PREFACE

Before 1951, only the figures of population of revenue villages were given in what were then called 'Village Handbooks'. But the decision to bring out the District Census Handbooks giving extracts from all the important census tables for every district of the State was taken for the first time in 1951. In addition to the census tables, the minimum information given in the Primary Census Abstract related to the area of the village, number of houses and households, total population, houseless and institutional population, literates, and agricultural and non-agricultural classes distributed under 8 main livelihood classes. Census statistics given in the Primary Census Abstract were further supplemented by the addition of useful administrative information on such items as post offices, railway stations, distance of bazzar from village, primary schools, village panchayats, co-operative society, etc. This was a unique achievement of the Indian Census giving as it did the basic demographic and economic information for the smallest administrative unit, namely, the village, and in some States, even for each hamlet and also for wards in towns and cities. The 1951 series of District Census Handbooks, however, varied in content and size from State to State depending upon the resources offered by the State Government. The Registrar General, therefore, desired that the Handbooks brought out during the Census of 1961 should contain certain minimum statistical data, maps and other useful information which should be uniformly adopted throughout the country. The matter was discussed at the conferences and seminars of the Superintendents of Census Operations before the contents of the various sections of the District Census Handbook were decided upon.

The Government of Gujarat at first proposed to include a very limited number of census tables in the District Census Handbook as against a very extensive and comprehensive coverage accepted for common adoption by the States. But on reviewing the matter on receipt of the recommendations of the third conference of Superintendents of Census Operations, the Government thought advisable to incorporate as many of the census tables as possible to enhance its usefulness. The result has been that the District Census Handbook of 1961 differs widely in the matter of content and coverage from that published after the Census of 1951 and contains a number of new features, examined, below.

The District Census Handbook has been sub-divided into three parts, viz., :-

PART I—THE DISTRICT

(i) Introductory Essay

(ii) Brief Gazetteer of Place Names

PART II—STATISTICS

(i) Census Tables

(ii) Villagewise List of Industrial Establishments

(iii) Handicrafts Tables

(iv) Departmental or Official Statistics

PART III—VILLAGE DIRECTORY

(i) Explanatory Note

(ii) Village Directory

(iii) Taluka Maps

Part I is entirely new. While all the items under Part II except that relating to the main Census Tables are added for the first time, the Village Directory Section has been enlarged by the inclusion of certain useful information and maps. Various items included in each of these three parts are listed below.

PART I—THE DISTRICT

(i) *Introductory Essay*

This is a new feature added for the first time. The district has been introduced by giving at the outset certain essential information about its geographical location, physical features, historical background, administrative divisions, territorial changes, topography, soil, climate,

temperature, rainfall, etc. Growth of population, its distribution between rural and urban areas, density, literacy, sex ratio, marital status, economic activities, etc., have been discussed with reference to census tables. Agriculture, livestock, social services, co-operation, transport and communications, facilities of education, medical relief, housing, labour, Community Development Programme, progress of Plan schemes, etc., have also been reviewed in the light of available official statistics. In fine, all the essential details relating to the demographic, economic, social and cultural aspects as revealed by the census and departmental statistics have been examined to give a succinct account of the district as it stood in 1961.

(ii) *Brief azetteer of Place Names*

The gazetteer gives in brief information about all the places of historical or religious importance and interest in the district. While the historical background and other relevant details have been taken from the old District Gazetteers, information in respect of major irrigation projects, townships, crafts, fairs and festivals, etc., have been separately collected and brought up-to-date in consultation with the Collectors.

PART II—STATISTICS

Part II contains (a) all the important Census Tables including those compiled from House-lists and (b) Official Statistics, furnished by the various State departments.

Census Statistics

The statement that follows compares the number of tables compiled in different census series with those selected by Government for reproduction in the District Census Handbook.

Details of tables compiled in 1961 Census and reproduced in District Census Handbook

Series	Description	Total No. of tables compiled in 1961	Tables reproduced in District Census Handbook	
			Number	Particulars
1	2	3	4	5
A	General Population Tables . .	4	3	A-I and its Appendices I, II & III with sub-Appendices 1 & 2, A-III and A-IV with Appendix I and Special Appendix
B	Economic Tables . . .	17	12	
	(i) General Economic Tables .	9	7	B-I, B-III-Parts A & B, B-IV-Parts A, B & C, B-V, B-VII-Parts A & B, B-VIII-Parts A & B and B-IX
	(ii) Household Economic Tables .	8	5	B-X, B-XI, B-XII, B-XVI and B-XVII
C	Social and Cultural Tables . .	8	7	C-I, C-II, C-III-Parts A & B, C-IV C-V, C-VII, C-VIII-Parts A & B
D	Migration Tables . . .	6	..	
E	Tables on Housing and Establishments.	5	4	E-I, E-II, E-IV and E-V
SCT/SC/ST	Special Tables on Scheduled Castes and Scheduled Tribes .	8	1	SCT-I-Parts A & B

Note :

Two more tables have been specially compiled from House-lists, viz., (i) Villagewise List of Industrial Establishments and (ii) Handicrafts Tables.

Official Statistics

The picture the census statistics present will be incomplete without the official or departmental statistics reviewing the progress made by the various administrative departments during the past decennium. An attempt has, therefore, been made to compile important official statistics for publication in the District Census Handbook. These statistics which relate to the past ten years must be adjusted to the existing set-up of administration, if they are to be really useful and comparable. This, however, was not possible in spite of efforts to that effect. For, extensive changes in the territorial jurisdiction of districts and talukas have taken place during the last ten years, first as a result of integration in 1956 and then due to bifurcation on May 1, 1960 when Gujarat came into being as a separate political unit for the first time. Non-availability of the required data in case of most of the Princely States and Estates was another handicap. The task of compilation of official statistics was thus beset with innumerable difficulties. The proformae for the various statements numbering 49 as approved by Government and the Registrar General were circulated to all the concerned Heads of Departments as early as July 1961. In view of the importance of these statistics, the Government by circular letter No. CNS-1461-A2 dated the 27th July 1961 addressed to all the Heads of Departments had also directed that official statistics called for by the Superintendent of Census Operations should be furnished within two months through the Director, Bureau of Economics and Statistics, after thorough scrutiny by some responsible officer of the department along with a certificate to the effect that the data furnished are up-to-date, complete and authentic in all particulars. The delay, however, caused in furnishing correct and complete information by the departments delayed final compilations and resulted in protracted correspondence to rectify the discrepancies and incompleteness noticed during he course of verification at the Bureau. Non-availability of the required information for the various administrative units as at present constituted was another obstacle. The progress had, therefore, to be reviewed from time to time in a series of meetings with the Director, Bureau of Economics and Statistics and representatives of the departments concerned. The offices from which information was not received had to be frequently reminded by the Director, the Census Department and at times even by the Chief Secretary. Some of the tables proposed to be included could not be inserted or had to be revised either for want of receipt of timely information or owing to the non-availability or incompleteness of the data furnished. Where data for individual years are not available, they have been collected for the years 1950-51, 1955-56 and 1960-61 which mark the commencement of the First, Second and Third Five Year Plans. Where statistics for these periods are not available, they are given only for the year 1960-61; and where the figures compiled are not available for the units as at present constituted, the clarification as to the unit to which they refer has been made in the footnote to the statements which also disclose the source of compilation.

PART III—VILLAGE DIRECTORY

The Village Directory or the Primary Census Abstract includes information regarding population, area, occupied houses, households, workers classified into nine industrial categories of workers and non-workers, Scheduled Castes and Scheduled Tribes, literates and educated, etc., for each village as well as for every ward and block of about 120 houses in each town. In addition, it gives information on certain essential amenities existing in the village such as educational facilities, public health and medical facilities, supply of drinking water, electricity and its uses, etc., by means of abbreviations placed against the name of each village. This additional information has been compiled from the special 'village notes' devised for the purpose and collected through the Block Development Officers. They relate to the position as it existed about March 1961.

The figures of population of Scheduled Castes and Scheduled Tribes were given in 1951 for certain arbitrary tracts formed by the grouping of talukas. The result was that the administration was seriously handicapped in the absence of relevant particulars for the various administrative units of a district which were required oft and

on for planning and other purposes. This lacuna has been removed on the present occasion by giving figures of Scheduled Castes and Scheduled Tribes for each village in the Primary Census Abstract. The talukas and villages given in the Village Directory are arranged in the order of their location code numbers.

MAPS

The Village Directory is preceded by taluka maps showing villages by their location code numbers and dots varying according to the size of the village. Other items such as district or taluka headquarters, railway, national highway, State highway, local roads, post office, post and telegraph, canal, river, rest house, police station, etc., have been shown on the map with appropriate symbols. Two key maps, one for the State showing the district boundary and the position of the district in the State in hatching and the position of the taluka in the district in black and another key map for the district showing taluka boundary and the position of taluka in the district in hatching have also been included in the taluka map. In addition to taluka maps, a map of the district has also been given at the commencement of the Handbook showing the various items listed above for the taluka map and villages having population over 5,000. The key map given in the district map shows district boundary and the position of the district in the State in hatching.

The preparation of district and taluka maps and finalisation of area figures proved to be another handicap. The District Inspectors of Land Records had furnished tracings which had to be brought up-to-date in the light of changes in boundaries owing to integration on the one hand and bifurcation on the other. Frequent references and back references entered into at various levels, the Settlement Commissioner, Superintendents and District Inspectors of Land Records to remove the discrepancies and reconcile the inconsistencies noticed did not yield much result. The matter was, therefore, finally set at rest by calling a conference of Superintendents and District Inspectors of Land Records who did on-the-spot checking and verification and certified the correctness of the ultimate delimitation of boundaries and location of villages appearing in the taluka and district maps and accuracy of area figures entered in the Primary Census Abstract.

PAGING

Each of the three parts of the District Census Handbook will have a separate series of page numbers starting with 1.

ALPHABETICAL LIST OF VILLAGES

With a view to enable the reader to trace a village from the Village Directory, an alphabetical list of villages giving the names of villages and indicating their location code numbers, page number and serial number on the page at which they are printed has been given separately for each Taluka/Mahal at the commencement of the Handbook.

THE HANDBOOK

The contents of the District Census Handbook explained above have been finalised after frequent deliberations at various census conferences and seminars, and meticulous care as to their form, size and presentation. But these by themselves would not have been sufficient had the Government not readily responded to the various suggestions made in this behalf. If I may say so, the Government had placed implicit faith in me, and accepted all the proposals made by me from time to time to add to the utility of this important compilation. It is hoped that the District Census Handbook in its present form will satisfy a growing demand for basic census data by ultimate territorial units and other background information about the district and also prove to be a useful book of reference to the administrative departments and the public.

The Government of Gujarat has taken a further decision, namely, to print the District Census Handbook also in the regional language of the State, viz., Gujarati. This will very much add to the utility of this publication. The Handbook in Gujarati will contain (i) Note introducing the district, (ii) Alphabetical list of villages, (iii) Census Tables, A–I, A–III and SCT–I, (iv) Village Directory with explanatory note and (v) District and Taluka maps.

ACKNOWLEDGEMENTS

Help in the compilation of the District Census Handbooks has been forthcoming from various quarters, to all of whom I am deeply indebted. I, however, wish to express my thanks to Shri V. Isvaran and Shri V. L. Gidwani, Chief Secretaries to Government, and Shri M. G. Shah, Deputy Secretary, General Administration Department for all the facilities they have given in their preparation and publication of these Handbooks. I am also obliged to the Bureau of Economics and Statistics for the services rendered in the compilation of Official Statistics furnished by the Heads of Departments and the checking of the statistical data in the draft-notes for the Introductory Essays prepared by the District Statistical Officers. My thanks are also due to Shri H. V. Desai, Settlement Commissioner, Superintendents of Land Records and District Inspectors of Land Records for their assistance in the finalisation of area figures and verification of district and taluka maps. Lastly I should place on record my gratitude to Shri Balwantray G. Mehta, Chief Minister of Gujarat, whose keen interest has to no small extent ensured the expeditious printing and publication of the District Census Handbooks.

Programme for the printing of District Census Handbooks has this time been very heavy indeed, more so as they are published both in Gujarati and English. The arrangements made by Shri B. A. Koreishi, Director, Government Printing and Stationery, and Shri G. J. Gonsalves, Deputy Director, for the printing of the voluminous work pertaining to the District Census Handbooks at the various Government and local presses, are thankfully acknowledged. The excellent work turned out by the Government Photo-zincographic Press, Poona in printing district and taluka maps deserves special mention.

I would like to place on record the valuable contribution made by the members of the Census Organisation at various levels in bringing out the Handbook in its present form. Mention in particular should be made of Shri K. F. Patel, Deputy Superintendent of Census Operations, Shri J. D. Shah, Statistical Assistant, Shri H. S. Bhatt, in charge proof reading section and Shri K. D. Vaishnav and Shri L. S. Shrimali of draftsman section. Before I conclude I must pay tribute to the conscientious discharge of duties by the late Shri J. K. Patel, Special Mamlatdar whose services were placed by Government at the disposal of the Census Organisation, for supervising the printing of District Census Handbooks. It is a matter of great regret that his services were lost to us, as he was removed from our midst in the prime of his life owing to sudden heart failure.

Finally, the Registrar General has given such anxious thought and care since the inception of the Census Organization to ensure that the District Census Handbook which the Census of 1961 brings out is an up-to-date book of reference for the District by including all available useful data both census as well as official. I am grateful to him for the valuable suggestions made and guidance given by him in this important publication.

R. K. TRIVEDI,
Superintendent of Census Operations,
Gujarat.

AHMEDABAD,
9th March, 1964.

PART I

1 INTRODUCTORY ESSAY

2 GAZETTEER OF PLACE NAMES

INTRODUCTORY ESSAY

BANASKANTHA DISTRICT

1 LOCATION AND PHYSICAL FEATURES

1.1 Boundaries and Natural Divisions

Banaskantha district is, as its name denotes, the territory situated on and around the river Banas. Lying between 23° 35′ to 24° 43′, north latitude and 71°-0′ to 73°-0′ east longitude, the district has an area of 4,648.6 sq. miles and a population of 996,144 according to 1961 Census. It was composed, on the merger of States in the year 1948, out of the merged States of Palanpur, Radhanpur, Danta, Tharad and Vav, Deodar and Thara Jagirs, and the old Agency Thanas of Bhabhar, Deodar, Sihori Varahi and Santalpur and the Sub-Thana of Suigam.

The district is situated on the north-western part of Gujarat bordering Marwar and Sirohi area of Rajasthan in the north part of Mehsana district on the south and Sabarkantha on the east. In the west it is surrounded by the Rann of Kutch which forms the frontier with Pakistan.

1.2 Configuration

The general appearance indicates that the district has roughly two main geographical divisions and the river Banas serves as a dividing line between the two. In the neighbourhood of Palanpur and to the eastward, the region is undulating and well-wooded. To the north and north-east, there are hills and ranges of good height and size, which render the district extremely difficult for transport. The chief of these are Jhasore (about 3,500 feet high) and Chikhodar Mata's hill near Amirgadh. The whole region is a vast level plain. Towards the north and south where it borders on Marwar and Jhinjhuwada, there is scarcely a tree to be seen, while along the entire eastern border nothing but a salt marsh meets the eye.

1.3 Rivers

Banas is the main river of the district. It rises in the Dhebar lake among the Udaipur hills and flows west past the flourishing towns of Abu Road and Deesa and enters the Rann of Kutch near Gokhatar in Varahi and Agichana in Radhanpur taluka. The chief tributaries of the Banas river are Sipu and Balaram. The Sipu rises in the east of Himaj hills in the Sirohi district and joins the Banas river near Bhadath and Chhota-Ranpur Vas in Deesa taluka. The Balaram rises in the hills on the north-eastern border, flows by the shrine of Balaram from whence it takes its name and joins the Banas near Karja in Palanpur taluka. The Arjuni, which is considered holy by the Hindus, is a large river that rises in the Ambaji hills and becomes Saraswati after its confluence with the Saraswati which rises in the Mahikantha hills, near Bamanwara, at the south-west corner of Vadgam mahal. This river passes by Sidhpur and Patan in Mehsana district and enters the Rann of Kutch. These rivers are entirely dependent on monsoon and dry up in the hot weather.

1.4 Soil

The soils of the district are derived mainly from sand and stones. They are sandy, porous, well-drained and easy to work with implements. Parts of Danta, Amargadh and Palanpur talukas consist of sandy loam soils having scattered blackish patches. In parts of Vav and Deodar talukas soils are saline. On the whole, because of its good sub-soil drainage, the capacity of the soil to retain moisture is very poor. This adds to regular droughts, which make the growth of vegetation more and more difficult. The general nature of soil is suitable for Kharif cropping only.

1.5 Climate and Temperature

The climate of the district is warm but nevertheless healthy. In the hot season the heat is great and it becomes intense in the northern part towards Marwar and in the western part towards the Rann of Kutch. In 1960, the maximum temperature recorded at Palanpur in the hot season was about 110°C in May, the minimum in the cold season being 54°C in January.

1.6 Rainfall

The average rainfall of the district for the year 1960 was 17.8 inches. It is more in the eastern part of the district, viz., Palanpur taluka and scarce towards the western parts of the district, viz., Radhanpur and Tharad talukas. The statement given below furnishes the figures of average annual rainfall at headquarters station, palanpur for the years 1951-1960.

Annual rainfall at the headquarters station, Palanpur, 1951-60

Year	Annual rainfall	
	In Inches	In Centimetres
1	2	3
1951	N.A.	N.A.
1952	26.0	66.1
1953	24.5	62.3
1954	32.9	83.5
1955	22.7	57.6
1956	60.9	154.8
1957	N.A.	N A.
1958	15.2	38.5
1959	46.9	119.0
1960	17.8	45.2

N.A. = Not available

It is seen from the above table that the rainfall is the heaviest (60.9 inches) in 1956.

1.7 Forests

The forest of the district is an exterior portion of Arawali ranges. The eastern part of the district abounds in jungles comprising the Palanpur and Danta talukas. The total area of the forest is 529.62 sq. miles, of which 35.56 sq. miles are reserved forests, 2.12 sq. miles protected forests and 491.94 sq. miles of unclassified forests. The vegetation consists of *Kaladhav, Kadaya, Salar, Golar, Bor, Khakhro, Kher* and *Aniyar* varieties of trees. Nearly 60 per cent of Amirgadh circle is full of bamboo. The chief forest produce of the district are firewood, bamboo, honey, lac, *doom, timroo* leaves, white and black *musli* (medicinal root plant), *aval* bark, *bor* fruit, soap nuts, *kothan*, etc.

Lime and marble stones of good quality are dug out from the Divanji and Jarivav quarries situated in the jungle areas. The jungles are devoid of water. These forest areas were being effaced in the pre-integration period but after Independence the position has altogether changed, as plans for the better utilisation of the forest by resorting to scientific methods of tree-rearing are being framed and implemented.

1.8 Famine and Scarcity

The Fact Finding Committee appointed by the Government of Bombay in 1958 for determination of precarious and other scarcity areas found that the areas included in the present Banaskantha district were formerly small States like Palanpur, Radhanpur, Santalpur, Danta and Jagirs of Vav and Tharad. No detailed record of the occurrence of scarcity or famine in this areas in the years before merger with Bombay is available. The data available related to the period 1949-50 to 1957-58. Since these areas were unsurveyed and unsettled, no accurate basis for working out annawari could be had about the suspension of land revenue for the period. The Committee found that the following talukas were affected by scarcity during the years shown below.

Talukas affected by scarcity

Name of the taluka	Total No. of villages in the taluka	Year
1	2	3
Tharad	133	1949–50, 1951–52, 1952–53, 1955–56, 1956–57, 1957–58
Vav	121	1949–50, 1951–52, 1955–56, 1956–57, 1957–58.
Radhanpur	66	1949–50, 1952–53, 1955–56, 1957–58.
Santalpur	75	1948–49, 1949–50, 1951–52, 1952–53, 1955–56, 1957–58.

Talukas on the eastern side of the district, viz., Danta, Palanpur and Deesa were free from scarcity.

Kankrej and Vadgam are more favourably situated in the matter of soil and irrigation facilities. The rainfall in these talukas is also higher than the talukas in the west adjoining the Rann of Kutch, viz., Vav, Tharad, Radhanpur and Santalpur. The areas which require closer consideration from the point of view of chronic scarcity are Vav, Tharad, Radhanpur, Santalpur and parts of Dhanera and Deodar. The Committee has treated Santalpur, Radhanpur, Vav and Tharad talukas, as precarious areas of Class A, i.e., the areas where there had been a total failure of crops once every three years, while parts of Deodar (area to the west of Deodar town and north of Deesa-Kandla line) and part of Dhanera to the west of the railway line as scarcity area of Class B, i.e., the areas where there had been a total failure of crops once every 6 years.

2 ADMINISTRATIVE SET-UP

2.1 Historical Background

The territory now forming Banaskantha district has passed many hands during historical times. The region was first under the sway of different Rajput dynasties of Anhilwad, whereafter it came under the Sultans of Ahmedabad. It then passed on to the Mogul Emperors, the Marathas and lastly the British. The princely States under the charge of the British Superintendency included States of Palanpur, Radhanpur, Tharad, Merwada, Vav, Danta, Deodar, Varahi, Tervada, Suigam, Santalpur, Bhabhar and Chadchat. The Kankrej petty States remained under Mahikantha Agency till 1844 when they were transferred to the Palanpur.

The former Palanpur State was a princely State, enjoying the first class rank entitled to a guard of honour and a salute of 11 guns. In the 14th century it was ruled by *Palansi Chohans*. Early in the 17th century the *Chohans* were displaced by *Musalman* rulers of *Jhalor* family who continued to rule till Independence.

Of these States, Danta was second class in rank and enjoyed the special privilege of having within its territory the famous shrine of goddess 'Amba Bhavani'.

The former Radhanpur State was the seat of the *Babi* ruler who was first class chief entitled to a guard of honour and a salute of 11 guns. The name of Radhanpur town, capital of the former State is said to have been derived from Radhankhan, a descendant of Fatehkhan Baloch who was under the *Sultan* of Ahmedabad. As a result of integration of Indian States in the year 1948, the States of Palanpur, Radhanpur, Danta, Tharad and Vav, Thara Jagirs and the old Agency Thanas of Bhabhar, Deodar, Sihori, Varahi and Santalpur as well as the Sub-Thana of Suigam, merged into the district forming part of the then Bombay State.

2.2 Territorial Changes

This district was a part of the former Bombay State till Independence (1947). The district formed part of Gujarat State on its formation into a separate State on 1st May, 1960. The territorial changes which took place between the period 1951-61 are given in sub-Appendix 2 to Appendix I of Table A–I published in Part II of this Handbook.

2.3 Administrative Divisions

Banaskantha is one of the districts of Baroda Division of Gujarat State. For the purposes of revenue administration, the district is divided into 4 (four) Sub-Divisions with 10 (ten) talukas and 1 (one) mahal.

The details about the area and population in respect of these sub-divisions are given in the following table.

Administrative Divisions, 1961

Sl. No.	Sub-Division/ Taluka/Mahal	Area (in sq. miles)	No. of towns	No. of villages	Population		
					Total	Rural	Urban
1	2	3	4	5	6	7	8

11	Deodar	392.3	..	125	87,293	87,293	..

Details of inhabited and uninhabited villages, density and occupied houses are available in Census Table A-I published in Part II of this Handbook.

2.4 Revenue

The Collector is in charge of the general administration, law and order and civil supplies. He is assisted by a Personal Assistant in his office and 4 Deputy Collectors in charge of 4 sub-divisions having their headquarters at Palanpur, Deesa, Tharad and Radhanpur. There are 10 mamlatdars in charge of 10 taluka offices and 1 mahalkari in charge of the mahal office.

2.5 Revenue Settlements

This district comprises of former Palanpur, Radhanpur, Vav, Tharad and Danta States and Thanas and Jagirs formerly controlled by Agency.

Prior to 1947, the pre-historic system of land revenue, viz., Bhag-Batai, Kaltar and udhad methods of recovery of land revenue prevailed, except in Palanpur and Radhanpur State areas where the lands were surveyed and only some partial survey was found necessary after 1947, to bring the survey up-to-date. This was got done through the staff of the Merged State Area Survey and Classification Scheme, which was largely employed in this district. The remaining areas which were unsurveyed have been got surveyed by the same staff. The soil of the former State and areas were got classified after 1947. In none of the areas of this district, there was anything like land revenue settlement. Land revenue assessment has, therefore, been fixed under Section 7 of the Bombay Merged Territories and Area (Jagir Abolition) Act, 1953, in the former Jagir areas and under Land Revenue Rule 19-O framed under Section 52 of Bombay Land Revenue Code in the rest of the areas. According to Land Revenue Rule 19-O, groups of villages of the merged areas formed on consideration of their homogeneity in respect of permanent and semi-permanent factors of physical configuration, climate and rainfall, markets, communications and mode of husbandry and Comparable *Union Areas were fixed for them. Land Revenue assessments

*Union areas=Areas forming part of the Pre-Indepen-dence districts of Bombay Province

were then worked out by applying (1) the recoverable rate worked out under L.R.R. 19-N, or (2) the existing rate prevailing in the merged area or (3) the rate worked out on the basis of average cash value of 35 per cent of 1/6th of the gross produce, whichever was the lowest, to the soil classification value through the medium of the distance from village site scale and the actual area of Survey Number or its sub-division.

Under Section 7 of the Bombay Merged Territories and Area (Jagir Abolition) Act, the Land Revenue assessment is fixed by applying the rate of adjoining homogeneous khalsa village.

2.6 Land Tenures and Agrarian Reforms

The former Jagiri tenure has been abolished under the Bombay Merged Territories and Area (Jagir Abolition) Act, and the Inams, except Devasthan Inams, were abolished under the Bombay Merged Territories (Miscellaneous Alienations Abolition) Act, 1955. In the Banaskantha district, there is no other special tenure. the Bombay Tenancy and Agricultural Lands Act, 1948 has been applied in the district with a view to do away with the intermediaries between the agriculturists and the State. The Bombay Prevention of Fragmentation and Consolidation of Holdings Act, 1947, has been applied to the area and the activities under the Act have been started in the district since 1954. The work is at present in progress in Deodar and Palanpur talukas. Under the Gujarat Agriculture Lands Ceiling Act, 1960, the maximum limits to the land holdings have been laid down. The position in respect of survey and soil classification and Land Revenue assessment as also in respect of the relations between the agriculturists and the State have been brought on par with that obtaining in the pre-merger union areas of the State.

2.7 Parliamentary and Assembly Constituencies

Under the Delimitation of Parliamentary and Assembly Constituencies Order, 1961, one seat is allotted to this district for the purpose of election to the House of the People and seven seats for the State Assembly. The details comprising the territorial extent of the Parliamentary and Assembly constituencies are shown below.

Delimitation of Parliamentary and Assembly Constituencies

A *Parliamentary Constituency*

Sl. No.	Name of Constituency	Extent in terms of Assembly Constituencies
1	2	3
1	Banaskantha	Radhanpur, Tharad, Deodar, Dhanera, Deesa, Palanpur and Vadgam

B *Assembly Constituencies*

Sl. No.	Name of Constituency	Extent of Constituencies
1	2	3
1	Radhanpur	Santalpur and Radhanpur talukas and 26 villages of Un circle and 17 villages of Terwada circle of Kankrej taluka
2	Tharad	Tharad taluka (excluding 27 villages of Jetda circle of Tharad taluka) and Vav taluka
3	Deodar	Deodar taluka and 27 Villages of Jetda circle of Tharad taluka and Kankrej taluka (excluding 26 villages of Un circle and 17 villages of Terwada circle of Kankrej taluka
4	Dhanera	Dhanera taluka and 27 villages of Agathala circle and 25 villages of Vithadar circle of Deesa taluka
5	Deesa	Deesa taluka (excluding 27 villages of Agathala circle and 25 villages of Vithadar circle of Deesa taluka) and 12 villages of Gadh circle of Palanpur taluka
6	Palanpur	Palanpur taluka (excluding 12 villages of Gadh circle of Palanpur taluka)
7	*Vadgam	Vadgam mahal and Danta taluka

*This seat is reserved for Scheduled Castes.

2.8 Judiciary

The judicial set-up of the district comprises of one District and Sessions Judge, one

Civil Judge (Sr. Division) and five Civil Judges (Jr. Division). As Sessions Judge he is empowered to impose any sentence authorised by law, but any sentence of death subject to confirmation by the High Court. The Assistant Sessions Judge is empowered to impose any sentence authorised by law, except a sentence of death or imprisonment for life or of imprisonment for a term exceeding 10 years. The District Judge has unlimited jurisdiction in civil suits while the Assistant Judge has jurisdiction up to Rs. 15,000 in such suits. Civil Judge (Sr. Division) and Judicial Magistrate is empowered to impose a sentence of imprisonment for a term not exceeding 2 years and fine not exceeding two thous and rupees. He has got unlimited jurisdiction in civil suits. Civil Judges (Jr. Division) have jurisdiction up to Rs. 10,000 in civil suits.

2.9 Police

The total strength of civil police in 1960 amounted to 1,458 persons. There were 20 police stations and 30 police outposts in the district. The total number of cognisable offences investigated was 2,193. Thus there was 1 police per 6.00 sq. miles of area. The number of persons per police was 1,285 and the number of cognisable offences investigated per police was 2.83.

The number of crimes by major class of offences in the district is extracted from Table 11.3 given in Part II of this Handbook, wherein other details regarding number of persons acquitted or discharged and number of persons convicted will also be found.

Persons convicted by nature of offences, 1960-61

Description of offence	No. of persons convicted
1	2
Against State	70
Against the public tranquillity	
By or relating to public servants	11
Affecting the public health, safety, convenience, decency and morals	31
Affecting life	
Hurt	73
Theft	158
Criminal Trespass	24

3 LOCAL SELF GOVERNMENT

3.1 Local Self Government Institutions

The Local Self Government institutions in the State as on 1st April, 1961, which is the period covered by this Handbook are (1) Municipalities, (2) District Local Board, (3) District School Board and (4) Gram Panchayats. But since the Panchayats Act has come into force from 1st April, 1963, replacing the existing district Local Boards by Jilla Panchayats and introducing democratic decentralisation at all levels, a short resume of the provisions of this Act as regards the new set-up, functions, finances, etc., will also be given to bring the position about administrative set-up up-to-date.

3.2 Municipalities

At the end of 1960-61 there were 3 municipalities covering 3 towns with a population of 63,088. The average population per municipality was 21,029. The following table shows area, population, income and expenditure of each municipality in the district.

Municipalities, area, population, income and expenditure for the year, 1960-61

Municipality	Area (in sq. miles)	Population	Income (in Rs.)	Income per head (in Rs.)	Expenditure (in Rs.)	Expenditure per head (in Rs.)
1	2	3	4	5	6	7
Total	**14.83**	**63,088**	**1,312,791**	**20.89**	**1,440,141**	**22.83**
Palanpur	5.50	29,139	447,070	15.34	338,510	11.62
Deesa	5.33	18,891	675,624	35.76	945,473	50.05
Radhanpur	4.00	15,058	190,097	12.62	156,158	10.37

Details regarding number of members, sources of income and heads of expenditure are available in Official Statistics Table 14.1 published in Part II of this Handbook.

The total income of all the three municipalities during 1960-61 amounted to Rs. 1,312,791. The income per head of population as per 1961 Census was Rs. 20.89. As against this, the total expenditure in 1960-61 of all municipalities amounted to Rs. 1,440,141 and average expenditure per head of population Rs. 22.83.

3.3 District Local Board

Total income and expenditure of the board during 1960-61 was Rs. 772,223 and Rs. 751,301 respectively. The main sources of income are local rates and land revenue and the major heads of expenditure are minor works and navigation and refunds. The following table shows income and expenditure of the Banaskantha District Local Board during 1960-61 under different heads.

Income and expenditure of District Local Board, 1960-61

Head	Income (in Rs.)	Head	Expenditure (in Rs.)
1	2	3	4
Total	**772,223**	**Total**	**751,301**
Land Revenue	117,485	Refunds	232,635
Local Rates	492,051	Administration	47,798
Interest	19,274	..	..
Law and Justice	200	..	..
..	..	Education	9,617
Medical	11,488	Medical	141,251
..	..	Pension	2,178
Miscellaneous	31,838	Miscellaneous	3,030
..	..	Famine Relief	1,882
Civil Works	99,887	Minor Works and Navigation	312,910

Details giving income and expenditure under different sources are available for the years 1950-51 and 1955-56 in Official Statistics Table 14.2 published in Part II of this Handbook.

3.4 Panchayats

The number of panchayats in the district at the end of 1960-61 was 534 covering 1,360 villages and towns. The villages having Nyaya Panchayats numbered 87. The number of panchayats in each taluka/mahal of the district together with their income and expenditure for the years 1955-56 and 1960-61 is given in the following table.

Income and expenditure of panchayats, 1955-56 and 1960-61

Taluka/Mahal	No. of village panchayats		Income (in Rs.)		Expenditure (in Rs.)	
	1955-56	1960-61	1955-56	1960-61	1955-56	1960-61
1	2	3	4	5	6	7
Total	**123**	**534**	**276,224**	**1,964,217**	**223,440**	**1,596,868**
Palanpur	16	93	50,893	374,713	76,734	434,636
Danta	11	36	63,542	142,071	57,956	157,383
Vadgam	19	55	52,109	158,545	35,876	140,620
Dhanera	16	43	49,399	114,773	16,530	52,720
Deesa	N.A.	58	N.A.	331,611	N.A.	181,344
Kankrej	10	39	28,807	144,681	21,352	107,822
Vav	25	60	N.A.	149,706	N.A.	131,055
Tharad	2	47	9,343	137,678	9,943	89,098
Deodar	24	51	22,131	194,070	5,049	105,349
Radhanpur	..	26	..	104,805	..	82,759
Santalpur	..	26	..	111,564	..	114,082

N.A.=Not available

Details for the years 1955-56 and 1960-61 are available in Official Statistics Table 14.3 published in Part II of this Handbook.

The total income of all panchayats for the year 1960-61 was Rs. 1,964,217 while the total expenditure amounted to Rs. 1,596,868. The income and expenditure per head of population covered under panchayats were Rs. 2.11 and Rs. 1.71 respectively. The income and expenditure per panchayat were Rs. 3,678.31 and Rs. 2,990.39 respectively.

3.5 Present Set-up under the Panchayat Act

The Gujarat Panchayats Act has been brought into force in all the districts of Gujarat (except Kutch and Dangs districts) from 1st April, 1963. In the Kutch district, it has been brought into force with effect from 15th April, 1963. It is not yet made applicable to the Dangs district. In each district there are three tiers of the Panchayat organisation—gram/nagar panchayats, taluka panchayats and district panchayat.

Municipalities having population not exceeding 10,000 have been converted into gram panchayats and those having population exceeding 10,000 but not exceeding 20,000 have been converted into nagar panchayats. A gram/nagar panchayat is subordinate to the taluka panchayat, while a taluka panchayat is subordinate to the district panchayat according to the scheme of this Act.

According to the provisions of the Gujarat Panchayat Act, 1961, a gram panchayat consists of not less than 9 and not more than 16 members, while a nagar panchayat consists of not less than 15 and not more than 31 members. Provision has been made to reserve seats for women and members of Scheduled Castes and Tribes. A taluka panchayat consists of ex-officio, elected, co-opted and associate members. On account of the national emergency, interim district panchayats had to be constituted in April, 1963. Elections are now proposed to be held and elected district panchayats would be constituted towards the end of March, 1964 in the sixteen districts of the State.

The District Development Officer is the Chief Executive Officer in a district panchayat. He is borne on the cadre of the Indian Administrative Service (Senior time-scale) and is appointed by Government. The Chief Executive Officer of the taluka panchayat is the Taluka Development Officer, who is also appointed by Government. Both these officers are secretaries of their respective panchayats. These panchayats function through various committees, appointed for different groups of functions under the Act.

FUNCTIONS

The functions of three tiers of panchayats have been given very elaborately in the three schedules to the Act. In addition, the functions of collecting land revenue (including cesses) and dues recoverable as arrears of land revenue, levied and assessed by or under the land revenue code and all other functions and duties of a village accountant under the land revenue code have been transferred to gram/nagar panchayats. The powers exercised and the functions and duties performed by the District School Board have been similarly transferred to the taluka and district panchayats and all primary schools have been placed under the control of taluka and district panchayats. A large number of functions such as registration of co-operative societies, approval of amendment to the bye-laws of co-operative societies, calling of or extending the period for the calling of annual general meeting of co-operative societies and such other functions which under the Co-operative Societies Act, were exercised by the Registrar, Co-operative Societies, have been transferred to district panchayats. Moreover, functions relating to agriculture, animal husbandry, public health and medical relief, social welfare, cottage industries and small scale industries and District Statistical Office, have been transferred on an agency basis to the district panchayats.

STAFF

To enable the panchayats to carry out numerous activities entrusted to them, Government has transferred/deputed a number of its employees along with the functions transferred. The staff

of the District School Boards and District Local Boards has also been transferred to taluka/district panchayats. It has been envisaged in the Act to constitute a panchayat service in connection with the affairs of panchayats and to maintain a uniform standard in the recruitment for panchayat service. A Panchayat Service Selection Board has been constituted for this purpose.

FUNDS

The panchayats have been given necessary funds to execute all schemes transferred to them. In addition, provision has been made in the Act, for various tiers of panchayat to levy taxes and fees. A gram or nagar panchayat, subject to certain conditions, can levy a tax on buildings, a pilgrim tax, a tax on fairs, festivals and other entertainments, a tax on bicycles or vehicles drawn by animals, a sanitary tax, etc. It can also levy fee on markets, cart stands, tonga stands, the supply of water from wells and tanks for purposes other than domestic use and for cattle. The taluka panchayat and district panchayat can request Government for increase in stamp duty. Moreover, provision has been made in the Act for making grants to the panchayats for its activities.

At present, the implementation of the Act is being done mostly through the Commissioner. They have been delegated with most of the powers of the State and exercise supervision over panchayats.

Provision has also been made in the Act under which the State Government will give grants to the panchayats on the basis of the average of the land revenue collected during the last three preceding years, after deducting therefrom the expenditure on the salaries and training of the secretaries of gram panchayats and village accountants and crediting 5 per cent of the amount to the State Equalisation Fund. 50 per cent of the balance will be distributed among gram panchayats and nagar panchayats, 25 per cent among taluka panchayats and 10 per cent among the district panchayats. Out of the remaining 15 per cent of the land revenue, 7½ per cent will be carried to the District Equalisation Fund and 7½ per cent to the Gram Encouragement Fund.

4 POPULATION

4.1 Growth of Population

In 1951, the population of the district as constituted in 1961, was 773,894. According to the 1961 Census the same has gone up to 996,144 and increased by 222,250 or 28.72 per cent, the highest during the last sixty years, and higher also during the decade than that observed in the case of Gujarat as a whole which is 26.88 per cent. The following table compares the growth rate in the district during the last sixty years.

Variation in population during 1901 to 1961

Year	Population	Decade variation	Percentage decade variation
1	2	3	4
1901	485,732	..	..
1911	465,036	— 20,696	— 4.26
1921	489,976	+ 24,940	+ 5.36
1931	530,484	+ 40,508	+ 8.27
1941	609,828	+ 79,344	+ 14.96
1951	773,894	+164,066	+ 26.90
1961	996,144	+222,250	+ 28.72
1901 to 1961	..	+510,412	+107.44

Sexwise details are available in Census Table A-II published in Census of India, 1961, Gujarat, Volume V Part II-A.

The unprecedented growth of numbers between 1951–61 can, however, be attributed to the decline in death rate, accompanied by steady improvements in medical and public health services available to the people since Independence.

OCCUPIED RESIDENTIAL HOUSES AND HOUSEHOLDS

The total number of occupied residential houses in the district is 188,471 or 5.05 per cent in the State. The average number of persons per occupied census house in total, rural and urban areas of the State and district are given below.

Average number of persons per occupied census house, 1961

Total/Rural/Urban	State	District
1	2	3
Total	**5.53**	**5.29**
Rural	5.54	5.33
Urban	5.52	4.72

It will be seen that the average number of persons per occupied house in the district is less than that of the State for its total, rural and urban areas.

The number of households in the district was, total 189,717, rural 174,063 and urban 15,654 and that of houses, total 188,471, rural 173,490 and urban 14,981. The number of households in the district. therefore, comes to 100.66, 100.33 and 104.49 per cent of houses for the total, rural and urban areas respectively, the average number of persons per household being 5.26, 5.32 and 4.51 respectively

4.2 Rural/Urban Distribution

The criteria for determining whether a place was rural or urban varied from census to census and rendered such data incomparable. A uniform definition for urban areas was, therefore, adopted during the Census of 1961, by laying down that a place should be classified as urban if it was (1) a municipality, cantonment or civil lines or, (2) had—(a) a population of 5,000 or over and (b) 75 per cent or more of the total male population was dependent on non-agricultural pursuits.

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'Village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distinct number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

4.2 (i) Rural Population

The total number of villages in the district is 1,369 of which 10 are uninhabited. The total rural population of the district is 925,490 giving an average of 681 persons per inhabited village. The proportion of rural population (92.91 per cent) to the total population in the district is much higher than similar proportion in the State which is 74.23 per cent.

Percentage distribution of rural population by size group of villages, 1961

Size group	No. of villages	Percentage to total No. of villages	Rural population	Percentage to total rural population
1	2	3	4	5
Less than 200	234	17.22	28,245	3.05
200–499	424	31.20	145,031	15.67
500–999	454	33.41	325,830	35.20
1,000-1,999	191	14.05	245,780	26.56
2,000–4,999	52	3.83	159,063	17.19
5,000-9,999	4	0.29	21,541	2.33
10,000 and above	..	..	..	..

Details of sexwise population for talukas are available in Census Table A-III published in Part II of this Handbook.

48.42 per cent of villages in the district fall in the class range less than 500, while 33.41 per cent of the total have population varying from 500 to 999. 4.12 per cent of them are large size villages (2,000 and above) covering 19.52 per cent of rural population. It is significant to note that the considerable proportion of rural population (61.76 per cent) is concentrated in villages having population between 500 and 1,999. Medium size villages is the feature of this district, the proportion of large size villages being rather small. The tendency of villages to grow in size and the concentration of rural population in medium size villages are noticeable from these statistics.

4.2 (ii) Urban Population

Statement showing the number of towns classified by population is furnished below.

Number of towns classified by size groups during 1901 to 1961

Year	I 100,000 and above		II 50,000 to 99,999		III 20,000 to 49,999		IV 10,000 to 19,999		V 5,000 to 9,999		VI Below 5,000	
	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population
1	2	3	4	5	6	7	8	9	10	11	12	13
1961	..	..	..	..	1	29,139	2	33,949	1	7,566	..	..
1951	..	..	..	..	1	22,629	2	22,616	1	6,584	..	..
1941	..	..	..	..	1	21,643	1	11,959	1	5,638	..	..
1931	..	..	..	..	1	20,347	1	11,225	1	9,019	..	..
1921	..	..	..	..	..	..	1	17,843	2	17,120	..	..
1911	..	..	..	..	..	..	3	28,788	1	7,117	..	..
1901	..	..	..	..	..	..	3	40,725	..	..	..	..

Sexwise details of each town are available in Census Table A–IV published in Part II of this Handbook.

Only 7.09 per cent of the total population of this district lives in urban areas, as against 25.77 per cent in the State. Since 1921, the number of towns has ramained stationary. But in 1951 it has increased to 4 and the position has remained uncharged in 1961 despite the change in definition of urban areas.

The urban population of the district, numbering 70,654 persons is spread over 4 towns of different sizes of which only one, viz., Palanpur comes under Class III and has population over 20,000. Of the rest, 2 are in Class IV, i.e. size group 10,000 to 19,999 and one falls under Class V and has population above 5,000 and below 10,000. There is no class I or II town in the district. The average population of a town in this district is 17,663 persons as compared to 30,380 for the State. Of the 11 talukas/mahals constituting the district, 7 have no urban population at all. The extent of urbanisation is thus found to be comparatively much less than that obtaining in the State as a whole.

4.3 Density

The area of the district in 1951 was 3,986.0 square miles or 5.61 per cent of the total area of Gujarat. In 1961, it rose to 4,648.6 square miles or 6.54 per cent of the total area of the State due to changes in the territorial jurisdiction of the district. The percentages of population for the district as constituted in 1961 are, however, found to be 4.76 per cent in 1951 and 4.83 per cent in 1961. The average density of population is 214 persons per square mile as against 290 for the State. The urban density (3,017) is naturally higher than the rural (200) where the pressure of population is comparatively less and the average density is worked out on the basis of the entire area within the revenue limits of the village and not of the village site. These densities differ for different parts of the district as also for its rural and urban areas as will be seen from the table that follows.

Population per square mile, 1961

State/District/Taluka/Mahal	Population per square mile		
	Total	Rural	Urban
1	2	3	4
State	**290**	**218**	**7,194**
District	*214*	*200*	*3,017*
Palanpur	354	299	5,298
Danta	186	186	..
Vadgam	410	410	..
Dhanera	196	196	..
Deesa	251	219	3,544
Kankrej	291	291	..
Vav	134	134	..
Tharad	160	148	881
Deodar	223	223	..
Radhanpur	225	163	3,765
Santalpur	85	85	..

While working out the density of urban areas, the urban units for which area figures are not available have been ignored. Rural density is worked out on the basis of rural population only though the area figures include the area of those urban units for which separate area figures are not available. The highest average as well as rural density (410) is found in Vadgam mahal and the lowest (85) in Santalpur taluka. But among urban

areas Palanpur taluka tops the list with 5,298 persons per sq. mile, the lowest being 881 for Tharad taluka.

4.4 Migration

The number of persons born (i) at the place of enumeration, (ii) elsewhere in the district, (iii) outside the district of enumeration but within Gujarat State and those (iv) born outside Gujarat State as per 1961 Census is given below.

Population by place of birth, 1961

Persons/ Males/ Females	Total population	Born in: Place of enumeration	Elsewhere in the district	Outside the district but in the State	Outside the State
1	2	3	4	5	6
Persons	996,144	707,558	216,271	39,963	32,352
Males	511,951	445,050	39,308	13,216	14,377
Females	484,193	262,508	176,963	26,747	17,975
Percentages					
Persons	100.00	71.03	21.71	4.01	3.25
Males	100.00	86.93	7.68	2.58	2.81
Females	100.00	54.22	36.55	5.52	3.71

In case of 71.03 per cent of the population of the district, the place of enumeration is the same as the place of birth. This proportion for males is 86.93 per cent as against 54.22 per cent for females owing to the migration of females after marriage, which appears to be mostly within the district. For the proportion of females born outside the place of enumeration but within the district is as high as 36.55 per cent as compared to those born outside the district but within the State who account for 5.52 per cent and those outside the State who account for 3.71 per cent only.

The percentage distribution of population born at the place of enumeration, born elsewhere within the district and outside the district by nine categories of economic activity and of non-workers is shown below.

Distribution of population by categories of workers and non-workers classified by place of birth, 1961

Place of birth	Categories of workers: I As Cultivator	II As Agricultural labourer	III In Mining, Quarrying, etc.	IV At Household Industry	V In Manufacturing other than Household Industry	VI In Construction	VII In Trade and Commerce	VIII In Transport, Storage and Communications	IX In Other Services	X Non-workers
1	2	3	4	5	6	7	8	9	10	11
District Total	**32.36**	**2.82**	**0.97**	**3.37**	**0.35**	**0.57**	**1.60**	**0.36**	**2.86**	**54.74**
Born at the place of enumeration	32.30	2.46	0.74	2.95	0.29	0.13	1.33	0.19	2.12	57.49
Elsewhere in the district	36.82	3.96	1.57	4.27	0.23	0.58	1.79	0.27	3.43	47.08
Outside the district	19.62	2.90	1.40	4.77	1.26	4.87	3.65	2.26	8.45	50.82

4.5 Sex Ratio

In 1961 the number of females per 1,000 males in the district was 946 which was higher than the similar ratio of 940 for the State. The corresponding rural and urban sex ratios for the district which were 947 and 924 respectively show that the proportion of females was comparatively less in towns than in villages.

The following statement compares sex ratios in towns in 1951 and 1961.

Females per thousand males in urban areas, 1951 and 1961

State/ District/ Town	Sex ratio: 1951	1961
1	2	3
State	**915**	**896**
District	*954*	*924*
Palanpur	946	906
Deesa	891	913
Tharad	1,004	970
Radhanpur	1,003	952

The urban areas with a sex ratio lower than that for the district average are Palanpur and Deesa.

4.6 Age Distribution

Table C-II shows the distribution of the population by quinquennial age groups. Table C-IV gives single year age returns. Broad age-groups are also given in Tables B-I and C-II printed in Part II. Proportionate population figures by broad age groups in 1961 are compared separately for males and females with the corresponding proportions for 1951 for the district as constituted then.

Percentage distribution of population by sex and age-groups, 1951 and 1961

Age groups	Percentage of population by age-groups			
	1951		1961	
	Males	Females	Males	Females
1	2	3	4	5
Total A to D	**100.00**	**100.00**	**100.00**	**100.00**
0–4	13.40	14.52	16.09	16.75
5–14	28.90	28.53	28.05	26.56
A 0–14	42.30	43.05	44.14	43.31
15–34	33.89	31.83	32.51	32.18
35–59	19.61	19.46	19.24	19.34
B 15–59	53.50	51.29	51.75	51.52
C 60+	4.19	5.65	4.07	5.13
D Age not stated	0.01	0.01	0.04	0.04

The proportion of both males and females in the age group 0–14 has increased during the decade owing to higher birth rate which is responsible for an increase of 1.84 per cent for males and 2.26 per cent for females. But there is a slight decline in the proportion of males and females in the age groups 15–34 and 35–59, which may perhaps be due to the migration of adult workers to other areas.

4.7 Marital Status

According to the Census of 1961, 430,572 persons are returned as married, 212,855 males and 217,717 females. Never married persons account for 50.44 per cent of the total population, males being 55.15 per cent and females 45.46 per cent of their respective population. The widowed, divorced or separated constitute 6.33 per cent only. The following table shows the marital status of males and females in different age groups classified into (i) never married, (ii) married and (iii) widowed, divorced/separated and others.

Age and Marital Status, 1961

Age groups	Never Married		Married		Widowed, divorced/separated and others	
	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total females
1	2	3	4	5	6	7
Total	**55.15**	**45.46**	**41.58**	**44.97**	**3.27**	**9.57**
0—9	100.00	100.00	..	..	..	..
10–14	95.68	90.09	4.27	9.88	0.05	0.03
15–19	75.45	34.84	24.18	64.76	0.37	0.40
20–24	33.08	2.48	65.67	96.53	1.25	0.99
25–29	10.85	0.41	86.96	97.43	2.19	2.16
30+	3.36	0.29	86.89	69.92	9.75	29 79

It will be seen from the above table that no person has been reported as married in age group 0–9 as all such persons were treated as unmarried at the time of sorting. But the child marriages still persist in the age group 10–14 to the extent of 4.27 per cent for males and 9.88 per cent for females. It is also note worthy that among males the age of marriage has shifted and risen to well above 20 as only 24.18 per cent of males have been returned as married in the age group 15–19, as against 65.67 per cent in the age group of 20–24 and 86.96 per cent in the age group of 25–29. Corresponding proportions for females, however, show that 64.76 per cent of females in the age-group 15–19 and 96.53 per cent in the age group 20–24 are married. In other words, though the age of marriage has advanced, it has not gone up to the same extent in case of males and females, there being more males unmarried in the age group 15-19 than females.

Examination of the figures of widowed, divorced and separated discloses an interesting feature of marital life in the district in that, they appear to be significant only after the age of 29. While females above 30 years account for 29.79 per cent in this category, males form only 9.75 per cent of their population. These figures reveal greater tendency towards remarriage on the part of widowed males than widowed females among whom it is mostly avoided.

4.8 (i) Literacy and Education

According to the Census of 1951, there were 53,680 literates in the district as constituted then and formed 7.17 per cent of its total population. Percentage of male literates was then 11.94 per cent, while that of female literates 2.14 per cent. In 1961, the percentage of literacy rose to 12.73 per cent (20.45 per cent for males and 4.56 per cent for females). Percentage of literacy to total population by age and sex is given for total/rural/urban in the following table.

Literacy by age-groups, 1961

	Total			Rural			Urban		
Age-groups	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8	9	10
All ages	**12.73**	**20.45**	**4.56**	**10.71**	**17.82**	**3.21**	**39.12**	**54.50**	**22.48**
5–14	18.96	28.51	8.31	16.84	26.36	6.25	47.89	57 42	36.93
15–34	16 08	25.75	5.76	13.27	22.03	3.91	51.24	71.55	29.09
35–59	10.54	18.29	2.38	8.22	14.74	1.38	39.81	62.28	15.21
60+	6.73	13.83	0.78	5.20	10.80	0.48	26.49	55.53	4.51
Age not stated	3.86	5.70	1.61	3.93	5.80	1.64	..	..	..

Literates among children in the age-group 5-14 constitute 18.96 per cent of whom males account for 28.51 per cent and females 8.31 per cent. The highest literacy among persons and males is found to be in the age-group 5-14 in total/rural areas, while in urban areas it is found in the age-group 15-34. The highest percentage of literacy among females is found in the age-group 5-14 in total/rural and urban areas of the district.

The following table furnishes the sexwise details of literacy by rural/urban for each taluka/mahal of the district.

Rural/Urban literacy by sex, 1961

		Literate and Educated					
District/Taluka/ Mahal		Literate persons	Percentage of total population	Literate males	Percentage of total male population	Literate females	Percentage of total female population
1		2	3	4	5	6	7
Banaskantha	R	99,148	10.71	84,683	17.82	14,465	3.21
	U	27,639	39.12	20,012	54.50	7,627	22.48
Palanpur	R	22,059	14.92	18,882	25.09	3,177	4.37
	U	12,457	42.75	9,000	58.86	3,457	24.96
Danta	R	4,744	9.05	4,068	14.94	676	2.68
Vadgam	R	17,876	19.81	14,659	32.56	3,217	7.11
Dhanera	R	8,767	9.82	7,463	15.99	1,304	3.06
Deesa	R	10,067	8.25	9,144	14.61	923	1.55
	U	7,475	39.57	5,465	55.34	2,010	22.29
Kankrej	R	9,962	10.64	8,045	16.70	1,917	4.22
Vav	R	6,533	7.64	5,737	13.01	796	1.92
Tharad	R	5,301	6.96	4,944	12.63	357	0.96
	U	2,001	26.45	1,769	46.06	232	6.23
Deodar	R	7,225	8.28	6,090	13.48	1,135	2.69
Radhanpur	R	2,490	6.77	2,206	11.66	284	1.59
	U	5,706	37.89	3,778	48.98	1,928	26.25
Santalpur	R	4,124	9.30	3,445	14.98	679	3.18

It will be seen from the above table that in rural areas the percentage of literacy is the highest (19.81 per cent) in Vadgam mahal and the lowest (6.77 per cent) in Radhanpur taluka. These also are the rural areas where the highest as well as the lowest percentage of male literacy is returned. But among urban areas, the literacy percentage is the highest (42.75 per cent) in Palanpur taluka where the highest percentage (58.86 per cent) of male literates is also to be found. Radhanpur claims the highest percentage (26.25 per cent), of urban female literates the lowest being 6.23 per cent in Tharad taluka.

4.8 (ii) Educational Institutions

The table given below gives the number of various types of educational institutions in the district along with the number of students and teachers in 1960-61.

Number of educational institutions, students and teachers, 1960-61

Educational levels	Institutions	Teachers	Students
1	2	3	4
Primary . .	1,291	2,062	68,016
Secondary .	25	184	3,563
Higher . .	..	..	..
Special . .	5	15	1,321

Primary, Secondary, Higher and Special Institution

In 1960-61, there were 1,291 primary schools in the district, of which 1,266 were in rural areas. 1,240 or 91.24 per cent of the total number of villages have schools. Villages having no school numbered 119 or 8.76 per cent, of which 41 were in Danta, 13 in Vav, 10 each in Palanpur, Kankrej and Santalpur, 9 each in Vadgam and Deesa, 5 each in Deodar and Radhanpur, 4 in Tharad and 3 in Dhanera. Area served per school in rural areas worked out to 3.65 square miles. Number of students per primary school in rural areas was 46.23 and the number of students per teacher 31.69. There were 63.24 students in primary schools per 1,000 of rural population. In 1960-61, there were 25 secondary institutions with 184 teachers and 3,563 pupils giving an average of 19.37 per teacher. Till 1960-61 there was no institution for higher education. There were 5 special institutions which include training colleges, gymnasia, etc., having 15 teachers and 1,321 pupils.

4.9 Languages

Table C–V in Part II of this Handbook shows the population of major languages for the district and each taluka separately. The distribution of speakers of each major language by rural and urban in the district is as under.

Distribution of speakers of major languages, 1961

Sl. No.	Major language	Percentage of total population			Percentage of each major language in	
		Total	Rural	Urban	Rural	Urban
1	2	3	4	5	6	7
	Total of all languages	**100.00**	**100.00**	**100.00**	..	..
1	Gujarati	96.48	98.11	75.21	94.47	5.53
2	Marathi	0.20	0.18	0.50	82.56	17.44
3	Hindi	0.72	0.42	4.61	54.55	45.45
4	Sindhi	0.41	0.14	3.90	31.93	68.07
5	Urdu	1.34	0.35	14.26	24.41	75.59
6	Marwari	0.68	0.65	1.10	88.59	11.41
7	Others	0.17	0.15	0.42	82.51	17.49

It will be seen from the above table that 96.48 per cent of the population in the district have Gujarati as their mother tongue. 94.47 per cent of them live in rural areas and 5.53 per cent in urban areas. The number of speakers of other languages are not significant.

4.10 Religions

The following table gives distribution of religions.

Religions, 1961

Religions	Population	Percentage of total population
1	2	3
Total	**996,144**	**100.00**
Hindu	895,953	89.94
Muslim	69,361	6.96
Jain	30,091	3.02
Sikh	53	0.01
Christian	255	0.03
Other religions and persuasions	431	0.04

It will be seen from the above table that 89.94 per cent of the total population are Hindus, 6.96 per cent Muslims and 3.02 per cent Jains. Among others, 53 are Sikh, 255 Christians and 431 follow other religions and persuasions.

4.11 Scheduled Castes and Scheduled Tribes

4.11 (i) Scheduled Castes

The total population of Scheduled Castes as per 1961 Census is 95,219 which forms 9.56 per cent of the total population of the district. The following table gives the figures of Scheduled Castes for total/rural/urban.

Scheduled Castes, 1961

Total/Rural/ Urban	Persons	Percentage of total population
1	2	3
Total	**95,219**	**9.56**
Rural	89,588	9.68
Urban	5,631	7.97

The literate and educated among the Scheduled Castes number 8,704 and constitute 9.14 per cent of the total population of Scheduled Castes of the district. The rural and urban proportion among them is 8.21 per cent and 23.89 per cent of their population respectively in villages and towns. The working population accounts for 43,400 persons or 45.58 per cent of their population in the district. Workers in special occupations like (i) tanning and currying of hides and skins and (ii) scavenging number 966 (2.23 per cent) and 442 (1.02 per cent) respectively of the working population of Scheduled Castes of the district.

Tables of SCT series in Census of India, 1961 Volume V-Gujarat, Part V–A show details as to number of Scheduled Castes/Tribes, industrial categories, marital status, religion, etc., for each Scheduled Caste/Tribe. Sex and percentage distribution of Scheduled Caste population by rural/urban in the district is shown in the table given below.

Percentage distribution of Scheduled Castes population by rural/urban, 1961

Name of Scheduled Caste	Total population			Sex		Percentage to total population of the district			Percentage of each Scheduled Caste population in	
	T	R	U	M	F	T	R	U	R	U
1	2	3	4	5	6	7	8	9	10	11
Total	**95,219**	**89,588**	**5,631**	**48,704**	**46,515**	**9.56**	**8.99**	**0.57**	**94.09**	**5.91**
Bakad or Bant	25	25	..	21	4	..	..	..	100.00	..
Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit or Samgar	29,464	27,502	1,962	15,072	14,392	2.96	2.76	0.20	93.34	6.66
Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar or Zadmalli	14,782	13,730	1,052	7,536	7,246	1.48	1.38	0.10	92.88	7.12
Dhor, Kakkayya or Kankayya	14	14	..	7	7	..	..	..	100 00	..
Garoda or Garo	4,863	4,363	500	2.464	2,399	0.49	0.44	0.05	89.72	10.28
Mahar, Taral or Dhegu Megu	171	171	..	95	76	0.02	0.02	..	100 00	..
Mahyavanshi, Dhed, Vankar or Maru Vankar	24,901	23,173	1,728	12,774	12,127	2.50	2.32	0.18	93.06	6.94
Mang-Garudi	1	1	..	1	..	..	..	..	100.00	..
Meghval or Menghvar	12,890	12,751	139	6,583	6,307	1.29	1.28	0.01	98.92	1.08
Nadia or Hadi	53	53	..	26	27	0.01	0.01	..	100.00	..
Shenva, Chenva, Sedma or Rawal	2,750	2,741	9	1,395	1,355	0.28	0.28	..	99.67	0.33
Tirgar or Tirbanda	532	532	..	278	254	0.05	0.05	..	100.00	..
Turi	3,026	2,843	183	1,492	1,534	0.30	0.28	0.02	93.95	6.05
Unclassified	1,747	1,689	58	960	787	0.18	0.17	0.01	96.68	3.32

The predominant Scheduled Castes in the district are in the group consisting of Bhambhi, Chamar, Mochigar, Rohit and Rohidas having 29,464 souls or 2.96 per cent of the total population of the district, of whom 93.34 per cent live in villages and 6.66 per cent in towns.

4.11 (ii) Scheduled Tribes

Scheduled Tribes claim 52,685 persons or only 5.29 per cent of the total population of the district and 1.91 per cent of the Scheduled Tribes of the State.

The following table gives the figures of Scheduled Tribes in the district.

Scheduled Tribes, 1961

Total/Rural/ Urban	Persons	Percentage of total population
1	2	3
Total	**52,685**	**5.29**
Rural	50,947	5.50
Urban	1,738	2.46

The literate and educated among them number 1,534 or 2.91 per cent of whom 1,309 are returned from rural areas and 225 from urban areas.

5 HOUSING

5.1 Housing Census for the first time

In previous censuses, occupied census houses used as dwellings alone were numbered and listed. Non-residential houses such as shops, factories, workshops, temples, mosques, schools, sarais, office premises and business houses, etc., were not entered in the house-list, as it was not necessary to do so for the purposes of enumeration. They have been brought under the purview of the 1961 Census when a regular housing census was taken for the first time with a view to account for all structures, dwellings or non-dwellings. With the adoption of a uniform house-list throughout the country, important data such as material of wall and roof, tenure status and number of rooms in case of households, number of persons per room and essential data such as name of the proprietor, products manufactured, number of persons employed and kind of fuel or power, if machinery is used in case of work-shops and factories, have been collected for the first time on this occasion.

5.2 Types of Census houses and their uses

The following table gives the distribution of different types of census houses and the uses to which they are put.

Census houses and the uses to which they are put, 1961

Sl. No.	Type of Census houses	Census houses: Number	Census houses: Percentage to total No. of Census houses
1	2	3	4
	Total No. of Census houses	**254,511**	**100.00**
1	Vacant houses . .	34,750	13.65
2	Dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings .	192,087	75.47
3	Shops and business houses .	7,145	2.81
4	Factories, workshops and worksheds . . .	812	0.32
5	Schools, places of entertainment, medical and social institutions	1,560	0.61
6	Hotels, restaurants and other miscellaneous houses .	18,157	7.14

Out of a total of 254,511 houses, 75.47 per cent were used as dwellings, 13.65 per cent were vacant and the rest were used for non-residential purposes such as shops, business houses (2.81 per cent), factories and workshops (0.32 per cent), schools, places of entertainments and medical and other social institutions (0.61 per cent) and other miscellaneous uses as hotels, restaurants and other places, etc. (7.14 per cent). 92.21 per cent of the households lived in owned houses and the rest in rented ones. In urban areas 61.79 per cent of the households live in houses of their own and 38.21 per cent reside in rented houses. An analysis of the material of wall and roof shows that the predominant materials were burnt bricks and mud in case of walls and tiles and grass leaves, etc., in case of roof. The percentage of households having walls

with mud and burnt bricks was 65.38 per cent and 25.56 per cent respectively. Households having roofs covered with tiles, etc., accounted for 73.43 per cent and those with grass, leaves, etc., 16.95 per cent.

5.3 Households classified by number of members and rooms occupied

The most important classification, however, was one by the number of rooms in the houses occupied by sample households, given in the following table.

Households classified by number of members and number of rooms occupied, 1961

(Based on 20% Sample)

No. of rooms	Percentage to total households	Percentage to total members
1	2	3
No regular room	0.58	0.55
1 room .	83.52	80.80
2 rooms .	12.41	14.14
3 rooms .	2.34	3.00
4 rooms .	0.81	1.05
5 rooms or more	0.34	0.46

According to this classification 83.52 per cent of the households lived in houses with one room, 12.41 per cent in houses with two rooms and 3.49 per cent only in houses with more than two rooms. The population living in two rooms and less jointly account for 94.94 per cent of the total sample population. The average number of members per room in households occupying houses with one room was 4.98 while that for households living in houses with 2 rooms was 2.93. These figures amply reflect growing overcrowding and the inadequate housing facilities in the district as in the State as a whole.

6 AGRICULTURE

6.1 Land Utilisation

The utilisation of land resources forms a major item in any programme of economic planning in an economy which is predominantly agricultural. It reveals the various uses to which land is put and also indicates improved ways of exploitation of its resources for better production.

Land utilisation, 1956-57 and 1960-61

Sl. No.	Item	1956-57 Area in acres	1956-57 Percentage of total area	1960-61 Area in acres	1960-61 Percentage of total area
1	2	3	4	5	6
	Total geographical area	**2,586,900**	**100.00**	**2,923,400**	**100.00**
1	Area under cultivation .	1,571,700	60.76	1,700,600	58.17
2	Area other than cultivation .	1,015,200	39.24	1,222,800	41.83
	(i) Cultivable waste, permanent pastures and other grazing lands .	285,200	11.02	338,900	11.59
	(ii) Others .	730,000	28.22	883,900	30.24

Note :

The figures for the year 1956-57 are for the district as constituted then and not as constituted in 1961. Further details are available in Official Statistics Table 3.1 published in Part II of this Handbook.

Comparison between the previous years is not possible (i) in view of the changes in classification of land utilization and (ii) territorial changes in the district. In 1960-61, the area under cultivation was 58.17 per cent of the total geographical area and that put to uses other than cultivation 41.83 per cent. Of the latter 11.59 per cent is cultivable waste, permanent pastures and grazing lands and 30.24 per cent barren and forest lands.

6.2 Cropping Pattern

The changes in the cropping pattern during the quinquennium can be seen from lhe following table.

Percentage of area under different crops during 1955-56 and 1960-61

	Crops	1955-56	1960-61
	1	2	3
1	Rice	0.12	0.22
2	Wheat	3.64	3.86
3	Jowar	17.06	14.71
4	Bajri	39.47	44.85
5	Other cereals	4.56	3.89
	Total cereals	*64.85*	*67.53*
6	Tur	0.09	0.25
7	Gram	0.67	0.30
8	Other pulses	7.15	9.27
	Total pulses	*7.91*	*9.82*
9	Sugarcane	0.14	0.20
10	Potatoes	0.67	0.06
11	Fruits and vegetables (excluding potatoes)	0.14	0.09
12	Condiments and spices	0.66	1.13
13	Other food crops	0.12	0.23
	Total food crops	**73.89**	**79.06**
14	Ground-nut	0.01	1.35
15	Sesamum	1.87	1.28
16	Castor seeds	2.46	2.02
17	Linseeds	..	0.02
18	Other oil seeds	1.16	0.80
	Total oil seeds	*5.50*	*5.47*
19	Cotton	0.16	2.10
20	Other fibres	0.05	0.09
	Total fibres	*0.21*	*0.19*
21	Tobacco	0.01	0.01
	Total drugs and narcotics	*0.01*	*0.01*
22	Other non-food crops	20.39	13.27
	Total non-food crops	**26.11**	**20.94**
	Total area under crops	**100.00**	**100.00**

Details as to area and outturn for the years 1950-51 to 1960-61 for the above crops are available in Official Statistics Table 3.2 in Part II of this Handbook.

The principal food crops of the district are bajri, jowar and other pulses and castor seeds are the main non-food crops. The percentage comparison of different crops indicates that the food crops have increased from 73.89 per cent in 1955-56 to 79.06 per cent in 1960-61, with a corresponding loss of 5.17 per cent in non-food crops. Oil seeds have slightly declined from 5.50 per cent in 1955-56 to 5.47 per cent in 1960-61 and cotton risen from 0.16 per cent to 2.10 per cent during the same period. Among food crops bajri, jowar, wheat and other pulses account for 63.42 per cent and other non-food crops 13.27 per cent of the total area sown.

6.3 Crop Calendar

The months of sowing and harvesting of different crops are given below.

Crop Calendar

Name of crop	Months of sowing	Months of harvesting
1	2	3
Jowar	June	November-December
Jowar Rabi	October-November	December-January
Bajri	June-July	October-November
Wheat	October-November	March-April
Cotton	July-August	December up to March (picking)
Castor seeds	July	January-May
Sesamum	June-July	October-November

7 LIVESTOCK

7.1 Livestock

According to the livestock censuses of 1951, 1956 and 1961, the cattle population of the district is found to be distributed as under.

Livestock, 1951, 1956 and 1961

Categories of livestock	1951	1956	1961
1	2	3	4
Total livestock . .	**1,119,973**	**1,329,010**	**1,335,855**
A Bullocks and Cows	476,133	519,053	578,871
1 Males over 3 years	178,402	185,961	213,755
2 Females over 3 years (in milk)	157,040 (84,274)	165,845 (86,375)	199,640 (90,921)
3 Young stock .	140,691	167,247	165,476
B Buffaloes . .	174,645	185,352	216,596
1 Males over 3 years	2,226	1,733	3,150
2 Females over 3 years (in milk)	102,932 (59,005)	103,192 (60,131)	131,205 (66,372)
3 Young stock .	69,487	80,427	82,241
C Sheep . .	220,845	296,135	261,281
D Goats . .	231,366	293,113	241,424
E Horses and Ponies	5,599	6,330	8,503
F Mules . .	N. A.	101	73
G Donkeys . .	11,385	12,078	12,318
H Camels . .	N. A.	16,846	16,780
I Pigs . .	N. A.	2	9

N. A =Not available

All categories of livestock except mules and camels show an upward trend during the decade. Though male buffaloes, sheep and goats register a decline during the quinquennium 1956 to 1961,

their population has on the whole increased between 1951-1961. Increase in the number of bullocks indicates general progress in the agricultural sector.

7.2 Agricultural Tools and Implements

The number of wooden ploughs in 1951 were 83,378 which increased to 88,306 in 1956 and rose to 103,031 in 1961. Also the number of iron ploughs has been found to be increasing steadily as they rose to 1,229 in 1956 and 3,672 in 1961 from 463 in 1951. The number of carts in 1951 was 29,694 which also increased to 34,014 in 1956 and rose to 40,905 in 1961.

Number of sugarcane crushers and oil engines in the district is not available for 1951, but their number has substantially increased from 159 in 1956 to 390 in 1961. The number of tractors also rose from 9 in 1951 to 15 in 1956 and 44 in 1961. Oil ghanis show a rise in their number from 285 in 1956 to 341 in 1961. The increasing investment in the agricultural implements and machinery is indicative of the progress in agrarian sector owing to the liberal assistance given to farmers by Government and the impact of block programme.

7.3 Animal Husbandry and Veterinary Aid

The climate of the district is conducive to cattle breeding. Hence the breed of cattle is found to be very sturdy, healthy, burly and useful as draught animal in cultivation. These qualities of the breed fetch as high a price as Rs. 2,000 to Rs. 3,000 for a pair of bullocks. They also possess remarkable resistance against fatal and contagious diseases. Kankreji breed of cattle are a well-known type of breed—primarily as draught animal but are also equally good in the yield of milk as revealed at an All India Cattle Show where the Kankreji cows with 43 lbs. of milk yield have stood first in competition and have won an award of Gopalratna. During 1960-61, 80 pedigree bulls were supplied to needy farmers. The sheep from this region have been found to have 60 per cent of wool and only 40 per cent of hair on them.

Veterinary facilities in the district were given through 11 veterinary dispensaries. The number of animal patients treated during 1960-61 was 5,253 of which 13 were in-patients. The stockmen while on tour treated 3,999 cases of contagious diseases and 1,568 cases of non-contagious diseases. In all 10 castrations were performed by the veterinary department.

8 IRRIGATION

8.1 Sources of Irrigation

The area irrigated by various sources during 1960-61 was 1.41 lakh acres constituting about 8.3 per cent of the net cropped area. Of the total irrigated area of 1.41 lakh acres, the area irrigated by wells was 1.40 lakh acres. Thus of the total irrigated area, 99 per cent is by wells and only 1 per cent by other sources. There is a considerable variation in percentage of net area irrigated in different talukas of the district depending on the availability of water resources. While the area irrigated in Vav taluka was the lowest (0.3 per cent), that in Danta taluka was the highest (50.1 per cent).

8.2 Major Irrigation Projects

Dantiwada Project on its completion at the end of the Third Five Year Plan, will on an average irrigate about 110,000 acres of land. The cost of the project is estimated at Rs. 8.96 crores. There are other minor schemes as well, which on completion will yield about 40,000 tons of additional foodgrains. The areas of Kankrej, Deesa, Dhanera, Deodar, Vadgam and Palanpur talukas are suitable for tube-wells.

9 CO-OPERATION

9.1 Co-operative Societies and their types, etc.

In Banaskantha district the co-operative movement started only after 1949. However, the activities covered a wide field owing to the encouragement it received during the intervening period. At the beginning of the First Five Year Plan in 1950-51, there were only 67 co-operative societies which rose in 1955-56 to 186. In 1960-61,

there were 735 co-operative societies having a membership of 61,496 and share capital of Rs. 45.74 lakhs and covering 1,286 villages. The total working capital of these societies add up to Rs. 182.81 lakhs. During co-operative year 1960-61, loans advanced to the members amounted to Rs. 220.58 lakhs.

Average membership per society came to 83 persons whereas average share capital and average working capital per society came to Rs. 6,223 and Rs. 24,872 respectively. Average amount of loans advanced per society was Rs. 30,010 and the average amount of loans advanced per member Rs. 358.

There were 575 Agricultural Credit Societies having a membership of 47,526 and Rs. 26.92 lakhs as share capital. The total working capital of these societies was Rs. 79.21 lakhs and loans advanced to the members were Rs. 88.59 lakhs.

9.2 Regulated Markets

As on 1st September, 1958, the actual number of regulated markets working in the district was 3 at Deesa, Palanpur and Bhabhar. At the end of the year 1958-59 another market at Dhanera was regulated, thus, bringing the total number of regulated markets to 4 as on 31st March, 1959. The sub-yards at Chhapi and Deodar also started functioning during the year 1958-59. As on 1st September, 1959, the number of talukas and mahals where regulated markets were functioning were five, viz., Palanpur, Deesa, Deodar, Dhanera and Vadgam. Out of these, the market yards at Deesa and Bhabhar are progressing.

10 ECONOMIC ACTIVITY

10.1 Definitions

The criterion of income or economic independence was adopted for measuring the economy of the country during the past censuses. On the present occasion emphasis is on the work done or the economic activity pursued by an individual so that all people such as family workers and children who work but do not earn enough for their maintenance are also accounted for as workers. Another important change relates to the presentation of the economic data according to the nine industrial categories of workers and non-workers instead of the eight livelihood classes classified by self-supporting persons and their dependants in 1951.

STATUS OF EMPLOYMENT

Persons doing work other than that as cultivator or agricultural labourer or engaged in household industry have been classified into following four categories:—(i) Employer, (ii) Employee, (iii) Single worker and (iv) Family worker. In view of the wide range of economic data included in this section, it will be useful to define in brief the various terms used.

(i) *An Employer* is a person who has to employ other persons in order to perform the nature of work undertaken by him.

(ii) *An Employee* is a person who usually works under some other person for salary or wages in cash or kind.

(iii) *A Single Worker* is a person who works by himself but not as head of household in a household industry. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually.

(iv) *A Family Worker* is a member of the household who works without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season.

Industries are classified as household and non-household. A household industry is defined as an industry which is not run on a scale of a registered factory and conducted by the head of

the household himself and/or mainly members of the household at home or within the villages in rural areas and only at home in urban areas. Rest of the industries, viz., business, trade, profession or service are non-household industries.

10.2 Distribution of workers and non-workers

The following table gives the distribution of population by workers and non-workers.

Distribution of population by workers and non-workers, 1961

Workers/Non-workers	Persons		Percentage to total population	
	State	District	State	District
1	2	3	4	5
Total Population	**20,633,350**	**996,144**	**100.00**	**100.00**
Workers	8,474,588	450,798	41.07	45 25
Non-workers	12,158,762	545,346	58.93	54.75

The following statement shows the distribution of workers into 9 industrial categories.

Distribution of workers and percentage to total workers, 1961

Sl. No.	Category of workers	Population		Percentage of workers	
		State	District	State	District
1	2	3	4	5	6
1	As cultivator	4,519,060	322,377	53.32	71.51
2	As agricultural labourer	1,252,000	28,061	14.77	6.23
3	In mining, quarrying, livestock, forestry, fishing, hunting, plantation, orchards and allied activities	104,850	9,632	1.24	2.14
4	At household industry	555,606	33,546	6.56	7.44
5	In manufacturing other than household industry	536,159	3,465	6.33	0.77
6	In construction	90,043	5,696	1.06	1.26
7	In trade and commerce	411,156	15,912	4.85	3.53
8	In transport, storage and communications	159,061	3,574	1.88	0.79
9	Other services	846,653	28,535	9.99	6.33

The population of the district is distributed into workers and non-workers in the proportion of 45.25 per cent and 54.75 per cent respectively. Amongst the working population, cultivators account for 71.51 per cent and agricultural labourers 6.23 per cent only as against 53.32 per cent and 14.77 per cent respectively for the State. The striking feature of the economic pattern obtaining in the district as elsewhere in the State is predominantly agricultural as revealed by 77.74 per cent of workers engaged in agricultural pursuits. Next in order are the household industry (7.44 per cent) and other services comprising 6.33 per cent while manufacturing industries account for 0.77 per cent only, which reflect the industrial backwardness of the district.

10.3 Class of worker

Industrial classification by sex and class of worker of persons at work in household and non-household industry are shown in details in census Tables B-1V-A and B.

Persons at work in household industry

	Persons	Percentage
Total	**33,546**	**100.00**
Employee	894	2.66
Others	32,652	97.34

As stated earlier, household industry is run mostly by members of the household, the need for having employees working for salary or wages being negligible.

Persons at work in non-household industry, trade, business, profession or service

	Persons	Percentage
Total	**66,814**	**100.00**
Employers	5,448	8.15
Employees	20,883	31.26
Single workers	27,741	41.52
Family workers	12,742	19.07

It will be seen from the above figures that in non-household industries, trade, business, profession or service, single workers (41.52 per cent) predominate and account for nearly 2/5th of the workers engaged in these categories wherein employees account for 31.26 per cent, employers 8.15 per cent and family workers 19.07 per cent only.

10.4 Principal and Secondary work

Principal work : In case of a person who is engaged in more than one productive activity, the principal work is the one on which the person spends most time.

Secondary work : The work which is the next in importance to his principal work which occupies most time is secondary work.

Persons working principally as cultivators, as agricultural labourers or at household industry and following any of these as secondary work as given in Table B-VII Part-A are as under.

(A) Persons working principally as cultivators and doing secondary work—

(i) at household industry .	16,158
(ii) as agricultural labourers .	2,536

Persons working principally as agricultural labourers and doing secondary work—

(i) at household industry . .	281
(ii) as cultivator . . .	555

Persons working principally at household industry and doing secondary work—

(i) as cultivator	3,477
(ii) as agricultural labourer .	163

(B) In Table B-VII Part–B persons working in non-household industry, trade, business, profession or service who are also engaged in household industry are 128.

Persons who are working principally as cultivators and to whom household industry is a secondary activity are proportionally larger, probably due to the fact that small holders of land prefer to take up household industry as their secondary means of livelihood rather than go in as agricultural labourer. Similarly the fact that a large proportion of workers at household industry work at cultivation to supplement their income also bring out the complementary nature of cultivation and household industries.

10.5 Occupational Classification

The two concepts, viz., industry and occupation are quite distinct, though often mistaken for each other. 'Industry' means that sector of economic activity in which the earner is engaged, e.g., textile industry, automobile industry, whereas the 'occupation' describes the exact function that an individual performs in that economic activity, e.g., fitter, carpenter, etc.

Table B-V in Part II shows the distribution of persons at work other than cultivation. This type of detailed classification based on National Classification of Occupations has been done for the first time in 1961. The percentage distribution for the State and the district is given below.

Percentage distribution of workers according to Occupational Divisions, 1961

	Occupational Division 1	State 2	District 3
0	Professional, technical and related workers . .	5.95	4.65
1	Administrative, executive and managerial workers . .	2.32	1.59
2	Clerical and related workers	6.41	3.75
3	Sales workers . . .	13.88	15.30
4	Farmers, fishermen, hunters, loggers and related workers .	11.73	25.79
5	Miners, quarrymen and related workers . . .	0.58	0.25
6	Workers in transport, storage and communication occupations . . .	4.24	2.72
7–8	Craftsmen, production, process workers and labourers not elsewhere classified .	46.67	40.24
9	Service, sport and recreation workers . . .	7.96	5.61
X	Workers not classified by occupation .	0.26	0.10

The higher proportion of 40.24 per cent in the district for Occupational Division 7–8 relating to craftsmen, production process workers against the corresponding proportion of 46.67 per cent in the State can be attributed to the greater percentage of persons in the indigenous crafts and other allied activities in rural areas. Cultivation excepted, the other important occupational divisions in the district are Division 4 farmers, fishermen, etc., and Division 3 sales workers.

10.6 Non-workers

Non-workers account for 545,346 persons, 217,438 males and 327,908 females. The distribution of non-workers by eight broad categories is shown in Table B–IX in Part II of this Handbook. Percentage distribution of non-workers by sex according to their type of activity is shown below for total/rural/urban, 1961.

Distribution of non-workers according to type of activity, 1961

Sl. No.	Categories of Non-workers	Total/Rural/ Urban	Males	Females
1	2	3	4	5
1	Full-time students	T	21.78	3.16
		R	19.94	2.36
		U	41.08	10.89
2	Household duties	T	0.63	42.22
		R	0.64	41.03
		U	0.58	53.67
3	Dependents, infants and disabled	T	74.34	53.18
		R	76.64	55.20
		U	50.25	33.70
4	Retired, rentiers, etc.	T	1.41	1.18
		R	1.17	1.16
		U	3.87	1.32
5	Beggars, vagrants	T	1.13	0.24
		R	1.12	0.23
		U	1.20	0.30
6	Inmates of penal, mental and charitable institutions	T	0.04	0.01
		R	0.03	0.01
		U	0.16	0.06
7	Persons seeking employment for the first time	T	0.23	N
		R	0.18	N
		U	0.82	0.01
8	Employed before but now seeking work	T	0.44	0.01
		R	0.28	0.01
		U	2.04	0 05

N=Negligible

The distribution pattern of non-workers among males and females is very dissimilar. Among male non-workers, 21.78 per cent are students and 74.34 per cent dependents, who jointly account for 96.12 per cent as against 3.16, 53.18 and 56.34 per cent respectively among females. Higher percentage of dependents among males is explained by the general absence of household duties among males who claim 0.63 per cent in this category against 42.22 per cent among females.

The higher percentage of full-time students in the urban sector as compared to rural is, however, explained by the greater consciousness and opportunity townspeople have in the matter of education. The percentage of females engaged in household duties is found to be higher in urban areas than that in rural areas, as womenfolk in villages in addition to their attending to household chores also participate in agriculture and household industry. While the percentage of unemployed persons seeking work is insignificant for males, that for females is negligible.

11 INDUSTRIES, POWER AND MINING

11.1 Registered Factories

Banaskantha district is industrially backward as compared to many others of State as can be seen from the following facts. There were 23 registered factories in the district at the end of the year 1960, employing on an average 524 persons daily. From the point of view of employment offered, Government and local fund factories are the most important industries in the district. There were 10 such factories in the district employing on an average 202 persons or 38.55 per cent of the total factory employment per day. The Government and local fund factories provided employment to 202 persons.

11.2 Joint Stock Companies

There were 2 joint stock companies functioning on the 31st March, 1961 with authorised capital of Rs. 1,000,000 and subscribed capital of Rs. 614,000. The authorised and subscribed capital per joint stock company comes to about Rs. 500,000 and about Rs. 37,000 respectively.

One of them deals in construction and utilities and the other in personal and other services.

11.3 Banking

There has been a steady increase in the banking facilities available in the district since 1950-51. The number of scheduled and co-operative banks in 1960-61 was 6 and 9 respectively. It is interesting to note that co-operative banks which were absent till the beginning of the First Plan have come up to 9 in 1960-61.

11.4 Electricity

The towns of Palanpur, Deesa and Radhanpur and one village, namely, Ambaji have got electricity.

The table below gives the pattern of utilisation of electricity in the district in 1950-51, 1955-56 and 1960-61.

Units of electricity generated and sold, 1950-51, 1955-56 and 1960-61 ['000 K.W.H.]

Year	Electricity generated in K.W.H.	Kilowatt hours sold to public for: Domestic consumption	Commercial light and small power	Industrial power	Other purposes	Total utilisation of electricity
1	2	3	4	5	6	7
1950-51	N.A.	N.A.	N.A.	N.A.	N.A.	N.A.
1955-56	665	434	5	49	71	559
1960-61	1,384	629	273	218	241	1,361

N.A. = Not available

The utilisation of electricity has shown very rapid increase since the beginning of the Second Five Year Plan. The electricity generated has registered an increase from 665 thousand k.w.h. in 1955-56 to 1,384 thousand k.w.h. in 1960-61. Similarly the utilisation of electricity has risen from 559 thousand k.w.h. to 1,361 thousand k.w.h. for the corresponding period. Analysis of the utilisation of electricity according to various purposes has revealed that the domestic consumption, which was only 434 thousand k.w.h., at the beginning of the Second Plan has gone up to 629 thousand k.w.h. in 1960-61. For the corresponding period, the utilisation in case of commercial light and small power registered a rise from 5 thousand k.w.h. to 273 thousand k.w.h., industrial power from 49 thousand k.w.h. to 218 thousand k.w.h. and other purposes from 71 thousand k.w.h. to 241 thousand k.w.h. The unprecedented increase in the use of commercial and industrial power in such a backward district is significant.

11.5 Factories and Workshops classified by power and no power used

Statistics of census houses used as factories, workshops and worksheds classified by power and no power used have been compiled for the first time during the Census of 1961 and extracted below for the State and district.

Factories and workshops classified by power and no power used, 1961

Power/ Fuel	Rural/ Urban	State: No. of factories, etc.	State: Percentage of total	District: No. of factories, etc.	District: Percentage of total
1	2	3	4	5	6
Total	**R**	**34,447**	**100.00**	**875**	**100.00**
	U	**45,686**	**100.00**	**542**	**100.00**
Electricity	R	1,248	3.62	5	0.57
	U	12,311	26.95	39	7.19
Liquid fuel	R	4,687	13.61	116	13.26
	U	1,282	2.81	27	4.98
Coal, Wood and Bagasse	R	3,039	8.82	113	12.91
	U	3,453	7.56	26	4.80
Other power	R	82	0.24	1	0.12
	U	85	0.18	..	..
No power	R	25,391	73.71	640	73.14
	U	28,555	62.50	450	83.03

The foregoing table is restricted to census houses used as factories and workshops classified by power and no power used in 1961. Factories using electricity in rural and urban areas of the district are proportionately much less than those in the State. The proportion of factories using electrical power is much less in villages than in towns, owing to predominantly agricultural nature of economy. The higher proportion in the use of liquid fuel in rural areas as compared to urban is due to its increased use in tractors and

oil engines. The proportion of units using no power is much higher both in rural and urban areas in the State and in the district owing to predominance of traditional crafts and industries in the State economy.

11.6 Mining

About 2 miles away from Ambaji there are Jain temples at Kumbhariya built of marbles, having exquisite and marvellous carving. The white marble used in these temples have been excavated from the Kumbhariya quarries. Its quality is considered superior even to the marble excavated from the Makrana. Its increasing demand these days is evident from marble excavated which has during a single year (1959-60) increased from 6,926 cubic ft. to 441,700 c. ft.

12 TRANSPORT AND COMMUNICATIONS

12.1 Roads

Transport and communication facilities play a vital role in the economic development of the country. There has not been any noticeable progress in road improvement in the First Plan but a significant increase is, however, noticed during the quinquennium 1955-56 to 1960-61, during which period the road mileage has shot up from 24.12 miles to 374.93 miles. The table given below shows various categories of road mileage in the district.

Type of roads (in miles), 1961

Type of roads	Mileages
1	2
Total . . .	**374.93**
National Highway . .	..
State Highway . .	165.36
Other District Roads .	69.24
Village roads . .	140.33

As seen from the above table, National Highway does not pass through this district. The proportion of road mileage per 100 sq. miles of area is 8.06. Classifying the road mileage of the district according to its surface, it is noticed that 219.03 miles of roads are having a surface of asphalt, 96.35 are water bound macadam type and 59.55 are having murram and other lower types of surfaces.

12.2 Railways

The total railway mileage in the district is 156.45 giving an average of 34 per 1,000 sq. mile and 15.71 miles per lakh of population. Two main metre-gauge sections pass through the district viz., Ahmedabad-Delhi *via* Palanpur and Palanpur-Gandhidham *via* Deesa. Besides the railway mileage of the Western Railway shown above, 34.00 miles of Samdari-Raniwav-Bhildi metre-gauge section of the Northern Railway fall within the jurisdiction of this district. Out of 32 railway stations in the district, 8 are located in Palanpur taluka, of the remaining talukas, Santalpur taluka has 7, Deesa and Deodar talukas 5 each, Dhanera taluka 3, Vadgam and Radhanpur talukas 2 each, while Kankrej, Danta, Tharad and Vav talukas have no railway stations.

12.3 Post and Telegraph

There were 17 sub-post offices and 103 branch offices in 1960-61. The corresponding figures in 1959-60 were 16 and 67. All the 16 sub-post offices had telegraph offices. The number of telephone offices had increased from 5 in 1960 to 7 in 1961, owing to 2 additional telephone offices opened at Vadgam and Vav. Danta, Dhanera, Kankrej and Santalpur talukas have no telephone offices. The number of letter-boxes has increased from 205 in 1960 to 262 in 1961. The number of villages not covered by post offices in the district was 677 in 1960-61. The radio licences issued increased from 1,499 at the end of 1959 to 1,838 at the end of 1960, thus recording an increase of 22.6 per cent during one single year.

13 MEDICAL AND PUBLIC HEALTH

13.1 Medical Institutions

During 1961, medical facilities in the district were provided by the State through 12 medical institutions, which include 2 hospitals, 4 dispensaries, 4 rural health centres and 2 maternity

and child welfare centres. The staff in these institutions consisted of 14 doctors and 24 nurses. The number of beds in the district was 96 and the number of indoor and outdoor patients treated was 4,910 and 67,037 respectively.

13.2 Vital Statistics

The statement given below shows vital statistics of the district for the years 1957-60.

Birth rate, death rate and natural increase in population, 1957–60

Year	Birth rate	Death rate	Natural increase in population
1	2	3	4
1957	30.0	15.1	14.9
1958	31.5	17.9	13.6
1959	30.8	13.7	17.1
1960	27.5	13.2	14.3

The data on vital statistics available being incomplete and defective are useful for drawing general conclusions only. They indicate a fall in the death rate and rise in the rate of survival which can be reasonably attributed to improvement in medical and health facilities since Independence.

13.3 Health Centres

The different public health measures to check the incidence of various diseases in the district are (a) vaccination and revaccination, (b) Malaria control, (c) Primary Health Centres and Maternity and Child Welfare Centres in rural areas, (d) Water supply schemes and (e) Family planning centres. During 1960-61, the entire population of the district was protected against malaria by spraying D. D. T. powder on mass scale. Blood smears for 17,303 cases were examined and only 17 cases of malaria were observed. Under the programme of providing medical relief through primary health centres in rural areas, 2 maternity and child health centres, 4 rural health centres and 3 family planning centres were started in the district by 1960.

13.4 Drinking Water Facilities

The public health schemes launched by the Government during the First Five Year Plan included drinking water supply and drainage facilities in all the towns of the district. The municipalities and Panchayats are given Government grant-in-aid for implementing these schemes. Water supply schemes were also included and executed under development programmes.

14 LABOUR AND SOCIAL WELFARE

14.1 Labour Welfare

Various schemes for the amelioration and welfare of backward classes are provided in the Second Five Year Plan. the chief among them being schemes to start a blind school and industrial training institution.

On 31st March, 1961, 3,843 persons were on live register in the Employment Exchange for various jobs. The number of placement provided by the Exchange was 574.

15 PRICE TRENDS

The average retail prices of important foodstuff during each calendar month of 1961 collected for Palanpur, the headquarters of the district are given in Table 16.1 in Part II of this Handbook.

The highest prices of rice and wheat were quoted in October and March respectively. The prices of inferior cereals, viz., jowar and bajri were the highest in the month of June; in pulses arhar (dal) were the highest in the first quarter ending March 1961, while moong recorded the highest prices in the month of July during the year 1961.

16 COMMUNITY DEVELOPMENT

16.1 Community Development Programme

The Community Development Programme, a unique and bold effort to mobilise public enthusiasm and co-operation in rebuilding the rural economy of India was inaugurated in the country on 2-10-1952. Deesa-block was the first Community Development Project taken up in the district in January, 1954. The programme since then has undergone various organisational changes as a result of the

recommendations of the Balawantray Mehta Committee, appointed by the Planning Commission in 1957 to examine the working of the C.D. programme and related matters and to recommend measures for improving the quality, tone and content of the programme. In pursuance of the recommendations of this Committee, the existing distinction between N.E.S. stage, intensive development stage and the post-intensive stage was abolished with effect from 1-4-1958. All the Blocks under the All India Programme except Blocks in the C.D. stage which had not completed their three years' period on 1-4-1958 were classified into stage I and stage II Blocks with revised financial patterns and periods of operations. The Community Development Blocks, on completing their period, will enter stage II. A stage I Block has a five-year period of operation with a ceiling of expenditure of Rs. 12 lakhs for this period. It is "The Intensive Development phase in which people's participation would be promoted as the method of Community Development and Panchayats will be intimately connected with the formulation of the Plans for their respective areas. The degree of success attained in the First Stage will be the evidence of the growth and functioning of self-reliant rural communities, which is the basic objective of the programme." Stage II of the programme, with a provision of Rs. 5 lakhs for 5 years will seek to intensify the operation of the method of Community Development in its fuller amplitude and will have greater emphasis on Community Development rather than on Development Programmes as such.

16.2 Coverage of Programme

In the district, Deesa and Kankrej talukas were the first to be covered by the N.E.S. scheme during the First Five Year Plan period. The first N.E.S. Block of Deesa was started on 26th January, 1954 and converted into a Community Development Block from lst November, 1956. Kankrej was inaugurated as a N.E.S. Block from 2nd October, 1954 and converted into Community Development Block from lst May, 1956.

The following table gives the type, area, villages and population covered under the programme by March, 1961.

Coverage under Community Development Programme by type of Block

Name of the block	Date of inauguration	No. of blocks of CPA pattern	Area covered in sq. miles 1961	No. of towns and villages covered	Population 1961
1	2	3	4	5	6
Stage I					
Tharad	October 1959	1	523.6	134	83,736
Dhanera	October 1960	1	455.9	130	89,261
Stage II					
Palanpur	May 1956	1¾	499.6	179	177,032
Kankrej	October 1954	1	321.7	105	93,632
Deesa	January 1954	1½	562.1	146	140,887
Pre-extension Service Blocks					
Danta	October 1959	½	282.1	183	52,411
Radhanpur	"	1½	230.0	55	51,839
Santalpur	"	½	523.6	95	44,316
Vav	"	1	637.5	121	85,490
Deodar	April 1960	1	392.3	125	87,293
Vadgam	April 1960	1	220.2	110	90,247

By March 1961 the entire district was covered under the programme.

The total expenditure incurred till March, 1961 amounted to Rs. 6,273,000 as against peoples, contribution of Rs. 1,166,000 or 18.59 per cent of the total expenditure. The physical and financial progress achieved under the 1st and 2nd Stage of blocks up to the year ending 31st March, 1961 have been given in Official Statistics Table 15.1 published in Part II of this Handbook.

17 FIVE YEAR PLANS

17.1 Headwise Expenditure

The salient features of the plan activities undertaken in the district and the progress achieved therein during the Second Five Year Plan period can be seen from the actual expenditure vis-a-vis the Plan provision on various major heads of development.

The outlay and expenditure on major heads of the Second Five Year Plan, 1956–57 to 1960–61 (*Rs. in '000*)

Sl. No.	Major head of development	Plan Provision	Actual expenditure during					Total expenditure
			1956–57	1957–58	1958–59	1959–60	1960–61	
1	2	3	4	5	6	7	8	9
1	Agriculture and Community Development .	9,050.1	711.9	1,590.6	4,211.8	5,076.9	5,176.6	16,767.8
2	Irrigation and Power .	35,474.0	865.0	1,238.8	3,648.9	6,896.0	11,090.9	23,739.6
3	Industry and Mining .	86.4	11.2	7.9	24.9	26.9	13.6	84.5
4	Transport and Communications .	8,417.4	1,081.8	1,775.4	1.165 1	81 3	..	4,103 6
5	Social Services .	7,565.5	532.7	1,539.1	952.9	885 9	787.4	4,698.0
6	Scientific and Industrial Research . .	100.0	..	8.7	21.2	34.3	22.1	86.3
	Total . . .	**60,693.4**	**3,202.6**	**6,160.5**	**10,024.8**	**13,001.3**	**17,090.6**	**49,479.8**

Against the Plan provision of Rs. 60.69 lakhs for implementation of various schemes under the Second Plan, a sum of Rs. 49.48 lakhs was spent. Of these schemes, Rs. 23,74 lakhs were spent on irrigation and power, followed by Rs. 16.77 lakhs on agriculture and community development. The expenditure under these two sectors constituted 81.87 per cent of the total expenditure incurred during the Second Plan period. Social services shared Rs. 4.70 lakhs whereas transport and communications claimed Rs. 4.10 lakhs. The year-wise break-up of expenditure during the Plan period further reveals that the rate of spending in the first two years of Plan was slow but from 1958-59, it has gone increasing at a faster rate as 81.08 per cent of the total expenditure was spent during the latter period.

17.2 Achievements

With a view to increase the agricultural production, various schemes were undertaken in the Second Plan period, such as sinking of irrigation wells and repairs to old ones. The total expenditure on such schemes was Rs. 4.31 lakhs. Rs. 25.14 lakhs were spent under the Second Plan towards increasing educational facilities in the district. The expenditure incurred on the schemes pertaining to co-operation amounted to Rs. 2.72 lakhs. Community development, N.E.S., local development works and rural development accounted for Rs. 56.26 lakhs incurred during the Second Five Year Plan period. Towards increase in medical and public health facilities, the amount spent was Rs. 6.66 lakhs. The programme also included the establishment of primary health centres and family planning centres. A T.B. ward with 10 beds at Civil Hospital, Palanpur was also opened and X-Ray facilities were provided in Deesa Hospital.

17.3 Small Savings

That the small savings activities have increased in the district will be evidenced by the following figures of net collection and target during 1960-61.

Target and net collection of Small Savings, 1960-61

(Rs. in lakhs)

Nature of Savings	Target	Net Collection
1	2	3
Total	**30 00**	**57.87**
1 Savings Certificates	..	9 82
2 Post Office savings Bank deposits	..	45 36
3 Treasury Saving deposits	..	1.87
4 Annuity Certificates	..	0 27
5 Cummulative time deposits	..	0 55

It is gratifying to note that due to mass compaign of small savings the net collections during 1960-61 exceeded the target by 92.90 per cent.

18 IMPORTANT PLACE NAMES

18.1 Important Places

Important places of the district are:

Ambaji — Celebrated and important Shakti pith of Gujarat and an important centre of pilgrimage visited by thousands from the State and outside, other places of interest in its vicinity being the temple of Koteshwar Mahadev and Gabbar, a steep hill with footprints of Goddess at its peak

Bhiladiaji — Sacred place of Jain pilgrimage Temple of Bhiladiaji

Shri Amirgadh — Famous temple of Chamunda Mata

Balaram (Chitrasani village) — Famous beauty spot at a distance of 1½ miles from village Chitrasani, having Shrine of Balaram Mahadev

Kumbhariya — 2 miles away from Ambaji, the Jain temples of architectural beauty, built in 13th century, Marble carving is marvellous and resembles to those of Delwara

Palanpur — District headquarters and former. Capital of Palanpur State famous for perfumes and scents

Ratanpur — An ancient banyan grove said to be larger than Kabirvad in Broach district

Details of these and other places will be found in the Brief Gazetteer of Place Names given in this Handbook.

18.2 Ancient Monuments

Official Statistics Table 18.3 gives details of each ancient monument together with the name of the village, place of location, the period of architecture, brief description, etc.

18.3 Fairs and Festivals

About 94 important fairs and festivals are celebrated at different places in rural and urban areas of the district. The details regarding the place where it is held, name of the fair/festival, the date on which it is held/observed and the estimated congregation are shown in the Official Statistics Table 18.2 of this Handbook.

GAZETTEER OF PLACE NAMES

DISTRICT BANASKANTHA

V. P.=Village Panchayat; G. P.=Group Panchayat; M.=Municipality;
P=Population; N.=North Latitude; E.=East Longitude.

1 Ambaji, V. P. (Taluka Danta), P. 2,073

It is 14 miles away from Abu Road railway station, on the Ahmedabad-Delhi main metre gauge railway line and 15 miles north of Danta, the headquarters of the taluka. It is also connected with Palanpur and Abu Road by the State Transport bus service. It is an important place of pilgrimage in Gujarat on account of the temple of *Ambaji Mata*, one of the holiest and celebrated of shrines. Four miles north-east of the temple, is the temple of *Koteshwar Mahadev* situated near the source of the river Saraswati in the Arasur hills at the south-west end of the *Ardwali Range*. The origin of *Ambaji* is lost in antiquity. However, the shrine was celebrated even in the days of Valabhi, as far back as 746 A.D. Goddess of *Ambaji* is considered as the most powerful deity worshipped by Hindus with great reverence. The shrine has no idol but a niche with *Visho Yantra* which is said to have been engraved therein. The niche is decorated in such a way with *sari*, ornaments, etc., that one has the *darshan* of the goddess riding a tiger or lion. Thousands of devotees come on the full moon day every year in the Hindu month of *Bhadrapad* (September) and *Navratri* in *Ashwin* particularly on the 8th night of *Navratri* festival (October) when the maximum assemblage goes up to 150,000 persons. Other places of interest in the vicinity are well-known Jain temples of *Kumbhariya* and *Gabbar*, a steep hill on the peak of which there are foot-prints of the goddess. There are several *dharma-shalas* for pilgrims around the temple of Ambaji. A cottage hospital with an X-ray machine with maternity home attached to it has been recently opened at the village.

2 Shri Amirgadh, V. P. (Taluka Palanpur), P. 1,991

It is about 20 miles away from Palanpur situated between Palanpur and Abu Road railway station on Ahmedabad-Delhi main metre-gauge railway line. It is also connected with Palanpur by State Transport bus service. A cement factory on co-operative basis is likely to be started soon at this place. At a distance of five miles is the famous temple of *Chamunda Mata* situated in the forest.

3 Bhabhar, V. P. (Taluka Deodar), P. 6,506

It is an important village five miles west of Deodar, originally held by Koli Thakardas of Kankrej estates. It is a railway station on Palan-pur-Gandhidham railway. Being one of the important market places of food grains in Banas-kantha district, it has an agricultural produce market committee and a market yard. There are offices of *Extra Aval Karkun* and police station.

4 Bhildi, V. P. (Taluka Deesa), P. 1,800

It is situated at a distance of 13 miles from Deesa, the taluka headquarters. It is a junction station on Palanpur-Gandhidham railway. There is a famous temple of 'Bhiladiaji' which is a sacred place of Jain pilgrimage, renovated at a large cost donated by Jains.

5 Bhorol, V. P. (Taluka Tharad), P. 1,536

It is 12 miles away from Tharad, the taluka headquarters and famous as a place of pilgrimage for Jains.

6 Chhapi, V. P. (Taluka Vadgam), P. 2,413

It is 10 miles from Vadgam, the headquarters of the mahal. It is a railway station

on Ahmedabad-Delhi main metre-gauge line and an important business centre for the surrounding villages.

7 Chitrasani (Balaram), V. P. (Taluka Palanpur), P. 1,521

It is 9 miles north of Palanpur and a railway station between Palanpur and Abu Road. At a distance of 1½ miles, is the famous beauty spot named Balaram on the bank of the river Balaram, a tributary of the river Banas flowing by the shrine of *Balaram Mahadev*, visited by a large number of Hindu devotees every month. Every year a large fair is held on the last Monday of *Shravan* (August) with a congregation of 30,000 to 50,000 persons. It is a place of excellent natural scenery with a large lake surrounded by picturesque hills, small streams and tall trees. A palace of the *Nawab* of Palanpur on the bank adds to its beauty. At a distance of 3 miles is a small temple of '*Dhara Mata*' situated in the heart of the forest where tiger hunts were once organised. In the Second Five Year Plan, Balaram with 52 surrounding villages has been selected as the centre of a block for intensive work in *Khadi* by the All India Khadi and village Industries Commission.

8 Danta, V. P., P. 2,191, 24° 12′ N., 72° 50′ E.

Named after the *Bhil Dantia* who founded it, Danta is the headquarters of the taluka, 26 miles away from Palanpur. It was an ancient town existing since 16th century, and the capital of former Danta State ranking second class which enjoyed the special privilege of having within its territory the famous shrine of goddess '*Amba Bhavani*'. A very high quality of white and green marble is found in this taluka. There are a dispensary with maternity home, a veterinary dispensary and taluka seed godown.

9 Dantiwada, V. P. (Taluka Dhanera), P. 2,366

Situated 18 miles away from Palanpur, the nearest railway station is Chandisar 6 miles away, on Palanpur-Deesa railway line. A big dam known as *Dantiwada Dam*, 16,433 feet in length, 80 feet in height and 250 feet in breadth at the base is under construction near the village. On completion it is estimated to irrigate 120,000 acres of land of which 80,000 acres will be of Palanpur, Deesa and Kankrej talukas of Banaskantha district. At a distance of three miles from this village, there is '*Rani Kund*' which is worth visit.

10 Deesa, M., P. 18,891, 20° 14′ N., 72° 5′ E.

Situated on the bank of the river Banas, it is the headquarters of the taluka and sub-division and a railway station on Palanpur-Gandhidham railway line. It is an important centre of State Transport bus service. In the year 1821, there was a British cantonment on the north-east of the town where military forces were stationed to counteract the plundering and marauding activities of the chiefs between Kutch and Abu.

It is an important trading centre for potatoes grown in abundance in the river bed of Banas. There are several oil mills and wool factories on small scale. It has a godown for improved seeds, branch of the District Central Co-operative Grain Bank, an agricultural produce market yard and an agricultural research station established in the Second Five Year Plan. It has an aerodrome and an observatory run by the Meteorological Department. It is the headquarters of Dantiwada canal division with a residential colony for the staff. There is a civil hospital and a maternity home. It has taluka and sub-divisional offices, rest-house and municipality providing piped water and public gardens.

11 Juna Deesa, V. P. (Taluka Deesa), P. 4,905

Originally known as Faridabad, has an ancient temple of *Sidha Mata*. It has a primary health centre.

12 Deodar, V. P., P. 2,650

It is the headquarters of the taluka, 45 miles from Palanpur, also a railway station on Palanpur-Gandhidham railway line. It is connected by State Transport bus services to Khemana which is on the State Highway from Deesa to

Radhanpur. It was the principal town and the residence of the chief of the former Deodar State. In the Second Five Year Plan, a seed multiplication farm and a veterinary dispensary have been established at this place. It has taluka offices.

13 Dev, V. P. (Taluka Radhanpur), P. 924

It is a railway station on the Palanpur-Gandhidham line. It is a religious place having the temple of '*Hemja Mata*', where a big fair is held every year with an assemblage of 5,000 persons.

14 Dev-Darbar, G. P. (Taluka Kankrej), P. 18

It is 10 miles away from Sihori, the headquarters of the taluka. There is an ancient temple of *Nakalank Avatar*. It is the seat of the *Mahant* known as *Oghad Mahant*. A fair is held at this place on *Kartik Sud 2* (October-November) where 20,000 persons congregate. Horse-race is a unique attraction of the fair.

15 Dhanera, V. P., P. 5,171

The headquarters of the taluka of that name and 30 miles from Deesa, it is a railway station on Bhildi-Raniwada line. A district metal road runs from Deesa to Dhanera. It has a co-operative Bank, a dispensary with maternity home and a veterinary dispensary. There are taluka offices and civil courts.

16 Dhima, V. P. (Taluka Vav), P. 2,613

It is connected with the taluka headquarters by State Transport bus services. This village and the area roundabout it are well-known for the superior breed of draft animals called *Kankreji*. The climate is also conducive to breeding of camels and sheep. The wool of the sheep of this region is found to be of a very high quality. It is one of the important cattle markets where thousands of cattle are sold every year between the months of *Phalgun* and *Jyestha* (March to June). There is a well-known temple of *Dharnidharji* where three fairs are held every year on *Jyestha Sud 15* (June), *Phalgun Sud 11 to Vad 1* (March) and *Kartika Sud 15* (November) with a congregation of 14,000, 11,750 and 2,000 persons respectively, when pilgrims and agriculturists come here in large numbers for sale of their cattle.

17 Gotarka, V. P. (Taluka Radhanpur), P. 1,288

It is 17 miles south-west of Radhanpur, the taluka headquarters and 6 miles away from Varahi, the railway station on Palanpur-Gandhidham line. There is *Ramji Mandir* and *Dargah* of *Gotarka Pir*. Also at a distance of half a mile is the temple of *Dhundharka Mahadev*.

18 Iqbalgadh, V. P. (Taluka Palanpur), P. 1,525

It is situated at a distance of 17 miles from Palanpur, taluka and district headquarters and is a station on Ahmedabad-Delhi main metre-gauge railway line. At a distance of 5 miles from this place, are *Jasor hills* on the top of which the temple of *Kedarnath Mahadev* stands. Water from hills flows perennially over the *Linga*.

19 Jethi, G. P. (Taluka Palanpur), P. 884

It is situated on the State Highway Ahmedabad-Marwar at a distance of 15 miles from Palanpur, the taluka and district headquarters. 3 miles away from this place is a big lake named *Ganga Sagar* the water of which is used for irrigating surrounding lands.

20 Koteshwar, G. P. (Taluka Danta), P. 195

It is an ancient holy place three miles from Ambaji. It has the temple of *Koteshwar Mahadev*. The pilgrims visiting Ambaji also visit this place. The river Saraswati starts from the hills situated near the temple. There is one *kund* wherein water of the river Saraswati flows from a '*Gaumukh*', mouth of cow, carved in stone where pilgrims take bath. Nearby is another temple named '*Valmikashram*'. As legend goes, Nana Saheb Peshwa, after Mutiny of 1858, passed his last days in a cave temple near this place.

21 Kumbhariya, G.P. (Taluka Danta), P. 668

It is about 2 miles away from Ambaji. Closeby, are five *Jain* temples known as *Kumbhariya* temples said to have been built by Vimalsha in the 13th century who built the famous *Vimal Vasahi*

temples at Delwara. These temples represent the best in Jain architecture. Marble carving and sculpture of these temples are marvellous and remind one of the Delwara temples at Mount Abu. These temples alongwith one *Shiva* temple are preserved as protected monuments. It is considered to be a very holy place visited by thousands of Jains every year.

22 Lotol, G.P. (Taluka Danta), P. 123

Situated 20 miles south of Danta, it has a hill named '*Maneknath*' with two or three caves having *Dhuni* (fire) of *Bawa Maneknath*. There is a legend that there was an underground subway from Lotol to Manekchowk at Ahmedabad. The *Math* of *Bawa Maneknath* is situated in the village at the foot of the hill.

23 Magarwada, V. P. (Mahal Vadgam), P. 1,903

It is situated at a distance of 3 miles from Vadgam, the mahal headquarters. There is a famous temple of *Mani Bhadra Vir*, who sacrificed his life for the protection of cows. This is a place of pilgrimage where 8,000 persons assemble at the time of the annual fair held on *Ashvin 5* (September).

24 Mahudi, G. P. (Taluka Danta), P. 103

Situated in the interior of the taluka, it is 20 miles away from Danta, the headquarters. Roundabout this village are ruins of the old capital of former Danta State known as 'Tarsang'. This capital was seized by the *Raos* of Idar during the battle with *Ranas of Danta* in 1544 whereupon the *Rana* shifted his capital to Danta.

25 Mokeshvar, G. P. (Mahal Vadgam), P. 117

It is situated on the bank of the river Saraswati, at a distance of 14 miles from Vadgam, the headquarters of the mahal. There is a temple of *Mokeshvar Mahadev* where a large number of people visit to make offerings to their forefathers for the peace of departed souls. Every year a big fair is held on *Bhadrapad Sud 11* (September) with an assemblage of 10,000 persons.

26 Palanpur, M., P. 29,139, 24° 12′ N., 72° 28′ E.

The headquarters of the Banaskantha district is a railway junction on the Ahmedabad-Delhi main metre-gauge railway line with a branch line to Kandla port *via* Deesa. It is also the central station of the State Transport bus services. It is commanded and hidden by a circle of hillocks. It is a very old settlement wherein the eighth century Vanaraj, the founder of Chavda dynasty was brought up. In the 14th century, it was repeopled by *Palansi Chohans* from whom it takes its present name. Early in the 17th century, the *Chhohans* were displaced by *Musalman* rulers of *Jhalor* family who continued to rule till Independence. It was the capital of the former first class State of Palanpur. There is a big tank called '*Mansarovar*' and an ancient temple of *Pateleshwar Mahadev* where Sidhraj was born. It is famous for its flowers, viz., *Champa* and *Kevda* which made it centre for the manufacture of *itra* and perfumery. Some perfume factories exist even to-day. A laboratory centre for the manufacture of lac is established at this place for research and experiments to increase its production. There is a *Kirti Stambh* and a *Rajmahal*, the old palace of the *Nawab*, now used for district offices. Outside Mira gate, there are two *Dargas*, one of Poet Anwar Kazi and the other of Sant Mursheed, worshipped by *Muslims*.

There are an eye hospital, a civil hospital, hospital for women and children, one technical high school, three hostels for boys and one for girls of backward classes. In the Second Five Year Plan a training school for Primary Teachers has been established and the civil hospital has been equipped with X-ray machine, ambulance car, a regional public health laboratory and special accommodation of 10 beds for T. B. patients. The municipality provides amenities of piped water supply, public gardens and recreation centre for children. A Plant Protection Centre is also run by Central Government.

27 Parpada, G. P. (Taluka Palanpur), P. 506

It is situated at a distance of 3 miles from Palanpur. It has a famous temple of *Shitala Mata* where a big fair is held on *Shravan Vad 7* with a congregation of 5,000 persons.

28 Radhanpur, M., P. 15,058, 23° 50' N.,71° 31' E.

The headquarters of the taluka and *prant* is a railway station on Palanpur-Gandhidham railway line. Formerly it was the seat of the *Babi* ruler of Radhanpur State who was first class chief entitled to a salute of 11 guns and guard of honour. The name Radhanpur is said to have beed derived from Radhan Khan, a descendant of Fateh Khan Baloch who under the *Sultan* of Ahmedabad held this place alongwith other grants. It is surrounded by a fort-wall built partly of stone and partly of brick with loop-holed walls and seven bastioned gate-ways.

There are an oil mill, a seed multiplication farm and an agricultural produce market yard. Special amenities such as hospital, public garden, child recreation centres, etc., have been provided by the municipality. All taluka and *prant* offices are located at this place.

29 Ratanpur, G. P. (Taluka Palanpur), P. 516

It is a village situated 3 miles from Palanpur and connected by State Transport bus service. There is an ancient Banyan grove, the expansion of which is said to be larger than that of *Kabirvad* in Broach district. It is a picnic spot. In this village, a *Lok Niketan* Institute has been recently opened for imparting training in basic education.

30 Rupal, V. P. (Mahal Vadgam), P. 1,566

It is situated at a distance of 4 miles to the south of Vadgam, the mahal headquarters. It is connected with Vadgam by State Transport bus service. There is a famous temple of *Shitala Mata* where a big fair is held on *Shravan Vad 7* (August), visited by about 10,000 persons.

31 Sanali, G. P. (Taluka Danta), P. 419

It is 20 miles away from Danta, the taluka headquarters connected by State Transport bus services. It has a *Sarvodaya Ashram* established for the uplift of *Adiwasis*, located between two rivers and hills in the middle of very attractive natural setting.

32 Santalpur, V. P., P. 2,095

It is a railway station on Palanpur-Gandhidham line, a few miles away from the *little Rann of Kutch*. The proprietors of Santalpur were *Jadeja Rajputs*. According to the local history before the *Jadejas* came, Santalpur was held by Turk, probably a colony from Sind. It was the taluka headquarters till 1954 which was subsequently shifted to Varahi. There are a dispensary, veterinary dispensary, a rest-house and a police out post.

33 Sihori, V. P. (Taluka Kankrej), P. 4,428

It is the headquarters of the taluka, 14 miles away from Bhildi, the nearest railway station on Palanpur-Gandhidham line. There are a dispensary with maternity home, primary health centre, veterinary dispensary, a family planning centre, a taluka seed godown and taluka offices. Well and tube-well irrigation is practised here on an extensive scale. This region is well-known throughout Gujarat for best breed of bulls and cows known as '*Kankreji*'.

34 Suigam, V. P. (Taluka Vav), P. 2,779

It is 15 miles from Bhabhar and a railway station on Palanpur-Gandhidham line. It is situated on a small hill 6 miles from the *little Rann of Kutch* and is the starting point of one of the routes across the Rann to *Thar Parkar* in Pakistan. It has assumed importance as a Central Excise Department check-post situated on the Pakistan border. The village was founded in 1569 A.D. by *Rana* of Vav naming it after 'Sui', a *Rabari* who lived there. This tract being backward, a small hospital with 6 beds has been established for the benefit of the people of the surrounding villages. Being in close proximity of the *Rann*, the water is brackish and scarce and renders people liable to infection from guinea-worms diseases.

35 Thara, V. P. (Taluka Kankrej), P. 4,009

It is situated 12 miles from Deodar, a railway station on Palanpur-Gandhidham railway line and

connected by State Transport bus services. It was the largest and the most important estate in Kankrej taluka held by the chiefs of the *Vaghela* clan of Kolis. There is one popular temple of *Valinath Mahadev* where a fair is held on *Maha Shivaratri* (February–March) with an assemblage of 5,000 persons. It is an important marketing centre of the surrounding villages where crops are raised by tube-well irrigation. There is a dispensary and a veterinary centre.

36 Tharad, V. P., P. 7,566, 24° 20′ N,, 71° 40′ E.

It is the headquarters of the taluka and *prant*, connected with Deesa on the east and Suigam on the west by an asphalt road on which State Transport buses regularly ply. It is the oldest town in Palanpur agency said to have been founded in 115 A.D. by *Tharpur Parmar* who migrated from *Marwar*. Formerly it was the seat of the Tharad chief, a *Waghela Rajput* and the headquarters of Thandar. Besides, main Jain temples, there is an old temple '*Nan Devi Mata*' built in the 12th century by Chohan Ratansingh in honour of his family goddess *Nan Devi*.

All taluka and *prant* offices, a rest-house, a Local Board Dispensary, a maternity home, a primary health centre, a veterinary dispensary, a seed-multiplication farm and a taluka seed godown are located at this place.

37 Vadgam, V. P., P. 3,620

It is situated five miles away from Umardeshi, a railway station on Ahmedabad-Delhi railway line. Formerly it was a seat of the chief of Vadgam State in Mahikantha agency. It is a marketing centre for surrounding villages growing crops like sugarcane and rice. A veterinary dispensary has also been started in the Second Five Year Plan.

38 Varahi, V. P. (Taluka Santalpur), P. 4,255

It is the headquarters of the Santalpur taluka since 1954 and a railway station on Palanpur-Gandhidham railway line. It was held by Ravanias from whom it was wrested by *Jats*, the migrants from Sind (711 A.D.). Formerly it was the headquarters of the *Varahi thana*. There is an old temple of *Varahi Mata* at a distance of about 2 miles north of the village Fulpura. A cattle fair is held every year for five days from *Chaitra Vad 13* to *Vaishakha Sud 2* (April). It has taluka offices and a dispensary.

39. Vav, V. P., P. 4,667, 24° 18′ N; 71 37′ E.

It is the headquarters of the taluka of that name, 18 miles from Bhabhar, a railway station on Palanpur–Gandhidham line. It is also connected with Tharad by bus services. Formerly it was the seat of Rana of Vav who claimed kindred with Pruthviraj—the last of *Chohan* kings of Delhi. It was founded by Rana Vaja of Vav seven miles west of Tharad, near step-well constructed by his grandfather from which the village bears its name. There are taluka offices, ancient temples of *Kapileshwar* and *Budheshwar Mahadev* and a *Jain Derasar*. Shortage of water is felt at this place especially in summer when the water becomes brackish.

PART II

1 CENSUS TABLES

2 OFFICIAL STATISTICS

A-GENERAL POPULATION TABLES

Out of 4 tables of A Series compiled at this Census, Tables A-I, A-III and A-IV giving area, houses and population, classification of villages and towns have been reproduced in the District Handbook. They are the same as those given in 1951. The most distinguishing features, however, are the various appendices and sub-appendices giving details of (a) 1951 territorial units constituting the present set-up of the district showing changes which have taken place during the decade, (b) villages with a population of 5,000 and over and towns with a population under 5,000, (c) houseless and institutional population, (d) 1951 population adjusted to 1961 administrative units, (e) new towns added in 1961, (f) towns in 1951 declassified in 1961 and (g) towns with their area and jurisdiction.

A-I—AREA, HOUSES AND POPULATION

This table is more elaborate than that of 1951 as it gives in addition to area, houses and population, population per sq. mile, number of inhabited and uninhabited villages and number of towns. The data is given down to taluka/mahal with break-up for Total/Rural/Urban.

Brief Account of Changes in Area of the District from 1901 to 1961

Numerous changes have taken place since Independence in the areas of the districts, though the boundaries of various units comprised therein practically remained unchanged between 1901 and 1941. Three principal stages in which these changes have come about during the Post-Independence period are : (i) those that came in the wake of Independence after 1947; (ii) those that took place on the Reorganisation of States in 1956 and (iii) those that resulted from the bifurcation of the bilingual Bombay State in 1960.

Even after reorganisation in 1956, several territorial changes were effected in 1959, the details of which have been given in sub-appendix 2 to Appendix 1 to Table A-I alongwith the relevant notifications. Broad changes that have taken place in the territorial limits of the district between 1951 and 1961 are, however, listed below :—

Banaskantha :– This district continues with the addition of Radhanpur taluka *minus* 10 villages and Santalpur taluka of Mehsana district, less Abu Road taluka transferred to Rajasthan.

Rural and Urban Population

During the past censuses there was no uniformity in the criteria prescribed for distinguishing urban areas from the rural. The definition of 'town', therefore, varied from State to State and the places were treated as towns if, in the opinion of the State Government or the Superintendent of Census Operations, they were found to possess urban characteristics. It included all municipalities, cantonments, civil lines and all places with more than 5,000 population which, it was decided, to treat as towns on the ground that they possessed urban characteristics. This definition of 'town' has remained substantially unchanged since 1891. To the characteristics aforementioned, Baroda State, which has merged into Bombay State in 1949 and now forms part of the newly formed Gujarat State added one more according to which all the headquarters of talukas were treated as towns. In view, however, of the increasing importance of studying urbanisation in all its varied aspects, the Registrar General, at the very outset of 1961 Census, emphasised the need for a uniform treatment by strictly defining the concept of 'town'.

Town:

'Town' has been defined as a place having a municipality or a cantonment or a place with a population of 5,000 and over if 75 per cent of its male population is dependent on non-agricultural pursuits. These tests were applied by the Collectors who furnished lists of places to be treated as towns in 1961, which were also got approved by the State Government and the Registrar General.

The four places which were treated as towns in 1951 have continued as such even according to the test prescribed by the Census of 1961.

Village :

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distinct number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

Census House:

Owing to the diversity of local conditions it was not possible in the past to lay down a uniform definition of a 'Census House' common to all parts of the country. The definition adopted till the Census of 1941 had two-fold connotation which emphasised either (i) the structural aspect, i.e., building or house or (ii) the social aspect, i.e., family or household. The former was defined as the residence of one or more families having a separate and independent entrance from the common way. But the social aspect was emphasised by defining a 'Household' as the home of the composite family with its resident dependents and servants. From 1881-1941, the Census Superintendents adopted the one or the other definition according to their convenience. A clear distinction was, however, drawn between a 'Census House' and a 'Census Houhseold' in 1951 which gave a uniform meaning to the term 'Census House' or the 'Census Household' or the 'Family Unit'. The 'Census House' was defined as, 'a dwelling with a separate main entrance' and the 'Census Household' as 'all persons who live together in the same house and have a common mess'.

Though the definition of a 'Census House' introduced in 1951 was continued during the Census of 1961, it differs from that adopted by the Census of 1961 in that the latter is broad-based to include non-dwellings also. The house-list is thus an inventory of all structures or part of structures with a separate entrance.

The following definitions of the term 'Census House' given in the instructions for filling the house-list will clarify the position still further.

"A 'Census House' is a structure or a part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

A-III—Villages Classified by Population

This table classifies inhabited villages only by size of population. After giving the total number of inhabited villages and rural population for every taluka/mahal, it shows the number of villages and population for the following seven categories, namely:—

(1) less than 200, (2) 200-499, (3) 500-999, (4) 1,000-1,999, (5) 2,000-4,999, (6) 5,000-9,999 and (7) 10,000 and above.

Table A-III of 1951 gives combined figures of inhabited towns and villages classified by population, while A-III of 1961 gives figures of villages only classified by population.

A-IV—Towns and Town-groups Classified by Population in 1961 with Variation Since 1941

This table gives statistics relating to the figures of population since 1941 showing the growth of each town from census to census. Percentage variation is given from decade to decade, not only for the towns, but also for town-groups, where one or more urban units form a compact urban area. The total population of the town-group along with that of its constituent urban units is given under the class into which the town-group has been classified. Separate figures have, likewise, been given for municipal and non-municipal areas such as port area, suburban area, military area, railway colony, cantonment, etc., where a town is a combination of two or more such units. The following are the six classes into which the towns are grouped in Table A-IV according to the size of population :

Class	Population	Class	Population
I	100,000 and above	IV	10,000 to 19,999
II	50,000 to 99,999	V	5,000 to 9,999
III	20,000 to 49,999	VI	Less than 5,000

The areas of towns in sq. miles and sq. kilometres are also given in the table for 1961.

The term 'town' as defined at the Census of 1961 and its uniform adoption all over the country on the basis of certain specified tests have been explained under 'Urban and Rural Population' in the note to Table A-I.

'Town-group'—This is a new variant of the urban population which has been introduced for the first time on the present occasion. Large cities or expanding towns bring within their orbits new satellite towns, industrial areas or settlements interspersed by small bits of rural areas. Such urban areas, not necessarily municipal, are taken to form town-groups with the main city or town as one of the constituents.

'City'—Places having population of 100,000 and over either individually or as a town-group have been classified as cities.

A-I—AREA, HOUSES AND POPULATION

NOTE :-

1 Population per sq. mile under Column 4 has been worked out on the area figures given by the State Survey Department given in Column 3(a).

2 Under Column 4, population of those urban units, for which area figures are not available, is ignored for working out urban density. Rural density is worked out on the basis of rural population only though the area figures include areas of those urban units for which separate area figures are not available.

3 The sq. kilometres under Column 3(b) and density figures of urban areas of Taluka/Mahal and District under Column 4 are worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of the towns in the respective units. In addition to this, the figures relating to sq. kms. are further adjusted to make the Taluka/Mahal and District totals agree.

APPENDIX I

1951 TERRITORIAL UNITS CONSTITUTING THE PRESENT SET-UP OF DISTRICT AND EACH TALUKA/MAHAL

(Only those names/areas which have undergone changes since 1951 have been shown below)

NOTE:-

x(1) Under Bombay Government Resolution, R. D., No. T.L.C.-1254-R dated 15-4-1958,

(a) Radhanpur taluka (268.6) *minus* the following 10 villages was transferred from Mehsana District to Banaskantha district.

Dadar (3.8), Kharcharia (2.0), Ranawada (5.0), Mandvi (8.8), Bhamathal (2.0), Gochnath (8.3), Dawoodpur (2.5), Babri (2.5), Bismillabad (1.5) and Chandarani (2.8).

(b) Santalpur taluka (393.0) was transferred from Mehsana district to Banaskantha district.

(2) Under Bombay Government P. and S. D. Circular No. SRI-RCR-11456-T dated 12-10-1956, Abu Road taluka (303.8) was transferred from Banaskantha district to Rajasthan State.

† Bhadrawadi village was transferred from Deodar taluka of Banaskantha district to Kankrej taluka of the same district.

‡ Bhadrawadi village was transferred from Deodar taluka of Banaskantha district to Kankrej taluka of the same district.

* Under Bombay Government Resolution, R. D., No. T.L.C.-1254-R dated 15-4-1958, Radhanpur taluka (229.4) *minus* 10 villages as above was transferred from Mehsana district to Banaskantha district.

\+ Under Bombay Government Resolution, R. D. No. T.L.C.-1254-R dated 15-4-1958, Santalpur taluka (393.0) was transferred from Mehsana district to Banaskantha district.

NOTE:-

*Towns treated as such for the first time in 1951 which continue as towns in 1961 Census.

The following abbreviation have been used for the Status of a town:—

(i) M—Municipality (ii) P—Village Panchayat

SPECIAL APPENDIX

TOWNS WITH THEIR AREA AND JURISDICTION

District	Town (area in acres)	Jurisdiction with area in acres of each unit
1	2	3
BANASKANTHA	1 Palanpur (3,520–0)	Part (3,520–0) of Palanpur village
	2 Deesa (3,411–13)	Deesa (352–9) and Rajpur (3,059–4) villages
	3 Tharad (5,495–28)	Tharad village (5,495–28)
	4 Radhanpur (2,560–0)	Part (2,560–0) of Radhanpur village

B—ECONOMIC TABLES

This series is divided into two parts, viz., (i) General Economic Tables and (ii) Household Economic Tables. Economic Tables of the 1961 Census cover a very large field of data and are more elaborate than any of their predecessors. The most important point to remember about the economic tables is that during the past censuses, income or economic independence was the test applied for measuring the economy of the country. Before 1961, economic activity was interpreted in terms of categories like economically independent or economically dependent, semi-dependent, earning dependents or non-earning dependents. In 1951, the economic classification was confined to the eight livelihood classes with stress on income rather than work or economic activity of the individual. The most significant departure that the Census of 1961 has made is the emphasis laid on work, so that all people who work, including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance have also been included as workers. Even the non-workers have been distributed into eight-fold categories according to the activities pursued by them. This change in concept will help obtain a realistic picture of the economic activity of those important sections of household workers who were left out of account in the past.

The Household Economic Tables on the other hand are an entirely new feature of the 1961 Census. They are prepared from household schedules by mechanical tabulation on the basis of 20 per cent sample and give all possible data relating to the extent of land under cultivation, nature of household industry, period of work in household industry and the persons employed either as family workers or as hired labourers.

Industrial and Occupational Classification

Another noteworthy feature of the General Economic Tables is the systematic classification of industries and occupations. For, the one introduced in 1951 was, as truly pointed out by the Registrar General, neither a purely industrial nor occupational classification of the population but a combination of both. The National Classification of Industries and Occupations adopted by the Government of India and followed on the present occasion classifies the economic data into 9 divisions, 45 major groups and 343 minor groups of industries and 11 divisions, 75 groups and 331 families of occupations as against a conglomeration of 10 divisions and 88 sub-divisions of services in 1951.

The following statement gives the categories of industrial workers adopted in the current census and the eight livelihood classes of 1951.

1961 Industrial Categories		1951 Means of Livelihood
		AGRICULTURAL CLASSES
I	As Cultivators	I Cultivators of land wholly or mainly owned and their dependents
II	As Agricultural Labourers	II Cultivators of land wholly or mainly unowned and their dependents
III	In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	III Cultivating Labourers and their dependents
IV	At household Industry	IV Non-cultivating owners of land, agricultural rent receivers and their dependents
V	In Manufacturing other than household Industry	NON-AGRICULTURAL CLASSES
VI	In Construction	Persons (including dependents) who derive their principal means of livelihood from
VII	In Trade and Commerce	V Production other than cultivation
VIII	In Transport, Storage and Communications	VI Commerce
IX	In Other Services	VII Transport
X	Non-workers	VIII Other services and miscellaneous sources

In 1951 the non-workers who were known as non-working dependents were classified according to the occupation of the persons on whom they were dependent.

The non-working population is distributed separately for the first time according to eight types of activities, viz., (i) full time students or children attending school who do no other work, (ii) housewives and persons engaged in unpaid home duties, (iii) infants and other dependents including permanently disabled or old persons, (iv) retired persons, rentiers and others who are in receipt of income without doing any work, (v) beggars, vagrants and others of unspecified source of existence, (vi) convicts in jails or inmates of penal, mental or charitable institutions, (vii) persons not employed before but seeking employment for the first time and (viii) persons employed before but now out of employment and seeking employment.

Broadly speaking, workers of 1961 can be taken to be equal to self-supporting persons *plus* earning dependents of 1951 *minus* those in receipt of income without work such as rentiers, pensioners, beggars, etc.

In respect of persons who are workers, the information is available in Q. 8 Cultivators, Q. 9 Agricultural Labourers, Q. 10 Working at Household Industry and Q. 11 Working at Non-household Industry, Profession, Trade, Business or Service. Following extracts from the Manual of Instructions to Enumerators relating to Questions 8 to 12 on the basis of which the General Economic Tables are compiled will be helpful in appreciating the contents of these tables.

Q. 8 Working as Cultivator

A person is said to be working as cultivator if he/she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share. Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations which are shown in Q. 10 or Q. 11 as the case may be.

Q. 9 Working as Agricultural Labourer

A person is said to be working as Agricultural labourer when he works in another person's land only as a labourer without exercising any supervision or direction in cultivation for wages in cash, kind or share of produce. Also the labourer has no right or lease or contract on land on which he works, nor he is responsible for taking decision as to which crops to sow and when or taking the risks of cultivation.

Q. 10 Household Industry

A Household industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Household industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

Q. 11 Doing work other than 8, 9 or 10

Nature of work (occupation) is the exact function that a person performs in the economic sector in which he/she is engaged. This information was to be filled in Q. 10 (a) or 11(a) of the individual slips. The 'industry' means that sector of economic activity in which the earner is engaged, and the name of that industry was recorded according to the name of the principal article produced, serviced or repaired. Specific instructions were given to record replies to Q. 11(a) and 11(b) as under :—

(1) In the case of married or grown up women who do any of the work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cow dung cakes, grass, etc., in addition to the usual household duties, such duties were fully described and 'HW' written in brackets after the full description.

(2) If a person makes the articles he sells, he was treated as maker and seller of them.

(3) The vague terms like scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher, etc., were not written.

(4) For labourers accustomed to work on various jobs, 'general labourer' was mentioned.

(5) Machine Operator.

The kind of machine used with its recognised name was given.

(6) Shop-keepers, Retail Dealers, Shop Assistants.

If a person was mainly engaged in selling, 'Dealer' was written and if assisting 'Shop Assistant' or 'Salesman' was written. 'Wholesale' and 'Retail' was stated when the business was carried on in wholesale or in retail.

(7) The nature of transport was fully mentioned like air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by bullock, camel, etc.

(8) For a person engaged in Defence services, 'service of Central Government' was written.

(9) Domestic Services.

In the case of any private servant, e.g., a cook or domestic servant, 'private or domestic servant' only was written. There was no industry in their case but in cases of persons employed in hotels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., were added.

Status of economically active persons

Economically active persons were divided into 4 classes (1) Employer (2) Employee (3) Single worker and (4) Family worker.

An 'employer' is that person who hires one or more persons in his work.

An 'employee' is that person who works under others for wages or salary in cash or kind.

A 'single worker' is that person who does his work without employing others except casually and without the help of the other members of the family except casually.

A 'family worker' is that person who is doing his work in own family without wages or salary in cash or kind.

Thus one more status of economically active person, viz., family worker is added against only first three in the previous census of 1951.

Q. 12 Activity, if not working

A person who is not working has been classified as non-worker. Non-workers are distributed separately according to eight types of activities already noticed above.

(i) General Economic Tables

There are in all 24 Economic Tables compiled in B-Seires—16 General Economic Tables compiled from individual enumeration slips and 8 Household Economic Tables from household schedules on 20% sample basis. Out of the 16 General Economic Tables, the District Handbook reproduces the following 12.

B-I—Workers and Non-Workers Classified by Sex and Broad Age-Groups

Table B-I is the basic economic table furnishing the total popluation and 9 industrial categories of workers and non-workers. The data is presented for the district with total/rural/urban break-up.

The classification of workers and non-workers by broad age-groups, viz., 0-14, 15-34, 35-59 and 60 and above, is the special feature of 1961 census as these age-groups correspond to the different stages of life which have a special significance as regards capacity to work, viz., children, young persons, middle aged persons and old persons.

TABLE B-III-A AND B—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

This table which corresponds to the Table D-VII of 1951 is given in two parts—A & B. Part-A relates to the urban areas and Part–B relates to rural areas. The data in Part-A are presented for the district and that in Part-B down to taluka/mahal for rural areas.

In 1951, only literate and educated persons were classified into eight educational standards by 8 livelihood classes. No classification of illiterate persons into 8 livelihood classes was given in 1951; whereas in this Table, nine categories of workers and also non-workers are given for illiterate as well as for literates.

Non-technical diplomas and degrees have this time been distinguished from technical diplomas and degrees and separate information given also for each technical degree.

TABLE B-IV—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK OTHER THAN CULTIVATION

This table corresponds to table B-III of 1951. It has been presented in three parts on the basis of the principal work of the persons. Part-A relates to persons at work in Household Industry, classified by branch of industry and class of workers (employee and others). Figures for the district are given for Divisions and Major groups for total/rural/urban and those for taluka/mahal for Divisions and rural areas only. Part-B pertains to persons at work in non-household industry, trade, business, profession or service, classified by branch of industry and class of workers (Employer, Employee, Single worker and Family worker). Figures for the district are given for Divisions and Major groups for total/urban and those for taluka/mahal figures for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the villagewise list of Industrial Establishments. Part-C relates to persons at work at household as well as in non-household industry classified by branch of industry. Figures for the district are given for Divisions, Major groups and Minor groups with descriptions for total/urban and those for taluka/mahal for Divisions only and rural areas only.

Table B–III of 1951 furnished figures of self-supporting persons only whereas in this table all the persons who work including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance are included as workers. In 1951, there were three classes of workers, viz., Employer, Employee and Independent workers whereas in this table, workers are classified in four categories, viz., Employer, Employee, Single worker and Family worker, the definitions of which are already given before.

Appendix to Part-C shows in run on lines Minor Groups with the number of male and female workers separately for household industry and non–household industry in brackets having less than 1% of workers of the respective Division (0.5% for Divisions 2 & 3 combined) which are omitted from the table.

TABLE B–V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

This is a new table in which cross-tabulation of industry and occupation has been made for the first time. Figures for the district are given by Divisions, Groups and Families for total/urban and for taluka/mahal by Divisions only for rural areas.

Separate data are furnished for the persons working in household industry and other industrial categories as adopted in the Primary Census Abstract alongwith the Divisions, Groups and Families giving code numbers and actual description. The National Classification of occupation followed in this table is in conformity with international usuage.

Appendix to this table shows in run on lines, families with the number of male and female workers followed by industrial categories having less than 1% of workers of the respective Division (0.5% for Divisions 7 & 8 combined) which are omitted from the main table.

While applying quality checks, some occupations appeared to have been classified under inappropriate industrial categories vis-a-vis the occupations or the nature of work done by persons in economic sector of their activity. Such cases are listed in the annexure to the table, indicating the appropriate industrial category in which they deserve to be classified.

TABLE B-VII PART-A—PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS, (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY, (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

TABLE B-VII PART-B—INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

In this table figures are presented for the district for Divisions and Major groups with total/rural/urban break-up and those for taluka/mahal for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the Villagewise List of Industrial Establishments.

In a similar table B-II of 1951, there was cross-tabulation of self-supporting persons and earning dependents with reference to the secondary means of livelihood which was confined to 8 livelihood classes, while this table affords cross-tabulation between principal work in cultivation and household industry or *vice versa*.

Appendix to Table B-VII-A shows in run on lines Major Groups of household industry having secondary work, which are omitted from the table being less than 5% of major groups as principal work followed in each case by the number of industrial categories and number of males and females having secondary work separately for total/rural and urban population in brackets.

TABLE B-VIII—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE GROUPS AND EDUCATIONAL LEVELS

This is a new table prepared for the first time in 1961. It is in two parts. Part-A relates to urban areas and is presented for district. Part-B relates to rural areas and is presented down to taluka/mahal.

The classification of unemployed persons is shown separately for (i) those who are seeking employment for the first time and (ii) for those who were employed before but are now out of employment and seeking work. The age-groups given in the first case are quinquennial, viz., 15-19, 20-24, 25-29, 30-34 and 35 + modified in the second case as 15-19, 20-24, 25-34, 35-44, 45-59 and 60 + .

In Part-A relating to urban areas information for unemployed persons is furnished for all educational levels, and in Part-B for educational levels upto matriculation and above.

TABLE B-IX—PERSONS EMPLOYED BEFORE, BUT NOW OUT OF EMPLOYMENT AND SEEKING WORK

This is a new table introduced for the first time. The table is presented for district with total/rural/urban break-up and for taluka/mahal for rural areas only. It classifies non-working population into 8 types of activities based on the recommendation of the United Nations Organisation. They are :-

1 Full time students
2 Persons performing household duties without wages
3 Dependents, infants and disabled persons
4 Retired persons, rentiers or persons of independent means
5 Beggars, vagrants, etc.
6 Inmates of penal, mental and charitable institutions
7 Persons seeking employment for the first time
8 Unemployed but seeking work

Major Group	20	Foodstuffs	1,087	934	153
Minor Group	200	Production of rice, atta, flour, etc., by milling dehusking and processing of crops and foodgrains	433	395	38
	207	Production of edible fats and oils (other than hydrogenated oil)	312	264	48
	209	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	183	153	30
Major Group	21	Beverages	20	19	1
	22	Tobacco Products	809	755	54
Minor Group	220	Manufacture of bidi	783	732	51
Major Group	23	Textile-Cotton	4,992	2,504	2,488
Minor Group	231	Cotton spinning (other than in mills)	188	67	121
	233	Cotton dyeing, bleaching	178	113	65
	235	Cotton weaving in handlooms	4,251	2,068	2,183
	239	Manufacturing of cotton, cordage, rope and twine	200	100	100
Major Group	24	Textile-Jute	1	1	..
	25	Textile-Wool	69	68	1
	26	Textile-Silk	6	6	..
	27	Textile-Miscellaneous	2,577	1,813	764
Minor Group	273	Making of textile garments including raincoats and headgear	2,534	1,790	744
Major Group	28	Manufacture of Wood and Wooden Products	2,403	2,043	360
Minor Group	280	Sawing and planing of wood	169	162	7
	281	Manufacture of wooden furniture and fixtures	104	104	..
	282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	600	599	1
	283	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	584	583	1
	288	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	750	416	334
Major Group	29	Paper and Paper Products	45	42	3
	30	Printing and Publishing	80	65	15
	31	Leather and Leather Products	2,404	1,759	645
Minor Group	310	Currying, tanning and finishing of hides and skins and preparation of finished leather	1,110	776	334
	311	Manufacture of shoes and other leather footwear	1,091	792	299
	313	Manufacture of leather products [except those covered by code Nos. 311, 312], such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	146	137	9

TABLE B-IV PART-C

B-IV PART-C—INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR

Branch of industry			Total Workers		
			Total		
Division, Major group & Minor group of I. S. I. C.			Persons	Males	Females
1			2	3	4
Major Group	32	Rubber, Petroleum and Coal Products	2	2	..
	33	Chemicals and Chemical Products	36	35	1
	34-35	Non-Metallic Mineral Products other than Petroleum and Coal	3,238	2,176	1,062
Minor Group	340	Manufacture of structural clay products such as bricks, tiles	1,117	719	398
	344	Manufacture of stonewares, other than images	132	86	46
	350	Manufacture of earthenware and earthen pottery	1,942	1,332	610
Major Group	36	Basic Metals and their Products except Machinery and Transport Equipment	1,246	1,165	81
Minor Group	360	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	122	120	2
	369	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	1,007	930	77
Major Group	37	Machinery (All kinds other than Transport) and Electrical Equipment	31	30	1
	38	Transport Equipment	127	127	..
	39	Miscellaneous Manufacturing Industries	1,310	1,278	32
Minor Group	393	Manufacture of jewellery, silverware and wares using gold and other precious metals	1,133	1,106	27
	399	Manufacture and repair work of goods not assignable to any other group	134	129	5
*Division 4 Construction			*5,696*	*4,484*	*1,212*
Major Group	40	Construction	5,696	4,484	1,212
Minor Group	400	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical & sanitary installations	1,073	931	142
	401	Construction and maintenance of roads, railways, bridges, tunnels	574	406	168
	403	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	4,045	3,143	902
*Division 5 Electricity, Gas, Water and Sanitary Services			*379*	*304*	*75*
Major Group	50	Electricity and Gas	132	132	..
Minor Group	500	Generation and transmission of electric energy	90	90	..
	501	Distribution of electric energy	41	41	..
Major Group	51	Water Supply and Sanitary Services	247	172	75
Minor Group	510	Collection, purification and distribution of water to domestic and industrial consumers	23	23	..
	511	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	224	149	75
*Division 6 Trade and Commerce			*15,912*	*14,318*	*1,594*
Major Group	60-63	Wholesale Trade	650	642	8
Minor Group	600	Wholesale trading in cereals and pulses	170	169	1
	601	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere)	165	159	6
Major Group	64-68	Retail Trade	14,821	13,240	1,581
Minor Group	640	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	8,526	7,268	1,258
	644	Retail trading in tobacco, bidi, cigarettes and other tobacco products	363	361	2
	645	Retail trading in fuel such as coke, coal, firewood and kerosene	256	131	125
	646	Retail trading in food stuffs like sweetmeat, condiments, cakes, biscuits,etc.	239	233	6
	647	Retail trading in animals	423	417	6
	650	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piecegoods of cotton, wool, silk and other textiles)	1,516	1,511	5
	651	Retail trading in toilet goods, perfumes and cosmetics	242	233	9
	664	Retail trading in other household equipment not covered above	174	165	9
	672	Retail trading in wood, bamboo cane, bark and thatches	168	166	2
	689	Retail trading in goods unspecified	2,203	2,075	128
Major Group	69	Trade and Commerce Miscellaneous	441	436	5
Minor Group	691	Money lending (indigenous)	235	233

APPENDIX

Minor Groups having less than 1% of workers of the respective division and less than 0.5% in case of Minor Groups of division 2&3 only have been shown in this Appendix. The following abbreviations have been used:—'HI' for Household Industry, 'NHI' for Non-household Industry, 'M' for Males and 'F' for Females.

APPENDIX

Families having less than 1% of the workers of the respective division, (less than 0.5% in case of Division 7-8 only) have been shown in this appendix. The following abbreviations have been used :—

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities
IV At Household Industry
V In Manufacturing other than Household Industry
VI In Construction
VII In Trade and Commerce
VIII In Transport, Storage and Communications
IX In Other Services

M=Males F=Females

APPENDIX

Major groups of household industry where persons having secondary work as cultivation or agricultural labour, are less than 5% of the persons having the major group as principal work, have been shown in this appendix. The following abbreviations have been used:—

I—As Cultivator
II—As Agricultural Labourer
M=Males
F=Females

22 Total I (M1). Urban I (M1); 23 Total I (M106,F55); II (M4,F18), Rural I (M106,F55), II (M4,F18); 39 Total I (M18), Rural I (M18).

(a)=With cultivation (b)=Without cultivation

APPENDIX

Major groups of the Household Industry which are less than 10 per cent of the respective divisions have not been shown in the main table which shows such divisions by an asterisk. Major groups thus dropped from the main table are given run on in this Appendix. The figure preceding the bracket represents the code number of the major group dropped from the table. Alphabets given in brackets are abbreviations meant for different ranges of period of working in the Household Industries 'with' or 'without' cultivation as explained below. The numerical figure given after alphabet denotes the number of households in that particular range indicated by that alphabet.

Abbreviation			Class Range of Period of Working	Abbreviation			Class Range of Period of Working
A	means	with cultivation	1 to 3 months	E	means	without cultivation	1 to 3 months
B	,,	,,	4 to 6 ,,	F	,,	,,	4 to 6 ,,
C	,,	,,	7 to 9 ,,	G	,,	,,	7 to 9 ,,
D	,,	,,	10 months to 1 year	H	,,	,,	10 motnhs to 1 year
X	,,	,,	Unspecified months	Y	,,	,,	Unspecified months

For example:-District Banaskantha—Rural—20 (B-6, C-1, E-1, X-1, Y-4)

Figure 20 stands for major group 20 relating to ' foodstuffs ', B-6 means that there are 6 households working in the class range of '4 to 6 months' in the Household Industry with cultivation. C-1 means that there is 1 household working in the class range of '7 to 9 months' in the Household Industry with cultivation and E-1 means that there is 1 household working in the class range of '1 to 3 months' in the Household Industry without cultivation; X-1 means that there is one household working for "unspecified months" in the Household Industry with cultivation and Y-4 means that there are 4 households working for "unspecified months" in the Household Industry without cultivation in the 'foodstuffs' industry in the rural areas of Banaskantha district.

C-SOCIAL AND CULTURAL TABLES

This series contains 8 table of which Table C-I has been prepared from Household Schedules, on the basis of 20 per cent sample. It gives information about composition of sample households according to marital status. All the other tables in this series are based on full count and give age, sex and education, separately for rural and urban areas, single year age returns, mother tongue in alphabetical order, religion and classification by literacy and industrial category of workers and non-workers among Scheduled Castes and Scheduled Tribes. All the tables of this series except Table C-VI have been reproduced in the District Census Handbook.

TABLE C-I—COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

The table is prepared from Part II Census Population Record of the Household Schedules for total, rural and urban areas of the district. A household means the entire groups of persons who commonly live together in the same census house and usually take their meals from a common mess. It thus includes outsiders residing with the family during enumeration. This table, therefore, gives the composition of a household by family and non-family member. Besides, the heads of the households and their spouses, other family members like married sons and other relations are given separately by sex and marital status.

TABLE C-II—AGE AND MARITAL STATUS

This table is presented for the district with rural/urban break-up while those for taluka/mahal for rural areas only. It corresponds to Table C-III of 1951 which was prepared on a 10% sample of the slips taken out at the time of initial stage of sorting, while this table is prepared on full count according to the quinquennial age-groups recommended by the United Nations Organisation. In Table C-III of 1951 there were 3 categories of marital status, viz., unmarried, married and Divorced/Separated, whereas in this table are given five categories of marital status, viz., (1) never married, (2) married, (3) widowed, (4) divorced/separated and (5) unspecified. In 1951, the information regarding widowed or divorced was given jointly, whereas these two types of marital status are compiled separately this time.

Columns 14 and 15 relating to unspecified status have been deleted from the table, Such persons si 1 in numbers – male and 1 female, are returned from rural areas.

TABLE C-III—AGE, SEX AND EDUCATION

It corresponds to Table C-IV of 1951 which was prepared on 10% sample. This table is prepared on full count this time and is presented in two parts-A and B for the district. In Part-A broad educational levels upto matriculation and above are given for all areas. In Part-B educational levels are given in details with technical and non-technical diplomas, university degrees and technical degrees in urban areas only. In 1951, only, sum total of all literate and illiterate persons was given, whereas in 1961, educational levels for literate persons are given in details.

TABLE C-IV—SINGLE YEAR AGE RETURNS

The table is presented for the district with total/rural/urban break-up.

It corresponds to Table C-V of 1951 Census which was prepared on 10% sample. This table has been prepared on full count in 1961. The age in years completed on 1st March, 1961 has been given but the infants who did not complete one year on 1-3-1961 have been shown under the age group "O".

TABLE C-V—MOTHER TONGUE

This table corresponds to Table D-I-(i) of 1951 in which languages and dialects as returned were shown in the descending order of number of speakers. This time all the languages as actually returned are arranged in the alphabetical order with population, persons, males, females, for total, rural and urban areas for the district and for rural areas for taluka/mahal.

'Mother tongue' is the language spoken in childhood by the person's mother to the persons or the language spoken in the household.

TABLE C-VII—RELIGION

It is prepared separately for total, rural and urban areas of the district and for rural areas of talukas and mahals. This table corresponds to Table D-II of 1951, in which the figures of religions other than the eight main religions were grouped in the residuary category 'other religions', whereas in this table data are given for eight main religions only, viz., Budhist, Christian, Hindu, Jain, Jew, Muslim, Sikh and Zoroastrian and persons returned as professing other religions sects and beliefs which could not be classified under any of the religions have been grouped under 'Indefinite beliefs's. Details of religions grouped under 'Indefinite beliefs', are also given in the foot-note below the table'.

TABLE C-VIII-SCHEDULED CASTES AND SCHEDULED TRIBES

PART-A—CLASSIFICATION BY LITERACY AND INDUSTRIAL CATEGORY OF WORKERS AND NON-WORKERS AMONG SCHEDULED CASTES

PART-B—CLASSIFICATION BY LITERACY AND INDUSTRIAL CATEGORY OF WORKERS AND NON-WORKERS AMONG SCHEDULED TRIBES

This table is presented for the district with total/rural/urban break-up and for taluka/mahal for rural areas only.

In this table total population of Scheduled Castes/Scheduled Tribes and their distribution by nine industrial categories of workers and also non-workers adopted in the Primary Census Abstract are shown by literate and illiterate.

Part A relates to Scheduled Castes and Part B to Scheduled Tribes.

E—HOUSING TABLES

The present Housing Census is the first of its kind in the history of the Indian Census organized on a uniform basis throughout the country alongwith the population Census of 1961. In the past censuses, house-listing was purely an administrative arrangement. Only residential houses were numbered and listed with the name of the head of the household. However, during 1961 Census a comprehensive house-list for collecting detailed information regarding each census house and industrial establishment formed part of the statutory census schedules. The house-list form brought into use during the current Census has recorded data on housing such as type of houses, tenure status, material of wall and roof, number of rooms in a census household and of persons residing therein as well as essential data relating to establishments, workshops and factories, such as name of the establishment or proprietor, name of products, number of persons working and the kind of fuel or power, if machinery is used.

The following five housing tables have been compiled from the house-lists :—

E–I—Census Houses and the uses to which they are put

E–II—Tenure Status of Sample Census households living in Census houses used wholly or partly as dwelling

E–III—Census houses used as factories and workshops classified by industry, power and no power used and size of employment

E–IV—Distribution of Sample households living in Census houses used wholly or partly as dwelling by predominant material of wall and predominant material of roof

E–V—Sample households classified by number of members and by number of rooms occupied

Out of the five tables stated above, Tables E–I and E–III have been prepared on full count and Tables E–II, IV and V on the basis of 20 per cent sampled households. For the purposes of drawing the sample, the house-lists were arranged separately in the order of location code numbers in case of (i) rural areas of a taluka/mahal and (ii) urban areas other than towns with population of 50,000 and over for a district and (iii) for every town with a population of 50,000 and over. The samples were marked continuously for all the house-lists thus arranged and the households left over at the end of the house-list after marking the last sample were carried over to the next house-list for sample selection.

Tables E–I, E–II, E–IV and E–V are given in the District Census Handbook for the district, taluka and towns with a population of 50,000 and over. But the data regarding number of establishments contained in Table E–III are separately compiled down to village and given in the Villagewise List of Industrial Establishments.

The explanatory note on each of the tables is given below :—

TABLE E–I—CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

Table E–I prepared on full count gives figures of census houses separately for total, rural and urban areas of the district, talukas, cities and towns with population of 50,000 and over, classified into different categories according to the uses to which they are put. Those found vacant at the time of house-listing have also been shown separately as such. The following are the various types of houses into which occupied houses have been classified :—

Dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, hotels, hostels, sarais, dharamshalas, tourist homes and inspection houses, shops excluding eating houses, business houses and offices, factories registered

under the Factories Act and worksheds and workshops not so registered, schools and other educational institutions including training classes, coaching and shop classes, restaurants, sweetmeat shops and eating places, places of entertainment and community gathering (Panchayat Ghar), public health and medical institutions, hospitals, health centres, doctors' clinics, dispensaries, etc.

Others

Occupied census houses which do not fall in any of the above categories have been classed as 'Others'.

With a view to understand the significance of statistics incorporated in E Series of Tables, the concepts and definitions of the terms occurring in the table are given below :—

Census house

"A Census house is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

Census household

"A household is a group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so."

Shop

"A shop is a place where articles are sold for cash or for credit."

Workshop

"A workshop is a place where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold, and is not a factory registered under the Factories Act."

Following are some of the instances :—

Paper-making, shoe-making, tailoring, cycle-repairing, motor-servicing, halwai's shop, pottery-making, goldsmith, blacksmith, etc.

Factory

"A factory is a large workshop which has been registered under the Indian Factories Act."

Business houses

Business houses are those premises where transactions in money or other articles are taking place. Detailed explanation of all these will be found in the Introductory Chapter of the Report on Housing and Establishments.

TABLE E–II–TENURE STATUS OF SAMPLE CENSUS HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING

This table has been prepared on the basis of 20 per cent sample. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, and dwellings with other uses have been taken into account for the purpose of marking the samples. Shop-*cum*-dwellings and workshop-*cum*-dwellings are census houses which are partly used for residential or dwelling purposes and partly used as a shop or workshop. The total number of households given in column 4 of this table gives the total of such samples classified into the aforementioned four categories of dwellings, which have been further classified according to their tenure status, whether owned or rented, for the district, talukas and towns with population of 50,000 or more as also for total/rural/urban.

TABLE E–IV–DISTRIBUTION OF SAMPLE HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING BY PREDOMINANT MATERIAL OF WALL AND PREDOMINANT MATERIAL OF ROOF

This table has been prepared on 20 per cent sample basis. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the sample. The total number of houses given in column 3 of this table gives the totals of all such sampled households. The material out of which most of the walls are made or where a house consists of separate structures, each of different materials, the material out of which the walls of the main bedrooms are made has been entered. The wall material has been classified into the following nine categories :—

(1) Grass, leaves, reeds or bamboo
(2) Timber
(3) Mud
(4) Unburnt bricks
(5) Burnt bricks
(6) C. I. Sheets or other metal sheets
(7) Stone
(8) Cement concrete
(9) All other material

The material out of which most of the outer roof exposed to the weather and not the ceiling is made, i.e., tiles, thatch, corrugated iron, zinc or asbestos cement sheets or concrete, etc., or in the case of multi-storeyed building, the material out of which the intermediate floor or floors has been made, have been entered and classified into the following seven categories :—

(1) Grass, leaves, reeds, thatch, wood or bamboo
(2) Tiles, slate, shingle
(3) Corrugated iron, zinc or other metal sheets
(4) Asbestos cement sheets
(5) Brick and lime
(6) Concrete and stone slabs
(7) All other material

This table has been prepared for the district, talukas and cities and towns with population of 50,000 or more, as also for total/rural/urban.

TABLE E–V–SAMPLE HOUSEHOLDS CLASSIFIED BY NUMBER OF MEMBERS AND BY NUMBER OF ROOMS OCCUPIED

This table has been prepared on 20 per cent sample basis. Census Households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the samples. The figures given in Column 3 of this table are the totals of all such sampled households. The sex break-up of the total number of members occupying such sampled households as also the total number of rooms in these households are shown separately. All the sampled households have been further classified into the following six categories :—

Households with

(i) no regular room
(ii) one room
(iii) two rooms
(iv) three rooms
(v) four rooms
(vi) five rooms or more

This classification of households into the above categories gives not only the number of households in each category, but also the number of occupants by sex. The units for which this table has been compiled are district, talukas and cities and towns with population of 50,000 or more, as also total/rural/urban.

TABLE E-I

E-I—CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

SCT–SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

No special tables were prepared for Scheduled Castes and Scheduled Tribes in 1951. The only information that Table D-III of 1951 furnished was the aggregate strength of Scheduled Castes and Tribes for the district and certain arbitrary groups of talukas. In view, however, of the special safeguards provided for these classes under the Constitution, it was felt that a more detailed tabulation of the census data will furnish the basis necessary for the evaluation of the results of the various schemes implemented by the State under the Five Year Plans as also for the formulation of new ones. Special tables for Scheduled Castes and Scheduled Tribes have, therefore, been devised and presented in a separate series called SCT/SC/ST series.

The table reproduced from this series is SCT-I-Parts A & B, giving industrial classification of persons at work and non-workers by sex for Scheduled Castes and Scheduled Tribes. Total figures of Scheduled Castes and Scheduled Tribes have also been given for each village in the Village Directory.

Total population of Scheduled Castes and Scheduled Tribes for taluka/mahal with total/rural/urban break-up is given in Statements A and B.

SCT-I PART-A—INDUSTIRAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES

Sl. No.	Name of Scheduled Caste	Total			Total Workers		Workers I: As Cultivator		Workers II: As Agricultural labourer		Workers III: In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting, Plantations, Orchards and Allied activities		Workers IV: At Household Industry		Workers V: In Manufacturing other than household Industry

VILLAGEWISE LIST OF INDUSTRIAL ESTABLISHMENTS

This table gives important information about the total number of industrial establishments arranged in ascending order of minor groups of industries. It is compiled from the house-lists and presented in run on manner. Under the name of the district are arranged minor groups of industries showing total number of industrial establishments within brackets next to each minor group separately for total, rural and urban. The figures for taluka/mahal are likewise arranged separately for total/rural/urban. Then follows a list of villages in the order of the location code number given in the Village Directory, showing against each village minor group or groups of industries found in the village with the number of establishments shown within brackets against each minor group. Figures for towns are also shown separately in the same manner.

Industrial establishments have been classified according to the minor groups of industries given in the Standard Industrial Classification adopted by the Government of India reproduced in the Annexure. This will enable the reader to identify the industry to which a particular minor group relates.

ANNEXURE

Standard Industrial Classification

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 0–Agriculture, livestock, forestry, fishing and hunting	
04	*Livestock and Hunting*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	Division 2&3–Manufacturing	
20	*Foodstuffs*	
	Production of rice, atta, flour, etc., by milling dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors, not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	*Tobacco Products*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	*Textile–Cotton*	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile–Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	*Textile–Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile–Silk*	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266

Standard Industrial Classification-*contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3-Manufacturing-contd.	
27	*Textile-Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products, not covered above	279
28	*Manufacture of Wood and Wooden Products*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products, not covered above	289
29	*Paper and Paper Products*	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3 Manufacturing-contd.	
30	*Printing and Publishing*	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber, Petroleum and Coal Products*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products, not covered elsewhere	326
33	*Chemicals and Chemical Products*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts, not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338

ANNEXURE-*concld.*

33	*Chemicals and Chemical Products-contd.*	
	Manufacture of other chemicals and chemical products, not covered above (including inedible oils and fats)	339
34	*Non-metallic Mineral Products other than Petroleum and Coal*	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products, not elsewhere specified	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	369

Major Group (Code)	Description	Minor Group (Code)

37	*Machinery (All kinds other than Transport) and Electrical Equipment*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances, not specified above	379
38	*Transport Equipment*	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal-drawn and hand-drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399

LIST OF RURAL CRAFTS AND NUMBER OF PERSONS EMPLOYED IN PRODUCTION

The handicraft table is a new feature introduced in the District Census Handbook, in 1961 Census.

A detailed handicraft survey has been undertaken as a part of the censal programme. In States like Gujarat where the survey was conducted for selected crafts in selected centres, and not in each and every village, this handicraft table was to be compiled from the house-lists or the village notes. Accordingly, the information for this table was extracted from the house-lists adopting a 4 digit code for household industries circulated by Registrar General, India. The definition of household industry presented a problem, which was solved by including, on an *adhoc* basis, household industries having less than 5 workers for this purpose.

The table shows the number of villages/towns in which particular crafts are practised and number of persons engaged therein. The data are compiled separately for the rural and urban areas of each taluka/mahal, for each city or town in the district and consolidated for rural and urban areas of the district. Where there is only one city/town in a taluka/mahal, the data for the urban areas are given for the city/town as they are same for taluka/mahal.

URBAN

LIST OF RURAL CRAFTS AND NUMBER OF PERSONS EMPLOYED IN PRODUCTION

Major/Minor Group Industrial Code No.	Name of Craft	No. of Towns	No. of persons employed in production
1	2	3	4
	BANASKANTHA DISTRICT*

OFFICIAL STATISTICS

LIST OF TABLES ON OFFICIAL STATISTICS

		Pages
1	RAINFALL AND TEMPERATURE:	
	1.1 Maximum and Minimum Temperature 1951-1960 at Headquarters Station, Palanpur	152-153
	1.2 Monthly Rainfall 1952–1956 and 1958–1960 at Headquarters Station, Palanpur	156
2	VITAL STATISTICS:	
	2.1 Birth and Death Rate based on Mid-year Population Estimates	154
	2.2 Deaths from selected Causes, 1951, 1956 and 1960	154-155
3	AGRICULTURE:	
	3.1 Land Utilization, 1956-57 and 1960-61	155
	3.2 Area and Outturn of Principal Crops, 1950-51, 1960-61	156–157
	3.3 Irrigation Potential and Utilization	158
	3.4 Area irrigated by Sources, 1950-51, 1955-56 and 1960-61	158
	3.5 Area irrigated by Crops, 1950-51, 1956-57 and 1960-61	158
	3.6 Progress under Agricultural Extension in Various Development Blocks upto 31-3-1961	159
4	LIVESTOCK:	
	4.1 Livestock and Agricultural Implements 1951, 1956 and 1961	160
5	CO-OPERATION:	
	5.1 Number, Membership and Financial Position of Co-operative Banks and Societies, 1960-61	161
6	FISHERIES:	
	6.1 Fishing Centres landing places and number of fishing boats according to size as on, 31-3-1961	162
7	REGISTERED FACTORIES:	
	7.1 Number and Type of Registered Factories showing Average Employment, 1961	162
8	ELECTRICITY:	
	8.1 Installed Capacity of Electricity, 1950-51, 1955-56 and 1960-61	163
	8.2 Consumption of Electricity according to purpose, 1950-51, 1955-56 and 1960-61	163
9	MEDICAL AND PUBLIC HEALTH:	
	9.1 Number of Hospitals, Dispensaries and Patients treated in 1951, 1956 and 1961	164
	9.2 List of Hospitals and Dispensaries, 1961	164
	9.3 Public Health Activities, 1960-61	165
10	EDUCATION:	
	10.1 Schools, Scholars and Teachers in Primary Schools of Rural Areas of Banaskantha District, 1960-61	165
	10.2 Literacy and Education in Rural Areas of Banaskantha District, 1960-61	166
	10.3 Number and Type of Educational Institutions, Number of Pupils and Teachers, 1950-51, 1955-56 and 1960-61	166
	10.4 Directory of High Schools and Colleges as on 31-3-1961	167
11	ADMINISTRATION:	
	(a) Police and Crimes:	
	11.1 Strength of Police, 1960-61	167
	11.2 Proportion of Area, Population and Cognizable Offences per Police, 1960-61	167
	11.3 Criminal Justice, Offences reported, Persons tried, convicted or acquitted for Selected Offences, 1960-61	168
	(b) Jails:	
	11.4 Jails, 1951, 1956 and 1961	168
	(c) Registration:	
	11.5 Instruments registered and Value of Property transferred, 1951, 1956 and 1961	169
12	PLACES OF PUBLIC ENTERTAINMENT, PRESSES AND JOURNALS:	
	12.1 Newspapers published in Different Languages, 1950-51, 1955-56 and 1960-61	170
	12.2 Printing Presses, 1951, 1956 and 1961	170
	12.3 Cinema Theatres, 1960-61	170
13	TRANSPORT AND COMMUNICATIONS:	
	13.1 Railway Mileages and Names of Railway Stations, 1960-61	171
	13.2 Road Mileages by Type of Surface and Category of Road, 1950-51, 1955-56 and 1960-61	171
14	LOCAL BODIES:	
	14.1 Income and Expenditure of Municipalities, 1960-61	172
	14.2 Income and Expenditure of District Local Board, 1960-61	173
	14.3 Income and Expenditure of Panchayats, 1950-51, 1955-56 and 1960-61	173
15	COMMUNITY DEVELOPMENT:	
	15.1 Progress and Achievements of Community Development/National Extension Scheme Block upto year ending 31-3-1961	174
16	PRICES:	
	16.1 Average Retail Prices of Staple Foodstuffs, 1961	175
17	JOINT STOCK COMPANIES, BANKS, INSURANCE AND SMALL SAVINGS:	
	(a) Joint Stock Companies:	
	17.1 Joint Stock Companies, 1960-61	175
	(b) Banking:	
	17.2 Scheduled and Non-scheduled Banks, 1950, 1955 and 1960	175
	17.3 Number and Type of Co-operative Banks, 1950-51, 1955-56 and 1960-61	176
	(c) Insurance:	
	17.4 Life Insurance Policies issued and sum insured, 1957 to 1960	176

	18.2 Fairs and Festivals	177-178

OFFICIAL STATISTICS

Departmental statistics collected from various sources, viz., Administrative Departments, State and Central, Reserve Bank of India, Life Insurance Corporation, Gujarat Electricity Board, etc., have been included in the District Census Handbook for the first time, and distributed under 18 different sections listed below :—

1 Rainfall & Temperature
2 Vital Statistics
3 Agriculture
4 Livestock
5 Co-operation
6 Fisheries
7 Factories
8 Electricity
9 Medical & Public Health
10 Education
11 Administration
12 Public Entertainment and Presses and Journals
13 Transport and Communications
14 Local Bodies
15 Community Development
16 Prices
17 Joint Stock Companies, Insurance, Banks and Co-operative Societies
18 Important Events, Fairs and Festivals and Ancient Monuments

Uniform table numbers have been adopted in all the Handbooks. Wherever a particular table is not applicable to or could not be compiled for want of requisite information for any district, there will be a break in the sequence, owing to the omission of such a table from the Handbook.

To facilitate further reference, the source of the table as well as explanatory notes as to the units to which they refer and other particulars have been given at the foot of the table.

Abbreviations used are : N.A.=Not available; ..=Nil

TABLE 1.1

MAXIMUM AND MINIMUM TEMPERATURE, 1951-1960 AT HEADQUARTERS STATION, PALANPUR

[In Centigrade]

Month	Mean Maximum	Highest	Mean Minimum	Lowest
1	2	3	4	5
1951

Note:

(a) U=Urban; R=Rural

(b) Number of births per 1,000 of the total mid-year estimated population is calculated on the population of the district as then constituted.

(c) Number of deaths per 1,000 of the same sex is calculated on the mid-year estimated population of the district as then constituted.

(d) The information regarding number of births and deaths for the years 1951-1960 is furnished for the district as then constituted and the population for the years 1951 to 1960 has been estimated on the basis of average during the decade 1951-1960.

(e) Birth and death rates for the decade 1951-1960 are average birth and death rates.

Note :

1 Area figures are given in terms of '00 acres and outturn in terms of '00 tons.

2 Outturn of sugarcane is recorded in terms of '00 tons of gur.

3 Outturn of cotton is recorded in terms of bales of 392 lbs. each.

4 Information for the years 1950-51 to 1960-61 relates to the district as then constituted.

94	Vahuva	Ravechi Mata fair Dharo Atham	Bhadrapad Sud 8 (September)	1,000	Harij, 50 ms.

Note :

1 In case of Hindu months column 4 shows the corresponding months according to Gregorian calendar also. Hindu months are mentioned according to Vikram Era.

2 In the Hindu calendar followed in Gujarat, months end with Amavasya, i.e., New moon and not Purnima, i.e., Full moon day.

PART III

VILLAGE DIRECTORY

VILLAGE DIRECTORY

The Village Directory of 1961 Census is the same as the Primary Census Abstract given in the District Census Handbook of 1951 with the following additions and alterations :—

1. Information regarding Scheduled Castes and Scheduled Tribes which was given in 1951 by tracts of two to three talukas in a district has been given with sex break-up for each village.

2. The 8 livelihood classes of 1951 have been replaced by workers classified into the following nine industrial categories and also non-workers :—

I	Cultivator	V	Manufacturing other than Household Industry
II	Agricultural Labourer	VI	Construction
III	Mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities	VII	Trade and Commerce
		VIII	Transport, Storage and Communications
		IX	Other Services and
IV	Household Industry	X	Non-workers

3. Information on selected essential topics or amenities available in a village is also included.

Thus the Village Directory furnishes information on area in acres & gunthas, occupied houses, households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated and primary economic activity classified into above nine industrial categories and non-workers. This information is furnished for each village/ward of a town and also for each enumerator's block in a town, consisting of about 120 houses.

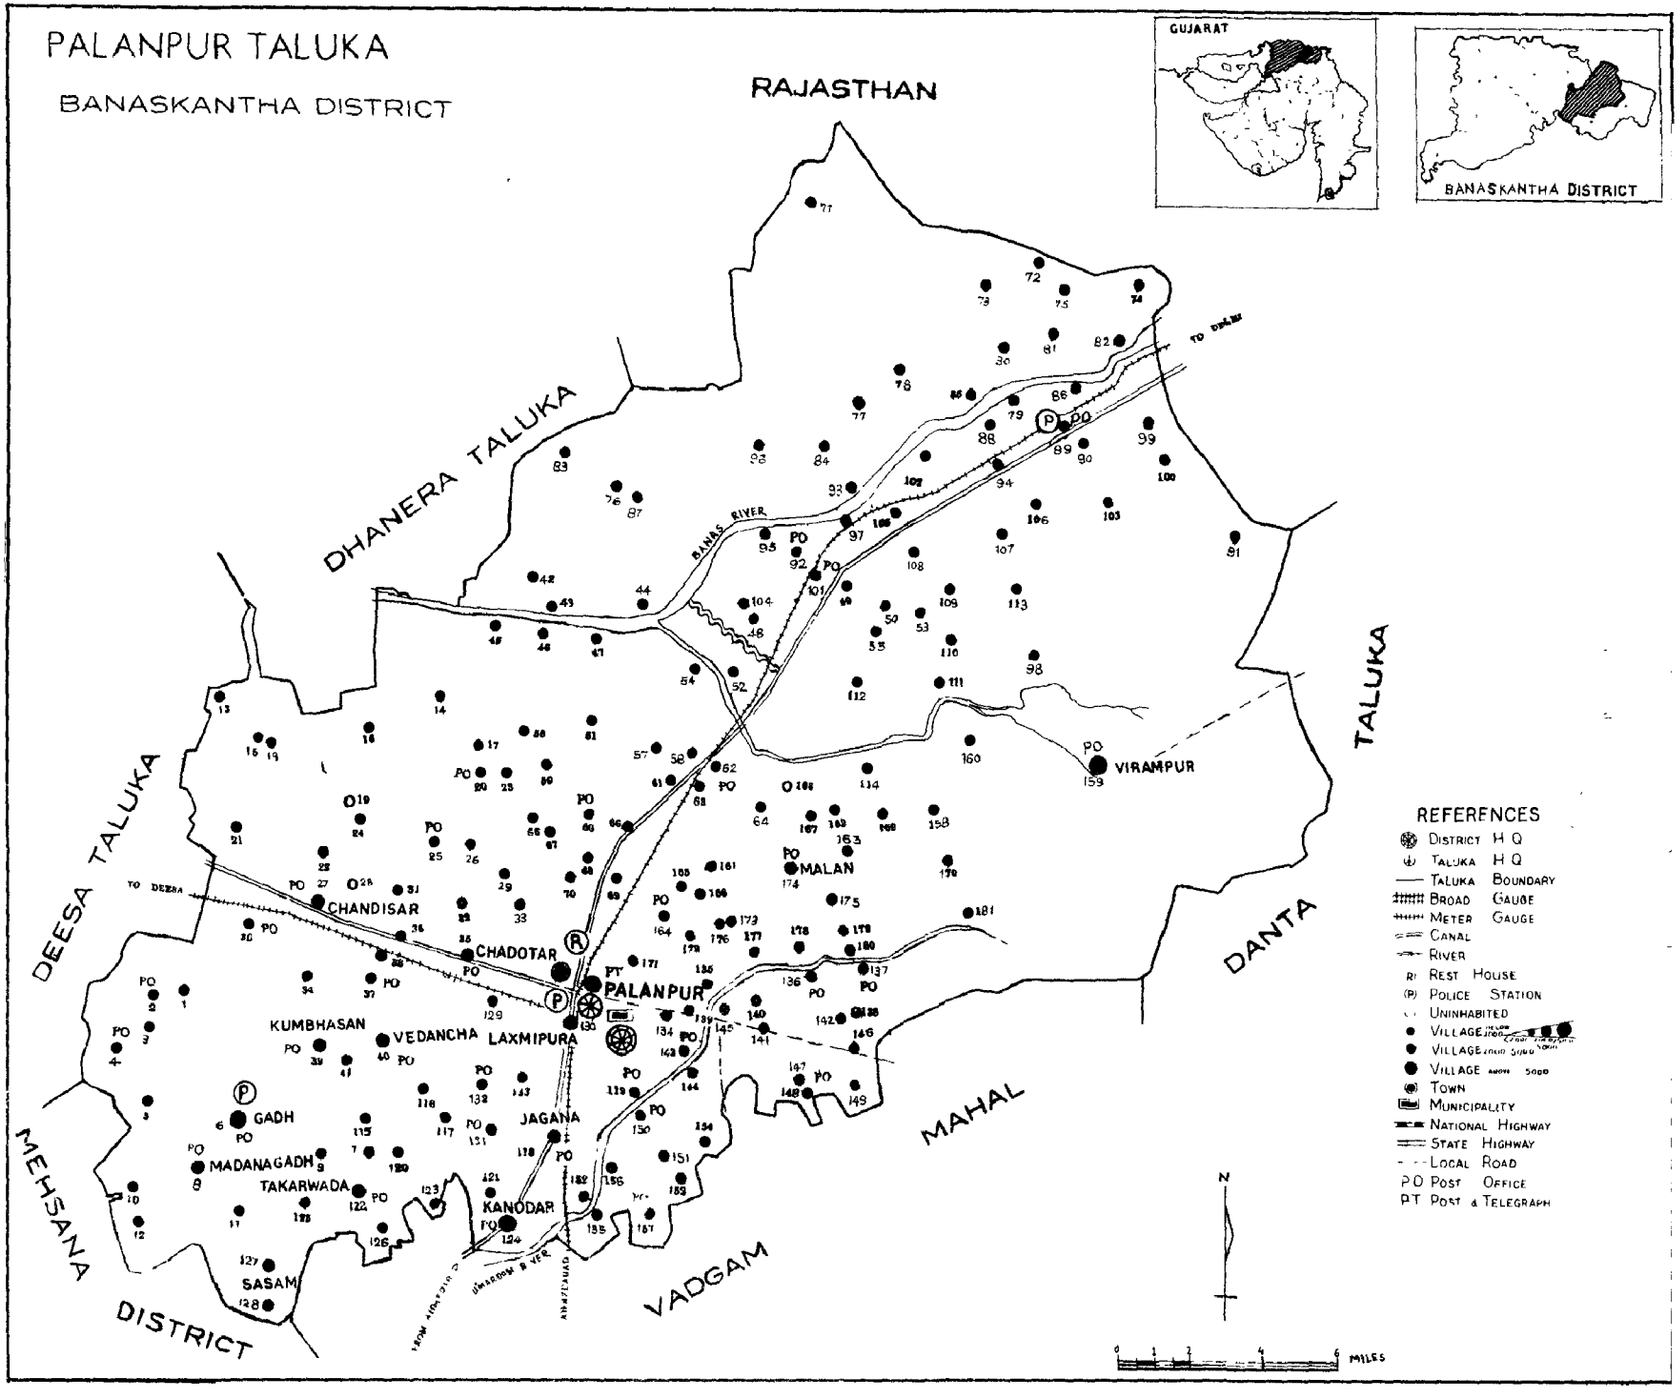

Like the Primary Census Abstract of 1951, the Village Directory gives area figures in Column 3 in acres as furnished by the Survey Department. While the figures of the number of houses and households given in Columns 4 and 5 have been compiled from the Household Schedules filled up for each household, information in Columns 6 to 36 has been compiled from the individual enumeration slips filled up during the course of census count. Information in Column 2 regarding Educational Institutions, Medical and Public Health facilities, Drinking Water facilities, Post & Telegraph Offices and Telephone facilities, and Rural Electricity has been collected from (*a*) the village notes specially devised for the purpose and filled in by Village Level Workers, Talaties and Panchayat Secretaries, and (*b*) the information supplied by the heads of the Departments concerned. The following abbreviations used in Column 2 signify the items shown against each :—

P	for	Primary School	S	for	Safe or Protected Water Supply including pipes, tube wells, etc.
M	for	Middle School			
H	for	High School	W	for	Well
C	for	Higher Institutions including Colleges	Riv	for	River
T	for	Technical Institutions	Tk	for	Tank
D	for	Dispensaries	Po	for	Post Office
Rhc	for	Rural Health Centre	To	for	Telegraph Office
Hos	for	Hospital	Tph	for	Telephone
Mp	for	Medical Practitioner	Ei	for	Electricity in Industrial use
Mcw	for	Maternity and Child Welfare Centre	Ea	for	Electricity in Agricultural use
			Ed	for	Electricity in Domestic use

The essential topics listed above have been presented run on against each village along with their number, where the amenities that exist are more than one. In other columns A=Acres, G=Gunthas, P=Persons, M=Males and F=Females.

In addition to a map for the district, taluka/mahal maps showing certain important information have also been prepared and placed at the commencement of the Village Directory for every taluka/mahal. In the taluka/mahal maps villages have been shown by their location code numbers assigned to them at the time of census operations and indicated against each village in the Alphabetical List of Villages given in the Handbook. Villages having population of 2,000 and above have been indicated by name. In the district maps Villages having 5,000 and more persons have been shown by names. Key maps given in the district and taluka maps show the positions of the district and taluka in hatches and black respectively.
