IX	..	Census Atlas of Maharashtra
X (1—12)	..	Cities of Maharashtra (15 Volumes—Four volumes on Greater Bombay and One each on other eleven Cities)

State Government Publications

25 Volumes of District Census Handbooks in English

25 Volumes of District Census Handbooks in Marathi

Alphabetical List of Villages in Maharashtra

A-1759—i-b (Ahmadnagar)

PREFACE

On the suggestion of the Census Commissioner, India, the Government of Maharashtra decided to publish the District Census Handbooks on the basis of the material collected during the 1961 Census for all the districts in Maharashtra. A Committee consisting of the Executive Editor and Secretary of the District Gazetteers (Revision) Editorial Board, the Superintendent of Census Operations, Maharashtra, and the Director, Bureau of Economics and Statistics, Maharashtra, was appointed to determine the contents and review the drafts of each volume. This is one of the twenty-five volumes compiled in the Maharashtra Census Office and published under that scheme.

District Handbooks had been published from the 1951 Census data also. As in the past, the present volume contains a set of 1961 Census Tables for the district and also presents basic demographic and economic information for each village separately. The following improvements have, however, been made in the 1961 series :—

(i) The addition of a comprehensive note introducing the district ;

(ii) The four-coloured map of the district ;

(iii) Taluka maps showing the location of each village in the district supplemented by alphabetical lists of villages ;

(iv) Supplementary information showing basic amenities available for each village ; and

(v) Addition of Part III containing 33 Tables on other official statistics.

These new features will make the volume a valuable reference for the Central and State Governments, District Administrators, departments engaged in planning and development work, legislators, private trade and business. Need for such material is far greater today as the functions of planning and implementation of development schemes have now percolated to district, taluka and village levels.

Marathi version of this volume is also being issued separately.

Part I of the volume presents villagewise statistics, Part II contains the 1961 Census Tables prepared for the district and Part III contains official statistics on Climate, Rainfall, Agriculture, Industry, Education, Health and a few other aspects. An explanatory note is added at the beginning of each part to describe the layout of the Tables and the terms or concepts used. Parts I and II are based entirely on the data collected at the 1961 Census. Part III is based on the material furnished by the District Statistical Officer and the officers of the departments concerned. Villagewise populations shown in Part I are valid for Sunrise of 1st March 1961 and are not adjusted for seasonal migration to or from other areas.

The introductory note at the beginning of the volume describes the present administrative set-up and some of the socio-economic facets of life in the district. It will illustrate how the statistics presented in the volume could be used for economic accounting or as controls of plan achievements in the district. For this note, we have drawn heavily on the District Gazetteers,

Survey and Settlement Reports, Annual Administration Reports and other Government publications. Some Heads of Departments also supplied the latest available material for the volume. We are indebted to them all.

Any views expressed in the introductory note or elsewhere in the volume are personal and the Government is not responsible for them.

In the Census Office, every one has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I should specially mention Shri N. Y. Gore, Tabulation Officer, for his sincere and thorough work on compilation and proof-reading of Part I, Shri G. S. Gokarn, Tabulation Officer, for his painstaking work on MSS and proofs of Parts II and III, Shri S. K. Deshpande, and Shri R. E. Chowdhary for assistance in preparing the introductory note, Shri S. Y. Pradhan and Shri B. M. Nagarkar, Draughtsmen, for Maps, Charts and Diagrams. Shri S. G. Deshpande of our office at Nagpur looked after the layout of the Tables and printing of the volume. Shri R. G. Phadke and Shri D. V. Rangnekar, Deputy Superintendents of Census Operations, and Shri G. M. Rajadhyaksha, Tabulation Officer, made valuable contributions at all stages and specially in the preparation of notes. Acknowledgments are due to Shri S. R. Desai, Manager, Government Press and Book Depot, Nagpur, and Shri J. D. Gandhi, Manager, Government Photozincographic Press, Poona. In spite of heavy pressure of work on their presses they did their best to print this volume speedily.

I am obliged to Shri Asok Mitra, I.C.S., Census Commissioner, India, for valuable suggestions for improving this volume. I am also indebted to Shri Setu Madhava Rao and Shri M. A. Telang, Members of the District Census Handbook Committee, who not only supplied useful material from their Departments but also read through the MSS and encouraged us through this venture.

BOMBAY:
The 27th February 1965.

INTRODUCING THE DISTRICT

This note describes the administrative set-up and some socio-economic facets of life in the district

THE DISTRICT IN MAHARASHTRA

FIG. 2

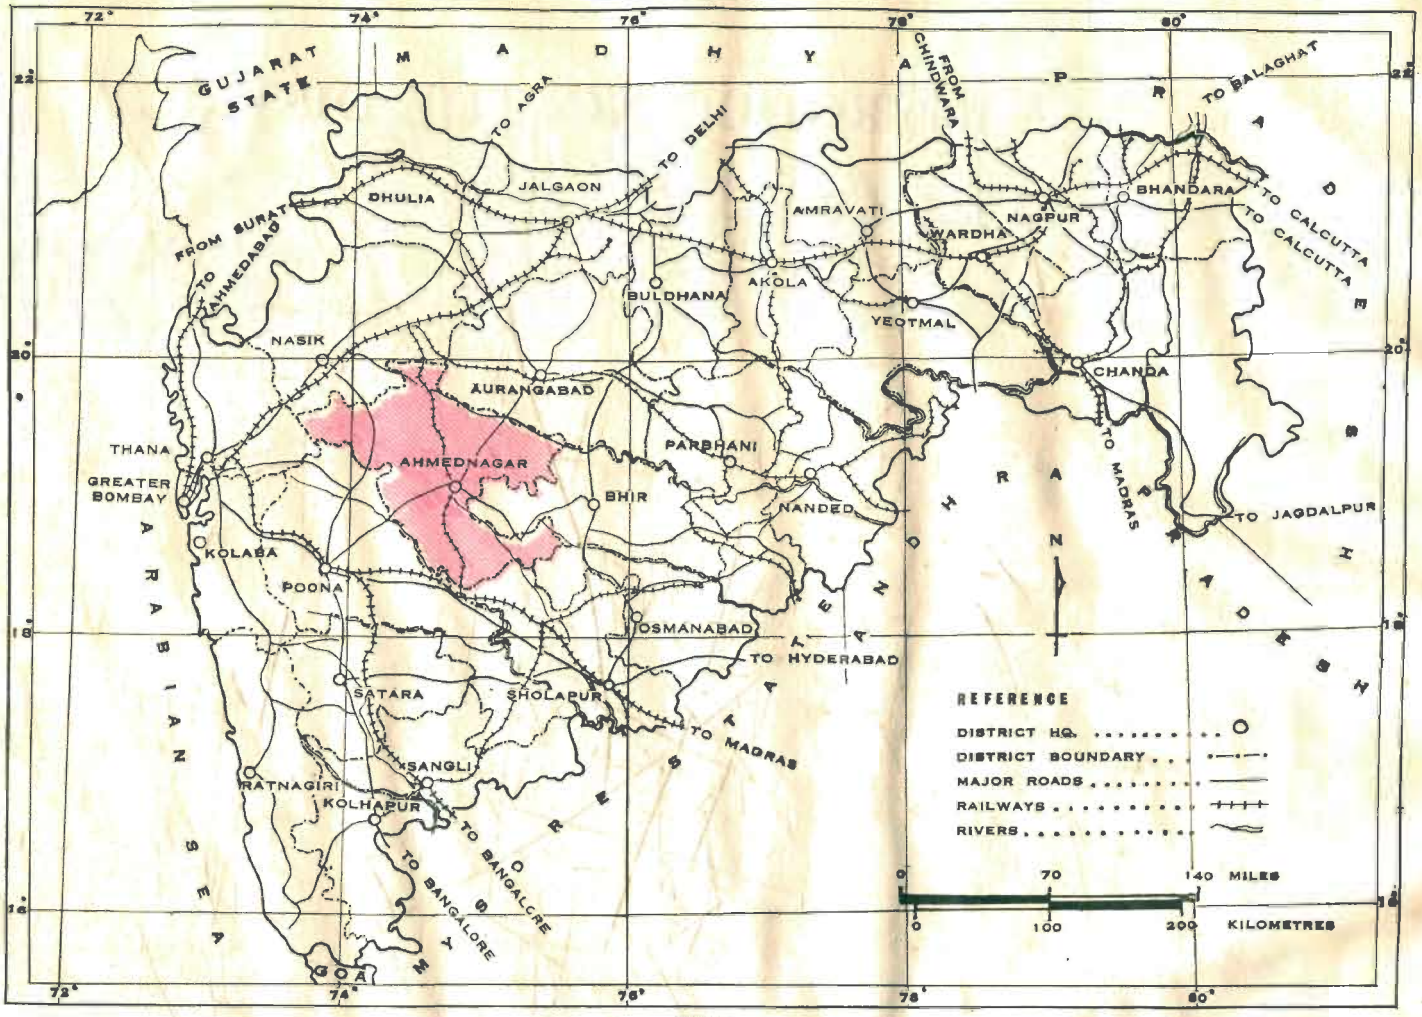

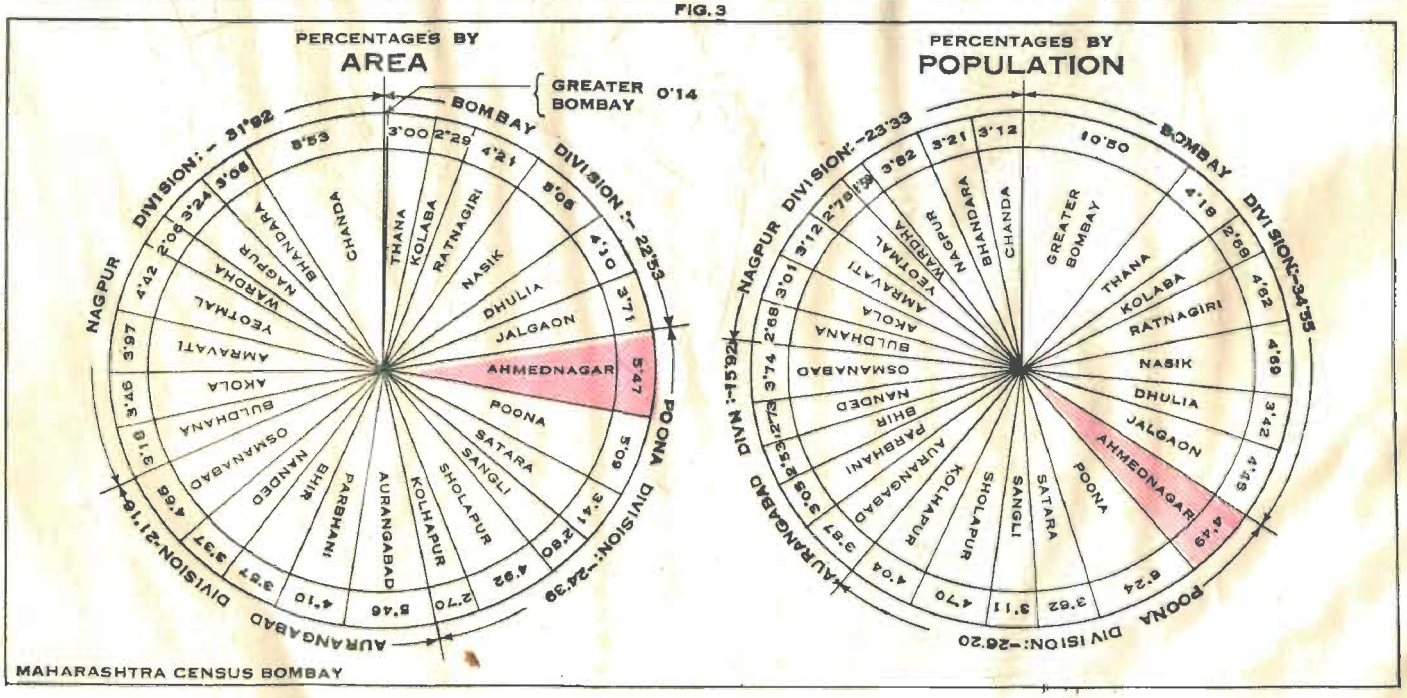

FIG. 3

MAHARASHTRA CENSUS BOMBAY

G.P.Z.P. POONA-1962

INTRODUCING THE DISTRICT

PHYSICAL FEATURES

The district is situated partly in the upper Godavari basin and partly in the Bhima basin. Broadly the northern half of the district comprising Akola, Sangamner, Shrirampur, Kopargaon and Newasa talukas lies in the Godavari basin and is served by Pravara and Mula rivers, both tributaries of Godavari, and the Godavari river itself which flows along the north-eastern boundary of the district. The southern half comprising the talukas of Parner, Ahmadnagar, Pathardi, Shrigonda and Karjat lies in the Bhima basin and is served by Sina, Kukadi and Ghod, all tributaries of Bhima, and the Bhima river itself which flows along the south-western boundary of the district.

The district lies between 18° 2′ and 19° 9′ N. latitude and 73° 9′ and 75° 5′ E. longitude. It is surrounded by Bhir district in the east, Osmanabad and Sholapur districts to the south-east, Poona district to the south and south-west, Thana and Nasik districts to the west and north-west, Nasik district to the north and Aurangabad district to the north-east.

The area of the district is 6,471·9 square miles and its population in 1961 is 1,775,969. In terms of area and population the district makes 5·47 per cent and 4·49 per cent of the State, respectively. The Figures facing this page show the position of the district in the State.

Hill Ranges

There is only one system of hills and it is the main range of Sahyadri and its offshoots.

The main Sahyadri range touches only one taluka, i.e., Akola, in the west. From the main range of Sahyadri three spurs, *viz.*, Kalsubai, Baleshwar and Harischandragad stretch towards the east.

The spur of Kalsubai stretches out eastwards along the northern border of the district, ending abruptly at Dudheshwar hill in Sangamner taluka. The highest peak of Sahyadri, the Kalsubai (5,427 feet) is in this range. It serves as a watershed between the Darna and the Pravara rivers, both tributaries of the Godavari. The Harischandragad spur extends about sixty miles in the district. It branches off from Ratangad and functions as a watershed between the Pravara and Mula rivers. The third spur known as the Baleshwar range is the longest forming the boundary line between Poona and Ahmadnagar districts. On entering parner taluka this spur forms a plateau from which two spurs branch off, one going east from north of Ahmadnagar town. This range forms a watershed between the Godavari and the Bhima valleys. Another spur turns southwards, crosses the north-east corner of Shrigonda taluka and enters Karjat taluka.

All the three main spurs decrease in height as they extend eastwards.

Important Rivers

Godavari and Bhima are the two main rivers of the region. Pravara has however immensely benefited the district with its irrigation system and has converted a famine-striken part of the district into one of the most prosperous and productive tracts in the State.

The Godavari passes through Kopargaon taluka and then along the border of Shrirampur, Newasa and Shevgaon talukas. Pravara is an important tributary of Godavari. It originates in Akola taluka and passes through Sangamner taluka, and then along the border of Shrirampur and Rahuri talukas to Newasa taluka and joins Godavari at Pravara Sangam. A dam has been built across this river at Bhandardara in Akola taluka. Mula, Adula and Mahalungi are the important tributaries of Pravara. Dhora is another tributary of Godavari. It rises north of Ahmadnagar town and drains Shevgaon and Newasa talukas.

The whole of the southern portion of the district lies in the Bhima river basin. The river, however, passes only on the boundary between Ahmadnagar and Poona districts for about 35 miles. The chief tributaries of Bhima are Ghod and Sina. Ghod also flows in a south-easterly direction and for over fifty miles on the south-western boundary between the district and Poona district. Sina also rises north of Ahmadnagar, passes through the city and after making the boundary between the district and Bhir district, enters Sholapur district and joins the Bhima river a few miles south of Sholapur city.

Climate

Monthly temperature records are available only for one station at Ahmadnagar (Table 1 in Part III).

The rainy season starts from the beginning of June and lasts up to the end of September. It is followed by winter from October to February and summer from March to May.

Rainfall

Table 2 in Part III shows figures of monthly rainfall and number of rainy days for the years 1951 to 1960.

A major portion of the district lies in the zone of low rainfall, i.e., 508 mm. to 635 mm. annually. Western parts of Akola taluka get the highest

annual rainfall. Towards the east it drops down with very sharp transitions so much so that at Akola which is 28 miles east of the main Sahyadri range its annual average is only 559 mm. (22″). Portions of Kopargaon, Ahmadnagar and Shrigonda talukas have less than 508 mm. of annual rainfall. The rains start early in June and last till the end of September. The intensity of rainfall is greatest in July. ' Though the major part of precipitation in this district is experienced during June to September the season usually closes with some showers in November and December. Stray instances of thunder-showers in March and April have also been recorded.

The seasonal distribution of rainfall also varies from zone to zone. In the western parts of Akola taluka, the major part of precipitation is experienced during south-west monsoon. The distribution changes in the plain tract where the rains are erratic and mostly from the north-east monsoon.

Dependability of Rainfall and Scarcity Areas

Mean rainfall at Ahmadnagar is 625·9 mm. (24·64″). Standard deviation is 213·1 mm. (8·39″). Coefficient of variability is 34·04 per cent. Rainfall reliability is measured by the coefficient of variability. As the coefficient of variability at Ahmadnagar is 34·04 per cent, the degree of reliability may be said to be slightly low.

Parts of the district have been affected by scarcity from early times. The Fact-Finding Committee, appointed by the Government of Bombay in 1960, had reported that the rainfall is not dependable in the following areas and they are likely to be affected by scarcity conditions as shown below :—

Area	Grade	Estimated frequency
Shrigonda taluka and Rashin Circle of Karjat taluka.	A	Once in three years.
Parner, Ahmadnagar and Karjat (excluding Rashin Circle) talukas.	B	Once in six years.
Sangamner, Pathardi and Jamkhed talukas.	C	Once in ten years.

Thus only six talukas out of 13 are free from scarcity conditions. They are Akola in the west and Kopargaon, Shrirampur, Rahuri, Newasa and Shevgaon in the north.

Soils

The chief kinds of soils generally found in the district are black (*kali*), red (*tambat*), laterite and the gray of inferior quality (*barad*) including white (*pandhari*). *Barad* soils are poor in fertility while others are more fertile and are found in tracts where rainfall is heavy and climate moist.

In the hilly areas of the west of Akola red soil, deeper on the slopes than on the levels, is found. In the plain lands of Akola and Sangamner talukas the soil along the banks of Pravara is extremely rich and gradually grows poor as one approaches the hills. The Kopargaon and Shrirampur plains have in general a good depth of soil and near the Godavari and Pravara rivers there are many white tracts of deep rich lands. In Rahuri taluka the soil is generally black, deep and rich. The southern portion including the talukas of Ahmadnagar, Parner, Shrigonda and Karjat with its cross ranges of hills has deep soiled table-lands (*pathars*) in the west, rich valleys and a few levels with good soil. Most of the plain land in this region however is poor and shallow, suitable only for the growth of millets. In the south-east the soil of Jamkhed is generally light. Low levels of reddish land are found there mixed with patches of poor soil.

Minerals

Except for building stone, there are no minerals in the district.

Forests

The district has an area of 731·41 square miles under forests. The forest area makes 11·30 per cent of the total geographical area of the district. Most of the forests have however been degenerated and there are several blanks. The major forests in the district are found in Akola taluka only. The indiscriminate felling of trees in the past is the main cause of depletion of the forests. The development of forests undertaken during the First Plan period was mainly on improving conditions of forests through well-planned afforestation schemes. Forest produce includes teak, grass, bamboos, myrobalans babul, bor and tamarind.

Natural Zones

The district can be broadly divided into four zones. Akola taluka which makes 8·88 per cent of the total area of the district stands in a class by itself. The western part is hilly and gets heavy rainfall. It has extensive forest areas and grows only kharif crops.

The second zone consisting of Sangamner, Parner, Shrigonda, Karjat and Ahmadnagar talukas is almost entirely a scarcity zone. This zone makes 47·92 per cent of the area of the district and has a very low rainfall and also low density of population.

The third zone consisting of the talukas of Kopargaon, Shrirampur and Rahuri also has a low rainfall but has better soils and developed canal irrigation. This zone contains all the prosperous sugarcane-growing areas and the sugar factories.

The eastern zone comprising Jamkhed mahal and Pathardi, Newasa and Shevgaon talukas comparatively gets an assured rainfall. Newasa and Shevgaon talukas have rich fertile lands. The Mula river irrigation project will soon bring immense benefits to them. Jamkhed mahal and Pathardi taluka are on the two sides of the watershed between the Godavari and Bhima basins, and have poor lighter soils and irrigation only through wells.

ADMINISTRATIVE SET-UP

Ahmadnagar was formed into a district in 1818. In 1822, its boundaries extended from Vani in the Dindori sub-division of Nasik to Karmala which is presently in Sholapur district. In 1830 it included the sub-collectorate of Sholapur under it. The district of Sholapur was formed in 1838 but was abolished in 1864 when a part of its area reverted to Ahmadnagar. In 1837-38, the sub-divisions of Sinnar, Chandor, Dindori, Nasik, Igatpuri and the Peint State were made into the Nasik sub-collectorate under Ahmadnagar. That sub-collectorate was, however, abolished in 1856 and the area reverted to Ahmadnagar. Two full-fledged districts of Nasik and Sholapur were formed in 1869.

In 1891, the district had the following sub-divisions :—

Jamkhed, Nevasa, Shrigonda, Shevgaon, Sangamner, Nagar, Kopargaon, Akola, Karjat, Parner and Rahuri.

Pathardi peta was newly formed in 1913 and the remaining area of Jamkhed taluka was renamed as Jamkhed mahal. Karjat taluka was similarly downgraded as a peta in the decade 1931—41. Shrirampur taluka was newly formed in 1945 and Pathardi and Karjat petas were upgraded as talukas in the decade 1941—51.

Twenty-one enclave villages were transferred from Bhir district in the year 1950 to this district. At the same time, 26 villages were transferred from Ahmadnagar district to Bhir district and one village to Aurangabad district.

With the Reorganisation of States in 1956 the district was included in Bombay State. Since 1960 it forms a part of Maharashtra.

Present Set-up

For administrative purposes, the district is at present divided in 12 talukas and 1 mahal. The area, number of inhabited villages, number of towns, 1961 population and the position in the district by percentages of area and population for each taluka and mahal are as follows :—

District/Taluka	Name of Headquarters	Area in sq. miles	Number of inhabited villages	Number of towns	1961 population	Percentage of area	Percentage of population
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)

12 Karjat Taluka ..	Karjat ..	560·1	81	..	99,292	8·7	6·0
13 Jamkhed Mahal ..	Jamkhed ..	336·8	55	..	73,153	5·2	4·1

General Administration and Revenue

The Collector is in charge of general administration, law and order, treasury, land revenue and civil supplies. He is assisted by a Resident Deputy Collector in his office and four Deputy Collectors who hold charge of the four revenue divisions and have their headquarters at Ahmadnagar, Parner Rahuri and Sangamner, respectively. Twelve Mamlatdars are in charge of the 12 taluka offices and one Mahalkari in charge of one mahal office.

Land Revenue Settlements

The original Revenue Survey and Settlement of different talukas in the district was completed between 1843 and 1852. The First Revision Settlement was completed between 1875 and 1889 and the Second Revision Settlement between 1913 and 1923. The Third Revision Settlement has been introduced in Kopargaon and Sangamner talukas between 1923 and 1934.

The land revenue rates have not been revised since then in spite of the expiry of term of the revision settlements.

In the original settlements, lands were assessed separately on the basis of individual soil classification, though the general level of assessment was fixed empirically with reference to the dependability of rainfall, crop pattern, average yields, prices, levels of rents, nearness to the markets, facilities of communications and other similar factors observed from tract to tract. Individual lands were never reclassified during the second revision settlements and landholders were generally allowed the benefits of improvements effected by them during the term of settlements untaxed. The comparative incidence of land revenue from field to field is thus generally the same as it was at the time of the first revision settlement and the enhancements made from settlement to settlement were brought about only by raising the levels of land revenue assessments over a tract uniformly.

The method of land revenue assessments is broadly the same as in the other districts of Maharashtra. In the case of lands irrigated by wells and small *bandharas*, the land revenue is integrated and is inclusive of the charge for water supplied. For lands irrigated under Government canals, the land revenue at dry land rates is assessed and recovered by the Revenue Department while the water rates determined annually on the basis of actual crops raised are assessed by the Irrigation Department and recovered by the Revenue Department.

Table 24 in Part III shows demand and collection of land revenue during the ten years 1951 to 1960 for the district and each taluka separately.

The areas and number of villages for each taluka in the district have varied from settlement to settlement. Inam or Jagir villages had not been covered by most of them. In fact, some of the Inam or Jagir villages were unsurveyed and unsettled as late as in 1947. That work has now been completed. Because of such recently settled villages and because of the territorial changes in the taluka boundaries from time to time, most of the talukas today have a more varied pattern of land revenue assessments than what is seen in the reports of earlier settlements. Even then the maximum rates fixed at each settlement or revision settlement or the average land revenue rates per acre should be quite reliable indices of the incidence of land revenue as obtaining in the district from taluka to taluka or in the same taluka from settlement to settlement. Those rates for dry, garden or rice lands for each taluka are as shown in the statement on page (5). Shrirampur taluka is not shown in the statement as it was carved out of Kopargaon, Sangamner and Rahuri talukas in 1945.

Assembly and Parliamentary Constituencies

Since 1957 the district has 12 Assembly seats. In 1957, Shrigonda, Shirdi and Sangamner constituencies were double-member constituencies with one of the two seats from Shrigonda and Shirdi reserved for Scheduled Castes and one of the two seats from Sangamner reserved for Scheduled Tribes. After abolition of the double-member constituencies in 1961, the seats from Shrigonda and Shrirampur are reserved for Scheduled Castes and the seat from Nagar-Akola is reserved for Scheduled Tribes.

The number of voters on rolls for each Assembly constituency in 1961 was as follows :—

Assembly Constituency	Number of voters on rolls
(1) Karjat	69,336
(2) Shrigonda	62,788
(3) Pathardi	71,226
(4) Shevgaon	67,798
(5) Ahmadnagar North	68,665
(6) Ahmadnagar South	62,653
(7) Parner	57,608
(8) Rahuri	68,622
(9) Shirdi	66,228
(10) Shrirampur	65,216
(11) Sangamner	71,493
(12) Nagar-Akola	64,529
Total ..	796,162

In the 1962 General Elections, the Assembly constituencies Karjat, Shrigonda, Pathardi, Shevgaon, Ahmadnagar North and Ahmadnagar South together made one Parliamentary constituency called Ahmadnagar constituency and the remaining Assembly constituencies Parner, Rahuri, Shirdi, Shrirampur, Sangamner and Nagar-Akola made another Parliamentary constituency called Kopargaon constituency.

The total number of voters on rolls in the district in 1961 was 796,162. The total population 21 years and above according to 1961 Census is 826,633. Comparison can, however, be only approximate as the two figures relate to two different dates in the year 1961.

Taluka	Original settlement or Revision settlement	Year	Guarantee period	No. of villages	Average land revenue per acre	Group	Maximum rate per acre: Dry lands	Garden lands	Rice lands

NA = Not available. (M) = Mot. (P) = Pat.

Administration of Justice

The District and Sessions Judge is the head of Judicial Department in the district. The judiciary is entirely separated from the executive. The Collector continues to be the District Magistrate and the Deputy Collectors and Mamlatdars are vested with magisterial powers. But those powers are limited to maintenance of peace and order and none of them ever tries any criminal case. The District Magistrate does not have any administrative control over the other magistrates who try criminal cases in the district. This separation of the judiciary from the executive has been brought about in the district in the year 1953.

The District and Sessions Judge is assisted by two Additional Sessions Judges. They have jurisdiction over the entire district. They attend to original civil jurisdiction in respect of suits of which the subject-matter does not exceed Rs. 15,000 in amount or value. They have also civil and criminal appellate jurisdiction and original criminal jurisdiction in respect of cases triable by the Court of Sessions.

There are also two Civil Judges (Senior Division) who attend to all original suits and proceedings of a civil nature.

There are 12 Civil Judges (Junior Division) and First Class Judicial Magistrates with headquarters at different taluka places. They deal with civil suits of value of subject-matter below Rs. 10,000. They also try criminal cases triable by a First Class Magistrate.

Police

The Police force in the district works under the (District) Superintendent of Police who is assisted by two Deputy Superintendents and two Circle Police Inspectors. There are 17 Police Stations in the district. Their headquarters and jurisdictions are shown in the next column.

		Police Station Headquarters	No. of villages
Kopargaon Taluka ..	1.	Kopargaon	63
	2.	Rahata	38
Akola Taluka	3.	Akola	81
	4.	Rajura	75
Sangamner Taluka ..	5.	Sangamner	139
Shrirampur Taluka ..	6.	Shrirampur ..	74
Rahuri Taluka	7.	Rahuri	82
Newasa Taluka	8.	Newasa	121
Shevgaon Taluka ..	9.	Shevgaon	121
Parner Taluka	10.	Parner	114
Ahmadnagar Taluka ..	11.	Ahmadnagar City ..	..
	12.	Ahmadnagar Cantonment.	5
	13.	Ahmadnagar Taluka	104
Pathardi Taluka	14.	Pathardi	93
Shrigonda Taluka ..	15.	Shrigonda	84
Karjat Taluka	16.	Karjat	81
Jamkhed Mahal	17.	Jamkhed	55

Average number of villages and population per Police Station in the district is 79 and 104,469 against 69 and 62,547 in the State, respectively.

Crime statistics for the district for the years 1950, 1955 and 1960 have been shown in Table 28 in Part III.

Municipalities

Four out of five towns in the district have Municipal Committees established under the Bombay Municipal Boroughs Act of 1925 (No. 4) and the Bombay District Municipal Act, 1901 (Nos. 1 to 3). The year of establishment, the year of the last general election, the term of the elected body, the total number of elected councillors and the number of seats reserved for Scheduled Castes and Scheduled Tribes and for Women are shown below for each municipality separately :—

Serial No.	Name of the Municipality	Year of establishment	Year of the last General Election	Statutory term in years	1961 population	Total No. of Municipal Councillors	Seats reserved for		
							Scheduled Castes	Scheduled Tribes	Women
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
1	Kopargaon	1947	1959	4	16,869	17	..	1	2
2	Sangamner	1960	1962	4	21,729	26	1	..	2
3	Ahmadnagar Municipal Borough.	1854	1961	4	*96,958	42	3	..	4
4	Shrirampur	1947	1962	4	22,802	25	3	..	3

*The area outside the municipal limits with a population of 22,062 persons or 11·78 per cent of the urban population is excluded.

The four municipalities together cover 84·54 per cent of the urban population or 8·92 per cent of the total 1961 population of the district. The remaining town, *viz.*, Wari in Kopargaon taluka does not have a municipality.

The taxation level of each of the Municipalities is shown in the next column.

The population of Ahmadnagar city is exclusive of the population of the nearby cantonment area. The municipal tax figures therefore do not include the receipts of the cantonment board.

Per capita municipal tax appears to be high at Ahmadnagar but it is an important trade centre and much of the incidence falls on agriculturists who bring their produce for sale.

Name of the Municipality	1961 population	Year 1961-62		
		Total receipts	Receipts from Municipal taxes	*Per capita* Municipal tax
		Rs.	Rs.	Rs.
1. Kopargaon ..	16,869	4,72,500	2,91,418	17·28

4 Shrirampur ..	22,802	6,22,342	4,23,392	18·57

*See footnote on page (6).

ZILLA PARISHAD AND PANCHAYAT SAMITIS

With a view to promote development of democratic institutions and to secure greater measure of participation by the people in Development Plans and in local and governmental affairs by decentralisation of powers and functions a Zilla Parishad and 13 Panchayat Samitis have been established in the district in the year 1962 under the Maharashtra Zilla Parishad and Panchayat Samitis Act of 1962. The areas under the jurisdiction of the Zilla Parishad and the Panchayat Samitis correspond to the district and taluka boundaries except in the case of municipal and cantonment towns which are not covered by them. Wari which does not have a municipal committee but which is treated as a town in the 1961 Census is, however, included under the jurisdiction of the Zilla Parishad and Panchayat Samitis concerned. The Zilla Parishad covers 99·36 per cent of the area and 89·84 per cent of the total population of the district. The population covered includes total rural population and 3·68 per cent of urban population of the district in 1961. The number of villages, number of non-municipal towns and population included under the Zilla Parishad and each Panchayat Samiti are shown below. The position of each Panchayat Samiti in the Zilla Parishad is also shown separately by percentages of area and population in 1961:—

——	Name of Headquarters	Area in sq. miles	No. of inhabited villages	No. of non-municipal towns	Population in 1961	Percentage by area	Percentage by population
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)

13. Jamkhed Panchayat Samiti ..	Jamkhed ..	336·8	55	..	73,153	5·2	4·6

Constitution

The Zilla Parishad has 58 directly elected councillors. Out of these 58 seats, 5 seats had been reserved for Scheduled Castes and 4 for Scheduled Tribes. In addition, a woman councillor has been co-opted by the elected councillors. There are five associate councillors who are chairmen of five federal co-operative societies conducting business in the district.

The elected Chairmen of all Panchayat Samitis are also *ex-officio* councillors.

At the Block (taluka) level, the Panchayat Samiti consists of all elected and co-opted councillors from the area of the Block and a chairman of a co-operative society conducting the business of purchase or sale of agricultural produce in the area of the Block as an associate member and a chairman of a co-operative society conducting the business in agriculture in

the area of the Block as a co-opted member. Sarpanchas elected by members of Village Panchayats are also elected members of the Panchayat Samiti. The number of Sarpanchas elected is at the rate of two for each electoral division in the area of the Block.

Elections were held in the year 1962. The term of office of the councillors is five years The Zilla Parishad has elected the President and Vice-President from amongst the elected councillors.

An Officer in the senior scale of I.A.S. works as the Chief Executive Officer to the Zilla Parishad. The Parishad is also assisted by various departments and the heads of those departments at the district level are Officers of Class I or Class II Service under the State Government. At the Block level, the Panchayat Samitis have elected Chairmen and Deputy Chairmen. The Block Development Officers work as Secretaries to the Panchayat Samitis. The executive authority for the purpose of carrying out the provisions of the Maharashtra Zilla Parishad and Panchayat Samitis Act vests in the Chief Executive Officer and the Block Development Officers. The Deputy Chief Executive Officer works as Secretary to the Zilla Parishad.

Committees and Office-bearers

The Zilla Parishad functions through a Standing Committee presided by the President and six subject committees for Finance, Works, Agriculture, Co-operation, Education and Health. Two subject committees are presided by the Vice-President and four by two Chairmen elected by the Zilla Parishad to preside over two specified subject committees each. The Deputy Chief Executive Officer works as Secretary of the Standing Committee, while the District Heads of Departments work as Secretaries to the subject committees concerned. Co-ordination between the subject committees is achieved through the standing committee which includes the Chairmen of all the subject committees as members.

The Panchayat Samitis do not have subject committees.

The elected President of the Zilla Parishad is paid an honorarium of Rs. 500 per month. The Vice-President and the two Chairmen of the Subject Committees are paid an honorarium of Rs. 300 per month. The elected Chairmen and Deputy Chairmen of the Panchayat Samitis are paid an honorarium of Rs. 300 and Rs. 150 per month, respectively. All these persons are also provided with rent-free accommodation as is deemed suitable for them by the Zilla Parishad.

Functions

The Divisional and State Officers of the Government continue to exercise technical supervision and give guidance to the Zilla Parishad and Panchayat Samitis. The State Government has powers to give direction to the Zilla Parishad regarding works and schemes in the interest of National or State Development Plans. Inspection and supervision are carried out by the Divisional Commissioners.

Except for a few safeguards, the developmental and administrative functions of Government are now, with the creation of democratic bodies at the district and block level, devolved on them. In other words, the State Government has divested itself of the responsibility of local activities which are now left to the people's initiative and resources.

The developmental and administrative subjects transferred to the Zilla Parishad and Panchayat Samitis have been listed in Schedules I and II to the Maharashtra Zilla Parishad and Panchayat Samitis Act. By and large, all functions of Government administration including development activities at the district level but excluding matters relating to law and order, judicial and quasi-judicial functions, and development functions involving high technical skill like Research Stations, etc., have been devolved on the Zilla Parishad and Panchayat Samitis. All Class III and Class IV employees of the Government Departments now transferred to the Zilla Parishad have been absorbed as employees of the Parishad. The Village Talati (or Patwari) and the entire village establishment of the Revenue Department have been transferred to the Parishad through the Village Panchayat, though for collection of land revenue and maintenance of Record of Rights they continue to work under the Revenue Officers.

The Zilla Parishad has replaced the erstwhile statutory bodies known as District Local Board, District School Board and District Panchayat Mandal. The functions of non-statutory body known as the District Development Board have of course been absorbed. Municipalities, however, remain unaffected as municipal areas are excluded from the jurisdiction of the Zilla Parishad.

Finance

The law provides for levy of cess at the rate of twenty naye paise on every rupee of land revenue and at a rate not exceeding nineteen naye paise per rupee of water rate. The Zilla Parishad can levy taxes on profession, trade, calling or employment and taxes on water-supply, public entertainments, amusements and pilgrims, special tax on land and buildings and other taxes. The stamp duty on transfer of certain immovable properties may be increased by one-half per cent by Government for payment to the Zilla Parishad.

The financial assistance given by the State Government includes 70 per cent of the land revenue collected within the area of the Parishad. When, however, the amount of land revenue payable falls short of the amount arrived at on the basis of two rupees *per capita* of the population of the district as appearing in the Census of 1961, an equalisation grant covering the difference will be paid to the Zilla Parishad. Government also pays what are called purposive grants being grants for specific works and development schemes transferred to the Zilla Parishad at the rate of not less than 75 per cent of the expenditure. An establishment grant equal to 75 per cent of the average annual cost on account of salaries and allowances is paid in respect of the posts held by the staff of Government transferred to the Parishad which are included in the District Technical Service (Class III), District Service (Class III) and District Service (Class IV). The other grants include a deficit adjustment grant payable at full rates during the first five years and to be progressively reduced in the next ten years after which it will not be payable, incentive grants calculated to achieve speedier development and grant for Plan schemes. If in pursuance of the proposal of a Zilla Parishad or a Panchayat Samiti, a cess on land revenue at a rate in excess of the minimum rate prescribed by the Act is levied by the State Government in the whole of the district or in a block, the Zilla Parishad or the Panchayat Samiti, as the case may be, shall be paid every year by the State Government a grant called the local cess matching grant.

The total revenue receipts of the Zilla Parishad for the year 1963-64 are Rs. 189·56 lakhs. The major portion of the receipts is of receipts from Government. They are 89·9 per cent and the Zilla Parishad receipts are 10·1 per cent of total revenue receipts. Major items of Zilla Parishad's receipts are local fund cess, cess on water rates and profession tax.

The total revenue expenditure is Rs. 189·04 lakhs. Following are the major items of expenditure :—

General Administration	3·2 per cent
Education	53·7 "
Community Development Project ..	9·9 "
Buildings and Communications ..	14·5 "
Miscellaneous	5·7 "
Other items	13·0 "

The Zilla Parishad has raised the cess on land revenue to 80 nP. per rupee of land revenue from 5th March 1963. The Zilla Parishad has also resolved to levy tax on professions, trades, callings, etc.

Per capita expenditure on different development heads is as follows :—

	Rs.
General Administration	0·38
Education	6·36
Community Development Project ..	1·17
Buildings and Communications ..	1·72

Establishment

The establishment of the Zilla Parishad comprises of the gazetted and non-gazetted staff. The non-gazetted staff consists of the employees of the former local bodies and those of the various State Government Departments now transferred to the Zilla Parishad.

There are 4 Class I and 30 Class II Gazetted Officers working under the Zilla Parishad. The total strength of non-gazetted employees of Class III and Class IV categories is 2,186. Moreover an establishment of 174 gram sevaks, 382 talatis and 494 village panchayat secretaries has been transferred from the Revenue Department to the Zilla Parishad.

VILLAGE PANCHAYATS

The number of independent village panchayats, group village panchayats and the number of villages covered by the group village panchayats in each taluka are shown in the next column.

Almost all the villages are thus covered by village panchayats. The number of villages covered by the panchayats does not tally with column 2 as a few hamlets are included in the figures shown in the last column.

The break-up of the total annual income of all the village panchayats in the district for the year 1961-62 is as shown on page (10).

Taluka	No. of inhabited villages and non-municipal towns	No. of independent village panchayats	No. of group village panchayats	No. of villages covered by group village panchayats
1 Kopargaon ..	100+1	43	24	58
2 Akola ..	153	41	41	112
3 Sangamner ..	137	72	25	62
4 Shrirampur ..	74	46	11	28
5 Rahuri ..	82	37	18	45
6 Newasa ..	120	31	32	90
7 Shevgaon ..	121	23	32	99
8 Parner ..	114	67	21	47
9 Ahmadnagar ..	105	79	13	28
10 Pathardi ..	92	53	15	39
11 Shrigonda ..	84	36	23	49
12 Karjat ..	81	43	16	38
13 Jamkhed Mahal	55	40	7	15
Total ..	1,318+1	611	278	710

NOTE.—Figures in column (5) perhaps include hamlets. The total of columns (3) and (5) do not therefore tally with the figures in column (2).

Item	Amount (in '000) Rs.	Percentage of total income
Grants	925	33·03
Taxes on houses and properties ..	349	12·45
Octroi	101	3·62
Other taxes	852	30·40
Total taxes	1,302	46·47
Income from other sources ..	574	20·50
Total Income	2,801	100·00

The first item includes the Government grant of 30 per cent of the land revenue collected in the village or one rupee per head of population whichever is more. The village panchayats also get the entire local fund cess collected in the village. At present it is collected at 20 nP. per rupee of land revenue. The village panchayats can raise it with Government approval up to 100 nP. per rupee of land revenue.

Each village panchayat has levied tax on houses or properties. Seven village panchayats have levied octroi.

The break-up of the total annual expenditure of all the village panchayats in the district for the year 1961-62 is as follows :—

Item	Amount (in '000) Rs.	Percentage of total expenditure
Administration	693	32·50
Health and Sanitation	227	10·64
Public Lighting	274	12·88
Other Items	937	43·98
Total Expenditure	2,131	100·00

Other items include improvement of village roads, construction of new drinking water wells or repairs to old wells, construction of panchayat *ghars*, schools and such other buildings.

Functions of the Talati (Patwari), Village Panchayat Secretary and Assistant Gram Sevak are now combined in one official who now works under the Village Panchayat.

POPULATION

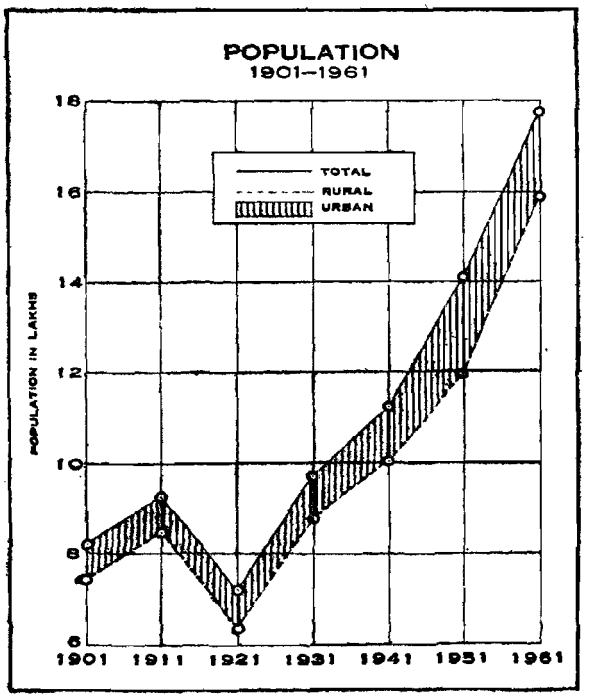

Table A-I in Part II shows the 1961 population of the district and each taluka for total, rural and urban areas separately. Definition of rural and urban areas may be seen in paragraphs 8 and 9 of the Explanatory Note to Part II. Table A-II shows the district population and its variation at each Census since 1901 and the variation in population for each taluka during 1951—1961.

Variation

The population of the district and decade variation rates since 1901 are as follows :—

Year	Population	Decade Variation	Rate of Variation
1901 ..	820,346	..	..
1911 ..	925,876	+105,530	+12·86
1921 ..	719,137	—206,739	—22·33
1931 ..	969,209	+250,072	+34·77
1941 ..	1,123,040	+153,831	+15·87
1951 ..	1,410,873	+287,833	+25·63
1961 ..	1,775,969	+365,096	+25·88

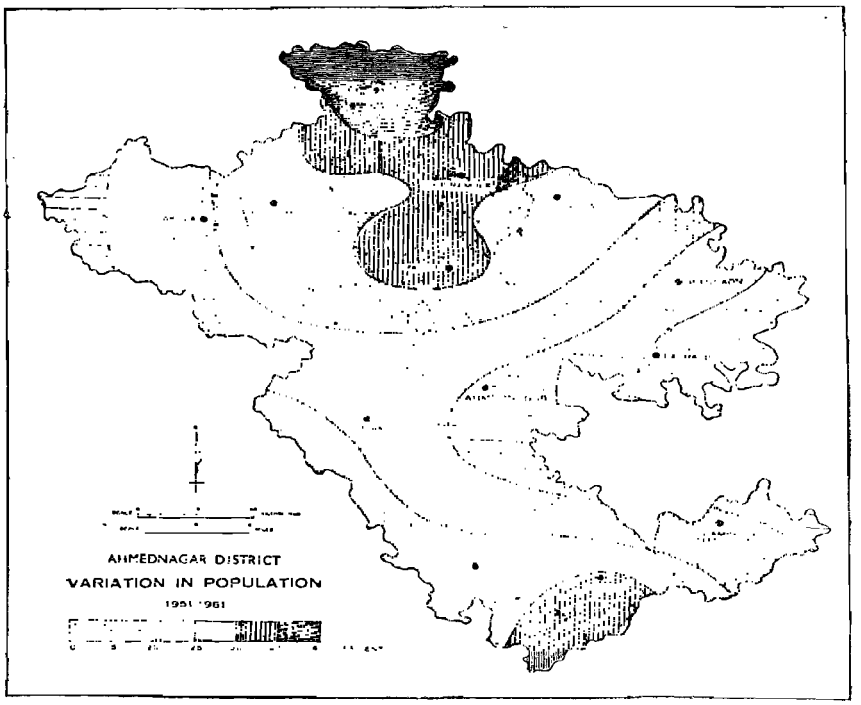

Figure to the right shows the total, rural and urban population of the district for the last seven Censuses.

During the decade 1901—11 the population of the district had increased by 12·86 per cent, probably due to the recovery from the great famine of 1900. The fall by more than 22 per cent in the following decade was due to the severe influenza epidemic of 1918 and also the exodus of the population at the time of 1921 Census from the district due to severe famine conditions. In the following decade (1921—31) the population increased by 34·77 per cent due both to the return of migrants to their homes and recovery from the influenza epidemic. The decade 1931—41 had been relatively prosperous without any severe famine or epidemic and the population increased by 15·87 per cent. Since 1941, the population increased faster, i.e., by 25·63 per cent. In the last decade also the population has increased by

25·88 per cent, a rate which is higher than the State average. The 1961 population is two and half times that of 1921 and will, even with the 1951—61 decade growth rate, double itself, in the next 30 years.

The high rate of growth of population during 1951—61 is the result of control of epidemics and other diseases since 1950. Malaria which used to be a major public health problem in the district has been controlled by DDT spraying. Campaigns for B.C.G. and vaccination against smallpox also have their share in improving the survival rate. The death rate has thus been reduced and has resulted in the higher growth rate although the birth rate may not have increased.

The 1951—61 decade variation for the district and each of the talukas is as follows :—

	Percentage Variation 1951—61
AHMADNAGAR DISTRICT	+25·88
1 Kopargaon Taluka	+38·26
2 Akola Taluka	+22·61
3 Sangamner Taluka	+24·76
4 Shrirampur Taluka	+32·90
5 Rahuri Taluka	+35·36
6 Newasa Taluka	+27·89
7 Shevgaon Taluka	+18·29
8 Parner Taluka	+23·53
9 Ahmadnagar Taluka	+19·13
10 Pathardi Taluka	+13·66
11 Shrigonda Taluka	+24·53
12 Karjat Taluka	+33·00
13 Jamkhed Mahal	+23·16

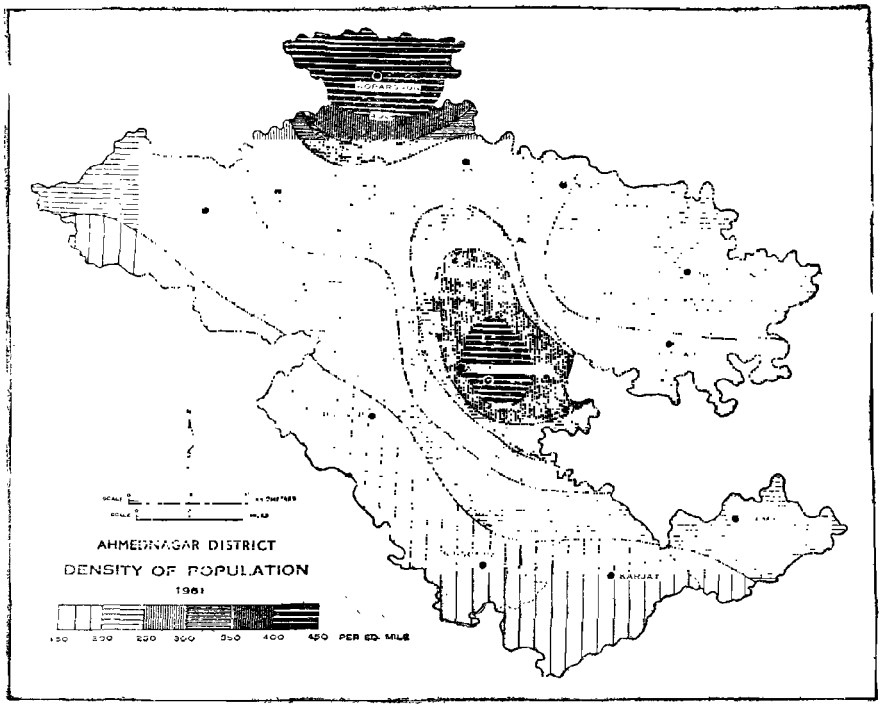

Figure in the next column shows the areawise pattern of 1951—61 growth of population within the district.

There are significant differences in the rates of variation of various talukas in the last decade. Kopargaon taluka on the north has recorded the highest increase (38·26 per cent) while Pathardi taluka in the east has the lowest increase (13·66 per cent) over 1951. Kopargaon, Rahuri, Karjat, Shrirampur and Newasa talukas are above the district average and the remaining talukas are below that average. The high rate of increase in Kopargaon, Rahuri and Shrirampur talukas may be due to the extension in canal irrigation and sugarcane cultivation and the increase in the number of sugar factories which attract a large number of seasonal labourers from far-off places within and outside the district. Karjat is well-known as a scarcity area and its very high rate of increase (33 per cent) in the last decade may be attributed partly to the increase in irrigated areas under wells and partly to the out-migration of a larger population in 1951 as it was a bad year.

The net percentage increase since 1901, 1921 and 1951 for the district and the State has been as follows :—

	Ahmadnagar District	Maharashtra
1901—1961	116·49	103·97
1921—1961	146·96	89·71
1951—1961	25·88	23·60

Since 1901 the population of the district has increased by 116·49 per cent as against 103·97 per cent for Maharashtra. During the 40 years of accelerated growth since 1921, the population of the district has increased by 146·96 per cent against 89·71 per cent for Maharashtra. The high growth is due to the construction of Godavari and Pravara Canals and growth of sugar industry in the district. Even in the last decade the district has maintained the higher rate of growth than the State average.

Density of Population

The densities of population for Maharashtra, Ahmadnagar district and its talukas for 1951 and 1961 are as follows:—

	Density per sq. mile		Percentage of district population in 1961
	1951	1961	
MAHARASHTRA	271	334	..
AHMADNAGAR DISTRICT	218	274	100·00
1 Kopargaon Taluka ..	354	490	11·12
2 Akola Taluka	167	205	6·63
3 Sangamner Taluka ..	203	254	9·27
4 Shrirampur Taluka ..	431	572	10·03
5 Rahuri Taluka	216	293	6·63
6 Newasa Taluka	192	245	6·63
7 Shevgaon Taluka	202	239	5·87
8 Parner Taluka	154	190	7·38
9 Ahmadnagar Taluka ..	352	420	13·83
10 Pathardi Taluka	229	261	6·24
11 Shrigonda Taluka	154	192	6·66
12 Karjat Taluka	133	177	5·59
13 Jamkhed Mahal	176	217	4·12

Figure above shows the approximate contours of density of population in 1961 within the district.

The density of population of the district has increased sharply from 111 persons per square mile in 1921 to 274 persons per square mile in 1961. At every Census since 1901 the density of population in Ahmadnagar district has been lower than the average for Maharashtra. It was natural as the district is situated in the zone of scanty and most unreliable rainfall.

Within the district the density varies from 572 persons per square mile in Shrirampur taluka to 177 persons per square mile in Karjat taluka. The high density (420) in Ahmadnagar taluka is due to the inclusion of Ahmadnagar City in its limits. The very high densities in Kopargaon (490) and Shrirampur (572) talukas are due to the expansion in the cultivation of sugarcane and growth of sugar industry both of which attract thousands of seasonal migrants from nearby districts. Low densities in Karjat, Parner and Shrigonda talukas are due to their poor soils, scanty and unreliable rainfall. The areas which have higher densities relatively contain larger proportion of the district population. Kopargaon, Shrirampur and Ahmadnagar talukas together contain 34·98 per cent of the district population but have only 20·08 per cent of its area. Four talukas with low densities (Akola, Parner, Shrigonda and Karjat) together account for 26·26 per cent of the district population but have 37·74 per cent of its area.

Urban Population

Urban population of the district at each Census and its variation since 1901 are shown in Table A-IV in Part II. The same table also shows the variation in population for each town in the district. The number of towns, the rate of decade variation in urban population and the percentage of urban population to total population at each Census since 1901 for the district and the State are as follows:—

Year	Ahmadnagar District			Maharashtra		
	No. of towns	Rate of variation in urban population	Percentage of urban population to total population	No. of towns	Rate of variation in urban population	Percentage of urban population to total population
1901 ..	8	..	9·54	219	..	16·59
1911 ..	8	+2·58	8·67	232	+0·99	15·13
1921 ..	7	+2·86	11·48	238	+18·72	18·50
1931 ..	7	+15·21	9·81	258	+15·54	18·60
1941 ..	8	+24·87	10·57	266	+27·11	21·11
1951 ..	13	+80·95	15·23	383	+62·42	28·75
1961 ..	5	−12·81	10·55	266	+21·32	28·22

In the Figure on page (10) the actual urban population of the district since 1901 is shown by the shaded portion between the two lines. The net growth in urban population of the district over that of 1901 is 139·47 per cent as against 246·96 per cent for the State.

Ahmadnagar district is less urbanised than the average for the State. The proportion of urban population had slightly decreased both for the district and the State in 1911. It increased in 1921 but again fell in 1931 due perhaps to the economic depression of the 'thirties. Since then the proportion went on increasing to 15·23 per cent in 1951 when the number of towns had also increased to 13. There has been a decrease again in the last decade both in the number of towns and in the proportion of urban population. This is due to the redefinition of urban areas in the 1961 Census and the consequential declassification of eight towns in the district. The names of the declassified towns which have been treated as villages in 1961 are as follows :—

(1) Rahuri Bk., (2) Vambori, (3) Shevgaon, (4) Pathardi, (5) Shrigonda, (6) Karjat, (7) Jamkhed and (8) Kharda.

A new town named Wari has been added in 1961. Ahmadnagar Cantonment has been included as a part of Ahmadnagar City in the 1961 Census.

The population of the eight declassified towns was 64,874 or 30·20 per cent of the urban population in 1951. If that population is excluded from the 1951 urban population of the district the 1961 urban population would be higher by 24·91 per cent over that of 1951. The population of the newly added town in 1961 is 6,895 or 3·68 per cent of 1961 urban population. The net reduction of 12·81 per cent in the urban population now seen in the table on page (12) is thus due solely to the change of definition of urban areas and the consequent declassification of eight towns.

Ahmadnagar City, the headquarters of the district, had a population of only 35,784 in 1901; it was 119,020 in 1961. The percentage growth in its population since 1901 is 232·61 per cent and since 1921, 138·62 per cent. The city alone accounts for more than half of the urban population of the district. Shrirampur is another important town with a population of 22,802. Its population has increased by as much as 40 per cent in the last decade because of the growth of sugar factories. Sangamner is another important town. Its population has increased by 97·34 per cent since 1901 and by 122·61 per cent since 1921.

Rural Population

The rates of variation in rural population and the percentage of rural population to total population of the district and the State since 1901 are as shown in the next column.

Year	Ahmadnagar District		Maharashtra	
	Rate of variation in rural population	Percentage of rural population to total population	Rate of variation in rural population	Percentage of rural population to total population
1901	..	90·46	..	83·41
1911	+13·95	91·33	+12·68	84·87
1921	−24·72	88·52	−6·77	81·50
1931	+37·31	90·19	+14·77	81·40
1941	+14·89	89·43	+8·54	78·89
1951	+19·09	84·77	+7·72	71·25
1961	+32·83	89·45	+24·51	71·78

The net increase in rural population of the district has been 114·07 per cent over that of 1901 and 149·55 per cent over that of 1921. The corresponding figures for the State are 75·53 per cent and 67·08 per cent, respectively.

The rates of variation of the rural population have never followed any trend. The urban population had grown faster at the expense of rural population. As a result, the rural population increased at a lower rate than the total population. In 1961, however, the rural population shows a very high growth rate. It is mainly due to the declassification of eight towns and addition of their 1961 population in the rural population of the district. It is a sort of reversal of what had happened in 1951.

Size of Villages

Table A-III in Part II shows for the district and for each taluka the number of villages and their population for each class of villages. The distribution of population by size of villages for the district and the State is as follows :—

Size Class	Ahmadnagar District		Maharashtra	
	Percentage of the No. of villages to total No. of villages	Percentage of population to total rural population	Percentage of the No. of villages to total No. of villages	Percentage of population to total rural population
Less than 500 ..	26·10	7·16	47·72	15·02
500—999 ..	33·99	20·33	28·55	25·71
1,000—1,999 ..	26·78	30·44	16·62	28·55
2,000—4,999 ..	10·47	24·70	6·18	22·40
5,000 and over ..	2·66	17·37	0·93	8·32

Villages with less than 1,000 population are 60·09 per cent of the total number of villages in the district and have 27·49 per cent of the rural population.

The corresponding figures for the State are 76·27 per cent and 40·73 per cent, respectively. Concentration of rural population is in villages with more than 2,000 population which are 13·13 per cent of the total number of villages but contain 42·07 per cent of total rural population. For the State such villages make 7·11 per cent of the total number of villages and account for 30·72 per cent of the rural population. Villages with population between 1,000 and 2,000 account for 30·44 per cent of the rural population. They are 26·78 per cent of the total number of villages in the district. The concentration of the population in bigger (above 2,000) villages in the district is larger than the average for the State.

The area, number of inhabited villages, total rural population, average population per village and the number of villages per 100 square miles of rural area are shown below for the State, district and each taluka separately.

Average population per village in 1961 is 1,205 in the district against 792 in Maharashtra. An average village in the district is thus 50 per cent larger than the average village in the State. Within the district it varies from 770 in Akola taluka to 2,100 in Shrirampur taluka. The average number of villages per 100 square miles of rural area for the district is 21 against 31 in Maharashtra. Shrigonda and Karjat talukas have only 14 villages per 100 square miles of rural area compared to 28 in Shevgaon taluka. In eastern talukas of the district the villages are spread more apart from each other than in the south-western talukas. But in spite of the lower densities the average village size is larger than the district average. The high density talukas of Kopargaon and Shrirampur naturally have still larger and more closely situated villages.

It may be added that the above discussion is based on villages with their administrative boundaries and does not take into account the existence of *wadis*, *padas* or hamlets within those boundaries.

State/District/Taluka	Area in square miles (rural)	Number of inhabited villages	Rural population	Average population per inhabited village	Number of inhabited villages per 100 sq. miles of rural area
(1)	(2)	(3)	(4)	(5)	(6)
MAHARASHTRA	115,736·3	35,851	28,391,157	792	31
AHMADNAGAR DISTRICT	6,422·2	1,318	1,588,654	1,205	21
1 Kopargaon Taluka	388·9	100	173,748	1,737	26
2 Akola Taluka	574·6	153	117,795	770	27
3 Sangamner Taluka	632·0	137	142,835	1,043	22
4 Shrirampur Taluka	302·3	74	155,372	2,100	24
5 Rahuri Taluka	402·2	82	117,728	1,436	20
6 Newasa Taluka	480·2	120	117,706	981	25
7 Shevgaon Taluka	436·2	121	104,207	861	28
8 Parner Taluka	690·2	114	131,039	1,149	17
9 Ahmadnagar Taluka	575·7	105	126,561	1,205	18
10 Pathardi Taluka	425·4	92	110,905	1,205	22
11 Shrigonda Taluka	617·6	84	118,313	1,408	14
12 Karjat Taluka	560·1	81	99,292	1,226	14
13 Jamkhed Mahal	336·8	55	73,153	1,330	16

Age Distribution

Tables C-II and C-IV in Part II show the distribution of the district population by five-year age-groups and by single year ages, respectively. Broad age-groups are also shown in Tables B-I, B-II and C-III. The proportions of population by broad age-groups in 1961 are shown in the next column separately for males and females compared with the corresponding proportions for 1951.

Age-group	Percentages of population by age-groups					
	1951 District Total		1961 District Total		1961 Maharashtra	
	Males	Females	Males	Females	Males	Females
0—4 ..	13·50	13·73	15·46	16·05	14·65	15·39
5—14 ..	26·77	27·95	26·45	26·66	25·55	25·77
0—14 ..	40·27	41·68	41·91	42·71	40·20	41·16
15—34 ..	31·32	32·33	31·59	32·30	32·70	33·13
35—59 ..	23·70	20·88	21·41	19·75	22·09	20·16
15—59 ..	55·02	53·21	53·00	52·05	54·79	53·29
60 and over.	4·71	5·11	5·09	5·24	5·01	5·55
Total ..	100·00	100·00	100·00	100·00	100·00	100·00

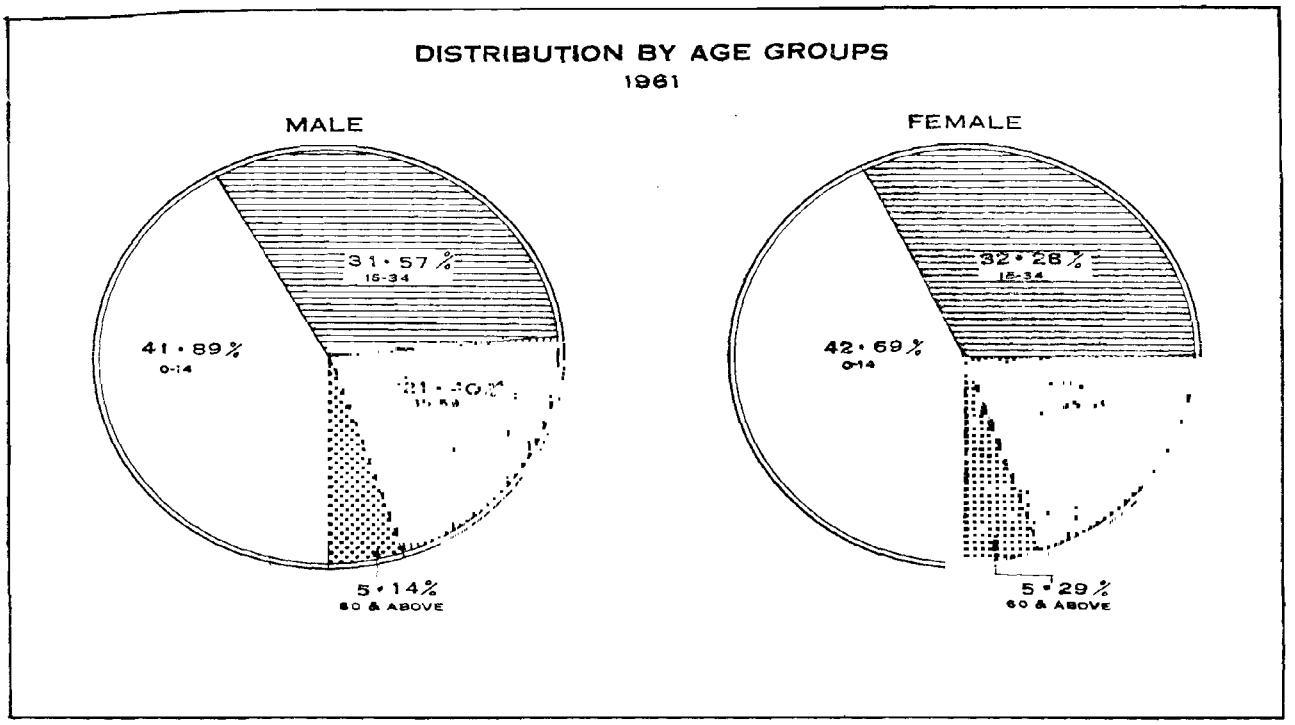

Figure above shows the distribution of the district population by broad age-groups for males and females separately.

During the last decade the proportion of children aged 0—4 increased from 13·50 to 15·46 per cent for males and from 13·73 to 16·05 per cent for females. The same trend is observed for age-group 0—14 both for males and females. The proportion of persons aged 60 and over has also slightly increased. As a consequence of this trend the proportion of population in working age-group (15—59) has decreased both for males and females. This fall in the proportion of 15—59 age-group does not appear in its full extent as it is partly set off by the seasonal in-migration dominated by male labourers who as is seen by their influence on the sex ratios are mostly in the 35—59 age-group. Increase in the proportion of younger and older population seems to be due to the sustained high fertility and declining mortality.

Comparison with the age structure of the State shows that the district population is more youthful.

Dependency Ratio

The ratio between dependants (age-groups 0—14 and 60+) and 100 of supporting (age-group 15—59) population has an economic significance. The dependency ratios and their two components of youth (0—14) and aged (60+) groups are shown below for 1951 and 1961 for the district and the State separately :—

		Ahmadnagar District			Maharashtra		
		Youth	Aged	Total	Youth	Aged	Total
1951	Total	75·7	9·1	84·8	69·9	9·3	79·2
1961	Total	80·5	9·8	90·3	75·2	9·7	84·9
	Rural	81·4	10·1	91·5	80·6	10·8	91·4
	Urban	73·8	7·6	81·4	63·1	7·3	70·4

The dependency ratios are higher in the district than those for Maharashtra. The dependency ratios for the State and the district are both higher in 1961 than those for 1951. Both the components of youth and aged have increased. The increase in the dependency may be the result both of high fertility and declining mortality. The 1961 population in the district thus has a larger load of dependants than that of 1951. This load should have been still larger but for the seasonal in-migration dominated by working age people, whose influence on the age structure has already been described.

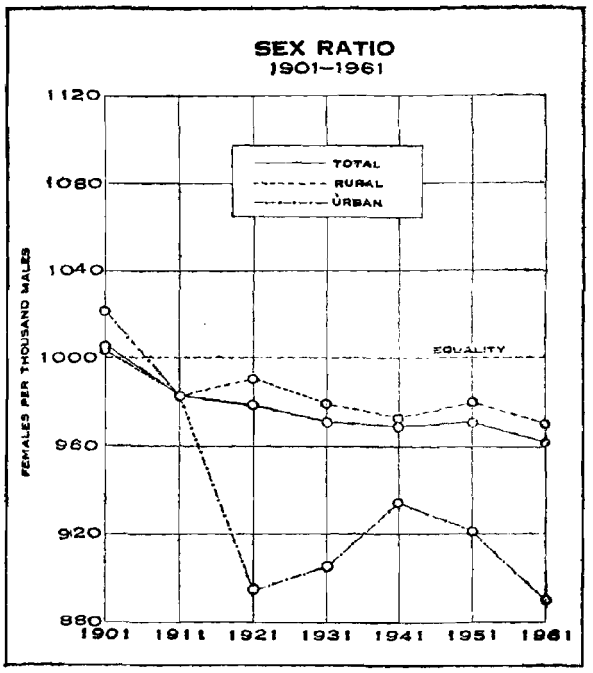

Dependency load is larger in the rural areas than in urban areas.

Sex Ratios

The following have been the sex ratios (number of females per 1,000 male population) for the district and the State since 1901 for total, rural and urban areas separately :—

	Ahmadnagar District			Maharashtra		
	Total	Rural	Urban	Total	Rural	Urban
1901 ..	1,005	1,004	1,021	978	1,002	866
1911 ..	983	983	983	966	1,000	796
1921 ..	978	990	895	950	994	776
1931 ..	971	979	905	947	987	790
1941 ..	969	973	934	949	990	810
1951 ..	971	980	921	941	1,000	807
1961 ..	*962*	*970*	*890*	936	995	*801*

Figure below shows the variation in sex ratios since 1901 for the district total, rural and urban areas separately :—

Since 1901 the sex ratio of the population of the district changed between 962 and 1,005 while that of Maharashtra varied between 936 and 978. At each Census since 1901 the sex ratio in the district has been higher than the average for the State. The same has been the pattern for urban population also. There has always been a deficiency of females in the population of the district except in 1901. The sex ratio has continuously fallen and the 1961 values are the lowest in the last sixty years both in the rural and urban areas. It is due to the seasonal in-migration of a large number of male labourers on sugar farms and factories from adjoining districts. This aspect of seasonal migration is also discussed on page (59).

Following are the sex ratios for different age-groups of population for the district total, rural and urban areas :—

Age-groups	Total	Rural	Urban
0—14	980	986	932
15—34	983	1,001	861
35—59	887	892	840
60 and over	992	991	1,005
All ages	962	970	890

The sex ratios by broad age-groups show that except for the age-group 35—59 they are near normality. The low sex ratio in the age-group 35—59 is due to the seasonal in-migration of a large number of male labourers on sugar farms and factories. In urban areas the two age-groups 15—34 and 35—59 have very low sex ratios obviously because of the inclusion of the defence service personnel in that population. It may also be remembered that sex ratios are partly inflated in the 15—34 and 60 + age-groups because of a tendency of overstatement of women's ages in the 0—14 and 35—59 age-groups. Rural-urban difference in the age-group 0—14 is due to movement of children in the 10—14 age-group to urban areas for education.

The sex ratios for each taluka in the district for total, rural and urban areas separately are as follows :—

	Total	Rural	Urban
AHMADNAGAR DISTRICT	962	970	890
1 Kopa gaon Taluka ..	943	948	902
2 Akola Taluka ..	1,020	1,020	..
3 Sangamner Taluka ..	987	999	909
4 Shrirampur Taluka ..	929	935	886
5 Rahuri Taluka ..	953	953	..
6 Newasa Taluka ..	973	973	..
7 Shevgaon Taluka ..	976	976	..
8 Parner Taluka ..	1,008	1,008	..
9 Ahmadnagar Taluka ..	935	983	886
10 Pathardi Taluka ..	973	973	..
11 Shrigonda Taluka ..	945	945	..
12 Karjat Taluka ..	950	950	..
13 Jamkhed Mahal ..	963	963	..

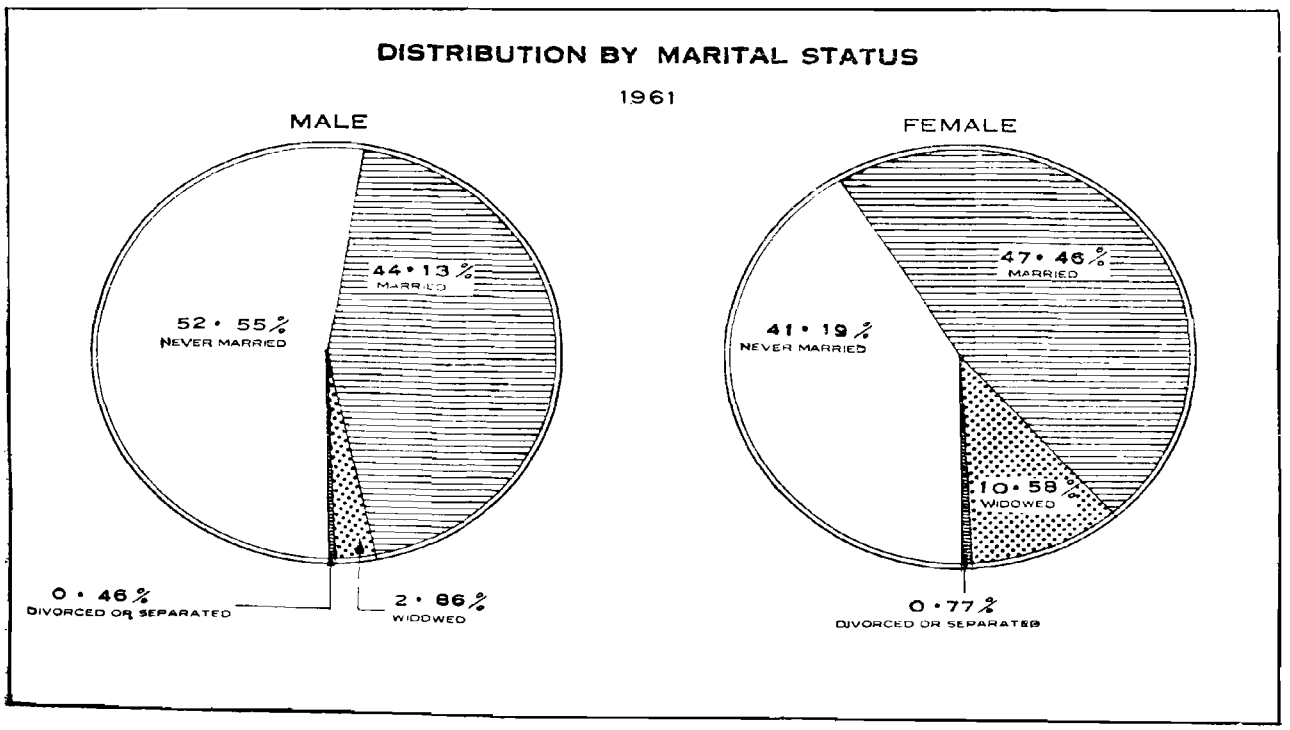

Sex ratio is the highest in Akola taluka (1,020) and lowest in Shrirampur taluka (929). The high sex ratios in Akola, Parner and Sangamner talukas are due to the seasonal migration of males to the sugar factory areas. The low sex ratios in Shrirampur, Kopargaon and Rahuri talukas are due to that seasonal in-migration of male labourers.

Marital Status

Table C-II in Part II shows the distribution of population by marital status by five-year age-groups. The percentages of population for broad age-groups classified by marital status are shown below compared to those of 1951 :—

Year	Age-group	Total	Marital Status							
			Never married		Married		Widowed		Divorced or separated	
			Males	Females	Males	Females	Males	Females	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
1951 ..	0—14 ..	100	98·38	84·50	1·59	15·23	0·02	0·27	0·01	..
	15—34 ..	100	31·38	4·17	67·25	91·75	1·32	3·95	0·05	0·13
	35—54 ..	100	1·84	0·63	91·15	69·91	6·93	29·39	0·08	0·07
	55+ ..	100	1·56	2·51	74·49	20·67	23·93	76·78	0·02	0·04
	All ages ..	100	49·94	36·87	46·32	50·64	3·70	12·43	0·04	0·06
1961 ..	0—14 ..	100	99·25	93·04	0·75	6·88	..	0·04	..	0·04
	15—34 ..	100	33·33	4·21	65·11	91·78	0·90	2·55	0·66	1·46
	35—54 ..	100	1·74	0·37	91·75	74·19	5·61	24·20	0·90	1·24
	55+ ..	100	1·17	0·27	78·35	25·76	19·82	73·56	0·66	0·41
	All ages ..	100	52·57	41·20	44·14	47·48	2·86	10·58	0·43	0·74

Figure below shows the distribution of the district population by marital status for males and females separately:—

During the 1951—61 decade the proportion of never married has increased both for males and females. The proportion of widowed showed a decrease both for males and females. The proportion of divorced or separated showed an increase but it is insignificant numerically. Consequently the proportion of married has decreased both for males and females.

The rise in age at marriage of the total population may be seen from the marital status distribution by age-groups shown on page (17). The proportions of never married in age-groups 0—14 and 15—34 have increased both for males and females. The differences are however more for males than females. It may indicate that the age at marriage for girls has not yet risen as much as for boys. This may also be seen by the same proportion (91·78 per cent) in 1961 for married females in the age-group 15—34 as against 91·75 per cent in 1951. For males of the same age-group the proportion in 1961 is 65·11 per cent against 67·25 per cent in 1951.

Child Woman Ratio

The following are the child woman ratios for 1951 and 1961, i.e., the number of children 0—4 years age-group per 1,000 women of 15—44 years age-group as well as for every 1,000 married women of 15—44 years age-group. The proportion of widows of 15—44 years age-group to 1,000 married women of 15—44 years age-group is also shown for comparison :—

	Number of children 0—4 years age-group per 1,000 women of 15—44 years age-group	Number of children 0—4 years age-group per 1,000 married women of 15—44 years age-group	Number of widows per 1,000 married women (both in 15—44 years age-group)
1951 District Total ..	638	719	89
1961 District Total ..	757	843	61
Rural ..	766	847	61
Urban ..	689	811	62

The child woman ratio for rural areas is higher than that for urban areas. Even if standardised for married women of 15—44 years age-group, it is still higher in rural areas. This may indicate a higher fertility in rural areas. Over the decade, the ratio has increased from 638 to 757. It may be due both to a higher birth-rate and somewhat reduced infant mortality.

The number of widows per 1,000 married women in the age-group 15—44 is reduced from 89 in 1951 to 61 in 1961. The incidence of widowhood is slightly higher in urban than in rural areas.

Migration

The sizes and proportions of population enumerated at place of birth and other places in the 1961 Census are shown below.

57·63 per cent of the population was enumerated at their places of birth. This percentage for males is 69·45 but for females it is only 45·33. The difference is partly due to women married outside their places of birth and partly to the seasonal in-migration. Two-thirds of this movement of females appears to be within the district and about one-third from outside the district. This one-third proportion is unduly large for marriage migration. It should therefore include many females migrating seasonally for work along with their husbands.

It is significant that 2·77 lakhs of males are enumerated outside their places of birth. 1·70 lakhs migrated within the district and 1·07 lakhs from outside the district. Simply stated it means that three males out of nine in the district are migrants, two from within the district and one from outside.

The percentage distribution of male population born at the place of enumeration, born elsewhere within the district and born outside the district by nine categories of economic activity and of non-workers is shown on page (19). An explanation of the nine categories will be found in the Explanatory Note to Part II, paragraphs 42 to 52.

Proportions of Population by places of birth

(1)	Total population (2)	Place of enumeration (3)	Elsewhere in the district (4)	Outside the district but in Maharashtra (5)	Outside Maharashtra (6)
Persons	1,775,969	1,023,143	508,122	217,723	26,495
Males	905,313	628,548	169,663	90,155	16,676
Females	870,656	394,595	338,459	127,568	9,819
Percentage to total population—					
Persons	100·00	57·63	28·62	12·26	1·49
Males	100·00	69·45	18·75	9·96	1·84
Females	100·00	45·33	38·88	14·66	1·13

Percentage distribution of male population by economic activity

(1)	Categories of Workers I (2)	II (3)	III (4)	IV (5)	V (6)	VI (7)	VII (8)	VIII (9)	IX (10)	Non-workers (11)
District Total	31·05	10·99	0·80	3·13	3·17	0·86	2·09	0·85	4·56	42·50
Born at place of enumeration	37·93	7·76	0·76	2·88	1·61	0·40	1·46	0·45	2·48	44·27
Elsewhere in the district	19·05	17·00	0·90	3·76	4·86	1·45	2·66	1·40	7·84	41·08
Outside the district	9·75	20·40	0·91	3·62	9·64	2·61	4·89	2·28	11·57	34·33

The proportion of non-workers is lower among those born at places other than place of enumeration. Cultivators have higher proportion for those born at the place of enumeration. Migrants from outside the district have high proportions as agricultural labourers (mostly on sugarcane farms) and in manufacturing (mostly in sugar factories).

It is significant that even among the male migrants from outside the district, 34·33 per cent are non-workers. It indicates that much of such migration (permanent or seasonal) is by families and not of working age males alone.

Size of the Household

Table C-I-A in Part II shows the proportion of sample households classified by size. Percentage proportions of different types of households are as shown below :—

	Total	Rural	Urban
Single member	7·59	7·24	10·19
2—3 members	21·97	21·62	24·53
4—6 members	40·96	41·10	39·94
7—9 members	20·17	20·46	18·01
10 members and more	9·31	9·58	7·33
All sizes	100·00	100·00	100·00

Among the different size groups, households with 4 to 6 members are more common (40·96 per cent) than others. The percentage distribution of rural and urban households by their size shows that single and small-size (2—3 members) households are more (34·72 per cent) in urban areas than in rural areas (28·86 per cent). The average size of the household in the district is 5·4. It is 5·4 in rural areas and 5·0 in urban areas. An average urban household is smaller than the average rural household.

Household Composition

Table C-I-B in Part II shows the distribution of sample households by the type of their composition. The percentage distribution of population of sample households by relationship for the district is shown below.

32·89 per cent of the males are heads of households as against 3·76 per cent for females. Married sons are 9·10 per cent of the total males. 50·97 per cent males and 49·25 per cent females which incidentally form the largest group are never married, widowed or divorced relations. Proportion of unrelated persons is 1·87 per cent for males and only 0·27 per cent for females. 29·30 per cent females are spouses of heads of households. High proportion of females in other married relations includes the daughters-in-law and daughters or sisters of the heads. The heads of the households and their spouses have higher proportions and proportion of married sons is lower in urban areas. It may indicate that the joint family is being replaced by the biological family more in urban areas. Unrelated females have a higher proportion in urban areas.

Percentage distribution of population of sample households by relationship

(1)	Total Males (2)	Total Females (3)	Rural Males (4)	Rural Females (5)	Urban Males (6)	Urban Females (7)
(1) Heads of households	32·89	3·76	32·76	3·62	33·90	4·93
(2) Spouses of heads of households	0·09	29·30	0·08	29·20	0·18	30·19
(3) Married sons	9·10	..	9·55	..	5·53	..
(4) Other married relations	5·08	17·42	5·17	18·00	4·32	12·56
(5) Never married, widowed or divorced relations.	50·97	49·25	50·51	48·93	54·66	51·89
(6) Unrelated persons	1·87	0·27	1·93	0·25	1·41	0·43
Total	100·00	100·00	100·00	100·00	100·00	100·00

Population Projections

On the basis of analysis of demographic data obtained in the 1961 Census, Professor K. V. Ramchandran of the Demographic Training and Research Centre, Chembur, Bombay, has, on our request, worked out projections for the total population, population in school-going ages (6—11 years) and the labour force (15—59 years) for the district for years 1966, 1971, 1976 and 1981. His projected estimates are as shown in the next column.

	Total population (in '000)	Population in school-going ages 6—11 (in '000)	Labour force age-group 15—59 (in '000)
Actual 1951	1,411	*240	*764
Actual 1961	1,776	301	932
Projected 1966 ..	2,050	320	1,061
Projected 1971 ..	2,334	367	1,212
Projected 1976 ..	2,649	400	1,396
Projected 1981 ..	3,004	428	1,607

*Estimated figures taken from 1951 Sample Census Tables.

LANGUAGES

Table C-V in Part II shows the population by nine major languages for the district and each taluka and town separately. The distribution of languages by rural and urban areas of the district is as follows :—

Language	Percentage to total population			Percentage of each language in	
	Total	Rural	Urban	Rural Areas	Urban Areas
(1) Bhilli ..	0·15	0·16	0·02	98·98	1·02
(2) Gujarati ..	0·33	0·15	1·88	40·39	59·61
(3) Hindi ..	2·57	1·64	10·47	57·04	42·96
(4) Kannada ..	0·12	0·10	0·26	76·63	23·37
(5) Marathi ..	89·14	92·25	62·78	92·57	7·43
(6) Punjabi ..	0·25	0·03	2·14	9·14	90·86
(7) Sindhi ..	0·20	0·01	1·78	6·02	93·98
(8) Telugu ..	1·89	1·39	6·17	65·54	34·46
(9) Urdu ..	4·99	4·04	12·97	72·56	27·44
(10) Others ..	0·36	0·23	1·53	55·55	44·45
All languages ..	100·00	100·00	100·00	89·45	10·55

Marathi is the principal language and is the mother-tongue of 89·14 per cent of the population. In rural areas Marathi speakers account for 92·25 per cent of the population. They make only 62·78 per cent of the population in urban areas. Urdu has the second largest number of speakers who constitute nearly 5 per cent of the district total population. Urdu is spoken more in urban areas where its speakers make as much as 12·97 per cent as against only 4·04 per cent for rural areas. Hindi has the third largest number of speakers. They form 2·57 per cent of the total population of the district. It is also spoken more in urban areas where its speakers make as much as 10·47 per cent against only 1·64 per cent for rural areas. Telugu has been reported by nearly 2 per cent of the population. About two-thirds of its speakers are in rural areas and one-third in urban areas. Bhilli and Kannada are spoken more in rural areas. The speakers of Punjabi, Sindhi and Gujarati are concentrated in urban areas.

The comparative position of the languages in 1901, 1951 and 1961 is as follows :—

Language	Percentage to total population		
	1901	1951	1961
(1) Bhilli	1·04	0·05	0·15
(2) Gujarati	0·24	0·74	0·33
(3) Hindi	7·59	1·87	2·57
(4) Kannada ..	0·06	0·12	0·12
(5) Marathi	89·63	90·07	89·14
(6) Punjabi	..	0·36	0·25
(7) Sindhi	..	0·17	0·20
(8) Telugu	1·16	1·45	1·89
(9) Urdu	..	5·02	4·99
(10) Others	0·28	0·15	0·36
All languages	100·00	100·00	100·00

The proportion of Marathi-speaking population to total population has remained fairly constant over the last sixty years. The proportions of Gujarati and Kannada speakers have also remained fairly constant. The percentage of Hindi speakers decreased from 7·59 in 1901 to 1·87 in 1951 and has increased to 2·57 in 1961. Urdu had been included in Hindi in 1901. The proportion of Urdu has slightly decreased from 5·02 in 1951 to 4·99 per cent in 1961. The proportion of Bhilli has decreased to an insignificant level in 1961. Telugu language speakers have increased from 1·16 per cent in 1901 to 1·89 per cent in 1961.

Figures for 1901 are however pertaining to the Ahmadnagar district as it existed in that year.

RELIGIONS

Table C-VII in Part II shows the population by religions for the district and each taluka and town separately. The distribution of religions by rural and urban areas of the district is as follows :—

Religion	Percentage to total population			Percentage of each religion in	
	Total	Rural	Urban	Rural Areas	Urban Areas
(1) Buddhists ..	2·87	2·94	2·31	91·53	8·47
(2) Christians ..	2·72	2·55	4·21	83·68	16·32
(3) Hindus ..	87·69	89·28	74·18	91·08	8·92
(4) Jains ..	1·32	0·94	4·51	63·85	36·15
(5) Muslims ..	5·26	4·27	13·60	72·72	27·28
(6) Others ..	0·14	0·02	1·19	11·63	88·37
All Religions ..	100·00	100·00	100·00	89·45	10·55

Nearly 88 per cent of the population reported their religion as Hindu. Hindus are 89·3 per cent in rural areas and 74·2 per cent in urban areas. Buddhists account for 2·9 per cent in rural areas and 2·3 per cent in urban areas. Muslims are 5·3 per cent of the total population in the district. They are only 4·3 per cent in rural areas, but make as much as 13·6 per cent in urban areas. Christians, Jains and the followers of all other religions are similarly more in urban areas. The Hindus and Buddhists are more numerous in rural areas. The Jains are the most urbanised and the Buddhists are the least urbanised groups.

The comparative position of religions in 1901 and 1961 is as given in the nex. column.

Religion	Percentage to total population	
	1901	1961
(1) Buddhists ..	..	2·87
(2) Christians ..	2·49	2·72
(3) Hindus ..	90 31	87·69
(4) Jains ..	1·94	1·32
(5) Muslims ..	5·22	5·26
(6) Others ..	0·04	0·14
All Religions ..	100·00	100·00

The proportion of Muslims has remained fairly constant over the last sixty years. The proportion of Christians has slightly increased from 2·49 in 1901 to 2·72 per cent in 1961. The percentage of Jains has decreased from 1·94 in 1901 to 1·32 in 1961. The percentage of Hindus has gone down from 90·31 in 1901 to 87·69 in 1961, because some persons belonging to Hindu Scheduled Castes returned their religion as Buddhist or Nav-Bauddha. The combined proportion for Hindus and Buddhists has however slightly increased from 90·31 in 1901 to 90·56 per cent in 1961. It has fairly maintained the same trend. The percentages for 1901 are pertaining to the district of Ahmadnagar as it existed in 1901.

Sex ratio for each religion is as follows :—

Buddhists 1,019, Christians 1,024, Hindus 960, Jains 909, Muslims 959, All religions 962.

Higher sex ratios for Buddhists and Christians indicate that more males from among them are going out of the district for work. Lowest sex ratio obtains for Jains. Some local enquiries may be necessary to explain this deficiency in the number of females among them.

SCHEDULED CASTES

Table SCT-I—Part A in Part II shows the population and its distribution by workers and non-workers for each Scheduled Caste by sex for the district and each taluka separately. Actually, 24 castes are notified as Scheduled Castes but only 11 were reported in the district in 1961. The distribution of these 11 castes by rural and urban areas of the district is as follows :—

Name of Scheduled Caste	Population		Percentage to total population of the district	Percentage of each Scheduled Caste population in	
	Males	Females		Rural Areas	Urban Areas
(1)	(2)	(3)	(4)	(5)	(6)
*All Scheduled Castes	79,872	77,628	8·87	91·48	8·52
(1) Ager	2	..	N	100·00	..
(2) Baked	5	2	N	28·57	71·43
(3) Bhangi	1,238	1,017	0·13	30·78	69·22
(4) Chambhar	15,468	15,055	1·72	92·22	7·78
(5) Dhor	1,290	1,259	0·14	89·49	10·51
(6) Holar	325	328	0·04	100·00	..
(7) Mahar	36,205	35,420	4·03	92·69	7·31
(8) Mahyavanshi	2	3	N	..	100·00
(9) Mang	25,243	24,466	2·80	92·09	7·91
(10) Mang Garudi	(Included in Mang.)				
(11) Pasi	15	16	N	..	100·00

* Inclusive of persons from the Scheduled Castes who have not reported their individual castes. N = Negligible.

The remaining 13 Scheduled Castes for which no one was returned in the 1961 Census in the district are as follows :—

(1) Chalvadi, (2) Chenna Dasar, (3) Garoda, (4) Halleer, (5) Halsar, (6) Holaya, (7) Lingader, (8) Meghval, (9) Mukri, (10) Nadia, (11) Shenva, (12) Tirgar and (13) Turi.

Out of the 11 Scheduled Castes reported in the district, the largest number is of Mahars who are reported from almost all talukas but are predominant in Shrirampur and Kopargaon talukas. The second largest group is of Mangs who like Mahars are spread over all the talukas of the district. Chambhars formed the third group with a similar even distribution. Dhors and Bhangis are 2,549 and 2,255, respectively. The remaining Scheduled Castes together make less than 0·1 per cent of the total population. Due to the traditional association of Bhangis to scavenging and sweeping services, more than two-thirds of their number is in urban areas of the district.

The comparative position of the Scheduled Castes population in 1951 and 1961 in the district is as shown below :—

	Percentage to total population in		
	Total Area	Rural Areas	Urban Areas
All Scheduled Castes—			
1951	11·04	11·54	8·25
1961	8·87	9·07	7·16

The reduction in the proportion from 11·04 to 8·87 per cent is the result of a large number of persons from the Mahar caste returning their religion in the 1961 Census as Buddhists. As a result of the change of religion they are not enumerated as Scheduled Castes, as the Scheduled Castes can be from Hindu and Sikh religions only. The combined proportion of the Scheduled Castes and Buddhists is about 12 per cent of the total population in 1961.

Literacy

Tables SCT-III—Parts A (i) and B (i) in Part II show the literacy and educational levels for each Scheduled Caste.

The percentages of literacy for the district general population, all Scheduled Castes and each Scheduled Caste for rural and urban areas are as below.

Both males and females of the Scheduled Castes appear to have come out of their age-long backwardness in education. They appear to be taking full advantage of the educational facilities and concessions available to them in the district and the gap between them and the district average is now narrowed down considerably.

Name of Scheduled Caste	Percentage of Literacy					
	Rural			Urban		
	Total	Males	Females	Total	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)
District Average	23·54	36·33	10·36	51·12	63·96	36·70
All Scheduled Castes	17·05	28·17	5·67	27·73	40·64	13·58
(1) Ager	No literates			..	..	..
(2) Baked	50·00	50·00	..	40·00	66·67	No literates
(3) Bhangi	28·53	40·80	14·10	32·73	46·58	15·62
(4) Chambhar	20·87	33·96	7·43	31·90	45·36	18·03
(5) Dhor	31·70	46·89	16·03	32·84	48·48	17·65
(6) Holar	13·32	21·85	4·88	..	..	..
(7) Mahar	18·01	29·47	6·35	29·03	42·11	14·79
(8) Mahyavanshi	..	..	..	20·00	50·00	No literates
(9) Mang	14·45	21·70	6·99	21·00	32·72	8·03
(10) Mang Garudi	(Included in Mang.)					
(11) Pasi	..	..	..	45·16	66·67	25·00

Economic Activity

The industrial classification of persons at work and non-workers for the district average, all Scheduled Castes and for each Scheduled Caste is as shown in the next column.

The proportion of workers for the Scheduled Castes is more or less the same as the average for the district. The proportion in cultivation is, however, lower and that in agricultural labourers higher than the district average. This is due to the association of some Scheduled Castes with certain services as well as to a fewer persons owning lands amongst them.

	Percentage of workers in categories			Non-workers
	Cultivator	Agricultural labourer	All other activities	
District Average	29·52	11·04	9·71	49·73
All Scheduled Castes ..	14·15	22·61	13·33	49·91
(1) Ager	..	..	..	100·00
(2) Baked	..	..	28·57	71·43
(3) Bhangi	0·05	0·04	33·39	66·52
(4) Chambhar	15·52	15·40	15·49	53·59
(5) Dhor	8·43	5·02	25·74	60·81
(6) Holar	8·27	35·07	9·49	47·17
(7) Mahar	17·95	25·57	8·65	48·83
(8) Mahyavanshi	..	..	20·00	80·00
(9) Mang	8·89	26·04	17·15	47·92
(10) Mang Garudi	(Included in Mang)			
(11) Pasi	..	..	32·26	67·74

Size of Land Cultivated

Tables C-I and SCT-V-Part A in Part II show a broad classification of cultivating sample households by size of land cultivated for the district, total rural population and all Scheduled Castes. The proportions are as follows:—

Size of land cultivated	District Rural population		All Scheduled Castes	
	Number of sample households	Percentage	Number of sample households	Percentage
All sizes ..	36,182	100·00	2,155	100·00
Less than 5 acres	7,832	21·65	799	37·08
5 to 9·9 acres ..	8,894	24·58	600	27·84
10 to 29·9 acres ..	14,746	40·75	643	29·84
30 acres and over	4,710	13·02	113	5·24

Out of a sample of 36,182 cultivating households, 2,155 or about 6 per cent of households are from the Scheduled Castes in rural areas as against their population which is 9·07 per cent of the total rural population of the district. 37·08 per cent of the cultivating households of the Scheduled Castes are cultivating less than five acres of land as against 21·65 per cent for the district. The percentage of households cultivating land over five acres among the Scheduled Castes is 62·92 per cent as against 78·35 per cent for the district. The proportion of households cultivating larger size holdings is thus comparatively smaller in the case of Scheduled Castes and their participation in agriculture is more as small cultivators and agricultural labourers.

SCHEDULED TRIBES

Table SCT-I-Part B in Part II shows the population of Scheduled Tribes by each Scheduled Tribe separately. Twelve Scheduled Tribes were reported in the district in 1961 Census. The distribution of their population by rural and urban areas is as shown below.

The remaining nine Scheduled Tribes for which no one was returned in the district in 1961 are: (1) Bavacha, (2) Chodhara, (3) Dhanka, (4) Dhodia, (5) Dubla, (6) Gamit, (7) Patelia, (8) Pomla and (9) Vitolia.

Koli Mahadev with 45,968 persons is the largest Scheduled Tribe in the district. Bhil with 42,775 persons is the second, while Thakur with 18,483 and Pardhi with 1,282 are the third and the fourth. The other eight tribes have very small population and together make a little less than 0·15 per cent of the total population of the district.

Name of Scheduled Tribe	Population		Percentage to total population of the district	Percentage of each Scheduled Tribe population in	
	Males	Females		Rural Areas	Urban Areas
(1)	(2)	(3)	(4)	(5)	(6)
*All Scheduled Tribes	55,032	54,795	6·18	98·93	1·07
(1) Barda	1	..	N	100·00	..
(2) Bhil	21,502	21,273	2·41	97·95	2·05
(3) Gond	24	24	N	6·25	93·75
(4) Kathodi	335	270	0·03	99·01	0·99
(5) Kokna	3	..	N	100·00	..
(6) Koli Dhor	182	148	0·02	66·67	33·33
(7) Koli Mahadev	22,980	22,988	2·59	99·82	0·18
(8) Naikda	7	12	N	100·00	..
(9) Pardhi	635	647	0·07	97·58	2·42
(10) Rathawa	7	3	N	100·00	..
(11) Thakur	9,205	9,278	1·04	99·86	0·14
(12) Varli	17	11	N	100·00	..

* Inclusive of persons from the Scheduled Tribes who have not reported their individual tribes. N = Negligible.

Koli Mahadev are mostly from the western talukas of Akola and Sangamner. More than ninety per cent of them are concentrated in Akola taluka. Bhils are mainly from the north-eastern talukas of Kopargaon, Shrirampur, Sangamner, Newasa and Rahuri.

The Scheduled Tribes population in the district has increased from 80,149 in 1951 to 109,827 in 1961.

Literacy and Education

The Scheduled Tribes are very much behind in literacy and education. Their literacy in rural areas is as low as 9·43 per cent and 20·90 per cent in urban areas as against the respective average literacy rates of 23·54 per cent and 51·12 per cent for the district. Female literacy in the rural areas appears to be negligible. Educationally they appear to be a much more depressed group than the Scheduled Castes.

Economic Activity

More than 92 per cent of the workers from the Scheduled Tribes in the district are working in agriculture i.e. at cultivation and as agricultural labourers. The proportions of workers working both as cultivators and agricultural labourers are more than the respective State averages. The proportion of workers to total population is higher among the Scheduled Tribes than that for the total population in the district.

WELFARE OF BACKWARD CLASSES

The subject of welfare of Scheduled Castes, Scheduled Tribes and other Backward Classes in the district is now in the purview of the Zilla Parishad. In the membership of Standing Committee which is the most powerful committee of the Zilla Parishad at least two members from Scheduled Castes, Scheduled Tribes and other socially and educationally backward classes are required to be elected by the Parishad. This Standing Committee acts as the Subject Committee for that subject and the District Social Welfare Officer works under it. The Zilla Parishad is also legally required to spend adequate amounts for the amelioration of the condition of the Scheduled Castes, Scheduled Tribes and of any socially and educationally backward classes and in particular for the removal of untouchability.

Various schemes for the welfare of Scheduled Castes, Scheduled Tribes and other educationally or socially backward classes are in operation in the district :—

(1) *Educational.*—These include schemes of granting tuition fees at all stages of education irrespective of age and income, examination fees of recognised examinations and scholarships to the students from the Scheduled Castes, Scheduled Tribes, Nomadic and semi-Nomadic Tribes, Vimukta Jatis and the Backward Classes. The concession is awarded in the Primary Schools, High Schools or Technical Schools. 3,622 students benefited from and Rs. 96,600 were spent on these schemes during the year 1962-63. Rs. 3,95,765 were spent on 59 backward class and 13 cosmopolitan hostels in the year 1962-63. Rs. 19,710 were also spent as building grant to one Scheduled Tribe and 3 Scheduled Caste hostels.

(2) *Schemes for Economic Uplift.*—These include schemes of granting loan-*cum*-subsidy for cottage industries and professions and of assistance for purchase of milch cattle to the Scheduled Castes and other Backward Classes. Under the scheme of loan-*cum*-subsidy for cottage industries and professions, Rs. 15,750 were given to 138 beneficiaries from the Scheduled Castes and backward classes from under-developed rural areas during the year 1962-63 and Rs. 3,700 were spent on 16 beneficiaries under the scheme of assistance for purchase of milch cattle.

(3) *Housing.*—A number of housing societies of backward classes have been formed in the district. These societies construct houses for their members. Financial assistance in the form of loans and subsidies is given to these societies. Assistance in cash or kind for repairs to houses of Scheduled Castes and other backward classes is also provided. Under this scheme Rs. 6,100 were given to 60 beneficiaries and Rs. 33,000 were incurred over one colony during 1962-63.

(4) *Drinking Water Wells.*—An amount of Rs. 5,098 was spent under this scheme. Rs. 348 were spent for the repairs of a well in Scheduled Castes locality while Rs. 4,750 were incurred for 4 drinking water wells for Scheduled Castes and Scheduled Tribes.

(5) *Medical Aid to Scheduled Castes.*—Monetary aid is given to deserving persons belonging to the Scheduled Castes and Rs. 600 were spent during the year on six beneficiaries.

(6) *Agricultural.*—Financial assistance to poor deserving agriculturists from Scheduled Tribes, Vimukta Jatis, under-developed rural areas and other backward classes to purchase ploughs, bullocks, implements, seeds, carts, etc., is given. Rs. 23,160 were spent on 230 beneficiaries under this scheme during the year 1962-63.

(7) *Schemes for Removal of Untouchability.*— These include various schemes of publicity against untouchability. Sanskar Kendras and Balwadis are organised, film shows and gatherings are addressed at fairs and other places. Kirtan programmes and Melas, inter-caste dinners, celebration weeks and days are also arranged. Building sites are given to Scheduled Castes in caste Hindu localities and subsidy is paid to caste Hindu landlords for letting their premises on hire to Scheduled Castes. Prizes are also awarded to villages which show outstanding work for removal of untouchability. Rs. 11,190 were spent under the schemes during the year 1962-63.

The schemes which were already in operation before the Third Five-Year Plan are treated as committed schemes and those added under the Third Plan are separately treated as Plan schemes. The expenditure described above against each scheme is out of the committed schemes and includes expenditure on the Plan schemes. There are in addition some more schemes sponsored by the Central Government.

Economic Criterion of Backwardness

Castewise basis of classification of "Other Backward Classes" has now been replaced by a new classification based on income. The income limit was raised from Rs. 900 per annum to Rs. 1,200 per annum with effect from 1st June 1960. All persons whose annual income from all sources does not exceed this limit are irrespective of their religion, caste or community treated as belonging to the "Other Backward Classes".

Concessions to Buddhists

From 1st May 1960, the Scheduled Castes converts to Buddhism are treated as eligible for all concessions and facilities available to Scheduled Castes except the statutory concessions under the Constitution and certain special schemes for removal of untouchability, etc., which cannot by their very nature apply to non-Hindus

EDUCATION

The district has made very rapid progress in literacy and education during the last thirty years.

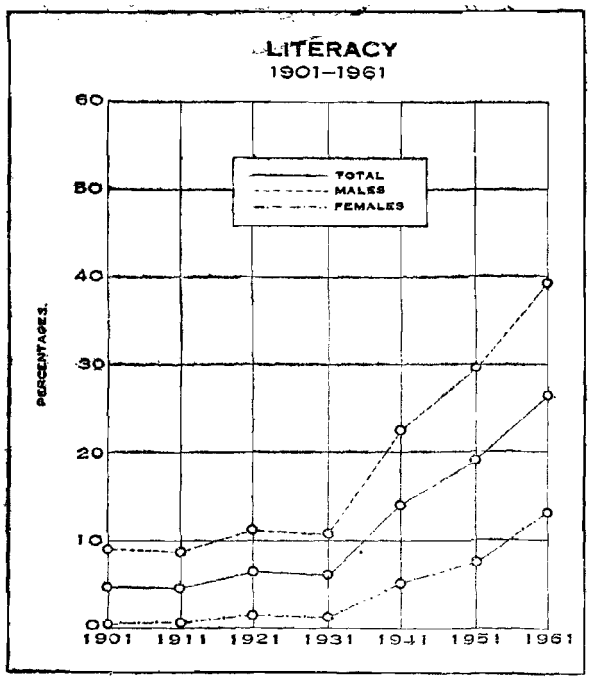

Growth of Literacy

Percentage of literacy in the district for total, males and females since 1901 is as follows :—

	Total	Males	Females
1901	4·67	8·93	0·43
1911	4·65	8·59	0·65
1921	6·40	11·21	1·49
1931	6·02	10·60	1·31
1941	13·87	22·48	5·01
1951	18·80	29·40	7·90
1961	26·45	39·36	13·03

Figure to the right shows the growth of literacy in the district for total population, males and females separately.

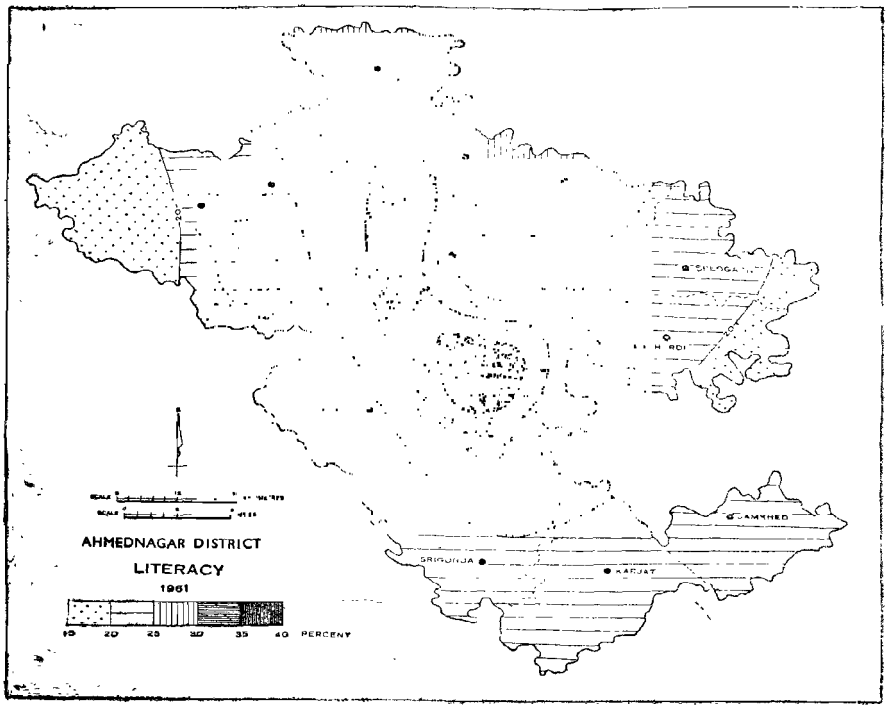

The literacy percentage has increased more than four times during the last thirty years. The improvement has been very substantial in the decades 1931—41 and 1951—61. Female literacy has, however, shown progress only during the last decade 1951—61. The scheme of compulsory primary education introduced by the State Government in 1947 is one of the contributory factors leading to the remarkable improvement in education in the district.

The Primary Census Abstract in Part II shows the number of literate males and females for total, rural and urban areas of each taluka separately. The Village Directory in Part I furnishes such numbers for each village and for each ward of every town separately.

Percentage proportions out of the total population for males and females are shown below for total, rural and urban areas of each taluka separately.

Figure to the right also shows the spread of literacy in the district by isopleths.

The literacy rates in the district are a little higher than the averages for the State both for rural and urban areas. The district average for total population however gets depressed lower than the State average because of the larger proportion of rural population in the district.

Literacy is highest in the region roundabout Ahmadnagar city. Next highest literacy rates are found in the central portion running north to south comprising parts of Ahmadnagar, Rahuri, Parner and Shrirampur talukas. Literacy rates drop down beyond these two regions as we go west or east. They are lowest in the hilly regions of Akola taluka and the parts of Shevgaon and Pathardi talukas.

Within the district, Ahmadnagar taluka has the highest literacy for total population. But Shrirampur taluka has the highest literacy for rural areas, for total population and for males, while Rahuri has the highest literacy rates for females. For urban areas also, Ahmadnagar taluka which includes Ahmadnagar city naturally has the highest literacy rates for total, males and females.

Talukawise Literacy Percentages

State/District/Taluka	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
MAHARASHTRA	29·82	42·04	16·76	21·46	33·51	9·34	51·07	61·62	37·90

12 Karjat Taluka	21·23	31·96	9·93	21·23	31·96	9·93	..	..	..
13 Jamkhed Mahal	22·12	34·01	9·78	22·12	34·01	9·78	..	..	..

Literacy by Age

The percentage of literates by age-groups for the district total, rural and urban areas are as shown below. Actual figures are shown in Table C-III-A, B and C in Part II which also gives figures for different educational levels separately.

Male literacy rates are the highest in the age-group 15—34 and those for females are highest in the age-group 5—14. This indicates that female literacy has started improving only recently since the introduction of the scheme of compulsory primary education.

Age-group	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
All ages	26·45	39·36	13·03	23·54	36·33	10·36	51·12	63·96	36·70
0—4	..	..	..	..	..	..	..	..	..
5—14	34·73	45·96	23·14	32·13	43·94	20·02	56·97	62·79	50·66
15—34	36·77	56·37	16·84	32·57	52·38	12·78	68·81	84·68	50·39
35—59	23·10	37·74	6·58	19·84	33·68	4·32	51·54	72·22	26·92
60+	14·32	26·16	2·39	11·95	22·30	1·50	39·78	63·89	11·82

Primary Education

Table 15 in Part III shows the number of primary schools and pupils in them for the district and each taluka in 1951, 1956 and 1961.

The number of primary schools and their classification as on 31st March 1962 are as follows :—

	Total	Basic			Non-basic		
		Senior basic	Junior basic	Single teacher	Single teacher	I-IV multi-teacher	Middle I-VII
Total No. of Schools.	1,743	278	25	117	766	202	355
Zilla Parishad ..	1,410	269	24	117	511	169	320
Municipal ..	25	4	..	..	1	2	18
Cantonment Board.	5	..	..	..	..	1	4
Private ..	303	5	1	..	254	30	13

There has been a rapid growth in the number of primary schools in the district during the last ten years. Their number increased from 1,433 in 1951 to 1,558 in 1956 and to 1,692 in 1961. On 31st March 1962 it stood at 1,743. Out of the 1,743 primary schools 1,410 or 80·90 per cent are managed by the Zilla Parishad, 17·38 per cent are managed by private institutions, 1·43 per cent by Municipalities and 0·29 per cent by Cantonment Board. The State Government's share in the year 1961-62 was 87·0 per cent of the total expenditure. The expenditure on primary education is incurred by the State Government through grants-in-aid to the Zilla Parishad and building loans and grants to primary teachers' training colleges. Similarly, wards of parents whose annual income does not exceed Rs. 1,200 get free education. The cost borne by the schools on this account is reimbursed from the State Government. Students from Scheduled Castes and Scheduled Tribes get free education at the cost of the Government and scholarships are given to them at the rate of Rs. 3 per year in I and II standards and Rs. 6 per year in III and IV standards. Government also gives aid to backward class and mixed hostels for meeting their cost on students belonging to Scheduled Castes and Scheduled Tribes.

The State Government's policy of converting primary schools into basic schools has also made steady progress. In 1955-56 there were 215 basic schools. This number stood at 420 on 31st March 1962.

By 31st March 1962, five towns and 1,247 villages in the district had primary schools and 44 villages had schooling facilities, i.e., primary schools situated within a mile from the village. Twenty-seven villages did not have even schooling facilities. Total number of teachers was 5,275 and 3,886 or 73·7 per cent of them were trained teachers.

Other indices of the progress of primary education in the district compared with those of the State averages are as shown on page (28).

(As on 31st March 1962)

	Ahmadnagar District	Maharashtra
Average population served by a primary school	1,029	1,135
Average area served by a primary school .. .. (sq. miles)	3·8	3·4
Pupils per teacher	42	38
Pupils per school	126	127
Average annual salary per teacher (Rs.)	1,146	1,250
Average annual expenditure per school .. .. .. (Rs.)	4,026	4,903
Average number of teachers per school	3·0	3·3
Percentage of trained teachers ..	73·7	64·8

The scheme of compulsory primary education was introduced in 1947 in villages with a population of over 1,000 for children in the age-group 7—8 and was further extended in 1954 to villages having a population of over 1,000 according to 1951 Census. Gradually the scheme was applied to children in the age-group 7—9 and 7—10. Later on the scheme was applied to children in the age-group 7—11 in all the villages having a population of 200 or more.

One of the Third Plan schemes is to extend the scheme of compulsory primary education to childre in the age-group 6—11. A provision of Rs. 27·01 lakhs has been made for primary education in the Third Plan of the district. During the Plan period, additional 130 teachers would be appointed in primary schools. The number of students is expected to rise by 6,500. Similarly, 205 class-rooms are proposed to be built during this period.

Secondary Education

The number of institutions imparting secondary education and number of pupils both boys and girls for the years 1951, 1956 and 1961 are shown in Table 15 in Part III. A list of high schools with number of students for each of them may be seen in Table 16.

By 31st March 1962, the number of institutions and their classification in the district are as follows :—

	Total	Vocational High Schools	Higher Secondary Schools		Middle Secondary Schools
			Multi-purpose	Ordinary	
State	1	..	1	..	..
Municipal	..	..	..	..	..
Private	111	2	7	101	1

Total number of students on roll in the secondary schools as on 31st March 1962 was 25,799. Out of them, 20,816 were boys and 4,983 girls. Total number of teachers was 1,067. Out of them 764 or 71·6 per cent were trained. Other indices of secondary education compared to the State averages are as follows :—

	Ahmadnagar District	Maharashtra
Population served by each high school ..	16,017	13,805
Area served by each school .. (sq. miles)	59·0	40·8
Pupil-teacher ratio	24	25
Pupils per secondary school	230	338
Average annual salary per teacher (Rs.)	1,668	1,870
Average annual expenditure (direct) per secondary school .. .. (Rs.)	25,679	39,543
Average number of teachers per secondary school	9·5	13·7

The Figure on page (29) shows the proportions for literates and different educational levels among males and females for rural and urban areas separately.

The progress made in secondary education during the last decade is also quite striking. The number of secondary schools increased from 26 in 1951 to 40 in 1956 and to 97 in 1961. This figure stood at 112 on 31st March 1962. The secondary schools are dispersed throughout the district. In 1961 Akola and Karjat talukas and Jamkhed mahal had three each, which is the smallest number for any taluka in the district. Ahmadnagar taluka had as many as 23 secondary schools.

Private institutions alone manage almost all the secondary schools in the district. The Government share in the total expenditure on secondary education is, however, 63·7 per cent (in 1961-62) and is incurred through different schemes of grants for maintenance, salaries, buildings, building sites, equipment, freeships, scholarships, loans, etc., and special concessions to Scheduled Castes, Scheduled Tribes, or other Backward Class students.

Looking to the fast growth in the number of pupils in primary schools, the number of pupils in the secondary schools may rise to 27,000 by 1965-66 and to 30,000 by 1970-71.

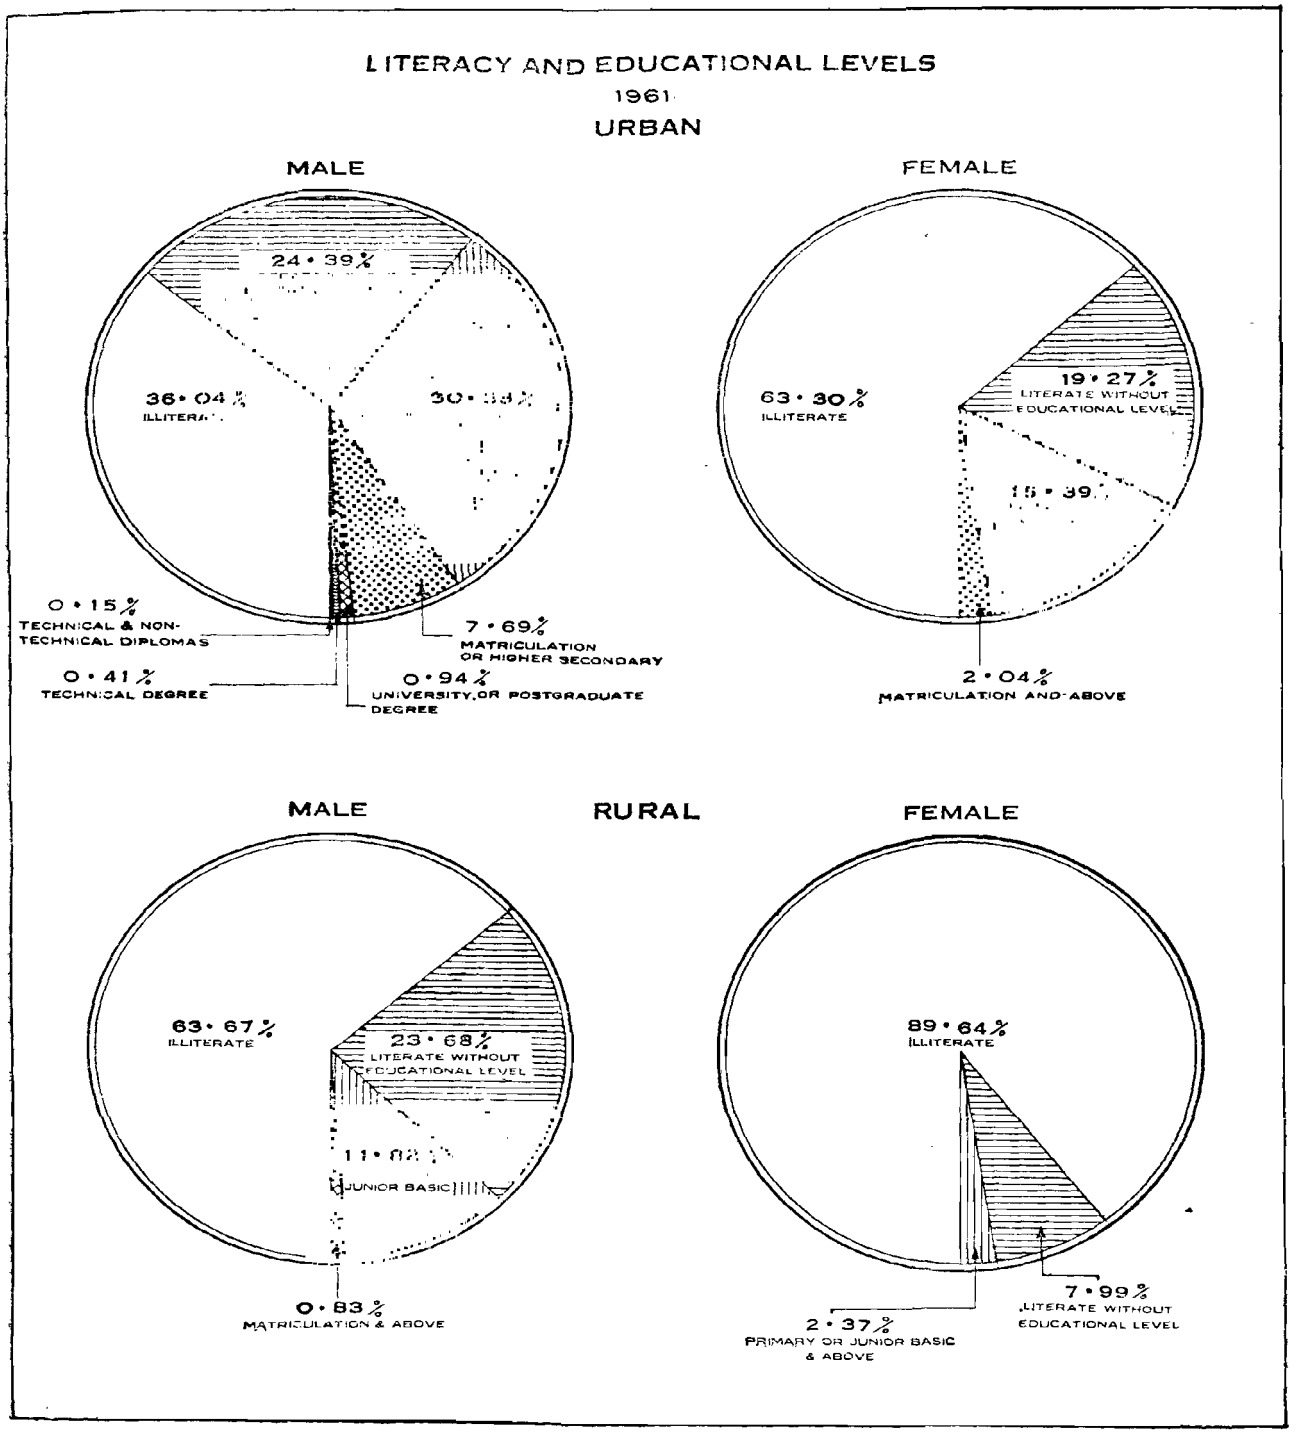

S. S. C. Examinations

Secondary School Certificate Examination Board, Poona, conducts public examinations at the end of the secondary school course. Two examinations are held every year in March and October and Ahmadnagar, Kopargaon, Sangamner, Shrirampur and Karjat are the examination centres in the district. The number of candidates who appeared and passed from those centres during the year 1962 are as follows :—

Examination held in—	Appeared	Passed
March	3,928	2,115
October	1,382	681
Total ..		2,796

Higher Education

List of colleges is given in Table 16 in Part III along with the 1960-61 number of students for each college. The number of colleges increased from 1 in 1951 to 3 in 1961. This number stood at 5 in 1963-64. The number of college students rose from 579 in 1951 to 1,605 in 1961. The colleges now provide education in Arts, Science and Commerce. All the colleges are managed by private institutions and receive grants for maintenance, dearness allowance and buildings from Government.

Technical Education

The Government High School at Ahmadnagar was converted into a Technical High School from June 1955 for providing facilities for technical education. An Industrial Training Institute has now been started in that Technical High School. It is managed by the State Government with the assistance of the Union Government. The institute gives training in two-year courses for Draughtsmen, Electricians, Welders, Turners and Fitters.

A degree course for A.M.I.E. has also been introduced in the Defence Ministry's Technical Development Establishment (Vehicles) at Ahmadnagar.

Libraries

There are 23 libraries in the district which are recognised by the Government of Maharashtra as standing on 31st March 1964 among which one is a district library, 12 taluka libraries and 10 town libraries. The district library gets a Government grant every year up to a maximum of Rs. 6,000. Taluka and town libraries each get a Government grant up to a maximum of Rs. 1,000.

Printing Presses, Journals and Newspapers

There are 50 printing presses in the district. Twenty-seven periodicals are being published, out of which one is a daily, 13 are weeklies, 6 monthlies and 7 journals.

Radio Licences

The number of Radio licences has increased steadily from 3,247 in 1955-56 to 6,327 in 1959-60 and to 8,084 in 1960-61.

Cinema Theatres

There were 21 Cinema Theatres in the district on 21st December 1963, out of which 13 were permanent, 4 quasi-permanent and 4 touring cinema theatres.

HEALTH AND MEDICAL AMENITIES

The Health Department's work in the district is now in the purview of the Zilla Parishad. A Subject Committee looks after its working and the District Health Officer works as Secretary to that Committee as well as the Officer-in-charge of Health activities in the district.

Drinking Water Supply

Column (5) in the Village Directory in Part I shows the sources of supply and adequacy of drinking water for each village in the district.

Only three towns and one village have piped water supply. Out of the remaining towns and villages, 241 villages draw drinking water from rivers, 2 villages from tanks, 4 villages from canals, 17 villages from nallahs, 1 town and 697 villages from wells and 1 town and 356 villages have more than one of these sources of water supply. The water supply is not adequate in summer in 2 towns and 196 villages.

Malaria Control

An intensive campaign against malaria was launched in this district during the period of the First Five-Year Plan under the National Malaria Eradication programme. Under this scheme, each house in every taluka of the district was sprayed twice with DDT every year. These operations were continued during the Second Plan period also.

Anti-T.B. Campaign

A mass B.C.G. Vaccination scheme was introduced in the district in 1954 to combat the menace of tuberculosis. There is a T.B. Sanatorium for T. B. patients at Aranagaon near Ahmadnagar. It has accommodation for 110 patients.

Leprosy Control

Incidence of leprosy is high particularly in Jamkhed mahal. There is one centre at Jamkhed for treating leprosy patients. There are also four survey, education and treatment units in the district. There are proposals for opening one such unit in each development block.

Eradication of Smallpox

The smallpox was severe in the years 1958 and 1959 when deaths due to this disease were 640 and 337, respectively. Talukas of Karjat, Shrigonda, Ahmadnagar, Sangamner, Kopargaon and Newasa were affected more in 1958 and Parner, Newasa, Pathardi, Sangamner, Shevgaon and Ahmadnagar in 1959. The number of annual vaccinations (both primary and revaccinations) has steadily increased from 2·4 lakhs in 1957 to 3·5 lakhs in 1960.

Family Planning Centres

There are 7 family planning centres in the district located at the following places, *viz.*, (1) Rahata, (2) Wambori, (3) Pimpalgaon-Pisa, (4) Jeur, (5) Takli Dokeshwar, (6) Chas and (7) Rajur. More than 2,500 vasectomy operations were performed during 1960-61.

Hospitals

There were 3 hospitals in 1960. One of them was the Civil Hospital (now called the General Hospital) at Ahmadnagar which is managed by Government. The other two are the Ayurvedic Hospital conducted by a private organisation and the Booth Mission Hospital conducted by an American mission.

Dispensaries

In 1961, there were 38 Government or Government aided dispensaries.

Public Health Centres

Seven combined medical and public health units functioned in different parts of the district in 1960.

Two maternity and child health centres at Parner and Jamkhed have been established in collaboration with UNICEF and the World Health Organisation.

The total number of persons working as Physicians, Surgeons, Dentists, Nurses, Pharmacists and other medical and health technicians in the district is 1,558.

The persons returned in the 1961 Census as Physicians, Surgeons and Dentists and their classification by sex are shown in Table B-V in Part II. The number of medical personnel per one lakh population in the district is 9 as against the average of 55 for Maharashtra.

HOUSING

Tables E-I, E-II, E-IV and E-V in Part II present material on different aspects of housing in rural and urban areas of the district and each taluka separately.

64·8 per cent of the houses are used as dwellings, 14·9 per cent as cattle-sheds, etc., 11·2 per cent were vacant at the time of the Census and the remaining used as shops, workshops or factories, schools, etc.

The density of residential houses per square mile has increased along with the density of population per square mile from 37·0 in 1951 to 48·5 in 1961. The number of persons per residential house has, however, decreased from 5·89 in 1951 to 5·64 in 1961. This may indicate an increased mobility of population from rural to urban areas as well as a tendency towards smaller families in urban areas.

Classified by "owned" and "rented" categories 75 per cent of the dwellings are owned and 25 per cent are rented. The proportion of owned in rural areas is higher (81 per cent) and very much lower (33 per cent) in urban areas. Even this low proportion of 33 per cent for the urban areas is a little higher than the average of 30 per cent for all urban areas in Maharashtra.

Out of the various materials used for walls, stone is predominant in the district with a proportion of 48·3 per cent. Its proportions in the talukas of Kopargaon, Shrirampur, Shevgaon and Ahmadnagar are, however, lower and the difference is made up by grass, leaves, reeds or bamboo, etc., in Kopargaon and Shrirampur and by mud and burnt bricks in Shevgaon and Ahmadnagar talukas, respectively.

Stone is not used as much in urban areas as in rural areas. Its proportion in urban areas is only 11·1 per cent as against 53·4 per cent in rural areas. Burnt bricks appear to be predominant in urban areas with a proportion of 61·7 per cent. Unburnt bricks are used in 15·3 per cent of dwellings in rural areas and 10·1 per cent of dwellings in urban areas. Mud walls with 15·2 per cent of the dwellings appear to be common in rural areas than in the urban (2·0 per cent).

Out of the materials of roof, grass, leaves, reeds, thatch, etc., are predominant in the district with a proportion of 35·0 per cent. These are, however, less common in urban areas. Their proportion in urban areas is only 22·0 per cent as against 36·9 per cent in rural areas. The district lies in the zone of scanty rainfall of 508 mm. to 762 mm. annually. Most of the roofs are, therefore, flat with mud roofs resting on wooden beams and rafters. Tiles are used predominantly in Akola taluka which adjoins Thana district while corrugated iron or zinc sheets are common in Ahmadnagar taluka. These roofs are predominant in urban areas with 32·2 per cent. They are less common in rural areas and make only 16·7 per cent. Roofs of concrete, brick and lime are more common in urban areas than in rural.

Classified by the number of rooms occupied 74·6 per cent of households are occupying one-room dwellings and 17·3 per cent are occupying two-room dwellings. Households occupying more rooms are more in urban areas than in rural areas. Average number of persons per room is 3·95 for total, 4·14 for rural and 2·93 for urban areas.

AGRICULTURE AND IRRIGATION

Agriculture is the most important activity and engages 80·69 per cent of the working population in the district. Most of the others also work in industries related to processing of agricultural produce or trade, transport and services ancillary to agriculture.

Cultivating Seasons

As in the other areas of the State, there are two agricultural seasons, *viz.*, Kharif and Rabi. But the district has much more area under rabi than kharif crops. Rice, bajri, tur, groundnut and cotton are the main crops grown in kharif season and wheat, rabi jowar and gram are the principal crops of rabi season. Jowar is grown in both seasons. But compared to the area under rabi jowar the area under kharif jowar is negligible.

Sugarcane is a perennial crop and its importance in the economy of the district is increasing gradually.

Crop calendar giving monthwise operations in respect of principal crops in the district is as shown below :—

Name of the crop	Agricultural Operation			
	April	May	June	July
(1)	(2)	(3)	(4)	(5)

Land Utilisation

The pattern of land utilisation in the district and each of its talukas is shown below compared with that of the State. All the figures are based on average for three years from 1957-58 to 1959-60.

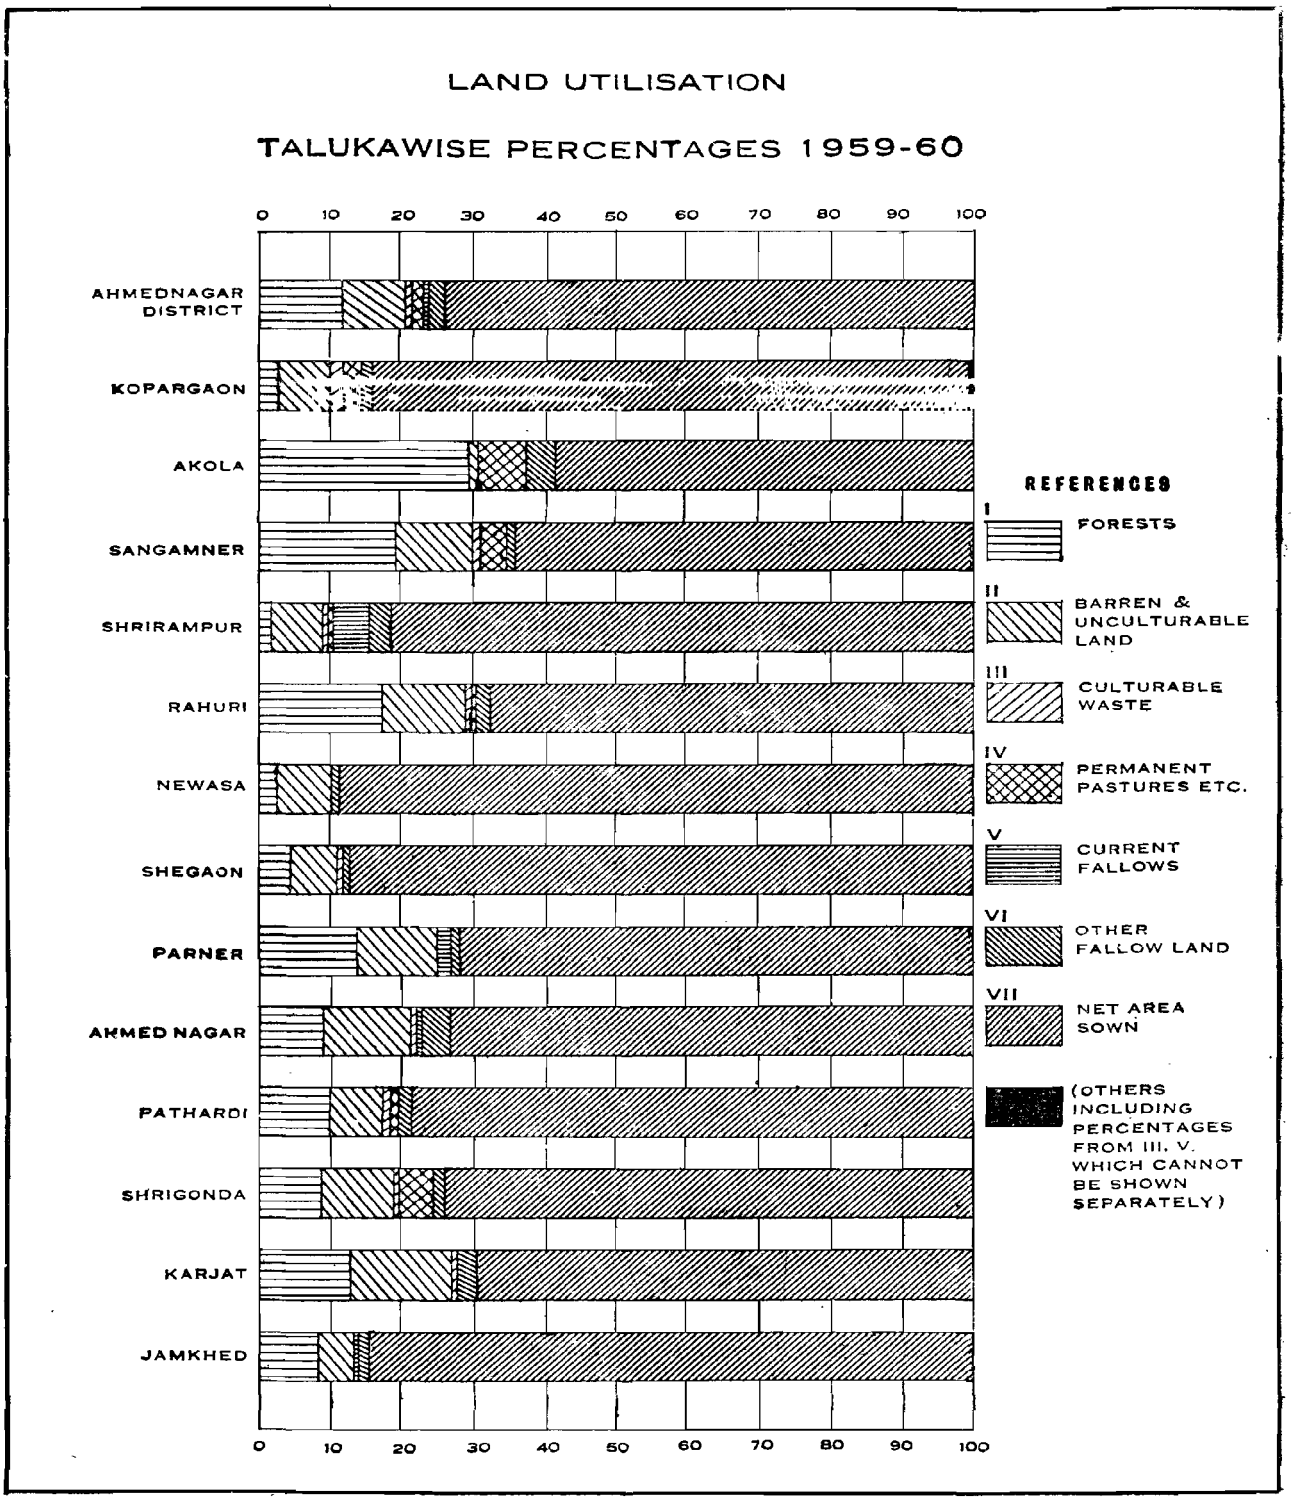

The Figure on page (34) shows the land utilisation pattern for the year 1959-60 for the district and each taluka separately.

The net area sown in the district is 73·68 per cent of the total geographical area which is much higher than the corresponding average of 57·69 per cent for the State. Excepting for the barren and unculturable waste categories, the district has much lower proportions than the State averages under all other types of land utilisation.

Within the district the proportion of the net area sown to the total geographical area ranges between 56·97 per cent for Akola taluka and 87·13 per cent for Newasa taluka. The proportion is low in Akola taluka which covers valuable forests to a large extent and also in Sangamner taluka because of the high proportions of barren and unculturable categories and forest. The central talukas of Rahuri, Ahmadnagar, Parner and Shrigonda also have high proportions of barren lands. The proportion of fallow lands is significantly low in all the talukas except Shrirampur (8·46 per cent).

Because of the changes in the classification of land utilisation effected in 1950-51, it is not possible to determine if there has been any shift in the pattern of land utilisation during the last 40—50 years or not.

Administrative Unit	Percentage of geographical area										
	Total geographical area	Forests	Barren and unculturable	Land put to non-agricultural uses	Culturable waste	Permanent pastures	Miscellaneous tree crops and groves	Current fallows	Other fallow land	Net area sown	Gross cropped area

Crop Pattern

The proportions of areas under important food and non-food crops for the district and each of its talukas are shown below compared with the corresponding figures for Maharashtra State. All figures are averages for three years 1957-58 to 1959-60.

Figure at page (37) shows the crop pattern for the district and each taluka separately.

Jowar is the predominant crop of the district occupying 44·05 per cent of the gross cropped area as against the average of 30·95 per cent for Maharashtra. According to the acreages under this crop, the district ranks second in the State. The next in importance is bajri covering 22·74 per cent of the gross cropped area.

The district has the largest area under sugarcane; the proportion of area under sugarcane to the gross cropped area in the district is nearly four times higher than the average for the State. More than one-fourth of the total area under sugarcane in Maharashtra is in this district.

Compared to the State averages, the district has slightly lower proportions under wheat, other cereals and pulses. The proportion of rice is however insignificantly low. All the food crops together make 84·89 per cent of the gross cropped area which is considerably higher than the average for the State (69·88 per cent).

Oilseeds cover half the area under non-food crops. Safflower is the most important oilseed in the district covering more than half the area under oilseeds. The proportion of groundnuts is not even half of the State average. Cotton, tobacco and other fodder crops also have low proportions of the gross cropped area.

The crop pattern of the district may be considered superior to the average crop pattern of the State. The district indeed has higher proportions of low value crops like jowar and bajri and small proportions of high value crops like rice, wheat, cotton and groundnut. But these are more than compensated by the large area under sugarcane and the best yield per acre for that crop. In the all-India setting however the crop pattern of the district is considerably poor.

Comparable statistics for the entire district are not available for the years prior to 1950-51. It is, therefore, not possible to study the changes in the cropping pattern of the district over the last 50—60 years. The District Gazetteer reports the following proportions of different crops to the gross cropped area in 1881-82 :—

Rice 0·36 per cent, Wheat 7·67 per cent, Jowar 34·62 per cent, Bajri 39·76 per cent, Other Cereals 2·09 per cent, Pulses 8·23 per cent, Sugarcane 0·14 per cent, Oilseeds 4·48 per cent, Cotton 1·64 per cent and Tobacco 0·33 per cent.

Bajri was the principal crop of the district in 1881-82. Jowar has now taken its place. The proportion of wheat has also gone down considerably. The proportion of sugarcane has increased to a large extent. The proportion of non-food crops also seems to have increased during the last 75 years.

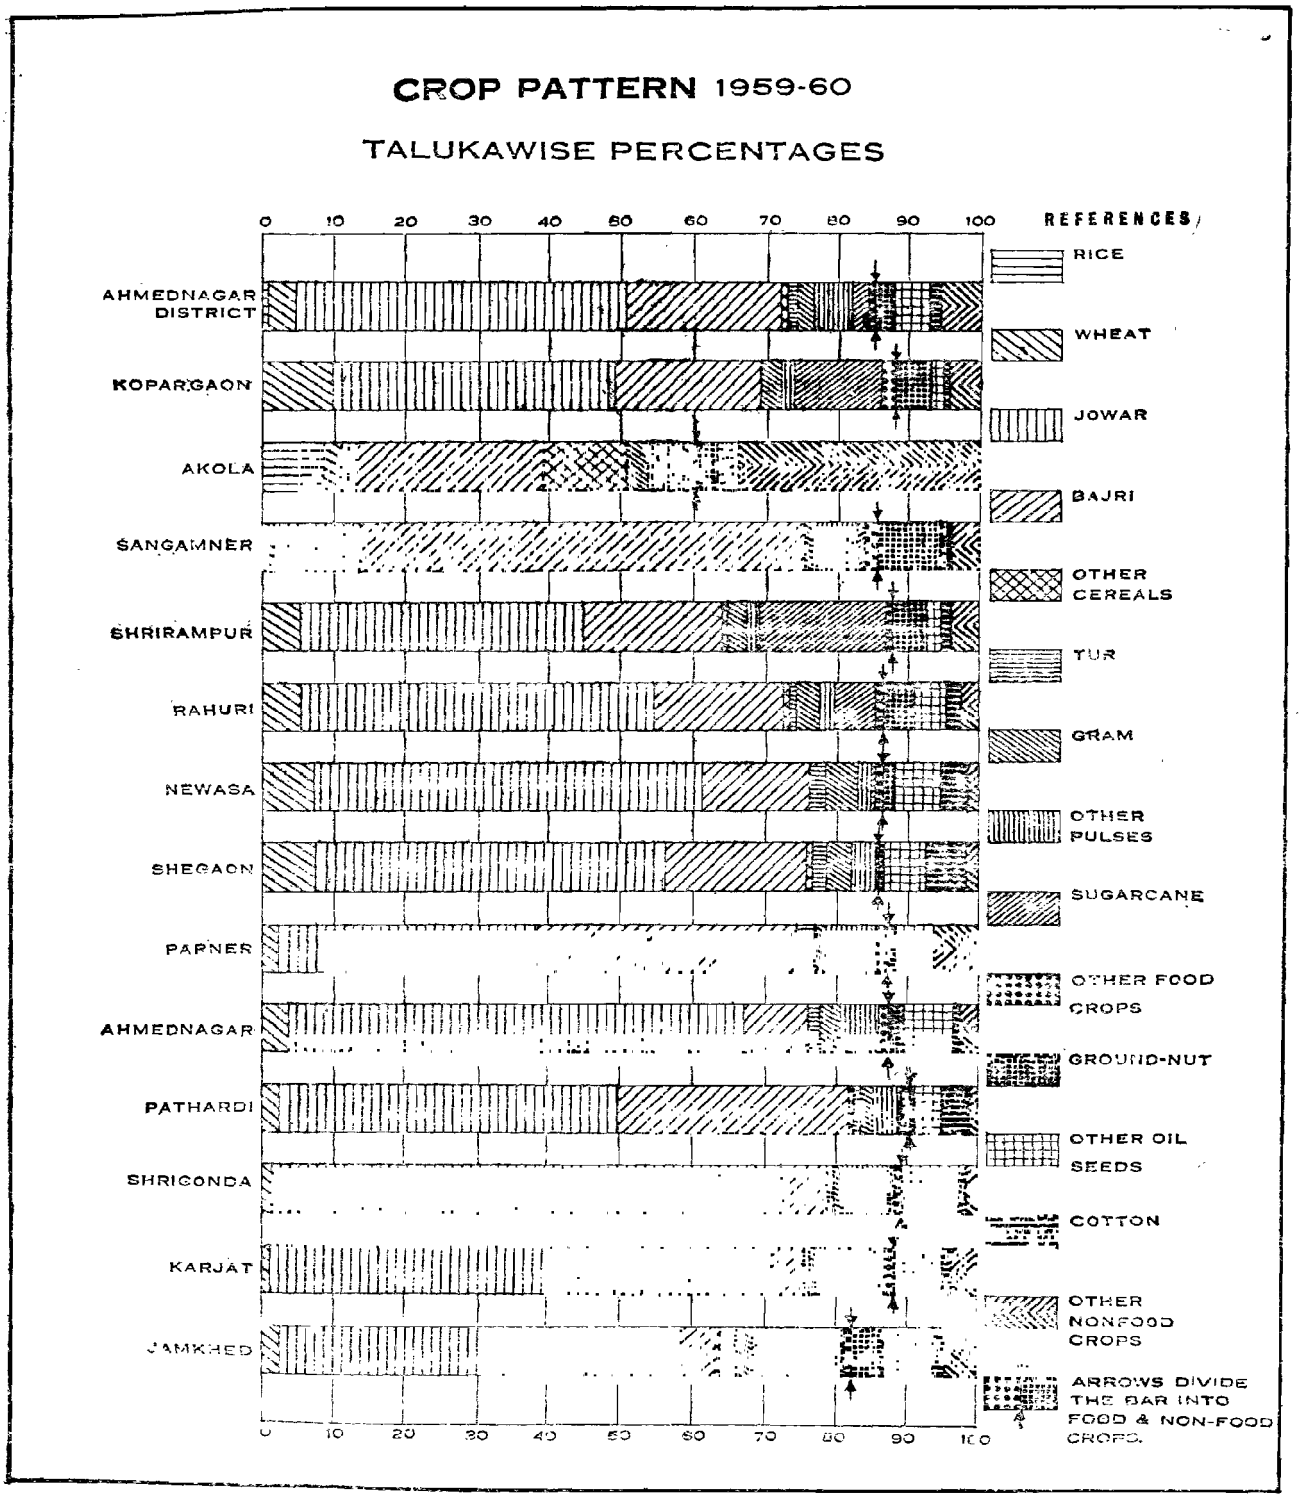

Even during the last 10 years there has been an increase in the proportion of area under jowar and decline in the proportion of bajri. The proportion of sugarcane has increased from 1·6 per cent in 1951-52 to 2·4 per cent in 1959-60. This is obviously the result of setting up of the new sugar factories. The proportion of cotton has however declined from 3·6 per cent to 1·7 per cent.

Within the district the cropping pattern varies considerably according to rainfall, irrigation and soil types. The principal crops of the north-western taluka of Akola are bajri, rice and ragi. The northern tract consisting of Kopargaon, Shrirampur and Rahuri talukas has a network of canals and sugarcane and fruits are the principal cash crops of this zone. The southern part of the district consisting of Ahmadnagar, Parner, Karjat and Shrigonda talukas and Jamkhed mahal is a scarcity area. The soils are rich but rainfall is scanty and uncertain. This is principally a jowar-growing tract. Its yield depends more upon the favourable showers received in November-December and good years give bumper produce which somehow sustains the people in the scarcity years. Jowar is grown to a large extent in all talukas except Akola and Sangamner. The latter taluka has a very high proportion of area under bajri (61·85 per cent). Rice is grown in Akola taluka and has 8·09 per cent of its gross cropped area. Its proportions are almost negligible in all the other talukas. Wheat has significant proportions in the northern talukas. The southern talukas of Parner, Ahmadnagar, Shrigonda, Karjat and Jamkhed have considerable proportions of pulses. Sugarcane is mainly grown in the irrigated areas of Kopargaon, Shrirampur, Rahuri and Sangamner talukas. Shrirampur taluka has the highest proportion (17·39 per cent). Among the non-food crops, groundnut has a high proportion (10·40 per cent) in Sangamner taluka. The southern talukas have higher proportions under "other oilseeds" mainly safflower which is cultivated side by side with rabi jowar. Cotton is confined to the north-eastern tract comprising Newasa, Shevgaon and Pathardi talukas.

Nine-year average yields and 1958-59 acreages and outturns of important crops are shown below compared with the corresponding figures for Maharashtra taken as 100 :—

	Nine-year average yield per acre	1958-59 area	1958-59 outturn

The average yields for rice, wheat, bajri, jowar, pulses and ragi are lower than the State averages. The difference is considerable in case of jowar and ragi. The yields of sugarcane and cotton are higher than the State averages. In 1958-59 one-fourth of the area under sugarcane in Maharashtra was in this district. Because of the higher yields the district share in the outturn of sugarcane was more than one-third of the total for the State.

The Techno-Economic Survey of Maharashtra has estimated the gross value of output per acre of cropped area in 1955-56 at Rs. 86 for the district as against Rs. 76 per acre for the State and Rs. 126 for India.

The density of population, proportion of workers on land to total workers, gross area sown per worker on land and the proportion of irrigated area to gross cropped area are shown below for the district and each of its talukas compared with the State average :—

Administrative Unit	Density of population per square mile	Percentage of workers working on land to total workers	Gross area sown per worker on land (in acres)	Percentage of irrigated area to gross cropped area
MAHARASHTRA ..	334	69·91	3·50	6·23

Karjat Taluka ..	177	87·26	6·59	8·39
Jamkhed Mahal ..	217	87·44	5·88	7·97

58·73 per cent of the total workers in the district work as cultivators and 21·96 per cent as agricultural labourers. 80·69 per cent of the total working population thus works on land. The gross cropped area per worker on land in the district is 4·56 acres against 3·50 acres for Maharashtra. This higher area cultivated per worker combined with the intensive cultivation of sugarcane raises the annual agricultural production per worker on land in the district to a substantially higher level than the State average.

The percentage of workers working on land to the total workers is somewhat even for almost all talukas except Ahmadnagar taluka which because of its large urban population has quite a low proportion (57·12 per cent) of them. The gross area sown per worker on land varies considerably from 2·70 acres for Shrirampur taluka to 6·59 acres for Karjat taluka. The figures are naturally higher in the scanty rainfall areas of Karjat, Shrigonda, Parner and Newasa talukas and Jamkhed mahal. The intensity of cultivation and productivity of soils is reflected in the number of workers upon land to 100 acres of cultivable land. Their values are the highest, i.e., 35 and 34 in Shrirampur and Kopargaon talukas against 27 in Rahuri, 26 in Akola, 25 in Sangamner, and 21 or less in the remaining talukas of the district.

The proportion of double-cropped area to the net area sown in the district (5·12 per cent) is slightly higher than the State average (5·05 per cent). The proportion however varies from year to year depending upon the rainfall in the scarcity zone of the district. In the year 1953-54 when the rains were sufficient and timely the proportion was as high as 8·37 per cent. The proportion is significantly higher in the south-eastern taluka of Karjat (10·86 per cent) and Jamkhed mahal (8·06 per cent).

Irrigation

The proportion of gross irrigated area to gross cropped area in the district (10·61 per cent) is considerably higher than the average of 6·23 per cent for the State. The proportion is higher in all the talukas except Akola, Newasa and Shevgaon. The proportion is extremely low (0·99 per cent) in Akola taluka. Kopargaon, Shrirampur and Rahuri talukas have a larger network of canals from Godavari and Pravara rivers and have high proportions of irrigated areas. Those proportions for the three talukas for the year 1959-60 are 29·92 per cent, 31·11 per cent and 14·36 per cent, respectively.

Table 4 in Part III gives the break-up of irrigated areas by sources of irrigation for the district and each taluka separately. Wells are the chief source of irrigation, irrigating 61·07 per cent of net irrigated area. Canals irrigate another 38·08 per cent, tanks 0·56 per cent and the remaining (0·29 per cent) are irrigated by other sources. Kopargaon, Shrirampur and Rahuri talukas have heavy irrigation through canals. Tanks as a source of irrigation is found in Ahmadnagar taluka only. Karjat taluka alone has about 900 acres under irrigation through "ther sources". Shevgaon and Pathardi talukas and Jamkhed mahal have entire irrigation through wells.

The net irrigated area has increased from 2·10 lakh acres in 1950-51 to 3·06 lakh acres in 1959-60. Thus in the course of ten years the net irrigated area has increased by more than 96 thousand acres or at a rate of 9,600 acres per year. The increase

has been under all sources of irrigation. The area under canals has increased by 31,600 acres, most of it being in Kopargaon taluka. The area under wells has increased by 63,000 acres.

Another remarkable improvement during the decade has been in the number of pumping sets used for irrigation run either on oil engines or electric power. The number of oil engines increased from 1,471 in 1951 to 9,812 or nearly seven times in 1961. The number of electric pumps increased from 73 to 121.

Crop Pattern under Irrigation

Table 5 in Part III gives the crop pattern under irrigation. In 1959-60, 88·44 per cent of irrigated area was under food crops and only 11·56 per cent under non-food crops. Among the food crops 54·2 per cent were cereals, 4·1 per cent pulses and 22·8 per cent sugarcane. Jowar occupied 39·4 per cent of the irrigated area. Wheat covered 9·4 per cent, bajri 4·0 per cent and rice 1·0 per cent. Among the pulses gram alone covered 3·9 per cent. Though jowar occupied the highest proportion, irrigated jowar makes only 9·14 per cent of the total area under jowar in the district. The entire area under sugarcane is irrigated. Among the non-food crops bulk of irrigated area is under fodder crops (5·25 per cent). Cotton covers another 4·91 per cent and oilseeds only 1·18 per cent.

Comparison of data for the last decade indicates that the proportions of irrigated area under jowar has increased and that under wheat and rice have decreased. The proportion of irrigated pulses has reduced considerably. Sugarcane irrigation has increased from 19·7 per cent to 22·81 per cent, and proportion of irrigated cotton has increased considerably from 0·17 per cent in 1951-52 to 4·91 per cent in 1959-60. This is due to the introduction of Cambodia variety.

Production

The annual outturn of principal crops in the district is shown in Table 6 in Part III. The average production of foodgrains and other food crops from 1951 to 1956 and from 1956 to 1960 compared with the production of 1950-51 is as follows :—

	Average production in hundred tons per year during		
	1950-51	1951—56	1956—60
Rice	48	47	79
Wheat	134	157	145
Jowar	899	1,387	2,325
Bajri	694	649	709
Ragi	1	29	43
Other cereals	106	53	72
Total cereals	1,882	2,322	3,373
Total pulses	257	329	377
Total foodgrains	2,139	2,651	3,750
Sugarcane	1,444	1,894	2,845
Groundnut	62	131	228
Cotton (in bales of 392 lbs. each)	112	194	183

This comparison, taking the single year 1950-51 as a base, may not be quite safe as that year itself may have been a very favourable or a very bad agricultural season. However, such crude comparison also highlights some very interesting facts.

The average annual production of total cereals, total pulses and total foodgrains has increased considerably during the First and Second Plan periods over that of the year 1950-51. The production of sugarcane during the Second Plan period is almost double and that of jowar is two and half times the production in 1950-51. During the First Plan period the production of bajri and rice had dropped slightly. The proportions of ragi and other cereals may have to be combined for comparison.

Agricultural Implements

Section C of Table 9 in Part III shows the number of agricultural implements for the district and each of its talukas for the years 1951, 1956 and 1961 separately. The remarkable increase in the number of pumping sets run both on oil engines and electric power has been described earlier. The number of iron ploughs has also increased by 9,497 (or 27·91 per cent) during the decade. There is a reduction of 5,849 wooden ploughs but both the types together increased by 5·52 per cent during the decade. The number of sugarcane crushers worked by bullocks has gone down from 1,465 in the year 1951 to 982 in 1961 while the number of crushers worked by power reduced from 983 to 710. The total for the two types combined has gone down by 756 (or 30·88 per cent). It may be due to the setting up of the new sugar factories during the decade.

By using standard average prices to the agricultural implements shown in Table 9 in Part III, the total outlay on them for the year 1961 may be estimated at Rs. 372 lakhs or Rs. 11·90 per acre of net sown area. The agricultural implements not shown in the table may not together make more than Rs. 2 per acre. The total outlay on this item in the district may approximately be presumed to be less than Rs. 14 per acre.

Agricultural Extension

Agricultural development in the district is now looked after by the Zilla Parishad. A Subject Committee of the Zilla Parishad deals with it and the Agricultural Development Officer works as a Secretary to that Committee. There are Agricultural Extension Officers at taluka level working under the Block Development Officers. The latter work as a Secretary to the Taluka Samiti. Talatis and Gram Panchayat Secretaries work as Assistant Gram Sevaks. Village Panchayats are expected to work for agricultural extension at the village level.

Agricultural Research

There are seven Agricultural Research Stations in the district carrying out research and experiments on different crops. The details of these Research Stations are as under :—

	Name and location of Research Station	Year when established	Farm area (in acres)	Crops on which research made
1.	Sugarcane Research Station, Deolali, Rahuri taluka.	1940	29·63	Sugarcane.
2.	Agricultural Research Station, Kopargaon.	1915	115·00	Principal crops—sugarcane, rabi jowar. Subsidiary crops—paddy, wheat, gram, til, niger seed, safflower, linseed.
3	Agricultural Research Station, Chas, Ahmadnagar taluka.	1941	69·28	Principal crops—dry-farming jowar. Subsidiary crops—dry-farming wheat, gram.
4.	Fruit Nursery, Puntamba, Shrirampur taluka.	..	5·50	Principal crops—citrus fruit, mosambi. Subsidiary crops—guava, grapes, mangoes.
5.	Citrus Fruit Research Station, Shrirampur, Shrirampur taluka.	1958	9·75	Citrus fruit.
6.	Agricultural Research Station, Chilekhanwadi, Newasa taluka.	..	6·00	Cotton.
7.	Trial-*cum*-Demonstration Farm, Kashti (Ghod weir), Shrigonda taluka.	1959	59·28	Jowar and paddy.

Agricultural Improvements

(*i*) *Increasing the area under irrigation.*—The most important single item of increasing the agricultural production is enlarging the area under irrigation. Stress is therefore laid on irrigation projects in the Five-Year Plan schemes. In the first two Plan periods two major irrigation projects were undertaken. The projects are: (i) the Mula Project and (ii) the Ghod Project. The Ghod Project work will in addition to areas in the district also benefit some areas in Poona district. Major work on these projects is already over. The remaining works have been carried to the Third Plan as spillover. The projects when completed will increase the irrigation potential by about 4·64 lakh acres. Minor projects like construction of tanks and bandharas across rivers and nallahs have also been taken up in the Five-Year Plans. In the first two Plan periods work of construction of nine tanks and bandharas at 11 places in the district were completed. This raised irrigation potential by about 15,000 acres. In addition to these completed works, some of the schemes undertaken in the Second Plan period have been carried over to the Third Plan. Besides the spillover works of the Second Plan period which will irrigate about 9,000 acres, new works irrigating about 2,000 acres have been included in the Third Five-Year Plan.

Construction of new wells and renovation to the old ones offer the cheapest and quickest means of increasing the irrigational potential. In the First Plan period 964 new wells were constructed and 1,945 old wells were improved. The corresponding figures during Second Plan period were 964 and 1,665, respectively. The Third Plan envisages construction of 6,600 new wells and installation of 2,800 pumping sets.

With the increasing facilities for irrigation the question of full utilisation of created potential has assumed importance. The statistics of the created potential and current utilisation are however not available separately for the district.

(*ii*) *Improved Seeds.*—Another item of improving food production is the adoption of appropriate varieties or strains of crops suitable for the tract. The Agricultural Department has recommended the following improved varieties or strains of crops for the district :—

(1) Bajri	..	28-15.
(2) Tur	..	Kanpur-132.
(3) Wheat	..	Vijay (Niphad 81), N-62, N-125.
(4) Rabi Jowar	..	Maldandi 35-1.
(5) Groundnut	..	Karad 4-11.
(6) Niger seed	..	12-3.

Seed farms have been established at 13 places to provide improved seed to farmers. The combined area of all the seed farms is 1,096·08 acres.

(*iii*) *Soil Conservation or Bunding.*—During the First and the Second Plan periods an area of about 81 thousand acres, and 3·02 lakh acres, respectively, has been bunded. The Third Plan target is 4 lakh acres involving an outlay of Rs. 202·30 lakhs.

Livestock

The number of livestock for the years 1951, 1956 and 1961 has been shown separately for each taluka and the district in Table 9 in Part III.

The total livestock as per 1961 Livestock Census in the district is 17,007 hundred. This makes 52 livestock per 100 acres of cultivated area. The corresponding figure for the State is 139.

The total bovine population in the district in 1961 is 55·84 per cent of the total livestock. The number of male bovines over three years are 3·8 lakhs. The area cultivated per pair of male bovines over three

years is thus 17·39 acres, as against the average of 5·48 acres for Maharashtra. There are 3,219 hundred female bovines over three years in the district. That makes 181 female bovines over three years per 1,000 population in the district as against the State average of 159.

During the decade 1951—61, there has been an overall increase of 15·27 per cent in the total livestock. Increase is observed in all types of livestock except sheep and horses and ponies which have reduced by 0·17 per cent and 35·66 per cent, respectively. There was a reduction of 3·62 per cent in the number of sheep, during the period 1951—56, but this loss was partly made good in the latter half of the decade. The number of cattle and buffaloes increased by 11·25 per cent and 12·69 per cent, respectively, during the decade 1951—61. The number of "Other Livestock" doubled and the number of poultry increased from 3,363 hundred to 6,250 hundred (i.e., by 85·85 per cent) during the decade.

Veterinary Services

There are 14 full-fledged veterinary dispensaries and two branch dispensaries at the following places in the district :—

(1) Ahmadnagar, (2) Parner, (3) Newasa, (4) Shrirampur, (5) Kopargaon, (6) Shevgaon, (7) Akola, (8) Jamkhed, (9) Rahuri, (10) Pravaranagar, (11) Pathardi, (12) Shrigonda, (13) Karjat and (14) Sangamner.

Branch dispensaries : (1) Rahata and (2) Sonai.

In addition to this there are veterinary aid centres at 27 places in the district. Treatment of animal diseases, control of epidemics, castration of male bovines and control as well as destruction of animal parasites are the main services rendered at these dispensaries and aid centres.

Majority of cattle found in the district are of non-descript type. Gir and Khillar breed are the other popular breeds. Artificial insemination sub-centres are working at Ahmadnagar, Parner and Sangamner for improving the quality of cattle by selective breeding. There is a key village centre at Kopargaon where all-round cattle improvement works are undertaken. There is one Government cattle breeding farm at Kopargaon for the Gir breed. The Gir development is undertaken at this farm. One hundred and thirty-five premium bulls have been maintained at different places in the district under the premium bull scheme.

Two sheep-breeding centres are established in Karjat and Rahuri talukas for improvement of sheep. Ten rams and 100 sheep are given to the cultivators so as to enable them to keep pure breed sheep.

There is a poultry-breeding farm at Kopargaon, from where pure breed birds and eggs are supplied to the poultry breeders and cultivators. There is a poultry demonstration centre at Newasa which is to be soon converted into a poultry-breeding centre.

AGRARIAN STRUCTURE AND LAND REFORMS

The most important tenure prevalent in the district is the Ryotwari tenure of heritable and transferable occupancy rights. By the term Ryotwari is meant that the State deals direct in matters of land revenue with the individual holder. There are two classes of occupancy tenure: (*a*) the old tenure and (*b*) the new tenure.

Under the old tenure lands are heritable and transferable, but under the new or restricted tenure (introduced in 1901) lands in certain areas are not transferable without the previous sanction of the Collector.

There used to be another tenure of Inam lands which were gifted or granted by the Government for meritorious service in the past or in lieu of or on condition of some continuing service useful to the Government or to the village community. Inam lands were held free of land revenue. There were five classes of Inams in the district :—

	Year of abolition
(i) Political or Saranjam Inams	1952
(ii) Personal Inams	1953
(iii) Hereditary Watan Inams	1951
(iv) Village servants useful to the—	
(*a*) Community	1954
(*b*) Government—Patels	1963
Mahars	1959
(v) Deosthan Inams.	

All Inams, excepting the last category of Deosthan Inams held by religious institutions or for religious services, have now been abolished under various measures of land reform. The year in which each class of Inam was abolished is shown above. All hereditary Watan lands held for village services have also been abolished and all village servants

now work on a salary basis. The occupancy rights of abolished Inam lands have been conferred on their holders or tenants, as the case may be, on condition of payment of occupancy price to the Government and/or compensation to the erstwhile holder. Consequential processes of determining titles for occupancy rights and of recovery of occupancy price or compensation are in some cases still in progress. The process of abolition of intermediary interests in land is thus being completed in the district.

Record of Rights

A Record of Rights in land is maintained by the Revenue Department for each village separately. It is integrated with annual crop returns and inspections and is, therefore, easily maintained up to date. Rights on land in respect of ownership, tenancy, mortgage and other encumbrances are recorded and a form is maintained for each parcel of land separately. It is obligatory on every person acquiring any right on land to report it within three months. Annual revenue accounts are prepared on the basis of the Record of Rights.

Ownership Rights to Tenants

Tenancy rights are regulated under the Bombay Tenancy and Agricultural Lands Act which provides security of tenure to and payment of only reasonable rents by the tenants.

In pursuance of the "Land to the Tiller" policy, the Act provided for compulsory transfer of ownership rights of tenanted lands to the tenants from 1st April 1957, which is known as the "Tillers' Day". This was an important step towards the removal of absentee landlordism which was one of the disincentives in any programme of agricultural improvement.

Up to 31st December 1963, ownership rights have been conferred upon 7,161 tenants for 43,075 acres of land in the district. 3,508 tenants had mutually agreed with the landholders on the price to be paid by them. In the remaining cases, the prices were fixed by the Revenue Officers.

Size of Land Holdings

Census Table B-X (based on 20 per cent Sample) in Part II of this volume shows that 57·50 per cent of the total number of households cultivate land and the remaining 42·50 per cent do not cultivate any land.

Census Table B-XI (based on 20 per cent Sample) in Part II shows the break-up of cultivating households by size of land cultivated and by the interest in the land. 88·16 per cent of the cultivating households cultivate their owned lands only. 1·91 per cent of the households cultivate tenanted lands only and the remaining 9·93 per cent cultivate lands partly owned and partly taken on lease. Percentage distribution of cultivating households by the size of land cultivated is shown below.

The distribution of households in Table B-XI and the same shown in percentages in column 2 below, is based on cultivation (operational) holdings as returned in the 1961 Census.

A classification of holdings on the basis of area owned (against the area cultivated) for the year 1952-53 is shown in Table 10 in Part III. The percentage distribution of these ownership holdings is also shown in column 3 below :—

Area	1961 cultivation holdings	1952-53 ownership holdings
Less than 1 acre	1·37	6·65
1 to 4·9 acres	20·36	24·81
5 to 9·9 acres	24·56	22·61
10 to 14·9 acres	17·22	15·47
15 to 29·9 acres	23·44	16·54
30 to 49·9 acres	9·06	8·73
50 + acres	3·99	5·19
Total ..	100·00	100·00

The average size of cultivation holding in the district in 1960-61 is 17·00 acres. Average size of the ownership holding in the district was 16·54 acres in 1952-53 against the average of 11·95 acres for the State.

Ceiling on Holdings of Agricultural Land

The Maharashtra Agricultural Lands (Ceiling on Holdings) Act came in force from 26th January 1962. Two local areas, *viz.*, (1) Sangamner

consisting of Sangamner and Akola talukas and (2) Ahmadnagar consisting of the rest of the district have been notified in the district with different ceiling areas for dry crop land, *viz.*, 96 and 108 acres, respectively. In the case of irrigated lands, the ceiling area is the same in both the local areas, *viz.*, 18 acres in the case of perennially irrigated areas, 27 acres in areas irrigated in two seasons and 48 acres in areas which get irrigation water for one season. Holders of land in excess of the ceiling areas are not now free to transfer or partition any land until the land in excess of the ceiling is determined under the Act. They were required to furnish returns of their holdings to the Collectors. The Collectors are to make enquiries to determine the surplus lands and take them over in possession. Those lands shall afterwards vest in the State Government. The Act also provides for payment of compensation to the holders at specified rates and for distribution of surplus lands to landless or other persons in the prescribed order of priority. At the moment, the enquiries to be made by the Collectors are in progress.

Consolidation of Holdings

The provisions of the Bombay Prevention of Fragmentation and Consolidation of Holdings Act, 1947, were applied to the district in 1949 and work of consolidation of holdings was started in Shrirampur, Kopargaon, Ahmadnagar, Newasa and Shrigonda talukas. The scheme is to arrange mutual exchange of small and scattered fragments of holdings and to make the land holdings as compact as possible. Up to the end of March 1963, the number of villages and areas for which the work has been completed are as follows :—

Taluka	Number of villages	Area consolidated in acres	Holdings involved
(1) Shrirampur ..	68	152,664	27,464
(2) Kopargaon ..	7	8,094	1,736
(3) Ahmadnagar ..	47	118,448	25,408
(4) Newasa ..	25	52,606	8,212
(5) Shrigonda ..	1	2,208	307
Total ..	148	334,020	63,127

The standard areas specified as minimum necessary for profitable cultivation under the Prevention of Fragmentation and Consolidation of Holdings Act are as follows :—

(i) Dry crop lands .. 1·0 acre

(ii) Bagait lands .. 0·5 acre

All plots of land less in area than the standard area are treated as fragments and their transfer except to holders of contiguous plots is prohibited

CO-OPERATION

Administration

The Deputy Registrar of Co-operative Societies is in charge of the co-operative movement in the district. He is assisted by two Assistant Registrars who have territorial jurisdiction and deal with all the aspects of the co-operative movement in the district. In addition an Assistant Registrar works under the Zilla Parishad. He carries out the duties of registration, deciding appeals against non-admission of members, approval to byelaws and administrative supervision in respect of co-operative societies whose working capital does not exceed Rs. 5 lakhs and whose jurisdiction does not extend beyond the district. The Zilla Parishad also looks to the promotion and the extension of co-operative movement in the district.

The co-operative movement in the district started in the year 1909 and showed very slow but gradual improvement till 1947. The real momentum was gained only after independence and especially during the last decade. Since the introduction of the Five-Year Plans and with the emphasis on rural development, the co-operative movement has advanced with a very rapid pace. Activities related to production, processing, distribution, marketing and banking are also now brought under the co-operative fold. Except the sugar factories, the other non-credit co-operatives have yet to make good progress.

The following description is based upon the report for the year 1960-61.

Co-operative Credit

(*a*) *Agricultural Credit Societies.*—The number and membership of Agricultural Credit Societies have increased at a very rapid pace during the last decade especially during the Second Plan period.

The position of Agricultural Credit Societies in 1950-51 and 1960-61 is as under :—

	1950-51	1960-61
(1) Number of Agricultural Credit Societies	462	991
(2) Number of members	27,403	119,943
(3) Share capital .. (Rs. in lakhs)	20·79	167·34
(4) Reserve and other funds (Rs. in lakhs)	8·65	41·60
(5) Working capital .. (Rs. in lakhs)	79·23	683·64
(6) Number of members to whom loan was advanced	8,801	61,437
(7) Amount advanced (Rs. in lakhs)	74·81	585·88
(8) Amount recovered (Rs. in lakhs)	51·60	389·85
(9) Loans outstanding (Rs. in lakhs)	66·96	566·29
(10) Overdues (Rs. in lakhs)	6·92	71·43

Average membership per primary society in the district is 121 against the average of 96 members for Maharashtra. All the villages in the district have been covered.

Total owned funds (share capital *plus* reserve funds) of the Primary Agricultural Credit Societies in the district amounted in 1960-61 to Rs. 208·94 lakhs and formed 30·56 per cent of their working capital against 26 per cent for Maharashtra.

The loan operations of all the Primary Agricultural Societies in the district amounted to Rs. 585·88 lakhs in 1960-61. The average amount of loan per borrowing member in the district worked out to Rs. 954 as against Rs. 329 for Maharashtra.

During the decade 1951 to 1961, the number of Agricultural Credit Societies has doubled, their membership has increased four times, the share capital has increased eight times and the working capital has increased about nine times over that of 1951. All the societies had together advanced loans of nearly Rs. six crores during the year 1961. These are the indices of the spectacular progress made by the Agricultural Credit Societies in the district. A little adverse factor is the increase in proportion of overdues to the outstanding loans from 10·35 per cent in 1950-51 to 12·61 per cent in 1960-61 and points out the need for improving the recoveries.

(*b*) *Central Co-operative Bank.*—The Central Co-operative Bank was established at Ahmadnagar in 1958. It has been working as a federal central financing agency catering for the requirements of all the primary credit societies in the district. Since 1962, the Zilla Parishad also transacts its financial business through this Bank.

In the year 1960-61 the position of the Central Co-operative Bank was as follows :—

(1) Number of members—	
(*a*) Individuals	1,487
(*b*) Societies	1,031
(2) Paid-up share capital .. .. (Rs. in lakhs)	70·98
(3) Reserve and other funds .. .. (Rs. in lakhs)	3·38
(4) Deposits—	
(*a*) Individuals .. .. .. (Rs. in lakhs)	188·45
(*b*) Societies and Banks .. .. (Rs. in lakhs)	109·81
(5) Borrowings—	
(*a*) State Co-operative Bank and the Reserve Bank of India .. .. (Rs. in lakhs)	454·95
(*b*) Government .. .. .. (Rs. in lakhs)	..
(*c*) Other Sources .. .. .. (Rs. in lakhs)	4·21
(6) Working Capital .. .. .. (Rs. in lakhs)	831·78
(7) Cash—	
(*a*) On hand .. .. .. (Rs. in lakhs)	12·24
(*b*) At Banks .. .. .. (Rs. in lakhs)	41·95
(8) Investments— Government and other Trustee securities (Rs. in lakhs)	66·72
(9) Percentage of cash in hand to deposits	4·10
(10) Percentage of investment to deposits	22·37
(11) Loans outstanding—	
(*a*) Individuals .. .. .. (Rs. in lakhs)	6·34
(*b*) Societies .. .. .. (Rs. in lakhs)	690·73
(12) Percentage of loans outstanding to deposits ..	233·71
(13) Percentage of loans outstanding to working capital	83·80
(14) Overdues .. .. .. (Rs. in lakhs)	9·51
(15) Percentage of overdues to loans outstanding ..	1·36
(16) Cost of management .. .. (Rs. in lakhs)	5·82
(17) Percentage of cost of management to working capital	0·70
(18) Profit .. .. (Rs. in lakhs)	8·84
(19) Number of branches and pay offices in the district	25

During the year 1960-61, the individual and society membership of the Bank increased by 18·20 per cent and 21·72 per cent, respectively, the owned funds increased by Rs. 26·50 lakhs and the deposits were one and half times of the deposits during the previous year. The Bank advanced loans of Rs. 13·57 crores more than the previous year. The pace of recoveries has also been kept fairly constant as the proportion of overdues to the outstanding loans have increased very slightly from 1·28 per cent in 1959-60 to 1·36 per cent in 1960-61. The Bank declared a profit of Rs. 8·84 lakhs against a profit of Rs. 4·33 lakhs during the previous year. Four new branches and pay offices were opened during the year.

(*c*) *Land Mortgage Bank.*—The Primary Land Mortgage Bank was established at Ahmadnagar in 1960, with a view to provide long term finance to the cultivators. The number of members of the Land Mortgage Bank is 546, its share capital is Rs. 39 thousands and working capital is Rs. 1·77 lakhs. The Bank advanced loans of Rs. 1·69 lakhs during 1960-61. The bank has two branches one each at Sangamner and Shevgaon.

(*d*) *Urban Banks and Credit Societies.*—There are 59 Urban Banks and Credit Societies in the district of which three are Urban Banks, nine Urban Credit Societies, 37 Salary Earners' Societies and ten Factory Workers' Societies. Their combined membership is 27,533, share capital Rs. 28·90 lakhs and working capital Rs. 162·00 lakhs. The societies advanced an amount of Rs. 217·59 lakhs to 18,490 members during the year. Forty-five of these societies showed a profit of Rs. 3·10 lakhs, nine societies suffered a loss of Rs. 1,000. The remaining five societies were stagnant.

Agricultural Processing Societies

Two cotton ginning and pressing and two other types of processing co-operative societies have been organised in the district during 1960-61. The combined membership of cotton ginning and pressing societies is 206 societies and 1,750 individuals. The paid-up share capital is Rs. 5·05 lakhs in which Government contribution is Rs. 2·49 lakhs.

A co-operative oil mill has been organised in Sangamner taluka in the year 1958-59. Its membership is 54 societies and 760 individuals. A tomato processing society has been registered in Akola taluka during 1959-60. Its membership is 43 societies and 195 individuals.

The combined share capital of the oil mill and the tomato processing society is Rs. 2·28 lakhs. The Government has contributed Rs. one lakh in the share capital of the oil mill and Rs. 3,000 in the share capital of the other society.

All the above processing societies have yet to start production.

Industrial Societies

There are 32 Weavers' Co-operative Societies and 66 other industrial societies in the district. Out of the 32 weavers' societies, 28 are handloom weavers' societies and four are wool weavers' societies. Their combined membership is 4,765, share capital Rs. 3·85 lakhs and working capital Rs. 16·07 lakhs. The societies produced goods worth Rs. 51·17 lakhs during the year.

The other types of industrial co-operative societies include 11 oil ghani, 1 cane and bamboo workers, 9 tanning works, 9 leather works, 1 carpentry and smithy, 5 metal working, 5 pottery work, 7 coir and rope, 1 neera and palm gur, 13 miscellaneous societies, etc. Their combined membership is 3,594, share capital Rs. 7·42 lakhs and working capital Rs. 9·60 lakhs. The production of the societies during the year was Rs. 3·03 lakhs.

Forest Labourers' and Labour Contract Societies

There are 30 Labour Contract Co-operative Societies and one Forest Labourers' Co-operative Society in the district with membership of 1,680 and 159, respectively. Their paid-up share capital is Rs. 38,000 and Rs. 2,000 and working capital is Rs. 1·31 lakhs and Rs. 11,000, respectively. The Labour Contract Societies received a loan of Rs. 14,000 and a subsidy of Rs. 2,000 and executed labour contracts worth Rs. 25,000 during the year. The Forest Labourers' Society extracted forest produce worth Rs. 9,000 during the year.

Co-operative Farming Societies

There are 15 collective farming, 6 joint farming and 4 better farming co-operative societies organised in the district. The collective farming societies have 905 members, share capital of Rs. 69,000 and working capital of Rs. 90,000. The societies have 3,484 acres of land under command of which 2,115 acres were cultivated during the year.

The joint farming societies have 132 members of which 100 are landholders. The share capital of the societies is Rs. 1·84 lakhs and working capital is Rs. 3·37 lakhs. The societies cultivated 1,123 acres out of 1,723 acres under their command.

The better farming societies have 608 members. Their share capital is Rs. 10,000 and working capital is Rs. 32,000. The societies have yet to acquire lands.

Lift Irrigation Societies

There are 7 co-operative lift irrigation societies in the district. Four of them have schemes of lift irrigation on Pravara river and one on the Mula river. The working of lift irrigation schemes at Ghargaon and Tambhere have not commenced yet.

One of the societies at Dahigaon has a scheme of flow irrigation. The combined membership of all the irrigation societies is 484, share capital Rs. 1·08 lakhs and working capital Rs. 4·35 lakhs. The societies together irrigated 484 acres during the year out of 2,297 acres under their command.

Co-operative Sugar Factories

There are six Co-operative Sugar Factories in the district. Of these factories, the Sanjivani Sahakari Sakhar Karkhana has been registered in 1960-61. The other five are already in production. Each of these five sugar factories has an installed capacity of crushing 1,000 tons of cane per day. Government has contributed Rs. 55 lakhs in their share capital. All the factories, together, produced 1·16 lakh tons of sugar during the year.

Dairy Societies

One milk supply union has been organised in the district. The membership of the union is 41 societies and 136 individuals, share capital Rs. 12,000 and working capital Rs. 1·53 lakhs. The union sold milk worth Rs. 4·59 lakhs and made a profit of Rs. 4,000 during the year.

The milk supply union has 20 feeder milk supply societies in the district. Together they have 1,040 members and a working capital of Rs. 49,000. The sales value of milk by the societies during the year was Rs. 3·31 lakhs. Twelve of those societies made a profit of Rs. 9,000 and 8 suffered a loss of Rs. 2,000.

Fishery Societies

There is only one co-operative fishery society in the district. The membership of the society is 49 and share capital Rs. 1,000. The society is, at present, more or less stagnant.

Purchase and Sales Societies and Unions

There are 17 primary agricultural marketing societies in the district. Their combined membership is 793 societies and 7,106 individuals and combined share capital of Rs. 7·28 lakhs. Government has contributed Rs. 1·94 lakhs towards their share capital. The purchases by these societies during the year amounted to Rs. 190·52 lakhs. They earned Rs. 72,000 by way of commission and distributed agricultural requirements worth Rs. 233·20 lakhs during the year. Fifteen of these societies made a profit of Rs. 5·02 lakhs and the other two suffered a loss of Rs. 4,000. The societies own 10 godowns and have in addition hired 73 godowns at important market places.

Consumers' Movement

There are 17 consumers' stores in the district. Their combined membership is 3,586, paid-up share capital Rs. 1·97 lakhs and working capital Rs. 3·79 lakhs. Consumers' goods worth Rs. 18·40 lakhs were purchased by those stores during the year. The sales during the same period amounted to Rs. 19·91 lakhs. Eight of those stores made a profit of Rs. 44,000, three suffered a loss of Rs. 3,000 and six others neither showed loss nor any profit.

Housing Societies

There are 39 primary housing co-operatives in the district. 12 of those societies are organised for backward class persons. Their combined membership is 2,336, share capital Rs. 2·11 lakhs and working capital Rs. 9·40 lakhs. The societies have built 111 independent houses and 607 tenements during the year.

Audit Classification

The audit classification of the different types of societies in the district on 30th June 1961 is as follows :—

Type of Society	No. of societies classified as				No. of societies not classified	No. of societies not audited	Total
	A	B	C	D			
(1) Central Co-operative Bank	1	..	..	..	..	..	1
(2) Agricultural Credit Societies	289	424	83	42	..	153	991
(3) Non-agricultural Credit Societies ..	23	19	6	3	..	8	59
(4) Land Mortgage Bank ..	..	..	..	..	..	1	1

FORESTS

The district has an area of 731·41 square miles under forest. The forest area makes 11·30 per cent of the total geographical area of the district as against 17·56 per cent for Maharashtra.

For administrative purposes the forests in the district are divided into two parts. The forests covering an area of 301·78 square miles in the Akola and Sangamner talukas are administered by the Divisional Forest Officer, West Nasik Division, who has his headquarters at Nasik. The division is under the Conservator of Forests, Nasik Circle. 429·63 square miles of forests in the rest of the area of the district are administered by the Divisional Forest Officer, Ahmadnagar Division, with headquarters at Ahmadnagar. This division works under the Conservator of Forests, Poona Circle.

The forests in the district fall in the "Southern Tropical Dry Deciduous" type. They are scattered in sheltered pockets of spurs and valleys and are situated mainly in the talukas of Akola, Sangamner, Ahmadnagar, Shrigonda, Parner and Rahuri.

The commercially important species found in the forests are Teak, Neem, Babul, Sissoo, Sandalwood, etc. Other important miscellaneous species are Khair, Hiwar, Herkal, Amoni, Apta, Ber, etc. The growth is stunted and poor due to poor soils and lack of adequate humus. Vast stretches of grass lands are also found. The species of grass commonly found are Kusal, Dongri-Gavat, Pavanya and Marvel.

The forests in Akola and Sangamner talukas produce small quantity of teak poles, charcoal, firewood, grass and myrobalans. The forest produce is transported in trucks to Ghoti and Sangamner markets. The important market for the Ahmadnagar Forest Division is Ahmadnagar, though the production in that forest division is very meagre.

The forests falling in the West Nasik Division are exploited through the forest labourers' co-operative societies and also through contractors. The exploited areas are regenerated artificially and naturally and various operations are carried out to improve the forests. In the Ahmadnagar Forest Division, major forest produce is too meagre but the minor forest produce are sold by auction.

A number of schemes have been included in the Third Five-Year Plan for the development of forests. Afforestation of arid and blank areas is to be carried out in 130 acres in the forests of West Nasik Division. The following schemes are undertaken in the Ahmadnagar Forest Division :—

(1) *Scheme for improvement of reserved forests in selected talukas of Ahmadnagar district.*—This scheme has been sanctioned for this division to undertake measures of soil conservation and afforestation in the selected areas which are in charge of Forest Department and which need urgent attention. An area of 1,075 acres has so far been successfully afforested under this scheme.

(2) *Scheme for raising of fast growing species.*—This scheme also encourages soil conservation measures coupled with raising of only selected fast growing species such as Eucalyptus, Neem, Sissoo, etc. An area of 1,613 acres has so far been successfully afforested under this scheme.

(3) *Raising of Agave hedge.*—The object of the scheme is to introduce Agave plants on the forest boundaries and around afforestation areas as a fence. Commercial exploitation of Agave is also done for fibre, wax, etc. Forty-five miles of Agave has so far been successfully planted under this scheme in three rows at a distance of $2' \times 2'$.

(4) *Raising of Bamboo plantation.*—Bamboo is known as a poor man's timber and attempts are being made to raise bamboo plantation in suitable localities. Bamboo plantations have so far been raised on 25 acres in this division.

FISHERIES

Fishing activities in the district are naturally restricted to inland waters only, rivers, tanks and ponds being the chief sources. The total length of perennial rivers in the district is about 480 kms. There are also 25 tanks and ponds which provide about 7,000 acres of water-spread area, which is rather inadequate for the development of fishing industry.

The commercially important varieties of fish found in the district are :—

Kirkit or Shinghala, Murrel, Shivda (Pahadi or Daku), Chamar or Chalat, Pal or Dandaonya, Khavlya, Khaval, Kolshi, Zinga, Boi, Kalundar, Kharabi and Muri.

These varieties are however of not fast growing type. As such, under Five-Year Plan schemes, quick growing "Bengal Carps" are stocked annually in the perennial water tanks for propagation of pisciculture. The varieties stocked are Catla-Catla, Rohu and Mrigal. During the Second Five-Year Plan period about 14,000 Carp Fry was stocked while during only the first two years of the Third Plan period the quantity stocked amounted to 20,000.

In 1961 Census, 273 persons are reported as engaged in fishing as principal work. 227 of them are males and 46 females. Fishermen in the district belong to the community known as Bhoi. Since fishing industry has limited scope, some of the fishermen undertake seasonal agriculture. Fishing is generally done with the help of gill nets known as Bhusi, Kut, Tiwari, Pandi, etc., and cast nets called Pagar. The nets are mostly made of cotton twine but these days nylon is also effectively used. Under the fishery requisites scheme financial assistance in form of subsidy is given for purchase of nylon and cotton twine.

Three co-operative societies of fishermen have been organised at present in the district. They are given financial assistance in the form of loans and subsidy. They are also helped to secure tanks and ponds on lease for purposes of pisciculture.

MINING AND QUARRYING

The district is covered mostly by Deccan trap. Deposits of limestone have been located at Kallur, Nandur-Shikari and Khanderawadi. But these reserves are estimated at 10,000 tons only. They may be of commercial use for refining of sugar in the nearby sugar factories.

Deposits of any other minerals have not been found so far anywhere in the district. Mining activities in the district are therefore restricted only to quarrying of stones. 2,063 persons are, according to the 1961 Census, working on quarrying of stones, etc. 1,462 of them are males and 601 females.

INDUSTRIES

Due to the fertile tracts and irrigation facilities under the Pravara and Godavari canals a number of sugar factories, cotton ginning and pressing units, oil mills, engineering and gur making units have been set up in the northern talukas of the district. The organised industries are concentrated largely in Ahmadnagar city and Kopargaon and Shrirampur towns. The two latter towns are well-known as sugar centres while cotton ginning and pressing, oil pressing, bidi making, general engineering and a few powerlooms are located in Ahmadnagar city. Among the large-scale units should be mentioned the 11 sugar factories, a pharmaceutical unit and a Government distillery. The other units are the cotton ginning and pressing, manufacturing industrial alcohol, bricks, cast iron and brass foundry, etc. Excluding these few large and medium-scale factories the general pattern of non-agricultural employment in the district leans heavily towards village and cottage industries, i.e., crafts and craftsmen working on traditional lines with locally available raw materials or for local demand alone. With the prospects of additional supply of power and the setting up of the industrial estates at Ahmadnagar, Shrirampur and Kopargaon, there are good prospects for further industrial development in the district.

In all 72,662 workers are engaged in manufacturing industries. 37,198 or 51·19 per cent are in household industries and 35,464 or 48·81 per cent in non-household industries. The total number of workers in the registered factories in 1961 is 18,140 which makes 24·96 per cent of all workers engaged in manufacturing industries or 10 factory workers per thousand of total population as against the average of 20 per thousand of total population for Maharashtra.

The distribution of workers engaged in each industry major and minor groups is shown in Table B-IV-C in Part II. The number of establishments and the number of workers for each industry minor group prepared from houselists are also shown separately for each village in the Village Industries Table presented at the end of Part II.

Large-scale Factories

There are 24 large-scale registered factories in the district working with 50 or more workers and using power. Eleven of them are sugar factories. Out of those 11 sugar factories, 5 factories are in the co-operative sector. Two more sugar factories on co-operative lines are being organised. The combined crushing capacity of the eleven existing factories is 10,100 tons of sugarcane per day. The location of the sugar factories is as follows :—

(1) Ganesh Sahakari Sakhar Karkhana Ltd., Rahata, in Kopargaon taluka ;

(2) Kopargaon Sahakari Sakhar Karkhana Ltd., Kopargaon, in Kopargaon taluka ;

(3) Pravara Sahakari Sakhar Karkhana Ltd., Pravaranagar, in Kopargaon taluka.

(4) Rahuri Sahakari Sakhar Karkhana Ltd., Rahuri, in Rahuri taluka ;

(5) Ashok Sahakari Sakhar Karkhana Ltd., Shrirampur, in Shrirampur taluka ;

(6) Godavari Sugar Mills Ltd., Laxmiwadi and Sakharwadi, in Kopargaon taluka ;

(7) Shri Changdev Sugar Mills Ltd., Puntamba, in Kopargaon taluka ;

(8) Maharashtra Sugar Mills Ltd., Tilaknagar, in Shrirampur taluka ;

(9) & (10) Belvandi Sugar Farm Pvt., Ltd., Ghod Project Area, in Shrigonda taluka (two separate units) ;

(11) Belapur Sugar Co. Ltd., Harigaon, in Shrirampur taluka.

These sugar factories together employ about 7,800 workers daily during the season. The two new sugar factories on co-operative basis are: (1) Takali Sahakari Sakhar Karkhana Ltd., Kopargaon, and (2) Koregaon Vibhag Sahakari Sakhar Karkhana Ltd., Shrirampur. They have been recently licensed and are expected to go into production shortly.

Khated & Sons, Ahmadnagar, employ 142 workers and manufacture gur on a large scale.

There is a pharmaceutical unit and a Government distillery in the district.

Industrial alcohol is another important industry which has developed due to availability of molasses from the sugar factories. At present alcohol is

manufactured on a large scale by (1) Maharashtra Sugar Mills Ltd., Tilaknagar; (2) Government Central Distillery, Chitali; and (3) Somayya Organic Chemicals Ltd., Sakharwadi. The total installed capacity of all these units comes to 5·3 million gallons per annum. Spirit is also manufactured at the Government Distillery at Chitali.

Acetic acid is manufactured at Sakharwadi by the Godavari Sugar Mills Ltd. with an installed capacity of 1,872 tons per annum.

There are three large-scale cotton ginning and pressing units, one located at Rahuri and two at Ahmadnagar. There is also another unit at Ahmadnagar doing cotton ginning only. These four units employ on an average more than 500 workers daily.

Mohan Kamgar Sahakari Mudranalaya, Ahmadnagar, is the only printing press working on co-operative basis.

Ayurvedic medicines and a few patents are manufactured by the Ayurvedashram Pharmacy Ltd., Ahmadnagar. Ephedrine hydrochloride and Magnesium trisilicate are also manufactured by this unit.

Fire bricks are manufactured on co-operative basis by Shri Goroba Kumbhar Sahakari Utpadak Society. Cast iron and brass foundry and machine shop are run by C. M. E. Engineering Corporation. Handbags, belts, table mats, carpets, etc., are manufactured by the American Marathi Mission Sisal Fibre Industry, Ahmadnagar, which is also considered to be an important centre for assembling sisal fibre in the district. The Technical Development Establishment, Ahmadnagar, manufactures transport equipment and employs about 500 workers daily.

Licences have also been issued to units manufacturing cotton yarn, paper, sugar mill machinery, steel structurals and C. I. castings. They are expected to start production soon.

Small-scale Registered Factories

There are 200 small-scale registered factories employing about 7,700 workers. A majority of them are located nearabout Ahmadnagar, Shrirampur and Kopargaon towns. A large number of them are engaged in the manufacture of gur, bidis and cotton ginning. The rest of them are manufacturing oil, biscuits, handloom sarees, printing and book binding, cement pipes, copper and brass utensils, stone dressing and crushing, metals, general engineering, repairs to motor vehicles, etc. One unit is manufacturing musical instruments.

The total number of registered factories has decreased from 440 in 1956 to 238 in 1961. The reduction is due to the closure of many gur manufacturing units as a result of the opening of new co-operative sugar factories. The number of workers in the registered factories has, however, increased from 17,408 in 1956 to 18,140 in 1961.

According to the Census of Manufacturing Industries in 1959, the manufacturing industries in the district had a combined fixed capital of Rs. 588·6 lakhs and working capital of Rs. 304·7 lakhs. The total value of annual production was Rs. 1,261·0 lakhs and the value added by manufacturing was Rs. 267·9 lakhs. These figures relate only to the industries covered by the Census of Manufacturing Industries Act.

The value added by manufacture in the district in 1959 is 1·33 per cent of the total for Maharashtra. It is significant that the district has eleven out of 30 working sugar factories in the State and its sugar production during 1962-63 was about 42 per cent of the total sugar production in Maharashtra. The sugar industry engages as many as 13,703 workers in the district.

Small-scale and Cottage Industries

Traditional crafts are conducted on household and cottage industries scale. They are mostly servicing and processing establishments, catering for the requirement of local population. There are more than 3,500 small-scale and cottage industries establishments in the district. Among them 75 are co-operative societies (as on 30th June 1960) with a total membership of 6,531. 26 out of them are handloom weavers societies, with a membership of 4,523. The other important industries both in the co-operative fold and outside are gur making, oil pressing, bidi making, leather works, tanning, pottery and brick making, coir and rope making, etc. The village industries also have an important role in the unorganised industries of the district. The industries coming under this sphere are Khadi centres, weaving centres, ambar charkha, wool weaving and spinning, neera and palm gur, gur and khandsari, village oil industry, hand pounding, handmade paper, soap, flaying and tanning, potteries, etc.

The production and rearing of livestock engages 10,550 persons. Considerable quantities of milk are collected and sent to the Aarey Milk Colony at Bombay. Cattle, sheep and goats are also exported to Bombay.

8,978 persons are engaged in the manufacture of bidis, 4,261 of them are males and 4,717 are females.

5,304 persons are engaged in the manufacture of "Miscellaneous textile". These include 5,170 tailors who make garments for men and women.

13,703 persons are engaged in the production of sugar from sugarcane in mills.

Weaving is carried on to a considerable extent throughout the district. At the end of May 1961, there were 4,951 registered cotton handlooms in the district. There were also 85 cotton and 25 art-silk powerlooms.

Ahmadnagar city has long been famous for its copper and brassware. Glass bangles are manufactured in Sangamner and Akola talukas and Jamkhed mahal. Saltpetre is made in the villages of Karjat, Kopargaon, Newasa, Sangamner and Shrigonda talukas. It is chiefly found at the sites of deserted villages. Brick making by the "bhatti" method is common around Ahmadnagar city along the banks of Seena river and on the other river banks in Kopargaon and Shirampur talukas. A unit to manufacture juices, syrups and extracts from fruits has been established recently at Ahmadnagar and on co-operative lines.

There are 1,172 flour or rice mills engaging 1,779 workers.

The proportions of different groups of artisans to one lakh of total population in the district are as follows :—

Blacksmiths 117, Carpenters 159, Shoe-makers and repairers 178, Potters 159, Tailors and dress-makers 291, Spinners and weavers 214, Basket weavers 76.

The Industries Department has started peripatetic schools and training-*cum*-production centres for training artisans at Wadgaon, Sonai, Ahmadnagar and Shevgaon. Financial assistance in the form of loans, etc., is given for cottage industries like powerlooms, handlooms, tanning and leather working, etc.

The Maharashtra State Village Industries Board also assists certain village industries like khadi, bee-keeping, palm gur, handmade paper, ghee, bone-meal, chalk, plaster of paris, slates, pencils, mat-weaving, hand-pounding of rice, match industry, etc., with the help of the All-India Khadi and Village Industries Commission.

The "Master Plan" prepared by the Industries Department in 1960 had indicated scope for the establishment of the following industries in the district :—

(1) Surgical cotton.
(2) Sugar.
(3) Paper making from sugarcane bagasse.
(4) Refrigeration van service for perishables.
(5) Alcohol based industries.
(6) Steel re-rolling mills.

Three Industrial Estates located at Ahmadnagar, Shirampur and Kopargaon are proposed to be established on co-operative basis initially in the Third Five-Year Plan in the district.

POWER

There were only six electrified towns and villages in the district in 1960-61. Their talukawise lists are given in Table 31 in Part III. The total population of those electrified places is 10·75 per cent of the total population of the district.

The district consumption of electricity on different items for eight years is shown in Table 30 in Part III. The *per capita* consumption is naturally much lower than the State average.

The electric supply is through privately owned concerns except the one for Ahmadnagar Cantonment run by the Military authorities. The district is not connected to any grid so far and the generating stations are operated entirely on diesel oil. The sugar factories have their own generating sets fed by the bagasse during the season and by diesel oil during the off-season. The bulk of the total power generated and consumed in the district is by the Ahmadnagar Electric Supply Company in Ahmadnagar City. The district is, at present, far too inadequately supplied with electricity. The supply company in the city has a proposal to instal an additional generating set of 450 KW which will also supply power to the proposed industrial estate at Ahmadnagar City.

TRADE AND COMMERCE

The chief imports in the district are salt, coconuts, betelnuts, cloth and other piece-goods, yarn, copper and other metal vessels, glassware, ironware, etc. Cotton from the adjoining districts is also imported for pressing in gins and presses. These goods are sold on cash payment in towns and rural areas. The exports are mainly bajri, jowar, gram, oilseeds, groundnuts, sugar, gur, sugarcane, molasses, cotton seed, linters, cotton, horns, hides, chillies, etc. Most of the exports are to Bombay and Poona. Sugarcane is exported to Nasik. Molasses are purchased from the sugar factories not only for the distilleries in the State but are also exported to Rajasthan, West Bengal and Andhra Pradesh. Practically the entire quantity of cotton seed in the district is exported to Bombay and Khamgaon while the entire quantity of linters is exported to Bombay. A substantial quantity of the sesamum is exported

to neighbouring districts of Jalgaon, Dhulia and to Bombay. Agricultural produce is collected from the producers mainly at trading centres. The distribution of foodgrains and other articles of trade is through shops and pedlars or hawkers and in addition through the very well-established institutions of weekly markets and fairs where sellers and buyers meet on fixed days of the week or the year.

Shops

Every village is within the reach of one of the weekly bazars or in addition has one or more shops. These shops provide the inhabitants with their day-to-day requirements. They deal in all kinds of articles, such as grains, groceries, oils, gur, spices, salt, coconuts, soap, tea, tobacco, betelnuts, chillies and innumerable articles required by people for their daily use. There are in all 9,256 shops in the district. 6,255 are in rural areas and 3,001 in urban areas. This does not include the shops temporarily set up in weekly markets or fairs. The number of shops to 1,000 dwellings is 29·9 for the district as a whole, 22·7 for rural areas and 80·0 for urban areas. It will be seen that the urban areas have four times more shops per 1,000 dwellings than rural areas. The ratio between the shops and 1,000 dwellings for the district is less than the State average of 36·4. Talukawise number of shops may be seen in Table E-I in Part II.

Weekly Markets

These are generally trade centres popularly known as "bazars" and are distributing rather than collecting centres. All sorts of articles like foodgrains, pulses, oils, chillies, spices, gur, cloth, fruit, vegetables, cattle, miscellaneous articles such as pots, pans, etc., are sold in these markets. Pedlars and hawkers set up booths on market days. Agriculturists from the nearby villages also bring their farm produce. The traders and shop-keepers belonging to the market place also set up temporary stalls. Buyers come from nearby villages within 4-5 miles. The weekly markets start early in the morning and after a slack of an hour or so in the afternoon close by six in the evening to enable both the buyers and sellers to reach home before it is dark.

Column (7) of the Village Directory in Part I shows for each village in the district if a weekly market is held and, if so, on which day of the week. A list of weekly markets in the district given in Table 32 in Part III shows the location and day on which each bazar is held. The map facing page 248 shows the locations of all these markets and also the days on which they are held.

The District Gazetteers had reported only 72 weekly and bi-weekly markets for the district in 1884. Their number in 1960-61 has increased to 171 out of which 25 are also cattle markets. Twenty-eight weekly markets are held on Sunday, 31 on Monday, 20 on Tuesday, 23 on Wednesday, 25 on Thursday, 22 on Friday and 22 on Saturday.

The map facing page 248 will show that the weekly markets are concentrated mostly in the northern parts of the district. This is due to the very high densities of population in those talukas. Five or six weekly markets will be seen in the map to cluster as subsidiaries around a central village. Each has its bazar on one of the week days, keeping the pedlars and hawkers engaged throughout the week and also providing a choice to buyers to go to one nearby market or the other.

Fairs

Fairs differ very little from weekly markets and sometimes consist of gatherings hardly known outside the villages. They are chiefly distributing centres and complementary to the weekly markets. Considerable quantities of agricultural produce and other articles of daily use are brought for sale. A list of fairs held in the district showing their locations, duration, dates and approximate number of persons attending is presented in Table 33 in Part III. The map facing page 250 shows location of all the fairs in the district, having 1,000 or more gatherings. A volume giving details regarding fairs and festivals in Maharashtra is also issued separately.

Trade Centres

Apart from the weekly markets and fairs, (1) Ahmadnagar, (2) Shrirampur, (3) Rahuri, (4) Shevgaon, (5) Pathardi, (6) Newasa, (7) Sangamner, (8) Jamkhed, (9) Shrigonda and (10) Kopargaon are important trade centres in the district as far as collection and export of agricultural produce are concerned. Belapur and Wambori are, respectively, the sub-markets under Shrirampur and Rahuri. Agricultural produce markets at these twelve places are regulated under the Bombay Agricultural Produce Markets Act, 1939, and they are known as principal market yards.

The total turnover of commodities (by value in rupees) at a few important markets during the year 1958-59 was as follows :—

Market Committee	Total value in Rs.
Kopargaon	6,66,638
Shrirampur	10,81,544
Rahuri	4,34,366
Ahmadnagar	19,73,104
Shevgaon	3,79,530
Total ..	45,35,182

Workers in Trade and Commerce

The total number of persons engaged in trade and commerce in the district is 21,722 out of which 11,874 or 54·66 per cent are in rural areas and 9,848 or 45·34 per cent are in urban areas. The number of workers in trade and commerce makes 2·43 per cent of all workers in the district. More than half of the district number are in Ahmadnagar, Shrirampur and Kopargaon talukas.

Only 3·51 per cent of the workers in trade and commerce are in wholesale trade, 94·29 per cent are in retail trade and only 2·20 per cent in miscellaneous trade and commerce. About 57 per cent of the wholesalers are in urban areas.

The number of wholesalers trading exclusively in cereals and pulses is 163. Mostly the wholesale trade of cereals and pulses appears to be combined with wholesale trade of sugar, spices, oil, etc., the number for which is 261 for the district.

A detailed break-up of trade and commerce by industry major groups and minor groups is shown in Table B-IV-C in Part II.

Banking Offices

A list of banking offices with their years of establishment, type and location is given in Table 23 in Part III. Their break-up by talukas and type are shown in the next column.

	Number of Banking Offices			
	Scheduled	Non-scheduled	Co-operative	Total
DISTRICT TOTAL ..	11	1	25	37
(1) Kopargaon Taluka ..	3	..	5	8
(2) Akola Taluka	..	..	1	1
(3) Sangamner Taluka ..	2	..	3	5
(4) Shrirampur Taluka ..	2	1	3	6
(5) Rahuri Taluka ..	..	..	2	2
(6) Newasa Taluka ..	..	..	1	1
(7) Shevgaon Taluka ..	..	..	1	1
(8) Parner Taluka.. ..	..	..	1	1
(9) Ahmadnagar Taluka ..	4	..	2	6
(10) Pathardi Taluka ..	..	..	1	1
(11) Shrigonda Taluka ..	..	..	1	1
(12) Karjat Taluka ..	..	..	3	3
(13) Jamkhed Mahal ..	..	..	1	1

Kopargaon, Ahmadnagar, Shrirampur and Sangamner talukas which have principal trading centres are leading in banking activities in the district. The Central Co-operative Bank has at least one branch office in each taluka. Shrirampur is the only taluka having a non-scheduled bank in the district.

The State Bank of India works for the treasury in the district and has branches at Kopargaon, Sangamner, Shrirampur and Ahmadnagar.

COMMUNICATIONS AND TRANSPORT

The single broad gauge Manmad-Dhond line of 122 miles belonging to the Central Railway traverses through the district from Kopargaon *via* Ahmadnagar. There are 23 railway stations and the railway mileage makes 1·88 miles per 100 sq. miles of area as against the average of 2·66 miles in the State.

Table 21 in Part III shows the existing road mileage in the district as well as its break-up by the type of road surface. The district map facing the title page also shows all these roads.

The district is connected by roads with the adjoining districts of Poona, Sholapur, Bhir, Aurangabad, Nasik and Thana. Most of the roads in the district were constructed as scarcity works. Due to the hilly terrain the roads are comparatively fewer towards the west and the north. The district headquarters is well connected by roads with all the taluka headquarters. The Poona-Sangamner-Nasik National Highway of 38 miles passes through the district and joins the Bombay-Agra National Highway at Nasik.

During the period 1951—61 there was no change in the mileage of National Highways. The State Highways increased by less than a mile, major district roads by 46·03 miles, other district roads by 316·87 miles and village roads by 163·91 miles. The total increase in all types of roads (excluding municipal roads) is 526·91 miles.

Under the Nagpur Plan the district should have 2,694 miles of roads. It is short of that target by 814·50 miles on 31st March 1961.

New Roads

Construction of the following roads is in progress (as on 31st March 1962) :—

(1) Lakh-Takalmiya road, (2) Karodi-Takali road, (3) Waki-Shenit road, (4) Kopargaon Station-Padhegaon road, (5) Kolhar-Ukkalgaon-Belapur road, (6) Phegaon-Pathare road, (7) Belhegaon approach road, (8) Kakapur-Ambhi-Dhavangaon road, (9) Khairi-Nimgaon-Naur road, (10) Satral-Tambhere road, (11) Nimgaon-Naur road, (12) Guha-Sangamner road, (13) Rahuri Station-Manjari road,

(14) Parner-Loni-Haveli road, (15) Kukane-Warkhed road, (16) Pathardi-Amrapur road, (17) Samvatsar Station-Samvatsar road, (18) Astagaon-Khandala road, (19) Wakadi-Shrirampur road, (20) Pimpalgaon-Pisa-Dhawalgaon road, (21) Jamkhed-Telangashi road, (22) Pimpri Loki-Ajampur road, (23) Akola-Takri-Mehenduri road, (24) Sangamner-Jorve road, (25) Talegaon-Chincholi road, (26) Kauthe-Vanakute road, (27) Malegaon-Pathar-Ghargaon Ghat road, (28) Kolegaon-Ladjalgaon road, (29) Patharwadi approach road, (30) Taharabad Ghat road, (31) Nimgaon-Pemgiri-Savarchol road, (32) Hasanpur-Kolgaon road, (33) Loni-Darodi road, (34) Khed-Karpadi road and (35) Ladjalgaon approach road.

Improvement of the following roads has been undertaken (as on 31st March 1962) :—

(1) Ahmadnagar-Aurangabad road, (2) Puntamba-Belapur road, (3) Kolhar-Ukkalgaon-Belapur road, (4) Ahmadnagar-Junnar road, (5) Parner-Alkuti road, (6) Guha-Sangamner road, (7) Karjat-Babhulgaon road, (8) Khospuri-Karanji road, (9) Supa-Pimpalgaon Depa road, (10) Mehekari approach road and (11) Pimpalgaon-Ujjaini road.

New Bridges

Work on the following important bridges is in progress (as on 31st March 1962) :—

(1) R. C. C. submersible bridge on Pravara river on Belapur-Deolali road,

(2) R. C. C. high level bridge on Pravara river on Shrirampur-Newasa-Shevgaon road.

Posts, Telegraphs and Telephones

The district is included in the Ahmadnagar Postal Division. Head Post Offices are situated at Ahmadnagar and Shrirampur and sub-offices at taluka headquarters and towns. Bigger villages have branch post offices. In the year 1961-62, there were 47 sub-post offices and 347 branch post offices in the district.

There are Telegraph Offices at the following 26 places :—

(1) Ahmadnagar, (2) Akola, (3) Balam Takali, (4) Belapur, (5) Harigaon, (6) Jamkhed, (7) Karjat, (8) Kharda, (9) Kopargaon, (10) Newasa, (11) Parner, (12) Pathardi, (13) Pravaranagar, (14) Puntamba, (15) Rahata, (16) Rahuri, (17) Rajur, (18) Sakharwadi, (19) Sangamner, (20) Shevgaon, (21) Shirdi, (22) Shrigonda, (23) Shrirampur, (24) Tilaknagar, (25) Wambori and (26) Visapur.

The following 18 places have Telephone connections :—

(1) Ahmadnagar, (2) Akola, (3) Belapur, (4) Harigaon, (5) Jamkhed, (6) Karjat, (7) Kopargaon, (8) Newasa, (9) Parner, (10) Pathardi, (11) Puntamba, (12) Rahuri, (13) Sangamner, (14) Shevgaon, (15) Shirdi, (16) Shrigonda, (17) Shrirampur and (18) Wambori.

Passenger Road Transport

During the Plan periods, a number of roads connecting the villages were constructed in the district and the buses of the State Road Transport Corporation are running regularly on those roads. This district is included partly in the jurisdiction of Ahmadnagar Division and partly in the Nasik Division.

There are six S. T. Depots in the district. Three depots at Sangamner, Kopargaon and Shrirampur are under Nasik Division and the other three depots, *viz.*, Ahmadnagar, Jamkhed and Shevgaon are under Ahmadnagar Sub-Division.

No separate figures of passenger transport are, therefore, available separately for the district. These six depots together run buses on 142 routes which make 460 single trips per day.

Nationalisation of passenger road transport has been completed by the end of the Second Five-Year Plan. The Third Five-Year Plan schemes include expansion of the services to new places on public demand, construction of permanent bus stations and pick-up stands and extension of facilities to the travelling public.

Goods Transport

Separate figures for lorries operated in the district are not available as the Regional Transport Officer working at Poona keeps combined records for his region including Poona, Ahmadnagar, Sholapur, Satara, Sangli and Kolhapur districts.

Workers in Transport and Communications

7,251 persons are engaged in transport and 767 in postal, telegraphic and telephonic communications in the district. Out of the workers in Transport, 2,131 are in Railway transport, 2,274 in Motor and Bus transport and 2,846 in other kinds of transport like bullock-carts, horses on hire, coolies, etc.

The Village Directory in Part I gives information for each village in the district whether it is served by a Railway or a Road or has a Post Office or not.

CONSTRUCTION

The total number of persons engaged in construction is 9,446. 7,803 are males and 1,643 females. Their distribution by minor groups is shown in Table B-IV-C in Part II.

42·85 per cent of the workers are engaged in construction and maintenance of dams, waterways and canals, 11·76 per cent in the construction and maintenance of roads, bridges, telegraph and telephone lines, etc., and 45·39 per cent in the construction and maintenance of buildings, etc. The large numbers engaged in the construction of buildings and dams, waterways, canals, etc., include the persons employed in the construction of residential houses, hostels, school buildings, sugar factories, etc., and in the construction of major irrigation schemes like Mula and Ghod projects.

All the workers engaged in construction together make only 1·06 per cent of the total workers in the district.

OTHER SERVICES

51,526 persons are engaged in the district in "Other Services". 41,297 are males and 10,229 are females. The major categories out of them are: (i) Public Services, (ii) Educational Services and (iii) Personal Services. "Public Services" include administrative employees of Central, State and Local Governments. "Educational Services" include all classes of teachers and "Personal Services" include domestic servants as well as barbers, washermen and others rendering services to persons or households. The distribution of the workers in other services by minor groups is shown in Table B-IV-C in Part II.

5·77 per cent of the total workers in the district are engaged in "Other Services" as against 8·53 per cent in the State. 29·42 per cent of the total workers in "Other Services" in the district are engaged in public services and 13·25 per cent in educational services. Both these proportions are higher than the corresponding proportions (23·86 per cent and 12·40 per cent) for Maharashtra. They may be due to the defence service personnel from the Ahmadnagar cantonment and the large number of primary school teachers. The proportion of personal services in the district is 18·14 per cent which is considerably lower than the State average of 27·15 per cent.

The number of domestic servants is 2,607 or one for about 681 population. The number of barbers is 2,564. The number of persons in laundry services (including washermen) is 834.

There are 377 legal practitioners and 1,733 persons working in medical and health services excluding veterinary services.

The number of persons including the teaching staff in technical schools and colleges is only 61 and that in the other schools and colleges is 6,761.

The number of State Government employees including those now working under the Zilla Parishad is 6,577.

BROAD ASPECTS OF ECONOMY

Individual sectors of economy of the district have so far been described separately. A few broad aspects may now be discussed for the economy as a whole.

Labour Participation Rates

The proportions of workers to total population, males and females for the district and each taluka are shown in the next column.

The labour participation rates in the district are higher both for males and females than the State averages. The difference is larger in the case of females. The larger participation rates are partly due to the predominance of agriculture in the district and the lower proportion of urban population. Within the district the labour participation rates are very high for males in Shevgaon (60·31), Akola (59·93), Newasa (59·89), Jamkhed (59·66) and Karjat (59·51). For females the rates are very high in

	Percentage proportion of workers		
	Total	Males	Females
MAHARASHTRA	47·91	57·09	38·10
AHMADNAGAR DISTRICT	50·27	57·50	42·75
Kopargaon Taluka	49·65	58·77	39·97
Akola Taluka	56·81	59·93	53·75
Sangamner Taluka	50·79	55·69	45·83
Shrirampur Taluka	48·24	58·07	37·65
Rahuri Taluka	49·73	58·23	40·82
Newasa Taluka	53·51	59·89	46·94
Shevgaon Taluka	54·28	60·31	48·09
Parner Taluka	54·67	58·03	51·34
Ahmadnagar Taluka	42·38	52·67	31·36
Pathardi Taluka	52·06	57·10	46·89
Shrigonda Taluka	49·78	56·01	43·18
Karjat Taluka	49·92	59·51	39·82
Jamkhed Mahal	52·35	59·66	44·74

Akola (53·75) and Parner (51·34). Akola is a rice-growing tract and Parner is the area which sends out large numbers of male migrants. The participation rates are very low in Ahmadnagar taluka because of its large urban population, and in Shrirampur, Karjat and Kopargaon talukas. Shrirampur and Kopargaon are both very rich areas. But the participation rates in Karjat for females cannot be explained without further local enquiries.

Primary, Secondary and Tertiary Sectors

The Primary Census Abstract shows the distribution of workers in the nine categories of economic activity. Table B-IV-C in Part II shows detailed industrial classification of all workers other than those at cultivation. The percentage distribution of workers in primary, secondary and tertiary activities for the district and the State is as follows :—

		Total workers	Primary	Secondary	Tertiary
Maharashtra ..	Total	100·00	72·25	12·34	15·41
	Rural	100·00	88·73	5·68	5·59
	Urban	100·00	11·97	36·69	51·34
Ahmadnagar District.	Total	100·00	82·31	8·57	9·12
	Rural	100·00	87·58	6·91	5·51
	Urban	100·00	9·13	31·62	59·25

The primary sector appears to be dominating in the total population because of the lower proportion of urban population. Otherwise the rural areas, on the whole, have a larger proportion of workers in the secondary sector due to the location of a majority of sugar factories in rural areas. The urban areas in the district are however much behind in the secondary sector than the State average. They have the tertiary sector dominating because of the overwhelming share of Ahmadnagar city in that urban population. That city is more an administrative and service centre and those of its roles are further strengthened because of the inclusion of the cantonment population.

Categories of Economic Activity

The distribution of workers, males and females by nine categories of economic activities for the district and the State, is as shown in the next column.

	Maharashtra			Ahmadnagar District		
	Persons	Males	Females	Persons	Males	Females
I Cultivation	46.11	40.69	54.79	58.73	54.01	65.33
II Agricultural Labour ..	23.80	18.12	32.90	21.96	19.11	25.96
III Mining, Quarrying, Livestock, Forestry and Fishing.	2.16	2.97	0.86	0.99	1.40	0.42
IV Household Industry ..	4.39	4.80	3.74	4.17	5.44	2.38
V Manufacturing other than Household Industry.	6.88	10.22	1.54	3.97	5.51	1.83
VI Construction	1.24	1.69	0.53	1.06	1.50	0.44
VII Trade and Commerce ..	4.52	6.61	1.17	2.43	3.63	0.75
VIII Transport, Storage and Communications.	2.36	3.65	0.29	0.92	1.47	0.14
IX Other Services	8.54	11.25	4.18	5.77	7.93	2.75
Total Workers ..	100.00	100.00	100.00	100.00	100.00	100.00

The proportion of cultivators in the district is comparatively very high against the State average. The proportion of agricultural labourers is slightly higher among the males but is very much lower for females. The ratio between cultivators and agricultural labourers is 11 : 4 against 2 : 1 for the State. The talukawise variation is discussed below. The combined proportion for the cultivators and agricultural labourers in the district is 80·69 per cent against 69·91 per cent for the State.

The 1961 concepts of workers and non-workers have been described in the Explanatory Note to Part II. In spite of the changes in the method of economic classification the 1961 pattern may be broadly compared with the livelihood pattern of 1951. In 1951 cultivators and agricultural labourers (including earning dependants) made 60·87 per cent and 14·05 per cent of the total workers, respectively. In 1961, the corresponding proportions are 58·73 per cent and 21·96 per cent. The combined proportion of workers on land has thus increased by about 6 per cent. The increase in the proportion of agricultural labourers from 14·05 per cent to 21·96 per cent may be partly due to the increased area under irrigation and sugarcane. It is also possible that out of the persons engaged both as cultivators and agricultural labourers more persons have returned agricultural labour as their principal work than in 1951.

Talukawise distribution of workers in nine categories of economic activities is shown below. Corresponding figures for the State and the district are also shown for comparison :—

State/District/Taluka	I Cultivator	II Agricultural labourer	III Mining, Quarrying, Livestock, Forestry, Fishing, etc.	IV Household Industry	V Manufacturing other than Household Industry	VI Construction	VII Trade and Commerce	VIII Transport, Storage and Communications	IX Other Services	Total
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
MAHARASHTRA	46.11	23.80	2.16	4.39	6.88	1.24	4.52	2.36	8.54	100.00
AHMADNAGAR DISTRICT	58.73	21.96	0.99	4.17	3.97	1.06	2.43	0.92	5.77	100.00
1 Kopargaon Taluka	40.94	37.18	1.26	2.90	7.16	1.17	2.88	1.32	5.19	100.00
2 Akola Taluka	80.74	8.38	0.91	2.67	2.94	0.26	1.09	0.10	2.91	100.00
3 Sangamner Taluka	67.32	11.98	0.62	6.07	6.19	0.48	2.21	0.83	4.30	100.00
4 Shrirampur Taluka	31.86	42.55	0.92	2.79	9.01	1.10	3.75	1.76	6.26	100.00
5 Rahuri Taluka	54.01	26.06	1.26	4.05	4.19	3.26	1.48	1.00	4.69	100.00
6 Newasa Taluka	59.39	27.90	1.00	3.49	0.61	2.73	1.54	0.15	3.19	100.00
7 Shevgaon Taluka	59.77	29.31	1.08	4.28	0.19	0.26	1.38	0.25	3.48	100.00
8 Parner Taluka	79.53	9.33	0.47	5.22	0.33	0.38	1.29	0.23	3.22	100.00
9 Ahmadnagar Taluka	45.47	11.65	1.12	5.11	8.76	1.43	6.08	2.79	17.59	100.00
10 Pathardi Taluka	67.42	19.50	0.80	6.13	0.45	0.44	1.76	0.17	3.33	100.00
11 Shrigonda Taluka	70.02	17.76	0.85	3.52	0.91	0.59	1.38	0.70	4.27	100.00
12 Karjat Taluka	68.67	18.59	1.54	3.85	0.49	0.97	1.32	0.22	4.35	100.00
13 Jamkhed Mahal	65.76	21.68	1.18	4.01	0.57	0.44	1.95	0.28	4.13	100.00

Distribution of workers by nine categories of economic activity is also shown in the Figure on page (57) for the district and each taluka separately.

Within the district the proportion of cultivators to total workers varies between 80·74 per cent in Akola taluka and 31·86 per cent in Shrirampur taluka. Akola and Parner have very high proportions, the former because of the rice-growing small landholders and Akola and Parner both retaining the cultivating landholders more and sending others outside for work. Ahmadnagar naturally has a low proportion (45·47 per cent) of cultivators because of its large urban population and larger proportions of workers in industry, trade and other services. But the proportions of cultivators are lower still in Shrirampur (31·86 per cent) and Kopargaon (40·94 per cent) talukas because of the very large number of agricultural labourers seasonally migrating to work on sugarcane farms. In Shrirampur taluka, especially, the proportion of agricultural labourers (42·55) is larger than that of the cultivators (31·86). This is an unique case and an indication of the high intensity of cultivation and irrigation. Shrirampur also has the largest proportion of workers (9·01 per cent) working in manufacturing industry. This again represents the workers working in the sugar factories.

Labour Participation by Age

The labour participation rates by age-groups are shown below for the district, for total, males and females separately. Corresponding figures for the State are also shown for comparison :—

Age-group	Ahmadnagar District			Maharashtra		
	Total	Males	Females	Total	Males	Females
All ages ..	50·27	57·50	42·75	47·91	57·09	38·10
0—14 ..	10·69	10·40	10·99	8·72	8·62	8·84
15—34 ..	81·71	90·79	72·47	74·53	87·45	60·90
35—59 ..	83·79	97·19	68·69	81·57	96·86	63·68
60+ ..	46·82	72·36	21·07	49·13	72·82	26·28

The labour participation rates in the district are higher both for males and females in all the age-groups except the last age-group of 60+. The differences are however more significant in the case of females. The reasons which have already been described are the lower proportion of urban population and a slightly depressed total economy of the district in spite of its prosperous agriculture.

Workers by Educational Levels

The distribution of workers by educational levels shown in Table B-III is shown in the next column by percentages for the district. Corresponding figures for the State are also shown for comparison.

	Illiterate	Literate (without educational level)	Primary or Junior Basic	Matriculation and above
Maharashtra ..	68·65	14·11	13·91	3·33
Ahmadnagar District.	71·61	17·04	9·88	1·47

The average literacy rate in the district is a little lower than the State average. It is reflected in the larger proportion of illiterate persons among the workers. Consequently the proportions of workers with higher educational levels are lower. The higher proportion of literate workers without educational level indicates that a larger proportion of pupils are leaving the schools and take up jobs before attaining the primary or junior basic levels.

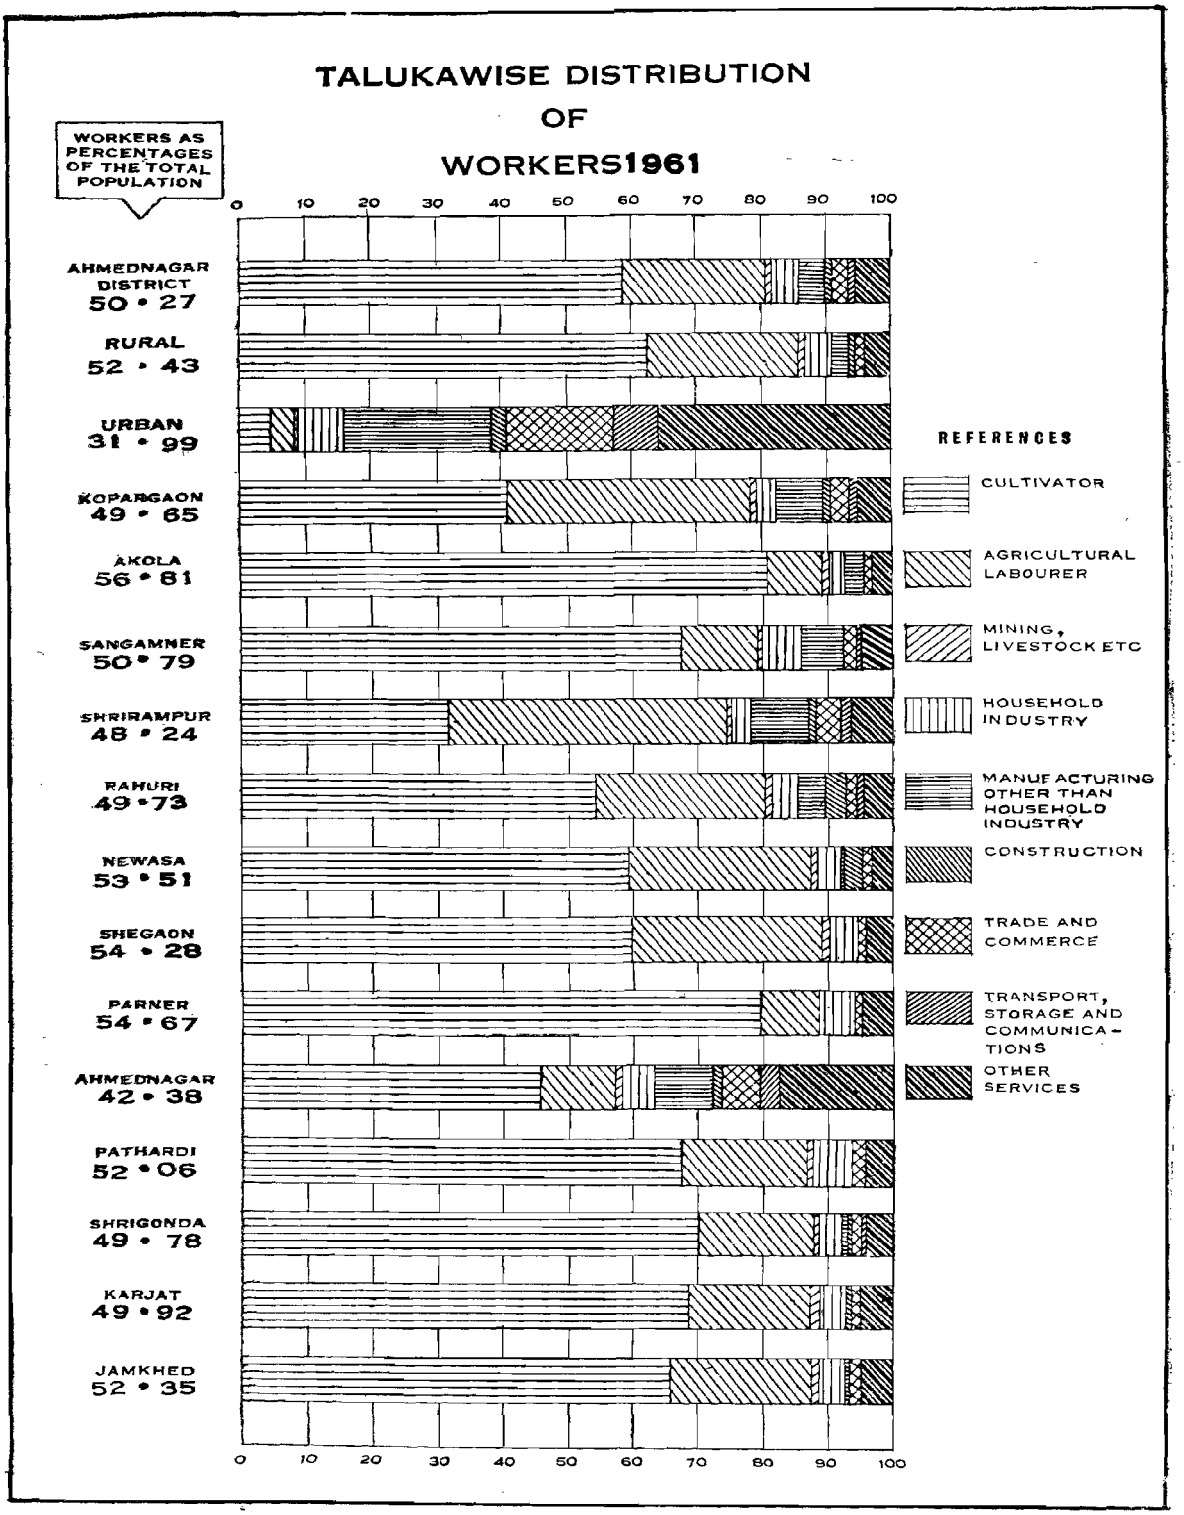

There are 13,149 workers with educational levels of matriculation and above in the district. It is significant that 1,335 of them are working in agriculture. 1,628 are in manufacturing other than household industry, 1,090 in trade and commerce, 609 in transport, storage and communications and 7,928 in other services. The number in other services is so large because of inclusion of primary school teachers and defence service personnel in it.

Status of Employment

Table B-IV-B in Part II shows the distribution of workers by status of employment for non-household industries. The percentage proportions of employers, employees, single workers and family workers in the district for total, rural and urban areas are as follows. Corresponding figures for Maharashtra are also shown for comparison. The four classes of workers are defined in paragraph 58 in the Explanatory Note to Part II :—

		Total workers	Class of workers			
			Employers	Employees	Single workers	Family workers
Maharashtra ..	Total ..	100·00	3·96	62·18	26·52	7·34
	Rural ..	100·00	1·57	46·47	38·58	13·38
	Urban ..	100·00	4·98	68·90	21·37	4·75
Ahmadnagar District.	Total ..	100·00	2·27	54·79	32·35	10·59
	Rural ..	100·00	1·36	50·84	36·36	11·44
	Urban	100·00	3·77	61·34	25·70	9·19

As has been already described, the rural areas have more organised industries than the average of rural areas in the State. The proportion of employees among the non-agricultural workers is larger (50·84 per cent) than the State average (46·47 per cent). Strangely enough, the urban areas in the district are behind and the employment structure is dominated by single workers and family workers more than the average of urban areas in the State.

Percentage Distribution in Household Industry by Employees and Others

The proportion of employees, i.e., hired workers and others in household industries in the district total, rural and urban areas is shown in Table B-IV-A in Part II. The percentage distribution with corresponding figures for Maharashtra is as follows :—

		Total workers	Employees	Others
Maharashtra	Total	100·00	8·18	91·82
	Rural	100·00	4·91	95·09
	Urban	100·00	16·35	83·65
Ahmadnagar District ..	Total	100·00	7·51	92·49
	Rural	100·00	7·09	92·91
	Urban	100·00	10·82	89·18

Even the household industries in rural areas hire a larger proportion (7·09 per cent) of workers than the State average. But the urban areas have a lower proportion of hired employees than the State average.

Secondary Work

The proportions of workers also engaged in some other secondary economic activity for three categories of principal work for Maharashtra and the district are as follows (Actual figures are shown in Table B-VII-A in Part II) :—

	Principal work	Total Rural Urban	Percentage of total workers by categories of secondary work I	II	IV
Maharashtra ..	I Cultivation	Total ..	..	17.85	1.97
		Rural ..	..	18.03	1.98
		Urban ..	..	10.54	1.32
	II Agricultural Labour ..	Total ..	13.17	..	0.94
		Rural ..	13.46	..	0.97
		Urban ..	7.12	..	0.31
	IV Household Industry ..	Total ..	14.78	6.97	..
		Rural ..	19.61	9.38	..
		Urban ..	2.70	0.95	..
Ahmadnagar District.	I Cultivation	Total ..	..	13.56	1.72
		Rural ..	..	13.62	1.73
		Urban ..	..	2.46	0.24
	II Agricultural Labour ..	Total ..	13.28	..	0.69
		Rural ..	13.40	..	0.70
		Urban ..	1.66	..	0.05
	IV Household Industry ..	Total ..	11.37	3.76	..
		Rural ..	12.73	4.22	..
		Urban ..	0.48	0.14	..

There are smaller proportions of cultivators and agricultural labourers in the district also working on land in the other category as secondary work. It is, however, significant that more than 71,101 cultivators also work at agricultural labour as secondary work and more than 26,050 agricultural labourers also work in secondary work as cultivators. In other words more than 97 thousand cultivators work as agricultural labourers to supplement their earnings.

Occupational Classification

Table B-V in Part II shows the distribution of non-agricultural workers by occupation. The percentage distribution for the State and the district is as follows. The occupational classification is described in the Explanatory Note to Part II :—

Occupational Division	Maharashtra	Ahmadnagar District
0 Professional, technical and related workers.	6·42	7·25
1 Administrative, executive and managerial workers.	3·89	4·32
2 Clerical and related workers ..	9·13	5·37
3 Sales workers	12·23	12·16
4 Farmers, fishermen, hunters, loggers and related workers.	7·64	8·41
5 Miners, quarrymen and related workers.	0·75	1·17
6 Workers in transport and communication occupations.	3·57	3·50
7&8 Craftsmen, production process workers and labourers not elsewhere classified.	45·99	49·02
9 Service, sport and recreation workers	10·27	8·76
X Workers not classifiable by occupation	0·11	0·04
Total ..	100·00	100·00

The proportion for the first occupational division 0 (Professional, technical and related workers) is higher in the district mainly because of the comparatively larger number of primary school teachers. The proportion of workers in occupational division 7-8 (Craftsmen, production workers, etc.) is higher because of the sugar industry in the district together employing 13,703 workers.

Non-Workers

The distribution of non-workers by eight broad categories is shown in Table-B-IX in Part II. Percentage distribution for the district is shown below :—

	District Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
(1) Full-time students	35.03	11.18	32.85	9.90	49.28	18.27
(2) Household duties	0.26	31.41	0.28	28.32	0.14	48.53
(3) Dependants, infants and disabled	62.32	56.83	65.05	61.26	44.46	32.35
(4) Retired, rentiers, or persons of independent means.	0.68	0.21	0.42	0.18	2.38	0.35

Total ..	100.00	100.00	100.00	100.00	100.00	100.00

There is a marked difference in the distribution pattern for non-workers among males and females. 35·03 per cent out of the male non-workers are full-time students while the corresponding proportion for the females is 11·18 per cent. The reason is that 31·41 per cent females who are engaged in household duties are also included as non-workers. There are rural-urban differences in the proportion of dependants. They are due to the larger proportion of females in urban areas as non-workers. Other categories have less than a per cent of non-workers each.

The rural-urban differences are similar both for males and females. In urban areas, the percentage of full-time students is higher and that for dependants lower. The percentage of females engaged in household duties is higher in urban areas than in rural areas. The percentage of unemployed is 2·82 and 0·40 for males in urban and rural areas and negligible in both cases for females. Proportions of full-time students among females are lower both in urban and rural areas. The difference is not, however, entirely due to social customs of attending more to the education of boys than that of girls. The proportions for females are lower because the group of non-workers contains a large number of adult women engaged in household duties.

Seasonal Migration

The houselist population reported for the district on 1st October 1960 was 17·33 lakhs. With the decade average rate of growth, it was estimated for 1st March 1961 at 17·52 lakhs. The actual population enumerated on that day in the district is however 17·76 lakhs or 24 thousand more than the estimate. The difference was plus 15 thousand in rural areas and plus nine thousand in urban areas. Five thousand out of this latter factor found in Ahmadnagar taluka may have to be overlooked as the cantonment population had not been included in the houselist population. We may therefore draw a safe inference that the net seasonal in-migration from outside the district is in the order of 20 thousand. Most of them are from the neighbouring areas of Bhir district. There is a similar seasonal movement within the district also out of the total number of seasonal in-migrants. Kopargaon attracts 20 thousand, Shrirampur 14 thousand, Rahuri 4 thousand and Newasa 3 thousand within the district; the migration is of 10 thousand from Pathardi, 7 thousand from Sangamner, 2 thousand each from Akola and Parner and one thousand from Karjat. That the seasonal migration is predominantly though not entirely of males may be seen from the following differences in the sex ratios of the district and its talukas for the two different dates :—

	District/Taluka		1st October 1960	1st March 1961

EXPLANATORY NOTE

This Part I presents 1961 Population Census figures for all villages and towns in the district. In the case of towns, the figures are also presented separately for each ward. These basic statistics are not published for such small administrative units in any other country in the world.

2. For each village, ward or town are shown its area, number of occupied residential houses, number of households, total population and its break-up by sex, literacy, Scheduled Castes, Scheduled Tribes, workers and non-workers. The figures for workers are further split up by sex and by a broad classification of industrial activity in nine categories described in paragraph 16 below.

3. In the village directory, the villages are presented talukawise and within a taluka in the order of their location code numbers. These code numbers had been assigned to them for organising 1961 Census work and follow a regular north-west to south-east direction. The taluka map shows approximate locations of all villages with their code numbers. An alphabetical list of villages will be found facing each taluka map. It shows the code number for each village and its population in 1951 and 1961. The taluka map and the alphabetical list will together facilitate location of any village in the village directory as well as on the spot.

4. A "village" is a statutorily recognised village having a defined boundary and separate land records. Hamlets, wadies or padas have, therefore, not been shown separately. On the other hand, statutorily recognised villages having no population have been shown with separate code numbers but with words "uninhabited" shown against them.

5. Forest villages, however, make an exception. They are population centres situated within reserved forest areas. Their population mainly consists of forest labourers and their families. Most of them are, however, permanent localities and also have attached cultivated areas leased out by the Forest Department under certain conditions. Their land records are not maintained by the Revenue Department. Statistics for these forest villages have also been presented in the village directory. They may, however, be distinguished from other statutory revenue villages from the letters "(FV)" suffixed after their names.

6. Survey of India maps, taluka maps, previous Census Handbooks and many other official sources have been referred both to secure accurate coverage and to get the correct spellings of village names. A very high standard of accuracy may now be claimed for both.

7. Urban areas or towns are places which either have a municipality or cantonment or have been treated as towns because they have—

(*a*) a population of over 5,000 ; and

(*b*) 75 per cent or more of male workers engaged in non-agricultural occupations.

Census figures for all these towns are presented wardwise after the completion of rural portion. Their names will also be found in the alphabetical lists of villages in capital letters with code numbers shown in roman figures. They are also shown on the taluka map.

8. The taluka maps and the alphabetical lists are both improvements over the 1951 District Census Handbooks. The village figures are, moreover, extracted directly from census records and not, as was done in 1951, from their copies prepared for some other purposes. The figures presented in the village directory, therefore, tally with the taluka and district Census tables perfectly.

9. Information contained in columns (3) to (7) of the village directory is based on village enumeration reports prepared by the Talaties or Patwaries during October/November, 1960, at the time of house numbering and house listing for 1961 Census. Because of the geographical arrangement of the villages these five columns indicate the general pattern of distribution of some basic amenities within a taluka. Village enumeration reports contained many more useful items of information on the villages, which could not be presented in the village directory for want of space. They are preserved in the offices of the District Statistical Officers.

10. The area figures in column (8) have been obtained either from the Mamlatdars/Talisildars or taken from the 1951 Census Handbooks.

11. In column (9) of the village directory, the occupied houses include houses used as dwellings or partly as dwellings and partly for some other purposes, *e.g.*, shop-*cum*-dwellings, etc.

12. Columns (14) to (17) of the village directory present, for the first time, villagewise figures of population of Scheduled Castes and Scheduled Tribes.

13. For columns (18) and (19) a "literate" is a person who knows both reading and writing.

14. For the definition of a "worker" or a "non-worker" and for a detailed description of industrial categories the Explanatory Note to Part II may have to be referred.

15. The villagewise figures for industries and the number of workers have been presented in a separate table appearing in Part II of the Handbook.

16. The following abbreviations have been used in the village directory :—

ABBREVIATIONS AND SYMBOLS USED

IN COLUMN HEADINGS

F *for* Females.

M *for* Males.

P *for* Persons.

I Working as Cultivator.

II Working as Agricultural Labourer.

III Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.

IV Working at Household Industry.

V Working in Manufacturing other than Household Industry.

VI Working in Construction.

VII Working in Trade and Commerce.

VIII Working in Transport, Storage and Communications.

IX Working in Other Services.

IN NOTATIONS

In Column (2)

E *for* Electricity.

FV *for* Forest Village.

In Column (3)

Po *for* Post Office.

R *for* Connected by Road.

Rh *for* Rest-houses and Choultries.

Rly *for* Connected by Railway.

To *for* Telegraph Office.

In Column (4)

C *for* Higher Institutions including Colleges.

H *for* High School.

M *for* Middle School.

P *for* Primary School.

T *for* Technical Institutions.

IN NOTATIONS

In Column (5)

C *for* Canal.

N *for* Nallah.

Riv *for* River.

S *for* Protected Water Supply.

Sp *for* Spring.

Tk *for* Tank.

W *for* Well.

× *for* Inadequacy of Drinking Water.

In Column (6)

D *for* Dispensaries.

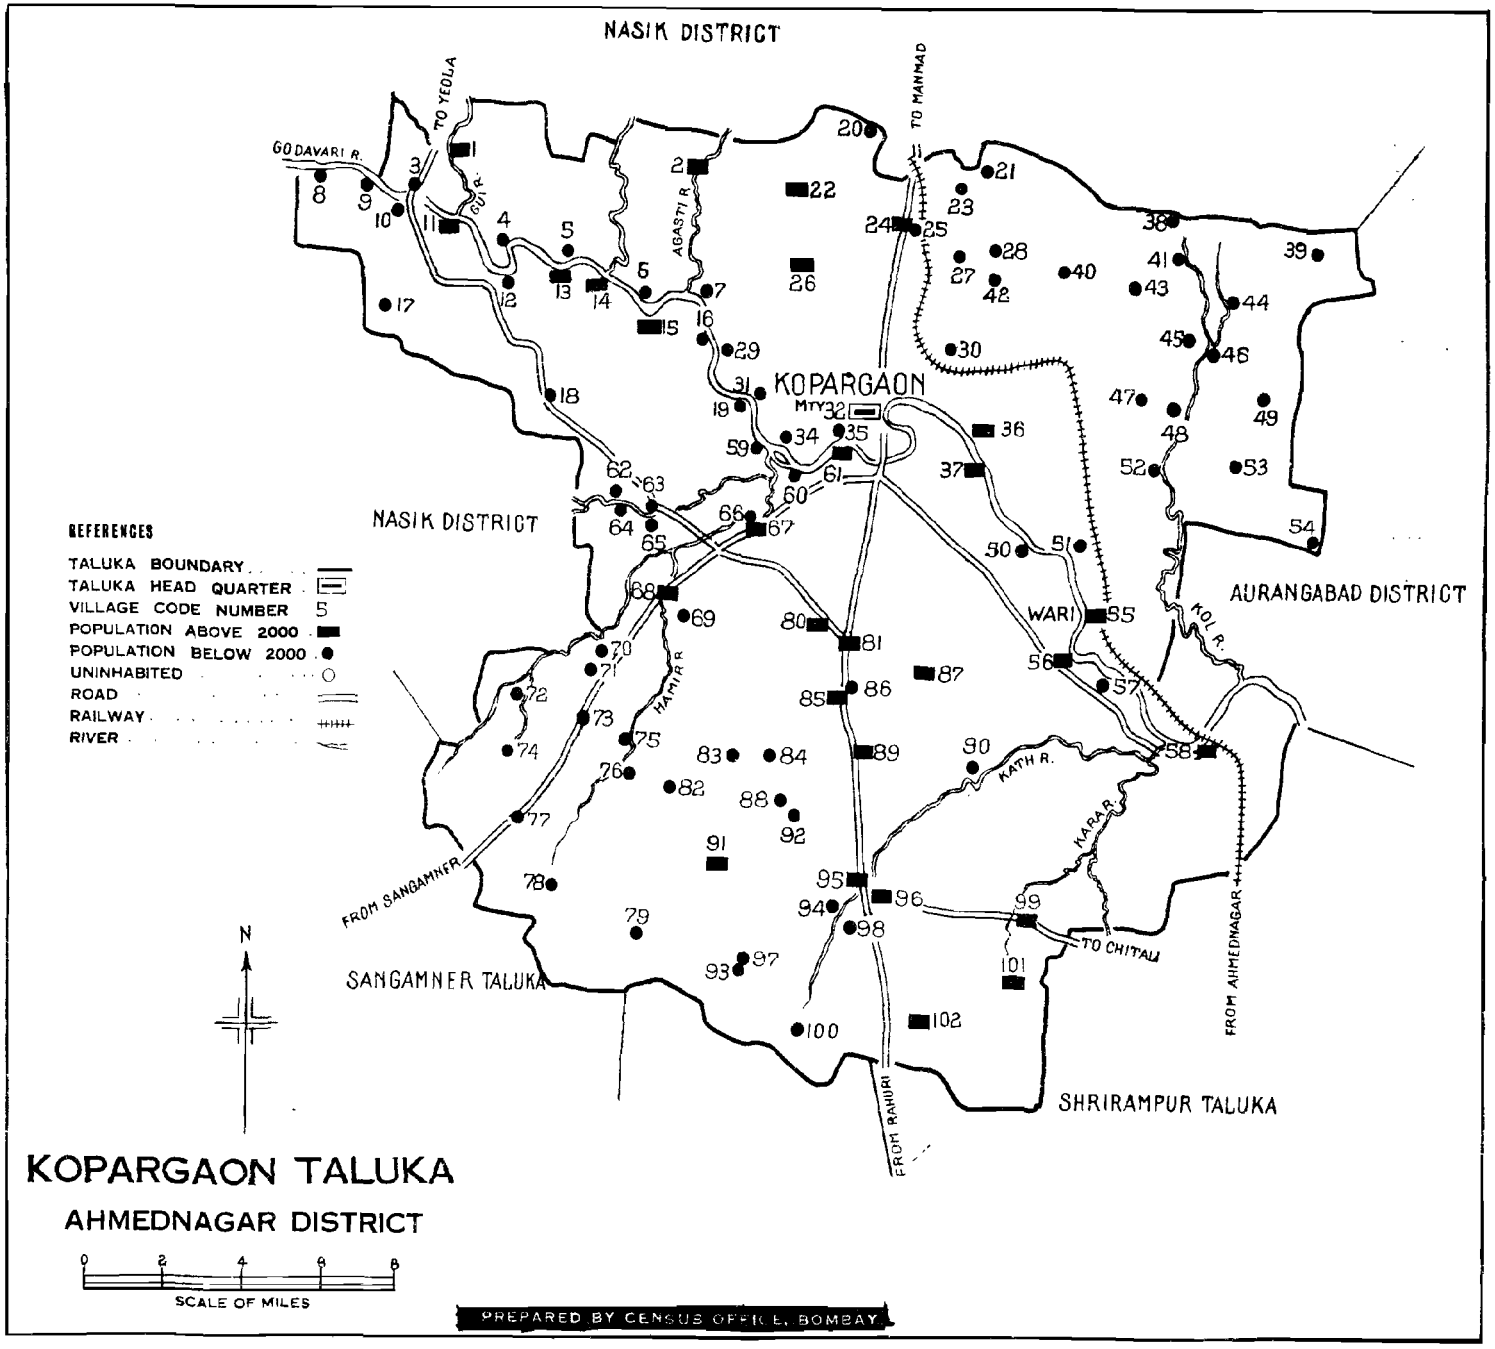

Hos *for* Hospital.

Mp *for* Medical Practitioner.

In Column (8)

NA *for* Not Available.

Waladgaon	55	1,382	1,979
Wangi	74	417	508
TOTAL		132,975	178,174

Note.—In 1951 Census, a village which did not belong to Shrirampur taluka was wrongly included with the slips of this taluka for all subsequent stages of sorting. This village had a population of 1,094 persons (551 males and 543 females). Hence, there is a difference of 1,094 in the 1951 population as shown in this list and that in A-II Table of the taluka. For further details please see footnote on page 560 of Ahmednagar District Census Handbook 1951.

Statement showing villages which are merged in other villages in 1961 Census

Number of Establishments and Workers for Industries classified by Minor Groups of Industrial Classification.		195

EXPLANATORY NOTE

THIS PART contains 58 Tables presenting 1961 Census data for the district. 29 Tables also present material for each taluka and 6 for each town separately. These talukawise and townwise tables have been prepared specially for this volume.

2. A few Tables (e.g., A-IV, B-VI, B-VIII-A, etc.) present material for urban areas only. An urban area is the aggregate of all towns in the district or in the taluka concerned. All the other tables present material for total, rural and urban areas separately. In a few cases (e.g., B-III-D, B-VIII-B, B-IX, C-III-B, etc.), talukawise break-up is given for rural areas only because the corresponding data for the urban areas had been compiled only for the district as a whole and not for each taluka separately.

3. Tables on migration and a few other topics could not be included in this volume for want of space. They will be found in the volumes of the Maharashtra Census Report.

4. An account of how the Census was taken and a description of the definitions and concepts followed will be found in Part II-A of the Maharashtra Census Report. The material presented here relates to the 1st March 1961, which was the reference date fixed for the Census and which very closely approximated the completion of the Second Five-Year Plan. An analysis of this material will be found in the Introductory Note on the district at the beginning of this volume.

5. The following paragraphs contain brief notes on the tables included in this Part. Concepts and definitions of terms used are briefly described in the notes on the tables where those terms first appear in the Series. Each table starts with the entries for the district and the talukas follow in the order of their code numbers fixed by their geographical locations for purposes of the 1961 Census.

A SERIES

GENERAL POPULATION TABLES

6. There are four General Population Tables and three Appendices in this Series. They are the basic population tables. They will be useful to study the variation of population, sex ratios, distribution by size of villages or towns and trends of urbanisation in the district.

Table A-I

7. This table presents area, density, number of villages and towns, occupied residential houses and population total, males and females. Material is presented for the district and for each taluka (Tahsil or Mahal) for total, rural and urban areas separately. Towns are shown immediately after the entries of the taluka in which they are situated.

8. A town or an urban area is a place which has a municipality, a cantonment or a civil line or a population of 5,000 or over and at least ¾ths of male population dependent on non-agricultural pursuits. A population enumerated in urban areas is urban population and the population enumerated in all other places is rural population. Total includes the population of both urban and rural areas.

9. Area figures have been obtained through Revenue and Municipal Officers. Rural area is the difference between the Total and the Urban areas. The area figures for the district have been obtained from the Director of Land Records.

10. The term "village" has been explained in paragraphs 4 and 5 of the Explanatory Note to Part I.

11. The figures for number of occupied residential houses include houses used partly as dwellings and partly for some other purpose like shop, workshop, factory, etc., but do not include vacant residential houses where no person was found to be residing at the time of the Census.

Appendix I

12. This shows the territorial changes that have taken place during the decade. Units which had some change in area in the decade are only shown here.

Appendix II

13. This shows the number of villages which in spite of a population of 5,000 or over have not been treated as towns and the number of towns which have less than 5,000 population but which have been treated as towns only because they have Municipalities. Columns (4) and (7) show the percentage of populations in villages of over 5,000 and towns of less than 5,000 to the respective rural or urban populations of the district or the taluka concerned.

Appendix III

14. *Houseless Population.*—Houseless persons were enumerated in all areas on the night of 28th February 1961. These include: (i) persons who might be doing domestic service or some other work with one or more households but who do not reside in any house and sleep in the corridors, verandahs or passages in buildings or on the streets; (ii) wandering or nomadic tribes found to be staying in temporary huts, rahooties, etc., or residing without any such huts just on the open grounds; and (iii) beggars, vagrants, tramps, sadhus, fakirs, lepers, etc., who are found on the footpaths, streets, otlas, in places like parks, gardents, seashore, railway yards, etc.

15. *Institutional Population* includes persons enumerated in penal, charitable or mental institutions, hostels, hotels, hospitals, boarding houses, etc.

Table A-II

16. This table presents population of the district for the seven Censuses from 1901 to 1961 and the variation by actual figures and percentages. Population figures for 1951 and 1961 and variation during the decade are presented for each taluka separately. The population figures for earlier Censuses shown in the table have been adjusted for the boundaries or areas of the district and talukas as they existed at the time of 1961 Census.

Table A-III

17. This table gives for the district and each taluka the distribution of inhabited villages classified by seven population size groups which are: (i) less than 200; (ii) 200—499; (iii) 500—999; (iv) 1,000—1,999; (v) 2,000—4,999; (vi) 5,000—9,999; and (vii) 10,000 and above.

18. Hamlets are included in the village. The classification here is on the basis of the combined population of the village and its hamlets if there are any. In other words, the classification is not strictly according to the size of each individual nucleus of rural population but is based on the size of population of the revenue village which may in some cases be a single nucleus of population and in others a group of two or more scattered localities.

Table A-IV

19. This table shows the growth of each town since 1901. It shows population for each town for the last seven Censuses. Towns are presented in the following six classes classified by their population in 1961. Within a class, the names of towns are arranged in the order of population:

Class I	..	100,000 and over.
Class II	..	50,000 to 99,999.
Class III	..	20,000 to 49,999.
Class IV	..	10,000 to 19,999.
Class V	..	5,000 to 9,999.
Class VI	..	Less than 5,000.

20. Where two or more towns are adjacent and together form a compact urban unit, the entire town group is classified with reference to the combined population of the group. In such cases, the total population of the group is shown along with the population of each of its constituent towns.

21. Where a town was not treated as a town in some earlier Census, its population at that Census had been included in rural population. It is not presented here as the table presents figures of urban population only.

22. The total urban population of the district and its variation in the last sixty years are shown at the beginning of the table.

B SERIES

(i) GENERAL ECONOMIC TABLES

23. There are 16 Tables in this Series showing the distribution of population by economic activity correlated with sex, age and educational levels. The classification by economic activity is first by workers and non-workers. The workers are then classified in nine broad categories of economic activity. A more elaborate classification of workers by industry under the Standard Industrial Classification Scheme is presented in Tables B-IV-A, B and C and by occupation under the National Occupational Classification in Table B-V. Two Tables B-VII-A and B-VII-B show the classification of workers by secondary work. The last three tables present distribution of non-workers by sex, age and eight broad classes.

24. In the 1951 Census Reports, the population was classified into eight livelihood classes and each class was further divided with reference to economic status into—

(i) self-supporting persons ;

(ii) earning dependents ; and

(iii) non-earning dependents.

25. The concept of dependency has been abandoned for economic classification at the 1961 Census. Instead, the population is classified into workers and non-workers. The emphasis is now on work and not on income or economic dependence.

26. A person is classified as worker if—

(*a*) in case of seasonal work like cultivation, livestock, dairying, household industry, etc., he has had some regular work of more than one hour a day throughout the greater part of the working season ; and

(*b*) in the case of regular employment in any trade, profession, service, business or commerce, he was employed during any of the fifteen days preceding the day of the enumerator's visit to the household.

27. A person who was working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes has been treated as a worker. A person who had been offered work but had not actually joined has been treated as a non-worker.

28. "Work" includes not only actual work but effective supervision and direction of work also.

29. Persons under training as apprentices with or without stipend or wages are regarded as workers.

30. An adult woman who was engaged in household duties but doing no other productive work to augment the family's resources has not been considered as working. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale or wages, or in domestic services for wages for others, in minding cattle or selling firewood or making and selling cowdung cakes, or grass, etc., or any such work she has been treated as a worker.

31. Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who earn an income but who are not participating in any productive work are not treated as workers unless they also work in cultivation, industry, trade, profession, business or commerce.

32. A public or social service worker who is engaged in public service actively or a political worker who is actively engaged in furthering the political activity of his party is regarded as a worker.

33. The population classified as workers here is the economically active population including family workers but not including unemployed persons.

34. The Census Questionnaire did not have any question to determine the extent of full employment or under-employment.

35. Classification of workers doing two or more different types of work, has been done on the basis of their principal work, i.e., the work which consumes larger portion of their time and not necessarily the work which earns larger portion of their income.

Primary Census Abstract

36. This table shows 1961 summary figures for the district and talukas, each for total, rural and urban areas separately. Similar details for each village, town and ward of a town are presented in Part I.

37. For each unit, the table shows area in square miles, number of occupied houses, number of households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated persons and number of workers and non-workers. The workers are shown further classified for nine categories of economic activity.

38. Column (5) shows the number of households for each unit. The " household " is slightly different from a " family ". A " household " is a group of persons who commonly live together in the same house and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. A domestic servant residing and eating at the employer's house is a member of the household. Similarly, a friend or a guest (related or unrelated) residing and eating with the host during the Census period is treated as a member of the (host) household. On the other hand, a son or a daughter residing in a hostel (may be in the same town) is not treated as a member of the household.

39. Columns (9) to (12) of the Primary Census Abstract show population of the Scheduled Castes and Scheduled Tribes, respectively, by males and females. The figures are related only to the two group totals of all Scheduled Castes and all Scheduled Tribes. Their break-up by individual Scheduled Caste or Scheduled Tribe will be found in Table SCT-I.

40. The limitations in coverage of these two groups may be mentioned here. The groups of Scheduled Castes or Scheduled Tribes do not include all backward castes or tribes living in the district. They include only the castes or tribes declared as Scheduled Castes or Scheduled Tribes in the district. In cases where a caste or a tribe is declared as a Scheduled Caste or a Scheduled Tribe for a specified area that caste or tribe has been separately presented only for that specified area and not for any other areas of the district.

41. Columns (13) and (14) show figures for literates and educated persons. A " literate " is a person who can both read and write a simple letter. Persons having higher education are also included in these figures. More material on literacy and education cross tabulated with age-groups is presented in Table C-III.

42. The workers are shown classified by sex and in the following nine categories of economic activity :—

I	As Cultivator.
II	As Agricultural Labourer.
III	In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.
IV	At Household Industry.
V	In Manufacturing other than Household Industry.
VI	In Construction.
VII	In Trade and Commerce.
VIII	In Transport, Storage and Communications.
IX	In Other Services.

Category I

43. This category includes both the owner cultivators and tenant cultivators. Along with workers personally doing work on land are also included persons who are engaged in supervision or

direction of cultivation. All persons working in cultivation of land on which they have either ownership or tenancy rights are included in this category.

Category II

44. All other persons working on land as labourers on wages without holding any right upon the land are classified as agricultural labourers and included in the second category.

Category III

45. Workers in mining, quarrying, livestock, forestry, fishing, hunting, plantations, orchards and allied activities are included in this category.

Category IV

46. A "Household Industry" is defined as an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. A household industry is not run on the scale of a registered factory. Thus, the main criterion for a household industry is the participation of one or more members of a household in rural areas. In the urban areas, household industry is confined to the house.

47. A household industry relates to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader, doctor, barber, washerman or astrologer. Persons working in other person's household industry as paid employees are also treated as workers in household industry.

Category V

48. "Manufacturing" includes all types of production, processing, servicing or repairing of goods. This category does not include production or processing which may be classified as household industry.

Category VI

49. This category includes workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph, telephones, waterways, reservoirs, etc.

Category VII

50. This category includes workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estates and properties, stocks and shares, insurance, moneylending, banking, etc.

Category VIII

51. This category includes workers engaged in transport activities by air, rail, road or water and in services incidental to transport such as packing, carting, loading, unloading, etc. Workers engaged in storage, warehousing and communcation services such as Posts, Telegraph, Telephones, Wireless Signalling, Information and Broadcasting are also included in this category.

Category IX

52. This category includes (i) Public utility services like electricity or gas or water-supply, sanitary services; (ii) Central, State or Municipal employees; (iii) Professional services; (iv) Trade or labour associations, Recreation services, etc.

Tables B-I and B-II

53. This combined table gives break-up of the Primary Census Abstract distribution of workers in nine industrial categories and non-workers by four broad age-groups. The material is presented for the district and each taluka as well as for total, rural and urban areas separately. Towns are also shown immediately after the entries of the talukas in which they are situated. For talukas which do not have any urban areas, entries are given only for totals which correspond to those for rural areas.

Table B-III

54. This table gives break-up of the Primary Census Abstract distribution of workers in nine industrial categories and non-workers by educational levels. Material for the district is presented for total, rural and urban areas separately while that for the talukas is presented only for rural areas. The classification by educational levels is more elaborate in the case of the urban areas. Classification by educational levels and age-groups will be found in Table C-III.

Industrial Classification

55. Industry of a worker is that branch of economic activity in which he is engaged in producing goods or services. Tables B-IV-A, B-IV-B, B-IV-C, B-VII-A and B-VII-B of the present Series and Tables B-XIII, B-XIV-A, B-XIV-B and B-XVI of the following Series show the distribution of workers by industry according to the Standard Industrial Classification which is reproduced as Appendix I to this note. For want of space it has not been possible to give description of each group of industry in the tables. They are shown only by industry codes in one, two or three digits as the case may be.

56. The nine categories shown in the Primary Census Abstract and Tables B-I, B-II and B-III conform to the industry divisions as follows :—

	Category	Industry Division
I	Cultivator	Minor groups 000, 001, 002, 003 and 004 from Division 0.
II	Agricultural Labourer ..	
III	Mining, Quarrying, etc.	Division 0 except minor groups 000 to 004 and Division 1.
IV	Household Industry ..	Division 0 except minor groups 000 to 004, Divisions 1 2 & 3.
V.	Manufacturing	Division 2&3.
VI.	Construction	Division 4.
VII.	Trade and Commerce ..	Division 6.
VIII.	Transport, Storage and Communications.	Division 7.
IX	Other Services	Divisions 5, 8 and 9.

Table B-IV-A

57. This table gives the distribution of workers engaged in household industry by status of employment and by each division and major group (Appendix I) of household industry separately. Materal is presented only for the district but for total, rural and urban areas separately. Major groups of household industry which do not have any workers in the district are not shown here. Columns (7) and (8) show the workers who work at their own household industry (i.e., who are either employers, single workers or family workers in those household industries). Columns (5) and (6) on the other hand show the workers who are working as employees in household industries not of their own.

Table B-IV-B

58. This table presents distribution of all workers (other than those working in categories I, II and IV) by industry divisions and major groups (Appendix I) and by employment status. Material is presented for the district only but for total, rural and urban areas separately. Classification of workers by employment status is in four classes "employer", "employee", "single worker" and "family worker".

An "employer" is a person who employs other persons in order to perform economic activity in which he is engaged.

An "employee" is a person who usually works under some other person for salary, or wages in cash or kind.

A "single worker" is a person who works by himself. He is not employed by anyone else and in his turn does not employ anyone else, not even members of his household, except casually.

A "family worker" is a member who works, without receiving wages, in cash or kind, in any industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season.

Table B-IV-C

59. This is a very important table as it gives the employment position in all sectors of economy in the district. It shows the distribution of all workers (other than those in categories I and II) by industry division, major groups and minor groups according to the Standard Industrial Classification (Appendix I). The number of workers against each division, major group or minor group is further split up and shown separately for household industry and non-household industry. Material is presented only for the district but for total, rural and urban areas separately. Major or minor groups which do not have any workers in the district are not shown here.

Occupational Classification

60. Occupation of a worker is the function which he performs in any branch of economic activity (which is called his industry). For a clerk working in a textile mill, the industry is textile and occupation is clerical. For a person working as a driver on a bank's vehicle, the industry is banking and occupation is driver.

61. Tables B-V and B-VI show the distribution of workers by occupation according to the National Occupational Classification Scheme which is reproduced as Appendix II to this note.

Table B-V

62. This table presents the distribution of workers (other than those engaged in categories I and II) by occupational divisions and groups (Appendix II). For each division or group the workers are shown by a categorywise break-up of their industry. The material is presented only for the district but for total, rural and urban areas separately. occupational groups which do not have any workers in the district are not shown in the table. For an occupational group which has all the workers in only one category of industry, only one line shows the total workers for that group as well as for that category of industry.

Occupational distribution of workers in the 1961 Census has been worked out and presented in Maharashtra Census Report, Part II-B (ii), even for Occupational families, i.e., up to three digits. For want of space it is presented here for occupational groups, i.e., up to two digits only.

Table B-VI

63. This table presents the distribution of workers (other than categories I and II) classified by sex, occupational divisions (Appendix II), broad age-groups and by educational levels. This table is presented only for the total urban area of the district.

Table B-VII-A

64. This table presents workers engaged as cultivators, agricultural labourers and at household industry classified by the nature of their secondary work. In case a worker is engaged in two or more kinds of work the one which consumes larger portion of his time (not necessarily earning a larger portion of his income) is treated as his principal work, another consuming second larger portion of his time is his secondary work. The secondary work is shown in the table classified only in three broad categories, viz., IV-Household Industry, I-Cultivator and II-Agricultural Labourer. Workers who may be engaged in secondary work in other categories, viz., III, V, VI, VII, VIII and IX are not shown in this table. The break-up of principal work in household industry by major industrial groups (Appendix I) is shown in column (1). It will enable analysis of workers engaged in secondary work by major branches of their principal work at household industry. The material is presented for the district only but for total, rural and urban areas separately.

J-1759—II—14-A (Ahmad.)

Table B-VII-B

65. This table shows workers engaged in non-household industry categories III and V to IX as principal work and doing some additional work in household industry. The additional work in household industry is classified by industrial divisions (Appendix I) only. Similarly, the break-up of principal industry in column (1) is also by industrial divisions only. Workers engaged in the industry divisions shown in column (1), but who are doing additional work in any sector other than household industry are not shown in this table. Material is presented for the district only but for total, rural and urban areas separately.

Table B-VIII-A

66. This table presents the distribution of unemployed persons aged 15 and above by age-groups and educational levels. The number of unemployed have been further split up by persons seeking employment for the first time and persons employed before but now out of employment and seeking work. Material is presented only for the total urban area of the district. Such detailed information on the unemployed is compiled for the first time in the 1961 Census.

Table B-VIII-B

67. This table presents the distribution of unemployed aged 15 and above in rural areas of the district by educational levels. The break-up of educational levels is not as elaborate as in Table B-VIII (Part A) and classification by age-groups or by persons seeking employment for the first time, etc., is not shown in this table. As a compensatory factor, the material is presented for the rural area of the district and each taluka, separately.

Table B-IX

68. This table presents the distribution of non-working population by broad age-groups and eight classes of non-workers. Such information on the non-working population had never been compiled before. The material is presented for the district separately for total, rural and urban areas and for each taluka for rural areas only.

(ii) HOUSEHOLD ECONOMIC TABLES

69. Tables B-X to B-XVI present the economic activity of the households as units. They relate to—

(i) the size of or interest in land cultivated and or the household industry conducted by the households ; and

(ii) the number of family workers and/or hired workers working in either of the two activities separately or combined in both.

70. In the case of countries of such economic status as ours where not all the goods produced enter the money market and where much of what is produced is consumed by the family itself, presentation of information on economic activity of individuals alone is likely to be slightly misleading unless that information is supplemented by material relating to economic activity of the households as entities. Such information is presented here for the first time. These tables are prepared from the household schedules specially introduced for that purpose as one of the three Questionnaire forms in the 1961 Census. The tables have been prepared on a 20 per cent sample of all the households in the district drawn for rural and urban areas separately.

71. Cultivation here includes cultivation both as owners and tenants. Size of holding shown is also of Operational holding, i.e., land actually cultivated and does not include land owned but not cultivated by the household.

Table B-X

72. This table presents distribution of sample households by those—

(i) engaged neither in cultivation nor household industry ;

(ii) engaged in cultivation only ;

(iii) engaged in household industry only ; and

(iv) engaged both in cultivation and household industry.

The material is presented for the district and each taluka for total, rural and urban areas separately.

Table B-XI

73. This is an important table. It shows the distribution of sample households engaged in cultivation classified by size of land and interest in land cultivated. Ten size-groups are shown horizontally while the interests in land are classified in three types, viz.—

(*a*) Entirely owned or held from Government.

(*b*) Entirely held from private persons or institutions for payment in money, kind or share.

(*c*) Partly held from Government and partly from private persons or institutions for payment in money, kind or share.

The material is presented separately for total, rural and urban areas of the district and only for rural areas of each taluka.

Table B-XII

74. This table shows the distribution of sample households engaged in cultivation classified by size of land cultivated and the total number of family workers and hired workers. The material is presented for the district for total, rural and urban areas separately and only for rural areas of each taluka.

Table B-XIII

75. This table shows the distribution of sample households engaged both in cultivation and household industry classified by size of land cultivated anp

by industry division and major group of the household industry (Appendix I). The table shows the sizes of cultivation holdings and the branches of household industry for which the two household economic activities combine in varying degrees. The material is presented only for the district but for rural and urban areas separately.

Table B-XIV-A

76. This table shows the distribution of sample households engaged in household industry only by the number of workers engaged and by industry division and major groups of the household industry (Appendix I). Material is presented for the district only but for total, rural and urban areas separately.

Table B-XIV-B

77. This table shows the distribution of sample households engaged in household industry only classified by industry minor groups (Appendix I) for the household industry. The industry minor group is shown with a break-up in four-digit codes in column (1). *These four-digit codes are shown in Appendix III.* The material is presented for the district only but for total, rural and urban areas separately.

Table B-XV

78. This table shows the distribution of sample households engaged both in cultivation and household industry classified by size of land cultivated and the number of family workers and hired workers working in the two activities combined. The material is presented for the district for total, rural and urban areas and for each taluka only for rural areas separately.

Table B-XVI

79. This table shows the distribution of sample households engaged in household industry classified by the period for which the household industry is worked and by industry division and major groups (Appendix I) of the household industry. A further split-up of figures is shown for household industry combined with cultivation and without cultivation. The material is presented for the district only but for total, rural and urban areas separately.

C SERIES

SOCIAL AND CULTURAL TABLES

80. There are 11 Tables in this Series dealing with Social or Cultural aspects like sizes and composition of households, age, marital status, literacy and education, language, religion, Scheduled Castes and Scheduled Tribes. The first two Tables C-I-A and C-I-B relating to Size and Composition of households are prepared from the houschold schedules on a 20 per cent sample. All the other tables are prepared from individual slips and on a total count.

Table C-I-A

81. This table presents distribution of sample households classified by their size and by economic activity, i.e., by work in cultivation or household industry. Households working at cultivation are further classified by size of landholding. The material is presented only for the district but separately for total, rural and urban areas. Classification by economic activity as well as by size of landholding is presented only for rural areas and classification by size of the household is alone presented for total and urban areas. This table is prepared from household schedules on a 20 per cent sample. This table appears as Table B-XVII in Part III of the Maharashtra Census Report.

82. The classification by size is as one member, small (2 to 3), medium (4 to 6), large (7 to 9) and very large (over 10) households. By definition, a Census household is not the same as a family. The household also includes persons who are not members of the family but who were residing with the family during the Census period. All the same, the table will give a general idea of the family sizes as in the majority of families outsiders are not likely to be present.

Table C-I-B

83. This table presents distribution of population of sample households by heads of the households, spouses of heads of households, married relations, never married, widowed or divorced relations and unrelated persons. These details are also shown for sample households classified by economic activity, i.e., participation in cultivation or household industry. For cultivation, the sample households are further classified by size of land holdings. This table is prepared from the household schedules on a 20 per cent sample. Material is presented for the district only but for total, rural and urban areas separately. The classification of households by economic activity and size of land holding is, however, shown for rural areas only. This table is of sociological interest indicating the strength of the joint family system.

Table C-II

84. This table presents distribution of population by sex, age and marital status. Classification of age between 10 and 70 years is by five-year age-groups. The other two groups are 0–9 years and 70 and over. The entire population in 0–9 years age-group has been treated as never married and no further classification by marital status is shown against them. The material is presented only for the district but for total, rural and urban areas separately. From this table it may be ascertained whether proportions in various marital status groups have changed since the last Census and whether any trend is observed in age of marriage. A corresponding table at the 1951 Census was prepared on a 10 per cent sample. This table is, however, prepared on a full count.

Table C-III-A, B and C

85. These three tables present the distribution by age, sex, literacy and educational levels. Classification by age is by five-year age-groups up to 59 years. Classification by educational levels is the same as in Table B-III. It is more elaborate in the case of urban areas. Part A presents material only for the district total while Part B presents material for rural areas of the district and of each taluka separately. Part C presents material only for the district urban areas but with more elaborate classification by educational levels.

86. These tables are a measure of the growth of literacy in the total population as well as in the different age-groups since the last Census. They are also likely to furnish information on the spread of adult education. The corresponding table at the 1951 Census was prepared on a 10 per cent sample. These tables have been prepared on a full count.

Table C-IV

87. This table presents distribution of the district population by single year ages both for males, and females separately. Figures presented are based on the actual returns recorded in the Census, i.e., they have not been smoothed or adjusted for preferences for digits 0, 5, etc. The material is presented only for the district total.

88. This is an important demographic table which is used for computing mortality rates. The corresponding table at the 1951 Census was prepared on a 10 per cent sample. This table has been prepared on a full count.

Table C-V

89. This table presents the distribution of population by mother-tongues. The figures are presented only for 9 top ranking mother-tongues in the district. Figures for all the other mother-tongues have been shown combined in the group "Others". Mother-tongues are arranged in the alphabetical order. Material is presented for total, rural and urban areas for the district and each taluka separately. At the end material is also presented for each town separately. A foot-note is added to show the number of speakers in the district for each of the mother-tongues combined in the group "Others".

90. "Mother-tongue" is defined as a language spoken by the person's mother to the person in his childhood or mainly spoken in the house. Dialects have been included in the main languages on the basis of Grierson's Classification.

91. Another Table (C-VI) on bilingualism has been prepared in the 1961 Census. It is not included in this volume and may be found in Part II-C of the Maharashtra Census Report.

Table C-VII

92. This table presents distribution of population by religion. Eight main religions have been shown in their alphabetical order. All other religions returned in the Census are combined in the group "Others". Figures for various sects returned as religion during the Census have been combined with the main religions concerned.

Table C-VIII-A

93. This table presents the total population of Scheduled Castes classified by literacy and by economic activity. Classification by economic activity is the same as in the Primary Census Abstract or Tables B-I and B-II. Material is presented for total, rural and urban areas of the district separately and only for rural areas of each taluka separately. Paragraph 40 above, on Primary Census Abstract, may be seen for explanation of the special group treated as Scheduled Castes.

Table C-VIII-B

94. This table presents the total population of Scheduled Tribes classified by literacy and by economic activity. Classification by economic activity is the same as in the Primary Census Abstract or Tables B-I and B-II. Material is presented for total, rural and urban areas of the district separately and only for rual areas of each taluka. Paragraph 40 above, on Primary Census Abstract, may be seen for explanation of the special group treated as Scheduled Tribes.

SCT SC & ST SERIES

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

95. There are 11 Tables in this Series specially prepared for the population of Scheduled Castes and Scheduled Tribes in the district. These classes of people are declared by the President's orders issued under Articles 341 and 342 of the Constitution of India as Scheduled Castes or Scheduled Tribes. Under Article 46 of the Constitution, the State has to promote, with special care, the educational and economic interests of the weaker sections of the people and in particular of the Scheduled Castes and Scheduled Tribes and has to protect them from social injustice and all forms of exploitation. For ensuring adequate representation to these classes, seats are also reserved for them in the House of the People, State Legislature and other elective bodies.

96. These special tables have been prepared to furnish data on the present socio-economic conditions of these people to be studied not only as a combined group as in 1951 but also for each Scheduled Caste and Scheduled Tribe separately.

97. These tables relate to economic activity, education, mother-tongue and classification of persons not at work. Material is presented for each Scheduled Caste and Scheduled Tribe separately. It will be useful information for formulating various schemes for their welfare.

98. Classification by Castes and Tribes is on the basis of returns recorded in response to question 5 (c) of the 1961 Census Questionnaire. Every person was asked if he belonged to one of the Scheduled Castes or Scheduled Tribes notified for the district and in case he belonged to one of them he was asked the name of his caste or tribe. Paragraph 40 above on the Primary Census Abstract explains the limitations of these castewise or tribewise figures. The population of Scheduled Castes shown here is much less than that for the district in 1951 as many persons from that group have returned their religion as Buddhist or Nav-Bauddha, and under the Constitution, there can be Scheduled Castes only among Hindus and Sikhs and in no other religion.

99. Two more Tables SCT-II and SCT-IV on age, marital status and religion of the Scheduled Castes and Scheduled Tribes prepared in the 1961 Census are not presented here for want of space. They may be seen in Part V of the Maharashtra Census Report.

Table SCT-I-A

100. This table presents the distribution of Scheduled Castes population by economic activity. Material is presented for the total of all Scheduled Castes as well as for each Scheduled Caste separately. Scheduled Castes are arranged in the alphabetical order. Classification by economic activity is in the same nine categories as in the Primary Census Abstract and Tables B-I and B-II. In a way, this table presents castewise break-up of the material presented in Table C-VIII (Part A). The last group of castes "not stated" is of persons who were returned as belonging to Scheduled Castes but in whose case the name of the Scheduled Caste concerned had not been stated in the Census.

101. Columns (28) to (31) present Scheduled Castewise figures of persons engaged in unwholesome occupations like tanning, currying of hides and skins and scavenging. The number of workers shown in these occupations as well as in any other category is on the basis of principal work. Persons engaged in cultivation or any other activity as principal work and also engaged in tanning, currying or scavenging as secondary work are not included in the figures of columns (28) to (31).

102. The material is presented for total, rural and urban areas of the district separately and only for rural areas for each taluka.

103. There are some more castes declared as Scheduled Castes for the district. They are not shown in this table because no one belonging to those castes was enumerated in 1961 Census in the district.

Table SCT-I-B

104. This table presents the distribution of Scheduled Tribes population by economic activity. Material is presented for the total of all Scheduled Tribes as well as for each Scheduled Tribe separately. Scheduled Tribes are arranged in the alphabetical order. Classification by economic activity is in the same nine categories as in the Primary Census Abstract and Tables B-I and B-II. In a way, this table presents tribewise break-up of the material presented in Table C-VIII (Part B). The last group of tribes "not stated" is of persons who were returned as belonging to Scheduled Tribes but in whose case the name of the Scheduled Tribe concerned had not been stated in the Census.

105. The material is presented for total, rural and urban areas of the district separately and only for rural areas for each taluka.

106. There are some more Scheduled Tribes declared as Scheduled Tribes for the district. They are not shown in this table because no one belonging to those tribes was enumerated in 1961 Census in the district.

Table SCT-III-A (i)

107. This table presents the distribution of each Scheduled Caste population by sex and educational levels. The table presents material for the district urban area only. The classification of educational levels is the same as in Tables B-III and C-III applicable for urban areas.

Table SCT-III-A (ii)

108. This table presents the distribution of each Scheduled Tribe population by sex and educational levels. The table presents material for the district urban area only. The classification of educational levels is the same as in Tables B-III and C-III applicable for urban areas.

Table SCT-III-B (i)

109. This table presents the distribution of population for each Scheduled Caste by educational levels only for the district rural area. The classification by educational levels is somewhat reduced than that of Table SCT-III (Part A).

Table SCT-III-B (ii)

110. This table presents the distribution of population for each Scheduled Tribe by educational levels only for the district rural area. The classification by educational levels is somewhat reduced than that of Table SCT-III (Part A).

Table SCT-V-A

111. This table presents the distribution of sample Scheduled Caste households of the district (Rural) by interest in land cultivated and by size of land cultivated. The interests in land cultivated are shown in three categories :—

(i) entirely owned or held from Government ;
(ii) entirely held from private persons or institutions for payment in money, kind or share ; and
(iii) partly held from Government and partly from private persons, etc.

Classification by size of land cultivated is the same as in the B Series household economic tables. Material here is presented only for the district rural and for all the Scheduled Castes as a group. The table is prepared from the household schedules on a 20 per cent sample.

Table SCT-V-B

112. This Table for Scheduled Tribes (same as Part A) is presented only for the district rural. The table is prepared from household schedules on a 20 per cent sample.

Table SC-I

113. This table presents the total non-working population of all the Scheduled Castes as a group classified by four categories of non-workers, viz.—

(i) full-time students ;
(ii) persons seeking employment for the first time ;
(iii) persons employed before but now out of employment and seeking work ; and
(iv) others.

The non-working population is further classified by educational levels. The material is presented for the district only but for total, rural and urban areas separately.

Table ST-I

114. This table presents the distribution of population of each Scheduled Tribe by mother-tongue and the subsidiary languages spoken. Material is presented only for the district but for total, rural and urban areas separately. Scheduled Tribes are arranged in their alphabetical order and mother-tongues when there are more than one for any Scheduled Tribe are also shown in the alphabetical order. The figures for rural areas are also shown separately for talukas having more than 25 per cent Tribal population.

Table ST-II

115. This table presents the total non-working population of each Scheduled Tribe classified by four categories of non-workers, viz.—

(i) full-time students ;
(ii) persons seeking employment for the first time ;
(iii) persons employed before but now out of employment and seeking work ; and
(iv) others.

The figures for rural areas are also shown separately for talukas having more than 25 per cent Tribal population. The material is presented for the district only but for total, rural and urban areas separately.

E SERIES

HOUSING TABLES

116. There are five Tables in this Series. Four of them relate to housing conditions and furnish data on the purposes for which the houses are used, the tenures on which they are occupied by the households, material of construction of walls and roofs and the distribution of households by the number of rooms occupied. The last table relates to industries and shows the number of establishments and the number of workers for each industry classified by industry division, major groups and minor groups. Another Table (E-III) on industrial establishments prepared from the houselists, gives a break-up by industry and the fuel used cross-tabulated by the size of the establishments. It is not presented here for want of space. It may be seen in Part IV of the Maharashtra Census Report.

117. All the five tables of this Series are prepared from the houselists which were prepared at the time of numbering of houses in September-October of 1960. Such data on housing conditions are furnished here for the first time.

118. A "house" was defined for purposes of the Census as "a structure or part of a structure inhabited or vacant, a dwelling, a shop, a shop-*cum*-dwelling or a place of business, workshop, school, etc., having a separate entrance. The entrance may be directly on the road, street, or lane or to a common staircase, courtyard or a gate".

Table E-I

119. This table presents the distribution of houses classified by uses to which they are put to. The various uses are shown in columns (4) to (16). Houses which were not being used for any purpose at the time of houselisting were treated as vacant. A "workshop" is a place where some kind of production, processing, repairs or servicing of goods goes on a commercial scale. Manufacturing or processing establishments registered under the Factories Act are treated as factories. When a house was used both as a shop and as a dwelling or workshop and as a dwelling it is treated as a shop-*cum*-dwelling or workshop-*cum*-dwelling. The houses which were used as schools, offices, factories, or restaurants and also used by some people for residence, have been treated for purposes of this

table as schools offices, factories or restaurants and not as school-*cum*-dwelling, office-*cum*-dwelling and so on.

120. The last category of "Others" includes all purposes not included in columns (4) to (15) prominent among them being cattle-sheds, garages, show-rooms, locked houses, etc. Table E-I presents material for the district and each taluka and for total, rural and urban areas separately. The table is prepared from the houselists on a full count.

Table E-II

121. This table presents the distribution of sample households by the tenure of houses occupied by them. Tenure here is of only two kinds, owned or rented. "Rentfree" or "Caretaker" occupation is included in the "Rented" category. The houses occupied under each tenure are further classified by the nature of uses such as dwellings, shop-*cum*-dwellings, etc. Tenure of occupation of non-residential houses such as schools, hospitals, etc., is not shown here.

122. This table is prepared from the houselists on a 20 per cent sample.

123. Material is presented for the district and each taluka and for total, rural and urban areas separately.

Table E-IV

124. This table presents distribution of sample houses used wholly or partly as dwelling by material of wall and material of roof. The material of wall is the material out of which most of the walls of the house are constructed. Where a house has separate portions each of different material, the material of the walls for this table is the one out of which the walls of the main bed-rooms are constructed. Similarly, the material of roof is one out of which most of the roof exposed to weather is constructed. In case of multi-storeyed buildings, the intermediate floor is treated as the roof of the lower storey.

125. Material is presented here for the district and each taluka and for total, rural and urban areas separately. This table is prepared from the houselists on a 20 per cent sample.

Table E-V

126. This table presents the distribution of sample households classified by the number of rooms occupied. For each class of households the total number of members of the households is shown by males and females separately. This will help measure congestion or over-crowding particularly in urban areas.

127. The table is prepared from the houselists on a 20 per cent sample. The material is presented for the district and each taluka and for total, rural and urban areas separately.

128. The table relates only to the family households. Institutional households like hostels, boardings, prisons, etc., are not shown here.

129. A "room" has four walls with a door and a roof overhead and is not less than 6′ × 6′. Unenclosed verandah, kitchen, store, garage, cattle-shed, etc., though used for residential purposes are not treated as rooms. Households residing in such places are shown in columns (7) to (9) as having no regular room.

Table on Industrial Establishments and Workers

130. This is a very important table and presents the number of establishments and number of workers for each branch of industry classified by industry divisions and minor groups according to the Standard Industrial Classification (Appendix I). For each industry division, minor group figures are shown in the brackets first for the number of establishment and second for the number of workers.

131. The table is prepared from the houselists on a full count. Material is presented here for the district and talukas for total, rural and urban areas as well as *for each village and town* separately. The presentation is in the run-on style and the villages are shown both by their names and code numbers. These latter will help locate them in the taluka maps included in Part I. Villages which do not have any industrial establishments are not shown here. Similarly, for any village, town or taluka, the industry minor codes for which there are no establishments are not shown in the table.

132. The material presented here relates to September-October of 1960. Establishments where processing, repairing or servicing of goods is done are also included along with the manufacturing establishments. The number of workers shown here includes the proprietor and/or the other household members if any were working in the industry during the week preceding the enumerator's visit.

133. The list of industries presented her may not include some seasonal industries which were not actually working during the period when house lists were prepared, viz., September-October 1960.

APPENDIX I

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into—

9 Divisions
45 Major Groups
343 Minor Groups

The divisions, major groups and minor groups with their Code numbers are listed below :—

DIVISIONS

0	Agriculture, livestock, forestry, fishing and hunting
1	Mining and Quarrying
2 & 3	Manufacturing
4	Construction
5	Electricity, Gas, Water and Sanitary services
6	Trade and Commerce
7	Transport, Storage and Communication
8	Services
9	Activities not adequately described

MAJOR GROUPS

Division 0—Agriculture, livestock, forestry, fishing and hunting

00	Field produce and Plantation crops
01	Plantation crops
02	Forestry and Logging
03	Fishing
04	Livestock and Hunting

Division 1—Mining and Quarrying

10	Mining and Quarrying

Division 2 and 3—Manufacturing

20	Foodstuffs
21	Beverages
22	Tobacco Products
23	Textile—cotton
24	Textile—jute
25	Textile—wool
26	Textile—silk
27	Textile—miscellaneous
28	Manufacture of wood and wooden products
29	Paper and paper products
30	Printing and publishing
31	Leather and leather products
32	Rubber, Petroleum and coal products
33	Chemicals and chemical products
34-35	Non-Metallic Mineral Products other than petroleum and coal.
36	Basic Metals and their products except machinery and transport equipment.
37	Machinery (all kinds other than Transport) and Electrical equipment.
38	Transport Equipment
39	Miscellaneous Manufacturing Industries

Division 4—Construction

40	Construction

Division 5—Electricity, Gas, Water and Sanitary Services

50	Electricity and Gas
51	Water-supply and Sanitary services

Division 6—Trade and Commerce

60—63	Wholesale Trade
64—68	Retail Trade
69	Trade and Commerce Miscellaneous

Division 7—Transport, Storage and Communication

70-71	Transport
72	Storage and Warehousing
73	Communications

Division 8—Services

80	Public Services
81	Educational and Scientific Services
82	Medical and Health Services
83	Religious and Welfare Services
84	Legal Services
85	Business Services
86	Community Services and Trade and Labour Associations.
87	Recreation Services
88	Personal Services
89	Services (not elsewhere classified)

Division 9—Activities not adequately described

90	Activities unspecified and not adequately described (This includes new entrants to the labour market)

MINOR GROUPS

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 0—Agriculture, livestock, forestry, fishing and hunting	
00	*Field Produce and Plantation Crops*—	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize.	000
	Production of pulses, such as arhar, moong, masur, urid, khesari, other gram.	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops.	004
	Production of other crops (including vegetables) not covered above.	005
	Production of fruits and nuts in plantation, vines and orchards.	006
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above.	009
01	*Plantation Crops*—	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium ..	014
	Production of other plantation crops not covered above.	015
02	*Forestry and Logging*—	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs.	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest.	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests.	025
	Production and gathering of other forest products not covered above.	026
03	*Fishing*—	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries.	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond.	032

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 0—Agriculture, livestock, forestry, fishing and hunting—*concld.*	
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat.	040
	Rearing of sheep and production of wool ..	041
	Rearing and production of other animals (mainly for slaughter) such as pig.	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming.	043
	Rearing of bees for the production of honey, wax and collection of honey.	044
	Rearing of silk worms and production of cocoons and raw silk.	045
	Rearing of other small animals and insects ..	046
	Trapping of animals or games propagation ..	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth.	048
	Division 1—Mining and Quarrying	
10	*Mining and Quarrying—*	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores ..	105
	Mining of crude petroleum and natural gas ..	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone.	107
	Mining of chemical earth such as soda ash ..	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt.	109
	Division 2 and 3—Manufacturing	
20	*Foodstuffs—*	
	Production of rice, atta, flour, etc., by milling, de-husking and processing of crops and food-grains.	200
	Production of sugar and syrup from sugarcane in mills.	201
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy.	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits.	203
	Slaughtering, preservation of meat and fish and canning of fish.	204
	Production of bread, biscuit, cake and other bakery products.	205
	Production of butter, ghee, cheese and other dairy products.	206
	Production of edible fats and oils (other than hydrogenated oil).	207
	Production of hydrogenated oils (Vanaspati) ..	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge.	209
21	*Beverages—*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery.	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice.	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water ..	214
	Production of ice	215
	Production of ice-cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*contd.*	
22	*Tobacco Products—*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco.	225
	Manufacture of other tobacco products ..	226
23	*Textile—Cotton*	
	Cotton ginning, cleaning, pressing and baling ..	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills ..	232
	Cotton dyeing, bleaching	233
	Cotton weaving in powerlooms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms ..	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine.	239
24	*Textile—Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta.	244
25	*Textile—Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring) ..	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile ..	256
26	*Textile—Silk*	
	Spinning and weaving of silk textile in mill ..	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by powerloom ..	263
	Weaving of silk textile by handloom ..	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine ..	266
27	*Textile—Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products.	270
	Manufacture of hosiery and other knitted fabrics and garments.	271
	Embroidery and making of crepe lace and fringes.	272
	Making of textile garments including raincoats and headgear.	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags.	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin.	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling.	276
	Manufacture of coir and coir products ..	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above.	279

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*contd.*	
28	*Manufacture of Wood and Wooden Products*—	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows.	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures.	283
	Manufacture of other wooden products such as utensils, toys, artwares.	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest.	286
	Manufacture of boxes and packing cases other than plywood.	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products.	288
	Manufacture of other wood and allied products not covered above.	289
29	*Paper and Paper Products*—	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill.	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade.	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp.	292
30	*Printing and Publishing*—	
	Printing and publishing of newspapers and periodicals.	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry.	302
	All types of binding, stitching, sizing and other allied work connected with binding industry.	303
31	*Leather and Leather Products*—	
	Currying, tanning and finishing of hides and skins and preparation of finished leather.	310
	Manufacture of shoes and other leather footwear.	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur.	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles.	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear.	315
32	*Rubber, Petroleum and Coal Products*—	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose.	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat.	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries.	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere.	326

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*contd.*	
33	*Chemicals and Chemical Products*—	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified.	330
	Manufacture of dyes, paints, colours and varnishes.	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fireworks.	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap.	335
	Manufacture of soap and other washing and cleaning compounds.	336
	Manufacture of turpentine, synthetic, resin and plastic products and materials (including synthetic rubber).	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats).	339
34	*Non-metallic Mineral Products other than Petroleum and Coal*—	
	Manufacture of structural clay products such as bricks, tiles.	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing.	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355.	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above.	357
	Manufacture of other non-metallic mineral products not elsewhere specified.	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods.	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms.	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate.	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can.	367
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products.	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39).	369

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*concld.*	
37	*Machinery (All kinds other than Transport) and Electrical equipment—*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery.	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors.	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories.	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers.	374
	Manufacture of electric lamps and fans ..	375
	Manufacture of insulated wires and cables ..	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone.	378
	Manufacture of electric machinery and apparatus, appliances not specified above.	379
38	*Transport Equipment—*	
	Manufacture, assembly and repairing of locomotives.	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363.	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines).	382
	Manufacture of motor vehicles engines parts and accessories.	383
	Repairing and servicing of motor vehicles ..	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines.	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines.	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand-drawn vehicles.	389
39	*Miscellaneous Manufacturing Industries—*	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies.	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies.	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals.	393
	Manufacture and tunning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen.	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group.	399
	Division 4—Construction	
40	*Construction—*	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations.	400
	Construction and maintenance of roads, railway, bridges, tunnels.	401
	Construction and maintenance of telegraph and telephone lines.	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells.	403
	Division 5—Electricity, Gas, Water and Sanitary Services	
50	*Electricity and Gas—*	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers.	502
51	*Water-Supply and Sanitary Services—*	
	Collection, purification and distribution of water to domestic and industrial consumers.	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation.	511
	Division 6—Trade and Commerce	
60	*Wholesale Trade—*	
	Wholesale trading in cereals and pulses ..	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other foodstuff (not covered elsewhere).	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products.	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water.	603
	Wholesale trading in intoxicants such as wines, liquors.	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products.	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder ..	608
61	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle.	611
	Wholesale trading in toilets, perfumery and cosmetics.	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware.	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings.	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products.	616
	Wholesale trading in petrol, mobil oil and allied products.	617
	Wholesale trading in other household equipment not covered above.	618
62	Wholesale trading in bricks, tiles and other building materials.	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products.	621
63	Wholesale trading in paper and other stationery goods.	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical.	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb.	632
	Wholesale trading in all kinds of transport and storage equipment.	633
	Wholesale trading in skins, leather and fur ..	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment.	636
	Wholesale trading in scientific medical and surgical instruments.	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery.	638
	Wholesale trading in all goods not covered above.	639

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 6—Trade and Commerce—*contd.*	
64	*Retail Trade*—	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry.	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water.	641
	Retail trading in intoxicants such as wines, liquors.	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products.	644
	Retail trading in fuel such as coke, coal, firewood and kerosene.	645
	Retail trading in foodstuffs like sweetmeat, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
65	Retail trading in fibres, yarns, dhoti, saree, ready-made garments of cotton, wool, silk and other textiles and hosiery products (this includes retail trading in piece-goods of cotton, wool, silk and other textiles).	650
	Retail trading in toilet goods, perfumes and cosmetics.	651
	Retail trading in medicines and chemicals ..	652
	Retail trading in footwear, head-gear such as hat, umbrella, shoes and chappals.	653
	Retail trading in tyres, tubes and allied rubber products.	654
	Retail trading in petrol, mobil oil and allied products.	655
66	Retail trading in wooden, steel and other metallic furniture and fittings.	660
	Retail trading in stationery goods and paper..	661
	Retail trading in metal, procelain and glass utensils.	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above.	664
67	Retail trading in bricks, tiles and other building materials.	670
	Retail trading in hardware and sanitary equipment.	671
	Retail trading in wood, bamboo cane, bark and thatches.	672
	Retail trading in other building materials ..	673
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances.	680
	Retail trading in transport and storage equipments.	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and head-gear.	683
	Retail trading in clock and watch, eye glass, frame.	684
	Retail trading in scientific, medical and surgical instruments.	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing.	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce Miscellaneous*—	
	Importing and exporting of goods and commodities.	690
	Real estate and properties	691
	Stocks, shares and futures	692

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 6—Trade and Commerce—*concld.*	
69	*Trade and Commerce Miscellaneous*—concld.	
	Providents and insurances	693
	Money-lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
	Division 7—Transport, Storage and Communication	
70	*Transport*—	
	Transporting by railways	700
	Transporting by tramway and bus service ..	701
	Transporting by motor vehicles (other than omnibus).	702
	Transporting by road through other means of transport such as hackney carriage, bullock-cart, ekka.	703
	Animal transporting by animals such as horses, elephant, mule, camel.	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving.	705
	Transporting by boat, steamer, ferry, etc., by river, canal.	706
	Transporting by boat, steamer, ship, cargo boat by see or ocean.	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	*Services incidental to transport*—	
	Such as packing, carting travel agency	710
72	*Storage and Warehousing*—	
	Operation of storage such as warehouses ..	720
	Operation of storage such as cold storage ..	721
	Operation of storage of other type	722
73	*Communication*—	
	Postal, telegraphic, wireless and signal communications.	730
	Telephone communication	731
	Information and broadcasting	732
	Division 8—Services	
80	*Public Services* (This does not include Govt., Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups).	
	Public Services in Union and State army including territorial corps and volunteer corps.	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government.	804
	Public service in administrative departments and offices of quasi-Government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Governments.	809
81	*Educational and Scientific Services*—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions.	810

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 8—Services—*contd.*	
81	*Educational and Scientific Services*—concld.	
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type.	811
	Scientific services and research institutions not capable of classification under any individual group.	812
82	*Medical and Health Services*—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare linic as also by hakimi, unahi, ayurvedic, allopathic and homeopatnic practitioners.	820
	Veterinary services rendered by organisations and individuals.	821
83	*Religious and Welfare Services*—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities this includes missions, ashrams and other allied organisations.	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk.	831
	Welfare services rendered by organisation operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity.	832
84	*Legal Services*—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukuric, munshi.	840
	Matrimonial services rendered by organisations and individuals.	841
85	*Business Services*—	
	Engineering services rendered by professional organisations or individuals.	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals.	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies.	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors.	853
86	*Community Services and Trade and Labour Associations*—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations.	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library.	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens, etc.	862
87	*Recreation Services*—	
	Production of motion picture and allied services such as processing, editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures.	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals.	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc., racing.	873
88	*Personal Services*—	
	Services rendered to households such as those by domestic servants, cooks.	880
	Services rendered to households such as those by governess, tutor, private secretary.	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities.	882
	Laundry services rendered by organisations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning, services.	883
	Hair dressing, other services rendered by organisations and individuals such as those by barber, hair dressing saloon and beauty shops.	884
	Services rendered by portrait and commercial photographic studios.	885
89	*Services (not elsewhere classified)*—	
	Services rendered by organisations or individuals not elsewhere classified.	890
	Division 9—Activities not adequately described	
90	*Activities unspecified and not adequately described* including activities of such individulas who fail to provide sufficient information about their industrial affiliation to enable them to be classified.	900
	Fresh entrants to the Labour Market.. ..	999

APPENDIX II

NATIONAL CLASSIFICATION OF OCCUPATIONS

A Code structure which classifies occupations into—

11 Occupational Divisions (one-digit code numbers)

75 Occupational Groups (two-digit code numbers)

Note : n. e. c.=not elsewhere classified.

DIVISIONS

0 Professional, technical and related workers

1 Administrative, executive and managerial workers

2 Clerical and related workers

3 Sales workers

4 Farmers, fishermen, hunters, loggers and related workers

5 Miners, quarrymen and related workers

6 Workers in transport and communication occupations

7-8 Craftsmen, production process workers, and labourers not elsewhere classified

9 Service, sport and recreation workers

X Workers not classifiable by occupations

DIVISIONS AND GROUPS

0 Professional, Technical and Related Workers

00 Architects, Engineers and Surveyors
01 Physicists, Chemists, Geologists and other Physical Scientists
02 Biologists, Veterinarians, Agronomists and Related Scientists
03 Physicians, Surgeons and Dentists
04 Nurses, Pharmacists and other Medical and Health Technicians
05 Teachers
06 Jurists
07 Social Scientists and Related Workers
08 Artists, Writers, and Related Workers
09 Draughtsmen, Science and Engineering Technicians, n. e. c.
0X Other Professional, Technical and Related Workers

1 Administrative, Executive and Managerial Workers

10 Administrators, and Executive Officials, Government
11 Directors and Managers, Wholesale and Retail Trade
12 Directors, Managers and Working Proprietors, Financial Institutions
13 Directors, Managers and Working Proprietors, Other

2 Clerical and Related Workers

20 Book-Keepers and Cashiers
21 Stenographers and Typists
22 Office Mechine Operators
28 Clerical Workers, Miscellaneous
29 Unskilled Office Workers

3 Sales Workers

30 Working Proprietors, Wholesale and Retail Trade
31 Insurance and Real Estate Salesmen, Salesmen of Securities and Services and Auctioneers
32 Commercial Travellers and Manufacturers' Agents
33 Salesmen, Shop Assistants and Related Workers
34 Money Lenders and Pawn Brokers

4 Farmers, Fishermen, Hunters, Loggers and Related Workers

40 Farmers and Farm Managers
41 Farm Workers
42 Hunters and Related Workers
43 Fishermen and Related Workers
44 Loggers and Other Forestry Workers

5 Miners, Quarrymen and Related Workers

50 Miners and Quarrymen
51 Well Drillers and Related Workers
52 Mineral Treaters
59 Miners, Quarrymen and Related Workers, n. e. c.

6 Workers in Transport and Communication Occupations

60 Deck Officers, Engineer Officers and Pilots, Ship
61 Deck and Engine-Room Ratings (Ship), Barge Crews and Boatsmen
62 Aircraft Pilots, Navigators and Flight Engineers
63 Drivers and Firemen, Railway Engine
64 Drivers Road Transport
65 Conductors, Guards and Brakesmen (Railway)
66 Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport
67 Telephone, Telegraph and Related Telecommunication Operators
68 Postmen and Messengers
69 Workers in Transport and Communication Occupations, n. e. c.

7-8 Craftsmen, Production Process Workers, and Labourers not elsewhere Classified

70 Spinners, Weavers, Knitters, Dyers and Related Workers
71 Tailors, Cutters, Furriers and Related Workers
72 Leather Cutters, Lasters and Sewers (Except Gloves and Garments) and Related Workers
73 Furnac men, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers
74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers
75 Tool Makers, Machinists, Plumbers, Welders, Platers and Related Workers
76 Electricians and Related Electrical and Electronics Workers
77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers
78 Painters and Paper Hangers
79 Bricklayers, Plasterers and Construction Workers, n. e. c.
80 Compositors, Printers, Engravers, Book Binders and Related Workers
81 Potters, Kilnmen, Glass and Clay Formers and Related Workers
82 Millers, Bakers, Brewmasters and Related Food and Beverage Workers
83 Chemical and Related Process Workers
84 Tobacco Preparers and Products Makers
85 Craftsmen and Production Process Workers, n. e. c.
86 Testers, Packers, Sorters and Related Workers
87 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers
89 Labourers, n. e. c.

9 Service, Sport and Recreation Workers

90 Fire Fighters, Policemen, Guards and Related Workers
91 House Keepers, Cooks, Maids and Related Workers
92 Waiters, Bartenders and Related Workers
93 Building Caretakers, Cleaners and Related Workers
94 Barbers, Hairdressers, Beauticians and Related Workers
95 Launderers, Dry Cleaners and Pressers
96 Athletes, Sports men and Related Workers
97 Photographers and Related Camera Operators
99 Service, Sport and Recreation Workers, n. e. c.

X Workers not Classifiable by Occupations

X0 Workers without occupations
X8 Workers Reporting Occupations Unidentifiable or Unclassifiable
X9 Workers Not Reporting Occupations.

APPENDIX III

Common Household Industries with their Industrial Code Numbers

Note : n. e. c. = not elsewhere classified.

Industrial Code Number	Household Industry
Major Group 00—Field Produce and Plantation Crops	
005·1	Production of Vegetables
005·2	Production of roots, etc., not included above
006·1	Production of fruits and nuts in plantation, vines and orchards
006·2	Production of copra (from coconuts)
007·1	Production of thatching grass
007·2	Production of wood, bamboo, cane reeds, etc. (excluding thatching grass)
008·1	Production of juice (Neera) by tapping coconut trees
008·2	Production of juice by tapping other palms like date Palmyra n. e. c.
009	Production of other agricultural produce (including fruits and nuts not covered by 006 and flowers) not covered above
Major Group 01—Plantation Crops	
013	Production of tobacco in plantation
015·1	Pan Cultivation
015·2	Plantation crops except tea, coffee, rubber, tobacco, ganja, cinchona, opium and pan
Major Group 02—Forestry and Logging	
023·1	Production of Charcoal
023·2	Production of other fuels by exploitation of forests
024	Production of fodder by exploitation of forests
025·1	Production of Kathha
025·2	Production of Lac
025·3	Production of gum
025·4	Production of resins, barks, herbs, wild fruits, berries and leaves, etc., n. e. c.
026	Production and gathering of other forest products not covered above
Major Group 03—Fishing	
030	Production of fish by fishing in sea
031	Production of fish by fishing in inland waters and ponds including fish farms and fish hatcheries
032	Production of pearls, conch shells, sponges, sea herbs, corals, etc., by gathering or lifting from sea, river, pond.
Major Group 04—Livestock and Hunting	
040·1	Rearing of goat for milk and animal power
040·2	Rearing of buffalo for milk and animal power
040·3	Rearing of cows for milk and animal power
040·4	Rearing of camels and other big domestic animals
040·5	Production and rearing of livestock mainly for milk and animal power n. e. c.
041·1	Sheep breeding and rearing
041·2	Production of wool
042·1	Rearing and production of pigs and goats (mainly for slaughter)
042·2	Rearing and production of other animals (mainly for slaughter) n. e. c.
043·1	Poultry keeping and production of eggs
043·2	Rearing and production of ducks, hens, etc., and other small birds, *e.g.*, pigeons, parrots, peacock, maina, etc.
044·1	Bee keeping for production of honey and wax
044·2	Collection of wax and honey
045	Rearing of tassar/eri/mulberry and other silk worms and production of cocoons and raw silk.
046·1	Dog breeding, rearing of rabbits and guinea-pigs
046·2	Rearing of other small animals and insects n. e. c.
048·1	Collection of bones
048·2	Manufacture of glue from animal carcasses
048·3	Manufacture of gut
048·4	Production of other animal husbandry products such as skin, ivory, teeth and hair, etc.

Industrial Code Number	Household Industry
Major Group 10—Mining and Quarrying	
107·1	Extraction of chalk
107·2	Quarrying of lime-stone
107·3	Stone and slate quarrying
107·4	Quarrying of sand, clay, gravel, etc., n. e. c.
Major Group 20—Foodstuffs	
200·1	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc.
200·2	Hand pounding of rice by Dhekhi or Ukhal
200·3	Production of rice by milling, dehusking and processing of paddy by rice mill.
200·4	Grinding of chillies, turmeric, etc.
200·5	Production of pulses
200·6	Parching of grains
200·7	Production and processing of other crops and foodgrains n. e. c.
202·1	Gur and Khandsari making from sugarcane and palm
202·2	Production of bhoora and candy
202·3	Production of jaggery from coconut and palmyra juice (neera)
202·4	Production of other indigenous products from sugar and jaggery n. e. c.
203·1	Manufacture of achar, pickles, chutney and murabba
203·2	Production of sauce, jam and jelly
203·3	Processing of cashewnut
203·4	Manufacture of kokam products
203·5	Fruit preservation (canning of fruits)
203·6	Making dried vegetables
203·7	Production of other fruit products and preservation of fruits n. e. c.
204·1	Slaughtering, preservation of meat and fish and canning of fish
204·2	Fish currying or curing and salting (currying applies more to skin and hide)
205	Production of bread, biscuit, cake and other bakery products
206	Production of butter, cream, ghee, cheese, chhana, khowa and other dairy products
207	Oil pressing ghani, kolhu or by small machines
209·1	Confectionery
209·2	Making of sweetmeats, laddu, peda, barphi, batasa, etc.
209·3	Sattu, bhunja, papar, barri, danauri, tilauri, sewai, apalam, etc.
209·4	Making of chura or chira, muri, murki, khoi
209·5	Making of chat
209·6	Making of dalmot, chanachur (jor) garam, rewari, etc.
209·7	Making of other food products for residuary snacks
209·8	Production of other food products like cocoa, chocolate, toffee, lozenge
Major Group 21—Beverages	
210·1	Manufacture of vinegar from coconut juice (neera)
210·2	Manufacture of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery
211	Production of country liquor from material obtained from sources other than trees and shrubs
212·1	Production of indigenous liquor such as liquor, toddy, neera from mahua and palm trees
212·2	Production of other indigenous liquors from other materials from trees and shrubs
214·1	Production of mineral water
214·2	Production of aerated water such as sodawater, lemonade, etc.
215	Production of ice
216	Production of ice-cream, ice-candy or kulphimalai, milk-shake, etc.
218	Grinding of Coffee
219·1	Preparation of sharbats and squashes
219·2	Preparation of jeerapani
219·3	Production of other beverages n. e. c.

Industrial Code Number	Household Industry
Major Group 22—Tobacco Products	
220	Manufacture of bidi
221	Manufacture of cigars and cheroots
223	Manufacture of hookah tobacco
224	Manufacture of snuff
225	Manufacture of jerda, kimam, khaini and other chewing tobacco
226	Manufacture of other tobacco products n. e. c.
Major Group 23—Textile—Cotton	
230	Cotton ginning, cleaning, carding, pressing and baling
231	Cotton spinning (by charkha and takali)
233·1	Dyeing of cloth (cotton) and yarn
233·2	Bleaching of cloth (cotton) and yarn
233·3	Tie and dye (bandhani) of cloth and yarn
234	Cotton cloth weaving in powerlooms
235	Cotton cloth weaving in handlooms
236	Manufacture of khadi textile in handlooms
237	Printing of cloth (cotton)
238·1	Making of fishing net
238·2	Making of mosquito net
238·3	Making of other nets
239·1	Making of sacred thread
239·2	Making of thread, rope, cordage and twine (cotton)
Major Group 24—Textile—Jute	
240	Jute pressing and baling
241	Jute spinning and weaving
242	Dyeing and bleaching of jute
244·1	Making of rope and cordage, out of hemp
244·2	Making of rope and cordage, out of jute
244·3	Making of rope by plam fibre
244·4	Making of rope by date plam fibre
244·5	Making of fibre, sunn-hemp fibre
244·6	Making of other products from jute and similar fibres such as hemp, mesta
Major Group 25—Textile—Wool	
250	Wool baling and pressing
251	Cleaning, sorting, carding, scouring and processing of wool
253	Spinning of wool by charakha or takali
254	Weaving of woollen cloth in powerloom such as blankets, asanis, etc.
255	Weaving of woollen cloth in handloom such as blankets, rugs, pashmina, thulma, gudma, etc.
256·1	Embroidery with various colours, combinations of various threads and art work in woollen textile
256·2	Shawls (with traditional borders)
Major Group 26—Textile—Silk	
261	Dyeing and bleaching of silk
262·1	Spinning of tussar, other than in mills
262·2	Spinning of eri, other than in mills
262·3	Spinning of silk, other than in mills n. e. c.
263·1	Weaving of Traditional silk (Atlas) by powerloom
263·2	Weaving of tussar by powerloom
263·3	Weaving of eri by powerloom
263·4	Weaving of silk and artificial silk in powerloom n. e. c.
264·1	Weaving of mashru, himroo, brocade, kinkhab by handloom
264·2	Weaving of silk and artificial silk in handloom n. e. c.
265	Printing of silk textile
266·1	Goaf making
266·2	Making of silk cordage, rope and twine n. e. c.
Major Group 27—Textile—Miscellaneous	
270·1	Making of durries
270·2	Making of carpets and druggets
270·3	Manufacture of other similar textile products n. e. c.
271·1	Making of hosiery goods such as banyans, socks, sweaters, mufflers, etc.
271·2	Making of nalas and azarbands
271·3	Making of parandas and chootelas

Industrial Code Number	Household Industry
Major Group 27—Textile—Miscellaneous—*concld.*	
271·4	Manufacture of hosiery and other knitted fabrics and garments n. e. c.
272·1	Embroidery and making of phulkari
272·2	Making of jari thread, zardoshi
272·3	Traditional embroidery
272·4	Patchwork embroidery
272·5	Lace garland making
272·6	Making of fringes and crepe laces
272·7	Making of kargota, main garlands, shell garlands, etc.
272·8	Making of other embroidery products n. e. c.
273·1	Making of cap, hat, and other headgear
273·2	Traditional garments
273·3	Chrochet work (bora caps)
273·4	Making of textile garments including rain-coats and headgears n. e. c.
274·1	Weaving of khes, bed covers, curtains, pillow cases and table-cloth, cloth bags, etc.
274·2	Making of newar
274·3	Manufacture of other made-up textile goods like mattress, quilt, rezai, etc., n. e. c.
275	Manufacture of water proof textile products such as oil cloth, tarpaulin, etc.
276·1	Making of namda felt
276·2	Making of suzani (padded quilts)
276·3	Processing of coconut fibre for upholstery
276·4	Handicraft articles made of flax and fibre
276·5	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling n. e. c.
277·1	Manufacture of coir matting, cactus fibre for ropes and rope making from coconut fibre
277·2	Making of brush, broom, etc., from coconut fibre
277·3	Coir spinning
277·4	Coconut curing
277·5	Other allied products of coir industry n. e. c.
278	Manufacture and repair of umbrellas
279·1	Making of daura (thread) batua, cotton thread, buttons
279·2	Manufacture of dolls and toys (rags and cotton)
279·3	Manufacture of other textile products not elsewhere classified
Major Group 28—Manufacture of Wood and Wooden Products	
280	Sawing, planing and milling of wood
281	Manufacture of wooden furniture and fixtures
282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows
283·1	Carpentry works concerned with repairs of agricultural implements (wood)
283·2	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipments and fixtures.
284·1	Lecquerware (if on wood)
284·2	Manufacture of wooden utensils, artware and decorativen xesas)mod e(p
284·3	Manufacture of wooden toys
284·4	Sandal wood and other wood carving
284·5	Bead making from wood
284·6	Sawdust and plaster figure making
284·7	Marquetry boxes (inlay work)
284·8	Manufacture of photo frames and framing of photo paintings, etc.
284·9	Manufacture of other wooden products n. e. c.
285	Manufacture of match splinters, plywood and veneers
287	Manufacture of boxes and packing cases other than plywood
288·1	Making of box from moonj grass
288·2	Making of rope mats, etc., from moonj and sawai grass and making of cadjar for thatching purposes
288·3	Making of mats, handfans and umbrellas from palm leaves
288·4	Making of sirki, moora and chhaj
288·5	Making of baskets and broomsticks
288·6	Making of donas (drone) and pattals (patravali) from leaves

Industrial Code Number	Household Industry
Major Group 28—Manufacture of Wood and Wooden Products—*concld.*	
288·7	Caning of chairs
288·8	Making of chicks, cuscus-tatti and fans, sticks and poles from bamboo
288·9	Manufacture of other articles from leaf, cane, bamboo, cork and other allied products n. e. c.
289·1	Making of sticks and poles from wood
289·2	Making of wooden kharaus and other wooden sandals
289·3	Making of artwheels
289·4	Manufacture of other wood and allied products n.e.c.
Major Group 29—Paper and Paper Products	
291	Manufacture of pulp and paper by hand
292·1	Making of envelopes and paper bags
292·2	Papier-mache articles
292·3	Making of kite
292·4	Paper decorations for homes
292·5	Making of card-board boxes and cards
292·6	Making of paper toys
292·7	Making of paper flowers, etc.
292·8	*Manufacture of other paper products from paper, paper board and pulp n. e. c.*
Major Group 30— Printing and Publishing	
301	Printing and publishing of books
302·1	Printing works, printing of handbills, invitation cards, etc.
302·2	Lithography, engraving , etching, block making, type cutting and other work connected with printing industry.
303	Book binding, stitching, sizing and other work connected with book binding industry
Major Group 31—Leather and Leather Products	
310·1	Flying, processing of hides and skins including taxidermy
310·2	Currying, tanning and finishing of hides and skins, preparation of finished leather
310·3	Stuffed animals
311·1	Making of leather boots, shoes or chappals (slippers, sandals)
311·2	Making of Poola shoes
311·3	Manufacture of other footwear n. e. c.
312	Making of clothing and wearing apparel (except footwear) made of leather and fur
313	Manufacture of leather products such as leather upholstery suit cases, pocket-books, cigarette and key cases, purses, saddlery, whip, acquaducts (Kos), charsa and other articles
314	Repair of shoes, chappals and other leather footwear
315	Repair of all other leather products except footwear
Major Group 32—Rubber, Petroleum and Coal Products	
320	Vulcanising tyres and tubes
321	Manufacture of chappals from torn tyres and other rubber footwear
322	Manufacture of rubber products from natural and synthetic rubber including raincoats, oil cloths, waterproof cloths, etc.
Major Group 33—Chemicals and Chemical Products	
331·1	Manufacture of dyes, paints, colours, abir, sindoor, varnish, etc.
331·2	Manufacture of indigo
332	Manufacture of fertilizer (including from bones)
333	Manufacture of fireworks and other explosives such as *pataka*, etc.
334	Manufacture of matches
335·1	Manufacture of incense and perfumes
335·2	Manufacture of Agarbatti
335·3	Manufacture of rose water
335·4	Manufacture of powder, snow cream, bindi, tikali, hair oil and nail polish
335·5	Manufacture of kum kum and hinglo
335.6	Manufacture of mascara and kajal

Industrial Code Number	Household Industry
Major Group 33—Chemicals and Chemical Products —*concld.*	
335·7	Manufacture of medicines (ayurvedic, unani, etc.) and pharmaceutical preparations
335·8	Manufacture of perfumes, cosmetics and other toilet preparations n. e. c.
336·1	Manufacture of soap and washing soda
336·2	Manufacture of other washing and cleaning compounds n. e. c.
337·1	Manufacture of plastic toys
337·2	Making of plastic buttons
337·3	Manufacture of other plastic goods
337·4	Making of celluloid goods
337·5	Manufacture of turpentine, synthetic resin and other materials n. e. c.
338	*Salt production*
339·1	Manufacture of ink including fountain pen ink
339·2	Making of candles
339·3	Making of tooth powder
339·4	Making of boot polish and inedible oils, etc.
339·5	Manufacture of other chemical products n. e. c.
Major Group 34-35—Non-metallic Mineral Products other than Petroleum and Coal	
340·1	Making of bricks
340·2	Manufacture of roofing tiles
340·3	Manufacture of other clay products n. e. c.
341·1	Manufacture of cement door frames and sanitary fittings
341·2	Manufacture of cement jali and tiles
341·3	Making of cement statues
341·4	Making of cement products n. e. c.
342·1	Manufacture of lishu
342·2	Manufacture of lime
343·1	Stone carving
343·2	Marble carving
343·3	Granite carving
343·4	Manufacture of other structural stone goods, stone dressing and stone crushing n. e. c.
344	Making of chakki, chakla, silaut, lorha, jainta, utensils and other articles from stone
345	Manufacture of stone images and toys
346·1	Making of images from soap stone
346·2	Manufacture of images, toys and other articles of plaster of paris
348·1	Mica splitting
348·2	Manufacture of mica products, including mica grinding
350	*Making of earthenware such as pottery, etc.*
351	Manufacture of crockery
353·1	Making of glass bangles
353·2	Making of glass beads
353·3	Manufacture of bead garlands (where making of garlands is undertaken at the place of manufacture of beads) (also see 399)
354	Manufacture of Laboratory glass apparatus
355	Making of clay models, earthen images, busts and statues
356·1	*Making of earthen toys and artware*
356·2	Decorative ceramics
357	Manufacture of glass and glass products except optical and photographic lenses
Major Group 36—Basic Metals and their Products except Machinery and Transport Equipment	
360·1	Re-rolling of M. S. Rods
360·2	Manufacture of iron and steel including smelting, refining, rolling, etc., such as billets, blooms, tubes, rods, n. e. c.
362	Manufacture of arms and weapons and their repair service
364	Manufacture of iron and steel furniture
365·1	Making of utensils of brass and bell metal
365·2	Making of brassware
365·3	Making of bottom part of hookha from brass and bell metal

Industrial Code Number	Household Industry
Major Group 36—Basic Metals and their Products except Machinery and Transport Equipment—*concld.*	
365·4	Making of brass and bell metal ornaments
365·5	Making of other brass and bell metal products n. e. c.
366·1	Making of aluminium utensils
366·2	Making of other aluminium products n. e. c.
367·1	Making of tin utensils
367·2	Making of articles from tin sheets
367·3	Copper utensils
367·4	Bronze works including bronze images, medals and articles of alloys
367·5	Manufacture of other metal products (excluding iron brass, bell metal, aluminium) n. e. c.
368·1	Lacquerware (if on metal)
368·2	Nickel plating and electroplating
368·3	Engraving, embossing, polishing and welding of metal products
368·4	Enamelling and galvanizing of metal products
368·5	Plating and electroplating of metal n. e. c. including silverplating, goldplating, E. P. N. S., etc.
369·1	Manufacture of agricultural implements such as ploughshare, khurpi, kudal, etc.
369·2	Manufacture of light engineering goods including bolts and screws
369·3	Making of iron utensils (*e.g.*, buckets, etc.) and articles from iron sheets
369·4	Making and repairing of locks and trunks
369·5	Cutlery
369·6	Manufacture of pins
369·7	Manufacture of scales, weights and measures
369·8	Foundry Industry (including blacksmithy)
369·9	Manufacture of other sundry hardware such as G. I. pipe, wire net, etc., n. e. c.
Major Group 37—Machinery (All kinds other than Transport) and Electrical Equipment	
370	Manufacture of mechanical water pumps, tube well pumps, air pumps, etc.
372	Manufacture of small machine tools and machine parts
373	Manufacture of sewing machine parts
375	Repairing and servicing of fans
376	Manufacture of insulated wires
377·1	Manufacture of storage batteries
377·2	Manufacture of charging batteries
377·3	Manufacture of other batteries n. e. c.
378	Repairing and servicing of radios
379·1	Manufacture of domestic electrical appliances
379·2	Repairing and servicing of electrical apparatus, heaters, oven, etc.
Major Group 38—Transport Equipment	
382	Manufacture of body of trucks and buses including carpentry and joinery work involved
384	Repairing and servicing of automobiles

Industrial Code Number	Household Industry
Major Group 38—Transport Equipment—*concld.*	
385·1	Manufacture of cycle parts and accessories such as saddle, seat frame and gear, etc.
385·2	Manufacture of rickshaw parts
386	Manufacture of boats and barges
388	Repair of cycle and rickshaw
389	Manufacture of animal drawn and hand drawn vehicles such as bullock cart, tamtam, lagadi, palaki, cab, wheelbarrow, handbarrow, etc.
Major Group 39—Miscellaneous Manufacturing Industries	
390·1	Repair of spectacles
390·2	Manufacture of small photographic equipment
390·3	Manufacture of optical and photographic equipment n. e. c.
391	Manufacture of scientific goods
392	Repairing and servicing of watches and clocks
393·1	Inlay work with ivory and brass
393·2	Goldsmithy
393·3	Manufacture of jewellery, silverware and wares using gold and other precious metal and precious and semi-precious stones
393·4	Silver artware, including silver repousse work on copper (such as in Tanjore) and silver images
393·5	Silver filigree industry
393·6	Manufacture of gold and silver leaves
393·7	Gold covering work (fancy jewellery)
393·8	Bidriware industry
393·9	Manufacture of jewellery, silverwares, etc. n. e. c.
394	Manufacture, repairing and tuning of musical instruments such as harmonium, tabla, sitar, bansuri, etc.
395·1	Manufacture of chalk pieces
395·2	Making of slate and slate pencil
395·3	Making of rubber stamps
395·4	Manufacture of fountain pen parts
395·5	Manufacture of other stationery articles such as pencils, penholders, etc.
396·1	Manufacture of deshi sports goods such as lezzim and dumbells
396·2	Making of rubber balls and balloons
396·3	Manufacture of other sports goods n. e. c. bats, rackets, balls, etc.
399·1	Making of tikka and cowdung cakes
399·2	Making of beads from conch shells and horn goods
399·3	Making of traditional objects such as Orissa, Mysore and Tanjore paintings, etc.
399·4	Making of lac bangles
399·5	Making of buttons (bone, shell, ivory)
399·6	Making of gangavan (making of wig from human hair)
399·7	Making of garlands from flowers, camphor, sandal wood shavings, seeds and other materials, like beads, etc.
399·8	Repair of petromax lights, etc.
399·9	Making and repairing of goods n. e. c.

A-I—Area, Houses and Population

District/Taluka/ Town-group/Town	Total Rural Urban	Area in Sq. Miles	Area in Sq. Km.	Population per Sq. Mile	No. of Villages Inhabited	No. of Villages Uninhabited	No. of Towns	No. of Occupied Residential Houses	Population Persons	Population Males	Population Females

EXPLANATORY NOTE

THE SCOPE of the 1961 District Census Handbooks has been enlarged to include in this Part, Official Statistics on climate and rainfall, agriculture, industry, education, health and a few other topics. The material presented here was mainly collected and compiled by the District Statistical Officer, for this volume. The concerned Departments of the State and Central Governments have also been consulted. For most of the Tables the footnotes show the sources from which the material has been obtained.

2. There are 33 Tables in this Part. They may be broadly grouped as follows :-

(1) Climate and Rainfall—Tables 1 and 2.
(2) Agriculture—Tables 3 to 10.
(3) Industries —Tables 11 to 14.
(4) Education—Tables 15 and 16.
(5) Public Health—Tables 17 to 19.
(6) Miscellaneous—Tables 20 to 33.

(1) CLIMATE AND RAINFALL

Table 1

This table presents the highest and the lowest temperatures recorded at one or more stations in the district for all the 12 months for the years 1951 to 1960. Annual averages are shown in the last column.

Temperature data are maintained by the Meteorological Department and are published in their monthly weather reports and their summary which is published annually.

Table 2

This table shows monthly and annual rainfall and the number of rainy days for the various stations in the district. "Normal rainfall" [column (28)] is the average rainfall over a long period—usually 80 years. Where rainfall records over such a long period are not available it may be the average for a shorter period—in some cases even five years. Rainfall records are maintained at taluka headquarters, dispensaries and a few police stations where rain-gauges have been supplied. These statistics are published in Part III of the State Government Gazette and Annual Season and Crop Reports issued by the Department of Agriculture. They are subsequently consolidated and issued by the Meteorological Department in two annual publications, viz., " Daily Rainfall of India " and " Monthly Rainfall of India".

Rainfall statistics are presented in this table separately for each of the ten years from 1951 to 1960.

(2) AGRICULTURE

Table 3

This table shows the utilisation of land and areas under various crops. Material is presented for the district as a whole and for each taluka separately. It is presented for ten years 1950-51 to 1959-60 :

(i) *Geographical area* : This area represents the total land area and is worked out from the Survey and Settlement Records. The changes in the geographical area from year to year may be due to territorial changes or corrections on account of adjustments in the areas of former unsurveyed villages which are now surveyed ;

(ii) *Forests* : This category includes all areas actually under forests whether State-owned or private and classed or administered as forests under any legal enactment dealing with the forests ;

(iii) *Barren and unculturable land* : This includes barren and unculturable lands like mountains, river-beds, etc. (land which cannot be brought under cultivation unless at a very high cost) ;

(iv) *Culturable waste*: This includes lands which can be brought under cultivation but which have not been cultivated or having been cultivated for some time have not been cultivated successively for more than five years. Such lands may either be fallow or covered with shrubs ;

(v) *Permanent pastures and other grazing lands* : This includes all grazing lands whether they are permanent pastures and meadows or not ;

(vi) *Miscellaneous tree crops and groves not included in the net area sown* : This category includes lands under casuarina trees, thatching grass, bamboo bushes or other trees used for fuel, etc. Lands which are not included under orchards are included in this class. These are lands which are put to some agricultural use but whose area is not included in the net area sown ;

(vii) *Current fallows* : This includes lands which are left fallow during the current year only ;

(viii) *Other fallow land* : All lands which have been cultivated but which are temporarily out of cultivation for a period of not less than one year and not more than five years ;

(ix) *Net area sown* : The net area sown is the actual area under crops counting areas sown more than once in the same year only once ;

(x) *Gross cropped area* : This is the sum of areas under all crops and represents the sum of net area sown and area sown more than once in the year.

After the land utilisation statistics under section A in column (1) the table presents in section B the details of areas under different crops. The crops are classified in two main groups, viz., foodcrops and non-foodcrops. Foodcrops are further grouped by " cereals, pulses and others ". Non-foodcrops are similarly shown under " oilseeds and others ".

The data on land utilisation and areas under crops are primarily prepared by the village officials of the Revenue Department. They are subsequently consolidated by the Agriculture Department.

Talukawise land utilisation and crop statistics are being presented for the first time in this volume. They have not been published so far anywhere else.

Table 4

This table presents gross and net irrigated areas and the distribution of net irrigated area by sources of irrigation. To facilitate comparison, the gross cropped area is also shown in column (3). The data are presented for three years, viz., 1950-51, 1955-56 and 1959-60. Presentation is for the district as a whole and for each taluka separately.

Table 5

This table shows the acreages of various crops under irrigation for each year from 1950-51 to 1959-60. To facilitate comparison, the gross cropped area, and the gross irrigated area, are presented in the beginning. This is followed by acreages under irrigation for each crop.

The material is presented for the district as a whole and for each taluka separately.

Sources for the district and talukawise material are different and there may, therefore, be a few small discrepancies between the two sets of figures.

Table 6

This table presents the outturn and average yields per acre of principal crops in the district. The crops presented are foodcrops like rice, wheat, jowar, bajri, ragi, maize, tur, gram and sugarcane and non-foodcrops like groundnut, sesamum, cotton and tobacco. Crops which are locally important are only shown in this table.

The outturn figures are in hundred tons while average yields are shown in pounds per acre.

The estimates of average yields and production in respect of rice, bajri (kharif and rabi), jowar, wheat, gram, cotton, groundnut, tobacco, ragi and tur are based on the results of crop estimation surveys conducted annually by the Agriculture Department. The estimates of yields for other remaining crops are based on the anna valuation figures and normal yields reported by the Revenue Officers. The figures relate to the years 1950-51 to 1959-60.

Table 7

This table presents wholesale prices of principal crops. The material is presented for previous years by monthly averages and for the last year separately for each month. The prices shown are for the places having regulated markets or for the district headquarters.

Table 8

This table presents harvest prices of principal crops. The " harvest price " is the average wholesale price at which the commodity is disposed of by the producer to the trader at the village site during the specified harvest period. These prices are published in the Season and Crop Reports. The figures relate to the years 1950-51 to 1959-60.

Table 9

This table presents figures for livestock and agricultural implements for the district and each taluka separately for three years : 1951, 1956 and 1961. The material is obtained from the three livestock Censuses conducted in those years. The reference date to which the data relate is the 15th April of the concerned year.

" Poultry " in section B of the table includes hens, cocks, chicken, ducks, drakes and ducklets.

Section C presents statistics for agricultural implements. The figures for carts shown in the table are in respect of carts used for agricultural purposes only.

The number of tractors is inclusive of those owned by the Government and those owned by private persons.

The material is presented for the district as a whole and for each taluka separately.

Table 10

This table presents the distribution of the number of land holdings and their areas by size of holdings. The material has been taken from the census of agricultural holdings conducted in the year 1952-53 or 1953-54 in different parts of the State.

The figures presented here are for ownership holdings and the area figures are in terms of converted dry acres, i.e., calculated after giving due weightage for irrigated lands.

Where the district has undergone major changes because of the reorganisation of States in 1956 or 1960, the material relates to the area of the district as it existed in the year 1952-53 or 1953-54.

(3) INDUSTRIES

Table 11

This table presents, for each industry, the total number of working factories, the number of man-days for which they worked during the year and the average daily number of workers employed classified by adults (18 years and above), adolescents (15 to 17 years) and children (14 or less). Statistics presented in columns (3) to (11) relate only to the reporting factories. The number of non-reporting factories and their estimated average daily number of workers are shown in columns (12) and (13). These details of factories are further split up by the type of industry shown under column (1) both by industry code and a brief description. The industry codes shown here (as well as in Table 12) are those used for compilation of data by the Chief Inspector of Factories. They are different from the Standard Industrial Classification used in the Census Tables and reproduced in Appendix I to the Explanatory Note to Part II.

The material is presented only for the district as a whole and only for one year, viz., 1961.

The word "factories" here includes only the registered factories. They are of three types :—

(i) Factories using no power but employing 20 or more workers ;

(ii) Factories using power and employing 10 or more workers, and

(iii) Factories not covered by (i) and (ii) above but notified by the Government as covered by the Factories Act.

The material presented in this table is for all the three types combined.

Table 12

This table presents the distribution of factories for each type of industry by size of employment. For each size group, the number of factories and their total working strength are shown for each industry separately. The material is presented only for the district as a whole and only for one year, viz., 1961.

Table 13

This table presents the distribution of factories for each type of industry by the number of days worked during the year. The material is shown for each industry and the number of factories and their total workers are shown for each group of working periods. This will show the seasonal or perennial pattern of employment in industries in the district. Material is presented only for the district as a whole and relates to the year 1961.

Table 14

This table presents a summary of data regarding the manufacturing industries as obtained through the annual Census of Manufacturing Industries conducted during the year 1958.

The 1958 Census had covered only 29 important industries. It, moreover, covered only the factories using power and employing 20 or more workers.

The figures for capital, etc., relate to 31st December 1958. "Value" added by manufacture denotes the increase in the total value of commodities as calculated by deducting the cost of materials, supplies, containers, fuel, electric energy and depreciation of fixed assets from the total value of the products.

The table presents only the combined figures for the 29 industries covered in the 1958 Census.

(4) EDUCATION

Table 15

This table shows the number of different types of educational institutions in the district and the total number of pupils (boys and girls) and teachers for each type for the years 1951, 1956 and 1961. The material is presented for the district as a whole and for each taluka separately.

The number of institutions relates to the academic year ending June and the number of pupils is as on 31st March of the respective years.

Table 16

This table presents a list of colleges and high schools in the district with their locations. The material relates to 31st March 1961, and does not include institutions started after that date.

Lists are presented talukawise.

(5) PUBLIC HEALTH

Table 17

This table shows medical facilities available in the district. The material is presented for three years 1950, 1955 and 1960 and shows the number of hospitals, maternity homes, dispensaries, rural health centres, doctors, nurses, beds available and indoor and outdoor patients treated.

Material is presented for each taluka separately.

The material presented here includes only civil hospitals and Government dispensaries. Local or Municipal Funds institutions, private-aided or Railway dispensaries. It does not cover private unaided institutions run by individuals or associations. Similarly, the number of doctors, nurses or patients shown in this table does not include that relating to unaided hospitals, dispensaries or private practitioners. (However, this table is not shown for this district as the data are not available.)

Table 18

This table shows data about births, deaths and infant deaths for the years 1951 to 1960. Wherever possible, figures for each taluka are also shown separately. For the districts of Aurangabad and Nagpur divisions, material is availabe and presented only for the years 1957 and onwards.

The figures of infant deaths relate to deaths of children below one year.

The coverage and reporting on births, deaths and epidemic diseases in the rural areas are incomplete in many respects. The material presented in Tables 18 and 19 should not, therefore, be treated as any accurate representation of actual conditions in the district and should be used only after allowing a margin for those limitations. The Department of Public Health is working on many schemes to improve the present position in respect of vital statistics.

Table 19

This table shows the number of deaths due to principal causes in the district for the 10 years 1951 to 1960. The causes of deaths shown are cholera, smallpox, plague, dysentery and diarrhoea, fever, respiratory diseases and other causes. The figures of fevers include deaths due to enteric fever, cerebro-spinal fever, malaria, influenza, typhus, etc. Respiratory diseases include pneumonia, pulmonary tuberculosis, whooping cough, etc. In the other causes are included diphtheria, chicken-pox, poliomyelitis, leprosy, cancer, deaths from child birth, etc.

(6) MISCELLANEOUS

Tables 20 to 31

Tables 20 to 31 are self-explanatory and need no further clarification.

Table 32

This table presents talukawise lists of weekly markets. The table also shows the day on which the weekly bazar is held. Places where cattle bazars are held are also indicated. The list is based on the information collected from the Mamlatdar's offices and the Census enumerators' reports, prepared in September - October 1960.

Table 33

This table gives a talukawise list of villages where different religious or cultural fairs are held. The list includes only those fairs which have a congregation of 1,000 or more. Information regarding—

(i) Location Code Number,
(ii) the name of the village in which the fair is held,
(iii) distance from Railway station and S. T. Bus stop.
(iv) name of the fair, and month and date of the fair, and
(v) average congregation

is furnished for each fair separately.

The list is prepared on the basis of information collected from the District Superintendents of Police, Municipalities and the Census enumerators' reports. The number of people gathering at the fair is based on eye estimates and should be treated as a broad approximation.

Table 11—Employment in Factories

Code No. and Description of Industry	Number of working factories	Number of working factories submitting returns	Number of man-days worked during the year	Average daily number of workers employed						Total	Working factories not submitting returns	
				Adults		Adolescents		Children				
				Men	Women	Males	Females	Boys	Girls		No.	Estimated average daily No. of workers employed
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)
010 Gins and Presses—												
(a) Cotton ginning and baling	30	23	119,055	620	406	17	22	..	..	1,065	7	269
206 Manufacture of bakery products	2	1	3,375	15	..	..	..	..	..	15	1	10
207 Sugar factories and refineries—												
(a) Sugar	11	10	1,849,733	5,828	..	..	..	..	..	5,828	1	450
(b) Gur	45	16	18,965	213	43	4	9	..	..	269	29	311
209 Manufacture of miscellaneous food preparations—												
(a) Manufacture of edible oils (other than hydrogenated oils).	5	3	5,625	21	1	..	..	..	..	22	2	20
211 Distilling, rectifying and blending of spirit.	3	3	43,514	224	..	..	..	..	..	224	..	..
220 Tobacco manufactures—												
(a) Bidi	101	54	1,083,760	1,578	1,980	19	23	5	1	3,606	47	4,636
231 Spinning, weaving and finishing of textiles—												
(a) Cotton mills	3	1	7,800	6	20	..	..	..	..	26	2	25
280 Printing, bookbinding, etc.—												
(a) Letter Press	5	5	39,764	131	..	..	..	..	..	131	..	..
292 Manufacture of leather products except footwear and other wearing apparel.	1	..	..	..	..	..	..	..	..	..	1	15
311 Basic chemicals including fertilisers—												
(a) Artificial manures	1	1	4,496	11	5	..	..	..	..	16	..	..
319 Manufacture of miscellaneous Chemical Products—												
(a) Fine and Pharmaceutical Chemicals	2	1	61,610	157	45	..	..	..	..	202	1	12
321 Petroleum refineries, etc.—												
(b) Kerosene	1	1	1,475	5	..	..	..	..	..	5	..	..
331 Manufacture of structural and clay products—												
(a) Bricks and Tiles	1	1	10,626	42	27	..	..	..	..	69	..	..
339 Manufacture of non-metallic mineral products not elsewhere classified—												
(a) Stone dressing and crushing	5	2	10,230	24	32	..	..	..	..	56	3	66
(d) Others	2	2	9,284	31	..	..	..	..	..	31	..	..
341 Ferrous—												
(d) Rough castings	1	1	3,636	12	..	..	..	..	..	12	..	..
360 Manufacture of machinery (except electrical machinery).—												
(e) Textile machinery and accessories	1	1	52,236	172	..	..	..	..	..	172	..	..
(f) General and jobbing engineering	7	7	51,423	190	..	..	..	..	..	190	..	..
384 Repair of motor vehicles and cycles—												
(a) Motor vehicles	4	4	48,045	141	..	..	..	..	..	141	..	..
396 Manufacture of musical instruments	1	1	4,896	16	..	..	..	..	..	16	..	..
399 Manufacturing industries not elsewhere classified—												
(k) Wrapping, packing, filling, etc. of articles.	1	..	..	..	..	..	..	..	..	..	1	80
(l) Others	1	1	20,655	3	57	..	25	..	..	85	..	..
511 Electric light and Power	4	4	22,337	65	..	..	..	..	..	65	..	..
Total	238	143	3,472,560	9,505	2,616	40	79	5	1	12,246	95	5,894

NOTE.—Column (4) relates only to those factories submitting figures for number of days for which the factory was working Cols. (5) to (11) relate to working Factories submitting returns
