MOTIF

Maharashtra has chosen the co-operative form of organisation as a major instrument for ushering in a socialistic pattern of society and bringing about the desired changes in economic structure. Accordingly, it had already established itself and is one of the leading States in the field of co-operative movement.

Among the districts of the State, Ahmadnagar is leading in the field of co-operative sugar industries. The first sugar factory on co-operative basis in India was established at Pravara Nagar in this district. Out of the total 18 sugar industries in the district, 13 are co-operative. The district also leads in the production of sugar which accounts for one-fourth of the total State production It has crossed the mark of 54 lakh quintals, worth about Rs. 200 crores, during the year 1984–85. This is certainly an economic boost to the district and is a glaring example of what poor and illiterate farmers can achieve by adopting the principle of co-operation

Let us be more co-operative.

FOREWORD

The District Census Handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulating local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part–A related to village and town directory, Part–B to village and town PCA and Part–C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some States it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the format of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the corelation of the amenities with the population and number of households they

serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of SC and ST population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class-I and Class-II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tahsil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value.

This publication is joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri P. P. Mahana, the Director of Census Operations, Maharashtra on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

New Delhi,
the 26th April 1982.

P. PADMANABHA,
Registrar General, India.

ACKNOWLEDGEMENTS

The preceding foreword of the Registrar General and Census Commissioner, India, is quite exhaustive and gives the reader a complete account of the District Census Handbook project. As has been mentioned therein, the publication of District Census Handbooks of Maharashtra is a joint venture of the Government of Maharashtra and the Census Organisation of the Government of India. The design for the 1981 District Census Handbooks was evolved centrally by the Census Commissioner, India. The contribution of the Government of Maharashtra comes by way of bearing the cost of printing. We are thankful to the Census Commissioner and to his band of devoted officers in the Social Studies Division for the valuable guidance they have given us, and to the Government of Maharashtra for the readiness they have shown to print and publish these handbooks. Our grateful thanks are also due to the District Inspectors of Land Records for helping us in marking village boundaries on the tahsil maps we have prepared and presented in these handbooks, and for recording a certificate of authenticity on each such map we referred to them.

Shri P. P. Mahana, who held the office of Director of Census Operations, Maharashtra, and guided the operations of the 1981 Census, left this organisation on 14th December 1982. The data presented in these handbooks were collected and compiled under the direction and guidance of Shri Mahana. We would deem it our duty, therefore, to offer him our sincere and grateful thanks for all that he did for this project.

In this directorate, the undersigned exercised overall supervision over the work of the project, while the main brunt of day-to-day supervision was borne by Shri A. S. Dange, Deputy Director. He was ably assisted in this work by Shri Madhav Shyam, Research Officer (Map) and Smt. V. Y. Joshi, Shri G. M. D. Lone and Shri V. S. Nagle, Assistant Directors. The list of their colleagues in the District Census Handbook Unit who put in untiring efforts to bring the project to fruition is fairly long and is not being given here for want of space. However, all these unnamed assistants in various grades who attended to the voluminous work of compilation, typing, comparing, checking and mapping etc., deserve our heart-felt thanks.

A. W. MAHATME,
Joint Director of Census Operations.

Census Directorate, Maharashtra, Bombay.
Dated 26th January 1984 (Republic Day)

Note.—The source for the total area figures in respect of the districts is the Surveyor General of India, while that for the total area figures in respect of the tahsils in the State Land Records Department The total areas, as also the rural areas, for the tahsils in district, may not therefore, strictly add upto the corresponding figures shown against the district

Names of towns treated as such for the first time in 1981 have been printed in italics.

ANALYTICAL NOTE

HISTORY AND SCOPE OF DISTRICT CENSUS HANDBOOK

The District Census Handbook compiled by the State Directorate of Census Operations is, in effect, a joint venture of the State Government and the Census Organisation of the Government of India Its publication was started from 1951 census Not only has it become a regular feature of every census but even its coverage has been enlarged and rationalized Naturally, this document is constantly being consulted by the planners, administrators, academicians and researchers alike The 1981 district census handbook is the fourth in the unbroken series

In 1951, district census handbook contained important census tables and the primary census abstract for each village and town in the district The scope of district census handbook was enlarged at the 1961 census by including descriptive account of the district and administrative statistics in addition to the census tables and the primary census abstract of every village and town The 1971 district census handbook series was organised in three different parts, Part A related to the village and town directory, Part B to village and townwise Primary Census Abstract (PCA) and Part C to analytical report, administrative statistics, census tables, analytical tables based on the PCA and amenity data for every village However, for Maharashtra State (as also for many other states in India), only Part A and Part B of the district census handbook were published Part C had to be given up mainly because of the problems relating to printing.

1981 district census handbook is comprised of two parts – Part A and Part B. Part A includes village and town directory and Part B village and townwise primary census abstract While designing the format of 1981 district census handbook, data on some new items such as adult literacy centres, primary health sub-centres and community health workers, has also been included

Village and Town Directory as well as primary census abstract included in the district census handbook are expected to meet the requirements of the planners for micro level planning Similarly, the additional data for town directory in respect of civic and other amenities in Class I and II towns are oriented to minimum needs programme especially in respect of slum dwellers The data on amenities by size of town would be of great interest to the scholars and planners alike

Brief History of the District

The district of Ahmadnagar is named after Ahmadnagar town The town is famous since the mediaeval times It was the the capital of the Nizam Shahi Kingdom of Ahmadnagar founded by Malik Ahmed, the founder of the Nizam Shahi dynasty and of the town in 1494. The town is named after his own name However, the earliest habitations of the people in this district may go back to the early Palaeolithic Period (circa 1,50,000 B C) along the Pravara and the Godavari rivers from Vite and Akola in the west to Nevasa in the east Archaeological excavations carried out at Nevasa in the Ahmadnagar district also throw some light on the habitations of the people in Middle Palaeolithic Period (circa 25,000 B.C) and Chakolithic Period (circa 1500 B C to 500 B.C) Migration of people brought the knowledge of iron, agriculture and town planning in about the fourth century B C. Land witnessed many rise and falls of kingdoms It went through ancient and mediaeval periods, followed by Moghal and Maratha kingdoms and subsequently British rule till the independence in 1947

Ahmadnagar was formed as a district in the year 1818 In 1822 its boundaries extended between Vani in Dindori sub-division of Nashik and Karmala in Solapur district In the year 1830, the sub-collectorate of Solapur was included in Ahmadnagar district. In 1838, the district of Solapur was formed However, consequent upon the reversion of a part of its area to Ahmadnagar, Solapur district got abolished in the year 1864 During 1837–38 Nashik sub-collectorate which included the sub-divisions of Sinnar, Chandor, Dindori, Nashik, Igatpuri and Peint State, was formed under Ahmadnagar district. However, this sub-collectorate of Nashik got abolished in 1856 and the area reverted to Ahmadnagar district It was only in the year 1869 that Solapur and Nashik were formed as separate full-fledged districts and the present Ahmadnagar district was formed.

In 1891, Ahmadnagar district included the sub-divisions of Jamkhed, Nevasa, Shrigonda, Shevgaon, Sangamner, Nagar, Kopergaon, Akola, Karjat, Parner and Rahuri Pathardi peta was newly created in the year 1913 and the remaining part of Jamkhed taluka was renamed as Jamkhed mahal During 1931–41 Karjat taluka was down graded as Karjat peta However, during the decade 1941-51 Pathardi and Karjat petas were again upgraded as Karjat talukas In 1945, Shrirampur taluka was newly formed In the year 1950, 21 villages were transferred from Bhir (now Bid) district to Ahmadnagar district. On the other hand, Ahmadnagar district lost 26 villages to Bid district and one village to Aurangabad district

Consequent upon the re-organisation of states in 1956, Ahmadnagar district was incorporated in Bombay Since 1960 it forms a part of Maharashtra State.

At the time of 1961 census, Ahmadnagar district was comprised of 12 talukas and one mahal and they among themselves included 1,318 inhabited villages and 5 towns. During 1961–71, Jamkhed mahal was up graded as taluka thus, raising the total number of talukas to 13. At the time of 1971 census the Ahmadnagar district had 13 tahsils comprised of 1,312 inhabited villages (excluding 5 uninhabited villages) and 6 towns. (Tahsil and Taluka are synonymous terms and prior to 1971 tahsil was referred to as taluka). Since then the number of tahsils in the district has remained unchanged till the reference date of March 1, 1981. However, some changes as to the number of

villages within the tahsils have taken place during the previous decade. With the upgrading of hamlets/ wadies in the district, the number of villages has gone up to 1,503 (excluding 2 uninhabited villages) Likewise, with the addition of two new towns- Rahuri and Warwandi the number of towns in the district has risen to 8 in 1981. Whereas, the Rahuri town attained municipal status by virtue of State Government notification, Warwandi was declared as a census town as it qualified the specific criteria laid by census to declare as urban area

Location, Relief and Drainage

District Ahmadnagar covers an area of 17,048 km². and has a population of 2,708,309. Among the 26 districts in the state it ranks 2nd in area and 5th in population Thus, undoubtedly, Ahmadnagar is one of the largest districts in the state both in terms of area and population

District Ahmadnagar extends between 18°2′ north to 19°9′ north latitudes and 73°9′ east to 75°5′ east longitudes. It is flanked by district Nashik to the north, Aurangabad and Bid districts to the east, Osmanabad and Solapur districts to the south and Pune and Thane districts to the west

The district is situated partly in the upper Godavari basin and partly in the Bhima basin. Broadly northern half of the district comprising Akola, Sangamner, Shrirampur, Kopargaon and Nevasa tahsils lies in the Godavari basin and is served by Pravara and Mula rivers, both tributaries of Godavari and the Godavari itself which flows along the north-eastern boundary of the district. The southern half comprising the tahsils of Parner, Nagar, Pathardi, Shrigonda and Karjat lies in the Bhima basin and is served by Sina, Kukadi and Ghod, all tributaries of Bhima and Bhima river itself which flows along the south-western boundary of the district.

The main range of Sahyadri and its off shoots is the only system of hills in the district. This main range of Sahyadri touches only Akola tahsil of Ahmadnagar district. From this main range, three spurs namely Kalsubai, Baleshwar and Harishchandragad stretch eastwards.

Kalsubai spur stretches eastwards along the northern boundary of the district and ends abruptly at Dudeshwar hill in Sangamner tahsil. Kalsubai (1,646 metres) is the highest peak in this range of Sahyadri. (More so, it is the highest point in the Maharashtra State). It serves as a watershed between Darna and Pravara rivers.

The spur named 'Baleshwar' is the longest and forms boundary between Pune and Ahmadnagar districts. On entering Parner tahsil, this spur forms a plateau from which two spurs branch off one extends from north to east of Ahmadnagar town and forms a watershed between Godavari and Bhima valleys. The other spur turns southwards and after passing through north-east corner of Shrigonda tahsil it enters Karjat tahsil.

The Harishchandragad spur extends for about 96 kms. in the district It branches off from Ratangad and acts as a watershed between Pravara and Mula rivers

Godavari in the north and Bhima in the south are the two major rivers of the district Apart from these two main rivers which flow on the northern and southern boundaries of the district, a number of tributaries rising within the district drain the area of the district in general south-eastwards.

Gadavari river passes through Kopargaon tahsil and then along with border of Shrirampur, Nevasa and Shevgaon tahsils. Pravara is the tributary of Godavari river It originates in Akola tahsil, passes through Sangamner tahsil and then along the border of Shrirampur and Rahuri tahsils to Nevasa tahsil and joins Godavari at Pravara Sangam. Mula, Adula and Mahalungi are the important tributaries of river Pravara.

Bhima river, which drains the southern portion of the district, runs along the boundary between Ahmadnagar and Pune districts The chief tributaries of Bhima are Ghod and Sina. Ghod flows in the southeasterly direction for over 80 kms and forms a south-western boundary of the district with that of Pune district Sina rises north of Ahmadnagar, passes through the city and after making the boundary with the Bid district, enters Solapur district and joins Bhima river. As a large part of the district comes under rain scarcity tract, Godavari, Pravara and Mula rivers are boon to the district Irrigation dams constructed at Bhandardara (Akola tahsil) on river Pravara and at Baigaon Nandur (Rahuri tahsil) on river Mula, and the water available from Godavari river have transformed the agricultural economy of Shrirampur, Kopargaon, Rahuri and Nevasa tahsils in the district.

Climate

Ahmadnagar district is characterised by a hot summer and general dryness during the major part of the year Summer season (March to May) is followed by rainy season (June to September) October and November constitute post-monsoon season The winter season extends between December and February. The annual variation in temperature is quite large May is the hottest month with maximum temperature often reaching in the vicinity of 40°C and January the coldest with minimum temperature of about 12°C. Likewise, the daily range of temperature is also quite large.

Most of the district is in rain shadow to the east of western ghats. The annual rainfall decreases rapidly as one proceeds from western border towards east The major part of precipitation is experienced in western portions of Akola tahsil, whereas, rains in southern part of the district are most erratic Major portion of the district lies in the zone of low rainfall ranging from 508 mm to 635 mm. annually. More than three-fourths of the annual rainfall is received from south-west monsoons during the months of June to September. Pathardi, Parner, Nagar, Jamkhed and Shevgaon tahsils are drought prone areas.

Soil

The soils of the district can be classified in general into 3 groups *viz.* black or 'kali', red or 'tambat' and laterite and gray of inferior quality

locally known as 'barad'. The soils in the Pravara valley (particularly Sangamner tahsil) are fairly deep and alluvial and are of great fertility. Godavari basin soils are black with variety of gradations which are derived from weathering of basalts under tropical semi-arid climatic conditions. These soils are suitable for cotton growing and retain moisture In the hilly areas to the west of Akola, red soils deeper on the slopes than on levels are found. Soils on the plateau vary considerably depending upon the terrain and slope conditions. In Parner tahsil soils are fairly good and suitable for rabbi crops but on the terraces, the soils are too inferior. Soils in Karjat and Shrigonda tahsils are of inferior quality and need lot of labour to yield large crops These soils are suitable for Jowar and Bajra crops

Census Houses and Household

Columns 4 and 5 of the primary census abstract give total number of occupied residential census houses and households According to Indian Census, 'Census House' is a building or a part thereof having a main entrance from the road or common courtyard or staircase etc It may be occupied or vacant, residential, non-residential or both A 'household' is a group of persons who commonly live together and would take their meals from a common kitchen, unless the exigencies of work prevented them from doing so. A household may be of persons related by blood or of unrelated persons or having a mix of both There may be single member or more than one member households Households of unrelated persons termed as 'institutional households' include boarding houses, messes, hostels residential hotels, rescue homes, jails, ashrams etc.

Houseless population or houseless households include persons who do not have any fixed place of residence but go on moving from place to place, camp at night, or just live on the streets, in gardens or in open places

There are 462,665 occupied residential houses and 477,357 households in the district. Number of households per km^2 works out to 28 for the district as against 38 for the Maharashtra State The same ratio for urban areas is 359 which is almost half of state average of 706 households per km^2 Number of persons per household in the district is 5.67 which can be compared with state average of 5 37

Distribution of population in Rural and Urban Areas

As per 1981 Census, the population of Ahmadnagar district stands at 2,708,309 including 1,382,632 males and 1,325,677 females. This makes 4 31 per cent of state's population over 5 54 per cent of its areas Among the 13 tahsils in the district, Nagar tahsil (365,957) is the most populous (Table 1).

TABLE 1

Population, Number of Villages and Towns, 1981

Sr No	Name of Tahsil	Population									No of Villages		No of towns
		Total			Rural			Urban					
		P	M	F	P	M	F	P	M	F	Total	Inhabited

9	Shrigonda	181,418	92,671	88,747	181,418	92,671	88,747				104	104	
10	Parner	177,501	86,910	90,591	177,501	86,910	90,591				131	131	
11	Akola	176,385	87,891	88,494	176,385	87,891	88,494				170	170	
12	Sangamner	280,408	142,114	138,294	240,320	121,361	118,959	40,088	20,753	19,335	155	155	1
13	Kopargaon	291,604	149,920	141,634	244,459	125,337	119,122	47,145	24,583	22,562	105	105	2
	District Total	2,703,309	1,382,632	1,325,677	2,356,941	1,196,669	1,160,272	351,368	185,963	165,405	1,505	1,503	8

Other tahsils in order of their size of population are . Shrirampur (291,672), Kopargaon (291,604), Sangamner (280,408), Nevasa (211, 237), Rahuri (204,093), Shrigonda (181,418), Parner (177,501), Akola (176,385), Pathardi (147,837), Karjat (146,618), Shevgaon (138,275) and Jamkhed (95,304). It follows that within the district the most populous tahsil has nearly four times the population of the least populous tahsil

The basic unit for rural area is a revenue village. A 'village' may be defined as a statutory recognised unit having definite boundary and separate land records Urban areas on the other hand are

specially defined for census purposes. The criteria adopted for 1981 census is :

(*a*) All places with a municipality, corporation or cantonment boards or notified town areas.

(*b*) All other places which satisfy the following criteria :—

(*i*) A minimum population of 5,000 ;

(*ii*) At least 75% of male working population engaged in non-agricultural (and allied) activities ;

(*iii*) A population of at least 400 persons per km².

Out of 2,708,309 persons in the district, 2,356,941 (87.03%) live in the countryside and the remaining 351,368 (12.97%) in the towns Thus in Maharashtra State (where 35.03 per cent of the total population is urban), Ahmadnagar is among the less urbanised districts.

Size Class and Status of Towns

For the purposes of comprehensive analysis of varied demographic characteristics, towns have been divided into the following classes by population size :

Class–I	. 100,000 and above
Class–II	.. 50,000—99,999
Class–III	. 20,000—49,999
Class–IV	.. 10,000—19,999
Class–V	.. 5,000— 9,999
Class–VI	.. Below 5,000

Of the eight towns in the district Ahmadnagar City is class I; Shrirampur is class II; Ahmadnagar Cantonment, Kopargaon, Rahuri and Sangamner are class III; Wari is class IV and Warwandi is class VI town (There is no town under the size class V) (Statement I.) Two of these eight towns have non-municipal status and one is cantonment board

In 1981, there has been addition of two new towns Rahuri and Warwandi (Table 2)

TABLE 2

New towns/towns declassified in 1981 Census

Name of towns 1	Population 1981 census 2
(*a*) Added—	
(1) Rahuri (M. Cl.)	23,721
(2) Warwandi (C.T.)	. 3,713
(*b*) Declassified Nil	Nil

Whereas the Rahuri attained municipal status by virtue of state government notification, Warwandi qualified the specific criteria to be declared as a census town. Incidentally both these newly added towns fall in the Rahuri tahsil.

Urban Agglomeration

As in 1971 the concept of urban agglomeration has been adopted for 1981 census too. An urban agglomeration may constitute :

(*a*) A city with continuous outgrowth (the part of outgrowth being outside the statutory limits but falling within the boundaries of adjoining village or villages) ,

(*b*) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a): or

(*c*) A city one or more adjoining towns with their outgrowths all of which form a continuous spread

In Ahmadnagar district, there is only one urban agglomeration (U A.) *i e.* Ahmadnagar U A. and its constituent units are :

(*a*) Ahmadnagar City (M)

(*b*) Ahmadnagar Cantonment

Standard Urban Area

Standard Urban Area (S U A) concept introduced in 1971, has been followed in 1981 as well. The essential requirements for the constitution of S U A are

(*i*) It should have a core town of a minimum population of 50,000;

(*ii*) The contiguous areas made up of other urban as well as rural administrative units should have mutual socio-economic links with the core town ; and

(*iii*) In all probability this entire area should get fully urbanised within a span of two or three decades

The constituent units of Ahmadnagar standard urban area are

Urban Components .

1 Ahmadnagar City (M)
2 Ahmadnagar Cantonment

Rural Components

1. Bhisabag	2. Nalegaon
3 Maliwada	4 Morchudnagar
5. Bhingar	6. Chahurana Bk
7. Burudgaon	8. Chahurana Kh.
9 Kedgaon.	

Table 3 below provides villages by population ranges and their percentage to total inhabited villages in the district.

TABLE 3

Distribution of Inhabited Villages by Population Ranges

Range of Population 1	No of villages in each range 2	Percentage of villages in each range 3
—200	26	1 73
200—499	196	13 04
500—1,999	950	63 21
2,000—4,999	274	18.23
5,000—9,999	42	2.79
10,000+	15	1 00
All ranges	1,503	100 00

An inhabited village on an average has a population of 1,568 persons which can be compared with state average of 10.37 persons. Of the 1,503 inhabited villages in the district, 26 (1 73%) have a population of below 200 ; 196 (13 04%) are in the size class 200 4-9, 950 (63 21%) in the size class 500–1,999, 274 (18 23%) in the category 2,000–4,999, 42 (2 79%) in the population range of 5,000–9,999 and the remaining 15(1 00%) villages have a population of 10,000 +. For a broader generalisation villages may be grouped as small sized (population below 500), medium sized (500–1,999), large sized (2,000–4,999), very large sized (5,000–9,999) and exceptionally large sized (10,000+). Within the district small sized villages share 14 77 per cent of the total inhabited villages and 3 25 per cent of rural population, medium sized 63 21 per cent of the villages and 42 27 per cent of rural population; large sized 18 23 per cent of villages and for 34.14 per cent of rural population; very large sized 2 79 per cent of villages having 11 87 per cent of population; and exceptionally large sized villages, 1 00 per cent of villages constituting 8.47 per cent of population in the district

Population, Growth, Density and Sex Ratio

Ahmadnagar district registered a growth rate of 19 36 per cent during the decade 1971–81 (Table 4). The previous decade added 439,192 persons to the 1971 population of the district. However, the growth rate in the district was lower than that of the Maharashtra State (24.54%). 1971–81 district growth rate is substantially low than that of 27.77 per cent recorded during the decade 1961–71. Within the district Nevasa tahsil recorded the highest (40 46%) growth rate (Table 4).

TABLE 4

Decadal Change in Distribution of Population

Name of tahsil	Population						Percentage decadal (1971–81) variation		
	1971			1981					
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban

13 Kopargaon	262,619	227,610	35,009	291,604	244,459	47.145	+11 04	+ 7 40	+34 67
District Total	2,269,117	2,017,617	251,500	2,708,309	2,356 941	351,368	+19 36	+16 82	+39 71

Other tahsils which recorded growth rate above the district average include; Sangamner (28 16%), Rahuri (28 08%), Shrigonda (23.77%), Nagar (20 54%) and Akola (19.42%). It is also observed that the urban growth rate (39 71%) in the district was more than double the rural (16 82%) growth rate.

During 1951–81, the urban growth rate recorded at the 1951 census was the highest both in the district (80 95%) and the state (62 42%) (Table 5).

TABLE 5

N. A —Not Available

The decade 1951–61 witnessed a decline (–2 81%) in district's urban population and in the state the growth rate came down to 21 32 per cent. During 1961–71 the urban growth rate in the district and the state rose to 34 27 per cent and 40 75 per cent respectively. The latest census of 1981 recorded an urban growth rate (during 1971–81) of 39 71 per cent in the district and 39 99 per cent for the state

Ahmadnagar district has an average density of 159 persons per km². This is much lower than the state average density of 204 persons per km². Within the district however, one can see wide variations Shrirampur (362) is the most thickly populated tahsil in the district On the contrary Parner tahsil has a density of barely 99 persons per km² of area Other tahsils in the district where density of population exceeds the district average include Kopargaon (279), Nagar (241), Rahuri (196), Nevasa (170) and Sangamner (167).

Table 6 shows distribution of villages according to density ranges

Not known	110	7 32
All density ranges	1,503	100.00

For convenient understanding of patterns, villages have been grouped under eight different density ranges Table reveals that out of 1,503 inhabited villages, 1,081 (71.92%) recorded a density of upto 200 persons per km². in 253 (16 83%) villages it varied between 201–500, and 59 (3 93%) villages recorded a very high density of above 500 persons over a km². of area For the remaining 110 (7.32%) villages density of population could not be worked out for want of their area figures The urban density (Table 5) in the district increased from 1,454 in 1961 to 2,235 in 1971 The 1981 census recorded an urban density of 1,984 persons per km² of area in the district. The decline in density is mainly duc to substantial increase in urban area due addition of Rahuri and Warwandi towns However, there has been consistent rise in the urban density in the state (It has increased from 1,694 in 1961 to 3,736 in 1981) Among the various towns/cities in the district, Ahmadnagar City recorded the highest density (7,244) (Statement I) On the contrary the density of population was the lowest (299) in Warwandi town

1981 Census recorded a sex ratio of 959 females per 1,000 males in the district This is higher than the state average sex ratio of 937 females per 1,000 males

TABLE 6 (i)

Sex Ratio 1901–1981

Year	District	State
1901	1,005	978
1911	983	966
1921	978	950
1931	971	947
1941	969	949
1951	971	941
1961	962	936
1971	956	930
1981	959	937

Above table reveals, sex ratio in Ahmadnagar district has always remained higher than the state since the beginning of present century The sex ratio in the district showed a consistent fall till 1971 (except for the year 1951 However, 1981 census witnessed slight improvement in the ratio between the two sexes in the district

Within the district, sex ratio differs strikingly Parner tahsil with a sex ratio of 1,042 ranks at the top and Nagar tahsil with a sex ratio of 894 is placed at the bottom Table 6 (ii), Akola (1,007) is the second tahsil in the district where females out number males.

TABLE 6 (ii)

Sex Ratio by tahsils, 1981

District/Tahsil	Females per 1,000 males
Ahmadnagar District	**959**
Nagar tahsil	894
Rahuri tahsil	952
Shrirampur tahsil	943
Nevasa tahsil ..	953
Shevgaon tahsil	984
Pathardi tahsil	994
Jamkhed tahsil	981
Karjat tahsil	953
Shrigonda tahsil	958
Parner tahsil	1,042
Akola tahsil	1,007
Sangamner tahsil	973
Kopargaon tahsil	945

1981 census figures reveals, urban sex ratio in the district (889) is higher than that of the state (850) Table 5 Trends over the past three decades (1951–81) reflect gradual fall (till 1971) in the urban sex ratio of the district During 1971–81, it has, however, increased from 866 to 889 In the state as such, urban sex ratio shows a consistent rise since 1961. (During 1951–61, the state experienced a marginal decline in the urban sex ratio) Thus, the recent trends indicate that male-female ratio in urban areas is increasing both in the district and the state

Scheduled Castes and Scheduled Tribes

For evolving any suitable plan for socio-economic uplift of the scheduled castes and scheduled tribes, the government need to have the necessary data about them and for this, census is the main source One of the highlights of 1981 census as that of 1971 and 1961 censuses, was the collection of detailed information on the socio-economic characteristics of scheduled caste and scheduled tribe population There is no standard definition of scheduled castes or scheduled tribes Scheduled castes include castes, races of tribes as are declared to be scheduled

castes by the President of India by public notification under article 341(1) of the Indian Constitution Similarly, scheduled tribes mean all such tribes of tribal community or part or group within such tribe or tribal community as are declared by the President of India, to be treated as scheduled tribes under article 342(1) of the Indian Constitution For Maharashtra State, 59 castes and 47 tribes have been declared to be recognised as scheduled castes and scheduled tribes respectively List of scheduled castes and scheduled tribes in the state is given below.

Scheduled Castes and Scheduled Tribes in Maharashtra State

I. LIST OF SCHEDULED CASTES

1 Agei
2 Anamuk
3 Aray Mala
4 Arwa Mala
5 Bahna, Bahana
6 Bakad, Bant
7 Balahi, Balai
8 Basoi, Burud, Bansor, Bansodi
9 Beda Jangam, Budga Jangam
10 Bedar
11 Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chamari, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigai, Mochigar, Madai, Madig, Mochi, Telegu Mochi, Kamati Mochi, Ramgar, Rohidas, Nona, Ramnami, Rohit, Samgai, Samagara, Satnami, Surjyabanshi, Surjyaramnami
12 Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli
13 Bindla
14 Byagara
15 Chalvadi, Channayya
16 Chenna Dasar, Holaya Dasar, Holeya Dasari
17 Dakkal, Dokkalwar
18 Dhor, Kakkayya, Kankayya, Dohor
19 Dom, Dumar
20 Ellamalvar, Yellammalawandlu
21 Ganda, Gandi.
22 Garoda, Garo.
23 Ghasi, Ghasia.
24 Halleer
25 Halsar, Haslar, Hulasvar, Halasvar
26 Holar, Valhar
27 Holaya, Holei, Holeya, Holiya
28 Kaikadi (in Akola Amravati, Bhandara, Buldhana, Nagpur, Wardha, and Yavatmal districts and Chandrapur district other than Rajura tahsil).
29 Katia, Pathania
30 Khangar, Kanera, Mirdha
31 Khatik, Chikwa, Chikvi
32. Kolupulvandlu
33 Kori
34 Lingader
35 Madgi
36 Madiga.
37 Mahar, Mehra, Taral, Dhegu Megu
38 Mahyavanshi, Dhed, Vankar, Maru-Vankar.
39 Mala
40 Mala Dasari
41 Mala Hannai
42 Mala Jangam
43 Mala Masti
44 Mala Sale, Netkani
45 Mala Sanyasi
46 Mang, Matang, Minimadig, Dankhni Mang, Mang Maharshi, Madari, Garudi, Radhe Mang.
47 Mang Garodi, Mang Garudi.
48 Manne
49 Mashti
50 Meghval, Menghvar.
51 Mitha Ayyalvar
52 Mukri
53 Nadia, Hadi
54 Pasi
55 Sansi
56 Shenva, Chenva, Sedma, Ravat.
57 Sindhollu, Chindollu
58 Tirgar, Tirbanda
59 Turi

II. LIST OF SCHEDULED TRIBES

1 Andh
2. Baiga
3 Barda
4 Bavacha, Bamcha
5 Bhaina
6 Bharia Bhumia, Bhuinhar, Bhumia, Pando
7. Bhattra
8 Bhil, Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave
9 Bhunjia
10 Binjhwar
11 Birhul, Birhor
12 Chodhara (excluding Akola, Amravati, Bhandara, Buldana, Chandrapur, Nagpur, Wardha, Yavatmal, Aurangabad, Bid, Nanded, Osmanabad and Parbhani districts)
13 Dhanka, Tadvi, Tetaria, Valvi
14 Dhanwar
15 Dhodia
16 Dubla, Talavia, Halpati
17 Gamit, Gamta, Gavit, Mavchi, Padvi
18 Gond, Rajgond, Arakh, Arrakh, Agaria, Asur, Badi Maria, Bada Maria, Bhatola, Bhimmi, Bhuta, Koilabhuta, Koila, bhuti Bhar, Bisonhorm Maria, Chota Maria, Dandami Maria, Dhuru, Dhurwa, Dhoba, Dhulia, Dorla, Gaiki, Gatta, Gatti, Gaita, Gond Gawari, Hill Maria, Kandra, Kalanga, Khatola Koitar, Koya, Khirwar, Khirwara, Kucha Maria, Kuchaki Maria, Madia, Maria, Mana, Mannewar, Moghya, Mogia, Monghya, Mudia, Muria, Nagarchi, Naikpod, Nagwanshi, Ojha, Raj, Sonjhari Jhareka, Thatia, Thotya, Wade Maria, Vade Maria
19 Halba, Halbi
20 Kamar
21 Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
22 Kawar, Kanwar, Kaur, Cherwa, Rathia, Tanwar, Chattri
23 Kahirwar
24 Kharia
25 Kokna, Kokni, Kukna
26 Kol
27 Kolam, Mannervarlu.
28 Koli Dhor, Tokre Koli, Kolcha, Kolgha
29 Koli Mahadev, Dongar Koli
30 Koli Malhar
31 Kondh, Khond, Kandh
32 Korku, Bopchi, Mousi, Nihal, Nahul, Bondhi, Bondeya
33 Koya, Bhine Koya, Rajkoya
34 Nagesia, Nagasia
35 Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
36. Oraon, Dhangad
37 Pardhan, Pathari, Saroti
38 Pardhi, Advichincher, Phans Pardhi, Phanse Pardhi, Langoli Pardhi, Behelia, Bahellia, Chita Pardhi, Shikari, Takankar, Takia
39. Parja
40 Patelia
41 Pomla
42. Rathawa.
43 Sawar, Sawara
44. Thakuz, Thakar, Ka Thakur, Ka Thakar, Ma Thakur, Ma Thakar.
45. Thoti (in Aurangabad Bid, Nanded, Osmanabad and Parbhani districts and Rajura tahsil of Chandrapur district)
46 Varli
47 Vitolia, Kotwalia, Barodia

At the time of 1981 Census, scheduled caste population in Ahmadnagar district was 287,707 including 146,811 males and 140,896 females. They constitute 10.62 per cent of total population of the district as against 9 32 per cent in 1971. Of the total scheduled caste population in the district, 253,821 (88.22%) live in the rural and the remaining 33,886 (11.78%) in the urban areas. 128 villages in the district have no scheduled caste population (Table 7).

TABLE 7

Proportion of Scheduled Caste Population to Total Population in the Villages

Percentage range of scheduled caste population to total population 1	No of villages in each range 2	Percentage of villages in each range 3
No S C Population	128	8 52
—5	427	28 41
6—10	342	22 75
11—15	318	21 16
16—20	180	11 98
21—30	101	6 72
31+	7	0 46
All ranges	1,503	100 00

Among the remaining 1,375 villages the share of scheduled caste population to total population is; upto 5 per cent in 427 villages, 6 to 10 per cent in 342 villages; 11 to 15 per cent in 318 villages, 16 to 20 per cent in 180 villages; 21 to 30 per cent in 101 villages and above 30 per cent in 7 villages in the district.

Table 7 (1) shows tahsilwise proportion of scheduled caste and scheduled tribe population to the total population in the district for 1971 and 1981

TABLE 7 (1)

Scheduled Caste and Scheduled Tribe Population 1971 and 1981

District/Tahsil	Percentage of scheduled caste population to total population		Percentage of scheduled tribe population to total population	
1	1971 2	1981 3	1971 4	1981 5
Ahmadnagar District	9 32	10 62	6 42	6 93
Nagar tahsil	10.49	11.63	1 02	1 68
Rahuri tahsil	9 87	12 56	7 52	8 40
Shrirampur tahsil	11 57	13 45	5 14	5 13
Nevasa tahsil	9 32	12 77	4 19	4 39
Shevgaon tahsil	13 03	14 20	0 87	1 29
Pathardi tahsil	9 45	10 50	0 96	1 20
Jamkhed tahsil	12 54	12 55	0 61	1 02
Karjat tahsil	14 94	14 15	0 57	0.93
Shrigonda tahsil	10 66	11 17	1 36	1.92
Parner tahsil	6 06	5 66	3 54	3 90
Akola tahsil	1 96	2 35	44 77	44 95
Sangamner tahsil	5 89	7 09	7 83	8 28
Kopargaon tahsil	8 07	10.67	6 57	7 32

As per 1981 census, the scheduled tribe population in Ahmadnagar district stands at 187,656 (94,404 males and 93,252 females) and they comprise 6 93 per cent (as against 6 42 per cent in 1971) Of the total scheduled tribe population in the district 97 01 per cent is rural by residence and the remaining 2 99 per cent live in the urban areas of the district

Out of 1,503 inhabited villages in the district, 296 villages have no scheduled tribe population (Table 8)

TABLE 8

Proportion of Scheduled Tribe Population to Total Population in the Villages

Percentage range of scheduled tribe population to total population 1	No of villages in each range 2	Percentage of villages in each range 3
No S T Population	296	19 69
—5	706	46 97
6—15	266	17 70
16—25	69	4 59
26—35	30	2 00
36—50	20	1 33
51+	116	7 72
All ranges	1,503	100 00

Among the remaining 1,207 villages the proportion of scheduled tribe population to total population is, upto 5 per cent in 706 villages, 6 to 15 per cent in 266 villages 16 to 25 per cent in 69 villages, 26 to 35 per cent in 30 villages, 36 to 50 per cent in 20 villages and above 50 per cent in 116 villages of the district

In urban areas the scheduled castes and scheduled tribes constitute 9.64 per cent and 1 60 per cent of their total population respectively (Table 9)

TABLE 9

Proportion of Scheduled Caste/Scheduled Tribe population in towns

Name and civic status of the town 1	Total population 2	Total scheduled caste population 3	Total scheduled tribe population 4	Percentage of scheduled caste population to total population 5	Percentage of scheduled tribe population to total population 6
Ahmadnagar City (M Cl)	143,937	12,135	1,320	8 43	0 92
Ahmadnagar Cantonment (C B)	37,273	5,430	652	14 57	1 75
Kopargaon (M Cl)	36,886	3,557	880	9 64	2 39
Rahuri (M Cl)	23,721	3,054	1,224	12 87	5 16
Sangamner (M Cl)	40,088	2,134	595	5 32	1 48
Shrirampur (M Cl)	55,491	5,979	497	10 77	0 90
Wari (C T)	10,259	745	241	7 26	2 35
Warwandi (C T)	3,713	852	201	22 95	5 41
All towns	351,368	33,886	5,610	9 64	1 60

Concentration of scheduled castes is more in the towns of Warwandi (22 95%) and Ahmadnagar Cantonment (14 57%), and that of scheduled tribes in the towns of Warwandi (5 41%) and Rahuri (5.16%).

Literacy

Any person who is able to both read and write with understanding in any language is recorded as a literate by the Indian Census. The latest 1981 census figures revealed that 43 16 per cent of the total population in the district is literate against the state, average literacy rate of 47 18 per cent. Among the various districts in the state, Ahmadnagar ranks 17th in terms of literacy rate

Within the district, the literacy rate is maximum (57.18%) in Nagar tahsil and the minimum (28 63%) in Akola tahsil (Table 12). Other tahsils which recorded literacy rate above the district average include, Shrirampur (48 58%), Kopargaon (46.99%) and Rahuri (45 21%). It is also observed that size of village and literacy rate are positively co-related (Table 10).

TABLE 10

Literacy Rates by Population Ranges of Villages

Range of population 1	No of villages in each range 2	Literacy rate 3
--200	26	27 48
200--499	196	30 64
500--1,999	950	35 89
2,000—4,999	274	40 80
5,000—9,999	42	47 02
10,000+	15	52 53
All ranges	1,503	40 12

The literacy rate of small sized villages (population below 200) is only about half the literacy rate of exceptionally large sized villages (population 10,000+). Among the towns, Ahmadnagar Cantonment (with a literacy rate of 70 37 per cent) enjoys the place of pride By contrast the literacy rate is lowest (51.18%) in Wari town (Table 11).

TABLE 11

Literacy Rates for Towns

Name of civic status of town 1	Literacy rate 2
Ahmadnagar City (M Cl)	68 12
Ahmadnagar Cantonment (C B)	70 37
Kopargaon (M Cl)	58 10
Rahuri (M Cl)	55 06
Sangamner (M Cl)	63 51
Shrirampur (M Cl)	57 35
Wari (C T)	51 18
Warvandi (C T)	53 38
All towns	63 55

During the span of 80 years (1901–81) the literacy rate in the district increased from 4 67 per cent (in 1901) to 43 16 per cent (in 1981) Table 11 (i).

TABLE 11 (i)

Progress of Literacy 1901–81

Year	Total	Males	Females
1901	4.67	8 93	0 43
1911	4 65	8.59	0 65
1921	6 40	11.21	1.49
1931	6 02	10 60	1.31
1941	13 87	22.48	5 01
1951	18.80	29 40	7.90
1961	26.45	39 36	13 03
1971	36.23	48 97	22 91
1981	43 16	56.51	29 24

The progress in literacy was slow till 1931 when hardly 6 02 per cent of the district population was literate. The post 1931 period experienced a comparatively faster growth. In 1951, nearly one in every five (18 80%) was literate. The ratio narrowed to one in four (26 45%) in 1961, one in three (36 23%) in 1971 and ten out of twenty-three (43 16%) in 1981. Thanks to the opening of new schools and adult literacy centres under five year plans in the post Independence period.

Literacy rates of the two sexes differ sharply. At the beginning of the present century there was a female literate after 21 male literates. This ratio narrowed down to nearly, one in eight in 1931, one in four in 1951, one in three in 1961, one in little more than two in 1971 and one in little less than two in 1981. Sexwise literacy has thus been narrowing although it continues to be wide in itself.

Like male-female differentials there exists disparity in the literacy rates of rural and urban areas As against 40 12 per cent of literates in rural areas as per 1981 census, there are 63 55 per cent literates in urban areas of the district. Between the two sexes, the differential is larger among females (25 91% rural and 52 61% urban) than that of the males (53 90% rural and 73 28% urban).

Working population

'Work' may be defined as participation in economically productive activity. The participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction.

There has been some conceptual change for defining the worker at the 1981 census. A trichotomy of main workers, marginal workers and non-workers has been adopted instead of the dichotomy of workers and non-workers in 1971 and 1961. However, while accepting this conceptual change the feasibility of making the data comparable with the previous censuses was duly considered. Conceptually, the main workers plus the marginal workers of 1981 are almost comparable with the 'workers plus non-workers with secondary work' of 1971 and 'workers' of 1961. Further, for 1981 census on the recommendation of Planning Commission and Central Statistical Organisation, only four industrial categories of main workers *i. e.* cultivators, agricultural labourers, workers engaged in household industries and other workers have been adopted against the nine industrial categories of workers in 1971 and 1961.

For main workers major part of the preceding year (at least 6 months or 183 days) was adopted while those who worked for sometime during the preceding year but not for the major part, have been treated as marginal workers. All those who had not worked at all during the last year were recorded as non-workers Persons engaged in household duties, students, dependents, retired persons, rentiers, beggars are some of the categories grouped as non-workers.

1981 census recorded 41 55 per cent of the district population as main workers, 4 13 per cent as marginal workers and the remaining 54 32 per cent as non-workers (Table 12).

TABLE

The corresponding figures for the state as such are 38 71 per cent, 3 85 per cent and 57 44 per cent. Thus, more than two-fifth of the population of the district is engaged in economically productive activity Compared to 1971, there has been substantial rise in the work participation rate in the district (35 43% in 1971 and 41 55% in 1981) In the state the work participation increased from 36 48 per cent in 1971 to 38 71 per cent in 1981 Within the district participation rate for main workers was the highest (47 89%) in Akola tahsil and the lowest (37.43%) in Shrirampur tahsil Male and female participation rates in the district are 52 19 per cent and 30 45 per cent respectively. During the previous decade the male participation rate for main workers in the district increased from 50 87 per cent in 1971 to 52 19 per cent in 1981 and the female participation increased substantially from 19 26 per cent in 1971 to 30 45 per cent in 1981

1981 figures reflect that the work participation rate for main workers is more in the rural (43 12%) than in the urban (31 05%) areas Between the two sexes the differential is larger among the females (33 22% rural, 11 05% urban) than the males (52 72% rural, 48.83% urban)

1981 census results revealed that among the main workers in the district, 47 43 per cent are cultivators, 28 33 per cent agricultural labourers, 2 02 per cent engaged in household industry and 22 22 per cent are engaged in other services. The corresponding figures for the state are, 35.12 per cent, 26 63 per cent, 2 55 per cent and 35 70 per cent Evidently, three-fourth of the workers in Ahmadnagar district are directly engaged in agriculture as cultivators or agricultural labourers

4 13 per cent of the total population in the district was recorded as marginal workers (1 14% among males and 7 24% among females) The high incidence of marginal workers among females as compared to males is understandable as the former besides looking after their household duties tend to engage themselves in some economically productive activity to lend support to their male counter parts

Availability of Amenities–Education

Educational amenity is available in 98 80 per cent of the inhabited villages in the district and these villages contain 99 59 per cent of the district's rural population (Table 13 and 14).

TABLE 13

VI Warwandi (C T)			2 69	2 69
All towns	1 02	1 31	1 34	3 10

On an average, the population to institution ratio in urban areas of the district is 10,000 : 1 02 Higher Secondary/Int /PUC/Junior Colleges; 10,000 . 1 31 Secondary/Matriculation Schools, 10,000 1 34 Junior Secondary/Middle Schools and 10,000 3 10 Primary Schools In other words, among urbanites there is a Higher Secondary/ Int /PUC/Junior College after every 9,760 persons; Secondary/Matriculation School after every 7,638 persons, Middle School for every 7,476 persons and a Primary School against every 3,224 persons in the district Barring Warwandi town which does not have any school above Junior Secondary/middle standard, all other towns in the district have schools under all the four categories of educational institutions.

Medical

Medical institutions of any type (specified in the village directory) exist in one out of every four (25 42%) of the inhabited villages in the district (Table 13) and these villages among themselves contain 47 55 per cent of the rural population of the district. Thus, only about half of the districts rural population enjoys this facility within their respective villages.

Within the district, the position is best in Nagar tahsil, where 83 04 per cent of the villages are equipped with some kind of medical facility (Table 13) and these villages accommodate 89 17 per cent of the rural population (Table 14). On the contrary, in Jamkhed tahsil, just one out of ten villages (10 34%) enjoy this amenity within the respective villages

According to population size class, 13 villages with population below 500, 163 villages in size group 500-1,999, 156 villages in the population range of 2,000-4,999 and 50 villages with population of 5,000+ have the availability of medical amenity within the respective villages (Table 15) 1,121 villages in the district do not have availability of medical facility within their respective villages. However, this facility is available to them at a distance of upto 5 kms. in respect of 460 villages, at a distance of 5-10 kms. for 423 villages and beyond 10 kms. in case of the remaining 238 villages.

Table 19 gives the number of beds per 1,000 of population in the towns.

TABLE 19

No. of Beds in Medical Institutions in Towns

Class, name and civic status of the town	No of beds in medical institutions per 1,000 population
1	2
I Ahmadnagar City (M Cl)	7 56
III Ahmadnagar Cantonment (C B)	0 80

III Rahuri (M Cl)	0 59
III Sangamner (M Cl)	1 62
II Shrirampur (M Cl)	4 33
IV Wani (C T)	1 17
VI Warwandi (C T)	
All towns	4 41

On an average there are 4.41 beds per thousand persons in the urban areas of the district Ahmadnagar (being the district headquarters) with 7.56 beds per every 1,000 persons enjoys the place of pride in the district. It is followed by Shrirampur (2nd important town in the district) which has 4 33 beds for every 1,000 persons. Rahuri (with only 0 59 beds per 1,000 of population) On the contrary it is placed at the bottom

Drinking Water

This amenity is available in all the villages of the district.

Post and Telegraph

45 44 per cent of the inhabited villages in the district have some kind of post and telegraph amenity (Table 13) and these villages have 69 92 per cent of the rural population of the district. Within the district, Shrirampur tahsil having some kind of post and telegraph amenity in nearly three-fourth (72 37%) of its villages ranks at the top These villages in themselves comprise 86 39 per cent of the tahsils rural population. Akola tahsil with only about one-fourth (23 53%) of its villages having some kind of post and telegraph amenity is at the bottom (These villages constitute 46 66 per cent of the rural population of Akola tahsil). According to size class (Table 15) 34 villages with population below 500, 350 villages in size class 500-1,999; 243 villages in the population range of 2,000-4,999 and 56 villages with population 5,000+, have the availability of some kind of post and telegraph amenity within their respective villages.

820 villages in the district do not have any kind of post and telegraph amenity within their respective villages. However, this amenity is available at a distance of upto 5 kms in respect of 531 villages; at a distance of 5-10 kms in case of 210 villages and at a distance of more than 10 kms. for the remaining 79 villages.

Market/Hat

Market/Hat is being held in 238 (15 83%) of the inhabited villages (Table 13) and these villages account for 37 21 per cent of the district's rural population. Among the various tahsils in the district, the position is best in Shrirampur where 26.32 per cent of the villages (Table 13). Comprising 48 86 per cent of its rural population (Table 14) have the facility of market/hat within the village itself.

According to size class, of the 238 villages equipped with this amenity, 8 are in population group of below 500; 66 in the size class 500-1,999, 117 in the range of 2,000-4,999 and the remaining 47 in the population range of 5,000+ (Table 15).

Communications

1,015 (67 53%) of the inhabited villages in the district have the availability of bus stop/railway station/water way within the village (Table 13) and they comprise 80 44 per cent of the rural population in the district (Table 14). According to size class 103 villages with population below 500, 608 villages in size class 500-1,999, 247

villages in the population range of 2,000-4,999 and 57 villages having population of 5,000 and above are equipped with this kind of facility (Table 15) 488 villages in the district do not have this amenity. However, the same is available to them at a distance of within 5 kms. for 285 villages, at a distance of 5-10 kms in respect of 138 villages and at a distance of more than 10 kms. for the remaining 65 villages (Table 16).

Approach by Pacca Road

About one-half (49 10%) villages in the district are approachable by pucca road (Table 13). These villages accommodate about two-third (65.12%) of the rural population in the district (Table 14). The situation is rather poor in Rahuri and Parner tahsils where not even one-fifth of their respective villages are linked with pucca roads. According to size class of population, 77 villages with population below 500, 410 villages in population size class 500-1,999, 195 villages in the size class 2,000-4,999 and 56 villages with population of 5,000+ are linked by pucca road (Table 15).

Power Supply

The rural electrification programme was assigned importance from the third five year plan and this has resulted in accelerating the supply of power in the rural areas. 1,185 (78 84%) villages in the district now get the power supply (Table 13) and these villages constitute 87.10 per cent of the rural population of the district (Table 14). It is also observed that cent per cent of villages in Shrirampur tahsil have power supply According to size class of population, 130 villages with population below 500; 732 villages in the size class 500-1,999 ; 266 villages in the range of 2,000-4,999 and 57 villages with population of 5,000+ get power supply (Table 15).

Villages which do not have any amenity (except for the drinking water) are four in number, one each in Nevasa, Shrigonda, Parner and Sangamner tahsil (Appendix III) and they account for a meagre total population of 1,281. Of the four villages two have population of below 200 and one each in the size class 200-499 and 500-999.

To sum up, non-availability of any kind of amenity in four villages , no educational amenity in 18 (1.20%) villages ; 1,121 (74 58%) not having medical facility within the villages; 820 (54 56%) villages having no post and telegraph facility ; no market/hat being held in 1,265 (84 17%) villages, 488 (32 47%) without the facility of bus stop/ railway station/waterway ; 765 (50 90%) villages not approachable by pucca road and 318 (21 16%) villages not having power supply places Ahmadnagar district above many other districts in the state though, in itself much remains to be achieved. A positive Co-relation is observed between the population size of the village and the amenity provided.

Land Utilisation

Columns 15 to 19 of the village directory give land use pattern of each village in the district Classification of land use adopted here corresponds to the classification recommended by the Ministry of Food and Agriculture.

Forest

Nearly one-tenth of the total area in the district is under forest Thus, in comparison to the state as such, Ahmadnagar district is less forested The forest in the district is of the type "Southern Tropical Dry Deciduous". They are scattered in sheltered pockets of spurs and valleys situated mainly in Akola, Sangamner, Ahmadnagar, Shrigonda, Parner, Rahuri and Karjat tahsils. The species found in the forests are teak, neem, babul, sisoo, sandalwood etc. Other species such as khair, hiwar, herkal, apta, ber etc. are also found in the forests. However, the district gets revenue mainly from the minor forest products such as bamboo, grass, grazing, tendu leaves and gum. These produces are supplemented by 'agave' apta" leaves, 'wawding' 'sitaphal' etc.

Irrigated, Un-irrigated and Culturable Waste Areas

Data pertaining to irrigated area (by source), un-irrigated area and culturable waste is given under columns 16, 17 and 18 respectively of the village Directory. Nearly four-fifth (79 32%) of the total area in the district is cultivable (Table 20)

TABLE 20

Distribution of villages according to the Land Use (in hectares)

Serial No	Name of tahsil	No of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to the total cultivable area
1	2	3	4	5	6
1	Nagar	112	140,338 61	77 16	8 64
2	Rahuri	94	95,108 00	72.86	35 25
3	Shrirampur	76	81,165.93	96 24	47 11
4	Nevasa	128	115,582 26	90 11	21 46
5	Shevgaon	111	103,128 75	87 60	9 10
6	Pathardi	122	116,543.00	85 45	8 39
7	Jamkhed	87	106,871.16	90 07	6 63
8	Karjat	108	157,649 46	75 67	8 46
9	Shrigonda	104	160,444 97	79 19	15 33
10	Parner	131	199,909 00	75 58	3 85
11	Akola	170	151,573.50	60.30	3 56
12	Sangamner	155	163,083 41	66 89	14 91
13	Kopargaon	105	108,897 00	96 18	49 92
	Total of all tahsils	1,503	1,700,295 05	79 32	16 54

Among the various tahsils in the district, Shrirampur having 96 24 per cent of its area as cultivable ranks first. It is very closely followed by Kopargaon (96 18%). The other tahsils with proportion of cultivable area to total area above the district average include ; Nevasa (90.11%), Jamkhed (90 07%), Shevgaon (87 60%), and Pathardi (85 45%). By contrast Akola tahsil with 60 30 per cent of its total area as cultivable occupies the last place.

About one-sixth (16.54%) of the cultivable area in the district is irrigated. Kopargapon and Shrirampur are the two tahsils where nearly half (49 92% and 47.11% respectively) of the total cultivable area is under irrigation These two tahsils have been followed by Rahuri (35.25%) and Nevasa (21 46%) tahsils. On the other hand in seven out of 13 tahsils in the district, not even one-tenth of the cultivable area is irrigated. These tahsils include Shevgaon (9 10%), Nagar (8 64%), Karjat (8 46%), Pathardi (8 39%), Jamkhed (6 63%), Parner (3 85%) and Akola (3.56%).

Staple Food

Amongst the cereal crops in the district wheat and jowar are important. Next in order of importance is 'bajra'. The main staple food of majority of population in the district is wheat and jowar To some extent, 'bajra' is also consumed in Pathardi, Parner and Sangamner tahsils. Only in Akola tahsil the main staple food of the majority of population is rice and nachani (Table 21).

TABLE 21

Main Staple Food in the Majority of Villages in each tahsil

Serial No	Name of tahsil	Main staple food
1	2	3
1	Nagar	Wheat, Jowar
2	Rahuri	Wheat, Jowar
3	Shrirampur	Wheat, Jowar
4	Nevasa	Wheat, Jowar
5	Shevgaon	Wheat, Jowar
6	Pathardi	Jowar, Bajra
7	Jamkhed	Wheat, Jowar
8	Karjat	Wheat, Jowar
9	Shrigonda	Wheat, Jowar
10	Parner	Jowar, Bajra
11	Akola	Rice, Nachani
12	Sangamner	Jowar, Bajra
13	Kopargaon	Wheat, Jowar

Municipal Finance

Table 22 gives per capita receipts and expenditure (in rupees) for every town in the district.

TABLE 22

Per capita receipt and expenditure in towns

Class, name and civic status of the town	Per capita								
	Receipt (in Rs)			Expenditure (in Rs)

IV Wari (C T)	2 52	1 76	0 76	2 63	0 90	0 31	1 22		0 20
VI Warwandi (C T)	Information not available								
Total	178 78	71.38	107 40	164 41	14 72	60 72	19 70	16 91	52 36

Note—Total excludes Warwandi Town

On an average the per capita receipt is Rs 178 78, out of which Rs 71 38 is received through local taxes and the remaining Rs 107 40 from all other sources . The total expenditure incurred per head is Rs. 164 41 of which is Rs 14.72 is on general administration, Rs 60 72 on public health and conveniences, Rs 19 70 on public works, Rs 16 91 on public institution and Rs 52 36 on all other aspects.

Minerals

So far no minerals of economic importance are available in the district. The hard and compact basalt however, are used extensively as building material and road metal. The pinkish coloured vesicular variety is amenable to cutting into blocks of desired sizes The Calcareous "kankar" is burnt in lime kalns

Fisheries

Ahmadnagar district is not rich in fisheries This activity is restricted to inland water fishing in rivers, tanks and ponds The important varieties of fishes found in the district are Kolshi, Panghat, Dandwat, Alkut, Rohu, Mirgal, Shivada, Muri, Maral and Wambat. The commercially important varieties of fishes found in the district include , Kirkit, Palkhavlya, Kolshi, Zinga, Bonikalunder, and Muri. Since all these varieties are not fast growing, Bengal carps are stocked annually in big water tanks for propogating the pisciculture

Industries

District being traditionally a famine stricken due to vagaries of the rains, agriculture resources were not enough for the necessary encouragement for industrialisation. The district is also not rich with minerals or forest resources However, policy of decentralisation of industries adopted by the State Government and improved water resources in the district has helped to initiate the industrial growth on substantial scale An area of 275 hectares near Ahmadnagar town is developed by Maharashtra Industrial Development Corporation Out of the 120 factories planned, 104 are providing jobs to about 3,000 workers. Prominent entrepreneurs in Maharashtra have started their factories in this area

Industries in the past were in the nature of crafts and village industries which were mainly of local consequence Many of those crafts and village industries have survived the vagaries of time, while others have declined due to competition of manufacturing industries Weaving industry has survived due to Government patronage Others which have survived are utensil-making, pottery, brick making, carpentry, tanning, oil pressing, etc. During the course of this century many mechanised factories were established These included sugar, gur, ginning presses, spinning and weaving mills, oil mills, distilleries and engineering works. Particular mention must be made of sugar industry. Ahmadnagar district is on the fore front of sugar production. Production of the sugar in the year 1981–82 was highest amongst the districts in the state Sugar industry has been instrumental in bringing about industrial as well as general economic prosperity to the areas around Shrirampur, Kopargaon, Rahuri, Sangamner and Ahmadnagar Southern region is still industrially backward.

Trade and Commerce

Ahmadnagar district has a long tradition of trade since third century A D The central location of the district and rail and road links to distant places provide excellent conditions for its being developed into an important trade centre

The chief articles of export of the district are handloom sarees, gur, sugar, bidi and oil engines (Table 23).

TABLE 23

Most important commodities manufactured, imported and exported in towns

Class, name and civic status of the town	Most important commodities		
	Manufactured	Exported	Imported
1	2	3	4
I Ahmadnagar City (M Cl)	Handloom sarees	Handloom sarees	Cloth
III Ahmadnagar Cantonment (C B)	Handloom sarees		
III Kopargaon (M Cl)	Gur	Gur	Sweet oil
III Rahuri (M Cl)	Sugar	Sugar	Raw cotton
III Sangamner (M Cl)	Bidi	Bidi	Foodgrains
II Shrirampur (M Cl)	Oil engines	Oil engines	Cloth
IV Wari (C T)	Sugar	Sugar	Medicines
VI Warwandi (C T)	Information not available		

The district tops in the sugar production and is exported all over India Some other articles of export are Luna moped, molasses, liquors, ayurvedic medicines, hide and food-grains such as bajra, jowar even though these are not surplus in the district. Cloth of different types, sweet oil, raw cotton, food-grains and medicines are the most important items of import in the district Some other articles of import are hardware, groceries, vehicles, stationeries, electrical goods, medicines etc Important trade centres particularly for food grains are located at Ahmadnagar, Kopargaon, Shrirampur, Sangamner, Pathardi, Jamkhed and Nevasa

Slum Population

Table 24 below gives proportion of slum population in towns (class I and II only).

TABLE 24

Proportion of Slums Population in towns

Class, name and civic status of the towns		Proportion of the slums population to total population of the town	Density in slums (Per km²)
1		2	3
I Ahmadnagar City (M Cl.)	..	11 53	83,000
II Shrirampur (M Cl)	..	(There are no notified slums within the municipal limits, hence the information shows nil)	
	Total	11 53	83,000

*Note —While calculating density population omitted, where area is not available

In Ahmadnagar town area there are 16 notified slums which account for 11 53 per cent of the total population and the density of population in slum areas of Ahmadnagar works out to 83,000 persons per km². There are no notified slums in the Shrirampur town

Places of Tourist's Importance

Ahmadnagar district is known as "Santanchi Bhoomi" (place of saints) from an ancient period The holy shrine of Sai Baba at Shirdi in Kopargaon tahsil is very famous and draws devotees from not only from Maharashtra but also from far off places in India In the same tahsil Sakuri is famous for Shrine of Upasani Baba (Guru of Sai Baba) and Puntamba for fair of Saint Changdeo on the bank of Godavari river Other places of big religious importance are, Donargan for Rameshwar temple, Arangaon for shrine of Mehar Baba and Kedgaon for "Kedgaon Devi" in Nagar tahsil, Jogeshvari Akhada for Jogai temple and Samadhi of Sakharam Maharaj in Rahuri tahsil, Kolhar Bk for Bhogwati Devi and Keshav Maharaj at Belapur in Shrirampur tahsil, Nevasa for Dnyaneshwar and Mohiniraj temples, Pravara Sangam and Shingnapur for "Shani God" in Nevasa tahsil, Bodhgaon for Bannumma saint in Shevgaon tahsil, Madhi for Kanifnath fair in Pathardi tahsil; Rashin for Jagdamba Devi in Karjat tahsil, Siddhatek for Ganesh temple (one of the Ashta Vinayaks) and Shrigonda for fair of Mahamed Maharaj in Shrigonda tahsil, Pimpalner for Niloba Warkari saint and Walwane for Bhairavnath temple in Parner tahsil, Agar for Agasti Rishi Temple and Kotul for Kotuleshwar fair in Akola tahsil

Ahmadnagar, Khaida and Pedgaon are places of historical importance. Forts of Ahmadnagar, Harishchandragad and Khaida are old historical monuments Excavations carried out by Archaeological Survey of India at Daymabad in Shrirampur tahsil indicate evidence of Harrappan culture which is 3,500 year old. Bhandara dam in Akola tahsil is another important tourist attraction in the district.

PART A—VILLAGE AND TOWN DIRECTORY

SECTION I

VILLAGE DIRECTORY

SECTION I — VILLAGE DIRECTORY

Note Explaining the Abbreviations used in the Village Directory

The 'Village Directory' gives the list of villages, their area, population, amenities such as educational, medical, communications, drinking water facilities etc available to them and also the land use of each village For this purpose, villages have been arranged tahsilwise in order of their location code number. The inclusion of alphabetical list of villages and the map of every tahsil depicting location of villages by population size, urban-spread and important infrastructural facilities available therein will further help the readers in identifying any village in the tahsil.

'Village' is a statutory recognised unit having a definite boundary and separate land records. In case, a village is treated as an outgrowth of urban agglomeration, data on amenities and land use for that village have not been given in the Village Directory but shown alongwith the urban component. For those villages which have partly merged in an outgrowth, data pertaining to remaining part of the village is shown in the Village Directory and for the part merged or treated as an outgrowth, the details have been given under the concerned urban agglomeration If a village, has fully merged in the town, the same has been specified as such in the Village Directory. However, all such villages do appear in the Village Primary Census Abstract for any cross reference Similarly, villages treated as Census Towns (urban) for the first time in 1981 Census are shown both in the Village Directory and Village Primary Census Abstract for making any cross reference and no data relating to the amenities available have been indicated in the Village Directory However, land use data for all such villages can be seen in the Appendix-II of the Village Directory

If a village has fully merged into another village, the location code number and name of the merged village are given both in the Village Primary Census Abstract and the Village Directory at the appropriate place Data in respect of these two villages put together appear against the village with which the other village has merged.

The "un-inhabitated" villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 *i.e.* the location code number, name and area of the village. In addition to all the above details, following four appendices to Village Directory have also been included :—

Appendix (*i*) Tahsilwise abstract of educational, medical and other amenities ;

Appendix (*ii*) Land utilisation data for census towns ,

Appendix (*iii*) Tahsilwise list of villages with no amenities available ; and

Appendix (*iv*) Tahsilwise list of villages according to proportion of Scheduled Castes/Scheduled Tribes population.

The first two appendices were also prepared for 1971 District Census Handbook Appendices (*iii*) and (iv), added in 1981, are expected to help the planners for planning inputs in areas/villages where basic infrastructure is lacking and also for evolving suitable plans for the welfare of Scheduled Castes and Scheduled Tribes.

The Village Directory form has 20 columns and the details given under each column are as under :–

Column 1 gives the location code number of each village as the same is essential for identification of the village.

Column 2 indicates name of the village For filling up of this column, 1971 District Census Handbook has been used as the basis

Column 3 shows area figures (in hectares) as supplied by the State Revenue Department. For towns however, the area figures are in km.^{2}

Column 4 which gives population and the number of households in each village has been introduced for 1981 census to examine the correlation between the amenities available to the population and the number of households . Figures given within brackets against total population in this column refer to the number of households in the village.

Data on amenities such as educational, medical, communications, availability of drinking water, days of market/hat etc. are shown under columns 5 to 11 of the Village Directory. Additional feature for 1981 District Census Handbook is that in case if amenity is not available within the referent village, a dash (—) is shown in the column and next to it, in brackets the distance from the village in broad ranges *viz*, upto 5 km , 5–10 km and 10+ km. to the nearest place where the facility is available has been given This will help not only for local area planning but in regulating the provision of goods and services as well, so as to minimise the regional imbalances in the process of development.

Column 5 exhibits the availability of educational facilities *viz* primary or elementary school, junior secondary or middle school, matriculation or secondary school, higher secondary/intermediate/ pre-university/junior college, college, industrial school, training school, adult literacy school/centre and other educational institutions (Sanskrit Pathshala, senior basic school, mahktab etc).

If in a village, secondary school has middle and primary classes also the same has been counted as three schools *i. e.* secondary, middle and primary school. In case, there are more than one institutions of any type in a village their number is indicated within brackets against the prescribed abbreviation. Following abbreviations have been used for presenting data on educational amenities .

Primary or Secondary School	P
Junior Secondary or Middle School	M
Matriculation or Secondary School	H
Higher Secondary/Intermediate/Pre-University/Junior College (PUC)	PUC
College, any college (graduate level and above) like Arts, Science, Commerce etc.	C
Industrial School	I
Training School	Tr.
Adult Literacy Class/Centre	AC
Other Educational Institutions	O

Column 6 provides data on medical facilities available in the village. If in a village no medical facility is available 'dash' (—) has been placed and within the brackets the distance in broad ranges (upto 5 kms., 5–10 kms. and above 10 kms. of the nearest place where the most modest medical amenity such as dispensary/community health worker is available) has been indicated. Various types of medical institutions included and codes used for them are as follows :—

Hospital	H
Maternity and Child Welfare Centre	MCW
Maternity Home	MH
Child Welfare Centre	CWC
Health Centre	HC
Primary Health Centre	PHC
Primary Helath Sub-Centre	PHS
Dispensary	D
Family Planning Centre	FPC
T. B. Clinic	TB
Nursing Home	NH
Registered Private Practitioner	RP
Subsidised Medical Practitioner	SMP
Community Health Worker	CHW
Others	O

Column 7 gives information regarding availability of drinking water within the village. In case more than one source is available for drinking water, the same has been mentioned. Following abbreviations have been used for indicating the source of drinking water in the village :—

Tap water	T
Well water	W
Tank water	Tk
Tube-Well water	TW
Hand pump	Hp
River water	R
Fountain	F
Canal	C
Lake	L
Spring	S
Nallah	N
Others	O
Information Not Available	NA

Column 8 shows postal facilities such as post office, telegraph office, post and telegraph office and telephone connections available in the village. Various abbreviations adopted for indicating this information are :—

Post Office	PO
Telegraph Office	TO
Post and Telegraph Office	PTO
Telephone Connection	Phone

Column 9 gives information on day or days of the market/hat held in the village. This information is based on local enquiry and generally relate to weekly or bi-weekly market. If in any case, the market is held monthly or fortnightly it has been recorded accordingly in this column. In case weekly or bi-weekly or monthly market/hat is not being held, the column has been left blank.

Column 10 represents information as to whether the village is served by any mode of public transport like bus, rail and water-way and the same has been indicated as follows :—

Bus Stop	BS
Railway Station	RS
Navigable Water-way (including river, canal and back-water etc.).	NW

Column 11 refers to the state of roads etc. in the village. This will help us in determining as to whether the village is approachable both in fair and foul weather. Following abbreviations have been used for stating this information

Pucca Road	PR
Kaccha Road	KR
Navigable River	NR
Navigable Canal	NC
Navigable Waterway (Other than river or canal)	NW
Foot Path	FP

Column 12 gives the distance in Kilometres within bracket from the nearest town. In case, the nearest town is located in another state the name of the state has also been indicated.

Column 13 relates to the availability of power supply to the village. The various sources of power supply have been indicated through the following codes :—

Electricity for Domestic purpose	ED
Electricity for Agriculture	EAg
Electricity for Other purpose like Industrial, Commercial etc.	EO
Electricity for All purposes listed above	EA

In case the power supply is released only for specific purpose, say agriculture or other, it has been stated accordingly.

Column 14 gives staple food (only in terms of grains) of the majority people of the village during the major part of the year This may be rice, wheat, jowar, maize, ragi, etc or a combination of grains where it is difficult to determine a particular grain

Columns 15 to 19 give the details about land utilization The land use pattern given in the Village Directory conforms to the classification recommended by the Ministry of Food and Agriculture, Government of India, which maintains the land records under the following five categories —

(1) Forests

(2) Not available for cultivation—
  (a) lands put to non-agricultural uses.
  (b) barren and unculturable land.

(3) Other uncultivated lands excluding fallow land.
  (a) permanent pastures and other grazing lands
  (b) lands under miscellaneous tree crops and grooves not included in the net area sown.
  (c) culturable wastes.

(4) Fallow lands—
  (a) fallow lands other than current fallows.
  (b) current fallows.

(5) Net area sown.

Column 15 shows all the lands classed as forest under any legal enactment dealing with forest or administered as forests, whether state owned or private. In case, any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or un-cultivated land.

Columns 16 and 17 cover all agricultural lands including the net area sown with crops and orchard and also the current and other fallow lands Net area sown represents the area sown under various crops and orchards. Areas sown more than once in the same year have been counted only once. Column 16 indicates extent of irrigated lands under various types of irrigation *e g.* canal, tank, wells, tubewells etc and codes adopted for indicating various sources of irrigation are as under :—

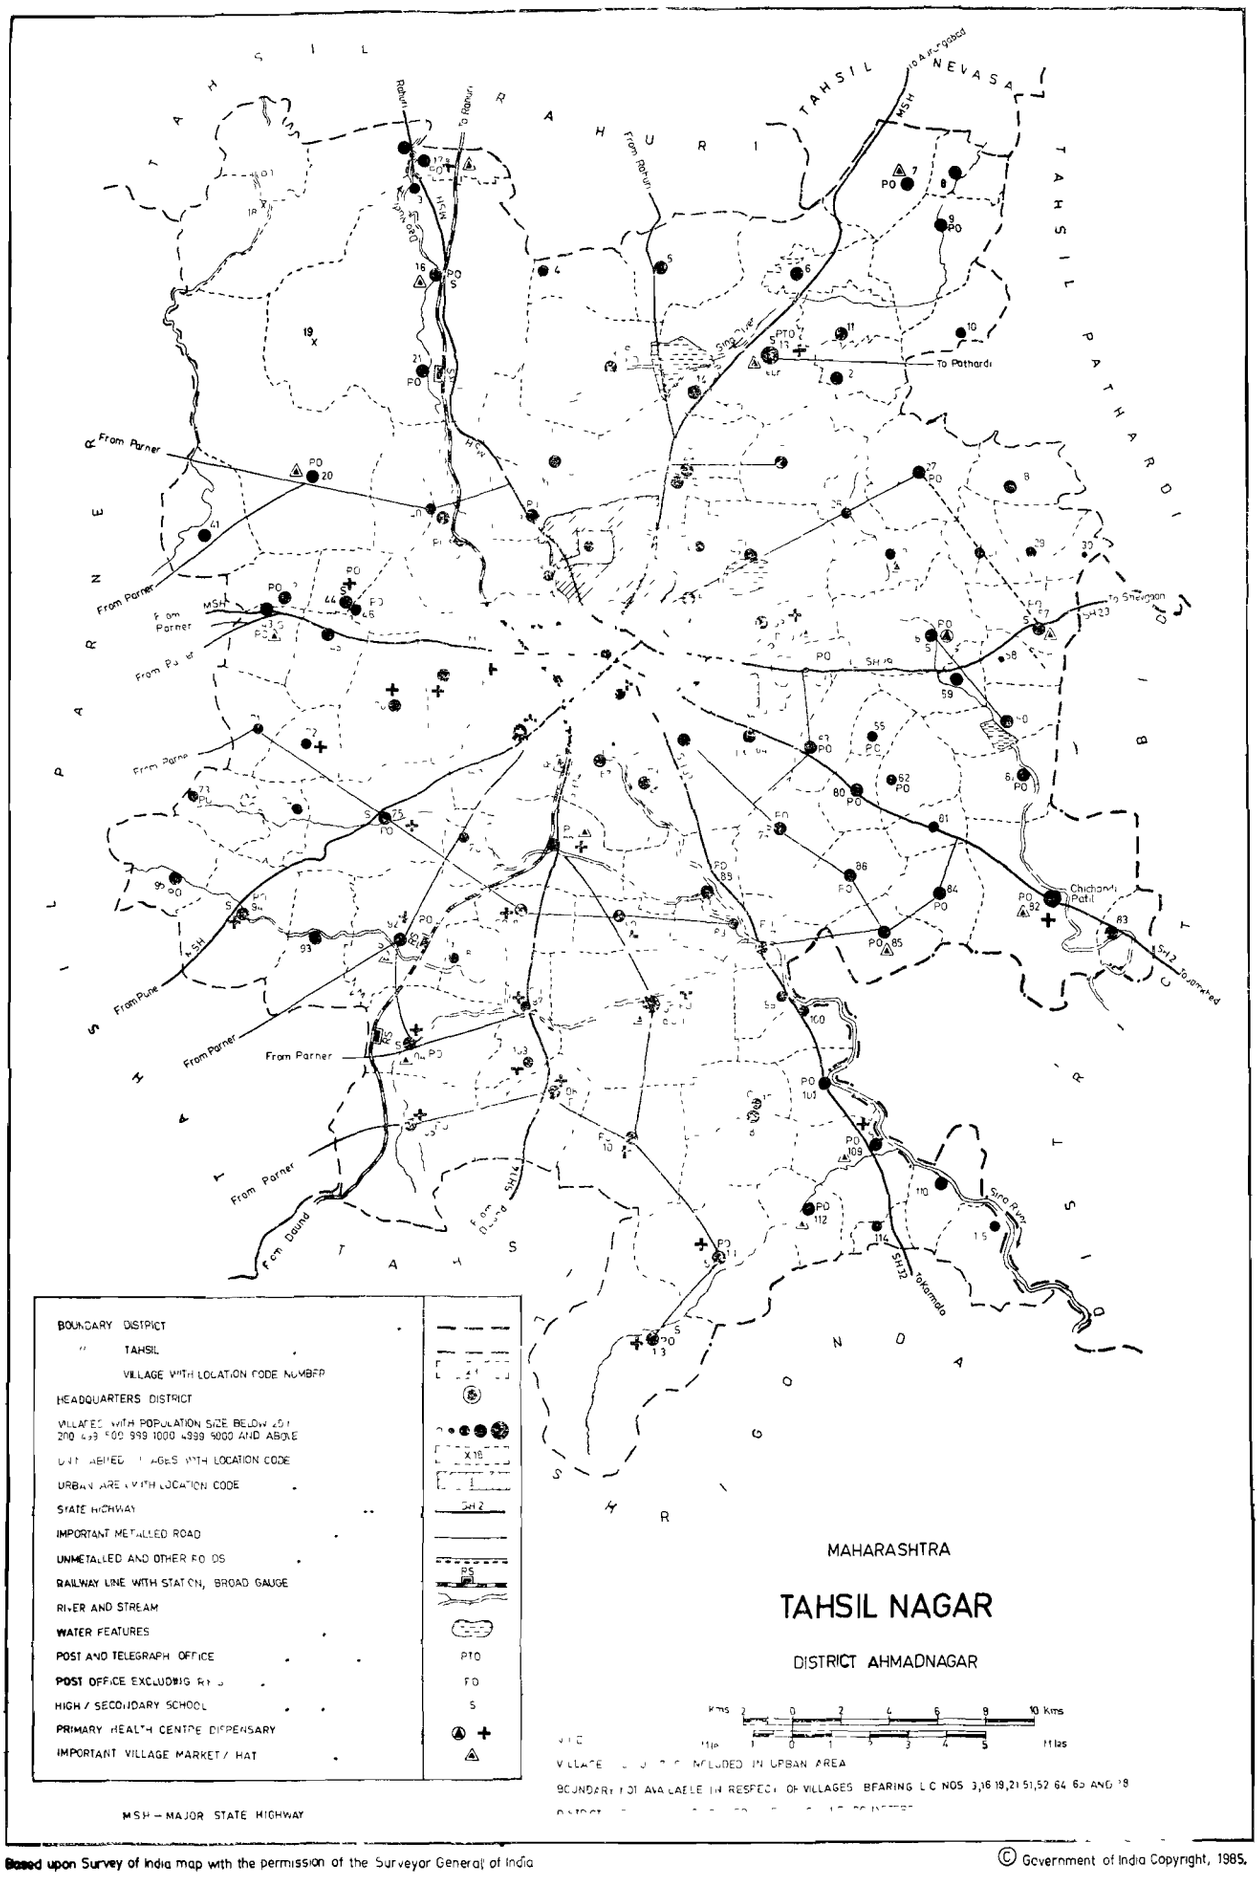

Government Canal	GC
Private Canal	PC
Well (without Electricity) .	W
Well (with Electricity) ..	WE
Tube Well (without Electricity) .	TW
Tube Well (with Electricity)	TWE
Tank .	Tk
River	R
Lake .	L
Water Fall	WF
Others ..	O
Total . . .	T

Column 18 gives information on culturable wastes lands and includes land available for cultivation whether or not taken up for cultivation once Area taken up for cultivation once but not cultivated during the preceding five years or more in succession is also covered under this column. Such lands may either be fallow or covered with shrubs and jungles which are not put to any use. These lands may be assessed or unassessed and found in isolated blocks or within the cultivating holdings. Lands under thatching grasses, bamboo, bushes and other groves for fuels etc, which are not included under orchards or forests, are included in this category. All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest areas, are also included in this column.

Column 19 shows land not available for cultivation such as barren, unculturable land and land put to non-agricultural uses. All lands covered under buildings, roads, railways, rivers, canals etc. form part of the land under non-agricultural uses Barren and unculturable lands include mountains rocks deserts etc. which cannot be brought under cultivation, except at a very high cost.

Column 20 has been filled up on the basis of local enquiry Besides, recording the particulars of places of importance, it gives information on number of newspapers coming in the village, motor cycles/scooters, cars/jeeps and tractors available in the villages. Appropriate codes listed below have been used for presenting this information and number of items available is mentioned against the code used :—

N	Copies of Newspapers coming in the village.
M .	Motor cycles/scooters available in the Village.
C	Cars/jeeps available in the village.
T .	Tractors available in the village
PS ..	Police Station.

Based upon Survey of India map with the permission of the Surveyor General of India

SECTION II

TOWN DIRECTORY

SECTION II—TOWN DIRECTORY

Note explaining the Abbreviations used in Town Directory

The 'Town Directory' gives for each town the area, population in 1981 and past censuses, growth rates, density, sex ratio, physical aspects of towns, communications, municipal finances, civic, medical, educational and other amenities, and trade commerce, industry, and banking facilities It covers all the towns in the district statutorily notified as well as non-municipal towns Seven statements (I to VI and IV-A) have been included for presentation of this data All the towns in the district are arranged in alphabetical order In case of all urban agglomerations the particulars for each constituent towm of agglomeration have been furnished separately, also obviously separate information could not be furnished in respect of outgrowths which did not qualify to be treated as independent towns However, in all such cases asterisk mark has been placed against their names to indicate that they have outgrowths and details of their particulars have been merged with the referrent towns

Data presented in the seven statements have largely been procured from the municipal bodies and for non-municipal towns the respective tahsildars supplied the information

Statement I shows status and growth history of the towns in the district Column 2 in this statement indicates class, name and civic administration status of a town (as in 1980) Class of the town indicated under this column has been introduced to facilitate the analysis of town directory data at the state and the national level Census towns have no urban civic status Following abbreviations have been used to indicate the civic status of the town .—

Municipal Corporation/Corporation	M Corp
Municipality	M
Municipal Council	M Cl
Non-Municipal	N. M
Cantonment Board/Cantonment	C B
Notified Area/Notified Area Committee/ Notified Committee	N. A C
Census Town	C T

Columns 7 to 15 give population and growth rate of towns since 1901 and would help in drawing the trends in their growth rate Columns 5, 6, 16 and 17 to 19 showing area in Km^2 number of households including houseless households, density and sex ratio respectively are new additions and are expected to facilitate in analysing the town directory data both at the state and the national level

Statement II shows physical aspects and location of each town In physical aspects only the rainfall and temperature data as obtained from the Director General of Meteorological Survey of India have been shown Towns for which information could not be obtained from Meteorological Survey of India, the same has been collected locally or calculated in relation to the nearest town, to the extent possible Columns 6 to 12 have been filled up on the basis of local enquiry Distances respectively from the state, district and tahsil head quarters and the nearest city (Urban area with a population of 100,000+) would help in determining the location of a town. Communication facilities available are shown by railway station, bus route and navigable river/canal.

Statement III deals with municipal finances for the statutory and also non-statutory town bodies managing civic administration of the town provided they have separate budgets and accounts of their own

Statement IV provides information on the civic and other amenities available in the town, total population given under column 4 and Scheduled Castes / Scheduled Tribes population given in column 5 have been added to help in measuring amenities in respect of population size of the weaker sections of the community in the town. The information on the road length within the town shown under column 6 has been obtained from municipality (except for the highways) Codes used are .—

Pucca road	PR
Kuccha road	KR

Columns 7 to 11 reflect the information on system of sewerage, number of latrines and method of disposal of night soil

Codes used are .—

Sewer/Sewerage	S
Open surface drains .	OSD
Box surface drains .	BSD
Sylk drains .	SD
Cesspool method	CD
Pit system	Pt
Head Loads	HL
Baskets	B
Wheel Barrows	WB
Septic Tanh Latrines	ST

Columns 12 and 13 indicate sources of protected water supply to the inhabitants of the towns. The information of major source of water supply is given in the column 12 and on major source of storage and capacity under column 13. For stating this information following codes have been used .—

Overhead Tank	OHT
Service Reservoir	SR
River Infiltration Gallery	IG
Borewell pumping system	BWP
Pressure Tank	PT
Tubewell water/Hand pump ..	TW
Tap Water	T
Well water .	W
Tank water .	TK

Column 14 gives information regarding availability of fire fighting services. In case, it is not available in the referrent town, the name of the nearest place where it is available has been mentioned and the distance from the town has also been indicated within brackets. Columns 15 to 19 pertain to the number of electricity supply connections available for domestic, industrial, commercial and road lighting points etc.

The newly added Statement IV-A provides data on civic and other amenities in the notified or recognised slums of towns with a population of above 50,000 (*i e.* class I and II towns)

Statement V gives information regarding availability of medical, educational, recreational and cultural facilities available in the town, 1981 population figures for each town have also been indicated and this will facilitate in analysing data on facilities available on the people.

Data on medical facilities have been obtained from the district and sub-divisional medical officers and shown under columns 4 and 5. All types of medical institutions whether allopathic, ayurvedic or homoeopathic have been covered and indicated by way of following codes :—

Hospital	H
Dispensary	D
Health Centre	HC
Family Planning Centre	FC
T. B Clinic	TB
Nursing Home	NH
Ayurvedic	A
Unani	U
Homoeopathic	Hom
Others	O

In case, more than one institution of any type is available, the exact number is shown within the brackets.

The information on educational amenities (Cols 6 to 9) is exhibited as :

Arts only	A
Science only	S
Arts and Science only	AS
Commerce only	C
Arts and Commerce only	AC
Combined for all categories— Arts, Science and Commerce	ASC
Law	L

Column 10 pertains to the number of recognized shorthand, typewriting and vocational training institutes (grouped as others) which include applied art / painting college, pharmacy college, B Ed. college, teacher's training school, music / dancing institute, nursing school, etc Various codes used for indicating this data are :—

Shorthand	SH
Typewriting	Type
Shorthand and Typewriting	Sh. Type
Others	O

Keeping in view the 'Minimum Needs Programme' of the Planning Commission, the information regarding adult literacy classes / centres etc has also been collected and presented under Column 15. Similarly, in view of the spurt in the employment of women in towns, information on number of working women's hostels and seats available therein has been given under column 16. This information would help in formulating plans for opening new hostels in order to meet the housing needs of the single working woman

Columns 17 to 20 show recreational and cultural facilities available in the town. These include stadia, cinema, auditoria / drama, community halls, public libraries indicated as 'PL' and the reading rooms indicated as 'RR'

Statement VI presents information regarding trade, commerce, industry and banking services in the town Columns 3 to 11 indicate three most important commodities imported, exported and manufactured in the town Information on number of banks available in the town appears under column No. 12 Columns 13 and 14 show number of agricultural and non-agricultural credit societies respectively in each town.

Note —The source for the total area figures in respect of the districts is the Surveyor General of India, while that for the total area figures in respect of the tahsil in the State Land Records Department. The total areas, as also the rural areas, for the tahsils in district, may not therefore, strictly add up to the corresponding figures shown against the district

Name of Towns treated as such for the first time in 1981 have been printed in italics
