SRI KRISHNADEVARAYA UNIVERSITY, ANANTAPUR

The motif given on the cover page is the Library Building representing Sri Krishnadevaraya University, Anantapur.

Land of Diamonds and Great Empires, Rayalaseema, heir to a very rich and varied cultural heritage, now proudly advances to a new milestone in her progress when the new University was inaugurated on the 22nd November, 1981. True to the legacy of the golden era, the new University is named after SRI KRISHNADEVARAYA, the greatest of the Vijayanagara Rulers. The formation of Sri Krishnadevaraya University fulfils the long cherished dreams and aspirations of the students, academicians, educationists and the general public of the region.

The new University originated through the establishment of a Post-Graduate Centre at Anantapur which was commissioned in 1968 with the Departments of Telugu, English, Mathematics, Chemistry and Physics with a strength of 60 students and 26 faculty members. It took its umbrage in the local Government Arts College, Anantapur as an affiliate to the Sri Venkateswara University.

In 1971, the Post-Graduate Centre moved into its own campus at a distance of 11 Kilometers from Anantapur City on the Madras Highway in an area of 243 hectares. The campus then had just two blocks, housing Physical Sciences and Humanities with a few quarters for the staff and a hostel for the boys. The campus gradually started growing with the addition of seminar halls, library building, a girls' hostel and a guest house During the same period, the Departments of Economics, Commerce and Law have been added.

Immensely pleased with the academic achievements of the Post-Graduate Centre, the University Grants Commission recommended for its upgradation into an Autonomous institution which came into being on the 1st of May, 1976. It made further progress by adding two more Departments of Rural Development and Bio-sciences. The problem of water scarcity of the institution is solved through the execution of a comprehensive scheme.

The Centre thus made commendable progress in all spheres of activity with the aid of generous grants amounting to Rs 1.75 Crores received from the State Government and the University Grants Commission.

Apart from the physical development, the Centre strived for academic excellence. In its short history, the Centre produced as many as 25 Ph. Ds. and 60 M. Phils. The students and staff gained distinction in academic as well as extra-curricular activities at National and International forums

The progress achieved by hard work and sincere effort of the students and staff of the Centre reached its culmination in the birth of the SRI KRISHNADEVARAYA UNIVERSITY.

At present the University is having 15 teaching Departments with 100 members of teaching staff and 250 members of the administrative staff and 1200 students. Presently the University is having 3 hostels for men and one hostel for women, 70 quarters for the teaching and non-teaching staff. The beautiful University Library (motif) is holding 40,000 volumes and 500 journals.

Poised to remake history, the new University pledges itself to blend the rich heritage of the past with the dreams of new era of learning and culture reenacting a new 'Bhuvana Vijayam' The dawn of the University shall grow into radiant light of the Sun showing the path of learning to the seekers of knowledge and wisdom.

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to district administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health subcentres, and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class I and Class II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part–A of the volume contains village and town directory and Part–B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Taluk/Town levels At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk/town level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri S. S. Jaya Rao, I.A.S., Director of Census Operations, Andhra Pradesh, Hyderabad, on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Shri N.G. Nag, Deputy Registrar General (Social Studies) of my office, Dr B.K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the head-quarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

New Delhi
the 26th April, 1982

P. PADMANABHA
Registrar General, India

PREFACE

District Census Handbook is the most important of the local publications brought out by the Census Organisation. This is a joint venture of the State and Central Governments. The chapter on HISTORY OF DISTRICT CENSUS HANDBOOK details its history and growth right from the inception of Census in 1872, while the foreword of the Registrar General and Census Commissioner, India highlights the scope and significance of the tremendous improvements brought about from time to time since 1951 to 1981, in the presentation of data so as to meet the demands of planning and administrative needs of the Governments and the data users. Needless to say that it is of immense use to planners, administrators, academicians, scholars, researchers, social workers, etc.

The restructuring of the format of the Village Directory at the 1981 Census has been done particularly to incorporate the exhaustive data on infrastructure in relation to amenities and land use pattern to meet the needs of micro-level and local area planning for rural areas as well as to meet the Minimum Needs and Revised Minimum Needs Programmes of the Planning Commission. It is further intended to help regulating the provision of goods and services and also to enable minimising regional imbalances in the process of development. The formats of the Town Directory have also been modified to meet the requirements of the Minimum Needs Programme, by adding statements on civic and other amenities in slums in Class I and Class II towns, columns on Scheduled Castes and Scheduled Tribes population, adult literacy centres, working women's hostels, etc. In the process of collection of data for this volume, various State and Central Government departments have extended their kind co-operation The District Census Handbook comprises two parts—Part A – Detailed analytical note supported by a number of inset tables based on Census and non-Census data in relation to infrastructure and Part B – Village and Town Directories as well as Primary Census Abstract of Villages and Towns.

In this joint venture of the State and Central Governments, while the collection, processing including compilation, tabulation and finalisation of the write up have been done by the Directorate of Census Operations, Andhra Pradesh, under the Ministry of Home Affairs, Government of India, the paper and printing costs are borne by the Government of Andhra Pradesh State. I offer my grateful thanks to Sri S.R. Rama Murthy, I.A.S. (Retd.), former Chief Secretary of the Government of Andhra Pradesh and Sri M. Appa Rao, Joint Secretary (Retd.), General Administration (Elections) Department for the kind co-operation and encouragement extended by them at the time of 1981 Census. Grateful thanks are also due to Sri Shravan Kumar, I.A.S., the present Chief Secretary, Sri B.N. Jaya Simha I.A.S., Special Chief Secretary, General Administration Department and Chief Electoral Officer who is also in charge of Census and to Sri P.V. Gopala Rao, I.A.S., Deputy Secretary, General Administration Department, for extending their kind co-operation. The Director of Printing and Stationery has been helpful in selecting good private presses for printing the Handbooks.

My grateful thanks are due to Sri S.S. Jaya Rao, I.A.S., Director of Census Operations, Andhra Pradesh, under whose direction the entire Census Operations programme was successfully carried out in the State. He has retired from service after superannuation in April, 1984. I am extremely grateful to Sri P. Padmanabha, I.A.S., former Registrar General and Census Commissioner of India, whose constant guidance and advice were a source of strength and to Dr. N.G. Nag, Deputy Registrar General (Social Studies) who has formulated the contents of the Handbook in detail. Grateful thanks are also due to Dr. B K. Roy, Deputy Registrar General (Map) under whose guidance the Map Division has scrutinised the district map and the taluk maps evincing very keen interest and to Sri M.M. Dua, Senior Research Officer (now Deputy Director), who has scrutinised the data presented here, with very minute care. I feel it a proud privilege and bounden duty to offer my sincere and grateful thanks to Sri V.S Verma, I.A.S, Registrar General and Census Commissioner, India and to Sri V.P. Pandey, Joint Registrar General, India for their constant guidance and advice in both administrative and technical matters.

In the finalisation of the write up, compilation and processing of data for the volume, I have been ably assisted by Sri B. Satyanarayana, as Deputy Director and as Assistant Director of Census Operations, with the assistance of an efficient team led by Smt. P. Lalitha, Investigator who has gained rich experience and specialised this subject. Sri Shyam Deo, Research Officer, ably guided the Map Section in the preparation of various maps included in this publication. I am thankful to all those officials who have contributed in bringing out this voluminous publication.

The following officials who have worked on the present volume of Anantapur District Census Handbook deserve my thanks for their contribution.

Sri	N. C. Hanumantha Reddy, Tabulation Officer	Drafting, Scrutiny and Supervision of Printing
Smt.	P. A. M. Tayaru, Tabulation Officer	
Sri	T. B. Ramchander, Statistical Assistant	Supervision of Printing
Sri	G. K. Yadagiri, Statistical Assistant	Collection, Compilation, Scrutiny of maps and proof reading
Sri	S. Raja Gopal, Statistical Assistant	
Sri	Khamolal, Statistical Assistant

Deputy Director of Census Operations,
Andhra Pradesh, Hyderabad.

CONTENTS

Part-A		Pages
1	Important statistics of the district	ix–x
2	Map of the district	Facing Page [1]
3	Analytical note	
	(i) Brief history of the district	[1–3]
	(ii) General, physical aspects, hills, rivers, flora, fauna, climate, rainfall, soils, history of district as an administrative unit and changes in its component parts in general and during the decade in particular ...	[4–14]
	(iii) Major characteristics of the district particularly in relation to the economic resources namely forestry, minerals and mining, electricity and power, land and land-use pattern, tenancy, agriculture, animal husbandry, fishery, industry, trade and commerce, transport, etc. ...	[15–18]
	(iv) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district ...	[19–25]
	(v) Census concepts of rural and urban areas and other terms namely census house, household, scheduled castes/scheduled tribes, literates, main worker, marginal worker, non-worker, etc. ...	[26–28]
	(vi) The history of district census handbook, scope of village directory, town directory statements and PCA ...	[29–40]
	(vii) Brief analysis of the village and town directory, PCA data based on inset tables and a note on physically handicapped persons ...	[41–58]

Part-B : Village and Town Directory and Primary Census Abstract

SECTION I – VILLAGE DIRECTORY

(i)	Note explaining the codes used in the Village Directory ...	1–2
(ii)	Village Directory with Taluk Map on facing page of alphabetical list	
1	Rayadurg Taluk	3–9
2	Kanekal Taluk	11–17
3	Uravakonda Taluk	19–25
4	Gooty Taluk	27–37
5	Tadpatri Taluk	39–51
6	Singanamala Taluk	53–61
7	Anantapur Taluk	63–69
8	Kalyandurg Taluk	71–77

9	Kambadur Taluk		79–87
10	Chennekothapalle Taluk		89–95
11	Dharmavaram Taluk		97–103
12	Penukonda Taluk		105–113
13	Madakasira Taluk		115–123
14	Hindupur Taluk		125–137
15	Nallamada Taluk		139–147
16	Kadiri Taluk		149–159
17	Sri Satya Sai Taluk		161–167
(iii)	Appendices (I-IV) to the Village Directory ...		168–189
(iv)	L. C. Nos. for three decades (1961 to 1981) ...		190–254

SECTION II – TOWN DIRECTORY

(i)	Note explaining the codes used in the Town Directory ...	255–256
(ii)	Town Directory statements (I to VI and IV A) ...	258–273

SECTION III – PRIMARY CENSUS ABSTRACT

(i)	District PCA		276–281
(ii)	Taluk-wise PCA		
(a)	1 *Rayadurg Taluk*		283–289
	2 Kanekal Taluk		291–295
	3 Uravakonda Taluk		297–303
	4 Gooty Taluk		305–315
	5 Tadpatri Taluk		317–327
	6 Singanamala Taluk		329–333
	7 Anantapur Taluk		335–341
	8 Kalyandurg Taluk		343–349
	9 Kambadur Taluk		351–355
	10 Chennekothapalle Taluk		357–361
	11 Dharmavaram Taluk		363–369
	12 Penukonda Taluk		371–377
	13 Madakasira Taluk		379–383
	14 Hindupur Taluk		385–393
	15 Nallamada Taluk		395-401
	16 Kadiri Taluk		403–411
	17 Sri Satya Sai Taluk		413–417
	(b) Description of Urban Enumeration Blocks ...		418–449
	(c) Appendix to Urban PCA		450–474
(iii)	Special PCA on SC and ST		476–483

PART - A

ANALYTICAL NOTE

ANANTAPUR DISTRICT

Based upon Survey of India map with the permission of the Surveyor General of India.

© Government of India Copyright, 1984

HISTORY

It is very difficult to isolate the political history of Anantapur district from that of the rest of the tract known as the "Ceded Districts". This whole area was trodden by such great figures as Vikramaditya, Malik Kafur, Harihara, Bukka, Shivaji, Hyder Ali and his son Tipu and finally by Sir Thomas Munro himself. Each one of these great personalities had left his individual footprints to be explored and understood by posterity. Each one had so played his part that the history of this area unfolds like the memory of human mind, from the sub-conscious to the conscious state, i.e., from the forgotten times to the more recent past. The forgotten past of this area has hardly any landmarks; very little was recorded and what was recorded is not sufficient to make a continuous story. This uninforming nature of the past history will remain until some enterprising explorer unearths the past and places before the eager students of history the story of this part of India. Until then one has to be content with the more recent occurrences which lend themselves to a continuous narrative of the history of what now comprises Anantapur district.

Between the remote past and the earliest historical facts there is a wide gulf. The first tangible piece of historical evidence is furnished by the rock edicts of Asoka in the west of Rayadurg taluk. Their date is about 258 B. C., but as Asoka sent proselytising missions to foreign countries, their existence does not reveal much except that this area formed part of Asoka's Empire.

Four hundred years later, a copper plate grant of the Chalukyan King, Vikramaditya I (A.D. 655–680) described Ratnagiri in the Madakasira taluk as being the "District of the Nalas". The presumption, therefore, is that, this tribe must at one time have ruled atleast that corner of Anantapur district.

Three inscriptions of Vikramaditya VI, a ruler of the Western Chalukya dynasty were discovred on the rocks near the top of the Gooty fort. They suggest the possibility that the Western Chalukyas might have ruled in this area during the 11th and the 12th centuries. Towards the end of the 12th century, these Western Chalukyas seemed to have been overthrown by two of their feudatories, the Hoysala–Ballalas, and the Yadavas. This possibility is supported by a couple of inscriptions, one of which dated 1205, recorded a gift by the Hoysala King to a temple and the other inscription recorded the capture of Gooty by the same King.

The early 14th century was a period of Muslim invasion from the north which seriously threatened the existence of the Hindu dominions in the south, Allauddin Khilji's troops under the command of his able General, Mallik Kafur swept into the Deccan, captured Warangal and a few other places. Both the Hoysalas and the Yadavas fell before his onslaught.

On account of the rivalries and jealousies amongst the conquerors, there could not be any settled form of administration in the occupied areas. In the confusion that followed, it was not difficult for the local Hindu chieftains to carve out a kingdom for themselves with its capital near Hampi. This was the nucleus of the famous Vijayanagar empire which for two centuries successfully stemmed the tide of Muslim advance. The main architects of this Empire were two brothers namely, Harihara and Bukka who after the fall of Warangal, fled from that city in 1323 and took service under the Raja of the Fort of Anegondi on the banks of river Tungabhadra, near the present village of Hampi in Bellary district. There they rose respectively to the position of Minister and Treasurer. In 1334 this Raja was attacked by Mohammad Tuglak of Delhi. The Raja and most of his followers died in combat. A Governor was then appointed by the Delhi King to rule the occupied area. The country side, however, rose against the new ruler and eventually Mohammad Tuglak finding events not too favourable, restored the principality to the Hindus and made the two brothers Harihara and Bukka who had previously been Minister and Treasurer, as King and Minister. The next year, Harihara built the famous Vijayanagar City. Thenceforward the territorial expansion of this kingdom was achieved with such extraordinary rapidity that the whole of South India was ruled by Bukka I, the brother and successor of Harihara. Almost all the other Hindu feudatories paid tribute

to this Kingdom Bukka was succeeded by his son Harihara II in 1379, who assumed the title of King of Kings and ruled an extensive area. Inscriptions of his time were found in Mysore, Dharwar, Conjeevaram, Chingleput and Tiruchirapalli.

Meanwhile the Muslim Bahmani Kingdom founded in 1347 with its capital at Gulbarga had extended its territory as far south as the Krishna river and for the next 135 years constantly opposed the expansionist policies of the Vijayanagar Kings.

The decline of the Vijayanagar Empire commenced from the reign of Achyuta Raya (1530-1542) who was described as both a coward and a tyrant. He alienated his best friends by his violent despotism till finally Rama Raja, Tirumala and Venkatadri, all three brothers combined and took away effective power from his hands. Rama Raja was virtually the King of Vijayanagar during the last part of Achyuta's reign and also during the reign of the next ruler Sadasiva.

Traces of the Vijayanagar rule were found mostly in the Bellary district. In Anantapur they built some of the fortifications at Gooty and Penukonda now not easily distinguishable. The inscriptions here and there (at Tadpatri for example) reveal that they endowed and beautified temples. Beyond this the district was not much benefited by the Vijayanagar rule.

Fearing the further growth of power and influence of the Vijayanagar Empire, the Muslim Kings and Chieftains shelved their mutual rivalries, formed into a 'general league of the faithful' and marched against the Vijayanagar King. On the Christmas day in the year 1564 their advance was halted near the town and the fortress of Talikota, 25 miles (40 kms.) north of the river Krishna. After a few skirmishes the famous battle of Talikota was fought on the 23rd January, 1565, It was one of the most decisive battles ever fought in the history of South India. The Vijayanagar army was defeated, and the troops seized by panic, broke and fled, after suffering very heavy losses. Rama Raja and Venkatadri were slain in the battle. Tirumala, the only surviving brother, hastily returned to Vijayanagar and together with the puppet king Sadasiva fled to the hill fort of Penukonda. The fleeing monarch with a few followers took with him a convoy of 550 elephants laden with treasure in the shape of gold, diamonds and precious stones valued at more than 100 million sterling and also the state insignia and the celebrated jewelled throne.

The City of Vijayanagar which was thus left undefended was destroyed by the invaders so completely that it could never again be inhabited. Penukonda thenceforward became the capital, with the fort as its stronghold. Decay rapidly overtook the remains of the Vijayanagar Empire. The nobles who ruled the outlying provinces threw away their allegiance and declared themselves independent and plunged the greater part of the country into anarchy.

At Penukonda, Sadasiva remained a king in name until 1568 when he was murdered by Tirumala who usurped the throne. He was succeeded in 1575 by his son Ranga, who shortly afterwards transferred his capital to Chandragiri. Ranga was followed in 1586 by his brother Venkata who ruled till 1614. At his death there were widespread revolts, disturbances and other conflicts which finally brought the Vijayanagar power virtually to an end.

Meanwhile, the Muslim Kings had gradually extended their holdover the area. At first their mutual jealousies and animosities had prevented them from reaping to the full the fruits of their victory at Talikota; some of the Vijayanagar fortresses still remained in possession of the local Governors of the Empire. But eventually the Kings of Bijapur and Ahmadnagar agreed to take different lines of conquest, so that their operations might not clash. The former proceeded to invade the country south of the Krishna, including Bellary and Anantapur districts. In 1577 he appeared at Penukonda but due to the deceit practised by a part of his army, the expedition was not a success. In 1589 the King of Golconda invaded this area and, in spite of plucky resistence, defeated the enemy and conquered Penukonda, Gooty and the rest of Anantapur district.

For some years the Maharata power was slowly gaining ground in the west of the Peninsula. In 1677, Shivaji, the famous Maharata chief visited the Deccan after taking most of the possessions held by the King of Bijapur in the Carnatic. And finally in 1680, the rights held by the Bijapur king over this part of the country were also made over to the Maharatas. However, in 1687, Emperor Aurangazeb reduced the Maharatas to obedience, overthrow their rule within this district and added the country to the Mughal Subah of Bijapur.

In 1723 the Nizam of Hyderabad, one of the Governors of the Mughal Empire, made himself independent and ruled over his province, which

included Anantapur district. His power was, however, nominal. The Maharatas continued to be the dominant influence and collected tribute and taxes from the Poligars.

Morari Rao the famous Maharata adventurer established himself at Gooty in 1746, obtained possession of Penukonda, exacted tribute from the local Poligars and made himself the architect of the destinies of the people living in this district. Hyder Ali of Mysore later captured the forts of Penukonda and Madakasira from Morari Rao and finally in 1775 captured Gooty itself, imprisoned Morari Rao and reduced the Poligars to submission. Hyder died in 1782 and was succeeded by Tipu. The later was defeated in 1792 by a combination of the English, the Maharatas, and the Nizam, and by the treaty of that year he was made to cede half of his territories to this strange combination of allies. By this treaty, and by the treaty of 1799, the later following the third Mysore war and the death of Tipu, the whole of the area which now comprises the district of Anantapur fell to the share of the Nizam. In 1800 the Nizam agreed to cede to the English all the territories acquired by him under these two treaties of 1792 and 1799 in return for a subsidiary force to be stationed in his dominions. Anantapur district together with Bellary and Cuddapah districts and a part of Kurnool district thus passed into the hands of the British.

After the transfer of this territory to the British in 1800, Major Munro who was selected to govern this area as the "Principal Collector" choose Anantapur as his headquarters. He directly held charge of the taluks which now form the Anantapur district and also the Rayadurg taluk. The rest of the new territory was administered by Sub-Collectors subordinate to Munro. The year after the departure of Munro in 1807, this area was divided into the two Collectorates of Bellary and Cuddapah and finally in 1882 Bellary was once again bifurcated into the districts of Bellary and Anantapur. Unlike Cuddapah district, this district did not present any formidable problems. The Poligars living in this district were not a troublesome lot and soon came under effective control. A few who tried to give trouble were dealt with severely. On only one occassion was there any open resistence to the British authority. In 1804 a conspiracy was formed to seize Gooty and Adoni forts and to instal Kudrit Ullah Khan, son of Basalat Jung the former Jagirdar of Adoni, as ruler in that area. This plot failed and as a result there were no further attempts to upset British authority.

After this, the political history of Anantapur district like the history of the rest of the well administered part of the Madras Presidency remained uneventful till the national struggle for Independence came to wake it up from its peaceful slumber. This district too like the rest of the Nation responded to its call and joined hands in the freedom movement Among the popular political leaders of the district who played a prominent part in the Freedom struggle, a few names that can be mentioned are those of Sri Kallur Subba Rao and Sri N. Sanjeeva Reddy the then Chief Minister of Andhra Pradesh and President of India.

Source : DCHB 1961 - Anantapur District A.P.

PHYSICAL ASPECTS

General : The district derives its name from Anantapur. its headquarters town. Anantapur district is neither a geographical, historical nor an ethnical entity but is the creation for administrative convenience. In 1882 it was separated from Bellary d strict (now in Karnataka State). Anantapur district was further expanded in the year 1910 by the addition of Kadiri taluk from Cuddapah district. The reorganisation of States in 1956 gave this district. yet another taluk, namely, the Telugu-speaking Rayadurg from Bellary District.

Physical features : The district of Anantapur lies westernmost in this State, between 13°-41¹ and 15°-14¹N and 76°-47¹ and 78°-26¹E. It is bounded on the north by Kurnool District, on the east by Cuddapah and on the south and west by Karnataka State. Its elevation towards the south is about 2,200 feet while it gradually declines to about 1,000 feet at Gooty in the north and to 900 feet at Tadpatri in the north-east. The eastern side of the district is particularly hilly.

The total area of the district is 19,130.0 sq. kms. being the largest in the state and has a population of 2.548,012 persons, according to the 1981 Census count.

Hills : The hills of the district are not comparable either in size or in height or even in thickness of vegetation with those in the neighbouring Cuddapah district. The wonderful colouring of the hills compensates for the black nature of the terrain around. The highest points in the district are Mallapakonda (3.092 feet) four miles north of Bukkapatnam, Penukonda (3,091 feet), Kundurpi Durg (2,996 feet), and the Madakasira hill (2.936 feet). The above mentioned hills being situated in an area which itself stands 1,500 to 2,000 feet above the sea level are not very prominent. The hills have arranged themselves into some sort of five low ranges. All these five ranges run roughly from north to south of the district. They are easily distinguishable and can be seen passing through Tadpatri, Gooty, Anantapur, Dharmavaram, Penukonda, Hindupur and Madakasira taluks. Kadiri taluk is also interspersed with isolated hill formations.

The best examples of isolated peaks and rocky clusters are the Gooty rock, the precipitious Kundurpi Durg, the hills just north of Malyavantam in Anantapur taluk and the Gampamalla hill (2.510 feet) high.

Climate : The year may be divided into four seasons. The period from December to February is the dry and comparatively cool season. The summer season is from March to May and is followed by the south-west monsoon season from June to September. Being far away from the east coast, it does not enjoy the full benefit of the north-east monsoon and being cut off by the high western ghats, the south-west monsoon is also prevented. Due to its unfortunate situation this district is deprived of both the monsoons. October and November form the retreating monsoon season.

Rainfall : The average annual rainfall in the district is **524.2 mm. The rainfall generally increases from the north-west to the south-east. The rainfall in this district is chiefly confined to the months of May to November, the highest rainfall is usually recorded in the month of September.

Flora : The climatic and geographical conditions of the district have a direct bearing on its flora. The whole of the centre of the district is unusually bare of trees or vegetation of any kind. The bark of tangedu bushes (cassia auriculata) which cover the stony wastes with yellow flowers, is used for tanning. Tamarind and Margosa have come up well as avenue trees along road margins

** Statistical Supplement to Part II of Andhra Pradesh Gazette, Hyderabad, dated 15-1-1951 Monthly and Annaul Rainfall table for the year 1978

and in the fields and villages. Babul trees are frequently seen. A thick growth of date palms is seen in damp low lying grounds in several parts of the district.

Fauna : Most of the vertebrate fauna among wild life is present in the district, although in small numbers The animals commonly found in this district are the panther, jungle cat, jackal, mongoose. fox, wild bear, four-horned antelope, chinkara, chital. the sambur, squirrel, the Indian Molerat, field mouse, house rat, bandicoot, mouse, porcupine etc. Among the Aves, the bulbuls, blue jay, cow, green pigeon, jungle fowl. partridge. common mynah, parakeet, golden orole, malabar hornbill, woodpecker, peacock, peafoul, brahmini kite, Indian bustard etc are usually found.

Changes in administrative units and its component parts : The various tracts of Anantapur were ruled by different dynasties prior to the advent of the Vijayanagar Kings. As the Vijayanagar empire expanded, the whole of the district came under its rule. Subsequently, a substantial portion of the district came under the rule of Palegars who owed a shifting allegiance to the more powerful of the rulers like the Golconda and Cuddapah Nawabs and the Maharatas. Later on it came into the possession of Hyder and Tipu.

In 1800, a fresh treaty was concluded between the British and the Nizam by which the Nizam agreed to cede to the British, the districts acquired by him in 1792 and 1799 in return for a British force to be stationed at Hyderabad. These areas constituted Cuddapah, Kurnool, Anantapur, Bellary and Chittoor districts.

After these districts had been ceded to the East India Company in 1800, the Government of Madras appointed Major (afterwards Sir Thomas) Munro as the Principal Collector for the area and divided it into 37 taluks. Later the post of the Principal Collector was abolished and the whole area was divided into three separate divisions or Collectorates corresponding with the jurisdiction of the Zilla Courts. In pursuance of this arrangement, Bellary, Cuddapah and Kodikonda were fixed as the 'Headquarters Stations' of three Collectorates. Again in 1808, the Kodikonda division was abolished and the ceded districts were bifurcated into Bellary and Cuddapah districts. In 1821, the Tadimarri taluk was abolished and its villages were distributed between Tadpatri and Anantapur. Anantapur continued to be the headquarters of the Bellary district till 1822, when the then Collector shifted his headquarters to Bellary as it was centrally situated. The headquarters was again shifted to Anantapur the very next year, as the Government did not approve of the change. Bellary was once again made the headquarters of the district and Anantapur was only the headquarters of a subdivision consisting of the taluks of Anantapur, Dharmavaram, Penukonda, Hindupur and Madakasira.

The years 1881 and 1882 formed a land mark in the administrative history of the district as they witnessed the bifurcation of the Bellary district and the constitution of the new district of Anantapur. Kalyandurg taluk was constituted in December, 1893. Kadiri, which was then in Cuddapah district, was transferred to Anantapur district in 1910. Consequently, Dharmavaram was removed from the Penukonda division and formed into the Dharmavaram division with Kadiri added to it. A portion of Gooty taluk was transferred to Anantapur of which 13 villages were again transferred from Anantapur taluk to Dharmavaram Thus three divisions - Anantapur division. Gooty division and Penukonda division came into effect from 1st October, 1910. In 1916, the boundaries of Gorwikanuma and Dorigallu reserve forests were readjusted as between the taluks of Kadiri and Pulivendla. Again in 1943, the territorial limits of Anantapur and Cuddapah districts underwent a change. A separate independent sub-taluk with Uravakonda as headquarters was constituted in 1946. In October, 1953, the entire taluk of Rayadurg was transferred from Bellary to Anantapur district and with the reconstitution of the Dharmavaram division in October, 1953, the pattern of divisions and taluks was as follows :

Anantapur division comprising the taluks of Anantapur, Gooty, Tadpatri and Uravakonda independent sub-taluk, Dharmavaram division comprising Dharmavaram, Kalyandurg and Rayadurg, and Penukonda division which included Penukonda, Hindupur, Madakasira and Kadiri. The number of taluks (11) remained same at 1961 and 1971 Censuses.

At the 1981 Census, there are 17 taluks in the district 'namely Rayadurg, Kanekal. Uravakonda, Gooty, Tadpatri, Singanamala, Anantapur, Kalyandurg, Kambadur, Chennekothapalle, Dharmavaram, Penukonda, Madakasira, Hindupur, Nallamada, Kadiri and Sri Satya Sai. These taluks are distributed into 3 revenue divisions as follows :

STATEMENT SHOWING THE REVENUE DIVISIONS IN ANANTAPUR DISTRICT, 1981

Sl. No.	Name of Sub-division/ Revenue division	Name of Taluk	Name of Town (M)/(P)
1	2	3	4
1	Anantapur	1 Anantapur	1 Anantapur (M)

1 The district "Geographical area" figures are as supplied by Surveyor General, India.

2 The total of the area figures of taluks will not tally with the district area figures because former represents land-use area and are derived from the figures supplied by the State Survey Department.

3 Villages shown under Column 5 do not include the villages given under column 8-

MAJOR CHARACTERISTICS

Forestry: The entire district is divided into five forest ranges, viz., Anantapur, Bukkapatnam, Gooty, Kadiri and Kalyandurg for administrative convenience. Forests cover 1953 sq. kms i.e. 10% of the total extent of the area of the district. Most of these forests exist in isolated blocks and are widely scattered all over the district. Due to the poor rainfall occurring in the area, majority of the forests are of a dry deciduous and open, scrub type with trees of an average height of about 15'. There is a marked difference in the vegetation between the forest on the southern side abutting the Mysore plateau in Kadiri, Hindupur, Madakasira, Kalyandurg and Rayadurg taluks and those in the northern taluks of Gooty, Tadpatri and Anantapur. In the case of the former, rainfall is slightly higher and the growth of sandal and neem is correspondingly superior. All the forests of the district are the dwelling places of a variety of wild life although big game is not generally in abundance. Where there are perennial or semi perennial water sources, various species of wild life make their appearance mostly at dawn and dusk.

For the quick growth of the forests, massive tree plantation programme under Drought Prone Areas Programme with World Bank aid has been launched. Plantations covering 170 hectares have been carried out for small timber and feed plantation. Seven lakh plantations have been raised in 890 hectares area under social forestry. As wind breaks 40,000 plants have been raised covering 214 kms. Under Farm forests 10.8 lakhs big plants have been planted.

In order to prevent shifting of sand from the dry river beds to the adjacent agricultural fields wind belt plantations have been raised in 80 hectares. An area of 230 hectares have been covered with agave plantations to extract fibre which is useful for marine cordage, carpet and rope making and for extraction of lecoganin, a chemical useful for cortisone drugs. In order to establish and propagate sandalwood trees, 260 hectares have been covered with sandalwood plantations.

To provide sufficient enriched fodder to the sheep and the cattle, it is programmed to develop improved pasture with species of high nutritious value in 18,000 hectares. An area of 11,200 hectares have been covered so far under this programme. Seed multiplication farms have also been established in an area of 430 hectares to supply seeds for the pasture plots. This forestry and pasture programme would generate employment of about 20.10 lakh man days and the fodder produced in pasture plots will be sufficient to feed 13,000 sheep and 17,000 cattle. The expenditure incurred under this item is Rs. 139.34 lakhs as against the outlay of Rs. 150.36 lakhs.

Minerals and Mining: The district is fairly well known for some of its mineral deposits. A brief account of them is given below.

Asbestos of non-commercial value is found in Dharmavaram Taluk. Barytes of commercial importance is available in Gooty, Tadpatri and Kadiri Taluks. This finds use in several industries such as filler in textile industry, for manufacture of paints, lithophone and barium chemical and in oil-well drilling. Calcite is one of the important industrial minerals in which India's known occurrences are a few and limited. This district ranks foremost in production of Calcite. The mineral occurs as veins within lime stone in some parts of Gooty, Tadpatri and Anantapur Taluks. This is used in many industries as filler in textile, rubber and paint industries and as a carrier in insecticidal preparations. It is also used in the manufacture of mortars, cement, glass, ceramic products, bleaching powder and explosives. Diamonds are known to have been found in Gooty and Uravakonda Taluks. There are reports of occasional finds of the precious stones at Vajrakarur of Uravakonda Taluk particularly after rains. Iron ore is available in Rayadurg Taluk while gold is mined in Ramagiri village of Chennekothapalle Taluk.

Electricity and Power: Under six point formula, Rural Electrification Programme has been taken up to electrify all villages. So far, 601 villages out of 965 villages in the district have been electrified. The percentage of electrification as on 31-8-81 is 72.49%.

Land and land use pattern: The total geographical area of the district is 19,130 sq. kms. The total normal extent of cultivated area is 9,717

sq. kms. out of which 7,762 sq. kms is under kharif season and 1,955 sq. kms. under rabi season. Forests cover 1,953 sq. kms. and an area of 1,896 sq. kms. is barren and uncultivable. An area of 1,568 sq. kms. is put to special agricultural purpose. The remaining is put to misuse.

Agriculture: Though this district is predominantly depending on the rains for agriculture, the following major and minor irrigation projects with registered ayacut and area irrigated is as follows:

Name of the Project	Major or Minor	Regd. Ayacut in (sq. kms.)	Area irrigated (in sq. kms.) Net	Gross
1	2	3	4	5
TBP, HLC, GBC	Major	455.47	233.10	286.90
UPP	Minor	39.25	25.09	37.26
BTP	,,	48.56	41.38	58.39
CGP	,,	3.64	2.63	5.70
		546.92	302.20	388.25

Besides these the Drought Prone Areas Programme has undertaken construction of Minor Irrigation Source to develop command area. Many breached tanks have been restored. Percolation tanks were constructed and C.I. wells have been sunk and agricultural development programme is undertaken as notified below:-

Minimum Yield Programme: Groundnut and redgram are selected for adopting package of practices under the programme. The minimum yield proposed to be achieved is 1,100 kgs. per hectare for groundnut and 400 kgs. for redgram. The target of 6,000 hectares proposed under the programme is achieved.

High Yielding Variety Programme : Under the programme paddy, jowar, bajra, maize and ragi crops are selected and the targets and achievements are as follows :

Name of crop	Target (in hectares)	Area covered (in hectares)
1	2	3
Paddy	15,000	10,794
Jowar	12,800	6,165
Bajra	33,400	24,651
Maize	100	838

Short term credit : Government have released Rs. 66.04 lakhs towards short term loans to the agriculturists whereas the Co-operative Department and the banks are proposed to advance short term loans to the farmers to a tune of Rs. 200 lakhs and Rs. 395 lakhs respectively.

Sericulture: More than 50% of the area in the district is red soil suitable for mulberry trees. Sericulture is an agro-based industry for which soil and climatic conditions in this district are suited. Many of the small and marginal farmers have switched on to mulberry cultivation and silk worm rearing. Upto August, 1981, 2,9659 acres have been brought under mulberry cultivation. During 1980-81, 77.22 lakhs kgs. of realing cacoons were produced and an amount of Rs. 1,977 63 lakhs was realised by sale.

The aim of establishment of the grainage is to supply disease free layings to the sericulturists. So far 6 grainages were established under Drought Prone Areas Programme and with the establishment of three more grainages of higher capacity, the demand for disease free layings can be met to a certain extent Subsidy has been granted for 222 wells.

Soil Conservation: Under Drought Prone Areas Programme, the target is to cover 47,200 hectares. 35.200 hectares in eight watersheds and 12 watersheds in the catchment of tanks taken up with an outlay of Rs. 271.23 lakhs.

Dry farming : The object of this programme is to show in action and convince the farmers about the suitability of the cropping pattern suggested in the drought conditions. So far 180 large scale and 1,420 small scale demonstrations were organised. Demonstrations under tanks and wells organised were 60 and 320 respectively. Subsidy was provided to 793 farmers for the purchase of fertilisers and improved implements. The expenditure under this programme is Rs. 17.63 lakhs against the outlay of Rs. 30 50 lakhs.

Animal Husbandry: The programme has been introduced with the main object to provide subsidiary occupations and supplemental incomes to the poorer sections of this district. Under this scheme 118 Milk Co-operative Societies have been organised with total enrolment of 10,112 members. So far 5,253 milch animals were distributed to the members of the co-operative milk supply societies. The banks have extended a credit of Rs. 61 lakhs while the District Development Authority paid a

subsidy of Rs. 20.23 lakhs. Weaker sections benefitted were as follows :

Category	No. of milch animals distributed	Loan paid by banks (Rs. in lakhs)	Subsidy paid by D.D.A. (Rs. in lakhs)
1	2	3	4
Scheduled Castes	1,398	19.9	5.97
Scheduled Tribes	125	2.1	0.63
Backward Classes	1,258	21.80	5.48

To improve the local cattle, artificial insemination programme was taken up in this district. Frozen semen technique was also incorporated in all the Veterinary institutions in this district. So far, 63 breeding bulls were supplied in rural areas for natural service. Three spearhead schemes and three mobile veterinary units were established. The expenditure incurred under this scheme was Rs. 169.69 lakhs on works against an outlay of Rs. 194.07 lakhs.

Sheep Development: Sheep development through the formation of Sheep Growers' Co-operative Societies was taken up in this district. Forty five Sheep Growers' Co-operative Societies were registered with 1,866 members on roll. Out of 1,477 members, 1,332 members contributed 7,737 ewes (female sheep) as share capital. Due to the concerted efforts of the Sheep Growers Co-operative Societies, the birth rate has improved in 25% cross-bred progeny. Wool production was increased and the mortality rate was brought down to 3% in adults and 5% in lambs. The sheep were sold by weight in place of the old practice of group scale. The expenditure incurred under Sheep Development was Rs 43.56 lakhs on works and staff as against an outlay of Rs. 53.25 lakhs.

Fishery: Three Fish Farms were introduced in the district at Anantapur, Bhairavanitippa Project and M.P.R. Penakacherla. Fish produced at these farms were supplied to Fishermens' Co-operative Societies and to other tanks and reservoirs.

Industry: There are 3 industrial estates in the district at Anantapur, Hindupur and Kadiri. Industrial Training Institute which was located in Anantapur continued functioning.

Large and medium industries: Two spinning mills are there in the district. 1. Andhra Co-operative Spinning Mills, Guntakal was started in 1954 with a total paid up share capital of Rs. 66.78 lakhs. 2. The Super Spinning Mills Limited. Hindupur started with proposed capital outlay of Rs. 48.75 lakhs.

Two cotton pressing factories were established at Tadpatri. One Khandsari Sugar Factory, one Andhra Pradesh Lightings "BULB" factory and one insulated wires and cables factory started functioning at Anantapur. Silk Weaving industry in Dharmavaram and Rayadurg Taluks were established.

Small Scale Industries: Kambly weaving centres in Kalyandurg Taluk and lime burning factories at Tadpatri Taluk were established besides several saw mills, oil mills, decorticating units and dye units.

Handicrafts: Government Cottage Industries Sales Emporium, 'Lepakshi' started functioning at Anantapur to collect the articles from the rural artisans and to encourage them to produce more.

Industrial Development: To provide socio-economic development and rehabilitation of harijan freed bonded labour, a society for the manufacture of leather goods was registered at Venkatapuram in Singanamala Taluk under the name The Anantapur Indira Gandhi Harijan Freed Bonded Labour Leather Goods Productive Industrial Co-operative Society Limited with 16 members with a paid up share capital of Rs. 400/- and authorised share capital of Rs. 50,000/-. The Society received the financial assistance of Rs. 1.70 lakhs from Zilla Parishad, Andhra Pradesh Khadi and Village Industries Board, Hyderabad, The Anantapur S.C Service Society, Anantapur. Director of Social Welfare, Hyderabad and Industries Department.

A total of 1,977 artisan units were commissioned in the district with a capital investment of Rs. 35.99 lakhs providing employment to 4,494 persons.

Transport ; Road transport in this district was nationalised in the year 1978. A.P.S.R.T.C. started providing conveyance facilities to the public connecting the State capitals like Hyderabad and Madras and important towns and cities like Vijayawada, Tirupati, Nellore and Vellore, etc. R T.C. introduced an interstate service enroute Kalyandurg to Bellary and Bangalore.

Village link transport Scheme: The main object of the scheme was to provide transport facilities to all the villages in the district. So far 785 villages were connected, leaving those villages that do not have motorable roads. In order to arrest the illicit operation by the private operators on the notified routes of A.P.S.R.T.C., R.T.C. is operating more number of buses duly augmenting the present services. It is also proposed to operate the interstate Services from Anantapur to Bellary, K.B. Halli. Bangalore, Bagepalli, Tumkur and Nandi Hills.

PLACES OF INTEREST

Places of Religious, Historical or Archaeological importance: Places of religious institutions (temples) and mutts and of historical or archaeological importance in the district are presented in the following statement for the convenience of the reader.

STATEMENT SHOWING THE MONUMENTS/TEMPLES AND MUTTS IN ANANTAPUR DISTRICT

Sl. No.	Taluk	Name of the town/ village	Name of the Monuments/ Temples/Mutts
1	2	3	4
1	Rayadurg	Rayadurg	Large Domen near taluk office (Megalithic period)
			Sri Gavi Mutt
		Dondina hirehal	Sri Anandudi Simhasan Mutt
			Sri Sivalingarudraswamy Mutt
		Bondanakal	Sri Pasupathimatha Temple
2	Kanekal	Kanekal	Sri Hari Mutt
3	Uravakonda	Konakondla	Hill fort (known as Pallikonda, Kambam, Narasimhaswamy Konda and Rallagutta) (Constructed during the reign of Vijayanagara Empire)
		Uravakonda	Sri Gavi Mutt
		Amidala	Sri Hari Mutt
		Pennahobilam	Sri Penna Ahobila Lakshminarasimha Swamy
			Sri Lakshminarasimha Swamy Temple
		Gadekal	Sri Bheemeswara Swamy Temple
4	Gooty	Guntakal	Sri Parvathi Simhasan Mutt
		Kasapuram	**Sri Nettikanti Anjaneya Swamy
5	Tadpatri	Tadpatri	Sri Avandootha Thikkaramaiah Mutt
			Sri Thikkarayaswamy Mutt
		Aluru	Sri Kona Ranganatha Swamy Temple
		Chukkaluru	Sri Chennakesava Swamy Temple
		Kadavakallu	Sri Chennakesava Swamy Temple
		Kummetha	Sri Chennakesava Swamy Temple
6	Anantapur	Anantapur	Sir Thomas Munro's House (18th Century)
7	Kalyandurg	Kalyandurg	Sri Virakthi Mutt
			Group of nine circular cairns (Megalithic Burials)
			Group of three large cairns (Megalithic Burials)
			Two oblong cairns on the north and west of the hill (Pre-historic remains)
		Thagguparthi	Sri Sivalaya Ashramam

Places of Tourist Interest :

Dandinahirehal (Rayadurg Taluk) : This village is 58 kms. from Rayadurg via Molakalamuru in Mysore State and 3 kms. from Obalapuram railway station on the Rayadurg-Bellary line. It was once a military camping ground. Coarse sarees of low counts are produced here. Traces of an old fort and a moat are seen at the place. The village has a large number of tamarind topes and consequently extensive business is carried on in the export of tamarind. At Obalapuram, two miles east of the place, there is a bone-crushing factory. Bonemeal crushed from bones collected from the neighbouring villages is exported to the south for manurial purposes. Iron ore is extracted at Obalapuram, Siddapuram and Malpanagudi from the hills nearby by private company located in Bellary.

Muradi (Rayadurg Taluk) : This is about 13 kms. from Rayadurg on the Rayadurg-Bellary road. It is popularly believed, that the Anjaneyaswamy here, is propitiated, would grant their desire for progeny and cure diseases. Devotees stay for a number of days and offer prayers. The congregation is particularly heavy on Saturdays. A car festival is held every year on Chaitra-Suddha Tadiya (March-April). The children born as a result of prayers of the deity in the area are named 'Muradiamma' and 'Muradiappa'.

Rayadurg (Rayadurg Taluk) ; Literally Rayadurg means 'King's Hill Fortress'. It is the headquarters of the taluk and also of a block. It is situated at a distance of 90 kms. from Anantapur. The ruins of the fort can still be seen on the hill at the foot of which the town is built. The fort area contains the temples of Prasanna Venkateswara, Venugopala, Jambukesvara, Veerabhadra, Anjaneya and Kanyakaparameswari. Sir Thomas Munro is said to have had a vision of Venkateswara, the deity at this Shrine and therefore the Lord is called Prasanna Venkateswara. The temple built on the same pattern as the Tirupati Shrine has an excellent tower which appears as though carved out of sandal wood.

Pennahobilam (Uravakonda Taluk) : This is an inhabited village endowed to the local temple of Sri Lakshminarasimhaswamy. The deity is known

as Bogurla Narasimhaswamy. The temple is 3 kms, from the western bank of the Penneru. An over-bridge has been constructed here across the river on the Anantapur-Bellary road. The car festival, falling on the fifth day of the dark fortnight in the month of Vaisakham (April-May), is largely attended by devotees. The temple constructed on a hillock 9 meters high, is reached by a flight of steps. A gigantic foot mark 5' x 3' believed to be the sacred foot print of Lord Narasimha can be seen at the place. An opening to the south beneath the foot is said to be the passage for a tunnel leading to the river and the water poured into it does not overflow whatever be the quantity. The temple of Lakshmi, is situated outside the main shrine. Vows are fulfilled and marriages and tonsure ceremonies are performed frequently at this shrine. Animal offerings are made to the deity. There is a spring channel in the temple, popularly known as Bugga Koneru.

Chitrachedu (Gooty Taluk) : This village lying at a distance of 14 kms. from Pamidi on the north bank of Penneru can be reached from Gooty. Near the village is a stone image of Hanuman, hewn out of a rock more than 25 feet in height carrying Rama, Lakshmana and Sita on his shoulders with Inderjit in between his feet. It is reputed to be the biggest of the idols of Hanuman in the district and is locally known as Kotakonda Hanumantharayudu. To the north-east of Kotakonda Hanuman there is another hill known as Giriappakonda, on the top of which is a *Dwajastambha* and a tree. Near the foot of the hill is a temple to Anantagiri, by the path upto which lies a boulder, about four feet square which is called the *'Balanthirayi'* or pregnant woman's stone which is held in great veneration.

Gooty (Gooty Taluk) : Gooty, the headquarters of the taluk and of a block is 53 kms. from Anantapur on the Kurnool-Bangalore trunk road. The town is of considerable historical antiquity and is said to have derived its name from 'Gowtamipuri', the town of sage Gowtama The place was also known as Jagatapi Gutty. The citadel of the Gooty fort is constructed on the western most circle of hillocks. It is a huge precipitous mass of bare rock and towers over the adjacent ones. The fort is approached by a paved path leading first to an outlying spur strongly fortified and known in former days as 'Mar Gooty'. After passing through these fortifications, the pathway winds upwards round steep sides of huge rock and reaches the summit where the 'quilla' is situated. The buildings in the fort are not of architectural importance. The town is divided into two parts, the fort area is called 'Kota' and the other is called 'Peta'.

Kasapuram (Gooty Taluk) : This place is about 4 kms. north of Guntakal and is known for the temple of Nettekanti Anjaneyaswami. There are a number of choultries built for the convenience of devotees. Pilgrims from several parts congregate in large numbers. specially on Saturdays. The temple is richly endowed with landed property. Local tradition associates the installation of the deity with Sri Vyasarayaswamy of Seshahalli in Mysore. Muslims also make offerings to this deity. A huge procession is taken out once a year on the day next to Ugadi.

Peddavaduguru (Gooty Taluk) ; This village lies about 10 kms. south-east of Gooty on the Gooty-Anantapur road. It is claimed that the Brahmins here used to celebrate at their own expense the thread investiture ceremony of Brahmin boys coming from other villages and hence the name.

A field closeby is known as Kotilingala Kunta (the tank with a crore of lingas) testifying to the belief that it is almost full of Sivalingas Adjacent to the village on the hillock known as Nallakonda, there is a shrine of Nallagonda Ramaswamy with an idol of Sri Rama installed underneath a boulder.

Alur (Tadpatri Taluk); This village, 6 kms. from Tadpatri to its east, is well known for its small waterfall 25' and 30' in height. This fall, amidst picturseque surroundings with hills and trees all round, make it an interesting picnic spot. From the Ranganathaswamy temple, the view down below is enchanting. There are a number of *mantapams* at the foot of the waterfall. The Ranganathaswamy temple is believed to have been built by Pemmasani Thimma Naidu. The car festival of Ranganatha is celebrated in *Chaitra* (March-April) on the full moon day and is largely attended. The festival is conducted at Alur and the idols are then brought from the temple to the village.

Dharmapuram (Tadpatri Taluk) : Dharmapuram village is situated 14 kms. west of Tadpatri. The Aswartham (pipal tree), on the banks of Pennar, a pilgrim centre is visited by devotees from all over the district, either seeking children or needing a cure from chronic ailments. The month of *Magham* (January-February) and especially its third Sunday is considered auspicious for worshipping the deity. An open pial has been raised round the tree trunk and fenced with iron gratings. All round the tank

are installed *Pancha Lingas* and idols of Nagas by devotees praying for pregnancy. Marriages and tonsure ceremonies are also performed at the place. The other temples of some importance are Bhimalingeswara and Pappuramma.

Rayalacheruvu (Tadpatri Taluk) : This village has a railway station on the Raichur-Madras line. A tank was constructed by Krishnadevaraya of Vijayanagara and is still called by that name. On the southern end of this tank-bund, there is a 'Chekumukiralla Gutta' or hill of flint stone. The flint from here is claimed to have been used by Tipu for his muskets. A magic stone (Yanthramurayi) 5' x 3' on which are carved 81 squares bordered by tridents is believed to bring rain or ward off epidemics, if worshipped. Rayalacheruvu is an important centre for lime stone mining in the district.

Tadpatri (Tadpatri Taluk) : Tadpatri or Tatiparthi is the headquarters of the taluk and a block. The town is situated on the banks of the Penneru and 76 kms. away from Guntakal.

The Bugga Ramalingaswamy temple on the southern bank of the Pennar and the Chintalarayaswami temple are the two important temples at the place. In the Ramalingeswara temple there is a perennial underground stream from which water always oozes into the *Garbha Gruha* (sanctum sanctorum) exactly where the Lingam is consecrated. The *Linga* is said to be *'Swayambhu'* (self-formed).

Tadpatri has been one of the important commercial centres in the district for a long time.

Gugudu (Singanamala taluk) : This village is about 29 kms. east of Anantapur. A significant occasion in the village is the Moharram festival conducted with Sri Kullaiswamy as the venerated pir. The *Peerla Makan* with its gold plated minarets is in the centre of the village. *Moharram* attracts a large number of devotees who fulfil their vows on the occasion. Children born as a result of the Saint's blessings are named after him. A fire-walking ceremony is also conducted. It is widely believed that some ill-luck visits an official who halts at the village for the night.

Singanamala (Singanamala Taluk) : Singanamala is at the foot of a hill 16 kms. east of Anantapur on the Tadpatri road. Sage Rishyasringa is believed to have performed penance on this hill. Gampamala, the highest point among the adjacent hills of Singanamala is believed to be the abode of Lord Venkatachalapati. On a nearby rock, the Vaishnava caste mark is painted to which oblations are offered.

There are two natural ponds near the cave. One of them is used for bathing and the waters of the other, 'Akkamma Done' is believed to have curative effects.

Anantapur (Anantapur taluk) : Anantapur, the headquarters of the district is on the Guntakal-Bangalore metre-gauge line, 68 kms. south of Guntakal. The town is connected by regular bus service not only with all taluk headquarters in the district but also with Bellary, Kurnool, Chittoor, Hyderabad and Bangalore.

On the tank bund, are a durgah and a Ganesh temple and the municipality has made lighting arrangements along the bund upto the temple. Among the places of worship are the Chennakeshavaswamy temple near the old town hospital. Eswara and Kanyakaparameswari temples in the main bazar and the Kasivishveshwara and the Satyanarayanaswamy temple in the first road in the extensions. There is also a big mosque in the new town.

Atmakur (Anantapur taluk) : This place is situated about 26 kms. west of Anantapur on the Anantapur-Kalyandurg road. Adjacent to this village on the hill is a temple dedicated to Sri Narasimha locally known as Mala Obulesuswamy whose car festival held annually during February-March is largely attended. Near this place, a sheep and wool extension centre with the Bikaner breed of sheep is situated. A curious agricultural practice noticed here and in the neighbourhood is the provision of the sandals (chappals) to the labourers working in fields as the lands are thorny. There is an old Roman Catholic Church at the place.

Beluguppa (Kalyandurg taluk) : This village is situated in the north-east corner of the taluk on the Anantapur-Bellary road. It is famous for its cumblies. The cumbly weavers' co-operative society purchases wool from various other places in the district and exports the finished products, not only to other places in this State, but also to Kerala and Mysore. It is an important centre of the Khadi and Village Industries Board for obtaining spun yarn. Cotton spinning remains an old cottage industry here.

Bhyravanithippa (Kambadur taluk): It is situated at a distance of 45 kms. from Kalyandurg and is a trijunctional point of the taluks of Kalyandurg, Rayadurg and Mysore State and is named after Bhyrava, whose temple lies on a hillock nearby. The Bhyravanithippa project harnesses the waters of the Hagari (Vedavathi). The original village, at the foot of the hillock, was evacuated to facilitate the construction of the dam. The project is designed for irrigation through a storage of 24,000 M.Cft with an earthen dam and two canals on its right and left flanks.

Enumaladoddi (Kambadur taluk): This village is situated 19 kms. south of Kalyandurg. There is an *ashram* dedicated to a saint of the Sri Radhaswamy faith. The Teppalamma Banda (a stone) to the south of the *Ashram* is visited by devotees praying for progeny and also for performing tonsure ceremonies. The floating island is another interesting spot. It is a small irregular-shaped island of earth, some ten yards across at its widest part which lies in and nearly fills up, a hollow becomes full of water and the 'Island' floats and moves a foot or two. The island is worshipped as the 'floating Goddess' and the water round it is held sacred.

Kundurpi (Kambadur taluk) : Situated at a distance of 32 kms. from Kalyandurg, is at the foot of a hill 914 meters above sea level. It contains the ruins of a fort. The vestiges of Jain temple and icons of *Thirthankaras* (Pontiffs) can still be seen in the village. On the way to the summit of the hill is the temple of Kundurpamma. There is a superstition that ill-luck befalls any official with magisterial powers making a night halt at this place. Two pools on the hill known as *Akka Chellandla Donalu* are a popular resort for those praying for children. The manufacture of puffed rice is an important cottage industry. The weaving of woollen blankets has gained much popularity in this village. The wool is obtained locally and also supplemented by purchases from adjacent villages.

Vepalaparthi (Kambadur taluk): This village is also known as Vepalapadu or Bevinhalu and is situated 29 kms. west of Kalyandurg. The car festival of Sri Ranganatha is celebrated during March-April and is well attended. In front of the temple, there is a magic stone believed to cure cattle diseases if 101 pots of water are poured over it and the cattle affected made to tread on it. Cumbly weaving is the local industry which enjoys a good market in Mysore State.

Dharmavaram (Dharmavaram taluk): Dharmavaram is 34 kms. from Anantapur. It is a railway junction on the Bangalore-Guntakal line and is the terminus of the Pakala-Dharmavaram section. The important local temple is the Lakshmi Chennakesava Swamy shrine. It has a storeyed tower, extensive enclosures and an entrance carved in the Vijayanagar style. The Ramalingeswara temple at the place is exquisite in its architecture and has a perennial water sprout (bugga). At dusk this *'Saikatha'* linga (an idol made of sand) looks as if it is imposed from above. Another *Linga*, which is nearby, is believed to have been installed by Hanuman. The seven small independent pillars in the temple when struck produce 'Saptasvara' (the seven musical notes). The inhabitants are mostly weavers engaged in cotton and silk weaving. Dharmavaram silks are well known almost all over the country

Penukonda (Penukonda taluk) : Penukonda, meaning the big hill, is the headquarters of the taluk. of a revenue division and of a Panchayat Samithi, all bearing the same name. It is at a distance of 71 kms. from Anantapur on the Kurnool–Bangalore road. The town is picturesquely situated at the fort of a fortified hill over 915 metres in height The four sides of the town are presumed to be guarded from evil spirits and diseases by the idols of God Hanuman, the largest of them, about 11 feet in height near the main entrance to the fort. The most important mosque, at this place is the Sherkhan Mosque. In its interior is a dark green stone frame with rotating pillars on either side

The Ramaswamy and Isvara temples are preserved under the Ancient Monuments Act. To the south of these temples is the 'Gagan Mahal' built in 1575 without a single rafter in the Indo-Saracenic style. It is believed that, Babayya, a Hindu prince, who turned Fakir, was given a tender stick by his preceptor Nathar Vali and was asked to settle down at the place where it blossomed and this happend to be the Ishwara temple at Penukonda. A tree is still shown as the one referred to in the anecdote. It is believed that it used to yield sugar till recently and that the sugar was used as a daily offering at the dargah.

There are three *'Brundavanams'* held in veneration by the Madhwa sect of Brahmins. A mutt here is the seat of Sri Vedavyasa Thirthulu, who is the eleventh swamy in succession. An *'Aradhana'* is held at the mutt every *Chaitra-Suddha Vidiya* (March-April).

Agali (Madakasira taluk) : This village is about 42 kms. south-west of Madakasira. A *mantapam* and a tank at the place are claimed to have been built by Sir Thomas Munro. There is also a Jain temple bearing the image of one of the *thirthankaras*. The Agali tank fed by the Swarnamukhi has a registered ayacut of 358 hectares.

Amarapuram (Madakasira taluk) : It is claimed that this place is associated with Amarasimha, the lexicographer and author of 'Amarakosa'. It is situated 42 kms. north-west of Madakasira. This place appears to have been a stronghold of Jains in the early centuries. Chandraka Bhattaraka, the disciple of Charukrithi Bhattaraka a reputed Jain teacher, lies buried in Thamadehalli Anjaneyaswamy temple, about 3 kms. from Amarapuram. On the elevated ground beyond the water spread of the Amarapuram tank which commands an ayacut of over 365 kms. the site of an old Jain *'Basadi,* (monument to the dead) in a black stone 'Panavattam' (Pedestal). An inscription of 1278 A.D., by the side of the Panavattam records the gift of arecanut trees in Thamadehalli for the reconstruction of the temple of Prasannaparaswadeva. There is also an incomplete Jain temple on the Thailagiri mound. The mosque in this village is the biggest in the taluk. Amarapuram is known for the cultivation of betel leaves aod arecanuts.

Chilamathur (Hindupur taluk) : It is situated about 27 kms. east of Hindupur on the road connecting Kodikonda. About 4 kms west of the village, there is an ancient temple of Kanuma Narasimhaswamy. The forest area in the neighbourhood is well stocked with various floral species including sandal. The important cottage industries at the place include the weaving of jute carpets and the making of lace and silk thread used for waist strings.

Hindupur (Hindupur taluk) : Hindupur is situated at a distance of 105 kms. from Anantapur and it is an important commercial centre in the district. It is a railway station on the Guntakal-Bangalore line. It is also the taluk headquarters and a municipality since 1920. An ancient Anjaneyaswamy temple, the Guddam Rangaswamy temple and the Peta Venkata Ramaswamy temple deserve mention.

Lepakshi (Hindupur taluk) : Lepakshi is the most important place, historically and archaeologically in the district. It is at a distance of about 14 kms east of Hindupur on the Kodikonda-Amarapuram road. The Kurma Saila (tortoise shaped hill) has the temples of Papanatheswara, Raghunatha, Srirama, Veerabhadra and Durga of which the Veerabhadra temple is the most important. The place is renowned as the repository of the best mural paintings of the Vijayanagar kings. In the temple a shrine of Siva faces that of Vishnu with Veerabhadra at the centre. These three form a triangle with a common mantapam. The temple is surrounded on all sides by an outer enclosure. A second inner enclosure contains the main portion of the temple. Its finest parts are the Natya (Dancing) and Ardha (Worship) Mantapas. The Natya Mantapa is decorated with superbly sculptured life-size representations of musicians and dancers in various poses displaying spirit and vigour. To the south of the main shrine is the huge Nagalingam hooded by a great Naga with its base split Two hundred yards east of the temple is a colossal Nandi reputed to be the largest of its kind in the country. It is carved out of a monolithic rock, 20' in height and 30' in length. An excellent painting of the story of the legendary king Manuchola draws the eye of even the most casual onlooker. The best specimens of the Vijayanagar style of sculpture and mural paintings are found in this temple.

Kadiri (Kad ri taluk) : It is situated about 90 kms. from Anantapur and is a railway station on the Dharmavaram-Pakala section. This is the headquarters of the taluk and of two blocks, Kadiri East and Kadiri West. The temple of Lord Khadri Laxmi Narasimha Swamy to the west of the town is a popular place of pilgrimage attracting devotees even from the neighbouring districts and Karnataka State. The Brahmotsavam of Lord Narasimha Swamy together with the annual car festival is held from *Phalguna Suddha Dasami* to *Bahula Panchami* (February-March) several scenes from *Ramayana* are painted on the ceiling of the *Rangamantapa* several frescos on that of the Lakshmimantapa depicting scenes from the Bhagavata. Malas and Madigas were permitted to enter this temple long before the advent of the statutory enactment of the temple entry Authorisation Act. The Mohiar tomb, situated opposite the Government hospital, is held to contain the remains of chandravadana of matchless beauty, the daughter of Ranga Rayudu and of Mohiar, a Muslim travellor who fell in love with her but could not make her his own. He died pining for her and it is believed his dead body could not be lifted till Chandravadana undertook the task. This convinced her that the Lord had ordained that she should be Mohiar's partner even in death and so permitted herself to be buried alive by his side.

Nidimamidi (Sri Satya Sai taluk) : This village lies 10 kms. east of Penukonda on the Penukonda-Bukkapatnam road. It is remembered for the Sri Nidimamidi Srisaila Jagadguru, Panditharadhya Sivacharya Peetham, a Pontifical Order of Lingayat Gurus whose present headquarters is at Gulur in Mysore State. Nidimamidi is reputed to be one of nineteen places where one or the other of the Gurus of the Order lies buried.

Puttaparthi (Sri Satya Sai taluk) : This village on the Chitravati situated at a distance of about 29 kms. from Penukonda 3 kms. on the Penukonda-Bukkapatnam road is now a centre of great attraction. It is the abode of Puttaparthi Sri Satya Sai Baba. His disciples have constructed the 'Prasantha Nilayam' an ashram which attracts a large number of devotees from various parts within and outside the State throughout the year. The Baba is credited with occult powers. On *Sivarathri*. on the birthday of the Baba and during Dasara, quite a large number of devotees visit the place. Relics of an ancient fortifications can still be seen in the village.

CENSUS CONCEPTS

Rural and Urban areas : It is customary to classify the population of every country at each census as Rural and Urban. Such a classification has considerable importance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence, at the beginning of each census, the criteria for treating a place as a town i.e., urban are evolved and the areas are then classified according to the definition so evolved. The census definition of a town in this country was more or less the same from 1891 to 1941. The towns broadly comprised all municipalities irrespective of the population size and every other continuous collection of houses permanently inhabited by not less than 5,000 persons while provincial Directors of Census Operations having regard to the character and relative density of population, their importance as centres of trade decide them to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 Census that a fairly strict definition was sought to be applied throughout the country in order to determine a place as an urban unit. The same definition was followed at the 1971 and 1981 Censuses also. The Director of Census Operations, however, was given discretion to include places that had other distinct urban characteristics and to exclude underserving cases in consultation with the State Government. The following criteria are adopted for treating a place as urban at the 1981 Census.

i) A minimum population of 5,000,

ii) Atleast 75% of the male working population is in non-agricultural pursuit,

iii) A density of population of atleast 400 persons per sq. km.

The urban criterion of 1981 varies slightly from that of 1961 and 1971 Censuses, in which the males working in activities such as fishing, logging, etc., were treated as engaged in non-agricultural and therefore contributed to the 75% criterion in 1961 and 1971 Censuses, whereas in the 1981 Census these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion.

The towns are distributed into six classes as detailed below :

Classification of towns	Population size
Class I	100,000 and above
Class II	50,000 – 99,999
Class III	20,000 – 49,999
Class IV	10,000 – 19,999
Class V	5,000 – 9,999
Class VI	below 5,000

The class I towns are termed as cities.

Standard Urban Areas : Besides classification of all places into rural and urban areas, two more concepts viz., Urban Agglomeration and Standard Urban Area were evolved from the 1971 Census. One of the difficulties in comparing the urban population and its characteristics between one census and another, apart from the changes in the list of certain units at each census, had been the change in the jurisdictions of the urban units from census to census. The concept of Standard Urban Area had been introduced at the 1971 census and same was followed in 1981 with a view to obviating this difficulty to some extent. The essentials of a standard urban area are – (i) that it should have a core town of a minimum population size of 50,000, (ii) that the contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-economic links with the core town and (iii) that there are probabilities of that this entire area getting fully urbanised in a period of two or three decades. The idea is that it should be possible to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture. This replaced the concept of town-group which was introduced in the 1961 Census. The town-group was made up of independent urban units not necessarily contiguous to one another but were to some extent inter-dependent. The data for such town groups become incomparable from census to census as the boundaries of towns themselves changed and the intermediate areas are left out of account. Thus the concept of Standard Urban Area came to be developed for adoption at

the 1971 Census. In Andhra Pradesh, 31 units have been selected for demarcating Standard Urban Areas. The necessary data will be compiled for these units also during the next two or three successive censuses in order to study urbanisation around a large nuclei. The Standard Urban Area is identified by the administrative units that it encompasses namely the city, the town and the villages. The boundaries of the Standard Urban Area will be the administrative boundaries of the peripherial units.

Urban Agglomeration : Apart from town/city, the 1971 concept of Urban Agglomeration has also been adopted for the 1981 Census. An urban agglomeration constitutes :

a) A city with continuous outgrowth (the part of outgrowth being out of the statutory limits but falling within the boundaries of adjoining village or villages);

b) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a) ;

c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread. There are only 4 urban agglomerations in the State viz., Vishakhapatnam, Rajahmundry, Vijayawada and Hyderabad.

Census House : A census house is a building or part of a building having a separate main entrance from the road or common court-yard or stair case etc., used or recognised as a separate unit. It may be inhabited or vacant.

Household : A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one member household, two member household or multi-member household. For census purposes each one of these types is regarded as household. Again, there may be household of persons related by blood or household of unrelated persons or even of mixed type. Examples of unrelated households are boarding houses, hostels, residential hotels, orphanages, rescue houses, ashrams, etc. These are called institutional households.

Scheduled Castes/Scheduled Tribes : Scheduled Castes and Scheduled Tribes are those notified under Article 341 of the constitution according to which the President may with respect to any State or Union Territory and where it is State after consultation with the Governor thereof, by public notification, specify the castes, races or tribes which shall for the purpose of the constitution be deemed to be Scheduled Castes in relation to that State or Union Territory, as the case may be.

For the purpose of 1981 Census. Scheduled Castes and Scheduled Tribes lists, Amendment Act, 1976, notified under the Government of India, Ministry of Home Affairs, Notification No. BC 12016/34/76-SCT-V dated 27-7-1977 was adopted. A copy of the list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given under the note on Primary Census Abstract.

Literates : A person who could both read and write any language with understanding was treated as a literate at 1981 Census. A person who could merely read but could not write or vice versa was not treated as literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterates. The test for education was that a person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

Worker : The definition of work adopted in 1981 Census is as follows :

> "Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work".

In the concept of work a significant departure is made at the 1981 Census. At the 1971 Census, the main activity of a person was initially enquired according as he spent his time basically as a 'worker', engaged in production of goods and services or as non-worker. For regular work in organised sector, the reference period was the week prior to enumeration, and for seasonal work such as agriculture, etc., the last one year. Persons engaged atleast for a day in regular (non-seasonal) work during the preceding week were treated as workers. The work of a person who was basically a non-worker, such as a student, or housewife but had made some marginal contribution to work was

classified as secondary work and this was recorded separately.

At the 1981 Census it was considered desirable to have as detailed a profile of the working population as possible, maintaining the comparability with 1961 and 1971 data. An attempt was made to find out if a person had done any work at all during the last year. It will thus be seen that the questions on economic approach have been designed to distinguish all the workers regular or seasonal and non-workers with reference to the last one year prior to the date of enumeration. It was intended to find out how many had worked for 183 days or more i.e., 6 months or more and information regarding the secondary work done by regular workers and also the marginal work done by the non-workers was collected. It was felt in the present context that the usual status of worker was more appropriate when compared with the approach of current status of worker followed earlier. The broad classification of workers is explained under the note on the Primary Census Abstract.

Non-Workers : All others who did not do any productive work irrespective of whether they derived some income such as through pension, rents, etc., or did not derive any income were classified under category (X) non-workers.

The non-workers are divided into the following seven categories :

1. Household duties i.e., all those persons basically engaged in unpaid home duties doing no other work ;
2. Students i.e., all full-time students or children attending school ;
3. Retired persons or a rentier i.e., a retired person not employed again or rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work :
4. Dependent i.e., an infant or child not attending school, a person permanently disabled from working due to illness or old age or if able bodied who have no other activity and who are not seeking any work either, but are purely dependent.
5. Beggars, etc., i.e., beggars, vagrants or an independent woman without indication of source of income and those of unspecified source of subsistence and who are not engaged in any economically productive work ;
6. Institutional inmates i.e., a convict in a jail or an inmate of penal, mental or charitable institution; and
7. Other non-workers - all non-workers who may not come under any of the above six categories.

Marginal Workers : A significant feature of the 1981 Census was the collection of information on marginal workers who had done some work for a period of less than 6 months during the reference year prior to census taking. At the 1971 Census though this concept was not introduced there was a comparable category called non-workers with secondary work.

HISTORY OF DISTRICT CENSUS HANDBOOK

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District manuals by another publication viz , the District Gazetteers consisting of two volumes A and B. Volume A contained descriptive and such general tables as might be necessary to explain the text and volume B contained detailed statistics. It was decided that volume B should be brought out periodically after each Decennial Census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of volume B was also stopped after 1931 Census. Due to the World War II, they were not published after the 1941 Census.

Similarly in the erstwhile Hyderabad State also the Gazetteer volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of all the districts except Hyderabad and Ongole have been published.

The Village Statements : Apart from the District Manuals and Gazetteers the Census data upto village level used to be published in a brochure called 'Village Statement' for each District immediately after every census from 1872 upto 1941.

The village statements presented only the number of occupied houses and population by religion of each village and town. From 1951 Census, the village statements were replaced by the District Census Handbooks.

District Census Handbooks : Sri R. A. Gopala Swamy, I. C. S., the then Registrar General, India and Ex-officio Census Commissioner of India poineered the idea of compiling the District Census Handbooks for each district and introduced the same in 1951 Census. This was envisaged as part of the plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the 'District Census Handbook' and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the District should be printed and published at their own cost, in the same manner as the village statistics of the earlier censuses. This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for each district at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts, Part I containing the administrative statistics and Part II the census tables. Whereas in composite Madras State, the Handbooks were brought out in one single volume for each district.

Pattern of District Census Handbooks at 1961 : At the 1961 Census, the scope of the District Census Handbooks was enlarged significantly by Sri Ashok Mitra, I. C. S., the then Registrar General, India. District Census Handbooks of 1961 of Andhra Pradesh included four parts. The first part contained narrative description of physical features, history, social, economic and demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteer of places. The second part contained the administrative statistics of various departments. The third part contained the 1961 Census tables viz., General Population Tables, Economic Tables, Tables on Scheduled Castes and Scheduled Tribes. The fourth part consisted of village and town directory which was the most vital part of the Handbook, giving the village-wise and town-wise primary census abstract

i.e., particulars of area, households, population, scheduled castes, scheduled tribes, literacy, broad categorisation of working population, etc. Important amenities such as educational, medical, public health communication facilities available were also indicated against each village and town. Nine such tables containing village-wise particulars such as irrigation sources, important crops raised, value of land, co-operative societies, industrial establishments, police stations, list of skilled craftsmen, etc., were given after village and town directory. A statement on fairs and festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census : At the 1971 Census, it was decided to enlarge the scope, in view of its usefulness to the official users of the census data and the increased demand among the public. There was some delay in the publication of District Census Handbooks at 1961 Census due to two reasons- (1) inadequate printing facilities and (2) delay in the preparation of District Census Handbook which contained four parts. In order to avoid delay in the publication and to make available the more important data to the planners at the earliest, the District Census Handbook was prepared in 3 parts viz., Part A, Part B and Part C as shown below :

Part A : Village and Town Directory

Part B : Village and Town Primary Census Abstract

Part C : Administrative Statistics and Report

Parts A and B were bound in single volume and were published for all the districts as early as in 1974. However the printing of Part C was given up.

Pattern at 1981 Census : At the 1981 Census, the format of village directory and statements of town directory are almost similar to those adopted for 1971. The District Census Handbook of 1981 Census comprises of the following two parts brought in a single volume, the grouping of which would enhance the value of publication as the data given therein are closely inter-related.

Part A : Analytical note

Part B : Village and Town Directory and Village and Town-wise Primary Census Abstract

It has been decided not to go in for administrative statistics, that is, Part C as it was our experience during 1971 Census that there was inordinate delay in collecting the administrative statistics pertaining to various departments with the result that the publication of this part of District Census Handbook was dropped in Andhra Pradesh State. Other reason for dropping the publication is that administrative statistics, would be available to the data users in the publications of the State by Bureau of Economics and Statistics and the concerned departments.

The formats of village directory and of seven statements on town directory are on the same pattern as canvassed in 1971 Census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. A feature of 1981 pattern is the restructuring of all the amenities except power supply in the villages and to bring them together, with the corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. While presenting the additional columns of Town Directory, the Minimum Needs Programme of the Planning Commission is kept in view. The scope of village directory, town directory statements and primary census abstract along with the codes used under each column are explained hereunder.

Scope of Village Directory : As was done in the past, the village directory has been prepared for all the villages in the State and these are presented taluk-wise in the District Census Handbook (DCH). For convenience of references, an alphabetical list of villages in respect of each taluk precede the village directory for that taluk. This is done for easy location of any village in the directory since the information is arranged in ascending order of the location codes of the villages.

In the village directory, various amenities and other data have been indicated by codes. These include, area of the village, total population with number of households at 1981 Census, availability of amenities such as educational, medical, drinking water and P & T facilities, communication facilities, type of approach to village and the distance of nearest town, power supply and land use particulars. There are 20 columns in the village directory covering the above aspects.

Columns 1 to 3 relate to the location code number, name and total area of the village. The area given under column 3 is as per the data collected from the State Survey Department. Wherever the figures are not available from the State Survey Department, the figures furnished by the Tahsildars have been adopted. Columns 4A and 4B provide the number of households and population of the village as per 1981 Census. Columns 5 to 11 and 13 list out the basic amenities available in the village such as educational, medical, drinking water, postal, day of the market, communications, approach to village and electricity.

In order to indicate the food habits, information on the staple food of the majority during the major portion of the year was collected under column 14. Wherever it was difficult to clearly determine a particular grain as staple food, the combination of grains mainly used as staple food has been indicated.

Columns 15 to 19 pertain to the land use pattern in the village. The extent of the forest area has been given in column 15 while in columns 16 and 17 the extent of cultivated area in the village has been given. The extent of irrigated area together with different irrigational sources has been indicated in column 16. The extent of culturable waste has been shown in column 18 while the area not available for cultivation such as village site, road and railways or underwater etc., has been indicated under column 19.

The concepts of various types of land use given under each of the columns 15 to 19 are explained below :

1. Forests (Col. 15) : These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and unirrigated (Cols. 16 & 17) This includes the land under the following three categories.

(i) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(ii) Other fallows :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerated nature of farming, etc

(iii) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

3. Culturable Waste: (Column 18) This includes the land under the following three categories.

(i) Permanent pastures and other grazing lands :

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

(ii) Miscellaneous tree crops, groves not included in the area sown :

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

(iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation. (Col. 19) : This includes the land under the following two categories.

(i) Land put to non-agricultural uses:

All lands occupied by buildings, roads and railways or underwaters, e. g., rivers and canals and other lands put to uses other than agricultural.

(ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e., which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

Column 20 is for recording remarks if any on matters like place of religious, historical or archaeological interest. and for information on the number of copies of newspapers circulated in the village, and the number of motor cycles/scooters, cars/jeeps and tractors available in the village.

All the above particulars are based on the data received from the concerned departments like Education, Medical, Postal and Electricity and also from the Tahsildars concerned.

In the Appendix to the village directory taluk level totals of the amenities have been furnished which g ves the picture for the district as a whole. At the 1981 Census, additional items viz., total population and number of households and approach to village have been introduced. Information on population and number of households will be useful as ready reference for analysing the data.

Item on communications has been singled out to spell in terms of availability of the public transport system. This is intended to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this background that the item on approach to village has been listed separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and primary health centre and community health worker under item 'Medical' of village directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory : There are seven statements in the town directory which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted at 1971 Census except for a few additional columns. The titles of the statements are as follows :

Statement I : Status and growth history

Statement II : Physical aspects and location of towns, 1979

Statement III : Municipal Finance, 1978-79

Statement IV : Civic and other amenities, 1979

Statement IVA : Civic and other amenities in notified slums, 1979

Statement V : Medical, Educational, Recreational and Cultural facilities, 1979

Statement VI : Trade, Commerce, Industry and Banking, 1979.

With a view to facilitate analysis of data, a few new columns have been introduced. The columns-class of town, in every statement is a significant addition. By taking the class of town into consideration the infrastructure of amenities and facilities available in urban areas can best be analysed. The addition of civic administrative status in statement III and IV and population in statement IV and V also serves the same purpose. The formats of town directory have been so devised to suit the Minimum Needs Programme of the Planning Commision. As a sequel to this programme the columns Scheduled Castes and Scheduled Tribes population in Statement IV and adult literacy classes/centres in statement V are included.

In case some of the facilities such as fire fighting service in statement IV, the educational facilities in statement V is not available in the town, the name of the nearest place if in the same district or the name of the nearest district if in the same State or other State where available along with its distance from the referrent town has been given. This is a new feature of 1981 Census as it will be of advantage to identify the urban areas without a particular facility in the district.

Statement VII i e., population by religion and Scheduled Castes/Scheduled Tribes in towns of 1971 Census was discontinued at the 1981 Census and a new statement IV-A has been introduced to explore the possibility of civic and other amenities available in notified slums in class I and II towns only.

The following 11 places form the urban units in Anantapur district at the 1981 Census.

1. Anantapur
2. Dharmavaram
3. Gooty
4. Guntakal
5. Hindupur
6. Kadiri
7. Kalyandurg
8. Penukonda
9. Rayadurg
10. Tadpatri
11. Uravakonda

Of these, Anantapur, Dharmavaram, Guntakal, Hindupur, Kadiri, Rayadurg and Tadpatri are Municipalities while the others are panchayat towns. All the eleven places had been treated as towns from 1901 onwards except Guntakal which was classified as a town from 1921 onwards. No new towns were added or declassified at the 1981 Census.

Anantapur, the district head quarters and an important educational centre and Guntakal an important commercial centre and Railway Junction with population of 119,531 persons and 84,599 persons respectively at the 1981 Census, are in the frame of standard urban areas. The details of the standard urban areas are given below :

Standard Urban Area	Component units	
	Urban	Rural
1	2	3
1 Anantapur	Anantapur (M)	1 Papampet
		2 Anantapur (R)
		3 Kakkalapalle (R)
		4 Raptad
		5 Itikalapalle
Guntakal	Guntakal (M)	1 Kasapuram
		2 Guntakal (R)

Anantapur is the only class I town at 1981 Census in the district, which has crossed one lakh population. Dharmavaram, Guntakal, Hindupur, Kadiri and Tadpatri fall under class II towns with a population ranging between 50,000 to 99,999 persons. Three towns viz., Gooty, Rayadurg and Uravakonda come next in the order under class III towns with a population ranging between 20 000 to 49,999 persons. Class IV towns are Kalyandurg and Penukonda with a population ranging between 10,000 to 19,999 persons. The urban population of the district is 530,917 persons constituting 20 8% of the total population of the district The corresponding proportion in 1971 Census was 17.8%.

The details given in each of the seven statements of the town directory are explained hereunder :

Statement I : Status and Growth History :

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 1981, density for 1981 census and sex ratio from 1961 to 1981 censuses of each town in columns 1 to 19.

In this as well as in all other town directory statements columns 1 and 2 relate to serial number and class, name and civic administrative status of the town. Class of town has been introduced to facilitate analysis of town directory data at the State and all India levels. This is presented according to 1981 population of the core town as per the population size classification.

Population	Class
100,000 and above	I
50,000 – 99,999	II
20,000 – 49,999	III
10,000 – 19,999	IV
5,000 – 9,999	V
Below 5,000	VI

The civic administrative status of the town is recorded in brackets in terms of abbreviated letters like 'M' for Municipality and 'P' for Panchayat. The location code number under column 3 indicates the alphabetical order of the town in the district and facilitates easy location of the town in the map. The name of taluk where the town is located is given to facilitate analysis of data at State and all India level. Area in sq. kms. and number of households including houseless households for each town is included in the town directory for the first time at 1981 Census. The population of the town with decadal growth rate from 1901 census to 1981 is given in columns 7 to 15. The percentage growth rate is indicated below the population in brackets. Density for 1981 is a new column introduced (column 16) to facilitate analysis of town directory data. It is calculated taking into account the area and the population of 1981 census of the town and presented per square kilometer. Sex ratio from 1961 to 1981 censuses is given in columns 17 to 19. This is also a new addition to facilitate analysis of town directory data. Sex ratio defined here is number of females per 1,000 males.

Steady growth of population is seen in respect of Anantapur and Guntakal towns. All the towns except Tadpatri and Uravakonda registered a fall in population in 1911. Gooty, Kalyandurg, Tadpatri and Uravakonda recorded decline in 1921. A declining trend is also seen in 1931 in respect of Kadiri, Kalyandurg and Penukonda and in 1941 in respect of Uravakonda town. Due to lack of adequate health facilities and prevalence of communicable diseases like cholera, small-pox at frequent intervals are the causes for downward trends and the lower growth rates recorded in the early decades compared to those recorded in the later decades. It may be noted that the population of Anantapur town in 1901 which was less than that of any other town in the district except Penukonda, has recorded a steady and spectacular growth and finally crossed one lakh population mark at 1981, taking class I status. Also Guntakal town has been growing rapidly and is the second biggest town in population size.

Of the eleven towns in the district, Penukonda is the only town having an area of 65.55 sq. kms. Next to it comes Guntakal with an area of 51.90 sq. kms. The third important town as far as area is concerned is Rayadurg with an area of 49.73 sq. kms.

Hindupur with an area of 6.55 sq. kms. is the thickly populated town with 8,535 persons per sq. km., tops the town in density as against the district urban density of 1,577 persons per sq. km. Anantapur, the district headquarters town recorded a density of 7,311 persons per sq. km.

Statement II: Physical aspects and location of towns, 1979

This statement has 12 columns and depicts physical aspects and location of towns in the district. Under Cols. 3 to 5 in the statement data relating to the rainfall recorded in 1978 and the maximum and minimum temperature recorded in 1971 census were given. If this information was not available for any town then the particulars available for that nearest town have been given against such town. All the towns are taluk headquarters except Guntakal which is at a distance of 30 kms. from Gooty, its taluk headquarters.

All the towns in the district are having bus communication facility and APSRTC is providing necessary transport facilities. Besides, the district is also served by the broadgauge railway connecting Madras and Bombay and metergauge line connecting Guntakal and Bangalore and another metregauge branch from Dharmavaram connecting Chittoor district. All the towns are directly connected by rail except Kalyandurg and Uravakonda which are in a reach of 35 and 33 kms. respectively from the nearest railway station. The two important railway junctions in the district are Guntakal and Dharmavaram. Guntakal is the most important junction where trains to Madras, Bombay, Vijayawada, Hubli and Bangalore pass through. None of the eleven towns in the district have navigation facility.

Statement III: Municipal Finance, 1979

The data for inclusion in this statement was obtained from the respective statutory and non-statutory bodies from their budgets and accounts.

It could be seen from the statement excess of expenditure over income is noticed in respect of Guntakal, Kalyandurg and Uravakonda. The deficit in these three towns seems to be nominal. In Anantapur town roughly 33% of the total receipts is utilised for purposes of public health and conveniences. It is surprising to note that Kadiri town municipality is not spending on public institutions like schools and libraries.

Statement IV : Civic and other amenities, 1979

As the title itself reveals, this statement deals with the facilities provided to the citizens by the civic administration in the urban areas of the district.

The most striking feature in all the eleven towns is the conspicuous absence of underground drainage system. The only sewerage system available is open surface drains in all the towns. Protected water supply is in force in all the towns. Fire fighting service facility is available in four towns viz., Anantapur, Guntakal, Hindupur and Tadpatri.

All the eleven towns are having electric supply for domestic as well as industrial purposes.

In Andhra Pradesh domestic service includes supply of energy for lighting, fans and domestic purposes in domestic premises, poultry farming units upto 100 birds. Industrial service means supply for purposes of manufacturing, processing and/or preserving goods for sale, rice mills, oil mills, flour mills, ginning mills, decorticating mills, dal and gram mills, stone crushers, water works

and sewerage pumping stations operated by local authorities or government departments or co-operative house building societies and pumpsets of railways for whatever purpose they may be used. Commercial service includes the supply of energy for lights, fans for non-domestic and commercial purposes. Road lighting service includes supply of energy for lighting on public roads, streets, thorough fares including parks, markets, cart stands, bridges and for traffic signalling. Supply of energy to places of worship like churches, temples, mosques, gurudwaras, educational institutions, student hostels, municipal guest houses, travellers bungallows, circuit houses of the government, charitable institutions and recognised service/ institutions are included in 'Others'.

Anantapur is having highest number of industrial connections followed by Dharmavaram and Hindupur while the road lighting points are more in Anantapur followed by Hindupur and Guntakal towns.

Statement IV A: Civic and other amenities in notified slums, 1979

This statement provides information on civic and other amenities in notified or recognised slums of class I and II towns only. It helps to assess the magnitude of slum problem in those two classes of towns and to explore the possibility of civic and other amenities available. Anantapur is the only class I town. Dharmavaram, Guntakal, Hindupur, Kadiri and Tadpatri are class II towns.

Statement V: Medical, Educational, Recreational and Cultural facilities in towns, 1979

In this statement, the magnitude of facilities on medical, educational, recreational and cultural aspects with reference to population of 1981 census is detailed in respect of the towns in this district. All the towns in this district have hospitals. There are 65 medical institutions which include government hospitals, dispensaries, nursing homes and maternity and child welfare centres in all the towns together with a total bed strength of 861 catering to the medical needs of a total urban population of 530,917 persons. Institutions covering all systems of medicine are included in the statement. Anantapur and Guntakal are better placed compared to other towns with 10 and 6 medical institutions and with a total bed strength of 446 and 139 respectively.

There are seven degree colleges, one each in Guntakal, Hindupur, Kadiri, Tadpatri, Uravakonda and two in Anantapur. Besides, Anantapur is having post graduate centre also and Sri Krishnadevaraya University is located in Anantapur. On the professional side Anantapur town has one engineering and two polytechnic colleges. Thus Anantapur is educationally an important place in the district.

There are 44 shorthand and typewriting institutions in the district. Oil Technological Institute, Cooperative Training Institute, Police Training College, Industrial Training Institute are there in Anantapur while one Arabic college is in Rayadurg.

There are 13 Junior Colleges or Higher Secondary Schools, 36 Secondary or High Schools, 49 Junior Secondary or Upper Primary Schools, 193 Primary Schools in all the towns put together in the district.

A different method is adopted in presenting the number of educational institutions. If there are composite schools like middle schools with primary classes or secondary schools with middle classes, these are included in the number of primary and middle schools respectively. For example, if in a town there are two primary schools upto say class IV and one high school from class I to class X, the number of primary schools in the town is given as 3 and that of middle school as one and secondary school as one even though there are physically only three educational institutions. Again a composite school having classes upto class XII has been divided as shown below.

Class I to IV	:	Primary
Class V to VIII	:	Middle
Class IX to X	:	Secondary
Class XI to XII	:	Higher Secondary

By the above classification it may be noted that number of educational institutions physically exist within a town are not going to be presented but is presented by grouping the classes in the institutions and treating each group as a school of its kind. It is also to be noted that the said grouping will hold true irrespective of educational institutions they belong to For instance, the grouping marked as Higher Secondary i.e., class XI and XII may physically belong to a college but for the purpose of town directory these two classes put together constitute one unit of Higher Secondary School, the rest of the college is being treated as a college.

Regarding recreational, cultural facilities, there are 2 stadia, 44 cinema halls, 9 auditoria/community halls, 26 public libraries including reading rooms in all the towns together.

Statement VI: Trade, Commerce, Industry and Banking, 1979

Anantapur is a dry tract, a large portion of the land yielding hardly anything. Famines and droughts are quite common to this district. In spite of irregular and insufficient rainfall many people live on agriculture.

The district is served by a net work of 64 banks, 20 agricultural credit societies and 105 non-agricultural credit societies, in all the urban areas.

PRIMARY CENSUS ABSTRACT

The Primary Census Abstract provides the most important statistics relating to residential houses, households and population and its characteristics down to the village/ward levels in rural/urban areas respectively. Till the 1971 Census, the Primary Census Abstract and some other tables were generated by breaking the Individual Slip pads and sorting them manually. As a distinct departure from this procedure, the system of 1981 Census tabulation avoided breaking of the pads and manual sorting of the Individual Slips. The data on Primary Census Abstract was obtained by compilation of data available in Part-II of the Household Schedule, namely Population Record.

Primary Census Abstract of 1981 Census has been presented on the following aspects for each revenue village in respect of rural areas and for each ward/locality/block of a town in urban areas.

1. Location Code number and name of village/town and area.
2. Total number of occupied residential houses and total number of households.
3. Total population and its sex breakup.
4. Population of Scheduled Castes and Scheduled Tribes by sex breakup.
5. Literate persons by sex.
6. Total main workers (I to IX categories) and the breakup of the workers into four broad categories, viz.

Category I	:	Cultivators
Category II	:	Agricultural Labourers
Category V (a)	:	Household Industry
Category III, IV, V (b) & VI to IX	:	Other workers and also the marginal workers and non-workers by sex.

The column 'Marginal Workers' is an addition to the Primary Census Abstract in 1981 Census and was not there in the previous censuses. The marginal worker is defined as a person who has worked in any economic activity for less than 183 days or 6 months in a year. Thus he would be basically classified as a non-worker for the major part of the year.

While presenting the data in Primary Census Abstract, villages and towns have been arranged in the ascending order of their L. C. Nos. The wards in each town have also been arranged similarly. The uninhabited villages and villages fully included in a town have been indicated accordingly in the rural Primary Census Abstract. In case of villages which are partly included in towns the word 'Rural' has been added in brackets after the name of the village and the particulars relating to the rural portion only have been presented against such villages. An alphabetical list of villages together with their respective L. C. Numbers is given at the beginning of each taluk, which helps the reader to locate the village for which data on the Primary Census Abstract is required.

The basic characteristics of such of those persons who were alive at the sunrise on 1st March, 1981 whether they lived in normal residential houses or huts or in institutions like hospitals, hostels, asylums, boarding houses, hotels, etc., or houseless persons like the wandering tribes pavement dwellers ~~or those living in the huts~~ have been presented in 28 columns of the Primary Census Abstract.

As per the 1981 Census count the population of Anantapur district is as follows :

	Persons	Males	Females
Total	2,548,012	1,309,528	1,238,484
Rural	2,017,095	1,034,776	982 319
Urban	530,917	274,752	256,165

Col. No. 1 & 2 indicate L. C. No. and name of village/town/ward. Location Code is a device by which every village or town in a taluk of every district in a State is identified by a combination of numbers. Districts in the State are serially numbered in a clockwise direction starting from Srikakulam district and ending with Nalgonda district. In this process Anantapur district was allotted L. C. No. 12. Likewise the taluks in each district were given numbers serially in a clockwise order and the villages in each taluk were assigned serial numbers in serpentine order. Unlike the districts, taluks and villages, the towns in each district were given

numbers in alphabetical order. L. C. Nos. of villages were given in Arabic numerals while those of towns in Roman numerals.

Col. 3 : This column shows the area of villages in hectares while the area of town is given in sq. kms. based on the information furnished by the respective State agencies. Where the area of a particular village/town was not available, the fact was noted as N. A. against that village/town. The area of all the villages and towns put together may not be equal to the area of the taluk since the area of the taluk includes area of villages, reserve forests, rivers and hills within the taluk. Rural area of a taluk presented in P. C. A. is obtained by deducting urban area from the total area of the taluk as furnished by the State Survey Department. Similarly, the rural area of a district can be obtained by deducting the total urban area of all the towns from the total area of the district. The area figures of the districts in the State are those supplied by the Surveyor General of India. Hence the total area of all the taluks in a district put together may not tally with the district area figures.

Col. 4 : Number of occupied residential houses in a village/town includes partly residential houses also.

Col. 5 : This column includes houseless households and institutional households as well.

Cols. 6 to 8 : Total population includes houseless and institutional population with sex breakup.

Cols. 9 to 12 : Under these columns the population of S. Cs. and S. Ts. by sex is given. A copy of the list of S. Cs. and S. Ts. in Andhra Pradesh as notified in Presidential Order No. BC 12016/34/76-SCT V dated 27-7-1977 is given below :

List of Scheduled Castes in Andhra Pradesh

1 Adi Andhra
2 Adi Dravida

17 Kotia, Bentho Oriya, Bartika, Dhulia, Dulia, Holva, Paiko, Putiya, Sanrona, Sidhopaiko
18 Koya, Goud, Rajah, Rasha Koya, Lingadhari Koya (ordinary), Kottu Koya, Bhine Koya, Rajkoya
19 Kulia
20 Malis (excluding Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Nizamabad, Medak, Nalgonda and Warangal districts)
21 Manna Dhora
22 Mukha Dhora, Nooka Dhora
23 Nayaks (in the Agency tracts)
24 Pardhan
25 Porja, Parangiperja
26 Reddi Dhoras
27 Rona, Rena
28 Savaras, Kapu Savaras, Maliya Savaras, Khutto Savaras
29 Sugalis, Lambadis
30 Thoti (in Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal Districts)
31 Valmiki (in the Agency tracts)
32 Yenadis
33 Yerukulas

Cols. 13 & 14 : Literate persons are shown under these columns. A person who can both read and write with understanding in any language is taken as literate. A person who can merely read but cannot write is not a literate. All children of the age of 4 years or less are treated as illiterate even if the child is going to school and may have picked up reading and writing a few odd words.

Cols. 15 to 28 : At the 1981 Census, population has been broadly divided into three sections based on main activity viz., workers, marginal workers, non-workers. Their details are shown under these columns.

The definitions and concepts adopted in the economic classification of population at the 1981 Census are given under item Analytical Note

Work : Work is defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. A man or a woman who is doing only household duties or making something only for domestic consumption (and not for sale) is not doing any work in census terminology. The reference period is the one year preceding the date of enumeration. Persons who had worked for 183 days or more. in other words worked for 6 months or more are class fied under cultivator, agricultural labourer, household industry and other workers according to the nature of work one did. Such of those persons who had worked for less than 183 days or 6 months are shown as marginal workers.

Cultivator : For purposes of census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

Agricultural labourer : A person who works in another persons land for wages in money, kind or share is regarded as agricultural labourer. An agricultural labourer has no right of lease or contract on land on which he/she worked.

Household Industry : Household industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The large proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of registered factory which would qualify or has to be registered under the Indian Factories Act.

Other Workers : All workers who are not cultivators or agricultural labourers or in household industry are other workers. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artists, lawyers, barbers, dhobis, etc.

According to the 1981 Census there are 467,234 occupied residential houses and 471,482 households in Anantapur district compared to 378,371 residential houses and 391,883 households in 1971 registering an increase of 23.49% in number of residential houses and 20.31% in number of households.

The total number of persons returned at the 1981 Census in Anantapur district is 2,548,012 as against 2,115.321 in 1971 Census, thus recording as increase of 20.46% as against the State's growth rate of 23.10%. The proportion of rural and urban population to the total population in the district works out to 79.16% and 20.84% respectively in 1981 Census compared to 82.23% and 17.77% in 1971. There are 946 females per every 1,000 males at the 1981 Census when compared with State index of 975 females per 1,000 males. The ratio of 947 females per every 1,000 males was recorded at 1971 Census.

Anantapur district returned 739,337 literates at 1981 Census forming 29.02% of the total population of the district, compared with 504,282 literates constituting 23.84% at 1971 Census. The sex breakup of literacy rates during 1981 Census is 40.84% among males and 16.52% among females. Rural, Urban breakup of literacy rates indicate 23.51% of population are literates in rural while this is 49.95% in urban population. The corresponding Rural and Urban rates of literacy at 1971 are 18.97% and 46.36% respectively.

In Anantapur district there are 1,087,003 workers constituting 42.66% of the total population as against 890,170 workers forming 42.08% in 1971 Census. Among males the workers constituted 56.27% while among females only 28.27% are workers.

BRIEF ANALYSIS OF THE VILLAGE & TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT DATA

There were 958 villages in the district at the 1981 Census. Though the taluks in the district have undergone many jurisdictional changes, total number of villages remained the same during the decade. Out of the 958 villages, 934 are inhabited while 24 villages are uninhabited. 13 inhabited villages are reported as partly included in different towns of the district. 7 villages which are fully included in urban areas are not taken into account in computing the number of villages in the district. The following table gives the population of taluks by total/rural/urban with sex break-up. The number of villages and towns in each of the taluks is also indicated in this table.

Anantapur taluk has more urban population than other taluks, while Penukonda taluk has the least urban population as per 1981 Census.

Table 1

POPULATION, NUMBER OF VILLAGES AND TOWNS, 1981

Sl. No.	Name of Taluk	Population									No. of Villages		No.of Towns
		Total			Rural			Urban					
		P	M	F	P	M	F	P	M	F	Total	Inhabited	
1	2	3	4	5	6	7	8	9	10	11	12	13	14

Table 3 shows the total number of inhabited villages in the district classified by population into six broad ranges. In computing the number of villages in a taluk, the villages which are either completely included in an urban unit or returned uninhabited are not taken into account. Maximum number of villages are in the size group of 500–1,999 population forming 46.19% of total villages in this district

Table 3

DISTRIBUTION OF VILLAGES BY POPULATION RANGES

Range of population	No. of villages in each range	Percentage of villages in each range
1	2	3
- 199	44	4.72
200 - 499	73	7.82
500 - 1,999	431	46.19
2,000 - 4,999	318	34.08
5,000 - 9,999	62	6.65
10,000 +	5	0.54
Total	**933**	**100.00**

Table 4 presents the distribution of villages by density into nine ranges and also the percentage of villages in each range. The density figures per sq. km. of each village have been worked out by using the area figures corrected upto two places of decimal The highest proportion of villages is observed in the density range of 101–200. More than 53% of villages come under density group 101 and above. This district has returned the density of 133 persons per square kilometre as against 195 persons for the State.

Table 4

DISTRIBUTION OF VILLAGES BY DENSITY

Range of density (per sq. km.)	Total No. of villages in each density range	Percentage of villages in each density range
1	2	3
- 10	9	0.97
11 - 20	10	1.07
21 - 50	80	8.57
51 - 100	335	35.91
101 - 200	389	41.69
201 - 300	78	8.36
301 - 500	19	2.04
501 +	13	1.39
Total	**933**	**100.00**

According to 1981 Census the population of Scheduled Castes in Anantapur district is 348,777 accounting for 13.69% of the total population of the district. Scheduled Caste population in this district forms 4.38% of the total Scheduled Caste population in the State. The proportion of Scheduled Caste population to total population in the villages is calculated for all the villages in the district and arranged them into seven ranges together with percentage of villages in each range. 52.09% of the villages have Scheduled Caste population in a percentage range below 15. There are only 5.15% of villages without Scheduled Caste population.

Table 5

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN THE VILLAGES

Percentage range of Scheduled Castes population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
Nil	48	5.15
5 or less	66	7.08
6 - 10	169	18.11
11 - 15	251	26.90
16 - 20	205	21.97
21 - 30	149	15.97
31 and above	45	4.82
Total	**933**	**100.00**

The Scheduled Tribes population in the district is only 82,026 persons forming 3.22% of the total population of the district. 40.19% of the total villages in the district have returned the proportion of Scheduled Tribe population less than 5% range, whereas 41.37% of the total number of villages do not have any Scheduled Tribe population. Among the taluks, highest proportion of Scheduled Tribe population is returned in Nallamada taluk accounting for 14.89% of the total Scheduled Tribe population in the district.

Table 6

PROPORTION OF SCHEDULED TRIBE POPULATION TO TOTAL POPULATION IN THE VILLAGES

Percentage range of Scheduled Tribe population to total population	No. of villages in each range	Percentage of villages in each range

36 - 50	12	1·29
51 and above	8	0.86
Total	**933**	**100.00**

Table 7 provides the total population, Scheduled Caste and Scheduled Tribe population and the percentage of Scheduled Caste and Scheduled Tribe population to total population of the towns in the district as per 1981 Census

The total Scheduled Castes' population in all the urban areas of the district is 47,937 representing 9.03% of the total urban population. Among the towns the proportions of Scheduled Castes population varies from 4.38% in Penukonda town to 16.04% in Gooty town.

The Scheduled Tribes population in urban areas of the district is 6,969 persons constituting 1.31% of the total urban population. The proportion of Scheduled Tribes population varies from 0.72% in Rayadurg town to 2.25% in Penukonda Town.

Table 7

PROPORTION OF SCHEDULED CASTES/SCHEDULED TRIBES POPULATION IN TOWNS

Name of the Town	Total Population	Total Scheduled Caste Population	Total Scheduled Tribe Population	Percentage of Scheduled Caste Population to total population	Percentage of Scheduled Tribe Population to total Population
1	2	3	4	5	6
Anantapur	119,531	8,649	1,603	7.24	1.34

The following table 8 gives the literacy rates by population ranges of villages in the district. Anantapur District occupies 7th rank in literacy amongst the districts in Andhra Pradesh State. The proportion of literates of this district constitutes 4.61% of the total Andhra Pradesh literates.

Highest literacy rate of 39.09% is found in villages with 10,000 + population.

Table 8

LITERACY RATES BY POPULATION

RANGES OF VILLAGES

Range of Population	No. of villages in each range	Literacy rate
1	2	3
- 199	44	18.92
200 - 499	73	19.25
500 - 1,999	431	21.38
2,000 - 4,999	318	22.43
5,000 - 9,999	62	26.74
10,000 +	5	39.09
Total	**933**	**23.51**

Table 9 shows the literacy rates for the towns in the district as per 1981 Census.

The literates in all the 11 urban areas in the district together constitute 265,198 persons forming 49.95% of the total urban population Among the towns, the literacy rate varies from 40.58% in Kadiri town to 59.71% in Anantapur town. Being the district head-quarters and the location of several district administrative offices and educational institutions, Anantapur town tops in proportion of literates.

Table 9

LITERACY RATES FOR TOWNS

Name of the Town	Literacy rate
1	2
Anantapur	59.71
Dharmavaram	44.26
Gooty	50,61
Guntakal	51.94
Hindupur	52.84
Kadiri	40.58
Kalyandurg	47.47
Penukonda	51.18
Rayadurg	41.99
Tadpatri	43.33
Uravakonda	45.98
All Towns	**49.95**

Table 10 presents the proportions of literates, workers, non-workers, Scheduled Castes/Scheduled Tribes population to the total population, giving break up by taluk (Total/Rural/Urban) and by sex. There is a concentration of Scheduled Castes and Scheduled Tribes population in the rural areas than in urban areas. Among the taluks in the district highest literacy rate of 42.09% is returned in Anantapur taluk. Among the taluks in the district Hindupur taluk has returned the large number of workers (99.599) in its rural areas accounting for 9.93% of the total workers of the district and 48.31% of the total population of the taluk. In terms of percentage of workers Kambadur taluk stands first among the taluks in the district. Highest percentage of Scheduled Caste population is noticed in Madakasira taluk while the least is in Kadiri taluk with 8.79%. In rural areas of taluks, Madakasira with 20.08% stands first while Nallamada occupied the last position with 9.76% of the scheduled caste population. The percentage of Scheduled Caste population in urban areas ranges between 4.38% to 15.91% among the taluks. Nallamada taluk has recorded highest proportion of Scheduled Tribe population with 7.87% while Kanekal has the least proportion of Scheduled Tribe population with only 0.90%.

Anantapur taluk tops the list in literacy rates among the total, male and female population as well as in urban pocket. The literacy rates recorded for Anantapur taluk are found to be in excess of district and State averages, in the case of both the sexes.

Distribution of villages according to the availability of different amenities by taluks is presented in this table. As seen from the table, education and drinking water facilities are available in all most all the villages, while amenities of P & T, communications, approach by pucca road and power supply are available in respect of 81.78%, 71.70%, 81.56% and 83.17% of villages respectively Medical and market facilities are inadequate and only a meagre proportion of villages have these facilities viz., 22.62% of villages having medical facility and 7.29% of villages have market facilities.

The table clearly sets out the taluk-wise position of various amenities.

Table 11

DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITIES

Table No. 12 gives the proportion of rural population served by the different amenities, also provides this information taluk-wise. It is clear from the information that about 39.68 per cent of population is only having medical facilities while about 18 27% of the population has market facilities, More than 80% of the population have P & T, communication, approach by pucca road and power supply, while almost 100% of the population has access to education and drinking water.

Table 12

PROPORTION OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES

The following table 13 gives the distribution of villages not having certain amenities arranged by three distance ranges from the places where these are available. There is not a single village in this district which does not have drinking water facility. Only 46 villages do not have education facility within the village, but available within a distance of – 5 kms. Large number of villages do not have medical, market, P & T, and communication facilities within the village, but are available at different distance ranges.

Table 13

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE

Villages not having the amenity of	Number of villages where the amenity is not available and available at distance of			
	-5 kms.	5-10 kms.	10+ kms.	Total (Cols.2-4)
1	2	3	4	5
1. Education	46	..	..	46
2. Medical	339	249	134	722
3. P & T	153	14	3	170
4. Market	198	320	288	806*
5. Communication	207	53	4	264

* Market facility is not furnished for all the villages in Anantapur taluk. Since the variation.

Table 14 illustrates the distribution of villages according to the distance from the nearest town and availability of different amenities. As seen from the table, only about 6% of the villages have town within the range of 5 kms. About 32 per cent of the villages have towns within a range of 6–15 kms., while 58 per cent have nearest town located within 16-50 kms. The rest have nearest town located above 51 kms. The pattern of distribution of amenities in the villages, associated with the location of villages around the towns in terms of distances do not indicate any significant deviation from each other. As given in other tables on amenities, medical and market facilities are far below the levels attained by other amenities.

Table 14

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

Distance range from the nearest town (in Kms.)	No. of inhabited villages in each range	Number (with percentage) of villages having the amenity of							
		Education	Medical	Drinking Water	Post & Telegraph	Market	Communication	Approach by Pucca Road	Power Supply

Table 15 sets out the amenities available in the villages by distributing the villages according to the population range. The population ranges of less than 500, 500–1,999, 2,000–4,999 and 5,000+are considered and the villages are distributed in these ranges. About 46.20% of the villages are in the range of 500–1,999, while the villages less than 500 and those in the range of 2,000-4,999 form 12.54% and 34.08% respectively. Only 7.18% of the villages are in the category of 5,000+. It is interesting to note that as the population range increases, the amenities available in the villages falling in these ranges are also on the increase. As has been observed earlier only the medical and market facilities are not adequate in the villages falling in the ranges other than 5,000+.

Table 15

DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE

Population range	No. of inhabited villages in each range	Number (with percentage) of villages having the amenity of							
		Education	Medical	Drinking Water	Post & Telegraph	Market	Communi-cation	Approach by Pucca Road	Power Supply

The main staple food in the majority of villages in each taluk is given in this table. It is evident from the table that rice, ragi and korra are the three main staple foods in the villages in Anantapur district.

Table 16

MAIN STAPLE FOOD IN THE MAJORITY OF VILLAGES IN EACH TALUK

Sl.No.	Name of Taluk	Main Staple Food
(1)	(2)	(3)
1	Rayadurg	Rice, Jowar
2	Kanekal	Rice, Maize
3	Uravakonda	Korra, Jowar
4	Gooty	Rice, Korra
5	Tadpatri	Rice, Millets
6	Singanamala	Rice, Korra
7	Anantapur	Rice, Korra
8	Kalyandurg	Rice, Ragi
9	Kambadur	Rice, Ragi
10	Chennekothapalle	Rice, Ragi
11	Dharmavaram	Rice, Ragi
12	Penukonda	Rice, Ragi
13	Madakasira	Rice, Ragi
14	Hindupur	Rice, Ragi
15	Nallamada	Rice, Sajja
16	Kadiri	Rice, Sajja
17	Sri Satya Sai	Rice, Jowar

Table 17 presents the land use pattern giving the proportion of cultivable area to the total area and the irrigated area to the cultivable area. Uravakonda taluk has the largest percentage of cultivable area of 76.61% while the irrigated area is only about 10% of cultivable area. Singanamala taluk with 49.82% proportion of cultivable area has 34.66% of irrigated area to cultivable area, which is the highest among all the taluks.

Table 17

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE

This table 19 indicates the towns added/declassified at the 1981 Census with their population.

There is no case of addition or declassification of town at the 1981 Census in this district.

Table 19

	Nil
b) Declassified	..
	Nil

This table deals with the finances indicating the per capita receipt and expenditure in towns in the district as on 1979.

Of the 11 urban areas in the district, the highest per capita receipt is noticed in Anantapur Municipality (Rs. 93.03) followed by Hindupur Municipality (Rs. 67.22) and Kadiri Municipality (Rs. 67.08). The lowest per capita receipt is recorded in Kalyandurg Panchayat (Rs. 15.71). Receipts through taxes is the highest in Rayadurg Municipality (Rs. 42.63) while this is lowest in Gooty Panchayat (Rs. 5.22). From all other sources together, the highest per capita receipt is seen in Kadiri Municipality (Rs. 52.70) followed by Anantapur Municipality (Rs. 51.47) and Hindupur Municipality (Rs. 49.37) while the lowest per capita receipt is recorded by Kalyandurg town (Rs. 6.99).

Anantapur Municipality stands first among the urban areas of the district with its per capita expenditure of Rs. 85.76 followed by Kadiri Municipality (Rs. 56.97) and Hindupur Municipality (Rs. 47.08). Uravakonda town ranks last in per capita expenditure (Rs. 16.40). The per capita expenditure of Rs 28.21 on public health and conveniences in Anantapur is the highest among the towns while Kalyandurg has the minimum of Rs. 0.74. The highest per capita expenditure of Rs. 23.90 on public institutions like schools and libraries is recorded by Hindupur Municipality. No expenditure is incurred by Gooty, Kadiri, Kalyandurg and Penukonda towns for this purpose.

All the civic bodies are running on sound lines with surplus budget except Guntakal, Kalyandurg and Uravakonda towns which are functioning with deficit budget. A glance at the table reveals that Hindupur and Dharmavaram Municipalities are having considerably more per capita receipts than per capita expenditure.

Table 20

This table provides the data relating to the availability of educational facilities in different categories per 10,000 population. It may perhaps be mentioned here that data presented in the following table refer generally to the institutions that have been recognised by the State Government and are authorised to teach the students for appearing to the different grades of examinations conducted by the concerned examination board periodically.

All the towns have one Junior College each with the exception of Anantapur, which has three Junior Colleges. There are 193 Primary Schools, 49 Upper Primary Schools, and 36 High Schools in the urban areas of the district.

Table 21

SCHOOLS PER TEN THOUSAND POPULATION IN TOWNS

Class, name and civic status of Town	Number per ten thousand population			
	Higher Secondary/ Inter/PUC/Junior College	Secondary/ Matriculation	Junior Secondary/ Middle	Primary

Total	**0.24**	**0.68**	**0.92**	**3.64**

From the table 22 it can be seen that the number of beds available in urban areas of this district is very low being 1.62 beds per every 1,000 population. More than half of the total bed strength in the urban areas of the district is concentrated in Anantapur city, the district headquarters. The bed population ratio is highest in Anantapur town where there are 3.7 beds per 1,000 population. Penukonda and Guntakal towns have recorded the population-bed ratio more than the district average. All other towns have this ratio less than the district index.

Table 22

NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS

Class, name and civic status of the town			No. of beds in medical institutions per 1,000 population
(1)			(2)

Physically Handicapped Persons

Collection of data on physically handicapped persons is a special feature of 1981 Census. Last time this information was collected in 1931 Census. After the independence the data for the physically handicapped persons in our country were collected again for the first time along with the houselisting operations held in May, 1980 and as such, the physically handicapped persons who were available in the census houses were alone covered in the houselisting operations. The houseless do not, therefore, find a place in this survey. The physically handicapped persons covered are of three types of disabilities, totally blind, totally crippled and totally dumb. The definition adopted for physically handicapped is as follows.

"The term of totally crippled refers to such persons who have lost their arms or limbs. The loss of arms or legs or all the four limbs refers to loss of both arms or loss of both legs. It is not necessary that the disabled should have lost both arms and legs. The loss of either of these i.e., both arms or both legs would be sufficient for classification as totally crippled. Loss of only one arm and/or one leg will not classify a person as totally crippled. The loss here refers to the inability to use and not necessarily physical absence. Thus, a paralytic who has lost the use of both the legs or both the arms, will be totally crippled, though the legs or arms as such are still physically present." The case when a person unfortunately suffered from more than one of the disabilities mentioned above, the person was recorded by the greater disability. For example if a person was both blind and crippled etc., blindness was noted for him as blindness is considered a greater disability than either dumbness or being crippled. Similarly, being crippled was considered a greater disabil ty than being dumb. In an extreme case where a person suffered from all the disabilities was taken under blind, since this is certainly the most unfortunate disability.

A statement showing the distribution of physically handicapped persons by taluks in Anantapur district is given below.

STATEMENT SHOWING THE DISTRIBUTION OF PHYSICALLY HANDICAPPED PERSONS BY TALUKS IN ANANTAPUR DISTRICT

Physically handicapped form 0.24% of the total population in the district, comprising of 0.28% of the rural and 0.11% of the urban population. Out of the 6,105 persons recorded as physically handicapped, i.e., totally blind, totally crippled and totally dumb in the district as many as 5,526 persons forming 90.52% are from rural areas only. Among the total physically handicapped in the district, 44.03% are totally blind, 25.62% are totally crippled and 30.35% are totally dumb. The survey revealed that Madakasira taluk has recorded the highest number of physically handicapped persons accounting for 536 persons, the lowest being Rayadurg taluk with 213 persons.

PART - B

VILLAGE AND TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT

SECTION I – Village Directory

SECTION II – Town Directory

SECTION III – Primary Census Abstract

SECTION I

VILLAGE DIRECTORY

Village Directory which provides village-wise information about the amenities and landuse pattern in the villages, consists of 20 columns. The data so collected from the Tahsildars and other officials concerned were scrutinised and presented under certain columns in codes. Such codes will frequently be seen against column numbers 5 to 8, 10, 11, 13, 16 and 20. The following codes have been used against the facilities available in the village.

Educational : (Column No. 5)

P	:	Primary or Elementary School (Upto Class IV)
M	:	Middle School or Junior Secondary (Class from V to VIII)
H	:	Matriculation or Secondary School (Class from IX and X)
JC	:	Higher Secondary / PUC / Intermediate / Junior College
C	:	College
I	:	Industrial School
Tr	:	Training School
AC	:	Adult Literacy Class / Centre
O	:	Other Educational Institutions which include Sanskrit Pathasala, Senior Basic School

Medical : (Column No. 6)

H	:	Hospital
MCW	:	Maternity and Child Welfare Centre or Maternity and Child Health Centre
MH	:	Maternity Home
CWC	:	Child Welfare Centre
HC	:	Health Centre
PHC	:	Primary Health Centre
PHS	:	Primary Health Sub-Centre
D	:	Dispensary
FPC	:	Family Planning Centre
TB	:	T. B. Clinic
NH	:	Nursing Home
RP	:	Registered Private Practitioner
SMP	:	Subsidised Medical Practitioner
CHW	:	Community Health Worker
O	:	Others

Drinking Water : (Column No. 7)

T	:	Tap
W	:	Well
TK	:	Tank
TW	:	Tube Well
HP	:	Hand Pump
R	:	River
F	:	Fountain
C	:	Canal
L	:	Lake
S	:	Spring
N	:	Nallah
O	:	Others
NA	:	Information not available

Post and Telegraph (Column No. 8)

PO	:	Post Office
TO	:	Telegraph Office
PTO	:	Post and Telegraph Office
Phone	:	Telephone Connection

Communications : (Column No. 10)

BS	:	Bus stop
RS	:	Railway Station
NW	:	Navigable Waterway

Approach to village : (Column No. 11)

PR	:	Pucca Road
KR	:	Kuccha Road
NR	:	Navigable River
NC	:	Navigable Canal
NW	:	Navigable Waterway
FP	:	Foot Path

Power Supply : (Column No. 13)

ED	:	Electricity for domestic purpose
EAG	:	Electricity for Agriculture
EO	:	Electricity for other purposes like industrial, commercial, etc.
EA	:	Electricity for all purposes listed above

Irrigated by source : (Column No. 16)

GC	:	Government Canal
PC	:	Private Canal
W	:	Well (without electricity)
WE	:	Well (with electricity)
TW	:	Tube Well (without electricity)
TWE	:	Tube well (with electricity)
TK	:	Tank
R	:	River
L	:	Lake
WF	:	Water Fall
O	:	Others
T	:	Total

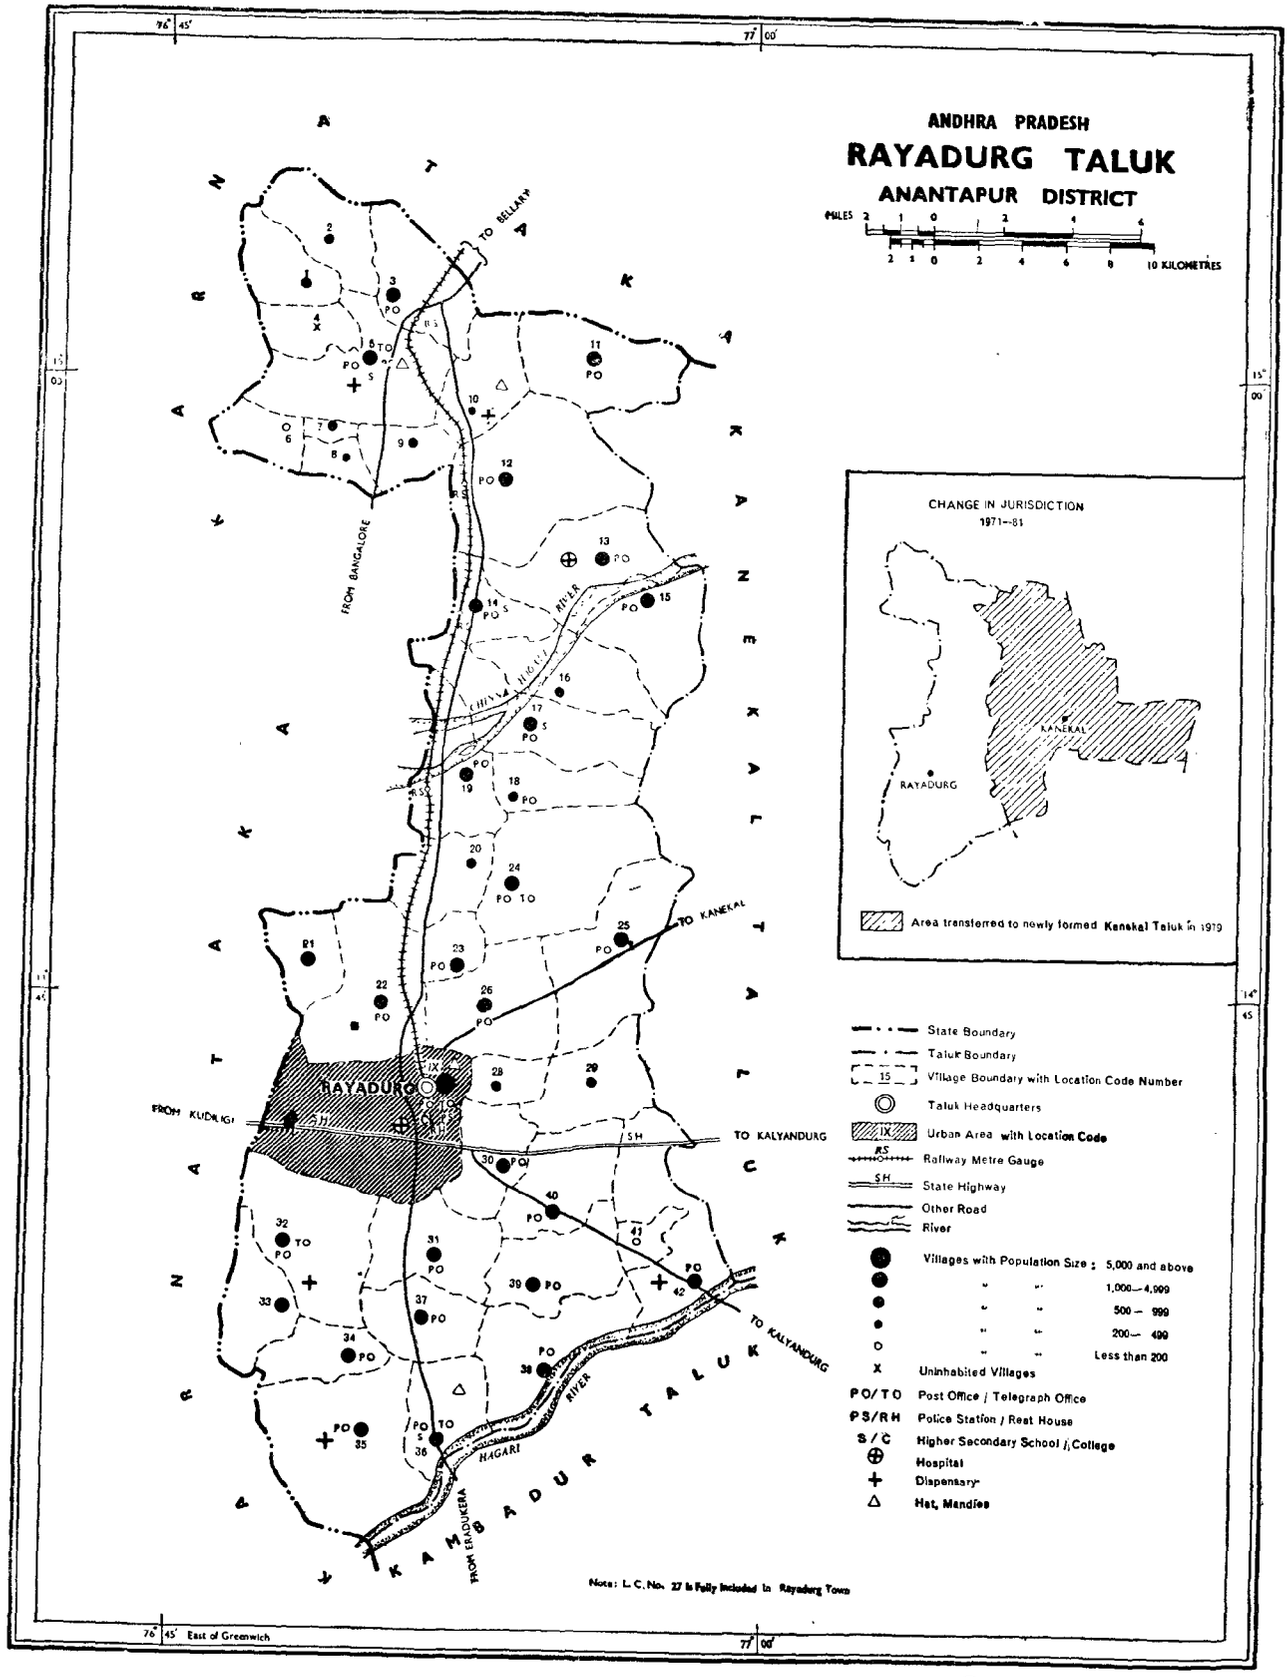

Remarks, etc, : (Column No. 20)

N	:	Copies of the News Papers (coming in the village)
M	:	Motor Cycles/Scooters
C	:	Cars/Jeeps
T	:	Tractors
NNA	:	News Papers number not available

As an example an entry showing figures like P(2), or D(2), or T(35.21), TK(35.21) would indicate that the village has two primary schools, two dispensaries, extent of total irrigated land in the village is 35.21 hectares and extent of land irrigated by water from tanks is 35.21 hectares.

Where a facility is not available in the village, the distance at which the facility available is shown in broad ranges viz., — 5 Kms., 5–10 Kms. and 10 + Kms. of the nearest place where the facility available is given.

SECTION II — Town Directory

SECTION II

TOWN DIRECTORY

Codes used in the seven statements are explained in detail and the expressions for the abbreviations used in statements are briefly explained herein. Statement I has been compiled in this office and Statements II to VI by obtaining the data from local authorities having administrative control over the towns.

In the Statement I Col. 2 to denote the civic status of town the codes used are :

Municipal Corporation/ Corporation	M. Corp.
Municipality	M
Cantonment Board/ Cantonment	CB
Notified Area/Notified Area Committee/Notified Committee	NAC
Gram Panchayat/Village Panchayat	P

In Statement IV Col. 6 to differentiate category of road the following abbreviations are used.

Pucca road	PR
Kuccha road	KR

Under Col. 7 to specify the system of sewerage the codes given are :

Sewer	S
Open surface drains	OSD
Box surface drains	BSD
Sylk drains	SD
Cesspool method	CD
Pit System	Pt

In Col. 11 the various prevalent methods of disposal of night soil are given with the following codes.

Head loads	HL
Baskets	B
Wheel barrows	WB
Septic tank latrines	ST
Sewerage	S

Under Cols. 12 & 13, the codes used to state the source of supply and system of storage of protected water supply are as follows:

Overhead tank	OHT
Service reservoir	SR
River infiltration gallery	IG
Borewell pumping system	BWP
Pressure tank	PT
Tubewell Water/ Hand pump	TW
Tap Water	T
Well Water	W
Tank Water	TK

The first five codes relate to the system of storage of water in the town and the remaining four codes represent the different sources of water supply to the inhabitants of a town.

In Statement V under Col. 4 to indicate the type of medical facility available to the citizens, the following codes are used.

Hospital	H
Dispensary	D
Health Centre	HC
Family Planning Centre	FC
T.B. Clinic	TB
Nursing Home	NH
Others	O

If there are more than one institutions of any type, the number of such institutions is noted within brackets eg : D (2); NH (7) etc.

To distinguish the medical institutions as Allopathic or Ayurvedic or Unani or Homoeopathic the following additional codes are used.

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

In case of allopathic no separate code is used. The information on medical facilities is presented horizontally in the same line as illustrated below :

H (A-1.2). D (Hom.-2. U-1)

Here H(A-1, 2) represents one ayurvedic and 2 allopathic hospitals and D (Hom.-2, U-1) represents 2 homoeopathic and 1 unani dispensaries.

The Codes used for Col. 6 are as follows :

Arts only	A
Science only	S
Arts and Science only	AS
Commerce only	C
Arts and Commerce only	AC
Arts, Science and Commerce	ASC
Law	L

If there are more than one institutions of each type the number is given against each in brackets.

Under Col. 10 the following codes are used to specify the recognised short-hand, typewriting and other vocational training institutions. If there are more than one institution of each type the number is given against each in brackets.

Short-hand	SH
Typewriting	Type
Short-hand & Typewriting	Sh. Type
Others	O

The vocational institutions like Applied Art/ Painting College, Pharmacy College, B.Ed. College, Teacher's Training institutes, Music / Dancing School, Nursing School, etc., are covered under "Others."

Schools upto class IV are treated as Primary or Elementary Schools. These include Nursery Schools, Kinder Garten Schools, Pre-basic Schools, Pre-primary School. Schools upto Class VIII are treated as Junior Secondary or Middle Schools. Schools upto Class X are treated as Matriculation or Secondary Schools. Schools or Colleges upto Class XI or XII are considered in the Group of Higher Secondary/Intermediate/Pre-University/ Junior College, etc.

Under Col. 20 the abbreviations given are as follows :

Public Library	PL
Reading Room	RR
