DISTRICT CENSUS HANDBOOK

PART-C—ANALYTICAL REPORT AND ADMINISTRATION
STATEMENTS AND DISTRICT CENSUS TABLES

DHENKANAL

PREFACE

The District Census Handbook is an innovation of 1951 Census. In that Census as well as in the next Census of 1961 the District Census Handbook was brought out in one volume. As indicated in the preface to the handbook Part-A, D. C. H. has been split into three parts for the first time in 1971 Census and brought out separately. The first part, Part-A consists of the Town Directory and the Village Directory incorporating some important statistical information relating to each Town and array of statistical data relating to land use and various other amenities available in each village. These are mostly of non-census character.

Part-B contains the essence of the Census data known as Primary Census Abstract. It gives demographic details of each District, Sub-division, Tahsil and Police Station down to each village and town and within the town each ward and enumerator block. The statistical information are enriched by administrative maps of the district, tahsils and police stations.

Part-C, the present publication contains the Census tables, tables on Village Directory and Primary Census Abstracts data generated on the Computer and tables on administrative welfare and developmental statistics.

A considerable portion of this Handbook could not have been compiled but for the co-operation and assistance of the State Government and respective departments. The department concerned extended their unfailing co-operation in furnishing whatever notes or information were required from time to time. I wish to record my appreciation and thanks for all the co-operation thus received from the departments of State Government.

I am also grateful to the Registrar General, India and Director of Census Operations, Orissa, for giving an outline of the scheme for preparation of the Handbook and for their valuable guidance from time to time.

I am glad to place on record my unstinted appreciation of the zeal and perseverance with which the officers and staff of this organisation contributed to the preparation of the Handbook. Many of the facts and figures embodied herein had to be built up with a great amount of diligence from raw material, some of which were recovered by personal contact with the lower administrative units and some picked up and screened from a mass of reports and annual returns. Without the sincere co-operation of the officers and staff of this organisation it would have been hardly possible to present the formidable array of statistics and many other materials of non-census and census origin which fill the pages of the volume.

I owe a special debt of gratitude to the Director of Printing, Stationery and Publications, Orissa and his deputy and staff for the immense care they took in bringing out this volume.

B. C. DAS
Deputy Director

CHAPTER I

INTRODUCTION

The District Census Handbook was first introduced as an ancillary to 1951 Census. In Orissa it appeared as a State Government publication in a more elaborate form in 1961. The District Census Handbook of 1961 was brought out as one volume comprising 3 parts for each of the 13 districts of the State. Part-I of the handbook gave narrative accounts of the district in a brief but comprehensive manner on various aspects of basic amenities and infrastructural facilities; Part-II incorporated various census tables and the primary census data of each village and town; and Part-III contained a mass of official statistics of various departments of government. This apart, inclusion of administrative maps of the district and lower administrative units enhanced the value of the publication. Notwithstanding the limitations it was acknowledged to be highly useful.

The utility of District Census Handbook was somewhat impaired due to late publication. The publication had to wait till conclusion of the tabulation programme and also for collection and compilation of administrative statistics from different sources. With a view to avoid the delay and to release the census data soon after the conclusion of the census operations it was decided to bring out the District Census Handbook of 1971 in 3 parts separately with the data becoming available from stage to stage. The scope and contents of each part are briefly indicated below :

Part-A of the District Census Handbook incorporates the Town Directory and the Village Directory of the district. The Town Directory contains certain essential data compiled in 6 statements relating to each town of the district. The Village Directory, besides giving statistical data relating to various amenities existing in a village also provides basic data bearing on land use. These are mostly of non-census character.

Part-B contains the essence of the census data known as Primary Census Abstract or simply P.C.A. It gives demographic details of each district, sub-division, tahsil and police station down to each village and town and within the town each ward and enumerator's block. The aforementioned statistical information is further enriched by administrative maps of the districts, tahsils and police stations.

To facilitate easy location of a village, lists of villages police station-wise, have been arranged in alphabetical order and placed immediately before the P.C.A.

Part-C, the last part of District Census Handbook presents the (a) census tables (b) tables on village directory and P. C. A. data generated on the computor and (c) tables on administrative welfare and developmental statistics.

Section (a) of the handbook includes the following census tables of the 1971 census that gives data of the district and its lower limits.

A-Series— General Population Tables :

Table A-I	Area, houses and population.
Appendix I to table A-I	Statement showing the 1961 territorial units constituting the present set up of each police station of district and details of net area gain or loss in the changed territories during the decade 1961-71.

Appendix II to table A-I	Number of villages with a population of 5,000 and over and towns with a population under 5,000.
Appendix III to table A-I	Houseless and institutional population.
Table A-II	Decadal variation in population since 1901.
Appendix to table A-II	Statement showing 1961 population according to their territorial jurisdiction in 1961, changes in area and population of 1961 adjusted to jurisdiction of 1971.
Table A-III & its appendix	Villages classified by population.
Table A-IV	Towns and Urban Agglomerations classified by population in 1971 with variation since 1901.
Appendices to table A-IV	New towns added in 1971 and towns in 1961 declassified in 1971.

B–Series— Economic Tables :

Table B–I Part A	Workers and non-workers according to main activity classified by sex and age-groups.
Table B–II	Workers and non-workers in cities and non-city urban areas according to main activity classified by sex and age-groups.
Table B–III Part A	Classification of workers and non-workers according to main activity by educational levels in urban areas only.
Table B–III Part B	Classification of workers and non-workers according to main activity by educational levels in rural areas only.
Table B–IV Part A	Industrial classification of persons at work other than at cultivation as main activity by sex and divisions, major groups and minor groups.
Appendix to B–IV Part A	Distribution of workers in manufacturing, processing, servicing and repairs by household industry and non-household industry.
Table B–IV Part D	Industrial classification by sex and class of workers of persons at work in non-household industry, trade, business, profession or service as main activity.
Table B-VI Part A (i)	Occupational classification of persons at work according to main activity other than cultivation classified by sex and broad age-groups in urban areas only.
Table B-VI Part A (ii)	Occupational classification of persons at work according to main activity other than cuttivalion classified by sex and educational level in urban areas only.

Table B-VI Part B (i)	Occupational classification of persons at work according to main activity other than cultivation classified by sex and broad age groups in rural areas only.
Table B-VI Part B (ii)	Occupational classification of persons at work according to main activity other than cultivation classified by sex and educational levels in rural areas only.
Table B-VII	Secondary work i.e., persons having main activity (i) cultivators (ii) Agricultural Labourers (iii) Household Industry (iv) Non-household Industry, Trade, Business or service and (v) Non-workers classified by sex and by secondary work (i) cultivators (ii) Agricultural labourers (iii) Household Industry (iv) Non-household industry, trade business or service.
Table B-VIII	Persons classified as non-workers according to main activity cross-classified by sex, age groups and type of activity.

C–Series—Social and Cultural Tables :

Table C-I Part A	Members of households by relationship to head of household classified by age-groups.
Table C-I Part B (i)	Households where the Head is a male by relationship of members with the head.
Table C-I Part B (ii)	Households where the Head is a female by relationship of members with the head.
Table C-II	Age and marital status.
Table C-III Part A	Age, sex and education in all areas.
Table C-III Part B	Age, sex and education in urban areas only.
Appendix to C-IV	Distribution of persons by five year age-groups.
Table C-V Part A (i)	Distribution of languages (inclusive of mother-tongues grouped under each) specified in Schedule VIII to the Constitution of India.
Table C-V Part A (ii)	Distribution of languages (inclusive of mother-tongues grouped under each) specified in Schedule VIII to the Constitution of India for districts/tahsils/police stations and towns.

Table C-V Part B (i)	Speakers of languages/mother-tongues (inclusive of mother tongues where grouped) other than those specified in Schedule VIII to the Constitution of India for the district.
Table C-V Part B (ii)	Speakers of languages/mother-tongues (inclusive of mother tongues where grouped) other than those specified in Schedule VIII to the Constitution of India for district/ Sub-divisions / tahsils/Police stations and towns.
Table C-VII	Religion.
Table C-VIII Part A	Classification by literacy and Industrial category of workers and non-workers according to main activity among Scheduled Castes.
Table C-VIII Part B	Classification by literacy and Industrial category of workers and non-workers according to main activity among Scheduled Tribes.
Appendix to C-VIII Part A	Scheduled Castes classified by literates and illiterates.
Appendix to C-VIII Part B	Scheduled Tribes classified by literates and illiterates.

D-Series— Migration Tables :

Table D-I	Population classified by place of birth.
Appendix-I to Table D-I	Persons born in other districts of the State and enumerated in this district.
Table D-III	Migrants to urban units (including agglomeration) having 100,000 and above population classified by sex, broad age groups, educational levels and in case of workers by occupational divisions.
Table D-IV	Population of urban units (including agglomeration having 100,000 and above population classified by place of last residence and duration of residence.
Table D-V	Migrant workers and non-workers according to main activities classified by place of last residence.
Table D-VI	Migrants classified by place of last residence, age group, duration of residence and marital status.

E-Series—Establishment Tables :

Table E-I	Distribution of establishments by broad types.
Table E-II Part A	Distribution of manufacturing, processing or servicing establishments other than household industries classified by registered factories, unregistered workshops and size of employment.

Table E-II Part B	Distribution of manufacturing, processing or servicing establishments other than household industries classified by industry, fuel/power or manual used and size of employment.
Table E-II Part C	Distribution of household industry establishments classified by industry fuel / power used and size of employment.
Table E-III	Distribution of Trade / Commercial establishments classified by the type of business or trade and size of employment.
Table E-IV	Distribution of establishments (other than manufacturing, processing or servicing or business and trade establishments) by size of employment.

H-Series—Housing Tables :

Table H-I	Census Houses and the uses to which they are put.
Table H-II	Distribution of Census houses by predominant material of wall and predominant material of roof.
Table H-III	Households classified by number of members and by number of rooms occupied.

In Section (b) a set of tables on Village Directory and Primary Census Abstract data, generated on the Computor are presented. These are :

Table 1— Distribution of Villages with reference to area (in hectares).

Table 2— Distribution of villages by selected amenities, infrastructure and land use data with reference to distance from nearest town.

Table 3— Distribution of villages by selected demographic characteristics and distance range from nearest town.

Table 4— Average size of villages by distance range from the nearest town by size class.

Table 5— Distribution of villages by size class of population having selected servicing institutions and demographic characteristics.

Table 6— Distribution of villages by number of hamlets and percentage of Scheduled Caste and Scheduled Tribe population.

Table 7— Distribution of villages by density of population per hectare.

Table 8— Distribution of villages by proportion of scheduled caste and scheduled tribe population.

Table 9— Villages by percentage of irrigated area to total cultivated area and density of population per hectare.

Table 10— Villages by percentage of literacy having and not having telephone with reference to nearest town.

In Section (c) of the Hand-Book administrative welfare and developmental statistics collected from various departments of Government, local bodies, institutions are presented on the following topics.

I. Temperature and Rainfall

II. Major events of the decade

III. Road and Transport
IV. Irrigation
V. Electricity
VI. Banks
VII. Medical and Public Health
VIII. Education
IX. Cultural and Recreational Activities
X. Agriculture
XI. Animal Husbandry
XII. Fisheries
XIII. Forest and Forest Products
XIV. Mines
XV. Joint Stock Company
XVI. Trade and Commerce
XVII. Land Revenue, Tenancy and Settlement
XVIII. Co-operative Societies
XIX. Family Welfare Centres
XX. Administration (Civil and Judicial)
XXI. Taxes and Fees
XXII. Community Development and Panchayati Raj and Local Bodies.

Important concepts and definitions occurring in the column headings of the Census Tables are briefly explained.

VILLAGE : Village means a defined tract of land declared as such under law and includes both uninhabited village and unsurveyed village. Village area connotes the area contained within its exterior limits and excludes forest areas declared as reserved or protected forest under the Indian Forest Act; 1927 or any other law for the time being in force. However, it includes the unreserved forests known as Khesra forest or Gramya jungle. An unsurveyed village is considered as a village for all purposes of the Census but does not have demarcated exterior limits. It may contain one or many groups of houses or hamlets or may not contain any houses at all. An inhabited village is one in which human being reside while an uninhabited village is one which does not have any residential population.

TOWN : The definition of town for 1971 Census was more or less the same as adopted in 1961 which is as follows :

(a) All places with a municipality, corporation or cantonment or a notified area council.

(b) All other places which satisfy the following criteria ;

i) minimum population of 5,000;

ii) at least 75% of the male working population is non-agricultural;

iii) density of population of at least 400 per square kilometre (i.e.; 1,000 per square mile);

iv) there should be distinct urban characteristics.

URBAN AGGLOMERATION : The concept of Urban Agglomeration is also a new feature of 1971 Census. In several areas around a core city or statutory town have come up fairly large well-recognised Railway colonies, University campuses, Port areas, Military camps, etc., and, even though outside the statutory limits of a Corporation, Municipality or Cantonment they fall within the revenue boundary of the place by which the town itself is known. It may not be altogether realistic to treat such areas lying outside the statutory limits of a town as rural units; and at the same time each such individual area by itself may not satisfy the minimum population limit to qualify as an independent urban unit. Sometimes, even if these constituent units qualify to be recognised as towns in their own merits, if they are cut-away from the main town to which they are agglomerated, the demographic and socio-economic characteristics of the agglomerated urban area may be lost.

There are different situations in which Urban Agglomerations would be constituted; for example,

i) A city with continuous outgrowth.
ii) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (i) and

iii) A city and one or more adjoining towns with their outgrowth all of which formed a continuous spread.

ENUMERATOR'S BLOCK : The Enumerator's block generally consisted of a population of 750 in rural areas and 600 in urban areas. Basically, every village, big or small, was treated as an independent census block. In some cases bigger villages were split into more than one Enumerator's block depending on area, nature of terrain and population. Similarly, in some other areas, two or more small villages were combined to constitute the jurisdiction of one Enumerator while each such village continued to remain as an independent block. In towns, the ward was split to form Enumerator's block in terms of the above mentioned yardstick.

ESTABLISHMENT : An "Establishment" is defined as a place where goods are produced or manufactured not solely for domestic consumption or where servicing and/or repairing is done such as factory, workshop or household industry or servicing and/or repair workshop or a place where retail or wholesale business is carried on or commercial services are rendered or an office-public or private or a place of entertainment or a place where educational, religious, social or entertainment services are rendered. It is an indispensable condition to qualify as an establishment that one or more persons should be actually working in such a place. Thus an establishment will cover manufacturing, trade and other establishments where people work.

HOUSE : A "Census House" is a building or a part of a building having a separate main entrance from the road or common court-yard or staircase, etc. used or recognised as a separate unit. It may be inhabited or vacant. It may be used for a residential or non-residential purpose or both.

OCCUPIED RESIDENTIAL HOUSE : An "Occupied residential house" is a census house which is partly or wholly used for the purpose of residence at the time of census enumeration.

HOUSEHOLD : A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so.

SCHEDULED CASTES AND SCHEDULED TRIBES : A person is a scheduled caste or scheduled tribe if he/she belongs to any one of the castes or tribes specified in the lists of scheduled castes and scheduled tribes of Orissa as per order 1956 and subsequent corrigenda and notifications.

LITERATE : A person is said to be "Literate" if he/she can both read and write with understanding in any language. A person who can merely read but cannot write is not a literate.

WORKER : A "Worker" is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involved not only actual work but effective supervision and direction of work.

The total workers have been classified into the following nine industrial categories.

I. Cultivators.

II. Agricultural Labourers.

III. Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.

IV. Mining and Quarrying.

V. (a) Manufacturing, processing, servicing and repairs at Household Industry.

(b) Manufacturing, processing, servicing and repairs other than Household Industry.

VI. Construction

VII. Trade and Commerce

VIII. Transport, Storage and Communication.

IX. Other Services.

NON-WORKER : A person is basically a non-worker if he or she does not come under any of the categories of 'workers' mentioned above. A person who has been merely offered work but has not actually joined it, is to be treated as a non-worker. The activities of non-workers have been classified into the following seven categories.-

(a) HOUSEHOLD DUTIES : This covers all those persons basically engaged in unpaid home duties doing no other work or even if such a person may also be participating in some other work, it is not to the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties. When a person whose main activity is attending to household duties, also engages oneself in some other economic activity such as helping in family cultivation or preparing cowdung cakes at odd times for sale, etc. that economic activity is covered as secondary work.

(b) STUDENT : This refers to those whose main activity is returned as a student. This will cover all full-time students or children attending school. Even if such persons participated in some work but not to the same extent as a full-time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students, if that is their main activity.

(c) RETIRED PERSON OR A RENTIER : A person who has retired from service and doing no other work i.e., not employed again in some full-time work or does not engage himself in some other work as cultivation, in business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or divident, or any other person of independent means for securing which he does not have to work, comes under this category.

(d) DEPENDENT : This includes all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age.

(e) BEGGARS, ETC. : This covers beggars or vagrants or such cases as independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

(f) INMATES OF INSTITUTIONS : This includes convicts in jails or inmates of a penal, mental or charitable institution.

(g) OTHER NON-WORKERS : All non-workers who may not come under any of the six categories above but are seeking work they are included in this category.

CHAPTER II

INTRODUCING THE DISTRICT

Dhenkanal is one of the centrally located districts of the state and owes its name to the headquarters town of Dhenkanal. The district is bounded by Keonjhar district in the north, Baudh-Khondmals, Puri and Cuttack districts in the south, Bolangir and Sambalpur districts in the west and Keonjhar and Cuttack districts in the east.

So far as the climate of the district is concerned the year may be divided into four seasons. The hot season is from March to May. The period from June to September is the south-west monsoon season. October and November constitute the post monsoon season and the cold season starts from December to February.

The central part of the district comprising Angul and Talcher receives much less rainfall than the surrounding region. Relative humidities are high during the monsoon season. During winter season the air is fairly dry. Storms and depressions pass across the district during the monsoon season.

The river Brahmani is the important river of the district. On the bed of it at Sarang, there lies a large image of Vishnu (32 ft. long) in the Ananta Sayanam posture. Another image of Vishnu (41½ ft. long) is also at Bhimakand in sleeping posture. This image of Bhimakand is considered to be largest sleeping image of Lord Vishnu in India carved on an outcrop of natural rock. The river Mahanadi which flows towards the south-western corner and serves as a separating boundary between the district of Baudh-Khondmals and this district passes through a narrow gorge called "Satkosia Ganda" (Tikarpara gorge). This gorge is one of the world's enchanting spots and entertains the visitors. Many hill streams sweep down in the rainy season with rapid currents cutting off communications for a short period. Besides, many tributaries large and small of the rivers Mahanadi and Brahmani flow through this district. The district is mostly formed with dense jungle and long range of hills. The forests cover about 58 per cent of the total area of the district. Malayagiri (1187 metres or 3895 ft.) situated at a height of 1187 metres or 3895 ft. in Pallahara subdivision is the highest peak of the district. Kapilas hill range in Gondia Police Station is famous for its religious sanctity. The highest peak of this hill range is called as Kapilas (2239 ft. or 682 metres). In local belief, the hill is identified with Kailas, the sacred abode of Lord Siva. The temple of Lord Chandra Sekhar (Siva) is 60 ft. in height and is situated on the eastern slope of the hill. Perennial springs are flowing down the hill whose water is sacred and beneficial to health. The hill has some caves which attract the visitors. Natural scenery of Kapilas is enchanting. Kapilas hill ranges are also rich for forest produce. Saptasajya Hill is a place of scenic beauty. According to legend, "Pandavas" spent some days of their Ajnatavasa in inviolable secrecy of these hills. The place is famous for the Saptarshi-Mandal and the statue of Raghunath.

The extensive and dense forests of the district harbour a great number of wild animals. Dhenkanal district has been the home of elephants. Tigers and other wild animals are also seen in these forests. This district is rich in forest products and building materials of various kinds.

Dhenkanal produces Coal and Chromite. Coal feeds the Thermal plant at Chainpal (at Talcher). This plant produces thermo-electricity and will shortly supply raw materials for the proposed fertilizer plant.

The phenomenon of boulders in Talcher area is unique in India and attracts geologists. Among the minerals Coal is of great economic value.

THE DISTRICT DURING THE DECADE

Area :

The area of Dhenkanal district is 10,826 sq. kms. according to the area figures received from the Surveyor General, India which falls short by 118 sq.kms. than the area figures reported by the State Revenue authorities (10,944.0). The difference between these two sets of figures is attributed to varying methods of computation of area figures adopted by both the agencies. The area figures of the Surveyor General of India have been adopted for presentation of area figures, calculation of density and other similar purposes at the district level. Although the district boundaries have not undergone any significant change but there is a change in the jurisdiction of the district boundary in consequence of the transfer of two villages, viz., Kabatabandha and Goliamuhapattna comprising an area of 1.35 sq. kms. from this district to the district of Cuttack. These two villages were under the jurisdiction of Gondia police station of Dhenkanal district which had been transferred to Dharmasala police station of Cuttack district. So far as the area is concerned the district having 6.95 per cent of the total area of the State occupies the seventh place among the 13 districts of the State.

The district has been divided into seven sub-divisions, seven Tahsils and 23 police stations for administrative convenience. There has been slight change in the jurisdiction of police stations within the district during the decade 1961-71. One village (Hitinda) of Dhenkanal police station and two villages (Nuagan and Kadola) of Angul police station have been transferred to Rasol police station and Balimi police station respectively for the sake of better administration. Appendix I to Table A-I depicts the territorial units constituting the present set up. Table A-I furnishes the particulars of area, population, number of villages, number of towns, occupied residential houses, number of households and population with sex break-up of the district and also each of its lower administrative units.

Angul Tahsil with an area of 2,332.0 sq. kms. is the largest tahsil of the district. It alone claims about 22 per cent of the total area of the district. Among the 23 police stations, Kamakhyanagar police station under the Kamakhyanagar Tahsil is the largest police station of the district having an area of 1,149.4 sq. kms. It even exceeds the area of Talcher and Hindol Tahsils. Hindol is the smallest tahsil in the district with an area of 821.8 sq. kms.

The district has four towns in 1971 as it had in 1961. There is no change in the total urban area of the district which stands at 42.76 sq. kms.

Size and distribution of population :

The population of Dhenkanal district is 1,293,914 at the sunrise of 1st April 1971. Of this 654,334 and 639,580 are males and females respectively. The district accommodates 5.90 per cent of state's population compared to 5.86 per cent in 1961. The increase of 0.04 per cent elevates its position from the 9th place in 1961 to the 8th place in the state in 1971 Census.

The population within the district is not also evenly distributed. It varies from tahsil to tahsil and within the tahsil from police station to police station depending on the suitability of land for cultivation and some other related advantages which may be seen in statement-1.

STATEMENT 1

Distribution of Population of Tahsils

Below the State average	State average	Above the State average
1	2	3
Talcher Tahsil [150,361]	(213,055)	Dhenkanal Tahsil [283,608]
Athmallik Tahsil [127,266]		Angul Tahsil [283,210]
Hindol Tahsil [107,749]		Kamakhyanagar Tahsil [274,020]
Pallahara Tahsil [67,700]		

Kamakhyanagar, Angul and Dhenkanal tahsils in the district are above the state average. The remaining four tahsils are below the state average. Tahsils which are below the state average lie in inland regions comprising mostly hilly regions, densely covered with forests. The unproductive lands, the inaccessible forests and the abnormal climatic conditions of the region sustain comparatively less population.

Density of population

The density of 120 persons per sq. km. area in the district is below the state average of 141 persons per sq. km. During the decade the density of population has increased by 25 persons per square kilometre area due to 26.04 per cent growth in population. It is significant to note that the district lying in the inland tract of the state records relatively lower density than those of the districts lying in the coastal regions. On this background a correlation seems to exist between the density and prosperity of a region. Greater prosperity tends to influence the higher density and vice versa. A study of density of the lower administrative units of the district would throw up some interesting conclusions.

STATEMENT 2

Distribution of Tahsils above and below the district average

Below the district average	State/District average	Above the district average
1	2	3
Athamallik Tahsil [69]	State average [141]	Dhenkanal Tahsil [184]
Pallahara Tahsil [58]	District average [120]	Talcher Tahsil [150]
		Hindol Tahsil [131]
		Kamakhyanagar Tahsil [122]
		Angul Tahsil [121]

Dhenkanal tahsil is the most densly populated tahsil followed by Talcher, Hindol, Kamakhyanagar and Angul. Dhenkanal and Talcher Tahsils are more thickly populated than that of the State. The area of Dhenkanal tahsil is suitable for agriculture and the area of Talcher tahsil comes under the coal mining belt. As a matter of fact an industrial complex has already been developed around Talcher Town. These things tend to the prosperity as well as high density of these areas. The two tahsils namely Pallahara and Athmallik are even below the district average as these areas are covered with hills and dense forests rendering less opportunity of cultivation. Pallahara tahsil is the least densely populated tahsil of the district.

Households

There are 251,665 number of houses including the vacant houses in the district of Dhenkanal. Of these 198,955 are occupied residential houses which constitutes 5.29 per cent of the total occupied residential houses of the state (3,758,551) compared to 5.39 per cent in the 1961 Census. As many as 232,084 households dwell in these houses. This goes to indicate that nearly 12 households live in 10 houses.

On an average about six persons live in a household in Dhenkanal district as against the state average of five persons.

Houseless population

Appendix III to Table A-I of Section A of the Handbook presents the houseless and institutional population of the district and its lower administrative units. In the 1971 Census there are 2,307 houseless persons in the district as against 1,085 persons in 1961. About 65 per cent of the houseless population are males and the rest are females. The present position appears to be quite disquieting as the number of houseless persons increased more than two folds during the decade. The increase may be due to seasonal migration and migration of working force to the advanced areas of the district where the employment apportunities are adequate.

The urban areas of the district claim only 212 houseless persons.

Institutional population

As many as 7,141 persons live as inmates of institutions like Jails, Hostels and Hospitals etc., out of which 6,516 are males and 625 are females. 4,625 persons reside in Rural areas and the rest 2,516 persons reside in urban areas of the district.

Growth of population

Dhenkanal district has recorded 26.04 per cent growth of population during the decade 1961-71 with a net addition of 267,361 persons.

The district is persistently maintaining a higher growth rate of population over the last two decades. Statement-3 shows the decadal growth rate of population of the district and of the state from 1901.

STATEMENT 3

Year	Dhenkanal District		Orissa State	
	Population	Percentage growth during the decade	Population	Percentage growth during the decade
21		3	4	5
1901	570,641	...	10,302,917	...
1911	589,414	+ 3.29	11,378,875	+ 10.44
1921	513,885	— 12.81	11,158,586	— 1.94
1931	634,035	+ 23.38	12,491,056	+ 11.94
1941	740,041	+ 16.72	13,767,988	+ 10.22
1951	837,138	+ 13.12	14,645,946	+ 6.38
1961	1,026,553	+ 22.63	17,548,846	+ 19.82
1971	1,293,914	+ 26.04	21,944,615	+ 25.05

Statement-3 reveals that during the period of five decades commencing from 1921 the rate of growth of population in Dhenkanal district has all along been higher than that of the State. During the period (1901-1971) the population of the district has been doubled. The period 1951-71 was a period of prosperity. The major part of the district was covered by Community Development and National Extension Service Blocks. This contributed to the improved method of agriculture, the supply of drinking water and the extension of educational facilities and Social Welfare Schemes to the rural areas. The standard of Public Health improved considerably. These all round developmental activities and the absence of natural calamities had contributed to the high growth of population i.e., 22.63 per cent during 1951-1961 which exceeded the state average of 19.82 per cent. The decade 1961-71 has recorded the highest growth of population i.e., 26.04 per cent compared to last 7 decades. The extension of educational and welfare facilities, the improved methods of agriculture and the establishment of industrial complex like Thermal Power Project and Fertilizer Project at Talcher etc., and the control of epidemic diseases and the improvement of public health have contributed to a high growth of population.

As a result of intensive developments in the last two successive decades, some pockets of this district having advantages registered an abnormal growth of population. A Tahsilwise comparison of growth rate is shown in statement-4.

STATEMENT 4

District/Tahsil	Growth rate (1961-1971)
1	2
DHENKANAL DISTRICT	26.04
Dhenkanal	25.87
Kamakhyanagar	26.62
Talcher	29.08
Pallahara	28.50
Angul	23.73
Hindol	24.65
Athmallik	26.85

A study of the growth rate of population of tahsils reveals that the growth rate of population of Talcher Tahsil is the highest. The coal mine area coupled with the location of several ancillary industries in and around Talcher town has attracted people from outside. The next tahsil to follow is Pallahara. Except Angul and Hindol tahsils all tahsils of the district exhibit higher growth rate of population than that of the State.

Rural and Urban Population

There are as many as 3,157 villages of different sizes inclusive of 551 uninhabited villages in the district. The rural population of the district is 1,242,102 which constitute 96 per cent of the total population of the district. On an average 477 persons live in a village of this district which exceeds the state average of 428 persons.

STATEMENT 5

Average Population of Village

District/Tahsil	Average Population of a village 1971
1	2
DHENKANAL DISTRICT	477
Dhenkanal	608
Kamakhyanagar	662
Talcher	460
Pallahara	253
Angul	545
Hindol	602
Athmallik	243

Average population size of a village of Kamakhyanagar, Dhenkanal, Hindol and Angul tahsils is well above the district and state average. Higher concentration of rural population in the areas of these tahsils is mainly due to availability of fertile land for agriculture and commercial activities. Average population of a village (460) of Talcher tahsil is well above the State average.

Urban

Dhenkanal district is less urbanised. There is no addition of new towns during the decade 1961-71.

Of the total population of Dhenkanal district 51,812 are urban dwellers and they constitute 4 per cent of the total population of the district.

The percentage of urban population of the tahsils of the district would reveal that the three tahsils, namely, Pallahara, Athmallik and Hindol out of seven do not have urban population. The proportion of urban population of the remaining four tahsils is given in statement-6.

STATEMENT 6

Name of tahsil	No. of towns	Percentage of Urban population to total Urban population of the district 1971	Percentage of Urban population to Total population of the tahsil 1971
1	2	3	4
Dhenkanal	1	37.86	6.92
Kamakhyanagar	1	21.91	4.14
Talcher	1	22.76	7.84
Angul	1	17.47	3.20

Dhenkanal tahsil alone claims 37.86 per cent of the total urban population of the district and 6.92 per cent of its population are urban dwellers. Among the tahsils of the district, the trend of urbanisation is more pronounced in case of Talcher tahsil.

The towns at the 1971 Census have been classified into six classes according to their size of population. This district has only three Class IV towns and one Class V town.

STATEMENT 7

Name of Town	Population		Size & Class of Town	
	1961	1971	1961	1971
1	2	3	4	5
Dhenkanal Town (M)	13,727	19,615	IV	IV
Bhuban Town (C.T.)	9,476	11,350	V	IV
Talcher Town (M)	8,147	11,794	V	IV
Angul Town (N.A.C.)	15,738	9,053	IV	V

Statement-7 reveals that Bhuban and Talcher towns were classified under Class V in 1961 but have been upgraded to Class IV in 1971. The oldest town Dhenkanal has not undergone any change in its status. But Angul town has degraded itself from Class IV in 1961 to Class V in 1971.

Statement-8 furnishes the size class and functional classification of town in the district.

STATEMENT 8

Size class of towns	Total No. of towns	Name of towns	Functional category
1	2	3	4
IV	3	Dhenkanal	Service
		Talcher	Service-cum-Primary-cum-Trade
		Bhuban	Primary Activity
V	1	Angul	Service

It would be seen from statement-8 that the district has three mono-functional and one multi-functional town in the 1971 Census.

Sex Ratio

The sex ratio of Dhenkanal district is 977 females per 1000 males which comes below the state average of 988. It was 991 in 1961. The district is showing a steady fall in sex ratio from the year 1921.

Statement-9 shows the sex ratio of Orissa and Dhenkanal District from 1901 onwards.

STATEMENT 9

Year	Sex ratio					
	District			State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	1,020	1,021	1,002	1,037	1,039	967
1911	1,035	1,036	1,001	1,056	1,058	947
1921	1,074	1,074	1,036	1,086	1,089	963
1931	1,053	1,054	1,008	1,067	1,071	924
1941	1,030	1,033	939	1,053	1,058	914
1951	1,017	1,021	923	1,022	1,029	881
1961	991	1,000	814	1,001	1,015	807
1971	977	986	797	988	1,002	845

Statement-9 shows that the sex ratio in the urban areas of the district is remarkably lower than that of its rural counterpart which is similar to the case of the state.

Sex ratio of tahsils may be viewed from statement 10.

STATEMENT 10

Sex ratio 1971

District/Tahsil	Total	Rural	Urban
1	2	3	4
DHENKANAL DISTRICT	977	986	797
Dhenkanal	960	974	791
Kamakhyanagar	988	991	925
Talcher	949	956	868
Pallahara	983	983	...
Angul	982	998	596
Hindol	1,010	1,010	...
Athmallik	988	988	...

Age structure

A population is referred to as young, adult and old according to the relative weight of young, adult and old age groups in the total. Persons in the ages 0-14 are included in the first group, those between 15-59 years in the second group and the rest aged 60 and above are in the third group. In Orissa, the population under young, adult and old age groups are 42.4, 51.6 and 6.0 per cent respectively.

The distribution of population according to the broad age groups in Dhenkanal district more or less follows the state pattern as revealed from statement-11.

STATEMENT 11

Age group	1961						1971					
	Persons	Percentage to total persons	Males	Percentage to total males	Females	Percentage to total females	Persons	Percentage to total persons	Males	Percentage to total males	Females	Percentage to total females
1	2	3	4	5	6	7	8	9	10	11	12	13
All ages	1,028,935	100.00	516,843	100.00	512,092	100.00	1,293,914	100.00	654,334	100.00	639,580	100.00
0—14	430,948	41.9	215,354	41.7	215,594	42.1	564,075	43.6	280,499	42.9	283,576	44.3
15—59	543,124	52.8	275,862	53.4	267,262	52.2	653,376	50.5	336,105	51.4	317,271	49.6
60+	54,698	5.3	25,543	4.9	29,155	5.7	76,268	5.9	37,620	5.8	38,648	6.0
Age not stated	165	N	84	N	81	N	195	N	110	N	85	N

Note :— 2,382 persons (1,223 Males and 1,159 females) transferred from Gondia P. S. to Cuttack district after 1961 Census. This change has not been incorporated in this statement.

Literacy and Education

According to the 1971 Census, 359,227 out of 1,293,914 persons in the district are recorded as literate and educated persons. The percentage of literates has gone up from 23.45 in 1961 to 27.76 in 1971. The district occupies the 4th place in the state as it did in 1961 Census in respect of literacy (including population in age 0-4) and the rate of literacy is above the state rate (26.18). The growth of literacy is 18.38 per cent during the decade.

Percentage of literates among males and females for 1961 and 1971 is furnished in statement-12.

STATEMENT 12

Census year	Percentage of literacy including population in age 0-4	
	Males	Females
1	2	3
1971	42.0	13.2
1961	38.8	7.9

It would be seen that literate males form 42.0 per cent of the total male population of the district whereas the literate females constitute 13.2 per cent of the total female population. Percentage of literates among females is not at all satisfactory.

In rural areas literates form 26.88 per cent compared to 43.89 per cent in urban areas of the district. Statement 13 gives the literacy of rural and urban population of the district and tahsils.

STATEMENT 13

Tahsilwise literacy (including population in age group 0-4), 1971

District/Tahsil		1971		
		P	M	F
1		2	3	
DHENKANAL DISTRICT	T	27.76	42.03	13.16
	R	26.88	41.15	12.41
	U	48.89	61.23	33.40
Dhenkanal Tahsil	T	30.44	43.41	16.93
	R	28.77	41.68	15.51
	U	52.96	64.51	38.36
Kamakhyanagar Tahsil	T	26.40	40.43	012.2
	R	26.04	40.00	11.95
	U	34.71	50.04	18.15
Talcher Tahsil	T	28.70	43.81	12.78
	R	27.71	42.98	1 .73
	U	40.39	53.10	25.75
Pallahara Tahsil	R	20.81	32.85	8.56
Angul Tahsil	T	28.00	44.04	11.66
	R	26.65	42.73	10.52
	U	68.91	75.60	57.69
Hindol Tahsil		23.43	36.10	10R.89
Athmallik Tahsil	R	30.47	45.61	15.14

Athmallik and Dhenkanal tahsils are at the top of the list with regard to literacy and Pallahara Tahsil records the lowest literacy.

Among the four towns of the district the highest percentage of literacy has been recorded in Angul Town (68.91) followed by Dhenkanal town with 52.96 per cent. The literacy rates in Talcher and Bhuban towns are 40.39 per cent and 34.71 per cent respectively. Literacy in the urban areas is higher as compared to the rural areas.

Mother tongue

As many as 29 languages are spoken as mother tongues in the district of Dhenkanal against 51 languages including 15 languages (inclusive of mother tongues grouped under each) specified in the Schedule VIII to the Constitution of India, which have been returned in the State of Orissa in the 1971 Census. Excepting Assamese, Sanskrit and Sindh all the other 12 languages as specifed in the Schedule VIII to the Constitution of India have been returned from this district. Besides 17 languages (inclusive of mother tongues, where grouped) are spoken as mother tongue in the district. Statement 14 depicts the percentage distribution of speakers of major languages in the district in 1971.

STATEMENT 14

Percentage distribution of population among major languages in 1971

Mother-tongue	Percentage to total population		
	Total	Rural	Urban
1	2	3	4
Total	100.00	100.00	100.00
Oriya	97.99	98.28	91.02
Ho	0.63	0.65	N
Juang	0.24	0.25	...
Hindi	0.23	0.13	2.71
Urdu	0.19	0.07	2.95
Bengali	0.16	0.09	1.63
Munda	0.13	0.13	0.14
Telugu	0.10	0.09	0.47
Santali	0.10	0.11	0.01
Tamil	0.05	0.05	0.07
Others	0.18	0.15	1.00

Note— 'N' stands for Negligible

It would be seen from the statement that the speakers of 'Oriya' as mother tongue form an overwhelming majority (97.99 per cent) in the district as against 97 per cent in 1961. The proportion of speakers in other languages is negligible.

Religion

The distribution of population by different religious communities, viz., Hindus, Christians, Muslims, Sikhs, Buddhists, Jains etc., is produced in Table C-VII.

Statement 15 depicts the percentage of population of each of the six major religious communities to total population of the district as obtained during 1961 and 1971 Censuses.

STATEMENT 15

Percentage distribution of population among religious communities 1961 and 1971

Religious communities	Percentage to total population					
	1961*			1971		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
Total	100.00	100.00	100.00	100.00	100.00	100.00
Hindus	99.73	99.85	97.26	99.65	99.81	95.60
Muslims	0.20	0.11	2.13	0.24	0.11	3.42
Christians	0.05	0.02	0.57	0.06	0.05	0.55
Sikhs	0.02	0.02	0.02	0.03	0.01	0.42

Jains	N	N	0.01	N	...	0.01
Other religions & persuasions	...	...	...	...	...	...

* 2,382 Rural population from Gondia P. S. of Dhenkanal district transferred to Dharmasala P. S. of Cuttack district is not incorporated in the statement.

N— Negligible.

It would be seen from statement-15 that as high as 99.65 per cent of the population of the district are Hindus. Compared to data obtained in the 1961 Census, there has a slight decline in the percentage of population professing Hinduism, whereas the percentage of population in respect of Muslims, Christians, Sikhs and Buddhists has shown marginal improvement over the 1961 figures.

It is seen that the followers of Islams, Christianity, Sikhism and Jainism mostly live in urban areas of the district, whereas Hindus are found both in rural and urban areas of the district in an overwhelming proportion.

Dhenkanal district is famous for Mahima of Alekha Dharma. The followers believe in Param Brahma who has no shape and is one and only one. Mahima Gadi Mandir is at Joranda in Gondia police station. The followers are Bairagi who put on Langot. The followers of this religion have been clubbed with Hindu religion.

Migration

Migration is some times referred to as movement of people from one place to the other under economic necessities and social ties.

Birth place migrant

A change in the usual place of residence with reference to the birth place is defined as migration in accordance with birth place concept.

The extent of migration in the district of Dhenkanal is determined by the place of birth is shown in statement-16.

STATEMENT 16

Birth place	Persons	Males	Females
1	2	3	4
A. Born in India	1,293,764 (99.99%)	654,259 (99.99%)	639,505 (99.99%)
I. Within the State of enumeration	1,290,334 (99.72%)	652,379 (99.70%)	637,955 (99.75%)
(a) Born in place of enumeration	974,041 (75.28%)	576,258 (88.07%)	397,783 (62.20%)
(b) Born elsewhere in the district of enumeration	273,229 (21.11%)	58,781 (8.98%)	214,448 (33.53%)
(c) Born in other districts of the State	43,064 (3.33%)	17,340 (2.65%)	25,724 (4.02%)
II. Born in the States of India beyond the State of enumeration	3,439 (0.27%)	1,880 (0.29%)	1,550 (0.24%)
B. Born in countries in Asia beyond India (Incl. U.S.S.R.)	150 (0.01%)	75 (0.01%)	75 (0.01%)

Note :— 'N' Stands for Negligible.

Statement-16 reveals that 75.28 per cent of the total population of the district have been enumerated at their place of birth while 21.11 per cent have been enumerated elsewhere in the district of enumeration.

Persons having their birth place in other districts of the State but migrated to Dhenkanal district account for 3.33 per cent of the total population of the district. Immigrants of this district beyond the State of enumeration but born in states of India beyond the State of enumeration constitute merely 0.27 per cent. This may be due to the fact that the district is centrally located. The higher percentage of female migrants may be attributed to marriages.

The statement reveals that as many as 25,724 females born in the other districts of the State have migrated to this district. Migrants to this district from other countries form a very negligible percentage.

Last-residence migrant

A change in the usual place of residence of an individual with reference to his previous usual residence is termed as a migration in accordance with the last residence concept. The classification of such migrants into nine Industrial categories of workers and non-workers is given in statement-17.

STATEMENT 17

Last residence	WORKERS I Cultivators M	I Cultivators F	II Agricultural labourers M	II Agricultural labourers F	III Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities M	III Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities F	IV Mining and Quarrying M	IV Mining and Quarrying F

B. Outside India	...	...	...	...	...	...	20	...	5	...	25	5	10	40

A total number of 11,096 male and 9,670 female migrants having their last residence outside the place of enumeration but within the State of enumeration work as cultivators and Agriculture labourers. But the majority of these migrants to this district so far as their last residence is concerned, migrants to this district are mostly engaged in primary sector of economy. Among the migrant workers whose last residence is in other States of India but beyond the State of enumeration, majority belong to category IV (Mining and quarrying) followed by workers in trade and commerce (category VII).

Workers and Non-workers

There are as many as 359,500 male and 29,726 female workers out of the total population of 1,293,914. Workers constitute 30.08 per cent of the total population of the district. Due to conceptual difference the percentage of workers can not strictly be compared with the previous censuses.

Statement-18 depicts the percentage of workers and non-workers to the total population of the district.

STATEMENT 18

Workers and non-workers, 1971

Workers Non-workers		Percentage of workers and Non-workers		
		Total	Rural	Urban
Workers	Total	30.08	30.15	28.37
	Male	54.94	55.25	48.30
	Female	4.65	4.70	3.36
Non-workers	Total	69.92	69.85	71.63
	Male	45.06	44.75	51.70
	Female	95.35	95.30	96.64

It would be seen that 54.94 per cent of the male population and 4.65 per cent of the female population are workers.

Workers have been divided into nine broad industrial categories according to the type of work they perform as shown in statement-19.

STATEMENT 19 (Concld.)

Industrial category	Male/ Female	Total	Rural	Urban
1	2	3	4	5

	F	4	4	21
X. Non-workers	M	451	448	517
	F	954	953	966

Note :— 'N' Stands for Negligible.

It is evident from statement-19 that cultivators and agricultural labourers account for the largest proportion of workers in the district.

Workers under different categories are further grouped under three sectors of economy, viz., Primary, Secondary and Tertiary. The primary sector constitutes workers under categories I to IV, the secondary sector constitutes workers under V and VI and tertiary sector includes workers in the categories VII to IX. Distribution of workers of the district in different sectors of economy is given in statement-20.

STATEMENT 20

Percentage distribution of workers by sectors of economy by all areas, 1971

Sector of economy	Percentage distribution		
	Persons	Males	Females
1	2	3	4
All Sectors	100.00	100.00	100.00
Primary	83.81	84.62	74.13
Secondary	5.59	4.84	14.66
Tertiary	10.60	10.54	11.21

It is seen from statement-20 that more than three-fourth of the working population of the district come under the primary sector.

In rural areas of the district 85.98 per cent of the working population are engaged in the primary sector. The rest 14.02 per cent are distributed in the remaining two sectors of economy, viz., secondary sector with 5.23 per cent and tertiary sector with 8.79 per cent. Statement-21 gives the percentage distribution of workers by sector of economy in rural areas only.

STATEMENT 21

Percentage distribution of workers by sectors in rural areas only for each sex, 1971

Sector of economy	Percentage distribution		
	Persons	Males	Females
1	2	2	3
All Sectors	100.00	100.00	100.00
Primary	85.98	86.84	75.67
Secondary	5.23	4.43	14.81
Tertiary	8.79	8.73	9.52

Statement-22 furnishes the percentage distribution of workers by sex in urban areas only.

STATEMENT 22

Percentage distribution of workers by sectors in urban areas only for each sex, 1971

Sector of economy	Percentage distribution		
	Persons	Males	Females
1	2	3	4
All sectors	100.00	100.00	100.00
Primary	28.50	29.16	16.61
Secondary	14.78	15.09	9.08
Tertiary	56.72	55.75	74.31

It would be seen from statement-22 that the concentration of workers in the tertiary sector of economy is the highest. Female workers in urban areas are mostly engaged in 'tertiary sector'.

Workers by broad age groups

The entire bulk of the working population is sub-divided into three broad age groups, viz., 0-14 years, 15-59 years and 60 years and above.

Statement-23 gives the percentage of workers to total population in each broad age group.

STATEMENT 23

Percentage of workers to total population in each broad age group, 1971

Age group	Percentage of workers		
	Persons	Males	Females
1	2	3	4
Total	30.08	54.94	4.65
0—14	4.82	8.91	0.77
15—59	51.05	91.55	8.16
60+	37.27	71.17	4.26
Age not stated	22.05	28.18	14.12

It is seen from statement-23 that 4.82 per cent of workers are found in the tender age group of 0-14. This indicates that poor economic condition compels the parents to engage their children in work instead of sending them to schools. The next age group which forms the core of the working force constitutes a little more than the half of the total population in that age group. Besides, the percentage of male and female workers in this age group of 15-59 are 91.55 and 8.16 respectively. In the age group of 60 years and above 37.27 per cent of the population are recorded as workers.

Statement-24 gives the percentage distribution of workers by age and sector of economy.

STATEMENT 24

Percentage distribution of workers by Primary, Secondary and Tertiary Sectors of economy in each age-group, 1971

Age group	Primary	Secondary	Tertiary
0—14	88.42	5.47	6.11
15—59	82.87	5.69	11.44
60+	90.60	4.45	4.95
A.N.S.	39.53	2.33	58.14

Statement-24 reveals that the primary sector of economy absorbs maximum percentage of workers from each of the age groups mentioned earlier.

Non-workers

The persons who are not economically active or whose main activities do not come under any economically productive work are basically non-workers. The number of such persons as recorded in the 1971 Census is 904,688 or 69.92 per cent of the total population of the district.

The total non-working population is further classified into seven categories, viz., (i) students (ii) Household duties (iii) Dependent and infants (iv) Retired, Rentiers and persons of Independent means (v) Beggars, Vagrants, etc, (vi) Inmates of Penal, Mental and Charitable institutions and (vii) Others. The disposition of all these non-working population is shown in statement-25.

STATEMENT 25

Classification of non-workers	1971	
	Persons	Percentage
1	2	3
Total non-working population	904,688	100.00
(i) Students	151,668	16.77
(ii) Household duties	353,831	39.11
(iii) Dependents and infants	377,925	41.77
(iv) Retired Rentires and persons of independent means	7,731	0.86
(v) Beggers, Vagrants etc.	2,654	0.29
(vi) Inmates of penal, mental and Charitable institutions	2,363	0.26
(vii) Others	8,516	0.94

It would be seen from the statement that majority of non-workers are dependents and infants and they form 41.77 per cent of the total non-working population of the district. Persons engaged in household duties comes next. Students attending schools and colleges form 16.77 per cent of the total non-working population of the district.

Scheduled Castes

A total number of 216,887 persons recorded under 39 scheduled caste communities have been enumerated in the 1971 census. They form 16.76 per cent of the total population of the district compared to the state average of 15.09 per cent. The proportion of scheduled caste population of this district stands reduced from 18.19 per cent in 1961 to 16.76 per cent in 1971.

Statement 26 shows the percentage distribution of scheduled caste population in different tahsils of the district.

STATEMENT 26

Proportion of Scheduled Castes in tahsils, 1971

District/ Tahsils	Percentage of scheduled caste population to total persons, males and females					
	Persons	Percentage	Males	Percentage	Females	Percentage
1	2	3	4	5	6	7
DHENKANAL DISTRICT	216,887	16.76	109,173	16.68	107,714	16.84
Dhenkanal	42,207	14.88	21,449	14.82	20,758	14.94
Kamakhyanagar	43,030	15.70	21,527	15.62	21,503	15.79
Talcher	26,740	17.78	13,652	17.69	13,088	17.88
Pallahara	10,350	15.29	5,207	15.26	5,143	15.32
Angul	54,720	19.32	27,458	19.21	27,262	19.43
Hindol	21,524	19.98	10,698	19.96	10,826	19.99
Athmallik	18,316	14.39	9,182	14.34	9,134	14.44

It would be seen from statement 26 that the distribution of scheduled caste population in different tahsils of the district is nearly even. Athmallik tahsil recorded the lowest proportion of scheduled caste with 14.39 per cent as against the highest concentration of 19.98 per cent in Hindol tahsil.

Compared to 26.04 per cent growth of population in general, the growth rate for scheduled caste population stands at 15.94 per cent during the decade. Statement 27 shows percentage of growth of scheduled caste population of the district during the decade.

STATEMENT 27

Census year	Scheduled Caste population of the district	Decadal variation	Percentage decade variation	Scheduled Caste Males	Scheduled Caste Females
1	2	3	4	5	6
1961	187,062	...	...	93,068	93,994
1971	216,887	+ 29,825	+ 15.94	109,173	107,714

The sex ratio of the scheduled castes community in the district has declined during the decade. From 1010 females for 1000 males in 1961, the sex ratio has come down to 987 in 1971 Census.

Distribution of Major Scheduled Castes

The Panas constitute the majority among the scheduled caste population in the district and they constitute 57.96 per cent of the total scheduled caste population of the district.

Statement 28 indicates the population of ten major scheduled caste communities of the district.

STATEMENT 28

Name of Scheduled Castes	Population	Percentage of Scheduled Caste to total Scheduled Caste Population
1	2	3
1. Pan or Pano	125,700	57.96
2. Haddi, Hadi or Hari	20,151	9.29
3. Tanla	19,167	8.84
4. Dhoba or Dhobi	18,540	8.55
5. Chamar, Mochi, Muchi or Satnami	4,931	2.27

STATEMENT 19 (Concld.)

Name of Scheduled Castes	Population	Percentage of Scheduled Caste to total Scheduled Caste Population
1	2	3
6. Dom, Dombo or Duria Dom	3,543	1.63
7. Siyal	3,081	1.42
8. Ghasi or Ghasia	2,795	1.29
9. Godra	2,189	1.10
10. Pantanti	1,933	0.89

All the ten major Scheduled Castes except Ghasi or Ghasia have registered a steady growth during the decade 1961-1971. In absolute figures, the population of Ghasi or Ghasia has declined from 6046 in 1961 to 2795 in 1971.

Literacy of Scheduled Castes

In the 1971 Census the number of literate and educated persons (including population in age group 0-4) constitute 15.07 per cent to the total scheduled caste population of the district as against 15.61 per cent literacy recorded for the state. Literacy among the scheduled caste males and females is 26.09 and 3.91 per cent respectively.

Statement 29 indicates the percentage of literacy among scheduled castes during 1971.

STATEMENT 29

Hindol	R	9.24	16.85	1.72
Athmallik	R	20.26	33.37	7.07

Athmallik tahsil records the highest percentage of 20.26 of scheduled caste literates as against the lowest percentage of 9.24 in Hindol tahsil. Among scheduled caste females literacy is too low.

Workers in the Scheduled Caste population

As many as 71,995 persons or 33.19 per cent of the total scheduled caste population are workers in the district.

Sexwise distribution of scheduled caste workers in this district shows that the males constitute 56.13 per cent compared to 9.95 per cent of female workers as seen from statement 30.

STATEMENT 30

Percentage of workers by sex and among Scheduled Castes 1971

District		Percentage of workers		
		P	M	F
1		2	3	4
Dhenkanal	T	33.19	56.13	9.95
	R	33.33	56.36	10.04
	U	29.05	49.12	7.14

Statement 31 shows the distribution of scheduled caste workers in the nine broad

industrial categories. It is evident from statement 31 that 77.50 per cent of scheduled caste workers are cultivators and agricultural labourers. The Balance 22.50 per cent of workers are scattered in the other occupations. The non-workers, on the other hand, constitute 66.81 per cent of the total scheduled caste population of the district.

STATEMENT 31

Percentage distribution of Scheduled Caste workers in different categories

Categories of workers	Persons	Percentage	Males	Percentage	Females	Percentage
1	2	3	4	5	6	7
I. Cultivators	19,825	27.54	19,234	31.39	591	5.51
II. Agricultural labourers	35,971	49.96	29,641	48.37	6,330	59.07
III. Livestock, Forestry, Fishing, Hunting & Plantations, Orchards & Allied activities	2,172	3.02	2,047	3.34	125	1.17
IV. Mining & Quarrying	1,269	1.76	1,251	2.04	18	0.17

IX. Other services	6,198	8,61	4,744	7.74	1,454	13.57

Scheduled Tribes

A total number of 166,998 persons under 38 tribal communities has been returned in this district in the 1971 Census as against 143 455 persons in 1961. They account for 12.91 per cent of the total scheduled tribe population of the district in 1971 as against 13.94 in 1961. Excepting the coastal districts the proportion of scheduled tribe population is the lowest compared to other districts of the State. Statement 32 shows the growth rate of scheduled tribe population during the decade.

STATEMENT 32

Census years	Scheduled Tribe population of the district	Decadal variation	Percentage decade variation	Males	Females
1	2	3	4	5	6
1961	143,455	...	...	71,394	72,061
1971	166,998	+ 23,543	+ 16.41	83,736	83,262

It would be seen that the scheduled tribe population has a rise during the decade. A growth rate of 16.41 per cent for the tribes in the district seems to be low when compared to the growth rate of 20.08 per cent for the scheduled tribe population of the State during the decade 1961-71.

Sexwise break-up of the scheduled tribe population shows that 83 736 males and 83 262 females have been returned in 1971 as against 71,394 males and 72,061 females in 1961. The sex ratio among scheduled tribes in this district is more or less balanced with the marginal excess of males. The sex ratio in this district has come down to 994 in 1971 as against 1009 in 1961.

STATEMENT 33

Tahsilwise percentage of Scheduled Tribes to total persons, males and females

District /Tahsil	Persons	Percentage	Males	Percentage	Females	Percentage
1	2	3	4	5	6	7
DHENKANAL DISTRICT	166,998	12.91	83,736	12. 0	83,262	13.02
Dhenkanal	40 199	14.17	20,179	13,95	20,020	14,41
Kamakhyanagar	40,987	14,96	20,636	14.97	20,351	14,94
Talcher	7,877	5.24	3,957	5.13	3,920	5,35
Pallahara	25,882	38.23	12,991	38,06	12,891	38,40
Angul	20,706	7.31	10,275	7.19	10,431	7.44
Hindol	6,255	5.81	3,125	5.83	3,130	5.78
Athmallik	25,092	19.72	12,573	19.64	12,519	19.79

It is seen from statement-33 that Pallahara tahsil has the highest concentration (38.23 per cent) of scheduled tribes followed by Athmallik tahsil (19.72 per cent). Talcher tahsil recorded the lowest concentration of 5.24 per cent.

The scheduled tribe population in urban areas of the district is too low. Statement 34 shows the distribution of scheduled tribe population among the four towns of the district.

STATEMENT 34

Name of Town	Total population	Percentage of scheduled tribes to total population
1	2	3
Dhenkanal town (M)	19,615	2.32
Bhuban town (C.T.)	11,350	...
Talcher town (M)	11,794	1.59
Angul town (N.A.C.)	9,053	1.31

Distribution of major Scheduled Tribe

Ten numerically important scheduled tribe communities are shown in Statement 35.

STATEMENT 35

Name of scheduled tribe	Population	Percentage to total scheduled tribe population
1	2	3
1. Shabar or Lodha	30,511	18.27
2. Khond, Kond or Kandha including Nanguli Kandha and Sitha Kandha	23,568	14.11
3. Gond or Gondo	21,236	12.72
4. Saora, Savar, Saura or Sahar	17,930	10.74
5. Kolha	12,386	7.42
6. Juang	11,378	6.81
7. Kisan	10,539	6.31
8. Munda, Munda-Lohara or Munda-Mahalis	8,626	5.17
9. Bhuiya or Bhuyan	4,507	2.70
10. Kharia or Kharian	3,836	2.30

The Shabar, Khond, Gond and Saora communities constitute the majority among the scheduled tribe population of the district.

Literacy

A study of the statement reveals that the literate and educated persons among the scheduled tribes constitute 11.07 per cent whereas the same for the state is 9.45 per cent. However, the literacy among the scheduled tribes is far too meagre as compared to the literacy among the general population.

STATEMENT 36

Literacy (including population in 0-4 age group) among Scheduled Tribes, 1971

District/ Tahsil	T/R/U	Percentage of literates		
		Persons	Males	Females
1	2	3	4	5
DHENKANAL DISTRICT	T	11.07	19.29	2.80
	R	11.03	19.24	2.77
	U	19.95	28.01	9.39
Dhenkanal	T	8.86	15.78	1.89
	R	8.87	15.82	1.88
	U	8.11	12.96	2.39
Kamakhyanagar	R	10.18	17.58	2.68
Talcher	T	11.40	20.65	2.07
	R	11.24	20.52	1.93
	U	18.18	25.23	8.75
Pallahara	R	8.28	14.57	1.95
Angul	T	14.17	25.58	2.93
	R	13.86	25.16	2.76
	U	68.07	79.49	46.34
Hindol	R	4.56	8.38	0.73
Athmallik	R	17.87	29.74	5.95

It would be evident from statement 36 that, Athmallik tahsil has recorded the highest percentage (17.87 per cent) of literates among all the seven tahsils of the district. Next in order comes Angul tahsil with 14.17 per cent of literates. Hindol tahsil recorded the lowest percentage of literacy with 4.56 percent.

Workers among the Scheduled Tribes

A total number of 56,467 persons or 33.81 per cent of the total tribal population of the district are workers and the rest 66.19 per cent are non-workers. Male workers constitute 58.60 per cent of the total male scheduled tribe population and female workers account for 9.22 per cent of the total female scheduled tribe population of the district. The rural and

urban break-up of the working population in the district indicates that a major proportion of scheduled tribe workers live in the urban areas of the district. This may be due to the greater scope of employment.

STATEMENT 37

Percentage of workers by sex among Scheduled Tribes, 1971

District		Percentage of workers		
		P	M	F
1		2	3	4
DHENKANAL	T	33.81	58.60	9.22
	R	33.79	58.26	9.20
	U	39.76	58.80	14.85

Statement 38 shows that the majority of the working population are engaged as cultivators and agricultural labourers. These two categories together claim about 90.03 per cent of the total tribal workers in the district.

Workers engaged in Livestock, Forestry, Fishing, Hunting etc. stand next followed by the workers in other services. Percentage of workers in other categories of work are not so significant.

STATEMENT 38

Percentage distribution of Scheduled Tribe workers by different industrial categories

Category of workers	Persons	Percentage	Males	Percentage	Female	Percentage
