Table C VII	Religion	424—425
Table C VIII	Part-A Classification by literacy and industrial category of workers and Non-workers according to main acitivity among Scheduled Castes	426—427
Table C VIII	Pt. B Classification by literacy and industrial category of workers and Non-workers according to main activity among Scheduled Tribes	428—429
Table D I	Population classified by place of birth	430—438
Appendix I to	Table D-I	439
Appendix II to	Table D-I	440
Table D II	Migrants classified by place of last residence and duration of residence in place of enumeration (Appendix)	441—446
Table D III	Migrants of urban units having 100,000 and above population classified by sex, broad age-groups, educational levels and in case of workers by occupational divisions (Agartala urban Agglomeration)	447—504
Table D IV	Population of urban units having 100,000 and above population classified by place of last residence and duration of residence	505
Table D V	Migrant workers and Non-workers according to main activities classified by place of last residence State/Dist/Urban units having 100,000 and above population	506—555
Table D VI	Migrants classified by place of last residence, age-group, duration of residence and Marital status (State/Dist/Urban units)	556—589

PREFACE

The District Census Handbook has been introduced in 1951 Census with a view to making available basic data for smaller territorial units like villages, urban blocks, wards etc. The District Census Handbook of 1951 Census so far Tripura is concerned contained village level data of population classified by some of its important characteristics besides census data. The District Census Handbook of 1961 was more informative as data of amenities available to villages also were incorporated. The District Census Handbook of 1971 Census has been split up in 3 parts viz. Part X-A, X-B and X-C. Part X-A relates to Village and Town Directory. Part X-B relates to Primary Census Abstaract and that also village-wise and urban block-wise. These two parts (X-A and X-B) have already been published in one volume. Part X-C contains data in relation to District Census Tables for all the three districts and administrative statistics for Tripura as a whole as would be evident from the nomenclature of title given as District Census Handbook Part X—C-Tripura West, North and South Districts. As the District Census Handbook for 1971. Census woud not be completed without publication of Part X-C so the information as to be available through this publication is felt imperative keeping in view the general demand from the Administrators, Research Workers, Sociologists etc. Part X-C contains two sections. Section-I relates to administrative statistics pertaining to the districts in various fields of social welfare and development. These data have been collected from various Departments of the State Government. Section-II comprises of the following census tables :—

A. **General Population Tables :**

Containing Tables on area houses and population, houseless population, institutional population, decadal variation of population, changes in area etc.

B. **Economic Tables :**

Containing cross classification of workers and non-workers by activity and are group, industrial classification of workers, occupational classification of workers, secondary workers etc.

C. **Social and Cultural Tables :**

Containing population of households by relation to heads, educational status, language spoken, religion etc. of the population of the district under reference.

D. **Migration Tables :**

Containing place of birth data, place of last residence data and data on migrant workers according to the main activities.

It is an undenying fact that there has been considerable delay in publication of Part X-C. Yet for all relieving feature is that it has seen the light of the day. It was possible for the whole hearted co-operation of the different departments for which I must convey my gratitude to them.

I am also thankful to the Superintendent of Press and his staff members of the Government of Tripura for extending co-operation for printing this volume.

I appreciate the sincere work done by the staff of the Social Studies Unit and Tabulation Unit of this Directorate in compilation of the publication.

It will be incomplete if the co-operation of Sri K. K. Chakraborty, Dy. Registrar General (C & T), Sri N. G. Nag, Dy. R.G. (S.S.) and his staff are not remembered here. It would be equally incomplete if the contribution of my predecessor Shri A. K. Bhattacherjee is not mentioned here as the Spade-work was done at his instance.

I owe my gratitude to Shri P. Padmanabha, I.A.S., Registrar General and Ex-officio Census Commissioner, India for his guidance and encouragement in bringing out this publication.

S. R. CHAKRABORTY
of the Indian Administrative Service
Director of Census Operations, Tripura.

Agartala,
The 3rd. July, 1981.

INTRODUCTION

Tripura was a princely State upto 14th. of October, 1949. The Census Operations in Tripura upto 1941 were performed along with the Imperial Census and figures were published in the provincial report of Bengal. A separate census report in respect of Tripura for 1931 was published in Bengali by the Tripura State where data down to the Sub-divisional level were given. In 1951 Census Operations of India, Census of Tripura was conducted by the Assam Census Superintendent and Tripura was then treated as a single district. However, a Census Officer for Tripura was then treated as a single district. However, a Census Officer for Tripura was appointed by the Tripura Government who worked under the Census Superintendent of Assam. In 1951 a separate census volume of Tripura, known as District Census Handbook was published which contains data down to village level, sub-divisional level and very brief account of the district as a whole. The 1961 Census of Tripura was conducted independently under a separate Census Superintendent. From 1961 Census a uniform pattern of publishing District Census Handbook for each district was introduced throughout the Country. It was espected that this would serve as a convenient reference book to the data-users in different fields for planning administrative and other purposes. In order to make the publication of village level statistics available to the data-users as early as possible it was decided to publish the District Census Handbook in parts in 1971. Parts A & B containing Village Directory & Primary Census Abstaracts have already been published. The present publication (Part-C) comprises two sets of tables, namely, (a) Tables on Administrative Statistics and (b) Census Tables which have been trimmed because of non-availability of data from the State Government Offices and publication of this volumes without further delay.

SCOPE OF THE DISTRICT CENSUS HANDBOOK AND ITS PRESENTATION.

The District Census Handbook has three parts covering the following headings :—

i) Part A — Village and Town Directory

ii) Part B — Village/Urban Block-wise Primary Cnsus Absteract and

iii) Part C — Administrative Statistics and District Census Tables.

Parts A & B have been published in one volume. There are three separate publications for three districts. In Part A information on education, health, electricity, roads, drinking water supply, post and telegraph facilities land use pattern, weekly market/hat, importance of religious, historical and archeaological interest for each village are given. The Town Directory contains 7 statements for each town in the district. The status of the town administration, its growth of population, functional category, physical aspects and location, latest municipal financial statements, civic and other amenties like medical, educational and cultural facilities, trade, industry, commerce and banking facilities etc. were incorporated in these statements. The District Census Handbook Parts A & B have been published for each district separately, as it was possible to compile separately the information on Village Directory, Town Directory and Primary Census Abstract for each district.

Part C—Administrative Statistics and District Census Tables.

This part contains the Census Tables and data which were obtained from different Government Departments. As the division of three separate districts were effected only from 1st. September, 1970, the data obtained from various Government Departments were mainly available for Tripura as a whole. In most casesseeparate district-wise statistics on administrative, welfare an developmental aspects were not readily available in the offices, However, Census Tables regarding population economic activity, language, education, religion, migration etc. have been compiled for each district.

It has been decided to publish Part C in one volume for Tripura as a whole. The particulars of the data of all the districts are provided in this volume. The following definitions and concepts are given from the manual of instructions to the enumerator on the basis of which the tables have been prepared, to facilitate better understanding of the tables as included in this volume·

DEFINITIONS AND CONCEPTS :

Village : Although survey and settlement operations in the state had been completed before 1971 Census the cadestrally surveyed villages were not taken as the lowest unit for census purpose due to operational reasons. Like 1961 Census, the villages taken in 1971 Census are mostly small hamlets or tribal paras and habitations, known as such by their local names. These villages have no properly defined boundary and are based on the records of 1961 Census.

Town : Upto 1951 Census the municipal town of Agartala in Sadar sub-division was treated as the only town in Tripura. In 1961 Census five more sub-divisional headquarters viz, Knowai, Kailashahar, Dharmanagar, Radhakishorepur and Belonia were treated as towns.

At the commencement of 1971 Census the criteria laid down by the Registrar General of India for recognition of new towns and elimination of existing ones was as follows.

To qualify for recognition as an urban area (town) a place should first have either a Municipal Corporation or a Municipality or a Town Committee or a Notified Area Committee or a Contonment Board. If it does not have any of those urban local bodies to administer the affairs, then the following emperical tests should be applied :—

(a) A minimum population of 5,000 (estimated for 1971) ;
(b) A density of not less than 400 persons per square Km. (1,000 per sq. mile) ;
(c) The occupations of three fourth of the male working population should be outside agriculture ; and
(d) The place should have, according to the Director of Ceesus Operations of the state, a few pronounced urban characteristics and amenities.

According, six towns viz., Agartala, Khowai, Kailashahar, Dharmanagar, Radhakishorepur and Belonia which were already existed in the last census, were considered as town for 1971 Census also. So there was nether elimination of any of the existing towns nor inclusion of any new town in 1971 Census.

Urban Agglomeration : It consists of the outgrowths of urban areas/towns outside the municipal boundary of a coretown.

Standard Urban Areas : This is new table in 1971 Census which furnished different data on Standard Urban Areas.

Standard Urban Areas represents spatially contiguous territory of urban - rural settlements and effectively tackle the problem of furnishing data in respect of urbanisable areas in the next three decades or so outside the jurisdictions of the existing towns. Since the administrative boundaries of statutorytowns changed from time to time, the comparability of data from Census to Cenu s was diffficlt in the Past. S.U.A. will have a fixed area covering a large core town as well as adjoining areas deliverating contiguous rural and urban areas whieh are or likely to be under intensive influence of the Core town. The Core town will generally have a population of 50,000 or above. S.U.A. may have any or all of the following charaeteristics :

(a) Predominant urban land use.
(b) Intensive inter - action wi!h the urban centres as reflected in commutation for the purpose of work and secondary education facilities: extension of city Bus Service; sale of commodities like milk, dairy products, vegetables (other than those transported by rail or truck-haul) and purchase of food grains, cloths and and general provisions by the consumers directly.
(c) Anticipated urban growth as a result of locational decisions relating to industry, market, ransport, commucations, administrative and servicing functions.
(d) Existence of big villages with a large proportion of working force engaged in non-agricultural industrial categories.

On the basis of population as per 1961 Census Agartala is the only town to have standard urban areea. The Town and Country Planning Organisation of the Government of Tripura and the Census Directorate join ly on the basis of the above definition determined the areas to be included in the Standard Urban Areas for Agartala Town.

The following revenue villages have been selected as the S.U.A. of Agartala town.

(1) Lankamura (2) Barjala (3) Badharghat (4) Pratapgarh (5) Anandanagar (6) Kunjaban (7) Debendranagar (8) Radhakishore Nagar (9) Indranagar (10) Khayerpur (11) Uttar Champamura (12) Jogendranaxar (13) Ramnagar (14) Dukli (15) Narsingarh (16) Singerbil (17) Gandhigram (18) Agartala (rural).

Ward/Urban Block : In the municipal town, that is only in Agartala, the whole area was divided into several permanent wards. Each ward was sub-divided into urban blocks to facllitate operational work. Similarly the non-municipal towns were divided into circles and blocks respectively.

House : A Census house is a building or part of a building having a separate main entrance from theroad or common courtyard or staircase etc. used or recognised as a separate unit. It may be inhabited or vacant. It may be used for a residential or non-residential Rurpose or both.

If a building has a number of flats or blocks which are independent of one another having seperate entrances of their own from the road or a common staircase or a common coutyard leading to a main agate they will be considered as separate census house. If within a large enclosed area there are separate buildings, then each such building will be one or moreseparate census houses. If all the structures within an enclosed compound are together treated as one building then each structure with a separate entrance should betreated as a separate census house.

Household : A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one member household, two member household or multi-member household. For Census purposes each one of these types is regarded as a "Household". Again there may be household of persons related by blood or household of unrelated persons ; the later are Boarding House, Hostels Residential Hostels, Orphanages, Rescue house, Ashrams, etc. These are called "Institutional Households".

Household Industry : Household industry is defined as an industry conducted by the head of the household himself/herself/or mainly by the members of the household at home or within the village in rural areas and only with the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

Religion : In recording answers to this question the following abbreviations have been used :

H — Hinduism.
I — Islam
C — Christian
S — Sikhism
B — Budhism
J — Jainism

for others the actual religion was recorded fully. If an person says that he has no religion, it has to be recorded accorddingly. Do not mistake religion for Caste, which will not be recorded here.

Mother Tongue : Mother tongue is the spoken language in childhood by person's mother to the person. If the mother died in infancy the language mainly spoken in the persons home in childhood will be the mother tongue. In the case of infants and deaf-mutes the language usually spoken by the mother shall be recorded. Record mother tongue in full whatever be the name of the language as returned and avoid use of abbreviations. You are not expected to determine if the language returned by a person is the dialect of another major language and so on. You are not autnhorised to make any correction on your own.

Scheduled Caste and Schebuled Tribe : The name of Castes and Tribes recognised as Scheduled Castes and Scheduled Tribes in Tripura for the purpose of Census are given in "The Scheduled Castes and Scheduled Tribes lists Modification Order 1956" issued by the President of India. The listi so far as it applies to Tripura is reproduced below :

Scheduled Castes	**Scheduled Tribes.**
1. Bagdi	1. Lushai
2. Baiti	2. Mag
3. Bhuimali	3. Kuki, including the following sub-tribes :—
4. Bhunar	
5. Chamar or Muchi	(i) Balte
6. Dandasi	(ii) Belalhut
7. Dhenuar	(iii) Chhalya
8. Dhoba	(iv) Fun
9. Duai	(v) Hajango
10. Dum	(vi) Jangtei
11. Ghasi	(vii) Khareng
12. Gour	(viii) Khephong
13. Gunar	(ix) Kuntai
14. Gur	(x) Laifang
15. Gorang	(xi) Lentei
16. Jalia Kaibarta	(xii) Mizel
17. Kahar	(xiii) Namte
18. Kalindi	(xiv) Paitu, Paite
19. Kan	(xv) Rangchar
20. Kanda	(xvi) Rangkhole
	(xvii) Thangluya
Scheduled Castes	**Scheduled Tribes**
21. Kanugh	4. Chakma
22. Keot	5. Garoo
23. Khadit	6. Chaimal

1	2
24. Kharia	7. Halam
25. Khemcha	8. Khasia
26. Koch	9. Bhutia
27. Koit	10. Munda including Kaur
28. Kol	11. Orang.
29. Kora	12. Lepcha
30. Kotal	13. Santal
31. Mahisyadas	14. Bhil
32. Mali	15. Tripura or Tripuri, Tippera
33. Methor	16. Jamatia
34. Musahar	17. Noatia
35. Namsudra	18. Riang
36. Patni	19. Uchal
37. Sabar.	

Literate : A person who can both read and write with understanding in any language was taken as iliterate. A p erson who can merely read but cannot write was not reated as a literate.

It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

Worker and Non-worker : In the Census of 1971 the worker and non-worker were defined as follows :—

A worker is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person has participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the prerson would be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary break-down, strike, etc. the person should be treated as engaged in regular work in whieh he would have other-wise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages has been considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work.

There are certain types of works which are not carried on throughout the year such as cultivation, livestock keeping, plantation work, some types of household industry, etc. A persons' main activity is ascertained with referenceito such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person was engaged in some other work during the period of one week, prior to the date of enumeration the main activitiy of th e person might be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. (Cares have been taken to see that the main activity is properly ascertained is likely that even when a person was eneaged in some other work during the period of one week, prior to the date of enumeration the main activity of the person might be cultivation, agricultural labour or some other work attended to normally by him in the course of the year.) Cares have been taken to see that the main activity is properly ascertained in such cases. For example, a person's main activity may be agricultural labour and in the week prior to enumeration he may be engiged as a sugarcane factory labourer or as a road cooly. He is categorised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and the other work is treated as his subsidiary work.

A man or woman who is engaged primarily in household duties such as cooking for ownihousehold or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family ecoonomle activity but not as a full time worker is not treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the same time does also attend to somehousehold chores or attends a night school etc. he or she is treated basically as a worker for the main activity and cate gorised accordingly.

A person who merely receives an income such as a rent receiver or a pensioner who does not have to work for receiving the income has not been treated as economically active unless the person is also engaged in some economic activity of the individual.

Where the main activity of a person qualifies him to be treated as a worker he should be further categorised accordingly to the type of work such as cultivator, agricultural labourer, engeged in household industry of other workers.

If the person is not engaged in any economic activity he is treated as a non-worker. The non-workers have been categorised as engaged in household duties, students, retired person, dependents, beggars, convicts in jail and in mates of institutions and other non-workers under seven broad heads.

SECTION-I

ADMINISTRATIVE STATISTICS

TABLE-1—MINIMUM AND MAXIMUM TEMPERATURE BY MONTH DURING 1961-70

Station	Year	Temperature	All Seasons	January	February	March	April	May	June	July	August	September	October	November	December

TABLE : 13 DETAILS OF IMPLEMENTATION OF PROTECTED WATER SUPPLY SCHEME

Taluk	Name of the Scheme	Number covered		Number of taps fetted	Number of overhead tanks constructed	Details of other Provisions made	Remarks
		Towns	Villages				
1	2	3	4	5	6	7	8

The protected water supply scheme is available only in Agartala Town. Under rural water supply scheme people belonging to some parts of a few more towns namely Udaipur, Kailasahar and Dharmanagar are enjoying the facility of protected water supply which however is quite insufficient for supply in the whole town

TABLE 23—RAINFALL, AREA SOWN AND IRRIGATED, DENSITY IN YEARS 1970—71

State—TRIPURA

PARTICULARS :

1.	Average annual rainfall (in m.m.)		2,100.8
2.	Annual number of rainy days		99.0
A.	GROSS AREA SOWN UNDER :	CROPS	AREA IN HECTARES
	i) Kharif Crops :—(Name of the specific crops according to local importance)	a) Rice	256,733
		b) Kharit Pulses	995
		c) Jute	7,863
		d) Mesta	8,580
		e) Cotton	2,428
		f) Sesamum	2,266
		g) Sugarcane (Gur)	2,772
	ii) RABI CROPS :—(Name of the specific crops according to local importance)	a) Rice	11,331
		b) Wheat	336
		c) Rabi Pulses	2,300
		d) Rape & Mustard	4,087
		e) Potato	2,651
		f) Sweet Potato	1,538
		g) Chillies (Dry)	1,163
		h) Turmeric (Dry)	658
		i) Ginger (Dry)	300
		j) Tobacco	1,367
B.	GROSS IRRIGATED AREA UNDER :		
	i) Kharif :—(Name of the specific crops according to local importance)	a) Rice	6,210
		b) Sugarcane	490
	ii) Rabi :—(Name of the specific crops according to local importance)	a) Rice	11,000
		b) Wheat	336
		c) Condiment & Spices	204
		d) Vegetables	3,830
		e) Tobacco	100
C.	ESTIMATED YIELD OF MAIN CROPS (Kg. Per Hectare)	a) Rice	955
		b) Kharif Pulses	406
		c) Rabi Pulses	380
		d) Wheat	2,238
		e) Jute	1,476
		f) Mesta	1,146
		g) Cotton	159
		h) Sesamum	411
		i) Rape & Mustard	400
		j) Sugarcane (Gur)	3,633
		k) Potato	7,053
		l) Sweet Potato	6,437
		m) Chillies (Dry)	323
		n) Turmeric (Dry)	970
		o) Ginger (Dry)	950
		p) Tobacco	332
D.	DENSITY :		
	i) Crude density per hectare		
	ii) Density per hectare of Gross cropped area		
	iii) Density per hectare of area under foodgrains

Table—31 Land tenure system and reform, 1950-70

Due to absence of any authentic old records it is very difficult to trace out the land'tenure system that prevailed in Tripura state in good old days. However an idea of the land tenure system can be found in Rajmala, Hunter's Statistical account, Act 1 of 1290 T. E. (1880 A. D. Praja Bhumyadhikari Sambandhiya Bishayak Ain 1296 T.E. (1886 A.D.) and subsequent other Acts and rules Viz. Jarip-O-Bandobasta Sambandhiya Niyamabali, 1309 T.E. (1889 A.D.), Rajdhani Agartala Sadar Bandobasta Sambandhiya Bidhan, 1346 T.E. (1886 A.D.), etc. From these Acts and Rules it appears there were several tenures and tenancies such as 'Bhumyadhikari' (Land Lord), 'Praja', 'Jotedar or Raiyat' (Cultivating tenants), 'Korfa Praja' (Under-raiyat) Madhya Swatwadhikari (Intermadiary or Talukder & Dartalukder) etc. It appears further that under the Maharaja there were Kayemi taluk (Permanently settled taluks), Taskishi taluks (revenue of which is enhanced at a stipulated period), Niskar taluks (Revenue free estates), Raiyats, and Korfas (under-raiyats).

The rights and obligations of the different types of tenures were found to be as follows :—

(a) *Taluks*

There were three kinds of taluki rights amely (1) Kayemi, (2) Taskishi and (3) Niskar. All these taluks were permanent and heritable but not transferable without the permission of the Government. Kayemi taluk was Governed by "sun set Law" Act 1 of 1290 T.E., while there was no codified Law to govern Taskishi taluk. It was controlled by the terms and conditions stipulated in the Settlement proposal. The revenue of Kayemi taluk was fixed in perpetuity, while the revenue of Taskishi taluk was subject to enhancement at the rate of two annas in a rupee, generally on the expiry of every twenty years. Taskishi talukis were generally created for the Tea Estates. The Estates sometimes used to lease out their land while some portions of their land were permitted to be held by their labourers and staff in lieu of ration.

Niskar taluks again was of different types.

(b). *Raiyat Joteder Praja*

The raiyats had permanent and heritable rights but they could not transfer their lands without the prior consent of the Bhumyadhikaries or the Govenrment except where under any law, custom or usage they were permitted to do so. There was also no bar to lease out their lands by creating korfas (Under raiyats).

(C). *Under Raiyats*

The right of under raiyats are not found to have been defined anywhere in the Acts. It however appears that the under-raiyati interests were created for a specified period in certain cases and in some cases not specified. In the latter cases the rights were heritable and transferable.

Table—31 (a) Tenancy as in 1970

With the introduction of Tripura Land Revenue and Land Reforms Act, the aforesaid Acts & Rules were repealed and the intermediary system has been abolished in Tripura & a direct relation has been established between the Government and the raiyats & allottee. A scientific Survey has been carried out in the entire state and the record of rights have been prepared deciding ownership of land or interest and on the basis of present possession etc. of each landholder. Adequate provision has been made in law for security of the tenancies.

With the abolition of intermediary system there are only two kinds of tenure in Tripura Viz. the raiyati and the under-raiyati. The 'Bargadars' or share-croppers have been given the status of under-raiyats under the provisions of the Act. The intermediaries, in respect of the lands retainable by them, as well as their tenants hold land as raiyats directly under the Government.

The rights of a raiyats in his land are permanent, heritable and transferable. A raiyat is entitled by himself, his servant under-raiyats, agents or other representatives to erect, form, buildings, wells or tanks or make other improvement thereon for the better cultivation of the land or its convenient or profitable use.

A raiyat is entitled to plant trees on his land, to enjoy the usufruct thereof and to fell, utilise or dispose of the timber of any trees on his land.

Subject to other provisions of the Act, a raiyat may lease out his land to another person on a term of five years which may be renewed on expiry of every five years. A raiyat may relinquish his right in respect of any land in his possession in favour of the

Government by giving three month notice before the close of the agricultural years. In the proposed amendment bill no. 11 all leases are sought to be made perpetual.

The interest of an under-raiyat in any land held by him is heritable. An under-raiyat can not be evicted from him land except under provisions of the Act.

The Act provides that the under-raiyat can create a simple mortgage or a charge on his interest in the land leased to him in favour of the Government or a Co-Operative Society. This provision is being expanded to include nationalised banks also.

An under raiyat may, with permission of the raiyat or if permission is refused without sufficient reason, with permission of the competent authority, make at his own expenses any improvement to the land held by him without being made liable to pay high rate of rent on account of such improvement.

Where the rent is payable in kind as a share of produce one fourth of the produce of such land or its value estimated in the prescribed manner if plough cattle for the cultivtion of such land is supplied by the raiyat and one fifth of such produce or its value as so estimated if plough cattle is not supplied by the raiyat. In any other cases such rent shall not exceed four times the land revenue payable in respect of the land.

Where a raiyat has obtained from or has been granted by the Government any relief by way of suspension or permission of land revenue payable in respect of his land, he shall be bound to give and the under-raiyat concerned shall be entitled to receive from the raiyat, a corresponding or proportionate relief by way of suspension or permission or remession of rent payable in respect of such land.

No under raiyat shall be evicted from his lands except on the following grounds :—

(a) That the under-raiyat has intentionally or wilfully committed such acts of waste as are calculated to impair materially or permanently the value or utility of the land for agricultural purpose ;

(b) that the under-raiyat has failed to pay rent within a period of three months after it has fallen due ;

(c) that the under-raiyat not being person under disability has, after commencement of this Act, sublet the land without the written consent of the raiyat.

No order of eviction of an under-raiyat shall be executed till the standing crops, if any, on the land are harvested.

Where a raiyat, after evicting an under-raiyat, fails to cultivate the land personally within one year, the under-raiyat shall be entitled to be restored to possession of the land from which he was evicted.

After commencement of the Act, no under-raiyat shall surrender any land held by him and no raiyat shall enter upon the land surrendered by the under-raiyat without the previous permission in writing of the competent authority.

If a raiyat at any time intends to sell his land held by an under-raiyat, he shall give notice in writing of his intention to the under-raiyat concerned and offer to sell the land to him. If the under-raiyat does not intimate his readiness to purchase the land proposed for sale within two months of receipt of the notice or if he does not agree to pay reasonable price therefor, the raiyat will be at liberty to sell his right and interest in the land to any other person.

Table—31 (b)—Rental value of land by type as in 1970

Tripura as a whole was never cadastrally surveyed before except in certain patches and land revenue was not assessed rationally. With a view to carrying out survey and settlement operation in the state for assessment of land revenue rationally, a scheme for survey & settlement operation was drawn up in 1959. The Tripura Land Revenue & Land Reforms Act, 1960 came into force on the 14th April, 1961, For the purpose of determining the revenue rate the entire state has been divided into several units having regards to feature, agricultural and economic condition etc. Different rates have been fixed for each class of land in different units as approved by the Administrator (now Government) U/S 34 of the Act.

The new revenue rates came into force on different date for different classes of law in different areas within the period from 15.4.63 to 15.4.66. Maximum & Minimum rates of land revenue per acres for dry, wet or garden lands are as under.

Name of the District	Nal & Lunga		Tilla		Bagan	
	Maxm.	Minimum	Maxm.	Minimum	Maxm.	Minimum
North Tripura	9.00	3.00	8.00	1.50	8.50	1.25
South Tripura	8.50	2.00	7.00	1.25	20.00	1.50
West Tripura	17.50	2.50	12.50	1.50	50.00	2.00

At presest there is no legislation in regard to consolidation of holding in Tripura. There is one chapter for prevention of fragmentation but these provisions have not come into effect.

Table—32—Survey & Settlement Operation during the decades

During the regime of the Maharaja no state-wide survey of settlement operation was undertaken. Only piecemeal surveys were taken up under the Jarip-O-Bondobastha-Sambandhiya-Niyambali, 1309 T.E. These surveys were conducted mainly with the aid of Prismatic Compass. It was in the year 1956 that a programme was undertaken for cadastral survey & settlement operations of the entire state.

Statement of holding by size group

Table 33

Sl. No.	Size group of holding	No. of holding	Area in acres	Remarks
1	2	3	4	5
1.	Land holding having land upto 2 acres	271,045	203,802.99	
2.	Land holders having land above 2 acres but less then 10 acres	78,861	286,360.78	
3.	Land holders having land from 10 acres to less then 15 acres	1,998	26,070.63	
4.	Land holders having land from 15 acres to less than 25 acres	1,383	36,366.69	
5.	Land holders having land from 25 acres and above	314	78,364.27	

Source :—Directorate of Settlement and Land Records, Govt. of Tripura

This was a 10 year's plan which was later revised to a 5 year programme beginning from 1959. In the year 1961 the Tripura Land Revenue & Land Reforms Act, 1960, came into force and the land reforms were also carried out simultaneously with the Survey & Settlement Operations. The Survey & Settlement and Land Reforms Operations had been done under the over all supervision of a Settlement Officer till March, 1970, later under the Director of Settlement & Land Records. The records of rights in 865 villages out of 871 revenue villages now existing in the state except 54 Tea gardens & 6 villages in Sadar Sub-division have been finally published. The final publication of the remaining villages is nearing completion.

SECTION II

CENSUS TABLES

Fly leaf to Census Tables :

Census has several phases of work of which house numbering and house listing was completed in 1970 and census counting, a process of filling up of individual slip for every person irrespective of age, sex, and nationality, social class, was done during March-April, 1971. A seperate establishment schedule was also canvassed in 1970 along with the houselist.

In the houselist data on housing, such as material of wall and roof, number of rooms, whether household lived in rented or owned house as also purpose to which house was put had been collected and tabulated under H-series tables. Similarly establishment schedule collected a variety of information on manufacturing, trade as well as all other establishments run in census houses. This information is shown in E-series tables. Both E-series and H-series tables have been published in separate volume where data down to sub-division level are available.

The individual slip which was filled in for every individual had the usual demographic, social and economic question which generated data on population. The present volume provides only with data on population. Tabulation of population data is done under different series viz. A-series containing General population tables, B-series—Economic tables, C-Series-Social and Cultural tables, D-Series-Migration tables. All tables except the tables of D-Series are shown sub-division wise.

A-series Tables

There are four tables in this series. These tables being the basic population tables, furnish information about area, sex-wise population and its variation during sixty years, classification of villages and towns/urban agglomeration by population and the trends of urbanisation

B series tables

The concept of worker has been changed at the current census. There are ten general economic tables presented in this volume. The first two of the series viz. B-I, B-II and B-III shows distribution of working and non-working population by economic activity co-related with sex, age, etc. Elaborate classifications of workers by industry and occupation have been shown in B-IV anu B-VI respectively. B-VII shows the classification of workers by secondary work and the remaining table B-VIII distribute the non-workers by their type, age, sex etc.

C. series tables

There are seven tables in this series relating to social and cultural aspects of the population e.g. mother-tongue, bilingualism, religion, classificatios of literacy and economic activity of the scheduled caste and scheduled tribe.

D series tables

There are six tables with appendices showing migrational status of the population by place of birth and by place of last residence.

TABLE A—1 AREA, HOUSES AND POPULATION

Note : 1.+These represent provisional 'Geographical area' figures supplied by the Surveyor General' figures for urban areas are those supplied by the Local Bodies. Area figures for rural areas are derived by substructing on urban area from the total area of the district.

2. *Towns treated as such for the first time in 1961 Census which continue as towns for 1971 Census are shown with an asterisk(*) on their left.

3. The following abbreviations have been used for status of a town
M—Municipality, N.M.—Non-Municipal Town, N.A.—Not available.

4. In Tripura State a few urban units which are appearing as out growths of Agartala urban Agglomeration, area figures are not available separately and are included in the 'Rural Area'. The urban density in such cases has been worked out only for those units for which the area figures are available, in other cases. N. A. has been shown in Cols. 3 and 4 of the table.

5. The density per km2 shown under Cols. 4 for urban area of State/District/Sub-divisions are worked out using the area figures corrected upto two places of decimals obtained by adding the area of individual town in the respective unit and not using the area figures given in the table. For 'Total' and 'Rural' the density is worked out on area figures correct upto one place of decimal.

Note :—

*The population shown for 1901 of West Tripura District (Sonamura Sub-Division) also includes the population of Udaipur and Amarpur Sub-divisions of South Tripura District. As the 1901 population of these districts is not comparable, N.A. which stands for 'Not available' has been shown in the colu mns 4 and 5 against the year 1911

A-II DECADAL VARIATION IN POPULATION SINCE—1901

APPENDIX

State and Districts showing 1961 Population according to their territorial Jurisdiction in 1961, Changes in area and the population of 1961 adjusted to jurisdiction of 1971

State/District	Area in 1971 (km2)	1971 Population	Area in 1961 (km2)	1961 Population according to jurisdiction prevailing in 1961	Population in 1961 adjusted to jurisdiction of 1971	Net increase or decrease between cols 5 and 6
1	2	3	4	5	6	7
TRIPURA	10,477.0	1,556,342	10,660.4	1,142,005	1,142,005	...
West Tripura District	3,359.0	751,605	3,483.5	573,993	573,993	...
North Tripura District	3,541.0	405,009	3,538.0	293,349	293,349	...
South Tripura District	3,577.0	399,728	3,638.9	274,663	274,663	...

i) There is no change in Territorial Unit. The difference in area figures shown under Cols. 2 and 4 for state as a whole is due to revised computation.

ii) There were sub-divisions in Tripura in 1961 Census. These Sub-divisions now forming the districts namely West Tripura (Sadar, Khowai and Sonamura Sub-divisions), North Tripura (Kamalpur, Kailasahar and Dharmanagar Sub-divisions) and South Tripura (Udaipur, Amarpur, Belonia and Sabroom Sub-divisions).

iii) Area figures under Col. 4 are those supplied by State Survey Department whereas area figures under Col. 2 are those supplied by Surveyor General.
