PREFACE

Before 1951, only the figures of population of revenue villages were given in what were then called 'Village Handbooks'. But the decision to bring out the District Census Handbooks giving extracts from all the important census tables for every district of the State was taken for the first time in 1951. In addition to the census tables, the minimum information given in the Primary Census Abstract related to the area of the village, number of houses and households, total population, houseless and institutional population, literates, and agricultural and non-agricultural classes distributed under 8 main livelihood classes. Census statistics given in the Primary Census Abstract were further supplemented by the addition of useful administrative information on such items as post offices, railway stations, distance of bazzar from village, primary schools, village panchayats, co-operative society, etc. This was a unique achievement of the Indian Census giving as it did the basic demographic and economic information for the smallest administrative unit, namely, the village, and in some States, even for each hamlet and also for wards in towns and cities. The 1951 series of District Census Handbooks, however, varied in content and size from State to State depending upon the resources offered by the State Government. The Registrar General, therefore, desired that the Handbooks brought out during the Census of 1961 should contain certain minimum statistical data, maps and other useful information which should be uniformly adopted throughout the country. The matter was discussed at the Conferences and seminars of the Superintendents of Census Operations before the contents of the various sections of the District Census Handbook were decided upon.

The Government of Gujarat at first proposed to include a very limited number of census tables in the District Census Handbook as against a very extensive and comprehensive coverage accepted for common adoption by the States. But on reviewing the matter on receipt of the recommendations of the third conference of Superintendents of Census Operations, the Government thought advisable to incorporate as many of the census tables as possible to enhance its usefulness. The result has been that the District Census Handbook of 1961 differs widely in the matter of content and coverage from that published after the Census of 1951 and contains a number of new features, examined below.

The District Census Handbook has been sub-divided into three parts, viz., :-

PART I—THE DISTRICT

(i) Introductory Essay

(ii) Brief Gazetteer of Place Names

PART II—STATISTICS

(i) Census Tables

(ii) Villagewise List of Industrial Establishments

(iii) Handicrafts Tables

(iv) Departmental or Official Statistics

PART III—VILLAGE DIRECTORY

(i) Explanatory Note

(ii) Village Directory

(iii) Taluka Maps

Part I is entirely new. While all the items under Part II except that relating to the main Census Tables are added for the first time, the Village Directory Section has been enlarged by the inclusion of certain useful information and maps. Various items included in each of these three parts are listed below.

PART I—THE DISTRICT

(i) *Introductory Essay*

This is a new feature added for the first time. The district has been introduced by giving at the outset certain essential information about its geographical location, physical features, historical background, administrative divisions, territorial changes, topography, soil, climate,

temperature, rainfall, etc. Growth of population, its distribution between rural and urban areas, density, literacy, sex ratio, marital status, economic activities, etc., have been discussed with reference to census tables. Agriculture, livestock, social services, co-operation, transport and communications, facilities of education, medical relief, housing, labour, Community Development Programme, progress of plan schemes, etc., have also been reviewed in the light of available official statistics. In fine, all the essential details relating to the demographic, economic, social and cultural aspects as revealed by the census and departmental statistics, have been examined to give a succinct account of the district as it stood in 1961.

(ii) *Brief Gazetteer of Place Names*

The gazetteer gives in brief information about all the places of historical or religious importance and interest in the district. While the historical background and other relevant details have been taken from the old District Gazetteers, information in respect of major irrigation projects, townships, crafts, fairs and festivals, etc., have been separately collected, and brought up-to-date in consultation with the Collectors.

PART II—STATISTICS

Part II contains (a) all the important Census Tables including those compiled from House-lists and (b) official statistics, furnished by the various State departments.

Census Statistics

The statement that follows compares the number of tables compiled in different census series with those selected by Government for reproduction in the District Census Handbook.

Details of Tables compiled in 1961 Census and reproduced in District Census Handbook

Series	Description	Total No. of tables compiled in 1961	Tables reproduced in District Census Handbook	
			Number	Particulars
1	2	3	4	5
A	General Population Tables	4	3	A-I and its Appendices I, II & III with sub-Appendices 1 & 2, A-III and A-IV with Appendix I and Special Appendix
B	Economic Tables . . .	17	12	
	(i) General Economic Tables .	9	7	B-I, B-III-Parts A & B, B-IV-Parts A, B & C, B-V, B-VII-Parts A & B, B-VIII-Parts A & B and B-IX
	(ii) Household Economic Tables .	8	5	B-X, B-XI, B-XII, B-XVI and B-XVII
C	Social and Cultural Tables . .	8	7	C-I, C-II, C-III-Parts A & B, C-IV, C-V, C-VII, C-VIII-Parts A & B
D	Migration Tables . . .	6	..	
E	Tables on Housing and Establishments	5	4	E-I, E-II, E-IV and E-V
SCT/SC/ST	Special Tables on Scheduled Castes and Scheduled Tribes .	8	1	SCT-I-Parts A & B

Note :-

Two more tables have been specially compiled from House-lists, viz., (i) Villagewise List of Industrial Establishments and (ii) Handicrafts Tables.

Official Statistics

The picture the census statistics present will be incomplete without the official or departmental statistics reviewing the progress made by the various administrative departments during the past decennium. An attempt has, therefore, been made to compile important official statistics for publication in the District Census Handbook. These statistics which relate to the past ten years must be adjusted to the existing set-up of administration, if they are to be really useful and comparable. This, however, was not possible in spite of efforts to that effect. For, extensive changes in the territorial jurisdiction of districts and talukas have taken place during the last ten years, first as a result of integration in 1956 and then due to bifurcation on May 1, 1960 when Gujarat came into being as a separate political unit for the first time. Non-availability of the required data in case of most of the Princely States and Estates was another handicap. The task of compilation of official statistics was thus beset with innumerable difficulties. The proformae for the various statements numbering 49 as approved by Government and the Registrar General were circulated to all the concerned Heads of Departments as early as July 1961. In view of the importance of these statistics, the Government by circular letter No. CNS-1461-A2 dated the 27th July 1961 addressed to all the Heads of Departments had also directed that official statistics called for by the Superintendent of Census Operations should be furnished within two months through the Director, Bureau of Economics and Statistics, after thorough scrutiny by some responsible officer of the department along with a certificate to the effect that the data furnished are up-to-date, complete and authentic in all particulars. The delay, however, caused in furnishing correct and complete information by the departments delayed final compilation and resulted in protracted correspondence to rectify the discrepancies and incompleteness noticed during the course of verification at the Bureau. Non-availability of the required information for the various administrative units as at present constituted was another obstacle. The progress had therefore, to be reviewed from time to time in a series of meetings with the Director, Bureau of Economics and Statistics and representatives of the departments concerned. The offices from which information was not received had to be frequently reminded by the Director, the Census Department and at times even by the Chief Secretary. Some of the tables proposed to be included could not be inserted or had to be revised either for want of receipt of timely information or owing to the non-availability or incompleteness of the data furnished. Where data for individual years are not available, they have been collected for the years 1950-51, 1955-56, 1960-61 which mark the commencement of the First, Second and Third Five Year Plans. Where statistics for these periods are not available, they are given only for the year 1960-61; and where the figures compiled are not available for the units as at present constituted, the clarification as to the unit to which they refer has been made in the footnote to the statements which also disclose the source of compilation.

PART III-VILLAGE DIRECTORY

The Village Directory or the Primary Census Abstract includes information regarding population, area, occupied houses, households, workers classified into nine industrial categories of workers and non-workers, Scheduled Castes and Scheduled Tribes, literates and educated, etc., for each village as well as for every ward and block of about 120 houses in each town. In addition, it gives information on certain essential amenities existing in the village such as educational facilities, public health and medical facilities, supply of drinking water, electricity and its uses, etc., by means of abbreviations placed against the name of each village. This additional information has been compiled from the special 'village notes' devised for the purpose and collected through the Block Development Officers. They relate to the position as it existed about March 1961.

The figures of population of Scheduled Castes and Scheduled Tribes were given in 1951 for certain arbitrary tracts formed by the grouping of talukas. The result was that the administration was seriously handicapped in the absence of relevant particulars for the various administrative units of a district which were required oft and

on for planning and other purposes. This lacuna has been removed on the present occasion by giving figures of Scheduled Castes and Scheduled Tribes for each village in the Primary Census Abstract. The talukas and villages given in the Village Directory are arranged in the order of their location code numbers.

Maps

The Village Directory is preceded by taluka maps showing villages by their location code numbers and dots varying according to the size of the village. Other items such as district or taluka headquarters, railway, national highway, State highway, local roads, post office, post and telegraph, canal, river, rest house, police station, etc., have been shown on the map with appropriate symbols. Two key maps, one for the State showing the district boundary and the position of the district in the State in hatching and the position of the taluka in the district in black and another key map for the district showing taluka boundary and the position of taluka in the district in hatching have also been included in the taluka map. In addition to taluka maps, a map of the district has also been given at the commencement of the Handbook showing the various items listed above for the taluka map and villages having population over 5,000. The key map given in the district map shows district boundary and the position of the district in the State in hatching.

The preparation of district and taluka maps and finalisation of area figures proved to be another handicap. The District Inspectors of Land Records had furnished tracings which had to be brought up-to-date in the light of changes in boundaries owing to integration on the one hand and bifurcation on the other. Frequent references and back references entered into at various levels, the Settlement Commissioner, Superintendents and District Inspectors of Land Records to remove the discrepancies and reconcile the inconsistencies noticed did not yield much result. The matter was, therefore, finally set at rest by calling a conference of Superintendents and District Inspectors of Land Records who did on-the-spot checking and verification and certified the correctness of the ultimate delimitation of boundaries and location of villages appearing in the taluka and district maps and accuracy of area figures entered in the Primary Census Abstract.

Paging

Each of the three parts of the District Census Handbook will have a separate series of page numbers starting with 1.

Alphabetical List of Villages

With a view to enable the reader to trace a village from the Village Directory, an alphabetical list of villages giving the names of villages and indicating their location code numbers, page number and serial number on the page at which they are printed has been given separately for each Taluka/Mahal at the commencement of the Handbook.

The Handbook

The contents of the District Census Handbook explained above have been finalised after frequent deliberations at various census conferences and seminars, and meticulous care as to their form, size and presentation. But these by themselves would not have been sufficient, had the Government not readily responded to the various suggestions made in this behalf. If I may say so, the Government had placed implicit faith in me, and accepted all the proposals made by me from time to time to add to the utility of this important compilation. It is hoped that the District Census Handbook in its present form will satisfy a growing demand for basic census data by ultimate territorial units and other background information about the District and also prove to be a useful book of reference to the administrative departments and the public.

The Government of Gujarat has taken a further decision namely to print the District Census Handbook also in the regional language of the State, viz., Gujarati. This will very much add to the utility of this publication. The Handbook in Gujarati will contain (i) Note introducing the district, (ii) Alphabetical list of villages, (iii) Census Tables, A-I, A-III and SCT-I, (iv) Village Directory with explanatory note and (v) District and Taluka maps.

ACKNOWLEDGEMENTS

Help in the compilation of the District Census Handbooks has been forthcoming from various quarters, to all of whom I am deeply indebted. I, however, wish to express my thanks to Shri V. Isvaran and Shri V. L. Gidwani, Chief Secretaries to Government, and Shri M. G. Shah, Deputy Secretary, General Administration Department for all the facilities they have given in their preparation and publication of these Handbooks. I am also obliged to the Bureau of Economics and Statistics for the services rendered in the compilation of Official Statistics furnished by the Heads of Departments and the checking of the statistical data in the draft-notes for the Introductory Essays prepared by the District Statistical Officers. My thanks are also due to Shri H. V. Desai, Settlement Commissioner, Superintendents of Land Records and District Inspectors of Land Records for their assistance in the finalisation of area figures and verification of district and taluka maps.

Programme for the printing of District Census Handbooks has this time been very heavy indeed, more so as they are published both in Gujarati and English. The arrangements made by Shri B. A. Koreishi, Director, Government Printing and Stationery, and Shri G. J. Gonsalves, Deputy Director, for the printing of the voluminous work pertaining to the District Census Handbooks at the various Government and local presses, are thankfully acknowledged. The excellent work turned out by the Government Photo-zincographic Press, Poona in printing district and taluka maps deserves special mention.

I would like to place on record the valuable contribution made by the members of the Census Organisation at various levels in bringing out the Handbook in its present form. Mention in particular should be made of Shri K. F. Patel, Deputy Superintendent of Census Operations, Shri J. D. Shah, Statistical Assistant, Shri H. S. Bhatt, in charge proof reading section and Shri K. D. Vaishnav and Shri L. S. Shrimali of draftsman section. Before I conclude I must pay tribute to the conscientious discharge of duties by the late Shri J. K. Patel, Special Mamlatdar whose services were placed by Government at the disposal of the Census Organisation, for supervising the printing of District Census Handbooks. It is a matter of great regret that his services were lost to us, as he was removed from our midst in the prime of his life owing to sudden heart failure.

Finally, the Registrar General has given such anxious thought and care since the inception of the Census Organization to ensure that the District Census Handbook which the Census of 1961 brings out is an up-to-date book of reference for the District by including all available useful data both census as well as official. I am grateful to him for the valuable suggestions made and guidance given by him in this important publication.

AHMEDABAD,
9th March, 1964.

R. K. TRIVEDI,
Superintendent of Census Operations,
Gujarat.

PART I

1 INTRODUCTORY ESSAY

2 GAZETTEER OF PLACE NAMES

INTRODUCTORY ESSAY

JUNAGADH DISTRICT

1 LOCATION AND PHYSICAL FEATURES

1.1 Boundaries and Natural Divisions

Junagadh is one of the districts of Rajkot Division of Gujarat State. The District lies between 20° 44′ and 21° 40′ N. Latitude and 69° 40′ and 71° 5′ E. Longitude. It is surrounded on the east by Amreli and on the north by Rajkot and Jamnagar districts and by the hilly regions of Barda Hills. It is bounded on the south and west by the Arabian Sea.

1.2 Configuration

The physical aspect of the district is hilly in certain parts with dense forest and extensive undulating plains intersected by various rivers and streams. Except for the Girnar ranges and the Barda hills the area of the district is more or less flat with a fertile strip popularly known as "Ghed".

1.3 Rivers and Mountains

The principal rivers through which the district is traversed are the Bhadar, Uben, Ozat, Hiren, Machundri, Sabli, Saraswati, Meghal, Raval and Singhvada. Of these, the Uben and Ozat (59 miles) fall into the Bhadar which is the largest river of the district with its course of 110 miles and having its origin in Jasdan taluka of Rajkot district. Besides, there are a number of small rivulets and nalas emanating from Girnar region.

The Girnar and the Barda are the principal hill ranges. The sacred Mount Girnar stands east of the city of Junagadh with 5 peaks, viz., Amba Mata, Gorakhnath, Oghad Shikhar, Guru Datatrya and Kalika, the Gorakhnath peak being the highest of all and culminating point of Girnar 3,666′ above the sea level. The adjoining hill Datar 2,779′ high is a cherished place of worship held sacred by mohmadans for a small shrine of Jamial Shah near its summit. The hills laso-pawadi and Bhensla of the Datar cluster are 2,527′, 2,290′, high respectively.

1.4 Soil

The soils of the district are partly formed from sedimentary rocks and partly from igneous rocks. They are in general calcareous in nature, rich in potassium content but comparatively deficient in nitrogen and humus.

The main types of soils obtaining in the district are five, viz., (1) black cotton, (2) medium black (3) alluvial soil in the low-lying areas, (4) calcareous and (5) brackish. The black cotton soil is found in parts of Vanthali, Manavadar, Keshod and Kutiyana excepting the Ghed area. Most of the villages of Junagadh, Bhesan, Una, Talala, Malia, Visavadar have medium black soil. The alluvial soil in the low-lying area popularly known as 'Ghed area' comprises parts of Porbandar, Keshod, Kutiyana and Mangrol and remain inundated during monsoon. Though soil of this tract is fertile, the water-logging prevents effective utilization of the rich potentialities of the land. In parts of Porbandar, Mangrol and Veraval talukas and Ranavav mahal the type of soil is alluvial calcareous. Whereas the brackish soils are mostly found near the coastal belt of Porbandar, Mangrol, Malia, Veraval and Una talukas and represent the degeneration of coastal alluvial soil due to ingrees of sea water. The area known as 'Lily Nagher' in popular language is the tract of fertile soil ranging from Patan to Una.

1.5 Climate and Temperature

The climate of the district is most varied with its salubrious climate of the sea-coast on the one hand and the hot climate of the plains and comparatively unhealthy climate of the Gir forests on the other. Due to vicinity of the Girnar mountains whose rocks become hot in summer, the climate of Junagadh city is hot during summer. In 1960, the highest temperature recorded at Junagadh was 45.56° Centigrade in the month of

April and the lowest 16.67° Centigrade in the month of December. Thermometric readings of mean maximum and highest and mean minimum and lowest temperature 1951–60 at the headquarters station, Junagadh are given in Official Statistics Table 1.1 given in the Part II of this Handbook.

1.6 Rainfall

In the whole of the Rajkot Division, Junagadh is the only district where rainfall is not only heaviest but also assured. The average rainfall of the district has been estimated between 100 centimetres to 125 centimetres. It has been observed that the rainfall is heavier in the Una taluka and Talala mahals which are nearer to the Gir forests and the mountain ranges. The talukas of Junagadh and Veraval and mahals of Keshod and Mendarda usually receive larger rainfall than other talukas/mahals of the district. The rainfall figures for the last decade for Junagadh, the headquarters town of the district, are detailed below.

Annual rainfall at the headquarters station, Junagadh, 1951–60

Year	Annual rainfall	
	In Inches	In Centimetres
1	2	3
1951	N.A.	N.A.
1952	22.1	56.1
1953	55.4	140.8
1954	39.4	100.2
1955	21.8	55.5
1956	55.6	141.1
1957	N.A.	N.A.
1958	40.3	102.4
1959	70.8	179.8
1960	32.4	82.3

N.A.=Not available

Monthly rainfall figures for all these years are available in the Official Statistics Table No. 1.2 published in Part II of this Handbook.

1.7 Famine and Scarcity

The Fact Finding Committee appointed by the Government of Bombay in 1958–60 for determination of precarious and scarcity areas, reported that Una, Talala mahal and Junagadh talukas were not affected during the last 10 years and other talukas/mahals of the district were also only partially affected during 1951–52 and 1955-56. In respect of any village the total full suspensions do not exceed $1\frac{1}{2}$ the annual land revenue assessment during the last ten years barring a few villages in each taluka which suffered $1\frac{1}{2}$ full suspensions. But as these areas do not form part of any contiguous tract, no taluka can be regarded as scarcity area. The committee, therefore, considered that this district should be regarded as free from scarcity.

1.8 Forests

The district is known for its famous Gir forests which are located in the centre of the district. This is the only district in the Rajkot Division having the highest area of 722.32 sq. miles of which 549.72 sq. miles are reserved, 11.55 sq. miles protected, and the remaining area of 161.05 sq. miles coming under unclassed forests. For the administrative purposes the forests of the district are divided into two divisions, namely, Junagadh Division and Gir Division. The forest contains numerous hamlets and villages and supports a large number of cattle which annually come here along with Maldharis, i.e. cattle breeders who stay in this area by erecting a temporary dwelling known as "Nes".

The forest of the district is mainly of mixed deciduous type and is rich in flora and fauna. It mostly contains teak and bamboo. There are many other species too, viz., *Rayon, Haldu, Shisham, Gorad, Kadam, Sag, Sajad, Khair, Babul, Arduso, Khakhro, Karanj, Jambu, Amla, Behda, Sarsado, Dhawada, Semlo, Bili, Bordi,* etc. The major forest products in the district are timber and firewood. The other forest products are grass, bamboos, *timbarva leaves,* honey wax, *Amala, Aritha,* and gum. The Gir forest of the district is also famous for its lions—one of the two places in the whole world where these jungle kings are found. The other wild animals found in the forest are panther, wolf, jackal, fox wild pigs, porcupine, Sambar spotted deer, wild cat, blue bull, etc.

2 ADMINISTRATIVE SET-UP

2.1 Historical Background

The history of the Junagadh district, formerly known as Sorath, forming part of Saurashtra, dates back to the hoary antiquity. Sorath is an ancient land of splendour, testimony of which can be had from the edicts of Ashok on a granite rock (256 B.C.), Rudradaman inscription (150 A.D.) and Skandgupta's inscription (457 A.D.).

Formerly the Sorath area was ruled by Chudasama Rajputs. During the reign of Ra' Khengar, Junagadh was one of the important States of that time. Breaking down of one of the Anhilvada gates by Ra' Khengar during the absence of Sidhraj and the espousal by him of Ranak Devi who had been sought also in marriage by Sidhraj, prompted the latter towards the conquest of Sorath. In 1125 A.D. the Anhilwada army entered the province and overran the Ra' Khengar's dominions. Sidhraj put Ra' Khengar's son to death and carried off Ranak Devi in the hope of persuading her to be his wife. But she was unable to forgive the death of her husband and children and after cursing Sidhraj mounted the funeral pyre at Wadhwan where her shrine stands to this day. It is believed that the Chudasama Rajputs ruled this area since the 7th or 8th century, after which the political power went to Muslims. The well-known Muslim invasions in this area were brought by Mohamed Taglaq, Ahmedsha and Mohamed Begada. Sorath came under the rule of Muslims when Ra' Mandlik was defeated by Mohamed Begada.

The founder of the last ruling dynasty in Sorath, Sherkhan Babi, was originally a landlord of Ghogha bunder. He gradually took possession of Junagadh and the adjoining territories. The rulers of Babi family ruled the area for about two centuries. The age-old monarchy was brought to an end in November, 1948 by the people themselves, by a popular agitation against the last ruling Nawab Mohabatkhan, who had desired to annex the State with Pakistan. But the popular agitation was so intense and powerful that the last ruler ran away to Pakistan to find refuge and the people of Junagadh acceded the State to the Indian Union.

Before the achievement of Independenee another principal native state in the Sorath area was Porbandar, ruled by Jethwa Rajputs who trace their descent to Hanumanji. Upon the achievement of Independence, it merged with the State of Saurashtra. Other minor princely States in Sorath before 1947 were Mangrol, Manavadar, Bantwa, Sardargadh and Bilkha, which form part of Sorath, now Junagadh district since 1949.

The district as then constituted comprised the former princely territories of Junagadh, Porbandar, Manavadar, Mangrol, Bantwa (Bada Majim), Bantwa (Chota Majim), Manpur, Thumbala, Sardargadh, Bilkha and parts of Gondal, Jetpur States and Lakhapadar thana.

2.2 Territorial Changes

After the merger of Saurashtra with the State of Bombay in 1956, the district became part of Bombay State. On account of the reconstitution of the Saurashtra Districts in the year 1959, the District has undergone some changes. The former Sorath district was renamed Junagadh district after 30-6-1959. The territorial changes which took place between 1951-1961 are given in sub-appendix 2 to Appendix I to Table A-I published in Part II of this Handbook and those after 28-2-1961, are shown in the annexure.

2.3 Administrative Divisions

For the purpose of revenue administration, the district consisting of 1,126 villages and 17 towns is divided into four sub-divisions with 8 talukas and 7 mahals. The details about the area with their rural/urban population in respect of these administrative units are given in the following table.

Administrative Divisions, 1961

Sl. No.	Sub-Division/ Taluka/Mahal	Area (in sq. miles)	No. of towns	No. of villages	Population		
					Total	Rural	Urban
	1	2	3	4	5	6	7
	District Total	***4,100.8**	**17**	**1,126**	**1,245,643**	**893,891**	**351,752**
	North Sub-Division	*874.6*	*4*	*274*	*280,309*	*184,622*	*95,687*
1	Junagadh	271.5	2	76	145,116	163,903	81,213
2	Bhesan	169.2	..	46	36,724	36,724	..
3	Visavadar	292.0	1	109	65,352	56,937	8,415
4	Mendarda	141.9	1	43	33,117	27,058	6,059
	Central Sub-Division	*814.7*	*5*	*219*	*307,256*	*235,768*	*71,489*
5	Mangrol	216.7	1	63	78,826	57,737	21,089
6	Manavadar	233.2	2	57	89,276	63,689	25,587
7	Keshod	219.9	1	54	76,492	63,942	12,550
8	Vanthali	149.9	1	45	62,662	50,400	12,262
	Patan Veraval Sub-Division	*1,055.5*	*5*	*478*	*389,028*	*301,057*	*87,971*
9	Patan Veraval	263.1	2	101	144,038	83,181	60,587
10	Malia	208.4	1	63	65,747	59,134	6,613
11	Talala	187.1	1	119	49,791	45,388	4,403
12	Una	396.9	1	195	129,452	113,354	16,098
	Porbandar Sub-Division	*870.5*	*3*	*155*	*269,050*	*172,444*	*96,606*
13	Porbandar	435.4	1	77	171,225	96,144	75,081
14	Ranavav	220.4	1	31	44,891	35,062	9,829
15	Kutiyana	214.7	1	47	52,934	41,238	11,696

* This is inclusive of 485.5 sq. miles of Gir Forest

Details of inhabited and uninhabited villages, density and occupied houses are available in Census Table A-I published in Part II of this Handbook.

2.4 Revenue

The Collector is in charge of the general administration, law and order and civil supplies. He is assisted by a Personal Assistant in his office and 4 Deputy Collectors in charge of 4 sub-Divisions having their headquarters for North and Central sub-divisions at Junagadh and at Veraval and Porbandar for the other two sub-divisions. There are 8 mamlatdars in charge of 8 taluka offices and 7 mahalkaris in charge of 7 mahal offices.

2.5 Revenue Settlement

The land survey of the district was first done in 1889. The method of survey used during the former Junagadh State regime was to have traverse laid down on the village boundaries with the help of the theodolite, then to have an *adhar* line and one or two supplementary *adhar* lines and then to do detailed survey of each field by chain and cross-staff method. The areas of each survey number and its sub-divisions and for each class of land comprised therein, were separately entered in the Land Records under an indicative No., i.e. survey number, the numbering of sub-divisions being subordinate to the number of parent number. No area in this district now remains unsurveyed.

The soil classification is very different from that according to the Gujarat Classification system, in so far as soils were not classified in Anna Values as under the Gujarat Classification system, but they are classified as 'Baret', i.e. Dry Crop and Peet, i.e. well irrigated, a minor class being

Dhekudiat lands, i.e. lands irrigated by Dhekudis. Each of these main classes of land were again classified as Sarvotkrisht, Aval, Doyam, Soyam and Kanishth on consideration of the fertility of soil. Separate rates of assessment were prescribed for each of these sub-classes of land. The same system has been continued after merger. For some other villages, however, which did not belong to the former Junagadh State and were included in the district, the soil classification was done according to the Saurashtra Classification Rules.

Settlement operations were started in 1910–11. Revision settlements were undertaken in 1918–20 in various talukas and the period of settlement was then fixed as 20 years. An attempt to revise the same was made thereafter in groups where resettlement was due in 1944, but it was decided to postpone the rivision on account of effects of the 2nd World War and the rates of 1918–19 were continued. As these rates were influenced by high prices of the 1st World War, they were reduced by 2 annas in a rupee in the whole State and by 3 to 6 annas in a rupee in several villages of Talala mahal.

On the analogy of Land Revenue Rule 19–N and 19–0 for the pre-reorganised Bombay State Area, Land Revenue Rules 18 and 17 have been framed under Section 52 of the Bombay Land Revenue Code. Under these Rules, because former Junagadh State is recognised as a deemed settled area for the purposes of these Rules the settlement groups of villages are compared with the settlement groups of the Union Area on a consideration of permanent and semi-permanent factors of physical configuration, climate and rainfall markets and communications and standard of husbandry and by comparing of the rates obtaining in the merged areas with those in the comparable *Union Areas, the excess of the former over the latter has been remitted, the former being continued if lower than the latter. In respect of the villages which do not form part of the scientifically settled areas, groups of villages have been formed on a consideration of the factors mentioned above, under Land Revenue Rule 17 and standard rates of the comparable Union Areas are supplied to the Lands in these groups. Where the lands are not scientifically classified, they are classified as good, medium and inferior and 2/3rd of the rate for good lands has been applied to the medium lands and 1/3rd to the inferior lands. Well-irrigated lands are considered as Bagayat and double the rate of Dry Crop land in the group is considered as the rate for such lands. Assessments have been worked out for all the Survey Number and Sub-Divisions in the district and are recovered accordingly.

2.6 Agrarian Structure and Land Reforms

The lands were held under different tenures, which were classified into two broad categories, viz., (1) Girasdari and (2) Barkhali. These tenures have been abolished under the Saurashtra Land Reforms Act, 1951 and Saurashtra Barkhali Abolition Act, 1951. Occupancy Rights have been given to the Tenants of Girasdars and Barkhalidars who were tenants-at-will. Non-agricultural land, such as waste lands, grass lands, *gauchars* roads and rivers, etc., which formed part of the estates but did not vest in Government were acquired under the Saurashtra Estate Acquisition Act, 1952. Under the Abolition Acts mentioned above, intermediaries between the cultivators and the State have been removed and Raiyatwari system of settlement, cash assessment on a systematic basis and fixity of tenures on a permanent basis has been introduced.

The Bombay Prevention of Fragmentation and Consolidation of Holidngs Act, 1947 has been applied in this district and consolidation of holdings was started, but it had soon to be withdrawn on account of agitation of the agriculturists on the ground of restrictions over their rights on the land. The matter is still under the consideration of the State Government. The Gujarat Agriculture Lands Ceiling Act, 1960 has also been made applicable to this district.

* Union Areas=Areas forming part of the Pre-Independence districts of the Bombay Province

As a result of Government policy to remove intermediaries to give social justice to the tiller of the soil, various measures of land reforms were introduced from time to time. The size of land holdings and number of land holders in the district provide a useful data for the study of agrarian problems in the district. The table given below furnishes data regarding number of holders along with the area of land held in the respective size groups for the year 1961.

Size of Land Holdings, 1961

Size of holdings (in acres)	No. of holders	Per cent to total holders	Area held in acres	Per cent to total area held
1	2	3	4	5
0- 5	18,520	19.6	42,922	2.8
5-15	31,613	33.4	250,890	17.2
15-25	23,836	25.2	453,972	30.7
25-100	20,590	21.8	711,195	48.5
100 and above	77	..	14,446	0.8

Statistics in the above table indicate that 19.6 per cent of holders in size group of 0.5 acres hold 2.8% of the total cultivated area of land; 33.4% of the holders in size group 5.15 acres claim 17.2% of the area and 25.2% of holders in the size group of 15-25 acres, cultivate 30.7% of land. An interesting characteristic disclosed by these data is that about 21.8% of holders in the size group 25-100 hold about one half or 48.5% of the land.

2.7 Parliamentary and Assembly Constituencies

Under the Delimitation of Parliamentary and Assembly Constituencies Order, 1961, 1 seat is allotted to this district for the purpose of election to the House of the People and 9 seats for the State Assembly. The details of the territorial extent of the Parliamentary and Assembly Constituencies are shown below.

Delimitation of Parliamentary and Assembly Constituencies

A

Parliamentary Constituencies

Sl. No.	Name of Constituency	Extent in terms of Assembly Constituencies
1	2	3
1	Junagadh	Kutiyana, Manavadar, Keshod, Junagadh Visavadar, Malia and Somnath

B

Assembly Constituencies

Sl. No.	Name of Constituency	Extent of Constituency
1	2	3
1	Porbandar	Porbandar taluka (excluding 23 villages of Navibandar circle of Porbandar taluka)
2	Kutiyana	Kutiyana and Ranavav mahals and 23 villages of Navibandar circle of Porbandar taluka
3	Manavadar*	Manavadar taluka and Vanthali mahal
4	Keshod	Keshod mahal and Mangrol taluka
5	Junagadh	Junagadh taluka and Dungar forest range
6	Visavadar	Visavadar taluka, Sasan and Visavadar forest ranges and Bhesan and Mendarda mahals
7	Malia	Malia taluka, Talala mahal and 31 villages of Pransali circle of Veraval taluka
8	Somnath	Veraval taluka (excluding 31 villages of Pransali circle of Veraval taluka)
9	Una	Una taluka and Jamwala and Jasadhar forest ranges

*This seat is reserved for Scheduled Castes

2.8 Judiciary

The judicial set-up of the district comprises of one District and Sessions Judge, one Assistant District Judge, one Civil Judge (Sr. Division) and 12 Civil Judges (Jr. Division). As Sessions Judge he is empowered to impose any sentence authorised by law, but any sentence of death subject to confirmation by the High Court. The Assistant Sessions Judge is empowered to impose any sentence authorised by law, except a sentence of death or imprisonment for life or of imprisonment for a term exceeding 10 years. The District Judge has unlimited jurisdiction in civil suits while the Assistant Judge has jurisdiction upto Rs. 15,000 in such suits. Civil Judge (Sr. Division) and Judicial Magistrate is empowered to impose a sentence of imprisonment for a term not exceeding 2 years and fine not exceeding two thousand rupees. He has got unlimited jurisdiction in civil suits. Civil Judges (Jr. Division) have jurisdiction up to Rs. 10,000 in civil suits.

2.9 Police

The total strength of civil police in 1960-61 amounted to 1,035 persons. There were 26 police stations and 7 police outposts in the district. The total number of cognizable offences investigated in the district was 1,863. Thus there was 1 police per 3.96 sq. miles of area. The number of persons per police was 1,204 and the number of cognizable offences investigated per police was 1.80.

The number of crimes by major class of offences in the district is extracted from Table 11.3 given in Part II of this Handbook, wherein other details regarding number of persons acquitted or discharged and number of persons convicted will also be found.

Persons convicted by nature of offences, 1960–61

Description of offence	No. of persons convicted
1	2
Against public tranquility	31
Affecting life	64
Hurt	76
Theft	97
Criminal trespass	77
Under special and local laws	434

3 LOCAL SELF GOVERNMENT

3.1 Local Self Government Institutions

The Local Self Government Institutions in the State as on 1st April, 1961, which is the period covered by this Handbook are (1) Municipalities, (2) District Local Board, (3) District School Board and (4) Gram Panchayats. But since the Gujarat Panchayats Act has come into force from 1st April, 1963 replacing the existing District Local Boards by Jilla Panchayats and introducing democratic decentralisation at all levels, a short resume of the provisions of this Act as regards the new set-up, functions, finance, etc., will also be given to bring the position about administrative set-up up-to-date.

3.2 Municipalities

At the end of 1960-61 there were 17 municipalities covering 17 towns with a population of 350,854. The average population per municipality was 20,638.

The total income of all the 17 municipalities during 1960–61 amounted to Rs. 8,065,767 of which as much as Rs. 4,048,658 or 50.20 per cent came from rates and taxes bringing the municipal rates and taxes per head to Rs. 11.95. The income per head of population as per 1961 Census was Rs. 22.99. As against this, the total expenditure in 1960-61 of all municipalities amounted to Rs. 7,135,973 and average expenditure per head of population Rs. 20.34.

3.3 District Local Board

District Panchayat Board was constituted in the month of June 1956 and the then Government of Saurashtra transferred some of its functions and institutions to this Board. It was renamed as Junagadh Local Board on 11-4-1960. Total income and expenditure of the Board during 1960-61 was Rs. 1,096,468 and Rs.1,325,479 respectively. The main sources of income were civil works, medical and land revenue, and the major heads of expenditure were civil public works, medical and scientific and other minor departments. The following table shows income and expenditure of the Junagadh District Local Board during 1960-61 under different heads.

Income and expenditure of District Local Board, 1960–61

Head	Income (in Rs.)	Head	Expenditure (in Rs.)
1	2	3	4
Total	**1,096,468**	**Total**	**1,325,479**
Land revenue	197,315		..
Local rates	22,913	Administration	74,395
Interest	34,369		..
Education		Education	22,096
Medical	213,597	Medical	128,159
Scientific and other minor departments	78,972	Scientific and other minor departments	81,394
		Pension	2,675
		Stationery and Printing	4,267
Miscellaneous	8,783	Miscellaneous	25,088
		Famine Relief	10,062
Civil Works	540,519	Civil Public Works	977,343

3.4 Panchayats

As against 130 Panchayats during the year 1951-52, the number of panchayats in the district at the end of 1960-61 was 919 which covered 935 villages and 63 per cent of the rural population. Of these panchayats 15 were of 'A' type, 310 of 'B' type and 594 of 'C' type.

3.5 Present set-up under the Panchayat Act

The Gujarat Panchayats Act has been brought into force in all the districts of Gujarat (except Kutch and Dangs districts) from 1st April, 1963. In the Kutch district, it has been brought into force with effect from 15th April, 1963. It is not yet made applicable to the Dangs district. In each district there are three tiers of the Panchayat Organisation, gram/nagar panchayats, taluka panchayats and district panchayat. Municipalities having population not exceeding 10,000 have been converted into gram panchayats and those having population exceeding 10,000 but not exceeding 20,000 have been converted into nagar panchayats. A gram/nagar panchayat is subordinate to the taluka panchayat, while a taluka panchayat is subordinate to the district panchayat according to the scheme of this Act.

According to the provisions of the Gujarat Panchayats Act, 1961, a gram panchayat consists of not less than 9 and not more than 16 members, while a nagar panchayat consists of not less than 15 and not more than 31 members. Provision has been made to reserve seats for women and members of Scheduled Castes and Tribes. A taluka panchayat consists of ex-officio, elected, co-opted and associate members. On account of the national emergency, interim district panchayats had to be constituted in April, 1963. Elections are now proposed to be held and elected district panchayats would be constituted towards the end of March, 1964 in the sixteen districts of the State.

The District Development Officer is the Chief Executive Officer in a district panchayat. He is borne on the cadre of the Indian Administrative Service (senior time scale) and is appointed by Government. The Chief Executive Officer of the taluka panchayat is the Taluka Development Officer, who is also appointed by Government. Both these officers are secretaries of their respective panchayats. These panchayats function through various committees, appointed for different groups of functions under the Act.

FUNCTIONS

The functions of three tiers of panchayats have been given very elaborately in the three schedules to the Act. In addition, the function of collecting land revenue (including cesses) and dues recoverable as arrears of land revenue, levied and assessed by or under the Land Revenue Code and all other functions and duties of a village accountant under the land revenue code have been transferred to gram/nagar panchayats. The powers exercised and the functions and duties performed by the District School Board have been similarly transferred to the taluka and district panchayats and all primary schools have been placed under the control of taluka and district panchayats. A large number of functions such as registration of co-operative societies, approval of amendment to the bye-laws of co-operative societies, calling of or extending the period for the calling of annual general meeting of co-operative societies and such other functions which under the Co-operative Societies Act, were exercised by the Registrar, Co-operative Societies, have been transferred to district panchayats. Moreover, functions relating to agriculture, animal husbandry, public health and medical relief, social welfare, cottage industries and small scale industries and District Statistical Office, have been transferred on an agency basis to the district panchayats.

STAFF

To enable the panchayats to carry out numerous activities entrusted to them, Government has transferred/deputed a number of its employees along with the functions transferred. The staff of the District School Boards and District Local Boards has also been transferred to taluka/district panchayats. It has been envisaged in the Act to constitute a panchayat service in connection with the affairs of panchayats and to maintain a uniform standard in the recruitment for panchayat service. A Panchayat Service Selection Board has been constituted for this purpose.

FUNDS

The panchayats have been given necessary funds to execute all schemes transferred to them. In addition, provision has been made in the Act, for various tiers of panchayat to levy taxes and fees. A gram or nagar panchayat subject to certain conditions can levy a tax on buildings, a pilgrim

tax, a tax on fairs, festivals and other entertainments, a tax on bicycles or vehicles drawn by animals, a sanitary tax, etc. It can also levy fee on markets, cart stands, tonga stands, for the supply of water from wells and tanks for purposes other than domestic use and for cattle. The taluka panchayat and district panchayat can request Government for increase in stamp duty. Moreover, provision has been made in the Act for making grants to the panchayats for its activities.

At present the implementation of the Act is being done mostly through the Commissioner. They have been delegated with most of the powers of the State and exercise supervision over panchayats.

Provision has also been made in the Act under which the State Government will give grants to the panchayats on the basis of the average of the land revenue collected during the last three preceding years, after deducting therefrom the expenditure on the salaries and training of the secretaries of gram panchayats and village accountants and crediting 5% of the amount to the State Equalisation Fund. 50% of the balance will be distributed among gram panchayats and nagar panchayats, 25% among taluka panchayats and 10% among the district panchayats. Out of the remaining 15% of the land revenue, 7½% will be carried to the District Equalisation Fund and 7½% to the Gram Encouragement Fund.

4 POPULATION

4.1 Growth of Population

In 1951, the population of the district as constituted in 1961 was 987,595. According to the 1961 Census the same has gone up to 1,245,643 registering an increase of 258,048 or 26.13 per cent. The highest during the last sixty years was in 1941 (26.24) though lower than that observed in the case of Gujarat State which is 26.88 per cent. Examination of the figures of growth reveals that the population has increased by 155.32 per cent during the last sixty years. The figures regarding the movement of population in the district during the last sixty years with the decade variation are detailed below.

Variation in population during 1901 to 1961

Year	Population	Decade variation	Percentage decade variation
1	2	3	4
1901	487,866	..	.
1911	539,976	+ 52,110	+ 10.68
1921	582,643	+ 42,667	+ 7.90
1931	688,290	+ 105,647	+ 18.13
1941	868,870	+ 180,580	+ 26.24
1951	987,595	+ 118,725	+ 13.66
1961	1,245,643	+ 258,048	+ 26.13
1901 to 1961	..	+ 757,777	+ 155.32

Sexwise details about population are available in Census Table A-II published in Census of India, 1961, Volume V-Gujarat-Part II-A.

The unprecedented growth of numbers between 1951-61 can, however, be attributed to the decline in death rate, accompanied by steady improvements in medical and public health services available to the people since Independence.

OCCUPIED RESIDENTIAL HOUSES AND HOUSEHOLDS

The total number of occupied residential houses in the district is 213,331 or 5.72 per cent in the State. The average number of persons per occupied Census house for total, rural and urban areas of the State and District is given below.

Average number of persons per occupied census house, 1961

Total/Rural/Urban	State	District
1	2	3
Total	5.53	5.84
Rural	5.54	5.95
Urban	5.52	5.56

It will be seen that the average number of persons per occupied census house in the district is higher than that of the State for its total, rural and urban areas.

The number of households in the district was total 217,805, rural 151,484 and urban 66,321 and that of houses total 213,331, rural 150,128 and urban 63,203. The number of households per cent of houses, therefore, comes to 102.10, 100.90 and 104.93 for the total, rural and urban areas respectively. The average number of persons per household for total, rural and urban areas of the district comes to 5.72, 5.90 and 5.30 respectively.

4.2 Rural/Urban Distribution

The criteria for determining whether a place was rural or urban varied from census to census and rendered such data incomparable. A uniform definition for urban area was, therefore, adopted

during the Census of 1961, by laying down that a place should be classified as urban, if it was (1) a municipality, cantonment or civil lines, or (2) had (a) a population of 5,000 or over and (b) 75 per cent or more of the total male population was dependent on non-agricultural pursuits.

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'Village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distinct number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

4.2 (i) Rural Population

The total number of villages in the district is 1,126, of which 57 are uninhabited. The total rural population of the district is 893,891 giving an average of 794 persons per inhabited village. Rural population constitutes 71.76% to the total population in the district which is, however, lower than similar proportion in the State (74.23%). Percentage distribution of rural population by size group of villages is given below.

Percentage distribution of rural population by size group of villages, 1961

Size group	No. of villages	Percentage of total No. of villages	Rural Population	Percentage to total rural Population
1	2	3	4	5
Less than 200	161	15.06	9,982	1.12
200–499	254	23.76	91,322	10.22
500–999	368	34.43	262,095	29.32
1,000–1,999	204	19.08	278,530	31.16
2,000–4,999	76	7.11	211,444	23.65
5,000–9,999	6	0.56	40,518	4.53
10,000 and above..		..	..	..

Details of sexwise population for talukas are available in Census Table A-III published in Part II of this Handbook.

38.82% of villages in the district fall in the class range less than 500, while 53.51% of the total have population varying from 500 to 1,999. 7.67 per cent of them are large size villages (2,000 and above) covering 28.18% of rural population. It is significant to note that the major part of rural population 60.48 per cent is concentrated in villages having population between 500 and 1,999. The tendency of villages to grow in size and the concentration of rural population in medium and large size villages are noticeable from these statistics.

4.2 (ii) Urban Population

The urban population of the district numbering 351,752 persons or 28.24% of the total popluation of the district is higher than the similar proportion of 25.77 per cent in the State. The average population of a town in Junagadh district is 20,691 persons as compared to 30,380 for the State. The extent of urbanisation is found to be comparatively less than that obtaining in the State as a whole. The number of towns/town-group in 1951 was 21 and has come down to 16 in 1961 owing to declassification of a number of them as a result of change in the definition of urban areas. According to this definition, Chorwad, Delvada, Sardargadh, Sutrapada, Madhavpur and Shahpur which were treated as urban in 1951 were declassified and treated as rural in 1961, and Talala has been treated as town for the first time in 1961. Statement showing the number of towns classified by population is furnished below.

Number of towns classified by size groups during 1901 to 1961

	I 100,000 and above		II 50,000 to 99,999		III 20,000 to 49,999		IV 10,000 to 19,999		V 5,000 to 9,999		VI Below 5,000	
Year	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population
1	2	3	4	5	6	7	8	9	10	11	12	13
1961	..	..	3	210,236	1	21,089	6	78,193	5	37,831	1	4,403
1951	..	..	3	173,988	1	20,085	4	55,644	8	58,222	5	20,726
1941	..	..	1	58,111	2	90,145	4	67,703	6	45,045	1	4,185
1931	..	..	..	..	3	103,452	3	44,006	3	22,945	2	6,856
1921	..	..	..	..	3	89,712	3	37,282	2	15,074	3	10,350
1911	..	..	..	..	3	82,644	2	26,501	3	23,624	3	10,649
1901	..	..	..	..	3	83,987	2	25,303	3	22,945	3	11,155

Sexwise details for each town are available in Census Table A-IV published in Part II of this Handbook.

The table on pre-page reveals that there is no class I town (100,000 above) in the district. 3 towns, viz., Porbandar, Junagadh and Veraval town-group come under class II and have population over 50,000. Of the rest, 1 is in class III, i.e, size group 20,000 to 49,999, 6 fall under class IV and have population above 10,000 and below 20,000 and the other 6 have population below 10,000.

4.3 Density

The area of the district in 1951 was 3,427.0 square miles or 4.82 per cent of the total area of Gujarat. In 1961, it was 4,100.8 square miles or 5.77 per cent of the total area of the State due to changes in the territorial jurisdiction of the district. The corresponding percentages of population for the district as constituted in 1961 are, however, found to be 6.99% in 1951 and 6.04% in 1961. The average density of population is 304 persons per square mile as against 290 for the State. The urban density (5,583) is naturally higher than the rural (221) where the pressure of population is comparatively less and the average density is worked out on the basis of the entire area within the revenue limits of the village and not of the village site. These densities differ for different parts of the district as also for its rural and urban areas as will be seen from the table that follows.

Population per square mile, 1961

State/District/ Taluka/Mahal	Population per square mile		
	Total	Rural	Urban
1	2	3	4
State	**290**	**218**	**7,194**
District	*304*	*221*	*5,583*
Junagadh	534	240	14,984
Bhesan	217	217	..
Visavadar	224	195	36,587
Mendarda	233	193	3,030
Mangrol	364	281	1,917
Manavadar	383	289	2,015
Keshod	356	304	2,789
Vanthali	418	345	3,066
Patan-Veraval	547	334	4,410
Malia	315	288	2,204
Talala	266	243	29,353
Una	326	287	12,878
Porbandar	393	223	19,603
Ranavav	204	160	12,933
Kutiyana	247	192	32,489

While working out the density of urban areas, the urban units for which area figures are not available have been ignored. Rural density is worked out on the basis of rural population only, though the area figures include the area of those urban units for which separate area figures are not available. The highest density (547) in the district is found in Veraval Patan taluka and the lowest (204) in Ranavav mahal. Rural areas of Vanthali mahal has the highest (345) and Ranavav mahal the lowest (160) density. But among towns Visavadar tops the list with 36,587 per square mile, the lowest being 1917 for Mangrol.

4.4 Migration

The number of persons born (i) at the place of enumeration, (ii) elsewhere in the district, (iii) outside the district of enumeration but within Gujarat State and those (iv) born outside Gujarat State as per 1961 Census is given below.

Population by place of birth, 1961

Persons/ Males/ Females	Total population	Place of enumeration	Elsewhere in the district	Outside the district but in the State	Outside the State
1	2	3	4	5	6
Persons	1,245,643	851,023	280,973	80,261	33,386
Males	638,296	505,023	84,147	31,698	17,428
Females	607,347	346,000	196,826	48,563	15,958
Percentages					
Persons	100.00	68.32	22.56	6.44	2.68
Males	100.00	79.12	13.18	4.97	2.73
Females	100.00	56.97	32.41	7.99	2.63

In case of 68.32 per cent of the population of the district, the place of enumeration is the same as the place of birth. This proportion for males is 79.12 per cent, as against 56.97 per cent for females owing to the migration of females after marriage, which appears to be mostly within the district. The proportion of females born outside the place of enumeration but within the district is as high as 32.41 per cent as compared to those born outside the district but within the State who account for 7.99 per cent and those outside the State who account for 2.63 per cent only.

The percentage distribution of population born at the place of enumeration, born elsewhere within the district and outside the district by nine categories of economic activity and of non-workers is given on the next page.

Distribution of population by categories of workers and non-workers classified by place of birth, 1961

Place of birth	Categories of workers									
	I	II	III	IV	V	VI	VII	VIII	IX	X
	As Cultivator	As Agricultural labourer	In Mining, Quarrying, etc.	At House-hold Industry	In manu-facturing other than Household Industry	In Construction	In Trade and Commerce	In Transport, Storage and Communi-cations	In Other Services	Non-workers
1	2	3	4	5	6	7	8	9	10	11
District Total	**24.36**	**4.74**	**0.81**	**2.83**	**1.62**	**0.48**	**2.29**	**0.80**	**4.59**	**57.48**
Born at the place of enumeration	24.11	3.92	0.66	2.42	1.14	0.31	1.87	0.55	3.59	61.43
Elsewhere in the district	30.26	7.61	0.91	3.56	2.01	0.44	2.21	0.75	6.01	46.24
Outside the district	11.65	3.87	1.66	4.12	4.18	1.83	5.66	2.75	8.54	55.74

4.5 Sex Ratio

In 1961 the number of females per 1,000 males in the district was 952 which was higher than the similar ratio of 940 for the State. The corresponding rural and urban sex ratios for the district which were 953 and 947 respectively show that the proportion of females was comparatively less in towns than in villages.

The following statement compares sex ratios in towns in 1951 and 1961.

Females per thousand males in urban areas, 1951 and 1961

State/ District/ Town	Sex Ratio	
	1951	1961
1	2	3
State	**915**	**896**
District	*1,013*	*947*
Porbandar	1,016	932
Junagadh	995	911
Veraval Town-group	1,026	971
Mangrol	1,064	977
Una	1,002	994
Bantwa	974	972
Manavadar	975	918
Keshod	995	884
Vanthali	1,011	967
Kutiyana	996	995
Ranavav	1,180	1,017
Bilkha	1,021	1,006
Visavadar	995	938
Mendarda	950	919
Malia	1,009	987
Talala	995	919

A comparison of sex ratio in 1951 and 1961 in urban areas reveals that the number of females per 1,000 males is higher in 1951 at a number of places mainly on account of migration of evacuees to Pakaistan after partition. But the position has improved since then as revealed by the sex ratios in 1961.

4.6 Age Distribution

Table C-II given in Part II shows the distribution of the population by quinquennial age-groups. Table C-IV gives single year age returns. Broad age-groups are also given in Tables B-I and C-II printed in Part II of this Handbook. Proportionate population figures by broad age-groups in 1961 are compared separately for males and females with the corresponding proportions for 1951 for the district as then constituted.

Percentage distribution of population by sex and age-groups, 1951 and 1961

Age-groups	Percentage of population by age-groups			
	1951		1961	
	Males	Females	Males	Females
1	2	3	4	5
Total A to D	**100.00**	**100.00**	**100.00**	**100.00**
0-4	13.69	14.10	16.13	16.52
5-14	28.34	27.22	27.99	26.61
A 0-14	42.03	41.32	44.12	43.13
15-34	33.88	33.96	32.59	32.42
35-59	19.67	19.13	18.83	18.63
B 15-59	53.55	53.09	51.42	51.05
C 60+	4.41	5.58	4.42	5.79
D Age not stated	0.01	0.01	0.04	0.03

The proportion of both males and females in the age-group 0–14 has increased during the decade, owing to high birth rate which is responsible for an increase of 2.09% in males and 1.81% in females. But there is some decline in the proportion of males and females in the age-groups 15-34 and 35-59. This may, perhaps, be due to the migration of adult workers to other areas.

4.7 Marital Status

According to the Census of 1961, 40.59 per cent persons are returned as married, 39.39 per cent males and 41.85 per cent females. Never married persons account for 52.98 per cent of the total population, males being 57.49 per cent and females 48.24 per cent of their respective population. The widowed are 0.35 per cent and divorced or separated constitute 6.08 per cent only. The following table shows the marital status of males and females in different age-groups classified into (i) never married, (ii) married and (iii) widowed, divorced/separated and others.

Age and Marital Status, 1961

	Never Married		Married		Widowed, divorced/separated and others	
Age-groups	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Pecentage of females to total females
1	2	3	4	5	6	7
Total	**57.49**	**48.24**	**39.39**	**41.85**	**3.12**	**9.91**
0–9	100.00	100.00	..	..	..	..
10–14	99.37	98.73	0.63	1.25	..	0.02
15–19	88.85	51.98	11.04	47.55	0.11	0.47
20–24	40.82	6.79	58.01	91.58	1.17	1.63
25–29	11.41	1.33	86.41	95.85	2.18	2.82
30+	2.67	0.43	87.85	68.81	9.48	30.76

It will be seen from the above table that no person has been reported as married in the age-group 0–9 as all such persons were treated as unmarried at the time of sorting. But the child marriages still persist in the age-group 10–14 to the extent of 0.63% for males and 1.25% for females. It is also noteworthy that among males the age of marriage has shifted and risen to 20 and above, as only 11.04% of males have been returned as married in the age-group 15–19, while the percentage rises to 58.01 in the age-group of 20–24 and to 86.41 in the age-group of 25–29. Corresponding proportions for females, however, show that 47.55% of females in the age-group 15–19 and 91.58% in the age-group 20–24 are married. In other words, in case of females, though the date of marriage has advanced, it has not gone much beyond 15 years. Examination of the figures of widowed, divorced and separated discloses an interesting feature of marital life in the district in that, they appear to be significant only after the age of 29. While females above 30 years account for 30.76% in this category, males form 9.48% of their population. These figures reveal a state of society wherein women generally do not remarry, while males usually do.

4.8 (i) Literacy and Education

According to the Census of 1951, there were 161,090 literates in the district of Junagadh as constituted then and formed 16.51% of the total population. Percentage of male literates was then 24.87, while that of female literates 8.02%. In 1961, the percentage of literacy rose to 24.42% (35.44% for males and 12.83% for females). Percentage of literacy to total population by age and sex is given for total/rural/urban in the table on the next page.

Literacy by age groups, 1961

Age-groups	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8	9	10
All ages	**24.42**	**35.44**	**12.83**	**17.72**	**27.85**	**7.09**	**41.43**	**54.63**	**27.47**
5–14	29.56	38.54	19.65	22.86	32.69	12.03	46.57	53.28	39.09
15–34	33.60	48.79	17.56	24.40	38.64	9.42	55.94	73.26	37.46
35–59	24.85	39.54	9.25	17.11	29.16	4.34	43.46	64.38	21.12

Age not stated	8.28	12.28	2.86	7.28	10.74	2.54	25.00	40.00	7.69

Literates among children in the age-group 5-14, constitue 29.56% of whom males account for 38.54 per cent and females 19.65 per cent. The highest literacy among persons and males is found to be in the age-group 15–34 in total/rural/urban areas. The highest percentage of literacy among females is found to be in the age-group 5–14 in total, rural and urban areas of the district. The follow ing table furnishes the sexwise details of literacy by rural/urban for each taluka/mahal of the district.

Rural/Urban literacy by sex, 1961

Taluka/Mahal		Literate and Educated					
		(Literates) number	Percentage of total population	Literate males	Percentage of total male population	Literate females	Percentage of total female population
1		2	3	4	5	6	7
Junagadh	R	13,392	20.96	10,756	32.84	2,636	8.46
	U	40,278	49.60	26,313	62.16	13,965	35.92
Bhesan	R	5,847	15.92	4,642	24.69	1,205	6.72
	U	..	..	..	..	..	..
Visavadar	R	9,568	16.80	7,690	26.42	1,878	6.75
	U	3,399	40.39	2,308	53.17	1,091	26.78

	U	6,865	32.55	4,679	43.86	2,186	20.98
Manavadar	R	14,932	23.45	11,774	36.04	3,158	10.18
	U	10,109	39.51	7,146	54.39	2,963	23.80
Keshod	R	12,847	20.09	10,387	31.50	2,464	7.95
	U	5,277	42.05	3,719	55.83	1,558	26.46
Vanthali	R	11,803	23.42	9,211	35.37	2,592	10.64
	U	4,709	38.40	3,370	54.07	1,339	22.21
Patan	R	9,943	11.95	8,611	20.23	1,332	3.28
Veraval	U	18,950	31.14	13,543	43.86	5,407	18.04
Malia	R	9,502	16.07	7,809	25.75	1,693	5.88
	U	2,752	41.62	1,849	55.56	903	27.49
Talala	R	7,177	15.81	6,063	25.88	1,114	5.07
	U	1,468	33.34	1,017	44.31	451	21.39
Una	R	16,886	14.90	13,857	23.89	3,029	5.47
	U	5,692	35.36	3,977	49.25	1,715	21.38
Porbandar	R	19,397	20.17	14,414	29.63	4,983	10.49
	U	36,367	48.44	24,149	62.14	12,218	33.73
Ranavav	R	6,946	19.81	5,479	30.52	1,467	8.57
	U	3,468	35.32	2,301	47.23	1,167	23.54
Kutiyana	R	6,955	16.87	5,608	26.79	1,347	6.63
	U	4,210	36.00	2,887	49.24	1,323	22.68

It will be seen from the table given on prepage that in rural areas the percentage of literacy is the highest (23.45%) in Manavadar taluka and the lowest in Patan Veraval taluka (11.95%). These also are the rural areas where the highest as well as the lowest percentages of male literacy are returned. Vanthali claims the highest percentage of rural female literacy (10.64 per cent), the lowest being 3.28 per cent in Patan Veraval. But among urban areas the literacy percentage is the highest (49.60%) in Junagadh taluka and lowest in Patan Veravel taluka (31.14).

4.8 (ii) Educational Institutions

The table that follows gives the number of various types of educational institutions in the district, along with the number of students and teachers in 1960–61.

Number of educational institutions, students, and teachers, 1960-61

Educational levels	Institutions	Teachers	Students
1	2	3	4
Primary	1,034	3,361	95,239
Secondary	58	581	13,688
Higher	7	103	1,203
Other type of Institution	129	217	6,337

Primary, Secondary, Higher and Special Institutions

In 1960–61 there were 1,034 primary schools in the district of which 937 were in rural areas. 886 villages or 82.88 per cent of the total number of villages have schools and 183 or 17.12 per cent do not have any. Area served per school in rural areas of the district came to 3.79 square miles. Number of students per primary school in rural areas was 63.96 and the number of students per teacher 27.70. There were 67.04 students in primary schools per 1,000 of rural population. In 1960-61 there were 58 secondary institutions with 581 teachers and 13,688 pupils giving an average of 24 pupils per teacher. There were 7 colleges of which 4 were in Junagadh, 2 in Porbandar and 1 in Verval having 103 teachers and 1203 pupils. There were 129 special institutions which include training colleges, gymnasia, etc.,having 217 teachers and 6,337 pupils.

4.9 Languages

Table C–V in part II shows the population of major languages for the district and each taluka separately. The rural/urban speakers of each major language in the district are as under.

Distribution of speakers of major languages, 1961

Sl. No.	Major language	Percentage of total population			Percentage of each major language in	
		Total	Rural	Urban	Rural	Urban
1	2	3	4	5	6	7
	Total of all languages	**100.00**	**100.00**	**100.00**	..	..
1	Gujarati	94.85	99.11	84.04	74.98	25.02
2	Marathi	0.11	0.03	0.29	22.12	77.88
3	Hindi	0.15	0.06	0.39	28.68	71.32
4	Sindhi	1.84	0.23	5.91	9.11	90.59
5	Urdu	2.70	0.43	8.47	11.35	88.65
6	Kachchhi	0.14	0.02	0.48	6.60	93.40
7	Tamil	0.06	0.03	0.11	41.85	58.15
8	Others	0.15	0.09	0.31	42.28	57.72

It will be seen from the above table that 94.85 per cent of the population in the district have Gujarati as their mother tongue. 74.98 per cent of them live in rural areas and 25.02 per cent in urban areas. The number of speakers of other languages are not significant.

4.10 Religions

The following table gives distribution of religions.

Religions, 1961

Religions	Population	Percentage of total population
1	2	3
Total	**1,245,643**	**100.00**
Hindu	1,111,505	89.23
Muslim	124,803	10.02
Jain	8,598	0.69
Sikh	282	0.02
Christian	385	0.03
Other religions	70	0.01

It will be seen from the above table that 89.23 per cent of the total population are Hindus 10.02 per cent Muslims, and 0.69 per cent Jains. Sikh and Christian each forms 0.02 and 0.03 per cent. Among others, 4 are Buddhists and 66 follow other religions and persuasions.

4.11 Scheduled Castes and Scheduled Tribes

4.11 (i) Scheduled Castes

The total population of Scheduled Castes as per 1961 Census is 85,488 which forms 6.86 per cent of the total population of the district. The following table gives the figures of Scheduled Castes for total/rural/urban.

Scheduled Caste, 1961

Total/Rural/ Urban	Persons	Percentage of total population
1	2	3
Total	**85,488**	**6.86**
Rural	71,902	8.04
Urban	13,586	3.86

The literate and educated among the Scheduled Castes number 8,079 and constitute 9.45 per cent of the total population of Scheduled Castes of the district. The rural and urban proportion among them is 8.25 per cent and 15.81 per cent of their population respectively in villages and towns. The working population accounts for 40,579 persons or 47.46 per cent of their population in the district. Workers in special occupations like (i) tanning and currying of hides and skins and (ii) scavenging number 1,398 (1.64 per cent) and 1,473 (1.72 per cent) respectively of the total population of Scheduled Castes of the district.

Tables of SCT series in Census of India 1961 Volume V-Gujarat-Part V-A show details as to number of Scheduled Castes/Tribes, industrial categories, marital status, religion, etc., for each Scheduled Caste/Tribe. Sex and percentage distribution of Scheduled Castes' population by rural/urban in the district is shown in the table given below.

Percentage distribution of Scheduled Castes population by rural/urban, 1961

Name of Scheduled Caste	Total population			Sex		Percentage to total population of the district			Percentage of each Scheduled Castes population	
	T	R	U	M	F	T	R	U	R	U
1	2	3	4	5	6	7	8	9	10	11
Total	**85,488**	**71,902**	**13,586**	**43,280**	**42,208**	**6.86**	**5.77**	**1.09**	**84.11**	**15.89**
Bava (Dedh) or Dedh Sadhu	590	502	88	309	281	0.05	0.04	0.01	85.08	14.92
Bhangi or Rukhi	7,506	2,583	4,923	3,858	3,648	0.60	0.21	0.39	34.41	65.59
Chamadia	39	38	1	20	19	..	..	..	97.44	2.56
Chamar, Nadia or Rohit	9,511	8,821	690	4,736	4,775	0.76	0.71	0.05	92.75	7.25
Garmatand	23	23	..	15	8	..	..	..	100.00	..
Garoda	673	574	99	335	338	0.05	0.04	0.01	85.29	14.71
Hadi	5,583	4,378	1,195	2,802	2,771	0.45	0.35	0.10	78.56	21.44
Meghwal	18,129	16,589	1,540	9,128	9,001	1.46	1.33	0.13	91.51	8.49
Thori	6	..	6	6	..	..	..	..	100.00	..
Turi	25	14	11	11	14	..	..	..	56.00	44.00
Turi Barot or Dedh Barot	190	181	9	107	83	0.02	0.02	..	95.26	4.74
Vankar, Dedh or Antayaj	42,434	37,439	4,995	21,544	20,890	3.41	3.01	0.40	88.23	11.77
Unclassified	780	760	29	409	380	0.06	0.06	..	96.32	3.68

The predominant Scheduled Castes in the district are Vankar, Dedh, or Antayaj having 42,434 souls or 3.41 per cent of the total population of the district, of whom 88.23 per cent live in villages and 11.77% in towns.

4.11 (ii) Scheduled Tribes

Scheduled Tribes claim 6,803 or only 0.55 per cent of the total population of the district and 0.21 per cent of the Scheduled Tribes of the State.

The following table gives the figures of Scheduled Tribes in the district.

Population of Scheduled Tribes, 1961

Total/Rural/ Urban	Population	Percentage of total population
1	2	3
Total	**6,803**	**0.55**
Rural	6,280	0.70
Urban	523	0.15

The literate and educated among them number 174 or 2.56 per cent of whom 119 are returned from rural areas and 55 from urban areas.

5 HOUSING

5.1 Housing Census for the first time

In previous censuses, occupied census houses used as dwellings alone were numbered and listed. Non-residential houses such as shops, factories, workshops, temples, mosques, schools, sarais, office premises and business houses, etc., were not entered in the house-list, as it was not necessary to do so for the purposes of enumeration. They have been brought under the purview of the 1961 Census when a regular housing census was taken for the first time with a view to account for all structures, dwellings or non-dwellings. With the adoption of a uniform house-list throughout the country, important data such as material of wall and roof, tenure status and number of rooms in case of households, number of persons per room and essential data such as name of the proprietor, products manufactured, number of persons employed and kind of fuel or power, if machinery is used in case of workshops and factories, have been collected for the first time on this occasion.

5.2 Types of Census houses and their uses

The following table gives the distribution of different types of census houses and the uses to which they are put.

Census houses and the uses to which they are put, 1961

Sl. No.	Type of Census houses	Census houses: Number	Census houses: Percentage to total No. of Census houses
1	2	3	4
1	**Total No. of Census houses**	**324,393**	**100.00**
2	Vacant houses	30,129	9.29
3	Dwellings, shop-*cum*-dwellings workshop-*cum*-dwellings	220,159	67.87
4	Shops and Business houses	15,871	4.89
5	Factories, workshops and *worksheds*	5,103	1.57
6	Schools, places of entertainment, medical and social institutions	3,822	1.88
7	Hotels, restaurants and other miscellaneous houses	49,303	15.20

Out of a total of 324,393 houses, 67.87 per cent were used as dwellings, 9.29 per cent were vacant and the rest were used for non-residential purposes such as shops business houses (4.89 per cent); factories and workshops (1.57 per cent); schools, places of entertainments and medical and other social institutions (1.88 per cent) and other miscellaneous uses as hotels, restaurants and other places, etc., (15.20 per cent). Tenurewise analysis of the households revealed that of the total households, 71.57 per cent lived in owned houses, and the rest 28.43 per cent in rented ones. In rural areas 85.81 per cent of the households live in owned houses, and 14.19 per cent in rented ones. In urban areas 39.46 per cent of the households live in houses of their own and 60.54 per cent reside in rented houses. The higher proportion of rented houses in urban areas indicates the increased demand of houses on the part of those attracted towards towns. An analysis of the material of wall and roof shows that the predominant materials were stones and mud in case of walls and tiles and conerete and stones in case of roof. The percentage of households having walls with stones and mud was 75.66 per cent and 11.93 per cent respectively. Households having roofs covered with tiles, etc., accounted for 80.43 per cent and those with stones 16.15 per cent.

5.3 Households classified by number of members and rooms occupied

The most important classification, however, was one by the number of rooms in the

houses occupied by sampled households, given in the following table.

Households classified by number of members and number of rooms occupied, 1961

No. of rooms	Percentage to total households	Percentage to total members
1	2	3
No regular room .	0.17	0.15
1 room . .	68.36	61.87
2 rooms . .	21.37	23.93
3 rooms . .	5.32	6.93
4 rooms . .	2.74	3.74
5 rooms or more .	2.04	3.38

According to this classification 68.36 per cent of the households lived in houses with one room, 21.37 per cent and in houses with two rooms, and 10.10 per cent only in houses with more than two rooms. The population living in two rooms and less jointly account for 85.80 per cent of the total sampled population. The average number of members per room in households occupying houses with one room was 5.17 while that for households living in houses with 2 rooms was 3.20. These figures amply reflect growing overcrowding and the inadequate housing facilities in the district as in the State as a whole.

5.4 Housing tenements constructed by Housing Board

Under the industrial housing schemes formulated by the Government, to relieve the shortage of housing in towns especially in the industrial and slum areas, 280 tenements were constructed at Veraval, Shahpur and Porbandar during the two plan Periods.

6 AGRICULTURE

6.1 Land Utilisation

The utilisation of land resources forms a major item in any programme of economic planning in an economy which is predominantly agricultural. It reveals the various uses to which land is put and also indicates improved ways of exploitation of sit resources for better production.

Land utilisation 1956–57 and 1960-61

Sl. No.	Item	1956–57 Area in acres	Percentage of total area	1960–61 Area in acres	Percentage of total area
1	2	3	4	5	6
1	**Total geographical area**	**2,611,000**	**100.00**	**2,517,100**	**100.00**
2	Area under cultivation	1,480,800	56.71	1,472,400	58.50
3	Area other than cultivation	1,130,200	43.29	1,044,700	41.50
(i)	Cultivable waste, permanent pastures and other grazing lands	4,276	0.17	3,317	0.13
(ii)	Other uses	1,125,924	43.12	10,41,383	41.37

Note:

The figures for the year 1956–57 are for the district as constituted then and not as constituted in 1961. Further details are available in Official Statistics Table No. 3.1 published in Part II of this Handbook.

Comparison between the previous year is not possible (i) in view of the changes in classification of land utilization and (ii) territorial changes in the district. In 1960–61 the area under cultivation was 58.50 per cent of the total geographical area and that put to uses other than cultivation 41.50 per cent. Of the latter 0.13 per cent is cultivable waste, permanent pastures and grazing lands and 41.37 per cent put to other uses which include 315,000 acres under forest.

6.2 Cropping Pattern

The changes in the cropping pattern during the quinquennium can be seen from the following table.

Percentage of area under different crops during 1956–57 and 1960–61

	Crop	1956-57	1960-61
	1	2	3
1	Rice . . .	1.19	2.01
2	Wheat . . .	1.86	2.47
3	Jowar . . .	10.07	11.58
4	Bajari . . .	32.27	15.26
5	Other cereals . .	0.03	0.12
	Total cereals . .	*45.42*	*3144*
6	Gram . . .	0.93	0.20
7	Other pulses . .	0.94	0.50
	Total pulses . .	*1.87*	*0.70*
8	Sugarcane . . .	0.30	0.53
9	Fruit and Vegetables (excluding potatoes) .	0.81	0.68
10	Condiments and Spices .	0.38	0.30
11	Other food crops . .	..	0.04
	Total food crops	**48.78**	**33.69**

Percentage of area under different crops during 1956–57 and 1960–61-contd.

	Crop	1956–57	1960–61
	1	2	3
12	Groundnut	32.56	45.54
13	Sesamum	1.27	0.43
14	Castor seeds	0.29	0.18
15	Other oil seeds	0.01	0.03
	Total oil seeds	*34.13*	*46.18*
16	Cotton	12.38	10.66
	Total fibres	*12.38*	*10.66*
17	Other drugs and narcotics	0.03	0.03
	Total drugs and narcotics	*0.03*	*0.03*
18	Other non-food crops	4.68	9.44
	Total non-food crops	**51.22**	**66.31**
	Total area under crops	**100.00**	**100.00**

Details as to area and outturn for the years 1956-57 to 1960-61 for the above crops are available in Official Statistics Table 3.2 in Part II of this Handbook

The principal food crops of the district are bajri (15.26 per cent) and jowar (11.58 per cent). *Groundnut (45.54 per cent) and cotton* (10.66 per cent) are the main non–food crops. The percentage comparison of different crops indicates that the food crops are gradually declining from 48.78 per cent in 1956–57 to 33.69 per cent in 1960–61, with a corresponding gain of 15.09 per cent in non-food crops. Groundnut has risen from 32.56 per cent in 1955-56 to 45.54 per cent in 1960-61 and jowar from 10.7 per cent to 11.58 per cent during the same period. Among crops groundnut (45.54 per cent), bajri (15.26 per cent), jowar (11.58 per cent) and cotton (10.66 per cent) account for 83.04 per cent of the total cropped area. The next in importance is other non–food crops which claim 9.44 per cent of the area sown.

6.3 Crop Calendar

The months of sowing and harvesting of different crops are given below.

Crop Calendar

Name of crop	Months of sowing	Months of harvesting
1	2	3
Rice	July	November
Wheat	October–November	February–March
Jowar	July	November
Bajri	July	November
Gram	October	February
Groundnut	July	November
Sesamum	July–August	December–January
Sugarcane	February	December–January–February
Cotton	July	December–January
Onions	October	May
Chillies (dry)	August	March

7 LIVESTOCK

7.1 Livestock

According to the livestock censuses of 1951, 1956 and 1961, the cattle population of the district is found to be distributed as under.

Livestock 1951, 1956 and 1961

Categories of livestock	1951	1956	1961
1	2	3	4
Total livestock	**615,277**	**826,876**	**796,006**
A Bullocks and Cows	298,104	458,936	459,623
1 Males over 3 years	138,828	195,067	199,529
2 Females over 3 years (in milk)	110,270 (73,770)	121,846 (67,562)	134,004 (63,832)
3 Young stock	49,006	142,023	126,090
B *Buffaloes*	138,854	156,355	166,163
1 Males over 3 years	1,480	1,418	2,493
2 Females over 3 years (in milk)	*107,827* (87,457)	*98,186* (55,327)	*105,558* (54,126)
3 Young stock	29,547	56,751	58,112
C Sheep	80,863	107,656	85,042
D Goats	89,856	85,258	69,160
E Horses and Ponies	5,800	12,332	10,283
F Mules	47	37	37
G Donkeys	1,500	5,766	4,866
H Camels	218	532	832
I Pigs	35	4	..

The livestock population of the district has increased during the last ten years as seen from an increase by 29.37 per cent only between 1951–1961 though there was an increase of 34.39 per cent in 1956. While milched buffaloes have steadily declined during the said period their males and young stock show an increase of 48.80 per cent.

Significant increase in the number of bullocks indicates progress in the agricultural sector, cows and their young stock have also increased during the decade. Horses, ponies, camels and donkeys have increased to a varying extent during the decade.

7.2 Agricultural Tools and Implements

The number of wooden ploughs in 1951 were 41,591 which increased to 76,421 in 1956 and rose to 77,459 in 1961. The number of iron ploughs has also been found to be increasing steadily as they rose to 6,747 in 1956 and 6,656 in 1961 from 1,455 in 1951. The number of

carts in 1951 was 14,553 which increased to 53,664 in 1956 and rose to 56,228 in 1961.

Number of sugarcane-crushers and oil engines in the district were 147 and 91 only in 1951; sugarcane-crushers increased from 377 in 1956 to 782 in 1961 and oil engines from 1553 to 7443 during this period. The number of tractors also rose from 19 in 1956 to 135 in1961. The alround increase in number of agricultural tools and implements within a decade reflects the switch over from the age old primitive methods of cultivation to modern methods of extension and farming practices being gradually adopted by cultivators under the Community Development programme. Oil *ghanis* show a steep decline in their number from 305 in 1956 to 69 in 1961 due to increasing mechanisation of this industry.

7.3 Animal Husbandry and Veterinary Aid

During 1955-56, one artificial insemination centre was opened at Junagadh. As a result of good response from the cultivators, more sub= centres were started and the Junagadh centre was expanded. During the Second Plan period, scheme to breed 200 pedigree bulls to be supplied to the various needy centres in the district to improve the breed of cattle was continued. One Poultry farm with 900 birds of improved breed is opened and necessary kits with an incubator are supplied to poultry farmers on loan basis. There were 15 veterinary dispensaries and numerous stockman centres functioning in the district by the end of the Second Five Year Plan. The veterinary aid provided to the livestock includes major and minor operations, treatment of all types of medical cases and advice through trained veterinary personnel. There are 4 first-aid centres catering to the immediate need of the livestock.

7.4 Fisheries

The district has 145 miles of marine fisheries coast line. Much progress has been made in the mechanisation of the industry during the decade. The extensive sea board between Rajpara and Porbandar ports offers opportunity for the development of the fishing industry. The coast of the district is one of the richest fishing grounds in India. The Government of India's offshore Fishing Station and the Central Marine Fisheries Research Institute's offshore and Survey Unit, Fishermen Training Centre, Demonstration and Marine Extension Unit located at Veraval have accelerated the catches. At the end of the Second Plan, catches of 183,071 lbs. were reported.

The main varieties of fish found in the district are :-

1 Prime fish zone

(1) Pomphret
(2) Hilsa
(3) Seer
(4) Prawns

2 Inferior fish zone

(1) Bombay ducks
(2) Sharks
(3) Coilia

The peak season for fishing is January and February. During this season, the best variety of Pomphret fish is found. The other best varieties are Chhappari. Halva, Chakari, Sheri and Vam.

8 IRRIGATION

8.1 Sources of Irrigation

Irrigation facilities were not much developed in this district before 1951. Since then irrigation facilities are increasing in the district. In 1960-61 source of irrigation for all Practical purposes is wells, which irrigates 134,100 acres or 96.54 per cent of area under irrigation. Of the rest Government canals irrigated 4,600 acres or 3.28 per cent and other sources accounted for 200 acres or 0.18 per cent.

8.2 Area Irrigated

In 1960-61 the net area irrigated was 139,000 acres or 9.4 per cent of the net area sown as against 121,500 acres or 8.2 per cent of the net area sown in 1956-57. Main crops under irrigation are rice, wheat, jowar, cotton, fodder crops and bajri. There is no significant change in the area irrigated in respect of other crops between the period

1956–57 and 1960–61. Area irrigated under main crops in these years is shown below.

Area irrigated under main crops, 1956-57 and 1960-61

Crops	Acres in 1956-57	1960-61
1	2	3
Rice	18,000	30,600
Wheat	28,200	35,200
Jowar	17,200	19,300
Bajri	14,500	20,200
Cotton	17,600	32,300
Fodder crops	10,500	18,500

As compared with 1956–57 area of cotton under irrigation has nearly doubled in 1960–61 when cotton was sown in 26.48 per cent of the land under irrigation followed by wheat 19.91, rice 17.28, bajri 14.53, fodder crops 11.46 and jowar 9.22 per cent of the total area under irrigation.

8.3 Irrigation Projects

At the end of the First Five Year Plan, 18 works of minor irrigation were completed in the district. During the Second Five Year Plan, Ozat Irrigation Scheme (Uben section and Ozat section) and Raval Irrigation Scheme were completed. A Scheme to bund the river Uben near Kerala village of Junagadh taluka was completed at a cost of Rs. 13 lakhs. So far the Scheme has provided irrigation facilities to 2,000 acres of land, against an estimated target of 5,000 acres. Raval Irrigation Scheme envisaged construction of a pick-up weir across the river Raval near village Mahobatpara in Una taluka. The scheme was completed in 1960 and will irrigate 5,000 acres of land. Other medium irrigation schemes during the Third Five Year Plan are Hiran, Machhundri and Kalindri. The irrigation potentialities of these three schemes are 6,464, 6,500 and 3,600 acres respectively. There are no major irrigation schemes in the district.

9 CO-OPERATION

9.1 Co-operative Societies and their types, etc.

The co-operative movement has made rapid progress in the district in the last decade, during which period the number of societies has gone up from 79 to 738. In 1960–61 these 738 cooperative societies were having a membership of 91,184 persons, share capital of Rs. 624.51 lakhs and loans advanced during the year 1960–61 being Rs. 464.18 lakhs. The average membership per society was 122 persons; average share capital and working capital per society came to Rs. 18,000 and Rs. 82,000 respectively. The average loan advanced per society was Rs. 61,000 whereas average loan advanced per member was Rs. 500.

The following table gives information about agriculture credit, agriculture non-credit, non-agriculture-credit and non-agriculture non-credit societies for the year 1960-61.

Type of co-operative societies, 1960-61

Rs. in '000

Type	No. of societies	Members	Share capital	Working capital	Loans advanced
1	2	3	4	5	6
1 Agriculture credit societies	477	63,505	8,592	26,990	15,058
2 Agriculture non-credit societies	40	2,649	1,333	3,587	..
3 Non-agriculture credit societies	39	14,753	742	3,101	3,308
4 Non-agriculture non-credit societies	182	10,277	387	3,022	..

It may be seen that agriculture credit societies alone constitute 64.63 per cent of total societies and 69.64 per cent of total membership.

9.2 Central Bank

There is one Central Bank and banking union having 602 members. The share capital of this bank is Rs. 31.07 lakhs and working capital Rs. 257.51 lakhs. The bank has advanced Rs. 277.27 lakhs towards loans during the year 1960-61.

9.3 Agricultural Markets

The Agriculture Market Committee was established in this district in 1956–57 in Una taluka, which covered 66 villages and its jurisdiction has increased to 128 villages in 1960-61.

The commodities regulated in this market are wheat, jowar, bajri, paddy, groundnut, cotton, udid and jaggery. The income of the committee in the 1956–57 was of Rs. 2,396.53 and has gone up to Rs. 26,024.60 in 1960-61. Likewise the expenditure has risen from Rs. 1,740.70 in 1956–57 to Rs. 7,437.35 in 1960-61.

10 ECONOMIC ACTIVITY

10.1 Definitions

The criterion of income or economic independence was adopted for measuring the economy of the country during the past censuses. On the present occasion emphasis is on the work done or the economic activity pursued by an individual so that all people such as family workers and children who work but do not earn enough for their maintenance are also accounted for as workers. Another important change relates to the presentation of the economic data according to the nine industrial categories of workers and non-workers instead of the eight livelihood classes classified by self-supporting persons and their dependants in 1951.

Status of Employment

Persons doing work other than that as cultivator or Agricultural labourer or engaged in Household Industry have been classified into following four categories.

(i) Employer, (ii) Employee, (iii) Single worker and (iv) Family worker. In view of the wide range of economic data included in this section, it will be useful to define in brief the various terms used.

(*i*) *An Employer* is a person who has to employ other persons in order to perform the nature of work undertaken by him.

(*ii*) *An Employee* is a person who usually works under some other person for salary or wages in cash or kind.

(*iii*) *A Single Worker* is a person who works by himself but not as head of household in a household industry. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually.

(*iv*) *A Family Worker* is a member of the household who works without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season.

Industries are classified as Household and non-household. A household industry is defined as an industry which is not run on a scale of a registered factory and conducted by the head of the household himself and/or mainly members of the household at home or within the villages in rural areas and only home in urban areas. Rest of the industries, viz., business, trade, profession or service are non-household industries.

10.2 Distribution of workers & non-workers

The following table gives the distribution of population by workers and non-workers.

Distribution of population by workers and non-workers, 1961

Workers/Non-workers	Persons		Percentage to total population	
	State	District	State	District
1	2	3	4	5
Total Population	**20,633,350**	**1,245,643**	**100.00**	**100.00**
Workers	8,474,588	529,598	41.07	42.52
Non-workers	12,158,762	716,045	58.93	57.48

The population of the district is distributed into workers and non-workers in the ratio of 42.52: 57.48 with the corresponding ratio of the State standing at 41.07: 58.93. The following statement shows the distribution of workers into 9 industrial categories.

Distribution of workers and percentage of total workers, 1961

Sl. No.	Category of workers	Population		Percentage of total workers	
		State	District	State	District
1	2	3	4	5	6
1	As cultivator	4,519,060	303,476	53.32	57.30
2	As agricultural labourer	1,252,000	59,095	14.77	11.16
3	In Mining, quarrying, livestock, forestry, fishing, hunting, plantation, orchards and allied activities	104,850	10,030	1.24	1.89
4	At household industry	555,606	35,291	6.56	6.66
5	In manufacturing other than household industry	536,159	20,109	6.33	3.80
6	In construction	90,043	5,965	1.06	1.13
7	In trade and commerce	411,156	28,526	4.85	5.39
8	In transport, storage and communications	159,061	9,950	1.88	1.88
9	In other services	846,653	57,156	9.99	10.79

Amongst the working population, cultivators account for 57.30 per cent and agricultural labourers 11.16 per cent in the district as against 53.32 per cent and 14.77 per cent respectively for the State. The striking feature of the economic pattern obtaining in the district as elsewhere in the State is predominantly agricultural as revealed by 68.46 per cent of workers engaged in agricultural pursuits. Next in order are other services (10.09 per cent) household industry (6.66 per cent) and trade and commerce comprising 5.39 per cent while manufacturing industries account for 3.80 per cent only.

10.3 Class of worker

Industrial classification by sex and class of worker of persons at work in household and non-household industry are shown in details in census Tables B-IV-A and B.

Persons at work in household industry

	Persons	Percentage
Total	**35,291**	**100.00**
Employees	2,884	8.17
Others	32,407	91.83

As stated earlier, household industry is run mostly by members of the household, the need for having employees working for salary or wages being negligible.

Persons at work in non-household industry, trade, business, profession or service

	Persons	Percentage
Total	**131,736**	**100.00**
Employers	10,083	7.65
Employees	53,051	40.27
Single workers	54,382	41.28
Family workers	14,220	10.80

It will be seen from the above figures that in non-household industries, trade, business, profession or service, single workers (41.28per cent) predominate and account for more then 1/3rd of the workees engaged in these categories where as employers account for 40.27 per cent, family workers 10.80 per cent and employers 7.65 per cent only.

10.4 Principal and secondary work

Principal work : In case of a person who is engaged in more than one productive activity, the principal work is the one on which the person spends most time.

Secondary work : The work which is the next in importance to his principal work which occupies most time is secondary work.

Persons working principally as cultivators, as agricultural labourers or at household industry and following any of these as secondary work as given in Table B-VII Part-A are as under.

(A) Persons working principally as cultivators and doing secondary work at

(i) household industry 1,404

(ii) as agricultural labourers 2,889

Persons working principally as agricultural labourers and doing secondary work at

(i) household industry . 410

(ii) as cultivator . . 740

Persons working principally at household industry and doing secondary work as

(i) cultivator	1,070
(ii) agricultural labourer	1,064

(B) In Table B-VII Part-B persons working in non-household industry, trade, business, profession or service who are also engaged in household industry are 421.

Persons who are working principally as cultivators and to whom agricultural labour is a secondary activity are proportionally larger, probably due to the paucity of land. Similarly the fact that a large proportion of workers at household industry work at cultivation to supplement their income also brings out the complementary nature of cultivation and household industries.

10.5 Occupational Classification

The two concepts, viz., industry and occupation are quite distinct, though often mistaken for each other. 'Industry' means that sector of economic activity in which the earner is engaged, e.g., textile industry, automobile industry, whereas the 'occupation' describes the exact function that an individual performs in that economic activity, e.g., fitter, carpenter, etc.

Table B-V in Part II shows the distribution of persons at work other than cultivation. This type of detailed classification based on National Classification of Occupations has been done for the first time in 1961. The percentage distribution for the State and the district is given below.

Percentage distribution of workers according to Occupational Divisions, 1961

Occupational Division	State	District
1	2	3
0 Professional, technical and related workers	5.95	5.31
1 Administrative, executive and managerial workers	2.32	2.48
2 Clerical and related workers	6.41	5.57
3 Sales workers	13.88	15.58
4 Farmers, fishermen, hunter, loggers and related workers	11.73	13.04
5 Miners, quarrymen and related workers	0.58	2.30
6 Workers in transport Storage, and communication occupations	4.24	4.68
7-8 Craftsmen, production, process workers and labourers not elsewhere classified	46.67	43.04
9 Service, sport and recreation workers	7.96	7.97
X Workers not classified by occupation	0.26	0.03

The most important occupational divisions in the State as well as the district are divisions 7-8, craftsmen, production process workers and labourers not elsewhere classified, divisions 3 sales workers and division 4 farmers, fishermen, etc. A comparatively higher percentage of 13.04 per cent in the district of occupational division 4 against the corresponding proportion of 11.73 per cent in the State can be attributed to the greater percentage of persons in the rearing of cattle, logging of woods, etc., and other allied activities in rural areas.

10.6 Non-workers

Non-workers account for 716,045 persons, 295,451 males and 420,594 females. The distribution of non-workers by eight broad categories is shown in Table B-IX in Part II. Percentage distribution of non-workers by sex according to their type of activity is shown below for total/rural/urban, 1961.

Distribution of non-workers according to type of activity, 1961

Sl. No.	Categories of Non-workers	Total/Rural/ Urban	Males	Females
1	2	3	4	5
1	Full-time students	T	27.4	7.6
		R	22.2	4.9
		U	38.1	12.2
2	Households duties	T	0.2	39.8
		R	0.2	33.5
		U	0.2	59.7
3	Dependents, infants and disabled	T	68.4	51.3
		R	74.8	60.3
		U	54.9	35.8
4	Retired, rentiers, etc.	T	1.6	1.1
		R	0.9	1.0
		U	3.1	1.1
5	Beggars, vagrants	T	1.4	0.2
		R	1.5	0.3
		U	1.2	0.2
6	Inmates of penal, mental and charitable institutions	T	0.1	..
		R	..	..
		U	0.4	..
7	Persons seeking employment for the first time	T	0.4	..
		R	0.2	..
		U	0.9	..
8	Unemployed but seeking work	T	0.5	..
		R	0.2	..
		U	1.2	..

The distribution pattern of non-workers among males and females is very dissimilar. Among male non-workers, 27.4 per cent are full-time students and 68.4 per cent dependents, who

jointly account for 95.8 per cent as against 7.6 and 51.3 per cent accounting 58.9 per cent respectively among females. Higher percentages of dependents among males is likewise explained by the general absence of household duties among males who claim 0.2 per cent in this category against 39.8 per cent among females.

The higher percentage of full-time students in the urban sector as compared to rural is, however, explained by the greater consciousness and opportunities towns people have in the matter of education. The percentage of females engaged in household duties is found to be higher in urban areas than that in rural areas, womenfolk in villages in addition to their attending to household chores also participate in agriculture and household industry. While the percentage of unemployed persons seeking work is insignificant for males, that for females is nil.

11 INDUSTRIES, POWER AND MINING

11.1 Registered Factories

There were 160 registered factories in the district in the year 1961, employing on an average 8,926 persons daily. From the point of view of employment offered, food, drink and tobacco are the most important industry in the district. There were 92 factories in the district under this group employing on an average 2,738 persons or 30.67 per cent of the total factory employment per day. Next in importance is cotton textiles with 3 units which employed 1,931 persons and constituted 21.63 per cent of the total employment in factories. Important, amongst the rest are the chemical dyes and cotton ginning and pressing factories providing employment to 1,077 and 1,058 persons respectively. The Government and local fund factories with 14 units employ 1,048 persons.

11.2 Joint Stock Companies

There were 27 joint stock companies functioning on the 31st March, 1961 with authorised capital of Rs. 487 lakhs and subscribed capital of Rs. 386 lakhs. The authorised and subscribed capital per joint stock company comes to Rs. 1.80 lakhs and Rs. 1.43 lakhs respectively. The joint stock companies classified as processing and manufacturing of food stuff, textiles, leather and products thereof dominate the joint stock field with a total authorised capital of Rs. 275 lakhs and subscribed capital of Rs. 169 lakhs. While such companies constitute 37.0 per cent of the total number of joint stock companies, their authorised and subscribed capital account for 56.4 per cent of authorised and 43.8 per cent subscribed capital of all the joint stock companies floated in the district.

11.3 Banking

There has been a steady increase in the banking facilities available in the district since 1950-51. The number of scheduled and co-operative banks in 1960-61 was 26 and 7 respectively. It is interesting to note that co-operative banks which were completely absent during the First and Second Plans have now increased to 7 in 1960-61, with 29 branches at different places in the district.

11.4 Small Scale Industries

For the effective utilisation of surplus manpower and raw materials, the cottage industries enjoy unique importance. The chief among the small scale and cottage industries of the district are metal working, lacquer working, papier mache, toy making, pottery and brick making, weaving and embroidery work, woolen blanket weaving, oil pressing, tanning, etc. Though these industries are found all over the district, the chief centres engaged in them are the urban centres of Junagadh, Porbandar, Veraval, Bantwa, Manavadar, Kutiyana, Vanthali and the rural centres of Mahiari, Sindhpur and Chhantrava in Mendarda mahal, Chhaya in Porbandar taluka and Sanakhada in Una taluka. During the year 1960-61, there were 75 such industrial co-operative societies with membership of 2,938 persons. The institution of Rupaytan working at Junagadh helps towards development of handicrafts.

11.5 Electricity and Power

The Gujarat Electricity Board and the Bilkha Electricity Supply Company are the chief source of

electric power in the district. In addition there are 12 power houses located at Chorward, Junagadh, Keshod, Manavadar, Mangrol, Porbandar, Shahpur, Talala, Una, Veraval Visavadar, and Sardargadh. The total number of towns and villages electrified was 6 in 1951 as against 44 villages and towns in 1961. The utilisation of Electricity has increased substantially during the Second Five Year Plan, from 44 thousand K.W.H. at the beginning of the Second Five Year Plan to 32,241 thousand K.W.H. in 1960-61. The utilisation of electricity under industrial power is considerable in 1960-61 (24,916 thousand K.W.H., revealing the greater demand made by industries for electricity in recent times.

Table given below gives the pattern of utilisation of electricity in the district in the years 1955-56 and 1960-61.

Units of electricity generated and sold, 1955-56 and 1960-61

[000K.W.H.]

Year	Electricity generated in K.W.H.	Kilowalt hours sold to public for				Total utilisation of electricity
		Domestic comsumption	Commercial light and small power	Industrial power	Other purposes	
1	2	3	4	5	6	7
1955-56	..	40	N.A.	N.A.	4	N.A.
1960-61	26,351	4,172	N.A.	24,916	3,153	N.A.

N.A.=Not available

The foregoing figures show that the pattern of utilisation of electricity has radically changed in 1960-61 as compared to that in 1955-56.

11.6 Factories and Workshops, classified by power and no power used

Statistics of census houses used as factories, workshops and worksheds classified by power and no power used have been compiled for the first time during the Census of 1961 and extracted below for the State and district.

Factories and workshops classified by power and no power used, 1961

Power of fuel	Rural/ Urban	State		District	
		No. of factories etc.	Percentage of total	No. of factories etc.	Percentage of total
1	2	3	4	5	6
Total	**R**	**34,447**	**100.00**	**3,703**	**100.00**
	U	**45,686**	**100.00**	**2,584**	**100.00**
Electricity	R	1,248	3.62	40	1.08
	U	12,311	26.95	464	17.96
Liquid fuel	R	4,687	13.61	401	10.83
	U	1,282	2.81	120	4.64
Coal, Wood and bagasse	R	3,039	8.82	193	5.21
	U	3,453	7.56	304	11.76
Other power	R	82	0.24	10	0.27
	U	85	0.18	3	0.12
No power	R	25,391	73.71	3,059	82.61
	U	28,555	62.50	1,693	65.52

The foregoing table is restricted to census houses used as factories and workshops classified by power and no power used in 1961.

Factories using electricity in rural and urban areas of the district are proportionately less than those in the State. The proportion of factories using electrical power is less in villages than in towns, both in the district and the State, owing to the paucity of electric supply and industries in rural areas. The use of liquid fuel in the villages is practically the same both in the district and the State. However, the proportion of liquid fuel is observed to be higher in villages than in towns, as they are readily available and necessitate separate accommodation which is readily available in rural areas. The proportion of factories using coal, wood and bagasse is 5.21 per cent in rural areas of the district as compared to 8.82 per cent in the State. In urban areas, however, this proportion is higher in this district (11.76 per cent) as compared to the urban areas of the State. This may be presumably due to the abundant supply of these products from the Gir forest.

The proportion of units using no-power is obviously much higher both in rural and urban

areas in the State as well as in the district owing to the predominance of traditional crafts and industries in our economy.

11.7 Mineral Production

Lime-stone is the main mineral product of the district. Veraval, Porbandar and Ranavav are the three main places where lime-stone is found. The production of lime-stone was 132,758 tons in the year 1956–57, while in the year 1960–61, it was 125,307 tons valued at Rs. 924,000. Salt is also one of the improtant other products of the district.

12 TRANSPORT AND COMMUNICATIONS

12.1 Roads

The facilities of transport and communications play a vital role in the economic development of the country. Their importance has increased with the development in various spheres of the economic activity. The follwoing statement indicates the progress of road mileage in Junagadh district.

Types of roads (in miles), 1950-51 to 1960-61

Types of roads	Road mileage	
	1950–51	1960–61
1	2	3
Total	**995.00**	**1,246.19**
1 National Highway	..	16.75
2 State Highway .	104.50	153.75
3 Major district roads	141.75	115.75
4 Other district roads	365.10	445.38
5 Village roads .	363.65	514.56

On the eve of the First Five Year Plan, total road mileage in the district was 995 which has increased to 1,246 miles in the year 1960-61.

In 1950-51 there was no National Highway passing through this district. In 1960-61 National Highway No. 8 B (Bamanbore to Porbandar) is passing through 16.75 miles of this district.

Classifying the road mileage in the district into metalled and non-metalled surface, it has been noticed that, of the total mileage of 1,246.19, 617.64 miles or 49.56 per cent are metalled and 628.55 miles or 50.44 per cent are non-metalled as aginst the corresponding maileages of 520.03 or 52.26 per cent and 474.97 or 47.74 per cent in 1950-51 under these two categories. All weather motorabale roads have thus increased by 97.61 miles or 18.77 per cent during the decade.

12.2 Railways

There are five branches of the Western Railway, with a total route mileage of 252.44 under metre gauge section which either pass through the district or are entirely within the district. Out of 15 talukas/mahals of the district, Mangrol taluka, Bhesan mahal and Mendarda mahal are not covered by the railways. The district has 50 railway stations. All other talukas and mahals are connected with the district headquarters by railway. There is 60.3 railway mileage per 1,000 square miles of area, 20.26 miles of railway per lakh of population.

12.3 Ports

The district has two intermediate ports namely, Porbandar and Veraval and eight minor ports—Miyani, Madhavpur, Shil, Mangrol, Navabandar, Simar, Rajpara and Sutrapada.

The Porbandar port is well-known for its passenger traffic, particularly from and to African ports, it being nearest on the Saurashtra coast line on the sea route to Africa. The following statement gives an idea regarding passenger traffic during the years 1957-58 to 1960-61 at the important ports, viz., Porbandar, Veraval and Navabandar.

Passenger traffic at important ports 1957-58 to 1960-61

		1957–58		1958–59		1959–60		1960–61	
		In ward	Out ward	In ward	Out ward	In ward	Out ward	In ward	Out ward
1		2	3	4	5	6	7	8	9
Porbandar	Foreign	2,535	2,208	2,764	2,039	2,025	1,823	2,492	1,165
	Coastal	145	55	60	112	266	34	170	34
Veraval	Foreign	..	..	..	..	..	..	..	..
	Coastal	1,084	1,007	773	1,366	1,270	1,460	1,557	1,039
Navabandar	Foreign	..	..	..	..	..	..	..	..
	Coastal	3,209	4,702	3,862	3,941	4,193	4,373	4,224	4,316

The main articles of imports are building materials, wood timber and dates and of exports are salt, cement, oil-cakes and cotton (raw). Total tonnage of import and export handled at all ports of the district has increased from 279,296 in 1950-51 to 385.778 in 1960-61. The following statement gives the tonnages of imports and exports cargo handled at important ports for the years 1950-51, 1955-56 and 1960-61.

Tonnage of cargo handled at important ports, 1950-51, 1955-56 and 1960-61.

	Imports			Exports		
1	1950-51	1955-56	1960-61	1950-51	1955-56	1960-61
	2	3	4	5	6	7
Porbandar	45,780	51,174	58,699	11,932	97,927	83,768
Veraval	66,780	66,265	86,902	40,738	81,510	136,723
Navabandar	1,494	3,342	5,959	1,090	2,411	3,139

It will be seen from the above statistics that imports have steadily increased during the decade while in case of exports, Veraval has made good progress, but Porbandar has shown a decline during the quinquennium 1955-56 1960-61.

12.4 Post and Telegraph

Communication system has an important bearing upon the economic life of the people. The following table indicates the growth of the postal system in the district.

Number of post and telegraph office 1957-58 to 1960-61

	1957-58	1958-59	1959-60	1960-61
No. of post offices	121	123	133	232
No. of telegraph offices	25	28	28	28
No. of telephone offices	11	19	24	25
No. of postmen	85	96	82	87
No. of letter boxes	484	496	497	523

The number of post offices has increased from 121 in 1957-58 to 232 in 1960-61. The average number of villages served per post office in 1960-61 comes to 4 in the district. Talala mahal being situated in the forest area has only 14 post offices for 99 villages and one town. The number of radio licences issued were 5,092 in 1957-58, 6,414 in 1958-59, 7,464 in 1959-60 and 9,412 in 1960-61.

13 MEDICAL AND PUBLIC HEALTH

13.1 Medical Institutions

During 1960, medical facilities in the district were provided by the State through 98 medical institutions, which include 7 hospitals, 46 dispensaries, 18 rural/maternity health centres and 27 Ayurvedic dispensaries. The staff in these institutions consisted of 143 doctors and 130 nurses. The number of beds in the district was 623 and the number of indoor and outdoor patients treated was 76,709 and 1,943,360 respectively.

13.2 Vital Statistics

The statement given below shows vital statistics of the district for the year 1957-60.

Birth Rate, Death Rate and Natural Increase in Population, 1957-60

Year	Birth rate	Death rate	Natural increase in population
1	2	3	4
1957	21.2	12.8	+ 8.4
1958	18.9	9.8	+ 9.1
1959	28.8	11.9	+16.9
1960	25.6	11.5	+14.1

The data on vital statistics available being incomplete and defective are useful for drawing general conclusions only. They indicate a fall in the death rate and rise in the rate of survival which can be reasonably attributed to improvement in medical and health facilities since Independence.

13.3 Health Centres

The different public health measures to check the incidence of various diseases in the district

are (a) vaccination and revaccination, (b) malaria control, (c) primary health centres and maternity and child welfare centres in rural areas, (d) water supply schemes and (e) family planning centres. During 1960-61, entire population of the district was protected against malaria by covering all the households in 2 rounds by spraying, D.D.T. powder on mass scale. The number of cases of fever detected was 23,342. On examination of 18,541 cases of blood smears only 226 cases of malaria were observed. Under the programme of providing medical relief through primary health centres in rural areas, 11 maternity and child health centres and 7 rural health centres were started in the district by 1960. Small pox was controlled by introducting compulsory vaccination scheme. Special drugs to combat filaria and guinea worm were distributed in coastal areas. The State Government introduced B.C.G. vaccination scheme in 1948. The incidence of malaria and filaria was brought down by intensive programmes under the National Malaria and Filaria Control Schemes.

Water Supply Schemes

Water supply schemes under progress are (1) Vanthali water supply schemes, (2) Veraval water supply scheme, (3) Mangrol water supply scheme and (4) Ghed villages water supply scheme.

14 LABOUR AND SOCIAL WELFARE

14.1 Labour Welfare

The Observation Home, Junagadh was started from 1-4-1957. During 1960-61, 70 delinquents were admitted; out of which 44 were discharged and acquitted. The admitted boys and girls are given training in literacy classes up to the eighth standard. Those who are required to be taught in the higher standard are sent to the nearest school under escort. The children are also trained in some craft work such as paper work, flop-board making, envelopemaking, file making, weaving of cotton strings and cot tapes, etc. Recreational and entertainment facilities are also provided.

14.2 Employment Exchange

The present Employment Exchange started functioning from December 1955. At the end of March 1961, there were 5,259 applicants on the live register.

The details regarding number of candidates registered, vacancies notified and placements can be seen from the following table:—

	1956-57	1960-61
Number of candidates registered	3,173	5,259
Vacanacies notified . .	495	1,466
Placements	332	1,041

Number of candidates registered, increased, from 3,173 in 1956-57 to 5,259 at the end of 1960-61. In 1956-57, 495 vacancies were notified with the local employment exchange, as against 1,466 in 1960-61. Out of these, 332 persons were given employment during the year 1956-57 and 1,041 persons were provided employment during the year 1960-61. This shows that since 1956-57, the employment provided through the exchange has nearly trebled.

15 PRICE TRENDS

The average prices of important food-stuff during each calendar month of 1961 collected for Junagadh, the headquarters of the district are given in Table 16.1 in Part II of this Handbook.

During the year 1961, the prices of superior cereals, viz., rice were highest (0.71 nP) in the month of June and that of wheat in two months of April and December (0-66 nP). As regards inferior cereals, jowar and bajri recorded highest prices respectively in the months of December (0-49 nP) and July (0-60 nP). Both gram and arhar (Dal) had highest prices in the month of December, while moong registered highest prices in June and udid in January 1961.

16 COMMUNITY DEVELOPMENT

16.1 Community Development Programme

The Community Development Programme, a unique and bold effort to mobilise public

enthusiasm and co-operation in rebuilding the rural economy of India was inaugurated in the district in October 1952. Manavadar, Vanthali and Keshod were among the first Community Development Projects taken up in India on 2nd October, 1952. The programme since then has undergone various organisational changes as a result of the recommendations of the Balawantray Mehta Committee, appointed by the Planning Commission in 1957 to examine the working of the C.D. programme and related matters and to recommend measures for improving the quality, tone and content of the programme. In pursuance of the recommendations of this committee the existing distinction between N.E.S. stage, intensive development stage and the post-intensive stage was abolished with effect from 1-4-1958. All the blocks under the All India Programme except blocks in the C. D. stage which had not completed their three years' period on 1-4-1958 were classified into stage I and stage II blocks with revised financial patterns and periods of operations. The Community Development Blocks, on completing their period, will enter stage II. A stage I block has a five year period of operation with a ceiling of expenditure of Rs. 12 lakhs for this period. It is "The Intensive Development phase in which people's participation would be promoted as the method of Community Development and panchayats will be intimately connected with the formulation of the Plans for their respective areas. The degree of success attained in the First Stage will be the evidence of the growth and functioning of self-reliant rural communities, which is the basic objective of the programme". Stage II of the programme with a provision of Rs. 5 lakhs for 5 years will seek to intensify the operation of the method of Community Development in its fuller amplitude and will have greater emphasis on Community Development rather than on development programmes as such.

16.2 Coverage of Programme

The following table gives the type, area, villages and population covered under the programme by March 1961.

Coverage under Community Development Programme by type of Block

Name of the block	Date of inauguration	No. of blocks of CPA pattern	Area covered in sq. miles 1961	No. of towns and villages covered	Population 1961
1	2	3	4	5	6
Stage I					
Porbandar	April 1957	1.00	435.4	73	171,225
Una	„ '57	1.00	396.9	196	129,452
Junagadh-Bhesan	„ '58	1.00	440.7	124	181,840
Veraval	Octo. '60	1.00	263.1	103	144,038
Stage II					
Manavadar	„ '52	1.00	233.2	59	89,276
Vanthali	„	1.00	149.9	46	62,662
Keshod	„	1.00	214.9	55	76,492
Pre-extension service,					
Mangrol	February '55	1.00	216.7	64	78,826
Ranavav-Kutiyana	„	1.00	435.1	80	97,925
Talala Gip	„	1.00	187.1	120	49,971
Visavadar	April, '56	1.00	292.0	110	65,352
Malia-Mendarda	„	1.00	349.1	108	98,864

By March 1961 the entire district was covered under the programme.

The total expenditure incurred till that date amounted to Rs. 8,127,000 as against people's contribution of Rs. 1,819,000 or 22.38 per cent of the total expenditure. The physical and financial progress achieved under the first and second stage of blocks up to the year ending 31st March, 1961 have been given in Official Statistics Table No. 15.1 published in Part II of this Handbook.

17 PROGRESS OF PLAN SCHEMES

17.1 Achievements

The decade 1951-61 roughly corresponds to the First and Second Five Year Plans, Agriculture and Community development account for a major part of the total expenditure. A short resume of the progress achieved under the Plans in various sectors is given in the following paragraphs.

17.2 Agriculture and Animal Husbandry

About 68 per cent of the population as per 1961 Census is dependent upon agriculture. Development of agricluture is primarily dependent upon

distribution of improved seeds. With a view to cope up with the increased demand for improved seeds, by the end of the Second Plan, 11 seed multiplication farms were functioning in the district. With the concerted efforts on this front, the acreage under improved seeds of wheat, cotton and groundnut has gone up considerably. To save the crop from diseases and pests, crop pesticides were sprayed in 171,051 acres of land during Second Five Year Plan. With a view to have better technique of production 4,370 improved implements were also distributed during this period. Agricultural research station at Junagadh, Khapat Farm at Porbandar and Groundnut Research Centre at Junagadh, are important research institutions set up in the district for the development of improved agricultural practices. The important addition to the facilities of higher education in agriculture is the Agriculture College, Junagadh opened in June 1960. The college is affiliated with the Gujarat University for the courses leading to B.Sc. degree in agriculture.

Preservation and qualitative improvment of cattle wealth constitutes an essential aspect of the Plan under 'Animal Husbandry'. During the First Five Year Plan, 9 veterinary dispensaries and one mobile dispensary were functioning in the district for the treatment of cattle. During the Second Five Year Plan, 5 new dispensaries were started bringing all the taluka/mahals within the purview of veterinary medical services. Provision of trained veterinary personnel constitutes important aspect of the Plan. During the Second Plan period, stockmen training centre, Junagadh trained 186 stockmen in veterinary science. With a view to bring a qualitative improvement in cattle wealth, one artificial insemination centre was started at Junagadh during the First Five Year Plan and developed during the Scond Five Year Plan period.

17.3 Forests

The First and Second Five Year Plans made significant progress towards preservation of forest wealth. To protect the land from soil erosion, plantation work on coastal border has been planned. During the Second Plan, 1,322 acres of land were covered by plantation work. For the rehabilitation of degraded forests, trees were planted in 3,221 acres of land during the First Plan period. Another important scheme was wild life preservation. With a view to attract tourists for seeing lions in their natural hatibation, 5 watch towers, 5 quarters and metalled roads of 5 miles were built.

17.4 Irrigation

Since the First Five Year Plan, there has been considerable expansion in irrigation services through various sources. During the First Five Year Plan, 18 minor irrigation works which were either for improvement or repairs of existing facilities were completed. Under minor irrigation 5,600 new wells were dug during the First Plan. During the Second Five year Plan, farmers were assisted in the construction of 7,992 new wells and repairs of 2,432 old wells.

Among medium irrigation projects, those completed under the Second Plan are (1) Ozat irrigation scheme and (2) Raval Irraigation Scheme. Under these schemes area likely to be irrigated would be 15,000 acres and 5,000 acres respectively. Four more irrigation works, viz., Ozat sections, Hiran, Machhundri and Sankhli are also in progress.

17.5 Co-operation

The schemes under co-operation have witnessed considerable progress. For co-operation, Rs. 1,504,118 were spent during the Second Five Year Plan. At the end of the First Five Year Plan, there were 414 co-operative societies, which have increased to 738 in 1960-61. The number of villages covered under the co-operative fold has increased from 963 in 1957-58 to 1,015 in 1959-60, with increase in membership from 40,554 to 58,671 during the corresponding period.

The market yard at Una under Agricultural Produce Market Act was started during the Second Plan period.

17.6 Education

During the First Five Year Plan, considerable progress was achieved in education sector. Second plan moved further to attain this target. During the First Plan, 404 primary schools were converted into basic types during the Second Plan. By the end of the First Plan, there were two training colleges for primary teachers and three additional colleges were started during the Second Plan. The importance of technical education has also been increasing. During the Second Five Year Plan, one technical high school at Junagadh and one polytechnic at Porbandar were started and five high schools converted into multipurpose high schools. Funds utilised for education came to Rs. 4,644,239 during the Second Plan period.

17.7 Public Health

To improve human health, medical and public health facilities were increased considerably. Due to alround national malaria eradication programme in the district, the percentage of persons suffering from malaria fell down from 6% in 1956–57 to 1 % in 1960–61. Under this head Rs. 21,302,472 were spent during the Second Five Year Plan.

17.8 Wel-fare of Backward classes

A total amount of Rs. 499.713 was spent for the welfare and uplift of backward classes during the Second Plan period of which Rs. 189,755 were for education and Rs. 86,995 as assistance for house building purposes.

17.9 Roads

There were 988 miles of roads at the beginning of the Plan which rose at the end of the First Plan to 1,031 miles. 215 miles of roads constructed during the Second Plan brought the total mileage of roads at the end of the Second Five Year Plan to 1,246. In all Rs. 25,37,000 and Rs. 14,678.000 were spent during the First and the Second Five Year Plans. During the Second Plan Rs. 2,564,000 were spent for the construction of 7 bridges.

17.10 Small Savings

The net collection has exceeded the target fixed at Rs. 40.00 lakhs for the district by Rs. 7.10 lakhs. Headwise break-up as to saving certificate, Post Office Savings Bank Deposits, Treasury Saving Deposits and Cumulative Time Deposits can be had from Table No. 17.5 printed in Part II of this Handbook.

17.11 Community Development Programme

Physical achievements under the Community Development Programme up to the year ending March 1961 include distribution of 146,167 B.mds. of fertilisers in the first stage blocks and 410,188 B. mds. in the second stage blocks 80,866 and 133,196 B.mds. of improved seeds were distributed in each of these types of blocks 7,272 compost pits were dug in both these types. Area reclaimed under the first stage blocks is 2,584 acres and that under the second 20,062 acres. 12,868 adults have been made literate in the first stage and 9,650 under the second stage blocks.

18 IMPORTANT PLACE NAMES

18.1 Important Places

Important places in the district

Bileshwar	Bileshwar Mahadev believed to be installed by Lord Krishna
Bilkha	Place of Sagalsa Sheth, a Vaishnav of great purity of life
Chorwad	One of the seaside summer resorts.
Gupt Prayag	Place where Lord Krishna is said to have stayed in a *Gupta* or secret manner
Jambur	Centre of Pilgrimage for Siddis
Junagadh	An ancient place with sacred Mount Girnar, rock edicts of Ashoka and Damodar Kund
Girnar	A sacred mount with five peaks, with Gorakhnath peak as the culminating point. Place where Lili Parikrama fair with a congregation of about one lakh is held. A centre of pilgrimage also for Jains, sacred to the 22nd Jain Tirthankar Neminath

Keshod	Air port
Porbandar	Sudama temple, Kirtimandir to commemorate the birth place of Gandhiji, the Father of the Nation
Prabhas Patan	The seat of one of the twelve Jyotirlingas of Lord Shiva
Prachi	Situated on the bank of the river Saraswati at a point where this river takes a turn towards the east (Prachi). The site of Pipal tree known as Moksha Pipal—supposed to relieve those possessed by evil spirits
Sasan (Gir)	Abode of the Gir lions found in the whole of Asia
Tulsishyam	Holy place of scenic beauty in the heart of Gir forest
Veraval	Important fishing port; 2 miles away from Prabhas Patan

Details of these and other places will be found in the Brief Gazetteer of place names given in this Handbook.

18.2 Ancient Monuments

As stated earlier, much of the history of Gujarat was made in this area and obviously the district is rich in ancient monuments. Official Statistics Table No. 18.3 gives details of each ancient monument together with the name of the village, place of location, the period of architecture, brief description, etc.

18.3 Fairs and Festivals

About 54 important fairs and 4 festivals are celebrated at different places in rural and urban areas of the district. The details regarding the place where it is held, name of the fair/festival, the date on which it is held/observed and the estimated congregation are shown in the Official Statistics Table No. 18.2 of this Handbook.

ANNEXURE

Teritorial changes after 28-2-1961

Sl. No.	District	Taluka/Mahal	Village amalgamated/ transferred	Particulars: Village amalgamated/ transfered — District	Particulars: Village amalgamated/ transfered — Taluka	Particulars: Date of effect	Particulars: Government orders	Remarks

GAZETTEER OF PLACE NAMES

DISTRICT JUNAGADH

V. P.=Village Panchayat; G. P.=Group Panchayat; M.=Municipality;
P.=Population; N.=North Latitude; E.=East Longitude.

1 Adityana, V. P. (Mahal Ranavav), P. 5,917

Founded in 1748, surrounded by forest areas nine miles to the north-east of Porbandar and being quite close to the Barda Hills, the village is just near Ranavav, a railway station on the Porbandar-Dhola metre gauge section of the Western Railway. In the hills to the east of the village is the large cave of Jambuvan in which lived the Bear king whose daughter Jambuvati married *Lord Krishna.*

In the hills to the north-east of the village is a good quarry of lime-stone commercially known as *Makhaniyo Pathar* (butter stone). Its adhesive quality of keeping the grains of the stone compact dispenses with the use of mortar and hence it is very useful as raw material for building purposes. Adityana limestone quarries are the best and largest in depth in the whole of Asia. They have inexhaustible quantity of very good lime-stone serving three cement factories and one soda ash factory at Porbandar in addition to their supplying lime-stone to the Tata Chemicals, Okha, and Dhrangadhra Chemicals, Dhrangadhra. White clay and white hard stones are also found here. The availability of the latter has recently brought into existence a cement factory owned by messrs. Saurashtra Cement and Chemical Industries Ltd., just opposite Ranavav Railway station.

2 Ankolwadi, V. P. (Mahal Talala), P., 2,660

It is situated at a distance of three miles from Hadmatia and is a most progressive village equipped with electric street lights, piped water supply with public stand posts, an asphalt road, a sanitary well, library building, a middle school and a *Mahila Mandal.* The Village Panchayat has won prizes at the State and district levels for such distinctive record of work.

3 Bantwa, M., (Taluka Manavadar), P. 14,078

It is at a distance of 29 miles west of Junagadh, a railway station on Junagadh-Saradiya metre gauge section of the Western Railway.

Bestowed by Nawab Bahadur Khan (Sher Khan Babi) on his brothers Diler Khan and Sher Zaman Khan in A.D. 1733 after being expelled from Gogho by Sohrab Khan, Bantwa was the seat of an old estate held by the Khans. It is one of the centres where a large number of displaced persons have settled consequent upon the migration of Muslims to Pakistan. It is also a business centre for groundnut and cotton with oil mills and ginning factories.

4 Bhesan, V. P., P. 4,143

Situated on the bank of the river Uben, at a distance of about twenty four miles by road from Junagadh is the headquarters of the mahal where all mahal offices are located.

Formerly this place was a "*Nes*" or hamlet, where some Rajputs of Ribda found their lost "*bhens*" or buffaloes; hence the hamlet derived the name of Bhesan. Situated at a distance of two miles from Bhesan is the shrine of an ascetic called Deudas credited with the miraculous powers of healing leprosy. A fair called the Parab fair with a congregation of 5 to 10 thousand persons is held on *Ashad Sud* 2 (June-July).

5 Bileshwar (Mahal Ranavav), P. 454

A small village to the east of Barda hills on the banks of the river Bil Ganga. Three miles from Sakhpur, it is a railway station on

the Porbandar-Dhola metre gauge section of the Western Railway.

The origin of the *Bileshwar Mahadev* is attributed to *Lord Krishna,* whose wife *Satyabhama* asked him to procure for her the *Parijatak* tree (Jatropha multifida) which grows only in *Indra's* garden. As *Krishna* took it against the wishes of *Indra,* fighting ensued between the two. Thereupon *Krishna* prayed *Gangaji* for help and the goddess issued out of a cave at this place which was named by *Krishna* as Bil Ganga. *Krishna* now adored God *Shiv* who promised the immediate fulfilment of his desires. The image of Lord *Shiv* was then installed by him at that sport and named *Bilvakeshwar* or *Bileshwar.* According to another belief, *Krishna* worshipped *Shiv* here with great devotion for seven months and the symbol (*Ling*) on which *Krishna* used to strew Bili leaves was called Bileshwar. Bileshwar temple, a pre-Solanki *Shiv* temple belonging to the period of sixth century is a protected ancient monument. A fair with an estimated congregation of about 4,000 people is held at this place, on *Shravan Vad 15* (August).

6 Bilkha, M. (Taluka Junagadh), P. 6,915

Lies at the foot of the Girnar clump in the south-east corner. It is a railway station on the Junagadh-Visavadar metre gauge section of the Western Railway. Known, in ancient times, as *Balisthan* or residence of Raja Bali, Bilkha was till Independence owned by Kathis of the *Vala* tribe, a branch of the Jetpur house.

One of the Princely States, Bilkha now forms part of the Junagadh Taluka. Sagalsha Sheth, a *Vania* of great purity of life, lived here in olden days. *Shiv* visited him one day in the garb of an ascetic to test his virtue and asked him to cut off the head of his only son Chalaiyo, pound it and then give it to him to eat. Sagalsha performed this sacrifice and *Shiv* satisfied with his sincerity and devotion restored Chalaiyo to life and granted them whatever they asked. Anand Ashram at Bilkha was established by Nathuram Sharma, a spiritual preceptor with sizeable following during his life-time. It has a High School and three Oil Mills.

7 Chhaya, V. P. (Taluka Porbandar), P., 5,761

Two miles south-east of Porbandar, Chhaya is situated on the west bank of the Porbandar creek with the Mokal Ran to its west.

After the Jethwa Rajputs abandoned Ranpur and before they made Porbandar their chief seat, Chhaya was their capital. This place is famous for hand-woven and hand-spun blankets and shawls which are in great demand these days.

8 Chorwad, V. P. (Taluka Malia), P., 9,900

Four miles away from Chorwad road, a railway station on the Rajkot-Veraval metre gauge section of the Western Railway. Chorwad is situated on the Arabian sea, about nine miles south-east of Mangrol and thirteen miles north-west of Veraval. It derives its name from being a notorious haunt of pirates in the past. It is famous for its gardens of betel, mangoes of *Kesar* and other varieties, plaintains, etc., which are exported on commercial basis. This place is noted for its Shishdhar embroidery work and also as a thriving business centre. With its salubrious and cool climate, it is one of the seaside summer resorts where Government has started Holiday Camp in the former palace of the Nawab overlooking the sea. The Camp has 86 rooms and is provided with necessary amenities.

9 Datrana, V. P. (Mahal Mendarda), P., 2,341

It is 12 miles south of Junagadh. It is well-known as being the birth place of the Charan woman Nagbai who cursed Mandlik, the last Rajput sovereign of Junagadh, when he insulted the modesty of her son's wife Minbai. There is a shrine and memorial stone of Nagbai at Datrana. About half a mile north of the village is the Godhmo Hill, so named because it is fabled to have been the residence of a demon of that name. There are small shrines of the goddesses of *Gatrad* and *Khodiyar* on the summit of this hill much respected by Kathis and Charans. The hill is composed of a kind of syenite.

10 Delvada, M. (Taluka Una), P., 5,564.

It is the terminus on the Talala-Delvada metre gauge section of the Western Railway.

When Una had fallen under the Muslim rule, a new town was founded about three miles south of Una on the Machhundri river, called Delvada. Though the Muslims called it Nawanagar, (the new town), it has been popularly known by the name of Delvada. Under the Sultans of Gujarat, Delvada was of much importance for the defence of Gujarat shipping on account of its proximity to the island fortress of Diu, 4 miles from Delvada.

Near Delvada is the ancient place of pilgrimage known as Gupta Prayag. An *Annakut* fair is held at Prayag on *Chaitra Sud 11* when, in the temple of *Prayagrayji*, various kinds of sweet-meats and eatables are offered to God. About 5,000 persons attend the fair.

The Guptaprayag Kunds and the Juma Masjid (13th century) with rocking towers at Delvada are protected monuments.

11 Dhandhusar, V. P. (Taluka Vanthali). P., 3,080

It lies about nine miles north-west of Junagadh. Said to have derived its name from the celebrated Dhundhali Mal, who is supposed to have resided for some time and to have excavated and built up the tank which gives its name to the village. On the bank of the tank is a temple of *Shiva* also ascribed to Dhundhali Mal and said to have been built at the same time as the tank. *Bawa Piara*, whose monastery is at Junagadh, is said to have resided some time at this place. There is also an ancient well without *todas* or pillars at the entrance, called Hani Wav, an ancient protected monument, built by Hani, Princess of Vanthali in A.D. 1389. In one of the niches of this well is an image of *Sheshshayi Bhagwan* or *Vishnu*. Villagers consider this to be an image of Hani and women who are unable to nurse their babes and owners of cows who give scanty supply of milk make a vow to wach the statue in milk, if their supply of milk be increased. According to another belief, the Dheds, a Scheduled Caste, consider Hani to have been a Dhed woman and adore the image as that of their turelary goddess and the well as sacred to her.

12 Dhan Fuliya, V. P. (Mahal Vanthali), P., 1,474

It is at a distance of two miles from Shapur, a junction station on the Rajkot-Veraval and the Junagadh-Saradiya metre-gauge sections of the Western Railway.

At this place an *Urs* (anniversary fair) is held at the *darga* of Shiraji Shah on the 26th and 27th of the month of *Rajab*, when about 7,000 people congregate in memory of the religious discussion between Negbai from Marwar and Shiraji Shah. As Nagbai had surpassed Shiraji Shah, Nagbai is worshipped first and then Shiraji Shah.

13 Droneshawar-Dron (Taluka Una), P. 832

Droneshwar Mahadev is a holy place, four miles from Gir Gadhada and thirteen miles from Una, both railway stations on the Talala-Delvada metre gauge sections of the Western Railway. The village Dron is two miles away from this place where a perennial flow of water bathes the *Shivling* in the temple, situated on the river Machhundari since the time of *Guru Dronacharya*, and then discharges itself into a *Kund* near the river.

14 Dungarpur, V. P. (Taluka Junagadh). P., 1,843

It is seven miles from Junagadh, a railway junction on the Rajkot-Veraval, Junagadh-Visavadar and the Junagadh-Saradiya metre gauge sections of the Western Railway. It is an important centre for stone quarries. 47 per cent of lime contents make these stones useful for the manufacture of cement.

15 Gadu, V. P. (Taluka Malia). P., 1,990

It is situated near the Chorwad Road station on the Rajkot-Veraval metre gauge section of the Western Railway. 60 per cent lime contents of these stones make them useful in the manufacture of cement. The village is provided with electricity.

16 Gokaran, V. P. (Mahal Kutiyana). P., 547

It is seven miles from Saradiya, a railway station on the Junagadh-Saradiya metre gauge section of the Western Railway. The place is associated with Gokarna, the son of a *Rishi*, who read the

Bhagwat at this place for a week for the peace of the souls of his departed forefathers. On *Bhadarvi Amas-Shravan Vad* 30 (August) a fair with a congregation ranging from 3,000 to 5,000 people is held every year at *Gokarneshwar Mahadev.*

17 Gupta Prayag (Taluka Una)

Situated two miles from Delvada, a railway station on the Talala-Delvada metre gauge section of the Western Railway, Gupta Prayag with a temple of *Prayagrayji* is a holy place where *Lord Krishna* is said to have stayed in a '*gupta*' or secret manner. There is a water reservoir with natural flow of water, a *Gaushala, Dharamashalas* and other buildings for pilgrims.

On Chaitra Sud 11th (April) the *Annakut* fair with an estimated assemblage of 5,000 people is held every year.

18 Hiran Irrigation Project (Mahal Talala)

The project envisages the construction of a dam across the river Hiran, near the temple of *Kamleshwar Mahadev,* in the midst of the Gir forest. The dam is 4,283 feet long and 83 feet high. The catchment area is 31.27 square miles.

19 Jambur (Madhupur), (Mahal Talala)

It is a small hamlet or suburb of the village Madhupur (P.2,024) and a railway station on the Talala-Delvada section of the Western Railway.

Inhabited entirely by Siddis, a Scheduled Tribe in that area, it is a noted place of pilgrimage for all Siddis. Every year on the 16th day of the *Hijri* month of *Rajab* an *Urs* (anniversary fair) is held in honour of *Baba Ghor* and *Nagal Shah Pir,* when about 6,000 Siddis and some other Muslims congregate. Dhamal, the traditional folk-dance of the Siddis and fire walking on bare feet take place at the time of the fair.

20 Junagadh, M., P. 74,298. 21° 1' N., 70° 13' E.

Situated at the foot of the celebrated Girnar Hills, Junagadh is a town of great antiquity. It is a junction station on the Rajkot-Veraval and Junagadh-Visavadar metre gauge sections of the Western Railway. Junagadh was the capital of the former Junagadh State and headquarters of the Sorath District now renamed as Junagadh District. It is also the headquarters of the sub-division and the taluka and as such has all the district, sub-divisional and taluka offices.

The rock-cut edicts of Skanda Gupta inscribed on the same rock on which Asoka edicts are found at the foot of Girnar reveal that Junagadh was ruled by different sovereigns at different times, the chief of whom were Guptas, Chudasmas and the Imperial *Foujdars* subordinate to Imperial Viceroy at Ahmedabad, the last of whom was Sherkhan Babi, who afterwards became independent and assumed the title of Nawab Bahadur Khan.

In the *Girnar Mahatmya,* it is called Karnakubja and, in another *Sloka,* its old names have been reproduced as "Manipur, Chandra Ketapur Raivata and Pauratanpur". Really speaking the *Uparkot* froms the ancient Junagadh while the present town is more correctly called Mustafabad, having been built by Mahmud Begada of Gujarat. The *Uparkot* (Citadel) is an imposing reminder of the past, with its old fortress, giving to the town the present name *Junagadh.* The citadel withstood several attacks between 1350 and 1572. The ancient archway at the entrance to the *Uparkot,* within the outer gate, is a fine specimen of the old Hindu *Toran* or an arch. The *Uparkot* also contains Buddhist cave monastery constructed about 300 A.D. The outstanding feature of the structure is a hall, connected by a winding staircase to an upper Chamber, which seems to have served as a refectory. There are two step wells one of which, the Adi Chadi Vav (15 century) named after the slave girls of the Rajput rulers, has a long ladder of descending steps. The Naughan well (12 century) cut to a great depth out of soft stone has an imposing circular staircase.

The sacred Mount Girnar with its rugged pinnacle and the winding flights of steps stands east of the city of Junagadh with five peaks namely, Amba Mata, (or the Girnari goddess) crowning the first peak, resorted to by newly

married couples to ensure wedded bliss (2) Gorakhnath, the highest of all and the culminating point of Girnar, 3,065 feet above sea level (3) the Oghad Shikhar, (4) Guru Dattatray on the top of this loftiest crag clings a little Shrine dedicated to *Gorakhnath* and (5) Kalka's peak supposed to be the resort of Aghoris or Mardikhors. Three *Kunds* or reservoirs, namely, the Gau-Mukhi, Hanuman Dhara and Kamandal Kund and the great rock called Bhairava Jap from where ascetics and others were wont to hurl themselves in favour of better birth in their next life are places of religious interest.

At the foot of the hill lie the well-known rock edicts of Ashoka, hewn in solid boulder measuring 20 × 30 feet on which are inscribed 14 edicts of Ashoka (250 B.C.) in the Pali script and inscriptions by Rudradaman (150 A.D.) and Skandagupta (455 A.D.) in Sanskrit.

Just within the Wageshwari gate which leads to Girnar, there is a step-well constructed by *Salats* or stone masons and outside the gate there is the Wageshwari Talao with a well in the centre. A temple of *Wageshwari Mata* stands to the right of the road leading to Damodar Kund, 275 feet long and 50 feet broad, the water of which is reported to be sacred on account of its property of dissolving the bones which are brought here for immersion by Hindus. The *Kund* is named after *Krishna* or *Damodar* 'Dam' means string and '*Udar*' means belly, alluding to the string with which *Krishna's* mother tied him. About a mile and a half beyond the Damodar Kund, is the temple of Bhavnath Mahadev and a mile and a half from this temple begins the ascent of the hill where a *Chadani* well or the well of ascent and large number of *Dharmashalas* for pilgrims are found.

On a cliff at the height of about 2,000 feet are situated the Jain temples, the biggest being that of *Neminath*, ascribed to the 12th century and dedicated to the 22nd *Tirthankar*. Standing in a quadrangular courtyard, the temple is surrounded by pillared cloisters, containing 70 cells, a *mandap* with a colonade of 22 pillars forming aisles with the image of *Neminath* in black adorned with massive jewellery. Of the 16 temples that cluster on and around, the triple temple built in 1177 by Tejpal and Vastupal, also connected with Mount Abu, has an image of the 19th *Tirthankar, Mallinath,* in the middle Shrine.

The adjoining hill of Datar, 845.906 metres above sea-level, is a Muslim shrine held sacred by Muslims due to its associations with the Muslim Saint *Jamial Sha*, who is said to have come from Sind at the behest of his spiritual preceptor, *Pir Patta*, in the reign of Ra Mandlik. The Shrine is visited by lepers and there is a leper asylum nearby. The Datar Shrine is supposed to have beneficial effect on lepers who go there in considerable members for cure.

The places of interest in the city are the Museum, Willingdan Dam, a pleasure spot selected by Government of India for developing as a National Park for medicinal herbs, the Rupayatan, an institution for development of handicrafts, the Sakar Bag and the zoo, Khapra Khodia and Bava Piara's caves, Sardar Bag, Chora of Narsinh Mehta, the Bahaudain Arts and Science College, the Agricultural College, Soil Conservation Research Centre, Laboratory for Chemical analysis, State Police Training School and the Orientation and Study Centre of the Government of India for imparting training in community development to officials and non-officials.

Besides some of the places accounted above, Ra Mandlik's inscription (15th century), Juma Masjid and two Guns Nilam and Hadnal (14th century), Maigadechi with stone inscriptions (16th century), Bibi Makbara (18th century), Ghori Pir Makbara (18th century), Makabara of Babi Ruler before Nawab Mohbatkhnji (18th century); Datar caves, (18th century), Mount Girnar with Bhim Kund, Gurumukh Kund, Hanuman Paduka (Kund), Hathi Pagla (Kund), Kalika temple, six Jain and one old Brahminical shrines are all protected monuments.

New industiries for producing solvents, colour chemicals, soap, cement pipes and steel implements have been started during the last ten years.

Three big fairs, each attended by about 100,000 people are held at this place. The first is held from 11th to 15th *Sud Kartik* (November) which is known as the *Lili Parikrama* when the pilgrims take a round of the mount Girnar, starting from and ending at the temple of *Bhavnath.* Another fair is held at the same temple, called the *Bhavnath* fair, on *Maha Shivaratri* Day, *Magh Vad* 14, (February) when pilgrims bathe in the *Mrigi Kund.* The third fair is associated with the memory of the saint and poet Narsinh Mehta, held on the *Bhadarvi Amas–Shravan Vad* 30 (August).

21 Kalindri Irrigation Project (Mahal Kutiyana)

The scheme envisages the construction of a storage reservoir across the river Kalindri near Ishwaria village in Kutiyana Mahal of Junagadh district. On completion an additional area of 2,240 acres of land will be brought under irrigation. The total cost of scheme will be Rs. 15.39 lakhs.

22 Kanakai (Mahal Talala), P. 7

This place is situated on the bank of the Singvada river, about ten miles south of Visavadar, a junction railway station on Khijadiya-Veraval and Junagadh-Visavadar metre gauge section of the Western Railway. It is one of the most ancient villages with fort and houses built of brick. It is probably contemporaneous with Vallabhi and other ancient towns and dates as far back as A.D. 500.

The temples of *Kankai Mata and Kalika Meta* are built of stone. The *Kankai Meta* is the tutelary goddess of the Kapol Wanias and contains an inscription that it was restored in 1808 A.D. by that community.

23 Keshod, M., P., 12,550

Situated on the bank of the Titori river, An affluent of the river Sabi, it is a railway station on the Rajkot-Veraval metre gauge section of the Western Railway. The National Highway No. 8 B between Jetalsar and Veraval passes by this town. It is also connected by air with Bombay, Ahmedabad, Porbandar, Rajkot, Bhuj, etc. Being the headquarters of the mahal of that name it has all the Mahal offices. It is a prosperous business centre with cotton ginning and pressing factories and oil mills.

24 Kevadra, V. P. (Taluka Keshod), P., 2,369

It is at a distance of four miles from Keshod, a railway station on the Rajkot-Veraval metre gauge section of Western Railway.

The Village Panchayat of Kevadra has earned a name for itself by being one of the best in the district. It stood firsrt in doing commendable work of public utility through popular co-operation.

25 Khambhala Lake (Mahal Ranavav)

It is a beautiful lake in the midst of forestar ea, about eight miles from Ranavav. The surrounding natural scenery on account of the forests and hill tracts enchants attraction to this spot. Water is supplied from this lake by means of pipe line to Porbandar, during scarcity period, A scheme for additional water supply to Porbandar from this lake is under consideration. On the lake there is a beautiful place and well-developed plantation of mango and other fruits.

26 Kinderkheda, V. P. (Taluka Porbandar), P., 887

Situated at a distance of 12 miles from Porbandar which is the terminus station of the Porbandar-Dhola metre gauge section of the Western Railway, Kinderkheda was known as Kinnarpur in the past and has some ancient temples of archaeological interest. The panchayat of this village is a forward panchayat which once stood first in the whole of Saurashtra for laudable performance in the sphere of undertaking local development works by public participation.

27 Kutiyana (Mahal Kutiyana), P., 11, 696

Situated on the Bhadar river, seven miles from Saradiya, a railway station on the Junagadh-Saradiya metre gauge section, with which it is connected by bus service. It is also connected with Rajkot and Junagadh by bus service running on the National Highway No. 8 B.

The name is said to have been derived from a Charan woman named Kunti who used to graze her cattle there and finally founded a *nes* or hamlet on the spot where the town now stands. Gradually the hamlet rose to be a village called Kuntiyana after Kunti, later corrupted to Kutiyana. It was also known as ancient Kundinpur, the residence of king Bhishmak the father of Rukmini, the head wife of Krishna. Kutiyana was once famous for its bards and poets like Bhat Rao Lakhan, Sorathi Sarasvat Vaikunath, Kshatri Mardash Bhagat, Bhat Thakardas, Bhat Bhupatsingh. Image of Khetrapal and Juma Masjid inscription are protected monuments.

Kutiyana was called Muzafarabad by the Muslims because it is said that Sultan Muzafar Halim of Gujarat who was the Viceroy of Sorath made it very popular and built a fort around it. In old Persian deeds, this town is styled Muzafarabad otherwise called Kutiyana.

With the migration of the Muslims of this place to Pakistan, displaced persons have been settled and rehabilitated at this place.

28 Machhundri Irrigation Project (Taluka Una)

This is one of the Irrigation Schemes of the First Five Year Plan, taken up in 1954–55. It envisages the construction of a dam 750 feet long and 45 feet high on the river Machhundri, near the *Droneshwar* temple in Una Taluka. The catchment area near the dam is 102 square miles. The project is calculated to irrigate 6,500 acres of land, by means of an irrigation canal and subsidiary channels, measuring 22 miles at an estimated cost of Rs. 20.08 lakhs.

29 Madhavpur (Taluka Porbandar), P., 4,765

It is situated on the Arabian Sea at a distance of two miles from Keshod, a railway station on the Rajkot-Veraval metre gauge section of the Western Railway. It is an ancient town with an old temple of *Krishna*, worshipped under the name of *Madhav Raiji*. The town was named Madhavpur as *Krishna* after carrying off Rukmini married her at this village. An old *Shiv* Shrine of 14th century A.D. is protected monument.

On *Chaitra Sud* 9 (April) a fair with a congregation of about 8,000 to 10,000 people is held at the temple of *Madhav Raiji*.

30 Malia, M. P., 6,613

Stands on the bank of the river Megal. It is a railway station under the name Malia-Hatina on the Veraval-Rajkot metre gauge section of the Western-Railway. Mahal headquarters with location of all Mahal Offices. Called Malia Hatina, as it was the headquarters of a tribe called *Hattis*, who claimed descent from Khumansingh of Udepur, the reputed ancestor of Jogia Khumans.

The town is equipped with a good vegetable market, public latrines, a *Ghat* (Steps) on the river, a Girl's School, a library, etc.

31 Manavadar, M. P., 11,209

A railway station on the Junagadh-Saradiya metre gauge section of the Western Railway. Also taluka headquarters with taluka offices. In the past it was the capital of Khazanfan Khan of Bantwa, the chief being a Babi by tribe and of the same family as the Nawab of Junagadh. Before integration into the part B State of Saurashtra, it was the capital of one of the States grouped into the previous Sorath district now renamed as Junagadh district.

It has an Agricultural School and a Health Centre. An important Centre of trade in Cotton for C.O.2 variety and ground-nut, it has ginning factories, oil-mills and a solvent plant.

32 Mandor, V. P. (Taluka Patan Veraval), P. 393

It is about nine miles north of Sutrapada and five or six north-east of Patan Somnath, and must have been a fine and flourishing town in past. Said to have been belonging to the Hattis it lies in the fork between the Hiran river and its affluent, and is surrounded by a fort wall of cut stone with a handsome gate.

There are about six caves in the bank of the affluent of the Hiran and one cave in the

bank of Hiran itself. Some Buddhist caves, cut in the bank of a stream which joins the Hiran are protected monuments.

33 Mangrol, M., P. 21,089, 21° 7' N., 70° 10' E.

Mangrol was known in ancient times as Managalpur Patan or supposed to be the Monglossum of Ptolemy. Situated on the Arabian sea, it is about ten miles from Keshod, a railway station on the Rajkot-Veraval metre gauge section of the Western Railway and headquarters of taluka.

During the reign of Kumarpal of Anhilwada Patan, Gohils were the ruling chiefs of this place as ascertained from an inscription dated Samwat 1202 (A. D. 1146). The Gohils were succeded by Waghelas as the rulers of Mangrol. From the beginning of the 14th century, Mangrol went under the rule of the Muslims. Mangrol later fell into the hands of the Peshwa whose lieutenant held it for 12 years and was then driven out by Shahab-ud-din and Shekh Fakhar-ud-din in A.H. 1162 (A.D. 1748). Thence forward it was ruled by the Shekhs. In 1764, one half share in Mangrol was taken by the Nawab of Junagadh. The authority of the Nawab of Junagadh over Mangrol was confirmed by the British Government. The capital of the former Mangrol State, it forms part of the Sorath District now renamed Junagadh District.

There is a Government Rest House and a Guest House on the sea-shore, known as the Link-House. About three miles from the town is '*Shardagram*' a residential school which stresses the need of basic education coupled with self-help. There are plantations raising plantains, cocoanut and famous *kesar* variety of mangoes.

Mangrol is a non-intermediate port open to coastal and foreign traffic and also an important fishing centre. It is an exporting centre for betel leaves, mangoes, onions, stones, etc., and its chief articles of import are building materials, cotton seeds, wood, timber, etc.

34 Mendarda, M., P. 6,059

Situated on the outskirts of the Gir Forest about 15 miles south of Junagadh with which it is connected by a *pucca* road. It is the headquarters of the Mahal with all the Mahal offices.

35 Miyani (Taluka Porbandar), P., 877

It is a border village of the Porbandar taluka, at a distance of 20 miles from Porbandar. It is a defunct port under Porbandar. There are many old temples of archaeological interest at the village of which the origin is lost in antiquity. On the opposite side of the creek on which the village is situated there is the famous temple of *Harsiddhi Mataji* in the village Gandhvi of Jamnagar district visited by many people from various parts of the country.

36 Pasnavada, V. P. (Taluka Patan Veraval), P., 2,594

It is situated at a distance of five and a half miles to the east of Sutrapada. There is a temple and *Kund* sacred to *Gayatri*, the wife of *Brahma*. The ruins at Pasnavada show it to have been once a large and populous place. The inscription of 1458 A.D. being one of the ancient protected monuments is interesting, both as being bilingual (Persian and Sanskrit) and as showing that in 1458 A.D. Pasnavada was governed by Malik Asad, on behalf of Sultan Kutubuddin of Gujarat.

37 Patan, M., P. 13,927 23° 53' N., 70° 24' E.

Situated on the southern tip of the Saurashtra peninsula, at a distance of two miles from Veraval, a railway station on the Veraval-Rajkot metre gauge section of the Western Railway, Patan is also known as Somnath Patan, Prabhas Patan or Dev Patan where the three holi rivers, the Saraswati, the Hiranya, and the Kapila meet and form the confluence of the sacred *Triveni* before joining the Arabian sea.

Patan is the seat of one of the twelve *Jyotirlingas* of Lord *Shiva*, which are believed to be self-existent and not originally installed or established by any one. Dating back its origin to Vedic times, this place was called *Bhairaveshwar* in *Satya Yug*, *Shravanikeshwar* in *Treta Yug*, *Shrigaleshwar* in *Dwapar Yug* and *Somnath* in the present *Kali Yug*.

Legend has it that *'Soma'* (Moon), on remaining obdurate in favouring Rohini, inspite of Daksha's Persuasion to treat all other twenty-six damasels equally, was cursed by Daksha and doomed to suffer from perpetual consumption. The moon, striken with grief, sought all the holy places for alleviation of his pain and worshipped *Shiv* with great devotion. As he regained his lustre at this place, it came to be known as *Prabhas* (lusture or light). In gratitude for this favour, the moon erected a golden temple to *Shiv* and named it *Somnath* or the Lord of the Moon. *Lord Shiv* pleased with his worship directed that the moon will wane in brilliancy for 15 days, but recover his lost splendour in the following 15 days.

The renown this place has enjoyed since the dim past can be attributed to two counts-its fame as a Shrine attracting visitors and pilgrims from all parts of India and secondly a principal port of embarkation for Muslim pilgrims to Mecca and Madinah carrying on trade through the Red Sea, Persian Gulf and African Gulf which lasted uptil it was superseded by Surat.

Mahomed Gaznavi attacked the temple in 1026 A. D. and carried away most of its wealth. Plundered by Muslim invaders time and again, seven times this temple was built and seven times it was looted and demolished. The sculptures from the old temple have been housed in a nearby museum.

According to the legend, the Somnath temple is said to have first been built of gold by Somraj, then of silver by *Ravana*, then of wood by *Krishna* and then of stone by *Bhimdev* of Anhilwad. A new temple was built by Ahilya Bai, widow of Holkar, at a little distance from the old one in 1783. The sixth temple known as *Kailas Nath Maha Meru Prasad* has been constructed during 1951-61 A. D. by the Somnath Trust established under the inspiration of the late Sardar Vallabhbhai Patel. Commanding an excellent view and standing on the original site with the same Chalukyan architecture with a *Shikhar* or tower, 175 feet in height, the temple has been rebuilt after a lapse of 800 years when the *Jyotirling* has been installed on the original site on 11th may, 1951, by Dr. Rajendra Prasad, the then President of India.

A pre-solanki Sun temple, inscription in Kazi's mosque (902), Muzaffar Shah's mosque (902), Sultan Ahmed's edicts, (950), inscription near Mota Gate, *Mangroli Shah's Makbara* and tombs of *Sahid's* inscription, Rundreshwar temple, mosque with minarets at Prabhas Patan (3rd century), old caves (3rd century), *Bhadra Kali Mata's* temple (12 century), Pond with old architecture (12th century), Vaneshwar Mahadev temple (7th century) and *Shashibhusan Maipuri Masjid.* Museum and its old building (1169 A. D.) and old Jain temples which have been recently renovated are all protected monuments.

A fair called *Kartik Purnima* or *Tripura Purnima* fair is held from *sud* 14 to *vad* 2 of the month of *Kartik* (October) when about 100,000 people congregate, and celebrate the birth day of *Kartikya*, son of *Shiv*, who was born in the month of *Kartik.* During the fair, people take bath in the *Triveni Sangam* and them worship *Somnath Mahadev.*

38 Porbandar. M., P. 75,081, between 21° and 21° 14' N., and 69° 28' and 70° 1' E.

A terminus station on the Porbandar-Dhola metre gauge section of the Western Railway and also connected with National Highway No. 8 B, Probandar is a flourishing sea port on the south-east coast of Saurashtra. It is an important port for passenger traffic from and to African ports and has weekly services of the Scindia Steam Navigation Company plying between Bombay and Porbandar. Besides being an air port connecting it with Bombay by air, it is an important terminus station of State Transport. It is the taluka and-sub-divisional headquarters with all taluka and sub-divisional offices.

Before its integration into the Part B State of Saurashtra, it was the capital of the former Porbandar State founded by the Jethwa Rajputs. Mentioned in Hindu scriptures as Sudamapuri, known after the legend of the friendship of Krishna and Sudama, Porbandar still has a temple dedicated to Sudama. The Kirti Mandir, with its

imposing structure built to commemorate the birth place of Gandhiji, the Father of the Nation, has a Gandhian Library, spinning hall, children's nursery, prayer room, a steeple decorated with 67 lamps and anecdotes from Gandhiji's life. On one side of this edifice is the parental house of Gandhiji where he was born and on the other the house of Shrimati Kasturba's father. Both these houses are protected monuments.

The Arya Kanya Gurukul exclusively for girls, a B.T. College, Polytechnic Institute and an Arts and Commerce college are among the important educational institutions. The Bharat Mandir has good exhibits with a physical map of India inscribed in stone in the centre of the hall. On four sides of the pillars in this hall are stone images of the great men India has produced, either as religious preceptors, great monarchs, social reformers, political leaders etc. Paintings on its walls depict certain characteristic features of different States. The chowpaty along the sea beach provides a picturesque view with modern "Villas" on the sea front, two of which are used as Government Guest houses.

Porbandar is a flourishing industrial town. Its main industries are cotton textiles, cement, colour and chemicals, gold and silver work, groundnut and hydrogenated oil factories, a thermal power station and stone mining. Stone quarries in the vicinity of Porbandar associate this town with stones popularly known as "Porbandar stones". Chief articles of imports are building materials dates and timber; items exported are cement, salt and oil cakes. The volume of cargo handled during 1960-61 was 142,467 tons of which exports accounted for 83,768 tons and imports 58,699 tons. State Government has recommended its conversion from fair weather port into all-weather port into all-weather port.

39 Prachi (Taluka Patan Veraval)

It is situated about 15 miles east of Patan, on the bank of the river Saraswati, at the point where this river takes a turn towards the East (*Prach*) and is, therefore, called Prachi. The turning point of the river from west to east adds sanctity and holiness to this plane which presents a very picturesque appearance. The two *Kunds* or reservoirs in the river bed are considered very sacred. The site of a *Pipal* tree at Prachi, known as the *Moksh Pipal*, is supposed to relieve those possessed by evil spirit. As the legend goes, The Pandavas were advised to go and bathe in Prachi Saraswati by Lord *Krishna* who told *Yudhisthir* that it was more sacred than Gayaji, the Ganges and Pushkar. On the bank of the Prachi Saraswati is the temple of *Batheshwar Mahadev* which is said to be worshipped by women desirous of having progeny. There are many *Dharamashalas* for pilgrims and a Government Guest House.

A fair with a congregation of about 20,000 persons is held here from *Chitra Sud* 13 to 15 (April) when the sacred *Pipal* tree is watered by the pilgrims for the salvation of their forefathers.

40 Ranavav, P., 9,823

It is situated about 10 miles north east of Porbandar, on the Porbandar-Dhola metre gauge section of the Western Railway. Also the headquarters of the Ranavav Mahal, it is famous for high-graded stone quarries, lime stones and white clay, useful for heavy industries and various chemical bye-products.

This village is said to have been populated about seven hundred years ago by Rana Bhan Jethva, who built a famous step well about two and a half miles from Ranavav, called the Bhanavav. Ranavav was once famous for the production of iron articles from the ore available at Dalkhan at a distance of 2 miles.

41 Rawal Irrigation Project (Taluka Una)

The project was undertaken during the First Plan and completed in the Second. A dam 399 square feet long and 21.5 feet high has been constructed on the river Rawal, near the village Mahabatpara in Una Taluka. Constructed at a cost of about Rs. 11 lakhs, it has a catchment area of 116 square miles, irrigation Canal and subsidiary channels 15 miles in length and estimated irrigation capacity of about 5,000 acres.

42 Sakroli Irrigation Project (Mahal Bhesan)

This is a spill-over Scheme of Second Five Year Plan under which a reservoir has been constructed in the Saroli river near the village Sakrola in Bhesan Mahal. The dam is 4,410 feet long and 21 feet high. The catchment area is 30 square miles. It will irrigate 3,100 acres of land by means of an irrigation canal and subsidiary channels, measuring eleven miles in length. Estimated cost of the scheme is Rs. 25.25 lakhs.

43 Sana Caves (Taluka Una)

The Sana hills, close to which flows the Rupen river, is sixteen miles north of Una, a railway station on Talala-Delvada metre gauge section of the Western Railway. Sana caves 62 in number testify to there once being a large and flourishing monastery. They are well supplied with little tanks of water and very simple in architecture. In the absence of any inscriptions, it is difficult to assign an exact date to these caves, which probably belong to the same period as that of Talaja Caves. Sana caves are protected monuments.

44 Sasan (Gir) (Mahal Talala) P., 1,231

It is a railway station under the name of 'Sasan Gir' on the Veraval-Khijadia metre gauge section of the Western Railway. It is a reserved forest dry and dessiduous with an area of 483 square miles. Sasan is ten miles from Talala and 47 miles from Junagadh situated in the midst of the Gir Forest, the famous and only abode of the Gir lions fund in the whole of Asia. It also abounds with wild animals like panther, spotted deer, wild bear, sambar etc. There are a number of guest houses, a rest-house and residential quarters for the convenience of visitors coming from outside to see the lions, known by the local name of "Sawaj", a word of Arabic derivation, meaning he who causes the flocks to bleat. It is the headquarters of the Range Forest Officer and other staff stationed for making arrangements to show lions to tourists, at prescribed rates. According to the latest census taken in 1963, the number of lions in Gir is reported to be 285.

The dam constructed on the Hiran river for irrigation purposes is seven miles away from Sasan.

45 Satadhar--Jambudi, V. P. (Taluka Visavadar), P. 298

It is situated near Satadhar, a railway station on Khijadiya-Veraval metre gauge section of the Western Railway.

A Satadhar fair with a congregation of 10,000 people is held on every *Ashad Sud 2* (June) to commemmorate Sant *Apa-giga.*

46 Shapur, V. P. (Taluka Visavadar), P. 1,169

It is a railway junction on Rajkot-Veraval and Junagadh Saradiya metre gauge sections of the Western Railway. It is known for its Ashram which carries on educational and constructive activities. Built under the First Plan, at a cost of Rs. 2 crores, Shapur Power House has started functioning from December 1956. Transmission lines have been extended upto Mangrol and Manavadar and electric power also supplied to Upleta, Dhoraji, Keshod and 33 other villages. The Shapur power house extension scheme included in the Third Plan envisages extension of the existing Steam Station by the installation of 2x5000 K.W. Sets.

47 Sutrapada, V. P. (Taluka Patan Veraval), P. 6,576

Situated on the shore of the Arabian Sea, Sutrapada was originally known as Saptapata or town with seven separate quarters. Its name is traditionally connected with *Chyavan rishi* the son of *Bhrigu rishi* who resided there with his beautiful wife Puloma. While she was being forcibly carried away by *Rakshasas* when her husband was away for a bath in Prachi reservoir, she invoked the aid of *Vishnu* who suddenly appeared and killed the *Rakshasas.* As she was pregnant at that time she had a premature delivery due to terror and fear and gave birth to a child called *Chyavan* who afterwords became a sage or *Rishi,* Seated at the site of the present *Chyavan Kund, Chyavan* performed austerities and penance so regorous that a white ant's hill was formed over him. Raja

Sharyati, son of Vaivaswat Manu while on hunting expedition with his wife and daughter Sukanya arrived here and his daughter seeing something shining inside the ant-hill pushed in stalks of grass. On seeing the stalks stained with blood, and on pulling down the ant-hill, *Rishi* was discovered deprived of both his eyes. Sukanya begged for forgiveness and declared that she would marry him to atone for her mistake. While the *Rishi* and she were living there, the twin Ashvini Kumars, the celestial physicians of *Indra's* heaven, visited this place on a pilgrimage and complained to the *Rishi* that *Indra* had prevented them from taking their share of the sacrifices. The *Rishi* said that if they would restore his eye sight and make him young again, he would intereede with *Indra* and reinstate them in their rights. They agreed and advised *Rishi* to construct the reservoir now known as *Chayan Kund.* He bathed there and was restored to youth and recovered his eyesight. Thereupon the *Rishi* approached *Indra* who eventually granted his request to restore their rights to Ashwini Kumars.

There is a temple of Sun at Sutrapada with an inscription dated Samwat 1357 (A. D. 1301) to the effect that Vagaldala Buta established the image of the Sun. The *Surya Kund* and temple and the *Chyavan Kund* are protected monuments.

At Kadwar which is hardly two miles away from Sutrapada there is a temple of *Varaha* the third or boar incarnation of Vishnu. The temple has two other images, one of incarnation of *Narsinh* and the other of the *Waman* or Dwarf incarnation. The nearest important site which has yielded the evidences of the Chalcolithic period is Somnath which is nearly ten miles away from Sutrapada.

48 Talala (Mahal Talala) P. 4,403

It is situated on the bank of the river Hiran and a railway junction on the Veraval-Khijadiya and the Talala-Delvada metre gauge sections of the Western Railway. Talala is the headquarters of the Mahal of that name.

There is a holy place called *Shribai Ashram* with *Dharmashalas* for visitors. Good quality mangoes of *Kesar* and other varieties are grown in this area in abundance.

49. Tulsishyam (Una Taluka)

It is a holy place of scenic beauty situated on a 100 feet high hill in the heart of Gir forest with a temple didicated to *Lord Krishna.* About 22 miles from Una, the place can be reached by bus plying in fair season. *Puranas* ascribe it as '*Taplodak*' or the place where a spring has fairly warm water of about 70° to 80°. According to one legend, the place is said to have derived its name from *Krishna,* who slew *Tal Daitya* and was therefore, worshipped as *Tal's Lord, Talswami,* which finally became *Tulsishyam.* Another legend associotes it with the *Daitya* Jalandhar who received blessings from the gods that he would be unconquerable so long as his wife *Tulsi* would remain chaste. *Krishna* assumed the form of Tulsi's husband and deceived her. Thereafter Jalandar was killed at the hands of *Shiv. Tulsi* before dying cursed *Krishna* who was changed into a stone called *Shaligram. Krishna* who bore no malice towards her took a vow that he would marry her in her next birth and changed her hair into Tulsi plant and reposed himself into the Gandaki river where *Shaligrams* are found. It is from this legend that this place came to be known as *Tulsishyam.*

About two miles from Tulsishyam is a ravine called Bhim Chas into which the river Zameri falls. It is said that Bhima, the second among the five Pandava brothers, struck a plough share against the ground at this place and got water to quench the thirst of his mother, Kunti, in whose memory a temple has been built.

With a view to open this place to tourists, the State Government has started a Holiday Camp in Tulsishyam. The residential accommodation consists of three blocks, each having two units. Those desirous of cooking their food themselves are given utensils on payment of additional charges. Pucca roads from Una and Dhari to Tulsishyam are under construction. A model "*Gaushala*" (cow-rearing centre) is also being started here.

Seven *Kunds* of hot water and the Bhim chas (natural cervice) are protected monuments.

On *Kartik Sud* 11 (October) a fair called the *Tulsi-Vivah* fair is held at this place in memory of the marriage of *Sati* Vrinda with Krishna, who was in her previous birth Tulsi the wife of the demon king Jalandhar.

50 Uben-Ozat Irrigation Project (Taluka Junagadh)

This project is divided into two parts, namely Uben and Ozat. The first part is known as the Uben Scheme wherein on the river Uben a reservoir with a catchment area of 142 square miles is built near the village Kerala of Junagadh Taluka. By means of an irrigation canal and subsidiary channels measuring 22.8 miles, this project is estimated to irrigate 5,000 acres of agricultural lands.

The second part of the project envisages the construction of a dam on the river Ozat, with a catchment area of 437 square miles near village Anandpur, taluka Junagadh. It is estimated to irrigate 10,000 acres of land by means of an irrigation canal, 20 miles long, and branch channels measuring 23 miles long.

51 Una, M., P. 16,098

Situated on the river Macchundri it is a railway station on the Talala-Delvada metre gauge section of the Western Railway. Una is the headquarters of Una taluka.

The ancient town of Una was called in Sanskrit *Unat Durg* (the lofty fortress) and was situated close to present Una which was then known under the name of Delvada. Una and Delvada were then synonymous and were ruled by Unewal Brahmins. Once they insulted the bride of Vejal Wajo who attacked the town, killed them all and himself began to rule. Unat Durg or ancient Una was considered to be defiled by the killing of many Brahmins and was allowed to fall waste, its population having shifted to the adjacant town of Delvada which was afterwards called Una.

The Municipality has constructed a beautiful garden with an open air theatre. Old mosque, Vejal Kotho, Shahbag inscription, Ajar temple with two inscriptions and inscription at shilalekh tank at Una are protected monuments.

Urs (anniversary) is held at the *Dargahs* (tombs) of the *Madar Pir, Bada Pir,* and *Hazrat Saheb.* Congregations at the three places number about 8,000, 8,000 and 2,000 people respectively.

59 Vanthali, P. 12,262. 31° 0' N., 70° 30' E.

It stands on the bank of the river Uben at a distance of nine miles to the south-west of Junagadh. It is a railway station under the name 'Sorath Vanthali' on the Junagadh-Saradiya metre gauge section of the Western Railway. The ancient name of this place is said to have been Devasthali or Dethali, Wamanasthali, Wamanpur or the abode of Waman. Old mosque, Vijayeshwar Mahadev inscription, Surya *Kund,* stone inscription in Juma Masjid in Sanskrit, (1,408) and Rakhensar wav are protected monuments.

Acoording to Girnar Mahtamayasar, a famous wise Daitya, named Bali Raja, reigned at Balisthan (Bilkha). While he was about to celebrate his 100th yagna, gods got alarmed that on its completion he would attain the throne of *Indra.* They therefore implored *Vishnu* to protect them. He consented to help them and assumed the form of a Waman i.e. a dwarf. When Bali Raja was distributing charity to Brahmans during the performance of this sacrifice, Waman arrived there and requested Bali Raja to give him land only three paces in length. To this Bali Raja agreed. Thereupon Waman who was God incarnate assumed a gigantic from and measured the entire earth at one stride and heavens at the second, and asked where he should take the third step. Bali Raja recognizing his divinity offered his head humbly for the third footstep. Waman then thurst Bali Raja down to *Patal,* (underground), of which region he made him king. Finally, he selected the present site of Vanthali and founded his capital on the opposite side of the hill from Balisthan. A temple of Waman in Vanthali lends support to this legend.

After remaining under the rule of different lords paramount, Vanthali fell into the hands of

the Walas at the close of the Valabhi rule. Raja Ram of Wala tribe bequeathed his kingdom to his son-in-law Chudachandra Chudasama of Thatha in Sindh. This was the beginning of the rise of the Chudasamas. Later it was conquered by Rajputs related to the Waghelas of Dholka, who held it for about a century, and then in 1413-14, by Ahmed Shah of Gujarat.

53 Veraval, M., P. 46,930.

It is a junction railway station on the Veraval-Khijadiya and the Veraval-Rajkot metre gauge sections of the Western Railway. Veraval is a port on the Arabian sea. It is also the headquarters of the Taluka and sub-division, at a distance of 52 miles from Junagadh on Junagadh-Veraval and Veraval-Prachi Una-Rajula State Highways. Prabhas Patan, the famous pilgrimage centre described previously (at Sr. No. 37 supra), is at a distance of only two miles from Veraval.

Veravalji, the son of Dhana Wala who was on the Talala Gadi, founded the village of Veraval. It rose to be a good port in the time of the Sultans of Gujarat. After laying waste for a time, Mamet Khan Lodhi populated Veraval in the middle of the 18th century A.D., Kazi Sheikh Mia of Mangrol conquered Veraval in about 1762 A.D. but in a short time it was captured from him by Diwan Amarji of Junagadh. In 1787, Rana Sultanji of Porbandar conquered it but Nawab Hamid Khan of Junagadh re-conquered it in 1789. Since then it remained under Junagadh.

A rayon factory by the Indian Rayon Corporation with a total capital of Rs. 6 crores has been recently set up. Veraval is a flourishing centre of trade and commerce with a number of banks and industries small and large. Some of the principal industries are edible fats and oils, sawing and planing of wood, manufacturing of sundry harwares, manufacturing of cement and production of ice. It is also a premier fishing port with a Rs. 30 lakhs fishing harbour, a landing for 10,000 tons of fish costing over Rs. 1/2 crore, 160 diesal engine mechanised boats, 200 motorised boats and 150 other sailing boats, a Fishermen Training Centre, Demonstration and Marine Extension Unit, 5 ice factories, a Boat building yard, two Shark Liver Oil Units, three fishermen Co-operative Societies, a mechanised fishermen association. The Government of India's Offshore Fishing Station and the Central Marine Fisheries Research Institute's Offshore and Survey Unit are also located at this place. The volume of Cargo handled during 1960-61 was 223,625 tons, of which imports amounted to 86,902 tons and exports to 136,725 tons. Chief articles of imports are building materials, timber, cotton seeds and kerosene and exports consist of groundnut seeds, oil-cakes, limestones, fish, raw cotton, large spanish type of onions and ghee. The traffic handled by Steamers for the corresponding period amounted to 59,127 tons and that by sailing vessels 164,498 tons.

It has a Government Guest House known as "Rajendra Bhavan", an Arts College, a First Grade Hospital, a Maternity Home and a fine municipal garden.

54 Visavada, V. P. (Taluka Porbandar), P. 1,928

It is a beautiful village on the sea-shore at a distance of 13 miles from Porbandar, the taluka headquarters and the terminus on the Porbandar-Dhola metre gauge section of the Western Railway. It is known also as Mul-Dwarka where Vinzat Bhagat a very devout worshipper of Lord Krishna once lived. The Bhagat used to take his meals only after the *darshan* of Lord Krishna at Dwarka where he went daily from Visavada on horse-back. Once Lord Krishna, in the disguise of a Brahmin, met him on his way to Dwarka and warned him not to proceed any further or else he would be looted. Vinzat Bhagat, bent on having the *darshan* paid no heed to the warning. Lord Krishna, was, thereupon, pleased with the devotee and presented himself to him in his real from and told him not to go to Dwarka daily but to build a temple at Visavada where he would have the *darshan* of Lord Krishna as in Dwarka. The place is since then known as Mul Dwarka. Numerous pilgrims intending to reach Dwarka pass via Visavada-Miyani Harshad. The village panchayat of this village has done noteworthy works of

local development and stood first among the village panchayats of the Junagadh District. The village has attractive temples of Lord Krishna and Vinzat Bhagat.

55 Visavadar, M. P., 8,415

It is a junction station on the Khijadiya-Veraval and the Junagadh-Visavadar metre gauge sections of the Western Railway. 25 miles south-east of Junagadh, Visavadar is situated to the north of the Gir Forest, by the side of the river Popatdi. It is the headquarters of the taluka of that name. Being close to the Gir Forest, its climate is slightly unhealthy.

Six miles to the east of Visavadar, there is the Hothalia Hill the welknown cave of Hothal-Padmini. The legend is that moving about in man's dress and armour with the purpose of taking revenge on her deceased father's enemy Bamanio Badshah (Jam Bamanio) she happened to meet Odha who was also going to fight with Bamanio Badsha to avenge his cousin Visalde Vaghela of Wadhwan. Hothal and Odha joined hands and moved from place to place performing many expoits together. Later when Odha came to know that Hothal was a woman, he married her and had two sons by her in this cave, where they lived for a long time. When, after twelve years, Odha and Hothal went to the former's village, Odha divulged that Hothal was a Padmini, and broke the promise he had previously given her not to reveal this secret. Being displeased, Hothal went to her cave with her son Jesal but promised to return on the day of their son Jakharo's marriage if Odha would burn the incense given by her. When Jakhro was to be married, the incense was burnt, and Jakhro was married after Hothal had appeared with her other son Jesal who also was married at the same time as Jakhro. After the marriage, Hothal departed and went alone to the cave which has since then been known as Hothal Padmini's cave and the hill as Hothalia hill, after Hothal and Padmini.

PART II

1 CENSUS TABLES

2 OFFICIAL STATISTICS

A-GENERAL POPULATION TABLES

Out of 4 tables of A Series compiled at this Census, Tables A-I, A-III and A-IV giving area, houses and population, classification of villages and towns have been reproduced in the District Handbook. They are the same as those given in 1951. The most distinguishing features, however, are the various appendices and sub-appendices giving details of (a) 1951 territorial units constituting the present set-up of the district showing changes which have taken place during the decade, (b) villages with a population of 5,000 and over and towns with a population under 5,000, (c) houseless and institutional population, (d) 1951 population adjusted to 1961 administrative units, (e) new towns added in 1961, (f) towns in 1951 declassified in 1961 and (g) towns with their area and jurisdiction.

A-I—Area, Houses and Population

This table is more elaborate than that of 1951 as it gives in addition to area, houses and population, population per sq. mile, number of inhabited and uninhabited villages and number of towns. The data is given down to taluka/mahal with break-up for Total/Rural/Urban.

Brief Account of Changes in Area of the District from 1901 to 1961

Nomerous changes have taken place since Independence in the areas of the districts, though the boundaries of various units comprised therein practically remained unchanged between 1901 and 1941. Three principal stages in which these changes have come about during the Post-Independence period are: (i) those that came in the wake of Independence after 1947; (ii) those that took place on the Reorganisation of States in 1956 and (iii) those that resulted from the bifurcation of the bilingual Bombay State in 1960.

Even after reorganisation in 1956, several territorial changes were effected in 1959, the details of which have been given in sub-appendix 2 to Appendix 1 to Table A-I alongwith the relevant notifications. Broad changes that have taken place in the territorial limits of the district between 1951 and 1961 are, however, listed below:—

Junagadh:—This district consists of the former Sorath district less 27 villages.

Rural and Urban Population

During the past censuses there was no uniformity in the criteria prescribed for distinguishing urban areas from the rural. The definition of 'town', therefore, varied from State to State and the places were treated as towns if, in the opinion of the State Government or the Superintendent of Census Operations, they were found to possess urban characteristics. It included all municipalities, cantonments, civil lines and all places with more than 5,000 population which, it was decided, to treat as towns on the ground that they possessed urban characteristics. This definition of 'town' has remained substantially unchanged since 1891. To the characteristics aforementioned, Baroda State, which has merged into Bombay State in 1949 and now forms part of the newly formed Gujarat State added one more according to which all the headquarters of talukas were treated as towns. In view, however, of the increasing importance of studying urbanisation in all its varied aspects, the Registrar General, at the very outset of 1961 Census, emphasised the need for a uniform treatment by strictly defining the concept of 'town'.

Town:

'Town' has been defined as a place having a municipality or a cantonment or a place with a population of 5,000 and over if 75 per cent of its male population is dependent on non-agricultural pursuits. These tests were applied by the Collectors who furnished lists of places to be treated as towns in 1961, which were also got approved by the State Government and the Registrar General.

As against 22 places treated as towns in 1951, 17 qualify to be treated as urban according to the test prescribed by the Census of 1961. The loss of 5 is accounted for by declassification of 6 towns as villages as shown in statement A and promotion of 1 village as town as shown in statement B.

STATEMENT A

Urban areas of classes V & VI of 1951 eliminated in 1961 with population of 1951 and 1961

Class	Name and number of towns	Population	
		1951	1961
V	2	13,778	15,464
	1 Chorwad	8,744	9,900
	2 Delwada	5,034	5,564
VI	4	16,174	21,277
	1 Shahpur	4,891	6,800
	2 Sutrapada	4,635	6,576
	3 Madhavpur	3,945	4,765
	4 Sardargadh	2,703	3,136

STATEMENT B

New urban areas of class VI listed in 1961 with their names and population in 1961

Class	Name and number of towns	1961 Population
VI	Talala	4,403

Village:

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distinct number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

Census House:

Owing to the diversity of local conditions it was not possible in the past to lay down a uniform definition of a 'Census House' common to all parts of the country. The definition adopted till the Census of 1941 had two-fold connotation which emphasised either (i) the structural aspect, i.e., building or house or (ii) the social aspect, i.e., family or household. The former was defined as the residence of one or more families having a separate and independent entrance from the common way. But the social aspect was emphasised by defining a 'Household' as the home of the composite family with its resident dependents and servants. From 1881-1941, the Census Superintendents adopted the one or the other definition according to their convenience. A clear distinction was, however, drawn between a 'Census House' and a 'Census Household' in 1951 which gave a uniform meaning to the term 'Census House' or the 'Census Household' or the 'Family Unit'. The 'Census House' was defined as, 'a dwelling with a separate main entrance' and the 'Census Household' as 'all persons who live together in the same house and have a common mess'.

Though the definition of a 'Census House' introduced in 1951 was continued during the Census of 1961, it differs from that adopted by the Census of 1961 in that the latter is broad-based to include non-dwellings also. The house-list is thus an inventory of all structures or part of structures with a separate entrance.

The following definitions of the term 'Census House' given in the instructions for filling the house-list will clarify the position still further.

"A 'Census House' is a structure or a part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

A-III — Villages Classified by Population

This table classifies inhabited villages only by size of population. After giving the total number of inhabited villages and rural population for every taluka/mahal, it shows the number of villages and population for the following seven categories, namely:—

(1) less than 200, (2) 200-499, (3) 500-999, (4) 1,000-1,999, (5) 2,000-4,999, (6) 5,000-9,999 and (7) 10,000 and above.

Table A-III of 1951 gives combined figures of inhabited towns and villages classified by population, while A-III of 1961 gives figures of villages only classified by population.

A-IV — TOWNS AND TOWN-GROUPS CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1941

This table gives statistics relating to the figures of population since 1941 showing the growth of each town from census to census. Percentage variation is given from decade to decade, not only for the towns, but also for town-groups, where one or more urban units form a compact urban area. The total population of the town-group along with that of its constituent urban units is given under the class into which the town-group has been classified. Separate figures have, likewise, been given for municipal and non-municipal areas such as port area, suburban area, military area, railway colony, cantonment, etc., where a town is a combination of two or more such units. The following are the six classes into which the towns are grouped in Table A-IV according to the size of population:

Class	Population	Class	Population
I	100,000 and above	IV	10,000 to 19,999
II	50,000 to 99,999	V	5,000 to 9,999
III	20,000 to 49,999	VI	Less than 5,000

The areas of towns in sq. miles and sq. kilometres are also given in the table for 1961.

The term 'town' as defined at the Census of 1961 and its uniform adoption all over the country on the basis of certain specified tests have been explained under 'Urban and Rural Population' in the note to Table A-I.

'Town-group'—This is a new variant of the urban population which has been introduced for the first time on the present occasion. Large cities or expanding towns bring within their orbits new satellite towns, industrial areas or settlements interspersed by small bits of rural areas. Such urban areas, not necessarily municipal, are taken to form town-groups with the main city or town as one of the constituents.

'City' — Places having population of 100,000 and over either individually or as a town-group have been classified as cities.

A-I—AREA, HOUSES AND POPULATION

OTE :-

1 Population per sq. mile under Column 4 has been worked out on the area figures given by the State Survey Department ven in Column 3(a).

2 Under Column 4, population of those urban units, for which area figures are not available, is ignored for working out urban nsity. Rural density is worked out on the basis of rural population only, though the area figures include areas of those urban iits for which separate area figures are not available.

3 The sq. kilometres under Column 3(b) and density figures of urban areas of Taluka/Mahal and District under Column are worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of the towns in the respective iits. In addition to this, the figures relating to sq. kms. are further adjusted to make the Taluka/Mahal and District totals agree.

APPENDIX I

1951 TERRITORIAL UNITS CONSTITUTING THE PRESENT SET-UP OF DISTRICT AND EACH TALUKA/MAHAL

	16 Ranavav (484-0)	Part (484-0) of Ranavav village
	17 Kutiyana (228-1)	Part (228-1) of Kutiyana village

NOTE:— Towns treated as such for the first time in 1961 are shown in italics.

B—ECONOMIC TABLES

This series is divided into two parts, viz., (i) General Economic Tables and (ii) Household Economic Tables. Economic Tables of the 1961 Census cover a very large field of data and are more elaborate than any of their predecessors. The most important point to remember about the economic tables is that during the past censuses, income or economic independence was the test applied for measuring the economy of the country. Before 1961, economic activity was interpreted in terms of categories like economically independent or economically dependent, semi-dependent, earning dependents or non-earning dependents. In 1951, the economic classification was confined to the eight livelihood classes with stress on income rather than work or economic activity of the individual. The most significant departure that the Census of 1961 has made is the emphasis laid on work, so that all people who work, including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance have also been included as workers. Even the non-workers have been distributed into eight-fold categories according to the activities pursued by them. This change in concept will help obtain a realistic picture of the economic activity of those important sections of household workers who were left out of account in the past.

The Household Economic Tables on the other hand are an entirely new feature of the 1961 Census. They are prepared from household schedules by mechanical tabulation on the basis of 20 per cent sample and give all possible data relating to the extent of land under cultivation, nature of household industry, period of work in household industry and the persons employed either as family workers or as hired labourers.

Industrial and Occupational Classification

Another noteworthy feature of the General Economic Tables is the systematic classification of industries and occupations. For, the one introduced in 1951 was, as truly pointed out by the Registrar General, neither a purely industrial nor occupational classification of the population but a combination of both. The National Classification of Industries and Occupations adopted by the Government of India and followed on the present occasion classifies the economic data into 9 divisions, 45 major groups and 343 minor groups of industries and 11 divisions, 75 groups and 331 families of occupations as against a conglomeration of 10 divisions and 88 sub-divisions of services in 1951.

The following statement gives the categories of industrial workers adopted in the current census and the eight livelihood classes of 1951.

1961 Industrial Categories	1951 Means of Livelihood
	AGRICULTURAL CLASSES
I As Cultivators	I Cultivators of land wholly or mainly owned and their dependents
II As Agricultural Labourers	II Cultivators of land wholly or mainly unowned and their dependents
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	III Cultivating Labourers and their dependents
IV At Household Industry	IV Non-cultivating owners of land, agricultural rent receivers and their dependents
V In Manufacturing other than Household Industry	NON-AGRICULTURAL CLASSES
VI In Construction	Persons (including dependents) who derive their principal means of livelihood from
VII In Trade and Commerce	V Production other than cultivation
VIII In Transport, Storage and Communications	VI Commerce
IX In Other Services	VII Transport
X Non-workers	VIII Other services and miscellaneous sources

In 1951 the non-workers who were known as non-working dependents were classified according to the occupation of the persons on whom they were dependent.

The non-working population is distributed separately for the first time according to eight types of activities, viz., (i) full time students or children attending school who do no other work, (ii) housewives and persons engaged in unpaid home duties, (iii) infants and other dependents including permanently disabled or old persons, (iv) retired persons, rentiers and others who are in receipt of income without doing any work, (v) beggars, vagrants and others of unspecified source of existence, (vi) convicts in jails or inmates of penal, mental or charitable institutions, (vii) persons not employed before but seeking employment for the first time and (viii) persons employed before but now out of employment and seeking employment.

Broadly speaking, workers of 1961 can be taken to be equal to self-supporting persons *plus* earning dependents of 1951 *minus* those in receipt of income without work such as rentiers, pensioners, beggars, etc.

In respect of persons who are workers, the information is available in Q. 8 Cultivators, Q. 9 Agricultural Labourers, Q. 10 Working at Household Industry and Q. 11 Working at Non-household Industry, Profession, Trade, Business or Service. Following extracts from the Manual of Instructions to Enumerators relating to Questions 8 to 12 on the basis of which the General Economic Tables are compiled will be helpful in appreciating the contents of these tables.

Q. 8 Working as Cultivator

A person is said to be working as cultivator if he/she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share. Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations which are shown in Q. 10 or Q. 11 as the case may be.

Q. 9 Working as Agricultural Labourer

A person is said to be working as Agricultural labourer when he works in another person's land only as a labourer without exercising any supervision or direction in cultivation for wages in cash, kind or share of produce. Also the labourer has no right or lease or contract on land on which he works, nor he is responsible for taking decision as to which crops to sow and when or taking the risks of cultivation.

Q. 10 Household Industry

A Household industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Household industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

Q. 11 Doing work other than 8, 9 or 10

Nature of work (occupation) is the exact function that a person performs in the economic sector in which he/she is engaged. This information was to be filled in Q. 10(a) or 11(a) of the individual slips. The 'industry' means that sector of economic activity in which the earner is engaged, and the name of that industry was recorded according to the name of the principal article produced, serviced or repaired. Specific instructions were given to record replies to Q. 11(a) and 11(b) as under:—

(1) In the case of married or grown up women who do any of the work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cow dung cakes, grass, etc., in addition to the usual household duties, such duties were fully described and 'HW' written in brackets after the full description.

(2) If a person makes the articles he sells, he was treated as maker and seller of them.

(3) The vague terms like scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher, etc., were not written.

(4) For labourers accustomed to work on various jobs, 'general labourer' was mentioned

(5) Machine Operator.

The kind of machine used with its recognised name was given.

(6) Shop-keepers, Retail Dealers, Shop Assistants.

If a person was mainly engaged in selling, 'Dealer' was written and if assisting 'Shop Assistant' or 'Salesman' was written. 'Wholesale' and 'Retail' was stated when the business was carried on in wholesale or in retail.

(7) The nature of transport was fully mentioned like air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by bullock, camel, etc.

(8) For a person engaged in Defence services, 'service of Central Government' was written.

(9) Domestic Services

In the case of any private servant, e.g., a cook or domestic servant, 'private or domestic servant' only was written. There was no industry in their case but in cases of persons employed in hotels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., were added.

Status of economically active persons

Economically active persons were divided into 4 classes (1) Employer (2) Employee (3) Single worker and (4) Family worker.

An 'employer' is that person who hires one or more persons in his work.

An 'employee' is that person who works under others for wages or salary in cash or kind.

A 'single worker' is that person who does his work without employing others except casually and without the help of the other members of the family except casually.

A 'family worker' is that person who is doing his work in own family without wages or salary in cash or kind.

Thus one more status of economically active person, viz., family worker is added against only first three in the previous census of 1951.

Q. 12 Activity, if not working

A person who is not working has been classified as non-worker. Non-workers are distributed separately according to eight types of activities already noticed above.

(i) General Economic Tables

There are in all 24 Economic Tables compiled in B-Series—16 General Economic Tables compiled from individual enumeration slips and 8 Household Economic Tables from household schedules on 20% sample basis. Out of the 16 General Economic Tables, the District Handbook reproduces the following 12.

B-I—Workers and Non-workers classified by sex and broad age-groups

Table B-I is the basic economic table furnishing the total population and 9 industrial categories of workers and non-workers. The data is presented for the district with total/rural/urban break-up.

The classification of workers and non-workers by broad age-groups, viz., 0-14, 15-34, 35-59 and 60 and above, is the special feature of 1961 census as these age-groups correspond to the different stages of life

which have a special significance as regards capacity to work, viz., children, young persons, middle aged persons and old persons.

TABLE B-III-A AND B—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

This table which corresponds to the Table D-VII of 1951 is given in two parts—A & B. Part-A relates to the urban areas and Part-B relates to rural areas. The data in Part-A are presented for the district and that in Part-B down to taluka/mahal for rural areas.

In 1951, only literate and educated persons were classified into eight educational standards by 8 livelihood classes. No classification of illiterate persons into 8 livelihood classes was given in 1951; whereas in this Table, nine categories of workers and also non-workers are given for illiterates as well as for literates.

Non-technical diplomas and degrees have this time been distinguished from technical diplomas and degrees and separate information given also for each technical degree.

TABLE B-IV—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK OTHER THAN CULTIVATION

This table corresponds to table B-III of 1951. It has been presented in three parts on the basis of the principal work of the persons. Part-A relates to persons at work in Household Industry, classified by branch of industry and class of workers (employee and others). Figures for the district are given for Divisions and Major groups for total/rural/urban and those for taluka/mahal for Divisions and rural areas only. Part-B pertains to persons at work in non-household industry, trade, business, profession or service, classified by branch of industry and class of workers (Employer, Employee, Single worker and Family worker). Figures for the district are given for Divisions and Major groups for total/urban and those for taluka/mahal figures for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the Villagewise List of Industrial Establishments. Part-C relates to persons at work at household as well as in non-household industry classified by branch of industry. Figures for the district are given for Divisions, Major groups and Minor groups with descriptions for total/urban and those for taluka/mahal for Divisions only and rural areas only.

Table B-III of 1951 furnished figures of self-supporting persons only whereas in this table all the persons who work including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance are included as workers. In 1951, there were three classes of workers, viz., Employer, Employee and Independent workers whereas in this table, workers are classified in four categories, viz., Employer, Employee, Single worker and Family worker, the definitions of which are already given before.

Appendix to Part-C shows in run on lines Minor Groups with the number of male and female workers separately for household industry and non-household industry in brackets having less than 1% of workers of the respective Division (0.5% for Divisions 2 & 3 combined) which are omitted from the table.

TABLE B-V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

This is a new table in which cross-tabulation of industry and occupation has been made for the first time. Figures for the district are given by Divisions, Groups and Families for total/urban and for taluka/mahal by Divisions only for rural areas.

Separate data are furnished for the persons working in household industry and other industrial categories as adopted in the Primary Census Abstract alongwith the Divisions, Groups and Families giving code numbers and actual description. The National Classification of occupation followed in this table is in conformity with international usuage.

Appendix to this table shows in run on lines, families with the number of male and female workers followed by industrial categories having less than 1% of workers of the respective Division (0.5% for Divisions 7 & 8 combined) which are omitted from the main table.

While applying quality checks, some occupations appeared to have been classified under inappropriate industrial categories vis-a-vis the occupations or the nature of work done by persons in economic sector of their activity. Such cases are listed in the annexure to the table, indicating the appropriate industrial category in which they deserve to be classified.

TABLE B-VII PART-A—PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS, (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY, (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

TABLE B-VII PART-B—INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

In this table figures are presented for the district for Divisions and Major groups with total/rural/urban break-up and those for taluka/mahal for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the Villagewise List of Industrial Establishments.

In a similar table B-II of 1951, there was cross-tabulation of self-supporting persons and earning dependents with reference to the secondary means of livelihood which was confined to 8 livelihood classes, while this table affords cross-tabulation between principal work in cultivation and household industry or *vice versa*.

Appendix to Table B-VII-A shows in run on lines Major Groups of household industry having secondary work, which are omitted from the table being less than 5% of major groups as principal work followed in each case by the number of industrial categories and number of males and females having secondary work separately for total/rural and urban population in brackets.

TABLE B-VIII—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS

This is a new table prepared for the first time in 1961. It is in two parts. Part-A relates to urban areas and is presented for district. Part-B relates to rural areas and is presented down to taluka/mahal.

The classification of unemployed persons is shown separately for (i) those who are seeking employment for the first time and (ii) for those who were employed before but are now out of employment and seeking work. The age-groups given in the first case are quinquennial, viz., 15-19, 20-24, 25-29, 30-34 and 35+ modified in the second case as 15-19, 20-24, 25-34, 35-44, 45-59 and 60+.

In Part-A relating to urban areas information for unemployed persons is furnished for all educational levels, and in Part-B for educational levels upto matriculation and above.

TABLE B-IX—PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

This is a new table introduced for the first time. The table is presented for district with total/rural/urban break-up and for taluka/mahal for rural areas only. It classifies non-working population into 8 types of activities based on the recommendation of the United Nations Organisation. They are:—

1 Full time students

2 Persons performing household duties without wages

3 Dependents, infants and disabled persons

4 Retired persons, rentiers or persons of independent means

5 Beggars, vagrants, etc.

6 Inmates of penal, mental and charitable institutions

7 Persons seeking employment for the first time

8 Persons employed before, but now out of employment and seeking work

(ii) Household Economic Tables

Out of the 8 Household Economic Tables compiled at this census, 4 tables which are reproduced in the District Handbook are:—

Table B-X—Sample Households (i) engaged neither in cultivation nor household industry, (ii) engaged either in cultivation or household industry but not in both and (iii) engaged both in cultivation and household industry

(Based on 20% Sample)

This table is prepared for total, rural and urban for the district and for rural areas only for taluka/mahal.

Cultivation includes ownership, tenancy cultivation and agricultural labour. Household industry has been defined in the general note above.

Table B-XI—Sample Households engaged in cultivation classified by interest in land and size of land cultivated in Rural and Urban areas separately

(Based on 20% Sample)

For rural areas the data has been given down to taluka/mahal while that for urban areas has been given only for the district as a whole.

This table gives very useful data on the size of holdings and affords a cross-tabulation of names of local rights over land (interest), viz., (a) owned or held from Government, (b) held from private persons or institutions, (c) partly held from Government and partly from private persons, and size of holding, viz., less than 1; 1.0-2.4; 2.5-4.9; 5.0-7.4; 7.5-9.9; 10.0-12.4; 12.5-14.9; 15.0-29.9; 30.0-49.9, 50+ and unspecified.

Table B-XII—Sample households engaged in cultivation only classified by size of land cultivated and number of family workers and hired workers in Rural and Urban areas separately

(Based on 20% Sample)

For rural areas the data has been given down to taluka/mahal and that for urban area for the district as a whole. The information for households that are engaged only in cultivation has been cross-tabulated by number of persons engaged in cultivation and each prescribed size class of holding. Working strength in cultivation is further separated into family workers and hired workers when more than 1 person is engaged in cultivation.

Table B-XVI—Sample Principal Household industry classified by period of working and total number of workers engaged in household industry in all areas

(Based on 20% Sample)

This table is presented for the district with total/rural/urban break-up. The data in respect of households engaged in household industry only or both in household industry and cultivation has been given separately with the Divisions and Major groups of household industry. The household industry has been classified according to the period of working viz.,

1-3 months, 4-6 months, 7-9 months, 10 months to one year. Under each duration period number of households, number of family workers and number of hired workers have also been given.

Appendix to this table shows in run on manner Major groups of household industry which are omitted from the table being less than 10% of the respective Division, giving the number of major groups, with or without cultivation, with period of working in abbreviation and the number of households in brackets separately for total, rural and urban.

TABLE B-XVII—SAMPLE HOUSEHOLDS CLASSIFIED BY (i) NUMBER OF MALE AND FEMALE MEMBERS BY SIZE OF HOUSEHOLDS (ii) ENGAGEMENT (a) NEITHER IN CULTIVATION NOR IN INDUSTRY (b) IN HOUSEHOLD INDUSTRY ONLY AND (c) IN CULTIVATION SUB-CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

The table is presented down to district and gives data for total/rural/urban. It is intended to give family sizes distributed according to single member, small, medium, large and very large families. Though a 'Census Household' is not the same as a 'family' and also includes unrelated persons living with the family during the census count, the table will give a general idea of the sizes of families as the number of families having outsiders is quite insignificant.

The table gives such economic data as (i) Households engaged neither in cultivation nor household industry, (ii) Households engaged in household industry only and (iii) Households engaged in cultivation by size of holding groups with the break-up of sample households into (i) Single member, (ii) 2-3 members, (iii) 4-6 members, (iv) 7-9 members and (v) 10 members and over.

Since the table is based on 20% sample, total number of households and household population are given in the following statement:—

Total Number of Households and Household Population

District	Total Rural Urban	Total No. of households	Total household Population		
			Persons	Males	Females
1	2	3	4	5	6
Junagadh	Total	217,805	1,245,643	638,296	607,347
	Rural	151,484	893,891	457,590	436,301
	Urban	66,321	351,752	180,706	171,046

TABLE B-IV PART-C

B-IV PART-C—INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR

Branch of Industry		Division, Major group & Minor group of I. S. I. C.	Total Workers		
			Total		
			Persons	Males	Females
		1	2	3	4
Major Group	29	Paper and Paper Products	12	11	1
	30	Printing and Publishing	194	194	..
	31	Leather and Leather Products	3,832	3,425	407
Minor Group	310	Currying, tanning and finishing of hides and skins and preparation of finished leather	1,732	1,328	404
	311	Manufacture of shoes and other leather footwear	1,822	1,820	2
Major Group	32	Rubber, Petroleum and Coal Products	11	11	..
	33	Chemicals and Chemical Products	1,839	1,508	331
Minor Group	330	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	555	530	25
	338	Manufacture of common salt	541	314	227
	339	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	590	521	69
Major Group	34-35	Non-metallic Mineral Products other than Petroleum and Coal	5,477	4,064	1,413
Minor Group	341	Manufacture of cement and cement products	1,085	975	110
	342	Manufacture of lime	911	630	281
	343	Manufacture of structural stone goods, stone dressing and stone crushing	497	356	141
	350	Manufacture of earthenware and earthen pottery	2,694	1,891	803
Major Group	36	Basic Metals and their Products except Machinery and Transport Equipment	2,276	2,240	36
Minor Group	369	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	1,733	1,707	26
Major Group	37	Machinery (All kinds other than Transport) and Electrical Equipment	103	103	..
	38	Transport Equipment	498	497	1
Minor Group	384	Repairing and servicing of motor vehicles	208	208	..
	388	Repairing of bicycles and tricycles	220	219	1
Major Group	39	Miscellaneous Manufacturing Industries	2,360	2,298	62
Minor Group	393	Manufacture of jewellery, silverware and wares using gold and other precious metals	1,699	1,687	12
	399	Manufacture and repair work of goods not assignable to any other group	417	370	47
*Division 4 Construction			*5,965*	*4,928*	*1,037*
Major Group	40	Construction	5,965	4,928	1,037
Minor Group	400	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical & sanitary installations	3,680	3,404	276
	401	Construction and maintenance of roads, railways, bridges, tunnels	2,161	1,424	737
	403	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	119	96	23
*Division 5 Electricity, Gas, Water and Sanitary Services			*1,286*	*1,233*	*53*
Major Group	50	Electricity and Gas	1,206	1,154	52
Minor Group	500	Generation and transmission of electric energy	1,152	1,100	52
	501	Distribution of electric energy	50	50	..
Major Group	51	Water Supply and Sanitary Services	80	79	1
Minor Group	510	Collection, purification and distribution of water to domestic and industrial consumers	65	65	..
	511	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	15	14	1
*Division 6 Trade and Commerce			*28,526*	*27,375*	*1,151*
Major Group	60–63	Wholesale Trade	2,019	1,993	26
Minor Group	600	Wholesale trading in cereals and pulses	528	526	2
	601	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere)	470	466	4
Major Group	64–68	Retail Trade	25,247	24,127	1,120

APPENDIX

Minor Groups having less than 1% of workers of the respective division less than 0.5% in case of Minor Groups of division 2 and 3 only have been shown in this Appendix. The following abbreviations have been used :— 'HI' for Household Industry, 'NHI' for Non-household Industry, 'M' for Males and 'F' for Females.

APPENDIX

Families having less than 1% of the workers of the respective divisions (less than 0.5% in case of Division 7-8 only) have been shown in this appendix. The following abbreviations have been used :—

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities
IV At Household Industry
V In Manufacturing other than Household Industry
VI In Construction
VII In Trade and Commerce
VIII In Transport, Storage and Communications
IX In Other Services
M=Males
F=Females

APPENDIX

Major groups of household industry where persons having secondary work as cultivation or agricultural labour, are less than 5% of the persons having the major group as principal work, have been shown in this appendix. The following abbreviations have been used:—

I—As Cultivator	M=Males
II—As Agricultural Labourer	F=Females

00 Total I (F1), Rural I (F1); 03 Total I (F15) II (F2), Rural I (F15) II (F2); 20 Total I (M24) II (M3), Rural I (M24) II (M3); 22 Total I (M20) II ((M7,F1), Rural I (M20) II (M7,F1); 27 Total I (M58,F5) II (M13,F5), Rural I (M58,F4) II (M13,F5), Urban I (F1); 34-35 Total I (M55,F11) II (M43,F16), Rural I (M55,F11) II (M43,F16); 36 Total I (M44) II (M1), Rural I (M44) II (M1); 39 Total I (M8,F2) II (F1), Rural I (M5,F1) II (F1), Urban I (M3,F1).

B-VII PART-B—INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

APPENDIX

Major groups of the Household Industry which are less than 10 per cent of the respective divisions have not been shown in the main table, which shows such divisions by an asterisk. Major groups thus dropped from the main table are given run on in this Appendix. The figure preceding the bracket represents the code number of the major group dropped from the Table. Alphabets given in brackets are abbreviations meant for different ranges of period of working in the Household Industries 'with' or 'without' cultivation as explained below. The numerical figure given after alphabet denotes the number of households in that particular range indicated by that alphabet.

Abbreviation			Class Range of Period of Working	Abbreviation			Class Range of Period of Working
A	means	with cultivation	1 to 3 months	E	means	without cultivation	1 to 3 months
B	,,	,,	4 to 6 ,,	F	,,	,,	4 to 6 ,,
C	,,	,,	7 to 9 ,,	G	,,	,,	7 to 9 ,,
D	,,	,,	10 months to 1 year	H	,,	,,	10 months to 1 year
X	,,	,,	Unspecified months	Y	,,	,,	Unspecified months

For example=District Junagadh-Rural 20(B-6, C-1, E-1, X-1, Y-4)

Figure 20 stands for major group 20 relating to "foodstuffs", B-6 means that there are 6 households working in the class range of '4 to 6 months' in the household industry with cultivation. C-1 means that there is 1 household working in the class range of '7 to 9 months' in the household industry with cultivation and E-1 means that there is 1 household working in the class range of '1 to 3 months' in the household industry without cultivation; X-1 means that there is one household working for "unspecified months" in the Household Industry with cultivation and Y-4 means that there are 4 households working for "unspecified months" in the household industry without cultivation in the 'foodstuffs' industry in the rural areas of Junagadh District.

The list of major groups thus dropped from the main table of Junagadh District is given below.

JUNAGADH DISTRICT

TOTAL

C-SOCIAL AND CULTURAL TABLES

This series contains 8 tables of which Table C-I has been prepared from Household Schedules, on the basis of 20 per cent sample. It gives information about composition of sample households according to marital status. All the other tables in this series are based on full count and give age, sex and education, separately for rural and urban areas, single year age returns, mother tongue in alphabetical order, religion and classification by literacy and industrial category of workers and non-workers among Scheduled Castes and Scheduled Tribes. All the tables of this series except Table C-VI have been reproduced in the District Census Handbook.

Table C-I—Composition of Sample Households by Relationship to Head of Family Classified by Size of Land Cultivted

(Based on 20% Sample)

The table is prepared from Part II Census Population Record of the Household Schedules for total, rural and urban areas of the district. A household means the entire groups of persons who commonly live together in the same census house and usually take their meals from a common mess. It thus includes outsiders residing with the family during enumeration. This table, therefore, gives the composition of a household by family and non-family member. Besides, the heads of the households and their spouses, other family members like married sons and other relations are given separately by sex and marital status.

Table C-II—Age and Marital Status

This table is presented for the district with rural/urban break-up while those for taluka/mahal for rural areas only. It corresponds to Table C-III of 1951 which was prepared on a 10% sample of the slips taken out at the time of initial stage of sorting, while this table is prepared on full count according to the quinquennial age-groups recommended by the United Nations Organisation. In Table C-III of 1951 there were 3 categories of marital status, viz., unmarried, married and Divorced/Separated, whereas in this table are given five categories of marital status, viz., (1) never married, (2) married, (3) widowed, (4) divorced/separated and (5) unspecified. In 1951, the information regarding widowed or divorced was given jointly, whereas these two types of marital status are compiled separately this time.

Columns 14 and 15 relating to unspecified status have been deleted from the table. Such persons are 2 females returned from rural areas.

Table C-III-Age, Sex and Education

It corresponds to Table C-IV of 1951 which was prepared on 10% sample. This table is prepared on full count this time and is presented in two parts—A and B for the district. In Part-A broad educational levels upto matriculation and above are given for all areas. In Part-B educational levels are given in details with technical and non-technical diplomas, university degrees and technical degrees in urban areas only. In 1951, only sum total of all literate and illiterate persons was given, whereas in 1961, educational levels for literate persons are given in details.

Table C-IV—Single Year Age Returns

The Table is presented for the district with total/rural/urban break-up.

It corresponds to Table C-V of 1951 Census which was prepared on 10% sample. This table has been prepared on full count in 1961. The age in years completed on 1st March, 1961 has been given but the infants who did not complete one year on 1-3-1961 have been shown under the age group "O".

Table C-V—Mother Tongue

This table corresponds to Table D-I-(i) of 1951 in which languages and dialects as returned were shown in the descending order of number of speakers. This time all the languages as actually returned are arranged in the alphabetical order with population, persons, males, females, for total, rural and urban areas for the district and for rural areas for taluka/mahal.

'Mother tongue' is the language spoken in childhood by the person's mother to the person or the language spoken in the household.

Table C-VII-Religion

It is prepared separately for total, rural and urban areas of the district and for rural areas of talukas and mahals. This table corresponds to Table D-II of 1951, in which the figures of religions other than the eight main religions were grouped in the residuary category 'other religions', whereas in this table data are given for six main religions only viz., Budhist, Christian, Hindu, Jain, Muslim and Sikh and persons returned as professing other religions, sects and beliefs which could not be classified under any of the religions have been grouped under "Other Religions and Persuasions".

Table C-VIII-Scheduled Castes and Scheduled Tribes

Part A—Classification by Literacy and Industrial Category of Workers and Non-workers Among Scheduled Castes

Part B—Classification by Literacy and Industrial Category of Workers and Non-workers Among Scheduled Tribes

This table is presented for the district with total/rural/urban break-up and for taluka/mahal for rural areas only.

In this table total population of Scheduled Castes/Scheduled Tribes and their distribution by nine industrial categories of workers and also non-workers adopted in the Primary Census Abstract are shown by literate and illiterate.

Part A relates to Scheduled Castes and Part B to Scheduled Tribes.

E—HOUSING TABLES

The present Housing Census is the first of its kind in the history of the Indian Census organized on a uniform basis throughout the country alongwith the population Census of 1961. In the past censuses, house-listing was purely an administrative arrangement. Only residential houses were numbered and listed with the name of the head of the household. However, during 1961 Census a comprehensive house-list for collecting detailed information regarding each census house and industrial establishment formed part of the statutory census schedules. The house-list form brought into use during the current Census has recorded data on housing such as type of houses, tenure status, material of wall and roof, number of rooms in a census household and of persons residing therein as well as essential data relating to establishments, workshops and factories, such as name of the establishment or proprietor, name of products, number of persons working and the kind of fuel or power, if machinery is used.

The following five housing tables have been compiled from the house-lists :-

E-I—Census Houses and the uses to which they are put

E-II—Tenure Status of Sample Census households living in Census houses used wholly or partly as dwelling

E-III—Census houses used as factories and workshops classified by industry, power and no power used and size of employment

E-IV—Distribution of Sample households living in Census houses used wholly or partly as dwelling by predominant material of wall and predominant material of roof

E-V—Sample households classified by number of members and by number of rooms occupied

Out of the five tables stated above, Tables E-I and E-III have been prepared on full count and Tables E-II, IV and V on the basis of 20 per cent sampled households. For the purposes of drawing the sample, the house-lists were arranged separately in the order of location code numbers in case of (i) rural areas of a taluka/mahal and (ii) urban areas other than towns with population of 50,000 and over for a district, and (iii) for every town with a population of 50,000 and over. The samples were marked continuously for all the house-lists thus arranged and the households left over at the end of the house-list after marking the last sample were carried over to the next house-list for sample selection.

Tables E-I, E-II, E-IV and E-V are given in the District Census Handbook for the district, taluka and towns with a population of 50,000 and over. But the data regarding number of establishments contained in Table E-III are separately compiled down to village and given in the Villagewise List of Industrial Establishments.

The explanatory note on each of the tables is given below :-

TABLE E-I—CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

Table E-I prepared on full count gives figures of census houses separately for total, rural and urban areas of the district, talukas, cities and towns with population of 50,000 and over, classified into different categories according to the uses to which they are put. Those found vacant at the time of house-listing have also been shown separately as such. The following are the various types of houses into which occupied houses have been classified :—

Dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, hotels, hostels, sarais, dharamshalas, tourist homes and inspection houses, shops excluding eating houses, business houses and offices, factories registered

under the Factories Act and worksheds and workshops not so registered, schools and other educational institutions including training classes, coaching and shop classes, restaurants, sweetmeat shops and eating places, places of entertainment and community gathering (Panchayat Ghar), public health and medical institutions, hospitals, health centres, doctor's clinics, dispensaries, etc.

Others

Occupied census houses which do not fall in any of the above categories have been classed as 'Others'.

With a view to understand the significance of statistics incorporated in E Series of Tables, the concepts and definitions of the terms occuring in the table are given below :-

Census house

" A Census house is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

Census household

" A household is a group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so."

Shop

" A shop is a place where articles are sold for cash or for credit."

Workshop

" A workshop is a place where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold, and is not a factory registered under the Factories Act."

Following are some of the instances :—

Paper-making, shoe-making, tailoring, cycle-repairing, motor-servicing, halwai's shop, pottery-making, goldsmith, blacksmith, etc.

Factory

"A factory is a large workshop which has been registered under the Indian Factories Act."

Business houses

Business houses are those premises where transactions in money or other articles are taking place. Detailed explanation of all these will be found in the Introductory Chapter of the Report on Housing and Establishments

TABLE E-II-TENURE STATUS OF SAMPLE CENSUS HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING

This table has been prepared on the basis of 20 per cent sample. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, and dwellings with other uses have been taken into account for the purpose of marking the samples. Shop-*cum*-dwellings and workshop-*cum*-dwellings are census houses which are partly used for residential or dwelling purposes and partly used as a shop or workshop. The total number of households given in column 4 of this table gives the total of such samples classified into the aforementioned four categories of dwellings, which have been further classified according to their tenure status, whether owned or rented, for the districts, talukas and towns with population of 50,000 or more as also for total/rural/urban.

TABLE E-IV-DISTRIBUTION OF SAMPLE HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING BY PREDOMINANT MATERIAL OF WALL AND PREDOMINANT MATERIAL OF ROOF

This table has been prepared on 20 per cent sample basis. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the sample. The total number of houses given in column 3 of this table gives the totals of all such sampled households. The material out of which most of the walls are made or where a house consists of separate structures, each of different materials, the material out of which the walls of the main bedrooms are made has been entered. The wall material has been classified into the following nine categories :-

(1) Grass, leaves, reeds or bamboo
(2) Timber
(3) Mud
(4) Unburnt bricks
(5) Burnt bricks
(6) C. I. Sheets or other metal sheets
(7) Stone
(8) Cement concrete
(9) All other material

The material out of which most of the outer roof exposed to the weather and not the ceiling is made, i. e., tiles, thatch, corrugated iron, zinc or asbestos cement sheets or concrete, etc., or in the case of multi-storeyed building, the material out of which the intermediate floor or floors have been made, have been entered and classified into the following seven categories :-

(1) Grass, leaves, reeds, thatch, wood or bamboo
(2) Tiles, slate, shingle
(3) Corrugated iron, zinc or other metal sheets
(4) Asbestos cement sheets
(5) Brick and lime
(6) Concrete and stone slabs
(7) All other material

This table has been prepared for the district, talukas and cities and towns with population of 50,000 or more, as also for total/rural/urban.

TABLE E-V-SAMPLE HOUSEHOLDS CLASSIFIED BY NUMBER OF MEMBERS AND BY NUMBER OF ROOMS OCCUPIED

This table has been prepared on 20 per cent sample basis. Census Households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the samples. The figures given in column 3 of this table are the totals of all such sampled households. The sex break-up of the total number of members occupying such sampled households as also the total number of rooms in these households are shown separately. All the sampled households have been further classified into the following six categories :—

Households with

(i) no regular room
(ii) one room
(iii) two rooms
(iv) three rooms
(v) four rooms
(vi) five rooms or more

The classification of households into the above categories gives not only the number of households in each category, but also the number of occupants by sex. The units for which this table has been compiled are districts, talukas and cities and towns with population of 50,000 or more, as also total/rural/urban.

SCT—SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

No special tables were prepared for Scheduled Castes and Scheduled Tribes in 1951. The only information that Table D-III of 1951 furnished was the aggregate strength of Scheduled Castes and Tribes for the district and certain arbitrary groups of talukas. In view, however, of the special safeguards provided for these classes under the Constitution, it was felt that a more detailed tabulation of the census data will furnish the basis necessary for the evaluation of the results of the various schemes implemented by the State under the Five Year Plans as also for the formulation of new ones. Special tables for Scheduled Castes and Scheduled Tribes have, therefore, been devised and presented in a separate series called SCT/SC/ST series.

The table reproduced from this series is SCT-I-Parts A & B, giving industrial classification of persons at work and non-workers by sex for Scheduled Castes and Scheduled Tribes. Separate figures of Scheduled Castes and Scheduled Tribes have also been given for each village in the Village Directory.

Total population of Scheduled Castes and Scheduled Tribes for taluka/mahal with total/rural/urban break-up is given in Statements A and B.

SCT-I PART-A—INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES

Sl. No.	Name of Scheduled Caste	Total			Total Workers		Workers I		II		III		IV		V

VILLAGE-WISE LIST OF INDUSTRIAL ESTABLISHMENTS

This table gives important information about the total number of industrial establishments arranged in ascending order of minor groups of industries. It is compiled from the house-lists and presented in run on manner. Under the name of the district are arranged minor groups of industries showing total number of industrial establishments within brackets next to each minor group separately for total, rural and urban. The figures for taluka/mahal are likewise arranged separately for total/rural/urban. Then follows a list of villages in the order of the location code number given in the Village Directory, showing against each village minor group or groups of industries found in the village with the number of establishments shown within brackets against each minor group. Figures for towns are also shown separately in the same manner.

Industrial establishments have been classified according to the minor groups of industries given in the Standard Industrial Classification adopted by the Government of India reproduced in the Annexture. This will enable the reader to identify the industry to which a particular minor group relates.

ANNEXURE

Standard Industrial Classification

Division 0—Agriculture, livestock, forestry, fishing and hunting

Major Group (Code)	Description	Minor Group (Code)
1	2	3
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks ,hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Production of other animal husbandary products such as skin,bone, ivory and teeth	048
	Division 2&3—Manufacturing—	
20	*Foodstuffs—*	
	Production of rice, atta, flour, etc. by milling dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugar cane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oil (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati),	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages—*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
21	*Beverages*—contd.	
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	*Tobacco Products—*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	*Textile—Cotton*	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile—Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	*Textile—Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile—Silk*	
	Spinning and weaving of silk textile in mill	260
	Dying and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266

ANNEXURE-*contd.*

Standard Industrial Classification

Division 0–Agriculture, livestock, forestry fishing and hunting

Major Group (Code)	Description	Minor Group (Code)
1	2	3
27	*Textile—Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and frings	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	*Manufacture of Wood and Wooden Products—*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	*Paper and Paper Products—*	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	*Printing and Publishing—*	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products—*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber, Petroleum and Coal Products—*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	*Chemicals and Chemical Products—*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338

ANNEXURE-*concld.*

Standard Industrial Classification

Division 0—Agriculture, livestock, forestry, fishing and hunting

Major Group (Code)	Description	Minor Group (Code)
1	2	3
33	*Chemicals and Chemical Products*—contd.	
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34	*Non-metallic Mineral Products other than Petroleum and Coal*—	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Enamalling, galvanising, plating (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	369
37	*Machinery (All kinds other than Transport) and Electrical equipment*—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus appliances not specified above	379
38	*Transport Equipment*	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport quipment not covered above such as animal drawn and hand-drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399

LIST OF RURAL CRAFTS AND NUMBER OF PERSONS EMPLOYED IN PRODUCTION

The handicraft table is a new feature introduced in the District Census Handbook, in 1961 Census.

A detailed handicraft survey has been undertaken as a part of the censal programme. In States like Gujarat where the survey was conducted for selected crafts in selected centres, and not in each and every village, this handicraft table was to be compiled from the house-lists or the village notes. Accordingly, the information for this table was extracted from the house-lists adopting a 4 digit code for household industries circulated by Registrar General, India. The definition of household industry presented a problem, which was solved by including, on an adhoc basis, household industries having less than 5 workers for this purpose.

The table shows the number of villages/towns in which particular crafts are practised and number of persons engaged therein. The data are compiled separately for the rural and urban areas of each taluka/mahal, for each city or town in the district and consolidated for rural and urban areas of the district. Where there is only one city/town in a taluka/mahal, the data for the urban areas are given for the city/town as they are same for taluka/mahal.

URBAN

LIST OF RURAL CRAFTS AND NUMBFR OF PERSONS EMPLOYED IN PRODUCTION

Major/Minor Group Industrial Code No.	Name of Craft	No. of Towns	No. of persons employed in production
1	2	3	4
	JUNAGADH DISTRICT*		
Major Gr. 20	*Foodstuffs*		*749*
Minor Gr. 200.1	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc.	16	328
200.3	Production of rice by milling, dehusking and processing of paddy by rice mill	1	4
200.4	Grinding of chillies, turmeric, etc.	1	8
205	Production of bread, biscuit, cake and other bakery products	7	58
206	Production of butter, cream, ghee, cheese, chhana, khowa and other dairy products	1	1
207	Oil pressing ghani, kolhu or by small machines	8	75
209.1	Confectionery	2	5
209.2	Making of sweet-meats, laddu, peda, barphi, batasa, etc.	9	172
209.6	Making of dalmot, chanachur (jor) garam, rewari, etc.	8	89
209.7	Making of other food products for residuary snacks	2	9
Major Gr. 21	*Beverages*		*57*
Minor Gr. 214.2	Production of aerated water such as sodawater, lemonade, etc.	6	40
215	Production of ice	6	17
Major Gr. 22	*Tobacco Products*		*6*
Minor Gr. 220	Manufacture of bidi	2	6
Major Gr. 23	*Textile-Cotton*		*41*
Minor Gr. 230	Cotton ginning, cleaning, carding, pressing and baling	5	14
235	Cotton cloth weaving in handlooms	2	6
239.2	Making of thread, rope, cordage and twine(cotton)	4	21
Major Gr. 27	*Textile-Miscellaneous*		*1,092*
Minor Gr. 272.3	Traditional embroidery	1	2
Minor Gr. 273.1	Making of cap, hat and other head-gears	1	4
273.4	Making of textile garments including rain-coats and head-gears, n.e.c.	17	1,086
Major Gr. 28	*Manufacture of Wood and Wooden Products*		*427*
Minor Gr. 280	Sawing, planing and milling of wood	7	74
281	Manufacture of wooden furniture and fixtures	14	263
282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	4	15
284.3	Manufacture of wooden toys	2	12
284.8	Manufacture of photo frames and framing of photo paintings, etc.	1	2
288.6	Making of donas (drone) and pattals (patravali) from leaves	1	2
288.9	Manufacture of other articles from leaf, cane, bamboo, cork and other allied products, n.e.c.	1	3
289.4	Manufacture of other wood and allied products, n.e.c.	9	56
Major Gr. 29	*Paper and Paper Products*		*3*
Minor Gr. 292.8	Manufacture of other paper products from paper, paper board and pulp, n.e.c.	1	3
Major Gr. 30	*Printing and Publishing*		*31*
Minor Gr. 302.1	Printing works, printing of handbills, invitation cards, etc.	5	31
Major Gr. 31	*Leather and Leather Products*		*458*
Minor Gr. 310.2	Currying, tanning and finishing of hides and skins preparation of finished leather	1	4
311.1	Making of leather boots, shoes or chappals (slippers, sandals)	17	444
314	Repair of shoes, chappals and other leather footwear	1	10

* The total number of towns in the district is 17

OFFICIAL STATISTICS

LIST OF TABLES ON OFFICIAL STATISTICS

		Pages
1	RAINFALL AND TEMPERATURE:	
	1.1 Maximum and Minimum Temperature 1951-1960 at Headquarters Station, Junagadh	214
	1.2 Monthly Rainfall 1952-1956 and 1958-1960 at Headquarters Station, Junagadh	215
2	VITAL STATISTICS:	
	2.1 Birth and Death Rate based on Mid-year Population Estimates	216
	2.2 Deaths from selected Causes, 1951, 1956 and 1960	217
3	AGRICULTURE:	
	3.1 Land Utilization, 1956-57 and 1960-61	217
	3.2 Area and Outturn of Principal Crops, 1952-53, 1953-54, 1956-57 and 1960-61	218
	3.3 Irrigation Potential and Utilization	219
	3.4 Area irrigated by Sources, 1950-51, 1955-56 and 1960-61	219
	3.5 Area irrigated by Crops, 1950-51, 1955-56 and 1960-61	219
	3.6 Progress under Agricultural Extension in Various Development Blocks upto 31-3-1961	220
4	LIVESTOCK:	
	4.1 Livestock and Agricultural Implements 1951, 1956 and 1961	221
5	CO-OPERATION:	
	5.1 Number, Membership and Financial Position of Co-operative Banks and Societies, 1960-61	222
6	FISHERIES	
	6.1 Fishing Centres landing places and number of fishing boats according to size as on, 31-3-1961	223
7	REGISTERED FACTORIES:	
	7.1 Number and Type of Registered Factories showing Average Employment, 1961	224
8	ELECTRICITY:	
	8.1 Installed Capacity of Electricity, 1950-51, 1955-56 and 1960-61	224
	8.2 Consumption of Electricity according to purpose, 1950-51, 1955-56 and 1960-61	224
9	MEDICAL AND PUBLIC HEALTH:	
	9.1 Number of Hospitals, Dispensaries and Patients treated in 1951, 1956 and 1961	225
	9.2 List of Hospitals and Dispensaries, 1961	226
	9.3 Public Health Activities, 1960-61	227
10	EDUCATION:	
	10.1 Schools, Scholars and Teachers in Primary Schools in Rural Areas of Junagadh District, 1960-61	228
	10.2 Literacy and Education in Rural Areas of Junagadh District, 1960-61	229
	10.3 Number and Type of Educational Institutions, Number of Pupils and Teachers, 1950-51, 1955-56 and 1960-61	229
	10.4 Directory of High Schools and Colleges as on 31-3-1961	230
11	ADMINISTRATION:	
	(a) Police and Crimes:	
	11.1 Strength of Police, 1960-61	230
	11.2 Proportion of Area, Population and Cognizable Offences per Police, 1960-61	231
	11.3 Criminal Justice, Offences reported, Persons tried, convicted or acquitted for Selected Offences, 1960-61	231
	(b) Jails:	
	11.4 Jails, 1951, 1956 and 1961	231
	(c) Registration:	
	11.5 Instruments registered and Value of Property transferred, 1951, 1956 and 1961	232
12	PLACES OF PUBLIC ENTERTAINMENT, PRESSES AND JOURNALS:	
	12.1 Newspapers published in Different Languages, 1950-51, 1955-56 and 1960-61	234
	12.2 Printing Presses, 1951, 1956 and 1961	234
	12.3 Cinema Theatres, 1960-61	234
13	TRANSPORT AND COMMUNICATIONS:	
	13.1 Railway Mileages and Names of Railway Stations, 1960-61	235
	13.2 Road Mileages by Type of Surface and Category of Road, 1950-51, 1955-56 and 1960-61	235
	13.3 Tonnage of import and export cargo handled at different ports, 1950-51, 1955-56 and 1960-61.	236
14	LOCAL BODIES:	
	14.1 Income and Expenditure of Municipalities, 1960-61	238
	14.2 Income and Expenditure of District Local Board, 1950-51, 1955-56 and 1960-61	239
	14.3 Income and Expenditure of Panchayats, 1950-51, 1955-56 and 1960-61	239
15	COMMUNITY DEVELOPMENT:	
	15.1 Progress and Achievements of Community Development/National Extension Scheme Blocks upto year ending 31-3-1961	240
16	PRICES:	
	16.1 Average Retail Prices of Staple Foodstuff, 1961	241
17	JOINT STOCK COMPANIES, BANKS, INSURANCE AND SMALL SAVINGS:	
	(a) Joint Stock Companies:	
	17.1 Joint Stock Companies, 1960-61	241
	(b) Banking:	
	17.2 Scheduled and Non-scheduled Banks, 1950, 1955 and 1960	241
	17.3 Number and Type of Co-operative Banks, 1950-51, 1955-56 and 1960-61	242
	(c) Insurance:	
	17.4 Life Insurance Policies issued and sum insured, 1957 to 1960	242
	(d) Small Savings:	
	17.5 Target and Net Collection of Small Savings, 1960-61	
18	CALENDAR OF IMPORTANT EVENTS, FAIRS AND FESTIVALS AND ANCIENT MONUMENTS:	
	18.1 Calendar of Important Events	242
	18.2 Fairs and Festivals	243
	18.3 Ancient Monuments	246

OFFICIAL STATISTICS

Departmental statistics collected from various sources, viz., Administrative Departments, State and Central, Reserve Bank of India, Life Insurance Corporation, Gujarat Electricity Board, etc., have been included in the District Census Handbook for the first time, and distributed under 18 different sections listed below: —

1 Rainfall & Temperature
2 Vital Statistics
3 Agriculture
4 Livestock
5 Co-operation
6 Fisheries
7 Factories
8 Electricity
9 Medical & Public Health
10 Education
11 Administration
12 Public Entertainment and Presses and Journals
13 Transport and Communications
14 Local Bodies
15 Community Development
16 Prices
17 Joint Stock Companies, Insurance, Banks and Co-operative Societies
18 Important Events, Fairs and Festivals and Ancient Monuments

Uniform table numbers have been adopted in all the Handbooks. Wherever a particular table is not applicable to or could not be compiled for want of requisite information for any district, there will be a break in the sequence, owing to the omission of such a table from the Handbook.

To facilitate further reference, the source of the table as well as explanatory notes as to the units to which they refer and other particulars have been given at the foot of the table.

Abbreviations used are : N.A. = Not available; .. = Nil

TABLE 1.1

MAXIMUM AND MINIMUM TEMPERATURE 1951-1960 AT HEADQUARTERS STATION, JUNAGADH

Note:

(a) U=Urban; R=Rural

(b) Number of births per 1,000 of the total mid-year estimated population is calculated on the population of the district as then constituted.

(c) Number of deaths per 1,000 of the same sex is calculated on the mid-year estimated population of the district as then constituted.

(d) The information regarding number of births and deaths for the years 1951-1960 is furnished for the district as then constituted and the population for the years 1951 to 1960 has been estimated on the basis of average during the decade 1951-1960

(e) Birth and death rates for the decade 1951-1960 are average birth and death rates.

Note:

1 In case of Hindu months column 4 shows the corresponding months according to Gregorian calendar also. Hindu months are mentioned according to Vikram Era.

2 In the Hindu calendar followed in Gujarat, months end with Amavasya, i.e., New moon and not Purnima, i.e., Full moon day.

3 ms. = Miles

PART III

VILLAGE DIRECTORY

VILLAGE DIRECTORY

The Village Directory of 1961 Census is the same as the Primary Census Abstract given in the District Census Handbook of 1951 with the following additions and alterations :—

1. Information regarding Scheduled Castes and Scheduled Tribes which was given in 1951 by tracts of two to three talukas in a district has been given with sex break-up for each village.

2. The 8 livelihood classes of 1951 have been replaced by workers classified into the following nine industrial categories and also non-workers :—

I Cultivator	V Manufacturing other than Household Industry
II Agricultural Labourer	VI Construction
III Mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities	VII Trade and Commerce VIII Transport, Storage and Communications IX Other Services and
IV Household Industry	X Non-workers

3. Information on selected essential topics or amenities available in a village is also included.

Thus the Village Directory furnishes information on area in acres & gunthas, occupied houses, households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated and primary economic activity classified into above nine industrial categories and non-workers. This information is furnished for each village/ward of a town and also for each enumerator's block in a town, consisting of about 120 houses.

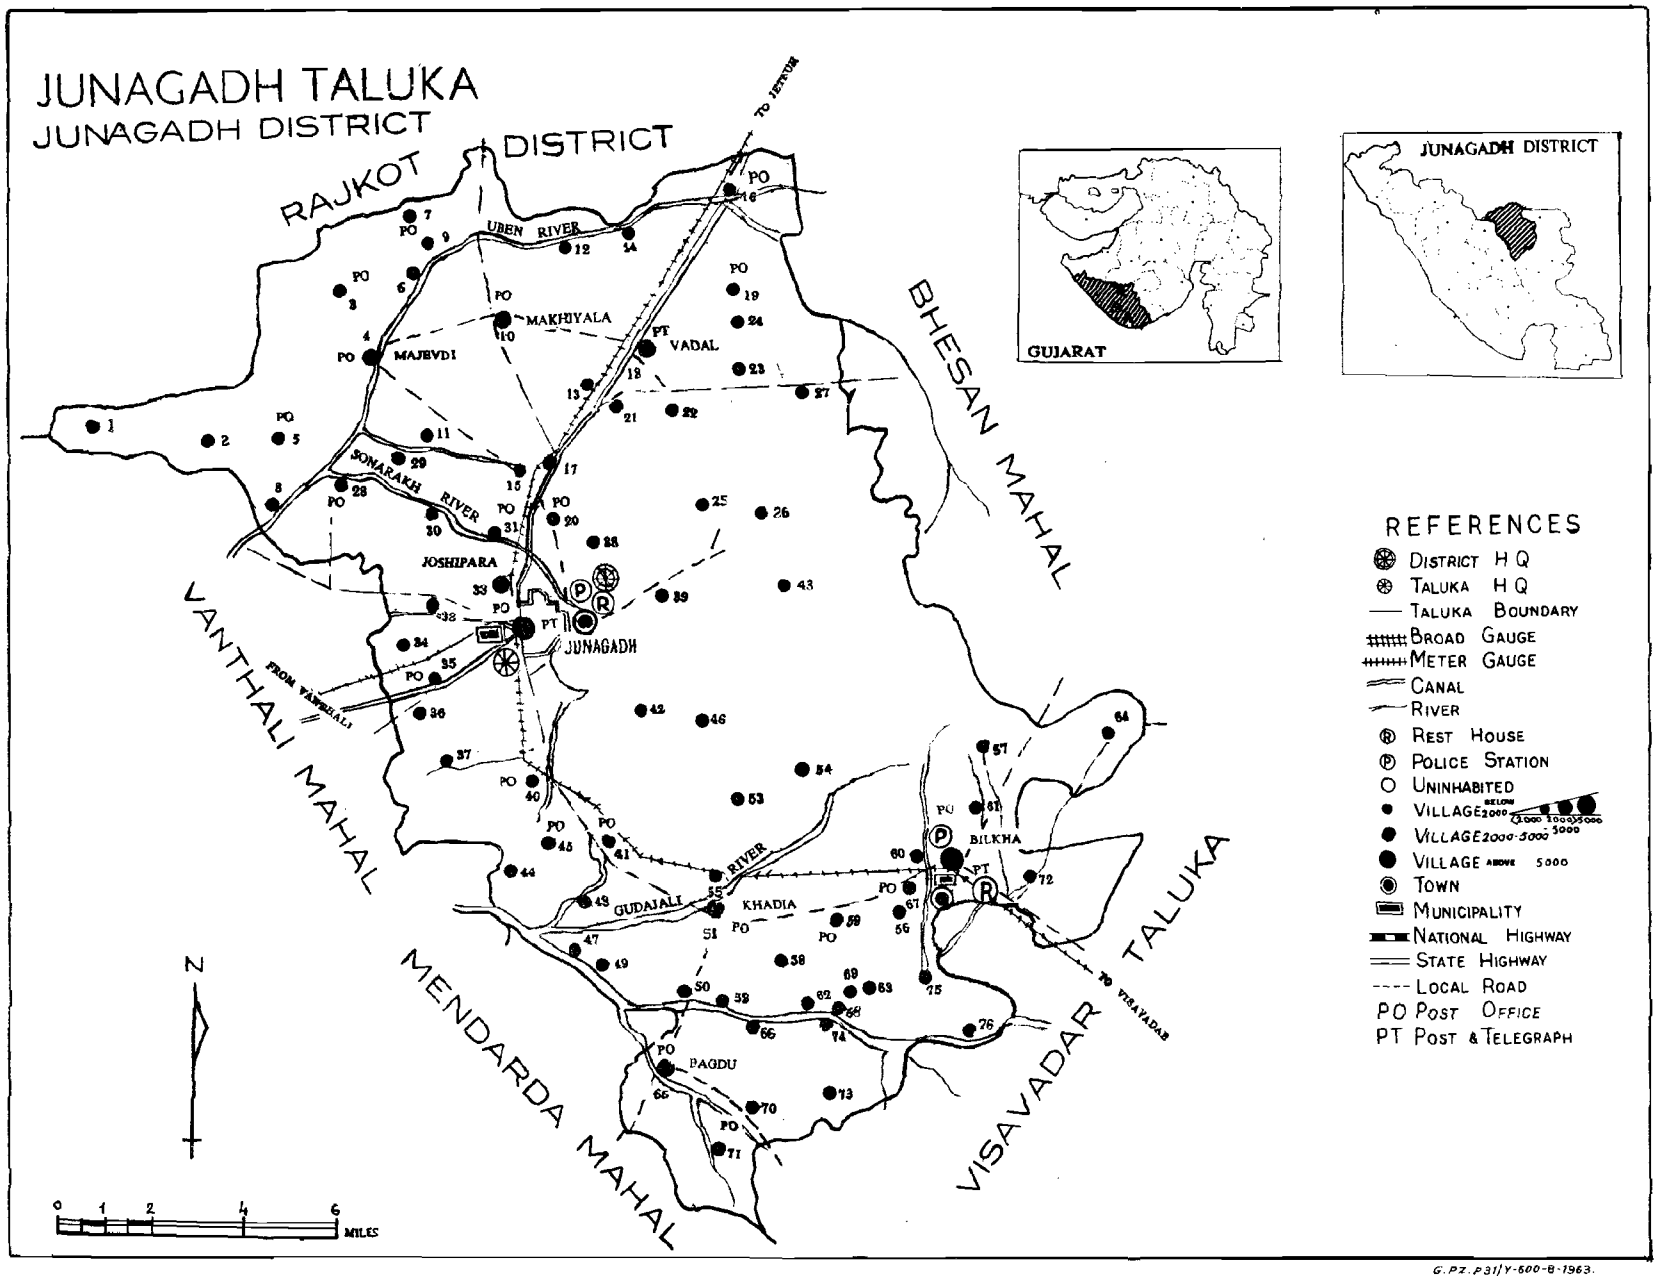

Like the Primary Census Abstract of 1951, the Village Directory gives area figures in Column 3 in acres as furnished by the Survey Department. While the figures of the number of houses and households given in Columns 4 and 5 have been compiled from the Household Schedules filled up for each household, information in Columns 6 to 36 has been compiled from the individual enumeration slips filled up during the course of census count. Information in Column 2 regarding Educational Institutions, Medical and Public Health facilities, Drinking Water facilities, Post & Telegraph Offices and Telephone facilities, and Rural Electricity has been collected from (*a*) the village notes specially devised for the purpose and filled in by Village Level Workers, Talaties and Panchayat Secretaries, and (*b*) the information supplied by the heads of the Departments concerned. The following abbreviations used in Column 2 signify the items shown against each:—

P	for	Primary School	S	for	Safe or Protected Water Supply including pipes, tube wells, etc.
M	for	Middle School			
H	for	High School	W	for	Well
C	for	Higher Institutions including Colleges	Riv	for	River
T	for	Technical Institutions	Tk	for	Tank
D	for	Dispensaries	Po	for	Post Office
Rhc	for	Rural Health Centre	To	for	Telegraph Office
Hos	for	Hospital	Tph	for	Telephone
Mp	for	Medical Practitioner	Ei	for	Electricity in Industrial use
Mcw	for	Maternity and Child Welfare Centre	Ea	for	Electricity in Agricultural use
			Ed	for	Electricity in Domestic use

The essential topics listed above have been presented run on against each village along with their number, where the amenities that exist are more than one. In other columns A=Acres, G=Gunthas, P=Persons, M=Males and F=Females.

In addition to a map for the district, taluka/mahal maps showing certain important information have also been prepared and placed at the commencement of the Village Directory for every taluka/mahal. In the taluka/mahal maps villages have been shown by their location code numbers asigned to them at the time of census operations and indicated against each village in the Alphabetical List of Villages given in the Handbook. Villages having population of 2,000 and above have been indicated by name. In the district maps Villages having 5,000 and more persons have been shown by names. Key maps given in the district and taluka maps show the positions of the district and taluka in hatches and black respectively.
