFR	TMFR	GFR	GMFR	Child Woman Ratio	No. of children ever born per woman in age group 45-49	Mean age at marriage
1	2	3	4	5	6	7	8	9	10
	Mizoram	**37.0**	**5.2**	**8.5**	**158**	**258**	**NA**	**NA**	**NA**
1	Aizawl	35.3	5.0	8.3	151	253	NA	NA	NA

Note : As per 1991 Census Aizawl district has sub-divided into five districts. So the data of present Aizawl district is not been able to shown seperately.

Annexure III shows that the fertility measures (from CBR to GMFR) for 1991 census are lower for Aizawl District than the state figure. And the data related to child woman ratio, number of children ever born per woman in age group 45-49 and Mean age at marriage are not available in the above annexure.

ANNEXURE - IV
PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH/ PLACE OF LAST RESIDENCE, 2001 CENSUS

Name of State/ District	Migrants by place of birth								
	From other district of the state			From other States/UTs			From other countries		
	Total	Male	Female	Total	Male	Female	Total	Male	Female
1	2	3	4	5	6	7	8	9	10
Mizoram	**84,851**	**43,061**	**41,790**	**38,570**	**25,266**	**13,304**	**17,160**	**8,842**	**8,318**
	9.5	**9.4**	**9.7**	**4.3**	**5.5**	**3.1**	**1.9**	**1.9**	**1.9**
Aizawl	50,639	25,178	25,461	21,179	14,057	7,122	5,531	2,767	2,764
	15.5	15.1	16.0	6.5	8.4	4.5	1.7	1.7	1.7

Name of State/ District	Migrants by place of last residence								
	From other district of the state			From other States/UTs			From other countries		
	Total	Male	Female	Total	Male	Female	Total	Male	Female
1	2	3	4	5	6	7	8	9	10
Mizoram	**42,459**	**41,963**	**40,496**	**35,293**	**22,907**	**12,386**	**15,487**	**7,887**	**7,600**
	9.3	**9.1**	**9.4**	**4.0**	**5.0**	**2.9**	**1.7**	**1.7**	**1.8**
Aizawl	48,561	24,121	24,440	2	13,337	6,989	4,865	2,377	2,488
	14.9	14.5	15.4	6.2	8.0	4.4	1.5	1.4	1.6

It can be seen from the Annexure IV that as per 2001 Census in Aizawl District all migrant was categorised into two i.e., migrant by place of birth and migrant by place of last residence. These two reason of migration was again categorised into three, these are form other district of the State, from other State/UTs and from other countries. Migration is one of the important component for measuring population growth in the State as well as the country. The above annexure indicate in detail that how many people were migrated within the State or outside the State. As the annexure is self explanatory no detail explanation is given at write up.

ANNEXURE V

BRIEF ACCOUNT OF MAIN RELIGIONS IN THE DISTRICT/R.D.BLOCKS AS PER 2001 CENSUS

State/District/R.D.Block	Population	Main religions 2001 Census

Literacy is one of the important demographic characteristics. Apart from collecting data on number of literate, the level, nature and type of education attained by the literates are also ascertained. The concept of literacy adopted in the census has already been explained in the begining of this publication.

A proper index for measuring literacy is proportion of literate and educated persons to the total population. The absolute figure of literate for Aizawl at the time of 2001 census was the total of 269,699 for all ages with males 138,783 and females 130,916. This annexure furnish information regarding absolute number of illiterate and literate as well as the distribution of literate by different level of education by different age groups. Out of total literates in Aizawl district the highest number (36,882) are found at the range of 20-24 and the lowest number (1,424) at the range of 80+. Among the single age year return the highest number is recorded as 8,998 of age 18 years and the lowest is 6,078 of age 7 years.
