(i) **Census Tables**		
A-GENERAL POPULATION TABLES		
Note		3-5
Table A-I	Area, Houses and Population	6
Appendix I	1951 Territorial units constituting the present set-up of district and each taluka/mahal	7
Sub-Appendix 1 to Appendix I	Area for 1951 and 1961 for those municipal towns which have undergone changes in area since 1951 Census	7
Sub-Appendix 2 to Appendix I	District/Taluka/Mahal showing 1951 population according to territorial jurisdiction in 1951 changes in area and the populations involved in those changes	8
Annexure to Appendix I	Villages transferred from and to Baroda district	9-11
Appendix II	Number of Villages with a population of 5,000 and over and towns with a population under 5,000	12
List Place	with a population of under 5,000 in 1951 which were treated as towns in 1951 but have been omitted from the list of towns in 1961	12
Appendix III	Houseless and Institutional Population	13
Table A-III	Villages classified by population	14-15
Table A-IV	Towns and Town-groups classified by population in 1961 with variation since 1941	16-17
Appendix	New Towns added in 1961 and Towns in 1951 declassified in 1961	17
Note	A–Particulars of New Towns added in 1961	18
	B–Particulars of 1951 Census Towns declassified in 1961	18
Special Appendix	Towns with their area and jurisdiction	18
B (i)-GENERAL ECONOMIC TABLES		
Note		19-25
Table B-I	Workers and Non-workers classified by sex and broad age-groups	26
Table B-III		
Part A	Industrial classification of Workers and Non-workers by educational levels in Urban areas only	27
Part B	Industrial classification of Workers and Non-workers by educational levels in Rural areas only	28-31
Table B-IV		
Part A	Industrial classification by sex and class of worker of persons at work at Household Industry	32-34
Part B	Industrial classification by sex and class of worker of persons at work in non-household industry, trade, business, profession or service	35-39
Part C	Industrial classification by sex and divisions, major groups and minor groups of persons at work other than cultivation	40-51
Appendix		52-53

		Pages
Table B-V	Occupational classification by sex of persons at work other than cultivation	54-79
Appendix		80-81
Annexure	Appropriate Industrial Categories of Occupational Families	81
Table B-VII		
Part A	Persons working principally (i) as Cultivators (ii) as Agricultural labourers or (iii) at Household Industry classified by sex and by Secondary work (i) at Household Industry (ii) as Cultivator or (iii) as Agricultural labourer	82-85
Appendix		85
Table B-VII		
Part B	Industrial classification by sex of persons working in non-household industriy, trade, business, profession or service who are also engaged in household industry	86-91
Table B-VIII		
Part A	Persons unemployed aged 15 and above by sex, broad age-groups and educational levels in Urban areas only	92-93
Part B	Persons unemployed aged 15 and above by sex and educational levels in Rural areas only	92-93
Table B-IX	Persons not at work classified by sex, broad age-groups and type of activity	94-97

B (ii)-HOUSEHOLD ECONOMIC TABLES

Table B-X	Sample Households (i) engaged neither in cultivation nor household industry (ii) engaged either in cultivation or household industry but not in both and (iii) engaged both in cultivation and household industry for all areas	98
Table B-XI	Sample Households engaged in cultivation classified by interest in land and size of land cultivated in Rural and Urban areas separately	98-99
Table B-XII	Sample Households engaged in cultivation only classified by size of land cultivated and number of family workers and hired workers in Rural and Urban areas separately	100-109
Table B-XVI	Sample Principal household industry classified by period of working and total number of workers engaged in household industry in all areas	110-113
Appendix		114
Table B-XVII	Sample Households classified by (i) Number of male and female members by size of Household and (ii) Engagement(a) Neither in cultivation nor in industry (b) In household industry only and (c) in culavation sub-classified by size of land cultivated	115

C-SOCIAL AND CULTURAL TABLES

Note		117-118
Table C-I	Composition of Sample Households by relationship to head of family classified by size of land cultivated	119
Table C-II	Age and Marital Status	120-123
Table C-III		
Part A	Age, Sex and Education in all areas	124-125
Part B	Age, Sex and Education in Urban areas only	124-125
Table C-IV	Single Year Age Returns	126
Table C-V	Mother Tongue (Alphabetical order)	127-129
Table C-VII	Religion	130
Table C-VIII	Scheduled Castes and Scheduled Tribes	
Part A	Classiafication by Literacy and Industrial Category of Workers and Non-workers among Scheduled Castes	131
Part B	Classification by Literacy and Industrial Category of Workers and Non-workers among Scheduled Tribes	132

PREFACE

Before 1951, only the figures of population of revenue villages were given in what were then called 'Village Handbooks'. But the decision to bring out the District Census Handbooks giving extracts from all the important census tables for every district of the State was taken for the first time in 1951. In addition to the census tables, the minimum information given in the Primary Census Abstract related to the area of the village, number of houses and households, total population, houseless and institutional population, literates, and agricultural and non-agricultural classes distributed under 8 main livelihood classes. Census statistics given in the Primary Census Abstract were further supplemented by the addition of useful administrative information on such items as post offices, railway stations, distance of bazzar from village, primary schools, village panchayats, co-operative society, etc. This was a unique achievement of the Indian Census giving as it did the basic demographic and economic information for the smallest administrative unit, namely, the village, and in some States, even for each hamlet and also for wards in towns and cities. The 1951 series of District Census Handbooks, however, varied in content and size from State to State depending upon the resources offered by the State Government. The Registrar General, therefore, desired that the Handbooks brought out during the Census of 1961 should contain certain minimum statistical data, maps and other useful information which should be uniformly adopted throughout the country. The matter was discussed at the Conferences and seminars of the Superintendents of Census Operations before the contents of the various sections of the District Census Handbook were decided upon.

The Government of Gujarat at first proposed to include a very limited number of census tables in the District Census Handbook as against a very extensive and comprehensive coverage accepted for common adoption by the States. But on reviewing the matter on receipt of the recommendations of the third conference of Superintendents of Census Operations, the Government thought advisable to incorporate as many of the census tables as possible to enhance its usefulness. The result has been that the District Census Handbook of 1961 differs widely in the matter of content and coverage from that published after the Census of 1951 and contains a number of new features, examined below.

The District Census Handbook has been sub-divided into three parts, viz., :-

PART I—THE DISTRICT

(i) Introductory Essay

(ii) Brief Gazetteer of Place Names

PART II—STATISTICS

(i) Census Tables

(ii) Villagewise List of Industrial Establishments

(iii) Handicrafts Tables

(iv) Departmental or Official Statistics

PART III—VILLAGE DIRECTORY

(i) Explanatory Note

(ii) Village Directory

(iii) Taluka Maps

Part I is entirely new. While all the items under Part II except that relating to the main Census Tables are added for the first time, the Village Directory Section has been enlarged by the inclusion of certain useful information and maps. Various items included in each of these three parts are listed below.

PART I—THE DISTRICT

(i) *Introductory Essay*

This is a new feature added for the first time. The district has been introduced by giving at the outset certain essential information about its geographical location, physical features, historical background, administrative divisions, territorial changes, topography, soil, climate,

temperature, rainfall, etc. Growth of population, its distribution between rural and urban areas, density, literacy, sex ratio, marital status, economic activities, etc., have been discussed with reference to census tables. Agriculture, livestock, social services, co-operation, transport and communications, facilities of education, medical relief, housing, labour, Community Development Programme, progress of plan schemes, etc., have also been reviewed in the light of available official statistics. In fine, all the essential details relating to the demographic, economic, social and cultural aspects as revealed by the census and departmental statistics, have been examined to give a succinct account of the district as it stood in 1961.

(ii) *Brief Gazetteer of Place Names*

The gazetteer gives in brief information about all the places of historical or religious importance and interest in the district. While the historical background and other relevant details have been taken from the old District Gazetteers, information in respect of major irrigation projects, townships, crafts, fairs and festivals, etc., have been separately collected, and brought up-to-date in consultation with the Collectors.

PART II—STATISTICS

Part II contains (a) all the important Census Tables including those compiled from House-lists and (b) official statistics, furnished by the various State departments.

Census Statistics

The statement that follows compares the number of tables compiled in different census series with those selected by Government for reproduction in the District Census Handbook.

Details of Tables compiled in 1961 Census and reproduced in District Census Handbook

Series	Description	Total No. of tables compiled in 1961	Tables reproduced in District Census Handbook	
			Number	Particulars
1	2	3	4	5
A	General Population Tables	4	3	A-I and its Appendices I, II & III with sub-Appendices 1 & 2, A-III and A-IV with Appendix I and Special Appendix
B	Economic Tables . . .	17	12	
	(i) General Economic Tables .	9	7	B-I, B-III-Parts A & B, B-IV-Parts A, B & C, B-V, B-VII-Parts A & B, B-VIII-Parts A & B and B-IX
	(ii) Household Economic Tables .	8	5	B-X, B-XI, B-XII, B-XVI and B-XVII
C	Social and Cultural Tables . .	8	7	C-I, C-II, C-III-Parts A & B, C-IV, C-V, C-VII, C-VIII-Parts A & B
D	Migration Tables . . .	6	...	
E	Tables on Housing and Establishments	5	4	E-I, E-II, E-IV and E-V
SCT/SC/ST	Special Tables on Scheduled Castes and Scheduled Tribes .	8	1	SCT-I-Parts A & B

Note :-

Two more tables have been specially compiled from House-lists, viz., (i) Villagewise List of Industrial Establishments and (ii) Handicrafts Tables.

Official Statistics

The picture the census statistics present will be incomplete without the official or departmental statistics reviewing the progress made by the various administrative departments during the past decennium. An attempt has, therefore, been made to compile important official statistics for publication in the District Census Handbook. These statistics which relate to the past ten years must be adjusted to the existing set-up of administration, if they are to be really useful and comparable. This, however, was not possible in spite of efforts to that effect. For, extensive changes in the territorial jurisdiction of districts and talukas have taken place during the last ten years, first as a result of integration in 1956 and then due to bifurcation on May 1, 1960 when Gujarat came into being as a separate political unit for the first time. Non-availability of the required data in case of most of the Princely States and Estates was another handicap. The task of compilation of official statistics was thus beset with innumerable difficulties. The proformae for the various statements numbering 49 as approved by Government and the Registrar General were circulated to all the concerned Heads of Departments as early as July 1961. In view of the importance of these statistics, the Government by circular letter No. CNS-1461-A2 dated the 27th July 1961 addressed to all the Heads of Departments had also directed that official statistics called for by the Superintendent of Census Operations should be furnished within two months through the Director, Bureau of Economics and Statistics, after thorough scrutiny by some responsible officer of the department along with a certificate to the effect that the data furnished are up-to-date, complete and authentic in all particulars. The delay, however, caused in furnishing correct and complete information by the departments delayed final compilation and resulted in protracted correspondence to rectify the discrepancies and incompleteness noticed during the course of verification at the Bureau. Non-availability of the required information for the various administrative units as at present constituted was another obstacle. The progress had therefore, to be reviewed from time to time in a series of meetings with the Director, Bureau of Economics and Statistics and representatives of the departments concerned. The offices from which information was not received had to be frequently reminded by the Director, the Census Department and at times even by the Chief Secretary. Some of the tables proposed to be included could not be inserted or had to be revised either for want of receipt of timely information or owing to the non-availability or incompleteness of the data furnished. Where data for individual years are not available, they have been collected for the years 1950-51, 1955-56, 1960-61 which mark the commencement of the First, Second and Third Five Year Plans. Where statistics for these periods are not available, they are given only for the year 1960-61; and where the figures compiled are not available for the units as at present constituted, the clarification as to the unit to which they refer has been made in the footnote to the statements which also disclose the source of compilation.

PART III-VILLAGE DIRECTORY

The Village Directory or the Primary Census Abstract includes information regarding population, area, occupied houses, households, workers classified into nine industrial categories of workers and non-workers, Scheduled Castes and Scheduled Tribes, literates and educated, etc., for each village as well as for every ward and block of about 120 houses in each town. In addition, it gives information on certain essential amenities existing in the village such as educational facilities, public health and medical facilities, supply of drinking water, electricity and its uses, etc., by means of abbreviations placed against the name of each village. This additional information has been compiled from the special 'village notes' devised for the purpose and collected through the Block Development Officers. They relate to the position as it existed about March 1961.

The figures of population of Scheduled Castes and Scheduled Tribes were given in 1951 for certain arbitrary tracts formed by the grouping of talukas. The result was that the administration was seriously handicapped in the absence of relevant particulars for the various administrative units of a district which were required oft and

on for planning and other purposes. This lacuna has been removed on the present occasion by giving figures of Scheduled Castes and Scheduled Tribes for each village in the Primary Census Abstract. The talukas and villages given in the Village Directory are arranged in the order of their location code numbers.

Maps

The Village Directory is preceded by taluka maps showing villages by their location code numbers and dots varying according to the size of the village. Other items such as district or taluka headquarters, railway, national highway, State highway, local roads, post office, post and telegraph, canal, river, rest house, police station, etc., have been shown on the map with appropriate symbols. Two key maps, one for the State showing the district boundary and the position of the district in the State in hatching and the position of the taluka in the district in black and another key map for the district showing taluka boundary and the position of taluka in the district in hatching have also been included in the taluka map. In addition to taluka maps, a map of the district has also been given at the commencement of the Handbook showing the various items listed above for the taluka map and villages having population over 5,000. The key map given in the district map shows district boundary and the position of the district in the State in hatching.

The preparation of district and taluka maps and finalisation of area figures proved to be another handicap. The District Inspectors of Land Records had furnished tracings which had to be brought up-to-date in the light of changes in boundaries owing to integration on the one hand and bifurcation on the other. Frequent references and back references entered into at various levels, the Settlement Commissioner, Superintendents and District Inspectors of Land Records to remove the discrepancies and reconcile the inconsistencies noticed did not yield much result. The matter was, therefore, finally set at rest by calling a conference of Superintendents and District Inspectors of Land Records who did on-the-spot checking and verification and certified the correctness of the ultimate delimitation of boundaries and location of villages appearing in the taluka and district maps and accuracy of area figures entered in the Primary Census Abstract.

Paging

Each of the three parts of the District Census Handbook will have a separate series of page numbers starting with 1.

Alphabetical List of Villages

With a view to enable the reader to trace a village from the Village Directory, an alphabetical list of villages giving the names of villages and indicating their location code numbers, page number and serial number on the page at which they are printed has been given separately for each Taluka/Mahal at the commencement of the Handbook.

The Handbook

The contents of the District Census Handbook explained above have been finalised after frequent deliberations at various census conferences and seminars, and meticulous care as to their form, size and presentation. But these by themselves would not have been sufficient, had the Government not readily responded to the various suggestions made in this behalf. If I may say so, the Government had placed implicit faith in me, and accepted all the proposals made by me from time to time to add to the utility of this important compilation. It is hoped that the District Census Handbook in its present form will satisfy a growing demand for basic census data by ultimate territorial units and other background information about the District and also prove to be a useful book of reference to the administrative departments and the public.

The Government of Gujarat has taken a further decision namely to print the District Census Handbook also in the regional language of the State, viz., Gujarati. This will very much add to the utility of this publication. The Handbook in Gujarati will contain (i) Note introducing the district, (ii) Alphabetical list of villages, (iii) Census Tables, A-I, A-III and SCT-I, (iv) Village Directory with explanatory note and (v) District and Taluka maps.

ACKNOWLEDGEMENTS

Help in the compilation of the District Census Handbooks has been forthcoming from various quarters, to all of whom I am deeply indebted. I, however, wish to express my thanks to Shri V. Isvaran and Shri V. L. Gidwani, Chief Secretaries to Government, and Shri M. G. Shah, Deputy Secretary, General Administration Department for all the facilities they have given in their preparation and publication of these Handbooks. I am also obliged to the Bureau of Economics and Statistics for the services rendered in the compilation of Official Statistics furnished by the Heads of Departments and the checking of the statistical data in the draft-notes for the Introductory Essays prepared by the District Statistical Officers. My thanks are also due to Shri H. V. Desai, Settlement Commissioner, Superintendents of Land Records and District Inspectors of Land Records for their assistance in the finalisation of area figures and verification of district and taluka maps.

Programme for the printing of District Census Handbooks has this time been very heavy indeed, more so as they are published both in Gujarati and English. The arrangements made by Shri B. A. Koreishi, Director, Government Printing and Stationery, and Shri G. J. Gonsalves, Deputy Director, for the printing of the voluminous work pertaining to the District Census Handbooks at the various Government and local presses, are thankfully acknowledged. The excellent work turned out by the Government Photo-zincographic Press, Poona in printing district and taluka maps deserves special mention.

I would like to place on record the valuable contribution made by the members of the Census Organisation at various levels in bringing out the Handbook in its present form. Mention in particular should be made of Shri K. F. Patel, Deputy Superintendent of Census Operations, Shri J. D. Shah, Statistical Assistant, Shri H. S. Bhatt, in charge proof reading section and Shri K. D. Vaishnav and Shri L. S. Shrimali of draftsman section. Before I conclude I must pay tribute to the conscientious discharge of duties by the late Shri J. K. Patel, Special Mamlatdar whose services were placed by Government at the disposal of the Census Organisation, for supervising the printing of District Census Handbooks. It is a matter of great regret that his services were lost to us, as he was removed from our midst in the prime of his life owing to sudden heart failure.

Finally, the Registrar General has given such anxious thought and care since the inception of the Census Organization to ensure that the District Census Handbook which the Census of 1961 brings out is an up-to-date book of reference for the District by including all available useful data both census as well as official. I am grateful to him for the valuable suggestions made and guidance given by him in this important publication.

AHMEDABAD,
9th March, 1964.

R. K. TRIVEDI,
Superintendent of Census Operations,
Gujarat.

JABUGAM TALUKA–*concld.*

PART I

1 INTRODUCTORY ESSAY

2 GAZETTEER OF PLACE NAMES

INTRODUCTORY ESSAY

BARODA DISTRICT

1 LOCATION AND PHYSICAL FEATURES

1.1 Boundaries and Natural Divisions

Baroda is one of the districts forming part of Baroda division of Gujarat State. It lies roughly between 21° to 23° north latitude and 73° to 74° 10′ east longitude. It is bounded on the north by the Panchmahals district, on the north-west by Kaira district, on the south and south-west by Broach district, on the east by Madhya Pradesh State and south-east by Dhulia district of Maharashtra State. The river Mahi forms natural boundary between Baroda and Kaira districts.

1.2 Configuration

The Baroda district forms part of the great Gujarat Plain. The eastern portion of the district comprising Chhota Udaipur, Jabugam and Nasvadi talukas contain hillocks here and there where the land is undulating. The rest of the district is a level land. The southern part contains rich black soil. The remaining part contains rich alluvial sandy loam soil particularly along the Mahi and the Narmada has abundant tree growth.

1.3 Rivers and Lakes

The major rivers which serve the district are the Narmada and the Mahi. The Mahi flowing from north to south-west serves most of the talukas of the district while the Narmada extending over 100 miles in length, provides picturesque bank abounding in monuments of archaeological importance such as temples and shrines. Besides the Narmada and the Mahi, other rivers flowing through the district are Jambua, Suria, Vishwamitri and Dhadhar draining into the gulf of Cambay while the rivers Unchha, Orsang, Ujeti, Heran, Deo, Karjan, Madhumati and Kaveri are the tributaries of the major rivers.

This district abounds in lakes and tanks, the important lakes being Vadhwana, Ajwa and Pratappura. The lake Ajwa which is situated in Vaghodia taluka is the main source of water supply to Baroda city.

1.4 Soil

The important types of soil in the district are (1) sandy loam, (2) besar and (3) black. Sandy loam soils which are found in the talukas of Baroda, Padra and Savli are suitable for the cultivation of bajri, tobacco and orchard crops. There is plenty of sub-soil water in sandy loam area which has consequently a well developed well irrigation system. The black soil is suitable for cultivation of cotton and is found in the talukas of Karjan, Sinor, Vaghodia, Dabhoi and Sankheda. The sub-soil water in these areas is not adequate and at some places it is brackish. The remaining three talukas namely Chhota Udaipur, Jabugam and Nasvadi have in one part black soil and in another part mixed soil. Moreover, the land is also not flat in these areas interspersed as it is with small hills, rivers and ravines. Besar soils are formed by the admixture of sandy loam and black cotton soil and are found in the whole of Padra taluka, parts of Baroda, Savli, Jabugam and Vaghodia talukas and in a few villages of Sankheda taluka.

1.5 Climate and Temperature

The climate is hot and dry in the hot season commencing from the middle of March and ending by the middle of June. The climate during the rainy season is hot moisty and relaxing. The cold season begins from the middle of November. The maximum temperature recorded during 1960 was 47.0°C. or 116.6°F. and the minimum 32.0°C. or 89.6°F. at the headquarters station Baroda.

While the maximum temperature was recorded during the month of May, the minimum was struck during January in that year.

Details of maximum and minimum temperature during 1951–1960 at the headquarters station Baroda will be found in the Official Statistics Table No. 1.1 given in Part II of this Handbook.

1.6 Rainfall

The south-west monsoon brings rains to this district. The rainy season is confined to the four months from June to September.

The following table gives the rainfall figures for the last decade for Baroda which is the headquarters of the district.

Annual rainfall for Baroda City, 1951–60

Year	Annual Rainfall	
	In Inches	In Centimeters
1	2	3
1951	N.A.	N.A.
1952	N.A.	N.A.
1953	38.9	98.9
1954	46.2	117.4
1955	40.7	103.3
1956	51.5	130.9
1957	N.A.	N.A.
1958	48.9	124.2
1959	58.1	147.5
1960	22.2	56.4

N.A.=Not available

Monthly rainfall figures for all these years are available in Official Statistics Table No. 1.2 published in Part II of this Handbook.

1.7 Famine and Scarcity

According to the report of the Fact Finding Committee appointed by the Government of Bombay in 1958–60, out of ten talukas and one mahal comprising the district at that time, the whole of Nasvadi taluka and Savli taluka with the exception of 9 villages were not at all affected by scarcity of rainfall. Only 8 villages out of 41 in Sinor mahal had to be granted half suspension of land revenue assessment during the last ten years. The soil being rich in fertility and retentive except in portion of Nasvadi, even with less rainfall, the failure of crop was limited. For this reason the Committee did not consider Savli, Nasvadi and Sinor as scarcity areas. Regarding other talukas in the district, the incidence of scarcity was not high, although crops had failed in some of the villages of the remaining talukas. The Committee came to the conclusion that there was no part of this district which could be considered as frequently affected by scarcity; and therefore, the entire district might be regarded as free from scarcity, though a number of villages here and there had suffered due to untimely rain.

1.8 Forests

According to the information furnished by the Chief Conservator of Forests, Gujarat State, the area of forest in the district in 1961-62 is found to be 200.57 sq. miles, out of which 23.78 sq. miles are reserved forest and 176.79 sq. miles unclassed forests.

2 ADMINISTRATIVE SET-UP

2.1 Historical Background

The district comprises part of Baroda district of the former Baroda State and the former Indian States of (1) Chhota Udaipur, (2) Sankheda Mewas, (3) Pandu Mewas and (4) Bhadarva. Baroda which was the capital of Baroda State is now the headquarters of the district and is situated at the bifurcation point of Bombay-Delhi and Bombay–Ahmedabad section of Western Railway.

The Marathas invaded Gujarat in A.D. 1705 and took the advantage of the confusion that ensued after the death of Mogul Emperor Aurangzeb in A.D. 1707. Peshwa Balaji Vishwanath advanced on Ahmedabad and levied larger tribute on the Viceroy of Gujarat. Khanderao Dabhade, Maratha Senapati, at the outset intended to acquire from the Moguls the right to levy the tribute and then *Chauth* and *Sardeshmukhi*. They obtained many *sanads* to levy tributes from Emperor Muhammad Shah at Delhi. From this time their right to levy tribute in Gujarat was confirmed. Shortly after 1720, the Senapati

received authority from the Raja of Satara to realise the dues established by usage from Gujarat and Baglan. One of his officers named Damaji Gaekwad, who had shown much gallantry in the battle, received from the Shahu Raja of Satara the title of *Samsher Bahadur* (Illustrious Swordsman). On Damaji's death which occurred in 1721, his place of Lieutenant to the Senapati was filled by his nephew Pilaji, the son of Jhingoji Gaekwad. Later Pilaji was given by the Peshwa the title of *Sena Khas Khel* (Commander of the Special Band). The military power of Marathas forced Sarbulandkhan, the Mogul Viceroy at Ahmedabad to recognise their right of *Chauth* and *Sardeshmukhi* in Gujarat. Pilaji Gaekwad then founded the House of Gaekwad at Baroda between 1721–1732 which existed as a separate princely State till its merger in Bombay State in 1949. The Chhota Udaipur Chiefs claim to belong to the clan of Khichi Chohans whose chief Anhal is said to have been created by *Vashishtha Muni* out of the *Agni Kund* on Mount Abu. According to the bardic accounts, a descendent of Patai Rawal *alias* Jaysinh, the last Chohan raja of Champaner established a small kingdom at Mohan or Alimohan on the banks of the river Narmada. In the course of time probably during the decay of Mogul power in the early part of the 18th century, the capital was moved 20 miles north to Chhota Udaipur on the banks of the river *Or*. Baji Rawal is said to have founded Chhota Udaipur. It continued to remain a separate State till it was merged in Bombay province in 1949.

Sankheda Mewas estates–some of them consisting of one or two villages and with proprietors little more than husbandmen; were under seven groups, viz., the Chohan group, the Rathod group, the Chavda group, the Gori group, the Dhima group, the Solanki group and the Parmar group. All these estates have been merged with the Bombay province after Independence and now form part of Baroda district.

The proprietors of Pandu Mewas estates were tributary chiefs. All these groups of estates were merged with the Bombay State in 1949 and included in Baroda district.

2.2 Territorial Changes

The district was a part of the former Baroda State till Independence (1947). After the merger of that State with the State of Bombay in 1949, the district became part of Bombay State and formed part of Gujarat State on its formation into a separate State on 1st May, 1960. The territorial changes which took place between period 1951–1961 are given in sub-appendix 2 to Appendix I to Table A-I published in Part II of this Handbook. The territorial changes which took place after 1st March, 1961 are given in the Annexure.

2.3 Administrative Divisions

Baroda is one of the districts of Baroda division of Gujarat State. For the purposes of revenue administration, the district is divided into 3 Sub-divisions with 10 talukas and 2 mahals.

The details about the area and population in respect of these sub-divisions are given in the following table.

Administrative Divisions, 1961

Sub-Division/ Taluka/Mahal	Area (in sq. miles)	No. of towns	No. of villages	Population		
				Total	Rural	Urban
1	2	3	4	5	6	7
District Total	**3,012.9**	**9**	**1,703**	**1,527,326**	**1,129,832**	**397,494**
Baroda Sub-Division	*1,001.4*	*4*	*433*	*819,108*	*484,006*	*335,102*
Baroda	257.9	2	120	461,020	151,304	309,716
Savli	308.3	..	135	131,406	131,406	..

Karjan	232.3	1	94	87,522	79,405	8,117
Dabhoi Sub-Division	*893.9*	*2*	*592*	*336,645*	*298,478*	*38,167*
Dabhoi	247.8	1	120	119,783	88,942	30,841
Vaghodia	215.7	..	95	75,675	75,675	..
Nasvadi	218.5	..	220	56,952	56,952	..
Tilakwada	98.8	..	117	37,182	37,182	.
Sinor	113.1	1	40	47,053	39,727	7,326
Chhota Udaipur Sub-Division	*1,117.6*	*3*	*678*	*371,573*	*347,348*	*24,225*
Chhota Udaipur	529.2	1	279	145,143	134,314	10,829
Jabugam	309.2	..	213	110,891	110,891	..
Sankheda	279.2	2	186	115,539	102,143	13,396

Details of inhabited and uninhabited villages, density and occupied houses are available in Census Table-A-I published in Part-II of this Handbook.

2.4 Revenue

The Collector is in charge of the general administration, law and order and civil supplies. He is assisted by a Personal Assistant in his office and 3 Deputy Collectors in charge of 3 Sub-divisions having their headquarters at Baroda, Dabhoi and Chhota Udaipur. There are 10 mamlatdars in charge of 10 talukas offices and 2 mahalkaris in charge of the mahal offices at Sinor and Tilakwada.

2.5 Revenue Settlement

The district is comprised of 10 talukas and 2 mahals formed out of the former Baroda, Bhadarva and Chhota Udaipur State areas and areas out of Sankheda Mewas Thana and the whole of Pandu Mewas.

The former Baroda, Bhadarva and Chhota Udaipur State areas were surveyed—the former according to *chok-mapni* system and the latter according to the chain and cross staff method and their land revenue settlement was considered scientific. Therefore, after merger no survey or classification operations were necessary. As regards villages of Sankheda Mewas and Pandu Mewas, the survey and classification was carried out under the Merged State Areas survey scheme in all the villages except 74 villages of the former Sankheda Mewas, where mainly on account of stay orders from the Court of Law, the survey and classification records were not handed over by the former Jagirdars. The lands of each individual holding in this district, except 74 former Jagiri villages mentioned above, were surveyed and the unit of land was designated as survey number and its sub-divisions were designated as pot hissas, pot numbers or hissas-numbers. Their areas and assessments were worked out separately and recorded. The soils of these survey numbers and sub-divisions were classified for the purposes of fixing land revenue according to the relative capabilities of the soil.

In the Merged State Areas where the land revenue settlement was considered scientific, in order to bring land revenue assessments on par with those obtaining in the homogeneous pre-merger areas, Land Revenue Rule 19-N, was framed. For fixing land revenue assessments in areas which were not settled or not scientifically settled on lines similar to Bombay Land Revenue Code, Land Revenue Rule 19-0 was framed. Both the above rules were framed under Bombay Land Revenue Code Sec. 52. According to Land Revenue Rule 19-N, the various settlement groups of villages were compared with those in the pre-merger talukas, comparable in respect of permanent and semi-permanent factors of physical configuration, climate and rainfall, markets, communications, and standard of husbandry, and Comparable Union Areas that is the areas of the pre-independence districts of Bombay Province were fixed for them. The standard rates of the scientifically settled areas were then compared with the standard rates of Comparable Union Areas * and remission was granted to the extent of the excess of the former over the latter. Under Land Revenue Rules 19-0, groups of the villages of the merged areas were formed on consideration of their homogeneity in respect of permanent and semi-permanent factors mentioned above and then Comparable Union Areas of these villages were fixed as under Land Revenue Rule 19-N and land revenue assessments in such areas were worked out by application of (1) recoverable rate worked out under Land Revenue Rule 19-N or (2) the existing rates prevailing in the merged areas or (3) the rates worked out on the basis of average cash value of 35 per cent of 1/6th of the gross produce, whichever of the three was the lowest to the soil classification values through the medium of the distance from village site scale and the actual area of the survey number or its sub-division. In these areas, there were several villages held on jagiri tenure. The jagiri tenure was abolished under the Bombay Merged Territories and Area (Jagiri Abolition) Act, 1953 and the assessment of each survey number or sub-division was fixed by applying the rate of the adjoining homogeneous *Khalsa* village under section 7 of the Bombay Merged Territorial and Area (Jagiri Abolition) Act.

*Union Areas=areas forming parts of the Pre-Independence districts of Bombay Province

The former Baroda, Bhadarva and Chhota Udaipur States had adopted Gujarat classification system, according to which, lands irrigated from wells were treated as Dry Crop lands with an additional classification factor, viz., sub-soil, so as to levy higher land revenue assessment on consideration of the capacity of the wells and soils. Lands irrigated from 2nd Class and 1st Class irrigation works, which were in charge of Public Works Department, were subjected to separate irrigation cess and irrigation rates under the Bombay Irrigation Act, but for lands irrigated from smaller works like tanks, which were not governed by the Bombay Irrigation Act, the lands were subjected to himayat assessment which was clubbed with the land revenue. Occasional use of water from Government resources was allowed free for agriculture purposes if used with permission, and if Government had not spent anything over the source and when Government had spent something over the source, water assessment was levied under Sec. 55 of Bombay Land Revenue Code.

2.6 Agrarian Structure and Land Reforms

In the merged areas, there were lands and villages held on Ankadia, Banhedhri, Watan and Jagiri tenures. These tenures were abolished by special legislations. The various Inams obtaining in the merged areas were also abolished by the Bombay Merged Territories and area (Miscellaneous Alienations Abolition) Act and the Bombay Tenancy and Agriculture Lands Act, was applied with a view to do away with the intermediaries between the agriculturists and the State. Activities under the Bombay Prevention of Fragmentation and Consolidation of Holdings Act of 1947 were started in the Merged State Areas from 1954 and were spread over Sankheda, Padra, Vaghodia, Baroda, Karjan and Dabhoi talukas of this district. Under the Gujarat Agriculture Lands Ceiling Act, 1960 the meximum limits to the land holdings were also laid down.

Thus, in respect of land tenures and Inams and survey, soil classification and land revenue settlements, the position in Merged State Areas has been brought on par with that obtaining in these respects in the pre-merger areas of the State.

2.7 Parliamentary and Assembly Constituencies

Under the delimitation of Parliamentary and Assembly Constituencies Order, 1961, 1 seat is allotted to this district for the purpose of election to the House of the People and 12 seats for the State Assembly. The details comprising the territorial extent of the Parliamentary and Assembly constituencies are shown below.

Delimitation of Parliamentary and Assembly Constituencies

A

Parliamentary Constituency

Sl. No.	Name of Constituency	Extent in terms of Assembly Constituencies
1	2	3
1	Baroda	Vaghodia, Savli, Baroda North, Baroda city West, Baroda city East, Dabhoi and Karjan

B

Assembly Constituencies

Sl. No.	Name of Constituencies	Extent of Constituency
1	2	3
1	Jabugam	Jabugam taluka
2	Chhota Udaipur	Chhota Udaipur taluka (excluding 44 villages of Kawant circle of Chhota Udaipur taluka)
3	Nasvadi (ST)*	Nasvadi taluka; Tilakwada mahal and 44 villages of Kawant circle of Chhota Udaipur taluka
4	Sankheda (ST)*	Sankheda taluka
5	Vaghodia	Vaghodia taluka and 13 villages of Baroda circle and 17 villages of Baroda South circle of Baroda taluka.
6	Savli	Savli taluka
7	Baroda North	Baroda taluka (excluding Baroda Municipality and 13 villages of Baroda circle and 17 villages of Baroda South circle of Baroda taluka)
8	Baroda city West	Babajipura, Raopura and Sayajiganj wards of Baroda Municipality
9	Baroda city East	Fatehpura City and Wadi wards of Baroda Municipality
10	Dabhoi	Dabhoi taluka
11	Karjan (SC)††	Karjan taluka and Sinor mahal
12	Padra	Padra taluka

* These seats are reserved for Scheduled Tribes.
†† This seat is reserved for Scheduled Castes.

2.8 Judiciary

The judicial set-up of the district comprises of 1 District and Sessions Judge, 2 Assistant Judges,

2 Civil Judges (Sr. Division) and 15 Civil Judges (Jr. Division). As Sessions Judge he is empowered to impose any sentence authorised by law, but any sentence of death subject to confirmation by the High Court. The Assistant Sessions Judge is empowered to impose any sentence authorised by law, except a sentence of death or imprisonment for life or of imprisonment for a term exceeding 10 years. The District Judge has unlimited jurisdiction in civil suits while the Assistant Judge has jurisdiction up to Rs. 15,000 in such suits. Civil Judge (Sr. Division) and Judicial Magistrate is empowered to impose a sentence of imprisonment for a term not exceeding 2 years and fine not exceeding two thousand rupees. He has got unlimited jurisdiction in civil suits. Civil Judges (Jr. Division) have jurisdiction up to Rs. 10,000 in civil suits.

2.9 Police

The total strength of civil police in 1960 amounted to 1,171 persons. There were 21 police stations and 31 police outposts in the district. The total Number of cognizable offences investigated was 8,913. Thus there was 1 police per 2.57 sq. miles of area. The number of persons per police was 1,304 and the number of cognizable offences investigated per police was 7.61.

The number of crimes by major class of offences in the district is extracted from Official Statistics Table No. 11.3 given in Part II of this Handbook wherein other details regarding number of persons acquitted or discharged and number of persons convicted will be found.

Persons convicted by nature of offences, 1960–61

Description of offence	No. of persons convicted
1	2
Against the public tranquility	1
Affecting the public health, safety, convenience, decency and morals	15
Affecting life	35
Hurt	141

3 LOCAL SELF GOVERNMENT

3.1 Local Self Government Institutions

The Local Self Government institutions in the State as on 1st April, 1961, which is the period covered by this Handbook are (1) Municipalities, (2) District Local Board (3) District School Board and (4) Gram Panchayats. But since the Panchayats Act has come into force from 1st April 1963, replacing the existing District Local Boards by Jilla Panchayats and introducing democratic decentralisation at all levels, a short resume of the provisions of this Act as regards the new set-up, functions, finances, etc., will also be given to bring the position about administrative set-up up-to-date.

3.2 Municipalities

At the end of 1960–61 there were 7 municipalities covering 7 towns with a population of 376,904. The average population per municipality was 53,844. The following table shows area, population, income and expenditure of each municipality in the district.

Municipalities, area, population, income and expenditure for the year, 1960-61

Municipality	Area in sq. miles	Population	Income Rs.	Income per head	Expenditure Rs.	Expenditure per head
1	2	3	4	5	6	7
Total	**26.52**	**376,904**	**8,858,580**	**23.50**	**8,450,416**	**22.42**
Baroda	9.72	295,144	7,504,738	25.43	7,084,564	24.00
Padra	0.18	17,269	293,868	17.02	209,944	17.37
Karjan	6.06	8,117	232,481	28.64	228,259	28.12
Sinor	0.17	7,326	70,281	9.59	101,555	13.86
Dabhoi	9.20	30,841	401,839	13.03	378,717	12.28
Sankheda	0.19	7,378	98,507	13.35	100,734	13.65
Chhota Udaipur	1.00	10,829	256,866	23.72	256,643	23.70

Details regarding number of members, sources of income and heads of expenditure are available in Official Statistics Table No. 14.1 published in Part II of this Handbook.

The total income of all the 7 municipalities during 1960–61 amounted to Rs. 8,858,580. The income per head of population as per 1961 Census was Rs. 23.50 per cent. As against this, the total expenditure in 1960–61 of all municipalities amounted to Rs. 8,450,416 and average expenditure per head of population Rs.22.42 per cent.

3.3 District Local Board

The district local board was constituted on 1-8-1950. Total income and expenditure of the board during 1960–61 were Rs. 1,421,759 and Rs. 2,066,518 respectively. The main sources of

income are civil works local rates and land revenue and the major heads of expenditure are civil public works, medical and education. The following table shows income and expenditure of the Baroda District Local Board during 1960-61 under different heads.

Income and expenditure of District Local Board, 1960-61

Head	Income (in Rs.)	Head	Expenditure (in Rs.)
1	2	3	4
Land Revenue	153,329	Refunds	136
Local rates	365,016	Administration	75,027
Interest	96,690	Education	124,582
Medical	8,987	Medical	90,763
Miscellaneous	74,030	Pension	8,224
Irrigation and minor works	1,107	Miscellaneous	12,006
Civil works	722,600	Civil Public Works	1,755,780

Details giving Income and Expenditure under different sources are available for the years 1950–51 and 1955–56 in Official Statistics Table No. 14.2 published in part II of this Handbook.

3.4 Panchayats

The number of panchayats in the district at the end of 1960–61 was covering 712 villages and towns. 303 of these panchayats were group panchayats and the rest (409) were independent panchayats. The number of panchayats in each taluka/mahal of the district together with their income and expenditure for the year 1950–51, 1955–56 and 1960–61 is given in the following table.

Income and expenditure of panchayats 1950–51, 1955–56 and 1960–61

Taluka/Mahal	No. of village panchayats			Income Rs.			Expenditure Rs.		
	1950-51	1955-56	1960-61	1950-51	1955-56	1960-61	1950-51	1955-56	1960-61
1	2	3	4	5	6	7	8	9	10
Total	**536**	**502**	**712**	**226,483**	**1,085,844**	**3,006,195**	**139,128**	**800,714**	**2,527,176**

N. A.=Not available

Details for the years 1950–51 and 1960–61 are available in Official Statistics Table No. 14.3 published in Part II of this Handbook.

The total income of all panchayats for the year 1960–61 was Rs. 3,006,195 while the total expenditure amounted to Rs. 2,527,176. The income and expenditure per head of population covered under panchayats were Rs. 3.25 and Rs. 2.73 respectively. The income and expenditure per panchayat were Rs. 4,222 and Rs. 3,549 respectively.

3.5 Present set-up under the Panchayat Act

The Gujarat Panchayats Act has been brought into force in all the districts of Gujarat (except Kutch and Dangs districts) from 1st April, 1963. In the Kutch district, it has been brought into force with effect from 15th April, 1963. It is not yet made applicable to the Dangs district. In each disdrict there are three tiers of the panchayat organisation, gram/nagar panchayats, taluka panchayats and district panchayat. Municipalities having population not exceeding 10,000 have been converted into gram-panchayats and those having population exceeding 10,000 but not exceeding 20,000 have been converted into nagar panchayats A gram and nagar panchayat is subordinate to the taluka panchayat, while a taluka panchayat is subordinate to the district panchayat according in the scheme of this Act.

According to the provisions of the Gujarat Panchayat Act, 1961, a gram panchayat consists of not less than 9 and not more than 16 members, while a nagar panchayat consists of not less than 15 and not more than 31 members. Provision has been made to reserve seats for women and members of scheduled castes and tribes. A taluka

panchayat consists of *ex*-officio, elected, co-opted and associate members. On account of the national emergency, interim district panchayats had to be constituted in April, 1963. Elections are now proposed to be held and elected district panchayats would be constituted towards the end of March, 1964 in the sixteen districts of the State.

The District Development Officer is the Chief Executive Officer in a district panchayat. He is borne on the cadre of the Indian Administrative Service (senior time scale) and is appointed by Government. The Chief Executive Officer of the taluka panchayat is the Taluka Development Officer, who is also appointed by Government. Both these Officers are secretaries of their respective panchayats. These panchayats function through various committees–appointed for different groups of functions under the Act.

Functions

The functions of three tiers of panchayats have been given very elaborately in the three schedules to the Act. In addition, the functions of collecting land revenue (including cesses) and dues recoverable as arrears of land revenue, levied and assessed by or under the Land Revenue Code and all other functions and duties of a village accountant under the land revenue code have been transferred to gram/nagar panchayats. The powers exercised and the functions and duties performed by the District School Board have been similarly transferred to the taluka and district panchayats and all primary schools have been placed under the control of taluka and district panchayats. A large number of functions such as registration of co-operative societies, approval of amendment to the bye-law of co-operative societies, calling of or extending the period for the calling of annual general meeting of co-operative societies and such other functions which under the Co-operative Societies Act, were exercised by the Registar, Co-operative Societies have been transferred to district panchayats. Moreover, functions relating to agriculture, animal husbandry public health and medical relief, social welfare, cotton industries & small scale industries and District Statistical Office, have been transferred on an agency basis to the district panchayats.

Staff

To enable the panchayats to carry out numerous activities entrusted to them, Government has transferred/deputed a number of its employees alongwith the functions transferred. The staff of the District School Boards and District Local Boards has also been transferred to taluka/district panchayats. It has been envisaged in the Act, to constitute a panchayat service in connection with the affairs of panchayats and to maintain a uniform standard in the recruitment for panchayat service. A Panchayat Service Selection Board has been constituted for this purpose.

Funds

The panchayats have been given necessary funds to execute all schemes transferred to them. In addition, provision has been made in the Act, for various tiers of panchayat to levy taxes and fees. A gram or nagar panchayat subject to certain conditions can levy a tex on buildings, a pilgrim tax, a tex on fairs, festivals and other entertainments, a tax on bicycles or vehicles drawn by animals, a sanitary tax, etc. It can also levy fee on markets, cart stands, tanga stands, the supply of water from wells and tanks for purposes other then domestic use and for cattle. The taluka panchayat and district panchayat can request Government for increase in stamp duty. Moreover, provision has been made in the Act for making grants to the panchayats for its activities.

At present, the implementation of the Act is being done mostly through the Commissioner. They have been delegated with most of the powers of the State to exercise supervision over panchayats.

Provision has also been made in the Act under which the State Government will give grants to the panchayats on the basis of the average of the land revenue collected during the last three preceding years, after deducting therefrom the expenditure on the salaries and training of the secretaries of gram panchayats and village accountants and crediting 5% of the amount to the State Equalisation Fund 50% of the balance will be distributed among gram panchayats and nagar panchayats. 25% among taluka panchayats, and 10% among the district panchayats.

Out of the remaining 15% of the land revenue, 7½% will be carried to the District Equalisation Fund and 7½% to the Gram Encouragement Fund.

4 POPULATION

4.1 Growth of Population

In 1951, the population of the district as constituted in 1961 was 1,211,935. According to the 1961 Census the same has gone up to 1,527,326 and increased by 315,391 or 26.02 per cent, the highest during the last sixty years though slightly lower than that observed in the case of Gujarat State which is 26.88 per cent. The higher rate of growth is due to unprecedented increase of 41.15% in the population of Baroda City which was made rapid strides in industrialisation in recent years. The following table compares the growth rate in the district during the last sixty years.

Variation in population during 1901 to 1961

Year	Population	Decade variation	Percentage decade variation
1	2	3	4
1901	590,338	..	..
1911	696,878	+ 106,540	+ 18.05
1921	754,830	+ 57,952	+ 8.32
1931	878,436	+ 123,606	+ 16.38
1941	1,045,537	+ 167,101	+ 19.02
1951	1,211,935	+ 166,398	+ 15.92
1961	1,527,326	+ 315,391	+ 26.02
1901 to 1961		+ 936,988	+ 158.72

Sexwise details are available in Census Table A-II published in Census of India 1961-Volume V-Gujarat-Part II-A.

The pace of growth observed since 1911 has been more rapid from 1931.The unprecedented growth of numbers between 1951-61 can, however, be attributed to the decline in death rate, accompanied by steady improvements in medical and public health services available to the people since Independence.

OCCUPIED RESIDENTIAL HOUSES AND HOUSEHOLDS

The total number of occupied residential houses in the district is 278,101 or 7.46 per cent in the State. The average number of persons per occupied census house in total, rural and urban areas of the State and district are given below.

Average number of persons per occupied census house, 1961

Total/Rural/Urban	State	District
1	2	3
Total	5.53	5.49
Rural	5.54	5.56
Urban	5.52	5.30

It will be seen that the average number of persons per occupied house in the district is a little less than that of the State for its total and urban areas, while it is higher by 0.02 in rural areas.

The number of households in the districts was total 286,089 rural 208,149 and urban 77,943. and that of the houses total 278,101 rural 203,080 and urban 75,021. The number of households per cent of houses, therefore, comes to 102.87, 102.49 and 103.89 for the total, rural and urban areas respectively. The average number of persons per household for total, rural and urban areas of the district comes to 5.34, 5.43 and 5.10 respectively.

4.2 Rural/Urban distribution

The criteria for determining whether a place was rural or urban varied from census to census and rendered such data incomparable. A uniform definition for urban areas was therefore, adopted during the Census of 1961, by laying down that a place should be classified as urban if it was (1) a municipality, Cantonment or Civil lines or, (2) had (a) a population of 5,000 or over and (b) 75 per cent or more of the total male population was dependent on non-agricultural pursuits.

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'Village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distinct number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

4.2 (i) Rural Population

The total number of villages in the district is 1,703 of which 12 are uninhabited. The total

rural population of the district is 1,129,832 giving an average of 668 persons per inhabited village. The proportion of rural population 73.97% to the total population in the district is lower than similar proportion in the State which is 74.23%.

Percentage distribution of rural population by size group of villages, 1961

Size Group	No. of Villages	Percentage to total No. of Villages	Rural Population	Percentage to total rural Population
1	2	3	4	5
Less than 200	360	21.29	43,214	3.83
200-499	589	34.83	200,095	17.71
500-999	443	26.20	312,966	27,70
1,000-1,999	207	12.24	276,504	24.47
2,000–4,999	83	4.91	241,422	21.37
5,000–9,999	9	0.53	55,631	4.92
10,000-and above	..	..	..	..

Note :

Details of sexwise population for talukas/Mahal are available in Census Table A-III published in Part II of this Handbook.

More than ½ of villages in the district fall in the class range less than 500, while 38.44% of the total have population varying from 500 to 2,000 5.44% of them are large size villages (2,000 and above) covering 26.29 of rural population. It is significant to note that the half of rural population 50.76 per cent is concentrated in villages, having population 1,000 and above. Though rural population is mainly concentrated in the large size villages. The number of small size villages having population below 200 is only accounts for appreciable (21.29 per cent) though it accounts for only 3.83 per cent of the rural population. The tendency of village to grow in size and the concentration of rural population in medium and large size villages are noticeable from these statistics.

4.2 (ii) Urban Population

Statement showing the number of towns classified by population is furnished below.

Number of towns classified by size groups during 1901 to 1961

	I 100,000 and above		II 50,000 to 99,999		III 20,000 to 49,999		IV 10,000 to 19,999		V 5,000 to 9,999		VI Below 5,000	
Year	No. of towns	Population	No. of towns	Popula-tion	No. of towns	Popula-tion	No. of towns	Popula-tion	No. of towns	Popula-tion	No. of towns	Popula-tion
1	2	3	4	5	6	7	8	9	10	11	12	13
1961	1	298,398	..	..	1	30,841	3	39,416	3	21,496	..	..
1951	1	211,407	..	..	1	24,952	1	14,795	5	36,162	2	9,902
1941	1	152,326	..	..	1	21,139	1	12,858	6	36,726	5	11,781
1931	1	109,639	..	..	..	..	2	28,535	3	17,118	6	21,621
1921	..	..	1	91,778	..	..	1	15,870	3	19,494	7	23,569
1911	..	..	1	95,867	..	..	..	..	3	22,606	8	25,533
1901	1	100,628	..	..	..	..	1	14,034	2	13,475	6	19,797

Sexwise details for each town are available in Census Table A-IV published in Part II of this Handbook.

Over ¼ of the total population (26.03%) lives in urban areas, as against 25.77% in the State. The number of towns in 1951 10 has come down to 8 in 1961 owing to declassification of a number of them as a result of change in the definition of urban areas. According to this definition, Savli and Vaghodia which were treated as urban in 1951 were declassified and treated as rural in 1961, while Gorwa is added as a new town.

The urban population of the district, numbering 397,494 persons is spread over 8 towns of different sizes of which only one, viz., Baroda comes under class I and has population over 100,000 of

the rest, one is in Class III, i.e., size group 20,000 to 49,999 3 fall under Class IV and have population above 10,000 and below 20,000 and 3 have population below 10,000. The average population of a town in Baroda district is 49,687 persons as compared to 30,380 for the State. The extent of urbanisation is thus found to be comparatively more than that obtaining in the State as a whole.

4.3 Density

The area of the district in 1951 was 2,788.0 square miles or 3.92 per cent of the total area of Gujarat. In 1961 it rose to 3,012.9 square miles or 4.24 per cent of the total area of the State which is due to changes in the territorial jurisdiction of the district. The corresponding percentages of population for the district as constituted in 1961 are, however, found to be 7.45% in 1951 and 7.40% in 1961. The average density of population is 507 persons per square mile as against 290 for the State. The urban density 13,059 is naturally higher than the rural 379 where the pressure of population is comparatively less and the average density is worked out on the basis of the entire area within the revenue limits of the village and not of the village site. These densities differ for different parts of the district as also for its rural and urban areas as will be seen from the table that follows.

Population per square mile, 1961

State/District/ Taluka/Mahal	Population per square mile		
	Total	Rural	Urban
1	2	3	4
State	**290**	**218**	**7,194**
District	*507*	*379*	*13,059*
Baroda	1,788	619	23,060
Savli	426	426	..
Vaghodia	351	351	..
Padra	686	601	95,939
Karjan	377	351	1,339
Sinor	416	352	43,094
Dabhoi	483	373	3,352
Sankheda	414	366	46,193
Tilakwada	376	376	..
Nasvadi	261	261	..
Chhota Udaipur	274	254	10,829
Jabugam	359	359	..

While working out the density of urban areas, the urban units for which area figures are not available have been ignored. Rural density is worked out on the basis of rural population only, though the area figures include the area of those urban units for which separate area figures are not available. The highest average density 1,788 is found in Baroda taluka and the lowest 261 in Nasvadi taluka. In rural areas Baroda has the highest 619 and Chhota Udaipur taluka the lowest 254 density. But among towns Padra tops the list with 95,939 persons per sq. mile, the lowest being 1,339 persons for Karjan.

4.4 Migration

The number of persons born (i) at the place of enumeration (ii) elsewhere in the district (iii) outside the district of enumeration but within Gujarat State and those (iv) born outside Gujarat State as per 1961 Census is given below.

Population by place of birth, 1961

Persons/ Males/ Females	Total Popula- tion	Place of enume- ration	Elsewhere in the district	Outside the district but in the State	Outside the State
1	2	3	4	5	6
Persons	1,527,326	992,273	329,173	146,680	59,200
Males	801,026	621,281	87,270	59,431	33,044
Females	726,300	370,992	241,903	87,249	26,156
Percentages					
Persons	100.00	64.97	21.55	9.60	3.88
Males	100.00	77.56	10.89	7.42	4.13
Females	100.00	51.08	33.31	12.01	3.60

In case of 64.97 per cent of the population of the district, the place of enumeration is the same as the place of birth. This proportion for males is 77.56 per cent, as against 51.08% for females owing to the migration of females after marriage, which appears to be mostly within the district. The proportion of females born outside the place of enumeration but within the district is as high as 33.31% as compared to those born outside the district but within the State which account for 12.01% and those outside the State which account for 3.60% only.

The percentage distribution of population born at the place of enumeration, born elsewhere within the district and outside the district by nine categories of economic activity and of non-workers is shown below.

Distribution of population by categories of workers and non-workers classified by place of birth, 1961

Place of birth	Categories of workers I As Cultivator	II As Agricultural labourer	III In Mining, Quarrying, etc.	IV At Household Industry	V In manufacturing other than Household Industry	VI In Construction	VII In Trade and Commerce	VIII In Transport, Storage and Communications	IX In Other Services	X Non-workers
1	2	3	4	5	6	7	8	9	10	11
District Total	**16.59**	**10.63**	**0.29**	**1.03**	**2.67**	**0.27**	**1.82**	**0.85**	**4.24**	**61.61**
Born at the Place of enumeration	19.53	9.28	0.23	0.86	1.82	0.20	1.40	0.48	2.94	63.26
Elsewhere in the district	15.20	17.62	0.28	1.15	2.10	0.25	1.47	0.68	4.46	56.79
Outside the district	4.64	5.93	0.59	1.62	7.67	0.67	4.45	2.88	10.19	61.36

4.5 Sex Ratio

In 1961 the number of females per 1,000 males in the district was 907 which was lower than the similar ratio of 940 for the State. The corresponding rural and urban sex ratios for the district which were 921 and 866 respectively show that the proportion of females was comparatively less in towns than in villages.

The following statement compares sex ratios in towns in 1951 and 1961.

Females per thousand males in urban areas, 1951 and 1961

State/ District/ Town	Sex ratio 1951	1961
1	2	3
State	**915**	**896**
District	*914*	*907*
Baroda	862	857
Dabhoi	915	905
Padra	931	912
Gorwa	..	822
Chhota Udaipur	890	888
Karjan	886	852
Sankheda	1,004	928
Sinor	971	938
Bahadarpur	956	873

The urban areas with a sex ratio lower than that for the district average are, Baroda, Dabhoi, Gorwa, Chhota Udaipur, Karjan and Bahadarpur. The ratios in respect of the above areas appear to be significantly lower due to concentration of male population brought about by the following factors.

Baroda:—Industrial and business centre with Maharaja Sayajirao University Baroda, having various colleges and educational institutions.

Dabhoi:— Educational Institutions.

The higher female ratio in Padra, Sankheda and Sinor may be mainly due to the absence of male members who have migrated to towns and big cities for service or business.

4.6 Age Distribution

Table C-II in Part II of this Handbook shows the distribution of the population by quinquennial age-groups. Table C-IV gives single year age returns. Broad age groups are also given in tables B-I and C-II printed in Part II of this Handbook. Proportionate population figures by broad age-groups in 1961 are compared separately for males and females with the corresponding proportions for 1951 for the district as constituted then are given below.

Percentage distribution of population by sex and age groups, 1951 and 1961

Age groups	Percentage of population by age groups 1951 Males	1951 Females	1961 Males	1961 Females
1	2	3	4	5
Total (A to D)	**100.00**	**100.00**	**100.00**	**100.00**
0-4	13.56	13.86	14.74	15.78
5-14	25.15	25.05	26.69	26.20
A 0-14	38.71	38.91	41.43	41.98
15-34	33.92	34.89	32.37	32.57
35-59	23.25	21.34	21.79	20.44
B 15-59	57.17	56.22	54.16	53.01
C 60+	4.11	4.83	4.39	4.99
D Age not stated	0.01	0.04	0.02	0.02

The proportion of both males and females in the age group 0-14 has increased during

the decade owing to high birth rate which is responsible for an increase of 2.72% in males and 3.07% in females of these ages. But there is a slight decline in the proportion of males and females in the age groups 15–34 and 35–59. This may perhaps be due to the migration of adult workers to other areas.

4.7 Marital Status

According to the Census of 1961, 43.59% of the total are returned as married, 41.71% males, and 45.67% females. Never married persons account for 50.13% of the total population, males being 54.45% and females, 45.36% of their respective population. The widowed are 3.18% and divorced or separated constitute 5.86% only. The following table shows the marital status of males and females in different age groups classified into (i) never married, (ii) married and (iii) widowed, divorced/separated and others.

Age and Marital Status, 1961

	Never Married		Married		Widowed, divorced/separated and others	
Age groups	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total femlaes
1	2	3	4	5	6	7
Total	**54.45**	**45.36**	**41.71**	**45.67**	**3.84**	**8.97**
0– 9	100.00	100.00	..	..	..	..
10–14	97.83	92.83	2.14	7.12	0.03	0.05
15–19	81.63	43.40	17.88	55.86	0.49	0.74
20–24	44.19	6.27	54.08	92.28	1.73	1.45
25–29	16.48	1.56	80.73	96.19	2.79	2.25
30+	3.79	0.44	85.94	73.19	10.27	26.37

It will be seen from the above table that no person has been reported as married in age group 0-9 as all such persons were treated as unmarried at the time of sorting. But the child marriages still persist in the age group 10–14 to the extent of 2.14% for males and 7.12% for females. It is also noteworthy that among males the age of marriage has shifted well above 20 years, as only 17.88% of males have been returned as married in the age group 15-19, while the percentage rises to 54.08 in the age group of 20–24 and to 80.73% in the age group of 25–29. Corresponding proportions for females, however, show that 55.86% of females in the age group 15–19 and 92.28% in the age group 20–24 are married. In other words, in case of females, while the date of marriage has advanced and gone up to 20. It has shifted still higher in the case of males.

Examination of the figures of widowed and divorced separated discloses an interesting feature of marital life in the district in that, they appear to be significant only after the age of 29. While females above 30 years account for 26.37% in this category, males form 11.27% of their population. These figures reveal greater tendency towards remarriage on the part of widowed males than widowed females among whom it is mostly avoided.

4.8 (i) Literacy and Education

According to the Census of 1951, there were 324,350 literates in the district of Baroda as constituted then and formed 27.55% of the total population. Percentage of male literates was then 31.18%, while that of female literates 17.02%. In 1961, the percentage of literacy rose to 35.21% (45.89% for males and 23.43% for females). Percentage of literacy to total population by age and sex is given for total/rural/urban in the following table.

Literacy by Age groups, 1961

	Total			Rural			Urban		
Age groups	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8	9	10
All Ages	**35.21**	**45.89**	**23.43**	**28.75**	**39.46**	**17.13**	**53.57**	**63.64**	**41.95**
5–14	39.68	46.05	32.52	33.97	41.14	25.94	56.44	60.38	51.97
15–34	48.00	61.95	32.71	38.91	53.40	23.61	70.66	82.04	56.99
35–59	37.51	53.18	19.08	30.53	45.90	12.73	58.37	74.34	38.69
60 +	25.50	44.45	7.12	19.92	36.55	3.62	42.81	69.52	17.75
Age not stated	20.91	33.55	9.71	18.39	29.29	9.41	60.00	73.33	20.00

Literates among children in the age group 5–14, constitute 39.68% of whom males account for 46.05% and females 32.52%. The highest literacy among persons and males is found to be in the age group 15–34 in total/rural/urban areas. The highest percentage of literacy among females is to be found in the age group 15–34 in total and urban areas of the district, but in rural areas the percentage of literacy is higher in the age group 5–14. The following table furnishes the sexwise details of literacy by rural/urban for each taluka/mahal of the district.

Rural/Urban literacy by sex, 1961

Taluka/Mahal		Literate and Educated (Literates) number	Percent of total population	Literate males	Percent of total male population	Literate females	Percent of total female population
1		2	3	4	5	6	7
Baroda	R	58,727	38.81	41,234	51.25	17,493	24.69
	U	169,456	54.71	107,438	64.39	62,018	43.41
Savli	R	37,684	28.68	27,727	40.21	9,957	15.94
	U	..	..	..	..	..	..
Vaghodia	R	15,890	21.00	12,253	31.20	3,637	9.99
	U	..	..	..	..	..	..
Padra	R	49,352	40.49	34,218	53.61	15,134	26.06
	U	8,806	50.99	5,609	62.11	3,197	38.81
Karjan	R	33,187	41.79	22,614	55.23	10,573	27.49
	U	3,530	43.49	2,318	52.90	1,212	32.45
Sinor	R	18,693	47.05	12,292	59.61	6,401	33.50
	U	3,418	46.66	2,248	59.47	1,170	32.99
Dabhoi	R	35,885	40.35	24,354	52.47	11,531	27.11
	U	16,034	51.99	10,361	63.99	5,673	38.72
Sankheda	R	32,097	31.42	22,814	43.10	9,283	18.86
	U	6,758	50.45	4,190	59.52	2,568	40.40
Tilakwada	R	8,787	23.63	6,777	35.31	2,010	11.17
	U	..	..	..	..	..	..
Nasvadi	R	9,189	16.13	7,205	24.59	1,984	7.18
	U	..	..	..	..	..	..
Chhota Udaipur	R	8,176	6.09	6,745	9.79	1,431	2.19
	U	4,942	45.64	3,391	59.12	1,551	30.45
Jabugam	R	17,169	15.48	13,808	24.14	3,361	6.26
	U	..	..	..	..	..	..

It will be seen from the above table that in rural areas the percentage of literacy is the highest (47.05%) in Sinor taluka and the lowest in Chhota Udaipur taluka (6.09%). These also are the rural areas where the highest as well as the lowest percentages of male and female literacy are returned. But among urban areas, the literacy percentage is the highest 54.71% in Baroda taluka where the highest percentages 64.39 and 43.41 of male and female literates respectively are also found.

4.8 (ii) Educational Institutions

The table below gives the number of various types of educational institutions in the district along with the number of students and teachers in 1960–61.

Number of educational institutions, students, teachers, 1960–61

Educational levels	Institutions	Teachers	Students
1	2	3	4
Primary*	1,108	3,056	118,736
Secondary	90	1,195	32,442
Higher	15	659	8,955
Special	68	223	8,167

Primary, Secondary, Higher and Special Institutions

In 1960–61, there were 1,080 primary schools in the district. 1,067 or 63.10% of the total number of villages have schools. Villages having no school are 624 or 36.90% of which 170 were in Nasvadi, 135 in Chhota Udaipur, 110 in Jabugam,

* For rural only

66 in Tilakwada, in 63 in Sankheda, 21 in Savli, 19 in Dabhoi, 13 in Baroda, 7 in Karjan and 3 in Padra. Area served per school in rural areas worked out to 2·69 sq. miles. Number of students per primary school in rural areas was 107 and number of students per teacher is 39. There were 105.09 students in primary schools per 1,000 of rural population. In 1960–61, there were 90 secondary institutions with 1,195 teachers and 32,442 pupils, giving an average of 27 pupils per teacher.

The Baroda city is a centre of higher education. The Maharaja Sayaji Rao University of Baroda provides higher education in various fields of education such as Arts, Science, Commerce, Education, Engineering Medicine, Fine Arts, etc. The university had 14 faculties. There were 8,706 students and 648 teachers in the University in 1960–61. Thus, there was one teacher for 13 students in the University. An Arts College affiliated to the Gujarat University has also been started for higher education at Dabhoi.

In 1960–61, there were as many as 68 Special Schools which include Balmandirs, training college and a school for the blind having 223 teachers and 8,167 students.

4.9 Languages

Table C-V in Part II of this Handbook shows the population of major languages for the district and each taluka separately. The distribution of speakers of each major language by rural and urban in the district is as under.

Distribution of speakers of major languages, 961

Sl. No.	Major language	Percentage to total population			Percentage of each major language in	
		Total	Rural	Urban	Rural	Urban
1	2	3	4	5	6	7
	Total of all languages	**100.00**	**100.00**	**100.00**	**13.97**	**26.03**
1	Gujarati	89 38	97.55	66.15	80.74	19.26
2	Marathi	3.78	0.38	13.44	7.47	92.53
3	Hindi	1.16	0.25	3.75	15.77	84.23
4	Sindhi	1.10	0.07	4.03	4.46	95.54
5	Urdu	3.93	1.57	10.66	29.47	70.53
6	Bhili	0.04	0.04	0.05	70.58	29.42
7	Kachchhi	0.03	0.01	0.09	26.15	73.85
8	Konkani	0.03	N	0.12	3.77	96.23
9	Malayalam	0.06	N	0.22	4.37	95.63
10	Marwari	0.10	0.05	0.22	39.90	60.10
11	Panjabi	0.10	0.02	0.32	15.82	84.18
12	Tamil	0,09	N	0.33	1.49	98.51
13	Telugu	0.04	0.01	0.15	15.69	84.31
14	Others	0.16	0.05	0.47	22.76	77.24

N=Negligible

It will be seen from the above table that 89.38 per cent of the population in the district have Gujarati as their mother tongue. 80.74% of them live in rural areas and 19.26% in urban areas. Among other languages speakers of Marathi constitute 3.78% of the total population of the district of whom 92.53% are in urban areas. This is due to the sizeable population of persons having Marathi as their mother tongue as Baroda was the seat of the Gaekwads. Urdu claims 3.93% of the speakers of whom 29.47 per cent are in villages and 70.53 per cent in towns.

The following table gives distribution of religions.

Religions, 1961

Religions	Population	Percentage of total population
1	2	3
Total	**1,527,326**	**100.00**
Hindu	1,386,689	90.79
Muslim	118,880	7.78
Jain	14,582	0.95
Sikh	924	0.06
Christian	5,448	0.36
Other religions	803	0.06

It will be seen from the above table that 90.79 per cent of the total population are Hindus, 7.78 per cent Muslims, and 0.95% Jains. Sikhs and Christians form 0.06 and 0.36 per cent respectively. Among others, 92 are Buddhists and 711 follow other religions and persuasions.

4.11 Scheduled Castes and Scheduled Tribes

4.11 (i) Scheduled Castes

The total population of Scheduled Castes as per 1961 Census is 90,519, which forms 5.93 per cent of the total population of the district. The following table gives the figures of Scheduled Castes for total/rural/urban.

Scheduled Castes, 1961

Total/Rural/ Urban	Persons	Percentage of the total population
1	2	3
Total	**90,519**	**5.93**
Rural	71,783	6.35
Urban	18,736	4.71

The literate and educated among the Scheduled Castes number 27,286 and constitute 30.14

per cent of the total population of Scheduled Castes of the district. The rural and urban proportion among them is 29.20 per cent and 33.76 per cent of their population respectively in villages and towns. The working population accounts for 39,817 persons or 43.99 per cent of their population in the district. Workers in special occupations like (i) tanning and currying of hides and skins and (ii) Scavenging number 194 (0.21 per cent) and 1,843 (2.04 per cent) respectively of the total population of Scheduled Castes of the district.

Tables of SCT series in Census of India 1961–Volume V–Gujarat Part V–A show details as to number of Scheduled Castes/Tribes, industrial categories, marital status, religion, etc., for each Scheduled Caste. Sex and percentage distribution of Scheduled Castes population by rural/urban in the district is shown in the table given below.

Percentage distribution of Scheduled Castes population by rural/urban, 1961

Name of Scheduled Castes	Total population			Sex		Percentage to total population of the district			Percenatge of each Scheduled caste population	
	T	R	U	M	F	T	R	U	R	U
1	2	3	4	5	6	7	8	9	10	11
Total	**90,519**	**71,783**	**18,736**	**46,194**	**44,325**	**5.93**	**4.70**	**1.23**	**79.30**	**20.70**
Bhambi, Bhambhi Asadaru, Asodi, Chamadia, Chamar, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Telegu Mochi, Kamati-Mochi, Ranigar, Rohidas, Rohit or Samgar	14,864	12,874	1,990	7,524	7,340	0.97	0.84	0.13	86.61	13.39

	2,884	2,777	107	1,461	1,423	0.19	0.18	0.01	96.29	3.71

The predominant Scheduled Castes in the district are Mahyavanshi, Dhed, Vankar or Maru Vankar having 47,653 souls or 3.12 per cent of the total population of the district, of whom 2.53 per cent live in villages.

4.11 (ii) Scheduled Tribes

Scheduled Tribes claim 327,992 or 21.47 per cent of the total population of the district and 11.91 per cent of the Scheduled Tribes of the State.

The following table gives the figures of Scheduled tribes in the district.

Scheduled Tribes, 1961

Total/Rural/Urban	Persons	Percentage of Total Population
1	2	3
Total	**327,992**	**21.47**
Rural	316,264	27.99
Urban	11,728	2.95

The following table shows the percentage distribution of Scheduled Tribes population by total rural/urban in the district.

Percentage distribution of Scheduled Tribes population by rural/urban, 1961

Unclassified	5,565	5,565	..	2,991	2,574	0.36	0.36	..	100.00	..

N=Negligible

Predominance of Scheduled Tribes which constitute 21.46 per cent of the total population is a noteworthy feature of this district. The tribes which are more numerous are Bhil, including Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri, Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava and Vasave, accounting for 118,836 souls or 7.78 per cent of the total population of the district, of whom 95.84 per cent live in villages.

The literate and educated among them number 37,881 or 11.55 per cent of whom 11.28 per cent and 18.84 per cent are returned from rural areas and from urban areas.

5 HOUSING

5.1 Housing Census for the first time

In previous censuses, occupied census houses used as dwellings alone were numbered and listed. Non–residential houses such as shops, factories, workshops, temples, mosques, schools, sarais, office premises and business houses, etc., were not entered in the house-list, as it was not necessary to do so for the purposes of enumeration. They have been brought under the purview of the 1961 Census when a regular housing Census was taken for the first time with a view to account for all structures, dwellings or non-dwellings. With the adoption of a uniform house-list throughout the country, important data such as material of wall and roof, tenure status and number of rooms in case of households, number of persons per room and essential data such as name of the proprietor, products manufactured, number of persons employed and kind of fuel or power, if machinery is used in case of workshops and factories, have been collected for the first time on this occasion.

5.2 Type of Census houses and their uses

The following table gives the distribution of different types of census houses and the uses to which they are put.

Census houses and the uses to which they are put, 1961

Sl. No.	Type of Census houses	Census houses	
		Number	Percentage to total No. of Census houses
1	2	3	4
1	**Total No. of census houses**	**367,335**	**100.00**
2	Vacant houses	28,830	7.85
3	Dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings	282,967	77.03
4	Shops and business houses	11,896	3.24
5	Factories, workshops and worksheds	3,237	0.88
6	Schools, places of entertainment, medical and social institutions	3,078	0.84
7	Hotels, restaurants and other miscellaneous houses	37,327	10.16

Out of a total of 367,335 houses, 77.03 per cent were used as dwellings, 7.85 per cent were vacant and the rest were used for non-residential purposes such as shops, business houses (3.24 per cent), factories and workshops (0.88 per cent); schools, places of entertainments and medical and other social institutions (0.84 per cent) and other miscellaneous uses as hotels, restaurants and other places, etc., (10.16 per cent).

73.43 per cent of the households lived in owned houses and the rest (26.257 per cent) in rented ones. In rural areas 87.90 per cent live in owned houses while 12.10 per cent live in rented houses. In urban areas 34.54 per cent of the household live in houses of their own and 65.46 per cent reside in rented houses. The higher proportion of rented houses in urban areas indicates the increased demand of houses on the part of those attracted towards towns. An analysis of the matorial of wall and roof show that the predominant materials were burnt bricks and mud in case of walls and tiles and corrugated iron sheets in case of roof. The percentage of households having walls with mud and burnt bricks was 30.51 per cent and 36.82per cent respectively. Households having roofs covered with tiles etc. accounted for 37.79 per cent and those with corrugated iron sheets 46.38 per cent.

5.3 Households classified by number of members and rooms occupied.

The most important classification, however, was one by the number of rooms in the houses occupied by sample households, given in the following table.

Households classified by number of members and number of rooms occupied, 1961

(Based on 20% sample)

No. of rooms	Percentage to total household	Percentage to total members
1	2	3
No regular room	0.12	0.11
1 room	53.93	50.01
2 rooms	29.78	30.65
3 rooms	8.90	10.13
4 rooms	3.79	4.56
5 rooms or more	3.48	4.54

According to this classification 53.93 per cent of the households lived in houses with one room and 29.78 per cent in houses with two rooms and 16.17 per cent in houses with more than two rooms. The population living in two rooms and less jointly account for 80.66 per cent of the total sample population. The number of members per room in households occupying houses with one room

was 4.84 per cent while that for households living in houses with 2 rooms was 2.69 per cent. These figures amply reflect growing overcrowding and the inadequate housing facilities in the district as in the State as a whole.

5.4 Housing Societies

There were 122 housing societies with a membership of 2,559 and share capital of Rs. 750,000. The Housing Societies constructed 100 tenements in addition, to 112 under construction

6 AGRICULTURE

6.1 Land Utilisation

The utilisation of land resources forms a major item in any programme of economic planning in an economy which is predominatly agricultural. It reveals the various uses to which land is put and also indicates improved ways of exploitation of its resources for better production.

Land utilisation 1956–57 and 1960–61

Sl. No.	Item	1956–57 area in acres	Percentage of total area	1960–61 area in acres	Percentage of total area
1	2	3	4	5	6
1	**Total geographical area**	**1,831,300**	**100,00**	**1,917,500**	**100.00**
2	Area under cultivation	1,305,100	71.27	1,338,200	69.79
3	Area other than Cultivation	526,200	28.73	579,300	30.21
	(i) Cultivable waste, permanent pastures and other grazing lands	186,600	10.19	211,600	11.03
	(ii) Others	339,600	18.54	367,700	19.18

Note ;

The figures for the year 1956–57 are for the district as constituted then and not as constituted in 1961. Further details are available in Official Statistics Table No. 3.1 published in Part II of this Handbook.

Comparison between the previous Censuses is not possible (i) in view of the changes in classification of land utilization and (ii) territorial changes in the district. In 1960–61 the area under cultivation was 69.79 per cent of the total geographical area and that put to uses other than cultivation 30.21 per cent. Of the latter 11.03 per cent is cultivable waste, permanent pastures and grazing lands and 19.18 per cent of barren and forest lands.

6.2 Cropping Pattern

The changes in the cropping pattern during the quinquennium can be seen from the following table.

Percentage of area under different crops during 1955-56 and 1960-61

	Crop	1955--56	1960--61
	1	2	3
1	Rice	12.61	12.95
2	Wheat	1.39	0.86
3	Jowar	11.73	11.37
4	Bajri	2.48	2.64
5	Other cereals	6.09	6.23
	Total cereals	*34.30*	*34.05*
6	Tur	2.66	3.14
7	Gram	1.02	0.63
8	Other pulses	2.45	2.30
	Total Pulses	*6.13*	*6.07*
9	Sugarcane	0.01	0.02
10	Potatoes	0.01	0.02
11	Fruit and Vegetables (excluding potatoes)	0.44	0.58
12	Condiments & spices	0.10	0.15
13	Other food crops	0.03	..
	Total food crops	*41.02*	*40.89*
14	Groundnut	3.27	6.11
15	Sesamum	0.16	0.25
16	Castor seeds	0.16	0.15
	Total oil seeds	*3.59*	*6.51*
17	Cotton	45.17	42.56
18	Other fibres	0.05	0.02
	Total fibres	*45.22*	*42.58*
19	Tobacco	2.99	3.52
	Total drugs and narcotics	*2.99*	*2.53*
20	Other non-food crops	7.18	6.50
	Total non-food crops	*58.98*	*59.11*
	Total areas under crops	**100.00**	**100.00**

Details as to area and out turn for the years 1950–51 to 1960–61 for the above crops are available in Official Statistics Table No. 3.2 in Part II of this Handbook.

The principal food crops of the district are Rice, Jowar and pulses, Cotton, Groundnut and Tobacco are the main non–food crops. The percentage comparison of different crops indicates that the cropping pattern has practically remained unchanged except for a negligible decline in food crops from 41.02 per cent in 1955-56 to 40.89 per cent in 1960-61, with a corresponding gain of 0.13 per cent in non-food crops, while Tobacco has risen from 2.99 per cent in 1955-56 to 3.52 per cent in 1960-61, a small decline in cotton is accounted for by a corresponding increase in the oil seeds.

Among crops cotton (42.56 per cent), rice (12.95 per cent), jowar (11.37 per cent), groundnut (6.11 per cent) and pulses (6.07 per cent) account for 78.96 per cent of the total cropped area. The next in importance is tobacco which claim 3.52 per cent of the area sown. Thus cotton is the most predominent crop of the District. During the period from 1955-56 to 1960-61, the area under food crops has gone down by 0.13 per cent with the corresponding increase in non-food crops. This shows inclination of the people for money crops.

6.3 Crop-Calendar

The months of showing and harvesting of different crops are given below.

Name of crop	Months of sowing	Months of harvesting
1	2	3
Rice	June-July	October-November
Wheat	October-November	March-April
Jowar	September-October	January-February
Tur	June-July	February-March
Gram	October-November	February-March
Groundnut	June-July	October-November
Sesamum	June-July	October-November
Cotton	June-July	February-March
Tobacco	August-Sepetmber	February-March

7 LIVESTOCK

7.1 Livestock

According to the Livestock censuses of 1951, 1956 and 1961, the cattle population of the district is found to be distributed as under:-

Livestock 1951, 1956 and 1961

Categories of livestock	1951	1956	1961
1	2	3	4
Total livestock	**631,167**	**605,278**	**629,606**
A Bullocks and cows	315,024	305,113	325,690
1 Males over 3 years	195,133	189,050	205,079
2 Females over 3 years	53,814	56,054	59,303
(in milk)	27,504	22,162	23,783
3 Young stock	66,077	60,009	61,308
B Buffaloes	184,585	160,239	178,145
1 Males over 3 years	1,411	667	1,483
2 Females over 3 years	115,242	90,543	102,614
(in milk)	78,053	58,103	58,073
3 Young stock	67,932	69,029	74,048
C Sheep	4,953	4,706	4,482
D Goats	117,231	127,113	111,852
E Horses and ponies	4,952	4,397	5,573
F Mules	37	..	21
G Donkeys	4,334	3,594	3,721
H Camels	37	99	240
I Pigs	14	17	82

The livestock population in the district has remained more or less static, during the last ten years, as seen from a slight fall during 1956 compensated by an increase in 1961 restoring the level of 1951. The number of males over three years had fallen from 195,133 in 1951 to 189,050 in 1956 but risen to 205,079 in 1961. Females over 3 years, however, show a steady increase from 53,814 in 1951 to 56,054 in 1956 and 59,303 in 1961. There is no significant improvement in the number of females in milk and young stock in 1961, after their steep fall in 1956.

Although the number of male buffaloes and females show considerable increase in 1961 over their number in 1956, they have yet to show inprovement to reach their figure of 1951 in case of female buffaloes over 3 years and those in milk. Young stock of buffaloes show steady increase from 67,932 in 1951 to 69,209 in 1956 and 74,048 in 1961. There is continuous decline in the number of sheep while goats have steeply declined in 1961 after showing improvement in 1956. Among others, the steady increase in the number of camels is noteworthy.

7.2 Agricultural Tools and Implements

The number of wooden ploughs in the district were 144,676 in 1951. After a steep fall in 1956 to 109,258 their number has again increased in 1961 to 138,146. The same is the case with iron ploughs which were 1,042 in 1951, 644 in 1956 and 755 in 1961. The number of carts in the district were 45,653 in 1951, 45,529 in 1956, but their number has further fallen down to 43,104 in 1961. The number of Sugarcane crushers was 159 in 1951, which substantially fell down to 23 in 1956, but rose to 93 in 1961. The number of oil engines indicates a steady progress as their number has increased from 1,133 in 1951 to 1,137 in 1956 and 1,232 in 1961. The number of tractors has been steadily increasing in the district from 58 in 1951 to 132 in 1956 and 198 in 1961.

8 IRRIGATION

8.1 Sources of Irrigation

In 1960-61, the percentage of net area irrigated to net area sown was 2.6 per cent. As regards the sources of irrigation, well is the most important, as nearly 59.3 per cent of the net irrigated area was under well irrigation in 1960-61. Tank

irrigation which accounts for 28.5 per cent of the total area irrigated is also appreciable in this district. The canal irrigation which forms 7.3 per cent is chiefly concentrated in Sankheda taluka 4.9 per cent of net area irrigated was under other sources.

8.2 Area Irrigated

Comparing distribution of irrigated area under different crops, it is seen that cotton occupies the first place and had 9,600 acres or 27.9 per cent of the total area under irrigation in 1960-61. Wheat is the next crop having 8,100 acres or 23.4 per cent under irrigation followed by rice having 4,500 acres, i. e., 13.0 per cent. It is interesting to note that the percentage of area irrigated under non-food crops is increasing steadily whereas that of area irrigated under food crops is decreasing.

9 CO-OPERATION

9. Co-opertive Societies, their types, etc.

The total number of co-operative societies at the end of co-operative year ending 30-6-1961 was 1,091 with total membership of 186,018. The share capital was Rs. 18,589 lakhs and working capital Rs. 108,914 lakhs. Average membership, share capital and working capital per society are 170 persons, Rs. 1,703 and Rs.99,829 respectively.

The number of societies according to four major groups during 1960–61 was as under.

	Type of Co-operative Society	Number
1	Agricultural credit societies	548
2	Agricultural non-credit societies	152
3	Non-agricultural credit societies	99
4	Non-agricultural, non-credit societies	274
5	Others	18
	Total	**1,091**

Agricultural credit societies dominates the co-operative field with 50.22 per cent of total societies in 1960-61. 548 agricultural credit societies advanced loans to the tune of Rs. 239.09 lakhs at the end of 30-6-61. Loans advanced by agricultural credit societies per society was Rs. 43,629 whereas the average per member was Rs. 367. The number of agricultural credit and non-credit societies in 1960-61 was 700 which constituted 64.2 per cent of the total number of societies in the district. Out of total 373 non-agricultural societies, there were 122 co-operative housing societies' 81 industrial co-operative societies, 35 consumers' co-operatives and 135 other types of non-agricultural co-operative societies.

10 ECONOMIC ACTIVITY

10 (i) Definitions

The criterion of income or economic independence was adopted for measuring the economy of the country during the past censuses. On the present occasion emphasis is on the work done or the economic activity pursued by an individual so that all people such as family workers and children who work but do not earn enough for their maintenance are also accounted for as workers. Another important change relates to the presentation of the economic data according to the nine industrial categories of workers and non-workers instead of the eight livelihood classes classified by self-supporting persons and their dependants in 1951.

Status of Employment

Persons doing work other than that as cultivator or agricultural labourer or engaged in household industry have been classified into following four categories:– (i) Employer, (ii) Employee, (iii) Single worker and (iv) Family worker. In view of the wide range of economic data included in this section, it will be useful to define in brief the various terms used.

(*i*) *An Employer* is a person who has to employ other persons in order to perform the nature of work undertaken by him.

(*ii*) *An Employee* is a person who usually works under some other person for salary or wages in cash or kind.

(*iii*) *A Single Worker* is a person who works by himself but not as head of household in a household industry. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually.

(*iv*) *A Family Worker* is a member of the household who works without receiving wages in

cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season.

Industries are classified as household and non household. A household industry is defined as an industry which is not run on a scale of a registered factory and conducted by the head of the household himself and/or mainly members of the household at home or within the villages in rural areas and only at home in urban areas. Rest of the industries, viz., business, trade, profession or service are non-household industries.

10.2 Distribution of workers and non-workers

The following table gives the distribution of population by workers and non-workers.

Distribution of population by workers and non-workers, 1961

Workers/Non-workers	Persons		Percentage to total population	
	State	District	State	District
1	2	3	4	5
Total Population	**20,633,350**	**1,527,326**	**100.00**	**100.00**
Workers	8,474,588	586,342	41.07	38.39
Non-workers	12,158,762	940,984	58.93	61.61

The following statement shows the distribution of workers into 9 industrial categories.

Distribution of workers and percentage to total workers, 1961

Sl. No.	Cataegory of workers	Population		Percentage of total Workers	
		State	District	State	District
1	2	3	4	5	6
1	As cultivator	4,519,060	253.395	53.32	43.22
2	As Agricultural labourer	1,252,000	162,316	14.77	27.68
3	In mining, quarrying, livestock, forestry, fishing, hunting, plantation, orchards and allied activities	104,850	4,363	1.24	0.74
4	At household industry	555,606	15,679	6.56	2.67
5	In manufacturing other than household industry	536,159	40,770	6.33	6.95
6	In construction	90,043	4,159	1.06	0.71
7	In trade and commerce	411,156	27,878	4.85	4.76
8	In transport, storage and communications	159,061	12,938	1.88	2.21
9	In other services	846,653	64,844	9.99	11.06

The population of the district is distributed into workers and non-workers in the ratio of 38.39:61.61. Amongst the working population, cultivators account for 43.22 per cent and agricultural labourers 27.68 per cent as against 53.32 per cent and 14.77 per cent respectively for the State. Significance of high percentage. i.e. 27.68 of agricultural labourer is explained by 21.47 per cent of its population being tribal. The striking feature of the economic pattern obtaining in the district as elsewhere in the State is predominance of agriculture as revealed by 70.90 per cent of workers engaged in agricultural pursuits. Next in order are other service (11.06 per cent), in manufacturing other than household Industry (6.95 per cent) and in trade and comm erce (4.76 per cent). Household Industries account for 2.67 per cent only.

10.3 Class of Worker

Industrial classification by sex and class of worker of persons at work in household and non-household industry are shown in details in census Tables B-IV-A and B.

Persons at work in household industry

	Persons	Percentage
1	2	3
Total	**15,679**	**100.00**
Employee	823	5.25
Others	14,856	94.75

As stated earlier, household industry is run mostly by members of the household, the need for having employees working for salary or wages being negligible.

Persons at work in non-household industry, trade, business, profession or service

	Persons	Percentage
	1	2
Total	**154,952**	**100.00**
Employers	9,865	6.37
Employees	94,526	61.00
Single workers	39,875	25.73
Family workers	10,686	6.90

It will be seen from the above figures that in non-household industries, trade, business, profession or service, employees (61.00 per cent) predominate and account for more than $\frac{1}{2}$ the workers engaged in these categories wherein single workers account for 25.73 per cent, employers 6.37 per cent and family workers 6.90 per cent only. Higher percentage of employees among aforesaid workers indicates greater pace of industrialization in Baroda City.

10.4 Principal and Secondary Work

Principal Work: In case of a persons who is engaged in more than one productive activity, the principal work is the one on which the person spends most time.

Secondary Work: The work which is the next in importance to his principal work which occupies, most time is secondary work.

Persons working principally as cultivators, as agricultural labourers or at household industry and following any of these as secondary work as given in table B-VII Part-A are as under:-

(A) Persons working principally as cultivators and doing secondary work

(i)	at Household industry	1,290
(ii)	as agricultural labourers	19,909

Persons working principally as agricultural labourers and doing secondary work at

(i)	Household industry	263
(ii)	As cultivator	6,032

Persons working principally at household industry and doing secondary work as

(i)	Cultivator	947
(ii)	Agricultural labourer	319

(B) In table B-VII Part-B persons working in non-household industry, trade, business, profession or service who are also engaged in household industry are 77.

Persons who are working principally as cultivators and to whom agricultural labourer is a secondary activity are proportionally larger, probably due to the fact that small holders of land in tribal areas work as agricultural labourer to supplement their income.

10.5 Occupational Classification

The two concepts, viz., industry and occupation are quite distinct, though often mistaken for each other. 'Industry' means that sector of economic activity in which the earner is engaged, e.g., textile industry, automobile industry whereas the 'occupation' describes the exact function that an individual performs in that economic activity, e.g., fitter, carpenter, etc.

Table B-V in Part-II of this Handbook shows the distribution of persons at work other than cultivation. This type of detailed classification based on national Classification of Occupations has been done for the first time in 1961. The percentage distribution for the State and the district is given below.

Percentage, distribution of workers according to occupational divisions 1961

	Occupational Division	State	District
	1	2	3
0	Professional, technical and related workers	5.95	6.16
1	Administrative, executive and managerial workers	2.32	2.22
2	Clerical and related workers	6.41	6.62
3	Sales workers	13.88	13.95
4	Farmers, fishermen, hunters, loggers and related workers	11.73	11.08
5	Miners, quarrymen and related workers	0.58	0.41
6	Workers in transport, storage and communication occupations	4.24	4.05
7-8	Craftsmen, production process workers and labourers not elsewhere classified	46.67	47.32
9	Service, sport and recreation workers	79.6	7.90
X	Workers not classified by occupation	0.26	0.29

Excepting agriculture, the most important occupational divisions in the State as well as the district are Division 7–8, Crafstmen, production process workers and labourers not elsewhere classified and Division 3 Sales Workers.

10.6 Non-Workers

Non-workers account for 940,984 persons, 366,537 males and 574,447 females. The distribution of non-workers by eight broad categories is shown in Table B-IX in Part-II of this Handbook. Percentage distribution of non-workers by sex according to their type of activity is shown below for total/rural/urban, 1961.

Distribution of non-workers according to their type of activity, 1961

	Categories of non-workers	Total/Rural/ Urban	Males	Females
	1		2	3
1	Full-time students	T	36.59	12.49
		R	31.78	9.96
		U	47.48	18.38
2	Household duties	T	0.33	46.42
		R	0.37	44.49
		U	0.24	50.95
3	Dependents, infants and disabled	T	59.40	40.31
		R	66.41	44.85
		U	43.53	29.71
4	Retired, rentiers, etc.	T	1.77	0.64
		R	0.71	0.65
		U	4.19	0.64
5	Beggars, vagrants	T	0.39	0.08
		R	0.26	0.05
		U	0.67	0.16
6	Inmates of penal, mental and charitable institutions	T	0.23	0.03
		R	0.03	N
		U	0.70	0.10
7	Persons seeking employment for the first time	T	0.49	0.02
		R	0.19	N
		U	1.15	0.04
8	Unemployed but seeking work	T	0.80	0.01
		R	0.25	N
		U	2.04	0.02

The distribution pattern of non-workers among males and females is very dissimilar. Among male non-workers, 36.59 per cent are students and 59.40 per cent dependents, which jointly account for 95.99 per cent as against 12.49 and 40.31, aggregating to 52.80 per cent respectively among females. Higher percentage in the category of dependents among males is likewise explained by the general absence of household duties among males who claim 0.33 per cent in this category against 46.42 per cent among females.

The higher percentage of full-time students in the urban sector as compared to rural is, however, explained by the greater consciousness and opportunity towns people have in the matter of education. The percentage of females engaged in household duties is found to be higher in urban areas than that in rural areas. Womenfolk in villages in addition to their attending to household chores also participate in agriculture and household industry. While the percentage of unemployed persons seeking work is insignificant for males, that for females is 0.01.

11 INDUSTRIES AND POWER

11.1 Registered Factories

There were 287 registered factories in the district at the end of the year 1960, employing on an average 32,437 persons daily from the point of view of employment offered, cotton textiles are the most important industry in the district. There were 9 textile mills in the district employing on an average 9,165 persons or 28.25 per cent of the total factory employment per day. Next in importance to cotton textiles is cotton ginning and pressing industry with 62 units which employed 7,372 persons and constituted 22.73 per cent of the total employment in factories. Important amongst the rest are the chemicals, dyes, etc., metals and minerals which has 17 & 47 factories resply. The Government and local fund factories provides employment to 2,128 persons.

11.2 Joint Stock Companies

There were 83 joint stock companies functioning on the 31st March, 1961 with authorised capital of Rs. 186,035,050 and subscribed capital of Rs. 60,170,177. The authorised and subscribed capital per joint stock company comes to about Rs. 2,241,386 and about Rs. 724,942 respectively. The joint stock companies classified as processing and manufacture of metals, chemicals and products thereof dominate the joint stock field with a total authorised capital of

Rs. 54,000,000 lakhs and subscribed capital of Rs. 20,943,162. While such companies constitute 36.14 per cent of the total number of joint stock companies, their authorised and paid up capital account for 29.03 per cent of authorised and 34.81 per cent of paid up capital of all the joint stock companies floated in the district.

11.3 Banking

There has been a steady increase in the Banking facilities available in the district since 1950–51. The number of scheduled and co-operative banks in 1960–61 was 22 and 25 respectively. It is interesting to note that co-operative banks which were only 7 in the beginning of the First Plan have risen to 25 in 1960–61.

11.4 Small Scale and Cottage Industries

For the effective utilisation of surplus manpower and raw materials, the cottage industries enjoy unique importance. The chief among the small scale and cottage industries of the district are:–

(1) Handloom cloth, (2) Lacquer work of Sankheda, (3) Optical goods in Baroda city

Handloom Industry

The handloom weaving is an old and important industry of this district and is found in almost all the talukas and mahals of the district. Ordinarily, the products of this industry are meant to cater for the local needs. The Handloom Weavers of Chhota Udaipur area of the district produce Khadi Saris and (Loin) cloth needed by the Adiwasi population, while the weavers in Padra, Karjan and Baroda talukas manufacture towels, Khadi, bed sheets and mattress cloth.

Lacquer work of Sankheda

Sankheda is famous for lacquer work on wooden articles from very old times. There is a good number of artisans in this trade who have specialised in lacquer painting of wooden articles by a typical process. They undertake work on specific orders also, but their general products are cradles, swings, stools (low cut), toys, etc.

Optical goods Industry

Optical goods industry on a small scale has been fast growing in Baroda City and there are many small scale units which manufacture spectacles, frames and lenses. These units obtain raw materials from foreign countries.

Carpentry and Blacksmithy

There are many artisans in this district who undertake carpentry and blacksmithy. They work in rural as well as urban areas, and manufacture articles useful to cultivators such as Agricultural implements, bullock carts and carriages, while their counterpart in Baroda City manufacture articles of daily use and also small spare parts. But most of these industries are gradually losing ground due to increasing mechanisation.

11.5 Electricity

Since the beginning of the First Five Year Plan, the utilization of electricity has been continuously increasing. The utilization of electricity which was only 7,516 thousand K.W.H. at the beginning of the First Plan, has gone up to 14,472 thousand K.W.H. at the end of the First Plan. At the end of the Second Five Year Plan, the utilization shot up to 116,213 thousand K.W.H.

Units of electricity sold, 1950–51 , 955–56 and 1960–61 ('000 K.W.H.)

Year	Kilowatt hours sold to public for: Domestic consumption	Commercial light and small power	Industrial power	Other purposes	Total utilisation of electricity
1	2	3	4	5	6
1950–51	*3,662	144	3,008	702	7,516
1955–56	5,035	192	6,107	3,138	14,472
1960–61	9,391	656	59,972	46,194	116,213

*In the year 1950–51 separate figures of domestic consumption and commercial light and power are not available as some licencees have not furnished separate figures for these items.

The foregoing figures show that the pattern of utilisation of electricity has radically changed in 1960–61 as compared to that in 1955–56.

11.6 Factories and workshops classified by power and no power used

Statistics of census houses used as factories, workshops and worksheds classified by power and no power used have been compiled for the first time during the Census of 1961 and extracted below for the state and district.

Factories and workshops classfied by power and no power used, 1961

Power/ fuel	Rural/ Urban	State		Disirict	
		No. of factories etc.	Per cent of total	No. of factories, etc.	Per cent of total
1	2	3	4	5	6
Total	**R**	**34,447**	**100.00**	**1,504**	**100.00**
	U	**45,686**	**00.00**	**2,732**	**100.00**
Electricity	R	1,248	3.62	89	5.92
	U	12,311	26.95	711	26.03
Liquid fuel	R	4,687	13.61	210	13.96
	U	1,282	2.81	44	1.61
Coal,wood and bagasse	R	3,039	8.82	147	9.77
	U	3,453	7.56	97	3.55
Other power	R	82	0.24	17	1.13
	U	85	0.18	6	0.22
No power	R	25,391	73.71	1,041	69.22
	U	28,555	62.50	1,874	68.59

The foregoing table is restricted to census houses used as factories and workshops classified by 'power' and 'no power' used in 1961. Factories using electricity in rural and urban areas of the district are proportionately higher than those in the State while in case of urban areas their proportion is practically the same. The proportion of factories using electrical power is less in villages than in towns, both in the district and the State, owing to the paucity of electric supply and industries in rural areas. The use of liquid fuel in the villages is practically the same both in the district and the State. However, the proportion of fuels other than electricity is obseved to be higher in villages than in towns. The proportion of units using no power is obviously much higher both in rural and urban areas in the State as well as in the district owing to predominance of traditional crafts and industries in our economy.

12 TRANSPORT AND COMMUNICATIONS

12.1 Roads

In the past decade, i.e., 1950–51 to 1960–61, there was significant development in this sphere, especially roads. The total road mileage in the district in 1951 was 375.86 comprising 14.40 miles of asphalt roads, 141.11 water-bound macadam roads and 220.35 miles of murrum and other lower types of roads. The road mileage in the district increased to 554.55 miles in 1955–56 and 948.71 miles in 1960–61. In addition to the increase in road mileage, there was considerable improvement in the road surface. In 1950–51, the district had no cement concrete roads, which by the end of 1960–61, came to be 17.75 miles. The mileage of asphalt roads increased to 146.16 miles in 1960–61 from 14.40 miles in 1950–51. The water-bound macadam roads which was 14.11 miles in 1950–51 rose to 193.80 miles in 1960–61.

The table below shows the classification of the roads into national highways, State highways, major district roads, other district roads, and village roads.

Types of roads (in miles), 1960-61

	Types of Roads	Mileage
	1	2
	Total	**948,71**
1	National highway	41.00
2	State highway	137.82
3	Other district roads	403.14
4	Village roads	366.75

On the eve of the First Five Year Plan, total road mileage was 375.86 which has increased to 948.71 miles in the year 1960--61. In 1950–51, there were 12 miles of National Highway No. 8 (Bombay–Delhi) passing through this

district, which has increased to 41 miles in 1960-61. Classifying the road mileage in the district into metalled and non-metalled surface, it is noticed that, out of a total of 948.71 miles, 357.71 miles or 37.70% are metalled and 591.00 or 62.30% non-metalled as against the corresponding mileages of 155.51 or 41.37% and 220.35 miles or 58.63% in 1950-51 under these two categories. All weather motorable roads have thus increased by 202.20 miles or 130.00% during the decade.

State-Road Transport

The programme of nationalisation of passenger transport services in the old Bombay State was taken up in 1947 with a view to increasing operational efficiency and securing utilization of profits on transport services for public interest. Baroda forms a division under the State Transport which includes some areas of the neighbouring districts. There are at present 276 routes operating in the division which include twenty routes of the Baroda City. The total mileage of this division has been estimated at 8,349 Kilometres. These routes connect various places of the district and places even outside the district.

12.2 Railways

The total length of the railways in this district approximates 331.33 miles which includes broad guage as well as narrow guage. The total mileage under broad guage is 59.00 miles and the narrow guage accounts for the remaining 272.33 miles. There are no metre guage railway lines in this district. The district is well served by railways in comparison to other parts of the State as would be evident from the following table.

	Length per 1000 sq. miles of area (miles)	Length per lakh of population (miles)
State	**46.66**	**16.07**
District	109.96	51.67

The figures given above reveal that Baroda district is quite well served by railways as it has 109.96 miles of railway for every 1,000 sq. miles of area and 51.67 miles of railway for every lakh of population. The corresponding figures for the State as a whole are 46.66 and 16.07 miles respectively.

All the talukas and mahals of the district except Tilakwada mahal are served either by the broad guage or the narrow guage section. There are 89 places in the district which have railway stations of which 15 are on the broad guage and 74 on the narrow guage lines.

12.3 Post and Telegraph

Relatively the district has been served fairly well by the postal and telegraphic facilities. There were in all 395 post and telegraph offices in the district in the year 1960-61. Out of these, one was a Head Post and telegraph office, 23 combined post and telegraph sub-offices, 5 sub-post offices, 90 experimental and temporary post offices and 275 branch post offices. This means that only 23.23 per cent of the villages of the district had post and telegraph offices located therein, while the remaining 1,305 villages did not have them, although postal and telegraph facilities were extended to them through the existing offices. The talukas best served with postal facilities were Baroda, Sankheda, Karjan and Padra. Of the villages not having the post offices, 316 were in Nasvadi taluka (including Tilakwada mahal), 259 in Chhota Udaipur taluka, 197 in Jabugam taluka, 147 in Sankheda taluka and 133 in Savli taluka.

There were 725 letter boxes and 190 postmen working under different postal offices in the district. Calculating on the basis of 1961 Census there was approximately one post office for every 4.3 villages and a letter box for every 2.3 villages in Baroda district.

The district has in all 30 telephone offices spread over the district, Baroda taluka having the largest number, i.e., 6, followed by Dabhoi, Jabugam, Sankheda with four each. Chhota Udaipur, Karjan, Padra, Savli and Vaghodia have two telephone offices each, while the remaining only one each.

During the year 1960-61, 17,388 licences were issued or renewed in this district. Of these the largest number, i.e., 13,174 were in Baroda taluka, because of its having the city of Baroda.

Baroda district has also an aerodrome situated at Harni in the Baroda taluka about three miles from Baroda City. But no commercial plane services operate either from Baroda or *via* Baroda.

13 MEDICAL AND PUBLIC HEALTH

13.1 Medical Institutions

During 1960, medical facilities in the district were provided by the State through 18 medical institutions, which include 6 hospitals, 9 dispensaries, 96 rural health centres and 1 Ayurvedic dispensary. The staff in these institutions consisted of 163 doctors and 378 nurses. The number of beds in the district was 1,092 and the number of indoor and outdoor patients treated was 32,280 and 395,067 respectively.

13.2 Vital Statistics

The statement given below shows vital statistics of the district for the year 1957–60.

Birth rate, death rate and natural increase in population, 1957–60

Year	Birth rate	Death rate	Natural increase in population
1	2	3	4
1957	36.4	15.6	20.8
1958	34.5	18.3	16.2
1959	42.8	15.9	26.9
1960	31.6	12.7	18.9

The data on vital statistics available being incomplete and defective are useful for drawing general conclusions only. They indicate a fall in the death rate and rise in the rate of survival which can be reasonably attributed to improvement in medical and health facilities since Independence.

13.3 Health Centres

The different public health measures to check the incidence of various diseases in the district are (a) Vaccination and revaccination (b) Malaria control (c) Primary health centres and maternity and child welfare centres in rural areas (d) Water supply schemes and (e) Family planning centres. Thus in 1961, 54,187 persons were vaccinated. During 1960–61, 1,231,740 persons were protected against malaria by covering 2,950.7 sq. miles in three rounds by spraying of D.D.T. powder on a mass scale.

14 LABOUR AND SOCIAL WELFARE

14.1 Labour Welfare

The Government also undertakes a number of welfare schemes for industrial labour. One labour welfare centre is run at Baroda by the Gujarat Welfare Board, Ahmedabad. Recreational and educational activities for the labour classes are undertaken in this centre.

The industrial labour of this district is quite organised as would be evident from the trade union movement of the district. On 31-3-1959, there were 51 registered trade unions in the district, most of which were located in the Baroda City representing almost all the industrial vocations of the district. The labour is quite peaceful and there are very few occasions of disputes or strikes in this district. During the two years 1959 and 1960, only four cases of strikes were reported involving 1,874 workers and 19,567 mandays lost. No information about iudustrial disputes is, however, available.

14.2 Welfare of Backward Classes

Baroda district has quite a sizeable population of Harijans, Adiwasis, Nomadic Tribes, Ex-criminal Tribes and other Scheduled Castes and Tribes. These people are chiefly located in the talukas of Chhota Udaipur, Jabugam, Nasvadi and Tilakwada mahal. They are culturally, socially and economically backward and the Government have taken special steps to ameliorate their unhappy conditions. The ameliorative measures are of three types: (i) Educational (ii) Economic and (iii) Social.

(i) Educational

Educational schemes include provision of tution and examination fees, free studentships, scholarships, provision of boarding houses, Balwadis and sanskar kendras.

Students of secondary and higher institutions have not to pay any fees and are given scholarships on merit. Students of S.S.C. are provided with examination fees also.

In order to enable these students to prosecute their studies properly, many Chhattralayas are run with the help of the Social Welfare Department and such Chhatralayas are given aid by the Government. There are sixteen such Chhatralayas in this district which are located in different talukas/mahals as follows.

(1)	Baroda	3	(6)	Sankheda	2
(2)	Chhota Udaipur	2	(7)	Sinor	1
(3)	Jabugam	2	(8)	Karjan	1
(4)	Nasvadi	2	(9)	Vaghodia	1
(5)	Dabhoi	2			

Over 1,300 Adiwasi and Harijan boys have taken advantage of these Chhattralayas. Besides, there were 5 mixed Chhattralayas in which children of all categories of backward classes stay together for educational purpose. An amount of Rs. 2,940 was spent on such mixed Chhattralayas.

Balwadis conducted on scientific lines are also run in Harijan localities and round about so that the children of backward classes can get proper pre-school training. These Balwadis are also aided by the Government.

(ii) Economic

The backward population is aided by the Government to improve their housing conditions by granting loans and subsidies for construction of houses and for obtaining land for the said purpose. Besides, the State Government has subsidised construction of Adiwasi colony at Pala (Nasvadi taluka), Harijan colony at Wankaner (Savli taluka) and Harijan colony at Machipura (Sankheda taluka).

There is always great difficulty in obtaining drinking water in areas inhabited by those classes of society. The Government provided financial assistance for construction of drinking water wells and repairs to old wells in their localities. During 1956-61, 15 wells were repaired and 39 wells were newly constructed in this district. Cash aid for medical treatment was also given.

To help them in their economic pursuits, the State Government provides loans and subsides for small industrial occupations and also for the purchase of agricultural implements, bullocks, seeds, bullock carts, improved breeds of poultry, etc.

(iii) Social

In order to healthy a heallty and scientific social life, the Government runs sanskar kendras where activities like newspaper reading, libraries, sports and games, radio news, adult literacy classes and sewing and embroidery classes for women are undertaken. Such Kendras have been opened at Padra, Karwan (Dabhoi taluka) and Baroda. Besides, sanskar kendras, the Government also organises activities like harikirtans, bhajans, social fairs, etc., which help the backward classes people to develop a good and healthy social life.

15 PRICE TRENDS

The average retail prices of important foodstuff during each calendar month of 1961 collected for Baroda, the headquarters of the district are given in Table 16.1 in Part II of this Handbook.

The prices of superior cereals like rice and wheat were the highest in the month of August and June respectively. The prices of wheat were steady from June to December, 1961. The prices of inferior cereals, viz., jowar and bajri were the highest in the months of May and July; in pulses gram recorded the highest prices in the month of July which also remained constant till the end of the year. The price of arhar (dal) was the highest in the month of December, whereas moong and udid registered the highest prices in months of June and November respectively.

16 COMMUNITY DEVELOPMENT

16.1 Community Development Programme

The Community Development Programme, a unique and bold effort to mobilise public enthusiasm and co-operation in rebuilding the rural economy of India was inaugurated on 2nd October 1952. Sankheda and Jabugam projects were the first Community Development Projects taken up in the district in October 1953. The programme since then has undergone various organisational changes as a result of the recommendations of the Balawantray Mehta Committee, appointed by the Planning Commission in 1957 to examine the working of the C.D. programme and related matters and to recommend measures

for improving the quality, tone and content of the programme. In pursuance of the recommendations of this committee the existing distinction between N.E.S. stage, intensive development stage and the post-intensive stage was abolished with effect from 1-4-1958. All the blocks under the All India programme except Blocks in the C.D. stage which had not completed their three years' period on 1-4-58 were classified into stage I and stage II blocks with revised financial patterns and periods of operations. The Community Development blocks, on completing their period, will enter stage II. A stage I block has a five-years' period of operation with a ceiling of expenditure of Rs. 12 lakhs for this period. It is "The Intensive Development phase in which people's participation would be promoted as the method of Community Development and panchayats will be intimately connected with the formulation of the plans for their respective areas. The degree of success attained in the First Stage will be the evidence of the growth and functioning of self-reliant rural communities, which is the basic objective of the programme". Stage II of the programme, with a provision of Rs. 5 lakhs for 5 years will seek to intensify the operation of the method of Community Development in its fuller amplitude and will have greater emphasis on Community Development rather than on Development Programmes as such.

16.2 Coverage of Programme

The following table gives the type, area, villages and population covered under the programme by March 1961.

Name of the block	Date of inauguration*	No. of blocks of CPA pattern	Area covered in sq. miles 1961	No. of towns and villages covered	Population 1961
1	2	3	4	5	6
Stage I					
Savli		1½	308.3	135	131,406
Nasvadi (including Tilakwada)		1	317.3	337	94,134
Padra		1½	202.9	85	139,160
Chhota Udaipur		1½	529.2	280	145,143
Stage II					
Sankheda		1½	279.2	186	115,539
Jabugam		1½	309.2	213	110,891
Pre Extension service Blocks					
Baroda		2	257.9	122	461,020
Dabhoi		1½	247.8	121	119,783
Sinor		½	113.1	41	47,053
Karjan		1	232.3	95	87,522
Vaghodia		1	215.7	95	75,675

*Not available

The total expenditure incurred till that date amounted to Rs. 6,509,000 as against people's contribution of Rs. 2,460,000 or 37.79 per cent of the total expenditure. The physical and financial progress achieved under the Ist and IInd stage of blocks upto the year ending 31st March 1961 have been given in Official Statistics Table No. 15.1 published in Part II of this Handbook.

17 PROGRESS OF PLAN

ACHIEVEMENTS

The decade 1951-61 roughly corresponds to the First and Second Five Year Plans.

17.1 Agriculture

Since there is a predominance of agricultural population in the district, a greater stress was laid on improved seeds, improved implements, chemical fertilisers, improved cultivation practices and agricultural research in both the plans of the district. During the First Five Years Plan period, 8,537 B. Mds. of improved seeds were distributed covering 62,844 acres of land under improved varieties of seeds.

Under the scheme for distribution of chemical fertilisers, 1,142 tons of manure mixtures were distributed during the First Plan period as against 12,870 tons of ammonium sulphate, 4,360 tons of ammonium nitrate, 2,115 tons of of Urea, 2,445 tons of super phosphates and 817 tons of calcium nitrate were distributed during the Second. Further, cultivators, village panchayats and municipalities were encouraged to prepare compost manure on scientific lines. During 1951-56, 9,085 pits of village refuse and 13,337 pits of cowdung manure were filled in, green manure was raised in 2,530 acres. During the Second Plan, compost manure was prepared in 19,083 pits of village refuse and 15,120 pits of cowdung manure. Green manure was raised in 4,628 acres. The municipalities of the district supplied 20,790 tons of town compost manure.

Under the crop protection measures, 33,740 lbs. and 58,166 lbs. of insecticides were distributed in the two plan periods respectively. Thus between 1951 and 1961 crop protection measures

were undertaken in 147,658 acres of land in the district.

17.2 Animal Husbandry

A number of schemes of animal husbandry were undertaken during the two plan periods. 103 stud bulls of good Kankreji breed were supplied through the development blocks operating in the district. Arrangements were also made with non-government cattle farm at Bakrol namely "Gosamvardhan Kendra" for supply of 12 good stud bulls every year and assistance was given to the said centre by way of Rs. 132,000 as loans and Rs. 105,000 towards grants-in-aid. During the Second Plan period, construction of veterinary hospitals was undertaken and an amount of Rs. 321,791 was spent on the said scheme.

17.3 Irrigation

In the field of irrigation, an amount of Rs. 877,885 during the First Five Year Plan and Rs. 938,734 during the Second Plan was spent in respect of Heran irrigation scheme which was a medium project having an area of 4,136 acres under its command. Among the minor irrigation works, construction of additional channels and repairs to old ones of the Jojawa-Vadhwana tank were undertaken. Channels of Paldi canal comprising of Dhanera and Manorpura tanks and of Dabhoi canal comprising of Vadhawana tank were extended, besides extending small canals for irrigation. During 1956–61, 21 tubewells were sunk thereby bringing 1,800 acres of land under irrigation.

17.4 Public Health

Significant progress has been achieved in this district during the First and Second Five Year Plan periods. At the end of the Second Plan period, 53 medical and public health units were working and an expenditure of Rs. 1,751,708 was incurred on these units till 1961.

During the initial stages of the First Five Year period, a detailed survey of malaria was undertaken in the district and a malaria unit was established in the year 1953. This unit has been carrying on vigorously the malaria eradication programme. As a result of this programme the incidence of malaria which was 14.23 per cent in 1951–52 came down to 6.13 per cent in 1955–56 and further to 0.28 per cent in 1960–61. During the Second Plan, Rs. 641,023 were spent on malaria eradication programme.

Additional medical facilities were provided in the Shree Sayaji General Hospital and in the Padmavati Sanitarium during the period 1951–61.

17.5 Water Supply

During the Second Plan period, 48 works of water supply at an estimated cost of Rs. 11,077,553 were sanctioned, out of which Rs.7,423,287 were spent during this period, besides. Rs. 1,415,231 spent on 14 schemes of rural water supply.

The District Local Board completed 118 wells, tanks and bunds costing Rs. 106,677 during the First Five Year Plan and 116 works of similar type costing Rs. 340,784 during the Second Plan period.

17.6 Roads

In the year 1946–47 the road communications were poor in the district and a vigorous road development plan was launched during the decade. During the First Plan period, 815.68 miles of new roads were constructed and 555.29 miles of old roads repaired. During the Second Plan period, 30.62 miles of new roads and 4 bridges were constructed.

17.7 Fisheries

Among the fisheries development schemes, storage of sweet water and fish and survey of inland tanks were continued during both the plans. Cash loans were provided to fishermen of the district for fishery storage and transportation of fish. A fisheries school has been established in Baroda in the year 1959 and an amount of Rs. 24,852 was spent on this school during the Second Plan period.

17.8 Labour Welfare

A number of welfare schemes for industrial labour were undertaken in the district which included labour welfare centre, cultural and

entertainment programmes, social-educational programmes, vocational training classes, sports, games and gymnasia. For children of labourers, Balmandirs, children's libraries, children's play grounds, scouting etc. were run departmentally.

17.9 Local Bodies

During both the plan periods, development works undertaken by the local bodies of the district were also in the forefront. The District Local Board during 1951–56 spent Rs. 1,677,286 on construction of new roads, Rs. 412,434 on repairs of existing roads, Rs. 5,424,783 on scarcity relief works and Rs. 174,097 on local development works, whereas during 1956-61 Rs. 1,276,958 were spent on the construction of new roads, Rs. 1,914,113 on road improvement and Rs. 731,010 on repairs of existing roads.

There were 396 Gram Panchayats in the district in 1950-51. Their number increased to 408 at the end of the year 1955-56. By the end of the year 1960-61, the entire district was covered under the gram panchayats by establishing 721 panchayats covering all the 1,718 villages of the district. Almost all the panchayats had made suitable arrangements for drinking water supply in their areas. By the end of the Second Plan period, 97 panchayats were supplying drinking water through pumps. A few economically sound panchayats had undertaken construction of cement concrete roads within their villages and there are seven such panchayats in the district. Progressive panchayats are given suitable prizes at taluka, district and divisional levels for encouraging development activities.

17.10 Social Welfare

In the field of social welfare, an amount of Rs. 162,429 was spent on the uplift of Harijans during the Second Plan period in this district, Rs. 198,803 on the uplift of Scheduled Tribes, Rs. 11,365 on nomadic and semi-nomadic communities, Rs. 7,235 on ex-criminal tribes and Rs. 87,665 on backward regions 1,890 students of backward classes were provided with free studentships costing Rs. 407,516. Under the scheme of aiding the harijans, adiwasis, nomadic tribes and excriminal tribes for the construction of houses, Rs. 475,719 were spent during the Second Plan period either as loans or subsidies. An amount of Rs. 34,800 was spent on construction of wells in backward areas and Rs. 11,500 were given to Harijans for construction of wells. Medical aid was provided to 27 Adiwasi patients, 6 Harijan patients and 6 patients of excriminal tribes costing in all Rs. 2,593.

17.11 Industries

During the Second Five Year Plan period, notable expansion took place in the field of industries in the district especially in Baroda city. Among the various industrial units in Baroda city, mention may be made of 200 Engineering units, 40 spectacle goods works, 30 soap factories, 15 colour and varnish works, 30 tin plate factories, 30 steel furniture works, 10 celluloid bangle works, three textile units, three chemical factories and 1 unit manufacturing nylon stockings.

An Industrial Research Laboratory was started in a new building in 1957–58 at the cost of Rs. 154,435. With the formation of Gujarat State, the work and responsibilities of this laboratory have increased threefold and it is proposed to develop it further during the Third Plan period at an estimated cost of Rs. 292,000.

It was decided to establish an Industrial Estate during the First Plan period but the same was done during the Second, when 46 blocks were constructed and leased out to various establishments. These establishments consisted of factories manufacturing engineering goods, foundry, fruit canning, pharmaceuticals, cement tiles, steel furniture, etc. An amount of Rs. 1,836,199 has been spent on the Industrial Estate till the end of the Second Plan period, of which Rs. 1,422,225 have been provided as loan from the State Government.

17.12 Education

In the former Baroda State, compulsory education was introduced in 502 villages of the district. During 1950-51, there were 721 primary schools–both Government and private–and an expenditure of Rs. 2,860,704 was incurred on primary education. A vigorous programme of

educational expansion was framed during the two plan periods. At the end of the First Five Year Plan period, there were 1,015 primary schools in the district and Rs. 1.96 crores were spent on education. At the end of the Second Plan period, there were 1,224 primary schools, the amount spent on primary education being Rs. 6,190,844.

In the field of secondary education, an amount of Rs. 747,205 was spent during 1951–56 and Rs. 1,183,469 during 1956-61. Prior to the First Plan, 15,679 adults were made literate through 1,282 social education classes costing Rs. 62,820. A further sum of Rs. 61,985 was spent during the First and Rs. 2,261 during the Second Plan period.

18 IMPORTANT PLACE NAMES

18.1 Important Places

Important places in the district are:—

Ajwa: A big and beautiful lake known as Ajwa Sarovar or Sayaji Sarovar.

Ambali: Shrine of goddess Ansuya, the mother of Datta Muni, the incarnation of the sacred Triao, Shiv, Brahma, Vishnu and Shiv.

Baroda:– Capital of the former Baroda State. At present headquarters of the Baroda division. The Laxmi Vilas palace, Kirti Mandir, Baroda University, Museum and Art gallery are worth visiting.

Chandod:- It is twelve miles south of Dabhoi and a place of great religious sanctity. Between Chandod and Karnali there is Triveni sangam known as Dakshini Prayag of the river Orsang, Narmada and Saraswati.

Chhota Udaipur: The capital of former Chhota Udaipur State.

Dabhoi: One time capital of the kings of the Solanki dynasty. This town has fine archeological remains of great antiquity, chief among them being Hira Bhagol.

Makarpura: The beautiful place known as Makarpura palace built in the Italian style by the rulers of the former Baroda State.

Nimetha: The water of the Ajwa Sarovar is filtered in the filter beds at this place before it is supplied to the city of Baroda. The village has hill gardens and is a picnic spot.

Sankheda: The town is famous for its beautiful handicraft of lacquer work on wooden articles and furniture like cradles, chairs, sofa--sets, bedsteads, toys, etc. The Polish and colour of the handicraft are so fast that they last long without fading. The art has achieved international reputation and the products of this handicraft are in great demand.

18.2 Ancient Monuments

Official Statistics Table No. 18.3 gives details of each ancient monument together with the name of the village, place of location, the period of architecture, brief description, etc.

18.3 Fairs and Festivals

About 165 important fairs and festivals are celebrated at different places in rural and urban areas of the district. The details regarding the place where it is held name of the fair/festival, the date on which it is held/observed and the estimated congregation are shown in the Official Statistics Table No. 18.2.

GAZETTEER OF PLACE NAMES

DISTRICT BARODA

V.P. = Village Panchayat; G.P. = Gram Panchayat; M = Municipality;
P = Population; N = North Latitude; E = East Longitude.

1 Ajawa–(Taluka Vaghodia),

It is a railway station on the Dabhoi-Timba narrow gauge section of the Western Railway at a distance of seven miles from Vaghodia and twelve miles from Baroda City. Near this railway station there is a big and beautiful lake known as Ajwa Sarovar or Sayaji Sarovar after the name of the late ruler of Baroda H.H. Sayaji Rao Gaekwad. This lake supplies the water requirements of the Baroda City. Developed by the Baroda Municipality it is a picnic place with a guest house.

2 Ambali–V.P. (Mahal Sinor), P.568

Situated at a distance of three miles from Sinor which is a railway station on the Chandod Malsar narrow gauge section of the Western Railway. There is the Shrine of goddess *Ansuya*, the mother of *Datta Muni*, the incarnation of the sacred Triad, *Shiva*, *Vishnu* and *Brahma*. It is believed that if lepers apply to their sores the mud below the temple wall or water in which the goddess is bathed their malady is assuaged if not entirely cured. There is a leper Asylam.

The *Ansuya Mata* fair with a congregation of about 1,000 people is held here on *Chaitra Sud* 15 (April).

3 Bahadarpur–V.P. (Taluka Sankheda), P. 6,018

A railway station on the Chhota Udaipur Jambusar narrow gauge section of the Western Railway is situated on the bank of the Orsang river.

In 1883 it was recorded in the Gazetteer of the Bombay Presidency, Vol. VII (P.557), "As in Sankheda, the Calico printing and dyeing are considered good, and there is some trade in the produce of the *Mahuda* tree. The brown walls of Bahadarpur look across the wide expanse at the battlements of the Sankheda fort which are in sufficiently good preservation to make quite an imposing "appearance". Timber is exported and on account of good cotton crop there are two cotton ginning factories. There are a seed multiplication farm and an oil mill in Bahadarpur.

4 Bajva–V.P. (Taluka Baroda), P. 2,405

Is situated on the Baroda-Viramgam broad gauge section of the Westren Railway, being the railway station next to the Baroda junction on the north of Baroda. It is called Bajva as it is by the side of Baroda City (વડોદરાની બાજુમાં). There are factories of tobacco and a *Tur-dal* (Pulse) mill. There is also a High School.

5 Barkal–V.P. (Mahal Sinor), P.1,332

It is situated on the bank of the river Narmada in the south-east corner of the Sinor Mahal. The popular belief is that it was at Barkal that *Bhim* killed the demon *Bakasur* and hence the name Barkal. The island in the Narmada, known as the *Vyas Bet* (Vyas island), on which *Vyasmuni*, the auther of the *Bhagwat*, carried out his penance is in the vicinity. There is a temple dedicated to *Vyas Muni*. At the time the two great fairs at Chandod and Karnali are held, the pilgrims also visit Barkal.

6 Baroda City–M. (Taluka Baroda), P. 298,398; 22°–17' N; 73°–15' E.

Baroda is situated at the bifurcation of Bombay-Delhi and Bombay-Ahmedabad broad gauge sections of the Western Railway. It was the capital of the former Baroda State. The Marathas invaded Gujarat from time to time from 1705 to 1721. In 1716, Khanderao Dabhade fought an

indecisive battle with Mahkubsing, the Diwan of Husain Ali Khan and Chandrasen Jadhav near Ahmednagar after which he returned to Satara and was made Senapati or general. Two years later he accompanied the Peshwa to Delhi in order to support Husain Ali Khan who had come to an understanding with the Marathas. After a stay of two years in Delhi, the Marathas obtained many sanads to levy tributes from Emperor Muhammad Shah. Shortly after 1720, the Senapati received authority from the Raja of Satara to realise the dues established by usage from Gujarat and Baglan. One of his officers named Damaji Gaekwad, who had shown much gallantry in the battle, received from the Shahu Raja the title of *Samsher Bahadur* (Illustrious Swordsman) On Damaji's death which occurred in 1721, his place of Lieutenant to the Senapati was filled by his nephew Pilaji, the son of Jhingoji Gaekwad. Later Pilaji was given by the Peshwa the title of *Sena Khas Khel* (Commander of the Special Band). Pilaji was murdered by the agents of the infamous Abhaysing, the Rathod Maharaj of Jodhpur. He left behind a worthy son in Damaji, the Chief who from a mere freebooter became the sovereign of a large territory. He and his successors were the rulers of the Baroda State of which Baroda was the capital till it merged into India after Independence.

The ancient town of Baroda was once called *Chandanavati* after the name of *Raja Chandan* of the *Dor* tribe of Rajputs. The name *Chandanvati* (the city of sandalwood) was subsequently changed to *Viravati* (the abode of warriors) and then again to *Vatpatra* (leaf of the Vad-Banyan tree) perhaps from its fancied resemblance to that leaf.

At present Baroda city is the headquarters of the Baroda division. It has beautiful palaces, gardens, institutions for education and expending industries. The Laxmi Vilas Palace which has a beautiful garden with green surroundings and Italian statues, the Raj Mahal, the Makarpura palace built in Italian style, the Nazarbag palace, the Pratap palace now housing the railway staff college and the *Kirti Mandir* (the hall of fame) having pictures painted by the great artist Nandlal Bose and built in the sacred memory of Maharaja Sayaji Rao III, the architect of modern Baroda, are worth visiting. The statue of Maharaja Sayajirao on horse back, that of Gautam Bhddh in the Jubilee garden, Gandhi Nagargruh or the town hall with the statue of Mahatma Gandhi in front, the beautiful umbrella which is a delightful resting place in the Lal Baug, Central Jail built on the model of Paris prison, Navlakhi well, Bhadra *Zarukha* or Bhadra balcony (reminding one of the Mogul architecture) the lotus beneath which has been carved out of a single piece of stone, Deepak open air theatre with a capacity of 5,000 spectators and equipped with all modern theatrical requirements, Bal Mandir full of modern pictures, Nyaya Mandir, Sursagar lake, the Jain temple in typical Jain style of architecture, Suryanarayan temple, *Juma* Masjid and the old mausoleum built in the sixteenth century by Emperor Akbar in memory of his general Kutbuddin are also worth seeing. At Baroda, Sakkar Khan's Masjid, Small gate in Moti Baug and Bhao Jambekar's bungalow in Raopura containing valuable paintings of 19th century are protected monuments.

Of the many gardens in Baroda, the Sayaji Baug has many and varied attractions, viz., a zoo, a museum, the best in Gujarat, an art and picture gallery with a priceless collection of old masters and modern artists, a suspension bridge, a health museum, fantasy houses for children, a tunnel for children and a toy railway, the Jubilee Baug and the Lal Baug are also well planned.

The Baroda University, an important centre of higher education in the various faculties of arts, science, fine arts and technology, is famous for its collection of ancient Sanskrit manuscripts. The Home Science College for teaching women domestic art, with a blend of modern educational methods and Indian traditions, is the first of its kind in India. The Sanskrit Mahavidyalaya, the Experimental School, the Preparatory Unit, the Polytechnic, Sheth U.P. Ayurvedic Research Institute and the Oriental Institute are some of the unique features of the University.

During the last decade, Baroda has been taking big strides in the matter of industrial development. There are four cotton textile Mills and one woolen textile Mill. Factories manufacturing

chemicals claim such works as the Alembic Chemical Works and the Sarabhai Chemical Works; and others manufacturing Engineering implements, agricultural implements and machinery like tractors, oil engines and pumps, spectacles, soap, rubber, colour, paints, edible oils, celluloid bangles, nylon stockings, iron furniture, hume pipes, wires and pegs, umbrella handles, brushes of different kinds, buttons, chalk, glass, etc., are the industries which have made good progress in recent times. An industrial estate wherein most of the blocks have been let out to small factories houses such industries as are engaged in the production of implements for engineering, parts of machinery, foundary articles, fruit-containers medicines, coment, tiles, iron furniture, etc. There is a railway workshop also at Pratapnagar. Water is supplied to the Baroda city from the Ajwa or Sayaji Sarovar at a distance of twelve miles from the city. The water of the lake is filtered by an automatic machine at Nimetha before it is supplied to the city. The aerodrome is situated outside the city near the village Harni. There is a Kalyan Kendra (Labour Welfare Centre) run by the Gujarat Kamdar Kalyan Board for the benefit, entertainment and encouragement of the labourers.

The *Bhimnath Mahadev* fair held on the last Monday of *Shravan* (August) is visited by about 5,000 persons and the *Sindhavai Mata* fair on Aso Sud 8-9 (September) is attended by about 4,000 persons.

7 Bhilapur–G.P., (Taluka Dabhoi), P.1,306

It is a railway station between Baroda and Dabhoi on the Chhota-Udaipur-Jambusar narrow gauge section of the Western Railway.

In 1731, a battle known as the battle of Bhilapur was fought here between the army of the Peshwa and that of the Gaekwad. The Peshwa's men though fewer in number were much more efficient in the field than the enemy. Trimbakrao Dabhade was slain and Pilaji Gaekwad was grievously wounded. Sayaji, the eldest son of Pilaji, was also killed and the army of the Gaekwad and his allies was scattered.

It was in Bhilapur that in 1775 A.D. the Maratha forces were stationed while Colonel Keating took refuge in Dabhoi and the treaty which detached Fatesing from the Poona ministry was signed.

8 Bodeli–V.P., (Taluka Sankheda), P.4,792

A railway station on the Jambusar-Chhota-Udaipur narrow gauge section of the Western Railway is situated on the bank of river Orsang at a distance of thirteen miles from Sankheda, the Taluka Headquarter town. It is an important State Transport junction for buses running between Godhra-Bodeli, Baroda-Bodeli and Chalamdi-Bhatpur.

It is an industrial centre with three ginning factories and an oil mill exporting charcoal and timber.

9 Chandod–G. P. (Taluka Dabhoi), P.3,354, 21°–58'N; 73°–30'E

It is a railway station on the Chandod-Malsar narrow gauge section of the Western Railway, just below the spot where the river Orsang joins the Narmada. It is twelve miles south of Dabhoi and is a place of great religious sanctity. At Chandod, the river Narmada makes a graceful bend, while the lofty bank on which Chandod is built ends boldly at the *Sangam* (confluence) where the two rivers meet.

Between Chandod and Karnali there is the *Triveni Sangam* known as *Dakshini Prayag* of the rivers Orsang, Narmada and Saraswati. The chief temples are those of *Kapileshvar Mahadev, Kashivishvanath Mahadev, Chandika Mata, Adityeshvar Mahadev, Ramchandraji Mahadev, Shri Mata Verai Kamleshwar Mahadev, Narmadeshwar Mahadev, Shri Hanumanji* and *Shri Markandeshwar Mahadev.* The temples at chandod abound in exterior sculpture.

A fair with a congregation of about 30,000 persons is held on *Chaitri Punam* (*Chaitri Sud* 15-April) when people bathe in the holy river Narmada.

10 Chhani–V.P., (Taluka Baroda), P.6,966

Under the name of Chhayapuri this is a railway station on the Bombay Delhi broad

gauge section of the Western Railway, at a distance of about three miles on the north-west of Baroda cantonment.

It is a trade centre with the chief products consisting of potatoes, tur (pulse), bananas and vegetables.

11. Chhota Udaipur-M; P. 10,629; 22°-20' N; 74°-1' E

It is a railway station on the Chhota Udaipur Jambusar narrow gauge section of the Western Railway and was the capital of the former Chhota Udaipur State.

The Chhota Udaipur chiefs claim to belong to the clan of Khichi Chohans whose chief Anhal is said to have been created by *Vashishtha Muni* out of the *Agni Kund* on Mount Abu. Baji Raval founded Chhota Udaipur but it was Rayasing who, in 1813, built the Udaipur fort.

Chhota Udaipur is the headquarters of the Taluka and the Sub-Division. The state highway from Baroda to Alirajpur passes through Chhota-Udaipur. Being the capital of a former State, Chhota-Udaipur has good roads, electricity, water-supply, hospital and health centre. It has rich forests and exports forest produce like timber, lac, gum, timru-leaves, mahura-flowers, etc. There are factories for marble tiles. This area also has prospects of yielding mineral wealth like manganese.

12 Chhuchhapura-G. P., (Taluka Sankheda), P.68

Is is a railway station on the junction of the Chhota Udaipur-Jambusar narrow gauge section and the Chhuchhapura-Tankhala narrow gauge section of the Western Railway.

Marble known as Motipura, very attractive and green in colour, is found here.

On the death anniversary of *Khvaja Jald Navaz* (*Utavaliapir*), a Muslim saint, an *Urs* (fair) with a congregation of about 1,500 persons is held.

13. Dabhoi-M., P. 30,841; 20°-8' N; 73°-28' E.

It is a railway station at the junction of the following three narrow gauge sections of the Western Railway:-

(1)Chhota-Udaipur-Jambusar, (2)Chandod-Malsar, and (3)Dabhoi -Timba road

This old town was the capital of the kings of the Solanki dynasty. The foundation of the fort of Dabhoi is ascribed to Sidhraj of Patan who reigned from A.D.1093 to 1142, during which period the town flourished greatly. In about 1725, the Gaekwad's Commanding officer, Senapati Dabhade, fixed his headquarters at Dabhoi. In 1779 Colonel Goddard took Dabhoi without difficulty. In 1780 Seindia made a demonstration before its valls but Mr. Forbes of the East India Company repulsed it.

The historical fort of Dabhoi has four gates known as the Hira gate, the Champaneri gate, the Vadodari gate and the Nandodi gate. The ancient town of Dabhoi (originally known as Darbhavati) has fine archaeological remains of great antiquity. It is the headquarters of the Dabhoi Taluka and the Dabhoi Sub-Division. There are ginning factories, oil mills, a big chemical concern known as the Baroda Chemical Industries, Ltd., another industrial concern manufacturing copper and brass vessels for which the town is famous, flour, mills, handicraft like making of cradles, textiles, etc., a model agricultural farm and facilities of electricity and telephone. There are an Arts and Science College, three high schools and a basic training college for primary teachers. Dabhoi is the birth place of the famous poet Dayaram whose *Garbis* in Gujarati are well-known. The theme of his lyries is *Krishna Bhakti*-devotion to Lord Krishna. He also wrote in Hindi and Panjabi.

The Scheme of piped water supply at an estimated cost of rupees twenty five lacs is on hand. Five wells including a jack well have been constructed in the river Orsang at Karnet, at a distance of about five miles from Dabhoi, and the pipe lines are being laid in the town.

A minarat and a portion of post known as *Bibi's Durga* are protected monuments at Dabhoi.

There are ancient temples of *Vaghnath, Mangaleshwar, Kalka Mata* and *Gadh Bhavani* in this town. A fair called *Navratri* fair is held on *Aso Sud 8* (September) when about 5,000 persons

attend, another, *Dassera* fair, on *Aso Sud 10* (September) is attended by about 7,000 persons who visit *Kalika, Bahuchara* and *Ashapuri Matas*, and a third called *Kal Bhairav* fair is held on *Aso Vad* 14 (*Narak Chaturdashi*-October) when about 4,000 persons participate.

14 Dabka-G. P. (Taluka Padra), P. 4,674

Named after Danknath Mahadev, Dabka is eighteen miles away from Baroda. Situated on the left bank of the river at a height of 80 feet, a wide view is obtained from this place of the curving river, the plain on the right bank and of the shadowy outline of the solitary hill of Pavagadh in the background many miles to the east. About a mile to the west of the village there was the hunting ground which the Gaekwad and especially His Highness Khanderao frequently visited for hunting pigs, deer, partridges, hares, jackals, etc. The ground used for hunting has now been distributed for agricultural operations among the agriculturiests of the surrounding six villages. Dobka has a basic training college for primary teachers.

15 Gorwa-V.P. (Taluka Baroda), P.11,318

It is at a distance of about three miles from the Baroda City with which it is connected by a bus service. Due to the industrial expansion of Baroda, Gorwa has almost become a part of the city and treated as an industrial area since 1961. Recently Chandan Metal Work-a factory of steel-furniture-is established here.

16 Hanf-G. P. (Taluka Chhota Udiapur) P.654

Situated at a distance of thirteen miles from Kawant and thirty-two miles from Chhota Udaipur on the right bank of the Narmada, Hanf is a place of pilgrimage of local importance. It has a ruined fort on a site with the river Narmada on the south and hills and ravines on other sides. This was the place of refuge, and for some time the headquarters of the Champaner Chohans, who were subsequently represented by the chiefs of Chhota Udaipur.

17 Harni-G.P. (Taluka Baroda), P.1,538

It is situated at a distance of three miles from the Baroda city. The village is near the Baroda aerodrame. The road from Baroda to the Pavagadh hill passes by this village.

There is a temple of *Hanumanji*, which is believed to have been installed by *Shri Ramchandraji*. On every Saturday of *Shravan* (July-August) a fair attended by about 15,000 Persons is held at this temple.

18 Itola-V.P. (Taluka Baroda), P.2,727

It is a railway station on the Bombay-Ahmedabad broad gauge section of the Western Railway. The river Dhadhar flows near this village. There are a highschool, chhatralaye (hostel) and a Balm andir. As the eotton crop in the Surrounding area is plentiful there is a ginning and pressing factory at the village.

19 Jabugam-G. P. (Taluka Jabugam), P.2,556

It is a railway station on the Chhota-Udaipur-Jambusar narrow gauge section of the Western Railway, about twelve miles from Chhota Udaipur. It stands on the State High Way that passes through Chhota-Udaipur and was previously a part of the Chhota-Udaipur State. The name Jabugam was acquired by the village from "Jambu Brahmins" who resided there in the past. At present, most of the area is inhabited by Adivasi people.There is an ancient step-well. Water for agricultural operations is drawn from wells by installing pumping plants. Three miles on the east is the shrine of *Telav Mata* which people suffering from leucoderma visit for cure of the disease. About a mile and a half on the west of the village is a temple of *Hanumanji* on the hillock known as "*Shyamsundar Tekri.*"

20 Jarod-V. P.; (Taluka Vaghodia), P.3,504

It is a railway station on the Dabhoi Timba Road narrow gauge section of the Western Railway. It is situated on the bank of the river Vishvamitri, on the Baroda-Godhra National Highway and has a stand for the State Transport buses playing on the Highway. There are two rice-mills, two oil miles, a high school and an irrigation tank named Kumbharia tank from which water is supplied for agricultural purposes to the lands surrounding Jarod, within a radius of two miles and a Government godown for the storage of foodgrains.

On *Janmashtami* (August), a fair is held when the congregation amounts to about 1,000 persons.

21 Jojwa–G. P. (Taluka Sankheda); P.325

It is a railway station on the Chhota Udaipur-Jambusar narrow gauge section of the Western Railway.

In the year 1909–10, the former Baroda Government constructed at this village a dam across the river Orsang at a cost of Rs. 1,156,494. From the reservoir at Jojwa, a feeder eleven mies long carries the water to the Vadhvana tank which has a capacity of 4,536 lakh cubic feet. At first this tank could irrigate lands in the Dabhoi Taluka only. But the dam was raised by three feet and the canals were broadened and also lengthened during the Frst and the Second Five Year Plans, so that the acreage under irrigation rose from 5,000 to 13,000 acres, producing 2,600 tons more of foodgrains.

22 KarjanM–. P. 8,117

It is a railway junction under the name "Miyagam" which is an adjoining village, where the following sections of the Western Railway meet:-

I–Bombay–Ahmedabad broad gauge section, II–Chandod–Malsar narrow gauge section, III–Miyagam–Motikoral narrow gauge section.

The town is known as Miyagam-Karjan. It is the headquarters of the Karjan Taluka. It has taluka offices, a guest house and to ginning and pressing factories. The town has electricity and piped water supply.

23 Karnali–G. P. (Taluka Dabhoi), P. 1,550

Situated at a distance of about a mile from Chandod which is the terminus on the Chandod-Malsar narrow gauge section of the Western Railway, Karnali is separated from Chandod by the river Orsang, both the places being on the same bank of the river Narmada. The confluence of the two rivers imparts sanctity to both the villages The holiness of Karnali is more than that of Chandod, as the former enjoys the reputation of greater antiquity. There are temples of *Someshvar, Kubereshvar* and *Pavkeshvar*. Between Karnali and Chandod, the Orsang joins the Narmada and it is though that somewhere close by there is a hidden stream of Sarasvati. The confluence of these three rivers is considered a very holy place and called Daxini Prayag or Prayag of the South.

On *Chaitra Sud* 15 (April) about 15,000 persons congregate and visit *Kubereshwar Mahadev* at the junction of the Narmada and the Orsang.

24 Karvan–V.P. (Taluka Dabhoi), P.6,348

It is a railway station on the Chandod–Malsar narrow gauge section of the Western Railway about five miles to the east of Miyagam and seven to the west of Dabhoi.

In each of the four Yugas (ages) this holy place has been known by a different name: first it was Tehapuri, then Mayapuri or Kanbhadra, then Meghavati and then Kaya-Virohan whence the name 'Karvan'. The Karvan Mahatmya and other works in Sanskrit state that there were at this place a *Mahadev* called *Brahmeshwar*, a *Brahma kund, 84 sidhs, 8 Bhairavs, 11 Mahadevs, 12 Suryas, 6 Ganpatis*, 24 Goddesses and a spot sacred to *Vishnu*. The cause of the great sanctity of the place is mentioned thus: Before the *Kali Yuga*, in the *Dvapar Yuga*, there lived at Ulkapuri, that is Avakhal in the Sinor Sub-Division, a holy *Rishi* named *Sudarshan* whose chaste wife gave birth to a son at midnight on the 14th day of the dark half of *Bhadrapad* (September). A few years later the *Rishi* went on a pilgrimage to Banaras to bathe in the Holy Ganges during an eclipse which was the tack place in *Ashad* (June–July). While he was away, his wife performed the fire worship, the *Agnihotra* One night she omitted here task but the child took it on himself to carry on the worship and continued to do so till the *Rishi* returned when both the parents secretly watched the babe as it went through the ceremony faultlessly at night. The child then suddenly expired and when its body was taken to be bathed in the god's pool, it disappeared. The spot was, therefore, called Kaya-Virohan. The *Rishi* wept and asked the vanished child who he was. The reply heard was, "I am the essence of the five elements". The *Rishi* thereupon knew him to be *Lord Shiva*. There is a tradition that the *Mahadev* who took birth in the house of the Agnihotri Brahman at Avakhal was named *Nakleshwar*. When he went to Kaya

Virohan as a boy and begged for a resting place, he could not get any as the whole area had been taken up by one or the other of the gods. *Brahmeshvar* thereupon seated him on his lap an event which is represented by the images of the two gods carved in one stone.

There is a Government Rest House. This place has two ginning factories.

On Maha *Shivaratri* (February) a procession of *Shiva,* with about 7,000 persons accompanying it moves from *Raj Rajeshwar Mahadev* also known as "*Lakulesh*" to *Vaijnath Mahadev,* one mile away. The idol of *Shiva* (*Raj Rajeshwar*) is unusual. It is in human shape along with a ling and is made of black touch-stone.

On *Aso Sud* 1 to 10 i.e. during *Navratri* (September) the *Sindhvai Mata* fair is held with a congregation of about 10,000 persons.

25 Kukas-V.P. (*Mahal Sinor*), *P. 1,431*

It is at a distance of three miles from Sadhali, a railway station on the Chandod-Malsar narrow gauge section of the Western Railway. The *Nathakaka Pir fair* is held on *Bhadrapad Sud* 2 and 3 (August) in memory of a Koli dacoit of that name when about 10,000 persons participate. *Nathakaka* became a disciple of *Imamsha* of the Pirana sect and then consecrated as a saint. The *darga* (tomb) is worshipped by Muslims and Hindus alike according to the Hindu system.

26 Kukraj-(*Mahal Tilakwada*), *P.79*

It is at a distance of five miles from Ghantoli which is a railway station on the Chhuchhapara-Tankhala narrow gauge section of the Western Railway.

According to the local legend this is the site of an old large city, *Kambavati Nagri,* joined to Champaner by an under-ground passage, in the times of the Chohans. There is a story that near a masonry well in this village, much treasure was once hidden and that about 125 years ago the Chief of Agar, a neighbouring estate, sent out workmen to dig out the treasure but that the workmen were driven away by winged serpents. In 1863, the place was again opened in the presence of the Political Agent and after digging to some depth a stratum of solid sand—stone was reached. This stratum did not appear to have ever been disturbed and consequently no further search was made.

At the *dargah* (tomb) of *Daudsha Pir,* a fair is held on *Falgun Sud* 7 (February) when about 1,500 persons participate.

27 Makarpura-G.P. (*Taluka Baroda*), *P. 1,822*

It is a railway station on the Bompay Ahmedabad broad gauge section of the Western Railway. About eight miles from the Baroda City, Makarpura is almost a suburb of that city. The beautiful palace known as Makarpura place built in the Italian fashion by the rulers of the former Baroda State is located here.

28 Malsar-V.P. (*Mahal Sinor*), *P. 1,584*;

The terminus on the Chandod-Malsar narrow gauge section of the Western Railway is situated on the bank of the river Narmada. The climate of this place is very agreeable and many families visit this village during summer.

The sacred shrines of *Bawa Pyar, Mangaleshwar, Angareshwar* and *Tapovan* situated in the Village are visited by many people.

On every Tuesday of *Shravan* (July-August) a fair is held at the *Angareshwar Mahadev* when about 4,000 persons congregate.

29 Mandva-V.P. (*Taluka Dabhoi*), *P. 2,377*

It is at a distance of one and a half mile from Chandod which is the terminus on the Chandod-Malsar narrow gauge section of the Western Railway.

Before the merger of the Sankheda Mewas into the Baroda District, this was the chief village of the petty estate of Mandva which along with other estates formed the Sankheda Mewas. It is separated from Chandod by a deep ravine which has been bridged over. There is an old temple of *Markandeshwar Mahadev* at the village.

A fair with a congregation of about 4,000 persons is held on *Kartiki Purnima* (November) when the participants bathe in the river Narmada.

30 Mankani–G.P. (Taluka Sankheda), P. 5,073

It is at a distance of two miles from Jojwa which is a railway station on the Jambusar-Chhota-Udaipur narrow gauge section of the Western Railway. This village seems to be the same as Mangni village which Sultan Ahmed I fortified in 1419. It has a fine large lake with a brick and cement wall on the south-west. Once a very thriving and populous place, the remains of the old fort and a step well still exist in the village.

31 Mohan or Ali Mohan, (Taluka Chhota Udaipur)

About twenty miles south of Chhota Udaipur, Ali Mohan was the capital of the Chiefs of Chhota Udaipur during the seventeenth century. After losing Champaner (1484), they fled to Hanf on the Narmada and seem to have, about the middle of the sixteenth century, moved to Ali Mohan a place more likely to attract trade. The ruins of the fort stand on a conical hill, from 200 to 300 feet above the plain. Below it, are ruins of houses, gateways and wells and the remains of two broken down round towers.

32 Moti Koral V.P.–(Taluka Karjan), P. 2,012

It is a railway terminus on the Miyagam-Moti Koral narrow gauge section of the Western Railway. Situated on the bank of the river Narmada, this is an ancient place of sanctity and has temples of *Adityeshwar* and *Kubereshwar Mahadevs.*

A fair known as the *Panchkubereshwar* is held on *Ashad Sud* 11 (July) at which about 7,000 persons congregate.

33 Muval V.P. (Taluka Savli), P. 1,120

Under the name "Muval Tank" this is a railway station on the Dabhoi-Timba Road narrow gauge section of the Western Railway. There is a big tank, the construction of which is ascribed by tradition to king *Mayurdhvai* of the time of the *Pandavas.* The scheme for utilizing the water of this tank for irrigation is under execution.

34 Nasvadi—G.P. P. 3,8 6

A railway station on the Chhuchhapura Tankhala narrow gauge section of the Western Railway is situated on the bank of the river Ashwin. Before the merger of the Sankheda Mewas group of estates into the Baroda district, it was the seat of the Solanki Rulers of the Nasvadi estate. Now it is the headquarters of the Nasvadi Taluka. It is the business centre for groundnut and forest produce like charcoal and wood. After the merger, *Chhatralayas* (hostels) for backward class boys and girls are run by the Pachhat Warg Kelavni Mandal and a High school is also run by the local Kelavni Mandal. Outside the village, there is the ancient Shivalaya of *gagnath Mahadev* on the bank of the river Ashvin.

35 Nimetha–V.P. (Taluka Vaghodia), P.1,108

It is situated at a distance of eight miles from Baroda and six miles from Ajwa which is a railway station on the Dabhoi-Timba Road narrow gauge section of the Western Railway. The water of the lake, Sayaji Sarovar of Ajwa Sarovar, is filtered in the filter beds at Nimetha before it is supplied to the city of Baroda. The village has hill gardens and is a picnic spot.

36 Padra–M; P. 17,269

It is a railway station on the Chhota Udaipur-Jambusar narrow gauge section of the Western Railway at a distance of about eight miles from Baroda with which it is connected by an asphalt road on which State Transport buses ply.

Padra is the headquarters of the Padra Taluka. The Padra Health Unit established under the Second Five Year Plan trains the interns from the Baroda Medical College. It is known chiefly for is *Tur* (pulses).

37 Pala–G.P. (Taluka Naswadi), P.900

It is at a distance of a mile from Sandhia which is a railway station on the Chhuchhapura-Tankhala narrow gauge section of the Western

Railway and is situated on the bank of the river Men. It has an old cooperative farming Society. There is the temple of *Ranchhodray*, the *Mahant* of which has done good service to the people of the sarrounding villages by preaching them the importance of observing prohibition and the necessity of giving up superstition and bad habits.

On *Janmashtami* (August) a fair is held at the temple of *Vishvenath Mahadev* on the bank of the river Men, with a congregation of about 2,000 persons.

38 Pani—G.P. (Taluka Jabugam) P. 1,007

It is a railway station called Pani Mines which is the terminus on the Champaner-Pani Mines narrow gauge section of the Western Railway constructed for the export of manganese are extracted from these mines.

39 Pavi Jetpur—V.P. (Taluka Jabugam) P. 3,412

Jetpur was previously a part of the Chhota Udaipur State, known as "Pavi" railway station on the Chhota Udaipur-Jambusar narrow gauge line of the Western Railway. Situated at a distance of about twelve miles from Chhota Udaipur, it is now the headquarters of the Jabugam Taluka.

A fair called *Panchiya* or Holi fair held on *Phalgun Sud* 15 (March) is attended by about 10,000 persons.

40 Por—V.P. (Taluka Baroda) P. 1,646

It is on the bank of the river Dhadhar two miles away from Itola, a railway station on the Bombay-Ahmedabad broad gauge section of the Western Railway. It is also connected with Baroda by National Highway No. 8. It is a religious place having the temple of *Baliyadev* visited by the people from distant villages.

4 Rajwasna—(Taluka Jabugam) P. 102

It is at a distance of twelve miles from Bodeli which is a railway station on the Chhota Udaipur-Jambusar narrow gauge section of the Western Railway. A stone-weir ten feet high and 596 feet long has been constructed at this village across the river Heran. Canals from this project are expected to irrigate about 6,500 acres of lands in Sankheda Taluka.

42 Ranu—V.P. (Taluka Padra) P. 3,290

It is a railway station under the name Ranu Pipri on the Jambusar-Chhota Udaipur narrow gauge section of the Western Railway, about ten miles from Padra. It is believed Parshuram had his *Ashram* here. There are the temple of *Parshuram* and *Tulja Mata*, the family goddess of Shivaji and of the Gaekwad. The temple of *Tulja Mata* overlooks a beautiful tank.

Tulja Mata fair attended by about 5,000 persons is held here during *Navratri* on *Ashwin Sud* 8 (September).

43 Sandhasal—V.P. (Taluka Savli) P. 3,073

It is a railway station on the Dabhoi-Timba Road narrow gauge section of the Western Railway.

This place is an important business centre and also the headquarters of the Sarvodaya Scheme worked in forty-five backward villages of the Baroda District.

44 Sankheda—M., P. 7,378

It is about a mile away from the Sankheda-Bahadarpur railway station on the Jambusar-Chhota Udaipur narrow gauge section of the Western Railway and at about the same distance from the Gojpur-Sankheda railway station on the Chhuchhapura-Tankhala narrow gauge section of the Western Railway, on the bank of the river Orsang which separates it from Bahadarpur.

It is the headquarters of the Sankheda Taluka. The town has an old fort which was once held by the Jagirdar of Sankheda, Ganpatrao Gaekwad, a descendant of Pilaji. This troublesome little fort long resisted the arms of the Gaekwad but at last surrendered in 1802.

The town is famous for its beautiful handicraft of lacquer work on wooden articles and furniture like cradles, chairs, sofasets, bedsteads, etc. The polish and colour of the handicraft are so fast that they last long without fading. The

art has achieved international reputation and the products of this handicraft are in great demand. The town has an electric generator of its own.

45 Savli—V.P., P. 9,522

At a distance of about 20 miles from Baroda City is a railway station on the Dabhoi-Timba Road narrow gauge section of the Western Railway.

It is the headquarters of the Savli Taluka. There is a beautiful tank with a rest house on its bank. There are many dharmshalas and a high school. It is the centre for the business of foodgrains and cattle.

The *Janmashtami* (August) fair known as *Chamunda Mata* fair, attracts a congregation of about 1,200 persons at the ancient temple of *Chamunda Mata.*

46 Shriportimbi—(Taluka Vaghodia) P. 300

It is four miles away from Baroda City as well as from Kelanpur which is a railway station on the Jambusar-Chhota Udaipur narrow gauge seetion of the Western Railway. There is an irrigation tank supplying water to about 1,200 acres of lands.

47 Sinor—M., P. 7,326

A railway station on the Chandod-Malsar narrow gauge section of the Western Railway is situated on the bank of the river Narmada.

It is the headquarters of the Sinor Mahal. It is a beauty spot having a Government guest house overlooking the river Narmada. It has a high school and a dispensary. It is known for good mango trees. Along the bank of the river there are old *Mahadev* temples of *Bhandareshwar, Kedareshwar, Krushneshwar* and other Gods. The temples at Sinor, though smaller and less splendid than those at Chandod, are considered to be more sacred.

48 Songir—(Taluka Sankheda) P. 383

It is situated on the bank of the river Heran, about two miles from Bhatpur which is a railway station on the Chhuchhapura-Tankhala narrow gauge section of the Western Railway. There are the ruins of an old fort. There is a stone quarry which makes grinding-stones and other useful articles from stone and crushes stone into metal and chips for export. The narrow gauge section of the railway is extended from the Ghantoli station up to the quarry spot.

It receives water for irrigation from the Heran Irrigation project.

49 Tankhala—G.P. (Taluka Naswadi), P.132

It is a railway terminus on the Chhuchhapura-Tankhala narrow gauge section of the Western Railway, at a distance of six miles from Nasvadi. It is an important market place for coal, timber and other forest produce. On *Shivaratri* (February) a fair with a congregation of 3,000 persons is held at the *Tarkeshwar Mahadev* temple.

50 Ten Talav—V.P., (Taluka Dabhoi) P. 1,865,

It is a railway station on the Chandod-Malsar narrow gauge section of the Western Railway.

This place is famous for the Ten *Talav* or tank, octagonal in shape with stone steps up to the level of water. Tradition connects its construction with the name of Visaldev and the famous sculptor and architect Hira Kadia who erected the Hira Gate at Dabhoi.

The village has piped water supply and an oil mill.

51 Tilakwada—V.P., P. 2,426

Situated on the confluence of the Narmada and the Men river, Tilakwada is fourteen miles away from Nasvadi, a railway station on the Chhuchhapura-Tankhala narrow gauge section of the Western Railway, eleven miles from Chandod and eighteen miles from Dabhoi. A private bus service is available from Nasvadi to Tilakwada. In fair season, State Transport buses ply between Dabhoi and Tilakwada. Private boat service from Chandod to Tilakwada is also available. This is the headquarters of the

Tilakwada Mahal and a business centre for the surrounding villages, the trade consisting of foodgrains, cloth and cutlery. It makes bamboo baskets, winnowing baskets and earthen pots and has a ginning factory also. There are old temples of *Tilakeshwar Mahadev Septa Mata, Maninageshwar, Narmada Mata* and other gods and goddesses.

A fair with a congregation of about 5,000 persons is held here annually on *Chaitri Punam* (April).

52 Vadhvana—(Taluka Vaghodia) P. 955

It is a railway station on the Chhota Udaipur Jambusar narrow gauge section of the Western Railway.

Vadhvana irrigation tank gets water from the river Orsang. Work for extending Dabhoi, Tarsana and Bhimpura Canals is in progress for increasing the irrigation facilities in the area.

53 Vaghodia—V.P., P. 5,796

It is a railway station on the Dabhoi-Timba Road narrow gauge section of the Western Railway and is connected with Baroda by a Pucca road, Besides Taluka Offices, it has a high school, a veterinary dispensary, a hospital, a rest house and a Taluka seed Multiplication Farm for the supply of better quality of seeds. The town has electricity.

Known for paddy, sugarcane and groundnut cultivation, it has three rice mills, and three oil-mills and is also a business centre for foodgrains, cloth, etc.

PART II

1 CENSUS TABLES

2 OFFICIAL STATISTICS

A-GENERAL POPULATION TABLES

Out of 4 tables of A Series compiled at this Census, Tables A-I, A-III and A–IV giving area, houses and population, classification of villages and towns have been reproduced in the District Handbook. They are the same as those given in 1951. The most distinguishing features, however, are the various appendices and sub-appendices giving details of (a) 1951 territorial units constituting the present set-up of the district showing changes which have taken place during the decade, (b) villages with a population of 5,000 and over and towns with a population under 5,000, (c) houseless and institutional population, (d) 1951 population adjusted to 1961 administrative units, (e) new towns added in 1961, (f) towns in 1951 declassified in 1961 and (g) towns with their area and jurisdiction.

A-I—Area, Houses and Population

This table is more elaborate than that of 1951 as it gives in addition to area, houses and population, population per sq. mile, number of inhabited and uninhabited villages and number of towns. The data is given down to taluka/mahal with break-up for Total/Rural/Urban.

Brief Account of Changes in Area of the District from 1901 to 1961

Numerous changes have taken place since Independence in the areas of the districts, though the boundaries of various units comprised therein practically remained unchanged between 1901 and 1941. Three principal stages in which these changes have come about during the Post-Independence period are: (i) those that came in the wake of Independence after 1947; (ii) those that took place on the Reorganisation of States in 1956 and (iii) those that resulted from the bifurcation of the bilingual Bombay State in 1960.

Even after reorganisation in 1956, several territorial changes were effected in 1959, the details of which have been given in sub-appendix 2 to Appendix 1 to Table A-I alongwith the relevant notifications. Broad changes that have taken place in the territorial limits of the district between 1951 and 1961 are, however, listed below:—

Baroda:—33 villages of Panchmahals district were added to it.

Rural and Urban Population

During the past censuses there was no uniformity in the criteria prescribed for distinguishing urban areas from the rural. The definition of 'town', therefore, varied from State to State and the places were treated as towns if, in the opinion of the State Government or the Superintendent of Census Operations, they were found to possess urban characteristics. It included all municipalities, cantonments, civil lines and all places with more than 5,000 population which, it was decided, to treat as towns on the ground that they possessed urban characteristics. This definition of 'town' has remained substantially unchanged since 1891. To the characteristics aforementioned, Baroda State, which has merged into Bombay State in 1949 and now forms part of the newly formed Gujarat State added one more according to which all the headquarters of talukas were treated as towns. In view, however, of the increasing importance of studying urbanisation in all its varied aspects, the Registrar General, at the very outset of 1961 Census, emphasised the need for a uniform treatment by strictly defining the concept of 'town'.

Town:

'Town' has been defined as a place having a municipality or a cantonment or a place with a population of 5,000 and over if 75 per cent of its male population is dependent on non-agricultural pursuits. These tests were applied by the Collectors who furnished lists of places to be treated as towns in 1961, which were also got approved by the State Government and the Registrar General.

As against 10 places treated as towns in 1951, 9 qualify to be treated as urban according to the test prescribed by the Census of 1961. The loss of 1 is accounted for by declassification of 2 towns as villages as shown in statement A and promotion of 1 village as town as shown in statement B.

STATEMENT A

Urban areas of classes V & VI of 1951 eliminated in 1961 with population of 1951 and 1961

Class	Name and number of towns	Population	
		1951	1961
V	Savli . . .	7,476	9,522
VI	Vaghodia . . .	4,966	5,796

STATEMENT B

The urban areas of class IV listed in 1961 with their names and population in 1961

Class	Name and number of town	1961 Population
IV	Gorwa	11,318

Village:

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distinct number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

Census House:

Owing to the diversity of local conditions it was not possible in the past to lay down a uniform definition of a 'Census House' common to all parts of the country. The definition adopted till the Census of 1941 had two-fold connotation which emphasised either (i) the structural aspect, i.e., building or house or (ii) the social aspect, i.e., family or household. The former was defined as the residence of one or more families having a separate and independent entrance from the common way. But the social aspect was emphasised by defining a 'Household' as the home of the composite family with its resident dependents and servants. From 1881-1941, the Census Superintendents adopted the one or the other definition according to their convenience. A clear distinction was, however, drawn between a 'Census House' and a 'Census Household' in 1951 which gave a uniform meaning to the term 'Census House' or the 'Census Household' or the 'Family Unit'. The 'Census House' was defined as, 'a dwelling with a separate main entrance' and the 'Census Household' as 'all persons who live together in the same house and have a common mess'.

Though the definition of a 'Census House' introduced in 1951 was continued during the Census of 1961, it differs from that adopted by the Census of 1961 in that the latter is broad-based to include non-dwellings also. The house-list is thus an inventory of all structures or part of structures with a separate entrance.

The following definitions of the term 'Census House' given in the instructions for filling the house-list will clarify the position still further.

"A 'Census House' is a structure or a part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

A-III — Villages Classified by Population

This table classifies inhabited villages only by size of population. After giving the total number of inhabited villages and rural population for every taluka/mahal, it shows the number of villages and population for the following seven categories, namely:—

(1) less than 200, (2) 200-499, (3) 500-999, (4) 1,000-1,999, (5) 2,000-4,999, (6) 5,000-9,999 and (7) 10,000 and above.

Table A-III of 1951 gives combined figures of inhabited towns and villages classified by population, while A-III of 1961 gives figures of villages only classified by population.

A-IV—Towns and Town-groups Classified by Population in 1961 with Variation Since 1941

This table gives statistics relating to the figures of population since 1941 showing the growth of each town from census to census. Percentage variation is given from decade to decade, not only for the towns, but also for town-groups, where one or more urban units form a compact urban area. The total population of the town-group along with that of its constituent urban units is given under the class into which the town-group has been classified. Separate figures have, likewise, been given for municipal and non-municipal areas such as port area, suburban area, military area, railway colony, cantonment, etc., where a town is a combination of two or more such units. The following are the six classes into which the towns are grouped in Table A-IV according to the size of population:

Class	Population	Class	Population
I	100,000 and above	IV	10,000 to 19,999
II	50,000 to 99,999	V	5,000 to 9,999
III	20,000 to 49,999	VI	Less than 5,000

The areas of towns in sq. miles and sq. kilometres are also given in the table for 1961.

The term 'town' as defined at the Census of 1961 and its uniform adoption all over the country on the basis of certain specified tests have been explained under 'Urban and Rural Population' in the note to Table A-I.

'Town-group'—This is a new variant of the urban population which has been introduced for the first time on the present occasion. Large cities or expanding towns bring within their orbits new satellite towns, industrial areas or settlements interspersed by small bits of rural areas. Such urban areas, not necessarily municipal, are taken to form town-groups with the main city or town as one of the constituents.

'City'—Places having population of 100,000 and over either individually or as a town-group have been classified as cities.

A-I—AREA, HOUSES AND POPULATION

District/Taluka/Mahal	Total Rural Urban	Area in Sq. Miles	Area in Sq. Km.	Population per Sq. Mile	Number of Villages Inhabited	Number of Villages Uninhabited	Number of Towns	Number of Occupied Residential Houses	Population Persons	Population Males	Population Females

NOTE :-

1 Population per sq. mile under Column 4 has been worked out on the area figures given by the State Survey Department given in Column 3(a).

2 Under Column 4, population of those urban units, for which area figures are not available, is ignored for working out urban density. Rural density is worked out on the basis of rural population only though the area figures include areas of those urban units for which separate area figures are not available.

3 The sq. kilometres under Column 3(b) and density figures of urban areas of Taluka/Mahal and District under Column 4 are worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of the towns in the respective units. In addition to this, the figures relating to sq. kms. are further adjusted to make the Taluka/Mahal and District totals agree.

APPENDIX I

1951 TERRITORIAL UNITS CONSTITUTING THE PRESENT SET-UP OF DISTRICT AND EACH TALUKA/MAHAL

(Only those names/areas which have undergone changes since 1951 have been shown below)

District/ Taluka/Mahal	1951 territorial units	Details of gain in territories	Area		Details of loss in territories	Area		Net area Gain (+) Loss (—)	
		Brief description	Sq. Miles	Sq. Km.	Brief description	Sq. Miles	Sq. Km.	Sq. Miles	Sq. Km.
1	2	3	4	5	6	7	8	9	10
BARODA DISTRICT	As in 1951	(1) 33 villages transferred from Panchmahals district	53.3	138.0	..	..	..	+53.3	+138.0
Vaghodia	As in 1951	(2) 23 villages transferred from Halol taluka of Panchmahals district	35.4	91.6	..	..	..	+35.4	+ 91.6
Sankheda	As in 1951	(3) 10 villages transferred from Halol taluka of Panchmahals district	17.9	46.4	..	..	..	+17.9	+ 46.4
Tilakwada		(4) Newly Constituted with 117 villages transferred from Nasvadi taluka	83.2	215.5	..	..	..	+83.2	+215.5
Nasvadi	As in 1951	..	..	..	(5) 117 villages transferred to newly constituted Tilakwada mahal	83.2	215.5	—83.2	—215.5

SUB-APPENDIX 1 TO APPENDIX I

AREA FOR 1951 AND 1961 FOR THOSE MUNICIPAL TOWNS WHICH HAVE UNDERGONE CHANGES IN AREA SINCE 1951 CENSUS

District	Municipal Town	Area in Sq. Miles		Remarks

Note:

1 Towns treated as such for the first time in 1961 are printed in italics.

The following abbreviations have been used for the status of a town.

M—Municipality. P—Village Panchayat N.M.—Non—Municipal Area

§ Baroda cantonment was treated as a separate Urban unit in 1901 to 1941 but in 1951 it was merged in Baroda (M). Separate population for 1951 is not available. The unit is termed as 'Military Area' in 1961.

	9 Chhota Udaipur (640-0)	Part (640-0) of Chhota Udaipur village

NOTE:—*Separate area for constituents not available

Towns treated as such for the first time in 1961 are printed in italics.

B—ECONOMIC TABLES

This series is divided into two parts, viz., (i) General Economic Tables and (ii) Household Economic Tables. Economic Tables of the 1961 Census cover a very large field of data and are more elaborate than any of their predecessors. The most important point to remember about the economic tables is that during the past censuses, income or economic independence was the test applied for measuring the economy of the country. Before 1961, economic activity was interpreted in terms of categories like economically independent or economically dependent, semi-dependent, earning dependents or non-earning dependents. In 1951, the economic classification was confined to the eight livelihood classes with stress on income rather than work or economic activity of the individual. The most significant departure that the Census of 1961 has made is the emphasis laid on work, so that all people who work, including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance have also been included as workers. Even the non-workers have been distributed into eight-fold categories according to the activities pursued by them. This change in concept will help obtain a realistic picture of the economic activity of those important sections of household workers who were left out of account in the past.

The Household Economic Tables on the other hand are an entirely new feature of the 1961 Census. They are prepared from household schedules by mechanical tabulation on the basis of 20 per cent sample and give all possible data relating to the extent of land under cultivation, nature of household industry, period of work in household industry and the persons employed either as family workers or as hired labourers.

Industrial and Occupational Classification

Another noteworthy feature of the General Economic Tables is the systematic classification of industries and occupations. For, the one introduced in 1951 was, as truly pointed out by the Registrar General, neither a purely industrial nor occupational classification of the population but a combination of both. The National Classification of Industries and Occupations adopted by the Government of India and followed on the present occasion classifies the economic data into 9 divisions, 45 major groups and 343 minor groups of industries and 11 divisions, 75 groups and 331 families of occupations as against a conglomeration of 10 divisions and 88 sub-divisions of services in 1951.

The following statement gives the categories of industrial workers adopted in the current census and the eight livelihood classes of 1951.

1961 Industrial Categories	1951 Means of Livelihood
	AGRICULTURAL CLASSES
I As Cultivators	I Cultivators of land wholly or mainly owned and their dependents
II As Agricultural Labourers	II Cultivators of land wholly or mainly unowned and their dependents
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	III Cultivating Labourers and their dependents
IV At Household Industry	IV Non-cultivating owners of land, agricultural rent receivers and their dependents
V In Manufacturing other than Household Industry	NON-AGRICULTURAL CLASSES
VI In Construction	Persons (including dependents) who derive their principal means of livelihood from
VII In Trade and Commerce	V Production other than cultivation
VIII In Transport, Storage and Communications	VI Commerce
IX In Other Services	VII Transport
X Non-workers	VIII Other services and miscellaneous sources

In 1951 the non-workers who were known as non-working dependents were classified according to the occupation of the persons on whom they were dependent.

The non-working population is distributed separately for the first time according to eight types of activities, viz., (i) full time students or children attending school who do no other work, (ii) housewives and persons engaged in unpaid home duties, (iii) infants and other dependents including permanently disabled or old persons, (iv) retired persons, rentiers and others who are in receipt of income without doing any work, (v) beggars, vagrants and others of unspecified source of existence, (vi) convicts in jails or inmates of penal, mental or charitable institutions, (vii) persons not employed before but seeking employment for the first time and (viii) persons employed before but now out of employment and seeking employment.

Broadly speaking, workers of 1961 can be taken to be equal to self-supporting persons *plus* earning dependents of 1951 *minus* those in receipt of income without work such as rentiers, pensioners, beggars, etc.

In respect of persons who are workers, the information is available in Q. 8 Cultivators, Q. 9 Agricultural Labourers, Q. 10 Working at Household Industry and Q. 11 Working at Non-household Industry, Profession, Trade, Business or Service. Following extracts from the Manual of Instructions to Enumerators relating to Questions 8 to 12 on the basis of which the General Economic Tables are compiled will be helpful in appreciating the contents of these tables.

Q. 8 Working as Cultivator

A person is said to be working as cultivator if he/she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share. Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations which are shown in Q. 10 or Q. 11 as the case may be.

Q. 9 Working as Agricultural Labourer

A person is said to be working as Agricultural labourer when he works in another person's land only as a labourer without exercising any supervision or direction in cultivation for wages in cash, kind or share of produce. Also the labourer has no right or lease or contract on land on which he works, nor he is responsible for taking decision as to which crops to sow and when or taking the risks of cultivation.

Q. 10 Household Industry

A Household industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Household industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

Q. 11 Doing work other than 8, 9 or 10

Nature of work (occupation) is the exact function that a person performs in the economic sector in which he/she is engaged. This information was to be filled in Q. 10(a) or 11(a) of the individual slips. The 'industry' means that sector of economic activity in which the earner is engaged, and the name of that industry was recorded according to the name of the principal article produced, serviced or repaired. Specific instructions were given to record replies to Q. 11(a) and 11(b) as under:—

(1) In the case of married or grown up women who do any of the work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cow dung cakes, grass, etc., in addition to the usual household duties, such duties were fully described and 'HW' written in brackets after the full description.

(2) If a person makes the articles he sells, he was treated as maker and seller of them.

(3) The vague terms like scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher, etc., were not written.

(4) For labourers accustomed to work on various jobs, 'general labourer' was mentioned.

(5) Machine Operator.

The kind of machine used with its recognised name was given.

(6) Shop-keepers, Retail Dealers, Shop Assistants.

If a person was mainly engaged in selling, 'Dealer' was written and if assisting 'Shop Assistant' or 'Salesman' was written. 'Wholesale' and 'Retail' was stated when the business was carried on in wholesale or in retail.

(7) The nature of transport was fully mentioned like air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by bullock, camel, etc.

(8) For a person engaged in Defence services, 'service of Central Government' was written.

(9) Domestic Services.

In the case of any private servant, e.g., a cook or domestic servant, 'private or domestic servant' only was written. There was no industry in their case but in cases of persons employed in hotels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., were added.

Status of economically active persons

Economically active persons were divided into 4 classes: (1) Employer, (2) Employee, (3) Single worker and (4) Family worker.

An 'employer' is that person who hires one or more persons in his work.

An 'employee' is that person who works under others for wages or salary in cash or kind.

A 'single worker' is that person who does his work without employing others except casually and without the help of the other members of the family except casually.

A 'family worker' is that person who is doing his work in own family without wages or salary in cash or kind.

Thus one more status of economically active person, viz., family worker is added against only first three in the previous census of 1951.

Q. 12 Activity, if not working

A person who is not working has been classified as non-worker. Non-workers are distributed separately according to eight types of activities already noticed above.

(i) General Economic Tables

There are in all 24 Economic Tables compiled in B–Series—16 General Economic Tables compiled from individual enumeration slips and 8 Household Economic Tables from household schedules on 20% sample basis. Out of the 16 General Economic Tables, the District Handbook reproduces the following 12.

B-I—Workers and Non-workers classified by sex and broad age-groups

Table B-I is the basic economic table furnishing the total population and 9 industrial categories of workers and non-workers. The data is presented for the district with total/rural/urban break-up.

The classification of workers and non-workers by broad age-groups, viz., 0-14, 15-34, 35-59 and 60 and above, is the special feature of 1961 census as these age-groups correspond to the different stages of life

which have a special significance as regards capacity to work, viz., children, young persons, middle aged persons and old persons.

TABLE B-III-A AND B—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

This table which corresponds to the Table D-VII of 1951 is given in two parts—A & B. Part-A relates to the urban areas and Part-B relates to rural areas. The data in Part-A are presented for the district and that in Part-B down to taluka/mahal for rural areas.

In 1951, only literate and educated persons were classified into eight educational standards by 8 livelihood classes. No classification of illiterate persons into 8 livelihood classes was given in 1951; whereas in this Table, nine categories of workers and also non-workers are given for illiterates as well as for literates.

Non-technical diplomas and degrees have this time been distinguished from technical diplomas and degrees and separate information given also for each technical degree.

TABLE B-IV—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK OTHER THAN CULTIVATION

This table corresponds to table B-III of 1951. It has been presented in three parts on the basis of the principal work of the persons. Part-A relates to persons at work in Household Industry, classified by branch of industry and class of workers (employee and others). Figures for the district are given for Divisions and Major groups for total/rural/urban and those for taluka/mahal for Divisions and rural areas only. Part-B pertains to persons at work in non-household industry, trade, business, profession or service, classified by branch of industry and class of workers (Employer, Employee, Single worker and Family worker). Figures for the district are given for Divisions and Major groups for total/urban and those for taluka/mahal figures for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the Villagewise List of Industrial Establishments. Part-C relates to persons at work at household as well as in non-household industry classified by branch of industry. Figures for the district are given for Divisions, Major groups and Minor groups with descriptions for total/urban and those for taluka/mahal for Divisions only and rural areas only.

Table B-III of 1951 furnished figures of self-supporting persons only whereas in this table all the persons who work including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance are included as workers. In 1951, there were three classes of workers, viz., Employer, Employee and Independent workers whereas in this table, workers are classified in four categories, viz., Employer, Employee, Single worker and Family worker, the definitions of which are already given before.

Appendix to Part-C shows in run on lines Minor Groups with the number of male and female workers separately for household industry and non-household industry in brackets having less than 1% of workers of the respective Division (0.5% for Divisions 2 & 3 combined) which are omitted from the table.

TABLE B-V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

This is a new table in which cross-tabulation of industry and occupation has been made for the first time. Figures for the district are given by Divisions, Groups and Families for total/urban and for taluka/mahal by Divisions only for rural areas.

Separate data are furnished for the persons working in household industry and other industrial categories as adopted in the Primary Census Abstract alongwith the Divisions, Groups and Families giving code numbers and actual description. The National Classification of occupation followed in this table is in conformity with international usuage.

Appendix to this table shows in run on lines, families with the number of male and female workers followed by industrial categories having less than 1% of workers of the respective Division (0.5% for Divisions 7 & 8 combined) which are omitted from the main table.

While applying quality checks, some occupations appeared to have been classified under inappropriate industrial categories vis-a-vis the occupations or the nature of work done by persons in economic sector of their activity. Such cases are listed in the annexure to the table, indicating the appropriate industrial category in which they deserve to be classified.

TABLE B-VII PART-A—PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS, (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY, (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

TABLE B-VII PART-B—INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

In this table figures are presented for the district for Divisions and Major groups with total/rural/urban break-up and those for taluka/mahal for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the Villagewise List of Industrial Establishments.

In a similar table B-II of 1951, there was cross-tabulation of self-supporting persons and earning dependents with reference to the secondary means of livelihood which was confined to 8 livelihood classes, while this table affords cross-tabulation between principal work in cultivation and household industry or *vice versa*.

Appendix to Table B-VII-A shows in run on lines Major Groups of household industry having secondary work, which are omitted from the table being less than 5% of major groups as principal work followed in each case by the number of industrial categories and number of males and females having secondary work separately for total/rural and urban population in brackets.

TABLE B-VIII PART-A—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN URBAN AREAS ONLY

TABLE B-VIII-PART-B—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX AND EDUCATIONAL LEVELS IN RURAL AREAS ONLY

This is a new table prepared for the first time in 1961. It is in two parts. Part-A relates to urban areas and is presented for district. Part-B relates to rural areas and is presented down to taluka/mahal.

The classification of unemployed persons is shown separately for (i) those who are seeking employment for the first time and (ii) for those who were employed before but are now out of employment and seeking work. The age-groups given in the first case are quinquennial, viz., 15-19, 20-24, 25-29, 30-34 and 35+ modified in the second case as 15-19, 20-24, 25-34, 35-44, 45-59 and 60+.

In Part-A relating to urban areas information for unemployed persons is furnished for all educational levels, and in Part-B for educational levels upto matriculation and above.

TABLE B-IX—PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

This is a new table introduced for the first time. The table is presented for district with total/rural/urban break-up and for taluka/mahal for rural areas only. It classifies non-working population into 8 types of activities based on the recommendation of the United Nations Organisation. They are:—

1 Full time students

2 Persons performing household duties without wages

3 Dependents, infants and disabled persons

4 Retired persons, rentiers or persons of independent means

5 Beggars, vagrants, etc.

6 Inmates of penal, mental and charitable institutions

7 Persons seeking employment for the first time

8 Persons employed before, but now out of employment and seeking work

(ii) Household Economic Tables

Out of the 8 Household Economic Tables compiled at this census, 4 tables which are reproduced in the District Handbook are:—

Table B-X—Sample Households (i) engaged neither in cultivation nor household industry, (ii) engaged either in cultivation or household industry but not in both and (iii) engaged both in cultivation and household industry

(Based on 20% Sample)

This table is prepared for total, rural and urban for the district and for rural areas only for taluka/mahal.

Cultivation includes ownership, tenancy cultivation and agricultural labour. Household industry has been defined in the general note above.

Table B-XI—Sample Households engaged in cultivation classified by interest in land and size of land cultivated in Rural and Urban areas separately

(Based on 20% Sample)

For rural areas the data has been given down to taluka/mahal while that for urban areas has been given only for the district as a whole.

This table gives very useful data on the size of holdings and affords a cross-tabulation of names of local rights over land (interest), viz., (a) owned or held from Government, (b) held from private persons or institutions, (c) partly held from Government and partly from private persons, and size of holding, viz., less than 1; 1.0-2.4; 2.5-4.9; 5.0-7.4; 7.5-9.9; 10.0-12.4; 12.5-14.9; 15.0-29.9; 30.0-49.9, 50+ and unspecified.

Table B-XII—Sample households engaged in cultivation only classified by size of land cultivated and number of family workers and hired workers in Rural and Urban areas separately

(Based on 20% Sample)

For rural areas the data has been given down to taluka/mahal and that for urban area for the district as a whole. The information for households that are engaged only in cultivation has been cross-tabulated by number of persons engaged in cultivation and each prescribed size class of holding. Working strength in cultivation is further separated into family workers and hired workers when more than 1 person is engaged in cultivation.

Table B-XVI—Sample Principal Household industry classified by period of working and total number of workers engaged in household industry in all areas

(Based on 20% Sample)

This table is presented for the district with total/rural/urban break-up. The data in respect of households engaged in household industry only or both in household industry and cultivation has been given separately with the Divisions and Major groups of household industry. The household industry has been classified according to the period of working viz.,

1-3 months, 4-6 months, 7-9 months, 10 months to one year. Under each duration period number of households, number of family workers and number of hired workers have also been given.

Appendix to this table shows in run on manner Major groups of household industry which are omitted from the table being less than 10% of the respective Division, giving the number of major groups, with or without cultivation, with period of working in abbreviation and the number of households in brackets separately for total, rural and urban.

TABLE B-XVII —SAMPLE HOUSEHOLDS CLASSIFIED BY (i) NUMBER OF MALE AND FEMALE MEMBERS BY SIZE OF HOUSEHOLDS AND (ii) ENGAGEMENT (a) NEITHER IN CULTIVATION NOR IN INDUSTRY, (b) IN HOUSEHOLD INDUSTRY ONLY AND (c) IN CULTIVATION SUB-CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

The table is presented down to district and gives data for total/rural/urban. It is intended to give family sizes distributed according to single member, small, medium, large and very large families. Though a 'Census Household' is not the same as a 'family' and also includes unrelated persons living with the family during the census count, the table will give a general idea of the sizes of families as the number of families having outsiders is quite insignificant.

The table gives such economic data as (i) Households engaged neither in cultivation nor household industry, (ii) Households engaged in household industry only and (iii) Households engaged in cultivation by size of holding groups with the break-up of sample households into (i) Single member, (ii) 2-3 members, (iii) 4-6 members, (iv) 7-9 members and (v) 10 members and over.

Since the table is based on 20% sample, total number of households and household population are given in the following statement:—

Total Number of Households and Household Population

District	Total Rural Urban	Total No. of households	Total household Population		
			Persons	Males	Females
1	2	3	4	5	6
Baroda	Total	286,089	1,527,326	801,026	726,300

TABLE B-IV PART-C

B-IV PART-C—INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR

Branch of Industry			Total Workers		
			Total		
Division, Major group & Minor group of I. S. I. C.			Persons	Males	Females
		1	2	3	4
Minor Group	280	Sawing and planing of wood	390	385	5
	281	Manufacture of wooden furniture and fixtures	791	786	5
	282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	1,482	1,479	3
	288	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	1,209	612	597
	289	Manufacture of other wood and allied products not covered above	613	612	1
Major Group	29	Paper and Paper Products	110	85	25
	30	Printing and Publishing	1,184	1,165	19
Minor Group	300	Printing and publishing of newspapers and periodicals	443	435	8
	301	Printing and publishing of books	430	423	7
Major Group	31	Leather and Leather Products	1,418	1,366	52
Minor Group	311	Manufacture of shoes and other leather footwear	963	943	20
Major Group	32	Rubber, Petroleum and Coal Products	502	492	10
Minor Group	322	Manufacture of Rubber goods Used for Industrial purpose	331	330	1
Major Group	33	Chemicals and Chemical Products	5,515	5,441	74
Minor Group	330	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	784	774	10
	335	Manufacture of medicines, pharmaceutical, preparations, perfumes, cosmetics and other toilet preparations except soap	3,786	3,743	43
	339	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	605	596	9
Major Group	34-35	Non-metallic Mineral Products other than Petroleum and Coal	5,044	3,753	1,291
Minor Group	340	Manufacture of structural clay products such as bricks, tiles	1,535	977	558
	350	Manufacture of earthenware and earthen pottery	1,838	1,236	602
	354	Manufacture of glass apparatus	269	262	7
	357	Manufacture of glass and glass products except optical and photographic lenses and glass, products covered above	675	640	35
Major Group	36	Basic Metals and their Products except Machinery and Transport Equipment.	4,055	3,915	140
Minor Group	360	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	669	661	8
	364	Manufacture of iron and steel furniture	282	280	2
	368	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	481	477	4
	369	Manufacture of sundry hardwares such as G. I. pipe, wirenet, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37 38 and 39)	2,177	2,057	120
Major Group	37	Machinery (All kinds other than Transport) and Electrical equipment	1,274	1,268	6
Minor Group	370	Manufacture and assembling of machinery (other than electrical) except textile machinery	389	387	2
	374	Manufacture of heavy electrical machinery and equipment such as motors, generators trans-formers	318	315	3
Major Group	38	Transport Equipment	1,407	1,401	6
Minor Group	380	Manufacture, assembly and repairing of locomotives	339	337	2
	384	Repairing and servicing of motor vehicles	488	487	1
	388	Repairing of bicycles and tricycles	464	461	3
Major Group	39	Misellaneous Manufacturing Industries	3,008	2,950	58
Minor Group	390	Manufacture of optical instruments and lenses, opthalmic goods and photographic euipment and supplies	340	338	2
	393	Manufacture of jewellery, silverware and wares using gold and other precious metals.	1,477	1,467	10
	399	Manufacture and repair work of goods not assignable to any other group	939	898	41

B-IV PART-C—INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR

Branch of Industry			Total Workers		
			Total		
Division, Major group & Minor group of I. S. I. C.			Persons	Males	Females
		1	2	3	4
**Division 4*		*Construction*	*4,159*	*3,663*	*496*
Major Group	40	Construction	4,159	3,663	496
Minor Group	400	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical & sanitary installations	3,238	2,888	350
	401	Construction and maintenance of roads, railways, bridges, tunnels	707	581	126
	403	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, well	200	180	20
Division 5		*Electricity, Gas, water and Sanitary Services*	*919*	*883*	*36*
Major Group	50	Electricity and Gas	805	776	29
Minor Group	500	Generation and transmission of electric energy	545	517	28
	501	Distribution of electric energry	248	247	1
	502	Manufacture of gas in gas works and distribution to domestic and industrial consumers	12	12	..
Major Group	51	Water Supply and Sanitary Services	114	107	7
Minor Group	510	Collection, purification and distribution of water to domestic and industrial consumers	70	63	7
	511	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	44	44	..
**Division 6*		*Trade and Commerce*	*27,878*	*26,184*	*1,694*
Major Group	60–63	Wholesale Trade	1,410	1,368	42
Minor Group	600	Wholesale trading in cereals and pulses	427	422	5
	601	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish,dairy products, eggs, poultry and other food stuff (not covered elsewhere)	284	266	18
Major Group	64–68	Retail Trade	24,711	23,092	1,619
Minor Group	640	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices oil, fish, dairy products, eggs, poultry	11,579	10,565	1,014
	641	Retail trading in beverages such as tea (leaf), coffee (Seed and powder), aerated water.	335	332	3
	644	Retail trading in tobacco, bidi, cigarettes and other tobacco products	1,452	1,434	18
	645	Retail trading in fuel such as coke, coal, firewood and kerosene	573	531	42
	646	Retail trading in food stuffs like sweetmeat condiments, cakes biscuits, etc.	1,033	994	39
	647	Retail trading in animals	363	359	4
	650	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piece goods of cotton, wool, silk and other textiles)	2,851	2,799	52
	652	Retail trading in medicines and chemicals	346	342	4
	661	Retail trading in stationery goods and paper	304	300	4
	662	Retail trading in metal, porcelain and glass utensils.	443	434	9
	664	Retail trading in other household equipment not covered above	815	759	56
	671	Retail trading in hardware and sanitary equipment	295	290	5
	684	Retail trading in clock and watch, eye glass, frame	400	359	41
	686	Retail trading in precious stones and jewellery	284	283	1
	689	Retail trading in goods unspecified	1,932	1,677	255
Major Group	69	Trade and Commerce Miscellaneous	17,57	1,724	33
Minor Group	695	Banking and similar type of financial operation	872	864	8
	699	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	407	396	11

APPENDIX

Minor Groups having less than 1% of workers of the respective division and less than 0.5% in case of Minor Groups of division 2 & 3 only have been shown in this Appendix. The following abbreviations have been used:-- 'HI' for Household Industry, 'NHI' for Non-household Industry, 'M' for Males and 'F' for Females.

APPENDIX

Families having less than 1% of the workers of the respective divisions (less than 0.5% in case of Division 7-8) have been shown in this appendix. The following abbreviations have been used:—

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities
IV At Household Industry
V In Manufacturing other than Household Industry
M=Males
VI In Construction
VII In Trade and Commerce
VIII In Transport, Storage and Communications
IX In Other Services
F=Females

APPENDIX

Major groups of household industry where persons having secondary work as cultivation or agricultural labour, are less than 5 % of the persons having the major group as principal work, have been shown in this appendix. The following abbreviations have been used:-

I—As Cultivator
II—As Agricultural Labourer
M=Males
F=Females

27 Total I (M68,F3) II (M17,F2), Rural I (M66,F3) II (M17,F2), Urban I (M2); 39 Total I (M17), Rural I (M10), Urban I (M7).

APPENDIX

Major groups of Household Industry which are less than 10 per cent of the respective divisions have not been shown in the main table which shows such divisions by an asterisk. Major groups thus dropped from the main table are given run on in this Appendix. The figure preceding the bracket represents the code number of the major group dropped from the Table. Alphabets given in brackets are abbreviations meant for different ranges of period of working in the Household Industries 'with' or 'without' cultivation as explained be'ow. The numerical figure given after alphabet denotes the number of households in that particular range indicated by that alphabet.

Abbreviation			Class Range of Period of Working	Abbreviation			Class Range of Period of Working
A	means	with cultivation	1 to 3 months	E	means	without cultivation	1 to 3 months
B	,,	,,	4 to 6 ,,	F	,,	,,	4 to 6 ,,
C	,,	,,	7 to 9 ,,	G	,,	,,	7 to 9 ,,
D	,,	,,	10 months to 1 year	H	,,	,,	10 months to 1 year
X	,,	,,	Unspecified months	Y	,,	,,	Unspecified months

For example:- District Baroda-Rural 20 (B-6, C-1, E-1, X-1, Y-4)

Figure 20 stands for major group 20 relating to "foodstuffs", B-6 means that there are 6 households working in the class range of '4 to 6 months' in the household industry with cultivation. C-1 means that there is 1 household working in the class range of '7 to 9 months' in the household industry with cultivation and E-1 means that there is 1 household working in the class range of "1 to 3 months" in the household industry without cultivation; X-1 means that there is one household working for "unspecified months" in the Household Industry with cultivation and Y-4 means that there are 4 households working for "unspecified months" in the household industry without cultivation in the 'foodstuffs' industry in the rural areas of Baroda District.

C-SOCIAL AND CULTURAL TABLES

This series contains 8 tables of which Table C-I has been prepared from Household Schedules, on the basis of 20 per cent sample. It gives information about composition of sample households according to marital status. All the other tables in this series are based on full count and give age, sex and education, separately for rural and urban areas, single year age returns, mother tongue in alphabetical order, religion and classification by literacy and industrial category of workers and non-workers among Scheduled Castes and Scheduled Tribes. All the tables of this series except Table C-VI have been reproduced in the District Census Handbook.

Table C-I—Composition of Sample Households by Relationship to Head of Family Classified by Size of Land Cultivated

(Based on 20% Sample)

The table is prepared from Part II Census Population Record of the Household Schedules for total, rural and urban areas of the district. A household means the entire groups of persons who commonly live together in the same census house and usually take their meals from a common mess. It thus includes outsiders residing with the family during enumeration. This table, therefore, gives the composition of a household by family and non-family member. Besides, the heads of the households and their spouses, other family members like married sons and other relations are given separately by sex and marital status.

Table C-II—Age and Marital Status

This table is presented for the district with rural/urban break-up while those for taluka/mahal for rural areas only. It corresponds to Table C-III of 1951 which was prepared on a 10% sample of the slips taken out at the time of initial stage of sorting, while this table is prepared on full count according to the quinquennial age-groups recommended by United Nations Organisation. In Table C-III of 1951 there were 3 categories of marital status, viz., unmarried, married and Divorced/Separated, whereas in this table are given five categories of marital status, viz., (1) never married (2) married, (3) widowed, (4) divorced/separated and (5) unspecified. In 1951, the information regarding widowed or divorced was given jointly, whereas these two types of marital status are compiled separately this time.

Colomns 14 and 15 relating to unspecified status have been deleted from the table. Such person is 1 male returned from urban areas.

Table C-III—Age, Sex and Education

It corresponds to Table C-IV of 1951 which was prepared on 10% sample. This table is prepared on full count this time and is presented in two parts–A and B for the district. In Part-A broad educational levels upto matriculation and above are given for all areas. In Part-B educational levels are given in details with technical and non-technical diplomas, university degrees and technical degrees in urban areas only. In 1951, only sum total of all literate and illiterate persons was given, whereas in 1961, educational levels for literate persons are given in details.

Table C-IV—Single Year Age Returns

The Table is presented for district with total/rural/urban break-up.

It corresponds to Table C-V of 1951 Census which was prepared on 10% sample. This table has been prepared on full count in 1961. The age in years completed on 1st March, 1961 has been given but the infants who did not complete one year on 1-3-1961 have been shown under age group "0".

Table C-V—Mother Tongue

This table corresponds to Table D-I-(i) of 1951 in which languages and dialects as returned were shown in the descending order of number of speakers. This time all the languages as actually returned

are arranged in the alphabetical order with population, persons, males, females, for total, rural and urban areas for the district and for rural areas for taluka/mahal.

'Mother tongue' is the language spoken in childhood by the person's mother to the person or the language spoken in the household.

Table C-VII—Religion

It is prepared separately for total, rural and urban areas of the district and for rural areas of talukas and mahals. This Table corresponds to table D-II of 1951, in which the figures of religions other than the six main religions were grouped in the residuary category 'other religions', whereas in this table data are given for eight main religions only, viz., Budhist, Christian, Hindu, Jain, Muslim, Sikh and and persons returned as professing other religions, sects and beliefs which could not be classified under any of the religions have been grouped under "Other Religions and Persuasions."

Table C-VIII—Scheduled Castes and Scheduled Tribes

Part A—Classification by Literacy and Industrial Category of Workers and Non-workers Among Scheduled Castes

Part B—Classification by Literacy and Industrial Category of Workers and Non-workers Among Scheduled Tribes

This table is presented for the district with total/rural/urban break-up and for taluka/mahal for rural areas only.

In this table total population of Scheduled Castes/Scheduled Tribes and their distribution by nine industrial categories of workers and also non-workers adopted in the Primary Census Abstract are shown by literate and illiterate.

Part–A–relates to Scheduled Castes and Part–B–to Scheduled Tribes.

E—HOUSING TABLES

The present housing Census is the first of its kind in the history of the Indian Census organized on a uniform basis throughout the country alongwith the population Census of 1961. In the past censuses, house-listing was purely an administrative arrangement. Only residential houses were numbered and listed with the name of the head of the household. However, during 1961 Census a comprehensive house-list for collecting detailed information regarding each census house and industrial establishment formed part of the statutory census schedules. The house-list form brought into use during the current Census has recorded data on housing such as type of houses, tenure status, material of wall and roof, numbers of rooms in a census household and of presons residing therein as well as essential data relating to establishments, workshops and factroies, such as name of the establishment or propritor, name of products, number of persons working and the kind of fuel or power, if machinery is used.

The following five housing tables have been compiled from the house-lists:-

E-I—Census Houses and the uses to which they are put

E-II—Tenure Status of Sample Census households living in Census houses used wholly or partly as dwelling

E-III—Census houses used as factories and workshops classified by industry, power and no power used and size of employment

E-IV—Distribution of Sample households living in Census houses used wholly or partly as dwellings by predominant material of wall and predominant material of roof

E-V—Sample households classified by number of members and by number of rooms occupied

Out of the five tables stated above, Tables E-I and E-III have been prepared on full count and Tables E-II, IV and V on the basis of 20 per cent sampled households. For the purposes of drawing the sample, the house-lists were arranged separately in the order of location code numbers in case of (i) rural areas of a taluka/mahal and (ii) urban areas other than towns with population of 50,000 and over for a district, and (iii) for every town with a population of 50,000 and over. The samples were marked continuously for all the house-lists thus arranged and the households left over at the end of the house-list after marking the last sample were carried over to the next house-list for sample selection.

Tables E-I, E-II, E-IV and E-V are given in the District Census Handbook for the district, taluka and towns with a population of 50,000 and over. But the data regarding number of establishments contained in Table E-III are separaely compiled down to village and given in the Villagewise List of Industrial Establishments.

The explanatory note on each of the tables is given below:-

TABLE E-I—CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

Table E-I prepared on full count gives figures of census houses separaely for total, rural and urban areas of the districts, talukas, cities and towns with population of 50,000 and over, classified into different categories according to the uses to which they are put. Those found vacant at the time of house-listing have also been shown separately as such. The following are the various types of houses into which occupied houses have been classified:-

Dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, hotels, hostels, sarais, dharamshalas, tourist homes and inspection houses, shops excluding eating houses, business houses and offices, factories registered

under the Factories Act and worksheds and workshops not so registered, schools and other educational institutions including training classes, coaching and shop classes, restaurants, sweetmeat shops and eating places, places of entertainment and community gathering (Panchyat Ghar), public health and medical institutions, hospitals, health centres, doctor's clinics, dispensaries, etc.

Others

Occupied census houses which do not fall in any of the above categories have been classed as 'Others'.

With a view to understand the significance of statistics incorporated in E Series of Tables, the concepts and definitions of the terms occuring in the table are given below:-

Census house

"A Census house is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

Census household

"A household is a group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so."

Shop

"A shop is a place where articles are sold for cash or for credit."

Workshop

"A workshop is a place where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold, and is not a factory registered under the Factories Act."

Following are some of the instances:-

Paper-making, shoe-making, tailoring, cycle-repairing, motor-servicing, halwai's shop, pottery-making, goldsmith, blacksmith, etc.

Factory

"A factory is a large workshop which has been registered under the Indian Factories Act."

Business houses

Business houses are those premises where transactions in money or other articles are taking place. Detailed explanation of all these will be found in the Introductory Chapter of the Report on Housing and Establishments

TABLE E-II—TENURE STATUS OF SAMPLE CENSUS HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLINGS

This table has been prepared on the basis of 20 per cent sample. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, and dwellings with other uses have been taken into account for the purpose of marking the samples. Shop-*cum*-dwellings and workshop-*cum*-dwellings are census houses which are partly used for residential or dwelling purposes and partly used as a shop or workshop. The total number of households given in column 4 of this table gives the total of such samples classified into the aforementioned four categories of dwellings, which have been further classified according to their tenure status, whether owned or rented, for all the district, talukas and towns with population of 50,000 or mor as also for total/rural/urban.

TABLE E-IV—DISTRIBUTION OF SAMPLE HOUESHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING BY PREDOMINANT MATERIAL OF WALL AND PREDOMINANT MATERIAL OF ROOF

This table has been prepared on 20 per cent sample basis. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the sample. The total number of houses given in column 3 of this table gives the totals of all such sampled households. The material out of which most of the walls are made or where a house consists of separate structures, each of different materials, the material out of which the walls of the main bedrooms are made has been entered. The wall material has been classified into the following nine categories:-

(1) Grass, leaves, reeds or bamboo
(2) Timber
(3) Mud
(4) Unburnt bricks
(5) Burnt bricks
(6) C. I. Sheets or othar metal sheets
(7) Stone
(8) Cement concrete
(9) All other material

The material out of which most of the outer roof expesed to the weather and not the ceiling is made, i.e., tiles, thatch, corrugated iron, zinc or asbestos cement sheets or concrete, etc., or in the case of multi-storeyed building, the material out of which the intermediate floor or floors have been made, have been entered and classified into the following seven categories:-

(1) Grass, leaves, reeds, thatch, wood or bamboo
(2) Tiles, slate, shingle
(3) Corrugated iron, zinc or other metal sheets
(4) Asbestos cement sheets
(5) Brick and lime
(6) Concrete and stone slabs
(7) All other material

This table has been prepared for the district, talukas and cities and towns with population of 50,000 or more, as also for total/rural/urban.

TABLE E-V-SAMPLE HOUSEHOLDS CLASSIFIED BY NUMBER OF MEMBERS AND BY NUMBER OF ROOMS OCCUPIED

This table has been prepared on 20 per cent sample basis. Census Households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the samples. The figures given in Column 3 of this table are the totals of all such sampled households. The sex break-up of the total number of members occupying such sampled households as also the total number of rooms in these households are shown separately. All the sampled households have been further classified into the following six categories:—

(i) no regular room
(ii) one room
(iii) two rooms
(iv) three rooms
(v) four rooms
(vi) five rooms or more

The classification of households into the above categories gives not only the number of households in each category, but also the number of occupants by sex. The units for which this table has been compiled are district, talukas and cities and towns with population of 50,000 or more, as also total/rural/urban.

SCT—SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

No special tables were prepared for Scheduled Castes and Scheduled Tribes in 1951. The only information that Table D-III of 1951 furnished was the aggregate strength of Scheduled Castes and Tribes for the district and certain arbitrary groups of talukas. In view, however, of the special safeguards provided for these classes under the Constitution, it was felt that a more detailed tabulation of the census data will furnish the basis necessary for the evaluation of the results of the various schemes implemented by the State under the Five Year Plans as also for the formulation of new ones. Special tables for Scheduled Castes and Scheduled Tribes have, therefore, been devised and presented in a separate series called SCT/SC/ST series.

The table reproduced from this series is SCT-I-Parts A & B, giving industrial classification of persons at work and non-workers by sex for Scheduled Castes and Scheduled Tribes. Total figures of Scheduled Castes and Scheduled Tribes have also been given for each village in the Village Directory.

Total population of Scheduled Castes and Scheduled Tribes for taluka/mahal with total/rural/urban break-up is given in Statements A and B.

SCT-I PART-A—INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES

Sl. No.	Name of Scheduled Caste	Total			Total Workers		Workers I: As Cultivator		Workers II: As Agricultural labourer		Workers III: In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting, Plantations, Orchards and Allied activities		Workers IV: At Household Industry		Workers V: In Manufacturing other than household Industry

VILLAGE-WISE LIST OF INDUSTRIAL ESTABLISHMENTS

This table gives important information about the total number of industrial establishments arranged in ascending order of minor groups of industries. It is compiled from the house-lists and presented in run on manner. Under the name of the district are arranged minor groups of industries showing total number of industrial establishments within brackets next to each minor group separately for total, rural and urban. The figures for taluka/mahal are likewise arranged separately for total/rural/urban. Then follows a list of villages in the order of the location code number given in the Village Directory, showing against each village minor group or groups of industries found in the village with the number of establishments shown within brackets against each minor group. Figures for towns are also shown separately in the same manner.

Industrial establishments have been classified according to the minor groups of industries given in the Standard Industrial Classification adopted by the Government of India reproduced in the Annexure. This will enable the reader to identify the industry to which a particular minor group relates.

ANNEXURE

Standard Industrial Classification

Division 0-Agriculture, livestock, forestry, fishnig and hunting

Major Group (Code)	Description	Minor Group (Code)
1	2	3
04	*Livetsock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	Division 2&3—Maunfacturing—	
20	*Foodstuffs—*	
	Production of rice, atta, flour, etc., by milling dehusking and processing of crops and food-grains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugar cane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages—*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211

Division 2&3 Manufacturing-contd.

Major Group (Code)	Description	Minor Group (Code)
1	2	3
21	*Beverages-contd.*	
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	*Tabacco Products—*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	*Textile-Cotton*	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile-Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	*Textile-Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254

ANNEXURE-*contd.*

Standard Industrial Classification-*contd.*

Division 2&3 Manufacturing-contd.

Major Group (Code)	Description	Minor Group (Code)
1	2	3
25	*Textile–Wool*-contd.	
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile–Silk–*	
	Spinning and weaving of silk textile in mill	260
	Dying and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	*Textile–Miscellaneous—*	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	*Manufacture of Wood and Wooden Products—*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285

Division 2&3 Manufacturing-contd.

Major Group (Code)	Description	Minor Group (Code)
1	2	3
28	*Manufacture of Wood and Wooden Products*-contd.	
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	*Paper and Paper Products—*	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	*Printing and Publishing—*	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products–*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather foot-wear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315

ANNEXURE-*contd.*

Standard Industrial Classification-*contd.*

Division 2&3 Manufacturing-contd.

Major Group (Code)	Description	Minor Group (Code)
1	2	3
32	*Rubber, Petroleum and Coal Products—*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	*Chemicals and Chemical Products—*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34	*Non-metallic Mineral Products other than Petroleum and Coal—*	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344

Division 2&3 Manufacturing-contd.

Major Group (Code)	Description	Minor Group (Code)
1	2	3
34	*Non-metallic Mineral Products other than Petroleum and Coal*-contd.	
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	*Manufacture of earthenware and earthen Pottery*	*350*
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bengles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	*Basic Metals and their Products except Machinery and Transport Equipment—*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	369

1	2	3
37	*Machinery (All kinds other than Transport) and Electrtcal Equipment*—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio,microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	*Transport Equipment*—	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382

Division 2&3 Manufacturing-concld.

Major Group (Code)	Description	Major Group (Code)
1	2	3
38	*Transport Equipment*-contd.	
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*—	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399

LIST OF RURAL CRAFTS AND NUMBER OF PERSONS EMPLOYED IN PRODUCTION

The handicraft table is a new feature introduced in the District Census Handbook, in 1961 Census. A detailed handicraft survey has been under taken as a part of the censal programme. In States like Gujarat where the survey was conducted for selected crafts in selected centres, and not in each and every village, this handicraft table was to be compiled from the house-lists or the village notes. Accordingly, the information for this table was extracted from the house-lists adopting a 4 digit code for household industries circulated by Registrar General, India. The definition of household industry presented a problem, which was solved by including, on an *ad hoc* basis, household industries having less than 5 workers for this purpose.

The table shows the number of villages/towns in which particular crafts are practised and number of persons engaged therein. The data are compiled separately for the rural and urban areas of each taluka/mahal, for each city or town in the district and consolidated for rural and urban areas of the district. Where there is only one city/town in a taluka/mahal, the data for the urban areas are given for the city/town as they are same for taluka/mahal.

URBAN

LIST OF RURAL CRAFTS AND NUMBER OF PERSONS EMPLOYED IN PRODUCTION

Major/Minor Group Industrial Code No.	Name of Craft	No. of Towns	No. of persons employed in production
1	2	3	4
	BARODA DISTRICT*		
Major Gr. 20	*Foodstuffs*		*540*
Minor Gr. 200.1	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc.	8	325
200.3	Production of rice by milling, dehusking and processing of paddy by rice mill	2	33
200.4	Grinding of chillies, turmeric, etc.	1	2
202.4	Production of other indigenous products from sugar and jaggery, n.e.c.	1	1
205	Production of bread, biscuit, cake and other bakery products	2	57
207	Oil pressing ghani, kolhu or by small machines	5	37
209.1	Confectionery	1	2
209.2	Making of sweet-meats, laddu, peda, barphi, batasa, etc.	5	21
209.3	Sattu, bhunja, papar, barri, danauri, tilauri, sewai, apalam, etc.	1	1
209.6	Making of dalmot, chana-chur (jor) garam, rewari, etc.	4	28
209.7	Making of other food products for residuary snacks	2	33
Major Gr. 21	*Beverages*		*31*
Minor Gr. 214.2	Production of aerated water such as sodawater, lemonade, etc.	2	11
215	Production of ice.	2	19
216	Production of ice-cream, ice-candy or kulphimalai, milk-shake, etc.	1	1
Major Gr. 22	*Tobacco Products*		*49*
Minor Gr. 220	Manufacture of bidi	4	49

*The total number of towns in the district is 9.

OFFICIAL STATISTICS

LIST OF TABLES ON OFFICIAL STATISTICS

		Pages
1	RAINFALL AND TEMPERATURE:	
1.1	Maximum and Minimum Temperature, 1955 and 1957-1960 at Headquarters Station, Baroda	192
1.2	Monthly Rainfall, 1953-1956 and 1958-1960 at Headquarters Station, Baroda	192
2	VITAL STATISTICS:	
2.1	Birth and Death Rate based on Mid-year Population Estimates	193
2.2	Deaths from selected Causes, 1951, 1956 and 1960	194
3	AGRICULTURE:	
3.1	Land Utilization, 1956-57 and 1960-61	194
3.2	Area and Outturn of Principal Crops, 1950-51–1960-61	195–196
3.3	Irrigation Potential and Utilization	197
3.4	Area irrigated by Sources, 1950-51, 1955-56 and 1960-61	197
3.5	Area irrigated by Srops, 1950-51, 1955-56 and 1960-61	197
3.6	Progress under Agricultural Extension in Various Development Blocks upto 31-3-1961	198
4	LIVESTOCK:	
4.1	Livestock and Agricultural Implements, 1951, 1956 and 1961	199
5	CO-OPERATION:	
5.1	Number, Membership and Financial Position of Co-operative Banks and Societies, 1960-61	200
6	FISHERIES:	
6.1	Fishing centers, landing places and number of fishing boats according to size as on 31-3-1961	201
7	REGISTERED FACTORIES:	
7.1	Number and Type of Registered Factories showing Average Employment, 1961	201
8	ELECTRICITY:	
8.1	Installed Capacity of Electricity, 1950-51, 1955-56 and 1960-61	202
8.2	Consumption of Electricity according to purpose, 1950-51, 1955-56 and 1960-61	202
9	MEDICAL AND PUBLIC HEALTH:	
9.1	Number of Hospitals, Dispensaries and Patients treated in 1951 and 1961	203
9.2	List of Hospitals and Dispensaries, 1961	203
9.3	Public Health Activities, 1960-61	204
10	EDUCATION:	
10.1	Schools, Scholars and Teachers in Primary Schools in Rural Areas of Baroda District, 1960-61	204
10.2	Literacy and Education in Rural Areas of Baroda District, 1960-61	205
10.3	Number and Type of Educational Institutions, Number of Pupils and Teachers, 1950-51, 1955-56 and 1960-61	205
10.4	Directory of High Schools and Colleges as on 31-3-1961	206
11	ADMINISTRATION:	
	(a) Police and Crimes:	
11.1	Strength of Police, 1960-61	206
11.2	Proportion of Area, Population and Cognizable Offences per Police, 1960–61	207
11.3	Criminal Justice, Offences reported, Persons tried, convicted or acquitted for Selected Offences, 1960-61	207
	(b) Jails:	
11.4	Jails, 1951, 1956 and 1961	208
	(c) Registration:	
11.5	Instruments registered and Value of Property transferred, 1951, 1956 and 1961	209
12	PLACES OF PUBLIC ENTERTAINMENT, PRESSES AND JOURNALS:	
12.1	Newspapers published in Different Languages, 1950-51, 1955-56 and 1960-61	210
12.2	Printing Presses, 1951, 1956 and 1961	210
12.3	Cinema Theatres, 1960-61	210
13	TRANSPORT AND COMMUNICATIONS:	
13.1	Railway Mileages and Names of Railway Stations, 1960-61	211
13.2	Road Mileages by Type of Surface and Category of Road, 1950-51, 1955-56 and 1960-61	211
14	LOCAL BODIES:	
14.1	Income and Expenditure of Municipalities, 1960-61	212
14.2	Income and Expenditure of District Local Board, 1950-51, 1955-56 and 1960-61	212
14.3	Income and Expenditure of Panchayats, 1950-51, 1955-56 and 1960-61	213
15	COMMUNITY DEVELOPMENT:	
15.1	Progress and Achievements of Community Development/National Extension Schemes Blocks upto year ending 31-3-1961	214
16	PRICES:	
16.1	Average Retail Prices of Staple Foodstuff, 1961	215
17	JOINT STOCK COMPANIES, BANKS, INSURANCE AND SMALL SAVINGS:	
	(a) Joint Stock Companies:	
17.1	Joint Stock Companies, 1960-61	215
	(b) Banking:	
17.2	Scheduled and Non-scheduled Banks, 1950, 1955 and 1960	215
17.3	Number and Type of Co-operative Banks, 1950-51, 1955-56 and 1960-61	216
	(c) Insurance	
17.4	Life Insurance Policies issued and sum insured, 1957 to 1960	216
	(d) Small Savings:	
17.5	Target and Net Collection of Small Savings, 1960-61	216
18	CALENDAR OF IMPORTANT EVENTS, FAIRS AND FESTIVALS AND ANCIENT MONUMENTS:	
18.1	Calendar of Important Events	216
18.2	Fairs and Festivals	217–221
18.3	Ancient Monuments	221

OFFICIAL STATISTICS

Departmental statistics collected from various sources, viz., Administrative Departments, State and Central, Reserve Bank of India, Life Insurance Corporation, Gujarat Electricity Board, etc., have been included in the District Census Handbook for the first time, and distributed under 18 different sections listed below:—

1 Rainfall & Temperature
2 Vital Statistics
3 Agriculture
4 Livestock
5 Co-operation
6 Fisheries
7 Factories
8 Electricity
9 Medical and Public Health
10 Education
11 Administration
12 Public Entertainment and Press and Journals
13 Transport and Communications
14 Local Bodies
15 Community Development
16 Prices
17 Joint Stock Companies, Insurance, Banks and Co-operative Societies
18 Important Events, Fairs and Festivals and Ancient Monuments

Uniform table numbers have been adopted in all the Handbooks. Wherever a particular table is not applicable to or could not be compiled for want of requisite information for any district, there will be a break in the sequence, owing to the omission of such a table from the Handbook.

To facilitate further reference, the source of the table as well as explanatory notes as to the units to which they refer and other particulars have been given at the foot of the table.

Abbreviations used are : N.A.=Not available; . .=Nil

TABLE 1.1

MAXIMUM AND MINIMUM TEMPERATURE, 1955 AND 1957-1960 AT HEADQUARTERS STATION, BARODA

[In Centigrade]

Note:

(a) U = Urban; R = Rural

(b) Number of births per 1,000 of the total mid-year estimated population is calculated on the population of the district as then constituted.

(c) Number of deaths per 1,000 of the same sex is calculated on the mid-year estimated population of the district as then constituted.

(d) The information regarding number of births and deaths for the years 1951-1960 is furnished for the district as then constituted and the population for the years 1951 to 1960 has been estimated on the basis of average during the decade 1951-1960.

(e) Birth and death rates for the decade 1951-1960 are average birth and death rates.

PART III

VILLAGE DIRECTORY

VILLAGE DIRECTORY

The Village Directory of 1961 Census is the same as the Primary Census Abstract given in the District Census Handbook of 1951 with the following additions and alterations :—

1. Information regarding Scheduled Castes and Scheduled Tribes which was given in 1951 by tracts of two to three talukas in a district has been given with sex break-up for each village.

2. The 8 livelihood classes of 1951 have been replaced by workers classified into the following nine industrial categories and also non-workers :—

I	Cultivator	V	Manufacturing other than Household Industry
II	Agricultural Labourer	VI	Construction
III	Mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities	VII	Trade and Commerce
		VIII	Transport, Storage and Communications
		IX	Other Services and
IV	Household Industry	X	Non-workers

3. Information on selected essential topics or amenities available in a village is also included.

Thus the Village Directory furnishes information on area in acres & gunthas, occupied houses, households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated and primary economic activity classified into above nine industrial categories and non-workers. This information is furnished for each village/ward of a town and also for each enumerator's block in a town, consisting of about 120 houses.

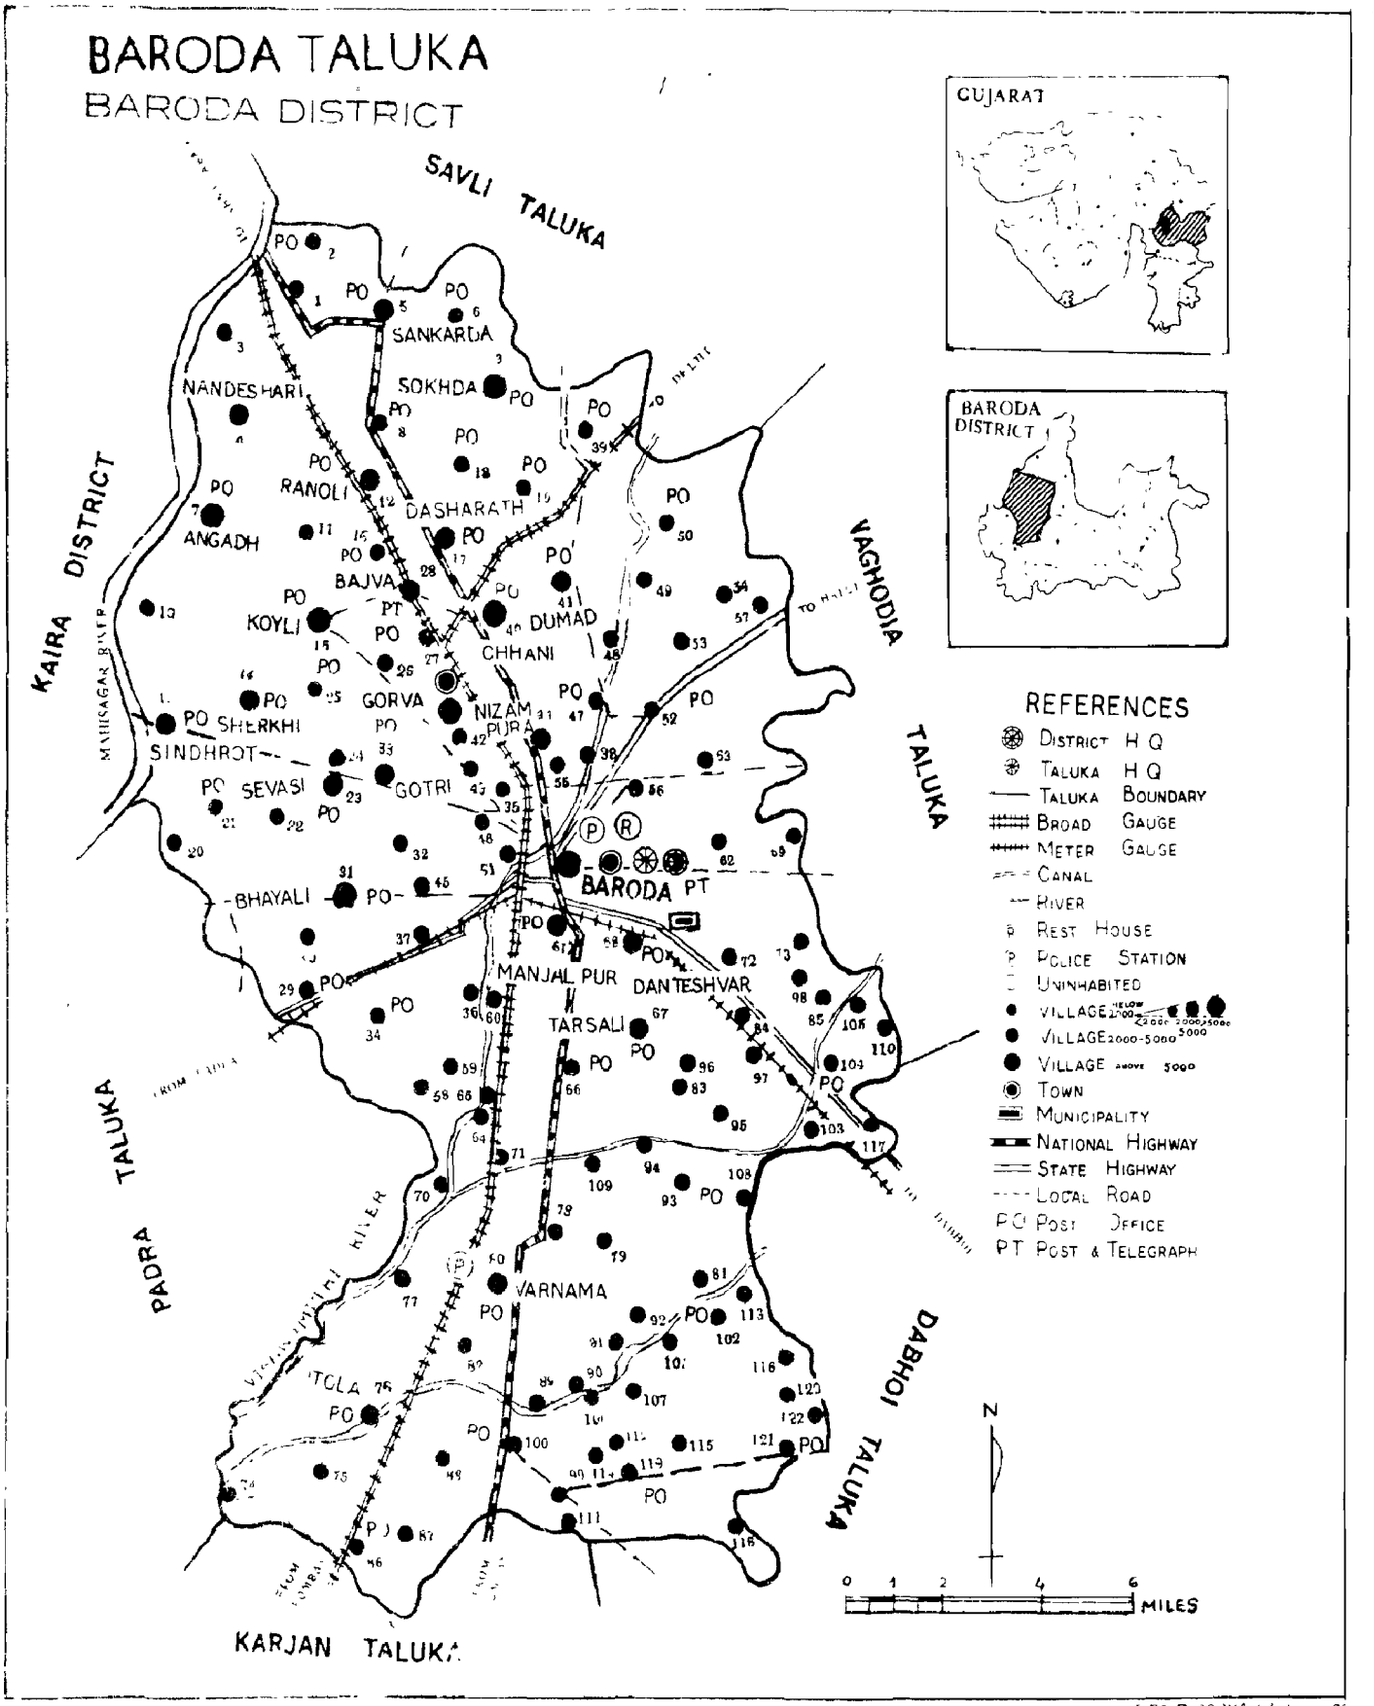

Like the Primary Census Abstract of 1951, the Village Directory gives area figures in Column 3 in acres as furnished by the Survey Department. While the figures of the number of houses and households given in Columns 4 and 5 have been compiled from the Household Schedules filled up for each household, information in Columns 6 to 36 has been compiled from the individual enumeration slips filled up during the course of census count. Information in Column 2 regarding Educational Institutions, Medical and Public Health facilities, Drinking Water facilities, Post & Telegraph Offices and Telephone facilities, and Rural Electricity has been collected from (*a*) the village notes specially devised for the purpose and filled in by Village Level Workers, Talaties and Panchayat Secretaries, and (*b*) the information supplied by the heads of the Departments concerned. The following abbreviations used in Column 2 signify the items shown against each:—

P	for	Primary School	S	for	Safe or Protected Water Supply including pipes, tube wells, etc.
M	for	Middle School			
H	for	High School	W	for	Well
C	for	Higher Institutions including Colleges	Riv	for	River
T	for	Technical Institutions	Tk	for	Tank
D	for	Dispensaries	Po	for	Post Office
Rhc	for	Rural Health Centre	To	for	Telegraph Office
Hos	for	Hospital	Tph	for	Telephone
Mp	for	Medical Practitioner	Ei	for	Electricity in Industrial use
Mcw	for	Maternity and Child Welfare Centre	Ea	for	Electricity in Agricultural use
			Ed	for	Electricity in Domestic use

The essential topics listed above have been presented run on against each village along with their number, where the amenities that exist are more than one. In other columns A=Acres, G=Gunthas, P=Persons, M=Males and F=Females.

In addition to a map for the district, taluka/mahal maps showing certain important information have also been prepared and placed at the commencement of the Village Directory for every taluka/mahal. In the taluka/mahal maps villages have been shown by their location code numbers asigned to them at the time of census operations and indicated against each village in the Alphabetical List of Villages given in the Handbook. Villages having population of 2,000 and above have been indicated by name. In the district maps Villages having 5,000 and more persons have been shown by names. Key maps given in the district and taluka maps show the positions of the district and taluka in hatches and black respectively.
