DISTRICT CENSUS HANDBOOK

PART-C—ANALYTICAL REPORT AND ADMINISTRATION STATEMENTS AND DISTRICT CENSUS TABLES

BOLANGIR

PREFACE

The District Census Handbook is an innovation of 1951 Census. In that Census as well as in the next Census of 1961 the District Census Handbook was brought out in one volume. As indicated in the preface to the handbook Part-A, D.C.H. has been split into three parts for the first time in 1971 Census and brought out separately. The first part, Part-A consists of the Town Directory and the Village Directory incorporating some important statistical information relating to each Town and array of statistical data relating to land use and various other amentities available in each village. These are mostly of non-census character.

Part-B contains the essence of the Census data known as Primary Census Abstract. It gives demographic details of each District, Subdivision, Tahsil and Police Station down to each village and town and within the town each ward and enumerator block. The statistical information are enriched by administrative maps of the district, tahsils and police stations.

Part-C, the present publication contains the Census tables, tables on Village Directory and Primary Census Abstracts data generated on the Computor and tables on administrative welfare and developmental statistics.

A considerable portion of this Handbook could not have been compiled but for the co-operation and assistance of the State Government and respective departments. The department concerned extended their unfailing co-operation in furnishing whatever notes or information were required from time to time. I wish to record my appreciation and thanks for all the co-operation thus received from the departments of State Government.

I am also grateful to the Registrar General, India and Director of Census Operations, Orissa, for giving an outline of the scheme for preparation of the Handbook and for their valuable guidance from time to time.

I am glad to place on record my unstinted appreciation of the zeal and perseverance with the officers and staff of this organisation contributed to the preparation of the Handbook. Many of the facts and figures embodied herein had to be built up with a great amount of diligence from raw material, some of which were recovered by personal contact with the lower administrative units and some picked up and screened from a mass of reports and annual returns. Without the sincere co-operation of the officers and staff of this organisation it would have been hardly possible to present the formidable array of statistics and many other materials of non-census and census origin which fill the pages of the volume.

I owe a special debt of gratitude to the Director of Printing, Stationery and Publications, Orissa and his deputy and staff for the immense care they took in bringing out this volume.

B. C. DAS
Deputy Director

I

CHAPTER I

INTRODUCTION

The District Census Handbook was first introduced as an ancillary to 1951 Census. In Orissa it appeared as a State government publication in a more elaborate form in 1961. The District Census Handbook of 1961 was brought out as one volume comprising 3 parts for each of the 13 districts of State. Part I of the handbook gave narrative accounts of the district in a brief but comprehensive manner on various aspects of basic amenities and infrastructural facilities; Part II incorporated various census tables and the primary census data of each village and town, and Part III contained a mass of official statistics of various departments of government. This apart, inclusion of administrative maps of the district and lower administrative units enhanced the value of the publication. Notwithstanding the limitations it was acknowledged to be highly useful.

The utility of District Census Handbook was somewhat impaired due to late publication. The publication had to wait till conclusion of the tabulation programme and also for collection and compilation of administrative statistics from different sources. With a view to avoid the delay and to release the census data soon after the conclusion of the census operations, it was decided to bring out the District Census Handbook of 1971 in 3 parts separately with the data becoming available from stage to stage. The scope and contents of each part are briefly indicated below:

Part-A of the District Census Handbook incorporates the Town Directory and the village Directory of the district. The Town Directory contains certain essential data compiled in 6 statements relating to each town of the district. The Village Directory, besides giving statistical data relating to various amenities existing in a village also provides, basic data bearing on land use. These are mostly of non-census character.

Part-B contains the essence of the census data known as Primary Census Abstract or simply P.C.A. It gives demographic details of each district, sub-division, tahsil and police station down to each village and town and within the town each ward and enumerator's block. The aforementioned statistical information is further enriched by administrative maps of the districts, tahsils and police stations.

To facilitate easy location of a village, lists of villages, police station-wise, have been arranged in alphabetical order and placed immediately before the P.C.A.

Part-C, the last part of District Census Handbook presents the (a) census tables (b) tables on village directory and P.C.A. data generated on the computor and (c) tables on administrative, welfare and developmental statistics.

Section (a) of the handbook includes the following census tables of the 1971 census that gives data of the district and its lower limits.

A-Series-General Population Tables:

Table A-I	... ...	Area, houses and population
Appendix I to table A-I	... ...	Statement showing the 1961 territorial units constituting the present set up of each police station of district and details of net area gain or loss in the changed territories during the decade 1961-71.
Appendix II to table A-I	... ...	Number of villages with a population of 5,000 and over and towns with a population under 5,000.
Appendix III to table A-I	... ...	Houseless and Institutional population
Table A-II	... ...	Decadal variation in population since 1901
Appendix to table A-II	... ...	Statement showing 1961 population according to their territorial jurisdiction in 1961, changes in area and population of 1961 adjusted to jurisdiction of 1971
Table A-III and its appendix	... ...	Villages classified by population
Table A-IV	... ...	Towns and urban agglomerations classified by population in 1971 with variation since 1901
Appendices to table A-IV	... ...	New towns added in 1971 and towns in 1961 declassified in 1971

B-Series-Economic Tables:

Table B-I Part A	... ...	Workers and non-workers according to main activity classified by sex and age-groups
Table B-II	... ...	Workers and non-workers in cities and non-city urban areas according to main activity classified by sex and age-groups
Table B-III Part A	... ...	Classification of workers and non-workers according to main activity by educational levels in urban areas only

Table B-III Part B	...	...	Classification of workers and non-workers according to main activity by educational levels in rural areas only
Table B-IV Part A	...	...	Industrial classification of persons at work other than at cultivation as main activity by sex and divisions, major groups and minor groups
Appendix to B-IV Part A	...	...	Distribution of workers in manufacturing, processing, servicing and repairs by household industry and non-household industry
Table B-IV Part D	...	...	Industrial classification by sex and class of workers of persons at work in non-household industry, trade, business, profession or service as main activity
Table B-VI Part A (i)	..	...	Occupational classification of persons at work according to main activity other than cultivation classified by sex and broad age-groups in urban areas only
Table B-VI Part A (ii)	...	...	Occupational classification of persons at work according to main activity other than cultivation classified by sex and educational level in urban areas only
Table B-VI Part B (i)	...	...	Occupational classification of persons at work according to main activity other than cultivation classified by sex and broad age-groups in rural areas only
Table B-VI Part B (ii)	...	...	Occupational classification of persons at work according to main activity other than cultivation classified by sex and educational levels in rural areas only

Table B-VII	...	...	Secondary work i.e. persons having main activity (i) cultivators, (ii) Agricultural Labourers, (iii) Household Industry, (iv) Non-household Industry, Trade, Business or Service and (v) Non-workers classified by sex and by secondary work (i) cultivators, (ii) Agricultural labourers (iii) Household Industry, (iv) Non-household Industry, Trade, Business or Service
Table B-VIII	...	...	Persons classified as non-workers according to main activity crossclassified by sex, age-groups and type of activity

C-Series--Social and Cultural Tables:

Table C-I Part A	...	...	Members of households by relationship to head of household classified by age-groups
Table C-I Part B (i)	...	...	Households where the Head is a male by relationship of members with the head
Table C-I Part B (ii)	...	...	Households where the Head is a female by relationship of members with the head
Table C-II	...	...	Age and marital status
Table C-III Part A	...	...	Age, sex and education in all areas
Table C-III Part B	...	...	Age, sex and education in urban areas only
Appendix to table C-IV	...	...	Distribution of persons by five year age groups
Table C-V Part A (i)	...	...	Distribution of languages (Inclusive of mother tongues grouped under each) specified in Schedule VIII to the Constitution of India

Table C-V Part A (ii)	...	...	Distribution of languages (Inclusive of mother tongues grouped under each) specified in Schedule VIII to the Constitution of India for district/ sub-divisions/tahsils/police stations and towns
Table C-V Part B (i)	...	...	Speakers of languages/mother tongues (inclusive of mother tongues where grouped) other than those specified in Schedule VIII to the Constitution of India for the district
Table C-V Part B (ii)	...	...	Speakers of languages/mother tongues (inclusive of mother tongues where grouped) other than those specified in Schedule VIII to the Constitution of India for district/ sub-divisions/ tahsils/ police stations and towns
Table C-VII	...	...	Religion
Table C-VIII Part A	...	...	Classification by literacy and Industrial Category of Workers and Non-workers according to main activity among Scheduled Castes
Table C-VIII Part B	...	...	Classification by literacy and Industrial Category of Workers and Non-workers according to main activity among Scheduled Tribes
Appendix to C-VIII Part A	...	...	Scheduled Castes classified by literates and Illiterates
Appendix to C-VIII Part B	...	...	Scheduled Tribes classified by literates and Illiterates

D-Series--Migration Tables:

Table D-I	...	...	Population classified by place of birth
Appendix to Table D-I	...	...	Persons born in other district of the State and enumerated in this district

Table D-III	...	...	Migrants to urban units (including agglomeration) having 100,000 and above population classified by sex, broad age groups, educational levels and in case of workers by occupational divisions
Table D-IV	...	...	Population of urban units (including agglomeration) having 100,000 and above population classified by place of last residence and duration of residence
Table D-V	...	...	Migrant workers and non-workers according to main activities classified by place of last residence
Table D-VI	...	...	Migrants classified by place of last residence, age groups duration of residence and marital status

E-Series--Establishment Tables:

Table E-I	...	...	Distribution of establishments by broad types
Table E-II Part A	...	...	Distribution of manufacturing, processing or servicing establishments other than household industries classified by Registered Factories, Unregistered workshops and size of employment
Table E-II Part B	...	...	Distribution of manufacturing, processing or servicing establishments other than household industries classified by industry, fuel/power or manual used and size of employment
Table E-II Part C	...	...	Distribution of household industry establishments classified by industry fuel/power used and size of employment
Table E-III	...	...	Distribution of Trade/Commercial establishment classified by the type of business or trade and size of employment

Table E-IV	...	...	Distribution of establishments (other than manufacturing, processing or servicing or business and trade establishments) by size of employment

H-Series--Housing Tables:

Table H-I	...	...	Census Houses and the uses to which they are put
Table H-II	...	...	Distribution of Census houses by predominant material of wall and predominant material of roof
Table H-III	...	...	Households classified by number of members and by number of rooms occupied

In Section (b) a set of tables on Village Directory and Primary Census Abstract data, generated on the Computor are presented. These are:

Table 1--Distribution of villages with reference to area (in hectares)

Table 2--Distribution of villages by selected amenities, infrastructure and land use data with reference to distance from nearest town

Table 3--Distribution of villages by selected demographic characteristics and distance range from nearest town

Table 4--Average size of villages by distance range from the nearest town by size class

Table 5--Distribution of villages by size class of population having selected servicing institutions and demographic characteristics

Table 6--Distribution of villages by number of hamlets and percentage of Scheduled Caste and Scheduled Tribe population

Table 7--Distribution of villages by density of population per hectare

Table 8--Distribution of villages by proportion of scheduled castes and scheduled tribes population

Table 9--Villages by percentage of irrigated area to total cultivated area and density of population per hectare

Table 10--Villages by percentage of literacy having and not having telephone with reference to nearest town

In Section (c) of the Handbook administrative welfare and developmental statistics collected from various departments of Government, local bodies, institutions are presented on the following topics:

I. Temperature and Rainfall
II. Major events of the decade
III. Road and Transport
IV. Irrigation
V. Electricity
VI. Banks
VII. Medical and Public Health
VIII. Education
IX. Cultural and Recreational Activities

X. Agriculture
XI. Animal Husbandry
XII. Fisheries
XIII. Forest and Forest Products
XIV. Mines
XV. Joint Stock Company
XVI. Trade and Commerce
XVII. Land Revenue, Tenancy and Settlement

XVIII. Co-operative Societies
XIX. Family Welfare Centres
XX. Administration (Civil and Judicial)
XXI. Taxes and Fees
XXII. Community Development and Panchayati Raj and Local Bodies

Important concepts and definitions occurring in the column headings of the Census Tables are briefly explained.

VILLAGE

Village means a defined tract of land declared as such under law and includes both uninhabited village and unsurveyed village. Village area connotes the area contained within its exterior limits and excludes forest areas declared as reserved or protected forest under the Indian Forest Act, 1927 or any other law for the time being in force. However, it includes the unreserved forests known as Khesra forest or Gramya jungle. An unsurveyed village is considered as a village for all purposes of the Census but does not have demarcated exterior limits. It may contain one or many groups of houses or hamlets or may not contain any houses at all. An inhabited village is one in which human being reside while an uninhabited village is one which does not have any residential population.

TOWN

The definition of town for 1971 census was more or less the same as adopted in 1961 which is as follows:

(a) All places with a municipality, corporation or Cantonment or a notified area council
(b) All other places which satisfy the following criteria:

(i) minimum population of 5,000;
(ii) at least 75% of the male working population is non-agricultural;
(iii) density of population of at least 400 per square kilometre (i.e. 1,000 per square mile);
(iv) there should be distinct urban characteristics.

URBAN AGGLOMERATION

The concept of Urban Agglomeration is also a new feature of 1971 Census. In several areas around a core city or statutory town have come up fairly large well-recognised Railway colonies, University campuses, Port areas, Military camps, etc., and even though outside the statutory limits of a Corporation, Municipality or Cantonment they fall within the revenue boundary of the place by which the town itself is known. It may not be altogether realistic to treat such areas lying outside the statutory limits of a town as rural units; and at the same time each such individual area by itself may not satisfy the minimum population limit to qualify as an independent urban unit. Sometimes, even if these constituent units qualify to be recognised as towns in their own merits, if they are cut away from the main town to which they are agglomerated, the demographic and socio-economic characteristics of the agglomerated urban area may be lost.

There are different situations in which Urban Agglomerations would be constituted, for example:

(i) A city with continuous outgrowth;
(ii) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (i); and
(iii) A city and one or more adjoining towns with their outgrowth all of which formed a continuous spread.

ENUMERATOR'S BLOCK

The Enumerator's block generally consisted of a population of 750 in rural areas and 600 in urban areas. Basically, every village, big or small, was treated as an independent census block. In some cases bigger villages were split into more than one Enumerator's block depending on area, nature of terrain and population. Similarly, in some other areas, two or more small villages were combined to constitute the jurisdiction of one Enumerator while each such village continued to remain as an independent block. In towns, the ward was split to form Enumerator's block in terms of the above mentioned yardstick.

ESTABLISHMENT

An "Establishment" is defined as a place where goods are produced or manufactured not solely for domestic consumption or where servicing and/or repairing is done such as factory, workshop or household industry or servicing and/or repair workshop or a place where retail or wholesale business is carried on or commercial services are rendered or an office--public or private or a place of entertainment or a place where educational, religious, social or entertainment services are rendered. It is an indispensable condition to qualify as an establishment that one or more persons should be actually working in such a place. Thus an establishment will cover manufacturing, trade and other establishments where people work.

HOUSE

A "Census House" is a building or a part of a building having a separate main entrance from the road or common courtyard or stair case etc. used or recognised as a separate unit. It may be inhabited or vacant. It may be used for a residential or non-residential purpose or both.

OCCUPIED RESIDENTIAL HOUSE

An "Occupied residential house" is a Census house which is partly or wholly used for the purpose of residence at the time or census enumeration.

HOUSEHOLD

A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so.

SCHEDULED CASTES AND SCHEDULED TRIBES.

A person is a scheduled caste or scheduled tribe if he/she belongs to any one of the castes or tribes specified in the lists of scheduled castes and scheduled tribes of Orissa as per order 1956 and subsequent corrigenda and notifications.

LITERATE

A person is said to be "Literate" if he/she can both read and write with understanding in any language. A person who can merely read but cannot write is not a literate.

WORKER

A "Worker" is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involved not only actual work but effective supervision and direction of work.

The total workers have been classified into the following nine industrial categories:

I. Cultivators
II. Agricultural Labourers
III. Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities
IV. Mining and Quarrying
V. (a) Manufacturing, Processing, Servicing and Repairs at Household Industry
V. (b) Manufacturing, Processing, Servicing and Repairs other than Household Industry
VI. Construction
VII. Trade and Commerce
VIII. Transport, Storage and Communication
IX. Other Services

NON-WORKER

A person is basically a non-worker if he or she does not come under any of the categories of 'workers' mentioned above. A person who has been merely offered work but has not actually joined it, is to be treated as a non-worker. The activities of non-workers have been classified into the following seven categories.

(a) Household duties: This covers all those persons basically engaged in unpaid home duties doing no other work or even if such a person may also be participating in some other work, it is not to the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties. When a person whose main activity is attending to household duties, also engages oneself in some other economic activity such as helping in family cultivation or preparing cowdung cakes at odd times for sale, etc., that economic activity is covered as secondary work.

(b) *Student:* This refers to those whose main activity is returned as a student. This will cover all full-time students or children attending school. Even if such persons participated in some work but not to the same extent as a full-time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students, if that is their main activity.

(c) Retired person or a Rentier: A person who has retired from service and is doing no other work, i.e., not employed again in some fulltime work or does not engage himself in some other work as cultivation in business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work, comes under this category.

(d) Dependent: This includes all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age.

(e) Beggars, etc.: This covers beggars, or vagrants or such cases as independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

(f) Inmates of institutions: This includes convicts in jails or inmates of a penal, mental or charitable institution.

(g) Other non-workers: All non-workers who may not come under any of the six categories above but are seeking work they are included in this category.

CHAPTER II

INTRODUCING THE DISTRICT

Location: The district of Bolangir is located in the western part of Orissa. On the north the district is surrounded by the district of Sambalpur, on the east by the district of Baudh-Khondmals, on the south by the district of Kalahandi and on the west by the Nawapara Sub-division of the district of Kalahandi.

The climate of this district which is in the north eastern corner of the Deccan plateau is similar to that of the adjoining districts. The hot season from March to May is followed by the south-west monsoon season lasting upto about the end of September. October and November constitute the post monsoon season. The cold season is from December to February. The hot season commences by about the beginning of March when the mean daily maximum temperature is at 41.4°C (106.5°F) and the mean daily minimum temperature is at 27.8°C (82.0°F). During May and early part of June the maximum temperature sometimes rises to about 47°C (116.6°F). With the onset of the south-west monsoon by about the second week of June temperature drops appreciably and throughout the monsoon months the weather is generally cooler. In October after the south-west monsoon withdraws the day temperature is almost the same as in the previous month but the nights become cooler From November temperature decreases progressively, the fall in night temperature being more rapid. December is usually the coldest month with the mean daily maximum temperature at 28.1°C (82.6°F) and the mean daily minimum temperature at 13.2°C (55.8°F).

The average annual rainfall in the district is 1443.5 mm (56.83"). The variation in the annual rainfall in the district from year to year is not wide. On an average there are 67 rainy days in a year. The heaviest rainfall in 24 hours recorded at any station in the district was 365.5 mm (14.39") at Sonepur during 1918 on June 16. The relative humidities are high during the monsoon months. The air becomes gradually drier thereafter.

Terrain

The district has two distinct physiographical regions; the hills of the west and the river valleys of the east. The western part of the district is an undulating plain, rugged and isolated, with hill ranges running in various directions. A lofty irregular range called the Gandhamardan forms the natural boundary to the north-west. The soil in this area, for the most part is light and sandy. The main forest area stretches along the western boundary bordering the Nawapara Subdivision of Kalahandi district and then turns to the east running parallel to the Gandhamardan range. This forest tract mostly consists of thick vegetation Sal, Sahaj, Piasal, Dharua, Teak and Ebony forms the principal timber and good qualities bamboo from the principal forest product of the district. The rest of the range of Gandhamardan hills is a fine plateau, some ten miles long, with an average height of 3,000 feet. The Sonepur Subdivision in the eastern part of the district is a flat and slightly undulating area with isolated hills. The confluence of many tributaries of the Mahanadi, namely, Tel, Suktel, Ong and Jira may be described as the basin of the Mahanadi lies in this Subdivision constitutes the principal river system of the district. There are also a few hill streams which fall into these rivers. The soils are mostly light and sandy. The western portion has laterite soil and eastern portion red soil with a patch of black cotton soil in the centre. Forests cover an area of nearly 722 sq. miles and are of northern tropical dry deciduous type The rocks in this district are believed to contain huge deposits of manganese, graphite, bauxite and in recent years some manganese and graphite mines have started working.

Area: The area of Bolangir district is 8,903.0 sq. kms. according to the area figures received from the Surveyor General of India. The district boundary has not undergone any change during 1961 and 1971. Of the 13 districts, Bolangir accounts for 5.71 per cent of the total area of the State and continues to retain its eleventh position among the districts so far as area is concerned.

The district has been divided into four subdivisions, five tahsils and 17 police stations for administrative convenience. There has been slight change in the jurisdiction of police stations during the decade 1961 71. There was an adjustment in the jurisdiction between the Kantabanji and Turekela police stations and the creation of the new police station Bangomunda in place of Turekela. With 91 villages out of the Kantabanji police station known as Bangomunda was formed. The rest of the villages of the Kantabanji police station together with the entire area of Turekela police station were brought

under Kantabanji Police station. Appendix I to Table A-I shows the 1961 territorial units constituting the present set up. Table A-I gives the particulars of area in sq. km., population, number of villages, number of towns, number of occupied residential houses and number of households of the district alongwith its lower administrative units.

Titlagarh tahsil with an area of 2,421.6 sq. kms. is the largest tahsil of the district. It claims 27.20 percent of the total area of the district. Bolangir police station is the largest police station in the district among its 17 police stations, the area of which (936.3 sq. kms.) even exceeds the area of Birmaharajpur tahsil (896.2 sq. kms.), which is the smallest tahsil in the district.

Thedistrict has six towns in 1971 as against five towns in 1961. The emergence of only one town of Tarbha along with the growth of area in case of three existing towns during the decade 1961 - 71 increased the urban area of the district from 62.16 sq.kms. in 1961 to 100.53 sq. kms. in 1971.

Size and distribution of population

The population of Bolangir district is 1,263,657 at the sunrise of 1st April, 1971. Of this, 633,965 are males and 629,692 are females. The district accommodates 5.76 per cent of State's population in 1971 campared to 6.09 per cent in 1961.

The population within the district is not also evenly distributed. It varies from tahsil to tahsil and within the tahsil from police station to police station depending on the suitability of land for cultivation and some other related factors. Statement 1 amply corroborates this fact.

STATEMENT 1

DISTRIBUTION OF POPULATION AMONG TAHSILS

Below State average	State average	Above State average
1	2	3
Birmaharaj tahsil (99,708)	(213,055)	Bolangir tahsil (368,574)
		Titlagarh tahsil (348,066)
		Patnagarh tahsil (224,439)
		Sonepur tahsil (222,870)

The population of Bolangir, Titlagarh, Patnagarh and Sonepur tahsils of the district are above the State average. Only Birmaharajpur tahsil is below the State average. The tahsil which lies below the State average belongs to the inland region. The unproductive lands and the climate of inland area sustain less population.

DENSITY OF POPULATION

On an average 142 persons live in one sq. km. area in the district of Bolangir according to the 1971 Census. In the 1961 Census, it was 120 persons per sq. km. Thus an increase of 22 persons per sq. km. area during the decade may be due to 18.24 per cent growth of population in 1971 as against 16.43 per cent in 1961. The increase of density is too meagre as compared to the density of the State which is 141 persons per sq. km. It is significant to note the districts in inland tract of the State record relatively lower density than those of the coastal districts. A study of density figures of the lower administrative units of the district would throw up some interesting inclusions.

STATEMENT 2

DISTRIBUTION OF TAHSILS BY DENSITY OF POPULATION PER SQ. KM.

Below district average	State/District average	Above district average
Patnagarh tahsil (119)	State average (141)	Bolangir tahsil (164)
Birmaharajpur tahsil (111)	District average (142)	Sonepur tahsil (161)
		Titlagarh tahsil (144)

Among the tahsils in the district Bolangir tahsil records the highest density of population followed by Sonepur and Titlagarh tahsils. The density of population in Patnagarh and Birmaharajpur tahsils is well below the State average.

Households

There are 277,920 houses of all categories including the vacant houses in the district of Bolangir Of these, 216,485 are occupied residential houses which constitute 5.76 per cent of the total number of houses of the State (3,758,551) compared to 5.82 per cent in the 1961 Census. As many as 251,522 households dwell in these houses. This indicates that nearly 12 households live in 10 houses.

On an average 5 persons live in one household in Bolangir district which is equivalent to the State average of 5 persons per household.

Houseless Population

Appendix III to Table A-I of Section A of the Handbook presents the houseless and institutional population of the district and its lower administrative units. In the 1971 Census the district had recorded 2,761 houseless population as against 6,085 in 1961. About 59 per cent of the houseless population are males and the rest are females.

The number of houseless persons in rural areas is more than the urban areas of the district The urban areas of the district claim only 172 houseless persons as against 2,589 persons in its rural counterpart.

Institutional Population

In the 1971 Census as many as 2,752 persons have been recorded as institutional population. In other words, these persons live together as inmates of institutions like jails, hostels and hospitals etc. Of the total institutional population 2,269 are males and 483 are females. Institutional population in rural and urban areas accounts for 1,609 and 1,143 persons respectively.

Growth of Population

Change in the size of a population whether increase or decrease is called growth of population. The growth rate of population during the decade 1961 - 71 is 18.24 per cent and in absolute numbers the growth is 194,971 persons during the decade.

Statement 3 shows the decadal growth rate of the district and State from 1901.

STATEMENT 3

Year	Bolangir district district		Orissa State	
	Population	Percentage of growth rate during the decade	Population	Percentage of growth rate during the decade
1	2	3	4	5
1901	447,625		10,302,917	
1911	624,417	+39.50	11,378,875	+10.44
1921	721,207	+15.50	11,158,586	- 1.94
1931	804,844	+11.60	12,491,056	+11.94
1941	871,804	+ 8.32	13,767,988	+10.22
1951	917,875	+ 5.28	14,645,946	+ 6.38
1961	1,068,686	+16.43	17,548,846	+19.82
1971	1,263,657	+18.24	21,944,615	+25.05

It appears from statement 3 that during the period of 7 decades commencing from 1901 the rate of growth of population in Bolangir district was inconsistent. But during the decade 1961 71 the growth rate of population of the district registered a phenomenal rise over previous decades except 1911 due to various factors congenial for such growth Some of them are the extension of the Hirakud irrigation system, completion of a number of minor irrigation projects. development of road communications, construction of the Dandakaranya Bolangir Kiriburu Railway line connecting Titlagarh and Sambalpur and opening of C.D. Blocks in rural areas to carry out intensive developmental activities. Above all the mortality rate remarkably declined due to implementation of small pox and malaria eradication programme. A tahsilwise growth rate during the decade is indicated in Statement 4

Statement 4.

District/Tahsil	Growth rate 1961 71
Bolangir district	18.24
Bolangir tahsil	20.68
Sonepur tahsil	20.16
Birmaharajpur tahsil	11.99
Titlagarh tahsil	16.64
Patnagarh tahsil	19.52

The growth rate of Bolangir tahsil is the highest. Next to it comes Sonepur tahsil. Ever increasing handloom industry has attracted people from outside.

RURAL AND URBAN POPULATION

In Bolangir district there are 2,752 villages of which 2,523 are inhabited villages of different sizes and 229 uninhabited villages. The rural population of this district is 1,176,994 and they constitute 93 per cent of the total population of the district. On an average 467 persons live in a village of this district which exceeds the State average of 428 persons.

STATEMENT - 5

AVERAGE POPULATION OF A VILLAGE

District/Tahsil	Average population of a village 1971
1	2
Bolangir district	467
Bolangir tahsil	488
Sonepur tahsil	449
Birmaharajpur tahsil	323
Titlagarh tahsil	491
Patnagarh tahsil	519

Average population size of a village of Bolangir, Titlagarh and Patnagarh tahsils are well above the district and State average. In Sonepur tahsil the average population size of a village is above the State average but below the district

average whereas in Birmaharajpur tahsil the size is below in both the district and State averages. Concentration of rural population in the areas of Bolangir, Titlagarh and Patnagarh tahsils is mainly due to availability of fertile land for agricultural activities.

URBAN

In 1971 there are six urban units in the district as against five in 1961. Tarbha is the only new town in 1971

Of the total population of Bolangir district 86,663 are urban dwellers. They constitute 6.86 per cent of the total population of the district which far exceeds the percentage (4.65) of urban dwellers in 1961. The addition of one new town in 1971 has led to the increase of urban population in the district to some extent.

Statement 6 reveals that only Birmaharajpur tahsil has no urban population. The proportion of urban population of the remaining tahsils is given in the statement.

STATEMENT - 6

Name of tahsil	No.of towns	Percentage of Urban population to total urban population of the district, 1971.	Percentage of urban population to total population of tahsil 1971.
1	2	3	4
Bolangir	1	41.25	9.70
Sonepur	2	16.73	6.51
Titlagarh	2	30.38	7.56
Patnagarh	1	11.64	4.49

Bolangir tahsil claims the highest percentage of urban population of 41.25 per cent to total urban population of the district whereas urban dwellers constitute 9.70 per cent to the total population of Bolangir Tahsil. Titlagarh tahsil comes next to Bolangir tahsil and rest of the two tahsils are less urbanised.

In 1971 Census the towns have been classified into six categories according to their size of population. There is no class I or class II towns in the district.

Statement 7 shows the classification of towns on the basis of their population size during 1961 and 1971.

STATEMENT 7

Name of towns/Urban Aggolomeration	Population		Size class of town	
	1961	1971	1961	1971
1	2	3	4	5
Bolangir Town (M)	18,663	35,748	IV	III
Sonepur Town (M)	7,108	8,084	V	V
Tarbha Town (NAC)		6,417	-	V
Titlagarh Urban Agglomeration		15,840	-	IV
Titlagarh Town (NAC)	7,433	14,504	V	IV
D.A.V. College Area (O.G.)		1,336		
Kantabanji Town(NAC)	8,863	10,489	V	IV
Patnagarh Town (NAC)	7,592	10,085	V	IV

It is evident from the statement that Bolangir town which was a class IV town in 1961, has been elevated to Class III status in 1971. Similarly Kantabanji and Patnagarh towns which were class V towns in 1961 have been classified in class IV category in 1971. New town of Tarbha emerged as a class V town.

Urban agglomeration is an important new concept introduced in the 1971 Census. The idea is to delimit a comprehensive area having a contiguous urban spread comprising the core town with its adjoining urban out-growth, or two more contiguous towns with their urban out-growth, with a view to presenting a comprehensive demographic and socio-economic picture of the agglomerated urban area as a whole and of its constituent units separately. In the district, Titlagarh is the only urban agglomeration constituted in the 1971 Census. The Titlagarh urban agglomeration constitute, Titlagarh N.A.C., D.A.V. College area and its out-growth.

Statement 8 gives the functional classification of towns in the district.

STATEMENT 8

Size class of towns	Total no. of towns	Name of town	Functional category
1	2	3	4
III	1	Bolangir	Service
IV	3	Titlagarh	Service-cum-Trade-cum-Industry
		Kantabanji	Transport-cum-service-cum-Trade
		Patnagarh	Primary activity
V	2	Sonepur	Industry-cum-service-cum-Trade
		Tarbha	Primary-cum-Industrial

Of the six towns, two are mono-functional, one is bi-functional and three are multi-functional. Bolangir and Patnagarh are mono functional towns in the district Bolangir being district headquarters towns has been classified in 'service' category as majority of the population are engaged in the service in various offices of the government.

Sex ratio

In Bolangir district the sex ratio is 993 females per 1,000 males which is above the State average of 988. The sex ratio of the district has declined from 1,000 in 1961 to 993 in 1971. The district records a steady fall in sex ratio from the year 1901. Statement 9 shows the sex ratio of Orissa and Bolangir district from 1901 to 1971.

STATEMENT 9

Year	Bolangir district			Orissa State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	1,042	1,043	979	1,037	1,039	967
1911	1,030	1,029	1,089	1,056	1,058	947
1921	1,028	1,026	1,137	1,086	1,089	963
1931	1,025	1,025	1,026	1,067	1,071	924
1941	1,020	1,021	1,001	1,053	1,058	914
1951	1,010	1,013	957	1,022	1,029	881
1961	1,000	1,004	923	1,001	1,015	807
1971	993	999	923	988	1,002	845

Statement 9 shows that the sex ratio in urban areas of the district is lower than that of rural areas from 1941 to 1971. Sex ratio among tahsils shows that Birmaharajpur tahsil which is constituted by rural areas only registers comparatively lower sex ratio among the tahsils which may be examined from statement 10. However, Titlagarh, Patnagarh and Sonepur tahsils registered a higher sex ratio than the district.

STATEMENT 10

District/ Tahsil	1971		
	Total	Rural	Urban
1	2	3	4
Bolangir District	993	999	923
Bolangir Tahsil	991	1,000	913
Sonepur Tahsil	995	998	945
Birmaharajpur Tahsil	990	990	
Titlagarh Tahsil	995	1,002	916
Patnagarh Tahsil	995	997	945

AGE STRUCTURE

Population has been categorised under three broad age groups -- young, adult and old. Population in the age-group 0 -- 14 is included in the young age -group; those between 15 - 59 years in the adult age-group and the rest aged 60 and above are in the old age-group. In Orissa, the population under young, adult and old age groups constitute 42.4 per cent, 51.6 per cent and 6.0 per cent respectively. The distribution of population under these broad age groups in respect of Bolangir district more or less follows the same pattern as recorded for the State.

STATEMENT 11

Age group	1961						1971					
	Persons	Percentage to persons	Males	Percentage to total males	Females	Percentage to total females	Persons	Percentage to total Persons	Males	Percentage to total males	Females	Percentage to total females
1	2	3	4	5	6	7	8	9	10	11	12	13
All ages	1,068,686	100.00	534,219	100.00	534,467	100.00	1,263,657	100.00	633,965	100.00	629,692	100.00
0 — 14	426,488	39.91	213,956	40.05	212,532	39.77	516,138	40.85	258,642	40.80	257,496	40.89
15 — 59	585,861	54.82	295,902	55.39	289,959	54.25	673,457	53.29	340,450	53.70	333,007	52.88
60 +	55,521	5.19	24,022	4.50	31,499	5.89	73,761	5.84	34,671	5.47	39,090	6.21
Age not stated	816	0.08	339	0.06	477	0.09	301	0.02	202	0.03	99	0.02

A comparison with the 1961 Census reveals that the proportion of population in young age group of 0--14 years increased very slightly by less than one per cent in 1971 compared to 1961. There has been a decline in the population in the age group 15–59 during the last decade.

Literacy and education

There are 251,724 literate and educated persons in the district of Bolangir according to the 1971 Census. The literate and educated persons constitute 19.92 per cent as against 14.59 per cent recorded in the 1961 Census. The literate males form 32.28 per cent of the total male population of the district, whereas literate females constitute only 7.48 per cent of the female population as indicated in statement 12.

STATEMENT 12

Census year	Percentage of literacy (including population in 0 -- 4 age-group)	
	Males	Females
1971	32.28	7.48
1961	24.94	4.24

In rural areas literates form 17.99 per cent compared to 46.08 per cent recorded for urban population of the district. Statement 13 provides percentage of literates of rural and urban population of the district and its tahsils.

XXIV

STATEMENT – 18

TAHSILWISE LITERACY (INCLUDING POPULATION IN AGE 0–4) of 1971.

District/Tahsil	T R U	Percentage of literacy		
		P	M	F
1	2	3	4	5
Bolangir district	T	19.92	32.28	7.48
	R	17.99	30.22	5.75
	U	46.08	59.09	31.98
Bolangir tahsil	T	22.89	35.81	9.86
	R	20.06	32.93	7.18
	U	49.30	61.48	35.96
Sonepur Tahsil	T	21.54	35.00	8.00
	R	20.15	33.41	6.87
	U	41.48	57.29	24.75
Birmaharajpur Tahsil	R	22.34	37.58	6.94
Titlagarh Tahsil	T	16.17	26.83	5.46
	R	13.68	24.12	3.26
	U	46.64	58.58	33.62
Patnagarh Tahsil	T	18.17	29.83	6.44
	R	17.15	28.65	5.62
	U	39.77	54.39	24.31

Bolangir tahsil has recorded the maximum literacy (22.89 per cent) and Titlagarh tahsil records the lowest with 16.17 per cent.

Among the six towns of the district maximum literacy (49.40 per cent) has been recorded in respect of Titlagarh town closely followed by Bolangir town with 49.30 per cent. Tarbha town records the lowest literacy (39.34 per cent) among the towns. However literacy in urban areas is higher as compared to the rural areas of the district.

Mother-tongue

As many as 51 languages including 15 languages (inclusive of mother-tongues grouped under each) specified in the Schedule VIII to the Constitution of India were returned from the Orissa State in the 1971 Census. Of these 12 constitutional languages are spoken as mother-tongues in Bolangir district. Excepting Sanskrit, Assamese and Kashmiri all other languages as specified in the Schedule VIII to the Constitution of India were returned from this district. Besides 10 other languages (inclusive of mother-tongue where grouped) are spoken as mother-tongue in the district of Bolangir. Statement 14 depicts the percentage distribution of population among major languages in the district in 1971.

STATEMENT - 14

PERCENTAGE DISTRIBUTION OF POPULATION AMONG MAJOR LANGUAGES IN 1971.

Mother-tongue	Percentage of total population		
	Total	Rural	Urban
Total	100.00	100.00	100.00
Oriya	98.42	9.48	84.11
Hindi	0.82	0.29	7.91
Telugu	0.35	0.09	3.86
Urdu	0.13	0.05	1.24
Gujarati	0.10	0.01	1.31
Bengali	0.04	0.01	0.54
Munda	0.04	0.05	0.01
Sindhi	0.03	N	0.36
Tamil	0.02	0.01	0.11
Punjabi	0.01	N	0.16
Others	0.04	0.01	0.39

Note — 'N' stands for negligible.

It would be seen from the statement that the speakers of Oriya form an overwhelming majority in the district. Oriya speakers constitute 98.42 per cent of the population of the district in 1971. Speakers of one language other than those specified in Schedule VIII to the Constitution viz. Munda claim only a meagre proportion in the district. Speakers of all other languages do not constitute a very remarkable proportion. This is perhaps due to lack of any large scale industries which do not attract people of the neighbouring areas for employment.

Religion

The decinnial census provides an interesting picture of the religions persuasion of the population. Table C–VII gives the distribution of population among the six major religions viz., Hindus, Muslims, Christians, Sikhs, Buddhists and Jains in 1971 count.

Statement 15 depicts the distribution of percentage of population of each of the six major religions to the total population of the district for 1961 and 1971 census.

STATEMENT - 15

Percentage distribution of population among religions communities 1961 and 1971.

Religions communities	Percentage of total population					
	1961			1971		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
Total	100.00	100.00	100.00	100.00	100.00	100.00
Hindus	99.21	99.35	96.34	98.66	99.00	94.02
Muslims	0.48	0.11	2.51	0.27	0.13	2.08
Christians	0.22	0.48	0.33	0.89	0.77	2.54
Sikhs	0.02	0.02	0.17	0.01	N	0.13
Buddhists	N	N		N		0.04
Jains	0.07	0.04	0.63	0.17	0.10	1.19
Other religions and persuasion	N		0.02			

N — Negligible

It is seen from the statement that 98.66 per cent of the total population of the district are Hindus, 0.27 per cent are Muslims and 0.89 per cent are Christians. Followers of Sikhism and Jainism constitute 0.01 per cent and 0.17 per cent respectively to the total population of the district Followers of Buddhism constitute oegligible percentage.

Compared to the 1961 figures there has been a decline in the percentage of Hindus and Muslims. The percentage of Christians has shown marginal improvement over 1961 figures.

It is seen that the followers of Muslims , Christians and Jains are higher in urban areas whereas in rural areas Hindus constitute majority.

Migration

Movement of people from one place to the other under economic necessity and social ties is sometimes called migration.

Birth place migrant

A change in the normal place of residence with reference to the place of birth is defined as migration according to birth place concept. The extent of migration in Bolangir district as determined by the place of birth is shown in Statement 16.

STATEMENT 16

Birth place		Persons	Males	Females
A.	Born in India	1,263,362 (99.98%)	633,785 99.97%)	629,577 (99.98%)
I	Within the State of enumeration	1,254,487 (99.28%)	628,755 (99.18%)	625,732 (99.37%)
	(a) Born in place of enumeration	852,902 (67.50%)	538,624 (84.97%)	314,228 49.90%)
	(b) Born else where in the district of enumeration	351,404 (27.81%)	75,786 (11.96%)	275,618 (43.77%)
	(c) Born in other districts of the State	50,181 (3.97%)	14,295 (2.25%)	35,886 (5.70%)
II.	Born in the States of India beyond the State of enumeration	8,875 (0.70%)	5,030 (0.79%)	3,845 (0.61%)
B.	Born incountries in Asia beyond India (including U.S.S.R.)	290 (0.02%)	180 (0.03%)	110 (0.02%)
Countries in Africa		5 (N)		5 (N)

Note — 'N' stands for Negligible

Statement 16 reveals that 67.5 per cent of the total population of the district are enumerated at their place of birth while 27.8 per cent are enumerated elsewhere in the district of enumeration.

Persons having their birth place in other districts of the State but migrated to Bolangir district constitute 2.3 per cent of males and 5.7 per cent of females. Inmigrants of this district whose birth place is in other states of India constitute 0.7 per cent of the population of which males constitute 0.8 per cent and females constitute 0.6 per cent.

LAST RESIDENCE MIGRANT

A change in the usual place of residence of an individual with reference to his previous usual place of residence is termed as a migration in accordance with 'last residence' concept. The classification of such migrants into nine industrial categories of workers and non-workers, is indicated in statement 17.

STATEMENT 17

Last residence	Industrial Category I: Cultivators M	Cultivators F	I: Agricultural labourers M	Agricultural labourers F	II: Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities M	Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities F	III: Mining and Quarrying M	Mining and Quarrying F	IV: Manufacturing, Processing Servicing and repairs (at Household Industry) M	Manufacturing, Processing Servicing and repairs (at Household Industry) F
1	2	3	4	5	6	7	8	9	10	11

II. States in India beyond the State of enumeration.	250	50	210	15	75	5	30		130	5
B. Outside India										

M	F	M	F	M	F	M	F	M	F	M	F
12	13	14	15	16	17	18	19	20	21	22	23
1,910	555	700	45	4,230	1,050	2,325	75	9,905	2,915	25,535	300,820
1,465	530	560	45	3,200	1,005	1,730	75	9,425	2,830	24,295	297,435
1,025	440	350	45	2,035	835	1,210	45	6,880	2,420	20,295	264,205
440	90	210		1,165	170	520	30	2,545	410	4,000	33,230
445	25	140		1,030	45	595		480	85	1,240	3,385
10				20				15	5	35	85

Among the migrants of this category 25,125 males and 6,090 females with their last residence within the State of enumeration but outside the place of enumeration, work as cultivators of which 22,500 males and 5,130 females have their last residence within this district of enumeration. Migrants to this district are mostly engaged in primary sector of the economy.

Workers and non-workers

Of the total population, 385,394 males and 39,074 females are workers and the rest are non-workers. Workers constitute 33.59 per cent of the total population of the district. The proportion of workers to total population in 1971 has gone down significantly. This is mainly due to the change in the concept of "workers" in 1971. The definition of workers was too flexible in 1961 Census. Owing to the changes in the definition of "workers" the figures of 1961 and 1971 censuses are not strictly comparable. Statement 18 depicts the percentage of workers to total population of the district.

STATEMENT 18

WORKERS AND NON-WORKERS IN 1971

		Sex-wise percentage of workers and non-workers in 1971		
		Total	Rural	Urban
Workers	Total	33.59	33.95	28.76
	Male	60.79	61.65	49.53
	Female	6.21	6.20	6.27
Non-workers	Total	66.41	66.05	71.24
	Male	39.21	38.35	50.47
	Female	93.79	93.80	93.73

It is seen from the statement that 60.79 per cent of the male population and 6.21 per cent of the female population are workers.

Workers have been divided into nine broad industrial categories according to the type of work they perform. The distribution of workers per 1,000 population in total, rural and urban areas in various categories is given in statement 19.

STATEMENT 19

Industrial Category		Male/Female	Total	Rural	Urban
1		2	3	4	5
	Total population	M	1,000	1,000	1,000
		F	1,000	1,000	1,000
	Total workers	M	608	617	495
		F	62	62	63
	As Cultivator	M	356	378	64
		F	13	14	2
II.	As Agricultural Labourers	M	158	168	35
		F	28	30	5
III.	In Livestock, Forestry, Fishing, Hunting & Plantations, Orchards & allied activities	M	11	11	15
		F	1	1	1
IV.	In Mining & Quarrying	M	1	N	1
		F	N	N	1
V(a)	In manufacturing, processing, servicing & repairs at household industry	M	23	23	31
		F	9	9	7
V(b)	In manufacturing, processing, servicing & repairs other than household industry	M	6	3	45
		F	1	1	6
VI.	In construction	M	2	1	14
		F	N	N	N
VII.	In trade and commerce	M	12	6	89
		F	3	2	13
VIII.	In transport, Storage & Communications	M	6	2	56
		F	N	N	2
IX.	In other services	M	33	25	145
		F	7	5	26
X.	Non-workers	M	392	383	505
		F	938	938	937

It is evident from the statement that cultivators and agricultural labourers account for the largest proportion of workers in the district. Sizeable proportion of workers are seen in manufacturing, processing, servicing and repairs at household industry and in other services.

Workers under different industrial categories are further grouped under the Primary, Secondary and Tertiary sectors. The primary sector constitutes workers under categories I to IV, the secondary sector includes categories V and VI and the tertiary sector includes categories VII to IX. The distribution of working population of the district in different sectors of economy is given in statement 20.

STATEMENT 20

PERCENTAGE DISTRIBUTION OF WORKERS BY SECTORS FOR ALL AREAS FOR EACH SEX 1971.

Sector of economy	Percentage distribution		
	P	M	F
1	2	3	4
All sectors	100.00	100.00	100.00
Primary sector	84.70	86.44	67.52
Secondary sector	6.22	5.13	17.03
Tertiary sector	9.08	8.43	15.45

It is clear from the statement that more than three fourth of the working population of the district come under primary sector. The low proportion of workers in the Secondary sector indicates the stagnation in the industrial sector. It is seen that proportion of female participation is higher in both secondary and tertiary sectors.

In rural areas of the district 88.59 per cent of the working population are engaged in the primary sector. The rest 11.41 per cent are distributed in the remaining two sectors (5.46 in the secondary and 5.95 in the tertiary sector).

STATEMENT 21

PERCENTAGE DISTRIBUTION OF WORKERS BY SECTORS IN RURAL AREAS FOR EACH SEX 1971

Sector of economy	Percentage distribution		
	P	M	F
1	2	3	4
All sectors	100.00	100.00	100.00
Primary	88.59	90.32	71.38
Secondary	5.46	4.33	16.73
Tertiary	5.95	5.35	11.89

In urban areas, there is concentration of workers in the tertiary sector.

STATEMENT 22

PERCENTAGE DISTRIBUTION OF WORKERS BY SECTORS IN URBAN AREAS FOR EACH SEX 1971

Sector of economy	Percentage distribution		
	P	M	F
1	2	3	4
All Sectors	100.00	100.00	100.00
Primary	22.30	23.31	13.66
Secondary	18.52	18.23	21.02
Tertiary	59.18	58.46	65.32

Workers by broad age group

The entire bulk of the working population is divided into three broad age groups viz, 0 – 14 years, 15 – 59 years, and 60 years and above.

XXXIII

STATEMENT 23

PERCENTAGE OF WORKERS TO TOTAL POPULATION IN EACH BROAD AGE-GROUP 1971.

Age-group	Percentage of workers		
	P	M	F
1	2	3	4
Total	33.59	60.79	6.21
0 — 14	8.00	14.79	1.18
15 — 59	52.23	93.81	9.72
60 +	42.56	79.98	9.36
Age not stated	10.96	14.36	4.04

It is surprising to note that 8.00 per cent are workers in the tender age group of 0 — 14. This indicates that the parents engage their children in work instead of sending them to schools due to their backward economy. The next age group which forms the core of the working force constitute 52.23 per cent of the total population in that age group. The percentage of male and female workers in this age group are 93.81 and 9.72 respectively. In the age group of 60 years and above 42.56 per cent are workers.

From statement 24 it is seen that a majority in the tender age group of 0-14 years are engaged in primary sector of economy. They mostly assist their parents in various agricultural occupations.

STATEMENT 24

PERCENTAGE DISTRIBUTION OF WORKERS BY PRIMARY, SECONDARY AND TERTIARY SECTORS OF ECONOMY IN EACH AGE–GROUP, 1971.

Age group	Primary	Secondary	Tertiary
1	2	3	4
0 — 14	93.47	3.05	3.48
15—59	83.41	6.61	9.98
60 and above	87.61	6.03	6.36
Age not stated	54.55	9.09	36.36

Of the total workers in the working age group of 15 — 59, 83.41 per cent are engaged in the primary sector, 6.61 per cent in the secondary sector and 9.98 per cent in the tertiary sector. Persons in the old age group of 60 and above are mostly engaged in the primary sector.

Non workers

All those persons who are not economically active or whose main activities do not come under any economically productive work are basically non-workers. The number of such persons in the 1971 Census is 839.189 or 66.41 per cent of the total population of the district. 66.05 per cent of the rural population and 71.24 per cent of the urban population are non-workers.

The total non-working population is further classified in to seven categories, namely (i) Students (ii) Household duties (iii) Dependants and infants (iv) Retired, Rentiers and persons of independent means, (v) Beggars, Vagrants etc. (vi) Inmates of Penal, Mental and Charitable institutions and (vii) Others. The disposition of all those non-workers is shown in statement 25.

STATEMENT 25

Classification of non-workers	1971	
	Persons	Percentage
1	2	3
Total non-working population	839,189	100.00
(i) Students	96,055	11.45
(ii) Household duties	370,196	44.11
(iii) Dependants and Infants	367,202	43.76
(iv) Retired, rentiers and persons of independent means	888	0.10
(v) Beggars, Vagrants etc.	2,772	0.33
(vi) Inmates of penal, mental and charitable institutions	344	0.04
(vii) Others	1,732	0.21

It would be seen from statement 25 that majority of non-workers are engaged in household duties. Persons categorised as dependants and infants stand next. Full time students or the children attending school form 11.45 per cent of the non-workers in the district.

Scheduled Castes

A total number of 208,430 persons in the district have been recorded as scheduled castes in 1971. They form 16.49 per cent of the population of the district compared to the state average of 15.09 per cent.

STATEMENT 26

PROPORTION OF SCHEDULED CASTES 1971

District/Tahsil	Percentage of scheduled caste population to total persons, males and females.					
	Persons	Percentage	Males	Percentage	Females	Percentage
1	2	3	4	5	6	7
Bolangir district	208,430	16.49	105,224	16.60	103,206	16.39
Bolangir tahsil	56,324	15.28	28,530	15.41	27,794	15.15
Sonepur tahsil	38,626	17.33	19,286	17.26	19,340	17.40
Birmaharajpur tahsil	19,383	19.44	9,739	19.44	9,644	19.44
Titlagarh tahsil	65,569	18.84	33,129	18.99	32,440	18.69
Patnagarh tahsil	28,528	12.71	14,540	12.92	13,988	12.50

Statement 26 shows that the distribution of scheduled caste population in different tahsils of the district is uneven. Patnagarh tahsil recorded the lowest proportion of scheduled castes with 12.71 per cent as against the highest concentration of 19.44 per cent in Birmaharajpur tahsil.

Compared to 18.24 per cent growth of total population of the district, the growth rate for scheduled caste population stands at 11.21 per cent during the decade. Statement 27 shows the percentage of growth of scheduled caste population of the district during the decade.

STATEMENT 27

Census year	Scheduled caste population of the district	Decadal variation	Percentage decade variation	S.C. males	S.C. females
1	2	3	4	5	6
1961	187,422			93,513	93,909
1971	208,430	+21,008	+11.21	105,224	103,206

The sex ratios of Orissa and Bolangir district have declined during the decade (1961 1971). Likewise the sex ratio of scheduled caste community has also declined from 1,004 (females for 1,000 males) in 1961 to 981 in 1971.

The percentage of scheduled caste population in all the six towns of Bolangir district varies between 10 to 16 per cent. The highest and lowest percentage are claimed by Sonepur town (15.82 per cent) and Patnagarh town (9.30 per cent) respectively.

Distribution of major scheduled castes

The Gandas constitute the majority among the scheduled caste population in the district. Gandas number 147,833 or 70.93 per cent of the total scheduled caste population in the district. Statement 28 indicates the population of different scheduled caste communities in the district during 1971.

STATEMENT 28

Name of Scheduled caste		Population	Percentage of S.C. to total S.C. Population.
	1	2	3
1.	Ganda	147,833	70.93
2.	Dhoba or Dhobi	10,163	4.88
3.	Dom, Dombo or Duria Dom	7,264	3.49
4.	Ghasi or Ghasia	6,835	3.28
5.	Mehera or Mahar	2,336	1.12
6.	Chamar, Mochi,Muchi or Satnami	1,202	0.58
7.	Khadala	900	0.43
8.	Panika	866	0.42
9.	Tiar or Tior	832	0.40
10	Bariki	569	0.27
11	Bhata	510	0.24
12	Tanla	271	0.13
13	Kandara or Kandra	267	0.13
14	Laban	221	0.11
15.	Pan or Pano	214	0.10

All the major scheduled caste communities except Mehera, Chamar, Panika and Bariki increased in number during the decade 1961 – 71. In absolute figures, the population of Mehera has declined from 2,538 in 1961 to 2,336 in 1971. The Chamars have declined from 1,262 persons in 1961 to 1,202 in 1971. The population of Panika has also declined from 885 in 1961 to 866 in 1971. Likewise Bariki has declined from 2,638 in 1961 to 569 in 1971.

Literacy among the Scheduled Castes

The percentage of literates (including population in 0 - 4 age group) among scheduled castes of Bolangir district stands at 11.68 per cent as against 15.61 per cent for the State. Literacy among scheduled caste males and females of Bolangir district is 20.27 and 2.92 per cent respectively.

STATEMENT 29

LITERACY IN SCHEDULED CASTES - 1971

District/Tahsil		Percentage of literacy in S.Cs to total S.Cs population (including 0—4 age group)		
		Person	Male	Female
1		2	3	4
Bolangir District	T	11.68	20.27	2.92
	R	10.79	19.08	2.36
	U	27.77	42.22	13.05
Bolangir Tahsil	T	11.96	20.42	3.28
	R	10.87	18.93	2.62
	U	25.45	38.62	11.60
Sonepur Tahsil	T	11.73	20.62	2.87
	R	11.18	19.64	2.69
	U	22.48	4.60	6.27
Birmaharajpur Tahsil	R	12.30	22.28	2.22
Titlagarh Tahsil	T	11.50	19.96	2.85
	R	10.20	18.29	1.97
	U	31.96	45.73	17.20
Patnagarh Tahsil	T	11.05	18.87	2.92
	R	10.36	17.96	2.41
	U	31.56	46.92	17.15

Birmaharajpur tahsil claims the highest percentage with 12.30 per cent followed by Bolangir (11.96 per cent) Sonepur (11.73 per cent), Titlagarh (11.50 per cent) and Patnagarh (11.05 per cent).

Workers among the scheduled caste population

71,751 persons among the scheduled castes of this district are workers. This works out to 34.42 per cent of the total scheduled caste population of the district. Sex-wise distribution of workers among scheduled castes in this district shows that the males constitute 59.80 per cent compared to 8.55 per cent of female workers.

STATEMENT 30

Percentage of workers by sex among S.Cs 1971

District		Percentage of workers		
		P	M	F
1		2	3	4
BOLANGIR	T	34.42	59.80	8.55

STATEMENT 33

TAHSIL-WISE PERCENTAGE OF SCHEDULED TRIBES TO TOTAL PERSONS, MALES AND FEMALES.

District/ Tahsil	Persons	Percen-tage	Males	Percen-tage	Females	Percen-tage
1	2	3	4	5	6	7
Bolangir district	249,131	19.72	123,504	19.48	125,627	19.95
Bolangir tahsil	61,391	16.66	30,355	16.40	31,036	16.92
Sonepur tahsil	24,138	10.83	11,950	10.69	12,188	10.97
Birmaharajpur	5,497	5.51	2,738	5.47	2,759	5.56
Titlagarh tahsil	79,907	22.96	39,578	22.68	40,329	23.23
Patnagarh tahsil	78,198	34.84	38,883	34.55	39,315	35.13

A study of the distribution of scheduled tribes among tahsils reveals that Patnagarh tahsil has the highest concentration (34.84 per cent) of scheduled tribes followed by Titlagarh (22.96 per cent), Bolangir (16.66 per cent), Sonepur (10.83 per cent) and Birmaharajpur (5.51 per cent).

The distribution of scheduled tribe population in urban areas of the district shows that in Patnagarh town the percentage of scheduled tribes to its total population is the highest.

SCHEDULED TRIBE

A total number of 249,131 scheduled tribes have been returned in the district in 1971 Census as against 220,916 in 1961. Scheduled tribes constitute 19.72 per cent as against 23.11 per cent recorded for the state. Statement 32 shows the growth rate of scheduled tribe population during the decade.

STATEMENT 32

Census year	Tribal population of of the district	Decade variation	Percentage of decade variation	Males	Females
1	2	3	4	5	6
1961	220,916			109,087	111,829
1971	249,131	+28,215	+12.77	123,504	125,627

The scheduled tribe population of the district of Bolangir increased during the decade. A growth rate of 12.77 per cent for the tribes in Bolangir district does not seem to be so high when compared to the growth rate of 20.08 per cent for the scheduled tribe population of the state during the decade 1961 – 71

Sex-wise break-up of the population shows that 123,504 males and 125,627 females have been returned in 1971 as against 109,087 males and 111,829 females in 1961. The sex ratio in this district has come down to 1017 in 1971 from 1025 in 1961.

STATEMENT 35

Name of Scheduled Tribe		Population	Percentage to total population
1		2	3
1.	Gond, Gondo	69,685	27.97
2.	Kond, Khond or Kandha including Nanguli Kandha and Sitha Kandha	58,297	23.40
3.	Binjhal	28,186	11.29
4.	Saora, Saura, Savar or Sahara	25,421	10.20
5.	Shabar or Lodha	18,092	7.26
6.	Dal	9,824	3.94
7.	Mirdhas	6,256	2.51
8.	Munda, Munda-Lohara or Munda-Mahalis	2,121	0.85
9.	Kolha	2,117	0.85
10.	Kolah -Kol-Loharas	682	0.27
11.	Kulis	657	0.26
12.	Dharya	489	0.20
13.	Kandha Gauda	435	0.17
14.	Kharia or Kharian	382	0.15
15.	Koli including Malhar	309	0.12

The Gond, Khond, Binjhal and Saora communities constitute the majority among the tribes. It is interesting to note that the population of some of the major tribes like Gond, Khond and Saora declined in 1971 compared to 1961 p population. As such the population of Gond has declined to 69,685 in 1971 as against 72,102 recorded in 1961. Similarly Khond from 59,291 in 1961 to 58,297 in 1971, Saora from 30,761 in 1961 to 25,421 in 1971. On the other hand there is increase of population among a few tribes. Dal has increased to 9,824 in 1971 from 7,675 in 1961 and Mirdhas to 6,256 in 1971 from 4,901 in 1961.

Literacy among the scheduled tribes

The percentage of literates (including population in 0–4 age-group) among scheduled tribes of Bolangir district stands at 11.97 per cent as against 9.46 per cent for the State. However, the proportion of literates among the scheduled tribes lag far behind the literacy of 26.18 per cent recorded for the general population of the State.

STATEMENT 34

Name of town	Total Population	Percentage of S.Ts to total population
Bolangir town	35,748	4.76
Sonepur town	8,084	1.13
Tarbha town	6,417	1.04
Titlagarh Urban Agglomeration	15,840	5.51
Kantabanji town	10,489	2.98
Patnagarh town	10,085	12.41

Distribution of major Scheduled Tribes

The following 15 scheduled tribes are considered to be numerically major tribes in the district.

XXXXVI

STATEMENT 36

LITERACY IN SCHEDULED TRIBES FOR 1971

District/Tahsil		Percentage of literates in S.Ts to total population (including 0 — 4 age-group)		
		Persons	Males	Females
1		2	3	4
Bolangir district	T	11.97	21.85	2.25
	R	11.81	21.66	2.15
	U	20.71	33.22	8.15
Bolangir Tahsil	T	12.18	22.19	2.40
	R	11.97	21.92	2.24
	U	19.68	31.41	7.98
Sonepur Tahsil	T	13.56	23.79	3.53
	R	13.44	23.63	3.46
	U	32.28	44.57	15.15
Birmaharajpur Tahsil	R	11.32	20.82	1.88
Titlagarh Tahsil	T	11.49	21.28	1.89
	R	11.27	21.01	1.71
	U	26.48	39.42	13.83
Patnagarh Tahsil	T	11.84	21.66	2.13
	R	11.78	21.55	2.12
	U	15.18	28.21	2.13

Sonepur tahsil records the highest (13.56) percentage of literates among all the five tahsils of the district. Next in order come Bolangir tahsil with 12.18 per cent, Patnagarh tahsil with 11.84 per cent, Titlagarh tahsil with 11.49 per cent and Birmaharajpur tahsil with 11.32 per cent.

Workers among the scheduled tribe population

A total number of 87,563 persons or 35.15 per cent of the total tribal population are workers and the rest 64.85 per cent are non-workers. Male workers constitute 63.86 per cent of the male scheduled tribe population and female workers account for 6.92 per cent of the total scheduled tribe female population of this district. Higher proportion of scheduled tribe workers is noticed in urban areas of the district.

STATEMENT 37

PERCENTAGE OF WORKERS BY SEX AMONG S.Ts 1971

District		Sex-wise percentage of workers		
		P	M	F
Bolangir	T	35.15	63.86	6.92
	R	35.13	63.94	6.81
	U	36.27	59.25	13.23

Statement 38 shows that the majority of the workers are cultivators and agricultural labourers. These two categories together claim 93.29 per cent of the total workers among the scheduled tribes in the district. The rest 6.71 per cent of workers are scattered in other occupations.
