IV—LIST OF INDUSTRIAL ESTABLISHMENTS

Number of Establishments classified by Minor Groups of Industrial Classification — clv

V—APPENDIX

Gazette Notification of changes in Boundaries during the decade 1951-61 — clx

PREFACE

Districtwise village statistics have been published at most of the Censuses. A list showing the population of villages in each district was published after the 1891 Census. No such list was brought out in 1901. In 1911 Village Directories were prepared for all districts, but could be published only for thirteen on account of the out break of the First World War. At the 1921 Census they were published for all districts in the form of District Census Statistics. In 1931 they were compiled for all districts, but were not published owing to financial stringency, leading to loss of valuable data. At the 1941 Census even though restricted tabulation was undertaken on account of the Second World War, yet the utility of District Census Statistics was recognized and they were published. At the Census of 1951 two volumes were brought out for each district—the District Census Handbook and the District Population Statistics. Government have decided to continue the publication of District Census Handbooks. The 1961 District Census Handbooks contain more data than ever published before. Village Directories, besides giving the population of villages by industrial categories, also contain useful information about schools, hospitals, post offices, etc.

As revised District Gazetteers are going to be published, introductory matter in the District Census Handbooks has been given in brief to avoid duplication.

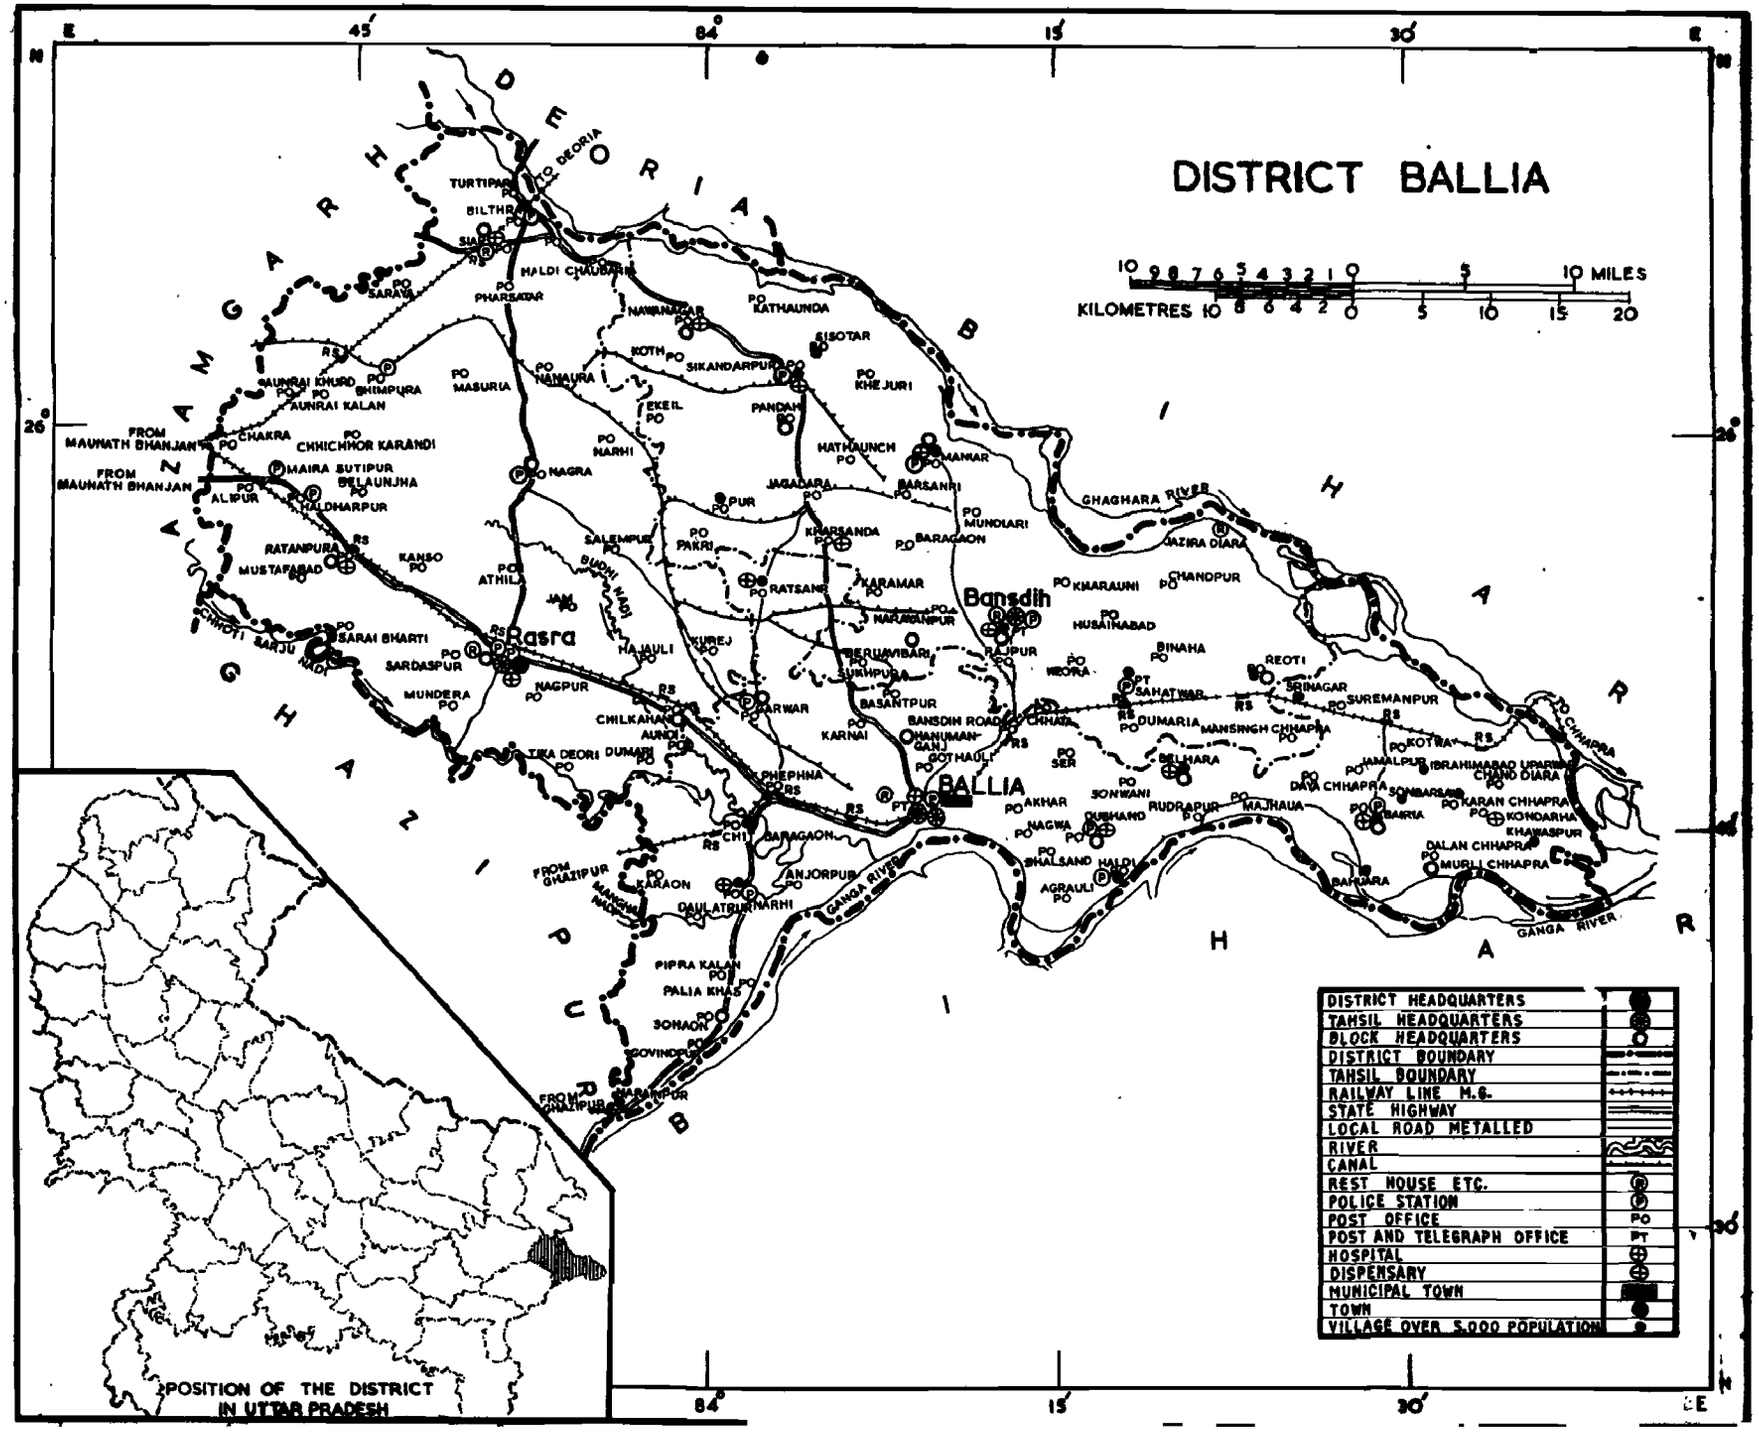

Information for the District Census Handbooks was collected mainly from three sources *viz.*, State Tabulation Office, District Officers, Heads of Departments and their district level officers. In all cases confirmation has been obtained from Heads of Departments concerned. I am extremely grateful to District Officers and the various Heads of Departments for their wholehearted co-operation in furnishing the desired information.

It is hoped that the District Census Handbooks will prove useful to the various Government departments and scholars.

The printing of the Handbooks commenced from August, 1963.

P. P. BHATNAGAR
Superintendent of Census Operations,
Uttar Pradesh.

POSITION OF THE DISTRICT IN UTTAR PRADESH

INTRODUCTION

The District

Ballia is the easternmost district of the State bordering Bihar. It comprises an irregularly shaped tract extending westwards from the confluence of the Ganga and Ghaghara. The Ganga separates it from Bihar in the south and the Ghaghara from Deoria and Bihar in north and east respectively. The boundary between Ballia and Bihar is determined by deep streams of rivers Ganga and Ghaghara. The question whether the boundary should be continued to be determined by deep streams or should be a fixed one has been pending consideration for quite a long time. The district lies between the parallels of 25°33′ and 26°11′ North latitude and 83° 38′ and 84° 39′ East longitude. It is bounded on the west by Azamgarh, on the northby Deoria, on the north-east and south-east by Bihar and on the south-west by Ghazipur. The area of the districtis 3,223 sq. km. (1,244 sq. miles).

2. The district of Ballia was created on the 1st of November, 1879, from the districts of Ghazipur and Azamgarh. It has three tahsils: Rasra, Bansdih and Ballia. The largest in area is Ballia (1,159 sq. km.or 447 sq. miles) and the smallest Bansdih (968 sq. km. or 374 sq. miles). The area of Rasra is 1,096 sq. km. or 423 sq. miles. The number of towns is only two, namely, Ballia M.B. and Rasra N.A. Sahatwar, Bansdih, Baragaon, Maniar, Reoti, Sikandarpur Town-areas Baira, and Ratsand Kalan and Khurd town (1951 Census) have not been treated as towns at this Census for non-fulfilment of of urban conditions.

3. Ballia is served by the North-Eastern Railway (metre gauge). It lies on the main line of the Chhapra-Varanasi section of the North-Eastern Railway passing through Aunrihar,Ghazipur, Phephna, and Ballia. A branch line runs from Phephna (Ballia district) to Shahganj (Jaunpur district). The north western part of the district is served by the Bhatni-Aunrihar-Allahabad section passing through Indara, Mau, Aunrihar, Varanasi and Madho Singh. Metalled roads connect Ballia with Ghosi, Mau and Ghazipur.

4. The district is a level plain, intersected by numerous streams. Though there are no hills,the level surface is varied the high banks of the great rivers and depressions. The general slope is from the central watershed towards the Ganga, Ghaghara and Sarju or Tons. The tongue of land between the Ghaghara and the Ganga is called the doab. The district can be divided into two natural divisions:

(i) The interior upland, and
(ii) The lowland tract

The uplands comprise the eastern half of the district comprising almost the whole of Rasra tahsil and a small strip of country extending eastwards into Bansdih and Ballia

tahsils. They extend in the south-west upto the Sarju. In the interior the level is only broken by scattered depressions. The low-land tract comprises the rest of the district. The surface of the lowlands is often very uneven, being scored in every direction by irregular depressions.

5. The chief rivers of the district are the Ganga, the Ghaghara and the Sarju. The Ghaghara and the Ganga cause extensive floods in the district causing loss of life, property and standing crops. The tributaries of the Ghaghara are small and of an insignificant character. The chief tributary of the Ganga is the Sarju, which for several miles separate Ballia from Ghazipur. *Jhils* and tanks are fairly common, the most important being the Suraha Tal because of its size (8,500 acres).

6. The geology of the district does not reveal anything striking except ordinary Gangetic alluvium. The only minerals of importance are *kankar* and saline efflorescence known as *reh* found in the western portion. The chief varieties of soils in the district are *bhur* or sand, *dumat* or loam and *matiar* or clay. *Bhur* is found along the high banks of the rivers, *matiar* occurs in the depressions, while *dumat* is found in the rest of the district.

7. The climate of the district is on the whole dry. It however, avoids, the opposite extremes of heat and cold. During the hot weather the prevailing wind is from the east, rendering the atmosphere close and muggy ; when the west wind blows, it has little force. The average rainfall during the last decennium (1951-60) was 99.2 cm. (39.1 ') slightly lower than the normal figure of 101·3 cm. (39·9").

8. There is no forest in the district but *jhau* or tamarisk jungles occur along the great rivers. A few patches of *dhak* jungles are also found in the interior of the district. The chief trees are *bargad*, *kathal*, *mahua*, *nim*, *shisham* and *tar*.

9. The wild animals found in the district are foxes, jackals, wild pigs and blue-bulls. Wild pigs are found in the lowlands of the Ganga and Ghaghara, while blue-bulls are numerous and are found in most parts of the district, particularly in pargana Doaba. Peacocks, pigeons, partridges, geese and ducks are common birds.

10. The percentage of cultivated area during 1960-61 was 74·3, as against 72·2 during 1950-51. The *rabi* and the *kharif* are main harvests, the *rabi* being more important for the district as a whole. The *rabi* is important in tahsil Ballia while in tahsils Rasra and Bansdih the *kharif* is relatively more important, The principal *rabi* crop is barley followed by gram. The chief *kharif* crop is paddy. Sugarcane is the main cash crop but is not extensively grown.

2. Statistics

A—General Population

The district occupies the 51st position in area and the 26th in population in the whole State. There has been an increase of 8 sq. km. (3 sq. miles) in area since 1951 partly due to transfer of a village from tahsil Mahmudabad of district Ghazipur to tahsil Rasra of this district and partly due to revised

computation of area figures by the State Survey Department. The table giving variation in population Since 1901 shows that there has been an increase in population since 1921, the increase being the highest during the decade 1931-41. The population increased by 141,108 during this period giving a percentage increase of 15·5. The percentage growth of population during the last decade was 11 8 which was, however, lower than the State average of 16·7. The low increase of population is due to migration of labour to different industrial centres of the country mainly Calcutta and Bombay. The order of tahsils by population in 1951 was Ballia, Rasra and Bansdih. This order has not changed. The largest population growth has, however, been in tahsil Rasra, amounting to 14·8 per cent. The percentage increased in tahsils Bansdih and Ballia is 10·8 and 10·1 respectively.

2. The density of population in the district is 415 persons per sq. km. (1,075 per sq. mile), as against the State average of 250 persons per sq. km. (648 per sq. mile). Ballia is, by far, one the most densely populated districts of the State. The most densely populated tahsil is Ballia, the density being 447 persons per sq. km. (1,158 per sq. mile). Next is Bansdih having a density of 404 persons per sq. km. (1,046 per sq. mile) and the last is Rasra with a density of 389 p rsons per sq. km. (1,008 per sq. mile). The rural density is 401 persons per sq. km. (1,039 per sq. mile), and the urban 2,694 persons per sq. km. (6,977 per sq. mile). The highest rural density is 408 persons per sq. km. (1,057 per sq. mile) in tahsil Ballia and the highest urban 4,643 persons per sq. km. (12,025 per sq. mile) in tahsil Rasra.

3. The district has 2,450 villages of which 1,900 are inhabited and 550 uninhabited. The number of inhabited villages has registered an increase of 28 since 1951. 962 persons per 1,000 in the district live in rural areas. The average population per inhabited village is 677 as against 579 in 1951. Small-size villages with population below 500 are most numerous, the number of such villages being 1,173 (61·7 per cent). The percentage of medium-size villages having population between 500-1,999 is 31·9 and of large-size villages having population 2,000 and over is 6·4. 46 per cent of the rural population lives in medium-size villages. The percentage of rural population living is small and large-size villages is 18·5 and 35·5 respectively. The number of villages h.ving population of 5,000 and over is 19—Lilkar, Sikandarpur T.A., Pur, Maniar T A., Bansdih T.A., Sahatwar T.A. and Reoti T.A. in tahsil Bansdih and Chitbaragaon T.A., Narainpur, Narhi, Sheopur Diar Numbari, Haldi, Belhari, Bairaia, Srinagar, Ibrahimabad Uparwar, Sonbarsa, Bahuara and Ratsand Kalan in tahsil Ballia.

4. 38 persons out of 1,000 persons of the district live in towns. The urban percentage in the district is low on account of non-existence of any large city. Ballia M.B. (38,217) is a Class III town; Rasra T.A. (12,025) is a Class IV town. Of the total urban population, 76·1 per cent lives in Ballia Municipality and 23·9 per cent in Rasra Notified Area. The population growth during the decade in tnese towns has been 24·7 and 19·6 per cent respectively.

5. The variation in sex-ratio has not been uniform since 1921. The number of females per 1,000 males in 1921 was 948; in 1931, 947; in 1941, 986; in 1951, 1,040 and in 1961, 1,035. The striking feature in sex-ratio is that the females outnumbered the males during the decades 1941-51 and 1951-61, in contrast with most of the districts of the State where there are less females than males. The sex-ratio of the State as a whole is 909. This preponderance of females is due to migration of males to industrial centres in search of employment. Ballia is one of the 12 districts of the State in which sex-ratio exceeds 1,000. These districts in the decreasing order of sex-ratio are Tehri-Garhwal, Garhwal, Chamoli, Almora, Pratapgarh, Jaunpur, Pithoragarh, Ballia, Azamgarh, Ghazipur, Sultanpur and Deoria. The rural sex ratio of the district is 1,045—tahsil Ballia 1,068 and tahsils Rasra and Bansdih 1,017 each. The urban sex-ratio is 806—Rasra N.A. 906 and Ballia M.B. 776. In 1951, the rural sex-ratio was 1,048 and urban 966. Both the urban and the rural sex-ratios have declined during the decade, which may be due to diminishing male migration or increasing female migration.

6. General Population Tables A-I to A-IV and Appendices I to III to Table A-I have been reproduced in this volume.

B-Economic

Workers—Of the total population 36·4 per cent are workers and the rest non-workers. The percentage of workers is lower than the State average of 39·1, which is to a great extent due to the migration of large working population to other places. Among workers 74·5 per cent are Cultivators and Agricultural Labourers. Next come Household Industry and other Manufactures claiming 11·4 per cent, followed by other Services 8·9 per cent and Trade and Commerce 3·7 per cent. In other categories the number of workers is small. The extent of female participation in work is 28·7 per cent. The corresponding figure for the State is 22·1. It is higher in non-agricultural activities (31·4 per cent) than in agricultural (27·7 per cent). It exceeds from 30 per cent in Household Industry but in no case does it exceed from 51 per cent in Agricultural Labourers. Most of the females in agricultural sector work as Agricultural Labourer and in non-agricultural sector in Household Industry.

2. Of the rural population 36·6 per cent are workers and remainig 63·4 per cent non-workers. The corresponding figures for the urban are 30·8 and 69·2 per cent respectively. Thus the proportion of workers is smaller in towns than in villages. Among rural workers 76 8 per cent are Cultivators and Agricultural Labourers as against a small percentage of 23·2 in non-agricultural activities. Household Industry is an important non-agricultural occupation in the rural areas claiming 10·3 per cent workers, the most popular household industry being the production of rice, atta, flour etc. by milling, dehusking and processing of crops and foodgrains. As usual, non-agricultural workers predominate in urban areas, the percentage of agriculturists being only 5·7. Non-agricultural occupations in the towns in order of importance are Other Services, Trade and Commerce, and Household Industry and other Manufactures, the respective percentages being 39·8, 23·7 and 21·2.

3. The largest number of workers are in the age-group 15-34 accounting for 43·2

per cent, followed by the next age-group 35-59 accounting for 38 per cent. The percentage of workers below the age of 15 is 7·5, and in the age-group 60 and over 10·6. The proportion of workers in lower and higher age-groups is obviously small.

4. The largest number of persons at work other than cultivation is in miscellaneous services (19,420), followed by processing of foodgrains (11,454), rearing of live stock (10,692), and retail trade in provisions and dairy products (9,457). Occupationally the bulk of the workers is engaged in miscellaneous services (15,270), followed by working proprietors in retail trade (14,324).

5. **Non-workers**—These constitute 63·6 per cent of the total population. Among non-workers, females predominate constituting 63·6 per cent. More than half of the non-workers (62·9 per cent) are in the age-group 0-14, being mostly infants and dependants. In all other age-groups females are mostly engaged in household duties. 9·0 per cent male non-workers are in the age-group 15-34, most of whom are full-time students, 0·9 per cent in the age-group 35-59, and 2·2 per cent in the age-group 60 and above, the last being mostly dependants.

6. The more important Economic and Household Economic Tables of B-series have been reproduced.

C—Social and Cultural

Literacy—The percentage of literacy in the total population is 19·4 as against the State average of 17·7. The rank of the district in literacy is 21 in the whole State. Literacy percentage among males is 31·3 and among females 7·8, as against the corresponding figures of 21·0 and 3·6 in 1951. There has been considerable improvement both in male and female literacy during the decade. Of the total number of literates 66 per cent are without any educational standard, 25·2 per cent are of Primary or Junior Basic Standard, and only 8·8 per cent of High School Standard and above.

2. The percentage of literacy in the rural population is 18·4 as against 44·7 in the urban. The proportion in the rural area is 30·1 per cent among males and 7·2 per cent among females and in the urban area 58·6 among males and 27·5 among females.

3. **Age Structure and Marital Status**—Persons in the age-group 0-14 account for 42·7 per cent of the total population, followed by 15-34 (28·9 per cent), 35-59 (21·0 per cent) and 60 and over (7·4 per cent). The population of the district is progressive as the percentage of persons of age under 15 is 42·7 as against a small percentage (7·4) of elderly persons (60 years and over).

4. In the rural area 44·6 per cent are unmarried, 47·4 per cent married and 8·0 per cent widowed or divorced; and in the urban 46·4 per cent unmarried, 46·6 per cent married and 7·0 per cent widowed or divorced. Among males 51·4 per cent are unmarried, 43·2 per cent marriedand 5·4 per cent widowed or divorced. The corresponding figures for females are 38·3 per cent unmarried, 51·4 per cent married and 10·3 per cent widowed or divorced. The striking difference between males and females seems due to a large number of married males being out. Of the married males 4·5

per cent are in the age-group 0-14, 44·9 per cent in the age-group 15-34, 35·8 per cent in the age-group 35-54 and 14·8 per cent in the age-group 55 and over. Among the married females 7·3 per cent are in the age-group 0-14, 56·3 per cent in the age-group 15-34, 29·6 per cent in the age-group 35-54 and 6·8 per cent in the age-group 55 and over. Among males and females aged 35 years and over 6·2 per cent of the males and 0·1 per cent of the females were found unmarried. Marriage is, thus, more universal in females. The corresponding figures for 1951 are 7·4 and 0·6 respectively. Child marriage is still prevalent, though fast dying out. The percentage of males and females of ages 0-14 returned as married is 4·3 and 9·2 respectively as against 7·7 and 13·1 in 1951.

5. **Language**—Hindi has been returned as mother-tongue of 91·4 per cent of the population. 5·3 per cent returned their mother-tongue as Bhojpuri, which, is a variant of Hindi, and 3·2 per cent as Urdu. The number of persons who returned other languages as their mother-tongue is insignificant (0·1 per cent).

6. Hindi including Bhojpuri is spoken by 97·2 per cent of rural population, and Urdu by 2·8 per cent. In the towns, Hindi is the mother-tongue of 85·9 per cent population and Urdu of 13·3 per cent.

7. **Religion**—Of the total population of the district, 94·2 per cent are Hindus, 5·7 per cent Muslims and 0·1 per cent Christians. The number of persons belonging to other religions is: Sikhs 229, Jains 13 and Buddhists 11. The Sikhs, Jains and Buddhists, though small in number, live mainly in towns.

8. Of the rural population, 94·7 per cent are Hindus, 5·2 per cent Muslims and 0·1 per cent Christians. The number of persons belonging to other religions is insignificant. The figures for the towns are 83·6 per cent Hindus, 15·9 per cent Muslims, 0·4 per cent Sikhs and 0·1 per cent Christians.

9. **Scheduled Castes**—They constitute 13 per cent of the total population. The important Scheduled Castes in order of their population in the district are the Chamars who constitute 73·7 per cent of the total Scheduled Caste population, the Dusadhs 14·2 per cent. Persons belonging to Scheduled Castes live mainly in villages. Only 2·6 per cent live in towns.

10. The more important Social and Cultural Tables of C-Series have been reproduced.

D—Migration

Among the people enumerated in the district, 93·2 per cent were born within the district, 4 per cent in other districts of the State and 2·8 per cent in other parts of India. The number of persons born in other countries is 334. Among those from other countries, 161 are from Pakistan, 125 from Nepal, 1 from South Africa, 2 each from Canada and U.S.A. and 43 from all other countries. Most of the immigrants from Pakistan are displaced persons. The duration of residence of about three-fourths (74·9 per cent) of the immigrants is over 10 years. 90·8 per cent immigrants were returned from rural areas and the remaining 9·2 per cent from the urban. Among them 14·2 per cent are males and 85·8 per cent females. The large percentage of females is explained by marriage migra-

tion. The percentage of workers and non-workers among immigrants is 29·5 and 70·5 respectively. Among workers 58·8 per cent work as Cultivators and Agricultural Labourers, 18·9 per cent are in Other Services, 15·7 per cent in Household Industry and other Manufacture, and 4·3 per cent in Trade and Commerce. In other categories the number is small.

2. In the rural population 93·6 per cent were born within the district, 3·7 per cent in other districts of the State and 2·7 per cent in other parts of India. The persons born in other countries are 149. The corresponding figures for the urban are 83·4 per cent within the district, 11·6 per cent in other districts of the State, 4·7 per cent in other parts of India and 0·3 per cent in other countries.

3. Of the immigrants from adjacent States, 35,057 persons (males 2,892, females 32,165) are from Bihar, 134 persons (males 70, female 64) from Punjab, 72 persons (males 29, females 43) from Madhya Pradesh, 54 persons (males 27, females 27) from Rajasthan and 26 persons (males 13, females 13) from Delhi. The number of immigrants from other districts of the State is 53,035 (males 8,972, females 44,063).

4. Unfortunately, outmigration figures are not available. Like other eastern districts, a large number of persons from Ballia migrate to the industrial centres of Calcutta, Bombay and elsewhere in search of employment.

5. Migration Tables have not been reproduced.

E—Housing and Establishment

Workshops and Factories—There are only two registered factories one engaged in the repair of motor vehicles and the other in the production of indigenous sugar in the district. The former is the U.P. Government Roadways Workshop at Ballia and the latter is a private concern at Phephna. Both are small concerns employing less than 50 workers each. Ballia is among one of the 15 districts having less than five registered factories.

2. The total number of workshops and factories of all sizes, registered and unregistered, in the district is 2,219 against the State average of 4,460 per district. The district is, thus, backward even in Cottage industries and handicrafts. Of these 2,130 are in the rural area and 89 in the urban. In the rural area the largest number (521) is engaged in the production of miscellaneous food products such as sweetmeat, condiments, etc., followed by production of edible fats and oils other than hydrogenated oil (259). In the urban area manufacture of brass and bell-metal products (14) is of some importance.

3. The predominant working group in the urban area is 2-5 accounting for 58·4 per cent, followed by single-worker establishments (38·2 per cent). In the rural area single-worker establishments are most numerous (56·7 per cent), followed by 2-5 (41·8 per cent).

4. In both villages and towns most of the establishments are run without power. The percentage of such establishments is 58·9 in the rural area and 71·9 in the urban. Next come other power in the rural (20·1 per

cent (and liquid 9 per cent) in the urban. Electricity is used in only 34 rural and 6 urban industrial establishments. This will show the extremely small extent to which power is used for industry in this district.

5. **Walls and Roofs**—Mud is the predominant material of house walls in villages and burnt bricks in towns—84·6 per cent households in rural areas and 77·3 per cent in urban areas live in houses of this type. Tiles constitute the most important roofing material both in villages and towns accounting for 84·8 and 40·7 per cent respectively. On account of moderately heavy rainfall the sloping roof (except in certain pucca structures of the towns) is the prevailing type. The typical flat roof of clay and miscellaneous material found in the western districts does not exist here.

6. **Size of Household and Density of Persons per Room**—The average size of household in the rural area is 6·5 and in the urban 5·8. The corresponding figures for 1951 are 6·1 and 5·7 respectively, which would show that the average rural household has increased in size while the urban has remained almost unchanged during 1951-61 Households living in 5 or more rooms are predominant accounting for 27·6 per cent, followed by those living in two and three rooms which respectively account for 23·2 and 20·3 per cent. The high percentage of households living in 5 rooms or more is a peculiar thing in this and a few other eastern districts.

7. In the rural area the average density of persons per room is 1·8 and in the urban 2·0, which does not speak of great congestion in living accommodation.

8. Housing and Establishment Tables have not been reproduced.

3. Presentation of Data

Statistics and other information in this volume have been presented in the following order:—

I—Census Tables—General Population Tables, Economic Tables, Social and Cultural Tables and Scheduled Caste Tables.

II—Official Statistics—Rainfall and Temperature, Vital Statistics, Agriculture and Irrigation, Household Industries, Registered Factories, Administration, Public Health and Medical, Education, Public Entertainment, Presses and Journals, Communication, Local Bodies, Community Development, Calendar of Important Events, Prices of Staple Foodstuffs, Banks and Insurance, Livestock, Fairs and Festivals, Major and Medium Projects, and Wages.

III—Village Directory—Definition of column headings, and for each tahsil an Alphabetical List of Villages and a Village Directory giving data for all villages and towns by sex of total population, Scheduled Caste population, literate population, working population by categories of workers and non-workers.

IV—List of Industrial Establishments—Number of establishments in each village or block by 3-digit industrial code.

V—Appendix—Gazette Notification of changes in boundaries during the decade 1951-1961.

Besides the above, one map for the District and one for each tahsil have been included in this District Census Handbook.

PART I

CENSUS TABLES

A—SERIES

GENERAL POPULATION TABLES

A-I—Area, Houses and Population

District/Tahsil/ City/Town	Total Rural Urban	Area in Sq. miles	Area in Sq. Km.	Population per Sq. mile	Number of Villages Inhabited	Number of Villages Uninhabited	Number of Towns	Number of Occupied Residential Houses	Population Persons	Population Males	Population Females

Ballia M.B.		6·20	16·06	6,164	...	...	1	6,382	38,216	21,509	16,707

Notes—1. In columns 4 and 5, the Sq. Km. and density figures respectively of urban areas of tahsils and district are worked out using the area figure corresected upto 2 places of decimals obtained by adding the areas of towns in the respective units and not using the area fiurges given in the Table. In addition to this, the figures relating to Sq. Km. are further adjusted to make the tahsil and district totals agree.

2. According to Surveyor General, India the area of district Ballia is 1,183 Sq. miles (3,064 Sq. Km.).

3. 'N.A.' stands for 'Notified Area' and 'M.B.' for 'Municipal Board.'

4. In Bansdih tahsil marked * 'R' is the same as 'T' as there is no Urban Area.

APPENDIX I

Statement showing 1951 Territorial Units constituting the present 1961 set-up of the District

(Only those names/areas which have undergone change since 1951 have been shown below)

APPENDIX

1951 Population according to the territorial jurisdiction in 1951 and changes in area and population involved in those changes

District/Tahsil	Area in 1961		1961 Population	Area in 1951		1951 Population according to Jurisdiction prevailing in 1951	Population in 1951 adjusted to Jurisdiction of 1961	Net increase or decrease between columns 7 and 8
	Sq. miles	Sq. Km.		Sq. miles	Sq. Km.			
1	2	3	4	5	6	7	8	9
BALLIA DISTRICT	1,244·2	3,222·5	1,335,863	1,241·0 (+3·2)	3,214·2 (+8·3)	1,194,657 (+3·46)	1,195,003	+346
Rasra Tahsil	423·1	1,095·8	426,462	421·0 *(+2·1)	1,090·4 *(+5·4)	371,051	371,397	+346
Bansdih Tahsil	373·7	967·9	391,282	374·0 †(−0·3)	968·7 †(−0·8)	353,187	353,187	...
Ballia Tahsil	447·4	1,158·8	516,119	446·0 †(+1·4)	1,155·1 †(+3 7)	470,419	470,419	...

Note:—1 The difference between in area 1951 and 1961 has been given within brackets in columns 5 and 6 and the difference in population of 1951, as enumerated and as recast on the basis of jurisdiction of 1961 is given in braackets in col. 7. The area figures of 1951 are from the 1951 District Census Handbook and those of 1961 as intimated by the Board of Revenue.

*2—The net jurisdictional change due to transfer of one village with an area of 0·7 Sq. miles from Muhammadabad Tahsil of Ghazipur District to Rasra Tahsil of this District (Vide G. O. No. 1949/IC-211 C/1950 dated July 23, 1951.) does not corroborate with the difference in area figures of 1951 and 1961 because of revised calculation of area done by the Board of Revenue in 1961.

†3—There has been no jurisdictional change during the decade, the difference in area figures of 1951 and 1961 is due to revised calculation area done by the Board of Revenue.

B-IV-Part C—Industrial Classification by Sex and Divisions, Major Groups

Branch of Industry Division, Major Group and Minor Group of I. S. I. C.			Total		
			Total		
			Persons	Males	Females
		1	2	3	4
Major Group	36	Basic metals and their products except machinery and transport equipment	1,994	1,965	29
Minor Groups	360	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	238	238	...
	361	Manufacture including smelling, refining of non-ferrous metals and alloys in basic forms	1	1	...
	362	Manufacture of armaments	8	8	...
	363	Manufacture of structural steel products such as joist, rail, sheet, plate	1	1	...
	364	Manufacture of iron and steel furniture	6	6	...
	365	Manufacture of brass and bell metal products	126	124	2
	366	Manufacture of aluminium products	1	1	...
	367	Manufacture of metal products (other than iron brass, bell metal and aluminium) such as tin can	15	15	...
	368	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	20	20	...
	369	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39.)	1,578	1,551	27
Major Group	37	Machinery (All kinds other than Transport) and Electrical Equipment	48	48	...
Minor Groups	370	Manufacture and assembling of machinery (other than electrical) except textile machinery	7	7	...
	371	Manufacture and assembling of prime mover and boilers, other than electri al equipment, such as diesel engines, road rollers, tractors	6	6	...
	372	Manufacture of machine tools	6	6	...
	374	Manufacture of heavy electrical machinery and equipment such as motors, generators transformers	5	5	...
	375	Manufacture of electric lamps and fans	1	...	1
	376	Manufacture of insulated wires and cables	3	...	3
	377	Manufacture of all kinds of battery	2	2	...
	378	Manufacture of electronic equipment such as radio, microphone	10	10	...
	379	Manufacture of electric machinery and apparatus, appliances not specified above	8	8	...
Major Group	38	Transport Equipment	303	303	...
Minor Groups	380	Manufacture, assembly and repairing of locomotives	53	53	...
	381	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	13	13	...
	382	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	1	1	...
	383	Manufacture of motor vehicles engines parts and accessories	1	1	...
	384	Repairing and servicing of motor vehicles	47	47	...
	385	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	1	1	...
	388	Repairing of bicycles and tricycles	162	162	...
	389	Manufacture of other transport equipment not covered above such as animal drawn and hand-drawn vehicles	25	25	...

PART III

VILLAGE DIRECTORY

DEFINITIONS OF COLUMN HEADINGS OF THE VILLAGE DIRECTORY

Village ordinarily means a revenue *mauza*, whether inhabited or uninhabited. If some structures and population come into existence at a place which lies within the boundaries of two or more revenue *mauzas*, the locality has been treated as a separate Census Village and the portions covered in it are excluded from the revenue *mauzas* concerned.

Town means any Corporation, Municipality, Notified Area, Cantonment, and includes a locality which, though not in itself a local body, is part of a town-group, and also any place which has (a) a population of at least 5,000 (b) at least three-fourths of the population dependent on non-agricultural means of livelihood, and (c) a density of at least 1,000 persons per square mile.

City means a town or a town-group having a population of one lakh and above.

Notations

E—Electrified

R—Connected by Road

Rly—Connected by Railway

Riv—River

L—Library

Mp—Medical Practitioner

Hos—Hospital

Mcw—Maternity and Child Welfare Centre

H—Higher Secondary School

Po—Post Office

Occupied House means a structure or part of a building, used wholly or partly as human dwelling, and having a separate main exit.

Household means a group of persons, who commonly live together and take their meals from a common kitchen, unless exigencies of work prevent any of them from doing so.

Total population includes household population, institutional population and houseless population.

Scheduled Castes the 66 Scheduled Castes as defined in the President's. *The Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956.*

Literate means a person above the age of five who can read as well as write.

Worker means a person gainfully employed in any economic activity and is actually working, supervising or directing the work.

WORKING POPULATION HAS BEEN DIVIDED INTO THE FOLLOWING IX CATEGORIES

Category-I working as cultivatory i.e., engaged in cultivation, including effective supervision and direction of land owned or held.

Category-II working as Agricultural labourer, i.e., working in some one else's land for wages in cash or kind.

Category-III working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting, Plantations, Orchards and allied activities.

Category-IV working at Household industry i.e., an industry, not on the scale of a registered factory, conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas *and only at home* in urban areas, with or without hired labour.

Category-V working in Manufacturing other than Household Industry i.e., engaged in production, fabrication, processing, repairs or servicing of any kind, not included in Household industry.

Category-VI working in Construction i.e., engaged in construction and maintenance of buildings, roads, railways, bridges, tunnels, telegraph and telephone lines, dams, canals, tanks, tubewells, etc.

Category-VII working in Trade and Commerce i.e., engaged in buying and selling, import and export, banking, insurance, stocks, shares, etc.

Category-VIII working in Transport, Storage and Communication, i.e., engaged in transport by man, animal, air, water, road, rail, etc. in warehousing; Post and Telegraphs; Telephones; and Information and Broadcasting.

Category-IX working in Other Services i.e., engaged in public, administrative, educational and scientific, medical and health, religious, welfare, legal, business, community, recreation, personal and other miscellaneous services, etc.

Non-worker (Category-X) means a person who is not doing any productive work. The following have been treated as Non-workers.

(i) a whole time student not doing any work;

(ii) a house worker not engaged in any remunerative work;

(iii) a dependent including infant or child not attending school, old or disabled person not doing any work;

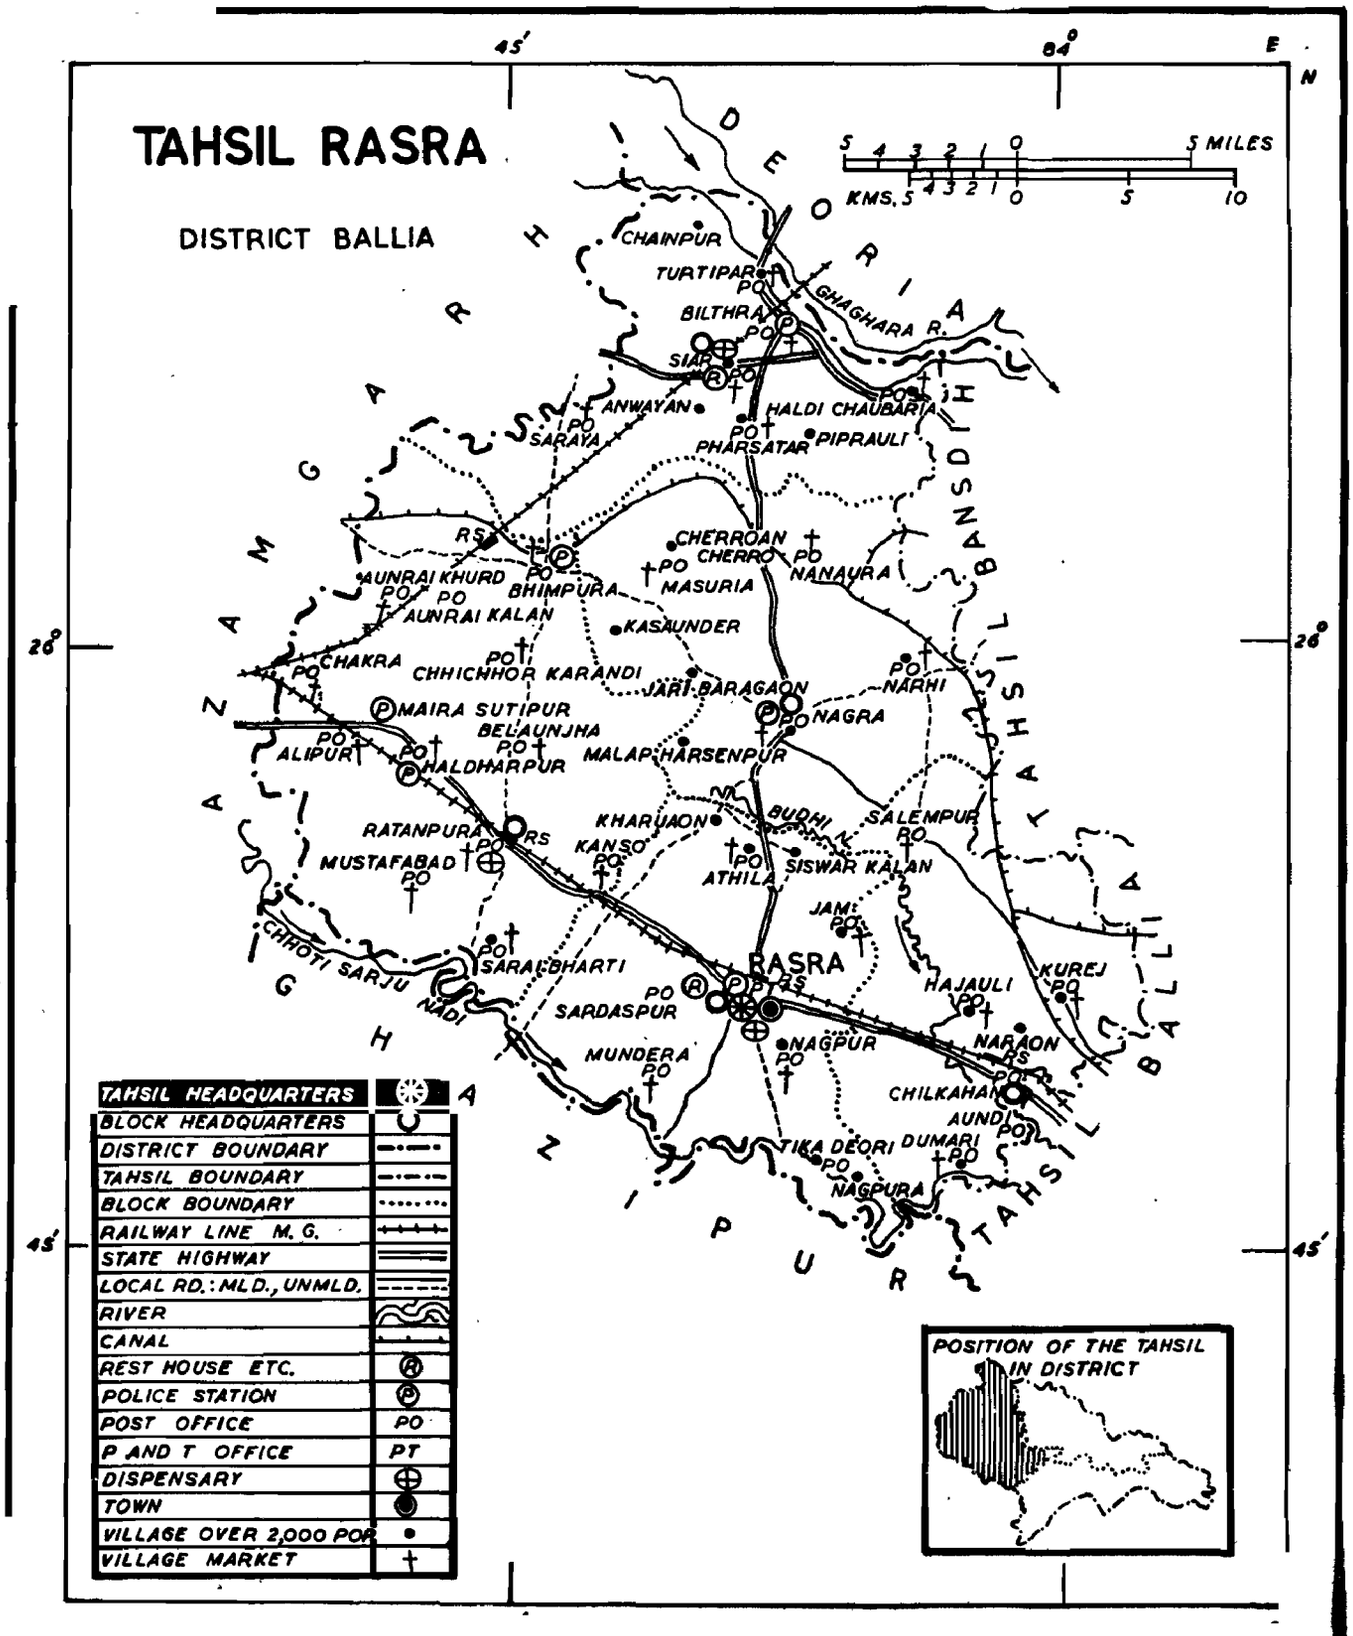

(iv) a retired person (not re-employed), rents, royalty or dividend receiver, not doing any work;

(v) a beggar, vagrant or an independent woman of unspecified source of income;

(vi) a convict in jail (not an under trial) or inmate of penal, mental or charitable institution;

(vii) a person in search of employment for the first time, and

(viii) a person having worked before but now out of employment and seeking fresh employment.
