PREFACE

This Handbook contains mainly statistical data and is not intended to replace the District Gazetteer which gives a comprehensive account of the district in narrative form. Most of the statistical tables included in the volume are based on materials collected in the 1951 census, but some non-census statistics have also been included and a brief introduction to the district has been furnished in order to enable readers to follow the statistical tables without much difficulty.

2. Before this, District Handbooks containing important census tables and other statistics were published in 1905 and 1916 in the form of statistical supplements to District Gazetteers. These Handbooks did not contain any statistics relating to individual villages. Madras and certain other provinces and Indian States published village statistics of some districts at the 1921, 1931 and 1947 censuses. In Bihar also, there were proposals in 1921 and 1931 for publishing similar statistics, but they did not materialise. The idea of publishing Handbooks like this containing both district tables and statistics of area, population, literacy and livelihood pattern for each village besides other useful statistics relating to the district owes its inception to Shri R. A. Gopalaswami, I C. S., Census Commissioner of India in 1951 who made a recommendation to this effect to all State Governments in March, 1951. This recommendation was readily accepted by the Government of Bihar who have sanctioned the publication of the Handbooks at their own cost.

3. As already indicated, detailed statistics for villages were not compiled for any district in Bihar before this. The task was formidable, and the compilation and editing had to be done within a limited time simultaneously with the preparation of the State census tables and report. Every effort has been made to ensure correctness and accuracy of the data and, though there are shortcomings, it can be fairly claimed that this Handbook removes a long-felt want for a book of reference containing the basic statistical information for the district and small units down to the mauza.

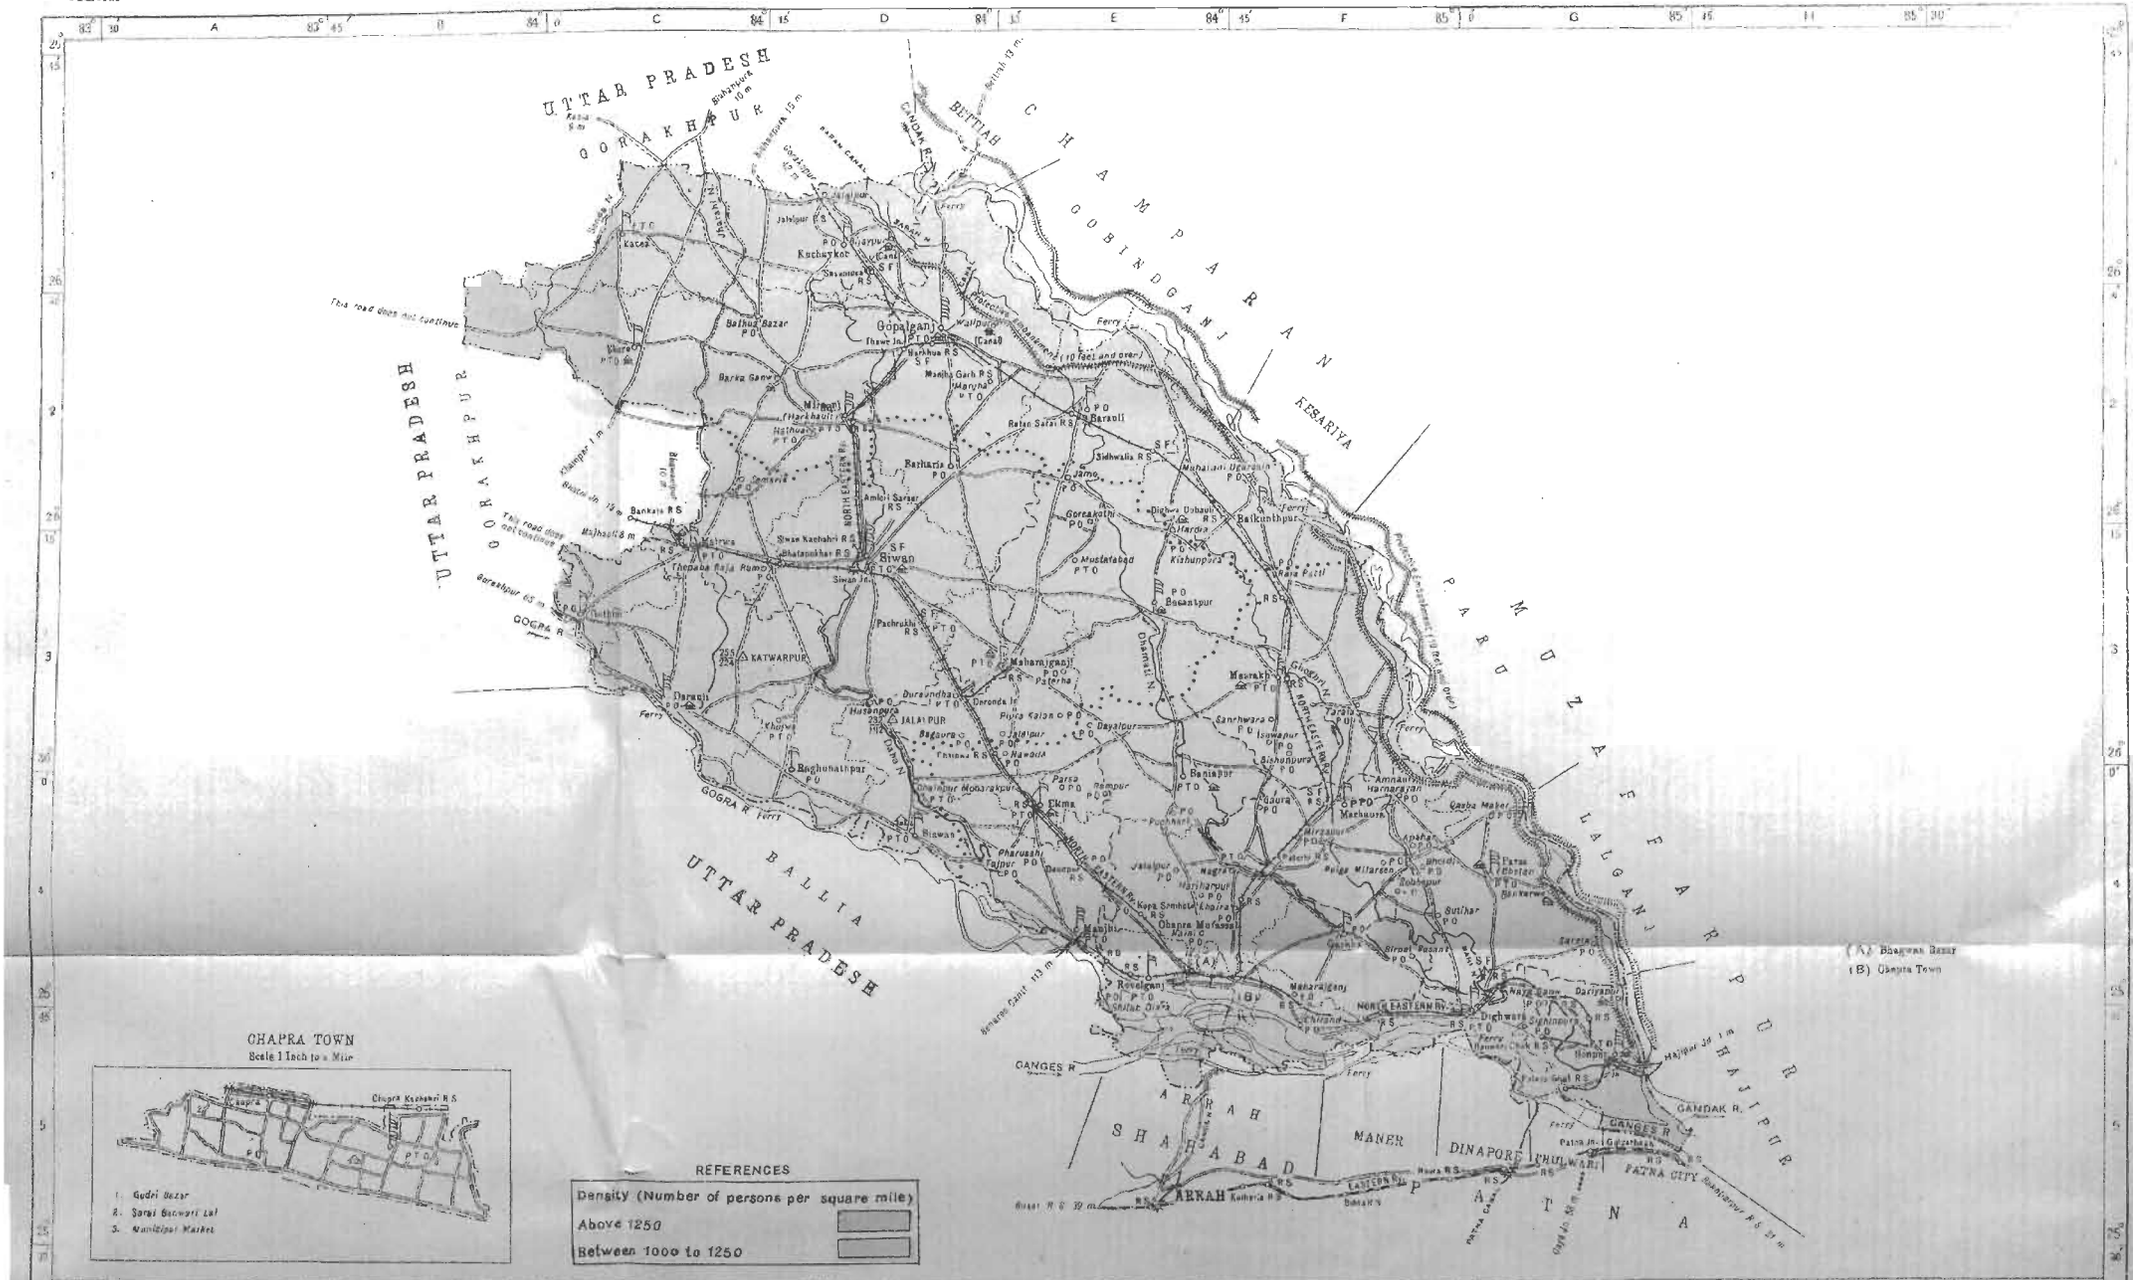

4. The tabulation of the Census Statistics included in this volume was done in the Tirhut Regional Tabulation Office at Muzaffarpur under the able guidance of Shri Kirit Prasad Sinha, Deputy Magistrate and Deputy Collector. I desire to acknowledge my obligation to him and the staff named in the margin for the care and interest taken by them in the work. My thanks are also due to Shri Rameshwar Nath, Deputy Magistrate and Deputy Collector who has helped in the editing of the non-census statistics and supervised the proof-reading. Lastly, but very far from the least, my thanks are due to Shri S. N. Chatterji, Superintendent, Secretariat Press, Bihar and his staff for the care and interest shown in the preparation and publication of this Handbook.

1. Shri Ram Vilas Singh, Technical Assistant.
2. Shri Ramavatar Prasad Sinha, Tabulation Clerk.
3. Shri Shree Krishan, Tabulation Clerk.
4. Shri Samrendra Mohan Sen Sharma, Tabulation Clerk.

59. Bhore, Katia and Kachaikot Police-Stations	Ditto	1. Bhore. 2. Katia. 3. Kachaikot.
60. Gopalganj and Barauli Police-Station (excluding Gopalganj town)	Gopalganj	1. Gopalganj. 2. Barauli.
61. Baikunthpur Police-Station	Ditto	1. Baikunthpur
62. All towns of Saran District (Chapra, Revelganj, Siwan, Mirganj and Gopalganj)		1. Chapra. 2. Revelganj 3. Siwan. 4. Mirganj. 5. Gopalganj.

4. *Rural Statistics*—These are also based on Census data.

5. *Other Statistics*—Other Statistical tables are based on materials obtained from different departments. Every possible effort has been made to ensure correctness of the data. The sources from which the figures have been obtained have been indicated briefly in notes appended to tables, where necessary.

PART I

A-I—AREA, HOUSES AND POPULATION

This table shows for the District and for each Subdivision, the area, the number of towns and villages, the number of occupied houses and the total urban and rural population, male and female.

2. The total area of the District has been shown in this table as 2,678 square miles only. This has been arrived at by totalling the figures of constituent units, e.g., Police-Stations. The Surveyor-General of India has reported the area of the District as 2,669 square miles. The difference between the two figures is not large and can be ignored.

3. "Villages" in column 3 mean revenue villages of mauzas other than those which are wholly absorbed in towns and uninhabited mauzas.

4. "Houses" in columns 5, 6 and 7 mean buildings or homesteads with separate main entrances and not commensaral houses.

5. The urban population of the district is 126, 158 and the urban-rural ratio is 1:24.

B-III—EMPLOYERS, EMPLOYEES AND INDEPENDENT WORKERS IN INDUSTRIES AND SERVICES, BY DIVISIONS AND SUBDIVISIONS

This table relates only to economically active persons whose principal means of livelihood is non-agricultural. Economically active persons are such self-supporting persons as derive their income from productive activities.

2. The scheme of classification adopted in this table is different from that of Tables I and II. Instead of the four non-agricultural classes, this table gives figures for industries and services classified under 10 Divisions and 88 Subdivisions.

3. Economically active persons shown in this table have been shown under three categories, namely, (1) Employers, (2) Employees and (3) Independent workers. The numbers are separated by sexes. Totals have been furnished for the district and for each tract. Tracts for which the total figure under a Division or Subdivision is nil, have not been shown under such Division or Subdivision.

4. Persons coming under non-agricultural livelihood categories, who derive their income otherwise than through productive activities and who are included under livelihood class VIII in Table B-I., do not appear in this Table. Their numbers are given below in five sub-groups :—

	Males.	Females.
(*i*) Persons living principally on income from non-agricultural property	..	..
(*ii*) Persons living principally on pensions, remittances, scholarships and funds.	25	..
(*iii*) Inmates of Jails, asylums, almshouses and recipients of doles ..	43	4
(*iv*) Beggars and vagrants	693	697
(*v*) All other persons living principally on income derived from non-productive activity.	9	6

The total of all industries and services in this Table *plus* the total of sub-groups mentioned above is equal to the total number of self-supporting persons of all non-agricultural classes in Table B-I.

5. The scheme of classification adopted in this Table is based on the occupational scheme of the 1931 census, but fairly extensive changes have been made with a view to simplify and improve the method of presentation and to secure comparability of data with the International Standard Industrial Classification adopted by the United Nations Organisation.

C.—HOUSEHOLD AND AGE (SAMPLE) TABLES

In this series, there are five Tables :—

C-I—Household (Size and Composition);
C-II—Livelihood Classes by age-groups;
C-III—Age and civil cond tions;
C-IV—Age and Literacy;
C-V—Single Year Age Returns.

2. All these Tables are based on samples extracted from census slips or National Registers. Except in case of Table C-I, the samples were selected on a random basis by taking every sixth slip of each village as the first sample and every tenth slip thereafter. The method of extraction of sample for Table C-I is explained in explanatory note appended to that Table.

3. 'Age' means number of completed years on the 1st March 1951.

4. The size of the sample on which Tables C-II to C-V are based is shown below :—

Persons	Males	Females

D—SOCIAL AND CULTURAL TABLES.

In this series, there are six Tables—

D-I—Languages
- (*i*) Mother-Tongue
- (*ii*) Bilingualism

D-II—Religion

D-III—Scheduled Castes, Scheduled Tribes, Other Non-scheduled Backward Classes and Non-backward Classes

D-IV—Migrants

D-VII—Livelihood Classes by Educational Standards

D-I—LANGUAGES

(*i*) Mother-Tongue

This table shows the number of persons—males and females—in the district speaking different languages as mother-tongue. The different languages returned have been grouped for convenience of study and comparability with past census data under the following broad heads :—

(1) Indo-Aryan ;
(2) Munda ;
(3) Dravidian ;
(4) Other languages of India ;
(5) Asiatic languages foreign to India ; and
(6) European languages.

Within each group, the languages have been arranged according to the number of speakers.

2. As at past censuses, figures for Urdu have been shown with Hindi in the Table. There were 128,065 returns of Urdu.

3. As in 1931, a large number of languages have been returned as mother-tongue although the number of speakers of some was small. Languages with small numbers have been clubbed together.

D-I—LANGUAGES

(*ii*) Bilingualism

This table gives the number of persons who commonly use another Indian language in their every day life in addition to (and sometimes largely in supersession of) their mother tongue.

2. Column 2 gives the total number of persons who have as their mother tongue the language mentioned in column 1. Column 3 shows the total number of persons from among those shown in column 2, who use a subsidiary language. The number of persons using different subsidiary languages has been shown in column 4 against each subsidiary language.

D-VII—LIVELIHOOD CLASSES BY EDUCATIONAL STANDARDS

This Table shows for the District and for each tract the number of males and females of different livelihood classes who are literate or educated.

2. 'Literates' that is persons who can read and write but have not passed the Middle or any higher examination, have been shown first. The number of persons who have passed the Middle and Higher examinations has been shown thereafter separately for each grade or standard.

3. For arriving at totals for different standards, only such persons have been counted as have not passed a higher examination. Thus person with the degree of Master of Arts or Science has been shown only under that head and not also under B. A. or B. Sc. or lower standards though he has no doubt also passed B. A., B. Sc. and lower examinations.

4. Persons who have passed examinations, such as, Prathama, Madhyama, Sahityaratna, Visharad, Alim-Fazil, etc., have been shown under "Others".
