CENSUS OF INDIA 1961

Central Government Publications

Census Report, Volume X—Maharashtra, is published in the following Parts

I-A and B	..	General Report
I-C	..	Subsidiary Tables
II-A	..	General Population Tables
II-B (i)	..	General Economic Tables—Industrial Classification
II-B (ii)	..	General Economic Tables—Occupational Classification
II-C (i)	..	Social and Cultural Tables
II-C (ii)	..	Migration Tables
III	..	Household Economic Tables
IV	..	Report on Housing and Establishments
V-A	..	Scheduled Castes and Scheduled Tribes in Maharashtra—Tables
V-B	..	Scheduled Castes and Scheduled Tribes in Maharashtra—Ethnographic Notes
VI (1—35)	..	Village Surveys (35 monographs on 35 selected villages)
VII-A	..	Handicrafts in Maharashtra
VII-B	..	Fairs and Festivals in Maharashtra
VIII-A	..	Administration Report—Enumeration (For official use only)
VIII-B	..	Administration Report—Tabulation (For official use only)
IX	..	Census Atlas of Maharashtra
X (1—12)	..	Cities of Maharashtra (15 volumes—Four volumes on Greater Bombay and One each on other eleven Cities)

State Government Publications

25 Volumes of District Census Handbooks in English

25 Volumes of District Census Handbooks in Marathi

Alphabetical List of Villages in Maharashtra

PREFACE

On the suggestion of the Census Commissioner, India, the Government of Maharashtra decided to publish the District Census Handbooks on the basis of the material collected during the 1961 Census for all the districts in Maharashtra. A Committee consisting of the Executive Editor and Secretary of the District Gazetteers (Revision) Editorial Board, the Superintendent of Census Operations, Maharashtra, and the Director, Bureau of Economics and Statistics, Maharashtra, was appointed to determine the contents and review the drafts of each volume. This is one of the twenty-five volumes compiled in the Maharashtra Census Office and published under that scheme.

District Handbooks had been published from the 1951 Census data also. As in the past, the present volume contains a set of 1961 Census Tables for the district and also presents basic demographic and economic information for each village separately. The following improvements have, however, been made in the 1961 series :—

(*i*) The addition of a comprehensive note introducing the district ;

(*ii*) The four-coloured map of the district ;

(*iii*) Taluka maps showing the location of each village in the district supplemented by alphabetical lists of villages ;

(*iv*) Supplementary information showing basic amenities available for each village; and

(*v*) Addition of Part III containing 33 Tables on other official statistics.

These new features will make the volume a valuable reference for the Central and State Governments, District Administrators, departments engaged in planning and development work, legislators, private trade and business. Need for such material is far greater today as the functions of planning and implementation of development schemes have now percolated to district, taluka and village levels.

Marathi version of this volume is also being issued separately.

Part I of the volume presents villagewise statistics, Part II contains the 1961 Census Tables prepared for the district and Part III contains official statistics on Climate, Rainfall, Agriculture, Industry, Education, Health and a few other aspects. An explanatory note is added at the beginning of each part to describe the layout of the Tables and the terms or concepts used. Parts I and II are based entirely on the data collected at the 1961 Census. Part III is based on the material furnished by the District Statistical Officer and the officers of the departments concerned. Villagewise populations shown in Part I are valid for Sunrise of 1st March 1961 and are not adjusted for seasonal migration to or from other areas.

The introductory note at the beginning of the volume describes the present administrative set-up and some of the socio-economic facets of life in the district. It will illustrate how the statistics presented in the volume could be used for economic accounting or as controls of plan achievements in the district. For this note, we have drawn heavily on the District Gazetteers, Survey and Settlement

Reports, Annual Administration Reports and other Government publications. Some Heads of Departments also supplied the latest available material for the volume. We are indebted to them all.

Any views expressed in the introductory note or elsewhere in the volume are personal and the Government is not responsible for them.

In the Census Office, every one has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I should specially mention Shri N. Y. Gore, Tabulation Officer, for his sincere and thorough work on compilation and proof reading of Part I, Shri G. S. Gokarn, Tabulation Officer, for his painstaking work on MSS and proofs of Parts II and III, Shri S. K. Deshpande and Shri R. E. Chowdhary for assistance in preparing the introductory note, Shri S. Y. Pradhan and Shri B. M. Nagarkar, Draughtsmen, for Maps, Charts and Diagrams. Shri K. H. Shevade of our office looked after the layout of the Tables and printing of the volume. Shri R. G. Phadke and Shri D. V. Rangnekar, Deputy Superintendents of Census Operations, and Shri G. M. Rajadhyaksha, Tabulation Officer, made valuable contributions at all stages and specially in the preparation of notes. Acknowledgments are due to the Manager, Government Central Press, Bombay, and Shri J. D. Gandhi, Manager, Government Photozincographic Press, Poona. In spite of heavy pressure of work on their presses they did their best to print this volume speedily.

I am obliged to Shri Asok Mitra, I.C.S., Census Commissioner, India, for valuable suggestions for improving this volume. I am also indebted to Shri Setu Madhava Rao and Shri M. A. Telang, Members of the District Census Handbook Committee, who not only supplied useful material from their departments but also read through the MSS and encouraged us through this venture.

INTRODUCING THE DISTRICT

This note describes the administrative set-up and some socio-economic facets of life in the district

THE DISTRICT IN MAHARASHTRA

FIG. 2

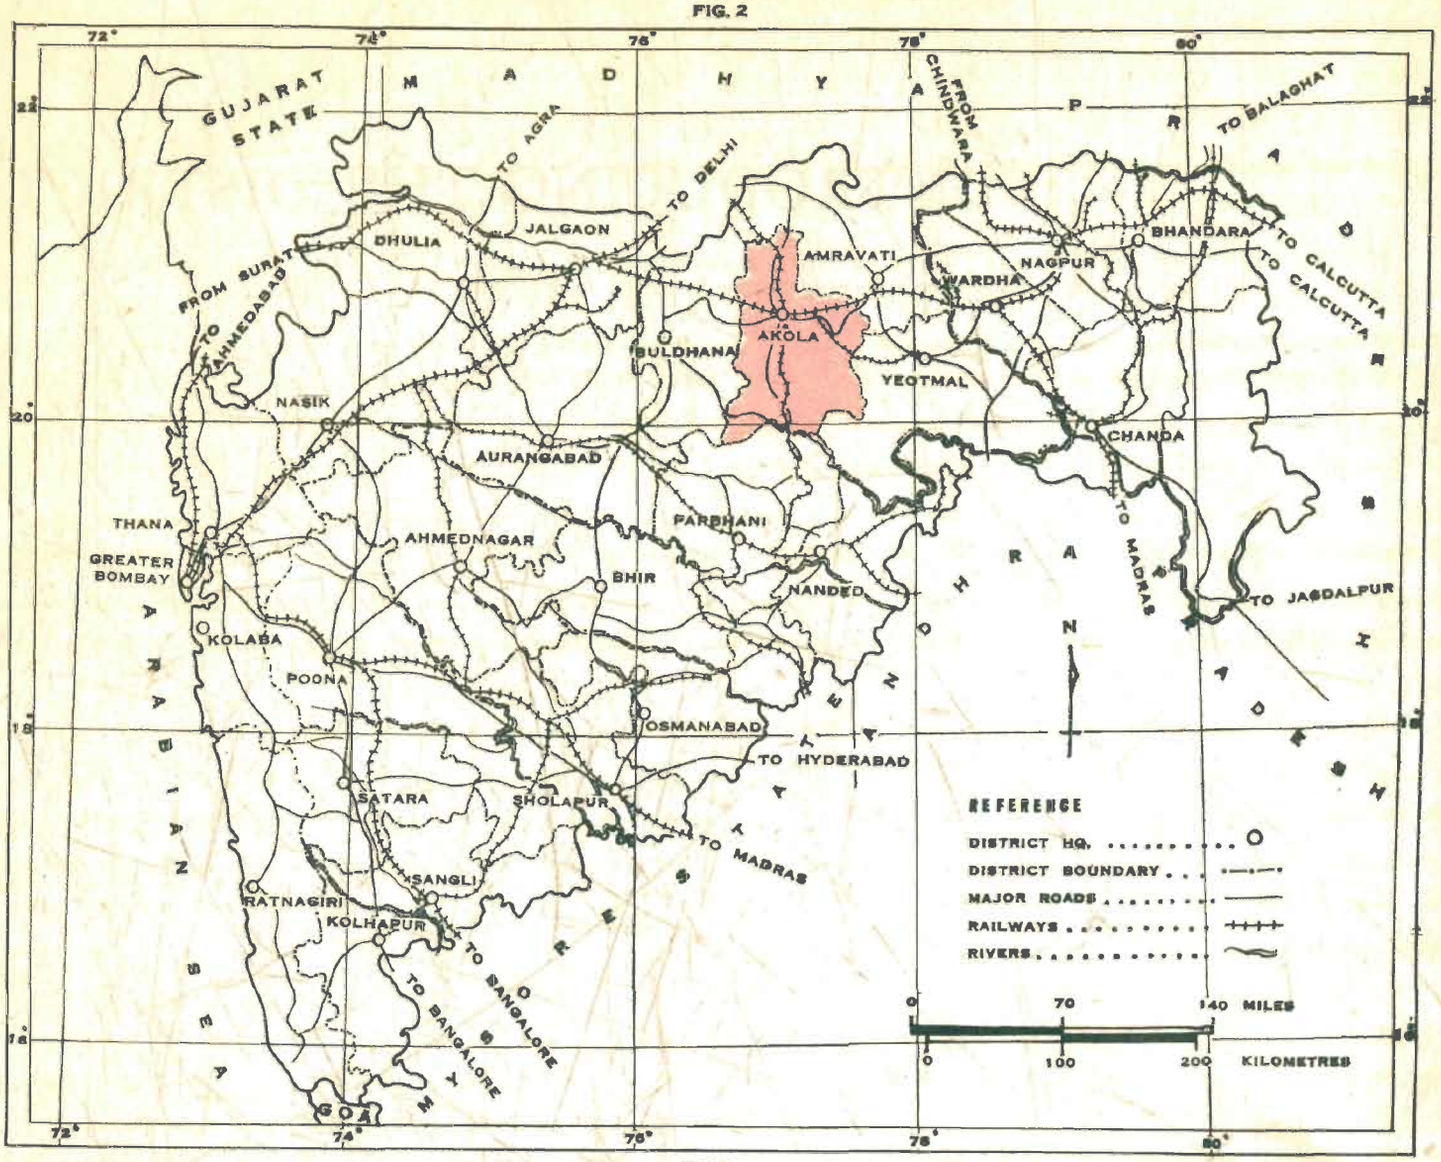

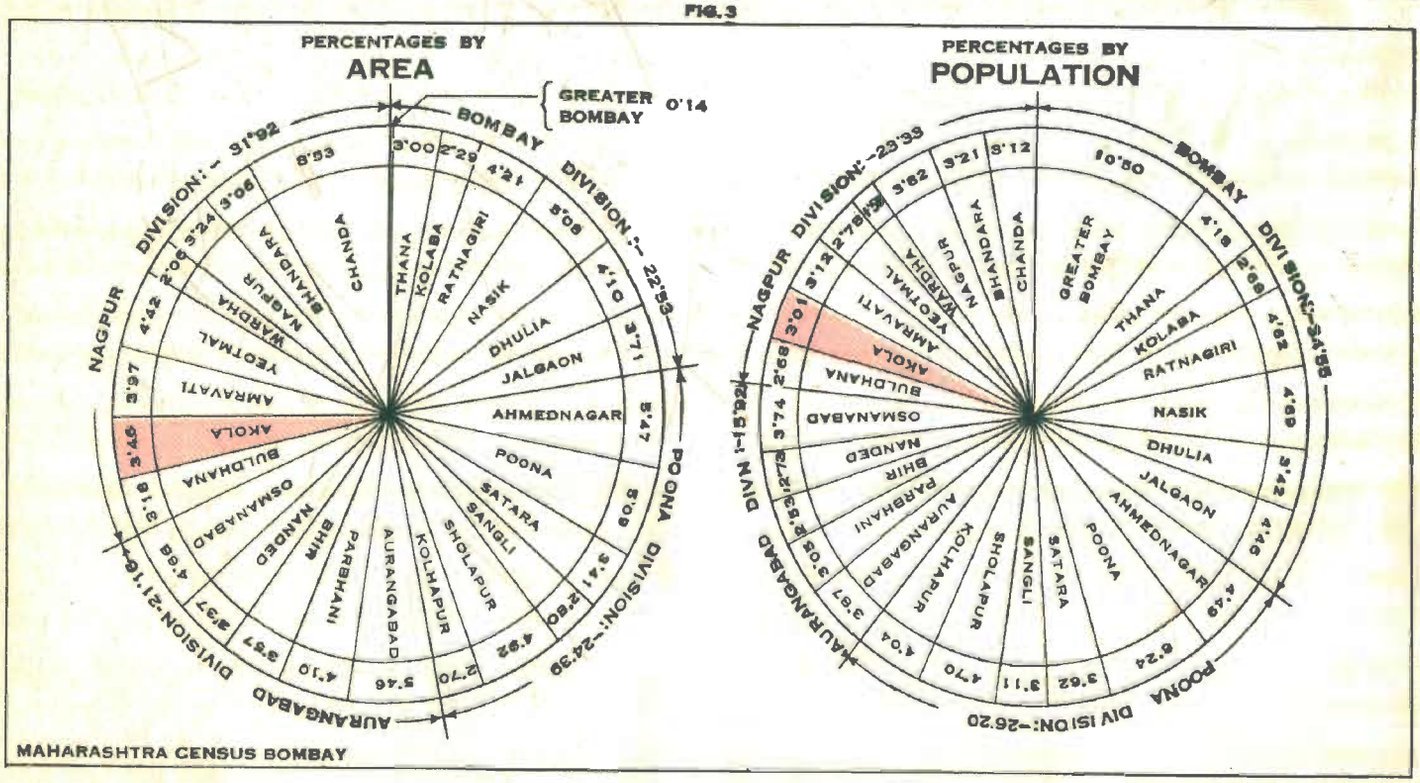

FIG. 3

G. P. Z. P. POONA-1962

INTRODUCING THE DISTRICT

PHYSICAL FEATURES

The northern part of the district lies in the Purna valley which is itself a part of Tapi river basin. The river Purna, which is a chief tributary of the river Tapi, has formed a fertile basin in the four talukas of the district, *viz.* Akot, Balapur, Akola and Murtazapur. This portion of the district is known as Payanghat. The southern part is known as Balaghat and is drained by Penganga (which is a tributary of Godavari river) and by its tributaries.

The district lies between 19° 51′ and 21° 16′ N. latitude and 76° 38′ and 77° 44′ E. longitude. It is surrounded by Amravati district in the north, Amravati and Yeotmal districts in the east, Parbhani and parts of Yeotmal district to the south and Buldhana district towards the west.

The area of the district is 4,091 sq. miles and its population in 1961 is 1,189,354. In terms of area and population it makes 3·46 per cent and 3·01 per cent of the State, respectively. The Figures facing this page show the position of the district in the State.

Hill Ranges

The district has no mountains of importance but Gawilgad hills are spread over the northern part of the district. These hilly parts are the branches of Satpuda hills. To the south, in Washim taluka, are the ranges of the Ajanta mountains which have formed a plateau. This plateau, known as the Balaghat, forms one of the great watersheds in the country as the region to its north is drained by Purna in the western direction to Tapi while that situated on the plateau and to its south is drained by Penganga towards the east ultimately joining Godavari.

Important Rivers

The Purna is the chief river of the district. It rises in Betul district of Madhya Pradesh and flows due west across Akola district into Buldhana district. It forms the northern boundary of Murtazapur, Akola and Balapur talukas and the southern boundary of Akot taluka. The chief tributaries of the Purna on the south bank are the Pendhi, Uma, Katepurna, Lonar, Morna, Nirguna and Man. The Katepurna, which is the largest of all the tributaries, rises within a few miles of Washim and flows across the eastern side of Akola taluka and the north-western corner of Murtazapur. All the streams of the northern part of the district flow into the Purna.

The Penganga, which flows south-east across Washim taluka, maintains its current throughout the year. The Aran, Arnawati and Pus rise in Washim taluka and flow through parts of Mangrulpir taluka, finally joining the Penganga. The Penganga has numerous small tributaries which hold water for about four months in the year.

Climate

Monthly temperature records for the district are available for Akola station only (Table 1 in Part III).

The rainy season starts in the beginning of June and lasts up to the end of September. It is followed by sultry weather from the beginning of October to the middle of November, winter from the middle of November to the end of February and dry hot season from the last week of March to the end of May. A good breeze almost always blows during the hot weather and makes the nights comparatively cool and comfortable. The district has extremes of climate. Summers are too hot and the winters are too cold.

Within the district the seasons show local variations. The hilly tracts of the district consisting of Washim and Mangrulpir talukas have a slightly heavier rainfall and slightly cooler climate than others. Akola city is considered to be the hottest place.

Rainfall

Table 2 in Part III shows figures of monthly rainfall and number of rainy days for ten years 1951 to 1960.

The rainfall is more in the southern part than in the northern part. Washim gets on an average 880 mm. as against 765 mm. at Balapur.

The intensity of rainfall is greatest in July.

Mean rainfall at Akola is 802 mm. Standard deviation is 216 mm. Coefficient of variability is 26·92 per cent. It can, therefore, be said that the reliability of rainfall in this district is moderate.

Dependability of Rainfall and Scarcity Areas

The district has suffered from scarcity on very few occasions. The Fact-Finding Committee appointed by the Government of Bombay in 1950 has, therefore, reported that no area in Akola district can be regarded as scarcity area.

Soils

The soils are basically derived from volcanic trap rock and are quite fertile. The great plain of the Payanghat occupies the northern half of the district and contains chiefly rich black soil. The central part of Washim taluka and north-western part of Mangrulpir taluka have also good soils. On the plateau the soils are shallow with murum substratum. On the eastern side of the road leading from Akola to Akot there is a saline tract on both sides of river Purna in which formerly salt used to be manufactured.

In Murtazapur taluka, the greater portion of the country is a rich black soil plain gradually rising towards the south. In the vicinity of the hills on the southern border, along the eastern boundary, and also in the north-eastern portion, the soils become shallow, stony and less productive.

Roughly speaking three quarters of Balapur taluka may be said to consist of deep black soil of a fertile description, the richer portion lying towards the north. Near the hills lighter soils predominate. This area is devoted entirely to the growth of kharif crops and it is more dependent on the rainfall.

The northern half of the Mangrulpir taluka consists of an undulating table land containing black soil of a productive nature. It is, however, very variable in depth. The southern portion is mountainous and rough, soils being mostly poor and shallow and communications difficult.

Akot taluka is the most fertile portion of the Purna valley and is chiefly a rich black soil country well cultivated, thickly populated and well wooded with mango groves.

Akola taluka is an open widely cultivated tract, possessing rich deep black soil. East of the Katepurna river the tract is stony. Near the hills on the southern border shallow and inferior soils predominate.

In Washim taluka soils vary considerably both in nature and depth, the richest portion being the centre of the taluka where there are extensive black soil plains devoted chiefly to the growth of wheat and other winter crops.

Minerals

The district is not known to have any mineral wealth except limestone, the total production of which was about 12,000 tons in 1960.

Forests

The forests are 351·28 sq. miles or about 8·3 per cent of the total geographical area of the district. The forest area of 318·20 sq. miles is in charge of Forest Department and the remaining in charge of Revenue Department. The chief tract lies along the hilly land which runs from east to west across the middle of the district, extending into the south of Murtazapur, Akola and Balapur talukas and north of Mangrulpir and Washim talukas. The forest around Narnala fortress abounds in timber yielding trees, *babul bans* and grass-growing plants (fodder reserves called *ramanas*). Several other isolated tracts are dotted about throughout the district ; they are mostly *babul bans*, but some contain a variety of trees and some are reserved chiefly for the supply of grass. The stretches of forest along the central hills are all much of the same type-thin jungle growing on rough stony ground.

Natural Zones

There are two natural zones in the district. One is the northern part, i.e. Payanghat and the other the southern part, i.e. Balaghat. Payanghat contains rich black soil while Balaghat is a mountainous region consisting of the branches of the Ajanta range.

The Payanghat consisting of northern talukas of Akot, Balapur, Akola and Murtazapur grows cotton and jowar in abundance. The southern talukas of Washim and Mangrulpir grow kharif crops and especially the pulses.

The important sources of irrigation are wells and tanks. Wheat, sugarcane and chillies are important irrigated food crops.

ADMINISTRATIVE SET-UP

Brief History

In 1853, Berar which formed a part of the Nizam's dominion was assigned to the East India Company in liquidation of the large debt due on account of arrears of pay of the Hyderabad contingent and as a security for the future payment of that force. At that time, Berar was divided into two districts, South Berar (the Balaghat) with headquarters at Hingoli and North Berar with headquarters at Buldhana.

After 1857, Hingoli with its neighbouring area was restored to the Nizam and Berar was reconstituted into two districts, East Berar with headquarters at Amravati and West Berar with headquarters at Akola. In 1903, the treaties of assignment were superseded by an agreement under which the Nizam leased Berar to the Government of India in perpetuity in return for an annual rent of Rs. 25 lakhs. Administration of Berar was transferred from the Resident of Hyderabad to the Chief Commissioner of Central Provinces.

The area which now makes Buldhana district was separated from West Berar district in 1864. Some area was also transferred in 1875 to the newly created Basim (Washim) district. Mangrul taluka was newly created in that district in the same year.

The district and tahsil boundaries were completely overhauled in 1905. Murtazapur tahsil was transferred from Amravati to Akola district and Khamgaon and Jalgaon tahsils were transferred from Akola to Buldhana district. Basim district (Washim) was broken up and two of its tahsils (Washim and Mangrul) were included in Akola district.

There were no major changes in the boundaries of the district or its talukas between 1911 and 1955.

With the Reorganisation of States in 1956, the district was transferred from Madhya Pradesh to Bombay State. The district forms a part of Maharashtra since 1st May 1960.

Present Set-up

For administrative purposes, the district is at present divided in 6 talukas. The area, number of inhabited villages, number of towns, 1961 population and the position in the district by percentages of area and population for each taluka are as shown on the next page.

District/Taluka	Name of Headquarters	Area in sq. miles	Number of inhabited Villages	Number of Towns	1961 Population	Percentage of area	Percentage of Population
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
AKOLA DISTRICT	.. Akola ...	4,091·0	1,507	9	1,189,354	100 0	100·0
1 Akot Taluka	.. Akot ..	550·0	251	2	192,312	13·4	16·2
2 Balapur Taluka	.. Balapur ..	530·0	164	2	148,930	12·9	12·5
3 Akola Taluka	.. Akola ..	739·0	298	1	290,534	18·1	24·4
4 Murtazapur Taluka	.. Murtazapur ..	610·0	263	2	174,488	14·9	14·7
5 Mangrulpir Taluka	.. Mangrulpir ..	616·0	206	1	135,458	15·1	11·4
6 Washim Taluka	.. Washim ..	1,046·0	325	1	247,632	25·6	20·8

General Administration and Revenue

The Collector is in charge of general administration, law and order, treasury, land revenue and civil supplies. He is assisted by a Resident Deputy Collector in his office and 6 Deputy Collectors (Sub-Divisional Officers) who hold charge of the six revenue divisions. The sub-divisional officers have their headquarters at the respective taluka headquarters. In this respect the system is different from that obtaining in Bombay, Poona and Aurangabad Divisions where the sub-divisional officers generally have jurisdiction over three or more talukas and headquarters at one of them. The justification for the large number of Deputy Collectors is the very large size of talukas in the Nagpur Division. Six tahsildars are in charge of six talukas (tahsils).

Land Revenue Settlements

In 1853 the Akola district, with the rest of Berar, was assigned to the East India Company. In those days contracts were taken by Maktedars for land revenue collection. They secured payment largely with the help of Deshmukhs and Deshpandes. Cultivators were liable to give up their lands and there was plenty of land to be had. Security of tenure was an unknown concept.

The introduction of ryotwari tenure was a great change. The revenue survey was started in 1864 and completed in 1872. The assessment was fixed for 30 years.

In the original settlements, lands were assessed separately on the basis of individual soil classification, though the general level of assessment was fixed emperically with reference to the dependability of rainfall, crop pattern, average yields, prices, levels of rent, nearness to the markets, facilities of communications and other similar factors observed from tract to tract. Individual lands were never re-classified during any revision settlements and landholders were generally allowed the benefits of improvements effected by them during the term of settlement untaxed. The comparative incidence of land revenue from field to field is thus still the same as it was at the time of the original settlement and the enhancements made from settlement to settlement were brought about only by raising the levels of land revenue assessments over a tract uniformly.

The method of land revenue assessments in the district is broadly the same as in the other districts of Maharashtra. In the case of lands irrigated by wells and small bandharas, the land revenue is integrated and is inclusive of the charge for water supplied.

The First Revision Survey was completed between 1897 and 1904. The Second Revision Survey was completed between 1926 and 1930 in Akot, Balapur and Akola talukas.

The land revenue rates have not been revised though the guarantee period has expired.

Table 24 in Part III shows demand and collection of Land Revenue during the last ten years 1951 to 1960 for the district and each taluka separately.

The maximum rates or average Land Revenue rates per acre fixed at each Settlement or Revision Settlement may be taken as reliable indices of the comparative incidence of Land Revenue obtaining from tahsil to tahsil. The table on page (4) shows these rates for dry crops for each taluka separately.

Taluka	Original settlement or Revision settlement	Year	Guarantee period	No. of villages	Average land Revenue per acre	Group	Maximum rates per acre
							Dry lands

Assembly and Parliamentary Constituencies

Since 1957 the district has 8 Assembly seats. In 1957, Washim and Murtazapur constituencies were double member constituencies with one of the two seats in both the constituencies reserved for Scheduled Castes.

After the abolition of the double member constituencies in 1961, the seats from Gowardhan and Borgaon are reserved for Scheduled Castes.

The number of voters on rolls for each Assembly constituency in 1961 was as follows :—

Assembly Constituency	No. of Voters on rolls
(1) Mangrulpir	66,971
(2) Murtazapur	78,785
(3) Borgaon	84,989
(4) Akola	64,708
(5) Balapur	73,874
(6) Akot	81,091
(7) Washim	67,283
(8) Gowardhan	67,984
Total ..	585,685

In the 1962 General Elections, the Assembly constituencies Mangrulpir, Murtazapur, Borgaon, Akola, Balapur and Akot together made one Parliamentary constituency called Akola constituency and the remaining Assembly constituencies Washim and Gowardhan combined with Assembly constituencies Jalamb, Khamgaon, Mehkar and Tanefal from Buldhana district made another Parliamentary constituency called Khamgaon constituency.

The total number of voters on rolls in the district in 1961 was 585,685. The total population 21 years and above according to the 1961 Census is 583,487. Comparison can, however, be only approximate as the two figures relate to two different dates in the year 1961.

Administration of Justice

The District and Sessions Judge is the head of the judicial department in the district. The judiciary is entirely separated from the executive. The Collector continues to be the District Magistrate and the Deputy Collectors and Tahsildars are vested with magisterial powers. But those powers are limited to security proceedings under sections 107, 108, 109, etc., cases

of local nuisance under section 133 and cases as regards disputes of lands under sections 145, 146 and 147 and none of them ever tries any criminal case. The District Magistrate does not have any administrative control over the other Magistrates who try criminal cases in the district. This separation of the judiciary from the executive has been brought about in the district in the year 1959.

The District and Sessions Judge is assisted by one Additional Sessions Judge. He has jurisdiction over the entire district. He attends to civil and criminal work both original and appellate.

There are 3 Civil Judges of the Senior Division, two of them have headquarters at Akola and the third at Washim. They attend to special and regular suits in their respective jurisdictions. They also deal with cases under Co-operative Societies Act over Rs. 10,000, suits under the Hindu Marriage Act, cases under Parts VII, IX and X of the Indian Successions Act, Insolvency cases, suits under the Trust Act, cases under the Workmen's Compensation Act and cases under the C. P. & Berar Industrial Disputes Settlement Act.

There are 5 Civil Judges of the Junior Division, two of them have headquarters at Akola, and the other three at Akot, Murtazapur and Mangrulpir respectively. They deal with regular civil suits of value of subject matter below Rs. 10,000 and cases under Payment of Wages Act, arising within their respective jurisdictions. There is also one Judicial Magistrate, First Class, at Akola. He is empowered to try criminal cases under the Motor Vehicles Act and Motor Vehicles Taxation Act.

Police

The Police force in the district works under the District Superintendent of Police who is assisted by 3 Deputy Superintendents and 3 Circle Police Inspectors. There are 25 Police Stations in the district. Their headquarters and jurisdictions are as shown in the next column.

	Police Station Headquarters		No. of villages
Akot Taluka ..	1.	Akot ..	126
	2.	Dahihanda ..	70
	3.	Hiwarkhed ..	71
	4.	Telhara ..	64

	22.	Risod ..	68
	23.	Shirpur	(Not available)
	24.	Jaulka ..	60
	25.	Ansing ..	44

Average number of villages and population per Police Station in the district are 67 and 47,574 against 69 and 62,547 in the State, respectively.

Crime statistics for the district for the years 1950, 1955 and 1960 have been shown in Table 28 in Part III.

Municipalities

All the nine towns in the district have Municipal Committees established under the C. P. and Berar Municipal Act, 1922. The year of establishment, the year of the last general election, the term of the elected body, the total number of elected councillors and the number of seats reserved for Scheduled Castes and for women are shown below for each Municipality :—

Serial No.	Name of the Municipality	Year of establishment	Year of the last General Election	Statutory term in Years	1961 population	Total No. of Municipal Councillors	Seats reserved for	
							Scheduled Castes	Women
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
1	Akot	1884	1960	5	31,459	20	....	....
2	Akola	1868	1955	5	115,760	43	....	....

8	Balapur	1934	1959	5	16,618	13	....	....
9	Patur	1939	1959	5	9,171	10	....	....

The municipality of Akola is nearly a hundred years old. The youngest, i.e., the one at Mangrulpir was established only a couple of years ago.

The nine municipalities together cover the entire U-ban population or 22·10 per cent of the total 1961 population of the district.

The taxation level of each of the municipalities is as shown in the next column.

Per capita Municipal tax appears to be high at Akola, but as it is an important market centre a part of the incidence of tax falls on the agriculturists who bring their produce for sale.

Name of the Municipality	1961 Population	Year 1961-62		
		Total receipts	Receipts from Municipal taxes	Per capita Municipal tax
		Rs.	Rs.	Rs. nP.
1. Akot ..	31,459	6,42,510	3,10,600	9 87
2. Akola ..	115,760	55,42,520	25,15,445	22 59
3. Washim ..	26,494	4,62,402	2,16,985	8 19

9. Patur ..	9,171	85,908	29,102	3 17

ZILLA PARISHAD AND PANCHAYAT SAMITIS

With a view to promote development of democratic institutions and to secure greater measure of participation by the people in Development Plans and in local and governmental affairs by decentralisation of powers and functions a Zilla Parishad and 13 Panchayat Samitis have been established in the district in the year 1962 under the Maharashtra Zilla Parishad and Panchayat Samitis Act of 1962. The area under the jurisdiction of the Zilla Parishad corresponds to the district boundaries except in the case of Municipal towns which are not included in its purview. The jurisdictions of the Panchayat Samitis extend over only parts of the talukas (tahsils) concerned. There are three Panchayat Samitis in Washim taluka and two each in the remaining five talukas. The Zilla Parishad covers 98·13 per cent. of the area and 77·90 per cent. of the total population of the district. The population covered is entirely rural population. The number of villages, the population included under the Zilla Parishad and each Panchayat Samiti are shown in the following table. The position of each Panchayat Samiti in the Zilla Parishad is also shown separately by percentages of population in 1961 :—

——	Name of Headquarters	Number of inhabited villages	Population in 1961	Percentage by population
(1)	(2)	(3)	(4)	(5)
Akola Zilla Parishad ..	.. Akola ..	1,507	926,521	100·00
1. Akot Panchayat Samiti ..	.. Akot ..	136	77,774	8·39

13. Risod Panchayat Samiti ..	.. Risod ..	100	80,969	8·74

Constitution

The Zilla Parishad has 47 directly elected councillors. Out of these 47 seats, 2 seats had been reserved for Scheduled Castes. In addition, a woman councillor has been co-opted by the elected councillors. There are five associate councillors who are chairmen of five federal co-operative societies conducting business in the district. The elected chairmen of all Panchayat Samitis are also *ex-officio* councillors.

At the Block level, the Panchayat Samiti consists of all elected and co-opted councillors from the area of the Block and a Chairman of a Co-operative Society conducting the business of purchase or sale of agricultural produce in the area of the block as an associate member and a Chairman of a Co-operative Society conducting the business in agriculture in the area of the Block as a co-opted member. Sarpanchas elected by members of Village Panchayats

are also elected members of the Panchayat Samiti. Their number is at the rate of two for each electoral division in the area of the Block.

Elections were held in the year 1962. The term of office of the Councillors is five years. The Zilla Parishad has elected the President and Vice-President from amongst the elected Councillors.

An officer in the senior scale of I.A.S. works as the Chief Executive Officer to the Zilla Parishad. The Parishad is also assisted by various departments and the heads of those departments at the district level are officers of Class I or Class II Service under the State Government. At the Block level, the Panchayat Samitis have elected Chairmen and Deputy Chairmen. The Block Development Officers work as Secretaries to the Panchayat Samitis. The Executive Authority for the purpose of carrying out the provisions of the Maharashtra Zilla Parishad and Panchayat Samitis Act vests in the Chief Executive Officer and the Block Development Officers. The Deputy Chief Executive Officer works as a Secretary to the Zilla Parishad.

Committees and Office-bearers

The Zilla Parishad functions through a Standing Committee presided by the President and six Subject Committees for Finance, Works, Agriculture, Co-operation, Education and Health. Two Subject Committees are presided by the Vice-President and four by two chairmen elected by the Zilla Parishad to preside over two specified subject committees each. The Deputy Chief Executive Officer works as Secretary of the Standing Committee, while the District Heads of Departments work as Secretaries to the Subject Committees concerned. Co-ordination between the Subject Committees is achieved through the Standing Committee which includes the Chairmen of all the Subject Committees as members.

The Panchayat Samitis do not have subject committees.

The elected President of the Zilla Parishad is paid an honorarium of Rs. 500 per month. The Vice-President and the two Chairmen of the Subject Committees are paid an honorarium of Rs. 300 per month. The elected Chairmen and Deputy Chairmen of the Panchayat Samitis are paid an honorarium of Rs. 300 and Rs. 150 per month, respectively. All these persons are also provided with rent-free accommodation as is deemed suitable for them by the Zilla Parishad.

Functions

The Divisional and State Officers of the Government continue to exercise technical supervision and give guidance to Zilla Parishad and Panchayat Samitis. The State Government has powers to give direction to the Zilla Parishad regarding works and schemes in the interest of National or State Development Plans. Inspection and supervision are carried out by the Divisional Commissioners.

Except for a few safeguards, the developmental and administrative functions of Government are now, with the creation of these democratic bodies at the district and block level, devolved on them. In other words, the State Government has divested itself of the responsibility of local activities which are now left to the people's initiative and resources.

The developmental and administrative subjects transferred to the Zilla Parishad and Panchayat Samitis have been listed in Schedules I and II to the Maharashtra Zilla Pairshad and Panchayat Samitis Act. By and large, all functions of Government administration including development activities, at the district level, but excluding matters relating to law and order, judicial and quasi-judicial functions, and development functions involving high technical skill like Research Station, etc., have been devolved on the Zilla Parishad and Panchayat Samitis. All Class III and Class IV employees of the Government Departments now transferred to the Zilla Parishads have been absorbed as employees of the Parishad. The village Talati (or Patwari) and the entire village establishment of the Revenue Department have been transferred to the Parishad through the Village Panchayats, though for collection of land revenue and maintenance of Record of Rights they continue to work under the Revenue Officers.

The Zilla Parishad has replaced the erstwhile statutory bodies known as the Janpad Sabhas and the District Panch-ayat Mandal. The functions of non-statutory body known as the District Development Board have of course been absorbed. Municipalities, however, remain unaffected as Municipal areas are excluded from the jurisdiction of the Zilla Parishad.

Finance

The law provides for levy of a cess at the rate of twenty naye paise on every rupee of land revenue and at a rate not exceeding nineteen naye paise per rupee of water rate. The Zilla Parishad can levy taxes on profession, trade, calling or employment and taxes on water supply, public entertainments, amusements and pilgrims, special tax on land and buildings and other taxes. The stamp duty on transfer of certain immovable properties may be increased by one-half per cent by Government for payment to the Zilla Parishad.

The financial assistance given by the State Government includes 70 per cent of the land revenue collected within the area of the Parishad. When, however, the amount of land revenue payable falls short of the amount arrived at on the basis of two rupees *per capita* of the population of the district as appearing in the Census of 1961, an equalisation grant covering the difference will be paid to the Zilla Parishad. Government also pays what are called purposive grants being grants for specific works and development schemes transferred to the Zilla Parishad at the rate of not less than 75 per cent of the expenditure. An establishment grant equal to 75 per cent of the average annual cost on account of salaries and allowances is paid in respect of the posts held by the staff of Government transferred to the Parishad which are included in the District Technical Service (Class III) and District Service (Class III) and District Service (Class IV). The other grants include a deficit adjustment grant payable at full rates during the first five years and to be progressively reduced in the next ten years after which it will not be payable, incentive grants calculated to achieve speedier development and grants for plan schemes.

If in pursuance of the proposal of a Zilla Parishad or a Panchayat Samiti, a cess on land revenue at a rate in excess of the minimum rate prescribed by the Act

is levied by the State Government in the whole of the district or in a block, the Zilla Parishad or the Panchayat Samiti as the case may be shall be paid every year by the State Government a grant called the local cess matching grant.

The total revenue receipts of the Zilla Parishad for the year 1963-64 are Rs. 158·01 lakhs. The major portion of the receipts is of receipts from Government. They are 88·6 per cent and Zilla Parishad receipts are 11·4 per cent of the total revenue receipts. Major items of Zilla Parishad's receipts are local fund cess, cess on water rates and profession tax.

The total revenue expenditure is Rs. 157·66 lakhs. Following are the major items of expenditure :—

	Per cent
General Administration	5·0
Education	50·6
Community Development Project ..	8·2
Buildings and Communications ..	16·5
Miscellaneous	6·2
Other items	13·5

per capita expenditure of the Zilla Parishad on different developmental heads is as follows :—

	Rs.
General Administration	0·86
Education	8·61
Community Development	1·40
Buildings and Communications ..	2·81

The Zilla Parishad has raised the rate of the cess on land revenue to 55 naye paise per rupee of land revenue with effect from 5th October 1963.

Establishment

The establishment of the Zilla Parishad comprises of the gazetted and the non-gazetted staff. The non-gazetted staff consists of the employees of the former local bodies and those of the various State Government Departments now transferred to the Zilla Parishad.

There are 6 Class I and 34 Class II Gazetted Officers working under the Zilla Parishad. The total strength of the non-gazetted employees of Class III and IV category is 5,520. Moreover an establishment of 125 gram sevaks, 727 talatis and 128 Village Panchayat Secretaries has been transferred from the Revenue Department to the Zilla Parishad.

VILLAGE PANCHAYATS

The number of villages, the number of independent Village Panchayats, the number of group village panchayats and the number of inhabited villages covered by them are shown below for each block separately :—

Taluka	Block	No. of inhabited villages	No. of independent village panchayats	No. of group village panchayats	No. of villages covered by group village panchayats
(1)	(2)	(3)	(4)	(5)	(6)
1 Akot ..	Akot ..	136	27	42	143
	Telhara ..	115	20	37	99
2 Balapur ..	Balapur ..	87	33	19	66
	Patur ..	77	33	12	47
3 Akola ..	Akola ..	163	47	49	138
	Barshi Takli ..	135	37	48	126
4 Murtazapur ..	Murtazapur ..	134	26	40	81
	Karanja ..	129	31	37	155
5 Mangrulpir ..	Mangrulpir ..	114	20	38	70
	Manora ..	92	30	29	127
6 Washim ..	Washim ..	115	33	34	101
	Malegaon ..	110	38	30	61
	Risod ..	100	47	23	55
	Total ..	1,507	422	438	1,269

Note.—The figures in column 4 include forest villages and hamlets and hence the total of columns 4 and 6 will not tally with figures in column 3.

The break-up of the total annual income of all the Village Panchayats in the district for the year 1961-62 is as follows :—

Item	Amount (in'000)	Percentage of total income
	Rs.	
Grants	1,532	65·72
Taxes on Houses and Properties	126	5 41
Octroi	3	0 13
Other taxes	435	18 66
Total taxes	564	24 20
Income from other sources ..	235	10 08
Total Income	2,331	100·00

The first item includes the Government grant of 30 per cent of the land revenue collected in the village or one rupee per head of population whichever is more. The Village Panchayats also get the entire local fund cess collected in the village. At present it is collected at 20 nPs. per rupee of land revenue. The Village Panchayats can raise it with Government approval upto 100 nPs. per rupee of land revenue.

All the 860 Village Panchayats in the district have imposed taxes on houses and properties. 5 Village Panchayats have started collecting octroi. Others have not.

The break-up of the total annual expenditure of all the Village Panchayats in the district for the year 1961-62 is as follows :—

Item	Amount (in '000) Rs.	Percentage of total expenditure
Administration	3,02	18·31
Health and Sanitation ..	1,95	11·83
Public lighting	53	3 21
Other items	1,099	66 65
Total expenditure	1,649	100 00

Other items include improvement of village roads, construction of new drinking water wells or repairs to old wells, construction of Panchayat Ghar, Schools and such other buildings.

Functions of the Talati (Patwari), Village Panchayat Secretary and Assistant Gram Sevak are now combined in one official who now works under the Village Panchayat.

POPULATION

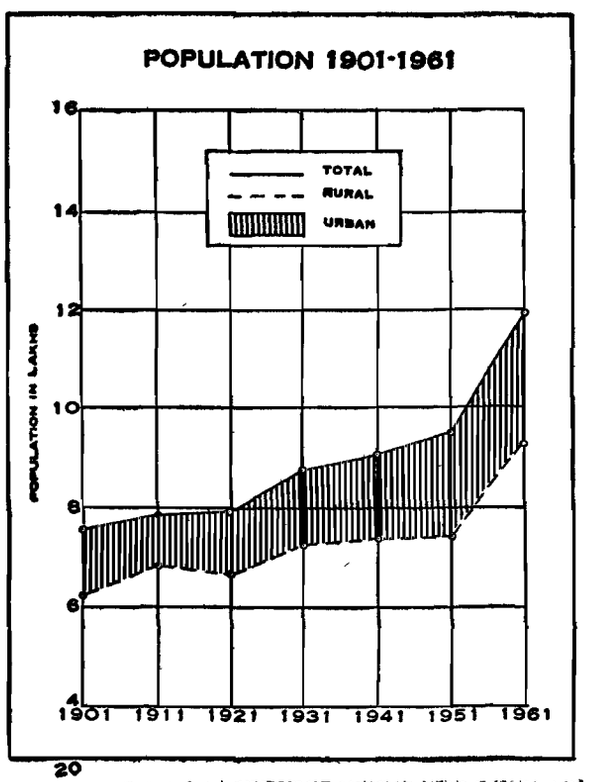

Table A-I in Part II shows the 1961 population of the district and each taluka for total, rural and urban areas separately. Definition of rural and urban areas may be seen in paragraphs 8 and 9 of the Explanatory Note to Part II. Table A-II shows the district population and its variation at each Census since 1901 and the variation in population for each taluka during 1951-61.

Variation

The population of the district and the decade variation rates since 1901 are as follows :—

Year	Population	Decade Variation	Rate of Variation
1901 ..	752,066	....	....
1911 ..	786,042	+33,976	+4·52
1921 ..	794,847	+8,805	+1·12
1931 ..	876,362	+81,515	+10 26
1941 ..	907,742	+31,380	+3 58
1951 ..	950,994	+43,252	+4 76
1961 ..	1,189,354	+238,360	+25 06

Figure below shows the total, rural and urban population of the district for the last seven Censuses.

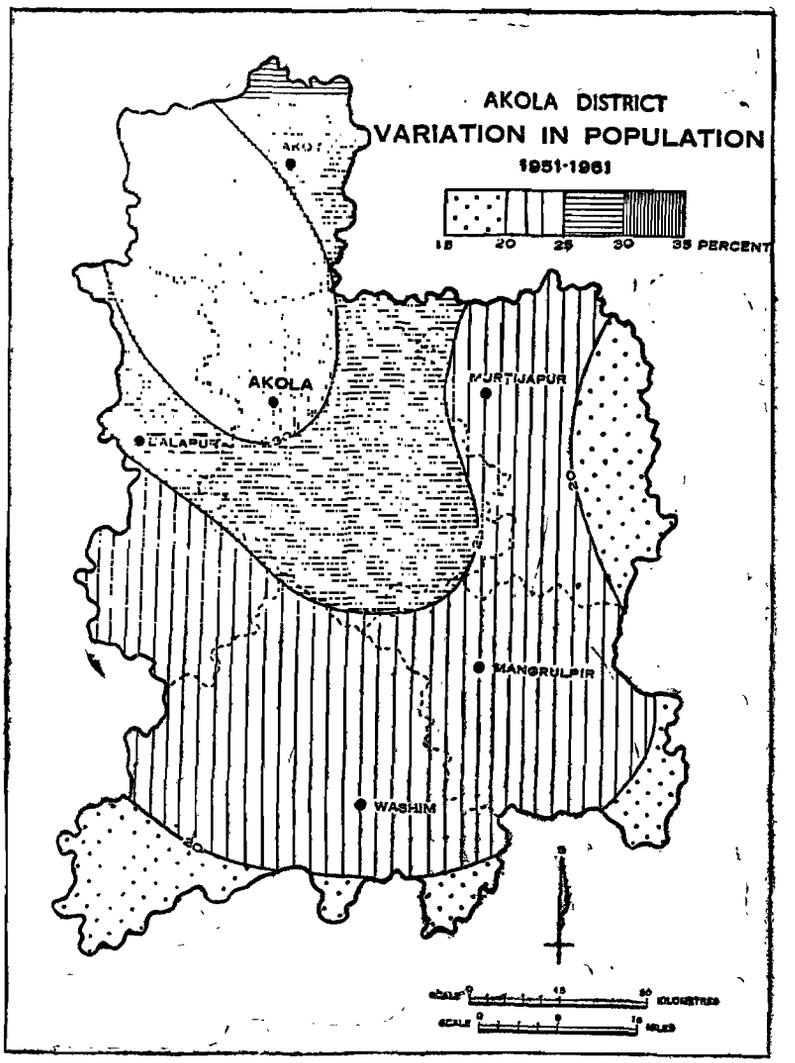

In the last decade (1951—61) the district population has suddenly departed from its slow rate of growth in the earlier fifty years and has increased at an extremely high rate. From 1901 to 1951 it had increased by 26 per cent but during only ten years after 1951 it has grown by more than 25 per cent. At this high rate the district population will double itself in less than 30 years.

During the decade 1901—11 the population of the district had increased by 4·52 per cent though there had not been any famine of the order of 1899 in the decade, scarcity conditions and repeated crop failure had affected the growth of the population. In the following decade in addition to the failure of crop in some years the influenza epidemic of 1918-19 took a heavy toll of life which is revealed by the small increase of 1·12 per cent in the population of the district in the decade 1911—21. Recovery from influenza epidemic and fairly good agricultural seasons in the decade 1921—31 led to an increase of 10·26 per cent in the population during that decade. In the following two decades the population almost remained stagnant. In those two decades the rates of variation were very low as compared to the other districts in Maharashtra. The last decade (1951—61) has however shown a spectacular growth of over 25 per cent in the population. In absolute numbers the addition in population during the last decade is larger than the total addition during the preceding fifty years. The growth of Akola City, the construction of the Khandwa-Hingoli Railway line and increase in trade and commerce and industries should be the main causes of the high rate of growth of course combined with the anti-malaria and other campaigns organised by the health department during the last decade.

The 1951—61 decade variation for the district and each taluka is as follows :—

	Percentage Variation 1951—61
AKOLA DISTRICT	+25·06
1 Akot Taluka	+30·82
2 Balapur Taluka	+25·07
3 Akola Taluka	+28·07
4 Murtazapur Taluka	+20·98
5 Mangrulpir Taluka	+23·10
6 Washim Taluka	+21·52

Figure to the right shows the areawise pattern of 1951—61 growth of population within the district. Akot taluka has recorded the highest variation rate (30·8 per cent) of growth and Murtazapur the lowest rate (21·0 per cent). The very high rate of variation in Akot taluka may be due to the construction of the Khandwa-Hingoli Railway line. Akola taluka has a variation of 28·1 per cent because of the rapid growth of Akola City included in this taluka.

The net percentage increase since 1901, 1921 and 1951 for the district and the State has been as follows :—

	Akola District	Maharashtra
1901—1961 ..	58·14	103·97
1921—1961 ..	49·63	89·71
1951—1961 ..	25·06	23·60

During the last sixty years the population of the district increased continuously though not at a high rate. In comparison with the average for Maharashtra, the population of the district increased at a slower rate. The growth during the last decade has however been at a higher rate even than the State average. At this rate of growth the population of the district will get doubled within 30 years.

Density of Population

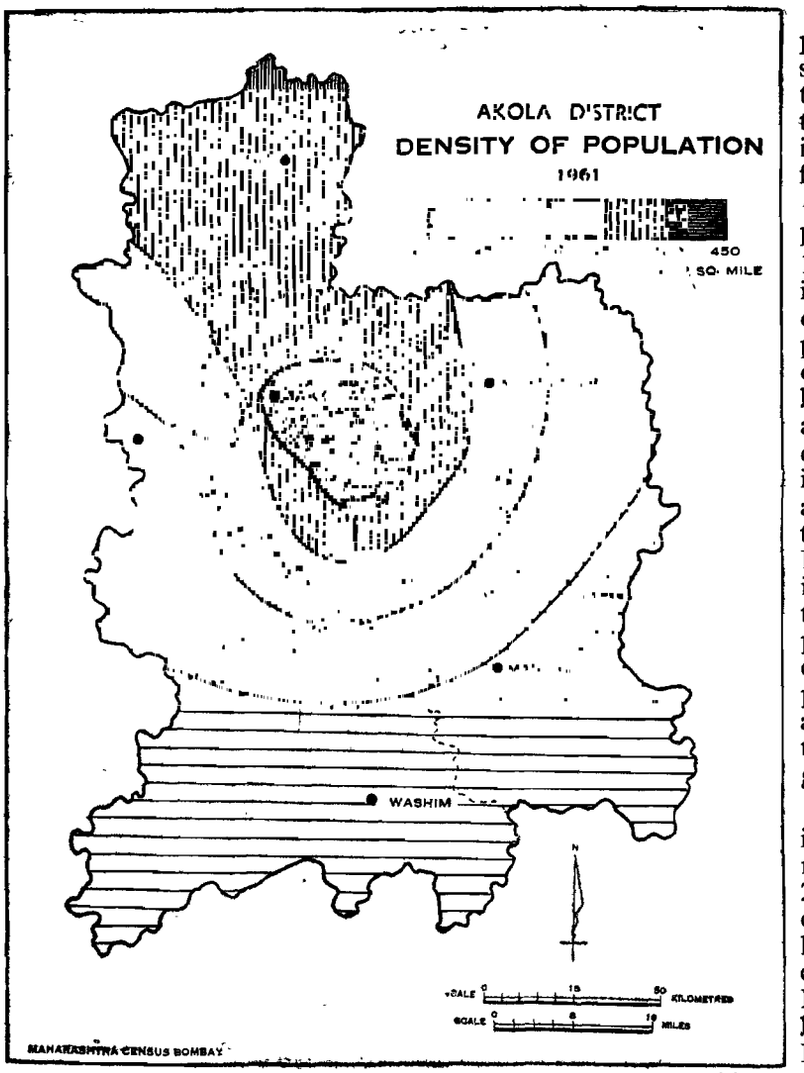

The densities for Maharashtra, Akola district and its talukas for 1951 and 1961 are as follows :—

	Density per square mile		Percentage of district population in 1961
	1951	1961	
MAHARASHTRA ..	271	334	....
AKOLA DISTRICT ..	232	291	100·00
1 Akot Taluka ..	267	350	16·17
2 Balapur Taluka ..	225	281	12·52
3 Akola Taluka ..	307	393	24·43
4 Murtazapur Taluka ..	236	286	14·67
5 Mangrulpir Taluka ..	179	220	11·39
6 Washim Taluka ..	195	237	20·82

Figure on page (11) shows the approximate contours of density of population in 1961 within the district.

In the area that now forms the Akola district, there were 184 persons per square mile in 1901, 194 in 1921 and 291 in 1961. Thus the density increased continuously since 1901 and sharply during the last decade. The district average of density was higher than Maharashtra up to 1931 but since then the average density has increased sharply for the State than that for the district.

Within the district, the density varies from 220 persons per square mile in Mangrulpir taluka to 393 in Akola taluka. The high density in Akola taluka is due to the inclusion of Akola City. Akot taluka has the most dense population in the district. It is so because of the very fertile soils and the predominance of labour intensive cultivation of cotton in its cropping pattern. The densities in Mangrulpir and Washim are comparatively lower because of more hilly terrain and comparatively lower proportions of rich soils.

In the Figure on page (9) the actual urban population of the district since 1901 is represented by the shaded portion between the two lines. The net growth in urban population of the district over that of 1901 is 110·98 per cent as against 246·96 per cent for the State.

Table above shows that Akola district is less urbanised than Maharashtra average. In 1901, district proportion was equal to that in the State. In 1961 the State proportion of urban population has increased to 28·22 per cent while that in the district has increased only to 22·10 per cent. The number of towns has reduced from 10 in 1951 to 9 in 1961 as Barshi Takli has in the 1961 Census been declassified and treated as a village because it did not fulfil the criteria used to define a town in the 1961 Census. There was no addition of any new town. The population of Barshi Takli, the declassified town, was 5,154 in 1951. If that population is excluded from the 1951 urban population the 1961 urban population would be higher by 28·16 per cent over 1951. The net increase of 25·02 per cent now seen in the table above thus appears to be lower because of the change in the definition of urban areas than the actual growth.

Akola City, the headquarters of the district, is the most important urban centre in the region. Its population has increased from 29,289 in 1901 to 115,760 in 1961 or by 295 per cent during the last sixty years. The town had all along been an important commercial centre. With the construction of the new Khandwa-Hingoli Metre Gauge Railway line, it has become an important railway junction. In addition, with the extension of the electric grid system and establishment of the Paras Thermal Station, and adequate supply of power, it has started industrial development in recent years. Its importance as an educational centre has also grown in recent years. Washim, Akot and Karanja are other important towns. Their populations have also doubled during the last sixty years.

Urban Population

Urban population of the district at each Census and its variation since 1901 are shown in Table A-IV in Part II. The same table also shows the variation in population for each town in the district. The number of towns, the rate of decade variation in urban population and the percentage of urban population to total population at each Census since 1901 for the district and the State are as follows :—

Year	Akola District			Maharashtra		
	No. of towns	Rate of variation in urban population	Percentage of urban population to total population	No. of towns	Rate of variation in urban population	Percentage of urban population to total population
1901	11	..	16·57	219	..	16·59
1911	12	−17·21	13·12	232	+0·99	15·13
1921	11	+25·00	16·22	238	+18·72	18·50
1931	11	+17·65	17·31	258	+15·54	18·60
1941	10	+13·34	18·94	266	+27·11	21·11
1951	10	+22 28	22·11	383	+62·42	28·75
1961	9	+25·02	22·10	266	+21·32	28·22

Rural Population

The rates of variation in rural population and the percentages of rural population to the total population of the district and the State since 1901 are as follows :—

Year	Akola District		Maharashtra	
	Rate of variation in rural population	Percentage of rural population to total population	Rate of variation in rural population	Percentage of rural population to total population
1901	....	83·43	....	83·41
1911	+8·83	86·88	+12·68	84·87
1921	−2·49	-83·78	−6·77	81·50
1931	+8·82	82·69	+14·77	81·40
1941	+1·54	81·06	+8·54	78·89
1951	+0·67	77·89	+7·72	71·25
1961	+25·08	77·90	+24·51	71·78

The net increase in rural population of the district has been 47·66 per cent over that of 1901 and 39·14 per cent over that of 1921. The corresponding figures for the State are 75·53 per cent and 67·08 per cent respectively.

The rate of variation in rural population given in the table on page (11) has never followed any trend. There had been an increase of 8·83 per cent in the rural population during 1901—11 though the total population had increased only by 4·52 per cent. In the following decade though the total population increased by 1·12 per cent the rural population actually decreased by 2·49 per cent. This was due to the increase in urban population during the post First World War years and the boom in cotton trade. The last decade has however shown a very high rate of growth in the rural population. The proportion of rural population in the district decreased from 83·43 in 1901 to 77·90 in 1961. In the same period the percentage of rural population decreased from 83·41 to 71·78 in the State.

Size of Villages

Table A-III in Part II shows for the district and for each taluka the number of villages and their population for each class of villages. The distribution of population by size of villages for the district and the State is as follows :—

Size Class	Akola District		Maharashtra	
	Percentage of number of villages to total number of villages	Percentage of population to total rural population	Percentage of number of villages to total number of villages	Percentage of population to total rural population
Less than 500 ..	57·43	22·39	47·72	15·02
500—999 ..	27·05	30·56	28·55	25·71
1,000—1,999 ..	11·14	24·68	16·62	28·55
2,000—4,999 ..	3·85	16·37	6·18	22·40
5,000 and over ..	0·53	6·00	0·93	8·32

52·95 or nearly half of the rural population lived in villages with population of less than 1,000. Those villages made 84·48 per cent of the total number of villages in the district. Thus compared to the State averages, the district rural population is residing more in small villages.

The area, number of inhabited villages, total rural population, average population per village, and the number of villages per 100 sq. miles of rural area are shown for the State, district and each taluka separately :—

State/District/Taluka	Area in sq. miles (Rural)	No. of inhabited villages	Rural population	Average population per inhabited village	No. of inhabited villages per 100 sq. miles of rural area
(1)	(2)	(3)	(4)	(5)	(6)
MAHARASHTRA	115,736·3	35,851	28,391,157	792	31
AKOLA DISTRICT	4,014·6	1,507	926,521	614	38
1 Akot Taluka	532·9	251	153,270	611	47
2 Balapur Taluka	503·8	164	123,141	751	33
3 Akola Taluka	732·7	298	174,774	586	41
4 Murtazapur Taluka	604·0	263	128,865	488	44
5 Mangrulpir Taluka	611·5	206	125,333	608	34
6 Washim Taluka	1,029·7	325	221,138	680	32

Average population per village in 1961 in the district is 614 against the average of 792 in Maharashtra. Within the district the average population per village varies from 488 in Murtazapur taluka to 751 in Balapur taluka. The number of villages per 100 sq. miles of rural area is 38 in the district and 31 in Maharashtra.

The number of villages per 100 sq. miles of rural area varies within the district from 32 in Washim taluka to 47 in Akot taluka.

Age Distribution

Tables C-II and C-IV in Part II show the distribution of the district population by five year age-groups and by single year ages, respectively. Broad age-groups are also shown in Tables B-I, B-II and C-III. The proportions of population by broad age-groups in 1961 are shown below separately for males and females compared with the corresponding proportions for 1951 :—

Age-groups	Percentages of population by age-groups			
	1951		1961	
	Males	Females	Males	Females
0—4 ..	12·85	13·67	15·56	15·96
5—14 ..	24·49	25·02	24·44	24·75
0—14 ..	37·34	38·69	40·00	40·71
15—34 ..	33·24	32·77	31·86	33·28
35—59 ..	24·43	22·54	22·93	20·27
15—59 ..	57·67	55·31	54·79	53·55
60+ ..	4·99	6·00	5·21	5·74
Total ..	100·00	100·00	100·00	100.00

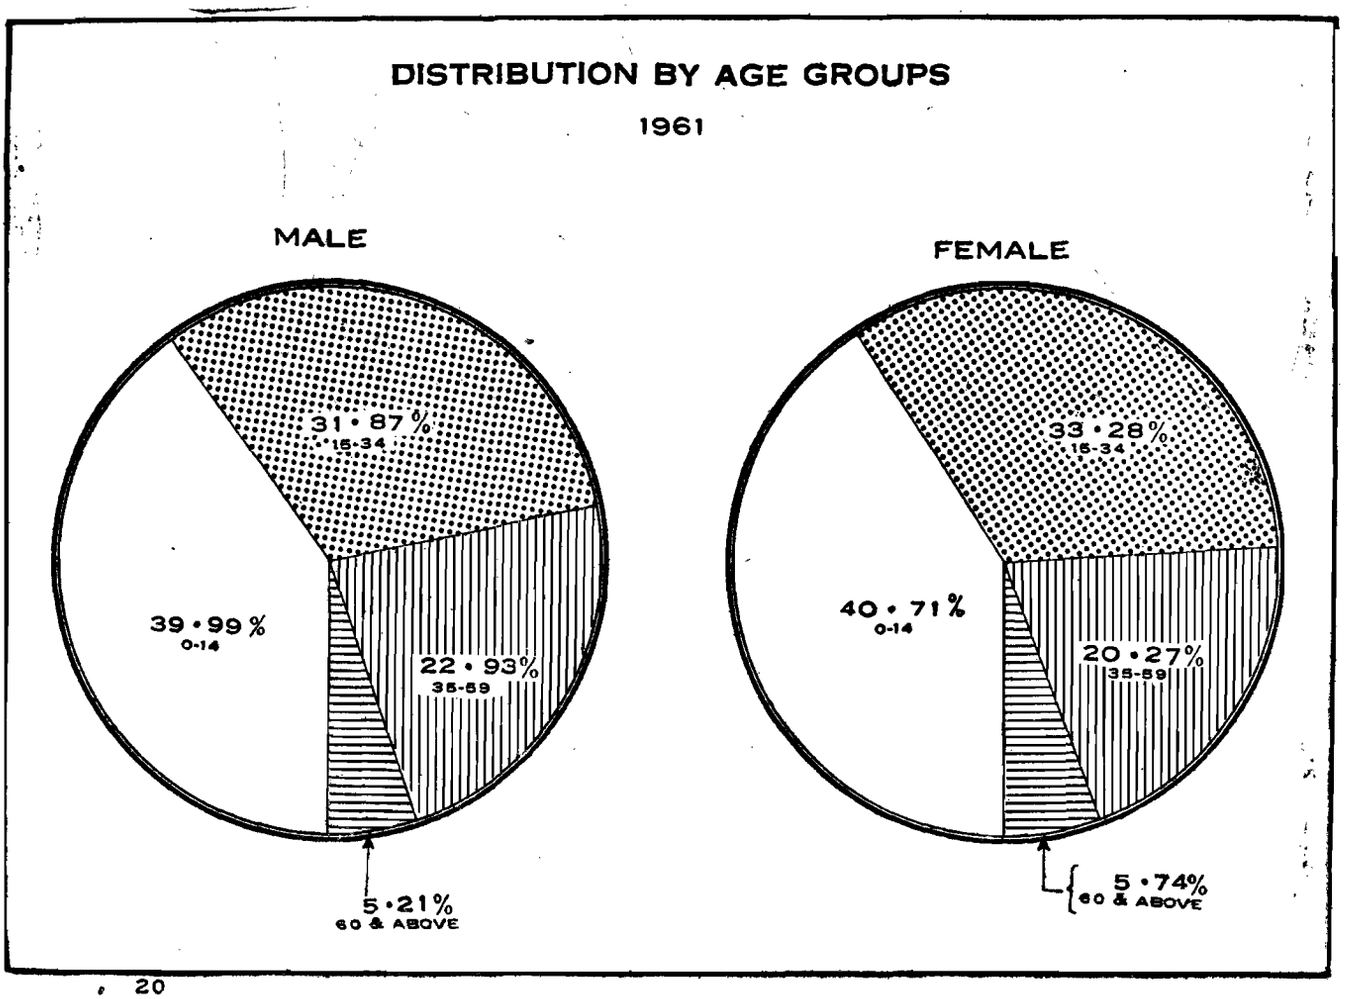

Figure below shows the distribution of the district population by broad age-groups for males and females separately.

During the last decade the population of children aged 0—4 increased from 12·85 to 15·56 per cent for males and from 13·67 to 15·96 per cent for females. The same trend occurred for age-group 0—14. It may be due to a higher fertility and an improved survival rate or reduced infantile mortality. Similarly the proportion of the population aged 60 and over also recorded an increase for males though the same slightly decreased for females. Consequently the proportion of the population in age-group 15—59 decreased for both males and females. The proportion of males in the age-group 15—59 is higher than that of females. Rural and urban age-structure of females is more or less similar but not so for males. The urban population has a larger proportion in age-group 15—59. The proportion of aged (60+) is a little higher in rural than in urban areas for both the sexes.

Dependency Ratio

The ratio between dependents (age-groups 0—14 and 60+) and 100 of supporting (age-group 15—59) population has an economic significance. The dependency ratios and their two components of youth (0—14) and aged (60+) groups are shown below for 1951 and 1961 for the district and the State, separately :—

	Akola District			Maharashtra		
	Youth	Aged	Total	Youth	Aged	Total
1951 Total ..	67·3	9·7	77·0	69·9	9·3	79·2
1961 Total ..	74·4	10·1	84·5	75·2	9·7	84·9
Rural ..	75·1	10·2	85·3	80·6	10·8	91·4
Urban ..	72·3	9·6	81·9	63·1	7·3	70·4

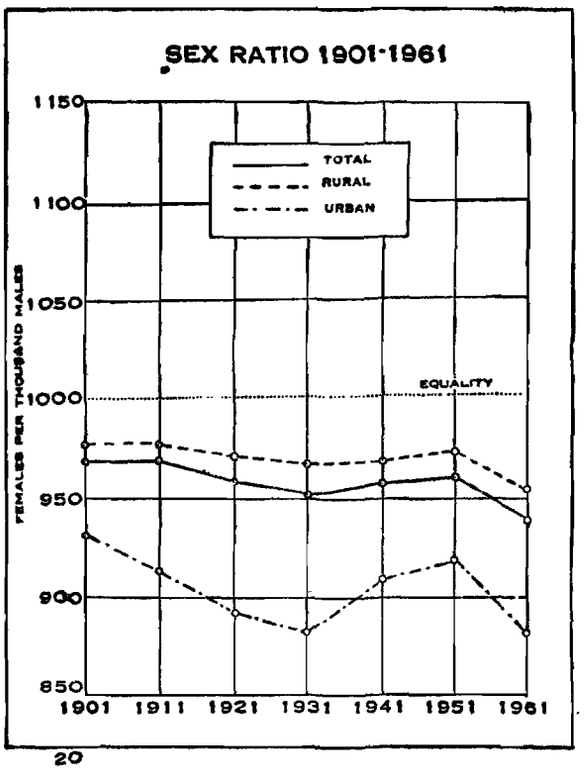

There is an increase in the dependency ratio for Akola district and Maharashtra in 1961 as compared to that in 1951 for both youth and aged. The youth dependency ratio is much higher than that for aged. The increase in the dependency is the result of high fertility and declining mortality. Such a trend leads to a more youthful population. The dependency load is more in rural than in urban areas. It is the effect of differences in age structures of rural and urban population described earlier. An average worker in 1961 has thus to bear a larger load of dependents than that of 1951.

Sex Ratios

The following have been the sex ratios (number of females per 1,000 male population) for the district and the State since 1901 for total, rural and urban areas separately :—

	Akola District			Maharashtra		
	Total	Rural	Urban	Total	Rural	Urban
1901 ..	968	976	931	978	1,002	866
1911 ..	968	976	913	966	1,000	796
1921 ..	958	971	892	950	994	776
1931 ..	952	967	883	947	987	790
1941 ..	957	968	909	949	990	810
1951 ..	960	973	918	941	1,000	807
1961 ..	938	954	881	936	995	801

Figure below shows the variation in sex ratios since 1901 for the district total, rural and urban areas separately :—

Since 1901 the sex ratio of the population of the district fluctuated between 938 and 968 compared to that of Maharashtra which varied between 936 and 978. In 1901, Akola district had a lower sex ratio than Maharashtra. Since then at every Census the sex ratio of both the units followed the same pattern, Maharashtra having lower sex ratios than those of the district. The low average of the sex ratio for the State is due to the more urbanised Bombay and Poona Divisions. There may have been some in-migration of males in Akola district also. The sex ratio went on falling till 1931. It recovered in 1941 and recovered further in 1951. The 1961 Census has recorded the lowest ever sex ratio since 1901 both in the district as well as in the State.

Following are the sex ratios for different age-groups of population for the district total, rural and urban areas separately :—

Age-groups	Total	Rural	Urban
0—14	954	959	937
15—34	979	1,021	853
35—59	829	837	800
60+	1,031	1,041	995
All Ages	938	954	881

The small difference in the rural-urban sex ratios for age-group 0—14 may be due to movement of boys to towns for education. The rural-urban difference is the largest for age-group 15—34 because of the migration of boys for education and employment. The rural-urban disparity is reduced for 35—59 and 60+ age groups suggesting that in those groups majority of men live along with their families even in urban areas.

The following are the sex ratios for each taluka in the district for total, rural and urban areas separately :—

	Total	Rural	Urban
AKOLA DISTRICT ..	938	954	881
1 Akot Taluka ..	932	941	896
2 Balapur Taluka ..	947	956	905
3 Akola Taluka ..	909	946	854
4 Murtazapur Taluka .	935	947	903
5 Mangrulpir Taluka ..	959	962	934
6 Washim Taluka ..	961	969	900

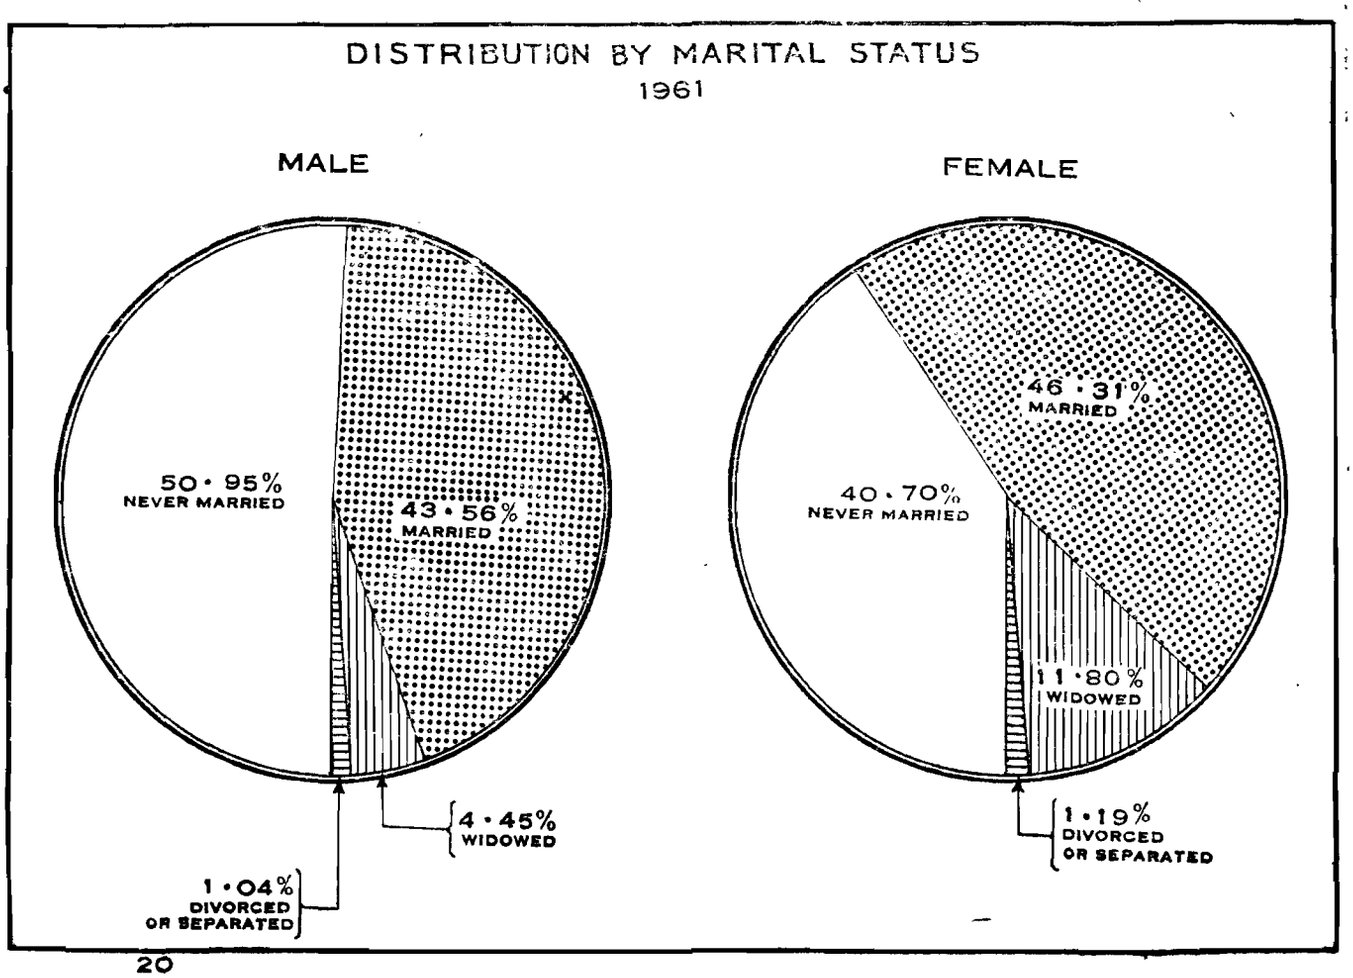

Urban sex ratios are lower than rural. Akola taluka which includes Akola City has the lowest sex ratio (909). Washim taluka which is more rural has the highest sex ratio (961). Rural sex ratio is lowest in Akot taluka (941) perhaps because of immigration of a large number of male agricultural labourers from outside. The rural-urban differentials within the taluka are more striking than the differences from taluka to taluka.

Marital Status

Table C-II in Part II shows the distribution of population by marital status by five-year age-groups. The percentages of population for broad age-groups classified by marital status compared to those of 1951 are shown on the next page.

Figure on page (15) shows the distribution of the district population by marital status for males and females separately.

Year	Age-group	Total	Marital Status							
			Never Married		Married		Widowed		Divorced or separated	
			Males	Females	Males	Females	Males	Females	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
1951	0—14	100	98·85	89·93	1·08	9 84	0·05	0·19	0·02	0·04
	15—34	100	33·57	6·38	62·93	88·22	3·03	4·73	0·47	0·67
	35—54	100	2·20	0·21	85·07	69·53	11·93	29·90	0·80	0·36
	55 +	100	1·24	0·16	72·64	26·95	25·72	72·74	0·40	0·15
	All Ages	100	48·64	36·94	45·45	49·02	5·54	13·72	0·37	0·32
1961	0—14	100	99·18	95·62	0·80	4·23	0·01	0·05	0·01	0·10
	15—34	100	33·84	5·00	62·23	90·06	2·10	2·57	1·83	2·37
	35—54	100	1·90	0·20	87·04	71·26	9·28	26·82	1·78	1·72
	55 +	100	1·05	0·18	73·50	21·89	24·28	77·27	1·17	0·66
	All Ages	100	50·95	40·70	43·56	46·31	4·45	11·80	1·04	1·19

During the decade the proportion of single (never married) increased for both the sexes. The proportion of widowed also is reduced. The proportion of divorced or separated is on the increase but yet insignificant. Consequently the proportion of married decreased for both males and females. The changes in marital status are similar for males and females. The proportion of married is higher in rural than in urban areas. The proportion of widowed is almost same in rural and urban areas. The proportion of single (never married) is more in urban areas. It may be partly explained by a higher age at marriage in urban areas. The proportions of never married both among the males and females in 0—14 years age-group are lower in 1961 than those in 1951. The reduction among females is really significant. It would indicate an increase in the age at marriage for girls.

Child Woman Ratio

The following table will show child woman ratios for 1951 and 1961, i.e., the number of children 0—4 years age-group per 1,000 women of 15—44 years age-group as well as for every 1,000 married women of 15—44 years age-group. The proportion of widows of 15—44 years age-group to 1,000 married women of 15—44 years age-group is also shown for comparison:—

	No. of Children 0—4 years age-group per 1,000 women of 15—44 years age-group	No. of Children 0—4 years age-group per 1,000 married women of 15—44 years age-group	No. of Widows per 1,000 married women (both in 15—44 years age-group)
1951 District Total ..	604	710	113
1961 District Total ..	740	843	68
Rural ..	744	838	70
Urban..	726	861	63

Over the decade the child woman ratio (CWR) has increased by 25 per cent. In 1961, the CWR is higher in rural than in urban areas. But if the ratio is considered in relation to currently married women only, it is higher in urban areas.

The number of widows per 1,000 married women in the age-group 15—44 decreased from 113 in 1951 to 68 in 1961. There has thus been a significant decrease in the incidence of widowhood over the decade.

Migration

The 1961 Census showed the proportions of population enumerated at place of birth and other places as given below.

56·46 per cent persons were enumerated at their place of birth. 26·90 per cent of the population was enumerated at other places than their place of birth but within the district. This itself is an index of the movement of the population within the district. Inmigration from outside the district and outside the State also have sizable proportions. 14·39 per cent of the population in the district is born outside the district but within Maharashtra and 2·25 per cent is born outside Maharashtra. The pattern of distribution of population by place of birth is almost the same as for the other districts of Maharashtra except for a higher proportion of people born in other districts of Maharashtra.

The percentage distribution of males and females by place of birth explains some of the probable causes of migration. The movement within the district is mainly of females because of marriage. This is so also for those born outside the district but in Maharashtra. On the other hand, migrants from outside Maharashtra have preponderance of males.

Proportions of Population by places of birth

——	Total population	Place of enumeration	Elsewhere in the district	Outside the district but in Maharashtra	Outside Maharashtra
(1)	(2)	(3)	(4)	(5)	(6)
Persons	1,189,354	669,843	319,204	170,710	26,661
Males	613,832	415,512	116,618	64,750	15,601
Females	575,522	254,331	202,586	105,960	11,060
Percentage to total population—					
Persons	100·00	56·46	26·90	14·39	2·25
Males	100·00	67·84	19·04	10·57	2·55
Females	100·00	44·31	35·30	18·46	1·93

The sex ratios in the district population by five-year age-groups for total, rural and urban areas are as follows :—

Age-group	Sex Ratios		
	Total	Rural	Urban
All Ages ..	938	954	881
0—4 ..	962	962	964
5—9 ..	990	992	982
10—14 ..	897	912	853
15—19 ..	937	1,012	742
20—24 ..	1,125	1,191	942
25—29 ..	980	1,005	895
30—34 ..	871	879	844
35—39 ..	839	842	827
40—44 ..	861	884	781
45—49 ..	807	809	802
50—54 ..	834	839	814
55—59 ..	769	774	749
60 + ..	1,031	1,041	995

Sex ratios by five-year age-groups for total, rural and urban population of the district show that the rural-urban differentials are less in younger and older age-groups. The rural sex ratio is higher than urban in all age-groups except in the age-group 0—4. This should indicate an increasing movement of boys for schooling in urban areas up to age-group 15—19 than of male workers for work in age-group 15—59.

The rural-urban differentials are very high in age-group 20—24. Sex ratios of 20—24 age-group probably reveal the rural-urban movement of adult males both for education and jobs. Low sex ratio for the age-group 55—59 may partly be the effect of mis-reporting of age near 60 as 60 by females. The sex ratio attains a balance in the old age-group. May be because the male migrants return to their usual places of residence.

The percentage distribution of male population born at the place of enumeration, born elsewhere within the district and born outside the district by nine categories of economic activity and of non-workers is shown below. An explanation of the nine categories will be found in the Explanatory Note to Part II, paragraphs 42 to 52.

The proportion of non-workers is less in the migrants. The proportion of workers engaged in cultivation is also lower among the migrants. They are engaged more as agricultural labourers and in the non-agricultural sector. The direction and composition of seasonal movement of population in the district may be studied from the differences in the two population figures obtained in the 1961 Census for October 1960 and March 1961. Accounting for the timelag of five months and the natural growth at the decade average rates, it is seen that the district population in March 1961 was less than that of October 1960 by six thousands, three thousands in urban and three thousands in rural areas. The shortage is spread over all the talukas except Balapur. The shortage in Akola taluka is two thousands and in all the other talukas excepting Mangrulpir taluka it is one thousand each.

These shortages can arise in two ways. Firstly the seasonal movement may be starting before October towards the district for work on cotton fields. These seasonal migrants may be returning soon after cotton harvesting is over. Urban areas also should be attracting some additional labour during the period when market arrivals of cotton are high. The reverse movement perhaps starts before March. Not only those who had come for work on cotton fields from outside would return, but also a large number of petty cultivators and agricultural labourers from the district would be moving out for work as soon as cotton harvesting is over. What we see in figures is an indication of the net result of these seasonal movements between the two dates.

Strangely enough the sex ratio in the district population in October 1960 is 942 against 938 in March 1961. It means that more males come in the district between October and March. Further enquiries are, however, necessary to confirm these trends to describe the areas or directions of those seasonal movements.

	Categories of Workers									Non-workers
	I	II	III	IV	V	VI	VII	VIII	IX	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
District Total	20·15	22·09	0·80	1·70	2·21	0·67	3·35	1·60	5·40	42·03
Born at place of enumeration ..	22·56	20·80	0·60	1·27	1·46	0·41	2·51	0·82	2·92	46·65
Elsewhere in the district	17·80	29·23	0·96	1·87	2·51	0·91	3·28	1·75	8·59	33·10

Size of the Household

Table C-I-A in Part II shows the proportion of sample households classified by size. Percentage proportions of different types of households are as follows :—

	Total	Rural	Urban
Single member ..	8·74	8·52	9·57
2—3 Members ..	27·47	27·57	27·07
4—6 Members ..	43·89	45·06	39·41
7—9 Members ..	15·33	14·92	16·97
10 Members and more..	4·57	3·93	6·98
All sizes .	100·00	100·00	100·00

8·74 per cent of the sample households are single member households. Households with 4 to 6 members are more common than others and account for 43·89 per cent. The percentage distribution of the rural and urban households by their size reveals that single member households are more common in urban than in rural areas. The large sized households also have a higher percentage in urban than in rural areas. It is surprising that 6·98 per cent of the urban households have 10 or more members compared to 3·93 per cent for the rural households of the same size. The average size of the household (on sample basis) is 4·7 for the district. It is 4·6 for rural areas and 4·9 for urban areas.

Household Composition

Table C-I-B in Part II shows the distribution of the sample households by the type of their composition. The percentage distribution of population of sample households by relationship for the district is shown below.

The composition of sample households given in table below shows that 38·39 per cent of the males are the heads of households as against 3·50 per cent of the females. Married sons formed 6·35 per cent of the total males. 50·37 per cent males and 50·28 per cent females, which incidentally formed the larger group, are never married, widowed or divorced relations, essentially the majority of them are the unmarried children of the head. Percentages of unrelated persons are 0·92 for males and 0·22 for females. Nearly 33 per cent of the females are spouses of the heads. High percentage of females in other married relations represents the daughters, sisters and daughters-in-law of the heads. The difference in the pattern of the household composition of rural and urban households is the higher percentage of never married, widowed or divorced relations in urban areas and also the low percentage of married sons. Unrelated persons constituted a higher percentage in urban households.

Percentage distribution of population of sample households by relationship.

	Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1. Heads of households	38·39	3·50	39·14	3·50	35·79	3·49
2. Spouses of heads of households	0·05	33·32	0·05	33·85	0·06	31·34
3. Married sons	6·35	....	6·65	....	5·31	....
4. Other married relations	3·92	12·68	3·82	12·91	4·25	11·87
5. Never married, widowed or divorced relations ..	50·37	50·28	49·67	49·58	52·79	52·86
6. Unrelated persons	0·92	0·22	0·67	0·16	1·80	0·44

Population Projections

On the basis of analysis of demographic data obtained in the 1961 Census, Professor K. V. Ramachandran of the Demographic Training and Research Centre, Chembur, Bombay, has on our request worked out projections for the total population, population in school-going ages (6—11 years) and the labour force (15—59 years) for the district for the years 1966, 1971, 1976 and 1981. His projected estimates are shown in the next column.

		Total population (in '000)	Population in school-going ages 6—11 (in '000)	Labour force age-group 15—59 (in '000)
Actual	1951 ..	951	143*	540*
Actual	1961 ..	1,189	186	644
Projected	1966 ..	1,366	220	725
Projected	1971 ..	1,551	256	813
Projected	1976 ..	1,759	295	910
Projected	1981 ..	1,994	339	1,022

* Estimated figures taken from 1951 Sample Census Table.

LANGUAGES

Table C-V in Part II shows the population by nine major languages for the district and each taluka and town separately. The distribution of languages by rural and urban areas of the district is as follows:—

Language	Percentage to total population			Percentage of each language in	
	Total	Rural	Urban	Rural areas	Urban areas
(1) Banjari ..	4·01	5·14	0·02	99·89	0·11
(2) Gujarati ..	0·85	0·19	3·14	17·84	82·16
(3) Hindi ..	5·51	2·91	14·69	41·09	58·91
(4) Korku ..	0·27	0·34	..	100·00	..
(5) Marathi ..	76·58	83·51	52·18	84·94	15·06
(6) Sindhi ..	0·57	0·01	2·53	1·73	98·27
(7) Pardhi ..	0·09	0·12	0·02	96·42	3·58
(8) Telugu ..	0·67	0·45	1·42	52·76	47·24
(9) Urdu ..	10·98	6·99	25·08	49·54	50·46
(10) Others ..	0·47	0·34	0·92	56·63	43·37
All Languages ..	100·00	100·00	100.00	77·90	22·10

Marathi is the principal language and is the mother-tongue of 76·6 per cent. of the population. In rural areas Marathi speakers account for 83·5 per cent. They make only 52·2 per cent. of population in urban areas. Urdu has the second largest number of speakers. It makes about 11 per cent of the total population of the district. It is spoken more in urban areas where its speakers make as much as 25·1 per cent against 7 per cent for rural areas. Hindi is numerically the third important language. It makes 5·5 per cent of the total population of the district. It is spoken more in urban areas where its speakers make as much as 14·7 per cent against nearly 3 per cent in rural areas. The speakers of Banjari make more than 4 per cent of the total population of the district. The speakers of Urdu, Hindi, Gujarati and Sindhi are largely concentrated in urban areas of the district.

The comparative positions of the languages in 1901, 1951 and 1961 are as follows :—

Language	Percentage to total population		
	1901	1951	1961
(1) Banjari ..	..	2·99	4·01
(2) Gujarati ..	0·97	0·88	0·85
(3) Hindi ..	3·84	5·14	5·51
(4) Korku ..	0·03	0·32	0·27
(5) Marathi ..	83·30	78·89	76·58
(6) Sindhi ..	..	0·49	0·57
(7) Pardhi ..	..	0·08	0·09
(8) Telugu ..	0·61	0·58	0·67
(9) Urdu	8·57	9·89	10·98
(10) Others ..	2·68	0·74	0·47
All Languages ..	100·00	100·00	100·00

The proportion of Marathi speakers has decreased from 83·3 per cent in 1901 to 78·9 per cent in 1951 and to 76·58 per cent in 1961. It may be partly due to more and more persons from among the Muslims and Banjaras who might have returned Urdu and Banjari as mother-tongue in the returning in the 1961 Census. The percentage of Urdu speakers increased from 8·6 per cent to 9·9 per cent during 1901 to 1951 and to 10·98 per cent in 1961. The proportion of Hindi speakers increased from 3·8 per cent to 5·1 per cent from 1901 to 1951 and remained somewhat constant in 1961. Banjari, Sindhi and Pardhi languages were not reported in 1901. The proportion of Banjari speakers has however increased from 3 per cent in 1951 to 4 per cent in 1961.

RELIGIONS

Table C-VII in Part II shows the population by religions for the district and each taluka and town separately. The distribution of religions by rural and urban areas of the district is as follows:—

Religion	Percentage to total population			Percentage of each religion in	
	Total	Rural	Urban	Rural areas	Urban areas
(1) Buddhists ..	16·66	19·53	6·53	91·33	8·67
(2) Christians ..	0·19	0·10	0·49	42·65	57·35
(3) Hindus ..	70·65	72·42	64·41	79·86	20·14
(4) Jains ..	0·89	0·47	2·38	40·75	59·25
(5) Muslims ..	11·55	7·46	25·98	50·29	49·71
(6) Others ..	0·06	0·02	0·21	23·24	76·76
All Religions ..	100·00	100·00	100 00	77·90	22·10

70·65 per cent population reported their religion as Hindu. Muslims are 11·55 per cent. but only 7·5 per cent in rural areas and 25·98 per cent in urban areas. Buddhists account for 16·7 per cent of the total population of the district. In rural areas their percentage is 19·5 per cent against 6·5 per cent in urban areas. Muslims, Christians and followers of other religions are similarly more concentrated in urban areas. The Hindus and Buddhists are more numerous in rural areas.

The comparative position of the religions in 1901 and 1961 is as follows:—

Religion	Percentage to total population	
	1901	1961
(1) Buddhists	....	16·66
(2) Christians	0·09	0·19
(3) Hindus	89·85	70·65
(4) Jains	0·89	0·89
(5) Muslims	8·75	11·55
(6) Others	0·42	0 06
All Religions	100·00	100·00

The proportion of Christians increased from 0·09 per cent to 0·19 per cent during 1901 to 1961. Jains have the same percentage over the last sixty years. The proportion of Muslims increased from 8·8 per cent to 11·6 per cent during the last sixty years. The percentage of Hindus decreased by 19·2 per cent because a large number of persons belonging to Hindu Scheduled Castes have in the 1961 Census returned their religion as Buddhist or Nav-Bauddha. The combined proportion of Hindus and Buddhists has also decreased by 2·54 per cent and the corresponding increase is of Muslims exclusively.

Sex ratios for each religion are as follows :—

Buddhists 987, Christians 947, Jains 936, Hindus 935, Muslims 886 and all religions 938.

The sex ratios are dependent upon the rural-urban proportions of the respective populations and do not necessarily indicate the comparative volume of migration from among the different groups.

SCHEDULED CASTES

Table SCT-I Part—A in Part II shows the population and its distribution by workers and non-workers for each Scheduled Caste for the district and each taluka separately. Actually, 17 castes are notified as Scheduled Castes but only 14 are reported in the district in 1961.

The distribution of the Scheduled Castes population by rural and urban areas is shown in the table below.

The remaining three Scheduled Castes for which no one was returned in the district in 1961 are as follows :—

(1) Bahna. (2) Balahi. (3) Sansi.

Out of the fourteen Scheduled Castes enumerated in the district, the largest number is of Mangs with 30,701 persons. The second and the third largest groups are of Chambhars and Mahars with 12,499 and 6,432 persons respectively. Bhangi is fourth largest group with a population of 2,286. The remaining ten Scheduled Castes together have 3,945 population which makes less than half per cent of the total population of the district. Dom, Ganda, Ghasi, Katia and Madgi castes together have only 92 persons.

The comparative position of the Scheduled Castes population in 1951 and 1961 within the district was as follows :—

	Percentage to total population in		
	Total area	Rural areas	Urban areas
All Scheduled Castes—			
1951	21·04	24·35	9·37
1961	4·70	4·77	4·42

The proportion of Scheduled Castes has decreased substantially from 21·04 in 1951 to 4·70 in 1961. It is the result of a large number of persons from Mahars returning their religion in 1961 Census as Buddhist or Nav-Bauddha. Due to the change of religion they are not treated as Scheduled Castes, as the Constitution recognises Scheduled Castes from Hindu and Sikh religions only. The combined population of the Scheduled Castes and Buddhists in 1961 makes 21·36 per cent of the total district population against 21·04 per cent of Scheduled Castes in 1951.

Name of Scheduled Caste	Population		Percentage to total population of the district	Percentage of each Scheduled Caste population in	
	Males	Females		Rural Areas	Urban Areas
(1)	(2)	(3)	(4)	(5)	(6)
*All Scheduled Castes	28,364	27,502	4·70	79·19	20·81
(1) Basor	65	54	0·01	16·81	83·19
(2) Bedar	59	50	0·01	92·66	7·34
(3) Bhangi	1,246	1,040	0·19	11·90	88·10
(4) Chambhar	6,394	6,105	1·05	75·07	24·93
(5) Dohor	588	554	0·10	60·33	39·67
(6) Dom	7	8	N	20·00	80·00
(7) Ganda	17	7	N	....	100·00
(8) Ghasi	1	4	N	100·00	....
(9) Kaikadi	429	449	0·07	84·17	15 83
(10) Katia	17	17	N	100·00	....
(11) Khatik	797	808	0·14	79·19	20·81
(12) Madgi	7	7	N	100·00	.. .
(13) Mahar	3,386	3,046	0·54	75·17	24·83
(14) Mang	15,350	15,351	2·58	87·53	12·47

*Inclusive of persons from the Scheduled Castes who have not stated their individual castes. N=Negligible.

Literacy

Tables SCT-III—Parts A (*i*) and B (*i*) in Part II show the literacy and educational levels for each Scheduled Caste.

The percentages of literacy for the district total population, all Scheduled Castes and each Scheduled Caste are as shown in the table below.

The males of the Scheduled Castes are not much behind in literacy than the general population of the district. Their females are, however, comparatively behind. Compared to the other three major castes the Mangs who are numerically the largest Scheduled Caste in the district do not seem to have made much progress in literacy. In general, the Scheduled Castes appear to be taking advantage of the educational facilities and concessions available in the district.

Name of Scheduled Caste	Percentage of Literacy					
	Rural			Urban		
	Total	Males	Females	Total	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)
District Average	27·29	41·20	12·73	44·97	57·07	31·25
All Scheduled Castes	15·56	26·71	4·29	25·01	38·15	10·39
(1) Basor	25·00	16·67	37·50	51·52	66·04	34·78
(2) Bedar	5·94	5 77	6·12	12·50	14·29	No literates
(3) Bhangi	24·63	41·61	4·07	20·95	33·18	6·32
(4) Chambhar	22·99	37·47	8·04	30·26	45·09	14·05
(5) Dohor	18·43	31·49	5·49	24·72	38·78	8·17
(6) Dom	33·33	100·00	No literates	50·00	100·00	No literates
(7) Ganda	....	....	....	62·50	70·59	42·86
(8) Ghasi	No literates			....	....	....
(9) Kaikadi	15·43	23·72	7·07	19·42	31·03	11·11
(10) Katia	20·59	23·53	17·64	....	....	....
(11) Khatik	25·18	37·56	12·34	23·05	36·67	11·96
(12) Madgi	21·43	42·86	No literates	....	....	....
(13) Mahar	20·35	35·32	4·81	44·02	59·59	22·70
(14) Mang	11·51	20·66	2·40	14·36	24·01	4·49

Economic Activity

The industrial classification of persons at work and non-workers for the district average, all Scheduled Castes and for each Scheduled Caste is as shown in the next column.

The labour participation rate among the Scheduled Castes is higher than that of the total population. The proportion of cultivators is much lower and those of agricultural labourers and non-agricultural workers are higher than the district averages. This is due to the association of the Scheduled Castes with certain services as well as to a fewer persons owning lands amongst them.

	Percentage of workers in categories			
	Cultivator	Agricultural Labourer	All other activities	Non-workers
District Average	16·80	23·22	9·19	50·79
All Scheduled Castes	6·50	36·36	12·90	44·24
(1) Basor	1·68	1·68	24·37	72·27
(2) Bedar	8·26	47·71	..	44·03
(3) Bhangi	0·57	0·48	44·31	54·64
(4) Chambhar	12·19	27·36	13·40	47·05
(5) Dohor	6·66	23·99	24·34	45·01
(6) Dom	6·67	13·33	..	80·00
(7) Ganda	4·17	8·33	20·83	66·67
(8) Ghasi	..	..	40·00	60·00
(9) Kaikadi	11·62	15·49	27·79	45·10
(10) Katia	5·88	41·18	11·76	41·18
(11) Khatik	11·90	23·86	12·09	52·15
(12) Madgi	..	57·14	7·14	35·72
(13) Mahar	9·86	33·72	10·93	45·49
(14) Mang	3·50	45·07	9·96	41·47

Size of Land Cultivated

Tables C-I and SCT-V—Part A in Part II show a broad classification of cultivating households by size of land cultivated for the district rural population and all Scheduled Castes in rural areas respectively. The proportions are as follows :—

Size of land cultivated.	District Rural population		All Scheduled Castes	
	No. of sample households	Percentage	No. of sample households	Percentage
Cultivating households.	21,584	100·00	3,807	100·00
Less than 5 acres ..	5,671	26·28	986	25·90
5—9·9 acres ..	4,583	21·23	758	19·91
10—29·9 acres ..	7,732	35·82	1,348	35·41
30 acres and over ..	3,598	16·67	715	18·78

Out of 21,584 cultivating households a sample of 3,807 or about 17·6 per cent households are from the Scheduled Castes against their population which is 4·77 per cent of the rural population. The proportions of households by sizes of land cultivated, are more or less the same for the Scheduled Castes rural population as those for the district rural population. The percentage of households cultivating land over 30 acres, among the Scheduled Castes is slightly higher, i.e., 18·78 per cent against the corresponding average of 16·67 per cent for the district. It indicates that for the size of cultivation holdings at least the distribution of cultivating households is not unfavourable to the Scheduled Castes. It has already been described that fewer Scheduled Castes households cultivate land and their participation in agriculture is more as agricultural labourers.

WELFARE OF BACKWARD CLASSES

The subject of welfare of Scheduled Castes and other Backward Classes in the district is now in the purview of the Zilla Parishad. In the membership of Standing Committee, which is the most powerful committee of the Zilla Parishad, at least two members from Scheduled Castes and other socially and educationally backward classes are required to be elected by the Parishad. This Standing Committee acts as the Subject Committee for that subject and the District Social Welfare Officer works under it. The Zilla Parishad is also legally required to spend adequate amounts for the amelioration of the condition of the Scheduled Castes and of any socially and educationally backward classes and in particular for the removal of untouchability.

Various schemes for the welfare of Scheduled Castes and other educationally or socially backward classes are in operation in the district :—

(*i*) *Educational.*—These include schemes of granting tuition fees at all stages of education irrespective of age and income, examination fees of recognised examinations and scholarships to the students from the Scheduled Castes, nomadic and semi-nomadic tribes, Vimukta Jatis and the Backward Classes. The concession is awarded in the Primary Schools, High Schools or Technical Schools. 3,101 students benefited from and Rs. 1,20,356 were spent on these schemes during the year 1962-63. Rs. 1,38,330 were spent on 13 backward class hostels and 13 cosmopolitan hostels in the district in the year 1962-63. Besides this Rs. 37,208 were given as building grants to 3 backward class hostels.

(*ii*) *Schemes for Economic Uplift.*—These include schemes of granting loan-*cum*-subsidy for Cottage Industries and Professions, assistance for purchase of milch cattle to the Scheduled Castes and other backward classes. Under the scheme of loan-*cum*-subsidy for cottage industries and professions Rs. 14,200 were given to 56 beneficiaries from the Scheduled Castes and Backward Classes from under-developed rural areas during the year 1962-63 and Rs. 900 were spent on 3 beneficiaries under the scheme of assistance for purchase of milch cattle.

(*iii*) *Housing.*—A number of housing societies of Backward Classes have been formed in the district. These societies construct houses for their members. Financial assistance in the form of loans and subsidies is given to these societies. Assistance in cash or kind for repairs to houses of Scheduled Castes and other Backward Classes is also provided. Under this scheme Rs. 4,600 were given on 57 beneficiaries during 1962-63.

(*iv*) *Drinking Water Wells.*—An amount of Rs. 20,250 were incurred for drinking water wells for Scheduled Castes for 11 beneficiaries.

(*v*) *Medical Aid to Scheduled Castes.*—Monetary aid is given to deserving persons belonging to the Scheduled Castes and Rs. 500 were spent during the year on 8 beneficiaries.

(*vi*) *Schemes for Removal of Untouchability.*—These include various schemes of publicity against untouchability. Sanskar Kendras and Balwadis are organised, film shows and gatherings are addressed at fairs and other places. Kirtan programmes and Melas, inter-caste dinners, celebration weeks and days are also arranged. Building sites are given to Scheduled Castes in Caste Hindu localities and subsidy is paid to caste Hindu landlords for letting their premises on hire to Scheduled Castes. Prizes are also awarded to villages which show outstanding work for removal of untouchability. Rs. 9,282 were spent under the schemes during the year 1962-63.

The schemes which were already in operation before the Third Five Year Plan are treated as committed schemes and those added under the Third Plan are separately treated as Plan Schemes. The expenditure

described above against each scheme is out of the committed schemes and also include expenditure on the Plan Schemes. There are in addition some more schemes sponsored by the Central Government.

Economic Criterion of Backwardness

Castewise basis of classification of " Other Backward Classes " has now been replaced by a new classification based on income. The income limit was raised from Rs. 900 per annum to Rs. 1,200 per annum with effect from 1st June 1960. All persons whose annual income from all sources does not exceed this limit are irrespective of their religion, caste or community treated as belonging to the " Other Backward Classes ".

Concessions to Nav-Bauddhas

From 1st May 1960, the Scheduled Caste converts to Buddhism are treated as eligible for all concessions and facilities available to Scheduled Castes except the statutory concessions under the Constitution and certain special schemes for removal of untouchability, etc. which cannot by their very nature apply to non-Hindus.

EDUCATION

The district has made substantial progress during the last decade in education specially in respect of literacy among the women. The average literacy rates for the district are higher than the State average both for males and females. Rural areas are much advanced than the State average for rural areas. The urban areas in the district are however comparatively less literate than the average urban areas of the State.

Growth of Literacy

Percentage of literacy in the district for total, males and females since 1901 is as follows :—

	Total	Males	Females
1901	4·49	8·50	0·34
1911	4·34	8·29	0·26
1921	5·79	10·59	0·78
1931	7·86	14·21	1·20
1941	22·50	39·41	4·83
1951	22·60	35·70	9·00
1961	31·20	44·21	16·69

Figure in the next column shows the growth of literacy in the district for total population, males and females separately.

The literacy percentage in this district has increased four times during the last thirty years. Female literacy rate has shown a remarkable improvement from 1·20 per cent in 1931 to 16·69 per cent in 1961. The scheme of compulsory primary education for children of age-group 6—14 has partly contributed to the striking improvement of literacy in the district.

The Primary Census Abstract in Part II shows the number of literate males and females for total, rural and urban areas of each taluka separately. The Village Directory in Part I furnishes such numbers for each village and for each ward of every town separately. Percentage proportions of literacy out of the total population for males and females are shown on page (24) for total, rural and urban areas of each taluka separately.

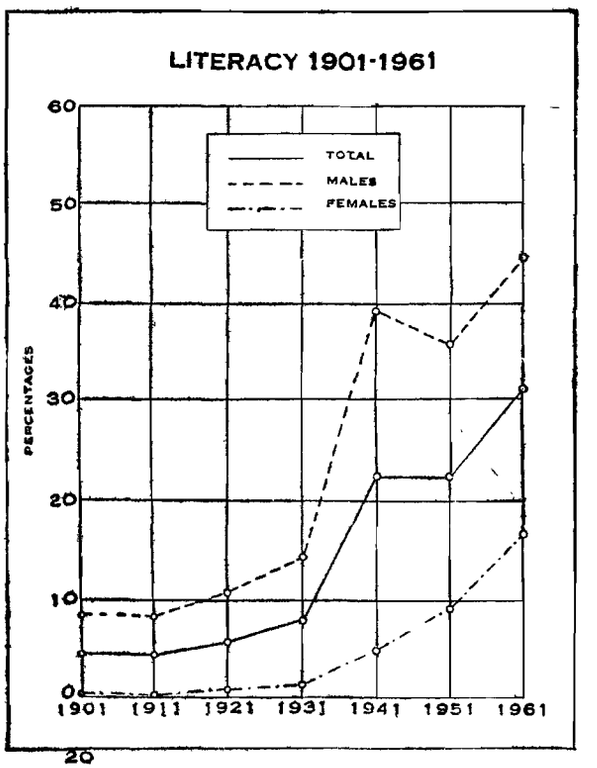

Figure on page (25) shows the spread of literacy in the district by isopleths.

The region covering almost the whole of Akola taluka and the adjoining northern parts of Murtazapur taluka is the most literate area in the district. The literacy rate drops down beyond this region, in the north as well as towards the south. Literacy percentage is lowest in the southernmost areas of Washim taluka.

Within the district, Akola taluka has the highest literacy for total, male and female population. For rural areas Akot taluka has the highest literacy rates. For urban areas also Akola has highest literacy rates for total, male and female population.

Talukawise Literacy Percentages

State/District/Taluka	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)

6 Washim Taluka ..	25·10	39·28	10·34	23·08	37·29	8·41	41·92	55·31	27·05

Literacy by Age

The percentages of literates by age-groups for the district total, rural and urban areas are as follows. Actual figures are shown in Tables C-III-A, B and C in Part II which also give figures for different educational levels separately.

The literacy rates are high for males in both the age-groups 5—14 and 15—34. For females they are higher in the age-group 5—14. This indicates that educational improvement of males started some thirty years ago and of females comparatively in recent years.

Age-group	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
All ages	31·20	44·81	16·69	27·29	41·20	12·73	44·97	57·07	31·25
0—4	..	..	..	..	..	..	..	..	..
5—14	41·05	50·56	31·05	37·67	48·25	26·62	52·87	58·46	46·81
15—34	41·87	61·75	21·57	36·19	57·22	15·58	60·72	75·53	43·37
35—59	29·95	47·93	8·26	25·69	43·30	4·63	45·66	64·64	21·95
60+	18·53	34·74	2·80	15·21	29·70	1·28	30·80	52·95	8·54

Primary Education

Table 15 in Part III shows the number of Primary schools and pupils in them for the district and each taluka in 1951, 1956 and 1961.

The number of primary schools and their classification as on 31st March 1962 are shown in the next column.

	Total	Basic			Non-Basic	
		Senior basic	Junior basic	Single teacher	I-IV multi-teacher	Middle I-VII
Total No. of Schools.	1,237	48	24	469	527	169
State Government ..	41	6	..	..	31	4
Zilla Parishad ..	1,108	42	23	466	414	163
Municipal ..	79	..	1	1	76	1
Private ..	9	..	..	2	6	1

There has been a steady growth in the number of Primary Schools in the district during the last ten years. The number rose from 725 in 1950-51 to 948 in 1955-56 and to 1,230 in 1960-61. On 31st March 1962, it stood at 1,237. Out of these 1,108 or 89·57 per cent are managed by the Zilla Parishad, 79 or 6·39 per cent by municipalities, 41 or 3·31 per cent by State Government and only nine or 0·73 per cent are managed by private institutions. Although the Zilla Parishad is managing 89·57 per cent of primary schools, the State Government's share (in the year 1961-62) was 80·9 per cent of the total expenditure. The expenditure on primary education is incurred by the State Government through grants-in-aid to Zilla Parishad and building loans and grants to primary teachers' training colleges. Similarly, wards of parents whose annual income does not exceed Rs. 1,200 get free education. The cost borne by the schools on this account is reimbursed from the State Government. Students from Scheduled Castes get free education at the cost of the Government and scholarships are given to them at the rate of Rs. 3 per year in I and II standards and Rs. 6 per year in III and IV standards. Government also gives aid to backward class and mixed hostels for meeting their cost on students belonging to Scheduled Castes.

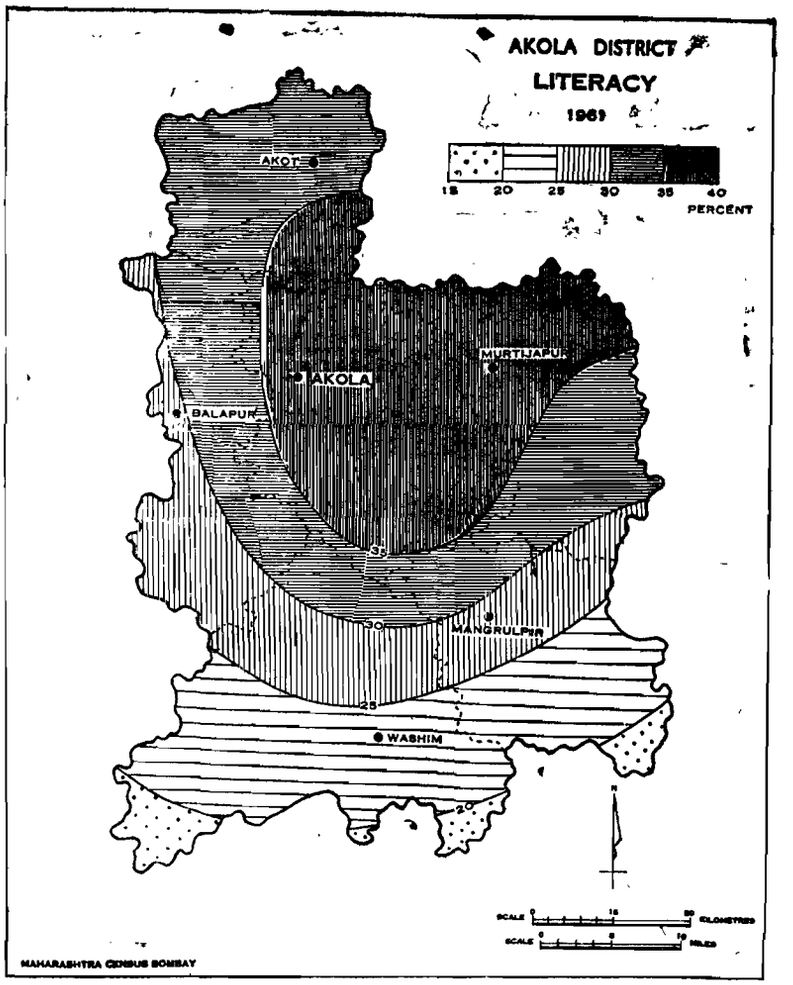

The State Government's policy of converting primary schools into basic schools has also made steady progress in the district. Upto 1954, there were only six Government Senior Basic schools at the rate of one for each taluka. In 1955, in each taluka 9 schools were converted into basic schools. Thus in all 54 schools were converted and the total number of basic schools went up to 60. In 1960, nine more schools were converted. On 31st March 1962 total number of basic schools was 72.

By 31st March 1962, 9 towns and 1,066 villages in the district had primary schools and 342 villages had schooling facilities, i.e., primary schools situated within a mile from the village. 99 villages did not have even schooling facilities. Total number of teachers was 4,137. Out of them, 2,271 were trained teachers.

Other indices of the progress of primary education in the district compared with those of the State averages are as follows :—

(As on 31st March 1962)

	Akola District	Maharashtra
Average population served by a primary school	973	1,135
Average area served by a primary school (square miles) ..	3·3	3·4
Pupils per primary teacher ..	30	38
Pupils per primary school ..	100	127
Average annual salary per teacher (Rs.)	1,158	1,250
Average annual expenditure per school (Rs.)	4,651	4,903
Average number of teachers per school	3·3	3·3
Percentage of trained teachers	[illegible]	64·8

Compulsory education is in force in four towns having 21 institutions in urban areas and 34 villages having 46 institutions in rural areas. Compulsion has been applied only to the boys in the age-group 6—14. Girls are excluded from the compulsory scheme. In 1960-61, the total number of boys under compulsion was 4,715 in urban areas and 4,702 in rural areas.

Third Plan Schemes aim at extension of free and compulsory primary education to all the children in the age-group 6—11, so as to bring the district to the level already reached in the other districts of Bombay and Poona Divisions. The scheme envisages appointment of additional teachers and inspecting officers. As a result of normal expansion of primary education and extension of compulsory primary education to age-group 6—11 years, the number of students is expected to rise by 59,650 by the end of the Third Plan. Additional 1,193 teachers would be appointed during this period. Similarly, 201 class rooms are proposed to be built. A provision of Rs. 73·53 lakhs has been made in the Third plan for various schemes relating to primary education in the district.

Secondary Education

The number of institutions imparting Secondary education and number of pupils both boys and girls for the years 1951, 1956 and 1961 are shown in Table 15 in

Part III. A list of high schools with the number of students for each of them may be seen in Table 16.

By 31st March 1962, the number of institutions and their classification in the district are as follows:—

	Total	Vocational High Schools	Higher Secondary School.		Middle Secondary Schools
			Multi-purpose.	Ordinary	
State	10	1	4	..	5
Municipal ..	5	..	1	2	2
Private ..	57	..	2	49	6
Zilla Parishad ..	5	..	..	3	2

Total number of students on roll during the year 1961-62 was 27,127. Out of them 20,809 were boys and 6,318 girls. Total number of teachers was 1,172. Out of them 579 or 49·4 per cent were trained teachers. Other indices of Secondary education compared to the State averages are as follows:—

	Akola District	Maharashtra
Population served by each high school	15,629	13,805
Area served by each school (Sq. miles) ..	53·2	40·8
Pupil-teacher ratio	23	25
Pupils per secondary school ..	352	388
Average annual salary per teacher (Rs.)	1,760	1,870
Average annual expenditure (direct) per secondary school (Rs.)	34,494	39,543
Average number of teachers per secondary school	15·2	13·7

The Figure on page (27) shows the proportions for literates and different educational levels among males and females for rural and urban areas separately.

The number of secondary schools in the district has almost doubled during the decade 1951-61. It increased from 38 in 1951 to 46 in 1956 and to 65 in 1961. On 31st March 1962 it stood at 77. The secondary schools are dispersed throughout the district. In 1961, out of 65 secondary schools, Mangrulpir taluka had 3, which was the smallest number. Akola taluka had as many as 20 secondary schools.

Private institutions manage about 75 per cent of the secondary schools in the district. The Government share in the total expenditure on secondary education in 1961-62 was 81·6 per cent and is incurred through different schemes of grants for maintenance, salaries, buildings, building sites, equipment, freeships, scholarships, loans, etc., and special concessions to Scheduled Castes and other Backward Class students.

Looking to the fast growth in the number of pupils in the primary schools, the number of pupils in the secondary schools may rise to 40,000 by 1965-66 and to 58,000 by 1970-71.

S. S. C. Examinations

Vidarbha Board of Secondary Education, Maharashtra State, Nagpur, conducts public examinations at the end of the secondary school course. Two examinations are held every year in March and October. There are 19 centres in the district situated at Akola, Akot, Murtazapur, Karanja, Washim, Mangrulpir, Balapur, Telhara and Patur. The number of candidates who appeared and passed from the district during the year 1962 are as follows :—

	Appeared	Passed
Examination held in March 1962—		
(*a*) S. S. C.	3,615	1,905
(*b*) Higher S. S. C. ..	367	229
Examination held in October 1962—		
(*a*) S. S. C.	881	338
(*b*) Higher S. S. C. ..	77	21
Total ..		2,493

Higher Education

Talukawise list of Colleges is given in Table 16 in Part III along with the 1960-61 number of students for each.

There were five colleges in the district in 1961. At present their number is nine. The colleges now provide education in Arts, Science, Commerce, Teaching, Agriculture and Law. Besides there are two colleges of Homoeopathy and Bio-chemistry and one college of Ayurved at Akola. Out of the nine colleges, two colleges, *viz.*, the College of Education and the College of Agriculture both at Akola are Government Colleges. All the other colleges are managed by private institutions and receive grants for maintenance, dearness allowance and buildings from Government.

Technical Education

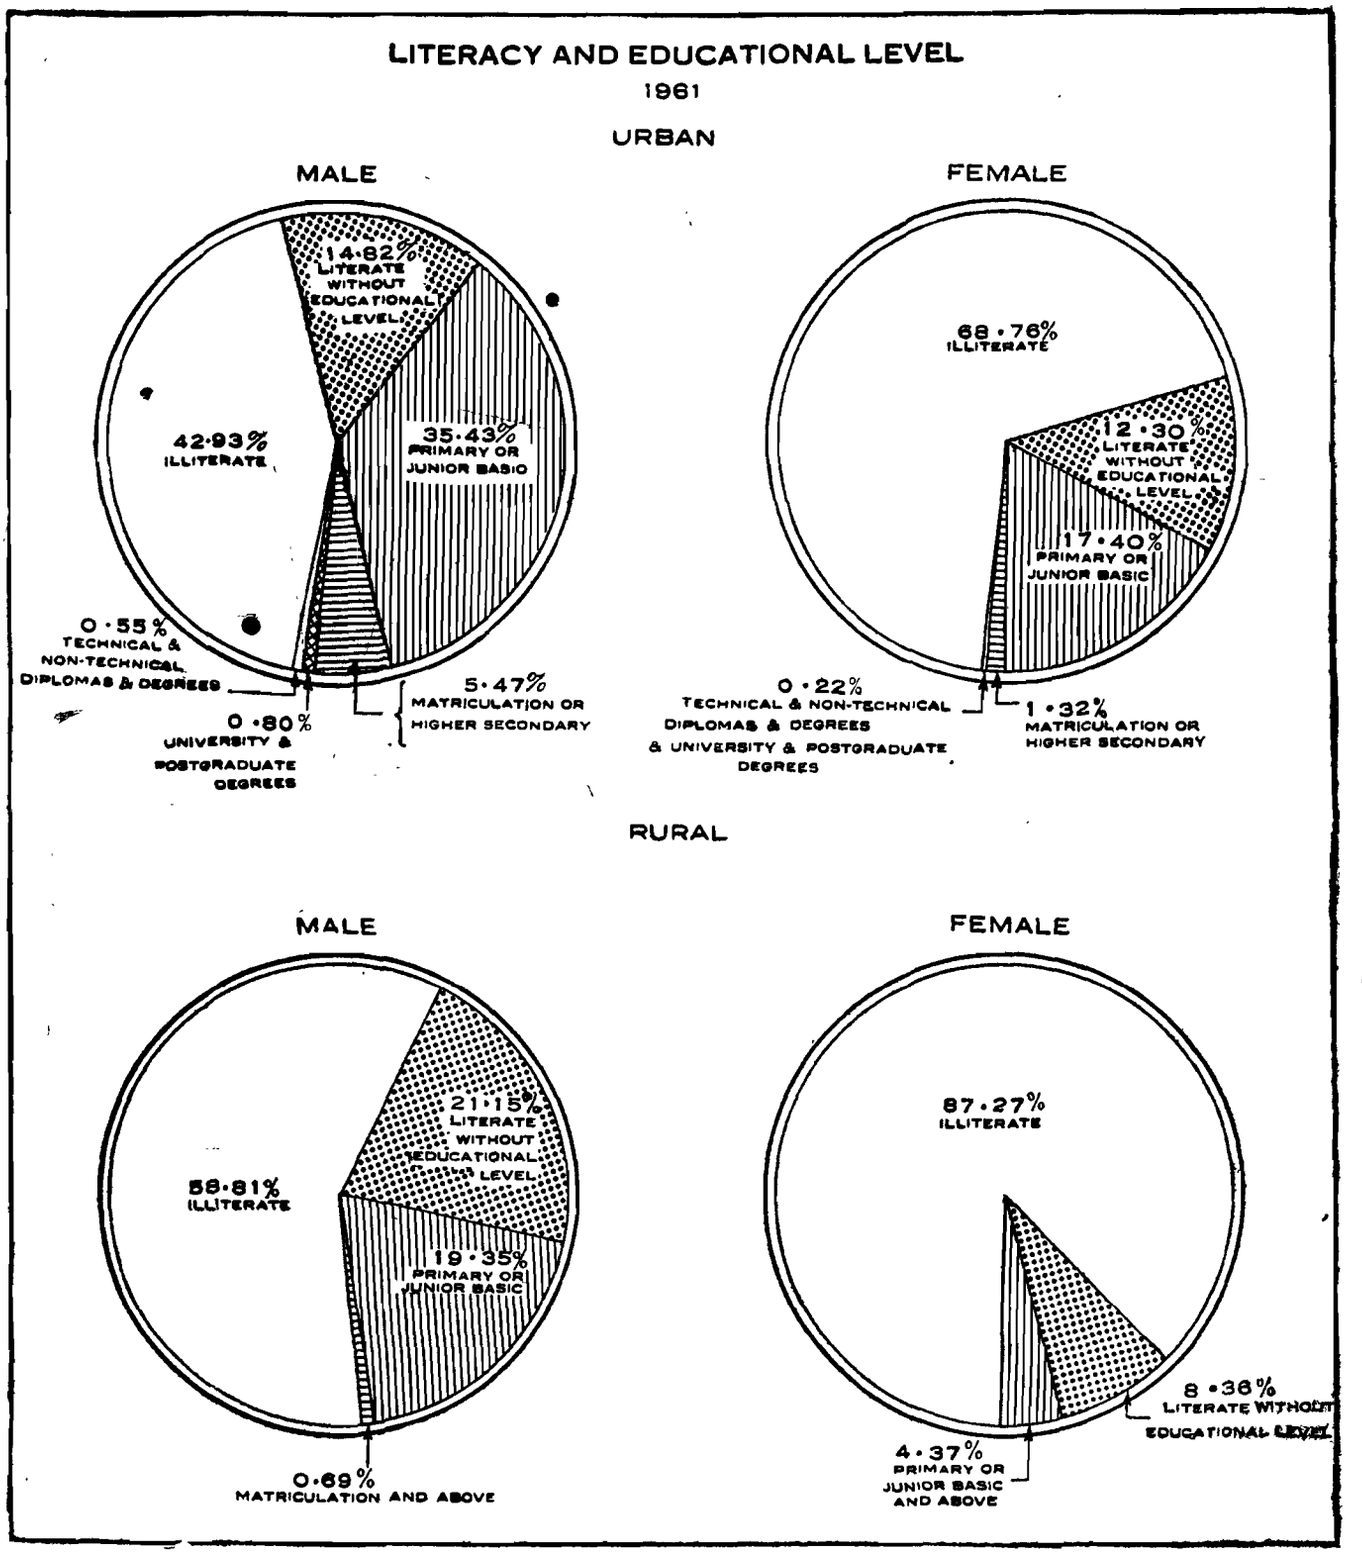

There is one Government Vocational High School at Akola where training in various trades such as carpentry, smithy, etc. is given. A new course in Electrical Engineering has been started at this school. The duration of the course is of four years. Stipend at the rate of Rs. 20 per month is given to the trainees. Besides there is an Industrial Training Institute where facilities for training in five trades, *viz.*, Draughtsman (Civil), Fitter, Electrician, Lineman and Wireman, and Mechanic are provided. A stipend of Rs. 20 is given to students in this institute during the period of training. Facilities for Vocational training are also available in the technical branch of the Tilak Rashtriya Saraswati Mandir which has been converted into an independent institution and in the Shivaji High School at Akola.

Libraries

There are 54 public libraries in the district. 10 out of them are recognised by the Government. These 10 libraries were sanctioned Rs. 2,297 as grant-in-aid by the State Government in 1963-64. Besides these libraries the Government District Library at Akola conducts 126 library centres in the district. Libraries which have started special section for children, are given annual grant of Rs. 160. Six libraries are receiving this grant, at present. Education Department has started 150 rural reading centres.

Printing Presses, Journals and Newspapers

There are 37 printing presses in the district. The total number of journals and newspapers is 8 ; 3 out of which are dailies, 4 weeklies and one journal.

Radio Licences

The number of radio licences in the district has increased from 1,867 in 1954-55 to 4,469 in 1957-58. It decreased a little to 4,328 in 1960-61.

Cinema Theatres

There were 20 permanent and one quasi-permanent and 10 touring cinema theatres in the district as on 21st December 1963.

HEALTH AND MEDICAL AMENITIES

The Health Department's work in the district is now in the purview of the Zilla Parishad. A Subject Committee looks after its working and the District Health Officer works as Secretary to that Committee as well as the Officer-in-charge of Health activities in the district.

Drinking Water Supply

Column (5) of the Village Directory in Part I shows the sources and adequacy of drinking water for each village in the district.

Two towns have piped water supply. Out of the remaining towns and villages, 134 villages draw drinking water from rivers, 14 villages from nallahs, 7 villages from tanks and 6 towns and 1,160 villages from wells, and 192 villages and 1 town have more than one of these sources of drinking water. The water supply is not adequate in summer in 255 villages and 7 towns.

Leprosy Control

A leprosy control centre has been established at Murtazapur in 1959-60 under the control of Public Health Department, to prevent the spread of that disease. Besides, there are 9 survey, education and treatment units, six of them are functioning under the State Government and three are working under the Community Development Blocks. At Karanja one unit is working under the control of the Municipal Committee. At the end of July 1961, 1·25 lakhs of persons had been examined and 2,142 cases of leprosy had been detected.

Malaria Eradication

The Malaria eradication campaign was started by establishing an independent unit in the year 1958. Prior to 1958, the unit at Achalpur in Amravati district was functioning in this district. The intensive DDT spraying was done during the years 1956 to 1960. The surveillance scheme, *i.e.* the second phase of Malaria eradication programme was launched by the same unit in October 1960. There were then 21 surveillance inspectors and 84 surveillance workers for carrying out house to house surveillance measures.

Anti-T.B. Campaign

The number of persons tested for B.C.G. was 1·96 lakhs in 1954, 0·89 lakhs in 1958 and 2·52 lakhs in 1960. During the same years, i.e. 1954, 1958 and 1960, the number of persons vaccinated was 0·63 lakhs, 0·27 lakhs and 1·04 lakhs, respectively.

Control of Smallpox

Smallpox was in epidemic form in 1958 and 2,161 children died of it. A mass vaccination programme was launched in October 1958. The total number of primary vaccinations performed was 34,288 and the number of re-vaccinations was 164,778. In 1959 and 1960, the number of deaths due to smallpox were only 3 and 4, respectively.

Family Planning Centres

There are seven family planning centres in the district functioning at Akot, Balapur, Mangrulpir, Kamargaon, Jamthi, Risod and Manora. One social worker has been provided for each family planning centre. Upto the end of July 1961, 23 Vasectomy camps had been organised and 1,155 persons had been operated.

Medical Facilities

Medical facilities available in the district are shown in Table 17 of Part III. The figures in the Table relate to the facilities provided by Government and other aided institutions. The numbers of private practitioners, hospitals and dispensaries are not shown there.

The number of doctors and nurses, number of beds available and the number of indoor and outdoor patients treated have all increased between 1950—60. The number of doctors increased from 24 in 1950 to 42 in 1960. Similarly the number of nurses (including midwives) increased from 37 in 1950 to 72 in 1960. The number of beds increased from 313 in 1950 to 453 in 1960. The number of indoor patients increased from 7,914 in 1950 to 15,569 in 1960. The number of outdoor patients also increased from 359,120 in 1950 to 521,021 in 1960.

Hospitals and Dispensaries

There are five hospitals in 1964. Out of the 5 hospitals, three hospitals, *viz.*, the Civil Hospital at Akola (now called the District Hospital), Lady Hardinge Hospital at Akola and Laxmibai Deshmukh Hospital at Murtazapur are managed by the Government. The remaining 2 hospitals are the Mission Hospital and the Chowdhari Hospital both at Akola. They have 95 and 25 beds, respectively. The Civil Hospital at Akola has a provision of 179 beds. A separate clinic has been built in this hospital for T.B. patients. There is also an independent hospital for female patients and a maternity ward with a provision of 138 beds.

There are 41 dispensaries in the district in 1964, with 89 beds. Out of these 6 are municipal aided and 35 are managed by the Zilla Parishad.

Primary Health Centres

At the end of 1960, there were 7 primary health centres run by the Government. They are at Apatapa, Jamthi, Balapur, Mangrulpir, Risod, Manora and Akot. Besides, there are 4 primary health centres functioning under the Panchayat Samitis. They are at Chatari, Ansing, Panchagawan and Kamargaon. Each primary health centre has three sub-centres and one midwife has been posted at each sub-centre.

The total number of persons working as Physicians, Surgeons, Dentists, Nurses, Pharmacists and other Medical and health technicians in the district is 1,577.

The persons returned in the 1961 Census as Physicians, Surgeons and Dentists and their classifications by sex are shown in Table B-V in Part II. The number of medical personnel per one lakh population in the district is 57 as against 55 for Maharashtra.

HOUSING

Tables E-I, E-II, E-IV and E-V in Part II present material on different aspects of housing in rural and urban areas of the district and each taluka separately.

68 per cent of the houses are used as dwellings, 19 per cent as cattle sheds, etc. 8 per cent were vacant at the time of the Census and the remaining used as shops, workshops or factories, schools, etc.

The density of residential houses per square mile in the district has increased along with the density of population per square mile from 50·0 in 1951 to 61·5 in 1961. The number of persons per residential house has also slightly increased from 4·65 in 1951 to 4·71 in 1961.

Classified by "owned" and "rented", 76 per cent of the dwellings in the district are owned and 24 per cent are rented. The proportion of owned is higher (84 per cent) in the rural areas but very much lower (47 per cent) in urban areas. Even this low proportion of 47 per cent for the urban areas in the district is higher than the average of 30 per cent for urban areas of Maharashtra.

Out of the various materials used for walls, mud appears to be predominant in the district with a proportion of about 53·5 per cent of occupied houses. Grass, leaves, reeds or bamboos are used next to mud for walls in the talukas of Akot, Akola and Mangrulpir. Majority of houses in every taluka in the district have mud walls. Stones for walls are also used next to mud in Balapur and Washim talukas while in Murtazapur taluka, walls of burnt bricks are also common though majority of the houses have mud walls. Mud is used for walls, more in rural than in urban areas. Its proportion in the rural areas is 61·3 per cent against 23·6 per cent in urban areas. The use of burnt bricks for walls is more in urban areas with a proportion of 42·1 per cent against 7·6 per cent in rural areas. Grass, leaves, reeds or bamboos are used in 20·4 per cent of dwellings in urban areas and 13·6 per cent in rural areas.

Out of the materials of roof, corrugated iron or zinc sheets and tiles are predominant in the district with proportions of 44·6 per cent and 33·9 per cent of dwelling, respectively. Corrugated iron or zinc sheets are used in almost the same proportions both in rural and urban areas. Tiled roofs are, however, more common in urban areas (44·9 per cent) than in rural (31·0 per cent). Corrugated iron or zinc sheets for roofs are used predominantly in Balapur, Mangrulpir and Washim talukas while tiles for roofs are common in Akot, Akola and Murtazapur talukas. Washim and Mangrulpir talukas have the highest proportion of dwellings with corrugated iron or zinc sheets in Maharashtra. This predominance of corrugated iron or zinc sheeted roofs in the southern part of the district has also been reported in the District Gazetteer of 1910. Thatched sloping or flat roofs of wooden beams with mud have the second largest proportion in Akola, Balapur, Mangrulpir and Washim talukas. The distribution corresponds more or less to the pattern of annual rainfall.

Classified by the number of rooms occupied, 66·7 per cent of households are occupying one-room dwellings and 22·1 per cent are occupying two-room dwellings. The households occupying more rooms are more in the urban areas than in rural. Average number of persons per room is 3·12 for total, 3·19 for rural and 2·89 for urban areas.

AGRICULTURE AND IRRIGATION

Agriculture is the predominant economic activity in the district. 81·33 per cent of the total working population works in agriculture as against the average of 69·91 per cent in Maharashtra.

The statistics regarding land utilisation, crop pattern, wholesale and harvest prices, livestock and agricultural implements, etc., are presented in Part III.

Cultivating Seasons

As in the other areas of the State, in this district also there are two agricultural seasons, *viz.*, Kharif and Rabi. But the district has much more area under Kharif than Rabi crops. In 1959-60 the ratio between the areas under Kharif and Rabi crops in the district was 89 : 11.

The principal crops grown in Kharif season are cotton, jowar, groundnut, tur, udid and mung. Wheat and gram are the main Rabi crops. Unlike many other districts jowar is not grown in the Rabi season. Sugarcane which is a perennial crop is grown on a very small area.

Sowing and harvesting periods of some of the principal crops are shown below :—

	Sowing period	Harvesting period
(*a*) *Kharif Season*—		
Jowar ..	June-August	.. November-January.
Tur ..	June-July	.. Do.
Cotton ..	June	.. Do.
Bajri ..	June-July	.. November-December.
(*b*) *Rabi Season*—		
Wheat ..	October-November	February-March.
Gram ..	Do.	.. Do.

Land Utilisation

The pattern of land utilisation in the district and each of its talukas is shown on page (30) compared with that of the State. All the figures are based on averages for three years from 1957-58 to 1959-60.

Administrative Unit	Percentage of geographical area										
	Total geographical area	Forests	Barren and uncultur-able	Land put to non-agricul-tural uses	Cultur-able waste	Per-manent pas-tures	Miscella-neous tree crops and groves	Current fallows	Other fallow land	Net area sown	Total Gross cropped area
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)
MAHARASHTRA ..	100	17·54	6·08	2·29	2·80	4·75	0·62	3·77	4·46	57·69	60·55
AKOLA DISTRICT ..	100	8·31	3·72	3·20	0·67	5·71	0·06	1·21	4·52	72·60	73·15
Akot Taluka ..	100	1·32	3·11	3·16	0·69	2·11	0·01	0·47	1·88	87·25	87·43
Balapur Taluka ..	100	15·42	3·92	2·98	0·68	1·51	0·08	1·10	3·50	70·81	70·83
Akola Taluka ..	100	11·40	3·33	3·65	0·86	1·10	0·02	1·09	4·27	74·28	74·37
Murtazapur Taluka ..	100	5·64	2·43	4·88	0·53	0·88	0·04	0·88	4·57	80·15	80·27
Mangrulpir Taluka ..	100	11·58	6·34	2·10	0·70	8·38	0·10	2·68	6·69	61·43	61·60
Washim Taluka ..	100	5·80	3·41	2·71	0·57	14·06	0·09	1·08	5·33	66·95	68·76

The Figure at page (31) shows the land utilisation pattern for the district and each taluka separately for the year 1959-60.

The net area sown in the district is 72·60 per cent of the total geographical area. This is much higher than the average for Maharashtra (57·69 per cent), mainly because of lower proportions of areas under forests and barren lands.

Within the district the proportion of net area sown to the total geographical area ranges between 61·43 per cent for Mangrulpir taluka and 87·25 per cent for Akot taluka. The lowest taluka proportion is also higher than the State average.

The district has low proportions of areas under forest and barren lands. Only Mangrulpir taluka has somewhat higher proportion (6·34 per cent) of barren lands. The proportions of areas under culturable waste are also very low. Washim (14·06 per cent) and Mangrulpir (8·38 per cent) talukas, however, have large proportions of areas under permament pastures.

Due to the changes in the classification of Land Utilisation effected in 1950-51, comparable statistics for the period prior to 1950 are not available. The District Gazetteer (1910) reports that in 1907-08, 74·74 per cent of the geographical area was cultivated, 8·28 per cent was under forests, 8·39 per cent culturable waste, 1·73 per cent fallow lands, 2·68 per cent under non-agricultural uses, 3·72 per cent grazing lands or pastures and 0·46 per cent barren lands.

Allowing for the differences in the definitions and coverage, the land utilisation pattern in the district does not appear to have significantly changed during the last 50 years.

Crop Pattern

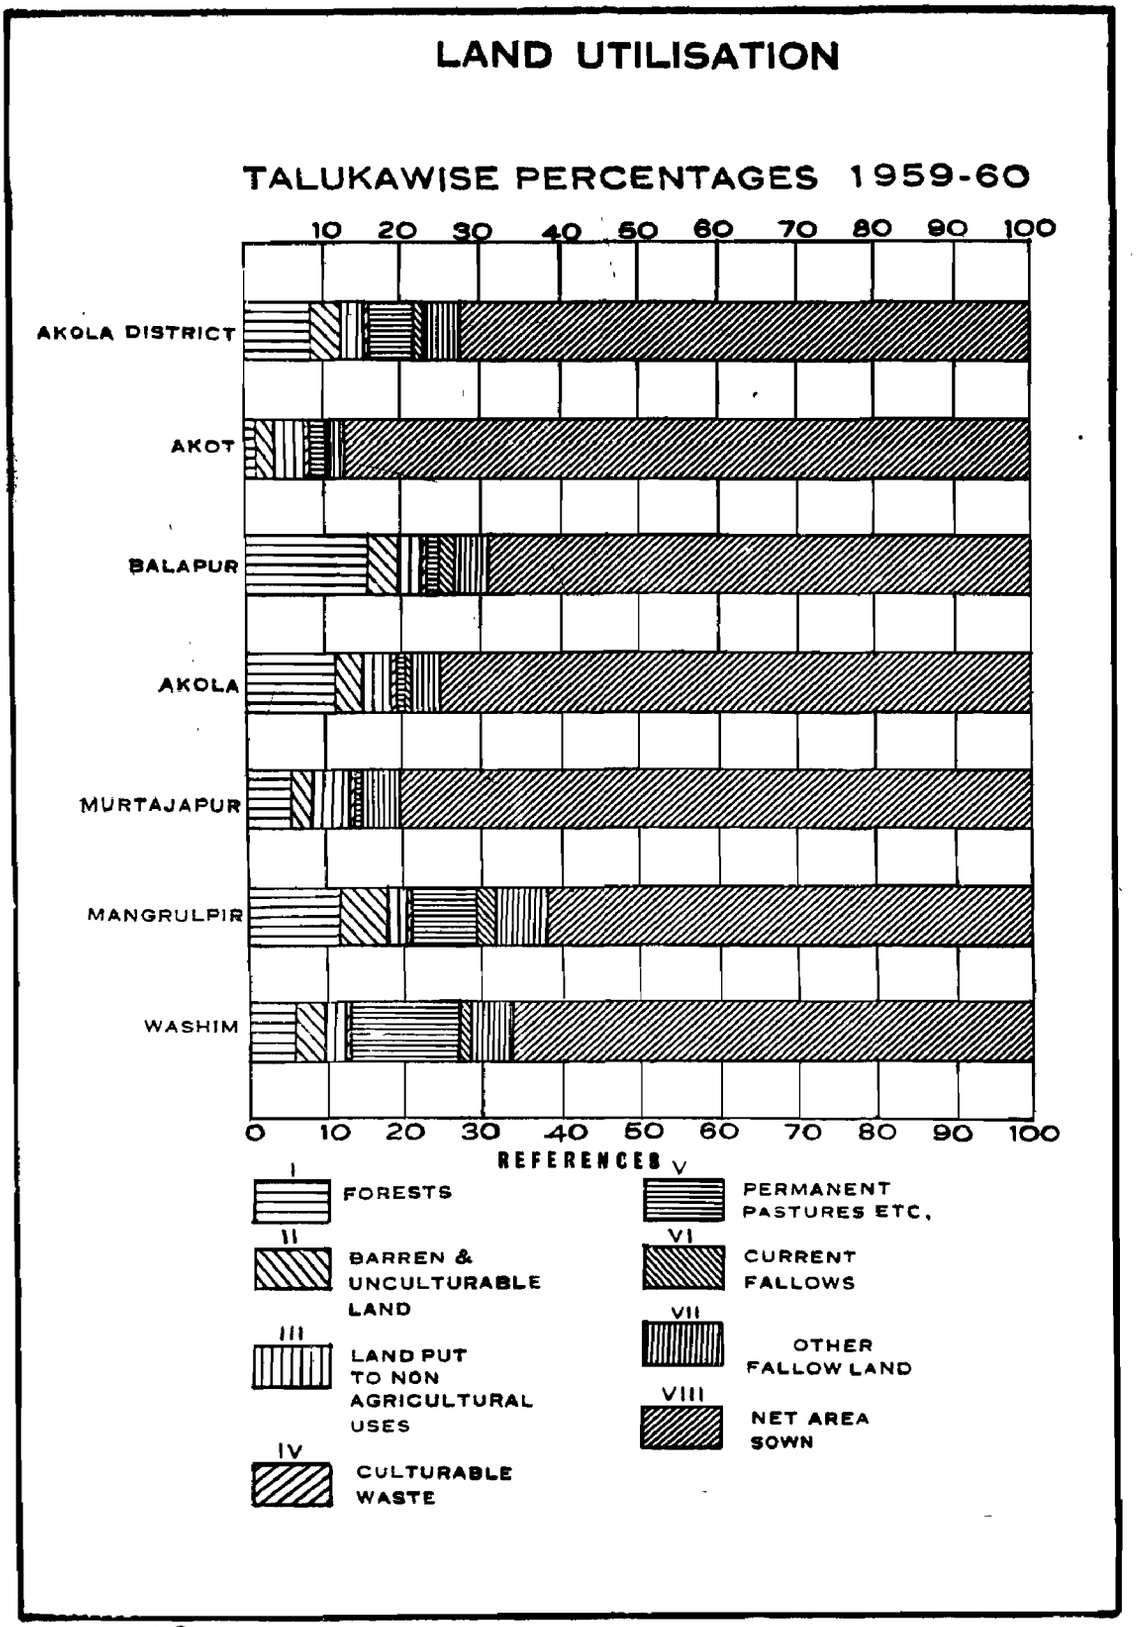

The proportions of areas under important food and non-food crops for the district and each of its talukas are shown on page (32) compared with the corresponding figures for Maharashtra. All figures are averages for three years 1957-58 to 1959-60. The Figure at page (33) shows the crop pattern for the district and each taluka separately.

The proportions of areas under food crops and non-food crops are nearly equal. This pattern is somewhat different from the State average in which 70 per cent of the gross cropped area is occupied by food crops. Amongst the food crops, jowar with 30·50 per cent of the gross cropped area occupies the first place. Pulses cover 11·50 per cent and wheat 6·97 per cent. The proportions of rice (0·85 per cent), bajri (0·71 per cent), other cereals (0·10 per cent), sugarcane (0·02 per cent) and other food crops (0·61 per cent) are extremely low.

Amongst the non-food crops, the proportion of area under cotton (41·07 per cent) is nearly three times larger than the State average. Cotton is the principal crop in the district and has the largest proportion (41·07 per cent) in the gross cropped area. Groundnut is predominant in the oil-seeds. Tobacco occupies negligible area.

Comparable statistics for the entire district prior to the years 1950-51 are not available and hence it is difficult to study the change in the crop pattern in the district. The District Gazetteer (1910), however, reports that the normal proportions of areas under different crops, were cotton 46·97 per cent, jowar 39·05 per cent, wheat 4·52 per cent, other food crops 6·84 per cent and other non-food crops 2·62 per cent. The proportions both for cotton and jowar have decreased and pulses and groundnut appear to have taken their place.

The crop pattern of the district in general can be considered slightly superior to the State average. It has favourable proportions of high value crops like cotton and wheat. The average yields for most of the crops except rice and sugarcane are better than the State averages. The district however has very low proportions of areas under rice, sugarcane and tobacco. The proportions of areas under irrigation and double cropping are extremely low.

Sugarcane	0·63	0·02	0·01	0·03	0·01	....	0·04	0·04
Other food crops	5·59	0·61	0·65	0·57	0·42	0·78	0·51	0·69
Area under non-food crops ..	30·12	48·74	56·51	51·12	51·99	53·18	50·30	36·27
Area under oil-seeds	8·18	7·30	1 58	6·60	10·71	10·09	11·81	4·77
Groundnut	6·11	5·60	0·51	5·31	7·83	6·78	11·46	3·66
Other oil-seeds	2·07	1·70	1·07	1·29	2·88	3·31	0·35	1·11
Cotton	13·62	41·07	54·59	44·23	41·03	42·75	38·02	31·01
Tobacco	0·12	Negligible	....	....	....	....	....	0·01
Other non-food crops including fodder crops.	8·20	0·37	0·34	0·29	0·25	0·34	0·47	0·48

The cropping pattern within the district varies according to soils and climatic conditions. Akot taluka has the largest proportion (54·59 per cent.) of area under cotton. Washim taluka situated on a plateau and having cooler climate has the largest proportion (10·62 per cent) under wheat. Mangrulpir taluka with its light and medium soils seems to be favourable for groundnut. Washim taluka also has the largest proportion (17·83 per cent) under pulses.

Nine-year average yields and 1958-59 acreages and outturns of important crops are shown below compared with the corresponding figures for Maharashtra State taken as 100 :—

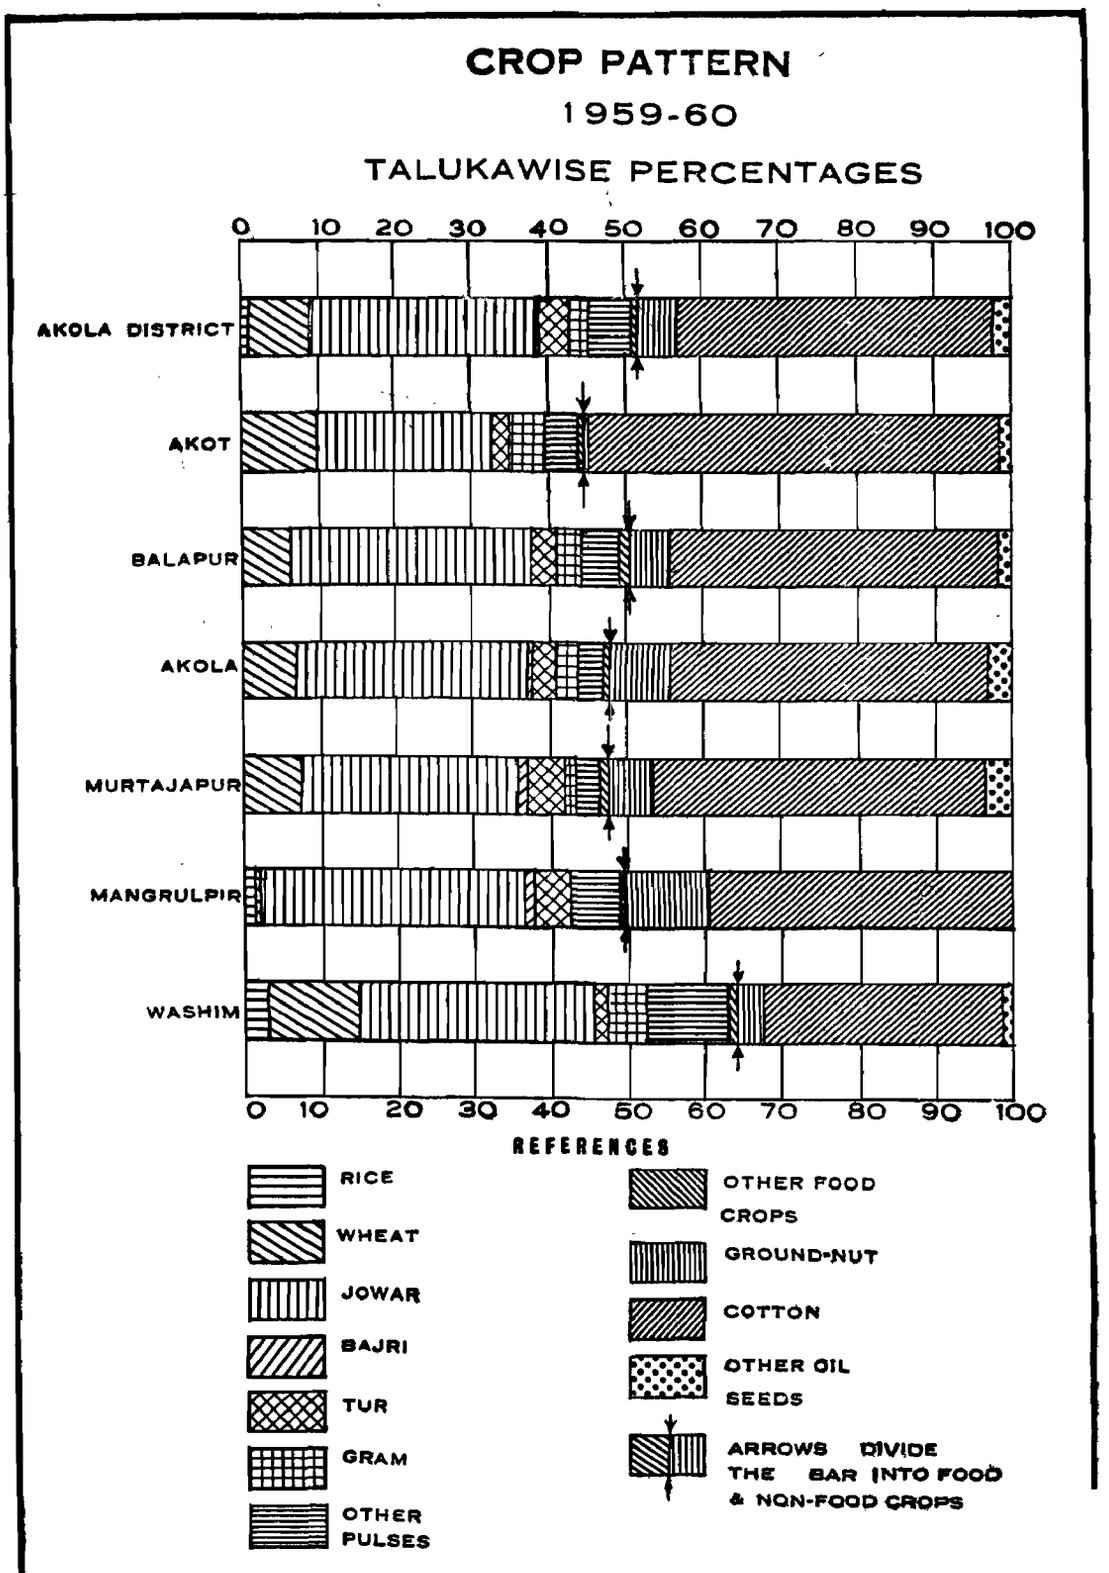

Crop	Nine-year average yield per acre	1958-59 area	1958-59 outturn
MAHARASHTRA ..	100·00	100·00	100·00
Wheat ..	107·65	5·76	6·05
Jowar ..	132·10	4·09	3·92
Tur ..	142·79	5·51	5·96
Gram ..	97·59	2·88	2·49
Groundnut ..	80·57	3·97	2·59
Cotton ..	115·15	12·32	16·88

Except for gram and groundnut, the district yields are higher than the State average. The differences are significant for cotton, jowar and tur which are the three main crops of the district. It is significant that one-sixth of the State's total outturn of cotton is contributed by the district.

The Techno-Economic Survey of Maharashtra has estimated gross value of output per acre of cropped area in 1955-56 at Rs. 85 for the district against Rs. 76 for the State and Rs. 126 for India.

The density of population, proportion of workers on land to total workers, gross area sown per worker on land and the proportion of irrigated area to gross cropped area are shown below for the district and each of its talukas compared with the State averages :—

Administrative Unit	Density of population per square mile	Percentage of workers working on land to total workers	Gross area sown per worker on land in acres	Percentage of irrigated area to gross cropped area
MAHARASHTRA	334	69·91	3·50	6·23
AKOLA DISTRICT	291	81·33	4·00	0·37
Akot Taluka ..	350	83·29	4·03	0·42
Balapur Taluka ..	281	86·30	3·71	0·34
Akola Taluka ..	393	65·67	4·36	0·22
Murtazapur Taluka	286	80.75	4·39	0·40
Mangrulpir Taluka..	220	91·04	3·60	0·37
Washim Taluka ..	237	86·83	3·89	0·46

81·33 per cent. of the total working population works on land. The proportion is much higher than the State average (69·91 per cent). The gross area sown per worker on land (4·00 acres) is also higher than the State average. The larger area per worker may be partly due to the extremely lower proportion of irrigated land.

The percentage of workers working on land to total workers varies between 65·67 per cent. for Akola taluka and 91·04 per cent for Mangrulpir taluka. The proportion is lower than the State average only in the Akola taluka because of its large urban population and location of three large-scale industries.

Because of the extremely low proportion of irrigated lands the district has very low proportion of area (0·74 per cent) sown under double crops. The proportion of area under double crops is significant only in Washim taluka (2·44 per cent).

Irrigation

Compared to the State average the district has extremely small area under irrigation. The proportion of gross irrigated area to the gross cropped area during 1959-60 was only 0·37 per cent against the average of 6·23 per cent for Maharashtra.

Table 4 in Part III gives the break-up of irrigated areas by sources of irrigation for the district and each taluka. Except for the 200 acres irrigated from Tanks, the entire irrigation is done by wells.

The District Gazetteer reports that the area under irrigation in 1907-08 was 14·5 thousand acres. The net irrigated area in 1950-51 was 6·1 thousand acres. and in 1959-60 7·0 thousand acres. There had thus been a substantial reduction in the irrigated area in the last 50 years. Due to the efforts made during the first two Plans the irrigated area has increased to 7 thousand acres in 1959-60. During the Second Plan period 200 acres were brought under tank irrigation and additional 700 acres under well irrigation. On completion of the numerous minor and medium irrigation projects now under construction or proposed, 55,000 additional acres will be irrigated under canals. Some of those projects are as follows :—

Name of the Project	Area likely to be irrigated
(1) Katepurna Project ..	24,000 acres.
(2) Ekburji Tank ..	7,500 ,,
(3) Morna River Project (Akola Taluka).	5,600 ,,
(4) Rishi Tank, Karanja .	425 ,,

Simultaneously with the increase in the number of wells, the number of oil-engine pumping sets has also doubled and the number of electric pumps has increased from 16 to 504 during the decade 1951-61.

Crop Pattern under Irrigation

Table 5 in Part III gives the crop pattern under irrigation. In the year 1959-60, 90 per cent of the irrigated area was occupied by food crops and 10 per cent under non-food crops. Among the food crops, wheat covered 8·57 per cent, sugarcane 5·71 per cent, condiment and spices (mainly chillies) 27·15 per cent and miscellaneous food crops 48·57 per cent. Among the non-food crops cotton covered 4·28 per cent and other non-food and fodder crops 5·72 per cent. Prior to 1959-60 cotton was not irrigated at all.

Non-food crops are not irrigated at all in Balapur and Akola talukas. Potato under irrigation is found only in Murtazapur and Mangrulpir talukas. Half the area under irrigation in Akola is covered by spices and the other half by miscellaneous food crops.

Though in the year 1959-60, 8·57 per cent of the gross irrigated area was under wheat, irrigated area formed only 0·41 per cent of the total area under wheat.

Production

The annual outturn of principal crops in the district is shown in Table 6 in Part III. The average annual production of food crops and cotton between 1951—56 and 1956—60 compares with the production of 1951-52 as under :—

	Average annual production in hundred tons per year during		
	1951-52	1951-56	1956-60
Rice	49	36	51
Wheat	180	169	212
Jowar	2,046	1,671	1,370
Bajri	30	32	19
Other cereals	....	1	4
Total cereals	2,305	1,909	1,654
Total pulses	492	461	374
Total foodgrains	2,797	2,370	2,027
Cotton (each bale of 392 lbs.)	1,547	1,348	1,586

Compared to the annual production for the year 1951-52, the average annual production of total foodgrains during the First Plan period was lower by 15·27 per cent and during the Second Plan period by 27·53 per cent. The production was lower for all cereals except bajri, total pulses and cotton during the First Plan period. During the Second Plan period however the average annual production was higher than 1951-52 by 4·08 per cent for rice, by 17·78 per cent for wheat and by 2·52 per cent for cotton. Comparison with production in any one year may not however be quite sound as it may have been an exceptionally good or bad year. In this case, 1951-52 may have been a very good year.

Agricultural Implements

The number of agricultural implements for the district and for each of its talukas for the years 1951, 1956 and 1961 are separately shown in Section C of Table 9 in Part III. The remarkable increase in the number of oil engines and electric pumps has already been mentioned earlier. The number of wooden ploughs has decreased by 24 per cent and the number of iron ploughs has increased by 46·43 per cent during the decade. The number of tractors has increased from 52 in 1951 to 128 in 1961.

By using standard average prices of the agricultural implements shown in Table 9 of Part III, the total outlay on them for the year 1961 may be estimated at Rs. 142 lakhs or Rs. 7·53 per acre of the net sown area. The agricultural implements not shown in the table may not together make more than Rs. 2 per acre. The total outlay on this item in the district may approximately be presumed to be less than Rs. 10 per acre.

Agricultural Extension

Agricultural development in the district is now looked after by the Zilla Parishad. A subject committee of the Zilla Parishad deals with it and the District Agricultural Officer works as a Secretary to that committee. There are Agricultural Extension Officers at taluka level working under the Block Development Officer. The latter works as a Secretary to the Taluka Samiti. Talatis and Gram Panchayat Secretaries work as Assistant Gram Sevaks. Village Panchayats are expected to work for agricultural extension at the village level.

Agricultural Research

There are four Agricultural Research Centres carrying out experiments in the district.

The Regional Agricultural Research Station established at Washim in 1918 has an area of 129·25 acres and carries out experiments on wheat as principal crop and cotton, jowar and groundnut as subsidiary crops. Government Experimental Farm at Akola established in 1948 has 271·09 acres of area and carries experiments on groundnut, jowar and cotton. The Agriculture College Farm at Akola has been established in 1959 to facilitate students of the Agriculture College to conduct research mainly on cotton, jowar and groundnut and also subsidiary crops like tur, mung, udid, bajri, wheat, etc. The farm has an area of 216 acres.

The Model Agronomic Centre at Akola has been established in 1952 for testing Kharif jowar and cotton as principal crops and groundnut as a subsidiary crop.

Agricultural Improvement

(*i*) *Increasing the area under irrigation.*—Greater emphasis has been laid in the Five-Year Plans on extension of area under irrigation. During the First Five-Year Plan, a tank having 85 acres irrigation potential was constructed in Washim taluka. In the Second Plan period another tank at Warud in Mangrulpir taluka was constructed. This raised irrigation potential by 125 acres. Works on Rishi tank at Karanja in Murtazapur taluka, medium projects on Katepurna river in Akola taluka and on Chandrabhaga river in Washim taluka (Ekburji Tank) have been carried over to the Third Plan. The projects when completed will irrigate area of about 32 thousand acres. Besides these spill over works, the Third Plan envisages construction of minor irrigation projects such as construction of 21 bandharas, 3 irrigation tanks, etc., which will raise irrigation potential by 2·5 thousand acres.

A medium project irrigating 5,600 acres is also proposed on Morna river in Akola taluka.

In addition to these medium and minor irrigation projects 1,200 new wells were constructed and 750 old wells were repaired during the first two Plan periods. The target for the Third Plan period is construction of 1,300 new wells and installation of 1,100 pumping sets involving an outlay of Rs. 12·05 lakhs.

(*ii*) *Improved Seeds.*—Another item of increasing food production is the use of improved varieties or strains of crops. The Agriculture Department has on the basis of research conducted at the four research stations in the district, recommended the following improved varieties or strains of crops for the district :—

(1)	Cotton	AK-235, L-147.
(2)	Jowar	N.S. 164.
(3)	Groundnut	AK-12-24.
(4)	Wheat	H.7.25.
(5)	Gram	Chafa.

Seed farms have been established at 12 different places in the district to provide improved seeds to the farmers. The combined area of the seed farms is 564·60 acres.

(*iii*) *Soil Conservation or Bunding.*—During the Second Five-Year Plan an area of 5,343 acres was contour bunded. The Third Five-Year Plan schemes include bunding on 58 thousand acres at an outlay of Rs. 30·80 lakhs and afforestation in 100 acres involving an outlay of Rs. 25 thousands.

Livestock

The numbers of livestock for the years 1951, 1956 and 1961 have been shown separately for each taluka and the district in Table 9 (Section A) of Part III.

There are 8·6 lakhs livestock in the district in 1961. This makes 45 livestock per 100 acres of cultivated area. The corresponding average for the State is 139.

The total bovine population of the district in 1961 is 75·82 per cent of the total livestock. The number of male bovines over 3 years is 2·2 lakhs. The area cultivated per pair of male bovines over 3 years is thus 17·15 acres as against the average of 5·48 acres for Maharashtra. There are 2·4 lakhs female bovines over 3 years. That makes 203 female bovines over 3 years per 1,000 population, which is higher than the average for Maharashtra (159).

The total livestock increased by 25·28 per cent from 1951 to 1961. Considerable increase occurred in each type of livestock during the period 1951 to 1956. But in the next five years, there was a small reduction in all types except buffaloes. During the latter period the number of horses and ponies was reduced by 2,300 or 35·94 per cent. The decade increase in the number of sheep is very high (206·41 per cent).

Veterinary Facilities

There are 10 fullfledged veterinary dispensaries at Akola, Washim, Murtazapur, Karanja, Mangrulpir, Balapur, Akot and three other places and 37 veterinary aid centres at different places in the district. One more veterinary aid centre was established in 1961-62.

Treatment of animal diseases, control of epidemics, castration of male bovines and control and destruction of animal parasites are the main services rendered at these dispensaries and aid centres.

An artificial insemination centre was established at Akola in December 1961 for improving cattle breed by selective breeding. It has two sub-centres at Akola and Balapur. Hariana, Nemari and Berari breeds are maintained at those centres. Two key village centres are functioning at Washim and Akola. Twenty-seven premium bulls of Hariana breed are kept at these and other key village units.

Poultry breeding centres are established at Akola, Akot and Washim in 1961-62. Poultry demonstration farms are working at Mangrulpir and Balapur. Two private poultry units are established at Akola.

AGRARIAN STRUCTURE AND LAND REFORMS

Land Tenures

As in the other districts of Maharashtra, the land tenure has been of the Ryotwari type at least since the introduction of the survey and settlement. Under this system each field is considered a separate holding which the ryot holds directly from the State, and the holder or occupant of the field is called the Khatedar. The right of occupancy depends on the regular payment of the assessment by the Khatedar and in case of failure to meet the demand he forfeits his right and the land reverts to the State.

There were 56 Jagir and 20 Izara villages. Jagir villages had been granted by the Nizam as a reward of some services performed or on conditions of continuing some services. In the Izara villages, the lands had been granted to the holders on a long-term lease with favourable terms of rent or land revenue but on conditions of populating the village and cultivating the lands. There are no inam villages though there are inam lands in certain villages. All proprietary rights in estates, mahals, alienated villages or alienated land have been abolished under the Madhya Pradesh Abolition of Proprietary Rights (Estates, Mahals, Alienated Land) Act, 1950.

Ownership Rights to Tenants

Tenancy rights are regulated under the Bombay Tenancy and Agricultural Lands (Vidarbha Region) Act which is in force since 1958. It provides security of tenure to and payment of only reasonable rents by the tenants.

In pursuance of the "Land to the Tiller" policy the Act provided for compulsory transfer of ownership rights of tenanted lands to the tenants from 1st April 1961. This was an important step towards the removal of absentee landlordism which was one of the disincentives in any programme of agricultural improvement. Upto 31st March 1964, ownership rights have been conferred upon 27,389 tenants in the district.

Size of Land Holdings

Census Table B-X (based on 20 per cent Sample) in Part II of this Volume shows that 46·01 per cent of the total number of households cultivate land and the remaining 53·99 per cent do not cultivate any land.

Census Table B-XI (based on 20 per cent Sample) in Part II shows the break-up of cultivating households by size of land cultivated and by the interests in the land. 82·08 per cent of the cultivating households cultivate their owned lands only. 4·69 per cent of the households cultivate tenanted lands only and the remaining 13·23 per cent cultivate lands partly owned and partly taken on lease. Percentage distribution of cultivating households by the size of land cultivated is shown below.

The distribution of households in Table B-XI and the same shown in percentages in column 2 below, is based on cultivation (operational) holdings as returned in the 1961 Census.

A classification of holdings on the basis of area owned (against the area cultivated) for the year 1952-53 is shown in Table 10 in Part III. The percentage distribution of these ownership holdings is also shown in column 3 below :

Area	1961 cultivation holdings	1952-53 ownership holdings
Less than 1 acre	0·56	8·76
1 to 4·9	25·51	37·04
5 to 9·9	21·20	20·90
10 to 14·9	14·32	10·53
15 to 29·9	21·37	12·67
30 to 49·9	9·71	5·23
50 + ...	7·33	4·87
Total ..	100·00	100·00

The average size of cultivation holding in the district in 1960-61 is 18·45 acres. Average size of the ownership holding in the district was 14·35 acres in 1952-53 against the average of 12 acres for the State.

Record of Rights

A Record of Rights in land is maintained by the Revenue Department for each village separately. It is integrated with annual crop returns and inspections and is, therefore, easily maintained up-to-date. Rights on land in respect of ownership, tenancy, mortgage and other encumbrances are recorded and a form is maintained for each parcel of land separately. It is obligatory on every person acquiring any right on land to report it within three months. Annual Revenue accounts are prepared on the basis of the Record of Rights.

Ceiling on Holdings of Agricultural Land

The Maharashtra Agricultural Lands (Ceiling on Holdings) Act, 1961, came in force from 26th January 1962. Five local areas, *viz.*, Akot, Akola, Murtazapur, Washim and Mangrulpir have been notified in the district with different ceiling areas for dry crop land, *viz.*, 78, 84, 96, 108 and 114 acres, respectively. In the case of irrigated lands, the ceiling area is the same in all the five local areas, *viz.*, 18 acres in the case of perennially irrigated areas, 27 acres in areas irrigated in two seasons and 48 acres in areas which get irrigation water for one season. Holders of land in excess of the ceiling areas are not now free to transfer or partition any land until the land in excess of the ceiling is determined under the Act. They were required to furnish returns of their holdings to the Collectors. The Collectors are to make enquiries to determine the surplus lands and take them over in possession. Those lands shall afterwards vest in the State Government. The Act also provides for payment of compensation to the holders at specified rates and for distribution of surplus lands to landless or other persons in the prescribed order of priority. At the moment, the enquiries to be made by the Collectors are in progress.

Consolidation of Holdings

The provisions of the Bombay Prevention of Fragmentation and Consolidation of Holdings Act, 1947, were applied to the district in 1959 and the work of consolidation of holdings was started only in Akola taluka. The scheme is to arrange mutual exchange of small and scattered fragments of holdings and to make the land holdings as compact as possible. Upto the end of March 1963, 10 villages have been completed covering an area of 12,497 acres with 1,923 holdings. The work has been stopped since October 1962.

The standard areas specified as minimum necessary for profitable cultivation under the Prevention of Fragmentation and Consolidation of Holdings Act are as follows :—

(*i*) Dry crop land	..	2 acres.
(*ii*) Bagait lands	..	1 acre.

All plots of land less in area than the standard area are treated as fragments and their transfer except to holders of contiguous plots is prohibited.

CO-OPERATION

Administration

The Deputy Registrar of Co-operative Societies is in charge of the Co-operative movement in the district. He is assisted by two Assistant Registrars who have territorial jurisdiction and deal with all aspects of the Co-operative movement in the district. In addition an Assistant Registrar works under the Zilla Parishad. He carries out the duties of registration, deciding appeals against non-admission of members, approval of bye-laws and administrative supervision in respect of Co-operative Societies whose working capital does not exceed Rs. 5 lakhs and whose jurisdiction does not extend beyond the district. The Zilla Parishad also looks to the promotion and extension of Co-operative movement in the district.

The Co-operative movement though originated in the second decade of the century, lacked popular enthusiasm till 1940. It made good progress during the World War II. Concentrated efforts have resulted in a very rapid progress of the Co-operative movement during the last decade. Co-operative activities have now been extended to banking, dairy farming, processing of agricultural products, fisheries, marketing, etc.

The following description is based on the report for the year 1960-61.

Co-operative Credit

(*a*) *Agricultural Credit Societies.*—The position of Agricultural Credit Societies in 1957-58 and 1960-61 is as follows :—

	1957-58	1960-61
(1) Number of Agricultural Credit Societies	820	835
(2) Number of members	45,534	68,126
	(Rs. in lakhs)	
(3) Share capital	10·66	33·70
(4) Reserve and other funds ..	7·80	8·89
(5) Working capital	34·78	221·74
(6) Number of members to whom loan was advanced	....	53,882
(7) Amount advanced	72·57	157·83
(8) Amount recovered	43·12	144·23
(9) Loans outstanding	89·20	169·29
(10) Overdues	31·48	24·20

Average membership per primary society is 82 as against the average of 96 members for Maharashtra. All the villages in the district have been covered.

The total owned funds (share capital *plus* reserve funds) of the Primary Agricultural Credit Societies amounted in 1960-61 to Rs. 42·59 lakhs and formed 67·42 per cent for their working capital as against 26 per cent for Maharashtra. The corresponding figure in 1957-58 was only Rs. 17·86 lakhs.

The loans operations of all Primary Agricultural Credit Societies in the district amounted to Rs. 157·83 lakhs. The average amount of loan per borrowing member in the district worked out to Rs. 292 as against the average of Rs. 329 for Maharashtra.

With 49·62 per cent increase in the membership, 216·14 per cent increase in share capital and 81·63 per cent increase in working capital, during a period of only three years, the Agricultural Credit Societies in the district appear to be making very rapid progress. The proportion of overdues to the outstanding loans has also decreased considerably from 35·29 per cent in 1957-58 to 14·29 per cent in 1960-61.

Besides the financial activities, good progress has been made by Agricultural Credit Societies in the sphere of services to agriculturists such as distribution of agricultural requisites (like seeds, manures, etc.), marketing of agricultural produce, etc. In the year 1959-60, efforts were concentrated on forming service co-operatives on the new pattern and more than 600 agricultural credit societies were converted into service co-operatives.

(*b*) *Central Co-operative Bank.*—The Central Co-operative Bank at District headquarters was established in the year 1909 and has been working as a federal financing agency catering for the credit requirements of all the Primary Credit Societies in the district. Since 1962, the Zilla Parishad also transacts its financial business through that Bank.

In the year 1960-61, the position of the Central Co-operative Bank was as follows :—

(1) Number of members—		
(*a*) Individuals ..	.. ..	1,269
(*b*) Societies ..	.. ..	885
(2) Paid-up share capital ..	.. (Rs. in lakhs) ..	31·66
(3) Reserve and other funds	.. (Rs. in lakhs)..	16·03
(4) Deposits—		
(*a*) Individuals ..	.. (Rs. in lakhs)..	30·86
(*b*) Societies and Banks	.. (Rs. in lakhs)..	22·66
(5) Borrowings—		
(*a*) State Co-operative Bank and the Reserve Bank of India	.. (Rs. in lakhs) ..	105·99
(*b*) Government	.. (Rs. in lakhs) ..	0·15
(*c*) Other sources	.. (Rs. in lakhs) ..	0·98
(6) Working Capital..	.. (Rs. in lakhs) ..	208·33
(7) Cash—		
(*a*) On hand ..	.. (Rs. in lakhs) ..	4·42
(*b*) At Banks ..	.. (Rs. in lakhs) ..	14·45
(8) Investment— Government and other Trustee securities	(Rs. in lakhs) ..	4·01
(9) Percentage of cash in hand to deposits	..	8·25
(10) Percentage of investment to deposits	..	7·49
(11) Loans outstanding—		
(*a*) Individuals	.. (Rs. in lakhs) ..	1·17
(*b*) Societies ..	.. (Rs. in lakhs) ..	167·61
(12) Percentage of loans outstanding to deposits	..	315·36
(13) Percentage of loans outstanding to working capital	..	81·02
(14) Overdues ..	.. (Rs. in lakhs) ..	17·78
(15) Percentage of overdues to loans outstanding		10·53
(16) Cost of management	.. (Rs. in lakhs)	2·10
(17) Percentage of cost of management to working capital	..	1·01
(18) Profit ..	.. (Rs. in lakhs) ..	2·36
(19) Number of branches and pay offices in the district.	...	13

During one year (1960-61), paid-up share capital increased by 47·67 per cent, individual deposits by 59·07 per cent and working capital by Rs. 30·74 lakhs. The percentage of overdues to the outstanding loans which had reached an alarming proportion of 76·30 per cent lowered down to 10·53 per cent during the same year. The bank opened six new branches and pay offices in the district during the year and made a profit of Rs. 2·36 lakhs.

(*c*) *Land Mortgage Bank.*—The Primary Land Mortgage Bank was established at Akola in the year 1938 with a view to provide long-term finance to the cultivators. In 1960-61, the membership of the Bank was 1,011, paid-up share capital Rs. 66 thousands, and working capital Rs. 14·89 lakhs. Loans amounting to Rs. 7·33 lakhs were advanced during the year. The Bank made a profit of Rs. 24 thousands in the same year.

(*d*) *Urban Banks and Credit Societies.*—There are in all 23 Urban Credit Societies in the district. There was no Urban Bank till 1961 in the district. The combined membership of the credit societies in 1960-61 was 2,305, paid-up share capital Rs. 17 thousands, and working capital Rs. 4·15 lakhs. The societies advanced loans of Rs. 1·12 lakhs during the year. 19 of those societies, together showed a small profit of Rs. 2 thousands, and 3 societies sustained a loss of Rs. 4 thousands during the same year.

Agricultural Processing Societies

There are three Cotton Ginning and Pressing Co-operative Societies organised in the district during 1960-61. Their combined membership consists of 325 societies and 1,420 individuals. The paid-up capital is Rs. 2·89 lakhs. The societies have yet to start production.

Industrial Societies

On 30th June 1961 there were 9 Weavers' Societies and 42 other Industrial Societies in the district. Of the 9 Weavers' Societies, 7 were Handloom Weavers' Societies and 2 were Khadi Weavers' Societies. The Handloom Weavers' Societies are given financial assistance by way of rebate on the sale of handloom cloth, management grants to sale depots, looms and subsidies for purchase of accessories.

The other types of industrial societies include 3 Oil Ghanies, 2 Hand Pounding, 2 Tanning, 8 Leather Working, 8 Carpentry and Smithy, 1 Metal Working, 10 Pottery and brick-making, etc. Many of these industries have been organised during the last three years and have yet to make much progress.

Forest Labourers' Societies

There are two Forest Labourers' Co-operative Societies and two Labour Contract Co-operative Societies in the district with membership of 70 and 77 respectively. Their working capital is Rs. 1,070 and 2,598. Till June 1961 the Societies did not function as no coupes were allotted.

Co-operative Farming Societies

There are 5 collective farming, 2 joint farming and 1 better farming societies in the district. Their respective membership is 61, 26 and 91, and their paid-up capital is Rs. 9 thousands, Rs. 5 thousands, and Rs. 2 thousands, respectively.

In the year 1960-61, the collective farming societies cultivated all the 406 acres under their command. The societies received Rs. 21 thousands as loan during the same year.

The joint farming societies cultivated 86 acres out of 391 acres in their command and had received Rs. 5 thousands as a loan from Government.

The better farming society cultivated all the 604 acres under its command.

Dairy Societies

One dairy union and 5 milk supply societies have been organised in the district. The union has a membership of 11 societies and has Rs. 1 thousand as paid-up capital. The union has yet to start functioning.

The combined membership of the milk supply societies is 95 individuals and the paid-up capital Rs. 12 thousands. The societies received Rs. 2 thousands as loan from Government in 1960-61. Milk worth Rs. 44 thousands was sold during the year. Three societies made a profit of Rs. 3 thousands and two suffered a loss of Rs. 1 thousand.

Fishery Societies

One Co-operative Fishery Society has been registered during the year 1960-61 with 12 members. The society is, however, yet to be organised.

Purchase and Sale Societies and Unions

There were 6 Taluka Agricultural Associations in the district in 1957-58. They were converted into Purchase and Sale Societies. In 1960-61, there were 8 Primary Purchase and Sale Societies in the district. Their combined membership was 656 societies and 4,258 individuals, paid-up capital of Rs. 3·39 lakhs, and working capital of Rs. 7·58 lakhs. The societies cover all the 15 mandies (14 regulated markets and 1 non-regulated) in the district.

The societies undertake the activities of supplying good seed, manure and fertilisers to agriculturists sales of consumer goods, iron, steel, cement, sugar, etc. and also act as selling agents to agricultural producers.

During the year 1960-61, the total sales of the societies amounted to Rs. 188·78 lakhs out of which sales as agents amounted to Rs. 31·90 lakhs. The societies earned Rs. 85 thousands as commission during the same period and together made a profit of Rs. 1·78 lakhs. The societies received Rs. 8 thousands as loan and Rs. 3 thousands as subsidy from Government for construction of godowns and Rs. 5 thousands as subsidy for other purposes. The societies owned 7 godowns and hired 25 more.

Consumers' Movement

On 30th June 1961 there were 28 Primary Consumers' Stores in the district with 7,334 members. Their paid-up share capital was Rs. 62 thousands and working capital was Rs. 1·14 lakhs. During the year 1960-61, 14 of those stores made a profit of Rs. 12 thousands and 12 sustained a loss of Rs. 4 thousands.

Housing Societies

On 30th June 1961 there were 16 Co-operative Housing Societies. One of them at Washim was run by Backward Class persons. The total membership of the societies was 790, share capital Rs. 1·10 lakhs and working capital Rs. 10·55 lakhs. The societies constructed 37 independent houses and also advanced Rs. 1·39 lakhs as loans in the year 1960-61.

Audit Classification

The audit classification of different types of societies in the district on 30th June 1961 is as follows :—

Type	No. of Societies classified as				No. of societies not classified	No. of societies not audited	Total
	A	B	C	D			
Central Co-operative Bank ..	...	1	..	..	...	...	1
Agricultural Credit Societies ..	2	216	496	4	5	112	835
Non-agricultural Credit Societies		5	9	3	..	5	22
Primary Land Mortgage Bank		1	..	..	..	...	1

FORESTS

The district has an area of 351·28 sq. miles under forests. 318·20 sq. miles are in charge of the Forest Department and the remaining in charge of the Revenue Department. The forest area makes 8·3 per cent of total geographical area as against the average of 17·56 per cent for Maharashtra.

The forests are mainly in Balapur, Akola and Mangrulpir talukas on the Balaghat plateau of Ajanta hills, the Narnala reserves of the Satpura ranges and in the Payanghat along the plains of the Purna river.

The forests are administered by the Divisional Forest Officer, West Berar Division, who has headquarters at Akola. The Division comprises of Akola and Buldhana districts and works under the Amravati Circle. The forests in charge of the Revenue Department are looked after by the Collector of the district.

The forests in the district fall in the " Dry Deciduous Type ". The chief species of the forests is teak. It is found all over except the forests thicketed with Babul trees and grass *ramanas*.

The other important species are Babul, Anjan, Bamboo, Sandalwood, etc. Babul forests are confined mainly to Payanghat on the Purna river banks and in a small portion of northern Balaghat plateau, Anjan in the western portion of the Chikhalwal reserve of Balapur taluka and Bamboo in the Narnala reserve. Sandalwood forests are patchy and are the results of plantations.

Forests produce is transported by trucks to Akola and Washim, which are the important forest produce collection centres. Most of the produce is consumed within the district and very small proportion is exported by trucks to Nagpur, Poona, Bombay and Marathwada region. In fact the produce is not sufficient in quantity even to meet local demands for which imports come from neighbouring forest divisions. Forest produce worth about Rs. 9 lakhs is extracted annually.

308 persons are according to the 1961 Census engaged in forestry and logging as principal work. Their distribution for industry minor groups is shown in Table B-IV-C in Part II.

The exploitation of forests in charge of Forest Department is regulated under the working plan which applies to 'A' Class forests. The 'A' Class forests have an area of 225·34 sq. miles and are primarily intended for the production of timber and firewood. Under the scheme the forests are mainly divided into three working circles : (1) Coppice with reserves, (2) the Babul forests wherein system of clearfelling with artificial regeneration with agri-silvi method is used and (3) Bamboo overlapping working circles. In case of Sandalwood forests, only thinnings are prescribed.

For the rest of the forest of Class 'C' a separate scheme is being worked out.

The following schemes are being implemented during the Third Five-Year Plan :—

(1) *Plantation of valuable trees*:—Planting of Teak, Semal and Eucalyptus trees in 50 acres involving an outlay of Rs. 0·08 lakhs.

(2) *Establishment of wet nurseries.*—Two wet nurseries have already been established in the district during the Second Plan period. One more nursery is to be established during the Third Plan period.

(3) *Afforestation for soil conservation.*—An area of 100 acres to be afforested with the outlay of Rs. 0·25 lakhs.

(4) *Development of pastures.*—Plantation in 75 acres involving an outlay of Rs. 0·38 lakhs. Out of which, plantation in 25 acres has already been completed.

(5) *Development of minor forest produce.*— (*a*) Agave plantation : to be undertaken in 35 miles in a line. (*b*) Bamboo plantation: in 81 acres areas. Out of this, plantation is already completed in 6 acres. Financial target for both these plantations has not been fixed.

Wild life is not varied and is found only in the remote parts of the forest. A game sanctuary of about half a square mile has been created around the Narnala Fort.

FISHERIES

Fishing activity in the district is naturally restricted to inland waters only, rivers, tanks and ponds being the chief sources. The important rivers of the district are Purna and Penganga. These rivers and their tributaries afford a length of 540 km. of waters for fishing. In addition about 2,279 acres of waterspread area is available for fishing from 11 perennial and 156 seasonal tanks. Two reservoirs are under construction, one at Ekburji and the other at Katepurna. The Ekburji tank is nearing completion. These tanks, when completed will afford a large field for development of fishing industry.

The commercially important varieties of fish found in the district are :—

Murrel, Dhadkya, Botri, Padhan, Tambu, Karvadi, Poshti, Dhoara, Gane or Kanheri, Chela, Katva, Seenghan, Chandni, Mahaseer, Kolus, Magur, Zinga, etc.

These varieties are not of fast growing type. "Bengal Carps" are, therefore, imported every year and released in the tanks for propagation of pisciculture. The varieties imported are Catla Catla, Labeo Rohita, Cirrhina Mrigala and Cyprinus Carpio. The tanks at Risod, Haral and Karanja are used for pisciculture.

The 1961 Census reported 381 persons engaged in fishing as principal work. 361 of them are males and 20 females. Fishermen in the district belong to the communities called Dheemer, Bhoi and Kahar. Since fishing industry has a limited scope, some of them take to seasonal agriculture.

Fishing is generally done with the help of Gill nets called *udan* or *tangar*, cast nets called *bhawan jal*, Drag nets called *odhe jal* and Long lines called *dawan*. The nets are commonly made of cotton twine but these days nylon twine is also being used to some extent.

One Fishermen's Co-operative Society has been organised in the district in 1960-61.

MINING AND QUARRYING

Part of the district is covered by Deccan Trap which is used for building purposes. Deposits of minerals have not been found so far in the district. Mining activity in the district is, therefore, restricted only to the quarrying of stones.

In 1961 Census, 865 persons are reported as working on quarrying of stones, clay, sand, etc. 600 are males and 265 females. 4 males are also reported as working on mining of coal. They might be working in coal mines in Chanda district and might have come to Akola temporarily during the 1961 Census enumeration period.

INDUSTRIES

There are about a dozen large-scale industries in the district. Most of them are, however, processing units. The cottage and small scale industries which serve as subsidiary occupations to the agriculturists are comparatively in larger numbers. Agro-based industries like ginning and pressing factories and oil mills are the common types of units found. The employment in non-agricultural industries leans heavily towards village and cottage industries, i.e., the village artisans working on traditional lines with the locally available raw materials and for local demand alone. There are only 3 large-scale manufacturing factories, two producing textiles and one hydrogenated oil (Vanaspati). With the availability of more power from the Paras Thermal Station, there is certainly a vast scope for further industrial development in the district.

There are in all 28,388 workers engaged in industries, 13,407 or 47 per cent of them are in household industries and 14,981 or 53 per cent in non-household industries. The total number of workers in the registered factories in 1961 is 6,979 which makes 24·58 per cent of all workers engaged in industries or only 6 factory workers per thousand of total population against 20 per thousand of total population of Maharashtra.

The distribution of workers engaged in each industry major and minor group is shown in Table B-IV-C in Part II. The number of establishments and the number of workers for each industry minor group prepared from the houselists are also shown separately, for each village in the Village Industries Table presented at the end of Part II.

Large-scale Factories

The only large-scale industries in the district employing 50 or more workers and using power are the two cotton spinning and weaving mills and a hydrogenated oil (Vanaspati) mill. All the three are located at Akola.

The two cotton spinning and weaving mills of Akola town are (1) the Mohata Mills and (2) the Savatram Ramprasad Mill. The former is closed for the present. The latter produces both cotton yarn and cloth. The combined capacity of the two mills is 36,196 spindles and 783 looms.

The hydrogenated oil (Vanaspati) mill is known as the Berar Oil Industries and produces hydrogenated oil, in addition to non-fatty vegetable oil and soap. In addition to the oil hydrogenation plant, there are a number of ginning and pressing units combined with oil-milling providing work almost all the year round.

Small-scale Registered Factories

There are 202 small-scale establishments like dal mills, oil presses, confectionery, bidi-making, saw mills, printing and book-binding, soap-making, metal-plating, general jobbing and engineering, etc., in the district. Electrical and iron goods manufactured by one of the concerns have a demand not only in Vidarbha but also from Marathwada and Madhya Pradesh. Cement bricks are also manufactured and exported to nearby districts in Marathwada and Madhya Pradesh. A workshop manufacturing spare parts of machinery and undertaking repairs is well-known in Vidarbha, Marathwada, Madhya Pradesh, Jalgaon and Dhulia districts.

The total number of registered factories has slightly decreased from 86 in 1957 to 85 in 1961. The number of workers in registered factories has also decreased from 8,386 in 1957 to 6,979 in 1961.

According to the Census of Manufacturing Industries in 1959, the manufacturing industries in the district had a combined fixed capital of Rs. 37·3 lakhs and working capital of Rs. 75·5 lakhs. The total value of annual production was Rs. 656·0 lakhs and the value added by manufacturing was Rs. 76·5 lakhs. These figures relate only to the industries covered by the Census of Manufacturing Industries Act.

The value added by manufacture in the district in 1959 is only 0·38 per cent of the total for Maharashtra.

Small-scale and Cottage Industries

In the Cottage and Small-scale Industries sector, handloom, khadi and village industries, handicrafts and professions like shoe-making, carpentry, brick-making, pottery, oil ghanies, etc., are some of the important industries in the district. Some of these manufacturing industries are traditional crafts conducted on household and cottage industries scale. Cotton weaving in handlooms is also common in some parts of the district.

Manufacture of miscellaneous textile industrry engages 4,275 workes, This group mostly includes tailors engaged in making garments for men and women.

3,638 persons are engaged in the production and rearing of livestock. Akola and Washim are well known for providing new breeds of cocks and hens in the district while there are poultry demonstration units at Risod Mangrulpir, Akot and Karanja.

Cotton ginning and pressing engages 2,227 persons. These processing industries are spread all over the district. 2,028 persons are working in cotton spinning and weaving in mills. The number of persons engaged in cotton weaving in handlooms is only 473. These persons are spread all over the district and are mainly in Akot, Washim and Balapur. They are mostly Momins and Koshtis. Mattresses from Akot and Balapur are well known in the country. This industry is, however, on the decline due to competition from the goods manufactured in mills. Most of the persons previously engaged in this industry are, therefore, forced to seek alternate employment. Efforts are, however, being made to revive the industry by bringing the workers under co-operative fold and Industrial Weavers' Co-operative Societies have already started working in the district. At the end of May 1961 there were 2,021 cotton handlooms in the district.

There is also a factory manufacturing wooden toys in Akola. There are 865 flour mills engaging 1,219 workers.

3,987 workers are engaged as carpenters, joiners, cabinet makers, etc. They are mostly the artisans who manufacture, fix or repair doors and door-frames, wooden roof beams, furniture and agricultural implements.

2,167 workers are engaged in making earthen pottery. These are the village potters most of whom still work on the traditional baluta system under which they get a fixed quantity of foodgrains at the harvest time for supply of earthenware during the year.

The proportions of different groups of artisans to one lakh of total population in the district are as follows:—

Blacksmiths	103
Carpenters	240
Shoe-makers	144
Potters	182
Tailors and Dress-makers ..	339
Spinners and Weavers	88
Basket weavers	78

Industries Department has organised peripatetic demonstration parties, each consisting of six instructors and six semi-skilled workers. Training is imparted to the craftsmen at their door-steps in the use of improved processes and labour saving contrivances. Units have been started for setting up training facilities and organisation of production-*cum*-marketing centres for village industries. The principal trades taken up for this scheme are weaving, carpentry and black-smithy, pottery and brick-making, cane and bamboo work, tannery and leather goods, oil ghanies, tailoring and other allied industries.

The "Master Plan" prepared by the Industries Department in 1960 had indicated scope for establishment of following new industries in the district :—

(1) Cotton seed oil, Solvent extraction, refining, fat splitting and distillation of acids ;
(2) Surgical Cotton ;
(3) Steel rerolling mills ;
(4) Manufacture of industrial machinery ;
(5) Structural workshops for manufacture of railway wagons ; and
(6) Industrial rubber goods.

Industrial Estates

It is proposed to set up an Industrial Estate at Akola, initially in the Third Five-Year Plan. This estate is going to be established on co-operative basis.

POWER

The number of electrified towns and villages in the district is 89. Their talukawise lists are given in Table 31 in Part III. The total population of these electrified places is 35·09 per cent of the total population of the district.

The district consumption of electricity on different items for eight years is shown in Table 30 in Part III.

The *per capita* consumption is naturally much lower than the State average, as only 89 towns and villages in this district had been electrified.

The district gets its electricity through the Maharashtra State Electricity Board, from the Paras Thermal Power Station. Paras is 18 miles from Akola and is the third largest Thermal Power Station in the State. The project was commissioned on 31st March 1961 with a capacity of 30,000 KW. During the Third Five-Year Plan the capacity is expected to increase to 90,000 KW. leaving a scope for further expansion up to 120,000 KW. It is proposed to connect this project with the Thermal Power Stations of Khaparkheda near Nagpur and Ballarshah near Chanda, so as to generate power sufficient to meet the needs of Nagpur and Aurangabad Divisions and parts of Jalgaon district from Bombay Division. This expansion of Thermal Power supply will surely accelerate industrial development in the district.

TRADE AND COMMERCE

Raw cotton is by far the most important article of export in addition to cottonseed, other oil-seeds, oil-cake, jowar, betel leaves, cattle, etc. Betel leaves are grown extensively in Akot and nearby villages and are well known because they can be preserved for about two months. They are largely exported to Delhi, Amritsar, Burhanpur, Ambala, Ferozepur, Ahmadabad, Surat, Jalgaon and Dhulia. Risod in Washim taluka is located on the border of Nagpur and Aurangabad Divisions and is well known as a foodgrains market centre. Umbarda in Murtazapur taluka is a cattle market centre and specially bullocks are sold at this market throughout the year and people from distant places come there to purchase bullocks and other cattle.

The chief articles of imports are rice, wheat, pulses, gur, salt, piece-goods, miscellaneous provisions, coconuts, fruits, tobacco, medicines, oils, stationery, etc. The position of Akola is such that goods can easily be transported either by rail or road to other places in the country. It is for this reason that a part of the goods imported in Akola are re-exported mainly to Yeotmal, Parbhani and Nanded districts.

Agriculturists themselves bring their produce for sale to the markets. In some cases the agents themselves go to the villages and purchase the produce from producers. The distribution of goods beyond the wholesale trade centres is done at market places and weekly bazars held at different places and on different days of the week.

Shops

Every village is within the reach of one or more bazars held on different days of the week. In addition it has one or more shops. These shops provide the inhabitants with their day-to-day requirements. The articles sold are all kinds of grain ; such groceries as salt, oil, chillies, sugar, coconuts, soap, tea, tobacco, betelnuts; and other articles required by people for their daily use. There are in all 8,165 shops in the district. 4,528 are in rural areas and 3,637 are in the urban areas. This does not include the shops temporarily set up in the weekly markets or fairs. The number of shops per 1,000 dwellings is 32·4 for the district as a whole, 22·4 for rural areas and 68·4 for the urban areas. It will be seen that the urban areas have about three times more shops per 1,000 dwellings than rural areas. The ratio between shops and 1,000 dwellings for the district is less than the State average of 36·4. Talukawise number of shops may be seen in Table E-I in Part II.

Weekly Markets

These markets are popularly known as "Bazars" and are distributing rather than collecting centres. The chief articles sold are all sorts of grains, salt, oil, various articles of clothing, cattle, miscellaneous articles such as pots, pans, cotton-seed, vegetables, betel leaves, etc. Pedlars and hawkers set up booths on market days. A number of traders make their living by visiting six or seven important bazars every week, carrying their goods in bullock carts or on horseback. Agriculturists from the nearby villages also bring their farm produce. The traders and shopkeepers belonging to the market place also set up temporary stalls. Buyers come from nearby villages within 4-5 miles.

Column 7 of the Village Directory in Part I shows for each village in the district if a weekly market is held and if so, on which day of the week. A list of weekly markets in the district given in Table 32 in Part III shows the location and day on which each bazar is held. The map facing page 214 shows the locations of all these markets and also the days on which they are held.

75 weekly markets were reported in the district during the year 1909. At present there are 219 weekly and bi-weekly markets in the district. Seven out of them are cattle markets and three are bi-weekly markets. 31 weekly markets (bazars) are held on Sunday, 19 on Monday, 36 on Tuesday, 36 on Wednesday, 35 on Thursday, 37 on Friday and 25 on Saturday.

The map facing page 214 shows that weekly markets cluster as satellites around a central village. Each has its bazar, on one of the days of the week, keeping the pedlars and hawkers engaged throughout the week and also providing a choice to buyers to go to one nearby market or the other.

Fairs

Fairs vary from a little gathering hardly known outside its own village to a concourse numbering some thousands and including representatives from distant parts of the country. So far as trade is concerned, fairs are complementary to weekly markets. Considerable quantity of agricultural produce and other articles of daily use are brought for sale. A list of fairs, held in the district, showing their locations, duration and dates and approximate number of persons attending is presented in Table 33 in Part III. The map facing page 217 show the location of all the fairs in the district having 1,000 or more gatherings. A volume giving details regarding fairs and festivals in Maharashtra is also issued separately.

Trade Centres

Apart from the weekly markets and fairs there are eight wholesale trade centres in the district, as far as collection and export of agricultural produce are concerned. They are (1) Akola, (2) Murtazapur, (3) Karanja, (4) Washim, (5) Telhara, (6) Akot, (7) Malegaon and (8) Risod. All these markets are regulated under the Central Provinces and Berar Agricultural Produce Markets Act, 1935 and the Central Provinces and Berar Cotton Market Act, 1932. With a view to ensuring a fair price to the agriculturists, facilities of warehousing and storage have been provided at a number of places. One warehouse with facilities of storing goods scientifically has been provided at Akola by the Central Warehousing Corporation of the Government of India. Large, medium and small sized godowns are also proposed to be constructed at a number of places.

The figures of arrivals of certain important commodities in some of the regulated markets in the district are given below :—

Name of Commodity	Average of arrivals (in Bengal maunds) of three years ending 1957-58 at				
	Akot	Washim	Risod	Akola	Karanja
Jowar ..	84,000	13,350	27,187	136,206	92,170
Wheat ..	31,500	10,115	16,439	99,183	..
Tur ..	3,500	11,515	10,606	..	34,700
Udid ..	..	110,565	10,203	182,202	19,550
Mung ..	..	..	14,388	..	1,250
Bajri ..	..	..	..	..	2,208

The figures of value of annual turnover of certain markets in the district for the year 1958-59 are as follows :—

Akot (Rs. 6,64,893), Akola (Rs. 5,22,497), Karanja (Rs. 3,23,020), Murtazapur (Rs. 3,34,570), Risod (Rs. 1,21,525), Telhara (Rs. 1,72,062) and Washim (Rs. 3,70,181).

Workers in Trade and Commerce

The total number of persons engaged in trade and commerce in the district in 1961 Census is 21,860 out of which 7,075 or 32 per cent are in rural areas and 14,785 or 68 per cent are in the urban areas. The number of workers in trade and commerce makes 3·74 per cent of all workers in the district. About 41 per cent of the district total is in Akola taluka only.

Only 5·18 per cent of the workers in trade and commerce are engaged in wholesale trade, 90·88 per cent in retail trade and 3·94 per cent in miscellaneous trade and commerce. 91 per cent of the wholesalers are in urban areas.

The number of wholesalers trading exclusively in cereals and pulses is 214. Mostly the wholesale trade of cereals and pulses appears to be combined with wholesale trade of gur, sugar, spices, groundnuts, oil, tobacco, etc. as the number for this group is 398 for the district.

A detailed break-up of workers in trade and commerce by industry major groups and minor groups is shown in Table B-IV-C in Part II.

Banking Offices

A list of banking offices with their years of establishment, type and location is given in Table 23 of Part III. Their break-up by talukas and type is shown in the next column.

	Number of Banking Offices		
	Scheduled	Co-operative	Total
DISTRICT TOTAL ..	11	7	18
1 Akot Taluka ..	1	1	2
2 Balapur Taluka ..	..	1	1
3 Akola Taluka ..	6	1	7
4 Murtazapur Taluka ..	3	1	4
5 Mangrulpir Taluka ..	..	1	1
6 Washim Taluka ..	1	2	3

Akola taluka is leading in banking activity because Akola, the district headquarters, is also a very important trading centre. Every taluka in the district has at least one branch of the Central Co-operative Bank.

The State Bank of India works for the treasury in the district and has branches at Akola, Karanja, Murtazapur, Washim and Akot.

COMMUNICATIONS AND TRANSPORT

The district has 155·14 miles of Railway. It belongs to the Central Railway and consists of three different gauges. The broad gauge line of 55·67 miles, connecting Bombay-Calcutta, passes east to west across the district. Akola and Murtazapur are two of the six stations on this line. The metre gauge line of 62·42 miles passes north to south across the district with Washim, Akola and Akot as principal stations. It is known as Hingoli-Khandwa line and was started on 2nd January 1961. The third narrow gauge railway line of 37·05 miles connects Murtazapur on the Bombay-Nagpur line with Achalpur (District Amravati) in the north and Yeotmal in the south.

Existing railway mileage in the district is 3·79 miles per 100 sq. miles of area against 2·66 miles per 100 sq. miles in the State.

Table 21 in Part III shows existing road mileage as well as its break-up by the type of road surface. The district map facing the title page shows all these roads.

Akola, the district headquarters, is well connected by roads and railways with the adjoining districts of Buldhana, Amravati, Yeotmal, Nanded and Parbhani. It is also linked by roads with all the taluka headquarters which are also interconnected with good motorable roads. Bombay-Calcutta National Highway passes through the district for 70·12 miles. Another portion of 18 miles of that Highway is under construction.

During the period 1951—61, there was no change in the mileage of National Highway. The State Highways, however, increased by 195·30 miles. The Major District Roads and other District Roads decreased by 55·63 miles and 3·28 miles, respectively. This decrease appears to be due to transfer of a few roads under State Highways. The Village Roads increased by 5·39 miles only. The total increase in all types of roads (excluding municipal roads) is 141·78 miles.

New Roads

The following roads are under construction (as on 31st March 1962) :—

(1) Murtazapur-Loni Road,
(2) Hiwarkhed-Sonala Road,
(3) Paras-Shegaon-Akot Road,
(4) Kajikhed-Manasgaon Road,
(5) Malegaon-Shelu Road,
(6) Dhanora-Asegaon-Wai Road,
(7) Pinjar-Kherda Road, and
(8) Ansing-Lakhi Road.

New Bridges

Work of the following bridges is in progress (as on 31st March 1962) :—

(1) Footpath over Morna River Bridge on Akola-Hingoli Road.

(2) Cross Drainage Works on Akola-Mangrulpir Road.

(3) Submersible Bridge on Purna River on Murtazapur-Daryapur Road.

Under the Nagpur Plan the district should have 1,568 miles of roads. It was short of that target by 1,020 miles on 31st March 1961.

Air Transport

There is a big open space suitable for landing aeroplanes at Akola.

Posts, Telegraphs and Telephones

The district is included in the West Berar Postal Division. The Head Post Office is situated at Akola and sub-offices at taluka headquarters and towns. The bigger villages have branch post offices. During the year 1961-62 there were 25 sub-post offices and 257 branch post offices in the district. Together their number has increased by about 70 per cent. over that of 1951-52.

There are Telegraph offices at the following 17 places :—

(1) Akola, (2) Akot, (3) Balapur, (4) Washim, (5) Washim town, (6) Borgaon (Manju), (7) Hiwarkhed (Ruprao), (8) Karanja, (9) Malegaon, (10) Mangrulpir, (11) Murtazapur, (12) Murtazapur town, (13) Patur, (14) Risod, (15) Tajnapeth (Akola), (16) Telhara and (17) Vanasada (Akola).

The following 15 places have Telephone connections :—

(1) Akola, (2) Akot, (3) Balapur, (4) Washim, (5) Borgaon (Manju), (6) Hiwarkhed (Ruprao), (7) Karanja, (8) Malegaon, (9) Mangrulpir, (10) Murtazapur, (11) Risod, (12) Shirpur, (13) Wadegaon, (14) Barsi Takli and (15) Mana.

Passenger Road Transport

Buses of individual private operators are running regularly on many village roads. Up to 31st December 1961, no buses of the Maharashtra State Road Transport Corporation were, however, operating in the district except for some stray routes emanating from depots situated in the neighbouring districts of Amravati.

This district is included in the jurisdiction of Akola S. T. Sub-Division. Only one depot is situated at Akola. No separate figures for passenger transport are available for the district, as the division also includes parts of Buldhana district. The Akola depot runs buses on 17 routes which make 76 single trips per day.

Nationalisation of passenger road transport in the district has been started by March 1963 and its coverage is to gradually expand under a phased programme. The Third Five-Year Plan schemes include expansion of the services to new places on public demand, construction of permanent bus stations and pick-up stands and provision of other facilities for the travelling public.

Goods Transport

During the year 1960-61, there were 373 lorries (Private and Public) plying in the district. The corresponding figure for the year 1950-51 was 230.

Workers in Transport and Communications

8,958 persons are engaged in transport and 1,128 in postal, telegraphic and telephone communications, etc. in the district. Out of the workers in transport, 4,442 are in Railway Transport, 1,670 in Motor Transport and 2,846 in other kinds of Transport like bullock carts, horses on hire, coolies, etc.

Communication in Rural Areas

The Village Directory in Part I gives information for each village in the district, whether it is served by a railway or a road or has a post office or not.

CONSTRUCTION

The total number of persons engaged in construction is 4,929. 4,146 are males and 783 are females. Their distribution by minor groups is shown in Table B-IV-C in Part II.

13·71 per cent of the workers are engaged in the construction and maintenance of dams, water-ways and canals, etc., 14·26 per cent in construction and maintenance of roads, bridges, etc., 0·51 per cent in construction and maintenance of telegraph and telephone lines and 71·52 per cent in construction and maintenance of buildings, etc. The large proportion engaged in the construction, etc., of buildings represents in addition to private houses, the construction of buildings for administrative offices, residential quarters for Government servants, educational institutions, hospitals, seed godowns, seed farms, etc.

All the workers engaged in construction together make only 0·84 per cent of the total workers in the district.

OTHER SERVICES

38,043 persons are engaged in the district in " Other Services ". 33,143 are males and 4,900 are females. The major categories out of them are (*i*) Public services ; (*ii*) Educational services ; and (*iii*) Personal services. " Public services " include administrative employees of Central, State and Local Governments. " Educational services " include all classes of teachers and " Personal services " include domestic servants as well as barbers, washermen and others rendering services to persons or households. The distribution of workers in other services by minor groups is shown in Table B-IV-C in Part II.

6·50 per cent of the total workers in the district are engaged in " Other services " as against the average of 8·53 per cent in the State. 22·05 per cent of the total workers in " Other services " in the district are engaged in " Public services " and 16·98 per cent in " Educational services ". The former is slightly lower while the latter is higher than the corresponding proportions (23·86 per cent and 12·40 per cent) for Maharashtra. The low proportion of " Public services " may be attributed to the smaller number of towns and business and recreation services while the high proportion of " Educational services " is due to the large number of primary school teachers.

The proportion of " Personal services " in the district is, however, much lower, i.e. 19·28 per cent against the State average of 27·15 per cent.

The number of domestic servants is 1,743 or one for 682 population. The number of barbers is 1,949. The number of persons in laundry services including washermen is 878. There are 273 legal practitioners and 1,767 persons working in medical and health services excluding veterinary services.

The number of persons including the teaching staff in technical schools and colleges is 423 and that in other schools and colleges is 6,014.

The number of State Government employees including those now working under the Zilla Parishad is 6,526.

BROAD ASPECTS OF ECONOMY

Individual sectors of economy of the district have so far been described separately. A few broad aspects may now be discussed for the economy as a whole.

Labour Participation Rate

The proportions of the total population, males and females, engaged in work for the district and each taluka are as follows :—

	Percentage Proportion of Workers		
	Total	Males	Females
MAHARASHTRA ..	47·91	57·09	38·10
AKOLA DISTRICT ..	49·21	57·97	39·86
Akot Taluka ..	47·97	58·52	36·65
Balapur Taluka ..	49·20	57·23	40·72
Akola Taluka ..	43·09	55·61	29·31
Murtazapur Taluka ..	48·30	57·71	38·23
Mangrulpir Taluka ..	54·54	60·05	48·79
Washim Taluka ..	55·07	59·89	50·06

The labour participation rate in the district is a little higher than the State average both for males and females. The difference is much more for the females. The labour participation rates are very high both for males and females in Mangrulpir and Washim talukas perhaps because of the dominance of agriculture in their economy, poorer soils and a comparatively less prosperous agriculture.

Akola taluka has the lowest labour participation rates both for males and females because of its larger urban population and a larger community of students.

Primary, Secondary and Tertiary Sectors

The Primary Census Abstract in Part II shows the distribution of workers in the nine categories of economic activity. Table B-IV-C in Part II shows detailed industrial classification of all workers other than those at cultivation. The percentage distribution of workers in primary, secondary and tertiary activities for the district and the State is as follows :—

	Total Rural Urban	Total workers	Primary	Secondary	Tertiary
MAHARASHTRA	Total	100	72·25	12·34	15·41
	Rural	100	88·73	5·68	5·59
	Urban	100	11·97	36·69	51·34
AKOLA DISTRICT	Total	100	82·34	5·69	11·97
	Rural	100	91·91	3·17	4·92
	Urban	100	30·07	19·45	50·48

The primary sector dominates the employment structure. Even in urban areas of the district it engages over 30 per cent of the total workers. The proportion engaged in the secondary sector is extremely low in rural areas and about one-half of the State average even in urban areas. Tertiary sector however dominates in urban areas and consists mainly of trade, administration and other services. It has been described earlier that even from among the workers engaged in the secondary sector a large proportion is engaged in traditional crafts and services ancillary to agriculture. The workers engaged in factory industry make only 6 per thousand of total population against the average of 20 per thousand for the State.

Categories of Economic Activity

The distribution of workers, males and females by nine categories of economic activities for the district and the State is as follows :—

		MAHARASHTRA			AKOLA DISTRICT		
		Persons	Males	Females	Persons	Males	Females
I	Cultivation ..	46·11	40·69	54·79	34·14	34·75	33·20
II	Agricultural labour	23·80	18·12	32·90	47·19	38·11	61·28
III	Mining, Quarrying, Livestock, Forestry, Fishing etc.	2·16	2·97	0·86	1·00	1·39	0·39
IV	Household Industry.	4·39	4·80	3·74	2·29	2·93	1·30
V	Manufacturing other than household industry.	6·88	10·22	1·54	2·56	3·81	0·63
VI	Construction ..	1·24	1·69	0·53	0·84	1·16	0·34
VII	Trade and Commerce.	4·52	6·61	1·17	3·74	5·77	0·57
VIII	Transport, Storage and Communications.	2·36	3·65	0·29	1·74	2·77	0·15
IX	Other services	8·54	11·25	4·18	6·50	9·31	2·14
	Total workers	100·00	100·00	100·00	100·00	100·00	100·00

A noticeable departure in the district from the average pattern of the State is the larger proportion of agricultural labourers than that of cultivators. The ratio between cultivators and agricultural labourers for the State is 2 : 1 but that for the district is 3 : 4 and as much as 1 : 2 for females. The larger proportion of agricultural labourers is due to the labour intensive cropping pattern dominated by cotton and larger ownership holdings. The combined proportion for the two categories is also much larger in the district. The proportions in all other categories and especially those in household and manufacturing industries are lower in the district.

The 1961 concepts of workers and non-workers have been described in the Explanatory Note to Part II. In spite of the changes in the method of economic classification, the 1961 pattern may be broadly compared with the livelihood pattern of 1951. In 1951, cultivators and agricultural labourers (including earning dependants) made 33·04 per cent and 45·89 per cent of the total workers, respectively. In 1961, the corresponding proportions are 34·14 per cent and 47·19 per cent. There is thus an increase for the combined proportion of workers working on land. The proportions of both the categories have increased. Overlooking the conceptual differences between the 1951 and 1961 economic classifications, we may say that the fast growing population has led to more than a proportionate increase in the pressure of population upon land. In other words, the non-agricultural sectors have not even absorbed their proportionate share of the decade growth of the working population.

Talukawise distribution of workers in nine categories of economic activities is shown below. Corresponding figures for the State and the district are also shown for comparison.

Distribution of workers by nine categories of economic activity is shown in the Figure on page (48) for the district and each taluka separately.

The proportions of agricultural labourers are very high in Murtazapur, Akot and Mangrulpir talukas, perhaps because of the domination of cotton in their cropping pattern. There are more than two agricultural labourers for every cultivator in Murtazapur taluka.

District/Taluka	I Cultivator	II Agricultural labourer	III Mining, Quarrying, Livestock, Forestry, Fishing, etc.	IV Household Industry	V Manufacturing other than household industry	VI Construction	VII Trade and Commerce	VIII Transport, Storage and Communications	IX Other Services	Total
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
MAHARASHTRA ..	46·11	23·80	2·16	4·39	6·88	1·24	4·52	2·36	8·54	100
AKOLA DISTRICT ..	34·14	47·19	1·00	2·29	2·56	0·84	3·74	1·74	6·50	100
1 Akot Taluka ..	29·81	53·49	1·06	2·78	2·29	0·52	3·27	1·75	5·03	100
2 Balapur Taluka ..	41·11	45·19	1·15	2·23	1·18	0·62	2·54	0·41	5·57	100
3 Akola Taluka ..	24·07	41·60	1·04	2·04	6·41	1·57	7·16	4·20	11·91	100
4 Murtazapur Taluka..	26·04	54·71	1·09	2·26	2·22	0·72	4·16	1·79	7·01	100
5 Mangrulpir Taluka ..	38·60	52·44	0·69	2·11	0·55	0·36	1·52	0·27	3·46	100
6 Washim Taluka ..	45·17	41·65	0·95	2·34	1·24	0·85	2·48	0·95	4·37	100

Labour Participation by Age

The labour participation rates by age-groups are shown below for the district for total, males and females separately. Corresponding figures for the State are also shown for comparison :—

Age-groups	Akola District			Maharashtra		
	Total	Males	Females	Total	Males	Females
All ages ..	49·21	57·97	39·86	47·91	57·09	38·10
0—14 ..	8·89	7·49	10·35	8·72	8·62	8·84
15—34 ..	75·25	89·57	60·63	74·53	87·45	60·90
35—59 ..	83·45	97·46	66·54	81·57	96·86	63·68
60+ ..	56·61	79·03	34·87	49·13	72·82	26·28

The participation in work among children of 0—14 years age-group in the district is smaller for males and larger for females. These differences are perhaps due to larger school-going proportions for boys and a larger proportion of girls working as agricultural labourers in cotton picking or other easier agricultural operations. Male participation is larger in the district in all other age-groups and female participation in the age-groups 35—59 and 60+.

Workers by Educational Levels

The distribution of workers by educational levels shown in Table B-III in Part II is shown below by percentages for the district. Corresponding figures for the State are also shown for comparison :—

	Illiterate	Literate (without educational level)	Primary or Junior basic	Matriculation and above
Maharashtra ..	68·65	14·11	13·91	3·33
Akola District ..	65·97	13·96	18·31	1·76

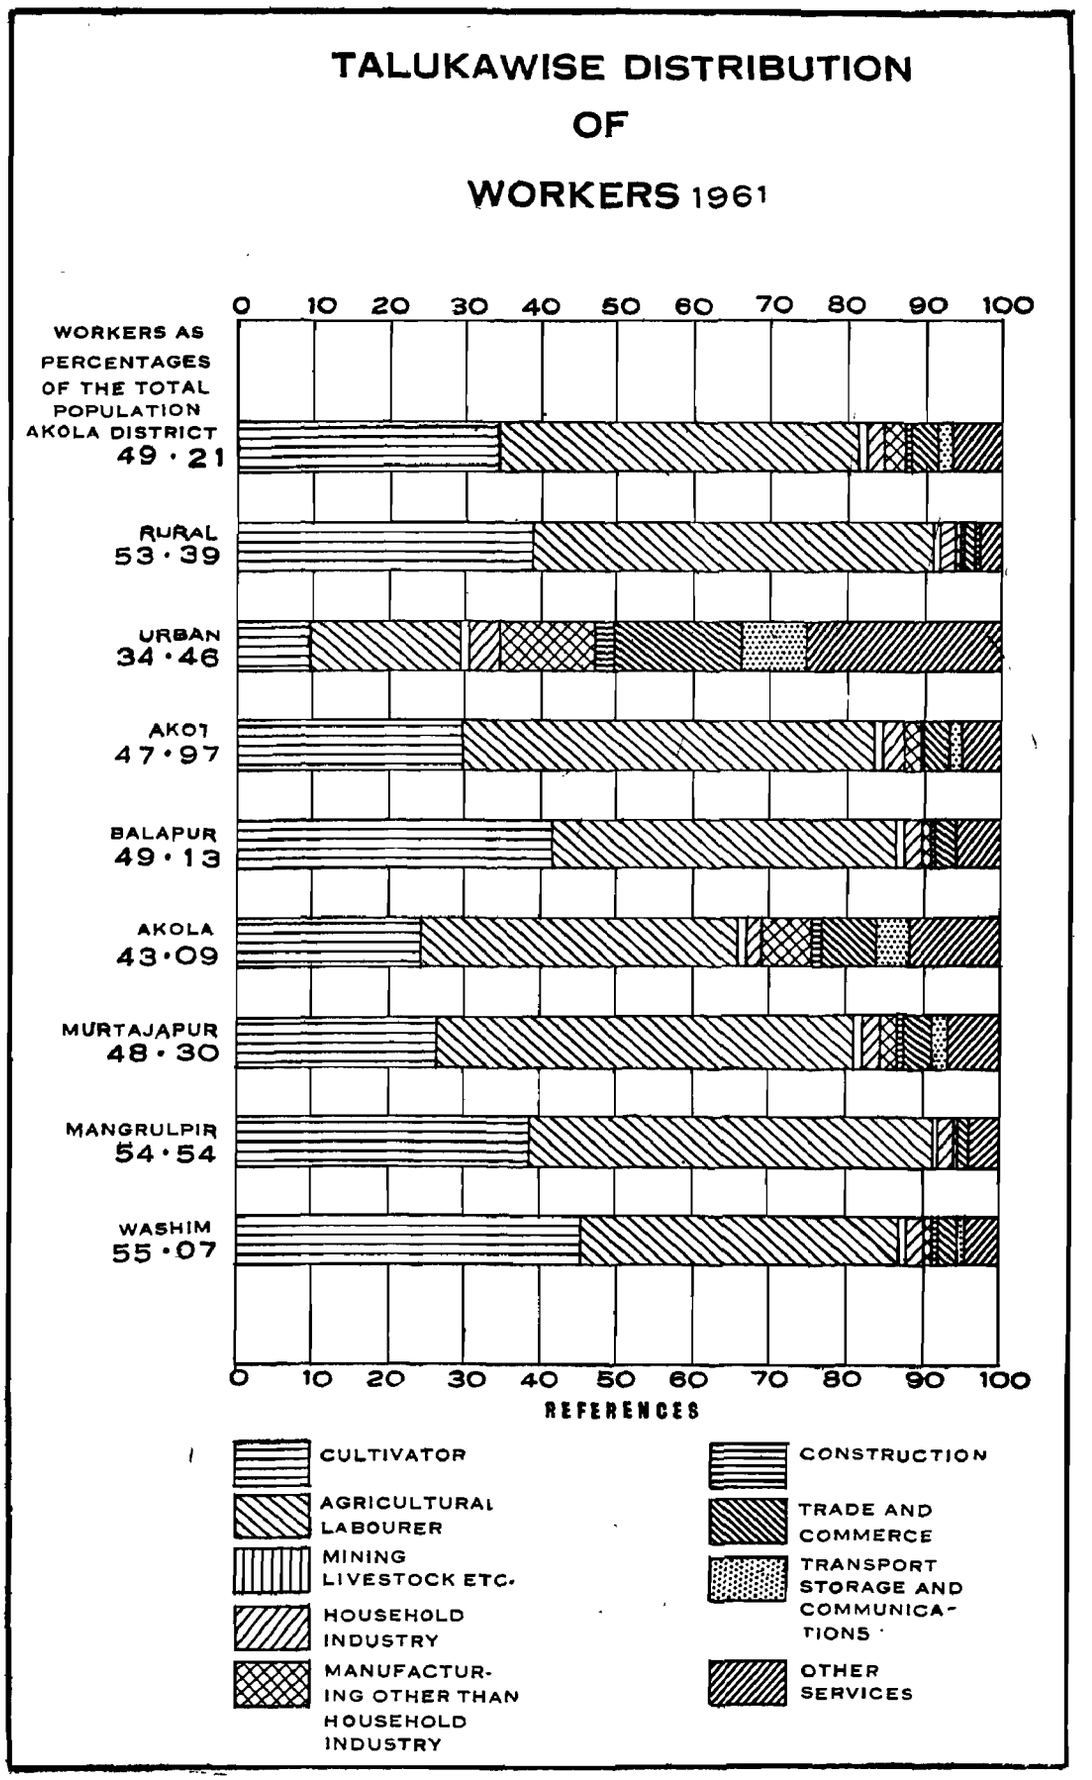

The proportions of workers in all educational levels are lower in the district excepting the primary or junior basic level. It may indicate that wastage is smaller in the lower standards and fewer pupils leave the schools without completing primary or junior basic.

There are 10,300 workers in the district with education level matriculation and above. 6,017 are engaged in other services, 1,271 in trade and commerce, 886 in transport, storage and communications and as many as 1,267 as cultivators.

Status of Employment

Table B-IV-B in Part II shows the distribution of workers by status of employment for non-household industries. The percentage of proportions of employers, employees, single workers and family workers in the district, for total, rural and urban areas are as follows. Corresponding figures for Maharashtra are also shown for comparison. The four classes of workers are defined in paragraph 58 in the Explanatory Note to Part II.

		Total workers	Class of Workers			
			Employers	Employees	Single workers	Family workers
Maharashtra	Total	100	3·96	62·18	26·52	7·34
	Rural	100	1·57	46·47	38·58	13·38
	Urban	100	4·98	68·90	21·37	4·75
Akola District	Total	100	2·91	49·96	37·79	9·34
	Rural	100	1·85	50·16	36·80	11·19
	Urban	100	3·52	49·85	38·37	8·26

HOUSEHOLD INDUSTRY
MANUFACTURING OTHER THAN HOUSEHOLD INDUSTRY
CONSTRUCTION
TRADE AND COMMERCE
TRANSPORT STORAGE AND COMMUNICATIONS
OTHER SERVICES

The proportion of employees is lower in the district than the State average. The difference is more in rural areas. Rural areas of the district, however, have a larger proportion of employees. In urban areas, single workers and family workers representing small establishments dominate in the non-agricultural employment pattern more than those in the average urban areas for the State. Rural areas of the district, however, have larger proportions of employers and employees than the State rural areas.

Percentage Distribution in Household Industry by Employees and Others

The proportion of employees, i.e. hired workers and others, in household industries in the district for total, rural and urban areas is shown in Table B-IV-A in Part II. The percentage distribution with corresponding figures for Maharashtra is as follows :—

		Total workers	Employees	Others
Maharashtra ..	Total ..	100	8·18	91·82
	Rural ..	100	4·91	95·09
	Urban ..	100	16·35	83·65
Akola District ..	Total ..	100	6·86	93·14
	Rural ..	100	7·61	92·39
	Urban ..	100	4·89	95·11

The household industries are also worked more by owners or family workers and less by hired labour in the district. It is more so in urban areas where the proportion of hired labourers is less than one-third of the State average. Here again, the rural areas have a larger proportion of hired labourers than the average for rural areas for the State.

Secondary Work

The proportions of workers also engaged in some other secondary economic activity for three categories of principal work for Maharashtra and the district are as shown in the next column (Actual figures are shown in Table B-VII-A in Part II).

Categories of Principal work		Percentage of total workers by categories of secondary work		
		I	II	IV
MAHARASHTRA				
I Cultivation ..	Total ..		17·85	1·97
	Rural ..		18·03	1·98
	Urban ..		10·54	1·32
II Agricultural Labour ..	Total	13·17	..	0·94
	Rural	13·46	..	0·97
	Urban	7·12	..	0·31
IV Household Industry ..	Total	14·78	6·97	..
	Rural	19·61	9·38	..
	Urban	2·70	0·95	..
AKOLA DISTRICT				
I Cultivation ...	Total ..		26·30	1·16
	Rural ..		26·88	1·16
	Urban ..		13·67	1·19
II Agricultural Labour ..	Total	16·03	...	0·65
	Rural	16·55	..	0·67
	Urban	8·26	..	0·37
IV Household Industry ..	Total	13·11	9·80	..
	Rural	15·76	11·20	..
	Urban	6·12	6·09	..

There is a larger exchange of roles between cultivators and agricultural labourers in the district. More than one-fourth of the total number of cultivators are also working as agricultural labourers, as subsidiary work. Even among the agricultural labourers one-sixth of the total number also work as cultivators as subsidiary work. The two put together show that 96,822 persons cultivating land also work partly as agricultural labourers either as principal or secondary work.

Occupational Classification

Table B-V in Part II shows the distribution of non-agricultural workers by occupation. The percentage distribution for the State and the district is as follows. The occupational classification is described in the Explanatory Note to Part II.

Occupational Division	Maharashtra	Akola District
0 Professional, technical and related workers.	6·42	9·08
1 Administrative, executive and managerial workers	3·89	4·60
2 Clerical and related workers ..	9·13	6·87
3 Sales workers ..	12·23	18·32
4 Farmers, fishermen, hunters, loggers, and related workers	7·64	5·48
5 Miners, quarrymen and related workers ..	0·75	0·72
6 Workers in transport and communication Occupations.	3·57	3·81
7 & 8 Craftsmen, Production and process workers and labourers not elsewhere classified.	45·99	41·07
9 Service. sport and recreation workers. ..	10·27	10·02
X Workers not classifiable by occupation ..	0·11	0·03
Total ..	100·00	100 00

The proportion of occupational division 3 (sales-workers) is larger in the district than the State average. It has been described earlier that Akola city has developed more as a trade and commercial centre. The proportion of occupational divisions 7 and 8 (craftsmen, production and process workers, etc.) is comparatively lower than the State average.

Non-workers

The distribution of non-workers by eight broad categories is shown in Table B-IX in Part II. Percentage distribution for the district is shown below :—

	District Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
1. Full-time students ..	35·75	12·76	32·92	11·90	43·83	14·74
2. Household duties .	0·31	35·75	0·37	29·70	0·16	49·61
3. Dependants, infants and disabled.	61·40	50·98	65·43	58·02	49·92	34·88
4. Retired, rentiers or Persons of independent means.	0·48	0·17	0·15	0·09	1·40	0·35
5. Beggars, vagrants, etc.	0·62	0·27	0·57	0·26	0·75	0·28
6. Inmates of institutions.	0·25	0·02	0·02	N	0·93	0·07
7. Persons seeking employment for the first time.	0·58	0·01	0·31	N	1·33	0·03
8. Unemployed but seeking work.	0·61	0·04	0·23	0·03	1·68	0·04
Total ..	100·00	100·00	100·00	100·00	100·00	100·00

N = Negligible.

There is a marked difference in the distribution pattern for non-workers among males and females. 35·75 per cent out of male non-workers are full-time students while the corresponding proportion for females is 12·76 per cent. The reason is that 35·75 per cent females who are engaged in household duties are also included as non-workers. There are rural-urban differences in the proportion of dependants. They are due to the larger proportion of females in urban areas, as non-workers. Other categories have less than one per cent of non-workers. The rural-urban differences are similar both for males and females. In urban areas, the percentage of full-time students is higher and that for dependants lower. The percentage of females engaged in household duties is higher in urban areas than in rural areas. The percentage of unemployed is 3·01 and 0·54 per cent for males in urban and rural areas and negligible in both cases for females. Proportions of full-time students among females are lower both in urban and rural areas. The difference is not, however, entirely due to social customs of attending more to the education of boys than that of girls. The proportions for females are lower because the group of non-workers contains a large number of adult women engaged in household duties.

PART I

VILLAGE DIRECTORY

This Directory renders an account of each Village and each ward of Town

2	Balapur Taluka	19
3	Akola Taluka	29
4	Murtazapur Taluka	45
5	Mangrulpir Taluka	59
6	Washim Taluka	69

EXPLANATORY NOTE

This Part I presents 1961 Population Census figures for all villages and towns in the district. In the case of towns, the figures are also presented separately for each ward. These basic statistics are not published for such small administrative units in any other country in the world.

2. For each village, ward or town are shown its area, number of occupied residential houses, number of households, total population and its break-up by sex, literacy, Scheduled Castes, Scheduled Tribes, workers and non-workers. The figures for workers are further split up by sex and by a broad classification of industrial activity in nine categories described in paragraph 16 below.

3. In the village directory, the villages are presented talukawise and within a taluka in the order of their location code numbers. These code numbers had been assigned to them for organising 1961 Census work and follow a regular north-west to south-east direction. The taluka map shows approximate locations of all villages with their code numbers. An alphabetical list of villages will be found facing each taluka map. It shows the code number of each village and its population in 1951 and 1961. The taluka map and the alphabetical list will together facilitate location of any village in the village directory as well as on the spot.

4. A " village " is a statutorily recognised village having a defined boundary and separate land records. Hamlets, wadies or padas have, therefore, not been shown separately. On the other hand, statutorily recognised villages having no population have been shown with separate code numbers but with word " uninhabited " shown against them.

5. Forest villages, however, make an exception. They are population centres situated within reserved forest areas. Their population mainly consists of forest labourers and their families. Most of them are, however, permanent localities and also have attached cultivated areas leased out by the Forest Department under certain conditions. Their land records are not maintained by the Revenue Department. Statistics for these forest villages have also been presented in the village directory. They may, however, be distinguished from other statutory revenue villages from the letters " (FV) " suffixed after their names.

6. Survey of India maps, taluka maps, previous Census Handbooks and many other official sources have been referred both to secure accurate coverage and to get the correct spellings of village names. A very high standard of accuracy may now be claimed for both.

7. Urban areas or towns are places which either have a municipality or cantonment or have been treated as towns because they have—

(*a*) a population of over 5,000 ; and

(*b*) 75 per cent. or more of male workers engaged in non-agricultural occupations.

Census figures for all these towns are presented wardwise after the completion of rural portion. Their names will also be found in the alphabetical lists of villages in capital letters with code numbers shown in Roman figures. They are also shown on the taluka map.

8. The taluka maps and the alphabetical lists are both improvements over the 1951 District Census Handbooks. The village figures are, moreover, extracted directly from Census records and not, as was done in 1951, from their copies prepared for some other purposes. The figures presented in the village directory, therefore, tally with the taluka and district Census tables perfectly.

9. Information contained in columns (3) to (7) of the village directory is based on village enumeration reports prepared by the Talaties or Patwaries during October/November, 1960, at the time of house numbering and house listing for 1961 Census. Because of the geographical arrangement of the villages these five columns indicate the general pattern of distribution of some basic amenities within a taluka. Village enumeration reports contained many more useful items of information on the villages, which could not be presented in the village directory for want of space. They are preserved in the offices of the District Statistical Officers.

10. The area figures in column (8) have been obtained either from the Mamlatdars/Tahsildars or taken from the 1951 Census Handbooks.

11. In column (9) of the village directory, the occupied houses include houses used as dwellings or partly as dwellings and partly for some other purposes, *e.g.* shop-*cum*-dwellings, etc.

12. Columns (14) to (17) of the village directory present, for the first time, villagewise figures of population of Scheduled Castes and Scheduled Tribes.

13. For columns (18) and (19) a "literate" is a person who knows both reading and writing.

14. For the definition of a "worker" or a "non-worker" and for a detailed description of industrial categories the Explanatory Note to Part II may have to be referred.

15. The villagewise figures for industries and the number of workers have been presented in a separate table appearing in Part II of the Handbook.

16. The following abbreviations have been used in the village directory :—

ABBREVIATIONS AND SYMBOLS USED

IN COLUMN HEADINGS

F *for* Females.

M *for* Males.

P *for* Persons.

I Working as Cultivator.

II Working as Agricultural Labourer.

III Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.

IV Working at Household Industry.

V Working in Manufacturing other than Household Industry.

VI Working in Construction.

VII Working in Trade and Commerce.

VIII Working in Transport, Storage and Communications.

IX Working in Other Services.

TOTAL ..†		144,247	174,488

* Uninhabited.

†The 1951 Population of the Taluka as given in this list differs from that mentioned in Table A-II.

Note.—The total number of inhabited villages in this Taluka is 263 as against 264 shown in Table A-I. This is on account of presentation of village Pimpribarhat alias Primpri forest as two separate villages in Table A-I.

	Number of Establishments and Workers for Industries classified by Minor Groups of Industrial Classification.	180

EXPLANATORY NOTE

This Part contains 58 Tables presenting 1961 Census data for the district. 29 Tables also present material for each taluka and 6 for each town separately. These talukawise and townwise tables have been prepared specially for this volume.

2. A few Tables (e.g., A-IV, B-VI, B-VIII-A, etc.) present material for urban areas only. An urban area is the aggregate of all towns in the district or in the taluka concerned. All the other tables present material for total, rural and urban areas separately. In a few cases (e.g., B-III-D, B-VIII-B, B-IX, C-III-B, etc.), talukawise break-up is given for rural areas only because the corresponding data for the urban areas had been compiled only for the district as a whole and not for each taluka separately.

3. Tables on migration and a few other topics could not be included in this volume for want of space. They will be found in the volumes of the Maharashtra Census Report.

4. An account of how the Census was taken and a description of the definitions and concepts followed will be found in Part II-A of the Maharashtra Census Report. The material presented here relates to the 1st March 1961, which was the reference date fixed for the Census and which very closely approximated the completion of the Second Five-Year Plan. An analysis of this material will be found in the Introductory Note on the district at the beginning of this volume.

5. The following paragraphs contain brief notes on the tables included in this Part. Concepts and definitions of terms used are briefly described in the notes on the tables where those terms first appear in the Series. Each table starts with the entries for the district and the talukas follow in the order of their code numbers fixed by their geographical locations for purposes of the 1961 Census.

A SERIES

GENERAL POPULATION TABLES

6. There are four General Population Tables and three Appendices in this Series. They are the basic population tables. They will be useful to study the variation of population, sex ratios, distribution by size of villages or towns and trends of urbanisation in the district.

Table A-I

7. This table presents area, density, number of villages and towns, occupied residential houses and population total, males and females. Material is presented for the district and for each taluka (Tahsil or Mahal) for total, rural and urban areas separately. Towns are shown immediately after the entries of the taluka in which they are situated.

8. A town or an urban area is a place which has a municipality, a cantonment or a civil line or a population of 5,000 or over and at least 3/4ths of male population dependent on non-agricultural pursuits. A population enumerated in urban areas is urban population and the population enumerated in all other places is rural population. Total includes the population of both urban and rural areas.

9. Area figures have been obtained through Revenue and Municipal Officers. Rural area is the difference between the Total and the Urban areas. The area figures for the district have been obtained from the Director of Land Records.

10. The term " village " has been explained in paragraphs 4 and 5 of the Explanatory Note to Part I.

11. The figures for number of occupied residential houses include houses used partly as dwellings and partly for some other purpose like shop, workshop, factory, etc., but do not include vacant residential houses where no person was found to be residing at the time of the Census.

Appendix I

12. There have been no territorial changes during the decade 1951–1961. Appendix I does not, therefore, appear here.

Appendix II

13. This shows the number of villages which in spite of a population of 5,000 or over have not been treated as towns and the number of towns which have less than 5,000 population but which have been treated as towns only because they have Municipalities. Columns (4) and (7) show the percentage of populations in villages of over 5,000 and towns of less than 5,000 to the respective rural or urban populations of the district or the taluka concerned.

Appendix III

14. *Houseless Population.*—Houseless persons were enumerated in all areas on the night of 28th February 1961. These include : (i) persons who might be doing domestic service or some other work with one or more households but who do not reside in any house and sleep in the corridors, verandahs or passages in buildings or on the streets ; (ii) wandering or nomadic tribes found to be staying in temporary huts, rahooties, etc. or residing without any such huts just on the open grounds; and (iii) beggars, vagrants, tramps, sadhus, fakirs, lepers, etc., who are found on the footpaths, streets, otlas, in places like parks, gardens, seashore, railway yards, etc.

15. *Institutional Population* includes persons enumerated in penal, charitable or mental institutions, hostels, hotels, hospitals, boarding houses, etc.

Table A-II

16. This table presents population of the district or the seven Censuses from 1901 to 1961 and the variation by actual figures and percentages. Population figures for 1951 and 1961 and variation during the decade are presented for each taluka separately. The population figures for earlier Censuses shown in the table have been adjusted for the boundaries or areas of the district and talukas as they existed at the time of 1961 Census.

Table A-III

17. This table gives for the district and each taluka the distribution of inhabited villages classified by seven population size groups which are : (i) less than 200 ; (ii) 200—499 ; (iii) 500—999 ; (iv) 1,000—1,999 (v) 2,000—4,999 ; (vi) 5,000—9,999 ; and (vii) 10,000 and above.

18. Hamlets are included in the village. The classification here is on the basis of the combined population of the village and its hamlets if there are any. In other words, the classification is not strictly according to the size of each individual nucleus of rural population but is based on the size of population of the revenue village which may in some cases be a single nucleus of population and in others a group of two or more scattered localities.

Table A-IV

19. This table shows the growth of each town since 1901. It shows population for each town for the last seven Censuses. Towns are presented in the following six classes classified by their population in 1961. Within a class, the names of towns are arranged in the order of population :

Class I	..	100,000 and over.
Class II	..	50,000 to 99,999.
Class III	..	20,000 to 49,999.
Class IV	..	10,000 to 19,999.
Class V	..	5,000 to 9,999.
Class VI	..	Less than 5,000.

20. Where two or more towns are adjacent and together form a compact urban unit, the entire town group is classified with reference to the combined population of the group. In such cases, the total population of the group is shown along with the population of each of its constituent towns.

21. Where a town was not treated as a town in some earlier Census, its population at that Census had been included in rural population. It is not presented here as the table presents figures of urban population only.

22. The total urban population of the district and its variation in the last sixty years are shown at the beginning of the table.

B SERIES

(i) GENERAL ECONOMIC TABLES

23. There are 16 Tables in this Series showing the distribution of population by economic activity correlated with sex, age and educational levels. The classification by economic activity is first by workers and non-workers. The workers are then classified in nine broad categories of economic activity. A more elaborate classification of workers by industry under the Standard Industrial Clasification Scheme is presented in Tables B-IV-A, B and C and by occupation under the National Occupational Classification in Table B-V. Two Tables B-VII-A and B-VII-B show the classification of workers by secondary work. The last three tables present distribution of non-workers by sex, age and eight broad classes.

24. In the 1951 Census Reports, the population was classified into eight livelihood classes and each class was further divided with reference to economic status into—

(i) self-supporting persons ;
(ii) earning dependents ; and
(iii) non-earning depenents.

25. The concept of dependency has been abandoned for economic classification at the 1961 Census. Instead, the population is classified into workers and non-workers. The emphasis is now on work and not on income or economic dependence.

26. A person is classified as worker if—

(*a*) in case of seasonal work like cultivation livestock, dairying, household industry, etc., he has had some regular work of more than one hour a day throughout the greater part of the working season ; and

(*b*) in the case of regular employment in any trade, profession, service, business or commerce, he was employed during any of the fifteen days preceding the day of the enumerator's visit to the household.

27. A person who was working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes has been treated as a worker. A person who had been offered work but had not actually joined has been treated as a non-worker.

28. " Work " includes not only actual work but effective supervision and direction of work also.

29. Persons under training as apprentices with or without stipend or wages are regarded as workers.

30. An adult woman who was engaged in household duties but doing no other productive work to augment the family's resources has not been considered as working. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale or wages, or in domestic services for wages for others, in minding cattle or selling firewood or making and selling cowdung cakes, or grass, etc., or any such work she has been treated as a worker.

31. Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who earn an income but who are not participating in any productive work are not treated as workers unless they also work in cultivation, industry, trade, profession, business or commerce.

32. A public or social service worker who is engaged in public service actively or a political worker who is actively engaged in furthering the political activity of his party is regarded as a worker.

33. The population classified as workers here is the economically active population including family workers but not including unemployed persons.

34. The Census Questionnaire did not have any question to determine the extent of full employment or under-employment.

35. Classification of workers doing two or more different types of work, has been done on the basis of their principal work, i.e., the work which consumes larger portion of their time and not necessarily the work which earns larger portion of their income.

Primary Census Abstract

36. This table shows 1961 summary figures for the district and talukas, each for total, rural and urban areas separately. Similar details for each village, town and ward of a town are presented in Part I.

37. For each unit, the table shows area in square miles, number of occupied houses, number of households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated persons and number of workers and non-workers. The workers are shown further classified for nine categories of economic activity.

38. Column (5) shows the number of households for each unit. The " household " is slightly different from a " family ". A " household " is a group of persons who commonly live together in the same house and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. A domestic servant residing and eating at the employer's house is a member of the household. Similarly, a friend or a guest (related or unrelated) residing and eating with the host during the Census period is treated as a member of the (host) household. On the other hand, a son or a daughter residing in a hostel (may be in the same town) is not treated as a member of the household.

39. Columns (9) to (12) of the Primary Census Abstract show population of the Scheduled Castes and Scheduled Tribes, respectively, by males and females. Since there are no Scheduled Tribes notified for this district columns (11) and (12) are blank. The figures are related only to the group totals of all Scheduled Castes. Their break-up by individual Scheduled Caste will be found in Table SCT-I.

40. The limitations in coverage of Scheduled Castes may be mentioned here. They do not include all backward castes living in the district but only those declared as Scheduled Castes in the district. In cases where a caste is declared as a Scheduled Caste for a specified area that caste has been separately presented only for that specified area and not for any other areas of the district.

41. Columns (13) and (14) show figures for literates and educated persons. A " literate " is a person who can both read and write a simple letter. Persons having higher education are also included in these figures. More material on literacy and education cross-tabulated with age-groups is presented in Table C-III.

42. The workers are shown classified by sex and in the following nine categories of economic activity:—

I. As Cultivator.
II. As Agricultural Labourer.
III. In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.
IV. At Household Industry.
V. In Manufacturing other than Household Industry.
VI. In Construction.
VII. In Trade and Commerce.
VIII. In Transport, Storage and Communications.
IX. In Other Services.

Category I

43. This category includes both the owner cultivators and tenant cultivators. Along with workers personally doing work on land are also included persons who are engaged in supervision or direction of cultivation. All persons working in cultivation of land on which they have either ownership or tenancy rights are included in this category.

Category II

44. All other persons working on land as labourers on wages without holding any right upon the land are classified as agricultural labourers and included in the second category.

Category III

45. Workers in mining, quarrying, livestock, forestry, fishing, hunting, plantations, orchards and allied activities are included in this category.

Category IV

46. A " Household Industry " is defined as an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. A household industry is not run on the scale of a registered factory. Thus, the main criterion for a household industry is the participation of one or more members of a household in rural areas. In the urban areas, household industry is confined to the house.

47. A household industry relates to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader doctor, barber, washerman or astrologer. Persons working in other person's household industry as paid employees are also treated as workers in household industry.

Category V

48. " Manufacturing " includes all types of production, processing, servicing or repairing of goods. This category does not include production or processing which may be classified as household industry.

Category VI

49. This category includes workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph, telephones, waterways, reservoirs, etc.

Category VII

50. This category includes workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estates and properties, stocks and shares, insurance, moneylending, banking, etc.

Category VIII

51. This category includes workers engaged in transport activities by air, rail, road or water and in services incidental to transport such as packing, carting, loading, unloading, etc. Workers engaged in storage, warehousing and communication services such as Posts, Telegraph, Telephones, Wireless Signalling, Information and Broadcasting are also included in this category.

Category IX

52. This category includes (i) Public utility services like electricity or gas or water supply, sanitary services ; (ii) Central, State or Municipal employees ; (iii) Professional services ; (iv) Trade or labour associations Recreation services, etc.

Table B-I and B-II

53. This combined table gives break-up of the Primary Census Abstract distribution of workers in nine industrial categories and non-workers by four broad age-groups. The material is presented for the district and each taluka as well as for total, rural and urban areas separately. Towns are also shown immediately after the entries of the talukas in which they are situated. For talukas which do not have any urban areas, entries are given only for totals which correspond to those for rural areas.

Table B-III

54. This table gives break-up of the Primary Census Abstract distribution of workers in nine industrial categories and non-workers by educational levels. Material for the district is presented for total, rural and urban areas separately, while that for the talukas is presented only for rural areas. The classification by educational levels is more elaborate in the case of the urban areas. Classification by educational levels and age-groups will be found in Table C-III.

Industrial Classification

55. Industry of a worker is that branch of economic activity in which he is engaged in producing goods or services. Tables B-IV-A, B-IV-B, B-IV-C, B-VII-A and B-VII-B of the present Series and Tables B-XIII, B-XIV-A, B-XIV-B and B-XVI of the following Series show the distribution of workers by industry according to the Standard Industrial Classification which is reproduced as Appendix I to this note. For want of space it has not been possible to give description of each group of industry in the tables. They are shown only by industry codes in one, two or three digits as the case may be.

56. The nine categories shown in the Primary Census Abstract and Tables B-I, B-II and B-III conform to the industry divisions as follows:--

	Category	Industry Division
I.	Cultivator	Minor groups 000, 001, 002, 003 and 004 from Division 0.
II.	Agricultural Labourer	
III.	Mining, Quarrying, etc.	Division 0 except minor groups 000 to 004 and Division 1.
IV.	Household Industry	Division 0 except minor groups 000 to 004, Divisions 1, 2 & 3.
V.	Manufacturing ..	Division 2 and 3.
VI.	Construction	Division 4.
VII.	Trade and Commerce	Division 6.
VIII.	Transport, Storage and Communications	Division 7.
IX.	Other Services ..	Divisions 5, 8 and 9.

Table B-IV-A

57. This table gives the distribution of workers engaged in household industry by status of employment and by each division and major group (Appendix I) of household industry separately. Material is presented only for the district but for total, rural and urban areas separately. Major groups of household industry which do not have any workers in the district are not shown here. Columns (7) and (8) show the workers who work at their own household industry (i.e., who are either employers, single workers or family workers in those household industries). Columns (5) and (6) on the other hand show the workers who are working as employees in household industries not of their own.

Table B-IV-B

58. This table presents distribution of all workers (other than those working in categories I, II and IV) by industry divisions and major groups (Appendix I) and by employment status. Material is presented for the district only but for total, rural and urban areas separately. Classification of workers by employment status is in four classes " employer " , " employee ", " single worker " and " family worker " :

An " employer " is a person who employs other persons in order to perform economic activity in which he is engaged.

An " employee " is a person who usually works under some other person for salary, or wages in cash or kind.

A " single worker " is a person who works by himself. He is not employed by anyone else and in his turn does not employ anyone else, not even members of his household, except casually.

A " family worker " is a member who works, without receiving wages, in cash or kind, in any industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season.

Table B-IV-C

59. This is a very important table as it gives the employment position in all sectors of economy in the district. It shows the distribution of all workers (other than those in categories I and II) by industry division, major groups and minor groups according to the Standard Industrial Classification (Appendix I). The number of workers against each division, major group or minor group is further split up and shown separately for household industry and non-household industry. Material is presented only for the district but for total, rural and urban areas separately. Major or minor groups which do not have any workers in the district are not shown here.

Occupational Classification

60. Occupation of a worker is the function which he performs in any branch of economic activity (which is called his industry). For a clerk working in a textile mill, the industry is textile and occupation is clerical. For a person working as a driver on a bank's vehicle, the industry is banking and occupation is driver.

61. Tables B-V and B-VI show the distribution of workers by occupation according to the National Occupational Classification Scheme which is reproduced as Appendix II to this note.

Table B-V

62. This table presents the distribution of workers (other than those engaged in categories I and II) by occupational divisions and groups (Appendix II). For each division or group the workers are shown by a categorywise break-up of their industry. The material is presented only for the district but for total, rural and urban areas separately. Occupational groups which do not have any workers in the district are not shown in the table. For an occupational group which has all the workers in only one category of industry, only one line shows the total workers for that group as well as for that category of industry.

Occupational distribution of workers in the 1961 Census has been worked out and presented in the Maharashtra Census Report, Part II-B (ii), even for occupational families, i.e., up to three digits. For want of space it is presented here for occupational groups, i.e., up to two digits only.

Table B-VI

63. This table presents the distribution of workers (other than categories I and II) classified by sex, occupational divisions (Appendix II), broad age-groups and by educational levels. This table is presented only for the total urban area of the district.

Table B-VII-A

64. This table presents workers engaged as cultivators, agricultural labourers and at household industry classified by the nature of their secondary work. In case a worker is engaged in two or more kinds of work the one which consumes larger portion of his time (not necessarily earning a larger portion of his income) is treated as his principal work, another consuming second larger portion of his time is his secondary work. The secondary work is shown in the table classified only in three broad categories, *viz.*, IV—Household Industry, I—Cultivator and II—Agricultural labourer. Workers who may be engaged in secondary work in other categories, *viz.*, III, V, VI, VII, VIII and IX are not shown in this table. The break-up of principal work in household industry by major industrial groups (Appendix I) is shown in column (1). It will enable analysis of workers engaged in secondary work by major branches of their principal work at household industry. The material is presented for the district only but for total, rural and urban areas separately.

Table B-VII-B

65. This table shows workers engaged in non-household industry categories III and V to IX as principal work and doing some additional work in household industry. The additional work in household industry is classified by industrial divisions (Appendix I) only. Similarly, the break-up of principal industry in column (1) is also by industrial divisions only. Workers engaged in the industry divisions shown in column (1), but who are doing additional work in any sector other than household industry are not shown in this table. Material is presented for the district only but for total, rural and urban areas separately.

Table B-VIII-A

66. This table presents the distribution of unemployed persons aged 15 and above by age-groups and educational levels. The number of unemployed have been further split up by persons seeking employment for the first time and persons employed before but now out of employment and seeking work. Material is presented only for the total urban area of the district. Such detailed information on the unemployed is compiled for the first time in the 1961 Census.

Table B-VIII-B

67. This table presents the distribution of unemployed aged 15 and above in rural areas of the district by educational levels. The break-up of educational levels is not as elaborate as in Table B-VIII (Part A) and classification by age-groups or by persons seeking employment for the first time, etc., is not shown in this table. As a compensatory factor, the material is presented for the rural area of the district and each taluka, separately.

Table B-IX

68. This table presents the distribution of non-working population by broad age-groups and eight classes of non-workers. Such information on the non-working population had never been compiled before. The material is presented for the district separately for total, rural and urban areas and for each taluka for rural areas only.

(ii) HOUSEHOLD ECONOMIC TABLES

69. Tables B-X to B-XVI present the economic activity of the households as units. They relate to--

(i) the size of or interest in land cultivated and/or the household industry conducted by the households; and

(ii) the number of family workers and/or hired workers working in either of the two activities separately or combined in both.

70. In the case of countries of such economic status as ours where not all the goods produced enter the money market and where much of what is produced is consumed by the family itself, presentation of information on economic activity of individuals alone is likely to be slightly misleading unless that information is supplemented by material relating to economic activity of the households as entities. Such information is presented here for the first time. These tables are prepared from the household schedules specially introduced for that purpose as one of the three Questionnaire forms in the 1961 Census. The tables have been prepared on a 20 per cent. sample of all the households in the district drawn for rural and urban areas separately.

71. Cultivation here includes cultivation both as owners and tenants. Size of holding shown is also of operational holding, i.e. land actually cultivated and does not include land owned but not cultivated by the household.

Table B-X

72. This table presents distribution of sample households by those—

(i) engaged neither in cultivation nor household industry ;

(ii) engaged in cultivation only ;

(iii) engaged in household industry only ; and

(iv) engaged both in cultivation and household industry.

The material is presented for the district and each taluka for total, rural and urban areas separately.

Table B-XI

73. This is an important table. It shows the distribution of sample households engaged in cultivation classified by size of land and interest in land cultivated. Ten size-groups are shown horizontally while the interests in land are classified in three types, *viz.*—

(*a*) Entirely owned or held from Government.

(*b*) Entirely held from private persons or institutions for payment in money, kind or share.

(*c*) Partly held from Government and partly from private persons or institutions for payment in money, kind or share.

The material is presented separately for total, rural and urban areas of the district and only for rural areas of each taluka.

Table B-XII

74. This table shows the distribution of sample households engaged in cultivation classified by size of land cultivated and the total number of family workers and hired workers. The material is presented for the district for total, rural and urban areas separately and only for rural areas of each taluka.

Table B-XIII

75. This table shows the distribution of sample households engaged both in cultivation and household industry classified by size of land cultivated and by industry division and major group of the household industry (Appendix I). The table shows the sizes of cultivation holdings and the branches of household industry for which the two household economic activities combine in varying degrees. The material is presented only for the district but for rural and urban areas separately.

Table B-XIV-A

76. This table shows the distribution of sample households engaged in household industry only by the number of workers engaged and by industry division and major group of the household industry (Appendix I). Material is presented for the district only but for total, rural and urban areas separately.

Table B-XIV-B

77. This table shows the distribution of sample households engaged in household industry only classified by industry minor groups (Appendix I) for the household industry. The industry minor group is shown with a break-up in four-digit codes in column (1). *These four-digit codes are shown in Appendix III.* The material is presented for the district only but for total, rural and urban areas separately.

Table B-XV

78. This table shows the distribution of sample households engaged both in cultivation and household industry classified by size of land cultivated and the number of family workers and hired workers working in the two activities combined. The material is presented for the district for total, rural and auelban areas and for each taluka only for rural areas separately.

Table B-XVI

79. This table shows the distribution of sample households engaged in household industry classified by the period for which the household industry is worked and by industry division and major groups (Appendix I) of the household industry. A further split-up of figures is shown for household industry combined with cultivation and without cultivation. The material is presented for the district only but for total, rural and urban areas separately.

C SERIES

SOCIAL AND CULTURAL TABLES

80. There are 11 Tables in this Series dealing with Social or Cultural aspects like sizes and composition of households, age, marital status, literacy and education, language, religion, Scheduled Castes and Scheduled Tribes. The first two Tables C-I-A and C-I-B relating to Size and Composition of households are prepared from the household schedules on a 20 per cent. sample. All the other tables are prepared from individual slips and on a total count.

Table C-I-A

81. This table presents distribution of sample households classified by their size and by economic activity,i.e.,by work in cultivation or household industry. Households working at cultivation are further classified by size of land holding. The material is presented only for the district but separately for total, rural and urban areas. Classification by economic activity as well as by size of land holding is presented only for rural areas and classification by size of the household is alone presented for total and urban areas. This table is prepared from household schedules on a 20 per cent. sample. This table appears as Table B-XVII in Part III of the Maharashtra Census Report.

82. The classification by size is as one member, small (2 to 3), medium (4 to 6), large (7 to 9) and very large (over 10) households. By definition, a Census household is not the same as a family. The household also includes persons who are not members of the family but who were residing with the family during the Census period. All the same, the table will give a general idea of the family sizes as in the majority of families outsiders are not likely to be present.

Table C-I-B

83. This table presents distribution of population of sample households by heads of the households, spouses of heads of households, married relations, never married, widowed or divorced relations and unrelated persons. These details are also shown for sample households classified by economic activity, i. e., participation in cultivation or household industry. For cultivation the sample households are further classified by size of land holdings. This table is prepared from the household schedules on a 20 per cent. sample. Material is presented for the district only but for total, rural and urban areas separately. The classification of households by economic activity and size of land holding is, however, shown for rural areas only. This table is of sociological interest indicating the strength of the joint family system.

Table C-II

84. This table presents distribution of population by sex, age and marital status. Classification of age between 10 and 70 years is by five year age-groups. The other two groups are 0—9 years and 70 and over. The entire population in 0—9 years age-group has been treated as never married and no further classification by marital status is shown against them. The material is presented only for the district but for total, rural and urban areas separately. From this table it may be ascertained whether proportions in various marital status groups have changed since the last Census and whether any trend is observed in age of marriage. A corresponding table at the 1951 Census was prepared on a 10 per cent. sample. This table is, however, prepared on a full count.

Tables C-III-A, B and C

85. These three tables present the distribution by age, sex, literacy and educational levels. Classification by age is by five year age-groups up to 59 years. Classification by educational levels is the same as in Table B-III. It is more elaborate in the case of urban areas. Part A presents material only for the district total while Part B presents material for rural areas of the district and of each taluka separately. Part C presents material only for the district urban areas but with more elaborate classification by educational levels.

86. These tables are a measure of the growth of literacy in the total population as well as in the different age-groups since the last Census. They are also likely to furnish information on the spread of adult education. The corresponding table at the 1951 Census was prepared on a 10 per cent. sample. These tables have been prepared on a full count.

Table C-IV

87. This table presents distribution of the district population by single year ages both for males and females separately. Figures presented are based on the actual returns recorded in the Census, i. e., they have not been smoothed or adjusted for preferences for digits 0, 5, etc. The material is presented only for the district total.

88. This is an important demographic table which is used for computing mortality rates. The corresponding table at the 1951 Census was prepared on a 10 per cent. sample. This table has been prepared on a full count.

Table C-V

89. This table presents the distribution of population by mother-tongues. The figures are presented only for 9 top ranking mother-tongues in the district. Figures for all the other mother-tongues have been shown combined in the group " Others ". Mother-tongues are arranged in the alphabetical order. Material is presented for total, rural and urban areas for the district and each taluka separately. At the end material is also presented for each town separately. A footnote is added to show the number of speakers in the district for each of the mother-tongues combined in the group " Others ".

90. " Mother-tongue " is defined as a language spoken by the person's mother to the person in his childhood or mainly spoken in the house. Dialects have been included in the main languages on the basis of Grierson's Classification.

91. Another Table (C-VI) on bilingualism has been prepared in the 1961 Census. It is not included in this volume and may be found in Part II-C of the Maharashtra Census Report.

Table C-VII

92. This table presents distribution of population by religion. Eight main religions have been shown in their alphabetical order. All other religions returned in the Census are combined in the group " Others ". Figures for various sects returned as religion during the Census have been combined with the main religions concerned.

Table C-VIII-A

93. This table presents the total population of Scheduled Castes classified by literacy and by economic activity. Classification by economic activity is the same as in the Primary Census Abstract or Tables B-I and B-II. Material is presented for total, rural and urban areas of the district separately and only for rural areas of each taluka separately. Paragraph 40 above, on Primary Census Abstract, may be seen for explanation of the special group treated as Scheduled Castes.

Table C-VIII-B

94. This table deals with the total population of Scheduled Tribes classified by literacy and by economic activity. It is not presented in this Part as there are no Scheduled Tribes notified in this district.

SCT, SC & ST SERIES

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

95. There are five tables in this Series specially prepared for the population of Scheduled Castes in the district. These classes of people are declared by the President's order issued under Articles 341 and 342 of the Constitution of India as Scheduled Castes or Scheduled Tribes. Under Article 46 of the Constitution, the State has to promote, with special care, the educational and economic interests of the weaker sections of the people and in particular of the Scheduled Castes and Scheduled Tribes and has to protect them from social injustice and all forms of exploitation. For ensuring adequate representation to these classes, seats are also reserved for them in the House of the People, State Legislature and other elective bodies. No Scheduled Tribes are notified for this district. No special tables for the Scheduled Tribes are, therefore, presented in this Part.

96. These special tables for Scheduled Castes have been prepared to furnish data on the present socio-economic conditions of these people to be studied not only as a combined group as in 1951 but also for each Scheduled Caste separately.

97. These tables relate to economic activity, education, mother-tongue and classification of persons not at work. Material is presented for each Scheduled Caste separately. If will be useful information for ormulating various schemes for their welfare.

98. Classification by Castes is on the basis of returns recorded in response to question 5 (*c*) of the 1961 Census Questionnaire. Every person was asked if he belonged to one of the Scheduled Castes notified for the district and in case he belonged to one of them he was asked the name of his caste. Paragraph 40 above on the Primary Census Abstract explains the limitations of these castewise figures. The population of Scheduled Castes shown here is much less than that for the district in 1951 as many persons from that group have returned their religion as Buddhist or Nav-Bauddha, and under the Constitution, there can be Scheduled Castes only among Hindus and Sikhs and in no other religion.

99. Two more Tables SCT-II and SCT-IV on age, marital status and religion of the Scheduled Castes prepared in the 1961 Census are not presented here for want of space. They may be seen in Part V-A of the Maharashtra Census Report.

Table SCT-I-A

100. This table presents the distribution of Scheduled Castes population by economic activity. Material is presented for the total of all Scheduled Castes as well as for each Scheduled Caste separately. Scheduled Castes are arranged in the alphabetical order. Classification by economic activity is in the same nine categories as in the Primary Census Abstract and Tables B-I and B-II. In a way, this table presents castewise break-up of the material presented in Table C-VIII (Part A). The last group of " caste not stated " is of persons who were returned as belonging to Scheduled Castes but in whose case the name of the Scheduled Caste concerned had not been stated in the Census.

101. Columns (28) to (31) present Scheduled Caste-wise figures of persons engaged in unwholesome occupations like tanning, currying of hides and skins and scavenging. The number of workers shown in these occupations as well as in any other category is on the basis of principal work. Persons engaged in cultivation or any other activity as principal work and also engaged in tanning, currying or scavenging as secondary work are not included in the figures of columns (28) to (31).

102. The material is presented for total, rural and urban areas of the district separately and only for rural areas for each taluka.

103. There are some more castes declared as Scheduled Castes for the district. They are not shown in this table because no one belonging to those castes was enumerated in 1961 Census in the district.

Table SCT-I-B

104, 105 and 106. This table is not presented in this Part as there are no Scheduled Tribes notified in the district.

Table SCT-III-A (i)

107. This table presents the distribution of each Scheduled Caste population by sex and educational levels. The table presents material for the district urban area only. The classification of educational levels is the same as in Tables B-III and C-III applicable for urban areas.

Table SCT-III-A (ii)

108. This table is not presented in this Part as there are no Scheduled Tribes notified in the district.

Table SCT-III-B (i)

109. This table presents the distribution of population for each Scheduled Caste by educational levels only for the district rural area. The classification by educational levels is somewhat reduced than that of Table SCT-III (Part A).

Table SCT-III-B (ii)

110. This table is not presented in this Part as there are no Scheduled Tribes notified in the district.

Table SCT-V-A

111. This table presents the distribution of sample Scheduled Caste households of the district (Rural) by interest in land cultivated and by size of land cultivated. The interests in land cultivated are shown in three categories :—

(i) entirely owned or held from Government ;
(ii) entirely held from private persons or institutions for payment in money, kind or share: and
(iii) partly held from Government and partly from private persons, etc.

Classification by size of land cultivated is the same as in the B Series household economic tables. Material here is presented only for the district rural and for all the Scheduled Castes as a group. The table is prepared from the household schedules on a 20 per cent. sample.

Table SCT-V-B

112. This table is not presented in this Part as there are no Scheduled Tribes notified in the district.

Table SC-I

113. This table presents the total non-working population of all the Scheduled Castes as a group classified by four categories of non-workers, *viz.* :—

(i) full-time students ;
(ii) persons seeking employment for the first time ;
(iii) persons employed before but now out of employment and seeking work ; and
(iv) others.

The non-working population is further classified by educational levels. The material is presented for the district only but for total, rural and urban areas separately.

Table ST-I

114. This table is not presented in this Part as there are no Scheduled Tribes notified in the district.

Table ST-II

115. This table is not presented in this Part as there are no Scheduled Tribes notified in the district.

E SERIES

HOUSING TABLES

116. There are five tables in this Series. Four of them relate to housing conditions and furnish data on the purposes for which the houses are used, the tenures on which they are occupied by the households, material of construction of walls and roofs and the distribution of households by the number of rooms occupied. The last table relates to industries and shows the number of establishments and the number of workers for each industry classified by industry division, major groups and minor groups. Another Table (E-III) on industrial establishments prepared from the houselists gives a break-up by industry and the fuel used cross-tabulated by the size of the establishments. It is not presented here for want of space. It may be seen in Part IV of the Maharashtra Census Report.

117. All the five tables of this Series are prepared from the houselists which were prepared at the time of numbering of houses in September-October of 1960. Such data on housing conditions are furnished here for the first time.

118. A " house " was defined for purposes of the Census as " a structure or part of a structure inhabited or vacant, a dwelling, a shop, a shop-*cum*-dwelling or a place of business, workshop, school, etc., having a separate entrance. The entrance may be directly on the road, street, or lane or to a common staircase, court-yard or a gate. "

Table E-I

119. This table presents the distribution of houses classified by uses to which they are put to. The various uses are shown in columns (4) to (16). Houses which were not being used for any purpose at the time of houselisting were treated as vacant. A " workshop " is a place where some kind of production, processing, repairs or servicing of goods, goes on a commercial scale. Manufacturing or processing establishments registered under the Factories Act are treated as factories. When a house was used both as a shop and as a dwelling or workshop and as a dwelling it is treated as a shop-*cum*-dwelling or workshop-*cum*-dwelling. The houses which were used as schools, offices, factories or restaurants and also used by some people for residence, have been treated for purposes of this table as schools, offices, actories or restaurants and not as school-*cum*-dwelling, office-*cum*-dwelling and so on.

120. The last category of " Others " includes all purposes not included in columns (4) to (15) prominent among them being cattle-sheds, garages, show-rooms, locked houses, etc. Table E-I presents material for the district and each taluka and for total, rural and urban areas separately. The table is prepared from the houselists on a full count.

Table E-II

121. This table presents the distribution of sample households by the tenure of houses occupied by them. Tenure here is of only two kinds, owned or rented. " Rent free " or " Caretaker " occupation is included in the " Rented " category. The houses occupied under each tenure are further classified by the nature of uses such as dwellings, shop-*cum*-dwellings, etc. Tenure of occupation of non-residential houses such as schools, hospitals, etc., is not shown here.

122. This table is prepared from the houselists and on a 20 per cent. sample.

123. Material is presented for the district and each taluka and for total, rural and urban areas separately.

Table E-IV

124. This table presents distribution of sample houses used wholly or partly as dwelling by material of wall and material of roof. The material of wall is the material out of which most of the walls of the house are constructed. Where a house has separate portions each of different material, the material of the walls for this table is the one out of which the walls of the main bed-rooms are constructed. Similarly, the material of roof is one out of which most of the roof exposed to weather is constructed. In case of multi-storeyed buildings, the intermediate floor is treated as the roof of the lower storey.

125. Material is presented here for the district and each taluka and for total, rural and urban areas separately. This table is prepared from the houselists on a 20 per cent. sample.

Table E-V

126. This table presents the distribution of sample households classified by the number of rooms occupied. For each class of households the total number of members of the households is shown by males and females separately. This will help measure congestion or overcrowding particularly in urban areas.

127. The table is prepared from the houselists on a 20 per cent. sample. The material is presented for the district and each taluka and for total, rural and urban areas separately.

128. The table relates only to the family households. Institutional households like hostels, boardings, prisons, etc., are not shown here.

129. A " room " has four walls with a door and a roof overhead and is not less than $6' \times 6'$. Unenclosed verandah, kitchen, store, garage, cattle-shed, etc., though used for residential purposes are not treated as rooms. Households residing in such places are shown in columns (7) to (9) as having no regular room.

Table on Industrial Establishments and Workers

130. This is a very important table and presents the number of establishments and number of workers for each branch of industry classified by industry divisions and minor groups according to the Standard Industrial Classification (Appendix I). For each industry division, minor group figures are shown in the brackets first for the number of establishments and second for the number of workers.

131. The table is prepared from the houselists on a full count. Material is presented here for the district and talukas for total, rural and urban areas as well as *for each village and town* separately. The presentation is in the run-on style and the villages are shown both by their names and code numbers. These latter will help locate them in the taluka maps included in Part I. Villages which do not have any industrial establishments are not shown here. Similarly, for any village, town or taluka, the industry minor codes for which there are no establishments are not shown in the table.

132. The material presented here relates to September-October of 1960. Establishments where processing, repairing or servicing of goods is done are also included along with the manufacturing establishments. The number of workers shown here includes the proprietor and/or the other household members if any were working in the industry during the week preceding the enumerator's visit.

133. The list of industries presented here may not include some seasonal industries which were not actually working during the period when houselists were prepared, *viz.*, September-October 1960.

APPENDIX 1

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into—

9 Divisions
45 Major Groups
343 Minor Groups

The divisions, major groups and minor groups with their Code numbers are listed below :—

DIVISIONS

0	Agriculture, livestock, forestry, fishing and hunting
1	Mining and Quarrying
2 & 3	Manufacturing
4	Construction
5	Electricity, Gas, Water and Sanitary services
6	Trade and Commerce
7	Transport, Storage and Communication
8	Services
9	Activities not adequately described

MAJOR GROUPS

Division 0—Agriculture, livestock, forestry fishing and hunting

00	Field produce and Plantation crops
01	Plantation crops
02	Forestry and Logging
03	Fishing
04	Livestock and Hunting

Division 1—Mining and Quarrying

10	Mining and quarrying

Divisions 2 & 3—Manufacturing

20	Foodstuffs
21	Beverages
22	Tobacco Products
23	Textile—cotton
24	Textile—jute
25	Textile—wool
26	Textile—silk
27	Textile—miscellaneous
28	Manufacture of wood and wooden products
29	Paper and paper products
30	Printing and publishing
31	Leather and leather products
32	Rubber, Petroleum and coal products
33	Chemicals and chemical products
34—35	Non-Metallic Mineral Products other than petroleum and coal
36	Basic Metals and their products except machinery and transport equipment
37	Machinery (all kinds other than Transport) and Electrical equipment
38	Transport Equipment
39	Miscellaneous Manufacturing Industries

Division 4—Construction

40	Construction

Division 5—Electricity, Gas, Water and Sanitary services

50	Electricity and gas
51	Water supply and sanitary services

Division 6—Trade and Commerce

60—63	Wholesale Trade
64—68	Retail Trade
69	Trade and Commerce—Miscellaneous

Division 7—Transport, Storage and Communication

70—71	Transport
72	Storage and Warehousing
73	Communications

Division 8—Services

80	Public Services
81	Educational and Scientific Services
82	Medical and Health Services
83	Religious and Welfare Services
84	Legal Services
85	Business Services
86	Community Services and Trade and Labour Associations
87	Recreation Services
88	Personal Services
89	Services (not elsewhere classified)

Division 9—Activities not adequately described

90	Activities unspecified and not adequately described (This includes new entrants to the labour market).

MINOR GROUPS

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
Division 0—Agriculture, livestock, forestry, fishing and hunting		
00	*Field Produce and Plantation Crops—*	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, barja, maize.	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram ..	001
	Production of raw jute and kindred fibre crops..	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines and orchards	006
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007
	Production of juice by tapping palms ..	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above ..	009
01	*Plantation Crops—*	
	Production of tea in plantation	010
	Production of coffee in plantation ..	011
	Production of rubber in plantation ..	012
	Production of tobacco in plantation ..	013
	Production of ganja, cinchona, opium ..	014
	Production of other plantation crops not covered above	015
02	*Forestry and Logging—*	
	Planting, replanting and conservation of forests	002
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026

APPENDIX I—*contd.*

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
Division 0—Agriculture, livestock, forestry, fishing and hunting—concld.		
03 *Fishing*—		
	Production of fish by fishing in sea ..	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries.	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond.	032
04 *Livestock and Hunting*—		
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat.	040
	Rearing of sheep and production of wool ..	041
	Rearing and production of other animals (mainly for slaughter) such as pig.	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming.	043
	Rearing of bees for the production of honey, wax and collection of honey.	044
	Rearing of silk worms and production of cocoons and raw silk.	045
	Rearing of other small animals and insects ..	046
	Trapping of animals or games propagation ..	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth.	048
Division 1—Mining and Quarrying		
10 *Mining and Quarrying*—		
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores ..	105
	Mining of crude petroleum and natural gas ..	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash ..	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
Divisions 2 & 3—Manufacturing		
20 *Foodstuffs*—		
	Production of rice, atta, flour, etc. by milling, dehusking and processing of crops and food-grains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugar-cane or palm juice and production of candy..	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits.	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats & oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati) ..	208
	Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge ..	209
Divisions 2 & 3—Manufacturing—contd.		
21 *Beverages*—		
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery.	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above.	213
	Production of aerated and mineral water ..	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works ..	218
	Production of other beverages	219
22 *Tobacco Products*—		
	Manufacture of bidi	220
	Manufacture of cigars and cheroots ..	221
	Manufacture of cigarette and cigarette tobacco.	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products ..	226
23 *Textile—Cotton*—		
	Cotton ginning, cleaning, pressing and baling ..	230
	Cotton spinning (other than in mills) ..	231
	Cotton spinning and weaving in mills ..	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms ..	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24 *Textile—Jute*—		
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cord-age from jute and similar fibre such as hemp, mesta	244
25 *Textile—Wool*—		
	Wool baling and pressing	250
	Wool cleaning and processing (scouring) ..	251
	Wool spinning and weaving in mill ..	252
	Wool spinning other than in mills ..	253
	Wool weaving in power loom ..	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile ..	256
26 *Textile—Silk*—		
	Spinning and weaving of silk textile in mill ..	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills ..	262
	Weaving of silk textile by power loom ..	263
	Weaving of silk textile by handloom ..	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine ..	266
27 *Textile—Miscellaneous*—		
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
Divisions 2 & 3—Manufacturing—contd.		
27	*Textile—Miscellaneous*—contd.	
	Embroidery and making of crepe lace and fringes.	272
	Making of textile garments including raincoats and headgear.	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags.	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin.	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and up-holstery filling.	276
	Manufacture of coir and coir products ..	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above.	279
28	*Manufacture of Wood and Wooden Products—*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures.	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows.	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures.	283
	Manufacture of other wooden products such as utensils, toys artwares.	284
	Manufacture of veneer and plywood ..	285
	Manufacture of plywood products such as tea chest.	286
	Manufacture of boxes and packing cases other than plywood.	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products.	288
	Manufacture of other wood and allied products not covered above.	289
29	*Paper and Paper Products—*	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill.	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade.	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp.	292
30	*Printing and Publishing—*	
	Printing and publishing of newspapers and periodicals.	300
	Printing and publishing of books	301
	All other types of printing including lithography engraving, etching, block making and other work connected with printing industry.	302
	All types of binding, stitching, sizing and other allied work connected with binding industry.	303

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
Divisions 2 & 3—Manufacturing—contd.		
31	*Leather and Leather Products—*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather.	310
	Manufacture of shoes and other leather footwear.	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur.	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles.	313
	Repair of shoes and other leather footwear ..	314
	Repair of all other leather products except footwear.	315
32	*Rubber, Petroleum and Coal Products—*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose.	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat.	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries.	324
	Production of coaltar and coke in coke oven ..	325
	Manufacture of other coal and coaltar products not covered elsewhere.	326
33	*Chemicals and Chemical Products—*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified.	330
	Manufacture of dyes, paints, colours and varnishes.	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works.	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap.	335
	Manufacture of soap and other washing and cleaning compounds.	336
	Manufacture of turpentine, synthetic, resin and plastic products and materials (including synthetic rubber).	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats).	339
34	*Non-metallic Mineral Products other than Petroleum and Coal—*	
	Manufacture of structural clay products such as bricks, tiles.	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing.	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products.	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
Divisions 2 & 3—Manufacturing—contd.		
35	Manufacture of earthenware and earthen pottery.	350
	Manufacture of chinaware and crockery ..	351
	Manufacture of porcelain and its products ..	352
	Manufacture of glass bangles and beads ..	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues.	355
	Manufacture of earthen toys and artwares except those covered by code No. 355.	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above.	357
	Manufacture of other non-metallic mineral products not elsewhere specified.	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods.	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms.	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate.	363
	Manufacture of iron and steel furniture ..	364
	Manufacture of brass and bell metal products.	365
	Manufacture of aluminium products ..	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can.	367
	Enamelling galvanising, plating (including electroplating), polishing and welding of metal prouducts.	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39).	369
37	*Machinery (All kinds other than Transport) and Electrical equipment*—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery.	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors.	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers.	374
	Manufacture of electric lamps and fans ..	375
	Manufacture of insulated wires and cables ..	376
	Manufacture of all kinds of battery ..	377
	Manufacture of electronic equipment such as radio, microphone.	378
	Manufacture of electric machinery and apparatus, appliances not specified above.	379
38	*Transport Equipment*—	
	Manufacture, assembly and repairing of locomotives.	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363.	381

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
Divisions 2 & 3—Manufacturing—concld.		
38	*Transport Equipment*—contd.	
	Manufacture and assembling of motor vehicles of all types (excepting motor engines).	382
	Manufacture of motor vehicles engines parts and accessories.	383
	Repairing and servicing of motor vehicles ..	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear.	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines.	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines.	387
	Repairing of bicycles and tricycles.. ..	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand-drawn vehicles.	389
39	*Miscellaneous Manufacturing Industries*—	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies.	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies.	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals.	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered eleswhere such as pencil, penholder, fountain-pen.	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group.	399
Division 4—Construction		
40	*Construction*—	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations.	400
	Construction and maintenance of roads, railways, bridges, tunnels.	401
	Construction and maintenance of telegraph and telephone lines.	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells.	403
Division 5—Electricity, Gas, Water and Sanitary Services		
50	*Electricity and Gas*—	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers.	502
51	*Water Supply and Sanitary Services*—	
	Collection, purification and distribution of water to domestic and industrial consumers.	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation.	511

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
	Division 6—Trade and Commerce	
60	*Wholesale Trade—*	
	Wholesale trading in cereals and pulses ..	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere).	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products.	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water.	603
	Wholesale trading in intoxicants such as wines, liquors.	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products.	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder ..	608
61	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle.	611
	Wholesale trading in toilets, perfumery and cosmetics.	612
	Wholesale trading in metal, procelain and glass utensils, crockery, chinaware.	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings.	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products.	616
	Wholesale trading in petrol, mobil oil and allied products.	617
	Wholesale trading in ot her household equipment not covered above.	618
62	Wholesale trading in bricks, tiles and other building materials.	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products.	621
63	Wholesale trading in paper and other stationery goods.	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical.	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb.	632
	Wholesale trading in all kinds of transport and storage equipment.	633
	Wholesale trading in skins, leather and fur ..	634
	Wholesale trading in clocks, eye glasses, frames.	635
	Wholesale trading in hardware and sanitary equipment.	636
	Wholesale trading in scientific, medical and surgical instruments.	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery.	638
	Wholesale trading in all goods not covered above.	639
64	*Retail Trade—*	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry.	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water.	641
	Retail trading in intoxicants such as wines, liquor.	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
	Division 6—Trade and Commerce—concld.	
64	*Retail Trade*—concld.	
	Retail trading in tobacco, bidi, cigarettes and other tobacco products.	644
	Retail trading in fuel such as coke, coal, firewood and kerosene.	645
	Retail trading in foodstuffs like sweetmeat condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
65	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products (this includes retail trading in piece-goods of cotton, wool, silk and other textiles).	650
	Retail trading in toilet goods, perfumes and cosmetics.	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, head-gear such as hat, umbrella, shoes and chappals.	653
	Retail trading in tyres, tubes and allied rubber products.	654
	Retail trading in petrol, mobiloil and allied products.	655
66	Retail trading in wooden, steel and other metallic furniture and fittings.	660
	Retail trading in stationery goods and paper.	661
	Retail trading in metal, porcelain and glass utensils.	662
	Retail trading in earthenware and earthen toys.	663
	Retail trading in other household equipment not covered above.	664
67	Retail trading in bricks, tiles and other building materials.	670
	Retail trading in hardware a sanitary equipment.	671
	Retail trading in wood, bamboo cane, bark and thatches.	672
	Retail trading in other building materials ..	673
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances.	680
	Retail trading in transport and storage equipments.	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear.	683
	Retail trading in clock and watch, eye glass, frame.	684
	Retail trading in scientific, medical and surgical instruments.	685
	Retail trading in precious stones and jewellery.	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing.	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce Miscellaneous—*	
	Importing and exporting of goods and commodities.	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Moneylending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
Division 7—Transport, Storage and Communication		
70	*Transport*—	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus).	702
	Transporting by road through other means of transport such as hackney carriage, bullock-cart, ekka.	703
	Animal transporting by animals such as horses, elephant, mule, camel.	704
	Transporting by man such as carrying of luggage, handcart driving, rickshaw pulling, cycle rickshaw driving.	705
	Transporting by boat, steamer, ferry, etc., by river, canal.	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean.	707
	Transporting by air	708
	Transporting by other means not covered above.	709
71	Services incidental to transport such as packing, carting travel agency.	710
72	*Storage and Warehousing*—	
	Operation of storage such as ware-houses	720
	Operation of storage such as cold storage	721
	Operation of storage of other type	722
73	*Communication*—	
	Postal, telegraphic, wireless and signal communications.	730
	Telephone communication	731
	Information and broadcasting	732
Division 8—Services		
80	*Public Services* (This does not include Govt., Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups).	
	Public Services in Union and State army including territorial corps and volunteer corps.	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government.	804
	Public service in administrative departments and offices of quasi-government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Governments.	809
81	*Educational and Scientific Services*—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions.	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type.	811
	Scientific services and research institutions not capable of classification under any individual group.	812

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
Division 8—Services—contd.		
82	*Medical and Health Services*—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners.	820
	Veterinary services rendered by organisations and individuals.	821
83	*Religious and Welfare Services*—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities this includes missions, ashrams and other allied organisations.	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk.	831
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity.	832
84	*Legal Services*—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi.	840
	Matrimonial services rendered by organisations and individuals.	841
85	*Business Services*—	
	Engineering services rendered by professional organisations or individuals.	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals.	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies.	852
	Business services rendered dy professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnists, journalists, editors, authors.	853
86	*Community Services and Trade and Labour Associations*—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations.	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library.	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens, etc.	862
87	*Recreation Services*—	
	Production of motion picture and allied services such as processing, editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures.	871

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
Division 8—Services—contd.		
87	*Recreation Services*—concld.	
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals.	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc., racing.	873
88	*Personal Services*—	
	Services rendered to households such as those by domestic servants, cooks.	880
	Services rendered to households such as those by governess, tutor, private secretary.	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities.	882
	Laundry services rendered by organisations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning services.	883
Division 8—Services—concld.		
88	*Personal Services*—concld.	
	Hair dressing, other services rendered by organisation and individuals such as those by barber, hairdressing saloon and beauty shops.	884
	Services rendered by portrait and commercial photographic studios.	885
89	*Services (not elsewhere classified)*—	
	Services rendered by organisations or individuals not elsewhere classified.	890
Division 9—Activities not adequately described		
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified.	900
	Fresh entrants to the Labour Market ..	999

APPENDIX II

NATIONAL CLASSIFICATION OF OCCUPATIONS

A Code structure which classifies occupations int

11 Occupational Divisions (one-digit code numbers)
75 Occupational Groups (two-digit code numbers

Note: n.e.c.=not elsewhere classsified.

DIVISIONS

0 Professional, technical and related workers
1 Administrative, executive and managerial workers
2 Clerical and related workers
3 Sales workers
4 Farmers, fishermen, hunters, loggers and related workers
5 Miners, quarrymen and related workers
6 Workers in transport and communication occupations
7-8 Craftsmen, production process workers, and labourers not elsewhere classified.
9 Serivce, sport and recreation workers
X Workers not classifiable by occupations

DIVISIONS AND GROUPS

0 Professional, Technical and Related Workers
- 00 Architects, Engineers and Surveyors 1
- 01 Physicists, Chemists, Geologists and other Physica Scientists
- 02 Biologists, Veterinarians, Agronomists and Related Scientists
- 03 Physicians, Surgeons and Dentists
- 04 Nurses, Pharmacists and other Medical and Health Technicians
- 05 Teachers
- 06 Jurists
- 07 Social Scientists and Related Workers
- 08 Artists, Writers, and Related Workers
- 09 Draughtsmen, Science and Engineering Technicians, n. e. c.
- 0X Other Professional, Technical and Related Workers

1 Administrative, Executive and Managerial Workers
- 10 Administrators, and Executive Officials, Government
- 11 Directors and Managers, Wholesale and Retail Trade
- 12 Directors, Managers and Working Proprietors, Financial Institutions
- 13 Directors, Managers and Working Proprietors, Other

2 Clerical and Related Workers
- 20 Book-Keepers and Cashiers
- 21 Stenographers and Typists
- 22 Office Machine Operators
- 28 Clerical Workers, Miscellaneous
- 29 Unskilled Office Workers

3 Sales Workers
- 30 Working Proprietors, Wholesale and Retail Trade
- 31 Insurance and Real Estate Salesmen, Salesmen of Securities and Services and Auctioneers
- 32 Commercial Travellers and Manufacturers' Agents
- 33 Salesmen, Shop Assistants and Related Workers.
- 34 Money Lenders and Pawn Brokers.

4 Farmers, Fishermen, Hunters, Loggers and Related Workers
- 40 Farmers and farm Managers
- 41 Farm Workers
- 42 Hunters and Related Workers
- 43 Fishermen and Related Workers
- 44 Loggers and Other Forestry Workers

5 Miners, Quarrymen and Related Workers
- 50 Miners and Quarrymen
- 51 Well Drillers and Related Workers
- 52 Mineral Treaters
- 59 Miners, Quarrymen and Related Workers, n. e. c.

6 Workers in Transport and Communication Occupations
- 60 Deck Officers, Engineer Officers and Pilots, Ship
- 61 Deck and Engine-Room Ratings (Ship), Barge Crews and Boatsmen
- 62 Aircraft Pilots, Navigators and Flight Engineers
- 63 Drivers and Firemen, Railway Engine
- 64 Drivers Road Transport
- 65 Conductors, Guards and Brakesmen (Railway)
- 66 Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport
- 67 Telephone, Telegraph and Related Telecommunication Operators
- 68 Postmen and Messengers
- 69 Workers in Transport and Communication Occupations, n. e. c.

7-8 Craftsmen, Production Process Workers, and Labourers not elsewhere Classified
- 70 Spinners, Weavers, Knitters, Dyers and Related Workers
- 71 Tailors, Cutters, Furriers and Related Workers
- 72 Leather Cutters, Lasters and Sewers (Except Gloves and Garments) and Related Workers
- 73 Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers
- 74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers
- 75 Tool Makers, Machinists, Plumbers, Welders, Platers and Related Workers
- 76 Electricians and Related Electrical and Electronics Workers
- 77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers
- 78 Painters and Paper Hangers
- 79 Bricklayers, Plasterers and Construction Workers n. e. c.
- 80 Compositors, Printers, Engravers, Book Binders and Related Workers
- 81 Potters, Kilnmen, Glass and Clay Formers and Related Workers
- 82 Millers, Bakers, Brewmasters and Related Food and Beverage Workers
- 83 Chemical and Related Process Workers
- 84 Tobacco Preparers and Products Makers
- 85 Craftsmen and Production Process Workers, n. e. c.
- 86 Testers, Packers, Sorters and Related Workers
- 87 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers
- 89 Labourers, n. e. c.

9 Service, Sport and Recreation Workers
- 90 Fire Fighters, Policemen, Guards and Related Workers
- 91 House Keepers, Cooks, Maids and Related Workers
- 92 Waiters, Bartenders and Related Workers
- 93 Building Caretakers, Cleaners and Related Workers
- 94 Barbers, Hairdressers, Beauticians and Related Workers
- 95 Launderers, Dry Cleaners and Pressers
- 96 Athletes, Sportsmen and Related Workers
- 97 Photographers and Related Camera Operators
- 99 Service, Sport and Recreation Workers, n. e. c.

X Workers not Classifiable by Occupations
- X0 Workers without occupations
- X8 Workers Reporting Occupations Unidentifiable or Unclassifiable
- X9 Workers Not Reporting Occupations

APPENDIX III

COMMON HOUSEHOLD INDUSTRIES WITH THEIR INDUSTRIAL CODE NUMBERS

Note : n.e.c. = not elsewhere classified

Industrial Code Number	Household Industry
Major Group 00—Field Produce and Plantation Crops	
005.1	Production of Vegetables
005.2	Production of roots etc., not included above
006.1	Production of fruits and nuts in plantation, vines and orchards
006.2	Production of copra (from coconuts)
007.1	Production of thatching grass
007.2	Production of wood, bamboo, cane reeds, etc. (excluding thatching grass).
008.1	Production of juice (Neera) by tapping coconut trees
008.2	Production of juice by tapping other palms like date Palmyra n. e. c.
009	Production of other agricultural produce (including fruits and nuts not covered by 006 and flowers) not covered above.
Major Group 01—Plantation Crops	
013	Production of tobacco in plantation
015.1	Pan Cultivation
015.2	Plantation crops except tea, coffee, rubber, tobacco, ganja, cinchona, opium and pan
Major Group 02—Forestry and Logging	
023.1	Production of Charcoal
023.2	Production of other fuels by exploitation of forests
024	Production of fodder by exploitation of forests
025.1	Production of Kathha
025.2	Production of Lac
025.3	Production of gum
025.4	Production of resins, barks, herbs, wild fruits, berries and leaves, etc., n. e. c.
026	Production and gathering of other forest products not covered above
Major Group 03—Fishing	
030	Production of fish by fishing in sea
031	Production of fish by fishing in inland waters and ponds including fish farms and fish hatcheries
032	Production of pearls, conch shells, sponges, sea herbs, corals, etc., by gathering or lifting from sea, river, pond.
Major Group 04—Livestock and Hunting	
040.1	Rearing of goat for milk and animal power
040.2	Rearing of buffalo for milk and animal power
040.3	Rearing of cows for milk and animal power
040.4	Rearing of camels and other big domestic animals
040.5	Production and rearing of livestock mainly for milk and animal power n. e. c.
041.1	Sheep breeding and rearing
041.2	Production of wool
042.1	Rearing and production of pigs and goats (mainly for slaughter).
042.2	Rearing and production of other animals (mainly for slaughter) n. e. c.
043.1	Poultry keeping and production of eggs
043.2	Rearing and production of ducks, hens, etc., and other small birds *e.g.*, pigeons, parrots, peacocks, maina etc.
044.1	Bee keeping for production of honey and wax
044.2	Collection of wax and honey
045	Rearing of tassar/eri/mulberry and other silk worms and production of cocoons and raw silk.
046.1	Dog breeding, rearing of rabits and guinea-pigs
046.2	Rearing of other small animals and insects n. e. c
048.1	Collection of bones
048.2	Manufacture of glue from animal carcasses
048.3	Manufacture of gut
048.4	Production of other animal husbandry products such as skin, ivory, teeth and hair, etc.

Industrial Code Number	Household Industry
Major Group 10—Mining and Quarrying	
107.1	Extraction of chalk
107.2	Quarrying of lime-stone
107.3	Stone and slate quarrying
107.4	Quarrying of sand, clay, gravel, etc., n. e. c.
Major Group 20—Foodstuffs	
200.1	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc.
200.2	Hand pounding of rice by Dhekhi or Ukhal
200.3	Production of rice by milling dehusking and processing of paddy by rice mill.
200.4	Grinding of chillies, turmeric, etc.
200.5	Production of pulses
200.6	Parching of grains
200.7	Production and processing of other crops and food-grains n. e. c.
202.1	Gur and Khandsari making from sugarcane and palm
202.2	Production of bhoora and candy
202.3	Production of jaggery from coconut and palmyra juice (neera)
202.4	Production of other indigenous products from sugar and jaggery n. e. c.
203.1	Manufacture of achar, pickles, chutney and murabba
203.2	Production of sauce, jam and jelly
203.3	Processing of cashew nut
203.4	Manufacture of kokam products
203.5	Fruit preservation (canning of fruits)
203.6	Making dried vegetables
203.7	Production of other fruit products and preservation of fruits n. e. c.
204.1	Slaughtering, preservation of meat and fish and canning of fish.
204.2	Fish currying or curing and salting (currying applies more to skin and hide).
205	Production of bread, biscuit, cake and other bakery products.
206	Production of butter, cream, ghee, cheese chhana, khowa and other dairy products.
207	Oil pressing ghani, kolhu or by small machines
209.1	Confectionery
209.2	Making of sweet-meats, laddu, peda, barphi batasa, etc.
209.3	Sattu, bhunja, papar, barri, danauri, tilauri, sewai, apalam, etc.
209.4	Making of chura or chira, muri, murki, khoi
209.5	Making of chat
209.6	Making of dalmot, chanachur (jor) garam, rewari, etc.
209.7	Making of other food products for residuary snacks
209.8	Production of other food products like cocoa, chocolate, toffee, lozenge,
Major Group 21—Beverages	
210.1	Manufacture of vinegar from coconut juice (neera)
210.2	Manufacture of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery.
211	Production of country liquor from material obtained from sources other than trees and shrubs
212.1	Production of indigenous liquor such as liquor, toddy, neera from mahua and palm trees
212.2	Production of other indigenous liquor, from other materials from trees and shrubs
214.1	Production of mineral water
214.2	Production of aerated water such as sodawater, lemonade, etc.
215	Production of ice

Industrial Code Number	Household Industry
Major Group 21—Beverages—concld.	
216	Production of ice-cream, ice-candy or kulphimalai, milk-shake, etc.
218	Grinding of Coffee
219.1	Preparation of sharbats and squashes
219.2	Preparation of jeerapani
219.3	Production of other beverages n. e. c.
Major Group 22—Tobacco Products	
220	Manufacture of bidi
221	Manufacture of cigars and cheroots
223	Manufacture of hookah tobacco
224	Manufacture of snuff
225	Manufacture of jerda, kimam, khaini and other chewing tobacco.
226	Manufacture of other tobacco products n. e. c.
Major Group 23—Textile—Cotton	
230	Cotton ginning, cleaning, carding, pressing and baling
231	Cotton spinning (by charkha and takli)
233.1	Dyeing of cloth (cotton) and yarn
233.2	Bleaching of cloth (cotton) and yarn
233.3	Tie and dye (bandhani) of cloth and yarn
234	Cotton cloth weaving in powerlooms
235	Cotton cloth weaving in handlooms
236	Manufacture of khadi textile in handlooms
237	Printing of cloth (cotton)
238.1	Making of fishing net
238.2	Making of mosquito net
238.3	Making of other nets
239.1	Making of sacred thread
239.2	Making of thread, rope, cordage and twine (cotton)
Major Group 24—Textile—Jute	
240	Jute pressing and baling
241	Jute spinning and weaving of mats, asanis, etc.
242	Dyeing and bleaching of jute
244.1	Making of rope and cordage, out of hemp
244.2	Making of rope and cordage, out of jute
244.3	Making of rope by palm fibre
244.4	Making of rope by date palm fibre
244.5	Making of fibre, sunn-hemp fibre
244.6	Making of other products from jute and similar fibres such as hemp, mesta
Major Group 25—Textile—Wool	
250	Wool baling and pressing
251	Cleaning, sorting, carding, scouring and processing of wool
253	Spinning of wool by charkha or takali
254	Weaving of woollen cloth in powerloom such as blankets, asanis, etc.
255	Weaving of woollen cloth in handloom such as blankets, rugs, pashmina, thulma, gudma, etc.
256.1	Embroidery with various colours, combinations of various threads and art work in woollen textile
256.2	Shawls (with traditional borders)
Major Group 26—Textile—Silk	
261	Dyeing and bleaching of silk
262.1	Spinning of tussar, other than in mills
262.2	Spinning of eri, other than in mills
262.3	Spinning of silk, other than in mills n. e. c.
263.1	Weaving of Traditional silk (Atlas) by powerloom
263.2	Weaving of tussar by powerloom
263.3	Weaving of eri by powerloom
263.4	Weaving of silk and artificial silk in powerloom n.e.c.
264.1	Weaving of mashru, himroo, brocade, kinkhab by handloom
264.2	Weaving of silk and artificial silk in handloom n. e. c.
265	Printing of silk textile
266.1	Goaf making
266.2	Making of silk cordage, rope and twine n. e. c.

Industrial Code Number	Household Industry
Major Group—27—Textile—Miscellaneous	
270.1	Making of durries
270.2	Making of carpets and druggets
270.3	Manufacture of other similar textile products n. e. c.
271.1	Making of hosiery goods such as banyans, socks, sweaters, mufflers, etc.
271.2	Making of nalas and azarbands
271.3	Making of parandas and chootelas
271.4	Manufacture of hosiery and other knitted fabrics and garments n. e. c.
272.1	Embroidery and making of phulkari
272.2	Making of jari thread, zardoshi
272.3	Traditional embroidery
272.4	Patchwork embroidery
272.5	Lace garland making
272.6	Making of fringes and crepe laces
272.7	Making of kargota, main garlands, shell garlands, etc.
272.8	Making of other embroidery products n. e. c.
273.1	Making of cap, hat, and other head-gear
273.2	Traditional garments
273.3	Chrochet work (bora caps)
273.4	Making of textile garments including rain-coats and head-gears n. e. c
274.1	Weaving of khes, bed covers, curtains, pillow cases and table-cloth, cloth bags, etc.
274.2	Making of newar
274.3	Manufacture of other made-up textile goods like mattress, quilt, rezai, etc., n.e.c.
275	Manufacture of waterproof textile products such as oil cloth, tarpaulin, etc.
276.1	Making of namda felt
276.2	Making of suzani (padded quilts)
276.3	Processing of coconut fibre for upholstery
276.4	Handicraft articles made of flax and fibre
276.5	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling n. e. c.
277.1	Manufacture of coir matting, cactus, fibre for ropes and rope making from coconut fibre
277.2	Making of brush, broom, etc., from coconut fibre
277.3	Coir spinning
277.4	Coconut curing
277.5	Other allied products of coir industry n. e. c.
278	Manufacture and repair of umbrellas
279.1	Making of daura (thread) batua, cotton thread, buttons
279.2	Manufacture of dolls and toys (rags and cotton)
279.3	Manufacture of other textile products not elsewhere classified
Major Group 28—Manufacture of Wood and Wooden Products	
280	Sawing, planing and milling of wood
281	Manufacture of wooden furniture and fixtures
282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows
283.1	Carpentry works concerned with repairs of agricultural implements (wood)
283.2	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipments and fixtures
284.1	Lecquerware (if on wood)
284.2	Manufacture of wooden utensils, artware and decorative wooden boxes (patras)
284.3	Manufacture of wooden toys
284.4	Sandal wood and other wood carving
284.5	Bead making from wood
284.6	Sawdust and plaster figure making
284.7	Marquetry boxes (inlay work)
284.8	Manufacture of photo frames and framing of photo paintings, etc.
284.9	Manufacture of other wooden products n. e. c.
285	Manufacture of match splinters, plywood and veneers
287	Manufacture of boxes and packing cases other than plywood

Industrial Code Number	Household Industry
Major Group 28—Manufacture of Wood and Wooden products—concld.	
288.1	Making of box from moonj grass
288.2	Making of rope mats, etc., from moonj and sawai grass and making of cadjar for thatching purposes
288.3	Making of mats, handfans and umbrellas from palm leaves
288.4	Making of sirki, moora and chhaj
288.5	Making of baskets and broomsticks
288.6	Making of donas (dronè) and pattals (patravali) from leaves
288.7	Caning of chairs
288.8	Making of chicks, cuscus-tatti and fans, sticks and poles from bamboo
288.9	Manufacture of other articles from leaf, cane, bamboo, cork and other allied products n. e. c.
289.1	Making of sticks and poles from wood
289.2	Making of wooden kharaus and other wooden sandals
289.3	Making of artwheels
289.4	Manufacture of other wood and allied products n. e.c.
Major Group 29—Paper and Paper Products	
291	Manufacture of pulp and paper by hand
292.1	Making of envelopes and paper bags
292.2	Papier mache articles
292.3	Making of kite
292.4	Paper decorations for homes
292.5	Making of card-board boxes and cards
292.6	Making of paper toys
292.7	Making of paper flowers, etc.
292.8	Manufacture of other paper products from paper, paper board and pulp n. e. c.
Major Group 30—Printing and Publishing	
301	Printing and publishing of books
302.1	Printing works, printing of handbills, invitation cards etc.
302.2	Lithography, engraving, etching, block making, type cutting and other work connected with Printing Industry.
303	Book binding, stitching, sizing and other work, connected with book binding industry
Major Group 31—Leather and Leather Products	
310.1	Flying, processing of hides and skins including taxidermy
310.2	Currying, tanning and finishing of hides and skins, preparation of finished leather
310.3	Stuffed animals
311.1	Making of leather boots, shoes or chappals (slippers, sandals)
311.2	Making of Poola shoes
311.3	Manufacture of other footwear n. e.c.
312	Making of clothing and wearing apparel (except footwear) made of leather and fur
313	Manufacture of leather products such as leather upholstery, suit cases, pocket-books, cigarette and key cases, purses, saddlery, whip, acquaducts (Kos), charsa and other articles
314	Repair of shoes, chappals and other leather footwear
315	Repair of all other leather products except footwear
Major Group 32—Rubber, Petroleum and Coal Products	
320	Vulcanising tyres and tubes
321	Manufacture of chappals from torn tyres and other rubber footwear
322	Manufacture of rubber products from natural and synthetic rubber including rain-coats, oil cloths, waterproof cloths etc.

Industrial Code Number	Household Industry
Major Group 33—Chemicals and Chemical Products	
331.1	Manufacture of dyes, paints, colours, abir, sindoor, varnish etc.
331.2	Manufacture of indigo
332	Manufacture of fertilizer (including from bones)
333	Manufacture of fireworks and other explosives such as *pataka*, etc.
334	Manufacture of matches
335.1	Manufacture of incense and perfumes
335.2	Manufacture of Agarbatti
335.3	Manufacture of rose water
335.4	Manufacture of powder, snow, cream, bindi, tikali, hair oil and nail polish
335.5	Manufacture of kum kum and hinglo
335.6	Manufacture of mascara and kajal
335.7	Manufacture of medicines (ayurvedic, unani, etc.) and pharmaceutical preparations
335.8	Manufacture of perfumes, cosmetics and other toilet preparations n. e. c.
336.1	Manufacture of soap and washing soda
336.2	Manufacture of other washing and cleaning compounds n. e. c.
337.1	Manufacture of plastic toys
337.2	Making of plastic buttons
337.3	Manufacture of other plastic goods
337.4	Making of celluloid goods
337.5	Manufacture of turpentine, synthetic resin and other materials n. e. c.
338	Salt production
339.1	Manufacture of ink including fountain pen ink
339.2	Making of candles
339.3	Making of tooth powder
339.4	Making of boot polish and inedible oils, etc.
339.5	Manufacture of other chemicals products n. e. c.
Major Group 34-35—Non-metallic Mineral Products other than Petroleum and Coal	
340.1	Making of bricks
340.2	Manufacture of roofing tiles
340.3	Manufacture of other clay products n. e. c.
341.1	Manufacture of cement door frames and sanitary fittings
341.2	Manufacture of cement jali and tiles
341.3	Making of cement statues
341.4	Making of cement products n. e. c.
342.1	Manufacture of lishu
342.2	Manufacture of lime
343.1	Stone carving
343.2	Marble carving
343.3	Granite carving
343.4	Manufacture of other structural stone goods, stone dressing and stone crushing n. e. c.
344	Making of chakki, chakla, silaut, lorha, jainta, utensils and other articles from stone
345	Manufacture of stone images and toys
346.1	Making of images from soap stone
346.2	Manufacture of images toys and other articles of plaster of paris
348.1	Mica splitting
348.2	Manufacture of mica products including mica grinding
350	Making of earthenware such as pottery, etc.
351	Manufacture of crockery
353.1	Making of glass bangles
353.2	Making of glass beads
353.3	Manufacture of bead garlands (where making of garlands is undertaken at the place of manufacture of beads) (also see 399)
354	Manufacture of Laboratory glass apparatus
355	Making of clay models, earthen images, busts and statues
356.1	Making of earthen toys and artware
356.2	Decorative ceramics
357	Manufacture of glass and glass products except optical and photographic lenses

Industrial Code Number	Household Industry
	Major Group 36—Basic Metals and their Products except Machinery and Transport Equipment
360.1	Re-rolling of M. S. Rods
360.2	Manufacture of iron and steel including smelting, refining, rolling, etc., such as billets, blooms, tubes, rods, n. e. c.
362	Manufacture of arms and weapons and their repair service
364	Manufacture of iron and steel furniture
365.1	Making of utensils of brass and bell metal
365.2	Making of brassware
365.3	Making of bottom part of hookha from brass and bell metal
365.4	Making of brass and bell metal ornaments
365.5	Making of other brass and bell metal products n. e. c.
366.1	Making of aluminium utensils
366.2	Making of other aluminium products n. e. c.
367.1	Making of tin utensils
367.2	Making of articles fromt tin sheets
367.3	Copper utensils
367.4	Bronze works including bronze images, medals and articles of alloys
367.5	Manufacture of other metal products (excluding iron, brass, bell metal, aluminium) n. e. c.
368.1	Lacquerware (if on metal)
368.2	Nickel plating and electroplating
368.3	Engraving, embossing, polishing and welding of metal products
368.4	Enamelling and galvanizing of metal products
368.5	Plating and electroplating of metal n. e. c. including silverplating, goldplating, E. P. N. S., etc.
369.1	Manufacture of agricultural implements such as ploughshare, khurpi, kudal, etc.
369.2	Manufacture of light engineering goods including bolts and screws
369.3	Making of iron utensils (*e. g.*, buckets, etc.) and articles from iron sheets
369.4	Making and repairing of locks and trunks
369.5	Cutlery
369.6	Manufacture of pins
369.7	Manufacture of scales, weights and measures
369.8	Foundry Industry (including blacksmithy)
369.9	Manufacture of other sundry hardware such as G. I. pipe, wire net, etc., n. e. c.
	Major Group 37—Machinery (All kinds other than Transport) and Electrical Equipment
370	Manufacture of mechanical water pumps, tube well pumps, air pumps, etc.
372	Manufacture of small machine tools and machine parts
373	Manufacture of sewing machine parts
375	Repairing and servicing of fans
376	Manufacture of insulated wires
377.1	Manufacture of storage batteries
377.2	Manufacture of charging batteries
377.3	Manufacture of other batteries n. e. c.
378	Repairing and servicing of radios
379.1	Manufacture of domestic electrical appliances
379.2	Repairing and servicing of electrical apparatus, heaters, oven, etc.

Industrial Code Number	Household Industry
	Major Group 38—Transport Equipment
382	Manufacture of body of trucks and buses including carpentry and joinery work involved
384	Repairing and servicing of automobiles
385.1	Manufacture of cycle parts and accessories such as saddle, seat frame and gear, etc.
385.2	Manufacture of rikshaw parts
386	Manufacture of boats and barges
388	Repair of cycle and rikshaw
389	Manufacture of animal drawn and hand drawn vehicles such as bullock cart, tamtam, lagadi, palaki, cab, wheelbarrow, handbarrow, etc.
	Major Group 39—Miscellaneous Manufacturing Industries
390.1	Repair of spectacles
390.2	Manufacture of small photographic equipment
390.3	Manufacture of optical and photographic equipment n. e. c.
391	Manufacture of scientific goods
392	Repairing and servicing of watches and clocks
393.1	Inlay work with ivory and brass
393.2	Goldsmithy
393.3	Manufacture of jewellery, silverware and wares using gold and other precious metal and precious and semi-precious stones
393.4	Silver artware, including Silver repousse work on copper (such as in Tanjore) and silver images
393.5	Silver filigree industry
393.6	Manufacture of gold and silver leaves
393.7	Gold covering work (fancy jewellery)
393.8	Bidriware industry
393.9	Manufacture of jewellery, silverwares, etc. n. e. c.
394	Manufacture, repairing and tuning of musical instruments such as harmonium, tabla, sitar, bansuri, etc.
395.1	Manufacture of chalk pieces
395.2	Making of slate and slate pencil
395.3	Making of rubber stamps
395.4	Manufacture of fountain pen parts
395.5	Manufacture of other stationery articles such as pencils, penholders, etc.
396.1	Manufacture of deshi sports goods such as lezzim and dumbells
396.2	Making of rubber balls and balloons
396.3	Manufacture of other sports goods n. e. c. bats, rackets, balls, etc.
399.1	Making of tikka and cowdung cakes
399.2	Making of beads, from conch shells and horn goods
399.3	Making of traditional objects such as Orissa, Mysore and Tanjore paintings, etc.
399.4	Making of lac bangles
399.5	Making of buttons (bone, shell, ivory)
399.6	Making of gangavan (making of wig from human hair)
399.7	Making of garlands from flowers, camphor, sandal wood shavings, seeds and other materials, like beads, etc.
399.8	Repair of petromax lights, etc.
399.9	Making and repairing of goods n. e. c.

EXPLANATORY NOTE

The scope of the 1961 District Census Handbooks has been enlarged to include in this Part, Official Statistics on climate and rainfall, agriculture, industry, education, health and a few other topics. The material presented here was mainly collected and compiled by the District Statistical Officer, for this volume. The concerned Departments of the State and Central Governments have also been consulted. For most of the Tables the footnotes show the sources from which the material has been obtained.

2. There are 33 Tables in this Part. They may be broadly grouped as follows :—

(1) Climate and Rainfall—Tables 1 and 2.

(2) Agriculture—Tables 3 to 10.

(3) Industries—Tables 11 to 14.

(4) Education—Tables 15 and 16.

(5) Public Health—Tables 17 to 19.

(6) Miscellaneous—Tables 20 to 33.

(1) CLIMATE AND RAINFALL

Table 1

This table presents the highest and the lowest temperatures recorded at one or more stations in the district for all the 12 months for the years 1951 to 1960. Annual averages are shown in the last column.

Temperature data are maintained by the Meteorological Department and are published in their monthly weather reports and their summary which is published annually.

Table 2

This table shows monthly and annual rainfall and the number of rainy days for the various stations in the district. " Normal rainfall " [column (28)] is the average rainfall over a long period—usually 80 years. Where rainfall records over such a long period are not available it may be the average for a shorter period—in some cases even five years. Rainfall records are maintained at taluka headquarters, dispensaries and a few police stations where rain-gauges have been supplied. These statistics are published in Part III of the State Government Gazette and Annual Season and Crop Reports issued by the Department of Agriculture. They are subsequently consolidated and issued by the Meteorological Department in two annual publications, *viz.*, " Daily Rainfall of India " and " Monthly Rainfall of India."

Rainfall statistics are presented in this table separately for each of the ten years from 1951 to 1960.

(2) AGRICULTURE

Table 3

This table shows the utilisation of land and areas under various crops. Material is presented for the district as a whole and for each taluka separately. It is presented for ten years 1950-51 to 1959-60 :

(i) *Geographical area :* This area represents the total land area and is worked out from the Survey and Settlement Records. The changes in the geographical area from year to year may be due to territorial changes or corrections on account of adjustments in the areas of former unsurveyed villages which are now surveyed ;

(ii) *Forests* : This category includes all areas actually under forests whether State-owned or private and classed or administered as forests under any legal enactment dealing with the forests ;

(iii) *Barren and unculturable land* : This includes barren and unculturable lands like mountains, riverbeds, etc. (land which cannot be brought under cultivation unless at a very high cost) ;

(iv) *Culturable waste :* This includes lands which can be brought under cultivation but which have not been cultivated or having been cultivated for some time have not been cultivated successively for more than five years. Such lands may either be fallow or covered with shrubs ;

(v) *Permanent pastures and other grazing lands :* This includes all grazing lands whether they are permanent pastures and meadows or not ;

(vi) *Miscellaneous tree crops and groves not included in the net area sown :* This category includes lands under casuarina trees, thatching grass, bamboo bushes or other trees used for fuel, etc. Lands which are not included under orchards are included in this class. These are lands which are put to some agricultural use but whose area is not included in the net area sown ;

(vii) *Current fallows :* This includes lands which are left fallow during the current year only ;

(viii) *Other fallow land :* All lands which have been cultivated but which are temporarily out of cultivation for a period of not less than one year and not more than five years ;

(ix) *Net area sown :* The net area sown is the actual area under crops counting areas sown more than once in the same year only once ;

(x) *Gross cropped area :* This is the sum of areas under all crops and represents the sum of net area sown and area sown more than once in the year.

After the land utilisation statistics under section A in column (1) the table presents in section B the details of areas under different crops. The crops are classified in two main groups, *viz.*, foodcrops and non-foodcrops. Foodcrops are further grouped by " cereals, pulses and others ". Non-foodcrops are similarly shown under " oilseeds and others ".

The data on land utilisation and areas under crops are primarily prepared by the village officials of the Revenue Department. They are subsequently consolidated by the Agriculture Department.

Talukawise land utilisation and crop statistics are being presented for the first time in this volume. They have not been published so far anywhere else.

Table 4

This table presents gross and net irrigated areas and the distribution of net irrigated area by sources of irrigation. To facilitate comparison, the gross cropped area is also shown in column (3). The data are presented for three years, *viz.*, 1950-51, 1956-57 and 1959-60. Presentation is for the district as a whole and for each taluka separately.

Table 5

This table shows the acreages of various crops under irrigation for each year from 1950-51 to 1959-60. To facilitate comparison, the gross cropped area, and the gross irrigated area, are presented in the beginning. This is followed by acreages under irrigation for each crop.

The material is presented for the district as a whole and for each taluka separately.

Sources for the district and talukawise material are different and there may, therefore, be a few small discrepancies between the two sets of figures.

Table 6

This table presents the outturn and average yields per acre of principal crops in the district. The crops presented are foodcrops like rice, wheat, jowar, bajri, ragi, maize, tur, gram and sugarcane and non-foodcrops like groundnut, sesamum, cotton and tobacco. Crops which are locally important are only shown in this table.

The outturn figures are in hundred tons while average yields are shown in pounds per acre.

The estimates of average yields and production in respect of rice, bajri (kharif and rabi), jowar, wheat, gram, cotton, groundnut, tobacco, ragi and tur are based on the results of crop estimation surveys conducted annually by the Agriculture Department. The estimates of yields for other remaining crops are based on the anna valuation figures and normal yields reported by the Revenue Officers. The figures relate to the years 1950-51 to 1959-60.

Table 7

This table presents wholesale prices of principal crops. The material is presented for previous years by monthly averages and for the last year separately for each month. The prices shown are for the places having regulated markets or for the district headquarters.

Table 8

This table presents harvest prices of principal crops. The " harvest price " is the average wholesale price at which the commodity is disposed of by the producer to the trader at the village site during the specified harvest period. These prices are published in the Season and Crop Reports. The figures relate to the years 1950-51 to 1959-60.

Table 9

This table presents figures for livestock and agricultural implements for the district and each taluka separately for three years, *viz.*, 1951, 1956 and 1961. The material is obtained from the three livestock Censuses conducted in those years. The reference date to which the data relate is the 15th April of the concerned year.

" Poultry " in section B of the table includes hens, cocks, chicken, ducks, drakes and ducklets.

Section C presents statistics for agricultural implements. The figures for carts shown in the table are in respect of carts used for agricultural purposes only.

The number of tractors is inclusive of those owned by the Government and those owned by private persons.

The material is presented for the district as a whole and for each taluka separately.

Table 10

This table presents the distribution of the number of land holdings and their areas by size of holdings. The material has been taken from the census of agricultural holdings conducted in the year 1952-53 or 1953-54 in different parts of the State.

The figures presented here are for ownership holdings and the area figures are in terms of converted dry acres, *i.e.*, calculated after giving due weightage for irrigated lands.

Where the district has undergone major changes because of the reorganisation of States in 1956 or 1960, the material relates to the area of the district as it existed in the year 1952-53 or 1953-54.

(3) INDUSTRIES

Table 11

This table presents, for each industry, the total number of working factories, the number of man-days for which they worked during the year and the average daily number of workers employed classified by adults (18 years and above), adolescents (15 to 17 years) and children (14 or less). Statistics presented in columns (3) to (11) relate only to the reporting factories. The number of non-reporting factories and their estimated average daily number of workers are shown in columns (12) and (13). These details of factories are further split up by the type of industry shown under column (1) both by industry code and a brief description. The industry codes shown here (as well as in Table 12) are those used for compilation of data by the Chief Inspector of Factories. They are different from the Standard Industrial Classification used in the Census Tables and reproduced in Appendix I to the Explanatory Note to Part II.

The material is presented only for the district as a whole and only for one year, *viz.*, 1961.

The word "factories" here includes only the registered factories. They are of three types :—

(*i*) Factories using no power but employing 20 or more workers ;

(*ii*) Factories using power and employing 10 or more workers, and

(*iii*) Factories not covered by (i) and (ii) above but notified by the Government as covered by the Factories Act.

The material presented in this table is for all the three types combined.

Table 12

This table presents the distribution of factories for each type of industry by size of employment. For each size group, the number of factories and their total working strength are shown for each industry separately. The material is presented only for the district as a whole and only for one year, *viz.*, 1961.

Table 13

This table presents the distribution of factories for each type of industry by the number of days worked during the year. The material is shown for each industry and the number of factories and their total workers are shown for each group of working periods. This will show the seasonal or perennial pattern of employment in industries in the district. Material is presented only for the district as a whole and relates to the year 1961.

Table 14

This table presents a summary of data regarding the manufacturing industries as obtained through the annual Census of Manufacturing Industries conducted during the year 1958.

The 1958 Census had covered only 29 important industries. It moreover covered only the factories using power and employing 20 or more workers.

The figures for capital, etc., relate to 31st December 1958. "Value" added by manufacture denotes the increase in the total value of commodities as calculated by deducting the cost of materials, supplies, containers, fuel, electric energy and depreciation of fixed assets from the total value of the products.

The table presents only the combined figures for the 29 industries covered in the 1958 Census.

(4) EDUCATION

Table 15

This table shows the number of different types of educational institutions in the district and the total number of pupils (boys and girls) and teachers for each type for the years 1951, 1956 and 1961. The material is presented for the district as a whole and for each taluka separately.

The number of institutions relates to the academic year ending June and the number of pupils is as on 31st March of the respective years.

Table 16

This table presents a list of colleges and high schools in the district with their locations. The material relates to 31st March 1961, and does not include institutions started after that date.

Lists are presented talukawise.

(5) PUBLIC HEALTH

Table 17

This table shows medical facilities available in the district. The material is presented for three years 1950, 1955 and 1960 and shows the number of hospitals, maternity homes, dispensaries, rural health centres, doctors, nurses, beds available and indoor and outdoor patients treated.

Material is presented for each taluka separately.

The material presented here includes only civil hospitals and Government dispensaries, local or Municipal Funds institutions, private-aided or Railway dispensaries. It does not cover private unaided institutions run by individuals or associations. Similarly, the number of doctors, nurses or patients shown in this table does not include that relating to unaided hospitals, dispensaries or private practitioners.

Table 18

This table shows data about births, deaths and infant deaths for the years 1951 to 1960. Wherever possible, figures for each taluka are also shown separately. For the districts of Aurangabad and Nagpur divisions, material is available and presented only for the years 1957 and onwards.

The figures of infant deaths relate to deaths of children below one year.

The coverage and reporting on births, deaths and epidemic diseases in the rural areas are incomplete in many respects. The material presented in Tables 18 and 19 should not, therefore, be treated as any accurate representation of actual conditions in the district and should be used only after allowing a margin for those limitations. The Department of Public Health is working on many schemes to improve the present position in respect of vital statistics.

Table 19

This table shows the number of deaths due to principal causes in the district for the 10 years 1951 to 1960. The causes of deaths shown are cholera, small-pox, plague, dysentery and diarrhoea, fever, respiratory diseases and other causes. The figures of fevers include deaths due to enteric fever, cerebro-spinal fever, malaria, influenza, typhus, etc. Respiratory diseases include pneumonia, pulmonary tuberculosis, whooping cough, etc. In the other causes are included diphtheria, chicken-pox, poliomyelitis, leprosy, cancer, deaths from child birth, etc.

(6) MISCELLANEOUS

Tables 20 to 31

Tables 20 to 31 are self-explanatory and need no further clarification.

Table 32

This table presents talukawise lists of weekly markets. The table also shows the day on which the weekly bazar is held. Places where cattle bazars are held are also indicated. The list is based on the information collected from the Mamlatdar's offices and the Census enumerators' reports, prepared in September-October 1960.

Table 33

This table gives a talukawise list of villages where different religious or cultural fairs are held. The list includes only those fairs which have a congregation of 1,000 or more. Information regarding—

(*i*) Location Code Number,

(*ii*) the name of the village in which the fair is held,

(*iii*) distance from Railway station and S. T. Bus stop.

(*iv*) name of the fair, and month and date of the fair, and

(*v*) average congregation

is furnished for each fair separately.

The list is prepared on the basis of information collected from the District Superintendents of Police, Municipalities and the Census enumerators' reports. The number of people gathering at the fair is based on eye estimates and should be treated as a broad approximation.
