PREFACE

The District Census Handbooks have been compiled in pursuance of Govt of India letter No. 51/2/51-RG, Dated 16-3-51 and para 5 of the Memorandum No. 693/50-RG, dated 2-7-50 at pages 1—3 of the Tabulation Plan.

The District Census Handbook is a collection of the following data:—

1. Introduction which deals with the following items :—

   (a) Physical aspects.

   (b) Geology.

   (c) Archaeology.

   (d) Climate.

   (e) Rainfall.

   (f) History.

   (g) Population

   (h) Administration.

   (i) Medical and Public Health.

   (j) Education and Literacy.

   (k) Agriculture and Co-operation

   (l) Industries.

   (m) Local Bodies.

   (n) Rehabilitation of of Displaced persons

   (o) Places of Interest.

2. District Census tables (furnishing district data with break-up for Census tracts, within the district) In case of Ambala District there are five rural Tracts (Ambala Tehsil rural tract, Kharar tahsil rural tract, Jagadhri tahsil rural Tract, Rupar Tahsil rural Tract and Naraın Garh Tahsil rural Tract) and two non city urban Tracts (Ambala Tahsil non city urban Tract and Kharar, Jagadhri, Rupar and Narain Garh Tahsils non city urban Tract). There are the following tables for Ambala district :—

A-I ... Area, Houses and Population.
A-II ... Variation in population during fifty years.
A-III ... Towns and villages classified by population.
A-IV ... Towns classified by population with variation since 1901.
A-V ... Towns arranged territorially with population by livelihood classes
B-I ... Livelihood classes and Sub classes.
B-II ... Secondary means of livelihood
B-III ... Employers, Employees and Independent Workers
C-II .. Livelihood Classes by age groups.
C-III ... Age and Civil Condition
C-IV ... Age and Literacy.
C-V ... Single year age return
D-II ... Religion.
D-III ... Scheduled Castes and Scheduled Tribes.
D-IV ... Migrants and Subsidiary.
D-V ... Displaced persons by district of origin, and date of arrival in India.
D-VI ... Non-Indian Nationals.
D-VII ... Livelihood Classes by educational standards.
E ... Summary figures by districts.

District Index.

Sorter's Ticket 2

3. Census Abstracts :—

(1) Primary Census Abstract

(2) Census Abstracts of Small Scale Industries.

Most of the sections dealt with in the Introduction are based on the relevent account given in the District Gazetteer concerned, but have been carefully brought upto recent date, utilizing the information supplied by the District authorities in their Introductory Note for which I offer them my warmest thanks.

LAKSHMI CHANDRA VASHISHTA

INTRODUCTION.

AMBALA DISTRICT.

PHYSICAL ASPECTS.

Name and derivation.

Ambala district derives its name from its founder Amba Rajput who founded it in the 14th century. There is another saying that the name is a corruption of Ambawala or the mango-village, as a number of mango groves exist in its neighbourhood. Ambala is the headquarters of the district and is the most northerly district of the five plain districts of the Ambala Division, falling in the Punjab Plain Division of the Transgangetic Plain Sub-Region. Internally the district can be divided into two blocks-a compact large block east of Ghaggar which possesses affinities with the Hindustan and a small block west of Ghaggar which is more akin to the Punjab, or to be more clear, the first block consists of Ambala, Jagadhri and Naraingarh tahsils while the latter consists of Rupar and Kharar Tahsils and forms the Rupar Sub-Division.

Boundaries.

The district of Ambala is bounded by the River Jumna and Saharanpur district of Uttar Pradesh to the south-east, to the south by Karnal district, to its west by Ludhiana district and Pepsu territory; to the north-west by Hoshiarpur district and Sutlej River and to the north east by Kohistan district and the Sirmoor district The district falls within 30° 02′ 25″ and31° 10′ 35″ latitude and 76° 16′ 55″ and 77° 36′ 20′ East longitude. Its greatest length from north-west to south-east is 80 miles and the maximum width is 48 miles.

Area.

The district of Ambala too was affected by the Absorption of Enclaves Order 1950 and as a result of the territorial adjustments, 115 villages of Kalsia State in addition to its forest area, with a total area of 121.8 square miles and seven villages from Rajpura Tahsil of Patiala district having an area of 13 59 square miles have been transferred to it.On the other hand, the district has lost 17 villages from the Kharar Tahsil having an area of 14.5 square miles. It has, thus gained a net area of 119.63 square miles. The total area of the district, according to the Survey Department, comes to 2019 2 square miles

Hills

Parts of Rupar, Kharar Naraingarh, and Jagadhri tahsils adjoin the Siwalik range The soil in the plains of the tahsils, generally speaking, is alluvial. The hilly tracts of Kalesar and

Morni Ukkaqa are well wooded, the rest are generally devoid of vegetation other than rough scrub. In some parts grass is found and it is used by the people for grazing their cattle.

Rivers, Nadis and Canals.

There are two rivers of permanent flow in this district i.e. the River Sutlej and the River Jumna. They form the North-west and South-west boundaries of the district. Canals have been dug out from these two rivers.

SIRHIND CANAL

Sirhind Canal Circle is composed of Rupar Headworks, Main Line Sirhind Canal, Combind Branch, Abohar Branch and Bhatinda Branch. The Main Line and combind Branch serve as link to feed Abohar Branch and Bhatinda Branch which are the irrigating channels. The details of area by Districts are as below.—

	Gross Area	C.C.A.
Ludhiana.	223134	188811
Ferozepur.	1431590	1224854
Hissar.	62446	42027
Pepsu.	784419	647428
Total	2501589	2103120

Sirhind Canal(main line) takes off above Rupar weir near about Rupar It is 39 miles long passing in Ist 14 miles in Ambala District and then through Ludhiana District and at places in Pepsu territory. At Manpur a place about 3 miles west of Doraha, it bifurcates in two branch es i.e. Combind Branch and Patiala Feeder. The Feeder is purely a state channel of defunct Patiala State and now under the Pepsu Government. Another Branch known as Sidhwan Branch has recently been constructed with its off take from tail of Sirhind Canal Main Line.

The Combind Branch is only about 2 miles long and then it bifurcates into two Branches i.e Abohar and Bhatinda Branch. These twoBranches are 126 and 100 miles long respectively mostly irrigatingthe Ludhiana and Ferozepur Districts of Punjab an Pepsu and partly Hissar District.

The Sirhind Canal was opened by Marquis of Ripon, Viceroy and Govenor General of India on the 24th November, 1882. The canal was originally designed for 6000 cusecs, now its full supply capacity is 9040 cusecs. This canal is now under remodelling to carry further an excess discharge of 3600 cusecs. After completion of the proposed remodelling, irrigation will go up contributing considerably towards the increased production of Food and Cotton in the country.

The principal towns in the areas of this canal in this circle are:—

1. Rupar, Chamkaur and Doraha.

2. Moga, Jagraon, Badni, Kot Kapura, Faridkot, Jaitu, Malout, Muktsar, Raikot, Rampura, Bhucho, Bhatinda and Giddarbaha.

The following major Distributaries take off from Abohar Branch:—

	Name of Distributary.	R.D. of Abohar Branch.	Discharge.
1.	Pakhowal.	Tail of Combind Branch.	42
2.	Khanpur.	22458	72
3.	Chupki.	46625	40
4	Ballowal.	69000	60
5.	Talwandi.	68500	55
6.	Akalgarh.	104500	7
7.	Jassowal.	104500	22
8.	Kokri.	124456	153
9.	Manoki.	225500	55
10.	Delon.		15
11.	Jagraon.	155000	170
12	Danguin.		6
13.	Akhara.	156580	21

14.	Wadhni.	212000	30

17.	Teona.	447800	171
18.	Janjirana	476423	14
19.	Lambi.	500000	240
20.	Lal Bhai.	500000	174

Kotla Branch.

At mile 48 on Abohar Branch an escape channel namely S. N. C. takes off. In the past this channel was used for navigation purpose but it now works partly irrigation channels and also as an escape. From this channel Gill Distributary Dhulkot and Distributary No. III takes off. For bringing Muktsar Hithar area under irrigation (which is at present lying unirrigated) four new Distributaries namely:- Mudki, Phidda, Golewala and Jit Distributaries are under construction. These new channels will bring under irrigation an additional area of 88885 acres of Punjab State and 127600 Acres of Pepsu.

There is an escape channel at mile 126 of Abohar Branch. The escaped water for this escape was used to put in Abohar reservoir which has now been lessed out to Agriculture Department to serve as seed Farm.

A Kharif Channel named Bhaini Ditch Distributary with a discharge of 24 cusecs off taking at R. D. 306650 R of Bhatinda Branch is under construction on Bhaini Distributary Some area was irrigated during part Kharif. An area of 6844 Acres will be served by this channel during next Kharif.

Drainage.

In addition to irrigation channels there are a number of drains in this circle to drain off the water logged area of Bet Ilaqa in between Chamkaur (Ambala District) and Machhiwara (Ludhiana District). These drains serve as seepage-cum-storm water drains to dispose off seepage water and rain water in area lying on the left side of river Sutlej between Chamkaur and Machhiwara . These drains emerge from Chamkaur and from a part of Budha Nallah which passes north of Ludhiana City. The Nallah feeds the Kingwah canal of Grey Canal system near about Sidhwan Bet.

West Jumna Canal

The head works of the West Jumna Canal are situated at Tajewala where a very strong dam has been constructed across the Jumna River. Except for a small area irrigated by it in the Jagadhri tahsil, its water is mainly used to irrigate the lands of Karnal, Rohtak, Hissar and Delhi State. Wooden logs are sent upto Jumna Nagar, a great timber market, from places situated to its upstream side.

The other two rivers are Ghagar and Sirsa. As they sometimes get dry, hence they can be termed 'seasonal rivers'. In Kharar Tahsil the waters of Ghaggar are used for irrigation by means of *Kuls* In rainy season both become impassable and the travellers have to wait for long hours to cross them.

Nadis

There are 13 Nadis of repute in the district of which the following 3 are most important:—

Narkanda

The Narkanda takes its rise in the Siwaliks near Nahan and is the second largest stream in the district. In the

rainy season the floods are very sudden in the stream and come down with extraordinary violence and some times men and cattle are caught in it and are swept away by its waters.

The Tangri

This too is a very destructive stream and takes its rise in the Morni hills. It runs near the Ambala Cantt; and has caused much troubles in the past. Large *bunds* have been constructed near Ambala Cantt. and at Khera in Narain garh Tahsil At present, water supplies for Cantonment are secured from it by constructing a series of wells on its banks.

Sarusti.

The Sarusti (name as Sraswati) is considered to be the most sacred in India after the Ganges. It does not rise in the hills but takes its origin in a large depression at Kalawar in the north of Mustafabad. In the Ambala district its bed is well defined although for the first 20 miles of its course, its bed can be marked by depressions on the surface of the ground It never contains more than 2 feet of water and for 8 months remains dry. For a very interesting account by General Cunnigham the District Gazetter of Ambala 1923/24 may be refferred to.

GEOLOGY

The following geological description is reproduced below from the District Gazetteer of Ambala 1923-24 Page 14-15:—

"The Ambala district passes up from the alluvial plains through the Siwaliks system to the Himalayan foot-hills, and Sabathu, Dagshai, and Sirmur (Nahan) are all quite close to the district boundary".

The band of conglomerates, sandstones, and clays, which runs from end to end of the Himalaya along their outer margin is known to geologists as the Sub-Himalayan zone, and rocks of this zone fall into two well-marked sub-divisions known as the Sirmur and Siwaliks series, respectively: these are agian sub-divided as follows :—

Sub-Himalayan system	Siwalik series	Upper Siwalik stage
		Middle " "
		Lower " (N.h.n)
		stage.
	Sirmur series	Kasauli stage.
		Dagshai "
		Sabathu "

The upper and middle Siwalik stages are well exposed in this district in the chain of low hills which runs from the river Jamna to the river Sutlej. The uppermost stage consists of loosely aggregated congolomerates and soft earthy beds which are underlain by a barely coherent sand rock lying upon a harder but otherwise very similar sand-stone. These Siwalik beds yield the bones and teeth of such animals as the elephant, rhinoceros and tiger, but these fossils are of very rare occurrence in this district.

The uppermost stage of the Sirmur series is exposed at Kasauli and consists chiefly of sandstone of a grey or green colour with subordinate beds of clay. The underlying Dagshai stage consists chiefly of grey purple sandstone with beds of bright red or purple clay. These beds are well exposed and readily recognizable in the road and railway cuttings. The Sabathu stage consists chiefly of shales with bands of impure limestone and sandstone.

Both Siwalik and Sirmur series belong to the tertiary stage. The upper Siwaliks corresponds with the Pliocene of Europe, while the evidence afforeded by fossils enable us to correlate the Sabathu stage with the Focene and the Kasauli stage with the lower Miocene.

Gold is found in minute quantities among the sand washed down by many of the hill streams, especially those of the Kharar tahsil. There are kankar quarries at Patharheri and Patharmajra villages near Rupar, and limestone in the Morni hills. The block kankar quarries are a peculiar formation found in one small cluster of villages only. The houses and wells in these villages are built from the large blocks dug up a little below the surface of the soil, and the quarries were largely resorted to while the Sirhind Canal was under construction, though they have not been much used in later years The limestone of Morni is found in considerable quantities in the beds of hill streams. The only other mineral industry of the district is in and about Mani Majra and Kalka of the Kharar tahsil, where a few stone-masons earn a petty livelihood by the manufacture of millstones for small hand or water mills and of pestles and mortars.

Archaeology.

The district of Ambala has been attracting many archaeologists in the past, the main centres for attraction being the village of Sugh and Buria in Jagadhri tahsil, and Sadhaura in Narain Garh tahsil. The old coins found at Sugh lead on back to 1000 B.C. The account of its fort has also been given by the Chinese pilgrim Hwen Th ang who visited this place sometime in 634 A D. who described the circuit of the position of the fort as 3½ miles while it has been found to be more than 4 miles by General Cunningham who made a mention about Sugh in his Archaeological Survey Report, 1863-64. The Rang Mahal at Buria, the Tumb of Shah Qumes, the Sangni mosque, and the two gatways at Sadhaura are the samples of Mohammadan architecture.

Climate and Rainfall.

The climate of the district is fairly good, but the changes of temprature are severe. Although the hot winds blow but the dust storms are very rare. The rainy season brings occasional fever and some time plague breaks out causing heavy loss of life. Hardly the people recover from the fever when the winter season sets in. The result is that there is further loss of life from pneumonia. As the district is situated immediately below the hills, the rainfall is generally good. The average rainfall of the district is 30 81"

History.

Ambala and its neighbouring localities are directly concerned with the dawn of the Indian History. The tract of land between the Saraswati and the Drishadvati (Ghaggar) is a holy land of the Hindu faith, where the Aryan first settled in India and where their religion flourished. The towns of Thanesar and Pehowa just south of the district are still in existance and bear testimony to the above They attract thousands of persons from all parts of India.

The history of the mediaeval period is little known. During this period the capital of this part of the country was the town of Srughna, the site of which has been identified by General Cunnigham with the site of the village Sugh close to Jagadhri. A brief accont about Sugh has already been given above.

During the Mohammadan period, the district was attached to the Sirhind Sarkar. A mention has been made in the Ain-i Akbari about the *Mahals* of Ambala, Rupar, Khizrabad, Sadhaura and Mustafabad. In 1763 it fell into the hands of the Sikhs, when the Sikhs of Majha country (Lahore, Amritsar and Ferozepur) combined their fources at Sirhind and killed the Governor Zain Khan. The Sikhs remained in possession of this *ilaqa* uptill

1809 when a treaty was made with Maharaja Ranjit Singh by the British. From 1809 to 1847 this *ilaqa* was controlled by the Political Agent but afterwards the Chiefs were deprived of their sovereignity and the district was formed in 1847 consisting of five tahsils. In 1862, tahsil Pipli of Thanesar district was added to Ambala District when that district was broken up. It was re-transferred to Karnal in 1897. In 1886 the Ambala Division was abolished and the district was incorporated with the Delhi Division but by Royal Proclamation at 1911 Delhi Coronation Darbar, Delhi was made a separate Province and Ambala became once more the Headquarters of the Division.

In its present-day history, the most important event is the complete merger of the Kalsia State with this district, and Koistan district of Pepsu, and Ferozepur district in regard to its chirak area.

POPULATION.

The Population of the district as revealed by the 1951 Census comes to 943734 out of which 520129 are males and 423605 females. In order of population the district stand 9th among the districts of the Punjab. The density of the district is 481 souls per square mile. The density of each tahsil is given below:—

Name of Tahsil	Population	Area as supplied by D. C.	Density
Ambala	305413	388	787·14
Rupar	210372	489	430·20
Kharar	173407	375	462·41
Jagadhri	139202	286	486·72
Naraingarh	115340	422	273·31

The livelihood pattern of the population is as below:—

Name of livelihood Class.—	No. of persons.
I Cultivators of land wholly or mainly owned	263742
II Cultivators of land wholly or mainly owned	132505
III Cultivating labourers.	66328
IV Non-cultivating owners of land; Agricultural rent receivers	20777
V Production (other than cultivation)	100472
VI Commerce	88398
VII Transport	21931
VIII Other services and miscellaneous sources.	244581
Total:—	943734

ADMINISTRATION

The administration of the district is run by the Deputy Commissioner with his headquarters at Ambala City. He is assisted by the Superintendent of Police, Sub-Divisional Officer, Additional District Magistrate, Magistrates, Treasury Officer, Revenue Assistant, Tahsildars and Naib Tahsildars on the administrative side. The other officers who assist him are the Civil Surgeon, the District Medical Officer of Health, the District Inspector of Schools, the District Organizer of Civil Supplies and Rationing and the District Food Controller.

The district has been divided into five tahsils in order to exercise an effective control over it. They are :—

1. Ambala.
2. Jagadhri.
3. Naraingarh.
4. Kharar and
5. Rupar.

The Kharar (including sub-tahsil Kalka) and Rupar tahsils form the Rupar Sub-Division, under the charge of a Sub-Divisional Officer, with headquarters at Rupar. The tahsils have further been sub-divided into *thanas*, each under the charge of a Station House Officer. Their tahsilwise details are given below:—

Ambala Tahsil.

Ambala City, Ambala Sadar, Ambala Cantt. Mulana and a Police Post at Nangal.

Jagadhri.

Jagadhri, Balaspur, Chappar, Chhachhroli and a Police Post at Jamna Nagar.

Naraingarh.

Naraingarh, Sadhaura, Raipur Rani and a Police Post at Patvi.

Kharar.

Kharar, Kalka, Mubarakpur and Chandigarh. There is also a police post at Kurali.

Rupar.

Rupar, Morinda and Chamkaur Sahib.

Medical and Public Health.

The arrangement for medical aid to the public is on a very good scale in the district. In each tahsil dispensaries have been opened by the Government where medicine is administered to the patients free of any charge. There are the following dispensaries :—

Rupar.

Rupar, Morinda, Chamkaur Sahib and Bharat Garh.

Kharar.

Karar, Kurali, Mani Majra and Kalka.

Naraingarh.

Naraingarh, Sadhaura, Raipur Rani, Shahzadpur and Morni.

Ambala.

Ambala City, Ambala Cantt, Bihta, Adhoya, Nangal and Mulana.

Jagdhri.

Jagadhri, Damla, Khizrabad, Balaspur and Chhachroli.

Education and Literacy.

The district has made a great progress so far as the question of opening of Educational Institutions is concerned. The following is a tahsilwise list of the educational institutions:—

Colleges.

There are 6 colleges in the district out of which 3 are at Ambala city: 2 at Ambala Cantt: and one at Rupar.

High Schools.

Ambala City.	7 (including two girls high schools)
Ambala Cannt.	7 (including two girls high schools)
Mulana.	1

Jagadhri Tahsil.

Jagadhri	2
Bilaspur (Gopalmochan)	1
Jamna Nagar	1
Chhachroli	1

Naraingarh.

Shahzadpur	1
Sadaura	1
Naraingarh	1

Kharar.

Kharar	2
Kurali	2
Buhana	1
Kalka	1

Rupar.

Rupar	4 (including one girls high school)
Morinda	1
Chamkaur Sahib.	1

Besides the above there are many Middle and Primary Schools in the district.

Agriculture and Co-operation.

The net area available for cultivation in the district is 731820 acres (figures obtained from the office of the Director of Land Records, Punjab) which is 58% of the total area. Out of a population of 943734 in the district persons live on agriculture

Two crops are reaped in a year — Rabi and Kharif. The Rabi crops mainly consist of wheat, barley gram, alsi, sarson, taramira while the Kharif crops are maize, cotton, sugarcane, rice and pulses.

Industry.

The town of Jumna Nagar has become a great industrial centre Besides Sugar and paper production on a large scale, wood works and iron industry are also flourishing. Wheat milling, cotton ginning manufacture of iron goods as well as glassmanufacture are carried on at Ambala City and Ambala Cantt. There are a number of cotton ginning factories at Kharar, Kurali, Raipur, Sadaura, Naraingarh and Jagadhri. Calico Printing industry is being carried on at Jagadhri, Ambala Cantonment, Ambala City and Kharar. A woolen factory has also been started at Kharar where carpets and blankets are manufactured. Brass Utensils of Jagadhri have won a name for them. Ambala City and Cantt. are famous for *dari* manufacture.

Cottage Industries like weaving etc. are carried on in almost every big village. Rupar is known for its best locks.

Local Bodies

There are the following local bodies functioning in the district.

1. Ambala M. C.
2. Ambala Cantonment Board.
3. Ambala City Civil Station N. A.
4. Jagadhri M. C.
5. Buria N. A.C.
6. Jamna Nagar N. A. C.
7. Chhachroli M. C.
8. Sadaura M. C.
9. Kharar S. T. C.
10. Kalka M. C.
11. Rupar M. C.

Rehabilitation of Displaced persons.

Ambala district has accommodated 188892 displaced persons out of whom 100535 are males and 88357 females. Their tahsilwise number in the district is as below :—

Ambala	95055
Jagadhri	40173
Naraingarh	13818
Kharar	19146
Rupar	20695

They are 20.01% of the total population of the District. The Muslim evacuees have left 199047 acres of land 8494 acres irrigated and 190553 unirrigated.

Places of interest.

Ambala City.

It is the headquarters of the district, and is situated on the main E. P. Railway as well as the G. T. Road. Its distance by rail from Jullundur is 102 miles and from Delhi 124 miles. It is said that the City was founded by Amba Rajput in the 14th century. Another saying goes that the name is the corruption of 'Ambawala' or village of mangoes. The water supply has given always a trouble. The water is pumped from Handesra, a place 8 miles from Ambala City. Another tube well has been built and it is hoped that the water supply will be sufficient for the requirements of the city in future. There are 3 colleges and 7 High schools in the City, besides Middle and Primary schools. There is also one Industrial school. From commercial point of view, the city is well situated. There is a considerable trade in grains, cotton, dals and glass wares. There is also a Steam Roller Flour Mill besides the cotton ginning factories. There is a large Civil Hospital, Lady Harding Female Hospital, a Female Hospital managed by American Mission, a Jail Dispensary, a Police Hospital and a Leper Asylum. A. M. C. Functions in the town.

Ambala Cantonment.

This cantonment is also connected by rail as well by the road, and is about 4 miles to the south-east of the Ambala City. It was founded in 1843. It is one of the largest cantonments in the Punjab. The scarcity of water is not felt like Ambala City. The water has been obtained by constructing a series of wells on

the banks of the Tangri Nadi, about 5 miles north-east of the town. The Military Grass Farm the Military Dairy Farm and Military Poultry Farm are worth seeing besides the aerodrome. There is also a Flour Mill in the town. The Garrison Church, the SirhindClub, Railway Junction and the Sadar Bazar also attract visitors. It is also the headquarters of the Ambala Division.

Rupar.

It is situated on the Sirhind-Nangal Dam railway at a distance of 59 miles from Ambala City. It is also connected by road It has got historical importance attached to it. It is said that the town was formerly known as Rup Nagar and was founded by Raja Rokeshar after the name of his son Rup Sen. In the times of Sikhs it formed part of the dominions of the Sikh Chief Hari Singh and in 1792 came to his son Charat Singh whose estates were confiscated in 1846. The conference between Maharaja Ranjit Singh and Governor-General Lord William Bentick took place here in 1831. It is the headqurters of the sub-division and is the site of the headworks of the Sirhind Canal. There are 3 boys High Schools besides a High School for girls. A Government College with a very fine magnificient building has also been located at this place. There is a Civil Hospital and a Veterinary Hospital besides the Municipal Office. Rupar is famous for its 'Rupari Locks'. There is also a grain market.

Chamkaur Sahib.

Chamkaur Sahib is a historical place and is situated at a distance of 10 miles from Rupar on the Rupar-Ludhiana Road which runs along the Sirhind Canal bank. Two sons of Guru Gobind Sahib died at this place fighting heroically with the enemy. There are a number of Gurdwaras the biggest of which is Katalgarh where the two sons of Guru Sahib died. The other Gurdwaras worth seeing are Dam Dama Sahib, Shahid Burji and Tilak Asthan. Two big fairs are held at Chamkaur, one in the month of Poh to commemorate the massacre of the two sons and the other on the occasion of Dusehra.

Bardar

This is a small village situated in the Siwaliks at a distance of 10 miles from Rupar to the east. It has the ruins of an ancient City. A number of stone images discovered from this place lead the archaeologists to date their origin as back as 700 years ago. The images are of Durga. There is a temple of Mansa Devi

Manimajra.

Manimajra is situated on he Ambala-Rupar pacca road at a distance of 23 miles from Ambala. It is also a historical place. It was founded by Mani Ram Jat Dhillu abqut 400 years ago. There is a legend that one holy woman Mst. Raj Kaur was constructing a temple but Gopal Singh, the Chief of that time, took away her workmen for his fort. Raj Kaur was obliged to abandon the temple but pronounced a curse on all those who should erect a building higher than the temple. The curse was still believed to be effective and caused inconvenience to the people of the place who increased the height of the temple by spending Rs. 1000/-making it safe to build higher houses. A few miles away from Manimajra is the temple of Mansa Devi towards the north. A fair is held here on the 8th Chait every year. The climate of the place is malarial. It is famous for its good quality of rice

Kalka.

Kalka is a Municipal town situated on the banks of the Sukhna Nadi at a elevation of 2270 feet from sea level. It is connected by rail and road The town is the terminus of the E. I. R. and the starting point of the Kalka-Simla Railway. Ambala-Simla Road forms its main bazar. It serves as an exporting station for the products of the hills like potatoes ginger, pomegrantes, walnuts pears, apples and banafsha. A High School, Sub-Tahsil building, a Rest House, Hospital, Police Station and the Railway Station from the main public buildings.

Kurali.

It is situated at a distance of 10 miles from Rupar on the Rupar-Ambala Road and is also connected by rail. It is a small town having two High Schools, a Rest House, a dispensary, a Mandi and a Police post.

Kharar.

Kharar is the headquarters of the tahsil of the same name. A small town Committee functions here. It lies on the Ambala Rupar Road at a distance of about 33 miles from Ambala There is a woollen factory here besides cotton ginning factor es. There are two High Schools, a Police Station, a Rest House, the Tahsil buildings, a dispensary, a veterinary hospital and a recruiting office which form the main public buildings

Chandigarh.

Chandigarh has been decided to be the site of Capital of Punjab and is in the very near future. to become a big city. At present it is a small village. It has a Police Station, a Rest House and a Railway Station.

Sadgayra.

It is a Municipal town situated near the hills at a distance of 26 miles from Ambala, towards the East. It too has got a historical importance attached to it. The tomb of Shah Qu'nes, the Sangni mosque and the two gate-ways built of red bricks are worth seeing.

Jagadhri.

Jagadhri is situated at a distance of 37 miles South-East of Ambala and is the headquarters of the tahsil. It is too, has got a historical importance attached to it. The old name of the place was Ganga Dhari, so called from a store of Ganges water enshrined in the place at its foundation. A Municipal Committee is functioning here. It is famous for its brass utensils.

Jamna-Nagar (Abdullapur).

The name has been changed to Jamna Nagar after partition. It is connected by rail and road and is a big industrial centre. There are sugar and paper factories. It is also a timber market.

Naraingarh.

It is the headquarters of the Naraingarh tahsil. There is a High School, a Police Station and a Dispensary in the town. A pacca road—in a very miserable condition for the last several years—leads from Ambala to Naraingarh.

Buria.

The town is situated near the West bank of the Jamna Canal, 3¼ miles to the North of N W R. line. Buria is an old town built in the time of the Empror Humayun. The Rang Mahal, built by Shah Jahan, is worth seeing. It fell into the hands of the Sikhs about 1760 and became the seat of the chiefs. Buria Chiefs were one of those who were exempted from the Reforms of 1849 and allowed to retain independent jurisdiction. There is a notified Area Committee functioning in the town. Khadi cloth is made here.

Shahazadpur.

This is also an old town and fort is still to be seen here. There are a High School and a Middle School for girls.

Jamkesar Tank.

The Jamkesar Tank is in the village of Hussani near Narain Garh. Close to it are two temples, one dedicated to Shri Ram Chandra and the other to god Shivaji. The tank is said to mark the spot where the Pandavas halted during their flight to the Himalyas.

Kotgarh.

The village is famous for its temple of first God, Adhi Narain. The temple is situated in the Jagadhri Tahsil about 2 miles North of the village. The River Sarasvati issued at this place from the Siwaliks. A big fair is held at this place in Baisakh.

Gopal Mochan.

Gopal Mochan is situated near Bilaspur in the Jagadhri Tahsil and is famous for the tank of the same name. Its water is considered to be very sacred by the Hindus.

Bin Mochan.

Close to Gopal Mochan is another tank called Bin Mochan. A fair is held in the village in the month of Katak.

STATEMENT EXPLAINING THE TABLES APPEARING IN A DISTRICT CENSUS HANDBOOK.

In the 1951 Census, in addition to the sorting of the slips to produce the tables, essential Census informatian relating to every person enumerated inevery village and every town/ward has been incorporated in a National Register of Citizens which has been preserved as an unpublished administrative register for purposes of reference during the inter census decade.

Some changes have been made between the procedures for tabulation adopted at the 1931 and earlier censuses and at the present census These are explained below:-

1. Substitution of Economic Classification for classification based on Religion:—

In the past, Census slips were, at the very out set sorted on the basis of religion, and the figures of population by religion thus obtained were the basis of village statistics. The separation of slips by religion and sex was maintained throughout the sorting operation; and thus certain Census characteristics were cross tabulated by religion. During the present census, the slips have been sorted in the first instance, into the following eight livelihood classes of the population :—

Agricultural Classes.

I Cultivators of land wholly or mainly owned and their dependants.

II. Cultivators of land wholly or mainly unowned and their dependants.

III. Cultivating labourers and their dependants.

IV. Non-cultivating owners of land; agricultural rent receivers and their dependants.

Non-Agricultural Classes.

Persons (including dependants) who derive their principal means of livelihood from :—

V. Production other than cultivation.

VI. Commerce.

II. Transport.

VIII. Other services and miscellaneous sources

The resulting figures have been given in the Primary Census Abstracts which serves as the basis for village statistics.

2. The Concurrent 10% Sample:—

The Age (Sample) Tables have been prepared from the enumeration slips by taking a 10% sample, out of the population excluding the displaced persons. Separate figures for displaced persons are given in the Handbook in all important tables.

3. Preservation of Census Records and Registers.

In the past, the abstract (first prepared in the process of sorting and compilation) was used for compiling village statistics, which were retained as unpublished administrative records by same States and printed and published by others. At the present Census, the following data are included in the District Census Handbook and printed and published as such:-

i. Introduction to the District Census Handbook

ii. District Census Tables (furnishing district data with break up for Census tracts, within the district)

iii. Census Abstract:- (a) Primary Census Abstracts (b) Occupational Abstracts and (c) census abstracts of Small scale industries.

The following tables have been included in the Handbook.

A. GENERAL POPULATION TABLES.

I. Area, Houses and Population.

(The area figures given in this table have been supplied by the Deputy Commissioner of the district and hence do not tally with the area figures maintained by the Survey Deptt: No. of houses are those which were found to be occupied at the time of house numbering by the revenue staff; un-occupied houses do not figure in the table.)

Variation in Population during fifty years.

II. (The population figures given in this table for the previous censuses have been adjusted, taking into consideration the adjustment of enclaves during the period 1941-51. Population of areas transferred to and/or from each tahsil have been added to or subtracted from the population of that tahsil for the censuses 1901 to 1941)

III Towns and Villages classified by Population.

IV. Towns classified by population with variation since 1901.

V. Towns arranged territorially with population by livelihood classes.

In this table figures for livelihood classes I to III have not been given separately but have been clubbed together.)

B.Economic Tables.

I. Livelihood Classes and Sub-classes.

(Non-earning dependants in this table mean economically passive persons i. e. who do not earn anything; and earning dependant implies a person who is semi-active, i e. whose earning do not suffice his living and who has, therefore, to depend upon other; self-supporting persons mean economically active persons i. e. who do not depend upon others, and are at least able to maintain themselves.

II. Secondary means of livelihood.

Non earning dependants do not have secondary means of livelihood. An earning dependant is maintained partly by the income of some other person and partly by his own; the source which gives him some income is taken to be his secondary means of livelihood for purposes of this table. A self supporting person may have more than one means of livelihood in some cases; the second best source of income has been given in this table as his secondary means of livelihood.)

III. Employers, Employees and Independant Workers.

(The self supporting persons in non-agricultu al classes have been classified in this table as Employers, Employees and
