CENSUS OF INDIA 1961

RAJASTHAN

DISTRICT CENSUS HANDBOOK

AJMER DISTRICT

C. S. GUPTA
OF THE INDIAN ADMINISTRATIVE SERVICE
Superintendent of Census Operations, Rajasthan

Printed by Mafatlal Z. Gandhi, at Nayan Printing Press, Ahmedabad–1.

FOREWORD

The Census data has always been considered as indispensable for day to day administration. It is increasingly being considered now as the foundation stone of all regional planning. The publication of this series of District Census Handbooks wherein census statistics is made available for smaller territorial units is, therefore, a significant occasion for it fills many existing gaps in statistics at the lower levels. Many interesting details have been revealed by the Census 1961 and I hope persons engaged in the administration of the State and public in general will appreciate the value and the effort that has gone into the production of such a standard book of reference.

I congratulate the Superintendent of Census Operations, Rajasthan, Shri C. S. Gupta I. A. S. and his colleagues who have done a good job with skill and perseverence.

B. MEHTA
Chief Secretary
to the Government of Rajasthan.

JAIPUR,
1st March, 1966.

PREFACE

The District Census Handbooks, to which series the present volume belongs, are the gifts of the Census of India and were first introduced in 1951. The 1961 series of District Census Handbooks are more elaborate than their counter-part in 1951 and present all important census data alongwith such other basic information as is very relevant for an understanding of the district. A wide variety of information which the Census 1961 collected has already been released in several parts as mentioned elsewhere in this book. The information contained in the present volume will be found useful by the Government, the district administration, persons engaged in regional planning, social workers and scholars in the field of humanities. Unfortunately these Handbooks became available to the users rather late in the decade. This was due to difficulties in printing. The Government Press Jodhpur, to whom this work was assigned by the State Government, had a heavy back-log of printing and found it impossible to print all the books in the series itself. Arrangements had therefore to be made to get these printed through a private press. I trust a more expeditious method for printing of such valuable matter in time will be devised in future.

I am grateful to Shri Asok Mitra, Registrar General, India for his guidance in this work from time to time. I am greatly beholden to the State Government for their kindly agreeing, as they also did in 1951, to get this series published at their cost.

Dr. U. B. Mathur, Dy. Superintendent Census Operations, Rajasthan assisted me in editing this series. Tabulation Officer Shri S. R. Luhadia assiduously worked for compilation of the information presented in the book and has seen it through the press. Many of the facts and figures incorporated in the book were built up after scrutiny of a lot of raw material and by personal contacts. This task was admirably done by Shri Ram Autar Gupta, Statistical Assistant. Without their sincere cooperation and the assistance rendered by various members of the staff, mentioned overleaf, who were associated with this work, it would have been hardly possible to present the information which is the subject matter of this book. I thank them all.

C. S. GUPTA
Superintendent,
Census Operations, Rajasthan.

JAIPUR,
15th August, 1966.

PART VIII-B	*Census Administration Report (Tabulation)
PART IX-A & B	Census Atlas

A separate District Census Handbook prepared by this office is being issued by the Government of Rajasthan for each of the 26 districts.

* Not for sale

SECTION I

INTRODUCTION

INTRODUCTION

Till November, 1956 Ajmer used to be a separate State when it was merged with Rajasthan as a result of the reorganisation of the Indian states. The territory now known as district Ajmer includes the former Ajmer State, the former Kishangarh Sub-division at Jaipur district and village Mankhand transferred from Todaraisingh tehsil of Tonk district. In the process of the formation of this district some portion of Deoli in Kekri tehsil (Ajmer) was transferred to Tonk district.

Location and Formation

2. District Ajmer is situated in the centre of the State, between 25° 38′ and 26° 58′ north latitudes and 73° 54′ and 75° 22′ east longitudes. It is bounded on the north by Nagaur district, on the west by Pali district, on the south by Bhilwara district and on the east by Jaipur and Tonk districts.

3. The area of the district as reported by the Surveyor General of India is 3,283 Sq. miles and according to village papers it is 3,224.1 Sq. miles or 8,350.4 Sq. Km. The district covers 2.4% of the total area of the State and stands 17th in rank in area amongst the other districts of the State.

4. The district is composed of seven tehsils viz. Rupnagar, Ajmer, Kishangarh, Arain, Beawar, Sarwar and Kekri. As already stated it was in 1956 that the entire Kishangarh, Arain, Sarwar and Rupnagar tehsils of Jaipur district were transferred to Ajmer district in addition to one village Mankhand from Todaraisingh tehsil of Tonk district. At the same time one village, three hamlets and the town of Deoli from Kekri tehsil was transferred to Tonk district. Some inter-tehsil transfers of territories which were made resulted in a loss to Ajmer tehsil as a sequel to the transfer of one village with an area of 6.2 Sq. miles to Rupnagar tehsil, two villages with an area of 18.2 Sq. miles to Kishangarh tehsil, two villages with an area of 7.2 Sq. miles to Sarwar tehsil and 11 villages with 33.4 Sq. miles of area to Kekri tehsil. Ajmer tehsil, however, gained some territory due to the transfer of three villages from Kishangarh tehsil and four villages from Beawar tehsil having an area of 21.5 Sq. miles and 18.1 Sq. miles respectively. There was one more inter-tehsil transfer relating to one village Manoharpura with 13.8 Sq. miles of area from Kekri tehsil to Sarwar tehsil.

Topography

5. Ajmer district is more or less triangular in shape and is generally plain interspersed with low hills. Beawar region is an irregular terrain and generally hilly while Kekri region is plain and Kishangarh area is mostly sandy except a few small isolated patches.

6. Aravalli range passes through the district which divides the plains of Marwar from the high table-land of Mewar. The range comes into prominence near Ajmer City, where it appears in a parallel succession of hills. The highest point is 2,855 ft. above the sea level near Ajmer City on which Taragarh fort is situated. The 'Nagpahar' at a distance of about three miles west of Ajmer City, attains a scarcely inferior elevation. The range of hills (on which the Taragarh fort stands) passing through the district merges into the vindhyan system near Abu. There are four well known passes in Beawar tehsil viz. Barr, Pakheria and Sheopura Ghata and the Sura Ghata Pass. Near village Todgarh (Beawar tehsil) there are several passes. There is no notable pass in Ajmer tehsil except where the road to Pushkar, six miles west of Ajmer City, traverses a dip in the Nagpahar range.

7. There are five rivers which flow through the district viz. Banas, Khari, Sagarmati, Saraswati and Rupnagar. The river Banas which rises in the Aravalli hills enters this district near village Jeetpura in Kekri tehsil. Khari river which originates near Deogarh in Udaipur district and after forming the boundary falls into Banas. The river Sagarmati rising near Bisala tank in Ajmer meets river Saraswati in Ajmer tehsil. Another river Rupnagar flows in the central and eastern portion of Rupnagar tehsil. There are natural lakes viz. Pushkar and Budha Pushkar near Ajmer City, Sargaon and Karantia near Beawar town. Among the important tanks in the district are Foy Sagar, Phoolsagar, Bisala, Ramsar, Dilwar, Kalinjar, Jawaja, Makreda etc. Besides, several small reservoirs are also found in the district.

Climate

8. The climate of the district is hot and dry in summer and cold in winter. The district lies in the belt having an average minimum temperature ranging between 15.0° C to 17.5° C and an average maximum temperature from 30.0° C to 32.5° C. In the year 1961 the maximum temperature recorded at Ajmer centre was 42.0° C while minimum was 2.0° C. The normal annual rainfall of the district is 52.76 Cms. The rainy season lasts from July to September. The normal rainy days in the district are about 26 a year.

Geology and Minerals

9. The geology of the district is that of Aravalli range which extends throughout the district except the north-western part which is flat and plain, mostly covered with sand dunes. The rocks are composed of alluvium type, Delhi system, Erinpura granite and Banded gneissic complex and Bundelkhand gneiss.

10. There are mica mines at several places in the district. Beryl is found in Ajmer, Beawar, Kekri and Sarwar tehsils while Kyanite is available in Ajmer, Beawar and Kishangarh tehsils. There is a mine of Vermiculite near village Muhani and dolomite near village Makreda in Ajmer tehsil. Marble is dug out from the mines near village Narwar (Ajmer tehsil) and iron-ore near Kharwa village in Beawar tehsil. Other minerals found in the district are emerald, soap stone, limestone, felspar, garnet, graphite and tentalite-columbite. Nearly 9.0 thousand tons of felspar, 6.3 thousand tons of mica and 1.3 thousand tons of quartz were produced during the year 1960-61 in the district.

Forests, Flora and Fauna

11. About 3.1% of the total classified area was under forests in the district according to village papers during 1960-61. Subsidiary edaphic type of dry tropical forests are found in the district where the common species viz. Dhokra (Anogeissus pendula), Salar (Boswellia serrata), Khejri (Prosopis spicigera), Khair (Acacia catechu), Ber (Zizyphus jujuba) are found. Among the shrubs and herbs found in the district mention may be made of Thor (Euphorbia nivulia), Jharber (Zizyphus nummularia), Arni (Clerodendron phlomoides), Dasan (Rhus mysorensis) etc. Neem (Azadirachta indica), Pipal (Ficus religiosa), Semal (Salmalia malabarica) etc. are also found. Bans (Dendrocalamus strictus) is found on the higher slopes in the Taragarh and Nagpahar reserves in Ajmer range. The wood of the forests of the district is utilised in the manufacture of agricultural implements in rural areas and also for fuel purposes in urban areas. Among the wild animals black buck, deer, nilgai are commonly found while tiger are occasionally seen in the forests of Beawar tehsil. Leopard and hyaena are found in the hills of Nagpahar. Besides, wild pig and sambhar are also found. Among the small game geese, duck and snipe are found around the tanks in cold weather. Hare and grey partridge are seen in every season. Small sand grouse is found in abundance while Indian bustard is occasionally met with.

General Administration

12. For the purposes of administration the district is divided into four sub-divisions and seven tehsils as mentioned below :-

Name of Sub-division		*Name of Tehsil*
1	Ajmer	1 Ajmer
2	Beawar	1 Beawar
3	Kekri	1 Kekri
4	Kishangarh	1 Kishangarh
		2 Arain
		3 Rupnagar
		4 Sarwar

13. The Collector is the administrative chief of the district who is also the District Magistrate. Each Sub-division is under the charge of a Sub-divisional Magistrate who is vested with 1st Class Magisterial powers while each tehsil is under the charge and supervision of a Tehsildar who is vested with 2nd or 3rd Class Magisterial powers as the case may be. Besides, the Collector, Sub-divisional Officers and Tehsildars who exercise criminal powers, there are courts of District and Sessions Judge and Small Cause Judge at Ajmer, Civil and Additional Sessions Judge at Ajmer and Kishangarh, Civil Judge at Ajmer and Beawar and Munsif Magistrate at Nasirabad. Separate Munsif Courts also function in the district two for Ajmer City, one for Ajmer district and one for Kekri.

14. With the advent of democratic decentralisation, 8 Panchayat Samities have been formed all of which are Community Development Blocks. The Panchayat Samities are guided by the Zila Parishad under the chairmanship of the Pramukh and supervised by the Collector of the district who is also the District Development Officer. The Rajasthan Panchayat Samities and Zila Parishads Act, 1959 devolves on these Panchayat Samities the complete charge of the administration of the block including the implementation of the Community Development Programmes. For imparting the technical guidance to the villagers, the Government has deputed its representatives from the various departments to the Blocks so that an all-round progress may be achieved. The ultimate aim of the Government is to make these Panchayat Samities the sole agency of all developmental activities at the Block level.

15. There is a Model Jail at Ajmer with an authorised capacity of 581 inmates. Besides, a second class sub-jail also functions in the district at Kishangarh. There is an office of the Deputy Inspector General of Police (Ajmer Range) at Ajmer and is under the direct control of the Inspector General of Police, Rajasthan. Besides, there is one Superintendent of Police and five Deputy Superintendents of Police in the district. 22 Police Stations and 48 Police Out-posts functioned in the district during the year 1960-61.

Land Use

16. The classification of the land use in the district during 1960-61 was as follows :-

Classification of the land use	*Percent*
1 Forests	3.1
2 Land put to non-agricultural use ...	14.4
3 Barren and uncultivable land	6.2
4 Other uncultivated land excluding fallow land	2.8
5 Culturable waste	22.1
6 Fallow land	13.6
7 Net area sown	37.8
Total	100.0
Area sown more than once	5.5

Crop Pattern

17. Out of the total area under crops during 1960-61, 70% of the area was utilised for cereals, 13.3% for pulses, 6.5% for oil seeds and the rest of the area was used for growing other crops. The important crops of the district in order of production are maize, wheat, barley, jowar etc.

18. The district ranked second in the production of chillies, fifth in maize, sixth in jowar and sesamum and eighth in barley amongst the other districts of the State and contributed 8.6% of chillies, 6.9% of maize, 5.6% of jowar, 4.3% of sesamum and 5.5% of barley in the State during the year 1960-61.

Irrigation

19. The chief sources of irrigation in the district are wells, canals and tanks. During 1960-61, over 27 thousand wells were utilised for irrigation in the district of which over 80% were located in Ajmer, Kekri and Beawar tehsils.

20. About 243.3 thousand acres of land was irrigated during 1960-61 out of which nearly 149.5 thousand acres were irrigated by wells, 93.7 thousand acres by canals and tanks and the rest was irrigated by other sources. 81.6% of the total gross irrigated area was under food crops.

Animal Husbandry

21. The total livestock population in the district was around 14.48 lakh heads according to the Livestock Census of 1961 as compared to 13.42 lakh in 1956. Out of the total livestock during 1961, 35.2% were cattle, 33.8% sheep, 18.9% goats, 11.2% buffaloes and the rest comprised of horses, ponies, mules, donkeys, camels and pigs. The total poultry in the district during 1961 was about 30.6 thousand of which mostly (98.7%) consisted of fowls.

22. There are veterinary hospitals at Ajmer, Beawar, Kishangarh, Nasirabad, Kekri, Pushkar, Peesangan, Bhinai Arain, Masooda and Bijainagar and dispensaries at Kharwa, Jawaja, Sarwar, Shreenagar, Rupnagar, Todgarh, Ramsar, Baghera and Bandar Seendri. Sheep and Wool extension

centres are run at Beawar, Rupnagar, Peesangan, Arain, Masooda, Jawaja, Bijainagar, Bhinai, Shreenagar, Kekri and Todgarh under I. C. A. R. Scheme and at Kishangarh and Kekri under C. D. Blocks. During the first five year plan period a poultry farm was started at Ajmer under the Poultry Development Scheme where over 40 thousand eggs are produced annually. Besides, poultry extension centres also function in the district at Ajmer, Beawar and Kishangarh. One unit for mass immunisation and one mobile unit also function at Ajmer. There are key village scheme centres at Ajmer, Beawar, Nasirabad, Kekri, Bhinai and Masooda and an artificial insemination centre at Peesangan. Good varieties of fish are being developed in the Bir, Foy Sagar and the cantonment tanks at Nasirabad since 1961 under the fisheries development project. A District Animal Husbandry Officer functions at Ajmer. The most common breed of cattle found almost in every part of the district is the 'Gir' which has been given a local name of 'Renda' or 'Ajmera'. In some portion of Kekri tehsil the Hariana breed is also found while Nagori breed is available in Rupnagar tehsil. A sum of Rs. 13.78 lakhs was spent over the development of animal husbandry in the district during the second five year plan.

Agricultural Implements

23. There were about 68.1 thousand ploughs, 34.3 thousand carts, 954 'ghanies', 174 oil engines, 145 persian wheels, 115 sugarcane crushers, 69 tractors and 52 electric pumps in the district according to the Livestock Census of 1961.

Agricultural Improvements

24. During the second five year plan a sum of Rs. 76.80 lakhs was spent in the district on agriculture sector. During this period about 95.22 thousand Mds. of improved seeds, 4.2 hundred tons of fertilizers, 55 thousand tons of manure and over six hundred improved agricultural implements were distributed to the farmers under various schemes of the Agriculture Department. About 16.4 thousand manure pits were dug and 6.2 thousand acres of area were brought under the plough.

Irrigation Development

25. The main irrigation development scheme of the district is Narainsagar. Narainsagar tank is located near village Jaliya in tehsil Beawar where a bund is under construction across the Khari river for feeding this tank. It is an earthern dam with a capacity of over 7 hundred M cft. The estimated cost of this bund is about Rs. 38 lakhs on which Rs. 14.5 lakhs has already been spent by the end of 1960–61. On completion, it will irrigate an area of 9 thousand acres. A small work has been completed on Rupnagar river where a bund viz. Untra has been constructed in Ajmer tehsil. This bund is about 2 miles long and has a capacity of about 163 M cft. Other schemes for the district are Basundhari, Govindgarh, Dasaria and Lasaria which could not be started during the second five year plan and were carried to the third five year plan. In all 16 minor irrigation works were completed in the district and Rs. 44.06 lakhs were spent over irrigation facilities during the second plan period.

Industries and Labour

26. During the year 1950–51, there were 72 registered factories in the district which increased to 125 by the end of 1961. Amongst the large scale industries in the district mention may be made of Carriage and Wagon Workshop, Loco Central Workshop, The Krishna Mills Ltd., M/s Edward Mills Ltd. and The Mahalaxmi Mills Ltd. Of these, first two are the railway establishments which provided employment to nearly 6.5 thousand persons during the year 1961. There is a Chemical and Metallurgical Laboratory and a Testing House in the Carriage and Wagon Workshop which are beneficial for steel foundry work as well as for water testing. The Laboratory is also helpful in testing and analysing a variety of other materials utilised in the railway workshop. Another railway establishment viz. Loco Central Workshop was the first in the country for manufacturing metre-gauge locomotives but it has stopped the manufacturing work of locomotives after coming into existence of the Chittranjan Workshop since 1950 and now this establishment concentrates itself on repair work in addition to manufacture of some spare parts. Regarding Cotton Mills in the district, The Krishna Mills Ltd. is the first establishment located at Beawar which provided employment to around 1.8 thousand persons during the year 1961. It started its production work since 1891. It had over 600 looms and over 24 thousand spindles in the year 1960 and produced over 85.2 lakhs yards of cloth and 47.7 Lbs. of yarn. The two other large Cotton Mills at Beawar

are M/s Edward Mills Ltd. and The Mahalaxmi Mills Ltd. established in 1906 and 1925 respectively which provided employment to over 2.6 thousand persons in the year 1961. M/s Edward Mills Ltd. has been functioning as a Central Government controlled undertaking since April, 1960.

27. The main small scale and cottage industries of the district are cotton ginning & bailing, wool and cotton pressing, spinning and weaving, manufacturing of 'bidi', 'gota', shoe and toy making, dyeing and printing, pottery, lac bangle making, carpentary, black smithy, gold smithy etc. Most of the wool cleaning factories are centralised at Beawar for its being an important 'Mandi' for the wool trade. Cotton spinning and weaving is an ancient handicraft of the district but it is now declining due to the competition of mill made cloth. There is a Small Scale Industries and Handicrafts Association in the district which looks after the small scale industries. During the second five year plan a Handicrafts Emporium at Ajmer City and Handloom Sales Depots at Beawar, Kishangarh and Peesangan were started.

28. The Industries Department of the State has also started a scheme of aiding cottage and small scale industries by advancing loans to the parties. It advanced a loan of over Rs. 8.15 lakhs during the year 1955–56 to 1960–61. Licence has already been issued for establishing a Surgical Instrument & Switch Board Factory at Ajmer. An industrial estate was started at Makhoopura (Ajmer tehsil) in 1958–59 which is under progress.

29. There were 'A' Class Labour Welfare Centres at Ajmer and Beawar, 'B' Class at Bijainagar and 'C' Class at Kekri during the year 1960–61. These centres provide the facilities of reading room, library, recreational activities, wrestling, adult education, gymnasium etc. A sum of Rs. 20.85 lakhs was spent on industrial development in the district during the period of the second five year plan.

30. The district has a separate employment exchange located at Ajmer City which registers people who are seeking employment and helps in securing employment for them. During 1961, the total number of registrations in the district was over 13.6 thousand.

Trade Unions

31. There were 60 trade unions in the district during 1960–61. The oldest trade union is the Kishangarh Mill Rashtriya Mazdoor Congress, Madanganj, which has its headquarters at Kishangarh and was registered in the year 1949. Other trade unions in the district are located at other industrial towns viz. Ajmer, Beawar, Kishangarh, Bijainagar, Kekri and Nasirabad.

Power

32. There are eight power houses in the district out of which two are owned by the Western Railway, one by the Ministry of Defence (Military Engineering Services), three by Rajasthan Electricity Board and the remaining two by private companies. Of the two railway power houses the one at Nagra (Ajmer) was established in 1923 while the other was started at Budha Pushkar in the year 1959. The power house owned by the military authorities is located at Nasirabad. The power houses at Kishangarh, Kekri and Bijainagar are owned by the Rajasthan State Electricity Board. Kishangarh power house which started in 1925 had 255 Kw. installed capacity in 1960–61. The power house at Bijainagar was established in the year 1959 with two diesel sets of 100 Kw. and 50 Kw. capacity while that at Kekri was installed in 1960 with two diesel sets one of 75 Kw. and the other of 25 Kw. The power house established at Ajmer in the year 1930 is owned by M/s. Amalgamated Electric Company Ltd. which has its headquarters at Bombay. The power house at Beawar which is also run by a private company was started in 1937. During the second five year plan a sum of Rs. 88.60 lakhs was spent on the development of power resources in the district.

Trade and Commerce

33. The articles that are exported out of this district consist of food grains, raw cotton, wool, mica, felspar and quartz while the import includes grain and pulses, sugar, jaggery, salt and oil seeds.

34. Ajmer, Beawar, Kishangarh (Madanganj), Bijainagar, Kekri and Nasirabad are the main trading centres

in the district. Beawar town is a flourishing mandi for raw cotton and wool. Wool is exported to Bombay, Panipat, Kanpur and Mirzapur etc. while cotton is sent to Bombay and Ahmedabad. Facilities of local markets also exist in certain villages which have been shown in the Primary Census Abstract elsewhere in this book.

35. The State Bank of India and The Punjab National Bank Ltd. have got their branches at Ajmer and Beawar; The Bank of Rajasthan Ltd. at Ajmer, Beawar, Kishangarh, Kekri and Bijainagar, the State Bank of Jaipur at Beawar and Kishangarh, and the Bank of Baroda, the United Commercial Bank and the Central Bank of India Ltd. have their branches at Ajmer. Besides there were branches of Urban Co-operative Bank Ltd. at Ajmer and Nasirabad which were established in the year 1923 and 1931 respectively.

36. There were 136 shops dealing in country liquor, 21 in hemp drugs and 14 in Indian made foreign liquor in the district during 1960-61. There were six permanent and one temporary cinema houses in the district during 1960.

Education

37. There were 11 Colleges, 52 High/Higher Secondary Schools, 45 Senior Basic Schools, 36 Middle Schools, 587 Junior Basic Schools, 139 Primary Schools, 2 Nursery Schools and 7 Schools for Special Education in the district during 1960-61. There is a Government Teachers Training College at Ajmer and Basic S. T. C. Training Schools at Beawar, Kishangarh, Masooda, Peesangan and at Hatoondi (Ajmer tehsil). With the ushering in of the Panchayati Rajya in the State the control of Primary Schools in rural areas of the district has been entrusted to the Panchayat Samities. A sum of Rs. 101.28 lakhs was spent on the development of educational facilities in the district during the period of the second five year plan.

Medical and Public Health

38. There were 27 Government Public hospitals and dispensaries with 822 beds in the district during 1960. Besides, two State Special hospitals, one for railway employees and another meant for jail convicts. Undertrials and the staff of the jail also function at Ajmer City. The railway hospital also has a maternity home attached with it while an Isolation Ward and female reformatory are provided in jail hospital.

39. There are maternity and child welfare centres four at Ajmer City, two at Beawar and one each at Kekri and Bijainagar. Maternity facilities have also been provided by starting special wards in Victoria Hospital at Ajmer, Amrit Kaur Hospital at Beawar and in City Dispensary at Kishangarh having 50, 15 and 10 beds respectively. Of the seven family planning centres in the district three are under Government control and the remaining four function under the supervision of the Panchayat Samities. 13 out of 22 small-pox vaccination centres in the district function under Government control.

40. A private hospital having over three hundred beds for tuberculosis patients functions at Madar Union Sanatorium at Ajmer. There are tuberculosis clinics at Ajmer and at Beawar.

41. The Government has opened Paediatric wards one at the Amrit Kaur Hospital, Beawar and another in the City Dispensary Kishangarh having 8 and 2 beds respectively. Anti-rabic centres function at Ajmer, Beawar and Kekri.

42. There is a dental clinic, a venereal diseases clinic, an eye department, a pathological laboratory, an X-ray department, a blood bank, a Gynic ward and an orthopaedic ward in the Victoria Hospital at Ajmer, Laboratory facilities are also available in Amrit Kaur Hospital at Beawar while X-ray facilities are also provided in the hospitals at Beawar and Kishangarh.

43. There are four centres for training of nurses, dais and mid-wives in district. An anti-malarial unit has also been functioning in the district with the headquarters at Ajmer City under the National Malaria Eradication Programme.

44. In March, 1961 there were 58 Government Ayurvedic and Unani dispensaries (including one hospital) in the district.

45. The out-door and in-door patients treated in the Government allopathic medical institutions of the

district in the year 1960 were around 6.1 lakh and 18.7 thousand respectively. A sum of Rs. 44.51 lakhs and 4.07 lakhs was spent on Medical and Public Health and Ayurvedic facilities in the district during the second five year plan.

Drinking Water Facilities

46. An urban water supply scheme for Kishangarh town was completed during 1959–60 at a cost of around Rs. 10 lakhs. Besides, the water supply schemes in Ajmer City and in towns of Beawar, Pushkar, Kekri and Nasirabad were in progress.

Housing

47. Under the scheme of Low Income Group Housing a loan of Rs. 1.4 lakh was disbursed to the public during 1955-56 for the construction of residential quarters in the district. During the second five year plan a sum of Rs. 15.31 lakhs was disbursed to the public under L.I.G.H. and Rs. 5.77 lakhs under M.I.G.H. (Middle Income Group Housing) Schemes as a result of which 241 houses were constructed under L.I.G.H. and 19 under M.I.G.H. Schemes. 165 houses under L.I.G.H. and 23 under M.I.G.H. Schemes were under construction. Besides, 144 houses were under construction under the Subsidised Industrial Housing Scheme in the district.

Transport and Communication

48. The district had 906 miles of roads during 1960–61 out of which 71.9% were painted and metalled, 25.3% fair weather and dressed up tracks and the rest consisted of gravelled type. 18 roads works were completed and a sum of Rs. 49.94 lakhs was spent on road development works in the district during the second plan period. There were over seventeen hundred Motor Vehicles on road during the year 1961.

49. Ajmer City was connected by the railway as early in August, 1875 when a railway line from Phulera to Ajmer was opened. At present Ajmer City is a divisional headquarters of the metre-gauge section of the Western Railway. The main lines viz. Delhi-Ahmedabad and Agra Fort–Ahmedabad pass through the district. Ajmer City is connected with Nasirabad, Kishangarh, Khandwa, Beawar, Mehsana and Bijainagar. The total length of the railway line in the district during 1961 was about 168 kilometres. There is a Tourist Rest House and a Circuit House at Ajmer City which are maintained by the State Government. The Public Works Department also maintains Dak Bungalows at Beawar, Kekri and Mangliyawas and inspection bungalows at Kishangarh, Nasirabad, Bandanwara and Goela. The district has a large number of bus routes. The National Highway passes through the district for about 77 miles. There were 163 Post Offices, 28 Telegraph Offices, 6 Telephone Exchanges and one Public Call Office in the district during 1960–61.

Local Bodies and Co-operation

50. There are Municipal Boards at Ajmer, Beawar, Kishangarh, Kekri, Pushkar, Sarwar and Bijainagar. The main duties of these municipalities are sanitation and public health, lighting, and the construction and maintenance of roads in the towns etc. The Municipal Board at Ajmer also looks after the maintenance of gardens and public libraries in the City and provides medical facilities through its hospitals and dispensaries. There is a cantonment at Nasirabad which has a separate Board governed under the provisions of the Cantonment Act of 1924. The main functions carried out by the Board are to look after for health, lighting, water supply and public utility constructions.

51. There is a Zila Parishad comprising of 8 Panchayat Samities and 275 Gram Panchayats in the district.

52. For the purposes of Co-operative Societies the district was divided into two zones viz. Ajmer north and Ajmer south each of which is under one Assistant Registrar of Co-operative Societies. There are two Central Co-operative Banks and various types of Co-operative Societies in the district. In June, 1961 there were 1,554 societies of various categories (including the two Central Co-operative Banks) with a total membership of about 80.7 thousand in the district. The working capital of these societies was around Rs. 1.7 crore and the share capital was Rs. 37.2 lakhs. A loan of about 48.9 lakhs was advanced and loan of Rs. 48.7 lakhs was recovered. The deposists and borrowings during the

period were around Rs. 47.3 lakhs and Rs. 64.5 lakhs respectively while the total liabilities amounted to Rs. 1.8 crore. In all 838 societies were functioning at profit, 343 at loss and 373 societies were functioning on no profit no loss basis. During the second five year plan a sum of Rs. 10.50 lakh was spent on co-operation in the district.

Community Development

53. The Community Development Programme was started in the district during 1952-53 by establishing a block at Peesangan. This was followed by the establishment of a block at Masooda in 1953-54, Jawaja and Kekri in 1955-56, Kishangarh and Shreenagar in 1956-57, Bhinai in 1957-58 and Arain in 1961-62. Thus by the end of the year 1961, there were eight blocks (including one pre-extension) in the district.

54. During the year 1961, over 27 thousand Mds. of seeds, 7 thousand Mds. of fertilizers and around 4 hundred agricultural implements were distributed to the farmers and over 2 thousand agricultural demonstrations were held in the various Panchayat Samities of the district. 118 wells were constructed for drinking and another over one thousand for irrigation purposes. 220 adult literacy centres were opened and over 900 persons were made literate. Nearly 2 hundred Youth Clubs and 32 Mahila Samities were started and 22 reading rooms and libraries were opened.

Social Welfare

55. There is an office of the State Social Welfare Department at Ajmer City under the supervision of a Social Welfare Officer who looks after the welfare activities connected with the uplift of the backward classes in the district. It acts as a liaison between prisoners and their relatives.

56. There is a hostel at Ajmer City for Scheduled Castes with a sanctioned strength of 50 students and for Scheduled Tribes at Ajmer City and at Masooda (Beawar tehsil) with a sanctioned strength of 25 students each respectively. All these hostels are run by the Social Welfare Department where the facilities of free boarding and lodging are provided. An Ashram School functions at Bogla (Kekri tehsil) which provides free boarding and lodging facilities to the children belonging to Scheduled Tribes. There is a Shelter Home and an After Care Home for ladies, the sanctioned strength for which is 30 and 100 respectively. Both of these homes provide for the after care of socially handicapped persons. For the juvenile delinquent a boy's club also functions in the district.

57. During 1960-61 there were 9 training-cum-production centres in the district one each in carpentary, tailoring, black-smithy, weaving, chicks and 'mundha' making, tin sheet making, masonry work and two in leather technology.

58. The Government has also opened 'Sanskar Kendras' three at Ajmer City and one each at Beawar, Kishangarh and Nasirabad for the development of cultural and religious activities of Scheduled Castes.

59. A Social Welfare Advisory Board was set up at Ajmer City. Besides, four Welfare Extension Projects were started at Shreenagar, Kekri, Jawaja and Ramsar in the district which maintain social welfare centres.

60. For rehabilitating the Scheduled Castes and Scheduled Tribes subsidy is granted to individual parties for constructing pucca houses as such a number of houses have been constructed at several places in the district. A colony has been constructed at Ajmer for Gadolia Luhars. A sum of Rs. 22.24 lakhs was spent for social welfare and welfare of backward classes in the district during the second five year plan.

Fair and Festivals

61. Some of the important fairs held in the district are mentioned below :-

(i) Kartika Mela at Pushkar

Pushkar, a sacred town, 11 Km (7 miles) to the north-west of Ajmer City, is famous for its ancient temples and Pushkar lake. A fair is held annually on Kartika Sudi 11-15 (Oct-Nov) on the banks of the lake which is considered one of the principal places of pilgrimage. A cattle fair is also held at this place at the

time of this fair. About 70,000 persons participate in the fair. Another fair is held here on Vaisakha Sudi 11–15 (April–May) when about 6,000 pilgrims congregate. The town is connected with a metalled road connecting Ajmer with Merta. The nearest railway station for the fair is Ajmer. Other fairs held at Pushkar are Suda Bai, Nag Panchmi, Savitri, Agastya Rishi and Papmochani.

(ii) Urs Khwaja Sahib

The Dargah of Khwaja Muin-ud-Din Chisti at Ajmer City is one of the holiest Muslim sanctuaries in India which is called as 'Ajmer Sharif' by the Muslim world A fair is held here annually in the Muslim month of Rajab from 1st to 6th. It is the biggest Muslim fair in the country. Nearly 50,000 persons congregate in the fair from all parts of India and abroad. The shrine of Khwaja Sahib is venerated and visited by Hindus as well as Muslims and other Indians irrespective of their religion. Khwaja Sahib is also known as 'Garib Nawaj' (the helper of the poor).

(iii) Tejaji Fair

The fair of Tejaji is held at Beawar town on Bhadrapada Sudi 1-11 (Aug–Sept) every year. About 10,000 persons congregate in the fair. The largest congregation is on Bhadrapada Sudi 10 (Aug.–Sept.) which is known as Teja Dashmi. Beawar is itself a bus stand and railway station. The fairs of Tejaji are also held at other several places in the district almost in every tehsil.

62. The main festivals among Hindus are Holi, Dashera, Deewali and Gangaur etc. while Muslims observe Moharrum, Idulfitre, Idul Zuha and the Urs of Khwaja Sahib.

Places of Historical & Archaeological Importance

63. Following places in the district are of special interest :-

Ajmer

Ajmer, the second largest City of Rajasthan, has a population around 2 31 lakh which constitutes 63.2% of the district's urban population. It derives its name from Ajayameru (the invincible hill). It is believed to have been founded by Ajaipal Chauhan in the 7th Century. The City is situated in a beautiful valley and lies between 26°27' north latitude and 74°37' east longitude at the foot of the Taragarh hill which forms an imposing background. It is at a distance of 132 Km. (82 miles) to the south-east of Jaipur City. Ajmer City is connected with some historical events among which the presentation of the credentials by Sir Thomas Roe (the Ambassador of King James I of England) to Jahangir and the birth of Dara Shikoh, the eldest son of Shah Jahan are notable. The City has many old institutions. The Government College is the oldest college of Rajasthan. It has also a loco workshop and the office of the Divisional Superintendent of Railways. Some of the many worth visiting places in the City are given below :—

(i) Adhai-din-ka-Jhonpra

It stands at the foot of the Taragarh hills and is described as one of the most perfect and ancient specimens of Hindu architecture. James Todd in the Annals and Antiquities of Rajasthan described it "for gorgeous prodigality of ornament, beautiful richness of tracery, delicate sharpness of finish, laborious accuracy of workmanship, endless variety of detail, all of which are due to the Hindu masons, this building may justly vie with the noblest buildings which the world has yet produced". This building is believed to have been originally constructed for a Sanskrit learning (Pathshala) while the temple was added to it by Visaldeva Vigrahraj II in 1153. It was converted into a mosque by Muhammad Ghori who attacked Ajmer in 1192. The most notable feature here is a facade, consisting of a magnificent screen of seven arches, which according to Fergusson "Nothing in Cairo or in Persia is so exquisite in detail, and nothing in Spain and Syria can approach them for beauty of surface decoration". During an excavation in 1875–76 six tablets containing fragments of two important Sanskrit dramas, Harkeli Natak and Lalit Vigrahraj Natak in Devanagri characters were discovered at this site which are now exhibited in the Ajmer Museum.

(ii) Dargah Khwaja Sahib

The construction of the Dargah was commenced in the reign of Shams-ud-din Altutmash (1211-1236 A. D.) and completed by the Mughal Emperor Humayun in the bigining of the 16th century A. D. It comprises the mausoleum of Khwaja Muin-ud-Din Chisti, two mosques, an assembly hall (Mahfil Khana) and an imposing gate-

way (Buland Darwaza). The red sand-stone mosque near the main entrance was built by Akbar. The Buland Darwaza, which is 75 ft. high stands inside the main gateway of the Dargah. There are two giant cauldrons (degs) having a capacity of about 70 Mds. and 28. Mds. respectively located on either side of this gate. During the annual Urs festival, a dainty preparation of rice is cooked in them for general distribution. The Saint's tomb is richly adorned with gold and silver.

(iii) Magazine

Akbar's fort (1571-72) commonly known as the Magazine is situated in the heart of the City quite close to the Railway Station and is the massive square structure with bastions at each corner. In the central building of the fort there is a museum which has a fine collection of sculptures, inscriptions, coins and paintings.

(iv) Abdullah Khan's Tomb

It stands near the railway station of Ajmer City. It was constructed as a mausoleum of Abdullah Khan in the late Mughal period (1710-A. D.). Opposite to it is the small tomb of Abdullah Khan's wife. The latter is in polished white marble and is an example of purity of designs and workmanship.

(v) Anasagar

It is a big artificial lake formed by raising a huge embankment between two hills. It was constructed by the Chauhan King Arnoraj or Anaji, grand-father of Prithviraj, in the middle of the 12th century. It is said that Anaji killed a large number of his enemies at this spot and later on in order to wash the site of the horrible bloodshed, he had filled it with water by damming up a rivulet. This resulted in Anasagar. This attracted the attention of the Mughal Emperors when they came to Ajmer. Jahangir was so fascinated with the beauty of the spot that he laid out a garden, Daulat Bagh, below the embankment. Shahjahan further added a long (1,240 ft.) marble parapet on the embankment and five admirable marble pavilions.

(vi) Anted-ki-Mata

The shrine is located in a small valley between two hills at a distance of about one and a half mile from the residency to the north of the Anasagar lake. It is a picnic spot where a fair is held on the Raksha Bandhan (August) every year where nearly 50,000 persons congregate.

(vii) Bajrang Garh

Bajrang Garh stands at the head of the Anasagar lake and is considered a sacred place by the Hindus. Here is an old temple of Hanumanji which is worshipped by hundreds of people daily. It commands a fine view of the Anasagar lake and the Daulat Bagh. A fair is also held here every year in Bhadrapada (Aug-Sept).

(viii) Nasiyan

It is a Jain (Digambar) temple which was completed in 1865 A. D. It is a double storied hall which is richly painted in beautiful colours. Behind this temple is the Svarna Nagari hall. The walls and the roofs of this hall are covered with glass mosaic work. Here are the representations illustrative of the birth and life of Rishabdeva or Adinath, the first propagator of the Jain religion.

(ix) Taragarh Fort

This fort is situated on a hill top, about 700 ft. high, in the south-west of the Ajmer City. It was known as Ajaya Meru-Dung in earlier days. It was difficult of access. The fortress has several gates known as Lakshmipol, Phute Darwaja, Gagudi-ki-Phatak and the gate of victory.

(x) Foy Sagar

It is a tank which was constructed in the last decade of 19th century by the Municipal Committee of Ajmer as a famine relief work. The present water supply to Ajmer City is made from this tank. It was constructed by damming up the river known as Badi Nadi and is named after the name of the then executive engineer incharge of the construction. The scenery is picturesque and boating facilities are also available to visitors.

(xi) Chawanda Mata

A temple dedicated to the Goddess Chawanda stands on the slope of a wooded hill. A fair is held on Shravana Sudi 8 (Aug-Sept) every year when nearly 6,000 persons participate and worship the deity.

64. Other worth visiting places in and around the Ajmer City are Ajaipal, Badshahi Building, Bada Pir, Bapugarh, Chhattries, Chillahs of Khwaja Sahib, Madar Shah and Qutab Shah, Dadabari, Ganpatpura, Hati Bhata, Jharna, Khobra-Bhainroo, Koteshwar, Mayo College, Rajputana Museum, Salar Ghazi, Town Hall, Villa of Syed Ahmad, Visalsar, Baghera etc.

Beawar

It is the second largest town of the district consisting of around 54 thousand persons which contributes 14.8% of the district's urban population. It is a walled town. The town is the second important wool exporting centre of the State. Several textile industries flourish in the town. 'Til Patti' prepared from 'til' is a famous article of the town. The places worth visiting are Mataji-ki-Dungri, Chang-ki-Dhani and the Jain temple. Makreda and Jalia Water Works, from where water is supplied to the town, are picnic spots.

Kishangarh

It is the third important town in the district consisting of around 25 thousand population. It is situated at a distance of about 18 miles from Ajmer on Jaipur-Ajmer road. Prior to 1947, it was an independent State and there after it was made a part of Jaipur district which at the time of the reorganisation in Nov. 1956, became a part of Ajmer district. The shrine of Navagraha on the south-east of the town near the Sukh Sagar, the Gundolav, the 'Chhattries' and the Balaji-ka-Chabutra are places of interest. There is a State Police Training School and a school of Painting.

Pushkar

Pushkar town is situated on the lake It has a population of about 6.7 thousand and contributes 1.8% of the district's urban population. It is one of the holy places of pilgrimage and is situated at about 11 Km. (7 miles) to the north-west of Ajmer City. There are several temples of which the temple of Brahma is the most ancient and is one of the rare temples dedicated to Brahma. A temple of Savitri, the consort of Brahma, is on the top of a steep hill on the western side of the Pushkar lake. The temple of Vaikunthnathji, also known as Rangji, is another noteworthy shrine built in the typical South Indian style of architecture. Other principal temples are dedicated to Badri Narayana, Varaha and Shiva Atmateswer. It is a popular belief among Hindus that a visit to Pushkar is a stepping stone to salvation. A famous fair takes place every year on the occasion of Kartika Purnima (Oct-Nov.) when over 70 thousand persons congregate.

Todgarh

It is a village in Beawar tehsil where Col. Tod had made a fort. It is also known as Baraswara as it is its original name. There is a temple of Mahadevji at Dalia where a fair is held annually. The temple of Pipaljmata is at a distance of two miles from Todgarh.

65 Apart from the places mentioned above, the cantonment of Nasirabad, the fort of Bhinai and the remains at Nad, Arain and Sakrani are the other places worth seeing in the district.

Electoral Participation and Preferences

66. Till November, 1956 Ajmer was a centrally administered State and had a separate State lagislature. During the first general elections in the year 1952, there were 24 constituencies in the State of which six were double member constituencies. 20 seats were captured by the Congress, 3 each by the Parsharathi Panchayat and Jan Sangh and the remaining four seats by the candidates who were independent. Ajmer State was then represented in the Lok Sabha by two members elected from the constituencies of Ajmer North and Ajmer South Both these seats were captured by the Congress candidates.

67. During the second general elections held in the year 1957, the district was allotted 8 assembly constituencies of which one was a double member constituency. The total voting population was around 430 thousand. 47.0% voters (58.3% of men and 33.9% of women) exercised their right of franchise. The highest percentage of polling was 61.4 in Beawar constituency and the lowest in Kekri constituency where only 37.7% votes were polled. 7 seats were captured by the Congress and two seats by the candidates who were independent. For the elections to the Lok Sabha, the district was allotted a seat which was captured by the Congress party.

SECTION II

PRIMARY CENSUS ABSTRACT

&

OTHER CENSUS TABLES

PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

The Primary Census Abstract furnishes the population figures for 1961 Census and is presented in three parts viz. District, Rural and Urban Primary Census Abstracts. These abstracts contain the data in respect of area, number of occupied residential houses and households, total population and its break up by sex, literacy, Scheduled Castes and Scheduled Tribes, workers and non-workers. The workers have further been classified into following nine industrial categories:—

I As Cultivator,
II As Agricultural Labourer,
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities,
IV At Household Industry,
V In Manufacturing other than Household Industry,
VI In Construction,
VII In Trade and Commerce,
VIII In Transport, Storage and Communications and
IX In Other Services.

2. The District Primary Census Abstract furnishes the data for the district total, rural and urban areas, each rural tehsil and for each town separately. The Rural Primary Census Abstract presents the data for the villages while Urban Primary Census Abstract furnishes information for the municipal wards of all the towns in the district.

3. A Revenue Mauza (including its hamlets) is treated as a village while a town is a place having either a Municipality or Cantonment or satisfying the following factors:—

(a) having a minimum population of 5,000 and
(b) having three-fourth of its male adult population engaged in non-agricultural pursuits, or
(c) having a density of approximately 1,000 persons per sq. mile.

Hamlets falling into the revenue areas of the towns but not administered by the municipality are treated as the non-municipal area of the town. The villages in the Rural Primary Census Abstract are presented tehsilwise and within a tehsil in order of their Census location code numbers.

4. In the Urban Primary Census Abstract, the data has been presented for each municipal ward of the towns. The blockwise figures for towns could not be presented here for want of space. This information, however, is available in the office of the Superintendent, Census Operations, Rajasthan. The data for non-municipal areas attached to a town has been shown just after the wards while for special charges the figures have generally been included in the respective wards.

5. A special column (2a) in the Rural Primary Census Abstract has been provided for showing some of the basic amenities which existed in the villages. These amenities have been shown by means of symbols as under:-

P—Primary School
M—Middle School
H—High/Higher Secondary School
C—College
D—Dispensary
Hos—Hospital
Tmw—Trained Midwife
V—Veterinary Hospital/Dispensary
Pw—Pucca well
Kw—Kutcha well
Tk—Tank
B—Baori (stepped well)
Rly—Railway Station
Po—Post Office
To—Telegraph Office
Lm—Local Market

6. Village marked with an asterisk (*) indicates the location of a Gram Panchayat.

7. The area figures shown in column (3) of the Rural Primary Census Abstract are collected from the Revenue Authorities while this column of the Urban Primary Census Abstract has been left blank as area figures for the wards are not available.

8. Column (4) of the Abstract includes houses used as dwellings or partly as dwellings.

9. Column (5) shows the number of households. A "household" has been defined as a group of persons who commonly live together in the same house and take their meals from a common kitchen. A servant, friend or a guest (related or unrelated) residing and eating with the household during the census period has been treated as a member of the household. On the other hand, a son or a daughter residing in a hostel is not treated as a member of the household.

10. Columns (6) to (8) of the Abstract show the total population and its sex-wise breakup. This also includes houseless and institutional population. Houseless person has been defined as (i) a person who might be doing domestic service or some other work with one or more households but who does not reside in any house and sleeps in the corridors, verandahs or passages in buildings or on the streets; (ii) wandering or nomadic tribes found to be staying in temporary huts, etc. or residing without any such huts just on the open ground; and (iii) beggar, vagrant, tramp, sadhu, fakir, etc. who is found in the foot-paths, streets, in places like parks, gardens, railway yards, etc. Institutional population includes persons enumerated in penal, charitable or mental institutions, hostels, hotels, hospitals, boarding houses, etc.

11. Columns (9) to (12) of the Abstract show the population of Scheduled Castes and Scheduled Tribes and their sex-wise breakups. The further breakups of individual Scheduled Castes/Tribes are given in Table SCT—I.

12. Columns (13) & (14) of the Abstract give the number of literate and educated persons. A "literate" is defined as a person who knows both reading and writing. This also includes the persons having higher education. Detailed information on educational levels has been given in Table B—III and C—III.

13. Columns (15) & (16) give the total number of male and female workers. A person is classified as "worker" if in case of seasonal work like cultivation, livestock, dairying, household industry, etc. he has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce, he was employed during any of the fifteen days preceding the day of the enumerator's visit to the household . A person who was working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes has been treated as a worker. A person who had been offered work but had not actually joined has been treated as non-worker. "Work" includes not only actual work but effective supervision and direction of work also.

Persons under training as apprentices with or without stipend or wages are regarded as workers. An adult woman who was engaged in household duties but doing no other productive work to augment the family's resources has not been considered as working. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale or wages, or in domestic services for wages for others, in minding cattle or selling firewood or making and selling cowdung cakes, or grass, or any such work she has been treated as a worker. Similarly persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who earn an income but who are not participating in any productive work are not treated as workers unless they also work in cultivation, industry, trade, profession, business or commerce. A public or social service worker who is engaged in public service actively or a political worker who is actively engaged in furthering the political activity of his party is regarded as a worker.

The population classified as workers here is the economically active population including family workers but not including unemployed persons.

14. Columns (17) to (34) furnishes the sex-wise distribution of workers into nine industrial categories. The explanations for these categories are given below:—

Category I

This category includes both the owner cultivators and tenant cultivators. Along with workers personally doing work in land are also included persons who are engaged in supervision or direction of cultivation. The term 'cultivation' involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations.

Category II

All other persons working on land as labourers on wages without exercising any supervision or direction and without holding any right upon the land are classified as agricultural labourers and are included in this category.

Category III

Workers in mining, quarrying, livestock, forestry, fishing, hunting, plantations, orchards and allied activities are included in this category.

Category IV

A "Household Industry" is an industry conducted by the head of the household himself and/or mainly by the members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory but may use machinery and employ power like steam engine or oil engine or electricity to drive the machinery. Thus, in a rural area, the household industry can be located either at home or within the village but in urban area the household industry or at least the major part of its work must be located at home. A household industry relates to production, processing, servicing or repairing and includes making and selling of goods but should not be confined simply to buying and selling. It does not include profession such as pleader, doctor, barber, waterman or astrologer, etc. Persons working in other person's household industry as paid employees are also treated as workers in household industry.

Category V

'Manufacturing' includes all types of production, processing, servicing or repairing of goods which does not

include production or processing under category IV.

Category VI

This category includes workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph, telephones, water-ways, reservoirs, etc.

Category VII

This category includes workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estates and properties, stock and shares, insurance, money lending banking, etc.

Category VIII

This category includes workers engaged in transport activities by air, rail, road or water and in services incidental to transport such as packing, carting, loading unloading, etc. Workers engaged in storage, warehousing and communication services such as posts, telegraph, telephones, wireless signalling, information and broadcasting are also included in this category.

Category IX

This category includes (i) Public utility services like electricity or gas or water supply, sanitary services; (ii) Central, State or Municipal employees; (iii) Professional services; (iv) Trade or labour associations, recreation services, etc.

15. Columns (35) & (36) give the total number of male and female non-workers. The following persons have been classified as non-workers:—

1. Full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business.

2. Person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business.

3. Dependant, including an infant or child not attending school, a person permanently disabled from work because of illness or old age.

4. Retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work.

5. Beggar, vagrant or independent woman without indication of source of income and others of unspecified source of income.

6. Convict in Jail (an under-trial prisoner has been shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution.

7. Person who has not been employed before but is seeking employment for the first time.

8. Person employed before but now out of employment and seeking employment.

OTHER CENSUS TABLES

GENERAL POPULATION TABLES

(Note on A-Series)

There are four Tables and five Appendices in this series. These tables, being the basic population tables, furnish information about area, sexwise population and its variation during sixty years, classification of villages and towns by population and the trends of urbanisation in the district.

Table A-I

2. This is the basic population table showing area, density, number of villages and towns, occupied residential houses and population by persons, males and females. The data has been presented for the district as well as for each tehsil for total, rural and urban areas separately. The town figures have been shown immediately after the entries of the tehsil in which they are situated. The abbreviation just after the name of the town has been used to denote that the particular town has a Municipality or a Cantonment.

3. It may be noted that in the previous censuses the density of population and other urban break-ups upto the town level were not mentioned in this table which have been shown separately now for 1961 Census besides furnishing the number of inhabited and uninhabited villages in each tehsil.

4. The area figures both for rural and municipal towns have been obtained from the State revenue authorities. Though the area figures have been collected originally in acres yet these figures have been shown in Sq. miles and Sq. Km. in columns 3 (a) and 3 (b) respectively after converting them into the respective units. Further, the area figures have been given upto one decimal place in case of the district as well as for each tehsil but such presentation is made upto two decimal places in case of towns.

5. The density of persons has been worked out according to the area shown under column 3 (a) and has been presented separately for the district and for each of the tehsils and towns under column 4.

6. A village and a town has already been defined in para 3 of the note on Primary Census Abstract.

7. For the purpose of 1961 Census, a 'House' is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling or a place of business, workshop, school etc., giving out on the road or a common staircase or a common courtyard leading to a main gate or enjoying a separate entrance. 'Occupied residential houses' are those houses which are used wholly or partly for the purpose of residence by one or more households.

8. In addition to this main table, there are three appendices which were not prepared in the last censuses.

Appendix I

9. This appendix is helpful in finding out the growth of the district to the present area since the last census. The appendix shows the territorial changes that have taken place during the last decade. A brief description of gain and loss of territory in those tehsils which had changes in area during the period is also shown in this appendix. A list of Such transferred areas has been given in the annexure to this appendix.

Appendix II

10. One of the criteria for a place to be declared as town is that it should normally have a population of 5,000 and above. For various reasons, several places with a population of 5,000 and over have not been recognised as towns. This appendix gives the tehsilwise number of such places with their population. Further, it also shows the percentage contribution of total rural population of the district of such places. An annexure showing the places with less than 5,000 population which were treated as towns in 1951 Census but declassified in 1961, is attached to this appendix.

Appendix III

11. This appendix shows the sexwise figures for houseless and institutional population for the district and each tehsil for total, rural and urban areas separately. Houseless and Institutional population has already been defined in para 10 of the note on Primary Census Abstract.

Table A-II

12. This table compares population figures of the district as ascertained at the 1961 Census with the corresponding figures for the six previous censuses. The figures presented for the six previous censuses in the table, have been adjusted after taking into consideration the territorial changes taken place in the district so as to afford a correct basis for comparison. This is an important table as it gives the growth of population from decade to decade. It further provides a basis for estimating the population especially in the absence of reliable data for vital statistics. The main change in this table over 1951 Census is that the percentage variation has also been mentioned from decade to decade.

13. The appendix attached to this table shows the population for the district as well as for each tehsil according to their territorial jurisdiction in 1951 besides furnishing the changes in area and the population involved in those changes that have taken place during the last decade. The details of transfers of areas and population in every case have been given in the footnote separately.

Table A-III

14. This table furnishes the sexwise total rural population together with the number of inhabited villages for the district as well as for each tehsil arranged into seven population size groups *viz;* less than 200, 200-499, 500-999, 1,000-1,999, 2,000-4,999, 5,000-9,999 and 10,000 and above.

15. The main changes in this table over 1951 Census are (i) the group less than 500 has now been split up into two groups *viz*; less than 200 and 200-499 and (ii) it relates only to villages while in 1951 Census it related to villages and towns both.

Table A-IV

16. This table shows the growth of each town in the district since 1901 together with its sexwise population. It further furnishes the information regarding decade variation in population and its percentage. For the purpose of this table all the towns have been classified into the following six classes according to population :-

Class	I	1,00,000 and above
Class	II	50,000—99,999
Class	III	20,000—49,999
Class	IV	10,000—19,999
Class	V	5,000— 9,999
Class	VI	Less than 5,000

17. The district totals for a class have been given followed by the various towns in that particular Class. Column No. 2 of the table persents the name of the town and just under it the area of that town has been given both in Sq. miles and Sq. Km. The status of the town is separately shown in column No. 3 in an abbreviated form.

18. The main object of this table as indicated above is to show the growth of towns as towns and not how certain places have been converted into towns from villages as such the figures against towns have been shown for those decades only in which they were recognised as towns. The district population for all classes during the previous decades has been arrived at after adding the population of those places which were treated as towns in the corresponding decade but now declassified. As such if a town had not been treated as town in all the previous censuses, it is indicated as declassified in those particular censuses. Towns treated for the first time in 1951 Census have been asterisked*.

19. The change in this table over 1951 Census is that the areas of towns as well as the percentage of decade variations of total population of the towns have been additionally shown in the present census.

20. The appendix to this table shows the area and population of towns of 1951 Census which have been declassified in the present census. Such appendix was not prepared in the previous censuses.

21. A separate volume–Part II–A incorporating the General Population Tables for the State and the districts have been issued in which the concepts used have also been discussed.

Note :- 1. The Sq. Km. and density figures of urban areas of Tehsil/District are worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the table. In addition to this the area figures relating to Sq. Km. are further adjusted to make the Tehsil/District/totals tally.

2. Towns treated as such for the first time in 1951 Census which continue as towns in 1961 Census are shown with asterisk (*) on their left.

3. The following abbreviation has been used for the status of a town e. g.
(CB)—Cantonment Board (M)= Municipality @=Entirely Rural

Note:–1 (i) The figures against the district in Columns 5, 6, 7 and 9 reflect the addition to Rupnagar, Kishangarh, Arain and Sarwar tehsil.

(ii) The figures given in brackets in Columns 5 & 6 represent the difference in area between 1951 & 1961 and the figures in brackets in Column 7 show the difference in population between the area as per jurisdiction in 1951 and the present jurisdiction.

2 The area figures shown under Columns 2, 3, 5 and 6 relate to area figures supplied by the State Revenue Authorities.

*1 (i) Entire Kishangarh tehsil, entire Arain tehsil, entire Sarwar tehsil and entire Rupnagar tehsil with an area of 382.0 Sq. miles, 337.0 Sq. miles, 314.0 Sq. miles and 315.0 Sq. miles respectively and with a total population 132,579 of Jaipur district transferred to this district Vide Govt. Notification No. F. 14(21) Rev· D/56 dated 1–11–56.

(ii) 1 village Mukhand (Code No. 2) with an area of 6.3 Sq. miles and population 504 transferred from Todaraisingh tehsil of Tonk district to Kekri tehsil of this district.

(iii) 1 village and 3 hamlets *viz.* Borera, Deopura and Inderpura and 1 town Deoli with an area of 2.6 Sq. miles and population 6,478 of Kekri tehsil of this district transferred to Deoli tehsil of Tonk district Vide Govt. Notification No. F.3(10) Rev. D/dated 7–4 59 and Govt. Notification No. F. 3(10) Rev. D/dated 7–4–59 respectively.

*2 1 village Khajpura Bherwai (Code No. 1) with an area of 6.2 Sq. miles and population 867 transferred from Ajmer tehsil to this tehsil.

*3 (i) 3 villages *viz.* Chandiyawas (Code No. 56) Midhiyani (Code No. 54) and Narwar (Code No. 55) with an area of 21.5 Sq. miles and population 2,730 transferred from Kishangarh tehsil of Ajmer district to this tehsil.

(ii) 11 villages with an area of 33.4 Sq. miles and population 5,005 of this tehsil transferred to Kekri tehsil of the district.

(iii) 4 villages with an area of 18.1 Sq. miles and population 3,265 of Beawar tehsil of Ajmer district transferred to this tehsil.

(iv) 2 villages *viz.* Harmera (Code No 2) and Tiloriya (Code No. 3) with an area of 18.2 Sq. miles and population 3,745 transferred to Kishangarh tehsil of Ajmer district.

(v) 2 villages *viz.* Chandolai (Code No. 215) and Sadapur (Code No. 214) with an area of 7.2 Sq. miles and population 1,026 of this tehsil transferred to Sarwar tehsil of Ajmer district.

(vi) Changes enumerated as against footnote symbol *2 above.

*4 (i) Changes enumerated as against footnote symbol *3 (i) above.

(ii) Changes enumerated as against footnote symbol *3(iv) above.

*5 Changes enumerated as against footnote symbol *3(iii) above.

*6 (i) Changes enumerated as against footnote symbol *3(v) above.

(ii) 1 village Mohanpura (Code No 85) with an area of 13 8 Sq. miles and population 1,001 transferred of this tehsil from Kekri tehsil of the district.

*7 (i) Changes enumerated as against footnote symbol *3 (ii) above.

(ii) Changes enumerated as against footnote symbol *6 (*ii*) above.

(iii) 1 village Mukhand (Code No. 2) with an area of 6.3 Sq. miles and population 504 transferred to this tehsil from Todaraisingh tehsil of Tonk district and 1 village and 3 hamlets *viz.* Borera, Deopura and Inderpura and 1 town Deoli with an area of 2.6 Sq. miles and population 6,478 transferred to Deoli tehsil of Tonk district from this tehsil Vide Govt. Notification No. F.3(10) Rev. D/dated 7–4–59 and Govt. Notification No. F. 3(10) Rev. D/dated 7–4–59 respectively.

Note:- 1. The district totals for each class of town relating to the years 1901 to 1951 do not correspond with the totals that would be arrived at by adding of the population figures of various towns relating to each census year. This is because that the district figures relating to the past census years also contained the population of those places which were classified as towns in the various censuses.

2. Towns treated as such for the first time in 1951 Census which continue as towns in 1961 Census as shown with asterisk (*) on their left.

3. M = Municipality (CB) = Cantonment Board

APPENDIX TO TABLE A-IV
Towns in 1951 declassified in 1961

Rupnagar	Rupnagar	0.20	0.52	3,924	3,342

*Largely conjectural

ECONOMIC TABLES

(Note on B-Series)

In 1951 Census Reports, the population was classified on the concept of 'dependency' which has been changed to that of 'workers' and 'non-workers' at the current Census. The change in the concept will be helpful in finding out the realistic picture of the economic activity of those important sections of household workers who otherwise have been left out of account in the past censuses.

2. This series has been divided into two parts *viz.*, (i) General Economic Tables and (ii) Household Economic Tables.

(i) GENERAL ECONOMIC TABLES

3. There are 9 General Economic Tables in this series. The first 3 tables distribute the working and non-working population by economic activity correlated with sex, age and educational levels. A more elaborate classification of workers by industry according to the Standard Industrial Classification is presented in Table B-IV while it has been shown by occupation in Table B-V. Table B-VI provides information about those occupations of National Classification which attract educated personnel in urban areas. Another Table B-VII shows the classification of workers by secondary work and the last two tables distribute the non-workers by sex, age and eight broad classes according to the activities pursued by them.

Table B-I

4. This is a basic economic table prepared on the basis of Primary Census Abstract, In this table the population has been divided into nine industrial categories of workers based on Indian Standard Industrial Classification and a separate category of non-workers (detailed classification of which are available in Table B-IX in Part II–B (ii) of State Census Report) further classified into sex and broad age-groups *viz.*, 0–14, 15-34, 35–59 and 60+. The classification of workers and non-workers by specific age-groups, is a special feature of 1961 Census. The age-groups correspond to the different stages of life which have special significance with reference to capacity to work *viz.*, children, young persons, middle aged and elderly persons. Detailed classification of non-workers is, however, given in Table B-IX.

5. This table presents data separately for total, rural and urban population of the district while those for tehsils for rural areas only. Another Table B-II showing such information for each town is not reproduced in this book and has been given in Part II-B (i) of State Census Report.

Table B-III

6. This table has been compiled into two parts. Part A deals with urban population of the district classified into nine industrial categories of workers and a separate category of non-workers cross tabulated by literacy and various educational levels. Part B refers to rural population of the district as well as for each tehsil where educational levels have been confined only to two categories *viz.*, Primary or Junior Basic and Matriculation and above. It is an important table indicating employment of persons of different educational standards amongst the various categories of workers. The educational qualifications of available man-power can be assessed with the help of this table.

Table B-IV

7. This table has been presented in three parts. Part A deals with the industrial classification of worker of persons at work at household industry separately for total, rural and urban parts of the district, showing the figures for divisions and major groups of Indian Standard Industrial Classification. Divisionwise figures for each tehsil in case of its rural areas are also shown.

8. Part B of this table provides the data regarding industrial classification by sex and class of worker of persons at work in non-household industry, trade, business, profession or service for total and urban areas of the district by divisions and major groups.

9. In Part C of this table the data has been furnished for industrial classification by sex and divisions, major and minor groups of persons at work other than cultivation for total and urban areas of the district. Such data for rural part of each tehsil is also presented in the supplementry table to B-IV Part–C by divisions only

10. This table is quite important as it furnishes employment position in respect of various sectors of economy not only indicating the class of the workers *viz.*, employer, employee, single worker, family worker but also by different branches of industry according to divisions and major groups is Parts A and B and also by minor groups of Indian Standard Industrial Classification in Part C.

11. As the information included in Part C of this table is quite voluminous, the minor groups having figures less than 1% of the total workers of the respective division (less than 0.5% in case of division 2&3) have been excluded and relegated to the Appendix attached to this part of the table.

12. The Standard Industrial Classification, reproduced as an appendix at the end of note on this series describes in detail the various codes used for divisions, major and minor groups.

Table B-V

13. This is a new table and has been compiled for total and urban population by sex in order to provide information regarding occupational classification in the district engaged in production other than cultivation, further classified into divisions and groups on the basis of the National Classification of Occupations. Under each group the detailed occupational families are shown. Families having less than 1% of workers of the respective division (less than 0.5% in case of families under division 7-8) are not given in this table but are shown in an appendix attached at the end of this table. A fly leaf showing appropriate industrial category is also given in place of industrial category appearing in the table due to insufficient description given in the enumeration slip for industry or coding mistake. The occupational classification of persons engaged in non-agricultural pursuits has been further detailed according to various categories of workers. The categories of workers are same as adopted for Primary Census Abstract.

14. In this table cross tabulation of industry and occupation has been made for the first time while such information was combined in the previous censuses.

Table B-VI

15. This is a new table prepared for the first time in 1961 Census and provides information about those occupations which attract educated personnel. It has been prepared only for urban areas of the district upto divisional level of the National Classification of Occupations. The workers under each occupational division have been classified by broad age-groups *viz.*, 0–14, 15-34, 35–59 and 60 and above. The age-groups have been further classified according to educational levels as adopted in Economic Table B–III Part A. However, the figures for total workers under each occupational division have been provided for total only and not for different age-groups. It may be noted that total workers for occupational division in this table corresponds to the total workers of urban areas in Table B–V.

Table B–VII

16. This table has been compiled into two parts. Part A presents persons working principally (i) as cultivators (ii) as agricultural labourers or (iii) at household industry classified by sex and by the nature of their secondary work (i) at household industry (ii) as cultivator or (iii) as agricultural labourer. Such data has been presented in this part by divisions and major groups separately for the total, rural and urban parts of the district and by divisions only in case of rural part of each tehsil.

17. In case a worker is engaged in two or more kinds of work, the work consuming the larger portion of time has been treated his principal work while another consuming larger portion of his time considered his secondary work.

18. Part B of this table presents the industrial classification by sex of persons working in non-household industry, trade, business, profession or service who are also engaged in household industry. Such data has been presented in this part of the table by principal work and additional work based on divisions and major groups for the district as a whole while it has been shown by divisions only in case of each tehsil for its rural areas.

Table B–VIII

19. This is a new table prepared for the first time in the current Census. This table presents the distribution of unemployed persons aged 15 and above by sex and educational levels. It has been compiled into two parts. Part A relates to urban areas and is presented for the district as a whole. Part B relates to rural areas and is presented upto tehsil level.

20. The number of unemployed in Part A of this table have been further split up by (i) persons seeking employment for the first time and (ii) persons employed before but now out of employment and seeking work. The age-groups in the first case are 15–19, 20–24, 25–29, 30–34 and 35+ which are modified in the second case as 15–19, 20–24, 25–34, 35–44, 45–59 and 60+.

21. The break-up of educational levels is much elaborate in Part A which is the same as given in Table B–III Part A while such educational levels are confined only to (i) Primary or Junior Basic and (ii) Matriculation and above, in Part B of this Table.

Table B–IX

22. This table presents the distribution of non-working population by broad age-groups and eight classes of non-workers based on the recommendation of the United Nations Organisation. In this table data has been shown for total, rural and urban areas of the district separately and upto tehsil level for rural areas only. Such information on the non-working population bad never been compiled before.

(ii) HOUSEHOLD ECONOMIC TABLES

23. There are 8 Household Economic Tables in this series compiled in the current Census which is a first attempt for collecting economic data on the basis of households in addition to what is collected for each individual. In a predominantly agricultural State where most of the population is in rural areas and where much of the goods produced are consumed by the population itself, collection of information purely on the

basis of individuals tends to go slightly out of focus unless such information is supplemented by information on economic activities of the household as an entity. A decision was, therefore, taken that the information relating to the economic activities of the majority of households *viz.*, cultivation activities and household industry should be collected at the current Census.

24. A household Schedule was used at the Census, 1961 for this purpose. In the Part I of this Schedules information on the extent of land cultivated by the household, either owned or held from Government or held from private persons or institutions for payment in money, kind or share, and extent of land given to private persons for cultivation for payment in money, kind or share was collected. Besides, nature of household industry conducted by the household and the duration of the industry in a year alongwith number of family workers and hired workers engaged in cultivation or household industry or in both was also collected.

25. All these tables have been prepared on the basis of 20% sample of households.

Table B-X

26. This table is prepared on a 20% sample of households and is presented for the district total, rural and urban areas separately and upto tehsil level for rural areas only. The sample households have been classified into four categories *viz.*, (i) households engaged neither in Cultivation nor Household Industry, (ii) households engaged in Cultivation only, (iii) households engaged in Household Industry only and (iv) households engaged both in Cultivation and Household Industry. Thus, the table divides all the households in three important sectors of economic activity.

27. Cultivation includes ownership, tenancy cultivation and agricultural labour. The Household Industry relates to production, processing, servicing or repairing and includes making and selling of goods.

Table B-XI

28. This table presents data for the district total, rural and urban areas separately and upto tehsil level for rural areas only. In this table a more detailed examination of the cultivating households, which have been separated in the previous table, has been made. Such households have been classified according to the size of land cultivated and cross tabulated by the interest in land cultivated The sizes of land in acres are given as less than 1, 1.0-2.4, 2.5-4.9, 5.0-7.4, 7.5-9.9, 10.0-12.4, 12.5-14.9, 15.0-29.9, 30.0–49.9, 50+ and unspecified.

29. The interest in land cultivated has been classified into the following three categories :—

(a) entirely owned or held from Government,

(b) entirely held from private persons or institutions for payment in money, kind or share, and

(c) partly held from Government and partly from private persons for payment in money, kind or share.

30. Abbreviations (a), (b) and (c) have been used in place of legends for interest in land cultivated under column 1 of the table and the same have been spelt out at the bottom of the table.

Table B-XII

31. In this table the data has been shown for the district total, rural and urban areas separately and also up to tehsil level for rural areas only. The table will facilitate a further study of households which are engaged only in cultivation, as each household having a particular size of holding mentioned in Table B-XI has been cross tabulated with reference to the number of persons working in cultivation. The holding has been grouped into the following size ranges (in acres); less than 1, 1.0–2.4, 2.5–4.9, 5.0–7.4, 7.5–9.9, 10.0–12.4, 12.5–14.9, 15.0–29.9, 30.0–49.9 and 50+ and unspecified.

32. In case of household where more than one person is working, the number of family workers and hired workers have been separated. Family workers have also been separately tabulated by sex.

Table B-XIII

33. This table is presented separately for rural and urban areas of the district. The table shows the distribution of sample households engaged both in Cultivation and Household Industry classified by size of land cultivated and by size of Household Industry. The Household Industries have been classified according to the code numbers of divisions 0, 1, 2 & 3 and their major groups of Indian Standard Industrial Classification (for detailed description see Appendix at the end of the note on this series). It throws light on Household Industries which are carried on as an ancillary to cultivation in different parts of the district.

Table B-XIV

34. In this table the data has been presented for the total, rural and urban households separately for the district and relates to households engaged only in Household Industry. The table has been prepared in two parts:—

Part A:—It relates to households classified by major groups of principal Household Industry and number of persons engaged in each, grouped under 1, 2, 3–5, 6–10 and more than 10 persons. The Household Industries

have been classified according to the code number of divisions 0, 1, 2 & 3 and their major groups of Indian Standard Industrial Classification (for detailed description of code numbers see Appendix at the end of the note on this series).

Part B:—It relates to households classified by minor groups of principal Household Industry. In cases where there are more than one Household Industry under a minor group, sub-minor group numbers in four digits have been given.

Table B-XV

35. This table has been prepared for households engaged both in Cultivation and Household Industry. The data has been shown separately for total, rural and urban areas of the district. Tehsilwise break-ups for rural areas only could not be given here due to short of space, however, the same is available in Part III of State Census Report. In this table, an analysis has been made of persons working in these households with reference to size of holding. In cases where more than one person is employed, the number of family workers and hired workers are separately given. Similar data in respect of households engaged in Cultivation only has already been given in Table B-XII. A comparison between this table and Table B-XII will show how the combination of Household Industry with Cultivation effects the employment position. This table helps to establish a co-relation between the Household Industry and the scale of Cultivation.

Table B-XVI

36. This table is confined only to Household Industry and the data has been presented separately for the district total, rural and urban areas. The data in respect of Households engaged in Household Industry only or both in Household Industry and Cultivation are given separately. Household Industry is classified according to period of working of the industry grouped under 1-3 months, 4-6 months, 7-9 months and 10 months to one year and under each category number of households number of family workers and number of hired workers are given. This table thus, furnishes important data on the seasonality of various household industries and yields inferences on the seasonality of Household Industry with seasonality of Cultivation.

37. The major groups of Household Industry having less than 10% of the figures of the respective division which have been omitted from the table are shown in the Appendix at the end of the table. For detailed description of divisions and major groups of Household Industry see Appendix at the end of the note on this series.

Table B-XVII

38. The data in this table has been presented separately for the district total, rural and urban areas. The family sizes of sample households have been classified according to single member, 2-3 members, 4-6 members, 7-9 members and 10 members and over. It may be noted that although the 'Census Household' is not exactly the same as 'Family' to the extent that it may also include unrelated persons residing with the family during the census count, yet this table gives a general idea of the family sizes as in the majority of families outsiders are likely to be insignificant.

39. The sample households have also been classified by economic activity by work in cultivation or household industry. Households engaged in cultivation have been further classified by size of land holding. Classification by economic activity as well as by size of land holding is presented only for rural areas while classification by size of households is presented for total and urban areas.

40. Separate volumes Part II-B (i) & (ii) for General Economic Tables and Part III for Household Economic Tables have been issued in which the various concepts used, have been discussed in detail.

APPENDIX

STANDARD INDUSTRIAL CLASSIFICATION

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 0—Agriculture, livestock, forestry, fishing and hunting	
00	*Field Produce and Plantation Crops*	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra maize	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram ..	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines and orchards	006
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007
	Production of juice by tapping palms ..	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	009
01	*Plantation Crops*	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation ..	013
	Production of ganja, cinchona, opium ..	014
	Production of other plantation crops not covered above	015
02	*Forestry and Logging*	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber..	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
02	*Forestry and Logging*—concld.	
	Production of gums, resins, lac, barks, herbs, wildfruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	*Fishing*	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	*Livestock and Hunting*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat ..	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig ..	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worm and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	Division 1—Mining and Quarrying	
10	*Mining and Quarrying*	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104

APPENDIX—*Contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 1—Mining and Quarrying—concld.	
10	*Mining and Quarrying*—concld.	
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash..	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
	Division 2&3—Manufacturing	
20	*Foodstuffs*	
	Production of rice, atta, flour etc. by milling dehusking and processing of crops and food grains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugar cane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi cocoa, chocolate, toffee, lozenge	209
21	*Beverages*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice ..	212
	Production of other liquors not covered above	213

Major Group (Code)	Description	Minor Group (Code)
1	2	3
21	*Beverages*—concld.	
	Production of aerated and mineral water ..	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works ..	218
	Production of other beverages	219
22	*Tobacco Products*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots ..	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products ..	226
23	*Textile—Cotton*	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills) ..	231
	Cotton spinning and weaving in mills ..	232
	Cotton dyeing, bleaching	233
	Cotton weaving in powerlooms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile—Jute*	
	Jute pressing and baling..	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244

APPENDIX—*Contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
25	*Textile—Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring) ..	251
	Wool spinning and weaving in mill ..	252
	Wool spinning other than in mills ..	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile..	256
26	*Textile—Silk*	
	Spinning and weaving of silk textile in mill ..	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills ..	262
	Weaving of silk textile by powerloom ..	263
	Weaving of silk textile by handloom ..	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	*Textile—Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags ..	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products ..	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	*Manufacture of Wood and Wooden Products*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281

Major Group (Code)	Description	Minor Group (Code)
1	2	3
28	*Manufacture of Wood and Wooden Products*—concld.	
	Manufacture of structural wooden goods (including treated, timber) such as beams, posts doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures .. :	283
	Manufacture of other wooden products such as utensils, toys, artwares	284
	Manufacture of veneer and plywood ..	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products ..	288
	Manufacture of other wood and allied products not covered above	289
29	*Paper and Paper Products*	
	Manufacture of pulp from wood, rags, waste paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp ..	292
30	*Printing and Publishing*	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry ..	302
	All types of binding, stitching, sizing and other allied work connected with binding industry ..	303
31	*Leather and Leather Products*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather ..	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur ..	312

APPENDIX—*Contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
31	*Leather and Leather Products*—concld.	
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber, Petroleum and Coal Products* ..	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	*Chemicals and Chemical Products*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34	*Non-metallic Mineral Products other than Petroleum and Coal*	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images ..	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products ..	347
	Manufacture of mica products ..	348
35	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those coverd by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified ..	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products ..	366

APPENDIX—*Contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
36	*Basic Metals and their Products except Machinery and Transport Equipment*—concld.	
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which can not be classified in major groups 36, 37, 38 and 39)	369
37	*Machinery (All kinds other than Transport) and Electrical Equipment*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans ..	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery ..	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above ..	379
38	*Transport Equipment*	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
38	*Transport Equipment*—concld.	
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountainpen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
	Division 4-Construction	
40	*Construction*	
	Contruction and maintenance of buildings including erection, flooring, decorative constructions, electrical & sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403
	Division 5—Electricity, Gas, Water and Sanitary Services	
50	*Electricity and Gas*	
	Generation and transmission electric energy	500

APPENDIX—*Contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
50	*Electricity and Gas*—concld.	
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502
51	*Water Supply and Sanitary Services*	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
	Division 6—Trade and Commerce	
60	*Wholesale Trade*	
	Wholesale trading in cereals and pulses ..	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics, and textile products, such as garments, hessian, gunny bag, silk and woolenyarn, shirtings, suitings, hosiery products ..	602
	Wholesale trading in beverages, such as tea (leaf) coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants, such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder ..	608
61	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware ..	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings ..	614
	Wholesale trading in footwear	615

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Wholesale Trade—concld.	
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
62	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products	621
63	Wholesale trading in paper and other stationery goods	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64	*Retail Trade*	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (Seed and powder); aerated water..	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja etc.	643
	Retail rading in tobacco, bidi, cigarettes and other tobacco products ..	644

APPENDIX—*Contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Retail Trade—concld.	
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in food stuffs like sweetmeat condiments, cakes, biscuits, etc. ..	646
	Retail trading in animals	647
	Retail trading in straw and fodder ..	648
65	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products, (this includes retail trading in piecegoods of cotton, wool, silk and other textiles) ..	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals..	652
	Retail trading in footwear, head-gear such as hat, umbrella, shoes and chappals ..	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobiloil and allied products	655
66	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and paper	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
67	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo cane, bark and thatches	672
	Retail trading in other building materials ..	673
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Retail Trade—concld.	
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading, in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified ..	689
69	*Trade and Commerce Miscellaneous*	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc. ..	699
	Division 7–Transport, Storage and Communication	
70	*Transport*	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock-cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, handcart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river canal	706

APPENDIX—*Contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
70	*Transport*—concld.	
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	Services incidental to transport such as packing, carting travel agency	710
72	*Storage and Ware Housing*	
	Operation of storage such as ware-houses	720
	Operation of storage such as cold storage	721
	Operation of storage of other type ..	722
73	*Communication*	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
	Division 8—Services	
80	*Public Services* (This does not include Govt., Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups.)	
	Public Services in Union and State army including territorial corps and volunteer corps	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government ..	804
	Public service in administrative departments and offices of quasi-government organisation, municipalities, local boards, etc.	805

APPENDIX TO TABLE B-V

Families having less than 1% of the workers of the respective divisions and less than 0.5% in case of Division 7–8 only have been shown in the appendix. The following abbreviations have been used :-

III Mining, Quarrying, Livestock, Forestry, Fishing, Hunting, Plantations, Orchards and Allied activities
IV Household Industry
V Manufacturing other than Household Industry
VI Construction
VII Trade and Commerce
VIII Transport, Storage and Communications
IX Other Services

M=Males F=Females

TABLE B-XIV—SAMPLE HOUSEHOLDS ENGAGED ONLY IN HOUSEHOLD INDUSTRY CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY IN *ALL AREAS-Contd.*

(Based on 20% Sample)

Part B :- Households Classified by Minor Group of Principal Household Industry

Household Industry (Code numbers and description of Minor/Sub-minor Groups)		Number of Households		
		Total	Rural	Urban
1		2	3	4
	All Industries	**1,358**	**966**	**392**
0061	Production of fruits and nuts in Plantation, vines and orchards	1	1	..
0401	Rearing of goat for milk and animal power	7	7	..
0402	Rearing of buffalo for milk and animal power	2	2	..
0403	Rearing of cows for milk and animal power	10	3	7
0404	Rearing of camels and other big domestic animals	1	1	..
0405	Production and rearing of live-stock mainly for milk and animal power n. e. c.	178	143	35
0411	Sheep breeding and rearing	33	32	1
0412	Production of wool	1	1	..
0431	Poultry keeping and production of eggs	2	1	1
0432	Rearing and production of ducks, hens etc. and other small birds e.g. pigeons, parrots, peacock, maina, etc.	1	1	..
2001	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram etc.	9	5	4
2006	Parching of grains	1	..	1
205	Production of bread biscuit, cake and other bakery, products	1	..	1
206	Production of butter, cream, ghee, cheese chhana, khowa & other dairy products	3	1	2
207	Oil pressing ghani, kolhu or by small machines	41	19	22
2092	Making of sweetmeats, laddu, peda, barphi, batasa etc.	9	5	4
2093	Sattu, bhunja, paper,barri, danauri, tilauri, sewal, apalam etc.	4	..	4
2095	Making of chat	1	..	1
220	Manfacture of bidi	39	7	32
226	Manufacture of other tobacoo products n. e. c.	2	..	2
230	Cotton ginning, cleaning, carding, pressing and baling	10	2	8
231	*Cotton spinning (by charkha & takali)*	*40*	*31*	*9*
2331	Dyeing of cloth (cotton) & yarn	51	22	29
2333	Tie and dye (bandhani) of cloth and yarn	2	2	..
235	Cotton cloth weaving in handlooms	65	45	20
236	Manufacture of Khadi textile in handlooms	17	15	2
237	Printing of cloth (cotton)	12	5	7
2442	Making of rope and cordage, out of jute	1	..	1
2446	Making of other products from jute and similar fibres such as hemp, mesta	2	..	2
2701	Making of durries	2	..	2
2713	Making of parandas and chootelas	1	..	1
2722	Making of jari thread, zardoshi	2	..	2
2727	Making kargota main garlands, shell garlands etc.	19	6	13
2732	Traditional garments	54	29	25
2743	Manufature of other made-up textile goods like mattress, quilt, rezai etc., n. e. c.	1	..	1
281	Manufacture of wooden furniture and fixture	1	..	1
282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	8	6	2
2831	Carpentary works concerned with repairs of agricultural implements (wood)	4	3	1
2844	Sandal wood & other wood carving	1	1	..
2849	Manufacture of other wooden products n. e. c.	53	45	8
2881	Making of box from moonj grass	5	2	3
2882	Making of rope mats etc. from moonj and sawai grass and making of cadjar for thatching purposes	31	28	3
2883	Making of mats, handfans and umbrellas from plam leaves	3	..	3
2884	Making of sirki, moora and chhaj	17	4	13
2885	Making of baskets and broomsticks	43	38	5
2886	Making of donas (drone) & pattals (patravali) from leaves	1	1	..
2889	Manufacture of other articles from leaf, cane, bamboo, cork and other allied products n. e. c	7	7	..
2921	Making of envelops & paper bags	1	..	1
2928	Manufacture of other paper products from paper, paper board & pulp n. e. c.	1	..	1
3102	Currying, tanning & finishing of hides and skins, preparation of finished leather	145	144	1

APPENDIX TO TABLE B-XVI

The major groups of household industry having less than 10 percent of the respective divisions marked with an asterisk have been excluded from the main table and have been shown in run-on-lines in this Appendix. The figure preceding the bracket represents the code number of the major group dropped from the table while alphabets given in brackets are meant for showing the different ranges of period of working in the household industries 'with' or 'without' cultivation as explained below. The numerical figure shown after the alphabets denotes the number of households in that particular range indicated by that alphabet.

With Cultivation			Without Cultivation		
Abbreviations		Class range or period of working	Abbreviations		Class range or period of working

SOCIAL AND CULTURAL TABLES

(Note on C-Series)

There are 8 tables in this series relating to Social and Cultural aspects. Table C-I has been prepared from Household Schedules on the basis of 20 per cent sample. All the other tables in this series are based on full count and give data regarding age, sex, marital status and education, separately for rural and urban areas, single year age returns, mother tongue in alphabetical order, religion and classification by literacy and industrial category of workers and non-workers among Scheduled Castes and Scheduled Tribes for the district.

2. All the tables of this series have been reproduced in this book except Table C-VI on Bilingualism which can be seen in Part II-C (i) of the State Census Report wherein all tables of this series are contained.

Table C-I

3. This table is prepared on 20% sample from the Census Population Record Part II of the Household Schedule separately for the total, rural and urban areas of the district. The table is of sociological interest as it indicates the strength of the joint family system. It gives the composition of a household by family and non-family members. The family members have been classified into heads of household (who could be males or females) and their spouses, married sons and other married relations and never married, widowed and divorced or separated relations. As the definition of a census household also included outsiders residing with the family during enumeration, such persons have been shown in the table as unrelated persons.

4. The sample households of the rural areas have been classified into 3 categories *viz.* households engaged neither in cultivation nor in household industry, engaged in household industry only and engaged in cultivation. The households engaged in cultivation have further been classified by size of land holdings.

Table C-II

5. This is an important demographic table prepared on full count. It distributes the population by sex, age and marital status. The data has been presented for the district separately for rural and urban areas while those for tehsils for rural areas only. The population has been distributed into 14 age-groups which is further classified into four types of marital status *viz.* never married, married, widowed, divorced or separated. The age-groups followed in this table largely conform to the international requirements recommended by the United Nations Organisation.

6. This table is likely to be useful for studying the trends in the age of marriage. The data compiled here can be very well used for studying mortality in different marital statuses and also in different age-groups. The data on married females by age-groups can be utilised for forecasting the future births from age specific birth rates. All the persons falling in age-group 0–9* have been treated as 'Never Married' for the purpose of this table.

Table C-III

7. This table distributes the total population by age, sex and educational levels. The population has been distributed in to quinquenial age-groups upto the age of 34 and the age-groups 35–44, 45–59 and 60+. The table has been compiled into three parts. Part A relates to all areas, Part B for urban areas of the district while Part C deals with rural areas down to tehsil level. In Part 'A' and 'C' the educational levels are confined only to (i) Primary or Junior Basic and (ii) Matriculation & above while in Part 'B' these educational levels are much more elaborate as shown in Table B-III Part 'A'.

8. This table can be utilised to measure the growth of literacy in the population as a whole as well as in urban and rural areas separately and in the different age-groups since the last Census. The table is of special interest to the educational authorities for future planning and also to study the public attitudes towards adult education. In 1951 Census data was provided only about illiterate and literate classified into different age-groups on 10 per cent sample.

Table C-IV

9. This table has been prepared on full count and presents the distribution of population by single year ages (0 to 100) and by sex. The age in year completed on 1-3-1961 has been given but the infants who could not complete one year on 1-3-1961 have been shown under the age '0' while all old persons aged above hundred have been clubbed together and are shown against item 'Over hundred.' The data has only been presented for the district as a whole, its urban and rural breakups can be seen in Part II-C (i) of State Census Report.

10. The data presented in this demographic table is useful for the Census Actuary for computing mortality rates from the age data of the earlier censuses and for the preparation of life tables. It also provides data for studying bias in age returns at the Census.

Table C-V

11. This table presents data separately for total, rural and urban population of the district and only for total for tehsils classified by sex of persons speaking a particular language or a dialect as mother tongue. The mother tongues are arranged in this table in an alphabetical order.

*Marital Status of this group finds place in a separate monograph–Child Marriages in Rajasthan.

12. According to Census 1961 'Mother Tongue' is the language or dialect spoken in childhood by the person's mother to the person or mainly spoken in the household.

13. This table is of great interest to philologists in view of a large variety of languages and dialects spoken in the district and will be of great assistance for ensuring the implementation of the various safeguards granted to the linguistic minorities under the constitution.

Table C-VII

14. In this table the population has been distributed in six main religions and the figures of all other religions including the figures of those having 'Indefinite belief' such as Atheists and Agnostics have been clubbed together and noted under headilng 'Other Religions and Persuasions'. The tehsilwise details in this respect have been shown in a supplement attached to this table. Separate heading 'Religion not stated' has also been Provided for those who do not follow any religion and have given out only their nationalities such as Goans, Israelists, Italians etc.

15. The data of this important sociological table has been presented separately for total, rural and urban areas of the district and also for each tehsil.

Table C-VIII

16. This is a new table compiled in the 1961 Census and presents data separately for total, rural and urban areas of the district and further upto tehsil level for rural areas only. It has been prepared into two parts A & B. Part A presents the data of Scheduled Castes and Part B of Scheduled Tribes.

17. It gives the distribution of population by literacy classification of workers into different industrial categories no based the Standard Industrial Classification and non-workers. Literacy figures of these communities given for the first time in the present Census.

18. In 1951 Census data for Scheduled Castes and Scheduled Tribes was provided only about total number of persons belonging to Scheduled Castes and Scheduled Tribes classified by sex for the districts and upto sub-division.

HOUSING TABLES

(Note on E-Series)

There are five tables in this series prepared for the first time in this census which have been extracted from the House List prepared at the time of house numbering and house listing operations in 1960. Out of these, four tables *viz.* E-I, E-II, E-IV, E-V relate to housing conditions and furnish data for the purposes for which the houses are used, the tenure on which they are occupied by the households, material of construction of walls and roofs and the households classified by number of members and by number of rooms occupied by them. The data in these tables has been shown for the district as well as for each tehsil separately for total, rural and urban areas.

2. Another table (E-III) on industrial establishments also prepared from the house lists gives a break-up by industry and the fuel used cross-tabulated by the size of establishments, is not presented here for want of space and can be seen in Part IV-B of the State Census Report which presents all the tables of this series. However, the data regarding number of establishments contained in this table is separately compiled down to village level which has been presented in a separate list of industrial establishments.

Table E-I

3. This table has been prepared on full count and furnishes figures of census houses separately for total, rural and urban areas of the district and tehsils and towns with a population of 50,000 or more classified into different categories according to the uses to which they are put. The houses which were found vacant at the time of houselisting have also been shown separately as such. The following are the various types of houses into which occupied houses have been classified :—

Dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, hotels, hostels, sarais, dharamshalas, tourist homes and inspection houses, shops excluding eating houses, business houses and offices, factories registered under the Factories Act and worksheds and workshops not so registered, schools and other educational institutions including training classes, coaching and shop classes, restaurants, sweetmeat shops and eating places, places of entertainment and community gathering (Panchayat Ghar), public health and medical institutions, hospitals, health centres, doctors clinics, dispensaries, etc.

4. Occupied census houses which do not fall in any of the above categories have been classed as 'Others', e.g. temple, mosque, church, cowshed, motor garage, water-hut, engine room, store room, grass shed.

5. The concepts and definitions of the terms occuring in the table are given below :—

A "Census house" is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc. with a separate entrance.

A "Census household" is a group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so.

A "shop" or a "workshed" is a place where articles are sold for cash or for credit.

A "Workshop" is a place where some kind of production, processing, repair or servicing such as paper-making, shoe-making tailoring, cycle-repairing, motor-servicing, halwai's shop, pottery-making, goldsmithy, blacksmithy, etc., are undertaken or where goods or articles are made and sold, and is not a factory registered under the Factories Act.

A "Factory" is a large workshop which has been registered under the Indian Factories Act.

"Business houses" are those premises where transactions in money or other articles take place such as banks etc.

Table E-II

6. This table has been prepared on the basis of 20 per cent sample of households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses. Shop-*cum*-dwellings and workshop-*cum*-dwellings are census houses which are partly used for residential or dwelling purposes and partly used as a shop or workshop. Dwellings with other uses are census houses such as offices, schools, temples, mosques etc. which are partly used for residential purposes by watchmen or attendents. The total number of households given in column 4 of this table gives the total of such samples classified into the aforementioned four categories of dwellings, which have been further classified according to their tenure status, whether owned or rented, separately for the total, rural and urban areas of the district and also for tehsils and towns with a population of 50,000 or more.

7. The following concepts and definition have been used in respect of tenure status :—

The term 'owned' was considered to be a situation when a household was living in its own house or a house duly mortagaged to it by some of its debtor.

The term 'rented' meant a situation when a household was found living in a house taken on rent from a landlord or in a house that was taken on lease or in a house for which no rent was being paid with the consent of the landlord.

Table E-IV

8. This table has been prepared on 20 per cent sample of households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses.

The total number of houses given in column 3 of this table gives the totals of all such sampled household. The material out of which most of the walls are made or where a house consists of separate structures, each made of different materials, the material out of which the walls of the main bedrooms, are made has been classified into the following nine categories :—

() Grass, leaves, reeds or bamboo
(2) Timber
(3) Mud
(4) Unburnt bricks
(5) Burnt bricks
(6) C. I. Sheets or other metal sheets
(7) Stone
(8) Cement concrete
(9) All other material

9. The material out of which most of the outer roof exposed to the weather is made, i.e., tiles, thatch, corrugated Iron, zinc or asbestos cement sheets or concrete, etc., or in the case of multistoreyed building, the material out of which the intermediate floor or floors is made, has been classified into the following seven categories :—

(1) Grass, leaves, reeds thatch, wood or bamboo
(2) Tiles, slate, shingle
(3) Corrugated iron, zinc or other metal sheets
(4) Asbestos cement sheets
(5) Brick and lime
(6) Concrete and stone slabs
(7) All other material

10. This table has been presented separately for total, rural and urban areas of the district and also for tehsils and towns with a population of 50,000 or more.

Table E-V

11. This table has been prepared on 20 percent sample of households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellnigs and dwellings with other uses. The figures given in column 3 of this table are the totals of all such sampled households. The sex break-up of the total number of members occupying such sampled households have been further classified into the following six categories showing the number of households and number of occupants by sex in each category:—

(i) no regular room
(ii) one room
(iii) two rooms
(iv) three rooms
(v) four rooms
(vi) five rooms or more

2. This table has been prepared separately for the total, rural and urban areas of the district and also for tehsils and towns with a population of 50,000 or more.

List of Industrial Establishments

13. This table gives the number of establishments and the number of workers in each branch of industry classified by minor groups of Indian Standard Industrial Classification (for detailed description see appendix to the Explanatory Note on B–Series). The data is presented in the ascending order of the minor groups showing the figures in the brackets first for the number of establishments and second for the number of workers employed. The information has been extracted from the house list prepared at the time of house numbering and house listing operations in 1960.

14. The data is presented for the district and each tehsil for total, rural and urban areas as well as for each village and town separately. A summary of number of industrial establishments by workers employed has been given separately for the district, tehsils and towns in the begining of this table. The table has been presented in run-on-lines and the villages are shown both by their names and Code numbers. The Code number of the villages will be helpful in finding out the location of the village in the tehsil maps. Villages which do not have any industrial establishments as well as those industry minor groups for which there are no figures in village or town or tehsil have been excluded from the list.

15. The data for some seasonal industries which were not actually working during the period of house listing has not been included. The number of workers also includes the proprietor and the other household members who were working in the industry during the week preceeding the enumerators' visit.

TABLE E-1—CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

(Note on SCT, SC and ST Series)

There are 8 Tables in this series specially prepared for the population of Scheduled Castes and Scheduled Tribes in the district. No special table was prepared for these classes during 1951 Census. The only information collected at that time was the aggregate strength of Scheduled Castes and Scheduled Tribes for the district and sub-divisions. However, together more information for these communities which have been safeguarded in the constitution, special tables have been devised and presented in this series. Part V-A of the State Census Report gives information for the State on this subject.

Table SCT-I

2. This table presents the industrial classification of persons of Scheduled Castes and Scheduled Tribes at work and non-workers by sex. In other words, this table presents caste/tribe wise (arranged in alphabetical order) break-up of the data shown in Table C-VIII. This table has been compiled in two parts. Part A deals with the Scheduled Caste population showing the data for each Scheduled Caste separately in rural and urban areas of the district.

3. Special study regarding the number of persons of Scheduled Castes engaged in unwholesome occupations like tanning, currying of hides and skins, scavenging is also conducted. The number of workers shown in these occupations as well as in other industrial categories is on the basis of their principal work.

4. Part B of this table refers to Scheduled Tribes population and presents the data for each Scheduled Tribe separately in rural and urban areas of the district.

5. A fly-leaf showing the sexwise break-up for Scheduled Castes and Scheduled Tribes in the district as well as for each tehsil is also attached which presents data separately for total, rural and urban areas. Figures of such Scheduled Castes and Scheduled Tribes have also been given for each village and town in the Primary Census Abstract.

Table SCT-II

6. This table distributes the population of Scheduled Castes and Scheduled Tribes according to their marital status of never married, married, widowed, divorced or separated and unspecified status under the age-groups of 0–14, 15–44 and 45+. The total population of these classes acccording to their marital status is also shown separately of all age-groups.

7. This table has been presented in two parts. Part A gives such information for each Scheduled Caste and Part B relates to each Scheduled Tribe providing such information for the district.

8. This is an important demographic table. The age marital status data in the case of Scheduled Tribes give an indication whether the tribal population is decreasing, stable or increasing.

Table SCT-III

9. This table presents the distribution of the population of Scheduled Castes and Scheduled Tribes by sex and educational levels. The table has been compiled in two parts. Part A has been further classified in two parts. Part A (i) provides such type of data for each Scheduled Caste in urban areas only while Part A (ii) presents similar data for urban areas for each Scheduled Tribe.

10. Part B of this table provides the similar information as in Part A for rural areas only, being classified in two parts. Part B (i) deals with Scheduled Castes while Part B (ii) refers to Scheduled Tribes.

11. In case of urban areas the data has been given for educational standards as in Table B-III Part A while such data has been shown for mere literate primary or junior basic and matriculation and above in case of rural areas as in Table B-III Part B.

12. This is an important table, the data of which can be proved very useful for the education department as it throws light on the spread of education among these communities in the rural and urban areas separately. The data will also be helpful to the department for awarding scholarships to the members of these communities.

Table SCT-IV

13. This table presents a distribution of the population of Scheduled Castes and Scheduled Tribes according to their religion. This table is compiled in two parts. Part A provides religionwise data for each Scheduled Caste in the district showing the rural and urban figures together. Similar type of information has been presented for Scheduled Tribes in Part B of this table. It may be noted that the members of Scheduled Castes can be either Hindus or Sikhs while members of Scheduled Tribes may profess different religions.

Table SCT-V

14. This table presents a detailed examination of the rural cultivating households of the Scheduled Castes and Scheduled Tribes and is based on 20% sample. Such households have been classified in various groups according to the size of land cultivated and cross tabulated by the interest in land cultivated.

15. This table is similar to that of household economic table B-XI and is compiled in two parts. Part A presents such data for Scheduled Castes while Part B provides such information for Scheduled Tribes.

Table SC-I

16. This table presents data for students and unemployed persons in non-working population of Scheduled Castes. This is further classified according to the broad educational levels consisting of literates, primary or junior basic and matriculation and above.

17. The data has been shown separately for the district total, rural and urban areas and further down to tehsil level in case of rural areas only. It is very useful table at it indicates the numerical strength of students and unemployed persons among the Scheduled Castes.

Table ST-I

18. Scheduled Tribes have their own peculiar languages and dialects. This is due to the fact that this table is prepared showing the number of speakers of that subsidiary language of those members of Scheduled Tribes who have moved out of their homes and as a result of contact with the local persons speak some other subsidiary language to the mother tongue. The number of persons speaking such subsidiary languages have been shown sex-wise in run-on-lines. The data has been presented separately for the district total, rural and urban areas for the each Scheduled Tribe.

Table ST-II

19. This table presents data for students and unemployed persons in the non-working population for each individual Scheduled Tribe. The data has been shown separately for district total, rural and urban areas. This table is an important one as it throws light on the progress of education and the unemployment position for each individual tribe.

SECTION III

VILLAGE DIRECTORY
&
SOME OFFICIAL STATISTICS

VILLAGE DIRECTORY

VILLAGE DIRECTORY

(Note)

Data collected for the Census 1961 at the village level has already been presented in the Primary Census Abstract. As an ancillary project, some additional information was also collected through a Village Information Schedule, specially designed by this office, and is presented in this Village Directory. Information in this directory and what has been presented in the official statistics and the maps may in certain cases be found to be conflicting. The reason obviously lies in the fact that data has been collected from different sources.

The Directory gives information about the major crop, the distance in miles from the nearest Primary School, Hospital or Dispensary, Railway Station, Post Office, Bus Stand and Police Station for each village. Such information was not collected for unpopulated villages. Where information was not received for a particular item an indication to this effect has been made by putting a '—'.

With a view to assist the reader to locate the villages easily, they have been presented here alphabetically. The names of the villages have also been given in the Devnagri Script. The names of the villages found to be printed wrongly in the Primary Census Abstract have been corrected here.

Crop which has the largest area under cultivation has been treated as the major crop of a village and the following abbreviations have been used to indicate it in Column No. 2 :—

W — Wheat
G — Gram
J — Jowar
B — Barley
Bj — Bajra
M — Maize
R — Rice
P — Pulses
T — Til
WG — Wheat Gram (Gochana)
WB — Wheat Barley (Gojara)
BG — Barley Gram (Bejar)
Md — Mustard
C — Cotton

SOME OFFICIAL STATISTICS

SOME OFFICIAL STATISTICS

(*Note*)

Presented in this section are some tables relating to statistics collected from various official agencies. They cover subjects like rainfall, land utilisation, area and production under crops, irrigational facilities, livestock, agricultural implements, factories, employment situation and power. Information about consumption of intoxicants, educational and medical facilities, motor vehicles, progress of co-operative societies, development blocks and panchayat samities is also given in this section. A list of fairs celebrated in the district and the data relating to the electoral participation and preferences for the second general elections also form a part of this section.

SECTION IV

DISTRICT & TEHSIL MAPS

DISTRICT AND TEHSIL MAPS

(Note)

The district and tehsil maps presented in this section have been prepared and presented for the first time. They form a part of the Census Atlas and have been reproduced here specially with a view to help the reader to locate the places mentioned in the Primary Census Abstract and the Village Directory. The villages have been shown by code numbers in the tehsil maps.

The maps have been photographically reduced to their present size from the original revenue maps and the scale and graticules have been worked out as approximately as possible.

The following is the list of references used for all the maps :—
