## FOREWORD

The District Census Handbook (DCH), compiled by the census organisation on behalf of the State Governments, is one of the most valuable products of the census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 census. It contained important census tables and PCA for each village and town of the district. During 1961 census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statitics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few censes altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the villages have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres, and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inacessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled castes and scheduled tribes population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class-I and Class-II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *Inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tahsil/Town levels. At the beginning of the DCH, a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The District and Tahsil level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

The publication is a joint venture of the State Government and the census organisation. The data have been collected and compiled in the State under the direction of Shri D.N. Dhir I.A.S., the Director of Census Operations, Punjab on behalf of the State Government which has borne the cost of printing. The task of planning, desiging and coordination of this publication was carried out by Shri N.G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B.K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation

of the maps. Data received from Census Directorates have been scrutinized in the Social Studies Division at the headquarters under the guidance of Shri M.M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

P. PADMANABHA,

New Delhi:
The 26th April, 1982.

Registrar General, India.

## PREFACE

As being regularly presented hithertofore, since 1951 census, we have now the privilege of presenting the District Census Handbooks consequent upon 1981 census.

To shorten the time lag to minimum after the compilation of census 1981 data and issuance of this handbook as a sort of self, contained reference book, predominantly based on census data for the district, action was initiated upon the project as early as July, 1979. The Registrar General, India indicated the revised formats and statements designed for this series of books. The improvements were with a view to maktng the data more useful for administrators, planners, scholars and other categories of users.

There are 134 towns categorised as urban area and 12,899 villages (45 tahsils) as the rural component in the state. The formidable task of collecting and compiling of this voluminous data for such a large number of units had its own problems and difficulties, both in the matters of chase up and in obtaining correct data which could be test-checked in terms of consistency with what was obtained and published consequent upon 1971 census data. Several gruelling cross checks had to be adopted to tally such items as area figures and the land use pattern for each unit.

The statements and schedules for collecting information from the rural areas were translated into Punjabi and also test-checked to assess their acceptability and responsivenes by those who were to make their use. (I had also unsuccessfully toyed with the idea of collecting information on some other items that could indicate comparative affluence of rural Punjab but had to give it up in the light of keeping to uniformity in presentation of data on all India pattern).

The statements/schedules for town directory were transmitted to the Chief Executives of the local bodies and those for rural areas were transmitted to the S.D.Os(C) (since all tahsils in Punjab have been converted into sub-divisions) for necessary supply of data by the revenue staff under them. The officers and senior staff of the directorate that had been made directly responsible for houselisting operations and had reported to the field in October, 1979 were also charged with getting these through on personal contacts. This resulted in our getting the feed back by May, 1980, on the conclusion of houselisting operations, though some small instalments of these schedules continued till September/October, 1980.

A cell had been created at the directorate to scrutinize the data as received and to make preliminary compilation. The data as obtained from the field was supplemented with the data collected from various heads of the departments at the state level, particularly in matters of amenities and facilities in the fields of education, medical, communication and the like. The staff working in the cell was once again out in the field for assisting in the second field operation, namely enumeration and it was only on its conclusion that the work of compilation started in May-June, 1981. The three Deputy Directors (at the regional tabulation offices) were in position about the same time in the field and the gaps in data, needing reconciliation of figures were got through these field officers on personal contacts with the concerned quarters.

On the compilation of the Primary Census Abstract (PCA) in March, 1982 when the figures were available for projection in this volume, the whole exercise was consolidated to give birth to the instant manuscript.

The data in the book is being presented in two parts—Part-A comprises Village and Town Directory and Part-B Primary Census Abstract villagewise and town/wardwise separately. In addition, Primary Census Abstract for scheduled castes upto tahsil/town level is also presented. (There are no scheduled tribes in the state).

An analytical note based on a number of inset tables compiled from village and town directory and PCA has also been added for the benefit of the users, but the greater aim has been to present the data as compiled and leave further deeper study for those for whom the publication is meant.

We are grateful to the large number of personnel of the state revenue department at the village, tahsil,sub-division and district levels and the municipal staff in all the local bodies in the state for their co-operation in filling up the statements/schedules for providing the data.

The production of this book (and for that matter all the 12 District Census Handbooks) has been the handiwork of consistent and constant efforts put in jointly by almost all the staff of the directorate, though only at one point of time or the other in certain cases. The collection of data for Village and Town Directory,as mentioned earlier, was a major work in the pre-census period and after the census most of the staff was busy in tabulation and compilation of the Census data both at rigional tabulation offices and at the directorate. The DCHB Cell (specially created) thereafter commenced work on inset tables, while the senior staff and the officers took to developing the fly-leaves and explanatory notes. Simultaneously the map section was deep in work for producing the maps that had to accompany these books.

I would resist the temptation of mentioning any single incumbent at any level of the hierarchy individually for apparent reasons, and would rest content with acknowledging any debt to all of them as appended hereto.

I had acted only as a co-ordinator and at times an editor and was very ably supported by a set of dedicated officers who spared no pains to push in the manuscripts to the press in a record time, unknown in the annals of this directorate so far.

As in the case of other aspects of census work connected with this gigantic decadal exercise, I always looked up to Shri P. Padmanabha, Registrar General and Census Commissioner, India, for guidance, inspiration and encouragement and I feel indebted to him. Shri N.G. Nag, Deputy Registrar General (Social Studies) was forthcoming in his unassuming and profound style for advice.

D.N. DHIR,

Chandigarh :
September, 1982.

Director Census, Punjab.

## ACKNOWLEDGEMENTS

**Preliminary work—collection, compilation and scrutiny of data relating to Village and Town Directory :**

A cell was created in July, 1979 under J.C. Kalra, Deputy Director, (Now Joint Director), who out of his earlier experience and the instructions as received from Registrar General, India, directed the collection of data and allied work. He was ably assisted by D.P. Jain, Charan Singh and Vishwa Mittar, Investigators on one occasion or the other. The Statistical Assistants, who laid down the work at the foundation level at that time consisted of Malkiat Singh, Munishwar Dutt, Joginder Singh and Pawan Kumar with co-operative efforts of number of Computors, namely Mohinder Pal, R.P. Pathak, Parkash Chand, Varinder Singh, Hardeep Kaur, Satya Arora, Harbeer Kaur and Asha Vasisht.

**Primary Census Abstract included in this book-manual preparation at the Regional Tabulation Offices at Jalandhar, Patiala and Bathinda :**

R.P. Tomar, R.K. Singh and S.P. Grover, Deputy Directors were incharge of these tabulation offices res pectively, and put in their best to conclude the work fairly ahead of the scheduled target. They were assisted by the Investigatiors, namely N.S. Bhadauria, Charan Singh and Ajit Singh Dhillon, respectively. The Statistical Assistants and Computors who worked in these RTOs were S.C. Bassi, Balbir Singh, Jai Dev and R.P. Singh at Jalandhar, Tarsem Lal Garg, S.K. Joshi, S.P. Goel, H. S. Sudan and Varinder Singh at Patiala and Balwant Rai (Now Investigator), Bhagirath Singh, Raghbir Singh, J.S. Negi and H.P. Sharma at Bathinda.

**Preparation of Inset Tables, framework of Handbooks and their drafting :**

Inset tables, appendices and allied tables were prepared in the specially created cell of 'District Census Handbooks' headed by S.P. Grover, earlier and later by Ajit Singh, Deputy Directors. They have had experience of such publications earlier and imparted suitable directions to the staff in the cell for presentation of the data and its analysis as per the instructions received from the Office of Registrar General, India, from time to time. Charan Singh, and Balwant Rai, Investigators, and Raghbir Singh and Tarsem Lal, StatisticalAssistants and Satya Arora, Santosh Kumari Harbeer Kaur and H.P. Sharma, Computors worked in this cell.

The cell provided the framework of the Handbooks and the first drafts were attempted by Deputy/Assistant Directors who were entrusted with particular volume (s). This first draft was then finalised during discussions in officers' meetings held almost daily with the Directors. Thus the final draft emerged.

**Maps :**

The work for preparation of maps to be included in District Census Handbooks commenced under the super vision of Madhav Shyam, the then Senior Geographer, but mid-way was taken over by G.S . Gill, Assistant Director who headed the map section during the vital period. He was ably assisted by Jiwan Singh Gill. Artist (now senior Artist), Usha Kalra, Artist and Kulbir Singh, Draftsman. Because of his knowledge of geography and map work he delivered the goods despite the absence of Geographer and Senior Geographer in the directorate.

**Manuscript finalisation :**

The final draft(s) as emerging out of the deliberations of the officers were entrusted to a cell called as 'Press Manuscript Cell' headed by M.L. Sharma, Assistant Director who was actively assisted by Balwant Rai, Senior Investigator and S. P. Goel and Azad Kumar. They raced against time frequently to give final shape to the volume(s) for onward transmission to the press.

**Typing :**

K.C. Pardesi, Confidential Assistant (form erly Senior Stenographer) headed this cell. His knowledge of such publications earlier was an asset. He was assisted by Ajmer Singh, Stenographer and some of the other typists from the various seats in the directorate.

**Printing :**

This cell was headed by M.L. Sharma, Assistant Director and actively assisted by H. S. Sudan and S. P. Goel, They drew upon the services of others in the directorate, wherever necessary.

To each one of them I acknowledge my thanks.

Chandigarh

September, 1982

D. N. DHIR,

Director Census, Punjab.

Shri M. S. Mahadeokar, Assistant Controller of the U. T. Printing Press co-operated in ensuring that the Publication saw the light of the day at the earliest.

D. N. DHIR,

Director Census, Punjab.

# GURDASPUR DISTRICT -A SHORT PROFILE

**Location :**

Gurdaspur district is the northern most district of the Punjab State. It is sandwiched between rivers Beas and Ravi. The district ranks 9th in area and 5th in population in the State. In olden times it provided excellent hunting grounds as number of Chhambs (water pools) abounded throughout the district and the flood waters of Beas and Ravi rivers regularly fed these Chhambs. But after partition large number of drains have been constructed in the district which reclaimed large areas where now quality paddy grows in abundance. Also partition of the country has earned the district the name 'Gateway to Kashmir,' as the State of Jammu & Kashmir is accessible through this district alone. It is bounded in the east by Kangra district of Himachal Pradesh (separated by river Chakki) and Hoshiarpur district (separated by river Beas) in the south by Amritsar district, in the west by Pakistan and Kathua district of Jammu and Kashmir and in the north by Chamba district of Himachal Pradesh.

**Origin of name :**

The district takes its name from the district headquarters town. It was only a small village when one Mahant Guraji belonging to another village named Gurdaspur located in Pathankot tahsil bought this village and settled here. With the passage of time the place grew in importance and was selected as the seat of district headquarters due to its central location and good climate.

**Area :**

According to the Surveyor General, India the district has an area of 3562.0 sq. kms, out of which 3500.00 sq. kms. is rural and the remaining 62.0 sq. kms is urban. The rural area has been derived by subtracting urban area from the total area. The tahsilwise break up of area is as follows:

| Tahsil | Area (in sq. kms) | | |
|---|---|---|---|
| | Total | Rural | Urban |
| 1 | 2 | 3 | 4 |
| 1. Pathankot | 935.6 | 912.3 | 23.3 |
| 2. Gurdaspur | 1334.7 | 1316.6 | 18.1 |
| 3. Batala | 1226.0 | 1205.4 | 20.6 |
| Total | 3496.3 | 3434.3 | 62.0 |

It would be noticed that when tahsil figures are added the total does not tally with the district area, supplied by the Surveyor General, India. The difference in area is due to the fact that tahsilwise area figures of rural area have been supplied by the Director of Land Records, Punjab, whereas the urban figures have been supplied by the Local Bodies.

**Climate :**

Climatically the year consists of three main seasons: (1) Winter from mid October to mid -March; (2) Dry summer from mid-March to end of June ; and (3) Rainy season from July to mid-October. The climate in the district is more temperate than in the Central Punjab because of its proximity to the hills, and for that reason a little more of rainfall. Dust storms are frequent during the hot season as also mild cyclones during winter season when the depression originating from the Atlantic ocean and Mediterranean sea shifts through Persia and Afghanistan into north-west India. Rainfall diminishes as the distance from the hills increases. It is sufficiently high in the hilly areas of Pathankot tahsil and parts of Gurdaspur tahsil. Batala gets comparatively low rainfall. Most of the rain occurs in the summer months July to mid October. Some rain falls in the peak of winter. May and June are particularly dry. The following table gives monthly rainfall (average of 5 years 1976-80 in cms.)

| | | | |
|---|---|---|---|
| January | 6.10 | July | 49.16 |
| February | 4.21 | August | 19.59 |
| March | 1.66 | September | 4.16 |

*Rivers and Drains* : Two important rivers flow through the borders of this district. The Ravi takes rise from beyond the Dhaula Dhar, at a place called Mani Karan, after meandering through the Himachal Pradesh, debouches into the plains of Gurdaspur near Madhopur, and flows on to the north west of this district. The river is notorious for its flood vagaries. The villagers of Narot Jaimal Singh and Dera Baba Nanak, have to be very vigilant to protect their belongings from floods during the rainy season. Quite a few streams are revived during the rainy season and become fairly swollen with water which they pour into the Ravi. The most important of these are:—

(i) *Naumani Nullah* : It rises from near Parmanand and after flowing through the low lying villages, joins the Ravi near Daurangla.

(ii) *Kiran Nullah* : It takes rise from Kotpur pond and flows along the eastern bank of the Ravi, finally meeting it near Lahore.

(iii) *Ujh Nullah* : It takes rise from a spring and is perennial.

*Beas River* : This takes rise from Beas Kund near Rohtang Pass, at a height of more than 13,000 feet above sea level. It enters into the plains near Mirthal, and flows into the north-east of the district. It is notorious for disasterous floods. Not many nullahs in Gurdaspur district make confluence with this river. The only nullah of any consequence is Patti Nullah.

*Hansli* : In its lower course this stream is known as Kasur Nullah. It rises about six miles south of Gurdaspur and after flowing past Batala and Tarn Taran towns empties itself into the old bed of Beas near Kasur in West Punjab.

*Chakki River* : It is a small stream which rises near Dalhousie and joins the Beas river near Mirthal.

*Upper Bari Doab Canal*: The area between the Ravi and the Beas rivers is irrigated by the Upper Bari Doab Canal. It takes off from the Ravi at Madhopur headworks. At Tibri near Gurdaspur, a portion of its water is diverted to the west, which in lower reaches is made into a number of branches and distributaries. The main canal farther down bifurcates in to Kasur and Sobraon Branches.

*Ravi Beas Link* : The surplus waters of Ravi are diverted into the river Chakki throguh this canal and ultimately into the Beas river to augment the supply of water at the Harrike barrage.

*Shahi Canal* : This canal is a legacy from the Mughal days. Its maintenance was done by a committee of landlords with the Tahsildar Pathankot as its Chairman. Now the government has taken over its administration.

Some drainage canals have also been constructed in the district for combating menace of water logging. These have proved a boon to some fertile stretches of land which have been saved from the scourge of water logging.

**Topography :**

The area of the district consists of following three broad categories :—

(a) Hills

(b) Plains

(c) Sub-montane

(a) *The hill area* : It consists of Dhangu hills forming part of Shivalik hills which range between 1,000 feet and 2,000 feet in elevation. These skirt along Chakki river to the north of the district in Pathankot tahsil.

(b) *The Plains* : There is no homogeneity in the level stretch of this land. Consequently various sub-divisions are necessary :—

(i) *Andhar* : This name is given to that part of tahsil Pathankot which lies between river Ravi and Ujh Nullah.

(ii) *Pathani* : The area irrigated by Badshahi canal is called Pathani.

(iii) *Riarki* : This includes the areas of Dhariwal, Ghuman, Qadian and Harchhowal. This is known as such because of the preponderance of Riar Jats.

(iv) *Bangar* : This name is given to the tract of land extending from the bank of Qadian branch of the Upper Bari Doab Canal to the Western edge of the Kahnuwan marsh.

(c) *Sub-montane* : There is a considerable barren land to the north-east of the district in Pathankot tahsil consisting of small hillocks, laid waste as a result of reckless deaf forestation towards the end of the last century. The resultant scenery is heaps of stones of various shapes and sizes, punctuated here and there by thorny bushes. Sandy patches occur in between Taragarh and Narot Jaimal Singh but these have no affinity with the main desert, most of this sand is brought down by the chos from the neighbouring deaf forested hills.

Gurdasdur being a sub-montane district is subject to heavy floods every year. The banks of rivers at places are low, and cannot contain the surplus waters which escape into the low lying areas, converting these into marshes, looking like vast sheets of water during the raing reason. A few of such marshes are described below:—

*Kahnuwan Marsh* : It is a big marsh, which lies to the east of the district. At one time it was the bed of the river Beas. It abounds in fish, Sanghara and lotus flower. It attracts large number of water fowl.

*Talabpur Marsh* : It lies to the north of the Kahnuwan marsh. Its water is used for irrigation.

*Maghar Mudian Marsh* : It is three miles from Gurdaspur. It yields fish and Bhain. Game birds abound in it.

*Dhadh Marsh* : It is on the Batala-Dera Baba Nanak road and is known for Sanghara and fish.

**Jurisdiction:**

After the annexation of the Punjab to the British territory in April, 1849, a new district of Adinanagar was constituted with Dinanagar as its headquarter as Batala was found too far off. The Adinanagar district included whole of Gurdaspur tahsil, a greater portion of the Batala tahsil and 181 villages of Pathankot tahsil. In the autmn of 1849, the civil and military escort were transferred to Batala as Dinanagar was thought unhealthy. In the autumn, Batala was considered too much exposed to floods. The offices were, therefore, shifted to Gurdaspur on 1st May, 1852. In 1853 when the boundaries of tahsils and districts were revised, the district comprised tahsils of Pathankot, Shakargarh (except Chak Andhar), Gurdaspur and Batala. In August, 1860 the hills upon which lies the Dalhousie Sanatorium having been acquired in 1853 from the Chamba state were transferred from the Kangra district to Gurdaspur and in April, 1862, this transfer was supplemented by further transfer to the district of the strip of hill country lying between the Ravi and Chakki and intervening between Dalhousie and the plains In 1861, Raja Teja Singh's Jagir was consolidated in the south-west of the Batala tahsil and his headquarters were fixed at that town and a considerable jurisdiction over the Jagir villages was conferred on him with the title of Raja of Batala. A new tahsil was formed at Qadian but on the death of the Raja on 2nd December, 1862, the Jagir was resumed and the former tahsil was reconstituted. In April, 1867, the Batala tahsil was transferred to Amritsar but was retransferred to Gurdaspur on 1st April, 1869, as the arrangement did not work satisfactorily. On partition of Punjab in 1947, the whole of Shakargarh tahsil was transferred to Pakistan.

In 1960 an agreement was reached between the governments of India and Pakistan that the shifting of the course of rivers was not to effect the boundaries between the two countries. As a result of the demarcation, the district gained and lost possession of certain chunks of land situated on both sides of river Ravi.

In 1966 the Boundary Commission recommended the inclusion of pockets of Dalhousie, Baloon and Bakloh in Himachal Pradesh and necessary provision was made in the Punjab Reorganisation Act, 1966. These areas were transferred as such with effect from 1st November, 1966.

The district has undergone some jurisdictional changes since 1971 census which have been given in Annexure. It shows that Gurdaspur makes no net gain as it gained one village from Hoshiarpur district against a loss of one village to that district.

**Land Utilisation** :

The district being partly hilly abounds in forests and has the third highest forest area. Approximately three-fourths of the area of the district is under cultivation. The following statement shows the land use in the district during the year 1980-81 :—

| | (in 000 hectares) |
|---|---|
| (i) Reporting area for land utilisation purpose | 350 |
| (ii) Under forests | 15 |
| (iii) Land not available for cultivation | 77 |

| | | (in 000 hectares) |
|---|---|---|
| (iv) | Other uncultivated land excluding fallow land | .. .. |
| (v) | Total fallow | .. .. |
| (vi) | Net area sown | .. 258 |
| (vii) | Percentage of total area | .. 74 |
| (viii) | Area sown more than once | .. 172 |
| (ix) | Total cropped area | .. 430 |

It would be noticed that 74 per cent of the total area of the district is cultivated as against 83 per cent of the State. It ranks third from bottom, the lower being Rupnagar (61 per cent) and Hoshiarpur (64 per cent) respectively in the State.

The district has recorded a phenomenal increase in area irrigated, as against 124,600 hectares in 1960-61, the area was 210,200 hectares in 1979-80. In terms of percentages, the area was 43.4 in 1960-61 and 81.5 in 1979-80. The major portion of the area gets irrigation from the Upper Bari Doab Canal, which has been taken out from Ravi river at Madhopur headworks. Besides irrigation is done from tubewells and wells. In the year 1979-80 there were 12,071 tubewells and 2,204 wells in the district.

The principal crops of the district are wheat, rice and maize. Besides sugarcane is cultivated quite extensively, especially in the Batala and Gurdaspur tahsils. The district is known for the production of quality rice. The use of improved varieties of seeds are on the increase as shown by the following table :

| Serial No. | Crop | *Area in 000 hectares in* | | *Percentage of area under improved Varieties* | |
|---|---|---|---|---|---|
| | | 1967-68 | 1979-80 | 1967-68 | 1979-80 |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Wheat | 10 | 186 | 8·1 | 100 |
| 2 | Rice | 4 | 100 | 5·5 | 73 |
| 3 | Maize | 2 | 5 | 6·1 | 25 |

As a result of introduction of package programme for development of agriculture use of improved varieties of seeds, chemical fertilizers, pesticides etc. has become popular. The resultant improvement in the crop yields is shown by the following table :—

| Serial No. | Crop | *Yield in Kgs per hectare in the year* | |
|---|---|---|---|
| | | 1960-61 | 1979-80 |
| 1 | 2 | 3 | 4 |
| 1 | Wheat | 1,244 | 2,248 |
| 2 | Rice | 1,099 | 2,116 |
| 3 | Maize | 1,135 | 1,104 |
| 4 | Bajra | 472 | 782 |

**Animal Husbandry :**

The farmers are good at animal husbandry and take pride in their animals. The district has fairly large number of cows and buffaloes of good breed such as Sahiwal, Hissar etc. During the winter months Gujjars from Chamba, Jammu and Kangra move down to the district with their herds of buffaloes and stay here till beginning of summer; and so do the Gaddis with flock of sheep and the Kumhars with their pack animals. The district being a paddy growing has plenty of green fodder during the winter months. During the rainy season there is plenty of grass for the cattle. Therefore, generally the health of cattle is quite good. The exotic breeds of cow have become popular in the district. This has brought a white revolution. There is plenty of milk which is exported to far of

places like Dalhousie and Dharamashala. The number of cattle has shown a decline over the years as against 6,55,900 cattle in 1966, the number was 5,72,600 in 1977. However, the number of poultry has shown quite an increase, the number recording an increase from 1,66,200 in 1966 to 4,30,500 in 1977. Now the cattle are receiving better deal as veterinary hospitals and dispensaries have appreciably increased, the number increased from 17 in 1966-67 to 74 in 1979-80. The number of veterinary institutions per 100 inhabited villages increased from 1.9 in 1966-67 to 7.2 in 1979-80. Cattle fairs are periodically held for the sale and purchase of cattle in the district at the following places :—

| | |
|---|---|
| 1. Batala | 1—7 of every month |
| 2. Gurdaspur | 13—17 of every month |
| 3. Kalanaur | 18—22 of every month |
| 4. Fatehgarh Churian | 25—29 of every month |

**Communication, Railways and Roads :**

The district is well served with postal and telegraph facilities. In 1979-80 there were 267 post offices against 207 in 1965. The number of telegraph offices and telephone exchanges in the district in the year 1979-80 was 54 and 13, respectively. The notable feature about these facilities is that these have increased qualitatively and quantitatively both in rural and urban areas.

Pathankot is the main rail junction in the district for the broad gauge lines from Amritsar, Jalandhar and Jammu. It is also linked with Joginder Nagar by a Narrow Gauge line. From Batala there is a small off-shoot to Qadian. The Amritsar-Pathankot section of broad gauge line passes through the tahsils of Batala, Gurdaspur and Pathankot. The Batala-Qadian section serves the Batala tahsil upto Qadian. The Amritsar-Dera Baba Nanak section branches off from Verka and serves the western part of tahsil Batala. Before partition this line connected Amritsar with Sialkot but now Dera Baba Nanak is the terminus. The Jalandhar-Pathankot section serves a small part of Pathankot tahsil. The Pathankot-Joginder Nagar section is a narrow gauge line which serves the eastern part of Pathankot tahsil.

The Pathankot-Jammu section serves the north western part of Pathankot tahsil.

The villages are now easily accessible due to development of an efficient net work of roads. The road length (metalled) increased from 597 kms in 1966-67 to 2,837 kms in 1979-80. In the year 1966-67, out of 1,092 kms of roads hardly 597 kms were metalled but now the total road length is metalled. In 1966-67 there were 16·78 kms of roads for 100 sq kms of area. There were 53.39 kms of roads for every lakh persons in 1966-67 against 193.38 kms in the year 1979-80. The Narot Jaimal Singh area which is situated across the Ravi is known as Chak Andhar because of lack of proper communications. In the rainy season the area is inaccessible for want of a bridge across the river Ravi. At present there are four bridges which serve the district, one is at Madhopur on the Ravi, the second is at Dera Baba Nanak, which is also on the Ravi, but this is virtually of no use as it now falls in the Pakistan area. The third one is also on Ravi upstream Madhopur which provides alternate route for Jammu and Kashmir and the fourth is Chakki bridge which links this district with Kangra, Hoshiarpur and Jalandhar districts. The district needs at least two more bridges one on Ravi near Narot Jaimal Singh and the second on Beas near Sri Hargobindpur for providing the shortest link with the state capital, and to provide better accessibility to Hoshiarpur district.

**Amenities:**

The district is quite advanced in the mater of education. The credit goes to Arya Smaj which did a pioneering work in the field of education. Large number of private educational institutions were opened by this organisation, later followed by the Sikhs and the Muslims. The educational facilities have witnesed a rapid expansion since partition. There were 5 Arts and Science Colleges in the district in May 1967, the number increased to 14 in September, 1979. The number of high and higher secondary schools also increased from 69 in 1967 to 153 in 1979. The corresponding increase in the number of middle schools was 140 from 93 and Primary schools 1,346 from 663. There was also an increase in the number of students as revealed by the following figures : (i) High and higher secondary schools students 15,000 in 1967 to 30,000 in 1979 ; (ii) Middle school students 42,000 in 1967 to 72,000 in 1979 ; (iii) Primary Schools students 1,32,000 in 1967 to 1,84,000 in 1979. The number of teachers also increased from 4,800 in 1967 to 8,517 in 1979. There is one government polytechnic located at Batala with an annual intake capacity of 211 students in 1980-81. Besides there are 4 Industrial Training Institutes with an intake capacity of 1,366 students annually.

The medical facilities have also developed appreciably in the district. In 1962 there were only 40 medical institutions such as Hospitals, Public Health Centres and Dispensaries which increased to 134 in 1979-80. During the period 1962 to 1979-80 the hospital beds increased from 478 to 1,218 , there was a corresponding increase of doctors from 19 to 331. The number of family planning centres also increased from 5 in 1962 to 15 in 1979-80. In the district there was one para medical worker for 11,669 persons in 1980-81 against 25,067 in 1962 ; One bed for 1,284 persons in 1980-81 against 2,098 persons in 1962 ; and there was one doctor for 4,653 persons in

1980-81. The district is well served with drinking water facilities as all the towns and 141 villages have been provided with tapped water facilities. No village in the district has any problem regarding drinking water. The main sources of drinking water are wells and hand pumps. Some people also get supplies from tubewells and canals.

There is cent per cent electrification in the district. In 1960-61 only 21.7 per cent villages were electrified. The number of villages and towns electrified have jumped from 330 in 1960-61 to 1521 in 1979-80. This achievement has been possible through crash programme of electrification undertaken some years back.

The banking facilities are also on the increase as against 32 bank branches in 1966-67 there were 152 branches in 1979-80. The number of Cinema houses has increased marginally from 9 in 1966-67 to 10 in 1979-80. The number of employment exchanges increased to 4 in 1979-80 from 3 in 1966-67. The number of market committees recorded a sizable increase from 6 in 1966-67 to 10 in 1979-80.

**Demographic Characteristics:**

On the sunrise of 1st March, 1981, the population of the district stood at 15,13,435 persons out of which 7,93,484 were males and 7,19,951 were females. The sex ratio for this district was 907 against 879 of the state. The district ranks 5th in population in the state, the districts having more population are Amritsar, Ludhiana, Jalandhar and Patiala. In the district 11,85,167 persons lived in the rural areas (6,21,035 males and 5,64,132 females) whereas 3,28,268 persons lived in the urban areas (1,72,449 males and 1,55,819 females). Thus only 21.69 per cent population against 27.68 per cent of the state lived in urban areas. The district reported a population of 15,13,435 persons in 1981 against 12,29,249 in 1971, recording a growth rate of 23.10 per cent during the decade 1971—81 against 23.89 per cent of the state. The district has reported a density of 425 persons per square km against 333 of the state, the figure being higher than the state. The district has reported a literacy rate of 43.49 per cent (50.29 per cent for males and 35.99 per cent for females) against 40.86 per cent of the state. Thus in the field of literacy the district is ahead of some of the districts of the state.

**Occupations :**

In the district 26.57 per cent population comprised main workers (49.10 per cent males and 1.74 per cent females) during 1981 Census. The percentage of marginal workers is 1.00 (0.58 males and 1.46 for females). The percentage of non-workers is, however, 72.43 (50.32 for males and 96.80 for females). The percentages by broad industrial categories of main workers is as follows :—

| | | | |
|---|---|---|---|
| 1. | Cultivators | .. Persons | 32·74 |
| | | Males | 33·67 |
| | | Females | 3·68 |
| 2. | Agricultural Labourers | .. Persons | 23·20 |
| | | Males | 23·29 |
| | | Females | 20·34 |
| 3. | Household Industry | .. Persons | 2·27 |
| | | Males | 2·18 |
| | | Females | 5·09 |
| 4. | Other Workers | .. Persons | 47·79 |
| | | Males | 40·86 |
| | | Females | 70·89 |

It would be noted from the above description that work participation rates of females are lower than males inspite of an increasing trend among women to seek work for supplementing family income. Still there is a long way to go to effect parity in sex differentials in work participation rates.

The district is predominantly agricultural though some industries are located in it.

For instance Batala has earned a name in machine tools, Dhariwal has a famous New Egerton woollen mills which has been taken over recently by government as a sick unit. A Co-operative sugar-mill has been set up at Batala. Not much change has been brought about by these industrial centres in the district inspite of the fact that these were established during the 19th Century. The work on the Thein Dam has been started on a nominal scale, Once this picks up, it will go a long way to change the occupational pattern in the district. The district being on the Indo

Pakistan border has some military and para military establishments. Pathankot is known for three things timber, tourists and transport. The number of government employees increased from 13,002 in 1966-67 to 21,156 in 1979-80. As said earlier the number of construction and technical workers is likely to increase with the increase of tempo of Thein Dam.

**Trade and Commerce :**

Usually towns serve as centres of trade and commerce though business and commercial establishmets are found even in the remote villages. Batala and Pathankot stand head and shoulders higher than other towns. Pathankot is the main market of trade for the adjoining areas of Himachal and Jammu and Kahsmir, and it is probably the largest centre for the export of timber which comes from the Himachal and Jammu and Kashmir forests. The district is a producer of quality rice (Basmati) which is exported. The main exports from the district are ; machine tools, Woollen fabrics ; Leather and Auto parts; Engineering products and sugar. There are 10 regulated agricultural markets in the district as on 31st March, 1981. The markets are at Batala, Dhariwal, Dinanagar, Gurdaspur, Pathankot, Qadian, Fatehgarh Churian, Sri Hargobindpur, Dera Baba Nanak and Narot Jaimal Singh. The market arrivals of foodgrains and non foodgrains commodities increased from 3,349,000 Qtls. in 1973-74 to 5,975,000 Qtls in 1980-81. The following is the break up of three principal agricultural commodities handled in the above markets during 1980-81.

| | | | |
|---|---|---|---|
| 1. Paddy | .. | 323,000 | M. Tonnes |
| 2. Maize | .. | 1,000 | M. Tonnes |
| 3. Wheat | .. | 213,000 | M. Tonnes |

All markets excepting Sri Hargobindpur and Narot Jaimal Singh are connected by rail. Markets are also connected directly by metalled roads excepting Narot Jaimal Singh which is approachable via Kathua during the rainy season.

**Industry :**

Even though the district is situated on the Indo Pakistan border it has made a significant progress in the field of industry. The machine tool industry at Batala was hit hard by the migration of Muslim workers in the post partition period. The immigrants from Pakistan not only filled up this gap but brought the industry on a healthy footing by dint of their hard work. After partition a cooperative sugar mill has been set up at Batala. Many paddy shellers have been set up in the district. With the completion of Micro Power Station on Upper Bari Doab Canal the district has come on the power map of the country. This will receive a further fillip after the completion of Thein dam and power house, which will be located in the district. At Pathankot, which is the biggest timber market in Northern India, number of saw mills have been set up. The number of registered factories has gone up from 316 in 1960 to 522 in 1980. There is a corresponding increase in the number of workers from 6,318 in 1960 to 10,901 in 1980. In 1980 out of 489 working factories 354 were registered under section 2(i) and 168 under section 85. Out of 354 factories registered under 2m(i), 20 units employing 838 workers were in pulic sector whereas 319 units employing 9,537 workers were in the private sector. In the period 1975—77 the number of unregistered units was 4,968 which gave employment to 11,542 workers. These units had a total investment of rupees 533.2 lakh with a gross production of goods worth 2,120.8 lakhs. The mulberry trees grow in abundance in the Kandi area. In the ancient times Madhopur was a centre of silk weaving and sericulture industries but with the passage of time these have seen a fast decline. Also sports goods industry which made a begining at Batala immediately after partition declined due to stiff Competition from Jalandhar sports industry. Persistent efforts to revive these industries have failed.

**Historical and Important Towns :**

*Gurdaspur* : Its a district town with a population of 39,529 persons. The town is centrally located within the district. Jhula Mahal which houses the historic Gurdwara is the only place of historical interest. It has a wall which has the peculiarity of shaking from the very foundation when given a push. The legend goes that Guru Nanak visited this place when construction was going on here. The masson boasted of the strength of the wall. However, the wall began to shake when Guru Nanak climbed it. A foot print of Guru Nanak has been preserved on the wall. Besides there is a Rang Mahal got constructed by Raja Sher Singh, son of Maharaja Ranjit Singh. The building is now in total ruins.

*Dinanagar* : Its a town with a population of 13,078 persons, located some 13 kms from Gurdaspur town towards Pathankot. It was founded by Adina Beg Moghul Governer of Jalandhar Doab. The original name of the town was Adinanagar which later corrupted to Dinanagar with the passage of time. During the reign of Maharaja Ranjit Singh it was made a summer capital and Maharaja used to spend time here during the summer season. The palace now houses the Municipal office, whereas Baradari and the adjoining land have been sold to private owners.

*Dhariwal* : Its a small town with a population of 12,212 persons. The place gained prominence on account of the setting up of New Egerton Woollen Mills in 1980. In the earlier days when hydro and thermal power was not in use the power of fall of Upper Bari Doab Canal was utilised to run this mill but now water mills (Gharats) are run by their power.

*Kalanaur* : Its a village situated on the bank of Kiran Nullah at a distance of 24 kms. from Gurdaspur. Its a historic and religious place. It is regarded as one of the abodes of Lord Shiva, whose gigantic lingam is established here in a temple constructed by Raja Kharak Singh, son of Maharaja Ranjit Singh. In the prehistoric times this place was known as Kalehswar. The place also bears connection with the coronation of Emperor Akbar. The masonry platform where Akbar was first crowned in 1956, is still lying in the actual place in the fields. The platform is now a preserved monument of department of Archaeology. The garden laid down around the monument has since been converted into agricultural fields. The Bhul Bhulain, Hamams and palace of Begmats are all in ruins. The tomb of Jaimal Begh who was a general in Akbar's Army, a mosque of Pir Budhan Shah, a Khankah of Pir Mohram Shah and Smadh of Baba Manjh Nath are still standing though in shambles.

*Bahrampur* : This is a village situated at distance of 8 kms. from Dinanagar. It was founded by Bahram Khan, the Tutor of Emperor Akbar. This was the seat of Mughal Governor who kept a strict vigil on the activities of hill chieftains. The old fort is in ruins but the mosque and Idgah are still intact.

*Pindauri Mahantan* It is located some 12 kms. east of Gurdaspur. It was founded by a Muslim Faqir named Talab Shah Bains. The place has a famous shrine of Vaishnavites. One of the temples is of Muslim architecture, and is said to have been built by Emperor Jahangir. People from far and wide visit this shrine on Baisakhi and Janamashtmi festivals.

*Batala* : It is second largest town of the district with a population of 1,01,966 persons in 1981 census. The town was founded by Rai Ram Deo, a Bhatti Rajput from Kapurthala in 1472 A.D. In the Muslim period the place was regarded as holly and referred to as Batala Sharif because it was a centre of Muslim learning and piety since the times of Farrukh Saiyar. The great Banda Bairagi ransacked it. The town has a Smadhi of Sati Lakshmi Devi wife of Veer Haqiqat Rai of Sialkot. The in-laws of Guru Nanak were in this town. The legend goes that relatives from in-laws side of Guru Nanak Dev felt infuriated on account of participation of maimed and mendicants in the marriage party. Their plan to kill Nanak and members of the marriage party by throwing a wall was thwarted by the supernatural powers of the Guru. A Gurdwara known as Kandh Sahib was built at that place. The town has earned a name in the manufacture of machine tools, which are popular for their quality and low price.

*Qadian* : Its a town situated at a distance of 19 kms. east of Batala. The town has a population of 16,424 persons as per 1981 census. It is known throughout the world as headquarters of Ahmadiya sect of Muslims. In the wake of partition the head of this sect migrated to Jhang in west Punjab.

*Dera Baba Nanak* : Its a small town with a population of 6,212 persons, situated some 37 kms west of Gurdaspur town on the left bank of river Ravi. The town claims association with Guru Nanak Dev, who passed his time here in meditation. Gurdwara Dera Sahib is said to have been built at the spot where Guru Nanak delivered discourses to the people. The Gurdwara preserves the ashes of half the covering sheet (Chadar) which came in the share of his Hindu disciples. There is another Gurdwara called Chola Sahib, wherein a tunic of Baba Nanak having Arabic verses, has been preserved. The chola is displayed on the Baisakhi day every year. People from far and wide come to have Darshan.

*Fatehgarh Churian* : Its a town with a population of 9,372 persons, situated 25 kms north-east of Batala. The town was founded by Sardar Fateh Singh Kanahya, who built here a fort and named it as Fatehgarh. As large number of bangle makers (Churighar) were settled here, the place came to be known by its present name. The town is associated with Chanp Kaur who was married to Kharak Singh, son of Maharaja Ranjit Singh. She built here a beautiful temple with a pacca tank, unique in design in this part of the country.

*Sri Hargobindpur* : Its a town having a population of 3,215 persons, situated on the right bank of river Beas at a distance of 28 kms in the south east of Batala town. The town was founded by Guru Arjan Dev who named it as such after his son and successor, Sri Hargobind. The town has a historic temple known as Shahidi Gurdwara Damdama Sahib which was built to commemorate the martyrdom of 17,000 sikhs, who died here in a battle with the Mughal forces.

*Pathankot* : It is the largest town of the district having a population of 1,10,039 persons according to 1981 census. The town is a Gateway to Himachal and Jammu and Kashmir states. The town is famous for timber, tourists. It has an aerodrome being used for both military and civil purposes. The extension of railway line upto transport and Jammu has, however, adversely affected the tourist trade of the town.

*Shahpur Kandi* : Its a small village, situated some 10 kms from Pathankot. The place is at some height and is located on the left bank of river Ravi. The place presents a picturesque view of the valley of river Ravi. The place is gaining in importance as the work on Thein Dam is picking up. There is a Smadhi of Baba Sri Chand, son of Guru Nanak Dev. Baba Sri Chand was the founder of Udasi sect.

*Madhopur* : It is situated on the Pathankot-Jammu highway on the left bank of river Ravi. A modern headworks has been constructed to divert waters into the Upper Bari Doab Canal and Ravi Beas link. The place has a road barrier where Punjab and Jammu and Kashmir governments have their check posts.

## ANNEXURE

**Jurisdictional Changes—Gurdaspur District**

| | |
|---|---|
| (i) Gurdaspur tahsil lost village Miani Malahan, H.B. No. 430, Code No. 501, to Dasua tahsil of Hoshiapur district | Vide Punjab Government Notification No. 2202-RGI/73/ 2953, dated 24th August, 1973. |
| (ii) Gurdaspur tahsil gained village Dathana, H.B. No. 455, Code No. 242 from Dasua tahsil of Hoshiarpur district | Vide Punjab Government Notification No. 2/2(RGI)-8847-79/7399, dated 26th December, 1979 |

## INTRODUCTION TO DISTRICT CENSUS HANDBOOK

Keeping in view the needs of planners, for exhaustive infra-structural and amenity data upto village level, required for micro-level planning, the formats of the village and town directory of 1981 DCH series have been redesigned and some new features useful for planning have been added while maintaining the comparability with1971data. A few new items of information such as adult literacy centres, primary health sub-centres, community health workers in villages, etc. have been introduced to meet some of the requirements of revised minimum needs programme. A new item 'approach to village' has been introduced to give an idea about the villages in the district which are inaccessible. A new column 'Total population and number of households' has been introducted to examine the correlation of amenities with the population and number of households they serve. Two more appendices namely (i) listing the villages where no amenities are available and (ii) list of villages indicating ranges according to the proportion of scheduled castes to total population have been added with the same object in view. A significant addition in class of the town in all the six statements of the town directory which alongwith population and decadal variation since 1901 to 1981 will prove quite useful for analysing the infra-structure of amenities in the urban area of state.

*Contents* : The 1981 DCH series have been divided into two parts. Part A contains village and town directory and part B, PACs of villages and towns and PCA for scheduled castes upto tahsil/town levels. Both parts are being published in this volume.

The village directory contains information about total area of each village in hectares, total population and number of households, amenities/conveniences available in the village, staple food of the people and the land-use pattern. There is also information about the nearest town and its distance from the village and approach to the village.

The town directory presents data on each town with the aid of six statements giving the status and class of the town, the decadal population and growth rate since 1901—1981, physical and locational aspects, municipal finance and availability of amenities/facilities like medical, educational, banking etc. trade, commerce and industry.

PCA incorporates tahsilwise data for each village and each town/ward under the following heads:—

(i) Area in hectares/sq. kms.

(ii) Number of occupied census houses

(iii) Number of households

(iv) Total population

(v) Scheduled castes population (there is no scheduled tribe in Punjab State)

(vi) Literates

(vii) Main workers classified into four categories of cultivators, agricultural labourers, household industry and other workers

(viii) Marginal workers

(ix) Non-workers

*Maps* : The map of the district and a map for each tahsil of the district have been included.

The district map shows the district boundary and location of its headquarters, tahsil boundaries and location of its headquarters, national highway, state highway, important metalled roads, railway lines, rivers and streams, towns and census villages according to population size, post and telegraph offices, degree colleges and technical institutions, rest houses, etc.

The tahsil map contains boundary of tahsil and location of tahsil headquarter, villages with location code numbers, villages with population size, uninhabited villages with location codes, urban areas with location codes, roads, railways and service facilities such as post and telegraph offices, higher secondary schools hospitals, etc.

Besides both the district and tahsil maps have an inset map where addition or loss of territory that has taken place during the decade, has been shown.

*Sources* : Whereas PCA contains census data for compilation of village and town directory, the relevant schedules alongwith comprehensive instructions, were sent to the revenue officers (for rural areas) and executive officers of municipal bodies (for urban areas) to be filled in at their end. The completed schedules were collected from the relevant quarters during the houselisting operations in April, 1980 by the staff of this directorate. The schedules were scrutinized at the directorate and the directories were compiled therefrom.

**Census Concepts And Definitions:**

*Village and town directory*

*Rural-urbon classification* : The 1981 census data are being presented by rural and urban areas, as in the previous censuses.

As far as rural area is concerned 'village' has been adopted as the lowest census unit.

*Rural Area* : *'Village'*

The definition of the village adopted in census is identical with that of 'mauza' given under section 3(i) of the Punjab Land Revenue Act, 1887. It is the 'revenue estate' determined as such for the purpose of levy and collection of land revenue. The revenue estate is defined in the Act *ibid* as an area:—

(a) for which a separate record of rights exists; or

(b) which has been separately assessed to land revenue, or would have been so assessed if the land revenue had not been realised or compounded or redeemed; or

(c) which the State Government may by general rule or specific orders declare to be an estate.

The village is thus not merely the *abadi deh* (red lined area) for census taking but the entire land coming within the fixed boundaries of each village in terms of the Act *ibid.*

There are 1633 villages out of which 1551 are inhabited, 80 are uninhabited and 2 since merged in towns in Gurdaspur district

*Urban Area* : *'Town'*

The following definition of an 'urban area' has been adopted at the 1981 census which is analogous to the criterion adopted in 1961 and 1971 censuses with some variation (as indicated below):

(a) All places with a corporation, municipality or cantonment board or notified town area:

(b) All other places which satisfied the following criteria;

(i) a minimum population of 5,000,

(ii) at least 75 per cent of the male working population engaged in non-agricultural and allied activity and

(iii) a population of at least 400 per km² (or 1,000 per square mile).

The urban criterion of 1981 census varies slightly from that of 1961 and 1971 censuses, in that the males working in activities such as forestry, logging, etc. were then treated as engaged in non-agricultural activity. It, therefore, contributed to the 75 per cent criterion in 1961 and 1971 censuses whereas in the 1981 census these activities have been treated as on par with cultivation and agricultural labour for the purpose of this criterion.

Prior to the 1961 census, the definition of 'urban area' was somewhat liberal and a lot was left to the discretion of the local authorities. At the 1971 census, the state directors of census operations were also given discretion in marginal cases to include, in consultation with the State Government, a place that had other distinct urban characteristics, or to exclude an undeserving place from being treated as 'urban'.

*Urban Area in Gurdaspur District* : With the addition of Narot Jaimal Singh N.A.C. the number of towns increased from 10 in 1971 to 11 in 1981. The towns are: Batala, Dera Baba Nanak, Dhariwal, Dinanagar, Fatehgarh Churian, Gurdaspur, Narot Jaimal Singh, Pathankot, Qadian, Sri Hargobindpur and Sujanpur. Although State Government denotified Narot Jaimal Singh NAC in October, 1980 alongwith other 15 NACs', Narot Jaimal Singh has been treated as town for 1981 Census, since it was decided to freeze urban frame as on 30th September, 1980.

*Urban Agglomeration (UA)* : Apart from town/city (2 towns with a population of one lakh and above) the 1971 concept of urban agglomeration is also adopted for the 1981 census. Very often large railway colonies, university campuses, port areas, military camps, etc., came up outside the statutory limits of the city or town but adjoining it. Such areas may not by themselves qualify to be treated as towns but if they form a continuous spread with the town they are outgrowths of the town and deserve to be treated as urban. Such towns together with their outgrowths have been treated as one urban unit and called 'urban agglomeration'.

An urban agglomeration may constitute;

(a) A city with continuous outgrowth (the part of outgrowth being outside the statutory limits but falling within the boundaries of the adjoining village or villages):

(b) one town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a); or

(c) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

*Urban Agglomerations (UA's) in Gurdaspur District* : In Gurdaspur district in 1981 Census there were three Urban Agglomerations viz. Sujanpur, Batala and Qadian.

*Standard Urban Area (SUA)* : The area constituting, an 'Urban agglomeration' may keep on changing from census to census depending upon the changing boundaries of the statutory core urban unit as well as the extent of other continous urban outgrowths. The concept of 'Standard Urban Area', adopted at the 1971 Census and 1981 Census has taken care of these changes, covering areas beyond the extending urban limits and intermingling both rural and urban areas in the vicinity of large towns to a limit upto which continuous urbanization is reasonably expected to take place in the next two decades. In brief, the. In berief, the Standard Urban Area may be defined as the projected growth area of a city or town as it would be in 1991, taking into account not only the towns and villages which will get merged into it but also the intervening areas which are officially urban" Provision of Census data for such 'Standard Urban Areas' will have the advantage of providing comparable data for a definite area for a period of two decades greatly faciliating study of socio-economic and demographic trends in such a fixed area and thus help in urban planning. All towns with a population of 50,000+ have been delineated as Standard urban areas. The essential requirements for the constitution of a standard urban area are:—

(i) it should have a core town of a minimum population of 50,000;

(ii) the contiguous 'areas' made up of other urban as well as rural administrative units should have mutual socio-economic links with the core town; and

(iii) in all probability this entire area should get fully urbanised in a period of two or three decades.

Certain SUAs were determined on this basis in 1971 and some basic data were presented for 1951, 1961 and 1971 for such areas and their components. Similar data is being presented for the SUAS' in 1981 also. The idea is to present basic data for these areas for four to five decades so that the urbanisation process in those areas can be studied.

*Standard Urban Area in Gurdaspur District* : There are two SUAs' viz. Batala and Pathankot in the District.

## DEMOGRAPHIC CHARACTERISTICS BASED ON ANALYSIS OF INSET TABLES (PRIMARY CENSUS ABSTRACT)

**Population :**

TABLE 1

Population, Number of Villages and Towns, 1981

| Sl. No | Name of tahsil | Population | | | | | | | | | Number of villages | | Number of towns |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Total | | | Rural | | | Urban | | | Total | Inhabited | |
| | | P | M | F | P | M | F | P | M | F | | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 | 14 |
| 1 | Pathankot | 401,727 | 209,733 | 191,994 | 275,467 | 143,684 | 131,783 | 126,260 | 66,049 | 60,211 | (416) | 385 | 3 |
| 2. | Gurdaspur | 551,704 | 287,844 | 263,860 | 486,885 | 253,936 | 232,949 | 64,819 | 33,908 | 30,911 | (724) | 684 | 3 |
| 3. | Batala | 560,004 | 295,907 | 264,097 | 422,815 | 223,415 | 199,400 | 137,189 | 72,492 | 64,697 | (493) | 482 | 5 |
| | **District** | **1,513,435** | **793,484** | **719,951** | **1,185,167** | **621,035** | **564.132** | **328,268** | **172,449** | **155,819** | **(1,633)** | **1,551** | **11** |

Table 1 gives distribution of population tahsilwise by rural and urban areas. A further break up by persons, males and females has been given. This table also gives breakup of villages by total and inhabited villages. In the last column 13, number of towns tahsilwise have been given. At the bottom district totals for each column have been given. The table shows that in Gurdaspur. district out of 1,633 villages as many as 1,551 are inhabited. In tahsil Gurdaspur out of 724 villages 684 are inhabited It is followed by Batala having 482 inhabited villages out of 493 villages. Tahsil Pathankot, however, stands at the bottom having 385 villages out of 416. It may be noted that Batala tahsil has the highest percentage (97.77) inhabited. villages in the district. The district has 11 towns out of which 5 are in tahsil Batala while Pathankot and Gurdaspur tahsils have 3 towns each. The district records a population 15,13, 445 (7,93,484 males and 7,19,951 females) during 1981 census, out of which 1,185,167 persons (6,21,035 males and 5,64,132 females) live in rural areas and 3,28,268 persons (1,72,449 males and 1,55,819 females) live in urban areas. Tahsil Batala with a population of 5,60,004 is the most populous tahsil followed by Gurdaspur tahsil with a population of 5,51,704 persons. Tahsil Pathankot with 4,01,727 persons is the least populous, being partly hilly. Out of 3,28,268 urbanities in the district the highest number 1,37,189 resided in Batala tahsil, closely followed by Pathankot tahsil with 1,26,260 Persons, Gurdaspur tahsil with a population of 64,819 persons is far behind as there is no big town in this tahsil.

**Growth Rate :**

TABLE 2

Decadal Change in Distribution of Population

| Sl. No. | Tahsil | Population | | | | | | Percentage decadal variation (1971-81) | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | | 1971 | | | 1981 | | | | | |
| | | Total | Rural | Urban | Total | Rural | Urban | Total | Rural | Urban |
| | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| 1. | Pathankot | 314,698 | 223,723 | 90,975 | 401,727 | 275,467 | 126.260 | 27·65 | 23·13 | 38·7 |
| 2. | Gurdaspur | 453,914 | 401,258 | 52,656 | 551,704 | 486,885 | 64,819 | 21·54 | 21·34 | 23·1 |
| 3. | Batala | 460,637 | 355,184 | 105,453 | 560,004 | 422,815 | 137,189 | 21·57 | 19·04 | 30·0 |
| | **District** | **1,229,249** | **980,165** | **249,084** | **1,513,435** | **1,185,167** | **328,268** | **23·10** | **20·92** | **31·79** |

Table 2 gives population tahsilwise by total, rural and urban areas for 1971 and 1981 censuses separately. The table also shows percentage decadal variation tahsilwise by total, rural and urban areas during the decade 1971-81. The district totals have been given column wise at the bottom. The table shows that in 1971, 1,229,249 persons lived in the district. The population, however, increased to 1,513,435 persons in 1981. Thus the district recorded a decadal increase of 23.10 per cent against 23.89 per cent of the state during 1971—81. Pathankot tahsil recorded the highest decadal growth rate (27.65 per cent) followed by Batala (21.57 per cent) & Gurdaspur (21.54 per cent). Incidentally Pathankot records the highest growth rate (23.13 per cent) followed by Gurdaspur (21.34 per cent) and Batala (19.04 per cent) against 20.92 per cent of the district for rural areas. Again Pathankot (38.79 per cent) tops in decada growth rate followed by Batala (30.09 per cent) and Gurdaspur (23.10 per cent) tahsil against 31.79 per cent of the district for urban areas. It would thus be noted that decadal growth rates for urban areas show more variation than the rural areas. The higher growth rates in case of Pathankot and Batala tahsils are due to fast expansion of Pathankot and Batala towns during the decade.

**Villages**

TABLE 3

**Distribution of Villages by Population Ranges**

| Range of population | Number of villages in each range | Percentage of villages in each range |
|---|---|---|
| 1 | 2 | 3 |
| Less than 200 | 228 | 14·70 |
| 200—499 | 465 | 29·98 |
| 500 —1,999 | 766 | 49·39 |
| 2,000—4,999 | 85 | 5·48 |
| 5,000—9,999 | 7 | 0·45 |
| 10,000 + | | |
| **Total** | **1,551** | **100·00** |

Table 3 gives distribution of villages by population sizes in 6 ranges varying from less than 200 to 10,000 and above. It shows that out of 1,551 inhabited villages maximum number 766 (49.39 per cent) is in the range 500—1,999 followed by 465 villages (29.98 per cent) in the range 200—499. Also sizable number of villages 228(14.70 per cent) are in the range less than 200. The district has only 7 villages (0.45 percent) in the population range 5,000—9,999. There are 85 villages (5.48 per cent) in the population range 2,000—4,999. It would be seen that district has both large and small sized villages. In the hilly areas the population size is smaller. In Batala tahsil the villages are, however, quite large sized.

**Density :**

TABLE 4

**Distribution of Villages by Density**

| Range of density (per sq. km.) | Total Number of villages in each density range | Percentage of villages in each density range |
|---|---|---|
| 1 | 2 | 3 |
| —10 | 12 | 0·77 |
| 11—20 | 15 | 0·97 |
| 21—50 | 31 | 2·00 |
| 51—100 | 69 | 4·45 |
| 101—200 | 175 | 11·28 |
| 201—300 | 284 | 18·31 |
| 301 —500 | 586 | 37·78 |
| 501 + | 379 | 24·44 |
| **Total** | **1,551** | **100·00** |

The density of population in Gurdaspur district works out to 425 persons per square kilometre as against 333 of the state. Table 4 gives distribution of villages by density ranges. In column 2 the number of villages has been given whereas column 3 gives the percentage of the villages in the range to the total villages in the district. The table shows that maximum number of villages 586 (37.78 percent) fall in the density range 301—500, followed by 379 villages (24.44 percent) in the range 501+. The minimum number of villages 12 (0.77 percent) fall in the density range upto 10 persons. The density range 11—20 reports 15 villages (0.97 per cent). The table shows that as many as 965 villages (62.22 per cent) fall in the density range 301+. Personally speaking villages are of low density inspite of its fertile land. Mechanisation of agriculture is one of the cause for low density of villages. Also border factor has a dampening effect on the growth of rural population which migrates to other areas for various occupations.

**Scheduled Castes Population :**

TABLE 5

**Proportion of Scheduled Castes Population to Total Population in the Villages**

| Percentage range of Scheduled Castes population to total population | Number of villages in each range | Percentage of villages in each range |
|---|---|---|
| 1 | 2 | 3 |
| Nil | 208 | 13·41 |
| Less than 5 | 147 | 9·48 |
| 6—10 | 132 | 8·51 |
| 11—15 | 124 | 7·99 |
| 16—20 | 141 | 9·09 |
| 21—30 | 270 | 17·41 |
| 31 and above | 529 | 34·11 |
| **Total** | **1,551** | **100·00** |

Table 5 shows number of villages and percentage by various ranges of scheduled castes population to total population. The ranges vary from nil to 31 and above. The table shows that the largest number of villages 529 (34.11 per cent) have a percentage range 31 and above of scheduled castes population. There are 270 villages (17.41 per cent) which fall in the range 21-30 of scheduled castes population. There are 355 villages (22.89 per cent) which report less than 5 per cent scheduled castes population. Such villages are mostly in the hilly areas.

TABLE 6

**Proportion of Scheduled Castes Population to Total Population in Towns**

| | Name of the Town | Total population | Total scheduled castes population | Percentage of scheduled castes population to total population— |
|---|---|---|---|---|
| | 1 | 2 | 3 | 4 |
| 1. | Batala | 101,966 | 21,721 | 21·30 |
| 2. | Dera Baba Nanak | 6,212 | 1,465 | 23·58 |
| 3. | Dhariwal | 12,212 | 779 | 6·38 |
| 4. | Dinanagar | 13,078 | 2,810 | 21·49 |
| 5. | Fatehgarh Churian | 9,372 | 1,247 | 13·31 |
| 6. | Gurdaspur | 39,529 | 6,397 | 16·18 |
| 7. | Narot Jaimal Singh | 2,660 | 802 | 30·15 |
| 8. | Pathankot | 110,039 | 17,843 | 16·22 |
| 9. | Qadian | 16,424 | 1,318 | 8·02 |
| 10. | Sri Hargobindpur | 3,215 | 881 | 27·40 |
| 11. | Sujanpur | 13,561 | 4,718 | 34·79 |
| | **All Towns** | **328,268** | **60,526** | **18·44** |

Table 6 gives scheduled castes population town-wise for all the 11 towns in the district. It would be seen that out of urban population of 3,28,268 persons as many as 60,526 belong to scheduled castes. Their percentage works out to 18.44 only. The largest number (21,721) of scheduled castes is in Batala town followed by Pathankot (17,843) and Gurdaspur (6,397) at a considerable distance. Incidentally Dhariwal has the smallest number (779) of scheduled castes In terms of percentages it would be seen that the highest percentage (34.79) is in Sujanpur, followed by Narot Jaimal Singh (30.15) and Sri Hargobindpur (27.40). Incidentally all these towns are small towns. In the bigger towns such as Pathankot (16.22), Batala (21.30) and Gurdaspur (16.18) the percentages are quite low, except in Batala (21.30) which has higher percentage than the district (18.44). The towns of Dhariwal (6.38) and Qadian (8.02) have very low percentage of scheduled castes population due to large proportion of immigrant skilled workers, whereas Qadian has a sizable proportion of Muslim population.

It may, however, be noted that there is no scheduled tribes population in the district as no scheduled tribes has been notified as such in the Punjab State.

**Literacy :**

TABLE 7

**Literacy Rate by Population Ranges of Villages**

| Range of population | Number of villages in each range | Literacy rate |
|---|---|---|
| 1 | 2 | 3 |
| —200 | 228 | 41·67 |
| 200—499 | 465 | 38·89 |
| 500— 1,999 | 766 | 36·29 |
| 2,000— 4,999 | 85 | 50·43 |
| 5,000—9,999 | 7 | 48·99 |
| 10,000+ | .. | .. |
| **Total** | **1,551** | **40·02** |

**Castes Population in the District**

| Main workers to total population | | | Marginal workers to total population | | | Total workers to total population | | | Non-workers to total population | | |

## BRIEF ANALYSIS OF VILLAGE AND TOWN DIRECTORY

### VILLAGE DIRECTORY

*Amenities available in the villages* : In the annexures immediately following this note, distribution of villages according to the availability of different amenities has been given in table 10. Table 11 shows proportion of rural population served by various amenities. Table 12 shows number of villages where amenities are not available within the villages but are available outside. Table 13 gives distribution of villages by distance ranges from the nearest town and availability of amenities. Table 14 gives distribution of villages by population ranges and amenities available. Amenitywise analysis is given below :—

(*i*) *Educational facilities* : Out of 1,551 villages in the district 1,336 villages (86.14 per cent) having 95.73 per cent of the rural population have educational facility i.e. have at least a primary school. However, 215 villages do not enjoy educational facility of any type within the village but avail from outside ; 210 villages avail within 5 kms. ; whereas 5 villages avail within 5—10 km. The distance ranges of villages from the nearby town enjoying this facility show that 406 villages (91.24 per cent) are within 5 km ; 822 villages (83.96 per cent) are within 6—15 km. 107 villages (85.6 per cent) are within 16—50 kms. and only 1 village (50.00 per cent) is 51+kms. Batala tahsil with 446 villages out of 482 villages has the highest percentage (92.53) followed by Pathankot (84.94 per cent) and Gurdaspur (82.31 per cent) tahsils. From the above description it could be inferred that educational facilities are wide spread in the rural areas of the district.

(*ii*) *Medical facilities* : Out of 1,551 inhabited villages 268 villages (17.28 per cent) have medical facilities such as Hospital, Dispensary, Maternity and Child Welfare Centre, Public Health Centre etc. The percenatge of villages enjoying medical facility is the highest (25.52) in Batala tahsil, followed by Pathankot (15.32 per cent) and Gurdaspur (12.57 per cent) respectively. In the district 35.41 per cent rural population avail medical facilities within the village, the highest percentage (41.99) is reported in Batala tahsil and the minimum (31.08 per cent) in Gurdaspur tahsil. Out of 1,283 villages having no medical facility, 1,132 avail within 5 kms. ; 145 villages within 5—10 kms. ; and the remaining 6 at a distance of 10+ Kms. When considered in the background of distance from the nearest town we find that the highest percentages (50.00) of villages are located at a distance of 51+ Kms. ; and the lowest (17.08 per cent) within 5 kms. It will be observed that villages located in the vicinity of towns generally avail medical facilities from the nearby towns of the district.

(*iii*) *Drinking water facilities*: All the 1,551 villages enjoy one or more than one types of drinking water facilities such as Handpumps Wells, Tubewells, Canals etc. Even though drinking water was available in cent per cent villages, 312 villages were identified where drinking water was either scarce or lacked health standards. In 142 villages (45.51 per cent) tapped water facilities were provided by the year 1980-81.

(*iv*) *Post and Telegraph facilities*: Out of 1,551 villages in the district as many as 264 villages constituting 17.02 per cent enjoy postal and telegraph facilities within the village itself. The percentage is the highest (22.20) in Batala tahsil, followed by Gurdaspur (14.77) and Pathankot (14.55 per cent) respectively. In the district 35.94 per cent of the rural population avail this facility within the village. The highest percentage (41.17) is reported in Batala, followed by Gurdaspur (33.68) and Pathankot (31.79) respectively. Out of 1,287 villages, wherein this facility is not available within the villages, in 1,212 villages it is available within 5 kms. ; in 66 villages within 5—10 kms. ; and in 9 villages it is available at a distance of 10+kms. Among the villages having postal and telegraph facilities the highest percentage (17.36) of villages are located within 6—15 kms from the nearest town, followed by 16.85 per cent and 15.2 per cent in the distance ranges 0—5 kms. and 16—50 kms. respectively. Further out of 264 villages having postal and telegraph facility, the highest number of villages (107) is in Batala tahsil, followed by Gurdaspur (101) and Pathankot (56) tahsils respectively.

(*v*) *Communication* : 320 villages constituting 20.63 per cent of the inhabited villages are served either with public transport system or good means of communications. The highest percentage (30.91) is reported in Pathankot tahsil, followed by Batala (24.07). Gurdaspur tahsil having 12.43 per cent villages trails far behind. 31.74 per cent of the rural population of the district is served by this facility. Pathankot tahsil has the highest percentage of population served (42.44 ; per cent), followed by Batala (32.31 per cent) and Gurdaspur (25.20 per cent) respectively. In 1229 villages this facility was not available. In 1,129 villages this facility has to be availed within —5 kms. in 94 villages with in 5—10 kms while in the remaining 6 villages at a distance of beyond 10 kms. As regards distribution of villages availing this facility we find that the highest percentage (50.00) of villages are located at a distance of 51+ Kms ; and the lowest percentage (18.49) at distance of 6—15 kms. The percentages in the other ranges are : 25.17 within 5 kms. and 20.8 within 16—50 kms. The highest per cent of villages (30.91) is in Pathankot tahsil.

(*vi*) *Approach by pacca road* : Out of 1,551 villages as many as 1,419 villages (91.49 per cent) are approachable by pucca roads. The highest percentage (95.64) is in Batala tahsil, wherein 461 villages out of 482 are connected with pucca roads, followed by Gurdaspur tahsil (91.96 per cent) and Pathankot (85.45 per cent) respectively. In the rural areas of the district 95.74 per cent of the population is served by pucca roads, the highest percentage being in Batala (97.46), followed by Gurdaspur (95.80) and Pathankot (92.98) respectively. Out of 1,419 villages, which are connected by pucca roads, the highest number of villages 908 (92.75 per cent) are situated 6—15 kms. from the nearest town; 405 villages (91.01 per cent) are located within 5kms. and 104 villages (83.2 per cent) within 16—50 kms. The remaining 2 villages (100.00 per cent) have the nearest town 51+ kms.

(*vii*) *Power Supply*: In the district cent per cent villages are electrified. This has been made possible after the implementation of crash programme of electrification undertaken some years back.

(*viii*) *Market/Hat* : Hats or periodical markets are neither popular in the state nor in the district. However, temporary markets are held at various places in the district on fairs and festivals. But these have no regular periodicity like monthly, fortnightly or weekly. Since the district is located on the international border, a good road net work has been provided. The only exception, however, is Chak Andhar which is located on the other side of Ravi. The road net work enables the villagers to make purchases locally or from the nearby towns in the district.

*Land use Pattern*: Table 15 gives distribution of inhabited villages tahsilwise according to land use pattern. The table shows that out of an area of 3,43,067 hectares, 75.85 per cent (2,60,216 hectares) is cultivable. Batala tahsil has the highest percentage (82.56) closely followed by Gurdaspur tahsil, Pathankot tahsil with a percentage of 58.98 per cent is at the bottom due to its having hilly terrain. The Upper Bari Doab Canal which takes off from Madhopur irrigates lands mostly in Batala and Gurdaspur tahsils but the district is not among the toppers in the state in the matter of area irrigated, as only 63.11 per cent area is irrigated. Batala tahsil with a percentage of 83.02 leads other tahsils followed by Gurdaspur with (63.39 per cent). Pathankot with 26.10 per cent irrigated area is at the bottom, as due to hilly and undulating terrain canal irrigation is of little use. However, irrigation through tubewells is becoming popular with the farmers. In the year 1979-80 there were 12,071 tubewells and 2,204 wells which were being used for Irrigation in the district.

*Staple Food*: Since after partition paddy is being grown in large areas. Therefore, people have started consuming rice. Wheat is the staple food of the people throughout the year. It is supplemented by maize in the winter months. The consumption of maize is, however, more popular in Pathankot tahsil as it is grown in abundance in the Barani hilly areas of the tahsil. Rice is popular in Batala and Gurdaspur tahsils but its consumption is generally restricted to summer months. The Missi Roti (mixture of wheat and gram flour) has lost its popularity because cultivation of gram has declined over the past few years. Moreover, the gram prices are quite high to put to other uses such as Besan and Dal making etc.

**TABLE 10**

**Distribution of Villages According to the Availability of Different Amenities**

| Serial No. | Name of tahsil | Number of inhabited villages | Number (With Percentage) of villages having one or more of the following Amenities | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | | | Education | Medical | Drinking Water | Post and Telegraph | Market/ Hat | Communication | Approach by Pucca Road | Power Supply |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 |

## TOWN DIRECTORY

### Urban Population :

Tables 16—20 appended to this note deal with this section.

Table 16 of the town directory shows decadal growth rate, density and sex ratio of urban population in the district and the State for 1951, 1961, 1971 and 1981 censuses. According to this table only 21.69 percent population of the district is urban as against 27.68 per cent of the state. The urban component of the population of the district has gradually increased over the years. In 1951 it was 18.82 per cent but increased to 21.69 per cent in 1981. During the last three decades 1951—1981 the net increase recorded in the district is +2.87 as against +5.96 of the state. It would thus be seen that this district lags behind in the matter of urbanisation, the reason being that this district is situated right on the Indo Pakistan border. Since partition three conflicts with Pakistan have scared away potential urban inhabitants as well as local residents to seek engagements elsewhere in the state.

### Growth Rate :

TABLE 16

Growth, Density and Sex-Ratio of Urban Population in the District in Relation to the State

| Census year | District | | | | | | State | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | Total population | Urban population | Percentage Urban population | Decadal percentage variation in urban population | Density (population per sq. km.) | Sex-ratio (No. of females per 1,000 males) | Total population | Urban population | Percentage Urban Population | Decadal percentage variation in urban population | Density (population per sq. km.) | Sex-ratio (No. of females per 1,000 males) |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 |
| 1951 | 851,046 | 160,158 | 18·82 | +70·96 | 2,669 | 802 | 9,160,500 | 1,989,267 | 21·72 | +20·02 | N.A. | 807 |
| 1961 | 980,879 | 188,983 | 19·27 | +18·00 | 3,150 | 803 | 11,135,069 | 2,567,306 | 23·06 | +29·06 | 40·90 | 817 |
| 1971 | 1,229,249 | 249,082 | 20·26 | +31·80 | 4,151 | 880 | 13,551,060 | 3,216,179 | 23·73 | +25·27 | 4,650 | 856 |
| 1981 | 1,513,435 | 328,268 | 21·69 | +31·79 | 5,295 | 903 | 16,788,915 | 4,647,757 | 27·68 | +44·51 | 3,835 | 865 |

Gurdaspur district has recorded an urban growth rate of 31.79 per cent as against 44.51 per cent of the state during the last decade 1971—81. The highest growth rate +70.96 per cent was, however, recorded in the district during the decade 1941—51 mainly due to settlement of Hindu and Sikh refugees from Pakistan. Since after partition Pathankot has recorded very rapid progress due to its strategic importance and the district's urban growth is attributable to that town singularly.

### Density :

The density or persons per sq. km. in urban areas has recorded a sizable increase from 4,151 in 1971 to 5,295 in 1981, whereas state figures show a decline from 4,650 in 1971 to 3,835 in 1981. The decline in state figures is attributable to increase in the urban areas. It would be noticed that density in urban areas in the district lagged behind the state densities in 1961 and 1971 but surpassed appreciably in 1981.

### Sex Ratio :

Sex ratio or number of females per thousand males in urban areas of the district has shown an increase from 802 in 1951 to 903 in 1981 as against 807 in 1951 to 865 in 1981 of the state. It would thus be seen that district population is more balanced than the state population.

### New Towns/Towns declassified :

TABLE 17

New Towns/Towns Declassified in 1981 Census

| Name of Towns | Population 1981 Census |
|---|---|
| 1 | 2 |
| (a) *Added* | |
| (i) Narot Jaimal Singh (N.A.C.) | 2,660 |
| (b) *Declassified* | NIL |

Table 17 shows that during the decade 1971—81 Narot Jaimal Singh with a population of 2,660 persons was added as a new town. However, no town in the district was declassified since 1971 census.

**Budget of the Towns :**

TABLE-18

**Per Capita Receipt and Expenditure in Towns**

| Class, name and civic status of the town | *PER CAPITA* | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | Receipt | | | Expenditure | | | | | |

Table 18 appended to this note shows *per capita* receipts and expenditure for 1978-79 for 11 towns of the district, column 1 of the table lists out class, name and civic status of the towns arranged alphabetically. It would be seen that there are 2 class I, 2 class III, 4 class IV, 2 class V and 1 class VI towns in the district. Out of 11 towns 10 have municipal committees and the remaining 1 has notified area committee. Columns 2 to 4 deal with receipts and give per capita total receipts through taxes and receipts from all other sources respectively, columns 5—10, however, deal with expenditure and give *per capita* total expenditure, expenditure on general administration, public health and conveniences, public works, public institutions and expenditure on other aspects on the expenditure side. A close scrutiny reveals that in 5 towns total receipts exceed total expenditure, whereas in the remaining 6 towns total expenditure exceeds total income. On the receipt side in 5 towns receipts from taxes exceed receipts from other sources, whereas in the remaining 6 towns, it is *vice versa*. On the expenditure side it would be seen that in case of Narot Jaimal Singh expenditure is incurred on general administration only whereas for other heads nil figures are shown. In three towns. (Dera Baba Nanak, Dinanagar and Fatehgarh Churian) the highest expenditure is incurred on general administration However, in 1 town (Qadian) the highest expenditure is made on public health and conveniences. In 2 towns (Batala and Sujanpur) the highest expenditure is incurred on public works. In 4 towns (Dhariwal, Gurdaspur, Pathankot and Sri Hargobindpur) the highest expenditure is incurred on other aspects. It may also be noted that in the case of 6 towns there is no expenditure on public institutions.

| III. Narot Jaimal Singh (N.A.C.) | .. | .. | 3·76 | 3·76 |
| VI. Pathankot (M.C.) | 0·09 | 0·36 | 0·82 | 1·82 |
| IV. Qadian (U.A.) | 0·61 | 1·83 | 0·61 | 2·43 |
| VI. Sri Hargobindpur (M.C.) | .. | 3·11 | 6·22 | 6·22 |
| IV. Sujanpur (U.A.) | 0·74 | 1·47 | 2·21 | 2·21 |
| **Total** | **0.40** | **0·97** | **0·94** | **2·01** |

Table 19 shows details of various types of schools per 10,000 population townwise by class, name and civic status of towns alphabetically arranged in the district. The table shows that number of higher secondary/inter/PUC/ Junior College is the highest in Dhariwal (1.64) followed by Fategharh Churian (1.07). Pathankot (0.09) reports the lowest figure under this category. However in 4 towns (Dera Baba Nanak, Dinanagar, Narot Jaimal Singh and Sri Hargobindpur there is no educational institution under this category. In the secondary/matriculation category the highest number is in Dhariwal (3.28) followed by Fatehgarh Churian (3.20), the lowest being in Pathankot (0.36). Narot Jaimal Singh reports nil figures under this category as this town has no institution under this category. In the Junior Secondary/Middle category, Batala town reports nil figures as the town has no institution of the type. Sri Hargobindpur (6.22) tops in this category followed by Dinanagar (3.82) and Narot Jaimal Singh (3.76). Qadian (0.61) stands at the bottom. In the primary category Sri Hargobindpur (6.22) tops, followed by Dera Baba Nanak (4.83), Batala (1.47) stands at the bottom. A close scrutiny of the figures reveals that large towns especially Pathankot and Batala are not well placed in the matter of educational facilities.

**Medical Facilities :**

TABLE 20

**Number of Beds in Medical Institutions in Towns**

| Class, name and civic status of the town | Number of beds in medical institutions per 1,000 population |
|---|---|
| 1 | 2 |
| I. Batala (U.A.) | 0·64 |
| V. Dera Baba Nanak (M.C.) | 4·02 |
| IV. Dhariwal (M.C.) | 12·04 |
| IV. Dinanagar (M.C.) | 0·76 |
| V. Fatehgarh Churian (M.C.) | 1·07 |
| III. Gurdaspur (M.C.) | 3·26 |
| III. Narot Jaimal Singh (N.A.C.) | 3·01 |
| I. Pathankot (M.C.) | 0·56 |
| IV. Qadian (U.A.) | 1·83 |
| VI. Sri Hargobindpur (M.C.) | 7·78 |
| IV. Sujanpur (U.A.) | 1·47 |
| **Total** | **1·62** |

Table 20 shows number of beds in medical institutions in the various towns of the district. It shows that maximum number of beds per thousand population is in Dhariwal (12.04), followed by Sri Hargobindpur (7.78), Dera Baba Nanak (4.02), however, occupies third place. Pathankot (0.56) is at the bottom, with Batala (0.64) in slightly better position.

**Slum Clearance :**

In Punjab no slum areas have been identified, although certain pockets have been separately identified here and there.

# PART XIII-A
# VILLAGE & TOWN DIRECTORY

# SECTION I VILLAGE DIRECTORY

## NOTE EXPLAINING CODES USED IN THE VILLAGE DIRECTORY

The village directory containing information about each village has been prepared for each tahsil in the ascending order of the census location code numbers, e.g., location code No. 17/11/3/22 means village No. 22 in tahsil No. 3 of district No. 11 of the State No. 17. It contains information relating to total area of the village in hectares, total population, No. of households, amenities available in the village i.e., educational, medical, drinking water, posts and telegarphs, communication, approach to village, nearest Town and distance (in kms.), and power supply. Besides it gives information regarding staple food, land-use i.e.area under different types of land use like forest, irrigated and unirrigated, cutivable and uncultivable land. This is further supplemented by the information on places of religious, historical and archaeological interest as also information on copies of newspaper coming in the village and number of motor cycles/scooters, cars/jeeps and tractors available in the village.

Information about the amenities available have been given in columns 5 to 10 of the directory.

(i) Educational facilities have been shown by adopting the following abbreviations :

| | | |
|---|---|---|
| P | = | Primary school |
| M | = | Junior Secondary or Middle School |
| H | = | Matriculation or Secondary School. |
| PUC | = | Higher Secondary/intermediate/pre-University/junior college. |
| C | = | College (graduate level and above)like Arts, Science, Commerce etc. |
| I | = | Industrial school |
| Tr. | = | Training school |
| AC | = | Adult literacy class/centre |
| O | = | Other Educational Institutions. These may include Sanskrit Pathshalas, Senior Basic School, Maktab, etc. |

Where figures like P(3), M(2), H(1) etc., occur these denote that the village has three primary, two middle and one matriculation or secondary school.

(ii) Medical facilities have been shown by the use of the following abbreviations :

| | | |
|---|---|---|
| H | = | Hospital |
| MCM | = | Maternity and Child Welfare Centre |
| MH | = | Maternity Home |
| CWC | = | Child Welfare Centre |
| HC | = | Health Centre |
| PHC | = | Primary Health Centre |
| PHS | = | Primary Health Sub-centre |
| D | = | Dispensary |
| FPC | = | Family Planning Centre |
| TB | = | TB Clinic |
| NH | = | Nursing Home |
| RP | = | Registered Private Practitioner |
| SMP | = | Subsidised Medical Practitioner |
| CHW | = | Community Health Worker |
| O | = | Others |

Number of institutions, if more than one in any village, have been given in brackets against each.

(iii) The types of the potable drinking water supply and the sources available in the village have been indicated by the following codes :

| | | |
|---|---|---|
| T | = | Tap Water |
| W | = | Well Water |
| TK | = | Tank Water |
| TW | = | Tubewell Water |
| HP | = | Hand Pump |
| R | = | River Water |
| F | = | Fountain |
| C | = | Canal |
| L | = | Lake |
| S | = | Spring |
| N | = | Nullah |
| O | = | Others |
| NA | = | Information not available. |

(iv) Post & telegraph facilities have been shown by adopting the following abbreviations :

| | | |
|---|---|---|
| PO | = | Post Office |
| TO | = | Telegaraph Office |
| PTO | = | Post and Telegraph Office |
| Phone | = | Telephone connection. |

(v) Communication facilities have been indicated by the following codes

| | | |
|---|---|---|
| BS | = | Bus Stop |
| RS | = | Railway station |
| NW | = | Navigable waterway (including river, canal, backwaters, etc.). |

Only public transport like bus, rail and waterway have been considered for this purpose.

(vi) *Approach to village*:—This refers to the state of road etc. leading to the village.

This has been indicated by the use of following codes :

| | | |
|---|---|---|
| PR | = | Pucca road |
| KR | = | Kacha road |
| NR | = | Navigable river |
| NC | = | Navigable canal |
| NW | = | Navigable waterway (other than river or canal). |

(vii) *Nearest town and distance*:—The distance in kms of the nearest town (whether located in the state or in another state) has been given in brackets under column 12.

(viii) *Power supply*:- For this purpose, the following codes have been used under column 13.

| | | |
|---|---|---|
| ED | = | Electricity for domestic purpose |
| EAg | = | Electricity for agriculture |
| EO | = | Electricity for other purposes like industrial, commercial, etc. |
| EA | = | Electricity for all purposes listed above. |

Information relating to places of religion, historical or archaeological interest is given under col Information on copies of newspaper coming in the village (N), motor cycles/scooters available in the village (M), cars/jeeps available in the village (C), and for tractors available in the village (T) is also furnished under clolumn 20. The numeral following the alphabet indicates the number of newspapers, motor cycles etc. Uninhabited villages. and the villages that have got merged in towns have also been shown under column 20(a).

(ix) *Land use*:—Break-up of area under different type of land use viz. forest, irrigated area, unirrigated area, culturable waste and areas not available for cultivation has been furnished under columns 15—19.

(*a*) *Forest*:—This includes all lands classed as forests under any legal enactment dealing with forests or administered as forests, whether state-owned or private, and whether wooded or maintained as potential forest land The area of crops raised in the forest and grazing lands or areas open for grazing within the forest should remain included under the forest area. If any portion of such land is not actually wooded but put to some agricultural. use, that portion is included under the appropriate heading of cultivated or uncultivated land. In some cases there are instances where patches of land put to agricultural use within statutorily notified forests are considered as forests by the revenue agency. These are treated as forests.

(*b*) *Irrigated and unirrigated land use*:—The two columns (cols. 16 and 17) cover all agricultural land and include net area sown with crops and orchards or net cropped area and also current and other fallows. The latter implied all lands which were taken up for cultivation, but are temporarily out of cultivation for a period of not less than a year and more than five years. The columns do not include gross area sown or gross cropped area. Net area sown thus represents the area sown with crops and orchards, counting areas sown more than once in the same year only once.

(*c*) *Culturable waste*:—This includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once, but not cultivated during the five years or more in succession. Such lands are either fallow or covered with shrubs and jungles which are not put to any use. These have been assessed or unassessed and are in isolated blocks or within cultivated holdings. Lands under thatching grasses, bamboo bushes and other groves for fuel, etc. which are not included under orchards or forests also come under this head. All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest area have been included in this column.

(*d*) *Area not available for cultivation*:—This column (Col. 19) includes land not available for cultivation such as barren, unculturable land and land put to non-agricutural use.

Land put to non-agricultural use stands for all lands occupied by buildings, roads and railways or under water e.g., rivers and canals and other lands put to use other than agricultural.

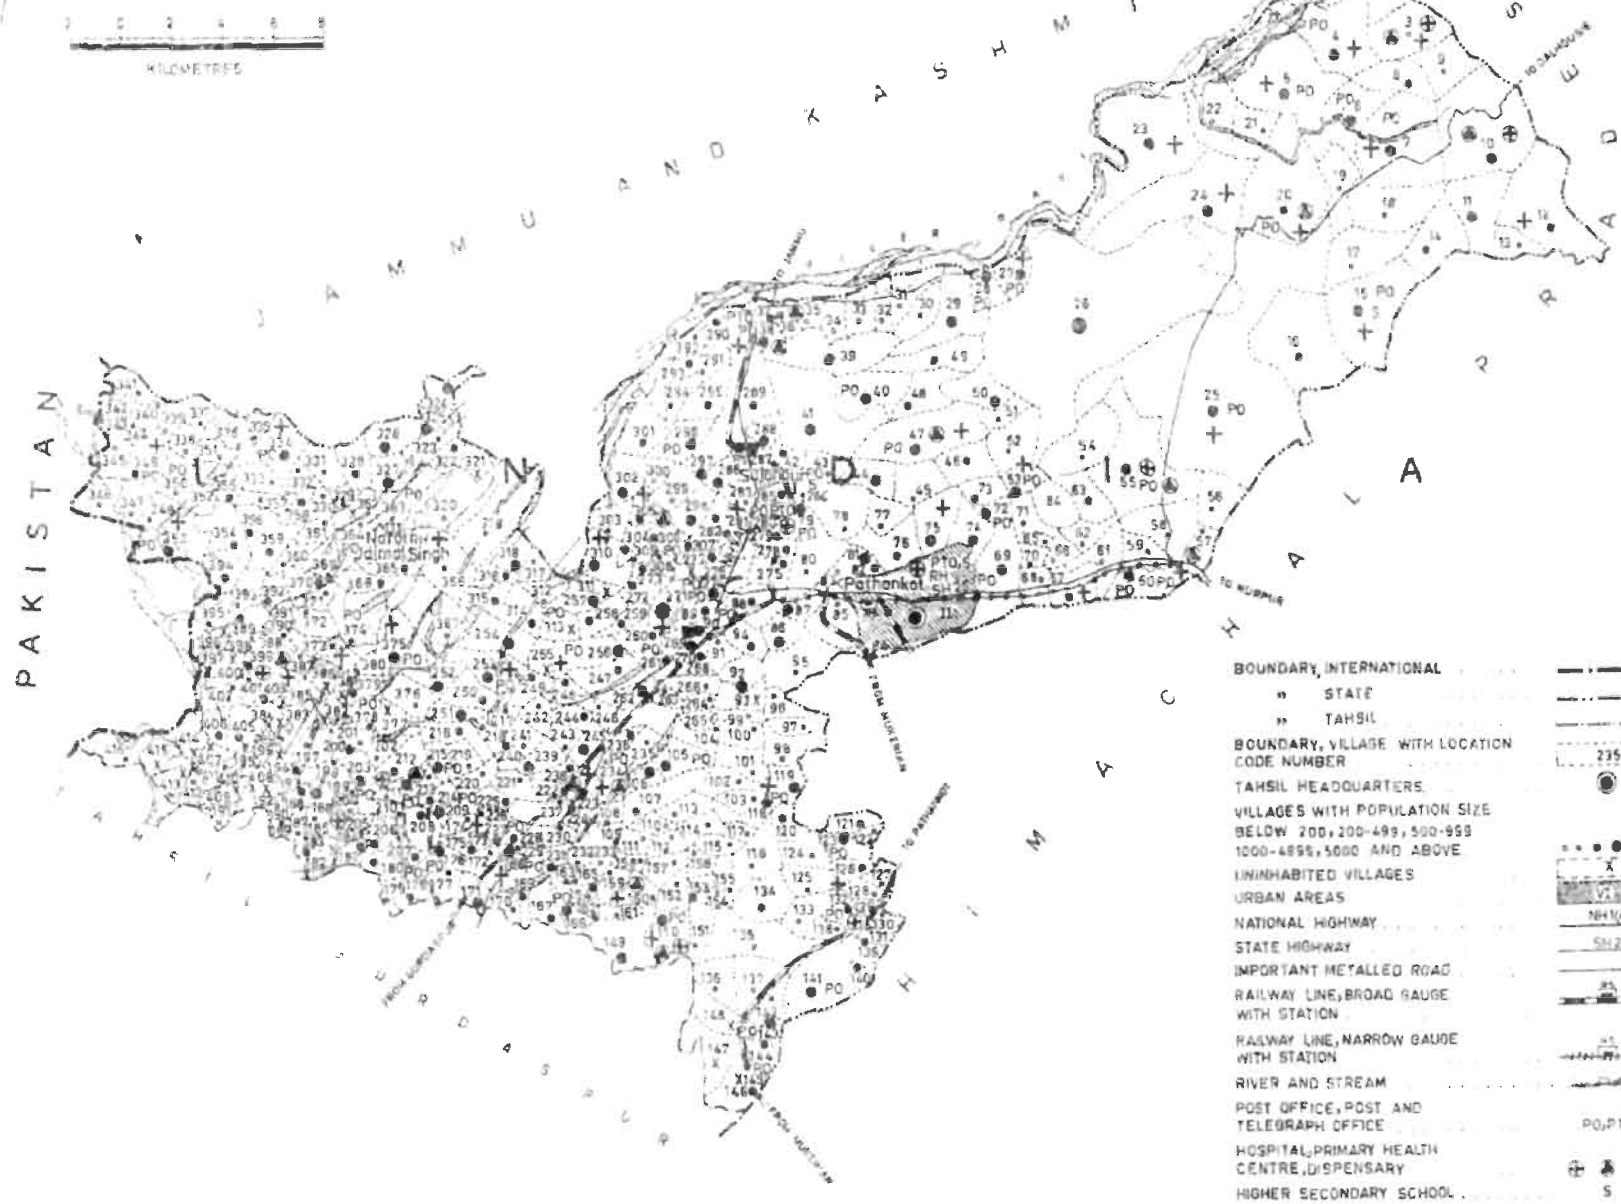

Barren and unculturable lands cover all barren and unculturable lands, like mountains, deserts, etc. Land which cannot be brought under cultivation, except at a very high cost, has been classified as unculturable, whether such land is in isolated blocks or within cultivated holdings.

## APPENDIX IV—VILLAGE DIRECTORY

**List of villages according to the proportion of Scheduled Castes to the total population by ranges**

GURDASPUR DISTRICT

PATHANKOT TAHSIL

| Ranges of Scheduled Castes Population (Percentages) | Sl. No. | Location Code No. | Name of village with Hadbast No. |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 0—5* | 1 | 1/1/36 | Gurah Khurd (360) |
| | | 282 | Sailli Bhauli (232) |
| | 3 | 308 | Gatora (204) |
| | 4 | 342 | Dhalatar (2) |
| 6—10 | 1 | 1/1/12 | Lohrun (419) |
| | 2 | 37 | Madhopur Chhauni (359) |
| | 3 | 102 | Mirzapur (320) |
| | 4 | 120 | Beli Chahngan (309) |
| | 5 | 125 | Talwara Gujjran (311) |
| | 6 | 149 | Chuhan (277) |
| | 7 | 158 | Bhimpur (267) |
| | 8 | 196 | Gajju Khalsa (114) |
| | 9 | 202 | Sanu Chak (109) |
| | 10 | 236 | Dhaloriyan (180) |
| | 11 | 274 | Malikpur (240) |
| | 12 | 301 | Buadrali (216) |
| | 13 | 307 | Asabano (205) |
| | 14 | 340 | Gohlah (13) |
| | 15 | 405 | Akhwara (119) |
| 11—15 | 1 | 1/1/3 | Dohkaniyali (407) |
| | 2 | 7 | Bhamlada (410) |
| | 3 | 25 | Hara (394) |
| | 4 | 35 | Saddoli (361) |
| | 5 | 40 | Ranipur (356) |
| | 6 | 51 | Jungath (371) |
| | 7 | 68 | Barsun (380) |
| | 8 | 84 | Shajlli (332) |
| | 9 | 116 | Simbli Gujjran (313) |
| | 10 | 129 | Jindri (304) |
| | 11 | 144 | Nalonga (289) |
| | 12 | 174 | Salowal (157) |
| | 13 | 185 | Gande Pindi (141) |
| | 14 | 209 | Begowal (147) |
| | 15 | 220 | Malkana (174) |
| 11—15 | 16 | 1/1/242 | Naushahra (187) |
| | 17 | 245 | Balsua (190) |
| | 18 | 279 | Jhakhiar Lahrai (236) |
| | 19 | 387 | Firoza (54) |
| | 20 | 411 | Samailpur (126) |
| 16—20 | 1 | 1/1/4 | Sarti (404) |
| | 2 | 8 | Barsudhal (409) |
| | 3 | 11 | Lanjera (417) |
| | 4 | 15 | Bhanguri (415) |
| | 5 | 16 | Narainpur (395) |
| | 6 | 17 | Jalahar (414) |
| | 7 | 20 | Har Kalan (400) |
| | 8 | 23 | Tharah Jhikla (391) |
| | 9 | 26 | Tarhari (396) |
| | 10 | 27 | Kot (398) |
| | 11 | 49 | Jindrai (368) |
| | 12 | 50 | Baroi (369) |
| | 13 | 53 | Karoli (374) |
| | 14 | 60 | Jandwal (382) |
| | 15 | 64 | Bhrortarwan (388) |
| | 16 | 86 | Daulatpur (331) |
| | 17 | 96 | Darsopur (325) |
| | 18 | 105 | Faridanagar (258) |
| | 19 | 109 | Bahladpur (263) |
| | 20 | 110 | Bassi Afghana (262) |
| | 21 | 118 | Najo Chak (317) |
| | 22 | 145 | Abadgarh (287) |
| | 23 | 160 | Wadala (269) |
| | 24 | 206 | Mohaiy-ud Dinpur (150) |
| | 25 | 233 | Saidowal (165) |
| | 26 | 235 | Dibku (179) |
| | 77 | 268 | Aima Gujjran (251) |
| | 28 | 288 | Bhanwal (227) |
| | 29 | 351 | Sarota (34) |
| | 30 | 410 | Kajley (127) |

*Excludes villages with nil S. C. Population.

# SECTION II
# TOWN DIRECTORY

## NOTE EXPLAINING THE CODES USED IN THE TOWN DIRECTORY

The town directory has been compiled in six different statements for all the urban areas of the district. The data on amenities and other aspects have been presented in codes which are explained below :.

*Statement I* :—gives the status and growth history of each town in the district.

Class has been introduced in all the statements of town directory to facilitate analysis for purposes of demographic and socio-economic characteristics of towns at thestate and all India levels. It has been presented according to 1981 census population of the core town in the following manner :

| *Population* | *Class* |
|---|---|
| 100,000 and above | I |
| 50,000—99,999 | II |
| 20,000—49,999 | III |
| 10,000—19,999 | IV |
| 5,000—9,999 | V |
| Below 5,000 | VI |

The civic administration status as in 1980 has been indicated by the following abbreviations. Census towns are regarded as having no civic status. Code (C.T.) has been used for census town.

| | | |
|---|---|---|
| Municipal Corporation | = | M. Corpn. |
| Municipal Committee | = | M.C. |
| Cantonment Board | = | C.B. |
| Notified Area Committee | = | N.A.C. |
| Census Town (S.A.S. Nagar Mohali and Talwara) | = | C.T. |

*Statement II* :—This gives for each town, physical aspects and location of towns.

*Statement III* :—This statement gives municipal finance for each town of the district.

*Statement IV* :—It gives civic and other amenities. The abbreviations used are indicated below :

(I) Road Length

| | | |
|---|---|---|
| PR | = | Pucca Road |
| KR | = | Kuccha Road . |

(II) System of Sewerage—

| | | |
|---|---|---|
| S | = | Sewer |
| OSD | = | Open Surface Drains |
| BSD | = | Box Surface Drains |
| SD | = | Sylk Drains |
| CD | = | Cesspool Method |

Pt = Pit system

(III) Method of disposal of night soil—

HL = Head Loads

B = Baskets

WB = Wheel Barrows

ST = Septic Tank Latrines

S = Sewerage

(IV) Protected water supply-source and capacity of storage systems: —

(a) Sources of water supply :

TW = Tubewell water/Hand pump

T = Tap water

W = Well water

TK = Tank water

(b) System of storage of water :

OHT = Overhead tank

SR = Service reservoir

RIG = River infiltration gallery

BWP = Borewell pumping system

PT = Pressure tank

*Statement V* :—This gives medical, educational, recreational and cultural facilities. The abbreviations used are indicated below :

Medical amenities :

H = Hospital

D = Dispensary

HC = Health Centre

FC = Family Planning Centre

TB = T.B. Clinic

NH = Nursing Home

O = Others

A = Ayurvedic

U = Unani

Hom. = Homoeopathic

In case of allopathic, no separate code has been given. The information in col. 4 on medical facilities has been presented horizontally in the same line as illustrated

H(A-1, 2) D(Hom-2, 1, U-1)

Here H(A-1, 2) represents one ayurvedic and 2 allopathic hospitals and D(Hom-2,1, U-1) represents 2 homoeopathic, one allopathic and one unani dispensaries. If the medical facility is not available in a town, name of the nearest place (if in the same district) or nearest district (if in the same state or other state and its distance from the town where the facility is available has been mentioned in column 4.

**Educational amenities :**

The codes that have been used are as follows :

| | | |
|---|---|---|
| A | = | Arts only |
| S | = | Science only |
| AS | = | Arts and Science only |
| C | = | Commerce only |
| AC | = | Arts and Commerce only |
| ASC | = | Combined for all categories, Arts, Science and Commerce. |
| L | = | Law |
| SH | = | Shorthand |
| Type | = | Typewriting |
| Sh. Type | = | Shorthand and Typewriting |
| O | = | Others |
| P | = | Primary school |
| M | = | Junior secondary or middle school |
| H | = | Matriculation or Secondary |
| PUC | = | Higher secondary/intermediate/pre-university/junior college/'10+2' system whether held in school or college. |

If there are more than one institutions of a type in the town, their number has been given against each in brackets.

If any educational facility is not available in the town the name of nearest place (if in the same district) or the name of nearest district (if in the same state) or other state and its distance from the town where this facility is available has been given in brackets.

**Recreational and cultural facilities :**

The following codes have been used :

| | | |
|---|---|---|
| PL | = | Public library |
| RR | = | Reading room |

**Statement VI :** This gives information on trade, commerce, industry and banking for each town of the district.

Appendix to the town directory shows towns of the district which have outgrowths and population of outgrowths.

PART XIII—B

Primary Census Abstract (General)

Primary Census Abstract (Scheduled Castes)

## PART B

## PRIMARY CENSUS ABSTRACT (GENERAL)

### Primary Census Abstract (Scheduled Castes)

### EXPLANATORY NOTE ON PRIMARY CENSUS ABSTRACT

The Primary Census Abstract (PCA) General and Scheduled Castes provides the basic information relating to population data pertaining to 1981 Census. It contains the data in respect of area , number of occupied residential houses and households, total population (inculding institutional and houseless population), population break up by sex, scheduled castes, literates, main workers classified into four categories of cultivators, agricultural labourers and other workers, marginal workers and non-workers for each village and for each town/wardwise.

The district totals given at the beginning of the PCA are followed by break up of rural and urban areas of the district. The data are presented tahsilwise.

The rural PCA presents the data for the villages arranged in ascending order of location code numbers (assigned to the villages within the tahsil). The urban PCA, presents wardwise data for each town. In rural PCA, the uninhabited villages and villages which have got merged in towns have also been indicated. It may be mentioned here that the PCA data provided here has been compiled on the basis of the basic schedules i. e., household schedule and the universal individual slip canvassed during 1981 census operations. The concepts and terms occuring in the PCA are briefly explained here.

**Census House :**

A census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

**Occupied Residential House :**

Occupied residential house is a dwelling house and includes a house used partly as a dwelling and partly for some other purpose like shop, workshop, factory, etc., but does not include a 'vacant house' where no person was found to be residing at the time of census.

**Household :**

A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, Jails, *ashrams*, etc. These are called 'Institutional households'. There may be one member households, two member households or multi member households. For census purpose, each one of these types is regarded as a 'household'.

Another type of household for census purpose is houseless household which is a household comprising of 'houseless person/persons'. A houseless person in census terminology has been defined as :—

(i) a person who might be doing domestic service or other work with one or more households but who does not reside in any house and sleeps in the corridors, verandahs or passages in buildings or in the streets ;

(ii) wandering or nomadic tribes found to be staying in temporary huts etc.; and

(iii) beggar, vagrant, tramp, sadhu, fakir, etc., who is found on the footpaths, streets, in places like parks, gardens, railway-yards, etc.

*Scheduled Castes* :—Scheduled Castes are such castes, races or tribes or parts of groups within such castes, races or tribes as are declared to be Scheduled Castes by the President of India's Orders issued under Article 314 of the Constitution of India.

**Literate :**

A person who can both read and write with understanding in any language has been taken as literate. A person who can merely read but cannot write, has not been considered as literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

All children of the age of 4 years or less have been treated as illiterate even if the child has been going to a school and might have picked up reading and writing a few odd words.

**Workers and Categories of Workers :**

Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work.

In the economic questions, canvassed in 1981 census, there has been some difference. The 'work' concept in 1961 and 1971 censuses, as opposed to the 'income' or 'economic independence, concept of the earlier censuses was adopted for 1981 census, but the criterion for classification of persons as workers was changed. While in 1961 and 1971 censuses different approaches, namely, usual status and current status, were adopted with reference period of one year and one week for seasonal and for regular work respectively, at the 1981 census the usual status approach was adopted uniformly for all work.

In 1961, a person qualified as a worker if he had worked regularly during the last season or if he had worked at least for a day in regular (non-seasonal) work during the proceeding fortnight. At the 1971 census a person was treated as a worker only if he spent his time mainly in work or if he worked at least for a day in regular (non-seasonal) work during the preceding week. The dichotomy of worker/non-worker of 1961 and 1971 censues was discarded at the 1981 census and instead a trichotomy of main workers, marginal workers and non-workers was adopted. For main worker the time criterion of engagement in work for the major part of the year, i.e., at least 183 days was adopted Those who worked for some time during the last year but not for the major part were treated as marginal workers. Those who had never worked during the last year were non-workers. This trichotomy partially permits a comparability of 1981 census economic data with that of 1971 as well as 1961. The main workers of 1981 census can be expected to correspond to the workers of 1971 and the main workers and marginal workers of 1981 together to correspond to the workers of 1961.

**Classification of Main activity :**

The main activity of workers has been classified into four categories, viz., cultivator, agricultural labourer, household industry and other workers . These terms are explained below :

**Cultivator :**

For purposes of the census, a person has been considered working as cultivator if he or she has been engaged either as employer, single worker or family workers in cultivation of land owned or held from Govt. or private persons or institutions for payment in money, kind or share. Cultivation included supervision or direction of cultivation. It has been indicated by abbreviation 'C'

**Agricultural Labourer :**

A person who worked in another person's land for wages in money, kind or share has been regarded as an agricultural labourer. He/she had no risk in the cultivation but he/she merely worked in another person' land for wages. An agricultural labourer had no right of lease or contract on land on which he/she worked. It has been indicated by abbreviation 'AL'.

**Household Industry :**

Household industry has been defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lived in urban areas. The larger proportion of workers in a household industry constituted of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act.

For a person who has returned his/her main activity as engaged in some production, processing, servicing or repair of articles or goods such as handloom weaving, dyeing, carpentary, *bidi* rolling, pottery manufacturing, bicycle repairing, blacksmithy, tailoring, etc., it has been ascertained if it is a household industry, and if so, it has been indicated by the abbreviation 'HHI' in the space provided for.

**Other Workers :**

All workers, i.e., those who have been engaged in some economic activity during the last one year, have not been categorised as cultivators or agricultural labourers or in household industry, are 'other workers' 'OW'. The type of workers that come under the category of 'OW' include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work all government servants, municipal employees teachers, priests, entertainment artistis, etc.

| 147. | **Ward No. 23** :—Residence of Lal Chand to residence of Gurmeet Chand, H. No. 1 to 36. |
| 148. | **Ward No. 23** :—House No. 193 i.e. vacant to residence of Banta Singh, H. No. 193 to 213. |
| 149. | **Ward No. 23** :—Residence of Buta Singh to residence of Bawa, H. No. 1 to 123. |

## ANNEXURE TO APPENDIX

**Name of charge :—Batala M. C.** *concld.*

*Description of Enumeration Blocks*

Block No.

150. **Ward No. 23 :**—Residence-cum-cattle Shed to vacant house, H. No. 1 to 16.

151. **Ward No. 23 :**—Residence of Karnail Singh to residence of Surat Singh, H. No. 1 to 82.

152. **Ward No. 23 :**—H. No. 1 to 56.

**Name of charge :—Qadian M.C.**

*Description of Enumeration Blocks*

1. **Ward No. 1 :**—Workshop to residence of Buta Ram, H. No. 1 to 100.

2. **Ward No. 1 :**—Residence of Gurnam Singh to cattle-shed, H. No. 1 to 158, residence of Nirmal Singh to residence of Charan Das, H. No. 159 to 189.

3. **Ward No. 2 :** -Shop to Markfed Office, H. No. 12 to 21, residence of Megh Raj to residence of Amar Singh, H. No. 22 to 37, Residence of Sai Dass to Residence of Bela Ram, H. No. 39 to 122.

4. **Ward No. 2 :**—Residence of Swaran Singh to residence of Rashid, H. No. 1 to 11, residence of Baryam Singh in H. No. 38, Residence of Tara Chand to Cattle Shed, H. No. 123 to 212.

5. **Ward No. 3 :**—Veterinary Hospital to residence of Dr. Harvans Singh, H. No. 1 to 132.

6. **Ward No. 3 :**—Cattle Shed to Atta Chakki, H. No. 133 to 193, Atta Chakki to vacant house, H. No. 194 to 279.

7. **Ward No. 4 :**—Tubewell to Gurdwara, H. No. 1 to 113, residence-cum-Khadi to residence of Mohinder Singh, H. No. 114 to 162.

8. **Ward No. 4 :**—Residence of Ashok Kumar to Food Supply Office, H. No. 163 to 251, Octroi Post to vacant house, H. No. 252 to 256.

9. **Ward No. 5 :**—Residence of Amar Singh to Police Station, H. No. 1 to 16, Committee house to residence of Kant Ram, H. No. 17 to 142, residence of Joginder Pal to residence of Mohinder Singh H. No. 180 to 186, Residence of Gurbachan Singh to residence of Smt. Sudarshna, H. No. 214 to 218.

10. **Ward No. 5 :**—Residence of Mangal Das to residence of Chiman Lal, H. No. 143 to 179, house of Jit Lal to house of Sham Lal, H. No. 187 to 213, Residence of Pritam Singh to Workshop, H. No. 219 to 301.

11. **Ward No. 6 :**—Co-operative Society Office to Cattle Shed, H. No. 1 to 118.

12. **Ward No. 6 :**—Ice Factory to Tubewell, H. No. 119 to 204.

13. **Ward No. 7 :**—Residence of Manjur Ahemad to Girls School, H. No. 1 to 166, Treasury Office to Godown, H. No. 167 to 228.

14. **Ward No. 7 :**—Residence of Nazir Ahemad to residence of Basir Ahemad , H. No. 47 to 136, Residence of Alam Singh to Octroi Post, H. No. 229 to 235, residence of Chanan Kaur to residence of Pritam Singh, H. No. 236 to 286.

15. **Ward No. 8 :**—Mandir to residence of Tara Singh, H. No. 1 to 120, Shop to Shop, H. No. 206 to 241.

16. **Ward No. 8 :**—Residence of Chaman Lal to Shop, H. No. 121 to 205, Shop to residence of Bhim Sain, H. No. 242 to 311.

17. **Ward No. 9 :**—Shop to residence of Girdhari Lal, H. No. 1 to 106, shop to vacant house, H. No. 222 to 267.

18. **Ward No. 9 :**—House No. 107 i.e. vacant to shop in house No. 221, Residence of Sardari Lal to vacant house, H. No. 268 to 312.

19. **Ward No. 10 :**—Residence of Mirza Manvar Ahemad to residence of Tarsem Lal, H. No. 1 to 82.

## ANNEXURE TO APPENDIX

**Name of charge :—Qadian M. C.** *concld.*

*Description of Enumeration Blocks*

B lock No.

20. **Ward No. 10 :**—Residence of Madho to Poultry farm, H. No. 83 to 213.

21. **Ward No. 11 :**—Atta Chakki to School, H. No. 1 to 35, residence of Pal Das to residence of Mangal Dev Raj, H. No. 36 to 70, Hotel to Tractor Workshop, H. No. 300 to 323, Residence of Surjit Singh to Furniture Shop, H. No. 494 to 526.

22. **Ward No. 11 :**—Residence of Thakur Anchal Singh, Utensil Shop, H. No. 71 to 176, Broker Shop to Karyan Shop, H. No. 234 299.

23. **Ward No. 11 :**—Utensil Shop to Sweet Shop, H. No. 176 to 233, Vegetable Shop to Kharadia Shop, H. No 324 to 380, Cycle Shop to Octroi Post, H. No. 527 to 547.
