PREFACE

The Government used to compile and publish District Manuals for each district prior to 1905. The manuals became obsolete within a few years of their publication, containing as they did not only matter of a more or less permanent character such as physical characteristics, history, religion and ethnography, as also statistical matters which soon became out of date. The Government decided to replace the District Manuals by another publication known as the District Gazetteer, consisting of two volumes, A and B. The A volume contained descriptive matter and such general figures, as might be necessary to explain the text, and the B volume contained detailed statistics. They also decided that the B volume should be brought out periodically, especially after each decennial census. Between 1905 and 1927 A volumes for thirteen districts were published. In 1927 they were discontinued. B volumes for all the districts were published between 1906 and 1915. They were continued to be published even after the 1931 census. They were not published after the 1941 census.

Village Statistics, containing the results of the census for every village in the State, were first compiled and published in 1872, at the instance of Mr. C. E. Gover, who was then the Census Officer in Madras. His successor, in 1882, considered that this publication led to needless expenditure and trouble in printing the tables villagewar, but the Government decided that the Village Statistics should continue to be published. The practice of issuing Village Statistics at every census was followed subsequently. The Village Statistics merely showed the number of occupied houses and population of each village and town by religions.

The idea of preparing the present volume, viz., the District Census Handbook for each district was put forward by Sri R. A. Gopalaswami, I.C.S., Registrar-General, India, and ex-officio Census Commissioner of India, as part of a plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the district census tables and census abstracts prepared during the process of sorting and compilation should be bound together in a single manuscript volume, called the District Census Handbook, and suggested to the State Governments that the handbook (with or without the addition of other useful information relating to the district) should be printed and published, at their own cost, in the same manner as the Village Statistics in the past. In accepting this suggestion, the Government of Madras decided to print and publish the more important portion of statistical data relating to the district and to preserve the rest of the records in a manuscript volume for any future use, to which they may be put.

2. The statistical data embodied in the District Census Handbook have to be understood from the background of the changes introduced in the 1951 census. The most important and fundamental change introduced in the 1951 census consists in the substitution of an economic classification of the people for the classification based on Religion and Communities

together to form a non-city urban tract. All the rural tracts in the State have been assigned numbers in one series, the non-city urban tracts in another series and the city tracts in a third series. In all the tables where the data have been furnished for tracts, the tracts have been denoted by numbers that have been assigned to them. A list of tracts into which the district has been divided and the areas comprised in each is furnished in the fly-leaf note to Economic Table B-I relating to the district.

The districts, taluks and villages mentioned in the Tables and Abstracts have been shown along with the census location code numbers assigned to them for purposes of census operations.

The numbers given to the Tables in this publication correspond to those given in the State Census Report.

Elaborate notes explaining the scheme of each Table have been introduced in the fly-leaf notes attached to each with a view to enable the reader to get a precise idea of the data furnished in the Table.

5. *Tables relating to Small-scale Industries.*—In the year 1950 a census of Small-scale Industries was instituted under the orders of the Government. The object was to get some idea about small industries such as cottage and home industries, small establishments, workshops, etc., where articles were produced, repaired or otherwise treated for sale, use or disposal and small mines. The enquiry was confined to establishments to which the Factories Act was not applicable. Individuals who worked on their own and did not employ other people were left out of account. From the data collected three Tables were prepared and they have been included in the Handbook. Information giving village-wise and ward-wise information for Small-scale Industries have been incorporated in the rural and urban statistics. The details collected and embodied in the Tables are not to be considered accurate or exhaustive, as the enumeration staff employed had not been trained for the purpose and some cases of under enumeration were noticed. However, the figures given in the Tables may be sufficient to give an insight into the nature of the industries prevalent in the different parts of the district.

6. Opportunity has been taken to put in a short introductory note detailing the salient points connected with the district, such as the physical features, climate, rainfall, irrigation and drainage facilities, roads and other communications, crop statistics, education, industries and other matters of general interest. The information contained in the introductory note is based on the materials furnished by Collectors of districts and Departments of Government. The District Gazetteer was also freely referred to. The relevent paragraph of the 1951 Census Report discussing the growth of population in the district has also been incorporated in the proper place.

A district map showing taluk boundaries, physical features, important roads and places with a population exceeding 5,000 is also attached.

It is hoped that this Handbook will serve as a book of reference on matters relating to the district and that it will be found useful both by Departments of Government and the public.

INTRODUCTION
TO
RAMANATHAPURAM DISTRICT

I. (*a*) *Situation and physical characteristics.*—The Ramanathapuram district lies between 9° 5′ and 10° 25′ of the northern latitude and 77° 20′ and 79° 28′ of the eastern longitude. The district was constituted in 1910, portions of the Old Madurai and Tirunelveli districts having been taken to form the new district. It is bounded on the north by the districts of Madurai, Tiruchirapalli and Tanjore. The Palk Bay skirts it on the east. The Gulf of Mannar and Tirunelveli district are on its southern boundary. The United State of Travancore and Cochin abuts the district on the west on its south-western corner. The district consists of nine taluks comprised in three Revenue Divisions as detailed below :—

Name of revenue division.	Headquarters of the revenue division.	Taluks comprised in the revenue division.	Area of taluk (square miles).	Headquarters of the taluk.
1 Devakottai	Devakottai	1 Tirupattur	567	Tirupattur.
		2 Sivaganga	657	Sivaganga.
		3 Tiruvadanai	548	Tiruvadanai.
2 Sivakasi	Sivakasi	1 Srivilliputtur	437	Srivilliputtur.
		2 Sattur	580	Sattur.
		3 Aruppukkottai	615	Aruppukkottai.
3 Ramanathapuram	Ramanathapuram	1 Paramakudi	440	Paramakudi.
		2 Mudukalathur	647	Mudukalathur.
		3 Ramanathapuram	334	Ramanathapuram.
		Total	4,825	

The district lies on the sea-coast with a projection into the west wedging between Madurai and Tirunelveli districts. The taluks of Srivilliputtur, Sattur and Aruppukkottai are situated from west to east in this projection. Mudukalathur and Ramanathapuram taluks are on the south above the Gulf of Mannar. The Ramanathapuram taluk narrows down towards the east and extends into the sea between the Gulf of Mannar on the south and the Palk Bay in the north terminating in the island of Rameswaram which is separated from the mainland by the Pamban passage. Tiruvadanai is another sea coast taluk.

The Western Ghats lie on the western and the northern parts of Srivilliputtur taluk. They are continuations of the Main Ghats lying in the United State of Travancore-Cochin. Low hills skirt their base with higher undulating hills in their rear. Along the sky-line the range is about 5,000 feet in elevation. Except for this range and a few detached hills such as the Piranmalai in Tirupattur taluk, the district is an uninteresting plain presenting few natural features. Sattur taluk and a large portion of Aruppukkottai taluk are black cotton plains. There are extensive sandy belts on the coast. The submarine extensions in the east are marked by numerous reefs, shoals and coral islands. The most famous of these are the island of Rameswaram and the Adam's Bridge. The general character of the coast, the rapid growth of the Dhanushkodi Promontory, and the existence of raised beaches at Mantapam with fresh coral adhering to them indicate that this part of the country is extending rapidly. The country generally slopes in a south-easterly direction.

(*b*) *Rivers.*—The Vaigai is the chief river in the district. It enters the district in Sivaganga taluk and flows in a south-easterly direction across Sivaganga, Paramakudi and Ramanathapuram taluks and empties itself into the Ramanathapuram tank the surplus of which flows into the sea near Uchipuli.

The Arjuna Nadi and Sevalaperi rivers flow across Srivilliputtur and Sattur taluks and join the Vaippar in the latter taluk and enter the Tirunelveli district 14 miles east of Sattur.

The Mudangiar is a drainage channel in Srivilliputtur taluk and the Uppodai is a drainage channel in Sattur taluk.

The Vijaya Nadi and Mannarkottai Nadi are two affluents of the Arjuna Nadi in Sattur taluk.

The Gundar flows through Aruppukkottai and Mudukalathur taluks and enters the Gulf of Mannar.

The Kanal odai is a drainage channel in Aruppukkottai taluk.

The Manimuthar and the Tenar rivers flow through Tirupattur and Tiruvadanai taluks. The former is known as the Virasuli river in the latter taluk.

The Sargunaiar drains some of the Periyar fed areas of Madurai district and flows on the north of Sivaganga taluk and thence across Tiruvadanai taluk feeding several tanks along its course.

The Pamban is another river in Tiruvadanai taluk.

The Uppar river takes its source in the eastern boundary of Madurai district and joins the Vaigai near Manamadurai in Sivaganga taluk.

The Krithamal river takes off from the Vaigai near Madurai, passes through Sivaganga taluk, enters the Mudukalathur taluk and after absorbing a small rivulet named Paralaiar, discharges itself into the Ragunathakaveri near Perayar.

(c) *Forests.*—The particulars of area and classification of forests in each taluk of the district are given below :—

Name of taluk.	Reserve forest.	Estate forest taken over.	Estate forest not taken over.	Private forest.	Total.
Tirupattur	..	38·28	Not known.	Not known.	38·28

Total	**72·411**	**71·94**	**11·72**	**3·84**	**159·911**

The reserve forest in Srivilliputtur taluk contains scrub jungle and deciduous species. The estate forests in all the taluks are also of the denuded type.

The private forests in Srivilliputtur taluk contain cardamom plantations.

(d) *Climate.*—The district as a whole is very dry. The heat is mitigated to some extent by the sea breeze in the coastal areas. April to June are the hottest months. There is some rainfall during the north-east monsoon.

The particulars of the average annual rainfall and the average number of rainy days in a year in each taluk are furnished hereunder—

(e) *Soils.*—The district consists of a large expanse of laterite or red soil with black cotton soil in the southern half, i.e., Sattur, Aruppukkottai, Mudukalathur and Ramanathapuram taluks. The coast is fringed with sand dunes with swamps at their back. (Srivilliputtur hills consist of schistose rocks of Archæan age with di-basic intrusions. Traces of graphite are common.) The percentage distribution of soils, in the taluks of the district is furnished below :—

Taluk.	Wet.				Dry.			
	Black loam.	Black sand.	Red loam.	Red sand.	Black loam.	Black sand.	Red loam.	Red sand.
Srivilliputtur	7·0	..	2·0	..	63·0	1·0	24·0	3·0

Sivaganga	..	..	37·8	..	..	..	62·2	..
Ramanathapuram	9·0	..	18·0	..	43·5	..	1·0	28·5

Srivilliputtur and Sattur taluks consist of black loam with a strip of red soil along the foot of the hills. The black cotton soil is perhaps an alluvial deposit overlying a substratum of Kankar. The red soils are poor but are fertile where irrigation exists.

(f) *Irrigation and drainage facilities and liability to famine.*—There are no perennial rivers. The chief irrigation sources are the Vaigai, the Vaippar and the Arjuna Nadi. There are hill streams and rainfed tanks. Wells are also used for irrigation.

Tirupattur taluk.—A few tanks only are fed by rivers ; all the rest depend on rain. The fortunes of the ryots are dependant on the character of the seasonal conditions. Droughts are common.

Sivaganga taluk.—There are a few tanks in the Vaigai basin. Most of the tanks in the taluk are rainfed and their ayacut is greater than the capacity of the tanks. The tanks therefore require several fillings. The rivers Uppar and the Sarugani feed some tanks in the taluk. Several wells have been sunk to supplement tank irrigation.

Tiruvadanai taluk.—There are 24 riverfed tanks. The other tanks are all rainfed.

Srivilliputtur taluk.—The hill streams from the Ghats provide some irrigational facilities to villages at the base of the hills ; the rest of the taluk depends on rainfed tanks. The taluk has the largest number of wells for irrigation. Failure of seasonal rains causes distress.

Sattur taluk.—There are three major tanks and the rest are precarious minor irrigation tanks under which only one crop is raised.

Aruppukkottai taluk.—Ten tanks are fed by the Gundar river, and one by the Girudamal Nadi. The rest are rainfed tanks. The people have to depend upon rainfall for the success of their crops.

Paramakudi taluk.—There are 70 riverfed tanks. The rest are rainfed tanks requiring two or three fillings for the crop to mature. Continued rainfall is necessary to provide two or three fillings and this rarely happens. Hence frequent failure of crops occurs.

Mudukalathur taluk.—There are 47 riverfed tanks and 528 rainfed tanks. The rainfall is scanty and failure of crops occurs frequently. The ryots migrate to Tanjore district during harvest seasons.

Ramanathapuram taluk.—There are thirteen riverfed tanks ; the others are rainfed requiring two to three fillings to enable the ryots to raise a successful crop. The rainfall is generally scanty and it is difficult to get successful crops.

On the whole, the district depends upon seasonal rains. The rainfall has been poor for the past four or five years and distress conditions have resulted.

The particulars of the number of minor irrigation sources and their ayacut in respect of the tracts not covered by the estates taken over and the ayacut of major irrigation sources are furnished below :—

Name of taluk.	Number of minor irrigation sources.	Ayacut of minor irrigation sources.	Ayacut of major irrigation sources.

(*g*) *Food and commercial crops.*—Paddy is the chief food crop. Millets are also grown but in smaller extents. Groundnut and cotton are the chief commercial crops.

A statement showing the area cultivated with food crops, pulses and commercial crops in each taluk for the year 1948–49 which is the most recent normal year for the district is furnished in *Annexure I.*

(*h*) *Communications*—(i) *Roads.*—Several roads from the district lead to Madurai, Tirunelveli and Tiruchirapalli districts. There are 1,388 miles of roads in the district including 222 miles of Municipal roads. Their taluk-wise distribution and classification except in the case of Municipal roads is given below :—

Name of taluk.	National Highways (miles).	Provincial Highways (miles).	Major district roads (miles).	Other district roads (miles).	Village roads (miles).	Total (miles).

The Municipal roads, the Major district roads and the other district roads are kept in good condition but not the village roads. The National Highways and Provincial Highways are in satisfactory condition.

There are adequate communications in Srivilliputtur and Sattur taluks and in what is known as the "Chettinad Area" in Tirupattur taluk. The communication facilities in Tiruvadanai, Mudukalathur and other taluks are inadequate.

(ii) *Railways.*—There are 226¾ miles of metre gauge railway of the Southern Railway traversing the district.

The main line from Madras to Dhanushkodi runs through the taluks of Tirupattur, Sivaganga, Paramakudi and Ramanathapuram and terminates at Dhanushkodi. A line branches off to Rameswaram from Pamban on the main line.

A line from Madurai connects with the main line at Manamadurai junction in Sivaganga taluk. The south-east line from Tiruchirapalli to Tuticorin traverses the taluks of Sattur and Aruppukkottai.

A chord line branches off from the south-east line at Virudhunagar in Sattur taluk and proceeds to Tenkasi in Tirunelveli district across Sattur and Srivilliputtur taluks. A line recently laid connects Karaikudi with Arantangi in Tanjore district.

There is an out agency for parcels and goods at Aruppukkottai served by Virudhunagar station. There is an out agency for parcels and goods at Devakottai town served by Karaikudi station. There is an out agency for passengers, luggage, parcels and goods at Karaikudi town served by Karaikudi station. There is an out agency for parcels and goods at Tiruppattur served by Karaikudi station. The taluk headquarters of Sivaganga, Paramakudi, Ramanathapuram, Sattur and Srivilliputtur have railway communications.

(iii) *Posts and Telegraphs.*—The particulars of the number of Post and Telegraph offices in each taluk are given below :—

"The recorded population has registered a low increase of 4·5 per cent, as compared with 7·6 per cent during the previous decade.

Sattur and Srivilliputtur are the best taluks in this district from the point of view of agriculture and they are also important from the point of view of industry and trade. The increase of 12·9 per cent in Sattur and 16·1 per cent in Srivilliputtur are therefore fully explicable. In Sattur, Sivakasi and Virudhunagar, all in Sattur taluk, there are many Match factories and they are also important trade centres. In Srivilliputtur taluk, Rajapalayam has grown as an industrial and trade centre, and there are also a few textile mills here. It is also a large handloom weaving centre. It has attracted a large number of immigrants from the adjoining dry areas in Tirunelveli district. In the rest of the district, the rainfall is always poor and precarious and these areas have been hit hard by the failure of the North-east monsoon since 1947–48, with the result that there was a large scale emigration of labouring classes to the adjoining districts of Madurai, Tiruchirapalli and Tanjore. There is also considerable migration from these taluks to Ceylon. These factors explain the low increases in these taluks. Mudukalathur has shown a large decrease to the extent of 20·4 per cent. The factors which have contributed to this are the adverse seasonal conditions referred to above and the prevalence of smallpox and cholera in an epidemic form in October 1950; both those factors leading to emigration on a large scale to adjoining districts. This is also a backward and unattractive taluk with poor communications."

(Extracted from Censes Report—Part I.)

(ii) *Vital statistics.*—A statement showing the number of births and deaths and deaths under various causes in the district for the decennium 1941–50 is furnished in *Annexure II.*

The average birth and death rates registered during the decade were 31·0 and 20·9 per mille, respectively, the corresponding rates for the State being 31·7 and 21·2. A downward trend in the registered death rates is noticed during the decade, the rate declining from 24·1 in 1943 to 17·7 in 1949 and 20·3 in 1950. The district experienced severe cholera epidemic in 1943 and 1948 which was responsible for causing 7,813 deaths in those two years out of a total of 10,069 cholera deaths registered in the decade. The average death rates from smallpox, dysentery and diarrhœa during the decade were a little less than those for the State, while those from fevers and respiratory diseases were slightly more than the average for the State. The maternal mortality rates show a steady decline from 8·0 in 1944 to 5·6 in 1950.

A—GENERAL POPULATION TABLES.

A-I—Area, Houses and Population.

This table shows for the rural and urban areas of each taluk and for the district, the area, the number of inhabited villages and towns, occupied houses and the total population with distribution by sex.

2. The district area shown in column (2) of this table is that supplied by the Surveyor-General of India. Area figures furnished by the Central Survey Office, Madras, have been adopted for the taluks. The total area of the taluks as furnished by the Central Survey Office, Madras, shown within brackets in Col. 2 differs from the area of the district furnished by the Surveyor-General.

3. "*Village*" is the revenue administrative unit within defined boundaries. This table gives particulars in respect of all villages containing one or more groups of habitations. Villages with no habitations are not included in this table.

4. "*Town*" is a place of usually not less than 5,000 inhabitants, possessing distinct urban characteristics. Cantonments have been treated as forming part of the towns in which they are situated. The following places not having the population minimum of 5,000 have been treated as towns for the reason that they possess definitely urban characteristics :—

(1) Puduvayal—In Tirupattur taluk.
(2) Pandalkudi—In Aruppukkottai taluk.
(3) Kilasevalpatti—In Tirupattur taluk.

5. "*House*".—Every dwelling with a separate main entrance has been treated as a house for census purposes.

21. RAMANATHAPURAM DISTRICT.

A-II—Variation in Population during fifty years.

This table compares the population of the district and of each taluk in the district as ascertained at the Census of 1951 with the corresponding figures of the five previous Censuses. The figures recorded at the previous Censuses have been adjusted for subsequent territorial changes, if any, in order to afford a correct basis for comparison. The adjusted figures show the population of taluks and the district as constituted at present.

2. The following villages which formerly formed part of Tirumangalam taluk of Madurai district were transferred to this district during the decade 1941 to 1951 and were attached to the taluks specified against them.

Sattur taluk—

(1) Vellore.

Srivilliputtur taluk—

21. RAMANATHAPURAM DISTRICT.

A-IV—Cities and Towns classified by Population with variations since 1901.

This table shows the population and distribution of sex of cities and towns of the district at each of the last six enumerations.

2. Rajapalayam is the only town which has been treated as city for the 1951 Census.

3. The cities and towns have been arranged in this table according to their population in 1951 under the following six classes :—

Class.	Limits of population.
I	100,000 and over.
II	50,000 to 100,000.
III	20,000 to 50,000.
IV	10,000 to 20,000.
V	5,000 to 10,000.
VI	Under 5,000.

4. Where possible, the former population of places treated for the first time as towns in 1941 and at this Census, has been extracted from Village Statistics. Where this could not be done, the columns have been left blank.

5. The population of towns for previous Censuses are those then recorded. No adjustments have been made for intervening changes in area.

6. Municipality, Panchayat and Cantonment are indicated by the use of the letters (M), (P), (C), respectively within brackets.

7. Towns newly appearing at this census have been printed in *italics*.

21. RAMANATHAPURAM DISTRICT.

A-V—Towns arranged talukwise with Population by Livelihood Classes.

This table shows the analysis of the Urban population in towns by livelihood classes, instead of by communities as in the previous Censuses.

2. Under the Indian Census Economic Classification Scheme, the people have been divided into two broad livelihood categories, viz., the Agricultural Classes and the Non-agricultural Classes. There are four Agricultural Classes and four Non-agricultural Classes as shown below :—

(i) *Agricultural Classes.*

I. Cultivators of land wholly or mainly owned and their dependants.

II. Cultivators of land wholly or mainly unowned and their dependants.

III. Cultivating labourers and their dependants.

IV. Non-cultivating owners of land, agricultural rent receivers and their dependants.

(ii) *Non-Agricultural Classes.*

Persons (including dependants) who derive their principal means of livelihood from—

V. Production (other than cultivation).

VI. Commerce.

VII. Transport.

VIII. Other services and miscellaneous sources.

3. In this table the figures for the agricultural Livelihood Classes I to III are not given separately but have been clubbed together.

4. The towns in each taluk of the district are arranged in the order of their population.

5. Municipality, Panchayat and Cantonment are indicated by the use of the letters (M), (P), (C), respectively within brackets.

6. For the definition of a "Town" see fly-leaf to Table A-I.

7. Towns newly appearing at this census have been printed in *italics*.

E—Summary figures by Taluks.

The data contained in this table have been given for each taluk in the district.

2. The areas shown in column (2) of the table for the district and the taluk ' total ' are the latest figures furnished by the Central Survey Office, Madras. The areas given for ' urban ' are those furnished by the District Officers. The areas for ' rural ' have been obtained by deducting the figures for ' urban ' from those for district and taluk ' total '.

3. The district area furnished by the Surveyor-General, India, which has been shown in Table A-I, could not be adopted in this table as talukwise figures have not been furnished by him. The district areas given by the Surveyor-General differ in varying degrees from those furnished by the Central Survey Office, Madras.

4. Previous census figures of population have been adjusted with reference to inter-district transfers. The rural and urban population figures have been taken as they were at the 1941 and 1931 Censuses and as they are at the present Census, regardless of the changes of rural areas into urban areas and *vice versa* from census to census, for the purpose of calculating percentage variation between 1931 and 1941 and between 1941 and 1951. For calculating density for ' rural ' and ' urban ' for 1941, the areas of the towns newly formed at the present Census rounded to the nearest square mile have been deducted from the areas given for urban in column (2) for 1951 and added to the areas given for ' rural ', in the districts and taluks where new towns have been recognized.

3. The livelihood classification is based on the principal means of livelihood of the self-supporting persons, the principal means of livelihood for earning and non-earning dependants being the same as that of the self-supporting persons on whom they are dependant.

4. "The principal means of livelihood" is the means of livelihood which provides the largest or the major part of the income in the case of self-supporting persons who have more than one means of livelihood. In the case of other self-supporting persons, it is the only means of livelihood.

5. A person has been regarded as "Self-supporting" if the income secured by the person is sufficient at least for his (or her) own maintenance at the level of living and adopted by him (or her) at the time of the Census. The income secured may be in cash or kind. Anyone who is not a "Self-supporting" person in this sense has been regarded as a dependant. An "earning" dependant is a person who secures an income which is not sufficient to support him (or her). A person who does not secure any income either in cash or kind, is a 'non-earning dependant'.

6. The non-earning dependants include persons performing housework or other domestic or personal services for other members of the same family household, but do not include "unpaid family workers" or persons who take part along with the members of the family household in carrying on cultivation or a home industry as a family enterprise. These latter persons have been classed as either self-supporting or earning dependants according to the share of income attributable to them.

7. The self-supporting persons shown in Livelihood Class VIII include also persons who derive their income otherwise than through productive activity, i.e., persons coming under the following groups, details for which are given in the fly-leaf to Economic Table B-III :—

(1) Persons living principally on income from non-agricultural property ;

(2) Persons living principally on pensions, remittances, scholarships and funds ;

(3) Inmates of jails, asylums, alms houses and recipients of doles ;

(4) Beggars and vagrants ; and

(5) All other persons living principally on income derived from non-productive activity.

B–II—Secondary means of Livelihood.

This table gives for the district the number of persons, in each of the eight livelihood classes mentioned in Economic Table B-I, who possess a secondary means of livelihood; and cross-classifies them (according to the nature of such means of livelihood) under the same eight livelihood classes.

2. The secondary means of livelihood shown for self-supporting persons is the means of livelihood next in importance to their principal means of livelihood. In respect of earning dependants, it is the means of livelihood which provides the earning, or the largest part of their income if they have more than one source of income.

3. Non-earning dependants and self-supporting persons who have no secondary means of livelihood are excluded from this table.

21. RAMANATHAPURAM DISTRICT.

B-III—Employers, Employees and Independent Workers in Industries and Services by Divisions and Subdivisions.

This table gives figures for each census tract in the district. The areas comprised in each census tract denoted by its number in column (1) have been specified in the fly-leaf to Table B-I. In this table, the self-supporting persons in the four non-agricultural classes given in Economic Table B-I are distributed in the various divisions and subdivisions of Industries and Services under the Indian Census Economic Classification Scheme, according to their secondary Economic status, namely, employer, employee, and independent worker.

2. (An) Employer (is) a person who employs other persons in order to carry on the business from which he secures his livelihood and pays them a salary or wage in cash or kind.

3. (An) Employee (is) a person who ordinarily works for some other person for a salary or a wage, whether in cash or in kind in order to earn his livelihood.

4. (An) Independent worker (is) a person who works on his own without being employed by anyone for a salary or wage and who does not also employ anyone else in order to earn his livelihood.

5. Under the New Indian Census Economic Classification Scheme all employers and independent workers have been classified with reference to the commodity produced or services performed by them individually. As regards employees, all persons engaged in Production, Commerce, or Transport (and not being domestic servants) have been classified with reference to their own activity and without reference to that of their employer. Domestic servants have been classified in one subdivision without reference to the nature of their work. All other employees. (including all managerial and supervisory employees, clerical services, messengers, watchmen and unskilled labour of every description) have been classified with reference to the commodity produced or services rendered by their employers.

6. The non-agricultural classes classified in Economic Table B-I, correspond to the divisions and subdivisions into which they are distributed in this table as follows :—

Livelihood Class.	Division and subdivisions of the Indian Census Economic Classification Scheme.
Class V—Production other than cultivation.	Division 0.—Primary Industries not elsewhere specified.
	Division 1.—Mining and Quarrying.
	Division 2.—Processing and Manufacture of Foodstuffs, Textiles, Leather and Products thereof.
	Division 3.—Processing and Manufacture—Metals, Chemicals and Products thereof.
	Division 4.—Processing and Manufacture—Not elsewhere specified.
Class VI—Commerce.	Division 6.—Commerce.
Class VII—Transport.	Subdivisions 7·0 to 7·4 of Division 7—Transport, Storage and Communications.
Class VIII—Other Services and Miscellaneous sources.	Division 5.—Construction and Utilities.
	Division 7.—Transport, Storage and Communications with the exception of subdivisions 7·0 to 7·4.
	Division 8.—Health, Education and Public Administration ; and
	Division 9.—Services not elsewhere specified.

Class VIII also includes persons who derive their principal means of livelihood from miscellaneous sources (otherwise than through economic activity), e.g., income from investments, pensions and family remittances, proceeds of begging and other un-productive activities. These are not, however, included in this table as it is limited to economically active persons in industries and services. Hence there will be a difference to this extent between the total self-supporting persons of the non-agricultural classes in Economic Table B-I and the total of this table. The reconciliation will be effected by adding the figures given in the next paragraph.

SMALL-SCALE INDUSTRIES.

I—Distribution of Small-scale Industries by Tracts.

This table gives for each Census tract, the number of small-scale industrial establishments under categories, non-textile and textile, with details for perennial and seasonal establishments.

2. The table covers only those establishments, to which the Factories Act does not apply. It relates, therefore, to all associate activities, where articles are produced, repaired or otherwise treated for sale, use or for disposal. Small mines not covered by the Indian Mines Act have also been included. The table does not include plantation industries of any kind.

3. The areas covered by each Census tract in the district denoted by its number in column (1) have been given in the fly-leaf to Table B-I.

Tract No.	Total number of establishments.			Number of non-textile establishments.				Number of textile establishments.			
	Total.	Non-Textile.	Textile.	Perennial (nine months and over).	Six months and over but less than nine months.	Three months and over but less than six months.	Less than three months. II—Employment in Textile Establishments.

This table gives for each Census tract the number of persons employed in the textile establishments shown in Table I. The occupations have been grouped with reference to the scheme of grouping adopted in the Indian Census Economic Classification Scheme.

2. 'Boys' and 'Girls', referred to in the table, refer to persons below 15 years of age.

3. The areas covered by each Census tract in the district have been given in the fly-leaf to Table B-I.

NOTE.—The symbols 'W.T.' and 'P.T.' adopted in this table stand for 'Whole Time' and 'Part Time.'

III—Employment in Non-Textile Establishments.

This table gives for each Census tract the number of persons employed in non-textile establishments referred to in Table I. The establishments have been grouped with reference to the scheme of grouping adopted in the Indian Census Economic Classification Scheme.

2. As in Table II, 'Boys' and 'Girls' refer to persons below 15 years of age.

3. The areas covered by each Census tract in the district have been given in the fly-leaf to Table B-I.

NOTE.—The symbols 'W.T.' and 'P.T.' adopted in this table stand for 'Whole Time' and 'Part Time.'

Section (ii)

Rural Statistics.

This is an abstract giving a complete list of villages and towns in each taluk in the district with sexwise distribution of population in each livelihood class in the villages alone. Among the other items of statistical information furnished, those relating to occupied houses, households, inmates of institutions and houseless persons and literates were obtained from the National Register of Citizens prepared for each village from the information recorded in the enumeration slips. Villagewise statistics of textile and non-textile establishments collected in the course of the Census of Small-scale Industries and the number of leprosy cases and doubtful cases are also given in the abstract.

2. For detailed explanation of the livelihood classes I to VIII see fly-leaf of general population Table A-V.

3. The areas included in each Census tract in the district have been furnished in the fly-leaf to Table B-I.

4. A list of villages with a population exceeding 5,000 but treated as rural is given below :—

C—HOUSEHOLD AND AGE (SAMPLE) TABLES.

C-I—Household (size).

This table has been prepared in respect of a population covering the members of sample households selected from the entries in the National Register of Citizens on the basis of one household for every one thousand households. The sample households selected include roughly every tenth household in every hundredth House-numbering Block in the Rural areas and every fiftieth household in every twentieth House-numbering block or locality in urban areas.

2. The Agricultural and the Non-Agricultural classes refer to the four agricultural and the four non-agricultural classes given in Table A-V. The Backward Classes include the Scheduled Castes, the Scheduled Tribes and other classes not treated as non-backward by the State Government for the purpose of 1951 Census. Anglo-Indians are included among the non-backward classes.

3. Columns (2) to (5) of the table relate to all the households and household population in the entire district while columns (6) to (17) relate to the sample households selected.

4. The figures have been given for each Census tract denoted by its number in column (1). The areas comprised in each Census tract have been given in the fly-leaf to Table B-I.

C-II—Livelihood Classes by Age-groups.

This table shows the livelihood distribution by age-groups for rural, urban and district totals in respect of a sample population based on a ten per cent sample taken out when the enumeration slips were initially sorted. The ten per cent sample was taken out as follows :—

Each enumeration pad which consisted generally of 100 enumeration slips was broken and the slips relating to displaced persons which had been noticed during the process of the preliminary scrutiny were removed from the pack of slips for being dealt with separately. The pack was then " cut " as in a card-game. The lower portion was placed above the upper portion and the slips were dealt into two pigeon-holes one marked " G " and the other marked " S " as follows :

The first five slips were placed in the pigeon-hole " G ", then one slip was placed in the pigeon-hole " S." Thereafter for every nine slips placed in the pigeon-hole " G ", one slip was placed in the pigeon-hole " S " until the total number of slips left was less than 9 and these residuary slips were all put into hole " G." All the slips contained in the pigeon-hole marked " S " were taken out, counted and marked as ' Sample ' slips.

No smoothing formula has been adopted in preparing the table as in previous Censuses and the figures have been tabulated as actually returned in suitable age-groups.

The figures under age ' 0 ' represent infants below one year.

C-IV—Age and Literacy.

This is yet another table prepared in respect of the ten per cent samples of the general population (vide fly-leaf to Table C-II).

2. Age-groups 0 and 1 to 4 given in Table C-II have been combined into one age-group, and the age-group 5 to 14 has been split into two sub-groups 5 to 9 and 10 to 14. Persons of age-group 0 to 4 are treated as illiterate.

3. The figures are given for each Census tract denoted by its number in column (1) in the district. The areas covered by each Census tract have been specified in the fly-leaf to Table B-I.

4. 'Literates' are those who are able to read and write any simple letter in any language.

5. Persons who are partly literate, i.e., persons who are able to read only, have been included among the illiterates. details for such persons are given below :—
