ALPHABETICAL LIST OF VILLAGES

PART I

(i) Introductory Essay 1–35

(1) Location and Physical Features, (2) Administrative Set-up, (3) Local Self Government, (4) Population, (5) Housing, (6) Agriculture, (7) Livestock, (8) Irrigation, (9) Co-operation, (10) Economic Activity, (11) Industries and Power, (12) Transport and Communications, (13) Medical and Public Health, (14) Labour and Social Welfare, (15) Price Trends, (16) Community Development, (17) Five Year Plans, (18) Important Place Names

(ii) Gazetteer of Place Names 37–55

PART II

(i) Census Tables

A-GENERAL POPULATION TABLES

Note 3–5

Table A-I Area, Houses and Population 6

Sub-Appendix I to Appendix I
Area for 1951 and 1961 for those municipal towns which have undergone changes in area since 1951 Census 7

Sub-Appendix 2 to Appendix I
District/Taluka/Mahal showing 1951 population according to territorial jurisdiction in 1951, changes in area and the populations involved in those changes 7

Appendix II Number of Villages with a population of 5,000 and over and towns with a population under 5,000 8

List Places with a population of under 5,000 in 1951 which were treated as towns in 1951, but have been omitted from the list of towns in 1961 8

Appendix III Houseless and Institutional Population 9

Table A-III Villages classified by population 10–11

Table A-IV Towns and Town-groups classified by population in 1961 with variation since 1941 . . 12–13

Appendix I New Towns added in 1961 and Towns in 1951 declassified in 1961 13

Note–A Particulars of new towns added in 1961 13

Note–B Particulars of 1951 Census towns declassified in 1961 14

Special Appendix
Towns with their area and jurisdiction 14

B (i)-GENERAL ECONOMIC TABLES

Note 15–21

Table B-I Workers and Non-workers classified by sex and broad age-groups 22

Table B-III

Part A Industrial classification of Workers and Non-workers by educational levels in Urban areas only 23

Part B Industrial classification of Workers and Non-workers by educational levels in Rural areas only 24–27

Table B-IV

Part A Industrial classification by sex and class of worker of persons at work at Household Industry 28–30

Part B Industrial classification by sex and class of worker of persons at work in non-household industry, trade, business, profession or service 31–35

Part C Industrial classification by sex and divisions, major groups and minor groups of persons at work other than cultivation 36–44

Appendix to Table B-IV Part C 45–46

		Pages
Table B-V	Occupational classification by sex of persons at work other than cultivation	47–71
Appendix to Table B-V		72–73
Annexure	Appropriate Industrial Categories of Occupational Families	73
Table B-VII		
Part A	Persons working principally (i) as Cultivators (ii) as Agricultural labourers or (iii) at Household Industry classified by sex and by Secondary work (i) at Household Industry (ii) as Cultivator or (iii) as Agricultural labourer	74–76
Appendix to Table B-VII Part A		76
Table B-VII		
Part B	Industrial classification by sex of persons working in non-household industry, trade, business, profession or service who are also engaged in household industry	77–85
Table B-VIII		
Part A	Persons unemployed aged 15 and above by sex, broad age-groups and educational levels in Urban areas only	86–87
Part B	Persons unemployed aged 15 and above by sex and educational levels in Rural areas only	86–87
Table B-IX	Persons not at work classified by sex, broad age-groups and type of activity	88–91
B (ii)-HOUSEHOLD ECONOMIC TABLES		
Table B-X	Sample Households (i) engaged neither in cultivation nor household industry (ii) engaged either in cultivation or household industry but not in both and (iii) engaged both in cultivation and household industry for all areas	92
Table B-XI	Sample Households engaged in cultivation classified by interest in land and size of land cultivated in Rural and Urban areas separately	92–93
Table B-XII	Sample Households engaged in cultivation only classified by size of land cultivated and number of family workers and hired workers in Rural and Urban areas separately	94–101
Table B-XVI	Sample Principal household industry classified by period of working and total number of workers engaged in household industry in all areas	102–105
Appendix to Table B-XVI		106
Table B-XVII	Sample Households classified by (i) number of male and female members by size of household and (ii) engagement (a) neither in cultivation nor in industry (b) in household industry only and (c) in cultivation sub-classified by size of land cultivated	107
C-SOCIAL AND CULTURAL TABLES		
Note		109–110
Table C-I	Composition of Sample Households by relationship to head of family Classified by size of land cultivated	111
Table C-II	Age and Marital Status	112–116
Table C-III		
Part A	Age, Sex and Education in all areas	116
Part B	Age, Sex and Education in Urban areas only	117
Table C-IV	Single Year Age Returns	118
Table C-V	Mother Tongue (Alphabetical order)	119–121
Table C-VII	Religion	122
Table C-VIII	Scheduled Castes and Scheduled Tribes	
Part A	Classification by Literacy and Industrial Category of Workers and Non-workers among Scheduled Castes	123
Part B	Classification by Literacy and Industrial Category of Workers and Non-workers among Scheduled Tribes	124

PREFACE

Before 1951, only the figures of population of revenue villages were given in what were then called 'Village Handbooks'. But the decision to bring out the District Census Handbooks giving extracts from all the important census tables for every district of the State was taken for the first time in 1951. In addition to the census tables, the minimum information given in the Primary Census Abstract related to the area of the village, number of houses and households, total population, houseless and institutional population, literates, and agricultural and non-agricultural classes distributed under 8 main livelihood classes. Census statistics given in the Primary Census Abstract were further supplemented by the addition of useful administrative information on such items as post offices, railway stations, distance of bazzar from village, primary schools, village panchayats, co-operative society, etc. This was a unique achievement of the Indian Census giving as it did the basic demographic and economic information for the smallest administrative unit, namely, the village, and in some States, even for each hamlet and also for wards in towns and cities. The 1951 series of District Census Handbooks, however, varied in content and size from State to State depending upon the resources offered by the State Government. The Registrar General, therefore, desired that the Handbooks brought out during the Census of 1961 should contain certain minimum statistical data, maps and other useful information which should be uniformly adopted throughout the country. The matter was discussed at the conferences and seminars of the Superintendents of Census Operations before the contents of the various sections of the District Census Handbook were decided upon.

The Government of Gujarat at first proposed to include a very limited number of census tables in the District Census Handbook as against a very extensive and comprehensive coverage accepted for common adoption by the States. But on reviewing the matter on receipt of the recommendations of the third conference of Superintendents of Census Operations, the Government thought advisable to incorporate as many of the census tables as possible to enhance its usefulness. The result has been that the District Census Handbook of 1961 differs widely in the matter of content and coverage from that published after the Census of 1951 and contains a number of new features examined below.

The District Census Handbook has been sub-divided into three parts, viz., :—

PART I—THE DISTRICT

(i) Introductory Essay

(ii) Brief Gazetteer of Place Names

PART II—STATISTICS

(i) Census Tables

(ii) Villagewise List of Industrial Establishments

(iii) Handicrafts Tables

(iv) Departmental or Official Statistics

PART III—VILLAGE DIRECTORY

(i) Explanatory Note

(ii) Village Directory

(iii) Taluka Maps

Part I is entirely new. While all the items under Part II except that relating to the main Census Tables are added for the first time, the Village Directory Section has been enlarged by the inclusion of certain useful information and maps. Various items included in each of these three parts are listed below.

PART I—THE DISTRICT

(i) *Introductory Essay*

This is a new feature added for the first time. The district has been introduced by giving at the outset certain essential information about its geographical location, physical features, historical background, administrative divisions, territorial changes, topography, soil, climate,

temperature, rainfall, etc. Growth of population, its distribution between rural and urban areas, density, literacy, sex ratio, marital status, economic activities, etc., have been discussed with reference to census tables. Agriculture, livestock, social services, co-operation, transport and communications, facilities of education, medical relief, housing, labour, Community Development Programme, progress of Plan schemes, etc., have also been reviewed in the light of available official statistics. In fine, all the essential details relating to the demographic, economic, social and cultural aspects as revealed by the census and departmental statistics have been examined to give a succinct account of the district as it stood in 1961.

(ii) *Brief Gazetteer of Place Names*

The gazetteer gives in brief information about all the places of historical or religious importance and interest in the district. While the historical background and other relevant details have been taken from the old District Gazetteers, information in respect of major irrigation projects, townships, crafts, fairs and festivals, etc., have been separately collected and brought up-to-date in consultation with the Collectors.

PART II--STATISTICS

Part II contains (a) all the important Census Tables including those compiled from House-lists and (b) Official Statistics, furnished by the various State departments.

Census Statistics

The statement that follows compares the number of tables compiled in different census series with those selected by Government for reproduction in the District Census Handbook.

Details of tables compiled in 1961 Census and reproduced in District Census Handbook

Series	Description	Total No. of tables compiled in 1961	Tables reproduced in District Census Handbook	
			Number	Particulars
1	2	3	4	5
A	General Population Tables	4	3	A-I and its Appendices I, II & III with sub-Appendices 1 & 2, A-III and A-IV with Appendix I and Special Appendix
B	Economic Tables	17	12	
	(i) General Economic Tables	9	7	B-I, B-III-Parts A & B, B-IV-Parts A, B & C, B-V, B-VII-Parts A & B, B-VIII-Parts A & B and B-IX
	(ii) Household Economic Tables	8	5	B-X, B-XI, B-XII, B-XVI and B-XVII
C	Social and Cultural Tables	8	7	C-I, C-II, C-III-Parts A & B, C-IV, C-V, C-VII, C-VIII-Parts A & B
D	Migration Tables	6	..	
E	Tables on Housing and Establishments	5	4	E-I, E-II, E-IV and E-V
SCT/SC/ST	Special Tables on Scheduled Castes and Scheduled Tribes	8	1	SCT-I-Parts A & B

Note :

Two more tables have been specially compiled from House-lists, viz., (i) Villagewise List of Industrial Establishments and (ii) Handicrafts Tables.

Official Statistics

The picture the census statistics present will be incomplete without the official or departmental statistics reviewing the progress made by the various administrative departments during the past decennium. An attempt has, therefore, been made to compile important official statistics for publication in the District Census Handbook. These statistics which relate to the past ten years must be adjusted to the existing set-up of administration, if they are to be really useful and comparable. This, however, was not possible in spite of efforts to that effect. For, extensive changes in the territorial jurisdiction of districts and talukas have taken place during the last ten years, first as a result of integration in 1956 and then due to bifurcation on May 1, 1960 when Gujarat came into being as a separate political unit for the first time. Non-availability of the required data in case of most of the Princely States and Estates was another handicap. The task of compilation of official statistics was thus beset with innumerable difficulties. The proformae for the various statements numbering 49 as approved by Government and the Registrar General were circulated to all the concerned Heads of Departments as early as July 1961. In view of the importance of these statistics, the Government by circular letter No. CNS-1461-A2 dated the 27th July 1961 addressed to all Heads of Departments had also directed that official statistics called for by the Superintendent of Census Operations should be furnished within two months through the Director, Bureau of Economics and Statistics, after thorough scrutiny by some responsible officer of the department along with a certificate to the effect that the data furnished are up-to-date, complete and authentic in all particulars. The delay, however, caused in furnishing correct and complete information by the departments delayed final compilations and resulted in protracted correspondence to rectify the discrepancies and incompleteness noticed during the course of verification at the Bureau. Non-availability of the required information for the various administrative units as at present constituted was another obstacle. The progress had, therefore, to be reviewed from time to time in a series of meetings with the Director, Bureau of Economics and Statistics and representatives of the departments concerned. The offices from which information was not received had to be frequently reminded by the Director, the Census Department and at times even by the Chief Secretary. Some of the tables proposed to be included could not be inserted or had to be revised either for want of receipt of timely information or owing to the non-availability or incompleteness of the data furnished. Where data for individual years are not available, they have been collected for the years 1950-51, 1955-56, 1960-61 which mark the commencement of the First, Second and Third Five Year Plans. Where statistics for these periods are not available, they are given only for the year 1960-61; and where the figures compiled are not available for the units as at present constituted, the clarification as to the unit to which they refer has been made in the footnote to the statements which also disclose the source of compilation.

PART III—VILLAGE DIRECTORY

The Village Directory or the Primary Census Abstract includes information regarding population, area, occupied houses, households, workers classified into nine industrial categories of workers and non-workers, Scheduled Castes and Scheduled Tribes, literates and educated, etc., for each village as well as for every ward and block of about 120 houses in each town. In addition, it gives information on certain essential amenities existing in the village such as educational facilities, public health and medical facilities, supply of drinking water, electricity and its uses, etc., by means of abbreviations placed against the name of each village. This additional information has been compiled from the special 'village notes' devised for the purpose and collected through the Block Development Officers. They relate to the position as it existed about March 1961

The figures of population of Scheduled Castes and Scheduled Tribes were given in 1951 for certain arbitrary tracts formed by the grouping of talukas. The result was that the administration was seriously handicapped in the absence of relevant particulars for the various administrative units of a district which were required oft and

on for planning and other purposes. This lacuna has been removed on the present occasion by giving figures of Scheduled Castes and Scheduled Tribes for each village in the Primary Census Abstract. The talukas and villages given in the Village Directory are arranged in the order of their location code numbers.

MAPS

The Village Directory is preceded by taluka maps showing villages by their location code numbers and dots varying according to the size of the village. Other items such as district or taluka headquarters, railway, national highway, State highway, local roads, post office, post and telegraph, canal, river, rest house, police station, etc., have been shown on the map with appropriate symbols. Two key maps, one for the State showing the district boundary and the position of the district in the State in hatching and the position of the taluka in the district in black and another key map for the district showing taluka boundary and the position of taluka in the district in hatching have also been included in the taluka map. In addition to taluka maps, a map of the district has also been given at the commencement of the Handbook showing the various items listed above for the taluka map and villages having population over 5,000. The key map given in the district map shows district boundary and the position of the district in the State in hatching.

The preparation of district and taluka maps and finalisation of area figures proved to be another handicap. The District Inspectors of Land Records had furnished tracings which had to be brought up-to-date in the light of changes in boundaries owing to integration on the one hand and bifurcation on the other. Frequent references and back references entered into at various levels, the Settlement Commissioner, Superintendents and District Inspectors of Land Records to remove the discrepancies and reconcile the inconsistencies noticed did not yield much result. The matter was, therefore, finally set at rest by calling a conference of Superintendents and District Inspectors of Land Records who did on-the-spot checking and verification and certified the correctness of the ultimate delimitation of boundaries and location of villages appearing in the taluka and district maps and accuracy of area figures entered in the Primary Census Abstract.

PAGING

Each of the three parts of the District Census Handbook will have a separate series of page numbers starting with 1.

ALPHABETICAL LIST OF VILLAGES

With a view to enable the reader to trace a village from the Village Directory, an alphabetical list of villages giving the names of villages and indicating their location code numbers, page number and serial number on the page at which they are printed has been given separately for each Taluka/Mahal at the commencement of the Handbook.

THE HANDBOOK

The contents of the District Census Handbook explained above have been finalised after frequent deliberations at various census conferences and seminars, and meticulous care as to their form, size and presentation. But these by themselves would not have been sufficient had the Government not readily responded to the various suggestions made in this behalf. If I may say so, the Government had placed implicit faith in me, and accepted all the proposals made by me from time to time to add to the utility of this important compilation. It is hoped that the District Census Handbook in its present form will satisfy a growing demand for basic census data by ultimate territorial units and other background information about the district and also prove to be a useful book of reference to the administrative departments and the public.

The Government of Gujarat has taken a further decision namely to print the District Census Handbook also in the regional language of the State, viz., Gujarati. This will very much add to the utility of this publication. The Handbook in Gujarati will contain (i) Note introducing the district, (ii) Alphabetical list of villages, (iii) Census Tables A-I, A-III and SCT-I, (iv) Village Directory with explanatory note and (v) District and Taluka maps.

ACKNOWLEDGEMENTS

Help in the compilation of the District Census Handbooks has been forthcoming from various quarters, to all of whom I am deeply indebted. I, however, wish to express my thanks to Shri V. Isvaran and Shri V. L. Gidwani, Chief Secretaries to Government, and Shri M. G. Shah, Deputy Secretary, General Administration Department for all the facilities they have given in their preparation and publication of these Handbooks. I am also obliged to the Bureau of Economics and Statistics for the services rendered in the compilation of Official Statistics furnished by the Heads of Departments and the checking of the statistical data in the draft-notes for the Introductory Essays prepared by the District Statistical Officers. My thanks are also due to Shri H. V. Desai, Settlement Commissioner, Superintendents of Land Records and District Inspectors of Land Records for their assistance in the finalisation of area figures and verification of district and taluka maps. Lastly I should place on record my gratitude to Shri Balwantray G. Mehta, Chief Minister of Gujarat, whose keen interest has to no small extent ensured the expeditious printing and publication of the District Census Handbooks.

Programme for the printing of District Census Handbooks has this time been very heavy indeed, more so as they are published both in Gujarati and English. The arrangements made by Shri B. A. Koreishi, Director, Government Printing and Stationery, and Shri G. J. Gonsalves, Deputy Director, for the printing of the voluminous work pertaining to the District Census Handbooks at the various Government and local presses, are thankfully acknowledged. The excellent work turned out by the Government Photo-zincographic Press, Poona in printing district and taluka maps deserves special mention.

I would like to place on record the valuable contribution made by the members of the Census Organisation at various levels in bringing out the Handbook in its present form. Mention in particular should be made of Shri K. F. Patel, Deputy Superintendent of Census Operations, Shri J. D. Shah, Statistical Assistant, Shri H. S. Bhatt, in charge proof reading section and Shri K. D. Vaishnav and Shri L. S. Shrimali of draftsman section. Before I conclude I must pay tribute to the conscientious discharge of duties by the late Shri J. K. Patel, Special Mamlatdar whose services were placed by Government at the disposal of the Census Organisation, for supervising the printing of District Census Handbooks. It is a matter of great regret that his services were lost to us, as he was removed from our midst in the prime of his life owing to sudden heart failure.

Finally, the Registrar General has given such anxious thought and care since the inception of the Census Organization to ensure that the District Census Handbook which the Census of 1961 brings out is an up-to-date book of reference for the District by including all available useful data both census as well as official. I am grateful to him for the valuable suggestions made and guidance given by him in this important publication.

R. K. TRIVEDI,
Superintendent of Census Operations,
Gujarat.

AHMEDABAD,
9th March, 1964.

PART I

1 INTRODUCTORY ESSAY

2 GAZETTEER OF PLACE NAMES

INTRODUCTORY ESSAY

KAIRA DISTRICT

1 LOCATION AND PHYSICAL FEATURES

1.1 Boundaries and Natural Divisions

Kaira district is one of the districts forming part of Baroda Division of Gujarat State. It lies roughly between 22° – 7' and 23° – 18' north latitude and 72° – 15' and 73° –37' east longitude. The district is oblong in shape and major part of it lies between the river Mahi to the south-east and the river Sabarmati to the north-west. On the south-west it extends up to the gulf of Cambay and on the north-east it is bounded by the Panchmahals and Sabarkantha district.

1.2 Configuration

Except for a small hilly area in the northern part of Kapadvanj and Balasinor talukas and along the lower reaches of Mahi, where the river bank is cut by deep ravines, the district is an unbroken plain sloping gently from the north-east towards the south-west there is the famous agricultural area, known as 'Charotar', so called because of its suitability for intensive and varied crop production and also dairy farming.

1.3 Rivers and Tanks

There are 9 rivers in the district. Of these, the important rivers are the Mahi and Sabarmati which are perennial. The river Mahi is popularly known as 'Mahisagar'. It flows from Mehad Talao situated in the Vindhyachal mountains and joins the gulf of Cambay. This river is very useful for irrigation purposes. The river Sabarmati rises from the Aravali hills. It enters the district at village Khodiarpur of Matar taluka and joins the gulf of Cambay. It is more useful for drainage purposes. The other rivers, viz., the Shedhi, the Watrak, the Meshwo and the Khari meet this river at its left bank. The other rivers of the district are the Luni, the Varansi and the Mahor. These rivers are fed by rain-water and are shallow. They flow only during a part of the year and dry up after the month of March.

This district is having big and very important tanks. The details of some of these are given below.

Vanghroli Tank

It is situated at nine miles from Thasra station and at the village site of village Vanghroli.

Savli Tank

It is situated in the limits of Savli, Chikhlod and Visvanathpura villages in Kapadvanj taluka.

Tranaja-Nagrama Tanks

These tanks are situated in between the limits of two villages Tranaja and Nagrama, which are at a distance of $1\frac{1}{2}$ miles from each other.

Saiyant Tank

It is situated in the limits of two villages. namely, Saiyant and Bordi of Thasra taluka.

Rani Porda Tank

It is near villages Raniporda and Ozrala of Thasra taluka.

Kaneval Tank

It is near village Valli of Cambay taluka.

1.4 Soil

The district has four main types of soil: (1) Goradu, (2) Paddy or Kyari land, (3) Black cotton soil and (4) Low-lying alluvial or Bhatha land.

(1) Goradu soil contains a large proportion of organic matter and is found in Anand, Nadiad, Borsad and Petlad talukas. The soil is very fertile. The whole area is dotted with useful trees including fruit trees.

(2) Kyari or Paddy land is found in Mehmedabad and in parts of Matar taluka. The area is popularly known as "Dashkroshi" where superior quality of paddy is grown.

(3) Black cotton soil is found in the north and north east of the district in an upland tract comprising of Kapadvanj, Thasra and

Balasinor talukas. As the tract is hilly, there is a large amount of soil erosion every year. Cotton and groundnut are grown in this tract.

(4) The land becomes increasingly open and less fertile towards south of the district till it merges into the vast belt of low-lying alluvial or Bhatha land along the gulf of Cambay. The area is known as the Bhal tract.

1.5 Climate and Temperature

The climate of the district may be regarded as dry and healthy. The extremes of temperature combined with low rainfall give this district a dry and healthy climate.

There are three main seasons. The cold weather commences from November and prevails up to February, the summer from March to June and the monsoon by the end of June to September. The temperature shoots up to 46.6°C. In April and May burning heat and dust storms prevail. Again in October, the heat becomes excessive. The maximum temperature recorded at Kaira during 1960 was 48.33°C. or 118.99°F. in April and the minimum 11.11°C. or 52.00°F. in January.

1.6 Rainfall

The monsoon breaks in the second fortnight of June followed by heavy showers in July with good rains in August and a few showers in September. The following table gives the rainfall figures for the last decade for Kaira which is the headquarters of the district.

Annual Rainfall for Kaira Town, 1951–60

Year	Annual rainfall	
	In Inches	In Centimetres
1	2	3
1951	N.A.	N.A.
1952	28.0	71.0
1953	41.6	105.7
1954	41.4	105.1
1955	27.8	70.7
1956	55.6	141.1
1957	N.A.	N.A.
1958	33.3	84.5
1959	N.A	N.A.
1960	N.A.	N.A

N.A.=Not available

Monthly rainfall figures for all these years are available in Official Statistics Table No. 1.2 published in Part II of this Handbook.

1.7 Famine and Scarcity

According to the report of the Fact Finding Committee appointed by the former Government of Bombay in 1958–60, out of the 10 talukas of the district Petlad and Balasinor talukas are not shown to have been affected by scarcity in the past. According to the annavari data, however, crops had failed in all the villages of Petlad taluka during the years 1948-49 and 1951-52 requiring ½ suspension of land revenue assessment in 1948-49 and full suspension of land revenue in 1951-52. In each of the years 1952-53 and 1957-58, 4 villages in the talukas were affected. Only Balasinor was considered as not having been affected any time during the last 10 years. The other talukas were affected by scarcity during the last 10 years and the frequency of occurrence of scarcity varies from 1 to 5. The scarcity areas are Cambay, the Southern-most part situated along the gulf and Matar and Mehmedabad talukas, which are situated along the western boundary of the district, the southern-most part being Cambay situated along the Gulf. The main crops of the area are rice, wheat, bajri and cotton. The crops in this district suffer because of bad distribution of rainfall. Both rice and wheat suffer for want of late rains. The Mahi Irrigation Project which includes the construction of a dam at Kandana would irrigate the scarcity areas of Mehmedabad, Matar and Cambay talukas. These areas would, therefore, be completely protected.

1.8 Forests

According to the information furnished by the Chief Conservator of Forests, Gujarat State, area of forest in the district in 1961-62 is found to be 39.60 sq. miles, out of which 5.30 sq. miles are reserved forest and the remaining 34.30 sq. miles are unclassed forests.

2 ADMINISTRATIVE SET-UP

2.1 Historical Background

Crossed by so many of the chief lines of traffic between upper and central India and the coast, the district contains settlements of very great antiquity. Under its different Rajput dynasties (746-1290) the lands of Kaira were, except

perhaps Thasra and Kapadvanj, included in the settled and directly-managed portions of the Anhilvada domain. At the end of the fourteenth century they passed under the Musalman kings of Ahmedabad, and with the other crown lands were in 1573 transferred to the Moguls. From about 1720 to 1750 the district was the scene of almost unceasing conflicts between the Marathas and the Muslim viceroys and nobles. Except that the Kaira estate was for ten years left in the hands of the Babi family, on the capture of Ahmedabad (1753), the districts were shared between the Peshwa and the Gaekwad, and remained with them till made over to the British, partly in 1803 and partly in 1817.

Thereafter, the Kaira district remained under the British rule and formed part of Bombay Province. On the bifurcation of bilingual Bombay State, it formed part of Gujarat State from 1st May, 1960.

The late Patel brothers Shri Vithalbhai and sardar Vallabhbhai Patel, the two of the most illustrious sons of India, belonged to Karamsad, a village of Anand taluka. The front rank statesmen and politician Shri Vithalbhai Patel was a great constitutionalist and the first Indian President of the Imperial Legislative Assembly contituted during the British regime. He fought the alien rule from the legislative platform upto his death. Services rendered by him to the nation at the time of Salt Satyagraha at Dharasana are well-known. Late Shri Vallabhbhai Patel became the acknowledged 'Sardar' (leader) of the whole nation consequent upon his success in the no-tax compaign at Bardoli in 1928. As the first Deputy Prime Minister and Home Minister of Independent India, he accomplished the herculian task of integrating the native States with his unparalleled tact, ingenuity and forthrightness matched by a keen foresight and appraisal of the country's situation handled with a firm hand. As first rank fighters in the cause of freedom, the contribution made by both these brothers have carned for this district a good name throughout the country.

2.2 Territorial Changes

During the years 1941–51 the following areas were added to this district.

The former Indian States of Cambay, Balasinor, Punadra, Khadal, Ghodasar, the non-jurisdictional estates of Zar and Nirmali, Bhadran and Petlad talukas and 38 villages of Attarsumba taluka of the former Baroda State and six villages of Ahmedabad district. One village was transferred to Sabarkantha and two to Ahmedabad district. There have been no territorial changes since 1951.

The territorial changes after 28–2–1961 are given in the Annexure.

2.3 Administrative Divisions

Kaira is one of the districts of Baroda Division of Gujarat State. For the purposes of revenue administration, the district is divided into 3 sub-divisions with 10 talukas.

The details about the area and population in respect of these sub-divisions are given in the following table.

Administrative Divisions, 1961

Sl. No.	Sub-Division/ Taluka/Mahal	Area (in sq. miles)	No. of towns	No. of villages	Population		
					Total	Rural	Urban
1	2	3	4	5	6	7	8
	District Total	**2,670.8**	**17**	**973**	**1,977,540**	**1,593,769**	**383,771**
	Total for Anand Sub-Division	*729.5*	*6*	*276*	*568,117*	*463,328*	*104,789*
1	Anand	260.6	3	77	311,297	242,813	68,484
2	Balasinor	213.2	1	102	103,237	87,668	15,569
3	Thasra	255.7	2	97	153,583	132,847	20,736
	Total for Petlad Sub-Division	*866.4*	*6*	*278*	*651,010*	*511,961*	*139,049*
4	Petlad	212.0	3	80	222,116	166,113	56,003
5	Cambay	437.5	1	105	172,013	120,722	51,291
6	Borsad	216.9	2	93	256,881	225,126	31,755
	Total for Nadiad Sub-Division	*1,074.9*	*5*	*419*	*758,413*	*618,480*	*139,933*
7	Nadiad	270.5	2	100	300,657	212,298	88,359
8	Mehmedabad	196.6	2	75	137,756	113,235	24,521
9	Kapadvanj	378.6	1	162	218,681	191,628	27,053
10	Matar	229.2	..	82	101,319	101,319	..

Details of inhabited and uninhabited villages, density and occupied houses are available in Census Table A–I published in Part II of this Handbook.

2.4 Revenue

The collector is in charge of the general administration, law and order and civil supplies. He is assisted by a Personal Assistant in his office and Deputy Collectors in charge of 3 sub-divisions having their headquarters at Annad, Petlad and Nadiad. There are 10 mamlatdars in charge of 10 taluka offices.

2.5 Revenue Settlement

The district is comprised of 10 talukas of which 7 talukas are comprised of the Union area* of the Province of Bombay. The areas of the former States of Cambay, Balasinor, Baroda, Khadal, Punadra and Ghodasar and non-Jurisdictional estates of Zar and Nirmali were included in this district on the merger of the former States. Petlad, Cambay and Balasinor talukas were comprised chiefly of the former Baroda, Cambay and Balasinor States respectively.

In the Union Area, there is no change since 1947 in the position that obtained before Independence in respect of survey and settlement except that the inam and ex-inam villages which were unsurveyed were got surveyed and their soils classified from 1949 to 1951 under Post-War Reconstruction Scheme Nos. 75 and 77-A respectively. The lands of each individual holding in this area were surveyed and designated as survey numbers and their sub-divisions as pot hissas, pot numbers or hissa numbers. Their areas were worked out separately and recorded. The soils of these survey numbers and sub-divisions were classified for the purposes of land revenue according to the Gujarat classification system and land revenue settlement was introduced under the Bombay Land Revenue Code. The original settlements in this district were introduced in 1862-63 and 1863-64 and these settlements were revised between 1893-94 to 1895-96. Re-revision settlements were introduced in Matar and Mehmedabad talukas in the year 1918-19 and second revision settlement in these two talukas was introduced in the year 1932-33. In the pre-merger villages of the remaining talukas of Nadiad, Anand, Thasra, Borsad and Kapadvanj, second revision settlements were introduced in the year 1947-48 and though the guarantee period of ten years had already expired, the same have not yet been re-revised, nor have the settlements of Matar and Mehmedabad talukas been revised. The former Cambay and Baroda State areas were surveyed and classified during the former State regime on the lines similar to those in the pre-merger talukas of the district. The land revenue settlements were also introduced by these States on similar lines and so the settlement of these areas were considered to be scientific. As regards other former State villages included in this district, partial or wholesale survey and classification were found necessary and were carried out under the Merged State Area Survey and Classification Scheme. In none of these areas, there was anything like scientific settlement in the past. No area in the district now remains unsurveyed and unclassified.

In the Merged State areas where the land revenue settlement was considered scientific, in order to bring the land revenue assessments on par with those obtaining in the pre-merger talukas of the district, Government framed Land Revenue Rule 19–N. For fixing the land revenue assessment in areas which were not settled or not scientifically settled on lines similar to the Bombay Land Revenue Code, Land Revenue Rule 19–O was also framed. Both the above rules were framed under the Bombay Land Revenue Code, Section 52. According to Land Revenue Rule 19–N, the villages in the various settlement groups were generally compared with those in the pre-merger talukas in respect of permanent and semi-permanent factors of physical configuration, climate and rainfall, markets, communications and standard of husbandry and Comparable Union areas were fixed for them. The standard rates of the scientifically settled are as were then compared with the standard rates of Comparable Union are as and remission was granted to the extent of the excess of the former over the latter. Under the Land Revenue Rule 19–O, groups of villages of the merged areas were formed on consideration of their homogeneity in respect of permanent and semi-permanent factors mentioned above,

*Union Areas=Areas forming part the of pre-Independence districts of the Bombay Province.

and the Comparable Union areas of these villages fixed as under Land Revenue Rule 19-N and land revenue assessment in such areas were worked out by application of (1) the recoverable rate under Land Revenue Rule No. 19-N or (2) the existing rates prevailing in the merged areas or (3) the rates worked out on the basis of the average cash value of 35% of 1/6th of gross produce, whichever was the lowest, to the soil classification values through the medium of the distance from village site scale and the actual areas of the survey number or its sub-division. In these areas, there were several villages held on Jagiri tenure. The Jagiri tenure was abolished under the Bombay Merged Territories and Areas (Jagir Abolition) Act, 1953, and the assessment of each individual survey number or sub-division was fixed under Section 7 of the said Act by applying the rate of the adjoining homogeneous khalsa villages.

Under the Gujarat classification system which is also adopted in the former Baroda and Cambay State areas, land irrigated from wells are treated as dry crop lands with and additional classification factor of sub-soil so as to levy higher land revenue assessment on consideration of the capacity of wells and soil classification value.

Lands irrigated from second class and first class irrigation works which are in charge of the Public Works Department are subjected to irrigation cess and irrigation rates under the Bombay Irrigation Act, but for lands irrigated from smaller works like tanks, which are not governed by the Bombay Irrigation Act, the lands are subjected to Himayat assessment which is clubbed with the land revenue. Occassional use of water for agricultural purposes with permission from Government resources where Government has not spent anything is allowed free; and where Government have spent something, water assessment is levied under Section 55 of the Bombay Land Revenue Code.

There were lands held on Bhagdari and Narvadari, Maleki and Talukdari tenures in the pre-merger area of the district. These special tenures were abolished under the Bombay Bhagdari and Narvadari Tenures Abolition Act, 1949, the Bombay Maleki Tenure Abolition Act, 1949 and the Bombay Talukdari Tenure Abolition Act, 1949 respectively. All kinds of inams, except Devasthan Inams, were abolished after 1947 and Bombay Tenancy and Agriculture Lands Act, 1948, was applied in this area with a view to do away with the intermediaries between the agriculturists and the State. The Bombay Prevention of Fragmentation and Consolidation of Holdings Act was enacted in 1948 and the activities under this Act were spread over Thasra, Nadiad, Mehmedabad, Petlad and Borsad talukas. Under the Gujarat Agricultural Land Ceiling Act, 1960, the maximum limits to the land holdings were laid down.

In the Merged Areas, there were lands held on Ankadia and Bahendhari, Matadari, Watan, and Jagiri tenures. These tenures were abolished by special legislations. The various inams except Devasthan Inams, obtaining in the Merged areas were abolished by the Bombay Merged Territories (Miscellaneous Alienations Abolition) Act, 1955 and the Bombay Tenancy and Agricultural Lands Act was applied. Thus in respect of land tenures and inams, survey, soil- classification and land revenue settlement, the position in Merged State areas has been brought on par with that obtaining in these respects in the pre-merger areas of the district.

2.6 Agrarian Structure and Land Reforms

The following special land tenures existed in this district :

(i) Personal Inam
(ii) Talukdari
(iii) Ankadia
(iv) Watan
(v) Jagir
(vi) Miscellaneous
(vii) Devasthan
(viii) Bhagdari and Narvadari tenure
(ix) Matadari tenure
(x) Bahendhari tenure
(xi) Maleki tenure

As a result of Government policy to remove intermediaries and to give social justice to the tillers of the soil various measures of land reforms were introduced from time to time.

These may broadly be divided in two parts viz., :

(1) giving security of tenure to the tenants and ultimately making them owners under the Tenancy Law, and

(2) abolition of different inam and special tenures in order to remove the intermediaries between the Government and the actual tillers of lands.

The tenancy rights are regulated under the Bombay Tenancy and Agricultural Lands Act, 1948. In pursuance of the "Land to the tiller" policy, the Act provided for statutory transfer of ownership rights of lands to the tenants from 1st April, 1957, which is known as the "Tiller's Day". This was an important step towards the removal of absentee landlordism which was one of the disincentive features in the programme of agricultural improvement and food production.

INAM TENURES

The special tenures or inams granted by the former Rulers for services or other reasons have been abolished from the date shown against each.

1	Talukdari	15-8-1949
2	Personal Inams	15-8-1953
3	Village servants useful to the	
	(a) community	1-12-1954
	(b) Government : Patels	1-4-1963
	Inferior Village Servants	1-8-1961
4	Bhagdari and Narvadari tenures	5-8-1949
5	Maleki tenure	1-3-1950
6	Devasthan	...

All inams excepting the last category of Devasthan inams held by religious institutions for religious services have now been abolished. All hereditary watan lands held for village services have also been abolished and all village servants now work on salary basis. The occupancy rights of abolished Inam lands have been conferred on their holders or tenants as the case may be on conditions of payment of occupancy price to Government where necessary and/or compensation to tenure holders.

In the Merged State territories and areas, the following tenures were prevailing and have been abolished from the date shown against each.

1	Matadari tenure	1-1-1954
2	Ankadia tenure	15-8-1953
3	Jagir tenure	1-8-1954
4	Miscellaneous alienations	1-8-1955

Any other inams still surviving stand abolished under the Gujarat Surviving Inams Abolition, Act with effect from 1-10-1963.

2.7 Parliamentary and Assembly Constituencies

Under the Delimitation of Parliamentary and Assembly Constituencies Order, 1961, 2 seats are allotted to this district for the purpose of election to the House of the People and 15 seats for the State Assembly. The details comprising the territorial extent of the Parliamentary and Assembly Constituencies are shown below.

Delimitation of Parliamentary and Assembly Constituencies

A

Parliamentary Constituencies

Sl. No.	Name of Constituency	Extent in terms of Assembly Constituencies
1	2	3
1	Anand	Dhandhuka, Umreth, Anand, Sunav Petlad, Cambay and Matar
2	Kaira	Mehmedabad, Uttarsanda, Nadiad, Kathlal, Kapadvanj, Balasinor and Thasra

B

Assembly Constituencies

Sl. No.	Name of Constituency	Extent of Constituencies
1	2	3
1	Umreth	All 20 villages of Sarsa circle, all 24 villages of Umreth circle and 4 villages of Anand circle of Anand taluka.
2	Anand	Anand taluka (excluding all 20 villages of Sarsa circle, all 24 villages of Umreth circle and 4 villages of Anand circle of Anand taluka)
3	Sunav	All 19 villages of Sojitra circle and, all 21 villages of Sunav circle of Petlad taluka.

B

Assembly Constituencies–contd.

Sl. No.	Name of Constituency	Extent of Constituency
1	2	3
4	Petlad	Petlad taluka (excluding all 19 villages of Sojitra circle and 21 villages of Sunav circle of Petlad taluka)
5	Borsad	Borsad taluka (excluding all 23 villages of Ras circle, all 21 villages of Bhadran circle and 10 villages of Anklav circle of Borsad taluka)
6	Bhadran	All 23 villages of Ras circle, all 21 villages of Bhadran circle and 10 villges of Anklav circle of Borsad taluka.
7	Cambay	Cambay taluka (excluding 28 villages of Tarapur circle and 10 villages of Khakhsar circle of Cambay taluka)
8	Matar	Matar taluka and 28 villages of Tarapur circle and 10 villages of Khakhsar circle of Cambay taluka.
9	Mehmedabad	Mehmedabad taluka
10	Uttarsanda	All 14 villages of Uttarsanda circle, all 15 villages of Maholel circle and 14 villages of Nadiad circle of Nadiad taluka
11	Nadiad	Nadiad taluka (excluding all 14 villages of Uttarsanda circle, all 15 villages of Maholel circle, 14 villages of Nadiad circle, 5 villages of Alina circle and 11 villages of Mahudha circle of Nadiad taluka)
12	Kathlal	(i) 19 villages of Kathlal circle, 27 villages of Attarsumba circle and all 16 villages of Lasundra circle of Kapadvanj taluka (ii) 5 villages of Alina circle and 11 villages of Mahudha circle of Nadiad taluka
13	Kapadvanj	Kapadvanj taluka (excluding all 19 villages of Kathlal circle, 27 villages of Attarsumba circle, and all 16 villages of Lasundra circle of Kapadvanj taluka)
14	*Balasinor	(SC) Balasinor taluka and 14 villages of Sevalia circle of Thasra taluka
15	Thasra	Thasra taluka (excluding 14 villages of Sevalia circle of Thasra taluka)

* This seat is reserved for the Scheduled Castes.

2.8 Judiciary

The judicial set-up of the district comprises of 1 district and Sessions Judge, 1 Assistant Judge, 2 Civil Judges (Sr. Division) and 15 Civil Judges (Jr. Division). As Sessions Judge he is empowered to impose any sentence authorised by law, but any sentence of death is subject to confirmation by the High Court. The Assistant Sessions Judge is empowered to impose any sentence authorised by law, except a sentence of death or imprisonment for life or of imprisonment for a term exceeding 10 years. The District Judge has unlimited jurisdiction in civil suits while the Assistant Judge has jurisdiction up to Rs. 15,000 in such suits. Civil Judge (Sr. Division) and Judicial Magistrate is empowered to impose a sentence of imprisonment for a term not exceeding 2 years and fine not exceeding two thousand rupees. He has got unlimited jurisdiction in civil suits. Civil Judges (Jr. Division) have jurisdiction upto Rs. 10,000 in civil suits. The District Court is situated at Nadiad, although the Collector's headquarters is at Kaira.

2.9 Police

The total strength of civil police in 1960 amounted to 2,118 persons. There were 30 police stations and 31 police outposts in the district. The total number of cognizable offences investigated was 6,298. Thus there was 1 police per 1.69 sq. miles of area. The number of persons per police was 1,246 and the number of cognizable offences investigated per police was 3.98.

The number of crimes by major class of offences in the district is extracted from Official Statistics Table No. 11.3 given in Part II of this Handbook wherein details regarding number of persons acquitted or discharged and number of persons convicted will be found.

Persons convicted by nature of offences, 1960-61

Description of offence	No. of persons convicted
1	2
Against public tranquility	308
Affecting public health, safety, convenience, decency and morals	221
Affecting life	37
Hurt	210
Theft	252
Criminal trespass	104
Under special and local laws	1,008

3 LOCAL SELF GOVERNMENT

3.1 Local Self Government Institutions

The Local Self Government institutions in the State as on 1st April, 1961, which is the period covered by this Handbook are (1) Municipalities; (2) District Local Board, (3) District School Board and (4) Gram Panchayats. But since the Gujarat Panchayats Act has come into force from 1st April 1963, replacing the existing District local Boards by Jilla panchayats and introducing democratic decentralisation at all levels, a short resume of the provisions of this Act as regards the new set-up, functions, finance, etc., will also be given to bring the position about administrative set-up up-to-date.

3.2 Municipalities

At the end of 1960–61 there were 15 municipalities covering 15 towns with a population of 366,570. The average population per municipality was 24,438. The following table shows area, population, income and expenditure of each municipality in the district.

Municipalities, area, population, income and expenditure for the year 1960–61

Municipality	Area in sq. mile	Population	Income Rs.	Income per head	Expenditure Rs.	Expenditure per head
1	2	3	4	5	6	7
Total	**66.54**	**366,570**	**7,309,400**	**19.94**	**7,107,055**	**19.39**
Vaso	5.00	9,407	82,605	8.78	90,018	9.57
Nadiad	10.92	78,952	1,871,672	23.71	1,606,358	20.35
Kapadvanj	1.61	27,053	914,441	33.80	970,028	35.86
Kaira	0.49	9,641	155,386	16.12	159,332	16.53
Mehmedabad	2.00	12,561	286,978	22.85	326,232	25.97
Anand	8.21	40,458	930,867	23.01	744,583	18.40
Umreth	6.72	21,244	353,097	16.62	405,978	19.11
Dakor	5.95	12,636	415,712	32.90	460,233	36.42
Balasinor	0.72	15,569	202,303	12.99	265,937	17.08
Sojitra	0.45	12,046	168,452	13.98	99,824	8.29
Dharmaj	5.60	8,718	105,913	12.15	87,505	10.04
Petlad	3.55	35,239	837,702	23.77	767,713	21.79
Cambay	1.71	51,291	590,390	11.51	687,508	13.40
Borsad	9.61	24,704	316,533	12.81	357,902	14.49
Bhadran	4.00	7,051	77,349	10.97	77,904	11.05

Details regarding number of members, sources of income and heads of expenditure are available in Official Statistics Table No. 14.1 published in part II of this Handbook.

The total income of all the 15 municipalities during 1960–61 amounted to Rs. 7,309,400 of which as much as Rs. 4,230,272 or 57.87 per cent came from rates and taxes. The income per head of population as per 1961 Census was Rs. 19.94. As against this, the total expenditure in 1960-61 of all munieipalities amounted to Rs. 7,107,055 and average expenditure per head of population Rs. 19.39.

3.3 District Local Board

Total income and expenditure of the board during 1960-61 were Rs.1,616,602 and Rs. 1,988,372 respectively. The main sources of income are local rates and land revenue and the major heads of expenditure are civil and public works, and medical and education. The following table shows income and expenditure of the Kaira District Local Board during 1960-61 under different heads.

Income and expenditure of District Local Board, 1960-61

Head	Income (in Rs.)	Head	Expenditure (in Rs.)
1	2	3	4
Total	**1,616,602**	**Total**	**1,988,372**
Land revenue	283,856	Refunds	407,299
Local rates	535,687	Administration	89,239
Interest	44,725	Law and justice	1,278
Police	1,052		
Medical	148,807	Medical	412,308
Scientific and other minor departments	5,009	Scientific and other minor departments	36,882
		Pension	19,531
Miscellaneous	367,039	Miscellaneous	80,761
Irrigation and minor works	230,427		
		Civil Public works	941,074

Details giving income and expenditure under different sources are available for the years 1950–51 and 1955–56 in Official Statistics Table No. 14.2 published in Part II of this Handbook.

3.4 Panchayats

The number of panchayats in the district at the end of 1960–61 was 664, including group panchayats which were subsequently separated. As a result there were 800 village panchayats in the district at the end of 1960–61. The number of panchayats in each taluka of the district together with their income and expenditure for the year 1950–51, 1955–56 and 1960–61 is given in the following table.

Income and expenditure of panchayats, 1950-51, 1955-56 and 1960-61

Taluka	No. of village Panchayats			Income Rs.			Expenditure Rs.		
	1950-51	1955-56	1960-61	1950-51	1955-56	1960-61	1950-51	1955-56	1960-61
1	2	3	4	5	6	7	8	9	10
Total	**200**	**368**	**664**	**492,487**	**2,036,403**	**5,072,930**	**310,651**	**1,607,457**	**4,705,436**
Nadiad	25	54	84	86,608	344,261	622,597	62,988	295,462	540,701
Kapadvanj	9	29	91	45,185	113,873	339,443	41,316	103,318	280,996
Mehmedabad	10	34	49	27,378	118,166	298,845	21,739	96,173	253,192
Matar	..	..	50	..	..	245,099	..	..	307,189
Anand	38	50	74	111,505	379,462	530,599	32,447	139,008	562,874
Thasra	7	19	46	32,782	18,450	649,761	19,302	105,961	444,785
Balasinor	..	10	46	..	19,552	44,427	..	9,301	38,435
Petlad	74	79	80	104,924	559,999	977,315	66,101	452,906	953,881
Cambay	10	30	60	2,718	151,674	475,841	3,675	91,019	533,756
Borsad	27	63	84	81,387	330,966	889,003	63,083	314,309	789,627

The above details are also available in Official Statistics Table No. 14.3 published in Part II of this Handbook.

The total income of all panchayats for the year 1960–61 was Rs. 5,072,930 while the total expenditure amounted to Rs. 4,705,436.

3.5 Present set-up under the Panchayat Act

The Gujarat Panchayats Act has been brought into force in all the districts of Gujarat (except Kutch and Dangs districts) from 1st April, 1963. In the Kutch district, it has been brought into force with effect from 15th April, 1963. It is not yet made applicable to the Dangs district. In each district there are three tiers of the Panchayat Organisation, gram/nagar panchayats, taluka panchayats and district panchayat. Municipalities having population not exceeding 10,000 have been converted into gram panchayats and those having population exceeding 10,000 but not exceeding 20,000 have been converted into nagar panchayats. A gram/nagar panchayat is subordinate to the taluka panchayat, while a taluka panchayat is subordinate to the district panchayat according to the scheme of this Act.

According to the provisions of the Gujarat Panchayat Act, 1961, a gram panchayat consists of not less than 9 and not more than 16 members, while a nagar panchayat consists of not less than 15 and not more than 31 members. Provision has been made to reserve seats for women and members of Scheduled Castes and Tribes. A taluka panchayat consists of ex-officio, elected, co-opted and associate members. On account of the national emergency, interim district panchayats had to be constituted in April, 1963. Elections are now proposed to be held and elected district panchayats would be constituted towards the end of March, 1964, in the sixteen districts of the State.

The District Development Officer is the Chief Executive Officer in a district panchayat. He is borne on the cadre of the Indian Administrative Service (Senior time scale) and is appointed by Government. The Chief Executive Officer of the taluka panchayat is the Taluka Development Officer, who is also appointed by Government. Both these officers are secretaries of their respective panchayats. These panchayats function through various committees appointed for different groups of functions under the Act.

FUNCTIONS

The functions of three tiers of panchayats have been given very elaborately in the three schedules to the Act. In addition, the functions of collecting land revenue (including cesses) and

dues recoverable as arrears of land revenue, levied and assessed by or under the land revenue code and all other functions and duties of a village accountant under the land revenue code have been transferred to gram/nagar panchayats. The powers exercised and the functions and duties performed by the District School Board have been similarly transferred to the taluka and district panchayats and all primary schools have been placed under the control of taluka and district panchayats. A large number of functions such as registration of co-operative societies, approval of amendment to the bye-law of co-operative societies, calling of or extending the period for the calling of annual general meeting of co-operative societies and such other functions which under the Co-operative Societies Act, were exercised by the Registrar, Co-operative Societies have been transferred to district panchayats. Moreover functions relating to agriculture, animal husbandry, public health and medical relief, social welfare, cottage industries and small scale industries and District Statistical Office, have been transferred on an agency basis to the district panchayats.

STAFF

To enable the panchayats to carry out numerous activities entrusted to them, Government has transferred/deputed a number of its employees alongwith the functions transferred. The staff of the District School Boards and District Local Boards has also been transferred to taluka/district panchayats. It has been envisaged in the Act to constitute a Panchayat Service in connection with the affairs of panchayats and to maintain a uniform standard in the recruitment for panchayat service. A Panchayat Service Selection Board has been constituted for this purpose.

FUNDS

The panchayats have been given necessary funds to execute all schemes transferred to them. In addition, provision has been made in the Act, for various tiers of panchayat to levy taxes and fees. A gram or nagar panchayat, subject to certain conditions can levy a tax on buildings, a pilgrim tax, a tax on fairs, festivals and other entertainments, a tax on bicycles or vehicles drawn by animals, a sanitary tax, etc. It can also levy fee on markets, cart stands, tonga stands, for the supply of water from wells and tanks for purposes other than domestic use and for cattle. The taluka panchayat and district panchayat can request Government for increase in stamp duty. Moreover, provision has been made in the Act for making grants to the panchayats for its activities.

At present, the implementation of the Act is being done mostly through the Commissioner. They have been delegated with most of the powers of the State and exercise supervision over panchayats.

Provision has also been made in the Act under which the State Government will give grants to the panchayats on the basis of the average of the land revenue collected during the last three preceding years, after deducting therefrom the expenditure on the salaries and training of the secretaries of gram panchayats and village accountants and crediting 5 per cent of the amount to the State Equalisation Fund. Fifty per cent of the balance will be distributed among gram panchayats and nagar panchayats, 25 per cent among taluka panchayats, and 10 per cent among the district panchayats. Out of the remaining 15 per cent of the land revenue, 7½ per cent will be carried to the District Equalisation Fund and 7½ per cent to the Gram Encouragement Fund.

4 POPULATION

4.1 Growth of Population

In 1951, the population of the district as constituted in 1961 was 1,612,426. According to the 1961 Census the same has gone upto 1,977,540 and increased by 365,114 or 22.64 per cent, the highest during the last sixty years though lower than that observed in the case of Gujarat State which is 26.88 per cent. The lower rate of growth can be due to the mobility of the people of this district who move out to business centres not only in the country but also outside. The following table compares the growth rate in the district during the last sixty years.

Variation in population during 1901 to 1961

Year	Population	Decade variation	Percentage decade variation
1	2	3	4
1901	1,037,249	..	..
1911	1,016,501	— 20,748	— 2.00
1921	1,032,490	+ 15,989	+ 1.57
1931	1,123,196	+ 90,706	+ 8.79
1941	1,336,297	+213,101	+ 18.97
1951	1,612,426	+276,129	+ 20.66
1961	1,977,540	+365,114	+ 22.64
1901 to 1961	..	+940,291	+ 90.65

Sexwise details are available in Census Table A-II published in Census of India, 1961, Volume V-Gujarat, Part II-A.

The growth of numbers between 1951-61 can, however, be attributed to the decline in death rate, accompanied by steady improvements in medical and public health services available to the people since Independence.

Occupied residential houses and households

The total number of occupied residential houses in the district is 381,082 or 10.22 per cent of the State. The average number of persons per occupied census house in total, rural and urban areas of the State and district is given below.

Average number of persons per occupied census house, 1961

Total/Rural/Urban	State	District
1	2	3
Total	5.53	5.19
Rural	5.54	5.18
Urban	5.52	5.24

It will be seen that the average number of persons per occupied house in the district is less than that of the State for its total, rural and urban areas.

The number of households in the district was total 389,507 rural 312,765 and urban 76,742. and that of houses total 381,082, rural 307,888 and urban 73,194. The number of households per cent of houses, therefore, comes to 102.21, 101.58 and 104.85 for the total, rural and urban areas respectively. The average number of persons per household for total, rural and urban areas of the district comes to 5.08, 5.10 and 5.00 respectively.

4.2 Rural/Urban Distribution

The criteria for determining whether a place was rural or urban varied from census to census and rendered such data incomparable. A uniform definition for urban areas was, therefore, adopted during the Census of 1961, by laying down that a place should be classified as urban if it was (1) a municipality, cantonment or civil lines or, (2) had (a) a population of 5,000 or over and (b) 75 per cent or more of the total male population was dependent on non-agricultural pursuits.

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'Village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distinct number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the fields within the boundaries of the village. It may be inhabited or uninhabited.

4.2 (i) Rural Population

The total number of villages in the district is 973 of which 8 are uninhabited. The total rural population of the district is 1,593,769 giving an average of 1,652 persons per inhabited village. The proportion of rural population (80.59%) to the total population in the district is higher than similar proportion in the State which is 74.23 per cent.

Percentage distribution of rural population by size group of villages, 1961

Size group	No. of villages	Percentage to total No. of villages	Rural Population	Percentage to total rural population
1	2	3	4	5
Less than 200	72	7.46	8,042	0.50
200–499	133	13.78	48,011	3.01
500–999	222	23.01	162,671	10.21
1,000–1,999	266	27.57	375,240	23.54
2,000–4,999	227	23.52	680,332	42.69
5,000–9,999	41	4.25	268 237	16.83
10,000 and above	4	0.41	51,236	3.22

Details of sexwise population for talukas are available in Census Table A-III published in Part II of this Handbook.

21.24 per cent of villages in the district fall in the class range less than 500, while 50.58 per cent of the total have population varying from 500 to 1,999. 28.18 per cent of them are large size villages (2,000 and above) covering 62.74 per cent of rural population. It is significant to note that the major part of rural population 86.28 per cent is concentrated in villages having population 1,000 and above. Large size villages is the feature of this district. The tendency of villages to grow in size and the concentration of rural population in medium and large size village are noticeable from these statistics.

4.2 (ii) Urban Population

Statement showing the number of towns classified by population is furnished below.

Number of towns classified by size groups during 1901 to 1961

	I		II		III		IV		V		VI	
	100,000 and above		50,000 to 99,999		20,000 to 49,999		10,000 to 19,999		5,000 to 9,999		Below 5,000	
Year	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population
1	2	3	4	5	6	7	8	9	10	11	12	13
1961	..	..	2	130,243	5	148,698	5	64,772	5	40,058	..	..
1951	..	..	1	62,645	5	137,428	7	89,421	22	156,118	3	9,923
1941	..	..	..	..	4	125,454	6	84,372	9	60,683	2	6,597
1931	..	..	..	..	2	66,461	6	86,071	10	73,253	4	14,994
1921	..	..	..	..	2	59,190	5	67,147	8	58,238	7	27,142
1911	..	..	..	..	2	55,243	5	63,639	8	59,031	4	14,998
1901	..	..	..	..	2	63,215	7	90,217	8	61,382	6	25,120

Sexwise details for each town are available in Census Table A-IV published in Part II of this Handbook.

Nearly 1/5th of the total population (19.41 per cent) lives in urban areas, as against 25.77 per cent in the State. The number of towns in 1951 (38) has come down to 17 in 1961 owing to declassification of a number of them as a result of change in the definition of urban areas. According to this definition, Adas, Bhalej, Boriavi, Chikhodra, Karamsad, Napad Vanto, Ode, Samarkha, Sarsa, Vadod, Anklav, Tarapur, Kathlal, Matar, Chaklashi, Mahudha, Pij, Mehlav, Nar, Thasra, Napad Talpad, Birpur and Attarsumba which were treated as urban in 1951 were declassified and treated as rural in 1961 and Vallabh Vidyanagar and Pali were treated as towns 1961.

The urban population of the district, numbering 383,771 persons is spread over 17 towns of different sizes of which only two viz., Nadiad and Cambay come under class II and has population over 50,000. Of the rest, 5 are in class III, i.e., size group 20,000 to 49,999, 5 fall under class IV and have population above 10,000 and below 20,000 and 5 have population below 10,000. There is no town which has population below 5,000. The average population of a town in the district is 22,575 persons as compared to 30,380 for the State. The extent of urbanisation is thus found to be comparatively less than that obtaining in the State as a whole.

4.3 Density

The area of the district in 1951 was 2,564 square miles or 3.61 per cent of the total area of Gujarat. In 1961 it was to 2,670.8 square miles or 3.76 per cent of the total area of the State due to survey of unsurveyed areas. The corresponding percentages of population for the district as constituted in 1961 are, however, found to be 9.91 per cent in 1951 and 9.58 per cent in 1961. The average density of population is 740 persons per square mile as against 290 for the State. The urban density (5,226) is naturally higher than the rural (614) where the pressure of population is comparatively less and the average density is worked out on the basis of the entire area within the revenue limits of the village and not of the village site. These densities differ for different parts of the district as also for its rural and urban areas as will be seen from the table that follows.

Population per square mile, 1961

State/District/ Taluka	Population per square mile		
	Total	Rural	Urban
1	2	3	4
State	**290**	**218**	**7,194**
District	*740*	*614*	*5,226*
Nadiad	1,111	834	5,550
Kapadvanj	578	508	16,803
Mehmedabad	701	583	8,916
Matar	442	442	..
Anand	1,195	992	4,337
Thasra	601	544	1,797
Balasinor	484	413	21,624
Petlad	1,048	821	5,834
Cambay	393	277	29,995
Borsad	1,184	1,107	2,333

While working out the density of urban areas, the urban units for which area figures are not available have been ignored. Rural density is worked out on the basis of rural population only, though the area figures include the area of those urban units for which separate area figures are not available. The highest average density 1,195 is found in Anand taluka and the lowest 393 in Cambay taluka. In rural areas Borsad has the highest (1,107) and Cambay taluka the lowest (277) density. But among towns Cambay tops the list with 29,995 persons per sq. mile the lowest being 1,797 persons for Thasra.

4.4 Migration

The number of persons born (i) at the place of enumeration (ii) elsewhere in the district (iii) outside the district of enumeration but within Gujarat State and those (iv) born outside Gujarat State as per 1961 Census is given below

Population by place of birth, 1961

Persons/ Males/ Females	Total popula-tion	Born in			
		Place of enumera-tion	Elsewhere in the district	Outside the district but in the State	Outside the State
1	2	3	4	5	6
Persons	1,977,540	1,331,629	454,648	158,799	32,464
Males	1,039,720	867,722	98,030	55,482	18,486
Females	937,820	463,907	356,618	103,317	13,978
Percentages					
Persons	100.00	67.34	22.99	8.03	1.64
Males	100.00	83.46	9.43	5.33	1.78
Females	100.00	49.47	38.02	11.02	1.49

In case of 67.34 per cent of the population of the district, the place of enumertion is the same as the place of birth. This proportion for males is 83.46 per cent, as against 49.47 per cent for females owing to the migration of females after marriage, which appears to be mostly within the district. For the proportion of females born outside the place of enumeration but within the district is as high as 38.02 per cent as compared to those born outside the district but within the State who account for 11.02 per cent and those outside the State who account for 1.49 per cent only.

The percentage distribution of population born at the place of enumeration, born elsewhere within the district and outside the district by nine categories of economic activity and of non-workers is shown below.

Distribution of population by categories of workers and non-workers classified by place of birth, 1961

Place of birth	Categories of workers									
	I	II	III	IV	V	VI	VII	VIII	IX	X
	As Cultivator	As Agricultural labourer	In Mining, Quarrying, etc.	At House-hold Industry	In manu-facturing other than Household Industry	In Construction	In Trade and Commerce	In Transport, Storage and Communi-cations	In Other Services	Non-workers
1	2	3	4	5	6	7	8	9	10	11
District Total	**18.99**	**5.95**	**0.23**	**2.11**	**1.66**	**0.32**	**1.59**	**0.48**	**3.26**	**65.41**
Born at the place of enumeration	23.05	5.40	0.13	1.50	1.32	0.20	1.54	0.37	2.50	63.99
Elsewhere in the district	11.07	7.35	0.24	3.05	1.40	0.23	1.31	0.51	3.93	70.91
Outside the district	9.53	6.40	0.93	4.13	4.57	1.41	2.64	1.24	6.92	62.23

MIGRATION TO AHMEDABAD CITY

A special study of migrants to Ahmedabad City undertaken in the 1961 Census has revealed some interesting features.

Ahmedabad City is having 393,384 migrants from the various districts of Gujarat State. Migrants from Kaira district numbered 49,353 due to its proximity to the highly industrialized city where potentialities of employment are greater.

4.5 Sex Ratio

In 1961 the number of females per 1,000 males in the district was 902 which was lower than the similar ratio of 940 for the State. The corresponding rural and urban sex ratios for the district which were 906 and 886 respectively show that the proportion of females was comparatively less in towns than in villages.

The following statement compares sex ratios in towns in 1951 and 1961.

Females per thousand males in urban areas, 1951 and 1961

State/ District/ Town	Sex ratio	
	1951	1961
1	2	3
State	**915**	**896**
District	*915*	*886*
Vaso	959	958
Nadiad	883	885
Kapadvanj	924	903
Kaira	980	931
Mehmedabad	924	929
Anand	829	809
Umreth	919	933
Vallabh Vidyanagar	..	320
Dakor	862	883
Pali	..	860
Balasinor	934	907
Sojitra	1,017	998
Dharmaj	981	962
Petlad	881	893
Cambay	955	926
Borsad	941	927
Bhadran	1,002	955

The urban areas with a sex ratio lower than that for the district average are Anand, Vallabh Vidyanagar, Dakor, Pali and Nadiad. The ratios in respect of these urban areas appear to be lower due to concentration of male population brought about by the following factors:-

Nadiad :- Indusrial and Educational Centre
Vallabh Vidyanagar:-Sardar Vallabhbhai Patel Vidyapeeth

Anand :- Agricultural College and Dairy Technology and Business Centre

Dakor :- Pilgrim Centre
Pali :- Cement Factory

The higher female ratio in Sojitra and Dharmaj is mainly due to the absence of male members who have migrated to towns and cities and even to foreign countries for business or service.

4.6 Age Distribution

The following tables given in Part II of this Handbook give data regarding ages as under :

Table C-II shows the distribution of the population by quinquennial age-groups. Table C-IV gives single year age returns. Broad age-groups are also given in Tables B-I and C-II printed in Part II. Proportionate figures by broad age-groups in 1961 are compared below separately for males and females with the corresponding proportions for 1951 for the district as then constituted.

Percentage distribution of population by sex and age-groups, 1951 and 1961

	Percentage of population by age-groups			
	1951		1961	
Age-groups	Males	Females	Males	Females
1	2	3	4	5
Total A to D	**100.00**	**100.00**	**100.00**	**100.00**
0-4	13.59	14.32	14.52	14.99
5-14	26.46	25.06	27.82	25.95
A 0-14	40.05	39.38	42.34	40.94
15-34	32.40	33.67	31.50	33.00
35-59	22.31	21.03	20.98	20.79
B 15-59	54.71	54.70	52.48	53.79
C 60 +	5.23	5.91	5.15	5.24
D Age not stated	0.01	0.01	0.03	0.03

The proportion of both males and females in the age group 0–14 has increased during the decade owing to high birth rate which is responsible for an increase of 2.29 per cent in males and 1.56 per cent in females. But there is a slight decline in the proportion of males and females in the age groups 15–34 and 35–59. This may perhaps, be due to the migration of adult workers to other areas.

4.7 Marital Status

According to the Census of 1961, 45.27 per cent are returned as married, 42.98 per cent males, and 47.80 per cent females. Never married persons account for 47.71 per cent of the total population, males being 52.74 per cent and females, 42.14 per cent of their respective population. The widowed are 6.76 per cent and divorced/separated constitute 0.27 per cent only. The following table shows the marital status of males and females in different age-groups classified into (i) never married, (ii) married and (iii) widowed, divorced/separated and others.

Age and Marital Status, 1961

	Never Married		Married		Widowed/divorced/separated and others	
Age-groups	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total females
1	2	3	4	5	6	7
Total	**52.74**	**42.14**	**42.98**	**47.80**	**4.28**	**10.06**
0–9	100.00	100.00	..	..	..	..
10–14	91.56	80.38	8.39	19.51	0 05	0.11
15–19	69.40	33.52	30.20	65.81	0.40	0.67
20–24	34.27	4.70	64.24	93.88	1.49	1.42
25–29	11.77	0.79	85.63	96.28	2.60	2.93
30+	4.35	0.30	83.65	70.64	12.00	29.06

It will be seen from the above table that no person has been reported as married in the age-group 0–9 as all such persons were treated as unmarried at the time of sorting. But the child marriages still persist in the age-group 10–14 to the extent of 8.39 per cent for males and 19.51 per cent for females. It is also noteworthy that among males the age of marriage has shifted and risen to 20 and above, as only 30.20 per cent of males have been returned as married in the age-group 15–19, while the percentage rises to 64.24 per cent in the age-group of 20–24 and to 85.63 per cent in the age-group of 25–29. Corresponding proportions for females, however, show that 65.81 per cent of females in the age-group 15–19 and 93.88 per cent in the age-group 20–24 are married. In other words, in case of females, though the date of marriage has advanced, it has not gone much beyond 15–19 years, when most of them get married. Examination of the figures of widowed and divorced/separated discloses an interesting feature of marital life in the district in that, they appear to be significant only after the age of 29. While females above 30 years account for 29.06 per cent in this category, males form 12.00 per cent of their population. These figures reveal a greater tendency towards remarriage on the part of widowed males than widowed females among whom it is mostly avoided.

4.8 (i) Literacy and Education

According to the Census of 1951, there were 469,380 literates in the district of Kaira as constituted then and formed 29.18 per cent of the total population. Percentage of male literates was then 40.80 per cent while that of female literates 16.42 per cent. In 1961, the percentage of literacy rose to 36.26 per cent (48.45 per cent for males and 22.74 per cent for females). Percentage of literacy to total population by age and sex is given for total/rural/urban in the following table.

Literacy by age-groups, 1961

Age-groups	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8	9	10
All ages	**36.26**	**48.45**	**22.74**	**32.35**	**44.95**	**18.44**	**52.48**	**62.82**	**40.80**
5–14	47.09	55.96	36.56	43.31	53.16	31.60	63.12	67.77	57.59
15–34	47.28	64.62	28.94	42.34	60.69	23.25	66.66	79.43	52.22
35–59	33.96	49.93	16.09	29.25	45.13	11.53	53.54	69.71	35.21
60+	23.91	39.66	6.73	19.97	34.30	3.86	40.72	64.56	18.00
Age not stated	27.09	36.47	15.12	24.74	34.55	12.15	38.78	46.30	29.55

Literates among children in the age group 5–14 constitute 47.09 per cent of whom males account for 55.96 per cent and females 36.56 per cent. The highest percentage of literacy among persons and males is found to be in the age-group 15–34 in total and urban areas, while in rural areas the percentage is higher in the age-group 5–14 for persons and age-group 15–34 for males. The highest percentage of literacy among females is found to be in the age-group 5–14 in total/rural/urban areas, whereas the percentage of literacy in the higher age-group is progressively decreasing. This reveals the keen interest taken by people in female education in recent years. The following table furnishes the sexwise details of literacy by rural/urban for each taluka of the district.

Rural/Urban literacy by sex, 1961

Taluka/Mahal		Literate and Educated					
		(Literates) number	Per cent of total population	Literate males	Per cent of total male population	Literate females	Per cent of total female population
1		2	3	4	5	6	7
Nadiad	R	72,875	34.33	52,700	47.20	20,175	20.05
	U	50,916	57.62	31,144	66.69	19,772	47.46
Kapadvanj	R	51,458	26.85	39,278	39.55	12,180	13.19
	U	13,632	50.39	8,426	59.27	5,206	40.56
Mehmedabad	R	28,983	25.60	22,330	38.07	6,653	12.19
	U	12,308	50.19	7,905	62.22	4,403	37.26
Matar	R	29,882	29.49	22,082	41.56	7,800	16.19
Anand	R	94,472	38.91	66,533	51.74	27,939	24.46
	U	38,494	56.21	25.879	67.22	12,615	42.07
Thasra	R	36,454	27.44	28,322	40.63	8,132	12.88
	U	9,748	47.01	6,400	57.83	3,348	34.62
Balasinor	R	18,454	21.05	15,125	33.43	3,329	7.85
	U	7,231	46.44	4,771	58.42	2,460	33.23
Petlad	R	68,040	40.96	46,053	52.27	21,987	28.18
	U	29,349	52.41	18,135	62.35	11,214	41.66
Cambay	R	35,517	29.42	26 252	41.44	9,265	16.15
	U	23,619	46.05	14,994	56.32	8,625	34.97
Borsad	R	79,479	35.30	57,228	48.29	22,251	20.87
	U	16,092	50.68	10,178	61.95	5,914	38.59

It will be seen from the above table that in rural areas the percentage of literacy is the highest (40.96 per cent) in Petlad taluka and the lowest in Balasinor taluka (21.05 per cent). These also are the rural areas where the highest as well as the lowest percentages of male and female literacy are returned. But among urban areas, the literacy percentage is the highest (57.62 per cent) in Nadiad taluka. The highest percentage (67.22) of male literates is to be found in Anand taluka. Nadiad claims the highest percentage of urban female literates (47.46 per cent), the lowest being 33.23 per cent in Balasinor.

4.8 (ii) Educational institutions

The table below gives the number of various types of educational institutions in the district along with the number of students and teachers in 1960–61.

Number of educational Institutions, Students, and Teachers, 1960–61

Educational levels	Institutions	Teachers	Students
1	2	3	4
Primary	1,374	5,634	237,285
Secondary	131	1,788	47,187
Higher	14	446	6,604
Special	93	302	9,265

Primary, Secondary, Higher and Special Institutions

In 1960–61, the number of villages having primary schools was 911, while villages having no school were 54 in number. The school/teacher/student ratio per village is 1:6:244 respectively. In 1960–61 there were 131 secondary institutions with 1,788 teachers and 47,187 pupils giving an average of 26 pupils per teacher. There were 6 colleges in the district till 1958–59. During the last two years of the Second Five Year Plan, 8 more colleges were opened. There is one university at Vallabh Vidyanagar. In 1960-61, there were 14 institutions for higher education having 446 teachers and 6,604 pupils. The number of special institutions which included technical institutions, training colleges, gymnasia, etc., was 93 and that of teachers and pupils 302 and 9,265 respectively.

4.9 Languages

Table C–V in Part II of this Handbook shows the figures of major languages for the district and each taluka separately. The distribution of speakers of each major language by rural and urban in the district is as under.

Distribution of speakers of major languages, 1961

Sl. No.	Major language	Percentage of total population			Percentage of each major language in	
		Total	Rural	Urban	Rural	Urban
1	2	3	4	5	6	7
Total of all languages		**100.00**	**100.00**	**100.00**	..	..
1	Gujarati	94.45	96.83	84.55	82.63	17.37
2	Marathi	0.20	0.04	0.90	15.25	84.75
3	Hindi	0.39	0.14	1.42	29.46	70 54
4	Sindhi	0.22	0 04	0.95	15.69	84.31
5	Urdu	4.37	2.79	10.94	51.41	48.59
6	Marwari	0.14	0.05	0.51	28.47	71.53
7	Punjabi	0.07	0.02	0.25	25.99	74 01
8	Rajasthani	0.03	0.04	0.03	85.15	14.85
9	Others	0.13	0.05	0.45	30.51	69.49

It will be seen from the above table that 94.45 per cent of the population in the district have Gujarati as their mother tongue. 82.63 per cent of them live in rural areas and 17.37 per cent in urban areas. The number of speakers of other languages are not significant.

4.10 Religions

The following table gives distribution of religions.

Religions, 1961

Religions	Population	Percentage of total population
1	2	3
Total	**1,977,540**	**100.00**
Hindu	1,743,803	88.18
Muslim	176,942	8.95
Jain	16,508	0.84
Sikh	482	0.02
Christian	39,626	2.00
Other religions	179	0.01

It will be seen from the above table that 88.18 per cent of the total population are Hindus, 8.95 per cent Muslims, 2 per cent Christians and 0.84 per cent Jains. Among others, 482 are Sikhs, 49 Buddhists and 130 follow other religions and persuasions.

4.11 Scheduled Castes and Scheduled Tribes

4.11 (i) Scheduled Castes

The total population of Scheduled Castes as per 1961 Census is 116,072 which forms 5.87 per cent of the total population of the district. The following table gives the figures of Scheduled Castes for total/rural/urban.

Scheduled Castes, 1961

Total/Rural/Urban	Persons	Percentage of total population
1	2	3
Total	**116,072**	**5.87**
Rural	96,841	6.08
Urban	19,231	5.01

The literate and educated among the Scheduled Castes number 35,795 and constitute 30.84 per cent of the total population of Scheduled Castes of the district. The respective percentages of literates among them living in villages and towns are 29.45 per cent and 37.82 per cent. The working population accounts for 45,437 persons or 39.15

per cent of their population in the district. Workers in special occupations like (i) tanning and currying of hides and skins and (ii) scavenging number 853 (0.73 per cent) and 1,674 (1.44 per cent) respectively of the total population of Scheduled Castes of the district.

Table of SCT series in Census of India 1961 Volume V-Gujarat Part V-A show details as to number of Scheduled Castes/Tribes, industrial categories, marital status, religion, etc., for each Scheduled Caste/Tribe. Sex and percentage distribution of Scheduled Caste population by rural/urban in the district is shown in the table given below.

Percentage distribution of Scheduled Caste population by rural/urban, 1961

Name of Scheduled Castes	Total population			Sex		Percentage to total population of the district			Percentage of each Scheduled Caste population	
	T	R	U	M	F	T	R	U	R	U
1	2	3	4	5	6	7	8	9	10	11
Total	**116,072**	**96,841**	**19,231**	**60,257**	**55,815**	**5.87**	**4.90**	**0.97**	**83.43**	**16.57**
Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit of Samgar Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar of Zadmalli	29,058	23,634	5,424	15,139	13,919	1.47	1.20	0.27	81.33	18 67
Chalvadi or Channayya	26,896	21,755	5,141	13,817	13,079	1.36	1.10	0.26	80.89	19·11
Garoda or Garo	12	12	..	6	6	N	N	..	100.00	..
Mahyavanshi, Dhed, Vankar or Maru Vankar	2,875	2,076	799	1,477	1,398	0.15	0.10	0.04	72.21	27.79
Mang, Matang or Minimadig	49,903	42,630	7,273	26,071	23,832	2.52	2.16	0.37	85.43	14.57
Meghval or Menghvar	2	2	..	..	2	N	N	..	100.00	..
Nadia or Hadi	109	96	13	52	57	0.01	N	N	88.07	11.93
Shenva, Chenva, Sedma or Rawat	48	45	3	29	19	N	N	N	93.75	6.25
Tirgar or Tirbanda	2,527	2,326	201	1,319	1,208	0.13	0.12	0.01	92.05	7.95
Turi	329	329	..	160	169	0.02	0.02	..	100.00	..
Unclassified	660	457	203	346	314	0.03	0.02	0 01	69.24	30.76
	3,653	3,479	174	1,841	1,812	0.18	0.18	0.01	95.24	4.76

The predominant Scheduled Castes in the district are Mahyavanshi, Dhed, Vankar or Maru Vankar having 49,903 souls or 2.52 per cent of the total population of the district, of whom 85,43 per cent live in villages.

4.11 (ii) Scheduled Tribes

Scheduled Tribes claim 17,480 or only 0.88 per cent of the total population of the district and 0.63 per cent of the Scheduled Tribes of the State.

The following table gives the figures of Scheduled Tribes in the district.

Population of Scheduled Tribes, 1961

Total/Rural/ Urban	Population	Percentage of total population
1	2	3
Total	**17,480**	**0.88**
Rural	14,385	0.90
Urban .	3,095	0.81

The literate and educated among them number 1,868 or 10.69 per cent of whom 1,543 are returned from rural areas and 325 from urban areas.

5 HOUSING

5.1 Housing Census for the first time

In previous censuses, occupied census houses used as dwellings alone were numbered and listed. Non-residential houses such as shops, factories, workshops, temples, mosques, schools, sarais, office premises and business houses, etc., were not entered in the house-list, as it was not necessary to do so for the purposes of enumeration. They have been brought under the purview of the 1961 Census when a regular housing census was taken for the first time with a view to account for all structures, dwellings or non-

dwellings. With the adoption of a uniform house-list throughout the country, important data such as material of wall and roof, tenure status and number of rooms in case of households, number of persons per room and essential data such as name of the proprietor, products manufactured, number of persons employed and kind of fuel or power, if machinery is used in case of work-shops and factories, haue been collected for the first time on this occasion.

5.2 Types of Census houses and their uses

The following table gives the distribution of different types of census houses and the uses to which they are put.

Census houses and the uses to which they are put, 1961

Sl. No.	Type of Census houses	Census houses: Number	Census houses: Percentage to total No. of Census houses
1	2	3	4
1	**Total No. of Census houses**	**561,410**	**100.00**
2	Vacant houses	95,416	17.00
3	Dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings	393,905	70.16
4	Shops and business houses	18,207	3.24
5	Factories, workshops and worksheds	4,883	0.87
6	Schools, places of entertainment, medical and social institutions	4,163	0.74
7	Hotels, restaurants and other miscellaneous houses	44,836	7 99

Out of a total of 561,410 houses, 70.16 per cent were used as dwellings, 17.00 per cent were vacant and the rest were used for non-residential purposes such as shops, business houses (3.24 per cent), factories and workshops (0.87 per cent); schools, places of entertainments and medical and other social institutions (0.74 per cent) and other miscellaneous uses as hotels, restaurants and other places, etc., (7.99 per cent). 83.57 per cent of the households lived in owned houses and the rest in rented ones. In rural areas 90.96 per cent of the households live in owned houses and 9.04 per cent in rented houses, while in urban areas 52.83 per cent of the households live in houses of their own and 47.17 per cent reside in rented houses. The higher proportion of rented houses in urban areas indicates the increased demand of houses on the part of those attracted towards towns. An analysis of the material of wall and roof shows that the predominant materials were burnt bricks and mud in case of walls and tiles and corrugated iron sheets in case of roof. The percentage of households having walls with mud and burnt bricks was 51.71 and 39.31 respectively. Households having roofs covered with tiles, etc., accounted for 56.13 per cent and those with corrugated iron sheets 37.46.

5.3 Households classified by number of members and rooms occupied

The most important classification, however, was one by the number of rooms in the houses occupied by sample households, given in the following table.

Households classified by number of members and number of rooms occupied, 1961

(Based on 20% Sample)

No. of rooms	Percentage of total households	Percentage of total members
1	2	3
No regular room	0.09	0.08
1 room	49.66	46.58
2 rooms	33.19	33.73
3 rooms	8.03	8.69
4 rooms	4.98	5.65
5 rooms or more	4.05	5.27

According to this classification, 49.66 per cent of the households lived in houses with one room and 33.19 per cent in houses with two rooms, and 17.06 per cent in houses with more than two rooms. The population in the first two categories jointly account for 80.31 per cent of the total sample population. The average number of members per room in households occupying houses with one room was 4.7 while that for households living in houses with 2 rooms was 2.6. These figures amply reflect growing overcrowding and the inadequate housing facilities in the district as in the State as a whole.

5.4 Housing Societies

There were 67 housing societies with a membership of 1,991 and share capital of Rs. 490,000. They constructed 359 tenements.

5.5 Housing tenements constructed by Housing Board

Under the industrial housing schemes formulated by the Government, to relieve the shortage of housing in towns especially in the industrial and slum areas, 100 tenements were constructed at Nadiad.

6 AGRICULTURE

6.1 Land Utilisation

The utilisation of land resources forms a major item in any programme of economic planning in an economy which is predominantly agricultural. It reveals the various uses to which land is put and also indicates improved ways of exploitation of its resources for better production.

Land utilisation, 1956–57 and 1960–61

Sl. No.	Item	1956–57 Area in acres	1956–57 Percentage of total area	1960–61 Area in acres	1960–61 Percentage of total area
1	2	3	4	5	6
1	**Total geographical area**	**1,663,000**	**100.00**	**1,664,800**	**100.00**
2	Area under cultivation	1,304,300	78.43	1,291,700	77.59
3	Area other than cultivation	358,700	21.57	373,100	22.41
(i)	Cultivable waste, permanent pastures and other grazing lands	287,700	5.27	79,900	4.80
(ii)	Other uses	271,000	16.30	293,200	17.61

Note:

Further details are available in Official Statistics Table No. 3.1 published in Part II of this Handbook.

Comparison between the previous years is not possible (i) in veiw of the changes in classification of land utilization and (ii) territorial changes in the district. In 1960-61 the area under cultivation was 77.59 per cent of the total geographical area and that put to uses other than cultivation 22.41 per cent. Of the latter 4.80 per cent is cultivable waste, permanent pastures and grazing lands and 17.61 per cent forest, barren, uncultivable and non-agricultural lands.

6.2 Cropping Pattern

The changes in the cropping pattern during the quinquennium can be seen from the following table.

Percentage of area under different crops during 1955–56 and 1960–61

	Crops	1955–56	1960–61
	1	2	3
1	Rice	10.59	12.97
2	Wheat	7.69	5.00
3	Jowar	2.54	1.42
4	Bajri	20.35	16.41
5	Other cereals	*9.96*	*12.21*
	Total cereals	*51.13*	*48.01*
6	Tur	2.89	2.58
7	Gram	0.61	0.16
8	Other pulses	3.79	2.56
	Total pulses	*7.29*	*5.30*
9	Sugarcane	0.01	0.01
10	Potatoes	0.08	0.10
11	Fruit and Vegetables (excluding potatoes)	0.85	1.17
12	Condiments and Spices	0.53	0.58
	Total food crops	**59.89**	**55.17**
13	Groundnut	5.37	9.02
14	Sesamum	1.82	1.23
15	Castor seeds	0.30	0.27
16	Other oil seeds	0.01	..
	Total oil seeds	*7.50*	*10.52*
17	Cotton	11.72	12.79
18	Other fibres	0.16	0.09
	Total fibres	*11.88*	*12.88*
19	Tobacco	9.40	11.92
	Total drugs and narcotics	*9.40*	*11.94*
20	Other non-food crops	11.33	9.49
	Total non-food crops	**40.11**	**44.83**
	Total area under crops	**100.00**	**100.00**

Details as to area and out-turn for the years–1950–51 to 1960–61 for the above crops are available in Official Statistics Table No. 3.2 in Part II of this Handbook.

The principal food crops of the district are rice, wheat, bajri and tur. Groundnut, cotton and tobacco are the main non-food crops. The percentgae

comparison of different crops indicates that the food-crops are gradually declining from 59.89 per cent in 1955-56 to 55.17 per cent in 1960-61, with a corresponding gain of 4.72 per cent in non-food crops. Groundnut have risen from 5.37 per cent in 1955-56 to 9.02 per cent in 1960-61 and tobacco from 9.40 per cent to 11.92 per cent during the same period. Among food crops bajri claims 16.41 per cent, rice 12.97 per cent, pulses 5.30 per cent and wheat 5.00 per cent. Among non-food crops cotton claims 12.79 per cent, tobacco 11.92 per cent and groundnut 9.02 per cent. Tobacco is the most important cash crop of the district.

6.3 Crop Calendar

The months of harvesting of different crops are given below.

Crop-Calender

Name of Crop 1	Months of harvesting 2
Rice	November to December
Wheat	March
Jowar	January-February
Bajri	October
Maize	October
Bavato	October
Kodra	October
Tuver	February to March
Gram	March
Cotton	February to March
Potato	October to November
Ground-nut	October
Castorseed	February
Seasamum	October
Tobacco leaf	February to March

6.4 Use of improved seeds, manure and fertilizers and improved agricultural practices

During the plan period, 52,370 B. Mds. of improved seeds of bajri, wheat, paddy and cotton and 70,091 tons of chemical manures were distributed.

During the Second Five Year Plan, the scheme of intensive paddy cultivation was introduced in 1959-60 in the district and was put into operation in 15,000 acres. 2,153 tons of chemical fertilizers and 1,082. Lbs. of insecticides were given. As a result of this scheme, the additional yield of this crop was 1,465 tons. Various experiments were undertaken also in the raising of cotton. Total area covered by improved agricultural practices came to 25,000 acres.

6.5 Agricultural research and experiment

Paddy research Centre was started at Navagam in Matar taluka in 1954. As a result of the experiments tried at the centre, 5 improved varieties of paddy were evolved. They were Sukhvel-20, Sutarsal-39, Pankhali-203, Kamod-108, and Jirasar-280.

7 LIVESTOCK

7.1 Livestock

According to the livestock censuses of 1951, 1956 and 1961, the livestock population of the district is found to be distributed as under.

Livestock, 1951, 1956 and 1961

Categories of livestock 1	1951 2	1956 3	1961 4
Total livestock	**734,598**	**767,199**	**840.905**
A Bullocks and Cows	265,465	272,340	312,383
1 Males over 3 years	176,162	174,960	208,041
2 Females over 3 years	37,719	51,476	40,384
(in milk)	(17,181)	(30,023)	(16,506)
3 Young stock	51,584	45,904	63,958
B Buffaloes	340,737	375,358	423,496
1 Males over 3 years	1,838	1,351	3,615
2 Females over 3 years	197,701	203,755	244,631
(in milk)	(134,477)	(143,957)	(137,212)
3 Young stock	141,198	170,252	175,250
C Sheep	22,665	21,494	15,422
D Goats	94,236	87,655	75,072
E Horses and Ponies	2,895	2,362	3,684
F Mules	171	12	50
G Donkeys	7,188	6,375	8,734
H Camels	691	1,588	2,050
I Pigs	550	15	14

During the last decade the livestock population of the district has increased by 14.47 per cent as will be seen from the above table. While milch buffaloes have more or less remained stationary during the said period, males and young stock show an increase of 96.68 per cent and 24.12 per cent respectively. There is a steady decline in the number of sheep and goats.

Significant increase in the number of bullocks indicates progress in the agricultural sector, though cows after a sharp increase in 1956 have decreased in 1961. Horses, ponies, donkeys and camels have increased to a varying extent, but mules and pigs have decreased considerably during the decade.

7.2 Agricultural Tools and Implements

The number of wooden ploughs in 1951 were 114,998 which declined to 109,261 in 1956 and rose to 131,654 in 1961. But the number of iron ploughs has been found to be increasing steadily as they rose to 985 in 1956 and 2,579 in 1961 from 693 in 1951. The number of carts in 1951 was 53,645 which increased to 54,971 in 1956 and 58,576 in 1961. Number of Sugarcane crushers has increased to 527 in 1961 from 120 in 1951. Similarly the number of oil engines in the district has also increased to 2,436 in 1961 from 2,055 in 1951. Though the number of oil engines has increased in 1961, it has decreased than that of 1956. The number of tractors also rose from 117 in 1951, to 224 in 1956 and 396 in 1961. This shows an alround progress in the means such as wooden and iron ploughs, sugarcane crushers, oil engines, tractors, etc., used for raising the agricultural output. Oil ghani show a remarkable decrease in their number from 551 in 1956 to 386 in 1961. This shows that old crafts are giving way to mechanised implements.

7.3 Animal Husbandry and Veterinary Aid

During the Second Five Year Plan one artificial insemination centre was opened at Nadiad. As a result of good response from the cultivators, opening of 2 more sub-centres at Dakor and Mehmedabad is under consideration. During the Second Plan Period, 15 pedigree bulls were supplied to the various needy centres in the district to improve the breed of cattle. One Goshala functioning at Bochasan was given Rs. 15,000 as grant in the Second Five Year Plan for improving the Kankrej breed and running a dairy on a small scale. There were 13 veterinary dispensaries (including one sub-dispensary) and 14 stockmen's centres functioning in the district by the end of the Second Five Year Plan. During the year 1960-61 in the veterinary dispensaries of the district, 202 animals were treated and medicine was supplied to 6,583 not brought to the dispensaries. 77 castrations were also performed.

7.4 Fisheries

During the year 1956-61, 7,608 acres of inland waters were surveyed for developing fisheries in the district. 11,750 fingerlings were reared and 43,753 lbs. of fish netted. The main varieties of fish were "Rohu" and "Bavas".

8 IRRIGATION

8.1 Sources of Irrigation

As the rainfall in the district is neither heavy nor assured and as it is often irregular and erratic, irrigation assumes greater importance. The principal source of irrigation in the district are Government canals, masonry wells and tanks. Masonry wells constituted a major source of irrigation which provided water to 77.51 per cent of the total area irrigated during the year 1960-61. The area irrigated by canals accounts for 20.18 per cent of the total area irrigated. Tanks provided irrigation to only 1.81 per cent.

8.2 Area Irrigated

The total area under irrigated crops increased from 86,100 acres in 1950-51 to 88,900 acres in 1955-56 and to 100,200 acres in 1960-61 showing an increase of about 16 per cent during 1960-61.

Among the cash crops area under tobacco accounted for 23.15 per cent of the total gross irrigated area in 1960-61. Among the food crops area under irrigated rice, wheat and bajri formed 18.76 per cent, 14.17 per cent and 10.18 per cent respectively of the total gross irrigated area.

The percentage of net area irrigated to net area sown was 6.2 in 1950-51 and has increased to 6.4 in 1955-56 and 7.7 in 1961.

8.3 Irrigation Projects

Mahi Right Bank Canal Project was started towards the end of the first Five Year Plan as a

major irrigation work. An expenditure of Rs. 424 lakhs was incurred by the end of the First Plan. Mahi Canal Project was continued in the Second Plan. It is estimated that an expenditure of Rs. 823 lakhs has been incurred during the Second Plan. The total irrigation potential on completion is expected to be of the order of 4.6 lakh acres. By the end of 1960–61 this potential was estimated at 90,000 acres, as against the expected irrigation development of 28,500 acres. In the Third Plan a provision of Rs. 376 lakhs has been made under this scheme, to bring an additional area of 200,500 acres under irrigation by the end of this Plan.

During the Second Plan 22 minor irrigation works included in the First Plan but not completed were taken up along with 11 new minor works. 24 tube wells were drilled out of which 21 proved to be successful.

9 CO-OPERATION

9.1 Co-operative Societies, their types, etc.

In the field of co-operation, Kaira district has made considerable progress along with many others. At the close of the co-operative year 1960–61, there were 1,085 co-operative societies having a membership of 194,204 and Rs. 147.45 lakhs as share capital. The total working capital of these societies was Rs. 1,061.27 lakhs. During the year ending 30–6–1961, Rs. 857.26 lakhs were advanced by way of loans to members and other societies. There are 496 agricultural credit societies having membership of 64,240 and Rs. 3,938,000 as share capital, 76 non-agricultural credit societies having membership of 29,122 and Rs. 2,960,000 as share capital and 24 marketing societies having membership of 10,868 and Rs. 1,064,000 as share capital. During 1960–61 district had one co-operative bank with a number of branches situated at almost all the taluka headquarters of the district.

Average membership per society comes to 179 whereas average share capital and working capital per society comes to Rs. 13,590 and Rs. 97,813 respectively. Average loan advanced per society is Rs. 79,010, whereas average loan advanced per member is Rs. 441.

Co-operative movement has covered nearly all villages in the district.

9.2 Agricultural Marketing

There were 11 regulated market yards in the district during 1960–61. Agricultural Produce Market Committees have been established under the Bombay Agricultural Produce Market Act, 1939 at Nadiad, Anand, Matar, Kapadvanj, Balasinor, Cambay, Mehmedabad, Borsad,Umreth, Petlad and Thasra. Thus all the taluka headquarters have marketing yards.

10 ECONOMIC ACTIVITY

10.1 Definitions

The criterion of income or economic independence was adopted for measuring the economy of the country during the past censuses.On the present occasion emphasis is on the work done or the economic activity pursued by an individual so that all people such as family workers and children who work but do not earn enough for their maintenance are also accounted for as workers. Another important change relates to the presentation of the economic data according to the nine industrial categories of workers and non-workers instead of the eight livelihood classes classified by self-supporting persons and their dependants in 1951.

STATUS OF EMPLOYMENT

Persons doing work other than that as cultivator or agricultural labourer or engaged in household industry have been classified into following four categories: (i) Employer, (ii) Employee, (iii) Single worker and (iv) Family worker. In view of the wide range of economic data included in this section, it will be useful to define in brief the various terms used.

(i) *An Employer* is a person who has to employ other persons in order to perform the nature of work undertaken by him.

(ii) *An Employee* is a person who usually works under some other person for salary or wages in cash or kind.

(iii) *A Single Worker* is a person who works by himself but not as head of household in a household industry. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually.

(iv) *A Family Worker* is a member of the household who works without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season.

Industries are classified as household and non-household. A household industry is defined as an industry which is not run on a scale of a registered factory and conducted by the head of the household himself and/or mainly members of the household at home or within the villages in rural areas and only at home in urban areas. Rest of the industries, viz., business, trade, profession or service are non-household industries.

10.2 Distribution of workers and non-workers

The following table gives the distribution of population by workers and non-workers.

Distribution of population by workers and non-workers, 1961

Workers/Non-workers	Persons		Percentage to total population	
	State	District	State	District
1	2	3	4	5
Total Population	**20,633,350**	**1,977,540**	**100.00**	**100.00**
Workers	8,474,588	684,038	41.07	34.59
Non-workers	12,158,762	1,293,502	58.93	65.41

The following Statement shows the distribution of workers into 9 industrial categories.

Distribution of workers and percentage to total workers, 1961

Sl. No.	Category of workers	Population		Percentage of total workers	
		State	District	State	District
1	2	3	4	5	6
1	As cultivator	4,519,060	375,457	53.32	54.89
2	As agricultural labourer	1,252,000	117,624	14.77	17.19
3	In mining, quarrying, livestock, forestry, fishing, hunting, plantation, orchards and allied atcivities	104,850	4,576	1.24	0.67
4	At household industry	555,606	41,799	6.56	6.11
5	In manufacturing other than household industry	536,159	32,736	6.33	4.79
6	In construction	90,043	6,398	1.06	0.93
7	In trade and commerce	411,156	31,441	4.85	4.60
8	In transport, storage and communications ..	159,061	9,586	1.88	1.40
9	In other services	846,653	64,421	9.99	9.42

The population of the district is distributed into workers and non-workers in the ratio of 34.6:65.4. Amongst the working population, cultivators account for 54.89 per cent and agricultural labourers 17.19 per cent only as against 53.32 per cent and 14.77 per cent respectively for the State. The striking feature of the economic pattern obtaining in the district as elsewhere in the State is predominantly agricultural as revealed by 72.08 per cent of workers engaged in agricultural pursuits. Next in order are other services (9.42 per cent) and the household industry comprising 6.11 per cent, while manufacturing industries account for 4.79 per cent only.

10.3 Class of worker

Industrial classification by sex and class of worker of persons at work in household and non-household industry as shown in details in Census Tables B-IV-A and B are given below:

Persons at work in household industry

	Persons	Percentage
Total	**41,799**	**100.00**
Employee	2,622	6.27
Others	39,177	93.73

As stated earlier, household industry is run mostly by members of the household, the need for having employees working for salary or wages being negligible.

Persons at work in non-household industry, trade, business, profession or service

	Persons	Percentage
Total	**149,158**	**100.00**
Employers	11,570	7.76
Employees	76,712	51.43
Single workers	48,807	32.72
Family workers	12,069	8.09

It will be seen from the above figures that in non-household industries, trade, business, profession or service, employees (51.43 per cent) predominate and account for more than half the workers engaged in these categories wherein single workers account for 32.72 per cent, family workers 8.09 per cent and employers 7.76 per cent only.

10.4 Principal and secondary work

Principal work : In case of a person who is engaged in more than one productive activity, the principal work is the one on which the person spends most time.

Secondary work : The work which is the next in importance to his principal work which occupies most time is secondary work.

Persons working principally as cultivators, as agricultural labourers or at household industry and following any of these as secondary work as given in Table B-VII Part-A are as under :

(A) Persons working principally as cultivators and doing secondary work

(i) at household industry	8,613
(ii) as agricultural labourers	16,891

Persons working principally as agricultural labourers and doing secondary work

(i) at household industry	1,253
(ii) as cultivator	3,846

Persons working principally at household industry and doing secondary work as

(i) cultivator	3,513
(ii) agricultural labourer	1,020

(B) In table B-VII Part B persons working in non-household industry, trade, business, profession or service who are also engaged in household industry are 374.

Persons who are working principally as cultivators and to whom agricultaral labour is a secondary activity are proportionally larger, probably due to the fact that small holders of land prefer to take up agricultural labour as their secondary means of livelihood rather than go in for household industry. Similarly the fact that a large proportion of workers at agricultural labour work at cultivation to supplement their income also bring out the complementary nature of cultivation and agricultural labour.

10.5 Occupational Classification

The two concepts, viz., industry and occupation are quite distinct, though often mistaken for each other. 'Industry' means that sector of economic activity in which the earner is engaged, e.g., textile industry, automobile industry whereas the 'occupation' describes the exact function that an individual performs in that economic activity, e.g., fitter, carpenter, etc.

Table B-V in Part II shows the distribution of persons at work other than cultivation. This type of detailed classification based on National Classification of Occupations has been done for the first time in 1961. The percentage distribution for the State and the district is given below :

Percentage distribution of workers according to Occupational Divisions, 1961

	Occupational Division 1	State 2	District 3
0	Professional, technical and related workers	5.95	8.23
1	Administrative, executive and managerial workers	2.32	2.67
2	Clerical and related workers	6.41	6.47
3	Sales workers	13.88	15.28
4	Farmers, fishermen, hunters, loggers and related workers	11.73	10.97
5	Miners, quarrymen and related workers	0.58	0.40
6	Workers in transport, storage and communication occupations	4.24	3.55
7-8	Craftsmen, production process workers and labourers not elsewhere classified	46.67	44.31
9	Service, sport and recreation workers	7.96	8.00
X	Workers not classified by occupation	0.26	0.12

Excepting agriculture, the most important occupational divisions in the State as well as the district are division 7–8 craftsmen, production process workers and labourers not elsewhere classified and division 3 sales workers.

10.6 Non-workers

Non–workers account for 1,293,502 persons, 498,459 males and 795,043 females. The distribution of non-workers by eight broad categories is shown in Table B–IX in Part II of this Handbook. Percentage distribution of non-workers by sex according to their type of activity is shown below for total/ rural/urban, 1961.

Distribution of Non-workers according to type of activity, 1961

Sl. No.	Categories of Non-workers	Total/Rural/ Urban	Males	Females
1	2	3	4	5
1	Full-time students	T	40.16	11.33
		R	38.33	9.46
		U	46.52	18.35
2	Household duties	T	0.37	50.70
		R	0.15	50.58
		U	1.11	51.13
3	Dependents, infants and disabled	T	56.09	36.93
		R	59.54	39.05
		U	44.03	28.99
4	Retired, rentiers, etc.	T	1.70	0.95
		R	1.09	0.85
		U	3.84	1.32
5	Beggars, vagrants	T	0 .31	0.06
		R	0.19	0.04
		U	0.73	0.13
6	Inmates of penal, mental and charitable institutions	T	0.08	0.01
		R	0.07	0.01
		U	0.15	0.02
7	Persons seeking employment for the first time	T	0.56	0.01
		R	0.31	N
		U	1.47	0.03
8	Unemployed but seeking work	T	0.73	0.01
		R	0.32	0.01
		U	2.15	0.03

The distribution pattern of non-workers among males and females is very dissimilar. Among male non–workers, 40.16 per cent are students and 56.09 per cent dependents, which jointly account for 96.25 per cent as against 11.33 and 36.93 per cent respectively among females. Higher percentage of dependents among males is likewise explained by the general absence of household duties among males who claim 0.37 per cent in this category against 50.70 per cent among females.

The higher percentage of full-time students in the urban sector as compared to rural is, however, explained by the greater consciousness and opportunity towns people have in the matter of education. The percentage of females engaged in household duties is found to be higher in urban areas than that in rural areas a as women–folk in villages in addition to their attending to household chores also participate in agriculture and household industry. While the percentage of unemployed persons seeking work is 0.73 for males, that for females is 0.01.

11 INDUSTRIES AND POWER

11.1 Registered Factories

There were 358 registered factories in the district at the end of the year 1961, employing on an average 20,418 persons daily. From the point of view of employment offered, cotton textiles are the most important industry in the district. There were 29 textile factories including 2 mills in the district employing on an average 7,937 persons or 38.87 per cent of the total factory employment per day. Of the 2 mills, one is located at Nadiad and another at Petlad. Next in importance to cotton textiles is food, drinks and tobacco industry with 194 units which employed 5,763 persons per day and constituted 28.23 per cent of the total emplyment in factories. The Government and local fund factories provide employment to 649 persons. There were 10 power houses in the district.

11.2 Joint Stock Companies

There were 32 joint stock companies functioning on the 31st March 1961 with authorised capital of Rs. 286.63 lakhs and subscribed capital of Rs. 142.51 lakhs. The authorised and subscribed capital per joint stock company comes to about Rs. 8.96 lakhs and about Rs. 4.45 lakhs respectively. The joint stock companies classified as processing and manufacturing of foodstuff, textiles, leather and products

thereof dominate the joint stock field with a total authorised capital of Rs. 162.23 lakhs and subscribed capital of Rs. 112.75 lakhs. While such companies constitute 40.63 per cent of the total number of joint stock companies, their authorised and subscribed capital accounts for 56.60 per cent of authorised and 79.12 per cent of subscribed capital of all the joint stock companies floated in the district.

11.3 Banking

There has been a steady increase in the banking facilities available in the district since 1950-51. The number of scheduled and co-operative banks in 1960–61 was 25 and 34 respectively. It is interesting to note that co-operative banks which formed only 47.83 per cent of total banking institutions in the beginning of the First Plan have risen to 57.63 per cent in 1960–61.

11.4 Small Scale Industries

The important small scale industries of the district are handloom weaving, dyeing and printing, himroo and jari work, cane and bamboo products and oil pressing.

There were 115 industrial co-operative societies with membership of 6,346 persons and share capital worth Rs. 444,000.

11.5 Electricity and Power

The Gujarat Electricity Board is the chief source of electric power in the district. In addition there are 10 power houses located at Anand, Bhadran, Cambay, Kapadvanj, Nadiad, Nar, Petlad, Vallabh Vidyanagar, Sojitra and Dakor. 161 villages and 15 towns were electrified upto 31st March, 1961.

The utilisation of electricity has increased substantially during the Second Five Year Plan. From 3,516 thousand K.W.H. in 1950–51 it has gone upto 8,424 thousand K.W.H. at the beginning of the Second Five Year Plan and shot up to 91,790 thousand K.W.H. in 1960–61.

The utilisation of electricity under industrial power has shown considerable rise from only 3,898 thousand K.W.H. in 1955–56 to 53,025 thousand K.W.H. in 1960–61 revealing the greater demand made by industries on the use of electricity in recent times.

Table given below gives the pattern of utilisation of electricity in the district in the years 1950–51, 1955–56 and 1960–61.

Units of electricity sold, 1950-51, 1955-56 and 1960-61

[*'000 K. W. H.*]

Year	Kilowatt hours sold to public for: Domestic comsumption	Commercial light and small power	Industrial power	Other purpos 3	Total utilisation of electricity
1	2	3	4	5	6
1950–51	1,032	414	1,470	600	3,516
1955–56	2,082	981	3,898	1,463	8,424
1960–61	3,493	5,549	53,025	29,723	91,790

The foregoing figures show that the pattern of utilisation of electricity has radically changed in 1960–61 as compared to that in 1955–56.

11.6 Factories and workshops classified by power used and no power used

Statistics of census houses used as factories, workshops and worksheds classified by power and no power used have been compiled for the first time during the Census of 1961 and extracted below for the State and district.

Factories and workshops classified by power and no power used, 1961

Power/ Fuel	Rural/ Urban	State: No. of factories etc.	State: Percentage to total	District: No. of factories etc.	District: Percentage to total
1	2	3	4	5	6
Total	**R**	**34,447**	**100.00**	**3,761**	**100.00**
	U	**45,686**	**100 00**	**3,742**	**100.00**
Electricity	R	1,248	3.62	455	12.10
	U	12,311	26.95	1,014	27.10
Liquid fuel	R	4,687	13.61	231	6.14
	U	1,282	2.81	57	1.52
Coal, Wood	R	3,039	8.82	297	7.90
and bagasse	U	3,453	7.56	280	7.48
Other power	R	82	0.24	2	0.05
	U	85	0.18	10	0.27
No power	R	25,391	73.71	2,776	73.81
	U	28,555	62.50	2,381	63.63

The foregoing table is restricted to census houses used as factories and workshops classified by power and no power used in 1961. Factories using electricity in rural and urban areas of the district are proportionately higher than those in the State. The proportion of factories using electrical power is less in villages than in towns, both in the district and the State, owing to the paucity of electric supply and industries in rural areas. The use of liquid fuel in the villages is proportionately less in the district than that in the State, but higher in villages than in towns, on account of its greater use in oil engines and tractors. There is no significant difference in the proportion of coal, wood and bagasse in rural as well as urban areas. The proportion of units using no power is obviously much higher both in rural and urban areas in the State as well as in the district owing to predominance of traditional crafts and industries in the state economy.

12 TRANSPORT AND COMMUNICATIONS

12.1 Roads

The decade 1951–61 saw significant development in roads. The road mileage in 1950–51 was 444.60 miles — 28.04 miles of asphalt, 259.09 miles of water bound macadam and 157.47 miles of murram and lower types of roads. But the road mileage has increased by 70.65 per cent in 1960–61 as a result of Government policy to improve means of transport and communications during each successive plan period.

The mileage of roads according to various categories is given below :

Types of roads (in miles), 1960-61

Types of roads	Mileage
1	2
Total	**758.71**
National Highway	40.33
State Highway	156.97
Other district roads	484.07
Village Roads	77.34

The proportion of road mileage per 100 sq. miles of area is 28.41.

12.2 Railways

The district has a net work of 211.75 miles of railway lines, out of which 148.07 are broad gauge and 63.68 miles are narrow gauge. The number of railway stations in the district is 62. Petlad taluka has the highest number of railway stations. All the taluka headquarters except Balasinor and Matar are connected by railway.

12.3 Ports

There is only one minor port, viz., Cambay in the district. During 1960–61 imports amounted to 110 tons and export 6 tons. There is no foreign traffic at the port. Even in coastal trade volume of trade has decreased to 116 tons in 1960–61 from 2,049 in 1955–56. The main commodities imported were salt and timber.

12.4 Post and Telegraph

As on 31st March, 1961, there were 410 post offices in the district besides 47 post and telegraph offices. Among post offices, there was one head office, 55 sub-offices and 354 branch offices, besides 133 experimental and temporary offices and 2 local telegraph offices in the district. There was one post office for every 2 villages, one letter box for every village and one post man for every 4 villages. There were 482 villages without post offices. Total number of radio licences issued during the year was 11,228. 12 telephone exchanges are located at Anand, Umreth, Kathlal, Kapadvanj, Kaira, Cambay, Dakor, Nadiad, Petlad, Borsad, Vasad and Mehmedabad.

13 MEDICAL AND PUBLICE HEALTH

13.1 Medical institutions

During 1960, medical facilities in the district were provided by the State through 66 medical institutions, which include 10 hospitals and 56 dispensaries. The staff in these institutions consisted of 97 dotcors and 56 nurses. The number of beds in the district was 2,282 and the number of indoor and outdoor patients treated was 13,481 and 866,083 respectively.

13.2 Vital Statistics

The statement given below shows vital statistics of the district for the year 1957–60.

Birth Rate, Death Rate and Natural Increase in Population, 1957–60

Year	Birth rate	Death rate	Natural increase in population
1	2	3	4
1957	32.6	17.1	15.5
1958	31.0	20.2	10.8
1959	35.0	15.6	19.4
1960	30.1	15.4	14.7

The data on vital statistics available being incomplete and defective are useful for drawing general conclusions only. They indicate a fall in the death rate and rise in the rate of survival which can be reasonably attributed to improvement in medical and health facilities since Independence.

13.3 Health Centres

The different public health measures to check the incidence of various diseases in the district are (a) Vaccination and revaccination (b) Malaria control (c) Primary Health Centres and Materaity and Child Welfare Centres in rural areas (d) Water supply schemes and (e) Family planning centres. Thus in 1961, 71,339 persons were vaccinated and 236,571 revaccinated. During 1960–61, 134,703 Lbs. of D.D.T. powder was sprayed in 348,865 houses. The incidence of malaria which was 18.92 per cent of the total patients attending 12 dispensaries in 1947 has decreased to 0.53 per cent in 1960. Under the programme of providing medical relief through primary health centres in rural areas, 2 maternity and child welfare centres and 12 rural health centres were started in the district by 1960–61.

14 LABOUR AND SOCIAL WELFARE

14.1 Trade Unions, etc.

There were 22 trade unions in Kaira district with membership of 9,283 persons. During 1960–61 there were 3 industrial disputes and the number of man-days lost was 2,096. Number of lockouts during 1960–61 was nil.

14.2 Uplift of Backward Classes

Government has paid special attention to problems of welfare of backward classes especially those relating to the Scheduled Castes and Scheduled Tribes. In the past these communities were given certain concessions mostly in the field of education. In view of the special handicaps from which the backward communities suffer, additional programme such as grant of tution and examination fees, grant to hostels, organisation of sanskar kendra, loans for cottage industries, granting of loan and subsidy for the purchase of a cow or buffalo, etc., were undertaken during the decade.

14.3 Employment Exchange

There is one Employment Exchange in the district. The number of candidates registered during the year 1960 was 8,581. The number of vacancies notified was 1,331 and the number of placements was 603. There is one district shelter.

14.4 Youth Clubs, etc.

The number of institutions such as youth clubs, mahila samitis and libraries/reading rooms stared in Block Development Schemes, was as under on 31-3-61.

Youth Clubs	431
Farmers' Unions	477
Mahila Samitis	151
Libraries/Reading Rooms	181

15 PRICE TRENDS

The average retail prices of important staple foodstuff during each calendar month of 1961 collected for Nadiad, the headquarters of the district are given in Table No. 16.1 in Part II of this Handbook.

The prices of inferior cereals, viz., Jowar was the highest in the month of January and Bajri in January and January and July to August; in pulses Arhar (dal) recorded the highest prices in the month of January during the year 1961.

16 COMMUNITY DEVELOPMENT

16.1 Community Development Programme

The Community Development Programme, a unique and bold effort to mobilise public enthusiasm and co-operation in rebuilding the rural economy of India was inaugurated in the district in October, 1953. The programme since then has undergone various organisational changes as a result of the recommendations of the Balawantray Mehta Committee, appointed by the Planning Commission in 1957 to examine the working of the C. D. programme and related matters and to recommend measures for improving the quality, tone and content of the programme. In pursuance of the recommendations of this committee the existing distinction between N. E. S. stage, intensive development stage and the post-intensive stage was abolished with effect from 1-4-1958. All the blocks under the All India programme except blocks in the C. D. stage which had not completed their three years, period on 1-4-58 were classified into stage I and stage II Blocks with revised financial patterns and periods of operations. The Community Development Blocks, on completing their period, will enter stage II. A stage I Block has a five year period of operations with a ceiling of expenditure of Rs. 12 lakhs for this period. It is " The Intensive Development phase in which people's participation would be promoted as the method of Community Development and panchayats will be intimately connected with the formulation of the Plans for their respective areas. The degree of success attained in the First Stage will be the evidence of the growth and functioning of self-reliant rural communities, which is the basic objective of the programme ". Stage II of the programme with a provision of Rs. 5 lakhs for 5 years will seek to intensify the operation of the method of Community Development in its fuller amplitude and will have greater emphasis on Community Development rather than on Development Programmes as such.

16.2 Coverage of Programme

The following table gives the type, area, villages and population covered under the programme by March, 1961.

Coverage under Community Development Programme by type of Block

Name of the block	Date of inauguration	No. of blocks of CPA pattern	Area covered in sq. miles 1961	No. of towns and villages covered	Population 1961
1	2	3	4	5	6
Stage I					
Anand	1-4-58	2.75	260.6	80	311,297
Cambay	1-4-59	1.50	437.5	104	172,013
Matar	2-10-59	1.25	229.2	82	101,319
Stage II					
Nadiad	2-10-53	2.50	270.5	102	300,657
Mehmedabad	2-10-53	1.50	196.6	77	137,756
Kapadvanj	2-10-53	2.25	378.6	163	218,681
Balasinor	2-10-54	1.00	213.2	100	103,237
Thasra	2-10-55	1.75	255.7	96	153,583
Pre-extension service					
Borsad	1-4-60	3.50	216.9	95	256,881
Petlad	1-4-60	3.00	212.0	83	222,116

By March, 1961 the entire district was covered under the programme.

The total expenditure incurred till that date amounted to Rs. 14,978,000 as against people's contribution of Rs. 5,029,000 or 33.58 per cent of the total expenditure. The physical and financial progress achieved under the first and second stage of blocks upto the year ending 31st March 1961 have been given in Official Statistics Table No. 15.1 published in Part II of this Handbook.

17 FIVE YEAR PLANS

17.1 Achievements

The decade 1951-61 roughly corresponds to the First and Second Five Year Plans.

17.2 Agriculture and Animal Husbandry

The physical achievements under this head included distribution of 52,370 B. mds. of improved seeds of bajri, wheat, paddy and cotton, distribution of 70,091 tons of chemical manures, starting of 8 regulated market yards, starting of 11 seed farms, bunding in 2,277 acres of land and construction of 6 taluka seed godowns at Mehmedabad, Nadiad, Thasra, Balasinor, Kapadvanj and Anand.

Under the programme of minor irrigation, 24 tube wells were drilled out of which 21 proved to be successful. During the Second Plan, 22 minor irrigation works included in the First Plan but not completed were continued along with 11 new minor works.

ANIMAL HUSBANDRY

Following progress was recorded during the plan period :

Opening of 15 Veterinary dispensaries and Centres were started.

Starting of one artificial insemination centre at Nadiad.

Supply of 15 pedigree bulls to the various centres in the district.

17.3 Co-operation

The number of Agricultural Credit Societies has increased to 281 in 1956 and 496 in 1961 from 251 in 1951, covering 25.73 per cent of the population. These societies advanced loan to the tune of Rs. 12,033,000 to members and other societies. Under the programme of providing agricultural credit 64 large-sized societies were organised. The short, medium and long term loans amounting to Rs. 98 lakhs, Rs. 35,000 and Rs. 31 lakhs respectively were advanced. In addition there were 11 regulated market yards in the district. Under the Industrial Housing Scheme, a sum of Rs. 189,435 was advanced as loan to one society. The Milk Producers' Co-operative Union has been given Rs. 600,000 during the Second Plan for developmental activities. The progress made and work done by the Milk Producers' Co-operative Societies is indeed unique and noteworthy. The number of the milk societies which was 101 in 1957 has increased to 159 in 1961.

17.4 Small Scale and Cottage Industries

With a view to rejuvenate the small scale and cottage industries in the district, it has been the policy of Government to organise industrial co-operatives and provide financial and technical assistance to craftsman. By the end of the Second Five Year Plan, 115 industrial societies covering oil ghani, handloom weaving, tanning, etc., were organised under this scheme.

17.5 Transport and Communications

During the plan period, 314.11 miles of roads were constructed. At the end of the Second Five Year Plan, there were 40.33 miles of National Highway, 156.97 miles of State Highway, 484.07 miles of other district roads and 77.34 miles of village roads. The works executed during the First and the Second Five Year Plans included among others were construction of 11 bridges and one causeway and 61.88 miles of district major roads on Kaira–Tarapur Road, Balasinor–Virpur Road, Petlad–Nadiad Road and Cambay–Golana Road. The works of cement-concreting of 20.25 miles of Nadiad–Dakor Road and asphalting of 11.31 miles of Kaira–Dholka Road were also undertaken.

17.6 Social Services

Under the scheme for conversion of primary schools into basic, the number of such schools has increased from 204 to 336. The number of secondary institutions which was 86 in 1955–56 has increased to 131. An amount of Rs. 120,000 was given as loan for construction of buildings for secondary schools. The district holds a prominent place in the field of higher education. The number of colleges which was 6 in the district till 1958–59 has increased to 14. In addition there is Sardar Vallabhbhai Patel Vidyapeeth at Vallabh Vidyanagar. Recently arrangements have been made for imparting training in dairy technology at Anand. Schemes such as N. C. C. and A. C. C., National Discipline Scheme, etc., were implemented and provision was made for the training of secondary teachers.

17.6 (i) Health

Out of the Primary Health Units started in the Blocks under UNICEF aid during the Second Five Year Plan, 8 such units were handed over to the Public Health Department. In order to eradicate the worm diseases, a scheme was introduced in Nadiad, Mehmedabad and Cambay talukas and subsequently in Kapadvanj and Matar talukas in 1958 and in the remainiag talukas except Balasinor in 1959 and an amount of Rs. 234,286 was spent for the purpose. 8 Family Planning Centres were started at Mahudha, Alindra, Ajarpura, Kanij, Attarsumba, Utarsanda, Nadiad and Anand. The entire district was covered under the Malaria Eradication Programme bringing down the number of malaria cases from 16,943 in 1950 to 733 in 1960.

The achievements on the medical side included the supply of equipments to the cottage hospital at Dakor, starting of X-Ray Section in the Civil Hospital at Kaira, opening of two training centres in Auxiliary Nursing at S. S. Hospital at Petlad and Maha Gujarat Hospital, Nadiad.

17.6 (ii) Social Welfare and Welfare of Backward Classes

The schemes included under this head seek to elevate the educational, economic and social status of the backward classes by removing untouchability, providing aids for education and loans for purchase of seeds, bullocks, etc. The total expenditure during the Second Five Year Plan under this head amounted to Rs. 519,004.

17.7 Community Development Programme

Three Stage I and five Stage II blocks were started in the district. The remaining area was covered by PES Blocks. The principal achievements under the C. D. Programme were construction of 301 school buildings, starting of 10 basic and 75 ordinary schools, 202 library/reading rooms, making 16,802 adults literate, supply of 99 pedigree bulls, starting of 6 veterinary dispensaries, bringing under irrigation an additional area of 32,709 acres, starting of 6 dispensaries and construction of 2,677 furlongs of Kutcha roads. The amount of improved seeds and manures distributed was 131,109 B. mds. and 1,050,212 B. mds. respectively.

18 IMPORTANT PLACE NAMES

18.1 Important Places

Important places in the district are:

1 Adas	Site of historical battles in the past.
2 Anand	Amul Dairy run on co-operative basis unique in the whole country.
3 Cambay	Famous for its handicrafts, chief among them being agate or akik and handloom fabrics.
4 Dakor	Important pilgrim centre in India- Famous for the well-known temple of Ranchhodji.
5 Lasundra	Weli-known for its hot and cold springs.
6 Matar	Well-known Jain Temple.
7 Vadtal	Famous for being the principal seat of the Vaishnavite Sect called Swaminarayan.
8 Utkantheshvar	Well-known and ancient temple of Utkantheshvar Mahadev.
9 Vallabh vidyanagar	Rural residential university.

Detais of these and other places will be found in the gazetter of place names given in this Handbook.

18.2 Ancient monuments

The district is rich in ancient monuments. Official Statistics Table No. 18.3 gives details of each ancient monument together with the name of the village, place of location, the period of architecture, brief description, etc.

18.3 Fairs and Festivals

About 130 important fairs and festivals are celebrated at different places in rural and urban areas of the district. The details regarding the place where it is held, name of the fair/festival, the date on which it is held/observed and the estimated congregation are shown in the Official Statistics Table No. 18.2.

ANNEXURE

Territorial changes after 28th February, 1961

Taluka/ Mahal	Particulars of village amalgamated/transferred: Village Amalgamated	Village with which amalgamated	Government orders	Date of effect	Remarks
1	2	3	4	5	6
Cambay	Gokalpura	Motipura	G. R. A. and L. D. No. TLC-2260/91201-L. dt, 16-3-62	1-5-62	To be called Motipura after amalgamation
Kapadvanj	Pirojpur	Lalmandva	G. R. R. and A. D. No. TLC-1362/32964-L. dt. 10-12-62	1-1-63	
,,	Narangad-no-math	Bhatera	G. R. R. and A. D. No. TLC-1362/32965-L. dt. 7-12-62	1-2-63	
,,	Lotia	Suki	G. R. R. and A. D. No. TLC-1362/33103-L. dt. 14-12-62	1-2-63	
Cambay	Rasulpur	Kanawada	G. R. R. and A. D. No. TLC-2260/11095-L. dt. 1-1-63	1-3-63	
Kapadvanj	Fatepura	Gugalia	G. R. R. and A. D. No. TLC-2262/18122-L. dt. 7-3-63	1-5-63	To be called Gugalia after amalgamation
Cambay	Juni-Akhol	Navi-Akhol	G. R. R. and A. D. No. TLC-2260/46136-L. dt. 16-3-63	1-4-63	To be called Akhol after amalgamation
,,	Patlawadi	Neja	G. R. R. and I Dept. No. TLC-2263/32314-L. dt. 10-10-63	1-11-63	
Borsad	..	..	G. R. R.and A.D. No. TLC-2262/86909-L. dt. 10-3-64	1-4-64	Manpura is newly formed after separating it from the village Navakhal.

GAZETTEER OF PLACE NAMES

DISTRICT KAIRA

V. P.=Village Panchayat; G. P.=Group Panchayat; M=Municipality;
P=Population; N.=North Latitude; E=East Longitude.

1 Adas–V. P. (Taluka Anand), P. 6,789, 20°–29' N; 73°–2' E.

It is a station on the Bombay-Ahmedabad broad gauge line of the Western Railway seven miles south of Anand and connected by bus services with Vasad and Umreth. It has been the site of historical battles in the past. In 1723, Rustam Ali, the Governor of Surat was defeated by Hamid Khan, the deputy of Naizam-ul-Mulk, who was in turn defeated in the succeeding May by the British. In February 1775, Raghunathrao Peshwa was defeated by Fatehsingh Gaikwad. At the time of 'Quit India' movement in 1942, five students were shot dead by the police at Adas during the British regime. A memorial column has been raised near the railway station in their memory. Adas is a centre of trade in tobacco and pulses. There are tobacco and bidi factories, a pulse mill and a saw-mill. Pottery and iron implements like sickles, knives and cobbler's tools are the well-known handicrafts of the village.

2 Anand–M., P. 40,458, 22°–35' N.; 72°–57' E.

It is a taluka and sub-divisional headquarters and an important junction on the Bombay-Ahmedabad broad gauge line of Western Railway 22 miles north-east of Baroda, with branches to Godhra and Cambay. It is also well connected by bus services. It is said to have been established by a Gosai named 'Anandgar' in the ninth century, known as Anandpur and situated on the highway from Cambay to the central and northern India. A hoard of Kumargupta coins was found recently at Anand. The town played an important role in the Satyagraha movement. In the Gandhi chowk, where public meetings and lathi charges took place, a column, called Ashok Stambh has been erected.

Anand occupies a very prominent place in the dairy industry, not only of the State but also of the country. The Kaira District Co-operative Milk Producers' Union, the most unique of its kind, was established in 1946 and had, by May 1963, a membership of 274 Milk Co-operatives covering an area of 2,000 square miles and 59,000 families. The Amul Dairy constructed by it in 1955, with the assistance from UNICEF and the Colombo Plan at an initial cost of Rs. 40 lakhs, with subsequent addition of new plants raising the total cost of the factory to Rs. 132 lakhs, was the first in India to produce milk powder, condensed milk and baby food. It also produces butter, *ghee*, casein and cheese. Out of the 2 lakh lbs. of milk collected daily from the villages, about 80,000 lbs. are supplied to the Aarey milk Colony, Bombay. During 1962–63 it collected 11.11 crore lbs. of milk, the total cost of milk and its products sold comes to Rs. 4.56 crores, resulting in a saving of foreign exchange to the tune of Rs. 2.5 crores. The Union runs a lime juice factory and a fodder mixing plant is also under construction. It supplies quality cotton seeds to the members as fodder for the buffaloes and maintains free veterinary services with mobile dispensaries and artificial insemination centres. Besides training personnel for the industry, it also works as consultant to similar other schemes. The Union carries out various welfare activities like providing new schools, roads, electricity, water taps, hospitals, libraries, etc. to the villages covered by it. Under the auspices of the UNICEF it supplies free milk daily to about 10,000 children under six. The Polson Model Dairy working since 1929 A. D. is another well-known dairy with an all India reputation for its butter. A dairy college for degree and

diploma courses has also been established at Anand. There are also factories of medicines, soap, safes, pulses and ice. Being in the heart of a tobacco growing area, Anand is famous for its snuff manufactured on a large scale. The town is equipped with electricity.

There are two important missionary hospitals, viz., the Amery Hospital and the I. P. Mission Hospital. The Charotar Education Society founded in 1916 conducts many educational activities besides running the Dadabhai Navroji High School. There is a good inspection bungalow at Anand. The well known university town of Vallabh Vidyanagar is three miles away from Anand. The Krishigovidya Bhavan or the Institute of Agriculture five miles away from Anand town runs an agricultural school, a college of agriculture with facilities for post-graduate study, agricultural farms, a tobacco research centre, etc. The Janmashtami fair in August at the *Bethak* or the Pushtimargi Vaishnava temple at Anand attracts about 12,000 persons including people from surrounding villages.

3 Attarsumba–V. P., (Taluka Kapadvanj), P. 2,700

Situated on the river Vatrak 8 miles from Kapadvanj it is connected with Ahmedabad and Kapadvanj by bus. Formerly in the Baroda State, it was a mahal headquarters. After the merger of the State with Bombay it was included in Kapadvanj taluka. A very old town, it had a fortwall surrounding it and has an ancient Jain temple. The main crops are groundnut and food-grains. It is well known also for iron smithy and textile dyeing. There are an Aval Karkun's Office, a high school, a primary health centre, a maternity home, a veterinary dispensary and a dak bungalow.

4 Bakrol–V. P., (Taluka Anand), P. 6,327, 22°–34' N; 72 –54' E.

It is four miles from Anand railway station and connected with it by bus. It is believed to have been named after the nearby hillock of the demon Bak Rakshas. It is said that Vachakdevji, of the Solanki dynasty of Godhra established a principality here in V. S. 297. A progressive village, it played an active role in the struggle for responsible Government in Baroda State. Tobacco is its main produce. It has two tobacco curing establishments and a water works.

5 Balasinor–M., P. 15,569, 22°–59' N; 73°–25' E.

Balasinor or Vadasinor, is a taluka headquarters, situated in a hilly tract with the Shedhi flowing four miles away. It is ten miles from Sevalia station on the Anand–Godhra broad gauge section of the Western Railway and connected by State Transport bus services with Sevalia, Nadiad, Virpur, Kapadvanj, etc. As it is half encircled by rocks its climate is hot and close. Before Independence, Balasinor was the capital of a separate State. Originally under the Solanki estate of Virpur, it was conquered by a general of Mahmud Begada in 1505 and later came under the rule of Babis. After the British control was established over it about 150 years ago, it was under the supervision of the Kaira collectorate and since 1852 under the Rewakantha Agency. It had a strong fort round the town which is now in a dilapidated condition. The former Nawab's palace is to the north of the town, overlooking the lake. There are two oil mills and one ginning factory. An annual fair on Janmashtami (August) held at Devdungaria Mahadev on the Bhimbhamarda hill attracts 1,500 persons.

6 Bhadran–M., it (Taluka Borsad) P. 7,051, 22°–22' N; 72°–54' E.

Five miles away from Borsad, it is a station on the Bhadran-Petlad-Nadiad narrow gauge railwayline and connected by bus with Borsad, Anand, Petlad, etc. It is an old village stated to have been settled in the 12th century. There is an ancient temple of Bhadra-Kali Mata from which the town is said to derive its name. Some years back bricks of olden times were also found while carrying on excavations near Sakardas Kui. Residents of Bhadran actively participated in the struggle for Independence. The town is endowed with all the modern amenities. During the times of the former Baroda State, when it was a taluka headquarters, it was considered to be an ideal town called the Paris of Baroda State, possessing very good educational facilities, an upto-date

hospital and maternity home, a town hall, a high school, a kanya vidyalaya, separate libraries for males, females and children, a gymnasium and a guest house. It is equipped with piped water supply since 1912 and underground drainage since 1940. Tobacco processing is its main industry.

7 Bochasan–V.P., (Taluka Borsad), P. 4,427, 22°–24' N; 72°–50' E.

It is a railway junction on the Bhadran-Nadiad narrow gauge and Vasad-Kathana broad gauge railway lines. It is said to have been established in V.S. 1352 and named aftet Bucheshvar Mahadev. This village took an active part in the struggle for freedom. When, in 1922–23 a punitive tax called, *haidia vero* was imposed on every adult for allegedly helping the outlaw Babar Deva, the people put up a strong fight against this obnoxious levy, refused to pay land revenue and left the village.

The Vallabh Vidyalaya, the foundation of which was laid by Mahatma Gandhiji in 1931 and which is working as a branch of the Gujarat Vidyapith, Ahmedabad, is an important educational institution imparting basic education. A temple of Swaminarayan has been built by the founder of Bochasan Swaminarayan sect, Shri Yajnapurushdasji or Shri Shastri Maharaj, who, owing to some difference in the mode of worship, established his own group and separated from the main sect of Swaminarayan. The festival of Jal-jhilani Ekadashi at this temple on Bhadrapad Sud 11 (September) is attended by about 10,000 persons.

8 Boriavi–V. P., (Taluka Anand), P. 8,340, 22'–37° N; 72°–56' E.

It is a station on the Bombay-Ahmedabad broad gauge railway section from where the line to Vadtal branches off. Well connected by bus services, it is an old prosperous village situated on the Nadiad–Anand section of the National Highway No. 8. It is said to derive its name from Bora Rabari who founded it. Its chief produce is tobacco, millets, etc.

9 Borsad–M., P. 24,704, 22°–25' N; 72°–56' E.

It is a taluka headquarters and a station on the Vasad-Kathana broad gauge railway line. It is situated on Vasad-Tarapur section of the State Highway and connected by bus services with Anand, Cambay, etc. It is a historical place said to date back to the fourth century B. C. It derives its name from a sage named Badarmuni, a disciple of Valmiki and was originally known as Badarsidhi. Rangoji, a Maratha leader who settled here in 1741, constructed a strong fort round the town. Fighting raged constantly at this fort till 1748 when, after a siege of five months, Khanderao Gaekwad took the town and imprisoned Rangoji. Borsad has made a substantial contribution to the struggle for freedom during various political movements like the non-payment of the tax known as *haidia vero* levied in 1922–23 on 90 villages of the Borsad taluka for allegdly assisting the outlaw Babar Deva. In 1930–31 it participated in the salt *satyagraha* when Gandhiji, *en-route* to Dandi delivered an inspiring speech about the Satyagraha. During these movements, important national leaders from all parts of India like Vithalbhai Patel, Madanmohan Malaviaji, Dr. Rajendra Prasad, Khan Abdul Gafar Khan, Pandit Jawaharlal Nehru and Subhash Chandra Bose, etc., visited Borsad.

The town is equipped with electricity and water supply. A Presbyterian Christian mission established in the middle of ninteenth century runs a hospital and a female teacher's training college. An old step-well in the town is a protected monument. Borsad has a number of tobacco curing and bidi making establishments.

10 Cambay–M., P. 51,291, 22°–19' N; 72 –37' E.

Cambay or Khambhat, is situated at the head of the Gulf named after it. It is the headquarters of a taluka and the terminus of the Anand–Cambay broad gauge railway line 32 miles from Anand. It is also connected by State Transport buses with Baroda, Ahmedabad, etc.

The capital of a Muslim State till 1948, Cambay is a very ancient town, known as Stambhatirtha or Skambhatirtha, the "pillar shrine", from the pillar said to have been raised by Gods in memory of Kumar's victory over Tarakasur. Stambhavati and Trambavati were its other names.

Legends about its origin are described in the Kumarika Mahatmya. Musudi, the Arab traveller in 913 A. D. mentions the city governed by the ruler Balpar of Mankir, as famous for its sandals. It prospered under the Chalukya rule in the tenth century. In 997 king Mulraj of Patan settled north-Indian Brahmins in the Kumarika Kshetra at Cambay. Cambay became the chief port of Gujarat after the fall of Somnath in 1024. Vastupal, the minister of Vaghela rulers, who was the Governor of Cambay in 1241, built many Jain institutions and temples. By the end of the thirteenth century the Muslim countries knew it as the first city of India. In 1290 Marco Polo found it the chief city of a large country and the centre of a great trade. It fell to the Muslims in 1304, when the troops of Allauddin Khilji captured and plundered it, destroyed temples and slew people without pity. Ibn Batuta on his way to China in 1345 found it a very fine city, remarkable for the elegance and strength of its mosques and houses built by foreign merchants. It was again pillaged during the rebellions of 1347 and 1349. Under Ahmed Shah I and Mahmud Begada, Cambay, then a noble city 12 miles around, prospered with many crafts. It was called "Garment of the World" as it supplied textiles to the whole of the East and the greater part of the West. In 1573 it passed under Akbar, who revived its trade. During the sixteenth century its trade had suffered at the hands of the Portuguese, who plundered and burnt it. The English established a factory there in 1613 and the Dutch in 1617. A number of European travellers have described Cambay as one of the greatest and richest cities of India. "It was the home and the nursery of all that was best in India". Till the beginning of the 17th century it enjoyed the same position as Bombay and Calcutta now do. Literature, art, architecture and various industries developed and flourished there. Thereafter, Surat gradually became the chief port on the west coast, facilitated by the closure of the northern route by Mount Abu by disquiet in Rajasthan, the presence of the Mogul court in Khandesh for long periods for quelling disturbances and the safer anchorage for the European ships in the Tapi. The tide at Cambay was very fast, making it dangerous and difficult for ships to approach the harbour. Vessels, therefore, anchored at some distance. On the decline of the Mogul power, it became a separate State since 1730. It suffered repeated levies of Marathas and harassment by Kathis and Kolis. By 1797 the English factory was unremunerative and in 1818 the British Resident was withdrawn and the Collector of Kaira made the Agent of Government. The decline of Cambay was mainly due to silting of the port, competition from European companies, transfer of maritime trade to other places like Diu, Goa and Surat, the weakness of the Muslim rulers as a naval power and finally the construction of the B.B. & C.I. Railway in 1863 providing a direct route from Gujarat and central India to Bombay. It is now a minor port handling only about 225 tons of goods annually.

Cambay has always been famous for its handicrafts, chief among them being agate or *akik*, known even during Ptolemy's time, i.e., 150 A. D. Raw agate stones found in Gujarat at Jhagadia, Kapadvanj, Tankara and Ranpur and in Madhya Pradesh at Jabalpur and miscellaneous foreign stones were brought to Cambay for being cut and polished into finished articles of great artistic value which were in great demand in foreign markets. The chief varieties of stones worked there are moss agate, cats' eye, onyx, *lasania*, veined agate, Jasper or blood stone, chocolate stone, *lapis-lazuli* or azure stone, obsidian or jet, and *piroja* or blue stone. According to a local tradition, an Abyssinian merchant called Bawa Ghor established a factory for the manufacture of agate stones at Nandod in Broach district in the fifteenth century and exported them to countries on the west African coast, China, Arabia and Europe through the port of Cambay where his brother Bawa Saban was stationed as his representative. The Muslim artisans of Nandod taught the art to Kanbis and others who shifted to Cambay and worked there. The only agate articles now made are beads of various shapes and sizes, earrings, buttons,

rings, rosaries, and some fancy curios exported to foreign countries, the chief among them being Nigeria, Gold Coast or Ghana and other places on the West African coast. The artistic skill which had once reached its zenith no longer exists though the Cambay lapidary still excells in cutting and polishing of stones which attracted precious, semi-precious and in recent times even synthetic stones from various parts of the country. Among other crafts, which thrived in the past were ivory and wood work, perfumes, corals, shields with inlay work, carpets, *chudis* of wood, clay pottery, strong Cambay locks, copper vessels, the well-known "Khambhati" paper and coir ropes. However, the only other important handicraft now surviving is weaving of *jari* brocade and nylon saries woven by the skilled workers of Cambay. There are a textile mill, an oil mill, three ginning factories and three saw mills. Cambay is also well known for its sweets.

Cambay acquired a new importance recently owing to the find of petroleum and natural gas. By 31st May 1962, 33 points were drilled and 27 wells completed, while 8 more pinpoints were proposed to be drilled in the year 1962-63. The Technical Training Institute started in 1961 conducts two years, courses for mechanics, fitters, turners, machinists, welders and rigmen in the oil industry. The trainees are given stipends by the Oil and Natural Gas Commission.

Being an important centre of Jainism, Cambay has 76 ancient Jain temples chief of which are Shantinath and Parasnath and one old temple said to have been founded by the well known Jain saint Acharya Hemachandra Suri of the 12th century who was closely associated with Cambay. There are also five important collections of palm leaf manuscripts and works on Jainism. One of the manuscripts, dating back to V. S. 1290 is written by the well known Jain warrior statesman Divan Vastupal himself. The old and picturesque Juma Masjid built in the 14th century with the stones of Hindu temples is similar to Altamesh Mosque at Ajmer in its plan and arrangements. But the three arches are plain and low to suit the Jain pillars inside.

Cambay has an arts and science college, about twenty libraries and two Government guest houses. It is equipped with electricity and a municipal water works. There are several tanks and gardens. The Alang Naher is an old canal from the river Sabarmati. A fair, attended by about 15,000 persons is held on Chaitra Sud 15 (April) when a bath in the sea is considered holy.

11 Chaklasi–V. P. (Taluka Nadiad), P. 16,729, 22°–39' 'N; 72°–57' E.

It is 2 miles away from the Boriavi railway station, and connected by bus services with Anand and Nadiad. Believed to be an ancient place, it is associated in local legends with Mahabharat times, when it was known as Chkravati nagari visited by the Pandavas.

It is well known for its tobacco and *bidis*. Other main produce are potatoes and vegetables. The potatoe growers' association carries out several public activities. Milk is another important product, marketed through co-operative societies. As early as 1834 A. D. a condensed milk factory was established here with a German dairy expert as its manager. In 1924A. D. it sent its first consignment to London consisting of six tons of casein. There are several temples, a mosque and a church. The temple of Ganganath Mahadev is about 200 years old. Shankaracharya Shri Rajrajeshwar Maharaj established an *ashram* and *gaushala* about 50 years ago. A Mahadev temple has been erected on his *samadhi* here. A fair is held at the *ashram* on Bhadrapad Sud 14 (September) when about 4,000 to 8,000 people congregate.

12 Dabhan–V. P. (Taluka Nadiad) P. 3,936, 22°–43' N; 72°–49' E.

It is three miles west of Nadiad, on the Nadiad–Ahmedabad section of National Highway No. 8, and connected by bus with Nadiad, Kaira, Vaso, Matar, etc.

It is believed to take its name either from its old name Darbhavati, or from Darbhavan, meaning "having *darbha* grass." Originally it was a Brahmin village. The main attraction of Dabhan is the temple dedicated to Sahajanand Swami of Swaminarayan sect, who stayed there in V.S. 1867,

performed a *yajna* and showed some miracles as a result of which Joban Pagi, a notorious bandit, accepted his religious tutelage. The chief produce of Dabhan is tobacco and lemons. The Jal-Jhilani Ekadashi fair held at the Swaminarayan temple on Bhadrapad Sud 11 (September) attracts about 3,500 persons.

13 Dakor–M., P. 12,636, 22°–45' N; 73°–7' E.

It is situated on the river Shedhi 24 miles away from Nadiad and 18½ miles from Anand. It is a station on the Anand–Godhra broad gauge railway line and linked with Nadiad and Godhra with a cement concrete road. State Tronsport bus services connect it with Nadiad, Ahmedabad, Kapadvanj, Sevalia, Godhra, etc.

Dakor is one of the holiest places in India and perhaps the most frequented place of pilgrimage in Gujarat. The town, famous for the well-known temple of Ranchhodji, a form of Shri Krishna, is visited every year by lakhs of devotees from all over India. It is said that Dank Rishi had his *ashrama* here in the times of Mahabharat, when the surrounding area constituted the Hidimba Van. Dankpur is the former name of Dakor. According to a legend which has been the subject of much folklore, the original idol of Dwarka is now enshrined at Dakor. It is said that, taking pity on an aged devotee, Vajesinh Bodano, a Rajput of Dakor who came to Dwarka for *darshan* from such a great distance on every full moon day, the God in the form of the idol of Dwarkadhish went with him and reached Dakor on Kartik Sud 15, V.S. 1212 (1156 A.D.), The Gugli Pujaris at Dwarka chased Bodano to recover the idol and killed him in Dakor. Gangabai, the widow of Bodano offered to give the equivalent of the idol's weight in gold, whereupon the Guglis agreed to withdraw. By a miracle the idol became as light as a golden nose-ring which was all that the widow had. The Guglis were disappointed, but the Lord mercifully directed that they would find an exact replica of the idol in a particular well at Dwarka. The impatient Guglis looked for the idol some time earlier than they were told to, and, as a result, found an idol which, though similar to the original one, was smaller. Pilgrims to Dakor still visit the places stated to have been associated with the legend, viz., where the branch of the neem tree under which the god rested turned sweet, where the idol was hidden in the Gomati tank, where the balance was set-up, the original temple where Bodano enshrined the idol, etc.

The present temple of Ranchhodji was built in 1772 A.D., at a cost of Rs. 1 lakh by a Maratha *sharaf* Gopalrao Tambekar. Built with brick walls and stone pillars, it is raised on a high plinth 168' x 151' with twelve stone steps on each side and surrounded by a large courtyard enclosed by fortwalls. It has eight domes and 24 turrets, the highest of them being 90' making it the tallest temple in the district. Though not very rich in carving, the main cupola presents a peculiar style of architecture. Though it looks like a Muslim *tajia* in appearance, in fact it shows the influence of the Maharashtrian style of Hemadripanti temples. The idol is of black touchstone, 3½ feet tall, and has four hands. The temple was endowed with the rental of two villages, namely, Dakor and Kanjari, which were manged on behalf of the shrine by the Tambekar family. Since 1888 the management of the temple rests in a Temple Committee in pursuance of a High Court decision. It consists of three nominees of the District Court and one representative each of the Tambekar family and the *pujari sevaks*. The Pujaris are Khedaval, Shrigod and Tapodhan Brahmins. Near the temple is the sacred Gomti tank, the biggest village tank in Kaira district with masonary walls and stone steps on three sides. Other important shrines include Lakshmiji, Bodano, Danknath Mahadev, Vishvakarma, Kabir, Mota Hanuman and Mahaprabhuji's *bethak* Thousands of people all over Gujarat visit Dakor on every *Purnima* day when special trains and buses have to be run to clear the traffic. The municipality levies a pilgrim tax on these occasions. Being a place of pilgrimage Dakor has also become a centre of some trade. Apart from sweets offered to the God,

and devotional articles like rosaries of Tulsi beads, and pictures of deities, household articles of iron, wood, etc., are important items of trade. *Patrala*, i. e. plates made from dried *khakhra* leaves are exported in large quantities. There are two cotton ginning factories. Dakor has the court of a Judicial Magistrate, a hospital, a maternity home, a high school, a library and a Sanskrit *pathshala*. Arts and Science colleges have been started since June 1962. There are a large number of *dharmashalas* and a Government rest-house.

The chief fairs at Dakor are the Ashvin and the Kartik Purnimas when 50,000 to 1,00,000 people visit the shrine. On other Purnimas, pilgrims number 5,000 to 10,000. On the New Year Day, i.e., Kartik Sud 1, *annakoota* or the largest possible assortment of sweets and food preparations are offered to God, along with 125 mds. of cooked rice heaped up in the square with 1¼ mds. of *laddu* on the top. After formal offering of the latter to the God, the whole quantity is allowed to be looted by the pilgrims. Other Vaishnava festivals like Holi, Janmashtami and Rathyatra, etc., are also ceremonially celebrated at Dakor.

14 Dharmaj–M., P. 8,718, 22°–25' N; 72°–48' E.

It is a station on the Petlad–Bhadran narrow gauge railway line and connected by bus services with Petlad. It is a very old town said to be in existence since the 12th century. The main population consists of the enterprising community of Patidars doing thriving business in various towns and cities of India and even in foreign countries such as Java, Rangoon, Singapore, Fiji, Aden, Kenya, Uganda, Rhodesia, Natal and Tanganyika. Like many other places in this area, this town took a prominent part in the struggle for freedom. It has very fertile lands and has 8 factories producing snuff for which it is well-known. There are a high school and a water-works.

15 Dhuvaran–V.P., (Taluka Cambay) P. 2,588, 22°–14' N; 72°–46' E.

It is situated on the river Mahi ten miles away from Cambay, with which it is connected by bus, and about six miles from Kathana the terminus of the Vasad–Kathana broad gauge section of the Western Railway. A scheme envisaging construction of a large central thermal power station with a capacity of 200/250 M.W. and transmission of power through 132 K. V. lines to four receiving centres, viz., Narol, Baroda, Gondal and Dhasa has been sanctioned and is under speedy execution. The power house is expected to cater to the major demands of Gujarat by distribution of bulk power received at these stations by a secondary transmission network. The cost of this scheme is estimated at about Rs. 2,441 lakhs. There is a temple of Dhumeshwer Mahadev. A bath in the river at this place is considered holy.

16 Fagvel–V.P., (Taluka Kapadvanj) P. 3,127, 22°–55' N; 73°–12' E.

Ten miles away from Thasra railway station, it is believed to take its name from Phalgun, the month in which it was settled. It has the shrine of Bhathiji a local deity widely worshipped and held in great sanctity in these parts under the name of Bhathikhatri, to whom people resort, especially for the cure of poisonous snake bites. It is said that about 150 years ago, Bhathiji, cutting short his own marriage ceremony, gave his life fighting for the protection of cows that were being driven away by Muslim outlaws. According to a legend his body went on fighting for some time even after his head was severed. A serpent who drank his blood was pleased with him and blessed him that those who worship him would be cured of poisonous bite. The fair held in his honour on Kartik Sud 1-2 (November) is attended by about 5,000 persons.

17 Jitoda–V.P., (Taluka Anand) P. 1,514, 22°–31' N; 72°–51' E.

It is 2½ miles away from Anand and connected with Anand and Borsad by bus services. It has the well known temple of Vaijnath Mahadev, said to have been built in the times of Siddharaj Jaysinh, the king of Patan. The *shivling* is three feet tall and has about 25 holes in it. Numerous devotees visit the shrine in the month of Shravan.

is also a picnic spot, and the site of two annual fairs on Mahashivratri (February) and Janmashtami (August) attended by 5,000 to 10,000 persons.

18 Kaira–M., P. 11,960, 22°–45' N; 72°–44' E.

Kaira or Kheda, the headquarters of Kaira District, stands on a rising ground near the confluence of the Vatrak and Shedhi rivers, 20 miles south of Ahmedabad 7½ miles from Mehmeda bad and 12 miles from Nadiad. Situated on the Bombay-Ahmedabad National Highway No. 8 it is connected by State Transport bus services with Ahmedabad, Mehmedabad, Nadiad, Baroda, Kapadvanj etc.

Kaira is a very ancient town said to be in existence at the time of Mahabharat. Its other names are Rastrakuta Nagar and Khetakpur, whence its present name is derived. The Padma Puran and Dashakumar-Charita of the seventh century also mention *Khetak*. According to copper plate grants it was known as Khaidra in the fifth century. A hundred years later it was a great city, the birth place of Shiladitya, the conqueror of Vallabhi. It, however, has little importance in the modern Gujarat history. It was taken by the Babis early in the 18th century, by Damaji Gaekwar in 1763 and was handed over to the British by Anandrao Gaekwad in 1803. As a strategic town with a healthy climate, the British established a military camp about 1½ miles from Kaira. Though the military was later on shifted elsewhere, the area is still known as Camp area. As Kaira was the gateway to Kathiawar by land routes, it was selected as the headquarters of the district and the military camp with a view to keep the turbulent chiefs and tribes of Kathiawar under control.

It was formerly a centre of trade and commerce, well known for its textile dyeing industry. But with the shift in trade routes due to the opening of railway lines between Ahmedabad and Bombay it is now merely an administrative town which has lost all its former importance. The town had a fortwall built in 1730 by its Governor Muhammad Khan Babi, which is now in a ruined condition. Besides the Collectorate built on a hillock, there are the offices of the District Superintendent of Police, Executive Engineer, and the Civil Hospital. The municipality runs a high school and water works. There are a Jain temple with beautiful dark wood carving, and a church built about 1825. One of the oldest Gujarati weeklies, the Kheda Vartaman, is being published from this place since 1860. Fairs held on Ashwin Vad 14 (October) and Bhaibij (November, at the Khedia Hanuman temple attract about 10,000 persons from the town as well as neighbouring villages.

19 Kanisa–V. P. (Taluka Cambay) P. 1,820

It is situated 2 miles away from the Sayma station on the Anand–Cambay broad gauge railway line. There is an anceint temple of Kamnath Mahadev, with a kund or a holy tank, a bath in which is believed to cure leucoderma and skin diseases. Handloom textiles and cement pipes are its principal industries. The fair held at Kamnath Mahadev on Vyatipat in Shravan (August) is attended by 8,000 persons.

20 Kapadvanj–M. P. 27,053, 23° N; 23°–7', E.

Situated on the river Mahor, it is the headquarters of a taluka, and the terminus of the Nadiad–Kapadvanj narrow gauge railway line about 25 miles from Nadiad. It is connected by State Transport bus services with Nadiad, Modasa and surrounding places. One of the oldest towns of Kaira District, it is said to date back to the 11th century. There are buildings five to eight centuries old, and near the fort walls is the site of a still more ancient town. Three historical battles were fought at Kapadvanj. In 1454, Kutb-ud-din, the king of Guiarat, defeated king Mahmud Khilji of Malva after a hard battle. In 1725, the Marathas under Kantaji and Pilaji Gaekwad were defeated by the Mogul commander Khanahzad Khan. In 1736 the Marathas and the Kolis recovered the town in a joint attack. The Marathas held it till 1816–17 when they exchanged it with the British for the neighbouring territory of Vijapur.

Situated on one of the main routes between central India and the sea coast, before the advent

of railways, Kapadvanj has always been an important trade centre. It was known for the manufacture of soap, glass, leather, *ghee*, jars and more particularly for textiles which gave it the name of Kapadwanijya or the place famous for cloth weaving. Iron ore also used to be smelted there. Its goods were once exported to Panch-Mahals, Balasinor and central India, and glass and soap were exported even to North Africa, Arabia and Persia. Agate and moss pebbles used to be collected from the bed of the river Mazam about 15 miles from Kapadvanj and sent to Cambay for processing. About 50 years ago Messrs. Killick Nixon and Co. of Bombay discovered manganese ore at Tanklani deri about $1\frac{1}{2}$ miles away from Kapadvanj. The working of the mines and export of ore was very much facilitated by the Nadiad-Kapadvanj railway line constructed by the company in 1913 A.D. These mines are closed for the past 25 years. The bauxite mines, still working, yielded 8,660 tons in 1962. Most of the handicrafts of Kapadvanj have now fallen in to decay. Cotton and groundnut are its chief produce. There are cotton ginning and pressing factories, oil mills and a rice mill. The Vohras (Shia Muslims) of Kapadvanj are a well known community of merchants having fine and sub stantial houses. Many of them have settled as businessmen in Bombay and various other cities of India and abroad.

The town is surrounded by fortwall with gateways on four sides which are gradually disappearing. A *toran* or victory arch in Chalukya style, a *kund* and the *Batris kotha Vav*, a stepwell with 32 apartments, built by Siddharaj Jaysinh, are fine specimens of architecture. It is said that Siddharaj had built the *kund* on hearing of the medicinal properties of the waters of a pool at that site. The *toran* and the *kund* are protected monuments. To the south of the *kund* there is an underground temple of Nilkanth Mahadev. There are ruins of many mosques and tombs. A fine Jain temple built in the middle of the last century, on a plinth ten feet high, has richly ornamented interior with marble pillars and pavement. There are a beautiful mosque in the Vohra locality and many old buildings rich in wood carving.

Equipped with electricity, the town has piped water supply and underground drainage system since 1928. There are a well-equipped hospital and an arts and science college. A large fair, attended by about 25,000 persons. is held at Moti Ratnagar Mataji on Bhadrapad Sud 12–15. A smaller congregation also assembles at Nani Ratnagar Mataji during these days.

21 Karamsad–V. P. (Taluka Anand), P. 9,282, 22°-33' N; 72°-54' E.

It is a station on the Anand–Cambay broad gauge section of the Western Railway, five miles from Anand and connected with it also by bus. It is famous as the native place of Sardar Vallabhbhai Patel and Vithalbhai Patel and is one of the important centres of the Patidar community. The University township of Vallabh–Vidyanagar for the establishment of which lands from Karamsad were donated, is at a distance of $1\frac{1}{2}$ miles from the village. The village has electricity and water works, and a high school.

22 Kathlal–V. P. (Taluka Kapadvanj). P. 8,602, 22°-54' N; 72°-59' E.

Situated on the river Mahor, it is a station on the Nadiad–Kapadvanj narrow gauge section of the Western Railway seventeen miles from Nadiad and ten miles from Kapadvanj with both of which it is connected by bus. A well known and progressive village, it has developed traditions of public and social service like famine and flood relief, etc. The movement of Kheda Satyagraha started from this place in 1917. It has several co-operative societies and a regulated market yard. The main crops are foodgrains gronud nut and mangoes. There is an oil mill. The handloom cloth and textile dyeing of Kathlal are well-known. *Ghee* is exported to various parts of India. There are several educational institutions including a primay teachers' training college for males, a high school and a crafts training centre for females. It has several old shrines, and a Satyagrah pillar has been erected in 1958 to commemorate the Satyagrah movement initiated at this place.

23 Lasundra–V. P. (Taluka Kapadvanj), P. 5,079, 22°–55' N; 73°–9' E.

Situated on the river Luni, it is about 11 miles south-east of Kapadvanj with which it is connected by bus. It is well known for its hot and cold springs said to have medicinal properties. A legend attributes their origin to Shri Rama, the place being called Rama Kshetra. It has a primary health centre. The Mahashivratri fair at the Mahadev temple near the springs in February is attended by 4,000 persons.

24 Mahisa–V. P. (Taluka Nadiad), P. 3,872, 22°–5' N; 73°–1' E.

It is about five miles away from Kathlal station on the Nadiad–Kapadvanj narrow gauge railway line and connected by bus with Mahudha. Believed to have been founded by a Bania named Mahijisha about V. S. 1300, it has two tanks, viz., the Marmasagar, a very big tank with large flights of steps in which lotuses grow in large numbers, and another called Ankleshwar Tank. The religious places worth mentioning are the 700 years old temple of Utkantheshwar Mahadev, Bhimnath Mahadev, Khambhlina Mahadev, Marmeshwar Mahadev, Mahadev of the Vachali Khadki (central lane), Kalka Mata, Bhathiji, Narisinhji, Swaminarayan and Rokadnath Hanuman. A four-faced image of Brahmaji and other images, in the ruins of the temple of Brahmaji, are specimens of good sculpture.

25 Mahudha–V. P. (Taluka Nadiad), P. 10,783, 22°–49' N; 72°–54' E.

It is a station on the Nadiad-Kapadvanj narrow gauge railway line, and also served by bus service. Said to have been built by king Mandhata about 2,000 years ago, it was the headquarters of a *paragna* in 1700 A. D., and was transferred by the Marathas to the English in 1802. In 1860, the *paragna* had 104 villages, with a Munsiff's court. Later on, it gave some literary luminaries and some of the earliest journals to Gujarat. The handloom cloth of Mahudha, especially the varieties known as Sushi and Chokhani, were once famous all over Gujarat. This industry flourished till about 1935, leaving its trace in a small handloom weaving industry now in existence. Its other handicraft products are cartwheels and wooden agricultural implements. It has several concerns engaged in tobacco curing and *bidi* making. There are a high school and a primary health centre. The Jahera Pir Urs, held on Safar 10, attracts about 4,000, persons, and the fair on Janmashtami (August), 3,000 persons.

26 Matar–V. P. (Taluka Matar), P. 6,521, 22°–42' N. 72°–40' E.

It is the headquarters of a taluka four miles away from Kaira, with the river Watrak flowing nearby. State Transport bus services connect it with Ahmedabad, Nadiad, Mehmedabad, Cambay, etc.

There are several co-operative societies manufacturing iron agricultural implements, bone-meal, and groundnut oil, a pulse mill, two ginning factories and a saw mill. There is also a high school. Matar has the well-known Jain temple of Sachadev dedicated to Sumatinath, the fifth Tirthanker, whose idol found at Sinhuj (Taluka Mehmedabad) and installed in 1797, is associated with a number of miracles. It is visited every year by Jain devotees from all parts of India, for whom there is a large *dharmashala*. Festivals are held at the shrine on Chaitra Sud 15 (April) and Kartik sud 2 and 15 (November).

27 Mehmedabad–M. P. 12,561, 22°–49' N; 72°–46' E.

It is a taluka headquarters, situated on the river Vatrak. A station on the Bombay-Ahmedabad main line of the Western Railway, Mehmedabad is about 18 miles south of Ahmedabad and 8 miles north of Kaira, the district headquarters which forms part of Mehmedadad taluka. State Transport buses connect it with Kaira, Mahudha and Kathlal. It had once the honour of being the capital of Gujarat, in the time of Mahmud Begada, who founded it about 1479 A. D., fortified it and built palaces. Mahmud, after whom it takes its name was the most renowned sultan of Gujarat, during whose long rule of 54 years the splendour of Gujarat greatly increased. His conquests reached far and wide, from Sind to

Khandesh. The conquest of the two main Hindu strongholds, the impregnable forts of Junagadh and Pavagadh earned for him the title of Begada, i.e., two forts. His prodigious physical strength and voracious eating habits have become legendary. The town was furhter developed by Mahmud III (1536-1554), who built a deer park. During this period, a great annual festival was held on the Prophet's birthday, attended by all learned men of the kingdom. The state buildings existed till the close of the 16th century, as noted by Ain-i-Akbari in 1590, though in 1638 it still had the handsome castle in the west. It lost its grandeur thereafter and was reduced to the position of an ordinary village towards the end of the 17th century.

The Bhamario Kuvo, a big step well with architecture all its own, is at a distance of two furlongs from the railway station. Built by Mahmud Begada as a hot weather resort, it is 74 feet long and 24 feet broad, and has eight underground chambers approached by four winding flights of stairs reaching upto the water-level. Above the ground it had four stone trellis work windows, and two arches, from which was hung the king's swing. Of the Chanda Suraj Mahel constructed by Mahmud Begada in memory of his wives on the bank of the river Vatrak, only some traces now remain about three furlongs from the railway station. The most beautiful of the remains at Mehmedabad are the Roza-Rozi at the village Sojali 1½ miles east of the town on the river bank. The monument, containing the tombs of Mubarak Syed, a minister of Mahmud Begada and his son Miran is only 94 feet square and 60 feet high, with a dome, 52 pillars and a marble floor. Though small, it has a rare simplicity, a solidity and balance of parts, and graceful details. Double verandahs and a most beautiful screen of pierced stone work "give the seclusion and repose indispensable to a mausoleum". There are three religious and moral inscriptions, without any reference to the builder or date. Nearby are the tombs of the architect of the monument and of two relatives of the minister. The Bhamario kuvo and the Roza-Rozi are protected monuments. There is an ancient step-well in the town built by Vanjara before the time of Mahmud Begada, which has fallen into disuse.

Oil and rice mills and manufacture of brass-ware are the main industries of the town, which is equipped with electricity. The Congress Sevadal centre known as Vasant-Rajab Sevadal Academy on the bank of the river is an important institution.

28 Nadiad-M., P. 78,952, 22°-42'N; 75°-52' E.

The largest town in Kaira district, and a taluka and sub-divisional headquarters, it is a junction station on the Bombay-Ahmedabad broad gauge line of the Western Railway from where narrow gauge railway lines run to Kapadvanj and Bhadran. Situated on the National Highway No. 8, it is well connected by State Transport bus services with all important towns in the district and with Ahmedabad, Baroda, and Godhra.

Nandgam is said to have been its ancient name. An old town, noted in the early 17th century for its indigo and cotton manufacture, it was in the eighteenth century one of the prettiest towns of Gujarat, nearly three miles round with a fortwall, nine strong gates and a dry ditch around. In 1775, Raghunathrao Peshwa levied a heavy fine on it as it sided with Fatesinh Gaekwad. The Gaekwad handed it over to the British in 1803 A. D. It was one of the largest and thriving towns in Gujarat in the ninteenth century. There is a step-well said to have been built by Minaldevi, the mother of Siddharaj Jaisinh of Patan. The *Mogul kot*, a walled enclosure now housing the Government High School, the *alma mater* of Sardar Vallabhbhai Patel, is believed to have contained Government offices and courts during the Mogul period. The locality known as Malhar Para commemorates Malharrao Gaekwad.

Nadiad was the headquarters of Mahatma Gandhiji at the time of Kaira Satyagraha, during 1917-18. Ably assisted by Sardar Vallabhbhai Patel, Gandhiji led the movement against the oppressive levy of land revenue by the British

Government in spite of failure of crops. Being the first struggle of the cultivators on the basis of non-payment of land revenue, it became an important landmark in the struggle for Independance. People of Nadiad took a prominent part in all the political movements started during the struggle.

Nadiad is a centre of considerable trade and commerce. Situated in the fertile tract of Charotar well known for its progressive agriculture, its main crops are food grains and tobacco. There are several bidi factories as well. During the last century, its exports included yarn, snuff and dyed cloth. A spinning and weaving factory worked by steam was opened as early as 1876, but did not thrive. The New Shrrock Mill established in 1913 produces excellent cotton textiles which are exported to foreign countries. There is a large number of establishments manufacturing iron safes, soap, furuiture, brass and copper vessels and iron articles. Manufacture of gold and silver ornaments and wares is another important craft. A large factory for manufacture of cable wires and other electric goods have been recently established at a distance of about a mile from Nadiad, near the village Kamla.

Nadiad is famous for its contribution to Gujarati literature. During the late 19th and early 20th centuries a group of literaters made it the "Sakshar Bhumi", "the land of the learned", Chief among them were Govardhamram, the author of the great novel Sarasvatichandra, whose house is preserved as his memorial, Manilal Nabhubhai a great Vedantist, scholar and essayist, poet Balashanker and author-statesman Manassukhram Tripathi. Nadiad was also the birth place of Sardar Vallabhai Patel.

Most of the district offices except those located in Kaira, the District Court and the office of the District Local Board are in Nadiad. There is a very good dak bungalow. The town is equipped with electricity, piped water supply fed by wells on the river Shedhi about two miles away, underground drainage, a town hall and municipal gardens.

There are arts, science, law, commerce and Ayurvedic medical colleges, Sanskrit Pathashalas, several high schools, a Talukdari Hostel and District Library. The Vitthal Kanya Vidyalay has for long been an educational institution for women run on Gandhian ideals. The Hindu Anathashram is also an old and reputed social institution. The well-known Mission hospital, nurses' training school, municipal hospital and Ayurvedic hospital are some of the important medical institutions. During the past twenty years very good buildings have been built for primary schools as a result of the organised efforts of the primary teachers.

Most of the town walls and the gates have now disappeared, but the nine *bhagols* are still known by the old names. Around the town are nine tanks which have lost much of their utility since the execution of the water supply scheme. The Santram temple having large grounds is built on the *samadhi* of Santram, a saint who was the contemporary of Sahajanand Swami. It has a wide following in the surrounding areas, especially among agricultural and artisan classes, and has several branches. It carries out religious, philanthropic and social welfare activities and maintains *dharmashalas*. In memory of the occasion when Gandhiji delivered a lecture from the upper storey of the temple during the Salt Satyagraha movement of 1930, the open square nearby is known as "Azad Chowk". A large fair held at Santram temple on Magh Sud 15 (February) the anniversary of the *samadhi* of the saint, is attended by more than 25,000 persons and attracts large crowds from the countryside.

29 Nagra–V.P. (Taluka Cambay), P. 8,695

It is about 4 miles from Cambay and connected with it by bus. It is said to have once been an ancient port and perhaps the site of the ancient town of Cambay. It has been referred to as Minnagar (from Mahi nagar) in the old Greek accounts of India, and mentioned by Ptolemy and the author of the Periplus. Local legend recorded in Jain works of Gujarat, states that Vikramaditya of Ujjain was born here at the place of his mother's father, a local ruler and

that his ancestors belonged to the Garda-Bhilla dynasty that ruled at Anandpur or Anand. The old mound of Nagra is a site of archaeological interest. There are ancient large size idols of Brahmaji, Suryanarayan (the Sun God) and Buddha. The sculpture of the first two idols which are in white marble show skill and artistic beauty of a very high order. Drilling of agate beads is an important handicraft of the place. The fair held on the last day of Shravan (August) every year at the *kund* of Koteshwer is attended by about 3,000 persons.

30 Napad–V. P. (Taluka Anand), P. 9,484, 22°–29′ N; 72°–59′ E.

It is 2½ miles from the Navli railway station and connected by bus with Anand. In the times of the Peshwas, and subsequently till 1869, it was the headquarters of the taluka, known as Napad taluka. In the 15th century V.S., when the Garasias could not Settle the state dues, half of the village area, now called the Talpad, was taken over by the State; the other half known as *Wanto* remaining with the Garasias. An old office building with fortwalls surrounding it are the remains of old days. There are a good pond and a step-well built in medieval times by a Pathan Governor of Petlad. By the side of the pond is an Idgah, beyond which traces of old buildings are found. Tobacco is its main produce, and tobacco processing, bidi making and tanning and currying of leather are its industries.

31 Nar–V. P. (Taluka Petlad), P. 8,354, 22°–28′ N; 72°–32′ E.

It is a station on the Anand-Cambay broad-gauge railway line and Petlad-Sojitra bus route. It is believed to be a historical place, called Narangpur, well known in the thirteenth century, and a *paragna* of about 48 villages in the eighteenth century. There is a rice and pulse mill. Nar has some trade of buffaloes with Bombay and Surat. The village has electricity and piped water supply, a high school and a maternity home.

32 Ode–V. P. (Taluka Anand), P. 13,022, 22°–37′ N; 73°–7′ E.

It is situated 3 miles away from Ode Road station on the Anand–Godhra broad-gauge railway line, and connected by bus with Umreth Nadiad, etc. Its main produce being tobacco, there are about sixteen tobacco curing establishments. There is a high school and temple of saint Jankidasji, about whose supernatural powers various legends are current. The village is equipped with a water works.

33 Petlad–M., P. 35,239; 22°–29′ N; 72°–48′ E.

A taluka and subdivisional headquarters, is a junction station on Anand-Cambay broad-gauge and Nadiad–Bhadran narrow–gauge railway lines 13½ miles from Anand. State Transport bus services connect it with Cambay, Anand, Sojitra, Nadiad, etc. The town is said to date back to the 5th century, when it was a trade centre known as Petalipadra on the highway from Cambay to central and northern India. According to a legend it was also known as Prahladpur after Prahlad, the great devotee who is said to have lived here. It was considered to be the 'Manchester of Baroda State' owing to its being the centre of textile industry. Even at present it is an important industrial town having two textile mills, a dye and paint works, a pulse mill, several brass and iron factories, powerloom factories, and a chemical factory. Tobacco is an important produce and item of trade.

The town has electricity and several water-works functioning for different localities. There are arts and science colleges, a Sanskrit Vidyalaya, a large hospital and two sanitaria. The ancient shrine of Ramnath Mahadev with a large *kund* having steps on all sides, Somnath Mahadev and Kalika Mata are the important temples. There is the *durgah* of Arjansha Pir, a descendent of the Rajput ruling dynasty converted to Islam, who died in Hijri 633. The fair held on Bhadrapad sud 11 at Ramnath Mahadev is attended by about 5,000 persons.

34 Pij–V. P. (Taluka Nadiad), P. 5,771, 22°–40′ N; 72°–48′ E.

Is a station on the Nadiad–Bhadran narrow-gauge section of the Western Railway, three miles from Nadiad and connected with it also by

bus. An old village, it has long been famous for the manufacture of knives, nut-crackers, scissors, etc. There is a high school. The Kapileshwer Mahadev with a large pond (*kund*) is visited by about 10,000 persons at the time of the fair held on every Monday of Shravan (August).

35 Piplav–V.P. (Taluka Petlad), P. 2,844.

It is four miles from Petlad and connected by bus with Petlad, Nadiad, etc. Believed to have been settled in the twelfth century by Pipa Rabari, it has the famous temple of Ashapuri Mata. The place was first consecrated in the 16th century, but the temple was built later by the Peshwa Government. The goddess is the family deity of many people all over Gujarat, who come here on pilgrimage, and for the tonsorial ceremony of their children. The temple has the idols of Asha and Puri, two sisters who fulfil the desire of their devotees. There are a tank, a *vav* with waterworks, and five *dharmashalas*. An annual fair held on Bhadrapad Sud 8 (September) is attended by 5,000 persons.

36 Ras–V. P. (Taluka Borsad), P. 5,058, 22°–29′ N; 73°–50′ E.

It is a station on Vasad-Kathana broad-gauge railway line and connected by bus with-Borsad, Cambay and Kathana. It has become well known all over the region because of the prominent part it took in the no-tax campaign under the Leadership of Darbar Gopaldas who originally belonged to this place, under the guidance of Mahatma Gandhiji and Sardar Vallabbhai Patel. It has a spacious maternity and general hospital built from the funds of Kasturba Rashtriya Smarak Trust in appreciation of the sacrifices made by this village in the Satyagraha movement. The Vallabh Vad (buniyan tree) commemorates the arrest of Sardar Patel at the site while addressing a public meeting.

37 Ravdavat–V.P. (Taluka Kapadvanj), P. 3,070, 23°–2′ N; 72°–58′ E.

It is six miles away from Dasalwada railway station and connected with Ahmedabad by bus. Believed to have been settled about 500 years age by Radaji Thakor, it has, on the bank of the river Vatrak passing nearby, the ruins of an old fort, with two storeys and ten rooms still in existence. In the 15th century, Ajmalkhan, a Suba from Delhi, sent out to recover the tributes of the principalities of this area, founded a town here on the way from Ahmedabad to Pavagadh and called it Ajmabad whence the present name of Ajmavat Kot, a suburb of Ravdavat, is derived. The names of fields in the neighbourhood point to several localities of the town, that might have formerly existed on these sites. Wooden cots and carts of Ravdavat are well-known in the country side.

38 Samarkha–V. P. (Taluka Anand), P. 10,702. 22°–36′ N; 72°–59′ E.

It is a prosperous village 1½ miles from Sadanapura railway station and connected with Anand by bus. It is said to have been dominated in turn by Gadhavis, Rabaris and Muslims in the past. When the Muslims migrated, their lands were occupied by Patidars. A German established a creamery here in 1910, for producing separate milk and casein. It was later shifted to Anand where it grew into the well-known Polson Dairy. There is milk producers' co-operative society, milk being one of its chief products even to day.

39 Sarnal and Galteshwar (Taluka Thasra), P. 921, 22°–47′ N; 73°–14′ E.

Situated on the confluence of the rivers Mahi and Galti (hence the name Galteshwar) two miles from the Anghadi station on the Anand-Godhra broad-gauge railway line, Galteshwar is an ancient Shiv temple, and also a place where Galav Muni had his Ashrama in ancient times. The temple, a protected monument belonging to the Chalukyan period is practically in a ruinous condition. One mile away from Galteshwar is the village Sarnal which contains the remains believed to be of "Chandrahas Nagari" of ancient times. It is also believed that the place was a big trade centre in the 10th and 11th centuries. It was at Sarnal that Akbar, with a small force, defeated the rebellions nobleman Ebrahim at considerable personal risk and put him to flight. The fairs

held on Mahashivratri (February) and Janmashtami (August) are attended by 10,000 persons.

40 Sarsa–V. P. (Taluka Anand), P. 9,427, 22°–33′ N; 73°–41′ E.

It is three miles from Navli railway station and connected with Umreth and Vasad by bus. It is a prosperous and progressive village, said to have been settled in V.S. 1272. The chief agricultural products are food grains and tobacco. There are about 13 tobacco curing concerns, two cotton ginning factories, a primary health centre and a high school. The Karunasagar Maharaj temple built in the forties to comemorate the founder of Kaivalya Sampraday in 1829, is a popular shrine for the neighbouring villages. It runs a Sanskrit *Pathshala* and a library. A large fair, held on Janmashtami (August) is attended by over 20,000 persons.

41 Sevalia–(Taluka Thasra), P. 2,800

It is a hamlet of the town of Pali (V.P.), P. 8,100 and a station on the Anand-Godhra broad-gauge railway line about 8 miles from Thasra, and connected by bus with Balasinor, Dakor and Godhra. It has grown into importance owing to the construction in 1951 of a cement factory by the Associated Cement Company Ltd., which has provided electric street lights, water-works, a school and a dispensary to the town. There are also an ice factory and seven establishments where the black stone found near the town is crushed into metal and exported to Ahmedabad district. There is a primary heath centre.

42 Shili–V. P. (Taluka Anand), P. 5,618, 22°–36′ N; 73°–9′ E.

It is situated on the fringe of the ravines of the river Mahi five miles from Od Road, on the Anand-Godhra broad-gauge railway line. Nearly on the bank of the river is the well-known and ancient temple of Siddhanath Mahadev with a splendid reservoir built about 1824 by the widow of an officer in the Gaekwad's service, built as a resting place to pilgrims to Dakor from Baroda. Extensive ruins are found on the east of the village. The Manba Mataji fair held on Bhadrapad-Sud 8 (September) in honour of a saintly Rajput lady is attended by 5,000 persons.

43 Sinhuj–V. P. (Taluka Mehmedabad), P. 5,841. 22°–50′ N; 72°–53′ E.

Sinhuj or Sinhaj is 4 miles away from Mahudha on the Mahudha-Mehmedabad bus route. It is believed that it was once a prosperous town and that the area called 'Shaher Vat' might be a main road of the town then in existence. Remains of foundations are found in nearby fields. Shamal Bhatt, the well-known poet of Gujarat, lived at Sinhuj in the temple of Vireshwar Mahadev, where most of his poetry was written. Sinhuj was the first to have a Gram Panchayat and a Nyaya Panchayat in the taluka.

44 Sojitra–M. (Taluka Petlad) P. 12,046, 22°–32' N; 72°–53' E.

It is a station on the Bhadran-Nadiad narrow gauge railway line, seven miles north-west of Petlad. State Transport buses connect it with Ahmedabad, Nadiad, Petlad, etc. In ancient times, the important highway from Cambay to the central India passed through Sojitra which was then an important trade centre of central Gujarat. Yule indentifies Sojitra with Sazantion mentioned by Ptolemy (C.130 A.D.). According to one view it dates back to the 2nd century B.C. A stone head belonging to the 1st or 2nd century was found from a *kund* while Kshatrapa coins of Rudradaman I, Rudrasinh I and Rudrasen were reported from the vicinity of Sojitra. In ancient times, the town was well-known for the manufacture of indigo and textiles which were exported from Cambay. Other important products were chariots and carts, swords, leather jars and ivory bangles. The Sojitra locks were reputed for their strength. At present, handloom weaving is the only important craft. Sojitra has four Jain temples with rich collections of old manuscripts, and idols as old as the 11th century. Since the 14th century, it has been one of the three seats of Bhattarkas of the Digambara sect of the Jains in Gujarat. Sojitra is an important centre of the Patidar community of Charotar. There are a high school and several co-operative societies and

Yuvak Mandals. The town is equipped with water-works. The Khojai Mata, a shrine which dates back to V.S. 1622, is the site of a fair on Bhadrapad Sud 14 (September) attended by 10,000 persons.

45 Telnar–V. P. (Taluka, Kapadvanj), P. 1,711, 23°–7′ N; 73°–2′ E.

It is seven miles north-west of Kapadvanj. It has an ancient temple of Kedareshwar Mahadev on a beautiful spot on the bank of the river Vatrak, where a fair is held on Janmashtami day, i.e., Shravan Vad 8 (August).

46. Thamna G. P. (Taluka Anand), P. 3,065, 22°–43′ N; 73°–5′ E.

Situated on the river Shedhi, three miles from Umreth railway station, is said to have been a flourishing town named Stambhanak or Stambhanakpur, before the 13th century A.D. It took a very active part in the struggle for Independence and did without a *mukhi* for 15 years. Tobacco is its main produce. The village is supplied electricity from the grid system.

47 Thasra–V. P. P. 8,335, 22° 48′ N; 73°–10′ E.

It is a taluka headquarters and a station on the Anand–Godhra broad-gauge railway line, five miles from Dakor, and connected with several towns by State Transport bus services *via* Dakor and Sevalia. Paddy and tobacco are its main produce. There are five tobacco curing establishments and three cotton gins. *Ghee* is an important item of trade.

48 Umreth–M. (Taluka Anand), P. 21,244, 22°–42′ N; 73°–7′ E.

It is a station on the Anand-Godhra broad-gauge railway line, fourteen miles from Anand, connected by a cement concrete road and State Transport bus services with Nadiad, Dakor, etc. It is a very old town, stated to be the centre of Jainism in the past. Around the town there still exist remains of the fort walls with gateways. Umreth is described as the "Golden Wing" in Mirat-e-Ahmedi. Food grains, tobacco and *ghee* are the main items of its trade. There are three oil and pulse mills, a handloom factory, several co-operative societies and a regulated market yard for agricultural produce. The town is equipped with water-works, electricity, public telephone, and has civil and criminal courts. It is one of the biggest centres of the Khedaval Brahmin community which has produced many well-known public servants.

49 Utkantheshwer (Taluka Kapadvanj)

The well-known and ancient temple of Utkantheshwer Mahadev is situated on the bank of the river Vatrak in Vaghijipur V. P., (P. 578), 8 miles from Kapadvanj, with which it is connected by bus *via* Atarsumba. It is said that the sage Jabal who had his *ashram* at this place, had by his austerities, caused God Shiv to manifest himself for *darshan* by other sages visiting him. The temple is situated on a hillock. Other important shrines in the vicinity are Kamnath Mahadev, Khernath Mahadev and Kedareshwer. The Yoga-shram, founded in 1941 by a Jain *sadhu* on the riverside, maintains a *gaushala*, an *atithigriha* and a library of religious and philosophical books. Besides Jain *sadhus* and *sadhvis*, people of other creeds also take advantage of the *ashram*. There are several *dharmashalas* belonging to different communities and buildings built by private persons. Due to its congenial and dry climate and scenic beauty the place has grown into a health resort. There is also a Vanprasth Ashram, where the aged and infirm are provided board and lodging on payment of nominal charges.

The fair held on the Mahashivratri, Magh Vad 14 (February), is attended by 27,000 persons. Smaller congregations of 5,000 persons are held on Janmashtami and Shravan Vad *amavasya* (August).

50 Uttarsanda–V. P. (Taluka Nadiad), P. 6,935, 22°–40′ N; 72°–54′ E.

It is a station on the Bombay-Ahmedabad broad-gauge line of the Western Railway, situated on National Highway No. 8 on which State Transport bus services ply. Under a grant given by the British the village remained with the family of Sheth Sundarji from 1826 to 1882 A.D.

Tobacco being the main produce, has several establishments for processing it. A modern and well equipped hospital has been built besides one general hospital and maternity home. There is also an Ayurvedic medical college. The village has electricity and water works. A fair held at the Sadansha Pir Durgah on Rajab 10 is attended by 3,000 persons.

51 Vadtal–V. P. (Taluka Nadiad), P. 4,590, 22°–N; 72°–62′ E.

It is served by a broad-gauge railway branching off the Bombay-Ahmedabad main line at Boriavi $3\frac{3}{4}$ miles away. It is also connected with Nadiad by State Transport bus service.

Vadtal is famous for being the principal seat of the Vaishnavite sect called Swaminarayan, established in 1804 A.D. by Sahajanand Swami, who was born in a Brahmin family in Chhapaia near Ayodhya, Uttar Pradesh, on Chaitra Sud 9, V.S. 1837 (A.D. 1781). After extensive pilgrimages he came to Loj in the former Junagadh State where he made Swami Ramanand his *guru*. Having been proclaimed an *Acharya* or the head of his followers in 1801, he made Gujarat and Saurashtra the field of his religious reforms which were propagated by him vigourously and energetically. "An ascetic in life and a fierce denouncer of immorality especially among the priesthood, was Sahajanand made many enemies and for a while subjected to persecution. But his sufferings, kindling enthusiasm among his followers, added to his power". The times were of great political turmoil, but the influence of Sahajanand Swami sobered the turbulent Kolis and Kathis to a large extent weaning them away from lawlessness and outlawry. He was a practical idealist and not merely a philosopher and by methodical organisation, he put his sect on a sound footing in Gujarat and Saurashtra. Because of his winning personality, saintly behaviour and spiritual attainments, he was worshipped as an incarnation of God in his very life time. He has also been credited with several miracles and was respected by leading personalities of the times, like the Gaekwad of Baroda and the Governor of Bombay. His social reforms include negation of animal sacrifice, female infanticides, *Sati* and other social evils. His preaching had such a wide appeal that even Khojas and Jains became his disciples. However, he had retained the *Varnashrama* arrangement in his sect. He died at Gadhada (District Bhavnagar) in V.S. 1886 (on 28th October, 1829). At all the principal places of pilgrimage of the sect, as also at the places visited and occupied by him, articles used and worn by him have been preserved with great care and devotion. Special festivals called "Samaiyas" were instituted when the devotees get together at the principal shrines.

The temple at Vadtal, an imposing structure built in 1824 during the life time of the Swami at the cost of Rs. 75,000, is situated in a large square surrounded by a raw of buildings with a gateway in the middle. Dedcated to Laxmi-Narayan, it also has the idols of Radha-Krishna, Sahajanand Swami and his parents. Sadhus and devotees contributed voluntary labour in its construction, the Swami himself having once actively participated in it. Though he stayed at Gadhada in Bhavnagar district, the Swami used to visit Vadtal twice every year on the occasion of Prabhodhini Ekadashi (Kartik Sud 11) and Ramnavmi (Chaitra Sud 9), the two major festivals of the sect. Around the temple are *dharmashalas* for pilgrims, the Swami's house, where, in the upper storey, the largest collection of various articles used by him is preserved, the quarters of the priesthood, a large prayer and assembly hall, the quarters of the Acharya or the spiritual head of the sect, outhouses, stables, granaries, etc. In the north-west there is a large garden and the Gomti tank. Several other places in Vadtal associated with the Swami are considered holy by the devotees. The temple runs a charitable Ayurvedic dispensary and a Sanskrit *Pathshala*.

Vadtal is equipped with electricity and water-works. There is a Milk Producers' Co-operative Society. Five large fairs are held every year. The largest, held on Jal-jhilani Ekadashi, i.e.,

Bhadrapad Sud 11 (September), is attended by 35,000 persons. The one on Chaitra Sud 15 (April) lasts for eight days while that on Kartik Sud 15, (November) for six days. They attract 10,000 and 18,000 persons respectively. Other fairs held on Shravan Sud 15 and Janmashtami (August), attract about 10,000 persons each.

52 Vallabh Vidyanagar–V. P. (Taluka Anand), P. 6,782

It is a station on the Anand-Cambay broad-gauge section of the Western Railway 3¾ miles from Anand and connected with it by an asphalt road on which bus services ply.

It is a new township, which has grown up during the past two decades and is well-known for the rural residential university established with the object of bringing to villages prosperity, culture and character and offering solutions to their numerous problems. With these aims in view, the Charutar Vidya Mandal was established in 1945. Plans were drawn up to pool and develop the lands donated by people of Karamsad, the native place of Sardar Vallabhbhai Patel and the neighbouring villages and work was started with the approval and blessings of Mahatma Gandhiji and the Sardar in 1947. Educational institutions like arts, science, commerce and engineering colleges and a multipurpose technical school sprang up rapidly. Finally the Sardar Vallabhbhai Vidyapeeth came into being in 1955. Besides the colleges at Vidyanagar, the Agriculture college at Anand was affiliated to this university. The Jaykrishna Indraji Verma botanical museum and an archaeological museum facilitate study and research. The university campus consists of about 500 acres of land with various colleges, laboratories, farms, hostels and residential quarters for teaching and technical staff built according to a planned lay-out. Pursuant to the object of bringing modern technical development to villages and to equip them with modern facilities and technical methods, the Charotar Gramoddhar Sahakari Mandali Ltd., was established in 1945. It runs a foundary, workshop, saw-mill cable factory, printing press, and manufactures tiles, hume-pipes and pre-stressed cement poles. It has also undertaken experiments to decentralise textile and cement industries. Manufacture of small machines for village and cottage industries and of products like *sigris*, soap, ink, *kum-kum*, *phenyl*, is also undertaken. The society also offers engineering and laboratory services like preparing and executing plans and analysis of soil, stone, water, etc. Thus these three institutions carry further the experiment of making villages self-supporting and equipping them with modern facilities for comfortable living and general uplift. The township is equipped with electricity, piped-water supply and telegraph and telephone offices.

53 Vanakbori–(Taluka Balasinor), P. 354

It is a hamlet of village Janod 14 miles away from Sevalia station on Anand–Godhra railway line. It is the site selected for the construction of a pick-up weir across the river Mahi, as a part of the Mahi project, the main dam of which is located at Kadana in Panchmahals district. The project under which the main canal will extend about 46 miles will irrigate about 4.6 lakh acres of land. The main canal of 36 miles has already been completed and the remaining work will be completed soon. The project will benefit lands of Anand, Nadiad, Borsad and Matar talukas of Kaira district. The total cost of the project, when completed is estimated to be Rs. 2,270.37 lakhs.

54 Vasad–V. P. (Taluka Anand), P. 5,541, 22°–27′ N; 73°–4′ E.

It is a junction station on the broad-gauge railway nine miles south-east of Anand, from wnere a line branches off to Kathana. It is also connected with Borsad, Baroda, etc., by bus. It is situated on the bank of the river Mahi over which bridges for the railway and the national highway have been constructed at this place. On account of its width, the river is called Mahisagar. Vasad is famous for pulses which are exported to many parts of the country. There are several establishments for curing tobacco, another impor-

tant product. Vasad is a picnic spot and a place of pilgrimage for people who come to bathe in the river. A research centre established at Vasad by the Government of India has been working on the problem of soil erosion and land reclamation in Gujarat ravines. Its experiments have yielded successful results. There is a high school at Vasad. Fairs held on Chaitra Sud 15 (April) and Janmashtami (August) near the Kashi Viswanath temple on the riverside are attended by about 5,000 persons.

56 Vaso–M. (Taluka Nadiad), P. 9,407, 22° -40′ N; 72° -45′ E.

It is a station on the Nadiad-Bhadran narrow-gauge railway line *eight* miles from Nadiad, with which it is also connected by State Transport bus services. It is said to have been established in V.S. 1224 and named after Vasodhari Mata enshrined near the village. She was the family goddess of King Mordhvaj of Kaira. Though small in size, the town is known for possessing modern amenities such as public libraries, *vyayam mandal* for boys and girls, public garden, high schools for boys and girls, a hospital, maternity home, veterinary dispensary, various co-operative societies and a co-operative bank. The residents of the town are well educated and there are several institutions such as Kelavni Mandal, Yuwak Mandal, Mahila Mandal, Arogya Mandal, Gram Rakshak Dal, etc. Darbar Gopaldas and Motibhai Amin, famous in the public life of Gujarat, belonged to Vaso. The two *havelis* known as Bhau Saheb's *Havelis* contain some beautiful specimens of wood carving. Vaso is equipped with water-works and has about 200 handlooms and a few powerlooms.

57 Virpur–V. P. (Taluka Balasinor), P. 4,648, 23°=11′ N; 73° -29′ E.

Virpur or Birpur, is a small town standing on the river *Bavli*, about 8 miles west of Lunavada and connected with Balasinor by bus. This town dates from the 13th century and was taken from Barias by one Virbhadra Vaghela. It was conquered by Alauddin Khilji and later on given by Aurangzed to Sherkhan Babi in Inam. Near the town is the *dargah* of Daryaisha, a Muslim saint said to be a direct descendant from Abbas, the uncle of the Prophet. His real name was Mirza Muhammad. He looked after the administration of Virpur after the conquest of Alauddin. The *dargah*, a picturesque building with "windows of quaint open tracery" is the chief attraction in the village. There are the office of the Extra Aval Karkun under Mamlatdar of Balasinor and a primary health centre. There is an oil mill. Teak wood, bamboo and coal constitute the principal forest produce.

A fair held every year at the *dargah* of Daryaisha Pir on the night of Rabbi-us-Sani 10–11 is attended by about 5,000 persons. when miracles are said to be seen. The Janmashtami fair at the temple of Jharmar Mata on a hillock attracts 2,000 persons.

PART II

1 CENSUS TABLES

2 OFFICIAL STATISTICS

A-GENERAL POPULATION TABLES

Out of 4 tables of A Series compiled at this Census, Tables A-I, A-III and A-IV giving area, houses and population, classification of villages and towns have been reproduced in the District Handbook. They are the same as those given in 1951. The most distinguishing features, however, are the various appendices and sub-appendices giving details of (a) 1951 territorial units constituting the present set-up of the district showing changes which have taken place during the decade, (b) villages with a population of 5,000 and over and towns with a population under 5,000, (c) houseless and institutional population, (d) 1951 population adjusted to 1961 administrative units, (e) new towns added in 1961, (f) towns in 1951 declassified in 1961 and (g) towns with their area and jurisdiction.

A-I—AREA, HOUSES AND POPULATION

This table is more elaborate than that of 1951 as it gives in addition to area, houses and population, population per sq. mile, number of inhabited and uninhabited villages and number of towns. The data is given down to taluka/mahal with break-up for Total/Rural/Urban.

Brief Account of Changes in Area of the District from 1901 to 1961

Numerous changes have taken place since Independence in the areas of the districts, though the boundaries of various units comprised therein practically remained unchanged between 1901 and 1941. Three principal stages in which these changes have come about during the Post-Independence period are : (i) those that came in the wake of Independence after 1947; (ii) those that took place on the Reorganisation of States in 1956 and (iii) those that resulted from the bifurcation of the bilingual Bombay State in 1960.

Even after reorganisation in 1956, several territorial changes were effected in 1959, the details of which have been given in sub-appendix 2 to Appendix 1 to Table A-I alongwith the relevant notifications.

Rural and Urban Population

During the past censuses there was no uniformity in the criteria prescribed for distinguishing urban areas from the rural. The definition of 'town', therefore, varied from State to State and the places were treated as towns if, in the opinion of the State Government or the Superintendent of Census Operations, they were found to possess urban characteristics. It included all municipalities, cantonments, civil lines and all places with more than 5,000 population which, it was decided, to treat as towns on the ground that they possessed urban characteristics. This definition of 'town' has remained substantially unchanged since 1891. To the characteristics aforementioned, Baroda State, which has merged into Bombay State in 1949 and now forms part of the newly formed Gujarat State added one more according to which all the headquarters of talukas were treated as towns. In view, however, of the increasing importance of studying urbanisation in all its varied aspects, the Registrar General, at the very outset of 1961 Census, emphasised the need for a uniform treatment by strictly defining the concept of 'town'.

Town:

'Town' has been defined as a place having a municipality or a cantonment or a place with a population of 5,000 and over if 75 per cent of its male population is dependent on non-agricultural pursuits. These tests were applied by the Collectors who furnished lists of places to be treated as towns in 1961, which were also got approved by the State Government and the Registrar General.

As against 38 places treated as towns in 1951, 17 qualify to be treated as urban according to the test prescribed by the Census of 1961. The loss of 21 is accounted for by declassification of 23 towns as villages as shown in statement A and promotion of 2 villages as towns as shown in statement B.

STATEMENT A

Urban areas of class IV, V&VI of 1951 eliminated in 1961 with population of 1951 and 1961

Class		Name and number of towns	Population 1951	Population 1961
IV		3	34,908	39,033
	1	Chakalashi	12,748	16,729
	2	Ode	11,142	13,022
	3	Karamsad	11,018	9,282
V		17	113,883	135,672
	1	Samarkha	9,355	10,702
	2	Mahudha	9,127	10,783
	3	Anklav	8,144	9,894
	4	Sarsa	7,587	9,427
	5	Nar	7,498	8,354
	6	Boriavi	6,819	8,340
	7	Kathlal	6,796	8,602
	8	Chikhodra	6,324	7,728
	9	Valod	6,291	7,830
	10	Adas	6,188	6,789
	11	Thasra	6,201	8,335
	12	Bhalej	6,165	7,617
	13	Mehlav	5,941	6,902
	14	Tarapur	5,833	6,553
	15	Matar	5,283	6,521
	16	Napad-Vanto	5,184	5,524
	17	Pij	5,147	5,771
VI		3	9,923	11,308
	1	Birpur	3,998	4,648
	2	Napad-Talpad	3,511	3,960
	3	Attarsumba	2,414	2,700

STATEMENT B

New urban areas of class V listed in 1961 with their names and population in 1961

Class		Name and number of towns	1961 Population
V		2	14,882
	1	Pali	8,100
	2	Vallabh Vidyanagar	6,782

Village:

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distinct number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

Census House:

Owing to the diversity of local conditions it was not possible in the past to lay down a uniform definition of a 'Census House' common to all parts of the country. The definition adopted till the Census of 1941 had two-fold connotation which emphasised either (i) the structural aspect, i.e., building or house or (ii) the social aspect, i.e., family or household. The former was defined as the residence of one or more families having a separate and independent entrance from the common way. But the social aspect was emphasised by defining a 'Household' as the home of the composite family with its resident dependents and servants. From 1881–1941, the Census Superintendents adopted the one or the other definition according to their convenience. A clear distinction was, however, drawn between a 'Census House' and a 'Census Household' in 1951 which gave a uniform meaning to the term 'Census House' or the 'Census Household' or the 'Family Unit'. The 'Census House' was defined as, 'a dwelling with a separate main entrance' and the 'Census Household' as 'all persons who live together in the same house and have a common mess'.

Though the definition of a 'Census House' introduced in 1951 was continued during the Census of 1961, it differs from that adopted by the Census of 1961 in that the latter is broad-based to include non-dwellings also. The house-list is thus an inventory of all structures or part of structures with a separate entrance.

The following definitions of the term 'Census House' given in the instructions for filing the house-list will clarify the position still further.

"A 'Census House' is a structure or a part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

A-III—VILLAGES CLASSIFIED BY POPULATION

This table classifies inhabited villages only by size of population. After giving the total number of inhabited villages and rural population for every taluka/mahal, it shows the number of villages and population for the following seven categories, namely:—

(1) less than 200, (2) 200-499, (3) 500-999, (4) 1,000-1,999, (5) 2,000-4,999, (6) 5,000-9,999 and (7) 10,000 and above.

Table A-III of 1951 gives combined figures of inhabited towns and villages classified by population, while A-III of 1961 gives figures of villages only classified by population.

A-IV—TOWNS AND TOWN-GROUPS CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1941

This table gives statistics relating to the figures of population since 1941 showing the growth of each town from census to census. Percentage variation is given from decade to decade, not only for the towns, but also for town-groups, where one or more urban units form a compact urban area. The total population of the town-group along with that of its constituent urban units is given under the class into which the town-group has been classified. Separate figures have, likewise, been given for municipal and non-municipal areas such as port area, suburban area, military area, railway colony, cantonment, etc., where a town is a combination of two or more such units. The following are the six classes into which the towns are grouped in Table A-IV according to the size of population :

Class	Population	Class	Population
I	100,000 and above	IV	10,000 to 19,999
II	50,000 to 99,999	V	5,000 to 9,999
III	20,000 to 49,999	VI	Less than 5,000

The areas of towns in sq. miles and sq. kilometres are also given in the table for 1961.

The term 'town' as defined at the Census of 1961 and its uniform adoption all over the country on the basis of certain specified tests have been explained under 'Urban and Rural Population' in the note to Table A-I.

'Town-group'—This is a new variant of the urban population which has been introduced for the first time on the present occasion. Large cities or expanding towns bring within their orbits new satellite towns, industrial areas or settlements interspersed by small bits of rural areas. Such urban areas, not necessarily municipal, are taken to form town-groups with the main city or town as one of the constituents.

'City'—Places having population of 100,000 and over either individually or as a town-group have been classified as cities.

A-I—AREA, HOUSES AND POPULATION

	U	13.6	35.2	2,333	..	..	2	5,908	31,755	16,429	15,326

NOTE :-

1 Population per sq. mile under Column 4 has been worked out on the area figures given by the State Survey Department given in Column 3(a).

2 Under Column 4, population of those urban units, for which area figures are not available, is ignored for working out urban density. Rural density is worked out on the basis of rural population only though the area figures include areas of those urban units for which separate area figures are not available.

3 The sq. kilometres under Column 3(b) and density figures of urban areas of Taluka/Mahal and District under Column 4 are worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of the towns in the respective units. In addition to this, the figures relating to sq. kms. are further adjusted to make the Taluka/Mahal and District totals agree.

APPENDIEX I

As there are no territotriol changes in Kaira district since 1951, Appendix I to Table I is not given.

SUB-APPENDIX 1 TO APPENDIX I

AREA FOR 1951 AND 1961 FOR THOSE MUNICIPAL TOWNS WHICH HAVE UNDERGONE CHANGES IN AREA SINCE 1951 CENSUS

District	Municipal Town	Area in Sq. Miles		Remarks

* Separate area for constituents not available

B—ECONOMIC TABLES

This series is divided into two parts, viz., (i) General Economic Tables and (ii) Household Economic Tables. Economic Tables of the 1961 Census cover a very large field of data and are more elaborate than any of their predecessors. The most important point to remember about the economic tables is that during the past censuses, income or economic independence was the test applied for measuring the economy of the country. Before 1961, economic activity was interpreted in terms of categories like economically independent or economically dependent, semi-dependent, earning dependents or non-earning dependents. In 1951, the economic classification was confined to the eight livelihood classes with stress on income rather than work or economic activity of the individual. The most significant departure that the Census of 1961 has made is the emphasis laid on work, so that all people who work, including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance have also been included as workers. Even the non-workers have been distributed into eight-fold categories according to the activities pursued by them. This change in concept will help obtain a realistic picture of the economic activity of those important sections of household workers who were left out of account in the past.

The Household Economic Tables on the other hand are an entirely new feature of the 1961 Census. They are prepared from household schedules by mechanical tabulation on the basis of 20 per cent sample and give all possible data relating to the extent of land under cultivation, nature of household industry, period of work in household industry and the persons employed either as family workers or as hired labourers.

Industrial and Occupational Classification

Another noteworthy feature of the General Economic Tables is the systematic classification of industries and occupations. For, the one introduced in 1951 was, as truly pointed out by the Registrar General, neither a purely industrial nor occupational classification of the population but a combination of both. The National Classification of Industries and Occupations adopted by the Government of India and followed on the present occasion classifies the economic data into 9 divisions, 45 major groups and 343 minor groups of industries and 11 divisions, 75 groups and 331 families of occupations as against a conglomeration of 10 divisions and 88 sub-divisions of services in 1951.

The following statement gives the categories of industrial workers adopted in the current census and the eight livelihood classes of 1951.

1961 Industrial Categories		1951 Means of Livelihood	
		AGRICULTURAL CLASSES	
I	As Cultivators	I	Cultivators of land wholly or mainly owned and their dependents
II	As Agricultural Labourers	II	Cultivators of land wholly or mainly unowned and their dependents
III	In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	III	Cultivating Labourers and their dependents
IV	At Household Industry	IV	Non-cultivating owners of land, agricultural rent receivers and their dependents
V	In Manufacturing other than Household Industry		NON-AGRICULTURAL CLASSES
VI	In Construction		Persons (including dependents) who derive their principal means of livelihood from
VII	In Trade and Commerce	V	Production other than cultivation
VIII	In Transport, Storage and Communications	VI	Commerce
IX	In Other Services	VII	Transport
X	Non-workers	VIII	Other services and miscellaneous sources

In 1951 the non-workers who were known as non-working dependents were classified according to the occupation of the persons on whom they were dependent.

The non-working population is distributed separately for the first time according to eight types of activities, viz., (i) full time students or children attending school who do no other work, (ii) housewives and persons engaged in unpaid home duties, (iii) infants and other dependents including permanently disabled or old persons, (iv) retired persons, rentiers and others who are in receipt of income without doing any work, (v) beggars, vagrants and others of unspecified source of existence, (vi) convicts in jails or inmates of penal, mental or charitable institutions, (vii) persons not employed before but seeking employment for the first time and (viii) persons employed before but now out of employment and seeking employment.

Broadly speaking, workers of 1961 can be taken to be equal to self-supporting persons *plus* earning dependents of 1951 *minus* those in receipt of income without work such as rentiers, pensioners, beggars, etc.

In respect of persons who are workers, the information is available in Q. 8 Cultivators, Q. 9 Agricultural Labourers, Q. 10 Working at Household Industry and Q. 11 Working at Non-household Industry, Profession, Trade, Business or Service. Following extracts from the Manual of Instructions to Enumerators relating to Questions 8 to 12 on the basis of which the General Economic Tables are compiled will be helpful in appreciating the contents of these tables.

Q. 8 Working as Cultivator

A person is said to be working as cultivator if he/she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share. Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations which are shown in Q. 10 or Q. 11 as the case may be.

Q. 9 Working as Agricultural Labourer

A person is said to be working as Agricultural labourer when he works in another person's land only as a labourer without exercising any supervision or direction in cultivation for wages in cash, kind or share of produce. Also the labourer has no right or lease or contract on land on which he works, nor he is responsible for taking decision as to which crops to sow and when or taking the risks of cultivation.

Q. 10 Household Industry

A Household industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Household industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

Q. 11 Doing work other than 8, 9 or 10

Nature of work (occupation) is the exact function that a person performs in the economic sector in which he/she is engaged. This information was to be filled in Q. 10 (a) or 11(a) of the individual slips. The 'industry' means that sector of economic activity in which the earner is engaged, and the name of that industry was recorded according to the name of the principal article produced, serviced or repaired, Specific instructions were given to record replies to Q. 11(a) and 11(b) as under :—

(1) In the case of married or grown up women who do any of the work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cow dung cakes, grass, etc., in addition to the usual household duties, such duties were fully described and 'HW' written in brackets after the full description.

(2) If a person makes the articles he sells, he was treated as maker and seller of them.

(3) The vague terms like scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher, etc., were not written,

(4) For labourers accustomed to work on various jobs, 'general labourer' was mentioned.

(5) Machine Operator.

The kind of machine used with its recognised name was given.

(6) Shop-keepers, Retail Dealers, Shop Assistants.

If a person was mainly engaged in selling, 'Dealer' was written and if assisting 'Shop Assistant' or 'Salesman' was written. 'Wholesale' and 'Retail' was stated when the business was carried on in wholesale or in retail.

(7) The nature of transport was fully mentioned like air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by bullock, camel, etc.

(8) For a person engaged in Defence services, 'service of Central Government' was written.

(9) Domestic Services

In the case of any private servant, e.g., a cook or domestic servant, 'private or domestic servant' only was written. There was no industry in their case but in cases of persons employed in hotels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., were added.

Status of economically active persons

Economically active persons were divided into 4 classes (1) Employer (2) Employee (3) Single worker and (4) Family worker.

An 'employer' is that person who hires one or more persons in his work.

An 'employee' is that person who works under others for wages or salary in cash or kind.

A 'single worker' is that person who does his work without employing others except casually and without the help of the other members of the family except casually.

A 'family worker' is that person who is doing his work in own family without wages or salary in cash or kind.

Thus one more status of economically active person, viz., family worker is added against only first three in the previous census of 1951.

Q. 12 Activity, if not working

A person who is not working has been classified as non-worker. Non-workers are distributed separately according to eight types of activities already noticed above.

(i) General Economic Tables

There are in all 24 Economic Tables compiled in B-Series—16 General Economic Tables compiled from individual enumeration slips and 8 Household Economic Tables from household schedules on 20% sample basis. Out of the 16 General Economic Tables, the District Handbook reproduces the following 12.

B-I—Workers and Non-Workers classified by sex and broad age-groups

Table B-I is the basic economic table furnishing the total population and 9 industrial categories of workers and non-workers. The data is presented for the district with total/rural/urban break-up.

The classification of workers and non-workers by broad age-groups, viz., 0-14, 15-34, 35-59 and 60 and above, is the special feature of 1961 census as these age-groups correspond to the different stages of life which have a special significance as regards capacity to work, viz., children, young persons, middle aged persons and old persons.

TABLE B-III-A AND B—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

This table which corresponds to the Table D-VII of 1951 is given in two parts—A & B. Part-A relates to the urban areas and Part-B relates to rural areas. The data in Part-A are presented for the district and that in Part-B down to taluka/mahal for rural areas.

In 1951, only literate and educated persons were classified into eight educational standards by 8 livelihood classes. No classification of illiterate persons into 8 livelihood classes was given in 1951; whereas in this Table, nine categories of workers and also non-workers are given for illiterates as well as for literates.

Non-technical diplomas and degrees have this time been distinguished from technical diplomas and degrees and separate information given also for each technical degree.

TABLE B-IV—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK OTHER THAN CULTIVATION

This table corresponds to table B-III of 1951. It has been presented in three parts on the basis of the principal work of the persons. Part-A relates to persons at work in Household Industry, classified by branch of industry and class of workers (employee and others). Figures for the district are given for Divisions and Major groups for total/rural/urban and those for taluka/mahal for Divisions and rural areas only. Part-B pertains to persons at work in non-household industry, trade, business, profession or service, classified by branch of industry and class of workers (Employer, Employee, Single worker and Family worker). Figures for the district are given for Divisions and Major groups for total/urban and those for taluka/mahal figures for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the Villagewise List of Industrial Establishments. Part-C relates to persons at work at household as well as in non-household industry classified by branch of industry. Figures for the district are given for Divisions, Major groups and Minor groups with descriptions for total/urban and those for taluka/mahal for Divisions only and rural areas only.

Table B-III of 1951 furnished figures of self-supporting persons only whereas in this table all the persons who work including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance are included as workers. In 1951, there were three classes of workers, viz., Employer, Employee and Independent workers whereas in this table, workers are classified in four categories, viz., Employer, Employee, Single worker and Family worker, the definitions of which are already given before.

Appendix to Part-C shows in run on lines Minor Groups with the number of male and female workers separately for household industry and non-household industry in brackets having less than 1% of workers of the respective Division (0.5% for Divisions 2 & 3 combined) which are omitted from the table.

TABLE B-V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

This is a new table in which cross-tabulation of industry and occupation has been made for the first time. Figures for the district are given by Divisions, Groups and Families for total/urban and for taluka/mahal by Divisions only for rural areas.

Separate data are furnished for the persons working in household industry and other industrial categories as adopted in the Primary Census Abstract alongwith the Divisions, Groups and Families giving code numbers and actual description. The National Classification of occupation followed in this table is in conformity with international usuage.

Appendix to this table shows in run on lines, families with the number of male and female workers followed by industrial categories having less than 1% of workers of the respective Division (0.5% for Divisions 7 & 8 combined) which are omitted from the main table.

While applying quality checks, some occupations appeared to have been classified under inappropriate industrial categories vis-a-vis the occupations or the nature of work done by persons in economic sector of their activity. Such cases are listed in the annexure to the table, indicating the appropriate industrial category in which they deserve to be classified.

TABLE B-VII PART-A—PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS, (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY, (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

TABLE B-VII PART-B—INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

In this table figures are presented for the district for Divisions and Major groups with total/rural/urban break-up and those for taluka/mahal for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the Villagewise List of Industrial Establishments.

In a similar table B-II of 1951, there was cross-tabulation of self-supporting persons and earning dependents with reference to the secondary means of livelihood which was confined to 8 livelihood classes, while this table affords cross-tabulation between principal work in cultivation and household industry or *vice versa*.

Appendix to Table B-VII-A shows in run on lines Major Groups of household industry having secondary work, which are omitted from the table being less than 5% of major groups as principal work followed in each case by the number of industrial categories and number of males and females having secondary work separately for total/rural and urban population in brackets.

TABLE B-VIII PART-A—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN *URBAN AREAS ONLY*

TABLE B-VIII PART-B—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN *RURAL AREAS ONLY*

This is a new table prepared for the first time in 1961. It is in two parts. Part-A relates to urban areas and is presented for district. Part-B relates to rural areas and is presented down to taluka/mahal.

The classification of unemployed persons is shown separately for (i) those who are seeking employment for the first time and (ii) for those who were employed before but are now out of employment and seeking work. The age-groups given in the first case are quinquennial, viz., 15-19, 20-24, 25-29, 30-34 and 35 + modified in the second case as 15-19, 20-24, 25-34, 35-44, 45-59 and 60 + .

In Part-A relating to urban areas information for unemployed persons is furnished for all educational levels, and in Part-B for educational levels upto matriculation and above.

TABLE B-IX—PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

This is a new table introduced for the first time. The table is presented for district with total/rural/urban break-up and for taluka/mahal for rural areas only. It classifies non-working population into 8 types of activities based on the recommendation of the United Nations Organisation. They are :-

1 Full time students
2 Persons performing household duties without wages
3 Dependents, infants and disabled persons
4 Retired persons, rentiers or persons of independent means
5 Beggars, vagrants, etc.
6 Inmates of penal, mental and charitable institutions
7 Persons seeking employment for the first time
8 Persons employed before, but now out of employment and seeking work

(ii) HOUSEHOLD ECONOMIC TABLES

Out of the 8 Household Economic Tables compiled at this census, 4 tables which are reproduced in the District Handbook are :—

TABLE B-X—SAMPLE HOUSEHOLDS (i) ENGAGED NEITHER IN CULTIVATION NOR HOUSEHOLD INDUSTRY, (ii) ENGAGED EITHER IN CULTIVATION OR HOUSEHOLD INDUSTRY BUT NOT IN BOTH AND (iii) ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY

(Based on 20% Sample)

This table is prepared for total, rural and urban for the district and for rural areas only for taluka/mahal.

Cultivation includes ownership, tenancy cultivation and agricultural labour. Household industry has been defined in the general note above.

TABLE B-XI—SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN RURAL AND URBAN AREAS SEPARATELY

(Based on 20% Sample)

For rural areas the data has been given down to taluka/mahal while that for urban areas has been given only for the district as a whole.

This table gives very useful data on the size of holdings and affords a cross-tabulation of names of local rights over land (interest), viz., (a) owned or held from Government, (b) held from private persons or institutions, (c) partly held from Government and partly from private persons, and size of holding, viz., less than 1; 1.0-2.4; 2.5-4.9; 5.0-7.4; 7.5-9.9; 10.0-12.4; 12.5-14.9; 15.0-29.9; 30.0-49.9; 50 + and unspecified.

TABLE B-XII—SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION ONLY CLASSIFIED BY SIZE OF LAND CULTIVATED AND NUMBER OF FAMILY WORKERS AND HIRED WORKERS IN RURAL AND URBAN AREAS SEPARATELY

(Based on 20% Sample)

For rural areas the data has been given down to taluka/mahal and that for urban area for the district as a whole. The information for households that are engaged only in cultivation has been cross-tabulated by number of persons engaged in cultivation and each prescribed size class of holding. Working strength in cultivation is further separated into family workers and hired workers when more than 1 person is engaged in cultivation.

TABLE B-XVI—SAMPLE PRINCIPAL HOUSEHOLD INDUSTRY CLASSIFIED BY PERIOD OF WORKING AND TOTAL NUMBER OF WORKERS ENGAGED IN HOUSEHOLD INDUSTRY IN ALL AREAS

(Based on 20% Sample)

This table is presented for the district with total/rural/urban break-up. The data in respect of households engaged in household industry only or both in household industry and cultivation has been given separately with the Divisions and Major groups of household industry. The household industry has been classified according to the period of working viz.,

1-3 months, 4-6 months, 7-9 months, 10 months to one year. Under each duration period number of households, number of family workers and number of hired workers have also been given.

Appendix to this table shows in run on manner Major groups of household industry which are omitted from the table being less than 10% of the respective Division, giving the number of major groups, with or without cultivation, with period of working in abbreviation and the number of households in brackets separately for total, rural and urban.

TABLE B-XVII—SAMPLE HOUSEHOLDS CLASSIFIED BY (i) NUMBER OF MALE AND FEMALE MEMBERS BY SIZE OF HOUSEHOLDS AND (ii) ENGAGEMENT (a) NEITHER IN CULTIVATION NOR IN INDUSTRY (b) IN HOUSEHOLD INDUSTRY ONLY AND (c) IN CULTIVATION SUB-CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

The table is presented down to district and gives data for total/rural/urban. It is intendend to give family sizes distributed according to single member, small, medium, large and very large families. Though a 'Census Household' is not the same as a 'family' and also includes unrelated persons living with the family during the census count, the table will give a general idea of the sizes of families as the number of families having outsiders is quite insignificant.

The table gives such economic data as (i) Households engaged neither in cultivation nor household industry, (ii) Households engaged in household industry only and (iii) Households engaged in cultivation by size of holding groups with the break-up of sample households into (i) Single member, (ii) 2–3 members, (iii) 4-6 members, (iv) 7-9 members and (v) 10 members and over.

Since the table is based on 20% sample, total number of households and household population are given in the following statement :—

Total Number of Households and Household Population

District	Total Rural Urban	Total No. of households	Total household Population		
			Persons	Males	Females
1	2	3	4	5	6
Kaira	Total	389,507	1,977,540	1,039,720	937,820

TABLE B-IV PART-C

B-IV PART-C—INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR

Branch of Industi, Division, Major group & Minor group of I. S. I. C.			Total Workers		
			Total		
			Persons	Males	Females
		1	2	3	4
Minor Group	289	Manufacture of other wood and allied products not covered above	450	443	7
Major Group	29	Paper and Paper Products	163	142	21
	30	Printing and Publishing	395	392	3
	31	Leather and Leather Products	2,204	2,059	145
Minor Group	310	Currying, tanning and finishing of hides and skins and preparation of finished leather	544	460	84
	311	Manufacture of shoes and other leather footwear	1,324	1,271	53
Major Group	32	Rubber, Petroleum and Coal Products	141	140	1
	33	Chemicals and Chemical Products	450	421	29
	34-35	Non-metallic Mineral Products other than Petroleum and Coal	7,681	5,796	1,885
Minor Group	340	Manufacture of structural clay products such as bricks, tiles	1,775	1,172	603
	341	Manufacture of cement and cement products	1,240	1,218	22
	343	Manufacture of structural stone goods, stone dressing and stone crushing	497	323	174
	350	Manufacture of earthenware and earthen pottery	3,589	2,537	1,052
Major Group	36	Basic Metals and their Products except Machinery and Transport Equipment	2,734	2,588	146
Minor Group	368	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	329	326	3
	369	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	1,662	1,534	128
Major Group	37	Machinery (All kinds other than Transport) and Electrical Equipment	193	193	..
	38	Transport Equipment	708	704	4
	39	Miscellaneous Manufacturing Industries	5,439	5,208	231
Minor Group	393	Manufacture of jewellery, silverware and wares using gold and other precious metals	4,095	4,005	90
	399	Manufacture and repair work of goods not assignable to any other group	701	568	133
*Division 4 Construction			*6,398*	*5,474*	*924*
Major Group	40	Construction	6,398	5,474	924
Minor Group	400	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical & sanitary installations	3,598	3,433	165
	401	Construction and maintenance of roads, railways, bridges, tunnels	911	669	242
	403	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	1,880	1,363	517
*Division 5 Electricity, Gas, Water and Sanitary Services			*1,585*	*1,447*	*138*
Major Group	50	Electricity and Gas	921	906	15
Minor Group	500	Generation and transmission of electric energy	548	535	13
	501	Distribution of electric energy	366	364	2
Major Group	51	Water Supply and Sanitary Services	664	541	123
Minor Group	510	Collection, purification and distribution of water to domestic and industrial consumers	216	215	1
	511	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	448	326	122
*Division 6 Trade and Commerce			*31,441*	*29,818*	*1,623*
Major Group	60-63	Wholesale Trade	1,575	1,526	49
Minor Group	600	Wholesale trading in cereals and pulses	435	433	2
Major Group	64-68	Retail Trade	28,699	27,136	1,563
Minor Group	640	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	12,834	11,859	975
	644	Retail trading in tobacco, bidi, cigarettes and other tobacco products	1,872	1,854	18
	645	Retail trading in fuel such as coke, coal, firewood and kerosene	380	350	30
	646	Retail trading in food stuffs like sweetmeat condiments, cakes, biscuits,etc.	701	677	24
	647	Retail trading in animals	774	770	4
	650	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piecegoods of cotton, wool, silk and other textiles)	2,834	2,777	57

APPENDIX

Minor Groups having less than 1% of workers of the respective division and less than 0.5% in case of Minor Groups of division 2 & 3 only have been shown in this Appendix. The following abbreviations have been used:—'HI' for Household Industry, 'NHI' for Non-household Industry, 'M' for Males and 'F' for Females.

APPENDIX

Families having less than 1% of the workers of the respective divisions (less than 0.5% in case of Division 7-8 only) have been shown in this appendix. The following abbreviations have been used :—

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities
IV At Household Industry
V In Manufacturing other than Household Industry
VI In Construction
VII In Trade and Commerce
VIII In Transport, Storage and Communications
IX In Other Services

M=Males F=Females

APPENDIX

Major groups of household industry where persons having secondary work as cultivation or agricultural labour, are less than 5% of the persons having the major group as principal work, have been shown in this appendix. The following abbreviations have been used:—

I—As Cultivator
II—As Agricultural Labourer
M=Males
F=Females

00 Total I (M1), Urban I (M1); 02 Total I (F1), Urban I (F1); 27 Total I (M85, F7) II (M10,F2), Rural I (M81,F6) II (M10,F1), Urban I (M4,F1) II (F1); 33 Total I 1) II (F1), Rural II (F1), Urban I (M1).

APPENDIX

Major groups of the Household Industry which are less than 10 per cent of the respective divisions have not been shown in the main table which shows such divisions by an asterisk. Major groups thus dropped from the main table are given run on in this Appendix. The figure preceding the bracket represents the code number of the major group dropped from the Table. Alphabets given in brackets are abbreviations meant for different ranges of period of working in the Household Industries 'with' or 'without' cultivation as explained below. The numerical figure given after alphabet denotes the number of households in that particular range indicated by that alphabet.

Abbreviation			Class Range of Period of Working	Abbreviation			Class Range of Period of Working
		with				without	
A	means	cultivation	1 to 3 months	E	means	cultivation	1 to 3 months
B	,,	,,	4 to 6 ,,	F	,,	,,	4 to 6 ,,
C	,,	,,	7 to 9 ,,	G	,,	,,	7 to 9 ,,
D	,,	,,	10 months to 1 year	H	,,	,,	10 months to 1 year
X	,,	,,	Unspecified months	Y	,,	,,	Unspecified months

For example:—District Kaira–Rural–20 (B–6, C–1, E–1, X–1, Y–4)

Figure 20 stands for major group 20 relating to ' foodstuffs ', B–6 means that there are 6 households working in the class range of '4 to 6 months' in the household industry with cultivation. C–1 means that there is 1 household working in the class range of '7 to 9 months' in the household industry with cultivation and E–1 means that there is 1 household working in the class range of '1 to 3 months' in the household industry without cultivation; X–1 means that there is one household working for "unspecified-months" in the Household Industry with cultivation and Y–4 means that there are 4 households working for "unspecified months" in the household industry without cultivation in the 'foodstuffs' industry in the rural areas of Kaira District.

The list of major groups thus droopped from the main table of Kaira District is given below.

KAIRA DISTRICT

TOTAL

02 (G-1);03(G-1,H-5); 20 (A–6,B–11, C–8, D–12,X–3; E–13, F–25, G–17, H–62, Y–7); 22 (A–1,B–5, C–6, D–24, X–10; E–1, F–9, G–13, H–95, Y–24); 24(H–3,Y–1); 25 (H–4,Y–1); 26 (H–1); 29 (E–1, F–1, G–1, H–3); 30 (H–1); 31 (A–3, B–19, C–12, D–19, X–5; E–2, F–27, G–45, H–97, Y–28); 33 (E–1, F–1 H–5); 36 (A–1, B–18, C–6, D–22, X–1; E–1, F–21, G–23, H–85, Y–3); 37,(E–1); 38 (F–1, G–1, H–1); 39 (A–2, B–5, C–9, D–37, X–3; E–1, F–26, G–11, H–169, Y–21).

C—SOCIAL AND CULTURAL TABLES

This series contains 8 tables of which Table C-I has been prepared from Household Schedules, on the basis of 20 per cent sample. It gives information about composition of sample households according to marital status. All the other tables in this series are based on full count and give age, sex and education, separately for rural and urban areas, single year age returns, mother tongue in alphabetical order, religion and classification by literacy and industrial category of workers and non-workers among Scheduled Castes and Scheduled Tribes. All the tables of this series except Table C-VI have been reproduced in the District Census Handbook.

TABLE C-I—COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

The table is prepared from Part II Census Population Record of the Household Schedules for total, rural and urban areas of the district. A household means the entire groups of persons who commonly live together in the same census house and usually take their meals from a common mess. It thus includes outsiders residing with the family during enumeration. This table, therefore, gives the composition of a household by family and non-family members. Besides, the heads of the households and their spouses, other family members like married sons and other relations are given separately by sex and marital status.

TABLE C-II—AGE AND MARITAL STATUS

This table is presented for the district with rural/urban break-up while those for taluka/mahal for rural areas only. It corresponds to Table C-III of 1951 which was prepared on a 10% sample of the slips taken out at the time of initial stage of sorting, while this table is prepared on full count according to the quinquennial age-groups recommended by the United Nations Organisation. In Table C-III of 1951 there were 3 categories of marital status, viz., unmarried, married and Divorced/Separated, whereas in this table are given five categories of marital status, viz., (1) never married, (2) married, (3) widowed, (4) divorced/separated and (5) unspecified. In 1951, the information regarding widowed or divorced was given jointly, whereas these two types of marital status are compiled separately this time.

Columns 14 and 15 relating to unspecified status have been deleted from the table. Such persons are 2 males and 1 female returned from rural areas.

TABLE C-III—AGE, SEX AND EDUCATION

It corresponds to Table C-IV of 1951 which was prepared on 10% sample. This table is prepared on full count this time and is presented in two parts—A and B for the district. In Part-A broad educational levels upto matriculation and above are given for all areas. In Part-B educational levels are given in details with technical and non-technical diplomas, university degrees and technical degrees in urban areas only. In 1951, only, sum total of all literate and illiterate persons was given, whereas in 1961, educational levels for literate persons are given in details.

TABLE C-IV—SINGLE YEAR AGE RETURNS

The Table is presented for the district with total/rural/urban break-up.

It corresponds to Table C-V of 1951 Census which was prepared on 10% sample. This table has been prepared on full count in 1961. The age in years completed on 1st March, 1961 has been given but the infants who did not complete one year on 1-3-1961 have been shown under the age group "O".

TABLE C-V—MOTHER TONGUE

This table corresponds to Table D-I-(i) of 1951 in which languages and dialects as returned were shown in the descending order of number of speakers. This time all the languages as actually returned are arranged in the alphabetical order with population, persons, males, females, for total, rural and urban areas for the district and for rural areas for taluka/mahal.

'Mother tongue' is the language spoken in childhood by the person's mother to the person or the language spoken in the household.

TABLE C-VII–RELIGION

It is prepared separately for total, rural and urban areas of the district and for rural areas of talukas and mahals. This table corresponds to Table D-II of 1951, in which the figures of religions other than the eight main religions were grouped in the residuary category 'other religions', whereas in this table data are given for six main religions only viz., Budhist, Christian, Hindu, Jain, Muslim and Sikh and persons returned as professing other religions, sects and beliefs which could not be classified under any of the religions have been grouped under "Other Religions and Persuasions."

TABLE C-VIII–SCHEDULED CASTES AND SCHEDULED TRIBES

PART–A—CLASSIFICATION BY LITERACY AND INDUSTRIAL CATEGORY OF WORKERS AND NON-WORKERS AMONG SCHEDULED CASTES

PART–B—CLASSIFICATION BY LITERACY AND INDUSTRIAL CATEGORY OF WORKERS AND NON-WORKERS AMONG SCHEDULED TRIBES

This table is presented for the district with total/rural/urban break-up and for taluka/mahal for rural areas only.

In this table total population of Scheduled Castes/Scheduled Tribes and their distribution by nine industrial categories of workers and also non-workers adopted in the Primary Census Abstract are shown by literate and illiterate.

Part–A relates to Scheduled Castes and Part–B to Scheduled Tribes.

E—HOUSING TABLES

The present Housing Census is the first of its kind in the history of the Indian Census organized on a uniform basis throughout the country alongwith the population Census of 1961. In the past censuses, house-listing was purely an administrative arrangement. Only residential houses were numbered and listed with the name of the head of the household. However, during 1961 Census a comprehensive house-list for collecting detailed information regarding each census house and industrial establishment formed part of the statutory census schedules. The house-list form brought into use during the current Census has recorded data on housing such as type of houses, tenure status, material of wall and roof, number of rooms in a census household and of persons residing therein as well as essential data relating to establishments, workshops and factories, such as name of the establishment or proprietor, name of products, number of persons working and the kind of fuel or power, if machinery is used.

The following five housing tables have been compiled from the house-lists :—

E–I—Census Houses and the uses to which they are put

E–II—Tenure Status of Sample Census households living in Census houses used wholly or partly as dwelling

E–III—Census houses used as factories and workshops classified by industry, power and no power used and size of employment

E–IV—Distribution of Sample households living in Census houses used wholly or partly as dwelling by predominant material of wall and predominant material of roof

E–V—Sample households classified by number of members and by number of rooms occupied

Out of the five tables stated above, Tables E–I and E–III have been prepared on full count and Tables E–II, IV and V on the basis of 20 per cent sampled households. For the purposes of drawing the sample, the house-lists were arranged separately in the order of location code numbers in case of (i) rural areas of a taluka/mahal and (ii) urban areas other than towns with population of 50,000 and over for a district and (iii) for every town with a population of 50,000 and over. The samples were marked continuously for all the house-lists thus arranged and the households left over at the end of the house-list after marking the last sample were carried over to the next house-list for sample selection.

Tables E–I, E–II, E–IV and E–V are given in the District Census Handbook for the district, taluka and towns with a population of 50,000 and over. But the data regarding number of establishments contained in Table E–III are separately compiled down to village and given in the Villagewise List of Industrial Establishments.

The explanatory note on each of the tables is given below :-

TABLE E–I—CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

Table E–I prepared on full count gives figures of census houses separately for total, rural and urban areas of the district, talukas, cities and towns with population of 50,000 and over, classified into different categories according to the uses to which they are put. Those found vacant at the time of house-listing have also been shown separately as such. The following are the various types of houses into which occupied houses have been classified :—

Dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, hotels, hostels, sarais, dharamshalas, tourist homes and inspection houses, shops excluding eating houses, business houses and offices, factories registered

under the Factories Act and worksheds and workshops not so registered, schools and other educational institutions including training classes, coaching and shop classes, restaurants, sweetmeat shops and eating places, places of entertainment and community gathering (Panchayat Ghar), public health and medical institutions, hospitals, health centres, doctors' clinics, dispensaries, etc.

Others

Occupied census houses which do not fall in any of the above categories have been classed as 'Others'.

With a view to understand the significance of statistics incorporated in E Series of Tables, the concepts and definitions of the terms occuring in the table are given below :—

Census house

"A Census house is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

Census household

"A household is a group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so."

Shop

"A shop is a place where articles are sold for cash or for credit."

Workshop

"A workshop is a place where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold, and is not a factory registered under the Factories Act."

Following are some of the instances :—

Paper-making, shoe-making, tailoring, cycle-repairing, motor-servicing, halwai's shop, pottery-making, goldsmith, blacksmith, etc.

Factory

"A factory is a large workshop which has been registered under the Indian Factories Act."

Business houses

Business houses are those premises where transactions in money or other articles are taking place. Detailed explanation of all these will be found in the Introductory Chapter of the Report on Housing and Establishments.

TABLE E-II—TENURE STATUS OF SAMPLE CENSUS HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING

This table has been prepared on the basis of 20 per cent sample. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, and dwellings with other uses have been taken into account for the purpose of marking the samples. Shop-*cum*-dwellings and workshop-*cum*-dwellings are census houses which are partly used for residential or dwelling purposes and partly used as a shop or workshop. The total number of households given in column 4 of this table gives the total of such samples classified into the aforementioned four categories of dwellings, which have been further classified according to their tenure status, whether owned or rented, for the district, talukas and towns with population of 50,000 or more as also for total/rural/urban.

TABLE E–IV—DISTRIBUTION OF SAMPLE HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING BY PREDOMINANT MATERIAL OF WALL AND PREDOMINANT MATERIAL OF ROOF

This table has been prepared on 20 per cent sample basis. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the sample. The total number of houses given in column 3 of this table gives the totals of all such sampled households. The material out of which most of the walls are made or where a house consists of separate structures, each of different materials, the material out of which the walls of the main bedrooms are made has been entered. The wall material have been classified into the following nine categories :—

(1) Grass, leaves, reeds or bamboo
(2) Timber
(3) Mud
(4) Unburnt bricks
(5) Burnt bricks
(6) C. I. Sheets or other metal sheets
(7) Stone
(8) Cement concrete
(9) All other material

The material out of which most of the outer roof exposed to the weather and not the ceiling is made, i. e., tiles, thatch, corrugated iron, zinc or asbestos cement sheets or concrete, etc., or in the case of multi-storeyed building, the material out of which the intermediate floor or floors has been made, have been entered and classified into the following seven categories :—

(1) Grass, leaves, reeds, thatch, wood or bamboo
(2) Tiles, slate, shingle
(3) Corrugated iron, zinc or other metal sheets
(4) Asbestos cement sheets
(5) Brick and lime
(6) Concrete and stone slabs
(7) All other material

This table has been prepared for the district, talukas and cities and towns with population of 50,000 or more, as also for total/rural/urban.

TABLE E–V—SAMPLE HOUSEHOLDS CLASSIFIED BY NUMBER OF MEMBERS AND BY NUMBER OF ROOMS OCCUPIED

This table has been prepared on 20 per cent sample basis. Census Households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the samples. The figures given in Column 3 of this table are the totals of all such sampled households. The sex break-up of the total number of members occupying such sampled households as also the total number of rooms in these households are shown separately. All the sampled households have been further classified into the following six categories :—

Households with

(i) no regular room
(ii) one room
(iii) two rooms
(iv) three rooms
(v) four rooms
(vi) five rooms or more

The classification of households into the above categories gives not only the number of households in each category, but also the number of occupants by sex. The units for which this table has been compiled are district, talukas and cities and towns with population of 50,000 or more, as also total/rural/urban.

SCT—SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

No special tables were prepared for Scheduled Castes and Scheduled Tribes in 1951. The only information that Table D-III of 1951 furnished was the aggregate strength of Scheduled Castes and Tribes for the district and certain arbitrary groups of talukas. In view, however, of the special safeguards provided for these classes under the Constitution, it was felt that a more detailed tabulation of the census data will furnish the basis necessary for the evaluation of the results of the various schemes implemented by the State under the Five Year Plans as also for the formulation of new ones. Special tables for Scheduled Castes and Scheduled Tribes have, therefore, been devised and presented in a separate series called SCT/SC/ST series.

The table reproduced from this series is SCT-I-Parts A & B, giving industrial classification of persons at work and non-workers by sex for Scheduled Castes and Scheduled Tribes. Separate figures of Scheduled Castes and Scheduled Tribes have also been given for each village in the Village Directory.

Total population of Scheduled Castes and Scheduled Tribes for taluka/mahal with total/rural/urban break-up is given in Statements A and B.

SCT-I PART-A—INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES

Sl. No.	Name of Scheduled Caste	Total			Total Workers		WORKERS I As Cultivator		II As Agricultural labourer		III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting, Plantations, Orchards and Allied activities		IV At Household Industry		V In Manufacturing other than household Industry

VILLAGE-WISE LIST OF INDUSTRIAL ESTABLISHMENTS

This table gives important information about the total number of industrial establishments arranged in ascending order of minor groups of industries. It is compiled from the house-lists and presented in run on manner. Under the name of the district are arranged minor groups of industries showing total number of industrial establishments within brackets next to each minor group separately for total, rural and urban. The figures for taluka/mahal are likewise arranged separately for total/rural/urban. Then follows a list of villages in the order of the location code number given in the Village Directory, showing against each village minor group or groups of industries found in the village with the number of establishments shown within brackets against each minor group. Figures for towns are also shown separately in the same manner.

Industrial establishments have been classified according to the minor groups of industries given in the Standard Industrial Classification adopted by the Government of India reproduced in the Annexure. This will enable the reader to identify the industry to which a particular minor group relates.

ANNEXURE

Standard Industrial Classification

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 0 Agriculture, livestock, forestry, fishing and hunting	
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	Division 2&3 Manufacturing	
20	*Foodstuffs*	
	Production of rice, atta, flour, etc., by milling dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3 Manufacturing–contd.	
21	*Beverages–contd.*	
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	*Tobacco Products*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	*Textile–Cotton*	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile–Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	*Textile–Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile–Silk*	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266

ANNEXURE–*contd.*

Standard Industrial Classification–*contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3 Manufacturing–contd.	
27	*Textile–Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	*Manufacture of Wood and Wooden Products*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	*Paper and Paper Products*	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
	Division 2&3 Manufacturing–contd.	
30	*Printing and Publishing*	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber, Petroleum and Coal Products*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Productions of petroleum, kersosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	*Chemicals and Chemical Products*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338

ANNEXURE–*concld.*

Standard Industrial Classification–*concld.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3 Manufacturing–contd.	
33	*Chemicals and Chemical Products–contd.*	
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34	*Non-metallic Mineral Products other than Petroleum and Coal*	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	369

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3 Manufacturing–concld.	
37	*Machinery (All kinds other than Transport) and Electrical equipment*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	*Transport Equipment*	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand-drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399

LIST OF RURAL CRAFTS AND NUMBER OF PERSONS EMPLOYED IN PRODUCTION

The handicraft table is a new feature introduced in the District Census Handbook, in 1961 Census.

A detailed handicraft survey has been undertaken as a part of the censal programme. In States like Gujarat where the survey was conducted for selected crafts in selected centres, and not in each and every village, this handicraft table was to be compiled from the house-lists or the village notes. Accordingly, the information for this table was extracted from the house-lists adopting a 4 digit code for household industries circulated by Registrar General, India. The definition of household industry presented a problem, which was solved by including, on an adhoc basis, household industries having less than 5 workers for this purpose.

The table shows the number of villages/towns in which particular crafts are practised and number of persons engaged therein. The data are compiled separately for the rural and urban areas of each taluka/mahal, for each city or town in the district and consolidated for rural and urban areas of the district. Where there is only one city/town in a taluka/mahal, the data for the urban areas are given for the city/town as they are same for taluka/mahal.

URBAN

LIST OF RURAL CRAFTS AND NUMBER OF PERSONS EMPLOYED IN PRODUCTION

Major/Minor Group Industrial Code No.	Name of Craft	No. of Towns	No. of persons employed in production
1	2	3	4
	KAIRA DISTRICT*

OFFICIAL STATISTICS

LIST OF TABLES ON OFFICIAL STATISTICS

		Pages
	RAINFALL AND TEMPERATURE :	
	1.1 Maximum and Minimum Temperature 1956-1960 at Headquarters Station, Kaira	192
	1.2 Monthly Rainfall, 1952-1956 and 1958 at Headquarters Station, Kaira	192
2	VITAL STATISTICS :	
	2.1 Birth and Death Rate based on Mid-year Population Estimates	193
	2.2 Deaths from selected Causes, 1951, 1956 and 1960	194
3	AGRICULTURE :	
	3.1 Land Utilization, 1956-57 and 1960-61	194
	3.2 Area and Outturn of Principal Crops, 1950-51 and 1960-61	195–196
	3.3 Irrigation Potential and Utilization	197
	3.4 Area irrigated by Sources, 1950-51, 1955-56 and 1960-61	198
	3.5 Area irrigated by Crops, 1950-51, 1955-56 and 1960-61	198
	3.6 Progress under Agricultural Extension in Various Development Blocks upto 31-3-1961	199
4	LIVESTOCK :	
	4.1 Livestock and Agricultural Implements 1951, 1956 and 1961	200
5	CO-OPERATION :	
	5.1 Number, Membership and Financial Position of Co-operative Banks and Societies, 1960-61	201
6	FISHERIES :	
	6.1 Fishing Centres, Landing Places and number of fishing Boats according to size as on, 31-3-1961	201
7	REGISTERED FACTORIES :	
	7.1 Number and Types of Registered Factories showing Average Employment, 1961	202
8	ELECTRICITY :	
	8.1 Installed Capacity of Electricity, 1950-51, 1955-56 and 1960-61	202
	8.2 Consumption of Electricity according to purpose, 1950-51, 1955-56 and 1960-61	202
9	MEDICAL AND PUBLIC HEALTH :	
	9.1 Number of Hospitals, Dispensaries and Patients trated in, 1951, 1956 and 1961	203
	9.2 List of Hospitals and dispensaries, 1961	203
	9.3 Public Health Activities, 1960-61	204
10	EDUCATION :	
	10.1 Schools, Scholars and Teachers in Primary Schools in Rural Areas of Kaira District, 1960-61	204
	10.2 Literacy and Education in Rural Areas of Kaira District, 1960-61	205
	10.3 Number and Type of Educational Institutions, Number of Pupils and Teachers, 1950-51, 1955-56 and 1960-61	205
	10.4 Directory of High Schools and Colleges as on 31-3-1961	206
11	ADMINISTRATION :	
	(a) Police and Crimes :	
	11.1 Strength of Police, 1960-61	207
	11.2 Proportion of Area, Population and Cognizable Offences per Police, 1960-61	207
	11.3 Criminal Justice, Offences reported, Persons tried, convicted or acquitted for selected Offences, 1960-61	208
	(b) Jails :	
	11.4 Jails, 1951, 1956 and 1961	208
	(c) Registration :	
	11.5 Instruments registered and Value of Property transferred, 1951, 1956 and 1961	209-210
12	PLACES OF PUBLIC ENTERTAINMENT, PRESSES AND JOURNALS :	
	12.1 Newspapers published in Different Languages, 1950-51, 1955-56 and 1960-61	211
	12.2 Printing Presses, 1951, 1956 and 1961	211
	12.3 Cinema Theatres, 1960-61	211
13	TRANSPORT AND COMMUNICATIONS :	
	13.1 Railway Mileages and Names of Railway Stations, 1960-61	212
	13.2 Road Mileages by Type of Surface and Category of Road, 1950-51, 1955-56 and 1960-61	213
	13.3 Tonnage of import and export cargo handled at different Ports, 1950-51, 1955-56 and 1960-61	213
14	LOCAL BODIES :	
	14.1 Income and Expenditure of Municipalities, 1960-61	214
	14.2 Income and Expenditure of District Local Board, 1950-51, 1955-56 and 1960-61	215
	14.3 Income and Expenditure of Panchayats, 1950-51, 1955-56 and 1960-61	215
15	COMMUNITY DEVELOPMENT :	
	15.1 Progress and Achievements of Community Development/National Extension Scheme Blocks upto year ending 31-3-1961	216
16	PRICES :	
	16.1 Average Retail Prices of Staple Foodstuff, 1961	217
17	JOINT STOCK COMPANIES, BANKS INSURANCE AND SMALL SAVINGS :	
	(a) Joint Stock Companies :	
	17.1 Joint Stock Companies, 1960-61	217
	(b) Banking :	
	17.2 Scheduled and Non-scheduled Banks, 1950, 1955 and 1960	217
	17.3 Number and Type of Co-operative Banks, 1950-51, 1955-56 and 1960-61	218
	(c) Insurance :	
	17.4 Life Insurance Policies issued and sum insured, 1957 to 1960	218
	(d) Small Savings :	
	17.5 Target and Net Collection of Small Savings, 1960-61	218
18	CALENDAR OF IMPORTANT EVENTS, FAIRS AND FESTIVALS AND ANCIENT MONUMENTS :	
	18.1 Calendar of Important Events	218
	18.2 Fairs and Festivals	219–221
	18.3 Ancient Monuments	222

OFFICIAL STATISTICS

Departmental statistics collected from various sources, viz., Administrative Departments, State and Central, Reserve Bank of India, Life Insurance Corporation, Gujarat Electricity Board, etc., have been included in the District Census Handbook for the first time, and distributed under 18 different sections listed below :—

1 Rainfall & Temperature
2 Vital Statistics
3 Agriculture
4 Livestock
5 Co-operation
6 Fisheries
7 Factories
8 Electricity
9 Medical & Public Health
10 Education
11 Administration
12 Public Entertainment and Presses and Journals
13 Transport and Communications
14 Local Bodies
15 Community Development
16 Prices
17 Joint Stock Companies, Insurance, Banks and Co-operative Societies
18 Important Events, Fairs and Festivals and Ancient Monuments

Uniform table numbers have been adopted in all the Handbooks. Wherever a particular table is not applicable to or could not be compiled for want of requisite information for any district, there will be a break in the sequence, owing to the omission of such a table from the Handbook.

To facilitate further reference, the source of the table as well as explanatory notes as to the units to which they refer and other particulars have been given at the foot of the table.

Abbreviations used are : N.A.=Not available; ..=Nil

Note:

1 In case of Hindu months column 4 shows the corresponding months according to Gregorian calendar also. Hindu months are mentioned according to Vikram Era.
2 In the Hindu calendar followed in Gujarat, months end with Amavasya, i.e., New moon and not Purnima, i.e., full moon day.
3 ms. = Miles.

PART III

VILLAGE DIRECTORY

VILLAGE DIRECTORY

The Village Directory of 1961 Census is the same as the Primary Census Abstract given in the District Census Handbook of 1951 with the following additions and alterations :—

1. Information regarding Scheduled Castes and Scheduled Tribes which was given in 1951 by tracts of two to three talukas in a district has been given with sex break-up for each village.

2. The 8 livelihood classes of 1951 have been replaced by workers classified into the following nine industrial categories and also non-workers :—

I	Cultivator	V	Manufacturing other than Household Industry
II	Agricultural Labourer	VI	Construction
III	Mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities	VII	Trade and Commerce
		VIII	Transport, Storage and Communications
		IX	Other Services and
IV	Household Industry	X	Non-workers

3. Information on selected essential topics or amenities available in a village is also included.

Thus the Village Directory furnishes information on area in acres & gunthas, occupied houses, households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated and primary economic activity classified into above nine industrial categories and non-workers. This information is furnished for each village/ward of a town and also for each enumerator's block in a town, consisting of about 120 houses.

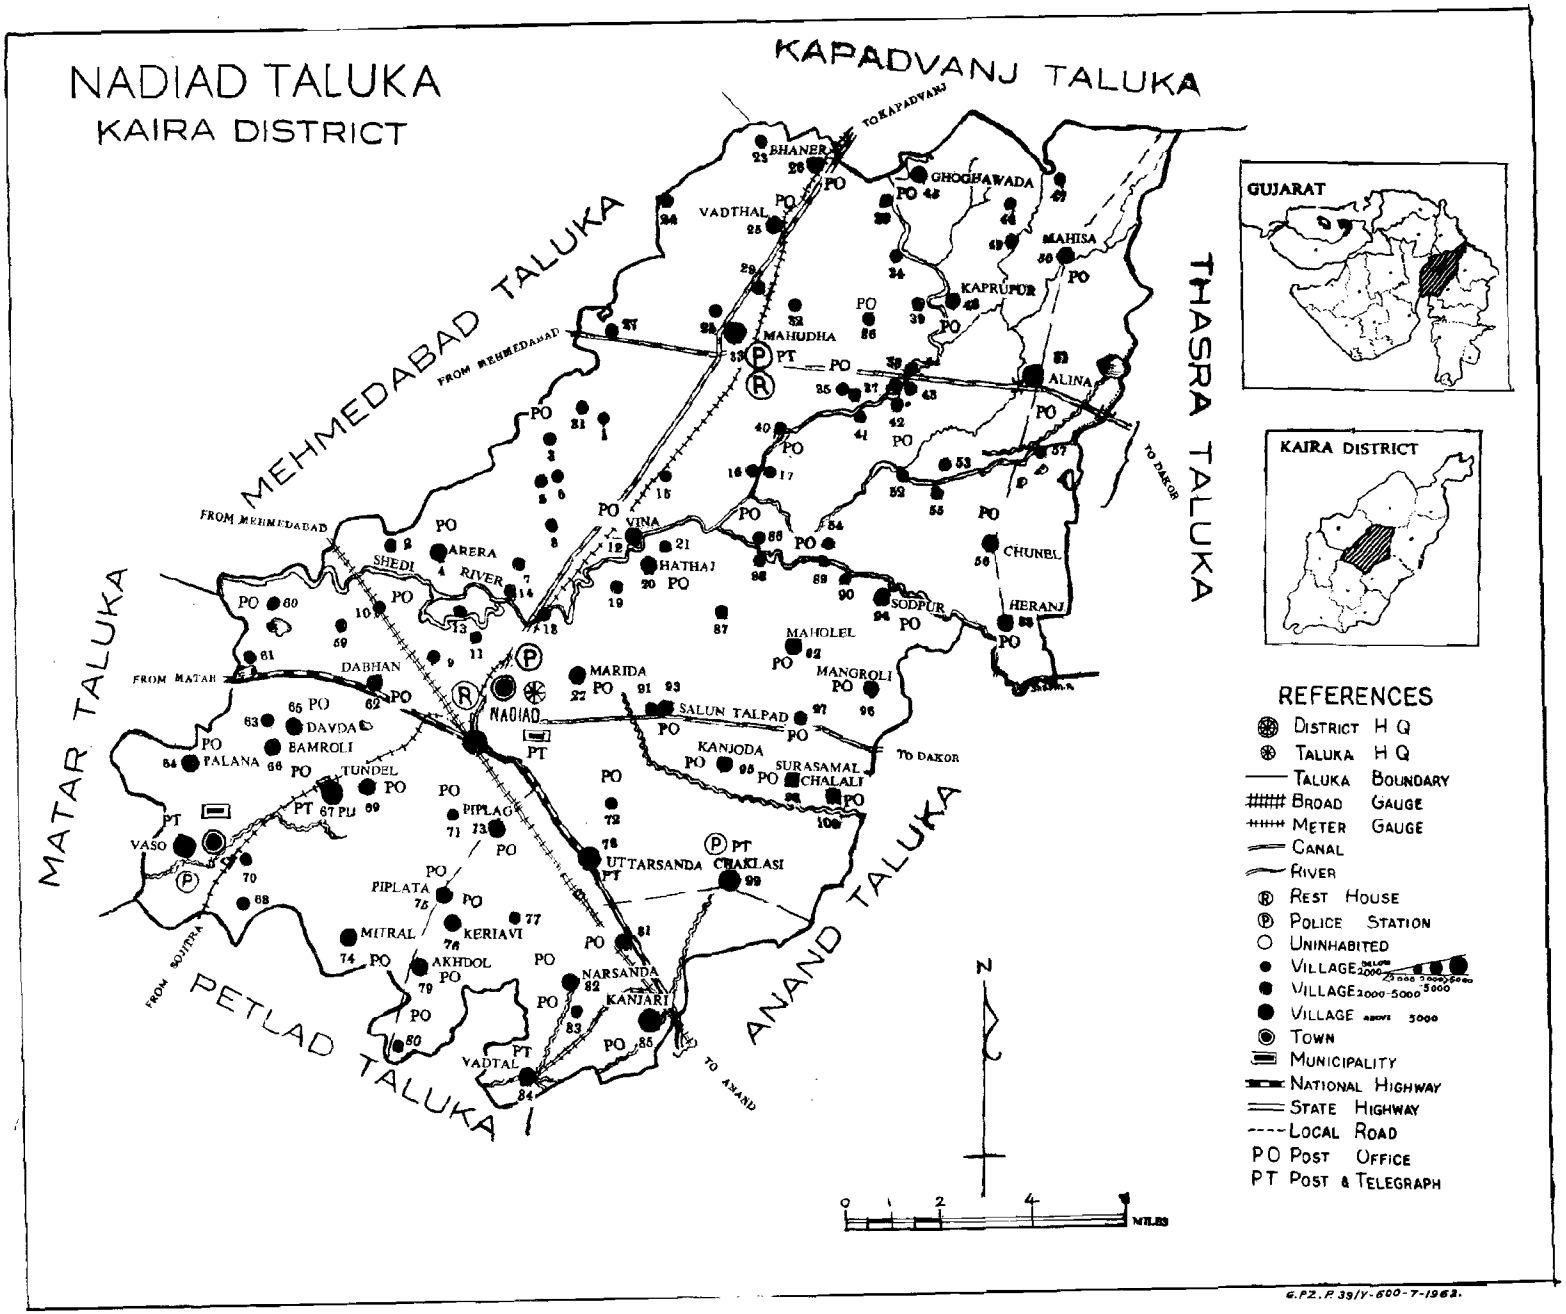

Like the Primary Census Abstract of 1951, the Village Directory gives area figures in Column 3 in acres as furnished by the Survey Department. While the figures of the number of houses and households given in Columns 4 and 5 have been compiled from the Household Schedules filled up for each household, information in Columns 6 to 36 has been compiled from the individual enumeration slips filled up during the course of census count. Information in Column 2 regarding Educational Institutions, Medical and Public Health facilities, Drinking Water facilities, Post & Telegraph Offices and Telephone facilities, and Rural Electricity has been collected from (*a*) the village notes specially devised for the purpose and filled in by Village Level Workers, Talaties and Panchayat Secretaries, and (*b*) the information supplied by the heads of the Departments concerned. The following abbreviations used in Column 2 signify the items shown against each :—

P	for	Primary School	S	for	Safe or Protected Water Supply including pipes, tube wells, etc.
M	for	Middle School			
H	for	High School	W	for	Well
C	for	Higher Institutions including Colleges	Riv	for	River
T	for	Technical Institutions	Tk	for	Tank
D	for	Dispensaries	Po	for	Post Office
Rhc	for	Rural Health Centre	To	for	Telegraph Office
Hos	for	Hospital	Tph	for	Telephone
Mp	for	Medical Practitioner	Ei	for	Electricity in Industrial use
Mcw	for	Maternity and Child Welfare Centre	Ea	for	Electricity in Agricultural use
			Ed	for	Electricity in Domestic use

The essential topics listed above have been presented run on against each village along with their number, where the amenities that exist are more than one. In other columns A=Acres, G=Gunthas, P=Persons, M=Males and F=Females.

In addition to a map for the district, taluka/mahal maps showing certain important information have also been prepared and placed at the commencement of the Village Directory for every taluka/mahal. In the taluka/mahal maps villages have been shown by their location code numbers assigned to them at the time of census operations and indicated against each village in the Alphabetical List of Villages given in the Handbook. Villages having population of 2,000 and above have been indicated by name. In the district maps Villages having 5,000 and more persons have been shown by names. Key maps given in the district and taluka maps show the positions of the district and taluka in hatches and black respectively.

TALUKA : NADIAD
