Notes:

1 Total area figures given in column 3 against State and District represent 'Geographical' area figures supplied by the Surveyor General. Figures for Urban Areas are those supplied by the Local Bodies. Area figures for Rural Areas are derived by subtracting the Urban Area from the total area of the District. The total of the area figures of the Police Stations will not tally with the District figures because the former represents 'land use' area and are derived from the figures supplied by the State Director of Land Records.

2 The Density figures per Sq. Km. shown under col. 4 for Urban Area of State/District/Police Station are worked out using the area figures corrected upto two places of decimals obtained by the area of individual town in the respective Units and not using the area figures given in the Table. For 'Total' and 'Rural' the density is worked out on area figures corrected upto one place of decimal.

3 Towns treated as such for the first time in 1961 Census which continue as towns in 1971 Census are shown with asterisk (*) on their left.

4 Towns treated as such for the first time in 1971 Census are printed in *italics*.

5 ††These are the constituents of asansol Urban Agglomeration which is spread over Asansol and Hirapur Police Stations. Consolidated figures of Asansol Urban Agglomeration are given at the end as Annexure.

6 The following abbreviations have been used for the status of a Town.

M. Municipality N. M. Non-Municipal Town N. A. Notified Area
