PREFACE

THIS and the companion volumes in the District Census Handbook series, take the place of what used to be published at the previous Censuses in Mysore as "Part IV—Taluk Tables" and "Part V—Village Tables."

2. Unlike the old Taluk Tables which presented for taluks only abridged versions of the more important tables in the All-India series, the tables included in these Handbooks cover, with one exception, the entire range, and exhibit taluk or tractwise details for the prescribed sequence of A, B, C, D & E series published in Part II of the 1951 Census Report. The exception "C. I-Household (size and composition)" Table, has been omitted here for reasons explained in a fly-leaf at the appropriate place.

3. Of the tables of the 1951 vintage presented here, the A series consists of General Population Tables, the B series of all the Economic Tables, the C of all the agewise tables and the D series consists of all the social and cultural tables produced this time. The solitary table of the E series exhibits summary figures for taluks. The agewise tables in the C series emerge for the first time from samples extracted at random.

4. Of the five series of tables presented in these Handbooks, talukwise data are offered in the first and the last namely the A and E series. The intervening series exhibit figures only for tracts. Tracts are units constituted purely for tabulation convenience, by combining one or more areas, without reference either to their geographical contiguity or to administrative linkage. The rural areas of one or more taluks have been combined to constitute a rural tract, while all the urban areas of a district have been welded together to form a single DISTRICT URBAN tract. The three principal cities namely, Bangalore Corporation, Mysore and K. G. F. have, however, been constituted into separate tracts, Bangalore Corporation being split up into two tracts, one comprising the Civil area and the other embracing the whole of the City area.

5. The village statistics which used to be published separately in the past as Part V of the Mysore series, now appear in the Handbooks immediately after Table E, in considerably more amplified form than in the past. In addition to furnishing the usual population and literacy figures for each village or town, details are offered now for the first time, regarding occupied houses, households, inmates of institutions, houseless population and distribution of population by livelihood classes and sex.

6. The 1951 crop of Tables show many departures from established practice. Easily the most notable of them is the shift in the basis of classification this time from religion to economic. In the past the population was divided on the basis of religion at the very outset of sorting and this separation was maintained throughout the sorting operations in order that as many characteristics as possible might be cross-tabulated by religion. But this time, the basic religious categories have been substituted by

livelihood classes and these consequently pervade all the cross tabulations carried out in 1951. According to this new scheme, the entire population has been divided, in the first instance, into two broad livelihood categories, namely agricultural and non-agricultural, and each category has been sub-divided into four livelihood classes. These eight classes are as follows :—

CATEGORY A—*Agricultural Classes*

I Cultivation of land, wholly or mainly owned and their dependants

II Cultivation of land, wholly or mainly unowned and their dependants

III Cultivating labourers and their dependants

IV Non-cultivating owners of land ; agricultural rent receivers and their dependants

CATEGORY B—*Non-Agricultural Classes*

Persons (including dependants) who derive their principal means of livelihood from :—

V Production other than cultivation

VI Commerce

VII Transport

VIII Other services and miscellaneous sources

7. It would be a good plan to study the fly-leaves before dipping into the tables as they draw attention to special features of minor categories which might happen to have been omitted in the tables.

8. While the Taluk and Village Tables of the past were gifts of provincial discretion, these District Census Handbooks are being published for the first time in their present form in accordance with Central direction.

G. NANJUNDIAH
Census Commissioner for Mysore

A—General Population Tables

A. I—Area, houses and population

1. The taluks in this table are the same as in 1941 except that Ramanagaram was formerly called Closepet.

2. Separate figures are furnished for Bangalore City and Civil Station although they were amalgamated into a single Municipal Corporation in 1950.

3. The area of Bangalore Corporation was furnished by the Municipal authorities, and the areas of taluks were furnished by the Amildars of Taluks. Differences in area between 1941 and 1951 are due partly to transfer of villages and partly to improvement in the method of computation.

4. *Vide* fly-leaf of Table A. II.

5. "Towns" consist exclusively of Municipalities. The H.A.F. Sanitary Board is included in the rural area.

A. III—Towns and villages classified by population

Only inhabited villages have been taken into account in this table. The number of uninhabited villages in the several taluks is as under :—

Taluk	*Number*
BANGALORE DISTRICT..	**296**
Bangalore North	20
Bangalore South	13
Hoskote	49
Devanhalli	41
Dodballapur	37
Nelamangala	28
Magadi	30
Channapatna	13
Ramanagaram	11
Kankanhalli	28
Anekal	26

The "Village" of the Census is, by definition, the same as the Revenue Village; it includes the main settlement as well as all its hamlets.

A. III—Towns and Villages classified by population

* Formerly Closepet

† There are no towns with population between 50,000 and 100,000

‡ Includes the population of 4 Camps which together have been treated as one village for the purposes of this table

A. IV—Towns classified by population with variations since 1901

1. For the definition of "towns", *vide* Note 5 to Table A. I.

2. As in the 1941 Census, population figures of villages having the same name as the towns to which they are adjacent but comprising area lying outside the municipal limits, have been included in the rural area and excluded from the respective towns listed in this table.

3. Towns have been divided into six classes according to their population as follows :—

(i) Class I—100,000 and over
(ii) Class II— 50,000—100,000
(iii) Class III— 20,000— 50,000
(iv) Class IV— 10,000— 20,000
(v) Class V— 5,000— 10,000
(vi) Class VI— Under 5,000

The class to which each town belongs is indicated in the table. In addition, totals of all the towns coming under each class are also furnished. All the towns in the District have been listed in one sequence in order of size. There are no Class II towns in this District.

A. V—Towns arranged territorially with population by livelihood classes

1. This table is different from its counterparts of the past in that it shows the population of towns according to livelihood classes rather than by religion (1931) or by communities (1941). The entire population has been divided into two livelihood categories (agricultural and non-agricultural) and eight livelihood classes, four agricultural and four non-agricultural. Each one of the livelihood classes under the non-agricultural category is shown separately in the table. In the case of agricultural category the three livelihood classes relating to cultivation are lumped together.

2. The abbreviation M added within brackets after the name of each town stands for Municipality.

3. *Vide* also Note 5 to Table A.I.

B—Economic Tables

INDIAN CENSUS ECONOMIC CLASSIFICATION SCHEME

The Economic Tables for the 1951 Census are based on the Indian Census Economic Classification Scheme, 1951, prepared by the Registrar General, India. The Scheme is reproduced below :

1. 1931 *Scheme of occupations.*—The last occasion on which the economic characteristic of the people were not only ascertained but also classified and tabulated on an All-India basis was in the 1931 Census.

The basis of classification adopted at that census was a Scheme of Occupations consisting of 4 Classes, 12 Sub-classes, 55 Orders and 195 Occupational Groups. The total following the occupations for each Class, Sub-class, Order and Group was given, together with sub-totals for numbers following occupations as "principal occupation" or as "working dependant" or as "subsidiary to other occupations".

2. *I.C.E.C. Scheme.*—The scheme of classification set out in this memorandum may be referred to as the Indian Census Economic Classification Scheme. It is based on the 1931 Scheme of Occupations. It embodies, however, extensive revision and re-arrangement designed to secure the following purposes, *viz.*,—

(i) to establish a comprehensive economic classification of the people as a whole and not merely of persons who are gainfully occupied ;

(ii) to simplify and improve the method of presentation of census economic data ; and provide additional data ; and

(iii) to secure international comparability of data as recommended by the Economic and Social Council of the United Nations.

3. *Basis of classification.—Economic status and means of livelihood.*—The 1951 Census seeks to ascertain, the "economic status" and the "means of livelihood" of every person enumerated. Questions 9, 10 and 11 relate to these economic characteristics. What the enumerators are required to ascertain and record in respect of these questions is explained in Annexure I. The answers to Questions 10 and the two parts of Question 9 will form the basis of classification of each individual.

4. *Livelihood categories and classes.*—On the foregoing basis, the people will be divided into two broad livelihood categories, *viz.*, the Agricultural Classes and the Non-agricultural Classes.

There will be four Agricultural Classes, defined as below :—

I—Cultivators of land, wholly or mainly owned ; and their dependants

II—Cultivators of land, wholly or mainly unowned ; and their dependants

III—Cultivating labourers ; and their dependants ; and

IV—Non-cultivating owners of land ; agricultural rent-receivers ; and their dependants

There will be four Non-agricultural Classes, defined as comprising all persons (including dependants) who derive their principal means of livelihood from—

V—Production (other than cultivation)

VI—Commerce

VII—Transport

VIII—Other Services and Miscellaneous Sources

All these Classes will be referred to as Livelihood Classes.

5. *Livelihood sub-classes.*—Each of the 8 Livelihood Classes will be divided into three sub-classes, with reference to their economic status as below :—

(i) Self-supporting Persons ;

(ii) Non-earning Dependants ; and

(iii) Earning Dependants.

The tests to be applied in determining to which sub-class, any individual belongs are defined and fully explained in Annexure I.

6. *Economically active, semi-active, and passive persons.*—All non-earning dependants are economically passive. They include persons performing house-work or other domestic or personal services for other members of the same family household. But they do not include "unpaid family workers" or persons who take part along with the members of the family household in carrying on cultivation or a home industry as a family enterprise.

All earning dependants are economically semi-active only. Though they contribute to the carrying on of economic activities, the magnitude of their individual contribution is deemed to be too small to justify their description as economically active. [Their contribution to economic activity is, however, taken into account, in the tabulation of data based on secondary means of livelihood (*vide* para 9 below)].

All self-supporting persons are, ordinarily, economically active. But, there are certain classes and groups which constitute an exception to this rule.

These are mentioned below :—

(i) All self-supporting persons of Agricultural Class IV.

(ii) The following groups of self-supporting persons who are included in Non-agricultural Class VIII, and derive their principal means of livelihood from miscellaneous sources (otherwise than through economic activity):—

(*a*) Non-working owners of non-agricultural property,

(*b*) Pensioners and remittance holders,

(*c*) Persons living on charity and other persons with unproductive occupations and

(*d*) inmates of penal institutions and asylums.

7. *Classification of economic activities and economically active persons.*—Economic activities may be defined as including all activities of which the result is the production

of useful commodities or the performance of useful services; but not including the performance of domestic or personal services by members of a family household to one another.

The most important among all economic activities is the cultivation of land (or the production of field crops). It stands in a category by itself. All other economic activities may be regarded as falling in another category which may be referred to as "Industries and Services". All these activities may be classified with reference to the nature of the commodity produced or service performed. Under the present scheme all Industries and Services are classified into 10 divisions; and these divisions are sub-divided into 88 sub-divisions, as shown in Annexure II. The scope of activities included in each sub-division is indicated by its title, as well as by the specification of groups which are comprised in them.

Economically Active Persons engaged in cultivation, are either cultivators or cultivating labourers—that is, they are persons of sub-class (i) of Agricultural Classes I to III.

Economically Active Persons engaged in Industries and Services are classifiable in the divisions and sub-divisions shown in Annexure II. All persons included in each sub-division are further divisible into three Sections, *viz.*,—

(i) Employers,
(ii) Employees and
(iii) Independent Workers.

In effecting this classification, no account will be taken of the fact whether the classified person was actually employed or unemployed on the date of enumeration. He should be allocated to that particular description of economic activity, from which he has in fact been deriving a regular (that is non-casual) income, as his principal means of livelihood.

8. *Form and Method of Tabulation.*—The replies recorded in Census Slips against Census Questions 9, 10 and 11 will be used for classifying every enumerated person within the framework of economic classification of the people described above. The result will be exhibited in three tables entitled, "The Economic Tables, I, II and III". There will be approximately 350 million census slips which will have to be sorted by hand, and not by mechanical processes.

9. *Comments on Economic Tables.—Economic Table No. I* will show the numbers of 24 livelihood sub-classes grouped under 4 agricultural classes, and 4 non-agricultural classes. A complete picture will be presented of Economically active, semi-active and passive persons.

Economic Table No. II will specify the numbers in each of the 8 classes mentioned above, who possess a secondary means of livelihood; and cross-classify them (according to the nature of such means of livelihood) under the same eight classes. [This table is designed to include not only self-supporting persons who have more than one means of livelihood, but also earning dependants—who supplement (with their own contribution) the resources provided for their maintenance by the persons on whom they are dependent. The contribution made to economic activity by economically semi-active persons (*vide* para 6 above) will be shown by this Table].

Economic Table No. III is limited to economically active persons. The number of persons engaged in industries and services as a whole, as well as in each division

and sub-division thereof will be shown in this table, divided into the three sections "Employers", "Employees" and "Independent Workers".

In all three tables, the numbers are separated by sexes, as well as residence in urban and rural areas. The All-India Tables will furnish totals by States. The State Tables will furnish totals by Districts.

10. *Comparability.*—The principal change involved in the present Scheme is the setting up of a comprehensive economic classification of the people, as a whole, and not merely of those among them who are engaged in gainful occupation. In the process of sorting of census information, the division of the people into "livelihood classes" takes the place of the division of the people into "communities" at the former censuses.

Consistently with this main purpose, the present scheme of classification is based mainly on the Scheme of Occupations of former censuses. Comparability with the published census tables of 1931 is secured by the references to the Occupational Group numbers of the 1931 census which are found under each sub-division in Annexure II.

The United Nations Organisation has evolved a Scheme of Classification of all economic activities known as the "International Standard Industrial Classification" Scheme. The Scheme of divisions and sub-divisions of industries and services set out in Annexure II has been framed so as to maintain comparability with data arranged in accordance with the I.S.I.C. Scheme. This is explained fully in Annexure II.

ANNEXURE I

Census Questions 9, 10 and 11 and related Instructions

1. The Census is concerned with two economic characteristics of every individual—his economic status, and his means of livelihood. The scope and meaning of these expressions will appear from an explanation of three Census questions, *viz.* :—

Question 9—Economic status ;

Question 10—Principal Means of Livelihood ; and

Question 11—Secondary Means of Livelihood.

2. Form of questions :

Question 9—Economic status—

Part One—Dependency.—Write 1 for a self-supporting person, 2 for a non-earning dependant, and 3 for an earning dependant. Write the answer in the first compartment.

Part Two— Employment.—If a self-supporting person earns his principal means of livelihood as an employer write 1, as an employee write 2, as an independent worker write 3. Write 0 in other cases. Write the answer in the second compartment.

Question 10.—Principal means of livelihood.—An answer to this question should be recorded on every slip. If the slip relates to a self-supporting person record his principal means of livelihood. If the slip relates to a dependant (whether earning or non-earning) record here the principal means of livelihood of the self-supporting person on whom he is dependant. The means of livelihood which provides the largest income is the principal means of livelihood for a self-supporting person who has more than one means of livelihood. In the case of other self-supporting persons, it is the only means of livelihood.

Use the following contractions.—Write 1 for a person who cultivates land owned by him ; 2 for a person who cultivates land owned by another person ; 3 for a person who is employed as a labourer by another person who cultivates land ; 4 for a person who receives rent in cash or kind in respect of land which is cultivated by another person.

For all other means of livelihood write fully and clearly what the person does in order to earn his livelihood and where he does it.

Question 11.—Secondary means of livelihood.—For a self-supporting person who has more than one means of livelihood write the means of livelihood next in importance to his principal means of livelihood. For an earning dependant write the means of livelihood which provides the earning. Use contractions given in question 10.

For a self-supporting person who has only one means of livelihood write 0. In the case of a non-earning dependant also, write 0.

3. *Question 9—Economic status.*—This question is in two parts. The first part requires the labelling of every person as "a self-supporting person", or "an earning dependant" or "a non-earning dependant". Every single human being must be

allotted one of these labels and not more than one of them, and this will be referred to as his Primary Economic Status.

The second part of the question has no application to non-earning dependants or to earning dependants. It relates only to self-supporting persons ; and even among them, those exceptional cases of self-supporting persons who support themselves without gainful occupation or economic activity (*e.g.* rentiers and pensioners) are not covered. All others (that is , all those self-supporting persons who are both economically active and gainfully occupied) are to be allotted one or other of the three labels, *viz.*, "Employer" ; "Employee" ; or "Independent Worker" ; and this will be referred to as his Secondary Economic Status.

The following extracts from the model-instructions to enumerators explain the criteria to be applied and the treatment of border-line cases.

"Where a person is in receipt of an income, *and that income is sufficient at least for his own maintenance* then he (or she as the case may be) should be regarded as a "self-supporting person". Such income may be in cash or kind.

Any one who is not a "self-supporting person" in this sense is a "dependant". A dependant may be either an "earning dependant" or a "non-earning dependant" ; the test is whether or not he secures a regular income, even though it may be small. Where the income which he secures is not sufficient to support him, that person is an 'earning dependant'. A person who does not secure any income either in cash or in kind, is a 'non-earning dependant'.

Where two or more members of a family household jointly cultivate land and secure an income therefrom, each of them should be regarded as earning a part of the income. None of them, is therefore, a non-earning dependant. Each of them should be classed as either a self-supporting person or an earning dependant, according to the share of income attributable to him (or her). The same applies to any other business carried on jointly.

This does not mean that any one *who works* is necessarily a self-supporting person or an earning dependant. Thus, for instance, a housewife who cooks for the family, brings up the children or manages the household is doing very valuable work. Nevertheless, her economic status is that of a non-earning dependant, if she does not also secure an income.

(An) Employer (is) only that person who has necessarily to employ other persons *in order to carry on the business from which he secures his livelihood.* A person (who) employs a cook or other person for domestic service should not be recorded as an employer merely for that reason.

Persons employed as managers, superintendents, agents, etc. (who) control other workers are also employees only and should not be recorded as employers.

An independent worker means a person who is not employed by any one else and who does not also employ anybody else in order to earn his livelihood.

4. *Question 10—Principal means of livelihood.*—"Means of Livelihood" of any individual ordinarily means the gainful occupation which forms the source from which that income which is utilised for his maintenance is normally derived ; but it is more comprehensive, inasmuch as in exceptional cases, income may be secured without

gainful occupation. "Principal Means of Livelihood" means the same thing as "Means of Livelihood" for every person who has only one means of livelihood. Where a person has more than one, that which gives him the greater part of his income is his "Principal Means of Livelihood". In the sense thus defined, every human being, without any exception, has a Principal Means of Livelihood—whether or not he is a self-supporting person. Every non-earning dependant is maintained exclusively by the income of some self-supporting person on whom he is dependant. Consequently, the Principal Means of Livelihood of the latter is required to be recorded as the Principal Means of Livelihood of the former. The same rule applies to Earning Dependants also (no attempt being made to assess the degree of sufficiency of his own income or the extent of his dependance on others).

Agricultural and non-agricultural means of livelihood are distinguished by the manner in which enumerators are required to record the answers to this question. This is important for purposes of subsequent classification of the answers. The following extracts from instructions are relevant :—

"Four simple contractions have been provided which will cover most cases where the livelihood is dependant on agriculture—Write 1 for a person who cultivates land owned by him ; 2 for a person who cultivates land owned by another person ; 3 for a person who is employed as a labourer by another person who cultivates land ; 4 for a person who receives rent in cash or kind in respect of land which is cultivated by another person. If you find that a person falls under two of these categories note that category which provides the largest income against question 10 and the second against question 11. No note need be taken of more than two such categories in any case.

In all other cases, write fully and clearly what the person does in order to earn his livelihood and where he does it. There are three lines on the slip provided for answering this question. Use them fully. Avoid vague and general terms. Do not write "service" or "labour". If you are enumerating a trader, describe the articles in which he is carrying on trade and state clearly whether he is a wholesale trader or a retail trader. A retail trader, sells to the public. A wholesale trader does not. If you are enumerating a factory worker give the name of the factory or the product it makes, *e.g.*, coal mine, jute factory, cotton mill, etc.

[NOTE.—The word "owned", used in relation to land, includes every tenure which involves the right of permanent occupancy of land for purposes of cultivation. Such right should be heritable ; it may be, but need not necessarily be also transferable.]

5. *Question 11—Secondary means of livelihood.*—A self-supporting person may or may not have more than one means of livelihood. If he has more than one, that which provides the greatest income is recorded under question 10 as the "Principal Means of Livelihood" and the next under Question 11 as the "Secondary Means of Livelihood". It has been laid down that no note should be taken of more than two such means of livelihood in any case.

The answer to this question is invariably 'Nil' for non-earning dependants. *Exhypothesi* they secure no income ; they are supported by the Principal Means of Livelihood of the persons on whom they are dependant which alone is taken to be their only means of livelihood.

In the case of every earning-dependant, there are two means of livelihood which are combined in order to support him. One is the Principal Means of Livelihood of the person on whom he is dependant. The other is the source wherefrom he secures his

own income. The former is always to be treated as the "Principal Means of Livelihood" of the "earning dependant"; and the latter as his "Secondary Means of Livelihood".

6. Further elucidation of the scope and implications of these questions have been provided in supplementary instructions in the form of question and answer.

These are extracted below :—

I—Census Question 9(1)—

Question (1)—In the instructions the words are "the test is whether he secures a regular income, even though it may be small". Does the use of word 'regular' rule out persons who earn an income by seasonal employment ?

Answer.—No. The word 'regular' is used in the sense of 'non-casual'. It is not intended to be confined only to income derived from continuous employment. It also includes income derived from seasonal employment. What it does exclude is individual income accruing casually and not constituting a source of income which is regularly depended upon.

Question (2)—The word 'self-supporting' as defined in the instructions, means any person whose income is sufficient at least for his own maintenance. Does this mean that an income sufficient for one man is self-supporting income ? What about his direct dependants—wife, children, etc. ?

Answer.—Yes. The instructions mean what they say. A person must be deemed to be self-supporting if his income (such as it is) is sufficient to support him individually at his present level of living (such as it is). He does not cease to be self-supporting merely for the reason that he, his wife and children taken together are not maintained by his own income.

If the wife and children have no income of their own, they are non-earning dependants. The instructions provide that their principal means of livelihood should be deemed in every case to be the same as that of the person on whom they are dependant. This would in most cases be the husband or father who will also be the head of the household. In those exceptional cases where the husband or father is *not* the head of the household, and is also not able to support anyone but himself, then the head of the household in which the non-earning dependant is living is the person on whom he (or she) is dependant.

Remember—every "family household" is (collectively) self-supporting; otherwise it would not exist. The surplus of self-supporting persons within a family household is in every case sufficient to meet the deficit on the earning and non-earning dependants in that family household.

Question (3).—In the instructions it is recorded that if two or more members of the family household jointly cultivate land they would be classed as self-supporting or earning dependant "according to the share of income attributable to him or her". How are these shares to be assigned ? What about females who, in some cases, take an active part in agricultural operations ?

Answer.—The share of the income attributable to a person is what the head of the household (or whoever is the managing member) deems it to be. No attempt should be made to make a detailed calculation of this share. All that has to be ascertained is whether (in the opinion of the head of the household or managing member)

the member concerned is entitled to a share which would be sufficient to cover the cost of his own maintenance.

If the answer is 'yes', he is 'self-supporting'; if the answer is 'no', he is an 'earning dependant'.

The considerations are exactly the same whether the individual is a male or a female, an adult or a non-adult.

II—Census Question 9 (2)—

Question (4).—Are doctors and lawyers, who employ compounders and clerks independent workers or employers ?

Answer.—They are employers. A doctor employs a compounder in order to relieve him of part of the work connected with the business on which he is engaged and by which he secures his livelihood. A lawyer employs a clerk for a like purpose.

Question (5).—A money-lender employs four persons to realise interest. Is he an employer or independent worker ?

Answer.—He is an employer. He would be an employer even if he employed only one person, provided that person was regularly employed and derived his principal means of livelihood by such employment. Casual employment, or part-time employment which does not provide the principal means of livelihood of the person employed, should not be taken into account.

Question (6).—What is the status of tenants or zamindars who do not cultivate themselves but employ labourers ?

Answer.—If they employ others they are 'employers'—provided the purpose of the employer and the nature of the employment are as stated in the answers to the employment or as stated in the answers to the two preceding questions.

Question (7).—What is the status of beggars; orphans in orphanages; convicts in jails ?

Answer.—They fall in none of the three categories. Record 0 for them.

III—Census Question 10—

Question (8)—What is the category of a minor, a blind person or a lady who has land in his or her name but gets it cultivated by labourers.—Category 1 or Category 4 ?

Answer.—Learn to distinguish between "cultivation of the land", and "performance of labour necessary for cultivating the land". There are, of course, millions of persons who perform both functions—but the functions are distinguishable and should be distinguished. The man who takes the responsible decisions which constitute the direction of the process of cultivation (*e.g.*, when and where to plough, when and what to sow, where and when to reap and so on); it is this person who should be referred to as the cultivator, even though he does not perform any manual labour whatever. The man who ploughs, or sows, or reaps, under the directions of someone else is not the cultivator—but a cultivating labourer, a different thing altogether.

The cultivator may be the owner of the land cultivated. In that case he is category 1, whether or not he also combines in himself the functions of a cultivating labourer.

Alternatively, the cultivator may be a lessee, an agent or manager (paid or unpaid). Even in this case it is immaterial whether this lessee or agent or manager also combines in himself the functions of a cultivating labourer; he (the cultivator) is category 2, and the other person (the owner) is category 4.

Applying these principles, the answer to the question put depends on whether the minor, blind person, or lady does or does not actually direct the process of cultivation. If the person, does this, the answer is category 1; otherwise, the answer is category 4.

ANNEXURE II

The 1951 Scheme of Occupations compared with the International Standard Industrial Classification Scheme and the Occupational Classification of past Censuses

International Standard Industrial Classification Scheme	Indian Census Economic Classification Scheme—(1951)	Scheme of Occupations (1941 and 1931) Group No. 1941	Group No. 1931	Description (1931)

3.3 Manufacture of non-metallic mineral products except products of petroleum and coal	*4.2 Bricks, tiles and other structural clay products*			Order 13—*Furniture industries*
	Structural clay products such as bricks, tiles etc.	114	88	Cabinet makers, carriage painters, etc.
		115	89*	Upholsterers, tent-makers, etc.
	4.3 Cement—Cement pipes and other cement products			Order 17—*Miscellaneous and undefined industries*
	Manufacture of cement, cement pipes and cement concrete products	127 & 128	95	Printers, engravers, book-binders, etc.
		129	96	Makers of musical instruments
		130	97	Makers of clocks and surgical or scientific instruments
	4.4 Non-metallic mineral products	132	98	Makers of jewellery and ornaments
	4.41 Potters and makers of earthen ware	134	99	Other miscellaneous and undefined industries (toy making taxidermy, etc.)
	4.42 Makers of porcelain and crockery			
	4.43 Glass bangles, glass beads, glass necklaces, etc.			
	4.44 Makers of other glass and crystal ware			
	4.40 Makers of other miscellaneous non-metallic mineral products			
3.0 Manufacture of rubber products	*4.5 Rubber products*			
2.5 Manufature of wood and cork except manufacture of furniture	*4.6 Wood and wood products other than furniture and fixtures*			
	4.61 Sawyers			
	4.62 Carpenters, turners and joiners			
	4.63 Veneer and plywood makers, match veneer and splint makers			
	4.64 Basket makers			
	4.60 Other industries of woody materials, including leaves, but not including furniture or fixtures			
2.6 Manufacture of furniture and fixture	*4.7 Furniture and fixtures*			
	Manufacture of household, office, public building, professional and restaurant furniture; office and store fixtures, screens, shades, etc., regardless of material used			
2.7 Manufacture of paper and paper products	*4.8 Paper and paper products*			
	Manufacture of paper and paper board and articles of pulp, paper and paper board			
2.8 Printing, publishing and allied industries	*4.9 Printing and allied industries*			
	4.91 Printers, lithographers, engravers			
	4.92 Bookbinders and stitchers			

* A part of this group 89 belongs to Livelihood Group 2.76—Tent makers—under Division 2; and the rest to sub-division 4.7 here.

The 1951 Scheme of Occupations compared with the International Standard Industrial Classification Scheme and the Occupational Classification of past Censuses—*contd.*

International Standard Industrial Classification Scheme	Indian Census Economic Classification Scheme—(1951)	Scheme of Occupations (1941 and 1931)		
		Group No.		
		1941	1931	Description (1931)
1	*2*	*3*	*4*	*5*
	Livelihood Class VI (COMMERCE)			
DIVISION 6—COMMERCE	DIVISION 6—COMMERCE			Sub-class V—TRADE
6.1 Wholesale and retail trade	*6.0 Retail trade otherwise unclassified*			
	6.01 Hawkers and street vendors otherwise unclassified			Order 23—*Banks, establishments of credit, exchange and insurance*
	6.02 Dealers in drugs and other chemical stores	151, 153, 154	115	Bank Managers, money-lenders, exchange and insurance agents, money changers and brokers and their employees
	6.03 Publishers, booksellers and staticners			
	6.00 General storekeepers, shopkeepers and persons employed in shops otherwise unclassified			Order 24—*Brokerage commission and export*
	6.1 Retail trade in foodstuffs (including beverages and narcotics)	155	116*	Brokers, commission agents, commercial travellers, warehouse owners and employees
	6.11 Retail dealers in grains and pulses; sweetmeats, sugar and spices, dairy products, eggs and poultry, animals for food; fodder for animals; other foodstuffs, vegetables and fruits			Order 25—*Trade in textiles*
	6.12 Vendors of wine, liquors, aerated waters and ice in shops	156	117	Trade in piece goods, wool, cotton, silk, hair and other textiles
	6.13 Retail dealers in tobacco, opium and ganja			Order 26—*Trade in skins, leather and furs*
	6.14 Hawkers and street vendors of drink and foodstuffs	157	118	Trade in skins, leather, furs feathers, horn, etc., and the articles made from these
	6.15 Retail dealers in pan, bidis and cigarettes			Order 27—*Trade in wood*
	6.2 Retail trade in fuel (including petrol)	158	119	Trade in wood (not firewood)
	6.21 Petroleum distributors			
	6.20 Retail dealers (including hawkers and street vendors) in firewood charcoal, coal, cowdung and all other fuel except petroleum	159	120, 121, 122	Trade in barks; Trade in bamboos and canes; Trade in thatches and other forest produce
	6.3 Retail trade in textile and leather goods			Order 28—*Trade in metals*
	Retail trade (including hawkers and street vendors) in piece goods, wool, cotton, silk, hair, wearing apparel, made up textile goods, skin, leather, furs, feathers, etc.	160	123	Trade in metals, machinery, knives, tools, etc.
	6.4 Wholesale trade in foodstuffs			Order 29—*Trade in pottery, bricks and tiles*
	Wholesale dealers in grains and pulses, sweetmeats, sugar and spices, dairy products, eggs and poultry, animals for food, fodder for animals, other foodstuffs, wholesale dealers in tobacco, opium and ganja	161	124	Trade in pottery, bricks and tiles
	6.5 Wholesale trade in commodities other than foodstuffs			Order 30—*Trade in chemical products*
		162	125	Drugs, dyes, paints, petroleum, explosives, etc.

* A part of this group 116 belongs to sub-division 7.5—the operation of storage facilities such as warehouses, etc., under Division 7 (part 2) (L.C. VIII) and the rest to sub-division 6.6 here. However, for Subsidiary Table 5.6 in Census, Report—Part I, the entire population of this group has been taken into sub-division 6.6.

ANNEXURE III

NOTE ON THE RELATIONSHIP BETWEEN THE INDIAN CENSUS ECONOMIC CLASSIFICATION SCHEME AND THE INTERNATIONAL STANDARD INDUSTRIAL CLASSIFICATION SCHEME OF THE UNITED NATIONS

1. *Comparison with I.S.I.C. Scheme.*—The United Nations Organisation has evolved a Scheme of Classification of all economic activities known as the "International Standard Industrial Classification" Scheme. The Economic and Social Council of the United Nations has recommended the use of this Scheme by all member Governments "either by adopting this system of classification as a national standard, or rearranging their statistical data in accordance with this system for purposes of international comparability". The present scheme of classification gives effect to the latter of the two alternative forms of this recommendation. There are 10 divisions and 44 major groups of economic activities under the I.S.I.C. Scheme which include Agriculture and, in addition, correspond to the 10 Divisions and 88 Sub-divisions of Industries and Services under the I.C.E.C. Scheme. The elements of the I.C.E.C. Scheme which correspond to each individual Division and each individual Major Group of the I.S.I.C. Scheme are set out in Annexure II.

2. *Unit of Classification.*—Under the I.S.I.C. Scheme, the Unit of Classification is the organised "Establishment". The commodity produced or the service performed as a result of the work of the organised establishment is the criterion for classifying the establishment. The classification of the establishment is the classification of every member of the establishment.

Under the present (I.C.E.C.) Scheme the unit of classification is, in every case, the individual. All employers and all independent workers will be classified with reference to the commodity produced or service performed by them individually—this will be same as in the I.S.I.C. Scheme, there being no question of an "establishment" distinct from the individual in these cases.

As regards "Employees", all persons engaged in production, commerce or transport (and not being domestic servants) will be classified under the appropriate sub-divisions with reference to their own activity, and without reference to that of their employer. Domestic servants will all be classed in one sub-division without reference to the nature of their work. All other employees (including all managerial and supervisory employees, clerical services, messengers, watchmen and unskilled labour of every description) will be classified with reference to the commodity produced or service rendered by their employers.

Thus, there is a technical distinction regarding the unit of classification adopted in the two Schemes. This is unavoidable having regard to the nature of the questions which alone can be put in a general population census in India. Nevertheless, there will be no difference between the two Schemes, except as regards the allocation of those "employees" who are individually engaged in activities classifiable as production, commerce or transport, and who are employed in "establishments" whose main purpose is classifiable differently from the activity of the individual employee. The proportion of employees of this kind to the total of all active workers in industries and services (as they are organised at present in India) is unlikely to be large enough to make a significant difference to the comparability of data classified under the two Schemes.

B. I—Livelihood classes and sub-classes

1. The abbreviation S.C. used in the Table heading stands for sub-class.

2. By definition, self-supporting persons (S.C. i) are economically active, earning dependants (S.C. iii) are economically semi-active ; and non-earning dependants (S.C. ii) are economically passive.

B. II—Secondary means of livelihood

This table relates only to self-supporting persons and earning dependants (who constitute the only categories possessing secondary means of livelihood). This must be remembered while comparing the figures of this table with those of other tables.

Economic Table II—Secondary means of livelihood

B. III—Employers, employees and independent workers in industries and services by divisions and sub-divisions

1. Like the preceding Table, this Table exhibits figures only for a part of the population, *viz.*, the economically active self-supporting persons belonging to the four non-agricultural livelihood classes.

2. The divisions and sub-divisions of the Indian Census Economic Classification Scheme that go into each of the non-agricultural livelihood classes are as follows :—

Class V—Production (other than cultivation)

Division 0—Primary industries not elsewhere specified ;
1—Mining and quarrying ;
2—Processing and manufacture—foodstuffs, textiles, leather and products thereof ;
3—Processing and manufacture—Metals, chemicals and products thereof ;
4—Processing and manufacture—not elsewhere specified.

Class VI—Commerce

Division 6—Commerce

Class VII—Transport

Division 7—Transport, storage and communications (only sub-divisions 7.1 to 7.4)

Class VIII—Other services and miscellaneous sources

Division 5—Construction and utilities ;
7—Transport, storage and communications (except sub-divisions 7.1 to 7.4) ;
8—Health, education and public administration ;
9—Services not elsewhere specified.

3. Livelihood Class VIII also includes persons drawing sustenance from the following unproductive means of livelihood :

(i) non-working owners of non-agricultural property ;
(ii) pensioners and remittance holders ;
(iii) persons living on charity and other persons with unproductive occupations (*e.g.* beggars, prostitutes); and
(iv) inmates of penal institutions and asylums.

Since these persons are regarded as economically inactive they do not find a place in this table ; consequently the figures for total self-supporting persons in Table B. I will not tally with those in Table B. III unless their numbers are taken into account. The reconciliation between the two tables is shown in the following statement.

City, District and Tract	Number with unproductive means of livelihood			Total S/S persons in industries and services as per Table B. III		Total S/S persons in the population as per Table B. I

C—Household and Age (Sample) Tables

1. With the exception of Table C. I, the other tables of this series are prepared from the data collected from the 10 per cent sample slips separated at the time of initial sorting of the enumeration slips. The 10 per cent sample was taken as follows :—

> Each enumeration pad which mostly consisted of 100 enumeration slips was broken and the pack of slips was "cut" as in a card game. The lower portion was placed above the upper portion and then the slips were dealt into the pigeon-holes marked 1, 2, 3, 4, 5, S, 6, 7, 8 and 9 respectively. If a displaced person's slip was encountered during this sorting, it was dealt into a separate pigeon-hole marked "Displaced Person". All the slips contained in the pigeon-hole marked "S" were taken as the 10 per cent sample slips of the general population.

Table C. I Household (size and composition) does not figure in this Volume because in the case of that table, the samples drawn for households were so small even for the entire State, that presentation of tractwise figures was altogether inadvisable.

2. No smoothing formula has been adopted in preparing the tables as in the previous censuses and the figures have been tabulated as actually returned, in suitable age-groups.

C. 1—Household (size and composition)

Vide note 1 on page 111

C. II—Livelihood Classes by age-groups

C. IV—Age and literacy

1. In previous censuses the table corresponding to this one gave figures by religion and by age-groups beginning with 0-5 and continuing in 5-yearly intervals up to 20 and over. In 1941 information was also presented for age-groups 20–30, 30–50 and 50 and over.

2. In the 1931 and previous censuses information was published on literacy by the language in which a person was 'literate'. In 1941 full figures were furnished only for all literates and those literate in English and summary figures by districts were given in a State Table for literacy by script.

Fly-leaf to Table C. IV—Age and literacy
(Persons able to read only)

D—Social and Cultural Tables

Table D. I—Languages

(i) Mother-Tongue

1. Mother-tongue is defined as the language spoken from the cradle. In the case of infants it is the mother-tongue of the mother.

2. Dialects of the principal languages of the district that could be clearly recognised as such have been merged with their respective parent languages. All other tongues are shown in the table as returned.

3. The figures under "Hindustani" include also persons who have returned "Urdu" and "Western Hindi" as their mother-tongue.

4. The table proper is preceded by an abstract in which the figures for the Corporation and the District are shown for each mother-tongue.

5. Both in the table and in the abstract, languages are given in the order of the total number of speakers.

6. Under each language only such taluks have been listed as have at least one person with that language as mother-tongue.

D. I—Languages

Table D. I—Languages—*contd*

(ii) Bilingualism

1. The instructions at this Census introduced two changes from past practice. First, only Indian languages were taken into account. Secondly, where a person spoke two or more languages in addition to the mother tongue the enumerator was required to record only one of them. This was the language which was used most commonly by the speaker, next to the mother-tongue.

2. Against each mother-tongue only such subsidiary languages are listed as had at least 100 persons speaking some subsidiary language or the other. For mother-tongues which returned at least one but fewer than 100 bilinguists details are furnished in the statements given below and on page 176 :—

BANGALORE CORPORATION

Mother Tongue	Total No. of Bilinguists	Subsidiary languages										
		Kannada	Hindi	Hindustani	Malayalam	Tamil	Panjabi	Gujarati	Telugu	Bengali	Marathi	Konkani

D. IV—Migrants

1. Bangalore Corporation forms part of the corresponding birth district, *viz.*, Bangalore District.

2. Pakistan, it should be noticed, is now shown under "B—Countries in Asia beyond India". In former Censuses the different States of which it is composed were under "A—II Provinces and States in India beyond Mysore".

3. "Elsewhere in Asia" includes (i) French and Portuguese Settlements in India" and (ii) "India Unspecified" which were shown as separate items under "Born in India" in earlier Censuses.

D. V (i) and D. V (ii)—Displaced Persons

(i) by Year of Arrival and (ii) by Livelihood Classes

These tables relate only to Displaced Persons. A Displaced Person is defined as "a person who has entered India having left or been compelled to leave his home (i) in Western Pakistan on or after 1st March 1947, (ii) in Eastern Pakistan on or after 15th October 1946, on account of civil disturbances or on account of the setting up of the two Dominions of India and Pakistan".

D. V. (i) Displaced persons by year of arrival

D. VII—Livelihood Classes by Educational Standards

1. This table shows the incidence of literacy and education in each of the eight livelihood classes.

2. The test for literacy was ability to read and write a simple message in some language or other. In the table, "Literates" refers to persons who could read and write but who had not passed any examination ; and "Illiterates" includes partly literates who could read but not write.

3. The enumeration of educational attainments was based on the highest examination passed. Where a person held academic qualifications in more than one field, all of them were enumerated ; but at the time of tabulation the professional or technical qualification was preferred to the general, *e.g.*—a B.A., B.L., was classified under "Legal" ; a B.Sc., M.B.B.S., was classified under "Medical".

D. VII—Livelihood Classes by Educational Standards

Educational Standards	Total			Agricultural Classes: I Cultivators of land wholly or mainly owned and their dependants		II Cultivators of land wholly or mainly unowned and their dependants		III Cultivating labourers and their dependants		IV Non-cultivating owners of land; agricultural rent receivers and their dependants		Non-agricultural Classes (Persons (including dependants) who derive their principal means of livelihood from): V Production other than cultivation		VI Commerce		VII Transport		VIII Other services & miscellaneous sources

E—Summary figures by taluks

1. This table exhibits figures for taluks with break up by livelihood classes for rural and urban areas against each taluk.

2. Since the Surveyor-General, India, was not in a position to furnish area figures for administrative units smaller than the district, the area figures of taluks were computed from village and town-wise data furnished by the Amildars of taluks and Municipal Presidents of towns. The area of Bangalore Corporation was obtained from the Corporation authorities.

3. The population figures for 1931 and 1941, used for purposes of columns 6, 7, 8 and 10 of this table, were obtained after making adjustments for the territorial changes indicated in fly-leaf to Table A. II.

4. The area figures in column 2 of the table have been rounded off to the nearest integers, while the density figures for 1951 and 1941 have been calculated on actual area figures furnished by the Amildars of taluks and Municipal Presidents of towns. The urban areas which were less than 0.5 have been omitted from the table.

Table E—Summary figures by taluks

Primary Census Abstract

1. The Village Statistics appearing in the following pages take the place of the Village Tables which used to be published separately in the past. In addition to the usual population and literacy figures, the Abstract furnishes for each village and town in the district for the first time information regarding area in acres, number of houses, number of households as well as the houseless population. Also for the first time distribution of population is shown by Livelihood Classes with, of course, the inevitable sex separation.

2. Bechirak or unpopulated villages are also included in the Village Statistics presented in the following pages. Consequently the number of villages given here differ from the number given in Tables A. I and A. III which take into account only inhabited villages. The number of uninhabited villages in each Circle and Taluk is furnished in the abstract given at the beginning.

3. Population figures of the various Military Camps in the District have been added on here to the populations of the villages in which they are located while these camps together have been treated as a separate village for the purpose of the other Tables. Consequently differences in the number of villages as well as in population will be noticed between the Village Statistics presented here and the tables that have preceded.

4. Only the names of "Asli" or main villages are given in these statistics, the population of hamlets being included in that of the corresponding "Asli" villages.

5. Alienated or *Inam* Villages are distinguished by the suffixes Jodi, Kayamgutta, Sarvamanya (or their initial letters) enclosed within brackets.

6. Figures for Bangalore Corporation are not included in the Village Statistics for obvious reasons. Details for this City are, however, given at the end of this statistics.

7. For changes that have taken place in the Revenue jurisdiction subsequent to 1941, please see the footnotes as also the fly-leaf to Table A. II.

8. The Circle and Taluk totals include figures relating to the towns included in them.

9. Figures for 'houseless population' given here include persons residing in hostels, inmates of jails, asylums, alms-houses and similar institutions.

* Also known as Vibhuthipura

† H. A. L. Colony is formed out of a portion of Konena Agrahara, Annasandrapalya (Vibhuthipura), Belur and Kempapura villages, and as such has no independent area figures

‡ The area and 1941 population figures are included in Thippasandra village, as Motappanapalya is a hamlet of Thippasandra village but wrongly entered as an Asli Village

§ Also known as Byatarayanapura
