Preface

The volume in the hands of the reader is in two parts—A and B.. Part A, which, besides the Introduction, contains 12 Chapters, has been designed to present tables, primarily from sources other than the 1961 Census. Part B contains an introductory Chapter and the Census data relating to the Village Directory, Primary Census Abstract, A-Series Tables which are general population tables, tables relating to the scheduled Castes and data relating to the number and Minor Groups of industries extracted from the 1961 Census Houselists.

The 1951 District Census Handbook of Delhi presented all the Census Tables relating to Delhi alongwith data from non-census sources. But at the present Census, as it is planned to bring out a separate volume containing the 1961 Census tables relating to the Union Territory of Delhi, we have confined ourselves to presenting in the present volume only the minimum number of Census tables as directed by the Registrar General, India.

The decade between the 1951 Census and the 1961 Census has been a decade of economic development through the process of planning. The present volume has been so designed as to understand and, if possible, to aid this process. The selection of the material incorporated in the tables in Part A has been made from the angle of serving the ends of economic development and planning.

The ends of academic research have also been kept in view in the preparation of this book. For the benefit of the research scholars, who may feel interested in studying the problems of the Union Territory of Delhi, tables have been prepared containing not only the absolute figures, but various percentages, ratios and indices also, so as to help them in drawing analytical conclusions. Attempts have been made to make it a worth-while reference book for them. They are, of course, the best judges as to the success or failure of the present venture.

The scholarly humility and depth of knowledge of Sri Asok Mitra, the Registrar General India, have left a deep imprint on us and inspired us to undertake works of this nature, conscious as we are of our limitations. The accomplishment of this task has been made possible as a result of the ungrudging cooperation and devoted labour of our colleagues whose names we have listed under Acknowledgments. We shall, however, be failiag on our part, if we do not make a particular mention of Sarvshri B. N. Mathur Head Assistant and Moti Ram Gupta Investigator of our office, who have been associated throughout with this work. Mr. N. N. Sharma, Investigator, who joined at a later stage, has also put in considerable hard labour.

Village Directory 1-173

Acknowledgments

Sarvshri B. N. Mathur, Moti Ram Gupta, Laxmi Narain Sharma, Raghu Nath Rai, Krishna Sehgal, Chhotey Lal Rohatgi and N. N. Sharma devotedly worked for the collection, compilation and processing of tables incorporated in part A of this volume. Census Tables in part B were prepared under the supervision of Shri B. M. Gupta and Shri S. D. Tripathi with the cooperation of all the members of the tabulation staff of our office.

To Lala Fakir Chand and Shri Kapur of the Library of Directorate of Economics and Statistics, Ministry of Food and Agriculture, Krishi Bhawan, we owe our special debt of gratitude for enriching the chapter on agriculture. Grateful thanks are offered to the Librarian and all the members of the staff of the Rattan Tata Library, Delhi School of Economics, University of Delhi, for supplying various books used by us.

The bulk of the typing work, which was done in a record time, fell on the shoulders of Mr. Jagdish Rai, our Stenographer. Miss Lalit Kumari and Shri B. R. Narula also typed a portion of the manuscript. Proof reading was done by Shree Moti Ram Gupta and Mr. Chhotey Lal Rohatgi.

Last, but not the least, Shri G. P. Mediratta has always helped us by giving valuable suggestions for the improvement of this volume.

Introduction

Predecessor to the Present Volume—A Brief Introduction

For purposes of historical continuity and comparability, it is fruitful to introduce the reader to the predecessor to the present volume prepared at the time of the 1951 Census. A District Census Handbook, Volume 27, for Delhi State was prepared as a document of Census of India, 1951, which was compiled by the then Deputy Superintendent of Census Operations, Chaudhry Rattan Singh, P.C.S., under the direct supervision and control of the Superintendent of Census Operations for the territories of Punjab, Pepsu, Delhi, Himachal and Bilaspur. In the 1951 Census, a decision was taken for the preservation of Census records and registers. Prior to 1951, the abstract (first prepared in the process of sorting and compilation of the census data) was used for compiling village statistics, which were retained as unpublished administrative records by some States and printed and published by others. But at the time of 1951 census, it was decided that census tables, census abstracts, primary census abstracts, occupational abstracts and census abstracts of Small Scale Industries, prepared during the process of sorting and compilation at District level, be bound in a single manuscript volume called the District Census Handbook, which was to be got printed and published by each State at their own cost. The 1951 District Census Handbook of Delhi State was thus compiled and published under the authority of the State Government in the year 1953..

The contents of the District Census Handbook of Delhi, 1951.

The District Census Handbook of Delhi, 1951, was compiled mainly on the basis of the data collected and tabulated in the office of the Deputy Census Superintendent, Delhi, regarding Delhi State, matter reproduced or extracted from District Gazetteer 1912, Census Report 1931 and notes supplied by the various heads of departments.

For purposes of the Census in 1951, the State of Delhi, which then consisted of only one district and one tehsil, as it does even now, was divided into these census tracts : rural, Delhi non-city urban, Delhi city urban and New Delhi city urban. The rural tract consisted of the villages in Delhi tehsil and Nazul area. The non-city (urban) comprised of Shahdara, Red Fort, Civil Station, N.A.C., West Delhi, Mahrauli, Najafgarh, Narela and Delhi Cantonment, including military area, Thus in the 1951 District Census Handbook of Delhi wherever the break-up of the figures according to tracts is shown, the data is given with reference to the above-mentioned four tracts alongwith data for 'Total Urban' and 'Total Delhi State.'

The contents of the INTRODUCTION part of the 1951 District Census Handbook of Delhi are listed as under :

CHAPTER I

(a) Physical aspects (including geology, climate, rainfall, flora and fauna)

(b) History

(c) Population

CHAPTER II

(a) Rural Development and cooperation

(b) Industries

(c) Means of communication and transport

CHAPTER III

(a) Administration
(b) Local and Municipal Bodies
(c) Education and Literacy
(d) Medical and public health

CHAPTER IV

(a) Rehabilitation of Displaced Persons
(b) Uplift of backward classes

CHAPTER V

(a) Archaeology
(b) Places of interest

CHAPTER VI

(a) Census Tracts and Divisions
(b) Tract Tables
(c) Census Abstracts
  (1) Primary Census Abstracts
  (2) Census Abstracts of small scale industries.

The census tables of the 1951 census incorporated in the 1951 District Census Handbook of Delhi are listed as under :

Table No.	*Subject*
A-I	Area, Houses and Population
A-II	Variation in Population during fifty years
A-III	Towns and villages classified by population
A-IV	Towns classified by population with variation since 1901
A-V	Towns arranged territorially with population by livelihood classes.
B-I	Livelihood classes and sub-classes (Total)
B-J	Livelihood classes and sub-classes (Displaced)
B-II	Secondary means of livelihood (Total)
B-II	Secondary means of livelihood (Displaced)
B-III	Employers, Employees and Independent workers (Total)
B-III	Employers, Employees and Independent workers (Displaced).
C-II	Livelihood classes by age groups (sample)
C-II	Livelihood classes by age groups (Displaced)
C-III	Age and Civil Condition (Sample)
C-III	Age and Civil Condition (Displaced)
C-IV	Age and Literacy (Sample)
C-IV	Age and Literacy (Displaced)
C-V	Single year age returns.
D-I	Mother Tongue
D-II	Religion
D-III	Scheduled Castes and Scheduled Tribes
D-IV	Migrants
D-IV	Subsidiary
D-V	Displaced persons by district of origin and date of arrival in India.

Table No.	*Subject*
D-VI	Non-Indian Nationals
D-VII	Livelihood classes by educational standards
E	Summary Figures
	District Index of Non-Agricultural Occupations
	Sorter's Ticket 2
	Census Abstracts :—
	(i) Primary Census Abstracts
	(ii) Census Abstract of Small Scale Industries*

The variation in the contents of the District Census Handbooks from State to State in 1951

The District Handbook series of Census of 1951 was one of the biggest achievements of the last census ; these series were expected to be continued in 1961 Census also. The 1951 series varied in content from State to State, depending upon the resources offered to the State Superintendent of Census Operations by the State Government. There was also the fact that the series was conceived a little late in the day so that the State Governments did not receive sufficient notice as to which kinds of information should be made available to the Census Superintendents and in what form.

Preparations in advance this time

Preparations much in advance of the actual census operations in 1961 were afoot in compiling the District Census Handbook. The Registrar General of India observed, as far back as August 1959, that if the State Government Departments received sufficient notice, they would try their best to help each State Census Superintendent to compile such information as they wanted to incorporate in the District Census Handbooks.

Efforts at a minimum programme of contents in each District Handbook in the 1961 series

Conscious efforts have been made to incorporate a minimum programme of maps, contents and tables for each volume of the District Handbook series of Census of 1961 in all the States and Union Territories etc. of India. However, in spite of the attempts at minimum programme of uniformity of contents for each District Census Handbook stipulated in the 1961 Census series, no rigidity of procedure was visualised and each State Census Superintendent was always welcome to incorporate any additional information that he may be interested in.

The utility of the District Census Handbook

The District Census Handbook which contains amongst other things, the basic economic data for the smallest unit in a district viz., village, (or a block in a town or city) is of immense use not only to the State and Central Governments and local bodies for their administrative purposes but also to educational and commercial bodies and to individual research scholars and research institutions.

Two broad categories of data contained in the present volume

The present volume cantains data which can be classified into the following two broad categories :—

(a) data collected from non-census sources

(b) census data.

Data collected from non-census sources is contained in Part A and Census data is primarily put in tables in Part B of the present volume.

**Note* : Material in this Section has been extracted from the Preface, Index and Delhi State, Introduction (contents) of the District Census Handbook, Delhi (1951).

The methods of collecting non-census data incorporated in the present volume

All feasible approaches were made to collect data and materials incorporated in the present volume. Whenever data was available from published sources, it was extracted from the same. Personal visits to the various heads of departments and institutions including the libraries of the various Ministries of the Government of India and of the Delhi School of Economics were made by the Superintendent of Census Operations himself and the trained personnel of his office so as to collect the data and other material incorporated in the Handbook. The concerned departments and institutions etc, were approached through letters by the Census Superintendent.

Introduction to the census tracts, charges, circles and blocks of the 1961 census

For the purposes of carrying out the actual census operations in 1961, it was necessary to delimit the Union Territory of Delhi into census tracts, charges, circles and blocks. The entire area of the Delhi Territory was first divided into four main tracts, namely New Delhi, Delhi Cantonment, urban area of the Delhi Municipal Corporation and rural area of the Delhi Municipal Corporation. The urban area of the Municipal Corporation was then divided into seven zones, which were coterminus with the seven administrative zones of the Corporation. These tracts and zones were divided into charges on the basis of the administrative wards of the local bodies, the size of each charge being so kept that it became a viable unit capable of being conveniently managed by one officer. The charges were further sub-divided into circles and the circles into blocks, a block being the lowest unit which one enumerator had to cover. An average of five or six blocks formed a circle and each circle was put in charge of a supervisor. Each enumerator was expected to cover on an average 750 persons in rural areas and 600 persons in urban areas.

There were thus 4 census tracts of the Delhi Territory as a whole, seven zones of the Delhi Municipal Corporation and 52 charges in urban Delhi and 10 charges in rural Delhi.

The map on the opposite page shows these delimitations quite distinctly.

A glimpse into the area covered by the 1961 census tracts and zones

As pointed out earlier in the previous paragraph, for the purposes of 1961 census enumeration, the Union Territory of Delhi was divided into four main tracts as follows :

1. New Delhi
2. Delhi Cantonment
3. Delhi Municipal Corporation (Urban) : This area was divided for 1961 census purposes, into seven well-defined zones as follows :

   Zone I – Shahdara (comprising old Shahdara city, Gandhi Nagar, Geeta Colony, Krishna Nagar, 31 small colonies and 6 urbanised villages)

   Zone II—City-Sadar-Paharganj (comprising walled city, Sadar Bazar, Paharganj and Red Fort)

   Zone III—Karol Bagh—Patel Nagar (comprising Karol Bagh, Anand Parbat, Patel Nagar, Kishanganj, Daya Basti, the Industrial Area of Najafgarh Road, and seven small colonies)

Zone IV - Civil Lines-Subzi Mandi (comprising Civil Lines, Subzimandi, inclusive of 5 separate areas, Narela, 49 new colonies and 5 urbanised villages)

Zone V—Transferred Area of New Delhi Municipal Committee (composed of 26 well-defined areas like Minto Road Area, Inder Prastha, Purana Qila, Jangpura Lajpat Nagar, Defence Colony, Seva Nagar, Yusaf Sarai, Rajinder Nagar etc.)

Zone VI—South Delhi (comprising Kailash Colony, Kalkaji, Malviya Nagar, Kotla Mubarakpur, Hauz Khas Enclave, Mehrauli, 9 small colonies and 26 urbanised villages)

Zone VII—West Delhi (comprising Tihar I and II, Moti Nagar, Tilak Nagar, Ramesh Nagar, Rajouri Gardens, Najafgarh, Central Jail, 43 small colonies and 15 urbanised villages.)

4. Delhi Municipal Corporation (Rural) : comprising 300 villages : Of these 300 villages, 24 were recorded in the 1961 census as uninhabited.

———

CHAPTER I

THE UNION TERRITORY OF DELHI—AN INTRODUCTION

What is the Union Territory of Delhi ?

Section II of the First Schedule of the constitution of India lists the names and extent of 6 Union Territories, Delhi being listed first in this list. Its extent has been given in these words:—

> "The territory which immediately before the commencement of this Constitution was comprised in the Chief Commissioner's Province of Delhi."

The Union Territory of Delhi is a narrow strip of the Indo-Gangetic plain, lying between 28°53′ north latitude and 78°90′ and 77°22′ east longitude. It is bounded on the North, West and South by Punjab, and on the East by Uttar Pradesh. The Yamuna river flows nearly by the side of its eastern border in a north-south direction.

The River Yamuna and the Drainage channels

The River Yamua and the floods

Considerable areas of the Alipur Development Block of Delhi Territory get affected every year by floods from the spill of river Yamuna. During the floods, the river Yamuna over-flows its banks and inundates the low lying areas of the eastern portion of the Alipur Block.

In addition to the flooding caused by the river Yamuna, erosion on its right bank has also been observed and villages such as Mohamadpur, Ramzanpur, Hiranki, Burari and Jagatpur have already been affected.

For providing relief from the spill of river Yamuna, the major flood protection works so far carried out in the Union Territory of Delhi are:—

(i) Shahdara bund from railway bridge to abi village in U. P. ;

(ii) Left marginal bund from railway bridge to Okhla weir ;

(iii) Shahalam bund from Wazirabad barrage to Coronation Pillar and from Coronation Pillar to G. T. Road ;

(iv) Mughal bund from railway bridge to Nullaha No. 14

The Drainage Channels

There are three main drainage channels, which drain the whole of Delhi territory viz., (i) the Najafgarh drain (ii) the Bawana escape ; and (iii) the Barapulla Nullaha. All the three drains outfall into the Yamuna river, and out of these, the two drains viz., the Najafgarh drain and the Bawana escape account for the drainage of most of the rural areas of Delhi Territory. A brief description of each of the three drains is as follows :—

(i) The Najafgarh Drainage system

The source of Najafgarh drain is in the Najafgarh Jheel, which lies in the South-west corner of Delhi Territory. It is a low lying, saucer shaped depression, and is situated partly in Delhi Territory and partly in the territory of Punjab. The rain water collects into the Jheel from its catchment of about 280 square miles. Its normal water spread at R. L. 690 is about 20 square miles, but in the years of heavy rainfall the water spread increases.

The Najafgarh drain, which is about 31 miles long is the only outlet from the Najafgarh Jheel. This drain traverses, in a circuitous way, through the rural and the very congested city areas of Delhi and ultimately outfalls into river Yamuna near Wazirabad. The rural areas of Kanjhawala, Najafgarh and part of Alipur Blocks and about 18 square miles of urban areas of Delhi are drained through the Najafgarh drain. The

existing width of the drain varies between 20′ and 40′. Due to its insufficient section, and flat gradient, the discharging capacity of Najafgarh drain has been observed to be highly *inadequate. To remedy this defect,* the Najafgarh drainage scheme has been formulated, which envisages the resectioning and regrading of the Najafgarh drain, including reconstruction of bridges on it. The execution of this scheme has already been taken in hand.

(ii) The Bawana Escape Drainage System

The Bawana Escape was constructed to allow the surplus waters from New Delhi tail distributary to escape into the river Yamuna. It has a length of about 12 miles and lies entirely in Delhi Territory. Its tributary, viz., Drain No. 6, lies mostly in the Punjab territory and has a catchment of about 190 square miles. The catchment of Bawana Escape Drainage system in Delhi Territory alone is about 57 square miles.

The Bawana Escape drainage system is proposed to be remodelled to cater for the run off from its own catchment lying in the Delhi Territory. The proposed scheme envisages remodelling including reconstruction of structures of the Bawana escape and drain No. 6 (lying in Delhi Territory) and the construction of 12 link drains in the basin.

(iii) The Barapulla Nullaha

The Barapulla Nullaha and its tributaries, such as Friends Colony, Sunder Nagar, Sunehripul, Khushak Nullaha etc. cater mostly for the urban areas of New Delhi. It has a catchment area of about 64 square miles. According to the Report of the Reddy Committee, the C. P. W. D. has been entrusted with the *drainage system of New Delhi and as such* the remodelling work of this drainage system has been taken up by the aforesaid department.

Geology

A prolongation of the Aravalli Hills of Rajasthan enters Delhi from Gurgaon on the southern border and expands into a rocky table land, about 3 miles in breadth, running in a north-easterly direction. Ten miles south of the city, this high ground splays out into two branches, one of which continuing its northerly course as a low, *narrow range passes west of* Delhi city, where it forms the historic ridge and finally terminates on the right bank of the Yamuna.

The greater part of the Union Territory of Delhi is mantled by alluvium—an unconsolidated stream-laid deposit made up of sand, clay and silt bands with nodular calcareous concretions at places.

The small hills and ridges, which abound to the south and west of Delhi city consist of ancient rocks, which were formed millions of years back and are known as Alwar-quartzites of the Delhi system. These rocks are thickly bedded, white, pale grey or pinkish purple in colour and closely jointed on a rectangular pattern. Small veins of acid igneous rocks, known as 'pegmatities' arc found associated with this ancient rock formation.

Around Delhi city, there are two major outcrops of this ancient rock formation, viz., (a) one extending northwards to the water works (small outcrops at and near the Juma Masjid) and (b) the other at Madipur, Kalkaji-Devi and Okhla. Within the enclosure of these barren quartzites, there lies a basin composed of alluvium, thinning out on either side towards old Delhi on the North-west and towards Okhla on the South-East.

The pegmatite veins, mentioned above, are found to the southeast and northeast of Mahipalpur and near New Delhi.

The stretch of alluvium in this area is broadly divisible into two groups. East of the Delhi ridge, *the alluvium is moderately coarse* grained and sandy, whereas west of the ridge, it is fine grained and clayeye. These alluvial formations were possibly formed by different drainage systems. The abandoned Ghaggar river probably deposited the clayey material, west of the ridge, while the Yamuna contributed the sandy material to the east. Subsequent erosion of the northern part of the

Delhi ridge affected an intermingling of the clayey and sandy sediments in this area.

Hydrology :

From the study of groundwater conditions in this area it is seen that the clayey alluvium along the west side of the ridge, at least in the neighbourhood of Delhi is not suitable for water supply by tube wells.

The ancient ridge forming quartzites are recrystallised and non-porous and yield only limited supplies of water.

Mineral Deposits :

(1) *Kaolin* :-Kaolin and China clay occurrences of some importance have been reported from (a) Kusumpur, 8 miles South West of Delhi and (b) one mile to the south of Kusumpur in pegmatites veins crossing quartzites. The material is extracted in small quantities for local uses.

(2) *Quartz Crystal* :- Small crystals of quarts (rock crystal) used to be worked in the past from a pegmatite rock at Arangpur, 13 miles south of Delhi.

(3) *Building Stone* :- The ridge forming quartzites find frequent use for building houses, roads, etc.

Climate

The climate of the Union Territory of Delhi is influenced by its inland position with the desert areas of Rajasthan to the West and Sonth-west and the Gangetic plains of Uttar Pradesh to the East, and to the prevalence of continental air during the major part of the year. Extreme dryness with an intensely hot summer and a cold winter are associated with a sweep of continental air from the West or North-west, except during the monsoon season when the influx of air from an easterly to south-easterly direction with its oceanic origin brings an increased humidity, cloudiness and precipitation.

TLe following table gives the data on temperature etc :-

Table 1. 1

1960	4·1	6·4	10·4	11·9	19·8	22·2	24·4	24·0	22·8	13·7	7·9	5·4

The year can broadly be divided into four seasons, the cold season starts in late November and extends to about the beginning of March. The hot season which follows, lasts till the end of June when the monsoon sets in over the territory. The monsoon season continues upto the end of September. The post monsoon season —October and November-constitutes a transition period from monsoon to winter conditions.

The Master Plan for Delhi has made interesting recommendations for proper orientation to both sun and wind so as to realize minimum heat intake and maximum ventilation and for sitting of buildings during the four seasons. These are reproduced below* :-

"Cool season (15th December-15th February)

The winter sun is the free source of heat. Fortunately, the sky is always clear, and the sun is quite pleasant during this period. The maximum amount of heat can be absorbed with proper provisions for shading devices to admit sun in winter and to preclude it in summer. Insulation of roofs and walls offers additional advantages. Recommended orientation : 20° east of south on the long frontage of buildings ; permitted variation 20° either way.

(b) Temperate season (15th September-15th December)

This is perhaps the most comfortable period during the cycle of seasons when the average characteristics of climate are mild and comfortable. Apart from protection against current winds or thunder-storms, no special recommendation is called for.

(c) Hot aird season (March-July)

This is the most uncomfortable period of the year. Air temperatures both indoors and outdoors rise well above the comfort level. However, to a certain extent, the mean radiant temperature of surrounding surfaces can be affected by :-

(a) Orientation of building for minimum heat intake as a recommendation for the cool season ;

(b) Shading of areas by various methods ( ) and insulation of roofs and walls, and deep verandahs.

(c) Shading and colouring of the walls less needed than shading of the openings, south walls with simple overhangs, and shading devices for east and west walls vertical elements.

(d) Landscaping by plants, trees and foliage can moderate the heat impact both by shading and cooling effect caused by water evaporation from leaves. Water pools due to their evaporation also have a cooling effect. Courtyards, loggias and patios properly oriented can reduce radiation.

(e) By decreasing the ratio of exposed surface to volume, the heat intake per building unit can be reduced. Massing of buildings may also represent cost saving and induce interesting patterns of habitation both visually and sociologically. Horizontal massing tends to create ventilation difficulties and reduces winter sun.

(f) Sleeping out of doors has been the practice for most people because average temperature under the sky at night is about 30 degrees cooler than the ground temperature. The larger the proportion of sky hemisphere visible, the larger is the radiation loss from the body. In effect, the roof or the open ground, sprinkled with water still remains the coolest and most desirable location for night sleeping.

(g) Air movement during the hottest part of the day must be kept out of the human environment, particularly during the late afternoons and evenings ; when air temperatures are cooler than the human body, air movement should be maximised. As generally, the winds come from north-west, fenestration should be

*Chapter Nine, Housing and Neighbourhood, Master Plan for Delhi, by the Delhi Development Authority.

so designed as to scoop all air.

(h) Mechanical refrigeration or evaporation is the only method for reducing air temperatures. However, by closing dwellings early in the morning to keep cool night airs indoors, plus the manual operation of 'Khas Khas' and the gradual adoption of the desert coolers the discomfort can be reduced.

(d) Hot and Humid Season (the monsoon period, July-September)

During the 'barsaat' because of monsoons, while the humidity rises, the average daily maximum temperatures are lower. The evening winds come from the east and the nights are generally calm.

During this period there is relatively a small differential between day and night temperatures which makes shading of the building less critical. The utilization of beneficial winds depends on appropriate orientation, height and spacing of buildings. Buildings or the fenestrations not properly aligned for wind intake should use scoops."

Flora and Fauna

FLORA

The Flora of Delhi can be conveniently classified under the following heads based on the natural physiography of the area : (a) Flora of the Ridge and other hillocks on the Gurgaon, Faridabad side, (b) Flora of the *Bangar* area comprising the major part of the district, (c) Flora of the Jumna banks or Riverain flora, (d) Flora of the low-lying areas subject to flooding in rains and including numerous ponds, tanks, marshes etc., (e) Weed Flora of various habitats, including weeds of cultivated lands. In addition, one has to take into account the numerous plants introduced by men in gardens, along avenues in the metropolitan area which give such characteristic appearance and ornamentation to the landscape.

A brief account of the important plant psecies constituting each one of the above vegetational divisions is given below :

(a) Vegetation of the ridge and other hill sides. Here are found floral elements characteristic of the three neighbouring regions of the territory viz. Rajasthan, Punjab plains and the drier parts of Uttar Pradesh. Many of the plants found here are important components of an arid, open, scrub forest. Among the trees and shrubs met with are *Prosopis spicigera* L., *Acacia spp.*, *Butea monosperma* (Lam.) O. Ktze *Balanites rexburghii* Planch, *Anogeissus pondula* Edgew., *Salvadora persica* L., *Cassia fistula* L., *Grewia tenax* (Fersk.,) *Fiori.*, *Capparis decidua* Pax., and *Zizyphus nurmularia* W. & A., *Maerua arenaria* Hk. f. & T. and Cryptostegia grandiflora R. Br. are two of the woody climbers seen here. During the monsoon season, the ridge and hill sides are covered by a great profusion of herbaccious species among which may be mentioned : *Triumfetta bartramia* L., *Tephrosia purpurea* Pers., *Tribulus terrestris* L., *Cloome viscosa* L. *Boerhaavia diffusa* L., *Corchorus aestuans* L. *Euphorbia Hirta* L., *Bidens biternata* Merr., & Sherff and a host of others. Several sedges and grasses are also recognised among which are species of *Cyperus*, *Chrysopogon*, *Cenchrus*, *Aristida*, *Heteropogon* and others. *Adhatoda visaca* Nees a gregarious shrub is found in abundance.

(b) Vegetation of the *Bangar* area. This is the major portion of the district lying west of Jumna and north of Delhi City. This is a sandy alluvial plain and is well wooded in places with fields of sugarcane and cereals. The only timber tree of the area is *Sisam-Dalbergia Sisoo* Rexb. Other trees found in the area are *Ficus religiesa* L., *Ficus bengalensia* L., *Ficus Laeor* Buch. Hau, *Ficus Glemerata* Rexb., *Acacia arabirai*, *Azadirachta indica* A Juss., *Prosopis spicigera* L., *Butea monosperma* (Lam.) O. Ktze etc. Several fruit trees are grown e.g., Mango-*Mangifera indica* L., Guava-*Psidium guijava* L., Saitoont—*Morus alba* L., Lequt—*Eriobotrya japonica* Lindl., Jamun—*Syzygium cumini* Skeels, Pomegrante-*Punica granatum* L., Bael fruit—*Aegle marmeles* Cerr., wood apple—*Limonia acidissima* L., Khirni—*Manilkara Hexandra* Dubb.

Tamarind—*Tamarindus indica* L., and Baer—*Zizyphus Jujuba* Lam.

The shrubby Plants noted are *Caletrapis gigantea* (L.) R. Br. ex Ait., *Euphorbia antiquorum* L., *Vitex megunde* L., *Agave* spp. and *Opuntia* elatior Mill.

The herbaceous vegetation as noted in the case of ridges and hill-side-flora is also noticed in the *Bangar* area during and after the rains.

(c) Vegetation of the Jumna banks or the riverain vegetation, On elevated banks are found species of *Tamarix, Salvadora persica* L., *Calotopis procera* R. Br., and the tall grass species, *Erianthus revenmae* Beauv. and *Saecharum spontaneum* L. During winter months when the level of water decreases, a number of *annuals* make their appearance in the river bed among which *Ranunculus sceleratus* L. *Veronica anagallis* L., *Mazus Japonicus* L. Ktze and others are conspicuous.

(d) Vegetation of low-lying areas : During the rains and immediately thereafter, several tanks, ponds, marshes ditches and canals in and around Delhi get filled up with water and many hydrophytes make their appearance in such areas. In addition to a large number of microscopic algae that may be present, several larger plants belonging to the various groups of the plant kingdom are found in these aquatic situations. Among these are the submerged species of *Chara* and *Nitela, Hydrilla, Vallisneria, Ceratophyllum, Potamogoton, Utricularia* etc. Others are seen floating at the surface like species of *Marsilea, Jussiea, Nymphaea* and *Trapa* . Along the margins of ponds and tanks may be found species of *Polygonum, Verbascum*, etc.,

(e) Weed flora : A large number of herbaceous plants found in various habitats like cultivated fields, fallow fields, roadsides, wasteland, etc. constitute the weed flora. These weeds have often a wide distribution and in many cases prove troublesome to eradicate. The yield of crops is in many cases reduced on account of their presence. Some of these weeds are seasonal and appear in association with particular crop plants. In Delhi some of the common weeds associated with the rainy season crops (Kharif) are *Colesia argentea* L., *Leucas cephalotes* Sprong, *Gisekia pharmaceoides* L., *Molluge cerviana* Ser., *Phyllanthus niruri* L., *Euphorbia dracunculeides* Lam., *Holiotropium strigosum* Willd., *Cerchorus aestuans* L., etc., Those associated with cold season crops (wheat barley, groundnut, pea, etc.) are *Fumaria Indica* Pugsley., *Lepidium sativum* L., *Saponaria vacoaria* L., *Anagallis arvensim* L., *Asphodelus tenuifolius* Cav., species of *Melilotus, Vicia, Lathyrus* and a parastitic herb *Orebanche aegyptiaca* Pers. In paddy fields are found many semi aquatic and marshy plants like *Ammania* spp., *Aeschynomene indica* L., *Ludvigia parviflora* Rexb., *Sagittaria guajanensis* H. B. & K. etc. The road side weeds are *Gassia Tera* L., *Cassia ecoidentalis* L., *Xanthium strumarium* L., and *Argenome mexicana* L.

A large number of shade and ornamental trees have been introduced in the State and among these are species of *Swietania Grevillea* (Silver oak), *Alsteniat, Poerospermum, Salmalia, Lagerstreomia, Cassia, Delonix, Jacaranda* and some conifers like species of *Cupressus* and *Thuja.*

A brief mention may be made about the plants which are used in indigenous systems of medicine. *Acacia senegal* Willd (Gum senegal) used as a domulcent ; Acalypha indica L. (Kuppi)—Herb used as an expectorant and emetic with properties similar to *Cephealis ipecacuanha* (Brot.) A. Rich.

Adhateda vasica (Vasaka)—fresh and dried leaves used in bronchitis and asthma. *Aegle marmeles* Cerr. (Bael)—fresh unripe or half-ripe fruit as a digestive and stomachic. *Alstonia scholaris* R. Br. 'the dried bark of this tree which is planted in the city, under the drug name Chhatim is a valuable remedy in chronic diarrhoeca and dysentery. *Asteracantha longifelia* Nees the dried herb and roots are used in dropsy. *Azadirachta indica* A. Juss—the dried stem and root barks and leaves of this tree which is planted along avenues, etc., are used as tonic and in fevers. *Boorhaavia diffuss* L. and *Trianthema portulacastrum* L.—Both these plants under the drug name

punarnava are used in codema and dropsy. Butea monosperma (Lam) Ktze. The seeds of this very attractive tree are useful in the treatment of worms. *Calotropis* species yield the dried root bark which is used as diaphoratic and expectorant. *Cassia fistula* L. (amaltas). The ripe fruit is used as a laxative. Centella asiatica (L.) Urb., yields the drug Centella from the fresh and dried leaves and stems and is used as a tonic. *Chonopedium ambresiodes* L. which is a common weed yields on oil which is a powerful anthelmintic. *Euphorpia hirta* L.,—another common weed is also used variously in indigenous medicine. *Selanum xanthocarpum* Schrad. and Wondl. (Katoli). The root of this thorny weed under the name Kantakari is an important medicinal ingredient of Hindu physicians. *Syzygium cuminii* Skeels fresh end dry bark and seeds are medicinal. *Tamarix gallica* L.—The galls found on the leaves are useful in Dysentery and diarrhoea. *Tribulus terrestris* L. The fruits of this common herb under the drug name Cokhru is extensively used in indigenous medicine. *Withania semnifora* Dunab. An introduced weed in the Delhi area yields "Aswagandha" from its roots.

In addition to the above plants all of which are included in the Indian Pharmaceutical Codex and yield standard drugs, a large number of other plants found in the area are employed variously by the local population in medicinal preparations.

Fauna

The Fauna of Delhi State is characteristically Oriental and is fairly rich and varied.

Vertebrata

Carnivorous animals constitute a large percentage of the fauna of this area. The leopard (*Panthera pardus*), one time abundant in the jungles and low forests, is now occasionally found in the ravines of the *Kohi tract*, where it preys on cattle. *Hyaena hyaena*, popularly known as 'Lagar bagha' in northern India, lives in jungles, hiding itself in caves, crevices, under boulders or porcupine-burrows, but makes excursions in search of prey. It is known to raid hencoops and carry away fowls at night. Foxes, wolves and jackals are of wide occurrence. The common fox (*Vulpes bengalensis)*, the wolf *(Canis lupus)* and two varieties of jackals, the so-called Persian Jackal (*Canis indicus*) and the Himalayan Jackal (*Canis aureus*) are nocturnal and predatory in habits. Foxes and jackals are abundant on lonely hilly ridges. Other minor carnivores are the otters (Lutrogale), an aquatic member predating on fishes. Of the two species of Mongoose, the large mongoose (*Herpestes edwardsii*) and the small mongoose (*H. auropinctates*) are of wide occurrence and are useful animals being natural enemies of snakes.

The Ungulata (Hoofed-animals) are represented in the fauna of Delhi by three genera of antelopes and the wild pig or boar. The black buck (*Antilope cervicapra*) is found in numerous localities, usually in small groups of 5-8 individuals, but in the Najafgarh area and in the vicinity of Mehrauli, large herds, sometimes consisting of over 100 individuals, have heen observed. The Indian gazelle (*Gazella bennetti*) is a small, attractive animal noted for its swiftness. Another member is the large Indian antelope of Nilgai which is rare. This is a shy animal which seldom comes into the open. Wild Pigs (*Sus cristatus*) are found in considerable numbers in the *Khadar* tract nearly six miles from Delhi and also on the southern bank of the Yamuna.

Porcupines, hares, rats and squirrels constitute the rodent fauna of Delhi. They are gnawing, herbivorous or frugivorous, small-sized mammals. The procupine (*Acanthion leucera*) is common, especially about the city, where it has an easy access to the vegetable and horticultural gardens. The hare (*Lepus ruficandatus*) is found in abundance in jungles and weeded tracts. Rats and mice, pests of man, fall into several genera and species. The common house rat (*Rattus rattus rufescenee*), although found in small numbers, inhabits drainage system and old houses. There are two varieties of the mole-rate, black and albino, of the species *Bandicoota indica* preva-

lent in Delhi ; both damage paddy store-houses and tuber crops. The Indian field rat or gerbill (*Gerbillus indicus*) is responsible for severe damage to crops. The desert gerbill (*Meriones hurriane*) is available only in desert and semi-desert areas. Another variety of field rat (*Nesokia indica*) is a dangerous pest of gardens and lawns.

The ubiquitous five striped squirrel (*Funambulus pennanti*) is a small sized arboreal rodent of common occurrence.

The *Chiroptera* comprise the bats and allied forms. Bats are nocturnal creatures which come out at dark and cause damage to fruit trees. During the day they live in caves or dark corners of ruins, hanging on their hind legs from beams or other support. Well known is the common bat (*Rhinopoma Kinneari*), the vampire bat (*Megaderma spasma*) and the flying fox (*Pteropus giganteus*).

Two peculiar mammals are the hedgehog (*Paraechinus*) and the shrew (*Sorex*), both belonging to a primitive order of mammals called Insectivora. Hedgehogs are found in gardens, and shrews frequent gardens and houses in cold weather.

The pangolin or scaly ant-eater belongs to the genus Manis, the only Asian representative of the order Pholidota which has a discontinuous distribution of the world, ant eaters being limited to tropical Asia and Africa. The pangolin is a curious relic, with scales instead of hair on the body and a prolonged snout and long tongue to lick up ants from their burrows.

The common monkey (*Macaca radiatus*) is the only indigenous primate in Delhi. It is found in large numbers in suburban orchards and near railway stations. They are a nuisance and cause damage to crops, fruit trees etc.

BIRDS—The State has birds of many kinds. The resident game birds consist of partridges, mostly grey, and black or blue rock-pigeons in countless flocks. The sand grouse usually prefers the sandy tracts of the soil. Green pigeons are found on *pipal* trees in the vicinity of the river Yamuna and the canals. Bush quails are found throughout the year, but grey quails, being migratory birds, are plentiful only in cold weather ; pea-cocks are numerous on the hilly ridges.

In the winter season, ducks, snipes and teals are found wherever ponds and lakes (*jhils*) are located, the most notable localities are Najafgarh, and Bhalswa Jhangir Pur. Geese both bar-headed and grey-legged are not very common in summer but appear in considerable numbers along the river Yamuna and about Najafgarh in winter, specially when the gram crop is almost ripe.

The State has several kinds of barbets, the sun birds, the Indian roller, several kinds of king fishers, horn bill, night-jar, hawk, cuckoo, koil, crow pheasant, parroquet, owls and owlets of various types, eagles, vultures, falcons and harriers, kites, shrikes, tree pies, mynas, starlings, orioles, tailer-birds, crows, doves, weaver birds, bee eaters, fly catchers, blue throats, robins, swallows, martins, babblers, bulbuls, and several kinds of chats larks and wagtails.

Among the water birds may be recorded saras, cranes, herons, coot, moorhen courser, the Indian darter, snake birds, bittern, cormorants, sand pipers, plovers, terns, spoonbills, adjutants, the little grebe, black ibis and several varieties of stroks and egrets.

Some of the Delhi birds are as beautiful as any in the world. Amongst them are the golden orioles, blossom-headed parakeets, hoopoes, blue tailed bee-eaters, green pigeons, white eyes, ashy-headed yellow wagtails and golden-blacked woodpeckers.

REPTILES—The crocodile or 'magar' (*Crocodilus palustris*) is a large-sized reptile found in the river Yamuna. The crocodiles occasionally attack bathers. Among the lizards, most commonly met with are the house lizard (*Hemidactylus flaviviridis*), garden lizard (*Calotes versicolor*), bamini (*Mubuya disimilis*), sanda (*Uromastix hardwickii*) and goh (*Varanus monitor*).

Of the poisonous snakes, the cobra (*Naja*

tripudians) is the most common, but the krait (*Bungarus coeruleus*) and the viper (*Viper sp.*) are also reported. Of the non-poisonous snakes, *Tropidonotus piscator* occurs in lakes and ponds. The dhamin (*Zamenis mucosus*), rat snake (*Zamenis fasciolatus)*, python (*Python molurus)*, worm snake (*Typhlops braminus*), wolf snake (*Lycodon aulicus)*, sand snake (*Psammophis leitheri*) and dumaii (*Eryx johnii*) are also available.

The pond turtle (*Lissemys punctata*) and box turtle (*Trinoyx gangeticus*) abound in both rivers and lakes.

AMPHIBIANS—Among amphibians, the toad (Bufo melanostictus) and the Indian bull frog (*Rana tigrina*) are very common.

FISHES—There are nearly 65 species of fishes so far recorded from the river Yamuna and from the tanks and ponds of Delhi, which come under 41 genera, 17 families and 8 orders. Carps and catfishes constitute the bulk of this fresh-water fish fauna and are the most important commercial groups.

The carps fall into two categories-the major and minor. The major carps are the larger species, viz., Rohu, Labeo, Catla and Mrigal or Naran (*Cirrhina*). They are very popular as food fishes, while the minor carps are varieties of Puti or Bhur (*Barbus*). The famous Mahaseer (*Barbus tor tor*) belongs to hill streams but occasionally descends to Delhi area.

The Cat-fishes are less popular for food but are more sought out by anglers and sportsmen. Most important species are malli (*Wallago*), seenghara (*Mystus*), and silond (*Silonia silundia*).

The Murrel fishes, locally known as 'Shouli' are represented by three species, *Ophicephalus punctatus O- striatus* and *marulius*. They comprise the 'live-fishes' and are very popular food fishes with certain sections of people. Mention may also be made of the large fresh-water clupeoid fish Chital (*Notopterus chitale*), which finds a ready market in Delhi and elsewhere.

Fishing is usually carried out by castnet, dragnet, handnet and ghog (a combination of net and trap) ; besides the rod and line and the long line are also in use. The best known fishing ground is at Okhla, 15 miles out of Delhi, where the weir ensures adequate water and natural food supply for fishes. It is a popular resort of anglers and sportsmen.

Invertebrata

MOLLUSES—The molluscan fauna includes the fresh water mussel *Lamellindens*, apple snail pila, *Limnaea truncatula*, *Planorbis* and the garden slug.

ARTHROPODS—Amongst the Arachnids, *Galeodes* and *Epeira*, Scorpions, *Buthus* and *Palamaeus* are easily available. The isopods *Oniscus* and *Ligia*, contipedes *Scolopendra* and *Scatigera*, and millipedes *Thyropygus* are very common in the State. The insects commonly occurring are : Silverfish (*Lepisma*), crickets (*Gryllus*, *Gryllodes* and *Gryllotalpa*) cockroaches (*Periplaneta* and *Blatta*), grasshoppers (*Poecilocerus pictus*, *Atractomorpha* and *Heiroglyphus*) earwig (*Labidura riparia*), blister beetles (*Melve* and *Mylabris*), the lady-bird beetles (*Coccinella* and *Chilomenes*) the beetles (*Cicindella* and *Scarabeus*), bugs (*Lethocerus*, *Bagrada*, and *Chrysochoris*), dragon flies (*Pantala* and *Crocothemis*, white ants (*Odontotermes* and *Coptotermes*) the flies (*Musca*, *Tabanus* and *Calliphora*), the mosquitoes (*Aedes*, *Anopheles* and *Culex*), the saw fly (*Athalial*), wasps, (*Vespa* and *Polistes*), the ants (*Camponotus* and *Solenopsis*), the aphids (*Aphis* and *Rhopalosiphum*), the butterflies (*Papilio*, *Danais* and *Pieris*), the moths (*Daphnis*, *Earias* and *Acherontia*), and the ant-lion (*Myrmeleo* and *Chrysopa*).

Some of the most important insect pests, which cause severe damage to various crops and stored food grain are enumerated below :

Top shoot-borer (*Scirpophaga nivella*), stem borer (*Chilo zonellus*), *Chilotraea infuscatellus*, *Diatraea auricilla*, *Pyrilla perpusilla*, black aphid (*Toxoptera graminum*), red pumpkin beetle (*Aulacophora foveicollis*), fruit fly (*Dacus cucurbitae*), mustard sawfly (*Athalia*) *proxima*), cabbage butterfly (*Pieris brassicae*,

pink boll-worm (*Pectinophora gossypiella*), dusky cotton bug (*Oxycarenus hyalinipennis*), red cotton bug (*Dysdercus koeingii*), leaf hopper (*Idiocerus clypealis*), mealy bug (*Drosicha mangifearae*) and the common grain pests (*Trogoderma, Rhizopertha, Bruchus* and *Sitophilus*) etc.

ANNELIDS—Of the annelidan fauna specially important are the earthworms (*Pheretima, Eutyphoeus* and *Lampito*) and the common cattle leech (*Hirudinaria*).

HELMINTHES—The helminth fauna consists of the parasitic worms that occur in different groups of animals, both wild and domestic, as well as man. Round worms (*Ascaris lumbricoides*), pin worms (*Enterobius vermicularia*) and the hook worms (*Ancylostoma duodenale*) are very common in man. Guinea-worm or 'naharway' (*Dracunculus medinensis*) has now been discovered in Delhi. Animals killed in the local slaughter houses are heavily infested with tapeworms, such as *Moniezia expansa, Moniezia benedeni, Avitellina lahorea* and *Stilesia globipunctata* and with liver flukes *Fasciola gigantica* and *fasciola indica* which cause 'liver rot'. The pork tapeworm (*Taenia solium*), beef tapeworm (*taenia saginata*) hydatid cyst, (*Echinococcus granulosus*), and Acanthocephata (*Echinorhynchus gigas*) are of common occurrence. 'Shinghara fluke' (*Fasciolopsis buski*) and turbellarian (*Placocoephalus Kew ensi*) are also reported.

COELENTERATES—The only members of the Coelenterate fauna are the freshwater *Hydra vulgaris* and *H. oligactis.*

PORIFERA—The Fresh water sponge, spongilla, is available in ponds and lakes.

PROTOZOA—Fresh water, soil and parasitic representatives of different groups of *protozoa* are of wide-spread occurrence. The ciliates (*Paramoecium caudatum, P. aurelia, P. bursalia, Stylonychia, Euplotes, Colpoda, Chilodonella, Did inium*), peritrichous ciliates (*Vorticella, Epistylis, Carchesium*), parasitic ciliates (*Opalina, Nyctotherus, Balantidium*) and suctorian forms (*Acineta, Podophrya*) are fairly common. The sporozoaare represented by *Plasmodium, Monocystis* and *Eimera.* The rhizopodes comprising various species *Ameoba, Actinosphaerium Arcella* and *Diffugia* occur in abundance. The parasitic *rhizopods, Entamoeba coli* and *E. histolyticainfest* man. The *Flagellates Euglena, Volvox and Pandorina* are also fairly common. Parasitic flagellates like *Trichonympha* in termites, *Trypanosoma lewisi* in rats, and *Giardia* in man have been recorded.

CHAPTER II

AREA AND POPULATION

Area

The latest figure of area of the Union Territory of Dlehi communicated by the Surveyor General of India, is 573·00 square miles, which has been accepted for the purposes of the 1961 census calculations. The distribution of this area figure, supplied by the Surveyor General of India into 1961 Census Tracts and Zones has been worked out as follows :

Table 2.1

Distribution of the total area of the Union Territory of Delhi into various Tracts and Zones of the 1961 census

The 1961 Census Tract/Zone	Area in sq. miles	Percentage to total area
1	2	3
DELHI TOTAL	573·00	100·00
Rural Delhi	446·92	78·00
Urban Delhi	126·08	22·00
D. M. C. Urban	92·99	16·23
Zone I—Shahdara	15·25	2.66
Zone II—City-Sadar-Paharganj	5·00	0·87
Zone III—Karol Bagh-Patel Nagar	6·00	1·05
Zone IV—Civil Lines-Subzimandi	10·75	1.88
Zone V—Transferred Area	16·00	2·79
Zone VI—South Delhi	24·76	4·32
Zone VII—West Delhi	15·23	2·66
New Delhi	16·50	2·88
Delhi Cantt.	16·59	2·89

For the purposes of the 1961 Census, the Union Territory of Delhi was divided into four tracts viz., the area under the New Delhi Municipal Committee, (2) the area under the Cantonment Board, (3) urban area of the Municipal Corporation of Delhi and (4) rural areas of the Municipal Corporation of Delhi.

The area under the New Delhi Municipal Committee was further divided into 9 census charges on the basis of Electoral College wards into which New Delhi was divided by the Election Commission. Since the areas in New Delhi were better known by roads or blocks and houses or building numbers, which are generally painted on the houses or buildings, these were adopted for census purposes and the boundaries of Census Blocks were distinguished by these numbers.

The area under the Cantonment Board was treated as one charge for the purposes of the 1961 Census. The military area of the Cantonment Board was, however, excluded from this charge and the enumeration of the same was entrusted to the Military authorities. The civil area of the Cantonment Board, which was got covered by the staff of the Cantonment Board authorities, was divided into census Blocks on the basis of the administrative wards into which it was divided by the Board taken into consideration the house numbers allotted by the Board.

The urban area of the Municipal Corporation comprised of the areas which were under the administrative control of the erstwhile Municipalities of Delhi, Shahdara, South and West Delhi and Notified Area Committees of Civil Lines, Fort, Najafgarh, Narela and Mehrauli. The entire urban area, excepting that covered by new colonies and temporary huts, was divided into administrative wards and the houses therein were generally distinguishable by houses and ward numbers. These numbers were, therefore, adopted for census purposes. In new colonies such as East, West and South Patel Nagar, Roop Nagar, Kamla Nagar,

Jawahar Nagar, Shakti Nagar Rajinder Nagar, Lajpat Nagar etc., the blocks and house numbers by which a building was known were adopted. The census staff assigned locality-wise numbers to temporary huts, which were taken as the numbers of the structures in such areas for the purposes of the 1961 census enumeration.

The rural area of the Union Territory of Delhi, according to the 1961 census, comprises of 300 villages listed in village Directory, which forms a part of the present volume. These 300 villages include 11 new villages which came into existence after 1951 and being new abadies in the land of other revenue estates, these have not been recognized as villages by the revenue authorities. It may be mentioned that according to the revenue authorities the Union Territory of Delhi was divided into 362 villages (Revenue Estates). The District Census Handbook of Delhi for the year 1951, however, shows that there were 304 villages in the Delhi Territory at the time of the 1951 census. This number included one village (Assalatpur Khadar) which was not included in the list of villages supplied by the Revenue authorities and as such, out of the recognised 362 revenue estates only 303 have been shown in the Census Handbook of 1951. The omission of 59 villages was, therefore, investigated and it was revealed that 22 villages lost their entity due to urbanisation prior to 1951 and the remaining 37 were not shown as they were probably having no population. The details of the villages which were urbanised before 1951 and after and the new villages which came to notice for the first time in the 1961 census may be looked into in chapter on Rural Population of our volume 'Census of India 1961, Census Report of Delhi'.

It will not be out of place here to mention that there was no change in the area of the Union Territory of Delhi consequent on the re-organisation of States in 1956. The all India Census of 1951 adopted 538 square miles as the area of the Delhi Territory, while the corresponding figure of area adopted by the District Census Handbook of Delhi was 578·2 square miles. However, the same census handbook recorded on page xv that the Survey Department's estimate of area was 577·6 square miles. The discrepancies in the figures of area of the Delhi Territory may be due to differences in the methods of computation of area adopted by the Survey Department of the Union Territory of Delhi and the Surveyor General of India.

Population

The total population of the Union Territory of Delhi according to the 1961 census, is 2658612, which is distributed into different Census tracts and zones as follows :-

Table 2.2

The Distribution of total population of the Union Territory of Delhi into various tracts and zones, 1961.

Tract/Zone	Total population (both sexes)	Percentage to total
1	2	3
DELHI TOTAL	2658612	100·0
Rural Delhi	299204	11·3
Urban Delhi	2359408	88.7
D. M. C. Urban	2061758	77·6
Zone I—Shahdara	150674	5·7
Zone II—City Sadar-Paharganj	715564	26·9
Zone III—Karol Bagh-Patel Nagar	323311	12·2
Zone IV—Civil Lines-Subzimandi	362176	13·6
Zone V—Transferred Area	222860	8·4
Zone VI—South Delhi	115577	4·3
Zone VII—West Delhi	171596	6·5
New Delhi	261545	9·8
Delhi Cantt.	36105	1·3

The predominantly urban composition of the population of the Delhi Territory is clearly brought out by the above table.

The population (persons, males and fema-

les) upto the level of census blocks in urban areas of Delhi is given later in the present volume. The details of population in each village of the Union Territory of Delhi are given in Village Directory, which also forms part of present volume.

Variation in population since 1901 onwards

The following table gives the population of the Delhi Territory since the 1901 Census upto the 1961 Census.

Table 2.3

Population of the Delhi Territory 1901—1961

Year	Total Population (both sexes)	Urban Population (both sexes)	Rural Population (both sexes)
1	2	3	4
1901	405819	208575	197244
	(100·0)	(51·4)	(48·6)
1911	413851	232837	181014
	(100·0)	(56·3)	(43·7)
1921	488452	304420	184032
	(100·0)	(62·3)	(37·7)
1931	636246	447442	188804
	(100·0)	(70·3)	(29·7)
1941	917939	695686	222253
	(100·0)	(75·8)	(24·2)
1951	1744072	1437134	306398
	(100·0)	(82·4)	(17·6)
1961	2658612	2359408	299204
	(100·0)	(88·7)	(11·3)

Note :—Figures in brackets show percentages.

The decade-wise percentage variation in total, urban and rural population of the Delhi Territory during the last six decades is presented below :

Table 2-4

The decennial percentage variation in total, urban and rural population of Delhi Territory, 1901-11 to 1951-61(—denotes decrease)

Decade	Percentage variation during the decade in		
	Total population	Urban population	Rural population
1	2	3	4
1901-11	2·0	11·7	(—) 8·2
1911-21	18·0	30·7	1·7
1921-31	30·3	47·0	2·6
1931-41	44·3	55·5	17·7
1941-51	90·0	106·6	39·9
1951-61	52·4	64·2	(—) 2·4

Upto the 1911 Census, Delhi had only regional significance. Since 1912, various factors have from time to time contributed towards the growth of its population, the more important of them being the establishment of the capital of Imperial India in New Delhi, the partition of India in 1947 involving a huge influx of refugee population in Delhi and Delhi becoming the seat of the sovereign Democratic Republic of Free India.

The pace of urbanisation of Delhi has, indeed, been remarkable. The urban population constituted 82·40 per cent of the total population of the Union Territory of Delhi in 1951; the corresponding percentage rose to 88·75 in 1961. During the decade 1951-61, the percentage increase of urban population of Delhi was 64·17. It is noteworthy that in the whole of India, Delhi had the highest percentage of urban population both in 1951 as well as 1961. In India as a whole, the urban population formed 17·35 per cent of the total population in 1951 and 17·97 per cent in 1961. During the decade 1951-61, India recorded an increase of 26·22 per cent in its urban population. While dealing with the urban population of Delhi in the 1961 Census, it may be mentioned that 48 villages, which were treated as such in the

1951 Census, have since been urbanised and were treated as urbanised areas in the 1961 Census. According to the 1951 District Census Handbook of Delhi, these villages in all covered an area of 30934 acres, 16185 houses, 16696 households and a population of 88947 persons (50469 males and 38478 females). The following table, which gives the 1951 census data about each of the 48 villages, which have been urbanised for the purposes of the 1961 census, will be found useful for research workers interested in studying the process of urbanisation of Delhi, in detail.

Table 2.5

The Scheduled Caste Population

According to the list given in the Scheduled Castes and Scheduled Tribes (Modification) Order, 1956, which was issued to implement the provisions of the States Re-organisation Act, 1956, there are 36 Scheduled Castes in the Union Territory of Delhi. Table 2.6 on page 17 gives the population belonging to the Scheduled Castes with break-up of sex and its proportions to the general population of the Delhi Territory and its Census Tracts, according to the 1961 Census.

Some of the Selected Scheduled Castes

The following table gives the percentage distribution of persons, males and females, in some of the selected scheduled castes in the Union Territory of Delhi.

Table 2.7

Percentage distribution of persons, males and females, in some of the selected Scheduled Castes in the Union Territory of Delhi, 1961

Name of the Scheduled Caste	Persons (%)	Males (%)	Females %
1	2	3	4
ALL SCHEDULED CASTES	100·0	100·0	100·0
Balai	6·1	6·1	6·0
Bhangi	6·4	5·9	7·0
Chamar, Jatav etc.	36·9	36·2	37·7
Chohra (Sweeper)	0·9	1·0	0·8
Chohra (Balmiki)	15·5	15·9	14·9
Dhanak or Dhanuk	2·5	2·6	2·4
Dhobi	4·1	4·3	4·0
Julaha	5·1	5·1	5·1
Khatik	4·2	4·1	4·1
Koli	5·6	5·7	5·5
Scheduled Castes (unspecified)	6·6	6·8	6·5
Other specified Scheduled Castes	6·1	6·3	5·8

It is obvious from the table that amongst the Scheduled Castes in the Union Territory of Delhi, 93·9% of the total persons, 93·7% of the total males and 94·2% of the total females belong to just 10 castes, in addition, to the group 'unspecified Scheduled Castes. The caste 'Chamar, Jatav etc'. has the highest percentage, followed next by the caste 'Chohra (Balmiki).'

Scheduled Castes in the previous Censuses

Table 2.8 on page 19 shows the population of the Scheduled Castes (Notified under President's order 1951) in the censuses of 1911-31 and estimated population in 1951 in the Delhi Territory.

The table on page 19 has been reproduced from "ESTIMATED POPULATION BY CASTES, 1951-DELHI," issued from the office of the Registrar General, India, Ministry of Home Affairs, Government of India, 1954. There are no Scheduled Tribes in Delhi. The table gives no data about castes in 1941, because no caste-wise figures are available for the 1941 Census. The table presents the figures of 41 castes as specified in the President's Order, 1951. The population of each caste given in this table refers only to the population of the Hindus. According to the above-mentioned brochure "Column 5 of the table gives the estimated population in 1951. This has been determined by applying the percentage increase of the general population of the State to the latest available census figures of each caste." Again, in order to introduce the above table, the brochure says, "In pursuance of Government policy there was limited enumeration and tabulation of castes in 1951 Census. Even in the case of Scheduled Castes, Scheduled Tribes and Backward Classes, the figures of each caste were not separately extracted ; only the group totals were ascertained. The Backward Classes Commission require the figures of population of each individual caste. In order to assist them, an estimate of population of each caste in 1951 has been made on the basis of the previous censuses.

It may be mentioned that at the time of the 1951 Census, the following specific instructions were issued :—

"Those persons who belong to the castes 'Kabir Panthi,' 'Mazhabi', 'Ram Dasi' and 'Sikligar', and are also the followers of the Sikh religion, will be considered as belonging to the Scheduled Castes. Persons belonging to other than the above mentioned four castes and professing Sikhism as their religion will not be considered as Scheduled Castes but will be deemed to be Sikhs."

Table 2.8

Population of Scheduled Castes (Notified under President's Order, 1951) in the Censuses of 1911—31 and estimated population in 1951.

41.	Sirkiband	73	...	...	308	
					(265401)	

Explanations : (...) denotes not available.

*It is not known whether or not the population of these castes is included in the 1931 census figures for Chamars which is the basis for the 1951 estimates

The sum of the estimated number of each Scheduled Caste in the year 1951, given in the above table, gives a figure of 265401 of the Hindu Scheduled Castes alone in the Delhi Territory. The Punjab Census Report, 1951, Part 1-A (page 302) gives the total number of the Scheduled Castes in the Delhi Territory as 208612, out of whom 125865 are males and 82747 females. So the formula of 'applying the percentage increase of the general population of the State to the latest available census figures of each caste' has resulted in an overestimate of the Scheduled Caste population in 1951, as shown in the above table, as compared to their actual population enumerated in the 1961 Census.

Density of Population

The crude density of population per square kilometre for the Union Territory of Delhi and its census tracts and zones, worked out on the basis of the population according to the 1961 census, is as follows :

Table 2.9

Density of Population, 1961

Tract/Zone	Denisty per sq. km.
1	2
DELHI TOTAL	1791
Delhi Rural	258
Delhi Urban	7225
D. M. C. Urban	8561
Zone I—Shahdara	3815
Zone II—City, Sadar, Paharganj	55256
Zone III—Karol Bagh-Patel Nagar	20805
Zone IV—Civil Lines-Subzimandi	13009
Zone V—Transferred Area	5378
Zone VI—South Delhi	1802
Zone VII—West Delhi	4351
New Delhi	6119
Delhi Cantt	840

The crude density of population per square kilometre for the Delhi Territory as a whole is 1791. Census Zone II—City, Sadar, Paharganj, has a density of 55256 persons per square kilometre, which is close to double the density of the average of Calcutta Municipal Area and more than 6 times the density of Greater Bombay. Census Zone III—Karol Bagh, Patel Nagar has density of 20805 persons per square kilometre, which is nearly two-thirds the average density of Calcutta Municipal Corporation and more than double the density of Greater Bombay. These two Census Zones can thus be counted in the forefront of the world's highest density areas.

Migration

Migration into the Union Territory of Delhi is one of the most salient features of its population. For the purposes of the 1961 Census, persons whose place of birth is outside the jurisdiction of the Union Territory of Delhi are in-migrants. The total number of migrants into the Delhi Territory is 1638087 constituting 61·6% of the total population of Delhi Territory.

The following table throws light on the origin of the in-migrants.

Table 2.10

Origin of Migrants into Delhi, 1961

Place of Origin	Rural	Urban	Unclassifiable	Total	% to total in-migrants
1	2	3	4	5	6
U. P.	280740 (66·6)	138251 (32·8)	2229 (0·6)	421220 (100·0)	(25.7)
Punjab	210892 (61·9)	128182 (37·6)	1530 (0·5)	340604 (100·0)	(20·8)
Rajasthan	73110 (77·0)	21340 (22·5)	452 (0·5)	94902 (100·0)	(5·8)
Pakistan	N. A.	N. A.	N. A.	508414	(31·0)
Others	...	...	...	272947	(16·7)
Total	...	...	...	1638087	(100·0)

(figures in brackets show percentages)
(N. A. denotes 'Not available')

It will be seen from the table that the three States of U. P., Punjab and Rajasthan together account for 52·3% of the total migrants into Delhi and Pakistan alone has contributed 31·0 per cent of them, as a result of the 1947 Partition of India. An overwhelming majority of the in-migrants are from rural areas, from where they are pushed out in search of avenues of employment. The prospect of earning higher income in Delhi exerts a sort of pull to them. For a detailed account of the subject of Migration, reference may be made to the Chapter on Migration of the 1961 Census Report of the Union Territory of Delhi.

CHAPTER III

ADMINISTRATION

Constitutional provision for the administration of Union Territories

Article 239 of the Constitution of India, which relates to the administration of Union Territories is as follows :-

"239 (1) Save as otherwise provided by Parliament by law, every Union Territory shall be administered by the President acting, to such extent as he thinks fit, through an administrator to be appointed by him with such designation as he may specify."

"(2) Notwithstanding anything contained in Part VI, the President may appoint the Governor of a State as the administrator of an adjoining Union Territory and where a Governor is so appointed, he shall exercise his functions as such administrator independently of his Council of Ministers."

General Administration of the Union Territory of Delhi

According to the provisions of the above mentioned Article of the Constitution of India, the Union Territory of Delhi is administered by the President of India through an Administrator with the designation of Chief Commissioner, assisted by 3 Secretaries and five Heads of Departments i.e. Deputy Commissioner, Director of Education, Development Commissioner, Superintending Engineer, Delhi State Circle, and the Director of Social Welfare as ex-offico Secretaries. Police Department, Office of the Sales Tax Commissioner, Medical Department, Industries & Labour & Directorate of Employment are supervised by the Chief Secretary. Director of Public Relations, State Motor Transport Controller, Chief Inspector of Factories and Boilers, Director of Food and Civil Supplies, Chief Electoral Officer and the Superintendent, Central Jail function under the supervision of the Administrative Secretary concerned.

Revenue Administration

The Revenue Administration is under the control of the Deputy Commissioner who is assisted by one Revenue Assistant, 4 Land Acquisition Collectors (2 having been appointed in October 1960), one Officer on Special Duty (Land Reforms), one District Collection Officer and two Treasury Officers. The District Collection Office was established in the year 1958 to expedite the recovery of the Government revenues which were in huge arrears.

Distribution of work amongst various gazetted officers in the District establishment of Delhi

The distribution of work amongst the three Additional District Magistrates (A. D. M's) of Delhi is as follow :—

A. D. M. (I)

1. Head of District Office
2. Chairman Staff Selection Board
3. Vigilance Officer
4. Registrar of Marriages
5. Additional District Registrar
6. Estate Officer
7. Holding of superior administrative charge, on behalf of the District Magistrate, of
   - (i) Treasuries ;
   - (ii) Entertainment and Betting Tax administration and Cinemas
   - (iii) Excise
   - (iv) Offices of Sub-Registrars, and
   - (v) District Soldiers, Sailors and Airmen's Board ;

8. Holding charge as Deputy Commissioner in his absence unless there are any other specific orders of the Delhi Administration ;
9. Paying surprise visits to and inspection, on behalf of the District Magistrate, of any criminal or revenue court or office under the control of the District Magistrate ;
10. Receiving work, on behalf of the District Magistrate from the following units and branches of the District Office :-
    (i) General Unit—whole unit except judicial matters or matters directly relating to criminal courts in the Judicial Branch.
    (ii) Accounts Unit—whole unit
    (iii) Miscellaneous Unit—whole unit except for Copying Agency and Record Room.

A. D. M. (II)

1. Registrar of Marriages.
2. Holding charge as Deputy Commissioner, whenever neither the Deputy Commissioner nor A. D. M. (I) is in station.
3. Carrying out inspection and supervision of :-
    (i) All criminal Courts of Magistrates in the District ;
    (ii) Revenue Administration of the District and all revenue matters dealt with by the Administration.
    (iii) Central Jail, Delhi.
    (iv) The Remand Home and the Children's Home.
4. All judicial work and revenue work on behalf of the District Magistrate, and Collector.
5. Receiving work, on behalf of the District Magistrate, from the following units and branches of the District Office.
    (i) General Units—Judicial matters and matters directly relating to criminal courts in the Judicial Branch.
    (ii) Miscellaneous Unit—Copying and Record Branch.
    (iii) Revenue Unit—whole unit

A. D. M. (III)

Looking after the following work :—

1. All I. P. C. Police cases of the North and Central Police Districts upto the stage of charge sheet.

   After the receipt of charge sheet, he may transfer the cases to the Magistrates concerned.
2. All complaints under the I. P. C. relating to all the Police Districts. He may take further action on a complaint himself or send it for enquiry and report to any Competent Magistrate. After such enquiry, the case may be tried by him or transferred to another competent Magistrate for disposal.
3. All appeals, revisions and transfer applications relating to criminal or revenue matters.
4. All appeals under the Punjab Municipal Act relating to New Delhi Municipal Committee.
5. Supervision and inspection of the case work of all magistrates (including Sub Divisional Magistrates).
6. Monthly inspection of undertrials in Jail.
7. Such other work as may be entrusted to him from time to time.

A. D. M. (IV)

Incharge of Land Acquisition Section.

The Administrative set-up of Delhi—An Historical Perspective

Delhi became the seat of a Sovereign Democratic Republic on 26th January, 1950, with Dr. Rajendar Parshad as its first President.* It may be observed that before 1912 Delhi city was the headquarter of a Division which had been constituted after the annexation of Delhi by the British. The Division comprised the districts of Simla, Hissar, Rohtak, Delhi, Ambala, Karnal and Gurgaon.

*For an account of important events in Delhi since 1857 onwards, reference may be made to the Annexure 'Calendar of important events' to the Chapter.

In 1912, however, a separate Delhi Province was constituted by dissolving the Delhi District and transferring Sonepat Tehsil to the Rohtak District and parts of Ballabgarh Tehsil to the Gurgaon District. Thus the province consisted of the remaining parts of Ballabgarh Tehsil and the Delhi Tehsil. Later on, the province was enlarged by the addition of some territory from the Meerut district, its total area being 593 sq. miles.

The enforcement by the Government of the Part 'C' States Act, changed the status of Delhi province and it became a Part 'C' State on March 17, 1952. Following the re-organisation of States and the abolition of Part 'C' States, Delhi became a Union Territory with effect from Ist November, 1956, administered centrally by a Chief Commissioner as the Administrator of the Territory. In April, 1958 the various small local bodies were replaced by the Municipal Corporation of Delhi. The Corporation now provides services to the whole of Delhi except the areas within the jurisdiction of the New Delhi Municipal Committee and the New Delhi Cantonment Board.

Elections in Delhi

With the introduction of universal adult franchise in India after the formation of a Sovereign Democratic Republic, elections took place in Delhi for the first time in the year 1952 for the election of five of its representatives to the Parliament (Lok Sabha). The following table shows the number of votes polled by the different political parties in the three elections held in the years 1952, 1957, and 1962.

Table 3.1

Delhi (Lok Sabha) Elections, 1952, 1957 and 1962.

1962 : Electorate : 13,43,640 ; Polled 8,94,120; Percentage : 66·54 (1957 : 57·19)

Party	1952		1957			1962		
	Votes Polled	%	Votes Polled	%	Seats	Votes Polled	%	Seats
1	2	3	4	5	6	7	8	9
Congress	3,24,214	49·5	4,40,775	54·32	5	4,53,174	50·68	5
Jana Sangh	1,69,997	25·9	1,59,907	19·72	...	2,92,007	32·66	...
Communists	...	...	38,236	4·71	...	19,135	2·14	...
P. S. P.	47,735	7·3	28,656	3·53	...	1,048	0·12	...
Others	1,13,324	17·3	1,43,770	17·72	...	1,28,756	14·40	...
TOTAL	6,55,270	100·0	8,11,344	100·0	5	8,94,120	100·0	5

In the 1962 elections to the Lok Sabha (Parliament) there were 13,43,640 voters out of whom 66.54 percent cast their votes, whereas in the year 1957, 57.19 per cent of the total electorate had exercised their right of franchise. Congress was the ruling party, securing 49·5 per cent, 54·32 per cent and 50·68 per cent of the total votes polled during the years 1952, 1957 and 1962, respectively. Jana Sangh was the major opposition party.

Constitutional provisions for the allocation of seats to the Union Territory of Delhi in the Council of States

The fourth Schedule (Articles 4 (1), and 80 (2) of the Constitution of India allots 3 seats to the Union Territory of Delhi in the Council of States.

Elections to the Delhi Legislative Assembly

After the formation of a part 'C' State, Delhi had its elections to the State Assembly on 14th Jan. 1952. The following table shows the details :—

Table 3.2

Delhi Legislative Assembly Elections (1952)

Total Number of seats	...	48
Total number of contested seats	...	47
Candidates returned unopposed	...	1
Total number of Valid Votes Polled	...	521766

Party	% votes polled	% to the total Valid votes polled	No. of seats secured
1	2	3	4
Congress	2,71,812	52·94	39
Socialist	12,396	2·37	2
K. M. P. P.	13,646	2·61	Nil
Communists	2,591	0·49	Nil
Jana Sangh	1,14,207	21·88	4
Forward Block (Marxist)	503	0·09	Nil
Hindu Mahasabha	6,891	1·32	Nil
Ram Rajya Parishad	849	0·16	Nil
Scheduled Caste Federation	15,592	2·98	Nil
P.S.P.	307	0·05	Nil
Independents	82,972	15·89	2

The Congress party formed its Ministry. One Chief Minister and two Ministers were taken. The Chief Minister had the portfolios of General Administration, Appointments, Press, Local Self Government and Civil Supplies. The Second Minister was in charge of Education and Development and the other Minister was given the Department of Rehabilitation. The Assembly had a speaker and Deputy Speaker also.

The democratic set up of Government did not function for a long time in Delhi. The Delhi State Assembly was dissolved in November, 1956, following the recommendations of the States Re-organisation Commission. The State was reduced to the status of a Union Territory, to be administered directly by the Central Government through its representative to be called the Chief Commissioner.

Formation of the Delhi Municipal Corporation

As observed earlier, the Delhi Municipal Corporation was brought into existence in the year 1958. Elections were held for the Delhi Municipal Corporation during the years 1958 and 1962. Party position is given below :-

Table 3.3

Number of seats secured by different parties in the Delhi Municipal Corporation Elections.

Party	No. of seats secured		% to the total number of seats secured	
	1958	1962	1958	1962
1	2	3	4	5
Congress	31	64	38·75	80·00
Jana Sangh	25	9	31·25	11·25
Communists	7	2	8·25	2·50
P. S. P.	1	Nil	1·25	Nil
Hindu Mahasabha	1	Nil	1·25	Nil
Independents	15	5	18·75	6·25
Total	80	80	100·00	100·00

It is to be seen that the Congress Party more than doubled its strength in the 1962 elections of the Corporation as compared to the year 1958.

JUDICIARY

Constitutional provision for High Courts for Union Territories.

Article 241 of the Constitution of India dealing with High Courts for Union Territories is reproduced below :—

"241 (1) Parliament may by law constitute a High Court for a union territory or declare any court in any such territory to be a High Court for all or any of the purposes of this Constitution.

"(2) The provisions of Chapter V of Part VI shall apply in relation to every High Court referred to in clause (1) as they apply in relation to a High Court referred to in Article 214 subject to such modification or exception as Parliament may by law provide.

"(3) Subject to the provisions of this Constitution and to the provisions of any law of the appropriate Legislature made by virtue of powers conferred on that Legislature by or under this Constitution every High Court exercising jurisdiction immediately before the commencement of the Constitution (Seventh Amendment) Act, 1956 in relation to any Union Territory shall continue to exercise such jurisdiction in relation to that territory after such commencement."

"(4) Nothing in this Article derogates from the power of Parliament to extend or exclude the jurisdiction of a High Court for a state to, or from any Union Territory or part thereof."

Civil Courts

Under the provisions of the aforesaid Article of the Constitution of India, the Punjab High Court (a Circuit Bench of which sits in Delhi continuously) has been declared as the High Court for the Union Territory of Delhi for purposes of judicial administration. The comparative strength of Civil Courts in the Union Territory of Delhi during 1951 and 1961 is given below :—

Table 3·4

Civil Courts in the Union Territory of Delhi

S. No.	Description	No. in	
		1951	1961
1.	District and Sessions Judge	1	1
2.	Additional District and Sessions Judges	2	6
3.	Senior Sub-Judge	1	1
4.	Sub Judges	13	32
5.	Honorary Sub-Judge dealing with cases under the Dissolution of Muslim Marriages Act.	Nil	1

Criminal Courts

The comparative magisterial strength of criminal courts in the Union Territory of Delhi during the Census Years 1951 and 1961 is as follows :

Table 3.5

Criminal Courts in the Union Territory of Delhi

S. No.	Description	No. in	
		1951	1961
1.	District Magistrate	1	1
2.	Additional District Magistrate.	1	3
3.	Stipendiary Magistrate	13	24
4.	Honorary Magistrate	11	27

It may be mentioned that out of the 27 Honorary Magistrates functioning in 1961, 10 were exercising the powers of Ist Class Magistrates and the rest were exercising the powers of Magistrates 2nd Class.

The strength of Delhi Police

There were only 18 Police Stations in Delhi on 31st December, 1951. Their number rose to 38 in November, 1962.

The Delhi Police had the following sanctioned strength on 31st December, 1951 :-

Table 3.6

Sanctioned Strength of Delhi Police as on 31-12-1951

Rank	Sanctioned strength as on 31-12-1951
Inspector General (I. G.)	1
Superintendent Police (S. P.)	8
Police Radio Officer (P. R. O.)	1
Assistant Superintendent Police (A. S. P.)	1
Deputy Superintendent Police (D. S. P.)	21
Inspector	54
Sub-Inspector	228
Assistant Sub-Inspector	378
Head Constables	1132
Constable (All branches)	6202

The strength of Delhi Police as on 31st December of each of the following years is given below :-

Table 3.7

Crime in Delhi :

The Inteliegence Bureau of the Ministry of Home Affairs, Government of India brings out a yearly report on "Crime in India" The statistics relating to cognizable crime in Delhi for the years 1953 to 1960 contained in table 3.8 are from this source.

Table 3.8

Crime in Delhi, 1953-1960

Year	Total No. of cognizable cases reported during the year.	Some of the important offences reported during the year															
		Murder		Kidnapping and abduction		Robbery		House breaking		Theft		Rioting		Criminal breach of trust		Cheating	
		No.	Percentage to col. No. 2	No.	Percentage to col. No. 2	No.	Percentage to col No. 2	No.	Percentage to col No. 2	No.	Percentage to col. No. 2	No.	Percentage to col. No. 2	No.	Percentage to col. No. 2	No.	Percentage to col. No. 2
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18
1953	7625	60	0·8	171	2·2	38	0·2	1200	15·7	4012	52·6	69	0·9	N.A.	...	N.A.	...
1954	7999	73	0·1	126	1·6	61	0·1	1319	16·5	4339	54·2	83	0·1	N.A.	...	N.A.	...
1955	7859	42	0·5	156	2·0	35	0·4	1191	15·2	4223	53·7	78	1·0	N.A.	...	N.A.	...
1956	7796	56	0·7	107	1·4	39	0·5	1193	15·3	4477	57·4	79	1·0	N.A.	...	N.A.	...
1957	9736	59	0·6	165	1·7	57	0·6	1372	14·1	5583	57·3	84	0·9	273	2·8	383	3·9
1958	10317	65	0·6	192	1·7	43	0·4	1429	13·8	5993	57·9	54	0·5	343	3·3	333	3·2
1959	9899	76	0·8	276	2·8	36	0·4	1209	12·2	5604	56·6	81	0·8	300	3·0	338	3·4
1960	10072	57	0·6	184	1·8	25	0·2	1198	11·9	5524	54·8	96	0·9	274	2·7	335	3·3

It is to be noted from the table that out of the selected offences, the most important crime in Delhi during each of these years is theft, which accounts for more than half of the total number of cognizable cases reported during each year. Next to theft, the important crime is house-breaking.

The indices of the total number of cognizable cases reported during each of the years, with the year 1953 as base = 100, are as follow :-

Table 3.9

Year	Indices of cognizable offences reported during the year with the year 1953 as base=100
1953	100
1954	105
1955	103
1956	102
1957	128
1958	135
1959	130
1960	132

(based on table 3.8)

The number of cases brought to trial, persons tried and convicted of selected important offences in the Union Territory of Delhi for the years 1950-60 and the amount of fine imposed during each of these years are given in table 3.10 (on page 30) which has been supplied by the Judicial Branch of the Deputy Commissioner's office, Delhi.

Central Jail

The Central Jail shifted to its new building at Tihar in April 1958. The problem of congestion, however, still persisted as the average number of prisoners increased steadily from 1316 in 1951 to 2398 in 1960. The Central Jail, Tihar is provided with a 60-bed hospital. Separate wards are available for 12 T.B. and leprosy patients. Facilities for surgical operations also exist in the Jail and a clinical laboratory was opened during the year 1960-61. A regular Mental Hospital has been started with a provision of 24 beds. The Jail has an agricultural farm attached to it. Facilities for imparting training in industries and adult education are also available.

ANNEXURE

CALENDAR OF IMPORTANT EVENTS

Year	*Particulars of the Events*
1857	First struggle for Independence. British register a victory at Badli Ki Sarai. Assault and recapture of Delhi.
1858	The Ex-Emperor was arrested by Gen. Hudson who also shot 3 of his sons.
	General massacre of Delhi-walas.
1875	India Meteorological Deptt. was established at Delhi.
1877	Delhi Darbar, Queen Victoria was declared Empress of India.
1876-78	Famine Broke out in Delhi.
1885	Department of Archaeology was established in Delhi.
1891	Department of National Archives of India was established in Delhi.
1911	Visit of King George V and Queen Mary. Foundation stone of New Delhi was laid.
1912	Transfer of British Capital to Delhi.
1914	First World War broke out.
1915	Enactment of Defence of India Act.
1916	Mr. Montagu, Secretary of State, visited Delhi.
1920	Transfer of Secretariat to New Delhi.
1921	Duke of Connaught inaugurated Legislature. Visit of Prince of Wales to Delhi.
	The Duke of Connaught laid the foundation stone of All India War Memorial at the southern end of the Central Vista, New Delhi.
1922	University of Delhi was established.
1923	Out-break of plague epidemic in Delhi.
	Session of Indian National Congress was held in Delhi under the Presidentship of Shri A.K. Azad.
1926	Out-break of malaria epidemic.
1927	Malaria Institute of India was established in Delhi.
1927-29	Appointment of statutory Commission under Lord Simon and its boycott by Indians.
1930	Civil Disobedience Movement was started.
1931	Lord Irwin—Gandhi pact.
1932	Supression of Congress.
1939	II Word war broke out.
	Statue of King George V unveiled by the Viceroy, Lord Linlithgow.
1942	Quit India Movement was launched by the Congress.
1944	Session of India Science Congress was held at Delhi under the Chairmanship of Shri S.N. Basu.
1946	Constituent Assembly met at Delhi in which the Muslim League and the Princes abstained from participating.
	Indian Standards Institute was established in Delhi.
	Formation of Interim Government.
1947	Session of Indian Science Congress was held at Delhi under the Chairmanship of Shri Nehru.
	Partition of India—Indian Independence.

Year	Particulars of the Events
	Constituent Assembly was set up. Out-break of communal riots. Floods in Jamuna river.
1948	Asian Relations Conference was held at Delhi. Death of Mahatma Gandhi. C. R., the first Indian Governor General, took over.
1950	India proclaimed as Republic. Meetings between Mr. Nehru & Mr. Liaqat Ali Khan, Prime Minister of Pakistan at Delhi.
1952	Hindustan Housing Factory was established in Delhi. Establishment of Popular Govt. in Delhi.
4-9-1952	Arrival of King Tribhuvan of Nepal in Delhi.
12-1-53	Vallabhbhai Patel Chest Institute declared open by Raj Kumari Amrit Kaur.
1-11-53	Telegraph Centenary Exhibition inaugurated by the President in New Delhi.
30-11-53	Mr. Richard M. Nixon, Vice President of the U. S. A., arrived in New Delhi.
15-1-54	Arrival of Sir John Kotlewala, Prime Minister of Ceylon.
20-1-54	The President opened low-cost housing exhibition in New Delhi.
17-12-54	Marshal Tito, the President of Yugoslavia, arrived in Delhi.
2-3-55	Sir Anthony Eden arrived in New Delhi.
12-4-55	Visit of Col. Nasser.
28-4-55	Visit of Syed Ismaiel El Azhari, Prime Minister of Sudan.
6-11-55	Visit of King Mahendra of Nepal to New Delhi.
18-11-55	Visit of Mr. Bulganin the Russian Prime Minister and Mr. Khrushchev, Secretary of the Communist Party.
11/55	King Iben Saud of Saudi Arabia arrived in Delhi.
1956	All India Institute of Medical Sciences was set up in Delhi. Floods in Jamuna.
1956	Abolition of Delhi State Assembly.
7-1-57	The President inaugurated 14th Tuberculosis Conference in New Delhi. Election of Members of Parliament.
17-1-57	President Shukri-al-kuwatly of Syria arrived in New Delhi.
7-3-57	Prime Minister of Denmark Mr. H. C. Hasen arrived in New Delhi.
24-3-57	Polish Premier Mr. Cyrankienicz arrived in New Delhi.
23-5-57	The Japanese Prime Minister Mr. Kishi arrived in New Delhi.
11-7-57	The 15th Session of the Indian Labour Conference was held in New Delhi.
14-10-57	The Union Minister for Health opened the W. H. O. Rural Health Conference for South East Asia in New Delhi.
1/58	The Prime Minister of U. K. Mr. Harold Macmillan arrived in New Delhi.
7-1-58	The President of Indonesia Mr. Soekarno arrived in New Delhi.
11-2-58	King Zahir Shah arrived in New Delhi.
22-2-58	Maulana Abdul Kalam Azad passed away in New Delhi.
1-4-58	Establishment of Delhi Municipal Corporation.

Year	*Particulars of the Events*
1-5-58	The Prime Minister of Turkey, Mr. Menderes arrived in New Delhi.
11-8-58	Prince Norodom, Prime Minister of Cambodia, arrived in New Delhi.
9-9-58	Mr. Feroz Khan Noon,Prime Minister of Pakistan,arrived in New Delhi.
Oct. 58	India 1958 Exhibition inaugurated by the Prime Minister.
	First Election of village Panchayats.
Nov. 58	Prime Minister of Canada Mr. John Diefenbaker arrived in New Delhi.
Jan. 59	East German Premier arrived in New Delhi.
Jan. 59	Duke of Edinburgh arrived in New Delhi.
26-4-59	Indian Institute of Astronomical and Sanskrit Researcch inaugurated in New Delhi.
21-9-59	The Childern's International Arts Exhibition opened in New Delhi.
11/59	Establishment of Panchayat Raj in Delhi.
9-12-59	The President of U. S. A., Dewight D. Eisenhower, arrived in New Delhi.
11-12-59	The President opened world Agriculture fair in New Delhi.
Jan. 61	Arrival of Queen Elizabeth & Duke of Edinburgh.
Feb. 61	Census of India.
March 61	Death of Pt. Gobind Vallabh Pant.

CHAPTER IV

PLANNING

Tables on planning incorporated

The following tables relating to the expenditure and outlay on planning in the Union Territory of Delhi, which deal with individual heads of development and their components in quite an exhaustive manner, have been incorporated in this chapter.

Table No.	*Concerning*
4.1	Outlays during the First, Second and Third Plans for All India, States, Union Territories and Delhi.
4.2	Estimated expenditure in Second Plan and outlays on Third Plan-Delhi State and Union Territories.
4.3	Percentage distribution of estimated expenditure in Second Plan and outlay in Third Plan amongst different heads of development—Delhi State and Union Territories.
4.4	Comparison between the estimated expenditure on Second Plan and outlay in Third Plan—Delhi State and Union Territories. (Percentages)
4.5	Distribution of the estimated expenditure in Second Plan and Total outlay in Third Plan on Agricultural Programmes into different heads in the Union Territory of Delhi.
4.6	Distribution of the estimated expenditure in Second Plan and total outlay in Third Plan on Community Development and Co-operation into different heads in the Union Territory of Delhi.
4.7	Distribution of the estimated expenditure in Second Plan and Total outlay in Third Plan on Irrigation and Power into different heads, in the Union Territory of Delhi.
4.8	Distribution of the estimated expenditure in Second Plan and Total outlay in Third Plan on Industry and Mining into different heads in the Union Territory of Delhi.
4.9	Distribution of the estimated expenditure in Second Plan and total outlay in Third Plan on Transport and Communications into different heads in the Union Territory of Delhi.
4.10	Distribution of the estimated expenditure in Second Plan and total outlay in Third Plan on Social Services into different heads in the Union Territory of Delhi.
4.11	Distribution of the estimated expenditure in Second Plan and total outlay in Third Plan into different sub-heads of the head 'Miscellaneous', in the Union Territory of Delhi.

Outlay on the Third Five Year Plan—a very brief comment.

The Third Plan outlay for the Union Territory of Delhi, as will be seen from the tables listed above and incorporated in this chapter, has been put at Rs. 8,175 lakhs, out of which 'Social Services' occupy the top priority (60·7% of the total outlay), 'power' coming next, which accounts for 23·24 per cent of the total outlay of the Third Plan. Under the head 'Social Services' an outlay of Rs. 4910 lakhs has been allocated in the Third Plan, out of which the highest percentage (38·80%) is allocated to 'housing'. Out of

the total Third Plan outlay of Rs. 1900 lakhs under the head 'irrigation and power,' 'power' accounts for 94·21% and flood control for the remaining 5·79%.

Thus 'housing' and 'power' are the important items in the Third Five Year Plan of Delhi.

Study of the Housing problem of Delhi

The housing problem of Delhi has been studied in detail in a separate volume called 'The Report on Housing and Establishments of the Union Territory of Delhi' by the present authors, as a part of the 1961 Census programme of the Union Territory of Delhi. The interested readers may refer to this volume.

Study of the power Problem of Delhi

A very intensive note on the power problem of Delhi based on a careful study of the 1961 Census data, various documents of the Five Year Plans, Surveys conducted by the Central Water and Power Commission of the Government of India, the Reports of the Kumar Committee and the Dharma Vira Committee and the information available in the National Press, is given as an annexure to the present chapter. It may usefully be referred to by the readers, who are interested in this subject.

Master Plan for Delhi

Due to the sudden rise of population in Delhi as a result of the large influx of refugees from Pakistan, there was no time to evolve a plan for the orderly development of the city. The result is that we find sub-standard constructions, slums and absence of basic civic amenities such as water supply, sewage, power, housing, transport, etc., etc. For a study and ultimate solution of these problems, the Delhi Development Act was passed in 1957 which came into force in December 1957. It enjoined upon the Delhi Development Authority to prepare a Master Plan for Delhi. Accordingly, the Delhi Development Authority, with the help of the Town Planning Organization of the Ministry of Health of the Government of India, drew up a comprehensive Master Plan for Delhi in the year 1962, which gives a planned perspective for the development of Delhi in the years to come. A summary of the broad outline of the Master Plan for Delhi as given by the Union Health Minister in a statement placed by her on the table of the Lok Sabha on August 7, 1962, as published in the Times of India dated August 8, 1962, is reproduced below :

A SUMMARY OF THE MASTER PLAN FOR DELHI

"The proposed urbanisable limit of 1981 provides for about 1,10,500 acres of land as against the present (1958-59) urbanised area of 42,700 acres.

The entire urbanisable area by 1981 has, for planning purposes, been divided into eight planning divisions. These divisions have further been sub-divided into 136 development zones in order to have workable areas for detailed planning.

Land use Plan

A land use plan has been prepared by the Delhi Development Authority and it has suggested removal of non-conforming uses where necessary. A break-up of the land use is given below :-

1. Residential : 42·9 per cent.
2. Commercial, Industrial and Government offices : 8·8 per cent.
3. Recreation : 23·7 per cent.
4. Public and semi-public facilities : 8 per cent.
5. Transportation and circulation : 10 %
6. Agriculture : 0·3 per cent.
7. Area under Cantonment etc : 6·3 per cent.

The Master Plan has been prepared in the regional context. The metropolitan area,

which covers about 800 sq. miles, has been studied in detail and it has been suggested that the ring towns of Ghaziabad and Loni in U. P., Faridabad, Ballabgarh, Bahadurgarh, Gurgaon and Sonepat in the Punjab and Narela in the Union Territory of Delhi should be developed simultaneously with Delhi so that they may be able to act as effective counter-magnets and prevent the abnormal growth of Delhi.

"Urban Villages"

The Plan recommends an inviolable green belt approximately one mile in depth around the 1981 urbanisable limit and proposes the setting up of "urban villages" to strengthen the rural economy.

Community facilities like schools, colleges, hospitals and health centres, playgrounds and open spaces, cultural institutions and shopping centres have been adequately provided on the basis of population.

New roads, bridges, rail links and cycle tracks have been proposed and the widening of numerous roads has been suggested, besides proposals for the improvement of inter-sections.

Bus and truck terminals and parking sites have been adequately provided.

The recommendations contain proposals for better organisation of whole-sale trade in cloth, foodgrains, fruit and vegetables, timber, and building materials, oil, etc., and for storage.

Slum Clearance.

Prototypes for the re-development of several areas have been incorporated for the guidance of the authorities that may undertake slum clearance work.

Detailed proposals have been made for the supply of water, electricity and sewerage.

Suggestions have been made as to the manner in which the problem of housing should be tackled.

Densities have been indicated for the various residential areas, the main attempt being to reduce congestion in over-crowded areas, and to increase the population in the low-density areas which happen, at present, to be near work places.

Sites have been indicated for burial and cremation grounds.

It has been suggested that a bold policy of land acquisition should be adopted and that the land should be publicly owned."

ANNEXURE

THE POWER PROBLEM OF DELHI

Factors Contributing to the Increasing Demand of Power in Delhi

The partition of India in 1947 brought to Delhi 495391 displaced persons as counted in the 1951 Census, when the total population of the Union Territory of Delhi had been enumerated as 1744072. In the 1961 Census, the population of the Union Territory of Delhi rose to 2658612, showing as high as 52·44 per cent of decennial percentage increase during the decade 1951—1961. The percentage increase in the urban population during the decade 1951-61 was still higher i.e. 64·17 per cent. The percentage of urban population to the total population of Delhi in 1951 was 82·40 percent and in 1961 it was 88·75 per cent. The number of occupied houses in the Union Territory of Delhi rose from 312753 in 1951 to 359802 in 1961 showing an increase of 15·04 percent during the decade 1951-61. The number of registered factories rose from 224 in 1945 to 450 in 1950, 725 in 1956 and 1061 in 1960. A large number of Government offices also sprang up in Delhi during the last decade. Thus, as the above facts reveal, the rapid increase in population, the swift pace of urabanisation and industrialisation and increasing housebuilding activity have led to an ever growing demand for electricity in the Union Territory of Delhi. The successive Five Year Plans have attempted to meet the ever-increasing requirements of power in Delhi.

The Position of Power at the beginning of the First Five Year Plan

At the beginning of the First Five Year Plan, there were three power stations viz.,River Side Central Power Station, known as 'A' station, and the two diesel generating stations, one at Bela Road and one at Lahori Gate. The total generating capacity of all these three power stations was limited to 34,786 K. W. with a safe generating capacity of 30,600 K.W. only. The Delhi State Electricity Board (whose functions have since been taken over by the Delhi Electricity Supply Undertaking), the N.D.M.C.and the U.J.V.E.S. Co. were the three distributing licensees in Delhi, New Delhi, and Shahdara area respectively.

Progress made during the period of the First Five Year Plan

A 'B' station with two turbo alternator units af 9,600 K.W. each was set up during the First Five Year Plan period. Another turbo set known as "Westing House" of 5,000 K.W. was also added to the "A" station but an old diesel station of 4,586 K.W. was scrapped. The total generating capacity at the end of the First Plan period was 51,600 K.W. steam and 2,800 K.W. diesel, with a total safe generating capacity of 40,000 K.W. only. In addition, 10,000 K.W. were received from Nangal system of the Punjab State Electricity Board from April, 1955 onward. The total safe supply capacity of the erstwhile Delhi State Electricity Board by the end of the First Five Year Plan was 50,000 K.W. only.

Allocations to power during the Second Five Year Plan

During the Second Five Year Plan Rs. 403·75 lakhs were allocated to 'power' in Delhi, the expenditure being 23·7 per cent of the total amount of Rs. 1697·35 lakhs allocated to Delhi during the Second Five Year Plan.

The new schemes of power projects in the Second Plan of Delhi were estimated to cost Rs. 425·00 lakhs, whereas the Plan allocation was Rs. 403·75 lakhs only. Thus the amonut allocated for power schemes in Delhi for the Second Five Year Plan ran short by Rs. 21·25 lakhs in comparison with the estimated cost of the power projects included in the Second Plan.

Progress made during the Second Five Year Paln.

Three diesel stations (i) Rajghat (6,000 K.W.), (ii) Lahori Gate (6,000 K.W.), (iii) Kilokery (8,000 K.W.) were commissioned during the Second Five Year Plan. Preliminary steps were also taken to set up a 30 M.W. steam-station which is expected to be commissioned by 1963-64. A 4 M.W. station at Chandrawal was commissioned in March, 1960. The inter-connection of steam ranges of 'A' and 'B' stations was completed.

Against the Second Plan allocation of Rs. 249·75 lacs, a sum of Rs. 245·72 lacs was spent during the Second Plan on the transmission and distribution net-work.

As a result of the measures taken, 24 M.W. additional power was added on the system. The installed capacity at the end of the Second Five Year Plan was 78,400 K.W. derated to 73,000K.W.An additional10,000K.W.of Nangal Power was received during the Second Plan. The firm power available for distribution increased from 50,000 K.W. at the end of the first Plan to 80,000 K. W. at the end of the second Plan. The maximum demand on the system against firm capacity in February, 1961 was 86,630 K.W. This was met by pressing into service the stand-by capacity.

33 K. V. ring main connection, the transmission sub-station at Kilokery, Ridge Valley, Shakurbasti, Azadpur and Civil Lines was completed during the Second Plan. A 'C' station could not be set up because of some technical difficulties in the selection of the site.

Rural electrification work was started in 1958-59. By the end of the Second Plan period,50 villages had been electrified against the target of 53 villages, and the work in the remaining 3 villages was also in progress.

Power in the Third Five Year Plan

The total Third Plan outlay for the Union Territory of Delhi has been put at Rs. 8,175 lakhs, out of which 1,790 lakhs i.e. 21·9 per cent has been allocated for power. Out of the total amount of Rs. 1900 lakhs to be spent under the head 'Irrigation and Power' during Third Plan of Delhi, Power accounts for as high as 94·21 percent and flood control for 5·79 per cent.

The new scheme for the Third Five Year Plan is Delhi Thermal Station Extension Scheme jointly for Delhi and Punjab, with a total installed capacity of 1,80,000 K.W. It is to be remembered that Delhi Thermal Station Extension Scheme was a 'continuing

scheme' at the beginning of the Third Five Year Plan, its total installed capacity at the time being 30,000 K.W.

As regards the costs and benefits from power, the following table from the Third Five Year Plan (page 422) may usefully be reproduced below :—

Table 4·12

Powers-cost and benefits by Delhi State owned utilities in the Third Five Year Plan.

Nature of Scheme	Outlay in rupees (lakhs)	Benefits in M.W. during Third Plan
1	2	3
Continuing schemes from the Second Plan	300·00	30·0
New Schemes included in the Third Plan	1490·00	135 0
Total	1790·00	165·0

It is to be noted that in the above table the share of Delhi from joint projects with other states has been shown in the benefits for Delhi.

The use of powers in Factories and Workshops in Delhi according to 1961 Census

In the 1961 Census, information was collected about the Census houses used as factories and workshops and their classification was attempted according to the source of power used therein. The relevant Census data concerning the Union Territory of Delhi is presented in the table below :-

Table 4·13

Census Houses used as Factories and Workshops classified by power and no power used

Source of power	No. of Factories and workshops					
	Total	%	Rural	%	Urban	%
1	2	3	4	5	6	7
Total	8414	100·0	231	100·0	8183	100·0
1. All Fuels	6236	74·1	196	84·8	6040	73·8
(a) Electricity	4393	52·2	20	8·6	4373	53·4
(b) Liquid Fuel	293	3·5	67	29·0	226	2·8
(c) Coal, Wood & Bagasse	1336	15·9	107	46·3	1229	15·0
(d) Other Power	214	2·5	2	0·9	212	2·6
2. No Power	2178	25·9	35	15·2	2143	26·2

Source : (E-III Table)

According to the data collected in the 1961 Census, 8414 Census houses were used as factories and workshops in the Union Territory of Delhi, out of which as high as 8183 (97·3 percent) were located in the urban areas and 231 (2·7 percent) were in the rural areas. Out of the total number of factories and workshop in the Delhi Territory enumerated in 1961, 4393 (52·2 per cent) were using electricity as a source of power. Out of the total number of factories and workshops using electricity as a source of power, 4373 (99·5 per cent) were located in the urban areas of Delhi and only 20 (0·5 per cent) were in the rural areas. Electricity happens to be one of the most important sources of power for factories and workshops located in the Union Territory of Delhi. In the rural areas of Delhi, however, a large majority of factories and workshops, 107 out of a total number of 231 (i.e. 46·3 percent) were using coal, wood and bagasse as source of power and only 20 (8·6

percent) were using electricity, according to the 1961 Census. In contrast to it, in the urban areas of Delhi, out of the total number of 8183 factories and workshops enumerated in 1961, 437 (53·43 per cent) were using electricity. It is to be noted that in 1961 out of the total number of 8414 factories and workshops in Delhi, there were 2178 (25.9 percent) which were using no power ; out of them 35 were located in the rural areas and 2143 were situated in the urban areas.

Power Requirements and Power Breakdowns in Delhi

The Central Water and Power Commission carried out a survey of the power requirements of the Union Territory of Delhi in 1953. The Survey anticipated the total demand of power of the order of 1 46,000 k. w. by 1960-61. It apprehended shortage of power in Delhi from the year 1957 onwards. The load requirements of the State, as estimated by the C. W. & P. C. were as under :-

Table 4 14

Year	Safe generating capacity+bulk supply from Nangal (M.W.)	Load Demand (M.W.)	Shortage (M.W.)
1	2	3	4
1956-57	41+20	75·0	14·0
1957-58	41+20	98·6	37·6
1958-59	41+20	114·8	53·8
1959-60	41+20	129·4	58·4
1960-51	41+20	145·9	44·9

To meet the demands for power, the Delhi State Electricity Board was advised to instal a 30 M W. generating unit. As this plant was not expected to be commissioned till 1960, the Board was further advised to arrange quick augmentation of the generating capacity by instatling diesel generating sets aggregating to 20,000 KW.

According to an estimate of the Ministry of Irrigation and Power, Government of India, in Appril 1962, the total installed capacity of the Delhi Electric Supply Undertaking was 78,400 K.W. The derated capacity of the plant was about 72,000 K.W. After providing for stand-by and making allowance for periodical overhaul etc., the available firm supply capacity of the plant was 55,000 K. W. Thus the total firm available power on the system was 95,000 K. W. (i.e. 55,00 K W. + 40,000 K.W, as the D.E.S.U. was still in correspondence with the Punjab State Electricity Board for the retention of 5,000 K.W. originally sanctioned for the Indian Industries Fair held in November 1961, from the Bhakra-Nangal system in the Punjab State). Against this, the average daily load demand at the time varied from 85,000 KW. to 99,000 KW.

The Power Plan of Delhi estimates the load demand for 1965-66 at 210 M.W. With a view to augmenting the capacity of the Delhi Electric Supply Undertaking, the following measures were being taken :

1. 20,000 K.W. of additional power from the Bhakra-Nangal system was expected to be received in June, 1962.
2. 30,000 KW. steam generating power house was under construction and was scheduled to be completed in September-October, 1963.
3. A 15 M.W. power house was proposed to installed be and commissioned by September October, 1963.
4. Two 50 M.W. sets are planned to be installed and commissioned by the end of 1965-66.
5. 40 M. W. additional power is expected from Bhakra-Right Bank House in 1965-66.

Thus by the end of the Third Plan. a futher addition to the existing capaci y of 95 M.W. will be 205 MW of which 60 MW will be for standby.

The years 1961 and 1962 saw some of the worst power breakdowns in Delhi. For instance, the alarming frequency of power failures in Delhi is evident from a Press report appearing in the 'Statesman' of June 26, 1962. According to the General Manager of the

Delhi Electricity Supply Undertaking,67 Power breakdowns occured in Delhi from May 1 to June 15, 1962. The majority of the breakdowns, according to the General Manager, were beyond the control of the Undertaking.

Amongst these, 28 cases were due to the breakdown of conductors, storms and falling trees ; 20 cases were due to short circuits and four due to vehicles colliding with electric poles and the puncturing of cables by workers of every department. According to the General Manager, 5 cases were due to overloading and 3 due to birds sitting on overhead wires. In his opinion, there were only seven cases which were caused by faults of the Undertaking and could have been avoided by paying greater attention.

In this connection mention may be made of the two committees known as the Kumar Committee and the Dharma Vira Committee, which were instituted by the Union Government and the Punjab Government respectively. The summaries of their reports are presented in the following pages.

The Report of the Kumar Committee

A five man expert committee headed by the Chairman of the Central Water and Power Commission, Mr. S. S. Kumar was appointed by the Union Government in December 1961, after the three-week power breakdowns in the Capital in October 1961, to enquire into the causes of frequent power-break downs.

The Committee held that the delay in the receipt of the Bhakra-Nangal Power and its irregular supply were responsible for worsening the power shortage in the Capital.

The Committee suggested that the integrated operation of the Bhakra-Nangal System and the thermal plants in Delhi could add to the capacity of the interconnected system by about 99,000 KW. after the commissioning of the Right Bank Bhakra Power House and the 3 × 50 MW. thermal units in Delhi.

The committee was of the view that there would be a continuing power shortage in the capital during the Third Plan period. It suggested the commissioning of two mobile gas package power plants with a capacity of 10,000 Kw. each before the end of 1963 for narrowing down the gap between the available power and the demand during the Third Plan.

The observations of the Committee on the various causes of break-downs and failures are as under :—

"(1) The distribution system is not laid out in a planned and systematic manner. The extensions to the system have been carried out in a disorderly fashion. Portions of the system particularly in Civil lines and old city areas are antiquated and in dilapidated condition. Poor condition of the system and its overloading resulted in failures of supply on several occasions. The Undertaking should prepare a scheme for renewal/rectification/augmentation of the distribution system particularly in the old city and civil lines areas. The work should then be taken up with speed, in a phased manner.

(ii) There are a number of radial feeders such as Najafgarh feeder, Bawa Potteries feeder etc., to which 15 to 20 step-down transformer sub-stations are connected. A fault in any portion of such feeders results in the outage of the entire feeder thereby interrupting supply to all the consumers served by it. Proper sectionalising arrangements are called for to enable isolation of the faulty sections. The system should also be so designed as to provide duplicate source of supply in case of all important sub-stations and feeders, as far as practicable.

(iii) On account of the restrictions imposed on the supply and consumption of electricity, the loads are sanctioned on austerity basis. The consumers generally make unauthorised extensions to their installations. The feeders designed to meet the limited sanctioned loads soon get overloaded with consequent failure of supply. The feeders should in future be designed to cater to the loads likely to come up in next 8 to 10 years.

(iv) The Undertaking has 12 AC/DC converting sub-stations for DC areas. The equipment therein is old and cannot be relied upon

for efficient and dependable service. The Undertaking is rightly adopting the policy of converting the DC supply to AC. With that in view, AC mains have already been laid in most of the DC areas, and consumers are gradually being converted on to AC. The following table indicates the conversions made during the past 6 years :

Table 4·15

As on	No. of DC Consumers	Converted during the year
31·3·1957	46,859	1,909
31·3·1958	45,950	1,226
31·3·1959	44,724	1,208
31·3·1960	43,516	1,902
31·3·1961	41,614	3,154
31·3·1962	38,460	3,902

The progress of DC/AC conversion has been rather slow. At the present rate it would take the undertaking more than 12 years to complete the programme. It also came to the notice of the Committee that on 31st March, 1961, 437 applications for conversion were pending for over 6 months, and 727 for lesser periods. It seems that the Undertaking has not been dealing with such cases with due expedition.

For encouraging conversion the Undertaking is offering 7½% rebate on the electricity consumption bills to industrial consumers and 12½% to lighting and fan consumers for a period of 5 years. In spite of this, the consumers seem to be reluctant to change over to AC as they want to avoid capital outlay in purchasing new equipment. For expediting the conversion programme the Undertaking might review the inducement offered on the lines of that adopted in Bombay and Calcutta.

(v) A double circuit 33 KV ring main was planned by the Undertaking in 1951 for distribution of Bhakra-Nangal power to the various consuming centres and for inter-connection of Bhakra supply with the Undertaking's 'B' power house. The ring main has not so far been completed. The two systems have, however, been inter-linked to a limited extent for interchange of power in areas where many essential loads exist. To facilitate complete interchange of hydro/thermal power, the KV ring-main should be completed as early as possible. In addition, a 33 KV tie-line should be provided between the Rohtak Road substation and the 'B' or 'C' power station for adding to the flexibility in availability of power to the grid.

(vi) Some of the failures of supply were caused due to break-downs of the cables. It is necessary that routine maintenance tests/inspection of the transformers cables, switchgear, etc. should be carried out at regular intervals to minimise such break-downs.

(ii) Steps do not appear to have been taken in time to procure the material and spare parts required for the augmentation, extension and maintenance of the generating and distribution systems. This has resulted in the deterioration of the maintenance condition of the system making it susceptible to frequent faults and failures. It should be ensured that adequate quantities of stores and spare parts required for operation, maintenance as well as extension/augmentation of the system are always available with the Undertaking so that schemes are not held up for want of material.

(viii) The voltage and frequency of power supply in some parts of the system have not been maintained within the permissible limits as prescribed in the Indian Electricity Rules, 1956. The Undertaking should examine the feasibility of installing suitable static condensers and voltage boosters at appropriate places on the system to improve the voltage.

(ix) Some of the failures of supply were caused due to falling of extraneous matters on the over-head distribution system. Although such failures cannot be completely avoided it should try to minimise such failures, as far as practicable, by periodical trimming of trees and by taking other suitable measures.

(x) For dependable service, the steam turbo-generators should normally undergo periodic overhaul and check up at intervals of

about two years and the boiler once a year. The Committee has, however, observed that the turbo sets of the Undertaking have been running continuously for years without such overhaul or check up. Their capacities have substantially derated and they cannot be depended upon for efficient and reliable service The two 10 MW sets that were overhauled in 1953-54 by the manufacturer after their installation in 1952, have not received any attention thereafter with the result that their output has reduced to 8,000 KW. each. Similarly, most of the boilers have lost their efficiencey and are overdue for annual inspection and test under the Indian Boilers Regulations. They are being continued in service under special extensions secured from the Boiler Inspector. The instrumentation of some of the boilers is in poor condition.

As recommended by manufacturers, the diesel sets should receive the periodic overhaul at intervals of about 2,800 running hours. Most of the sets of the Undertaking have run for 2800 to 5100 hours without being opened out. Their generating capacity has derated abnormally. The Committee was surprised to note that the Undertaking did not maintain adequate spares for repair and maintenance of the diesel plant. This would go to indicate that even the basic requirements for proper maintenance of a power house were being ignored."

The Committee recommended that schemes for inclusion in the Fourth Plan should be finalised by the middle of 1964 and that additional generating capacity should be so planned that besides the normal standby capacity, a reserve of about 20 per cent, is available over and above the total estimated demand.

The Report of the Dharma Vira Committee

A five member committee headed by Mr. Dharma Vira, Secretary, Union Ministry of Works Housing and Supply was appointed by the Punjab Government to go into the failure of transformers at the Punjab Electricity Boards' Rohtak Road sub-station in Delhi.

The Committee blamed the Punjab Electricity Board and the Delhi Electric Supply Undertaking for the magnitude of the power crises in Delhi in October 1961 and July 1962. It held that but for lack of interest on the part of the Punjab Electricity Board and DESU the power crises could have been averted or the hardship it caused considerably reduced.

It said expeditious repairs to the transformer damaged in October 1961, provision of adequate standby capacity, proper maintenance of the generating plant, and timely procurement of spares for diesel sets would have gone a long way towards overcoming the crises.

According to the committee, two transformers failed most probably due to faults in designing. Inadequate cooling of 33 kv winding and weakening of the insulation by electro-mechanical forces were among other major reasons for the power failure.

The commitee viewed with considerable distress the geneaal slackness in planning to meet emergencies.

Whatever planning the Punjab Board and DESU did was vitiated either by "unimginative scrutiny" at the top or "defective and leisurely implementation."

The Committee gained the impression that "nobody really feels responsible for the uninterrupted maintenance of this essential service. Whenever there is a breakdown, it is treated as a normal and routine affair or as an act of God. After the initial flutter the matter is forgotten."

According to the Committee, the process for sanctioning foreign exchange and import licences appeared to be unnecessarily combersome, though proposals were scrutinised from the point of view of necessity as well as of their technical aspects.

The reports of the Kumar Committee and Dharma Vira Committee got wide publicity in the National Press wherein, amongst other things, demands were made to "overhaul the

---

The Times of India October 4, 1962.

power supply administration in the capital from top to bottom.*

Measures are being taken by the Delhi Electric Supply Committee of the Municipal Corporation to set up a separate unit in the Delhi Electric Supply Undertaking for planning power generation and distribution in the Capital. This scheme was approved in a meeting of the Committee held on November 30, 1962. The Committee also examined the power position in the Capital.. It decided to sanction and additional load of 4,000 KW for industrial units. The Committee directed DESU to reserve a certain amount of load for purposes of the national emergency.

Meanwhile the Power Control Board, consisting of representatives of DESU and the Punjab and U. P. Governments, has granted a contract for Rs. 49 lakhs to an American Firm of Consulting Engineers for the construction of the Rs. 18 crore 'C' Power Station in Delhi. The power station is expected to be completed by the end of the Third Plan.†

An expert view about the permanent solution of the problem of frequent power breakdowns in Delhi

According to a press report emanating from Amritsar and appearing in the Statesman of September 13, 1962 Dr. H. L. Uppal, Director of Land Reclamation and Irrigation and Power Research Institute suggested the canalization of the river Jamuna to solve the problem of frequent power breakdowns in Delhi.

According to him the causes of power breakdown in Delhi in 1958 and in August 1962 were identical- "a shift in the low water channel of the river." While the construction of the Wazirabad barrage had ensured dependable supply for the city no permanent solution of the problem of water supply to feed the Delhi Gate Power Houses had yet been found. The main channel of the river after emerging from the right side of the railway bridge flowed obliquely towards the left bank. Knocking against some spurs projecting into the river from the left bank the river channel was forced to take sharp turn towards the right bank on which the Delhi Gate pump and power houses were situated.

The intensive researches of Dr. Uppal over a number of years conducted on the spot and in his laboratory in Amritsar revealed that flowing along the right bank in a loop the river channel returned to the left bank which was more or less straight at the outfall of Hindon cut. After a short oblique run of about one and a half miles the river flows over the Okhla weir. During the past 25 years the river had constantly striven to take a straight course along its left embankment but it had always been forced to revert to its present course by the construction of long spurs which numbered about 35. One of the recent attempts to straighten its course at its knee-shaped bend located at about two miles downstream of the bridge was made during the floods of 1956. The spurs which deflected the river to the right were damaged and the river channel moved away from the right bank and the power houses. According to Dr. Uppal the scheme of more spurs was defective.

As a permanent solution, Dr. Uppal advocates canalizing the river on its natural straight course along the left marginal bund between the Jamuna bridge and the Okhla weir, a distance of about eight miles with a stone embankment at a distance of about 2,000 feet on the right side and a regulator located at the proper place in the right embankment of the canalized river ensuring power and water supply on a permanent basis. This would put an end to the construction of spurs and frequent dredging. According to estimates of of Dr. Uppal the seheme was estimated at two crores of rupees and would save for the Government of India nearly 5,000 acres of land lying idle. The scheme needs proper scrutiny and if found feasible may be given a practical shape so as to solve the problem of power shortages in Delhi on a permanent basis.

†The Times of India, Delhi, December 1, 1962.

CHAPTER V

EDUCATION

The Importance of Education

In the words of the authors of the Third Five Year Plan of India, "Education is the most important single factor in achieving rapid economic development and technological progress and in creating a social order founded on the values of freedom, social justice and equal opportunity. Programmes of education lie at the base of the effort to forge the bonds of common citizenship, to harness the energies of the people, and to develop the natural and human resources of every part of the country*" Education, looked at from the point of view of economic growth, is investment in human capital, which is no less important than physical or financial capital. For the propar formulation and assessment of educational programmes, accurate edueational statistics are of prime importance.

Source of educational statistics of the Union Territory of Delhi.

From our point of view, sources of educational statistics may be classified into the follohing two groups :

(a) Census sources

(b) Non-census sources

Census sources of educational data

According to the tabulation plan of the 1961 Census, the tables which deal with information on literacy and education are as under :-

(i) Primary Census Abstract, Columns 17 and 18 of the Tabulation Plan.

(ii) Table BHI Part A—Industrial classification of workers and non-workers by educational standards in Urban Areas only.

(iii) Table BIII Part B—Industrial classification of workers and non-workers by educational standards in rural areas only.

(iv) Table BVI - Classification by occupational divisions of persons at work other than at cultivation by sex, broad age-groups and educational standards in urban areas only.

(v) Table BVIII Part A—Persons unemployed aged 15 and above by sex, boord age groups and educational standards in urban areas only.

(vi) Table BVIII Part B—Persons unemployed aged 15 and above by sex and educacational standards in rural areas only.

(vii) Table B IX—Columns 7 and 8 relating to full—time students or children attending school.

(viii) Table C III Part A—Age, sex and education in urban areas only.

(ix) Table C III Parts B—Age sex and education in rural areas only.

(x) Table C VIII Parts A and B—Classification by literacy and industrial category of workers and non-workers among

(a) Scheduled Castes and

(b) Scheduled Tribes

(xi) Table DIV—Migrants to cities elassified by sex, broad age groups, educational standards and in case of workers also by Occupational Divisions and Groups.

(xii) Table S.C.T. III Part A—Education in urban areas only.

*Planning Commission, Govt- of India. Third Five Year Plan, park 1, page 573. Chapter XXIX Education.

(xiii) Table S.C.T. III Part B—Education in rural areas only.

(xiv) Table S.C.I—Scheduled castes not at work classified by sex, type of activity and educational standards.

The above mentioned Census tables, containing Census data on literacy and education in the Union Territory of Delhi have been incorporated in a separate volume called "Census of India 1961, Tables, Volume II B and II C Union Territory of Delhi", compiled by the Supdt. of Census Operations, Delhi. The tables relating to the Scheduled Castes (S.C.T. and S.C. Series) are given in the present volume.

A detailed analysis of literacy and education in the Delhi Territory based on the 1961 Census data, is also found in Chapter on Literacy and Education of the 1961 Census Report of the Union Territory of Delhi by the present authors.

(b) Non-Census sources of Education data

The purpose of the present chapter, however, is to present data relating to various aspects of education in the Union Territory of Delhi as collected from different sources other than the 1961 Census. The Central Education Library, housed in North Block, Central Secretariate, New Delhi is a very fine store-house of books on education. Most of the time-series data on education from 1950-51 to 1957-58 culled from the relevant yearly volume called 'Education in the States of Indian Union A Statistical Survey' published by the Ministry of Education, Government of India, was collected from the Central Education Liberary. The statistical wing of the Central Ministry of Education, housed in Theatre Communications Building, Connaught Place, New Delhi is a very useful place for research workers interested in educational data. The Directorate of Education, the Municipal Corporation of Delhi and the University of Delhi are the other sources tapped for collecting data presented here. Some tables were extracted from the Third Five Year Plan also, for the benefit of research workers and policy makers in the educational field. Data have been presented not merely in absolute figures but also in percentages ie the tables incorporated here.

Tables incorporated in this Chapter

The tables incorporated in this Chapter, from the point of their sources, can broadly be classified into the following groups :

(a) Tables based on data taken from the Third Five Year Plan.

(b) Tables based on data obtained from the Directorate of Education, Delhi.

(c) Tables based on data culled from the series of Volumes 'Education in the States of Indian Union' and supplemented with the records of the Statistical Wing of the Central Ministry of Education, Government of India.

(d) Tables based on data obtained from the Registrar, University of Delhi.

The concerned sources are responsible for the accuracy and reliability of the absolute figures of these tables. The tables based on percentages have been processed in and prepared by the office of the Superintendent of Census. Operations, Delhi.

(a) Tables based on data taken from the Third Five Year Plan published by the Government of India

The following tables are based on data taken from the volume mentioned above :

Table No.	*Concerning*
5a.1	Schooling facilities for children in different age groups in Delhi (1960-61 and 1965-66)
5a.2	Schooling facilities for children in different age groups in Union Territory of Delhi during the years 1960-61 and 1965-66 (percentages)
5a.3	Percentage distribution of the total enrolment in schools between boys and girls in the Union Territory of Delhi for the years 1960-61 and 1965-66.

Table No.	*Concerning*
5a.4	Percentage variation of enrolment in schools planned in the Union Territory Delhi during the years 1965-66 over 1960-61.
5a.5	Distribution of Technical Institutions in Delhi, 1960-61 and 1965
5a 6	Percentage planned increase in number and admission capacity in the technical institutions in Delhi in 1965-66 over 1960-61.

It is to be noted that Tables 5a.2, 5a.3 and 5a.4 are based on table 5a.1, and table 5a.6 is based on table 5a.5. No detailed comments are necessary as the very purpose of the tables having percentages is to make the figures of other tables speak.

(b) Tables based on data obtained from Directorate af Education, Delhi.

The following tables are based on data obtained from the Directorate of Education, Delhi :

Tables No.	*Concerning*
5b·1	Progress in the number of educational institutions(Higher Secondary, Middle, Primary and Non-Basic schools) in Delhi Union Territory 1951-52 to 1959-60.
5b·2	Category-wise percentage distribution of schools in the Union Territory of Delhi, 1951-52 to 1959-60.
5b·3	Percentage distribution of the number of Higher Secondary, Middle, Primary and Non-Basic schools between different sexes in the Union Territory of Delhi (Percentage),
5b·4	Progress in the number of school going children in the Union Territory of Delhi, 1951-52 to 1960-61, (Higher Secondary, Middle and Primary Schools).

It may be noted that tables 5b·2 and 5b·3 which are based on table 5b·1 help elucidating it.

(c) Tables based on data extracted from the series 'Education in the States of Indian Union' and the records of the Statistical Wing of the Central Ministry of Education Government of India.

The following tables are based on data obtained from the sources mentioned in the sub-head above :-

Table No.	*Concerning*
5c·1	Total Number of recognized educattional institutions in the Union Territory of Delhi, 1950-51 to 1959-60.
5c·2	Total number of students on roll in recognised educational institutions in the Union Territory of Delhi, 1950-51 to 1959-60.
5c·3	Index of progress of the number of students on roll in recognized educational institutions in the Union Territory of Delhi (with the year 1950-51 as base=100).
5c·4	Percentage distribution of sex of the number of students on roll in recognized educational institutions in the Union Territory of Delhi.
5c·5	Total number of students on roll, total number of teachers, and number of students per teacher in the Union Territory of Delhi, 1950-51 to 1959-60.
5c·6	Number of institutions in rural areas in the Union Territory of Delhi, 1950-51 to 1959-60.
5c·7	Number of pupils from rural areas in the Union Territory of Delhi (1950-51 to 1958-59).
5c·8	Number of teachers in different types of educational institutions in the Union Territory of Delhi (1950-51 to 1959-60).
5c·9	Number of students passing different Categories of examinations in the Union Territory of Delhi (1950-51 to 1958-59).

Table No.	*Concerning*
5c·10	Sources of expenditure on recognized educational institutions in the Union Territory of Delhi (1950-51 to 1959-60).
5c·11	Percentage distribution of expenditure of recognized educational institutions in the Union Territory of Delhi by sources (Percentages).

It may be stated that Tables 5c·3 and 5c·4 are derived out of table 5c·2 and help in explaining its absolute figures in a meaningful way. Again Table 5c·11 which highlights the role of Central and State Governments in meeting the expenditure on recognised educational institutions in the Delhi Territory, is based on Table 5c·10, which gives the absolute figures of expenditure in rupees.

(d) Tables based on data obtained from Registrar University of Delhi.

The following two tables are based on data supplied by the Registrar, University of Delhi :

Table No.	*Concerning*
5d·1	Directory of colleges in the Union Territory of Delhi as on 31st March, 1961.
5d·2	Number of colleges run by different managing authorities, number of pupils and teachers therein in the Union Territory of Delhi as on 31st March, 1961.

It may be stated that Table 5d·2 which highlights the role of private managements in running the colleges of Delhi and the comparative congestion os pupils in such colleges, is based on Table 5d·1. It may also be clarified that the number of colleges managed by the university which has been given as 4 in column (2) of Table 5d·2 lumps all the University teaching departments as one institution.

Table 5a·1

Schooling Facilities for Children in different Age groups in Delhi (1960-61 and 1965-66)

CHAPTER VI

HEALTH (INCLUDING FAMILY PLANNING AND VITAL STATISTICS).

'Health' in Delhi During the First Five Year Plan Control of Communicable Diseases.

Tuberculosis @

During the first Five Year Plan, a T.B. Centre was established at Delhi for demonstrating tuberculosis control techniques and for training medical and auxiliary personnel. At the tuberculosis hospital at Mehrauli near Delhi, 100 additional beds and a special childrens' ward were added.

Venereal Diseases @

During the period of the First Five Year Plan, a training centre for venereal diseases was established in Delhi.

Medical Education and Research @

During he period of the First Five Year Plan, 84 students were admitted to the Lady Reading Health School at Delhi to train health visitors.

The construction of the All-India Institute of Medical Sciences was taken up during the First Five Year Plan. By the end of 1955-56, roads and essential services had been developed and about 200 staff quarters had been completed, with 98 under construction. The first batch of students was admitted to the first year class of the Institute in August, 1956. The project was assisted by the Government of Newzealand under the Colombo Plan.

With a view to providing post-graduate training to selected personnel, a number of departments in the Vallabhai Patel Chest Institute, Delhi were up-graded during the First Five Year Plan under a scheme the object of which was to give post-graduate training to selected doctors to fit them for teaching and research work.

(b) At the end of the First Five Year Plan period, there were, in all, in the Union Territory of Delhi, 32 hospitals with accommodation for 3052 indoor beds, 45 dispensaries with 40 beds of the Modern System of Medicine, 2 hospitals with 62 beds and 15 dispensaries for Ayurvedic and Unani systems of medicine,. Six dispensaries of Homeopathic system were being run by a charitable trust.

Allocations in respect of Medical and Public Health Schemes of the Union Territory of Delhi for the Period of the Second Five Year Plan (c)

The medical and public health schemes of the Union Territory of Delhi for the Second Plan period along with allocations (in Rs. lakhs) of funds are given below :

Table 6.1

S. No.	Names of the Schemes	Allocations (Rs. lakhs) for the period 1956-57 to 60-61
1.	Expansion of Irwin Hospital (120 additional beds).	18·86
2.	Water borne Sewage system in I.D. and S.J.T.B. Hospital	0·50
3.	Staff quarters in S.J.T.B. Hospital	2·04
4.	Shahdara Hospital, Delhi.	13·25

Anti-malaria Operations

The Director, Malaria Institute of India (now christened as National Institute of Communicable Diseases) is responsible for supervision, control, co-ordination, advice and for carrying out anti-malaria measures. The anti-malaria operations in Delhi have been in vogue since 1936. The National Malaria Control Programme was started in Delhi in the year 1953. This programme was switched on to the National Malaria Eradication Programme in the year 1958-59. The following table, supplied by the Director, Malaria Institute of India speaks of the achievement of the National Malaria Eradication Programme.

Table 6.2

Incidence of Malaria in Delhi, 1936 to 1961

Year	Malaria % in relation to Population	Spleen rate (%)	Parasite rate (%)
1936	10·28	Not available	Not available
1946	3·14	2·1	Not available

Contributory Health Service Scheme

The Contributory Health Service Scheme was introduced by the Government of India in 1954. Under this Scheme, employees of the Central Government or the Statutory Bodies get medical aid on payment of monthly subscription at the rates specified in the following table.

Table 6.3

Rates of Contribution to the C.H.S.S. by the Central Government Employees.

Basic Salary (Rs.)	Amount contributed (Rs.)
2000 and above	12·00
1500—1999	9·00
1000—1499	6·00
750—999	5·00
500—749	7·00
250—499	2·50
151—249	1·50
76—150	0·75
Rs. 75 and below	0·50

There are 45 C.H.S.S. Stationary dispensaries and 2 mobile dispensaries spread all over the urban area of the Delhi Territory.

Provision for hospitals in the Master Plan for Delhi

The Master Plan for Delhi has adopted the criterion of calculation on the basis of one general hospital for every 125,000 people. It is proposed that the size of a hospital should be roughly 500 beds, and 15 acres of land should be reserved for one hospital. It is also proposed that at least one hospital in every planning division should have 25 acres so that it can offer some specialized services not available in the other hospitals. Twenty new sites have been proposed in the various planning divisions, and land has also been alloted for the expansion of Lady Hardinge, Willingdon, Irwin and Safdarjang Hospitals. The following table gives the distribution of the existing and proposed hospitals, in different divisions.

Table 6.4

General Hospitals—Existing and Proposed in Different Planning Divisions of the Master Plan for Delhi.

Planning Division	General Hospitals		
	Existing	Proposed	Total
Old City	1	...	1
Karol Bagh	...	1	1
Civil Lines	1	1	2
New Delhi	3	1	4
Shahdara	...	6	6
South Delhi	2	2	4
West Delhi	...	5	5
West Yamuna Canal	...	4	4
Total	7	20	27

Three more Infectious Diseases Hospitals are proposed, one South of Mehrauli beyond the urbanizable limits of 1981, a second in the West and a third in the North. It may be pointed out that the following existing major hospitals have not been listed in the above table : two Railway Hospitals, and eight other hospitals viz.Dr. Sen's, Ganga Ram, Khairati Ram, Holy Family, Tirath Ram, Balak Ram, Lahore Hospital Society and Mrs. Girdhari Lal. Besides, two T. B. hospitals, one Infectious Diseases Hospital in Civil Lines and one Mental Hospital in Shahdara have also not been included in the above table. *

Family Planning during the Period of the First Five Year Plan. †

The First Five Year Plan described measures directed towards family limitation and the spacing of children as essential steps for securing better health for the mother and better care in bringing up children and, therefore, as an important part of the public health programme. Over a period, the aim outlined was to achieve a reduction in the birth rate to the extent necessary to stablise the population at a level consistent with the requirements of the national economy. The specific tasks proposed to be attempted were :—

(i) to obtain an accurate picture of factors contributing to the rapid population increase,

(ii) to discover suitable techniques of family planning.

(iii) to devise methods by which knowledge and techniques of family planning could be widely disseminated, and

(iv) to make advice on family planning an integral part of the service rendered by Government hospitals and public health agencies.

The Ministry of Health set up a Family Planning Research and Programme Committee in May, 1953. This was followed in May 1954 by the establishment of a Family Planning Grants Committee for examining and recommending applications for financial assistance for family planning work and research. The allotment for family planning under the plans was to be used for providing grants to State Governments, local bodies and voluntary organisations, for training, education and research and for meeting the cost of a central organisation.

During the period of the Five Year Plan, short term training courses in family planning were conducted at New Delhi. Pilot studies in the use of the rythm method of family planning were carried out at the Lodi Colony (New Delhi.)

Family Planning and Demographic Research in Delhi during the period of the Second Five Year Plan. @

During the Second Plan, all States set up special units for family planning work. Considerable amount of research work in family planning was in progress. A demographic

@ See page 676, Third Five Year Plan, Planning Commission Government of India.

research centre was established in Delhi along with other cities like Bombay, Calcutta and Trivandrum. A number of valuable field investigations were carried out in Delhi and at Najafgarh near Delhi.

Family Planning (awareness, belief, knowledge and practice) in selected villages of the Union Territory of Delhi.

Attention of the reader is invited to a study* conducted in six selected villages of Delhi, namely, Mukhmelpur, Zindpur, Khanpur, Bapraula, Begumpur and Barwala relating to awareness, knowledge, beliefs and practices regarding family planning among the currently married males and females of the reproductive age groups. The survey was conducted during the period November 1958 to March 1961. Such variables as age, occupation, number of living children etc., in the context of family planning beliefs and practices were studied.

Reference to the Socio-economic studies of villages by the office of the Superintendent of Census Operations, Delhi.

The list of villages in which Socio-economic surveys have been undertaken by the office of the Superintendent of Census Operations, Delhi as a part of the 1961 Census Programme has been given in the margin at the end of the Chapter 'Community Development, Co-operation and Panchayats' of the present volume. Chapter IV (Social and Cultural Life) in each of these village monographs gives, among other things, useful information about attitudes towards and awareness about family planning practices on the part of the rural folk of Delhi.

Tables on Vital Statistics incorporated

Table 6.5 gives the number of live births by months, sex, and rural-urban areas of the Union Territory of Delhi for the years 1951-1961. The source is the Health Department of the Delhi Municipal Corporation.

Table 6.6 shows the number of deaths by months, sex and rural-urban areas of the Union Territory of Delhi for the years 1951-1961. The source is the same as that of table 6.5

Table 6.7 gives the monthly averages of registered births and deaths from various causes in the Union Territory of Delhi for each of the years from 1951 onwards upto 1961. The sources are quarterly Digests of Economics and Statistics, published by the Bureau of Economics and Statistics, Delhi Administration.

Table 6.8 taken from the 1959-1960 volumes of Vital Statistics of India published by the Registrar General of India gives birth rates, deaths rates and infant deaths in the Delhi Territory (total, rural, urban) for each of the years 1951-1960.

Table 6.9 gives live births in towns each with population over 1 lakh in Delhi Territory, by birth order, for the years 1956-1960.

Table 6.10 gives the distribution of married women of different age groups by education and the number of children born to them, in urban Delhi. Its source is the Fertility Survey conducted by the Superintendent of Census Operations, Delhi, during March—May 1961.

Table 6.11 gives the distribution of married women of different age groups by education and the number of children born to them in rural Delhi. Its source is the same as that of table 6.10.

CHAPTER VII

TRANSPORT AND COMMUNICATIONS

Objectives of Transport Planning for Delhi Metropolitan Area

According to the framers of the Master Plan for Delhi,

"As a general objective, Delhi as a national capital and international centre requires :—

1. Rapid transport and convenient terminals to link Delhi with the rest of India to give easy access for both private citizens and State officials from numerous sections of India to their parliamentary representatives, courts, ministries, public and private financial institutions and large industrial trading headquarters.

2. Adequate and conveniently located terminal to attract international tourism as an aid to accumulation of foreign exchange and to promote Delhi as a centre for international conferences.

3. Adequate transport terminals for visitors to national, cultural, historical, religious centres, national museums and festivals and exhibitions of handicrafts, music and sport."

"As a regional centre, Delhi should have inter-city passenger service connections with the surrounding territory of north west India, common carrier rail and road service for goods transport, road connections for privately owned vehicles, linked up with the surrounding trading and community region which markets its goods in Delhi, buys raw materials, equipment and consumer goods in Delhi, and depends upon Delhi for hospitalization, major educational, cultural, recreational and social facilities. Again, the town planning aspect of meeting these requirements calls for assistance in providing properly located passenger terminals, goods stations and rail sidings and road connections and parking areas to avoid bottlenecks and heavy congestion."

"For intra-urban Delhi transport the chief requirements are :

—a local mass transport system to carry people from home to work by coordinated bus and rail service ;

—well designed and adequate roads and highways and arterial bicycle tracks to provide access to centres of trade and employment and ring roads and loop streets to circulate fast-moving traffic around central congested areas of the city ;

—traffic controls designed to minimise accidents and maximise traffic flow."

Need for accurate and detailed statistics on various aspects of Transport and Communications

The need for accurate and detailed statistics on various aspects of transport and communications cannot be over-emphasised for achieving objectives of transport planning. An attempt has been made in this chapter to present at one place data from different sources on various aspects of transport and communications. Reference has been made both to the 1961 Census data as well as data from other sources.

Reference to the 1961 Census data on workers engaged in Transport and Communications etc.

Industrial Category VIII

In the tabulation plan of the 1961 Census, 'workers' have been classified into the nine

* See Master Plan for Delhi by the Delhi Development Authority, Chapter Twelve.

categories of the Indian Standard Industrial Classification approved by the Government of India. Amongst these nine Industrial Categories of workers, Category VIII gives data on workers engaged in transport, storage and communications.

National Classification of Occupations (N. C. O.)

In the 1961 Census, data has also been tabulated according to different Divisions, Groups and Families as contained in the National Classification of Occupations. Division 6 of the N.C.O. gives data on workers in transport and communication occupations. The Groups and Families of Division 6 of the N. C. O. with their code numbers are as under :

National Classification of Occupations : Division 6—Workers in Transport and Communication Occupations.

Group	Families	Occupations
60		*Deck officers, Engineer officers and pilots, ships.*
	600	Deck officers and pilots, ship.
	601	Ship Engineers
61		*Deck and engine-room ratings (ship), barge crews and boatmen*
	610	Deck Ratings (ship), Barge crews and boatmen
	611	Engine-room ratings, firemen and oilers, ship.
62		*Aircraft pilots, navigators and flight engineers*
	620	Aircraft pilots
	621	Flight Engineers
	622	Flight Navigators
63		*Drivers and firemen, railway engine*
	630	Drivers
	631	firemen
64		*Drivers, Road Transport*
	640	Tram car drivers.
	641	Motor Vehicle and Motor Cycle Drivers.
	642	Cycle rickshaw drivers and rickshaw pullers
	643	Animal drawn vehicle drivers
	649	Drivers, road transport, N. E. C. (including *Palki* and *Doli* bearers).

Group	Families	Occupations
65		*Conductors, guards and brakesmen (railway).*
	650	Conductors.
	651	Guards.
	652	Brakesmen.
66		*Inspectors, supevisors, traffic controllers and despatchers, transport.*
	660	Inspectors, supervisors and station masters.
	661	Traffic controllers.
	662	Signalmen and pointsmen.
67		*Telephone, Telegraph and related telecommunication operators.*
	670	Telephone operators.
	671	Telegraphists and signallers
	672	Radio communication and wireless.
	673	Teleprinters.
	679	Telephone, telegraph and related telecommunication operators, n. e. c.
68		*Postmen and messengers.*
	680	Postmen.
	681	Messengers (including Dak peons).
69		*Workers in transport and communication occupations n. e. c.*
	690	Ticket collectors and ticket examiners.
	691	Conductors, road transport.
	692	Workers in transport occupations n. e. c.
	693	Inspectors, traffic controllers and despatchers, communication.
	694	Workers in communication occupations, n. e. c.

Reference to the Standard Industrial Classification adopted by the Government of India

Division 7 of the Standard Industrial Classification adopted by the Government of India shows the number of workers engaged in transport, storage and communication. The relevant Major and Minor Groups in this Division are reproduced below, along with their codes :

Standard Industrial Classification : Division 7—Workers in Transport, Storage and Communication.

Major Group	Description	Minor Group Code
70—71	Transport :—	
	Transporting by railways.	700
	Transporting by tramway and bus service.	701
	Transporting by motor vehicles (other than omnibus).	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, *ekka*.	703
	Animal transporting by animals such as horses, elephant, mule, camel.	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving.	705
	Transporting by boat, steamer, ferry, etc. by river, canal.	706
	Transporting by boat, steamer, ship, cargoboat by sea or ocean.	707
	Transport by air.	708
	Transporting by other means not covered above.	709
71	Services incidental to transport such as packing, carting, travel agency.	710
72	Storage and Warehousing :—	
	Operation of storage such as warehouses.	720
	Operation of storage such as cold-storage.	721
	Operation of storage of other type.	722
73	Communication :—	
	Postal, telegraphic, wireless and signal communications.	730
	Telephone communication.	731
	Information and broadcasting.	732

The 1961 Census Tables

Columns 31 and 32 of the village-wise Primary Census Abstract give separate figures for male and female workers engaged in transport, storage and communications in each village of the Union Territory of Delhi.

Columns 42,43 and 44 of the Union Primary Census Abstract give figures of persons, males and females working in transport, storage and communications for the Delhi Territory and its Census tracts etc.

Table B-I

Columns 23 and 24 of this table give male and female workers engaged in transport, storage and communications in the Delhi Territory, classified by the following broad age groups :

(i) Total
(ii) 0—14
(iii) 15 – 34
(iv) 35—59
(v) 60+
(vi) Age not stated.

Table B-II

Columns 23 and 24 of this table give data on male and female workers engaged in transport, storage and communications in Delhi Town-group and towns of the Union Territory of Delhi, classified by the same broad age groups as in Table B-I.

Table B-III Part A

Columns 19 and 20 of this table give the number of male and female workers engaged in transport, storage and communications classified by educational levels in urban areas only.

Table B-III Part B

Columns 19 and 20 of this table provide data on the number of male and female workers in transport, storage and communications, classified by educational levels in Rural Areas.

Table B-IV Part B

This table shows, amongst other items of information, industrial classification by sex and class of worker of persons at work in Division 7 'Transport, Storage and communication' in Delhi Territory, its census tracts and zones. The information is provided in this table under the following heads, each head having break-up of males and females separately :

(i) Total
(ii) Employer
(iii) Employee
(iv) Single Worker, and
(v) Family worker.

Table B-IV Part C

Amongst other things, this table provides data regarding workers in Division 7 of the I.S.I.C. and its Major and Minor Groups by sex, under the following heads :

(i) Total Workers
(ii) Workers at household industry
(iii) Workers in non-household industry.

Each of the above three heads contains data separately under the sub-heads :

(i) Total and
(ii) Urban.

Table B-V

This table which shows the occupational classification by sex of persons at work other than cultivation also supplies data corresponding to Division 6 'workers in transport and communication occupations' its related 'Groups' and 'Families'. Information is provided under the two heads :

(i) Total
(ii) Urban

Table B-VI

This table gives data on occupational Division 6 of the N.C.O classified by sex, broad age groups and educational levels in urban areas only.

Table C-VIII Part A

Columns 26 and 27 of this table show male and female workers in transport, storage and communications belonging to the Scheduled Castes only, classified by literacy, for the Union Territory of Delhi, its Census tracts and zones.

Table D-VI

Columns 22 and 23 of this table give the distribution of male and female workers engaged in transport, storage and communications by place of birth for Delhi Town Group.

Table E-III

This table gives data, amongst other things, on Census houses used as factories and workshops in Division 7 of the I.S.I.C. and its related Major and Minor Groups classified by power and no power used and size of employment for the Delhi Territory, with rural and urban break-up.

Table SCT-1 Part A

Columns 21 and 22 of this table give the number of male and female workers in transport, storage and communication for each Scheduled Caste separately.

Reference to the 1961 Census Volumes

Amongst the 1961 Census Tables referred to above, the village-wise Primary Census Abstract, Union Primary Census Abstract of the Delhi Territory, and table S.C.T-I Part A form part of the present volume.

Table E-III forms part of the volume 'Census of India 1961, Report on Housing and Establishments of the Delhi Territory' brought out by the Superintendent of Census Operations, Delhi.

Tables relating to the B series and the C series are published in a separate volume of 1961 Census Tables of the Union Territory of Delhi.

Reference may also be made to some inset tables incorporated in Part D, dealing with workers in manufacturing other than Household Industry, Construction, Trade and Commerce, Transport, Storage and Communications and other services, of Chapter 'The Working Population' of the 1961 Census Report of the Union Territory of Delhi, by the same authors.

The aspects of Transport and Communications touched in the following pages

In the following pages, data have been presented about air transport, railways, roads, telecommunications, post offices, journals and radios etc., culled from different sources.

Air Transport

The first aerodrome development in Delhi was at Willingdon (now called Safdarjang), which is limited to a 3500 feet runway, entirely inadequate for modern types of planes. It is at present used only for Indian Airline's smaller aircraft and private planes of the Delhi Flying Club. Apart from its inadequacy for handling larger aircraft, it is situated in the midst of built-up area of south Delhi. Consequently there is a serious obstruction to the steady flow of traffic on Qutab Mehrauli Road, since this road crosses the flight funnel of Safdarjang Aerodrome.

International flights with larger planes have been transferred to the Palam Aerodrome an Indian Air Force installation in the Cantonment area, south-west of New Delhi.

The provision for civil aviation in the Third Five-Year Plan of India also includes a provision of Rs. 2 crores for undertaking, if necessary, the construction of an entirely new airport at Delhi. The total cost of this

project is estimated of the order of Rs. 12 crores. *

Foreign tourists entering India through Delhi Airports

Table 7.1 gives the figures of tourist arrivals, nationality-wise, through Delhi airports for the period 1956-60. The Department of Tourism of the Government of India, New Delhi, is responsible for the accuracy of the data incorporated in this table.

Table 7·1

Roads and Highway Systems

Historically, one of the first through road routes in India was the Grand Trunk Road connecting north-west India and the Ganges Valley. This route now crosses the Yamuna River on the lower level of the railway bridge between the Red Fort and Shahdara. Between the north-west outskirts of Delhi and the Red Fort, the Grand Trunk Road no longer furnishes capacity for through traffic and its utility has been greatly diminished by encroachments and intersection congestion.

The Delhi Urban Area—a focal point of five national highway systems

Meanwhile the Delhi Urban Area has become a focal point of five national highway systems as follows :

1. National Highway No. 1—	Delhi—Sonepat -Ambala—Jullundur—Amritsar.
2. National Highway No. 2—	Delhi—Mathura—Agra—Kanpur—Allahabad—Banaras—Mohanbari—Calcutta.
3. National Highway No. 8—	Delhi—Gurgaon—Jaipur—Ajmer—Udaypur—Ahmedabad—Baroda—Bombay.
4. National Highway No. 10—	Delhi—Rohtak—Fazilka—Pakistan border.
5. National Highway No. 24 —	Delhi—Ghaziabad—Bareilly—Lucknow.

Reference to some studies by the Ministry of Transport, Government of India

"Road Accidents in Delhi"

The Statistical Branch of the Roads Organisation in the Ministry of Transport, Government of India have made a study of road accidents in Delhi by analysing the data given in the reports of road accidents during the period 1946-50 which were supplied by the Delhi Traffic Police. This study is named 'Road Accidents in Delhi' and was published in 1952 by the Ministry of Transport (Roads Organisation) Government of India.

"New Delhi Travel Survey, 1954"

This publication of the Roads Wing of the Mintstry of Transport, Government of India, which is in two volumes, presents the report on an Origin and Destination Survey of Traffic in New Delhi conducted by the Statistical Section of the Ministry of Transport (Roads Wing) in January, 1954.

"Goods Traffic Survey Delhi, 1957"

This publication of the Department of Transport (Roads Wing), Ministry of Transport and Communications of the Government of India, published in 1959, presents the results of a survey undertaken both in urban and rural areas of Delhi in order to assess the role of road transport in carrying various types of agricultural and industrial goods. Information for this survey was collected for both motor goods vehicles and bullock-carts. At the time of conducting the survey in Delhi, there were about 2,025 motor goods vehicles, and about 12,000 animal drawn carts. The main survey covered information in respect of 358 motor vehicles and 200 animal drawn carts.

Tables on Road Statistics incorporated.

It may be mentioned at the outset that the office of the Consulting Engineer (Road Deve-

lopment) of the Ministry of Transport, Roads Wing, is a useful place for researchers interested in the collection of data concerning roads. The volumes 'Basic Road Statistics of India' and 'Road Facts of India' brought out by this Department are valuable reference books.

Table 7·2 gives some selected items of information about road transport in Delhi for the period 1951-1961. The sources of data are those mentioned in the previous paragraph.

Table 7·3 which gives the number of motor vehicles in the Union Territory of Delhi in relation to road mileage, and population as on 31-3-1961 has been taken from the May 1962 issue of 'Monthly Abstract of Statistics, published by the Central Statistical Organisation of the Government of India.

Table 7·4 taken from the twelfth (1961) Supplement of 'Basic Road Statistics of India' gives the mileage of roads in the Union Territory of Delhi as on 31.3.1961 classified according to function.

Table 7·5 gives the figures of road accidents in Delhi compiled in the Statistical Section of Traffic Police of the Superintendent of Police (Traffic) for the year 1953 onwards upto 1961. The percentages and figures of indices in column (6) were worked out in the office of the Superintendent of Census Operations, Delhi.

Indices of Operation of the D. T. U.

Table 7·6 shows the annual operating summaries for the Delhi Transport Undertaking for the period 1950-51 to 1960-61, which clearly indicate the growth in bus mileage, average buses on road, number of passengers carried and increased capacity per bus. They also illustrate the downward trend in the miles per day which a bus can achieve in the face of growing street congestion.

POSTAL DELIVERY ZONES IN DELHI AND NEW DELHI AND THE AREAS COVERED BY THEM.

New Delhi H.O.- New Delhi-1.

New Delhi Municipal Area north of Rajpath covering Connaught Place & Circus, Paharganj, Parliament Street and House, Secretariat North, North Avenue, Bhangi Colony, Birla Mandir, Janpath (No. 13 onward), National Stadium, Purana Qilla, Bengali Market, Rajghat, Kamla Market and Ajmeri Gate Extension, Vikram Nagar (Old Fort).

Lodi Road—New Delhi-3.

Lodi Estate, Golf Links, Jorbagh, Sujan Singh Park, Sewa Nagar, Defence Colony, Moti Bagh, Nanakpur, North of Medical Enclave (Kidwai Nagar), Sarojini Nagar, Laxmi Bai Nagar, Netaji Nagar, I.N.A. Colony and D.T.U. Shed, South Extension Part I, Karbala Aliganj

Rashtrapati Bhavan—New Delhi-4.

President's Estate, Rashtrapati Bhavan & Willingdon Crescent (Nos. 1 to 10).

Karol Bagh—Delhi-5.

From Model Basti to New Rajinder Nagar, covering Tibbia College, Dev Nagar, Anand Parbat, Anand Nagar, Western Extension Area, New Rohtak Road, Beadonpura, Shidipura and Pusa Road.

Delhi G.P.O.—Delhi-6.

From North of Ajmeri Gate Extension upto Timarpur covering Lal Kuan, Darya Ganj, Jama Masjid, Red Fort, Chandni Chowk, Sadar Bazar, Subzi Mandi, Roshanara Road, Kamla Nagar, Jawahar Nagar, Shakti Nagar, Gur ki Mandi, Rana Pratap Bagh, Kashmere Gate, Civil Lines and University Campus, Andha Mughal.

Kingsway- Delhi-9.

Kingsway Camp, Radio Colony, Hudson Lines, Harijan Colony, T.B. Hospital and

Vijay Nagar, Sawan Park, Nirankari Colony, Model Town.

Delhi Cantt.—New Delhi-10.

Delhi Cantt. Area and Palam Airport.

Chanan Singh Park, Kirby Palace Exchange.

D.H.Q.—New Delhi-11.

Defence Head Quarters, Air Head Quarters, Naval Head Quarters, Udyog Bhavan, Vigyan Bhavan, Sunder Nagar, Prime Minister's House, G.K. Club, G. Block, U.P.S C., South Block, Kashmir House, Bikaner House, Jaisalmer House, Jam Nagar House, Khan Market, Pandara Road, Kaka Nagar, Wellesley Road Flats, Willingdon Crescent (No.11 onwards) and Janpath (Nos. 1 to 12).

Satya Marg (Chanakya Puri) covering Ashoka Hotel, D-I & D-II Flats, Vinay Marg, Railway Road.

A.R.I.—Delhi-12.

Agricultural Research Institute, N.P.L., Ranjit Nagar, Indar Puri, Khampur, Shadipur, Wireless Village, Patel Nagar—East, West & South, Government Milk Dairies.

Jangpura—New Delhi-14.

Hazarat Nizamuddin and Extension, Arabki Sarai, Humayun Tomb. Jangpura and Extension, Lajpat Nagar and Extension, Bhogal, Kailash Colony, Friends Colony, Sant Nagar, Hari Nagar Ashram, Amar Colony, Cheap Colony and Kilokri, Nehru Nagar, Srinivaspuri, Greater Kailash.

D.I. Area—New Delhi-15.

From Zakhira to Rajouri Garden on both sides of Najafgarh Road covering Delhi Industrial Area, South Delhi Industrial Area, Ramesh Nagar, Kirti Nagar, Bali Nagar, Moti Nagar, Village Bassai Darapur and Swatantra Bharat Mills, J.J. Colony, Karampura.

Yusaf Sarai—New Delhi-16.

From Medical Enclave (Ansari Nagar) except North of Medical Enclave (Kidwai Nagar) to Essex Form on Mehrauli Road covering Nauroji Nagar, Yusaf Sarai, Hauz Khas, Pinjra Pole Qrs., Andrewsganj, Green Park, Hauz Khas Extension, Humayunpur, South Extension Part II.

Malviya Nagar—New Delhi-17.

Malviya Nagar, Savitri Nagar, Hauz Rani, Begam Pur and Khirki.

Tilak Nagar—New Delhi-18.

Tilak Nagar, New Tihar, Central Jail, Uttam Nagar, Hari Nagar, Vishnu Gardens, Mukerji Park, Ashok Nagar, Chandnagar.

Kalkaji—New Delhi-19.

Kalkaji Township, Anand Mai Mandir, Overseas Communication Services, Govindpuri.

Industrial Estate—New Delhi-20.

Okhla Industrial Estate & Central Road Research Institute.

Rama Krishna Puram III—New Delhi-22.

Rama Krishna Puram Sector I to IV, Mohdpur Munirka.

Jamia Nagar—New Delhi-25.

Jamia Millia, Okhla Canal Depot and Water Works, Holy Family Hospital, Village Jag Bai, Amarnath Farm, Sarai Juliana and Masihgarh.

Mehrauli—New Delhi-30.

Mehrauli, Wireless Receiving Centre, Chhattarpur, P & T Wireless Station, Ghitorni, Sultanpur, Fatehpur Beri, Maidan Garhi, Madan Gir, Khanpur, Tigri, Adchini, Ber Sarai, Jia Sarai and Lado Sarai.

Gandhi Nagar—Delhi-31.

From North end of Jamuna Bridge to Patpar Ganj Road covering Kailash Nagar, Gandhi Nagar, Raghbrapura, Gita Colony, Krishan Nagar, Jheel Kuranja and Azad Nagar, Ram Nagar.

Shahdara—Delhi-32.

Shahdara Town, Nawin Shahdara, Dilshad Gardens, Jhilmila Taharpur and G.T. Road upto Shahdara border, Silampur Reh Colony, Ram Nagar, Rohtasnagar, Kaboolnagar, Balbirnagar.

A.T. Mills—Delhi-33.

A. T. Mills.

CHAPTER VIII

INDUSTRIES

Questions relating to Industry asked in the 1961 Census

(a) Questions in the individual Census Slip.

Question 10 of the individual Census slip used for the collection of data in the 1961 Census, sought the following information about the individual working at household industry :—

(a) Nature of work_____

(b) Nature of Household Industry_____

(c) If employee _____

Question 11 (b) sought information, amongst other things, about the nature of industry in which the individual was working, while parts (a), (c) and (d) of the same question sought to collect data on nature of work, class of worker and (d) name of establishment.

(b) Questions in the Household Schedule

The Household Schedule used in the 1961 Census had the following part concerning industry :—

B. HOUSEHOLD INDUSTRY

Household industry (not on the scale of a registered factory) conducted by the head of the household himself and or mainly members of the household at home or within the village in rural areas and only at home in urban areas.

Nature of Industry		No. of months in the the year during which conducted
(a)		
(b)		

Part C of the Household Schedule sought information amongst other things, about members including head of family working and hired workers, if any, kept wholetime during current or last working season. The relevant columns of this part are reproduced.

2. Household Industry only.

3. Both in Household Cultivation and Household Industry.

Members of family working				Hired workers
Head	Other males	Other females	Total	

(c) Information on Industries etc. sought in the Houselist proforma of 1961 Census

Column 4 of the Houselist proforma of the 1961 Census sought information regarding the purpose for which the Census house being listed was used. Columns 5 to 8 of the Houselist required the following information under the sub-head "If this Census house is used as an establishment, workshop or factory"

Column 5 : Name of establishment or proprietor.

Column 6 : Name of product (s), repair or servicing undertaken

Column 7 : Average No. of persons employed daily last week (including proprietor, household members, if working).

Column 8 : Kind of fuel or power if machinery is used.

Data extracted from Houselists

The data about the number of Industries in each Minor Group of the I. S. I. C., in different Census Tracts, Zones, Charges and Blocks of the Union Territory of Delhi, as extracted from the Houselists, are given in part 'B' of this volume. The figures in brackets give the number of industries corresponding to the Minor Group of the I. S. I. C. indicated by the figure shown before the brackets.

Reference to the two relevant Industrial categories of Workers

Amongst the nine Industrial Categories of workers adopted in the tabulation plan of the data collected in the 1961 Census, the following are relevant to industries :—

(i) Industrial Category IV gives data about workers at Household Industry.

(ii) Industrial Catagory V gives data about workers engaged in Manufacturing other than Household Industry.

Reference to the 1961 Census Tables

The village-wise Primary Census Abstract of the Union Territory of Delhi gives for each village the number of workers at household industry, with break-up of males and females in columns 23 and 24, respectively, and the number of workers in manufacturing other than household industry, with separate figures for males and females in columns 25 and 26, respectively.

The Union Primary Census Abstract of the Delhi Territory gives the number of workers engaged in household industry, with break-ups of persons (P), Males (M) and Females (F) in columns 30, 31 and 32, respectively and the number of workers engaged in manufacturing other than household industry, separately for persons, males and females in columns 33, 34 and 35, respectively.

Amongst, what are called, the B-Series tables of the 1961 Census, reference may be made to the following for getting data concerning population engaged in household and manufacturing other than household industries :—

Table No. of the 1961 Census Tabulation Plan	Relevant Description
B-I	It gives information about workers and non-workers classified by sex and broad age-groups viz., total, 0-14 years, 15-34 years, 35—59 years, 60+ and age not stated. The age groups are repeated each time for total, rural and urban. Columns 15 and 16 of this table show workers at household industry separately for males and females, followed by columns 17 and 18 showing male and female workers, respectively, who are engaged in manufacturing other than household industry.

B-II Columns 15 and 16 of this table show male and female workers at household industry and columns 17 and 18 give the number of male and female workers engaged in manufacturing other than household industry in cities, town-groups and towns arranged territorially classified by the broad-age-group. (the same as those in Table B-I.)

B-III Part A Columns 11 and 12 of this table give the number of male and female workers at household industry and columns 13 and 14 show the number of male and female workers engaged in manufacturing other than household industry classified by educational levels in Urban Areas Only.

B-III Part B Columns 11 and 12 of this table record the number of male and female workers at household industry and columns 13 and 14 show the number of male and female workers engaged in manufacturing other than household industry according to different educational levels in Rural Areas Only.

B-IV Part A This table gives the Industrial classification by sex and class of workers of persons at work at Household Industry. It has the following 8 columns :-

Column	Description	
1.	Branch of Industry, Division and Major Groups of I.S.I.C.	
2.	Total Rural Urban	
3. 4.	Total	Males Females
5. 6.	Employee	Males Females
7. 8.	Others	Males Females

B-IV Part B This table gives the Industrial classification by sex and class of worker of persons at work in non-household industry also, besides those working in trade, business, profession or service.

B-IV Part C This table gives the Industrial classification by sex and Divisions, Major Groups and Minor Groups of persons at work other than cultivation. Columns 8 and 9 of this table give, respectively, total male and female workers and columns 10 and 11 show male and female workers in urban Delhi, who are engaged in household industry.

B-V It gives the occupational classification by sex of persons at work other than cultivation for each Division and within each Division for each Group and Family. Division 7-8 in this classification gives the occupational data about industries. The nature of information provided is as follows :

TOTAL WORKERS					
Total			Urban		
P	M	F	P	M	F

B-VI Occupationtional Division 7-8 in this table gives the number of persons at work classified by sex, broad age-groups and educational levels in Urban Areas only.

B-VII Part A Amongst other things, this table gives the number of persons working principally at household industry (showing Divisions and Major Groups) classified by sex and by secondary work :-

(i) at household industry

(ii) as cultivator

(iii) as agricultural labourer

The data provided is for groups ; total, rural and urban.

B-VII Part B This table gives the industrial classification by sex of persons working in non-household industry, trade, business, profession or service who are also engaged in household industry.

B Series (ii) Household Economic Tables

B-X This table is based on a 20% Sample. Columns 11,12 and 13 of this table give the number of households engaged in household industry only, with break-ups of total (T), rural (R) and urban (U). Again, columns 14, 15 and 16 of this table give the number of households engaged both in cultivation and household industry, with break-ups of total (T), rural (R) and urban (U).

B-XIII It is based on a 20% Sample. It gives the sampled households engaged both in cultivation and household industry showing size of land cultivated classified by principal household industry in rural and urban areas, separately.

B-XIV It is based on a 20% Sample. It gives data on sampled households engaged only in household industry classified by principal household industry in All Areas.

This table is in two parts. Part A of this table shows the number of households classified by Major Groups of Principal Household Industry and number of persons engaged. Part B, on the other hand, gives data on households classified by Minor Groups of Principal household Industry.

B-XV It is based on a 20% Sample. It shows the sampled households engaged both in cultivation and household industry classified by size of land in rural and urban areas, separately.

B-XVI It is based on a 20% Sample. It provides information regarding sampled households engaged in principal household industry, classified by period of working and total number of workers engaged in household industry in All Areas. The period of working has been categorised as :

(i) 1 to 3 months
(ii) 4 to 6 months
(iii) 7 to 9 months
(iv) 10 months to 1 year.

C-I Part-A It is based on a 20% Sample. Amongst other things, it gives the size of sampled households engaged in household industry only. Data on the following categories of the size of sampled households ase given :

(i) Single member households
(ii) 2-3 members
(iii) 4-6 members
(iv) 7-9 members
(v) 10 members and over

For each of these categories, the following break-ups are shown :

(i) Households
(ii) Males (M)
(iii) Females (F)

C-VIII Part A Columns 18 and 19 of this table give male and female workers amongst the Scheduled Castes who are engaged in household industry. Again, columns 20 and 21 provide data on male and female workers belonging to these castes who are engaged in manufacturing other than household industry. The data is tabulated for categories : total, rural and urban.

D-VI Columns 14 and 15 of this table give the distribution of male and female workers engaged in household industry and columns 16 and 17 show the number of male and female workers engaged in manufacturing other than household industry, classified by place of birth.

E-I The E-series tables are the Housing tables of the 1961 Census. Column 11 of this table gives the number of census houses used as factories, workshops and worksheds.

E-II It is based on a 20% Sample. Column 7 of this table gives the tenure status of the households in census houses used as workshop-cum-dwellings.

E-III It shows the classification of census houses used as factories and work-shops by industry, power and no-power used and size of employment.

SCT-I Part A Columns 13 and 14 of the table give the number of male and female workers at household industry and columns 15 and 16 show the number of male and female workers engaged in manufacturing other than household industry amongst each Scheduled Caste in the Delhi Territory.

REFERENCE TO THE 1961 CENSUS VOLUMES

A. The Present Volume

Amongst the 1961 Census Tables referred to above, the village-wise Primary Census Abstract, the Union Primary Abstract and Tables in the SCT and SC series are incorporated in the present volume.

Barring the E-series tables, the other tables referred to above have been published in a separate volume on tables incorporating the 1961 Census data relating to the Delhi Territory, compiled by the Superintendent of Census Operations, Delhi.

B. Census Report of the Union Territory of Delhi, 1961

Reference may also be made to the comprehensive analysis of the 1961 Census data relating to workers engaged in industries (both household as well as manufacturing other than household industry) contained, amongst other chapters, in chapter on Working Population (especially its parts C & D) of the 1961 Census Report of the Union Territory of Delhi, by the present authors.

C. Report on Housing and Establishments of the Union Territory of Delhi, 1961.

As regards the E-series data, these are contained in part B of our volume 'Census of India-1961 Report on Housing and Establishments of the Union Territory of Delhi'. Chapter IV-Factories and workshops-of this volume gives quite a comprehensive account of the Census houses used as factories and workshops in the Union Territory of Delhi. This Chapter studies in detail, besides other things, 13 major Groups of industries in the Union Territory of Delhi. The aspects studied are : the component Minor Groups of the Major Group under study, locational aspect, employment aspect and information regarding the sources of energy used by the industry. The following tables in the volume, referred to above, may be looked into by the interested readers.

Table No. in the above-mentioned Volume	Description
2·9	No. of Census houses used as factories, workshops and worksheds as a percentage to total occupied houses in Delhi, its census tracts and zones, 1961.
4·1	Percentage distribution of the factories and workshops into those using some kind of fuel and those using no power.
4·2	Percentage distribution of the factories, and workshops into those using some kind of fuel and according to different categories of fuel.
4·3	Percentage distribution of the total number of factories and workshops by size of employment, Delhi Territory and its census tracts.
4·4	Percentage distribution of factories and workshops using some kind of fuel etc. and those not using any fuel etc. classified by three categories of employment.
4·5	Factories and workshops classified by Major Groups.
4·6	Distribution of the total number of factories and workshops in Major Group (36) into Minor Groups in the Union Territory of Delhi.
4·7	No. of factories and workshops in Minor Groups of Major Group (36) in different localities of Zone II—City-Sadar-Pahar ganj.
4·8	Distribution of the total number of factories and workshops in Major Group (36) in the Union Territory of Delhi, according to different categories of size of employment.
4·9	Distribution of the factories and workshops in Major group (39) 'Miscellaneous Manufacturing industries' in the Union Territory of Delhi into Minor Groups.

4·10 No. of factories and workshops in Minor Groups of Major group (39) in different localities of Zone II—City-Sadar-Paharganj.

4·11 Distribution of the total number of factories and workshops in Major Group (39) in the Union Territory of Delhi, according to different categories of the size of employment.

4·12 Factories and workshops in different Minor groups of industries relating to Major Group (30) in Delhi Territory.

4·13 Minor groups of factories and workshops in Major group (30) in different localities of Zone II—City-Sadar-Paharganj.

4·14 Distribution of the total number of factories and workshops in Major group (30) in the Union Territory of Delhi, according to different categories of the size of employment.

4·15 Minor Groups of industries in Major Group (20) in the Union Territory of Delhi.

4·16 No. of factories and workshops relating to industries in Minor Groups of Major Groups (20) in different localities of Zone II—City-Sadar-Paharganj.

4·17 Distribution of the total number of factories and workshops in Major Group (20) in the Union Territory of Delhi, according to different categories of the size of employment.

4·18 Distribution of the factories and workshops in Major Group (38) 'Transport Equipment' in the Union Territory of Delhi into Minor Groups.

4·19 No. of factories and workshops in Minor Groups of Major Groups (38) in different localities of Zone II—City-Sadar-Paharganj.

4·20 Distribution of factories and workshops relating to industries in Major Group (38) in the Union Territory of Delhi, according to different size groups of employment.

4·21 Distribution of the factories and workshops in Major Group (37) in the Union Territory of Delhi into Minor Groups.

4·22 No. of factories and workshops in Minor Groups of Major Group (37) in different localities of Zone II—City-Sadar-Paha ganj.

4·23 Distribution of factories and workshops relating to industries in Major Group (37) 'Machinery and Electrical equipment' in the Union Territory of Delhi, according to different size groups of employment.

4·24 Distribution of the total number of factories and workshops relating to industries in Major Groups (28) 'Manufacture of wood and wooden products' in the Delhi Territory into Minor Groups.

4·25 No. of factories and workshops in Minor Groups of Major Group (28) in different localities of Zone II— City-Sadar-Paharganj.

4·26 Distribution of factories and workshops in Major Group (28) in the Union Territory of Delhi, according to different size groups of employment.

4·27 Distribution of factories and workshops relating to industries in Major Group (27) 'Textile Miscellaneous' in the Union Territory of Delhi into Minor Groups.

4·28 No. of factories and workshops in Minor Groups of Major Group (27) in different localities of Zone II—City-Sadar-Paharganj.

4·29 Distribution of factories and workshops in Major Group (27) in the Delhi Territory, according to different size groups of employment.

4·30 Minor Groups of Major Group (31) in Delhi Territory.

4·31 Distribution of factories and workshops in Major Group (31) in the Delhi Territorry, according to different size groups of employment.

4·32 Distribution of total number of factories and workshops in Major Group (33) into Minor Groups in the Union Territory of Delhi.

4·33 No. of factories and workshops in Minor Groups of Major Group (33) in different localities of Zone II—City-Sadar-Paharganj.

4·34 Distribution of factories and workshops in Major Group (33) in the Delhi Territory, according to different size groups of employment.

4·35 Distribution of number of factories and workshops of Major Groups (34) and (35) into Minor Groups in the Union Territory of Delhi.

4·36 No. of factories and workshops in Minor Groups of Major Groups (34) and (35) in different localities of Zone II—City-Sadar-Paharganj.

4·37 Distribution of factories and workshops in Major Groups (34) and (35) in the Union Territory of Delhi, according to different size groups of employment.

4·38 Distribution of the total number of factories and workshops relating to industries in Major Group (29) 'Paper and paper products' in the Union Territory of Delhi into Minor Groups.

4·39 Distribution of factories and workshops in Major Group (29) in the Union Territory of Delhi, according to different size groups of employment.

4·40 Distribution of factories and workshops in Major Group (21) 'Beverages' in the Union Territory of Delhi into Minor Groups.

4·41 Distribution of factories and workshops in Major Group (21) in the Union Territory of Delhi, according to different size groups of employment.

4·42 Distribution of factories & workshops in Major Group (23) 'Textile—Cotton' into Minor Groups in the Union Territory of Delhi.

4·43 No. of factories and workshops in Minor Groups of Major Group (23) in different localities of Zone II—City-Sadar-Paharganj.

4·44 Distribution of factories and workshops in Major Group (23) in the Union Territory of Delhi, according to different size groups of employment.

Tables relating to industries incorporated in this Chapter

Table 8.1 shows the growth of manufacturing industries in the Union Territory of Delhi, 1946-58. It presents of the data of the Census of Manufacturing Industries conducted by the Ministry of Commerce and Industry, Government of India. The explanation of the terms used in this table is as follows :-

(*i*) **Registered Factories**

For the purpose of the Census*, only factories registered under the Factories Act 1948, which employ 20 or more workers on any day and use power are taken into account. Factories in existence during the year which did not work are also included.

(*ii*) **Average number of days worked**

This is computed by adding the number of days worked by the factories in the State or industry as the case may be and dividing the aggregate by the number of factories where manufacturing operations were carried on.

(*iii*) **Productive Capital**

Capital employed in the relevant date in the factory itself and in running it is covered by this term. It consists of fixed Capital (comprising of factory-land, buildings, plant, machinery and miscellaneous assets such as furniture, fixtures, fittings, Railway-Sidings, automoblies, patents and trade marks etc.) and working capital (Comprising of stocks of Raw materials, Finished and Semi-finished products, Cash in hand and at the Bank

* The term Census refers to Census of Manufacturing Industries.

excluding fixed deposits, and current credits). The value of capital items is to be taken from the books of factories. The estimates under the various Heads of Capital relate to 31st December of the year, in the case of factories which close their accounts on that date and in other cases to the date on which accounts were last closed prior to 31st December.

(*iv*) Number of Persons employed

The average number of persons employed by each factory, under various heads such as workers, persons other than workers, etc., on days on which manufacturing operations were carried on in the factory, is computed by adding the number of persons employed on all these days and dividing by the number of days. These averages are aggregated for all factories in the State or Industry as the case may be, and the aggregate is taken as the number of persons employed in the State or Industry, respectively.

(*v*) Workers

The term workers is used in the same sense as in the Factories Act, 1948, but excludes persons holding positions of supervision or management or employed in a confidential position. Section 2(1) of the Factories Act, 1948 defines worker as a person employed, directly or through any agency, whether for wages or not, in any manufacturing process or in cleaning any part of the machinery or premises used for a manufacturing process or in any other kind of work incidental to, or connected with the manufacturing process, or the subject of the manufacturing process. Workers employed on days in which only maintenance work was carried on are, however, excluded.

(*vi*) Other than workers

This term includes all employees other than workers, as defined in (v) above.

(*vii*) Man-Hours

The estimate of the number of man-hours worked by a factory during the year relates to the entire year, including days on which no manufacturing operations were carried on, and is calculated by multiplying the number of workers employed in each shift by the number of hours in the shift and aggregating the products for all the days in the year. The number of man-hours for a State or an Industry is the total of the number of man hours worked by all factories in that State or Industry.

(*viii*) Wages

The term wages has been used in the same sense as in section 2 (vi) of the Payment of Wages Act, 1936, and means "all remuneration capable of being expressed in terms of money which would, if the terms of the contract of employment, express or implied, were fulfilled, be payable whether conditionally upon the regular attendance, good work or conduct or other behaviour of the person employed or otherwise, to a person employed in respect of his employment or of work done in such employment, and includes any bonus or other additional remuneration of the nature aforesaid which would be so payable, and any sum payable to such person by reason of the termination of his employment, but does not include :-

(a) The value of any house accommodation, supply of light, water, medical attendance or any other amenity, or of any service excluded by genral or special order of State Government.

(b) any contribution paid by the employer to any pension, fund or provident fund ;

(c) any travelling allowance or the value of any travelling concessions ;

(d) any sum paid to the person employed, in defraying special expenses entailed on him by the nature of his employment, or

(e) any gratuity payable on discharge.

Source : 'Census of Manufacturing Industries' Ministry of Commerce and Industry, Udyog Bhawan, New Delhi.

(*ix*) **Benefits**

These include various benefits, over and above wages, such as free or subsidised housing, food grains at concessional rates etc.

(*x*) **Materials and Fuel consumed**

This excludes any fuel or materials manufactured within the factory and consumed in it. Electrical energy generated and consumed within the factory is a case in point. The coal used in generating the energy is, however, included since it is brought into the factory from outside.

(*xi*) **Value at factory of materials, fuel, etc.**

This is the cost of materials, etc., delivered at the factory, and includes the purchase price, transport charges and other incidental costs.

(*xii*) **Amount Paid to other concerns for work done for factory**

This term denotes the cost of services rendered to the factory by other concerns and by individuals other than its own employees.

(*xiii*) **Products and By-products manufactured for sale**

This term includes all products and by-products made during the year for sale, whether actually sold during the year or not. It is generally estimated by adding sales during the year and stocks at the end of the year and deducting stocks at the beginning of the year.

(*xiv*) **Ex-Factory value of products, and by-products**

Represents the value of products and by-products at factory, and is exclusive of transport charges from the factory.

(*xv*) **Amount received from others for work done for them**

Work done for customers on payment on materials supplied by them.

(*xvi*) **Value Added by Manufacture**

This represents that part of the value of the produce which is created in the factory, and is computed by deducting from the gross ex-factory value of output the value at factory of fuels and materials used, work done for factory by other concerns and depreciation of fixed assets.

As an aid to the analysis of table 8·1, table 8·2 gives the indices of the values under different heads in the Census of Manufacturing Industries relating to the Union Territory of Delhi with the year 1951 as base=100. The indices were calculated in the office of the Superintendent of Census Operations, Delhi, on the basis of the absolute figures contained in table 8·1.

Table 8·2

Indices of the Values under different heads in the Census of Manufacturing Industries Relating to the Union Territory of Delhi

(Base 1951=100)

	1946	1947	1948	1949	1950	1951 (=100)	1952	1953	1954	1955	1956	1957	1958

Data relating to the Annual Survey of Industries, 1959

An annual survey of industries (A. S. I.) was conducted by the Government of India under the provisions of the Collection of Statistics Act, 1953, and Collection of Statistics (Central) Rules. 1959, framed thereof. The Collection of Statistics Act, 1953, does not apply to Jammu and Kashmir but factories in that State are covered on a voluntary basis. Factories employing 50 or more workers with the aid of power, or 100 or more workers without the aid of power are completely enumerated. The remaining factories, namely, employing 10 to 49 workers with the aid of power or 20 to 99 workers without the aid of power, are covered on the basis of probability sample. The data relating to the former, that is, the Census part of the survey are given in Tables 8·3 and 8·4 below. The industries covered were some 269 classified according to the International Standard Industrial Classification. The results are given below for India as a whole, as well as for the different States, including the Union Territory of Delhi.

Table 8·3 gives a State-wise account of the aggregates indicating the broad industrial structure of the different industrialised states in India.

Table 8·3

Important Aggregates in respect of India and Important Industrialised States

States	No. of factories	*Productive Capital (Rs. Crores)	Employment (1000)	Man-hours (Million)	Ex-factory Value of output (Rs. Crores)	Value added by manufacture (Rs. crores)
1	2	3	4	5	6	7
India	8607 (8223)	1737	2897	5453	2691	813
Delhi	137 (134)	19	40	84	54	14
Maharashtra	1641 (1593)	411	607	1190	669	215
W. Bengal	1340 (1289)	377	662	1302	598	188
Gujarat	734 (724)	127	295	569	238	78
Bihar	255 (247)	246	174	321	230	75
Madras	741 (688)	84	198	391	168	51
U.P.	511 (493)	116	258	440	208	47
Andhra-Pradesh	454 (444)	58	136	182	95	19
Assam	441 (432)	67	69	102	89	32
Orissa	85 (78)	38	20	41	26	9
Punjab	340 (327)	41	69	134	82	17
M. P.	649 (583)	32	87	151	55	13
Kerala	626 (571)	37	125	248	70	22
Mysore	484 (468)	59	104	193	80	26
Rajasthan	103 (98)	21	43	87	25	7

*Net of depreciation but gross of non-industrial services.

Figures in brackets in column 2 show number of factories from whom returns were received.

SOURCE : A bird's eye view of India in 1959, an article in Economic Times, Bombay.

Table 8·4 shows certain important structural co-efficients for all industries taken together for India as a whole and for a number of States, separately. The ratios shown are capital per unit of output, capital per unit of labour and output per unit of labour. In addition, the ratio value added by manufacture by man-hours worked is also shown.

Table 8·4

Structural Co-efficients

Union/States	Capital output	Capital Labour (Rs.)	Output Labour (Rs.)	Value added by manufacture (Rs.)
1	2	3	4	5
1. India	0·65	5990	9279	1·49
2. Maharashtra	0·61	6850	11150	1·81
3. W. Bengal	0·63	5386	8543	1·45

Table 8·4 (a) which gives the structural Co-efficients of Manufacturing Industries in the Union Territory of Delhi for the years 1946 to 1958 is based on table 8·1. It has been worked out in the office of the S.C.O., Delhi.

Table 8.4 (a)

Structural Coefficients of manufacturing industries in the Union Territory of Delhi (1946-58)

Year	Capital-output	Capital-Labour	Output-Labour
1	2	3	4
1946	0.53	2037	3817
1947	0·61	2470	4041
1948	0·46	2811	6166
1949	0·57	3667	6391
1950	0·59	3710	6265
1951	0·49	3932	8040
1952	0·56	4346	7823
1953	0·45	3869	8506
1954	0·46	4011	8779
1955	0·44	4186	9619
1956	0·38	4285	11380
1957	0·38	4753	12597
1958	0·40	5115	12766

SOURCE : Based on table 8·1

Note :-

(i) Figures in Column 2 have been obtained by dividing the capital figures by output figures.

(ii) Figures in Column 3 have been obtained by dividing the capital figures by Labour figures.

(iii) Figures in Column 4 have been obtained by dividing the output figures by Labour figures.

Table 8·5 showing the number of establishments and the average number of daily workers employed in two broad groups of industries viz., textiles and non-textiles and their sub-groups in the Delhi territory for the year 1951-60, has been taken from the Quarterly Digests of Economics and Statistics, published by the Delhi Administration, which is, therefore, responsible for the reliability of statistics incorporated in this Table.

The source of table 8·6 which shows the production of cotton textiles and yarn in Delhi State for the years 1951 to 1961 is also the same as referred to above.

Table 8.5

Number of Establishments and Number of Workers

CHAPTER IX

AGRICULTURE

The 1961 Census and data on Cultivation etc.

The 'individual slip' designed for the collection of data in the 1961 Census sought information, amongst other things, if the individual concerned was working as cultivator (col. 8) or working as agricultural labourer (col. 9). The Household Schedule used during the 1961 Census sought to collect the following data in its part A :

A. CULTIVATION	Local name of right on land	Area in acres
1. Land under cultivation by Household.		
(i) Owned or held from Government		
(ii) held from private persons or institutions for payment in money, kind or share.		
(iii) Total of items (i) and (ii)		
2. Land given to private persons for cultivation for payment in money, kind or share.		

Reference to the 1961 Census Tables

The data collected in the Household Schedule, mentioned above, was tabulated in what is called as B series—Economic Tables part (ii) Household Economic Tables. The following tables and relevant parts thereof may be referred to by the interested readers :

1961 Census Table No.	Relevant information concerning cultivators etc. contained.
B X	It is based on a 20 % sample of the Households. Amongst other items, it gives data on households engaged in cultivation only, with break-up of Total (T), Rural (R) and Urban (U). Also, it gives data on Households engaged both in cultivation and household industry, with break-up of T, R and U.
B XI	It is based on a 20% sample of the households and provides data on sampled households engaged in cultivation classified by interest in land and size of land cultivated in rural and urban areas, separately. The three interests in

cultivated land for each of which data have been tabulated are :

(1) Owned or held from Government.

(2) Held from private persons or institutions for payment in money, kind or share.

(3) Partly held from Government and partly from private persons for payment in money, kind or share.

The size-groups of cultivated land in acres are :

(i) Less than 1

(ii) 1·0 –2·4

(iii) 2·5– 4·9

(iv) 5·0—7·4

(v) 7·5 –9·9

(vi) 10·0 – 12·4

(vii) 12·5—14·9

(viii) 15·0—29·9

(ix) 30 0—49·9

(x) 50 +

(xi) unspecified

B XII

It is based on a 20% sample of the Households and seeks to provide information on the sampled households engaged in cultivation only, classified by size of land cultivated and number of family workers and hired workers in rural and urban areas separately. The class ranges (in acres) of the size of cultivated land are the same as in Table B XI. The cultivating households have been distributed according to the following categories of the number of persons engaged in cultivation :

(i) 1 person

(ii) 2 persons

(iii) 3—5 persons

(iv) 6—10 persons

(v) More than 10 persons

Under each of the above categories of the number of persons engaged in cultivation, the following items of information are given :

(i) Households

(ii) Family workers] Males Females

(iii) Hired workers.

B XIII	It is based on a 20% sample of the Households. It gives data on sampled Households engaged both in cultivation and household industry, showing size of land cultivated, classified by Principal household industry in rural and urban areas separately.
B XV	It is based on a 20% sample of Households and shows the sampled households engaged both in cultivation and household industry classified by size of land in rural and urban areas, separately, The class ranges of the size of cultivated land in acres are the same as mentioned in the case of Table B XI.
B XVI	It is based on 20% sample of Households. Amongst other items, it also gives data on sample Principal Household Industry ((a) with cultivation) classified by period of working and total number of workers engaged in household industry in all areas.

Besides the B—series tables of the 1961 Census. mentioned above, reference may be made to the following 3 out of the nine Industrial Categories of workers of the Standard Industrial Classification of the Government of India, adopted in the Tabulation Plan of the 1961 Census :

Industrial Category No.	Workers
I	As cultivators
II	As Agricultural Labourers
III	In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantation, Orchards and allied activities.

The village-wise Primary Census Abstract incorporates information, besides the other items, about the three Industrial Categories of workers mentioned above with break-up of Males and Females. The Union Primary Census Abstract of the Delhi Territory also incorporates information about the three *Industrial Categories* of Workers referred to above, with break-up of persons, males and females. Again in Table BI, BII, BIII Part A, and B III Part B data about these three industrial categories is available with break-up of males and females. Reference may be made to Table B VII Part A which gives data on persons working principally (i) as Cultivators (ii) as agricultural labourers or (iii) at Household Industry classified by sex and by secondary work (i) at Household Industry (ii) as Cultivator or (iii) as agricultural labourer.

Reference to the 1961 Census Volumes

The Village Directory or village-wise Primary Census Abstract and Union Primary Census Abstract form part of the present volume.

For the B-series Tables, referred to above, reference may be made to the volume 'Census of India, 1961, TABLES, The Union Territory of Delhi', compiled by the Superintendent of Census Operations, Delhi.

For a detailed analysis of the data based on 1961 Census, reference may also be made amongst other Chapters, to Chapter on Work-

ing Population of the 1961 Census Report of the Union Territory of Delhi, by the present authors.

The scope of the present Chapter

The scope of the present chapter is, however, limited to the presentation of data on various aspects of agriculture as available from sources other than the 1961 Census. An attempt has been made to incorporate data for as many years as possible. For the benefit of the scholars interested in the agro-economic problems of Delhi Territory, an attempt has been made not merely to provide absolute figures alone, but also to process various percentages and other indices which may be found useful for analytical purposes.

Sources of Data

The library of the Directorate of Economics and Statistics, Ministry of Food and Agriculture, Government of India, which is housed in Krishi Bhawan, New Delhi, is a useful place for researchers in problems of agricultural economics. The tables incorporated in this chapter are from various publications of the Directorate of Economics and Statistics, Ministry of Food and Agriculture, Government of India, Reports of the Five-Year Plans, Eight years of Community Development in Delhi, published by the Directorate of Publications and other sources. Besides the Ministry of Food and Agriculture, the Meteorological Department, the Revenue Department of Delhi Administration and other sources were also tapped.

Reliability of Data

For the reliability of data, the various sources tapped are responsible. The indices and percentages etc. were calculated in the office of the Superintendent of Census Operations, Delhi.

The Soils of Delhi

The soils of Delhi have been categorised* as under :—

NE : Recent alluvium
SE : Hilly soil
NW : Old alluvium
SW : Old alluvium

Mechanical analysis of soil of the Union Territory of Delhi indicates that they are in general sandy loams, course fractions forming about 70 per cent and the fine fractions about 30 per cent of the bulk. The soils are rather poor in nitrogen and organic matter. The soils are well supplied in total and available phosphorus and potash. The water extracts of the soils show a general alkaline tendency with an average PH of 8.0 The manurial experiments indicate that the soils of the Union Territory of Delhi respond very favourably to nitrogenous and phosphatic fertilisers, especially to ammonium sulphate and rope cake.

An informative account of the physical features including the types of soil found in Delhi is given on pages 6 and 7 of 'Census of India, 1931, Volume XVI, Delhi, Report and Tables by Khan Ahmad Hasan Khan, M.A., K.S. The following paragraphs are extracted from this source :

The Union Territory of Delhi lies between 28°. 25′ and 28°.53′ north latitude and 76°.90′ and 77°.20′ east longitude. Its greatest length is 33 miles and the greatest breadth is 30 miles. The area, according to the most recent survey is 573 square miles, the bulk of which lies on the Western bank of the Jamuna. Some villages and the town of Shahdara, taken over from the erstwhile United Provinces are situated across the river. The dominating physical feature of the Province is the Ridge, the last spur thrown out by the Aravallis towards the rich and level plains of Hindustan. This Ridge

* Vide letter No. 26/3/61—RG of the Government of India, Ministry of Home Affairs, Office of the Registrar General, India dated 12th February, 1962, page No. 17.

almost reaches the water's edge at the small village of Wazirabad, then runs parallel to the river encircling Shahjahanabad and extending to the western side of New Delhi, where on one side of its spurs are situated the Government of India Secretariat and the Rashtrapati Bhawan. It then runs towards the Qutab and Mahrauli, where it throws out numerous branches, some of which extend into Gurgaon District and others push eastward again towards the river. One of the highest spurs supports the Fort of Tughlakabad. The whole space between the river and the Ridge, a triangle with apex at Wazirabad and the base extending between Tughlakabad and Mehrauli, has been the site of the various cities and bears the name of *khandrat* (ruins and boulders), the southern portion near Mehrauli and Tughlakabad being known as *Kohi* (hilly). The low-lying land along the river is called *khadar*, and the tract lying to the north of the Ridge and the west of the Grand Trunk Road, which separates it from the *khadar*, is a level plain known as *bangar*, a considerable portion of which receives irrigation from the Western Jamuna Canal. There is a depression near the town of Najafgarh where water from the western side of the Ridge accumulates during the rainy season and forms into what is known as the Najafgarh Jhil (lake). This locality has stiff, hard soil known as *dabar*. From the Jhil (lake), an escape has been constructed to carry off the superfluous water during the rains to the river Jamuna, which it joins just above the village of Wazirabad.

According to the authors of the Master Plan for Delhi also, "Physically, the Delhi countryside may be divided into four tracts, viz. riverain tract or *khadar*, the low lying tract or *dabar*, the hilly tract or *kohi* and the level tract or *bangar*"*

RAINFALL, IRRIGATION

Rainfall

The statistics relating to monthly and annual rainfall and number of rainy days, obtained from the Meteorological Office, are shown in Tables 9·1 and 9.2. These give month-wise data for the years 1951-1960 at these stations :

(i) Mehrauli
(ii) Delhi Sadar
(iii) Nangloi
(iv) Shahdara
(v) Najafgarh
(vi) Badli
(vii) Alipur
(viii) Narela
(ix) New Delhi.

Irrigation

Table 9·3 gives the source-wise distribution of irrigated area (in acres) in the Delhi Territory from 1920-21 onwards upto 1960-61. The sources of irrigation, for which data is given in the table, are canals, wells, tanks and other sources. The source of this table is Agricultural Statistics of India, published by the Directorate of Economics and Statistics, Ministry of food and Agriculture, Government of India.

As an aid to the analysis of this table, follows table 9·4 showing the percentage distribution of the irrigated area, source-wise, in the Union Territory of Delhi (1920-21 to 1960-61). It is based on Table 9·3 mentioned above, the percentage figures being calculated in the office of the Superintendent of Census Operations, Delhi. It is to be noted that canals and wells are the two major sources of irrigation in the Union Territory of Delhi.

Another Table 9·4 (a) showing more detailed information about sources of water-supply in the Union Territory of Delhi has also been given. It gives data for the years 1950-51 to 1959-60. The items about which information is provided are :

(i) Government canals — No.
Mileage
(ii) Tube Wells — Government
Private
Total

*See Master Plan for Delhi, Chapter 14, Rural Delhi, prepared by the Delhi Development Authority.

(iii) No. of other private wells used for irrigation purposes } Masonry, Non-masonry

(iv) Number of total wells in use for irrigation purposes.

(v) Number of wells used for domestic purposes only.

(vi) Number of wells not in use.

The source of data in this table is Season and Croup Report, obtained from Kanungo's Office, Tis Hazari, Delhi.

The efforts of the Community Development Department in providing irrigation facilities in the Delhi Territory during the years 1953-54 to 1959-60 are shown in Table 9·5, which has been taken from the brochure 'Eight Years of Community Development in Delhi' published by the Directorate of Public Relations, Delhi.

The area (in acres) under irrigated crops in the Delhi Territory from 1920-21 to 1960-61, taken from the Agricultural Statistics of India, is presented in Table 9·6. The Crops for which irrigated area is given are rice, wheat, barley, jowar, bajra, maize, other food cereals and pulses, sugarcane, other food crops, cotton and other non-food crops.

The pattern of land utilization in the Delhi Territory

The pattern of land utilization in the Delhi Territory is shown by Table 9.7. The data presented are in a series, starting from the year 1920-21 onwards upto the year 1960-61. The classification of the area is in these categories : (i) forests, (ii) not available for cultivation, (iii) cultivable waste other than fallow, current fallow, (iv) net area cropped and (v) total.

As an aid to the analysis of this table, follows Table 9.8, 'Pattern of Land Utilization in the Union Territory of Delhi, 1920-21 to 1960-61,' which gives the percentages under each of the above-mentioned categories to the total area for each year.

It may be mentioned that the source of Table 9.7 is Agricultural Statistics of India, Directorate of Economics and Statistics, Ministry of Food and Agriculture, Government of India. Figures of Table 9.8, which are based on figures of Table 9.7, were processed in the office of the Superintendent of Census Operations, Delhi.

Even at the risk of a bit of duplication, another Table 9.9 'Classification of Reporting Area (in thousand acres) which has more detailed and currently used categories of classification of land utilization statistics has been incorporated, giving the data for the years 1950-51 onwards upto 1959-60. Agricultural Statistics of India as referred to above is the source of the data of this table; data for the years 1957-58 to 1959-60 was supplemented from the Season and Crop Report, procured from the Tehsil Office, Delhi.

It would be noted from Tables 9.7 and 9.8 that some figures start appearing under the head 'forests' from the year 1955-56 onwards. The efforts of the Community Development administration in afforestation in the Union Territory of Delhi for the years 1951-52 to 1960-61 are shown in Table 9.10 which has been extracted from the brochure, 'Eight years of Community Development in Delhi' published by the Directorate of Public Relations, Delhi.

'8 Years of Community development in Delhi,' Directorate of Public Relations, Delhi.

How intensive is agriculture in the Union Territory of Delhi ?

The proportion which area sown more than once bears to the gross cropped area during a particular year is a useful indicator of intensiveness with which agriculture is undertaken. Table 9·11 shows net area sown and area sown more than once as a percentage to the gross cropped area in the Union Territory of Delhi for the years 1920-21 to 1959-60. It was processed in the office of the Superintendent of Census Operations on the basis of the absolute figures available with the Directorate of Economics and Statistics of the Ministry of Food and Agriculture, Government of India.

Another useful concept is the index of 'intensity of cropping'. It is derived as under:

$$\frac{\text{Gross cropped area}}{\text{Net area sown}} \times 100.$$

The indices of intensity of cropping in the Delhi Territory, worked out in the office of the Superintendent of Census Operations, Delhi, for the years 1920-21 onwards upto 1959-60 are found in column 4 of table 9·12.

Table 9·11

Net area sown and area sown more than once as a percentage to the gross cropped area in the Union Territory of Delhi, (1920-21 to 1959-60)

Area and production of principal crops

Table 9·13 shows the area and production of principal crops in Delhi Territory from the year 1951-52 onwards upto 1960-61. The area, with its break-ups of irrigated, un-irrigated and total, is in acres and production is recorded in tons. The principal crops for which data is given in this table are : rice, jowar, bajra, maize, wheat, barley, gram, sugarcane, chillies, oilseeds, cotton, potatoes, tobacco, fruits, vegetables and pulses. The Tehsil office, Delhi, which is the source of this table is responsible for the accuracy and reliability of the data.

The crop competitions in wheat

Table 9·14 gives data on crop competitions in wheat in some States of India, including the Union Territory of Delhi, during the year 1952-53. It has been taken from an article "Agricultural Production in the Five Year Plans" by Mr. V. T. Krishnamchari, Ex-Deputy Chairman of the Planning Commission; published in the booklet "Facets of Planning" by the Publications Division, Ministry of Information and Broadcasting, Government of India in March, 1960.

Livestock in the Delhi Territory

The quinquennial data relating to the number of livestock in the period 1920-1940 is found in all issues of the publication 'Livestock Census of India' of the relevant period issued by the Director General, Commercial Intelligence, Calcutta. Data relating to the quinquennium ending 1945 and 1951 is available in the 1945 and 1951 issues of the publication 'Indian Livestock Census' by the Directorate of Economics and Statistics, Ministry of Food and Agriculture, Government of India. The data relating to the 1961 Livestock Census was also obtained from the same Directorate.

Three tables relating to the data of Livestock Censuses undertaken in the Union Territory of Delhi are incorporated here. Table 9.17 presents the statistics of the livestock censuses undertaken in the Delhi Territory from 1919-20 to 1961. For those who are interested in greater details, another Table 9.18 is also presented, incorporating data on the revised proformas from 1945 onwards. Table 9.19 gives the percentage of increase (+) or decrease (—) of livestock in 1961 Census over 1956 Census.

Agricultural tools, implements and machinery

The data on agricultural tools, implements and machinery in the Delhi Territory from the year 1919-20 onwards is incorporated in Table 9.20, the information being gathered from the Directorate of Economics and Statistcs, Ministry of Food and Agriculture, Government of India.

Pisciculture

Efforts have been made by the Community Development authorities to encourage pisciculture in the Union Territory of Delhi. Table 9.21 shows the number of tanks stocked with fish and the number of fingerlings collected in the Union Territory of Delhi for each of the years 1951-52 to 1959-60. The source of this table is the brochure '8 years of Community Development in Delhi' brought out by the Directorate of Public Relations, Delhi.

Table 9.21

Stocking of tanks with fish in the Union Territory of Delhi (1951-52 to 1959-60)

S. No.	Year	No. of tanks stocked	No. of fingerlings collected
1	2	3	4
1.	1951-52	7	18,000
2.	1952-53	26	1,87,000

9.	1959-60	82	39,200

Prices of agricultural commodities

Table 9.22 shows the harvest prices (in Rs. per maund) of rice, jowar, bajra, maize, wheat, barley, gram, sugar (raw gur), cotton and tobacco, prevailing in the Union Territory of Delhi from 1950-51 to 1959-60. As an aid to the analysis of this table, another table 9.23 has been given, wherein the indices of the harvest prices of these commodities have been worked out, with the year 1950-51 as base=100. The reader, may, however be aware that the base year chosen was one of low yields and soaring prices and the resulting indices should, therefore, be viewed with due consideration to this fact.

Land Reforms, Ceilings on holdings and Consolidation of Holdings etc. in the Union Territory of Delhi.

The following brief survey of land reforms, ceilings on holdings and consolidation of holdings etc. has been extracted mainly from the 'Review of the First Five Year Plan, May,1957' and the volume of 'Third Five-Year Plan', brought out by the Planning Commission of India.

Land reform measures are a vital part of the process of social change in economic development which the First Five Year Plan initiated and which successive Five Year Plans have further advanced. In the First Five Year Plan of India the problems of land reforms were viewed from the point of view of agricultural production as well as from the point of view of different interests in land. Both aspects were important because it was only in an economy in which production and employment expanded that the community could take full advantage of changes in the social and economic structure. The main interests involved were (1) intermediaries, (2) large owners, (3) small and middle owners, (4) tenants at will, and (5) landless workers. In regard to each, the Plan made a number of suggestions which together provided a picture of the future agrarian economy.

The most important aspect of the land reform programmes during the First Five Year Plan concerned the regulation of relations between owners and tenants. Delhi adopted Land Reforms legislation of a fairly advanced character. The Land Reform Act of Delhi provides permanent rights for all tenants and sub-tenants who are required to pay compensation varying from 4 to 40 times the land revenue in instalments spread over ten years. Rents were not regulated in Delhi earlier but now the maximum rent was fixed at 1/5th of the gross produce. As regards the ownership rights for tenants, in Delhi all tenants and sub-tenants were brougth into direct relation with the State. Compensation is to be recovered from the tenants who would be required to pay the land revenue to the State. As regards the provisions relating to fixation of compensation payable by tenants for acquisition of ownership, compensation in Delhi is fixed as a multiple of assessment *viz.* 4 to 40 times the assessment.

Ceiling on Holdings

The Census of land holdings and cultivation which was recommended in the First Five Year Plan as a step which would facilitate sound decisions on ceilings was carried out in Delhi also along with other States of India. The Census was based on complete enumeration, but was restricted to holdings of ten acres or above. The distribution and size of holdings in Delhi thrown out by the data on Census of Land Holdings is given in table 9·24 and has been extracted from page 245 of Third Five Year Plan. According to the information available on page 238 of Third Five-Year Plan, the level of ceiling has been fixed at 30 standard acres in Delhi. A standard acre varies from 4/5th of an acre of irrigated to 2 acres of *Barani* (unirrigated) land. Allowance is made for the size of the family subject to an outside limit of 60 standard acres, while fixing the level of ceiling.

Consolidation of Holdings

The First Five Year Plan of India recommended that in all States, programmes for the consolidation of holdings should be expanded and pursued with vigour. Consolidation of holdings has been advocated as a rural development programme since the early twenties, but on the whole, in several parts of the country, progress had been meagre. In Delhi, 20 lakh acres of land were reported to be consolidated upto the year 1955-56. Consolidation of holdings offers a solution of the problem of fragmentation. The latter is a continuing process and the main question has been to take steps both to consolidate existing fragments and to ensure that there is a minimum area below which new fragments are not created. Legislation for the prevention of fragmentation had been undertaken in Delhi before the commencement of First Five Year Plan.

Table 9.24

Distribution and Size of Holdings in Delhi (Census of Land Holdings data)

(in thousands)

Ownership & Tenancy.	No. of holdings. percentages, area, percentages etc.	Grades of holdings (in acres)							
		Not exceeding 10	10-20	20-30	30-40	40-60	60-100	Above 100	All grades
1	2	3	4	5	6	7	8	9	10

CHAPTER X

COMMUNITY DEVELOPMENT, CO-OPERATION, PANCHAYATS AND SOCIAL WELFARE.

A. COMMUNITY DEVELOPMENT

Community Development defined*

(For working purposes the United Nations have adopted the following definition of community development :

The process by which the efforts of the people themselves are united with those of governmental authorities to improve the economic, social and cultural conditions of communities, integrate these communties into the life of the nation and to enable them to contribute fully to national progress.

Community development has been described as 'a *process* of change from the traditional way of living of rural communities to progressive ways of living ; as a *method* by which people can be assisted to develop themselves on their own capacity and resource ; as a programme for accomplishing certain activities in fields concerning the welfare of the rural people ; and as a movement for progress with a certain ideological content'.)

Development Blocks in the Union Territory of Delhi,

The following table shows the names of the blocks, their respective dates of inception and peoples' contribution in terms of rupees in the Union Territory of Delhi.

S. No.	Name of Block	Date of inception	People's contribution (Rs.)
1	2	3	4
1.	Alipur	2nd October 1952	18,53,040
2.	Najafgarh	2nd October 1953	13,59,806
3.	Shahdara	1st October 1955	4,60,640
4.	Mehrauli	1st April 1956	3,97,501
5.	Kanjhawla	1st April 1958	2,31,315
		Total Amount.	43,02,302

Source : '8 years of Community Development in Delhi,' issued by the Directorate of Public Relations, *Delhi, 1960.*

Coverage of the Development Blocks

Block-wise distribution of the number of villages in the year 1961 was as follows :

Block	No of villages covered
Shahdara	53
Alipur	72
Kanjhawla	55
Najafgarh	80
Mehrauli	38
Total	298

See B. Mukherji—Community Development in India, Chapter 1, pages 1, and 2, 1961, Oreint Long-mans.

For facility of reference, the names of villages covered by each of the above-mentioned Blocks in the year 1961 are given as an Annexure to this Chapter. According to the 1961 Census, there are 300 villages in the Union Territory of Delhi, out of which only 2 villages viz. Jhilmila Taharpur and Chiragah Shimali were excluded from the purview of the Development Blocks, these being administered by the Delhi Improvement Trust.

Tables providing information about various aspects of the Community Development Blocks in the Union Territory of Delhi, 1961.

The following four tables have been prepared by the office of the Superintendent of Census Operations, Delhi based on the data collected in the 1961 Census. The village-wise Primary Census Abstract is the source of the absolute figures given in these tables.

Table 10a.1 shows, amongst other things, the gross density of population per acre, average number of persons per occupied house and average size of the household in Community Development Blocks in Delhi in 1961.

Table 10a.2 shows total population, the Scheduled Caste population and the Scheduled Caste population as a percentage to the total population in Community Development Blocks in Delhi, 1961.

Table 10a.3 shows literacy and education in the Community Development Blocks in Delhi, 1961.

Table 10a.4 shows the occupational pattern in the Community Development Blocks in Delhi 1961. The distribution of the total population and total workers, is given both for the workers as well as total population, with separate break-ups of persons males and females. Figures in brackets show proportions per 1000.

B. CO-OPERATION

Sources of data

The series of volumes called 'Statistical Statements relating to the Co-operative Movement in India,' published by the Reserve Bank of India are a useful source of data relating to the co-operative movement. Four out of five tables in the present chapter have been taken from this source, the fifth being supplied by the Deputy Registrar of Co-operative Societies, Delhi.

Tables on Co-operation incorporated

The following tables on various aspects of Co-operative Movement in Delhi have been incorporated in the present Chapter :

Table 10b.1 gives the number of all Co-operative Societies in Delhi from the year 1940-41 onwards upto 1959-60. The information about Central Societies, Agricultural Societies and Non-agricultural Societies is given separately. It may be stated that the figures of the year 1945-46 are repeated for the year 1946-47 also, because of the non-availability of the figures for the latter year.

Table 10b.2 shows the membership of all co-operative societies in Delhi from the year 1940-41 onwards upto 1959-60 for the same categories of societies as given in table 10b.1. The figures for the year 1945-46 are repeated for the year 1946-47 also.

Table 10b.3 gives the distribution of the total working capital of co-operative societies in Delhi (in thousands of rupees) at the end of the year, for the period 1940-41 to 1959-60. In this table also, figures for the year 1945-46 are repeated for the year 1946-47.

Table 10b.4 provides data about the co-operative housing societies in the Union Territory of Delhi for the period 1950-51 to 1959-60.

Table 10b.5 gives data about the co-operative societies in Delhi for the year 1960-61. As mentioned above, the office of the Registrar of Co-operative Societies, Delhi, is responsible for the accuracy of the data shown in this table.

Table 10b.1

Number of all Co-operative Societies in Delhi From 1940-1941 to 1959-60

C. PANCHAYATS

Panchayat Raj in Delhi

Panchayat Raj envisages dispersal of power and responsibilities down to the village level. Delhi having no independent legislation of its own on Panchayats, the Punjab Panchayat Act of 1939 was extended to Delhi in 1947. But it was found that it was inadequate to meet the requirements of the progressive approach towards Panchayat Raj. A separate enactment, the Delhi Panchayat Raj Act of 1954 was, therefore, passed to establish and develop local self-government in the rural areas of the Union Territory of Delhi and to make better provisons for village administration and development. The Delhi Panchayat Raj Act (Act No. 3 of 1955) came into force on the 30th April, 1955. The Act provides for the establishment of Gaon Panchayats and Circle Panchayats. The Gaon Panchayats are the executive bodies of the Gaon Sabhas and look after administrative and development functions. There are 205 Gaon Panchayats and 22 Circle Panchayats in Delhi.

The first elections to the Gaon Panchayats were held in October, 1959. In all 2,444 representatives of the people were elected as *Pradhans*, members of the Gaon Panchayats and Circle Panchayats. The Panchayat Raj in Delhi was inaugurated on November 8, 1959 by late Shri G.B. Pant, the then Union Home Minister, at a function held in Nangloi (Kanjhawala Block) on November 8, 1959.

Expenditure and Income of the Gaon Panchayats

Table 10c.1 gives the expenditure incurred by the Gaon Panchayats in the Union Territory of Delhi during the year 1960-61. The absolute figures were supplied by the Director of Panchayats, Delhi Administration and the percentages in column 4 of the table were worked out in our office.

Table 10c.2 shows different sources of income accruing to Gaon Panchayats in the Union Territory of Delhi during the year 1960-61. The source of the absolute figures in this table is also the same as that of table 10c.1, the percentages in column 4 of this table being calculated in our office.

What do the rural people feel about the functioning of Community Development, Co-operation and Panchayats in the Delhi Territory ?

The attention of the interested readers is invited to the series of socio-economic studies of villages* (Census of India 1961, Volume XIX—Part VI) brought out by the office of the Superintendent Census Operations, Delhi which throw out a mass of both qualitative and quantitative data about the functioning of the departments and agencies entrusted with Community Development, Co-operation and Panchayats in the selected villages in the Union Territory of Delhi. The readers may draw their own conclusions.

D. Social Welfare

The Directorate of Social Welfare was set up under the Delhi Administration in March 1959. It has been entrusted with the following responsibilities :-

A. Statutory Services

It covers :—

(i) Services under the Bombay Children Act, 1924, as extended to the Union Territory of Delhi, which include :

(a) Remand Home for boys ;

(b) Remand Home for girls ;

(c) Probation Hostel for byos;

(d) Childrens' Home Narela (with its seven annexes);

(e) Children Section—Poor House;

(f) Certified School for Girls.

(ii) Probation Services

(iii) Childrens' Home for non-affected children of leprosy patients (Shahdara)

(iv) Probation of Offenders' Act, 1958

(v) Suppression of Immoral Traffic in Women and Girls Act, 1956, including Hostel for Girls.

(vi) Women's and Children's Institutions Licensing Act, 1956)

(vii) Bombay Prevention of Begging Act, 1959 as extended to Delhi, including Poor House.

(viii) The Madras Restriction of Habitual Offenders' Act, 1948.

(ix) The Punjab Good Conduct Prisoners' Probational Release Act, 1926.

B. After Care Services

(a) After care Home for Boys

(b) After Care Home for Women.

(c) Welfare Services in Prison

(d) Counselling and Guidance Bureau.

(e) Lady Noyce School for Deaf and Dumb

*The names of these villages are :-

Bhalsua Jhangirpur, Sanoth, Begumpur, Gazipur, Ambarhai, Samalkha, Galibpur, Chatesar, Singhu. Jhatikra, Gokulpur, Kharkhari Nahar, Mandi, Chilla Saroda, Dhool Siras, Bakauli.

CHAPTER XI

LABOUR AND EMPLOYMENT

The inadequacy of reliable data on labour

The following passage from the Third Five-Year Plan published by the Planning Commission of the Government of India highlights the inadequacy of data on labour.

"The inadequacy of reliable data on labour matters available at present and the need for sustained and objective research on a systematic basis were discussed at a Conference on Labour Research held in September, 1960. It was agreed that, to begin with, a small Central Committee for co-ordinating labour research, comprising representatives of Government, employers' and workers' organisations, universities and institutions interested in the subject may be constituted. It should be the function of this body to make a survey of the existing agencies in the field and their physical resources, identify the gaps, explore possibilities of filling up the same, determine priorities, allocate research schemes to the various agencies in order to avoid overlapping, stimulate research work in the labour field and recommend means of utilising the results of such research. It is intended to provide for research in labour matters some new institutional facilities outside the set-up of the Government. It will have the association and assistance of organisations of workers and employers as well as others"*.

The 1961 Census Economic Tables

The B-series in the Tabulation Plan of the 1961 Census present economic tables which give the distribution of the population into two broad groups :

(a) Workers ; and

(b) Non-Workers.

'Workers' have further been distributed into the following nine categories of the Indian Standard Industrial Classification of the Government of India.

Working

(i) As cultivator ;

(ii) As agricultural labourer ;

(iii) In mining, quarying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities ;

(iv) At household industry ;

(v) In manufacturing other than household industry ;

(vi) In construction ;

(vii) In trade and commerce ;

(viii) In transport, storage and commnications ;

(ix) In other services.

It way also be mentioned that data has also been tabulated (refer Table BV and BVI, for instance) according to the 'Divisions', 'Groups' and 'Familes' of the National Classification of Occupations, published by the Occupational Information Unit of the Directorate General of Employment and Training, Ministry of Labour and Employment, Government of India.

*Planning Commission, Government of India, Third Five Year Plan, Chapter XV 'Labour Policy', page 263, para 41.

Besides the B-series tables, reference may be made to the village-wise Primary Census Abstract and Union Primary Census Abstract for data on each of the Industrial Classification of workers.

Table C VIII part A gives the classification by literacy and industrial category of workers and non-workers among the Scheduled Castes.

Table D VI gives the distribution of Industrial Categories of workers and non-workers by place of birth.

Table SCT 1 Part A gives Industrial Classification of persons at work and non-workers by sex for each of the Scheduled Castes in the Delhi Territory.

The 1961 Census Statistics about the Unemployed persons

Table B VIII Part A of the Tabulation Plan of the 1961 Census gives the distribution of unemployed persons aged 15 and above in urban areas only by sex, broad age-groups and educational levels. The age-groups are :

(i) Total

(ii) 15—19 years

(iii) 20—24 years

(iv) 25—29 years

(v) 30—34 years

(vi) 35+and

(viii) age not stated.

The educational levels are :

(i) Total

(ii) Illiterate

(iii) Literate (without educational level)

(iv) Primary or Junior Basic

(v) Matriculation or Higher Secondary

(vi) Technical diploma not equal to degree

(vii) Non-technical diploma not equal to degree.

(viii) University degree or post-graduate degree other than technical degree.

(ix) Technical degree or diploma equal to degree or post-graduate degree.

(x) Engineering

(xi) Medicine

(xii) Agriculture

(xiii) Veterinary or dairying

(xiv) Technology

(xv) Teaching

(xvi) Others.

The data about the unemployed persons is given separately for the following two categories.

(i) persons seeking employment for the first time ; and

(ii) persons employed before but now (i.e. at the time of 1961 Census enumeration) out of employment and seeking work.

Table B-VIII Part B gives the distribution of unemployed persons aged 15 and above by sex and educational levels in rural areas only. The data about persons, males and females in this table is available under the following sub-heads :

(i) Total unemployed

(ii) Illiterate

(iii) Literate without educational level

(iv) Primary or Junior Basic ; and

(v) Matriculation and above.

It may be clarified that the category of 'persons not at work' (non-workers) includes

in it, amongst others, the categories of unemployed persons. For instance, it is useful in this connection, to refer to table BIX of the Tabulation Plan of the 1961 Census, which gives data about persons not at work (for total, rural and urban) classified by sex, broad age groups and type of activity. The age groups are :

(i) Total

(ii) 0—14

(iii) 15—34

(iv) 35—59

(v) 60+

(vi) Age not stated

The sub-heads are :

Total non-working population

(a) full time students ;

(b) household duties ;

(c) dependents, infants and disabled ;

(d) retired, rentier or independent means ;

(e) beggars, vagrants etc ;

(f) inmates of institutions ;

(g) persons seeking employment for the first time ;

(h) unemployed but seeking work.

Reference to the 1961 Census Volumes

Amongst the relevant 1961 Census Tables referred to in the previous sections, the village-wise Primary Census Abstract (Village Directory), Union Primary Census Abstract and Table SCT 1 Part A are to be found in the present volume. The rest of the tables are published in 'Census of India 1961, Tables volume of the Union Territory of Delhi,' brought out by the Superintendent of Census Operations, Delhi. Attention is also invited, amongst other chapters, to Chapters on 'The Working Population' and 'The Non-working Population' of the 1961 Census Report of the Union Territory of Delhi, by the present authors.

An attempt at estimating the Working Force for Delhi on the basis of the 1961 Census data.

Table 11.1 gives the 1961 Census data about Population (i) which is in the working force (ii) which is not in the working force but should be included in it, (iii) which is not available for the working force but is in the working force age-groups and (iv) which is in the working force but according to some opinion should not be in it, classified by sex and broad age groups, 1961.

(*See table on pages 216-217*)

Total Population of the State

It gives the distribution of the total population into males and females, by 4 broad age groups, for the whole of the Union Territory of Delhi, as well as its rural and urban areas, separately.

The absolute figures of persons (both sexes together) for the Union Territory may be reproduced :

Delhi	*Persons*
Total	2658612
Rural	299204
Urban	2359408

(from Union Table : BI)

I. Total Population of the Working Force

The 'Working Force' refers simply to 'workers'. This sub-head covers male and female '*workers*' by four broad age groups for total Delhi, rural Delhi and urban Delhi.

The absolute figures of persons (both sexes together) in the Working Force for the Delhi Territory are as under :

Delhi	*Persons*
Total	854451
Rural	107636
Urban	746815

(from Union Table BI)

II-Total Population which is not in the Working Force but should be included in it.

This refers to the two categories of 'Never employed' and 'Unemployed' amongst the 'non-workers' in age groups 15-34 years, 35-59 years and 60 years and above, only. The figures for males and females separately are given in the table. The absolute figures (both the sexes together) for this sub-head are as under :

Delhi	*Persons*
Total	22213
Rural	2020
Urban	20193

III-Total Population which is not available for the Working Force but is in the working force age groups.

It refers to persons of age groups 15-34 years and 35-59 years only from 'non-workers' of the following categories only :

1. Full time students
2. Dependents etc.
3. Retired persons.
4. Beggars etc., and
5. Inmates of institutions.

Or putting the same thing in a different way, if we exclude from the total non-workers, the three categories of 'persons engaged in household duties, 'unemployed' and 'never employed' persons, we get the 'total population which is not available for the working force'. The absolute figures of persons (both sexes) for this sub-head are as under :

Delhi	*Persons*
Total	183407
Rural	13841
Urban	169566

IV-Total Population which is in the Working Force, but should not be in it

This sub-head refers to the 'workers' in the lowest age group 0-14 years. The absolute figures for this category of persons (both sexes) are as under :

Table 11.1

Population (1) Which is in the working Force, (2) Which is not in the Working Force Working Force age groups and (4) Which is in the Working Force, but according to

V-Sum of I and II

This refers to total population available for the working force and comprises of total workers in all the age groups, plus two categories of 'never employed' and 'unemployed' persons amongst the 'non-workers' in age groups 15-34 years, 35-59 years and 60 years and above. The absolute figures of persons (both sexes) available for the working force are :

Delhi	*Persons*
Total	876664
Rural	109656
Urban	767008

VI—Sum of I+II—IV

Out of the total population available for the working force, workers in the lowest age group 0-14 years have been excluded. The absolute figures of persons (both sexes) under this sub-head are :

Delhi	*Persons*
Total	860996
Rural	104481
Urban	756515

Employment Service in the Union Territory of Delhi.

An Employment Exchange was set up in Delhi in the year 1943-44 as an appendage to the National Service Labour Tribunal to deal with technical persons and vacancies. With the setting up of the Directorate General of Resettlement and Employment (now Directorate General of Employment and Training) a full fledged Employment Exchange was set up in Delhi in 1945 to assist resettlement of demobilised persons from the Defence Services and discharged war workers rendered surplus after World War II. The scope was gradually enlarged and early in 1948, the Exchange was thrown open to all categories of employment seekers who wanted to seek employment assistance through this organisation and to employers who desired to make use of it. With effect from lst November 1956, the Employment Exchange, Delhi, came under the administrative control of the Delhi Administration, on the basis of the recommendations of the Training and Employment Service Organisation Committee (Shiva Rao Committee). Under the Employment Exchanges (Compulsory Notification of Vacancies) Act 1959, it was made compulsory for all establishments in the public sector and those employing 25 or more persons in the private sector to render information, amongst other things, in respect of the number of persons employed and the occupation in which shortage of manpower is experienced.

In the year 1951, there was only one Employment Exchange in Delhi functioning at Daryaganj, to deal with all types of applicants and vacancies. In the year 1957 the Technical Section of Employment Exchange was shifted to Subzimandi and in 1958, a sub-office was opened at Kalkaji to deal with registration and renewals of applicants residing in the South of Delhi beyond the railway line passing through Jangpura, Lajpat Nagar etc. In March 1960, the Employment Service was decentralised ; two Sub-Regional Employment Exchanges, one at Daryaganj and the other at Pusa, and three Zonal Employment Exchanges at New Delhi, Subzimandi and Okhla were set up. These employment Exchanges work on functional basis.

Activities of the Directorate General of Employment and Training, New Delhi in the sphere of training etc.

One of the functions of the Directorate General of Employment and Training is to impart training at the level of craftsmen on the pattern laid down by the Government of

India, Ministry of Labour and Employment, from time to time. A brief summing up of the activities of this Directorate during the First Plan and Second Plan periods is as follows :—

(a) Number of Industrial Training Institutes increased from three at the end of the First Plan to seven at the end of the Second Plan.

(b) Number of seats at Industrial Training Institutes increased from 896 in 1950 to 2512 in 1960 in craftsmen Training Scheme.

(c) Four new Schemes viz. National Apprenticeship Training Scheme, Evening Classes Scheme, Displaced Persons Training Scheme and Scheme for Training of Educated Unemployed were started.

(d) Building Plans for five Industrial Training Institutes were finalised and construction was partly completed at two Institutes.

(e) During the First Plan period, 2491 trainees successfully completed their training, their corresponding number rising to 4705 during the Second Plan period, the total during the two plan periods thus coming to 7196. Another 240 Women Craft Instructors successfully completed their training.

(f) Under a scheme formulated for testing private candidates, 146 private candidates were declared successful out of 249 who appeared in the tests. Two private Institutes viz Bharat Sewak Samaj Training Centre and Mahalaxmi Udyogshala were granted affiliation to the National Council for Training in Vocational Trades and two batches of trainees from these two Institutes were allowed to appear in the tests.

Persons on the Live Registers of the Employment Exchange, Delhi.

Table 11.2 gives the indices of the number of persons on the live registers of the Employment Exchange, Delhi, 1951-1961. The indices in column 3 of this table were calculated in the office of the S.C.O., Delhi on the basis of the absolute figures of calumn 2, supplied by the Directorate General of Employment and Training, Delhi. It is to be noted that the number of Employment seekers through the Employment Exchange, Delhi, in 1961 was slightly more than 5 times the corresponding number in 1951.

Table 11.2

Indices of the number of persons on the Live Registers of the Employment Exchange, Delhi, 1951 to 1961

Year (as on 31st December)	Absolute number	Indices with the year 1951 as base=100
1	2	3
1951	12750	100·0
1953	20988	164·6
1955	42080	330·0
1957	49582	388·9
1961	63907	501·2

Source :— Directorate General of Employment and Training, Delhi.

Table 11.3 gives the distribution of the number of persons on the Live Registers of the Employment Exchange in Delhi in the year 1961 into various occupational categories. It may be mentioned that the largest category of employment seekers is that of workers without occupation i.e. such workers who have not had any previous job experience or technical, vocational or professional training. The bulk amongst workers without occupation are freshers from schools and colleges who are mostly interested in white-collared jobs. This is obvious from the fact that 33050 out of the Employment Exchange registrants were educated unemployed ; of these 5389 were graduates, 2827 intermediates and 24834 matriculates.

Table 11.3

Distribution of the number of persons on the Live Registers of the Emplopment Exchange in Delhi in the year 1961 into various Occupational Categories.

Categories	Absolute number	Percentage
1	2	3
Total	63097	100·0
Professional and Technical Workers	8281	13·0
Administrative and managerial workers	137	0·2
Clerical and Sales Workers	4472	7·0
Agricultural, dairy and related workers	671	1·1
Workers in Transport and Communications	1292	2·0
Craftsmen and Production Process Workers	5343	8·4
Service and sports workers (cooks, chowkidars, sweepers etc.)	7714	12·0
Labourers	1090	1·7
Workers without occupation	34907	54·6

Employment provided by the Employment Exchange, Delhi.

Table 11·4 gives the indices of employment provided by the Employment Exchange in Delhi since 1955 onwards upto 1961, as supplied by the Directorate General of Employment and Training, Delhi. As will be seen, the index of employment stood at nearly 1948 in 1961 as compared with 100 in 1955.

It may be stated that the number of vacancies notified to the Employment Exchanges in Delhi increased from 14722 in 1951 (31st December) to 20248 in 1961 (31st December)

Trade Unions, Industrial disputes and Factory Accidents

Table 11·5 gives the number of registered Trade Unions in Delhi for the period 1951-61. The source of the figures is Bureau of Economics and Statistics, Delhi Administration, Delhi. Industrial disputes are given in table 11·6, from the same source; indices in column 7 of this table were calculated in the office of the S.C.O. Delhi. Similarly, indices of factory accidents given in column 6 of table 11·7, were also calculated in the office of the S.C.O., Delhi on the basis of the absolute figures culled from various volumes of Quarterly Digests of Economics and Statistics published by the Delhi Administration.

CHAPTER XII

PUBLIC FINANCE (INCLUDING FINANCIAL INSTITUTIONS)
PART A— PUBLIC FINANCE

SOURCES OF REVENUE

Land Revenue

Table 12.1 taken from the Agricultural Statistics of India, Directorate of Economics and Statistics of the Ministry of Food and Agriculture, Government of India, gives the incidence of Land Revenue Assessment on the area and population of the Union Territory of Delhi from 1920-21 to 1953-54. It may be pointed out that data for the following years was not available, as there was no Land Revenue assessment since the year 1954-55. It may also be stressed that since statistics of the incidence of land revenue assessment dealt with in this table show only the average amount contributed by each acre of land or per head of population in the Delhi Territory towards Land Revenue, these cannot be used for comparing the burden of land revenue on land in different districts and States of India, as no valid comparison is possible without taking into account such factors as the nature of the soil, climate and facilities for irrigation etc.

The explanation of different columns of the table as given in the original source is as follows :

Col. 3 : Areas held revenue-free or at privileged rates are deducted, but the deduction need not be made where such areas are in any case less than an entire village and where there is any difficulty in estimating the corresponding deduction to be made in the population (*Col. 11*).

Col. 4 : This head is sub-divided into (a) total fully assessed area for which returns are available and (b) area cultivated out of the area given in head (a). The latter head should be equal to the former after deducting the current fallows and fully assessed waste, and should be either equal to or less than the net sown area.

Col. 5 : Where the Land Revenue includes the Zamindars' share, the net demand is entered, and the table states the payments due by the Zamindars to Government and not those due by Raiyats to the Zamindars. The actual realisable demand on account of the year is entered after excluding areas for past years. This col. includes all the heads classed as "Land Revenue" in the civil accounts. The heads are : (i) Ordinary revenue comprising of fixed collections revenue (for instance from canals in Sind), fluctuating collections (including Nazarana), collections from Govt. Estates. (ii) Sale of Govt. Estates. (iii) Sale proceeds of waste lands, and redemption of land tax. (iv) Redemption of summary settlement cess. (v) House Tax collections. (vi) Assessment of alienated land less quit rent. (vii) Recoveries on account of survey and settlement charges (Bengal) (viii) Rent etc., of fisheries. (ix) Receipts for the improvement of Govt. Estate. (x) 12% on collection from Govt. Estates (Bengal) and (xi) Miscellaneous—comprising receipts on account of land registration fee, receipts from quarries and minor mineral products in forests and lands not under the management of the Forest Deptt., water mills rent, *Malikana* or allowances to excluded propritors, fines and furnitures of Revenue Courts (Except in Bengal and Assam). Jade and Amber Revenue, recoveries in India of law charges in England on account of appeals

from India, misc. receipts, rent of Railway class 'C', land and rents of buildings situated on such lands.

Col. 6 : The population is generally that of the last census.

Col. 8 : As in Col. 5 but only ordinary land revenue on fully assessed areas is entered.

Col. 9 : Col.8 divided by col. 4 (a).

Col. 10 : Col. 8 divided by col. 4 (b).

Sales Tax Receipts

Table 12.2 gives the sales tax receipts in Delhi during the years 1951-52 to 1960-61, separately for Local tax and Central tax ; the latter was imposed during the financial year 1957-58. The figures in columns 2 and 3 of this table were supplied by the office of the Commissioner of Sales Tax, Delhi and indices in columns 4 and 5 were worked out in the office of the Superintendent of Census Operations, Delhi. There is a sudden rise in the local sales tax receipts after the first year i.e. 1951-52, after which this rise becomes steady and continuous except in the year 1958-59, when there is a slight decline in these receipts. The receipts from the central sales tax also show a steady rise though the extent of the rise is smaller as compared with the local tax receipts. This rise in the tax-receipts indicates the continuous increase in the volume of trade in the Union Territory of Delhi.

Receipts of State Excise

Table 12.3 gives the figures of the amount collected as revenue from State Excise in the decade preceding the 1961 census. The source of figures in column 2 of this table is also the office of the Commissioner of Sales Tax, Delhi. The indices in column 3 of this table were worked out in the office of the Superintendent of Census Operations, Delhi. The table is marked by fluctuations in the revenue collected during different years, the maximum amount collected being in the year 1957-58. The overall increase during the 10 year period was a *little* more than 13 lakhs.

Entertainment & Betting Tax

Table 12.4 gives an account of the Entertainment and Betting tax paid by the people of Delhi from 1950-51 onwards upto 1960-61. The figures in column 2 of this table were supplied by the office of the Commissioner of Sales Tax, Delhi, and the indices in column 3 of this table were worked out in the office of the Superintendent of Cenusus Operations, Delhi. Here also, one notices a constant rise from year to year except in the year 1959-60, when there is a very small decline. The amount collected in 1960-61 is more than double of that collected in 1950-51. This rise in tax collection is both due to the opening of new entertainment centres as well as more frequent visits of the people to the centres.

Sale of Stamps

Table 12.5 in this series shows the amount of revenue collected from the sale of stamps during the eleven year period starting from 1950-51. The sources of data are pointed out in the foot-note. The revenue from the sales in 1960-61 shot up to two and a half times that of the revenue in 1950-51, and this increase is spread over the different years. The rise is continuous and consistent and has never been checked during the period under study. It may be noted that the total increase in the revenue on sale of stamps is almost evenly divided between the two five-year plan periods

Receipts from Documents Registered

The figures for the number of documents registered and the revenue realised during the different years in the inter-censal period, 1951-60, have been presented in table 12·6. In addition, the table provides information about the value of the property transferred in different years since 1956. The percentage that this revenue forms of the volume of the property transferred has also been calculated for these years. The table reveals that while the number of documents registered in a year have gone up by about two and a half times during the decade under study, the revenue realised by these documents has more than trippled itself. Here also, one notices a constant rise both in the

number of documents registered and in the revenue realised, and the two are highly correlated. The value of the property transferred is also seen to be continually rising from year to year but the proportion that the revenue forms of this property does not show change to an appreciable extent and rather shows a decline since 1957 onwards.

These tables thus show an unmistakable trend of rising revenues from the taxes in Delhi. The receipts from all the taxes have almost doubled or trippled themselves during a decade of the inter-censal period.

Small Savings

Table 12·7 presents the data supplied by the Delhi Regional Office of National Savings Organisations about net collections of savings in Delhi region for the years 1950-51 to 1960-61. The amount is shown in lakhs of rupees.

Reference to Delhi Saving Survey by the National Council of Applied Economic Research, New Delhi.

For a pilot saving study of Delhi households, reference may be made to the volume mentioned in the sub-head, published in 1960 by Asia Publishing House. The major purpose of this pilot study was to evolve suitable methods for the collection of comprehensive financial data on which to build up estimates of personal saving and to establish the feasibility of conducting a National Saving Survey in urban areas. A secondary objective was to obtain saving, income and wealth data for a major urban centre.

This study was based on detailed personal interviews with a sample of about 600 households in the urban areas of Delhi. For the purposes of this survey, a household was utilised instead of a 'spending unit' or 'income unit' as the ultimate sampling unit. The households selected for this study constituted a probability sample featuring 'over sampling' of high income households. The questionnaire included questions relating to the financial position of households as well as questions on attitudes towards saving. From this survey, it bec ame possible to obtain a comprehensive picture of saving, income, wealth and certain socio-economic attitudes of a representative cross section o f Delhi. The report contains 70 useful tables.

Expenditure of Delhi Administration

Table 12·8 culled from various volumes of Quarterly Digests of Economics and Statistics, published by the Statistical officer of Delhi Administration, Delhi, gives the distribution of expenditure (in thousands of rupees) of Delhi Administration for the years 1951-52 to 1959-60. The percentage distribution of expenditure during each year into various heads was calculated in the office of the S.C.O., Delhi.

The data of Income and Expenditure of Delhi Municipal Committe e and Delhi Municipal Corporation contained in table 12·9 is taken from thc relevant Annual Administration Reports for the years 1949-50 to 1959-60.

Income and Expenditure in these reports have been studied under the heads viz. General Department, Education Department, Medical Department, Income from Public Health Department, Water Supply, Veterinary Department, Municipal Works and Suspense Accounts.

Delhi Municipal Committee
Year 1950-51.

Income in 1950-51 was higher by Rs. 1371685 than in 1949-50. This was due to an increase in income in the General Department, Education Department and Suspense Account. The increase in the General Department was due to increase in the House Tax from 6⅔% to 10% and Terminal Tax. The enhancement of the rate of tax and larger imports of taxable goods coupled with better vigilence were responsible for the increase of income.

Expenditure was also higher in 1950-51 than 1949-50 by Rs. 478500.

This was due to increased expenditure on General Department, Education, Medical and Public Health. The increased expenditure

in the General Department was due to the payment of the Provident Fund Contribution, increased salaries (Rs. 46000) and purchase of weigh-bridges for the Terminal Tax Department. More expenditure had been incurred during this year on Municipal works in providing gully-gratings, laying sewere and construction of Sanitary Units in the City.

Year 1951-52

Income during the year rose by Rs 2470706, showing an increase of 14.5 percent over the previous year. Expenditure during the same year rose by Rs. 2442581, showing an increase of 14.7 percent over the previous year.

Year 1952-53

Income in 1952-53 was higher by Rs. 4096761 than in 1951-52 due to increased receipts from the General Department. Rs. 571316 were received as grant in aid from the State Govt. this year as against Rs. 365850 of the last year in Education Department. More public water hydrants were installed in the city during this year. This resulted in increased consumption of water from these hydrants. The incresase represents extra income credited to this head by book recovery. Due to extensive work on the roads, all the road rollers remained in full use. Hence the increase of income in municipal works. Receipts of fixed deposits and sale proceeds of Government loan and full adjustments of stores were some of the factors responsible for increase of Income.

Expenditure in 1952-53 was higher by Rs. 5585349 as compared with the previous year. There was increase of expenditure in the General Department. The increase was mainly attributable to laying of more water mains in the city, appointment of additional staff for re-assessment of House Tax in Ward No. 16 and also in the area, which vested in West Delhi Notified Area Committee, payment of Municipal Contribution towards the maintenance of Fire Brigade for 1951-52 and 1952-53 during this period and greater cost of free supply of water through public water hydrants. More expenditure was incurred in Education Department, due to the appointment of additional staff, payment of arrears due to revision of grades and dearness allowance at enhanced rates and purchase of more equipment for schools. The main factor responsible for increase of expenditure in Municipal works were laying of more drains sewers, construction of more school buildings, purchase of new plots for schools, carrying out extensive repairs to and the electrification of rented school buildings, metalling and painting of roads in the Western Extension Area.

Year 1953-54.

Income in 1953-54 was higher by Rs. 3194265 as compared with the previous year. There was increase of income in the General Department under various heads ; house tax and vacant Land Tax, tax on animals, share of motor tax, Govt. Loan for construction of staff quarters, fines and tax on building applications. Higher Government grant was also received on the basis of increase in expenditure. Moreover an ad-hoc grant of Rs. 4 lacs was also received from the Government. The increase under the head Medical Department was due to sanction of Govt. grant of Rs. 82,000/-for purchase of medical equipment for allopathic dispensaries. The increase of income was due to the increase in Municipal works. The only factor responsible for increase was the disposal by auction of more unserviceable material i.e. wooden cases, unserviceable parts of meters etc. lying in the Municipal Stores.

Expenditure in 1953-54 was lower by Rs. 390500 as compared with the previous year. The reason was that the expenditure on capital works had to be curtailed to meet the liability under head 'Education'. Moreover a smaller number of works was executed this year against Govt. loan. The amount of expenditure was low in Suspense Account also, because less money was invested in National Saving Certificates and less advances were made for purchase of cement etc.

Year 1954-55

There was an increase of income by Rs. 2285481 in 1954-55 as compared with the

previous year. The increase was from the General Department under the sub heads, Government Loans, House Tax and Vacant land tax, Terminal Tax, Milch Tax, Share of Motor Tax, Licence fees for vehicles and tax on building applications. There had been increase of about Rs. 11.5 lacs in Education Department. It was due to the receipt of Rs. 10 lacs as grant-in-aid from the Govt. for payment of arrears to the teachers on account of revision of grades from 1.1.47 and about Rs. 1.5 lacs representing the increased grant-in-aid for primary education.

Expenditure in 1954-55 was higher by Rs. 1160611 as compared to the previous year. There was increase of expenditure of Rs. 6 lacs in the General Department under these sub heads :— Expenditure on establishment under the various sub heads, Repayment of loans, Expenditure on elections, Provident Fund Expenditure and publicity etc. General elections were held during this year resulting in increase in expenditure.

Some brochures were published showing the activities of the Committee for the benefit of the public which resulted in higher expenditure. More expenditure was incurred in Medical Department. New Ayurvedic dispensaries were opened in Jamna Bazar and Katra Khushal Rai. There was increase of expenditure in Municipal works also. The increase was mainly due to additional expenditure on the staff, payment of outstanding dues in connection with the construction of Lajpat Rai Market and construction of staff quarters.

Year 1955-56

Income in 1955-56 was higher by Rs. 5588648 as compared to the previous year. The major increase of income i.e. 28.15 lacs was from the General Department under these heads ; increased amount of Government loan for different works, increase of interest from banks, composition fee for municipal offences, Refund received out of the amount deposited for acquisition of Chandni Mahal building, special grant for maintenance of services in Rehabilitation colonies etc. There was increase in House Tax, Terminal Tax, licensing fee, milch tax, taxes on vehicles and fines for breaches of Municipal Act and By-laws which were responsible for an increase of income during this year. There was increase of income from other departments also. Rs. 32.53 lacs were increased from the Suspense Account which resulted in increased income.

Expenditure in 1955-56 was also higher by Rs. 853922 as compared with the previous year. The increase of Rs. 7.02 lacs was in the General Department. The increase was due to the establishment of Central Establishmhnt Section, reorganization of Building Department, annual increments of the staff of General Department, repayment of loans, Provident Fund contribution, reception to foreign dignitaries and increase of less than Rs. 10,000 each under labour welfare, audit fee and cost of forms. There was increase in the staff of Terminal Tax Department and Garden Department, increase in maintenance charges of street lighting, increase in the cost of electric energy increase ,in the cost of laying mains and increase in feeding charges of impounded cattle etc. There was also an increased expenditure in Medical and Public Health Department.

Year 1956-57

Income in 1956-57 was higher by Rs. 9521248 as compared with the previous year. There was increase of income from the General Department. The increase of Rs. 36.88 lacs was due to the increased amount of Govt. loans for different works, increased amount of interest from banks, composition fee for Municipal offences, refund received for the amount deposited for acquisition of Chandni Mahal Building, special grant for maintenance of services in Rehabilitation colonies and construction of swimming pool. There was increase of Rs. 90,000 in the Public Health. This was due to the fact that some unserviceable trucks and other old material was auctioned. Moreover there was also a good increase in the license fee under section 197 of the Act. The increase of Rs. 65.38 lacs was in the

Suspense Account due to an adjustment of cost of stationery and printing, increased issue of more material from stores for execution of works and adjustment of its cost, withdrawal of amount kept in short term deposit, adjustment of more advances and security deposits and recovery of municipal rents etc.

Expenditure in 1956-57 was higher by Rs. 9610997 as compared with the previous year. Rs. 4.54 lacs were spent on the General Department. The expenditure of Rs. 67.32 lacs was on the Municipal works due to the construction of staff quarters at Azadpur, school building and purchase of land for staff quarters and execution of more works of construction of roads, streets and footpaths against Government loan after adjusting decrease on repairs. There was increased expenditure of Rs. 60.80 lacs in Suspense Account due to stock and stores, increase on account of purchase of more material for heavier loan works, investment, advances paid for purchases, securities and provident fund etc.

Year 1957-58

Income in 1957-58 was higher by Rs. 2111550 as compared to the previous year. The increase of Rs. 18.55 lacs was from the General Department due to the composition fee on transfer of plots, sale of buildings and land of Mauthra Road T. T. Post, ad-hoc grant for receptions to foreign dignitaries, increase in income from terminal tax, milch tax, taxes on vehicles and increase in rents of lands and buildings. There was increase of Rs. 18000 from the Public Health Department also. The increase was due to receipt of additional Government grant for opening new maternity centres in Urban area. The increase of Rs. 12.89 lacs was from the Suspense Account due to withdrawal of amount kept in short term deposit, adjustment of more advances and withdrawals from P. Fund, interest on P. F. investments and other minor increases and decreases.

There was decrease of expenditure by Rs. 122295 in 1957-58 as compared with the previous year. The reason was that there was decrease of Rs. 11.42 lacs in Muncipal works due to the fact that last year heavier expenditure was incurred on construction of staff quarters at Azadpur Municipal staff colony. There was also decrease of 27.08 lacs in Suspense Account due to payment of advances for smaller amount and less amount was kept in short term deposit with the State Bank of India.

Delhi Municipal Corporation

Year 1958-59

In 1958, Delhi Municipal Corporation came into existence after the merger of Delhi Munipal Committee and other small Local Bodies.

The income in 1958-59 was Rs. 49794051 and the expenditure was Rs. 45502410.

Year 1959-60

Income in 1959-60 was higher by Rs. 102.06 lacs as compared to the previous year. This increase was due, firstly to the imposition of 3 new taxes viz. duty on transfer of property, tax on consumption and sale of electricity and

theatre tax which yieled Rs. 21.89 lacs, Rs. 11.57 lacs and Rs. 2.45 lacs, respectively, totalling Rs. 35.91 lacs in all ; secondly, an almost all-round improvement in the revenue from existing taxes collected by the Corporation and in the Corporation's share of certain taxes received from Government which collectively accounted for an increase of Rs. 71.52 lacs, the main increase of Rs. 30.15 lacs being from property taxes alone ; thridly, the receipts of special grants of Rs. 20.15 lacs for slum clearance and other improvements and Rs. 5 lacs for an electric crematorium, and, fourthly, an increase of about Rs. 15.45 lacs being the net result of a number of minor increases and decreases under the remaining heads of revenue and grants.

There was increase of expenditure by Rs. 11605385 in 1959-60 as compared to the previous year, which was due to improved provisions made for various services.

PART B—FINANCIAL INSTITUTIONS

a. BANKS

Source of Data.

'Trend and Progress of Banking in India' the series of volumes published by the Reserve Bank of India are the source of data on banking incorporated in this Chapter. These volumes were procured from the office of the Reserve Bank of India, Parliament Street, New Delhi. The publications of the Reserve Bank of India are universally acknowledged as the most authentic and scientific source of data on banking in India.

Tables on banking incorporated

Three tables are incorporated here. Table 12*a*. 1 shows the distribution of offices of banking companies in Delhi for each of the years from 1951 onwards upto 1960, under the following four heads :

(i) Number of offices opened during the year

(ii) Number of offices closed during the year

(iii) Net increase or decrease, and

(iv) Number of offices as on the 31st December of the year

Under each of the above four heads, information is available regarding :

(a) Exchange Banks,

(b) Other Scheduled Banks

(c) Non Scheduled Banks ; and

(d) Total

Table 12*a*.2 gives an account of cheque clearances and number of cheques cleared by the banking companies in Delhi for each of the years from 1949 to 1960. The amount of cheque clearances is in lakhs of rupees.

Table 12*a*.3 gives the distribution of offices, deposits and advances of the Scheduled Banks in Delhi from 1951 onwards upto 1960. The source of this table as of all other table relating to banking in Delhi is the same as mentioned it the first para. It may, however, be mentioned that this table does not reproduce all the columns of the relevant table from the source. For instance, amongst others, figures of population per office, per capita deposits and per capita advances have not been reproduced, as the population for each of these years was assumed to be the same as that for the year 1951, the assumption seeming not very plausible.

b. LIFE INSURANCE

Source of data

The absolute figures of the tables relating to various aspects of life insurance in the Union Territory of Delhi were procured from the regional office of the Life Insurance Corporation (LIC) India, located at Asaf Ali Road, New Delhi. It may be stated that the Life Insurance Corporation of India came into existence on 1.9.1956, as a result of nationalisation of the then existing private insurance companies. The tables incorporating percentages, were processed in the office of the Superintendent of Census Operations, Delhi.

Tables incorporated

Table 12*b*.1 shows the number of branches and sub-offices of the Life Insurance Corporation of India in the Union Territory of Delhi for the years 1956 to 1961. It may be clarified that figures relating to the number of sub-offices of the L.I.C. opened in the Union Territory of Delhi during the calendar years 1960 and 1961 in this table are *In Addition to* the number of branches of the L.I.C. in the Union Territory of Delhi, during these years.

Table 12*b*.2 gives the number of policies and sum assured (in rupees) by the Life Insurance Corporation of India in the Union Territory of Delhi. It may be stated that the figures in this table for the period 1.9.1956 to 31.12.1957 include those for Gurgaon also, as separate figures for the Union Territory of Delhi for this period were not available, the same being avilable since 1.1.1958 onwards only. As an aid to the analysis of this table follows table 12*b*.3, processed in the office of the Superintedent of Census Operations, Delhi, which shows the indices of the number of policies and sum assured by the L.I.C. in the Union Territory of Delhi with the year 1958 as base=100.

Table 12*b*.4 shows the rural-urban distribution of the number of policies and sum assured by the L.I.C. in the Union Territory of Delhi (1959-60). For the purpose of analysis of this table, table 12b.5 indicating the perecentage distribution (rural, urban) of the number of policies and sum assured by the L.I.C. in the Union Territory of Delhi during these two years, was processed in the office of the Superintendent of Census Operations, Delhi.

(Source :- Based on Table 12b.4)

C. JOINT STOCK COMPANIES

Source of data relating to Joint Stock Companies

The Research and Statistics Division, Department of Company Law Administration of the Ministry of Commerce and Industry, Government of India is the source for getting data relating to the Joint Stock Companies in different States, Union Territories of India.

Table 12c.1 shows the comparative situation of the number of Joint Stock Companies and the amount of paid-up capital (in lakhs of Rs.) in the Union Territory of Delhi and India as a whole. The absolute figures are from the source referred to above, whereas, the indices calculated with the year 1950-61 as base=100 in columns (3), (5), (7) and (9) of the table were worked out in the office of the Superintendent of Census Operations, Delhi.

PART – B

CHAPTER XIII

CENSUS DATA –AN INTRODUCTION

The following basic information collected and tabulated as a part of the 1961 Census Operations has been incorporated in the present volume : —

(a) Primary Census Abstract

(b) Village Directory

(c) Description and population of Census Divisions of urban Delhi.

(d) Population of individual colonies, 1961.

(e) A-Series tables.

(f) Special tables for Scheduled Castes only (there being no Scheduled Tribes in Delhi)

(g) Data relating to Industries extracted from the Houselists.

A brief description of each of the above items of information is attempted below :-

Primary Census Abstract

The Primary Census Abstract has 50 columns. It gives data up to the Block level. The following items of information are incorporated in it.

1. Serial No.
2. Block-wise in urban area and village-wise in rural area.
3. Area in square miles or acres (in urban it is in square miles and in rural it is in acres)
4. Occupied Residential Houses.
   No. of houses.
   No. of households.
5. Total No. of persons enumerated (including inmates of institutions and houseless persons).
   Persons (P)
   Males (M)
   Females (F)
6. Scheduled Castes.
   P
   M
   F
7. Scheduled Tribes.
   P
   M
   F
8. Literates and educated persons.
   P
   M
   F
9. Workers.
   Total workers (I—IX)
   I As Cultivator
   P
   M
   F
   II As Agricultural Labourer
   P
   M
   F
   III In mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities.
   P
   M
   F

IV At household industry.
P
M
F

V In manufacturing other than household industry.
P
M
F

VI In construction.

Village Directory

It is also described as Village-wise Primary Census Abstract. As will be seen at the end of the present volume, it contains 36 columns under the following heads :

1. Serial No.
2. Name of village.
3. Area of village in acres.
4. Occupied Residential houses.
   No. of houses.
   No. of households.
5. Total No. of persons enumerated (including inmates of institutions and houseless persons)
6. Scheduled Castes.
   Males
   Females
7. Scheduled Tribes.
   Males
   Females
8. Literates and educated persons
   Males
   Females
9. Workers.
   Total workers (I—IX)
   Males/Females

I As cultivator
Males
Females

II As agricultural labourer
Males
Females

III In mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities
Males
Females

IV At household industry.
Males
Females

V In manufacturing other than household industry.
Males
Females

VI In construction
Males
Females

VII In trade and commerce.
Males
Females

VIII In transport, storage and communications.
Males
Females

IX In other services.
Males
Females

10. Non-Workers.
Males
Females

This directory gives data for each census block of the Urban area and for each village in the rural areas of the Union Territory of Delhi.

Certain symbols will be seen against the names of villages which indicate the amenities available in a particular village. These symbols are :—

P	denotes	Primary School.
M	,,	Middle School.
H	,,	High School.
C	,,	Higher-Institution including College.
T	,,	Technical Institution.
D	,,	Dispensaries.
Rhc	,,	Rural Health Centres.
Hos	,,	Hospitals.
Mp	,,	Medical Practitioners.
Mcw	,,	Maternity Child Welfare.
S	,,	Safe or protected water supply including pipes, tubewell etc.
Pw	,,	Pucca Well
Kw	,,	Kaccha Well.
Tk	,,	Tank.
Riv	,,	River.
Po	,,	Post Office.
Rh	,,	Rest House & Chaupal
R	,,	Road.
Rly	,,	Railway.
E	,,	Electricity.
Ei	,,	Electricity in Industrial use
Ed	,,	Electricity in Domestic use.

Description and population (persons, males, females) of Census Divisions of Urban Delhi, 1961.

The data about persons, males and females in respect of 52 census charges of the urban areas of the Union Territory of Delhi is given under this sub-head The distribution of these 52 charges is as follows

Census Tract	Census Charges
New Delhi	1—9
Delhi Cantt.	10
D.M.C. Urban	1—42

POPULATION OF INDIVIDUAL COLONIES, 1961.

The 1961 population figures in a summarised form are also given for facility of reference for individual Colonies in Delhi.

A-series Tables

The A-series tables are general population tables. These are four in number and are described below, one by one :—

A-I Area, Houses and Population

This Table has been prepared upto the zone level. As will be noted, it has 11 columns under the following heads :

1. Name of Tracts/Zones.
2. Total
Rural
Urban
3. Area in
Sq. miles.
Sq. Km.
4. Population per square mile.
5. Number of villages.
inhabited.
un-inhabited.

6. Number of towns.

7. Number of occupied residential houses.

8. Population.
   Persons.
   Males.
   Females.

Appendices to Table A-1

The following three Appendices to Table A-1 were prescribed for all the States and Union Territories to which these were applicable.

Appendix I, Table A-1

Statement showing 1951 territorial units constituting the present set up of the State.

Appendix II, Table A-1

Number of villages with a population of 5,000 and over and towns with a population under 5,000.

Appendix III, Table A-1

Houseless and institutional population.

Out of the three Appendices to Table A-1 mentioned above, only the last one is applicable to the Union Territory of Delhi and hence this alone has been prepared and incorporated in the present volume. Appendix I to Table A-1 is not applicable to Delhi because there has been no territorial change in the Union Territory since the last Census in 1951. Similarly, Appendix II is not applicable as there are no villages with a population of 5,000 and over and no towns with a population of under 5,000 in Delhi. The local bodies of the small towns of Narela, Najafgarh, Mehrauli, Shahdara etc., were merged in the Municipal Corporation of Delhi to form only one town of D. M. C. (Urban) for census purposes.

Appendix III to Table A-1, has been prepared upto the zone level. It has 8 columns under the following heads :—

1. Name of Tracts/Zones.
2. Total
   Rural
   Urban
3. Houseless population
   Persons
   Males
   Females
4. Institutional population.
   Persons
   Males
   Females

Table A-II—Variation in the population during sixty years.

This table has been prepared up to State level and gives data under the following 7 columns, starting from the census year 1901 onwards :

1. Name of State.
2. Year.
3. Persons.
4. Decade variation.
5. Percentage decade variation.
6. Males.
7. Females.

Appendix to Table A-II, which sought to present data for States showing 1951 population according to their territorial jurisdiction in 1951, changes in area and the populations involved in those changes, has not been prepared for the Union Territory of Delhi, as there have been no transfers of area from or to the Union Territory of Delhi between 1951 and 1961.

Table A-III

This table gives data on villages classified by population. It has 26 columns giving data under the following heads :

1. Name of state
2. Total number of inhabited villages
3. Total rural population
   P
   M
   F

4. I-Villages with less than 2000 population
   II-Villages with population 2000 to 9999
   III-Villages with a population of 10000 and above

Each of the above three groups of villages have been further divided into sub-groups of different sizes of population, each sub-group showing the number of villages and population of each sex separtely under it.

Table A-IV

This table gives data on towns (and town groups) classified by population in 1961 with variation since 1901. It has the following 11 columns :

1. Name of the state
2. Name of town, town-group
3. Status of town
4. Year
5. Area in sq. miles
6. Sq. Km.
7. Persons
8. Decade variation
9. Percentage decade variation
10. Males
11. Females

Appendix to Table A-IV

This Appendix purports to present data regarding new towns added in 1961 and towns in 1951 declassified in 1961. It may be stated that in the Union Territory of Delhi, no place has been treated as a new town in 1961 and no town has been de-classified since 1951.However, Shahdara, Mehrauli, Narela, Najafgarh, Delhi Civil Lines, Red Fort and West Delhi which were treated as towns in 1951 census have been merged with Delhi city to form one.town viz. D.M.C. (Urban) in 1961. This appendix has been prepared only to show the population of 1951 of the merged towns.

Special Tables for Scheduled Castes and Scheduled Tribes

The special tables for Scheduled Castes and Scheduled Tribes are called as SC-series and SCT-series tables. It may be pointed out that the President of India does not recognize any Scheduled Tribes in the Union Territory of Delhi, hence these special tables have been prepared for Scheduled Castes alone. These tables are described below, one by one :

SCT-1 Part A

This table presents the industrial classification of persons at work and non-workers by sex for Scheduled Castes. It has been prepared upto the zone level. It has 31 columns under the following heads :

1. Serial No.
2. Name of Scheduled Castes (S.C.)

Total

3. Persons (P)
4. Males (M)
5. Females (F)

Total Workers

6. Males
7. Females

I. As cultivator
   8. Males
   9. Females

II. As agricultural labourer
   10. Males
   11. Females

III. In mining, quarrying, livestock, forestry, fishing, hunting, plantations orchards and allied activities
   12. Males
   13. Females

IV. At household industry
   14. Males
   15. Females

V. In manufacturing other than household industry
   16. Males
   17. Females

VI. In construction
   18. Males
   19. Females

VII. In trade and commerce
20. Males
21. Females

VIII. In transport, storage and communic ations
22. Males
23. Females

IX. In other services
24. Males
25. Females

Non-workers
26. Males
27. Females

Workers in special occupations

Tanning and currying of hides and skins
28. Males
29. Females

Scavenging
30. Males
31. Females

Table SCT-1 Part B relating to the Scheduled Tribes has not been prepared, there being no recognised Scheduled Tribes in Delhi.

Table SCT-II Part A

This table gives the age and marital status for Scheduled Castes. It has been prepared upto the zone level. This table has 63 columns under the following five heads :

1. Total population
2. Age 0-14
3. Age 15-44 and
4. Age 45+
5. Age not stated

Under each of the above five heads, the following sub-heads are provided

(i) Total
P
M
F

(ii) Never Married
M
F

(iii) Married
M
F

(iv) Widowed
M
F

(v) Divorced/Separated
M
F

(vi) Unspecified status
M
F

Table SCT-II Part B which sought to give the same data on age and marital status for Scheduled Tribes has not been prepared, because of its inapplicability to the Union Territory of Delhi.

Table SCT-III Part A (i)

This table gives data on education in urban areas only for the Scheduled Castes. It has been prepared upto the zone level. It has 20 columns under the following heads

1. Serial No.
2. Name of Scheduled Caste (S.C.)
Total
3. Males
Females

Illiterate
5. Males
6. Females

Literate (without educational level)
7. Males
8. Females

Educational Levels

(i) Primary or Junior Basic
9. Males
10. Females

(ii) Matriculation or Higher Secondary
11. Males
12. Females

(iii) Technical diploma not equal to degree

13. Males
14. Females

(iv) Non-technical diploma not equal to degree.

15. Males
16. Females

(v) University degree or post-graduate degree other than technical degree.

17. Males
18. Females

(vi) Technical degree or diploma equal to degree or post-graduate degree

19. Males
20. Females

Table SCT-III Part A (ii) which sought to give the same data on education in urban areas only for the Scheduled Tribes has not been prepared, because of its inapplicability to the Union Territory of Delhi.

Table SCT-III Part B(i)

This table seeks to provide data on education in rural areas only for the Scheduled Castes. It has 11 columns under the following heads :

1. Name of Scheduled Caste (S.C.)

Total

2. Males
3. Females

Illiterate

4. Males
5. Females

Literate (with educational level)

6. Males
7. Females

Educational Level

(i) Primary or Junior Basic

8. Males
9. Females

(ii) Matriculation and above

10. Males
11. Females

Table SCT-III Part B(ii), which sought to give the same data on education in rural areas only for the Scheduled Tribes has not been prepared, because of its inapplicability to the Union Territory of Delhi.

Table SCT-IV Part A

This table provides data on religion for the Scheduled Castes. It has been prepared upto the zone level. It is to be observed that there are 9 columns in this table under the following heads :

1. Name of Scheduled Caste (S.C.)
2. Rural/Urban

Total

3. Persons
4. Males
5. Females

Name of Religion

(i) Hindu

6. Males
7. Females

(ii) Sikh

8. Males
9. Females

Table SCT-V Part A

This table provides data on sampled households, engaged in cultivation classified by interest in land and size of land cultivated in rural areas only, for the Scheduled Castes. It is to be noted that this table has 13 columns under the following heads :

1. Interest in land cultivated.

(a) Total

(1) Owned and held from Government.

(2) Held from private persons or institutions for payment in money, kind or share.

(3) Partly held from Government and partly from persons for payment in money, kind or share.

2. Number of cultivating household.

3. Households engaged in cultivation by size of land in acres :

(i) Less than 1

(ii) 1.0—2.4

(iii) 2.5—4.9

(iv) 5.0—7.4

(v) 7.5—9.9

(vi) 10.0—12.4

(vii) 12.5—14.9

(viii) 15.0—29.9

(ix) 30.0—49.9

(x) 50+

(xi) Unspecified.

Table SCT-V Part B which sought to provide the same data on the sampled households engaged in cultivation classified by interest in land and size of land cultivated in rural areas only, for the Scheduled Tribes has not been prepared, because of its inapplicability to the Union Territory of Delhi.

Table SC-1

This table, gives data on persons not at work classified by sex, type of activity and educational levels for the Scheduled Castes. It has been prepared upto the zone level. In all, there are 12 columns in this table, under the following heads :

1. Educational levels

Total non-working population

2. Persons
3. Males
4. Females

Full time students

5. Males
6. Females

Persons seeking employment for the first time.

7. Males
8. Females

Unemployed but seeking work

9. Males
10. Females

Others

11. Males
12. Females

This table gives data for each of the following categories of educational levels :

(i) Total

(ii) Illiterate

(iii) Literate without educational level

(iv) Primary or Junior Basic

(v) Matriculation or Higher Secondary

(vi) Above Matriculation or Higher Secondary.

Data relating to Industries extracted from the Houselists

As referred in Part A, Chapter on Industries, of this Volume, the data about the number of industries in each minor group of the I.S.I.C. in different Census tracts, zones charges and blocks of the Union Territory of Delhi, as extracted from the houselists, will be found before the Annexure. The figures in brackets give the number of industries corresponding to the minor groups of the I.S.I.C., as indicated by the figures shown before the brackets.

The clue to the minor groups can be had from the Annexure "A Standard Industrial Classification" adopted by the Government of India, given at the end of the Volume.

APPENDIX

States showing 1951 Population according to their territorial jurisdiction in 1951, changes in area and the population involved in those changes

Name of Tracts/Zones	Area in 1901		1961 Population	Area in 1951		Population according to jurisdiction prevailing in 1951	Population in 1951 adjusted to jurisdiction of 1961	Net Increase or decrease between Col. 7 & Col. 8
	Sq. miles	Sq. Km.		Sq. miles	Sq. Km.			
1	2	3	4	5	6	7	8	9

NOTE

There is no change in the jurisdiction of 1951 and 1961, but the difference in the area of 1951 and 1961 is explained below.

The position about the correct are figures during the 1951 Census was rather obscure. At page XV of the District Census Handbook for Delhi for 1951, the following observations occur

"Area : The area of the State as constituted at present is 577.6 square miles according to the latest figures supplied by the Survey Department"

In the very first Table A-I . the book, the Total area in square miles is shown as 578.2 square miles. Again. in the A-I Table as printed at page 2 of Part II of Vol. VIII 1951 (Punjab Delhi etc.), the area of Delhi is shown as 538 square miles.

With a view to resolve this confusion, a reference was made to the Surveyor General of India and also to the Registrar General to communicate, if possible, the area figures for Delhi for 1851 as supplied by the Surveyor General. The Surveyor General's Department (The Director Map Publication) vide his letter No T. D. O.-3566/66-B dated the 22nd June, 1962, has clarified the position in the following terms.

"It is confirmed that area figures 577.6 square miles for Delhi State were supplied by us in 1951. The increase in the area figures over the 1941 value was due to fresh planimetering on small scale maps. In 1951 when the area figures were being worked out, rapid changes in the administrative set up in the entire country were taking place and the alignment of all the administrative boundaries were not precisely known to us, Furthermore, it is to be noted that in the system followed by us, correction of area figures of a particular state or District cannot be done arbitrarily, unless it is possible to adjust such changes with the area figures of the adjoining states or Districts. Hence no attempt was made to reconcile the slight difference between 1941 and 1951 values at that stage, since, in any case, the figures supplied were provisional. The use of suitable foot notes to this effect in the Census Report was suggested by this department in order to explain the proper position (vide para 7 of letter No. T-727/11-G-4 dated 19.2.52 addressed to the Registrar General of India)

At present it is not desirable to reconcile the difference of one sq. miles between the latest and the 1941 area figures as the same will affect the area figures of adjoining states. Till the final figures are obtained from our latest large scale maps (after they have been surveyed) the latest figures as supplied by us may be accepted provisionally for census purpose.

It is not possible for us to show reasons for the difference between our figures and those supplied by the Revenue Authorities as the following are not known to us :-

(i) The scale and accuracy of the maps marked with boundaries used for the calculating the areas by the Revenue Authorities.

(ii) The exact methods by which the area was determined by the Revenue Authorities,

It would appear from the contents of the above letter that the area figures 578.2, 578 and 538 sq. miles quoted in previous part of the 1951 Census report are incorrect and that the correct area figure for the 1951 Census may be taken to be 577·6 sq. miles.

Coming to the present Census, the latest area figure as supplied by the Surveyor General for the Union Territory of Delhi is 573 square miles. The figure supplied by the Revenue authorities is 365, 589 acres which works out to 571.·4 square miles . (i) The difference of 1.76 square miles can, of course, be due to different methods of calculation. It is, therefore, proposed to give the area figure for the Union Territory of Delhi as 573 Square miles.

† In 1961 the following towns were merged with the Delhi Municipal Corporation and the Population of these towns for the previous decades has been added up with the Population of the Delhi Municipal Corporation.

(i) Delhi Civil Lines with a population of 83, 273 P (48,637 M; 34,636 F) in 1951, 19,395 P(12,404 M; 6,991 F) in 1941.

(ii) West Delhi with a Population of 58,862 P (34,939 M; 23,923 F) in 1951.

(iii) Shahdara with a Population of 30,802 P(17,027 M; 13,775 F) in 1951, 15,955 P(10,051 M; 5,904 F) in 1941, 8,262 P(4,801 M; 3,461 F) in 1931, 5,107 P(2,876 M; 2,231 F) in 1911 and 5,540 P(3,057 M; 2,483 F) in 1901. In 1921 this town was declassified.

(iv) Red Fort with a Population of 10,022 P(6,587 M; 3,435 F) in 1951, 1,740 P(1,256 M; 484 F) in 1941.

(v) Narela with a Population of 9,597 P (5,052 M; 4,545 F) in 1951 and 8,050 P(4,549 M; 3, 501 F) in 1941.

(vi) Mehrauli with a Population of 7,436 P(3,800 M; 3,636 F) in 1951 and 6,050 P(3,136 M; 2,914 F) in 1941.

(vii) Najafgarh with a Population of 5,088 P(2,675 M; 2,413) in 1951 and 5,774 P(3,060 M; 2,714 F) in 1941.

†† In 1921 New Delhi (Imperial Delhi) and Delhi Cantt. with the Population of 31,456 P(20,126 M; 11,330 F) and 6,272 P(4,580 M; 1,692 F) respectively were parts of Delhi Municipality. The combind Population of Delhi (M. C.), New Delhi (M) and Delhi Cantt. has been shown against Delhi (M. C.).

(a) In 1931 Delhi Cantt was a part of New Delhi Municipality and its population of 3,798 P(6,093 M; 2,745 F) has been added in New Delhi Municipality.

TABLE A-IV

TOWNS (AND TOWN GROUPS) CLASSIFIED BY POPULATION IN 1951 WITH VARIATION SINCE 1901.

APPENDIX

New Towns added in 1961 and Towns in 1951 declassified in 1961.

ANNEXURE

A STANDARD INDUSTRIAL CLASSIFICATION
Adopted By The Government of India

DECEMBER, 1960

Issued by the Director of Employment Exchanges

DIRECTORATE GENERAL OF EMPLOYMENT AND TRAINING
MINISTRY OF LABOUR AND EMPLOYMENT
GOVERNMENT OF INDIA NEW DELHI

EXPLANATORY NOTE ON THE USE OF INDUSTRIAL CLASSIFICATION

1. In order that information regarding employment and unemployment in various sectors of the economy may be more specifically known, an industrial classification of all economic activity has been prepared by the Government of India for being used by its various fact finding agencies. This classification which may be called the 'Standard Industrial Classification is given in this document. Employment Exchanges will use the Standard Industrial Classification and the Code Numbers provided for purposes of classification of applicants and vacancies.

2. Code numbers have been devised for each industrial group on what is known as the 'digit' system. The system is closely related to international usage as recommended by the I. L. O. Employment Officers must study the industrial classification system as an essential preparation for work under the Second Five-Year-Plan so that they may be able to classify applicants and vacancies industrially. The work of industrial classification, it is recommended, should be carried out by persons thoroughly trained in the use of the Industrial Classification Code.

3. It is important that the concept of 'industry' should not be confused with that of 'occupation.' 'Industry' means that sector of economic activity in which the earner is engaged, e.g., textile industry, automobile industry, etc. whereas the 'occupation' describes the exact function that an individual performs in that sector e.g., fitter, carpenter, etc.

CONSTRUCTION OF INDUSTRIAL CLASSIFICATION CODE

4. The following system of notation has been adopted in the classification of Industries:

DIVISIONS:

The whole range of economic activity is divideid into nine 'Divisions,' and a 'code number' given to each. The first digit of any code number represents the 'Division' under which that activity is classified, e.g. the number given to the Manufacturing Division and manufacturing activity of any kind will have code numbers beginning with '2' or '3'.

MAJOR GROUPS :

Each 'Division' is then divided into a number of 'Major Groups' not exceeding ten. The first two digits of any code number together represent the 'Division' and the 'Major Group' under which that activity is classified. Thus the number "20" has been given to the "Production of Foodstuffs" (Major Group) under "Manufacturing" (Division).

MINOR GROUPS :

Each 'Major Group' is again sub-divided into a number of 'Minor Groups' not exceeding ten. The 'Minor Group' is represented by a third digit added to the 'Major Group' code number, e.g. '5' under Major Group 20 relates to production of bread, biscuits, cakes, etc. Thus, if we find code No. 205 we know that it means production of bread, biscuits, cakes, etc. (Minor Group) in the 'Foodstuffs Industry' (Major Group) in "Manufacturing" (Division). Again if we find No. 701, we know that it means "Transporting by tramway, and bus service" (Minor Groups) in the "Transport Industry' (Major Group) in the 'Transport, Storage and Communication' (Division).

Thus, a one-digit code number represents a division, a two-digit code number represents a major group of industries and a three-digit code number represents a minor group or industries. A classification more detailed than the minor groups (3-digit level) has not been made.

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into

9 Divisions

45 Major Groups

343 Minor Groups

The divisions and major groups with their Code numbers are listed below.

DIVISIONS

0	Agriculture, Livestock, forestry, fishing and hunting
1	Mining and Quarrying
2 & 3	Manufacturing
4	Construction
5	Electricity, Gas, Water and Sanitary services
6	Trade and Commerce
7	Transport, Storage and Communication
8	Services
9	Activities not adequately described

MAJOR GROUPS

DIVISION 0—AGRICULTURE, LIVESTOCK, FORESTRY, FISHING AND HUNTING

00	Field produce and Plantation crops
01	Plantation crops
02	Forestry and Logging
03	Fishing
04	Livestock and Hunting

DIVISION 1—MINING AND QUARRYING

10	Mining and Quarrying

DIVISION 2 AND 3—MANUFACTURING

20	Foodstuffs
21	Beverages
22	Tobacco Products
23	Textile—cotton
24	Textile—jute
25	Textile—wool
26	Textile—silk
27	Textile—miscellaneous
28	Manufacture of wood and wooden products
29	Paper and paper products
30	Printing and Publishing
31	Leather and leather products
32	Rubber, Petroleum and coal products
33	Chemicals and chemical products
34—35	Non-Metallic Mineral Products other than petroleum and coal
36	Basic Metals and their products except machinery and Transport equipment
37	Machinery (all kinds other than Transport) and Electrical equipment
38	Transport Equipment
39	Miscellaneous Manufacturing Industries

DIVISION 4—CONSTRUCTION

40	Construction

DIVISION 5—ELECTRICITY, GAS, WATER AND SANITARY SERVICES

50	Electricity and gas
51	Water supply and sanitary services

DIVISION 6—TRADE AND COMMERCE

60—63 Wholesale Trade

64—68 Retail Trade

69 Trade and Commerce Miscellaneous

DIVISION 7—TRANSPORT, STORAGE AND COMMUNICATION

70—71 Transport

72 Storage and Warehousing

73 Communications

DIVISION 8—SERVICES

80 Public Services

81 Educational and Scientific Services

82 Medical and Health Services

83 Religious and Welfare Services

84 Legal Services

85 Business Services

86 Community Services and trade and labour associations

87 Recreation Services

88 Personal Services

89 Services (not elsewhere classified)

DIVISION 9—ACTIVITIES NOT ADEQUATELY DESCRIBED

90 Activities unspecified and not adequately described. (This includes new entrants to the labour Market)

(Classification and Code numbers at the 3 digit level in respect of minor Groups are shown in the subsequent pages)

STANDARD INDUSTRIAL CLASSIFICATION

DIVISION 0—AGRICULTURE, LIVESTOCK, FORESTRY, FISHING AND HUNTING

Major Group (Code)	Description	Minor Group (Code)
00	FIELD PRODUCE AND PLANTATION CROPS—	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops ...	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines and orchards	006
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	009
01	PLANTATION CROPS	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
02	FORESTRY AND LOGGING	
	Planting, replanting and conservation of forests ...	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests ...	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	FISHING	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond ...	032
04	LIVESTOCK AND HUNTING	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool ...	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects ...	046
	Trapping of animals or games propagation ...	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048

DIVISION 1—MINING AND QUARRYING

10	MINING AND QUARRYING	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores ...	105
	Mining of crude petroleum and natural gas ...	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash ...	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt ...	109

Major Group (Code)	Description	Minor Group (Code)
	DIVISION 2 & 3—MANUFACTURING—	
20	FOODSTUFFS—	
	Production of rice, atta, flour, etc. by milling dehusking and processing of crops and foodgrains ...	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy ...	202
	Production of fruit products such as Jam, jelly, sauce and canning and preservation of fruits ...	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil).	207
	Production of hydrogenated oils (Vanaspati) ...	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	BEVERAGES—	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above ...	213
	Production of aerated and mineral water ...	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	TOBACCO PRODUCTS—	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco ...	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products ...	226
23	TEXTILE—COTTON	
	Cotton ginning, cleaning, pressing and baling ...	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms ...	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	TEXTILE—JUTE	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	TEXTILE—WOOL	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring) ...	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile ...	256
26	TEXTILE—SILK—	
	Spinning and weaving of silk textile in mill ...	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine ...	266
27	TEXTILE—MISCELLANEOUS—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	MANUFACTURE OF WOOD AND WOODEN PRODUCTS—	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures ...	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of other wooden products such as utensils, toys, artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	PAPER AND PAPER PRODUCTS—	
	Manufacture of Pulp from wood, rags wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill ...	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	PRINTING AND PUBLISHING—	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry ...	303
31	LEATHER AND LEATHER PRODUCTS—	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur ...	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles.	313
	Repair of shoes and other leather footwear ...	314
	Repair of all other leather products except footwear	315
32	RUBBER, PETROLEUM AND COAL PRODUCTS—	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries ...	324
	Production of coaltar and coke in coke oven ...	325
	Manufacture of other coal and coaltar products not covered elsewhere	326

Major Group (Code)	Description	Minor Group (Code)
33	CHEMICALS AND CHEMICAL PRODUCTS—	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34	NON-METALLIC MINERAL PRODUCTS OTHER THAN PETROLEUM AND COAL—	
	Manufacture of structural clay products such as bricks, tiles.	340
	Manufacture of cement and cement products ...	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images ...	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery ...	350
	Manufacture of chinaware and crockery ...	351
	Manufacture of porcelain and its products ...	352
	Manufacture of glass bangles and beads ...	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues ...	535
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	BASIC METALS AND THEIR PRODUCTS EXCEPT MACHINERY AND TRANSPORT EQUIPMENT	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms ...	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363

ajor Group (Code)	Description	Minor Group (Code)
	Manufacture of iron and steel furniture ...	364
	Manufacture of brass and bell metal products ...	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can ...	367
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	369
37	MACHINERY (ALL KINDS OTHER THAN TRANSPORT) AND ELECTRICAL EQUIPMENT—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery ...	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans ...	375
	Manufacture of insulated wires and cables ...	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	TRANSPORT EQUIPMENT—	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 383	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles ...	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand-drawn vehicles	389

Major Group (Code)	Description	Minor Group (Code)
39	MISCELLANEOUS MANUFACTURING INDUSTRIES—	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies ...	391
	Assembling and repairing of watches and clocks ...	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments ...	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
	DIVISION 4—CONSTRUCTION	
40	CONSTRUCTION—	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical & sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of Telegraph and telephone lines	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403
	DIVISION 5—ELECTRICITY, GAS, WATER AND SANITARY SERVICES	
50	ELECTRICITY AND GAS—	
	Generation and transmission of electric energy ...	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502
51	WATER SUPPLY AND SANITARY SERVICES—	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
	DIVISION 6—TRADE AND COMMERCE	
60	WHOLESALE TRADE—	
	Wholesale trading in cereals and pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other foodstuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602

Major Group (Code)	Description	Minor Group (Code)
	Wholesale trading in beverages, such as tea (leaf) coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
61	Wholesale trading in medicines and chemicals ...	610
	wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil & allied products	617
	Wholesale trading in other household equipment not covered above	618
62	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products	621
63	Wholesale trading in paper and other stationery goods	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equiment like motor, battery, electric fan, bulb ...	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur ...	634
	Wholesale trading in clocks, eye glasses, frames ...	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64	RETAIL TRADE—	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (Seed and powder,) aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in foodstuffs like sweetmeat condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
65	Retail trading in fibres, yarns, dhoti, saree, ready-made garments of cotton, wool, silk and other textiles and hosiery products ; (this includes retail trading in piecegoods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals ...	652
	Retail trading in footwear, head-gear such as hat, umbrella, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobiloil and allied products	655
66	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and paper ...	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys ...	663
	Retail trading in other household equipment not covered above	664
67	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo cane, bark and thatches	672
	Retail trading in other building materials ...	673
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments ...	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear ...	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery ...	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689

Major Group (Code)	Description	Minor Group (Code)
69	TRADE AND COMMERCE MISCELLANEOUS—	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation ...	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods, such as electric fan, microphone, rickshaw, etc.	699
	DIVISION 7—TRANSPORT, STORAGE AND COMMUNICATION	
70	TRANSPORT—	
	Transporting by railways	700
	Transporting by tramway and bus service ...	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka ...	703
	Animal transporting by animals such as horses elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above ...	709
71	Services incidental to transport such as packing, carting travel agency	710
72	STORAGE AND WARE HOUSING	
	Operation of storage such as ware-houses ...	720
	Operation of storage such as cold storage ...	721
	Operation of storage of other type	722
73	COMMUNICATION—	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732

Major Group (Code)	Description	Minor Group (Code)
	DIVISION 8—SERVICES	
80	PUBLIC SERVICES	
	This does not include Govt., Quasi Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)	
	Public Services in Union and State army including territorial corps and volunteer corps	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in adminstrative departments and offices of Central Government	804
	Public service in administrative departments and offices of quasi-government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Governments	809
81	EDUCATIONAL AND SCIENTIFIC SERVICES—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institutions not capable of classification under any individual group	812
82	MEDICAL AND HEALTH SERVICES—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners ...	820
	Veterinary services rendered by organisations and individuals	821
83	RELIGIOUS AND WELFARE SERVICES—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity	832

Major Group (Code)	Description	Minor Group (Code)
84	LEGAL SERVICES—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi ...	840
	Matrimonial services rendered by or ganisations and individuals	841
85	BUSINESS SERVICES—	
	Engineering services rendered by professional organisations or individuals	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors	853
86	COMMUNITY SERVICES AND TRADE AND LABOUR ASSOCIATIONS—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens etc.	862
87	RECREATION SERVICES—	
	Production of motion picture and allied services such as processing editing. etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc., racing	873
88	PERSONAL SERVICES—	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secceretary	881
	Services rendered by hotels, boarding houses, eating houses, cafes restaurants and similar other organisations to provide lodging and boarding facilities ...	882
	Laundry services rendered by organisations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning, services ...	883
	Hair dressing, other services rendered by organisation and individuals such as those by barber, hairdressing saloon and beauty shops	884
	Services rendered by portrait and commercial photographic studios	885
89	SERVICES (NOT ELSEWHERE CLASSIFIED)—	
	Services rendered by organisations or individuals not elsewhere classified	890
	DIVISION 9—ACTIVITIES NOT ADEQUATELY DESCRIBED	
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified ...	900
	Fresh entrants to the Labour Market	999
