SECRETARIAT PRESS, BIHAR, PATNA
1956

[*Price–Rs. 5*]

PREFACE

This Handbook contains mainly statistical data and is not intended to replace the District Gazetteer which gives a comprehensive account of the district in narrative form. Most of the statistical tables included in the volume are based on materials collected in the 1951 census, but some non-census statistics have also been included and a brief introduction to the district has been furnished in order to enable readers to follow the statistical tables without much difficulty.

2. Before this, District Handbooks containing important census tables and other statistics were published in 1905 and 1916 in the form of statistical supplements to District Gazetteers These Handbooks did not contain any statistics relating to individual villages. Madras and certain other provinces and Indian States published village statistics of some districts at the 1921, 1931 and 1941 censuses. In Bihar also, there were proposals in 1921 and 1931 for publishing similar statistics, but they did not materialise. The idea of publishing Handbooks like this containing both district tables and statistics of area, population, literacy and livelihood pattern for each village besides other useful statistics relating to the district owes its inception to Shri R. A. Gopalaswami, I. C. S., Census Commissioner of India in 1951. This recommendation was readily accepted by the Government of Bihar who have sanctioned the publication of the Handbooks at their own cost.

3. As already indicated, detailed statistics for villages were not compiled for any district in Bihar before this. The task was formidable, and the compilation and editing had to be done within a limited time simultaneously with the preparation of the State census tables and report. Every effort has been made to ensure correctness and accuracy of the data and, though there are shortcomings, it can be fairly claimed that this Handbook removes a long-felt want for a book of reference containing the basic statistical information for the district and small units down to the mauza.

4. The compilation of the census statistics included in this volume was done in the Chotanagpur Tabulation Office at Hazaribagh under the able guidance of Shri Rameshwar Nath, Joint Superintendent of Census Operations, Bihar who has also supervised the work of printing and publication of this volume. I desire to acknowledge my obligation to him and the staff who helped in the work and particularly to the persons named in the margin for the care and interest taken by them in the work of compilation and checking of statistical material. Lastly, but very far from the least, my thanks are due to Shri S. N. Chatterji, Superintendent, Secretariat Press, Bihar and his staff for the care and interest shown in the printing and publication of this Handbook.

1. Shri Ram Bahadur Singh, Technical Assistant.
2. Shri Mahendra Shanker Sahay, Supervisor.
3. Shri Shree Narain Prasad, Tabulation Clerk.
4. Shri Chaitanya Charan Naik, Tabulation Clerk.

SCHEME OF TABLES

The following tables in this Handbook are based on the 1951 Census :—

A—General Population Tables—

I. Area, Houses and Population
II. Variation in population during fifty years
III. Towns and villages classified by population
IV. Towns classified by population with variation since 1901
V. Towns arranged territorially with population by Livelihood Classes

B—Economic Tables—

I. Livelihood Classes and Sub-Classes
II. Secondary Means of Livelihood
III. Employers, Employees and Independent Workers in Industries and Services by Divisions and Subdivisions

C—Household and Age (Sample) Tables—

I. Household (size and composition)
II. Livelihood Classes by Age Groups
III. Age and Civil condition
IV. Age and Literacy
V. Single Year Age Returns

D—Social and Cultural Tables—

I. Language
II. Religion
III. Scheduled Castes and Tribes
IV. Migrants
VII. Livelihood Classes by Educational Standards

E—Summary figures for Subdivisions, Revenue Thanas and Police-Stations

2. The A, B, D and E series of tables are all based on total count ; the C series tables have been prepared from a 10% random sample of the Census Slips.

3. *Census Tracts*—Reference to Census Tracts will be found in a large number of tables. Census Tracts were formed mainly for the convenience of distribution of work among sorting and compilation teams. In most cases, they correspond to Revenue Thanas. A list of Census Tracts is given below with names of Revenue Thanas and Police-Stations included in each.

Number and Name of Tract	Name of the Corresponding Revenue Thana	Name of the Police-Station included in the Tract
1	2	3
210. Chaibassa-Manjharri (excluding Chaibassa town)	Kolhan (Part)	(1) Chaibassa (2) Manjhari
211. Jhinkpani-Majhgaon	Kolhan (Part)	(1) Jhinkpani (2) Majhgaon
212. Manoharpur-Kolhan (excluding Manoharpur, Gua and Noamundi towns)	Manoharpur and Kolhan (Part)	(1) Manoharpur (2) Jamda
213. Chakradharpur (excluding Chakradharpur town)	Chakradharpur	(1) Chakradharpur
214. Seraikela-Kharsawan (excluding Seraikela and Kharsawan towns)	Seraikela Subdivision ..	(1) Seraikela (2) Kharsawan (3) Kandra (4) Gobindpur
215. Ghatsila (excluding Jamshedpur City)	Ghatsila (Part)	(1) Golmuri (2) Jugsalai (3) Potka
216. Ghatsila (excluding Musabani and Maubhandar towns)	Ghatsila (Part)	(1) Ghatsila (2) Chakulia (3) Baharagora
217. Singhbhum District Non-City (Urban)	..	(1) Chaibassa (2) Chakradharpur (3) Manoharpur (4) Gua (5) Noamundi (6) Seraikela (7) Kharsawan (8) Musabani (9) Maubhandar
218. Jamshedpur City	Ghatsila (Part)	(1) Jamshedpur N. A. Committee (2) Jugsalai Notified Area Committee (3) Tatanagar B. N. Rly. Colony

4. *Rural Statistics*—These are also based on Census data.

5. *Other Statistics*—Other statistical tables are based on materials obtained from different departments. Every possible effort has been made to ensure correctness of the data. The sources from which the figures have been obtained, have been indicated briefly in notes appended to the tables, where necessary.

PART I

A-I—AREA, HOUSES AND POPULATION

This table shows for the District and for each Subdivision, the area, the number of towns and villages, the number of occupied houses, and the total, urban and rural population, male and female.

2. The total area of the District has been shown in this table as 4,475 square miles only. This has been arrived at by totalling the area figures of constituent units, e. g., police-stations. The Surveyor-General of India has reported the area of the district as 4,508 square miles. The difference between the two figures is not large and can be ignored.

3. "Villages" in column 3 mean revenue villages or mauzas other than those which are wholly absorbed in towns, and uninhabited mauzas.

4. "Houses" in columns 5, 6 and 7 mean buildings or homesteads with separate main entrances, and not commensaral houses.

5. The urban population of the district is 288,917 and urban-rural ratio is 1 : 4.

DISTRICT and SUBDIVISION	Area in square miles	Village	Towns	Occupied Houses			Population

B-III—EMPLOYERS, EMPLOYEES AND INDEPENDENT WORKERS IN INDUSTRIES AND SERVICES BY DIVISIONS AND SUBDIVISIONS.

This table relates only to economically active persons whose principal means of livelihood is non-agricultural. Economically active persons are such self-supporting persons as derive their income from productive activities.

2. The scheme of classification adopted in this table is different from that of Tables I and II. Instead of the four non-agricultural classes, this table gives figures for industries and services classified under 10 Divisions and 88 Subdivisions.

3. Economically active persons shown in this table have been shown under three categories, namely (1) Employers, (2) Employees and (3) Independent workers. The numbers are separated by sexes as well as by urban and rural. Totals have been furnished for the district and for each tract. Tracts for which the total figures under a Division or Subdivision is nil, have not been shown under such Division or Subdivision.

4. Persons coming under non-agricultural livelihood categories, who derive their income otherwise than through productive activities and who are included under livelihood class VIII in Table B-I, do not appear in this table. Their numbers are given below in five sub-groups :—

	Males.	Females.
(*i*) Persons living principally on income from non-agricultural property.	..	..
(*ii*) Persons living principally on pensions, remittances, scholarships and funds.	..	..
(*iii*) Inmates of Jails, asylums, alms houses and recipients of doles.	..	..
(*iv*) Beggars and vagrants	582	727
(*v*) All other persons living principally on income derived from non-productive activity.	..	..

The total of all industries and services in this Table *plus* the total of sub-groups mentioned above is equal to the total number of self-supporting persons of all non-agricultural classes in Table B-I.

5. The scheme of classification adopted in this Table is based on the Occupational Scheme of the 1931, census but fairly extensive changes have been made with a view to simplify and improve the method of presentation and to secure comparability of data with the International Standard Industrial Classification adopted by the United Nations Organisation.

C—HOUSEHOLD AND AGE (SAMPLE) TABLES

In this series, there are five tables :—

C-I—Household (size and composition) ;

C-II—Livelihood Classes by age Groups ;

C-III—Age and Civil conditions ;

C-IV—Age and Literacy ;

C-V—Single Year Age Returns.

2. All these tables are based on samples extracted from census slips or National Registers. Except in case of Table C-I., the samples were selected on a random basis by taking every sixth slip of each village as the first sample and every tenth slip thereafter. The method of extraction of sample for Table C-I. is explained in explanatory note appended to that Table.

3. Age means number of completed years on the 1st March, 1951.

4. The size of the sample on which tables C-II to C-V. are based is shown below :—

Persons	Males	Females
9.4	9.4	9.3

C-I.—HOUSEHOLD (SIZE AND COMPOSITION)

This table shows the distribution of sample household by size, composition of sample households by family relationship and age group (infants, non-adults) and the pattern of civil condition in sample households of the district with rural and urban break up.

2. A 'household' includes all the persons living together in the same house and having a common mess.

3. One household in every twenty-five was taken as a sample. The samples were selected from National Registers of Citizens. The first sample was obtained by dividing the number of households in each village or townward by 25 and adding one to the remainder. Every 25th household thereafter was taken as a sample.

The sample households so selected were then divided into two sets ; the first, third, fifth, and so on, sample household in one set and the second, fourth, sixth, and so on in the other. Figures in the table are the mean of the figures obtained from the two sets.

C-I.—HOUSEHOLD (SIZE AND COMPOSITION)

District	Total Population			Sample Houses holds					
				Total Number of Sample house-holds	Sample Household Popu-lation			Size of Households	
								Small	
								3 members or less

C-IV—AGE AND LITERACY (SAMPLE TABLE)

This table shows the number of literate and illiterate males and females by age-groups for the District with break-up for rural and urban. The test prescribed for literacy was ability to read and write a simple letter.

2. The size of the sample taken, and the manner in which it was extracted have been explained in the introductory note to C Tables.

3. The number of males and females who can only read but cannot write is shown below by age-groups :—

Age and literacy	Males	Females
5—14	797	321
15—24	1,089	296
25—34	513	136
35—44	814	65
45—54	797	50
55—64	96	65
65—74	23	42
75 and over	11	22

D—SOCIAL AND CULTURAL TABLES

In this series, there are five tables—

D-I—Languages :

(*i*) Mother Tongue

(*ii*) Bilingualism

D-II—Religion

D-III—Scheduled Castes and Scheduled Tribes

D-IV—Migrants

D-**VII**—Livelihood Classes by Educational Standards

D-I—LANGUAGE

(*i*) Mother Tongue

This table shows the number of persons—males and females—in the District speaking different languages as mother tongue. The different languages returned have been grouped for convenience of study and comparability with past census data under the following broad heads :—

(1) Indo-Aryan ;

(2) Munda ;

(3) Dravidian ;

(4) Other languages of India ;

(5) Asiatic languages foreign to India ; and

(6) European languages.

Within each group, the languages have been arranged according to the number of speakers.

2. As at past censuses, figures for Urdu have been shown with Hindi in the Table. There were 28,550 returns of Urdu.

3. As in 1931, a large number of languages have been returned as mother tongue although the number of speakers of some was small. Languages with small numbers have been clubbed together.

Languages	Number of speakers

D-I—LANGUAGE.

(*ii*) Bilingualism

This Table gives the number of persons who commonly use another Indian language in their everyday life in addition to (and sometimes largely in supersession of) their mother tongue.

2. Column 2 gives the total number of persons who have as their mother tongue the language mentioned in column 1. Column 3 shows the total number of persons from among those shown in column 2, who use a subsidiary language. The number of persons using different subsidiary languages has been shown in column 4 against each subsidiary language.

D-VII—LIVELIHOOD CLASSES BY EDUCATIONAL STANDARD

This table shows for the State and for each District the number of males and females of different livelihood classes who are literate or educated.

2. 'Literates' that is person who can read and write but have not passed the Middle or any higher examination, have been shown first. The number of persons who have passed the Middle and higher examination has been shown therefore separately for each grade or standard.

3. For arriving at totals for different standards, only such persons have been counted as have not passed a higher examination. Thus a person with the degree of Master of Arts or Science has been shown only under that head and not also under B. A. or B. Sc. or lower standards though he has no doubt also passed B.A., B.Sc., and lower examinations.

4. Persons who have passed examinations, such as, Prathama, Madhyama, Sahityaratna, Visharad, Alim-Fazil, etc., have been shown under "Others".
