PART II

(i) Census Tables

A-GENERAL POPULATION TABLES

Note	. . . . .	3-5
Table A-I	Area, Houses and Population	6
Appendix I	1951 Territorial units constituting the present set-up of district and each taluka/mahal .	7
Sub-Appendix 1 to Appendix I	Area for 1951 and 1961 for those municipal towns which have undergone changes in area since 1951 Census	7
Sub-Appendix 2 to Appendix I	District/Taluka/Mahal showing 1951 population according to territorial jurisdiction in 1951 changes in area and the populations involved in those changes . . .	8-9
Annexure to Appendix I	Villages transferred from and to Surat district	10-13
Appendix II	Number of Villages with a population of 5,000 and over and towns with a population under 5,000	14
List	Place with a population of under 5,000 in 1951 which were treated as towns in 1951 but have been omitted from the list of towns in 1961	14
Appendix III	Houseless and Institutional Population	15
Table A-III	Villages classified by population	16-17
Table A-IV	Towns and Town-groups classified by population in 1961 with variation since 1941 .	18-19
Appendix I	New Towns added in 1961 and Towns in 1951 declassified in 1961 . . .	20
Note	A–Particulars of New Towns added in 1961	20
	B–Particulars of 1951 Census Towns declassified in 1961	21
Special Appendix	Towns with their area and jurisdiction	21

B (i)-GENERAL ECONOMIC TABLES

Note	. . . . .	23-29
Table B-I	Workers and Non-workers classified by sex and broad age-groups . . .	30
Table B-III		
Part A	Industrial classification of Workers and Non-workers by educational levels in Urban areas only	31
Part B	Industrial classification of Workers and Non-workers by educational levels in Rural areas only	32-37
Table B-IV		
Part A	Industrial classification by sex and class of worker of persons at work at Household Industry	38-41
Part B	Industrial classification by sex and class of worker of persons at work in non-household industry, trade, business, profession or service	42-49
Part C	Industrial classification by sex and divisions, major groups and minor groups of persons at work other than cultivation	50-63
Appendix	. . . . .	64-65

		Pages
Table B-V	Occupational classification by sex of persons at work other than cultivation	66-100
Appendix		101-102
Annexure	Appropriate Industrial Categories of Occupational Families	102
Table B-VII		
Part A	Persons working principally (i) as Cultivators (ii) as Agricultural labourers or (iii) at Household Industry classified by sex and by Secondary work (i) at Household Industry (ii) as Cultivator or (iii) as Agricultural labourer	103-108
Appendix		108
Table B-VII		
Part B	Industrial classification by sex of persons working in non-household industriy, trade, business, profession or service who are also engaged in household industry	109-117
Table B-VIII		
Part A	Persons unemployed aged 15 and above by sex, broad age-groups and educational levels in Urban areas only	118-119
Part B	Persons unemployed aged 15 and above by sex and educational levels in Rural areas only	118-119
Table B-IX	Persons not at work classified by sex, broad age-groups and type of activity	120-125

B (ii)-HOUSEHOLD ECONOMIC TABLES

Table B-X	Sample Households (i) engaged neither in cultivation nor household industry, (ii) engaged either in cultivation or household industry but not in both and (iii) engaged both in cultivation and household industry for all areas	126
Table B-XI	Sample Households engaged in cultivation classified by interest in land and size of land cultivated in Rural and Urban areas separately	127-129
Table B-XII	Sample Households engaged in cultivation only classified by size of land cultivated and number of family workers and hired workers in Rural and Urban areas separately	130-145
Table B-XVI	Sample Principal household industry classified by period of working and total number of workers engaged in household industry in all areas	146-149
Appendix		150
Table B-XVII	Sample Households classified by (i) Number of male and female members by size of Household and (ii) Engagement(a) Neither in cultivation nor in industry (b) in household industry only and (c) in culavation sub-classified by size of land cultivated	151

C-SOCIAL AND CULTURAL TABLES

Note		153-154
Table C-I	Composition of Sample Households by relationship to head of family classified by size of land cultivated	155
Table C-II	Age and Marital Status	156-163
Table C-III		
Part A	Age, Sex and Education in all areas	164-165
Part B	Age, Sex and Education in Urban areas only	164-165
Table C-IV	Single Year Age Returns	166
Table C-V	Mother Tongue (Alphabetical order)	167-174
Table C-VII	Religion	175
Table C-VIII	Scheduled Castes and Scheduled Tribes	
Part A	Classiafication by Literacy and Industrial Category of Workers and Non-workers among Scheduled Castes	176-177
Part B	Classification by Literacy and Industrial Category of Workers and Non-workers among Scheduled Tribes	178-179

PREFACE

Before 1951, only the figures of population of revenue villages were given in what were then called 'Village Handbooks'. But the decision to bring out the District Census Handbooks giving extracts from all the important census tables for every district of the State was taken for the first time in 1951. In addition to the census tables, the minimum information given in the Primary Census Abstract related to the area of the village, number of houses and households, total population, houseless and institutional population, literates, and agricultural and non-agricultural classes distributed under 8 main livelihood classes. Census statistics given in the Primary Census Abstract were further supplemented by the addition of useful administrative information on such items as post offices, railway stations, distance of bazzar from village, primary schools, village panchayats, co-operative society, etc. This was a unique achievement of the Indian Census giving as it did the basic demographic and economic information for the smallest administrative unit, namely, the village, and in some States, even for each hamlet and also for wards in towns and cities. The 1951 series of District Census Handbooks, however, varied in content and size from State to State depending upon the resources offered by the State Government. The Registrar General, therefore, desired that the Handbooks brought out during the Census of 1961 should contain certain minimum statistical data, maps and other useful information which should be uniformly adopted throughout the country. The matter was discussed at the Conferences and seminars of the Superintendents of Census Operations before the contents of the various sections of the District Census Handbook were decided upon.

The Government of Gujarat at first proposed to include a very limited number of census tables in the District Census Handbook as against a very extensive and comprehensive coverage accepted for common adoption by the States. But on reviewing the matter on receipt of the recommendations of the third conference of Superintendents of Census Operations, the Government thought advisable to incorporate as many of the census tables as possible to enhance its usefulness. The result has been that the District Census Handbook of 1961 differs widely in the matter of content and coverage from that published after the Census of 1951 and contains a number of new features, examined below.

The District Census Handbook has been sub-divided into three parts, viz., :-

PART I—THE DISTRICT

(i) Introductory Essay

(ii) Brief Gazetteer of Place Names

PART II—STATISTICS

(i) Census Tables

(ii) Villagewise List of Industrial Establishments

(iii) Handicrafts Tables

(iv) Departmental or Official Statistics

PART III—VILLAGE DIRECTORY

(i) Explanatory Note

(ii) Village Directory

(iii) Taluka Maps

Part I is entirely new. While all the items under Part II except that relating to the main Census Tables are added for the first time, the Village Directory Section has been enlarged by the inclusion of certain useful information and maps. Various items included in each of these three parts are listed below.

PART I—THE DISTRICT

(i) *Introductory Essay*

This is a new feature added for the first time. The district has been introduced by giving at the outset certain essential information about its geographical location, physical features, historical background, administrative divisions, territorial changes, topography, soil, climate,

temperature, rainfall, etc. Growth of population, its distribution between rural and urban areas, density, literacy, sex ratio, marital status, economic activities, etc., have been discussed with reference to census tables. Agriculture, livestock, social services, co-operation, transport and communications, facilities of education, medical relief, housing, labour, Community Development Programme, progress of plan schemes, etc., have also been reviewed in the light of available official statistics. In fine, all the essential details relating to the demographic, economic, social and cultural aspects as revealed by the census and departmental statistics, have been examined to give a succinct account of the district as it stood in 1961.

(ii) *Brief Gazetteer of Place Names*

The gazetteer gives in brief information about all the places of historical or religious importance and interest in the district. While the historical background and other relevant details have been taken from the old District Gazetteers, information in respect of major irrigation projects, townships, crafts, fairs and festivals, etc., have been separately collected, and brought up-to-date in consultation with the Collectors.

PART II—STATISTICS

Part II contains (a) all the important Census Tables including those compiled from House-lists and (b) official statistics, furnished by the various State departments.

Census Statistics

The statement that follows compares the number of tables compiled in different census series with those selected by Government for reproduction in the District Census Handbook.

Details of Tables compiled in 1961 Census and reproduced in District Census Handbook

Series	Description	Total No. of tables compiled in 1961	Tables reproduced in District Census Handbook	
			Number	Particulars
1	2	3	4	5
A	General Population Tables	4	3	A-I and its Appendices I, II & III with sub-Appendices 1 & 2, A-III and A-IV with Appendix I and Special Appendix
B	Economic Tables . . .	17	12	
	(i) General Economic Tables .	9	7	B-I, B-III-Parts A & B, B-IV-Parts A, B & C, B-V, B-VII-Parts A & B, B-VIII-Parts A & B and B-IX
	(ii) Household Economic Tables .	8	5	B-X, B-XI, B-XII, B-XVI and B-XVII
C	Social and Cultural Tables . .	8	7	C-I, C-II, C-III-Parts A & B, C-IV, C-V, C-VII, C-VIII-Parts A & B
D	Migration Tables . . .	6	..	
E	Tables on Housing and Establishments	5	4	E-I, E-II, E-IV and E-V
SCT/SC/ST	Special Tables on Scheduled Castes and Scheduled Tribes .	8	1	SCT-I-Parts A & B

Note :-

Two more tables have been specially compiled from House-lists, viz., (i) Villagewise List of Industrial Establishments and (ii) Handicrafts Tables.

Official Statistics

The picture the census statistics present will be incomplete without the official or departmental statistics reviewing the progress made by the various administrative departments during the past decennium. An attempt has, therefore, been made to compile important official statistics for publication in the District Census Handbook. These statistics which relate to the past ten years must be adjusted to the existing set-up of administration, if they are to be really useful and comparable. This, however, was not possible in spite of efforts to that effect. For, extensive changes in the territorial jurisdiction of districts and talukas have taken place during the last ten years, first as a result of integration in 1956 and then due to bifurcation on May 1, 1960 when Gujarat came into being as a separate political unit for the first time. Non-availability of the required data in case of most of the Princely States and Estates was another handicap. The task of compilation of official statistics was thus beset with innumerable difficulties. The proformae for the various statements numbering 49 as approved by Government and the Registrar General were circulated to all the concerned Heads of Departments as early as July 1961. In view of the importance of these statistics, the Government by circular letter No. CNS-1461-A2 dated the 27th July 1961 addressed to all the Heads of Departments had also directed that official statistics called for by the Superintendent of Census Operations should be furnished within two months through the Director, Bureau of Economics and Statistics, after thorough scrutiny by some responsible officer of the department along with a certificate to the effect that the data furnished are up-to-date, complete and authentic in all particulars. The delay, however, caused in furnishing correct and complete information by the departments delayed final compilation and resulted in protracted correspondence to rectify the discrepancies and incompleteness noticed during the course of verification at the Bureau. Non-availability of the required information for the various administrative units as at present constituted was another obstacle. The progress had, therefore, to be reviewed from time to time in a series of meetings with the Director, Bureau of Economics and Statistics and representatives of the departments concerned. The offices from which information was not received had to be frequently reminded by the Director, the Census Department and at times even by the Chief Secretary. Some of the tables proposed to be included could not be inserted or had to be revised either for want of receipt of timely information or owing to the non-availability or incompleteness of the data furnished. Where data for individual years are not available, they have been collected for the years 1950-51, 1955-56, 1960-61 which mark the commencement of the First, Second and Third Five Year Plans. Where statistics for these periods are not available, they are given only for the year 1960-61; and where the figures compiled are not available for the units as at present constituted, the clarification as to the unit to which they refer has been made in the footnote to the statements which also disclose the source of compilation.

PART III-VILLAGE DIRECTORY

The Village Directory or the Primary Census Abstract includes information regarding population, area, occupied houses, households, workers classified into nine industrial categories of workers and non-workers, Scheduled Castes and Scheduled Tribes, literates and educated, etc., for each village as well as for every ward and block of about 120 houses in each town. In addition, it gives information on certain essential amenities existing in the village such as educational facilities, public health and medical facilities, supply of drinking water, electricity and its uses, etc., by means of abbreviations placed against the name of each village. This additional information has been compiled from the special 'village notes' devised for the purpose and collected through the Block Development Officers. They relate to the position as it existed about March 1961.

The figures of population of Scheduled Castes and Scheduled Tribes were given in 1951 for certain arbitrary tracts formed by the grouping of talukas. The result was that the administration was seriously handicapped in the absence of relevant particulars for the various administrative units of a district which were required oft and

on for planning and other purposes. This lacuna has been removed on the present occasion by giving figures of Scheduled Castes and Scheduled Tribes for each village in the Primary Census Abstract. The talukas and villages given in the Village Directory are arranged in the order of their location code numbers.

Maps

The Village Directory is preceded by taluka maps showing villages by their location code numbers and dots varying according to the size of the village. Other items such as district or taluka headquarters, railway, national highway, State highway, local roads, post office, post and telegraph, canal, river, rest house, police station, etc., have been shown on the map with appropriate symbols. Two key maps, one for the State showing the district boundary and the position of the district in the State in hatching and the position of the taluka in the district in black and another key map for the district showing taluka boundary and the position of taluka in the district in hatching have also been included in the taluka map. In addition to taluka maps, a map of the district has also been given at the commencement of the Handbook showing the various items listed above for the taluka map and villages having population over 5,000. The key map given in the district map shows district boundary and the position of the district in the State in hatching.

The preparation of district and taluka maps and finalisation of area figures proved to be another handicap. The District Inspectors of Land Records had furnished tracings which had to be brought up-to-date in the light of changes in boundaries owing to integration on the one hand and bifurcation on the other. Frequent references and back references entered into at various levels, the Settlement Commissioner, Superintendents and District Inspectors of Land Records to remove the discrepancies and reconcile the inconsistencies noticed did not yield much result. The matter was, therefore, finally set at rest by calling a conference of Superintendents and District Inspectors of Land Records who did on-the-spot checking and verification and certified the correctness of the ultimate delimitation of boundaries and location of villages appearing in the taluka and district maps and accuracy of area figures entered in the Primary Census Abstract.

Paging

Each of the three parts of the District Census Handbook will have a separate series of page numbers starting with 1.

Alphabetical List of Villages

With a view to enable the reader to trace a village from the Village Directory, an alphabetical list of villages giving the names of villages and indicating their location code numbers, page number and serial number on the page at which they are printed has been given separately for each Taluka/Mahal at the commencement of the Handbook.

The Handbook

The contents of the District Census Handbook explained above have been finalised after frequent deliberations at various census conferences and seminars, and meticulous care as to their form, size and presentation. But these by themselves would not have been sufficient, had the Government not readily responded to the various suggestions made in this behalf. If I may say so, the Government had placed implicit faith in me, and accepted all the proposals made by me from time to time to add to the utility of this important compilation. It is hoped that the District Census Handbook in its present form will satisfy a growing demand for basic census data by ultimate territorial units and other background information about the District and also prove to be a useful book of reference to the administrative departments and the public.

The Government of Gujarat has taken a further decision namely to print the District Census Handbook also in the regional language of the State, viz., Gujarati. This will very much add to the utility of this publication. The Handbook in Gujarati will contain (i) Note introducing the district, (ii) Alphabetical list of villages, (iii) Census Tables, A-I, A-III and SCT-I, (iv) Village Directory with explanatory note and (v) District and Taluka maps.

ACKNOWLEDGEMENTS

Help in the compilation of the District Census Handbooks has been forthcoming from various quarters, to all of whom I am deeply indebted. I, however, wish to express my thanks to Shri V. Isvaran and Shri V. L. Gidwani, Chief Secretaries to Government, and Shri M. G. Shah, Deputy Secretary, General Administration Department for all the facilities they have given in their preparation and publication of these Handbooks. I am also obliged to the Bureau of Economics and Statistics for the services rendered in the compilation of Official Statistics furnished by the Heads of Departments and the checking of the statistical data in the draft-notes for the Introductory Essays prepared by the District Statistical Officers. My thanks are also due to Shri H. V. Desai, Settlement Commissioner, Superintendents of Land Records and District Inspectors of Land Records for their assistance in the finalisation of area figures and verification of district and taluka maps.

Programme for the printing of District Census Handbooks has this time been very heavy indeed, more so as they are published both in Gujarati and English. The arrangements made by Shri B. A. Koreishi, Director, Government Printing and Stationery, and Shri G. J. Gonsalves, Deputy Director, for the printing of the voluminous work pertaining to the District Census Handbooks at the various Government and local presses, are thankfully acknowledged. The excellent work turned out by the Government Photo-zincographic Press, Poona in printing district and taluka maps deserves special mention.

I would like to place on record the valuable contribution made by the members of the Census Organisation at various levels in bringing out the Handbook in its present form. Mention in particular should be made of Shri K. F. Patel, Deputy Superintendent of Census Operations, Shri J. D. Shah, Statistical Assistant, Shri H. S. Bhatt, in charge proof reading section and Shri K. D. Vaishnav and Shri L. S. Shrimali of draftsman section. Before I conclude I must pay tribute to the conscientious discharge of duties by the late Shri J. K. Patel, Special Mamlatdar whose services were placed by Government at the disposal of the Census Organisation, for supervising the printing of District Census Handbooks. It is a matter of great regret that his services were lost to us, as he was removed from our midst in the prime of his life owing to sudden heart failure.

Finally, the Registrar General has given such anxious thought and care since the inception of the Census Organization to ensure that the District Census Handbook which the Census of 1961 brings out is an up-to-date book of reference for the District by including all available useful data both census as well as official. I am grateful to him for the valuable suggestions made and guidance given by him in this important publication.

AHMEDABAD,
9th March, 1964.

R. K. TRIVEDI,
Superintendent of Census Operations,
Gujarat.

PART I

1 INTRODUCTORY ESSAY

2 GAZETTEER OF PLACE NAMES

INTRODUCTORY ESSAY

SURAT DISTRICT

1 LOCATION AND PHYSICAL FEATURES

1.1 Boundaries and Natural Divisions

Surat is the southernmost district of Gujarat State lying between 20°–15' to 21°–28' North Latitude and 72°–38' to 74° East Longitude. It is bounded to the north by Broach district, to the west by Arabian Sea, to the South by Thana district of Maharashtra.

To the eastern side of the district lies West Khandesh and Nasik districts of Maharashtra and Dangs district of Gujarat.

1.2 Configuration

The district is distinctly divided into two zones (i) eastern tract of hilly lands bounded by Sahyadri ranges on the south and Satpuda ranges, on the north, (ii) fertile alluvial plain of Tapi, The first zone has an undulating surface and has a poor retentive power. It is also covered by thick forests at some places like Dharampur, Songadh and Vyara and chiefly grows jowar in the northern parts. Teak and bamboo are its forest products and is chiefly inhabited by Scheduled Tribes, viz., Naikas, Naikadas, Dublas and Gamits. The fertile alluvial plain has moderatec limate and brackish water. Paddy and mangoes are its chief agricultural products. Chief industries of the district are located in this region.

1.3 Rivers

Besides the Tapi and Kim which are the two major rivers of the district, the other main rivers flowing through the district are Mindhola, Purna, Ambica, Auranga, Par and Damanganga. All these rivers flow from east to west and join the Arabian Sea. River Tapi which is navigable for the country crafts especially during high tide is one of the biggest rivers of Western India. This river which has a total course of about 470 miles and flows through Central Provinces, Berar, Khandesh and Gujarat, enters this district on its last stage after leaving the Dangs forests. It has a course of ninety miles through Surat district before it meets the Arabian Sea near Dumas in Chorasi taluka. It brings rich loamy soil during floods which make the Tapi valley, a fertile and rich region. In times of flood, the river overtopping the left bank, has more than once flooded the city of Surat. With the development of Ukai and Kakrapar projects on the river, however, the floods in the river Tapi will be checked. Besides, this will bring in an era of prosperity for the countryside of the district. Though less reputed for sanctity as compared to the Narmada, it has received much local respect and is mythologically believed to be the daughter of Sun. i. e., *Surya*. No. fewer than one hundred eight *tirthas* or spots of special sanctity exist on its banks according to the Puranas. The chief among them are Ashvanikumar and Gupteshwer besides Bodhan, about fifteen miles north of Surat, where a religious gathering is held once in every twelve years. The river Kim having a course of seventy miles in length and a drainage area of about 700 sq. miles rises in Rajpipla hills, passes through Broach district for the first fifty miles. The stream of the river though difficult to cross in times of flood, dwindles down to a succession of pools in the fair season. Of the smaller streams Mindhola and Purna which rise in the slope of the highlands between Surat and Khandesh, flow westward in the district for about forty miles, before they meet the Arabian Sea at places five and fifteen miles south of Surat respectively. The river Ambica which rises in Bansda hills, drains the lands of Chikhli and Jalalpur before it meets the sea fifteen miles south of Purna. The Auranga starts from hills nearby Dharampur, passes through Bulsar and joins the sea about 8 miles South of Ambica. The river Par drains the central part of Dharampur and separates Bulsar and Pardi talukas of Surat district. Though a very small

stream during the dry season, it is at times heavily flooded during the rainy seasons. The river Damanganga drains portions of Dharampur and some territories of Daman before it meets the sea.

1.4 Soil

The district which forms a plain, slopping from the Western Ghats on the east to the Arabian sea on the west, brackets the fertile. Tapti valley in the north. The district is an alluvial plain with an undulating soil at some places, though the surface on the whole seldom rises above 150 feet. The district can be divided into three parallel belts running from north to south (i) Khar and Khajan lands along the coast line, (ii) Kyari lands in the central belt and (iii) *Kali* or black soil in the east. Khar and Khajan lands spread over in area of 144,000 acres in Olpad, Chorasi, Navsari and Bulsar talukas lying on the Arabian seacoast, are a salty marsh formed by sands brought in by the water entering the river openings and making its way in the low-lying areas of the coast. Kyari lands, a mixture of black alluvial soil and light soil forms the *bessar* or medium soil. Bajri, juwar and paddy are grown here. *Kali* or black soil, which is mainly found in Kamrej, Palsana, Bardoli and Gandevi talukas and partly found in Pardi Bulsar, Chikhli, Navsari, Chorasi, Olpad, Mangrol, Mandvi, Valod and Mahuva talukas/mahals comprises an area of 1,429,000 acres in the mahals strip of the district. It is of a broader size in the north while it tapers in the south till it disappears. This tract of black soil on the east grows rich cash crops like cotton, paddy and fruits like mangoes. Next to this tract, the land is little undulated and in the extreme east the tilling gradually disappears, the vegetation becoming more and more dense ultimately merging with the forest of Dangs. This tract has *goradu* lands and covers an area of 882,000 acres of land in Songadh, Vyara, Bansda and Dharampur talukas. It grows kodra, nagli and san.

1.5 Climate and Temperature

The district has a varying climate. Olpad, Chorasi, Bulsar, Navsari and Pardi talukas, situated near the sea have a temperate climate as compared to other talukas in the interior of the district. The climate of the district remains hot and humid from March to July till the monsoon sets in. This is followed by the rainy months of August and September to be followed by dry and hot month of October. The weather in the season lasting from November to February remains cold and dry. During 1960, the maximum and the minimum temperatures recorded at Surat were 45°C in May and 11°C in February respectively. Details of maximum and minimum temperatures during 1955–60 (except for 1956) at the headquarters station of Surat will be found in Official Statistics Table 1.1 given in Part II of this Handbook.

1.6 Rainfall

The south-west winds bring rains to the district during the months of July, August and September, the first two being the months of heavy rains. The southern parts of the district get more rains which go on decreasing towards north. The southern talukas of Pardi, Bulsar and Dharampur receive more rains varying from 175 to 210 cms. annually, besides the forest area of Bansda, Songadh and Mandvi talukas, which receive about 175 cms. of yearly rainfall. Chorasi, Olpad and Kamrej talukas which are situated in the northern part of the district receive about 100 cms. of rains. The following table gives the rainfall figures at Surat for the last decade.

Annual Rainfall for Surat Town, 1951–60

Year	Annual rainfall	
	In Inches	In Centimeters
1	2	3
1951	N.A.	N.A.
1952	25.00	62.5
1953	68.48	171.2
1954	90.68	226.7
1955	28.44	71.1
1956	48.36	120.9
1957	N.A.	N.A.
1958	51.60	129.0
1959	78.64	196.6
1960	40.00	100.0

N.A.=Not available

Monthly rainfall figures for all these years are available in Official Statistics Table 1.2 published in Part II of this Handbook.

1.7 Famine and Scarcity

According to the report of the Fact Finding Committee appointed by the Government of Bombay in 1958–60, Dharampur, Bansda, Bulsar, Pardi, Chikhli, Gandevi, Mahuva, Songadh, Vyara, Mandvi and Valod talukas/mahals have heavy and assured rainfall in the district and hence considered free from scarcity. Though a few villages of other talukas were declared as scarcity areas in the past, they were in the opinion of the Committee free from scarcity.

1.8 Forests

According to the information furnished by the Chief Conservator of Forests, Gujarat State, of 1,199.05 sq. miles of forest in the district in 1961-62, 840.51 sq. miles are reserved forest, 8.84 sq. miles protected and 349.70 sq. miles unclassed forests. Thus the area under forests in the district covers 19.54 per cent of the total area under forest in Gujarat State. The forests are found in the eastern side of the district and it becomes more and more dense towards the eastern boundary. All talukas except Bardoli, Kamrej, Olpad and Palsana are having forest areas though in varying proportions. Two types of forests are found in this district, viz., (i) moist deciduous type in Dharampur, Bansda, Vyara, Songadh and other southern talukas and (ii) dry deciduous type in Mandvi and Mangrol talukas. The forest mainly grows teak and bamboo. Its major products, therefore, are large and medium sized timber and poles, firewood and charcoal, while bamboo, asroti bidi leaves, gum, fruits and flowers of mahuda, and fruits of karnas form the minor forest products.

2 ADMINISTRATIVE SET-UP

2.1 Historical Background

The present Surat district which was included under the region known as Lat is believed to have been brought under the *Mauryan* power during the reign of Chandragupta Maurya in 319 B.C. It remained under the Mauryas for sometime till it threw off their yoke by about 200 B.C. The history after this period is confused and it is difficult to find out the successors of *Maurya* till the Muslims finally conquered Gujarat in 1299 A.D. The settlement of Parsis at Sanjan also took place during this period. According to a poetic account known as Kisseh-i-Sanjan, the Parsis who had left Persia came to Diu and stayed there for nineteen years. They again set sail for Gujarat and landed near Sanjan in the latter half of the seventh century. Jadi Rana, apparently a Yadav chief of south Gujarat gave them the permission to settle there on their agreeing 'to learn the language of the country, to make their women dress like Hindu women, to cease to wear arms and to hold their marriages at night'. Surat, the headquarters of Surat district, is believed to have been founded by Gopi, a Nagar Brahmin who rose to be the Prime Minister in the Saltanate of Gujarat under Mahmud I and Muzaffer II. The castle of Surat was built in 1546 during the reign of Sultan Mahmud III to protect the city from the onslaught of the Portuguese who had plundered it thrice before. Surat then fell into the hands of Emperor Akbar in 1573. The district and the city of Surat in particular enjoyed peace during the reign of Moghul emperors, viz., Akbar, Jahangir and Shah Jahan for the next eighty-five years. Surat which rose to be one of the first cities of India during the reign of Shah Jahan; and though sacked twice by Shivaji during the reign of Aurangzeb, the morale of its traders as well as its trade remained unaffected. Surat had its mint and coins which were current in south Gujarat till 1688. The British opened their factory at Surat in 1613 and the Dutch in 1620. After the death of Aurangzeb it suffered from increasing disorders and the governors of Surat were subject to the court of Delhi in name only. The French also had established a factory at Surat in 1719 but with the ascendancy of the English at Surat and their victories over the French in Southern India, deprived the factory of its importance in the history of Surat. Governor Sorabkhan ultimately styled himself as the Nawab of Surat in 1725 and became independent. Surat was then ruled

by independent Governors till 1759 when the English captured the city. The Governors of Surat who were then appointed by the English held to some extent a position of nominal independence till 1800 when the whole administration was taken over by the English.

During 1772 Surat was considered as one of the greatest emporiums of trade in India after which it had a time of decline in its fortunes as its foreign trade had practically been transferred to Bombay. After the British became the masters of the district, a Muslim named Abdul Rehman tried to break public peace in 1810 but he was successfully curbed down by the Britishers. They had to face the opposition of the people thrice, when they tried to introduce in the district duty on salt in 1844, Bengal Standard Weights and Measures in 1848 and income tax in 1860. The people of Surat again protested when the Licence Tax was introduced in 1878 and a riot had eventually broken out on the occasion. The district had formed a part of the Bombay Presidency and was administered as such till 1947. Surat had also suffered from a very severe flood in 1883 and a great fire in 1889. The Hope bridge across the Tapi was also constructed in 1877 at a cost of Rs. 8.13 lakhs. The holding of historic 23rd session of the Indian National Congress in Surat in 1907, the Bardoli Satyagraha of 1928, the momentous Dandi march undertaken by Mahatma Gandhi in 1930 are the landmarks in the recent history of the district. After Independence, the territories of Dharampur and Bansda States, and the Navsari Prant of the former Baroda State were amalgamated with it to form the Surat district of the Bombay State.

2.2 Territorial Changes

The district is comprised of 16 talukas and five mahals of which 8 talukas formed part of the Surat district of the former Bombay Province, namely, talukas of Bardoli, Bulsar, Chikhli, Chorasi, Mandvi, Olpad, Pardi and Jalalpur and one mahal of Valod. With the merger of Navsari Prant of the former Baroda State, five more talukas, viz., Vyara, Kamrej, Mahuva, Mangrol, and Songadh and two more mahals of Gandevi and Palsana were added to it, while Jalalpur taluka of the former Surat district and Navsari taluka of the former Baroda State were merged together and named as Navsari taluka. The Dharampur taluka is comprised of the former State of Dhrampur and that of Bansda of the former Bansda State, while all the 18 villages of the former Sachin State have been merged in Chorasi taluka of the district. At the time of the bifurcation of the Bombay State in the year 1960, two mahals, viz., (i) Uchhal formed out of 38 villages from Navapura taluka of Dhulia (West Khandesh) district and 28 villages from Songadh taluka and (ii) Nizar formed from Akkalkuva, Taloda and Nandurbar talukas of Dhulia (West Khandesh) district have been added to this district. Umbergaon taluka with 50 villages from the pre-merger Umbergaon taluka of Thana district has also been added to this district. Government of Gujarat with effect from 1st June 1964 has divided the area of Surat district into two districts, namely, Surat and Bulsar. The newly formed Surat district consists of (1) Olpad (2) Chorasi (3) Mangrol (4) Kamrej (5) Mandvi (6) Bardoli (7) Songadh (8) Vyara (9) Mahuva talukas and (10) Palsana (11) Valod (12) Uchhal and (13) Nizar mahals; while the newly formed Bulsar district consists of (1) Navsari (2) Chikhali (3) Bansda (4) Bulsar (5) Dharampur (6) Pardi and (7) Umbergaon talukas and (8) Gandevi mahal.

2.3 Administrative Divisions

Surat is one of the districts of Baroda division of Gujarat State. For the purposes of revenue administration, the district is divided into 4 sub-divisions with 16 talukas and 5 mahals.

The details about the area, number of villages, towns, rural and urban population in respect of these divisions are given in the following table.

Administrative Divisions, 1961

Sl. No.	Sub-Division/ Taluka/Mahal	Area (in sq. miles)	No. of towns	No. of villages	Population		
					Total	Rural	Urban
1	2	3	4	5	6	7	8
	District Total	**4,875.9**	**17**	**2,192**	**2,451,624**	**1,909,429**	**542,195**

20	Uchhal	218.5	..	69	31,535	31,535	..
21	Nizar	151.9	..	91	58,801	58,801	..

Details of inhabited and uninhabited villages, density and occupied houses are available in Census Table A-I published in Part II of this Handbook.

2.4 Revenue

The Collector is in charge of the general administration, law and order and civil supplies. He is assisted by one Additional Collector in the discharge of these duties. He is also assisted by a Personal Assistant in his office and 4 Deputy Collectors in charge of 4 sub-Divisions having their headquarters at Surat, Vyara, Bulsar and Navsari. There are 16 Mamlatdars in charge of 16 talukas and 5 mahalkaris in charge of 5 mahals.

2.5 Revenue Settlements and Land Tenure

In respect of survey and settlement in the Union Areas* there is no change since 1947 except that the inam and former Inami villages, which were unsurveyed, were got surveyed and their soils classified from 1949 to 1951 under Post-War

*Union Areas-Areas forming Part of the Pre-Independence districts of the Bombay Province.

Reconstruction scheme Nos. 75 and 77-A. The lands of each individual holding in this area have been surveyed and designated as survey numbers, and their sub-divisions are designated as pot hissas, pot numbers or hissa numbers. Their areas are worked out separately and recorded. The soils of these survey numbers and sub-divisions are classified for the purposes of land revenue according to the Gujarat Classification system. Land Revenue settlement has been introduced under the Bombay Land Revenue Code and assessments for each individual survey number and sub-division is calculated. The original settlements in this district were introduced in 1865-66 to 1871-72 and these settlements were revised between 1897-98 to 1904-05. Second Revision Settlements were introduced in the talukas of Chorasi and Bardoli and Valod mahal in 1927-28. Since then, no further land revenue settlement has been introduced or revised.

All the 21 villages of the former Sachin State have been included in the pre-merger talukas of Chorasi and Jalalpur after merger. Sachin State lands were surveyed and classified during the former State regime on the lines similar to those in pre-merger talukas of the district. The Land Revenue settlement was also introduced on similar lines and so the settlement of these villages is considered to be scientific.

As regards the former Bansda State, as the villages were surveyed during the former State regime, re-survey after merger was not found necessary, as the position was similar to that in Sachin State and the settlement considered scientific. In case of the former Dharampur State the villages were surveyed but the lands were unclassified and there was no land revenue settlement. After merger therefore, a partial survey has been carried out and the classification of soils undertaken with a view to bring it up-to-date.

As regards the former Baroda State villages, the survey settlement being scientific no survey or classification operations were necessary after merger. No area in the district now remains unsurveyed and unclassified.

In the Merged State Areas, where the Land Revenue settlement is considered scientific, in order to bring the Land Revenue assessment on part with those obtaining in the pre-merger talukas of the district, Government framed land revenue Rule 19-N. For fixing the Land Revenue assessments in areas which are not settled or not scientifically settled on lines similar to the Bombay Land Revenue Code, Land Revenue Rule 19-O is framed. Both the above rules are framed under the Bombay Land Revenue Code section 52. According to Land Revenue Rule 19-N, the villages in the various settlement groups were generally compared with those in the pre-merger talukas and comparable Union Areas were fixed for them after taking into account the permanent and semi-permanent factors of physical configuration, climate and rainfall, markets, communications and mode of husbandry. The standard rates of the scientifically settled areas were then compared with the standard rates of comparable Union Areas and remission was granted to the extent of the excess of the former over the latter. Under Land Revenue Rule 19-O, groups of the villages of the merged areas were formed on consideration of their homogeneity in respect of permanent and semi-permanent factors mentioned above, and then comparable Union Areas of these villages fixed as under Land Revenue Rule 19-N. The Land Revenue Assessments in such areas were worked out by application of the (1) recoverable rate under Land Revenue Rules 19-N or (2) the existing rates prevailing in the merged areas or (3) the rates worked out on the basis of average cash value of 35 per cent or 1/6th of the gross produce, whichever was lowest to the soil classification values through the medium of the distance from village site scale and the actual area of the survey number or its sub-division.

Under the Gujarat and the Baroda State classification systems, lands irrigated from wells are treated as dry crop lands with an additional classification factor, viz., sub-soil, so as to levy higher land revenue assessment on consideration

of the capacity of the wells and soil classification value. Lands irrigated from second class and first class irrigation works which are in charge of the Public Works Department are subjected to separate irrigation cess and irrigation rates under the Bombay Irrigation Act, while lands irrigated from smaller works like tanks not governed by the Bombay Irrigation Act, are subjected to Himayat assessment which is clubbed with the land revenue. Occasionaluse of water from Government resources where Government has not spent anything is allowed free for agricultural purposes with permission and where Government have spent something, water assesment is levied under section 55 of the Bombay Land Revenue Code.

2.6 Agrarian Reforms

In the Merged State Areas, there were several villages held on Jagiri tenure and also some villages and lands held as Inams of one kind or the other. These tenures have been abolished by special legislations. The various inams except Devasthan inams, obtaining in the merged areas have been abolished by the Bombay Merged Territories (Miscellaneous Alienation Abolition) Act, and the Bombay Tenancy and Agricultural Lands Act has been applied. This has done away with the intermediaries between the agriculturists and the State. The Bombay Prevention of Fragmentation and Consolidation of Holdings Act was enacted in 1947 and the first experiment in consolidation of holdings was started in Mandvi taluka of this district. Since then the activity of consolidation of holdings under this Act have been spread over Mandvi, Palsana, Olpad, Bardoli, Chikhali, Navsari and Bulsar Talukas and Valod mahal. This activity has been started in the merged areas of the district from 1954. Under the Gujarat Agriculture Lands Ceiling Act, 1960, the maximum limits to the land holdings have also been laid down.

2.7 Size of Land Holdings

The sizes of land holdings and number of Khatedars with small, medium and large holdings as shown in the table given below provide useful date for the study of agrarian problems prevailing in the district.

Size of Land Holdings, 31-3-1962

Size of land holdings in acres	Percentage No. of holders	Percentage to total holders	Area held (in acres)	Per cent to total area held
1	2	3	4	5
Total	**288,980**	**100.00**	**1,879,867**	**100.00**
up to 5	182,980	63.31	368,501	19.60
over 5-15	74,214	25.69	653,965	34.79
„ 15-25	21,403	7.41	420,893	22.39
„ 25-56	9,030	3.13	302,885	16.11
„ 56-108	1,126	0.38	80,931	4.31
over 108	240	0.80	52,687	2.80

It is observed that 63.31 per cent of land-holders each having less than 5 acres of land possess only 19.60 per cent of the total land, while those having their land holdings between 5 to 15 acres constituted 25.69 per cent of land-holders, and owned 34.79 per cent. The land owned by other 10.54 per cent of land-holders having their holdings between 15 to 56 acres aggregated to 38.50 per cent of total area. Those possessing more than 56 acres of land numbered 1,356 (0.46 per cent) and possessed 133,618 acres (7.11 per cent) of the total land holdings.

2.8 Parliamentary and Assembly Constituencies

Under the Delimitation of Parliamentary and Assembly Constituencies Order, 1961, 3 seats are allotted to this district for the purpose of election to the House of the People and 19 seats for the State Assembly. The details comprising the territorial extent of the Parliamentary and Assembly constituencies are shown below.

Delimitation of Parliamentary and Assembly Constituencies

A *Parliamentary Constituencies*

Sl. No.	Name of Constituency	Extent in terms of Assembly Constituencies
1	2	3
1	Mandvi*	Jhaghadia, Nandod, Dediapada, Songadh, Vyara, Mangrol, Mandvi, and Mahuva
2	Surat*	Olpad, Chorasi, Surat City East, Surat City West, Bardoli, Navsari, and Jalalpur
3	Bulsar*	Gandevi, Chikhli, Bulsar, Pardi, Umbergaon, Dharampur and Bansda

B *Assembly Constituencies*

Sl. No.	Name of Constituency	Extent of Constituency
1	2	3
1	Songadh*	Songadh taluka (excluding 43 villages of Doswada circle of Songadh taluka) and Uchhal and Nizar mahals
2	Vyara*	Vyara taluka and 43 villages of Doswada circle of Songadh taluka
3	Mangrol*	Mangrol taluka and 34 villages of Kathor circle of Kamrej taluka
4	Mandvi*	Mandvi taluka and Kamrej taluka (excluding 34 villages of Kathor circle of Kamrej taluka)
5	Mahuva*	Mahuva taluka and Valod mahal
6	Olpad	Olpad taluka and 20 villages of Bhatha circle of Chorasi taluka
7	Chorasi†	Chorasi taluka (excluding the Surat Municipality and 20 villages of Bhatha circle of Chorasi taluka)
8	Surat City East	Ward Nos. 3 to 7 of Surat Municipality
9	Surat City West	Surat Municipality (excluding ward Nos. 3 to 7)
10	Bardoli	Bardoli taluka and Palsana mahal
11	Navsari	Navsari taluka (excluding 29 villages of Mahuva circle, 16 villages of Jalalpur circle, 21 villages of Abrama circle and 6 villages of Sisodra circle of Navsari taluka)
12	Jalalpur	29 villages of Mahuva circle, 16 villages of Jalalpur circle, 21 villages of Abrama circle and 6 villages of Sisodra circle of Navsari taluka
13	Gandevi	Gandevi mahal
14	Chikhli*	Chikhli taluka
15	Bulsar	Bulsar taluka (excluding 32 villages of Ronvel circle of Bulsar taluka)
16	Pardi*	Pardi taluka (excluding 24 villages of Vapi circle of Pardi taluka) and 32 villages of Ronvel circle of Bulsar taluka
17	Umbergaon*	Umbergaon taluka and 24 villages of Vapi circle of Pardi taluka
18	Dharampur*	Dharampur taluka
19	Bansda*	Bansda taluka and Dangs district.

*Reserved for Scheduled Tribes
†Reserved for Scheduled Castes

2.9 *Judiciary*

The judicial set-up of the district (including Dangs) comprises of one District and Sessions Judge, two Assistant District Judges, two Civil Judges (Sr. Division) and 20 Civil Judges (Jr. Division). As Sessions Judge he is empowered to impose any sentence authorised by law, but any sentence of death subject to confirmation by the High Court. The Assistant Sessions Judge is empowered to impose any sentence authorised by law, except a sentence of death or imprisonment for life or of imprisonment for a term exceeding 10 years. The District Judge has unlimited jurisdiction in civil suits while the Assistant Judge has jurisdiction up to Rs. 15,000 in such suits. Civil Judge (Sr. Division) and Judicial Magistrate is empowered to impose a sentence of imprisonment for a term not exceeding 2 years and fine not exceeding two thousand rupees. He has got unlimited jurisdiction in civil suits. Civil Judges (Jr. Division) have jurisdiction up-to Rs. 10,000 in civil suits.

2.10 Police

The total strength of civil police in 1960-61 was 1,585 persons. There were 26 police stations and 35 police outposts in the district. The total number of cognisable offences investigated was 10,178. Thus there was 1 police per 3.08 sq. miles of area. The number of persons per police was 1,547 and the number of cognisable offences investigated per police was 6.42.

The number of crimes by major class of offences in the district is extracted from table No. 11.3 given in Part II of this Handbook, wherein details regarding number of persons acquitted or discharged and number of persons convicted are also available.

Persons convicted by nature of offences, 1960-61

Discription of offence	No. of persons convicted
1	2
Against the State	87
Against the public tranquillity	16
Affecting the public health, safety, convenience, decency	40
Affecting life	65
Hurt	209
Criminal force and assault	27
Kidnapping, forcible abduction, slavery and forced labour	3
Rape	2
Theft	471
Criminal breach of trust	22
Cheating	12
Criminal trespass	148
Under special and local laws	1,976

3 LOCAL SELF GOVERNMENT

3.1 Local Self Government Institutions

The Local Self Government institutions in the State as on 1st April, 1961, which is the period covered by this Handbook are (1) Municipalities, (2) District Local Board, (3) District School Board and (4) Gram Panchayats. But since the Panchayats Act has come into force from 1st April, 1963, replacing the existing District Local Boards by Jilla Panchayats and introducing democratic decentralisation at all levels, a short resume of the provisions of this Act as regards the new set-up, functions, finance, etc., will also be given to bring the position about administrative set-up up-to date.

3.2 Municipalities

At the end of 1960-61 there were 8 municipalities covering 8 towns with a population of 449,744. The average population per municipality was 36,218. The following table shows area, population, income and expenditure of each municipality in the district.

Municipalities, area, population, income and expenditure for the year, 1960-61.

Municipality	Area in sq. miles	Population	Income (in Rs.)	Income perhead (in Rs.)	Expenditure (in Rs.)	Expenditure per head (in Rs.)
1	2	3	4	5	6	7
Total	**15.88**	**449,744**	**11,233,208**	**24.97**	**11,643,959**	**25.89**
Rander	1.98	18,534	166,399	8.98	244,886	13.21
Surat	3.19	288,026	7,484,140	25.98	7,502,291	26.05
Vyara	2.50	15,273	200,050	13.10	181,822	11.90
Navsari	1.80	51,300	1,109,462	21.63	1,587,330	30.94
Bilimora	1.50	22,491	745,859	33.16	575,122	25.57
Gandevi	1.69	9,282	128,541	13.85	152,281	16.41
Bulsar	1.56	35,058	1,268,488	36.18	1,282,096	36.57
Dharampur	1.66	9,780	130,269	13.32	118,131	12.08

Details regarding number of members, sources of income and heads of expenditure are available in Official Statistics Table 14.1 published in Part II of this Handbook.

The total income of all the 8 municipalities during 1960-61 amounted to Rs. 11,233,208 of which as much as Rs. 9,027,482 or 80.36 per cent came from rates and taxes. The income per head of population as per 1961 Census was Rs. 24.97. As against this, the total expenditure in 1960-61 of all municipalities amounted to Rs. 11,643,959 and average expenditure per head of population Rs. 25.89.

3.3 District Local Board

Total income and expenditure of the district local board during 1960-61 was Rs. 1,803,736 and Rs. 1,987,191 respectively. The main sources of income are local rates and land revenue and the major heads of expenditure are civil and public works, medical and education. The following table shows income and expenditure of the Surat District Local Board during 1960–61 under different heads.

Income and expenditure of District Local Board, 1960-61

Head	Income (in Rs.)	Head	Expenditure (in Rs.)
1	2	3	4
Total	**1,803,736**	**Total**	**1,987,191**
Land revenue	154,817	Refund	1,254
Local rates	1,100,157	Administration	57,222
Interest	4,791	Education	405,239
Medical	94,273	Medical	412,905
Pension contribution	..	Pension	24,717
Miscellaneous	316,816	Miscellaneous	19,968
Civil Works	132,882	Civil & Public works	1,065,886

Details giving income and expenditure under different sources are available for the years 1950-51, 1955-56 and 1960-61 in Official Statistics Table 14.2 published in Part II of this Handbook.

3.4 Panchayats

The number of panchayats in the district at the end of 1960-61 was 1,027.

The villages having Nyaya Panchayats numbered 183. The number of panchayats in each taluka/mahal of the district together with their income and expenditure for the year 1950-51, 1955-56 and 1960-61 is given in thefollowing table.

Income and expenditure of Panchayats 1950-51, 1955-56 and 1960-61

	No. of village panchayats			Income (in Rs.)			Expenditure (in Rs.)		
Taluka/Mahal	1950-51	1955-56	1960-61	1950-51	1955-56	1960-61	1950-51	1955-56	1960-61
1	2	3	4	5	6	7	8	9	10
Total	**468**	**678**	**1,027**	**812,662**	**2,274,987**	**6,847,689**	**744,895**	**1,900,457**	**5,279,455**
Olpad	14	25	46	31,762	149,386	761,673	26,962	106,097	652,106
Mangrol	34	34	38	180,709	215,584	342,490	13,401	150,324	328,991
Kamrej	56	56	56	63,483	169,108	1,358,288	47,214	94,310	355,633
Chorasi	7	34	61	32,757	226,230	695,308	27,727	180,867	577,648
Palsana	40	40	40	7,075	94,728	173,338	1,794	176,413	147,805
Mandvi	4	10	40	27,630	100,898	342,892	318,615	105,783	298,457
Songadh	38	38	38	1,932	45,563	114,382	1,146	42,043	113,594
Vyara	77	77	77	63,393	83,288	88,043	40,245	47,379	54,992
Bardoli	15	48	50	33,885	105,887	349,981	19,837	92,649	309,325
Valod	7	12	24	27,853	55,159	101,601	20,054	44,845	94,164
Navsari	37	70	103	68,413	238,614	441,929	48,507	193,780	423,749
Gandevi	47	47	48	48,810	101,798	291,422	33,278	110,709	267,104
Mahuva	22	24	26	60,227	148,075	180,606	27,494	105,478	168,626
Bansda	..	12	37	..	78,577	201,490	..	71,220	173,927
Bulsar	9	18	67	22,919	99,962	101,424	14,655	80,612	229,504
Chikhli	14	59	63	33,433	135,105	626,009	25,165	131,769	541,137
Dharampur	..	15	68	..	46,459	143,814	..	9,977	120,817
Pardi	37	47	58	47,455	89,698	158,850	46,280	88,422	123,220
Umbergaon	10	12	36	60,926	90,868	166,520	32,521	67,780	172,084
Uchhal	..	..	11	..	..	13,910	..	..	7,630
Nizar	..	..	40	..	..	193,719	..	..	121,942

The total income of all panchayats for the year 1960-61 was Rs. 6,847,689 while the total expenditure amounted to Rs. 5,279,455. The income and expenditure per panchayat were Rs. 6,668 and Rs. 5,141 respectively.The above details are also available in Official Statistics Table 14.3 published in Part II of this Handbook.

3.5 Present set-up under the Panchayat Act

The Gujarat Panchayats Act has been brought into force in all the districts of Gujarat (except Kutch and Dangs districts) from 1st April, 1963. In the Kutch district, it has been brought into force with effect from 15th April, 1963. It is not yet made applicable to the Dangs district. In each district there are three tiers of the Panchayat Organisation, gram/nagar panchayats, taluka panchayats and district panchayat. Municipalities having population not exceeding 10,000 have been converted into gram-panchayats and those having population exceeding 10,000 but not exceeding 20,000 have been converted into nagar panchayats. A gram/nagar panchayat is subordinate to the taluka panchayat, while a taluka panchayat is subordinate to the district panchayat according to the scheme of this Act.

According to the provisions of the Gujarat Panchayats Act, 1961, a gram panchayat consists of not less than 9 and not more than 16 members, while a nagar panchayat consists of not less than 15 and not more than 31 members. Provision has been made to reserve seats for women and members of Scheduled Castes and Tribes. A taluka

panchayat consists of ex-officio, elected, co-opted and associate members. On account of the national emergency, interim district panchayats had to be constituted in April, 1963. Elections are now proposed to be held and elected district panchayats would be constituted towards the end of March, 1964 in the sixteen districts of the State.

The District Development Officer is the Chief Executive Officer in a district panchayat. He is borne on the cadre of the Indian Administrative Service (senior time-scale) and is appointed by Government. The Chief Executive Officer of the taluka panchayat is the Taluka Development Officer, who is also appointed by Government. Both these officers are secretaries of their respective panchayats which function through various committees, appointed for different groups of functions under the Act.

Functions

The functions of the three tiers of panchayats have been given very elaborately in the three schedules to the Act. In addition, the functions of collecting land revenue (including cesses) and dues recoverable as arrears of land revenue, levied and assessed by or under the Land Revenue Code and all other functions and duties of a village accountant under the land revenue code have been transferred to gram/nagar panchayats. The powers exercised and the functions and duties performed by the District School Board have been similarly transferred to the taluka and district panchayats and all primary schools have been placed under the control of taluka and district panchayats. A large number of functions such as registration of co-operative societies, approval of amendment to the bye-laws of co-operative societies, calling of or extending the period for the calling of annual general meeting of co-operative societies and such other functions which under the Co-operative Societies Act, were exercised by the Registrar, Co-operative Societies, have been transferred to district panchayats. Moreover, functions relating to agriculture, animal husbandry, public health and medical relief, social welfare, cottage industries and small scale industries and District Statistical Office, have been transferred on an agency basis to the district panchayats.

Staff

To enable the panchayats to carry out numerous activities entrusted to them, Government has transferred/deputed a number of its employees along with the functions transferred. The staff of the District School Boards and District Local Boards has also been transferred to taluka/district panchayats. It has been envisaged in the Act to constitute a panchayat service in connection with the affairs of panchayats and to maintain a uniform standard in the recruitment for panchayat service. A Panchayat Service Selection Board has been constituted for this purpose.

Funds

The panchayats have been given necessary funds to execute all schemes transferred to them. In addition, provision has been made in the Act, for various tiers of panchayat to levy taxes and fees. A gram or nagar panchayat subject to certain conditions can levy a tax on buildings, a pilgrim tax, a tax on fairs, festivals and other entertainments, a tax on bicycles or vehicles drawn by animals, a sanitary tax, etc. It can also levy fee on markets, cart stands, tonga stands, for the supply of water from wells and tanks for purposes other than domestic use and for cattle. The taluka panchayat and district panchayat can request Government for increase in stamp duty, where upon grant-in-aid equal to the additional amount thus realised becomes payable to the panchayat. Moreover, provision has been made in the Act for making grants to the panchayats for its activities.

At present, the implementation of the Act is being done mostly through the Commissioner. They have been delegated with most of the powers of the State and exercise supervision over panchayats.

Provision has also been made in the Act under which the State Government will give grants to the panchayats on the basis of the average of the land revenue collected during the last three preceding years, after deducting therefrom the expenditure on the salaries and training of the secretaries of gram panchayats and village accountants and crediting 5 per cent of the amount to the State Equalisation Fund. 50 per cent of the balance

will be distributed among gram panchayats and nagar panchayats, 25 per cent among taluka panchayats and 10 per cent among the district panchayats. Out of the remaining 15 per cent of the land revenue, 7½ per cent will be carried to the District Equalisation Fund and 7½ per cent to the Gram Encouragement Fund.

4 POPULATION

4.1 Growth of Population

In 1951, the population of the district as constituted in 1961 was 1,982,385. According to the 1961 Census the same has gone up by 469,239 and increased to 2,451,624 or 23.67 per cent, the highest during the last sixty years though lower than that observed in the case of Gujarat State which is 26.88 per cent. The following table compares the growth rate in the district during the last sixty years.

Variation in population during 1901 to 1961

Year	Population	Decade variation	Percentage decade variation
1	2	3	4
1901	1,173,370	..	..
1911	1,254,855	+ 81,485	+ 6.94
1921	1,259,675	+ 4,820	+ 0.38
1931	1,384,831	+ 125,156	+ 9.94
1941	1,670,667	+ 285,836	+ 20.64
1951	1,982,385	+ 311,718	+ 18.66
1961	2,451,624	+ 469,239	+ 23.67
1901 to 1961	..	+1,278,254	+108.94

Sexwise details are available in Census Table A-II published in Census of India, 1961,Volume-V-Gujarat-Part II-A.

The unprecedented growth of numbers between 1951-61 can, however, be attributed to the decline in death rate, accompanied by steady improvements in medical and public health services available to the people since Independence.

OCCUPIED RESIDENTIAL HOUSES AND HOUSEHOLDS

The total number of occupied residential houses in the district is 415,656 or 11.15 per cent in the State. The average number of persons per occupied Census house in total, rural and urban areas of the State and district is given below.

Average number of persons per occupied census house, 1961

Total/Rural/Urban	State	District
1	2	3
Total	**5.53**	**5.90**
Rural	5.54	5.77
Urban	5.52	6.41

It will be seen that the average number of persons per occupied house in the district is higher than that of the State for its total, rural and urban areas.

The number of households in the district was, total 447,103, rural 350,824 and urban 96,279 and that of houses total 415,656, rural 331,053 and urban 84,603. The number of households per cent of houses, therefore, comes to 107.57, 105.97 and 113.80 for the total, rural and urban areas respectively. The average number of persons per household for total, rural and urban areas of the district comes to 5.48, 5.44 and 5.63 respectively.

4.2 Rural/Urban Distribution

The criteria for determining whether a place was rural or urban varied from census to census and rendered such data incomparable. A uniform definition for urban areas was, therefore, adopted during the Census of 1961, by laying down that a place should be classified as urban, if it was (1) a municipality, cantonment or civil lines, or (2) had-(a) a population of 5,000 or over and (b) 75 per cent or more of the total male population was dependent on non-agricultural pursuits.

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'Village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distinct number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

4.2 (i) Rural Population

The total number of villages in the district is 2,192, of which 80 are uninhabited. The total rural population of the district is 1,909,429 giving an average of 904 persons per inhabited village. The proportion of rural population to the total in the district is higher (77.88 per cent) than similar proportion in the State which is 74.23 per cent.

Percentage distribution of rural population by size group of villages, 1961

Size group	No. of villages	Percentage to total No. of villages	Rural population	Percentage to total rural population
1	2	3	4	5
Less than 200	275	13.02	32,979	1.73
200–499	543	25.71	187,842	9.84
500–999	678	32.10	486,209	25.46
1,000–1,999	418	19.79	564,230	29.55
2,000–4,999	178	8.43	515,052	26.97
5,000–9,999	20	0.95	123,117	6.45
10,000 and above	..	..	..	..

Details of sexwise population for talukas are available in Census Table A-III published in Part II of this Handbook.

Out of 2,112 inhabited villages, 818, i.e., 38.73 per cent of the total fall in the class range less than 500, covering 11.57 per cent of the total rural population. 1,096 villages i.e. 51.89 per cent of the total have their population than half (55.01 varying between 500 to 1,999 and cover more per cent) of the rural populationof the district. The remaining 198 villages i.e. 9.38 per cent of the total are large size villages having more than 2,000 souls residing in each of them. These villages are populated by 33.42 per cent of the rural population. This indicatesthat larger proportion of rural population (88.93 per cent) of thedistrict resides in medium and larger size villages.

4.2 (ii) Urban Population

Statement showing the number of towns classified by population is furnished below.

Number of towns classified by size groups during 1901 to 1961

	I 100,000 and above		II 50,000 to 99,999		III 20,000 to 49,999		IV 10,000 to 19,999		V 5,000 to 9,999		VI Below 5,000	
Year	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population
1	2	3	4	5	6	7	8	9	10	11	12	13
1961	1	288,026	1	53,600	2	62,527	7	90,126	6	47,916	..	..
1951	1	223,182	..	..	2	70,103	3	42,208	9	61,812	3	10,048
1941	1	171,443	..	..	2	55,640	2	29,972	6	43,568	9	2,3714
1931	..	..	1	98,936	1	24,397	2	31,825	7	45,948	6	14,830
1921	1	117,434	..	..	..	..	3	49,806	5	30,449	7	20,243
1911	1	114,868	..	..	..	..	3	44,643	2	12,944	7	26,582
1901	1	119,306	..	..	1	21,451	2	23,335	5	29,043	7	27,250

Sexwise details of each town are available in Census Table A-IV publishrd in Part-II of this Handbook.

As against 25.77 per cent of the total population of Gujarat State living in urban areas, this district has 22.12 per cent living in towns. As a result of change in the definition of urban areas, as adopted in 1961 Census, the number of towns have come down from 18 in 1951 to 17 in 1961. According to this definition Bansda, Kadod, Variav, Songadh, Khattalwada and Maroli which were treated as urban in 1951 were declassified and treated as rural in 1961. Towns included as urban areas in 1961 for the first time were, viz., Katargam, Jalalpur, Abrama, Pardi and Vapi. It is interesting to note that all the declassified towns were non-municipal areas while all the new towns included as urban areas had more than 75 per cent of their male population dependent on non-agricultural pursuits.

The urban population of the district numbering 542,195 persons is spread over 17 towns of different sizes. Nine out of 21 taluka/mahals of the district are without any urban population. Surat is the district headquarters and with a population more than 2 lakhs, is one of the six class I cities in Gujarat State. It has remained in class I from 1901 to 1961 except in the decade 1931–41 during which period it has been categorised under class II. Navsari with a population of 53,600 persons comes under class II, while two other towns, viz., Bulsar and Billimora with their population between 20,000 to 49,999 are included in class III. Class IV includes 7 towns bracketed within the population size of 10,000 to 19,999. The remaining 6 towns fall in class V having population less than 10,000. The average population of a town, in this district is 31,894 persons as compared to 30,380 persons for the State. There is no town under class VI in the district.

4.3 Density

The area of the district in 1951 was 4,067.0 square miles or 5.72 per cent of the total area now comprising Gujarat. But in 1961 it has increased to 4,875.9 square miles or 6.86 per cent of the total area of the State due to changes in

the territorial jurisdiction of the district. The corresponding percentages of population for the district as constituted in 1961 are, however, found to be 12.19 in 1951 and 11.88 in 1961. The density of population is 503 persons per square mile as against 290 for the State. The urban density of 10,303 for the district is naturally higher than the rural (396) where the pressure of population is comparatively less. The average density is worked out on the basis of the entire area within the revenue limits of the village and not of the village site. These densities differ for different parts of the district as also for its rural and urban areas as will be seen from the table that follows.

Population per square mile, 1961

State/District/ Taluka/Mahal	Population per squaremile		
	Total	Rural	Urban
1	2	3	4
State	**290**	**218**	**7,194**
District	*503*	*396*	*10,303*
Olpad	315	315	..
Mangrol	248	248	..
Kamrej	429	393	1,611
Chorasi	2,053	648	34,252
Palsana	540	540	..
Mandvi	340	312	2,936
Songadh	173	173	..
Vyara	377	332	6,109
Bardoli	619	545	4,351
Valod	548	548	..
Navsari	791	583	9,559
Gandevi	916	677	9,960
Mahuva	490	490	..
Bansda	402	402	..
Bulsar	859	648	10,488
Chikhli	642	642	..
Dharampur	239	224	5,892
Pardi	759	671	2,221
Umbergaon	670	646	1,325
Uchhal	144	144	..
Nizar	387	387	..

While working out the density of urban areas, the urban units for which area figures are not available have been ignored. Rural density is worked out on the basis of rural population only, though the area figures include the area of those urban units for which separate area figures are not available. The highest average density of 2,053 is found in Chorasi taluka which is due to inclusion of Surat city in Chorasi taluka and the lowest density (144) is found in Uchhal mahal. In rural areas Gandevi mahal has the highest (677) and Uchhal mahal the lowest (144) density. But among towns Chorasi taluka tops the list with 34,252 per sq. mile, the lowest being 1,325 for Umbergaon.

4.4 Migration

The number of persons born (i) at the place of enumeration, (ii) elsewhere in the district, (iii) outside the district of enumeration but within Gujarat State and those (iv) born outside Gujarat State as per 1961 Census is given below.

Population by place of birth, 1961

Persons/ Males/ Females	Total popula-tion	Born in			
		Place of enume-ration	Elsewhere in the district	Outside the district but in the State	Outside the State
1	2	3	4	5	6
Persons	2,451,624	1,681,272	600,609	70,545	99,198
Males	1,231,418	950,484	194,791	35,495	50,648
Females	1,220,206	730,788	405,818	35,050	48,550
Percentages					
Persons	100.00	68.58	24.50	2.88	4.04
Males	100.00	77.19	15.82	2.88	4.11
Females	100.00	59.89	33.26	2.87	3.98

In case of 68.58 per cent of the population of the district, the place of enumeration is the same as the place of birth. This proportion for males is 77.19 per cent, as against 59.89 per cent for females owing to the migration of females after marriage, which appears to be mostly within the district. For the proportion of females born outside the place of enumeration but within the district is as high as 33.26 per cent as compared to those born outside the district but within the State who account for 2.87 per cent and those outside the State who account for 3.98 per cent only.

The percentage distribution of population born at the place of enumeration, born elsewhere within the district and outside the district by nine categories of economica ctivity and of non-workers is given on the next page.

Distribution of population by categories of workers and non-workers classified by place of birth, 1961

Place of birth	Categories of workers I As Cultivator	II As Agricultural labourer	III In Mining, Quarrying, etc.	IV At Household Industry	V In Manufacturing other than Household Industry	VI In Construction	VII In Trade and Commerce	VIII In Transport, Storage and Communications	IX In Other Services	X Non-workers
1	2	3	4	5	6	7	8	9	10	11
District Total	**19.75**	**12.05**	**0.78**	**2.02**	**3.08**	**0.51**	**1.63**	**0.85**	**3.70**	**55.63**
Born at the place of enumeration	18.87	10.45	0.77	1.97	2.45	0.24	1.28	0.62	2.66	60.69
Elsewhere in the district	25.89	17.88	0.73	1.87	3.09	0.54	1.52	0.93	5.10	42.45
Outside the district	6.64	7.26	1.08	3.00	9.26	3.15	5.45	2.83	9.09	52.24

4.5 Sex Ratio

In 1961 the number of females per 1,000 males in the district was 991 which was higher than the similar ratio of 940 for the State. The corresponding rural and urban sex ratios for the district which were 1,009 and 930 respectively show that the proportion of females was comparatively less in towns than in villages.

The following statement compares sex ratios in towns in 1951 and 1961.

Females per thousand males in urban areas, 1951 and 1961

Sl. No.	State/ District/ Town	Sex Ratio 1951	1961
	1	2	3
	State	**915**	**896**
	District	937	930
1	Kathor	1,040	967
2	Rander	1,082	1,027
3	Surat	917	916
4	Katargam	..	899
5	Mandvi	974	961
6	Vyara	943	942
7	Bardoli	928	933
8	Navsari	964	948
9	Jalalpur	..	927
10	Bilimora	884	858
11	Gandevi	1,027	990
12	Bulsar	956	965
13	Abrama	..	885
14	Dharampur	1,015	979
15	Pardi	..	990
16	Vapi	..	978
17	Umbergaon	930	906

The urban areas with a sex ratio lower than that for the district average are, Jalalpur, Surat, Umbergaon, Katargam, Abrama, and Billimora. The ratios in respect of these towns appear to be significantly lower due to concentration of male population brought about by the following factors.

(1) Existence of manufacturing and processing units like, ginning presses, textile mills and other industries.
(2) Availability of employment due to the development of trade and commerce.
(3) Development as a port.

The higher female ratio in Rander (1,027) is mainly due to the absence of male members who have either migrated to towns and big cities or gone abroad for service or business.

4.6 Age Distribution

Table C-II given in Part II shows the distribution of the population by quinquennial age-groups. Table C-IV gives single year age returns. Broad age-groups are also given in Tables B-I and C-II printed in Part II of this Handbook. Proportionate population figures by broad age-groups in 1961 are compared separately for males and females with the corresponding proportions for 1951 for the district as constituted then.

Percentage distribution of population by sex and age-groups, 1951 and 1961

Age-groups	Percentage of population by age-groups 1951 Males	1951 Females	1961 Males	1961 Females
1	2	3	4	5
Total A to D	**100.00**	**100.00**	**100.00**	**100.00**
0–4	14.31	14.22	15.32	15.53
5–14	26.12	25.22	27.67	26.48
A 0–14	40.43	39.44	42.99	42.01
15–34	31.92	33.81	30.10	31.64
35–59	23.34	21.54	21.79	20.83
B 15–59	55.26	55.35	51.89	52.47
C 60+	4.30	5.20	5.08	5.48
D Age not stated	0.01	0.01	0.04	0.04

The proportion of both males and females in the age-group 0–14 has increased during the decade, owing to high birth rate which is responsible for an increase of 2.56 per cent in males and 2.57 per cent in females. But there is a slight decline in the proportion of males and females in the age-groups 15-34 and 35-59. This may perhaps be due to the migration of adult workers to other areas.

4.7 Marital Status

According to the Census of 1,961, 1,021,343 persons are returned as married, which include 497,986 males and 523,357 females. Never married persons account for 1,274,197 of the total population, males being 55.92 per cent and females 47.99 per cent of their respective population. The widowed are 5.67 per cent and divorced or separated constitute 0.70 per cent only. The following table shows the marital status of males and females in different age-groups classified into (i) never married, (ii) married and (iii) widowed, divorced, separated and others.

Age and Marital Status, 1961

Age-groups	Never Married		Married		Widowed, divorced/separated and others	
	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Pecentage of females to total females
1	2	3	4	5	6	7
Total	**55.92**	**47.99**	**40.44**	**42.89**	**3.64**	**9.12**
0–9	100.00	100.00	..	..	..	..
10–14	99.43	98.33	0.55	1.64	2.02	0.03
15–19	92.06	62.12	7.65	36.91	0.29	0.97
20–24	45.61	10.10	52.59	87.19	1.80	2.71
25–29	13.20	2.56	84.10	94.01	2.70	3.43
30+	3.08	0.93	87.18	73.46	9.74	25.61

No person has been reported as married in the age-group 0–9 as all such persons were treated as unmarried at the time of sorting. But child marriages still persist in the age-group 10–14 to the extent of 0.55 per cent among males and 1.64 per cent among females. It is also noteworthy that among males the age of marriage has shifted and risen to 20 and above, as only 7.65 per cent of males in the age-group 15-19 have been returned as married, while the percentage rises to 52.59 in the age-group of 20–24 and to 84.10 per cent in the age-group of 25–29. Corresponding proportions for females, however, show that 36.91 per cent of females in the age-group 15–19 and 87.19 per cent in the age-group 20–24 are married. Examination of the figures of widowed, divorced and separated discloses an interesting feature of marital life in the district in that, they appear to be significant only after the age of 29. While females above 30 years account for 25.61 per cent in this category, males form 9.74 per cent of their population. These figures reveal a greater tendency towards remarriage on part of widowed males than widowed females among whom it is mostly avoided.

4.8 (i) Literacy and Education

According to the Census of 1951, there were 513,784 literates in the district of Surat as constituted then and formed 29.1 per cent of the total population. Percentage of male literates was then 39.0 per cent, while that of female literates 19.1. In 1961, the percentage of literacy rose to 34.35 per cent (44.36 per cent for males and 24.26 per cent for females). Percentage of literacy to total population by age and sex is given for total/rural/urban in the table on next page.

Literacy by age-groups, 1961

Age-groups	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8	9	10
All ages	**34.35**	**44.36**	**24.26**	**28.72**	**38.50**	**19.03**	**54.19**	**64.19**	**43.43**
5–14	42.81	48.71	36.59	37.81	44.23	31.06	61.38	65.15	57.33
15–34	46.49	60.36	33.17	38.90	52.99	25.91	69.70	81.09	57.31
35–59	33.12	48.12	17.28	26.56	40.70	11.95	56.02	72.84	36.87
60+	25.51	43.63	8.57	20.56	37.24	4.75	43.97	68.31	22.37
Age not stated	13.85	20.99	7.10	13.62	20.41	6.97	16.46	29.03	8.33

Literates among children in the age-group 5-14, constitute 42.81 per cent of whom males account for 48.71 per cent and females 36.59 per cent. The highest literacy among persons and males is found to be in the age-group 15–34 in total/rural/urban areas. The highest percentage of literacy among females is to be found in the age-group 5–14 in total/rural/urban areas of the district, though in urban areas the percentage of literacy in the next age-group 15–34 is only slightly low. The following table furnishes the sexwise details of literacy by rural/urban for each taluka/mahal of the district.

Rural/Urban literacy by sex, 1961

Taluka/Mahal		Literate and Educated					
		Literates	Percentage of total population	Literate males	Percentage of total male population	Literate females	Percentage of total female population
1		2	3	4	5	6	7

	U	34,147	54.04	20,218	62.24	13,929	45.36
Gandevi	R	40,785	43.33	25,508	54.87	15,277	32.07
	U	19,197	53.06	11,843	62.11	7,354	42.97
Mahuva	R	20,908	31.90	14,061	43.00	6,847	20.85
Bansda	R	16,199	17.54	12,287	26.28	3,912	8.58
Bulsar	R	43,919	34.93	30,398	48.80	13,521	21.31
	U	23,811	53.91	14,383	63.60	9,428	43.74
Chikhali	R	41,514	29.66	27,764	40.48	13,750	19.26
Dharampur	R	11,736	8.21	9,863	13.55	1,873	2.67
	U	3,957	40.46	2,466	49.90	1,491	30.82
Pardi	R	33,495	30.69	23,490	43.78	10,005	18.03
	U	10,648	48.92	6,544	59.65	4,104	38.02
Umbergaon	R	21,516	24.07	15,338	35.44	6,178	13.40
	U	3,397	51.67	2,203	63.87	1,194	38.21
Uchhal	R	2,432	7.71	2,152	13.42	280	1.81
Nizar	R	11,612	19.75	9,262	31.63	2,350	7.96

It will be seen from the above table that in rural areas the percentage of literacy is the highest (44.33 per cent) in Navsari taluka and the lowest in Uchhal mahal (7.71 per cent). The highest percentage of literacy among males (54.87 per cent) is, however, found in Gandevi mahal while for females the percentage is the highest (35.44 per cent) in Navsari taluka. In Uchhal mahal the percentages of literacy are 13.42 per cent for males and 1.81 per cent for females, which are also the lowest in the whole of the district.

Among the urban areas, the literacy percentage is the highest (55.92 per cent) in Chorasi taluka, which is due to greater facilities available for education in Surat city, while it is the lowest (40.46 per cent) for Dharampur taluka. For males also the highest percentage (66.39 per cent) and the lowest percentage (49.90 per cent) are claimed by Chorasi and Dharampur talukas respectively. Navsari taluka claims the highest percentage (45.36 per cent) of urban female literates, the lowest being 30.82 per cent in Dharampur taluka.

4.8 (ii) Educational Institutions

The table belows gives the number of various types of educational institutions in the district, along with the number of students and teachers in 1960-61.

Number of educational institutions, students and teachers, 1960-61

Educational levels	Institutions	Teachers	Students
1	2	3	4
Primary	2,180	7,564	321,620
Secondary	128	1,696	48,730
Higher	8	284	5,570
Special			
(a) Training colleges	8	95	1,146
(b) Other institutions	8	36	649

During 1960-61 there were 2,180 primary schools, with 7,564 teachers and 321,620 students on their rolls. Out of these 2,007 schools were in rural areas, which covered 1,773 villages of the district. Villages having no school numbered 339. Thus 83.95 per cent of the total villages of the district were provided with the facilities of primary education. There was one primary school per 2.40 sq. mile of rural area. There were 126 students per 1,000 of rural population and the number of scholars per teacher and per primary school in the rural area stood at 40.56 and 120.37 respectively.

There were 128 institutions with 1,696 teachers and 48,730 students imparting secondary education in the district. During 1960-61 there were 8 colleges in the district, out of which 5 were located at Surat, one at Bulsar and one at Navsari. There were 284 teachers in these institutions and the number of students on their rolls during the year 1960-61 was 5,570. Besides these there were 16 other institutions of which 8 were primary teachers training colleges and 8 engaged in imparting general and special education.

4.9 Languages

Table C-V in Part II shows the speakers of major languages for the district and each taluka separately. The distribution of speakers of each major language by rural/urban areas in the district is as under.

Distribution of speakers of major languages, 1961

Sl. No.	Major language	Percentage of total population			Percentage of each major language in	
		Total	Rural	Urban	Rural	Urban
1	2	3	4	5	6	7
Total of all languages		**100.00**	**100.00**	**100.00**	**77.88**	**22.12**
1	Gujarati	82.90	83.00	82.51	77.99	22.01
2	Marathi	2.23	1.54	4.66	53.76	46.24
3	Hindi	0.59	0.31	1.56	41.57	58.43
4	Sindhi	0.24	0.06	0.85	21.09	78.91
5	Urdu	2.86	1.04	9.30	28.17	71.83
6	Ahirani	0.19	0.24	..	100.00	..
7	Bhili	0.24	0.31	..	100.00	..
8	Bhilodi	1.85	2.37	..	100.00	..
9	Chodhari	2.43	3.13	..	100.00	..
10	Dhodia	1.08	1.39	..	100.00	..
11	Gamit	1.55	1.99	..	100.00	..
12	Kannad	0.03	0.02	0.06	60.60	39.40
13	Kathodi	0.03	0.04	..	100.00	..
14	Kolchi	0.04	0.05	..	100.00	..
15	Konkani	0.93	1.18	0.04	98.92	1.08
16	Kotwalia	0.11	0.14	..	100.00	..
17	Kukna	0.54	0.70	..	100.00	..

Distribution of speakers of major languages, 1961-contd.

Sl. No.	Major language	Percentage of total population			Percentage of each major language in	
		Total	Rural	Urban	Rural	Urban
1	2	3	4	5	6	7
18	Marwari	0.03	0.02	0.07	49.57	50.43
19	Mawchi	0.54	0·70	..	100.00	..
20	Naikadi	0.03	0.04	..	100.00	..
21	Panjabi	0.04	0.02	0.11	35.61	64.39
22	Rajasthani	0.03	Nil	0.13	6.72	93.28
23	Tamil	0.02	0.01	0.07	35.12	64.88
24	Telugu	0.14	0.06	0.41	33.04	66.96
25	Varli	0.64	0.82	..	100.00	..
26	Vasava	0.52	0.67	..	100.00	..
27	Others	0.17	0.15	0.23	69.63	30,37

It will be seen from the above table that 82.90 per cent of the population in the district have Gujarati as their mother tongue. 77.99 per cent of them live in rural areas and 22.01 per cent in urban areas. Besides the persons speaking Urdu, Chodhari and Marathi languages constitute 2.86 per cent, 2.43 per cent and 2.23 per cent of the total population respectively. The number of persons speaking languages like Bhilodi, Gamit and Dhodia each constitute less than 2 per cent. The number of speakers of other languages is not significant.

4.10 Religions

The following table gives distribution of religions.

Religions, 1961

Religions	Population	Percentage of total population
1	2	3
Total	**2,451,624**	**100.00**
Hindu	2,254,362	91.96
Muslim	151,321	6.17
Jain	22,617	0.92
Sikh	1,502	0.06
Christian	7,934	0.32
Buddhist	849	0,04
Zoroastrian	12,750	0.52
Other religion and persuasions	289	0,01

It will be seen from the above table that 91.96 per cent of the total population are Hindus, 6.17 per cent Muslims and 0.92 per cent Jains, Zoroastrians and Christians form 0.52 per cent and 0.32 per cent of the total population respectively. The rest of the population including Sikhs, Buddhists, and other religions and persuasions accoun for 2,640 persons or 0.11 per cent of the total.

4.11 Scheduled Castes and Scheduled Tribes .

4.11 (i) Scheduled Castes

The total population of Scheduled Castes as per 1961 Census is 84,375 which forms 3.44 per cent of the total population of the district. The following table gives the figures of Scheduled Castes for total/rural/urban.

Scheduled Castes, 1961

Total/Rural/ Urban	Persons	Percentage of total population
1	2	3
Total	**84,375**	**3.44**
Rural	60,831	3.18
Urban	23,544	5.34

The literate and educated among the Scheduled Castes number 34,020 and constitute 40.32 per cent of the total population of Scheduled Castes of the district. The rural and urban proportion among them is 41.55 per cent and 37.15 per cent of their population respectively in villages and towns. The working population accounts for 34,703 persons or 41.13 per cent of their population in the district. Workers in special occupations like (i) tanning and currying of hides and skins and (ii) scavenging number 594 (1.71 per cent) and 1,594 (4.59 per cent) respectively of the total population of Scheduled Castes of the district.

The tables of SCT series in Census of India 1961, Volume V–Gujarat–Part V-A, show details as to number of Scheduled Castes/Tribes, industrial categories, marital status, religion, etc., for each Scheduled Caste/Tribe. Sex and percentage distribution of Scheduled Castes population by rural/urban in the district, is shown in the table given on the next page.

Percentage distribution of Scheduled Castes population by rural/urban, 1961

Name of Scheduled Caste	Total population			Sex		Percentage to total population of the district			Percentage of each Scheduled Castes population	
	T	R	U	M	F	T	R	U	M	F
1	2	3	4	5	6	7	8	9	10	11
Total	**84,375**	**60,831**	**23,544**	**38,454**	**45,921**	**3.44**	**2.48**	**0.96**	**72.10**	**27.90**
1 Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar or Zadmalli	5,936	1,859	4,077	2,933	3,003	0.24	0.07	0.17	31.32	68.68
2 Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Telegu, Mochi, Kamati-Mochi, Ranigar, Rohidas, Rohit or Samgar	12,772	10,291	2,481	6,240	6,532	0.52	0.42	0.10	80.57	19.43
3 Mahyavanshi, Dhed, Vankar or Maru Vankar	56,128	43,903	12,225	24,613	31,515	2.29	1.79	0.50	78.22	21.78
4 Garoda or Garo	841	638	203	427	414	0.04	0.03	0.01	75.86	24.14
5 Nadia or Hadi	494	23	471	201	293	0.02	..	0.02	4.66	95.34
6 Meghval or Menghvar	3,487	17	3,470	1,780	1,707	0.14	..	0.14	0.49	99.51
7 Shenva, Chenva, Sedma or Rawat	12	6	6	5	7	..	..	..	50.00	50.00
8 Turi	65	..	65	36	29	..	..	..	..	100.00
9 Chalvadi or Channayya	4	4	..	2	2	..	..	..	100.00	..
10 Holar or Valhar	3	3	..	2	1	..	..	..	100.00	..
11 Lingader	2	2	..	1	1	..	..	..	100.00	..
12 Mahar, Taral or Dhegu Megu	1,463	1,181	282	753	710	0.06	0.05	0.01	80.72	19.28
13 Mang, Matang or Minimadig	799	695	104	387	412	0.03	0.03	..	86.98	13.02
14 Mang-Garudi	152	152	..	76	76	0.01	0.01	..		..
15 Tirgar or Tirbanda	21	21	..	9	12	..	..	..	100.00	..
16 Unclassified	2,196	2,036	160	989	1,207	0.09	0.08	0.01	92.71	7.29

The predominant Scheduled Castes in the district are Dhed, Chamar and Bhangi (along with other synonymous castes) having 74,836 souls or 3.05 per cent of the total population of the district, of whom 74.90 per cent live in villages, and 25.10 per cent in towns.

4.11 (ii) Scheduled Tribes

This district which is known for its preponderance of the tribal population is inhabited by 1,224,959 persons of Scheduled Tribes which constitute 49.96 per cent of the total population of the district and 44.47 per cent of the Scheduled Tribes of the State. The important Scheduled Tribes residing in the district are Dhodia, Chodhari, Gamit, Halpati, Varli, Kukna, Dubla, Vasava, Nayaka and Bhil. Of these an exceedingly greater number of the persons belonging to the first seven tribes are found to reside in this district alone.

On examining the concentration of tribal population within the district it has been found that the tribal population in 14 out of 21 talukas/mahals of the district constitute more than 50 per cent of their total population. The tribal population in Songadh taluka and Uchhal mahal is found to be more than 90 per cent while their number in Mandvi, Vyara, Mahuva, Bansda and Dharampur talukas constitutes more than 75 per cent of the total population within each taluka. Mangrol, Bardoli Chikhli, Pardi and Umbergaon

talukas as well as Nizar and Valod mahals are other areas where the tribal population varies between 50 to 75 per cent of the total population within these talukas/mahals.

The following table gives the figures of Scheduled Tribes in the district.

Population of Scheduled Tribes, 1961

Total/Rural/ Urban	Population	Percentage of total population
1	2	3
Total	**1,224,959**	**49.96**
Rural	1,146,066	60.02
Urban	78,893	14.55

The literate and educated among them number 173,001 or 14.12 per cent of whom 156,747 are returned from rural areas and 16,254 from urban areas.

5 HOUSING

5.1 Housing Census for the first time

In previous censuses, occupied census houses used as dwellings alone were numbered and listed. Non-residential houses such as shops, factories, workshops, temples, mosques, schools, sarais, office premises and business houses, etc., were not entered in the house-list, as it was not necessary to do so for the purposes of enumeration. They have been brought under the purview of the 1961 Census when a regular Housing Census was taken for the first time with a view to account for all structures, dwellings or non-dwellings. With the adoption of a uniform house-list throughout the country, important data such as material of wall and roof, tenure status and number of rooms in case of households, number of persons per room and essential data such as name of the proprietor, products manufactured, number of persons employed and kind of fuel or power, if machinery is used in case of workshops and factories, have been collected for the first time on this occasion.

5.2 Types of Census houses and their uses

The following table gives the distribution of different types of Census houses and the uses to which they are put.

Census houses and the uses to which they are put, 1961

Sl. No.	Type of Census houses	Census houses: Percentage to total No. of Census houses
1	2	3
1	**Total No. of Census houses**	**100.00**
2	Vacant houses . .	6.29
3	Dwellings, shop-*cum*-dwellings workshop-*cum*-dwellings .	78.98
4	Shops and business houses .	2.18
5	Factories, workshops and worksheds . . .	1.20
6	Schools, places of entertainment, medical and social institutions	0.89
7	Hotels, restaurants and other miscellaneous houses . .	10.46

Out of a total of 549,561 houses, 78.98 per cent were used as dwellings, 6.29 per cent were vacant and the rest were used for non-residential purposes such as shops, business houses, 2.18 per cent, factories and workshops (1.20 per cent); schools, places of entertainments and medical and other social institutions (0.89 per cent) and other miscellaneous uses as hotels, restaurants and other places, etc., (10.46 per cent). 81.73 per cent of the households lived in owned houses and the rest 18.27 per cent in rented ones. In urban areas 43.27 per cent of the households live in houses of their own and 56.73 per cent reside in rented houses as against 92.21 per cent living in owned houses and 7.79 per cent living in rented houses in rural areas. The higher proportion of rented houses in urban areas indicates the increased demand of houses on the part of those attracted towards towns. An analysis of the material of wall and roof shows that the predominant materials were grass, leaves, reeds, bamboo and burnt bricks in case of walls and tiles and grass leaves, reeds, thatched etc., in case of roof. The percentage of households having walls with grass, leaves and burnt bricks was 56.12 and 28.88 respectively. Households having roofs covered with tiles, etc., accounted for 53.18 per cent and those with grass leaves, etc., 32.10 per cent.

5.3 Households classified by number of members and rooms occupaid.

The most important classification, however, was one by the number of rooms in the houses occupied by 20 per cent sample households, given in the following table.

Households classified by number of members and number of rooms occupied, 1961

(Based on 20 per cent Sample)

No. of rooms	Percentage to total households	Percentage to total members
1	2	3
No regular room .	1.35	1.16
1 room . .	62.39	58.04
2 rooms . .	24.91	26.45
3 rooms . .	6.76	8.02
4 rooms . .	2.29	2.95
5 rooms or more .	2.30	3.38

According to this classification 62.39 per cent of the households lived in houses with one room, 24.91 per cent in houses with two rooms, and 11.35 per cent only in houses with more than two rooms. The population in the first two categories jointly account for 84.49 per cent of the total sample population. The number of members per room in households occupying houses with one room was 5.07 while that for households living in houses with 2 rooms was 2.89. These figures amply reflect growing overcrowding and the inadequate housing facilities in the district as in the State as a whole.

5.4 Housing Societies

With a view to relieve the shortage of housing accommodation, Government has been helping the formation of Co-operative societies throughout the State. In Surat district by the end of 1960-61, there were 269 Co-operative housing Societies with 9,930 members and a share capital of Rs. 5.5 lakhs. Under the Industrial Housing Scheme formulated by Government 5,237 tenements were constructed in the district during the Second Five Year Plan.

6 AGRICULTURE

6.1 Land Utilisation

The utilisation of land resources forms a major item in any programme of economic planning in an economy which is predominantly agricultural. It reveals the various uses to which land is put and also indicates improved ways of exploitation of its resources for better production.

Land utilisation, 1956-57 and 1960-61

Sl. No.	Item	1956-57 Area in acres	1956-57 Percentage to total area	1960-61 Area in acres	1960-61 Percentage to total area
1	2	3	4	5	6
1	**Total geographical area**	**2,632,500**	**100.00**	**2,857,500**	**100.00**
2	Area under cultivation	1,673,700	63.58	1,840,500	64.41
3	Area other than cultivation	958,800	36.42	1,017,000	35.59
(i)	Cultivable waste, permanent pastures and other grazing lands	329,800	12.52	359,800	12.60
(ii)	Other uses	629,000	23.90	657,200	22.99

Note:

The figures for the year 1956–57 are for the district as constituted then and not as constituted in 1961. Further details are available in Official Statistics Table 3.1 published in Part II of this Handbook.

Comparison between the previous years is not possible (i) in view of the changes in classification of land utilisation and (ii) territorial changes in the district. In 1960-61 the area under cultivation was 1,840,500 acres, i.e., 64.41 per cent of the total geographical area and that put to uses other than cultivation was 1,017,000 acres, i.e., 35.59 per cent of the total geographical area. Of the latter, 359,800 acres is cultivable waste, permanent pastures and other grazing lands and 657.200 acres put to other uses.

6.2 Cropping Pattern

The changes in the cropping pattern during the quinquennium can be seen from the table on next page.

Percentage of area under different crops during 1955–56 and 1960–61

	Crop	1955–56	1960–61
	1	2	3
1	Rice . . .	14.02	16.78
2	Wheat . . .	0.94	1.43
3	Jowar . . .	11.38	12.78
4	Bajri . . .	0.21	0.20
5	Other cereals . .	6.53	5.76
	Total cereals . .	*33.08*	*36.95*
6	Tur	2.45	2.56
7	Gram . . .	0.59	0.57
8	Other pulses . .	6.93	7.02
	Total pulses . .	*9.97*	*10.15*
9	Sugarcane . . .	0.19	0.47
10	Fruits and Vegetables (excluding potatoes) .	1.95	2.35
11	Condiments and Spices .	0.06	0.48
12	Other food crops . .	0.14	..
	Total food crops	**45.39**	**50.40**
13	Groundnut	1.97	4.32
14	Sesamum	0.04	0.07
15	Castor seeds	0.36	0.44
16	Other oil seeds	0.39	0.43
	Total oil seeds	*2.76*	*5.26*
17	Cotton	26.12	20.06
18	Other fibres	0.15	0.18
	Total fibres	*26.27*	*20.24*
19	Tobacco	0.04	0.01
	Total drugs and narcotics	*0.04*	*0.01*
20	Other non-food crops	25.54	24.09
	Total non-food crops	**54.61**	**49.60**
	Total area under crops	**100.00**	**100.00**

Details as to area and outturn for the years 1950-51 to 1960-61 for the above crops are available in Official Statistics Table 3.2 in Part II of this Handbook.

The principal food crops of the district are rice, jowar, while cotton, groundnut and castor-seeds are the main non-food crops. Sugarcane which has been recently introduced in the district is also worth mentioning. Besides these crops the district is well known for fruit cultivation like chiku, mangoes, and bananas. A comparative reading of the percentage distribution of different crops indicates that more and more area is brought under rice, jowar, fruits and vegetables with the result that the area under food-crops has increased from 45.39 per cent in 1955–56 to 50.40 per cent in 1960–61 with a corresponding loss of 5.01 per cent under non-food crops. Area under oil-seeds and especially under groundnut has risen while that under cotton has decreased from 26.12 per cent in 1955–56 to 20.06 per cent in 1961. During 1960–61 among food crops, rice and jowar accounted for 29.56 per cent of the total cropped area and among non-food crops cotton and oil-seeds together occupied more than 25 per cent of the total cropped area.

7 LIVESTOCK

7.1 Livestock

According to the livestock censuses of 1951, 1956 and 1961, the cattle population of the district is found to be distributed as under.

Livestock 1951, 1956 and 1961

Categories of livestock	1951	1956	1961
1	2	3	4
Total livestock	**1,115,450**	**1,136,308**	**1,168,776**
A Bullocks and Cows	673,550	668,497	719,362
1 Males over 3 years	293,517	295,387	322,512
2 Females over 3 years (in milk)	187,823 (78,453)	181,363 (70,440)	195,759 (72,331)
3 Young stock	192,210	191,747	201,091
B Buffaloes	194,917	202,994	201,768
1 Males over 3 years	16,623	17,394	15,829
2 Females over 3 years (in milk)	115,877 (65,347)	110,736 (65,197)	113,828 (60,478)
3 Young stock	62,417	74,864	72,111
C Sheep	25,030	29,377	26,473
D Goats	215,393	228,361	211,162
E Horses and Ponies	5,246	4,702	4,085
F Mules	N.A.	2,377	202
G Donkeys	1,314	N.A.	1,568
H Camels	N.A.	N.A.	16
I Pigs	N.A.	N.A.	4,140

N.A.—Not available

The livestock in the district has increased from 1,115,450 in 1951 to 1,136,308 in 1956 and to 1,168,776 in 1961 registering an increase of 4.78 per cent during 1951-61, mainly due to the increase in the number of bullocks, cows and buffaloes. Cows and bullocks have increased during this period by 6.80 per cent. The number of cows has increased by 4.22 per cent but a small decrease of 7.80 per cent is observed in case of milch cows. The number of bullocks and young stock has also increased by 9.88 and 4.62 per cent respectively. With an over-all increase of 3.51 per cent noticeable in case of buffaloes, the number of milch buffaloes has shown a decline by 7.49 per cent. The young

stock of buffaloes has, however, increased by 15.53 per cent. Among other livestock, the sheep and donkeys have increased during the decade while goats, horses and ponnies have registered a decrease of varying degrees in their numbers.

7.2 Agricultural Tools and Implements

The number of 149,516 wooden ploughs in 1951 declined to 131,211 in 1956 and then rose to 167,142 in 1961. Iron ploughs which numbered 2,658 in 1951 decreased to 2,358 in 1956, but rose to 4,437 in 1961. The number of carts in 1951 were 92,597 which declined to 79,245 in 1956, but rose to 96,916 in 1961. Number of sugarcane crushers and oil engines in the district increased from 497 and 3,439 in 1956 to 980 and 3,588 respectively in 1961. An abnormal increase in the number of electric pumps from 146 in 1956 to 1,201 in 1961, reflects the changes in the irrigation pattern of the district. The number of tractors rose from 63 in 1951 to 75 in 1956 and to 176 in 1961 which is indicative of mechanised form of cultivation being adopted by the cultivators. Oil ghanis showed a fall in their number from 266 in 1956 to 200 in 1961. The increase in the number of ploughs-iron as well as wooden, oil engines, electric pumps, tractors, etc., indicates the adoption of improved agricultural practices by the farmers of the district.

7.3 Animal Husbandry and Veterinary Aid

There were 20 veterinary dispensaries in the district one in each taluka/mahal except in Palsana mahal. Besides these dispensaries, Key Village Centres were established in the villages of Navsari, Bardoli, Mahuva, Palsana, Valod, Vyara, Songadh, Mangrol, Olpad, Mandvi and Dharampur taluka/mahals for supplying better breed of livestock. 127 pedigree bulls of Kankrej breed and 47 cows were supplied through these centres during the Second Five Year Plan over and above 178 bulls supplied during the First. One gaushala was also selected for undertaking the work of breeding livestock by better type of bulls, etc., and was also given financial assistance in the work.

7.4 Fisheries

With a coast line of about 100 miles in length, the district has 20 fishing centres with a total population of 188,976 persons. These centres had on 31-3-1961, 1,060 fishing boats consisting of 1,013 non-mechanised and 47 mechanised. There were 11 fishermen's primary co-operative societies in these centres with a total membership of 3,138 during 1960-61. The important species of fisheries found are Bombay duck, prawn, catfish, mullet, ghol, dara and pomfrets. The annual production of these fishes in the district is 5.6 lakh B.Mds., their value being Rs. 131.50 lakhs. Efforts are being made to develop fishing industry by supplying equipment and mechanised crafts, etc., to the fishermen. Two fishery schools, one at Kolak started in 1949 and the other at Umarsadi in 1950 are functioning in the district.

8 IRRIGATION

8.1 Principal Sources of Irrigation

The principal sources of irrigation in the district were wells and Government Canals which provided irrigation facilities to 25,800 acres (52.87 per cent) and 15,100 acres (30.94 per cent) respectively during 1960-61. Tanks were also one of the minor sources of irrigation in the district.

8.2 Area Irrigated

The percentage of net area irrigated to net area sown for the district has shown an increase from 1.1 per cent in 1950-51 to 2.7 per cent in 1960-61. Out of 1,840,500 acres of net area sown during the year 1960-61, 48,800 acres of land were irrigated.

8.3 Irrigation Projects

The important irrigation projects of the district taken up during the First and Second Five Year Plans were (i) the Kakrapar Project and (ii) the Ukai Project. The Kakrapar Project taken up in 1949, is a major project which provides for a masonry pick-up weir 2,038 feet long and 30 feet above river bed across the Tapi at Kakrapar and is estimated to have the irrigation potential of 5.62 lakh acres. More than 3 lakh acres of the land have been brought under its command by the end of 1960-61. The Ukai Project is a multipurpose project which envisages the construction of a reservoir across the Tapi

river at Ukai and will provide a good storage to the Kakrapar canal system. When completed, it is expected to serve a gross command area of 13.84 lakh acres (including that served by Kakrapar) in Surat and Broach districts.

9 CO-OPERATION

9.1 Co-operative Societies and their types

At the end of the year 1960–61, there were 1,412 co-operative societies with a total membership of 251,049 persons. Of 723 (51.20 per cent) credit Societies in 1960–61, 622 were agricultural and 101 non-agricultural having 134,717 (53.66 per cent) members. The number of housing societies was 269 (19.05 per cent) which had a total membership of 9,930 (3.96 per cent). There were 106 industrial co-operative societies, 81 marketing societies and 67 forest labourer and labour contract societies in the district with membership of 9,776 (3.89 per cent), 41,703 (16.61 per cent) and 13,031 (5.19 per cent) respectively. Besides these there were 13 dairy societies and 41 farming societies with 5,602 and 2,827 members respectively and 33 Consumers' Co-operative Stores.

10 ECONOMIC ACTIVITY

10.1 Definitions

The criterion of income or economic independence was adopted for measuring the economy of the country during the past censuses. On the present occasion emphasis is on the work done or the economic activity pursued by an individual so that all people such as family workers and children who work but do not earn enough for their maintenance are also accounted for as workers. Another important change relates to the presentation of the economic data according to the nine industrial categories of workers and non-workers instead of the eight livelihood classes classified by self-supporting persons and their dependents in 1951.

Status of Employment

Persons doing work other than that as cultivator or agricultural labourer or engaged in household industry have been classified into following four categories.

(i) Employer, (ii) Employee, (iii) Single worker and (iv) Family worker. In view of the wide range of economic data included in this section, it will be useful to define in brief the various terms used.

(*i*) *An Employer* is a person who has to employ other persons in order to perform the nature of work undertaken by him.

(*ii*) *An Employee* is a person who usually works under some other person for salary or wages in cash or kind.

(*iii*) *A Single Worker* is a person who works by himself but not as head of household in a household industry. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually.

(*iv*) *A Family Worker* is a member of the household who works without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season.

Industries are classified as household and non-household. A household industry is defined as an industry which is not run on a scale of a registered factory and conducted by the head of the household himself and/or mainly members of the household at home or within the villages in rural areas and only home in urban areas. Rest of the industries, viz., business, trade, profession or service are non-household industries.

10.2 Distribution of workers and non-workers

The following table gives the distribution of population by workers and non-workers.

Distribution of population by workers and non-workers, 1961

Workers/Non-workers	Persons		Percentage to total population	
	State	District	State	District
1	2	3	4	5
Total Population	**20,633,350**	**2,451,624**	**100.00**	**100.00**
Workers	8,474,588	1,087,749	41.07	44.37
Non-workers	12,158,762	1,363,875	58.93	55.63

The following statement shows the distribution of workers into 9 industrial categories.

Distribution of workers and percentage to total workers, 1961

Sl. No.	Category of workers	Population		Percentage of total workers	
		State	District	State	District
1	2	3	4	5	6
1	As cultivator	4,519,060	484,119	53.32	44.51
2	As agricultural labourer	1,252,000	295,387	14.77	27.16
3	In mining, quarrying, livestock, forestry, fishing, hunting, plantation, orchards and allied activities	104,850	19,201	1.24	1.76
4	At household industry	555,606	49,451	6.56	4.55
5	In manufacturing other than household industry	536,159	75,502	6.33	6.94
6	In construction	90,043	12,597	1.06	1.16
7	In trade and commerce	411,156	39,866	4.85	3.66
8	In transport, storage and communications	159,061	20,809	1.88	1.91
9	In other services	846,653	90,817	9.99	8.35

The population of the district is distributed into workers and non-workers in the proportion of 44.37 per cent and 55.63 per cent respectively. Amongst the working population, cultivators account for 44.51 per cent and agricultural labourers 27.16 per cent only as against 53.32 per cent and 14.77 per cent respectively for the State. The high percentage under the agricultural labour can be assigned to the system of keeping permanent labourers by the cultivators in this district. The striking feature of the economic pattern obtaining in the district as elsewhere in the State is predominantly agricultural as revealed by 71.67 per cent of workers engaged in agricultural pursuits. Next in order are other services (8.35 per cent), manufacturing industry (6.94 per cent) and household industry (4.55 per cent) which together employ (19.84 per cent) of the total workers. 3.66 per cent of the total workers are employed in trade and commerce.

10.3 Class of worker

Industrial classification by sex and class of worker of persons at work in household and non-household industry is shown in details in census tables B-IV-A and B.

Persons at work in household industry

	Persons	Percentage
Total	**49,451**	**100.00**
Employees	7,119	14.40
Others	42,332	85.60

As stated earlier, household industry is run mostly by members of the household, the need for having employees working for salary or wages being negligible.

Persons at work in non-household industry, trade, business, profession or service

	Persons	Percentage
Total	**258,792**	**100.00**
Employers	16,454	06.36
Employees	156,837	60.60
Single workers	64,172	24.80
Family workers	21,329	08.24

It will be seen from the above figures that in non-household industries, trade, business, profession or service, more than 60 per cent of these workers are employees as against 6.36 per cent engaged as employers. Single workers (24.80 per cent) account for nearly one fourth of the workers engaged in these categories whereas family workers account for 8.24 per cent only.

10.4 Principal and secondary work

Principal work : In case of a person who is engaged in more than one productive activity, the principal work is the one on which the person spends most time.

Secondary work : The work which is the next in importance to his principal work which occupies most time is secondary work.

Persons working principally as cultivators, as agricultural labourers or at household industry and following any of these as secondary work as given in Table B-VII Part A are as under:

(A) Persons working principally as cultivators and doing secondary work

(i) at household industry . 5,322

(ii) as agricultural labourers 45,672

Persons working principally as agricultural labourers and doing secondary work

(i) at household industry . 1,158

(ii) as cultivator . . 17,312

Persons working principally at household industry and doing secondary work

(i) as cultivator	4,429
(ii) as agricultural labourer	1,219

(B) In Table B–VII Part B persons working in non-household industry, trade, business, profession or service who are also engaged in household industry are 315.

Persons who are working principally as cultivators and to whom agricultural labour is a secondary activity are proportionally larger, probably due to the fact that small holders of land prefer to take up as agriculture labour as their secondary means of livelihood rather than go for household industry. It is also observed that comparatively a small proportion of workers at household industry work at cultivation to supplement their income. This reveals the smaller extent of interdependence between cultivation and household industry.

10.5 Occupational Classification

The two concepts, viz., industry and occupation are quite distinct, though often mistaken for each other. 'Industry' means that sector of economic activity in which the earner is engaged, e.g., textile industry, automobile industry, whereas the 'occupation' describes the exact function that an individual performs in that economic activity, e.g., fitter, carpenter, etc.

Table B-V in Part II shows the distribution of persons at work other than cultivation. This type of detailed classification based on National Classification of Occupations has been done for the first time in 1961. The percentage distribution for the State and the district is given below.

Percentage distribution of workers according to Occupational Divisions, 1961

Occupational Division	State	District
1	2	3
0 Professional, technical and related workers	5.95	6.04
1 Administrative, executive and managerial workers	2.32	2.33
2 Clerical and related workers	6.41	6.60
3 Sales workers	13.88	11.07
4 Farmers, fishermen, hunter, loggers and related workers	11.73	7.93
5 Miners, quarrymen and related workers	0.58	0.42
6 Workers in transport, and communication occupations	4.24	5.26
7–8 Craftsmen, production, process workers and labourers not elsewhere classified	46.67	50.89
9 Service, sport and recreation workers	7.96	8.77
X Workers not classified by occupation	0.26	0.69

The most important occupational divisions other than cultivation in the State as well as the district are divisions 7–8, craftsmen, production, process workers and labourers not elsewhere classified. The sales workers, constituted 11.07 per cent of the total workers as against 13.88 for the State. The occupational division 9 viz., service, sports and recreation workers, accounted for 8.77 per cent of the total, while farmers, fishermen, hunters, loggers, etc. comprised 7.93 per cent of the total workers. The percentages of the workers in the occupational divisions 0 i.e. professional, technical and related workers and 2 i.e. clerical and related workers were 6.04 and 6.60 respectively. The higher proportion of 5.26 per cent in the district for occupational division 6 relating to workers in transport and communication occupations against the corresponding proportion of 4.24 per cent in the State can be attributed to the greater percentage of persons engaged in seafaring and other allied activities in coastal areas.

10.6 Non-workers

Non-workers account for 1,363,875 persons, comprising of 575,828 males and 788,047 females. The distribution of non-workers by eight broad categories is shown in Table B–IX in Part II. Percentage distribution of non-workers by sex according to their type of activity is shown below for total/rural/urban, 1961.

Distribution of non-workers by sex and type of activity, 1961

Sl. No.	Categories of Non-workers	Total/Rural/Urban	Males	Females
1	2	3	4	5
1	Full-time students	T	35.65	15.97
		R	32.30	14.59
		U	46.18	19.36
2	Household duties	T	00.37	34.78
		R	00.38	28.71
		U	00.32	49.66
3	Dependents, infants and disabled	T	60.83	48.51
		R	65.60	56.22
		U	45.89	29.64
4	Retired, rentiers, etc.	T	01.20	00.58
		R	00.51	00.39
		U	03.33	01.20
5	Beggars, vagrants	T	00.23	00.11
		R	00.15	00.07
		U	00·49	00.20
6	Inmates of penal, mental and charitable institutions	T	00.05	00.02
		R	00.02	00.01
		U	00.15	00.04
7	Persons seeking employment for the first time	T	00.56	00.01
		R	00.35	..
		U	01.21	00.03
8	Unemployed but seeking work	T	01.11	00.02
		R	00.69	00.01
		U	02.43	00.05

The distribution pattern of non-workers among males and females is very dissimilar. Among male non-workers, 35.65 per cent are students and 60.83 per cent dependents, which jointly account for 96.48 per cent as against 15.97 per cent and 48.51 per cent respectively among females. Higher percentage of dependents among males is likewise explained by the general absence of household duties among males who account for 0.37 percent only in this category against 34.78 per cent among females.

The higher percentage of full-time students in the urban sector as compared to rural is, however, explained by the greater consciousness and opportunity townspeople have in the matter of education. The percentage of dependents and infants, etc., in rural areas are found higher when compared with their corresponding percentage in urban areas. The percentage of females engaged in household duties is found to be higher in urban areas than that in rural areas, as womenfolk in villages in addition to their attending to household chores also participate in agriculture and household industry. While the percentage of unemployed but seeking work and those seeking employment for the first time are insignificant for the females and those for males respectively are 1.11 per cent and 0.56 per cent. Here also the percentages for males are found to be much higher for urban areas indicating the concentration of job-seekers in towns.

11 INDUSTRIES AND POWER

11.1 Registered Factories

There were 920 registered factories in the district at the end of the year 1961, employing on an average 40,064 persons daily. Notable amongst these were cotton textiles mills at Surat, dyestuff factory near Bulsar (Atul Products Ltd.,), Co-operative sugar factories at Bardoli and Gandevi, and saw mills at Bansda and Dharampur over and above cotton ginning factories spread all over the district. Besides these establishments, those engaged in producing and repairing parts of textile machinery are also located at Surat. From the point of view of employment offered, with 565 textile units employing on an average 23,729 persons or 59.2 per cent of the total factory employment per day, constitute one of the most important industries of the district. Such a large number of units under the textile group is on account of a large number of powerloom factories engaged in Jari and Silk weaving at Surat. Next in importance were cotton ginning and pressing industry with 39 units which employed 4,129 persons and constituted 10.3 per cent of the total employment in factories. Important amongst the rest were those grouped under metals and minerals, which employed 3,812 persons i.e. 9.5 percent of the total daily factory employment of the district. The Government and Local Fund Factories providing employment to 875 persons per day numbered 16 only.

11.2 Joint Stock Companies

There were 84 joint stock companies functioning on the 31st March, 1961 with authorised capital of Rs. 1,660.77 lakhs and subscribed capital of Rs. 515.39 lakhs. The authorised and subscribed capital per joint stock company was Rs. 19.77 lakhs and Rs. 6.13 lakhs respectively. The joint stock companies classified as processing and manufacturing of (1) food stuff, textiles and leather goods (2) metals and chemicals dominated the joint stock field with a total authorised capital of Rs. 1,343.16 lakhs and subscribed capital of Rs. 421.60 lakhs. While such companies constituted 42.8 per cent of the total number of joint stock companies, their authorised and subscribed capital accounted for 80.9 per cent of authorised and 81.8 per cent subscribed capital of all the joint stock companies floated in the district.

11.3 Banking

There has been a steady increase in the banking facilities available in the district since 1956–57. During 1960–61 the number of scheduled and non-scheduled banks were 24 while Co-operative banks numbered 40. It is interesting to note that co-operative banks which formed only 56 per cent of total banking institutions in the beginning of the First Plan have risen to 62.5 per cent in 1960–61.

11.4 Small Scale Industries

The important small scale industries of the district are jari, cotton and silk weaving and non-ferrous metal work. Jari industry which is mostly concentrated in Surat City is a highly specialised

industry run by skilled artisans for which they are so well known since ancient period. The principal finished products of the industry are jari thread brocade and other embroidered articles and silk brocade called tanchhosi. Weaving industry is more or less spread out in the whole district though Surat, Navsari, Gandevi and Bulsar are important centres. Metal works industry is located at Surat and Gandevi.

There were 174 industrial co-operative societies (including forest societies) with membership of 17,552 persons and share capital worth Rs. 10.18 lakhs. Total sales of these societies amounted to Rs. 92.53 lakhs during 1960–61.

There were six mobile vocational schools in the district for imparting training in the traditional crafts such as carpentry, cane and bamboo works fibre works, weaving, tanning and lacquer work.

11.5 Electricity and Power

Utran Power House owned by Gujarat Electricity Board is the chief source of electric power in the district. The utilisation of electricity has increased substantially during the Second Five Year Plan. From 16,058 thousand K.W.H. in 1950-51, it has gone up to 92,400 thousand K.W.H. at the beginning of the Second Five Year Plan and shot upto 171,147 thousand K.W.H. in 1960–61.

The increasing utilisation of electricity for industrial purpose from 906 thousand K.W.H. in 1950–51 to 43,902 thousand K.W.H. in 1955–56 and to 80,341 thousand K.W.H. in 1960–61 reveals the greater demand of electricity made by industries in recent times.

Table given below gives the pattern of utilisation of electricity in the district in the years 1950-51, 1955-56 and 1960–61.

Units of electricity Generated and sold, 1950-51, 1955-56 and 1960–61

[In Thousand K.W.H]

Year	Kilowatt hours sold to public for: Domestic consumption	Commercial light and small power	Industrial Power	Other purposes	Total utilisation of electricity
1	2	3	4	5	6
1950–51	1,024	905	906	313	*16,058
1955–56	6,809	1,396	43,902	40,293	92,400
1960–61	7,278	4,549	80,341	78,979	171,147

Note :

(1) The information for private licences included in this table relates only to those licences for which the data have been furnished by the Electrical Engineer to Government, P. W. D., Gujarat.

(2) * Includes figures for columns 2 to 5 in case of those private licence holders who have not furnished separate figures for domestic, commercial and industrial consumption and for other purposes.

The foregoing figures show that the pattern of utilisation of electricity has radically changed in 1960–61 as compared to that in the past years.

Under the programme of electrification of villages/towns, 89 villages/towns of the district were electrified during the Second Plan period. These together with those electrified before the Second Plan brought the total number to 106 at the end of 1960—61. 25 more villages were also electrified during the year 1961–62, in addition to 37 villages/towns receiving electricity through private agencies. Thus in all 168 villages/towns in the district were electrified till the end of 1961–62.

11.6 Factories, and Workshops classified by power and no power used

Statistics of census houses used as factories, workshops and worksheds classified by power and no power used have been compiled for the first time during the Census of 1961 and extracted below for the State and district.

Factories and workshops classified by power and no power used, 1961

Power of fuel	Rural/ Urban	State: No. of factories etc.	State: Percentage to total	District: No. of factories etc.	District: Percentage to total
1	2	3	4	5	6
Total	**R**	**34,447**	**100.00**	**4,209**	**100.00**
	U	**45,686**	**100.00**	**8,549**	**100.00**
Electricity	R	1,248	3.62	398	9.46
	U	12,311	26.95	4,651	54.40
Liquid fuel	R	4,687	13.61	533	12.66
	U	1,282	2.81	139	1.63
Coal, wood	R	3,039	8.82	247	5.87
and bagasse	U	3,453	7.56	338	3.95
Other	R	82	0.24	13	0.31
power	U	85	0.18	6	0.07
No power	R	25,391	73.71	3,018	71.70
	U	28,555	62.50	3,415	39.95

The foregoing table is restricted to Census houses used as factories and workshops classified by power and no power used in 1961. Percentage of factories using electricity in total/rural/urban areas of the district is much higher as compared to similar percentages for the State, primarily on account of the use of power in the household industries at Surat and ginning and pressing factories scattered throughout the district. More than half the number of factories in urban areas, were using electrical power as against less than 10 percent of units driven by electrical power in rural areas. The percentage of units using liquid fuel, and coal etc., were correspondingly lower for the district as compared to their percentages in the State. The proportion of fuels other than electricity is observed to be higher in villages than in towns. The proportion of units using no power in the district was 50.42 per cent as against 67.32 per cent in the State indicating a greater use of mechanical power in the industrial units of the district than those in the State.

12 TRANSPORT AND COMMUNICATIONS

12.1 Roads

The total road mileages in the district have steadily increased from 1,685 in 1950-51 to 1,842 in 1955-56 and 1,960 in 1960-61, thus registering an increase of 16.32 per cent during the decade. Of the total roads in the district during 1960-61, National Highway No. 8 measured 108.49 miles or 5.54 per cent, State Highways 267.07 miles or 13.64 per cent, while other district roads covered 936 miles or 47.75 per cent and village roads 648.41 miles or 33.08 per cent. The average length of metalled roads per 1,000 square miles stood at 154.02 and 3.06 miles per 10,000 of populations the corresponding figures for non-metalled roads being 247.9 and 4.93 miles.

12.2 Railways

Out of 21 taluka/mahals of the district, 17 taluka/mahals of the district are connected with railways, but the railway lines pass through only 12 taluka/mahal headquarters. The other five taluka/mahal headquarters viz., Bansda, Mahuva, Palsana, Olpad and Valod are away from the railway lines.

The following branch lines of the Western Railway pass through the district:-

(i) Bombay-Delhi
(ii) Surat-Bhusaval (Tapi-Valley Railway)
(iii) Kosamba-Umberpada
(iv) Bilimora-Waghai

The length of broad gauge and metre gauge railway lines passing through the district was 158.00 and 74.50 miles respectively during 1960-61. There were in all 56 railway stations on these lines. The proportion of railways per 1,000 sq. miles and per 10,000 of population were 47.68 and 0.94 miles respectively.

12.3 Ports

Out of 10 ports situated in this district, Surat is the only intermediate port; other 9 ports are minor ports. Surat port situated roughly 14 miles inland from the Arabian Sea on the east bank of the Tapi river was an important shipping centre which lost its importance due to the growth of Bombay as a major port. The port at present caters to the sailing craft traffic except during the south-west monsoon. Though no steamers call at Surat at present there is a recognised anchorage for steamers near the mouth of the river Tapi having a depth of about 39 to 42 feet below low water ordinary spring tide. The annual traffic handled at Surat is about 20,000 tons, mainly consisting of coastal imports in onions, tiles, cocoanut, building stones and coastal exports in timber, bamboo, cotton, cottonseeds and oil cakes. With the development of an Industrial

Estate at Udhana about 2 miles away from Surat, the volume of traffic handled at this port is likely to increase.

The sailing craft calling at the port of Surat experiences difficulties in negotiating the 9 sand bars between the sea and Surat. As the present port site at Surat is ill-suited for future expansion, Magdalla, situated at a distance of 6 miles away from the sea and 8 miles down stream of Surat, has been selected as a suitable site for development as a sailing vessel-*cum*-lighterage port. This site has been chosen as the stretch of the river is both stable and fairly deep to allow sailing vessels of 8 feet draft during any day of the year at high tides. The minimum depth of water at this point and about a mile on either side in the lowest tide is 18 to 20 feet with a range of spring tide of 14 feet. The work of the construction the 100 feet long R.C.C. piled jetty, has been carried out as a spill over work of the Second Five Year Plan and a further provision of Rs. 12.10 lakhs has been made during the Third Five Year Plan for further development of the port.

The imports and exports handled at the various ports in the district during 1950-51, 1955-56 and 1960-61 are given below:-

Volume of Imports and Exports Handled at the Ports of Surat District

[in tons]

Sl. No.	Ports	1950-51	1955-56	1960-61
1	2	3	4	5
	All ports	**58,775**	**88,902**	**59,332**
1	Surat	14,167	11,203	17,570
2	Bhagwa	1,726	1,900	2,170
3	Onjal	1,115	1,540	863
4	Vansi-Borsi	..	4,051	3,471
5	Bilimora	19,557	20,371	11,904
6	Bulsar	5,746	29,022	14,385
7	Umersadi	7,740	9,666	2,618
8	Kolak	8,481	8,805	1,905
9	Maroli	243	116	275
10	Umergaon	..	2,228	4,171

All the traffic as shown above originated from coastal vessels only and none of these ports handled foreign or steamer traffic. Surat, Bilimora and Bulsar are the important ports of the district which during 1960-61 handled 43,859 tons or 73.92 per cent of the total volume of cargo handled at the ports of the district. The major items imported at these ports are building materials, fish, animals and salt, while cotton seeds, food grains, timber and fire-wood constitute the major items of exports. Bilimora and Bulsar which handled the maximum traffic during 1950-51 and 1955-56 respectively were out-beaten by Surat in 1960-61 when 17,570 (29.61 per cent) tons of total traffic was handled at that port. The traffic handled at Bilimora and Bulsar during 1960-61, however, constituted 44.31 per cent of the total traffic handled during the year.

12.4 Post and Telegraph

During the year 1960-61, there were 638 post offices, 682 postmen and 1,175 letter boxes in the district. The number of telegraph and telephone offices was 44 and 41 respectively. On an average there was one post office for 3,842 persons, while each postmen served 3,594 persons of the district.

13 MEDICAL AND PUBLIC HEALTH

13.1 Medical Institutions

During 1961, medical facilities in the district were provided by the State through 27 medical institutions, which included 7 hospitals, 7 allopathic dispensaries, 11 rural health centres and 2 Ayurvedic dispensaries. The number of beds in these institutions was 245 and the number of indoor and outdoor patients treated therein was 7,032 and 330,345 respectively.

13.2 Vital Statistics

The statement given below shows vital statistics of the district for the year 1957-60.

Birth Rate, Death Rate and Natural Increase in Population, 1957-60

Year	Birth rate	Death rate	Rate of natural increase in population
1	2	3	4
1957	35.2	14.3	20.9
1958	34.0	15.6	18.4
1959	38.0	12.8	25.2
1960	36.8	13.5	23.3

The data on vital statistics available being incomplete and defective are useful for drawing general conclusions only. They indicate a fall

in the death rate and rise in the survival rate which can be reasonably attributed to improvement in medical and health facilities since Independence.

13.3 Health Centres

The different public health measures to check the incidence of various diseases in the district include opening of primary health centres, and child welfare centres, B.C.G. and malaria vaccination and re-vaccination, introduction of malaria and filaria control scheme, and establishment of family planning centres. During 1960–61, 2,388,088 persons were covered in different rounds for protecting the population from malaria. 830 persons in Bansda taluka were vaccinated with B.C.G. vaccine as a measure of protection against the attack of tuberculosis. A unit working under the scheme for filaria control has been established in the district since March 1958. Under this scheme, the unit was entrusted with the work of removing the mosquitoes carrying the disease besides vaccination for preventing spread of the disease. The survey to estimate the number of persons affected by the disease has revealed that the disease was present in Surat, Bulsar and Bilimora and the villages surrounding these cities. A D.D.T. spraying programme is undertaken in the selected areas of the district for giving protection against malaria. The results of these various measures can only be visible after a period of about five to seven years.

Under the programme of providing medical relief through Primary Health Centres in rural areas, 2 Maternity and Child Welfare centres and 11 rural health centres were started in the district by 1961. The number of patients treated in rural health centres and maternity and child health centres during 1961 was 66,530 and 8,183 respectively, while 3,327 persons were benefited by eight family planning centres working in the district.

13.4 Water Supply

In order to provide drinking water facilities to towns and villages of the district, urban and rural water supply schemes were prepared and taken up during the first two plan periods.

(*a*) *Surat City Water Supply Scheme:*

Under the scheme, a surface purification plant is already erected, while the work of laying distribution lines is in progress. It is estimated that the scheme when completed will be able to provide 30 gallons of water per head of population in the city. A scheme for providing drainage facilities to the city has also been undertaken during the First Five Year Plan. It is proposed to erect pumping stations and tanks besides laying pipelines for carrying night soil etc. for the drainage purposes at an estimated cost of Rs. 133.40 lakhs.

(*b*) *Navsari Water Supply Scheme:*

Under this scheme estimated to cost Rs. 11.25 lakhs, a pump house equipped with suitable pumping machinery is installed on the bores of 10" and 12" diameters. The scheme when completed is expected to provide 30 gallons of water per head of its population of 60,000.

Bulsar Water Supply Scheme:

Under the scheme, a weir across the river Auranga is constructed. The scheme proposes to purify water by constructing jack well and intake well at suitable places. The water so purified will be collected in the underground tank for distribution through pipelines. The scheme estimated to cost Rs. 36.82 lakhs when completed will be able to supply water to a population of 50,000 persons.

Rander Water Supply Scheme:

Under the scheme, an expenditure of Rs. 1.44 lakhs was incurred for constructing an underground storage tank, with a pump house installed over it.

Village Water Supply Scheme:

Besides these urban waters upply schemes, the following village water supply schemes, have also been taken up during the first two plan periods.

Details of village water supply scheme

	Name of the scheme	Estimated cost [Rs. in lakhs]
(1)	Umrakh water supply scheme	0.52
(2)	Tundi water supply scheme	0.63
(3)	Akoti water supply scheme	0.73
(4)	Pardi water supply scheme	0.62
(5)	Kamalchhod water supply scheme	0.70
(6)	Palsod water supply scheme	0.53
(7)	Varad water supply scheme	0.96

The detailed maps and estimates in respect of certain other schemes to ensure water supply to Bardoli, Bilimora, Gandevi, Shampura, Bagumara, Vyara, Kadod, Valod, Rayam, Kalayawadi and Kathor have also been prepared.

14 LABOUR AND SOCIAL WELFARE

14.1 Employment Exchange

During the year 1960 there was one Employment Exchange functioning at Surat. The number of registrations in the exchange during the year was 12,358 and the number of placements 1,423. The scheme of collection of Employment Market Information was also implemented during 1958 for studying the occupational distribution of manpower, its demand and supply at present and at future dates, prospective employment in different seetors, etc. Youth Employment Service started in 1960 is entrusted with the work of disseminating information, and advising and assisting the youths in choosing their vocations.

15 PRICE TRENDS

The average retail prices of important staple foodstuffs during each calendar month of 1961 collected for Surat, the district headquarters town, are given in Table 16.1 in Part II of this Handbook.

The price of rice and jowar which reached their maximum during March gradually declined during the later months of the year. The price of wheat fluctuated during the whole year, while that of bajri remained at about Rs. 0.51 except during the months of June, July and August. Arhar (Dal) reached the highest level in April while *moong* (a kind of pulse) recorded the highest price in August.

16 COMMUNITY DEVELOPMENT

16.1 Community Development Programme

The Community Development Programme, a unique and bold effort to mobilise public enthusiasm and cooperation in rebuilding the rural economy of India was inaugurated in the district in January 1954. Songadh project was first Community Development Project taken up in the district. The programme since then has undergone various organisational changes as a result of the recommendations of the Balawantray Mehta Committee, appointed by the Planning Commission in 1957 to examine the working of the C.D. programme and related matters and to recommend measures for improving the quality, tone and content of the programme. In pursuance of the recommendations of this committee the existing distinction between N.E.S. stage, intensive development stage and the post-intensive stage was abolished with effect from 1-4-1958. All the blocks under the All India programme except blocks in the C. D. stage which had not completed there three years' period on 1-4-58 were classified into stage I and stage II blocks with revised financial patterns and periods of operations. The Community Development Blocks, on completing their period, will enter stage II. A stage I block has a five year period of operation with a ceiling of expenditure of Rs. 12 lakhs for this period. It is "The Intensive Development phase in which people's participation would be promoted as the method of Community Development and panchayats will be intimately connected with the formulation of the Plans for their respective areas. The degree of success attained in the First Stage will be the evidence of the growth and functioning of self-reliant rural communities, which is the basic objective of the programme". Stage II of the programme with a provision of Rs. 5 lakhs for five years will seek to intensify the operation of the method of Community Development in its fuller amplitude and will have greater emphasis on Community Development rather than on Development Programmes as such.

16.2 Coverage of Programme

The following table gives the type, area, villages and population covered under the programme by March 1961.

Coverage under Community Development Programme by type of Block

Name of block	Date of inauguration Stage I	Stage II	No. of blocks of C.P.A. pattern	Area covered in sq. miles 1961	No. of towns and villages covered	Population
1	2	3	4	5	6	7
Stage II Blocks						
Songadh	Jan. '54	April '58	1.00	445.1	182	76,870
Navsari	Oct. '54	Oct. '60	2.00	285.2	141	225,720
Palsana	May '56	April '61	0.75	77.4	49	41,807
Chikhali	Oct. '56	Oct. '61	2.00	218.0	85	139,986
Stage I Blocks						
Bansda	April '57		1.00	229.7	95	92,352
Dharampur	Oct. '57		1.25	105.9	42	46,394
Mangrol	April '58		1.00	385.2	150	95,367
Umbergaon	,, '58		1.25	143.3	50	95,973
Pardi	,, '60		1.50	172.4	82	130,898
Vyara	,, '61		1.50	160.0	75	89,286
Gandevi	Oct. '61		1.50	142.3	57	130,304
Olpad	Oct. '61		1.00	252.1	102	79,444
Special Multi-purpose Block						
Dharampur	April '57		1.00	95.9	39	25,776

At the end of the year October 1960–61, there were 8 Stage I Blocks, 4 Stage II Blocks and one special multi-purpose Block in the district. These 13 blocks covering 10 talukas and 2 mahals of the district included 1,140 villages and 9 towns with a population of 1,244,401 persons. Besides this, the talukas of Mandvi, Kamrej, Bardoli, Mahuva, Chorasi and Bulsar as well as Uchhal and Nizar mahals were also covered by Pre-Extension Blocks.

17 FIVE YEAR PLANS

17.1 Decade 1951–61 roughly corresponds to the First and Second Five Year Plans. The following table gives the plan provision as well as the expenditure incurred during the Second Five Year Plan period according to the major heads.

Outlay and expenditure under the Second Five Year Plan 1956-57 to 1960-61 [*Rs. in lakhs*]

Head of the Development	Plan Provision	Expenditure incurred
1	2	3
Agriculture and community Development	448.73	228.18
Irrigation and Power	1,000.00	864.97
Industry and Mining	N.A.	57.11
Transport and Communications	158.07	190.71
Social Service	57.59	85.44
Miscellaneous	N.A.	1.03
Grand Total	**1,664.39**	**1,427.44**

Note: (i) N.A. = Not Available
(ii) Figures are provisional

Achievements

A brief review of the plan schemes included in the Second Plan of Surat district is given in the following paragraphs.

17.2 Agriculture and Animal Husbandry

The schemes included under agriculture, envisaged among others establishment and maintenance of taluka seed farms, subsidised distribution of superphosphate, development of fruit production and establishment of agricultural experimental station at Pardi.

During the Second Plan period, taluka seed farms were started at Olpad, Vyara, Ganasda, Valod, Chalthan, Andhatri, Vedchha, Barolia, Nani Bhamti and Chanvai. The types of improved seeds distributed through these centres were as under:–

Name of the quality	Quantity [in B. mds.]
Paddy Z–31	3,198–00
Paddy Kada 176–12	6,100–00
Paddy K. 42	81–00
Kharif Jowar B. P. 53	1,892–00
Wheat Kenfad	228–20
Wheat N. P. 718	735–00
Wheat Arnej 206	261–00

Under the scheme for the distribution of chemical fertilisers, 5,119 tons of super phosphates, 16,622 tons of ammonium sulphate, and 905 tons of urea were distributed along with other types of fertilisers. An additional area of 26,867 acres were brought under green manuring and 113,984 tons of town compost was also prepared. 15,119 acres were brought under sugarcane development programme while 33,444 improved implements were distributed during the period. The expenditure incurred towards all schemes under the head of agricultural production during the Second Five Year Plan was Rs. 21.23 lakhs.

The scheme of Package Plan has been introduced in the district from 1st April 1961 under which additional staff has been appointed for guiding the farmers, preparing village and farm projects, popularising widespread use of fertilisers, organising credit supplies and marketing facilities and arranging supplies of improved implements, insecticides and seeds. These measures are expected to yield an additional production of 1.48

lakh tons of food-grains during the Third Five Year Plan.

The scheme included under the sub-head of minor irrigation for which an amount of Rs. 13.69 lakhs were spent, envisaged repairs and construction of tanks and wells besides giving loans for the purchase of oil engines and pumping sets. Under these schemes, 518 new wells were constructed and 121 old wells were repaired during the Second Five Year Plan. The village water supply schemes were also included under this head.

The expenditure incurred towards the scheme of consolidation of land holdings during the Second Plan was Rs. 45,566. During this period, consolidation work was completed in 40 villages, of Olpad taluka and Valod mahal.

The schemes relating to animal husbandry envisaged establishment of cattle breeding centres, supply of breeding bulls, improvment of pastures and grazing lands, establishment of Goshalas, vaccination against cattle disease and poultry breeding. The expenditure incurred towards all these schemes during the Second Plan was Rs. 54.55 lakhs. Cattle breeding centres were established in different villages of Palsana, Valod, Vyara, Songadh, Mangrol, Olpad, Mandvi and Dharampur talukas. 247 cows and 871 buffaloes were artificially inseminated. 465 bulls were castrated and 15,118 animals were vaccinated during this period.

The schemes relating to forest envisaged maintenance of wet nurseries, planting of agave hedges, pruning and infection of lac for extensive cultivation, maintenance of planted area under afforestation, expansion of staff, and construction of residential quarters for forest staff. Out of the plan provision of Rs. 1,246,405 for these schemes and expenditure of Rs. 932,007 was incurred. By the end of the Second Five Year Plan agave hedges were planted over 131 miles and 1,350 acres were covered under cashewnut plantation. Match wood plantations were carried out in 250 acres as against the target of 400 acres.

17.3 Co-operation

The schemes relating to co-operation envisage opening of a branch of Land Mortgage Bank with adequate financial assistance with a view to providing short term, medium term and long term loans, granting subsidies to existing societies, organising new service and other societies, and contributory share capital and subsidies to these societies. The Second Plan provision for the schemes was of the order of Rs. 26,180,010 and the expenditure incurred was Rs. 21.31 lakhs.

During the Second Plan period, 163 small-sized societies were organised and 171 credit societies were converted into service co-operatives. Three new branches of the District Co-operative Bank and 4 branches of the District Co-operative Land Mortgage Bank were opened. Rs. 1.68 crores were given as medium term loans, while Rs. 16 lakhs and Rs. 14 lakhs were distributed as short term and long term loans respectively. Share capital contribution to the tune of Rs. 119,500 was given in addition to the distribution of Rs. 264,885 as subsidies during this period.

Irrigation and Power

The important irrigation projects included in the Second Five Year Plan of the district are (1) Kakrapar Project and (ii) Ukai Project which together are expected to serve a gross command area of 13.84 lakh acres in Surat and Broach districts. An amount of Rs. 865.34 lakhs were spent on both these schemes out of the plan provision of Rs. 1,000 lakhs.

17.4 Industries

A number of schemes for the development of industry in the district were taken up during the Second Five Year Plan. The chief among them were (1) grant of loans to small-scale and cottage industries (2) organisation and grant of financial assistance to labour contract societies and forest labourers' societies (3) establishment of co-operative sugar factories (4) establishment of industrial estate and (5) organisation of dyeing and printing schools. For all the schemes included under this head, a total amount of Rs. 5,711,150 was spent during the Second Plan period.

Industrial Co-operatives which numbered 55 in June 1951 increased to 174 at the end of the Second Five Year Plan. The different industries covered by these societies are handloom, khadi and village industries, wool weaving, leather

tanning and carpentry, smithy and cane and bamboo work. The forest labourers societies in the district rose from 12 to 55, while the number of labour contract societies from 2 to 12 during this period. Financial assistance of Rs. 20.52 lakhs was given to 110 individuals, and Rs. 2.34 lakhs invested as Government contribution towards the share capital of 21 industrial co-operatives. Four industrial schools imparting tranining in (i) dyeing and printing (2) cané and bamboo work (3) silk work and (4) carpentry and lacquer work were also started. 15 students are given training in each of these schools.

Under the scheme of establishing Industrial Estate in each district of the State, one Industrial Estate has been established at Udhana, 2 miles away from Surat. Under the scheme which is being executed through Udhana Udyognagar Sahakari Sangh Ltd., 72 sheds have been constructed by the end of December 1961 and 32 more were under construction. Ninety-six factories employing 1,040 workers daily have started working in the Estate. Government had given as loan an amount of Rs. 15.80 lakhs for the construction of this Estate. It is also proposed to start two other Industrial Estates at Pardi and Umbergaon or Vapi during the Third Five Year Plan.

17.5 Transport and communications

For the schemes relating to development of roads and bridges an expenditure of Rs. 180.59 lakhs was incurred during the Second Plan period. Under these schemes about 86 miles of State roads were constructed while 193 miles of other roads were converted into cement concrete and asphalt. Besides these, district roads measuring 156 miles were constructed at the cost of Rs. 63.50 lakhs. The total road mileages in the district has thus increased to 1,959 miles at the end of the Second Plan. The work of constructing the bridges at various places in the district was also undertaken and 40 bridges were completed, till the end of the Second plan while the works of other 10 bridges are nearing completion.

Besides improving the port facilities at Surat and Magdalla, provision has been made for the construction of R.C.C. jetty at Bilimora, R.C.C. jetty and special repairs to groynes at Bulsar and ramp at Umbergaon to facilitate the traffic handled at these ports. Rs. 7.15 lakhs have been spent during the Second Plan for executing these works in addition to an expenditure of Rs. 2.98 lakhs incurred for providing facilities at Surat and Magdalla.

17.6 Social Services and Welfare of Backward classes

Important Schemes under this head were (1) introduction of compulsory primary education, (2) payment of increased grants to secondary schools, (3) starting of multi-purpose schools, (4) liberalised grants for building and equipments to non-government secondary schools and (5) providing hostel facilities and loan scholarships to students in secondary schools. A number of other schemes like expansion of NCC and ACC, propagation of Hindi, organisation of youth service co-operative societies, etc. were also taken up. Against a total provision of Rs. 57.48 lakhs made for all these scheme, an expenditure of Rs. 33.55 lakhs was incurred during the plan period.

Compulsory primary education for children between the age group 7 to 11 was gradually introduced in the district during this period. 593 more teachers were appointed in primary schools of the district, while 272 primary schools were constructed, besides converting 71 primary schools into basic. In 1955-56 there were 3 primary teachers' training colleges in the district. With the addition of two government training schools and 3 non-government training schools during the Second Plan period, there are at present 8 such institutions in the district.

During the First Five Year Plan three secondary schools of the district were converted into multi-purpose schools, while four others were converted during the Second Five Year Plan. One more government school at Abrama was also converted in multi-purpose school during this period. A sum of Rs. 1.22 lakhs was paid to 17 non-government secondary schools for constructing school buildings and Rs. 27,950 as equipment grants to 61 non-government secondary schools.

Health

Under this head, the work of constructing the government hospital at Navsari was completed; number of beds in the hospital was raised to 52; and the hospital was provided with modern

equipments. A maternity home was constructed and annexed to the hospital at Kathor while the maternity home at Gandevi was supplied with modern equipments under this scheme. Trained laboratory technicians were appointed in x-ray laboratories at State hospital of Dharampur and cottage hospital at Abrama. In order to provide medical facilities to the Scheduled Castes and Scheduled Tribes of the district mobile van service was introduced at Vyara, Bansda and Vankal during the Second Five Year Plan. A fourth class dispensary was also started at Ukai.

With a view to check the spread of leprosy, one leprosy centre was started at Bulsar with five sub-centres in the area, serving a population of 60,000 persons. Seven other centres have also been set up in the talukas of Bansda, Pardi, Gandevi, Navsari and Valod mahal for check up and treatment of this disease.

Social Welfare

Under the schemes for the welfare of backward classes 26,951 backward class students were granted tution and examination fees. Grants to the tune of Rs. 326,722 were given to the hostels for backward classes for enabling their inmates to stay in the hostels. 3 other hostels which gave admissions to the backward class students alongwith other students were also given grants of Rs. 31,041 during this period. Under the scheme for their economic uplift, assistance was given in the form of purchasing poultry, goats, plough bullocks, seeds, implements, carts, sugarcane crushers and oil pumps. Schemes for providing health and housing facilities to these persons were also implemented. A total amount of Rs. 20.59 lakhs was spent under this head during the Second Plan period.

17.7 Small Savings

Increasing emphasis has been laid on mobilisation of small savings to augment the national resources for financing the development programme. This district though mostly inhabited by Adivasis, had exceeded its targets of small savings during 1959-60 and 1960-61. It is interesting to note that the major part of investment for small savings of this district came from rural areas. In the year 1960-61, it had collected Rs. 22.43 lakhs as against the target of Rs. 150.00 lakhs

Collections made in the district are given below for the year 1960-61.

Target and Net collection of Small Savings 1960-61

[Rs. in lakhs]

Sl. No.	Nature of Savings	Target fixed	Net Collection
1	2	3	4
1	Savings Certificates	N.A.	182.41
2	Post Office Saving Bank Deposits	N.A.	20.30
3	Treasury Saving Deposit	N.A.	18.32
4	Annuity Certificate	N.A.	0.63
5	Cumulative Time Deposit	N.A.	0.77
	Total	**150.00**	**222.43**

18 IMPORTANT PLACE NAMES

18.1 Important Places

Important place in the district are :

Atul — An Industrial township situated in the vicinity of Bulsar. Atul products are famous for their pharmaceuticals and dyestuffs. Lederle has also established pharmaceutical factories at Atul.

Bardoli — Famous for the successful Satyagrah against enhancement of land revenue launched against the British Government in 1928 under the leadership of Sardar Vallabhbhai Patel.

Bhimpore — A sea-side health resort adjoining Dumas having beautiful mangogroves and a temple of Hanumanji.

Bilimora — A minor port on the river Ambica and a railway junction; an industrial town where small boats are also built, a centre for export of forest products of Dangs by rail and country craft.

Dandi — Famous for "Dandi March" undertaken by Mahatma Gandhi in 1930 which set the whole country aflame with political fervour. It was at this place where nation wide mass Civil Disobedience Movement was started by him as a protest against the British ruler by breaking the Salt Law.

Dharampur	A former State capital having a small museum.
Dharasana	A place well known for salt-pans raided by Mahatma Gandhiji in 1930 during his Salt Satyagraha movement.
Fulpada	Famous temple of Ashvanikumar on the bank of the river Tapi adjacent to Surat. There is a banyan tree with only three leaves.
Gandevi	A centre of gur (molasses) production; one time famous for calico printing and a centre for handloom industry of 'Sari' and Khadi.
Hajira	A sea-side health resort.
Kakadapar	Kakadapar irrigation project on the river Tapi with a 30 feet high dam.
Katargam	Temple of Kantareshwar Mahadev; well known for *papadi* (Dolicos Lablab) having softness and pleasing taste.
Mangrol	A dargah of saint Hazrat Moinuddin Chisti alias Mota-Miya who lived here 2 centuries ago.
Maroli	Has a lunatic Asylum managed by Kasturba Sevashram, a Social Service Institution; a Khadi manufacturing centre.
Navsari	A taluka and divisional headquarters having enjoyable climate; known as the *vilayat* (chief home) of the Parsis; birthplace of Dadabhai Naorojaji and Jamshedji Tata; Dudhia Lake, four towers of silence and a large Parsi fire-temple are the objects of interest.
Rander	One of the oldest town in southern Gujarat; a muslim mosque having marked traces of Jain workmanship.
Sanjan	A holy place of Parsis who originally landed at this place with the holy fire and chose to settle here in the latter half of the seventh century.
Shah	Temple of Unai Mata and two hot springs.
Songadh	Once a prosperous town now in ruins having been burnt by accidental fire; temple of Firangi Mata.
Surat	District Headquarter; Intermediate port of historical importance; a place where the English, Portuguese, Dutch and French trading factories were established; centre of trade and handloom industry; known for the artistic jari, gold thread and powerloom textiles.
Tithal	Sea-side health resort, developed by the State Government as a holiday camp.
Ubhrat	Sea-side health resort and a holiday camp.
Udhna	Adjoins Surat City; known for the Industrial Estate of Udyog Nagar conducted on a co-operative basis.
Ukai	Ukai irrigation project providing for the generation of hydro-electric power and irrigation facilities.
Unai	Famous hot water springs.
Utran	Utran Electric Power House run by Gujarat Electricity Board having generating capacity of 233.300 million kwts. of electric power.
Vedchhi	Swaraj Ashram engaged in various social welfare activities such as basic education; bhoodan, sarvodaya, production of Khadi, rural development and uplift of the Adivasis.

18.2 Ancient Monuments

Official Statistics Table 18.3 gives details of each ancient monument together with the name of the village, place of location, the period of architecture, brief description, etc.

18.3 Fairs and Festivals

About 171 important fairs and festivals are celebrated at different places in rural and urban areas of the district. The details regarding the place where it is held, name of the fair/festival, the date on which it is held/observed and the estimated congregation are shown in the Official Statistics Table 18.2.

ANNEXURE

Territorial changes after 1st March 1961

SURAT DISTRICT

Taluka/Mahal	Village amalgamated	Village with which amalgamated	Government order	Date of effect	Remarks

BRIEF GAZETTEER OF PLACE NAMES

DISTRICT SURAT

V. P.=Village Panchayat; G. P.=Group Panchayat; M.=Municipality;
P.=Population; N.=North Latitude; E.=East Longitude.

1 Amalsad-V.P.(Mahal Gandevi), P.3,633

It is situated on the Bombay-Ahmedabad broad gauge section of the Western Railway. It is famous for mangoes and chikoos. There is a co-operative society of the cultivators to whom the Society sells agricultural produce, mangoes, vegetables and other articles.

There is a temple of *Andhakeshwar*, which was built by a blind Vanjara who recovered his lost eye sight. A fair is held at this place on *Kartik Sud* 15 (November) when about 10,000 people assemble and worship *Mahadev.*

2 Ambheti-V.P. (Taluka Dharampur), P.2,985

Situated at a distance of 18 miles from Dharampur, Ambheti has a Raniparaj *Ashram* (i.e. an Ashram for the people of backward classes) which is managed by the Gujarat Vidyapith, Ahmedabad.

3 Anaval-G.P. (Taluka Mahuva), P.2,490

A railway station on the Bilimora-Waghai narrow gauge section of the Western Railway, this ancient village is a health resort situated on the bank of the river Kaveri. There is the temple of *Shukleshwar Mahadev*, God of Anavil Brahmins, with many *dharamshalas* A fair is held at this temple on *Mahashivratri* (February) when about 1,200 people congregate. Another fair is held on the first and the last Monday of *Shravan* (July-August) when about 4,000 people take part in the fair.

Coins current in the times of the Sultan dynasty of Gujarat have been excavated from this village.

4, Areth-G.P. (Taluka Mandvi), P. 1,436;21° 15' N; 73°-05' E.

It is situated 17 miles away from Kim, a railway station on the Bombay-Ahmedabad broad gauge section of the Western Railway. Black trap metal useful in construction of pucca (metalled) roads is found in abundance in the area of this village.

5 Arnai-G.P. (Taluka Dharampur), P. 677

Situated about nine miles south of Dharampur, Arnai is known for having a hot water spring.

6 Atul-V.P. (Taluka Bulsar), P.2,200

It is an Industrial Township situated at a distance of three miles from Bulsar and connected with it by bus, where Atul Products, and Lederle have established pharmaceutical factories. Atul also produces synthetic colours. Atul Products have specialised in pharmaceuticals as well as in dyestuffs in which they are the premier concern of the country. It has provided residential quarters for its staff and a rest house.

7 Balpur-V.P. (Taluka Vyara), P. 1,363

Situated seven miles from Vyara, a railway station on the Surat–Bhusaval broad gauge section of the Western Railway, the temple of *Kapileshwar Mahadev* exists here. A fair is held on the 14th day of the dark half of the month of *Magha* (February) when about 2,500 people assemble to take part therein.

8 Bansda-V.P. P. 5.957;20°-45' N; 73°-20' E.

Previously the capital of the Bansda State, it is now the headquarters of the Bansda taluka and is seven miles from the Unai railway station on the Bilimora-Waghai narrow gauge section of the Western Railway.

The palace of the former chief of the State is situated on the bank of the river Kaveri. There are also two guest houses, a well-equipped public club building and the Mamlatdar's office. Bansda has electric supply and good water-works. There are two rice mills, two saw mills and a Government dispensary.

9 Bardoli-V.P. P.12'356; 21°-05' N;73°-05' E.

It is a railway station on the Surat-Bhusaval broad gauge section of the Western Railway, 20 miles from Surat. It is the headquarters of the Bardoli taluka.

In February 1928, the rates of land revenue in the Bardoli taluka were enhanced as a result of a defective inquiry by a Settlement Officer. The peasants protested against this enhancement and started Satyagrah under the leadership of Sardar Vallabhabhai Patel who, along with other leaders and Mahatma Gandhi, went to Bardoli to guide the people. The movement was pursued with unfailing zeal in spite of great hardships to which they were subjected by revenue authorities by distraint and sale of their property with the result that Government had to retrace and cancel the undue enhancement in land revenue. It was as a result of great fact and power of organisation which led to the success of this movement that Sardar Vallabhabhai Patel came to be known as Sardar in later years. There are a Swaraj Ashram, a hospital, four ginning factories and sugarcane factory run on cooperative basis.

An ancient temple of *Kedareshwar Mehadev* is situated at a distance of a mile and a half.

10 Bhimpore-V.P. (Taluka Chorasi), P. 4,001, 20°-25' N; 72°-50' E.

This village is about ten miles from Surat with which it is connected by an asphalt road and close to Dumas, the popular seaside resort. It is situated on the creek of the Arabian sea where the Mindhola river meets it. Bhimpore is the village where the first Gandhighar of Gujarat has been started for spreading the ideals of Gandhiji among people. To protect the village from inundation by sea water, Government have recently built a retaining wall. Before the merger of the Sachin State, Bhimpore was under the sovereign rule of the Nawab of Sachin.

The Nawab's palace and many bungalows of the well-to-do persons living at Bombay, Surat and Rander are situated in this village. There are three sanitoria meant for Hindus, Parsis and Muslims. The place appears more charming on account of the existence of beautiful mango-groves, palm and chhini trees. Visitors in the summer meet together in a place known as "Chawpaty" and enjoy cool and refreshing sea breeze in the evening. On a way to chawpaty there is the place called "Langar" (i.e., anchor) set up in memory of those who died in the first world war.

There is a well containing wholesome water and a temple of *Hanuman* visited by people of the Surat district on Saturdays of the months of *"Ashadh"* and *"Shravan"* (June-August) every year. A fair is held on the 14th day of the bright half of *Bhadrapad* (September) when about 5,000 people visit the place and worship Hanumanji.

There is a Khadi publicity centre in this village.

11 Bilimora-M. (Mahal Gandevi), P.241,94;20°-45' N; 72°-55' E.

Before merger, Bilimora formed port of the former Baroda State. It is a minor port on the bank of the navigable river Ambika. It is a railway station on the Bombay-Ahmedabad broad gauge section of the Western Railway and is 13 miles from Navsari and 132 miles from Bombay. It is connected with the forests of Dangs by the narrow gauge railway line from Bilimora to Waghai. The forest products coming to Bilimora from the Dangs district are exported to other centres by sea by country-craft or by the main Bombay-Delhi railway line. The value of the trade by sea amounted in 1954-55 to Rs.4,071,375.

It is an industrial town having oil mill, cotton and silk textile mills, tile factory, a saw-mill, pottery works, brick-works, flour and rice mills, light engineering works, paper mill, bobin factory, ice factory and power loom factories.

Small boats are also manufactured here. Government have constructed a jetty at a cost of Rs. 300,000.

A fair is held here on the cocoanut day (*Shravan Sud 15*-August) when about 10,000 people congregate and *Dariadev* (Sea-God) is worshipped before the commencement of sea voyages after the monsoon. Another fair is held on *Divasa* (the last day of *Ashadh*-July) which also is attended by about 10,000 people. On the 8th and 9th day of the Hijri month of *shawwal*, *Urs* (anniversary) is held here when about 10,000 people assemble.

12 Bodhan-G.P. (Taluka Mandvi), P. 4,508, 21°-15' N, 73°-05' E.

It is connected by road with Kim, a railway station on the Bombay-Ahmedabad broad gauge section of the Western Railway, 22 miles away.

This village has the temple of *Gautameshwar Mahadev* and people numbering about 6,000 from Surat, Broach, Ahmedabad and Baroda districts take part in the fair which is held once in every twelve years when Jupiter enters the constellation Lion. Another fair is held at this village on *Chaitri Poonam* (the 15th day of the bright half of *Chaitra*-April) when about 8,000 people assemble.

13 Bulsar-M. P., 37,586; 20°-35' N; 72°-50' E;

This town is situated at the mouth of the navigable river Auranga, the name of the port of Bulsar being *"Furja-Ovara"*. The river Vanki also passes by Bulsar while the one called Kharera is near Bulsar to the north of the town and the river Par is on the south. Bulsar is a railway station on the Bombay-Ahmedabad section of the Western Railway. National Highway No. 8 passes through the town. The Arabian sea is only four miles from Bulsar. The exports from Bulsar are charcoal, grass, mangoes and fuel by land, and timber, grains, molasses, oil, firewood, tiles, etc. by sea.

There is a sanitorium and the Sardar Vallabhbhai Patel Memorial Building, the ground floor of which is used as stalls for public market and the first floor of which houses the municipal offices.

Besides the Mamlatdar's office, there are a public dispensary, a maternity home, a municipal public library, three other libraries and a railway Library for the railway employees and five halls for holding religious, educational and social gatherings. There is a Government traveller's bungalow. A branch of the Akhil Hind Mahila Parishad contributes to the education of women and children, arts, culture and improvement of the status of women.

14 Chalthan-G.P. (Taluka Palsana), P. 1,099

It is a railway station on the Surat-Bhusaval broad gauge section of the Western Railway, about eight miles from Palsana, the taluka headquarters, with which it is connected by road. There is a factory for manufacturing cement pipes and sheets.

15 Chikhli-V.P. P. 4,548

It is the headquarters of the Chikhli taluka, situated on the Kaveri river, and connected by road with the Chikhli Road Station on the Bilimora-Waghai narrow gauge section of the Western Railway. It is also connected by pucca roads with Unai, Matwad, Bilimora and Khergam.

It has a dispensary and a high school. There is a temple of *Mallika Arjun* on the bank of the Kaveri.

16 Dandi-G.P. (Taluka Navsari), 807; 20°-50' N; 72°-45' E.

It is situated at a distance of eleven miles from the railway station, Navsari, on the coast of the Arabian sea. It is a salt producing centre.

Dandi has become famous for mass *satyagrah* movement undertaken by Mahatma Gandhi as part of the nation-wide mass civil disobedience movement launched by him in 1930 for securing Independence from British rulers. It was in this village that the salt law was broken by Mahatma Gandhi and a large number of other people in 1930. A monument to commemorate the most important and unique event viz. the Dandi march which set the whole country aflame with political fervour has been set up at a cost of Rs.29,290.

Nearby is a place known as 'Bibi Anjani' where the Lotia Boras offer prayers in honour of the princess who was drowned there by her husband Sayed Nur Muhamed who had a quarrel with her.

17 Dharampur-M., P. 9,780, 20°-32' N; 73°-13' E.

Dharampur is the headquarters of the taluka 17 miles east of Bulsar, a railway station on the Bombay-Ahmedabad broad gauge section of the Western Railway. It is connected with Bulsar by a tar road with regular bus service.

It was the headquarters of the Dharampur State till 1949 when the State merged in the Surat district.

There is a factory known as the Dharampur Leather Works which manufactures rexin and other leather cloth. The palace of the former chief and a museum are places of interest. The museum was set up by the former State in 1928. It contains specimens of stuffed wild animals mounted in such a manner that they resemble living animals in appearance attitude, etc., It also contains old pottery, musical instruments, etc. Cashew nut plantations have been raised by the Forest Department. There are three saw-mills and three oil-mills in Dharampur. It also has an institution where boys are trained in carpentry.

18 Dharasana-V.P. (Taluka Bulsar), P. 1,506; 23°- 5'N, 72°-50'E;

It is two miles west of Dungri, a railway station on the Bombay-Ahmedabad broad gauge section of the Western Railway. There are many salt pans at this place which Mahatma Gandhiji raided in 1930 during his salt satyagraha movement.

19 Dihen-V.P. (Taluka Olpad), P. 1,411

This village is 12 miles from Surat and 8 miles from Olpad. It is the native place of the last Shri Mahadev Haribhai Desai, secretary of Mahatma Gandhiji. Tobacco of this village is famous.

20 Doswada-V. P. (Taluka Songadh), P.1.977; 20°-05' N; 73°-30' E.

It is a railway station on the Surat-Bhusaval broad gauge section of the Western Railway.

Four miles away from Songadh, Doswada lies between Vyara and Songadh. It is an ancient village having a fortress near which there is a big pond from which have been dug up small canals supplying water upto Vyara.

21 Dumas-V.P. (Taluka Chorasi), P. 4.812, 21°-05' N; 72°-40' E.

Dumas is a sea-side health resort twelve miles from Surat with which it is connected by a pucca road. State Transport buses ply between Surat and Dumas. The place where the river Tapi enters the Arabian sea is in the vicinity. Dumas was formerly under the Nawab of Sachin before the merger who developed it as a seaside health resort. There are many bungalows and a sanitorium. People from near and distant places visit Dumas in summer. A wall constructed by the Bombay Government protects the village from seawaves.

The village is known for its alphonso mangoes, 'Chikoos' and 'Falsas'.

22. Fadvel-V.P. (Taluka Chikhli), P. 2,331

It is six miles from Rankuva which is a railway station on the Bilimora-Waghai narrow gauge section of the Western Railway. The *Kevda* trees are in abundance here. At a nearby place known as 'Samaradev' lie two big carved stones of the Maratha age.

23 Fulpada-V.P. (Taluka Chorasi), P. 3,213

It is about two miles from Surat, on the bank of the river Tapi. Utran, a railway station on the Bombay–Ahmedabad broad gauge section of the Western Railway, is a mile away. Regular bus service plies between Surat, Fulpada and Ashvinikumar, the famous religious place which lies within the limits of this village. The place is so named after *Ashvinikumar*, the God's physicians, who are said to have been cremated here in the *'Kumari Dharti* (i. e., Virgin land) where people from far and distant places long to be cremated. There are many pucca ghats (flights of steps) on the river Tapi one of which is known as *'Pandav Ghat'* while another is known as *'Gupteshwar Ghat'* after the name of the God *Gupteshwar*. A banyan tree with only three leaves is a curious object of nature existing at this place.

24 Gadat-V.P. (Mahal Gandevi), P. 1,574

It is situated on the bank of the river Ambika at a distance of 5 miles from Bilimora, a railway station on the Bombay–Ahmedabad broad gauge section of the Western Railway.

It is famous for the manufacture of *Gur* (jaggery) and also as a centre growing peppers.

The Gadat Mandal, a co-operative union, membership of which extends to some twelve *Bagayat* (Garden) villages, works as the agent for selling mangoes, chikoos, vegetables and other products of its members, the annual turnover amounting to Rs. 700,000. The Mandal also manages the pumping machine at Manekpur, which irrigates about four hundred acres of land in Gadat.

25 Gadat-V.P. (Taluka Vyara), P. 1,948

This Gadat is at a distance of 11 miles from Vyara, on the Tapi Valley Railway, with which it is connected by *pucca* road.

The Kotwalias prepare bamboo baskets and bamboo mats. An old *Vav*, a step well with flight of steps, is worth seeing.

26 Gandevi-M.P. 11,239; 20°-45' N; 72°-50' E.

It is the headquarters of the Gandevi mahal and is a railway station on the Bilimora–Waghai section of the Western Railway. It is a town on the bank of a small stream, Vengania, and is 3 miles from Amalsad, a railway station on the Bombay–Ahmedabad broad gauge section of the Western Railway.

The rise of Bilimora and Amalsad, important railway stations, has deprived Gandevi of its previous commercial importance. It was once famous for calico printing, which is slowly dying out. The old handloom industry, however, still persists. *Sarees* and *Khadi* are prepared on handlooms. Grains, castor and oil seeds, *gur* and *ghee*, imported from Nandurbar, Bansda and other interior places are exported from Gandevi to Bombay.

Gandevi is also famous for producing *gur* (molasses) and mangalore tiles.

In this town, a fair is held on *Kali Chaudash* (*Ashvin Vad* 14–October) when about 16,000 people assemble at the fair for the worship of Hanumanji.

27 Ghantoli-V.P. (Taluka Mandvi), P. 1,953

It is about three miles from Mandvi and nine miles from Madhi, a railway station on the Surat-Bhusaval broad gauge section of the Western Railway.

This small village has a Sarvodaya Chhatralaya for boy and girl students of backward classes.

28 Hajira-V.P. (Taluka Chorasi), P. 2,165

Hajira is about 20 miles south west of Surat with which it is joined by a metalled road on which there is a regular bus service during the fair season. The name Hajira comes from the word tomb (Hajira) of Vaux, an officer of the East India Company. He and his wife were enjoying a sail in the river Tapi in 1697 where the boat was upset and both of them were drawned. A dome, 30 feet high, stands over the tomb of Vaux. Hajira is situated on the creek of the Arabian sea and has a light-house near the dome of Vaux. It is a health resort with sanitoria and two wells which have water containing iron and sulphur which render it more digestive.

29 Harasani-V.P. (Taluka Mangrol), P. 797

Situated on the bank of the river Bhukhi at a distance of two miles from Mangrol, a railway station on the Kosamba–Umarpada narrow gauge section of the Western Railway. The images of *Shri Rama, Shri Laxman* and *Sitaji* and the *shivling* standing on the bank of the river are places worth visiting.

30 Jahangirpara-(Taluka Chorasi), P. 459

Situated on the bank of the river Tapi, this village is about five miles on the north–west of Surat on the Surat–Olpad road. There is a *pucca ghat* (flight of steps) known as '*Kurukshetra ghat*' which is considered to be a sacred place by the Hindus. There is also the '*Hari Aum Ashram*', constructed in memory of Swami Hari Chunilal Bhavsar known as '*Moha*' by his devotees.

The first co-operative ginning and pressing factory in the Surat district was set up in Jahangirpara.

31 Kahadapar-G.P. (Taluka Mandvi), P. 1,319

Kakadapar is 16 miles from Madhi, a railway station on the Surat–Bhusaval broad gauge section of the Western Railway. A big dam on the Tapi river 2,038 feet long and 30 feet high above the bank of the river constructed at Kakadapar diverts the water of the river. It will irrigate about 6,53,842 acres of the lands of the Surat district.

32 Kamrej-V. P., P. 2,121; 21°–5'N; 72°–50' E.

Eight miles east of the Sayan railway station on the Bombay–Ahmedabad broad gauge section of the Western Railway, Kamrej is the headquarters of the Kamrej taluka.

This village is famous for three temples of architectural interest. One is that of *Narad Brahma* whose idol made of stone and placed within a shrine in the subterranean vault of the temple, is an excellent piece of ancient art. The other two are the temples of *Koteshwar* and *Mokshnath*. Pilgrims from very distant parts of the country visit the temple of *Mokshnath* and perform the ceremony of *Narayan Bali* and *Tripindi*. Tradition relates that there once grew a *pipal* tree (Ficus Religiosa) opposite this temple bearing golden leaves.

There is also an ancient temple of *Kalabhairav* about half a mile north of Kamrej. It is said that previously there was an image of human likeness of the deity to whom the temple was consecrated in an underground vault of the temple, which a mad man broke into pieces at a blow. A piece was afterwards taken into the temple and placed there with consecrating rites by one Rudraji Girmaji about 200 years ago.

An old mound is a monument of archaeological interest.

33 Katargam-V.P. (Taluka Chorasi), P. 10,959 21°–10' N; 72°-50' E.

Two miles away from Surat railway station, Katargam is situated on the river Tapi. Formerly it was known as Kantagam as a big forest existed there.

'Papadi' (Dolicos lablab), one of the vegetables grown here, is well-known for its softness and pleasing taste.

Due to the proximity of the river, the lands are fertile and the climate is agreeable. There is a sanatorium in the village.

People numbering about 2,000 from surrounding villages upto Broach on the north and Bulsar on the south visit the temple of *Kantareshwar Mahadev* where fairs are held on Mondays of the *Shravan* month (July–August). Two other fairs are also held at this village one on *Kartik sud* 15 (November) and the other on *Chaitra sud* 15 (April) every year, the congregation numbering about 2,000 on each occasion. Jains, too, have their artistic temples which they especially visit in *'Paryusan'*. An institution for orphans and a remand home are situated in the village.

34 Kathor-V.P. (Taluka Kamrej), P. 6,879; 21°-15' N; 72°–55' E.

A large village on the northern bank of the river Tapi, three miles from the Sayan railway station on the Bombay–Ahmedabad broad gauge section of the Western Railway and ten miles from Surat, Kathor is chiefly the residence of Muslims who are enterprising and go to distant places like Mauritius, Singapore and China where they go for business, stay for years together and return home after amassing wealth.

The principal articles of trade are grain, surangi and calico printed or coloured cloth. The brinjals raised in the vicinity which are soft and full of agreeable taste are exported to Surat and other places where they fetch high prices.

In this place are situated Government offices, a high school and handloom centres.

35 Kosamba-V. P. (Taluka Mangrol), P. 5,262

Kosamba is a railway junction on the Bombay–Ahmedabad broad gauge section of the Western Railway, and fifteen miles away from the taluka headquarters, Mangrol. A narrow gauge section viz. Kosamba–Umarpada section

which is useful for the transport of timber and coal from the interior of forest areas branches off from this station. There are cotton ginning factories and the 'Jayagandhi' Sarvodaya Chhatralaya (Boarding house).

A fair known as the *Harhar Mahadev* fair is held at Kosamba on *Shravan vad* 15 (August) when about 1,500 people gather together and worship *Shiva.*

36 Lawachha-V.P. (Taluka Pardi), P. 1,466

It is 18 miles away from the taluka headquarters Pardi which is a railway station and 8 miles from Vapi on the Bombay–Ahmedabad broad gauge section of the Western Railway.

The soil of this place is said to be effective for the cure of Leucoderma.

37 Magdalla-V.P. (Taluka Chorasi), P, 885

This village is situated about six miles from Surat on the Surat-Dumas road, on the bank of the river Tapi. It is periodically affected by floods, the largest havoc having been wrought during the floods of 1959. A canal from the Kakadapar irrigation dam passes through the village.

The new Magdalla has been constructed methodically, the two rows of houses having been separated by a large street about 80 feet long. The court yards at the back are spacious and doors and windows have been provided for proper ventilation. For rural areas, the new Magdalla is a model for settlements to be built anew.

The ever-increasing silting of the river Tapi has made it necessary to provide a modern port near Magdalla and for that steps are being taken by Government. The inhabitants of Magdalla work as sailors in steamers sailing to far off countries.

38 Mahuva-G.P., P. 2,319, 21°-5' N; 73°-15' E.

It is the headquarters of the Mahuva taluka situated on the river Purna, about nine miles from Bardoli which is the nearest railway station on the Surat–Bhusaval broad gauge section of the Western Railway.

A Jain temple in the village has very good architecture. The village is connected with Navsari, Bardoli, Vyara etc., by State Transport buses. There are water works, a veterinary dispensary and a medical dispensary.

39 Mandvi-V.P., P. 8,513, 21°-15' N; 73°-15' E.

Situated on the bank of the river Tapi, Mandvi, which is the headquarters of the Mandvi taluka, is nine miles from Madhi, a railway station on the Surat–Bhusaval broad gauge section of the Western Railway and 27 miles from Kim, a railway station on the Bombay–Ahmedabad broad gauge section of the Western Railway. *Pucca* cement roads connect Mandvi with Madhi and Kim.

A big agricultural farm with a dairy attached to it called the *Sindhwai* farm, occupying 800 acres, is situated one mile away from Mandvi. A bridge estimated to cost Rs. 20 lakhs is being constructed over the river Tapi. It will join the Madhi–Mandvi road and the Madhi–Kim-Zankhvav road, both of which are State Highways.

The Kakadapar irrigation dam is only five miles from Mandvi. The taluka offices, a rest house, a dispensary and a veterinary dispensary are situated in Mandvi.

A fair with a congregation of 2,000 people is held at the *Bilkeshwar Mahadev* on *Shravan Sud* 15 (August)

40 Manekpore-V.P. (Mahal Gandevi), P. 710

This village is situated at a distance of eight miles from Bilimora, a railway station on the Bombay–Ahmedabad broad gauge section of the Western Railway. It is on the bank of the Ambika river and has a temple of the *Kameshwar Mahadev.*

During the former Baroda State regime was started a lift irrigation scheme which is now being managed by the Gadat Mandal Co-operative Society.

4 Manekpore-V.P. (Taluka Bardoli), P. 1,345

This is about two and a half miles from Madhi, a railway station on the Surat-Bhusaval broad gauge section of the Western Railway.

There is a big temple on the bank of a tank which stores water all the year round. There is a pucca *Ovara* (flight of steps) to the tank. There is a basic school in this village.

42 Mangrol-V.P. P. 3,258, 21°-25' N; 73°-00' E.

It is the headquarters of the Mangrol taluka and is a railway station (Motamiya Mangrol) on the Kosamba-Umarpada narrow gauge section of the Western Railway. In this place, there is a *dargah* (tomb) of the saint *Hazrat Moinuddin Chisti* alias *Mota Miyan* who lived here about 230 years ago.

The taluka offices, the staff quarters and the dispensary are situated at a distance of one mile in the Mosli village.

There are two ginning factories in Mangrol. A fair with a congregation of about 15,000 people is held at the old *Dargah* of *Pir Mota Miyan* on *Pausha Sud* 15 (December)

43 Maroli-V.P. (Taluka Navsari), P. 1,597, 21°-00' N; 72°-50' E.

It is a railway station on the Bombay-Ahmedabad broad gauge section of the Western Railway.

There are the Kasturba Sevashram and the Khadi manufacturing centre. A lunatic asylum managed by Kasturba Sevashram, which is a social service institution is also located here and is taken advantage of by patients from various parts of the country.

44 Mograwadi- V.P. (Taluka Bulsar), P. 3,488.,

This village is situated on the bank of the river Auranga, half a mile from Bulsar.

This is a centre of trade in timber, grass, coal and mangoes. There is an old *'Vav'* or step well and also the temple of *Koteshwar Mahadev.*

45 Mora-V.P. (Taluka Chorasi), P. 751, 21°-10' N; 72°-15' E.

Mora is at a distance of 14 miles on the south from the Surat city. A well said to havebeen construeted bythe king Mayurdhvaj is said to exist at this village. People from far and wide visit Mora for performing the *'Shradh'* ceremony of women dying in labour.

The place is one of pilgrimage and a fair known as *Mora yatra* with a congregation of about 5,000 people is held on the 14th day of the dark half of the Hindu month of Magshirsha (December).

46 Nandhai-G.P. (Taluka Chikhli), P. 964

It is an old village of the Dharampur State, now in Chikhli taluka, situated on a high level near the bank of the river Auranga, at a distance of 12 miles from the taluka headquarters, Chikhli. There is a shrine of God *Shiva* known as *Gupteshwar Mahadev* near the bank of the river. According to a local legend, there was a *Shivaling* hidden in the groves of green trees. Later, a Dhodia (Vallabhbhai Vajirbhai) of Khergam, now deceased, saw this *ling* in his dream and constructed a temple at this place and a *kund* of Gangaji in the river. As the *ling* was hidden, the God *Shiva* is now known as *Gupteshwar.* The Maharaja of Dharampur State used to visit it every year on the *Mahashivratri* day and other religious occasions. For the last 15 years, 40,000 to 50,000 people, mostly Adivasis, gather here on the fair days (two days during *Mahashivratri*).

Some humming sound is coming out automatically from the *'Jaladhari'*. It is a very curious sound which is believed to be divine, Even Shri Shankaracharya and other sages who visited this place are said to have been of the opinion that this voice is that of some sage who had taken *'Samadhi'* underneath.

47 Nagar- G. P. (Taluka Dharampur), P. 449, 20°-35' N; 72°-50' E.

Also known as Ramnagar, is 40 miles to the east of the Bulsar railway station on the Bombay–Ahmedabad broad gauge section of the Western Railway. It was the ancient capital of the Dharampur State. As Ram Raja had conquered this area from the Bhils about 800 years ago, it was called Ramnagar after his name. In 1576 the Chief of Ramnagar met Raja Todar Mal at Broach, gave him Rs 12,000 and four horses and agreed to serve the Gujarat Viceroy with 1,000 cavalry. He and the Chief of Ghar helped Shivaji in his attacks on Surat (1,664–70). In 1672, the fort of Ramnagar was taken by Shivaji.

48 Nana Varachha- V. P. (Taluka Chorasi), P. 2,205

It is about three miles from Surat city on the Surat–Kamrej road served by a regular bus service.

The water works at this village supply water to the Surat city. There are a Samaj Mandir or Community meeting hall and a Halpati (Tribal) colony built for the backward classes by the District Flood Relief Advisory Committee to help those affected by floods in 1959.

49 Navagam- V. P. (Taluka Chorasi), P. 7,393

Adjacent to the Surat railway station and on the road from Surat to Kamrej, Navagam is a part of the Surat City and is a marketplace for sugar. Residential quarters for the railway employees are situated here. At a little distance are the Tapi Brahmachary Ashram and the *Kutir* of *Paramhansa* Shri *Hansdev Maharaj* who was an *Avadhut* and renowned *yogi*.

50 Navsari- M. P. 53,600, 20°-55° N.; 72°-55' E.

Navsari is the headquarters of the Navsari taluka as well as the Navsari prant. previously it was a district headquarters in Baroda State till it merged into the Surat district in 1949. It is a railway station on the Bombay-Ahmedabad broad gauge section of the Western Railway. On account of its proximity to the sea, the climate of Navsari is enjoyable from the middle of April to the middle of June.

The first settlement of the Parsis in Navsari took place in 1142 A. D., the town then being a feudal village under the sway of the Muslim Emperors of Delhi. The Parsi Desais who were granted extensive lands used to collect the revenues for the Muslim Emperors. Desai Kharsedji's son Mancherji aided Mr. Duncan, the Governor of Bombay, in making a treaty with Govindrao Gaekwad and received the British guarantee and a pension of Rs. 200 per month from the court of Directors of the East India Co. in 1817.

Navsari is known as the vilayat (Chief home) of the Parsis and was the birth-place of the well-known patriot Dadabhai Naorojaji and the famous industrialist Jamshedji Tata whose birthplace, Dasturwadi, is preserved in its original condition.

The Dudhia lake, an ancient tank occupying 105 acres of area, with Ram Tekri (Rama's hill) in the centre and with an ancient temple of *Asapuri* on its West bank, is situated on the southern outskirts of Navsari.

The taluka and prant offices and the Municipal office are situated in Navsari. There are an Arts and Science College, a technical high school, the Parsi General Hospital, the Marolia Maternity Hospital, the Sarvajanik Dispensary and the Kshatriya Sarvajanik Dispensary, the Parsi Maternity Hospital and the Parsi Infirmary, a Government veterinary hospital, three public libraries, a town hall, a clock-tower, a Parsi sanitorium, a rest house and a public garden.

There is one large Parsi fire-temple or *agiari* and five smaller ones. There are many places of worship for the Hindus. The Jain temple of *Parasnath* contains 24 images of that deity under His various names. There are two *dargahs* (tombs) of Muslim saints. Four towers of silence are among the objects of interest.

There are two ginning factories, two cotton spinning and weaving mills and a big brassware

factory. Navsari is also famous for producing excellent furniture. An old mound is a monument of archaeological interest. A fair with a congregation of about 5,000 people is held in Navsari on *Ashvin Sud* 10 (September) when *Sami* tree *pujan* is performed.

51 Nizar- V. P. P. 3,845

Nizar is the headquarters of the Nizar mahal which, before the bifurcation of the Bombay State, was in the West Khandesh district and now included in Surat district. It is situated at a distance of 11 miles from the Nandarbar railway station on the Surat–Bhusaval broad gauge section of the Western Railway, with which it is connected by a metalled road on which there is a regular bus service.

At a distance of two miles from Nizar is situated the village Kodhali Budruk which was attacked severely by the heavy floods in the river Tapi in 1959. A colony for the backward classes whose houses were damaged by the floods has been constructed by giving interest-free loans and subsidies in the form of house–building materials given by Government and the District Relief Advisory Committee.

A *Samaj Mandir* or community meeting hall has also been constructed in the colony for the people affected by the floods. At Nizar, a fair with a congregation of about 3,000 is held on the 15th of the bright half of the month of *Vaishakh*, (May) near *Hingala Devi.*

52 Olpad- V.P., P. 5, 48, 2°–5' N; 72°–45' E.

It is the headquarters of the Olpad taluka, nine miles from Sayan railway station on the Bombay-Ahmedabad broad gauge section of the Western Railway and 12 miles from Surat. It is connected by pucca roads with Sayan, Surat and Kim, another railway station on the said railway.

About four miles from Olpad is the temple of *Sidhnath Mahadev* the *Shivling* in which is 18 inches high and 20 inches in circumference and contains many pores. Water comes out incessantly from a hole on the top of it. The temple which was in ruins was renovated by Damajirao Gaekwad, a district officer of the Baroda State. In the compound of the temple there is a well known as *'Ban Ganga'* believed to have been excavated by *Shri Rama* on his return from *Lanka* after defeating *Ravana.* The *shivling* has survived several attempts at its destruction by *'Pindhari'*, pirates and plunderers. Big insects emerging from the *shivling* are believed to have attacked the iconoclasts who were thereby forced to retreat and flee.

Nut–crackers, penknives and *Dharias* (scythes fixed at the end of long bamboo staffs) made in Olpad are well known.

53 Orna- V. P. (Taluka Kamrej), P. 1,656, 21°–15' N., 73°–00' E.

This village is situated about nine miles north of Bardoli, a railway station on the Surat–Bhusaval broad gauge section of the Western Railway. There is the temple of *Goateshwar* four miles from the village on the bank of the river Tapi where *Naradji* is said to have practised penance.

Some inhabitants of this village have gone to foreign countries for trade and business. The village has a high school and a dispensary.

54 Orvad- V. P. (Taluka Pardi), P. 1,420

This village is near Udwada which is a railway station on the Bombay–Ahmedabad broad gauge section of the Western Railway. Stones in large quantity are available here. The railway has been extended to the site of the quarry so that metal can be easily moved.

The village has as its chief produce grass, paddy, mangoes and chikoos.

55 Pardi, V., P., P. 10,553

It is the headquarters of the taluka and a railway station on the Bombay–Ahmedabad broad gauge section of the Western Railway. The Government offices are situated in the old Fort near Pardi town.

The average rainfall being 80 to 100 inches, paddy is produced in large quantities. It has a

good crop of sugarcane, mangoes, plaintains (bananas) and vegetables.

There is a high school in the town, a nylon factory and also a paper mill known as the Rohit Paper Mill started recently about two miles away from Pardi.

56 Parnera- V. P. (Taluka Bulsar), P. 2,209 20°–30° N., 72°–55' E.

It is a village situated near the river Par, at the foot of the Parnera hill, about five miles from Bulsar, a railway station on the main line of the Western Railway.

The Parnera hill rises to a height of about 500 feet above the plain. Originally the top of the hill was fortified by the Hindus and the fort remained under the Raja of Dharampur till Mahmud Begda, King of Gujarat, captured it about the end of the 15th century. After remaining for some time under the Muslim rulers, it fell into the hands of a Chief of bandits. The Portuguese took it in 1558 and again in 1568 when the fortifications were destroyed. After remaining in ruins for more than a hundred years, the fort was taken and rebuilt by Moro Pandit, one of the generals of Shivaji in April 1676. Parnera remained under the Marathas for about a century and was taken by the British in 1780. The fort was at first occupied by a military party as a protection against the raids of Pindharis. But early in the 19th century the garrison was removed and the fort was dismantled during the mutiny of 1857. Ruins of the fort are still found at the summit of the hills.

There is a temple of the *Chandika Mata* at the top of the Parnera hill where a fair with a congregation of about 4,000 people is held on *Ashwin Sud 8* (September).

57 Rander- M. (Taluka Chorasi), P. 18,534, 2°–0 N., 72°–45° E.,

It is situated on the river Tapi, about two miles from Surat. A regular bus service plies between Rander and Surat.

Rander is one of the oldest cities in southern Gujarat which was a place of importance when Broach was the chief seat of commerce in Western India in the beginning of the Christian era. Shortly after the beginning of the thirteenth century, a colony of Arab merchants and sailors is said to have settled at Rander. These men drove away the Jains who ruled in Rander at that time. Arabs, under the adopted name of *Nayakas*, traded with distant countries and became famous for their wealth.

In 1530, the Portuguese General, Antonio de Sylvera, attacked Rander after sacking Surat. With the growing importance of Surat, Rander declined in prosperity and by the close of the 16th century it was a port dependent on Surat. The Nayakas have long ceased to have any importance at Rander. Bohras of the Sunni sect have taken their place in trade which they carry on with Mauritius, Rangoon, Moolmein, Siam and Singapore.

There are good mosques in Rander. Besides an English high school there are four schools where Arabic and Urdu are taught. The Ramnagar colony where Sindhi refugees have been rehabilitated is worth visiting.

58 Sachin- V. P. (Taluka Chorasi), P. 1,559., 21°–5' N., 72°–59' E,

Situated on the Bombay–Ahmedabad broad gauge section of the Western Railway, Sachin was previously the capital of the State ruled by a Sidi Nawab till it merged into Surat district in 1949. It is about ten miles from Surat with which it is connected by a pucca road.

The palace of the Nawab of Sachin, a garden, a dispensary and a high school are situated there. There is a temple of *Karsan Dada Hanuman* in Sachin.

59 Sanjan- V.P., (Taluka Umbergaon), P. 5,341

It is a railway station on the Bombay–Ahmedabad broad gauge section of the Western Railway.

When the kingdom of Persia passed in the middle of the sixth century A. D. from Shah Yazdezard to the Arabs, the Persians who stuck to their old faith led a hard life for a hundred years hiding themselves in the hills; then they moved to the coast and settled in the city of Ormaz. At the advice of a learned priest they set sail for India, fifteen years after they had settled at Ormaz, and landed at the island of Diu on the south coast of Saurashtra. They stayed at Diu for nineteen years and then, on the advice of an aged priest, they set sail for Gujarat. Overtaken by a storm in the way they anchored at the safe shore near Sanjan. The Yadav chief of South Gujarat, Jadi Rana permitted them to choose a spot and settle on their agreeing to certain conditions. A temple for the holi fire of Behram was begun to be constructed and completed by the help of the Yadav Chief in 790 A. D. The Parsi settlement at Sanjan soon prospered and most of the Parsis remained at Sanjan for about 300 years though a few dispersed in various directions, Broach, Variav, Anklesvar, Cambay and Navsari. In another 200 years a large number of the Parsis with their *Dasturs* (priests) also left Sanjan. About A. D. 1490 Alefkhan, the prime Minister of Sultan Mahmud of Gujarat invaded Sanjan. The Parsis under the leadership of Ardeshir fought for their *Raja* (Hindu Chief) but, in the final scuffle, Ardeshir was killed, Sanjan fell into the hands of mohammedans and most of the surviving Parsis fled with their Sacred Fire to the adjoining hill of Bahrut where they lived for twelve years. The Sacred Fire was then removed to Bansda in 1502, from Bansda to Navsari in 1566, from Navsari to Bulsar in 1741 and finally, in 1742, from Bulsar to Udwada where it is still burning. Sanjan is thus a holy place for Parsis.

60 Savan- V. P. (Taluka Olpad), P. 3,163., 21°-15' N., 72°-50' E.,

It is a railway station, north of Surat, on the Bombay-Ahmedabad broad gauge section of the Western Railway. It is about nine miles away from Surat. It is an important cotton growing centre with ginning and pressing factories.

61 Shah- G. P. (Taluka Mangrol), P. 585

Situated at a distance of one mile from the Mota-Miya Mangrol railway station on the Kosamba-Umarpada narrow gauge section of the Western Railway, the Shah village has two hot springs. A fair with a congregation of about 5,000 people is held at the *Unai Mata* on the 15th of the bright half of *Chaitra* (April).

62 Songadh- V. P., P. 4,795, 21°-40' N., 71'-50' E.,

Songadh is the headquarters of the Songadh taluka and a railway station on the Surat-Bhusaval broad gauge section of the Western Railway. Once a prosperous town, Songadh is now in ruins having been burnt by accidental fire eighty years ago. Some houses have been built half a mile away and this settlement is called New Songadh. To the west of the town is the old fort on the top of a hill. In the lower part of the fort, there are the ruins of what must have once been a fine palace with many storeys. There are a pond and small tanks within the fort which hold water throughout the year. There are also large cisterns hewn out of rocks. The fort was probably built or at any rate restored in the times of the Mogul Emperors. A few temples in a dilapidated condition are of architectural interest.

All public buildings including the Mamlatdar's office and the dispensary are in New Songadh. There is also a Chhatralaya (Boarding house) for the backward class people. Timber and coal are exported in large quantities.

On *Chaitra Sud 15* (April) a fair with a congregation of about 12,000 people is held at the *Firangi Mata,* installed by Gaekwad in memory of victory over Firangis or Portuguese.

63 Sunvali- V. P. (Taluka Chorasi), P. 1,242. 21°-10' N., 72°-49' E.

Situated twelve miles west of Surat, Sunvali was once a place of anchorage for vessels visiting Surat port. Large European ships remained in the Tapi at Sunvali for months together. It ceased to be a place of anchorage by the end of the eighteenth century.

There is a sanatorium for the Parsis and a dispensary.

64 Surat- M. (Taluka Chorasi), P. 2,88,026; 21°-12' N., 72°-52' E.,

Surat is a railway junction situated on the Bombay-Ahmedabad broad gauge section of the Western Railway. The Surat-Bhusaval broad gauge section starts from Surat and goes upto Bhusaval. The city is situated on the river Tapi and is at a distance of about 10 miles by road from the Arabian Sea.

Surat is popularly believed to have been founded by Gopi, a Nagar Brahmin, who rose to be the Prime Minister in the Sultanate of Gujarat under Mahmud I and Muzaffar II. In 1546, Khwaja Safar Salmani who rose to eminence in the court of Gujarat, built at the instance of Sultan Mahmud III of Gujarat, the castle at Surat to protect the city from the onslaught of the Portuguese who had plundered it thrice before. Emperor Akbar took possession of Surat in 1573. Surat had its own mint and the coins (*Mahmudis*) struck there were current in South Gujarat till 1688. The British opened their factory at Surat in 1613 and the Dutch in 1620. In the reign of Shah Jehan, Surat had very prosperous trade. During the regime of Aurangzeb, Shivaji sacked Surat twice but the trade and the morale of the traders were not affected. The later raids of Marathas too could not slacken the trade. Since the time of Akbar, the Governor of the city and the district as also the commander of the castle and the army were appointed by the Mogul Emperors. When, however, Aurangzeb died in 1707, the hold of Delhi weakened and in 1725, Sorabkhan, the then Governor, styled himself the Nawab of Surat and his successors also did the same. The English became the masters of the castle in 1759 and finally took over full control of the city and the district in 1,800. Surat has suffered heavy losses in property and in life during heavy floods in the Tapi particularly in 1822, 1837, 1883, 1944 and 1959.

Three centuries ago Surat was one of the biggest cities of Gujarat and the chief port of the Mogul Empire. It was the emporium of trade, inland and seaborne, and had its own mint which existed till 1815 A. D. With the development of Bombay as the chief port of the Western coast of India, the trade, wealth and importance of Surat declined a great deal. After about two centuries, however, Surat has improved its trade to some extent.

Surat being the headquarters of the Surat district, the Surat sub-division and the Chorasi taluka, has the district, sub-divisional and the taluka offices, most of them being within the old fort.

Surat is a port and handled traffic to the tune of 17,570 tons in 1960-61. It has colleges for arts, science, commerce, law and engineering. It has a polytechnic institute having courses for civil, mechanical and electrical engineering. The Sardar Vallabhabhai Patel engineering college has also recently been started. There is also an Ayurvedic college with Ayurved hospital, in addition to a Civil Hospital.

Surat is known for its artistic jari, gold-thread and handloom textiles. Its silk fabrics called tanchhoi and gold brocade are world famous. There are two cotton spinning and weaving mills. A rayon factory and an industrial estate have now been set up at Udhna about three miles from Surat.

Near the Municipal hall there are the remains of the old racket-court popularly known as Dadimar, which was for the benefit of the Europeans. Close to the Dadimar, stood a wooden cross of the old chapel of the Capuchin Friars, which no longer exists. Further to the North was the Portuguese factory a portion of which bears an inscription to that effect and is now the property of a private individual. The rest of the factory has long fallen into ruins. Behind the Portuguese factory was the French Lodge but all traces of the buildings have disappeared. To the north-east of this site, there was the Armenian church abandoned as a place of worship towards the end of the first half of

nineteenth century. At present only the site of the altar can be noticed, the open ground being in the possession of a private person.

Beyond the *Mulla chaklo,* the Mullas ward, on the bank of the river, there is the site of the old English factory. It has afterwards been used first as a hospital, then as a lunatic asylum and is now a private dwelling.

Outside the inner fort wall lie what formed the suburban areas of old, divided into fifteen divisions. First division from North to east is Gastipura. Once cultivated as gardens, the greater part of this area now consists of fields and kilns for brick-making. The chief objects of interest in this division are the Dutch, Armenian and Portuguese burying grounds on the east side of the Katargam gate. The old Armenian tombs are preserved as protected monuments. One of the other divisions of the suburbs is known as Nanpura. The section of this division next to the outer fort wall consists of dwelling houses occupied in the last century by Europeans. On the bank of the river there are the Court-house, the sites of old Siddi Wharf and the commodore's residence, where there were the English Wharf and the Dutch Wharf or *Walanda Bunder.*

65 *Tadkeshvar- V.P. (Taluka Mandvi)., P. 4,926 21°-20' N., 73°-00' E.,*

This village is nine miles from Kim, a railway station on the Bombay–Ahmedabad broad gauge section of the Western Railway, to the north of Surat. It is called Tadkeshvar as it is situated in the area known as *Tadka Van.* White earth found here in plenty is used for washing clothes.

There is a dispensary with a maternity home attached to it. A water works constructed from funds donated by a local resident provides potable water to the village people. The village has a high school which is also taken advantage of by students of the surrounding villages.

66 *Timba- V. P. (Taluka Kamrej)., P. 1,251; 21°-15' N., 73°-05' E.,*

This is situated at the junction of the rivers Naradganga and Tapi. There is a temple of the *Galateshwar Mahadev* where a pilgrimage is held once in twelve years at the occultation of Jupiter. The river Naradganga is believed to issue from the roots of an '*Umbar*' tree (Ficus glomerata) and is named after the saint, *Narad.*

67 *Tithal- V. P. (Taluka Bulsar)., P., 1,349; 20°-35' N., 72°-50' E.,*

Tithal is a sea-side resort four miles from the Bulsar railway station. The climate is agreeable throughout the year. People from all parts from Bombay to Ahmedabad visit this village during summer. The Tata Bag bungalow is available to the employees of the Tata concern. Rich Hindus and Parsis also have built bungalows which can be had on rent. The State Government is developing it as a health resort by starting a holiday camp every summer where even the persons of modest means can stay. There are four classes of residential accommodation in this holiday camp, according to the accommodation provided. The camp has also got a canteen attached to it and piped water supply as well as electric lights. The longest period for which one can stay in the holiday camp is ten days between the 1st of November and the 30th of June and fifteen days between the 1st and the 31st of July.

The tall palm trees with sea breezes piercing through them present a panoramic view.

68 *Umbhrat- V. P. (Taluka Navsari)., P., 3,752., 20°-55' N., 72°-45' E.*

This is the sea-side health resort of the former Gaekwads of the Baroda State, situated ten miles west of Maroli, a railway station on the Bombay–Ahmedabad broad gauge section of the Western Railway. A fine bungalow constructed by the Gaekwad has now been converted into a rest house. Persons visiting the sea-side resort utilize the many rooms which surround the bungalow. The State Government has made the place an ideal health resort for middle class people by starting a Holiday Camp. There are three classes of residential accommodation in this Holiday Camp according to the accommodation provided. The camp has also got a canteen

attached to it and piped water-supply and electric light. The longest period for which a family can stay in this Holiday Camp is ten days. There is an airstrip constructed by the former Baroda Government.

69 Udhna- V.P. (Taluka Chorasi), P. 6,216

This place is a railway station on the Bombay-Ahmedabad broad gauge section of the Western Railway about three miles to the south of Surat. It is from this station that the Surat-Bhusaval broad gauge section is bifurcated from the main line of the Western Railway. It has a loco-shed and a vast railway yard. It has become a centre of a number of small industries started in the Industrial Estate better known as Udyog Nagar. The Industrial Estate is conducted on a co-operative basis, the society supplying common needs of its members like roads, water supply and lighting. There are about 100 small scale factories, the principal items of manufacture being sound heads of cinema projectors, cinema projectors, surface grinding machines, electric appliances, water heaters, copper wire rolling machines and table time-pieces, etc.

The Rayon Factory with a capital of six crores of rupees, Shri Ram Mills, the Adarsha Fertilizers and Chemicals are some of the important concerns.

A fair with a congregation of about 10,000 people is held at the *Bhidbhanjan Mahadev* during the whole month of Margashirsha (November-December).

70 Udwada- V. P. (Taluka Pardi), P. 4,104, 20°-25° N., 72°-50' E.

Udwada is situated on the sea-shore and is a railway station on Bombay-Ahmedabad broad gauge section of the Western Railway, 111 miles North of Bombay. The village is the holy place of pilgrimage for Parsis and is mostly inhabited by them. The sacred fire from the Navsari A*tashbehram* (fire-temple) was secretly carried to Udwada (34 miles south of Navsari) by some Parsi priests owing to some dispute among them. During the Pateti holidays and on other auspicious day, this place is visited by Parsis even from distant places. There is a well equipped *dharmshala* for Parsis and a charitable dispensary. Udwada is a good centre for grass and Black-trap metal.

71 Ukai- V.P. (Taluka Songadh), P. 670

Ukai is six mils on the north of Songadh a railway station on the Surat-Bhusaval broad gauge section of the Western Railway. The Ukai irrigation project which consists of construction of a dam, a reservoir and two big irrigation channels from the river Tapi near Ukai will irrigate a total area of 3,91,650 acres. The increase in foodgrains is estimated to be 113,000 tons and that in cotton 28,400 tons as a result of the Project, when completed. Besides providing irrigation, this project will generate hydro electric power by erecting a power house below the reservoir, which will benefit large scale industries in Surat, Broach, Baroda and other areas and small scale industries in rural areas.

The Project is also designed to ward off the very heavy losses of property and life which the floods in the river Tapi repeatedly cause in their wake.

During the second Five Year Plan the total amount spent after the project amounted to Rs. 21,022,934. The provision during the Third Five Year Plan is Rs. 700 lakhs.

72 Umarsadi- V. P. (Taluka Pardi), P. 7,804

It is about 2 miles from Pardi, a railway station on the Bombay-Ahmedabad broad gauge section of the Western Railway. It is a small port on the coastal area, which handled trade to the extent of Rs. 2,618 in the year 1960-61. It is an important fishing village engaged in the capture of marine fish exported in large quantities.

73 Umbergaon- V. P., P. 6,574

This is the headquarters of the Umbergaon taluka which, till the separation of Gujarat from the Bombay State, was in the Thana district. It is now in Surat district. It is a railway station under the name 'Umbergaon Road' on the Bombay–Ahmedabad broad gauge section of the Western Railway.

It is a small port on a creek, about two miles away from the sea–shore. Timber is the chief commodity exported from this place. The annual outturn at present amounts to 12,000 tons.

The fishing industry at Umbergaon is being developed by Government by supplying the fishermen with improved means of fishing and improving the port.

74 Umra- G.P. (Taluka Mahuva), P. 2,261

It is a small village on the bank of the river Ambika at a distance of five miles from Anaval a railway station on the Bilimora-Waghai narrow gauge section of the Western Railway. It is ten miles south of Mahuva with which it is connected by the Mahuva–Anaval road.

There is a lift irrigation scheme started by the former Baroda State, which irrigates about 400 acres of land. Sugarcane is produced in abundance; gur (molasses) of this place is famous.

75 Unai- V. P. (Taluka Bansda), P. 2,034

Unai is a railway station on the Bilimora-Waghai narrow gauge section of the Western Railway. It is famous for its hot water springs. As the temperature of water is very high, 123° to 124° F., no one can dare take bath in it. The tank water contains lime, sulphates, chlorides and free ammonia. The hot springs are held to be as ancient as *Rama* and are believed to have been brought into existence by an arrow shot by him, into the ground. In the vicinity is a well which contains tepid water.

For a week in *Chaitra* (April) including the full moon day, people from the forest areas as well as from the plains numbering about 100,000 assemble. Some of them throw the holy water at one another with cries of *Jaya Amba*, while others visit booths and shops opened by traders and pedlars who come here from many places of the Surat district and even from Bombay and the neighbouring districts of west Khandesh, Nasik and the Dangs.

76 Utran- V. P, (Taluka Chorasi)., P. 2,461. 21°–10' N., 72°–50' E.,

It is situated on the north bank of the river Tapi, three miles to the north of Surat. Utran is a railway station on the Bombay–Ahmedabad broad gauge section of the Western Railway.

The Gujarat Electricity Board has one of its plants at Utran which supplies electric power to the area from Baroda to Bulsar. The village is thus well–known for its electric power house.

77 Valod- G. P., P. 5,587

Valod is the headquarters of the Valod mahal with the Mahalkari's office. It is situated at a distance of 7 miles from Kiher and ten miles from Madhi which are railway stations on the Surat–Bhusaval broad gauge section of the Western Railway. It is also connected by pucca roads with Madhi, Bardoli and Buhari. There is a high school in the village.

A fair with a congregation of about 12,000 people is held on *Kartik Sud* 15 (November) at the *Mankameshwar Mahadev* on the bank of the Valmiki river.

78 Vapi- V. P. (Taluka Pardi), P. 11,212, 20°–20' N., 72°–50' E.

This is an important trading centre with a railway station on the Bombay–Ahmedabad broad gauge section of the Western Railway. It is on the border of Gujarat on the one hand and Daman previously in the possession of the Portuguese on the other. There is a big customs house and a training college for males and females.

The chief commodities exported from Vapi are hay, timber and *gur* (jaggery).

79 Variav- V. P. (Taluka Chorasi), P. 2,865, 21°-15' N., 72°-45' E,

Variav is a village about six miles north of Surat and is situated on the north bank of the river Tapi. Being a very important village of the former Baroda State, it had a Municipality till 1951 when it was converted into a village panchayat. Its origin is traced to the times of '*Rashtrakutas*' when it must have been a fairly big city. There is evidence to show that in those days it was also a port. Many ancient images and vessels reflecting Roman art have been excavated from this village. Evidence also exists to show that this village existed during the fourth century.

The Bohra Muslims of Variav are enterprising merchants who generally trade with Mauritius, Natal, Rangoon, Singapore, China and other distant places. The village has now lost its former glory as many of its important inhabitants have settled in Burma and other overseas countries.

There is a small water works constructed by one Suleman K. Madha, a businessman in Rangoon.

80 Vedchhi- G. P. (Mahal Valod), P. 1,152, 21°-00' N., 73°-15' E.

Vedchhi is a small village about two miles from Valod and 11 miles from Madhi a railway station on the Surat-Bhusaval broad gauge section of the Western Railway. An *Ashram,* known as Swaraj Ashram, was established here in 1928 by Shri Jugatram Dave. The *Ashram* takes keen interest in various social welfare activities such as basic education, bhoodan, sarvodaya, production of Khadi, rural development, and uplift of the tribal people. There is also a training college for the primary teachers.

81 Vyara- M., P. 15,273., 21°-05' N., 73°-20' E,

Vyara is the headquarters of the Vyara taluka and is a railway station, 39 miles east of Surat, on the Surat-Bhusaval broad gauge section of the Western Railway. It is connected by pucca roads with Unai, Dhulia, Songadh and Bajipura.

Before the merger of the Baroda State in 1949, Vyara was under the rule of the Gaekwad of Baroda. Being the headquarters of Vyara taluka and sub-division, it has the taluka and sub-divisional offices, a Government rest house and residential buildings and quarters for Government servants. There is an agricultural farm known as the Japanese farm where four Japanese cultivators are introducing the Japanese method of paddy cultivation with agricultural implements brought by them from Japan.

The municipal water works, about 30 years old, is situated on the bank of the river Mindhola. Water is brought from the catchment area to the Doswada tank from where the water is chhanelised into two settling tanks. The town has electric lights, the power for which is supplied by an independent co-operative society.

There are a Government dispensary and a public library which provides a separate section for women and children. It has a beautiful lake near which there is a municipal garden and play ground for children. There is a chhatralaya for the students of Scheduled Tribes. *Gur* (jaggery) of Vyara is famous.

A *Ghod-jatra* with a congregation of about 60,000 people is held on *Pausha Sud* 15 (December) at *Kotalsha Pir.*

PART II

1 CENSUS TABLES

2 OFFICIAL STATISTICS

A—GENERAL POPULATION TABLES

Out of 4 tables of A Series compiled at this Census, Tables A-I, A-III and A-IV giving area, houses and population, classification of villages and towns have been reproduced in the District Handbook. They are the same as those given in 1951. The most distinguishing features, however, are the various appendices and sub-appendices giving details of (a) 1951 territorial units constituting the present set-up of the district showing changes which have taken place during the decade, (b) villages with a population of 5,000 and over and towns with a population under 5,000, (c) houseless and institutional population, (d) 1951 population adjusted to 1961 administrative units, (e) new towns added in 1961, (f) towns in 1951 declassified in 1961 and (g) towns with their area and jurisdiction.

A-I—Area, Houses and Population

This table is more elaborate than that of 1951 as it gives in addition to area, houses and population, population per sq. mile, number of inhabited and uninhabited villages and number of towns. The data is given down to taluka/mahal with break-up for Total/Rural/Urban.

Brief Account of Changes in Area of the District from 1901 to 1961

Numerous changes have taken place since Independence in the areas of the districts, though the boundaries of various units comprised therein practically remained unchanged between 1901 and 1941. Three principal stages in which these changes have come about during the Post-Independence period are: (i) those that came in the wake of Independence after 1947; (ii) those that took place on the Reorganisation of States in 1956 and (iii) those that resulted from the bifurcation of the bilingual Bombay State in 1960.

Even after reorganisation in 1956, several territorial changes were effected in 1959, the details of which have been given in sub-appendix 2 to Appendix I to Table A-I alongwith the relevant notifications. Broad changes that have taken place in the territorial limits of the district between 1951 and 1961 are, however, listed below:—

Surat:- This district includes Surat district *plus* one more taluka, viz., Umbergaon and two more mahals, viz., Uchhal and Nizar, formed from 47 villages and 3 towns of Thana district and 129 villages of West Khandesh district as a result of bifurcation of the composite Bombay State.

Rural and Urban Population

During the past censuses there was no uniformity in the criteria prescribed for distinguishing urban areas from the rural. The definition of 'town', therefore, varied from State to State and the places were treated as towns if, in the opinion of the State Government or the Superintendent of Census Operations, they were found to possess urban characteristics. It included all municipalities, cantonments, civil lines and all places with more than 5,000 population which, it was decided, to treat as towns on the ground that they possessed urban characteristics. This definition of 'town' has remained substantially unchanged since 1891. To the characteristics aforementioned, Baroda State, which has merged into Bombay State in 1949 and now forms part of the newly formed Gujarat State added one more according to which all the headquarters of talukas were treated as towns. In view, however, of the increasing importance of studying urbanisation in all its varied aspects, the Registrar General, at the very outset of 1961 Census, emphasised the need for a uniform treatment by strictly defining the concept of 'town'.

Town:

'Town' has been defined as a place having a municipality or a cantonment or a place with a population of 5,000 and over if 75 per cent of its male population is dependent on non-agricultural pursuits. These tests were applied by the Collectors who furnished lists of places to be treated as towns in 1961, which were also got approved by the State Government and the Registrar General.

As against 18 places treated as towns in 1951, 17 qualify to be treated as urban according to the test prescribed by the Census of 1961. The loss of 1 is accounted for by declassification of 6 towns as villages as shown in Statement A and promotion of 5 villages as towns as shown in Statement B.

STATEMENT A

Urban areas of classes V & VI of 1951 eliminated in 1961 with population of 1951 and 1961

Class	Name and number of towns	Population	
		1951	1961
V	3	19,557	22,476
	1 Kadod	7,202	8,259
	2 Khattalwada	7,090	8,063
	3 Maroli	5,265	6,154
VI	3	10,048	13,597
	1 Bansda	4,455	5,937
	2 Songadh	2,858	4,795
	3 Variav	2,735	2,865

STATEMENT B

New urban areas of classes IV & V listed in 1961 with their names and population in 1961

Class	Name and number of towns	1961 Population
IV	3	32,724
	1 Vapi	11,212
	2 Katargam	10,959
	3 Pardi	10,553
V	2	16,170
	1 Jalalpur	9,590
	2 Abrama	6,580

Village:

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distirict number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

Census House:

Owing to the diversity of local conditions it was not possible in the past to lay down a uniform definition of a 'Census House' common to all parts of the country. The definition adopted till the Census of 1941 had two-fold connotation which emphasised either (i) the structural aspect, i.e., building or house or (ii) the social aspect, i.e., family or household. The former was defined as the residence of one or more families having a separate and independent entrance from the common way. But the social aspect was emphasised by defining a 'Household' as the home of the composite family with its resident dependents and servants. From 1881-1941, the Census Superintendents adopted the one or the other definition according to their convenience. A clear distinction was, however, drawn between a 'Census House' and a 'Census Household' in 1951 which gave a uniform meaning to the term 'Census House' or the 'Census Household' or the 'Family Unit'. The 'Census House' was defined as, 'a dwelling with a separate main entrance' and the 'Census Household' as 'all persons who live together in the same house and have a common mess'.

Though the definition of a 'Census House' introduced in 1951 was continued during the Census of 1961, it differs from that adopted by the Census of 1961 in that the latter is broad-based to include non-dwellings also. The house-list is thus an inventory of all structures or part of structures with a separate entrance.

The following definitions of the term 'Census House' given in the instructions for filling the house-list will clarify the position still further.

"A 'Census House' is a structure or a part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

A-III — Villages Classified by Population

This table classifies inhabited villages only by size of population. After giving the total number of inhabited villages and rural population for every taluka/mahal, it shows the number of villages and population for the following seven categories, namely:—

(1) less than 200, (2) 200-499, (3) 500-999, (4) 1,000-1,999, (5) 2,000-4,999, (6) 5,000-9,999 and (7) 10,000 and above.

Table A-III of 1951 gives combined figures of inhabited towns and villages classified by population, while A-III of 1961 gives figures of villages only classified by population.

A-IV—Towns and Town-groups Classified by Population in 1961 with Variation Since 1941

This table gives statistics relating to the figures of population since 1941 showing the growth of each town from census to census. Percentage variation is given from decade to decade, not only for the towns, but also for town-groups, where one or more urban units form a compact urban area. The total population of the town-group along with that of its constituent urban units is given under the class into which the town-group has been classified. Separate figures have, likewise, been given for municipal and non-municipal areas such as port area, suburban area, military area, railway colony, cantonment, etc., where a town is a combination of two or more such units. The following are the six classes into which the towns are grouped in Table A-IV according to the size of population:

Class	Population	Class	Population
I	100,000 and above	IV	10,000 to 19,999
II	50,000 to 99,999	V	5,000 to 9,999
III	20,000 to 49,999	VI	Less than 5,000

The areas of towns in sq. miles and sq. kilometres are also given in the table for 1961.

The term 'town' as defined at the Census of 1961 and its uniform adoption all over the country on the basis of certain specified tests have been explained under 'Urban and Rural Population' in the note to Table A-I.

'Town-group'—This is a new variant of the urban population which has been introduced for the first time on the present occasion. Large cities or expanding towns bring within their orbits new satellite towns, industrial areas or settlements interspersed by small bits of rural areas. Such urban areas, not necessarily municipal, are taken to form town-groups with the main city or town as one of the constituents.

'City'—Places having population of 100,000 and over either individually or as a town-group have been classified as cities.

A-I—AREA, HOUSES AND POPULATION

District/Taluka/Mahal	Total Rural Urban	Area in Sq. Miles	Area in Sq. Km.	Population per Sq. Mile	Number of Villages Inhabited	Number of Villages Uninhabited	Number of Towns	Number of Occupied Residential Houses	Population Persons	Population Males	Population Females

Nizar	R	151.9	393.4	387	85	6	..	9,980	58,801	29,278	29,523

NOTE :

1 Population per sq. mile under Column 4 has been worked out on the area figures given by the State Survey Department given in Column 3(a).

2 Under Column 4, population of those urban units, for which area figures are not available, is ignored for working out urban density. Rural density is worked out on the basis of rural population only though the area figures include areas of those urban units for which separate area figures are not available.

3 The sq. kilometres under Column 3(b) and density figures of urban areas of Taluka/Mahal and District under Column 4 are worked out using the area figures corrected up to 2 places of decimals obtained by adding the areas of the towns in the respective units. In addition to this, the figures relating to sq. kms. are further adjusted to make the Taluka/Mahal and District totals agree.

APPENDIX I

1951 TERRITORIAL UNITS CONSTITUTING THE PRESENT SET-UP OF DISTRICT AND EACH TALUKA/MAHAL

(Only those names/areas which have undergone changes since 1951 have been shown below)

District/ Taluka/Mahal	1951 territorial units	Details of gain in territories: Brief description	Area: Sq. Miles	Area: Sq. Km.	Details of loss in territories: Brief description	Area: Sq. Miles	Area: Sq. Km.	Net area Gain (+) Loss (—): Sq. Miles	Net area Gain (+) Loss (—): Sq. Km.
1	2	3	4	5	6	7	8	9	10
SURAT DISTRICT	As in 1951	[1] (i) 47 villages and 3 towns, viz., Umbergaon, Maroli and Khattalvada transferred from former Umbergaon taluka of Thana district.	133.0	344.5	..	..	..	+351.1	+909.4
		(ii) 129 villages transferred from Dhulia (West Khandesh) district of former Bombay State	218.1	564.9	..	..	..	..	..
Songadh	As in 1951	..	..	..	[2]28 villages transferred to Uchhal mahal	19.4	50.2	—19.4	—50.2
Bansda	As in 1951	2 villages, viz., Chapaldhara (Sl. No. 12) and Vandervala (Sl. No. 82) transferred from Chikhli taluka	11.2	29.0	..	..	..	+11.2	+29.0
Chikhli	As in 1951	.. ..	..	..	(2) villages, viz., Chapaldhara (Sl. No. 12) and Vandervela (Sl. No. 82) transferred to Bansda taluka	11.2	29.0	—11.2	—29.0
Umbergaon	..	[3] Newly constituted with 50 villages transferred from Umbergaon taluka then in Thana district	133.0	344.5	..	..	..	+133.0	+344.5
Uchhal	..	[4] Newly constituted with 66 villages as mentioned below	92.0	238.3	..	..	..	+92.0	+238.3
		(i) 38 villages transferred from Nawapur taluka of Dhulia (West Khandesh) district	72.6	188.1	..	..	..	..	..
		(ii) 28 villages transferred from Songadh taluka	19.4	50.2	..	..	..	..	..
Nizar	..	[5] Newly constituted with 91 villages transferred from Dhulia (West Khandesh) district as mentioned below	145.5	376.8	..	..	..	+145.5	+376.8
		(i) 10 villages transferred from Akkalkuva taluka of Dhulia (West Khandesh) district	9.3	24.1	..	..	..	..	..
		(ii) 43 villages transferred from Taloda taluka of Dhulia (West Khandesh) district	54.1	140.1	...	..	..	..	..
		(iii) 38 villages transferred from Nandurbar taluka of Dhulia (West Khandesh) district	82.1	212.6	...	..	..	..	..

SUB-APPENDIX I TO APPENDIX I

AREA FOR 1951 AND 1961 FOR THOSE MUNICIPAL TOWNS WHICH HAVE UNDERGONE CHANGES IN AREA SINCE 1951 CENSUS

District	Municipal Town	Area in Sq. Miles: 1951	Area in Sq. Miles: 1961	Remarks
1	2	3	4	5
Surat	Dharampur	0.72	1.66	Jurisdictional Change
	Bulsar	1.22	1.56	Jurisdictional Change
	Bilimora	1.00	1.50	Jurisdictional Change

SUB-APPENDIX 2 TO APPENDIX I

DISTRICT/TALUKA/MAHAL SHOWING 1951 POPULATION ACCORDING TO TERRITORIAL JURISDICTION IN 1951, CHANGES IN AREA AND THE POPULATIONS INVOLVED IN THOSE CHANGES

(This relates to Appendix to Table A-II which exhibits data upto district level in Census of India 1961, Volume V Part II-A, Gujarat.)

	10 Bilimora (960-0)	Part (960-0) of Bilimora village
	11 Gandevi (1,082-0)	Part (1,082-0) of Gandevi village
	12 Bulsar(998-0)*	Parts of (1) Bulsar (2) Bhogdawada and (3) Mograwadi villages
	13 *Abrama* (1,542-19)	Abrama (1,542-19)
	14 Dharampur (1,064-0)	Part (1,064-0) of Dharampur village
	15 Pardi (3,236-0)	Pardi village (3,236-0)
	16 *Vapi* (3,033-0)	Vapi village (3,033-0)
	17 Umbergaon (3,175-25)	Umbergaon village (3,175-25)

NOTE: *Separate area for constituents not available

B—ECONOMIC TABLES

This series is divided into two parts, viz., (i) General Economic Tables and (ii) Household Economic Tables. Economic Tables of the 1961 Census cover a very large field of data and are more elaborate than any of their predecessors. The most important point to remember about the economic tables is that during the past censuses, income or economic independence was the test applied for measuring the economy of the country. Before 1961, economic activity was interpreted in terms of categories like economically independent or economically dependent, semi-dependent, earning dependents or non-earning dependents. In 1951, the economic classification was confined to the eight livelihood classes with stress on income rather than work or economic activity of the individual. The most significant departure that the Census of 1961 has made is the emphasis laid on work, so that all people who work, including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance have also been included as workers. Even the non-workers have been distributed into eight-fold categories according to the activities pursued by them. This change in concept will help obtain a realistic picture of the economic activity of those important sections of household workers who were left out of account in the past.

The Household Economic Tables on the other hand are an entirely new feature of the 1961 Census. They are prepared from household schedules by mechanical tabulation on the basis of 20 per cent sample and give all possible data relating to the extent of land under cultivation, nature of household industry, period of work in household industry and the persons employed either as family workers or as hired labourers.

Industrial and Occupational Classification

Another noteworthy feature of the General Economic Tables is the systematic classification of industries and occupations. For, the one introduced in 1951 was, as truly pointed out by the Registrar General, neither a purely industrial nor occupational classification of the population but a combination of both. The National Classification of Industries and Occupations adopted by the Government of India and followed on the present occasion classifies the economic data into 9 divisions, 45 major groups and 343 minor groups of industries and 11 divisions, 75 groups and 331 families of occupations as against a conglomeration of 10 divisions and 88 sub-divisions of services in 1951.

The following statement gives the categories of industrial workers adopted in the current census and the eight livelihood classes of 1951.

1961 Industrial Categories	1951 Means of Livelihood
	AGRICULTURAL CLASSES
I As Cultivators	I Cultivators of land wholly or mainly owned and their dependents
II As Agricultural Labourers	II Cultivators of land wholly or mainly unowned and their dependents
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	III Cultivating Labourers and their dependents
IV At Household Industry	IV Non-cultivating owners of land, agricultural rent receivers and their dependents
V In Manufacturing other than Household Industry	NON-AGRICULTURAL CLASSES
VI In Construction	Persons (including dependents) who derive their principal means of livelihood from :
VII In Trade and Commerce	V Production other than cultivation
VIII In Transport, Storage and Communications	VI Commerce
IX In Other Services	VII Transport
X Non-workers	VIII Other services and miscellaneous sources

In 1951 the non-workers who were known as non-working dependents were classified according to the occupation of the persons on whom they were dependent.

The non-working population is distributed separately for the first time according to eight types of activities, viz., (i) full-time students or children attending school who do no other work, (ii) housewives and persons engaged in unpaid home duties, (iii) infants and other dependents including permanently disabled or old persons, (iv) retired persons, rentiers and others who are in receipt of income without doing any work, (v) beggars, vagrants and others of unspecified source of existence, (vi) convicts in jails or inmates of penal, mental or charitable institutions, (vii) persons not employed before but seeking employment for the first time and (viii) persons employed before but now out of employment and seeking employment.

Broadly speaking, workers of 1961 can be taken to be equal to self-supporting persons *plus* earning dependents of 1951 *minus* those in receipt of income without work such as rentiers, pensioners, beggars, etc.

In respect of persons who are workers, the information is available in Q. 8 Cultivators, Q. 9 Agricultural Labourers, Q. 10 Working at Household Industry and Q. 11 Working at Non-household Industry, Profession, Trade, Business or Service. Following extracts from the Manual of Instructions to Enumerators relating to Questions 8 to 12 on the basis of which the General Economic Tables are compiled will be helpful in appreciating the contents of these tables.

Q. 8 Working as Cultivator

A person is said to be working as cultivator if he/she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share. Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations which are shown in Q. 10 or Q. 11, as the case may be.

Q. 9 Working as Agricultural Labourer

A person is said to be working as Agricultural labourer when he works in another person's land only as a labourer without exercising any supervision or direction in cultivation for wages in cash, kind or share of produce. Also the labourer has no right or lease or contract on land on which he works, nor he is responsible for taking decision as to which crops to sow and when or taking the risks of cultivation.

Q. 10 Household Industry

A Household industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Household industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

Q. 11 Doing work other than 8, 9 or 10

Nature of work (occupation) is the exact function that a person performs in the economic sector in which he/she is engaged. This information was to be filled in Q. 10(a) or 11(a) of the individual slips. The 'industry' means that sector of economic activity in which the earner is engaged, and the name of that industry was recorded according to the name of the principal article produced, serviced or repaired. Specific instructions were given to record replies to Q. 11(a) and 11(b) as under :—

(1) In the case of married or grown up women who do any of the work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cow dung cakes, grass, etc., in addition to the usual household duties, such duties were fully described and 'HW' written in brackets after the full description.

(2) If a person makes the articles he sells, he was treated as maker and seller of them.

(3) The vague terms like scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher, etc., were not written.

(4) For labourers accustomed to work on various jobs, 'general labourer' was mentioned.

(5) Machine Operator

The kind of machine used with its recognised name was given.

(6) Shop-keepers, Retail Dealers, Shop Assistants

If a person was mainly engaged in selling, 'Dealer' was written and if assisting 'Shop Assistant' or 'Salesman' was written. 'Wholesale' and 'Retail' was stated when the business was carried on in wholesale or in retail.

(7) The nature of transport was fully mentioned like air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by bullock, camel, etc.

(8) For a person engaged in Defence services, 'service of Central Government' was written.

(9) Domestic Services

In the case of any private servant, e.g., a cook or domestic servant, 'private or domestic servant' only was written. There was no industry in their case but in cases of persons employed in hotels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., were added.

Status of economically active persons

Economically active persons were divided into 4 classes (1) Employer (2) Employee (3) Single worker and (4) Family worker.

An 'employer' is that person who hires one or more persons in his work.

An 'employee' is that person who works under others for wages or salary in cash or kind.

A 'single worker' is that person who does his work without employing others except casually and without the help of the other members of the family except casually.

A 'family worker' is that person who is doing his work in own family without wages or salary in cash or kind.

Thus one more status of economically active person, viz., family worker is added against only first three in the previous census of 1951.

Q. 12 Activity, if not working

A person who is not working has been classified as non-worker. Non-workers are distributed separately according to eight types of activities already noticed above.

(i) General Economic Tables

There are in all 24 Economic Tables compiled in B-Series—16 General Economic Tables compiled from individual enumeration slips and 8 Household Economic Tables from household schedules on 20% sample basis. Out of the 16 General Economic Tables, the District Handbook reproduces the following 12.

B-I—Workers and Non-workers classified by sex and broad age-groups

Table B-I is the basic economic table furnishing the total population and 9 industrial categories of workers and non-workers. The data is presented for the district with total/rural/urban break-up.

The classification of workers and non-workers by broad age-groups, viz., 0-14, 15-34, 35-59 and 60 and above, is the special feature of 1961 census as these age-groups correspond to the different stages of life

which have a special significance as regards capacity to work, viz., children, young persons, middle aged persons and old persons.

TABLE B-III-A AND B—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

This table which corresponds to the Table D-VII of 1951 is given in two parts—A & B. Part-A relates to the urban areas and Part-B relates to rural areas. The data in Part-A are presented for the district and that in Part-B down to taluka/mahal for rural areas.

In 1951, only literate and educated persons were classified into eight educational standards by 8 livelihood classes. No classification of illiterate persons into 8 livelihood classes was given in 1951; whereas in this Table, nine categories of workers and also non-workers are given for illiterates as well as for literates.

Non-technical diplomas and degrees have this time been distinguished from technical diplomas and degrees and separate information given also for each technical degree.

TABLE B-IV—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK OTHER THAN CULTIVATION

This table corresponds to table B-III of 1951. It has been presented in three parts on the basis of the principal work of the persons. Part-A relates to persons at work in Household Industry, classified by branch of industry and class of workers (employee and others). Figures for the district are given for Divisions and Major groups for total/rural/urban and those for taluka/mahal for Divisions and rural areas only. Part-B pertains to persons at work in non-household industry, trade, business, profession or service, classified by branch of industry and class of workers (Employer, Employee, Single worker and Family worker). Figures for the district are given for Divisions and Major groups for total/urban and those for taluka/mahal figures for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the Villagewise List of Industrial Establishments. Part-C relates to persons at work at household as well as in non-household industry classified by branch of industry. Figures for the district are given for Divisions, Major groups and Minor groups with descriptions for total/urban and those for taluka/mahal for Divisions only and rural areas only.

Table B-III of 1951 furnished figures of self-supporting persons only whereas in this table all the persons who work including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance are included as workers. In 1951, there were three classes of workers, viz., Employer, Employee and Independent workers whereas in this table, workers are classified in four categories, viz., Employer, Employee, Single worker and Family worker, the definitions of which are already given before.

Appendix to Part-C shows in run on lines Minor Groups with the number of male and female workers separately for household industry and non-household industry in brackets having less than 1% of workers of the respective Division (0.5% for Divisions 2 & 3 combined) which are omitted from the table.

TABLE B-V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

This is a new table in which cross-tabulation of industry and occupation has been made for the first time. Figures for the district are given by Divisions, Groups and Families for total/urban and for taluka/mahal by Divisions only for rural areas.

Separate data are furnished for the persons working in household industry and other industrial categories as adopted in the Primary Census Abstract alongwith the Divisions, Groups and Families giving code numbers and actual description. The National Classification of occupation followed in this table is in conformity with international usuage.

Appendix to this table shows in run on lines, families with the number of male and female workers followed by industrial categories having less than 1% of workers of the respective Division (0.5% for Divisions 7 & 8 combined) which are omitted from the main table.

While applying quality checks, some occupations appeared to have been classified under inappropriate industrial categories vis-a-vis the occupations or the nature of work done by persons in economic sector of their activity. Such cases are listed in the annexure to the table, indicating the appropriate industrial category in which they deserve to be classified.

TABLE B-VII PART-A—PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS, (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY, (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

TABLE B-VII PART-B—INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

In this table figures are presented for the district for Divisions and Major groups with total/rural/urban break-up and those for taluka/mahal for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the Villagewise List of Industrial Establishments.

In a similar table B-II of 1951, there was cross-tabulation of self-supporting persons and earning dependents with reference to the secondary means of livelihood which was confined to 8 livelihood classes, while this table affords cross-tabulation between principal work in cultivation and household industry or *viceversa.*

Appendix to Table B-VII-A shows in run on lines Major Groups of household industry having secondary work, which are omitted from the table being less than 5% of major groups as principal work followed in each case by the number of industrial categories and number of males and females having secondary work separately for total/rural and urban population in brackets.

TABLE B-VIII PART-A—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN URBAN AREAS ONLY

TABLE B-VIII PART-B—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX AND EDUCATIONAL LEVELS IN RURAL AREAS ONLY

This is a new table prepared for the first time in 1961. It is in two parts. Part-A relates to urban areas and is presented for district. Part-B relates to rural areas and is presented down to taluka/mahal.

The classification of unemployed persons is shown separately for (i) those who are seeking employment for the first time and (ii) for those who were employed before but are now out of employment and seeking work. The age-groups given in the first case are quinquennial, viz., 15-19, 20-24, 25-29, 30-34 and 35+ modified in the second case as 15-19, 20-24, 25-34, 35-44, 45-59 and 60+.

In Part-A relating to urban areas information for unemployed persons is furnished for all educational levels, and in Part-B for educational levels upto matriculation and above.

TABLE B-IX—PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

This is a new table introduced for the first time. The table is presented for district with total/rural/urban break-up and for taluka/mahal for rural areas only. It classifies non-working population into 8 types of activities based on the recommendation of the United Nations Organisation. They are :—

1 Full-time students
2 Persons performing household duties without wages
3 Dependents, infants and disabled persons
4 Retired persons, rentiers or persons of independent means
5 Beggars, vagrants, etc.
6 Inmates of penal, mental and charitable institutions
7 Persons seeking employment for the first time
8 Persons employed before, but now out of employment and seeking work

(ii) Household Economic Tables

Out of the 8 Household Economic Tables compiled at this census, 4 tables which are reproduced in the District Handbook are :—

Table B-X—Sample Households (i) engaged neither in cultivation nor household industry, (ii) engaged either in cultivation or household industry but not in both and (iii) engaged both in cultivation and household industry

(Based on 20% Sample)

This table is prepared for total, rural and urban for the district and for rural areas only for taluka/mahal.

Cultivation includes ownership, tenancy cultivation and agricultural labour. Household industry has been defined in the general note above.

Table B-XI—Sample Households engaged in cultivation classified by interest in land and size of land cultivated in Rural and Urban areas separately

(Based on 20% Sample)

For rural areas the data has been given down to taluka/mahal while that for urban areas has been given only for the district as a whole.

This table gives very useful data on the size of holdings and affords a cross-tabulation of names of local rights over land (interest), viz., (a) owned or held from Government, (b) held from private persons or institutions, (c) partly held from Government and partly from private persons, and size of holding, viz., less than 1; 1.0-2.4; 2.5-4.9; 5.0-7.4; 7.5-9.9; 10.0-12.4; 12.5-14.9; 15.0-29.9; 30.0-49.9, 50+ and unspecified.

Table B-XII—Sample households engaged in cultivation only classified by size of land cultivated and number of family workers and hired workers in Rural and Urban areas separately

(Based on 20% Sample)

For rural areas the data has been given down to taluka/mahal and that for urban area for the district as a whole. The information for households that are engaged only in cultivation has been cross-tabulated by number of persons engaged in cultivation and each prescribed size class of holding. Working strength in cultivation is further separated into family workers and hired workers when more than 1 person is engaged in cultivation.

Table B-XVI—Sample Principal Household industry classified by period of working and total number of workers engaged in household industry in all areas

(Based on 20% Sample)

This table is presented for the district with total/rural/urban break-up. The data in respect of households engaged in household industry only or both in household industry and cultivation has been given separately with the Divisions and Major groups of household industry. The household industry has been classified according to the period of working, viz.,

1-3 months, 4-6 months, 7-9 months, 10 months to one year. Under each duration period number of households, number of family workers and number of hired workers have also been given.

Appendix to this table shows in run on manner Major groups of household industry which are omitted from the table being less than 10% of the respective Division, giving the number of major groups, with or without cultivation, with period of working in abbreviation and the number of households in brackets separately for total, rural and urban.

TABLE B-XVII—SAMPLE HOUSEHOLDS CLASSIFIED BY (i) NUMBER OF MALE AND FEMALE MEMBERS BY SIZE OF HOUSEHOLDS AND (ii) ENGAGEMENT (a) NEITHER IN CULTIVATION NOR IN INDUSTRY, (b) IN HOUSEHOLD INDUSTRY ONLY AND (c) IN CULTIVATION SUB-CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

The table is presented down to district and gives data for total/rural/urban. It is intended to give family sizes distributed according to single member, small, medium, large and very large families. Though a 'Census Household' is not the same as a 'family' and also includes unrelated persons living with the family during the census count, the table will give a general idea of the sizes of families as the number of families having outsiders is quite insignificant.

The table gives such economic data as (i) Households engaged neither in cultivation nor household industry, (ii) Households engaged in household industry only and (iii) Households engaged in cultivation by size of holding groups with the break-up of sample households into (i) Single member, (ii) 2-3 members, (iii) 4-6 members, (iv) 7-9 members and (v) 10 members and over.

Since the table is based on 20% sample, total number of households and household population are given in the following statement :—

Total Number of Households and Household Population

District	Total Rural Urban	Total No. of households	Total household Population		
			Persons	Males	Females
1	2	3	4	5	6
Surat	Total	447,103	2,451,624	1,231,418	1,220,106
	Rural	350,824	1,909,429	950,545	958,884
	Urban	96,279	542,195	280,873	261,322

	273	Making of textile garments including raincoats and headgear	9,212	7,699	1,513
	279	Processing and manufacture of textile products not covered adove	946	645	301
Major Group	28	Manufacture of Wood and Wooden Products	13,963	10,714	3,249
Minor Group	280	Sawing and planing of wood	986	932	54
	281	Manufacture of wooden furniture and fixtures	2,320	2,317	3
	282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	2,986	2,977	9
	283	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fiixtures	1,155	1,078	77
	288	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	5,347	2,325	3,022
	289	Manufacture of other wood and allied products not covered above	979	901	78
Major Group	29	Paper and Paper Products	952	833	119
Minor Group	290	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	725	655	70
Major Group	30	Printing and Publishing	999	992	7
	31	Leather and Leather Products	2,807	2,596	211
Minor Group	311	Manufacture of shoes and other leather footwear	1,678	1,635	43
Major Group	32	Rubber, Petroleum and Coal Products	120	113	7
	33	Chemicals and Chemical Products	3,067	2,626	441
Minor Group	331	Manufacture of dyes, paints, colours and varnishes	1,582	1,537	45
	338	Manufacture of common salt	639	334	305
Major Group	34–35	Non-metallic Mineral Products other than Petroleum and Coal	6,698	4,160	2,538
Minor Group	340	Manufacture of structural clay products such as bricks, tiles	3,817	2,315	1,502
	350	Manufacture of earthenware and earthen pottery	2,179	1,237	942
Major Group	36	Basic Metals and their Products except Machinery and Transport Equipment	4,935	4,849	86
Minor Group	365	Manufacture of brass and bell metal products	1,208	1,193	15
	369	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37 38 and 39)	2,204	2,173	31
Major Group	37	Machinery (All kinds other than Transport) and Electrical equipment	762	756	6
	38	Transport Equipment	1,830	1,779	51
Minor Group	388	Repairing of bicycles and tricycles	597	594	3
Major Group	39	Miscellaneous Manufacturing Industries	7,273	7,036	237
Minor Group	393	Manufacture of jewellery, silverware and wares using gold and other precious metals	5,134	5,070	64
	399	Manufacture and repair work of goods not assignable to any other group	1,646	1,495	151

**Division 4 Construction*			*12,597*	*9,803*	*2,794*
Major Group	40	Construction	12,597	9,803	2,794
Minor Group	400	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical & sanitary installations	6,464	5,162	1,302
	401	Construction and maintenance of roads, railways, bridges, tunnels	2,361	1,860	501
	403	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	3,709	2,718	991
**Division 5 Electricity, Gas, Water and Sanitary Services*			*1,753*	*1,739*	*14*
Major Group	50	Electricity and Gas	1,566	1,554	12
Minor Group	500	Generation and transmission of electric energy	1,236	1,225	11
	501	Distribution of electric energy	319	318	1
Major Group	51	Water Supply and Sanitary Services	187	185	2
Minor Group	510	Collection, purification and distribution of water to domestic and industrial consumers	162	160	2
	511	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	25	25	..
**Division 6 Trade and Commerce*			*39,866*	*35,966*	*3,900*
Major Group	60–63	Wholesale Trade	2,475	2,394	81
Minor Group	600	Wholesale trading in cereals and pulses	648	641	7
Major Group	64–68	Retail Trade	34,835	31,151	3,684
Minor Group	640	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices oil, fish, dairy products, eggs, poultry	17,347	14,404	2,943
	641	Retail trading in beverages such as tea (leaf), coffee (Seed and powder), aerated water	567	549	18
	644	Retail trading in tobacco, bidi, cigarettes and other tobacco products	1,550	1,464	86
	645	Retail trading in fuel such as coke, coal, firewood and kerosene	874	770	104
	646	Retail trading in food stuffs like sweetmeat condiments, cakes biscuits, etc.	1,434	1,375	59
	650	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piece goods of cotton, wool, silk and other textiles)	4,410	4,347	63
	662	Retail trading in metal, porcelain and glass utensils.	548	505	43
	664	Retail trading in other household equipment not covered above	1,117	1,081	36
	672	Retail trading in wood, bamboo cane, bark and thatches	487	446	41
	689	Retail trading in goods unspecified	3,053	2,835	218
Major Group	69	Trade and Commerce Miscellaneous	2,556	2,421	135
Minor Group	695	Banking and similar type of financial operation	995	989	6
	699	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	717	601	116
**Division 7 Transport, Storage and Communication*			*20,809*	*20,571*	*238*
Major Group	70–71	Transport	19,103	18,892	211
Minor Group	700	Transporting by railways	8,709	8,580	129
	701	Transporting by tramway and bus service	1,970	1,957	13
	702	Transporting by motor vehicles (other than omnibus)	1,321	1,318	3
	703	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	907	903	4
	704	Animal transporting by animals such as horses, elephant, mule, camel	723	708	15
	705	Ttansporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	840	833	7

APPENDIX

Minor Groups having less than 1% of workers of the respective division and less than 0.5% in case of Minor Groups of Division 2&3 only have been shown in this Appendix. The following abbreviations have been used:- 'HI' for Household Industry, 'NHI' for Non-household Industry, 'M' for Males and 'F' for Females.

SURAT DISTRICT

007 Total NHI (M12,F2); 008 Total NHI (M2); 013 Total NHI (M1, F6), Urban NHI (F6); 015 Total HI (F1), NHI (M119,F63), Urban HI(F1), NHI (M62,F18); 022 Total NHI (M22), Urban NHI (M8); 024 Total NHI (M9), Urban NHI (M8); APPENDIX

Families having less than 1% of the workers of the respective divisions (less than 0.5% in case of Division 7-8 only) have been shown in this appendix. The following abbreviations have been used:—

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities
IV At Household Industry
V In Manufacturing other than Household Industry
VI In Construction
VII In Trade and Commerce
VIII In Transport, Storage and Communications
IX In Other Services
M=Males
F=Females

APPENDIX

Major groups of household industry where persons having secondary work as cultivation or agricultural labour, are less than 5 % of the persons having the major group as principal work, have been shown in this appendix. The following abbreviations have been used:-

I—As Cultivator	M=Males
II—As Agricultural Labourer	F=Females

00 Total I (M1), Urban I (M); 23 Total I (M95,F20) II (M6,F10), Rural I (M85,F17) II (M6,F10), Urban I (M10,F3); 26 Total I (M1), Urban I (M1); 27 Total I (M366,F43) II (M15,F6), Rural I (M322,F40) II (M15,F6), Urban I (M44,F3); 33 Total I (M2), Rural I (M2); 39 Total I (M86,F1) II (M3), Rural I (M54,F1) II (M2), Urban I (M32) II (M1).

APPENDIX

Major groups of the Household Industry which are less than 10 per cent of the respective divisions have not been shown in the main table which shows such divisions by an asterisk. Major groups thus dropped from the main table are given run on in this Appendix. The figure preceding the bracket represents the code number of the major group dropped from the Table. Alphabets given in brackets are abbreviations meant for different ranges of period of working in the Household Industries 'with' or 'without' cultivation as explained below. The numerical figure given after alphabet denotes the number of households in that particular range indicated by that alphabet.

Abbreviation			Class Range of Period of Working	Abbreviation			Class Range of Period of Working
A	means	with cultivation	1 to 3 months	E	means	without cultivation	1 to 3 months
B	,,	,,	4 to 6 ,,	F	,,	,,	4 to 6 ,,
C	,,	,,	7 to 9 ,,	G	,,	,,	7 to 9 ,,
D	,,	,,	10 months to 1 year	H	,,	,,	10 months to 1 year
X	,,	,,	Unspecified months	Y	,,	,,	Unspecified months

For example:- District Surat-Rural 20 (B-6, C-1, E-1, X-1, Y-4)

Figure 20 stands for major group 20 relating to "foodstuffs", B-6 means that there are 6 households working in the class range of '4 to 6 months' in the household industry with cultivation. C-1 means that there is 1 household working in the class range of '7 to 9 months' in the household industry with cultivation and E-1 means that there is 1 household working in the class range of "1 to 3 months" in the household industry without cultivation; X-1 means that there is one household working for "unspecified months" in the Household Industry with cultivation and Y-4 means that there are 4 households working for "unspecified months" in the household industry without cultivation in the 'foodstuffs' industry in the rural areas of Surat District.

C-SOCIAL AND CULTURAL TABLES

This series contains 8 tables of which Table C-I has been prepared from Household Schedules, on the basis of 20 per cent sample. It gives information about composition of sample households according to marital status. All the other tables in this series are based on full count and give age, sex and education, separately for rural and urban areas, single year age returns, mother tongue in alphabetical order, religion and classification by literacy and industrial category of workers and non-workers among Scheduled Castes and Scheduled Tribes. All the tables of this series except Table C-VI have been reproduced in the District Census Handbook.

Table C-I—Composition of Sample Households by Relationship to Head of Family Classified by Size of Land Cultivated

(Based on 20% Sample)

The table is prepared from Part II Census Population Record of the Household Schedules for total, rural and urban areas of the district. A household means the entire groups of persons who commonly live together in the same census house and usually take their meals from a common mess. It thus includes outsiders residing with the family during enumeration. This table, therefore, gives the composition of a household by family and non-family member. Besides, the heads of the households and their spouses, other family members like married sons and other relations are given separately by sex and marital status.

Table C-II—Age and Marital Status

This table is presented for the district with rural/urban break-up while those for taluka/mahal for rural areas only. It corresponds to Table C-III of 1951 which was prepared on a 10% sample of the slips taken out at the time of initial stage of sorting, while this table is prepared on full count according to the quinquennial age-groups recommended by United Nations Organisation. In Table C-III of 1951 there were 3 categories of marital status, viz., unmarried, married and Divorced/Separated, whereas in this table are given five categories of marital status, viz., (1) never married, (2) married, (3) widowed, (4) divorced/separated and (5) unspecified. In 1951, the information regarding widowed or divorced was given jointly, whereas these two types of marital status are compiled separately this time.

Columns 14 and 15 relating to unspecified status have been deleted from the table. Such persons are 4 males 2 females returned from Rural areas.

Table C-III—Age, Sex and Education

It corresponds to Table C-IV of 1951 which was prepared on 10% sample. This table is prepared on full count this time and is presented in two parts-A and B for the district. In Part-A broad educational levels upto matriculation and above are given for all areas. In Part-B educational levels are given in details with technical and non-technical diplomas, university degrees and technical degrees in urban areas only. In 1951, only sum total of all literate and illiterate persons was given, whereas in 1961, educational levels for literate persons are given in details.

Table C-IV—Single Year Age Returns

The Table is presented for district with total/rural/urban break-up.

It corresponds to Table C-V of 1951 Census which was prepared on 10% sample. This table has been prepared on full count in 1961. The age in years completed on 1st March, 1961 has been given but the infants who did not complete one year on 1-3-1961 have been shown under age group "0".

Table C-V—Mother Tongue

This table corresponds to Table D-I-(i) of 1951 in which languages and dialects as returned were shown in the descending order of number of speakers. This time all the languages as actually returned

are arranged in the alphabetical order with population, persons, males, females, for total, rural and urban areas for the district and for rural areas for taluka/mahal.

'Mother tongue' is the language spoken in childhood by the person's mother to the person or the language spoken in the household.

Table C-VII—Religion

It is prepared separately for total, rural and urban areas of the district and for rural areas of talukas and mahals. This Table corresponds to table D-II of 1951, in which the figures of religions other than the eight main religions were grouped in the residuary category 'other religions', whereas in this table data are given for six main religions only, viz., Budhist, Christian, Hindu, Jain, Muslim, Sikh and persons returned as professing other religions, sects and beliefs which could not be classified under any of the religions have been grouped under "Other Religions and Persuasions."

Table C-VIII—Scheduled Castes and Scheduled Tribes

Part A—Classification by Literacy and Industrial Category of Workers and Non-workers Among Scheduled Castes

Part B—Classification by Literacy and Industrial Category of Workers and Non-workers Among Scheduled Tribes

This table is presented for the district with total/rural/urban break-up and for taluka/mahal for rural areas only.

In this table total population of Scheduled Castes/Scheduled Tribes and their distribution by nine industrial categories of workers and also non-workers adopted in the Primary Census Abstract are shown by literate and illiterate.

Part-A relates to Scheduled Castes and Part-B to Scheduled Tribes.

C-I—COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

Note:

(i) Mother tongues printed in italics belong to countries outside the Indian Sub-continent.
(ii) Names occuring after hyphen (-) have been introduced by the Linguist to indicate groupings.
(iii) Asterisk (*) means that the mothertongue is unclassified in Linguistic Survey of India.
(iv) Dagger (†) denotes that the mother tongue though classified in Linguistic Survey of India is either tentatively reclassified or considered unclassifiable by the Linguist.
(v) Asterisk and dagger (*†)denote that the mothertongue is unclassified by Grierson but is tentatively classified by the Linguist

E—HOUSING TABLES

The present Housing Census is the first of its kind in the history of the Indian Census organized on a uniform basis throughout the country alongwith the population Census of 1961. In the past censuses, house-listing was purely an administrative arrangement. Only residential houses were numbered and listed with the name of the head of the household. However, during 1961 Census a comprehensive house-list for collecting detailed information regarding each census house and industrial establishment formed part of the statutory census schedules. The house-list form brought into use during the current Census has recorded data on housing such as type of houses, tenure status, material of wall and roof, number of rooms in a census household and of persons residing therein as well as essential data relating to establishments, workshops and factroies, such as name of the establishment or proprietor, name of products, number of persons working and the kind of fuel or power, if machinery is used.

The following five housing tables have been compiled from the house-lists:-

E-I—Census Houses and the uses to which they are put

E-II—Tenure Status of Sample Census households living in Census houses used wholly or partly as dwelling

E-III—Census houses used as factories and workshops classified by industry, power and no power used and size of employment

E-IV—Distribution of Sample households living in Census houses used wholly or partly as dwelling by predominant material of wall and predominant material of roof

E-V—Sample households classified by number of members and by number of rooms occupied

Out of the five tables stated above, Tables E-I and E-III have been prepared on full count and Tables E-II, IV and V on the basis of 20 per cent sampled households. For the purposes of drawing the sample, the house-lists were arranged separately in the order of location code numbers in case of (i) rural areas of a taluka/mahal and (ii) urban areas other than towns with population of 50,000 and over for a district and (iii) for every town with a population of 50,000 and over. The samples were marked continuously for all the house-lists thus arranged and the households left over at the end of the house-list after marking the last sample were carried over to the next house-list for sample selection.

Tables E-I, E-II, E-IV and E-V are given in the District Census Handbook for the district, taluka and towns with a population of 50,000 and over. But the data regarding number of establishments contained in Table E-III are separately compiled down to village and given in the Villagewise List of Industrial Establishments.

The explanatory note on each of the tables is given below:-

TABLE E-I—CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

Table E-I prepared on full count gives figures of census houses separately for total, rural and urban areas of the district, talukas, cities and towns with population of 50,000 and over, classified into different categories according to the uses to which they are put. Those found vacant at the time of house-listing have also been shown separately as such. The following are the various types of houses into which occupied houses have been classified:-

Dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, hotels, hostels, sarais, dharamshalas, tourist homes and inspection houses, shops excluding eating houses, business houses and offices, factories registered

under the Factories Act and worksheds and workshops not so registered, schools and other educational institutions including training classes, coaching and shop classes, restaurants, sweetmeat shops and eating places, places of entertainment and community gathering (Panchayat Ghar), public health and medical institutions, hospitals, health centres, doctor's clinics, dispensaries, etc.

Others

Occupied census houses which do not fall in any of the above categories have been classed as 'Others'.

With a view to understand the significance of statistics incorporated in E Series of Tables, the concepts and definitions of the terms occuring in the table are given below:-

Census house

"A Census house is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

Census household

"A household is a group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so."

Shop

"A shop is a place where articles are sold for cash or for credit."

Workshop

"A workshop is a place where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold, and is not a factory registered under the Factories Act."

Following are some of the instances:-

Paper-making, shoe-making, tailoring, cycle-repairing, motor-servicing, halwai's shop, pottery-making, goldsmith, blacksmith, etc.

Factory

"A factory is a large workshop which has been registered under the Indian Factories Act."

Business houses

Business houses are those premises where transactions in money or other articles are taking place. Detailed explanation of all these will be found in the Introductory Chapter of the Report on Housing and Establishments.

TABLE E-II—TENURE STATUS OF SAMPLE CENSUS HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING

This table has been prepared on the basis of 20 per cent sample. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, and dwellings with other uses have been taken into account for the purpose of marking the samples. Shop-*cum*-dwellings and workshop-*cum*-dwellings are census houses which are partly used for residential or dwelling purposes and partly used as a shop or workshop. The total number of households given in column 4 of this table gives the total of such samples classified into the aforementioned four categories of dwellings, which have been further classified according to their tenure status, whether owned or rented, for the district, talukas and towns with population of 50,000 or more as also for total/rural/urban.

TABLE E-IV—DISTRIBUTION OF SAMPLE HOUESHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING BY PREDOMINANT MATERIAL OF WALL AND PREDOMINANT MATERIAL OF ROOF

This table has been prepared on 20 per cent sample basis. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the sample. The total number of houses given in column 3 of this table gives the totals of all such sampled households. The material out of which most of the walls are made or where a house consists of separate structures, each of different materials, the material out of which the walls of the main bedrooms are made has been entered. The wall material has been classified into the following nine categories:-

(1) Grass, leaves, reeds or bamboo
(2) Timber
(3) Mud
(4) Unburnt bricks
(5) Burnt bricks
(6) C. I. Sheets or other metal sheets
(7) Stone
(8) Cement concrete
(9) All other material

The material out of which most of the outer roof exposed to the weather and not the ceiling is made, i.e., tiles, thatch, corrugated iron, zinc or asbestos cement sheets or concrete, etc., or in the case of multi-storeyed building, the material out of which the intermediate floor or floors have been made, have been entered and classified into the following seven categories:-

(1) Grass, leaves, reeds, thatch, wood or bamboo
(2) Tiles, slate, shingle
(3) Corrugated iron, zinc or other metal sheets
(4) Asbestos cement sheets
(5) Brick and lime
(6) Concrete and stone slabs
(7) All other material

This table has been prepared for the district, talukas and cities and towns with population of 50,000 or more, as also for total/rural/urban.

TABLE E-V-SAMPLE HOUSEHOLDS CLASSIFIED BY NUMBER OF MEMBERS AND BY NUMBER OF ROOMS OCCUPIED

This table has been prepared on 20 per cent sample basis. Census Households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the samples. The figures given in column 3 of this table are the totals of all such sampled households. The sex break-up of the total number of members occupying such sampled households as also the total number of rooms in these households are shown separately. All the sampled households have been further classified into the following six categories:—

(i) no regular room
(ii) one room
(iii) two rooms
(iv) three rooms
(v) four rooms
(vi) five rooms or more

The classification of households into the above categories gives not only the number of households in each category, but also the number of occupants by sex.The units for which this table has been compiled are district, talukas and cities and towns with population of 50,000 or more, as also total/rural/urban.

SCT—SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

No special tables were prepared for Scheduled Castes and Scheduled Tribes in 1951. The only information that Table D-III of 1951 furnished was the aggregate strength of Scheduled Castes and Tribes for the district and certain arbitrary groups of talukas. In view, however, of the special safeguards provided for these classes under the Constitution, it was felt that a more detailed tabulation of the census data will furnish the basis necessary for the evaluation of the results of the various schemes implemented by the State under the Five Year Plans as also for the formulation of new ones. Special tables for Scheduled Castes and Scheduled Tribes have, therefore, been devised and presented in a separate series called SCT/SC/ST series.

The table reproduced from this series is SCT-I-Parts A & B, giving industrial classification of persons at work and non-workers by sex for Scheduled Castes and Scheduled Tribes. Separate figures of Scheduled Castes and Scheduled Tribes have also been given for each village in the Village Directory.

Total population of Scheduled Castes and Scheduled Tribes for taluka/mahal with total/rural/urban break-up is given in Statements A and B.

SCT-I PART-A–INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES

Sl. No.	Name of Scheduled Caste	Total			Total Workers		Workers I As Cultivator		II As Agricultural labourer		III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting, Plantations, Orchards and Allied activities		IV At Household Industry		V In Manufacturing other than household Industry

VILLAGE-WISE LIST OF INDUSTRIAL ESTABLISHMENTS

This table gives important information about the total number of industrial establishments arranged in ascending order of minor groups of industries. It is compiled from the house-lists and presented in run on manner. Under the name of the district are arranged minor groups of industries showing total number of industrial establishments within brackets next to each minor group separately for total, rural and urban. The figures for taluka/mahal are likewise arranged separately for total/rural/urban. Then follows a list of villages in the order of the location code number given in the Village Directory, showing against each village minor group or groups of industries found in the village with the number of establishments shown within brackets against each minor group. Figures for towns are also shown separately in the same manner.

Industrial establishments have been classified according to the minor groups of industries given in the Standard Industrial Classification adopted by the Government of India reproduced in the Annexure. This will enable the reader to identify the industry to which a particular minor group relates.

ANNEXURE

Standard Industrial Classification

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 0 Agriculture, livestock, forestry, fishing and hunting	
04	*Livestock and Hunting*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	Division 2&3 Manufacturing	
20	*Foodstuffs*	
	Production of rice, atta, flour, etc., by milling dehusking and processing of crops and food-grains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugar cane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oil. (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati),	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3 Manufacturing-contd.	
21	*Beverages*-contd.	
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	*Tobacco Products*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	*Textile-Cotton*	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile-Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	*Textile-Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	53
	Wool weaving in power loom	254

ANNEXURE-*contd.*

Standard Industrial Classification-*contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3 Manufacturing-contd.	
25	*Textile-Wool*-contd.	
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile-Silk*	
	Spinning and weaving of silk textile in mill	260
	Dying and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
7	*Textile-Miscellaneous*	
	Manufacture of carpet aud all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	*Manufacture of Wood and Wooden Products*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3 Manufacturing-contd.	
28	*Manufacture of Wood and Wooden Products*-contd.	
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	*Paper and Paper Products*	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	*Printing and Publishing*	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather foot-wear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315

ANNEXURE-*contd.*

Standard Industrial Classification-*contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3 Manufacturing-contd.	
32	*Rubber, Petroleum and Coal Products*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	*Chemicals and Chemical Products*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34	*Non-metallic Mineral Products other than Petroleum and Coal*	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3 Manufacturing-contd.	
34	*Non-metallic Mineral Products other than Petroleum and Coal*-contd.	
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	*Manufacture of Earthenware and Earthen Pottery*	*350*
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bengles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	369

ANNEXURE-*concld.*

Standard Industrial Classification-*concld.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3 Manufacturing-contd.	
37	*Machinery (All kinds other than Transport) and Electrical equipment*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	*Transport Equipment*	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, acroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand-drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399

LIST OF RURAL CRAFTS AND NUMBER OF PERSONS EMPLOYED IN PRODUCTION

The handicraft table is a new feature introduced in the District Census Handbook, in 1961 Census. A detailed handicraft survey has been undertaken as a part of the censal programme. In States like Gujarat where the survey was conducted for selected crafts in selected centres, and not in each and every village, this handicraft table was to be compiled from the house-lists or the village notes. Accordingly, the information for this table was extracted from the house-lists adopting a 4 digit code for household industries circulated by Registrar General, India. The definition of household industry presented a problem, which was solved by including, on an *ad hoc* basis, household industries having less than 5 workers for this purpose.

The table shows the number of villages/towns in which particular crafts are practised and number of persons engaged therein. The data are compiled separately for the rural and urban areas of each taluka/mahal, for each city or town in the district and consolidated for rural and urban areas of the district. Where there is only one city/town in a taluka/mahal, the data for the urban areas are given for the city/town as they are same for taluka/mahal.

LIST OF RURAL CRAFTS AND NUMBER OF PERSONS EMPLOYED IN PRODUCTION

Major/Minor Group Industrial Code No.	Name of Craft	No. of Cities/ Towns	No. of persons employed in production
1	2	3	4
	SURAT DISTRICT*		
Major Gr. 20	*Foodstuffs*		*906*
Minor			
Gr. 200.1	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc. . .	16	419
200.2	Hand pounding of rice by Dhekhi or Ukhal .	1	12
200.3	Production of rice by milling, dehusking and processing of paddy by rice mill . . .	6	31
200.5	Production of pulses .	1	16
200.7	Productian and processing of other crops and food grains n.e.c. .	2	14
202.1	Gur and Khandsari making from sugarcane and plam . . .	2	5
204.1	Slaughtering, preservation of meat and fish and canning of fish .	1	7
205	Production of bread, biscuit, cake and other bakery products . .	11	141
206	Production of butter, cream, ghee, cheese, chhana, khowa and other dairy products . .	3	9
207	Oil pressing ghani, kolhu, or by small machines	9	110
209.2	Making of sweet-meats, laddu, peda, barphi, batasa, etc.	6	52
209.6	Making of dalmot, chanachur (jor) garam, rewari, etc.	6	138
209.7	Making of other food products for residuary snacks	6	35
209.8	Production of other food products like cocoa, chocolate, toffee, lozenge .	1	7
Major Gr. 21	*Beverages*		*112*
Minor			
Gr. 214.2	Production of aerated water such as soda-water, lemonade, etc. .	10	86
215	Production of ice .	4	10
216	Production of ice-cream, ice-candy or kulphi-malai, milk-shake, etc. .	4	16
Major Gr. 22	*Tobacco Products*		*88*
Minor			
Gr. 220	Manufacture of bidi .	6	86
224	Manufacture of snuff .	1	2
Major Gr. 23	*Textile–Cotton*		*3,266*
Minor			
Gr. 230	Cotton ginning, cleaning, carding, pressing and baling . . .	4	35
231	Cotton spinning (by charkha and takali) . .	1	43
233.1	Dyeing of cloth (cotton) and yarn . . .	4	154
233.2	Bleaching of cloth (cotton) and yarn .	1	6
233.3	Tie and dye (bandhani) of cloth and yarn .	1	4
234	Cotton cloth weaving in powerlooms . .	1	2,460
235	Cotton cloth weaving in handlooms . . .	7	345
236	Manufacture of khadi textile in handlooms .	1	60
237	Printing of cloth (cotton)	4	15
239.2	Making of thread, rope, cordage and twine (cotton) . . .	2	144
Major Gr. 24	*Textile-Jute*		*1*
Minor			
Gr. 241	Jute spinning and weaving of mats, asanis, etc. .	1	1
Major Gr. 26	*Textile-Silk*		*483*
Minor			
Gr. 262.3	Spinning of silk, other than in mills, n.e.c. .	1	3
263.1	Weaving of Traditional silk (Atlas) by power-loom . . .	1	16
263.4	Weaving of silk and artificial silk in power-loom, n.e.c.	1	21
264.1	Weaving of mashru, himroom, brocade, kinkhab by handloom .	1	29
264.2	Weaving of silk and artificial silk in handlooms, n.e.c. . .	1	10
266.2	Making of silk cordage, rope and twine, n.e.c.	1	404

* The total number of towns/cities in the district is 17.

OFFICIAL STATISTICS

LIST OF TABLES ON OFFICIAL STATISTICS

		Pages
1	RAINFALL AND TEMPERATURE:	
	1.1 Maximum and Minimum Temperature, 1955 and 1957-1960 at Headquarters Station, Surat	274
	1.2 Monthly Rainfall 1952-1956 and 1958-1960 at Headquarters Station, Surat	274
2	VITAL STATISTICS:	
	2.1 Birth and Death Rate based on Mid-year Population Estimates	275
	2.2 Deaths from selected Causes, 1951, 1956 and 1960	276
3	AGRICULTURE:	
	3.1 Land Utilization, 1956-57 and 1960-61	276
	3.2 Area and Outturn of Principal Crops, 1950-51–1960-61	277–278
	3.3 Irrigation Potential and Utilization	279
	3.4 Area irrigated by Sources, 1950-51, 1955-56 and 1960-61	279
	3.5 Area irrigated by Crops, 1950-51, 1955-56 and 1960-61	279
	3.6 Progress under Agricultural Extension in Various Development Blocks upto 31-3-1961	280–281
4	LIVESTOCK:	
	4.1 Livestock and Agricultural Implements 1951, 1956 and 1961	282
5	CO-OPERATION:	
	5.1 Number, Membership and Financial Position of Co-operative Banks and Societies, 1960-61	283
6	FISHERIES:	
	6.1 Fishing centers, landing places and number of fishing boats according to size as on 31-3-1961	284
7	REGISTERED FACTORIES:	
	7.1 Number and Type of Registered Factories showing Average Employment, 1961	284
8	ELECTRICITY:	
	8.1 Installed Capacity of Electricity, 1950-51, 1955-56 and 1960-61	285
	8.2 Consumption of Electricity according to purpose, 1950-51, 1955-56 and 1960-61	285
9	MEDICAL AND PUBLIC HEALTH:	
	9.1 Number of Hospitals, Dispensaries and Patients treated in 1951 and 1961	286
	9.2 List of Hospitals and Dispensaries, 1961	286
	9.3 Public Health Activities, 1960-61	287
10	EDUCATION:	
	10.1 Schools, Scholars and Teachers in Primary Schools in Rural Areas of Surat District, 1960-61	288
	10.2 Literacy and Education in Rural Areas of Surat District, 1960-61	289
	10.3 Number and Type of Educational Institutions, Number of Pupils and Teachers, 1950-51, 1955-56 and 1960–61	289
	10.4 Directory of High Schools and Colleges as on 31-3-1961	290
11	ADMINISTRATION:	
	(a) Police and Crimes:	
	11.1 Strength of Police, 1960-61	291
	11.2 Proportion of Area, Population and Cognizable Offences per Police, 1960–61	291
	11.3 Criminal Justice, Offences reported, Persons tried, convicted or acquitted for Selected Offences, 1960-61	292
	(b) Jails:	
	11.4 Jails, 1951, 1956 and 1961	292
	(c) Registration:	
	11.5 Instruments registered and Value of Property transferred, 1951, 1956 and 1961	293–294
12	PLACES OF PUBLIC ENTERTAINMENT, PRESSES AND JOURNALS:	
	12.1 Newspapers published in Different Languages, 1950-51, 1955-56 and 1960-61	295
	12.2 Printing Presses, 1951, 1956 and 1961	295
	12.3 Cinema Theatres, 1960-61	295
13	TRANSPORT AND COMMUNICATIONS:	
	13.1 Railway Mileages and Names of Railway Stations, 1960-61	296
	13.2 Road Mileages by Type of Surface and Category of Road, 1950-51, 1955-56 and 1960-61	296
	13.3 Tonnage of Import and Export cargo handled at different Ports, 1950-56, 1955-56 and 1960-61	297–298
14	LOCAL BODIES:	
	14.1 Income and Expenditure of Municipalities, 1960-61	299
	14.2 Income and Expenditure of District Local Board, 1950-51, 1955-56 and 1960-61	300
	14.3 Income and Expenditure of Panchayats, 1950-51, 1955-56 and 1960-61	300
15	COMMUNITY DEVELOPMENT:	
	15.1 Progress and Achievements of Community Development/National Extension Scheme Blocks upto year ending 31-3-1961	301
16	PRICES:	
	16.1 Average Retail Prices of Staple Foodstuff, 1961	302
17	JOINT STOCK COMPANIES, BANKS, INSURANCE AND SMALL SAVINGS:	
	(a) Joint Stock Companies:	
	17.1 Joint Stock Companies, 1960-61	302
	(b) Banking:	
	17.2 Scheduled and Non-scheduled Banks, 1950, 1955 and 1960	302
	17.3 Number and Type of Co-operative Banks, 1950-51, 1955-56 and 1960-61	303
	(c) Insurance	
	17.4 Life Insurance Policies issued and sum insured, 1957 to 1960	303
	(d) Small Savings:	
	17.5 Target and Net Collection of Small Savings, 1960-61	304
18	CALENDAR OF IMPORTANT EVENTS, FAIRS AND FESTIVALS AND ANCIENT MONUMENTS:	
	18.1 Calendar of Important Events	304
	18.2 Fairs and Festivals	305–310
	18.3 Ancient Monuments	310

OFFICIAL STATISTICS

Departmental statistics collected from various sources, viz., Administrative Departments, State and Central, Reserve Bank of India, Life Insurance Corporation, Gujarat Electricity Board, etc., have been included in the District Census Handbook for the first time, and distributed under 18 different sections listed below:—

1 Rainfall & Temperature
2 Vital Statistics
3 Agriculture
4 Livestock
5 Co-operation
6 Fisheries
7 Factories
8 Electricity
9 Medical and Public Health
10 Education
11 Administration
12 Public Entertainment and Presses and Journals
13 Transport and Communications
14 Local Bodies
15 Community Development
16 Prices
17 Joint Stock Companies, Insurance, Banks and Co-operative Societies
18 Important Events, Fairs and Festivals and Ancient Monuments

Uniform table numbers have been adopted in all the Handbooks. Wherever a particular table is not applicable to or could not be compiled for want of requisite information for any district, there will be a break in the sequence, owing to the omission of such a table from the Handbook.

To facilitate further reference, the source of the table as well as explanatory notes as to the units to which they refer and other particulars have been given at the foot of the table.

Abbreviations used are : N.A.=Not available; . .=Nil

Note:

(a) U=Urban; R=Rural

(b) Number of births per 1,000 of the total mid-year estimated population is calculated on the population of the district as then constituted.

(c) Number of deaths per 1,000 of the same sex is calculated on the mid-year estimated population of the district as then constituted.

(d) The information regarding number of births and deaths for the years 1951-1960 is furnished for the district as then constituted and the population for the years 1951 to 1960 has been estimated on the basis of average during the decade 1951-1960.

(e) Birth and death rates for the decade 1951-1960 are average birth and death rates.

Note:

1 In case of Hindu months column 4 shows the corresponding months according to Gregorian calendar also. Hindu months are mentioned according to Vikram Era.

2 In the Hindu calendar followed in Gujarat, months end with Amavasya, i.e., New moon and not Purnima, i.e., Full moon day.

PART III
VILLAGE DIRECTORY

VILLAGE DIRECTORY

The Village Directory of 1961 Census is the same as the Primary Census Abstract given in the District Census Handbook of 1951 with the following additions and alterations :—

1. Information regarding Scheduled Castes and Scheduled Tribes which was given in 1951 by tracts of two to three talukas in a district has been given with sex break-up for each village.

2. The 8 livelihood classes of 1951 have been replaced by workers classified into the following nine industrial categories and also non-workers :—

I	Cultivator	V	Manufacturing other than Household Industry
II	Agricultural Labourer	VI	Construction
III	Mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities	VII	Trade and Commerce
		VIII	Transport, Storage and Communications
		IX	Other Services and
IV	Household Industry	X	Non-workers

3. Information on selected essential topics or amenities available in a village is also included.

Thus the Village Directory furnishes information on area in acres & gunthas, occupied houses, households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated and primary economic activity classified into above nine industrial categories and non-workers. This information is furnished for each village/ward of a town and also for each enumerator's block in a town, consisting of about 120 houses.

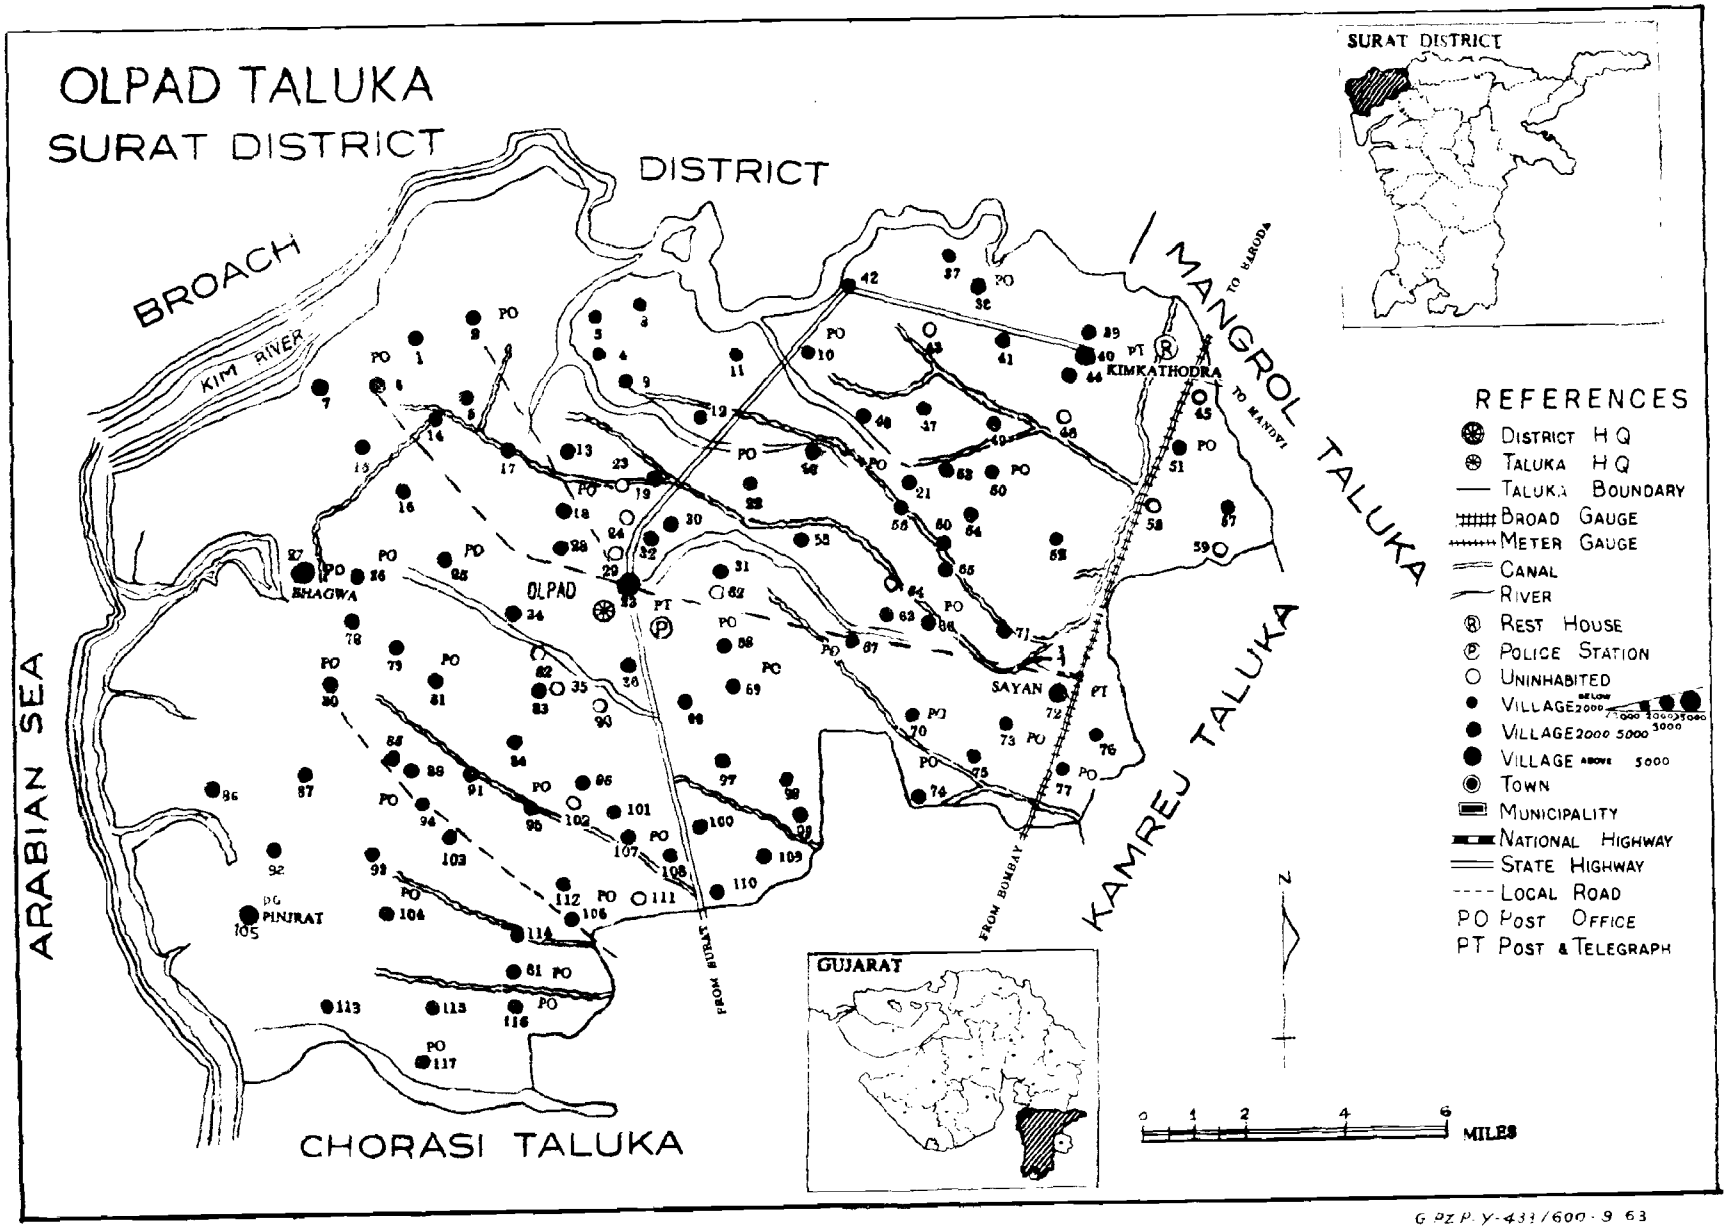

Like the Primary Census Abstract of 1951, the Village Directory gives area figures in Column 3 in acres as furnished by the Survey Department. While the figures of the number of houses and households given in Columns 4 and 5 have been compiled from the Household Schedules filled up for each household, information in Columns 6 to 36 has been compiled from the individual enumeration slips filled up during the course of census count. Information in Column 2 regarding Educational Institutions, Medical and Public Health facilities, Drinking Water facilities, Post & Telegraph Offices and Telephone facilities, and Rural Electricity has been collected from (*a*) the village notes specially devised for the purpose and filled in by Village Level Workers, Talaties and Panchayat Secretaries, and (*b*) the information supplied by the heads of the Departments concerned. The following abbreviations used in Column 2 signify the items shown against each:—

P	for	Primary School	S	for	Safe or Protected Water Supply including pipes, tube wells, etc.
M	for	Middle School			
H	for	High School	W	for	Well
C	for	Higher Institutions including Colleges	Riv	for	River
T	for	Technical Institutions	Tk	for	Tank
D	for	Dispensaries	Po	for	Post Office
Rhc	for	Rural Health Centre	To	for	Telegraph Office
Hos	for	Hospital	Tph	for	Telephone
Mp	for	Medical Practitioner	Ei	for	Electricity in Industrial use
Mcw	for	Maternity and Child Welfare Centre	Ea	for	Electricity in Agricultural use
			Ed	for	Electricity in Domestic use

The essential topics listed above have been presented run on against each village along with their number, where the amenities that exist are more than one. In other columns A=Acres, G=Gunthas, P=Persons, M=Males and F=Females.

In addition to a map for the district, taluka/mahal maps showing certain important information have also been prepared and placed at the commencement of the Village Directory for every taluka/mahal. In the taluka/mahal maps villages have been shown by their location code numbers asigned to them at the time of census operations and indicated against each village in the Alphabetical List of Villages given in the Handbook. Villages having population of 2,000 and above have been indicated by name. In the district maps Villages having 5,000 and more persons have been shown by names. Key maps given in the district and taluka maps show the positions of the district and taluka in hatches and black respectively.
