STATE PUBLICATIONS

DISTRICT CENSUS HAND BOOKS

A District Census Hand Book for each of the 20 Districts in Andhra Pradesh

PRINTED BY T N R PRESS, HYDERABAD FOR THE DIRECTOR OF PRINTING, HYDERABAD

PREFACE

The District Census Handbook is an innovation introduced at the 1951 Census. The Handbooks are compiled by the Census Office but published by the State Government. They proved to be very popular and valuable publications in considerable demand by the public as well as the official users of the Census data. At the 1961 Census, therefore, it was decided not only to continue the publication of the District Census Handbook but to greatly improve upon its precursor of 1951.

The present District Census Handbook may be conveniently divided into four parts. The first part consists of a narrative description of the physical features and history of the district, the social and economic characteristics of the people and the progress made by the district in each field of administration over the past decades. This is supplemented by a gazetteer of places. The second part consists of administrative statistics of various departments. The third part is based mainly on the present Census returns and consists of statistical tables giving the particulars of population, sex ratio, economic composition, literacy, language and migration data, etc. The fourth part consists of Village and Town Directory which is perhaps the vital part of the Handbook giving villagewise and townwise particulars of area, households, population, Scheduled Castes and Scheduled Tribes, literacy, broad categorisation of working population, etc. Against each village and town the educationl, medical, public health and transport facilities, etc., if available, have also been indicated. At the end of the fourth part a tabular statement of fairs and festivals, information about which had been collected through the Census enumerators will also be found. The pages of each part are numbered separately. The Handbook is enriched with two district maps, one showing the administrative divisions and important communications, rivers etc., and the names of all important places of above 5,000 population and the other showing the talukwise density of population. In the Village Directory portion of the Handbook, before the statistics of each taluk are presented, a taluk map showing the village and town boundaries with the location code number of each village and town marked will also be found. Thus the District Census Handbook is a self-contained and convenient book of reference about almost all matters pertaining to the district.

The Handbooks are no doubt coming rather late, a few years after completion of the Census count. This delay, if at all it can be called delay, could not be helped. The very detailed sorting of Census slips and compilation of the elaborate 1961 Census tables were time consuming; the administrative particulars for incorporation in the Handbooks had to be collected from different departments and other sources on proformae that were finalised and circulated from this office; the preparation of the excellent maps of the district and the taluks, attempted this time, also required considerable time; and lastly the printing of these voluminous reports which had to be done very carefully was a laborious process. All the same it is hoped that these Handbooks will serve as valuable sources of reference about all matters pertaining to the district and help one to assess the impact of the Five Year Plans and the progress each district had made in its social and economic well being over the decades and also serve as a guide in planning for the future. The credit for the compilation of this Handbook goes chiefly to Shri P.S.R. Avadhany, Deputy Superintendent of Census Operations. A compilation of this type and magnitude could have taken much longer time but for the diligent efforts of Shri Avadhany. The Handbook section of the Census Office under the Tabulation Officer Shri K. Narasimha Murthy, did a commendable work in the speedy and accurate compilation of the Village Directory and the other Statistical and Administrative tables. Draughtsman, Shri G. Pandurangam; Shri Mohinuddin Hassan and Shri M. J. Sadiq, Tracers of the Cartographic Section in my office did a magnificent work as will be evident from the quality of maps that have been produced.

A. CHANDRA SEKHAR
Superintendent of Census Operations
Andhra Pradesh

CONTENTS

PART A

INTRODUCING THE DISTRICT

Chapter		*Pages*
I	GENERAL FEATURES	A1–A5
II	HISTORY	A6–A8
III	POPULATION AND HOUSING	A9–A29
IV	AGRICULTURE	A30–A34

11.3	Blockwise Physical achievements under Community Development from inception upto 31-3-1961	B47
	SERIES 12—IMPORTANT HISTORICAL EVENTS	
12.1	Calendar of outstanding occurrences (Historical and Religious events)	B48

SERIES 13—BANKS AND INSURANCES

Table No.		*Pages*
13.1	Banks	B48
13.2	List of Banks and their places of business	B49
13.3	Life insurance Business	B49
13.4	Achievements in National Small Savings Scheme	B49

SERIES 14—MARKETS

14.1	List of Markets	B50–B51

PART C

STATISTICAL TABLES

A SERIES—GENERAL POPULATION TABLES

Explanatory Note C1–C4

Table A–I–Area, Houses and Population C5–C6

Appendix I to Table A–I—Statement showing the 1951 territorial units constituting the present set-up of Adilabad District and taluks therein and details of net area gain or loss involved in the changes during the decade 1951–61 ... ... C7

Appendix II to Table A–I—Number of Villages with a Population of 5,000 and over C8

Appendix III to Table A–I—Houselists and Institutional Population C8

TABLE A–II—Variation in Population during sixty years (1901–1961) C9

Appendix to Table A–II—Statement showing 1951 Population according to the territorial jurisdiction in 1951, changes in area and population involved in the changes during 1951–1961 ... ... C9–C10

TABLE A–III–Villages Classified by Population C11

TABLE A–IV—Towns (and Town-groups) Classified by Population in 1961 with variation since 1941 ... ... C12

Appendix to Table A–IV—Statement showing the constituent Villages of each of the Towns at 1961 Census C13

B SERIES—ECONOMIC TABLES

Explanatory Note C15–C31

TABLE B–I—Workers and Non–Workers Classified by Sex and Broad Age-Groups C32–C33

TABLE B–III Part A—Industrial Classification of Workers and Non-Workers by Educational Levels in *Urban Areas* only C34–C35

B SERIES—ECONOMIC TABLES—*Concld.*

	Pages
TABLE B-III Part B—Industrial Classification of Workers and Non-Workers by Educational Levels in *Rural Areas* only	C36–C39
TABLE B-IV Part C—Industrial Classification by Sex and Divisions, Major Groups and Minor Groups of Persons at Work other than Cultivation	C40–C43
Appendix to Table B-IV Part C—Statement showing particulars of Workers under Minor Groups accounting for less than 1% of the Workers in the concerned Divisions, (less than 0.5% in the case of the Minor Groups under Division 2 & 3) who have not been included in the main Table	C44–C45
TABLE B-V—Occupational Classification by Sex of Persons at Work other than Cultivation	C46–C61
Appendix to Table B-V—Statement showing the particulars of Workers under Occupational Families accounting for less than 1% of Workers of the respective Divisions (0.5% in the case of the Families under Division 7–8) who have not been included in the main Table	C62–C70
TABLE B-VII Part A—Persons working principally (i) as Cultivators, (ii) as Agricultural Labourers or (iii) at Household Industry Classified by Sex and by Secondary work (i) at Household Industry, (ii) as Cultivator or (iii) as Agricultural Labourer	C71–C74
TABLE B-VII Part B—Industrial Classification by Sex of Persons working in Non-Household Industry, Trade, Business, Profession or Service who are also engaged in Household Industry	C75–C83
TABLE B-VIII Part A—Persons unemployed aged 15 and above by Sex, Broad Age-Groups and Educational Levels in *Urban Areas* only	C84–C85
TABLE B-VIII Part B—Persons unemployed aged 15 and above by Sex and Educational Levels in *Rural Areas* only	C86
TABLE B-IX—Persons not at Work Classified by Sex, Broad Age-Groups and Type of Activity	C87–C89

C SERIES—SOCIAL AND CULTURAL TABLES

Explanatory Note	C91–C92
TABLE C-I—Composition of Sample Households by relationship to head of family classified by size of land cultivated (Based on 20%Sample)	C93
TABLE C II—Age and Marital Status	C94–C98
TABLE C-III Part A—Age, Sex, and Education in *All Areas*	C99
TABLE C-III Part B—Age, Sex and Education in *Urban Areas* only	C100
TABLE C-III Part C—Age, Sex and Education in *Rural Areas* only	C101

	Pages
C SERIES—SOCIAL AND CULTURAL TABLES—*Concld.*	
TABLE C-V—Mother-Tongue	C102–C107
TABLE C-VII—Religion	C108

PART A

INTRODUCING THE DISTRICT

ADILABAD DISTRICT

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

CHAPTER I

GENERAL FEATURES

Formation :

Very little is known about the early history of Adilabad District prior to its becoming a part of the Nizam's Dominions. The district was known prior to 1905 as Sirpur–Tandur Sub-District. It then covered an area of 5,029 sq. miles and consisted of three taluks, viz., Edlabad (Adilabad), Rajura and Sirpur besides some Jagir villages. In 1905 a general reconstitution of divisions and districts was effected in the erstwhile Hyderabad State and during this reorganisation this district was upgraded into an independent district and the name of the district was also changed into Adilabad district. In the reorganisation this district gained Narsapur and Nirmal taluks from Nizamabad (Indur) district and Chinnur and Lakshettipet taluks from Karimnagar (Elgandal) district. The northern portions of Narsapur and Nirmal taluks and a part of Edlabad (Adilabad) were constituted into a new taluk of Kinwat. The remaining portion of Narsapur taluk was merged with Nirmal taluk. A new taluk of Jangaon later known as Asifabad was carved out from the villages of Sirpur and Lakshettipet taluks. Yelgadap Paigah taluk later known as Khanapur Independent Sub-Taluk was also constituted in this decade. In the next decade of 1911–1921 the taluks were again rearranged to allow the formation of the two new taluks of Utnur and Boath. The district did not undergo any major territorial changes again till 1956. On 1st November when Andhra Pradesh was formed under the States Reorganisation Act, 1956, this district lost the predominantly Marathi speaking taluks of Rajura, Kinwat and Islapur Circles of Boath taluk to Bombay State (Maharashtra State) against which it gained the revenue circles of Mudhol, Kuber and Bhainsa from Mudhol taluk of Nanded district. These three Revenue Circles were constituted into Mudhol taluk. The Adilabad district thus at present comprises ten taluks, viz., Adilabad, Utnur, Asifabad, Sirpur, Chinnur, Lakshettipet, Khanapur Independent Sub–Taluk, Boath, Nirmal and Mudhol with district headquarters at Adilabad.

The present Adilabad district extending over 6,256.3 sq. miles lies between 77° 46′ and 80° 0′ of the Eastern Longitude and 18° 40′ and 19° 56′ of the Northern Latitude. It is bounded on the north by Yeotmal and Chanda districts of Maharashtra State, on the east by Chanda district, on the south by Karimnagar and Nizamabad districts and on the west by Nanded district of Maharashtra State. The district has a population of 1,009,292 persons (509,550 males and 499,742 females) according to the 1961 Census count and there are altogether 1,543 inhabited villages, 178 uninhabited villages and 10 towns in the district. For purposes of Revenue administration the district is divided into three Revenue Divisions and ten taluks as detailed below:

STATEMENT 1 — 1

Name of the Revenue Division	Name of the taluk	Area in Sq. miles	No. of Villages		No. of towns	Population at the 1961 Census	Density of Population per Sq. mile
			Inhabited	Uninhabited			
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
Adilabad	Adilabad	580.5	187	26	1	117,330	202
	Boath	554.9	142	31	..	69,881	126
	Utnur	726.4	158	11	..	55,099	76
Nirmal	Nirmal	566.4	167	23	1	137,360	243
	Mudhol	402.8	135	15	2	100,497	249
	Khanapur I.S.T.	313 0	73	3	1	55,710	178
	Lakshettipet	734.1	121	12	1	123,397	168
Asifabad	Asifabad	833.9	223	18	2	119,570	143
	Sirpur	855.7	186	17	1	134,648	157
	Chinnur	688.6	151	22	1	95,800	139
Adilabad District	Total	**6,256.3**	**1,543**	**178**	**10**	**1,009,292**	**161**

Out of 1,543 inhabited villages in the district, 462 villages belong to the population size of less than 200 persons; 478 villages come under the population size of 200–499 persons; 358 villages belong to the population size of 500–999 persons; 204 villages belong to the population size of 1000–1999; and 39 villages to the population size of 2000–4999. Only 2 villages come under the population size of 5000-9999 persons. There are no villages in this district having a population of 10,000 or more persons. The total rural population in all these 1,543 villages is 852,923 persons (427,724 males and 425,199 females) accounting for 84.51% of the total population of the district.

The urban population in all the 10 towns is 156,369 persons (81,826 males and 74,543 females) accounting for 15.49% of the total population of the district. Out of these ten towns, four towns are having City Municipalities and four have Town Municipalities. The civic status of two towns, viz., Bellampalli and Kadam Damsite is not yet determined. The following statement gives the population particulars, area in square miles and density of population of the above mentioned ten towns.

STATEMENT I – 2

Name of the Town	Population as per the 1961 Census	Area in Square miles	Density of Population per Square Mile
(1)	(2)	(3)	(4)
1 Adilabad	20,970	7 75	2,706
2 Asifabad	6,190	8.20	755
3 Bellampalli	29,101	2.84	10,247
4 Kagaznagar	30,604	5.71	5,360
5 Chinnur	9,645	11.13	867
6 Mancheriyal	13,822	6.75	2,048
7 Kadam Damsite	6,235	0 66	9,447
8 Nirmal	19,896	6.09	3,267
9 Mudhol	7,560	2.79	2,710
10 Bhainsa	12,346	3.05	4,048

Kagaznagar town has the largest population while Bellampalli town has the highest density of population among the towns in this district. Adilabad, Nirmal and Chinnur towns are the oldest towns.

Kadam Damsite is the only town newly added to the list of towns in this district at the 1961 Census while four places viz., Boath. Sirpur, Lakshettipet and Khanapur which were classified as towns in 1951 have been declassified as villages in the present Census.

Hills :

The Sahyadriparvat or Satmala range traverses the district from north-west to south-east for about 175 miles. Other hills in the east are of minor importance.

Rivers :

The most important river that drains this district is the river Godavari. Penganga, Wardha and Pranahita come next in importance. Penganga forms part of the northern boundary of the district in Adilabad taluk while Wardha and Pranahita rivers form the northern and eastern boundaries of this district respectively and drain the borders of the district. River Godavari forms the southern boundary separating this district from Nizamabad and Karimnagar districts. The rivers next in importance are Kadam and Peddavagu. River Penganga falls into river Wardha which in turn joins in Pranahita. All the three rivers ultimately join into river Godavari in Chinnur taluk.

Flora and Fauna :

Adilabad district consists of large extents of forests. These forests consist of teak, ebony, sandalwood, rosewood, bilgu (*Chloroxylon swietenia*), jittigi (*Dalbergia latifolia*), bijasal (*Pterocarpus Marsupium*) dhanra (*Anogeissus Latifolia*), tamarind, mango, margosa and kuchla (*Nux Vomica*). Out of the total district area of 6,242 sq. miles about 38.1% is covered with forests. Apart from being a very important source of income to the State, the forests provide raw materials to the building industry and also large quantity of firewood. The forest areas, have been divided into three divisions, viz., 1) Mancherial, 2) Khanapur and 3) Nirmal Divisions.

The forest division of Mancherial forms one of the major forest division of Adilabad district. The hills abound in large game, such as tigers, leopards, bears, hyaenas, wolves and wild dogs. In jungles on the plains nilgai. sambar and spotted deer are met with in large numbers.

Climate and Rainfall :

The climate is hot and moderately humid. The average monthly temperature in May is about 100°F. while in December it drops to 60°F. The average rainfall of the district is about 40". Maximum rain is received under the South-West monsoon period during June–September.

Soils :

Sandy and reddish soils are largely found in this district. In Nirmal taluk black soil exists in certain parts and chalka soil in other parts. In Boath taluk the soil is largely black regar and red. In Asifabad taluk rich black soil exists in the north-west while chalka soil is found in the rest of the taluk. The soil in Sirpur and Chinnur is regar and alluvial and in Utnoor taluk it is heavy black and fertile. The soil at the foot of the hills and on the borders of the rivers is fertile. The main sources of irrigation are tanks and wells. Rice, jowar, wheat and maize are the important food crops grown in this district.

Jowar forms the staple food crop of the district and rice and wheat come next in importance. Cotton is also grown extensively. Oil seeds and fibres are also grown but on a small scale. Among the Telangana districts Adilabad district receives the maximum rainfall but only a negligible quantity of water is utilised for agricultural purposes due to lack of adequate irrigation projects. The medium irrigation sources at present are the Multi-purpose Project at Utnur, Swarna Project in Nirmal taluk and Kadam Project in Khanapur Independent Sub-taluk. In addition to these there are a number of tanks in Adilabad district. The construction of Swarna Project which was started in Nirmal taluk is transferred to Pochampad Project Division in Nizamabad. Under the Kadam Dam about 65,000 acres of land in Khanapur Independent Sub-taluk and Lakshettipet taluks are irrigated. The Swarna and Sirala Projects, after completion, will irrigate about 9,130 and 3,200 acres of land respectively. The land utilisation statistics for the year 1960-61 are shown below :

	Classification (1)	Area in acres (2)	Percentage to total area (3)
1	Total geographical area	4,130,163	100.0
2	Forests	1,583,515	38.3
3	Barren and uncultivable land	384,135	9.3
4	Land put to non-agricultural use	230,274	5.6
5	Cultivable waste	168,327	4.1
6	Permanent pastures and other grazing lands	139,655	3.4
7	Land under miscellaneous tree crops and groves	30,751	0.7
8	Current fallows	291,104	7.1
9	Other fallows	142,012	3 4
10	Net area sown	1,160,390	28.1
11	Area sown more than once	19,100	0.5
12	Total cropped area	1,179,490	28.6

The above statement gives the classification of total geographical area under different categories of land utilisation in Adilabad district. The net area sown in the district accounts for 28.1% of the total geographical area. The area under forest comprises 38.3%. Barren and uncultivable land forms 9.3% of the total area. Land put to non-agricultural use, that is, land used for the construction of buildings and roads, etc., forms 5.6% of the district area. The land which can be utilised for cultivation but is not under cultivation accounts for 4.1% of the total geographical area while cultivated land temporarily uncultivated and treated as fallow land accounts for 10.5% of the total area.

The total cropped area accounts for 28.6% and land under miscellaneous tree crops and groves forms 0.7% of the total geographical area. The area sown more than once forms only 0.5% of the total area. Permanent pastures and other grazing lands account for 3.4% of the district area.

Transport and Communication Facilities :

Rail communication facilities are inadequate in this district. The Broad Gauge Railway Line from Kazipet to Delhi passes through this district from south to north through the taluks of Lakshettipet, Asifabad and Sirpur. A Metre Gauge branch Railway Line runs from Mukhed to Adilabad. The Kachiguda–Manmad Metre Gauge line just passes through the southern most tip of Mudhol taluk. Certain taluks like Khanapur and Utnur have no railway communication facilities at all. Even the road communication facilities are not quite adequate. The National Highway Road from Nizamabad to Nagpur provides communication and transport facilities to Nirmal, Boath and Adilabad taluks. The roads from Nirmal to Chinnur and from Mancherial to Rajura also provide fairly satisfactory road communication facilities. However, proper communication facilities are lacking in many parts, specially the interior portions of the district.

Educational Facilities :

Most of the big villages have primary schools but the facilities for secondary education are not quite adequate. Only one college in Arts and Science recently opened at Adilabad provides collegiate education in the entire district.

Medical Facilities :

The district headquarters and all the taluk headquarters have medical dispensaries. There is a project dispensary at Kadam.

Industries :

The Sirpur Paper Mills, the Sir Silk Factory and the Bellampalli Chemical and Fertilizer Factory, the Cement Factory at Mancheriyal represent the important large scale industries in this district. Among cottage industries the toy industry of Nirmal is very famous throughout the country and even in some foreign countries.

Places of Interest :

The old Fort near Mahur in Adilabad taluk, Kuntala waterfalls and the Saraswathi temple in Basar are some of the important places of visit in this district. A brief account of the places of interest in this taluk is given at the end of this part in the chapter on 'Gazetteer' and may be referred to.

Geology and Mineral Resources :

A brief note on the Geology and Mineral Resources in Adilabad district prepared by the Officers of the Geological Survey of India, Andhra Pradesh Circle, is reproduced below.

GEOLOGY AND MINERAL RESOURCES OF ADILABAD DIST., ANDHRA PRADESH

Minerals form the back bone of industry and are indispensible for every country in its development. Andhra Pradesh is well endowed in the following minerals: Asbestos, Barytes, Clays, Coal, Construction Materials, Limestone, Mica, Ochres and Steatite. The State also possesses fairly good reserves of graphite, Iron Ore, Manganese Ore, etc. There are also ancient workings for Diamonds, Gold, Copper, Lead and Zinc. These are being investigated in detail by the Geological Survey of India and Indian Bureau of Mines. The chief mineral deposits found in the district of Adilabad are those of Coal, Limestone and Construction Materials.

The geological formations occurring in the district can be divided into five main divisions - Archeans, Puranas, Gondwanas, Deccan Traps and the Recent formations. Archeans are the oldest formations and are devoid of life. These can be divided into two major groups, the Dharwars which are more than 2,000 million years of age, consisting mainly of Schists and the Peninsular granite complex comprising pink and grey granites and Gneisses. These occur in the southern parts of the district. Overlying the Archeans are the Purana formations divided into Pengangas and the Sullavais deposited between 750 to 1,200 million years ago in this area. The Pengangas consist mainly of soft, red-brown shales interbedded with grey, pink or buff coloured limestones and occur in the northern and north-eastern parts of the district. Resting over these are the Sullavais comprising red-brown sandstones, grits and conglomerates. These occur as patches in a north-west – south-east direction on granites. After the deposition of the Puranas there is a great hiatus in the geological history of the district during which the older rocks were exposed and denuded for a considerable period. At about 350 million years there was a glacial climate at the beginning of the deposition of Gondwanas as is evidenced by the glacial boulder bed at the base of the Gondwanas. The climate has become gradually warm and supported luxuriant growth of vegetation which is responsible for the formation of the coal seams. The Gondwanas are fresh water sediments occupying the eastern and north-eastern parts of the district. The sub-divisions of the group in this area in the order of succession from below upwards are (1) Talchirs-boulder beds, shales and green sandstones; (2) Barakars - sandstones with workable coal seams; (3) Kamthis - brown sandstones and grits with small bands of red clays and limestones; (4) Maleris - red clays and calcareous sandstones with numerous fossils; (5) Kotas - brown sandstones and grits; and (6) Chikialas - conglomerates and ferruginous sandstones. About 100 million years ago an enormous eruption of lavas through cracks and fissures in the Earth's crust took place. These consolidated lavas are called Deccan traps, because of their prevalence over the Deccan Plateau. These are usually massive, dark grey to black in colour and are confined to the western and central parts of the district. The recent formations comprise boulder beds and grits occurring along the banks of the rivers Penganga and Godavari. Study of the distribution of the soils reveals that the shale country is covered by a fine, dusty, red soil while the limestone area is capped by a loamy soil. The Deccan traps give rise to black cotton soil and the Gondwana rocks yield sandy soil.

The mineral deposits of Adilabad district are briefly described below :

Coal :

All the workable seams of coal are confined to the Barakars of the Gondwana group in this area. The coal fields falling in this district are Asifabad, Tandur, Kanara and north Godavari fields. Of

these the Tandur, Kanara and North Godavari are being developed at present. In the Tandur coal field there are two workable seams. The top one is 27 feet thick and is called the 'Salarjung Seam' while the bottom one is 8 feet thick and is known as 'Ross Seam'. There are four workable seams in the north Godavari field and the thickness varies from 6–15 feet.

Tandur Collieries are on the Kazipet–Balharshah line of Central Railway in Adilabad district. The reserves of these Collieries comprising Tandur, Kanara and north Godavari coal fields are of the order of 100 million tons up to 1,000 feet depth, 175 m.t. up to 1,500 feet depth and 200 m.t. up to 2,000 feet depth. The coal bearing Barakar rocks are hidden under the Kamthi sandstone and alluvium in this area. As such intensive drilling is being taken up by Geological Survey of India to find out extent of the coal belt. The possibilities of developing the coal belt are bright and reserves will go up with the addition of new findings. The production of the Tandur Collieries is about 14,10,683 tonnes in the year 1963.

This coal is of non-coking variety and is mostly used for steam raising in railways and to a certain extent by industries and thermal power stations. By subjecting to low temperature carbonisation this coal can be used as domestic fuel and in low shaft furnaces for the production of high grade pig iron.

Limestone:

There are extensive deposits of cement grade limestone belonging to the Penganga series in this district. The chief deposits are those of Rali forest area, 4.8 km. north-west of Mancheriyal and Asifabad. The former has reserves of 600 m.t. of limestone suitable for cement manufacture and is being worked by Mancheriyal cement works. Geological Survey of India is investigating in detail the Asifabad deposit in order to find out its suitability as flux in Iron and Steel Industry. The limestone is used by the local people in lime burning.

Iron ore :

Extensive deposits of low grade iron ores, viz., magnetite and hematite occur in Dharwar schists at Chityal of Yelgadap taluk, (Khanapur I. S. T.) Kalleda and Rebanpalli of Lakshettipet taluk and Birsaipet of Utnoor taluk. There are several minor occurrences of iron ore near Dasturabad, Raidubba, Parapalli Maddipadagay and Somwarpet of Yelgadap taluk and Mayapoor, Yelmalla, Anantpet, Ponkal and Nanda of Nirmal taluk. The details of the major deposits are given below :

Locality (1)	Iron Ore (2)	Fe (3)	Reserves(m.t.) (4)
Chityal	Magnetite	39.5%	7.03 m t.
Kalleda–Dasturabad	Magnetite	39.9%	5.00 ,,
		33.1%	0.38 ,,
Rebanpalli	Magnetite	..	5.00 ,,
Birsaipet	Magnetite	43.0%	..
	Hematite	40.0%	..
		(Picked up ore)	
			17.41 m.t.

Iron ores belonging to the Gondwanas occur near Chichala, Agarguram and Icha in Sirpur taluk and in parts of Chinnur and Asifabad taluks.

Lateritic iron ores occur over the Deccan traps at Servai and Katari in Utnoor taluk and near Manickgarh in Rajura taluk. These are too aluminous to be used as iron ore and too high in iron to be called bauxite.

Clays :

Extensive deposits of pure and dirty white clays associated with the Kota–Maleri beds of Gondwanas occur near the villages of Pachgaon, Rallapet, Kattrala and Butternal of Asifabad taluk. The clays are useful in the manufacture of Potteries, Chinaware, Pipes, Firebricks, Sanitaryware and Insulators, etc. Heat-resisting clays suitable for the manufacture of fireproof materials occur interstratified with the coal beds of the Barakar series. Reddish fireclay is found as bedded deposit overlying the coal in the hills south of Antargaon near the border of Sirpur and Rajura taluks.

Construction Material :

The granites and gneisses of the Archeans, sandstones and massive limestones belonging to the Purana formations and the massive Deccan traps found in the district provide ample quantities of building stones and road metal. Some of the limestones like the chocolate-brown coloured limestones occurring north of Adilabad and the white saccharoidal limestone occurring south of Chandur in Rajura taluk can take good polish and afford decorative building materials.

CHAPTER II

HISTORY

Adilabad district, prior to 1905, was a Sub-district by name Sirpur–Tandur and extended over an area of 5,029 square miles. It then consisted of only three taluks, viz., Edlabad (Adilabad), Rajura and Sirpur besides a few Jagir villages. In 1905 the erstwhile Hyderabad Government effected a general reconstitution of the divisions and districts in Hyderabad State during which Sirpur–Tandur Sub-District gained two taluks, viz., Narsapur and Nirmal from Nizamabad (Indur) district and two taluks, viz., Chinnur and Lakshettipet from Karimnagar (Elgandal) district and the sub-district was upgraded into an independent district known as Adilabad district. The northern portions of Narsapur and Nirmal taluks and a part of Edlabad (Adilabad) taluk were clubbed and constituted into a new taluk called Kinwat. The remaining portion of Narsapur was merged with Nirmal taluk. A new taluk by name Jangaon which was later renamed as Asifabad was formed between Sirpur and Lakshettipet taluks by grouping together villages from Sirpur and Lakshettipet taluks. A new Paigah taluk of Yelgadap was also constituted then. During the next decade of 1911–1921 the taluks were again reorganised so as to allow the formation of the new taluks of Utnur and Boath. The district did not undergo any further major territorial changes till November 1956. During the decade 1941–51 Yelgadap–Paigah taluk was renamed as Khanapur Independent Sub-taluk.

In November 1956 when the Reorganisation of States was made and Andhra Pradesh was formed, a major portion of this district along with the other eight districts of Telangana became part of Andhra Pradesh. The predominantly Marathi speaking taluks of Rajura and Kinwat and Islapur circle of Boath taluk were transferred to Maharashtra State while this district gained Mudhol taluk except Dharmabad circle (i.e., Mudhol, Kuber and Bhainsa circles) from Nanded district. These three circles were constituted into Mudhol taluk. The district did not undergo any major territorial changes in its jurisdiction after November 1956. Very little is known about the early history of Adilabad district before it became part of Hyderabad State. A brief early history of Deccan of which Adilabad district formed part is, however, given below.

Early Hindu Period :

In pre-historic times the great Dravidian race occupied Southern India including a major portion of the Deccan plateau. It is uncertain when the Aryans invaded the Deccan. The empire of Asoka (273–231 B.C.), however, seems to have had control over the whole of Berar and a considerable portion of the Deccan plateau. The Andhras were the next kings who ruled the Deccan. They are mentioned in the Asokan inscriptions but their rise to power dates from about 220 B.C. Gradually extending their sway from Krishna delta, they soon possessed an empire reaching to Nasik. This dynasty seems to have come to an end in the third century A.D., but the reasons for the collapse are little known. The Pallavas who ruled South of Krishna might have extended their power to this region. The next dynasty of importance is that of the Chalukyas who rose to power in Bijapur district by about 550 A.D. and founded an empire spreading east and west across the Peninsula with their capital at Badami. Pulakesin II (608–42 A.D.), ruled practically the major portion of south India from the Narbada river and even came into contact with Harshavardhana of Kanuj. Throughout their period of supremacy the Chalukyas were at war with the Pallavas. In the middle of the eighth century the Chalukyas were displaced by the Rashtrakutas of Mulkhed in Gulbarga district. About 973 A.D., the Chalukyan dynasty was restored and for nearly 200 years maintained its position, in spite of fierce struggles with the Cholas and Hoyasalas of Dwarasamudra. The Chalukya power fell about 1189 A.D., to the Hoyasalas and Yadavas, the later of whom established themselves at Devagiri. The Yadavas were the last great Hindu rulers of the Deccan, for Vijayanagar kingdom which was founded half a century later after the advent of the Muhammadans, never acquired much sway in the Deccan proper.

Muhammadan period :

Alla-ud-Din Khilji led the first Muhammadan expedition into the Deccan in 1294 against the Yadava ruler of Devagiri and coerced him into submission. In 1296 he assassinated his own uncle and seized the throne, and sent an expedition to Devagiri. His first expedition was dispatched in 1303 against the Kakatiya kings of Warangal, who had established themselves there since the middle of the 12th century. This having failed he sent a second expedition under Malik Kafur in 1309, which resulted in the submission of the Raja who agreed to pay tribute. Muhammad-bin-Tughlak conducted a later campaign against Warangal and finally broke the Kakatiya power in 1323. In 1310 Malik Kafur was sent against the Hoyasala Raja of Dwarasamudra (Halebid in Mysore). In 1318 when Harpal, the Devagiri ruler rebelled, he was defeated and put to death and with him the Yadava dynasty ended. When Muhammad-bin-Tughlak ascended the throne in 1325 at Delhi the Muhammadans were masters of the Deccan from North to South; the chief Rajas of Telangana acknowledged their sway and paid tribute. He changed the names of Devagiri to Daulatabad and made it his capital. A few years later the Imperial Governors of the Deccan revolted resulting in the establishment of the Bahmani dynasty. Zafar Khan, who styled himself as Ala-ud-Din Hasan Shah Gangu founded this line and having taken possession of the Deccan provinces including Bidar and Gulbarga, he made the latter place his capital and commenced to reign in 1347 A.D. The Bahmani kingdom extended from Berar in the north to the left bank of the Tungabhadra in the south and from Dabal on the west coast to the Telangana tracts in the east. After the fall of this dynasty the Barid Shahi dynasty came into power. Amir Barid who assumed sole charge of the affairs of the Bahmani kingdom after the downfall of the Bahmani dynasty had many vicissitudes and constant wars with the rulers of Bijapur and Berar and he died in Daulatabad in 1538. He was succeeded by his son Ali Barid who was the first to assume the title of Shah. In 1565, he marched along with the other Deccan kings against the Rajah of Vijayanagar and in the memorable battle near Rakshasi Tangadi the Vijayanagar ruler was defeated and his fate sealed. Ali Barid died in 1582 and he was succeeded by three other kings. The Qutb Shahi dynasty next came into prominence. Sultan Quli Qutb-ul-Mulk, a Turk of noble family, who was Governor of the Golconda province under the Bahmanis took advantage of the distracted state of the kingdom under Muhammad Shah of the Barid Shahi dynasty and declared his independence establishing the Qutb Shahi dynasty which reigned from 1512 to 1687 A.D.

When the Mughals invaded the Deccan, the local rulers formed an alliance against them, but after defeating the invaders they fell out among themselves, enabling the Mughal troops to subdue the country. Shah Jahan after rebelling against his father fled from Burhanpur and was welcomed at Golconda by Abdulla Qutb Shah. In 1635 A. D. Shah Jahan who had then become the emperor, sent a *farman* to Golconda which was well received. Mir Jumla, the king's Minister, appealed to Aurangazeb for help against his master in 1655 A. D. and this afforded a pretext for Aurangazeb to invade the territory. Hyderabad was plundered, but Abdullah sued for peace and paid arrears of tribute. He died in 1674 A.D. and was succeeded by his nephew Abdul Hasan also called Tana Shah. After the fall of Bijapur in 1686 A.D. Aurangazeb turned his attention to Golconda which was taken in the following year. Tana Shah was made a prisoner and died in 1704 A.D. and with him the Qutb Shahi line ended. This dynasty was followed by Asaf Jahi Dynasty to which the present Nizam belongs. The Asaf Jahi dynasty was founded by Asaf Jah, a distinguished General of Aurangazeb, a Turkoman by descent. After a long service under the Delhi emperor he was appointed as Subedar or Viceroy of the Deccan in 1713 A.D. with the title of Nizem-ul-Mulk, which has since become the hereditary title of the family. The Mughal empire at this period was on the verge of decline owing to internal dissensions and attacks from without. Amidst the general confusion Asaf Jah had little difficulty in asserting his independence against the degenerate and weak occupants of the throne of Delhi, but he had to repel the inroads of Marathas who were harassing the west of his newly acquired territory. His independence was the cause of much jealousy at Delhi and the court party secretly instructed Mubariz Khan, Governor of Khandesh to oppose him by force of arms. A battle was fought at Shakarkhelda in the Buldana district of Berar in 1724 A.D., when Mubariz Khan was totally defeated and put to death. This battle established the independence of Asaf Jah who annexed Berar and fixed his residence at Hyderabad and established his dominions. Adilabad district along with the rest of the Telangana came under the control of the Asaf Jahi dynasty.

After the death of Asaf Jah, Nazir Jung, his second son, and Muzaffar Jung, his grandson by one

of his daughters strove for the succession. At this time the English and the French were contending supremacy in the East and each of the claimants secured the support of one of these powers; Nazir Jung's cause was espoused by the English, while Muzaffar Jung was supported by the French. The latter, however, fell a prisoner to his uncle, but on the assassination of Nazir Jung, Muzaffar Jung was proclaimed the sovereign. Dupleix, the French Governor, became the controller of the Nizam's authority. Muzaffar Jung was killed by some Pathan chiefs and the French then selected Salabat Jung a brother of Nazir Jung and son of Asaf Jah as ruler. Ghazi-ud-din, the eldest son of Asaf Jah, who, it was alleged, had relinquished his claim at first now appeared as a claimant, supported by the Marathas, but his sudden death put a stop to further struggles. The English and the French were then contesting power and influence in the Deccan; but the victories of Clive in the Carnatic caused the latter to turn their attention to their own possessions which were threatened and to leave Salabat Jung to shift for himself. Nizam Ali Khan, the fourth son of Asaf Jah at this juncture obtained the support of the English on the promise of dismissing French from his service. Salabat Jung was dethroned in 1761 A.D. and Nizam Ali Khan was proclaimed ruler.

In 1766 A.D., the Northern Circars were ceded to the British on the condition that the Nizam was to be furnished with a subsidiary force in time of war and received 6 lakhs of rupees per annum when no troops were required, the Nizam on his part promising to support the British with his troops. This was followed by the treaty of 1768 A.D., by which the East India Company and the Nawab of Carnatic engaged to assist the Nizam with troops whenever required by him, on payment. In 1790 A.D., war broke out between Tipu Sultan and the British and a treaty of alliance was concluded between the Nizam, the Marathas and the British. Tipu, however, concluded peace and had to relinquish half of his dominions which was divided among the allies. In 1798 A.D., another treaty was concluded between the Nizam and the British. On the fall of Seringapatnam and the death of Tipu Sultan, the Nizam participated largely under the treaty of Mysore in 1799 in the division of territory and his share was increased because of the withdrawal of the Peshwas from the treaty. In 1800 a fresh treaty was concluded between the Nizam and the British by which Nizam ceded all the territories which had accrued to him under the treaties of 1792, and 1799, i. e., Cuddapah, Kurnool, Anantapur and Bellary districts known as the ceded districts of Madras. Nizam Alikhan died in 1803 and he was succeeded by his son, Sikandar Jah. On the death of Sikandar Jah in 1829, his son Nazir-ud-Doula succeeded. Nazir-ud-Doula died in May 1857 and he was succeeded by his son Afzal-ud-Doula. In 1869 on the death of Afzal-ud-Doula, his son Mir Mahbub Ali Khan Bahadur became the ruler. As he was only three years old then, a regency was constituted for the administration of the country, with Salar Jung I as regent and Nawab Shams-ul-Umara as co-regent; the British Resident being consulted on all important matters concerning the welfare of the State. On the death of the co-regent in 1877, his half brother Nawab-Vikar-ul-Umara was appointed as co-administrator but he also died in 1881, Sir Salar Jung remaining sole administrator and regent till his death in 1883. In 1884, Mir Mahbub Ali Khan having attained majority was installed as ruler by Lord Rippon. On the death of Mir Mahbub Ali Khan in 1911 Mir Osman Ali Khan ascended the throne. In 1947 when the country attained independence the princely States were given the choice either to remain independent or to join the Indian Union. The Nizam's Dominions became part of Indian Union in 1948 as a Part 'B' State. In 1956 during the Reorganisation of States the Hyderabad State was trifurcated and the nine predominantly Telugu speaking districts of Mahbubnagar, Hyderabad, Medak, Nizamabad, Adilabad, Karimnagar, Warangal, Khammam and Nalgonda known as the Telangana region were transferred to Andhra Pradesh. Major portions of the predominantly Kannada speaking districts of Raichur, Gulbarga, Bidar were transferred to Mysore State while the Marathwada comprising the five districts of Aurangabad, Osmanabad, Bhir, Parbhani, Nanded and portion of Bidar which is predominantly Marathi speaking was transferred to Maharashtra State. These changes were effected on 1st November, 1956. For purposes of Revenue administration, Adilabad District is now divided into three Revenue Divisions and ten taluks. The Collector is in charge of the administration of the district assisted by suitable ancillary staff. The Revenue Divisions are under the charge of the Revenue Divisional Officers and the taluks under the Tahsildars. The Local Administration is being attended to by the Zilla Parishad at the district level and the Panchayat Samithi at the taluk level. The civic administration of towns and villages is being looked after by the Municipalities and the Gram Panchayats.

CHAPTER III

POPULATION AND HOUSING

In this chapter a brief review is made of demographic, economic and social characteristics of the population as revealed by the 1961 Census count. The detailed tables relating to population data are given in the third part of this Handbook.

The following statement gives an idea of where the district stands in comparison with the other districts of the State in respect of certain basic demographic data.

STATEMENT III—1

State/District (1)	Area (Sq. miles) (2)	Population (3)	Density of population (per Sq. mile) (4)	Percentage of growth of population 1951–61 (5)	Percentage of urban population (6)
ANDHRA PRADESH	106,052.4	35,983,447	339	+ 15.65	17.44

Population :-

Adilabad district has a population of 1,009,292 persons consisting of 509,550 males and 499,742 females according to the 1961 Census. The total rural population in this district is 852,923 persons and accounts for 84.50% of the total population of the district. Only 156,369 persons or 15.50% of the district population live in urban areas. The district comprising ten taluks has an area of 6,256.3 square miles. The urban area occupies 55.0 square miles only and the rest is rural. There are altogether 1,543 inhabited villages, 178 uninhabited villages and 10 towns in this district. Kadam Damsite is the only place recognised as a town for the first time at the 1961 Census. Four towns, viz., Boath, Sirpur, Lakshettipet and Khanapur which were treated as towns at the 1951 Census were declassified into villages in this district at the 1961 Census.

Urban areas :

Among the ten towns in this district Kagaznagar town, an industrial area, is the biggest and falls under the category of class III towns with a population range between 20,000-49,999. It has a population of 30,604 persons. Bellampalli town with 29,101 persons and Adilabad town with a population of 20,970 come next in order and also fall under the category of class III towns. Three towns, viz., Nirmal town with a population of 19,896 persons Mancherial town with a population of 13,822 persons and Bhainsa town with a population of 12,346 persons come under the category of class IV towns in the population range of 10,000-19,999. The remaining four towns, viz., Chinnur town with a population of 9,645 persons, Mudhol town with a population of 7,560 persons, Kadam Damsite with a population of 6,235 persons, and Asifabad with a population of 6,190 persons fall under the category of class V towns in the population range 5,000-9,999. There are no towns with a population of less than 5,000 persons and falling under the category of class VI towns in this district.

Rural areas :

There are 1,721 villages in the rural areas in this district of which 1,543 villages are inhabited and 178 villages are uninhabited villages. Khanapur Independent Sub-Taluk contains the smallest number of 76 villages and Asifabad Taluk contains the largest number of 241 villages. Out of the 1,543 inhabited villages, 462 villages belong to the population size of less than 200 persons and 478 villages belong to the population size of 200-499 persons. These two sizes of villages together account for 60.92% of the total inhabited villages. 358 villages or 23.20% of the total inhabited villages belong to the population size 500-999. 204 villages or 13.22% of the total inhabited villages belong to the population size of 1,000-1,999. 39 villages or 2.53% of the total inhabited villages belong to the population size of 2,000-4,999. Only two villages accounting for 0.13% of the total inhabited villages belong to the population size of 5,000-9,999. There are no villages in this district having a population of over 10,000 persons.

Occupied Residential Houses :

The total population of 1,009,292 persons in the district occupied 202,430 residential houses constituting 216,197 households. Thus on an average each household contains approximately five persons in Adilabad district. The average number of persons per Census house and per Census household in Adilabad district and in each of its taluks are given in the following statement.

STATEMENT III—2

District/Taluk	Number of Persons	
	Per Census House	Per Census Household
(1)	(2)	(3)
Adilabad District	4.99	4.67
Adilabad Taluk	5.01	4.84
Utnur Taluk	5.25	5.14
Asifabad Taluk	4.69	4.50
Sirpur Taluk	4.64	4.50
Chinnur Taluk	4.94	4.67
Lakshettipet Taluk	4.86	4.58
Khanapur I.S.T.	4.73	4.49
Boath Taluk	5.44	5.10
Nirmal Taluk	5.38	4.52
Mudhol Taluk	5.26	4.84

Density of population :

Adilabad district is the most thinly populated district in the State. The density of population of this district is 161 persons per square mile, the rural and urban figures being 138 and 2,845 persons respectively. The density of population in Utnur taluk is only 76 persons per square mile and is the lowest figure for any taluk in this district. Mudhol taluk has the highest density of 249 persons per square mile. All the other taluks have recorded a density of over 100 persons and below 249 persons. Among the towns Bellampalli town has the highest density of 10,247 persons per square mile. Kadam Damsite takes the next rank with a density of 9,447 persons per square mile. Chinnur town has the lowest density of 867 persons per square mile.

Sex Ratio :

Adilabad district has 981 females for every 1,000 males and this proportion called the sex ratio, ranges between 932 in Khanapur Independent Sub-Taluk and 1,038 in Mudhol taluk. In the rural areas of the district there are 994 females for every 1,000 males and the corresponding figure for the urban areas is 911 females. The sex ratio is generally not even among the taluks. The sex ratio in the total, rural and urban areas of each taluk in the district is given below :

STATEMENT III—3

District, Taluk (1)	Total (2)	Rural (3)	Urban (4)
Adilabad District	**981**	**994**	**911**
Adilabad Taluk	1,023	1,040	946
Utnur Taluk	962	962	..
Asifabad Taluk	958	983	902
Sirpur Taluk	940	975	829
Chinnur Taluk	963	958	1,001
Lakshettipet Taluk	948	956	891
Khanapur I.S.T.	932	963	721
Boath Taluk	990	990	..
Nirmal Taluk	1,032	1,044	962
Mudhol Taluk	1,038	1,043	1,017

Age Groups :

The following statement indicates the proportion of persons, males and females in different age-groups in Adilabad district.

STATEMENT III—4

Age Group	Percentage of population (Persons, Males and Females) in different age groups		
	Persons	Males	Females
(1)	(2)	(3)	(4)
0–4	14.88	14.49	15 27
5–9	15.26	15 11	15 40
10–14	10.74	11.34	10.14
15–19	7.62	7.29	7 95
20–24	8.34	7.63	9.06
25–29	9.25	9.46	9 04
30–34	7.66	7.92	7.40
35–39	5 76	6.28	5.23
40–44	5.62	5.88	5.36
45–49	3.68	3.95	3.41
50–54	4.43	4.39	4.47
55–59	1.72	1.80	1 63
60–64	2.69	2.48	2.91
65–69	0.71	0.67	0.75
70 +	1 62	1.29	1.96
Age not stated	0.02	0.02	0.02
All ages	**100.00**	**100.00**	**100.00**

Infants and children in the age group 0-14 years form 40.88% of the total population of the district while old people aged 55 years and over account for 6.74% of the total population. The population in the working age group of 15-55 years constitutes the majority (52.36%) of the total population. The population under the category 'Age not stated' represents those persons who could not or did not furnish the age particulars to the Census enumerators and the population in this category accounts for 0.02% of the total population.

The proportion of males in the age group 0-14 years is slightly higher than the corresponding proportion for females. In the working age group of 15-54 years, however, the proportion of males is slightly higher than that of females. However, in the higher age group from 55 years and above taken together the proportion of females is higher than that of males. The proportion of the persons in the different broad age groups in the rural and urban areas of the district is given in the statement below.

STATEMENT III—5

Age group	Percentage of population in different age groups	
	Rural	Urban
(1)	(2)	(3)
0–14	41.04	39.99
15–54	52.00	54.37
55 +	6.94	5.61
Age not stated	0.02	0.03
All ages	**100.00**	**100.00**

Marital Status :

Out of the total population of 1,009,292 persons in the district, 426,670 persons are never married and 582,620 persons are married at one time or the other and include those who are widowed, divorced or separated. The number of widowed, divorced or separated persons is 94,907. There are two persons in the district whose marital status is not specified. Thus 57.73% of the population were married some time or the other and 9.40% of the total population are either widowed or divorced or separated.

Child marriages also seem to be prevalent to some extent in this district specially in the case of females and in the rural areas. About 45.43% of the females in the age group 10-14 years are married but the corresponding proportion in the case of males is only 12.54%. Among 1,000 married males there are roughly 27 persons in the age group 10-14 years while among females 73 persons out of every 1,000 married females belong to this age group. It may be noted in this connection that children below nine years were treated as never married for Census purposes. In the higher age groups naturally fewer women remain unmarried. The following statement indicates the proportion of never married persons in the total population and in the population aged 10-14 years in the rural areas of Adilabad district and in each of its taluks.

STATEMENT III—6

District Taluk	Percentage of never married persons to total population in the rural areas	Percentage of never married persons in the age group 10–14 years to the total population in the age group 10–14 in the rural areas
(1)	(2)	(3)
Adilabad District	**41.59**	**69.23**
Adilabad Taluk	41.30	78.84
Utnur Taluk	48.17	80.07
Asifabad Taluk	43.14	74.23
Sirpur Taluk	43.51	82 08
Chinnur Taluk	43.15	77 78
Lakshettipet Taluk	42.51	66.11
Khanapur I. S. T.	42 09	64 04
Boath Taluk	29.60	72.74
Nirmal Taluk	34.88	43.83
Mudhol Taluk	37.86	62.36

In all the taluks of Adilabad district, except in Boath and Nirmal taluks there is generally not much variation in the proportion of persons who are never married to the total population. The proportion is lowest in Boath taluk and highest in Utnur Taluk. Among the persons in the age group 10-14 years the proportion of never married persons is lowest in Nirmal taluk and highest in Sirpur taluk. This reveals that child marriages are more prevalent in Nirmal taluk and relatively less prevalent in Sirpur taluk.

Literacy:

The proportion of literates in Adilabad district is very low; only 11.72% of its population are literates; in fact this is the lowest proportion of literates recorded by any district in the State. Among males the proportion is 18.76% and among females the corresponding proportion is 4.55% only. In the rural areas only 8.26% of the population are literates, the corresponding proportion being 14.10% among males and 2.39% among females. In the urban areas 30.59% are literates. Among the males in the urban areas 43.10% are literates but among females the corresponding proportion is 16.87% only. The following statement gives the percentage of literates in different age groups among persons, males and females in the rural and urban areas of Adilabad district.

STATEMENT III—7

It is seen from the above statement that the proportion of literates begins to decline from the age group 15-19 onwards both in respect of males and females. This would indicate that more children have started attending schools in recent years, while those in the higher age groups did not get themselves educated in their younger age either due to lack of educational facilities or on account of their disinclination to attend the school. It is also observed that the proportion of literates in the age group 10-14 years is higher than the corresponding proportion in the age group 5-9 among persons, males and females. The higher proportion of literates in the age group 10-14 years both among males and females in rural as well in urban areas seems to be mainly due to the opening of several Primary, Middle and Secondary schools during the First and Second Five Year Plans. The Adult literacy programmes taken up under the Five Year Plan schemes do not seem to have made conspicuous impact on the people as the relatively low proportion of literates in the higher age groups indicate.

Workers and Non-workers :

The entire population was divided broadly into two categories, viz., workers and non-workers at the 1961 Census. A person who was actually engaged in some productive work or in supervising or directing the operations thereof was treated as a

worker, irrespective of the fact whether he earned an income thereby or not. The concept of dependency adopted at the earlier Censuses was given up at this Census. In the case of regular employment, in any trade, profession, service, business or commerce, a person was treated as a worker, if he was employed during any of the fifteen days preceding the day on which he was enumerated. A person who had regular employment, but was temporarily absent from work due to illness or other causes was also treated as worker. Persons under training as apprentices with or without stipend or wages were regarded as workers. Under-trial prisoners, temporary inmates of hospitals, or other similar institution were treated as workers if they had regular work before they were apprehended or joined the institutions. Convicts in jails or long term inmates of penal, charitable or mental institutions, however, were not treated as workers. In the case of seasonal work like cultivation, livestock rearing, dairying, household industry, a person was treated as a worker, if he had regular work for more than one hour a day throughout the greater part of the working season. Family workers, i. e., those who do not directly receive any income but attend to work along with other members of the family are treated as workers. All the persons who did not satisfy these criteria laid down for the workers like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, full-time students and infants who did not participate in any productive work were considered non-workers, even, if they were earning some income otherwise. An adult woman who was engaged only in household duties and did no other productive work was treated as a non-worker. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale or wages or minding cattle or selling firewood or making and selling cowdung cakes, or grass or in domestic services for wages for others or any such productive work, she was treated as a worker.

On the basis of these criteria 54.1% of the population of Adilabad district constitute workers while the remaining 45.9% form the non-working population. The following statement shows the distribution of 1,000 persons according to the nine Industrial Categories of workers and non-workers in total, rural, and urban areas of Andhra Pradesh and Adilabad district.

STATEMENT III—8

State/District	Total/Rural/Urban	Total Population	Total Workers	Workers in Industrial Category									Non-Workers
				I	II	III	IV	V	VI	VII	VIII	IX	X
(1)		(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)

	U	1000	360	29	31	10	43	45	14	53	28	107	640
Adilabad District	T	1000	541	247	136	24	41	18	5	15	3	52	459
	R	1000	569	285	156	19	44	8	3	9	1	44	431
	U	1000	387	41	27	51	26	72	20	42	13	95	613

(I—Cultivation; II—Agricultural Labour; III—Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities; IV—Household Industry; V—Manufacturing other than Household Industry; VI—Construction; VII—Trade and Commerce; VIII—Transport, Storage and Communications; IX—Other Services)

It is seen that Agricultural workers (Category I and II) constitute 38.3% of the total population in Adilabad district, 44.1% in rural areas and 6.8% in urban areas as against the corresponding proportions of 35.6%, 41.9% and 6% respectively for the State. Agricultural workers form 70.9% of the total workers in Adilabad district and 68.7% in the State. In the rural areas this proportion is as high as 77.5% against the corresponding figure of 75.8% for the State. Workers in other services - Category IX which includes Public services, under the State and Central Governments, educational and scientific services, medical and health services, religious and welfare services, local and business services, personal services, etc., constitute 5.2% of the total population in Adilabad district and form the next important sector. Their proportion is naturally higher in urban areas, the figure being 9.5% as against the corresponding figure of 4.4% for the rural areas. Household Industry takes the third place providing employment to 4.1% of the population, the corresponding figure for the State being 5.1%. The proportion of workers in Household Industry is higher in the rural areas than in the urban areas of this district, the proportions being 4.4% and 2.6% respectively. This is presumably due to lack of

development of large scale industries in the urban areas to attract the artisans and craftsmen from the rural areas. Workers engaged in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting, Plantations, Orchards and Allied activities account for 2.4% of the total population and constitute an important sector of the working population. This is due to the large number of forests and mines in this district. The remaining Industrial Categories account for less than 2% each of the total population.

The following statement shows the distribution of 1,000 males and 1,000 females according to Industrial Categories of Workers and Non-workers for the total, rural and urban areas of the State and Adilabad district and for the rural areas of each taluk of Adilabad district.

STATEMENT III—9

Male Agricultural workers constitute 46.4% of the total male population in the rural areas of Adilabad district. Among the taluks the proportion varies from 52.4% in Utnur Taluk to 32.7% in Asifabad Taluk. The proportion in all other taluks is above 35% and below 50%. The lowest proportion in Asifabad taluk is obviously due to the extensive mining in Bellampalli and Tandur collieries.

15.2% of the total male population in the rural areas of Asifabad taluk are recorded under the industrial category III, i.e., Mining, quarrying, livestock, etc., followed by Lakshettipet taluk with 5.5%. The proportions of male workers engaged in Household Industry and in 'Other Services' are relatively high. The highest proportion of male workers in Household Industry is recorded in Lakshettipet taluk (8.2%) and Nirmal taluk comes next in order with a proportion of 7.3%. It is closely followed by Chinnur Taluk with a proportion of 7.0%. Sirpur Taluk, due to the existence of the paper mill and Sirsilk factory recorded the highest proportion (12.0%) of male workers under Category V - Manufacturing other than Household Industry. On account of the construction work on Kadam dam, Khanapur Independent Sub-Taluk has recorded the highest proportion (5.3%) of male workers under Category VI - Construction. The proportion of male workers under Category VIII - Trade and Commerce in the various taluks ranges from 1% to 4%. Lakshettipet taluk has recorded the highest proportion (8.5%) of male workers under Category IX - Other Services and it is closely followed by Khanapur Independent Sub-Taluk with a proportion of 8.3%. The proportion of male workers under Category VIII - Transport and Communications in all the taluks is insignificant.

Among female workers in the district many are Agricultural workers. The total female workers account for 44.8% of the total female population and 36.6% of the female population are Agricultural workers. Among Cultivators (Category I) the proportion of male workers is higher than that of the female workers while among Agricultural labourers (Category II) the proportion of female workers exceeds the proportion of male workers in all the taluks. This is generally true of all the districts in the State obviously because quite a large number of female workers participate in agricultural operations such as sowing, transplanting, weeding and harvesting. Their proportion is insignificant in other industrial categories. Their proportion under Category IX - Other Services is 4.0% only while in Household Industry it is even less, the figure being 2.1%. In Nirmal taluk 5.3% of the female population are engaged in Household Industry (Category IV) and 2.4% in Manufacturing other than Household Industry (Category V). In Khanapur Independent Sub-Taluk 2.6% of the female population are engaged in construction (Category VI). The proportion of female workers engaged under Category IX - Other Services is highest (6.1%) in Lakshettipet taluk and Khanapur Independent Sub-taluk. Nirmal taluk takes the next place with 4.7% of the female population engaged in Other Services (Category IX).

Apart from the considerable number of cultivators and agricultural labourers in this district about 16,300 persons are engaged in the production and rearing of livestock mainly for milk and animal power or in rearing of sheep and production of wool. Mining and Quarrying provide employment to 10,500 persons. As many as 9,500 persons are employed in mining of coal in this district. 6,600 persons are engaged in Handloom Industry; 6,200 persons in manufacture of wood and wooden products, 5,400 persons in manufacture of paper and paper products and 5,200 persons in making of leather and leather products. About 3,200 persons are employed in construction of buildings, etc., and 1,500 persons are engaged in construction and maintenance of waterways, reservoirs, bunds, etc. Nearly 1,700 persons are gainfully employed in wholesale trade while as many as 12,400 persons are employed in retail trade. About 30,000 persons are employed in services. More than 50% of these represent those engaged in personal services such as domestic servants, cooks, launderers, barbers, etc. Those engaged in the administrative departments and offices of the State and Central Governments constitute 25% while teachers, lecturers and others in educational services form the next numerous class representing about 9% of the total number of workers in services. The proportion of workers in Medical and Health services is only 3.0% reflecting the inadequate medical and health facilities in the district.

Apart from the Industrial Classification discussed above particulars relating to Occupational Classification of persons at work other than at Cultivation were also collected and tabulated at the 1961 Census. The Occupational Classification is quite distinct from the Industrial Classification. Occupational Classification relates to the actual work a person does irrespective of the industry in which he is engaged, e.g., a person who is a clerical worker in occupational classification may be connected with industry, trade or service. Conversely in the same industrial category there may be persons following different occupations such as technicians, managerial workers, clerical workers, etc. The occupational particulars are given in Table B-V printed in Part C - Statistical Tables in this book. It may be, however, mentioned here that according to this Table there are 432 engineers and surveyors of whom 256 are civil engineers, 52 are mechanical engineers and 51 are surveyors. There are 300 physicians, surgeons

and dentists in this district of whom 51 are allopathic physicians and surgeons and 177 are ayurvedic physicians. Others represent the unqualified medical practitioners. There are in all 69 nurses and 162 midwives and health visitors. According to the 1961 Census count there are 2,414 teachers in this district of whom 274 are secondary school teachers, 735 are middle and primary school teachers and 1,384 are other teachers.

The following statement shows the broad age distribution of 1,000 Workers of each sex under different Industrial Categories in the total, rural and urban areas of Adilabad district.

STATEMENT III—10

It is observed that 50.6% of the workers are concentrated in the age group 15-34 years, the corresponding figure for the urban areas being slightly higher (55.1%). The proportion of female workers in this group is a little higher than that of male workers in this district as a whole and in the rural portion of the district. But in the urban areas the proportion of female workers in this Age group is less than that of male workers. The higher proportion of female workers in this age group in the rural areas is due to the preponderance of the female workers among all the Categories except in Categories II

and VII. The age group 35-59 years accounts for 33.4% of the total workers. Workers in the age group 0-14 years form 11.3% of the total workers and are found mostly in livestock, forestry, fishing, hunting, etc., in household industry and among agricultural labourers. However, the proportion of workers in this age group is relatively low in the urban areas, the proportion being 5.6% as against the corresponding proportion of 12.0% in the rural areas. In the urban areas the workers in the age groups 15-34, and 35-59 years together account for 90.5% among workers as against 83.2% in the rural areas. There is, however, no significant variation in the proportion of workers in these two age groups between rural and urban areas in the different industrial categories. The same phenomenon is observed in the case of the age group 60 years and above also. Though the concentration of workers in particular types of industries, services, etc., in the rural and urban areas generally results in some significant variation in the proportion of workers in different industrial categories in the rural and urban areas, such a perceptible difference between rural and urban areas is not observed in Adilabad district.

Of the 5.46 lakhs of workers in Adilabad district nearly 4.82 lakhs are illiterates; in the rural areas the proportion is much higher being about 91.54%. The proportion of illiterates is generally high in all industrial categories except in Trade and Commerce, Transport, Storage and Communications and Other Services where the proportion is relatively low though it can by no means be said that the proportion of illiterates is insignificant even in these categories. The proportion of illiterates among female workers is uniformly very high in all industrial categories in the rural areas, the highest proportion being 100.00% in Category VI–Construction and the lowest being 94.7% in Category VIII – Transport, Storage and Communications. In the case of male workers the proportion of illiterates ranges from 35.6% in Category VII–Trade and Commerce to 95.6% in Category II – Agricultural Labour. Mere literates without any educational qualifications constitute 8.6% of the total male workers in rural areas while the corresponding figure for female workers is only 0.4%. Male workers who have passed Primary or Junior Basic level of examination form 5.2% while the figure for female workers is only 0.2%. Male workers in the rural areas who possess the Matriculation or higher educational qualification form only 0.7% of the total male workers while in the case of female workers this proportion is very negligible.

Even in the urban areas 62.79% of the workers are illiterates, the proportion among male and female workers being 53.2% and 96.0% respectively. As in the case of rural areas the proportion of illiterates among female workers is very high in all industrial categories. The proportion ranges from 91.6% in Category IV–Household Industry to 99.8% in CategoryVI -Construction. Among male workers the proportion varies from 30.9% in Category VII – Trade and Commerce to 91.1% in Category II – Agricultural Labour. The proportion of mere literates who have no educational qualification is 23.3% for male workers and 2.0% for female workers. Those having Primary and Junior Basic level of education constitute 14.2% of the total male workers and about 1.2% of the total female workers in the urban areas. The proportion of Matriculates is only 7.1% among male workers and 0.7% among female workers. Thus the proportion of literates and those having Primary or Junior Basic or Matriculation standard of education is considerably higher both among male and female workers in the urban areas compared to the rural areas. However, the proportion of workers having higher technical or non-technical qualifications is not very significant even in the urban areas. University degree or post-graduate degree holders constitute 1.3% of male workers while in the case of females the figure is 0.1%. Male workers having a technical degree or diploma form 0.5% of the total male workers in the urban areas and the proportion is negligible for females.

Non–Workers :

The total non-working population of Adilabad district is 4.64 lakhs persons consisting of 1.88 lakhs males and 2.76 lakhs females. The non-workers constitute 45.9 % of the total population. 36.8% among males and 55.2% among females in this district are non-workers. The proportion of non-workers in the urban areas is naturally higher than in the rural areas. The non-workers constitute 61.3%, 42.7% and 81.8% among total persons, males and females in the urban areas of Adilabad district compared to the corresponding figures of 43.1%, 35.7% and 50.5% respectively in the rural areas of the district. The following statement shows the distribution of 1,000 males and 1,000 females among the non-working population according to the eight categories of non-workers based on the type of activities.

The category of dependants, infants and disabled constitutes the largest proportion both among males and females. Those engaged in household duties represent the next largest number of female Non-Workers. In urban areas their proportion is greater than that of dependants, infants and disabled. Among males the category of full time students occupies the second place. The last two categories which together represent the total unemployed in the district account for 0.02% among the male Non-Workers in the rural areas and 0.15% in the urban areas. Among the female Non-Workers the proportion of unemployed is negligible both in the rural and the urban areas mainly because they do not generally seek any work apart from household duties.

In terms of Age groups 91.8% of the male Non-Workers are aged 0-14 years and represent infants or children attending school. The proportion of female Non-Workers in this age group is 64.8%. The lower proportion among females is due to the fact that quite a number of girls aged over 8 years attend to some work connected with the household agriculture or industry, particularly in rural areas. Male Non-Workers in the age groups 15–34, 35–59, 60 + form 3.9%, 1.6% and 2.7% respectively. The corresponding proportions for female Non-Workers are 17.5% 10.4% and 7.3% respectively.

Among the male Non-Workers in rural areas 86.6% are illiterates as against the corresponding figure of 95.9% for female Non-Workers. In urban areas, however, the proportion of illiterates among male Non-Workers is 61.9% only while the corresponding figure for females is 80.3%. Mere literates without any educational standards constitute 5.1% and 1.9% among male and female Non-Workers respectively in the rural areas. The corresponding figures for the urban areas are 23.6% and 14.1%. In the rural areas 8.1% of the male Non-Workers and 2.2% of the female Non-Workers have Primary or Junior Basic level of education. The corresponding figures for the urban areas are higher being 11.7% and 5.0% respectively. In the rural areas Non-Workers possessing Matriculation or higher qualification form only 0.2% among males while in the case of females the proportion is negligible. In the urban areas, however, 2.8% among male Non-Workers and 0.6% among female Non-Workers possess Matriculation or higher qualification.

Household Schedule :

A special feature of the 1961 Census was the introduction of Household Schedule in addition to the individual enumeration slip. This schedule is primarily intended to collect data on cultivation and household industry of the household, i. e., as one identifiable socio-economic unit distinct from the individual on which population Census is generally based. It is well known that cultivation or household industry involves more of household effort than individual labour or supervision and therefore, the data based on the household as unit of measurement are very useful. The Household Economic Tables prepared on the basis of a 20% sample of the Household Schedules are published in a separate volume "Census of India - Vol. II - Andhra Pradesh - Part III - Household Economic Tables". However, one of these tables, viz., "Sample Households engaged in Cultivation classified by interest in land and size of land cultivated, in total, rural and urban areas of Adilabad district", is given below because the table contains very useful information about size of holdings and will also give a rough idea about the extent of tenancy that is still prevalent.

STATEMENT III—12

Migration :

Of the 10.09 lakhs of persons that constitute the actual population of Adilabad district 6.24 lakhs of persons or 61.84% are born in the place of enumeration. 2.31 lakhs of persons or about 22.89% of the district's population are born in the district itself but not at the place of enumeration. Only 0.99 lakhs of persons or about 9.81% of the total population are born in other districts of the State. Thus 9.54 lakhs of persons or about 94.54% of the total population are born within the State. Persons born in other States of India number only 44,545 persons forming nearly 4.46% of the district population. The number of persons born outside India is only 226 forming a very insignificant proportion. 158 of these foreigners are from Pakistan, 29 from Nepal and 10 from Burma. The number of persons from other countries is small and negligible. The birth place of 267 persons could not be classified either because they did not furnish the particulars to the enumerators or due to incomplete particulars. It is significant to note that among those (i) born in the district outside the place of enumeration, (ii) born in other districts of the State and (iii) born in other States of India beyond the State of enumeration the females far outnumber the males. This indicates that a large number of females from outside the place of enumeration, from other districts and other States have moved in through marriage alliances. Among the other districts of the State Karimnagar, Nizamabad, Warangal, Hyderabad have sent considerable number of females to Adilabad district. Out of 99,749 persons immigrated to this district from

other districts, Karimnagar district has contributed the largest number of 63,088 persons (28,484 males and 34,604 females). Nizamabad district takes the second place with a contribution of 10,173 migrants (4,229 males, 5,944 females). Warangal and Hyderabad districts have each contributed 7,392 and 7,248 persons respectively. The migrants from other districts are not very significant. Out of 44,545 persons immigrated from other States, Maharashtra State has contributed the largest number of 35,438 persons (13,744 males and 21,694 females). The immigrants from other States are not considerable.

Against an immigration of 99,749 persons from other districts of the State 35,754 persons have emigrated from Adilabad district to other districts of the State. Nizamabad district has taken the largest number of emigrants (14,047 persons) from Adilabad district. Karimnagar district takes the second place with 12,646 emigrants from Adilabad district. Hyderabad district with 4,293 emigrants and Warangal with 2,640 emigrants take the third and fourth places. The emigration from Adilabad to other districts is not very significant.

The following statements show the number of persons born in other districts of the State and enumerated in Adilabad district (immigrants) and those born in Adilabad district and enumerated in other districts (emigrants).

T : Total, R : Rural, U : Urban, UC : Unclassifiable

Religion :

In Adilabad district, as in other districts of the State, Hindus form the largest religious group. Muslims and Christians take the second and third places respectively. The largest number of Buddhists in the State is found in this district and this religious group takes the fourth place among the religions in the district. Jains and Sikhs are found only in small number in this district. The following statement shows the numerical strength of each of the important religious groups in this district and their percentage to the total population.

STATEMENT III—15

Name of the religion (1)	Number of persons (2)	Percentage to total population of the district (3)
Hindu	909,740	90.1
Muslim	82,056	8.1
Christian	11,148	1.1
Buddhist	5,754	0.6
Sikh	507	0.1
Jain	85	N
Others	2	N

Mother tongue :

The important languages spoken as mother tongue in this district are Telugu, Marathi, Urdu, Gondi and Lambadi. Telugu is spoken by the largest number of people in this district. The total number of persons speaking Telugu as mother tongue in Adilabad district is 657,877 persons accounting for 65.2% of the total population of 1,009,292 persons. Marathi language takes the second place. The number of persons speaking Marathi as mother tongue in this district is 131,780 persons and account for 13.1% of the district population. Among other important languages Urdu is spoken as mother tongue by 80,947 persons or 8.0% of the district population. Gondi is returned as mother tongue by 72,634 persons or 7.2% of the district population and Lambadi by 14,835 persons or 1.5% of the district population. Banjari, Hindi and Kolami are spoken by about 7,000 persons each. The number of persons speaking other languages as mother tongue is not considerable.

Scheduled castes and Scheduled tribes
Scheduled Castes :

The total Scheduled Castes population in Adilabad district according to the 1961 Census count is 187,124 persons accounting for 18.54% of the district population. In the rural areas they account for 19.25% of the rural population and in the urban areas their proportion is 14.66% of the urban population. Among the Scheduled Castes Madiga caste is the largest in numerical strength with 63,499 persons. Mala caste comes next in order with 55,286 persons. Mala Sale (Netkani) takes the third place with 31,691 persons. Manne caste comes next with 22,687 persons and it is followed by Mahar caste with 5,800 persons and Mang caste with 3,756 persons. All other Scheduled Castes are not significant numerically and account for less than 1,000 persons each. The Scheduled Castes are still very backward in literacy. In the rural areas 94.87% among males and 99.69% among females of the Scheduled Castes population are illiterate. Among males of the Scheduled Castes 3.32% are literates without educational level, 1.78% have Primary or Junior Basic level of education and 0.03% have Matriculation or higher qualification. Among females 0.19% are literates without educational level and 0.12% with Primary or Junior Basic level. There are no females among Scheduled Castes with Matriculation and above. In urban areas among males of the Scheduled Castes 80.70% are illiterates while among females the proportion of illiterates is still higher, the figure being 97.17%. Literates without educational levels account for 14.90% among Scheduled Caste males and 2.31% among Scheduled Caste females. Persons with Primary or Junior Basic education constitute 4.09% of the Scheduled Caste males while the corresponding figure for females is 0.47%. The proportion of persons with Matriculation or Higher Secondary education is very low, the figures being 0.3% among males and 0.05% among females. University degree holders among Scheduled castes males form only 0.01%. There is not even one female with educational qualification higher than Matriculation. A large majority of the Scheduled Castes are found among agricultural labourers and cultivators. A considerable number of persons are also engaged in mining, tanning and other services.

Scheduled Tribes :

The total Scheduled Tribes population in Adilabad district as per the 1961 Census count is 131,971 persons and accounts for 13.08% of the district population. In the rural areas they account for 15.42% of the rural population. Their number in urban areas is insignificant and accounts for 0.31% only of the urban population. Out of the 131,971 Scheduled Tribes persons in this district, Gond tribe accounts for the largest number of 93,334 persons. Kolam tribe with 16,459 persons takes the second place. Koya tribe with 10,815 persons and Pardhan tribe with 9,344 persons take the third and fourth places respectively. Andh tribe accounts

for 1,468 persons. The other tribes, viz,. Bhil, Chenchu and Thoti are not significant numerically. The Scheduled Tribes are also educationally very backward. In the rural areas 95.38% among males and 99.77% among females of the Scheduled Tribes are illiterate. Among the males of the Scheduled Tribes 2.79% are literates without educational level, 1.82% have Primary or Junior Basic level of education and only 0.01% have Matriculation and above qualification. Among females 0.12% are literates without educational level and 0.11% have Primary or Junior Basic level of education. There are no females among Scheduled Tribes in rural areas with Matriculation or higher qualification. In the urban areas 60.13% of the males and 96.43% of the females of the Scheduled Tribes population in this district are illiterate. Literates without educational level account for 8.45% among the males while the corresponding figure among the females is 0.51%. Persons having Primary or Junior Basic education among males constitute 31.08% while among females the figure is 3.06%. Matriculates account for 0.34% of the males of the Scheduled Tribes. There are no males or females among the Scheduled Tribes who possess higher education above Matriculation. As in the case of Scheduled Castes a very large proportion of workers among Scheduled Tribes are also found among Cultivators and Agricultural Labourers. A considerable number of persons are engaged in Mining and Other Services.

Further details about the Scheduled Castes and Scheduled Tribes in the distirct are given in the Special Tables for Scheduled Castes and Scheduled Tribes under SCT Series in Part C – Statistical Tables of this Handbook.

Variation in Population During 1901–1961

The following statement shows the absolute change and the percentage variation from decade to decade in the population of Adilabad district and each of its taluks during 1901–1961.

	1951	92,645	10,662	13.01	44,525	48,120
	1961	100,497	7,852	8.48	49,312	51,185

It is seen that the entire Adilabad district has shown a growth rate of 21.37% during the decade 1951–61 which is in excess of the State's average of 15.65%. All the taluks of this district have shown increase in population during the decade 1951–61. The taluks of Utnur, Asifabad, Sirpur, Lakshettipet, Khanapur and Boath have shown a very rapid growth of population which is an indication of the developments taking place in this district. During the decade 1951–61 Utnur has shown the highest increase of 60.13% in population. Asifabad taluk with a growth rate of 29.62% takes the second place. The taluks that come next in order are Sirpur (29.36%), Khanapur (28.46%), Lakshettipet (24.88%) and Boath (22.00%). The fast growth of population in the industrial towns of Kagaznagar, Tandur, Bellampalli, Mancheriyal and the damsite township of Kadam have helped a fairly high rate of growth of population in the taluks of Sirpur, Asifabad, Lakshettipet taluks and Khanapur Independent Sub-Taluk. The high growth rate of 60.15% recorded in the remote tribal taluk of Utnur may be mostly due to the intensive development under the Tribal Multi-purpose Project. Boath too has shown a fairly high growth rate apparently on account of greater development of the area. The remaining taluks, viz., Adilabad, Chinnur, Nirmal and Mudhol have recorded a growth rate of less than 20% during the decade 1951–61. Mudhol taluk has shown the lowest growth rate of 8.48%. This area was carved out of Nanded district, now in Maharashtra State and tagged on to Adilabad district as a result of the Reorganisation of States. This has apparently affected the further growth of population of this border taluk. Chinnur, a very interior taluk covered by thick forests shows no signs of development and the growth rate of population in the decade 1951–61 is only 11.24%. Adilabad and Nirmal taluks recorded nearly normal growth rates of 15.47% and 13.49% respectively which are slightly below the State's average .These

two taluks have no irrigational facilities and no major industries except a cotton mill at Adilabad and hence no faster growth could have possibly been expected. The noted handicraft of Nirmal toy manufacture sustains only a few families in Nirmal town and hence cannot help to bring much prosperity to the larger section of the people.

Housing :

During the 1951 Census an attempt was made for the first time in the history of Indian Census to collect Housing Statistics, the lack of which was keenly felt, on an uniform basis throughout the country. Not only residential houses but also houses used for non-residential purposes such as workshops, schools, hospitals, hotels, restaurants were covered under the scheme providing a complete inventory of all types of houses. Data on the different uses to which occupied houses were put to, tenure status, wall and roof material, number of rooms and average daily employment along with particulars of products made or serviced in the case of workshops and factories were collected. These data are analysed and discussed in detail in Part IV–A – Report on Housing and Establishments of the State. Some of the important features are briefly discussed here.

There are 281,618 Census houses in Adilabad district of which 86.49% are in rural areas. Not all of these houses are occupied. 6,868 houses were reported as vacant at the time of Housclisting. Thus 97.6% of the houses were occupied. 2.4% of the houses were vacant. The proportion of the vacant houses in Chinnur, Nirmal and Mudhol taluks is higher than the district average of 2.4%. The highest proportion of vacant houses (6.4%) is recorded in Nirmal taluk.

Dwellings :

Houses used wholly or partly for dwelling purposes constitute about 70.9% of the total number of houses in the district. Houses used purely for dwelling purposes account for 69.9% of the total houses while shop-cum-dwellings form 0.2% while workshop-cum-dwellings form 0.8% of the total houses. Shop-cum-dwellings and workshop-cum-dwellings are naturally more common in the rural areas because petty traders, artisans and craftsmen engaged in traditional household industries like weaving, carpentry, pottery, goldsmithy and cobbling cannot afford to maintain separate and distinct establishments for trade or industry, away from the dwelling houses, nor do the scale and size of the trade or industry, warrant such maintenance. The proportion of shop-cum-dwellings varies from 0.1% in Adilabad, Utnur, Sirpur and Nirmal taluks to 0.4% in Khanapur Independent Sub-Taluk. The proportion of workshop-cum-dwellings ranges from 0.2% in Lakshettipet and Khanapur Independent Sub-Taluk to 2.4% in Adilabad taluk. Utnur taluk has a negligible proportion of such houses.

Hotels, Sarais, Dharmasalas, etc. :

There are only 269 houses belonging to this category in the district as a whole accounting for 0.1% of the total number of houses. The proportion is naturally higher in the urban areas of the district. The proportion of this type of houses is uniformly insignificant in all the taluks of the district.

Shops excluding eating houses :

2,321 houses are used as shops and constitute only 0.8% of the total number of houses in the district. Adilabad, Boath, Nirmal and Mudhol have recorded a higher proportion of shops than the district average of 0.8% showing that these three taluks are relatively important commercially. Chinnur has recorded the lowest proportion of 0.3%.

Business houses and offices :

There are 632 houses used as business houses and offices and their proportion is 0.2% of all the houses in the district. The proportion is highest (0.5%) in Utnur taluk and lowest(0.1%) in Sirpur and Chinnur taluks.

Factories, Workshops and Worksheds :

There are in all 1,352 houses—1,017 houses in rural areas and 335 houses in urban areas – which fall in this category. Adilabad district is industrially very backward and there are no large number of major industries. The Paper Mill at Sirpur, Cement Factory at Macheriyal and a few saw mills are the only important industries which provide considerable employment.

Schools and other educational institutions :

As already mentioned the percentage of literacy in Adilabad district is very low and it is, therefore, not strange that the number of schools and educational institutions in this district is also quite small. There are only 575 houses used as schools in this district, of which 487 are found in the rural areas and 88 in the urban areas. The proportion of houses

used as schools is 0.2% of the total number of houses in the district. Among taluks the highest proportion of 0.4% is recorded in Boath taluk.

Restaurants, sweetmeat shops and eating places :

There are 338 Census houses belonging to this category of which 199 are in rural areas and 139 are in urban areas. In this district as a whole the proportion of such houses is only 0.1%. The urban areas of Asifabad, Sirpur and Lakshettipet taluks have a relatively larger number of such houses.

Places of entertainment & community gatherings, etc. :

There are 2,293 Census houses belonging to this category, constituting 0.8% of the total number of houses. As many as 2,038 of these houses are found in rural areas mainly because temples and other places of workshops are included in this category of houses. Utnur, Khanapur, Boath, Nirmal and Mudhol taluks have recorded a higher proportion of houses in this category compared to the other taluks.

Public health and medical institutions, etc. :

The proportion of houses under this category is almost insignificant in all the taluks of the district. There are only 84 houses, 51 in rural areas and 33 in urban areas falling under this category in this district. This shows the inadequacy of the medical institutions and facilities in the district.

Others :

The proportion of houses under this category which includes cattle sheds, garages, engine rooms, etc., is 23.9% of the total number of houses in the district. This proportion is naturally higher in the rural areas in view of the large number of cattle sheds that are common. The proportion of houses under this category varies from 14.8% in Chinnur to 34.0% in Utnur taluk. The proportion is more than 20% in most of the taluks.

Proportion of owned and rented houses :

Generally most of the dwellings and other types of houses in the rural areas are owned. 98% of the houses used purely as dwellings in the rural areas of the district are owned; while 85% of the shop-cum-dwellings and 97% of the workshop-cum-dwellings are also owned. In the urban areas, however, the proportion of owned houses under these three categories is naturally lower, the figures being 69%, 57% and 80% respectively. Except Asifabad and Sirpur taluks all the other taluks have recorded a fairly high proportion of owned houses. In the urban areas of Adilabad district, Asifabad and Sirpur taluks which are relatively more urbanised and industrially somewhat developed have recorded the lowest proportion of owned dwellings. Utnur and Boath taluks have no urban units. Among the other taluks having urban units, Chinnur taluk has the highest proportion (85.0%) of owned dwellings which are wholly or partly used as such. The taluks next in order having a higher proportion of owned houses, used wholly or partly as dwellings are Nirmal, Mudhol, Lakshettipet and Asifabad.

Wall and roof material of houses :

The distribution of 1,000 households living in Census houses used wholly or partly as dwellings according to predominant wall material in the rural and urban areas of the district is given below.

STATEMENT III—17

Rural/ Urban	Wall material	Number of houses using wall material				
		Grass, leaves, etc.	Mud	Stone	Bricks	Others
(1)	(2)	(3)	(4)	(5)	(6)	(7)
		ADILABAD DISTRICT				
Rural	1,000	464	411	24	86	15
Urban	1,000	282	380	5	311	22

Grass, leaves, etc., are predominantly used as wall materials in the rural areas while in the urban areas mud, bricks, grass and leaves, etc., are the main and important wall materials. In rural areas houses having grass, leaves, etc., as wall material are the most numerous and account for 46.4% of the total houses. Mud is the next important wall material and houses with mud walls account for 41.1% of the total number of houses. Houses with brick walls account for 8.6% while those with stone account for 2.4% only. In the urban areas, however, houses with mud walls account for the largest proportion, the figure being 38.0%. Brick is the next important material used for walls. Houses with brick walls account for 31.1% while houses with grass, leaves, etc., as wall material account for 28.2% of the houses in urban areas. Among the rural areas of the taluks, Asifabad taluk has the highest proportion of 80.9% of the houses with walls made of grass, leaves, etc., while Mudhol taluk has the lowest proportion (5.4%) of such houses. Houses with mud walls are very numerous in Mudhol taluk (83.2%)

and Nirmal taluk (83.0%) while Asifabad taluk has the lowest proportion of 11·3% of such houses. Houses with brick walls account for the highest proportion in Khanapur Independent Sub-Taluk (18.1%). Timber is used as predominant wall material for 23.4% of the houses in Khanapur Independent Sub-Taluk obviously because of its easy availability in the forests of the taluk. However, the urban areas of Khanapur Independent Sub-Taluk have recorded the highest proportion of 82.7% of the houses with grass, leaves etc., as predominant wall material. The highest proportion of houses with mud walls (96.4%) is recorded in the urban areas of Mudhol taluk. Nirmal and Chinnur taluks have also recorded high proportion of such houses, the proportions being 84.1% and 78.9% respectively. Bricks which are the next important wall material are largely used in Asifabad, Adilabad, Lakshettipet and Sirpur taluks. The proportion of houses with brick as predominant wall material is highest in the urban areas of Asifabad taluk, the proportion being 47.5%. in Adilabad taluk urban, such houses constitute 47.4% while Lakshettipet and Sirpur taluks have 37.8% and 31.5% of such houses. Houses with other materials for walls are insignificant in proportion.

Roof Material :

The following statement shows the distribution of 1,000 households living in Census houses used wholly or partly as dwellings accounting to the predominant roof material in the rural and urban areas of Adilabad district.

STATEMENT III—18

Rural/ Urban	All material	Number of houses using roof material: Grass, leaves, thatch, etc.	Tiles, Stone, shingle	Brick and lime	Concrete and stone slabs	C.I. zinc or other metal sheets	Other materials
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
ADILABAD DISTRICT							
Rural	1,000	581	366	1	1	49	2
Urban	1,000	358	382	56	49	121	34

In Adilabad district grass, leaves, reeds, thatch, wood or bamboo are used as predominant roof material for a large number of houses in the rural areas as well as in the urban areas. Houses having roofs made of these materials account for 58.1% of the total houses in rural areas and 35.8% in the urban areas. Tiles, slate, shingle are the next important materials used as roof material in this district. Houses with these roof materials account for 36.6% in the rural areas and 38.2% in the urban areas of the total houses. Corrugated iron, zinc, or other metal sheets are used as roof materials for 4.9% of the houses in the rural areas and 12.1% of the houses in the urban areas of the district. The proportion of houses with other roof material is insignificant in rural areas. In urban areas, however, 5.6% of the houses have brick and lime roofs, 4.9% have concrete and stone slab roof and 3.2% have roof of Asbestos Cement sheets. Among the rural areas of the taluks Utnur taluk has the highest proportion (88.8%) of houses with grass leaves, reeds, thatch, wood or bamboo as roof material. It is followed closely by Asifabad and Lakshettipet taluks with 88.2% and 82.9% of such houses. Mudhol taluk has the lowest proportion of such houses. Tiles, slate and shingle are used largely as roof material in Mudhol and Nirmal taluks. Mudhol taluk has recorded the highest proportion of 84.5% of such houses while Nirmal has recorded 83.7%. The proportion of houses with other materials for roof is insignificant. In urban areas of the taluks, Lakshettipet has the highest proportion (59.6%) of the houses with roof made of grass, leaves, reeds, thatch, wood or bamboo. Mudhol has the lowest proportion (2.6%) of such houses. Houses with tiles, slate or shingle constitute highest proportion in Mudhol taluk (92.9%). Chinnur taluk takes the next place with 86.0% of such houses. Sirpur taluk has the lowest proportion (2.4%) of such houses. Khanapur Independent Sub-Taluk has the highest proportion (61.9%) of houses with corrugated iron, zinc or other metal sheets as predominant roof material compared to other taluks. Asbestos cement sheets are used largely as roof material only in Asifabad taluk and where such houses account for 11.7% of the total number of houses in the taluk. Brick and lime are used as predominant roof material in Sirpur taluk where 15.7% of the houses belong to this type. Houses with concrete and stone slabs as roof material account for 20.1% of the total houses in Sirpur taluk. The proportion of the houses with other roof material in this district is insignificant.

Distribution of Households according to the number of Rooms occupied :

The following statment shows the distribution of 1,000 households according to the number of rooms occupied in each taluk of Adilabad district.

STATEMENT III—19

District Taluk	Number of households occupying				
	One room	Two rooms	Three rooms	Four rooms	Five rooms
(1)	(2)	(3)	(4)	(5)	(6)
ADILABAD DISTRICT	768	174	36	13	9
1. Adilabad Taluk	713	204	57	17	9
2. Utnur Taluk	819	169	9	2	1
3. Asifabad Taluk	799	183	8	8	2
4. Sirpur Taluk	772	190	24	4	10
5. Chinnur Taluk	884	90	19	5	2
6. Lakshettipet Taluk	809	129	35	12	15
7. Khanapur Ind. Sub-Taluk	538	320	65	53	24
8. Boath Taluk	833	103	43	11	10
9. Nirmal Taluk	712	204	59	16	9
10. Mudhol Taluk	755	174	46	15	10

About 76.8% of the households in the district are occupying only one room. Their proportion varies from 88.4% in Chinnur taluk to 53.8% in Khanapur Independent Sub-Taluk. Households occupying two rooms constitute 17.4% of the total number of households in this district. Their proportion varies from 32.0% in Khanapur Independent Sub-Taluk to 9.0% in Chinnur Taluk. Households occupying three rooms constitute 3.6% of the total number of houses in the district and their proportion varies from 6.5% in Khanapur Independent Sub-Taluk to 0.8% in Asifabad taluk. Households occupying four rooms account for 1.3% while those occupying five rooms and more account for 0.9% in the district. The proportion of households occupying four rooms varies from 5.3% in Khanapur Independent Sub-Taluk to 0.2% in Utnur Taluk.

The number of persons per room in households occupying 1 room, 2 rooms, 3 rooms, 4 rooms, 5 rooms and more in the total, rural and urban areas of Adilabad district is given in the following statement.

STATEMENT III—20

District	Number of persons per room in households occupying					
	All households	One room	Two rooms	Three rooms	Four rooms	Five rooms & more
(1)	(2)	(3)	(4)	(5)	(6)	(7)
ADILABAD Total	3.52	4.51	2.51	1.98	1.57	1.14
Rural	3.72	4.54	2.52	1.96	1.68	1.26
Urban	2.73	4.23	2.47	2.04	1.44	1.03

Considering more than two persons per room as representing over crowding, it will be observed that in households occupying 3 rooms or more both in rural and urban areas of the district, the housing conditions seems to be satisfactory while there is over crowding in other categories of households both in rural and urban areas and particularly in the case of households occupying two rooms and less.

CHAPTER IV

AGRICULTURE

Adilabad district is the second largest district in area in the Telangana region of the State. This district is blessed with good forests, good soils, good irrigation potentialities and plenty of mineral resources. Apart from major rivers like Godavari, Penganga, Pranahita, and Wardha that flow on the borders of this district, a number of streams and tributaries like Kadam and Peddavagu flow across the district. Nature has also been generous by making it beautiful scenically and providing wild life in plenty. There are also a few water falls of which one can even be harnessed for Hydro Electric Power. Only human energy and natural resources should be blended properly to develop the district from its present backwardness and make it rich and plentiful.

Like other districts of the State, agriculture is the main occupation of the people in the district. According to the 1961 Census count, out of a total population of 1,009,292 persons in this district the working population accounted for 545,697 persons of whom 386,877 persons were recorded as either cultivators or agricultural labourers. This high proportion of agricultural workers shows the vital role that agriculture plays in the economic life of the people of Adilabad district. During the year 1960–61 out of the total geographical area of 4,130,163 acres of the district, the net area sown was 1,160,390 acres accounting for 28.1% of the total geographical area. The area sown more than once was only 19,100 acres. Irrigational facilities are very limited in this district; hence only 69,220 acres were irrigated during 1960–61 and just 112 acres were irrigated more than once. The net area irrigated accounts for 5.9% only of the net area sown and this indicates the extent of the backwardness of the district in the matter of irrigation. The main sources of irrigation in this district are reservoirs, canals, tanks, wells, spring channels, etc. Tanks are the chief sources of irrigation. Kadam project constructed across the river Kadam in Khanapur Independent Sub-Taluk is the only major irrigation project in this district. Sirala project in Mudhol taluk and Swarna project in Nirmal taluk are the minor irrigation projects in this district. In view of the limited irrigation facilities, dry cultivation is more prevalent in this district than wet cultivation. Agriculture is, therefore, mainly dependent on the vagaries of the monsoon. Though Adilabad district receives relatively higher rainfall among the Telangana districts, only a negligible percentage of rain received is utilised for agricultural purposes. The maximum rainfall is generally received during the south-west monsoon period. The following statement shows the seasonwise distribution of annual rainfall from 1955–56 to 1960–61.

STATEMENT IV–1

RAINFALL (in millimetres)

Year	South-West monsoon	North-East monsoon	Winter & autumn period	Total annual rainfall
(1)	(2)	(3)	(4)	(5)
1955–56	1280.16	162.56	12.70	1,455.42
1956–57	998.22	185.42	2.54	1,186.18
1957–58	986.06	55.88	5.08	1,047.02
1958–59	1082.90	55.90	23.40	1,162.20
1959–60	1177.70	85.10	Nil	1,262.80
1960–61	694.20	76.40	8.20	778.80

The soil of the district is generally sandy and reddish. In Nirmal taluk black cotton soil exists in some parts while chalka soil exists in other parts. In Boath taluk the soil is largely black regar and red. In Asifabad taluk black soil exists in the north-western portion while the remaining is chalka. In Sirpur and Chinnur taluks the soil is regar and alluvial. In Utnoor taluk the soil is heavy black and is rich and fertile.

The following statement shows the extent of area under different types of land-utilisation in the district during 1954–55 to 1960–61.

STATEMENT IV—2

LAND UTILISATION STATISTICS

(Figures in acres)

(1)	1955—56 (2)	1956—57 (3)	1957—58 (4)	1958—59 (5)	1959—60 (6)	1960—61 (7)	Percentage total area (8)
1 *Total Geographical area*	3,580,086	3,585,599	4,130,163	4,130,163	4,130,163	4,130,163	..

10 Net area sown	1,260,715	1,335,880	1,299,139	1,267,326	1,275,324	1,160,390	28.1
11 Area sown more than once	15,492	8,438	19,017	14,491	19,106	19,100	0.5
12 Total cropped area	1,276,207	1,344,318	1,318,156	1,281,817	1,294,430	1,179,490	28.6

Crops :

The chief crops grown in this district are jawar and paddy during 1960–61; these two crops covered an area of 4.78 lakhs and 1.28 lakhs acres respectively. The food crops next in importance are maize and wheat. Among pulses, redgram, greengram, blackgram, bengalgram and horsegram are largely grown. The acreage under greengram is the highest (76,100 acres) and redgram takes the next place with a normal acreage of 50,200 acres. Among condiments and spices, chillies are the most important crop with a normal acreage of 22,900 acres and coriander takes the second place with an acreage of 5,100 acres. The area grown under sugar crops, fruits and vegetables is not considerable. Among fibre crops cotton is the most important crop and it is grown normally in an area of about 1.7 lakhs acres. The acreage under other fibre crops is not much. Among oil seeds, gingelly crop takes the first place with a normal acreage of 82,000 acres. Linseed and groundnut take the second and third places with a normal acreage of 36,000 acres and 16,800 acres respectively. Castor is also grown normally in about 11,600 acres. The acreage under other non-food crops is not significant. The total area under all food crops during 1960–61 was 9,16,769 acres while non-food crops covered an area of 2,62,721 acres. The following statement shows the area, yield per acre and outturn of important crops in Adilabad district during 1954–55 to 1960-61.

Five Year Plan Schemes :

Under the Five Year Plan Schemes, increase in agricultural production and also industrial development were contemplated. The major objective of the agricultural programmes was to increase agricultural production considerably and to provide adequate food and raw material needed for the industries. In Adilabad district it was not only sought to encourage the individual farmers to achieve higher levels of production but also a comprehensive effort was made to raise the general average level in the district as a whole by both intensive and extensive methods of cultivation. The schemes under agriculture included minor irrigation, improvement of agricultural production by supply of improved seeds, green manures, fertilisers, agricultural implements, plant protection measures, development of commercial crops, horticulture, etc. Much progress could not be made during the First Five Year Plan period. The achievements made under the Second Five Year Plan period are explained below.

In order to increase food production and make the people self sufficient in food, due importance was given to agricultural programmes during the Second Five Year Plan period. Scientific methods and extensive and intensive cultivation practices were adopted. In order to familiarise the ignorant

agriculturists with imporved agricultural implements and to make them utilise these implements, demonstrations were occasionally held and the farmers were also supplied with the improved implements. Several developmental programmes such as establishment of Seed Farms, construction of Seed Stores, control of pests and diseases, distribution of oil engines and tractors, distribution of hand operated dusters, sprayers, improved seeds, improved implements, chemical fertilisers and compost, etc., were implemented. The farmers were trained in the development of local manurial resources and better farming. Loans were also granted under different schemes to the cultivators. Under fruit development a sum of Rs.77,150 was advanced as loans to 31 cultivators and under cashewnut development an amount of Rs. 6,800 was given to the cultivators during the Second Plan period. In order to improve irrigation facilities 32 oil engines and 3 electric motors were supplied. During 1958-59, 30 sprayers and dusters were sold at subsidised rates, 13 improved agricultural implements and tractors were sold on hire purchase system under the Plant Protection Scheme. 115 new wells were sunk and 43 were repaired. Rainfed paddy scheme was implemented in 1958-59 at a cost of about Rs. 17,000 to evolve high yielding paddy strains under rainfed conditions and to find out suitable agronomic, manurial and cultural practices. 15 Seed Farms covering 150 acres wet land and 375 acres dry land and 8 Seed Stores were established in different parts of the district during the Second Plan period. Loans amounting to Rs. 1.3 lakhs and Rs. 0.2 lakhs were distributed as part of Kharif and Rabi campaigns. The following statement shows the expenditure incurred and the physical achievements under different items during the Second Plan period.

STATEMENT IV—5

	Name of the Scheme (1)	Expenditure incurred during Second Plan (in Rs.) (2)	Physical achievements during Second Plan Period (3)

The implementation of various agricultural programmes under the Five Year Plans has good effect on the agriculturists of this district and there was significant development all round. The cultivators who were hitherto following primitive agricultural practices have now educated themselves in the use of modern and scientific methods of cultivation and are also using chemical fertilizers and improved agricultural implements. The area under cultivation and yield rate have increased. In 1955–56, i.e., at the beginning of the Second Five Year Plan the area under paddy cultivation was 104,339 acres while it increased to 128,047 acres by the end of the Second Five Year Plan, *i.* e., 1960–61. Similarly the total outturn of paddy has increased from 29,200 tons in 1955–56 to 38,957 tons per year and that of jawar from 70,230 tons in 1955-56 to 168,512 tons in 1960-61 in this district.

CHAPTER V

IRRIGATION

The extent of irrigated area in Adilabad district is very small due to the limited irrigation facilities available. Although major rivers like Godavari, Penganga, Pranahita and Wardha flow along the borders of this district and many hill streams and tributaries like Kadam and Peddavagu flow across this district and maximum rainfall among the Telangana districts is recorded in this district, only a negligible percentage of the water is harnessed for agricultural purposes. In order to increase regular water supply and increase the area under cultivation to step up agricultural production, construction of major and medium irrigation projects was taken up during the Five Year Plans. In Adilabad district during the first Five Year Plan period one Major Project, viz., Kadam Project and one medium project, viz., Sirala Project were taken up and continued in the Second Plan. During the Second Plan another medium sized project known as Swarna Project in Nirmal taluk was also taken up.

Kadam Project constructed across the river Kadam in Khanapur Independent Sub-Taluk is the only major irrigation project in the district. There are also not many minor irrigation projects in this district. The Sirala Project in Mudhol taluk and Swarna Project in Nirmal taluk are the only two minor projects in this district. Apart from these, the other important irrigation sources are canals, tanks, kuntas, spring channels and wells. The total irrigated area in this district during 1960-61 was 69,220 acres only and accounted for 5.9% of the net area sown.

Kadam Project :

This project is constructed across Kadam River, a tributary to river Godavari, near Peddur village of Khanapur Independent Sub-Taluk. This project was taken up as the first phase towards the implementation of the Godavari Valley Scheme. The work on this project also called the Godavari North Canal Project was started in 1949 and completed at a revised cost of Rs. 508.81 lakhs. This dam was breached in 1958 and restoration works were completed at an estimated revised cost of Rs. 289.685 lakhs. The main canal from this dam is 48 miles in length and will benefit an area of 65,000 acres in Khanapur and Lakshettipet taluks. 17 villages in Khanapur Independent Sub-Taluk and 78 villages in Lakshettipet taluk will be benefited by this project. The project consists of a pickup dam across Kadam river and a main canal of 48 miles in length. The following are the salient features of the dam.

F. R. L. & M. W. L.	..	+ 700.00
Maximum flood discharge	..	4,20,00 cusecs
Gross capacity	..	7,603 M.cft
Length of spillway	..	1,240 Ft.
Length of gravity dam	..	210 Ft.
		Rf. +105 Ft. Lf.
Earth dam	..	1,402 Ft.
Length of composite dam	..	3,938 Ft.
Total length of the dam	..	6,895 Ft.
	CANALS	
Length of the canal	..	48 miles
Discharge at head	..	1,100 cusecs
Irrigated area	..	65,000 acres

Swarna Project :

This project is under construction across river Jowli in Nirmal taluk. It is estimated to benefit an area of about 9,130 acres as per details given below.

1.	Abi	6,500 acres
2.	Garden crops	500 ,,
3.	Tabi	2,130 ,,
	Total	9,130 acres

Sirala Project :

During the First Five Year Plan it was proposed to remodel the channel of the tank near the village in Sirala in Mudhol taluk to irrigate an area of about 2,095 acres and the work was taken up and completed in the Second Plan period.

Under Minor Irrigation works only restoration and repairs to breached tanks numbering 186 and 28 spill-over tanks were undertaken. Out of these, 23 works were completed at a cost of Rs.5.79 lakhs.

CHAPTER VI

FORESTS

The management and conservation of forests on scientific lines in the former Hyderabad State was first undertaken by Salar Jung II. He created a separate department of forests which came into being in July 1867. "In the erstwhile Hyderabad State the pernicious permit system of exploiting trees had ruined some of the beautiful forests of the Godavari Valley and Krishna basin area. The colonisation schemes, grant of pattas, ijaras, makhtas, and jagirs had made great in-roads into the forest lands and after the excision of big chunks of forests in the above manner, the last choice was given to the forest department for demarcating and reserving the rest."* The Hyderabad Forest Act of 1326 Fasli was enacted in 1326 Fasli. This act was repealed by the Hyderabad Forest Act 1355 Fasli (The Act No.II of 1355 F.). Consequent on the merger of the Hyderabad State with the Indian Union and the abolition of estates and jagirs in that State, considerable forest area under jagirs, paighas and sarf-e-khas came within the jurisdiction of the Forest Department.

Till 1911 forests were worked under permit system in the Telangana area. Working schemes came into force for some of the important ranges from 1914 onwards. Regular working plans were prepared for some of the major divisions from 1930. During the Second World War, most of the forest areas had to be worked in advance to meet the increased demand for timber, fuel, etc. Systematic working plans came into existence from 1945 onwards.

Adilabad district has the largest forest area among the Telangana districts and comes second in the State, the first being Kurnool district. Out of the total geographical area of 41,30,163 acres of the district, the forest area is 15,83,515 acres accounting for 38.3% of the total area. The large forest area is a very important source of income to the State and provides raw materials for some industries, building materials and is a major supplier of firewood. To bring about proper development and maintenance of the forest areas, they have been divided into four Forest Divisions, viz., Adilabad Division, Asifabad Division, Mancheriyal Division and Nirmal Division, each being kept under the charge of a Divisional Forest Officer. Each Division is again divided into convenient ranges which are again subdivided into compact blocks. The ranges are under the charge of Rangers and blocks are kept under Forest Guards.

The greater part of Adilabad, Nirmal and Mancheriyal Forest Divisions is hilly while a small portion is more or less flat and undulating. The hill ranges are not high. The highest ridge is in Dedra block and it rises to a maximum height of 2,140 ft. above the sea level. The ground is rugged, uneven and much undulating mainly due to erosion. Morrum is the very common soil in these three divisions. In Asifabad Division all the forest blocks except the blocks of Bijjur, Gudem, Kadamba, and Bellampalli are on hill slopes. The hills in this division rise to a maximum height of 2,107 ft. above mean sea level. The soil is sandy and calcareous in the plains and alluvial at the foot of the hills and it is stony and shallow along hill sides. In Adilabad, Nirmal and Mancheriyal divisions the forests belong to the Dry Deciduous type while in Asifabad Division the forests belong to the Mixed Deciduous type. Teak type, Mixed Teak type, Mixed type and Bamboo forests are the important types found in the Divisions of Adilabad, Nirmal and Mancheriyal Divisions while in Asifabad Division Teak type is not found. Only Mixed Teak type, Mixed type Anduk forests and Bamboo forests are found in Asifabad Division.

Teak Type Forests :

In this type the forests contain 30% or more of teak in the stand. The best teak growth is found in Khanapur, Mamda, Parimandal blocks and in patches in Utnur, Sirchilam and Ajharwajhar blocks in Adilabad and Nirmal Divisions. In Mancheriyal division these forests are predominant on gentle slopes, alluvial beds and in the valleys of the Pranahita and Godavari rivers.

Mixed Teak Type Forests :

In this type the forests contain 10 to 30% of teak. Such forests are found in gentler slopes and

*Hundred Years of Scientific Forestry in Andhra Pradesh

foot of the hills in almost all the blocks of Adilabad, Nirmal and Mancheriyal divisions. In Asifabad division they are found mostly in the blocks of Gudem, Bijjur, Kadamba, Chenneholi and Bellampalli. The average height of trees in this type varies from 30 to 40 feet.

Mixed Type Forests :

Forests in which the percentage of teak falls below 10% are included under this type. They occur generally on very poor soils. Such forests are found in all the four divisions.

Bamboo Forests :

In these forests bamboos are abundantly found. Such forests are found sparsely in the southern parts of Khanapur block and sporadically in Satnala, Dedra, Ambadi and Mamda blocks in Adilabad and Nirmal divisions. In Mancheriyal division they are found abundantly in Kawal and Rali blocks and sparsely in Girali blocks. In Asifabad division they are abundantly found in Garlapet, Tilondi, Kadamba and Dhanora blocks and sparsely in Tandur, Ada and Rajura blocks.

Anduk Type Forests :

This type is found in Asifabad division in Manikgarh, Dhanora, Ada, Kukudhanti, Tiryani and Garlapet blocks.

The important species found in the forests of Adilabad district apart from teak are tunki, jittigi, rosewood, bamboo, tamarind, terminalia tomentosa, chloroxylon, swietenia, anogeissus latifolia, pterocarpus marsupium, acacia sundra, boswellia serrata, cleistanthus collinus, hardwickia binata, etc.

The forests abound in wild animals such as tigers, leopards, bears, hyenas, wolves, wild dogs, nilgai and spotted deer. Wild duck, partridges, junglefowl and peafowl are also largely found in the forests.

Five Year Plan Achievements :

As forest wealth is very important for the prosperity of the people great stress was laid in the Five Year Plans for the development of Forests. During the Second Five Year Plan period the following schemes were undertaken for the protection and growth of the forests.

i) Strengthening of territorial division
ii) Artificial regeneration in timber
iii) Construction of roads
iv) Construction of buildings
v) Scheme for preservation of wild life

25 buildings were constructed during the Second Plan period at a cost of Rs. 88,689 for providing accommodation to the forest officers. In order to extract timber from the inaccessible forest areas, a road of 12 miles length was constructed at a cost of Rs.5,52,065. This also facilitated the checking of illicit felling of trees. Artificial regeneration of timber plots was taken up in 839 acres to improve the condition of existing forests and to meet the requirements of timber in future. Lac cultivation was also given importance in the plan as it is not only a good foreign exchange earner but also provides subsidiary employment to rural population. Its cultivation was taken up in Nirmal and 3,73,032 maunds was produced at a cost of about Rs.51,600. One sanctuary was opened in Mancheriyal division and 20 forest guards were appointed till the end of Second Plan for the protection of wild life. To facilitate quick supervision two jeeps were also provided to the Forest Officers at a cost of Rs.29,171. Additional staff were appointed to take up anti-erosion and afforestation work, to raise plantations, to carry out cutting operations and to demarcate boundaries of merged areas of estate forests.

The following statement gives important particulars of the various schemes implemented in the district during the Second Plan period.

STATEMENT VI—1

Name of the scheme	Expenditure incurred during Second Five Year Plan	Item	Unit	Physical achievements
(1)	(2)	(3)	(4)	(5)
	Rs.			
1 Strengthening of territorial division	39,865	Range Officer	No.	3
2 Artificial regeneration	20,217	Plantation	Acs.	839
3 Preservation of wild life	80,243	Sanctuary	No.	1

CHAPTER VII

CO-OPERATION

The proposal to organise certain Agricultural Co-operative Credit Societies was first submitted to the Government by the Director of Agriculture in the former Hyderabad State during the year 1913. The Government created a small department for this purpose and made him the first Registrar of Co-operative Societies. In the next year, i.e., 1914, the necessary legislation, viz., "The Hyderabad Co-operative Credit Societies Act II of 1323 F. (1914 A.D.) was passed. This Act enabled the provision of credit facilties to the cultivators. In the initial stages sufficient emphasis was laid on organising the Agricultural Credit Societies so that they could issue loans to the cultivators at reasonable rates of interest. In order to finance these societies which were organised in the villages, Central Banks were set up in the districts and the Hyderabad Co-operative Dominion Bank was made the Apex institution which was later known as the Co-operative Dominion Bank. The Co-operative movement started with the setting up of Agricultural Credit Societies in 1916 and from then onwards these Societies continued to be the firm foundation of the co-operative structure. In 1942 another unique feature, viz., the organising of Grain Banks was introduced. These Grain Banks proved to be very helpful in building up the rural economy. The aim of the Agricultural Credit Societies and the Grain Banks was to render timely assistance in cash and kind respectively to the needy cultivators and emancipate the agriculturist from the cruel clutches of the traditional money lenders as well as of big Pattadars who used to offer money as well as grains to the poor ryots at exorbitant rates of interest. However, till the implementation of the schemes under the First Five Year Plan, it was an uphill task to organise the Agricultultural Credit Societies and the Grain Banks to provide relief to the agriculturists. The activities of the Co-operative movement increased considerably under the Five Year Plans.

In a backward district like Adilabad co-operation is one of the best methods for fast economic progress. It gives incentive to the individuals for hard work. Great efforts were, therefore, made under the Five Year Plans to encourage the co-operative movement in this district. The achievements made during the First and Second Five Year Plan periods are briefly explained below.

Achievements under First Five Year Plan

Upto 1951 there were only 212 Co-operative institutions of all kinds in Adilabad district. These institutions were of various types, viz., 3 Co-operative Central Banks, 5 Co-operative Rural Banks, 4 Co-operative Urban Banks, 5 Employees' Credit Societies, 2 Co-operative Stores Societies, 4 Primary Weavers' Co-operative Societies and 189 Agricultural Credit Societies. Their total membership was 12,841 and the share capital held by them was Rs. 1,80,738. These societies had accumulated reserve fund deposits of Rs. 61,441 and other funds of Rs. 12,282. The total borrowings of these societies stood at Rs. 2,64,554. They held deposits of Rs. 76,022 only. Their working capital amounted to Rs. 5,95,037. The societies disbursed loans to the extent of Rs. 1,92,583 in 1950–51 and loans to the extent of Rs. 3,22,746 were due to them from the members. The two stores societies made purchases of Rs. 1,19,697 in the year 1950–51 and sold articles worth Rs. 1,15,168.

During the First Five Year Plan period the Co-operative movement in Adilabad district expanded considerably. The number of agricultural credit societies increased to 399 by the end of 1955–56 from 189 in 1951. The number of Employees' Credit societies increased from 5 to 18. The 3 Central Co-operative Banks which were working in the district in the year 1951 were merged into 2 by amalgamation to make them economic units. One Primary Land Mortgage Bank was also established at Nirmal to serve the long term credit needs of agriculturists. Two Urban Co-operative Housing Societies were also brought into existence to help the urban population in constructing houses for residential purposes. The other particulars regarding the working of co-operative institutions during the First Five Year Plan period are furnished in the following statement.

STATEMENT VII–1

Sl. No.	Type of Societies	No. of Societies	No. of members	Paid up share capital (Rs.)	Reserve fund (Rs.)	Other funds (Rs.)	Borrowings out-standing (Rs.)	Deposit (Rs.)	Working capital (Rs.)

Achievements under the Second Five Year Plan

The Co-operative movement got good impetus in this district during the Second Five Year Plan. Till 1959 there was only one Deputy Registrar for the entire Adilabad district to supervise the Co-operative societies. Due to the formation of the new co-operative societies in the district during the Second Plan period and consequential increase in the pressure of work, the district was bifurcated in 1959 into two co-operative circles of five taluks each with headquarters at Adilabad and Lakshettipet, under a Deputy Registrar of Co-operative Societies. In view of the delay in the formation of the Lakshettipet circle its achievements in the Second Plan period were not so significant. In Adilabad circle the targets were, however, achieved in full. The programme of co-operative development in this district during the Second Plan period was mainly aimed at the expansion of rural credit societies, development of marketing societies, and training and educating the personnel for the efficient management of the societies. The following statement shows the expenditure incurred under each of the schemes undertaken for the development of co-operatives.

STATEMENT VII—2

Name of the Scheme	Expenditure incurred (in Rs.)
(1)	(2)
Expansion of Rural Credit Societies	20,937
Subsidy to Societies (large & small)	11,564
Development of Co-operative Marketing Societies	32,000
Godowns	22,500
Research, Survey & Statistics	4,907
Loans to Housing Societies	73,475
Training and Education	7,257

Rural Credit and Marketing Societies :

By the end of the Second Five Year Plan the total number of Integrated Rural Credit and Marketing Societies increased to 1,104 and had a membership of 71,162. These societies covered 53% of the villages and 49% of the total population. During the Second Plan period 146 Rural Credit Societies with a membership of 11,486 were organised and 216 existing societies were brought under the revitalised scheme. Six co-operative marketing societies were formed and in the Tribal areas of Utnur taluk two Agency Produce Marketing Societies also were formed. These two societies supplied domestic requirements to the tribes and purchased from them the forest produce. The co-operative society at Bhainsa in Mudhol taluk supplied chemical fertilizers to the agriculturists of Mudhol taluk. Agricultural implements and improved seeds are also proposed to be supplied through this society. The Boath Marketing Society was appointed as a sub-stockist for the distribution of iron and steel. A branch of the Co-operative Marketing Society was opened at Nirmal. Two Primary Land Mortgage Banks with a membership of 1,248 were also organised.

Cottage Industries :

The four weavers' co-operative societies that were functioning in this district at the beginning of the Second Five Year Plan continued to function throughout the Second Five Year Plan. There were 3,762 looms and 2,387 weavers in these societies by the end of March 1961. These societies produced dhotis, sarees, shirtings, coatings, bed sheets, towels, etc., which are of coarse variety and mostly consumed locally. A sum of Rs. 35,527 was subsidised to these societies during the Second Five Year Plan period towards rebate on sale of handloom cloth.

Co-operative Education and Training :

One Senior Inspector of Co-operative Societies was appointed to carry on the propaganda work and educate the rural population in the adoption of co-operative methods and train the members and Panchayatdars in the maintenance of books and accounts. By the end of 1960-61 this work was done in one Panchayat Samithi Block in this district. 1,729 members were given training besides 404 Panchayatdars. 20 training classes were held in villages for training the members and Panchayatdars.

Co-operative Farming :

There were six Co-operative Farming Societies by the end of 1960-61. These societies have not been functioning for want of interest on the part of the members.

Housing :

There were three societies of this type in rural areas, but were not active. In urban areas there were 8 urban housing societies at the end of 1960-61. They borrowed Rs.2,15,872 and issued loans to their members.

Co-operative Marketing :

There were 8 Primary Co-operative Marketing Societies at the end of 1960-61 with a share capital of Rs. 1,65,692 and working capital of Rs 3,57,391. These societies did not engage themselves in marketing business relating to the agriculture produce of members for want of sufficient funds. They took up the distribution of iron and steel and such other articles.

Tappers' Co-operative Societies :

There were 42 Co-operative Societies for tappers with a membership of 742 and paid up share capital of Rs.53,226. These societies were given lease of "sendhi" (toddy) shops in their jurisdictions at reasonable rates of rentals. 15 societies worked at a profit of Rs.11,248 and 27 societies worked at a loss of Rs. 1,16,372.

Co-operatives for Hill Tribes and Backward Communities :

There were two Agency Produce Co-operative Marketing Societies for the benefit of hill tribes with 2,044 members as on 31-3-1961. The societies were paid a subsidy of Rs. 6,785 by the Government towards share capital of members. The following grants were disbursed to the societies by the end of 31-3-1961.

Purpose of grant (1)	Amount (2)
	Rs.
Reserve Fund	10,000
Working Capital	43,000
Salary of Salesmen	1,575
Furniture	2,000

Domestic requirements valued at Rs. 52,300 were distributed to members by these two societies.

There were 5 Consumers' Co-operative Stores with 386 members, a paid up share capital of Rs 7,270 and a working capital of Rs. 28,689. Two stores societies worked on a profit of Rs. 2,490 and three stores societies worked at a loss of Rs. 4,004.

There were no co-operative Milk Supply Unions and Societies, Palm Gur Development Societies, Dairy Development Societies and Co-operative Sugar Mills during the Second Plan period.

CHAPTER VIII

HEALTH

Adilabad district, like many of the other districts of Telangana lacks adequate medical facilities. The history of Medical Services in the former Hyderadad State of which Adilabad district formed part till 1956 is briefly explained below.

The first medical institution opened in the former Hyderabad State was the Hyderabad Medical School founded in 1846. It did much useful work in training medical officers and subordinates for the Hyderabad Medical Services and Hospital Assistants for Berar. At first instruction was imparted in Urdu, but since 1884 English was the medium. Till 1885 a board of medical officers from Secunderabad conducted the examinations; but since that year the written part was supervised by a Board of Examiners of the Madras Medical College or the Grant Medical College of Bombay, the oral examination being conducted by a Medical Board from Secunderabad. The course was approximately the same as L.M. & S. of the Madras University. Vaccination was commenced in Hyderabad State only in 1884–85 when 48 vaccinators were employed. Vaccination was being performed according to the European methods and inoculation seems to have been started much later. In 1884-85 there were 6 hospitals in the city and suburbs and 48 dispensaries in the districts. By 1891 the number of dispensaries increased to 67 and in 1901 it rose to 84. In 1901 the State Medical Department was under a doctor who was also a Residency Surgeon and he was assisted by a competent staff of surgeons at headquarters. The district staff consisted of 3 to 5 surgeons, 1 to 5 hospital assistants, 4 to 7 compounders and 5 to 11 vaccinators according to the extent and requirements of each district. Most of the then surgeons were the students who had passed the qualifying examinations from the Hyderabad Medical School. The total strength of Medical staff of Hyderabad State in 1901 was 74 surgeons, 12 lady doctors, 31 hospital assistants, 104 compounders and 116 vaccinators. Out of these staff as many as 15 surgeons, 7 hospital assistants, 24 compounders and 11 vaccinators besides a number of nurses were maintained at Hyderabad. In Adilabad district there were only 2 dispensaries. The Medical Services grew gradually in the erstwhile Hyderabad State. As the facilities that existed before the implementation of the Five Year Plans were meagre, great stress was laid under the Five Year Plans to expand the existing medical facilities and to improve the health conditions. As a healthy nation is a happy nation, every endeavour is being made by the Government of India and by the State Government to achieve this objective in the medical field.

In the erstwhile Hyderabad State prior to 1950 the Directors of Medical Services and Health Services looked after the administration of curative and preventive sections independently. In 1950 both the Departments except Medical education were combined and brought under the administrative control of the Inspector General of Medical and Health Services. The administration of Medical education, however, remained separately under the Principal, Osmania Medical College, till 1952 in which year it was also brought under the control of the Medical Department from the University authorities. At the district level the District Medical Officer was looking after the preventive health aspect also and he was designated as District Health Officer. One Medical Officer of the rank of an Assistant Surgeon qualified in Public health assisted the District Health Officer in the day to day administration and he was designated as Assistant Health Officer. In November 1956 when Andhra Pradesh was formed this integrated department was again bifurcated into Medical and Public Health Departments on the pattern prevailing in the Andhra region. The entire administration of medical services including medical education was brought under the control of the Director of Medical Services and that of Public Health under the Director of Public Health. The achievements made by the Medical and Public Health Departments in Adilabad district during the First and Second Five Year Plan periods are briefly described below.

Medical Services :

The First Five Year Plan envisaged various improvements in the field of Medical and Public Health facilities. It provided for the expansion of facilities for medical education, improvements to hospitals and dispensaries, extension of medical

relief in rural areas, opening of new Tuberculosis Sanatoria and Clinics and providing specialists services in various fields such as Maternity and Child Health, School Health Services, Laboratory Services, training of Para-Medical Personnel, etc. No appreciable progress was made in Adilabad district during the First Five Year Plan period in the field of Medical Services presumably due to unsettled conditions in the district. The bed strength in the hospitals, however, increased to 149 by the end of the First Plan period. During the Second Five Year Plan period many improvements were made in Medical services.

The general level of health is very low in Adilabad not only due to malnutrition but also because of the lack of medical facilities. Medical facilities specially in the rural areas have been neglected and in some parts are practically nil as a result of which mortality has been quite high. To improve the general health by curative measures greater emphasis has been laid for the expansion of medical facilities to the people of this district during the Second Five Year Plan. Different schemes have been implemented in this regard. The district headquarters hospital has been upgraded and provision for 60 beds has been made. Additional staff of two Assistant Surgeons, five staff nurses and one compounder besides other clerical staff were appointed. An ambulance car has also been provided to the District Headquarters Hospital recently. Medical facilities were provided in remote rural areas and the existing facilities were improved. A training centre for midwives was started at the headquarters with provision to train 10 midwives at a time. Further one Family Planning Clinic, one Non-gazetted officers' clinic and one T.B. Clinic started functioning during the Second Plan. Additional staff has also been provided to run these clinics.

The T. B. Clinic started functioning from September 1960 and an X-ray plant was purchased from public donations.

A T. B. isolation ward with 10 beds has been sanctioned. An amount of Rs.25,000 has also been provided for the purchase of necessary equipment and for the construction of buildings. One district laboratory has also been opened in the District Headquarters Hospital during the Second Plan.

Hospitals in the following taluks of the district have been upgraded during the Second Plan: 1) Khanapur, 2) Chinnur, 3) Sirpur, 4) Mancheriyal, 5) Nirmal, 6) Bhainsa (Mudhol), 7) Asifabad, and 8) Lakshettipet. As a result of this upgrading of the above mentioned hospitals, provision for 120 beds in all has been made.

The expenditure incurred on different schemes during the Second Plan period is given in the following statement.

Sl. No. (1)	Name of the Scheme (2)	Expenditure incurred (3)
		Rs.
1	Upgrading of the headquarters hospital	1,15,876
2	Upgrading Khanapur hospital	12,239
3	Upgrading Sirpur hospital	6,058
4	Upgrading of Nirmal hospital	8,612
5	Upgrading of Bhainsa hospital	7,420
6	Upgrading of Lakshettipet hospital	3,723
7	Upgrading of Chinnur hospital	9,422
8	Upgrading of Mancheriyal hospital	12,000
9	Upgrading of Asifabad hospital	6,529
10	T.B. Clinic, Adilabad	25,522
11	Family Planning Centre, Adilabad	5,551
12	N.G.O's Clinic, Adilabad	1,123
13	Maternity Assistants' & Training, Adilabad	1,124
14	District Laboratory, Adilabad	5,626
	Total	220,825

The list of hospitals and dispensaries together with the bed strength is given below.

	Name of the Hospital/Dispensary	Bed strength
1	Govt. District Headquarters Hospital, Adilabad	110
2	Govt. Hospital, Nirmal	20
3	Govt. Hospital, Khanapur	20
4	Govt. Hospital, Lakshettipet	20
5	Govt. Hospital, Asifabad	16
6	Govt. Hospital, Chinnur	20
7	Govt. Hospital, Sirpur	20
8	Govt. Hospital, Boath	10
9	Govt. Hospital, Bhainsa	16
10	Govt. Hospital, Mudhol	6
11	Govt. Hospital, Utnur	10
12	Govt. Hospital, Mancheriyal	20
13	Project Dispensary, Kadam	6
14	Project Dispensary, Lingapur	6

Besides the above hospitals and dispensaries seven primary health centres are functioning at Talmadugu, Kundaram, Kubeer, Kasipet, Lakshmanchanda, Utnur and Pemli villages. There are also six Ayurvedic dispensaries functioning at Bijjur, Janaram, Kubeer, Narsapur, Narmoor and Tandur. The District headquarters hospital at Adilabad has got a T.B. Clinic, an Ayurvedic clinic, a Dental clinic and a Family Planning clinic attached to it. It is also proposed to open an eye clinic and an E.N.T.

clinic at this hospital. Training for the Auxilary Nurse Midwives is being imparted at the Govt. District Headquarters Hospital at Adilabad.

Public Health :

For the improvement of Public Health in the district different schemes were implemented during the Second Plan period. Some of the important schemes related to establishment of Primary Health Centres, training of dayas, establishment of school health clinics, publicity and health education work and supply of village medicine boxes. As there was no training centre to train dayas, training was imparted to them by the Health Visitors of Primary Health Centres, Mobile Medical Units and Family Planning scheme without paying stipend to the dayas. In all 104 dayas have been trained till the end of the Second Plan. The number of dayas trained by different centres is given in the statement below.

Centre (1)	Name of the Block (2)	No. of Dayas trained (3)
Primary Health Centre, Talamadugu	Adilabad	24
Primary Health Centre, Utnoor	M.P. Block, Utnoor	19
Primary Health Centre, Kasipet	Asifabad	19
Mobile Medical Unit, Bhainsa	Mudhol	3
Mobile Medical Unit, Boath	Boath	8
Mobile Medical Unit, Chinnur	Chinnur	11
Family Planning Unit, Utnoor	M P. Block, Utnoor	19

Five Rural Family Clinic centres were started at Talamadugu (Adilabad Block), Kasipet (Asifabad Block), Utnoor (M.P. Utnoor), Kubeer and Kundaram.

In order to render Maternity and Child Welfare services to the rural population of the backward areas in this district two Maternity Child Health Centres were started at Bellal and Kethini in the year 1959–60. These centres are working in full swing with all the sanctioned staff excepting one Maternity Assistant and two Dayas.

Twelve village medicine boxes were supplied to the villages where there were no medical facilities. For the benefit of school children one School Health Clinic was opened at Adilabad in September, 1960.

In order to arouse health consciousness among the people of rural areas and to carry on health propaganda, stalls were established in all the important jatras which were held in this district.

To provide better water facilities a unit under the National Rural Water Supply and Sanitation scheme was started in the Multipurpose Project Utnoor. 46 wells were sunk till the end of the Second Plan.

The National Malaria Control Programme was started in India in the year 1959 in collaboration with the World Health Organisation. Under this scheme one Malaria Unit was established in this district with its headquarters at Nirmal. There are four sub-units at Adilabad, Nirmal, Mancheriyal and Asifabad each under the charge of a Senior Malarial Inspector.

The entire district is being sprayed twice in a year during transmission seasons of Malaria, with the financial assistance of the District Board. Twelve Health Assistants were appointed for smallpox eradication through mass vaccination. In Lakshettipet taluk 59,393 vaccinations were made till the end of the Second Plan. A sum of Rs.633,452.87 was spent in this district till the end of the Second Plan under National Malaria Eradication Scheme.

CHAPTER IX

SOCIAL WELFARE

A Social Service Department was set up for the first time in the erstwhile Hyderabad State in 1944 on a temporary basis. The object of the department was to help the members of the Scheduled Castes, Scheduled Tribes, Denotified Tribes and other Backward Classes in improving their economic and social standards of living. The activities of this department were extended to the district level in 1950. After the Re-organisation of States and formation of Andhra Pradesh in November, 1956, the Social Service Department was renamed as the Social Welfare Department and is now functioning in Adilabad district on the same lines as in the other districts of Andhra Pradesh. This department's primary concern is to remove all the disabilities, viz., social, economic, educational, etc., that are traditionally the handicaps of the Scheduled Castes and Scheduled Tribes and to enable them to catch with more progressive sections of the Society. The Department co-ordinates the activities of all the departments, in so far as their functioning touches and benefits the Scheduled Castes, Scheduled Tribes and Backward Classes. With the formation of the Panchayat Samithis and Zilla Parishads the activities of this Department were transferred from the Revenue Department to the Zilla Parishads and Panchayat Samithis.

The Scheduled Castes population in this district as per the 1961 Census count accounts for 18.54% of the total population of the district while the Scheduled Tribes population in this district accounts for 13.08% of the district population. Adilabad district takes the second place in the State in the proportion of both the Scheduled Castes and Scheduled Tribes. Among the Scheduled Castes, Madiga caste constitutes the largest community in the district and is followed by the Mala community. The numerical strength of Malasale (Netakani) and Manne is also significant while that of the other communities of the Scheduled Castes is not very appreciable. Among the Scheduled Tribes, Gond tribe is the largest in numerical strength. Kolam, Koya and Pardhan tribes take the second, third and fourth places respectively. The numerical strength of the other tribes is insignificant. Full particulars about the population of the Scheduled Castes and Scheduled Tribes, their literacy, industrial categories, etc., are given in the Special Tables for Scheduled Castes and Scheduled Tribes under SCT series in Part C of this Book and may be referred to. Several schemes were evolved under the Five Year Plan programmes for the betterment of the Scheduled Castes, Scheduled Tribes, Vimukthajathis (Denotified Tribes and other Backward classes). The important schemes that were implemented during the Second Plan period related to the award of scholarships, free education and free supply of books, medical facilities, construction of village roads and drinking water wells, distribution of plough bullocks, improved seeds, agricultural implements, etc. A sum of Rs. 8.43 lakhs was spent in all during the Second Plan period on the various schemes. The following statement shows the expenditure incurred on the various schemes implemented and the targets achieved during the Second Five Year Plan for the benefit of Scheduled Castes, Scheduled Tribes and Backward Classes.

STATEMENT IX—1

Item (1)	Expenditure (2)	Unit (3)	Achievement (4)
	(Rs.)		(NO.)
	Schemes for Welfare of Scheduled Castes		
Educational facilities	15,290.18	Students	1,119
Sinking and repairs of wells	25,350.00	Wells	62 new 38 old
Medical aid	9,400.00	Patients	343
Publicity	4,300.00	Programmes	25
Grant-in-aid to voluntary agencies	1,000.00	Programmes	1
Acquisition of land	31,617.85	Acres	4
Aid for housing	82,040.00	Colonies	1 Colony, 139 houses

Construction of roads	13,179.23	No.	4
Opening of Handicrafts centres	10,109.59	No.	5
Women's Welfare centre	3,500.00	No.	1
Extension of Tribal hostel	3,900 00	No.	1
Schools	8,527.00	No.	6
Colonisation	93,560.00	No.	1 colony and 150 houses
Training-cum-Production Centres	28,106.01	No.	..
Supply of sheep and buffaloes	10,500.00	No.	78 sheep and 180 buffaloes
Ashram schools	8,397.00	No.	1
Schemes for the Welfare of Vimukthajathis			
Award of scholarships	3,639.98	Students	89
Supply of plough bullocks	22,175.00	Pairs	58
Seeds and implements	4,324.00	Families	85
Cottage industries	3,993.00	Societies	3
Construction of colonies	5,950.00	Houses	20
Sinking of wells	2,200.00	Wells	4
Grant-in-aid	350.00	Persons	6
Repairs to old wells	400.00	Wells	2
Schemes for the Welfare of Backward Classes			
Award of scholarships	5,509.00	Students	464
		Schools	107
Vocational aid	4,625.00	Persons	83
Aid to private hostels	11,795.66	Students	3
		Hostels	2
Cottage industries	1,000.00	Societies	1
Aid to co-operative societies	1,259.00	Societies	1
Backward Classes Hostel, Boath	12,276.37	Societies	1
Backward Classes Hostel, Adilabad	9,449.07	Societies	1
Centrally sponsored Schemes for the Welfare of the Backward Classes			
Supply of plough bullocks and seeds and implements	1,500.00	Persons	34
Vocational aid	2,000.00	Persons	40

The schemes for Scheduled Castes and other Backward Classes were transferred to the Zilla Parishad with effect from 1-10-1960 while the schemes for Scheduled Tribes and Vimukthajathis are being implemented directly by the Social Welfare Department. A brief account of some of the important facilities provided to the Scheduled Castes, Scheduled Tribes, Denotified Tribes and Backward classes is given below :

FACILITIES FOR SCHEDULED CASTES

Educational Facilities :

There are no schools run exclusively for members of Scheduled Castes. There are, however, certain village primary schools for the Scheduled Tribes in which children of Scheduled Castes and Backward Classes also get education in Telugu and Marathi as medium of instruction. These schools are run in certain Scheduled areas where there are no schools run by the Education Department and the school huts are maintained yearly from the provision allotted for this purpose.

Hostel Facilities :

There is one Government hostel for Scheduled Castes at Adilabad proper and a subsidised hostel for Scheduled Castes at Mudhol where the boarders get free boarding and lodging facilities. The sanctioned strength is 47 in the former and 25 in the latter. Besides these there are four Government

Backward Classes hostels in this district run by the Social Welfare Department. The places of location of these hostels and their strength is shown below.

Name of the Hostel (1)	Sanctioned strength (2)
1. Backward Class Hostel, Adilabad	25 Boarders
2. Backward Class Hostel, Boath	50 ,,
3. Backward Class Hostel, Nirmal	50 ,,
4. Backward Class Hostel, Mancheriyal	25 ,,

Each boarder is given a stipend of Rs. 15 per month in these hostels.

Boarding Grants for subsidised Hostels :

There were no subsidised hostels in this district previously. During 1962–63 a Scheduled Castes' Hostel, was opened by a local Harijan by name Babuji at Mudhol for 25 students. This hostel was recognised by the Director of Social Welfare, Andhra Pradesh, and a grant of Rs. 2,550 was sanctioned.

Government Hostels :

There is one Scheduled Castes' Hostel for boys at Adilabad which was started during 1947–48 under the control of the Scheduled Castes Scholarship Board, with 37 boarders. This hostel is being continued with a strength of 47 boarders and a monthly stipend of Rs. 15 per month per boarder is paid. There is a warden, one cook and one peon attached to this hostel. The boaders are given free boarding and lodging facilities.

Subsidy for purchase of plough bullocks, agricultural implements and improved seeds :

Harijan families are given plough bullocks, improved seeds and agricultural implements each at the rate of Rs. 300 and Rs. 50 respectively from 1961–62 onwards.

Subsidy for sinking wells :

Construction of drinking water wells for Scheduled Castes at a cost of Rs. 800 each was taken up by the Social Welfare Department. No aid was, however, rendered for sinking irrigation wells.

Community centres :

During the years 1958–59 and 1959–60 a sum of Rs. 1,000 and Rs.2,500 respectively was allotted for construction of community halls for Scheduled Castes one in Kolipura locality of Adilabad Town and another in Palsi Village of Mudhol Taluk. During 1960–61 a sum of Rs. 3,000 was allotted for the construction of three more Community Centres in the Panchayat Samithi Blocks of Jainad, Boath and Sirpur at the rate of Rs. 1,000 for each centre.

SCHEDULED TRIBES

Educational Facilities :

As this district is dominated by tribal people some special schools are run for the children of the tribal people in taluks like Utnur by the Social Welfare Department. In some of the schools Gond is taught in Devanagiri script.

Hostel Facilities :

There is a Scheduled Tribes' Hostel with its own building at Adilabad. There is provision for 50 boarders in this hostel and each is paid a monthly stipend of Rs. 20. This hostel was first established in 1954 with a strength of 25 boarders and was under the control of the District Social Welfare Officer. During 1960–61 this hostel was transferred to the control of the District Educational Officer, Adilabad.

A multi-purpose Community Development Project is functioning in Utnur taluk and is looking after the needs of the tribal people. It has also exerted considerable influence on their economic and cultural development.

Women's Welfare :

Women's welfare programmes were taken up in this district only in the year 1960. To attend to the increased women's welfare activities, one organiser, one instructor and one lady Sevika were appointed in 1960. The activities of the Women's Welfare Department during the Second Plan period were very limited. Out of a sum of Rs. 16.600 allotted for the Second Five Year Plan period, an amount of only Rs. 4,200 was spent till the end of the Second Plan period.

Employment Exchange :

When Andhra Pradesh was formed in 1956 each district in Andhra region was being served by one District Employment Exchange while there were only two exchanges, one at Hyderabad and the other at Warangal to cater to needs of the nine Telangana districts. As a result of this both unemployed applicants and employers were put to much inconvenience. In order to serve unemployed applicants and employers more effectively the Government of Andhra Pradesh decided to set up one District

Employment Exchange in every district of Telangana. Consequently a District Employment Exchange was opened at Adilabad in December 1957. The district offices are required to contact the local employment exchange for candidates required by them. Career pamphlets giving essential information about careers such as engineers, miners, Navy and Army officers, teachers, stenographers, etc., indicating the emloyment opportunities are distributed among the employment seekers. Guidance is given by the Employment Exchange Officer to employment seekers in the selection of proper employment according to one's aptitude and liking. A sum of Rs. 35,400 was spent during the Second Plan period for the establishment of the Exchange.

To collect statistics on a regular basis on employment and unemployment trends and effective enforcement of the Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959 (Act 31 of 1959), the Employment Market Information Scheme was introduced from 1959. A sum of Rs. 2,200 was spent on this scheme during the Second Plan period.

CHAPTER X

EDUCATION

A person who could with understanding both read and write any language was treated as a literate at the 1961 Census. A person who could merely read but could not write was not treated as a literate. The test for reading is the ability to read any simple letter either in print or manuscript. The test for writing is the ability to write a simple letter. Children aged 4 years and below were treated as illiterates. If a person had been successful in a recognised examination or examinations, the highest qualification so attained was taken as the level of education of that individual. A statement showing the 1961 Census data relating to total population, literate population and the proportion of literate and educated persons among males and females in rural and urban areas of Adilabad district and its taluks is given below :

STATEMENT X-1

District/Taluk		Total Population			Literates			Percentage of literates		
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females

The distribution of literate and educated persons in this district according to different age groups and educational levels is given in Table C–III printed in Part C of this Handbook and may be referred to.

Adilabad district is the most backward district of the State in the field of education. Only 11.72% of the total population in this district are literates. Among males the literates account for 18.76% while among females the proportion of literates is only 4.55%. This educational backwardness is both due to the economic backwardness of the people as well as the inadequate number of educational institutions. For the entire Adilabad district there is only one Science College at Adilabad which was taken over by the Government in 1959 from private management and it is obviously very inadequate to provide necessary collegiate education to all students of the district. In view of the educational backwardness considerable attention is being paid to education under the Five Year Plan programmes, particularly in regard to primary education. A brief account of the progress achieved under the Five Year Plans in this district is given below.

First Five Year Plan Period :

During the First Five Year Plan period (1951-56) much progress was not made in the field of education. Only 60 single teacher primary schools and 81 voluntary aided schools were opened. Five voluntary aided schools were converted into single teacher primary schools and three primary schools were converted into junior basic schools. By the end of the First Five Year Plan there were only 666 primary schools and 8 secondary schools.

Second Five Year Plan Period:

During the Second Five Year Plan period several schemes were taken up for the development of education. Some of the schemes implemented for the development of education in this district related to the opening of primary, middle and high schools, compulsory primary education and supply of free mid-day meals in the Samithi primary schools. The number of primary schools which was 666 at the beginning of the Second Five Year Plan increased to 817 with an enrolment of about 33,000 children. Compulsory and free primary education was given in all the blocks during the Second Plan period. The free mid-day meals scheme was also implemented in some of the primary schools. The number of secondary schools which was 8 at the beginning of Second Five Year Plan increased to 49 by the end of the Second Plan period with an enrolment of about 14,000 students. Apart from these secondary schools, Government Girls' Schools at Nirmal and Adilabad were upgraded into high schools during the Second Plan period. The Government Boys' Middle School at Adilabad was also upgraded into a high school and the Government Boys' High School, Adilabad was converted into a Multi-purpose School. The following statement shows the number of primary and secondary schools and their strength by the end of the Second Five Year Plan period, i. e., 1960–61, in each Panchayat Samithi and similar particulars in respect of institutions under Govt. control in the non-samithi areas.

Name of the Panchayat Samithi	Primary Education		Secondary Education	
	No. of primary schools in 1960–61	Enrolment in 1960–61	No. of secondary schools in 1960–61	Enrolment in 1960–61
(1)	(2)	(3)	(4)	(5)
Samithi areas				
1. Adilabad	59	2,601	5	969
2. Jainad	48	1,649	..	..
3. Boath	59	2,920	3	695
4. Nirmal	53	1,856	8	1,223
5. Mudhol	89	4.145	5	969
6. Khanapur	48	1,441	4	867
7. Lakshettipet	63	2,911	6	1,550
8. Chinnur	90	3.835	5	995
9. Sirpur	46	1,661	2	1,079
10. Asifabad	64	3,272	3	865
Non-Samithi areas (Govt. Control)				
1. Utnur	31	983	1	193
2. Wankdi	11	374	1	..
3, Dehegaon	53	1,286	1	98
4. Narsapur	60	2,370	..	..
5. City Municipality schools	8	1,009	2	1,778

A sum of Rs. 8,51,692 was spent towards the primary and secondary education during the Second Plan period. In the year 1959 Adilabad Science College was taken over by the Government from private management and an amount of Rs. 63,747 was spent during the Second Plan period to raise the strength of the staff of the college and to purchase additional equipment for the laboratories.

A Basic Training School was opened at Mudhol in 1960 for training teachers. During the academic year 1960–61, 8 private candidates and 43 teachers were trained in this institution. Quarters were constructed for the lady teachers in the block areas.

CHAPTER XI

INDUSTRIES

Adilabad district is one of the backward districts of the Telangana region in the State although it has minerals resources and forest wealth. The Sirpur Paper Mills and the Sir Silk Factory at Kagaznagar in Sirpur Taluk, the Associated Cement Company at Mancheriyal in Lakshettipet taluk, the Hyderabad Chemicals & Fertilisers at Bellampalli in Asifabad taluk, the coal mines at Bellampalli and Mandamarri in Asifabad taluk, the Lime Stone Quarries at Mancheriyal are the only large scale industries now functioning in this district. Great emphasis was, therefore, given under the Five Year Plan schemes for the industrial development of the district. To ensure proper development of handicrafts, cottage, small scale and large scale industries the Government established an office of the Superintendent of Industries at Adilabad in 1957 and it was redesignated in 1958 as the office of the Assistant Director of Industries and Commerce. The staff originally consisted of a Superintendent of Industries, two Industrial Inspectors, one Lower Division Clerk and two peons. A jeep was sanctioned in 1959. The administrative control over the Industrial co-operatives was transferred from the Co-operative Department to the Industries Department during 1958. The actual organisation of the Societies was, however, taken up only during March 1959.

Large, Medium and Small Scale Industries:

The following statement shows the various industries now functioning in Adilabad district.

STATEMENT XI-1

Name of the Industry (1)	No. of units (2)	No. of persons employed (3)
LARGE SCALE INDUSTRIES		
Sirpur Paper Mills, Kagaznagar	1	3,095
Sir Silk Ltd., Kagaznagar	1	2,658
Hyderabad Chemicals & Fertilizers, Bellampalli	1	270
Associated Cement Company, Mancheriyal	1	891
Lime stone Mining at Mancheriyal	N.A.	N.A.
Coal Mining at Mandamarri	N.A.	N.A.
Coal Mining at Bellampalli	N.A.	N.A.

STATEMENT XI—1—*Concld.*

Name of the Industry (1)	No. of units (2)	No. of persons employed (3)
MEDIUM SCALE INDUSTRIES		
Cotton Ginning & Pressing	4	114
Cotton Ginning	6	516
Cotton Ginning, Pressing and Oil	1	151
Beedi Industry	4	845
SMALL SCALE INDUSTRIES		
Agro Industries		
Rice Mills	7	24
Flour Mills	15	28
Dal Mills	3	21
Rice and Dal Mills	5	65
Oil Mills	2	6
Rice, Cotton & Oil Mills	1	49
Rice & Flour Mills	140	280
Rice, Flour & Oil Mills	2	8
Wood based Industries		
Saw Mills	31	221
Furniture Industries	2	42
Village Industries		

The following are the village Industries in this district

Village Pottery	Soap Manufacture
Rope Making	Ink Manufacture
Gunny Making	Toy Making
Brick and Tile	Lime Burning
Tape Weaving	Carpentry
Bamboo & Rattan	Blacksmithy
Agricultural Implements	Wood sawing
Manufacture of Trunks	Leather goods & tanning

Achievements under Five Year Plans:

A large number of small scale industries are functioning in this district and an intensive programme has been taken up by the industrial units for increased production. During the Second Five Year Plan period a sum of Rs. 2.64 lakhs as detailed below was expended on the industrial development of the district.

Name of the Scheme (1)	Expenditure incurred during the Second Plan period (in Rs.) (2)
Strengthening of the Directorate	61,339
Maintenance of jeep	8,957
Additional staff for supervision of industrial co-operatives	3,587
Peripatetic demonstration party, Taser culture, Chinnur	12,760
Common Production centre for Nirmal Toys, Nirmal	1,008
Wooden toy training centre for the manufacture of toys, Nirmal	8,418
State aid to Industries loans	1,68,000
Total	**2,64,069**

Training Programme

In order to give training in different crafts sixteen training centres were started in various blocks in this district and 154 artisans were trained during the Second Plan period. The following statement gives the location of these centres and the expenditure incurred during the Second Plan period.

STATEMENT XI-2

Name of the Block (1)	Category of the Centre (2)	Expenditure incurred during Second Five Year Plan (in Rs) (3)
Adilabad	Training Centre for Women	6,000
Nirmal	1. Regional Rural Artisans Training Centre	N.A.
	2. Training-cum-production Centre	N.A.
Mudhol	Tailoring Centre for Women	6,000
	Common facility centre for Carpenters	7,000
Chinnur	Tailoring Centre for Women	6,000
Lakshettipet	Tailoring Centre for Women	6,000
	Training Centre for Wooden toy manufacturing	9,300
	Demonstration-cum-training unit in bamboo & rattan products	7,618
	Peripatetic demonstration unit in village poultry	3,381
	Rural community workshop for the manufacture of agricultural implements	32,900
Khanapur	Training Centre for Women in dress making & embroidery	2,860
	Common facility Centre for carpenters	9,080
Sirpur	Demonstration-cum-training centre in cumbli weaving	7,618
Utnur	Rural Arts, Crafts & Industries centre for carpentry, blacksmithy, leather goods, poultry and handloom	1,30,330
	Training Centre for Women in tailoring, dress making and embroidery	

Industrial Co-operatives

To bring all the artisans in the district under co-operative enterprise Industrial co-operatives have been organised in the Blocks of the district. These Industrial co-operatives are engaged in tanning and manufacture of leather goods, carpentry and blacksmithy, teli industry, tailoring, woodcrafts, brass, bamboo, rattan, Amber charka, toy making, beedi making and jute industries. The following statement gives the distribution of the 68 Industrial co-operatives functioning in the district according to different types of industry:

STATEMENT XI-3

Nature of Industrial Co-operative Soceity (1)	No. of societies (2)
Processing Societies	9
Leather and Tanning Societies	22
Pottery and Bricks Societies	3
Carpentry and Blacksmithy Societies	11
Non-edible oils and Gram Societies	2
Ambar Khadi Industry	1
Handicrafts Societies	8
Brass Industrial Co-operative Societies	2
Coir Industrial Co-operative Societies	1
Sericulture Industry	1
Tailors' Industrial Co-operative Societies	4
Beedi Industrial Co-operative Societies	1
Chalk Industrial Co-operative Societies	1
Lime and Kiln Industrial Co-operative Societies	1
Multipurpose Society	1
Total	**68**

Out of these, about 48 Industrial Co-operative Societies come under the purview of Khadi and Village Industries. During the Second Plan period the following eight Industrial Co-operative Societies were sanctioned loans by the Director of Industries and Commerce from the allotments of the Khadi and Village Industries Commission, which in turn granted loans to the deserving and needy artisans to start their trades.

STATEMENT XI—4

Name of the Industrial Co-operative Society (1)	Amout of loan sanctioned during Second Plan period (in Rs.) (2)
Teli Industrial Co-operative Society	612
Leather Industrial Co-operative Soceity, Sirsa, Chinnur Taluk	2,700
Teli Industrial Co-operative Society, Chinnur	1,650
Teli Industrial Co-operative Society, Lakshettipet	1,500

STATEMENT XI-4—*Concld.*

Name of the Industrial Co-operative Society (1)	Amount of loan sanctioned during Second Plan period (in Rs.) (2)
Teli Industrial Co-operative Society, Gimma, Adilabad Taluk	1,500
Leather Industrial Co-operative Society, Adilabad	8,000
Leather Industrial Co-operative Society, Gundampalle	2,400
Sumathi Soap Industrial Co-operative Society, Narsapur, Nirmal Taluk	10,250
Total	28,612

Industrial Estates

An Industrial Estate is a developed and planned area with properly designed and readily built factories of different sizes conforming to Municipal and Factory Laws, available on modest rent or rent purchase basis to Small Scale Industrialists with roads and other communication facilities, water and electricity connections.

With the advent of the Five Year Plans the development of small scale industries formed an integral part of the economy. In spite of the need for the expansion of major and medium industries small scale industries cannot be neglected as they serve as ancillaries to larger industries. Generally the handicaps of the small scale industries are many and varied. The resources of the small scale industries are meagre as a result of which they find it difficult to maintain some flexibility to suit the varying requirements at different times. In order to encourage small industrialists and help them in the initial stages to gain self-reliance the Government proposed the setting up of the conventional type of Government Industrial Estates at Nirmal and Mancheriyal at a cost of Rs. 8 lakhs and Rs. 10 lakhs respectively. An area of 42 acres and 37 guntas land has been acquired at Nirmal for the Industrial Estate. 25 Industrialists have deposited Rs. 500 each to take up the Industrial units in the Estate and construction of D-Type factory units is in progress. In Mancheriyal 25 acres and 6 guntas of land has been acquired.

Handicrafts :

The Nirmal Toys Industry is a famous Handicraft industry not only of the district but also of the State and is well-known throughout the country. The Nirmal toys have such a close resemblance to the natural counterparts that sometimes it is difficult to distinguish the real from the artificial. The light wood found in the surrounding forests of Nirmal is used for making the beautiful toys of birds, animals, fruits, vegetables and other decorative wooden pieces like boxes, etc. The Nirmal lacquer works is also another famous handicraft. These works consist of decorative plates, lamps, cigarette boxes, furniture, etc.

There is a Toys and Arts Industial Co-operative Society at Nirmal with 44 members and it manufactures all kinds of toys such as animals, birds, fruits, etc., with natural colours. The average production of this Society is worth about Rs. 15,000 per annum. The common Facility Centre for Toy works at Nirmal provides the required facilities for the toy workers. The Government have also sanctioned a scheme for the training of artisans in the manufacture of wooden toys at Nirmal and 15 trainees are imparted training in every batch in the manufacture of improved toys.

Sericulture :

Sericulture is a growing industry in this State. In Chinnur taluk of Adilabad district Tassar Silk Industry is being developed. Large quantities of the Tassar cocoons are produced by the hill men in the forest areas. The Government therefore, sanctioned a peripatetic demonstration unit at Chinnur to encourage the Tassar rearers to rear Tassar cocoons on Nallamaddi Trees. Nearly 200 families have been provided employment in rearing Tassar cocoons. The Government also sanctioned a Tassar seed Station at Chinnur where Tassar cocoons are purchased and reeled into Tassar Silk.

CHAPTER XII

PANCHAYATI RAJ

Historical Retrospect:

The Dastur-ul-amal (Regulation) of 1298 Fasli (1889 A.D.) was the first regulation promulgated in the Khalsa areas (i.e., Government areas other than Sarf-e-Khas owned by the Nizam and the Jagirs) of the Telangana districts (former Hyderabad State) for regulating the expenditure of the one anna cess collected on every rupee of land revenue collected from 1297 Fasli (1888 A. D.) which was known as 'local fund'. Seven pies out of this one anna local cess were allocated for public works, three pies for ducation and two pies for medical relief. This regulation provided for the establishment of a District Board for each district and a Taluk Board for each taluk. There was equal representation of nominated official and non-official members. The senior local Revenue Officers, i.e., the second Taluqdar (Deputy Collector) and the Tahsildar were the Presidents of the District and Taluk Boards respectively. The Subedars (Revenue Divisional Commissioners) were ultimately responsible to the Government in the local Government Department for the effective functioning of these Boards.

To legalise the levy of local cess, the Local Cess Act was enacted in 1309 Fasli (1900 A.D.) and was subsequently amended in 1317 Fasli (1908 A.D.), 1319 Fasli (1910 A.D.) and 1349 Fasli (1940 A.D.) to suit the changed conditions and to see that the district funds were not utilised exclusively for improving the District and Taluk headquarters at the expense of the rural areas which contributed a major portion of the cess. Necessary steps were taken to separate the town and district funds and to apportion the accumulated balances between them. In 1343 Fasli (1934 A.D.) the Government also issued instructions to ensure adequate representation for the villagers in the Taluk Boards as the non-official members of the Local Boards were hitherto mainly drawn from the urban areas to the detriment of the rural interests.

Though the constitution of the Municipal and Town Committees was envisaged in the Local Cess Act of 1309 Fasli (1900 A.D.), these committees did not come into existence till long afterwards. In 1343 Fasli (1934 A.D.) the Government sanctioned the Constitution of Municipal Committees with a non-official majority in the district headquarters towns and other major towns. Rules for setting up Town Committees with a non-official majority in smaller towns were also framed with the intention of imparting the necessary civic training before introducing the method of election to local bodies.

Subsequently the following Acts were approved by the Nizam in 1351 Fasli (1942 A.D.)

(i) The Local Authorities Loans Act.

(ii) The Panchayats Act.

(iii) The District Boards Act.

(iv) The Municipal and Town Committees Act.

(v) The Sanitary Powers Act.

(vi) The Cantonments Act.

The first of these Acts enabled the local bodies to obtain loans from other local bodies, Government or from the public for undertaking or completing important works within their jurisdiction. Taking advantage of this Act several local bodies installed water works, cleared slum areas and effected other improvements in towns. Though these Acts provided for constitution of Boards at different levels (including Jagir areas) with an elected non-official majority, as certain questions regarding franchise were not decided, the elected local boards were not established. However, the Government approved the formation of interim local bodies under the District Boards and Municipal and Town Committees Acts with a non-official nominated majority and a non-official Vice-President. These local bodies were given certain autonomous powers including greater powers of taxation.

The local bodies so far had no legal Sanitary Powers. Though the Sanitary Powers Regulation was enforced in 1346 Fasli (1937 A.D.) it was neither complete nor did it cover rural areas and minor towns. The New Sanitary Powers Act applied to all towns with provision for its operation in important rural areas also.

Prior to the enforcement of the Panchayats Act the Rural Reconstruction Societies registered under the Co-operative Societies Act functioned in many villages with an elected managing committee under the guidance of the local Revenue or Co-operative Officers. In view of the good work done by these societies in improving villages, settling civil disputes etc., the Panchayats Act had provision to recognise the Rural Reconstruction Societies as Statutory Panchayats. Under this Act, Panchayats were established in villages with population lying between 2,500 and 5,000.

Expansion and re-organisation of the Local Fund Engineering Service, creation of the posts of District Board Secretaries to assist the Taluqdars (Collectors) who were the ex-officio Presidents of the Local Bodies in the district headquarters, construction of primary school buildings in villages with a population of 1,000 persons or more, approval of the system of a unitary budget under which the Revenue Department was entrusted with the preparation of a single budget for all the three heads, viz., Public Works, Education and Medical Relief (instead of three separate budgets prepared earlier by the Revenue, Education and Medical Departments) maintaining as far as possible the original ratio of 7 : 3 : 2 in the matter of current expenditure. Protected water supply and drainage schemes for towns, establishment of the Well Sinking Department to supply water to rural areas in the famine zone were some of the important steps taken during the period 1928-1945, to improve local administration.

In spite of all these legislative measures relating to local Government, the Panchayats under the then undemocratic set up in the former Hyderabad State did not function effectively and had only a nominal existence with very meagre financial and other resources. They were nominated bodies as stated earlier and had no representative character.

After the Police Action and the merger of the Nizam's Dominions in the Indian Union, the elected Government repealed the Act of 1940 and enacted the Hyderabad Village Panchayats Act, 1951. Under this Act, elections to Village Panchayats were held for the first time on the basis of adult franchise. The Government, however, retained the right to nominate some members including those of the Scheduled Castes. A village having a population of over 1,000 but below 5,000 was considered normally as suitable for the establishment of a Village Panchayat. There was, however, a provision to group together villages, if necessary, for this purpose. There was a provision in the Act for the delegation of Gram Panchayat powers to Rural Reconstruction or Co-operative Societies, though in actual practice, very few Rural Reconstruction Societies were so empowered. The functions of Village Panchayats were limited and were divided into obligatory and discretionary. As was the case during the Nizam's regime, even under the popular Ministry the resources of the Village Panchayats were grossly insufficient to meet even the limited power conferred on them. An enabling provision was made in the Act to provide for a Government grant upto 15 per cent of the land revenue of the village and also 1/3 of the local cess as contribution from the District Board. The Act also authorised the Panchayats to levy certain taxes and collect fees. In actual practice, however, the Government did not pay 15 per cent of the land revenue to the Panchayats. In many cases this contribution did not exceed 7 per cent. The Act had provided for the constitution of Nyaya Panchayats but in actual practice none was constituted. In the very first year 1,234 Village Panchayats were constituted under the Act, but the process was stopped in the following year because of lack of finances. The sum total of all these efforts was that little was achieved. After a lapse of two years, the State Government once again undertook the constitution of Panchayats in 1955. In that year another 1,500 Panchayats were constituted bringing the total number of Panchayats to 2,724.

After the Local Self Government Ministers Conference held at Simla in 1954, the State Government re-examined the entire issue. It was considered that the then existing enactment was defective and insufficient to fulfil the objectives. Sri Gopal Rao Ekbote, the then Minister for Local Self Government and now a Justice of the Andhra Pradesh High Court, summarised the main features of this system as follows :

(i) It was not properly elective or representative,

(ii) It was administrational and not self governing,

(iii) It was concerned with too narrow a range of the activities of the community, and

(iv) The boundaries were not drawn with reference to social requirements but purely on geographical grounds.

A new Act known as the Hyderabad Gram Panchayats Act was enacted in 1956, introducing certain improvements over the earlier enactment.

This act considerably enlarged the powers and functions of the Gram Panchayats and adds to their resources. Its main features are described below:

Panchayats are to be constituted for villages with a population of not less than 1,000 and not more than 5,000. The Government can group a number of villages for the purpose. In special cases, however, Panchayats can be constituted for villages with less than 1,000 population or with more than 5,000 population. All adult persons of a village whose names are included in the list of voters, constitute the Gram Sabha. At least two meetings of the Gram Sabha must be held every year to consider the annual statement of accounts, a report on the work done by the Panchayat in the preceding financial year and a programme of work for the next year.

A village is divided into constituencies for the purpose. The representation of each constituency on the Gram Panchayat is on the basis of one Panch for every 150 of the population, provided that the total number of Panches in the Gram Panchayat shall in no case be more than 12 or less than 6. Seats are reserved in the Gram Panchayat for Scheduled Castes and Scheduled Tribes on the basis of their population. The Panches, so elected, then elect a Sarpanch and an Upa-Sarpanch from amongst themselves in their first meeting. The term of office of the Panches is for three years, commencing from the date of the first meeting of the Gram Panchayat. The Government, however, has the power to extend the term of office by one year. The Gram Panchayat has the power to remove a Sarpanch by a 2/3 majority and an Upa-Sarpanch by a bare majority.

The Sarpanch presides over Gram Panchayat meetings, as also Gram Sabha meetings and is responsible for the conduct of day to day administration of the Panchayat. The Gram Panchayat must meet atleast once in a month. The quorum is not less than one-half of the Gram Panchayat membership.

A Novel Feature :

There is a provision for the appointment of a *Karbhari* who will be in charge of preparing and maintaining assessment list, essential statistics, accounts and records and will be entitled to recover dues of the Gram Panchayat. He will be the main Executive Officer responsible for implementing all decisions of the Gram Panchayat. He is appointed by the Collector. The Gram Panchayat may by a resolution passed by a majority of two-thirds of the total number of Panches recommend to the Collector or to the competent officer for taking such disciplinary action as may be referred against the *Karbhari* in respect of any mis conduct or negligence committed by him.

The duties, functions and powers assigned to the Gram Panchayat fall broadly into the following three classes :

(i) Compulsory duties
(ii) Discretionary functions
(iii) Transferred functions

The functions together cover a very wide field of activities. The Gram Panchayats can perform these functions subject to their resources and local requirements. In addition to the functions specified under the Act, the State Government has the power to delegate such functions as it may deem fit.

The statutory functions of the Panchayats can be considered under the following heads.

i) Administrative
ii) Civic
iii) Social
iv) Economic Development
v) Statistics
vi) Judicial and
vii) Police

The Act provides for the vesting of the management of public property and other community buildings in the Panchayat. Gram Panchayats have not taken up the task of collection of land revenue, taxes and fees on behalf of the Government though there is an enabling provision to that effect in the Act. This will enable the Government to gradually eliminate the system of *Watandari*. Land revenue collection is at present done by Patels and Patwaris.

The Panchayats may also maintain the land records which at present are being maintained by village officials.

Civic functions include village sanitation, public health, water supply, transport and communications and building bye-laws. The Panchayats have the powers to lay down rules and standards for sanitation and can impose penalties for their non-observance. There is provision for street drains and general drainage arrangements. Panchayats can construct public lavatories and bathing places. Other civic functions of the Panchayats are filling up of unused wells, insanitary ponds, pools, ditches, hollows or pits; maintenance of public wells and tanks, preventing pollution of drinking water; maternity and child welfare; control of epidemics and contagious diseases; other medical facilities; control over slaughter houses; setting up of hospitals and dispensaries; construction and maintenance of village roads, streets, cart stands, market places and *Dharmasalas*.

The social functions of Panchayats, relate to the following–education, recreation, social welfare, development of libraries and reading rooms, organisation of fairs and public festivals, Akhadas, removal of untouchability, discouraging gambling and drinking, prevention of child marriages, steps for the reduction of wasteful expenditure on marriages, funerals, etc.

The powers conferred on the Gram Panchayats under the Act touch various aspects of rural economy, e.g., agriculture, animal husbandry, subsidiary and cottage industries, marketing and co-operative movement, etc. Under agriculture are included supply of better seeds and manure, improvement of livestock, arrangements for co-operative and collective farming, control of pests and diseases, construction and supervision of minor irrigation works, etc. The Panchayats can also arrange for the cultivition of common lands, lands under Government management and lands which the owners are not able to cultivate. The object of the State Government is to make the Gram Panchayat the mainstone for development of the rural economy.

The Panchayats under the Act have been assigned the duty of collection and maintenance of vital statistics. They are required to help in population and livestock Censuses and in the compilation of data on crops and agriculture.

The Judicial Aspect:

According to the Act, every village shall elect five members to act as Nyaya Panches for a Nyaya Panchayat established for a village and to form a panel of Nyaya Panches for Nyaya Panchayats established for a group of villages. A person elected to the Nyaya Panchayat has to be a permanent resident of the village and should be able to read and write. The Nyaya Panches cannot be members of the Gram Panchayat. The Nyaya Panches elect a Pradhan and an Upa-Pradhan. The term of office of Nyaya Panches is three years, but the Government can extend the term by one year. The Nyaya Panches are required to take oath of office. Panches guilty of misconduct and irregularities can be removed.

The Nyaya Panchayats have been vested with civil, criminal and revenue powers. They can try offences of a minor nature. In addition, they can try offences entrusted to them by the Government. They can order a person to furnish security for the maintenance of peace. They can refer some intricate cases to Munsiff's Court.

Regarding civil suits, Nyaya Panchayats shall have jurisdiction to hear a suit for money due on contracts except in respect of movable property or for the value thereof. They have further jurisdiction to hear cases regarding damages to movable property and suits under the Cattle Trespass Act. The monetary jurisdiction of the Nyaya Panchayat has been fixed at Rs. 100. The Government, however, can raise the pecuniary jurisdiction of any Nyaya Panchayat to Rs. 500. The villagers are entitled, under the Act, to refer for award any of their disputes of whatever value, to the Nyaya Panchayats for arbitration. Some of the disputes under the Hyderabad Record of Rights and Regulations and the Hyderabad Tenancy and Agricultural Lands Acts can be tried by the Nyaya Panchayats.

Conciliation Boards, Village Volunteer Force:

A novel feature of the Hyderabad Act is the constitution of Conciliation Boards in the Gram Panchayats. Each party to the dispute can select one Panch from among those who are elected members of the Gram Panchayats and the third person on the Board is the Sarpanch or the Upa-Sarpanch. It has been specifically provided in the Act that no Nyaya Panchayat shall take cognizance of any dispute unless a certificate of failure of conciliation proceedings

in respect thereof has been produced. It is, therefore, expected that many disputes will be settled and there would be no need to go to Nyaya Panchayats.

The Act lays down detailed procedures for the conduct of Nyaya Panchayats. These are purposely kept very simple. No legal practitioner can appear before the Nyaya Panchayat. The parties, however, can be represented by Agents. Fines imposed by Nyaya Panchayats, if not paid within the specified time, can be realised with the help of superior authorities. The Munsiff Magistrate or the Deputy Collector, has been authorised to revise any decision of the Nyaya Panchayats. Despite the above provisions no steps were taken to establish either Nyaya Panchayats or Conciliation Boards.

The Act authorises the Village Panchayats to constitute a Village Volunteer Force for watch and ward and to assist the Gram and the Nyaya Panchayats in the discharge of their functions, the services of summons and notices. The Government can empower a Gram Panchayat to take measures for maintenance of law and order and prevention of crimes in the village. The Panchayat is authorised to appoint a *Chowkidar*, also called a *Kotwal* in the Act, and one or more as his assistants for this purpose. He is in charge of the watch and ward section of the Gram Panchayat, and has the right to arrest without a warrant any person who is a proclaimed offender, or has been concerned in any cognizable offence, or is in possession of stolen property, or is a deserter from the army. The *Kotwal* has also the obligation to inform the nearest police station of suspicious or sudden deaths or possible disputes.

Sources of Revenue :

The Act provides for the constitution of a Panchayat Fund. The Gram Panchayat Fund consists of all the accumulated balances of the Gram Panchayat, all sums of taxes, tolls, fees authorised to be levied under the Act and all interests and profits arising from any Gram Panchayat investment or transaction and also all fees and fines payable under the Act. Compensation received by the Gram Panchayat under the provisions of the Act, gifts or deposits of private individuals or institutions and loans raised by the Gram Panchayat are also treated as parts of the Panchayat Fund.

The other sources of Revenue of Panchayats are aids and grants from the Government and Local Boards. The Government's contribution is 15 per cent of the land revenue of the village and also 50 per cent of the local cess collected in the village under the District Boards Act.

The obligatory taxes to be imposed by the Panchayats are : (i) Property tax, (ii) tax on professions, trades and callings, (iii) vehicles tax and (iv) a tax on transfer of immovable property. The discretionary taxes are (i) pilgrim tax, (ii) general water tax, (iii) entertainment tax, (iv) animal tax, (v) toll tax and other fees.

Section 86 of the Act authorises the Gram Panchayat, after obtaining the sanction of the Gram Sabha, for a specific period and a specific purpose, to levy a cess at the rate of two annas on every rupee of land revenue. The Gram Panchayats can borrow after obtaining the sanction of the Government.

The Act provides for the preparation of annual budgets by the Gram Panchayats and lays down the procedure for its approval. The then District Boards were authorised to approve the budgets. The accounts have to be submitted to the Gram Sabha.

The Act empowers the Gram Panchayats to introduce compulsory manual labour for purposes of public utility. The approval of the Gram Sabha has to be obtained. The Gram Panchayat can specify the labour to be performed. A person is free to get labour assigned to him performed on his behalf by another person, or pay for its performance at such rates as may be determined by the Gram Panchayat. The Act prescribes penalty for non-performance of labour.

The former District Boards have generally powers of supervision over the Gram Panchayats. The Collector, the President of the District Board, District Panchayat Officer, Deputy Collector, Tahsildar, or any other officer authorised by the Government can inspect any property or work undertaken by the Panchayats. The Collector has the power to stop a Panchayat from undertaking any work considered undesirable or improper. The Government has the power to dissolve a Panchayat for repeated dereliction of duty, but the grounds of dissolution have to be communicated to the Gram Panchayat, which has to be given time to show cause against the proposal. In the period of dissolution, the District Board has the obligation to

perform Panchayat functions in the village. Immediate steps have to be taken for the re-construction of a Panchayat after its dissolution.

Thus the Hyderabad Gram Panchayats Act reveals that the erstwhile Government of Hyderabad have been very bold in conferring extensive rights on the Panchayats. However, in actual practice most of the provisions remained only on the Statute Book and were not implemented.

The Village Panchayats have gained more importance with the introduction of the Panchayati Raj administration from 1959.

Community Development Programme

The pattern of Community Development inaugurated on the 2nd of October 1952 has been gradually modified to suit the needs of our rural communities. The central object of the Community Development programme was to secure the fullest development of material and human resources of the local areas based on the fact that all aspects of rural life are inter-related and that no lasting results can be achieved if individual aspects of it are to be dealt in isolation. The approach was to step up the co-operative principle in its infinitely ranging forms for solving all problems of rural life. The experiment, therefore, in Community Development was started with the introduction of the Community Projects in the wake of the Rural Development schemes. These projects in a very short period achieved great popularity and people every where in other areas started to clamour for similar benefits in their respective villages. On account of these public demands and also considering the limited resources at the disposal of the Government the pattern of Community projects had to be gradually changed over to cover similar and lesser expensive projects. These were known as the National Extension Service Blocks each covering an area of about 150–170 square miles and involving an outlay of about Rs. 4.50 lakhs. The normal operational period of each of the N. E. S. Blocks was to be for three years. Any time within that period depending on the performance in the realm of people's participation, physical attainment and expenditure, the N.E.S. Block got converted into a Community Development Block with a bigger outlay of Rs. 15 lakhs which also included the expenditure incurred during its N. E. S. stage. In June, 1957 the National Development Council decided that the Block should be treated as an unit for the purpose of planning and development and it should be made the agency through which the resources of the Government should flow to the people.

The study team for Community Development and National Extension Service headed by Sri Balwant Rai G. Mehta recommended certain changes in the pattern of Community Development. The Ministry of Community Development accepted these proposals and accordingly removed the distinction between the different types of Blocks and introduced the two stage system. Stage I was to be the intensive development phase, with a provision of Rs. 12 lakhs and Stage II was to be the post intensive phase with a provision of Rs. 5 lakhs. Both stages were to be of a duration of 5 years each. Great emphasis was laid on agriculture and therefore, each Block had to pass through a Pre-Extension stage of one year devoted exclusively to agricultural development. On completion of this Pre-Extension stage of one year the Block automatically entered the Stage I period.

With a view to achieving economy in expenditure consistent with efficiency in administration, whithout adversely affecting the tempo of developmental activities, a High Power Committee was appointed in October 1963 to go into the question of reorganisation of Panchayat Samithi Blocks and allied matters. Pursuant to the recommendations of the High Power Committee, the then existing 447 blocks in the State have been reduced to 321. With the reorganisation of Blocks on the lines recommended by the High Power Committee, the distinction between Stage I, Stage II and Post Stage II of the Blocks has disappeared with effect from 1-7-1964.

With the disappearance of schematic budgets of Blocks of various stages, a new and more rational method of distribution of funds has been envisaged. As per the recommendations of the Committee, the blocks have been categorised as 'Advanced', 'Ordinary', 'Backward', and 'Tribal' Blocks, on the basis of the following criteria with the weightages indicated against each.

		Weightage
(a)	Per capita land revenue assessed within the block	15
(b)	Percentage of irrigated area to cultivated area	25
(c)	Percentage of children of the age group of 6–11 attending schools	10
(d)	Literacy – Districtwise	10
(e)	Districtwise National income	15
(f)	Road mileage for 100 square miles within the Block	25
		100

The Community Development and other funds, after excluding establishment charges are being released to Blocks on a varying per capita basis in inverse proportion to level of development of each block, so that blocks which are less developed will get larger funds compared to others which are better off as shown below:

	Rupees per head of population in the block
a) Advanced Blocks	3/4
(b) Ordinary Blocks	1
(c) Backward Blocks	1-1/4
(d) Tribal Blocks	2

Decentralisation :

Decentralisation of authority and the participation of people in administration have always been considered by great thinkers from the time of Socrates, as the chief embodiments of any democracy. In order that these two essential requisites find place in the fabric of the Indian democracy, on the recommendations of Sri Balwant Rai G. Mehta Committee team, "Panchayat Samithis" were constituted for each of the Community Development Blocks, wherein the people are provided opportunities for participating in the process of administration. All developmental works beneficial to the community and coming within the ambit of Community Development were entrusted to the people's own elected representatives.

The idea of democratic decentralisation was thus conceived and the nucleus for this revolutionary movement was the age old Village Panchayat. The three tier system in which the Panchayati Raj institutions are linked one with the other consisting of the Gram Panchayat with its directly elected Sarpanch and members, the Panchayat Samithi at the block level with the Sarpanches of Gram Panchayats, the Legislators of the State and six others to be elected in the prescribed manner as its members and the Zilla Parishad at the district level consisting of the Presidents of all the Panchayat Samithis within the district, the District Collector and the Legislators of the State and the Centre and six others to be elected in the prescribed manner was evolved as the institutions in which the people's representatives will have their say in the formulation and execution of policies and programmes will be beneficial to the community. The Constitution of Gram Panchayats was, therefore, speeded up in order that the entire rural area comes under one or the other of the Gram Panchayats.

The Andhra Pradesh Panchayat Samithis and Zilla Parishads Act was enacted in 1959 and except the areas within the jurisdiction of the Municipalities in the Andhra region, the areas within the jurisdiction of the city municipalities in the Telangana region, the areas within the jurisdiction of the Municipal Corporation of the Cities of Hyderabad and Secunderabad and the areas within the jurisdiction of Secunderabad Contonment Board and city municipalities, the rest of the area constituting the State of Andhra Pradesh was brought under the ambit of this Act.

Panchayat Samithis :

The Sarpanches of all the Gram Panchayats in a Block constitute the members of the Panchayat Samithi besides two women members, one representative of the Scheduled Castes, one representative of the Scheduled Tribes if their population in the Block is not less than 5% of the total population of that Block and if not, one more representative of the Scheduled Castes and two persons interested in rural development. Apart from these members, the members of the Legislative Assembly of the State representing a constituency which comprises the Block are also members of the Panchayat Samithis. A member of the Legislative Assembly representing a constituency which comprises more than one Block including a portion of any Block will be a member of the Panchayat Samithi of only one such Block which he chooses; and he will have the right to speak in and otherwise to take part in the proceedings of a meeting of any Standing Committee of such Panchayat Samithi, but he is not entitled to vote at a meeting of such Standing Committee unless he is also a member of that Committee. He will also have the right to speak in and otherwise to take part in the Proceedings of a meeting of any Panchayat Samithi or any Standing Committee thereof constituted for the other Blocks comprised within the constituency, but he is not entitled to vote at any such meeting. The members of the Legislative Council of the State specified by Government as members of the Zilla Parishads will become members of one of the Panchayat Samithis in the district. Such member of the Legislative Council will be a member of only one Panchayat Samithi in such district; and where he is a registered voter in any Block in such district, he will be a member of the Panchayat Samithi of only that Block; but if he is not a registered voter in any Block in the district, he will be a member of only

one Panchayat Samithi of his choice in such district. Similarly the Revenue Divisional Officer, District Collector and such other officers as the Government may, by order, specify have got the right to speak in and otherwise to take part in the proceedings of any meeting of a Panchayat Samithi or any Standing Committee thereof functioning within the local limits of their respective jurisdictions but they are not entitled to vote at any such meeting.

The Panchayat Samithi has been placed in complete charge of the implementation of the Community Development Programmes and in addition the Government have also entrusted to it the extension activities of the various development departments of the Government such as Agriculture, Animal Husbandry, Fisheries, Industries, Education, Co-operation, Social Welfare, Women's Welfare, etc.

Every Panchayat Samithi has seven Standing Committees each of which has been placed in charge of a few specified subjects. The Panchayat Samithi with the approval of the State Government, is empowered to constitute one or more Standing Committees if necessary for attending to any specific items of work. All the Standing Committees have independent powers of sanction within specified financial limits and may also execute works and schemes within those limits.

The Block Development Officer is the chief executive officer of the Panchayat Samithi and he is assisted by the Extension staff. The President of the Panchayat Samithi exercises administrative control over the Block Development Officer for the purpose of implementation of the resolutions of the Panchayat Samithi and its Standing Committee.

Zilla Parishad :

At the District level there is the Zilla Parishad comprising the Presidents of all the Panchayat Samithis in the district, the District Collector, the Members of the Legislative Assembly of the State elected from the district, such members of the Legislative Council of the State as the Government may by order specify, the Members of the House of the People elected from the constituency which forms part of the district and such members of the Council of States as the Government may by order specify. Two Women, one representative of the Scheduled Castes and one representative of the Scheduled Tribes if their population in the district is not less than five per cent of the total population of that district and if the population of the Scheduled Tribes is less than such percentage, another representative of the Scheduled Castes and two persons interested in Rural Development have to be elected by the above categories of members.

The Chairman and the Vice-Chairman are to be elected by the members from among the non-officials who are not legislators. The President of any Panchayat Samithi if elected as the Chairman of the Zilla Parishad will automatically cease to be the President of that Panchayat Samithi and his right of membership on the Panchayat Samithi will not be affected. A Secretary appointed by the Government functions as the executive head of this organisation. He is entitled to attend the meetings of the Zilla Parishad or any of its Standing Committee meetings and can take part in discussions, but is not entitled to vote. Like the Panchayat Samithis the Zilla Parishad also functions through its seven Standing Committees. In addition to these seven Standing Committees the Zilla Parishad may, with the approval of the Government, constitute one or more Standing Committees if necessary, for specified purposes. The Chairman of the Zilla Parishad and the District Collector are Ex-Officio members of all Standing Committees while the remaining members are to be elected in the prescribed manner by the members of the Zilla Parishad among themselves. The District Collector is the Chairman of all the Standing Committees. The President or Chairman of the District Co-operative Bank or the Central Bank and the President of the District Marketing Society in the district have the right to speak in and otherwise to take part in the proceedings of any meeting of the Zilla Parishad but are not entitled to vote at any such meeting. The District officers of various development departments, regional and State officers in charge of development activities who are specified by the Government by an order have the right to speak in and otherwise to take part in the proceedings of any meeting of the Zilla Parishad or any Standing Committees thereof functioning within the local limits of their respective jurisdiction but they, however, have no right to vote.

The Zilla Parishad co-ordinates and consolidates plans prepared in respect of all the Blocks in the district and prepares plans in respect of the entire district, and supervises generally the activities of the Panchayat Samithis in the district. It also examines and approves the budgets of the Panchayat Samithis in the district.

The chief sources of finance for the Zilla Parishad are the Central and the State Government funds allotted to it; grant from All India Bodies and Institutions for the development of Cottage, Village and Small Scale Industries; such share of the land cess or local cess, state taxes or fees as may be prescribed; proceeds from taxes or fees which the Zilla Parishad may under any law, levy; income from endowments or trusts administered by the Zilla Parishad; such income of the District Board as the Government may, by order, allot to it; donations and contributions from Panchayat Samithis or from the public in any form; and such contributions as the Zilla Parishad may levy from the Panchayat Samithis with the previous approval of the State Government.

Growth of Community Development Programme in Adilabad District:

The Community Development Programme was first started in Adilabad District on 2nd October 1954 with the inauguration of the National Extension Service Block at Adilabad. No new Blocks were inaugurated during 1955. On 1st April, 1956 Adilabad National Extension Service Block was converted into a Community Development Block and two new Blocks, viz., Lakshettipet National Extension Service Block and Utnur Multi-purpose Project Block were inaugurated. During 1957-58 three more National Extension Service Blocks were inaugurated at Kadam, Chinnur and Sirpur one on 1st April 1957 and two on 2nd October 1957. From 1st April 1958 the pattern of Community Development Programme was changed in the State based on the recommendations of Sri G. Balwantrai Mehta's committee. The above committee suggested the new classification of Pre-Extension, Stage I and Stage II Blocks and the existing Blocks in the State were accordingly reclassified. Lakshettipet, Khanapur, Chinnur and Sirpur National Extension Service Blocks were classified from 1st April 1958 as Stage I Blocks. Adilabad Community Development Block and Utnur Multipurpose Project maintained *status quo*. A new Stage I Block of Mudhol was inaugurated on 1st April 1958 and a Pre-Extension Block of Asifabad was inaugurated on 2nd October 1958. During 1959-60 Asifabad Pre-Extension Block was upgraded into a Stage I Block and two new Pre-Extension Blocks at Nirmal and Boath were inaugurated on 1st April, 1959 and 2nd October, 1959 respectively. During 1960-61 Adilabad Community Development Block was classified as a Stage II Block and the Pre-Extension Blocks of Nirmal and Boath were upgraded as Stage I Blocks. Jainad, a new Stage II Block and Narsapur, a Pre-Extension Block were inaugurated on 1st April 1960. By the end of the Second Five Year Plan there were thus eight Stage I Blocks, two Stage II Blocks, one Multipurpose Project and one Pre-Extension Block in Adilabad district and they covered an area of 5,614.25 square miles consisting of 7,43,965 persons. The Community Development Programme thus covered 90% of the total area and 74% of the total population of the district. In the Blocks major importance was given to agricultural programmes and irrigation. During the Third Five Year Plan the Community Development Programme gained further impetus. The following statement shows the particulars regarding the names of the Blocks together with their dates of inauguration, stage as on 1st April 1961, number of villages in each block and the area of each block in the district.

STATEMENT XII—1

Sl. No.	Name of the Block	Stage of the Block as on 1-4-1961	Date of inauguration	No. of villages in the Block	Area in square miles
(1)	(2)	(3)	(4)	(5)	(6)
1.	Lakshettipet	Stage I	1-4-1956	131	734.07
2.	Khanapur	,,	1-4-1957	76	481.63
3.	Chinnur	,,	2-10-1957	174	688.60
4.	Sirpur	,,	2-10-1957	68	263.60
5.	Mudhol	,,	1-4-1958	150	414 94
6.	Asifabad	,,	2-10-1958	111	548.18
7.	Nirmal	,,	1-4-1959	88	309.03
8.	Boath	,,	2-10-1959	156	556.50
9.	Adilabad	Stage II	2-10-1954	95	257 16
10.	Jainad	,,	1-4-1960	113	318.59
11.	Utnur	Multi-purpose	1-4-1956	166	726.40
12.	Narsapur	Pre-Extension	1-4-1960	103	314.77

During the re-organisation of the Community Development Blocks taken up in 1964 the Blocks were reorganised as per orders issued by the Government in G.O.Ms. No. 532, Panchayati Raj (Samithi-I) Department, dated 15-5-1964.

The Panchayat Samithis were first constituted in this district on 1st November 1959 and the Zilla Parishad on 1st December 1959, on a statutory basis. Therefore, with the introduction of the democratic decentralisation in the set up at the District, Block and Village levels the responsibility and initiation in economic, social, and cultural development in rural areas vested with these popular institutions, viz., Zilla

Parishad at district level, Panchayat Samithi at taluk level and Village Panchayat at the village level. The people are also getting themselves well educated in the proper functioning of these institutions. During the First, Second and Third Five Year Plans more Village Panchayats were inaugurated. During 1955–56 there were only 85 Village Panchayats for the entire district. By the end of the Second Five Year Plan the number of Gram Panchayats in the district increased to 424. By June 1964 when the Panchayat elections were held there were in all 476 Gram Panchayats. Out of these 266 Gram Panchayats elected their members and Sarpanches unanimously. 138 Gram Panchayats elected only their Sarpanches unanimously. The expenditure incurred in each of the Community Development Blocks and the Block-wise physical achievements are given under Administrative Statistics in Part B of this volume and may be referred to.

CHAPTER XIII

GAZETTEER

Adilabad district, situated in the northern most part of Andhra Pradesh, is bounded on the north by Yeotmahal and Chanda districts of Maharashtra State, on the east by Chanda District, on the south by Nizamabad and Karimnagar districts, and on the west by Nanded district. In 1956 Kinwat and Rajura taluks and Islapur circle of Boath taluk were transferred from this district to Chanda and Nanded districts of Maharashtra State under the States Reorganisation Act, 1956. Against this loss in territory the district gained Mudhol, Bhainsa, and Kuber circles from Nanded district which were constituted into Mudhol taluk. Adilabad district so reorganised now occupies an area of 6,256.3 square miles and has a population of 1,009,292 persons (509,550 Males and 499,742 Females) as per the 1961 Census count. There are altogether 1,543 inhabited villages, 178 uninhabited villages and 10 towns. The distribution of the inhabited villages according to broad population sizes is as follows.

Less than 200	462
200— 499	478
500— 999	358
1,000—1,999	204
2,000—4,999	39
5,000—9,999	2
10,000 and above	..
Total inhabited villages	1,543

Most of the villages are small in size and there are only two villages viz., Lakshettipet and Boath in this district having a population of more than 5,000 persons. The ten towns in this district are Adilabad, Asifabad, Bellampalli, Kagaznagar, Chinnur, Mancheriyal, Kadam Damsite, Nirmal, Mudhol and Bhainsa. These towns are also of small size and have less than 50,000 population.

Godavari, Pranahita, Penganga, Wardha, Kadam and Peddavagu are the important rivers that flow in this district. Godavari forms the southern boundary of the district while Pranahita forms the eastern boundary. Penganga and Wardha rivers flow on the northern borders. Kadam and Peddavagu flow across the district. The chief irrigation sources in this district are Kadam Project, Swarna Project, tanks, kuntas, wells and spring channels. Though this district has good rainfall compared to other Telangana districts, only a small percentage of rain water is being used for irrigation. Hence, dry crops are more predominant than irrigated crops in this district and agriculture is subject to the vagaries of the monsoon. The district has a large forest area in this district and a good number of tribal people among whom Gonds and Kolams are the dominant Scheduled Tribes. Most of the people are dependent on agriculture. Sirpur Paper Mills and Sir Silk Factory at Kagaznagar, Associated Cement Company at Mancheriyal, Hyderabad Chemicals and Fertilizer Factory at Bellampalli are the important large scale industries besides the Coal Mines at Bellampalli and Mandamarri and lime stone quarries at Mancheriyal. The district does not have adequate educational and medical facilities and is also not served by well knit road and rail communications. It is divided into ten taluks viz., Adilabad, Utnur, Asifabad, Sirpur, Chinnur, Lakshettipet, Khanapur, Nirmal, Boath and Mudhol for revenue administration. The salient features of each of these ten taluks and the towns therein and some of the places of interest in those taluks are briefly described below.

1. ADILABAD TALUK

Adilabad taluk situated in the north-western portion of the district is bounded on the north by Yeotmahal district, on the east by Chanda district and on the west by Nanded district of Maharashtra State and on the south by Boath and Utnur taluks. This taluk is the headquarters taluk of Adilabad district and extends over an area of 580.5 square miles. It has a population of 117,330 persons (58,005 Males and 59,325 Females) and 23,410 occupied residential houses as per the 1961 Census count. The density of population is 202 persons per square mile. There are in all 187 inhabited villages, 26 uninhabited villages and one town of Adilabad. The following statement shows the number of inhabited villages arranged according to the various population sizes.

Less than 200	47
200— 499	67
500— 999	46
1,000—1,999	26
2,000—4,999	1
5,000—9,999	..
10,000 and above	..
Total inhabited villages	187

There are no villages in this taluk having a population of 5,000 or more persons.

This taluk has extreme climates. In winter there is severe cold and summer is very hot. The average rainfall of this taluk is about 1,020 m.m. This taluk is drained by Penganga and Satnala rivers. Penganga river flows on the northern borders of this taluk while Satnala river flows across the taluk. Besides these two rivers there are many rivulets like Chanda and Dasnapur flowing in this taluk which ultimately join either Penganga or Satnala. The waters of these rivers are not yet usefully tapped for irrigation purposes. There is, however, a proposal to construct a dam across river Satnala near Golleghat village and utilise the waters of Satnala for irrigation purposes. The chief irrigation sources in this taluk are tanks, kuntas and wells and hence the irrigated area is very limited. Only about 1,900 acres are under irrigation in this taluk. After the construction of Satnala Project more villages are likely to have irrigation facilities. This taluk has both road and railway communication facilities which are not quite adequate. A metre gauge railway line of the South-Central Railway runs from Mudkhed of Nanded district to Adilabad with stations at Kosai, Talamadugu and Adilabad. The Hyderabad-Nagpur National Highway runs in this taluk through a length of 18 miles. The road from Adilabad to Bela which is 24 miles in length is another important road in this taluk. Recently roads were constructed connecting Adilabad to Gimma, Jamdapur and Pochera villages. As regards postal communications there is one Sub-Post Office with telephone and telegraphic facilities at Adilabad proper and 19 Branch Post Offices in different parts of the taluk. Proper medical facilities also are lacking in this taluk. There is one District Head Quarters Hospital and a Maternity Hospital at Adilabad and a Primary Health centre at Talamadugu. Wells and rivers form the main sources of drinking water. Only Adilabad town, the district headquarters has protected water supply system. As regards educational facilities there is a Science College, a Multipurpose High School, a Girls' High School and a Balak Mandir at Adilabad. Besides these institutions there are 7 Middle Schools and 119 Primary Schools in this taluk. Weekly fairs are held in Adilabad, and also in big villages like Tamsi, Jainad, Bela, Pipalkhoti, Gimma etc. The important festivals held in this taluk are the Jataras at Adilabad and Jainad and Sharif Urs at Chanda. There are no major industries in this taluk. The places of importance in this taluk are briefly explained below :

Adilabad Town:

The headquarters of Adilabad district, and also the headquarters of the taluk of the same name is a City Municipality. It extends over an area of 7.75 square miles and has 20,970 persons (10,777 Males and 10,193 Females) and 3,847 occupied residential houses as per the 1961 Census count. There is a Government Science College, a Multipurpose High School, a Girls' High School and a Balak Mandir in this town. The District Headquarters Hospital and the Maternity Hospital cater to the medical needs of this town while good drinking water is made available to the people through a protected water supply system. There is a Sub-Post Office with telegraph facilities. This town being situated on the Hyderabad-Nagpur National Highway has good road communication facilities. A.P.S.R.T.C. buses ply connecting Adilabad to the neighbouring district headquarters. This town is connected by the Mudkhed-Adilabad Metre Gauge Railway line. All the district offices like Collectorate, District Court, Zilla Parishad Office etc., that complement the district headquarters are located in this town. There is protected water supply system in this town.

2. UTNUR TALUK

Utnur taluk, situated in the central part of Adilabad district, extends over an area of 726.4 square miles. It is covered with hills and forests and is inhabited largely by tribal people. Gonds are the most numerous among the tribals. According to the 1961 Census count this taluk has a total population of 55,099 persons (28,076 Males and 27,023 Females) and 10,490 occupied residential houses. This taluk is completely rural and there are no urban units in it. There are altogether 158 inhabited villages and 11 uninhabited villages. The following statement shows the number of inhabited villages arranged according to the various population sizes.

Less than 200	71
200— 499	53
500— 999	25
1,000—1,999	7
2,000—4,999	2
5,000—9,999	..
10,000 and above	..
Total inhabited villages	158

There are no villages with more than 5,000 population.

This taluk has only small rivulets and no big and important rivers worth mentioning. Hence the

irrigation facilities are very poor. There are only seven tanks with an ayacut of about 500 acres in this taluk. The total forest area extends over 58,570 acres. The climate is of the extreme type with severely hot summer and very cold winter. The average annual rainfall is about 1,270 m.m.

Agriculture in this taluk consists of dry cultivation to a very large extent. Transport and communication facilities in this taluk are very poor. There are no railway facilities and the people have to depend only on road transport which is also not adequate. A road connects Utnur, the taluk headquarters with Hyderabad-Nagpur National High Way on which buses ply regularly from Utnur to Adilabad and provide transport facilities. In view of the inadequate transport facilities the tribal people generally dispose off the forest produce etc., to local merchants at unreasonably low prices. There is a Zilla Parishad Middle School at Utnur and many of the big villages have a primary school each. The Social Welfare Department is running some Primary Schools for the tribal children wherein Gondi is taught in Devanagiri script. There is a Teachers' Training Centre functioning at Marlawai village as also a Hostel for tribal boys. Medical facilities are also lacking in this taluk. There is only one Government Hospital at Utnur besides one Rural Primary Health Centre at Jainad with the Sub-Centres at Indurvelli, Tosham and Narnoor, a Mobile Medical Unit and an Ayurvedic Dispensary. Wells are the main source of drinking water. During the Second and Third Five Year Plans about 102 drinking water wells were constructed under the National Rural Water Supply Scheme and 27 wells were constructed under Project Agency. The Nagoba Temple at Keslapur Buzurg is an important place of worship in this taluk. The annual fairs celebrated by the tribal people are the Kamdev fair at Narnoor and Nagoba Temple fair at Keslapur. Apart from the usual festivals the tribal people in this taluk celebrate the festivals of Pensapen, Bhimalpen, Akadi and Jamaranne. Weekly shandies are held at Indurvelli, Shampur, Utnur, Narnoor, Sirpur, Hasnapur and Tosham. There are no Small Scale or Cottage Industries of any importance in this taluk. Among the tribals there is a special class of artisans called 'OJJIS' in this taluk who are engaged in brass works. They manufacture small and artistic chimnies required for the tribal people. A brief account of the places of importance is given below.

Utnur Village :

The headquarters of the taluk by the same name is situated at a distance of 32 miles from Adilabad on Adilabad-Utnur road. The present village was constructed about 50 years ago after the original one was deserted owing to the outbreak of an epidemic. This village extends over an area of 5.57 square miles and according to the 1961 Census count has a population of 2,975 persons and 620 occupied residential houses. Buses plying from Utnur to Adilabad provide necessary transport facilities. There is a Middle School and a Government Hospital in this village. Being the headquarters of the taluk, this village has the usual taluk level Government offices like the Taluk Office, Police Station, Post Office, Block Development Office etc., that complement the taluk headquarters. The temples of Anjaneyaswamy, Ramaswamy, Bhimanna, and Pochamma, and a mosque are the places of worship in this village. Sri Anjaneyaswamy Aradhana is celebrated in the month of Sravana. Syed Sadiq Urs is celebrated on 13th Shahban.

Keslapur Buzurg :

Situated at a distance of 16 miles from Utnur and about 20 miles from Adilabad is an important pilgrim centre. The village extends over an area of 1.48 square miles and has a population of 521 persons and 102 residential houses as per the 1961 Census count. This village is famous for its Nagoba temple with a stone image of Seshnag (Serpent-God). The Gonds of Mesram clan of Edwen Saga of Adilabad district worship this deity with great pomp. Nagoba Jatara is celebrated for five days from *Pushya Bahula Amavasya* (December -January). The *Puja* is performed at the midnight of *Pushya Amavasya*. A day before the main *Puja*, all the people of the Mesram clan gather under a huge banyan tree near the shrine and do not go back to their houses till the worship is completed. They prepare sweets on the following day and offer milk and curd to the deity. All these offerings are kept near a small hole, still existing, which is considered to be the entrance of the Serpent God and covered with a white cloth. Sacred rice is distributed by the *Katoda* (priest), a Gond, to all the persons assembled there. He recites some *mantras* (sacred verses) and takes back the rice. When the cloth shakes, they believe that the Serpent God has come and touched their offerings. Married women whose husbands are from the Mesram clan, worship the deity specially and are ritually united with the clan on this day. They all gather in separate places near the temple, cook their food and enjoy. Marketing is done only after finishing the *Puja*. Devotees, even from distant places congregate here for this Jatara. A fair is also held here in this connection.

3. ASIFABAD TALUK

Asifabad taluk situated in the eastern half of Adilabad district, is bounded on the north by Rajura taluk of Chanda district of Maharashtra State, on the east by Sirpur taluk, on the south by Chinnur and Lakshettipet taluks and on the west by Utnur taluk. The taluk extends over 833.9 square miles and has a population of 119,570 persons (61,063 males and 58,507 females) and 25,499 occupied residential houses as per the 1961 Census count. There are altogether 223 inhabited, 18 uninhabited villages and two towns viz., Asifabad and Bellampalli. The following statement shows the number of inhabited villages arranged according to the various population sizes.

Less than 200	111
200— 499	64
500— 999	26
1,000—1,999	19
2,000—4,999	3
5,000—9,999	..
10,000 and above	..
Total inhabited villages	223

There are no villages with more than 5,000 population in this taluk.

There are two Panchayat Samithi blocks in this taluk, with headquarters at Asifabad and Wankdi. Wankdi Block covers Wankdi Ada and Ginnedhari Revenue circles while Asifabad Block covers Asifabad, Rebbana and Tandur circles. The climate of this taluk is moderate. Winters are cold and summers are hot and heavy rainfall is found in this taluk. The average annual rainfall is about 1066.80 m.m. This taluk has large tract of dense forest. The western part of this taluk is hilly and has thick forest. This taluk is also largely inhabited by tribal people of whom Gonds are the most numerous. The people in this taluk speak Telugu, Marathi and Goudi. About 86 villages of this taluk are notified as tribal villages under this Tribal Area Regulations. Agriculture is the main occupation of the people. Except Peddavagu there are no big rivers. But the waters of Peddavagu are not used for irrigational purposes and are used only for drinking purposes. Irrigation is carried on by rainfed tanks and kuntas. There are at present no projects in this taluk; however, there is a proposal to construct a dam across Peddavagu near Ada village as a flood control project at an estimated cost of about Rs. 4½ crores to irrigate lands in Asifabad and Sirpur taluks. The survey for the construction of this project has also been completed. At present dry cultivaton is practised over almost the entire taluk. The important dry crops raised are jawar, redgram, sesamum, greengram, linseed and bajra. Wet cultivation is done only in a few villages of Tandur and Rebbana circles. The chief wet crop is paddy. There is one Zilla Parishad High School at Asifabad besides one Aided Mission High School and a Zilla Parishad Middle School at Bellampalli. Almost all big villages have a Primary School each. As regards the medical facilities, there is one Government Hospital at Asifabad. In Bellampalli there is one Hospital of the Singareni Collieries and a Railway Hospital. Besides these three hospitals there is one Ayurvedic Hospital at Tandur. There is also one veterinary hospital at Asifabad. Asifabad town, Bellampalli and Tandur villages are supplied with electricity from Ramagundam Thermal Power station. Post, Telegraph and Telephone facilities are available in Asifabad and Bellampalli. Coal Mining at Bellampalli is an important Large Scale Industry of this taluk. The common Small Scale and Cottage Industries are, Handloom-weaving, Spinning, Blacksmithy, Pottery, Mat-weaving, Toy-making, Goldsmithy, Carpentry, Shoe-making etc. This taluk is served both by road and railway but the existing facilities are not adequate. There are three bus routes on which buses ply from Asifabad to Mancheriyal, Rajura of Chanda district, Maharashtra State, and to Kerameri. The village roads are not accessible in rainy season and also in early winter season. A road from Asifabad to Sirpur is under construction. A brief account of the places of interest is given below :

Asifabad Town :

A Town Municipality, is the head-quarters of the Revenue Divisional Officer and also of a taluk of the same name. The popular name of Asifabad is Ragonipet. It was originally a small village with a police station. It soon developed into a town and became the taluk headquarters in 1907. In 1913-14 it attained the status of a district headquarter. In 1941 the district headquarters was shifted to Adilabad and it remained to be the headquarters of a Revenue Division. The original name of this place was Jugama, the corrupted form of Junagav in Marathi. It was formerly ruled by Ankumaraju, a Gond Chieftain, who was so popular that a temple was constructed over his tomb and ballads were composed about his life and are being sung even today. The town extends over an area of 8.20 square miles and has a population of 6,190 persons (3,162 males and 3,028 females) and 1,099 occupied residential houses according to the 1961 Census count. This

town is connected by road and is at a distance of 12 miles from Asifabad Road Railway Station on Kazipet-Balharsha broad gauge railway line of the South-Central Railway. There is a post office with telegraph and telephone facilities. There is one Zilla Parishad High School and a Middle School besides a few Primary Schools. There is one Government Hospital at Asifabad and a Civil Dispensary. There is also one veterinary hospital. This town has the usual Government offices, like the office of the R.D.O., Tahsil office, Munsif Magistrates' Court, P.W.D. office, Forest Range office, Agricultural Assistant's office, Panchayat Samithi office which complement the Revenue Divisional Headquarter. Drinking water is obtained generally from wells and in the case of villages near and around the river 'Peddavagu' the people use the river water for drinking purposes. For the convenience of the travellers there is one P.W.D. Inspection Bungalow. A weekly market is held here on every Saturday. The temples of Ganesh, Baleshwaraswamy, Keshavanathaswamy, Sivakesavaswamy and Anjaneyaswamy are the places of worship in this town.

Bellampalli :

Situated on the Mancheriyal-Asifabad road, extends over an area of 2.84 square miles and has a population of 29,101 persons (15,392 males and 13,709 females) and 6,904 occupied residential houses according to the 1961 Census count. This is the biggest town in this taluk. This town has attained industrial importance due to the existence of Coal Mines. There is one Aided Mission High School and a Zilla Parishad Middle School in this town. Medical facilities are provided by a private Hospital run by the Singareni Collieries Co. Ltd., and the Railway Hospital. There are a few offices like the office of the Deputy Superintendent of Police, Branch office of the Singareni Collieries Co. Ltd., Office of the Deputy Forest Ranger. This town has protected water supply system. It has both road and rail communication facilities. It is a Railway Station on the Kazipet-Balharsha broad gauge railway line of the South-Central Railway. There is a sub-post office with telegraph and telephone facilities. There are three Rest Houses to provide lodging facilities. There is one Singareni Colliery's library and one public park. The Jangam Mahadeva Matham and the Church of South India are the important places of worship. Mining is the chief occupation of the people of this town. On an average about 25,000 tons of coal is excavated from various pits at Bellampalli by the Singareni Collieries Company Ltd. The three important coal mines here are Singareni Coal Mines, Shanti Khani and Kannel Khani. M/s. Hyderabad Chemicals and Fertilisers Factory is also located in this town and it provides employment to about 200 persons.

4. SIRPUR TALUK

Sirpur taluk, situated in the north-eastern corner of the district, is bounded on the north and east by Chanda district of Maharashtra, on the south by Chinnur taluk, and on the west by Asifabad taluk. It extends over an area of 855.7 square miles but is sparsely populated with a total population of only 134,648 persons (69,405 males and 65,243 females) and 29,033 occupied residential houses as per the 1961 Census count. There are altogether 186 inhabited villages, 17 uninhabited villages and one town viz., Kagaznagar town in this taluk. The following statement shows the number of inhabited villages according to the various population sizes.

Less than 200	54
200— 499	67
500— 999	35
1,000—1,999	24
2,000—4,999	5
5,000—9,999	..
10,000 and above	..
Total inhabited villages	186

The main rivers that flow in this taluk are Wardha, Pranahita and Peddavagu. Wardha and Pranahita rivers flow on the northern and eastern borders separating this taluk from Chanda district while Peddavagu flows across the taluk from west to east and ultimately joins river Pranahita. The waters of these rivers are not utilised for irrigation purposes. This taluk is therefore, mainly a dry taluk. The chief crops raised in this taluk are jawar, dry paddy, maize and pulses. This taluk has thick forests with heavy growth of timber and bamboo. Most of the bamboos are consumed by the Sirpur Paper Mills, Kagaznagar, for the manufacture of paper. Timber is being exported from this taluk to many parts of the country. The Kazipet-Balharsha broad gauge railway line of the South-Central Railway runs in the north-western portion of the taluk with stations at Sirpur and Kagaznagar. Road transport and communication facilities in this taluk are very unsatisfactory and during rainy and winter seasons vehicles cannot ply on the roads. There are two Zilla Parishad High Schools functioning at Sirpur and Kagaznagar and one Zilla Parishad Middle School at Kanepalle. Besides these institutions, there are Primary Schools in big villages.

The medical facilities in the taluk are very inadequate. There is one Government Hospital at Sirpur and an E. S. I. Dispensary at Kagaznagar. Wells are the main source of drinking water. There is a 'Siva Temple' in Easgaon village where people from distant places come and worship. Weekly shandys are held on Saturdays at Sirpur and on Sundays at Kagaznagar. Many of the villagers from surrounding villages gather at these weekly markets to sell their produce and to purchase their requirements. Sirpur Paper Mills and Sir Silk Factory are the two Large Scale Industries in this taluk, each of these establishments providing employment to more than 1,000 workers. There are no important small scale industries in this taluk. Sirpur and Kagaznagar are the only places of importance in this taluk.

Sirpur Village :

A railway station on Kazipet-Balharsha broad gauge railway line of the South-Central Railway is the headquarters of the taluk of the same name. It extends its area over 1.77 square miles and has 1,132 occupied residential houses. It has a population of 4,763 persons as per the 1961 Census count. There is one Zilla Parishad High School. Medical facilities are provided by the Government Hospital. There is also a veterinary hospital in this village. Being the taluk headquarters this village has the usual complement of offices of a taluk headquarters like the Tahsil office, Munsif Court, Block Development office, Police station, etc. There is a Post Office with telegraph facilities. The Forest Rest House provides lodging facilities to travellers. Wells are the main source of drinking water. The temples of Durga and Yellamma are the places of worship in this village.

Kagaznagar Town :

Situated on Kazipet-Balharsha broad gauge railway of the South-Central Railway is the only town in Sirpur taluk. This town has attained importance on account of the Sirpur Paper Mills and Sir Silk Factory. It extends over an area of 5.71 square miles and has a population of 30,604 persons (16,735 males and 13,869 females) with 7,404 occupied residential houses as per the 1961 Census count. Apart from the Sirpur Paper Mills and Sir Silk Factory there are some Government offices like the Forest Office and Excise Office. There is a Police Station and a Post Office with telephone and telegraph facilities in this town. There is one Zilla Parishad High School. The E.S.I. Hospital provides medical facilities. Drinking water is obtained through wells and pipes. As the town has developed only because of the paper and rayon industries most of the working population are employed in the Sirpur Paper Mills and the Sir Silk Factory which were established in 1940 and in 1953 respectively.

5. CHINNUR TALUK

Chinnur Taluk is situated in the South-East corner of Adilabad district. This taluk extends over an area of 688.6 square miles and has a population of 95,800 persons (48,814 males and 46,986 females) with 19,383 occupied residential houses as per the 1961 Census count. There are 151 inhabited villages, 22 uninhabited villages and one town viz., Chinnur town in this taluk. The following table shows the number of inhabited villages arranged according to the various population sizes.

Less than 200	38
200— 499	43
500— 999	44
1,000—1,999	25
2,000—4,999	1
5,000—9,999	..
10,000 and above	..
Total inhabited villages	151

Chinnur taluk is drained by Godavari and Pranahita rivers. Both these rivers flow in the southern and eastern borders respectively of the taluk and separate this taluk from Manthani taluk of Karimnagar district and Chanda district of Maharashtra State. Pranahita river flowing on the eastern border joins Godavari at Ravelpalle village. This taluk is usually affected by the frequent floods in these two rivers. There is a large extent of thick forest area in this taluk. The average rainfall of this taluk is about 1,651 mm. The soil in this taluk is sandy and loamy. The main occupation of the people is agriculture. Being a forest area many are engaged in log felling and transporting the timber etc., to Mancheriyal. The taluk is lacking in communication facilities. It is not traversed by any railway line. Mancheriyal of Lakshettipet taluk is the nearest Railway Station. There is a road from Mancheriyal to Chinnur on which buses ply and afford transport facilities. Due to the presence of loamy soil paddy is produced under rain-fed tanks. The other important crops raised are jawar and gingelly. The soil in the vicinity of the rivers Godavari and Pranahita is alluvial and rice is extensively produced in this area under tank water. There is only one minor irrigation project in Gangaram village in this taluk

which is in good condition commanding an area of 624 acres. There are about 246 minor irrigation sources in all in this taluk irrigating about 9,300 acres. There is a Zilla Parishad High School at Chinnur besides three Middle Schools at Bheemaram, Neelvai and Vemanpalle villages. Most of the big villages have Primary Schools. There is one Government Hospital and one Primary Health Centre at Chinnur and another Primary Health Centre at Kundaram village. A brief account of Chinnur Town, the headquarters of the taluk and the only place of some importance is given below :

Chinnur Town :

Situated at a distance of 24 miles from Mancheriyal Railway Station on Mancheriyal-Chinnur road, is the headquarters of the taluk of the same name. During the time of the Kakatiya ruler, Ganapati Deva, this part of the country was ruled by his vassal, one Alluru Potharaju. This town is now a town Municipality and extends over an area of 11.13 square miles. It has a population of 9,645 persons (4,821 males and 4,824 females) and 1,879 occupied residential houses as per the 1961 Census count. There is one Zilla Parishad High School. There is one Government Hospital and one Primary Health Centre at Chinnur to provide medical facilities. Being the taluk headquarters this town has the usual complement of Government Offices, like the Tahsil office, Munsif Court, P.W.D. office, Forest Range office, Central Excise office, etc. This town has a Post Office with telegraph and telephone facilities. There is a P.W.D. Travellers' Bungalow. Tanks and wells are the main sources of drinking water. The main occupation of the people in Chinnur Town is agriculture. As the river Godavari forms the boundary of this town, alluvial soil is also found in the town in addition to the sandy soil. Paddy is also cultivated here in addition to jawar. There are no large scale industries in Chinnur. Among small scale industries the hand-stick industry and carpentry are important. The temples of Siva, Jagannadhaswamy and Pochamma and a mosque are the places of worship.

6. LAKSHETTIPET TALUK

Lakshettipet taluk is bounded on the north by Utnur and Asifabad taluks, on the east by Chinnur taluk, on the south by Sultanapur taluk of Karimnagar district and on the west by Khanapur Independent Sub-Taluk and Jagtial Taluk of Karimnagar district. This taluk extends over an area of 734.1 square miles. This taluk has a population of 123,397 persons (63,330 males and 60,067 females) and 25,367 occupied residential houses according to the 1961 Census count. There are altogether 121 inhabited villages, 12 uninhabited villages and one town viz., Mancheriyal. The following statement shows the number of inhabited villages according to the different population sizes.

Less than 200	18
200— 499	25
500— 999	37
1,000—1,999	31
2,000—4,999	9
5,000—9 999	1
10,000 and above	..
Total inhabited villages	121

The only village having a population of over 5,000 persons is Mandamarri (6,360 persons). Most of the villages in this taluk are situated in the southern part of the taluk on the banks of river Godavari and in the eastern border. The remaining portion of the taluk is covered with thick forests.

Valuable timber like teak, *Nallamaddi* etc., are contained in the reserve forest blocks of Gawal and Ryali. The forest area is about 170,400 acres. This taluk is divided into five revenue circles, viz., Jannaram, Dandepalle, Lakshettipet, Mancheriyal and Mandamarri. This taluk is drained only by river Godavari which flows on its southern borders. It enters the taluk at Rainlaguda village and leaves it at Singapur. About 24 villages of this taluk are situated on the banks of the river Godavari. The climate of the taluk is generally congenial. The average annual rainfall is about 760 mm. There are two types of soils found in this taluk, namely black cotton and chalka soil and wet and dry crops are raised. About 65,000 acres of land in this taluk are benefited under the Kadam project. Apart from the Kadam project, the other chief irrigation sources are tanks, kuntas, wells and channels. There are about 208 minor irrigation sources with ayacut as given below :

Ayacut	No. of of minor irrigation sources
1. Up to 10 acres	95
2. Between 10 acres and 50 acres	87
3. Between 50 and 100 acres	14
4. Above 100 acres	12
Total	208

The agricultural development of the taluk is mainly dependent on the Kadam Project which supplies water to about 65,000 acres. Due to breaches in the Kadam Dam which occurred in 1958 regular

water supply for irrigation purposes was not possible for sometime. Restoration work has been taken up. This taluk is having both road and railway communication facilities. The Kazipet-Balharsha broad gauge railway line of the South-Central Railway runs in the eastern border of this taluk with stations at Peddampet, Mancheriyal and Mandamarri. Lakshettipet is connected by good metalled roads to the neighbouring taluk headquarters of Chinnur, Asifabad, Khanapur and Nirmal on which buses ply regularly and afford necessary transport facilities. There is a connecting road to Karimnagar at a point from Kothur near Lakshettipet. Karimnagar is about 44 miles from Lakshettipet on this route. The interior parts of the taluk have no proper road transport facilities. Most of the villages have cart tracks connecting each other.However, villages in Mandamarri circle and Dandepalle circle are not accessible during the rainy season. There are two Zilla Parishad High Schools functioning at Mancheriyal and Lakshettipet and two Middle Schools at Dandepalle and Mandamarri in this taluk. In addition to these there are a good number of Primary Schools in the big villages. The Government Hospital and a Christian Mission Maternity Hospital at Lakshettipet, a Primary Health Centre at Kasipet and an Ayurvedic Dispensary at Jannaram, provide medical facilities in this taluk. Wells and tanks are the main sources of drinking water. The coal mines in Mandamarri village, the Cement Factory and saw mills at Mancheriyal are the important large scale industries in this taluk. The coal mines are under the management of M/s Singareni Collieries Co. Ltd. There are no important small scale industries in this taluk.

A brief account of the places of importance in this taluk is given below.

Lakshettipet Village:

Situated at a distance of 16 miles from Mancheriyal on Nirmal-Mancheriyal road, is the headquarters of the taluk of the same name. It extends over an area of 2.28 square miles and has a population of 3,962 persons (2,151 males and 1,811 females) and 728 occupied residential houses as per the 1961 Census count. There is a Zilla Parishad High school. The Government Hospital and the Christian Mission Maternity Hospital provide medical facilities. There is a police station and a post office with telegraph facilities. This village is connected to Mancheriyal, Asifabad, Khanapur and Nirmal by road on which buses ply regularly and provide transport facilities. Being the taluk headquarters, the usual Government offices like Taluk Office, that complement a taluk headquarters are located in this village.

Mancheriyal :

A City Municipality, is the only urban unit in Lakshettipet taluk. It extends over an area of 6.75 square miles and has a population of 13,822 persons (7,308 males and 6,514 females) according to 1961 Census count. There are altogether 2,851 occupied residential houses in this town. There is one Zilla Parishad High School. The Government Dispensary provides medical facilities. This town has good road and railway transport facilities. It is a Railway station on the Kazipet-Balharsha broad gauge railway line of the South-Central Railway and is connected to Lakshettipet, Chinnur and Asifabad by road on which buses ply regularly.

This is an important industrial town in Lakshettipet taluk. There is a cement factory in this town which employs about 500 persons per day and produces about 33,000 tons of cement per month. It is also a good trading centre. There is a railway bridge over the river Godavari near this town.

Mandamarri :

A coal mining village, is the biggest village in population size in this taluk. It extends over an area of 15.00 square miles. It has a population of 6,360 persons (3,425 males and 2,935 females) and 1,626 occupied residential houses according to the 1961 Census count. There is a Zilla Parishad Middle School in this village. A Government Dispensary caters to medical needs of the village. This village is situated at a distance of 8 miles from Mancheriyal and is the headquarters of a Revenue Circle apart from being a coal mining centre. The coal mines in this village are called the "Kalyan Kanni", and are situated on the right side of the Asifabad-Mancheriyal road. There is a colony of the mining workers consisting of about 1,500 quarters in Mandamarri village. The coal mines here are under the management of Singareni Collieries Co. Ltd.

7. KHANAPUR IND. SUB-TALUK

Khanapur Independent Sub-taluk, formerly known as Yelagadap taluk, is bounded on the north by Utnur and Boath taluks, on the east by Lakshettipet taluk, on the south by Karimnagar district and on the west by Nirmal taluk. It extends over an area of 313 sq. miles and has a population of

55,710 persons (28,831 males and 26,879 females) and 11,768 occupied residential houses as per the 1961 Census count. There are altogether 73 inhabited villages, 3 uninhabited villages and one town viz., Kadam Damsite. The following statement shows the number of inhabited villages according to the various population sizes.

Less than 200	16
200— 499	18
500— 999	22
1,000—1,999	14
2,000—4,999	3
5,000—9,999	..
10,000 and above	..
Total number of inhabited villages	73

There are no villages in this Independent Sub-taluk with over 5,000 population.

River Godavari and River Kadam are the two important rivers flowing through this taluk. River Godavari flows on the southern border of this taluk while river Kadam flows across this taluk and ultimately joins the Godavari river. The soil in this taluk is generally red chalka but there are patches of black-cotton soil at some places. The important irrigation sources in this taluk are the Godavari Channel and Kadam Project. About 52 villages are benefited under these two projects. The other irrigation sources are the tanks, wells and kuntas. Rice cultivation is, therefore, extensive in this taluk. Many of the local population are employed in log felling in the forests which are extensive and dense. The average annual rainfall of this taluk is about 800 m.m. There is a Zilla Parishad High School at Khanapur and Zilla Parishad Middle Schools at Jannaram, Dasturabad and Pembi, to provide educational facilities. As regards the medical facilities in this taluk, there is a Government Hospital at Khanapur with a bed-strength of 15. There are two Govt. Medical dispensaries at Khanapur and Kadam. Wells are the chief sources of drinking water. The important festivals celebrated in this taluk are the Venkateswaraswamy Jatara at Sujapur village; Akkakonda Narasimhaswamy festival at Dildarnagar, and Bheemanna Devuni festival at Pembi. Venkateswaraswamy Jatara is also celebrated in Khanapur. A large number of people congregate at these festivals. Weekly shandys are held at Khanapur, Kadam, Dasturabad, Kalmadeg, Pembi and Yelgadap. The road from Nirmal to Mancheriyal passes through this taluk and provides necessary road transport facilities. This taluk is not traversed by any railway line. The interior parts of the taluk are badly in need of proper road communication facilities. A brief account of the important places in this taluk is given below.

Khanapur Village :

Is the headquarters of the independent sub-taluk of the same name. It extends over an area of 1.76 sq. miles and has a population of 2,740 persons (1,352 males and 1,388 females) according to the 1961 Census count. There is a Zilla Parishad High School, a Govt. Hospital, a Police Station and a Post office apart from the office of the Dy. Tahsildar. It is connected by road to the neighbouring taluk headquarters of Nirmal and Lakshettipet.

Kadam Damsite :

The only town in this Independent Sub-taluk is a project town. It has developed into a township on account of the construction work of Kadam Project. It extends over an area of 0.66 sq. miles and has a total population of 6,235 persons (3,623 males and 2,612 females) according to 1961 Census count. There is a middle school and a Govt. Dispensary to provide educational and medical facilities.

8. BOATH TALUK

Boath taluk situated in the north-western portion of Adilabad district is bounded on the north by Adilabad taluk, on the east by Utnur taluk, on the south by Khanapur and Nirmal taluks and on the west by Kinwat taluk of Nanded district of Maharashtra State. This taluk extends over an area of 554.9 sq. miles and is situated at a height of 1,200ft. above sea level. It has a total population of 69,881 persons (35,113 males and 34,768 females) and 12,837 occupied residential houses as per the 1961 Census count. There are altogether 142 inhabited villages and 31 uninhabited villages. This taluk is completely rural and there are no urban units in it. The following statement shows the number of inhabited villages according to the various population sizes.

Less than 200	48
200— 499	48
500— 999	32
1,000—1,999	9
2,000—4,999	4
5,000—9,999	1
10,000 and above	..
Total inhabited villages	142

This taluk is not drained by any important rivers. The Kadam river takes its origin in this taluk at Bhutai village and enters Khanapur Independent Sub-taluk at Kuntala village. The Kadam river falls

here from a height of about 150 ft. The scenic beauty of the Kuntala Waterfalls which are the highest in Andhra Pradesh, is worth enjoying. There is a proposal to construct a Thermal-Hydro Power station also at this start. This taluk has about 11,000 acres of thick forest area. Teak (*Tectona grandis*) and Nallamaddi *(Terminalia Tomentosa)* are the main species of timber growing in this forest area. This taluk is generally very hot in summer and very cold in winter. The average annual rainfall is about 914.40 m.m. The soil is mostly regar. There are no major irrigation projects in this taluk and hence people have to depend on wells, kuntas and rainfed tanks, spring channels etc., for irrigation. There are only about 17 minor irrigation sources in this taluk and therefore, dry crops are more extensively grown here. There is one Zilla Parishad High School at Boath and three Zilla Parishad Middle Schools at Ichoda, Hathnoor and Kuntala besides the Primary Schools in almost all big villages. Medical facilities are provided by the Government Hospital and the Medical and Health unit at Boath and the Grant-in-aid Dispensary at Kuntala. This taluk is not traversed by any railway line and people have to depend on road transport which too is inadequate. The Hyderabad-Nagpur National Highway passes through the midst of this taluk from north to south on which buses ply regularly affording transport facilities. Boath and Utnur are connected to this National Highway by approach roads.

Kanoba Mahadeva Swamy festival at Gudihatnoor, Maheswara Swamy festival at Sirchalma and Mahasivarathri festival at Kuntala village are the important festivals celebrated in this taluk. The places of importance in this taluk are briefly explained below :

Boath Village :

The headquarters of the taluk by the same name, has a total population of 5,520 persons (2,784 males and 2,736 females) and 915 occupied residential houses as per the 1961 Census count. It extends over an area of 4.60 sq. miles. There is a Zilla Parishad High School, a Govt. Hospital, and a Mobile Medical Unit providing educational and medical facilities. Being the taluk headquarters this village has the usual Govt. Offices like the Tahsil Office, Police Station etc., that complement the taluk headquarters. There is also a post office with telegraph facilities. It is connected by an approach road to the Hyderabad-Nagpur National Highway on which buses ply and afford transport facilities.

Kuntala Village (Buzurg) :

Situated on the banks of Kadam river is at a distance of 14 miles from Boath, the taluk headquarters and 8 miles from Hyderabad - Nagpur National Highway. It is at this village river Kadam falls from a height of 150 ft. and enters into Khanapur Independent sub-taluk. The water falls here known as Kuntala waterfalls are the highest in Andhra Pradesh and of great scenic beauty. This is a very small village with a population of 59 persons entirely made up of the Scheduled Tribe population (Gonds). The chief occupation of the people here is agriculture. There is a stone Sivalingam near the waterfalls called the Someswaraswamy Sivalingam which is to be reached through a mysterious opening in the rock. At present there is no temple to the Lord here. It is believed that in the hoary past, saints used to perform *tapas* (penance) about Lord Someswaraswamy in this place. Mahasivarathri is celebrated near Someswaraswamy Sivalingam for a day on *Magha Bahula Chaturdasi* and about 5,000 devotees from near and distant places congregate. The devotees take bath in the river Kadam and worship the Lord. There is a proposal to build a Thermal-Hydro Power Station at this place.

9. NIRMAL TALUK

Nirmal taluk situated in the south-western part of Adilabad district, is bounded on the north by Boath taluk and Nanded district of Maharashtra State, on the east by Khanapur Independent sub-taluk, on the south by Nizamabad district and on the west by Mudhol taluk. It extends over an area of 566.4 sq. miles. It has the largest population among the taluks in Adilabad district. According to the 1961 Census count it has a population of 137,360 persons (67,601 males and 69,759 females) and 25,542 occupied residential houses. There are 167 inhabited villages, 23 uninhabited villages and one town viz., Nirmal. The following statement shows the number of inhabited villages according to the various population sizes.

Less than 200	31
200—499	43
500 —999	54
1,000—1,999	31
2,000—4,999	8
5,000—9,999	..
10,000 and above	..
Total inhabited villages	167

The important rivers that flow in this taluk are Godavari, Suwarnavagu and Siddhavagu. River

Godavari flows on the southern border while Suwarna and Siddha which are small rivulets flow across the taluk and ultimately join the river Godavari. There are no major irrigation projects in this taluk. The medium irrigation projects either under construction or proposed to be constructed are the Suwarna or Jowly Vagu project across Suwarna Vagu and Suddavagu Project across Suddha Vagu. There are about 366 irrigation sources at present in this taluk with a total ayacut of about 28,200 acres. The Pochampad Project that is being constructed across Godavari river is at a distance of about 8 miles from Nirmal. The climate of this taluk is very hot in summer and very cold in winter. The average annual rainfall of this taluk is about 1,260 mm. There are thick forests in this taluk and the northern part is hilly. The chief occupation of the people is agriculture. Among small scale industries, toy making and beedi making are important. There are a good number of educational institutions in this taluk viz., one Govt. Basic Training School, a Govt. High School for Boys, a Govt. High School for Girls at Nirmal, a Zilla Parishad High School for Boys at Narsapur, six Middle Schools and several Primary schools. There is a Govt. Hospital at Nirmal to provide Medical facilities. Wells are the main sources of drinking water in this taluk. This taluk is not traversed by any railway line and hence the people have to depend on the road transport only. The Hyderabad–Nagpur National Highway runs amidst the taluk from south to north and the road from Bhainsa to Khanapur runs from east to west. Buses ply on these roads and provide necessary transport facilities. The interior parts of the taluk are lacking in road transport facilities. The important festivals celebrated in this taluk are the Lakshmi Venkateswara Swamy Brahmostavam and Sheik Saheb Vali Urs at Nirmal, Raja Rajeswari utsavam at Babapur and Venkateswara Swamy utsavam at Ponakal. Nirmal taluk is famous all over the country for its toy industry. The Pochera Waterfall is situated on Nirmal–Kinwat road and is 3 miles from Boath taluk. It is formed on a rivulet which is the tributary of Kadam river. This rivulet starts from Nigni village which is about 10 miles from the fall. It falls into Kadam river. The height of the fall is about 60 ft.

Nirmal Town :

The headquarters of a Revenue Division and also of a taluk of the same name is situated on the Hyderabad–Nagpur National Highway and is at a distance of 39 miles from Nizamabad Railway Station. This town extends over 6.09 sq. miles and has a population of 19,896 persons (10,139 males and 9,757 females) and 3,233 occupied residential houses as per the 1961 Census count.

In 1752, the Raja of Nirmal attacked the Nizam, Salabat Jung, who was marching from Aurangabad to Golconda with Bussy. In the battle the Raja was slain and his forces were dispersed. The town is prettily situated in country broken up by granite boulder hills, most of which, in the neighbourhood of the town, are crowned with forts. The main fortifications were built by French officers in the Nizam's service and are still in good condition.

It was here that the ancient masters of craftsmen satisfied one of the quests of mankind to manufacture gold by chemical process and invented golden hue from herbs which is as rich and enduring as real gold.

The light wood found in the surrounding forests became for the artisans a medium for making beautiful birds, animals, fruits, vegetables and other decorative wooden pieces like boxes etc. The Nirmal toys bear such a close resemblance to their natural counterparts that sometimes it is very difficult to distinguish the real from the artificial. The gold-lacquered panels are used for decoration hand in hand with architectural work. Recently this exquisite technique of decoration has been applied on a large scale in manufacturing Nirmal plates which contain paintings of Lord Buddha, Nataraja, Drummers, Poet Tulasidas etc., reminding one of the Moghul miniature paintings and floral designs. Illustrations from the famous Ajanta frescoes have also been popular themes for this industry. Besides a large number of furniture articles like stools, table lamps etc., are also produced. The trays and a variety of other articles arouse the interest of any beholder for the exquisite creative craftsmanship. There are eight Workers' Co-operative Societies in this town.

There is a Govt. Basic Training School, a Govt. High School for boys and a Govt. High school for girls in Nirmal Town to provide educational facilities. There is a Government Hospital to provide medical facilities. Bateesghar and Sarad Mahal are the places of local interest. This town is connected by road to Hyderabad, Adilabad, Khanapur, Bhainsa and all other important places.

10. MUDHOL TALUK

Mudhol taluk situated in the south-eastern corner of Adilabad district, was formerly a part of Nanded District. Under the States Reorganisation Act, 1956, Mudhol, Bhainsa and Kuber circles were transferred from Nanded District to Adilabad District and reconstituted into the present Mudhol taluk. It is bounded on the north and west by Nanded district of Maharashtra State, on the east by Nirmal taluk and on the south by Nizamabad and Nanded districts. Mudhol taluk extends over an area of 402.8 sq. miles and has a total population of 100,497 persons (49,312 males and 51,185 females) and 19,101 occupied residential houses as per the 1961 Census count. There are altogether 135 inhabited villages, 15 uninhabited villages and two towns, viz., Mudhol and Bhainsa. The following statement shows the number of inhabited vi lages according to the various population sizes.

Less than 200	28
200— 499	50
500— 999	36
1,000—1,999	18
2,000—4,999	3
5,000—9,999	..
10,000 and above	..
Total inhabited villages	135

There are no villages with over 5,000 population in the taluk.

River Godavari passes through the southern borders and forms a boundary between this taluk and Nizamabad district. The taluk has a total reserved forest area of about 20,200 acres. The average annual rainfall of the taluk is about 630 m.m. The soil of the taluk is mostly black cotton. The chief crops raised in this taluk are paddy and cotton. Irrigation is carried on extensively under wells, tanks and kuntas. There are altogether 162 irrigation sources in this taluk of which three are large sources of irrigation and the others are minor irrigation works. There is a project called 'Sirala Project' in Devgaon village in Bhainsa circle, which was constructed during the First Five Year Plan period. The restoration work of this project was taken up in 1957. The localised area under this project is about 2,300 acres and the area so far developed under this project is 615 acres.

There are two Zilla Parishad High Schools for boys and two Zilla Parishad Middle Schools for girls at Mudhol and Bhainsa. There are two Govt. Hospitals at Mudhol and Bhainsa to provide medical facilities. Besides these two hospitals, there is a Primary Health centre at Mudhol, a Medical and Health unit at Bhainsa, a Primary Health Unit and an Ayurvedic Hospital at Kuber. This taluk has railway and road communication facilities which are of course inadequate. The Manmad-Kachiguda metre gauge railway line of the South Central Railway crosses the southern edge of this taluk through a length of 2 miles and with a Railway Station at Basar. A P.W.D. road runs from Basar to Nirmal *via* Mudhol and Bhainsa on which R.T.C. buses ply regularly and provide road transport facilities. Roads from Bidralli to Dharmabad and from Bhainsa to Boker are under construction.

There are no important large scale or small scale industries in this taluk but there are a few cotton ginning and pressing mills at Bhainsa and Palsi. There are proposals to establish a 'Rural Industrial Estate' at Devgaon village.

Mudhol, Bhainsa, Basar and Brahmeswar are some of the places of importance in this taluk. A brief account of these places is given below.

Mudhol Town :

The taluk headquarters of the same name, is situated at a distance of 8 miles from Basar Railway Station. It extends over an area of 2.79 sq. miles and has a population of 7,560 persons (3,666 males and 3,894 females) and 1,194 occupied residential houses according to 1961 Census count. There is a Zilla Parishad High School and a Government Training School to provide educational facilities. As regards medical facilities there is a Govt. Hospital, and a Primary Health Centre in this town. There is also a Veterinary Hospital. Mudhol town being the taluk headquarters has the usual complement of taluk level Govt. Offices like the Tahsil Office, Police Station, etc. There is a Post Office with telegraph facilities. There is also a Traveller's Bungalow to provide lodging facilities. The chief occupation of the people in this town is agriculture. The chief crops raised are paddy and cotton. Weekly fairs are held here on every Thursday.

There is s small temple for Mukta Devi in this town. This town is called after the name of this Goddess, Mukta Devi. During the Lingayats' period it was called Mudhlli and latter on it was changed to Mudhol. There are also small temples in this town for Ananthasai, Rama, Vithaleswar, Narasimhaswamy. There is a Jumma Masjid constructed during the Mughal period. There is a Plant

Breeding Station at Mudhol which was started in 1934 as a variety testing station. It is now an important Plant Breeding Station. This station has conducted varietial tests for the improved varieties of jawar and cotton and supplies improved varieties of these seeds to the Agricultural Assistants for further multiplication. This town is connected by road to Basar, Bhainsa and Nirmal on which buses ply.

Bhainsa Town :

Is situated on the banks of Sidda River and on the Mudhol-Nirmal road. It is the second urban unit in Mudhol taluk and extends over an area of 3.05 Sq. miles. It is a town Municipality and has a total population of 12,346 persons (6,203 males and 6,143 females) according to the 1961 Census count. There are altogether 2,108 residential houses in this town. There is a Zilla Parishad High School, a Government Hospital and a Medical and Health Unit at Bhainsa to provide educational and medical facilities. There are three cotton ginning factories and one cotton pressing factory and five beedi making factories in this town. It is an important business centre for chillies, cotton and jawar. The main occupation of the people is, however, agriculture. The important crops raised are jawar and cotton. In Bhainsa town some Government offices like Munsiff Magistrate's Court, Agricultural Assistant's Office, Fisheries office and a branch of the State Bank of Hyderabad are functioning. There is a Post Office with telegraph facilities. It is connected by road to Nirmal and Mudhol. A road connecting this town to Boker is under construction. There is one Travellers' Bungalow in this town. A cattle fair is held on every Thursday in this town. There is one *darga* called Kunjah Shah Walia but no special festivals are celebrated there.

Basar Village :

Situated on the bank of river Godavari is a Railway Station on the Secunderabad-Manmad Metre Gauge line of the South-Central Railway. It is 9 miles from Mudhol, the taluk headquarters, and 44 miles from Nirmal, the Revenue Divisional headquarters. The village extends over an area of 10.83 sq. miles and has a population of 3,689 persons (1,754 males and 1,935 females) and 695 occupied residential houses as per the 1961 Census count. The place is connected by road to Mudhol. Agriculture is the chief occupation of the people in this village. It is believed that after the great war of Mahabharata between Pandavas and Kauravas at Kurukshetra, sage Vyasa disgusted with the horrors of war and accompanied by his son Sukadeva and many other *rishis* went on a pilgrimage of Dakshinapatham (South India) when he visited this place and stayed there for sometime for meditation. Hence the village was called Vyasapur which is in course of time changed into colloquial usage as Vasar and then as Basar. The temple of Saraswathi at Basar is said to be one of the two famous Saraswathi temples in India, the other being in Kashmir. Many people from Telangana and Marathwada come to this place to worship the deity. There are many versions current about the origin of this temple. It is believed that Sage Vyasa during his stay here for meditation used to bring, daily after bath in the sacred river Godavari three handfuls of sand and keep it at a place. It is believed that these sand heaps became transformed into the divine trinities Saraswathi, Lakshmi and Kali. But according to *Brahmanda puranam* it is said that Adikavi Valmiki installed Saraswathi here and wrote his Ramayana. Another version is that this temple is one of the three temples in the village near the confluence of Manjira and Godavari rivers, which is at a distance of 4 miles from Basar, built by Rashtrakutas, the other temples being of Vishnu and Pathaleswara at Bhainsa 8 miles from here. But taking into consideration the architecture, the black stone images, etc., some affirm that these temples were constructed during the time of Chalukyas. Yet another version is that Bijjaludu, a Karnataka King ruled over the province of Nandagiri with Nanded as his capital in the 6th century. It is said that he conquered a portion in Maharashtra and up to Bhadrachalam in the east and built many temples and forts to celebrate his victory and that Basar temple is one of such temples. At the end of the 17th century a small army of Rohillas attacked the temple with a desire to destory it. But a devotee by name Makkaji of Renullapur village gathered a few people to defend the temple. The army of Rohillas was forced to go back in the contest. Makkaji repaired the slightly damaged temple. In his memory a statue is installed in front of the image of the Goddess.

The temple is in the shape of a square between two small hillocks to the west of the village with a big tank known as *gundam* or *koneru*. There is a marble image of Valmiki and his *samadhi* nearby in the temple compound. This is shown as the tomb of Valmiki Maharshi to the visitors. Gajalakshmi images are carved above the *alayadwaram* (entrance). There is an image of Lakshmi beside the image of Goddess Saraswathi in the sanctum sanctorum. There is a cave near the temple known as Narahar

Malva cave where the famous Marathi poet is believed to have lived. Mahankali temple, with Her image, temples of Pathaleswar and Papahareeswar are the other places of worship. Since the images of Saraswathi, Lakshmi and Kali are found here this is believed to be the abode of the trinities.

Mahasivaratri, Devinarathrulu, Vasantha panchami, Datthathreya Jayanthi and Deepavali are the main festivals celebrated in this temple. Among these festivals Mahasivaratri is the most important and is celebrated for 3 days. About 10,000 people from Telangana and Marathwada congregate. A fair is also held on this occasion.

Brahmeshwar :

Situated on the bank of river Godavari is an uninhabited village and is at a distance of 9 miles from Basar Railway Station. There is a temple of Brahmeswara in the village site with a stone Sivalingam. It is believed that the Sivalingam was installed by Lord Brahma Himself and hence the deity and the village are called Brahmeshwar. Mahasivaratri is celebrated here for 2 days and a large number of people gather on this occasion. A fair is also held in this temple compound during this period.

Note : Weekly Markets are not reported in Khanapur Ind. Sub-Taluk

PART C

STATISTICAL TABLES

ADILABAD DISTRICT

(TALUKWISE DENSITY OF POPULATION)

G. P. RANGAM

Prepared at the Office of the Superintendent of Census Operations,
Andhra Pradesh, Hyderabad.

EXPLANATORY NOTE
A-SERIES
GENERAL POPULATION TABLES

General Population Tables prepared at the 1961 Census are the basic demographic tables and give information about the total population as recorded at the present Census in the district/taluk/town, the territorial changes that have occurred during the last decade *i.e.*, from 1951 to '61, variation of population during the past six decades, distribution of villages and towns by population sizes and trends of urbanisation in the district. The data are presented under the following four tables.

A-I Area, Houses and Population

A-II Variation in Population during sixty years (1901-61)

A-III Villages classified by population

A-IV Towns (And Town-Groups) classified by population in 1961 with variation since 1941

All the above Tables pertaining to Adilabad district are reproduced in this Handbook.

TABLE A-I—AREA, HOUSES AND POPULATION

This Table, the basic population table, gives for the district and for each taluk as well as for each town in the taluk, area in square miles and also in square kilometres, persons per square mile, number of villages inhabited and uninhabited, number of towns, number of Occupied Residential Houses and population by persons, males and females. The figures have been given separately one below the other under Total, Rural and Urban. In this Table as in all other Tables, the taluks have been arranged in the order of the Location Code Numbers adopted in the 1961 Census and not in an alphabetical order. For this purpose all the ten taluks in the district have been numbered continuously in a clockwise order starting from the taluk in which the district headquarters is situated *i.e.*, from Adilabad taluk. The location code numbers allotted to the taluks are shown below :

Name of Taluk	*Location Code Number*
Adilabad	1
Utnur	2
Asifabad	3
Sirpur	4
Chinnur	5
Lakshettipet	6
Khanapur(Independent Sub-Taluk)	7
Boath	8
Nirmal	9
Mudhol	10

One of the main changes in the presentation of this Table since the last Census is that the particulars relating to each of the towns in the taluk are also given underneath the concerned taluk besides giving the number of inhabited and uninhabited villages in each taluk.

The district area shown against (x) in column (3a) in brackets is that supplied by the Surveyor-General, India. The difference noticed between the area figures furnished by the Surveyor-General and the figures given by the State Survey Department shown against (y) is on account of the different methods of computation of areas adopted by the two authorities. The area figures adopted generally for the district and the taluks are as furnished by the State Survey Department and the area figures of each of the towns are as furnished by the Local Authorities concerned and these are exhibited under column (3a). The Urban area of each taluk has been worked out by adding the areas of all the Urban units in the taluk and the Rural area of the taluk is obtained by deducting the Urban area of the taluk from its total area.

The area in square kilometres under column (3b) is obtained by converting the area in square miles corrected upto two places of decimals given under column (3a). The area figures for District Total/Rural/Urban, Taluk Total/Rural and for each town have been first converted separately. In order to tally the totals of all the taluks with the district total, the converted Total/Rural/Urban area figures of the taluks have been suitably adjusted on *prorata* basis

according to area ratios of the taluks. The area of each town both in square miles under column (3a) and in square kilometres under column (3b) have been given upto second decimal place while the Total / Rural / Urban areas of the taluks as well as of the district have been given only upto first decimal place.

The density of persons per square mile for the district and for each of the taluks and towns has been worked out according to the area figures exhibited under column (3a).

"Village" referred to in this Table and in all other Tables in this book is the Revenue administrative unit with well defined boundaries. A village having one or more groups of habitations is treated as an inhabited village and a village with no habitation at all is treated as an uninhabited village. The number of inhabited and uninhabited villages in each taluk and in the district are shown under columns 5 and 6 of this Table. In computing the number of villages in a taluk, the villages which are either completely included in an Urban unit (town) or hamlets to a main Revenue village, are not taken into account. All the Revenue villages within the taluk are demarcated and numbered continuously from North-West to South-East. The number so assigned to each village is the 1961 Census Location Code Number, distinct from the Revenue Survey Number and will be referred to hereafter as the Location Code Number.

"Town" is a place usually having not less than 5,000 inhabitants possessing distinct urban characteristics and also satisfying certain criteria prescribed.

For recognition of any place as a town at the present Census it was laid down that it should be either covered by a City Corporation, Municipality or Cantonment Board or it should generally satisfy the following criteria :

(i) It should have a minimum population of 5,000;

(ii) The density of population should not be less than 1,000 per square mile ; and

(iii) At least 3/4ths of the adult male population should be non-agricultural

The total number of towns in each taluk and in the district is exhibited under column 7 of this Table.

A "Census House" is defined (for the purpose of 1961 Census) as a structure or part of a structure, inhabited or vacant, a dwelling, a shop, a workshop or a factory, place of business, a shop-*cum*-dwelling giving on the road or a common stair case or a common courtyard, leading to a main gate or enjoying a separate entrance. Only houses used wholly or partly for the purpose of residence by one or more households are considered as residential houses and the number of such houses in the Town/Taluk/District have been given in column 8. Houses utilised wholly for purposes other than for residence are not therefore, taken into account in this Table.

The total population figures by persons, males and females for the district as well as for each taluk and town have been exhibited separately under column 9, 10 and 11 in this Table.

Besides the main Table, there are also three Appendices to this Table.

Appendix I : In this Appendix the growth of the district and the taluks to the present area since the last Census has been traced by giving the territorial changes that have taken place during the last decade together with the names of the units and the area involved in the changes. The net area gained or lost by each unit is also given in this Appendix.

Appendix II : One of the criteria for a place to be declared as a town is that it should normally have a population of 5,000 and over. However, several places with a population of 5,000 and over did not qualify to be treated as towns. This Appendix gives the number of such places with their population. There are no towns with population under 5,000 persons at the 1961 Census in this district.

Appendix III : This Appendix shows the taluk-wise figures for the Houseless Population and the Institutional Population separately. Houseless Population comprises groups of people who have no fixed place of residence and no regular home to live in. Institutional Population represents groups of unrelated persons living and messing together, as in the case of boarding houses, messes etc., under the management of a head of the household appointed either by rules governing the Institution or by common consent of its members. For the purpose of studying different characteristics, Institutional Population is also considered as Household Population.

TABLE A-II—VARIATION IN POPULATION DURING SIXTY YEARS (1901-1961)

This Table compares the population of the district as ascertained at the 1961 Census with the corresponding figures for the six previous Censuses. The figures revealed at the previous Censuses have been adjusted for subsequent territorial changes in order to afford a correct basis for comparison.

As this Table gives the growth of population from decade to decade,these data form the main source for the estimation of population in the absence of reliable Vital Statistics. One of the main changes in the presentation of this table since the last Census is that the percentage of variation is also given from decade to decade. The variation of males and females from decade to decade has been omitted at the present Census.

During the last decade major changes in the jurisdiction of this district have taken place. Mudhol Taluk except Dharmabad circle (*i.e.*, Mudhol, Bhainsa and Kuber circles) with a total area of 402.8 sq. miles of Nanded Distrtict of former Hyderabad State was transferred to this district under the States Reorganisation Act, 1956. Kinwat and Rajura Taluks and Islapur Circle of Boath Taluk of this district with an area of 608.6 sq. miles, 776.3 sq. miles and 193.3 sq. miles respectively were transferred under the same Act to Chanda and Nanded Districts of Maharashtra State. Barring the above, no other inter-state, inter-district and inter-taluk transfers took place in this district during the decade 1951-61.

Appendix: The Appendix to this Table shows the 1951 population according to the territorial jurisdiction in 1951, changes in area and the population involved in the changes that have taken place during the last decade. The details of transfers of areas in each case together with the names and area in sq. miles and the number and the date of Notification of each transfer to the extent available are also given in the foot note.

TABLE A-III—VILLAGES CLASSIFIED BY POPULATION

This Table shows the total number of inhabited villages in the district, arranged on population basis under the following groups :—

Less than 200 population
200—499
500— 999
1,000—1,999
2,000—4,999
5,000—9,999
10,000 and above

The villages which are either uninhabited or wholly included in Urban units are not taken into account in this Table. The following statement gives at a glance the break-up of all the inhabited villages of Adilabad District classified by population in four broad groups *viz.*

Villages with population	*Number of inhabited villages*
Less than 499	940
500—1,999	562
2,000—4,999	39
5,000 and above	2
Total inhabited villages	1,543

For the definition of "Village" and "inhabited village" see Explanatory Note to Table A-I.

TABLE A-IV—TOWNS (AND TOWN-GROUPS) CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1941

This Table shows the growth of each town since 1941. The civic status, area both in sq. miles and sq. kilometres, population with sex break-up, decade variation in total population and percentage of decade variation have been given for every town in the district.

For the definition of "Town" see Explanatory Note to Table A-I.

The towns have been classified into six classes according to their population in the latest Census as detailed below :

Class of Town	*Population size*
I	100,000 and above
II	50,000—99,999
III	20,000—49,999
IV	10,000—19,999
V	5,000— 9,999
VI	Less than 5,000

Class I towns with a population 100,000 and above have been treated as cities. The total number of towns under each class in the district at 1961 Census are given below :

Class	*Number of Towns*
I	Nil
II	Nil
III	3
IV	3
V	4
VI	Nil
Total Towns	10

Four towns *viz.*, Boath, Sirpur, Lakshettipet and Khanapur of 1951 Census have been deleted from the list of towns in the present Census in this district. Kadam Damsite has been treated as a town for the first time at the 1961 Census in this district.

Since the prime purpose of this Table is to show the growth of towns as towns and not how certain places have grown into towns from villages, the population of a place which at any particular Census year, was not treated as a town is not given in this Table. The population of towns at each of the last seven census years *i.e.*, since 1901 is, however, given in Table A-IV in Part II-A General Population Tables of Andhra Pradesh (State Volume). The population of towns for previous Censuses are those then recorded. No adjustments have been made for intervening changes in area.

The civic status of every town *i.e.*, whether the town is a City Municipality, or a Town Municipality etc., is indicated after the name of the town in abbreviated letters C.M., T.M., etc.

One of the main changes in the presentation of this Table since the last Census is that the areas of towns and the percentage of decade variation of the total population of the towns have also been given.

Appendix to this Table gives the names of towns recognized at the present Census together with the names of villages either fully or partly included in them.

TABLE A–I

AREA, HOUSES AND POPULATION

District / Taluk / Town	Total Rural Urban	Area in Sq.miles	Area in Sq.Km.	Population per Sq. mile	No. of Villages Inhabited	No. of Villages Uninhabited	No. of Towns	No. of Occupied Residential Houses	Population Persons	Population Males	Population Females

TABLE A-I—*Concld.*

AREA, HOUSES AND POPULATION

District/Taluk/Town	Total Rural Urban	Area in Sq.miles	Area in Sq.Km.	Population per Sq. mile	No. of Villages Inhabited	No. of Villages Uninhabited	No. of Towns	No. of Occupied Residential Houses	Population Persons	Population Males	Population Females
(1)	(2)	(3a)	(3b)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
10 Mudhol Taluk . . .	T	402.8	1,043.2	249	135	15	2	19,101	100,497	49,312	51,185
	R	397.0	1,028.1	203	135	15	..	15,799	80,591	39,443	41,148
	U	5.8	15.1	3,469	..	..	2	3,302	19,906	9,869	10,037
Mudhol (T.M.) . .	U	2.79	7.23	2,710	..	..	1	1,194	7,560	3,666	3,894
Bhainsa (T.M.) . .	U	3.05	7.90	4,048	..	..	1	2,108	12,346	6,203	6,143

Note :— 1. † The civic status of Bellampalli, Kagaznagar and Kadam damsite not yet determined.

2. Towns treated as such for the first time in 1961 are printed in italics.

3. Towns treated as such for the first time in 1951 Census and which continue as Towns in 1961 Census are printed with an asterisk (*) on the left side.

4. Under column (3 a) and (3 b), (x) represents the area figures furnished by Surveyor—General of India, and (y) represents the area figures furnished by the State Survey Department. The urban are as are based on the area of individual towns furnished by the local authorities. The rural area for a District Taluk is obtained by subtracting the urban area from the total District/Taluk areas according to the State Survey Department.

5. The Sq. Km. and density figures of urban areas of Taluk District are worked out using the area figures corrected upto two places of decimal obtained by adding the areas of the towns in the respective units and not using the area figures given in the Table. In addition to this, the area figures relating to Sq. Km. are further adjusted to make the Taluk/District totals tally.

6. The following abbreviations have been used for the status of a town :—
C. M.: City Municipality; T. M. : Town Municipality

APPENDIX I TO TABLE A-I

Statement showing the 1951 Territorial Units constituting the present set-up of Adilabad District And Taluks therein and details of net area gain or loss involved in the changes during the decade 1951–1961

(Only those names/areas which have undergone changes since 1951 have been shown in this Appendix).

District/Taluk	1951 Territorial Units	Details of gain in Territories			Details of loss in Territories			Net Area (Gain '+' Loss '—')	
		Brief description	Area		Brief description	Area			
			Sq. miles	Sq.Km.		Sq. miles	Sq.Km.	Sq. miles	Sq. Km.
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
ADILABAD DISTRICT	ADILABAD DISTRICT	Mudhol Taluk except Dharmabad Circle (Mudhol, Bhainsa and Kuber Circles) transferred from Nanded District of former Hyderabad State (now in Maharashtra State)	402.8	1,043.2	Kinwat, Rajura Taluks and Islapur Circle of Boath Taluk transferred to Chanda and Nanded Districts respectively of Maharashtra State	1,538 5	3,984.7	—1,135.7	—2,941.5
Boath Taluk	Boath Taluk	..	..	..	Islapur Circle transferred to Nanded District of former Hyderabad State (now in Maharashtra State)	193.3	500.7	—193.3	—500.7
Mudhol Taluk	Mudhol Taluk	..	..	..	Dharmabad Circle transferred to Biloli Taluk of Nanded District of former Hyderabad State (now in Maharashtra State)	138.0	357.4	—138.0	—357.4

Note :— 1. The area particulars of the territories transferred from Maharashtra State at the time of States Reorganisation have been worked out by this office on the basis of villagewise area given in Rural Primary Census Abstract of the concerned 1951 District Census Hand Books.

2. The area particulars of territories transferred from Andhra Pradesh State to Maharashtra State at the time of States Reorganisation have been worked out by the Superintendent of Census Operations of Maharashtra and they have been adopted in this Appendix.

3. The area figures of the territories involved in the transfers are only approximate and may not tally with the total taluk areas given in Table A-I in the absence of correct surveyed areas of the portions of territories affected by these transfers.

APPENDIX II TO TABLE A-I

Number of Villages with a Population of 5,000 and over

(Taluks which do not have villages falling in this category are not included in this Appendix).

District, Taluk	Villages with a population of 5,000 and over		
	Number of Villages	Population	Percentage to Total Rural Population of the District
(1)	(2)	(3)	(4)
ADILABAD DISTRICT	2	11,880	1.39
Lakshettipet Taluk	1	6,360	0.74
Boath Taluk	1	5,520	0.65

APPENDIX III TO TABLE A-I

Houseless and Institutional Population

District/Taluk	Total Rural Urban	Houseless Population			Institutional Population

APPENDIX TO TABLE A-II—*Concld.*

Statement showing 1951 Population according to the Territorial Jurisdiction in 1951, changes in Area and Population involved in the changes during 1951-61

District/Taluk	Area in 1961		1961 Population	Area in 1951		1951 population according to jurisdiction prevailing in 1951	Population in 1951 adjusted to jurisdiction of 1961	Net increase or decrease between cols. 7 & 8
	Sq. miles	Sq. Km.		Sq. miles	Sq. Km.			
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
Nirmal Taluk	566.4	1,467.0	137,360	566.4	1,467.0	121,029	121,029	..
Mudhol Taluk (c)	402.8	1,043.2	100,497	540.8 (—138.0)	1,400.7 (—357.5)	127,043 (—34,398)	92,645	— 134,398

(a) (i) Mudhol Taluk except Dharmabad Circle (*i.e.*, Mudhol, Bhainsa and Kuber Circles) with a total area of 402.8 Sq. miles of Nanded District of former Hyderabad State transferred to this district under the States Reorganisation Act, 1956.

(ii) Kinwat and Rajura Taluks and Islapur Circle of Boath Taluk with an area 608.6 Sq. miles, 776.3 Sq. miles and 193.3 Sq. miles respectively transferred from this district to Chanda and Nanded Districts of former Bombay State (now in Maharashtra State) under the States Reorganisation Act, 1956.

(b) Islapur Circle of this taluk with an area 193.3 Sq. miles was transferred to Nanded District of former Bombay State (now in Maharashtra State) under the States Reorganisation Act, 1956.

(c) Dharmabad Circle with an area 138.0 Sq. miles was transferred from this taluk to Biloli taluk of Nanded District of former Bombay State (now in Maharashtra State) under the States Reorganisation Act, 1956.

Note : 1. Area figures given in columns 2 and 5 are as furnished by the State Survey Department and they represent the jurisdictions prevailing in 1951 and 1961 respectively.

2. The figures given in brackets in columns 5 and 6 represent the difference in area between 1951 and 1961 and the figures in brackets in column 7 show the difference in population between the areas as per the jurisdiction in 1951 and the present jurisdiction.

3. The difference of area in 1951 and 1961 given under columns 5 and 6 of this Appendix does not exactly agree with the figures given in columns 9 and 10 of Appendix I to Table A-I (particularly in the case of Boath Taluk) on account of revised computation.

4. The actual change in area as given against symbol in the foot notes in the district and taluk boundaries due to jurisdictional change does not agree with the net increase or decrease in the area figures given under columns 5 and 6 in brackets against each taluk. The difference is perhaps due to computational error in the area figures of villages/circles.

EXPLANATORY NOTE

B-SERIES

ECONOMIC TABLES

The Economic Tables for the 1961 Census are based on the principal work of a person and the concept of dependancy has been abandoned altogether for economic classification. The entire population has been divided into the following nine categories of Workers, for broad economic classification based on the National Classification of Industries adopted by the Government and the Non-Workers being shown as a separate category.

I Working as Cultivator

II Working as Agricultural Labourer

III Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities

IV Working at Household Industry

V Working in Manufacturing other than Household Industry

VI Working in Construction

VII Working in Trade and Commerce

VIII Working in Transport, Storage and Communications

IX Working in Other Services

X Non-Workers

The following seventeen Economic Tables, nine of which relate to the General Population and the remaining eight relating to a 20% Sample of Households, have been prepared at the present Census.

(i) General Economic Tables

B-I Workers and Non-Workers classified by Sex and broad Age-Groups

B-II Workers and Non-Workers in Cities, Town-Groups and Towns arranged territorially classified by Sex and broad Age-Groups

B-III *Part A*-Industrial Classification of Workers and Non-Workers by educational levels *in Urban areas only*

Part B-Industrial Classification of Workers and Non-Workers by educational levels *in Rural areas only*

B-IV *Part A*-Industrial Classification by Sex and class of Worker of persons at work at Household Industry

Part B-Industrial Classification by Sex and class of Worker of persons at work in Non-Household Industry, Trade, Business, Profession or Service

Part C-Industrial Classification by Sex and Divisions, Major Groups and Minor Groups of persons at work other than Cultivation

B-V Occupational Classification by Sex of persons at work other than Cultivation

B-VI Occupational Divisions of persons at work other than Cultivation classified by Sex, broad Age-Groups and educational levels *in Urban areas only*

B-VII *Part A*-Persons working principally (i) as Cultivators (ii) as Agricultural Labourers or (iii) at Household Industry classified by Sex and by secondary work (i) at Household Industry (ii) as Cultivator or (iii) as Agricultural labourer

Part B Industrial Classification by Sex of persons working in Non-Household Industry, Trade, Business, Profession or Service who are also engaged in Household Industry

B-VIII *Part A*-Persons unemployed aged 15 and above by Sex, broad Age-groups and Educational Levels *in Urban areas only*

Part B-Persons unemployed aged 15 and above by Sex and Educational Levels *in Rural areas only*

B-IX Persons not at work classified by Sex, broad Age-Groups and type of activity

(*ii*) *Household Economic Tables*

B-X Sample Households (i) engaged neither in cultivation nor Household Industry (ii) engaged either in cultivation or Household Industry but not in both and (iii) engaged both in Cultivation and Household Industry *for All areas*

B-XI Sample Households engaged in Cultivation classified by interest in land and size of land cultivated *in Rural and Urban areas* separately

B-XII Sample Households engaged in Cultivation only classified by size of land cultivated, and number of family workers and hired workers *in Rural and Urban areas* separately

B-XIII Sample Households engaged both in Cultivation and Household Industry, showing size of land cultivated classified by principal Household Industry *in Rural and Urban areas* separately

B-XIV *Part A*-Sample Households classified by Major Groups of principal Household Industry and number of Persons engaged *in All Areas*

Part B-Sample Households classified by Minor Groups of Principal Household Industry *in All Areas*

B-XV Sample Households engaged both in Cultivation and Household Industry classified by size of land *in Rural and Urban areas* separately

B-XVI Sample principal Household Industry classified by period of working and total number of workers engaged in Household Industry *in All Areas*

B-XVII Sample Households classified by (i) number of male and female members by size of Households and (ii) engagement (a) neither in Cultivation nor in Industry (b) in Household Industry only and (c) in Cultivation Sub-classified by size of land Cultivated.

Out of the above seventeen Tables only Tables B-I, B-III, B-IV Part C, B-V, B-VII, B-VIII and B-IX pertaining to the Adilabad District are reproduced in this Handbook.

The Household Economic Tables which are a special feature of this Census and which are prepared on the basis of a 20% sample of the returns in the Household Schedules filled up at the time of enumeration are published in a separate volume entitled "Census of India 1961—Vol. II Andhra Pradesh Part III Household Economic Tables" and may be referred to.

The working population in each of the nine Categories of workers and the non-working population is divided by broad Age-Groups *viz.*, 0-14, 15-34, 35-59, 60 + and Age not stated in some of these Economic Tables.

TABLE B-I—WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

This Table is prepared separately for Total, Rural and Urban population and is a summary Economic Table for the entire district. It gives the distribution of the population by Sex among the nine Industrial Categories of Workers and also Non-Workers by the four broad Age-Groups 0-14, 15-34, 35-59, and 60+years. This is the basic Economic Table and the Age-Groups correspond to the different stages of life which have special significance with reference to capacity to work *viz.*, children, young persons, middle aged persons and elderly persons. The classification of non-working population is made in other succeeding Tables.

This Table is prepared on the basis of the principal work of a person irrespective of the fact that the person may not be self supporting due to the

income derived by that work. In the case of persons who are engaged in more than one work, which are also productive activities, the principal work is taken as that one which has been declared by the person himself as the work on which he spends the longest time and not necessarily the work from which he derives the largest income. Thus the stress is on the concept of work and not income or dependency. The following explanation makes it clear as to who is treated as a Worker.

Workers

All persons who were engaged in some productive work during any of the 15 days preceding the day on which enumerated, irrespective of the fact whether they derive any income or not, are treated as Workers. In respect of seasonal work like Cultivation, Livestock, Household Industry etc., if the person had some regular work for more than one hour a day throughout the greater part of the working season, he is recorded as a Worker. Persons temporarily incapaciated from work at the time of Census enumeration due to illness or other cause are also treated as Workers. An undertrial prisoner in prison during the Census enumeration is also treated as worker if he did some productive work before he was apprehended. Convicts in a prison or long term inmates of hospitals or mental institutions, are not, however, treated as Workers. Persons under training as apprentices with or without wages are recorded as Workers. Family Workers *i. e.*, who do not directly derive any income but attend to work along with other members of the family are treated as workers. An adult woman who is engaged mainly in household duties and in no other economically productive work *i. e.*, a housewife, is not, however, treated as a Worker. Work includes not only actual work but also effective supervision. A public or social service worker who is actually engaged in public service activity or political activity is taken as a Worker. Thus all workers in any branch of productive work are netted as Workers.

Non-Workers

All persons who are not workers *i. e.*, those falling under the following categories are treated as Non-Workers :

(i) Fulltime students or children attending schools and who do no other work;

(ii) Persons engaged in unpaid home duties such as housewife;

(iii) Any dependant including an infant or child not attending school or a person permanently disabled from work because of illness or old age;

(iv) A retired person who is not employed again, a rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work;

(v) Beggars, vagrants or independent women without indication of source of income and others with unspecified source of existence;

(vi) A convict in jail or an inmate of a penal, mental or charitable institution;

(vii) Unemployed persons seeking employment for the first time;

(viii) Persons employed before but now out of employment and seeking work.

TABLE B-III—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

This Table is divided into two parts. *Part A* relates to Urban areas and *Part B* relates to Rural areas. In this Table each of the nine categories of Workers and also the Non-Workers are classified by different educational levels.

In *Part A* which relates to Urban areas only, the data are given for all the Urban areas of the district put together by the following educational levels.

Illiterate
Literate (without educational level)
Primary or Junior Basic
Matriculation or Higher Secondary
Technical diploma not equal to degree
Non-Technical diploma not equal to degree
University degree or Post-graduate degree other than Technical degree
Technical degree or diploma equal to degree or Post-graduate degree

Engineering
Medicine
Agriculture
Veterinary and Dairying
Technology
Teaching
Others

In *Part B* the data which relate to Rural areas only are given for the district, followed by taluks by the following educational levels.

Illiterate

Literate (without educational level)

Primary or Junior Basic

Matriculation and above

A "*Literate*" is a person who can, with understanding both read and write. He should be able to read any matter in print or manuscript and also be able to write a simple letter. A person who can neither read nor write or can merely read and cannot write is considered as illiterate. All children aged 4 years and below are treated as illiterates. The test for education is that the person should have passed a recognised written examination or examinations as proof of the educational level attained. The highest examination passed is taken as the level of education.

TABLE B-IV—INDUSTRIAL CLASSIFICATION BY SEX, AND CLASS OF WORKER OF PERSONS AT WORK OTHER THAN CULTIVATION

This Table is divided into three parts.

Part A shows Industrial Classification by sex and class of worker of persons at work at Household Industry for total, rural and urban population. The data are shown first for the division followed by Major Groups in the order laid down in the Indian Standard Industrial Classification under that Division.

Part B shows the Industrial Classification by sex and class of worker of persons at work in Non-Household Industry, Trade, Business, Profession or Service for the total and urban population. In this part also the data are persented first for the Division followed by the Major Groups in the order laid down in the Indian Standard Industrial Classification.

Part C shows the Industrial Classification by sex and Divisions, Major Groups and Minor Groups of persons at work other than cultivation for total and urban population of the district. The data are presented first for the Division followed by Major Groups in the order laid down in the Indian Standard Industrial Classification. Under each Major Group the corresponding Minor Groups are shown.

Only *Part C* is reproduced in this Hand Book. Minor Groups having less than 1% of workers of the respective Division (0.5% in the case of Division 2 & 3) are not shown in this Table but shown in the Appendix to this Table.

"*Household Industry*" is an industry conducted by the head of the household himself and / or mainly by members of the household at home or within the village in the rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory and should relate to production, processing, servicing, repairing or making and selling of goods.

An "*Employer*" is a person who has to employ other persons in order to perform the work. Such a person is not only responsible for his own personal work but also for giving work to others. But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in this office on behalf of his own employer or employers.

An "*Employee*" is a person who usually works under some other person for salary or wages in cash or kind. Persons who are employed as managers. superintendents, agents, etc., and in that capacity employ or control other workers, on behalf of their own employers are not regarded as employers.

A "*Single Worker*" is a person who works by himself but not as Head of household in a Household Industry. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually. Single worker also includes a person who works in joint partnership with one or several persons hiring no employees, and also a member of a Producers' Co-operative. Each one of the partners or members of such Producers' Co-operatives is recorded as a "Single Worker".

A "*Family Worker*" is a member who works, without receiving wages in cash or kind, in an Industry, Business or Trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. Such an Industry whether run at home or away from home in

town or village and even away from village in the rural area should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. Members of a family include those drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative. Members of the household who help solely in household duties are not treated as family workers.

Note:— In respect of Household Industry, by the very nature of the participation of the workers in a Household Industry all the four categories of workers are not recognised. Only the " employees ", if any, in a Household Industry are categorised as such. The rest are clubbed together as "others".

TABLE B-V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

This Table shows, for the total and urban population, the Occupational Classification of persons working in Non-Agricultural occupations. The data are presented first for the Division followed by the Occupational Groups in the order of the National Classification of Occupations. Under each Group the detailed Occupational Families are shown. Occupational Families, accounting for less than 1% of the Workers of the respective Division (less than 0.5% in case of Families under Division 7-8) are not given in this Table, but shown in the Appendix to this Table. The particulars for the district are given down to the Occupational Family, while the talukwise particulars are given upto Division level only.

The Occupational Classification given in this Table is quite distinct from the Industrial Classification presented in Table B-IV Part C. Occupational Classification relates to the actual work a person does irrespective of the Industry in which he is engaged e.g., a person who is a clerical worker for Occupational Classification may be connected with Industry, Trade or Service. Conversely in the same Industrial Category there may be persons following different occupations as technicians, managerial workers, clerical workers, watch and ward etc. Therefore, in this table under each Occupational Division, Group and Family the broad Industrial Category of the worker is also given.

TABLE B-VII—*PART A*-PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

PART B-INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

This Table is divided into two parts:

Part A shows the persons working principally as Cultivators or as Agricultural Labourers or at Household Industry and who have secondary work in the other two alternatives from among Household Industry or Cultivation or Agricultural Labour. The data for the district are given for total, rural and urban population by Industrial Divisions and Major Groups. For the taluks, however, the particulars are given for rural population and by Industrial Divisions only.

Part B shows the persons working principally in Non-Household Industry, Trade, Business, Profession or Service and also engaged at Household Industry as secondary work by Industrial Divisions and Major Groups. The data for the district are presented for the total, rural and urban population by Divisions followed by the Major Groups of that Division. The talukwise data are presented for rural population by Industrial Divisions only.

TABLE B-VIII—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX AND EDUCATIONAL LEVELS

This Table shows the distribution of persons unemployed aged 15 and above by sex and educational levels for urban and rural areas separately in two parts.

In *Part A* which relates to the Urban areas, the unemployed have been subdivided into two classes, viz., (i) persons seeking employment for the first time (ii) persons employed before but now out of employment and seeking employment. The data are given by broad Age-groups and by educational levels. The first class of unemployed are divided into the Age-groups 15-19, 20-24, 25-29, 30-34, 35+and Age not stated and the second class into Age-groups 15-19, 20-24, 25-34, 35-44, 45-59, 60+ and Age not stated.

Part B relates to rural areas. The data in this part are given talukwise by educational levels. The data in this Table are *not*, however, given by Age-groups.

TABLE B-IX PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

This Table shows for the total, rural and urban populations, the persons not at work classified by sex, broad Age-groups and type of activity. The Non-Workers are divided into eight categories according to their activities viz., (i) fulltime students; (ii) those attending only to household duties; (iii) dependants, infants and disabled; (iv) retired persons, rentiers or persons of independent means; (v) beggars, vagrants etc; (vi) inmates of penal, mental and charitable institutions; (vii) persons seeking employment for the first time; and (viii) persons employed before but now out of employment and seeking work according to their activities. These eight categories are based on the recommendations of the United Nations. This Table provides information about those who have an income without working, about housewives, about school going children, besides other types of non-working population. The data for the district are presented for total, rural and urban population. The talukwise data are, however, presented for the rural population only.

A total number of 36 males and 1 female in the Age-group of 35–59 and 1 male in the Age-group 60+have been returned as fulltime students in this district. These elderly persons might be pursuing advanced studies in religion such as Christian missionary trainees, or in Vedas, Music, or other Fine Arts etc., and hence, classified as fulltime students.

A complete classification list giving the description of the Divisions, Major Groups and Minor Groups is given below for guidance. In the Tables B-IV Part-C and B-VII Part-B only the number of the Division, Major Group or Minor Group is shown. The description of the Industry, Business, or Service concerned can be found from the list below.

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into

9 Divisions

45 Major Groups

343 Minor Groups

The Divisions and Major Groups with their Code Numbers are listed below :

Divisions

0 *AGRICULTURE, LIVESTOCK, FORESTRY, FISHING AND HUNTING*

1 *MINING AND QUARRYING*

2 & 3 *MANUFACTURING*

4 *CONSTRUCTION*

5 *ELECTRICITY, GAS, WATER AND SANITARY SERVICES*

6 *TRADE AND COMMERCE*

7 *TRANSPORT, STORAGE AND COMMUNICATIONS*

8 *SERVICES*

9 *ACTIVITIES NOT ADEQUATELY DESCRIBED*

Major Groups

DIVISION 0—AGRICULTURE, LIVESTOCK, FORESTRY, FISHING AND HUNTING

00 Field Produce and Plantation Crops
01 Plantation Crops
02 Forestry and Logging
03 Fishing
04 Livestock and Hunting

DIVISION 1—MINING AND QUARRYING

10 Mining and Quarrying

DIVISION 2 & 3—MANUFACTURING

20 Foodstuffs
21 Beverages
22 Tobacco products
23 Textile-Cotton
24 Textile-Jute
25 Textile-Wool
26 Textile-Silk
27 Textile-Miscellaneous
28 Manufacture of Wood and Wooden products
29 Paper and Paper products

30 Printing and Publishing
31 Leather and Leather products
32 Rubber, Petroleum and Coal products
33 Chemicals and Chemical products
34–35 Non-Metallic Mineral products other than Petroleum and Coal
36 Basic Metals and their products except Machinery and Transport equipment
37 Machinery (all kinds other than Transport) and Electrical equipment
38 Transport Equipment
39 Miscellaneous Manufacturing Industries

DIVISION 4—CONSTRUCTION

40 Constuction

DIVISION 5—ELECTRICITY, GAS, WATER AND SANITARY SERVICES

50 Electricity and Gas
51 Water supply and sanitary services

DIVISION 6—TRADE AND COMMERCE

60–63 Wholesale Trade
64–68 Retail Trade
69 Trade and Commerce Miscellaneous

DIVISION 7—TRANSPORT, STORAGE AND COMMUNICATIONS

70–71 Transport
72 Storage and Warehousing
73 Communications

DIVISION 8—SERVICES

80 Public Services
81 Educational and Scientific Services
82 Medical and Health Services
83 Religious and Welfare Services
84 Legal Services
85 Business Services
86 Community Services and Trade and Labour Associations
87 Recreation Services
88 Personal Services
89 Services (not elsewhere classified)

DIVISION 9—ACTIVITIES NOT ADEQUATELY DESCRIBED

90 Activities unspecified and not adequately described

Classification and Code numbers at the 3 digit level in respect of Minor Groups are given below :

Standard Industrial Classification showing the Divisions, Major Groups and Minor Groups

Major Group (Code)	Description	*Minor Group (Code)*
	DIVISION 0—AGRICULTURE, LIVESTOCK, FORESTRY, FISHING AND HUNTING	
00	Field Produce and Plantation Crops	
	Production of cereal crops (including Bengalgram) such as rice, wheat, jowar, bajra, maize	*000*
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram	*001*
	Production of raw jute and kindred fibre crops	*002*
	Production of raw cotton and kindred fibre crops	*003*
	Production of oilseeds, sugarcane and other cash crops	*004*
	Production of other crops (including vegetables) not covered above	*005*
00	Field Produce and Plantation Crops–*Concld.*	
	Production of fruits and nuts in plantation, vines and orchards	*006*
	Production of wood, bamboo, cane reeds, thatching grass etc.	*007*
	Production of juice by tapping palms	*008*
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	*009*
00	Plantation Crops	
	Production of tea in plantation	*010*
	Production of coffee in plantation	*011*
	Production of rubber in plantation	*012*
	Production of tobacco in plantation	*013*
	Production of ganja, cinchona, opium	*014*
	Production of other plantation crops not covered above	*015*

Major Group (Code)	Description	*Minor Group (Code)*
02	Forestry and Logging	
	Planting, replanting and conservation of forests	*020*
	Felling and cutting of trees and transportation of logs	*021*
	Preparation of timber	*022*
	Production of fuel including charcoal by exploitation of forests	*023*
	Production of fodder by exploitation of forests	*024*
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	*025*
	Production and gathering of other forest products not covered above	*026*
03	Fishing	
	Production of fish by fishing in sea	*030*
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	*031*
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	*032*
04	Livestock and Hunting	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	*040*
	Rearing of sheep and production of wool	*041*
	Rearing and production of other animals (mainly for slaughter) such as pig	*042*
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	*043*
	Rearing of bees for the production of honey, wax and collection of honey	*044*
	Rearing of silk warms and production of cocoons and raw silk	*045*
	Rearing of other small animals and insects	*046*
04	Livestock and Hunting–*Concld.*	
	Trapping of animals or games propagation	*047*
	Production of other animal husbandry products such as skin, bone, ivory and teeth	*048*
	DIVISION 1 — MINING AND QUARRYING	
10	Mining and Quarrying	
	Mining of coal	*100*
	Mining of iron ores	*101*
	Mining of gold and silver ores	*102*
	Mining of manganese	*103*
	Mining of mica	*104*
	Mining of other non-ferrous metallic ores	*105*
	Mining of crude petroleum and natural gas	*106*
	Quarrying of stone (including slate), clay, sand, gravel limestone	*107*
	Mining of chemical earth such as soda ash	*108*
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stone asbestos, gypsum, sulphur, asphalt	*109*
	DIVISION 2 & 3—MANUFACTURING	
20	Foodstuffs	
	Production of rice, atta, flour etc., by milling, dehusking and processing of crops and foodgrains	*200*
	Production of sugar and syrup from sugarcane in mills	*201*
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	*202*
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	*203*
	Slaughtering, preservation of meat and fish and canning of fish	*204*

Major Group (Code)	Description	Minor Group (Code)
20	Foodstuffs—*Concld.*	
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	Beverages	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	Tobacco Products	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	Textile—Cotton	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton cordage, rope and twine	239
24	Textile—Jute	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	Textile—Wool	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	Textile—Silk	
	Spinning and weaving of silk textile in mills	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263

Major Group (Code)	Description	*Minor Group (Code)*
26	Textile-Silk—*Concld.*	
	Weaving of silk textile by handloom	*264*
	Printing of silk textile	*265*
	Manufacture of silk cordage, rope and twine	*266*
27	Textile—Miscellaneous	
	Manufacture of carpet and all other similar type of textile products	*270*
	Manufacture of hosiery and other knitted fabrics and garments	*271*
	Embroidery and making of crepe, lace and fringes	*272*
	Making of textile garments including raincoats and headgear	*273*
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	*274*
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	*275*
	Manufacture and recovery of all types of fibres for puposes of padding, wadding and upholstery filling	*276*
	Manufacture of coir and coir products	*277*
	Manufacture of umbrellas	*278*
	Processing and manufacture of textile products not covered above	*279*
28	Manufacture of Wood and Wooden Products	
	Sawing and planing of wood	*280*
	Manufacture of wooden furniture and fixtures	*281*
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	*282*
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	*283*
	Manufacture of other wooden products such as utensils, toys, artwares	*284*
	Manufacture of veneer and plywood	*285*
	Manufacture of plywood products such as tea chest	*286*
28	Manufacture of Wood and Wooden Products—*Concld.*	
	Manufacture of boxes and packing cases other than plywood	*287*
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	*288*
	Manufacture of other wood and allied products not covered above	*289*
29	Paper and Paper Products	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	*290*
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	*291*
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	*292*
30	Printing and Publishing	
	Printing and publishing of newspapers and periodicals	*300*
	Printing and publishing of books	*301*
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	*302*
	All types of binding, stitching, sizing and other allied work connected with binding industry	*303*
31	Leather and Leather Products	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	*310*
	Manufacture of shoes and other leather footwear	*311*
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	*312*

Major Group (Code)	Description	Minor Group (Code)
31	Leather and Leather Products—*Concld.*	
	Manufacture of leather products (except those covered by code Nos.311, 312, such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	Rubber, Petroleum and Coal Products	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	Chemicals and Chemical Products	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
33	Chemicals and Chemical Products—*Concld.*	
	Manufacture of turpentine, synthetic, resin, and plastic products and materials(including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34–35	Non-Metallic Mineral Products other than Petroleum and Coal	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by Code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359

Major Group (Code)	Description	*Minor Group (Code)*
36	Basic Metals and their Products except Machinery and Transport Equipment	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	*360*
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	*361*
	Manufacture of armaments	*362*
	Manufacture of structrual steel products such as joist, rail, sheet, plate	*363*
	Manufacture of iron and steel furniture	*364*
	Manufacture of brass and bell metal products	*365*
	Manufacture of aluminium products	*366*
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can	*367*
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	*368*
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in Major Groups 36,37,38 and 39)	*369*
37	Machinery (All kinds other than Transport) and Electrical Equipment	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	*370*
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rotlers, tractors	*371*
	Manufacture of machine tools	*372*
	Manufacture of textile machinery and accessories	*373*
	Manufacture of heavy electrical machinery and equipment such as motors, generators), transformers	*374*
37	Machinery (All kinds other than Transport) and Electrical Equipment—*Concld.*	
	Manufacture of electric lamps and fans	*375*
	Manufacture of insulated wires and cables	*376*
	Manufacture of all kinds of battery	*377*
	Manufacture of electronic equipment such as radio, microphone	*378*
	Manufacture of electric machinery and apparatus, appliances not specified above	*379*
38	Transport equipment	
	Manufacture, assembling and repairing of locomotives	*380*
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by Code No. 363	*381*
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	*382*
	Manufacture of motor vehicles engines parts and accessories	*383*
	Repairing and servicing of motor vehicles	*384*
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	*385*
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	*386*
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	*387*
	Repairing of bicycles and tricycles	*388*
	Manufacture of other transport epuipment not covered above such as animal drawn and hand-drawn vehicles	*389*
39	Miscellaneous Manufacturing Industries	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	*390*

Major Group (Code)	Description	Minor Group (Code)
39	Miscellaneous Manufacturing Industries—*Concld.*	
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other Group	399
	DIVISION 4—CONSTRUCTION	
40	Construction	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of water-ways and water reservoirs such as bund embankments, dam, canal, tank, tubewells, wells	403
	DIVISION 5—ELECTRICITY, GAS, WATER AND SANITARY SERVICES	
50	Electricity and Gas	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502
51	Water Supply and Sanitary Services	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
	DIVISION 6—TRADE AND COMMERCE	
60–63	Wholesale Trade	
	Wholesale trading in cereals and pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other foodstuffs (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics, and textile products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613

Major Group (Code)	Description	Minor Group (Code)
60–63	Wholesale Trade—*Concld.*	
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products	621
	Wholesale trading in paper and other stationery goods	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipments	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64–68	Retail Trade	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder) aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in foodstuffs like sweetmeat, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (This includes retail trading in piecegoods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, head gear such as hat, umbrella, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobil oil and allied products	655
	Retail trading in wooden, steel and other metallic furniture and fitting	66

Major Group (Code)	Description	Minor Group (Code)
64–68	Retail Trade—*Concld.*	
	Retail trading in stationery goods and paper	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo cane, bark and thatches	672
	Retail trading in other building materials	673
	Retail trading in agricultural and industrial machinery eqiupment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and head-gear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments gramaphone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	Trade and Commerce Miscellaneous	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
	DIVISION 7—TRANSPORT, STORAGE AND COMMUNICATIONS	
70–71	Transport	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horse, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw drtving	705
	Transporting by boat, steamer, ferry etc. by river, canal	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
	Services incidental to transport such as packing, carting travel agency	710
72	Storage and Ware Housing	
	Operation of storage such as warehouses	720
	Operation of storage such as cold storage	721
	Operation of storage of other type	722
73	Communications	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732

Major Group (Code)	Description	Minor Group (Code)
DIVISION 8—SERVICES		
80	Public Services (This does not include Govt., Quasi Govt., or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)	
	Public Services in Union and State army including territorial corps and volunteer corp	*800*
	Public service in Navy	*801*
	Public service in Air Force	*802*
	Public service in Police	*803*
	Public service in administrative departments and offices of Central Government	*804*
	Public service in administrative departments and offices of Quasi-government organisation, municipalities, local boards, etc.	*805*
	Public services in administrative departments and offices of State Governments	*809*
81	Educational and Scientific Services	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	*810*
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	*811*
	Scientific services and research institutions not capable of classification under any individual group	*812*
82	Medical and Health Services	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanitoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners	*820*
	Veterinary services rendered by organisations and individuals	*821*
83	Religious and Welfare Services	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious acivities; this includes missions, ashrams and other allied organisations	*830*
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	*831*
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity	*832*
84	Legal Services	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	*840*
	Matrimonial services rendered by organisations and individuals	*841*
85	Business Services	
	Engineering services rendered by professional organisations or individuals	*850*
	Business services rendered by organisation of accountants, auditors, book keepers or like individuals	*851*
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies	*852*

Major Group (Code)	Description	*Minor Group (Code)*
85	**Business Services**—*Concld.*	
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors . . .	*853*
86	Community Services and Trade and Labour Associations	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations . . .	*860*
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payer's association, club, library .	*861*
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens etc. . . .	*862*
87	Recreation Services	
	Production of motion picture and allied services such as processing editing, etc. . . .	*870*
	Recreation services rendered by cinema houses by exhibition of motion pictures .	*871*
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	*872*
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor etc., racing .	*873*
88	Personal Services	
	Services rendered to households such as those by domestic servants, cooks	*880*
	Services rendered to households such as those by governess, tutor, private secretary . . .	*881*
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities . . .	*882*
	Laundry services rendered by organisations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning, services .	*883*
	Hair dressing, other services rendered by organisations and individuals such as those by barber, hairdressing saloon and beauty shops .	*884*
	Services rendered by portrait and commercial photographic studios	*885*
89	Services (not elsewhere classified)	
	Services rendered by organisations or individuals not elsewhere classified . . .	*890*
	DIVISION 9—ACTIVITIES NOT ADEQUATELY DESCRIBED	
90	*Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified . .*	*900*

EXPLANATORY NOTE
C-SERIES
SOCIAL AND CULTURAL TABLES

Social and Cultural Tables prepared at the 1961 Census give information relating to composition of Sample Households, Age, Sex, Marital Status, Education, Mother-Tongue, Bilingualism and Religion of general population and also about Scheduled Castes and Scheduled Tribes classified by literacy and Industrial Category of Workers. The data are presented in eight Tables as indicated below:

- C-I Composition of Sample Households by relationship to head of family classified by size of land cultivated
- C-II Age and Marital Status
- C-III Age, Sex and Education
  - *Part A*—All areas
  - *Part B*—Urban areas
  - *Part C*—Rural areas
- C-IV Single Year Age Returns
- C-V Mother-Tongue (in alphabetical order)
- C-VI Bilingualism
- C-VII Religion
- C-VIII Scheduled Castes and Scheduled Tribes classified by Literacy and Industrial Category of Workers
  - *Part A*—Classification by Literacy and Industrial Category of Workers and Non-Workers *among Scheduled Castes.*
  - *Part B*—Classification by Literacy and Industrial Category of Workers and Non-Workers *among Scheduled Tribes.*

All the above Tables pertaining to Adilabad district except Tables C-IV-Single Year Age Returns and C-VI-Bilingualism are reproduced in this book.

TABLE C-I-COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

This Table, prepared on a 20% sample basis from the Household Schedules filled in at the time of enumeration,gives the composition of Households, separately for Total, Rural and Urban areas in the district. The Households in the Rural areas are further classified into three economic categories *viz.*, (i) Households engaged neither in Cultivation nor in Household Industry (ii) Households engaged in Household Industry only (iii) Households engaged in Cultivation. In respect of the third category of Households the data are furnished separately for each of the eleven classes of Households according to the size of land cultivated *viz.*, (i) Less than one acre, (ii) 1.0 - 2.4 acres, (iii) 2.5 - 4.9 acres, (iv) 5.0 - 7.4 acres, (v) 7.5 - 9.9 acres, (vi) 10.0 - 12.4 (vii) 12.5 - 14.9 acres, (viii) 15.0 - 29 9. acres, (ix) 30.0–49.9 acres, (x) 50.0+acres, and (xi) Size of holding unspecified. The composition of the Households is given in terms of heads of Households, spouses of heads of Households, married sons and other married relations, other relations and unrelated persons. This table will thus indicate the strength of the joint family system and will therefore be of sociological interest.

TABLE C-II-AGE AND MARITAL STATUS

This Table prepared on full count gives the distribution of population both by Age-groups and Marital Status separately for Total, Rural and Urban population in the district, and for the Rural population in each of the taluks. This is a very important demographic Table. A comparison of the data in this Table with corresponding data pertaining to the last Census will give an indication of mortality in different marital status and also in different Age-groups. The Age-groups, *viz.*, 0–9, 10 - 14, 15 - 19, 20 - 24, 25 - 29, 30 - 34, 35 - 39, 40 - 44, 45 -49, 50 - 54, 55 - 59, 60 - 64, 65 - 69, 70+ and Age not stated, adopted in this Table conform to international requirements. Age-group 0–9 is automatically treated as 'Never Married' for the purpose of this Table. The proportion of increase or decrease in the various Marital Status since the last Census and the trends in the age at marriage can be studied from this Table. From the data of married females by Age-groups given under column 9 of this Table the future birth rates can also be forecast.

TABLE C-III-AGE, SEX AND EDUCATION

This Table gives the distribution of total population by broad Educational levels, Sex and by broad Age-groups. This Table is divided into three parts.

Part A relates to all areas while *Part B* and *Part C* relate only to Urban and Rural areas respectively. The educational levels given for all areas and Rural areas in *Part A* and *Part C* are the same while in respect of Urban areas in *Part B* more detailed educational levels have been adopted. These educational levels are the same as those adopted in Table B-III for the Industrial Classification of Workers and Non-Workers by Educational Levels. This Table is useful in ascertaining the growth of litaracy in the total population as well as in the different Age-groups since the last Census.

TABLE C-V-MOTHER-TONGUE

This Table exhibits separately for the Total, Rural and Urban population of the district and only for the Rural population of each taluk the number of persons, males and females speaking a particular language as Mother-Tongue. The languages returned at this Census are given in this Table in an alphabetical order.

'Mother-Tongue' is the language spoken in childhood by the person's mother to the person or mainly spoken in the Household. If the mother died in infancy then the language mostly spoken in the Household is the Mother-Tongue. In the case of infants and deaf mutes the Mother-Tongue is the language usually spoken by the mother.

This Table is very important in view of the large number of languages and dialects spoken in the country and will be of great assistance for ensuring the implementation of the various safeguards granted to the linguistic minorities under the constitution.

TABLE C-VII-RELIGION

This Table gives separately the distribution of Total, Rural and Urban population of the district and Rural population only of taluks according to Religion. In Censuses earlier to 1941 the practice was to show the distribution of population Religionwise down to the village level. Since the 1951 Census this practice has been discontinued.

TABLE C-VIII-SCHEDULED CASTES AND SCHEDULED TRIBES

Part A—Classification by Literacy and Industrial Category of Workers and Non-Workers *among Scheduled Castes*

Part B—Classification by Literacy and Industrial Category of Workers and Non-Workers *among Scheduled Tribes*

This is a general Table prepared for Scheduled Castes and Scheduled Tribes only and gives separately the total population of Scheduled Castes and Scheduled Tribes and their distribution by literacy and by classification of Workers into different Industrial Categories and the total number of Non-Workers. This Table is divided into two parts. *Part A* relates to Scheduled Castes and *Part B* relates to Scheduled Tribes. This is the first time that the number of literates amongst the Scheduled Castes and Scheduled Tribes are given separately. In addition to this Table some Special Tables for Scheduled Castes and Scheduled Tribes pertaining to Adilabad district have also been prepared and incorporated in this book under the series "*SCT TABLES.*"

EXPLANATORY NOTE
D-SERIES
MIGRATION TABLES

The Tables in this series show the migration trends analysed on the basis of the results of the 1961 Census. The data are presented in the following six Tables, which are reproduced upto district level and for all Cities and Town-Groups in the Publication, 'Census of India 1961 Volume-II-Andhra Pradesh-Part II- C-Cultural and Migration Tables' and these may be referred to for details.

D-I Non-Indian Nationals

D-II Place of Birth

D-III Migrants classified by place of birth and duration of residence in place of enumeration

D-IV Migrants to Cities Classified by Sex, broad Age-groups, Educational levels and in case of Workers also by Occupational Divisions and Groups

D-V Cities showing population born locally, migrants from Rural areas and migrants from other Towns and Cities

D-VI Distribution of Industrial Categories of Workers and Non-Workers by place of birth.

In this Handbook only Tables D-I and D-II showing the Non-Indian Nationals and other migrants in Adilabad district are reproduced.

TABLE D-I—NON-INDIAN NATIONALS

This Table shows the number of Non-Indian Nationals, sexwise, in the district. The Non-Indian Nationals for the purpose of presentation of the data have been broadly classified into five groups *viz.*,

(i) Nationals of Countries in Asia beyond India (including U. S. S. R.)

(ii) Nationals of Countries in Europe (excluding U. S. S. R.)

(iii) Nationals of Countries in Africa

(iv) Nationals of Countries in two Americas

(v) Nationals of Countries in Oceania

The name of the country of which the person is a National is given separately under each group. The persons who have not recorded any Nationality have been shown separately. Nationals of Goa, Diu, Daman and Pondicherry have been treated as 'Born in India'.

TABLE D-II—PLACE OF BIRTH

This Table prepared as in all previous Censuses gives the distribution of population by birth place. The data are presented both by the place of enumeration and by the place of birth classified separately into rural and urban areas. An important change in the presentation of the data at the present Census is that the place of birth has been classified separately as Rural and Urban. This two-fold representation of the data enables one to study the migration trends not only within the district and from outside the district but also from rural to urban areas and *vice-versa*.

EXPLANATORY NOTE
E-SERIES
HOUSING TABLES

The Tables in this series give information on Housing. At the present Census when House numbering was done a few months before the general Census enumeration, the various particulars relating to each Census House were collected on a standardised All India Scheduled called the 'House List' which is reproduced below:

CENSUS OF INDIA, 1961

HOUSE LIST

Name of District.....(Code No.....)

Name of Island/Taluk/Tehsil. Thana/Anchal Town.....(Code No.....)

Name of Village/Ward/Mohalla/Enumerator's Block.....(Code No.....)

Line No.	Building number (Municipal or local authority or Census Number, if any)	Building number (Col.2) with sub-numbers for each Census House	Purpose for which Census House used, *e.g.*, dwelling, shop, shop-*cum*-dwelling, business, factory, workshop, school, or other institution, jail, hotel, hostel etc.	If the Census House is used as an establishment, workshop or factory			
				Name of establishment or proprietor	Name of product (s), repair or servicing undertaken	Average No. of persons employed daily last week (including proprietor, or household members, if working)	Kind of fuel or power if machinery is used
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)

Description of Census House		Sub-number of each Census Household with Census House number (Column 3)	Name of head of Household	No. of rooms in Census Household	Does the Household live in own or rented house? (a)Own (O), (b) Rented(R)	No. of persons residing in Census Household on day of visit			Remarks
Material of wall	Material of roof					Males	Females	Total	
(9)	(10)	(11)	(12)	(13)	(14)	(15)	(16)	(17)	(18)

The data have been collected uniformly for the first time at the present Census in the above form and are presented in the following five Tables.

- E-I Census Houses and the uses to which they are put
- E-II Tenure Status of Sample Census Households living in Census Houses used wholly or partly as dwellings
- E-III Census Houses used as factories and workshops classified by Industry, *power* and *no power* used and size of employment
- E-IV Distribution of Sample Households living in Census Houses used wholly or partly as dwellings by predominant material of wall and predominant material of roof
- E-V Sample Households classified by number of members and by number of rooms occupied.

All the above Tables give information upto taluk level, (except Table E-III which contains figures upto the district level only) and also in respect of towns having a population of 50,000 and more and are reproduced in the publication "Census of India 1961, Vol. II- Andhra Pradesh-Part IV - B - Housing and Establishment Tables" and it may be referred to for full details. In this Hand Book only Table E-I "Census Houses and the uses to which they are put" pertaining to Adilabad district is reproduced.

TABLE E-I—CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

This Table shows the number of Census Houses and the different uses to which they are put. The data are given down to taluk level and also for towns having a population of 50,000 and more; the data are presented separately for total, rural and urban areas.

"*Census House*" is defined in the present Census as a structure, or a part of a structure inhabited or vacant, or a dwelling, or a shop-cum-dwelling or a place of business, workshop, school etc., with a separate entrance. If a building has a number of flats or blocks which have separate entrances of their own and are independent of each other giving on the road or a common staircase, or a common courtyard, leading to a main gate, they are considered as separate Census Houses. If within an enclosed or open compound there are separate buildings then each such building is treated as a separate Census House. If all the structures within an enclosed compound are together treated as one building then each structure with separate entrance is treated as a separate Census House.

TABLE E-I

CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

District / Taluk / Town with population of 50,000 or more	Total Rural Urban	Total No. of Census Houses	Census Houses vacant at the time of House-listing	Occupied Census Houses used as

EXPLANATORY NOTE
SCT-SERIES
SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This series of Special Tables for Scheduled Castes and Scheduled Tribes gives the population of each Scheduled Caste and Scheduled Tribe classified by Religion, Age, Marital Status, Education and distributed by Industrial Categories adopted in Table B-I. After the 1931 Census, the population figures of individual Scheduled Castes and Scheduled Tribes are being given only at the present Census. The data are presented in the following five Tables:

SCT-I Industrial classification of persons at work and Non-workers by sex for Scheduled Castes and Scheduled Tribes

SCT-II Age and Marital status for Scheduled Castes and Scheduled Tribes

SCT-III Education in Urban and Rural areas for Scheduled Castes and Scheduled Tribes

SCT-IV Religion for Scheduled Castes and Scheduled Tribes

SCT-V Sample Households engaged in Cultivation classified by interest in land and size of land cultivated *in rural areas only* for Scheduled Castes and Scheduled Tribes.

All the above Tables except Table SCT-IV are reproduced upto district level in this book.

Besides the above five Tables, the following three Special Tables, relating to either Scheduled Castes or Scheduled Tribes exclusively are reproduced.

SC-I Persons not at work classified by sex, type of activity and educational levels *for Scheduled Castes only*

ST-I Mother-Tongue and Bilingualism *for Scheduled Tribes*

ST-II Persons not at work classified by sex and type of activity *for Scheduled Tribes*

These three Special Tables are also reproduced upto district level. The figures for all the taluks are also given in this book in respect of Scheduled Castes and in the case of Scheduled Tribes figures are given for all the ten Taluks.

In view of the safeguards provided in the Constitution for these communities, the Tables in this series will be of much use and guidance, especially when the Government are taking measures for the improvement of the condition of these communities by suitable welfare schemes under the Five Year Plans. The total Scheduled Castes and Scheduled Tribes population is given talukwise separately for Total, Rural and Urban areas and for each Town under the State Primary Census Abstract. The villagewise particulars are given under Village Directory.

The Scheduled Castes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule I of the Scheduled Castes and Scheduled Tribes lists (Modification Order, 1956) published in the Notification of the Ministry of Home Affairs, New Delhi, dated 29th October, 1956. The list of Scheduled Castes in Andhra Pradesh is given below:

Note : Scheduled Castes are recognised only amongst Hindus and Sikhs. Converts to other religions such as Christianity or Islam or Buddhism cease to belong to these castes.

(1) Throughout the State :

1 Chalavadi
2 Chamar, Mochi or Muchi
3 Madiga
4 Mala

(2) Throughout the State except Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts :

1 Adi Andhra
2 Adi Dravida
3 Arundhatiya
4 Bariki
5 Bavuri
6 Chachati
7 Chandala
8 Dandasi
9 Dom, Dombara, Paidi or Pano
10 Ghasi, Haddi or Relli Chachandi
11 Godagali
12 Godari
13 Gosangi
14 Jaggali

15 Jambuvulu
16 Madasi Kuruva or Madari Kuruva
17 Mala Dasu
18 Madiga Dasu and Mashteen
19 Matangi
20 Mundala
21 Paky or Moti
22 Pambada or Pambanda
23 Pamidi
24 Panchama or Pariah
25 Relli
26 Samban
27 Sapru
28 Thoti

(3) In the districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda :

1 Anamuk
2 Aray (Mala)
3 Arwa Mala
4 Beda (Budga) Jangam
5 Bindla
6 Byagara
7 Chambhar
8 Dakkal (Dokkalwar)
9 Dhor
10 Ellamalwar (Yellammalawaadlu)
11 Holeya
12 Holeya Dasari
13 Kolupulvandlu
14 Mahar
15 Mala Dasari
16 Mala Hannai
17 Malajangam
18 Mala Masti
19 Mala Sale (Netkani)
20 Mala Sanyasi
21 Mang
22 Mang Garodi
23 Manne
24 Mashti
25 Mehtar
26 Mitha Ayyalvar
27 Samagara
28 Sindhollu (Chindollu)

The Scheduled Tribes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule III of the Scheduled Castes and Scheduled Tribes lists (Modification Order, 1956) published in the same Notification of the Ministry of Home Affairs, New Delhi, dated 29th October, 1956. The list of Scheduled Tribes in Andhra Pradesh is given below :

Note: Members of Scheduled Tribes may belong to any Religion.

(1) Through out the State:

1 Chenchu or Chenchwar
2 Koya or Goud with its sub-sects-Rajah or Rasha Koyas, Lingadhari Koyas (Ordinary), Kottu Koyas, Bhinekoya and Rajkoya

(2) Through out the State except Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts :

1 Bagata
2 Gadabas
3 Jatapus
4 Kammara
5 Kattunayakan
6 Konda Dhoras
7 Konda Kapus
8 Kondareddis
9 Kondhs (Kodi and Kodhu), Desaya Kondhs, Dongria Kondhs, Kuttiya Kondhs, Tikiria Kondhs and Yenity Kondhs
10 Kotia-Bentho-Oriya, Bartika, Dhulia or Dulia, Holva, Paiko, Putiya Sanrona and Sidhopaiko
11 Kulia
12 Malis
13 Manna Dhora
14 Mukha Dhora or Nooka Dhora
15 Porja (Parangiperja)
16 Reddi Dhoras
17 Rona, Rena
18 Savaras-Kapu Savaras, Maliya Savaras or Khutte Savaras
19 Sugalis (Lambadis)
20 Yenadis
21 Yerukulas

(3) In the Districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda.

1 Andh
2 Bhil
3 Gond (including Naikpod and Rajgond)
4 Hill Reddis
5 Kolam (including Mannervarlu)
6 Pardhan
7 Thoti

(4) In the Agency tracts :

1 Goudu (Goud)
2 Nayaks
3 Valmiki

As would be clear from the Tables, not all the above Castes and Tribes, will be found in all the taluks of the district.

An abstract of the total Scheduled Castes and Scheduled Tribes population in Adilabad district and its percentage to the total general population is given talukwise in the statement below:

Name of the District / Taluk	Total Rural Urban	General Population	Scheduled Castes Population together with percentage to General Population	Scheduled Tribes Population together with percentage to General Population
(1)	(2)	(3)	(4)	(5)

TABLE SCT-I INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table shows for the rural and urban areas of the district, the population of each Scheduled Caste and Scheduled Tribe classified by Industrial Category of persons at work and Non-Workers by sex. The Table is divided into two parts. *Part A* relates to Scheduled Castes while *Part B* relates to Scheduled Tribes. This Table is important as it gives the strength of each of the Scheduled Castes and Scheduled Tribes, the working population among them and the sector of Industry in which the working population is engaged. The data are presented for the Rural and Urban areas separately.

TABLE SCT-II AGE AND MARITAL STATUS FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table shows for each Scheduled Caste and Scheduled Tribe the total population by Age and Marital Status. This Table is divided into two parts. *Part A* relates to Scheduled Castes and *Part B* relates to Scheduled Tribes. This Table corresponds to Table C-II for the total population; however, the age-groups are restricted to 0-14, 15-44, 45+ and Age not stated only in both the parts of this Table. This Table enables us to know the percentage of each of the Scheduled Castes and Scheduled Tribes to the total population in the corresponding Age-group. Such communitywise data by Age and Marital Status for Scheduled Castes and Scheduled Tribes are being given for the first time at the present Census. The Age distribution and Marital Status data will give an indication as to whether the population of a Caste/Tribe is growing or declining.

TABLE SCT-III EDUCATION IN RURAL AND URBAN AREAS ONLY FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table shows the literacy and educational levels for each Scheduled Caste and Scheduled Tribe separately for Rural and Urban areas. This Table is divided into *Part A(i)* and *Part A(ii)* relating to the Scheduled Castes and Scheduled Tribes respectively in Urban areas and *Part B(i)* and *Part B(ii)* relating to the Scheduled Castes and Scheduled Tribes respectively in Rural areas. In the case of Urban areas

the educational levels adopted for giving the data are the same as those adopted in Table B-III *Part A* and in the case of Rural areas the data are given as in Table B-III *Part B*. This Table, therefore, enables us to know the proportion of each of the Scheduled Castes and Scheduled Tribes among the total population in different literacy and educational levels.

TABLE SCT-V SAMPLE HOUSEHOLDS OF SCHEDULED CASTES AND SCHEDULED TRIBES ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED *IN RURAL AREAS ONLY*

This Table shows the sample Households engaged in Cultivation classified by interest in land and size of land cultivated in Rural areas only, separately for Scheduled Castes and Scheduled Tribes. The Table is divided into two parts. *Part A* relates to Schedule Castes and *Part B* relates to Scheduled Tribes. The sizes of landholdings and types of interest in land cultivated adopted in this Table are the same as those adopted in Table B-XI.

TABLE SC-I PERSONS NOT AT WORK CLASSIFIED BY SEX, TYPE OF ACTIVITY AND EDUCATIONAL LEVELS *FOR SCHEDULED CASTES*

This Table shows persons belonging to the Scheduled Castes not at work classified by sex, type of activity *viz.*, fulltime students, persons seeking employment for the first time, persons employed before but now out of employment and eeking work and others, by educational levels. The broad educational levels adopted in this Table are, illiterate, literate (without educational level), Primary or Junior Basic, Matriculation or Higher Secondary and above Matriculation or Higher Secondary. This Table is prepared for Total Scheduled Castes as a whole and not separately for each individual caste and the figures are exhibited for Total, Rural, and Urban population. This Table will be very useful as it clearly illustrates the extent to which the Scheduled Caste children have taken to education and it also helps to plan employment for the unemployed members of the Scheduled Castes. This Table has also been prepared for Rural areas of all the taluks in the district.

TABLE ST-I MOTHER-TONGUE AND BILINGUALISM *FOR SCHEDULED TRIBES*

This Table shows exclusively the Scheduled Tribes classified by Mother-Tongue and subsidiary languages spoken by them. The data are given for the Total, Rural and Urban areas in the district and for the Rural areas of all the taluks. The Scheduled Tribes have their own peculiar languages and dialects and this Table gives the language or dialect of each Tribe. In respect of the members of Scheduled Tribes who have moved out of their homes and as a result of contact with the local population speak some other languages also, those subsidiary languages are also shown in this Table. The number of male and female speakers of the subsidiary language is indicated in brackets after the subsidiary language under column 6 of the Table.

TABLE ST-II PERSONS NOT AT WORK CLASSIFIED BY SEX AND TYPE OF ACTIVITY *FOR SCHEDULED TRIBES*

This Table shows for the district the persons not at work classified by sex and type of activity for each individual Scheduled Tribe. The types of activity under which the persons not at work are classified are the same as those adopted in Table SC-I *viz.*, fulltime students, persons seeking employment for the first time, persons employed before but now out of employment and seeking work and others. In this Table the particulars are given according to the individual Tribe while in Table SC-I similar particulars in respect of Scheduled Castes are given for Total Scheduled Castes as a whole by educational levels. The present Table, however, shows the number of unemployed persons in each individual Tribe without reference of the literacy levels.

The data in this Table are presented for the Total, Rural and Urban areas of the district and also for the Rural areas of all the taluks.

TABLE SCT-1 Part A

PART D

VILLAGE AND TOWN DIRECTORY

EXPLANATORY NOTE

VILLAGE AND TOWN DIRECTORY

This Directory renders an account of each Village, as also each Ward and each Enumerator's Block of a town It gives the Location Code Number and name of each village/town, area of the village/town, and where inhabited, the number of Occupied Residential Houses, Census Households, Total Population, Population of Scheduled Castes and Scheduled Tribes, Literate Population and Workers classified into the following nine Industrial Categories of Workers and Non-Workers :—

I Cultivator
II Agricultural Labourer
III Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities
IV Household Industry
V Manufacturing other than Household Industry
VI Construction
VII Trade and Commerce
VIII Transport, Storage and Communications
IX Other Services; and
X Non-Workers

The data are presented talukwise, first for the rural portion in the "Village Directory" and next for the urban portion in the "Town Directory". In the Village Directory the villages have been arranged in the ascending order of the Location Code Numbers assigned to the village within the taluk and in the Town Directory, in the ascending order of Location Code Numbers assigned to the towns in the taluk and also by each Ward and Enumerator's Block in the ascending order. The taluk map given at the beginning of the Village Directory of each taluk showing the Location Code Number of each village and town and other particulars will help the easy location of the villages.

In the Village Directory, villages uninhabited and villages that have been completely merged in towns have been indicated accordingly. In respect of villages which are partly included within the town limits and partly fall outside the town limits, the particulars for that portion included in the town limits *i. e.*, "urban portion" are clubbed with the particulars of the town and given in the Town Directory and for that portion outside the town limits *i. e.*, "rural portion" the data are given in the Village Directory along with other villages. The term "Rural" is indicated immediately after the names of such villages to make the position clear. In the presentation of data for the towns, the particulars have been exhibited in ascending order of Municipal Wards or Blocks and also by Enumerators's Blocks and not according to the villages constituting the town. In order that each Enumerator's Block may be located, the jurisdiction of each Block *i. e.*, the houses covered by each Enumerator's Block in towns are indicated at the beginning of the Town Directory.

Under column 8 the area is given for the villages and towns in square miles based on the information furnished by the State Central Survey Office, the Tahsildars and by the Municipal authorities concerned. In respect of certain villages where the area particulars are not available the abbreviation "N. A." has been recorded under this column. As the area of a taluk comprises not only the area of the villages but also the area of Reserved Forests etc., within the taluk, the areas of all the villages put together may not be equal to the area of the taluk.

Under columns 9 to 41 the Total Population, Scheduled Castes and Scheduled Tribes Population, literate Population, total number of Workers under each of the nine categories and Non-Workers are given sex wise for each village/town.

The taluk map found at the beginning of the Village Directory of each taluk shows the boundaries of each village and town, the important roads and railway lines, the rivers, if any, running in the taluk. In this map, the Location Code Number of each village is shown and the names of the towns and villages having more than 5,000 population, important tourist centres and places of great religious importance, etc., if any, are given. Urban areas have been shown by shading the area covered. Uninhabited villages and inhabited villages by

different sizes of population *i. e.*, below 2,000, 2,000-4,999, 5,000 and above, are shown by distinct designs. An alphabetical list of villages with the Census Location Code Numbers indicated against them is given after the taluk map and before the Village Directory. This list enables one to find out the Location Code Number of any village and thereafter to get the required particulars of the village from the Village Directory.

The information relating to educational facilities, medical and public health facilities, drinking water facilities, communication and transport facilities and electrification is also given villagewise in this section for the first time besides the population data. These facilities are shown by symbols as explained below immediately after the names of the villages under columns 3 to 7.

(i) *Educational facilities are shown by the following symbols under column 3 :—*

P : Primary Schools
M : Middle Schools
H : High Schools
C : Institutions of Higher Education including Colleges
T : Technical Institutions

(ii) *Medical and Public Health facilities are shown by the following symbols under Column 4 :—*

D : Dispensaries
Rhc : Rural Health Centres (Primary Health Centres)
Hos : Hospitals
Mcw : Maternity Child Welfare Centres

(iii) *Drinking Water facilities are shown by the following symbols under column 5 :—*

S : Safe or protected water supply including tube wells etc.
Sc : Spring channel or nala
W : Well
Tk : Tank
Riv : River
C : Canal

(iv) *Communication and Transport facilities are shown by the following symbols under column 6 :—*

Po : Post Office
To : Telegraph Office or Public Call Office
Rh : Rest Houses and Choultries
R : Road
Rly : Railway

(v) *Electrification facilities are shown by the following symbols under Column 7 :—*

E : Electricity
E (I) : Electricity in Industrial use
E (A) : Electricity in Agricultural use
E (D) : Electricity in Domestic use

Where figures like 5P, 2H etc, occur they denote that the village or town has 5 Primary Schools, 2 High Schools etc.

Besides Presenting the information relating to the above facilities in the Village and Town Directory, certain other important particulars *viz.*, sources of irrigation, crops raised, value of land, Co-operative Societies, Police Stations, Veterinary Hospitals, Reading Rooms, Places of Public Entertainments (Cinemas), Industrial Establishments and Rural Handicrafts are also given talukwise in separate Sub-Tables immediately after the Village and Town Directory.

The Sub-Tables are numbered as follows :—

Sub-Table	1	Source of Irrigation, crops raised and value of land
Sub-Table	2	Co-operative Societies
Sub-Table	3	Police Stations
Sub-Table	4	Veterinary Hospitals
Sub-Table	5	Reading Rooms
Sub-Table	6	Public Entertainments (Cinemas)
Sub-Table	7	Industrial Establishments
Sub-Tables	8. 9& 10	Handicrafts

In the Sub-Table 1 relating to the sources of irrigation, crops raised and value of land, the particulars relating to the high and low prices of dry and wet land, the various important crops raised and the sources of irrigation are given villagewise. Only the Location Code Numbers have been given in the Sub-Table without giving the names of the villages. Villages having land of same value are grouped together. The following abbreviations are used in this Sub-Table :—

Cereals

J : Jonna or Cholam or Jawar
M : Maize

Cereals-Contd.

P : Paddy
R : Ragi

Cereals-Concld.

S : Sajja or Bajra
W : Wheat

Pulses

Bg : Bengalgram
Blg: Blackgram
Gg : Greengram
Hg : Horsegram
Rg : Redgram

Other Crops

C : Cotton
Ch : Chillies
Cs : Castor Seeds
G : Groundnut
Gi : Gingelly
Su : Sugar cane

Irrigation Sources

Sc : Spring Channel or Nala
TK : Tank
Riv : River
W : Well

In the Sub-Table 2 relating to Co-operative Societies, the various types of Co-operative Societies functioning in each village have been presented talukwise. The data for the district are given in the beginning followed by the particulars relating to taluks. If a village is served by a Co-operative Society of another village it has been indicated accordingly. The abbreviations used for the different types of Co-operative Societies are given below.

AGCS	Agricultural Co-operative Society
CFCS	Collective Forming Co-operative Society
CS	Co-operative Society
ECS	Employees, Co-operative Society
HBCS	House Building Co-operative Society
JFCS	Joint Farming Co-operative Society
LSCS	Large Sized Co-operative Society
MCS	Marketing Co-operative Society
MPCS	Multipurpose Co-operative Society
PJCS	Palm Jaggery Co-operative Society
PLMCS	Primary Land Mortgage Co-operative Society
RUCS	Rural Upliftment Co-operative Soeicty
SSCS	Small Sized Co-operative Society
TCS	Tappers' Co-operative Society
WCS	Weavers' Co-operative Society

In the other Sub-Tables 3 to 6 relating to Police Stations, Veterinary Hospitals, Reading Rooms and places of Public Entertainments (Cinemas) also, the data are presented in the same form as explained above *i. e.*, first for the district and then for each taluk. Only the names of places where such facilities exist are given.

In the Sub-Table 7 relating to Industrial Establishments the number of units under various industries existing in villages and towns are given. These particulars were mainly those collected through a Schedule of Industries and Crafts issued to the village school teachers in connection with the Rural Crafts Survey. In this schedule the data were to be given by the number of families; and as such, the families which had members engaged in any of the industries had been taken as units for that industry. In respect of some villages where the schedules had not been answered the information was compiled from the Houselists. Certain data were taken from other sources as well, such as the village Directory furnished by the Tahsildars and the survey of Industries conducted in the cities. It is, however, quite possible that there may be some villages for which the information could not be presented. Such omissions are, however, likely to be very few. The particulars are given separately for the rural and urban areas. Under the name of the district, the industries are arranged in the ascending order of Minor Groups of the Indian Standard Industrial Classification showing the total number of establishments within brackets next to each Minor Group Code Number, for Total, Rural and Urban areas separately. Then, the figures for the various taluks are presented showing first the total numbers on the pattern adopted for the district totals, followed by the particulars for the villages and towns in that taluk in the order of the Village Directory. Against each village town are shown the Minor Group Code Numbers of the industries or crafts found in that village / town with the number of units engaged in that Minor Group in brackets against each of the groups.

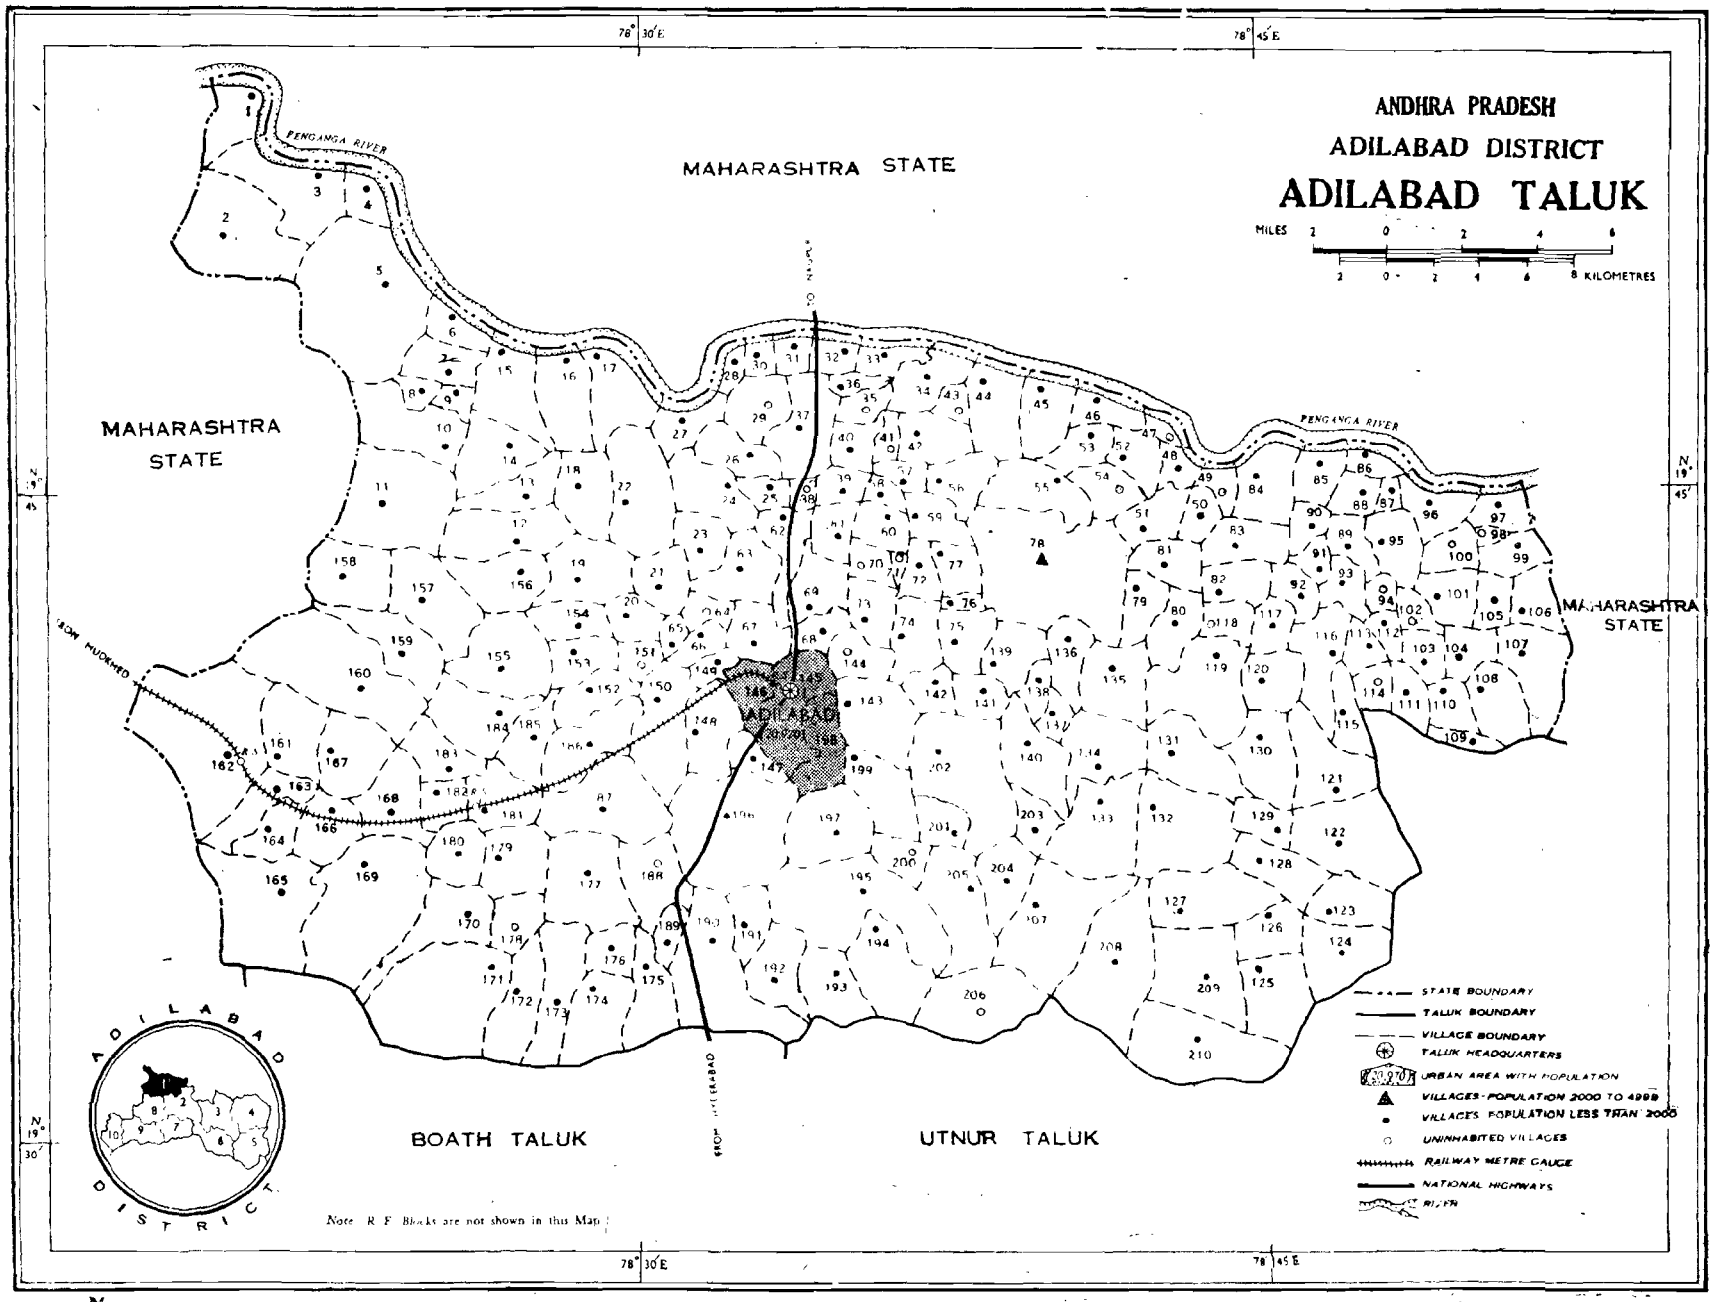

In the three Sub-Tables 8, 9 and 10 relating to Handicrafts, information is given about the various Crafts practised, the number of persons engaged, the distribution of Artisan Communities, the number of families engaged in the Handicrafts, and the names of highly skilled craftsmen of each community, and the distribution of articles of crafts by main material used, source of design, manufacture, marketing and earnings. These particulars were

mainly collected through a schedule of Industries and Crafts issued to the village school teachers in rural areas and to the Municipal Authorities in the Municipal areas. In respect of cities the information was collected through the staff of the Census Tabulation Offices specially appointed for the purpose. In respect of some villages where the schedules have not been answered the information was taken from the Houselists prepared at the time of Housenumbering in 1960. A detailed report on the Handicrafts Survey is given in "Census of India, 1961 - Volume II - Andhra Pradesh - Part VII-A Handicratts Survey Reports (Selected Crafts)" and may be referred to.

In the Sub-Table relating to Fairs and Festivals given at the end of this section, the important fairs and festivals that take place in the village, the month in which they take place, etc., are given for each village having such importance. A detailed report on the Fairs and Festivals is, however, given in "Census of India 1961 - Volume II - Andhra Pradesh-Part VII-B" Fairs and Festivals and may be referred to.

All the information given in the various Sub-Tables in this section are based on the information furnished by the Heads of Departments, the District Officers, the Tahsildars and the Municipals Authorities concerned.

ADILABAD TALUK

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

SIRPUR TALUK

M. J SADIQ

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad

ALPHABETICAL LIST OF VILLAGES

SIRPUR TALUK

1961 Location Code No.	Name of Village
14	Achalli
90	Adpalle
182	Agarguda
133	Ainam
115	Akkulapalle
75	Ambaghat
183	Amergonda
103	Andevelli
165	Ankannapet
49	Ankhoda
98	Ankhoda
15	Arepalle
48	Babapur
141	Babapur
81	Babasagar
53	Bandepalle
105	Bareguda
135	Beebra
35	Bhalepalle
185	Bhamanagar
69	Bhatpalle
104	Bhatpalle
119	Bheemini
189	Bhogaram
91	Bhoopalpatnam
51	Bhurepalle
70	Bijjur
120	Bitturpalle
111	Bodepalle
131	Bombaiguda
92	Bonki
8	Borigaon
113	Borigaon
125	Borlakunta
190	Brahmanacninchal
57	Buruguda
31	Chandaram
191	Chandrapalle
128	Chedvai
13	Cheelapalle
80	Cheepurudubba
186	Chinnaraspalle
10	Chintaguda
16	Chintakunta
79	Chintalamanepalle
55	Chittam
99	Chunchpalle
89	Dabba
158	Dampur
173	Dehgaon
108	Dharmaram
29	Dhorpalle
197	Digda
54	Dimda
203	Dubbaguda
192	Eatcpalle
12	Esgaon
68	Gabbai
50	Gangapur
181	Gannaram
96	Gannaram
5	Garlapet
184	Girvelli
164	Gollaghat
37	Gondaipet
132	Gontlapet
114	Gorregutta
56	Gudam

NIRMAL TALUK

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

ALPHABETICAL LIST OF VILLAGES

NIRMAL TALUK

1961 Location Code No.	Name of Village
135	Akkapur
120	Aloor
1	Ambagaon
7	Ambakanti
144	Ananthapeta
187	Ananthapeta
18	Andakur
23	Anjani
172	Arepalle
34	Arli (Buzurg)
44	Arli (Khurd)
170	Babapur
21	Bamni (Buzurg)
62	Bamni (Khurd)
67	Banaspalle
184	Bandal Khanapur
91	Beeravelli
53	Bhagapur
115	Bhagirathipur
47	Biloli
93	Boorgaon
156	Boorugupalle
77	Bopparam
173	Boregaon
4	Burgpalle
45	Burugpalle
40	Chakepalle
166	Chamanpalle
183	Chandaram
30	Charlapalle
118	Chincholi (Buzurg)
100	Chincholi Malak
186	Chintala Chanda
32	Chintalkunta
85	Chittyal
117	Dangapur
182	Danthepalle
3	Daonelly
25	Daryapur
190	Devatapur
113	Dhani
161	Dharmaram
55	Dharmura
87	Dilawarpur
180	Dimmadurti
41	Dongargaon
38	Eddur
63	Gadchanda
155	Gaidpalle
123	Gajulpeta
130	Gamjala
59	Ghodsera
94	Ghodsera
114	Gopalpet
5	Gulmadgu
31	Gundampalle
49	Hadgaon
43	Havarga
82	Jafrapur
112	Jam
104	Jewli
88	Kadli
129	Kadthala
19	Kallur
92	Kalwa
141	Kamalapur
188	Kamal Kota
158	Kanakapur
98	Kankati
179	Kapanpalle
109	Karji
69	Khanjar
149	Kishanraopeta
52	Kishtapur
137	Kondapur

SUB-TABLE 7 TO VILLAGE & TOWN DIRECTORY

INDUSTRIAL ESTABLISHMENTS

ADILABAD DISTRICT

[Note:—In the Sub-Table below relating to Industrial Establishments, the units of various Industries existing in villages and towns are given. The particulars are given separately for the Rural and Urban areas. The industries are arranged, first for the district total, in the ascending order of Minor Groups of Industries under the Indian Standard Industrial Classification showing the total number of establishments within brackets next to each Minor Group code number, for Total, Rural and Urban separately. The figures for the various taluks are also presented showing first the total numbers on the pattern adopted for the district totals, followed by the particulars for the villages and towns in that taluk in the order of the Village/Town Directory. Against each Village/Town are shown the Minor Group Code Numbers of the Industries or Crafts found in that Village/Town with the number of units engaged in the Minor Group in brackets against each of the Groups.]

Detailed description of Industrial Code (Minor Group) numbers under which the Industrial Establishments are arranged in the above Sub-Table is given below:

Minor Group No. (1)	Description as per the Indian Standard Industrial Classification (2)
042	Rearing and production of other animals (mainly for slaughter) such as pig
200	Production of rice, atta, flour etc., by milling, dehusking and processing of crops and foodgrains
205	Production of bread, biscuits, cake and other bakery products
206	Production of butter, ghee, cheese and other dairy products
207	Production of edible fats and oils (other then hydrogenated oil)
209	Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge
212	Production of indigenous liquor such as toddy, liquor from mahua, palm juice
214	Production of aerated and mineral water
216	Production of ice cream
220	Manufacture of bidi
230	Cotton ginning, cleaning, pressing and baling
231	Cotton spinning (other than in mills)
233	Cotton dyeing, bleaching
235	Cotton weaving in handlooms
237	Printing of cotton textile

SUB–TABLE 7 TO VILLAGE & TOWN DIRECTORY—*Concld.*

ADILABAD DISTRICT

Minor Group No.	Description as per the Indian Standard Industrial Classification
(1)	(2)
241	Jute spinning and weaving
244	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta
255	Wool weaving in handloom
260	Spinning and weaving of silk textile in mill
273	Making of textile garments including raincoats and headgear
274	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags
280	Sawing and planing of wood
281	Manufacture of wooden furniture and fixtures
283	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures
284	Manufacture of other wooden products such as utensils, toys artwares
288	Manufacture of materials from cork, bamboo, cane, leaves and other allied products
289	Manufacture of other wood and allied products not covered above
290	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill
310	Currying, tanning and finishing of hides and skins and preparation of finished leather
311	Manufacture of shoes and other leather footwear
314	Repairs of shoes and other leather footwear
320	Manufacture of tyres and tubes
332	Manufacture of fertilisers
333	Manufacture of ammunition, explosives and fire works
335	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap
336	Manufacture of soap and other washing and cleaning compounds
340	Manufacture of structural clay products such as bricks, tiles
341	Manufacture of cemen tand cement products
343	Manufacture of structural stone goods, stone dressing and stone crushing
350	Manufacture of earthenware and earthen pottery
365	Manufacture of brass and bell metal products
368	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products
369	Manufacture of sundry hardwares such as G.I. pipe, wire net, bolt, screw, bucket, cutlery (*This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36,37,38 and 39*)
384	Repairing and servicing of motor vehicles
388	Repairing of bicycles and tricycles
392	Assembling and repairing of watches and clocks
393	Manufacture of jewellery, silverware and wares using gold and other precious metals
394	Manufacture and tuning of musical instruments
399	Manufacture and repair work of goods not assignable to any other group
