PREFACE

Before 1951, only the figures of population of revenue villages were given in what were then called 'Village Handbooks'. But the decision to bring out the District Census Handbooks giving extracts from all the important census tables for every district of the State was taken for the first time in 1951. In addition to the census tables, the minimum information given in the Primary Census Abstract related to the area of the village, number of houses and households, total population, houseless and institutional population, literates, and agricultural and non-agricultural classes distributed under 8 main livelihood classes. Census statistics given in the Primary Census Abstract were further supplemented by the addition of useful administrative information on such items as post offices, railway stations, distance of bazzar from village, primary schools, village panchayats, co-operative society, etc. This was a unique achievement of the Indian Census giving as it did the basic demographic and economic information for the smallest administrative unit, namely, the village, and in some States, even for each hamlet and also for wards in towns and cities. The 1951 series of District Census Handbooks, however, varied in content and size from State to State depending upon the resources offered by the State Government. The Registrar General, therefore, desired that the Handbooks brought out during the Census of 1961 should contain certain minimum statistical data, maps and other useful information which should be uniformly adopted throughout the country. The matter was discussed at the Conferences and seminars of the Superintendents of Census Operations before the contents of the various sections of the District Census Handbook were decided upon.

The Government of Gujarat at first proposed to include a very limited number of census tables in the District Census Handbook as against a very extensive and comprehensive coverage accepted for common adoption by the States. But on reviewing the matter on receipt of the recommendations of the third conference of Superintendents of Census Operations, the Government thought advisable to incorporate as many of the census tables as possible to enhance its usefulness. The result has been that the District Census Handbook of 1961 differs widely in the matter of content and coverage from that published after the Census of 1951 and contains a number of new features, examined below.

The District Census Handbook has been sub-divided into three parts, viz., :-

PART I—THE DISTRICT

(i) Introductory Essay

(ii) Brief Gazetteer of Place Names

PART II—STATISTICS

(i) Census Tables

(ii) Villagewise List of Industrial Establishments

(iii) Handicrafts Tables

(iv) Departmental or Official Statistics

PART III—VILLAGE DIRECTORY

(i) Explanatory Note

(ii) Village Directory

(iii) Taluka Maps

Part I is entirely new. While all the items under Part II except that relating to the main Census Tables are added for the first time, the Village Directory Section has been enlarged by the inclusion of certain useful information and maps. Various items included in each of these three parts are listed below.

PART I—THE DISTRICT

(i) *Introductory Essay*

This is a new feature added for the first time. The district has been introduced by giving at the outset certain essential information about its geographical location, physical features, historical background, administrative divisions, territorial changes, topography, soil, climate,

temperature, rainfall, etc. Growth of population, its distribution between rural and urban areas, density, literacy, sex ratio, marital status, economic activities, etc., have been discussed with reference to census tables. Agriculture, livestock, social services, co-operation, transport and communications, facilities of education, medical relief, housing, labour, Community Development Programme, progress of plan schemes, etc., have also been reviewed in the light of available official statistics. In fine, all the essential details relating to the demographic, economic, social and cultural aspects as revealed by the census and departmental statistics, have been examined to give a succinct account of the district as it stood in 1961.

(ii) *Brief Gazetteer of Place Names*

The gazetteer gives in brief information about all the places of historical or religious importance and interest in the district. While the historical background and other relevant details have been taken from the old District Gazetteers, information in respect of major irrigation projects, townships, crafts, fairs and festivals, etc., have been separately collected, and brought up-to-date in consultation with the Collectors.

PART II—STATISTICS

Part II contains (a) all the important Census Tables including those compiled from House-lists and (b) official statistics, furnished by the various State departments.

Census Statistics

The statement that follows compares the number of tables compiled in different census series with those selected by Government for reproduction in the District Census Handbook.

Details of Tables compiled in 1961 Census and reproduced in District Census Handbook

Series	Description	Total No. of tables compiled in 1961	Tables reproduced in District Census Handbook	
			Number	Particulars
1	2	3	4	5
A	General Population Tables	4	3	A–I and its Appendices I, II & III with sub-Appendices 1 & 2, A–III and A–IV with Appendix I and Special Appendix
B	Economic Tables . . .	17	12	
	(i) General Economic Tables .	9	7	B–I, B–III–Parts A & B, B–IV–Parts A, B & C, B–V, B–VII–Parts A & B, B–VIII–Parts A & B and B–IX
	(ii) Household Economic Tables .	8	5	B–X, B–XI, B–XII, B–XVI and B–XVII
C	Social and Cultural Tables . .	8	7	C–I, C–II, C–III–Parts A & B, C–IV, C–V, C–VII, C–VIII–Parts A & B
D	Migration Tables . . .	6	..	
E	Tables on Housing and Establishments	5	4	E–I, E–II, E–IV and E–V
SCT/SC/ST	Special Tables on Scheduled Castes and Scheduled Tribes .	8	1	SCT–I–Parts A & B

Note :–

Two more tables have been specially compiled from House-lists, viz., (i) Villagewise List of Industrial Establishments and (ii) Handicrafts Tables.

Official Statistics

The picture the census statistics present will be incomplete without the official or departmental statistics reviewing the progress made by the various administrative departments during the past decennium. An attempt has, therefore, been made to compile important official statistics for publication in the District Census Handbook. These statistics which relate to the past ten years must be adjusted to the existing set-up of administration, if they are to be really useful and comparable. This, however, was not possible in spite of efforts to that effect. For, extensive changes in the territorial jurisdiction of districts and talukas have taken place during the last ten years, first as a result of integration in 1956 and then due to bifurcation on May 1, 1960 when Gujarat came into being as a separate political unit for the first time. Non-availability of the required data in case of most of the Princely States and Estates was another handicap. The task of compilation of official statistics was thus beset with innumerable difficulties. The proformae for the various statements numbering 49 as approved by Government and the Registrar General were circulated to all the concerned Heads of Departments as early as July 1961. In view of the importance of these statistics, the Government by circular letter No. CNS-1461-A2 dated the 27th July 1961 addressed to all the Heads of Departments had also directed that official statistics called for by the Superintendent of Census Operations should be furnished within two months through the Director, Bureau of Economics and Statistics, after thorough scrutiny by some responsible officer of the department along with a certificate to the effect that the data furnished are up-to-date, complete and authentic in all particulars. The delay, however, caused in furnishing correct and complete information by the departments delayed final compilation and resulted in protracted correspondence to rectify the discrepancies and incompleteness noticed during the course of verification at the Bureau. Non-availability of the required information for the various administrative units as at present constituted was another obstacle. The progress had therefore, to be reviewed from time to time in a series of meetings with the Director, Bureau of Economics and Statistics and representatives of the departments concerned. The offices from which information was not received had to be frequently reminded by the Director, the Census Department and at times even by the Chief Secretary. Some of the tables proposed to be included could not be inserted or had to be revised either for want of receipt of timely information or owing to the non-availability or incompleteness of the data furnished. Where data for individual years are not available, they have been collected for the years 1950-51, 1955-56, and 1960-61 which mark the commencement of the First, Second and Third Five Year Plans. Where statistics for these periods are not available, they are given only for the year 1960-61; and where the figures compiled are not available for the units as at present constituted, the clarification as to the unit to which they refer has been made in the footnote to the statements which also disclose the source of compilation.

PART III-VILLAGE DIRECTORY

The Village Directory or the Primary Census Abstract includes information regarding population, area, occupied houses, households, workers classified into nine industrial categories of workers and non-workers, Scheduled Castes and Scheduled Tribes, literates and educated, etc., for each village as well as for every ward and block of about 120 houses in each town. In addition, it gives information on certain essential amenities existing in the village such as educational facilities, public health and medical facilities, supply of drinking water, electricity and its uses, etc., by means of abbreviations placed against the name of each village. This additional information has been compiled from the special 'village notes' devised for the purpose and collected through the Block Development Officers. They relate to the position as it existed about March 1961.

The figures of population of Scheduled Castes and Scheduled Tribes were given in 1951 for certain arbitrary tracts formed by the grouping of talukas. The result was that the administration was seriously handicapped in the absence of relevant particulars for the various administrative units of a district which were required oft and

on for planning and other purposes. This lacuna has been removed on the present occasion by giving figures of Scheduled Castes and Scheduled Tribes for each village in the Primary Census Abstract. The talukas and villages given in the Village Directory are arranged in the order of their location code numbers.

Maps

The Village Directory is preceded by taluka maps showing villages by their location code numbers and dots varying according to the size of the village. Other items such as district or taluka headquarters, railway, national highway, State highway, local roads, post office, post and telegraph, canal, river, rest house, police station, etc., have been shown on the map with appropriate symbols. Two key maps, one for the State showing the district boundary and the position of the district in the State in hatching and the position of the taluka in the district in black and another key map for the district showing taluka boundary and the position of taluka in the district in hatching have also been included in the taluka map. In addition to taluka maps, a map of the district has also been given at the commencement of the Handbook showing the various items listed above for the taluka map and villages having population over 5,000. The key map given in the district map shows district boundary and the position of the district in the State in hatching.

The preparation of district and taluka maps and finalisation of area figures proved to be another handicap. The District Inspectors of Land Records had furnished tracings which had to be brought up-to-date in the light of changes in boundaries owing to integration on the one hand and bifurcation on the other. Frequent references and back references entered into at various levels, the Settlement Commissioner, Superintendents and District Inspectors of Land Records to remove the discrepancies and reconcile the inconsistencies noticed did not yield much result. The matter was, therefore, finally set at rest by calling a conference of Superintendents and District Inspectors of Land Records who did on-the-spot checking and verification and certified the correctness of the ultimate delimitation of boundaries and location of villages appearing in the taluka and district maps and accuracy of area figures entered in the Primary Census Abstract.

Paging

Each of the three parts of the District Census Handbook will have a separate series of page numbers starting with 1.

Alphabetical List of Villages

With a view to enable the reader to trace a village from the Village Directory, an alphabetical list of villages giving the names of villages and indicating their location code numbers, page number and serial number on the page at which they are printed has been given separately for each Taluka/Mahal at the commencement of the Handbook.

The Handbook

The contents of the District Census Handbook explained above have been finalised after frequent deliberations at various census conferences and seminars, and meticulous care as to their form, size and presentation. But these by themselves would not have been sufficient, had the Government not readily responded to the various suggestions made in this behalf. If I may say so, the Government had placed implicit faith in me, and accepted all the proposals made by me from time to time to add to the utility of this important compilation. It is hoped that the District Census Handbook in its present form will satisfy a growing demand for basic census data by ultimate territorial units and other background information about the district and also prove to be a useful book of reference to the administrative departments and the public.

The Government of Gujarat has taken a further decision namely to print the District Census Handbook also in the regional language of the State, viz., Gujarati. This will very much add to the utility of this publication. The Handbook in Gujarati will contain (i) Note introducing the district, (ii) Alphabetical list of villages, (iii) Census Tables, A-I, A-III and SCT-I, (iv) Village Directory with explanatory note and (v) District and Taluka maps.

ACKNOWLEDGEMENTS

Help in the compilation of the District Census Handbooks has been forthcoming from various quarters, to all of whom I am deeply indebted. I, however, wish to express my thanks to Shri V. Isvaran and Shri V. L. Gidwani, Chief Secretaries to Government, and Shri M. G. Shah, Deputy Secretary, General Administration Department for all the facilities they have given in their preparation and publication of these Handbooks. I am also obliged to the Bureau of Economics and Statistics for the services rendered in the compilation of Official Statistics furnished by the Heads of Departments and the checking of the statistical data in the draft-notes for the Introductory Essays prepared by the District Statistical Officers. My thanks are also due to Shri H. V. Desai, Settlement Commissioner, Superintendents of Land Records and District Inspectors of Land Records for their assistance in the finalisation of area figures and verification of district and taluka maps. Lastly I Should place on record my gratitude to Shri Balwantray G. Mehta, chief minister of Gujatat, whose keen interest has to no small extent ensured the expeditious printing and publication of the District Census Handbooks.

Programme for the printing of District Census Handbooks has this time been very heavy indeed, more so as they are published both in Gujarati and English. The arrangements made by Shri B. A. Koreishi, Director, Government Printing and Stationery, and Shri G. J. Gonsalves, Deputy Director, for the printing of the voluminous work pertaining to the District Census Handbooks at the various Government and local presses, are thankfully acknowledged. The excellent work turned out by the Government Photo-zincographic Press, Poona in printing district and taluka maps deserves special mention.

I would like to place on record the valuable contribution made by the members of the Census Organisation at various levels in bringing out the Handbook in its present form. Mention in particular should be made of Shri K. F. Patel, Deputy Superintendent of Census Operations, Shri J. D. Shah, Statistical Assistant, Shri H. S. Bhatt, in charge proof reading section and Shri K. D. Vaishnav and Shri L. S. Shrimali of draftsman section. Before I conclude I must pay tribute to the conscientious discharge of duties by the late Shri J. K. Patel, Special Mamlatdar whose services were placed by Government at the disposal of the Census Organisation, for supervising the printing of District Census Handbooks. It is a matter of great regret that his services were lost to us, as he was removed from our midst in the prime of his life owing to sudden heart failure.

Finally, the Registrar General has given such anxious thought and care since the inception of the Census Organization to ensure that the District Census Handbook which the Census of 1961 brings out is an up-to-date book of reference for the District by including all available useful data both census as well as official. I am grateful to him for the valuable suggestions made and guidance given by him in this important publication.

AHMEDABAD,
9th March, 1964.

R. K. TRIVEDI,
Superintendent of Census Operations,
Gujarat.

PART I

1 INTRODUCTORY ESSAY

2 GAZETTEER OF PLACE NAMES

INTRODUCTORY ESSAY

AHMEDABAD DISTRICT

1 LOCATION AND PHYSICAL FEATURES

1.1 Boundaries and Natural Divisions

Ahmedabad is one of the districts forming part of the Baroda division of Gujarat State. It lies between 20.0′ and 23.4′ north latitude and 71.6′ and 72.9′ east longitude. The northern side of the district is bounded by Mehsana district, north-east by Sabarkantha district ands outh by Kaira district and the Gulf of Cambay. The western side is bounded by Bhavnagar and Surendranagar districts. Ahmedabad, the district headquarters, is also the State capital.

1.2 Configuration

The general appearance of the district indicates that in the past at least, a large portion of it was covered by sea. Some portion of the tract between the head of the Gulf of Cambay and Rann of Kutch is still subject to water-logging at high tides in the monsoon. In the extreme south, there are a few rocky hills, except which, the whole of the district forms a level plain, gradually rising towards the north and the east.

1.3 Rivers, Lakes, Tanks and Mountains

(a) *Rivers* : Sabarmati is the main river of Ahmedabad district. It rises in the north-east, near the extremity of the Aravali range and runs its course of 200 miles towards south-west. In this district it flows to the west of Dehgam and east of Dholka talukas and bifurcates Daskroi taluka. The Khari, a tributary of the Sabarmati, and Meshwo flows through Dehgam and Daskroi talukas. The river Bhogavo with its branch Omkar and three other rivers namely Bhadar, Nilka and Utavali pass through Dhandhuka taluka. Water flowing from Mehsana into Sanand mahal takes the shape of a rivulet called Rodh and flows through Sanand mahal and Dholka taluka. There is no river or rivulet in Viramgam taluka.

(b) *Lakes* : Nal Sarovar, the only lake in the districts is situated in the southern part of viramgam taluka. It occupies an area of about 50 sq. miles. The depth of water is 6 feet and its maximum length and breadth twenty and four miles respectively. Its water is brackish and becomes more 80 in the hot season The borders of the lake are fringed with tall and impenetrable reeds and high growing grass. Myriads of birds of about 60 species flock to this lake in October from foreign climes such as Siberia and Middle Asia. After rearing their young ones they fly away in February. The Government of Gujarat has established a holiday home at this place where facility for boating is also avail ble.

(c) *Tanks*: The City taluka has 3 tanks, viz., Kankaria, Chandola and Malek Saban. There are two big tanks, viz., Munsar and Gangasar near Viramgam. Munsar tank was built 900 years ago by Minaldevi, the mother of Siddharaj Jaysinh of Patan, to provide water facilities to the people. Malav tank near Dholka was also built by Minaldevi.

(*d*) *Mountains*: There are no big mountains or hills in the district. However, there are small hills of Vasai and Miroli in the southern part and also in northern part near Thaltej and Gota of Daskroi taluka, Chandisar in Dholka taluka and Vastrapur in City taluka.

1.4 Type of Soil

The soils of the district are broadly classified as black, medium black, goradu, kyari and rocky. The southern half of Dholka taluka and eastern half of Dhandhuka taluka is known as Bhal tract (low lying flat land). The depth of the black and medium black soil varies from 2 to 5 feet and the underground water is brackish.

(*a*) *Goradu soil* : Goradu soil varies from fertile brown to sandy loam and is found in Dehgam taluka, the north of City and Daskroi taluka, the eastern parts of Sanand mahal and Dholka taluka and the north-east portions of Viramgam taluka. The two varieties are locally known as goradu and sandy respectively. This soil is mostly

fertile, well drained, having a depth of about 10–15 feet. It has a good drainage capacity.

(*b*) *Kyari soil*: It is found in the southern half of the city and Daskroi talukas, the south–east portion of Sanand mahal and Nalkantha tract of Dholka and Viramgam talukas. Formed by alluvial deposits, this is the most fertile soil with very good moisture and retentive capacity well suited for paddy cultivation. Locally this soil is known as Bhal soil of Daskroi taluka and Nalkantha kyari land. Well-known varieties of paddy such as Pankhali, Kamod, Jirasal, Sukhvel, Sutarsal and the coarse variety of Basmati are grown in this soil.

(c) *Rocky soil* : Rocky soil is found in the western part of Dhandhuka taluka known as Kaner tract. It is shallow, light in texture and fit for early maturing crops, like cotton, bajri, jowar and math.

1.5 Climate and Temperature

The climate of the district except the southern tract near the sea coast is extreme, having a considerable variation in temperature. The cold season following monsoon is brisk, lasting from November to January. Summer is the season of oppressive heat and extends from March to June. During 1960 the maximum temperature recorded was 46.0°C. or 114.8°F. in May at Viramgam and the minimum was 5.1°C. or 41.18°F. also at Viramgam in the month of January.

Details of maximum and minimum temperatures 1951–60 at the headquarter station Ahmedabad are shown in Official Statistics Table 1.1 given in Part II of this Handbook.

1.6 Rainfall

The south-west monsoon which extends from June to September is the only souce of rain. Variation in the average rainfall of the district is considerable, which affects the crops adversely. The following table gives the rainfall figures for the last decade for Ahmedabad, the district headquarters.

Annual rainfall for Ahmedabad city, 1951–60

Year	Annual rainfall	
	In Inches	In Centimetres
1	2	3
1951	N.A.	N.A.
1952	30.1	76.4
1953	38.3	97.2
1954	35.1	84.0
1955	32.6	82.8
1956	47.2	119.8
1957	N.A.	N.A.
1958	38.7	98.2
1959	57.2	145.3
1960	15.5	39.4

N.A.=Not available

Monthly rainfall figures for all these years are available in Official Statistics Table 1.2 published in Part II of this Handbook.

1.7 Famine and Scarcity

In order to determine the susceptibility of the areas included in the district to scarcity conditions, it would be necessary to examine the following factors : (1) Rainfall, (2) Irrigation facilities, (3) Soil and (4) Previous history of scarcity with special reference to annawari and land revenue suspension data.

From the rainfall data, it appears that it has been irregular during the last 10 or 12 years. Consequently, the failure of crops during this period is more frequent, necessitating declaration of scarcity conditions practically in the whole district but particularly in Dhandhuka and Viramgam talukas. Whatever irrigation facilities exist, are only in Daskroi and City talukas and Sanand mahal. The area which is mainly in the 'Kaner' tract suffers more frequently from scarcity.

It appears from the annawari figures that Dhandhuka and Vagad circles of Dhandhuka had not suffered as much as Barwala, Ranpur, Dholera and Gamph circles. Almost all the villages in the last four circles had suffered more than thrice during the last 10 years. Viramgam and Dhandhuka have been more frequently affected, particularly during the last ten years. The major portion of Dehgam taluka was affected only once and a few villages twice in the last 30 years.

According to Fact Finding Committee appointed by the Bombay Government for determination of precarious and scarcity areas in the State, Viramgam taluka was regarded as a scarcity area of Class A, i.e., where there had been a total failure of crops once every three years. Dhandhuka taluka and a portion of Dholka taluka adjoining Dhandhuka and part of Sanand mahal adjoining Viramgam are considered as Class B where there had been a total failure of crops once every six years and the remaining portions of Dholka taluka and Sanand mahal are regarded as scarcity areas of Class C where there had been a total failure of crops once every ten years.

1.8 Forests

According to the information furnished by the Chief Conservator of Forests, Gujarat State, the area of forest in the district in 1961–62 is found to be 7.32 square miles, out of which 5.33 square miles are reserved forests and the remaining 1.99 square miles are unclassed forests.

2 ADMINISTRATIVE SET-UP

2.1 Historical Background

The Mirat-i-Ahmadi states that it was on the 27th February, 1411 A.D. that Ahmad Shah with the advice of his spiritual adviser Saint Shaikh Ahmad Khattu of Sarkhej laid the foundation of Ahmedabad in an open and spacious area in the immediate vicinity of the old town of Asawal and to the east of Sabarmati. The author of Haft-Iqlim writes in 1593 A.D: "Ahmedabad is unique in the whole of India in matter of neatness and flourishing condition, and it is superior to other cities in the excellence of its monuments. It would be no exaggeration to say that in the whole world there exists no town so grand and beautiful. Its streets are spacious and well-arranged, unlike those in other towns, its shops with two or three storeys each are finely built, and its inhabitants both men and women are graceful and delicate."

Since the beginning of the Christian era even up to the present time, the inhabitants of Gujarat have shown the best business acumen and enterprise of all the races of India. Before the beginning of the sixteenth century the silk, gold and silver brocades, Kinkhab, Jari and Kasab embroidery and cotton textiles of Ahmedabad were in demand in every Eastern market from Cairo to Peking.

In the time of Muzaffar III the independent Sultanate of Gujarat came to an end, the conditions of the province being chaotic. Akbar started on the Gujarat expedition and conquered it in 1573. During Mogul reign, Ahmedabad saw considerable prosperity. The rulers after the death of Aurangzeb were weak, and the Subas or the Mogul viceroys were busy fighting amongst themselves and with the Marathas which resulted in disorder in the country. During the reign of the Marathas in the eighteenth century, Ahmedabad to all purposes was divided half into the hands of the Peshwas and the other half into the hands of the Gaekwad, but the Peshwas carried greater jurisdiction. There was one representative in Ahmedabad on behalf of the Gaekwad. But the Peshwa also nominated his Suba in the City. During the rule of 64 years of the Marathas, the conditions of Ahmedabad went from bad to worse, and there was great disorder in the city. After a great deal of struggle and fighting between Peshwa and Gaekwad, the British finally took over Ahmedabad in 1817.

The city thereafter steadily flourished. For many centuries, Ahmedabad has remained the leading city and the political capital of Gujarat. Ahmedabad played an important role in the movement for national independence. After his return from South Africa in 1915, Mahatma Gandhiji selected Ahmedabad for his stay in India and established the Sabarmati Harijan Ashram from where various stages of the national movement were directed and the famous Dandi March for the salt satyagrah with a band of chosen satyagrahis undertaken in 1930.

2.2 Territorial Changes

This district except Dehgam taluka was a part of the former Bombay Province, Dehgam taluka being part of the former Baroda State. After the merger of the State with Bombay State in 1949, it formed part of Ahmedabad district. Thus the

reconstituted district became part of Bombay State and formed part of Gujarat State on its formation into a separate State on 1st May, 1960. The territorial changes which took place between the period 1951–61 are given in sub–Appendix 2 to Appendix 1 to Table A-1 published in Part II of this Handbook, and those that took place after 28-2-61 are shown in an Annexure at the end.

2.3 Administrative Divisions

Ahmedabad is one of the districts of Baroda division of Gujarat State. For the purposes of revenue administration, the district is divided into three sub-divisions with six talukas and one mahal.

The details about the area and population in respect of these sub-divisions are given in the following table.

Administrative Divisions, 1961

Sub-Division/ Taluka/Mahal	Area (in sq. miles)	No. of towns	No. of villages	Population		
				Total	Rural	Urban
1	2	3	4	5	6	7
District Total	**3,443.5**	**14**	**749**	**2,210,199**	**866,620**	**1,343,579**
Ahmedabad-City Sub-Division	*112.0*	*6*	*27*	*1,260,944*	*54,943*	*1,206,001*
Ahmedabad City	112.0	6	27	1,260,944	54,943	1,206,001
Viramgam Sub-Division	*1,331.5*	*2*	*401*	*531,679*	*480,716*	*50,963*
Viramgam	672.0	1	163	191,511	152,556	38,955
Daskroi	325.3	..	116	179,204	179,204	..

Dholka Sub-Division	*2,000.0*	*6*	*321*	*417,576*	*330,961*	*86,615*
Sanand	313.4	1	67	87,440	73,125	14,315
Dholka	653.2	2	116	175,327	135,026	40,301
Dhandhuka	1,033.4	3	138	154,809	122,810	319,99

Details of inhabited and or uninhabited villagesdens, ity and occupied houses are available in CensusTable A–I published in Part II of this Handbook.

2.4 Revenue

The Collector is in charge of the general administration, law and order and civil supplies. He is assisted by a Personal Assistant in his office and Deputy Collectors in charge of three Sub-divisions having their headquarters at Ahmedabad, Viramgam and Dholka. There are six Mamlatdars in charge of 6 taluka offices at Viramgam, Dehgam, Dholka, Dhandhuka and two at Ahmedabad and one Mahalkari in charge of the mahal office at Sanand.

2.5 Revenue Settlement

Ahmedabad district comprises 7 taluka/ mahals, six of which are from Union areas of the province of Bombay. Dehgam taluka has 103 villages of former Baroda State and 19 Matadari villages of old Agency Thana.

Since 1947 there is no change in respect of survey and settlement in case of * Union areas except that unserveyed Inam ande x-Inam villages have been surveyed and their soils classified during the period from 1949 to 1951 under the Post-war Reconstruction Scheme Nos. 75 and 77 A. The lands of each individual holding in the area have been surveyed and designated as survey numbers and their sub-divisions as pot hissas, pot numbers or hissa numbers. Their areas are worked out and recorded separately. The soils of these survey numbers and sub–divisions are classified for the purpose of land revenue according to the Gujarat classification system and land revenue settlement has been introduced under Bombay Land Revenue Code. The original settlements in this district were introduced from 1888-89 to 1892-93 and revised between 1923-24 to 1926-27. Second revision settlement was introduced only in Viramgam taluka of this district in the year 1946-47 for ten years and though the guarantee periods in case of this taluka as, also the remaining Union talukas of the district have expired, the settlements have not

* Union areas forming part of the pre-independence districts of the Bombay Province.

yet been revised. As regards former Baroda State villages, as the survey and settlement are considered scientific, since merger no survey or classification operations were necessary. The villages of the remaining merged and integrated areas were surveyed and classified under the Merged State Area Survey and Classification Scheme. No area in the district now remains unsurveyed and unclassified.

In the Merged State Areas, where the land revenue settlement is considered scientific, in order to bring the land revenue assessments on par with those obtaining in the pre-merger talukas of the district, Government framed Land Revenue Rule 19-N. For fixing land revenue assessment in areas which are not settled or scientifically settled on lines similar to the Bombay Land Revenue Code, Land Revenue Rule 19-O is framed. Both the above rules are framed under Section 52 of the Bombay Land Revenue Code. According to Land Revenue Rule 19-N, the villages in the various settlement groups where generally compared with those in the pre-merger talukas in respect of permanent and semi-permanent factors of physical configuration, climate and rainfall, markets, communications, and standard of husbandry and Comparable Union Areas were fixed for them. The standard rates of the scientifically settled areas were then compared with the standard rates of Comparable Union Area and remission was granted, to the extent of the excess of the former over the latter. Under the Land Revenue Rule 19-0, groups of the villages of the merged areas were formed on consideration of their homogeneity in respect of permanent and semi-permanent factors mentioned above, and then Comparable Union Areas of these villages were fixed as under Land Revenue Rule 19-N and land revenue assessments in such areas were worked out by application of (1) the recoverable rates worked out under Land Revenue Rnle 19-N or (2) the existing rates prevailing in the merged areas or (3) the rates worked out on the basis of average cash value of 35 per cent of 1/6 of the gross produce, whichever of the three is the lowest, to the soil classification values, through the medium of the distance from village site scale, and to the actual area of the survey number or its sub-division. In these areas, there were several villages held on Jagiri tenure. The Jagiri tenure has been abolished under the Bombay Merged Territories and Areas (Jagir Abolition) Act, 1953 and the assessment of each individual survey number or subdivision has been fixed under section 7 of the said Act by applying the rate of the adjoining homogeneous Khalsa village.

Under the Gujarat Classification System and under the former Baroda State Classification System which is analogous to the former, lands irrigated from wells are treated as dry crop lands with an additional classification factor of subsoil so as to levy higher land revenue assessment on consideration of the capacity of the wells and soil classification value.

Lands irrigated from the second and first class irrigation works which are in charge of the Public Works Department are subject to separate irrigation cess and irrigation rates under the Bombay Irrigation Act, but for lands irrigated from smaller works like tanks which are not governed by the Bombay Irrigation Act, the lands are subjected to himayat assessment which is clubbed with the Land Revenue. Occassional use of water for agricultural purpose with permission from Government resources where Government have not spent anything is allowed free and where Government have spent something, water assessment is levied under section 55 of Bombay Land Revenue Code.

2.6 Agrarian Structural Land Reforms

There were lands held on Bhagdari and Narvadari tenures and Talukdari tenure in the premerged areas of the district. These tenures have been abolished under the Bombay Bhagdari and Narvadari Tenures Abolition Act, 1949, and the Bombay Talukdari Tenure Abolition Act, 1949, respectively. All kinds of Inams except Devasthan Inams, have been abolished after 1947, and the Bombay Tenancy and Agricultural Lands Act, 1948, has been applied in this area with a view to do away with the intermediaries

between agriculturists and the State. The Bombay Prevention of Fragmentation and Consolidation of Holdings Act was enacted in 1947 and activities under this Act have been spread over Dholka, Dehgam, Sanand, Daskroi and Viramgam talukas of the district. Under the Gujarat Agricultural Land Ceiling Act, 1960, the maximum limits to the land holdings have been laid down.

In the merged areas, there were lands and villages held on Ankadia and Bahendhari and Matadari tenures. These tenures have been abolished by special legislations. The various Inams, except Devasthan Inams, obtaining in the merged areas have been abolished by the Bombay Merged Territories (Miscellaneous Alienations Abolition) Act, and the Bombay Tenancy and Agricultural Lands Act has been applied to these areas. Thus, in respect of the land tenures and Inams, survey, soil-classification and land revenue settlement the position in the merged and integrated areas has been brought on par with that obtaining in these respects in the pre-merger areas of the district.

2.7 Parliamentary and Assembly Constituencies

Under the Delimitation of Parliamentary and Assembly Constituencies Order; 1961, 2 seats are allotted to this district for the purpose of election to the House of the People and 16 seats for the State Assembly. The details comprising the territorial extent of the Parliamentary and Assembly constituencies are shown below:

Delimitation of Parliamentary and Assembly Constituencies

A

Parliamentary Constituencies

Sl. No.	Name of Constituency	Extent in terms of Assembly Constituencies
1	2	3
1	Ahmedabad	Ellisbridge, Dariapur-Kazipur, Asarva, Jamalpur, Khadia, Dariapur and Shaherkotda
2	Sabarmati (SC)*	Sanand, Sabarmati, Gomtipur, Dehgam, Kathwada, Aslali and Dholka

* This seat is reserved for the Scheduled Castes

B

Assembly Constituencies

Sl. No.	Name of Constituencies	Extent of Constituency
1	2	3
1	Viramgam	Viramgam taluka (excluding 22 villages of Nalkantha circle, 9 villages of Jakhwada circle and 14 villages of Viramgam circle of Viramgam taluka
2	Sanand	Sanand mahal and 22 villages of Nalkantha circle, 9 villages of Jakhwada circle and 14 villages of Viramgam circle of Viramgam taluka
3	Sabarmati	Census ward Nos. 15–Sabarmati of Ahmedabad city and (i) 9 villages of Sarkhej circle of Ahmedabad city taluka and (ii) 13 villages of Kathwada circle and 30 villages of Kasindra circle of Daskroi taluka
4	Ellisbridge	Census wards Nos. 13–Shahpur II and 14–Ellisbridge of Ahmedabad city
5	Dariapur-Kazipur	Census wards Nos. 12-Shahpur I and 16–Dariapur-Kazipur of Ahmedabad city
6	Asarva	Census wards Nos.. 17-Railwaypura and 20–Asarva of Ahmedabad city and the Cantonment
7	Jamalpur	Census wards Nos. 4-Jamalpur I, 5-Jamalpur II and 6–Raikhad of Ahmedabad city
8	Khadia	Census wards Nos. 1 Khadia I, 2–Khadia II, 3-Khadia III and 7–Kalupur I of Ahmedabad city
9	Dariapur	Census wards Nos. 8-Kalupur II, 9-Kalupur III, 10-Dariapur I and 11-Dariapur II of Ahmedabad city
10	Shaherkotda	Census wards Nos. 18–Shaherkotd, 19-Saraspur, 23-Rajpur–Hirpura, 24-Rajpur-Hirpur (New limit) 26-Maninagar (T.P.S.) and 27-Kankaria of Ahmedabad city
11	Gomtipur (SC)*	Census wards Nos. 21-Rakhial, 22-Gomtipur and 25-Khokhra Mehmedabad of Ahmedabad city

Assembly Constituency-contd.

Sl. No.	Name of Constituencies	Extent of Constituency
1	2	3
12	Dehgam	Dehgam taluka (excluding 8 villages of Dehgam circle and 13 villages of Dabhoda circle of Dehgam taluka)
13	Kathwada	(i) 8 villages of Dehgam circle and 13 villages of Dabhoda circle of Dehgam taluka, (ii) Ahmedabad City taluka (excluding 17 villages of Sarkhej circle of Ahmedabad City taluka). (iii) Daskroi taluka (excluding 15 villages of Kathwada circle, 39 villages of Kasindra circle and 33 villages of Aslali circle of Daskroi taluka)
14	Aslali	Census wards Nos. 28-Jamalpur (T.P.S.) and 29-Behrampura of Ahmedabad city and (i) 8 villages of Sarkhej circle of Ahmedabad City taluka, (ii) 33 villages of Aslali circle, 9 villages of Kasindra circle and 2 villages of Kathwada circle of Daskroi taluka and (iii) 4 villages of Bavla circle and 9 villages of Dholka circle of Dholka taluka
15	Dholka (SC)*	Dholka taluka (excluding 4 villages of Bavla circle and 9 villages of Dholka circle of Dholka taluka)
16	Dhandhuka	Dhandhuka

*These seats are Reserved for Scheduled Castes

2.8 Judiciary

(*i*) For Ahmedabad city there are 8 City Civil Court and Sessions Judges (including Principal Judge) and there are 5 Small Cause Court Judges (including Chief Judge) and 11 City Magistrates (including Chief City Magistrate). City Civil Judges have unlimited jurisdiction in civil suits and they have Sessions Judges, powers in criminal matters. Small Cause Court Judges have jurisdiction up to Rs. 2000 in civil suits. On the criminal side, City Magistrates have Presidency Magistrates' powers.

2.8 (*ii*) The judicial set-up of the Ahmedabad Rural (including Sabarkantha) district comprises of 1 District and Sessions Judge, 1 Assistant District Judge, 2 Civil Judges (Sr. Division) and 11 Civil Judges (Jr. Division). The Sessions Judge is empowered to impose any sentence authorised by law, but any sentence of death subject to confirmation by the High Court. The Assistant Sessions Judge is empowered to impose any sentence authorised by law, except a sentence of death or imprisonment for life or of imprisonment for a term exceeding 10 years. The District Judge has unlimited jurisdiction in civil suits while the Assistant Judge has jurisdiction up to Rs. 15,000 in such suits. Civil Judge (Sr. Division) and Judicial Magistrate is empowered to impose a sentence of imprisonment for a term not exceeding 2 years and fine not exceeding two thousand rupees. He has got unlimited jurisdiction in civil suits. Civil Judges (Jr. Division) have jurisdiction up to Rs. 10,000 in civil suits.

2.9 Police

The police administration of Ahmedabad City is under the Police Commissioner of Ahmedabad, whose office was created on 15th April 1960, while the remaining areas of the district are under the District Superintendent of Police. The total strength of civil police in 1960 amounted to 4,262 persons. There were 26 police stations and 44 police outposts in the district. The total number of cognizable offences investigated was 21,264. Thus there was 1 police per 0.81 sq. miles of area. The number of persons per police was 519 and the number of cognizable offences investigated per police was 5.

The number of crimes by major class of offences in the district is extracted from Official Statistics Table 11.3 given in Part II of this Handbook, wherein other details regarding number of persons acquitted or discharged and number of persons convicted will be found.

Persons convicted by nature of offences, 1960-61

Description of offence	No. of persons convicted
1	2
Against public tranquibility	50
Affecting life	70
Hurt	160
Criminal force and assault	8
Kidnapping, forcible abduction, slavery and forced labour	10
Theft	604

3 LOCAL SELF GOVERNMENT

3.1 Local Self Government Institutions

The Local Self Government institutions in the State as on 1st April, 1961, which is the period

covered by this Handbook are (1) Municipalities, (2) District Local Board, (3) District School Board and (4) Gram Panchayats. But since the Panchayats Act has come into force from 1st April 1963 replacing the existing District Local Boards by Jilla Panchayats and introducing democratic decentralisation at all levels, a short resume of the provisions of this Act as regards the new set-up, functions, finance, etc., will also be given to bring the position about administrative set-up up-to-date.

3.2 Municipalities

Ahmedabad district has, besides the Ahmedabad Municipal Corporation, six other Municipal towns, namely, Viramgam, Sanand, Dehgam, Dholka, Dhandhuka and Ranpur.

Ahmedabad Municipal Corporation

Ahmedabad municipality was one of the first among such institutions in the country, having its origin in a committee originally formed in about 1834, to tackle civic problems which represented the spontneous will of the people and their willing co-operation. On 1st July, 1950, the Borough Municipality was raised to the status of a Corporation, looking to the increasing needs of an ever growing city. It has 70 seats and covered an area of 35.91 square miles in 1961.

The problem of water supply was acute in 1950 and per capita availability of water was 26.30 gallons. During the last decade the per capita water supply has increased to 45 gallons. The work of extension of underground drainage system was undertaken after 1950 and during the 2nd Five Year Plan period Rs. 65.04 lakhs were spent.

Towards road development, the length of asphalt roads increased to 280 miles from172 miles in 1950. The length of other types of roads was 202 miles in 1960. The overbridges over railway crossings were constructed at Asarva and Khokhra-Mehmedabad at the cost of Rs. 12.70 lakhs and 9.79 lakhs respectively and underground and approach road at Shahibaug was constructed at the cost of Rs. 12.70 lakhs. The Nehru bridge over Sabarmati was constructed at the cost of Rs. 65.81 lakhs during 1959-60.

As a health and sanitation measure D.D.T. spray programme to eradicate malaria was undertaken since 1951-52; a tuberculosis clinic was also established; and 19 maternity homes here opened in the city. The Vadilal Sarabhai Hospital with 370 beds and Lallubhai Gordhandas Hospital with 100 beds and a hospital for the treatment of infectious diseases are also managed by the Corporation.

A pilot dairy was started in 1955 and developed into a major dairy farm in December 1961 to meet the growing demand of milk in the city. 1,113 tenements were built for Harijan employees of the Corporation and 2,400 tenements for slum clearance during the decade. The Municipal bus transport has developed continuously since 1947. As against 146 buses plying in 1951-52 there were 290 in 1960-61.

INCOME OF THE CORPORATION

The income of the corporation from various sources during 1959-60 and 1960-61 is shown below:—

Income 1959–60 and 1960–61

Rs. in lakhs

Sources	1959-60	1960-61
1	2	3
Total	**380.18**	**428.75**
Rates and taxes	300.56 (79.1)	348.50 (81.3)
Realisation under special act	2.10 (0.6)	1.10 (0.3)
Revenue derived from Municipal property and power	39.99 (10.5)	45.58 (10.6)
Grants and contribution for general and special purposes	29.33 (7.7)	25.45 (5.9)
Miscellaneous income	8.19 (2.1)	8.1 (1.9)

(Figures in brackets indicate percentages)

The incidence of taxation was Rs. 38.13 per head in 1959-60 (1951 population) and 30.31 (1961 Census) in 1960–61. The major portion of revenue was derived from rates and taxes. Besides this Rs. 719.19 lakhs were raised by extra-ordinary and other debts.

EXPENDITURE

The expenditure on various items is given in the table below:–

Expenditure, 1959–60 and 1960-61

Source	Rs. in lakhs 1959-60	1960-61
1	2	3
Total	**811.59**	**1,039.71**
General administration and collection charges	39.42 (4.9)	45.90 (4.4)
Public safety	9.97 (1.2)	11.72 (1.1)
Public health and convenience	144.91 (17.9)	152.32 (14.7)
Public instruction	53.14 (6.5)	62.71 (6.0)
Miscellaneous	29.56 (3.6)	36.92 (3.6)
Expenditure on debts	534.59 (65.9)	730.15 (70.2)

(Figures in brackets indicate percentages)

Expenditure per head was Rs. 102.95 in 1959-60 and Rs. 90.42 in 1960-61.

Other Municipalities

In the following statement are given the figures of population, income and expenditure of other municipalities for the year 1960-61. The population of two municipal towns, namely, Dholka and Viramgam was above 25,000 while that of Dehgam, Dhandhuka and Sanand was more than 10,000 and less than 25,000 and that of Ranpur less than 10,000.

The total income of all the municipalities during 1960–61 was Rs. 18.25 lakhs. The main source of income for the municipalities is rates and taxes which account for 71.95 per cent. The per capita income is Rs. 15.93 for the municipal towns. However, it varies considerably from town to town, being the highest in Dhandhuka (Rs. 16.62) and lowest in Sanand (Rs. 8.90).

The total expenditure of all municipalities during 1960-61 was Rs. 24.11 lakhs and the per capita expenditure was Rs. 20.84

Municipalities, area, population, income and expenditure for the year 1960-61

Municipality	Area in sq. miles	Population	Income in Rs.	Income per head	Expenditure	Expenditure per head
1	2	3	4	5	6	7
Total	**7.18**	**115,723**	**1,825,322**	**15.77**	**2,411,471**	**20.84**
Dehgam	0.66	12,008	243,902	10.61	323,771	26.96
Dhandhuka	1.00	15,640	332,465	16.62	372,053	23.79
Ranpur	0.13	7,929	85,063	8.67	73,717	9.30
Dholka	1.50	26,876	396,282	10.99	463,441	16.87
Sanand	0.50	14,315	222,730	8.90	313,946	21.93
Viramgam	3.39	38,955	544,880	10.89	864,543	22.19

3.3 District Local Board

The Board was constituted of 41 members elected by general constituencies of whom 8 were elected on reserved seats (women4 and Harijans 4). The total income and expenditure of the Board during 1960-61 were Rs. 1,872,791 and Rs. 1,680.971 respectively. The main sources of income are local rates and civil works and the major heads of expenditure are civil public works, medical and education. The following table shows income and expenditure of the Ahmedabad District Local Board during 1960-61 under different heads.

Income and expenditure of District Local Board, 1960-61

Head	Income (in Rs.)	Head	Expenditure (in Rs.)
1	2	3	4
Total	**1,872,791**	**Total**	**1,680,971**
Land Revenue	145,500	Administration	90,356
Local rates	389,388	Education	15,765
Interest	55,436	Medical	105,523
Education	8,208	Pension	24,653
Medical	24,400	Miscellaneous	26,076
Miscellaneous	490,434	Famine Relief	35,436
Civil Works	759,425	Civil Public Works	1,383,162

Details giving income and expenditure under different sources are available for the years 1950-51 and 1955-56 in Official Statistics Table 14.2 published in Part II of this Handbook.

3.4 Panchayats

The number of panchayats in the district at the end of 1960-61 was 595 covering 742 villages and towns. 113 of these panchayats were group panchayats covering 260 villages and the rest were independent panchayats. There were 111 Nyaya Panchayats in the district. The number of panchayats in each taluka/mahal of the district together with their income and expenditure for the year 1950-51, 1955–56 and 1960-61 is given in the following table.

Income and expenditure of Panchayats (in 1950–51, 1955–56 and 1960–61)

Taluka/Mahal	No. of village panchayats			Income (in Rs.)			Expenditure (in Rs.)		
	1950-51	1955-56	1960-61	1950-51	1955-56	1960-61	1950-51	1955-56	1960-61
1	2	3	4	5	6	7	8	9	10
Total	**32**	**181**	**595**	**103,950**	**594,189**	**2,950,328**	**87,233**	**497,138**	**2,369,668**
Ahmedabad City	2	4	20	16,825	36,523	405,344	13,095	43,332	399,366
Viramgam	1	8	116	9,706	36,208	334,474	9,325	21,455	242,825
Daskroi	6	50	97	11,449	180,210	360,818	10,001	175,811	306,693
Dehgam	7	47	107	1,330	84,503	175,905	12,820	73,204	161,120
Sanand	1	6	56	3,120	31,421	225,547	2,476	19,321	196,277
Dholka	7	35	93	38,790	144,595	783,452	27,043	111,032	527,076
Dhandhuka	8	31	106	22,730	80,729	664,786	12,473	52,983	536,311

The above details for the years 1950-51 and 1960-61 are also available in Official Statistics Table 14.3 published in Part II of this Handbook.

The total income of all panchayats for the year 1960–61 was Rs. 2,950,328 while the total expenditure amounted to Rs. 2,369,668. The income and expenditure per head of population covered under panchayats were Rs. 3.15 and Rs. 2.52 respectively. The income and expenditure per panchayat were Rs. 4,959 and Rs. 3,966 respectively.

3.5 Present set-up under the Panchayat Act

The Gujarat Panchayats Act has been brought into force in all the districts of Gujarat (except Kutch and Dangs districts) from 1st April, 1963. In the Kutch district, it has been brought into force with effect from 15th April, 1963. It is not yet made applicable to the Dangs district. In each district there are three tiers of the panchayat organisation, gram/nagar panchayats, taluka panchayats and district panchayat. Municipalities having population not exceeding 10,000 have been converted into gram panchayats and those having population exceeding 10,000 but not exceeding 20,000 have been converted into nagar panchayats. A gram/nagar panchayat is subordinate to the taluka panchayat, while a taluka panchayat is subordinate to the district panchayat according to the scheme of this Act.

According to the provisions of the Gujarat Panchayats Act, 1961, a gram panchayat consists of not less than 9 and not more than 16 members, while a nagar panchayat consists of not less than 15 and not more than 31 members. Provision has been made to reserve seats for women and members of Scheduled Castes and Tribes. A taluka panchayat consists of ex-officio, elected, co-opted and associate members. On account of the national emergency, interim district panchayats had to be constituted in April, 1963. Elections are now proposed to be held and elected district panchayats would be constituted towards the end of March, 1964 in the sixteen districts of the State.

The District Development Officer is the Chief Executive Officer in a district panchayat. He is borne on the cadre of the Indian Administrative Service (senior time-scale) and is appointed by Government. The Chief Executive Officer of the taluka panchayat is the Taluka Development Officer, who is also appointed by Government. Both these Officers are secretaries of their respective panchayats. These panchayats function through various committees appointed for different groups of functions under the Act.

FUNCTIONS

The functions of three tiers of panchayats have been given very elaborately in the three schedules to the Act. In addition, the functions of collecting land revenue (including cesses) and dues recoverable as arrears of land revenue, levied and assessed by or under the Land Revenue Code and all other functions and duties of a village accountant under the land revenue code have been transferred to gram/nagar panchayats. The powers exercised and the functions and

duties performed by the District School Board have been similarly transferred to the taluka and district panchayats and all primary schools have been placed under the control of taluka and district panchayats. A large number of functions such as registration of co-operative societies, approval of amendment to the bye-laws of co-operative societies, calling of or extending the period for the calling of annual general meeting of co-operative societies and such other functions which under the Co-operative Societies Act, were exercised by the Registrar, Co-operative Societies have been transferred to district panchayats. Moreover, functions relating to agriculture, animal husbandry, public health and medical relief, social welfare, cottage industries and small scale industries and District Statistical Office have been transferred on an agency basis to the district panchayats.

STAFF

To enable the panchayats to carry out numerous activities entrusted to them, Government has transferred/deputed a number of its employees alongwith the functions transferred. The staff of the District School Boards and District Local Boards has also been transferred to taluka/district panchayats. It has been envisaged in the Act to constitute a panchayat service in connection with the affairs at panchayats and to maintain a uniform standard in the recruitment for panchayat service. A Panchayat Service Selection Board has been constituted for this purpose.

FUNDS

The panchayats have been given necessary funds to execute all schemes transferred to them. In addition, provision has been made in the Act, for various tiers of panchayat to levy taxes and fees. A gram or nagar panchayat, subject to certain conditions, can levy a tax on buildings, a pilgrim tax, a tax on fairs, festivals and other entertainments, a tax on bicycles or vehicles drawn by animals, a sanitary tax, etc. It can also levy fee on markets, cart stands, tonga stands, the supply of water from wells and tanks for purposes other than domestic use and for cattle. The taluka panchayat and district panchayat can request Government for increase in stamp duty whereupon grant-in-aid equal to the additional amount thus realised became payable to the panchayat. Moreover, provision has been made in the Act for making grants to the panchayats for their activities.

At present, the implementation of the Act is being done mostly through the Commissioner. They have been delegated with most of the powers of the State to exercise supervision over panchayats.

Provision has also been made in the Act under which the State Government will give grants to the panchayats on the basis of the average of the land revenue collected during the last three preceding years, after deducting there from the expenditure on the salaries and training of the secretaries of gram panchayats and Village Accountants and crediting 5 per cent of the amount to the State Equalisation Fund. 50 per cent of the balance will be distributed among gram panchayats and nagar panchayats, 25 per cent among taluka panchayats and 10 per cent among the district panchayats. Out of the remaining 15 per cent of the land revenue, 7½ per cent will be carried to the District Equalisation Fund and 7½ per cent to the Gram Encouragement Fund.

4 POPULATION

4.1 Growth of Population

In 1951, the population of the district as constituted in 1961 was 1,675,750. According to the 1961 Census the same has gone up to 2,210,199 giving an increase of 534,449 or 31.89 per cent, the highest during the last sixty years and also higher than that observed in the case of Gujarat State which is 26.88 per cent. The higher rate of growth can be explained by the inclusion within this district of the industrial city of Ahmedabad, where quite a considerable population from other districts is found to have immigrated. The following table compares the growth rate in the district during the last sixty years.

Variation in population during 1901 to 1961

Year	Population	Decade variation	Percentage decade variation
1	2	3	4
1901	753,025	..	..
1911	792,202	+ 39,177	+ 5.20
1921	846,089	+ 53,887	+ 6.80
1931	939,021	+ 92,932	+ 10.98
1941	1,302,484	+ 363,463	+ 38.71
1951	1,675,750	+ 373,266	+ 28.66
1961	2,210,199	+ 534,449	+ 31.89
1901 to 1961	..	+ 1,457,174	+ 193.51

Sexwise details are available in Census Table A-II published in Census of India, 1961, Volume V-Gujarat-part-II-A.

The pace of growth which is continuous since 1911 has been more rapid after 1921. Comparatively higher growth of numbers between 1951–61 can, however, be attributed to the growing pace of industrialisation and decline in death rate, accompanied by steady improvements in medical and public health servies available to the people since Independence.

Occupied Residentiol Houses and Households

The total number of occupied residential houses in the district is 423,279 or 11.35 per cent in the State. The average number of persons per occupied census house in total, rural and urban areas of the State and District are given below.

Average number of persons per occupied census house, 1961

Total/Rural/Urban	State	District
1	2	3
Total	5.53	5.22
Rural	5.54	5.18
Urban	5.52	5.25

It will be seen that the average number of persons per occupied house in the district is less than that of the State for its total, rural, and urban areas.

The number of households in the district was, total 438,482, rural 170,811 and urban 267,671 and that of houses, total 423,279, rural 167,414 and urban 255,865. The number of households per cent of houses, therefore, comes to 103.59, 102.03 and 104.61 for the total, rural and urban areas respectively. The average number of persons per household for total, rural and urban areas of the district comes to 5.04, 5.07 and 5.02 respectively.

4.2 Rural/Urban Distribution

The criteria for determining whether a place was rural or urban varied from census to census and rendered such data incomparable. A uniform definition for urban areas was therefore, adopted during the Census of 1961, by laying down that a place should be classified as urban if it was (1) a municipality, cantonment or civil lines or, (2) had (a) a population of 5,000 or over and (b) 75 per cent or more of the total male population was dependent on non-agricultural pursuits.

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'Village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distinct number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

4.2 (i) Rural Population

The total number of villages in the district is 749, of which 12 are uninhabited. The total rural population of the district is 866,620, giving an average of 1,040 persons per inhabited village. The proportion of rural population (39.21 per cent) to the total population in the district is much lower than similar proportion in the State, which is 74.23 per cent.

Percentage distribution of rural population by size group of villages, 1961

Size group	No. of villages	Percentage to total No. of villages	Rural population	Percentage to total rural population
1	2	3	4	5
Less than 200	41	5.56	4,192	0.48
200-499	131	17.77	46,723	5.39
500-999	248	33.65	185,281	21.38
1,000-1,999	209	28.36	296,945	34.27
2,000-4,999	98	13.30	265,330	30.62
5,000-9,999	9	1.22	54,766	6.32
10,000 and above	1	0.14	13,383	1,54

Details of sexwise population for taluka/mahals are available in Census Table A-III published in Part II of this Handbook.

About one fourth of villages in the district fall in the class range less than 500, while 62.00 per cent of the total have population varying from 500 to 1,999. Less than one sixth of them are large size villages (2,000 and above) covering 38.48 per cent of rural population. It is significant to note that the major part of rural popu-

lation (72.75) per cent is concentrated in villages having population 1,000 and above. Large size villages is the feature of this district. The tendency of village to grow in size and the concentration of rural population in medium and large size villages are noticeable from these statistics.

4.2 (ii) Urban Population

Statement showing the number of towns classified by population is furnished below:—

Number of towns classified by size groups during 1901 to 1961

	I 100,000 and above		II 50,000 to 99,999		III 20,000 to 49,999		IV 10,000 to 19,999		V 5,000 to 9,999		VI Below 5,000	
Year	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population
1	2	3	4	5	6	7	8	9	10	11	12	13
1961	1	1,206,001	..	..	2	66,431	4	54,788	2	16,359	..	..
1951	1	828,499	..	..	2	47,447	4	52,242	9	61,925	..	..
1941	1	595,210	..	..	1	26,373	2	28,372	4	28,575	2	6,198
1931	1	313,789	..	..	..	..	2	32,708	5	33,557	2	5,635
1921	1	274,007	..	..	1	26,262	1	12,513	4	25,700	3	10,178
1911	1	216,777	..	..	1	20,769	1	13,693	4	26,319	3	10,410
1901	1	185,889	..	..	..	..	3	44,237	4	25,653	2	6,567

Sexwise details for each town/city are available in Census Table A-IV published in Part II of this Handbook.

Nearly 2/3rd of the total population (60.79 per cent) lives in urban areas, as against 25.77 per cent in the State. The number of towns in 1951 (16) has come down to 9 in 1961 owing to declassification of a number of them as a result of change in the definition of urban areas. According to this definition, Mandal and Dabhoda towns have been declassified while Acher, Vadaj, Rakhial, Amraiwadi and Khokhara Mehmedabad towns are merged in Ahmedabad Municipal corporation and only one town namely Ahmedabad Cantonment (Civil) has been newly added.

The urban population of the district, numbering 1,343,579 persons is spread over 9 towns of different sizes of which one, viz,. Ahmedabad town group consisting of Ahmedabad Cantonment (Civil), Ahmedabad cantonment (military), Ranip, Naroda, Sahijpur Bogha and Ahmedabad Municipal Corporation areas comes under Class I and has population of 100,000 and over. There is not a single town under class II. Of rest, 2 are in Class III, i.e., size group 20,000 to 49,999, 4 fall under Class IV and have population above 10,000 and below 20,000 and no town has population below 5,000. The average population of a town in Ahmedabad district is 149,286 persons as compared to 30,380 for the State. The extent of urbanisation is thus found to be comparatively very high than that obtaining in the State as a whole.

4.3 Density

The area of the district in 1951 was 3,401.0 square miles or 4.79 per cent of the total area of Gujarat. In 1961 it was to 3,443.5 square miles or 4.85 per cent of the total area of the State due to changes in the territorial jurisdiction of the district. The corresponding percentages of population for the district as constituted in 1961 are, however, found to be 10.30 in 1951 and 10.71 in 1961. The average density of population is 642 persons per square mile as against 290 for the State. The urban density (17,599) is naturally higher than the rural (257) where the pressure of population is comparatively less and the average density is worked out on the basis of the entire area within the revenue limits of the village and not of the village site. These densities differ for different parts of the district as also for its rural and urban areas as will be seen from the table that follows

Population per square mile, 1961

State/District/ Taluka/Mahal	Population per square mile		
	Total	Rural	Urban
1	2	3	4
State	**290**	**218**	**7,194**
District	*642*	*257*	*17,599*
Ahmedabad City	11,258	856	25,214
Viramgam	285	228	11,491
Daskroi	551	551	..
Dehgam	482	447	18,194
Sanand	279	234	28,630
Dholka	268	210	3,806
Dhandhuka	150	120	2,370

While working out the density of urban areas, the urban units for which area figures are not available have been ignored. Rural density is worked out on the basis of rural population only, though the area figures include the area of those urban units for which separate area figures are not available. The highest density 11,258 is found in City taluka and the lowest 150 in Dhandhuka taluka. In rural areas City taluka has the highest (856) and Dhandhuka taluka the lowest (120) density. But among towns Sanand mahal tops the list with 28,630 persons per sq. mile, the lowest being 2,370 for Dhandhuka.

4.4 Migration

The number of persons born (i) at the place of enumeration, (ii) elsewhere in the district, (iii) outside the district of enumeration but within Gujarat State and those (iv) born outside Gujarat State as per 1961 Census is given below.

Population by place of birth, 1961

Persons/ Males/ Females	Total Population	Place of enumeration	Elsewhere in the district	Outside the district but in the State	Outside the State
1	2	3	4	5	6
Ahmedabad District					
Persons	2,210,199	1,242,035	273,449	462,805	231,940
Males	1,188,269	739,195	83,574	220,810	144,690
Females	1,021,930	502,840	189,875	241,995	87,220
Ahmedabad City					
Persons	1,149,846	565,495	71,742	321,642	190,967
Males	637,004	304,124	37,180	174,584	121,116
Females	512,842	261,371	34,562	147,058	69,851
Percentages					
Ahmedabad District					
Persons	100.00	56.20	12.37	20.94	10.49
Males	100.00	62.21	7.03	18.58	12.18
Females	100.00	49.21	18.58	23.68	8.53
Ahmedabad City					
Persons	100.00	49.18	6.24	27.97	16.61
Males	100.00	47.74	5.84	27.41	19.01
Females	100.00	50.97	6.74	28.67	13.62

In case of 56.20 per cent of the population of the district, the place of enumeration is the same as the place of birth. This proportion for males is 62.21 per cent as against 49.21 per cent for females owing to the migration of females after marriage, which appears to be mostly outside the district. The proportion of females born outside the place of enumeration but within the district is 18.58 per cent as compared to those born outside the district but within the State who account for 23.68 per cent and those outside the State who account for 8.53 per cent only.

Out of the persons enumerated in Ahmedabad City, 49.18 per cent were born in the city itself, the proportion among males being 47.74 per cent and among females 50.97 per cent. The remaining 50.82 per cent of the city population constitutes migrants from outside the city. 6.24 per cent of the population are born elsewhere in the same district, i. e., half of the proportion obtaining in the district as a whole. The proportion of migrants to the city from outside the district and from outside the State is higher than the corresponding proportion in the district. Those born outside the district but within the State of Gujarat claim the highest percentage of immigrants, viz., 27.97 per cent (27.41 per cent of males and 28.67 per cent of females) followed by 16.61 per cent born outside the State.

MIGRATION TO AHMEDABAD CITY

A special study of migrants to Ahmedabad City undertaken in the 1961 Census has revealed some interesting features regarding migrants from other districts of the State.

Ahmedabad city is having 584,351 migrants. Of these 393,384 migrants are from other districts of Gujarat State. The migrants from Mehsana district account for a little more than one fourth (26.20 per cent) of the total migrants from all districts. Ahmedabad district with 18.24 per cent of migrants comes next, and Kaira with 12.55 per eent ranks third. The other districts having significant share are Rajkot (8.04 percent), Surendranagar (5.26 per cent), Bhav- nagar (5.19 per cent),Banaskantha (3.73per cent) and Baroda (3.55 per cent). The main reasons for the migration towards Ahmedabad City seem to be proximity of these districts to Ahmedabad City and attraction to the highly industrialised centre of Ahmedabad where potentialities of employment are nume-

rous and facilities for all types of higher education are readily available. 170,313 or 29.15 per cent of the migrants have migrated to Ahmedabad from States in India beyond Gujarat. The highest proportion of these migrants is found from Rajasthan (33.90 per cent), followed by Uttar Pradesh (27.81 per cent), Maharashtra (19.92 per cent) and Madhya Pradesh (6.50 per cent), most of whom are engaged in the textile industry.

The percentage distribution of population born at the place of enumeration, born elsewhere within the district and outside the district by nine categories of economic activity and of non-workers is shown below.

Percentage distribution of population by categories of workers and non-workers classified by place of birth, 1961

Place of birth	Categories of workers I As Cultivator	II As Agricultural labourer	III In Mining, Quarrying, etc.	IV At Household Industry	V In manufacturing other than Household Industry	VI In Construction	VII In Trade and Commerce	VIII In Transport, Storage and Communication	IX In Other Services	X Non-workers
1	2	3	4	5	6	7	8	9	10	11
District Total	**8.06**	**3.53**	**0.16**	**2.30**	**9.39**	**0.60**	**3.57**	**1.31**	**5.51**	**65.57**
Born at the place of enumeration	10.88	3.71	0.12	1.97	4.47	0.28	2.61	0.62	3.44	71.90
Elsewhere in the district	10.31	8.13	0.25	4.15	6.33	0.46	3.00	0.93	5.98	60.46
Outside the district	12.31	1.39	0.21	2.17	19.38	1.23	5.51	2.68	9.03	56.27

4.5 Sex Ratio

In 1961 the number of females per 1,000 males in the district was 860 which was lower than the similar ratio of 940 for the State. The corresponding rural and urban sex ratios for the district which were 933 and 848 respectively show that the proportion of females was comparatively less in towns than in villages.

The following statement compares sex ratios in towns in 1951 and 1961.

Females per thousand males in urban areas, 1951 and 1961

State/ District/ City/Town	Sex ratio 1951	1961
1	2	3
State	**915**	**896**
District	*785*	*816*
Ahmedabad Town Group.	767	804
(Ahmedabad City)	766	805
Viramgam	955	916
Dholka	946	904
Dhandhuka	1,009	970
Sanand	941	918
Dehgam	960	876
Barwala	972	965
Ranpur	1,052	1,017
Bavla	940	940

The average sex ratio for all the urban areas of the district is very low. However, the sex ratio for Ahmedabad Town Group is significantly lower than the district average due to the concentration of male population brought about by the following factors.

Ahmedabad Town Group:—Capital of the State, industrial and business centre, educational institutions, colleges, university, main railway junction station, jail, scarcity of residential accomodation.

The higher female ratio in Ranpur is mainly due to the absence of male members who have migrated to towns and big cities for service or business.

4.6 Age Distribution

Table C-II shows the distribution of the population by quinquennial age groups. Table C-IV gives single year age returns. Broad age groups are also given in tables B-I and C-II

printed in Part II. Proportionate population figures by broad age groups in 1961 compared separately for males and females with the corresponding proportion for 1951 for the district as constituted then are given below.

Percentage distribution of population by sex and age groups, 1951 and 1961

	Percentage of population by age groups			
	1951		1961	
Age groups	Males	Females	Males	Females
1	2	3	4	5
Total (A to D)	**100.00**	**100.00**	**100.00**	**100.00**
0–4	12.75	14.44	14.59	15.84
5–14	23.23	24.47	25.41	25.64
A 0–14	35.98	38.91	40.00	41.48
15–34	38.84	38.35	34.24	34.92
35–59	21.76	18.18	22.13	19.15
B 15–59	60.60	56.53	56.37	54.07
C 60+	3.42	4.56	3.61	4.43
D Age not stated	N	N	0.02	0.02

N=Negligible

The proportion of both males and females in the age group 0-14 has increased during the decade owing to high birth rate which is responsible for an increase of 4.02 per cent in males and 2.57 per cent in females. But there is a decline in the proportion of males and females in the age group 15–34 and slight increase in the age group of 35-59.

4.7 Marital Status

According to the Census of 1961, 935,839 persons are returned as married, 526, 527 males and 409,312 females. Never married persons account for 1,087,105 or 49.19 per cent of the total population, males being 52.76% and females, 45.03 per cent of their respective population. The widowed are 5.55% and divorced or separated constitute 0.21% only. The following table shows the marital status of males and females in different age groups classified into (i) never married, (ii) married and (iii) widowed, divorced/separated and others.

Age and Marital Status, 1961

	Never Married		Married		Widowed, divorced/separated and others	
Age groups	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total femlaes
1	2	3	4	5	6	7
Total	**52.76**	**45.03**	**44.31**	**45.93**	**2.93**	**9.04**
0– 9	100.00	100.00	..	..	..	..
10–14	93.78	92.10	6.20	7.83	0.02	0.07
15–19	81.07	39.85	18.71	59.71	0.22	0.44
20–24	42.87	6.89	56.19	92.01	0.94	1.10
25–29	14.22	1.41	84.03	96.53	1.75	2.06
30+	3.63	0.80	88.38	71.26	7.99	27.94

No person has been reported as married in age group 0-9 as all such persons were treated as unmarried at the time of sorting. But child marriages still persist in the age group 10–14 to the extent of 6.20 per cent for males and 7.83 per cent for females. It is also note worthy that among males the age of marriage has shifted and risen to 20 and above, as only 18.71 per cent of males have been returned as married in the age group 15–19, while the percentage rises to 56.19 per cent in the age group of 20–24 and to 84.03 per cent in the age group of 25–29. Corresponding proportions for females, however, show that 59.71 per cent of females in the age group 15.19 and 92.01 per cent in the age group 20-24 are married. In other words, in case of females, though the date of marriage has advanced, it has not gone much beyond 15 years, when most of them get married. Examination of the figures of widowed and divorced/separated discloses an interesting feature of marital life in the district in that, they appear to be significant only after the age of 29. While females above 30 years account for 27.94 per cent in this category, males form 7.99 per cent of their population. These figures reveal a greater tendency towards remarriage on the part of widowed males rather than widowed females among whom it is mostly avoided.

4.8 (i) Literacy and Education

According to the Census of 1951, there were 549,418 literates in the district of Ahmedabad as constituted then and formed 32.59 per cent of the total population. Percentage of male literates was then 43.56 per cent, while that of female literates 19.67 per cent. In 1961, the percentage of literacy rose to 41.88 per cent, (52.71 per cent for males and 29.29 per cent for females). Percentage of literacy to total population by age and sex is given for total/rural/urban in the following table.

Literacy by age groups, 1961

Age groups	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8	9	10
All Ages	**41.88**	**52.71**	**29.29**	**27.20**	**39.09**	**14.46**	**51.35**	**60.96**	**39.57**
5–14	52.88	59.53	45.22	38.93	48.84	27.43	62.49	66.92	57.40
15–34	52.90	67.17	36.63	34.48	51.15	17.38	63.57	75.75	48.80
35–59	43.15	58.08	23.08	24.78	40.36	7.84	54.26	67.30	34.26
60 +	28.88	47.72	11.03	16.81	31.38	3.49	39.13	61.15	17.65
Age not stated	14.10	18.29	9.13	15.04	20.97	7.84	13.16	15.57	10.38

The proportion of literates in rural areas is 27.20 per cent (39.09 per cent males and 14.46 per cent females) and in urban areas 51.35 per cent (60.96 per cent males and 39.57 per cent females). Distribution of literates by age shows that in total and urban areas, the highest proportion of literacy among persons is in the age group 15-34, while in rural areas the highest proportion is in the age group 5–14. The highest male literacy is found in 15–34 and the highest female literacy in total, rural and urban areas in 5–14. Examination of literacy figures of the age group 5–14 representing school going ages reveals that more than half (52.88 per cent) of the childern are literate, the proportion for girls being 45.22 per cent. In rural areas, more than half of the 'boys and nearly one fourth of the girls in the age group 5–14 are illiterate. The following table furnishes the sexwise details of literacy by rural/urban for each taluka/mahal of the district.

Rural/Urban literacy by sex, 1961

Taluka/Mahal		Literate and Educated					
		Literates Persons	Percentage total population	Literate males	Percentage total male population	Literate females	Percentage total female population
1		2	3	4	5	6	7
Ahmedabad City	R	16,937	30.83	12,376	42.19	4,561	17.81
	U	630,135	52.25	410,986	61.48	219,149	40.77
Viramgam	R	35,068	22.99	27,487	35.27	7,581	10.16
	U	17,055	43.78	11,426	56.20	5,629	30.22
Daskroi	R	56,317	31.43	40,169	43.05	16,148	18.80
Dehgam	R	45,699	30.68	33,110	43.27	12,589	17.38
	U	5,577	46.44	3,692	57.68	1,885	33.62
Sanand	R	15,506	21.20	12,096	31.97	3,410	9.66
	U	5,911	41.29	4,028	53.98	1,883	27.48
Dholka	R	35,081	25.98	26,764	38.16	8,317	12.82
	U	16,871	41.86	11,456	54.45	5,415	28.11
Dhandhuka	R	31,139	25.36	23,290	36.76	7,849	13.20
	U	14,349	44.84	9,400	58.16	4,949	31.25

These figures reveal that in rural areas, total literacy is the highest (31.43 per cent) in Daskroi taluka, which also has the highest proportion of female literacy (18.80 per cent). But while male literacy is the highest in Dehgam taluka (43.27 per cent), Sanand mahal has the lowest percentage of rural literacy in all the three respects–total (21.20 per cent), male (31.97 per cent) and

female (9.66 per cent). In urban areas, the highest literacy is in Ahmedabad City (52.25 per cent) and the lowest in Sanand mahal (41.29 per cent) These also are the areas where the highest as well as the lowest percentages of male and female literacy are returned.

The spread of literacy in rural areas is naturally less than in urban areas. The number of literate persons is higher in urban areas which is because of better educational facilities and consciousness of urban population about the advantages of education, while people in rural areas are more interested in imparting practical training in agricultural activities.

4.8 (ii) Educational Institutions

At the end of 1960-61, there were 2,352 educational institutions in the district. The information regarding institutions, teachers and students is given in the table that follows.

Number of Educational Institutions, Students and teachers, 1960-61

Educational level	Institutions	Teachers	Students
1	2	3	4
Primary	1,324	6,411	266,720
Secondary	145	2,686	74,548
Higher	26	864	17,838
Special	857	N.A.	22,323
Total	**2,352**	**9,961**	**381,429**

Primary, Secondary, Higher and Special Institutions

The number of primary schools has increased continuously. In 1949–50, there were 586 primary schools. The number increased to 1,162 in 1956 –57 which has further increased to 1,324 in 1960–61. In 1950-51 about 41 per cent of the villages had no schools, the proportion being reduced to 7.9 per cent in 1956–57 and 2.04 per cent in 1960-61. In other words, out of 737 villages in the district (1961 Census), as many as 722 villages or 97.96 per cent had schools and 15 or 2.04 per cent were without schools. Area served per school in rural areas of the district came to 3.55 sq. miles. The number of students per primary school in rural areas was 120.86 and the number of students per teacher came to 42.33. There were 132.21 students in primary schools per 1,000 of population. The increase in the number of students from 1956–57 to 1960–61 is 28.4 per cent. It may be noted that the increase in the number of girl students is greater than that of boy students. The ratio of girl students to 1,000 boy students which was 609 in 1956-57 increased to 639 in 1960–61. Likewise the number of secondary schools in 1951-52 rose from 60 in 1951-52 to 145 in 1960–61. The increase in the number of students in secondary education since 1956-57 is 55.39 per cent. The number of girl students per thousand boy students which was 368 in 1956--57 rose to 471 in 1960–61. The number of institutions also has correspondingly increased.

Ahmedabad city, besides being a centre of higher and technical education, is the seat of two universities, viz., Gujarat University which started functioning in 1950 and Gujarat Vidyapeeth established on 18-10-1920 by Mahatma Gandhiji. Under the jurisdiction of the university, there are 42 colleges spread over Gujarat and Saurashtra. The Gujarat Vidyapeeth has been put on par with other universities of India under a Government of India notification dated 16-7-1963. Besides, the proposal to confer upon the Vidyapeeth library the Status of a central library of the state is under consideration of the State Government. Moreover, the Physical Research Laboratory and Ahmedabad Textile Industrial Research Association (ATIRA) conduct research in the sphere of physics and textile industry respectively.

In 1947 there were only 5 institutions for higher education with 3,187 students. The Gujarat University was established in 1949 and located in Ahmedabad City. The number of institutions imparting higher education has since then increased rapidly. In 1955-56, there were 16 institutions with 9,835 students which respectively rose to 27 institutions and 17,838 students (13,508 boys and 3,165 girls) in the last five years. The number of girl students per 1,000 boy students which was 161 in 1956-57 has increased to 234 in 1960-61. The number of students per institution rose from 572 in 1956-57 to 618 in1960-61. All of them are located in Ahmedabad City.

Of these, 4 were University departments, 5 were recognised institutions and 18 were colleges. In these 27 colleges and institutions there were 864 teachers and 17,838 students in 1960-61.

Special Education

There are in 1960-61 857 special educational institutes with 22,323 students as against 42 such institutes with 2,620 students in 1956-57. The rapid growth in the number of students and institutions is noteworthy.

4.9 Languages

Table C–V in Part II shows the speakers of major languages for the district and each taluka/mahal separately. The distribution of speakers of each major language by rural and urban in the district is as under:—

Distribution of speakers of major languages, 1961

Sl. No.	Major language	Percentage to total population			Percentage of each major language in	
		Total	Rural	Urban	Rural	Urban
1	2	3	4	5	6	7
	Total of all languages	**100.00**	**100.00**	**100.00**	**39.21**	**60.79**
1	Gujarati	80.99	97.02	70.65	46.97	53.03
2	Marathi	1.88	0.10	3.02	2.07	97.93
3	Hindi	4.49	0.36	7.15	3.15	96.85
4	Sindhi	2.06	1.16	2.64	22.14	77.86
5	Urdu	7.98	0.98	12.50	4.81	95.19
6	Bengali	0.05	0.01	0.08	5.57	94.43
7	English	0.02	N	0.04	0.97	99.03
8	Hindusthani	0.04	N	0.06	2.50	97.50
9	Kachchhi	0.05	0.03	0.06	22.43	77.57
10	Kannad	0.10	0.01	0.16	1.86	98.14
11	Kokni	0.09	N	0.14	0.42	99.58
12	Malayalam	0.14	0.01	0.23	2.01	97.99
13	Marwari	1.06	0.22	1.60	8.29	91.71
14	Nepali	0.03	N	0.06	3.82	96.18
15	Punjabi	0.29	0.03	0.46	3.93	96.07
16	Pasto	0.02	N	0.04	6.19	93.81
17	Rajasthani	0.14	0.02	0.22	5.74	94.26
18	Tamil	0.32	0.01	0.51	1.81	98.19
19	Telugu	0.20	0.01	0.32	1.16	98.84
20	Others	0.05	0.03	0.06	23.55	76.45

N=Negligible

It will be seen from the above table that 80.99 per cent of the population in the district have Gujarati as their mother tongue. 46.97 per cent of them live in rural areas and 53.03 per cent in urban areas. The proportion of speakers of other languages are Urdu 7.98 per cent, Hindi 4.49 per cent, Sindhi 2.06 per cent, Marathi 1.88 per cent and Marwari 1.06 per cent.

4.10 Religions

The following table gives distribution of religions.

Religions, 1961

Religion	Population	Percentage of total population
1	2	3
Total	**2,210,199**	**100.00**
Hindu	1,859,816	84.15
Muslim	242,561	10.98
Jain	81,863	3.70
Sikh	3,559	0.16
Christian	18,805	0.85
Other religions	3,595	0.16

It will be seen from the above table that 84.15 per cent of the total population are Hindus, 10.98 per cent Muslims, and 3.70 per cent Jains. Sikhs and Christians respectively form 0.16 and 0.85 per cent of the total. Among others, 1,318 are Buddhists and 2,277 follow other religions and persuasions.

4.11 Scheduled Castes and Scheduled Tribes

4.1 (i) *Scheduled Castes* :

The total population of Scheduled Castes as per 1961 Census is 226,963 which forms 10.27 per cent of the total population of the district. The following table gives the figures of Scheduled Castes for total/rural/urban.

Scheduled Castes, 1961

Total/Rural/Urban	Persons	Percentage of total population
1	2	3
Total	**226,963**	**10.27**
Rural	90,070	10.39
Urban	136,893	10.19

The literate and educated among the Scheduled Castes number 67,125 and constitute 29.58 per cent of the total population of Scheduled Castes of the district. The rural and urban proportion among them is 22.30 per cent and 34.36 per cent of their population respectively in villages and towns. The working population accounts for 82,950 persons or 36.55 per cent of

their population in the district. Workers in special occupations like (i) tanning and currying of hides and skins and (ii) scavenging number 711 (0.31 per cent) and 3,978 (1.75 per cent) respectively of the total population of Scheduled Castes of the district.

Tables of SCT series in Census of India 1961-Volume-V-Gujarat-Part-V-A show details as to number of Scheduled Castes/Tribes, industrial categories, marital status religion, etc., for each Scheduled Caste/Tribe. Sex and percentage distribution of Scheduled Castes population by rural/urban in the district is shown in the table given below.

Percentage distribution of Scheduled Caste population by rural/urban, 1961

Name of Scheduled Castes	Total population			Sex		Percentage to total population of the district			Percentage of each Scheduled Castes population	
	T	R	U	M	F	T	R	U	R	U

Unclassified	1,868	1,133	735	935	933	0.09	0.05	0.04	60.65	39.35

N=Negligible

The predominant Scheduled Castes in the district are Mahyavanshi Dhed, Vankar or Maru Vankar having 117,067 souls or 5.30 per cent of the total population of the district, of whom 37.42 per cent live in villages.

4.11 (ii) Scheduled Tribes

Scheduled Tribes claim 12,215 or only 0.55 per cent of the total population of the district and 0.44 per cent of the Scheduled Tribes of the State.

The following table gives the figures of Scheduled Tribes in the district.

Population of Scheduled Tribes, 1961

Total/Rural/Urban	Population	Percentage of total Population
1	2	3
Total	**12,215**	**0.55**
Rural	5,191	0.60
Urban	7,024	0.52

The literate and educated among them number 2,555 or 20.92 per cent of whom 733 are

returned from rural areas and 1,822 from urban areas.

5 HOUSING

5.1 Housing Census for the first time

In previous censuses, occupied census houses used as dwellings alone were numbered and listed. Non-residential houses such as shops, factories, workshops, temples, mosques, schools, sarais, office premises and business houses, etc., were not entered in the house-list, as it was not necessary to do so for the purposes of enumeration. They have been brought under the purview of the 1961 Census when a regular housing Census was taken for the first time with a view to account for all structures, dwellings or non–dwellings, With the adoption of a uniform house-list throughout the country, important data such as material of wall and roof, tenure status and number of rooms in case of households, number of persons per room and essential data such as name of the proprietor, products manufactured, number of persons employed and kind of fuel or power, if machinery is used in case of workshops and factories, have been collected for the first time on this occasion.

5.2 Types of Census houses and their uses

The following table gives the distribution of different types of Census houses and the uses to which they are put.

Census houses and the uses to which they are put, 1961

Sl. No.	Type of Census houses	Census houses	
		Number	Percentage to total No. of Census houses
1	2	3	4
1	**Total No. of census houses**	**620,844**	**100.00**
2	Vacant houses . .	53,229	8.57
3	Dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings	434,682	70.01
4	Shops and business houses	29,650	4.78
5	Factories, workshops and worksheds . .	8,990	1.45
6	Schools, places of entertainment, medical and social institutions	7,071	1.14
7	Hotels, restaurants and other miscellaneous houses	87,222	14.05

Out of a total of 620,844 houses, 70.01 per cent were used as dwellings, 8.57 per cent were vacant and the rest were used for non-residential purposes such as shops, business houses (4.78 per cent), factories and workshops (1.45 per cent), schools, places of entertainment and medical and other social institutions (1.14 per cent) and other miscellaneous uses as hotels, restaurants and other places, etc., (14.05 per cent). 48·25 per cent of the households live in owned houses, and the rest 51.75 per cent in rented ones. In rural areas, 87.70 per cent households live in owned houses and 12.30 per cent in rented ones. In urban areas 22.17 per cent of the households live in houses of their own and 77.83 per cent reside in rented houses. The higher proportion of rented houses in urban areas indicates the increased demand of houses on the part of those attracted towards towns. An analysis of the material of wall and roof shows that the predominant materials were burnt bricks and mud in case of walls and tiles and corrugated iron sheets in case of roof. The percentage of households having walls with mud and burnt bricks was 62.97 per cent and 31.30 per cent respectively. Households having roofs covered with tiles, etc., accounted for 43.37 per cent and those with corrugated iron sheets 43.16 per cent.

5.3 Households classified by number of members and rooms occupied

The most important classification, however, was one by the number of rooms in the houses occupied by 20 per cent sample households, given in the following table.

Households classified by number of members and number of rooms occupied, 1961

No. of rooms	Percentage to total households	Percentage to total members
1	2	3
No regular room	0.16	0.11
1 room .	63.40	57.62
2 rooms .	25.60	28.06
3 rooms .	5.85	6.82
4 rooms .	2.64	3.52
5 rooms or more	2.35	3.87

Analysis of households according to number of rooms occupied in Ahmedabad City shows that out of every 1000 households, 653 have only one room, 230 have two rooms and 115 have more than two rooms, as against 735 households

occupying one room, 186 two rooms and 77 having more than two rooms in the slum areas of the city where two households have no rooms. These figures reveal that a majority of tenements have only one room in these areas.

5.4 Housing Societies

During the past several decades there has been an intense house building activity in Ahmedabad City which was further accelerated after the formation of the Gujarat State of which it became the temporary capital. As a result, there are 692 co-operative housing societies in the district which have built 10,174 structures. The unique feature of co-operative housing societies is brought out by the fact that the housing societies form 35.97 per cent of all co-operative societies in the district and that the greater proportion of working capital, viz., 15.60 per cent is contributed by the co-operative housing societies. 176 tenements were built at a cost of Rs. 12.92 lakhs under the Low Income Group Housing Scheme. To relieve the shortage of housing in towns especially in the industrial and slum areas, 963 tenements were constructed at a cost of Rs. 27.96 lakhs under the subsidised industrial housing scheme formulated by the Government.

The schemes undertaken by the Bombay Housing Board included the following:–

(1) Industrial housing and related schemes, Ahmedabad.

(2) Low income group housing and related schemes, Ahmedabad.

(3) Welfare schemes for displaced persons including rehabilitation schemes, Ahmedabad (Sardarnagar) and Viramgam.

(4) Industrial housing-*cum*-financial aid scheme, Ahmedabad and Viramgam.

Gujarat Housing Board was inaugurated on the formation of Gujarat State. Under the Industrial Housing Schemes, 616 tenements were built at a cost of Rs. 30 lakhs. For persons of low income group, 812 tenements at an expense of Rs. 55.25 lakhs were constructed, and 4,700 tenements at a cost of Rs. 89.67 lakhs were built for the rehabilitation of the displaced persons. Under financial assistance-*cum*-industrial housing scheme, 8,422 tenements were built at an expenditure of Rs. 256.90 lakhs, and in Viramgam 25 tenements were built at a cost of Rs. 73,000.

6 AGRICULTURE

6.1 Land Utilisation

The utilisation of land resources forms a a major item in any programme of economic planning in an economy which is predominantly agricultural. It reveals the various uses to which land is put and also indicates improved ways of exploitation of its resources for better production.

Land utilisation, 1956-57 and 1960-61

Sl. No.	Item	1956-57		1960-61	
		Area in acres	Percentage of total area	Area in acres	Percentage of total area
1	2	3	4	5	6
1	**Total geographical area** . .	**2,222,000**	**100.00**	**2,201,100**	**100.00**
2	Area under cultivation . . .	1,598,300	71.93	1,547,700	70.32
3	Area other than cultivation . .	623,700	28.07	653,400	29.68
	(i) Cultivable waste, permanent pastures and other grazing lands . .	86,300	3.88	101,500	4.61
	(ii) Others	537,400	24.19	551,900	25.07

Note:

The figures for the year 1956-57 are for the district as constituted then and not as constituted in 1961. Further details are available in Official Statistics Table 3.1 published in Part II of this Handbook.

Comparison between the previous censuses is not possible in view of (i) the changes in classification of land utilization and (ii) territorial changes in the district. In 1960–61 the area under cultivation was 70.32 per cent of the total geographical area and that put to uses other than cultivation was 29.68 per cent. Of the latter 4.61 per cent is cultivable waste, permanent pastures and grazing lands and 25.07 per cent barren and forest lands.

6.2 Cropping Pattern

The changes in the cropping pattern during the quinquennium canbe seen from the following table :

Percentage of area under different crops during 1955-56 and 1960-61

	Crop	1955–56	1960–61
	1	2	3
1	Paddy	3.05	4.20
2	Wheat	19.53	10.70
3	Jowar	18.50	13.07
4	Bajri	11.10	7.54
5	Other cereals	1.22	1.32
	Total cereals	*53.40*	*36.83*
6	Tur	0.37	0.32
7	Gram	0.69	0.31
8	Other pulses	1.39	0.66
	Total pulses	*2.45*	*1.29*
9	Sugarcane	0.02	0.04
10	Potatoes	0.01	..
11	Fruit & Vegetables (excluding Potatoes)	0.54	0.64
12	Condiments & Spices	0.27	0.33
13	Other food crops	0.01	..
	Total food crops	**56.70**	**39.13**
14	Groundnut	1.76	9.60
15	Sesamum	0.57	0.34
16	Castor seeds	1.02	0.39
17	Linseeds	..	..
18	Other oil seeds	1.00	0.49
	Total oil seeds	*4.35*	*10.82*
19	Cotton	31.04	41.38
20	Others fibres	0.02	0.02
	Total fibres	*31.06*	*41.40*
21	Tobacco	0.28	0.26
	Total drugs and narcotics	*0.28*	*0.26*
22	Other non-food crops	7.61	8.39
	Total non food crops	**43.30**	**60.87**
	Total area under crops	100.00	100.00

Details as to area and outturn for the years 1950-51 to 1960-61 for the above crops are available in Official Statistics Table 3.2 in Part II of this Handbook.

The principal food crops of the district are jowar, wheat and bajri. Cotton and ground-nut are the main non-food crops. The percentage comparison of different crops indicates that the food crops are gradually declining from 56.70 per cent in 1955-56 to 39.13 per cent in 1960-61, with a corresponding gain of 17.57 per cent in non-food crops. Cotton has risen from 31.04 per cent in 1955-56 to 41.38 per cent in 1960-61 and groundnut from 1.76 per cent to 9.60 per cent. Among all crops cotton claims 41.38 per cent, jowar 13.07 per cent, wheat 10.79 per cent, groundnut 9.60 per cent, all of which jointly account for 74.84 per cent of the total cropped area.

6.3 Use of improved seeds

The, district has two research centres, one each at Arnej and Viramgam, undertaking research in wheat and cotton respectively. Taluka seed farms have been established at Dhandhuka, Miroli (Daskroi taluka) and Dehgam to meet the requirement of improved seeds. The establishment of seed farms in the remaining talukas is under progress. The amount of improved seeds distributed to cultivators in 1960-61 came to 20,630 B.Mds.

6.4 Fertilisers

During 1960-61, 2,200 B. mds. of ammonium sulphate, 613 B. mds. of super phosphate and 200 B.Mds. of ammonium sulphate nitrate have been distributed to farmers. The total quantity of manures and fertilisers distributed has continuously increased since 1956-57, distribution of which in 1956-57 was 1,650 B. mds. and in 1960-61, 3,013 B. mds.

7 LIVESTOCK

7.1 Livestock

According to the livestock censuses of 1951, 1956 and 1961 the livestock population of the district is found to be distributed in as follows.

Livestock 1951, 1956 and 1961

Categories of livestock		1951	1956	1961
1		2	3	4
	Total Livestock	**582,342**	**596,572**	**575,847**
A	Bullocks and Cows	257,764	279,635	287,678
	1 Males over 3 years	117,444	124,335	138,488
	2 Females over 3 years (in milk)	84,252 (46,519)	89,840 (43,022)	89,923 (40.704)
	3 Young stock	56,071	65,461	59,267
B	Buffaloes	171,371	185,974	177,388
	1 Males over 3 years	1,691	927	1,324
	2 Females over 3 years (in milk)	103,878 (66,513)	103,552 (64,291)	98,840 (59,789)
	3 Young stock	65,802	81,495	77,224
C	Sheep	30,984	21,329	15,714
D	Goats	106,856	93,577	77,845
E	Horses and Ponies	5,111	5,501	6,446
F	Mules	1	15	50
G	Donkeys	8,648	9,190	8,842
H	Camels	1,088	1,310	1,875
I	Pigs	519	40	9

The livestock population of the district has decreased by 6,495 or 1.12 per cent between 1951 and 1961 and by 2.44 per cent during the quinquennium 1956–61. The number of cattle shows a gradual rise during the decade as a result of increase in bullocks and cows. Buffaloes indicate an increase over 1951 though declined in the quinquennium 1956–61. Similar is the case of males and young stock of buffaloes and donkeys. Number of sheep, goats and pigs display a continuous decline while that of horses and ponies, mules and camels shows a gradual rise during the decade.

7.2 Agricultural Tools and Implements

The number of wooden ploughs in 1951 was 61,217 which increased to 64,021 in 1956 and rose to 76,611 in 1961. But the number of iron ploughs has been found to be increasing steadily as they rose to 3,119 in 1956 and 13,049 in 1961 from 1,957 in 1951. The number of carts in 1951 was 30,324 which increased to 33,045 in 1956 and to 35,304 in 1961.

The number of sugarcane-crushers and oil engines in the district was 184 in 1951, but their number has substantially decreased during the quinquennium 1956 to 1961 from 118 to 97. The number of tractors rose from 36 in 1951 to 58 in 1956 and to 159 in 1961. Oil ghanis show a fall in their number from 231 in 1956 to 132 in 1961.

7.3 Animal Husbandry and Veterinary

The district has seven veterinary dispensaries of which two are in Ahmedabad City and one each at Dehgam, Dhandhuka, Dholka, Sanand and Viramgam, having a veterinary officer in charge. Moreover, there are ten veterinary aid centres in the district in charge of stockmen.

The total number of cases treated in the institutions was 13,921. 3,387 cases not brought to the institutions were supplied with medicines. 2,035 cases of contagious diseases and 2,398 cases of non-contagious diseases were treated by veterinary surgeons and stockmen on tour. Their visits to villages numbered 1,113. 970 castrations were performed in the institutions and 69 while on tour. During 1959–60 out of 263,479 brought to the slaughter house in Ahmedabad City managed by the Municipal Corporation, 18,021 were bovine and 239,013 were goats and sheep.

7.4 Fisheries

Ahmedabad being an inland area yields only fresh water fish like Rohu, Mrigal and Catta. The production in this district is only 50 tons per year. Fresh water fish collected from nearby fresh waters and reservoirs are brought to Ahmedabad by trucks. The rights to fish in these public tanks are leased out by Government to local co-operative societies which are three in number. Fish is preserved in ice. The Ahmedabad Municipal Corporation is contemplating the construction of a new model fish market at Mirzapur with a cold storage. Gujarat Fisheries Central Co-operative Association Ltd., with Government aid, organised a scheme to supply fresh and hygenic marine fish at economical rates. It erected three model stalls in Ahmedabad city, viz., Panchkuwa, Dariapur and Jamalpur where fish is being retailed to public. These fish come from Veraval, Porbandar, Mangrol and Kandla. Fresh fish is sent to Delhi from Ahmedabad once

a week. About 20 tons of fish is thus sent to Delhi every month. At present Gujarat Fisheries Central Co-operative Association has hired a cold storage and intends to construct one having a capacity of 60 tons at Khokhra Mehmedabad.

8 IRRIGATION

8.1 Sources of Irrigation

The net area irrigated by various sources during 1960-61 was 1.138 lakh acres which constitutes 7.4 per cent of the cropped area. Of the total irrigated area, the area irrigated by wells was 52.10 per cent while irrigation by canals and tanks accounted for 39.26 per cent and 2.77 per cent respectively. There are 108 tube-wells in the district, of which 20 are in Daskroi, 56 are in Dehgam, and 32 in Viramgam. There are 13,902 masonry wells and 924 are kutcha wells.

8.2 Area Irrigated

In 1960–61, the net area irrigated was 113, 800 acres or 7.4 per cent of the net area shown as against 94,200 acres or 6.0 per cent of the net area sown in 1955-56. Main crops under irrigation are rice, wheat, cotton chillies, fodder crops and barley. The area irrigated under main crops for the years 1955-56 and 1960-61 is shown below.

Area irrigated under main crops, 1955-56 and 1960-61

	Area in acres	
Crops	1955-56	1960-61
Rice	35,600	46,300
Wheat	25,400	32,000
Cotton	8,700	18,500
Chillies	1,200	4,100
Fodder crops	2,700	3,700
Barley	400	1,300

Rice was sown in 38.84 per cent, wheat in 26.85 per cent, cotton in 15.52 per cent, chillies in 3.44 per cent, fodder crops in 3.10 per cent and barley in 1.09 per cent of the total area under irrigation. Acreage of cotton under irrigation shows considerable increase to 18,500 in 1960-61 from 8,700 in 1955–56.

8.3 Irrigation Projects

Four medium size works available for irrigation are (1) Nani Fatewadi Canal having the capacity of watering 19,000 acres, (2) Moti Fatewadi Canal 16,000 acres, (3) Ghoda-Feeder 13,000 acres, and (4) Vasai tank 1,500 acres and Bareja 940 acres.

9 CO-OPERATION

9.1 Co-opertive Societies, their types, etc.

The number of co-operative societies in the district during 1960–61 was 1,789 having a membership of 231,550. The percentage of co-operative societies in Ahmedabad district to total co-operatives in the State is 40.32 per cent. The working capital was Rs. 214,096,000 or Rs. 119,673 per society, and Rs. 1,627 per member. Percentage distribution of co-operative societies, membership and working capital according to different classes is given below.

Percentage distribution of co-operative societies, members and working capital

Sl. No.	Class of society	Percentage to the total		
		Societies	Members	Working capital
1	2	3	4	5
1	Primary agricultural credit societies	29.1	22.7	17.0
2	Primary agricultural non-credit societies	9.9	8.1	7.1
3	Primary non-agricultural credit societies	8.6	32.7	5.4
4	Primary non-agricultural non-credit societies	52.1	16.0	42.2
5	Central non-agricultural societies	0.2	19.1	6.6
6	Central co-operative bank and banking unions	0.1	5.5	21.7

The percentage distribution of co-operative societies, membership and working capital reveals that a large majority of co-operatives are non-agricultural non–credit societies due to the predominantly urban economy of Ahmedabad City, as 91.6 per cent of such societies are in Ahmedabad City taluka. Though the membership in non-agricultural non-credit societies is comparatively less, only 76 per society, the working capital per member is the highest Rs. 45,750 in this category. The development of co-operative movement in different taluka/mahals of the district is not uniform as will be seen from the statement that follows.

Name of taluka/mahal	No. of societies	No. of members	Percentage of population covered	Average number of persons per society	Average working capital per society (Rs.'000)
1	2	3	4	5	6
Ahmedabad City	1,036	157,051	62.28	152	161.0
Daskroi	135	11,851	33.07	88	27.0
Dehgam	83	7,287	22.64	89	25.6
Dhandhuka	163	14,051	45.38	86	53.1
Dholka	145	16,670	51.99	115	105.7
Sanand	68	8,054	46.05	118	100.5
Viramgam	159	16,586	43.30	104	67.7
Total	**1,789**	**231,550**	**52.45**	**129**	**119.7**

Taking the coverage of population as the criterion of the development of co-operation, City taluka tops the list with 62.28 per cent of its population under the movement. In Dehgam and Daskroi, the movement has covered less than 40 per cent of their population. The size of the co-operative societies and the working capital per society are also the factors which determine the strength of societies. Ahmedabad City taluka has the largest number of members per society, i.e., 152. It has also more working capital (Rs.161,000) per society. Dholka and Sanand come next, while Dehgam and Daskroi talukas rank the lowest.

9.2 Primary Agricultural credit societies

The number of primary agricultural credit societies during 1960-61 was 521 as against 241 in 1951-52. The membership and the working capital have increased from 22,221 to 52,525 and Rs. 3,637,100 to Rs. 6,889,315 respectively during the decade.

Primary Agricultural non-credit societies

The number of primary agricultural non-credit societies during 1960–61 rose to 178 from 25 in 1951–52 and the membership from 5,318 to 18,571 during the decade.

Primary non-agricultural credit societies

The number of primary non-agricultural credit societies during 1960-61 was 152 in comparison to 76 in 1951-52. The number of members has increased from 56,687 to 75,851 and working capital from Rs. 9,385,848 to Rs. 11,512,000 during the decade. Thus the percentage increase in number of societies, membership and working capital is 100.0, 33.8 and 22.8 respectively.

Out of 152 societies in the district 125 societies are located in Ahmedabad City taluka accounting for 82.2 per cent of the total number, 92.4 per cent of membership and 94.2 per cent of working capital. This is obviously due to the concentration of this movement in the city of Ahmedabad.

Primary non-agricultural non-credit societies

The number of primary non-agricultural non-credit societies was 932 in 1960-61 in comparison to 384 in 1951-52. The membership has declined from 72,531 to 39,092, but the working capital has increased from Rs. 29,924,454 to Rs. 90,214,000 during the decade. In other words, while the membership has declined by 46.9 per cent, the number of societies and working capital have increased by 142.7 and 201.8 per cent respectively.

Out of 932 primary non-agricultural non-credit societies working in the district, 854 are located in the Ahmedabad City taluka, making up 91.6 per cent of the total. Their membership and working capital in City taluka constitute 89.0 and 98.6 per cent of the total.

9.3 Regulated markets

In 1948, there were four regulated markets for agricultural produce. Since 1957 there are six agricultural produce market committees. They were established under the Bombay Agricultural Produce Market Act, 1939 at Ahmedabad, Dehgam, Viramgam, Bavla, Sanand and Dhandhuka. Six principal market yards and six subyards function under these committees. Practically all the major assembling markets and most of the minor markets in the district have been brought under regulation.

10 ECONOMIC ACTIVITY

10.1 Definitions

The criterion of income or economic independence was adopted for measuring the economy

of the country during the past censuses. On the present occasion emphasis is on the work done or the economic activity pursued by an individual so that all people such as family workers and children who work but do not earn enough for their maintenance are also accounted for as workers. Another important change relates to the presentation of the economic data according to the nine industrial categories of workers and non-workers instead of the eight livelihood classes classified by self-supporting persons and their dependents in 1951.

STATUS OF EMPLOYMENT

Persons doing work other than that as cultivator or agricultural labourer or engaged in household industry have been classified into following four categories:—(i) Employer, (ii) Employee, (iii) Single worker and (iv) Family worker. In view of the wide range of economic data included in this section, it will be useful to define in brief the various terms used.

(i) *An Employer* is a person who has to employ other persons in order to perform the nature of work undertaken by him.

(ii) *An Employee* is a person who usually works under some other person for salary or wages in cash or kind.

(iii) *A Single worker* is a person who works by himself but not as head of household in a household industry. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually.

(iv) *A Family Worker* is a member of the household who works without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season.

Industries are classified as household and non-household. A household industry is defined as an industry which is not run on a scale of a registered factory and conducted by the head of the household himself and/or mainly members of the household at home or within the villages in rural areas and only home in urban areas. Rest of the industries, viz., business, trade, profession or service are non-household industries.

10.2 Distribution of workers and non-workers

The following table gives the distribution of population by workers and non-workers.

Distribution of population by workers and non-workers, 1961

Workers/Non-workers	Persons		Percentage to total population	
	State	District	State	District
1	2	3	4	5
Total Population	**20,633,350**	**2,210,199**	**100.00**	**100.00**
Workers	8,474,588	760,918	41.07	34.43
Non-workers	12,158,762	1,449,281	58.93	65.57

The following Statement shows the distribution of workers into 9 industrial categories.

Distribution of workers and percentage to total workers, 1961

Sl. No.	Category of workers	Population		Percentage of total workers	
		State	District	State	District
1	2	3	4	5	6
1	As cultivator . .	4,519,060	178,136	53.32	23.41
2	As Agricultural labourer . .	1,252,000	78,017	14.77	10.25
3	In mining, quarrying, livestock, forestry, fishing, hunting, plantation, orchards and allied activities . .	104,850	3,627	1.24	0.48
4	At household industry . .	555,606	50,873	6.56	6.69
5	In manufacturing other than household industry	536,159	207,484	6.33	27.27
6	In construction . .	90,043	13,248	1.06	1.74
7	In trade and commerce . .	411,156	78,894	4.85	10.37
8	In transport, storage and communications	159,061	28,860	1.88	3.79
9	Other services . .	846,653	121,779	9.99	16.00

The population of the district is distributed into workers and non-workers in the proportion of 34.43 per cent and 65.87 per cent respectively. Amongst the working population, cultivators account for 23.41 per cent and agricultural labourers 10.25 per cent only as against 53.22 per cent and 14.77 per cent respectively for the State. The striking feature of the economic pattern obtaining in the district as against that of the State is that though the largest number of workers (33.61 per cent) is engaged in agricultural pursuits, this proportion is very low compared to the State average of 68.09 per cent. On the other hand, manufacturing industry claims as many as 27.27 per cent of the workers as against only 6.33 per cent in the State as a whole due to the inclusion in this district of the premier industrial city of Ahmedabad. Next in order are other services comprising 16.00 per cent, trade and commerce 10.37 per cent and household industries 6.69 per cent.

10.3 Class of worker

Industrial classification by sex and class of worker of persons at work in household and non-household industry is shown in details in Census Tables B-IV-A and B.

Persons at work in household industry

	Persons	Percentage
1	2	3
Total	**50,873**	**100.00**
Employee	2,565	5.04
Others	48,308	94.96

As stated earlier, household industry is run mostly by members of the household, the need for having employees working for salary or wages being negligible.

Persons at work in non-household industry, trade, business, profession or service

	Persons	Percentage
	1	2
Total	**453,892**	**100.00**
Employers	32,232	7.10
Employees	314,412	69.27
Single workers	88,244	19.44
Family workers	19,004	4.19

It will be seen from the above figures that in non-household industries, trade, business, profession or service, employees (69.27 per cent) predominate and account for more than 2/3 of the workers engaged in these categories wherein single workers account for 19.44 per cent, employers 7.10 per cent and family workers 4.19 per cent only.

10.4 Principal and Secondary Work

Principal Work : In case of a person who is engaged in more than one productive activity, the principal work is the one on which the person spends most time.

Secondary Work : The work which is the next in importance to his principal work which occupies most time is secondary work.

Persons working principally as cultivators, as agricultural labourers or at household industry and following any of these as secondary work as given in table B-VII Part-A are as under.

(A) Persons working principally as cultivators and doing secondary work—

(i)	at Household industry	5,436
(ii)	as agricultural labourers	8,541

Persons working principally as agricultural labourers and doing secondary work—

(i)	at Household industry	1,633
(ii)	as cultivator	2,625

Persons working principally at household industry and doing secondary work—

(i)	as cultivator	2,381
(ii)	as agricultural labourer	1,534

(B) In table B-VII Part B persons working in non-household industry, trade, business, profession or service who are also engaged in household industry are 685.

Persons working principally as cultivators and agricultural labourers take more to agricultural labour and cultivation as their secondary means of livelihood rather than household industry.

10.5 Occupational Classification

The two concepts, viz., industry and occupation are quite distinct, though often mistaken for

each other. 'Industry' means that sector of economic activity in which the earner is engaged, e.g., textile industry, automobile industry, whereas the 'occupation' describes the exact function that an individual performs in that economic activity, e.g., fitter, carpenter, etc.

Table B-V in Part II of this Handbook shows the distribution of persons at work other than cultivation. This type of detailed classification based on National Classification of Occupations has been done for the first time in 1961. The percentage distribution for the State and the district is given below.

Percentage distribution of workers according to Occupational Divisions, 1961

Occupational Division	State	District
1	2	3
0 Professional, technical and related workers	5.95	4.52
1 Administrative, executive and managerial workers	2.32	2.14
Clerical and related workers	6.41	8.16
3 Sales workers	13.88	14.00
4 Farmers, fishermen, hunter, loggers and related workers	11.73	4.90
5 Miners, quarrymen and related workers	0.58	0.05
6 Workers in transport, storage and communication occupations	4.24	3.93
7–8 Craftsmen, production process workers and labourers not elsewhere classified	46.67	53.88
9 Service, sport and recreation workers	7.96	8.39
X Workers not classified by occupation	0.26	0.03

The lower proportion of 4.90 per cent in the district for Occupational Division 4 relating to farmers, fishermen, etc., against the corresponding proportion of 11.73 per cent in the State can be attributed to the greater extent of urbanisation in the district and lower percentage of persons in the rearing of cattle, logging of woods, etc., and other allied activities in rural areas. The most important occupational divisions in the State as well as the district are division 7–8, craftsmen, production process workers and labourers not elsewhere classified and Division 3, sales workers.

10.6 Non-workers

Non-workers account for 1,449,281 persons, 526,987 males and 922,294 females. The distribution of non-workers by eight broad categories is shown in Table B-IX in Part-II. Percentage distribution of non-workers by sex according to their type of activity is shown below for total/rural/urban, 1961.

Distribution of non-workers according to their type of activity, 1961

Sl. No.	Categories of Non-workers	Total/Rural/Urban	Males	Females
1			2	3
1	Full-time students	T	40.47	14.36
		R	33.59	8.97
		U	44.44	17.43
2	Household duties	T	0.17	49.69
		R	0.14	45.77
		U	0.18	51.92
3	Dependents, infants and disabled	T	52.96	34.64
		R	63.54	43.53
		U	46.85	29.59
4	Retired, rentiers, etc.	T	2.59	1.15
		R	1.53	1.56
		U	3.21	0.92
5	Beggars, vagrants	T	0.28	0.07
		R	0.39	0.10
		U	0.22	0.04
6	Inmates of penal, mental and charitable institutions	T	0.49	0.06
		R	0.12	0.05
		U	0.70	0.06
7	Persons seeking employment for the first time	T	1.07	0.01
		R	0.35	0.01
		U	1.49	0.01
8	Unemployed but seeking work	T	1.97	0.02
		R	0.34	0.01
		U	2.91	0.03

The distribution pattern of non-workers among males and females is very dissimilar. Among male non-workers, 40.47 per cent are students and 52.96 per cent dependents, as against 14.36 and 34.64 per cent respectively among females. Higher percentage in the category of dependents among males is likewise explained by the general absence of household duties among males who claim 0.17 per cent in this category against 49.69 per cent among females.

The higher percentage of full-time students in the urban sector as compared to rural is, however, explained by the greater consciousness and opportunity townspeople have in the matter of education. The percentage of females engaged in household duties is found to be higher in urban areas than that in rural areas, as womenfolk in villages in addition to their attending to household chores also participate in agriculture and household industry. While the percentage of unemployed persons seeking work is 3.04 for males, that for females is insignificant.

11 INDUSTRIES, POWER AND MINING

11.1 Registered Factories

Ahmedabad city is the largest industrial city in the Gujarat State. With its mills and large number of labourers employed therein, the city stands first in the cotton textile industry of India from the point of view of output. There are 973 factories in the district of which working factories number 912. The average number of workers employed daily comes to 1.64 lakhs on 879 reporting factories. The highest average number of workers employed daily is in textile manufacture, viz., 1.36 lakhs. Next comes machinery (except electrical machines) manufacturing industry which employed 5,652 workers per day on an average in 198 reporting units.

11.2 Joint Stock Companies

357 Joint Stock Companies had authorised capital of Rs. 7,840 lakhs and subscribed capital of Rs. 2,786 lakhs. Processing and manufacturing companies and commerce (trade and finance) companies dominate the joint stock field accounting for 73.4 per cent and 11.9 per cent respectively of authorised capital and 87.3 per cent and 11.3 per cent respectively of subscribed capital. This indicates highly developed state of industrialisation in the district.

Industrial activities in the district are clearly highlighted by the fact that out of 357 companies, 195 were registered for processing and manufacturing of different products. There is a rapid increase in the number of companies registered for processing and manufacture of metals, chemicals and chemical products. The number of companies in this group was 68 in 1960-61.

11.3 Banking

There were 39 banking offices of scheduled banks in the district at the beginning of the First Five Year Plan in 1950. During the decade 1951-60, 18 new banking offices were opened. The percentage increase in banking offices during First and Second Five Year Plan period was 46.15.

There were only three offices of co-operative banks in 1950-51. Co-operative banking facilities increased substantially during both the Plan periods, with 11 banking offices in this sector in 1955-56 and 26 in 1960-61.

11.4 Small Scale Industries

In addition to registered factories noted above a number of small industrial establishments is working in the district. Especially in Ahmedabad City numerous small engineering works and establishments have flourished, some of which are ancillary to the large scale industries. They include foundries, manufacture of small machines like pumps, bobbin making, etc. The city is famous since olden times for its textiles and other handicrafts. Besides the powerloom industry, textile dyeing, tie and dye work and block and screen printing are among its important handicrafts. Other industries include block engraving, cane and bamboo work, lathe-turned and lacquered wooden articles, ivory and wood carving, casting of brass and bell metal objects, stone carving, indigenous embroidery, etc. Other important handicrafts centres of the district are Dholka, well-known for its handloom textiles and woollen blankets and Dolarana-Vasana for tie and dye work.

11.5 Electricity

In Ahmedabad district 9 towns except Barvala and Ranpur and 48 villages are electrified.

Units of electricity sold, 1950-51, 1955-56, and 1960-61

['000 K.W.H.]

Year	Kilowatt hours sold to public for: Domestic consumption	Commercial light and small power	Industrial power	Other purposes	Total utilisation of electricity
1	2	3	4	5	6
1950-51	338	326	2	27	*248,961
1955-56	15,040	6,836	404,992	122,761	549,629
1960-61	26,231	17,624	546,695	183,552	774,102

* Includes figures for cols. 2 to 5 in case of those private licence holders who have not furnished separate figures for domestic, commercial, and industrial comsumption and for other purposes.

Electricity is supplied in this district by Ahmedabad Electricity Company, Gujarat Electricity Board,Sanand Electricity Supply Company, Viramgam Electricity Supply Company and Dhandhuka Power House. Electric power sold to ultimate consumers by these companies during 1960-61 was to the tune of 774,102 thousand K.W.H.

11.6 Factories and workshops, classified by power used and no power used

Statistics of census houses used as factories, workshops and worksheds classified by power and no power used have been compiled for the first time during the Census of 1961 and extracted below for the State and district.

Factories and workshops classified by power and no power used, 1961

Power/ Fuel	Rural/ Urban	State: No. of factories, etc.	State: Percentage to total	Disirict: No. of factories, etc.	Disirict: Percentage to total
1	2	3	4	5	6
Total	**R**	**34,447**	**100.00**	**1,526**	**100.00**
	U	**45,686**	**100.00**	**9,542**	**100.00**
Electricity	R	1,248	3.62	75	4.92
	U	12,311	26.95	2,439	25.56
Liquid fuel	R	4,687	13.61	257	16.84
	U	1,282	2.81	77	0.81
Coal, wood and bagasse	R	3,039	8.82	102	6.68
	U	3,453	7.56	871	9.13
Other power	R	82	0.24	..	..
	U	85	0.18	10	0.10
No power	R	25,391	73.71	1,092	71.56
	U	28,555	62.50	6,145	64.40

The foregoing table is restricted to census houses used as factories and workshops classified by power and no power used in 1961.

Factories using electricity in urban areas of the district are proportionately less than those in the State while in case of rural areas their proportion is higher than in the State. The proportion of factories using electrical power is less in villages than in towns, both in the district and the State, owing to the paucity of electric supply and industries in rural areas. The use of liquid fuel in the villages is a little higher in the district than in the State. The proportion of units using no power is obviously much higher in rural and urban areas in the State as well as in the district owing to predominance of traditional crafts and industries in state economy.

12 TRANSPORT AND COMMUNICATIONS

12.1 Roads

The total road length both metalled and non-metalled in the district managed by P.W.D. and the District Local Board is 836.54 miles. Of this 74.97 miles are of national highway, 141.43 miles state highway, 389.09 miles district roads and 231.05 miles village roads. The table given below shows the category of roads.

Type of roads (in miles), 1960-61

Type of roads	Miles
1	2
Total	**836.54**
National highway	74.97
State highway	141.43
Other district roads	389.09
Village roads	231.05

Classifying the roads according to surface, asphalt claims 32.7 per cent, cement concrete 4.0 per cent, water-bound macadam 5.8 per cent

and murram and other lower types of surfaces 57.5 per cent.

Roads under Municipalities

In addition to roads maintained by the P.W.D. and the District Local Board, 527.58 miles of roads were under municipalities, 482 miles under Ahmedabad municipal corporation and 45.58 miles under other municipalities. Of the total road mileages 2.52 miles (0.5 per cent) of roads are cement concrete, 297.12 (56.3 per cent) are black topped, 6.98 (1.3 per cent) are water-bound macadam and 220.96 (41.9 per cent) are lower types of roads.

12.2 Railways

Ahmedabad district has 254.25 miles of railways. The Bombay-Viramgam broad-gauge railway line passes through the district. The length of the broad-gauge line in the district is 60 miles with 15 railway stations on it.

The mileage of metre gauge railway lines in the district is 194.25. There are three railway lines starting from Ahmedabad city, viz., Ahmedabad-Prantij, Ahmedabad-Botad and Ahmedabad-Delhi. Other railway lines passing through the district are Botad-Surendranagar, Viramgam-Surendranagar, Viramgam-Mehsana and Kalol-Bahucheraji. There are 42 railway stations in this district on these lines. There is no narrow-gauge railway line in the district.

Thus, the total railway mileage including both broad-gauge and metre-gauge in the district is 254 with 57 railway stations. The area of the district being 3,380.8 square miles, the railway mileage per 1,000 square miles is 75 while it is 10.2 miles per lakh of the population.

12.3 Ports

Dholera is the only port in the district situated in Dhandhuka taluka. It is a non-intermediate minor port open only for costal trade. The total cargo handled at this port was 2,363 tons in 1956-57 and has continuously declined till it was only 785 tons in 1960-61.

Municipal Bus Transport

Ahmedabad Corporation, through Ahmedabad Municipal Transport Service, has 8,000 timing schedules of 290 buses on 101 routes.

12.4 Communications

The total number of post offices in the district was 290 (1961), to which it risen from 191 in 1956–57, an increased during the intervening period by 51.8 per cent. The number of post and telegraph offices in the district in 1961 was 132 and the number of villages without post office 482, or 65.4 per cent of the total number of populated villages. There were 489 letter boxes. The population served per post office comes to 7,621 and per postman 5,403 persons.

Telephones

Ahmedabad district has a net work of telephone exchanges, long distance public call offices and local public call offices. All taluka headquarters, and Bavla town and Nandej village are interconnected by the telephone system. Ahmedabad city, Bavla, Viramgam and Dholka towns have telephone exchanges from which local lines are provided. Dehgam and Nandej are each provided with a long distance public call office only. Local lines are given from the public call offices for facilitating trunk call traffic only.

Radio

The radio licences issued and renewed numbered to 46,109 in 1961.

13 MEDICAL AND PUBLIC HEALTH

13.1 Medical Institutions

During 1960, medical facilities in the district were provided by the State through 24 medical institutions, which include 3 hospitals, 19 dispensaries and 2 Ayurvedic dispensaries. The staff in these institutions consisted of 125 doctors and 279 nurses. The number of beds in these institutions was 897 and the number of indoor and outdoor patients treated was 25,626 and 242,521 respectively.

13.2 Vital Statistics

The Statement given below shows vital statistics of the district for the year 1957-60.

Birth rate, death rate and natural increase in Population, 1957-60

Year	Birth rate	Death rate	Natural increase in population
1	2	3	4
1957	34.1	17.0	17.1
1958	34.2	17.1	17.1
1959	37.6	14.8	22.8
1960	34.0	15.2	18.8

68,839 births and 30,809 deaths were registered in 1960-61. The birth rate of the district comes to 34.0 and the death rate to 15.2. The infant deaths were 6,887 and the infant mortality rate was 100 per 1,000.

The data on vital statistics available being incomplete and defective are useful for drawing general conclusions only. They indicate a fall in the death rate and rise in the rate of survival which can be reasonably attributed to improvement in medical and health facilities since Independence.

Medical

Towards providing medical facilities in the district there has been a marked progress in the last decade. Ahmedabad Civil Hospital is a first class hospital with 500 beds, having the latest equipment, appliances and laboratory. Further, there are two hospitals, namely Vadilal Sarabhai General Hospital, and Lallubhai Gordhandas Hospital managed by Ahmedabad Municipal Corporation, besides one run by the Western Railway. In Ahmedabad city, the Municipal Corporation also runs one epidemic hospital in addition to 17 out-patients allopathic, 2 Ayurvedic and 1 Unani dispensaries. Towards facilities to T.B. patients, 50 beds are reserved in the Civil Hospital and two units run by the Municipal Corporation. There is a separate Mental Hospital also in Ahmedabad City.

No. of hospitals, doctors, nurses and No. of patients, 1960

Sl. No.	Item	No.
1	Hospitals and Dispensaries .	22
2	Doctors	125
3	Nurses	279
4	Patients	
	(a) Indoor patients . .	25,626
	(b) Outdoor patients . .	242,521

There were 279 nurses and 125 doctors of whom 117 doctors were working in urban areas and 8 in rural areas.

13.3 Health Centres

Primary health centres are established one each at Dehgam, Dholka, and Bhimtalav and Dholera of Dhandhuka taluka. Each health centre has three sub-centres, rendering maternity, child welfare and family planning services. In Ahmedabad city 19 maternity homes are run by the Corporation. Out of 20 family planning centres in the district, 15 are run by local bodies and 5 by Government.

89,938 persons were given small pox vaccine. Towards B.C.G. vaccination, 474,007 persons were tested in the district, of whom 92,088 were vaccinated. The Municipal Corporation also tested 16,968 persons, of whom 5,150 persons were vaccinated. To eradicate malaria, D.D.T. spray work is continuously carried out in the district and the City.

13.4 Drinking Water facilities

During the First Five Year Plan Government encouraged the schemes for providing water facilities by municipalities and village panchayats. Government used to bear 50 per cent of total expenditure on schemes of rural water supply and gave grants-in-aid in the proportion of 40 per cent to City municipalities and 33⅓ per cent to Borough municipalities. Viramgam and Dholka municipalities took advantage of these schemes by making arrangements for storage and public water taps.

14 LABOUR AND SOCIAL WELFARE

14.1 Labour Welfare

Ahmedabad city is the biggest city of Gujarat State having the largest number of labourers. One labour federation and 118 trade union having the membership of 134,185 persons function in the district.

For the welfare of labourers a separate Gujarat Labour Welfare Board is established after the formation of Gujarat State. This Board runs

eleven labour welfare centres near labour colonies in the city. The centres undertake various entertainment and welfare activities like cinema, dramas, music, sports and games, education and female and child welfare.

There are three beggars, homes and receiving centres in the district situated at Odhav, Naroda and Dabhoda. Naroda beggars' home is for males while Dabhoda beggars' home is for females. The district also has a school for deaf and dumb and blind and an orphanage. The district has one sub-regional employment exchange, where 23,353 candidates were registered during 1960-61. The total number on the live register on 31st March 1961 was 10,943. During the year, 3,636 vacancies were notified and 2,285 placements were made. Various other social welfare activities are also undertaken in the district. The Ahmedabad District Probation and After-care Association was established 25 years ago. There is one remand home where delinquent boys of this district as well as of Banaskantha, Mehsana and Sabarkantha districts are kept. The girls are sent to social institutions, namely Vikas Gruh and Mahipatram Rupram Ashram recognised by Government. There were 42 boys in remand home on 31-3-1961 where ordinarily 50 to 55 children are admitted and relieved every month.

Adult literacy classes are held in the Ahmedabad city social education centres and in Community Development Blocks. The number of classes held during 1960-61 was 73 wherein 928 adults were made literate. There are 223 youth clubs and farmers' unions and 52 mahila mandals in Community Development Blocks which undertake various social and cultural activities to promote social welfare in the countryside.

The Social Welfare Department has constructed 87 tenements for Scheduled Castes during the decade.

15 PRICE TRENDS

The average retail prices of important foodstuffs during each calendar month of 1961 collecte l for Ahmedabad, the headquarters of the district, are given in Table 16.1 in Part II of this Handbook.

The prices of superior cereals like rice and wheat were the highest in May and November respectively. The prices of jowar and bajri were the highest in the month of June, in pulses gram recorded the highest price in the month of September. The price of arhar (dal) was the highest in the month of December, whereas moong and udid registered the highest prices in months of July and September respectively. The data relating to Consumers' Prices Index Numbers for Ahmedabad City for the years 1951 to 60 giving the monthwise figures with break-up of groups and sub-groups of Cost of Living Index Numbers has been given in the Official Statistics Table 16.2 published in Part II of this Handbook.

16 COMMUNITY DEVELOPMENT

16.1 Community Development Programme

The Community Development Programme, a unique and bold effort to mobilise public enthusiasm and co-operation in rebuilding the rural economy of India was inaugurated in the district on 26th January,1954. Dehgam project was the first Community Development Project started in the district on 26th January, 1954. The programme since then has undergone various organisational changes as a result of the recommendations of the Balawantray Mehta Committee, appointed by the Planning Commission in 1957 to examine the working of the C.D. Programme and related matters and to recommend measures for improving the quality, tone and content of the programme. In pursuance of the recommendations of this Committee the existing distinction between N.E.S. stage, intensive development stage and the post-intensive stage was abolished with effect from 1-4-1958. All the Blocks under the All India programme except Blocks in the C.D. stage which had not completed their three years' period on 1-4-58 were classified into stage I and stage II Blocks with revised financial patterns and periods of operations. The Community Development Blocks, on completing their period, will enter stage II. A stage I Block has a five year

period of operation with a ceiling of expenditure of Rs. 12 lakhs for this period. It is "the Intensive Development phase in which people's participation would be promoted as the method of Community Development and panchayats will be intimately connected with the formulation of the Plans for their respective areas. The degree of success attained in the First Stage will be the evidence of the growth and functioning of self-reliant rural communities, which is the basic objective of the programme". Stage II of the programme, with a provision of Rs. 5 lakhs for 5 years, will seek to intensify the operation of the method of Community Development in its fuller amplitude and will have greater emphasis on Community Development rather than on Development Programmes as such.

16.2 Coverage of Programme

The following table gives the type, area, villages and population covered under the programme by March 1961.

Coverage under Community Development Programme by type of block

Name of the block	Date of inauguration	No. of blocks of CPA pattern	Area covered in sq. miles 1961	No. of towns and villages covered	Population 1961
1	2	3	4	5	6
Stage I					
Dholka	April 1957	1.75	653.2	118	175,327
Viramgam	October 1959	2.00	672.0	160	191,511
Stage II					
Dhandhuka	October 1954	2.00	1,033.4	135	154,809
Dehgam	January 1954	2.00	334.2	122	160,964
Pre-extension service					
Ahmedabad City	October 1960	1.00	112.0	32	1,260,944
Sanand	October 1960	1.00	313.4	68	87,440
Daskroi	October 1959	..	325.3	116	179,204

By March 1961 the entire district was covered under the programme.

There were 3 P.E.S. blocks, 3.75 stage I blocks and 4 stage II blocks in the district. Ahmedabad City taluka, Daskroi taluka and Sanand mahal were under P.E.S. blocks. Dholka and Viramgam talukas were in Stage I and Dehgam and Dhandhuka were in stage II. The Government expenditure during 1960-61 in stage I blocks was Rs. 6.63 lakhs, in stage II blocks Rs. 4.12 lakhs, and Rs. 8,000 in P.E.S. blocks. Regarding agricultural activities, 48,720 B. mds, of improved seeds and 55,650 B. mds. of fertilizers were distributed. 3,608 compost pits were dug. 800 yards of drains and 41 drinking water wells were constructed and 6 wells were repaired.

The total expenditure incurred upto 1960-61 amounted to Rs. 60.73 lakhs against people's contribution of Rs. 20.02 lakhs or 30.58 per cent of the total expenditure. The details of physical achievements and progress of C. D/N.E.S. Schemes are given in Official Statistics Table 15.1 published in part II of this Handbook.

17 PROGRESS OF PLAN SCHEMES

17.1 Achievements

The salient features of the development activities undertaken in the district and the progress achieved during the decade during the First and Second Five Year Plans can broadly be summed up from the available expenditure figures at the district level on various major heads of development.

Expenditure on the major heads of development in the First and Second Five Year Plans.

[in Rs.]

Sl. No.	Major heads of development	First Five Year Plan	Second Five Year Plan
1	2	3	4
1	Agriculture	338.578	697,690
2	Irrigation	6,713,894	12,682,647
3	Education	7,235,923	17,469,000
4	Health and Medical	780,509	19,593,120
5	Co-operation	216,876	5,010,573
6	Village and Home Industries	..	1,574,725
7	Welfare of Scheduled Castes and Tribes	..	3,127,643
8	Roads and Bridges	2,268,403	24,201,566
9	Community Development	263,253	2,497,938
10	Miscellaneous	..	82,381
	Total	**17,817,436**	**82,009,183**

17.2 Agriculture

To increase agricultural production, schemes were undertaken in the First and Second Plans for distribution of improved seeds to the cultivators. Wheat Research station and Cotton Breeding Centres were started and Taluka Seeds Farms

were established for the supply of improved seeds. Manures, fertilizers and insecticides were also distributed to cultivators. The expenditure on all these schemes pertaining to agriculture was Rs. 3.39 lakhs in the First Plan and Rs. 6.98 lakhs in the Second Plan.

17.3 Irrigation

Towards irrigation facilities Moti Fatewadi and Nani Fatewadi canals, Ghoda feeder scheme, tube-wells and other irrigation works were undertaken at an expenditure of Rs. 67.14 lakhs in the First Plan and Rs. 126.83 lakhs in the Second Plan.

The minor irrigation schemes for construction of a bund at Detroj in Viramgam taluka and a tank between Alampur and Umaralla in Dhandhuka taluka at a cost of Rs. 1.43 lakhs and Rs. 2.27 lakhs with irrigation potential of 230 acres and 630 acres respectively were undertaken.

Towards minor irrigation works 98 tube wells were bored in the First Five Year Plan and 34 in the Second Plan.

17.4 Education

At the beginning of the First Plan the number of primary schools in Ahmedabad City and rural areas of the district was 786, which rose to 923 at its end and went up to 1,324 at the end of the Second Plan. The expenditure incurred after primary education facilities was Rs. 5,114,850 in 1951-52, Rs. 6,243,563 in 1956-57 and 6,339,237 in 1960-61. In the field of basic education much progress was noticed as evidenced from 283 schools at the end of the Second Plan as against 175 at the end of the First Plan and only 4 at its begining. During the Second Plan loans amounting to Rs. 913,553 were sanctioned for the construction of school buildings and by the end of the Plan 162 class rooms were built. The progressive trend in secondary education is noticed from the fact that since Independence the number of secondary schools has risen from 51 in 1951 to 85 in 1956 and 145 in 1961. Similarly the number of students has increased from 55,524 in 1956 to 74,548 in 1961. The expenditure under this scheme amounted to Rs. 48 lakhs in the First Plan and Rs. 28.89 lakhs in the Second. In higher education much progress is made especially after the establishment of Gujarat University in 1949, when the number of colleges and other recognised institutions incresed from 21 in 1949 to 83 in 1960-61. Also in the last year of the Second Plan 15 colleges were affiliated with the University establishing a record of starting as many as 15 new colleges in a short period of a year.

17.5 Medical

An expenditure of Rs. 7.81 lakhs was incurred in the First Plan and Rs. 195.93 lakhs in the Second Plan for increase in medical and health facilities. The programme includes provision of beds and medical appliances, a maternity home at Dehgam, a dispensary at Barvala and the buildings of a mental hospital and primary health centres. The programme also includes expenditure on training of nurses and on medicine and other allied expenses.

17.6 Co-operation

In 1949-50 agricultural credit societies numbered 247 and non-agricultural credit co-operatives 396. At the begining of the First Plan the number of various types of co-operative societies was 1,130, while at the end of the Plan it rose to 1,745, the amount of loans advanced to agriculturists being Rs 2,437,046 and to multipurpose co-operatives Rs. 1,73,500. Co-operation brought in its fold various types of activities as, out of 1,745 co-operative societies, 439 were agricultural credit societies, 629 non-agricultural credit, 307 multipurpose, 283 housing and 87 employees' unions. The total membership of these societies came to 278,835. The field of co-operation was further extended during the Second Plan by covering all the 751 villages of the district.

17.7 Welfare of Backward Classes and Scheduled Castes/ Tribes

Under the scheme of awarding scholarships to the students of backward classes Rs. 46,307 and Rs.380,794 were spent on granting of freeships

and examination fees. These facilities were availed of by 8,339 students. An amount of Rs. 620 was spent on giving books and slates. Similarly Rs. 14,079 were spent for nomadic and semi-nomadic and other backward class students during the Second Plan. Rs. 158,694 were spent after 12 hostels for backward classes and other combined hostels. Two hostels were also given grants-in-aid of Rs. 44,249. For the maintenance of Balwadis for the Harijan and other backward class children, grants to the tune of Rs. 25,042 were given during the Second Plan in addition to a grant of Rs. 15,437 to Sanskar Kendras.

18 IMPORTANT PLACE NAMES

18.1 Important Places

Important places in the district are:

Adalaj — Ancient stepwell built in about 1499 A.D., 12 miles away from Ahmedabad.

Ahmedabad — State capital. Chief city of Gujarat since early 15th century when it was built by Sultan Ahmed Shah. A great centre of industry, especially of cotton textiles, and of business, and commerce. Kocharab Ashram and Harijan Ashram, Sabarmati, where Mahatma Gandhiji stayed till 1930. Ahmedabad was in the forefront of the struggle for Independence, and the famous Dandi March for salt satyagraha started from this place. Besides Gujarat University, there is Gujarat Vidhyapith, established by Gandhiji. Full of ancient monuments, Ahmedabad has some of the best specimens of Indo-Muslim architecture, chief among which are the Jumma masjid, the mosques of Rani Rupmati, Rani Sipri, and Siddi Saiyed, Shah Alam Roza and the Jhulta Minara or shaking towers. Hathising's beautiful Jain temples and Dada Hari's Vav or stepwell have excellent sculpture. Kankaria lake with hill gardens, Zoo and Bal-Vatika is a beautiful spot.

Arnej — Temple of But Bhavani Mata.

Barejdi — Known for rice mills, paper mills, chemical works and a hosiery factory.

Bavla — Known for well organised marketing yard for agricultural produce. It has a rural health training centre to train M.B.B.S. students

Bhimnath — Temple of Bhimnath Mahadev

Bhoyani — Place of pilgrimage for Jains

Chandisar — Chandinath Mahadev and Brahmani Mata

Dholka — Important handloom centre with about 700 handlooms

Giramtha — Pirana monastery with five rozas

Jetalpur — Beautiful temple of the Swaminarayan sect

Koba — Famous for the Kasturba Ashram, for training Gram Sevikas in social work

Lothal — "Lothal" means "the dead". Recent excavations have revealed a well planned Harappan centre belonging to the 3rd millennium B.C.

Nal Sarovar — Holiday Home established by the Government of Gujarat on the lake with great scenic beauty where myriads of migratory birds of about 60 varieties flock from Europe and far-away lands

Nandol — Known for the craft of dyeing cotton saries and other textiles

Ranpur — An old fort now in a dilapidated condition

Salangpur — Well-known for Kashtabhanjan Hanuman, and Swaminarayan temple

Sarkhej — Has the well-known mausoleum of great architectural beauty of Shah Ahmed Khattu Ganj Baksh, a saint and religious preceptor of Sultan Ahmed I of Gujarat

Vautha — Located at the confluence of seven rivers, it is the site of a large annual fair. Temple of Siddheshwar Mahadev

Details of these and other places will be found in the Brief Gazetteer of Place Names given in this Handbook.

18.2 Ancient Monuments

As stated earlier, much of the history of Gujarat was made in this area and obviously the district is rich in ancient monuments. Official Statistics Table 18.3 gives details of each ancient monument together with the name of the village, place of location, the period of architecture, brief description, etc.

18.3 Fairs and Festivals

About 123 important fairs and festivals are celebrated at different places in rural and urban areas of the district. The details regarding the place where each is held, name of the fair/festival, the date on which it is held/observed and the estimated congregation are shown in the Official Statistics Table 18.2 of this Handbook.

GAZETTEER OF PLACE NAMES

DISTRICT AHMEDABAD

V. P. = Village Panchayat; G. P. = Group Panchayat; M = Municipality;
P. = Population; N. = North Latitude; E. = East Longitude.

1 Adalaj, V.P. (Taluka Daskroi), P. 2,918

It is situated on the National Highway No. 8-A at a distance of 12 miles from Ahmedabad. There is an ancient step-well built in about 1499 A.D. by *Rudbai* or *Ruda Rani*, daughter of Raja Venu, wife of Raja Virsing, a vaghela Rajput, at an estimated cost of Rs. 500,000. This step-well is a unique specimen of architecture with a huge and artistic edifice which allows one to reach the edge of water howsoever deep it may be, by a fight of steps. The entire structure is underground and has storeys laid one upon another and a number of chambers one behind another. The village has an agricultural school managed by the Vasumati Charity Trust and a female training school.

2 Ahmedabad City, M. P. 1,149,918, 23°-1' N., 72°-37' E.

Situated on the bank of the river Sabarmati, Ahmedabad is a railway station at the junction of (i) the Bombay-Viramgam broad gauge (ii) Ahmedabad- Delhi metre gauge (iii) Ahmedabad- Khed Brahma meter gauge and (iv) Ahmedabad- Bhav nagar metre gauge sections of the Western Railway-within its limits, the city has four other railway stations, viz., (i) Maninagar on the Bombay-Viramgam broad gauge section, (ii) Asarwa on the Ahmedabad-Khed Brahma metre gauge section (iii) Gandhigram on the Ahmedabad-Bhavnagar metre gauge section and (iv) Sabarmati junction on the Bombay-Viramgam broad gauge, the Ahmedabad-Delhi meter gauge and the Ahmedabad-Bhavnagar metre gauge railway sections.

In 1411 A.D., Sultan Ahmed I chose a site in the vicinity of the place known as Ashaval for building his capital and named it Ahmedabad after the name of four pious Ahmeds who never missed the afternoon prayer, viz.,(i) Sultan Ahmed himself, (ii) the Sultan's religious teacher Shaikh Ahmed Khattu, (iii) Kazi Ahmed and (iv) Malik Ahmed. Sultan Ahmedsha built a citadel or fort of much strength and beauty and called it Bhadra. He laid out the city in broad streets and for improving the scanty stream of the river Sabarmati, diverted the water of the Hathmati into it. He raised magnificent mosques, palaces and tombs and made the city a centre of trade and commerce. Sultan Mahmud Begada strengthened the city walls in 1486 and added two more gates, viz., Panchkuva and Prem Darwaja to the eighteen gates which the fort originally had. The fort was damaged during the floods of 1755 but was subsequently repaired. While executing the new town planning scheme the fort wall was demolished leaving ten gates intact.

Since 1411 A.D., Ahmedabad passed through five periods-two of prosperity, two of decay and one of revival. The period of 100 years from 1411 to 1511 was one of continuous growth and prosperity for the city under strong rulers of Ahmedabad; that of 60 years from 1512 to 1572 was a period of decline during the fall of the Gujarat dynasty; and next of 135 years that followed was one of renewed prosperity under the Mogul emperors and that of 110 years from 1707 to 1817 was a period of disorder. The last period following 1818 was a period of steady progress under the British till Independence.

During the rule of Marathas the prosperity of the city deteriorated considerably. During this period, Forbes who visited Ahmedabad in 1781, wrote that "Imperial city of Ahmedabad-one of the largest capitals in the East-now exhibits solitude, poverty and dissolution. You now behold

the most heterogeneous mixture of the Mogul splendour and Maratha barbarism. Until this visit to Ahmedabad, I had no conception of the extent of the oriental magnificence of the palaces and the splendid chambers described in the Arabian Nights. Entertainments appear no longer overcharged and fabulous. The most splendid palaces of Ahmedabad were in too ruinous a state during my visit to furnish a sufficient description".

It is said that the magnificent remains of the Mogul splendours in Ahmedabad as in other parts of Gujarat suffered owing to the oppression of Marathas. Their severe exactions rendered Ahmedabad, once very flourishing and delightful city, almost a desert and thousands of people left for other places under milder Governments. According to James Forbes, "The city which abounded with all kinds of traders, artisans and travellers has to-day become poor and every thing is nil".

Under the British administration, order was established and exorbitant taxes and duties levied by Marathas were lowered with the result that trade which was almost at a standstill received new impetus and the city again became busy and prosperous. The city walls were repaired in 1832 at a cost of Rs. 250,000. Municipal work was started through a committee of four persons in 1834 which was later taken up by regular Municipality. Two Gujarati Schools were started in 1826 and signs of order and improvement were clearly noticeable. By about 1870, mills were started, educational facilities including higher education increased and trade and commerce began to prosper.

On the eve of Independence in 1947, Gujarat was a part of the erstwhile Bombay State with which the States of Saurashtra and Kutch also merged in 1956. On the bifurcation of the State of Bombay, the present State of Gujarat came into being with effect from 1-5-1960. The temporary capital of Gujarat has been established at Ahmedabad where the Secretariat, State Legislature, Government House, High court, Accountant General's office, All India Radio and offices of the Heads of Departments have been located in different premises. For want of accommodation, the Secretariat has been housed in the Polytechnic and the Legislature in the Civil Hospital.

The Gujarat University is an important centre of higher education in the various faculties of arts, science, technology including engineering, law, medicine, commerce, agriculture and Ayurved. The Gujarat Vidyasabha formerly known as Gujarat Vernacular Society conducts an Arts College previously known as Ramanand Mahavidyalaya but now known as H.K. (Harivallabhdas Kalidas) Arts College, a girls' high school, a research institute for post-graduate studies and research, a Sanskrit Vidya Mandir, a Nat Mandal for revival of dramatic art and publishes a Gujarati monthly periodical 'Buddhi Prakash'. Founded by Mahatma Gandhi in 1920 in the wake of Non-cooperation Movement, another institution known as Gujarat Vidyapeeth, the first of its kind teaches from the primary upto the collegiate courses. It conducts (i) the basic primary school with spinning as the basic craft, a complete course of basic education covering the high school courses of the Vineet or Matric standard, (ii) Mahadev Desai Samajseva Mahavidyalaya the course of study for graduation being three years, (iii) the basic teacher's training institution for training Basic Teachers and (iv) Khadi Gram Udyoga Mahavidyalaya imparting theoretical and practical training to the Block Officers of Community Development Project areas. The Vidyapeeth also carries on the work of propagating Hindi in Gujarat and that of research in ancient Indian history, literature, culture and philosophy.

Ahmedabad has been an important centre of industry and trade in Gujarat from very early times. During the Mogul regime, Ahmedabad had already acquired fame not only as a very prosperous business centre but also as a manufacturing centre thriving "on three threads", the cotton, the silken and the golden. It rose to be "the mart of the world" and merchants had their agents in distant countries of Asia, Asia Minor, North Africa and Europe. The *Satin, Velvet, Mashru* and

Kinkhab of Ahmedabad were very much in demand in the markets of Europe. The city was famous for brass engraving, wood engraving, paper making and other industries and crafts. Its commercial expansion came to a standstill with the loss of enterprise and initiative half a century after the death of Aurangzeb, under successively weak rulers to be revived with the first spinning and weaving mill in 1861. It worked successfully and spurred the innate business acumen of the people. In 1906 there were in the city 33 mills which rose to 52 in 1910, 60 in 1926, 78 in 1933· 81 in 1939. But since some of them were amalgamated and some went into liquidation, the present strength is 63.

Ahmedabad is rightly styled the Manchester of India on account of its flourishing textile industry. With a view to assist the Mill industry in servicing and supervision of the quality control, training within industry and management techniques, and for operational and applied research in the textiles ancillary to textile industry, Ahmedabad Textile Industry's Research Association has been established at Ahmedabad since 1950. There is a number of factories manufacturing spare parts of textile machinery. There are also factories manufacturing electric motors, switch gear equipment, power pumps, dyeing and bleaching plants, flour mills, concrete mixers and different types of machinery. In addition to the mill sector, there are many power looms in Ahmedabad which produce cotton cloth. The city also has calico chemical industry. It has a big plant for manufacturing sulphuric acid, the daily production amounting to 45 tons per day. Attached to this plant is a big unit for the manufacture of superphosphate. Alum is also manufactured in a number of units. At Sabarmati a suburb of Ahmedabad City, there is a Railway workshop and Electricity Generating Station. Ahmedabad has made big strides in building activity in recent years, both on private and co-operative basis. There are 821 Housing co-operatives in the city.

The city has a number of old monuments, viz., Ahmedshah Masjid or Chhoti Jumma Masjid with ten big domes and 152 pillars, the Jumma Masjid, one of the biggest mosques in India, Rani Sipri's mosque. the Hajira (mausoleum) of the King containing the tombs of Sultan Ahmedshah I and of his son and grandsons, the Hajira (mausoleum) of the Queen in which there are tombs of some of the queens of Ahmedshah I, the Three Gates, a magnificent stone structure with some rich carving, the Azam Khan's palace built in 1636 by Azam Khan who was very fond of buildings, the temple of goddess Bhadra Kali, the Sidi Saiyad's mosque famous for its panels with exquisite tracery of tree stems and branches, the Sujat Khan's mosque, Shah Wajih-ud-din's tomb, Saiyad Alam's mosque, queen's mosque in Mirzapur, Hathisingh's Jain temple, Musa Suhag's mosque, Dada Hari's step-well built in 1485 by a lady of the household of Mahmud Begada at a cost of Rs. 300,000, the ancient Mata Bhavani's step–well believed to have been constructed by the Pandavas, the Shahi Bag or the Royal Garden palace built in 1622 by Shahjahan (1616–1622) the viceroy of Ahmedabad, the mosque of Miya Khan Chishti, the tomb of Dariya Khan (1453), the temple of Chintamam built by a rich Jain merchant in 1638 at a cost of Rs. 900,000, Shah Alam's mausoleum, the Kankaria tank with the Nagina-wadi in its midst, the Malek Saban, stadium and the Chandola tank. One of the pair of minarets in Ahmedabad called *jhulata minara* is such that when one of them is shaken, the motion is communicated to the other without any tremor being experienced in the intervening roof.

In addition to the most of those mentioned above, the following have been preserved as protected monuments.

The Bhadra tower and gates, Kutubshah's mosque, Achut Bibi's masjid, Saiyad Usmani's mosque, Queen's mosque, Shaking towers, Siddi Bashir's Minar, Roza of Mir Abuturab, Baba Lobi's mosque, Miya Khanjan mosque, small stone mosque, Muhafizkhan's tomb and mosque, Astodia Gate and Panchkuwa Gate.

Ahmedebad played an important role in the movement for national independence of the country. After his return from South Africa in 1915, Mahatma Gandhi selected Ahmedabad for his stay in India and established the Sabarmati Ashram from where the various stages of the national movement were directed and the famous Dandi March for the Salt Satyagrah with a band of chosen Satyagrahis was undertaken in 1930. Hradaykunj, the place where he lived now forms part of the Sabarmati Harijan Ashram. Photographs from his childhood to death and a few of his belongings and letters are on display in special structures newly erected for the purpose. The Ashram has, therefore, become a place of homage for the visitors coming to the city. The main activities of Sabarmati Harijan Ashram are directed towards the uplift and amelioration of Harijans, propagation of Khadi and Village Industries, research section for Ambar Charkha, running a dairy, leather department, oil and flour crusher, gas plant, etc. Among the other places worth visiting are the Kochrab Gandhi Smarak Ashram where Mahatma Gandhi first stayed on arrival from South Africa. Sheth Mangaldas Girdharlal Town Hall, All India Radio House, Sardar Vallabhabhai Patel Memorial House, the Geeta Mandir, the New Civil Hospital, the Municipal Dairy, the Balvatika, the Hill gardens and Zoo at Kankaria, the Sanskar Kendra at Paldi, the swimming pool and the Sardar park.

The following are the principal fairs with a congregation of 5,000 persons and more held in the city.

(1) The Narsinhji fair at Gomtipur on Kartik sud 1-New Year Day-(November)

(2) The Shah Alam's Urs at Shah Alam's Roza (mausoleum) on the 19th of the Hijri (Muslim) month of Jamadi-us-sani

(3) The Janmashtami fair outside the Delhi Gate on Shravan Vad 7–8 (August).

(4) The Urs in honour of Shaikh Ahmed Khattu or Ganj Baksh at Sarkhej on the 13th of the Hijri month of Shawwal.

(5) The Nilkanth Mahadev fair at Asarwa on Shravan Vad 15 Amas (August)

(6) The Puri-Pakodi fair at Sarangpur on Kartik sud 15 (November).

(7) The Piran Pir fair at Jamalpur on the 11th of the Hijri month of Rabi-ul-Awwal.

(8) The Parasnath fair at Gomtipur on Kartik Sud 15 (November)

(9) The Divasa fair at Madhupur on Ashadh Vad 15 Amas-(July)

(10) The Ramnavmi fair at Dariyapur on Chaitra sud 9 (April)

3 Arnej, V. P., (Taluka Dholka), P. 939,

It is a railway station on the Ahmedabad-Bhavnagar metre gauge section of the Western Railway. In the past, the entire land traffic from Radhanpur, Kadi, Patan, Ahmedabad and Kaira to Dholera and Kathiawad passed, via., Arnej. It is a Devasthan Inam village. It has a big temple of *Boot Bhavani Mata* administrated by a trust. There are facilities for lodging and boarding for pilgrims visiting the temple. The village also has a Public Works Department, Dak Bungalow, District Local Board administered dispensary and a Wheat Research Station.

4 Bahial, V. P. (Tuluka Dehgam), P. 3, 779.

Situated 7½ miles from Dehgam in the south-east corner of the Dehgam taluka, the village is famous for making reins of horses. The village was founded by Samantsinh Bihola. Most of the inhabitants are Muslims. A lake and the ruins of some ancient structures are worth seeing. There are a temple of Hanuman, a library and water works.

5 Bareja, V.P., (Taluka Daskroi), P. 6,610,

It is a bus terminus situated on the National Highway No. 8, twelve miles south of Ahmedabad City. Famous for its plentiful crop of paddy, it has four rice mills. It has a lake known as Bhimkotar lake and a Government rest house.

6 Bareja Canal, (Taluka Daskroi).

The canal which starts from the Amkapur tank has a potential of irrigating 940 acres of rice lands near Bareja. Out of the total estimated expenditure of Rs. 82,200 an amount of Rs. 55,034 was spent for it till 31st March, 1961. There is another scheme of reconstructing the Amkapur tank itself at an estimated expenditure of Rs. 42,000, out of which an amount of Rs. 30,396 was spent till 31st March 1961.

7 Barejdi, (Nandej), V. P. (Taluka Daskroi), P. 629 (4,615).

It is a railway station on the Ahmedabad-Bombay broad gauge section of the Western Railway, twelve miles south-east of Ahmedabad. It has four rice mills, a paper mill, a factory preparing acids and chemicals and a ginning and pressing factory.

8 Baria, V. P., (Taluka Dehgam), P. 2,266.

It is situated on the bank of the river Vatrak at a distance of twelve miles from Dehgam, the headquarters of the taluka and a station (called Nandol-Dehgam) on the Ahmedabad-Khed-Brahma metre gauge section of the Western Railway. People going to Utkantheshwer Mahadev situated in the Kaira district beyond this village have to pass through it. The village has a library and a private dispensary. The main crop consists of groundnut, cotton and bajri.

9 Barwala, V. P. (Taluka Dhandhuka), P. 8,430, 22°-9' N; 71°-56' E.

It is situated on the river Utavali, twenty five miles south of Dhandhuka with which it is connected by a *pucca* road on which State Transport buses ply. It is surrounded by a wall built in Samwat year 1856 by Ghelasha who was appointed its *Karbhari* (manager) by the ruler of Limbdi State and placed in charge of a group of 12 villages. Hence known as Barwala of Ghelasha. It has two oil mills and two ginning factories and is a commercial centre. It has a high school and a rest house.

10 Bavla, V. P. (Taluka Dholka), P. 12,825

It is a railway station on the Ahmedabad-Bhavnagar metre gauge section of the Western Railway. It is also a bus stop on the Bhavnagar-Ahmedabad State Highway. It has six ginning and three pressing factories and good trade in paddy, wheat and cotton. There is a lake known as Bhimkund where *Bhim* fought with and killed a demon. It has a well-organised marketing yard for agricultural produce. It has a rural health training centre to train M.B.B.S. students.

11 Bhadiad, V. P. (Taluka Dhandhuka), P. 2,877

It is at a distance of 14 miles from Dhandhuka, a railway station on the Ahmedabad-Bhavnagar metre gauge section of the Western Railway with which it is connected by a *pucca* road on which buses ply. It is known for the *Roza* (mausoleum) of the Muslim saint *Pir Mohammed Bukhari* who lived about 700 years ago. As he restored the lost eye-sight of a Brahmin, he was converted into a Muslim in whose family, the post of Mujavar (caretaker) of the tomb vests hereditarily.

A fair is held at the *dargah* (tomb) from 9th to 12th of the *Hijri* month of *Rajab*, attended by about 3,000 persons of all communities. Persons going from Ahmedabad start in a procession on *Rajab* 5, attend the fair at the tomb of *Bukhari Saheb* in Dholka on *Rajab* 7 and then proceed to Bhadiad.

12 Bhankoda, V. P. (Taluka Viramgam), P. 1,417

It is on the Viramgam-Mehsana metre gauge section of the Western Railway and is an important centre of trade and commerce in the taluka with two pressing and ginning factories and a few oil mills.

13 Bhimnath, V. P. (Taluka Dhandhuka), P. 683

Situated on the bank of the river Nilaka, it is a railway station on the Ahmedabad-Bhavnagar metre gauge section of the Western Railway, about ten miles south-west of Dhandhuka. It is known for the temple of *Bhimnath Mahadev*, which is held in high esteem. According to a legend, when the Pandavas came to Gujarat in

1400 B. C., Arjun had taken a vow not to break fast before offering prayers to Mahadev. As the country around Bhimnath was shrineless tract, Bhim sent Arjun a message that he had found a *Mahadev's* shrine, after he had set up a ling-shaped stone in a thicket and strewn flowers thereon. Arjun worshipped this *ling* but was afterwards informed that it was not a real shrine. Thereupon the *Pandavas* and their mother went to the spot and as Bhim struck the stone, milk gushed out. Since then the deity has been worshipped as *Bhimnath Mahadev.* It is said that an ascetic named *Madhavgir* first made the place popular in 1479 A.D. But the shrine seems to have acquired popular esteem in 1707 A. D., on the wane of the Muslim power in Gujarat. A big fair is held at this place from *Shravan Vad 14* to *Bhadrapad Sud 1* (August-September) when 20,000 to 30,000 persons congregate.

14 Bhojwa, V. P. (Taluka Viramgam), P. 2,221

Situated at a distance of three miles from Viramgam, it is known for a fair called *Chhabila Hanumanji* held on *Shravan Vad 14* (August) when 5,000 to 7,000 persons congregate.

15 Bhoyani, V.P. (Taluka Viramgam), P. 1,206

It is a railway station on the Kalol-Chanasma metre guage section of the Western Railway. It is a place of pilgrimage for the Jains, where three fairs are held every year-one on *Kartik Sud 15* (November), the other on *Chaitra Sud 15* (April) and the third known as *Mallinathaji Maharaj* fair on *Magh Sud 10* (February) when 2,000 to 3,000 pilgrims congregate.

16 Chaloda, V.P. (Taluka Dholka), P. 5,249

It is three miles from Salajda, a railway station on the Ahmedabad-Bhavnagar metre gauge section of the Western Railway, known for its *Khadi* and handloom fabrics and its pomegranates and guavas. It has a basic training school, a high school, and a dispensary. Water is supplied from a tube well and electricity through grid.

17 Chandisar, V.P. (Taluka Dholka) P. 2,089

It is on the bank of the river Sabarmati, at a distance of five miles from Dholka, a railway station on the Ahmedabad-Bhavnagar metre guage section of the Western Railway. It has temples of *Chandinath Mahadev* and *Brahmani Mata.* An annual fair held at the former on *Bhadrapad Sud 11* (August-September) attracts about 10,000 persons. Electricity is supplied to this village through grid.

18 Chhala, V.P. (Taluka Dehgam), P. 3,501

It is ten miles away from Dehgam, a railway station on the Ahmedabad-Khed Brahma metre guage section of the Western Railway. It has many Hindu temples, a Jain *Derasar* and a mosque and is also known for its handloom cloth. A fair with a congregation of 400 persons is held at the temple of *Dasharath Mahadev* on *Ashvin Sud 15* (October). It has a public dispensary, a library and water works.

19 Chharodi, V.P. (Mahal Sanand), P. 953

It is a railway station on the Bombay-Viramgam broad gauge section of the Western Railway and has an agricultural stock farm for improving the breed of cattle and a Government approved school for imparting practical training in agriculture at the farm.

20 Dabhoda, V.P. (Tuluka Dehgam), P. 6,328

It is a railway station on the Ahmedabad-Khed Brahma metre gauge section of the Western Railway. It is connected by State Transport bus service with Sadra and other villages. It has a rest-house and a library. It is known for a big temple of *Hanumanji* where two small fairs are held—one on *Kartik Vad 15 (Amas)* (November) and another on *Janmashtami* (August).

21 Daslana, G.P., (Taluka Viramgam), P. 1,301.

Situated on the Viramgam-Bahucharaji road at a distance of four miles from Bhankoda, a railway station on Viramgam-Mehsana metre gauge section of the Western Railway, this

village has temples of *Hanuman* and *Pimpli mata*, where a *Navaratri* fair with a congregation of about 1,200 persons is held on *Ashvin sud 2* (September).

22 Dehgam, M., P. 12,008

It is a railway station named Nandol-Dehgam on the Ahmedabad-Khed Brahma metre gauge section of the Western Railway. Being the headquarters of the Dehgam taluka, it has all the taluka offices. There is Gandhi Garden in the middle of the town and a temple of Bhuvaneshvari Mata. It has a ginning factory, a factory manufacturiug iron agricultural implements, an oil mill and is also a business centre. It has two high schools and a boarding house. It is a good centre of trade in mangoes and is a bajri and groundnut producing area.

23 Detroj. V.P., (Taluka Viramgam), P. 4,422

It is a railway station on the Viramgam–Mehsana metre gauge section of the Western Railway. The village situated in Chunval tract is said to have been founded by one Lal Barot, about 800 years ago. It has a cotton ginning and pressing factory, an oil mill and is a bazar town for the surrounding villages. It has a high school and a temple of *Hanuman.* Near the village is a hillock with a temple as *Gebinath* after whose name the hillock is known as *Gebi Timba* where a fair attended by about 7,000 persons is held on Janmashtami (August).

24 Dhandhuka, M., P. 15,640, 22°-23' N., 72°-2' E.

Situated on the bank of the river Sukbhadar, Dhandhuka is the railway station on the Ahmedabad-Bhavnagar metre gauge section of the Western Railway. It is said to have been founded by and take its name from Dhan Mehd or Dhand Mehd, the second of the thirteen sons of the Koli chief—Sonang Mehd who came from Sind to Gujarat in early times. According to another account, the town is said to have been named after Shri Dhandhika of the Solanki tribe who married the daughter of Mul Raj's predecessor. In the twelfth century, Dhandhuka became famous as the birth place of the eminent Jain preceptor, *Hemachandracharya Suri*, a Modh Bania by caste in whose honour King Kumar Pal (1143–1174) raised a temple at Dhandhuka. It has three cotton ginning factories, a power-house, a high school and a Garasia boarding house.

The Janmashtami (August) fair held in Dhandhuka has a congregation of about 5,000 persons. On *Rabi-ul-Awwal 11*, a fair known as *Piran Pir* fair with a congregation of about 4,000 persons and on *Rajab* 9–14 a fair called *Pir Mohamadsha Bukhari* fair with a congregation of about 1,500 persons are also held.

25 Dholera, V.P. (Taluka Dhandhuka), P, 3,822, 22°-15' N. 72°-14' E

Dholera or Raha Talav is that part of the Ahmedabad district which came first into the British possession. The proprietors of Dholera made it over to the British in 1802 on condition of receiving half of its entire revenue, in order to save themselves from the encroachments of the chief of Bhavnagar. Owing to the great advantages of this place as a natural harbour, it grew into one of the important ports and trade centres in the past. Its creek was broad and deep enough for native vessels having the capacity varying from 107 to 143 tons. It was originally a village of 300 houses with no trade. Beingt he most convenient outlet of trade for aregion which produced wheat and cotton in good quantity, the East India Company's strong rule subdued hostile influences of discontented Girasia and insured gradual progress of this port. In 1810 their commercial agent at Surat began to buy and ship from Dholera part of his annual cotton investment with the result that its trade increased considerably in 1813. With the increase of trade at Dholera, the customs revenue amounted to Rs. 60,000 in 1819. But the shifting of its course by the river Bhadar hastened accumulation of silt which made navigation unsafe and risky. This led to the establishment of the port of Bavaliari about

15 miles south of Dholera and the division of part of the trade from Dholera which still continued to be the emporium of trade and terminus of traffic that once stretched as far north as Pali, a great centre of trade in Marwar. Dholera enjoyed this prosperity between 1848 and 1868, till it became the chief port for the export of cotton during the American war 1862-64.

But the extension of railway westward from 1871-1877 affected the sea trade and Viramgam became a local trade centre of some importance, competing directly with the sea-route through Dholera. The value of trade at this port consequently declined from Rs. 1.58 crore in 1871 to Rs. 0.58 in 1878.

At present it is a non-intermediate minor port in Bhavnagar group of ports, importing timber, wood and building materials. The import traffic handled during 1960-61 at this port was 785 tons. It has a temple of *Swaminarayan* sect. Its carpenters prepare good articles of wood like wooden chests (Patara), cradles, cots, etc. It has a Primary Health Centre, a high school, a hospital and a ginning factory.

26 Dholka, M., P. 27,476, 22°-14'N., 72°-28' E.

It is a railway station on the Ahmedabad-Bhavnagar metre gauge section of the Western Railway. It is supposed to stand on the ancient site of Virpur or Matsyanagar which during the time of the Pandavas (1400 B.C.) was governed by queen Sudishva of Kaiyo Bhil race. In 144 A.D., Kanaksen is said to have settled here. Minal Devi, the mother of Sidhraj of Anhilvad Patan built the Malav lake towards the close of the eleventh century. Dulaka (present Dholka) is mentioned by Al-Idrisi as one of the chief trading towns in Gujarat. Early in the thirteenth century it was called Dhavalgadh and was held by Vir Dhaval, the founder of the Vaghela dynasty. Under the Muslim Kings and viceroys Dholka which was never a place of consequence is mentioned as a town and fort, the seat of a local governor. Its remains show that at one time it had many Muslim buildings. The Marathas took Dholka in 1736 but it was recovered by the Mogul Viceroy in 1741. In 1757 it fell into the hands of the Gaekwad and remained with him till 1804, when it was ceded to the British.

Dholka has, besides the Malav lake, temples of *Sidhnath* and *Nagnath Mahadev,* school of Pandavas and Khan talav and Khan mosque with its minarets. It has four high schools, six boarding houses, two cotton ginning factories, an oil mill, two gardens and the taluka and sub-divisional offices. It is an important handloom centre with about 700 handlooms. The town is famous for its pomegranates, guavas and ginger. It has a college of commerce and arts, subyard of agricultural produce. Market committee, an Aram Grah, a brass factory producing ball-bearing, the Mahalaxmi Plastic Industry producing fountain pens, and a hume pipe factory. The town has electricity and piped water supply. A fair with a congregation of about 4,000 persons is held at the temple of *Nagnath Mahadev* on *Shravan Vad 15* (Amas) (August) and Urs (death anniversary fairs) are held at the tomb of *Hazarat Sha Pir* and *Bukhari Saheb* on *Shawwal 16-20* and *Rajab* 7th with congregations of about 8,000 and 4,000 persons respectively.

27 Fatehwadi Canal (Taluka Daskroi)

In order to irrigate the lands of the Daskroi and Dholka talukas and the Sanand mahal, this canal, 8 miles in length with subsidiary channels about 15 miles long, was constructed from Sabarmati river near the Fatehwadi village. The work which started working in 1950-51 cost Rs. 1,208,884 and irrigates about 19,000 acres of lands. To irrigate more lands, a bigger canal, linked with the main canal has also been constructed at an estimated cost of Rs. 59.17 lakhs. The aggregate potential of the two canals will be 35,000 acres. The bigger canal will also feed the Ghoda Feeder.

28 Ghoda Feeder Canal Scheme (Taluka Viramgam)

It is calculated to drain away the mass of water stagnated in the flat lands of the Viramgam

taluka for irrigation purposes. The scheme aims at constructing a canal from the Viramgam canal improving the Ghoda Feeder so as to raise its capacity to 1,000 cusecs and extend the Ghoda-Thuleta canal upto the lake near the village Vekaria. Much of the work under the Scheme has been completed and an amount of Rs. 1,306,253 has been expended upto the end of the financial year 1960-61. The scheme when completed will irrigate 8,000 acres of land in the *Kharif* season and 5,000 acres of land in the *Rabi* season.

29 Giramtha, V.P. (Taluka Daskroi), P. 1,763

It is six miles from Vatva, a railway station on the Bombay-Viramgam broad gauge section of the Western Railway. Near this village is the Pirana monastery with five *rozas* (mausoleums), the chief being that of *Imamsha*. In 1449 A.D., Sayed Imamsha came from Persia and settled on a hillock at the entrance of the Giramtha village. There were no rains for three years in succession. The farmers requested him to bring rain. When rain fell, they chose him to be their *Guru*, spiritual guide. A hutment was built for him to the west of the village where an arrow shot by him had fallen. Soon after this, Mohammed II, King of Ahmedabad, who was convinced that Imamsha had miraculous powers, took him to Ahmedabad and gave him his daughter in marriage. By her he had four sons, the ancestors of the present Pirana Sayeds. He had five chief followers, viz., Hazarbeg, a Muslim, Babheram, a Leva Kanbi cart-driver, Naga Kaka, a Koli, Shara Kaka, a Leva Kanbi and Babheram's sister Chichibai. Feeling his end was near, Imamsha told Hazarbeg that he (the latter) too would die soon, sent Babheram and his sister to Petlad, Naga Kaka to Rewakantha and gave charge of the shrine at Girmatha to Shara Kaka. He died soon afterwards and was buried in the mausoleum built in his life-time. His disciples are chiefly Brahmins, Banias, Leva and Kadva Kanbis and Kachhias. None of them are Muslims. The head or holder of the *Gadi* has to give up all worldly pleasures. On his death, the ablest of the Leva Kanbi disciples is chosen as the head of the sect known as *Kaka*. Each of the five tombs is worshipped by the followers of the deceased saint belonging to various castes residing in different parts of Gujarat. Two fairs are held at Pirana on *Bhadrapad Sud 8* (September) and *Bhadrapad Sud 11* (September) which attract 4,000 and 1,200 persons respectively.

30 Godhavi, (Mahal Sanand), P. 2,780

It is a railway station, one and half mile away from Sanand on the Bombay-Viramgam section of the Western Railway. Most of inhabitants are Jains and Garasias. The Jains being in a majority in this part they have built Jain temples at this place which are worth seeing. A marketing centre for the surrounding villages, Godhavi is well-known for its tobacco. Waterworks have been recently constructed at this village.

31 Gundi, V.P. (Taluka Dholka), P. 2,107

It is a railway station on the Ahmedabad-Bhavnagar metre gauge section of the Western Railway and has a Sarvodaya centre which tries to uplift the standard of life of the people of forty-five villages-35 of Dholka taluka and 10 of Sanand mahal, particularly in educational and agricultural spheres. It has a cotton ginning factory. It has an old temple of *Achaleshver Mahadev* declared open for all castes at the hands of Shri Vinoba Bhave and renamed *Vishva Mandir* where a fair is held on *Bhadrapad Sud 11* (September). There is an Ashram of Munishri Santbalji Maharaja, a Sthanakvasi Jain saint who has been taking keen and active interest in rural uplift.

32 Gunjala, V.P. (Taluka Viramgam), P. 1,957

It is at a distance of six miles from Rantej, a railway station on the Kalol-Chanasma metre gauge railway line and is situated in the Chunwal tract on the extreme north of the Viramgam taluka and on the border of the Mehsana district. It is an ex-talukdari village. The financial condition of the Thakores and Thakardas is poor. Once upon a time, the people inhabiting this area were notorious for committing murders, dacoities, petty thefts, etc., though the crimes have now decreased to a great extent.

The village is famous for the temple of *Gomteshwer* Mahadev.

33 Hansalpur Sareshwer, V.P. (Taluka Viramgam), P. 1,608

It is situated two miles from the Viramgam railway junction and has an old temple of *Shiva* known as *Sareshwer Mahadev* found from the *Ser Talav* (tank) many years ago and installed in the village, where a fair is held on every Monday of *Shravan* (July-August). At this village, in the middle of the tank there is a hillock with a shrine of Mahadev on it, and the entire view presents a beautiful appearance.

34 Isanpur, V.P. (Taluka Ahmedabad City), P.897

It is one mile and a half from the railway station Maninagar on the Viramgam-Bombay broad gauge section of the Western Railway. It was built by Malik Isan or Isam Sultani, a noble of Mahmud Begada's court. It has three monuments preserved as protected monuments, viz., (1) Jethabhai's step-well architecturily belonging to the mediaeval period, (2) a small stone mosque known as Rani's Mosque or Bawa Ali's Mosque with three domes and (3) the big Mosque with the tomb of Malik Isan.

35 Jakhwada, V.P. (Taluka Viramgam), P. 1,748

It is a railway station on the Viramgam-Baroda broad gauge railway line, six miles away from Viramgam. It is a cotton-growing area and has Kyari lands producing paddy.

36 Jetalpur, V.P. (Taluka Daskroi), P. 2,955

It is on the Bombay-Ahmedabad National highway No.8 at a distance of six miles from the Barejdi railway station on the Ahmedabad-Bombay broad gauge section of the Western Railway. It is the birth place of the famous poet Akha Bhagat and has an Agriculture high school and a hostel. It has a beautiful temple of the Swaminarayan sect and other relics associated with the founder. A fair held on *Bhadrapad Sud* 11 (September) attracts about 3,000 persons.

37 Kadjodra, V. P. (Taluka Dehgam), P. 3,839

Situated on the bank of the river Meshwo, at a distance of seven miles from Dehgam, most of the inhabitants are agriculturists. There are ten shops of blacksmiths who are considered to be well-versed in the manufacture of agricultural implements.

38 Kasindra, V.P. (Taluka Daskroi), P. 3,903

Situated on the bank of the river Sabarmati at a distance of thirteen miles from Ahmedabad, Kasindra is known for its crops of sugarcane, water-melons, *tetis* (musk-melons) and potatoes.

39 Kathwada, V.P. (Taluka Daskroi), P. 4,701

It is situated at a distance of three miles from Naroda, a railway station on the Ahmedabad-Khed Brahma metre gauge section of the Western Railway. It has factories for making starch from maize and straw-boards and is also known for dairy farming.

40 Katosan Road (Village Sunwala), V.P. (Taluka Viramgam), P. 2,154

It is a railway junction on the Viramgam-Mehsana and Kalol-Chanasma metre gauge sections of the Western Railway, within the limits of the village Sunwala. It has ginning factories and oil mills and is a groundnut producing area. It is a marketing centre for about thirty surrounding villages. It has a high school and a hospital.

41 Koba, V.P. (Taluka Daskroi), P. 1,014

Situated on the bank of the river Sabarmati at a distance of five miles from the Sabarmati railway station with which it is connected by a bus service, Koba is famous for the Kasturba Ashram, managed by the Kasturba Smarak Trust for training *Gram Sevikas* in social work. The Trust organises a fair known as *Gandhi* fair held on *Magh Vad 13* (February) when about 1,000 persons congregate.

42 Koteshvar, V.P. (Taluka Daskroi), P. 481

Situated seven miles from Ahmedabad, the village has an ancient temple of *Koteshvar Mahadev*

built by Bajirao Peshva. It is a Devasthan Inam village.

43 Koth, V.P. (Taluka Daskroi) P. 6,370,

A railway station under the name Koth-Gangad on the Ahmedabad-Bhavnagar metre gauge section of the Western Railway. Koth is the centre of trade in wheat and cotton and has a cotton ginning factory.

44 Lothal (Taluka Dholka)

Forty six miles by a motorable road from Ahmedabad, Lothal is situated near the village Saragvala in the Dholka taluka, which is at a distance of three miles from Bhurkhi, a railway station on the Ahmedabad-Bhavnagar metre gauge section of the Western Railway. The word "Lothal" means "the dead". Recent excavations have shown that Lothal must have been an important port on the western coast of India in the third millennium B.C.

The discovery of a large dockyard testifies to the water-borne trade practised by the inhabitants of Lothal. Situated at the eastern end of the mound, it was roughly trapezoid on plan, its eastern and western embankments were each 710 feet long, the northern measured 124 feet and the southern 116 feet. The greatest extant height of the embankments was 14 feet. Boats could enter the harbour at high tide through an opening in the eastern embankment. The dwarf-wall near the entrance was meant to retain water even at low tide. A spill-channel existed in the southern embankment for the outlet of excess water. At the mouth of the channel two grooves for a sliding door could be seen. Narrow steps at the end and grooves at regular intervals in the side-walls of the channel suggested that a door could have been made to rest against wooden logs at desired places to maintain the required level of water.

During the excavations carried out at Lothal it has been noticed that raw materials like chert and agate from smaller ports were imported by Lothal. It manufactured stone blades and beads which must have been exported to the Indus Valley cities and other places. Lothal seems to have contracts with foreign countries such as Mesopotamia and Egypt. The terracotta sealings i.e., baked clay objects bearing the positive impression taken from steatite and copper seals have helped to understand the purpose for which the famous Indus seals were prepared. They were meant for sealing packages of goods exported or for sealing documents. The use of trade marks and a uniform system of weights indicates that the trade in those days was of a very high degree.

No other ancient civilization in the world had so well-planned a city as Harappa, Mohen-jo-Daro or Lothal nor had it the elaborate arrangement of public and private drains for carrying sullage water, found in the cities and towns of Harappan period. In some respects, Lothal is considered to be more important than Harappa or Mohen-jo-Daro as the Harappan culture which was believed to have come to a sudden end in *circa* 1,500 B.C. in the Indus Valley is found in Lothal to have survived for another 500 years without any break in the continuity of Harappan traditions. The excavations at Lothal have resulted in narrowing down the missing link in the Indian History between 1,500 B.C. and 600 B.C.

The Lothal people were peace-loving. They feared none and had, therefore, built no forts nor had they any weapon of war. They devoted much attention to their comforts. Their chief occupations must have been agriculture, fishing and trade. Bead and blade-making were their important industries. Their tools and weapons were copper and bronze knives, daggers, axes, drill-bit bone pins and awls, stone blades and terracotta sling balls. Copper fish-hooks and terracotta fish-net weights have also been found. The excavations at Lothal have shown that the people used terra-cotta animal and human figures, miniature vessels, beads of golds, steatite, copper, shell, ivory and semi-precious stones. Their important

fine arts were metal-casting, painting on the pottery, modelling and engraving. Their knowledge of engineering was really astounding.

The excavations have also shown that the people of Lothal had a unique system of double burial besides the usual single burials. Two bodies were, in some of the grave opened, placed side by side. This double burial may suggest a custom similar to that of committing *sati* of later times.

45 Mandal, V. P. (Taluka Viramgam), P. 7,818 23°-17' N., 71°-58' E.

It is situated about fourteen miles north-west of Viramgam, a railway station on the Bombay-Viramgam broad gauge section of the Western Raliway, with which it is connected by a *pucca* road.

When Emperor Muhammed Tuglak came to Gujarat in 1,347, the Rana of Mandal and Patdi was honoured with robes and rewards as he helped him to restore order in his region. In 1414 Jhala Satarsalji of Mandal was one of the chiefs who joined the revolt against Sultan Ahmad I and it was not till 1530 that the Mandal estates were made a part of the crown domains. In 1741, it was restored to and fortified by a brother of the Viramgam Desai. In the latter part of the century, it remained under the Marathas till its transfer to the British in 1817. In 1879, Mandal was described as having some small stone mosques and handsome temples as the only remains of its former importance. Situated in a cotton growing area it has oil mills and seven ginning and pressing factories. It is also a centre of trade and business. It has a high school and an old mosque known as the Masjid of Sultan Ahmad.

46 Modasar, V.P. (Mahal Sanand) P. 2,432

It is three miles away from Matoda, a railway station on the Ahmedabad—Bhavnagar metre gauge section of the Western Railway, and has an ancient tank known as *Banganga* believed to have been constructed by the Pandavas. On the bank of the tank is a temple of *Atreshwar Mahadev.* The idol of Mahadev is fabled to have been installed by *Atri Rishi* who performed penance here. A fair attended by about 5,000 persons is held from *Chaitra Sud 11 to 15* (April) at the site of temple.

47 Moraiya, V.P. (Mahal Sanand), P. 1,628

It is a railway station on the Ahmedabad-Botad metre gauge section of the Western Railway. It is famous for its mangoes. The Kasturbhai Lalbhai Farm situated in this village grows paddy in a large area.

48 Nal Sarovar (Taluka Viramgam)

It is a lake connected with Viramgam, Sanand and Ahmedabad with good roads and situated at a distance of 37 miles from Ahmedabad. It is 50 square miles in expanse, the maximum length and breadth being twenty and four miles respectively. It has 360 islets, the biggest of them being 'Panvad'. Its water is brackish. An area of 12 miles with water 6 feet deep reflecting green grass and groves of trees in the background presents a beautiful panorama. The northern, western, and southern sides without any well-marked banks are covered by tall and impenetrable reeds and high growing grass. Myriads of birds of about 60 varieties flock to this lake in winter from foreign climes as far away as Siberia and fly away in February.

The Government of Gujarat has established a Holiday Home at this lake. For the convenience of the tourists there are a rest-house, with lodging and boarding arrangements, a special power-house and underground drainage. Facility for boating in the lake is also available.

49 Nandol, V.P. (Taluka Dehgam), P. 2,359

It is a railway station called Nandol-Dehgam from which it is at a distance of three miles on the bank of the river Khari and connected with it by bus service. It is known for the craft of dyeing cotton sarees and other cloth. It has a high school, Mahila Mandal Udyog Shala, a Panchayat Chora and waterworks.

50 Naroda, V.P. (Taluka Ahmedabad City), P. 23,570

It is a railway station on the Ahmedabad-Khed brahma metre gauge section of the Western Railway, on the outskirts of the mill area of Ahmedabad city. It has a big temple of the Vaishanavite sect, a shrine of *Dhanurdhari Mata* and a Jain *Derasar*. Vegetables are grown here in plenty. Being in the vicinity of the Capital, various industries are being developed and established at this place.

51 Odhav, V.P. (Taluka Viramgam), P. 890

It is in the Chunval tract of the taluka at a distance of seven miles from Rantej, a railway station on the Kalol-Chanasma metre gauge section of the Western Railway. It has a tank in which crocodiles are often found. There is also a temple dedicated to *Gautameshwer Mahadev* at which a fair attended by about 3,000 persons is held on the last Monday of *Shravan* (August).

52 Rakhial, V.P. (Taluka Dehgam), P. 2,680

It is a railway station on the Ahmedabad-Khed Brahma metre gauge section of the Western Railway. It has an oil mill and factories for manufacturing vegetable ghee and soap. It is a growing centre of trade, the chief commodities being groundnut oil and mangoes. It has a high school and two private dispensaries.

53 Ranpur, M. (Taluka Dhandhuka), P. 7,929, 22°-21' N., 71°-45' E.

Situated on the bank of the river Sukhbhadar, it is a railway station on the Bhavnagar-Surendranagar metre gauge section of the Western Railway. It is said to have been founded in the beginning of the fourteenth century by Ranaji Gohel, an ancestor of the Bhavnagar ruling family. His forefathers claimed descent from Shalivahan (79 A.D.) and were driven away by the Rathods from their principality in Khedgadh in Marwad. Retreating southward, they under their chief Sejakji, took refuge with Raja Kalat, the Chudasama ruler of Junagadh who treated them with kindness and settled them on the site of the present Ranpur, then named Sejakpur. Sejakji's son, Ranaji, built a fort around Sejakpur and called it Ranpur. Mahumud Begada (1459–1511) defeated and slew the Ranaji then ruling in Ranpur and razed the town and the castle to ground. Azam Khan, the 23rd Viceroy (1635–1642) who was famous as a builder of castles and palaces erected a castle to the south of the town at the meeting of the rivers Sukhbhadar and Goma, a mosque with a reservoir, a strong roughly built bath with a cellar and underground passage, a Governor's house afterwards used as an office, a well and a garden. The old fort is now in a dilapidated condition. Ranpur has a high school, a rest house and a cotton ginning and pressing factory.

54 Sadra, V P. (Taluka Dehgam), P. 2,796

It is situated on the bank of the river Sabarmati ten miles from Dabhoda, a railway station on the Ahmedabad-Khed Brahma section of the Western Railway with which it is connected by a *pucca* road on which buses ply. The village was founded by Sultan Ahmedsha and was called Shadara, now known as Sadra. During the British regime it was the headquarters of the Political Agent of the Sabarkantha Agency.

55 Sanathal, V.P. (Mahal Sanand), P. 2,105

It is a railway station on the Ahmedabad-Bhavnagar metre gauge section of the Western Railway. It has an old lake built in the reign of King Sidhraj, a farm known as the Mistry Farm where flower plants and fruit-bearing trees are grown and has a poultry farm. The village is known for its handloom cotton fabrics.

56 Sanand, M., P. 14,315, 22°-59' N., 72°-25' E.

It is a railway station on the Ahmedabad-Bombay broad gauge section of the Western Railway and was once the headquarters of the ancient house of Koth. It has a mahal office, a power-house, two high schools, a maternity home, five ginning factories, four rice mills and

two co-operative societies carrying on timber trade on a large scale. It is a marketing centre for cotton, paddy and tobacco. A hose pipe manufacturing factory has been started recently at Sanand.

75 Salangpur, V.P. (Taluka Dhandhuka), 7,368,

It is five miles from the Salangpur Road railway station on the Ahmedabad-Bhavnagar metre-gauge section of the Western Railway, with which it is also connected by a regular bus service. It is well-known for the shrine of *Kashta-bhanjan Hanuman*, believed to give relief from worldly worries and troubles and evil influence of spirits and ghosts. A fair is held at the shrine on *Bhadrapad Sud 11* (September) when about 5,000 persons congregate. Another large temple of a rival Swaminarayan sect is an added attraction.

58 Sarkhej, V.P. (Taluka Ahmedabad City), P. 6,278

It is a railway station on the Ahmedabad-Bhavnagar metre gauge section of the Western Railway. Shaikh Ahmad Khattu Ganj Baksh of Anhilvad, a friend and adviser of Sultan Ahmad I, retired to Sarkhej and died there in 1445. A mausoleum was built in his memory, which was begun by Mahammad II in 1445 and finished by his son Sultan Kutbuddin in 1451. This mausoleum is the largest of its kind in Gujarat and has stone trellis work filling all its sides. The tomb inside has beautifully cut open metal screen. Beyond the mausoleum is a courtyard, covering more than an acre of land, surrounded by cloisters and at its west end a mosque only a little smaller than the Jumma Mosque. There are two other mausoleums with a connecting porch, containing the tombs of Sultan Mahmud Begada (1459–1511) and members of his family. Sultan Mahmud Begada had made Sarkhej his favourite resort, dug a large lake, surrounded it with flights of cut stone steps and raised these mausoleums for himself and his family. Looking across the lake which covers 17½ acres and is a work of great beauty are the remains of Mahmud Begada's palace and *heram* (queen's abode). A little to the south of the lake is the tomb of *Baba Ali Sher*, a saint held in high esteem, even higher than Ganj Baksh, Sultan's religious teacher. Close by are the ruins of Mirza Khan Khanan's *Fateh Badi* or victory garden laid out in 1584 to mark the defeat of Muzaffar III, the last of the Ahmedabad Kings.

In the seventeenth century, Sarkhej was so famous for its indigo that the Dutch established factory in the village in 1620.

59 Saroda, V.P., (Taluka Dholka), P. 2,118,

Situated on the bank of the river Sabarmati at a distance of eleven miles from Dholka, a railway station on the Ahmedabad-Botad metre gauge railway line, Saroda is known for its water-melons and *tetis* (musk-melons).

60 Tagdi, V.P. (Taluka Dhandhuka), P. 1,403

It is a railway station on the Ahmedabad-Bhavnagar metre gauge section of the Western Railway. It is a marketing centre for wheat. Tagadi is one of the *bethaks* (seats) of *Mahaprabhuji* where Shri Vallabhacharya stayed and read *Shrimad Bhagwat*. The place is held in high religious esteem by the Vaishnavas. A fair known as *Annakut* fair is held on *Kartik Sud 9* (October) when about 5,000 persons congregate.

61 Vani, V.P. (Taluka Viramgam), P. 1,275

It is a railway station named Vani Road on the Viramgam-Okha metre gauge section of the Western Railway. There is a tomb of *Balamsha Pir* where a fair is held on *Shravan vad 30* (August) with a congregation of about 9,000 persons.

62 Vasai Tank Scheme, (Taluka Daskroi)

A new tank has been built to the north of the village Vasai in the Daskroi taluka in order to increase the capacity of the present tank which can store 460 lakh cubic feet of water and irrigate only 550 acres of land. The capacity of

the new tank is estimated at 820 lakh cubic feet of water. It will irrigate 1,500 acres of lands of the Vasai and Mahijada villages which yield high quality of paddy known an *Tran Pankhali* (*three-forked*) *Kamod*. Much of the work of constructing the new tank has already been completed at an estimated cost of Rs. 520,536.

63 Vasna Iava; V.P. (Mahal Sanand), P. 934

It is a railway station on the Baroda-Viramgam broad gauge section of the Western Railway. It has a big brook named Rohar on which a dam has been constructed to provide irrigation facilities to the village.

64 Vasna Keliya, V.P. (Taluka Dholka), P. 3,388

It is situated at a distance of five miles from Dholka, the headquarters of the taluka, and a railway station on the Ahmedabad-Bhavnagar metre gauge section of the Western Railway. It produces plenty of vegetables like brinjals, sweet-potatoes, ginger and fruits like pomegranates, guavas, lemons, etc., Its ginger is particularly famous. It has a ginning factory, a high school and a water works with piped water supply.

65 Vatva, V.P., (Taluka Daskroi), P. 5,349

It is a railway station on the Viramgam-Baroda broad gauge line of the Western Railway. It has a group of buildings, two tombs and a mosque constructed in memory of Shah A'lam's father and brother. Burhan-ud-din Kutb-ul-Alam, the father of Shah A'lam, was the grandson of a famous saint buried at Uch on the Sutlej. He settled at Vatva and died there in 1452. The nobles of the courts of Sultan Ahmad I, Sultan Kutb-ud-din and Sultan Mahmud Begada, first raised a small shrine and afterwards a mosque, a tomb to one of his sons, a large many-sided pond and a vast mausoleum. The mosque and the son's tomb are in the flat Hindu style without arches or minarets. In the large mausoleum, however, the arch takes the place of the beam and the dome is raised high in air by a second tier of arches. The arch has one consistent design and has much beauty. The tomb is of the most elaborate workmanship surmounted by a richly inlaid canopy.

The village is known for its mangoes and vegetables.

A fair, known as the Devi Mata fair, is held on *Bhadrapad Sud 8* (September) when about 5,000 persons participate.

66 Vautha, V.P. (Taluka Dholka), P. 1,494

It is about eleven miles south-east of Dholka and 40 miles from Ahmedabad, with which it is connected by a regular bus service. It is located at the meeting of seven rivers, viz., the Sabarmati, its tributary Hathmati, the Vatrak and its tributaries, the Khari, the Meshwo, the Shedhi, and the Majam. The *Bhatha* (river bed) lands are very fertile, the chief crops of the village being sugarcane, wheat and cotton.

At the confluence of the seven rivers, a very big fair with a huge congregation amounting to about 200,000 persons is held on *Kartik Sud 11* to *Vad 1* (October-November) of which *Sud 15* is the most important. As *Kartik Swami* is said to have resided here, his foot-prints are worshipped during these days. In the village there is a temple of *Siddheshwer Mahadev* which is believed to be *Swayambhu* (self-existent) and to have come into existence in *Vikram Samwat* 1215 (1159 A.D.). The *darshan* of *Siddheshwer Mahadev* and a bath at the confluence of the rivers are the special features of the occasion.

67 Vejalpur, V.P. (Taluka Ahmedabad City), P. 3,185

It is situated at a distance of one-half mile from Vastrapur, a railway station on the Ahmedabad-Bhavnagar metre-gauge section of the Western Railway and takes its name from a temple dedicated to *Vaijnath Mahadev*.

68 Viramgam, M., P. 38,955, 23°-6' N., 72°-6' E,

It is a railway junction where the Viramgam-Bombay broad gauge, Viramgam-Kharaghoda broad gauge, Viramgam-Okha metre gauge and

Viramgam-Mehsana metre gauge sections of the Western Railway meet. It is also the headquarters of the taluka of that name. It has two high schools, a library, a hospital, a rest-house and a garden.

It is an old town with five gates in the fort surrounding it. Minaldevi, the mother of Sidhraj Jaysinh, constructed the Mansar Lake, with 360 small *Shiv* shrines (*Deris*) most of which are now in ruin. At the close of the eleventh century during the reign of Sidhraj several shrines and temples were added. In addition to the Mansar Lake, there is another big lake called Gangasar. Under the strong Mandal chief, Viramgam did not become part of the Ahmedabad rulers' domain till 1530. It was chosen by the Mogul viceroys as the headquarters of the Jhalawad district, as it commanded the entrance into Saurashtra later known as Kathiawad. During the disturbances of the eighteenth century it was the scene of several struggles. It continued under a Muslim governor till 1735 when Desai Bhavsingh called in the Marathas who dislodged the Muslims. A cotton producing area, it has a textile mill, a mill producing mosquito-nets and six ginning and pressing factories.

Aligadh is a hamlet of Viramgam, which is inhabited by "Shia Daudi Bohras" who are noted businessmen and good agriculturists. The inspection bungalow and electric power-house are situated near this hamlet. There is a Dargah of a Muslim saint, Gabansha Pir, where a fair is held on Shawwal 1, with a congregation of 1,000 to 1,500 persons.

68 Vithalapur, V.P. (Taluka Viramgam), P. 1,635,

It is situated on the Viramgam-Sitapur Bechraji Road in the Chunval tract, (the northern group of forty-four or *Chunvalis* villages of the Viramgam taluka having *Goradu* yellowish-land). It is connected with Viramgam by a bus service. It is a former talukdari village held by Thakarda talukdars. Cotton and bajri (millet) are its chief produce.

69 Zolapur, V.P. (Mahal Sanand), P. 2,275

It is situated at a distance of $4\frac{1}{2}$ miles from Chorvadodra, a railway station on the Baroda-Viramgam broad gauge section of the Western Railway and is connected by an approach road, three miles long, with the Bombay-Delhi National Highway No. 8. The Village Panchayat has got its own building.

PART II

1 CENSUS TABLES

2 OFFICIAL STATISTICS

A—GENERAL POPULATION TABLES

Out of 4 tables of A Series compiled at this Census, Tables A-I, A-III and A-IV giving area, houses and population, classification of villages and towns have been reproduced in the District Handbook. They are the same as those given in 1951. The most distinguishing features, however, are the various appendices and sub-appendices giving details of (a) 1951 territorial units constituting the present set-up of the district showing changes which have taken place during the decade, (b) villages with a population of 5,000 and over and towns with a population under 5,000, (c) houseless and institutional population, (d) 1951 population adjusted to 1961 administrative units, (e) new towns added in 1961, (f) towns in 1951 declassified in 1961 and (g) towns with their area and jurisdiction.

A-I—Area, Houses and Population

This table is more elaborate than that of 1951 as it gives in addition to area, houses and population, population per sq. mile, number of inhabited and uninhabited villages and number of towns. The data is given down to taluka/mahal with break-up for Total/Rural/Urban.

Brief Account of Changes in Area of the District from 1901 to 1961

Numerous changes have taken place since Independence in the areas of the districts, though the boundaries of various units comprised therein practically remained unchanged between 1901 and 1941. Three principal stages in which these changes have come about during the Post-Independence period are: (i) those that came in the wake of Independence after 1947; (ii) those that took place on the Reorganisation of States in 1956 and (iii) those that resulted from the bifurcation of the bilingual Bombay State in 1960.

Even after reorganisation in 1956, several territorial changes were effected in 1959, the details of which have been given in sub-appendix 2 to Appendix I to Table A-I alongwith the relevant notifications. Broad changes that have taken place in the territorial limits of the district between 1951 and 1961 are, however, listed below:—

Ahmedabad:—This district continues with the addition of one village of Mehsana district, less one town and one village transferred to Surendranagar district.

Rural and Urban Population

During the past censuses there was no uniformity in the criteria prescribed for distinguishing urban areas from the rural. The definition of 'town', therefore, varied from State to State and the places were treated as towns if, in the opinion of the State Government or the Superintendent of Census Operations, they were found to possess urban characteristics. It included all municipalities, cantonments, civil lines and all places with more than 5,000 population which, it was decided, to treat as towns on the ground that they possessed urban characteristics. This definition of 'town' has remained substantially unchanged since 1891. To the characteristics aforementioned, Baroda State, which has merged into Bombay State in 1949 and now forms part of the newly formed Gujarat State added one more according to which all the headquarters of talukas were treated as towns. In view, however, of the increasing importance of studying urbanisation in all its varied aspects, the Registrar General, at the very outset of 1961 Census, emphasised the need for a uniform treatment by strictly defining the concept of 'town'.

Town:

'Town' has been defined as a place having a municipality or a cantonment or a place with a population of 5,000 and over if 75 per cent of its male population is dependent on non-agricultural pursuits. These tests were applied by the Collectors who furnished lists of places to be treated as towns in 1961, which were also got approved by the State Government and the Registrar General.

As against 20 places treated as towns in 1951, 14 qualify to be treated as urban according to the test prescribed by the Census of 1961. The loss of 6 is accounted for by declassification of 2 towns as villages as shown in Statement A, splitting up of Ahmedabad Cantonment into Ahmedabad Cantonment (Military) and Ahmedabad Cantonment (Civil) and merger of five towns, viz., Acher, Vadaj, Rakhial, Amraiwadi and Khokhara-Mehmedabad into Municipal Corporation of Ahmedabad.

STATEMENT A

Urban areas of classes IV & V of 1951 eliminated in 1961 with population of 1951 and 1961

Class	Name and number of towns	Population	
		1951	1961
IV	2	29,369	..
*1	Acher	18,377	..
*2	Vadaj	10,992	..

STATEMENT B

New urban areas of class V listed in 1961 with their names and population in 1961

Class	Name and number of town	1961 Population
V	Ahmedabad Cantonment (Civil)	5,361

Village:

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distirict number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

Census House:

Owing to the diversity of local conditions it was not possible in the past to lay down a uniform definition of a 'Census House' common to all parts of the country. The definition adopted till the Census of 1941 had two-fold connotation which emphasised either (i) the structural aspect, i.e., building or house or (ii) the social aspect, i.e., family or household. The former was defined as the residence of one or more families having a separate and independent entrance from the common way. But the social aspect was emphasised by defining a 'Household' as the home of the composite family with its resident dependents and servants. From 1881-1941, the Census Superintendents adopted the one or the other definition according to their convenience. A clear distinction was, however, drawn between a 'Census House' and a 'Census Household' in 1951 which gave a uniform meaning to the term 'Census House' or the 'Census Household' or the 'Family Unit'. The 'Census House' was defined as, 'a dwelling with a separate main entrance' and the 'Census Household' as 'all persons who live together in the same house and have a common mess'.

Though the definition of a 'Census House' introduced in 1951 was continued during the Census of 1961, it differs from that adopted by the Census of 1961 in that the latter is broad-based to include non-dwellings also. The house-list is thus an inventory of all structures or part of structures with a separate entrance.

The following definitions of the term 'Census House' given in the instructions for filling the house-list will clarify the position still further.

---

* The population of Acher and Vadaj under Class IV and Rakhial, Amraiwadi and Khokhara–Mehmedabad under Class V was enumerated and included in the population of Ahmedabad Municipal Corporation in 1961 as they lost their separate identity on their merger in that city in 1958-59 under Government Resolutions No. PMC-1256-C dated 30-5-1959 and 13-8-1958.

"A 'Census House' is a structure or a part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

A-III — Villages Classified by Population

This table classifies inhabited villages only by size of population. After giving the total number of inhabited villages and rural population for every taluka/mahal, it shows the number of villages and population for the following seven categories, namely:—

(1) less than 200, (2) 200-499, (3) 500-999, (4) 1,000-1,999, (5) 2,000-4,999, (6) 5,000-9,999 and (7) 10,000 and above.

Table A-III of 1951 gives combined figures of inhabited towns and villages classified by population, while A-III of 1961 gives figures of villages only classified by population.

A-IV—Towns and Town-groups Classified by Population in 1961 with Variation Since 1941

This table gives statistics relating to the figures of population since 1941 showing the growth of each town from census to census. Percentage variation is given from decade to decade, not only for the towns, but also for town-groups, where one or more urban units form a compact urban area. The total population of the town-group along with that of its constituent urban units is given under the class into which the town-group has been classified. Separate figures have, likewise, been given for municipal and non-municipal areas such as port area, suburban area, military area, railway colony, cantonment, etc., where a town is a combination of two or more such units. The following are the six classes into which the towns are grouped in Table A-IV according to the size of population:

Class	Population	Class	Population
I	100,000 and above	IV	10,000 to 19,999
II	50,000 to 99,999	V	5,000 to 9,999
III	20,000 to 49,999	VI	Less than 5,000

The areas of towns in sq. miles and sq. kilometres are also given in the table for 1961.

The term 'town' as defined at the Census of 1961 and its uniform adoption all over the country on the basis of certain specified tests have been explained under 'Urban and Rural Population' in the note to Table A-I.

'Town-group'—This is a new variant of the urban population which has been introduced for the first time on the present occasion. Large cities or expanding towns bring within their orbits new satellite towns, industrial areas or settlements interspersed by small bits of rural areas. Such urban areas, not necessarily municipal, are taken to form town-groups with the main city or town as one of the constituents.

'City'—Places having population of 100,000 and over either individually or as a town-group have been classified as cities.

A-I—AREA, HOUSES AND POPULATION

District/Taluka/Mahal	Total Rural Urban	Area in Sq. Miles	Area in Sq. Km.	Population per Sq. Mile	Number of Villages Inhabited	Number of Villages Uninhabited	Number of Towns	Number of Occupied Residential Houses	Population Persons	Population Males	Population Females

NOTE :

1 Population per sq. mile under Column 4 has been worked out on the area figures given by the State Survey Department given in Column 3(a).

2 Under Column 4, population of those urban units, for which area figures are not available, is ignored for working out urban density. Rural density is worked out on the basis of rural population only though the area figures include areas of those urban units for which separate area figures are not available.

3 The sq. kilometres under Column 3(b) and density figures of urban areas of Taluka/Mahal and District under Column 4 are worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of the towns in the respective units. In addition to this, the figures relating to sq. kms. are further adjusted to make the Taluka/Mahal and District totals agree.

APPENDIX I

1951 TERRITORIAL UNITS CONSTITUTING THE PRESENT SET-UP OF DISTRICT AND EACH TALUKA/MAHAL

(Only those names/areas which have undergone changes since 1951 have been shown below)

District/ Taluka/Mahal	1951 territorial units	Details of gain in territories: Brief description	Area Sq. Miles	Area Sq. Km.	Details of loss in territories: Brief description	Area Sq. Miles	Area Sq. Km.	Net area Gain(+) Loss(−) Sq. Miles	Net area Gain(+) Loss(−) Sq. Km.

NOTE:

1 Towns treated as such for the first time in 1951 which continue as towns in 1961 Census are shown with an asterisk (*) on their left.

2 Towns treated as such for the first time in 1961 are printed in italics.

The following abbreviations have been used for the status of a town:—

(i) M—Municipality
(ii) Cantt.—Cantonments
(iii) M.C.—Municipal Corporation
(iv) N.M.—Non municipal Area
(v) P.—Village Panchayat
N. A.—Not Available

† The following five towns of 1951 have been merged in Ahmedabad Municipal Corporation in 1961.

(i) Acher with a population of 18,377 (M,10,093,F 8,284) in 1951;
(ii) Vadaj with a population of 10,992 (M,5,775,F 5,217) in 1951;
(iii) Amraiwadi with a population of 7,354 (M,4,335,F 3,019) in 1951;
(iv) Rakhial with a population of 6,573 (M,3,995,F 2,578) in 1951;
(v) Khokhra-Mehmedabad with a population of 5,534 (M,3,109,F 2,425) in 1951;

* Ahmedabad Cantonment (Civil) in 1941 with a population of 3,045 (M,1,669, F. 1,376) was a part of Ahmedabad Cantonment (Military). The combined population for the Ahmedabad Cantonment Civil and Military have been shown against Ahmedabad Cantonment (Military).

	8 Dehgam (422-16)	Part (422-16) of Dehgam village
	9 Sanand (320-0)	Part (320-0) of Sanand village
	10 Bavla (5,713-2)	Part (5,713-2) of Bavla village
	11 Dholka (960-0)	Part (960-0) of Dholka village
	12 Ranpur (79-14)	Part (79-14) of Ranpur village
	13 Barwala (7,917-13)	Barwala village (7,917-13)
	14 Dhandhuka (640-0)	Part (640-0) of Dhandhuka village

NOTE :
Towns treated as such for the first time in 1961 are printed in italics.
*Separate area for constituents not available

B—ECONOMIC TABLES

This series is divided into two parts, viz., (i) General Economic Tables and (ii) Household Economic Tables. Economic Tables of the 1961 Census cover a very large field of data and are more elaborate than any of their predecessors. The most important point to remember about the economic tables is that during the past censuses, income or economic independence was the test applied for measuring the economy of the country. Before 1961, economic activity was interpreted in terms of categories like economically independent or economically dependent, semi-dependent, earning dependents or non-earning dependents. In 1951, the economic classification was confined to the eight livelihood classes with stress on income rather than work or economic activity of the individual. The most significant departure that the Census of 1961 has made is the emphasis laid on work, so that all people who work, including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance have also been included as workers. Even the non-workers have been distributed into eight-fold categories according to the activities pursued by them. This change in concept will help obtain a realistic picture of the economic activity of those important sections of household workers who were left out of account in the past.

The Household Economic Tables on the other hand are an entirely new feature of the 1961 Census. They are prepared from household schedules by mechanical tabulation on the basis of 20 per cent sample and give all possible data relating to the extent of land under cultivation, nature of household industry, period of work in household industry and the persons employed either as family workers or as hired labourers.

Industrial and Occupational Classification

Another noteworthy feature of the General Economic Tables is the systematic classification of industries and occupations. For, the one introduced in 1951 was, as truly pointed out by the Registrar General, neither a purely industrial nor occupational classification of the population but a combination of both. The National Classification of Industries and Occupations adopted by the Government of India and followed on the present occasion classifies the economic data into 9 divisions, 45 major groups and 343 minor groups of industries and 11 divisions, 75 groups and 331 families of occupations as against a conglomeration of 10 divisions and 88 sub-divisions of services in 1951.

The following statement gives the categories of industrial workers adopted in the current census and the eight livelihood classes of 1951.

1961 Industrial Categories	1951 Means of Livelihood
	AGRICULTURAL CLASSES
I As Cultivators	I Cultivators of land wholly or mainly owned and their dependents
II As Agricultural Labourers	II Cultivators of land wholly or mainly unowned and their dependents
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	III Cultivating Labourers and their dependents
IV At Household Industry	IV Non-cultivating owners of land, agricultural rent receivers and their dependents
V In Manufacturing other than Household Industry	NON-AGRICULTURAL CLASSES
VI In Construction	Persons (including dependents) who derive their principal means of livelihood from
VII In Trade and Commerce	V Production other than cultivation
VIII In Transport, Storage and Communications	VI Commerce
IX In Other Services	VII Transport
X Non-workers	VIII Other services and miscellaneous sources

In 1951 the non-workers who were known as non-working dependents were classified according to the occupation of the persons on whom they were dependent.

The non-working population is distributed separately for the first time according to eight types of activities, viz., (i) full time students or children attending school who do no other work, (ii) housewives and persons engaged in unpaid home duties, (iii) infants and other dependents including permanently disabled or old persons, (iv) retired persons, rentiers and others who are in receipt of income without doing any work, (v) beggars, vagrants and others of unspecified source of existence, (vi) convicts in jails or inmates of penal, mental or charitable institutions, (vii) persons not employed before but seeking employment for the first time and (viii) persons employed before but now out of employment and seeking employment.

Broadly speaking, workers of 1961 can be taken to be equal to self-supporting persons *plus* earning dependents of 1951 *minus* those in receipt of income without work such as rentiers, pensioners, beggars, etc.

In respect of persons who are workers, the information is available in Q. 8 Cultivators, Q. 9 Agricultural Labourers, Q. 10 Working at Household Industry and Q. 11 Working at Non-household Industry, Profession, Trade, Business or Service. Following extracts from the Manual of Instructions to Enumerators relating to Questions 8 to 12 on the basis of which the General Economic Tables are compiled will be helpful in appreciating the contents of these tables.

Q. 8 Working as Cultivator

A person is said to be working as cultivator if he/she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share. Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations which are shown in Q. 10 or Q. 11 as the case may be.

Q. 9 Working as Agricultural Labourer

A person is said to be working as Agricultural labourer when he works in another person's land only as a labourer without exercising any supervision or direction in cultivation for wages in cash, kind or share of produce. Also the labourer has no right or lease or contract on land on which he works, nor he is responsible for taking decision as to which crops to sow and when or taking the risks of cultivation.

Q. 10 Household Industry

A Household industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Household industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

Q. 11 Doing work other than 8, 9 or 10

Nature of work (occupation) is the exact function that a person performs in the economic sector in which he/she is engaged. This information was to be filled in Q. 10(a) or 11(a) of the individual slips. The 'industry' means that sector of economic activity in which the earner is engaged, and the name of that industry was recorded according to the name of the principal article produced, serviced or repaired. Specific instructions were given to record replies to Q. 11(a) and 11(b) as under:—

(1) In the case of married or grown up women who do any of the work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cow dung cakes, grass, etc., in addition to the usual household duties, such duties were fully described and 'HW' written in brackets after the full description.

(2) If a person makes the articles he sells, he was treated as maker and seller of them.

(3) The vague terms like scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher, etc., were not written.

(4) For labourers accustomed to work on various jobs, 'general labourer' was mentioned

(5) Machine Operator.

The kind of machine used with its recognised name was given.

(6) Shop-keepers, Retail Dealers, Shop Assistants.

If a person was mainly engaged in selling, 'Dealer' was written and if assisting 'Shop Assistant' or 'Salesman' was written. 'Wholesale' and 'Retail' was stated when the business was carried on in wholesale or in retail.

(7) The nature of transport was fully mentioned like air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by bullock, camel, etc.

(8) For a person engaged in Defence services, 'service of Central Government' was written.

(9) Domestic Services

In the case of any private servant, e.g., a cook or domestic servant, 'private or domestic servant' only was written. There was no industry in their case but in cases of persons employed in hotels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., were added.

Status of economically active persons

Economically active persons were divided into 4 classes (1) Employer (2) Employee (3) Single worker and (4) Family worker.

An 'employer' is that person who hires one or more persons in his work.

An 'employee' is that person who works under others for wages or salary in cash or kind.

A 'single worker' is that person who does his work without employing others except casually and without the help of the other members of the family except casually.

A 'family worker' is that person who is doing his work in own family without wages or salary in cash or kind.

Thus one more status of economically active person, viz., family worker is added against only first three in the previous census of 1951.

Q. 12 Activity, if not working

A person who is not working has been classified as non-worker. Non-workers are distributed separately according to eight types of activities already noticed above.

(i) General Economic Tables

There are in all 24 Economic Tables compiled in B-Series—16 General Economic Tables compiled from individual enumeration slips and 8 Household Economic Tables from household schedules on 20% sample basis. Out of the 16 General Economic Tables, the District Handbook reproduces the following 12.

B-I—Workers and Non-workers classified by sex and broad age-groups

Table B-I is the basic economic table furnishing the total population and 9 industrial categories of workers and non-workers. The data is presented for the district with total/rural/urban break-up.

The classification of workers and non-workers by broad age-groups, viz., 0-14, 15-34, 35-59 and 60 and above, is the special feature of 1961 census as these age-groups correspond to the different stages of life

which have a special significance as regards capacity to work, viz., children, young persons, middle aged persons and old persons.

TABLE B-III-A AND B—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

This table which corresponds to the Table D-VII of 1951 is given in two parts—A & B. Part-A relates to the urban areas and Part-B relates to rural areas. The data in Part-A are presented for the district and that in Part-B down to taluka/mahal for rural areas.

In 1951, only literate and educated persons were classified into eight educational standards by 8 livelihood classes. No classification of illiterate persons into 8 livelihood classes was given in 1951; whereas in this Table, nine categories of workers and also non-workers are given for illiterates as well as for literates.

Non-technical diplomas and degrees have this time been distinguished from technical diplomas and degrees and separate information given also for each technical degree.

TABLE B-IV—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK OTHER THAN CULTIVATION

This table corresponds to table B-III of 1951. It has been presented in three parts on the basis of the principal work of the persons. Part-A relates to persons at work in Household Industry, classified by branch of industry and class of workers (employee and others). Figures for the district are given for Divisions and Major groups for total/rural/urban and those for taluka/mahal for Divisions and rural areas only. Part-B pertains to persons at work in non-household industry, trade, business, profession or service, classified by branch of industry and class of workers (Employer, Employee, Single worker and Family worker). Figures for the district are given for Divisions and Major groups for total/urban and those for taluka/mahal figures for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the Villagewise List of Industrial Establishments. Part-C relates to persons at work at household as well as in non-household industry classified by branch of industry. Figures for the district are given for Divisions, Major groups and Minor groups with descriptions for total/urban and those for taluka/mahal for Divisions only and rural areas only.

Table B-III of 1951 furnished figures of self-supporting persons only whereas in this table all the persons who work including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance are included as workers. In 1951, there were three classes of workers, viz., Employer, Employee and Independent workers whereas in this table, workers are classified in four categories, viz., Employer, Employee, Single worker and Family worker, the definitions of which are already given before.

Appendix to Part-C shows in run on lines Minor Groups with the number of male and female workers separately for household industry and non-household industry in brackets having less than 1% of workers of the respective Division (0.5% for Divisions 2 & 3 combined) which are omitted from the table.

TABLE B-V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

This is a new table in which cross-tabulation of industry and occupation has been made for the first time. Figures for the district are given by Divisions, Groups and Families for total/urban and for taluka/mahal by Divisions only for rural areas.

Separate data are furnished for the persons working in household industry and other industrial categories as adopted in the Primary Census Abstract alongwith the Divisions, Groups and Families giving code numbers and actual description. The National Classification of occupation followed in this table is in conformity with international usuage.

Appendix to this table shows in run on lines, families with the number of male and female workers followed by industrial categories having less than 1% of workers of the respective Division (0.5% for Divisions 7 & 8 combined) which are omitted from the main table.

While applying quality checks, some occupations appeared to have been classified under inappropriate industrial categories vis-a-vis the occupations or the nature of work done by persons in economic sector of their activity. Such cases are listed in the annexure to the table, indicating the appropriate industrial category in which they deserve to be classified.

TABLE B-VII PART-A—PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS, (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY, (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

TABLE B-VII PART-B—INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

In this table figures are presented for the district for Divisions and Major groups with total/rural/urban break-up and those for taluka/mahal for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the Villagewise List of Industrial Establishments.

In a similar table B-II of 1951, there was cross-tabulation of self-supporting persons and earning dependents with reference to the secondary means of livelihood which was confined to 8 livelihood classes, while this table affords cross-tabulation between principal work in cultivation and household industry or *vice versa*.

Appendix to Table B-VII-A shows in run on lines Major Groups of household industry having secondary work, which are omitted from the table being less than 5% of major groups as principal work followed in each case by the number of industrial categories and number of males and females having secondary work separately for total/rural and urban population in brackets.

TABLE B-VIII PART-A—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN URBAN AREAS ONLY

TABLE B-VIII PART-B—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX AND EDUCATIONAL LEVELS IN RURAL AREAS ONLY

This is a new table prepared for the first time in 1961. It is in two parts. Part-A relates to urban areas and is presented for district. Part-B relates to rural areas and is presented down to taluka/mahal.

The classification of unemployed persons is shown separately for (i) those who are seeking employment for the first time and (ii) for those who were employed before but are now out of employment and seeking work. The age-groups given in the first case are quinquennial, viz., 15-19, 20-24, 25-29, 30-34 and 35+ modified in the second case as 15-19, 20-24, 25-34, 35-44, 45-59 and 60+.

In Part-A relating to urban areas information for unemployed persons is furnished for all educational levels, and in Part-B for educational levels upto matriculation and above.

TABLE B-IX—PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

This is a new table introduced for the first time. The table is presented for district with total/rural/urban break-up and for taluka/mahal for rural areas only. It classifies non-working population into 8 types of activities based on the recommendation of the United Nations Organisation. They are:—

1 Full time students
2 Persons performing household duties without wages
3 Dependents, infants and disabled persons
4 Retired persons, rentiers or persons of independent means
5 Beggars, vagrants, etc.
6 Inmates of penal, mental and charitable institutions
7 Persons seeking employment for the first time
8 Persons employed before, but now out of employment and seeking work

(ii) Household Economic Tables

Out of the 8 Household Economic Tables compiled at this census, 4 tables which are reproduced in the District Handbook are:—

Table B-X—Sample Households (i) engaged neither in cultivation nor household industry, (ii) engaged either in cultivation or household industry but not in both and (iii) engaged both in cultivation and household industry

(Based on 20% Sample)

This table is prepared for total, rural and urban for the district and for rural areas only for taluka/mahal.

Cultivation includes ownership, tenancy cultivation and agricultural labour. Household industry has been defined in the general note above.

Table B-XI—Sample Households engaged in cultivation classified by interest in land and size of land cultivated in Rural and Urban areas separately

(Based on 20% Sample)

For rural areas the data has been given down to taluka/mahal while that for urban areas has been given only for the district as a whole.

This table gives very useful data on the size of holdings and affords a cross-tabulation of names of local rights over land (interest), viz., (a) owned or held from Government, (b) held from private persons or institutions, (c) partly held from Government and partly from private persons, and size of holding, viz., less than 1; 1.0-2.4; 2.5-4.9; 5.0-7.4; 7.5-9.9; 10.0-12.4; 12.5-14.9; 15.0-29.9; 30.0-49.9, 50+ and unspecified.

Table B-XII—Sample households engaged in cultivation only classified by size of land cultivated and number of family workers and hired workers in Rural and Urban areas separately

(Based on 20% Sample)

For rural areas the data has been given down to taluka/mahal and that for urban area for the district as a whole. The information for households that are engaged only in cultivation has been cross-tabulated by number of persons engaged in cultivation and each prescribed size class of holding. Working strength in cultivation is further separated into family workers and hired workers when more than 1 person is engaged in cultivation.

Table B-XVI—Sample Principal Household industry classified by period of working and total number of workers engaged in household industry in all areas

(Based on 20% Sample)

This table is presented for the district with total/rural/urban break-up. The data in respect of households engaged in household industry only or both in household industry and cultivation has been given separately with the Divisions and Major groups of household industry. The household industry has been classified according to the period of working, viz.,

1-3 months, 4-6 months, 7-9 months, 10 months to one year. Under each duration period number of households, number of family workers and number of hired workers have also been given.

Appendix to this table shows in run on manner Major groups of household industry which are omitted from the table being less than 10% of the respective Division, giving the number of major groups, with or without cultivation, with period of working in abbreviation and the number of households in brackets separately for total, rural and urban.

TABLE B-XVII—SAMPLE HOUSEHOLDS CLASSIFIED BY (i) NUMBER OF MALE AND FEMALE MEMBERS BY SIZE OF HOUSEHOLDS AND (ii) ENGAGEMENT (a) NEITHER IN CULTIVATION NOR IN INDUSTRY, (b) IN HOUSEHOLD INDUSTRY ONLY AND (c) IN CULTIVATION SUB-CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

The table is presented down to district and gives data for total/rural/urban. It is intended to give family sizes distributed according to single member, small, medium, large and very large families. Though a 'Census Household' is not the same as a 'family' and also includes unrelated persons living with the family during the census count, the table will give a general idea of the sizes of families as the number of families having outsiders is quite insignificant.

The table gives such economic data as (i) Households engaged neither in cultivation nor household industry, (ii) Households engaged in household industry only and (iii) Households engaged in cultivation by size of holding groups with the break-up of sample households into (i) Single member, (ii) 2-3 members, (iii) 4-6 members, (iv) 7-9 members and (v) 10 members and over.

Since the table is based on 20% sample, total number of households and household population are given in the following statement:—

Total Number of Households and Household Population

District	Total Rural Urban	Total No. of households	Total household Population		
			Persons	Males	Females
1	2	3	4	5	6
Ahmedabad	Total	438,482	2,210,199	1,188,269	1,021,930

TABLE B-IV PART-C

B-IV PART-C—INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR

Branch of Industry			Total Workers		
			Total		
Division, Major group & Minor group of I. S. I. C.			Persons	Males	Females
		1	2	3	4
Major Group	29	Paper and Paper Products	1,044	962	82
	30	Printing and Publishing	3,425	3,334	91
Minor Group	300	Printing and publishing of newspapers and periodicals	1,423	1,382	41
Major Group	31	Leather and Leather Products	3,608	3,431	177
Minor Group	311	Manufacture of shoes and other leather footwear	2,185	2,102	83
Major Group	32	Rubber, Petroleum and Coal Products	202	200	2
	33	Chemicals and Chemical Products	2,266	2,210	56
	34-35	Non-metallic Mineral Products other than Petroleum and Coal	11,430	7,661	3,769
Minor Group	340	Manufacture of structural clay products such as bricks, tiles	7,206	4,438	2,768
	350	Manufacture of earthenware and earthen pottery	3,000	2,207	793
Major Group	36	Basic Metals and their Products except Machinery and Transport Equipment	10,884	10,505	379
Minor Group	360	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms tubes, rods	2,682	2,606	76
	369	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	5,478	5,225	253
Major Group	37	Machinery (All kinds other than Transport) and Electrical Equipment	1,490	1,479	11
	38	Transport Equipment	4,284	4,258	26
Minor Group	384	Repairing and servicing of motor vehicles	1,705	1,702	3
	388	Repairing of bicycles and tricycles	1,398	1,393	5
Major Group	39	Miscellaneous Manufacturing Industries	5,840	5,637	203
Minor Group	393	Manufacture of jewellery, silverware and wares using gold and other precious metals	2,958	2,931	27
	399	Manufacture and repair work of goods not assignable to any other group	2,131	1,972	159
*Division 4 Construction			*13,248*	*11,067*	*2,181*
Major Group	40	Construction	13,248	11,067	2,181
Minor Group	400	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical & sanitary installations	11,414	9,734	1,680
	401	Construction and maintenance of roads, railways, bridges, tunnels	1,148	802	346
	403	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	562	407	155
*Division 5 Electricity, Gas, Water and Sanitary Services			*3,777*	*3,613*	*164*
Major Group	50	Electricity and Gas	2,889	2,878	11
Minor Group	500	Generation and transmission of electric energy	2,338	2,328	10
	501	Distribution of electric energy	519	518	1
Major Group	51	Water Supply and Sanitary Services	888	735	153
Minor Group	510	Collection, purification and distribution of water to domestic and industrial consumers	331	310	21
	511	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	557	425	132
*Division 6 Trade and Commerce			*78,894*	*73,816*	*5,078*
Major Group	60-63	Wholesale Trade	5,268	5,230	38
Minor Group	602	Wholesale trading in all kinds of fabrics and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	2,520	2,510	10
Major Group	64-68	Retail Trade	67,763	62,822	4,941
Minor Group	640	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	26,262	22,560	3,702
	644	Retail trading in tobacco, bidi, cigarettes and other tobacco products	3,528	3,489	39
	645	Retail trading in fuel such as coke, coal, firewood and kerosene	1,760	1,632	128
	646	Retail trading in food stuffs like sweetmeat, condiments, cakes, biscuits, etc.	2,537	2,476	61

TABLE B-IV PART-C

B-IV PART-C—INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR

Branch of Industry			Total Workers		
			Total		
Division, Major group & Minor group of I. S. I. C.			Persons	Males	Females
		1	2	3	4
Minor Group	650	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piecegoods of cotton, wool, silk and other textiles)	12,054	11,903	151
	652	Retail trading in medicines and chemicals	1,353	1,270	83
	662	Retail trading in metal, porcelain and glass utensils	1,137	1,096	41
	664	Retail trading in other household equipment not covered above	1,407	1,390	17
	671	Retail trading in hardware and sanitary equipment	954	944	10
	680	Retail trading in agricultural and industrial machinery equipment, tools and appliances	919	913	6
	682	Retail trading in electrical goods like electric fan, bulb, etc.	897	895	2
	686	Retail trading in precious stones and jewellery	1,091	1,091	..
	689	Retail trading in goods unspecified	7,749	7,181	568
Major Group	69	Trade and Commerce Miscellaneous	5,863	5,764	99
Minor Group	692	Stocks, shares and futures	2,016	1,968	48
	695	Banking and similar type of financial operation	2,098	2,093	5
*Division 7		*Transport, Storage and Communication*	*28,860*	*27,568*	*1,292*
Major Group	70–71	Transport	26,292	25,109	1,183
Minor Group	700	Transporting by railways	11,809	11,600	209
	701	Transporting by tramway and bus service	4,617	4,584	33
	702	Transporting by motor vehicles (other than omnibus)	2,038	2,031	7
	703	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	938	857	81
	704	Animal transporting by animals such as horses, elephant, mule, camel	1,269	1,217	52
	705	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	5,280	4,480	800
Major Group	72	Storage and Ware Housing	3	3	..
	73	Communication	2,565	2,456	109
Minor Group	730	Postal, telegraphic, wireless and signal communications	1,903	1,858	45
	731	Telephone communication	539	498	41
*Division 8		*Services*	*103,436*	*86,080*	*17,356*
Major Group	80	Public Services (This does not include Govt., Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)	28,230	26,071	2,159
Minor Group	803	Public service in Police	4,756	4,716	40
	804	Public service in administrative departments and offices of Central Government	2,333	2,159	174
	805	Public service in administrative departments and offices of quasi-government organisation, municipalities, local boards, etc.	10,121	8,590	1,531
	809	Public services in administrative departments and offices of State Governments	11,020	10,606	414
Major Group	81	Educational and Scientific Services	12,929	8,678	4,251
Minor Group	811	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	11,963	7,809	4,154
Major Group	82	Medical and Health Services	4,766	3,513	1,253
Minor Group	820	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners	4,722	3,470	1,252

APPENDIX

Families having less than 1% of the workers of the respective divisions (less than 0.5% in case of Division 7-8 only) have been shown in this appendix. The following abbreviations have been used :—

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities
IV At Household Industry
V In Manufacturing other than Household Industry
VI In Construction
VII In Trade and Commerce
VIII In Transport, Storage and Communications
IX In Other Services
M=Males
F=Females

APPENDIX

Major groups of household industry where persons having secondary work as cultivation or agricultural labour, are less than 5% of the persons having the major group as principal work, have been shown in this appendix. The following abbreviations have been used:—

I—As Cultivator
II—As Agricultural Labourer
M=Males
F=Females

00 Total I (M3,F10) II (M4,F19), Rural I (M3,F10) II (M4,F19); 22 Total I (M15,F1), Rural I (M11), Urban I (M4,F1); 27 Total I (M39,F2) II (M12,F2). Rural I (M37,F2) II (M12,F2), Urban I (M2); 33 Total II (F1), Rural II (F1); 36 Total I (M55) II (M3), Rural I (M55) II (M3); 39 Total I (M6), Rural I (M6).

APPENDIX

Major groups of the Household Industry which are less than 10 per cent of the respective divisions have not been shown in the main table, which shows such divisions by an asterisk. Major groups thus dropped from the main table are given run on in this Appendix. The figure preceding the bracket represents the code number of the major group dropped from the Table. Alphabets given in brackets are abbreviations meant for different ranges of period of working in the Household Industries 'with' or 'without' cultivation as explained below. The numerical figure given after alphabet denotes the number of households in that particular range indicated by that alphabet.

Abbreviation			Class Range of Period of Working	Abbreviation			Class Range of Period of Working
A	means	with cultivation	1 to 3 months	E	means	without cultivation	1 to 3 months
B	,,	,,	4 to 6 ,,	F	,,	,,	4 to 6 ,,
C	,,	,,	7 to 9 ,,	G	,,	,,	7 to 9 ,,
D	,,	,,	10 months to 1 year	H	,,	,,	10 months to 1 year
X	,,	,,	Unspecified months	Y	,,	,,	Unspecified months

For example:=District Ahmedabad–Rural 20 (B–6, C–1, E–1, X–1, Y–4)

Figure 20 stands for major group 20 relating to "foodstuffs", B–6 means that there are 6 households working in the class range of '4 to 6 months' in the Household Industry with cultivation. C–1 means that there is 1 household working in the class range of '7 to 9 months' in the household industry with cultivation and X–1 means that there is one household working for "unspecified months" in the Household Industry with cultivation and Y–4 means that there are 4 households working for "unspecified months" in the Household Industry without cultivation in the 'foodstuffs' industry.

The list of major groups thus dropped from the main table of Ahmedabad District is given below.

AHMEDABAD DISTRICT

C—SOCIAL AND CULTURAL TABLES

This series contains 8 tables of which Table C-I has been prepared from Household Schedules, on the basis of 20 per cent sample. It gives information about composition of sample households according to marital status. All the other tables in this series are based on full count and give age, sex and education, separately for rural and urban areas, single year age returns, mother tongue in alphabetical order, religion and classification by literacy and industrial category of workers and non-workers among Scheduled Castes and Scheduled Tribes. All the tables of this series except Table C-VI have been reproduced in the District Census Handbook.

Table C-I—Composition of Sample Households by Relationship to Head of Family Classified by Size of Land Cultivted

(Based on 20% Sample)

The table is prepared from Part II Census Population Record of the Household Schedules for total, rural and urban areas of the district. A household means the entire groups of persons who commonly live together in the same census house and usually take their meals from a common mess. It thus includes outsiders residing with the family during enumeration. This table, therefore, gives the composition of a household by family and non-family member. Besides, the heads of the households and their spouses, other family members like married sons and other relations are given separately by sex and marital status.

Table C-II—Age and Marital Status

This table is presented for the district with rural/urban break-up while those for taluka/mahal for rural areas only. It corresponds to Table C-III of 1951 which was prepared on a 10% sample of the slips taken out at the time of initial stage of sorting, while this table is prepared on full count according to the quinquennial age-groups recommended by the United Nations Organisation. In Table C-III of 1951 there were 3 categories of marital status, viz., unmarried, married and Divorced/Separated, whereas in this table are given five categories of marital status, viz., (1) never married, (2) married, (3) widowed, (4) divorced/separated and (5) unspecified. In 1951, the information regarding widowed or divorced was given jointly, whereas these two types of marital status are compiled separately this time.

Columns 14 and 15 relating to unspecified status have been deleted from the table. Such person is 1 male returned from urban areas.

Table C-III—Age, Sex and Education

It corresponds to Table C-IV of 1951 which was prepared on 10% sample. This table is prepared on full count this time and is presented in two parts—A and B for the district. In Part-A broad educational levels upto matriculation and above are given for all areas. In Part-B educational levels are given in details with technical and non-technical diplomas, university degrees and technical degrees in urban areas only. In 1951, only sum total of all literate and illiterate persons was given, whereas in 1961, educational levels for literate persons are given in details.

Table C-IV—Single Year Age Returns

The Table is presented for the district with total/rural/urban break-up.

It corresponds to Table C-V of 1951 Census which was prepared on 10% sample. This table has been prepared on full count in 1961. The age in years completed on 1st March, 1961 has been given but the infants who did not complete one year on 1-3-1961 have been shown under the age group "O".

Table C-V—Mother Tongue

This table corresponds to Table D-I-(i) of 1951 in which languages and dialects as returned were shown in the descending order of number of speakers. This time all the languages as actually returned are arranged in the alphabetical order with population, persons, males, females, for total, rural and urban areas for the district and for rural areas for taluka/mahal.

'Mother tongue' is the language spoken in childhood by the person's mother to the person or the language spoken in the household.

Table C-VII—Religion

It is prepared separately for total, rural and urban areas of the district and for rural areas of talukas and mahals. This table corresponds to Table D-II of 1951, in which the figures of religions other than the eight main religions were grouped in the residuary category 'other religions', whereas in this table data are given for six main religions only, viz., Budhist, Christian, Hindu, Jain, Muslim and Sikh and persons returned as professing other religions, sects and beliefs which could not be classified under any of the religions have been grouped under "Other Religions and Persuasions".

Table C-VIII—Scheduled Castes and Scheduled Tribes

Part A—Classification by Literacy and Industrial Category of Workers and Non-workers Among Scheduled Castes

Part B—Classification by Literacy and Industrial Category of Workers and Non-workers Among Scheduled Tribes

This table is presented for the district with total/rural/urban break-up and for taluka/mahal for rural areas only.

In this table total population of Scheduled Castes/Scheduled Tribes and their distribution by nine industrial categories of workers and also non-workers adopted in the Primary Census Abstract are shown by literate and illiterate.

Part-A relates to Scheduled Castes and Part-B to Scheduled Tribes.

Note :

(i) Mothertongues printed in italics belong to countries outside the Indian sub-Continent.

(ii) Names occuring after hyphen (-) have been introduced by the Linguist to indicate groupings.

(iii) Asterisk (*) means that the mothertongue is unclassified in Linguistic Survey of India.

(iv) Dagger (†) denotes that the mothertongue though classified in Linguistic Survey of India is either tentatively reclassified or considered unclassifiable by the Linguist.

(v) Asterisk and dagger (*†) denote that the mothertongue is unclassified by Grierson but is tentatively classified by the Linguist.

E—HOUSING TABLES

The present Housing Census is the first of its kind in the history of the Indian Census organized on a uniform basis throughout the country alongwith the population Census of 1961. In the past censuses, house-listing was purely an administrative arrangement. Only residential houses were numbered and listed with the name of the head of the household. However, during 1961 Census a comprehensive house-list for collecting detailed information regarding each census house and industrial establishment formed part of the statutory census schedules. The house-list form brought into use during the current Census has recorded data on housing such as type of houses, tenure status, material of wall and roof, number of rooms in a census household and of persons residing therein as well as essential data relating to establishments, workshops and factories, such as name of the establishment or proprietor, name of products, number of persons working and the kind of fuel or power, if machinery is used.

The following five housing tables have been compiled from the house-lists :-

E-I—Census Houses and the uses to which they are put

E-II—Tenure Status of Sample Census households living in Census houses used wholly or partly as dwelling

E-III—Census houses used as factories and workshops classified by industry, power and no power used and size of employment

E-IV—Distribution of Sample households living in Census houses used wholly or partly as dwelling by predominant material of wall and predominant material of roof

E-V—Sample households classified by number of members and by number of rooms occupied

Out of the five tables stated above, Tables E-I and E-III have been prepared on full count and Tables E-II, IV and V on the basis of 20 per cent sampled households. For the purposes of drawing the sample, the house-lists were arranged separately in the order of location code numbers in case of (i) rural areas of a taluka/mahal and (ii) urban areas other than towns with population of 50,000 and over for a district, and (iii) for every town with a population of 50,000 and over. The samples were marked continuously for all the house-lists thus arranged and the households left over at the end of the house-list after marking the last sample were carried over to the next house-list for sample selection.

Tables E-I, E-II, E-IV and E-V are given in the District Census Handbook for the district, taluka and towns with a population of 50,000 and over. But the data regarding number of establishments contained in Table E-III are separately compiled down to village and given in the Villagewise List of Industrial Establishments.

The explanatory note on each of the tables is given below :—

Table E-I—Census Houses and the uses to which they are put

Table E-I prepared on full count gives figures of census houses separately for total, rural and urban areas of the district, talukas, cities and towns with population of 50,000 and over, classified into different categories according to the uses to which they are put. Those found vacant at the time of house-listing have also been shown separately as such. The following are the various types of houses into which occupied houses have been classified :—

Dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, hotels, hostels, sarais, dharamshalas, tourist homes and inspection houses, shops excluding eating houses, business houses and offices, factories registered

under the Factories Act and worksheds and workshops not so registered, schools and other educational institutions including training classes, coaching and shop classes, restaurants, sweetmeat shops and eating places, places of entertainment and community gathering (Panchayat Ghar), public health and medical institutions, hospitals, health centres, doctor's clinics, dispensaries, etc.

Others

Occupied census houses which do not fall in any of the above categories have been classed as 'Others'.

With a view to understand the significance of statistics incorporated in E Series of Tables, the concepts and definitions of the terms occuring in the table are given below :—

Census house

"A Census house is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

Census household

"A household is a group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so."

Shop

"A shop is a place where articles are sold for cash or for credit."

Workshop

"A workshop is a place where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold, and is not a factory registered under the Factories Act."

Following are some of the instances :—

Paper-making, shoe-making, tailoring, cycle-repairing, motor-servicing, halwai's shop, pottery-making, goldsmith, blacksmith, etc.

Factory

"A factory is a large workshop which has been registered under the Indian Factories Act."

Business houses

Business houses are those premises where transactions in money or other articles are taking place. Detailed explanation of all these will be found in the Introductory Chapter of the Report on Housing and Establishments.

Table E-II—Tenure Status of Sample Census households living in Census houses used wholly or partly as dwelling

This table has been prepared on the basis of 20 per cent sample. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, and dwellings with other uses have been taken into account for the purpose of marking the samples. Shop-*cum*-dwellings and workshop-*cum*-dwellings are census houses which are partly used for residential or dwelling purposes and partly used as a shop or workshop. The total number of households given in column 4 of this table gives the total of such samples classified into the aforementioned four categories of dwellings, which have been further classified according to their tenure status, whether owned or rented, for the district, talukas and towns with population of 50,000 or more as also for total/rural/urban.

TABLE E-IV—DISTRIBUTION OF SAMPLE HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING BY PREDOMINANT MATERIAL OF WALL AND PREDOMINANT MATERIAL OF ROOF

This table has been prepared on 20 per cent sample basis. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the sample. The total number of houses given in column 3 of this table gives the totals of all such sampled households. The material out of which most of the walls are made or where a house consists of separate structures, each of different materials, the material out of which the walls of the main bedrooms are made has been entered. The wall material has been classified into the following nine categories :—

(1) Grass, leaves, reeds or bamboo
(2) Timber
(3) Mud
(4) Unburnt bricks
(5) Burnt bricks
(6) C. I. Sheets or other metal sheets
(7) Stone
(8) Cement concrete
(9) All other material

The material out of which most of the outer roof exposed to the weather and not the ceiling is made, i. e., tiles, thatch, corrugated iron, zinc or asbestos cement sheets or concrete, etc., or in the case of multi-storeyed building, the material out of which the intermediate floor or floors have been made, have been entered and classified into the following seven categories :—

(1) Grass, leaves, reeds, thatch, wood or bamboo
(2) Tiles, slate, shingle
(3) Corrugated iron, zinc or other metal sheets
(4) Asbestos cement sheets
(5) Brick and lime
(6) Concrete and stone slabs
(7) All other material

This table has been prepared for the district, talukas and cities and towns with population of 50,000 or more, as also for total/rural/urban.

TABLE E-V—SAMPLE HOUSEHOLDS CLASSIFIED BY NUMBER OF MEMBERS AND BY NUMBER OF ROOMS OCCUPIED

This table has been prepared on 20 per cent sample basis. Census Households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the samples. The figures given in column 3 of this table are the totals of all such sampled households. The sex break-up of the total number of members occupying such sampled households as also the total number of rooms in these households are shown separately. All the sampled households have been further classified into the following six categories :—

Households with

(i) no regular room
(ii) one room
(iii) two rooms
(iv) three rooms
(v) four rooms
(vi) five rooms or more

The classification of households into the above categories gives not only the number of households in each category, but also the number of occupants by sex. The units for which this table has been compiled are district, talukas and cities and towns with population of 50,000 or more, as also total/rural/urban.

SCT—SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

No special tables were prepared for Scheduled Castes and Scheduled Tribes in 1951. The only information that Table D-III of 1951 furnished was the aggregate strength of Scheduled Castes and Tribes for the district and certain arbitrary groups of talukas. In view, however, of the special safeguards provided for these classes under the Constitution, it was felt that a more detailed tabulation of the census data will furnish the basis necessary for the evaluation of the results of the various schemes implemented by the State under the Five Year Plans as also for the formulation of new ones. Special tables for Scheduled Castes and Scheduled Tribes have, therefore, been devised and presented in a separate series called SCT/SC/ST series.

The table reproduced from this series is SCT-I-Parts A & B, giving industrial classification of persons at work and non-workers by sex for Scheduled Castes and Scheduled Tribes. Separate figures of Scheduled Castes and Scheduled Tribes have also been given for each village in the Village Directory.

Total population of Scheduled Castes and Scheduled Tribes for taluka/mahal with total/rural/urban break-up is given in Statements A and B.

SCT-I PART-A—INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES

VILLAGE-WISE LIST OF INDUSTRIAL ESTABLISHMENTS

This table gives important information about the total number of industrial establishments arranged in ascending order of minor groups of industries. It is compiled from the house-lists and presented in run on manner. Under the name of the district are arranged minor groups of industries showing total number of industrial establishments within brackets next to each minor group separately for total, rural and urban. The figures for taluka/mahal are likewise arranged separately for total/rural/urban. Then follows a list of villages in the order of the location code number given in the Village Directory, showing against each village minor group or groups of industries found in the village with the number of establishments shown within brackets against each minor group. Figures for towns are also shown separately in the same manner.

Industrial establishments have been classified according to the minor groups of industries given in the Standard Industrial Classification adopted by the Government of India reproduced in the Annexure. This will enable the reader to identify the industry to which a particular minor group relates.

INDUSTRIAL ESTABLISHMENTS

ANNEXURE

Standard Industrial Classification

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 0–Agriculture, livestock, forestry, fishing and hunting	
04	*Livestock and Hunting*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	earing of sheep and production of wool	041
	earing and production of other animals (mainly for slaughter) such as pig	042
	oduction of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	earing of bees for the production of honey, wax and collection of honey	044
	earing of silk worms and production of cocoons and raw silk	045
	earing of other small animals and insects	046
	oduction of other animal husbandary products such as skin,bone, ivory and teeth	048
	Division 2&3 Manufacturing	
20	*Foodstuffs*	
	Production of rice, atta, flour, etc., by milling dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugar cane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oil (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3 Manufacturing-contd.	
21	*Beverages*-contd.	
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	*Tobacco Products*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	*Textile–Cotton*	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile–Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	*Textile–Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile–Silk*	
	Spinning and weaving of silk textile in mill	260
	Dying and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266

ANNEXURE-*contd.*

Standard Industrial Classification-*contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3 Manufacturing-contd.	
27	*Textile–Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	*Manufacture of Wood and Wooden Products*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	*Paper and Paper Products*	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	*Printing and Publishing*	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber, Petroleum and Coal Products*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	*Chemicals and Chemical Products*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338

ANNEXURE-*concld.*

Standard Industrial Classification-*concld.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3 Manufacturing-contd.	
33	*Chemicals and Chemical Products*—contd.	
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34	*Non-metallic Mineral Products other than Petroleum and Coal*	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Enamelling, plating (including electro) and welding of metal products	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	369
37	*Machinery (All kinds other than Transport) and Electrical equipment*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	*Transport Equipment*	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand-drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399

LIST OF RURAL CRAFTS AND NUMBER OF PERSONS EMPLOYED IN PRODUCTION

The handicraft table is a new feature introduced in the District Census Handbook in 1961 Census.

A detailed handicraft survey has been undertaken as a part of the censal programme. In States like Gujarat where the survey was conducted for selected crafts in selected centres, and not in each and every village, this handicraft table was to be compiled from the house-lists or the village notes. Accordingly, the information for this table was extracted from the house-lists adopting a 4 digit code for household industries circulated by Registrar General, India. The definition of household industry presented a problem, which was solved by including, on an adhoc basis, household industries having less than 5 workers for this purpose.

The table shows the number of villages/towns in which particular crafts are practised and number of persons engaged therein. The data are compiled separately for the rural and urban areas of each taluka/mahal, for each city or town in the district and consolidated for rural and urban areas of the district. Where there is only one city/town in a taluka/mahal, the data for the urban areas are given for the city/town as they are same for taluka/mahal.

URBAN

LIST OF RURAL CRAFTS AND NUMBFR OF PERSONS EMPLOYED IN PRODUCTION

Major/Minor Group Industrial Code No.	Name of Craft	No. of Towns	No. of persons employed in production
1	2	3	4
	AHMEDABAD DISTRICT*		
Major Gr. 04	*Livestock and Hunting*		*2*
Minor Gr. 048.2	Manufature of glue from animal carecasses	1	2
Major Gr. 20	*Foodstuffs*		*2,229*
Minor Gr. 200.1	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc.	13	1,225
200.3	Production of rice by milling, dehusking and processing of paddy by rice mill	2	6
200.4	Grinding of chillies, turmeric, etc.	1	10
200.5	Production of pulses	1	4
200.6	Parching of grains	1	4
202.1	Gur and Khandsari making from sugarcane and palm	1	18
203.7	Production of other fruit products and preservation of fruits, n.e.c.	1	4
205	Production of bread, biscuit, cake and other bakery products	5	177
206	Production of butter, cream, ghee, cheese chhana, khowa and other dairy products	1	14
207	Oil pressing ghani, kolhu or by small machines	3	90
209.1	Confectionery	2	11
209.2	Making of sweet-meats, laddu, peda, barphi, batasa, etc.	10	391
209.4	Making of chura or chira, muri, murki, khoi	1	7
209.6	Making of dalmot, chanachur (jor) garam, rewari, etc.	6	621
209.7	Making of other food products for residuary snacks	4	47
Major Gr. 21	*Beverages*		*107*
Minor Gr. 212.1	Production of indigenous liquor such as liquor, toddy, neera, from mahua and palm trees	1	4
	AHMEDABAD DISTRICT-*contd.*		
Minor Gr. 214.2	Production of aerated water such as sodawater, lemonade, etc.	6	69
215	Production of ice	2	15
216	Production of ice-cream, ice-candy or kulphimalai, milk-shake, etc.	2	19
Major Gr. 22	*Tobacco Products*		*133*
Minor Gr. 220	Manufacture of bidi	4	107
224	Manufacture of snuff	4	21
226	Manufacture of other tobacco products, n.e.c.	2	5
Major Gr. 23	*Textile-Cotton*		*1,330*
Minor Gr. 230	Cotton ginning, cleaning, carding, pressing and baling	5	130
233.1	Dying of cloth(cotton) and yarn	1	59
233.3	Tie and dye (bandhani) of cloth and yarn	1	3
234	Cotton cloth weaving in powerlooms	2	26
235	Cotton cloth weaving in handlooms	6	938
237	Printing of cloth (cotton)	2	149
239.2	Making of thread, rope, cord-age and twine, (cotton)	1	25
Major Gr. 26	*Textile-Silk*		*5*
Minor Gr. 261	Dyeing and bleaching of silk	1	3
266.2	Making of silk cordage, rope and twine, n.e.c.	1	2
Major Gr. 27	*Textile-Miscellaneous*		*3,968*
Minor Gr. 270.1	Making of durries	1	3
271.1	Making of hosiery goods such as banyans, socks, sweaters, mufflers, etc.	1	3
272.1	Embroidery and making of phulkari	1	12
272.2	Making jari thread, zardoshi	1	9
272.3	Traditional embroidery	1	28

* The total number of towns/cities in the district is 14.

OFFICIAL STATISTICS

LIST OF TABLES ON OFFICIAL STATISTICS

		Pages
1	RAINFALL AND TEMPERATURE:	
	1.1 Maximum and Minimum Temperature 1955 and 1957-1960 at Headquarters Station, Ahmedabad	178
	1.2 Monthly Rainfall 1952-1956 and 1958-1960 at Headquarters Station, Ahmedabad	178
2	VITAL STATISTICS:	
	2.1 Birth and Death Rate based on Mid-year Population Estimates	179
	2.2 Deaths from selected Causes, 1951, 1956 and 1960	180
3	AGRICULTURE:	
	3.1 Land Utilization, 1956-57 and 1960-61	180
	3.2 Area and Outturn of Principal Crops, 1950-51—1960-61	181–182
	3.3 Irrigation Potential and Utilization	183
	3.4 Area irrigated by Sources, 1950-51, 1955-56 and 1960-61	183
	3.5 Area irrigated by Crops, 1950-51, 1955-56 and 1960-61	184
	3.6 Progress under Agricultural Extension in Various Development Blocks upto 31-3-1961	184
4	LIVESTOCK:	
	4.1 Livestock and Agricultural Implements 1951, 1956 and 1961	185
5	CO-OPERATION:	
	5.1 Number, Membership and Financial Position of Co-operative Banks and Societies, 1960-61	186
6	FISHERIES	
	6.1 Fishing Centres, landing places and number of fishing boats according to size as on, 31-3-1961	186
7	REGISTERED FACTORIES:	
	7.1 Number and Type of Registered Factories showing Average Employment, 1961	187
8	ELECTRICITY:	
	8.1 Installed Capacity of Electricity, 1950-51, 1955-56 and 1960-61	187
	8.2 Consumption of Electricity according to purpose, 1950-51, 1955-56 and 1960-61	187
9	MEDICAL AND PUBLIC HEALTH:	
	9.1 Number of Hospitals, Dispensaries and Patients treated in 1951, 1956 and 1961	188
	9.2 List of Hospitals and Dispensaries, 1961	188
	9.3 Public Health Activities, 1960-61	189
10	EDUCATION:	
	10.1 Schools, Scholars and Teachers in Primary Schools in Rural Areas of Ahmedabad District, 1960-61	189
	10.2 Literacy and Education in Rural Areas of Ahmedabad District, 1960-61	190
	10.3 Number and Type of Educational Institutions, Number of Pupils and Teachers, 1950-51, 1955-56 and 1960-61	190
	10.4 Directory of High Schools and Colleges as on 31-3-1961	191–192
11	ADMINISTRATION:	
	(a) Police and Crimes:	
	11.1 Strength of Police, 1960-61	192
	11.2 Proportion of Area, Population and Cognizable Offences per Police, 1960-61	193
	11.3 Criminal Justice, Offences reported, Persons tried, convicted or acquitted for Selected Offences, 1960-61	193
	(b) Jails:	
	11.4 Jails, 1951, 1956 and 1961	193
	(c) Registration:	
	11.5 Instruments registered and Value of Property transferred, 1951, 1956 and 1961	194
12	PLACES OF PUBLIC ENTERTAINMENT, PRESSES AND JOURNALS:	
	12.1 Newspapers published in Different Languages, 1950-51, 1955-56 and 1960-61	195
	12.2 Printing Presses, 1951, 1956 and 1961	195
	12.3 Cinema Theatres, 1960-61	195
13	TRANSPORT AND COMMUNICATIONS:	
	13.1 Railway Mileages and Names of Railway Stations, 1960-61	196
	13.2 Road Mileages by Type of Surface and Category of Road, 1950-51, 1955-56 and 1960-61	196
	13.3 Tonnage of import and export cargo handled at different ports, 1950–51, 1955–56 and 1960–61	197
14	LOCAL BODIES:	
	14.1 Income and Expenditure of Municipalities, 1960-61	197
	14.2 Income and Expenditure of District Local Board, 1950-51, 1955-56 and 1960-61	198
	14.3 Income and Expenditure of Panchayats, 1950-51, 1955-56 and 1960-61	198
15	COMMUNITY DEVELOPMENT:	
	15.1 Progress and Achievements of Community Development/National Extension Scheme Blocks upto year ending 31-3-1961	198–199
16	PRICES:	
	16.1 Average Retail Prices of Staple Foodstuff, 1961	199
	16.2 Consumer price index numbers for working class (Ahmedabad City), 1951–1960	200–209
17	JOINT STOCK COMPANIES, BANKS, INSURANCE AND SMALL SAVINGS:	
	(a) Joint Stock Companies:	
	17.1 Joint Stock Companies, 1960-61	210
	(b) Banking:	
	17.2 Scheduled and Non-scheduled Banks, 1950, 1955 and 1960	210
	17.3 Number and Type of Co-operative Banks, 1950-51, 1955-56 and 1960-61	210
	(c) Insurance:	
	17.4 Life Insurance Policies issued and sum insured, 1957 to 1960	211
	(d) Small Savings:	
	17.5 Target and Net Collection of Small Savings, 1960-61	211
18	CALENDAR OF IMPORTANT EVENTS, FAIRS AND FESTIVALS AND ANCIENT MONUMENTS:	
	18.1 Calendar of Important Events	211
	18.2 Fairs and Festivals	212–215

OFFICIAL STATISTICS

Departmental statistics collected from various sources, viz., Administrative Departments, State and Central, Reserve Bank of India, Life Insurance Corporation, Gujarat Electricity Board, etc., have been included in the District Census Handbook for the first time, and distributed under 18 different sections listed below: —

1 Rainfall & Temperature
2 Vital Statistics
3 Agriculture
4 Livestock
5 Co-operation
6 Fisheries
7 Factories
8 Electricity
9 Medical & Public Health
10 Education
11 Administration
12 Public Entertainment and Presses and Journals
13 Transport and Communications
14 Local Bodies
15 Community Development
16 Prices
17 Joint Stock Companies, Insurance, Banks and Co-operative Societies
18 Important Events, Fairs and Festivals and Ancient Monuments

Uniform table numbers have been adopted in all the Handbooks. Wherever a particular table is not applicable to or could not be compiled for want of requisite information for any district, there will be a break in the sequence, owing to the omission of such a table from the Handbook.

To facilitate further reference, the source of the table as well as explanatory notes as to the units to which they refer and other particulars have been given at the foot of the table.

Abbreviations used are : N.A. = Not available; .. = Nil

Note:

(a) U=Urban; R=Rural

(b) Number of births per 1,000 of the total mid-year estimated population is calculated on the population of the district as then constituted.

(c) Number of deaths per 1,000 of the same sex is calculated on the mid-year estimated population of the district as then constituted.

(d) The information regarding number of births and deaths for the years 1951-1960 is furnished for the district as then constituted and the population for the years 1951 to 1960 has been estimated on the basis of average during the decade 1951-1960

(e) Birth and death rates for the decade 1951-1960 are average birth and death rates.

Note:

1 In case of Hindu months column 4 shows the corresponding months according to Gregorian calendar also. Hindu months are mentioned according to Vikram era.

2 In the Hindu calendar followed in Gujarati, months end with Amavasya, i.e., New moon and not Purnima, i.e., Full moon day.

3 ms. = Miles

PART III

VILLAGE DIRECTORY

VILLAGE DIRECTORY

The Village Directory of 1961 Census is the same as the Primary Census Abstract given in the District Census Handbook of 1951 with the following additions and alterations :—

1. Information regarding Scheduled Castes and Scheduled Tribes which was given in 1951 by tracts of two to three talukas in a district has been given with sex break-up for each village.

2. The 8 livelihood classes of 1951 have been replaced by workers classified into the following nine industrial categories and also non-workers :—

I	Cultivator	V	Manufacturing other than Household Industry
II	Agricultural Labourer	VI	Construction
III	Mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities	VII	Trade and Commerce
		VIII	Transport, Storage and Communications
		IX	Other Services and
IV	Household Industry	X	Non-workers

3. Information on selected essential topics or amenities available in a village is also included.

Thus the Village Directory furnishes information on area in acres & gunthas, occupied houses, households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated and primary economic activity classified into above nine industrial categories and non-workers. This information is furnished for each village/ward of a town and also for each enumerator's block in a town, consisting of about 120 houses.

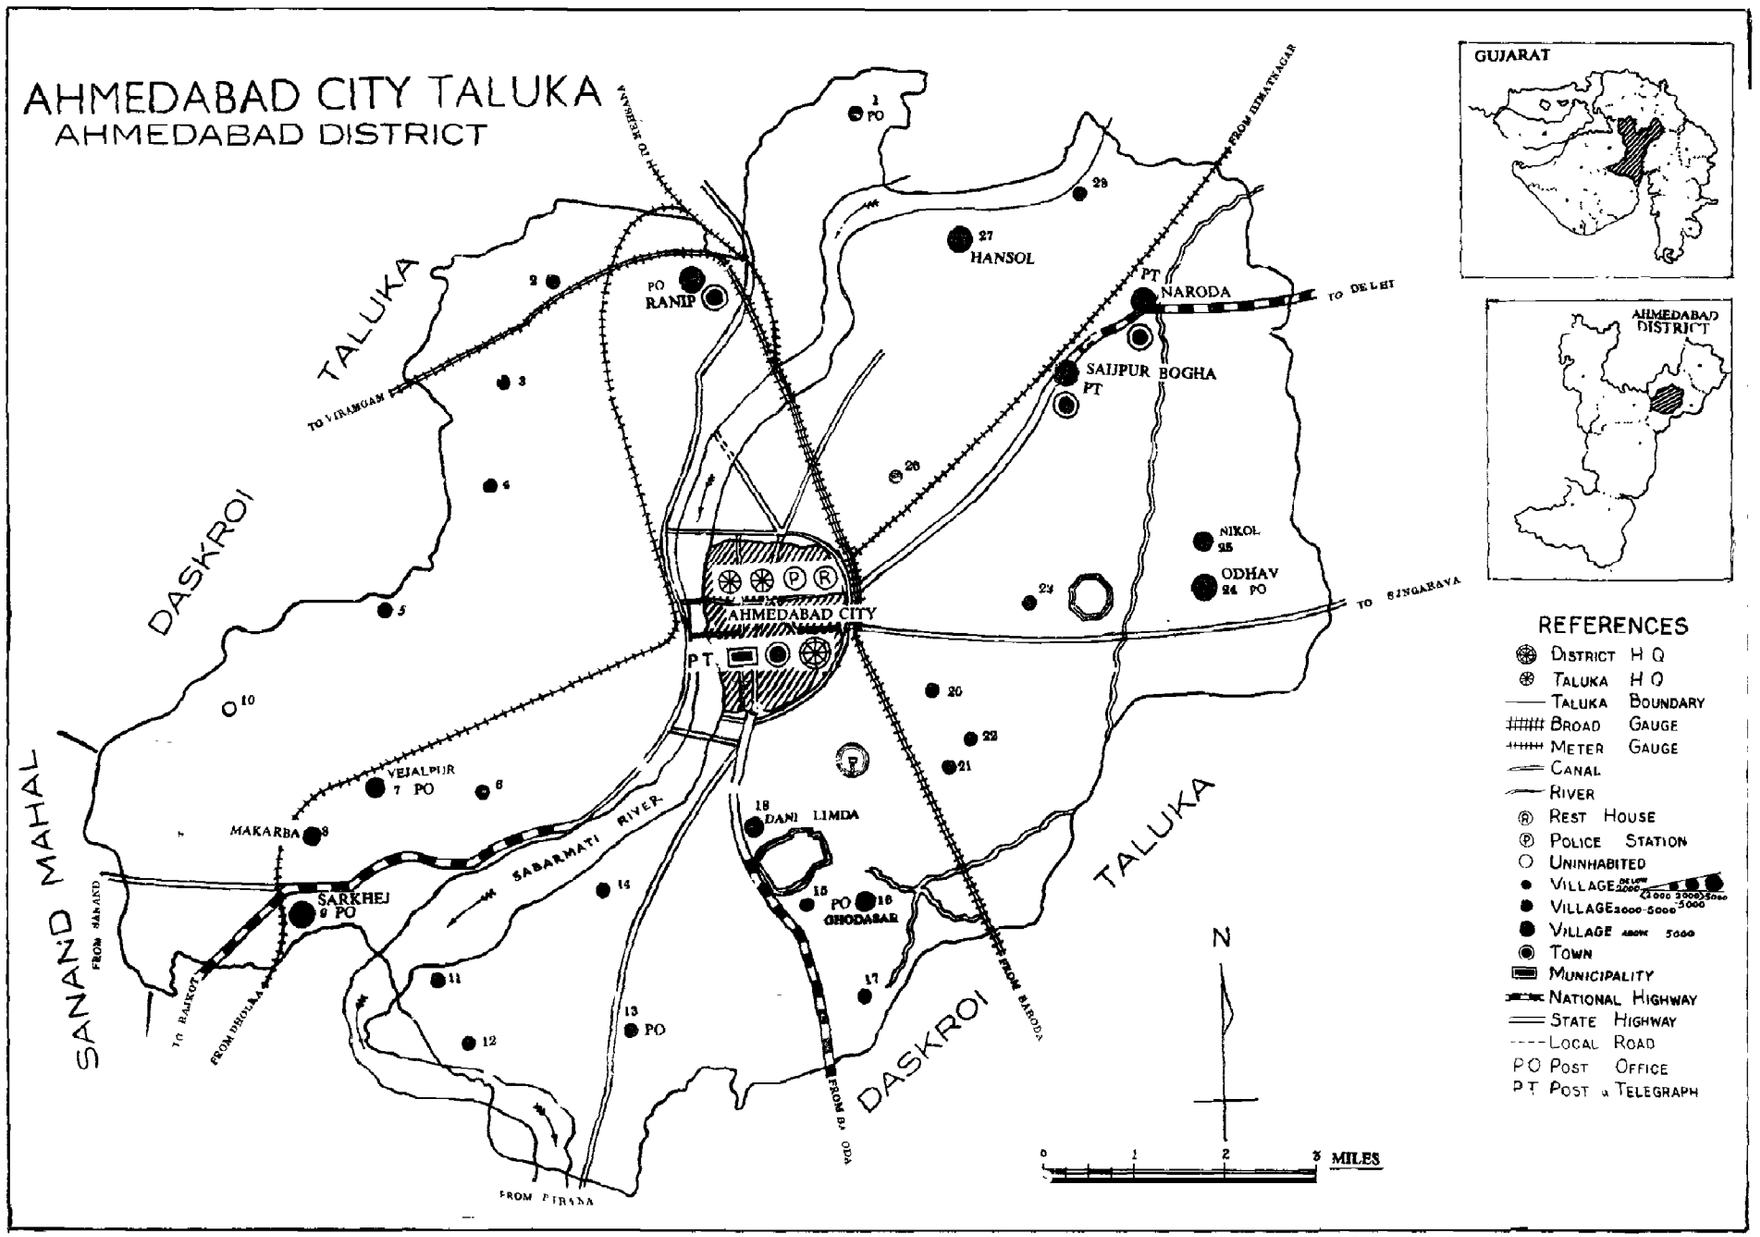

Like the Primary Census Abstract of 1951, the Village Directory gives area figures in Column 3 in acres as furnished by the Survey Department. While the figures of the number of houses and households given in Columns 4 and 5 have been compiled from the Household Schedules filled up for each household, information in Columns 6 to 36 has been compiled from the individual enumeration slips filled up during the course of census count. Information in Column 2 regarding Educational Institutions, Medical and Public Health facilities, Drinking Water facilities, Post & Telegraph Offices and Telephone facilities, and Rural Electricity has been collected from (*a*) the village notes specially devised for the purpose and filled in by Village Level Workers, Talaties and Panchayat Secretaries, and (*b*) the information supplied by the heads of the Departments concerned. The following abbreviations used in Column 2 signify the items shown against each:—

P	for	Primary School	S	for	Safe or Protected Water Supply including pipes, tube wells, etc.
M	for	Middle School			
H	for	High School	W	for	Well
C	for	Higher Institutions including Colleges	Riv	for	River
T	for	Technical Institutions	Tk	for	Tank
D	for	Dispensaries	Po	for	Post Office
Rhc	for	Rural Health Centre	To	for	Telegraph Office
Hos	for	Hospital	Tph	for	Telephone
Mp	for	Medical Practitioner	Ei	for	Electricity in Industrial use
Mcw	for	Maternity and Child Welfare Centre	Ea	for	Electricity in Agricultural use
			Ed	for	Electricity in Domestic use

The essential topics listed above have been presented run on against each village along with their number, where the amenities that exist are more than one. In other columns A=Acres, G=Gunthas, P=Persons, *M=Males and F=Females.*

In addition to a map for the district, taluka/mahal maps showing certain important information have also been prepared and placed at the commencement of the Village Directory for every taluka/mahal. In the taluka/mahal maps villages have been shown by their location code numbers asigned to them at the time of census operations and indicated against each village in the Alphabetical List of Villages given in the Handbook. Villages having population of 2,000 and above have been indicated by name. In the district maps Villages having 5,000 and more persons have been shown by names. Key maps given in the district and taluka maps show the positions of the district and taluka in hatches and black respectively.
