PREFACE

Before 1951, only the figures of population of revenue villages were given in what were then called 'Village Handbooks'. But the decision to bring out the District Census Handbooks giving extracts from all the important census tables for every district of the State was taken for the first time in 1951. In addition to the census tables, the minimum information given in the Primary Census Abstract related to the area of the village, number of houses and households, total population, houseless and institutional population, literates, and agricultural and non-agricultural classes distributed under 8 main livelihood classes. Census statistics given in the Primary Census Abstract were further supplemented by the addition of useful administrative information on such items as post offices, railway stations, distance of bazzar from village, primary schools, village panchayats, co-operative society, etc. This was a unique achievement of the Indian Census giving as it did the basic demographic and economic information for the smallest administrative unit, namely, the village, and in some States, even for each hamlet and also for wards in towns and cities. The 1951 series of District Census Handbooks, however, varied in content and size from State to State depending upon the resources offered by the State Government. The Registrar General, therefore, desired that the Handbooks brought out during the Census of 1961 should contain certain minimum statistical data, maps and other useful information which should be uniformly adopted throughout the country. The matter was discussed at the conferences and seminars of the Superintendents of Census Operations before the contents of the various sections of the District Census Handbooks were decided upon.

The Government of Gujarat at first proposed to include a very limited number of census tables in the District Census Handbook as against a very extensive and comprehensive coverage accepted for common adoption by the States. But on reviewing the matter on receipt of the recommendations of the third conference of Superintendents of Census Operations, the Government thought advisable to incorporate as many of the census tables as possible to enhance its usefulness. The result has been that the District Census Handbook of 1961 differs widely in the matter of content and coverage from that published after the Census of 1951 and contains a number of new features, examined below.

The District Census Handbook has been subdivided into three parts, viz. :—

PART I—THE DISTRICT

(i) Introductory Essay

(ii) Brief Gazetteer of Place Names

PART II—STATISTICS

(i) Census Tables

(ii) Villagewise List of Industrial Establishments

(iii) Handicrafts Tables

(iv) Departmental or Official Statistics

PART III—VILLAGE DIRECTORY

(i) Explanatory Note

(ii) Village Directory

(iii) Taluka Maps

Part I is entirely new. While all the items under Part II except that relating to the main census tables are added for the first time, the Village Directory Section has been enlarged by the inclusion of certain useful information and maps. Various items included in each of these three parts are listed below.

PART I—THE DISTRICT

(i) *Introductory Essay*

This is a new feature added for the first time. The district has been introduced by giving at the outset certain essential information about its geographical location, physical features, historical background, administrative divisions, territorial changes, topography, soil,

climate, temperature, rainfall, etc. Growth of population, its distribution between rural and urban areas, density, literacy, sex ratio, marital status, economic activities, etc., have been discussed with reference to census tables. Agriculture, livestock, social services, co-operation, transport and communications, facilities of education, medical relief, housing, labour, Community Development Programme, progress of Plan schemes, etc., have also been reviewed in the light of available official statistics. In fine, all the essential details relating to the demographic, economic, social and cultural aspects as revealed by the census and departmental statistics, have been examined to give a succinct account of the district as it stood in 1961.

(ii) *Brief Gazetteer of Place Names*

The gazetteer gives in brief information about all the places of historical or religious importance and interest in the district. While the historical background and other relevant details have been taken from the old District Gazetteers, information in respect of major irrigation projects, townships, crafts, fairs and festivals, etc., have been separately collected and brought up-to-date in consultation with the Collectors.

PART II—STATISTICS

Part II contains (a) all the important census tables including those compiled from House-lists and (b) Official Statistics, furnished by the various State departments.

Census Statistics

The statement that follows compares the number of tables compiled in different census series with those selected by Government for reproduction in the District Census Handbook.

Details of tables compiled in 1961 Census and reproduced in District Census Handbook

Series	Description	Total No. of tables compiled in 1961	Tables reproduced in District Census Handbook	
			Number	Particulars
1	2	3	4	5
A	General Population Tables . . .	4	3	A–I and its Appendices I, II & III with sub-Appendices 1 & 2, A–III and A–IV with Appendix I and Special Appendix
B	Economic Tables	17	12	
	(i) General Economic Tables . .	9	7	B–I, B-III Parts–A & B, B–IV–Parts A, B & C, B–V, B–VII–Parts A & B, B–VIII–Parts A & B and B–IX
	(ii) Household Economic Tables . .	8	5	B–X, B–XI, B–XII, B–XVI and B–XVII
C	Social and Cultural Tables . . .	8	7	C–I, C–II, C–III–Parts A & B, C–IV, C–V, C–VII, C–VIII–Parts A & B
D	Migration Tables	6	..	
E	Tables on Housing and Establishments	5	4	E–I, E–II, E–IV and E–V
	SCT/SC/ST/Special Tables on Scheduled Castes and Scheduled Tribes . .	8	1	SCT–I-Parts A & B

Note:

Two more tables have been specially compiled from House-lists, viz., (i) Villagewise List of Industrial Establishments and (ii) Handicrafts Tables.

Official Statistics

The picture the census statistics present will be incomplete without the official or departmental statistics reviewing the progress made by the various administrative departments during the past decennium. An attempt has, therefore, been made to compile important official statistics for publication in the District Census Handbook. These statistics which relate to the past ten years must be adjusted to the existing set-up of administration, if they are to be really useful and comparable. This, however, was not possible in spite of efforts to that effect. For, extensive changes in the territorial jurisdiction of districts and talukas have taken place during the last ten years, first as a result of integration in 1956 and then due to bifurcation of May 1, 1960 when Gujarat came into being as a separate political unit for the first time. Non-availability of the required data in case of most of the Princely States and Estates was another handicap. The task of compilation of official statistics was thus beset with innumerable difficulties. The proformae for the various statements numbering 49 as approved by Government and the Registrar General were circulated to all the concerned Heads of Departments as early as July 1961. In view of the importance of these statistics, the Government by circular letter No. CNS-1461-A2, dated the 27th July, 1961 addressed to all the Heads of Departments had also directed that official statistics called for by the Superintendent of Census Operations should be furnished within two months through the Director, Bureau of Economics and Statistics, after thorough scrutiny by some responsible officer of the department along with a certificate to the effect that the data furnished are up-to-date, complete and authentic in all particulars. The delay, however, caused in furnishing correct and complete information by the departments delayed final compilation and resulted in protracted correspondence to rectify the discrepancies and incompleteness noticed during the course of verification at the Bureau. Non-availability of the required information for the various administrative units as at present constituted was another obstacle. The progress had, therefore, to be reviewed from time to time in a series of meetings with the Director, Bureau of Economics and Statistics and representatives of the departments concerned. The offices from which information was not received had to be frequently reminded by the Director, the Census Department and at times even by the Chief Secretary. Some of the tables proposed to be included could not be inserted or had to be revised either for want of receipt of timely information or owing to the non-availability or incompleteness of the data furnished. Where data for individual years are not available, they have been collected for the years 1950-51, 1955-56 and 1960-61 which mark the commencement of the First, Second and Third Five Year Plans. Where statistics for these periods are not available, they are given only for the year 1960-61; and where the figures compiled are not available for the units as at present constituted, the clarification as to the unit to which they refer has been made in the footnote to the statements which also disclose the source of compilation.

PART III—VILLAGE DIRECTORY

The Village Directory or the Primary Census Abstract includes information regarding population, area, occupied houses, households, workers classified into nine industrial categories of workers and non-workers, Scheduled Castes and Scheduled Tribes, literates and educated, etc., for each village as well as for every ward and block of about 120 houses in each town. In addition, it gives information on certain essential amenities existing in the village such as educational facilities, public health and medical facilities, supply of drinking water, electricity and its uses, etc., by means of abbreviations placed against the name of each village. This additional information has been compiled from the special 'village notes' devised for the purpose and collected through the Block Development Officers. They relate to the position as it existed about March 1961.

The figures of population of Scheduled Castes and Scheduled Tribes were given in 1951 for certain arbitrary tracts formed by the grouping of talukas. The result was that the administration was seriously handicapped in the absence of relevant particulars for the various administrative units of a district which were required oft and on for planning and other purposes. This lacuna has been removed on the present occasion by giving figures of Scheduled Castes and Scheduled Tribes for each village in the Primary Census Abstract. The talukas and villages given in the Village Directory are arranged in the order of their location code numbers.

MAPS

The Village Directory is preceded by taluka maps showing villages by their location code numbers and dots varying according to the size of the village. Other items

such as district or taluka headquarters, railway, national highway, State highway, local roads, post office, post and telegraph, canal, river, rest-house, police station, etc., have been shown on the map with appropriate symbols. Two key maps, one for the State showing the district boundary and the position of the district in the State in hatching and the position of the taluka in the district in black and another key map for the district showing taluka boundary and the position of taluka in the district in hatching have also been included in the taluka map. In addition to taluka maps, a map of the district has also been given at the commencement of the Handbook showing the various items listed above for the taluka map and villages having population over 5,000. The key map given in the district map shows district boundary and the position of the district in the State in hatching.

The preparation of district and taluka maps and finalisation of area figures proved to be another handicap. The District Inspectors of Land Records had furnished tracings which had to be brought up-to-date in the light of changes in boundaries owing to integration on the one hand and bifurcation on the other. Frequent references and back references entered into at various levels, the Settlement Commissioner, Superintendents and District Inspectors of Land Records to remove the discrepancies and reconcile the inconsistencies noticed did not yield much result. The matter was, therefore, finally set at rest by calling a conference of Superintendents and District Inspectors of Land Records who did on-the-spot checking and verification and certified the correctness of the ultimate delimitation of boundaries and location of villages appearing in the taluka and district maps and accuracy of area figures entered in the Primary Census Abstract.

Paging

Each of the three parts of the District Census Handbook will have a separate series of page numbers starting with 1.

Alphabetical List of Villages

With a view to enable the reader to trace a village from the Village Directory, an alphabetical list of villages giving the names of villages and indicating their location code numbers, page number and serial number on the page at which they are printed has been given separately for each Taluka/Mahal at the commencement of the Handbook.

The Handbook

The contents of the District Census Handbook explained above have been finalised after frequent deliberations at various census conferences and seminars, and meticulous care as to their form, size and presentation. But these by themselves would not have been sufficient, had the Government not readily responded to the various suggestions made in this behalf. If I may say so, the Government had placed implicit faith in me, and accepted all the proposals made by me from time to time to add to the utility of this important compilation. It is hoped that the District Census Handbook in its present form will satisfy a growing demand for basic Census data by ultimate territorial units and other background information about the District and also prove to be a useful book of reference to the administrative departments and the public.

The Government of Gujarat has taken a further decision, namely, to print the District Census Handbook also in the regional language of the State, viz.. Gujarati. This will very much add to the utility of this publication. The Handbook in Gujarati will contain (i) Note introducing the district, (ii) Alphabetical list of villages, (iii) Census Tables A-I, A-III and SCT-I, (iv) Village Directory with explanatory note and (v) District and Taluka maps.

Acknowledgements

Help in the compilation of the District Census Handbooks has been forthcoming from various quarters, to all of whom I am deeply indebted. I, however, wish to express my thanks to Shri V. Isvaran and Shri V. L. Gidwani, Chief Secretaries to Government, and Shri M. G. Shah, Deputy Secretary, General Administration Department for all the facilities they have given in their preparation and publication of these Handbooks. I am also obliged to the Bureau of Economics and Statistics for the services rendered in the compilation of Official Statistics furnished by the Heads of Departments and the checking of the statistical data in the draft-notes for the Introductory Essays prepared by the District Statistical Officers. My thanks are also due to Shri H. V. Desai, Settlement Commissioner, Superintendents of Land Records and District Inspectors of Land Records for their assistance in the finalisation of area figures and verification of district and taluka maps.

Lastly I should place on record my gratitude to Shri Balwantray G. Mehta, Chief Minister of Gujarat, whose keen interest has to no small extent ensured the expeditious printing and publication of the District Census Handbooks.

Programme for the printing of District Census Handbooks has this time been very heavy indeed, more so as they are published both in Gujarati and English. The arrangements made by Shri B. A. Koreishi, Director, Government Printing and Stationery, and Shri G. J. Gonsalves, Deputy Director for the printing of the voluminous work pertaining to the District Census Handbooks at the various Government and local presses, are thankfully acknowledged. The excellent work turned out by the Government Photo-zincographic Press, Poona in printing district and taluka maps deserves special mention.

I would like to place on record the valuable contribution made by the members of the Census Organisation at various levels in bringing out the Handbook in its present form. Mention in particular should be made of Shri K. F. Patel, Deputy Superintendent of Census Operations, Shri J. D. Shah, Statistical Assistant, Shri H. S. Bhatt, in charge proof reading section and Shri K. D. Vaishnav and Shri L. S. Shrimali of draftsman section. Before I conclude I must pay tribute to the conscientious discharge of duties by the late Shri J. K. Patel, Special Mamlatdar whose services were placed by Government at the disposal of the Census Organisation, for supervising the printing of District Census Handbooks. It is a matter of great regret that his services were lost to us, as he was removed from our midst in the prime of his life owing to sudden heart failure.

Finally, the Registrar General has given such anxious thought and care since the inception of the Census Organization to ensure that the District Census Handbook which the Census of 1961 brings out is an up-to-date book of reference for the District by including all available useful data both census as well as official. I am grateful to him for the valuable suggestions made and guidance given by him in this important publication.

AHMEDABAD,
9th March, 1964.

R. K. TRIVEDI,
Superintendent of Census Operations,
Gujarat.

PART I

1 INTRODUCTORY ESSAY

2 GAZETTEER OF PLACE NAMES

INTRODUCTORY ESSAY

PANCHMAHALS DISTRICT

1 LOCATION AND PHYSICAL FEATURES

1.1 Boundaries and Natural Divisions

Panchmahals district is one of the districts on the eastern border of Gujarat forming part of Baroda Division. It lies roughly between 73¼° and 74½°E. longitude and 22¼° and 23½°N. latitude. It is bounded to the north by Sabarkantha district and Banswara district of Rajasthan State, to the west by Baroda and Kaira districts, to the south by Baroda district and Jhabua district of Madhya Pradesh and to the east by Jhabua district also of Madhya Pradesh. Its north-south length is about 80 miles and east-west breadth is about 72 miles.

1.2 Configuration

The district is for the most part a hilly tract covered by forests. The whole of northern and eastern portion comprising mainly of Jhalod, Dohad, Lunavada, Santrampur, Limkheda, Devgad Baria and Jambughoda talukas is covered by hills and forests intercepted by plain cultivated land in villages situated in the river valleys. The western part mainly comprising of Kalol and parts of Lunavada, Shehera, Godhra and Halol talukas, rises gradually to the east and is cut up by rivers and intercepted by hills of low altitude except the south where the altitude of Pavagadh peak rises to 2,700 feet above sea level.

1.3 Rivers

This district is very rich in water resources, as seven rivers, viz., the Mahi, the Goma, the Kuar, the Panam, the Karad, the Kali and the Misri pass through it. The Mahi is the biggest river of the district. It originates from Rajasthan, passes through this district from north-east to south-west and running through the neighbouring district of Kaira, finally meets the Gulf of Cambay.

1.4 Soil

The soil of the northern and eastern regions of the district comprising of the Santrampur, Jhalod, Limkheda, Devgad Baria and Jambughoda talukas and parts of Lunavada, Shehera, Godhra and Halol talukas is shallow, hilly and full of rocky tracts. It is black (deep). The soil of the remaining portion of the district adjoining Kaira and Baroda districts is plain and fertile alluvial (sandy loam) which has mainly been formed by the denudation of hills and deposition of mud, etc., brought by the rivers. The depth of the soil in the plain is 5 feet to 10 feet.

1.5 Climate and Temperature

The climate of the district is warm. The winter which follows monsoon is brisk lasting from November to February. The summer is the season of oppressive heat and extends from March to June. The maximum temperature recorded at Dohad during 1960 was 45°C or 113°F in May and the minimum was 8°C or 46·4°F in January. Shehera taluka remained hottest in summer and coldest in winter during 1959 according to the available statistics. The details of maximum and minimum temperature during 1951-60 at Dohad will be found in Official Statistics Table 1.1 given in Part II of this Handbook.

1.6 Rainfall

The south-west monsoon brings rains to this district. With the exception of occasional thunderstorms, monsoon is confined to the four months from June to October. The monsoon sets in by the last week of June and continues up to the first week of October. Places where the highest rainfall was recorded were Jambughoda (174.01 cms.) in 1959 and Devgad Baria (90.69 cms.) in 1960. The lowest rainfall of 50.08 cms. and 40.72 cms. for the respective years was recorded at Shehera.

The following table gives the rainfall figures for the last decade for Godhra which is the headquarters of the district.

Annual rainfall for Godhra town, 1951-60

Year	Annual rainfall	
	In Inches	In Centimetres
1	2	3
1951	N.A.	N.A.
1952	36.5	92.7
1953	33.3	84.7
1954	50.2	127.4
1955	36.3	92.3
1956	58.1	147.6
1957	N.A.	N.A.
1958	49.7	126.2
1959	48.2	123.5
1960	19.4	49.4

N.A.=Not available

It will be observed from the above table that the monsoon was the heaviest in 1956 and weakest in 1960 in the last decade.

Monthly rainfall figures for all these years are available in Official Statistics Table 1.2 published in Part II of this Handbook.

1.7 Famine and Scarcity

According to the report of the Fact Finding Committee appointed by the Government of Bombay in 1958-60, this district has only one taluka, viz., Dohad as scarcity area of 'C' class on the basis of the past data of annawari, rainfall and other relevant factors, as it was found to have experienced scarcity conditions once in every 10 years on an average. The Committee has come to the conclusion that Halol and Jambughoda talukas are free from scarcity. In the remaining talukas of the district, the rainfall is not considered by the committee to be low but the crops are found to have suffered on account of deficiency of rain in particular periods of the monsoon season, specially in the months of August-September when the rains are essential for rice and maize which are the principal crops of these areas.

1.8 Forests

According to the information furnished by the Chief Conservator of Forests, Gujarat State, the area of forests in 1961-62 is found to be 869.25 sq. miles, out of which 343.58 sq. miles are reserved and 525.67 sq. miles are unclassed forests. This district is rich in forests as about one fourth of the total area of the district is covered by forests.

2 ADMINISTRATIVE SET-UP

2.1 Historical Background

The history of the Panchmahals centres in the city of Champaner. In a copper plate inscription of Shiladitya V of Valabhi dated 404-441 Samvat, 348-385 A.D., reference is made to the camp of victory fixed at Godhrahaka, present Godhra. Champaner is said to have been founded in the seventh century (647) in the reign of Van Raj, the first ruler of Anhilvada. In the end of the thirteenth century (1297) the Chohans, retreating from Khichivada before the Musalmans under Ala-ud-din Khilji, became lords of the country. Their sway lasted till the conquest of Champaner by Mahmud Begada in 1484. The author of Mirat-i-Sikandri (1611) is eloquent in praise of fruits of the region, viz., mangoes the best in the kingdom and sandalwood so plentiful as to be used in house building. Under the Mogul Emperors (1573-1727) Godhra became the district headquarters. In the seventeenth century it was mentioned in Watson's History of Gujarat as a hunting ground for wild elephants.

In 1727, Krishnaji, foster son of Kantaji Kadam Bande, attacked Champaner, levied a regular tribute, and seems to have held the country till about the middle of the century when Champaner was seized and the Panchmahals annexed by Scindia. Though the citadel of Pavagad was taken by the British in 1803 they made no attempt to occupy or administer the lands of the district. Even the citadel was restored to Scindia in the next year and remained in his hands till in 1853 the district was transferred to the British. Naikdas, a very wild forest tribe, took up arms against the British under Rupa and Keval Naikas, in October 1858, in an unsuccessful revolt.

Under the British rule, the Panchmahals district formed part of Bombay Province. On the bifurcation of the former Bombay State, it formed part of Gujarat State from 1st May, 1960.

2.2 *Territorial Changes*

On the de-amalgamation of the combined districts of Broach and Panchmahals in 1945, the following talukas constituted Panchmahals district:—Dohad, Godhra, Halol, Jhalod and Kalol. To these were added after 1947 the former Indian States of Lunavada, Baria (including Ratanmal) and Sant and some villages of Pandu Mewas and one village of Baroda. Six villages were transferred to Sabarkantha district and one to Baroda district. The territorial changes which took place between 1951-61 are given in sub-appendix 2 to Appendix I to Table A-I published in Part II of this Handbook. There are no territorial changes after 28th February, 1961.

2.3 *Administrative Divisions*

Panchmahals is one of the districts of Baroda Division of Gujarat State. For the purposes of revenue administration, the district is divided into three sub-divisions with 10 talukas and 1 mahal.

The details about the area and population in respect of these sub-divisions are given in the following table.

Administrative Divisions, 1961

Sl. No.	Sub-Division/ Taluka/Mahal	Area (in sq. miles)	No. of towns	No. of villages	Population		
					Total	Rural	Urban
1	2	3	4	5	6	7	8
	District Total	**3,450·6**	**8**	**1,947**	**1,468,946**	**1,314,087**	**154,859**
	Total for Godhra Sub-Division	*829·4*	*3*	*415*	*432,004*	*362,153*	*69,851*
1	Godhra	420·9	1	163	215,427	163,260	52,167
2	Kalol	154·5	1	69	99,775	90,092	9,683
3	Halol	196·1	1	127	100,173	92,172	8,001
4	Jambughoda	57·9	..	56	16,629	16,629	..
	Total for Lunavada Sub-Division	*1,112·0*	*2*	*828*	*425,813*	*402,711*	*23,102*
5	Shehora	226·4	..	89	89,982	89,982	..
6	Lunavada	359·1	1	340	147,097	130,564	16,533
7	Santrampur	526·5	1	399	188,734	182,165	6,569
	Total for Devgad Baria Sub-Division	*1,509·2*	*3*	*704*	*611,129*	*549,223*	*61,906*
8	Jhalod	312·3	..	152	120,996	120,996	..
9	Dohad	337·6	2	122	188,625	138,191	50,434
10	Limkheda	412·0	..	244	126,802	126,802	..
11	Devgad Baria	447·3	1	186	174,706	163,234	11,472

Details of inhabited and uninhabited villages, density and occupied houses are available in Census Table A-I published in Part II of this Handbook.

2.4 *Revenue*

The Collector is in charge of the general administration, law and order and civil supplies. He is assisted by a Personal Assistant in his office and Deputy Collectors in charge of 3 sub-divisions having their headquarters at Godhra, Lunavada and Devgad Baria. There are 10 mamlatdars in charge of 10 taluka offices and 1 mahalkari in charge of the mahal office at Jambughoda.

2.5 *Revenue Settlement*

The district is comprised of 10 talukas and 1 mahal, of which 6 talukas are comprised of Union areas* of the Province of Bombay. The taluka of Lunavada is comprised of the former Lunavada State, that of Santrampur is comprised of the former Santrampur State, those of Baria and Limkheda of the former Devgad Baria State and the mahal of Jambughoda is comprised of the former State of

*Union Areas = Areas forming part of the Pre-Independence districts of the Bombay Province

Jambughoda. The villages of former Sanjeli State are merged in Jhalod taluka. Later on, some villages of Jambughoda mahal are transferred to Baroda district.

In the Union Area, there was no change since 1947 in the position that obtained before independence in respect of survey and settlement, except that the Inam and former Inam villages which were unsurveyed were got surveyed and their soils classified from 1949 to 1951 under Post-War Reconstruction Scheme No. 75 and 77-A. The lands of each individual holding in this area were surveyed and designated as survey numbers and their sub-divisions are designated as pot hissas, pot number or hissa numbers. Their areas were worked out separately and recorded. The soils of these survey numbers and sub-divisions were classified for the purpose of land revenue according to the Gujarat Classification System and land revenue settlement has been introduced under the Bombay Land Revenue Code. The original settlements in this district were introduced in 1870-71 to 1885-86 and these settlements were revised between 1906-07 to 1926-27. Re-revision settlement was introduced in the year 1926-27 only in Dohad taluka. Though the guarantee period had already expired, the settlements have not been since revised.

The lands of villages of former Lunavada, Santrampur, Jambughoda and Sanjeli States were surveyed and classified and those of Devgad Baria surveyed during the former State regime on the lines similar to those in the pre-merger talukas of the district. Partial survey and classification had, however, been got done in these areas by the staff of the merged State areas survey and classification scheme. In case of former Devgad Baria State villages, wholesale classification of soils had been got done as the soils in these villages were not at all classified before. In none of these areas there was anything like scientific settlement. No area in this district now remains unsurveyed and unclassified.

In the Merged State areas, where the land revenue settlement was considered scientific, in order to bring the land revenue assessments on par with those obtaining in the pre-merger talukas of the district, Government framed Land Revenue Rule 19-N. For fixing the land revenue assessment in areas which were not settled or not scientifically settled on lines similar to the Bombay Land Revenue Code, Land Revenue Rule 19-O is framed. Both these rules are framed under the Bombay Land Revenue Code, section 52. According to Land Revenue Rule 19-N, the villages in the various settlement groups were generally compared with those in the pre-merger talukas in respect of permanent and semi-permanent factors of physical configuration, climate and rainfall, markets, communications and standard of husbandry and Comparable Union Areas were fixed for them. The standard rates of the scientifically settled areas were then compared with the standard rates of Comparable Union Areas and remission was granted to the extent of the excess of the former over the latter. Under the Land Revenue Rule 19-O, groups of the villages of the merged areas were formed on consideration of their homogeneity in respect of permanent and semi-permanent factors mentioned above and the Comparable Union Areas of these villages fixed as under Land Revenue Rule 19-N and land revenue assessment in such areas were worked out by application of (1) the recoverable rate under Land Revenue Rule 19-N, (2) the existing rates prevailing in the merged areas, or (3) the rates worked out on the basis of average cash value of 35 per cent or 1/6th of the gross produce, whichever was the lowest, to the soil classification values through the medium of the distance from village site scale, and the actual area of the survey number or its sub-division. In these areas, there were several villages held on Jagiri tenure. The Jagiri tenure was abolished under the Bombay Merged Territories and Area (Jagir Abolition), Act, 1953 and the assessment of each individual survey number or sub-division was fixed under section 7 of the said Act by applying the rate of the adjoining homogeneous Khalsa village.

Under the Gujarat Classification System, lands irrigated from wells were treated as dry crop lands with an additional classification factor of sub-soil, so as to levy higher land revenue assessment on consideration of the capacity of the wells and soil classification value. Lands irrigated from second and first class irrigation works which were in charge of the Public Works Department were subjected to separate irrigation cess and irrigation rates under the Bombay Irrigation Act, but for lands irrigated from smaller works like tanks which were not governed by the Bombay Irrigation Act, the lands were subjected to himayat assessment which is clubbed with the land revenue. Occassional use of water for agricultural purposes with permission from Government sources on which Government had not spent anything was allowed free and

where Government had spent something, water assessment was levied under section 55 of Bombay Land Revenue Code.

2.6 Agrarian Structure and Land Reforms

There were lands held on Mehvasi tenure and Talukdari tenure in the pre-merger areas of the district. These tenures have been abolished under the Bombay Mehvasi Tenure Abolition Act, 1949 and the Bombay Talukdari Tenure Abolition Act, 1949 respectively. All kinds of Inams except Devasthan Inams were abolished after 1947 and the Bombay Tenancy and Agricultural Lands Act, 1948 was applied to this area with a view to do away with the intermediaries between the agriculturists and the State. The Bombay Prevention of Fragmentation and Consolidation of Holdings Act was enacted in 1948 and the activities under this Act have been spread over Jhalod, Dohad, Kalol, Halol and Godhra talukas. Under the Gujarat Agriculture Lands Ceiling Act, 1960, the maximum limits to the land holdings have been laid down.

In the Merged areas there were lands and villages held on Ankadia and Jagiri tenure. These tenures have been abolished by special legislations. The various Inams, except Devasthan Inams, obtaining in the Merged areas were abolished by Bombay Merged Territories (Miscellaneous Alienation Abolition) Act, 1955 and The Bombay Tenancy and Agricultural Lands Act was applied. Thus, in respect of land tenures and Inams and survey, soil classification and land revenue settlement, the position in Merged State areas was brought on par with that obtaining in these respects in the pre-merger areas of the district.

2.7 Parliamentary and Assembly Constituencies

Under the Delimitation of Parliamentary and Assembly Constituencies Order, 1961, 2 seats are allotted to this district for the purpose of election to the House of the People and 11 seats for the State Assembly. The details comprising the territorial extent of the Parliamentary and Assembly constituencies are shown below.

Delimitation of Parliamentary and Assembly Constituencies

A

Parliamentary Constituencies

Sl. No.	Name of Constituency	Extent in terms of Assembly Constituencies
1	2	3
1	Panchmahals	Halol, Kalol, Salia, Godhra, Shehera, Lunavada and Santrampur
2	Dohad (ST)*	Jhalod, Dohad, Limkheda, Devgad Baria, Jabugam, Chhota Udaipur, Nasvadi and Sankheda

B

Assembly Constituencies

Sl. No.	Name of Constituency	Extent of Constituency
1	2	3
1	Halol (ST)*	Halol taluka and Jamtughoda mahal
2	Kalol	Kalol taluka and all 45 villages of Rajgadh circle of Devgad Baria taluka
3	Salia	(i) All 35 villages of Mora circle and all 24 villages of Salia circle and all 26 villages of Vavdi Bujrag circle of Godhra taluka and (ii) All 46 villages of Simalia circle of Devgad Baria taluka
4	Godhra	Godhra taluka (excluding all 35 villages of Mora circle, all 24 villages of Salia circle and all 26 villages of Vavdi Bujrag circle of Godhra taluka)
5	Shehera	Shehera taluka and all 44 villages of Vardhari circle and all 62 villages of Kothamba circle of Lunavada taluka
6	Lunavada	Lunavada taluka (excluding all 44 villages of Vardhari circle and all 62 villages of Kothamba circle of Lunavada taluka) and all 66 villages of Sarsan circle and all 71 villages of Munpur circle of Santrampur taluka
7	Santrampur (ST)*	Santrampur taluka (excluding all 66 villages of Sarsan circle and all 71 villages of Munpur circle of Santrampur taluka)
8	Jhalod (ST)*	Jhalod taluka
9	Dohad (ST)*	Dohad taluka (excluding all 35 villages of Garbada circle of Dohad taluka)
10	Limkheda (ST)*	Limkheda taluka (excluding all 36 villages of Umaria circle and all 56 villages of Dhanpur circle of Limkheda taluka) and all 35 villages of Garbada circle of Dohad taluka
11	Devgad Baria	Devgad Baria taluka (excluding all 45 villages of Rajgadh circle and all 46 villages of Simalia circle of Devgad Baria taluka) and all 36 villages of Umaria circle and all 56 villages of Dhanpur circle of Limkheda taluka

*These seats are reserved for Scheduled Tribes.

2.8 Judiciary

The judicial set-up of the district comprises of 1 District and Sessions Judge, 1 Assistant District Judge, 1 Civil Judge (Senior Division) and 8 Civil Judges (Junior Division). As Sessions Judge he is empowered to impose any sentence authorised by law, but any sentence of death subject to confirmation

by the High Court. The Assistant Sessions Judge is empowered to impose any sentence authorised by law, except a sentence of death or imprisonment for life or of imprisonment for a term exceeding 10 years. The District Judge has unlimited jurisdiction in civil suits while the Assistant Judge has jurisdiction up to Rs. 15,000 in such suits. Civil Judge (Senior Division) and Judicial Magistrate is empowered to impose a sentence of imprisonment for a term not exceeding 2 years and fine not exceeding two thousand rupees. He has got unlimited jurisdiction in civil suits. Civil Judges (Junior Division) have jurisdiction up to Rs. 10,000 in civil suits.

2.9 Police

The total strength of civil police in 1960 amounted to 1,502 persons. There were 22 police stations and 46 police outposts in the district. The total number of cognisable offences investigated was 4,332. Thus, there was 1 police per 3·62 sq. miles of area. The number of persons per police was 1,543 and the number of cognisable offences investigated per police was 4·55.

The number of crimes by major class of offences in the district is extracted from Official Statistics Table 11·3 given in Part II of this Handbook, wherein other details regarding number of persons acquitted or discharged and number of persons convicted will also be found.

Persons convicted by nature of offences, 1960-61

Description of offence	No. of persons convicted
1	2
Affecting life . . .	26
Hurt . . .	110
Theft . . .	174
Under special and local laws .	304

3 LOCAL SELF GOVERNMENT

3.1 Local Self Government Institutions

The Local Self Government Institutions in the State as on 1st April, 1961, which is the period covered by this Handbook are (1) Municipalities, (2) District Local Board, (3) District School Board and (4) Gram Panchayats. But since the Panchayats Act has come into force from 1st April, 1963 replacing the existing District Local Boards by Jilla Panchayats and introducing democratic decentralisation at all levels, a short resume of the provisions of this Act as regards the new set-up, functions, finance, etc., will also be given to bring the position about administrative set-up up-to-date.

3.2 Municipalities

At the end of 1960-61 there were 5 municipalities covering 5 towns with a population of 122,224. The average population per municipality was 24,445. The following table shows area and population of each municipality in the district.

Municipalities, area, population, income and expenditure for the year, 1960-61

Municipality	Area in sq. miles	Population	Income (in Rs.)	Income per head	Expenditure (in Rs.)	Expenditure per head
1	2	3	4	5	6	7
Total . .	**23·13**	**122,224**	**2,087,796**	**17·08**	**2,299,427**	**18·81**
Godhra .	7·75	52,167	1,022,590	19·60	1,295,776	24·84
Lunavada .	4·93	16,533	218,292	13·20	171,471	10·37
Santrampur .	3·99	6,569	106,262	16·18	72,621	11·06
Dohad .	2·50	35,483	532,440	15·01	594,316	16·75
Devgad Baria .	3·96	11,472	208,212	18·15	165,243	14·40

Details regarding number of members, sources of income and heads of expenditure are available in Official Statistics Table 14·1 published in Part II of this Handbook.

The total income of all the 5 municipalities during 1960-61 amounted to Rs. 2,087,796 of which as much as Rs. 1,314,205 or 62·95 per cent came from rates and taxes. The income per head of population as per 1961 Census was Rs. 17·08. As against this, the total expenditure in 1960-61 of all municipalities amounted to Rs. 2,299,427 and average expenditure per head of population Rs. 18·81.

3.3 District Local Board

Total income and expenditure of the board during 1960-61 were Rs. 1,612,814 and Rs. 1,895,619 respectively. The main sources of income are local rates and land revenue and the major heads of expenditure are civil and public works and medical and education. The following table shows income and

expenditure of the Panchmahals District Local Board during 1960-61 under different heads.

Income and expenditure of District Local Board, 1960-61

Head	Income (in Rs.)	Head	Expenditure (in Rs.)
1	2	3	4
Total	**1,612,814**	**Total** . .	**1,895,619**
Land Revenue	130,000	Administration	65,868
Local Rates .	239,435	Education .	31,200
Interest .	33,547	Scientific and other Minor Departments	97,962
Police .	173	Pension .	12,060
Medical .	60,648	Miscellaneous .	626,883
Scientific and other Minor Departments	68,788	Civil and Public Works .	1,061,646
Miscellaneous	411,018		
Civil Works .	669,205		

Details giving income and expenditure under different sources are available for the years 1950-51 and 1955-56 in Official Statistics Table 14·2 published in Part II of this Handbook.

3·4 Panchayats

The number of panchayats in the district at the end of 1960-61 was 762, covering 1,915 inhabited villages and 3 towns. 429 of these panchayats were group panchayats covering 1,582 villages and the rest were independent panchayats. The villages having nyaya panchayats numbered 138. The number of panchayats in each taluka/mahal of the district together with their income and expenditure for the year 1950-51, 1955-56 and 1960-61 is given in the following table.

Income and expenditure of Panchayats, 1950-51, 1955-56 and 1960-61

Taluka/Mahal	No. of village panchayats			Income (in Rs.)			Expenditure (in Rs.)		
	1950-51	1955-56	1960-61	1950-51	1955-56	1960-61	1950-51	1955-56	1960-61
1	2	3	4	5	6	7	8	9	10
Total . .	**31**	**158**	**762**	**148,965**	**307,391**	**1,937,751**	**124,028**	**223,233**	**1,581,674**
Godhra . .	12	19	97	34,132	59,749	271,905	26,039	61,614	255,885
Kalol . .	9	30	40	53,673	75,989	349,949	45,754	50,986	262,381
Halol . .	4	16	56	30,678	19,258	109,211	26,588	70,846	78,985
Jambughoda .	..	2	8	..	3,080	33,704	..	2,316	13,315
Shehera . .	..	16	49	..	6,630	133,394	..	4,248	204,130
Lunavada .	..	9	80	..	5,929	179,345	..	2,493	134,037
Santrampur .	..	18	103	..	2,531	268,885	..	1,459	251,444
Jhalod . .	3	15	47	24,437	78,907	246,263	20,414	14,991	204,651
Dohad . .	3	13	63	6,045	40,927	88,104	5,233	7,046	46,791
Limkheda .	..	12	98	..	3,729	112,750	..	676	67,124
Devgad Baria .	..	8	121	..	10,652	144,241	..	6,558	62,931

The above details are also available in Official Statistics Table 14·3 published in Part II of this Handbook.

The total income of all panchayats for the year 1960-61 was Rs. 1,937,751 while the total expenditure amounted to Rs. 1,581,674. The income and expenditure per head of population covered under panchayat were Rs. 1·44 and Rs. 1·17 respectively. The income and expenditure per panchayat were Rs. 2,542·98 and Rs. 2,075·69 respectively.

3·5 Present Set-up under the Panchayat Act

The Gujarat Panchayats Act has been brought into force in all the districts of Gujarat (except Kutch and Dangs districts) from 1st April, 1963. In the Kutch district, it has been brought into force with effect from 15th April, 1963. It is not yet made applicable to the Dangs district. In each district there are three tiers of the Panchayat Organisation—Gram/Nagar Panchayats, Taluka Panchayats and District Panchayat. Municipalities

having population not exceeding 10,000 have been converted into gram panchayats and those having population exceeding 10,000 but not exceeding 20,000 have been converted into nagar panchayats. A gram and nagar panchayat is subordinate to the taluka panchayat, while a taluka panchayat is subordinate to the district panchayat according to the scheme of this Act.

According to the provisions of the Gujarat Panchayat Act, 1961, a gram panchayat consists of not less than 9 and not more than 16 members, while a nagar panchayat consists of not less than 15 and not more than 31 members. Provision has been made to reserve seats for women and members of Scheduled Castes and Tribes. A taluka panchayat consists of ex-officio, elected, co-opted and associate members. On account of the national emergency, interim district panchayats had to be constituted in April 1963. Elections are now proposed to be held and elected district panchayats would be constituted towards the end of March 1964 in the sixteen districts of the State.

The District Development Officer is the Chief Executive Officer in a district panchayat. He is borne on the cadre of the Indian Administrative Service (senior time-scale) and is appointed by Government. The Chief Executive Officer of the taluka panchayat is the Taluka Development Officer, who is also appointed by Government. Both these officers are secretaries of their respective panchayats. These panchayats function through various committees, appointed for different groups of functions under the Act.

Functions

The functions of three tiers of panchayats have been given very elaborately in the three schedules to the Act. In addition, the functions of collecting land revenue (including cesses) and dues recoverable as arrears of land revenue, levied and assessed by or under the Land Revenue Code and all other functions and duties of a village accountant under the Land Revenue Code have been transferred to gram/nagar panchayats. The powers exercised and the functions and duties performed by the District School Board have been similarly transferred to the taluka and district panchayats and all primary schools have been placed under the control of taluka and district panchayats. A large number of functions such as registration of co-operative societies, approval of amendment to the bye-laws of co-operative societies, calling of or extending the period for the calling of annual general meeting of co-operative societies and such other functions which under the Co-operative Societies Act, were exercised by the Registrar, Co-operative Societies, have been transferred to district panchayats. Moreover, functions relating to agriculture, animal husbandry, public health and medical relief, social welfare, cottage industries and small scale industries and District Statistical Office, have been transferred on an agency basis to the district panchayats.

Staff

To enable the panchayats to carry out numerous activities entrusted to them, Government has transferred/deputed a number of its employees along with the functions transferred. The staff of the District School Boards and District Local Boards has also been transferred to taluka/district panchayats. It has been envisaged in the Act to constitute a panchayat service in connection with the affairs of panchayats and to maintain a uniform standard in the recruitment for panchayat service. A Panchayat Service Selection Board has been constituted for this purpose.

Funds

The panchayats have been given necessary funds to execute all schemes transferred to them. In addition, provision has been made in the Act, for various tiers of panchayat to levy taxes and fees. A gram or nagar panchayat subject to certain conditions can levy a tax on buildings, a pilgrim tax, a tax on fairs, festivals, and other entertainments, a tax on bicycles or vehicles drawn by animal, a sanitary tax, etc. It can also levy fee on markets, cart stands, tonga stands, for the supply of water from wells and tanks for purposes other than domestic use and for cattle. The taluka panchayat and district panchayat can request Government for increase in stamp duty. Moreover, provision has been made in the Act for making grants to the panchayats for its activities.

At present, the implementation of the Act is being done mostly through the Commissioner. They have been delegated with most of the powers of the State and exercise supervision over panchayats.

Provision has also been made in the Act under which the State Government will give grants to the panchayats on the basis of the average of the land revenue collected during the last three preceding years, after deducting therefrom the expenditure on the salaries and training of the secretaries of gram panchayats and village accountants and crediting 5 per cent of the amount to the State Equalisation Fund. 50 per cent of the balance will be distributed among gram panchayats and nagar panchayats, 25 per cent among taluka panchayats and 10 per cent among the district panchayats. Out of the remaining 15 per cent of the land revenue, 7½ per cent will be carried to the District Equalisation Fund and 7½ per cent to the Gram Encouragement Fund.

4 POPULATION

4·1 Growth of Population

In 1951, the population of the district as constituted in 1961 was 1,131,243. According to the 1961 Census the same has gone to 1,468,946 and increased by 337,703 or 29·85 per cent, the highest during the last sixty years. The proportion is higher than that observed in the case of Gujarat State which is 26·88 per cent. This can be attributed to the increase in birth rate and dogmatic outlook of tribal people towards family planning practices. The following table compares the growth rate in the district during the last sixty years.

Variation in population during 1901 to 1961

Year	Population	Decade variation	Percentage decade variation
1	2	3	4
1901	459,431	..	..
1911	593,977	+ 134,546	+ 29·2
1921	691,067	+ 97,090	+16·35
1931	822,418	+ 131,351	+19·01
1941	946,263	+ 123,845	+15·06
1951	1,131,243	+ 184,980	+19·55
1961	1,468,946	+ 337,703	+29·85
1901 to 1961	..	+1,009,515	+219·73

Sexwise details are available in Census Table A-II published in Census of India, 1961, Volume V—Gujarat-Part II-A.

The growth of numbers between 1951-61 can, however, be attributed to the decline in death rate, accompanied by steady improvements in medical and public health services available to the people since Independence and opening up of areas hitherto backward.

OCCUPIED RESIDENTIAL HOUSES AND HOUSEHOLDS

The total number of occupied residential houses in the district is 255,201 or 6·84 per cent of the State. The average number of persons per occupied census house in total, rural and urban areas of the State and district are given below.

Average number of persons per occupied census house, 1961

Total/Rural/Urban	State	District
1	2	3
Total	**5·53**	**5·76**
Rural	5·54	5·79
Urban	5·52	5·49

It will be seen that the average number of persons per occupied census house in the district is higher than that of the State for its total and rural areas and lower in urban areas.

The number of households in the district was total 261,981, rural 230,472 and urban 31,509 and that of houses, total 255,201, rural 226,974 and urban 28,227. The number of households per cent of houses, therefore, comes to 102·66, 101·54 and 111·63 for the total, rural and urban areas respectively. The average number of persons per household for total, rural and urban areas of the district comes to 5·61, 5·70 and 4·91 respectively.

4·2 Rural/Urban Distribution

The criteria for determining whether a place was rural or urban varied from census to census and rendered such data incomparable. A uniform definition for urban areas was, therefore, adopted during the Census of 1961, by laying down that a place should be classified as urban if it was (1) a municipality, cantonment or civil lines or, (2) had—(a) a population of 5,000 or over and (b) 75 per cent or more of the total male population was dependent on non-agricultural pursuits.

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'Village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distinct number assigned to it in the revenue records of the State. It may consist of a single village with separate clusters of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

4.2 (i) Rural Population

The total number of villages in the district is 1,947 of which 32 are uninhabited. The total rural population of the district is 1,314,087 giving an average of 686 persons per inhabited village. The proportion of rural population (89·46 per cent) to the total population in the district is higher than similar proportion in the State which is 74·23 per cent.

Percentage distribution of rural population by size group of villages, 1961

Size group	No. of villages	Percentage to total No. of villages	Rural population	Percentage to total rural population
1	2	3	4	5
Less than 200	427	22·30	49,606	3.77
200-499	606	31.65	204,431	15.56
500-999	465	24.28	331,718	25.24
1,000-1,999	330	17.23	447,596	34·06
2,000-4,999	80	4.18	230,609	17.55
5,000-9,999	5	0.26	28,985	2.21
10,000 and above	2	0.10	21,142	1.61

Details of sexwise population for taluka/mahals are available in Census Table A-III published in Part II of this Handbook.

More than half (53·95 per cent) of villages in the district fall in the class range less than 500, while 41·51 per cent of the total have population varying from 500 to 1,999. 4·54 per cent of them are large size villages (2,000 and above) covering 21·37 per cent of rural population. It is significant to note that about 60 per cent of rural population (59·30 per cent) is concentrated in villages having population 500 to 1,999. Small and medium size villages seem to predominate in the district.

4·2 (ii) Urban Population

Statement showing the number of towns classified by population is furnished below.

Number of towns classified by size groups during 1901 to 1961

Year	I 100,000 and above		II 50,000 to 99,999		III 20,000 to 49,999		IV 10,000 to 19,999		V 5,000 to 9,999		VI Below 5,000	
	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population
1	2	3	4	5	6	7	8	9	10	11	12	13
1961	..	..	1	52,167	1	35,483	3	42,956	3	24,253	..	..
1951	..	..	..	..	2	82,482	2	24,947	4	29,718	..	..
1941	..	..	..	..	1	41,986	2	25,477	4	28,218	1	3,988
1931	..	..	..	..	2	57,203	1	11,896	3	19,070	2	7,372
1921	..	..	..	..	1	26,979	1	16,076	2	14,997	4	15,170
1911	..	..	..	..	1	22,144	..	..	2	19,045	4	15,407
1901	..	..	..	..	1	20,915	2	24,267	1	5,917	3	11,501

Sexwise details of each town are available in Census Table A-IV published in Part II of this Handbook.

1/10th of the total population (10·54 per cent) lives in urban areas, as against 25·77 per cent in the State. The number of towns in 1961 has remained the same as that in 1951, but there are certain changes as a result of change in the definition of urban areas. Accordingly, Halol and Jhalod are declassified and Shivrajpur and Freelandganj are newly added.

The urban population of the district, numbering 154,859 persons is spread over 8 towns of different sizes of which only 1 town, viz., Godhra comes under Class II and has population over 50,000. Of the rest, 1 is in Class III, i.e., size group 20,000 to 49,999, 3 fall under Class IV and have population above 10,000 and below 20,000 and 3 have

population below 10,000. The average population of a town in Panchmahals district is 19,357 persons as compared to 30,380 for the State. The extent of urbanisation is thus found to be comparatively less than that obtaining in the State as a whole.

4.3 Density

The area of the district in 1951 was 3,499·0 sq. miles or 4·92 per cent of the total area of Gujarat. In 1961, it was 3,450·6 sq. miles or 4·86 per cent of the total area of the State due to changes in the territorial jurisdiction of the district. The corresponding percentages of population for the district as constituted in 1961 are, however, found to be 6·96 in 1951 and 7·12 in 1961. The average density of population is 426 persons per sq. mile as against 290 for the State. The urban density (4,·45) is naturally higher than the rural (384) where the pressure of population is comparatively less and the average density is worked out on the basis of the entire area within the revenue limits of the village and not of the village site. These densities differ for different parts of the district as also for its rural and urban areas as will be seen from the following table.

Population per square mile, 1961

State/District/ Taluka/Mahal	Population per square mile		
	Total	Rural	Urban
1	2	3	4
State	**290**	**218**	**7,194**
District	*426*	*384*	*4,845*
Godhra	512	395	6,731
Kalol	646	584	46,110
Halol	511	489	1,058
Jambughoda	287	287	..
Shehera	397	397	..
Lunavada	410	369	3,354
Santrampur	358	349	1,646
Jhalod	387	387	..
Dohad	559	414	14,167
Limkheda	308	308	..
Devgad Baria	391	368	2,897

While working out the density of urban areas, the urban units for which area figures are not available have been ignored. Rural density is worked out on the basis of rural population only, though the area figures include the area of those urban units for which separate area figures are not available. The highest average density (646) is found in Kalol taluka and the lowest (287) in Jambughoda mahal. In rural areas also Kalol taluka has the highest (584) and Jambughoda mahal the lowest (287) density. But among urban areas Kalol tops the list with 46,110 persons per sq. mile, the lowest being 1,058 persons for Halol.

4.4 Migration

The number of persons born (i) at the place of enumeration, (ii) elsewhere in the district, (iii) outside the district of enumeration but within Gujarat State and those (iv) born outside Gujarat State as per 1961 Census is given below.

Population by place of birth, 1961

Persons/ Males/ Females	Total population	Born in			
		Place of enumeration	Elsewhere in the district	Outside the district but in the State	Outside the State
1	2	3	4	5	6
Persons	1,468,946	1,062,994	337,599	39,982	28,371
Males	758,561	678,685	53,125	14,178	12,573
Females	710,385	384,309	284,474	25,804	15,798
Percentages					
Persons	100.00	72.37	22.98	2.72	1.93
Males	100.00	89.47	7.00	1.87	1.66
Females	100.00	54.10	40.05	3.63	2.22

In case of 72·37 per cent of the population of the district, the place of enumeration is the same as the place of birth. This proportion for males is 89·47 per cent, as against 54·10 per cent for females owing to the migration of females after marriage, which appears to be mostly within the district. For the proportion of females born outside the place of enumeration but within the district is as high as 40·05 per cent as compared to those born outside the district but within the State which account for 3·63 per cent and those outside the State which account for 2·22 per cent only.

The percentage distribution of population born at the place of enumeration, born elsewhere within the district and outside the district by nine categories of economic activity and of non-workers is shown below.

Distribution of population by categories of workers and non-workers classified by place of birth, 1961

	Categories of workers									
	I	II	III	IV	V	VI	VII	VIII	IX	X
Place of birth	As Cultivator	As Agricultural labourer	In Mining, Quarrying, etc.	At Household Industry	In Manufacturing other than Household Industry	In Construction	In Trade and Commerce	In Transport, Storage and Communications	In Other Services	Non-workers
1	2	3	4	5	6	7	8	9	10	11
District Total	**43·15**	**2·06**	**0·38**	**1·54**	**0·37**	**0·13**	**0·98**	**0·67**	**2·03**	**48·69**
Born at the place of enumeration	38.85	1.40	0.25	1.13	0.29	0.10	0.82	0.30	1.50	55·36
Elsewhere in the district	61.89	3.66	0.46	2.45	0.30	0.14	0.92	0.56	2.68	26·94
Outside the district	17.38	4.39	2.09	3.37	2.03	0.63	3.79	6.99	7.02	52·31

4.5 Sex Ratio

In 1961, the number of females per 1,000 males in the district was 936 which was lower than the similar ratio of 940 for the State. The corresponding rural and urban sex ratios for the district which were 939 and 919 respectively show that the proportion of females was comparatively less in towns than in villages.

The following statement compares sex ratios in towns in 1951 and 1961.

Females per thousand males in urban areas, 1951 and 1961

State/ District/ Town	Sex Ratio	
	1951	1961
1	2	3
State	**915**	**896**
District	*913*	*919*
Godhra	876	911
Kalol	928	917
Shivrajpur	..	877
Lunavada	1,015	1,039
Santram	938	883
Dohadpur	906	955
Freelandganj	..	802
Devgad Baria	925	898

The urban areas with a sex ratio lower than that for the district average are Godhra, Kalol, Shivrajpur, Santrampur, Freelandganj and Devgad Baria. The ratios in respect of Shivrajpur and Freelandganj appear to be significantly lower due to concentration of male population brought about by the following factors.

Shivrajpur : Manganese ore mines

Freelandganj : Railway workshop

The higher female ratio in Lunavada is mainly due to the absence of male members who have migrated to towns and big cities for service or business.

4.6 Age Distribution

Table C-II shows the distribution of the population by quinquennial age-groups. Table C-IV gives single year age returns. Broad age-groups are also given in Tables B-I and C-II printed in Part II. Proportionate population figures by broad age-groups in 1961 are compared below separately for males and females with the corresponding proportions for 1951 for the district as then constituted.

Percentage distribution of population by sex and age-groups, 1951 and 1961

Age-groups	Percentage of population by age-groups			
	1951		1961	
	Males	Females	Males	Females
1	2	3	4	5
Total A to D	**100.00**	**100.00**	**100.00**	**100.00**
0-4	15.45	15.75	15.52	16.66
5-14	26.29	27.67	27.96	27.75
A 0-14	41.74	43.42	43.48	44.41
15-34	34.65	33.67	31.73	31.63
35-59	20.09	18.52	20.70	19.34
B 15-59	54.74	52.19	52.43	50.97
C 60+	3.52	4.39	4.08	4.61
D Age not stated	..	..	0.01	0.01

The proportion of both males and females in the age-group 0-14 has increased during the decade owing to high birth rate which is responsible for an increase of 1.74 per cent in males and 0.99 per cent in females. But there is a decline in the proportion of males and females in the age-group 15-34. This may perhaps be due to the migration of adult workers to other areas.

4.7 Marital Status

According to the Census of 1961, 44.40 per cent are returned as married, 42.54 per cent males and 46.37 per cent females. Never married persons account for 50.24 per cent of the total population, males being 53.85 per cent and females 46.40 per cent of their respective population. The widowed are 4.98 per cent and divorced/separated constitute 0.38 per cent only. The following table shows the marital status of males and females in different age-groups classified into (i) never married, (ii) married and (iii) widowed, divorced/separated and others.

Age and Marital Status, 1961

Age-groups	Never Married		Married		Widowed, divorced/separated and others	
	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total females
1	2	3	4	5	6	7
Total	**53.85**	**46.40**	**42.54**	**46.37**	**3.61**	**7.23**
0-9	100.00	100.00	..	..	..	..
10-14	95.54	90.27	4.39	9.66	0.07	0.07
15-19	72.67	33.29	26.59	65.99	0.74	0.72
20-24	33.36	2.98	64.72	95.92	1.92	1.10
25-29	12.15	2.31	84.89	95.73	2.96	1.96
30+	3.05	0.25	87.03	77.44	9.92	22.31

It will be seen from the above table that no person has been reported as married in age-group 0-9 as all such persons were treated as unmarried at the time of sorting. But the child marriages still persist in the age-group 10-14 to the extent of 4.39 per cent for males and 9.66 per cent for females. It is also noteworthy that among males the age of marriage has shifted and risento 20 and above, as only 26.59 per cent of males have been returned as married in the age-group 15-19, while the percentage rises to 64.72 in the age-group of 20-24 and to 84.89 per cent in the age-group of 25-29. Corresponding proportions for females, however, show that 65.99 per cent of females in the age-group 15-19 and 95.92 per cent in the age-group 20-24 are married. In other words, though the date of marriage has advanced, it has not gone up to same extent as in case of males. Examination of the figures of widowed and divorced/separated discloses an interesting feature of marital life in the district, in that, they appear to be significant only after the age of 29. While females above 30 years account for 22.31 per cent in this category, males form 9.92 per cent of their population. These figures reveal greater tendency towards remarriage on the part of widowed males than widowed females among whom it is mostly avoided.

4·8 (i) Literacy and Education

According to the Census of 1951, there were 14,645 literates in the district of Panchmahals as constituted then and formed 12·82 per cent of the total population. Percentage of male literates was then 19·50 per cent, while that of female literates 5·62 per cent. In 1961, the percentage of literacy rose to 19.23 per cent (29·01 per cent for males and 8·80 per cent for females). Percentage of literacy to total population by age and sex is given for total/rural/urban in the following table.

Literacy by age-groups, 1961

Age-groups	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8	9	10
All ages	**19·23**	**29·01**	**8·80**	**15·53**	**25·04**	**5·39**	**50·68**	**62·28**	**38·06**
5-14	27·87	39·16	15·71	23·85	35·69	11·14	62·27	68·74	55·22
15-34	25·22	38·95	10·51	20·26	33·86	5·67	64·54	79·65	48·59
35-59	15·28	23·99	5·33	11·05	18·59	2·50	51·86	69·40	30·66
60+	9·64	17·86	1·86	6·47	12·52	0·76	39·94	67·70	12·62
Age not stated	11·17	17·31	3·57	8·77	14·29	1·37	35·29	66·67	18·18

Literates among children in the age-group 5-14 constitute 27·87 per cent of whom males account for 39·16 per cent and females 15·71 per cent. The highest literacy among persons, females and males is found to be in the age-group 5-14 in total and rural areas. In urban areas the highest literacy among persons and males is found to be in the age-group 15-34 and for females it is highest in the age-group 5-14.

Analysing literacy with reference to the school-going age (age-group 5-14) it is observed that the proportion of literacy is highest in this age-group in total and rural areas. The highest female literacy is also claimed by this age-group in urban areas. The following table furnishes the sexwise details of literacy by rural/urban for each taluka/mahal of the district.

Rural/Urban literacy by sex, 1961

Taluka/Mahal		Literate and Educated					
		(Literates) number	Percentage of total population	Literate males	Percentage of total male population	Literate females	Percentage of total female population
1		2	3	4	5	6	7
Godhra	R	34,046	20·85	28,575	33·53	5,471	7·01
	U	25,362	48·62	16,865	61·77	8,497	34·18
Kalol	R	25,995	28·85	19,602	41·81	6,393	14·80
	U	4,924	50·85	3,200	63·35	1,724	37·22
Halol	R	21,431	23·25	16,552	34·82	4,879	10·93
	U	2,125	26·56	1,537	36·05	588	15·73
Jambughoda	R	3,621	21·78	2,935	34·01	686	8·58
	U	..	..	..	..	..	..
Shehera	R	18,148	20·17	15,713	33·00	2,435	5·75
	U	..	..	..	..	..	..
Lunavada	R	25,335	19·40	20,773	30·76	4,562	7·24
	U	8,735	52·83	5,316	65·56	3,419	40·59
Santrampur	R	21,515	11·81	18,780	20·07	2,735	3·09
	U	3,332	50·72	2,274	65·18	1,058	34·35
Jhalod	R	15,658	12·94	12,494	20·07	3,164	5·33
	U	..	..	..	..	..	..
Dohad	R	9,961	7·21	8,775	12·55	1,186	1·74
	U	28,088	55·69	17,301	65·43	10,787	44·96
Limkheda	R	10,892	8·59	9,819	15·05	1,073	1·74
	U	..	..	..	..	..	..
Devgad Baria	R	17,442	10·69	15,739	18·71	1,703	2·15
	U	5,923	51·63	3,772	62·41	2,151	39·63

It will be seen from the above table that in rural areas the percentage of literacy is the highest (28·85 per cent) in Kalol taluka and the lowest (7·21 per cent) in Dohad taluka. These also are the rural areas where the highest as well as the lowest percentages of male and female literacy are returned. But among urban areas, the literacy percentage is the highest (55·69 per cent) in Dohad taluka. The highest percentage (65·56 per cent) of male literates is found to be in Lunavada taluka. Dohad claims the highest percentage (44·96 per cent) of urban female literates, the lowest being 15·73 per cent in Halol.

4·8 (ii) Educational Institutions

The table below gives the number of various types of educational institutions in the district along with the number of students and teachers in 1960-61.

Number of educational institutions, students and teachers, 1960-61

Educational levels	Institutions	Teachers	Students
1	2	3	4
Primary . .	1,756	3,924	137,926
Secondary . .	58	611	14,164
Higher . .	1	17	210
Special . .	11	24	2,862

Primary, Secondary, Higher and Special Institutions

In 1960-61, there were 1,756 primary schools with 3,924 teachers and 137,926 students giving an average of 35 students per teacher. In 1960-61, there were 58 secondary institutions with 611 teachers and 14,164 pupils giving an average of 23 pupils per teacher. There was no institution for higher education till 1959-60. During the Second Five Year Plan, one Arts and Science college was opened at Godhra in 1960-61. The number of special institutions which included technical institutions, training colleges, gymnasia, etc., was 11 and that of teachers and pupils is 24 and 2,862 respectively.

4·9 Languages

Table C-V in Part II of this Handbook shows the population of major languages for the district and each taluka separately. The distribution of speakers of each major language by rural and urban in the district is as under.

Distribution of speakers of major languages, 1961

Sl. No.	Major language	Percentage of total population			Percentage of each major language in	
		Total	Rural	Urban	Rural	Urban
1	2	3	4	5	6	7
	Total of all languages	**100·00**	**100·00**	**100·00**	..	..
1	Gujarati	96·18	99·30	69·65	92·36	7·64
2	Marathi	0·25	0·03	2·05	12·49	87·51
3	Hindi	0·88	0·11	7·43	11·47	88·53
4	Sindhi	0·39	0·07	3·11	15·62	84·38
5	Urdu	1·99	0·40	15·50	17·95	82·05
6	Marwari	0·13	0·04	0·90	26·49	73·51
7	Punjabi	0·05	0·01	0·43	12·65	87·35
8	Others	0·13	0·04	0·93	25·33	74·67

It will be seen from the above table that 96·18 per cent of the population in the district have Gujarati as their mother tongue. 92·36 per cent of them live in rural areas and 7·64 per cent in urban areas. The number of speakers of other languages are not significant.

4·10 Religions

The following table gives distribution of religions.

Religions, 1961

Religions	Population	Percentage of total population
1	2	3
Total . .	**1,468,946**	**100·00**
Hindu . .	1,395,387	94·99
Muslim . .	63,104	4·30
Jain . .	4,365	0·30
Sikh . .	479	0·03
Christian . .	5,289	0·36
Other religions .	322	0·02

It will be seen from the above table that 94·99 per cent of the total population are Hindus, 4·30 per cent Muslims, 0·30 per cent Jains and 0·36 per cent Christians. Among others, 479 are Sikhs, 58 Buddhists and 264 follow other religions and persuasions.

4·11 Scheduled Castes and Scheduled Tribes

4·11 (i) Scheduled Castes

The total population of Scheduled Castes as per 1961 Census is 51,846 which forms 3·53 per cent of the total population of the district. The following table gives the figures of Scheduled Castes for total/rural/urban.

Scheduled Castes, 1961

Total/Rural/ Urban	Persons	Percentage of the total population
1	2	3
Total	**51,846**	**3·53**
Rural	45,197	3·44
Urban	6,649	4·29

The literate and educated among the Scheduled Castes number 9,343 and constitute 18·02 per cent of the total population of Scheduled Castes of the district. The respective percentages of literates among them living in villages and towns are 15·86 and 32·68. The working population accounts for 25,610 persons or 49·40 per cent of their population in the district. Workers in special occupations like (i) tanning and currying of hides and skins and (ii) scavenging number 238 (0·46 per cent) and 489 (0·94 per cent) respectively of the total population of Scheduled Castes of the district.

Tables of SCT series in Census of India, 1961—Volume V—Gujarat-Part V-A show details as to number of Scheduled Castes/Tribes, industrial categories, marital status, religion, etc, for each Scheduled Caste/Tribe. Sex and percentage distribution of Scheduled Castes population by rural/urban in the district is shown in the table given below.

Percentage distribution of Scheduled Castes population by rural/urban, 1961

Name of Scheduled Castes	Total population			Sex		Percentage to total population of the district			Percentage of each Scheduled Caste population	
	T	R	U	M	F	T	R	U	R	U

Unclassified	1,964	1,806	158	1,018	946	0·13	0·12	0·01	91·96	8·04

N = Negligible

The predominant Scheduled Castes in the district are Mahyavanshi, Dhed, Vankar or Maru Vankar having 22,208 souls or 1.51 per cent of the total population of the district, of whom 94.70 per cent live in villages.

4.11 (ii) Scheduled Tribes

Scheduled Tribes claim 503,214 or 34.26 per cent of the total population of the district and 18.27 per cent of the Scheduled Tribes of the State.

The following table gives the figures of Scheduled Tribes in the district.

Scheduled Tribes, 1961

Total/Rural/ Urban	Population	Percentage of total population
1	2	3
Total	**503,214**	**34.26**
Rural	493,733	37.57
Urban	9,481	6.12

The following table shows the percentage distribution of different Scheduled Tribes population by rural/urban in the district.

Percentage distribution of Scheduled Tribes population by rural/urban, 1961

Unclassified	2,731	2,645	86	1,395	1,336	0·19	0·18	0·01	96·85	3·15

N=Negligible

The predominant Scheduled Tribes in the district are Bhil, including Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, etc., having 402,992 souls or 27.44 per cent of the total population and 80.08 per cent of the total Scheduled Tribes of the district of whom 98.79 per cent live in villages.

The literate and educated among them number 33,566 or 6.67 per cent of whom 32,128 are returned from rural areas and 1,438 from urban areas. This shows that the extent of literacy among tribal people is very low in comparison to 30.45 per cent literacy in the State as a whole.

Out of the total of 2,754,446 belonging to Scheduled Tribes population in the State, the Panchmahals district is having 503,214 persons or 18.27 per cent of the State. Their main concentration is in Santrampur (110,038), Jhalod (102,131), Dohad (130,976) and Limkheda (73,185) talukas. Santrampur formed part of former Santrampur State and Limkheda of former Devgad Baria State. Dohad and Jhalod formed part of the British territory.

During the famines of 1919-1920 and 1921-1922 Shri Thakkar Bapa, the Veteran Social Worker was engaged in the relief work in the talukas of Dohad and Jhalod. Struck by the poverty and backwardness of the Bhil Patelias, a Scheduled Tribe living there, he established in 1922 one Ashram at Mirakhedi on the border of these two talukas with the idea of imparting education to the children of Bhils and preparing social workers from the tribals themselves. Satisfied with the progress made by this institution during a short period, he started the Bhil Sevamandal in 1923. The aims and objects of the Mandal are to ameliorate the conditions of the adivasis living in the hills and jungles and also to produce genuine workers. In response to the appeal of Mahatma Gandhi in 1921 to leave colleges and take up constructive work, some promising students took up the work undertaken by Shri Thakkar Bapa. Some of them are even to-day in the forefront in the field of social work carried out among the tribals in the country and have rendered yeoman service to the country. The Bhil Sevamandal established by Thakkar Bapa conducts 13 Ashrams, 11 Ashramshalas and one school. As a result of this constructive work undertaken by the Sevamandal, Dohad, many tribal people have been educated and are also coming forward in public life.

5 HOUSING

5.1 Housing Census for the first time

In previous censuses, occupied census houses used as dwellings alone were numbered and listed. Non-residential houses such as shops, factories, workshops, temples, mosques, schools, sarais, office premises and business houses, etc., were not entered in the house-list, as it was not necessary to do so for the purposes of enumeration. They have been brought under the purview of the 1961 Census when a regular housing census was taken for the first time with a view to account for all structures, dwellings or non-dwellings. With the adoption of a uniform house-list throughout the country, important data such as material of wall and roof, tenure status and number of rooms in case of households, number of persons per room and essential data such as name of the proprietor, products manufactured, number of persons employed and kind of fuel or power, if machinery is used in case of workshops and factories, have been collected for the first time on this occasion.

5.2 Types of Census houses and their uses

The following table gives the distribution of different types of census houses and the uses to which they are put.

Census houses and the uses to which they are put, 1961

Sl. No.	Type of Census houses	Census houses	
		Number	Percentage to total No. of Census houses
1	2	3	4
1	**Total No. of Census houses**	**329,670**	**100·00**
2	Vacant houses	18,767	5·69
3	Dwellings, shop-*cum*-dwellings workshop-*cum*-dwellings	263,446	79·91
4	Shops and business houses	7,344	2·23
5	Factories, workshops and worksheds	1,901	0·58
6	Schools, places of entertainment, medical and social institutions	2,284	0·69
7	Hotels, restaurants and other miscellaneous houses	35,923	10·90

Out of a total of 329,670 houses, 79.91 per cent were used as dwellings, 5.69 per cent were vacant and the rest were used for non-residential purposes such as shops, business houses (2.23 per cent), factories and workshops (0.58

per cent); schools, places of entertainments and medical and other social institutions (0.69 per cent) and other miscellaneous uses as hotels, restaurants and other places, etc. (10.90 per cent). 90.20 per cent of the households lived in owned houses and the rest (9.80 per cent) in rented ones. In rural areas 96.23 per cent live in owned houses while 3.77 per cent live in rented houses. In urban areas 46.55 per cent of the households live in houses of their own and 53.45 per cent reside in rented houses. The higher proportion of rented houses in urban areas indicates the increased demand of houses on the part of those attracted towards towns. An analysis of the material of wall and roof shows that the predominant materials were burnt bricks and mud in case of walls and tiles and corrugated iron sheets in case of roof. The percentage of households having walls with mud and burnt bricks was 50.73 and 14.86 respectively. Households having roofs covered with tiles, etc., accounted for 73.57 per cent and those with grass, leaves, reeds, thatch, wood or bamboo 15.22 per cent.

5.3 Households classified by number of members and rooms occupied

The most important classification, however, was one by the number of rooms in the houses occupied by sample households, given in the following table.

Households classified by number of members and number of rooms occupied, 1961

(Based on 20% Sample)

Number of rooms	Percentage of total households	Percentage of total members
1	2	3
No regular room .	0.08	0.06
1 room . .	74.82	73.45
2 rooms . .	19.78	20.38
3 rooms . .	3.55	3.99
4 rooms . .	0.96	1.05
5 rooms or more .	0.81	1.07

According to this classification 74.82 per cent of the households lived in houses with one room, 19.78 per cent in houses with two rooms and 5.32 per cent in houses with more than two rooms. The population living in these two rooms and less jointly account for 93.83 per cent of the total sample population. The number of members per room in households occupying houses with one room was 5.40 per cent while that for households living in houses with 2 rooms was 2.83 per cent. These figures amply reflect growing overcrowding and the inadequate housing facilities in the district as in the State as a whole.

5.4 Housing Societies

There were 66 housing societies with a membership of 1,672 and share capital of Rs. 225,000.

6 AGRICULTURE

6.1 Land Utilisation

The utilisation of land resources forms a major item in any programme of economic planning in an economy which is predominantly agricultural. It reveals the various uses to which land is put and also indicates improved ways of exploitation of its resources for better production.

Land utilisation, 1956-57 and 1960-61

Sl. No.	Item	1956-57 Area in acres	1956-57 Percentage of total area	1960-61 Area in acres	1960-61 Percentage of total area
1	2	3	4	5	6
1	**Total geographical area** .	2,221,600	100.00	2,187,900	100.00
2	Area under cultivation .	1,224,600	55.12	1,174,100	53.66
3	Area other than cultivation .	997,000	44.88	1,013,800	46.34
	(i) Cultivable waste, permanent pastures and other grazing lands .	252,800	11.38	263,800	12.06
	(ii) Others .	744,200	33.50	750,000	34.28

Note:
The figures for the year 1956-57 are for the district as constituted then and not as constituted in 1961. Further details are available in Official Statistics Table 3.1 published in Part II of this Handbook.

Comparison between the previous years is not possible (i) in view of the changes in classification of land utilization and (ii) territorial changes in the district. In 1960-61, the area under cultivation was 53.66 per cent of the total geographical area and that put to uses other than cultivation 46.34 per cent. Of the latter 38.10 per cent is cultivable waste, permanent pastures and grazing lands and 8.24 per cent of forest, barren and uncultivable land.

6.2 *Crapping Pattern*

The changes in the cropping pattern during the quinquennium can be seen from the following table.

Percentage of area under different crops during 1955-56 and 1960-61

	Crop	1955-56	1960-61
	1	2	3
1	Rice	20.24	23.59
2	Wheat	3.98	1.68
3	Jowar	2.70	2.70
4	Bajri	4.37	3.80
5	Maize	N. A.	25.68
6	Other cereals	31.23	8.91
	Total cereals	*62·52*	*66.36*
7	Tur	1.03	1.56
8	Gram	11.21	5.79
9	Other pulses	2.08	2.13
	Total pulses	*14.32*	*9.48*
10	Sugarcane	0.02	0.05
11	Potatoes	0.01	..
12	Fruit and Vegetables (excluding potatoes)	0.09	0.12
13	Condiments and spices	0.33	0.39
	Total food crops	**77·29**	**76.40**
14	Ground-nut	10.46	14.21
15	Sesamum	1.30	1.21
16	Castor seeds	0.20	0.13
17	Other oil seeds	0.05	0.04
	Total oil seeds	*12.01*	*15.59*
18	Cotton	6.37	4.67
19	Other fibres	1.10	0.55
	Total fibres	*7.47*	*5.22*
20	Tobacco	0.25	0.22
	Total drugs and narcotics	*0.25*	*0.22*
21	Other non-food crops	2.98	2.57
	Total non-food crops	**22.71**	**23.60**
	Total net area cropped	**100.00**	**100.00**

Details as to area and outturn for the years 1950-51 to 1960-61 for the above crops are available in Official Statistics Table 3.2 in Part II of this Handbook.

The principal food crops of the district are maize, rice, pulses and bajri. Ground-nut, cotton and fibres are the main non-food crops. Maize is the most predominant crop of the district. The percentage comparison of different crops indicates that the cropping pattern has practically remained unchanged except for a negligible decline in food crops from 77.29 per cent in 1955-56 to 76.40 per cent in 1960-61, with a corresponding gain of 0.89 per cent in non-food crops. While ground-nut has risen from 10.46 per cent in 1955-56 to 14.21 per cent in 1960-61, a small decline in cotton is accounted for by a corresponding increase in the oil seeds. Other cereals (34.59 per cent) mainly include maize which alone accounts for 28.27 per cent. Among crops, maize (25.68 per cent), rice (23.59 per cent), ground-nut (14.21 per cent), pulses (9.48 per cent) and cotton (4.67 per cent) account for 80.22 per cent of the total cropped area. During the period from 1955-56 to 1960-61, the area under food crops has gone down by 0.89 per cent with the corresponding increase in non-food crops.

6.3 *Crop Calendar*

The months of sowing and harvesting of different crops are given below.

Crop Calendar

Name of crop	Months of sowing	Months of harvesting
1	2	3
Rice	June	September-October
Wheat	November	February
Jowar	June	October
Bajri	September	December
Maize	June	September
Gram	October-November	February-March
Ground-nut	June-July	October-November
Sesamum	June	October
Sugarcane	April-May	January-February
Cotton	June	December–March

7 LIVESTOCK

7.1 *Livestock*

According to the livestock censuses of 1951, 1956 and 1961, the cattle population of the district is found to be distributed as under.

Livestock, 1951, 1956 and 1961

Categories of livestock	1951	1956	1961
1	2	3	4
Total livestock	**1,218,459**	**1,297,510**	**1,305,183**
A Bullocks and Cows	715,830	728,222	737,555
1 Males over 3 years	360,585	367,149	394,549
2 Females over 3 years (in milk)	180,294 (75,729)	179,875 (60,382)	185,626 (45,652)
3 Young-stock	174,951	181,197	157,380
B Buffaloes	210,955	239,153	247,643
1 Males over 3 years	1,152	1,190	934
2 Females over 3 years (in milk)	118,218 (62,595)	127,790 (64,500)	141,261 (53,142)
3 Young-stock	91,585	110,173	105,428
C Sheep	20,320	10,486	7,024
D Goats	261,517	309,184	300,580
E Horses and Ponies	3,748	3,783	3,967
F Mules	87	1	2
G Donkeys	5,425	5,447	6,159
H Camels	363	1,233	1,905
I Pigs	14	1	348

The livestock population in the district shows a slight increase during the last ten years as seen from the returns of the cattle censuses of 1956 and 1961. Number of bullocks over three years has increased steadily from 360,585 in 1951 to 367,149 in 1956 and 394,549 in 1961. Though the number of cows over 3 years has decreased from 180,294 in 1951 to 179,875 in 1956, it has increased to 185,626 in 1961. Buffaloes show a gradual rise during the decade, however, the figures of males over 3 years and milch buffaloes have varied significantly. The number of sheep and mules has declined steeply while that of goats increased to 309,184 in 1956, but again decreased to 300,580 in 1961. Among others the number of camels has increased to a great extent.

7.2 *Agricultural Tools and Implements*

The number of wooden ploughs in 1951 were 180,222 which increased to 183,958 in 1956 and rose to 202,076 in 1961. But the number of iron ploughs has been found to be increasing steadily as they rose to 573 in 1956 and 751 in 1961 from 490 in 1951. The number of carts in 1951 was 31,706 which slightly declined to 30,220 in 1956 and further declined to 29,976 in 1961.

The number of sugarcane crushers in the district is declining steadily from 178 in 1951 to 123 in 1956 and only 86 in 1961. The number of oil engines has substantially increased during the decade from 296 in 1951 to 464 in 1956 and 727 in 1961. The number of tractors also rose from 18 in 1951 to 27 in 1956 and to 84 in 1961. Oil ghanis show a slight increase in their number from 302 in 1956 and 337 in 1961.

8 IRRIGATION

In 1960-61, the percentage of net area irrigated to net area sown was 2·4. As regards the sources of irrigation the most important source is well water which accounts for 85.61 per cent of the net irrigated area in 1960-61. Next in importance is Government canals which account for 14.03 per cent of the total area irrigated as against 0.36 per cent only by tanks. Comparing distribution of irrigated area under different crops, it is seen that wheat occupied the first place and had 13,200 acres or 47.48 per cent of the total area under irrigation in 1960-61. Maize is the next crop having 3,600 acres or 12.95 per cent under irrigation followed by chillies having 2,300 acres, i.e., 8.27 per cent.

9 CO-OPERATION

The total number of co-operative societies at the end of the co-operative year ending 30th June 1961 was 1,062 with total membership of 102,495. The share capital was Rs. 56.42 lakhs and working capital Rs. 418.56 lakhs. Average membership is 96 persons while share capital and working capital per society are Rs. 5,312 and Rs. 39,412 respectively.

The number of societies according to four major groups during 1960-61 was as under.

		Number
1	Agricultural credit societies	800
2	Agricultural non-credit societies	40
3	Non-agricultural credit societies	47
4	Non-agricultural non-credit societies	162
5	Others	13

Agricultural credit societies dominate the field with 75.33 per cent of the total societies in 1960-61. 800 agricultural credit societies advanced loans to the tune of Rs. 40.66 lakhs at the end of 30th June, 1961. Loans advanced by agricultural credit societies per society were Rs. 5,083 whereas the average amount of loan per member was Rs. 73. The number of agricultural credit and non-credit societies during this period was 840 which constituted 79.09 per cent of the total number of societies in the district. Out of 209 non-agricultural societies, there were 66 co-operative housing societies, 67 industrial co-operative societies, 4 consumers' co-operative societies and 72 other types of non-agricultural co-operative societies.

10 ECONOMIC ACTIVITY

10.1 Definitions

The criterion of income or economic independence was adopted for measuring the economy of the country during the past censuses. On the present occasion emphasis is on the work done or the economic activity pursued by an individual so that all people such as family workers and children who work but do not earn enough for their maintenance are also accounted for as workers. Another important change relates to the presentation of the economic data according to the nine industrial categories of workers and non-workers instead of the eight livelihood classes classified by self-supporting persons and their dependents in 1951.

Status of Employment

Persons doing work other than that as cultivator or agricultural labourer or engaged in household industry have been classified into following four categories :—(i) Employer,

(ii)Employee, (iii) Single worker and (iv) Family worker. In view of the wide range of economic data included in this section, it will be useful to define in brief the various terms used.

(i) *An Employer* is a person who has to employ other persons in order to perform the nature of work undertaken by him.

(ii) *An Employee* is a person who usually works under some other person for salary or wages in cash or kind.

(iii) *A Single Worker* is a person who works by himself but not as head of household in a household industry. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually.

(iv) *A Family Worker* is a member of the household who works without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work everyday during the working season.

Industries are classified as household and non-household. A household industry is defined as an industry which is not run on a scale of a registered factory and conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. Rest of the industries, viz., business, trade, profession or service are non-household industries.

10.2 Distribution of workers and non-workers

The following table gives the distribution of population by workers and non-workers.

Distribution of population by workers and non-workers, 1961

Workers /Non-workers	Persons		Percentage to total population	
	State	District	State	District
1	2	3	4	5
Total population	**20,633,350**	**1,468,946**	**100·00**	**100·00**
Workers .	8,474,588	753,770	41·07	51·31
Non-workers .	12,158,762	715,176	58·93	48·69

The following Statement shows the distribution of workers into 9 industrial categories.

Distribution of workers and percentage of total workers, 1961

Sl. No.	Category of workers	Population		Percentage of total workers	
		State	District	State	District
1	2	3	4	5	6
1	As cultivator	4,519,060	633,848	53·32	84·09
2	As agricultural labourer	1,252,000	30,248	14·77	4·01
3	In mining, quarrying, livestock, forestry, fishing, hunting, plantation, orchards and allied activities	104,850	5,624	1·24	0·75
4	At household industry	555,606	22,557	6·56	2·99
5	In manufacturing other than household industry . .	536,159	5,470	6·33	0·72
6	In construction	90,043	1,924	1·06	0·26
7	In trade and commerce	411,156	14,440	4·85	1·91
8	In transport, storage and communications . . .	159,061	9,864	1·88	1·31
9	In other services	846,653	29,795	9·99	3·96

The population of the district is distributed into workers and non-workers in the ratio of 51.31 : 48.69. Amongst the working population, cultivators account for 84.09 per cent and agricultural labourers 4.01 per cent only as against 53.32 per cent and 14.77 per cent respectively for the State. The overwhelming percentage of cultivators among the working population of the district shows that the economy of the district is mainly agricultural.

Even the percentage of agricultural labourers is insignificant in this district and the household industries have not developed as yet. Inference can also be drawn that the impact of urbanisation is least in the district. It is significant to note that the percentage of agricultural labourers in the district is lowest in the whole State, which shows that the tribals living in forest areas do not require any outside assistance to carry out cultivation.

10.3 Class of Worker

Industrial classification by sex and class of worker of persons at work in household and non-household industry is shown in details in Census Tables B-IV-A and B in this Handbook.

Persons at work in household industry

	Persons	Percentage
Total	**22,557**	**100·00**
Employees	579	2·57
Others	21,978	97·43

As stated earlier, household industry is run mostly by members of the household, the need for having employees working for salary or wages being negligible.

Persons at work in non-household industry, trade, business, profession or service

	Persons	Percentage
Total	**67,117**	**100.00**
Employers	6,413	9.56
Employees	34,436	51.31
Single workers	20,587	30.67
Family workers	5,681	8.46

It will be seen from the above figures that in non-household industries, trade, business, profession or service, employees (51.31 per cent) predominate and account for ½ the workers engaged in these categories, wherein single workers account for 30.67 per cent, employers 9.56 per cent and family workers 8.46 per cent only.

10.4 Principal and Secondary work

Principal work : In case of a person who is engaged in more than one productive activity, the principal work is the one on which the person spends most time.

Secondary work : The work which is the next in importance to his principal work which occupies most time is secondary work.

Persons working principally as cultivators, as agricultural labourers or at household industry and following any of these as secondary work as given in Table B-VII Part-A are as under.

(A) Persons working principally as cultivators and doing secondary work—

(i) at household industry	12,187
(ii) as agricultural labourers	6,576

Persons working principally as agricultural labourers and doing secondary work—

(i) at household industry	258
(ii) as cultivator	749

Persons working principally at household industry and doing secondary work—

(i) as cultivator	3,117
(ii) asagricultural labourer	156

(B) In Table B-VII Part-B persons working in non-household industry, trade, business, profession or service who are also engaged in household industry are 80.

Persons who are working principally as cultivators and to whom household industry is a secondary activity are proportionally larger, probably due to the fact that small holders of land prefer to take up household industry as their secondary means of livelihood rather than go in as agricultural labourer. Similarly the fact that a large proportion of workers at household industry work at cultivation to supplement their income also bring out the complementary nature of cultivation and household industries.

10.5 Occupational Classification

The two concepts, viz., industry and occupation are quite distinct, though often mistaken for each other. 'Industry' means that sector of economic activity in which the earner is engaged. e.g., textile industry, automobile industry, whereas the 'occupation' describes the exact function that an individual performs in that economic activity, e.g., fitter, carpenter, etc.

Table B-V in Part-II shows the distribution of persons at work other than cultivation. This type of detailed classification based on National Classification of Occupations has been done for the first time in 1961. The

percentage distribution for the State and the district is given below.

Percentage distribution of workers according to Occupational Divisions, 1961

	Occupational Division	State	District
	1	2	3
0	Professional, technical and related workers	5.95	8.04
1	Administrative, executive and managerial workers	2.32	2.88
2	Clerical and related workers	6.41	6.23
3	Sales workers	13.88	14.84
4	Farmers, fishermen, hunters, loggers and related workers	11.73	14.93
5	Miners, quarrymen and related workers	0.58	2.21
6	Workers in transport, storage and communication occupations	4.24	5.25
7-8	Craftsmen, production process workers and labourers, not elsewhere classified	46.67	38.02
9	Service, sport and recreation workers	7.96	7.04
X	Workers not classified by occupation	0.26	0.56

The higher proportion of 14.93 per cent in the district for Occupational Division 4 relating to farmers, fishermen, etc., against the corresponding proportion of 11.73 per cent in the State can be attributed to the greater percentage of persons in the rearing of cattle, logging of woods in the forests. etc., and other allied activities in rural areas. The most important occupational divisions in the State as well as the district are Division 7-8 Craftsmen, production process workers and labourers, not elsewhere classified and Division 4 Farmers, loggers and related workers. The occupational pattern in so far as it relates to division 5 relating to miners, quarrymen and related workers obtaining in the district (2.21 per cent) is entirely different from that obtaining in the State (0.58 per cent). This may be due to the fact that manganese mines employing about 1,500 persons are located at Shivrajpur. Workers in division 6, i.e., in transport and communication occupations are also higher by about 1 per cent over that of the State as the interior of the district is connected by bus routes and Freelandganj near Dohad is having a railway workshop for the repairs of engines, wagons, etc., employing about 3,000 persons.

10.6 Non-workers

Non-workers account for 715,176 persons, 325,126 males and 390,050 females. The distribution of non-workers by eight broad categories is shown in Table B-IX in Part II. Percentage distribution of non-workers by sex according to their type of activity is shown below for total/rural/urban, 1961.

Distribution of non-workers according to type of activity, 1961

Sl. No.	Categories of non-workers	Total/Rural/ Urban	Males	Females
1	2	3	4	5
1	Full-time students	T	29.02	7.93
		R	26.40	5.77
		U	46.35	17.86
2	Household duties	T	0.44	27.44
		R	0.47	22.29
		U	0.27	51.13
3	Dependents, infants and disabled	T	68.61	63.78
		R	71.96	71.10
		U	46.52	30.11
4	Retired, rentiers, etc.	T	0.83	0.72
		R	0.55	0.72
		U	2.69	0.70
5	Beggars, Vagrants	T	0.29	0.11
		R	0.24	0.11
		U	0.63	0.14
6	Inmates of penal, mental and charitable institutions	T	0.04	N
		R	0.01	N
		U	0.20	N
7	Persons seeking employment for the first time	T	0.40	0.01
		R	0.21	N
		U	1.63	0.04
8	Employed before but now seeking work	T	0.37	0.01
		R	0.16	0.01
		U	1.71	0.02

The distribution pattern of non-workers among males and females is very dissimilar. Among male non-workers, 29.02 per cent are students and 68.61 per cent dependents, which jointly account for 97.63 per cent as against 7.93, 63.78 and 71.71 per cent respectively among females. There is general absence of household duties among males who claim 0.44 per cent in this category against 27.44 per cent among females.

The higher percentage of full-time students in the urban sector as compared to rural is, however, explained by the greater consciousness and opportunity townspeople have in the matter of education. The percentage of females engaged in household duties is found to be higher in urban areas than that in rural areas, as womenfolk in villages in addition to their attending to household chores also participate in agriculture and household industry. While the percentage of persons employed befo e but now seeking work is insignificant for males, that for females is 0.01 which is practically negligible.

11 INDUSTRIES AND POWER

11.1 Registered Factories

There were 64 registered factories in the district at the end of the year 1960, employing on an average 5,175 persons daily. From the point of view of employment offered, Government and local fund factories are the most important industries in the district. There were 5 such factories in the district employing on an average 2,845 persons or 54.98 per cent of the total factory employment per day. Next in importance to Government and local funds factories is food, drinks and tobacco industry with 32 units which employed 906 persons and constituted 17.51 per cent of the total employment in factories. Important amongst the rest are the metal and minerals with 12 units which employed 602 persons. Since the district comprises mostly forest areas where the population is mainly tribal, industries have not developed except manganese mines at Shivrajpur and railway workshop at Freelandganj. There are no other large scale industries in this district. This shows that the district is industrially backward.

11.2 Joint Stock Companies

There were 5 joint stock companies functioning on the 31st March, 1961 with authorised capital of Rs. 2,300,000 and subscribed capital of Rs. 1,737,300. The authorised and subscribed capital per joint stock company comes to about Rs. 460,000 and about Rs. 347,460 respectively. The joint stock companies classified as processing and manufacturing of foodstuffs, textiles, leather and products thereof dominate the joint stock field with a total authorised as well as subscribed capital of Rs. 1,500,000. While such companies constitute 40·00 per cent of the total number of joint stock companies, their authorised and subscribed capital account for 65·22 per cent of authorised and 86.34 per cent of subscribed capital of all the joint stock companies floated in the district.

11.3 Banking

There has been a steady increase in the banking facilities available in the district since 1950-51. The number of scheduled and co-operative bank offices in 1960-61 was 6 and 29 respectively. It is interesting to note that co-operative bank offices which formed 68.75 per cent of total banking institutions in the beginning of the First Plan have risen to 82.86 per cent in 1960-61.

11.4 Small Scale Industries

The district does not have well developed cottage and small scale industries. The main cottage industries in the district are bamboo products, paddy husking and bricks and tiles. There were 516 establishments engaged in bamboo industry giving employment to 1,153 persons. This industry has become important in the district because of the availability of bamboo in its forest areas. Similarly, there were 284 establishments for paddy husking employing 584 persons and 1,379 establishments of bricks and tiles employing 3,434 persons.

11.5 Electricity and Power

Godhra Electricity Supply Company is the chief source of electric power in the district in addition to two other power-houses, viz., Gujarat Electric Board and Amalgamated Electricity Supply Company. The utilisation of electricity has increased substantially during the Second Five Year Plan. From 1,924 thousand K.W.H. in 1950-51 it has gone up to 2,953 thousand K.W.H. at the beginning of the Second Five Year Plan and shot up to 4,953 thousand K.W.H. in 1960-61.

The utilisation of electricity under industrial power has shown appreciable rise from only 1,835 thousand K. W. H. in 1955-56 to 2,870 thousand K.W.H. in 1960-61 revealing the greater demand made by industries on the use of electricity in recent times.

Table given below gives the pattern of utilisation of electricity in the district in the years 1950-51, 1955-56 and 1960-61.

Units of electricity sold, 1950-51, 1955-56 and 1960-61

['000 K.W.H.]

Year	Kilowatt hours sold to public for: Domestic consumption	Commercial light and power	Industrial power	Other purposes	Total utilisation of electricity
1	2	3	4	5	6
1950-51	*697	86	1,017	124	1,924
1955-56	*764	144	1,835	210	2,953
1960-61	*1,614	134	2,870	335	4,953

*Includes figures of commercial use also in case of those private licence holders who have not furnished separate figuers for domestic and commercial consumption

The foregoing figures show that the pattern of utilisation of electricity has radically changed in 1960-61 as compared to that in 1955-56.

11.6 Factories and Workshops classified by power and no power used

Statistics of census houses used as factories, workshops and worksheds classified by power and no power used have been compiled for the first time during the Census of 1961 and extracted below for the State and district.

Factories and workshops classified by power and no power used, 1961

Power/ Fuel	Rural/ Urban	State		District	
		No. of factories, etc.	Percentage of total	No. of factories, etc.	Percentage of total
1	2	3	4	5	6
Total	**R**	**34,447**	**100·00**	**1,787**	**100·00**
	U	**45,686**	**100·00**	**1,745**	**100·00**
Electricity	R	1,248	3·62	3	0·17
	U	12,311	26·95	250	14·33
Liquid fuel	R	4,687	13·61	159	8·90
	U	1,282	2·81	31	1·78
Coal wood and bagasse	R	3,039	8·82	152	8·50
	U	3,453	7·56	103	5·90
Other power	R	82	0·24	..	..
	U	85	0·18	..	..
No power	R	25,391	73·71	1,473	82·43
	U	28,555	62·50	1,361	77·99

The foregoing table is restricted to census houses used as factories and workshops classified by power and no power used in 1961. Factories using electricity in rural and urban areas of the district are proportionately less than those in the State. The proportion of factories using electrical power is less in villages than in towns, both in the district and the State, owing to the paucity of electric supply and industries in rural areas. The use of liquid fuel in the villages is less in the district than that in the State. However, the proportion of fuels other than electricity is observed to be higher in villages than in towns. The proportion of unit using no power is obviously higher both in rural and urban areas in the State owing to predominance of traditional crafts and industries in the State economy. The special pattern of power distribution in the district is that 14.33 per cent of factories and workshops in urban areas are run by electricity. Except these, most of the industries are run without power as 82.43 per cent of industries in rural areas and 77.99 per cent in urban areas are run without power. This shows the backwardness of the rural economy of the district.

12 TRANSPORT AND COMMUNICATIONS

12.1 Roads

In the past decade, i.e., 1950-51 to 1960-61, there was significant development in road communications. The total road mileage in the district in 1951 was 476.13 comprising 0.12 miles of cement concrete, 447.28 miles of water bound macadam roads and 28.73 miles of murram and other lower types of roads. The road mileage in the district increased to 592.03 miles in 1955-56 and 680.36 miles in 1960-61. In addition to the increase in road mileage, there was considerable improvement in the road surface. In 1950-51, the district had only 0.12 miles of cement concrete roads, which has increased to 85.41 miles by the end of 1960-61. During 1950-51, there were no asphalt roads in the district but 154.09 miles of such roads have been constructed by 1960-61.

The table given below shows the classification of roads into National Highway, State Highway, other district roads and village roads.

Type of roads (in miles), 1960-61

Sl. No.	Type of roads	Mileage
1	2	3
	Total	**680·36**
1	National Highway	..
2	State Highway	162·11
3	Other district roads	484·88
4	Village roads	33·37

On the eve of the First Five Year Plan, total rural mileage was 11.52 which increased to 33.37 miles in 1960-61. No National Highway passes through this district. Other types of roads included 162.11 miles of State Highway, 484.88 miles of other district roads and 33.37 miles of village roads. Classifying the road mileage in the district into metalled and non-metalled surface, it is noticed that out of a total of 680.36 miles, 566.09 miles or 83.20 per cent are metalled and 114.27 or 17.80 per cent non-metalled as against the

corresponding mileages of 447.40 miles or 93.97 per cent and 28.73 miles or 6.03 per cent in 1950-51 under these two categories. All-weather motorable roads have thus increased by 118.69 miles or 26.53 per cent during the decade.

STATE TRANSPORT AND PRIVATE TRANSPORT

There were 71 routes at the end of December 1961 connecting 83 towns and villages connected by State transport bus.

12.2 Railways

The total railway mileage in this district is approximately 157.50 miles which includes broad-gauge as well as narrow-gauge. The total mileage under broad-gauge is 98.00 miles, the narrow-gauge accounting for the remaining 59.50. There are no metre-gauge railway lines in this district.

Out of 10 talukas and 1 mahal, 8 talukas are served either by the broad-gauge or the narrow-gauge section. Jambughoda mahal and Santrampur and Jhalod talukas have no railway facility. There are 34 railway stations on the broad-gauge and narrow-gauge lines.

12.3 Posts and Telegraphs

There were 142 branch offices and 19 sub-post offices at the end of 1960-61; of these 13 sub-offices had telegraphic facilities also. Out of the total of 1,923 villages, 795 villages did not have any postal and telegraph facility. 5,078 radio licenses were issued on 31st March, 1961.

13 MEDICAL AND PUBLIC HEALTH

13.1 Medical Institutions

During 1960, medical facilities in the district were provided by the State through 21 medical institutions, which include 4 hospitals, 13 dispensaries and 4 rural health centres. The staff in these institutions consisted of 6 doctors and 21 nurses. The number of beds in the district was 175 and the number of indoor and outdoor patients treated was 8,231 and 154,018 respectively.

13.2 Vital Statistics

The statement given below shows vital statistics of the district for the year 1957-60.

Birth rate, death rate and natural increase in population, 1957-60

Year	Birth rate	Death rate	Natural increase in population
1	2	3	4
1957	36.2	11.6	24.6
1958	32.2	15.1	17.1
1959	38.1	11.3	26.8
1960	33.6	9.4	24.2

The data on vital statistics available being incomplete and defective are useful for drawing general conclusions only. They indicate a fall in the death rate and rise in the rate of survival which can be reasonably attributed to improvement in medical and health facilities since Independence.

13.3 Health Centres

The different public health measures to check the incidence of various diseases in the district are (a) vaccination and revaccination, (b) malaria control, (c) primary health centres and maternity and child welfare centres in rural areas, (d) water supply schemes and (e) family planning centres. During 1960-61, 27,636 persons were protected against malaria by covering 3,499.2 sq. miles by spraying D.D.T. powder. Under the programme of providing medical relief through primary health centres in rural areas 2 maternity and child health centres and 4 rural health centres were started in the district by 1960.

14 LABOUR AND SOCIAL WELFARE

The district is rather backward so far as major industries are concerned and it being non-industrial, trade unions do not exist.

There was one employment exchange at Godhra in the district. During the year 1960, the number of candidates registered was 6,711 and the number of applicants on live register at the end of the year was 3,978. Placement was provided to 428 candidates.

15 PRICE TRENDS

The average retail prices of important foodstuff during each calendar month of 1961 collected for Godhra, the headquarters of the district are given in Table 16.1 in Part II of this Handbook.

The prices of superior cereals like rice and wheat were the highest in the month of February and January respectively. The price of inferior cereals, viz., bajri was also the highest in the month of January; in pulses, gram recorded the highest prices in the month of December. The price of Arhar (dal) was the highest in the month of February, whereas moong and udid registered the highest prices in the months of April and February respectively.

16 COMMUNITY DEVELOPMENT

16.1 Community Development Programme

The Community Development Programme, a unique and bold effort to mobilise public enthusiasm and co-operation in rebuilding the rural economy of India was inaugurated in the district on 2nd October, 1953. Kalol project was first Community Development Project taken up in the district in October 1953. The programme since then has undergone various organisational changes as a result of the recommendations of the Balawantray Mehta Committee, appointed by the Planning Commission in 1957 to examine the working of the C.D. programme and related matters and to recommend measures for improving the quality, tone and content of the programme. In pursuance of the recommendations of this committee the existing distinction between N.E.S. stage, intensive development stage and the post-intensive stage was abolished with effect from 1st April 1958. All the blocks under the All India Programme except blocks in the C.D. stage which had not completed their three years' period on 1st April, 1958 were classified into stage I and stage II blocks with revised financial patterns and periods of operations. The Community Development Blocks, on completing their period, will enter stage II. A stage I block has a five-year period of operation with a ceiling of expenditure of Rs. 12 lakhs for this period. It is "The Intensive Development phase in which people's participation would be promoted as the method of Community Development and panchayats will be intimately connected with the formulation of the Plans for their respective areas. The degree of success attained in the First Stage will be the evidence of the growth and functioning of self-reliant rural communities, which is the basic objective of the pgroramme". Stage II of the programme with a provision of Rs. 5 lakhs for 5 years will seek to intensify the operation of the method of Community Development in its fuller amplitude and will have greater emphasis on Community Development rather than on development programmes as such.

16.2 Coverage of Programme

The following table gives the type, area, villages and population covered under the programme by March 1961.

Coverage under Community Development Programme by type of block

Name of the block	Date of inauguration	No. of blocks of CPA pattern	Area covered in sq. miles 1961	No. of towns and villages covered	Population 1961
1	2	3	4	5	6
Stage I					
Godhra	1-5-1956	2	420·9	164	215,427
Limkheda	1-4-1957	1½	..	..	..
Santrampur	2-1-1957	1¾	526·5	400	188,734
Jambughoda	1-4-1960	½	57·9	56	16,629
Shehera	1-4-1958	1	226·4	89	89,982
Stage II					
Kalol	2-10-1953	1	154·5	70	99,775
Pre-extension service					
Devgad Baria	12-6-1959		447·3	187	174,706
Halol	14-6-1959	1½	196·1	128	100,173
Jhalod	2-10-1959	1½	312·3	152	120,996
Dohad	1-5-1960	2	337·5	124	188,625
Lunavada	20-5-1960	1½	359·1	341	147,097

By 1960, the entire district was covered under the programme.

The total expenditure incurred till that date amounted to Rs. 8,228,000 as against people's contribution of Rs. 2,411,000 or 29.30 per cent of the total expenditure. The physical and financial progress achieved under the I & II Stage of blocks up to the year ending 31st March, 1961 have been given in Official Statistics Table 15.1 published in Part II of this Handbook.

17 FIVE YEAR PLANS

The decade 1951-61 roughly corresponds to the First and Second Five Year Plans.

All available expenditure figures of the district under various schemes of the Second Five Year Plan are given below.

Headwise expenditure incurred during the Second Five Year Plan

Sl. No.	Head/Sub-head of Development	1956-61 (Rs. in '000)
1	2	3
	Grand Total . . .	**35,657.1**
1	Agriculture and Community Development	5,390.8
1.1	Agriculture Production . .	816.9
1.2	Land Development . .	13.2
1.3	Minor Irrigation . .	1,002.3
1.4	Warehousing and Marketing .	537.9
1.5	Animal Husbandry . .	3.2
1.6	Forest . . .	827.2
1.7	Soil Conservation . .	961.9
1.8	Fisheries . . .	2.5
1.9	Community Development, etc. Rural Development . .	221.0
1.10	Co-operation . . .	1,004.7
2	Irrigation and Power . .	15,530.5
3	Industry and Mining . .	77.9
4	Transport and Communications .	8,923.0
5	Social Services . . .	5,727.3
5.1	Education . . .	3,555.2
5.2	Health . . .	1,048.6
5.3	Housing . . .	761.0
5.4	Other Social Services . .	302.5
6	Scientific and Industrial Research .	7.6

The above statistics reveal that 58.67 per cent of total Second Plan expenditure is spent on agriculture, community development, irrigation and power. The expenditure incurred on transport and communication was to the tune of Rs. 8,923,000 or 25.02 per cent and on education 3,555,200 or 9.97 per cent.

17.2 Achievements

A short resume of achievements in the district in the Second Five Year Plan is given below.

For the development of agriculture, the important schemes undertaken were the distribution of improved seeds, chemical fertilizers, insecticides, contour bunding and land survey. As many as 19 schemes were taken up for the development of agriculture in the district. Eleven taluka seed farms were established during the Plan period. During the Second Five Year Plan period, 6,161 tons of town compost were prepared and 225 tons of super sulphate were distributed free.

ANIMAL HUSBANDRY

Twelve veterinary centres were opened in the district bringing the total number of centres to 25. One artificial insemination centre was also started. For the improvement of the poultry, two centres were started at Dohad and Santrampur.

FOREST

The schemes undertaken for implementation under this head were: (i) control of the movement of forest products, (ii) development of agave hedges, (iii) lac culture, (iv) development of bamboo trees and (v) experimental centres for soil conservation. In Devgad Baria, 282 miles of agave hedges were raised and old ones mended. The development of lac during the Second Plan period was achieved by culturing 5,000 trees for lac.

IRRIGATION

The following schemes were undertaken during the Second Plan period.

KAROD RIGHT BANK CANAL

This scheme was undertaken at a cost of Rs. 99·88 lakhs and was started during 1955-56 and completed during the Second Plan period. It covered an area of 2,500 acres. Under minor irrigation schemes, 14 works were completed and 13 works were under progress during the Second Plan period. The completed works will irrigate an area of 4,000 acres.

CO-OPERATION

During the decade 1951-61, the co-operative movement made a considerable headway. The number of co-operative societies increased from 360 in 1951 to 1,062 in 1961 and the number of members from 51,805 to 102,495. Agricultural credit societies numbered 800 and dominated the field of co-operation.

Education and Social Services

During the Second Plan period primary schools were established in villages having population of more than 200. During the Second Plan period, 2 training centres for primary teachers were started, one each at Baria and Santrampur.

At the end of the Second Five Year Plan 14,430 adults were made literate. 289 youth clubs, 120 Mahila Mandals and 1,040 Farmers' unions were also organised. 107 libraries/ reading rooms were started during the said period.

Uplift of Backward Classes

The ameliorative measures adopted by the Government for the uplift of backward classes include abolition of untouchability, special amenities and relief for the economic and social uplift of these handicapped classes. Milestone in the direction of legislations for the abolition of untouchability under article 17 of the Constitution were the Bombay Harijan Social Inequality Abolition Act, 1949 and the Bombay Harijan Temple Entry Act, 1947. This included the administration of private agencies and common hostels, the propaganda through films, posters, radio, drama and singing of folk-songs. Private social institutions recognised in the district performing above activities and propaganda are:—

(1) Bhil Seva Mandal, Dohad.

(2) Panchmahal Kelvani Mandal, Kalol.

In addition to the continuance of untouchability abolition campaign, male and female social workers were appointed. Also one Balwadi and two cultural centres were opened with a dual purpose of abolition of untouchability and uplift of Scheduled Castes/ Tribes.

Under the schemes formulated by the Government, backward classes were given certain concessions. Prior to the First Plan, 11 hostels for the backward classes were functioning, while during the First Plan two more hostels were started and 5 more were added during the Second Plan. Scheduled Castes and Scheduled Tribes were given priority at the time of disposal of waste lands. Financial assistance in the form of loans for digging new wells and for repairs of old ones were also advanced liberally by the Government.

Co-operative societies for the housing of backward class people were given financial aid by the Government for improving their living condition. Government had decided to give 2½ gunthas of land in the industrial city of Ahmedabad and in other areas 4 gunthas to agriculturist member and 2 gunthas to non-agriculturist member of Scheduled Castes/Tribes for housing purposes at concessional rates. As regards the cost of land, waste land worth Rs. 5 was given free and if the cost exceeded Rs. 5 the excess was borne by the Societies.

The pioneering work done by Shri Thakkar Bapa in this district has established very good traditions of work and created a band of social workers devoted to the uplift of Scheduled Tribes.

Medical and Public Health

During the Second Plan period the building of the Godhra Civil Hospital was considerably renovated at an expenditure of Rs. 6.21 lakhs. A cottage hospital was also started at Lunavada and a mobile dispensary at Sanjeli in 1959. Five Family Planning Centres were started during the Second Plan period at a cost of Rs. 25,000. Training arrangements for dais and sanitary inspectors were also made.

Roads and Projects

The work of constructing 112 miles of new roads was undertaken and completed besides constructing of 8 bridges on the various rivers in the district during the Second Plan period.

Small Savings

That small savings campaign in the district has received good response from the people, is evident from the following figures of target fixed and net collections made for the quinquennium 1957-58 to 1960-61.

Year	Target (Rs. in lakhs)	Investment in small savings (in Rs.)	Percentage
1	2	3	4
1957-58	24	1,126,751.74	46.24
1958-59	20	1,601,974.60	80.10
1959-60	20	2,423,441.47	121.17
1960-61	25	4,120,510.67	164.82

The net collection as revealed from the above figures has overtaken the target in 1959-60 by 21.17 per cent further exceeded by 164.82 per cent in 1960-61.

18 IMPORTANT PLACE NAMES

18·1 Important Places

Important places in the district are :—

Champaner	Once a famous city, but now only a small village, Champaner is at the foot of Pavagadh Hill. It derivesits name from Champa, a bania who founded it during the reign of Vanraj of Anhilvad
Derol	An important trade centre for ground-nut oil and bricks
Devgad Baria	Former State Capital of that name, now taluka head-quarters and an important marketing centre in grains and forest produce. Temple of Kalika Mata on the hill is worth seeing
Dohad	A border-town on the frontiers of Gujarat and Malwa having ashrams for boys and girls conducted by Bhil Seva Mandal established by Thakkar Bapa, who did pioneering work for the uplift of down-trodden in the country
Freeland-ganj	Has a railway workshop for the repairs of locomotives and manufacturing of parts of railway engines employing about 5,000 workers
Godhra	District headquarters of great antiquity referred to as " the camp of victory " in the fifth century
Kadana	A small village in Santram-pur taluka where a big dam on river Mahi is being constructed
Lunavada	Capital of former Lunavada State. The old fort, Royal Palace, Kisansagar, Vasant-sagar and Natheri tanks, Bava hills and temples of Ranchhodji and the Luneshwar Mahadev are places of interest
Mirakhedi	The Central Survoday Centre of the district and Kali dam are worth visiting
Pavagadh Hill	One of the Shakti-piths having the temple of Kalka Mata where people from all over Gujarat come on pilgrimage
Shivrajpur	Well-known for its mines of manganese ore of which large quantities are exported
Tuwa	Well-known for natural hot water springs containing sulphur

Details of these and other places will be found in the Brief Gazetteer of place names given in this Handbook.

18·2 Ancient Monuments

Official Statistics Table 18.3 gives details of each ancient monument together with the name of the village, place of location, the period of architecture, brief description, etc.

18·3 Fairs and Festivals

About 157 important fairs and festivals are celebrated at different places in rural and urban areas of the district. The details regarding the place where it is held, name of the fair/festival, the date on which it is held/ observed and the estimated congregation are shown in the Official Statistics Table 18·2 of this Handbook.

GAZETTEER OF PLACE NAMES

DISTRICT PANCHMAHALS

V.P.=Village Panchayat; G.P.=Group Panchayat; M=Municipality;
P.=Population; N.=North Latitude; E.=East Longitude.

1 Bakor, V. P. (Taluka Lunavada), P. 2,212

It is situated 15 miles north of Lunavada on the Lunavada-Malpur Road. Two miles south of the village, in deep forest, is the ancient site known as *Kaleshri-ni-nal* with an old temple of *Kaleshri Mata*. There is also an ancient *Shivalaya* the sculpture of which is contemporary to that of Modhera and Patan. There is a place called *Pandav's Chora* where it is believed the *Pandavas* stayed when in exile. It has an everflowing stream of water and a square kund well built in stone, with clean and cool water. Huge pieces of broken but typical sculptured arches, *Khambis*, domes, etc., lying all around indicate that the shrine is an ancient one. A very big step-well built in stone also exists on the top of the hill.

A fairis held at the *Kaleshri Mata* on *Janmashtami* (August) every year when the congregation amounts to about 1,500.

2 Bavka, G. P. (Taluka Dohad), P. 2,905

This village is about five miles south-west of Dohad with which it is connected by a pucca road. There is a very old and ruined temple of *Mahadev*, which is of archaeological interest. At the entrance of the shrine is the figure of *Ganpati* holding in his hands what appears to be a battle-axe. On the outside there are three belts of sculpture of rude and indecent figures, elephants, men and beasts. According to a local legend, the temple was built by the courtesans at the time of the prosperity of Hindus of Champaner (746-1483).

In memory of the penance made by *Valmiki Rishi*, a fair is held at this village on the *Ambli Agiarash, Falgun Sud* 11 (March), when about 800 people assemble.

3 Bhavero (alias Ratanmal), V.P. (Taluka Limkheda), P. 124

18 miles south-east of the Piplod railway station on the Bombay-Delhi broad-gauge section of the Western Railway and 25 miles east of Devgad Baria near village Kanjeta. this village has a notable hill about 1,800 feet high, on the plateau of which are the remains of a small temple of *Mahadev*. Bamboos grow in plenty. A big fair attended by about 5,000 people from the Panchmahals, Baroda districts and Madhya Pradesh (mostly Adivasis) is held here on *Akhatrij* (April).

4 Chakalia, V. P. (Taluka Jhalod), P. 3,023

This village is situated on the boundary of Gujarat, Madhya Pradesh and Rajasthan. It is at a distance of 17 miles from the Dohad railway station on the Bombay-Delhi broad-gauge section of the Western Railway. One mile from the village there is a hill known as the *Radha's Karad* (precipice) which is worth seeing. There are the temples of *Hanumanji* and *Gugaldev Mahadev* where a fair is held on *Maha Vad* 13 (February) and another on *Ambli Agiarash, Falgun Sud* 11 (March), when about 5,000 to 7,000 people of all communities attend. The river Anas flows nearby.

5 Champaner, V.P. (Taluka Halol), P. 1,033, 20° 30′ N., 73° 30′ E.

It is situated at the foot of the Pavagadh hill four miles east of Halol railway station on the Champaner Road-Pani Mines narrow-gauge section of the Western Railway and on the Godhra-Bodeli Road, 32 miles from Baroda and 27 miles from Godhra.

The name of the place comes from *Champa*, a *Bania* or a *Kunbi* who founded it during the reign of Vanraj of Anhilvada (746-806).

Later Mahmud Begada captured the town from Jaysinh Raval in 1484 and made it his capital. Till the death of Bahadur Shah (1536) Champaner remained the political capital of Gujarat. In Champaner of those days great buildings were erected and gardens laid out. Sandal trees grew so freely that their timber was used in house building. Champaner had good streets and squares and houses built of stone and with fountains. Merchants and craftsmen thronged its streets; its sword blades became noted for their sharpness and silks for their bright colours. The country around was very fertile, full of abundant provisions of foodgrains, vegetables, fruits and cattle. In the vicinity there were hunting grounds for deer and other animals. During this time the city continued to grow on account of the close connection between Malwa and Gujarat. After the pillage of the city by Emperor Humayun in 1535, however, the city began to lose its importance. Under the Moguls so much of the country under Champaner had lapsed into forest that it became a hunting ground for wild elephants. There were only 500 inhabitants in the town when the British took it in 1803. The city now in ruins has a stone wall, a fort, ancient monuments such as the *Juma Masjid*, *Champanath Mahadev*, *Mandvi* (Customs House), *Khund Pir Durgah*--42 monuments in all. There are big gates, several wells, step-wells and lakes like *Vada Talao*. The fort of the Sultanate period, the city mosque, the *Juma Masjid* and the *Nagina* mosque are monuments of archaeological interest.

About 3,000 people take part in each of the following five fairs held annually at Champaner:—

1 and 2. The *Maha-Kali* fair held on *Margshirsh Sud* 2 and another on *Margshirsh Sud* 13 (November); 3 and 4. The *Parashnath* fair held on *Ambli Agiaras*, *Falgun Sud* 11 (March) and again on *Chaitra Sud* 8 (April); 5. The *Nauratri* fair held on *Ashvin Sud* 8 (September).

6 Chosala, V.P. (Taluka Dohad), P. 1,711

This village is about seven miles north of Dohad with which it is connected by State Transport Bus Service. The village has a cave containing the idol of *Devkedar Mahadev*, where a fair is held every year on the *Ambli Agiarash*, *Falgun Sud* 11 (March), attended by about 2,000 people.

7 Delol, V. P. (Taluka Kalol), P. 4,845

It is situated on the river Goma, about 2 miles from the Derol railway station on the Bombay-Delhi broad-gauge section of the Western Railway and about 2 miles from Kalol on the Baroda-Godhra Road. The place is well-known for its industry of converting *tur* into *tur dal*. At the ancient temple of *Ramnath Mahadev*, the village panchayat organises a fair on *Janmashtami* (August) and on *Maha Shivratri* (February).

8 Derol, V. P. (Taluka Kalol), P. 3,583

This is a railway station on the Bombay-Delhi broad-gauge section of the Western Railway. There are five oil mills, two pulse mills and two rice mills in the village which is also an important trade centre for ground-nut oil and bricks. A big fair attended by about 5,500 people is held on *Janmashtami* (August).

9 Devgad Baria, M., P. 11, 472, 22° 42′ N., 73° 51′ E.

It is the terminus of the narrow-gauge section Piplod-Devgad Baria of the Western Railway, starting from Piplod which is a junction station on the Bombay-Delhi broad-gauge section. It was previously the capital of the Baria State, rulers of which belonged to the same class of Khichi Chohan Rajputs who were the rulers of Chhota Udaipur. About the middle of the 18th century the Maratha armies under Udaji 'Puar' and Malharrav Holkar entered Baria but acknowledged the ruling kings as their chiefs and encouraged them to protect the country from free-booters. During the reign of Gangdas, the son of Yashvantsing, Baria suffered from Maratha raids. In 1803, the British forces took the Gujarat Districts of Daulatrav Sindia. As the British success was greatly due to the friendship and goodwill shown by Gangdas to the British, he was declared entitled to British protection. In 1824, the State agreed to pay a certain amount to the British which was later on applied for the good of the people or in matters connected with the management of the Rewa Kantha Agency. Baria became a place of much importance by 1785 when it was used as a thoroughfare between Gujarat and Malwa.

The palace of the former rulers of Baria is some way up the Devgad hill and is enclosed by a fort wall which stands partly on the Devgad hill and partly on the plain. As Baria is now the headquarters of the taluka it has the Mamlatdar's and other taluka offices, besides the office of a Divisional Forest Officer and a Training College for primary teachers. There is a seed multiplication farm in 38.29 acres for raising seeds of crops like maize, paddy, ground-nut, cotton, wheat and jowar. Devgad Baria is an important marketing centre in grains and forest produce such as timber, firewood, charcoal, timru leaves, mahuda flowers, lac, wax, gum and honey.

On the hill there are many temples among which that of the *Kalika Mata* is worth seeing. A fair is held at Devgad Baria on *Ashvin Sud* 10 (September) every year, in commemoration of the victory of *Rama* over *Ravan*, when 15,000 to 20,000 people assemble.

10 Dezar, G. P. (Taluka Lunavada), P. 331

About 12 miles from Lunavada, a railway station on the Godhra-Lunavada narrow-gauge section of the Western Railway, this holy place has an ancient temple of *Shiva* just on the bank of the river Panam. The popular belief is that by taking bath at this place one gets free from all kinds of sins.

A fair is held at the place on *Mahashivratri* (February) when about 10,000 people assemble.

11 Dohad, M..P. 35,483, 22° 50' N., 70°18' E.

This town is on the Bombay-Delhi broad-gauge section of the Western Railway, about 43 miles east of Godhra. 'Dohad' (*Do-had*) means 'two borders' and the town bears the name as it is on the border of Gujarat and Malwa.

It is a very old town. In early times *Dadhichi Rishi* is said to have lived there. The river was called Dadhimati after his name; a temple on its bank was dedicated to *Dudheshvar Mahadev* and the town was named *Dudhipurnagar*. It remained under Rajput Chiefs till Sultan Ahmed I defeated Dongar Raja in 1419. It passed to the Emperor Akbar towards the end of the sixteenth cent ry, to the Sindia about the middle of the eighteenth century and under the British management in 1853. The Mogul Emperor Aurangzeb is said to have been born in the historical fort of Dohad. The old monuments are the Chhab Talao with flights of steps all round, the Chandan Talao and the caravan-sarai built in 1619 by Emperor Shah Jehan in honour of Aurangzeb's birth.

Dohad is the headquarters of the Dohad Taluka and also of the Dohad sub-division. Besides Secondary High Schools, Dohad has a Government Technical High School and the Industrial Training Institute and Ashrams for boys and girls conducted by the Bhil Seva Mandal established by Thakkar Bapa who dedicated his life to the cause of the amelioration of this backward section of the society, the Training Centre for Adivasi Gram Sevikas, the Muvalia Farm and Agricultural School and the Muvalia Central Bhil School. It is a marketing centre for local products like wheat, maize, rice, castor-oil and animal products like hides and vegetables.

A fair is held on *Janmashtami* (August) when 5,000 to 7,000 people assemble.

12 Doli, V. P. (Taluka Santrampur), P.1,763

This place is about nine miles away from Santrampur, the headquarters of the taluka.

On the second Sunday of *Bhadrapad* (September), a *Zala* fair with a congregation of about 4,000 people is held here in memory of *Shri Virganathji Zala* who used to cure cattle diseases about 60 years ago.

13 Freelandganj (Taluka Dohad), P. 14,951

About a mile away from Dohad, Freelandganj is a railway colony with a railway workshop employing about 5,000 workers for the repairs and manufacture of parts of railway engines, etc., for the Western Railway.

14 Garbada, V. P. (Taluka Dohad), P.6,538

This village is twelve miles south of Dohad with which it is connected by a pucca road on which State Transport buses ply. At this place Sindias had a *Gadh* (fort); and thereafter the village came to be known as Gadhbara and therefore Garbada. There is a big tank in the village, the water of which is used for irrigation purposes. The village is the second biggest in the Dohad taluka and a marketing centre for the surrounding villages. There are a purchase and sales union godown, a cloth

shop and a grain shop, a District Co-operative Bank, a dispensary and a secondary school.

A fair known as *Gay Gohari* fair is held here on *Kartik Sud* 1 (October) Hindu New Year day when about 1,000 persons attend. Agriculturists and others paint and decorate their cattle and collect them at the fair and make them run over the participants who are believed not to be injured, even though they lie down in their way.

15 Ghoghamba (Rajgadh), V. P. (Taluka Devgad Baria), P. 1,446

It is connected by bus service with Halol 16 miles away, and with Devgad Baria 31 miles away from it. The railway station Pavagadh is at a distance of 10 miles on the Champaner-Pani Mines narrow-gauge section. There is a secondary school, a branch post office, a savings bank and a sub-Inspector's office. There is an old temple of *Vaijnath Mahadev* on the bank of the river Karad.

16 Godhra, M. (Taluka Godhra), P. 52,167, 22° 46' N., 73° 40' E.

This is a junction railway station on the main line Baroda-Ratlam of the Western Railway.

This town is of great antiquity and is said to have been referred to as 'the camp of victory' in a brass plate of the fifth century. Under the Rajput dynasties of Anhilvad (746-1298) this town had no importance, probably because Champaner was their chief settlement. It was, however, one of the centres of government in eastern Gujarat, before Champaner was conquered by the Sultans of Ahmedabad. In 1480, Mahmud Begada chose Godhra as the headquarters of one of his five provinces (viz., Ahmedabad, Jagat, Godhra, Songadh and Thana) and retained its former importance even after Champaner became his capital in 1484. When transferred to the Emperor Akbar in 1573, it had ten sub-divisions with 501 villages. Under the Moguls, the lands were surveyed and the number of sub-divisions raised to twelve. In 1724, it was taken by Kantaji Kadam Bande. Since then Godhra has continued to be the headquarters of the Panchmahals district, first under Sindia (1770-1853), then under the British and finally under the Government of India after Independence. The town was burnt in fires in 1857, 1875 and 1948. Major parts have, however, been reconstructed. In the centre of the town is the Ramsagar tank so named as the images of *Ramchandra, Laxmanji* and *Sitaji* were found from it. A beautiful Municipal garden stands on the bank of the tank. A big modern temple of *Gokulnathji* erected by the Vaishnavas in the new bazar and the historical sites of *Sati-Pati* and *Sasu-Vahuni Vav* near the new college are worth seeing. There are Sir P. T. Arts and Science College, the Telang High School for Commerce, the Government Technical High School and Industrial Training Institute, the M. and M. Mehta High School with Fine Arts Section, two other High Schools, the Basic Training College for Women and the Gandhi Ashram run by the Harijan Sevak Sangh. Being in the vicinity of forest, Godhra is known for its wood work. The town is the chief marketing centre for foodgrains. Its main exports are timber, maize and oil seeds. There are oil and pulse mills, a rice mill and saw-mills, a bone factory and a leather production centre.

A fair organised by the *Sanchalak* of the *Akaleshwar Mahadev* is held annually on *Janmashtami* (August) when about 15,000 people of the surrounding villages assemble.

17 Halol, V. P., P.11,053

It is a taluka headquarters town and railway station on the Champaner-Pani Mines narrow-gauge section of the Western Railway. It is also connected with Baroda (25 miles) and with Godhra (24 miles) by State Transport buses. In 1484, one of the most beautiful gardens for which Champaner and its suburbs like Halol were famous was situated at Halol. Among the ancient monuments are a mosque constructed by Bahadur Shah (1525-36) and a well built tank. There is a seed farm of 58.13 acres in Halol. Quarrying of stone on the east of the town up to the Pavagadh hill is a recent development.

18 Jambughoda, V. P., P. 1,310

It is 7 miles from Bodeli, a railway station on the Jambusar-Chhota Udaipur narrow-gauge section of the Western Railway, and has the advantage of the State Transport bus service on the Godhra-Bodeli Road. It was formerly the capital of the small State of Jambughoda and now it is the headquarters of the Jambughoda mahal. It is one of the only two villages with a population of over 1,000 in the whole of the mahal. A fair held annually on *Shravan*

Vad 8 *Janmashtami* day (August), is attended by 5,000 people from the Mahal. Another fair is organised by the Maharana of Jambughoda on the *Dasscra* day, *Ashvin Sud* 10 (September), when 4,000 people assemble.

19 Jesawada, V. P. (Taluka Dohad), P. 1,707

Nine miles away from the Dohad railway station, Josawada is connected with it by road. Bhil Seva Mandal Ashrams for boys and girls and a secondary school are situated in the village. The village panchayat organises a fair, called the *Gol-Gadhedo* (Jaggery-donkey) fair, on every *Falgun Vad* 5 (March) when about 2,000 Bhils and Bhil-Patelias assemble. The fair is so called because a young man climbing up a wooden pillar to reach the jaggery at the top is beaten with bamboo sticks by young girls dancing in a circle.

20 Jetpur, G. P. (Taluka Jhalod), P. 1,505

This is about two miles by road from Jhalod, the headquarters of the taluka. Water supplied from the Titodi tank irrigates about 1,500 acres of land. On the Titodi river there are stone-quarries from which stones are exported. In the past there was a city named Jodhpuri on the site where Jetpur stand to-day. Remains of temples, step-wells tanks and old coins have been found on excavation.

21 Jhalod, V. P., P. 10,089, 23° 7′ N., 74° 10′ E.

It is 22 miles from Dohad which is the nearest railway station with which it is connected by a pucca road on which State Transport buses ply. In 1879 Jhalod is described as having no characteristics of a town or city, except a market, a mosque, a small temple, some solidly built two-storey high brick houses and a large and handsome pond. It is the headquarters of the Jhalod taluka. There are taluka offices, the Bhil Seva Mandal Ashrams, viz., the Shabri Ashram for girls and the Titodi Ashram for boys. Jhalod is a centre of trade for wheat, gram and maize and has an oil mill and a rice mill.

A fair on *Janmashtami* (August) is held at Jhalod at which about 1,500 people from the surrounding villages assemble.

22 Kadana, V. P. (Taluka Santrampur), P. 872

Kadana, which is 12 miles from Santrampur, is connected with it by a pucca road on which State Transport buses ply and is situated on the river Mahi.

In the past Kadana was a small State. About the middle of the 13th century, Kadana was established as a separate power by Limdevji, descendant of Jalamsing, the founder of Jhalod. Since then it remained as a separate State even under the British Political Agency. At present it is a small village in the Santrampur taluka. A big dam on the the river Mahi is being constructed at Kadana with a view to utilising 5,500 cubic feet of water for irrigating surrounding lands and to generate hydro-electric power to the extent of 6,000 K.W. in the first stage and 10,000 K.W. in the second stage.

Near the site of the dam, on the opposite bank of the river Mahi, there is the temple of *Nadinath Mahadev* in the hills where a fair known as the *Math-Kotal* Fair is held from *Maha Sud* 14 to *Maha Vad* 1 (February), when about 25,000 people visit the place.

23 Kalol, V. P., P. 9,683, 22° 37′ N., 73° 31′ E.

It is situated two miles from the Derol railway station on the Bombay-Delhi broad-gauge section of the Western Railway and 15 miles west of Godhra on the Godhra-Baroda road, Kalol stands on the bank of the river Goma. Kalol was described in 1879 to be a prosperous town and the centre of the richest cultivation in the Panchmahals.

At present it is the headquarters of the Kalol taluka with the Taluka Offices, an inspection bungalow and a town hall. There are a hospital, a balmandir, a maternity home conducted by the Bhagini Samaj and two gardens. Sand from the river Goma is exported. Wheat, rice and jaggery are imported in large quantities for the villages of Kalol and Halol talukas.

24 Kankanpur, V. P. (Taluka Godhra), P. 4,071

This village is situated on the bank of the river Kun ten miles from Godhra near the Veganpur railway station on the Anand-Godhra broad-gauge section of the Western Railway.

It is believed that in ancient times there was a big city named Kankawati. The village is known for its ancient *Shivalaya* called *Kankaneshwar Mahadev* and an old step-well. Good crops of paddy, cotton and groundnut are raised in the village. On Sunday next to *Sud* 8th of *Bhadrapad* (August), a fair named *Jhala Dev* is held here every year, the congregation being about 2,000 people.

25 Karanta, V.P. (Taluka Lunavada), P. 1,095

This place is about 12 miles from Lunavada. It is a holy place known for the tomb of *Pir Mahmoodsha* in whom people of all castes have faith. It is believed that persons afflicted by spirits and ghosts get relief by visiting this tomb (*Dargah*).

26 Karoli, V. P. (Taluka Kalol), P. 3,412

This village is about six miles from Vejalpur which is near the Kharsalia railway station on the Bombay-Delhi broad-gauge section of the Western Railway and is situated on the bank of the river Goma. On the opposite bank of the river, there is an ancient temple dedicated to *Mahadev* and on the hill near the village there is a temple of *Takti Bai*. It is said that the village has been named Karoli after the name of *Karan Nayak*. There is the 'Sardar Vallabhbhai Patel Adivasi Chhatralaya' run by the Panchmahals Prathmik Kelavni Mandal.

27 Lilva Thakor, V. P. (Taluka Jhalod), P. 1,228

It is three miles from Limbdi which is on the Dohad-Jhalod Road. Alongwith two other small villages, viz., Lilva Deva (P. 414) and Lilva Poker (P. 179), it stands on the site of the old Lilawati town where according to the local legend the *Pandavas* stayed in their exile. There are temples of God *Sheshnarayan* and Goddess *Chamunda*, *Sheshnarayan* fair held on *Chaitra Sud* 15 (April) attracts about 3,000 to 4,000 people from the surrounding villages. There are also ancient temples of five Gods—*Ramchandra*, *Lakshman*, *Krishna*, *Hanumanji* and *Mahadev* and a *Panch Krishna* fair attended by about 1,500 Adivasis is held annually on *Maha Sud* 15 (February).

28 Limdi, V. P. (Taluka Jhalod), P. 5,118

Seven miles from Jhalod, Limdi is a big village in the Jhalod Taluka, from which five pucca roads start in different directions. The river *Machhan* flows at a little distance. The village derives its name from one serviceable man named *Limba* who stayed there under a *Limda* (Neem) tree. The lands round about are fertile yielding good crops particularly of chillies. It is a trade centre, chiefly exporting vegetables. There is a Bhil Seva Mandal Chhatralaya and a secondary school. A fair is held on *Gokul Ashtami*, *Shravan Vad* 8 (August), when about 6,000 people from the surrounding villages assemble.

29 Limkheda, V. P., P. 975

It is a railway station on the Bombay-Delhi broad-gauge section of the Western Railway, about 25 miles east of Godhra on the Godhra-Dohad road. It is the headquarters of the Limkheda taluka which is a part of the former Baria State. There are also a small rest-house, the Bhil Seva Mandal Ashram, the Seva Ashram and a secondary school.

This village is a trading centre for the surrounding villages and a weekly market (hat) is held every Saturday.

30 Lunavada, M., P. 16,533

This is the terminus on the Godhra-Lunavada narrow-gauge section of the Western Railway, about 25 miles from Godhra and on the God ra-Lunavada road on which State Transport buses ply regularly. It was formerly the capital of the Lunavada State the rulers of which claimed descent from the Solanki or Chalukya kings of Anhilwad (942-1243) and were known as Virpura Solankis. The Lunavada town was founded in 1434 by Rana Bhimsinhji. In 1718, Raja Narsingji built the wall round the town. In the beginning of the 18th century Lunawada was a trade centre for merchants passing from Ratlamgad and other parts of Malwa to Ahmedabad and Central Gujarat. The artisans were particularly skilful and arms and other military accoutrements were easily available.

At present Lunavada is the headquarters of the Lunavada taluka. The S. K. High School and Panch Sheel High School, the Luneshwar Kanya Vidyalay, the Sanskrit Pathshala, the Pragati Mandir (Backward Class Chhatralaya) run by the Harijan Sevak Sangh are important institutions. There are also a library and a hospital. The old fort,

the royal palace, the big tank Kisansagar, another tank Vasantsagar, the Natheri tank and the Bawa hills, the temples of *Ranchhodji* and *Luneshwar Mahadev* and *Nathbawa's Akhada* (wrestling ground) are among the places of interest in Lunavada. About one hundred oil *ghanis* and two *tur dal* (pulse) mills are located here. The chief trade consists of oil, timber, charcoal, other forest products, foodgrains, safes, guns and iron weapons.

Fairs are held twice a year—one on the *Shivratri* day, *Magh Vad* 13 (February) and another on the *Janmashtami* day, *Shravan Vad* 8 (August), when about 2,000 people gather together at the temples of *Mahadev* and *Ranchhodji* respectively.

31 Malav, V. P. (Taluka Kalol), P. 3,545

This village is about six miles from Kalol with which it is connected by a road on which State Transport buses ply. The village is known for a forest *Satyagrah* launched in 1930. There is plenty of paddy crop in the village. There is a tank named Malav from which water is given to the neighbouring villages for irrigation.

32 Medapur, V. P. (Taluka Kalol), P. 8,017

This village is about four miles on the south-east of Kalol. In the middle of the Karad river, near this village, there is what is known as *Chakki-no-A'ro* (Grinding Stone Bank). There is a legend that a certain *Raja Sulochan* of Benaras was troubled with the growth of hair on the palms of his hands, which grew on account of his sins. He went to the famous sage *Vishvamit a* who lived where Pavagadh now stands. *Vishvamit a* told him that if he performed a sacrifice at a spot in the river where a sacred grind stone lay, his sins would be destroyed. The *Raja* built a place of sacrifice and cut a conduit in the rock to feed the sacrificial fire with butter. He thus became free from his sins and from the hair growth. The river became known as Hand or '*Kar*' subsequently named Karad Ganga and the place of sacrifice as the *Chakki-no-A'ro* or grinding stone bank. There is a cow-head stone structure from which water flows continuously.

The place is sacred and at eclipses of the sun and on *Somvati Amas* (i.e., when the last day of a lunar month falls on a Monday) people bathe.

33 Mirakhedi, V. P. (Taluka Jhalod), P. 826

This village is at a distance of seven miles from Dohad on the Dohad-Jhalod Road. The central Sarvodaya centre for the Panchmahals district is situated here. Under this Sarvodaya Scheme, various activities were undertaken during the First and Second Five Year Plans for the development of 45 villages of Jhalod and Dohad talukas, which are inhabited by Scheduled Tribe of Bhils. There is also the Bhil Ashram run by the Bhil Seva Mandal. A big reservoir known as the Kali dam, fed by bunding the river Kali, supplies water needed for the Railway Workshop at Freelandganj.

34 Mota Hathidhara G. P., (Taluka Limkheda), P. 561

It is about a mile from Limkheda, a railway station on Bombay-Delhi broad-gauge section of the Western Railway.

There is an ancient temple of *Mahadev*, the sculpture of which is notable. A big fair is held here every year on *Amali Agiarash, Falgun Sud* 11, (March) when 5,000 to 7,000 people congregate.

35 Nadisar, V. P. (Taluka Godhra), P. 3,420

This is about 2 miles from Timba, a railway station on the Anand-Godhra broad-gauge section of the Western Railway and is situated on the bank of the river Mahi. The name of the village is given after the name of one of its kings named *Nand* whose statue in the form of a horse-rider stands on a hillock near the village.

There are temples of *Natakeshwar Mahadev, Nand Mata* and, on the bank of the river Mahi, *Chamunda Mata*. People who believe in ghosts go there to take bath as a precaution against harassment by ghosts. There are a library, a dispensary, a Gram Vikas Mandal and a Pragati Mandal. From the tank named Satelav water is given for irrigation of paddy crop.

36 Narukot, V. P. (Mahal Jambughoda), P. 378

Narukot is about 3 miles from Jambughoda on the road from Halol to Jambughoda.

Narukot was a petty State administered by the Agent to the Governor in the

Panchmahals. Before the transfer of the Rewa Kantha States to the British management some of the Naikda Chiefs in Rewa Kantha round Champaner were notorious as robbers and bandits. One such chief was that of Tokalpur, afterwards known as the Narukot State. In 1826, he along with such other chiefs agreed, under promise of pardon, to furnish security for his future good conduct to the Political Agent. Soon after that the office of the Political Agent in Rewa Kantha was abolished and the Gaekwad's manager was appointed to collect the yearly tribute from Narukot. The Gaekwad's post (*thana*) was established and, in exacting one half of revenue, the Commandant treated the people with such harshness that there was a revolt in 1837 which was put down with the help of British force. At the close of the operations, nearly the whole district was deserted and every village was burnt. On a promise of safety from oppression and of good treatment the people returned. On the establishment of order in 1837, the people became quiet and for many years remained wonderfully free from crime. In 1858, the Naikdas rose in arms and plundered Narukot. Afterwards they were joined by a number of Tatia Topi's men and the revolt could not be put down till March, 1859. Nine years later, Joria, a Naikda of Vadek, began to act as a *Bhagat* (a holy man) and claimed supernatural powers. He and Rupsing, also a Naikda, a pardoned outlaw and rebel, planned the establishment of Naikda kingdom and, with the help of a body of armed followers, attacked and plundered several Government posts. The *Bhagat's* forces were scattered on 16th February 1868 and their leaders captured, tried and hanged. The people, who were forgiven for their misconduct, settled in their villages and lived peacefully.

Narukot is at present one of the villages in the Jambughoda mahal and has an old fort in a dilapidated condition and an old step-well. There is an *Ashram* run by the Bhil Seva Mandal. The people sell gum, lac, leaves and other forest produce collected from the neighbouring forests.

37 Orwada, V. P. (Taluka Godhra), P. 2,608

Two miles from Sant Road, a railway station on the Bombay-Delhi broad-gauge section of the Western Railway, Orwada is a village where a fair is held on *Ambli Agiarash*, *Falgun Sud* 11 (March), when about 5,000 people assemble and worship *Lord Shiva*.

38 Palla, V. P. (Taluka Devgad Baria), P. 2,290

This village is two miles from Ghoghamba and about 28 miles from Baria.

A dam has been constructed on the river Karad near this village. This project which was started in 1955-56 during the First Five Year Plan and almost completed by the end of the Second, will irrigate a total area of 15,200 acres of land of the Baria and Kalol talukas.

39 Panchwada, V. P. (Taluka Dohad), P. 678

This is about 10 miles from Dohad on the Dohad-Alirajpur road on which State Transport buses ply. An irrigation dam on the river Khan near this village started in 1951-52 will be completed during the Third Five Year Plan, when it is expected to irrigate about 12,000 acres of land.

40 Pavagadh Hill (Taluka Halol)

This hill is at a distance of about three miles and a half from Halol, both Halol and Pavagadh being railway stations on the Champaner-Pani Mines narrow-gauge section of the Western Railway.

In 1300 A.D., the hill was in the possession of Chohan Rajputs who had fled from Ranthambhor in Mewad being pressed by the army of Ala-ud-din Khilji. They continued to hold it till 1484 when it was taken from them by Sultan Mahmud Begada who added to the defences both of the upper and lower forts and, for the first time, fortified the top plateau making it his citadel. In 1573, Pavagadh fell into the hands of the Emperor Akbar. In 1727, it was conquered by Krishnaji, the foster son of Kantaji Kadam Bande, who made it his headquarters. It was then taken in about 1770 by Sindia who held it till 1853 when it was made over to the British Government.

Pavagadh hill covers about twenty-six miles in circumference. The distance from the foot of the hill to the *Kalka Mata's* temple on its highest peak is about three miles. *Sat Mahal* or seven storeyed palace of the Chauhan

rulers which is partly in ruins has some architectural beauty. Down the face of the cliff, however, are three chambers of the palace one below the other about 20 feet square with three pillars on each side, which are connected by a stone staircase. About 100 yards above the Sadan Shah gate, stands the *Manchi Haveli*, a wooden structure, which is now used as a rest-house by pilgrims. Among the other places worth visiting are the *Makai Kothar* or Maize Granaries, *Nav Lakha Kothar* or nine lakh granaries, the Maulia or the Muslim citadel on the top plateau, the palace of Khapra Zaveri, the *masjids* in ruins near the *Manchi*, 10 forts and gates and the *Dudhia*, the *Chhasia* and the *Telia* tanks. At the top of the hill are *Mahakali*, *Bhadra Kali* and Jain temples. On the top of the hill there is a temple of *Kalka Mata* with three images-*Kalka Mata* in the centre, *Maha Kali* on her right and *Becharaa Mata* on her left. On the spire of the temple is the shrine of *Sadan Pir*, a Muslim saint, held in respect. The old temples on the hill are monuments of archaeological interest.

Pavagadh is a holy place for pilgrims from all over Gujarat, whose number ranges from 100 to 150 everyday. A pucca road from the bottom of the hill up to the *Manchi Haveli* is under construction and buildings for Holiday Camps are nearing completion. There is a Local Board *Dharmshala* and two sanitoria on the *Manchi Haveli*.

On *Chaitri Ashtami* [i.e., on *Chaitra Sud* 8, (April)], a fair is held at the temple of *Maha Kali Mata* when about 5,000 people congregate.

41 Piplod, V. P. (Taluka Devgad Baria), P. 4,045

This is a junction station on the Bombay-Delhi broad-gauge section of the Western Railway with a narrow-gauge line from Piplod to Devgad Baria. It is 20 miles from Godhra on the Godhra-Dohad road on which State Transport Bus Service plies.

It is a trading centre for forest produce. There are a Bhil Seva Mandal, Kumar Ashram and a Secondary School. The village panchayat organises three fairs—one on *Janmashtami* (August) which is attended by 8,000 to 9,000 people, another on *Ambli Agiarash, Falgun Sud* 11 (March), when the congregation is 4,000 to 5,000 people and a third one on *Dhuleti, Falgun Vad* 1 (March), in which 4,000 to 5,000 people participate.

42 Sagtala, G. P. (Taluka Devgad Baria), P. 494

It is about 11 miles from Devgad Baria on the Baria-Chhota Udaipur road on which State Transport buses ply. This place was selected by the Government of India for the introduction of *Saghan Kshetra Scheme* which lays stress on the manufacture of *Khadi* and development of *Gramodyog* or village industries in this Adivasi area in 1954-55. It was at this place that the Dohad Bhil Seva Mandal started its work of giving elementary education to the Adivasis years ago. Agriculturists have been induced to use improved seeds and chemical fertilisers and grow vegetables, fruits, etc. There are also forest labourers' societies, a seed godown, a co-operative society and S. M. P. Centre.

43 Sansoli, V. P. (Taluka Kalol), P. 2,610

This is about eight miles from Kalol by cart track.

There is an ancient idol of *Shri Nathji* about a mile away from the village, which is highly revered and worshipped by the people, besides a big temple of Hanumanji. There is the New English School. Crop of ground-nut is abundant.

A fair is held on *Janmashtami* (August) at which about 3,000 people congregate every year.

44 Santrampur, M., P. 6,569, 23°-13' N., 73° 55' E.

Situated on the bank of the river Chibot, Santrampur is 31 miles north of Sant Road, a railway station on the Bombay-Delhi broad-gauge section of the Western Railway and 44 miles from Godhra either *via* Sant Road or Lunavada. It is connected with Sant Road by a pucca road on which State Transport buses ply.

It was the capital of the former Sant State whose Chiefs, Puvar or Parmar Rajputs by caste, claim to belong to the *Mahipavat* branch of the famous Malwa dynasty in which there were *Vikram* of Ujjain in the first century before Christ and *Bhoj* of Dhar in the eleventh century of the Christian era. When Jalamsing of Jhalod was defeated and slain by the Muslims in 1247, his son *Sant* and his brother

Limdev, who were forced to leave Jhalod, retired to the hills. After a few years, *Sant* settled at the Bhil village of Brahmpuri and changed its name to Sant in 1255. After 1443, the Sant State was a tributary to the Muslim kings of Ahmedabad. When the Mogul Emperor Akbar (1572) succeeded the Ahmedabad kings in power, the tribute paid by the State was changed into service. In 1819, Sant was overrun by Sindia's troops but the British Government stepped in and managed the State. Permanent arrangements for the direct management were made by the British Government in 1873.

At present Santrampur is the headquarters of the Santrampur taluka. All the taluka offices are situated in Santrampur which has a High School and a Basic Training College for teachers. It is a trading centre for surrounding villages. There is one rice mill. The palace of the former ruler on the Joraver Sagar and the *Hava Mahal* on the hills are worth seeing.

45 Shehera, V. P., P. 5,813

It is a railway station on the Godhra-Lunavada narrow-gauge section of the Western Railway. It is 12 miles from Godhra on the Godhra-Lunavada road.

Its ancient name was Shivpuri, the town of many *Shivalayas*. Even to-day there are some *Shivlings* round the village. A mile away from the village there is a temple of *Maradeshwar Mahadev* in which the *ling* is 6 ft. high and about 10 ft. in circumference. The popular belief is that this *ling* grows higher every year by the length of a rice grain. It is the headquarters of the Shehera taluka. There are a Sarvajanik High School, a seed farm and a cotton ginning press. It is a business centre for the surrounding villages. The chief trade consists of foodgrains and timber. There is a big tank in the vicinity from which water is suppplied for irrigation.

The village was burnt twice during the past 50 years, the last in 1948 along with Godhra. during the communal riots. It has, however, been rebuilt.

46 Shivrajpur, V. P. (Taluka Halol), P. 8,001

It is a railway station on the Champaner-Pani Mines section of the Western Railway, twelve miles from Halol. It is known for its mines of manganese ore of which large quantities are exported.

Two fairs are held—one in the town and the other at the Shivrajpur Mines. The first is held on *Dharo Ashtami, Bhadrapad Sud* 8 (August), with a congregation of 5,000 persons and the second, called *Tejaji* fair, on *Bhadrapad Sud* 9 with a congregation of 6,000.

47 Sukhsar, V. P. (Taluka Santrampur), P. 1,065

This is 10 miles east of Santrampur and 10 miles west of Jhalod on a pucca road.

For the general uplift of 60 villages situated in the eastern part of the Santrampur taluka, a multipurpose development project was started in Sukhsar in 1956. Besides the project office, Sukhsar has an information centre, veterinary aid centre, public health centre, a seed godown, quarters for the staff, a secondary school, the *Varuna Ashramshala* run by the Bhil Seva Mandal for Adivasi boys and girls. It is also a bazar place for surrounding villages.

A fair is held at Sukhsar on *Maha Shivratri* (February) when about 5,000 people congregate. Another fair is held at *Sukhasareshvar Mahadev* on *Dhuleti, Falgun Vad* 1 (March), when 4,000 people attend.

48 Sutharvasa, V. P. (Taluka Jhalod), P. 1,714

This village is twenty miles from Dohad a railway station on the Bombay-Delhi broad-gauge section of the Western Railway.

It is said that in the past this village was inhabited by *Sutha's* (Carpenters) and hence the village was named Sutharvasa. At present most of the inhabitants are Bhils.

A *Gol-Gadhedo* (Jaggery-donkey) fair is held at this village on *Falgun Vad* 7 (March), when about 5,000 people, particularly Adivasis, congregate. A wooden pole is erected and at its top are tied some jaggery, a cocoanut and one and a quarter rupee. A young man climbs up the pole to get the stake at the top and as he climbs girls dancing in circle round the pillar beat him with bamboosticks used in the dance.

49 Timba, V. P. (Taluka Godhra), P. 2,703

It is about a mile from the Timba Road station situated on the Anand-Godhra broad-gauge section of the Western Railway. It is on hillocks on the bank of the river Kun.

There are many stone-quarries at Timba. Stone and rubble are exported by rail. There are also oil mills and a ginning factory, a co-operative society and a library.

50 Tuwa, V. P. (Taluka Godhra), P. 1,433

This is a railway station on the Anand-Godhra broad-gauge section of the Western Railway. There are natural hot water springs containing sulphur. Many people visit the place for taking bath in the hot water. The village has hullers and cotton-ginning presses. On *Ambli Agiarash, Falgun Sud* 11 (March), the trustees of the *Somnath Mahadev* organise a fair in which 8,000 to 10,000 people take part every year. The village panchayat organises a fair on *Maha Shivratri* (February) when about 2,000 people congregate for the *darshan* of *Somnath Mahadev.*

51 Vejalpur, V. P. (Taluka Kalol), P. 5,314

This big village is two miles from Kharsalia on the Bombay-Delhi broad-gauge section of the Western Railway and seven miles from Godhra on the Baroda-Godhra road.

There are a High School, an Urdu School, a Jain Shala, a Sanskrit Pathshala, a Vyayam Shala, etc. Vejaplur is a centre for trade in ground-nut, ground-nut oil and pulses. It has Forest Co-operative Societies. Near the village are the ruins of the old *Navlakhi Vav* (Step-well) and *Talavdi* (a small tank).

PART II

1 CENSUS TABLES

2 OFFICIAL STATISTICS

A—GENERAL POPULATION TABLES

Out of 4 tables of A Series compiled at this Census, Tables A-I, A-III and A-IV giving area, houses and population, classification of villages and towns have been reproduced in the District Handbook. They are the same as those given in 1951. The most distinguishing features, however, are the various appendices and sub-appendices giving details of (a) 1951 territorial units constituting the present set-up of the district showing changes which have taken place during the decade, (b) villages with a population of 5,000 and over and towns with a population under 5,000, (c) houseless and institutional population, (d) 1951 population adjusted to 1961 administrative units, (e) new towns added in 1961, (f) towns in 1951 declassified in 1961 and (g) towns with their area and jurisdiction.

A-I—Area, Houses and Population

This table is more elaborate than that of 1951 as it gives in addition to area, houses and population, population per sq. mile, number of inhabited and uninhabited villages and number of towns. The data are given down to taluka/mahal with break-up for Total/Rural/Urban.

Brief Account of Changes in Area of the District from 1901 to 1961

Numerous changes have taken place since Independence in the areas of the districts, though the boundaries of various units comprised therein practically remained unchanged between 1901 and 1941. Three principal stages in which these changes have come about during the Post-Independence period are : (i) those that came in the wake of Independence after 1947; (ii) those that took place on the Reorganisation of States in 1956 and (iii) those that resulted from the bifurcation of the bilingual Bombay State in 1960.

Even after reorganisation in 1956, several territorial changes were effected in 1959, the details of which have been given in sub-Appendix 2 to Appendix 1 to Table A-I alongwith the relevant notifications. Broad changes that have taken place in the territorial limits of the district between 1951 and 1961 are, however, listed below :—

Panchmahals:—Only 33 villages were taken away from it and included in Baroda district.

Rural and Urban Population :

During the past censuses there was no uniformity in the criteria prescribed for distinguishing urban areas from the rural. The definition of 'town', therefore, varied from State to State and the places were treated as towns if, in the opinion of the State Government or the Superintendent of Census Operations, they were found to possess urban characteristics. It included all municipalities, cantonments, civil lines and all places with more than 5,000 population which, it was decided, to treat as towns on the ground that they possessed urban characteristics. This definition of 'town' has remained substantially unchanged since 1891. To the characteristics aforementioned, Baroda State, which has merged into Bombay State in 1949 and now forms part of the newly formed Gujarat State added one more according to which all the headquarters of talukas were treated as towns. In view, however, of the increasing importance of studying urbanisation in all its varied aspects, the Registrar General, at the very outset of 1961 Census, emphasised the need for a uniform treatment by strictly defining the concept of 'town'.

Town

'Town' has been defined as a place having a municipality or a cantonment or a place with a population of 5,000 and over if 75 per cent of its male population is dependent on non-agricultural pursuits. These tests were applied by the Collectors who furnished lists of places to be treated as towns in 1961, which were also got approved by the State Government and the Registrar General.

As against 8 places treated as towns in 1951, 8 qualify to be treated as urban according to the test prescribed by the Census of 1961. Though there is no change in the total number of towns, 2 towns have been declassified as villages as shown in Statement A and promotion of 1 village as town as shown in Statement B and splitting up of Dohad into Dohad and Freelandganj.

STATEMENT A

Urban areas of class V of 1951 eliminated in 1961 with population of 1951 and 1961

Class	Name and Number of towns	Population	
		1951	1961
V	2	15,973	21,142
	Halol	8,091	11,053
	Jhalod	7,882	10,089

STATEMENT B

New urban areas of classes IV and V listed in 1961 with their names and population in 1961

Class	Name and Number of towns	1961 Population
IV	Freelandganj	14,951
V	Shivrajpur	8,001

Village :

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distinct number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

Census House :

Owing to the diversity of local conditions it was not possible in the past to lay down a uniform definition of a 'Census House' common to all parts of the country. The definition adopted till the Census of 1941 had two-fold connotation which emphasised either (i) the structural aspect, i.e., building or house or (ii) the social aspect, i.e., family or household. The former was defined as the residence of one or more families having a separate and independent entrance from the common way. But the social aspect was emphasised by defining a 'Household' as the home of the composite family with its resident dependents and servants. From 1881-1941, the Census Superintendents adopted the one or the other definition according to their convenience. A clear distinction was, however, drawn between a 'Census House' and a 'Census Household' in 1951 which gave a uniform meaning to the term 'Census House' or the 'Census Household' or the 'Family Unit'. The 'Census House' was defined as, ' a dwelling with a separate main entrance' and the 'Census Household' as 'all persons who live together in the same house and have a common mess'.

Though the definition of a 'Census House' introduced in 1951 was continued during the Census of 1961, it differs from that adopted by the Census of 1961 in that the latter is broad-based to include non-dwellings also. The house-list is thus an inventory of all structures or part of structures with a separate entrance.

The following definitions of the term 'Census House' given in the instructions for filling the house-list will clarify the position still further.

> "A 'Census House' is a structure or a part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

A-III—Villages Classified by Population

This table classifies inhabited villages only by size of population. After giving the total number of inhabited villages and rural population for every taluka/mahal, it shows the number of villages and population for the following seven categories, namely :—

(1) less than 200, (2) 200-499, (3) 500-999, (4) 1,000-1,999, (5) 2,000-4,999, (6) 5,000-9,999 and (7) 10,000 and above.

Table A-III of 1951 gives combined figures of inhabited towns and villages classified by population, while A-III of 1961 gives figures of villages only classified by population.

A-IV—Towns and Town-groups Classified by Population in 1961 with Variation since 1941

This table gives statistics relating to the figures of population since 1941 showing the growth of each town from census to census. Percentage variation is given from decade to decade, not only for the towns, but also for town-groups, where one or more urban units form a compact urban area. The total population of the town-group along with that of its constituent urban units is given under the class into which the town-group has been classified. Separate figures have, likewise, been given for municipal and non-municipal areas such as port area, suburban area, military area, railway colony, cantonment, etc., where a town is a combination of two or more such units. The following are the six classes into which the towns are grouped in Table A-IV according to the size of population :—

Class	Population	Class	Population
I . . .	100,000 and above	IV . . .	10,000 to 19,999
II . . .	50,000 to 99,999	V . . .	5,000 to 9,999
III . . .	20,000 to 49,999	VI . . .	Less than 5,000

The areas of towns in sq. miles and sq. kilometres are also given in the table for 1961.

The term 'town' as defined at the Census of 1961 and it uniform adoption all over the country on the basis of certain specified tests have been explained under 'Urban and Rural Population' in the note to Table A-I.

'Town-group'—This is a new variant of the urban population which has been introduced for the first time on the present occasion. Large cities or expanding towns bring within their orbits new satellite towns, industrial areas or settlements interspersed by small bits of rural areas. Such urban areas, not necessarily municipal, are taken to form town-groups with the main city or town as one of the constituents.

'City'—Places having population of 100,000 and over either individually or as a town-group have been classified as cities.

A-I—AREA, HOUSES AND POPULATION

	U	4·0	10·3	2,897	.	..	1	2,076	11,472	6,044	5,428

NOTE:

1 Population per sq. mile under Column 4 has been worked out on the area figures given by the State Survey Department given in Column 3(a).

2 Under Column 4, population of those urban units, for which area figures are not available, is ignored for working out urban density. Rural density is worked out on the basis of rural population only, though the area figures include areas of those urban units for which separate area figures are not available.

3 The sq. kilometres under Column 3(b) and density figures of urban areas of Taluka/Mahal and District under Column 4 are worked out using the area figures corrected up to 2 places of decimals obtained by adding the areas of the towns in the respective units. In addition to this, the figures relating to sq. kms. are further adjusted to make the Taluka/Mahal and District totals agree.

APPENDIX I

1951 TERRITORIAL UNITS CONSTITUTING THE PRESENT SET-UP OF DISTRICT AND EACH TALUKA/MAHAL

(Only those names/areas which have undergone changes since 1951 have been shown below)

NOTE:

*Under Bombay Government Resolution, R. D., No. T. L. C. 1857-C, dated 16-3-1959,

(a) The following 10 villages were transferred from Halol taluka of Panchmahals district to Sankheda taluka of Baroda district:—

Bumbkoi(1·5), Garol (1·4), Kath Mandua (0·4), Khandia (1·3), Khara Kuva (2·4), Khokhariveri (0·4), Morakhla (4·2), Navapura (0·9), Pachisgam (2·0) and Vandarda (3·4).

(b) The following 23 villages were transferred from Halol taluka of Panchmahals district to Vaghodia taluka of Baroda district:—

Ambali (1·5), Asha (0·8), Chandpur (0·8), Chipad (0·4), Dankheda (1·1), Dharola (0·7), Dundelav (0·9), Gambhirpura (0·9), Ghoda(0·9), Ghodadra (2·2), Goraj (5·5), Hamirpuri, (0·2), Kachhota (1·1), Koba (1·2), Moti Manekpur (2·6), Nani Manekpur (0·2), Noorpuri (1·1), Saidal(3·6), Valagod (0·8), Valva (1·0), Vasvel (3·1), Vedpur (3·2) and Vesania (1·6).

† Under Bombay Government Resolution, R.D., No. 6342/49, dated 6-8-1952, the following 10 villages were transferred from Kalol taluka of Panchmahals district to Devgad Baria taluka of the same district:—

Bhilod (2·2), Dantol (1·3), Gajapura (1·1), Goyasundul (2·8), Guneshia (1·0), Kanpur (10·3), Kothaini (0·6), Navagam B.K. (1·4), Paroli (2·6) and Sherpura (1·2).

‡ Under Bombay Government Resolution, R. D., No. T. L. C. 1857-C, dated 16-3-1959.

(a) 10 villages as above were transferred from Halol taluka of Panchmahals district to Sankheda taluka of Baroda district.
(b) 23 villages as above were transferred from Halol taluka of Panchmahals district to Vaghodia taluka of Baroda district.

§ Under Bombay Government Resolution, R.D., No. 6342/49, dated 6-8-1952, 10 villages as above were transferred from Kalol taluka of Panchmahals district to Devgad Baria taluka of the same district.

ANNEXURE TO APPENDIX I

Villages transferred from and to Panchmahals District

NOTE : Towns treated as such for the first time in 1961 are shown in italics.
*Separate area for constituents not available.

B—ECONOMIC TABLES

This series is divided into two parts, viz., (i) General Economic Tables and (ii) Household Economic Tables. Economic Tables of the 1961 Census cover a very large field of data and are more elaborate than any of their predecessors. The most important point to remember about the economic tables is that during the past censuses, income or economic independence was the test applied for measuring the economy of the country. Before 1961, economic activity was interpreted in terms of categories like economically independent or economically dependent, semi-dependent, earning dependents or non-earning dependents. In 1951, the economic classification was confined to the eight livelihood classes with stress on income rather than work or economic activity of the individual. The most significant departure that the Census of 1961 has made is the emphasis laid on work, so that all people who work, including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance have also been included as workers. Even the non-workers have been distributed into eight-fold categories according to the activities pursued by them. This change in concept will help obtain a realistic picture of the economic activity of those important sections of household workers who were left out of account in the past.

The Household Economic Tables on the other hand are an entirely new feature of the 1961 Census. They are prepared from household schedules by mechanical tabulation on the basis of 20 per cent sample and give all possible data relating to the extent of land under cultivation, nature of household industry, period of work in household industry and the persons employed either as family workers or as hired labourers.

Industrial and Occupational Classification

Another noteworthy feature of the General Economic Tables is the systematic classification of industries and occupations. For, the one introduced in 1951 was, as truly pointed out by the Registrar General, neither a purely industrial nor occupational classification of the population but a combination of both. The National Classification of Industries or Occupations adopted by the Government of India and followed on the present occasion classifies the economic data into 9 divisions, 45 major groups and 343 minor groups of industries and 11 divisions, 75 groups and 331 families of occupations as against a conglomeration of 10 divisions and 88 sub-divisions of services in 1951.

The following statement gives the categories of industrial workers adopted in the current census and the eight livelihood classes of 1951.

1961 Industrial Categories		1951 Means of Livelihood	
		AGRICULTURAL CLASSES	
I	As Cultivators	I	Cultivators of land wholly or mainly owned and their dependents
II	As Agricultural labourers	II	Cultivators of land wholly or mainly unowned and their dependents
III	In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	III	Cultivating labourers and their dependents
IV	At Household Industry	IV	Non-cultivating owners of land, agricultural rent receivers and their dependents
V	In Manufacturing other than Household Industry		NON-AGRICULTURAL CLASSES
VI	In Construction		Persons (including dependents) who drive their principal means of livelihood from—
VII	In Trade and Commerce	V	Production other than cultivation
VIII	In Transport, Storage and Communications	VI	Commerce
IX	In Other Services	VII	Transport
X	Non-workers	VIII	Other services and miscellaneous sources

In 1951 the non-workers who were known as non-working dependents were classified according to the occupation of the persons on whom they were dependent.

The non-working population is distributed separately for the first time according to eight types of activities, viz., (i) full-time students or children attending school who do no other work, (ii) house-wives and persons engaged in unpaid home duties, (iii) infants and other dependents including permanently disabled or old persons, (iv) retired persons, rentiers and others who are in receipt of income without doing any work, (v) beggars, vagrants and others of unspecified source of existence, (vi) convicts in jails or inmates of penal, mental or charitable institutions, (vii) persons not employed before but seeking employment for the first time and (viii) persons employed before but now out of employment and seeking employment.

Broadly speaking, workers of 1961 can be taken to be equal to self-supporting persons *plus* earning dependents of 1951 *minus* those in receipt of income without work such as rentiers, pensioners, beggars, etc.

In respect of persons who are workers, the information is available in Q. 8 Cultivators, Q. 9 Agricultural Labourers, Q. 10 Working at Household Industry and Q. 11 Working at Non-household Industry, Profession, Trade, Business or Service. Following extracts from the Manual of Instructions to Enumerators relating to Questions 8 to 12 on the basis of which the General Economic Tables are compiled will be helpful in appreciating the contents of these tables.

Q. 8 Working as Cultivator

A person is said to be working as cultivator if he/she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share. Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations which are shown in Q. 10 or Q. 11, as the case may be.

Q. 9 Working as Agricultural Labourer

A person is said to be working as Agricultural labourer when he works in another person's land only as a labourer without exercising any supervision or direction in cultivation for wages in cash, kind or share of produce. Also the labourer has no right or lease or contract on land on which he works, nor he is responsible for taking decision as to which crops to sow and when or taking the risks of cultivation.

Q. 10 Household Industry

A Household industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Household industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

Q. 11 Doing work other than 8, 9 or 10

Nature of work (occupation) is the exact function that a person performs in the economic sector in which he/she is engaged. This information was to be filled in Q. 10(a) or 11(a) of the individual slips. The 'industry' means that sector of economic activity in which the earner is engaged, and the name of that industry was recorded according to the name of the principal article produced, serviced or repaired. Specific instructions were given to record replies to Q. 11(a) and 11(b) as under :—

(1) In the case of married or grown up women who do any of the work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cow dung cakes, grass, etc., in addition to the usual household duties, such duties were fully described and 'HW' written in brackets after the full description.

(2) If a person makes the articles he sells, he was treated as maker and seller of them.

(3) The vague terms like scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher, etc., were not written.

(4) For labourers accustomed to work on various jobs, 'general labourer' was mentioned.

(5) Machine Operator

The kind of machine used with its recognised name was given.

(6) Shop-keepers, Retail Dealers, Shop Assistants

If a person was mainly engaged in selling, 'Dealer' was written and if assisting 'Shop Assistant' or 'Salesman' was written. 'Wholesale' and 'Retail' was stated when the business was carried on in wholesale or in retail.

(7) The nature of transport was fully mentioned like air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by bullock, camel, etc.

(8) For a person engaged in Defence services, 'service of Central Government' was written.

(9) Domestic Services

In the case of any private servant, e.g., a cook or domestic servant, 'private or domestic servant' only was written. There was no industry in their case but in cases of persons employed in hotels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., were added.

Status of economically active persons

Economically active persons were divided into 4 classes: (1) Employer, (2) Employee, (3) Single worker and (4) Family worker.

An 'employer' is that person who hires one or more persons in his work.

An 'employee' is that person who works under others for wages or salary in cash or kind.

A 'single worker' is that person who does his work without employing others except casually and without the help of the other members of the family except casually.

A 'family worker' is that person who is doing his work in own family without wages or salary in cash or kind.

Thus one more status of economically active person, viz., family worker is added against only first three in the previous Census of 1951.

Q. 12 Activity, if not working

A person who is not working has been classified as non-worker. Non-workers are distributed separately according to eight types of activites already noticed above.

(i) General Economic Tables

There are in all 24 Economic Tables compiled in B-Series—16 General Economic Tables compiled from individual enumeration slips and 8 Household Economic Tables from household schedules on 20% sample basis. Out of the 16 General Economic Tables, the District Handbook reproduces the following 12.

B-I—Workers and Non-workers Classified by Sex and Broad Age-groups

Table B-I is the basic economic table furnishing the total population and 9 industrial categories of workers and non-workers. The data are presented for the district with total/rural/urban break-up.

The classification of workers and non-workers by broad age-groups, viz., 0-14, 15-34, 35-59 and 60 and above, is the special feature of 1961 census as these age-groups correspond to the different stages of life which have a special significance as regards capacity to work, viz., children, young persons, middle aged persons and old persons.

TABLE B-III-A AND B—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

This table which corresponds to the Table D-VII of 1951 is given in two Parts-A & B. Part-A relates to the urban areas and Part-B relates to rural areas. The data in Part-A are presented for the district and that in Part-B down to taluka/mahal for rural areas.

In 1951, only literate and educated persons were classified into eight educational standards by 8 livelihood classes. No classification of illiterate persons into 8 livelihood classes was given in 1951; whereas in this Table, nine categories of workers and also non-workers are given for illiterates as well as for literates.

Non-technical diplomas and degrees have this time been distinguished from technical diplomas and degrees and separate information given also for each technical degree.

TABLE B-IV—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK OTHER THAN CULTIVATION

This table corresponds to table B-III of 1951. It has been presented in three parts on the basis of the principal work of the persons. Part-A relates to persons at work in Household Industry, classified by branch of industry and class of workers (employee and others). Figures for the district are given for Divisions and Major-groups for total/rural/urban and those for taluka/mahal for Divisions and rural areas only. Part-B pertains to persons at work in non-household industry, trade, business, profession or service, classified by branch of industry and class of workers (Employer, Employee, Single worker and Family worker). Figures for the district are given for Divisions and Major groups for total/urban and those for taluka/mahal figures for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the Villagewise List of Industrial Establishments. Part-C relates to persons at work at household as well as in non-household industry classified by branch of industry. Figures for the district are given for Divisions, Major groups and Minor groups with descriptions for total/urban and those for taluka/mahal for Divisions only and rural areas only.

Table B-III of 1951 furnished figures of self-supporting persons only whereas in this table all the persons who work including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance are included as workers. In 1951, there were three classes of workers, viz., Employer, Employee and Independent workers whereas in this table, workers are classified in four categories, viz., Employer, Employee, Single worker and Family worker, the definitions of which are already given before.

Appendix to Part-C shows in run on lines Minor Groups with the number of male and female workers separately for household industry and non-household industry in brackets having less than 1% of workers of the respective Division (0·5% for Divisions 2 & 3 combined) which are omitted from the table.

TABLE B-V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

This is a new table in which cross-tabulation of industry and occupation has been made for the first time. Figures for the district are given by Divisions, Groups and Families for total/urban and for taluka/mahal by Divisions only for rural areas.

Separate data are furnished for the persons working in household industry and other industrial categories as adopted in the Primary Census Abstract alongwith the Divisions, Groups and Families giving code numbers and actual description. The National Classification of occupation followed in this table is in conformity with international usage.

Appendix to this table shows in run on lines, families with the number of male and female workers followed by industrial categories having less than 1% of workers of the respective Division (0·5% for Divisions 7 & 8 combined) which are omitted from the main table.

While applying quality checks, some occupations appeared to have been classified under inappropriate industrial categories vis-a-vis the occupations or the nature of work done by persons in economic sector of their activity. Such cases are listed in the annexure to the table, indicating the appropriate industrial category in which they deserve to be classified.

TABLE B-VII PART-A—PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS, (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY, (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

TABLE B-VII PART-B—INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

In this table figures are presented for the district for Divisions and Major groups with total/rural/urban break-up and those for taluka/mahal for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the Villagewise List of Industrial Establishments.

In a similar Table B-II of 1951, there was cross-tabulation of self-supporting persons and earning dependents with reference to the secondary means of livelihood which was confined to 8 livelihood classes, while this table affords cross-tabulation between principal work in cultivation and household industry or *vice versa*.

Appendix to Table B-VII-A shows in run on lines Major Groups of household industry having secondary work, which are omitted from the table being less than 5 per cent of major groups as principal work followed in each case by the number of industrial categories and number of males and females having secondary work separately for total/rural/urban population in brackets.

TABLE B-VIII PART-A—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN URBAN AREAS ONLY

TABLE B-VIII PART-B—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX AND EDUCATIONAL LEVELS IN RURAL AREAS ONLY

This is a new table prepared for the first time in 1961. It is in two parts. Part-A relates to urban areas and is presented for district. Part-B relates to rural areas and is presented down to taluka/mahal.

The classification of unemployed persons is shown separately for (i) those who are seeking employment for the first time and (ii) for those who were employed before but are now out of employment and seeking work. The age-groups given in the first case are quinquennial, viz., 15-19, 20-24, 25-29, 30-34 and 35+ modified in the second case as 15-19, 20-24, 25-34, 35-44, 45-59 and 60+.

In Part-A relating to urban areas information for unemployed persons is furnished for all educational levels, and in Part-B for educational levels up to matriculation and above.

TABLE B-IX—PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

This is a new table introduced for the first time. The table is presented for district with total/rural/urban break-up and for taluka/mahal for rural areas only. It classifies non-working population into 8 types of activities based on the recommendation of the United Nations Organisation. They are :—

1 Full-time students
2 Persons performing household duties without wages
3 Dependents, infants and disabled persons
4 Retired persons, rentiers or persons of independent means
5 Beggars, vagrants, etc.
6 Inmates of penal, mental and charitable institutions
7 Persons seeking employment for the first time
8 Persons employed before, but now out of employment and seeking work

(ii) Household Economic Tables

Out of the 8 Household Economic Tables compiled at this census, 4 tables which are reproduced in the District Handbook are :—

Table B-X—Sample Households (i) engaged neither in cultivation nor household industry, (ii) engaged either in cultivation or household industry but not in both and (iii) engaged both in cultivation and household industry

(Based on 20% Sample)

This table is prepared for total, rural and urban for the district and for rural areas only for taluka/mahal.

Cultivation includes ownership, tenancy cultivation and agricultural labour. Household industry has been defined in the general note above.

Table B-XI—Sample Households engaged in cultivation classified by interest in land and size of land cultivated in Rural and Urban areas separately

(Based on 20% Sample)

For rural areas the data have been given down to taluka/mahal while that for urban areas have been given only for the district as a whole.

This table gives very useful data on the size of holdings and affords a cross-tabulation of names of local rights over land (interest), viz., (a) owned or held from Government, (b) held from private persons or institutions, (c) partly held from Government and partly from private persons, and size of holding, viz., less than 1; 1·0-2·4; 2·5-4·9; 5·0-7·4; 7·5-9·9; 10·0-12·4; 12·5-14·9; 15·0-29·9; 30·0-49·9; 50+ and unspecified.

Table B-XII—Sample Households engaged in cultivation only classified by size of land cultivated and number of family workers and hired workers in Rural and Urban areas separately

(Based on 20% Sample)

For rural areas the data have been given down to taluka/mahal and that for urban area for the district as a whole. The information for households that are engaged only in cultivation has been cross-tabulated by number of persons engaged in cultivation and each prescribed size class of holding. Working strength in cultivation is further separated into family workers and hired workers when more than 1 person is engaged in cultivation.

Table B-XVI—Sample Principal Household industry classified by period of working and total number of workers engaged in household industry in all areas

(Based on 20% Sample)

This table is presented for the district with total/rural/urban break-up. The data in respect of households engaged in household industry only or both in household industry and cultivation have been given separately with the Divisions and Major groups of household industry. The household industry has been classified according to the period of working, viz.,

1-3 months, 4-6 months, 7-9 months, 10 months to one year. Under each duration period number of households, number of family workers and number of hired workers have also been given.

Appendix to this table shows in run on manner Major groups of household industry which are omitted from the table being less than 10% of the respective Division, giving the number of major groups, with or without cultivation, with period of working in abbreviation and the number of households in brackets separately for total, rural and urban.

TABLE B-XVII—SAMPLE HOUSEHOLDS CLASSIFIED BY (i) NUMBER OF MALE AND FEMALE MEMBERS BY SIZE OF HOUSEHOLDS AND (ii) ENGAGEMENT (a) NEITHER IN CULTIVATION NOR IN INDUSTRY, (b) IN HOUSEHOLD INDUSTRY ONLY AND (c) IN CULTIVATION SUB-CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

The table is presented down to district and gives data for total/rural/urban. It is intended to give family sizes distributed according to single member, small, medium, large and very large families. Though a 'Census Household' is not the same as a 'family' and also includes unrelated persons living with the family during the census count, the table will give a general idea of the sizes of families as the number of families having outsiders is quite insignificant.

The table gives such economic data as (i) Households engaged neither in cultivation nor household industry, (ii) Households engaged in household industry only and (iii) Households engaged in cultivation by size of holding groups with the break-up of sample households into (i) Single member, (ii) 2-3 members, (iii) 4-6 members, (iv) 7-9 members and (v) 10 members and over.

Since the table is based on 20% sample, total number of households and household population are given in the following statement :—

Total Number of Households and Household Population

District	Total Rural Urban	Total No. of households	Total household population		
			Persons	Males	Females
1	2	3	4	5	6

Major Group	20	Foodstuffs	1,962	1,404	558
Minor Group	200	Production of rice atta, flour, etc., by milling dehusking and processing of crops and foodgrains	673	599	74
	206	Production of butter, ghee, cheese and other dairy products.	439	42	397
	207	Production of edible fats and oils (other than hydrogenated oil)	618	547	71
	209	Production of other food products such as sweetmeat and condiments, muri, murki, chira, Khoi, cocoa, chocolate, toffee, lozenge	166	152	14
Major Group	21	Beverages	37	37	..
	22	Tobacco Products	613	599	14
Minor Group	220	Manufacture of bidi	613	599	14
Major Group	23	Textile-Cotton	490	415	75
Minor Group	230	Cotton ginning, cleaning, pressing and baling	187	169	18
	235	Cotton weaving in handlooms	112	75	37
Major Group	24	Textile-Jute	26	25	1
	25	Textile-Wool	21	12	9
	27	Textile-Miscellaneous	2,690	2,112	578
Minor Group	273	Making of textile garments including rain coats and head-gear	2,597	2,064	533
Major Group	28	Manufacture of Wood and Wooden Products	4,081	2,737	1,344
Minor Group	280	Sawing and planing of wood	145	143	2
	281	Manufacture of wooden furniture and fixtures	403	387	16
	282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	402	401	1
	288	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	2,851	1,547	1,304
	289	Manufacture of other wood and allied products, not covered above	255	249	6
Major Group	29	Paper and Paper Products	2	2	..
	30	Printing and Publishing	71	71	..
	31	Leather and Leather Products	819	720	99
Minor Group	310	Currying, tanning and finishing of hides and skins and preparation of finished leather	197	170	27
	311	Manufacture of shoes and other leather footwear	486	426	60
Major Group	32	Rubber, Petroleum and Coal Products	13	13	..
	33	Chemicals and Chemical Products	64	60	4
	34-35	Non-metallic Mineral Products other than Petroleum and Coal	4,198	2,587	1,611
Minor Group	340	Manufacture of structural clay products such as bricks, tiles	171	124	47
	343	Manufacture of structural stone goods, stone dressing and stone crushing	260	196	64
	344	Manufacture of stonewares, other than images	131	79	52
	350	Manufacture of earthenware and earthen pottery	3,516	2,073	1,443
Major Group	36	Basic Metals and their Products except Machinery and Transport Equipment	859	813	46
Minor Group	369	Manufacture of sundry hardwares such as G.I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	683	640	43

TABLE B-IV PART-C

B-IV PART-C—INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR

Branch of Industry			Total Workers		
Division, Major group & Minor group of I. S. I. C.			Total		
			Persons	Males	Females
		1	2	3	4
Minor Group	703	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	230	230	..
	704	Animal transporting by animals such as horses, elephant, mule, camel	123	99	24
Major Group	73	Communication	373	372	1
Minor Group	730	Postal, telegraphic, wireless and signal communications	343	343	..
Division 8 Services			*17,830*	*15,931*	*1,889*
Major Group	80	Public Services (This does not include Govt., Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)	5,569	5,345	224
Minor Group	803	Public service in Police	1,329	1,326	3
	805	Public service in administrative departments and offices of quasi-Government organisation, municipalities, local boards, etc.	1,476	1,286	190
	809	Public services in administrative departments and offices of State Government.	2,629	2,598	31
Major Group	81	Educational and Scientific Services	5,243	4,446	797
Minor Group	811	Educational services such as those rendered by colleges, schools, and similar other institutions of non-technical type	5,142	4,347	795
Major Group	82	Medical and Health Services	830	673	157
Minor Group	820	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners	792	635	157
Major Group	83	Religious and Welfare Services	958	877	81
Minor Group	830	Religious services rendered by religious organisations and their establishments maintained for worship or promotions of religious activities, this includes missions, ashrams and other allied organisations	275	252	23
	831	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	541	514	27
Major Group	84	Legal Services	98	98	..
	85	Business Services	308	307	1
Minor Group	851	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals	268	267	1
Major Group	86	Community Services and Trade and Labour Associations	296	282	14
	87	Recreation Services	354	344	10
Minor Group	872	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	306	296	10
Major Group	88	Personal Services	3,387	2,868	519
Minor Group	880	Services rendered to household such as those by domestic servants, cooks	1,079	701	378
	882	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	1,143	1,124	19
	883	Laundry services rendered by organisations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning services	301	184	117
	884	Hairdressing, other services rendered by organisations and individuals such as those by barber, hairdressing saloon and beauty shops	771	770	1
Major Group	89	Services, not elsewhere classified	777	691	86
Minor Group	890	Services rendered by organisations or individuals, not elsewhere classified	777	691	86
Division 9 Activities not adequately described			*11,708*	*7,965*	*3,743*
Major Group	90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	11,708	7,965	3,743
Minor Group	900	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	11,708	7,965	3,743

APPENDIX

Minor Groups having less than 1% of workers of the respective division and less than 0.5% in case of Minor Groups of Division 2&3 only have been shown in this Appendix. The following abbreviations have been used:— 'HI' for Household Industry, 'NHI' for Non-household Industry, 'M' for Males and 'F' for Females.

APPENDIX

Families having less than 1% of the workers of the respective divisions (less than 0.5% in case of families of Division 7-8 only) have been shown in this Appendix. The following abbreviations have been used:—

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities

IV At Household Industry

V In Manufacturing other than Household Industry

VI In Construction

VII In Trade and Commerce

VIII In Transport, Storage and Communications

IX In Other Services

M= Males

F= Females

APPENDIX

Major groups of household industry where persons having secondary work as cultivation or agricultural labour, are less than 5% of the persons having the major group as principal work, have been shown in this Appendix. The following abbreviations have been used :—

I—As Cultivator M=Males

II—As Agricultural Labourer F=Females

23 Total I (M4, F2) II (M1), Rural I (M3, F1) II (M1), Urban I (M1, F1); 39 Total I (M14), Rural I (M8), Urban I (M6)

APPENDIX

Major groups of the Household Industry which are less than 10 per cent of the respective divisions have not been shown in the main table which shows such divisions by an asterisk. Major groups thus dropped from the main table are given run on in this Appendix. The figure preceding the bracket represents the code number of the major group dropped from the table. Alphabets given in brackets are abbreviations meant for different ranges of period of working in the Household Industries 'with' or 'without' cultivation as explained below. The numerical figure given after alphabet denotes the number of households in that particular range indicated by that alphabet.

Abbreviation			Class Range of Period of Working	Abbreviation			Class Range of Period of Working
		With				Without	
A	means	cultivation	1 to 3 months	E	means	cultivation	1 to 3 months
B	,,	,,	4 to 6 ,,	F	,,	,,	4 to 6 ,,
C	,,	,,	7 to 9 ,,	G	,,	,,	7 to 9 ,,
D	,,	,,	10 months to 1 year	H	,,	,,	10 months to 1 year
X	,,	,,	Unspecified months	Y	,,	,,	Unspecified months

For example :—District Panchmahals—Rural 20 (B-6, C-1, E-1, X-1, Y-4)

Figure 20 stands for major group 20 relating to 'foodstuffs', B-6 means that there are 6 households working in the class range of '4 to 6 months' in the household industry with cultivation. C-1 means that there is 1 household working in the class range of '7 to 9 months' in the household industry with cultivation and E-1 means that there is 1 household working in the class range of '1 to 3 months' in the household industry without cultivation. X-1 means that there is one household working for 'unspecified months' in the household industry with cultivation and Y-4 means that there are 4 households working for 'unspecified months' in the household industry without cultivation in the 'foodstuffs' industry in the rural areas of Panchmahals District.

The list of major groups thus dropped from the main table of Panchmahals District is given below.

PANCHMAHALS DISTRICT

TOTAL

22 (C-2, D-2, G-3, H-23, Y-2); 23 (B-2, C-1, D-1, E-1, F-2, G-4, H-16); 24 (B-5, F-1), 25 (F-2, G-1); 31 (A-9, B-19, C-29, D-35, X-4; F-5, G-9, H-38, Y-3); 33 (H-2); 36 (A-3, B-20, C-6, D-16, X-2; E-1, F-8, G-5, H-28, Y-3); 37 (D-1; Y-1); 38 (G-1); 39 (B-2, D-4; F-10, G-5, H-54, Y-1).

C—SOCIAL AND CULTURAL TABLES

This series contains 8 tables of which Table C-I has been prepared from Household Schedules, on the basis of 20 per cent sample. It gives information about composition of sample households according to marital status. All the other tables in this series are based on full count and give age, sex and education, separately for rural and urban areas, single year age returns, mother tongue in alphabetical order, religion and classification by literacy and industrial category of workers and non-workers among Scheduled Castes and Scheduled Tribes. All the tables of this series except Table C-VI have been reproduced in the District Census Handbook.

Table C-I—Composition of Sample Households by Relationship to Head of Family Classified by Size of Land Cultivated

(Based on 20%Sample)

The table is prepared from Part II Census Population Record of the Household Schedules for total, rural and urban areas of the district. A household means the entire groups of persons who commonly live together in the same census house and usually take their meals from a common mess. It thus includes outsiders residing with the family during enumeration. This table, therefore, gives the composition of a household by family and non-family member. Besides, the heads of the households and their spouses, other family members like married sons and other relations are given separately by sex and marital status.

Table C-II—Age and Marital Status

This table is presented for the district with rural/urban break-up while those for taluka/mahal for rural areas only. It corresponds to Table C-III of 1951 which was prepared on a 10% sample of the slips taken out at the time of initial stage of sorting, while this table is prepared on full count according to the quinquennial age-groups recommended by the United Nations Organisation. In Table C-III of 1951 there were 3 categories of marital status, viz., unmarried, married and divorced/separated, whereas in this table are given five categories of marital status, viz., (1) never married, (2) married, (3) widowed, (4) divorced/separated and (5) unspecified. In 1951, the information regarding widowed or divorced was given jointly, whereas these two types of marital status are compiled separately this time.

Columns 14 and 15 relating to unspecified status have been deleted from the table. Such person is 1 female returned from rural areas.

Table C-III—Age, Sex and Education

It corresponds to Table C-IV of 1951 which was prepared on 10% sample. This table is prepared on full count this time and is presented in two Parts—A and B for the district. In Part-A broad educational levels up to matriculation and above are given for all areas. In Part-B educational levels are given in details with technical and non-technical diplomas, university degrees and technical degrees in urban areas only. In 1951, only sum total of all literate and illiterate persons was given, whereas in 1961, educational levels for literate persons are given in details.

Table C-IV—Single Year Age Returns

The table is presented for the district with total/rural/urban break-up.

It corresponds to Table C-V of 1951 Census which was prepared on 10% sample. This table has been prepared on full count in 1961. The age in years completed on 1st March, 1961 has been given but the infants who did not complete one year on 1st March, 1961 have been shown under age '0'.

Table C-V—Mother Tongue

This table corresponds to Table D-I (i) of 1951 in which languages and dialects as returned were shown in the descending order of number of speakers. This time all the languages as actually returned are arranged in the alphabetical order with population, persons, males, females for total, rural and urban areas for the district and for rural areas for taluka/mahal.

'Mother tongue' is the language spoken in childhood by the person's mother to the person or the language spoken in the household.

Table C-VII—Religion

It is prepared separately for total, rural and urban areas of the district and for rural areas of talukas and mahals. This table corresponds to Table D-II of 1951, in which the figures of religions other than the eight main religions were grouped in the residuary category 'other religions', whereas in this table data are given for six main religions only, viz., Buddhist, Christian, Hindu, Jain, Muslim, Sikh and persons returned as professing other religions, sects and beliefs which could not be classified under any of the religions have been grouped under "Other Religions and Persuasions".

Table C-VIII—Scheduled Castes and Scheduled Tribes

Part-A—Classification by Literacy and Industrial Category of Workers and Non-workers among Scheduled Castes

Part-B—Classification by Literacy and Industrial Category of Workers and Non-workers among Scheduled Tribes

This table is presented for the district with total/rural/urban break-up and for taluka/mahal for rural areas only.

In this table total population of Scheduled Castes/Scheduled Tribes and their distribution by nine industrial categories of workes and also non-workers adopted in the Primary Census Abstract are shown by literate and illiterate.

Part-A relates to Scheduled Castes and Part-B to Scheduled Tribes.

E—HOUSING TABLES

The present housing Census is the first of its kind in the history of the Indian Census organized on a uniform basis throughout the country alongwith the population Census of 1961. In the past censuses, house-listing was purely an administrative arrangement. Only residential houses were numbered and listed with the name of the head of the household. However, during 1961 Census a comprehensive house-list for collecting detailed information regarding each census house and industrial establishment formed part of the statutory census schedules. The house-list form brought into use during the current Census has recorded data on housing such as type of houses, tenure status, material of wall and roof, number of rooms in a census household and of persons residing therein as well as essential data relating to establishments, workshops and factories, such as name of the establishment or proprietor, name of products, number of persons working and the kind of fuel or power, if machinery is used.

The following five housing tables have been compiled from the house-lists :—

E–I—Census houses and the uses to which they are put

E–II—Tenure Status of Sample Census households living in Census houses used wholly or partly as dwelling

E–III—Census houses used as factories and workshops classified by industry, power and no power used and size of employment

E–IV—Distribution of Sample households living in Census houses used wholly or partly as dwelling by predominant material of wall and predominant material of roof

E–V—Sample households classified by number of members and by number of rooms occupied

Out of the five tables stated above, Tables E-I and E-III have been prepared on full count and Tables E-II, IV and V on the basis of 20 per cent sampled households. For the purposes of drawing the sample, the house-lists were arranged separately in the order of location code numbers in case of (i) rural areas of a taluka/mahal and (ii) urban areas other than towns with population of 50,000 and over for a district and (iii) for every town with a population of 50,000 and over. The samples were marked continuously for all the house-lists thus arranged and the households left over at the end of the house-list after marking the last sample were carried over to the next house-list for sample selection.

Tables E–I, E–II, E–IV and E–V are given in the District Census Handbook for the district, talukas and towns with a population of 50,000 and over. But the data regarding number of establishments contained in Table E–III are separately compiled down to village and given in the Villagewise List of Industrial Establishments.

The explanatory note on each of the tables is given below :—

Table E–I—Census Houses and the uses to which they are put

Table E-I prepared on full count gives figures of census houses separately for total, rural and urban areas of the district, talukas, cities and towns with population of 50,000 and over, classified into different categories according to the uses to which they are put. Those found vacant at the time of house-listing have also been shown separately as such. The following are the various types of houses into which occupied houses have been classified :—

Dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, hotels, hostels, sarais, dharamshalas, tourist homes and inspection houses, shops excluding eating houses, business houses and offices, factories registered under the Factories Act and worksheds and workshops not so registered, schools and other educational institutions including training classes, coaching and shop classes, restaurants, sweetmeat shops and eating places, places of entertainment and community gathering (Panchayat Ghar), public health and medical institutions, hospitals, health centres, doctor's clinics, dispensaries, etc.

Others

Occupied census houses which do not fall in any of the above categories have been classed as 'Others'.

With a view to understand the significance of statistics incorporated in E Series of Tables, the concepts and definitions of the terms occurring in the table are given below :—

Census house

"A Census house is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

Census household

"A household is a group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so."

Shop

"A shop is a place where articles are sold for cash or for credit."

Workshop

"A workshop is a place where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold and is not a factory registered under the Factories Act."

Following are some of the instances :—

Paper-making, shoe-making, tailoring, cycle-repairing, motor-servicing, halwai's shop, pottery-making, goldsmith, blacksmith, etc.

Factory

"A factory is a large workshop which has been registered under the Indian Factories Act."

Business houses

Business houses are those premises where transactions in money or other articles are taking place. Detailed explanation of all these will be found in the Introductory Chapter of the Report on Housing and Establishments.

TABLE E-II—TENURE STATUS OF SAMPLE CENSUS HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING

This table has been prepared on the basis of 20 per cent sample. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the samples. Shop-*cum*-dwellings and workshop-*cum*-dwellings are census houses which are partly used for residential or dwelling purposes and partly used as a shop or workshop. The total number of households given in column 4 of this table gives the total of such samples classified into the aforementioned four categories of dwellings, which have been further classified according to their tenure status, whether owned or rented, for the district, talukas and towns with population of 50,000 or more as also for total/rural/urban.

TABLE E-IV—DISTRIBUTION OF SAMPLE HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING BY PREDOMINANT MATERIAL OF WALL AND PREDOMINANT MATERIAL OF ROOF

This table has been prepared on 20 per cent sample basis. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the samples. The total number of houses given in column 3

of this table gives the totals of all such sampled households. The material out of which most of the walls are made or where a house consists of separate structures, each of different materials, the material out of which the walls of the main bedrooms are made has been entered. The wall material has been classified into the following nine categories :—

(1) Grass, leaves, reeds or bamboo
(2) Timber
(3) Mud
(4) Unburnt bricks
(5) Burnt bricks
(6) C. I. Sheets or other metal sheets
(7) Stone
(8) Cement concrete
(9) All other material

The material out of which most of the outer roof exposed to the weather and not the ceiling is made, i.e., tiles, thatch, corrugated iron, zinc or asbestos cement sheets or concrete, etc., or in the case of multi-storeyed building, the material out of which the intermediate floor or floors have been made, have been entered and classified into the following seven categories :—

(1) Grass, leaves, reeds, thatch, wood or bamboo
(2) Tiles, slate, shingle
(3) Corrugated iron, zinc or other metal sheets
(4) Asbestos cement sheets
(5) Brick and lime
(6) Concrete and stone slabs
(7) All other material

This table has been prepared for the district, talukas and cities and towns with population of 50,000 or more, as also for total/rural/urban.

TABLE E–V—SAMPLE HOUSEHOLDS CLASSIFIED BY NUMBER OF MEMBERS AND BY NUMBER OF ROOMS OCCUPIED

This table has been prepared on 20 per cent sample basis. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the samples. The figures given in column 3 of this table are the totals of all such sampled households. The sex break-up of the total number of members occupying such sampled households as also the total number of rooms in these households are shown separately. All the sampled households have been further classified into the following six categories :—

Households with—

(i) no regular room
(ii) one room
(iii) two rooms
(iv) three rooms
(v) four rooms
(vi) five rooms or more

The classification of households into the above categories gives not only the number of households in each category, but also the number of occupants by sex. The units for which this table has been compiled are districts, talukas and cities and towns with population of 50,000 or more, as also total/rural/urban.

SCT—SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

No special tables were prepared for Scheduled Castes and Scheduled Tribes in 1951. The only information that Table D-III of 1951 furnished was the aggregate strength of Scheduled Castes and Tribes for the district and certain arbitrary groups of talukas. In view, however, of the special safeguards provided for these classes under the Constitution, it was felt that a more detailed tabulation of the census data will furnish the basis necessary for the evaluation of the results of the various schemes implemented by the State under the Five Year Plans as also for the formulation of new ones. Special tables for Scheduled Castes and Scheduled Tribes have, therefore, been devised and presented in a separate series called SCT/SC/ST series.

The table reproduced from this series is SCT-I—Parts A & B, giving industrial classification of persons at work and non-workers by sex for Scheduled Castes and Scheduled Tribes. Separate figures of Scheduled Castes and Scheduled Tribes have also been given for each village in the Village Directory.

Total population of Scheduled Castes and Scheduled Tribes for taluka/mahal with total/rural/urban break-up is given in Statements A and B.

SCT-I PART-A—INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES

Sl. No.	Name of Scheduled Caste	Total			Workers

VILLAGEWISE LIST OF INDUSTRIAL ESTABLISHMENTS

This table gives important information about the total number of industrial establishments arranged in ascending order of minor groups of industries. It is compiled from the house-lists and presented in run on manner. Under the name of the district are arranged minor groups of industries showing total number of industrial establishments within brackets next to each minor group separately for total, rural and urban. The figures for taluka/mahal are likewise arranged separately for total/rural/urban. Then follows a list of villages in the order of the location code number given in the Village Directory, showing against each village minor group or groups of industries found in the village with the number of establishments shown within brackets against each minor group. Figures for towns are also shown separately in the same manner.

Industrial establishments have been classified according to the minor groups of industries given in the Standard Industrial Classification adopted by the Government of India reproduced in the Annexure. This will enable the reader to identify the industry to which a particular minor group relates.

ANNEXURE

STANDARD INDUSTRIAL CLASSIFICATION

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 0 Agriculture, livestock, forestry, fishing and hunting	
04	*Livestock and Hunting*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silkworms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	Division 2 & 3 Manufacturing	
20	*Foodstuffs*	
	Production of rice, atta, flour, etc., by milling, dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors, not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	*Tobacco Products*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	*Textile–Cotton*	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile–Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	*Textile–Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile–Silk*	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	*Textile–Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and head-gear	273
	Manufacture of made-up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276

STANDARD INDUSTRIAL CLASSIFICATION-*contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2 &3 Manufacturing-contd.	
27	*Textile-Miscellaneous*-contd.	
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products, not covered above	279
28	*Manufacture of Wood and Wooden Products*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood.	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products, not covered above	289
29	*Paper and Paper Products*	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	*Printing and Publishing*	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber, Petroleum and Coal Products*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products, not covered elsewhere	326
33	*Chemical and Chemical Products*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts, not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire-works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products, not covered above (including inedible oils and fats)	339
34	*Non-metallic Mineral Products other than Petroleum and Coal*	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of Earthenware and Earthen Pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products, not elsewhere specified	359

ANNEXURE-*concld.*

STANDARD INDUSTRIAL CLASSIFICATION-*concld.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2 &3 Manufacturing-contd.	
36	*Basic Metals and their Products except Machinery and Transport Equipment*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products.	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39).	369
37	*Machinery (All kinds other than Transport) and Electrical Equipment*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances, not specified above	379
	Division 2 &3 Manufacturing-concld.	
38	*Transport Equipment*	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. : 63	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment, not covered above such as animal-drawn and hand-drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*	
	Manufacture of optical instruments and lenses, ophthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles, not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399

LIST OF RURAL CRAFTS AND NUMBER OF PERSONS EMPLOYED IN PRODUCTION

The handicraft table is a new feature introduced in the District Census Handbook, in 1961 Census.

A detailed handicraft survey has been undertaken as a part of the censal programme. In States like Gujarat where the survey was conducted for selected crafts in selected centres, and not in each and every village. this handicraft table was to be compiled from the house-lists or the village notes. Accordingly, the information for this table was extracted from the house-lists adopting a 4 digit code for household industries circulated by Registrar General, India. The definition of household industry presented a problem, which was solved by including, on an *ad hoc* basis, household industries having less than 5 workers for this purpose.

The table shows the number of villages/towns in which particular crafts are practised and number of persons engaged therein. The data are compiled separately for the rural and urban areas of each taluka/mahal, for each city or town in the district and consolidated for rural and urban areas of the district. Where there is only one city/town in a taluka/mahal, the data for the urban areas are given for the city/town as they are same for taluka/mahal.

URBAN

LIST OF RURAL CRAFTS AND NUMBER OF PERSONS EMPLOYED IN PRODUCTION

Major/Minor Group Industrial Code No.	Name of Craft	No. of Towns	No. of persons employed in production
1	2	3	4
	PANCHMAHALS DISTRICT*		
Major Gr. 20	*Foodstuffs*		*486*
Minor Gr. 200.1	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc.	8	198
200.3	Production of rice by milling, dehusking and processing of paddy by rice mill	3	15
200.5	Production of pulses	1	3
202.1	Gur and Khandsari making from sugarcane and palm	1	1
205	Production of bread, biscuit, cake and other bakery products	4	35
207	Oil pressing ghani, kolhu or by small machines	6	70
209.2	Making of sweetmeats laddu, peda, barphi, batasa, etc.	6	91
209.6	Making of dalmot, chanachur (jor) garam, rewari, etc.	6	60
209.7	Making of other food products for residuary snacks	1	13
Major Gr. 21	*Beverages*		*10*
Minor Gr. 214.2	Production of aerated water such as sodawater, lemonade, etc.	2	10
Major Gr. 22	*Tobacco Products*		*17*
Minor Gr. 220	Manufacture of bidi	5	17
Major Gr. 23	*Textile–Cotton*		*18*
Minor Gr. 230	Cotton ginning, cleaning, carding, pressing and baling	2	10
233.1	Dyeing of cloth (cotton) and yarn	3	8
Major Gr. 24	*Textile–Jute*		*6*
Minor Gr. 244.2	Making of rope and cordage, out of jute	1	6
Major Gr. 25	*Textile–Wool*		*6*
Minor Gr. 255	Weaving of woollen cloth in handloom such as blankets, rugs, pashmina, thulma, gudma, etc.	1	6
Major Gr. 27	*Textile–Miscellaneous*		*644*
Minor Gr. 272.3	Traditional embroidery	1	1
273.1	Making of cap, hat and other head-gears	1	1
273.4	Making of textile garments including rain-coats and head-gears, n.e.c.	7	633
274.3	Manufacture of other made-up textile goods like mattress, quilt, rezai, etc., n.e.c.	2	4
278	Manufacture and repair of umbrellas	3	5
	PANCHMAHALS DISTRICT-*contd.*		
Major Gr. 28	*Manufacture of Wood and Wooden Products*		*205*
Minor Gr. 280	Sawing, planing and milling of wood	4	20
281	Manufacture of wooden furniture and fixtures	4	96
284.2	Manufacture of wooden utensils, artware and decorative wooden boxes (pataras)	1	2
288.5	Making of baskets and broomsticks	1	59
289.3	Making of cartwheels	1	1
289.4	Manufacture of other wood and allied products, n.e.c.	5	27
Major Gr. 30	*Printing and Publishing*		*26*
Minor Gr. 302.1	Printing works, printing of handbills, invitation cards etc.	2	21
303	Book binding, stitching, sizing and other work connected with book binding industry	2	5
Major Gr. 31	*Leather and Leather Products*		*183*

1	RAINFALL AND TEMPERATURE :	
1.1	Maximum and Minimum Temperature, 1955 and 1957-1960 at Dohad	162
1.2	Monthly Rainfall, 1952-1956 and 1958-1960 at Headquarters Station, Godhra	162
2	VITAL STATISTICS :	
2.1	Birth and Death Rate based on Mid-year Population Estimates	163
2.2	Deaths from Selected Causes, 1951, 1956 and 1960	164
3	AGRICULTURE :	
3.1	Land Utilization, 1956-57 and 1960-61	164
3.2	Area and Outturn of Principal Crops, 1950-51 and 1960-61	165–166
3.3	Irrigation Potential and Utilization	167
3.4	Area irrigated by Sources, 1950-51, 1955-56 and 1960-61	167
3.5	Area irrigated by Crops, 1950-51, 1955-56 and 1960-61	167
3.6	Progress under Agricultural Extension in various Development Blocks up to 31-3-1961	168
4	LIVESTOCK :	
4.1	Livestock and Agricultural Implements, 1951, 1956 and 1961	169
5	CO-OPERATION :	
5.1	Number, Membership and Financial Position of Co-operative Banks and Societies, 1960-61	170
7	REGISTERED FACTORIES :	
7.1	Number and Type of Registered Factories showing Average Employment, 1961	170
8	ELECTRICITY :	
8.1	Installed Capacity of Electricity, 1950-51, 1955-56 and 1960-61	171
8.2	Consumption of Electricity according to Purpose, 1950-51, 1955-56 and 1960-61	171
9	MEDICAL AND PUBLIC HEALTH :	
9.1	Number of Hospitals, Dispensaries and Patients treated in 1951, 1956 and 1961	172
9.2	List of Hospitals and Dispesaries, 1961	172
9.3	Public Health Activities, 1960-61	173
10	EDUCATION :	
10.1	Schools, Scholars and Teachers in Primary Schools in Rural Areas of Panchmahals District, 1960-61	173
10.2	Literacy and Education in Rural Areas of Panchmahals District, 1960-61	174
10.3	Number and Type of Educational Institutions, Number of Pupils and Teachers, 1950-51, 1955-56 and 1960-61	174
10.4	Directory of High Schools and Colleges as on 31-3-1961	175
11	ADMINISTRATION :	
(a)	Police and crimes :	
11.1	Strength of Police, 1960-61	175
11.2	Proportion of Area, Population and Cognizable Offences per Police, 1960-61	175
11.3	Criminal Justice, Offences reported, Persons tried, convicted or acquitted for Selected Offences, 1960-61	176
(b)	Jails :	
11.4	Jails, 1951, 1956 and 1961	176
(c)	Registration :	
11.5	Instruments registered and Value of Property transferred, 1951, 1956 and 1961	177
12	PLACES OF PUBLIC ENTERTAINMENT, PRESSES AND JOURNALS :	
12.1	Newspapers published in different Languages, 1950-51, 1955-56 and 1960-61	178
12.2	Printing Presses, 1951, 1956 and 1961.	178
12.3	Cinema Theatres, 1960-61	178
13	TRANSPORT AND COMMUNICATIONS :	
13.1	Railway Mileages and Names of Railway Stations, 1960-61	179
13.2	Road Mileages by Type of Surface and Category of Road, 1950-51, 1955-56 and 1960-61	179
14	LOCAL BODIES :	
14.1	Income and Expenditure of Municipalities, 1960-61	180
14.2	Income and Expenditure of District Local Board, 1950-51, 1955-56 and 1960-61.	181
14.3	Income and Expenditure of Panchayats, 1950-51, 1955-56 and 1960-61.	181
15	COMMUNITY DEVELOPMENT :	
15.1	Progress and Achievements of Community Development/National Extension Scheme Blocks up to year ending 31-3-1961	182
16	PRICES :	
16.1	Average Retail Prices of Staple Foodstuffs, 1961	183
17	JOINT STOCK COMPANIES, BANKS, INSURANCE AND SMALL SAVINGS :	
(a)	Joint Stock Companies :	
17.1	Joint Stock Companies, 1960-61	183
(b)	Banking :	
17.2	Scheduled and Non-scheduled Banks, 1950, 1955 and 1960	183
17.3	Number and Type of Co-operative Banks, 1950-51, 1955-56 and 1960-61	184
(c)	Insurance :	
17.4	Life Insurance Policies issued and Sum insured, 1957 to 1960	184
(d)	Small Savings :	
17.5	Target and Net Collection of Small Savings, 1960-61	184
18	CALENDAR OF IMPORTANT EVENTS, FAIRS AND FESTIVALS AND ANCIENT MONUMENTS :	
18.1	Calendar of Important Events	184
18.2	Fairs and Festivals	185–188
18.3	Ancient Monuments	189–190

OFFICIAL STATISTICS

Departmental statistics collected from various sources, viz., Administrative Departments, State and Central, Reserve Bank of India, Life Insurance Corporation, Gujarat Electricity Board, etc., have been included in the District Census Handbook for the first time and distributed under 18 different sections listed below :—

1 Rainfall & Temperature
2 Vital Statistics
3 Agriculture
4 Livestock
5 Co-operation
6 Fisheries
7 Factories
8 Electricity
9 Medical & Public Health
10 Education
11 Administration
12 Public Entertainment and Presses and Journals
13 Transport and Communications
14 Local Bodies
15 Community Development
16 Prices
17 Joint Stock Companies, Insurance, Banks and Co-operative Societies
18 Important Events, Fairs and Festivals and Ancient Monuments

Uniform table numbers have been adopted in all the Handbooks. Wherever a particular table is not applicable to or could not be compiled for want of requisite information for any district, there will be a break in the sequence, owing to the omission of such a table from the Handbook.

To facilitate further reference, the source of the table as well as explanatory notes as to the units to which they refer and other particulars have been given at the foot of the table.

Abbreviations used are : N. A.=Not available; ..=Nil

TABLE 1·1

MAXIMUM AND MINIMUM TEMPERATURE, 1955 AND 1957-1960 AT HEADQUARTERS STATION, DOHAD

[In Centigrade]

Month	Mean Maximum	Highest	Mean Minimum	Lowest

Note :

1 Area figures are given in terms of '00 acres and outturn in terms of '00 tons.
2 Outturn of sugarcane is recorded in terms of '00 tons of gur.
3 Outturn of cotton is recorded in terms of bales of 392 lbs. each.
4 Information for the years 1950-51 to 1960-61 relates to the district as then constituted.

PART III
VILLAGE DIRECTORY

VILLAGE DIRECTORY

The Village Directory of 1961 Census is the same as the Primary Census Abstract given in the District Census Handbook of 1951 with the following additions and alterations :—

1. Information regarding Scheduled Castes and Scheduled Tribes which was given in 1951 by tracts of two to three talukas in a district has been given with sex break-up for each village.

2. The 8 livelihood classes of 1951 have been replaced by workers classified into the following nine industrial categories and also non-workers :—

I Cultivator
II Agricultural Labourer
III Mining, quarring, livestock, forestry, fishing, hunting and plantations, orchards and allied activities
IV Household Industry
V Manufacturing other than Household Industry
VI Construction
VII Trade and Commerce
VIII Transport, Storage and Communications
IX Other Services and
X Non-workers

3. Information on selected essential topics or amenities available in a village is also included.

Thus the Village Directory furnishes information on area in acres & gunthas, occupied houses, households, totol population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated and primary economic activity classified into above nine industrial categories and non-workers. This information is furnished for each village/ward of a town and also for each enumerator's block in a town, consisting of about 120 houses.

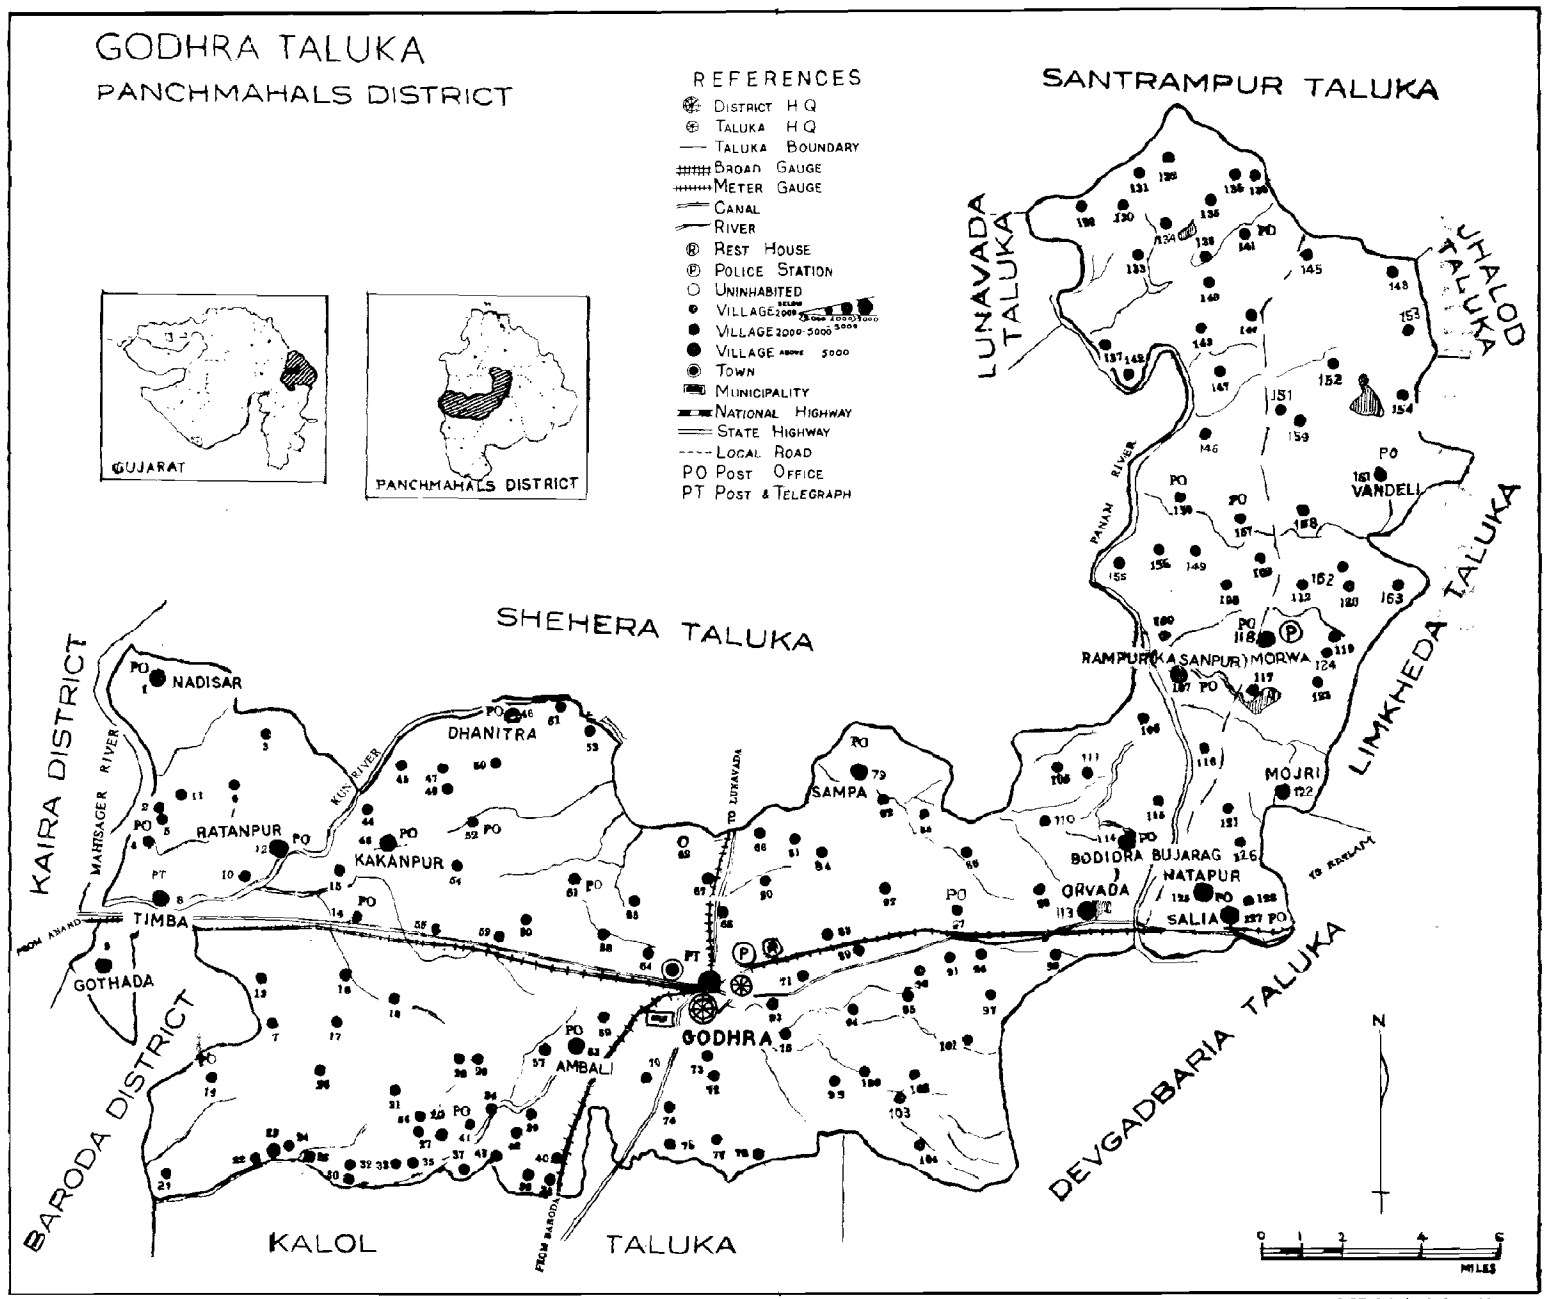

Like the Primary Census Abstract of 1951, the Village Directory gives area figures in Column 3 in acres as furnished by the Survey Department. While the figures of the number of houses and households given in Columns 4 and 5 have been compiled from the Household Schedules filled up for each household, information in Columns 6 to 36 has been compiled from the individual enumeration slips filled up during the course of census count. Information in Column 2 regarding Educational Institutions, Medical and Public Health facilities, Drinking Water facilities, Post & Telegraph Offices and Telephone facilities and Rural Electricity has been collected from (*a*) the village notes specially devised for the purpose and filled in by Village Level Workers, Talaties and Panchayat Secretaries and (*b*) the information supplied by the heads of the Departments concerned. The following abbreviations used in Column 2 signify the items shown against each :—

P	for	Primary School	S	for	Safe or Protected Water Supply including pipes, tube wells, etc.
M	for	Middle School			
H	for	High School	W	for	Well
C	for	Higher Institutions including Colleges	Riv	for	River
T	for	Technical Institutions	Tk	for	Tank
D	for	Dispensaries	Po	for	Post Office
Rhc	for	Rural Health Centre	To	for	Telegraph Office
Hos	for	Hospital	Tph	for	Telephone
Mp	for	Medical Practitioner	Ei	for	Electricity in Industrial use
Mcw	for	Maternity and Child Welfare Centre	Ea	for	Electricity in Agricultural use
			Ed	for	Electricity in Domestic use

The essential topics listed above have been presented run on against each village along with their number, where the amenities that exist are more than one. In other columns A=Acres, G=Gunthas, P=Persons, M=Males and F=Females.

In addition to a map for the district, taluka/mahal maps showing certain important information have also been prepared and placed at the commencement of the Village Directory for every taluka/mahal. In the taluka/mahal maps villages have been shown by their location code numbers assigned to them at the time of census operations and indicated against each village in the Alphabetical List of Villages given in the Handbook. Villages having population of 2,000 and above have been indicated by name. In the district maps villages having 5,000 and more persons have been shown by names. Key maps given in the district and taluka maps show the positions of the district and taluka in hatches and black re[illegible]vely.
