PREFACE

The District Census Handbooks were started for the first time in the history of the decennial censuses in India in 1951. The Handbooks of the Travancore-Cochin and Madras States in the 1951 Census contained, besides a short account of the district and the people, important Census tables for the district and a village directory consisting of the area, houses, population, number of literates, the distribution of population by livelihood classes, the number of institutions and general information on amenities etc., in respect of every village. In the 1961 Census it was decided with the concurrence of the State Government to continue the publication of the District Census Handbooks. The Contents of the District Census Handbooks of the 1961 Census are, however, a little more ambitious than those of the 1951 Census Handbooks in that besides the items of information mentioned above a large number of tables giving general information about the districts have been added. The number of such tables comes to 38 besides 44 inset tables excluding those given in respect of Census data. As far as possible, an attempt has been made through these tables to give an epitome of the progress made by the district in various fields during the inter-censal period 1951-61. The book is divided into three parts. Part A gives a general description of the district, the progress made during the last decade, a review of the population, literacy, employment and unemployment, household economic data etc., of the district based on Census data and a gazetteer. The appendices to this part contain the various tables of general information on which the review of progress has been based. Part B contains the Census data of 1961 comprising the general population tables, economic tables including household economic tables, social and cultural tables and special tables for Scheduled Castes and Scheduled Tribes. Part C is the Village Directory. It is hoped that this Handbook will serve as a useful reference book on the Trichur district.

A book of this kind could not have been compiled but for the hearty co-operation and goodwill extended by the various departments of the State and Central Governments to whose kindness I am deeply indebted. The District Census Handbook Section of my office consisting of a Statistical Assistant and a couple of Compilers has been in charge of the entire work of collection and compilation of the data for this handbook. At the time of addressing the various departments for collection of information for the District Census Handbooks Shri H. Padmanabha Iyer of the Bureau of Economics and Statistics was the Statistical Assistant in charge of the Section. After a short period of work in this Section he was transferred to the Tabulation Office, Kozhikode, as the

Tabulation Officer. He was succeeded by Shri S. Jayashanker of the Bureau of Economics and Statistics as Statistical Assistant in charge of this handbook. While Shri Padmanabha Iyer has rendered excellent service in piloting the work of the collection of data for the handbooks, Shri Jayashanker who succeeded him has borne the brunt of the work in the preparation of this handbook which involved a good deal of careful analysis and laborious compilation. I feel happy in acknowledging the valuable contribution made by them and particularly Shri Jayashanker in the compilation of this important book. I should also acknowledge the good work of the Compilers of the District Census Handbook Section, Sarvashri K. N. Raman and E. V. Unnikrishnan Nair and of draftsman Shri S. Krishna Pillai who has prepared the entire set of maps given in the book.

I should express my deep sense of gratitude to Shri P. K. Abdulla I. A. S., Secretary to Government and Shri K. Swaminathan, Superintendent of Government Presses for the warm co-operation extended by them for the timely printing of this handbook.

The George Press, Ottapalam under the able guidance of Shri N. Kumaran has executed the printing work of this volume most efficiently and well.

Above all, I am grateful to Shri Asok Mitra I. C. S., Registrar General, for the valuable guidance and help extended to me in this work.

Trivandrum,
1st June, 1966

M. K. DEVASSY

PART A

GENERAL

PART A—GENERAL

History of the District

1. The present Trichur district excluding Chowghat taluk and a small portion of Parur taluk was part of former Cochin State. After the merger of Cochin State with Travancore in July 1949 it became part of Travancore-Cochin State. From 1st October 1956 the new taluks Cochin, Kanayannur and Alwaye were formed consequent on the reorganisation of taluks and villages. Talappilly and Trichur taluks were free from any jurisdictional change. On the same date Kottappuram kara of Vadakekkara village of Parur taluk and Edavilanga bits 1 & 2, Poyya, Madathumpadi and Pallippuram villages of Mukundapuram taluk were added to Cranganore taluk. Puthenchira village of Parur taluk was made part of the residuary Mukundapuram taluk. From 1st January 1957 Chowghat taluk (portion of Ponnani taluk of Malabar district) and Cochin taluk of Malabar district were transferred to the Trichur district. On the same date the Chittur taluk of Trichur district was transferred to the newly formed Palghat district. On 15th March 1957 five villages of Ponnani taluk were tagged to the existing Chowghat taluk. With effect from 1st April 1958, a new district by name Ernakulam comprising the taluks of Alwaye, Parur, Kunnathunad, Kanayannur and Cochin of Trichur district and Muvattupuzha and Thodupuzha of Kottayam district was formed. Thus the present Trichur district comprises of Talappilly, Trichur, Mukundapuram, Cranganore and portion of Parur taluk of old Trichur district and portion of old Ponnani taluk of Malabar district of Madras state.

Situation

2. Trichur district lies between north latitude 10° 10' and 10° 46' and east longitude 76° 0' and 76° 55'. It is bounded on the north by Palghat district, on the east by Coimbatore district of Madras State, on the south by Kottayam and Ernakulam districts and on the west by the Arabian sea.

Administrative Units

3. For the purposes of revenue administration this district is divided into five taluks viz., Chowghat, Cranganore, Mukundapuram, Talappilly and Trichur There are altogether 244 revenue villages in the district of which 5 villages lie wholly and 21 villages partly in the urban areas. The following statement presents the taluk-wise distribution of the villages:—

Statement 1

DISTRIBUTION OF VILLAGES

Taluk	Area in sq. miles	Total No. of revenue villages	No. of villages lying in towns	
			Wholly	Partly
Chowghat	99.25	32	2	..
Cranganore	28.22	9	..	..
Mukundapuram	508.11	57	1	6
Talappilly	255 98	74	2	7
Trichur	245.46	72	..	8

4. Irinjalakuda, Kunnamkulam and Trichur are the municipal towns in the district. Besides those municipal towns there are 78 panchayats and 13 Development Blocks.

Area, Physical Features and Natural Divisions

5. Trichur district with an area of 1,137.02 sq. miles*ranks seventh in the state in respect of area. The sea board with a length of 32 miles is an unbroken stretch of sand. Almost parallel to the sea there are shallow lakes known as backwaters receiving the drainage of the numerous streams descending from the mighty Western Ghats. The form of the backwaters is exceedingly irregular, branching into various intricate and shallow channels, both natural and artificial. The outlets from the backwaters to the sea in the district are located at Chetwai and Cranganore. Nearer the seaboard the sandy regions are succeeded by extensive rice plains and backwaters fringed with cocoanut palms. This stretch of land is low and generally swampy and is, in several parts, liable to be flooded by the monsoon inundations. For purposes of convenient demarcation this region which lies below 25 feet above the mean sea level is classified in 1961 Census as lowland. To the east of the lowland lies the midland region. This region lying between 25 feet and 250 feet above mean sea level consists of plains intersected in many places by several rivers and minor streams and are mostly composed of rice fields and grazing grounds. Rice, pulses and pepper are grown in many parts of the district while vegetable gardens, a common feature of the district, dot the whole region. These midlands are succeeded by highlands which form more or less the region of mountains at varying levels. The Western Ghats or *Sahyadri* are covered with thick ever green forests, high mountains, extensive ravines and tangled jungles.

6. Talappilly taluk, the northern-most taluk of the district is chequered by a continued succession of minute chains of low hills. The chief range of this taluk is Machad. The Bharathapuzha, the longest river in the State separates Talappilly taluk from Ottapalam and Ponnani taluks of Palghat district. The Wadakkancherry and Cheerakuzhi rivers flow through this taluk. The important crops are rice, tapioca, cocoanut, ginger and rubber. To the south of Talappilly taluk lies the Trichur taluk. The eastern region of the taluk is mountainous and woody. The Vellani mala, Moodal mala, Vengal mala and Pandom Para are the chief peaks in this tract of the Western Ghats. This taluk is drained by the Manali, Karuvannur and Viyyur rivers. 'The wet cultivation in the bed of the Trichur or Enamakkal lake, which lies partly in Venkidanga amson of Ponnani taluk and partly in Cochin territory and measures about 20 square miles, demands special notice, if only for the singular struggle between human industry and the force of nature which it entails'. The chief crops of this taluk are rice, cocoanut, rubber, tapioca and areca-nut. Geographically Chowghat taluk lies between the Arabian sea and the canal system joining Chetwai with Conolly. Cranganore, the smallest taluk in the State lies on the northern bank of the Periyar river and it is served by a number of waterways. The soil of this taluk is almost entirely sandy except the soil of Pullut village which is of a red coarse gravel. The important crops are rice and cocoanut. Mukundapuram, the largest taluk in the district, has lofty hills, steep high ridges and rough elevated table land. About half of this district has thick reserve forests. This taluk is drained by Chalakudi and Kurumali rivers. The soil is generally fertile and it produces the crops like rice, cocoanut, tapioca and areca-nut.

7. The subjoined statement gives the area of the district by natural divisions:—

Statement 2

NATURAL DIVISIONS

Natural Division	Total in sq. miles	Rural in sq. miles	Urban in sq. miles
Total	1,137.0	1,104.6	32.4
Highland	378.9	378.9	..
Midland	584.8	558.0	26.8
Lowland	173.3	167.7	5.6

8. The following further classification gives the number of villages and towns lying in the natural divisions of each taluk with their area:—

Statement 3

TALUKS BY NATURAL DIVISIONS

Taluk	Number/ Area	Area in sq. miles and number of: Villages lying in High-land	Villages lying in Mid-land	Villages lying in Low-land	Towns lying in High-land	Towns lying in Mid-land	Towns lying in Low-land
Chowghat	Number	..	..	30	..	..	1
	Area	..	...	93.6	..	..	5.64
Cranganore	Number	..	3	6	..	..	..
	Area	...	7.6	20.6	..	..	..
Mukundapuram	Number	..	52	4	..	2	..
	Area	265.1†	223.2	11.7	..	8.11	..
Talappilly	Number	14	58	..	..	3	..
	Area	68.1*	174.1	..	..	13.78	..
Trichur	Number	..	53	19	..	1	..
	Area	45.7†	153.1	41.8	..	4.89	..

† Unsurveyed area which lies outside village boundaries
* Inclusive of unsurveyed area.

The entire area given against Mukundapuram and Trichur taluks in the highland region pertain to unsurveyed hills. Talappilly taluk also has unsurveyed hills.

River Systems

9. This district lies between two longest rivers in the State viz., Bharathapuzha and Periyar. Their origin, drainage area, and their peculiarities are dealt in detail in the District Census Handbooks of Palghat and Ernakulam respectively. The other important rivers in this district are Keecheri, Karuvannur and Chalakudy.

10. Chalakudi, the longest river in the district with a length of 90 miles, springs from Anamalai and Nelliampathi hills, and empties itself into the right arm of the Periyar at Elanthikara 6 miles east of Cranganore. The main tributaries of this river are Sholayar, Parambikulam, Thekkadi (or Kuriyar) and Karappara. Of these Sholayar and Parambikulam rivers take their origin in the Coimbatore district of Madars State. Sholayar has its source in the escarpment of the Western Ghats at Anamalai, at an elevation of 3,500 feet. It flows in a westerly direction for 28 miles and then turns towards north until it joins the Parambikulam river at Orukombankutty at an elevation of 1,500 feet. Parambikulam river rises from the Western Ghats at an elevation of 5,500 feet and flows parallel to Sholayar, about 5 miles north of it, in a westerly direction. The Thekkadi or Kuriyar river, also takes its

origin in the Western Ghats. It flows in south-west direction and joins the Parambikulam river at Kuriarkutty. Karappara river rises from the Nelliampathy hills of Chittur taluk at an elevation of 3,000 feet and flows towards west and turns south and then south-west till it meets the main river at Orukombankutty about 1 mile down stream of the confluence of the Sholayar and Parambikulam. From this point onwards this river takes the name Chalakudi. The other streams which join the Chalakudi river before its confluence with the Periyar are Chapparathodu, Arakayan, Kunnamkuzhi, Pillapparathodu and Arurmozhi. 'Its flow, till it reaches the plains, is broken by innumerable rapids and falls, the chief of which is the picturesque fall at Adirapilli, an almost vertical drop of over a hundred feet, a magnificent spectacle, especially in the monsoon time. The water of the Chalakudi, though good, is not so clear and light as that of Alwaye (Periyar), and the river is not, therefore, so much resorted to as the latter in the hot season'. It has a drainage area of 556 sq. miles of which 145 sq. miles lie in Madras State. The annual run off of the catchment is estimated as 100,000 million cubic feet of which 24,100 million cubic feet drain the Coimbatore district of Madras State. This river is navigable as far as Kanjirapilly. Peringalkuthu and Sholayar are the two important hydro-electric schemes under different stages of execution in this river basin.

11. Karuvannur, the second longest river in the district with a length of 50 miles, is formed by the confluence of two rivers Manali and Kurumali at a place called Palakkadavu near Arattupuzha in Trichur taluk and discharges itself partly into the Manakudi lake and partly into the Chetwai backwaters. The Manali river rises from the Vamampara hills of the Western Ghats at an elevation of 1,200 feet above mean sea level and it flows towards west up to Mundanchira and then takes a southerly course of flow up to Namenikara, from where it changes its direction again in favour of west and then turns to the south to join the Kurumali river at Palakkadavu. This river is not perennial in flow. The Kurumali is formed by two rivers viz., Chimoni and Muppli, which rise respectively from Palapilli and Kodasseri hills at an elevation of 3,600 feet above mean sea level. Both flow towards west till their confluence at Elikode and from there the combined river takes the name Kurumali. The Karuvanur river, which is formed by Manali and Kurumali rivers, takes a south-west direction up to Panankulam, and then adopts a westward direction before joining the backwaters. From Arattupuzha till the mouth of the river it forms the common boundary between Trichur and Mukundapuram taluks. The river branches into two, the southern branch flows to join the Manakudi lake (*kole* lands) while the northern branch empties itself into the backwaters of Chetwai. It has a total estimated drainage area of 320 sq miles with an annual run-off of 42,000 million cubic feet The construction of Peechi Irrigation Dam, the important irrigation project in this river, was completed in July 1957. This dam is located at Peechi, 14 miles away from Trichur. It irrigates 46,000 acres of land through two main canals. The river is navigable to a length of 15 miles.

12. The Keecheri river, otherwise known as Wadakkancherry river, springing from the foot of the elevated ranges of Machad hills flows north-west up to Wadakkancherry and then due west up to Nelluvayi and thence takes a south-westerly direction up to Keecheri from where it flows south, and joins the backwaters at Chetwai. Chundal thodu is the main tributary of this river. The Keecheri river flows through the villages of Virupakka, Karumathra, Enkakkad, Kumaranallur, Wadakkancherry, Chittanda, Kottapuram, Thayyoor, Kariyannur, Vallattanjoor, Eyyal, Chiranallur, Chemanathatta, Choondal, Eranellur, Kaipamba, Edakathathur, Elavali, Tholur and Chalackal. It has a length of 27 miles. The total drainage area is estimated as 98.8 sq. miles. It has an annual run-off of 16,000 million cubic feet. At present this river has an ayacut of 31, 180 acres. Vazhani, the only irrigation scheme to command almost the entire lands of Keecherry river basin, is nearing completion in the upper reaches of the river.

13. The Viyyoor river emerges from the Machad hills and joins the Enamakkal lake, 4 miles to the west of Trichur town. It is narrow and a deep stream running for almost the whole of its course through a broad and well cultivated valley which it serves to irrigate. It has a total length of 15 miles.

14. The Bharathapuzha forms the northern boundary of the district for about 25 miles touching the village limits of Pampady, Kaniyarcode, Mayannur, Venganellur, Painkulam, Cheruthuruthy, Nedumpura, Desamangalam and Pallur of Talappilly taluk. The Pazhayannur river otherwise known as Cheerakuzhi or Gayathri river, flows through the north-eastern villages of Talappilly taluk before it joins the left arm

of the Bharathapuzha river at Kuthampilly in Kaniyarcode village. The Killimangalam thode rising from the Kudarappara hill flows in a north-west direction and forms a junction with Bharathapuzha, a mile west of Painkulam.

Mountains

15. The Western Ghats, the chief glory of the district lies on the eastern region of the district. It is a very extensive and a marked feature of the district. It consists of a succession of ridges and conical peaks besides some detached hills of considerable elavations. 'Some of these lofty ridges and peaks are almost entirely detached (except near their bases) from the neighbouring heights, falling precipitously and followed towards the west by a succession of hills of gradually diminishing altitude. The chief ranges of hills that form the chain are the Machad in Talappilly taluk, Paravattani in Trichur taluk and Palappilli, Kodasseri and Adirapilly in Mukundapuram taluk'. The following are the important peaks in this district:—

Name of peak	Height		Location
Karimalagopuram	4,721	feet	Lies on the boundary between Chittur and Mukundapuram taluks
Vantholam mala	4,040	,,	,,
Virappilli kunnu	4,010	,,	,,
Mudianpara	3,996	,,	,,
Mukkottumudi	3,954	,,	Lies on the trijunction between Pollachi taluk of Madras State and Mukundapuram and Devicolam taluks
Kanchilakunnu	3,952	,,	Sholayar reserve
Poomala	3,665	,,	Palappilli range
Valavara mala	3,535	,,	Sholayar reserve
Pandimudi	3,174	,,	Palappilli range
Pulippachal	3,062	,,	Lies on the boundary between Chittur and Mukundapuram taluks
Kudikkal kunnu	3,058	,,	Adirapilli range
Velimudi	3,045	,,	Lies on the boundary between Alathur and Mukundapuram taluks
Ponmudi	3,039	,,	Lies on the trijunction between Trichur, Mukundapuram and Alathur taluks
Valerumala	3,028	,,	Sholayar reserve
Puthadammudi	2,989	,,	Adirapilli range
Cherpamudi	2,800	,,	,,
Chandimudi	2,852	,,	,,
Mangattukoomban	2,803	,,	Lies on the ridge which forms the boundary between Mukundapuram and Trichur taluks
Pandan Para	2,444	,,	Paravattani range
Karadi mala	2,199	,,	Kodasseri range
Kurukan mala	2,104	,,	,,
Anaikal peak	2,080	,,	Lies on the ridge which forms the boundary between Mukundapuram and trichur taluks
Thenkunatumudi	1,954	,,	Kodasseri range
Vengalpara	1,851	,,	Paravattani range
Munipara	1,716	,,	Lies on the ridge which forms the bountary between Talappilly and Trichur taluks
Mumbadan Mudi	1,466	,,	Kodasseri range
Mudal mala	1,382	,,	Paravattani range
Machad mala	1,364	,,	Machad range
Kodasseri Koomban	1,307	,,	Kodasseri range
Vellani peak	1,086	,,	Paravattani range

Backwaters and Lakes

16. In this district the backwaters or *kayals* as they are locally called run parallel to the sea-coast. There is a succession of these backwaters or estuaries connected by good navigable canals constructed from time to time. The important backwaters of this district are Chetwai and Cranganore. 'They are very irregular in form, with a breadth which ranges from four miles to forty yards, and branch out into a number of intricate and shallow channels, containing several low alluvial islands···The water is salt, but during the rainy season it is almost fresh except in the vicinity of the openings into the sea. The banks are low and generally marshy, and the bed a slimy mixture of black mud and dark sand. The shore on either side is densely covered with cocoanut and betelnut palms or else is a succession of paddy fields'[1]. the Veliyancode backwaters of Ponnani taluk is connected with Chowghat backwater. This backwater is united with the Karuvannur river.

17. The chief fresh water lakes are Katakampal in Talappilly taluk, and Enamakkal and Manakudy lakes in Trichur taluk and Muriyad in Mukundapuram

1 The Cochin State Manual by C. Achuta Menon, 1911, Page 8

taluk. The Katakampal lake lies partly in Talappilly taluk and partly in Ponnani taluk. The Enamakkal and Manakudy lakes are fed by Karuvannur, Viyyoor and Wadakkancheri rivers and channel out into the backwaters at two points, Enamakkal in the north and Karanchira in the south. The Muriyad lake is fed by several small streams and its surplus waters flow with the Karuvannur river especially during the monsoon period.

Soils

18. The soils of this district may be broadly divided into four classes viz., sandy, alluvial, laterite and forest soils Sandy soil exists only in Chowghat and Cranganur taluks. This soil varies in texture from sandy loam to pure sand and is highly porous having very little retentive capacity. It is also extremely deficient in all the major plant foods and lime. South-western portion of Trichur taluk and north-western portion of Mukundapuram taluk have alluvial soils. The alluvial soil of this region, known as *kole* lands, are heavy in texture. They are generally well supplied with organic matter, nitrogen and potash but are very deficient in phosphate and lime. Most of the alluvial soils are subject to periodical inundation with salt water. They are rather strongly acidic in reaction. Laterite soil occurs in Talappilly, Trichur and Mukundapuram taluks. The laterite soil is formed by weathering mainly acidic rocks under alternate wet and dry tropical conditions. The typical laterite soils is characterised by a vesicular structure and the accumulation of hydrated oxides of iron and aluminium. Most of the bases and silica has been removed by drastic leaching. At or near water table the soil material is soft and can be cut into blocks which harden on exposure. The material makes excellent bricks for building purposes. The soil is porous and well drained and has poor retentive capacity and fertility. Where the rainfall is only 70" to 80" the soil has not developed into true laterites. There is accumulation of iron and aluminium in such type of soil and it shows many of the properties of laterites. It does not have the vesicular structure peculiar to true laterites and cannot be used as building stones. This soil is more fertile than pure laterite soil. Forest soil is confined to the eastern region of Talappilly, Trichur and Mukundapuram taluks. They are characterised by a surface layer of organic matter derived from forest growth. These soils are high in nitrogen but extremely poor in bases due to heavy leaching. Their phosphate content is also very low. When the forests are cleared these soils gradually undergo laterization. These soils are rather strongly acidic in reaction.

Geology

19. Geologically the district may be divided into four belts orientated more or less north to south consisting of (i) a high mountain belt made up of crystalline rocks of the Archean group, (ii) a belt of residual laterite (iii) a narrow belt of Warkalli beds of the Tertiary group and (iv) the westernmost coastal belt of recent deposits. The most extensive crystalline rocks are the gneisses and charnockites. Gabbro and dolerite exposures are also seen at a number of places in this district. The black foliated micaceons gneiss is traversed by pegmatites of two generations. The charnockite is usually of the intermediate type but acidic and basic types are also present. The residual laterite is formed as a result of the *insitu* alteration of the crystalline rocks and occurs as a belt on the west of the Archean crystallines. The warkalli formation consist of a succession of variegated clays and sandstones at times carrying lignitic material. These beds range in age from upper Miocine to Pliocene. The coastal belt of recent deposit includes marine, lacustrine and alluvial deposits. The silty deposits of the rivers support a flourishing tile and brick industry.

Economic Minerals

20. Ordinary clay suitable for the manufacture of bricks and tiles occur in several parts of the district. The manufacture of bricks and tiles is a highly developed industry in this district especially near Ollur, Fudukkad and Karuvannur. Similar clays also occur Wadakkancherry and are being used for tile and brick manufacture in the neighbouring places. China clay is reported to occur at Kizhpullikara near Trichur. Mostly lateritic in quality, iron ores sporadically occur at a few places near Irinjalakuda and Wadakkancherry. But they are not commercially important. The gneisses and charnockites are quarried and used as building stones and road metal. Laterite is also extensively used for building purposes.

Climate

21. A heavy annual rainfall, a warm humidity of the atmosphere and a uniform temperature throughout the year are some af the characteristic features of the climate of this district. Like other parts of the State this district has also four seasons, the dry weather from December to February, hot weather from March to May, south-west monsoon from June to September and retreating or north-east monsoon from October to November.

(a) Temperature

22. This district has no meteorological observatory and hence no correct data has been collected in regard to temperature. As stated in the above para temperature of this district has close resemblance with the temperatures of the neighbouring districts. The important features for maintaining this uniform temperature is the super heated condition of the soil, the cool sea breezes and the abundance of rain through out and more than half of the year and process of evaporation. The temperature shows an increasing trend from the month of February onwards. The maximum temperature is in the hottest months of March and April. During this period itself temperature varies slightly among highland, midland and lowland regions. In the rainy season the rain cools the atmosphere and temperature is generally lower.

(b) Humidity

23. Since the district is exposed to the full force of south-west monsoon the percentage of mean relative humidity is exceptionally high during the months of June, July and August. During the period December to March the percentage humidity ranges between 40 and 50. In the remaining period of the year the humidity is above 70 per cent.

(c) Rainfall

24. In respect of annual normal rainfall this district ranks fourth when compared to other districts of the State with 3,159.4 mms. of rainfall. The other districts which exceed the normal rainfall of the district are Ernakulam, Kozhikode and Cannanore. As stated above the year may be broadly divided into four seasons. The following statement gives the rainfall in millimeters during these seasons:—

Statement 4

RAINFALL BY SEASONS

Year	Dry weather December* to February mm.	Hot weather March to May mm.	South-west Monsoon June to September mm.	North-east Monsoon October to November mm.
Normal**	52.1	403.0	2,235.1	469.2
1951	..	320.3	1,601.4	283.8
1952	52.0	263.6	1,387.7	334.5
1953	97.7	222.3	1,703.3	389.8
1954	5.4	391.6	1,859.4	234.9
1955	30.5	671.1	1,930.8	700.5
1956	16.4	492.9	1,767.8	616.0
1957	19.1	502.0	2,285.9	516.1
1958	45.3	737.9	1,832.0	416.2
1959	1.9	424.7	3,037.3	419.5
1960	6.6	869.6	2,205.1	515.0
Average for the decade	27.5	489.6	1,961.1	442.6

* Data for December relates to previous year

** Based on available figures relating to the period 1901 to 1950

25. The dry weather season commences by the later half of December and prevails upto February. This season starts with hot days and chilly nights. On an average the rainfall recorded is 1.6 days in December, 0.5 day in January and 0.6 day in February. During the decade 1951-61 the driest dry weather season was in 1951.

26. The dry weather season is succeeded by hot weather season. It usually starts by the early week of March and lasts up to the third week of May. During this season temperature rises rapidly and pressure decreases. The position of rainfall is slightly better in this season. The normal rainfall recorded during this period is 1.6 days in March, 4.8 days in April and 10.9 days in May. The driest hot weather season during the decade 1951–61 was in 1953.

27. South-west monsoon usually establishes its supremacy by the third week of May and in certain years it even starts by the middle of June. Mr. Dudly Stamp in his *Asia-A Regional and Economic Geography* describe this rainy season thus:– 'About the middle of June the monsoon bursts. The word 'bursts' aptly describes the suddenness of the change which is initiated, as a rule by a great downpour of rain accompanied by violent thunder and lightning. Even in those regions where the mango showers and the afternoon thunder storms, have, as it were, heralded the change, there is nevertheless a sudden and unmistakable difference from the day the monsoon actually breaks. The strong, steady south-westerly winds, for one thing, marks the difference. The goal of the wind is, of course, the low-pressure area over north-western India. The number of rainy days during this season comes to 24.8 days in june, 25.5 days in July, 20 0 days in August and 13.3 days in September. During the decade the wettest south-west monsoon was in 1959 and the mildest in 1952.

28. The north–east monsoon or the retreating monsoon is locally known as *Thulavarsham*. This rain establishes its supremacy during the months of October and November. On an average this district has 13.0 days rain in October and 7.5 days rain in November. During the intercensal period *Thulavarsham* was heaviest in 1955 and mildest in 1954.

29. Normal rainfall and rainy days for Chowghat, Cranganore, Mukundapuram, Talappilly, Trichur and Triprayar and rainfall data for Cranganore, Mukunda-

puram, Talappilly and Trichur centres are furnished in appendices 1 and 2. The raingauge station at Triprayar ceased to function from 1956.

Forests

30. Talappilly, Trichur and Mukundapuram taluks have reserve forests. They come under Trichur and Chalakudy Forest Divisions. For administrative purposes Trichur Forest Division is divided into Wadakkancherry, Pattikad and Palappilly ranges Wadakkancherry range lies entirely in Talappilly taluk while Pattikad range lies in the Trichur taluk. Palappilly range is situated in Mukundapuram taluk. Chalakudy division is constituted by Pariyaram, Vazhachal and Kaladi ranges. While the first two ranges fall under Mukundapuram taluk the Kaladi range lies outside the district boundary. i.e. in Alwaye, Kunnathunad, Muvattupuzha and Devicolam taluks.

31. The forests of this district are classified into deciduous, evergreen and semi-evergreen. The moist deciduous forests usually occur on the lower slopes and on the ridge, on rich loamy soil as well as on laterite areas. This type of forests extending up to an altitude of about 3,000 feet above mean sea level occur on a major portion of the eastern tracts of the district particularly in the Trichur Forest Division.

32. The tropical evergreen forests or shola is characterised by the great luxuriance of its vegetation consisting of external tiers, the highest of which containing lofty trees, often with plank buttresses at the base, reaching a hundred and fifty feet or more in height and lowest containing dense, evergreen shrubby undergrowth. A heavy rainfall, high atmospheric humidity, a short dry season, striking absence of gregariousness, trees with smooth bark with sparing branches and leaves and leathery or glossy thick stemmed climbers are some of the characteristics of these forests. This type of forests extensively occur in the Sholayar valley.

33. Semi-evergreen forests occur in the Adirapilli Reserve of the Chalakudy division. This type of forests lies between moist deciduous forests and ever-green forests. During 1960—61 Trichur and Chalakudy divisions have produced major and minor forest products to the tune of Rs. 66.7 lakhs. The table showing the production and value of major and minor forest produces for the decade 1950—51 to 1960—61 for these divisions are given in appendix 3.

Land Tenures

34. The Kerala Agrarian Relations Act, 1960, dealing with the tenancies in Kerala as a whole came into force in part on 15th February 1961. But consequent on the decisions of courts on certain questions arising out of this Act, the operation of the Act was suspended by a Proclamation dated 18th December 1962 and the Act was repealed when the Kerala Land Reforms Act, 1963 was enacted. Thus the position with regard to land tenures as on 1st March 1961, the reference date for 1961 Census, is as if the Kerala Agrarian Relations Act, 1960 had not been in force. Subsequently, the Kerala Land Reforms Act, 1963, was passed which vitally affects the tenancies in Kerala. It is, therefore, necessary to give an account of the land tenures as they stood on 1st March 1961 without taking into account the Kerala Agrarian Relations Act, 1960, and as after the enactment of the Kerala Land Reforms Act, 1963.

Land Tenures in the former Cochin area
Proprietary Ownership

35. The categories of tenures in the Cochin area fall in the same groupings as in the Travancore area. There are, however, some tenures which carry different rights and having different incident. The *jenmom* tenure of Cochin is substantially the same as the *jenmom* of Travancore, the *pandaravaka verumpattom* tenure of Cochin the same as the *pandarapattom* or *pandaravaka* of Travancore and the *pandaravaka kanom* of Cochin the same as the *pandaravaka otti* of Travancore. In regard to *inams* also the same types of *inams* as in Travancore both in respect of personal and service exist in Cochin. But the service *inams* of Cochin are not so numerous in variety as in Travancore. The title deed issued to the grantee specifies the nature of the services to be performed. If the grant is conditional, breach of any of the conditions or alienation entail forfeiture. If it is an unconditional one alienation does not work forfeiture.

Lands held under Government

36. In Cochin it is licensing that was in vogue instead of *kuthakapattom*. The terms and incidents of licensing are the same as in the case of *kuthakapattom*.

Tenures under Private Persons or Institutions
Kanom

37. The *kanom* tenure of Cochin is substantially

the same as the *kanom* tenure of Travancore But the *kanom* tenure of Travancore had the benefit of an earlier legislation in the Jenmi and Kudiyan Act, 1071, which practically conferred the ownership of the *kanom* lands on the tenants subject to the payment of *jenmikaram* to Government and even this liability was removed and the *kanom* lands of Travancore were enfranchised by the Jenmikaram Abolition Act of 1960. But so far as Cochin area is concerned the Cochin Tenancy Act, II of 1090 had only conferred permanency of tenure on the *kanom* tenants subject to certain conditions. The Kanom Tenancy Act of 1955, however, is a parallel legislation on the lines of the Jenmi and Kudiyan Act, 1071, of Travancore. Settlement of the *kanom* lands in Cochin has been done in accordance with this Act. The tenants have only to pay *jenmikaram* to the Government and subject to this the tenants are the owners of *kanom* lands. The right held by the tenant is heritable and transferable.

Verumpattom

38. This is the same as the *verumpattom* of Travancore which means an ordinary lease. But this had received fixity of tenure as early as 1943 by the enactment of the Cochin Verumpattomdars' Act of 1118 M. E.

Varom

39. This is the same as in Travancore. Both in Travancore and Cochin this was not recognised as a land tenure and the *varomdar* had never the privilege of being a tenant. It is only the temporary enactments which stayed the eviction of *varomdars* and the Kerala Land Reforms Act, 1963, that improved the position of the *varomdars* and gave them the same status as other tenants.

Land Tenures in Malabar

Proprietary Ownership
Jenmom

40. This is the same as the *jenmom* right in Travancore subject to the difference that in the Malabar area the *jenmom* lands were subject to land tax soon after Mysorean invasion.

Inams

41. The personal and service *inams* as mentioned in the case of Travancore are available here also but the varieties of service *inams* are less than in Travancore. These have the same incidents as in Travancore.

Lands held under Government

42. The system obtaining in Malabar was licensing in the place of the *kuthakapattom* of Travancore. But since the formation of Kerala State the assignment of Government lands available for registry has been facilitated to a large extent.

Tenures under Private Persons or Institutions
Kanom

43. *Kanom* means the transfer for consideration in money or in kind or in both by the landlord of an interest in specific immovable property to another called the *kanomdar* for the letter's enjoyment. The incidents of this transfer include

(a) right in the transferee to hold the said property liable for the consideration paid by him or due to him which consideration is called *kanartham*,

(b) the liability of the transferor to pay to the transferee interest on the *kanartham* and

(c) the payment of *michavarom* by the transferee. The tenant enjoys the fixity of tenure and the right held by him is heritable and transferable. Where *kanartham* exceeds in South Malabar 60 per cent of the value of the Jenmi's right in the holding and in other places 40 per cent of the value of such rights the *kanomdar*, however, did not enjoy fixity of tenure. On specified grounds like wilful waste, denial of land lord's title, collusive encroachment by a stranger, for the purpose of *bona fide* cultivation by landlord's *tarwad*, *tavazhi* etc., for the *bona fide* purpose of constructing a building for the landlord's *tarwad*, *tavazhi* etc., and for the extension of a temple, mosque, church or other places certified by the Collector where the landlord is the trustee there of the *kanomdar* was evictable from his holding provided in the last three cases the eviction can be demanded only after the expiry of the period of *kanom* and shall not apply to the holding or that porton of the holding which consits of *kudiyiruppu* or protected *ulkudi* or *kudikidappu*. The tenant has a right to sue for restoration of holding if the land is not used for the purpose for which eviction was sought within a specified period.

Kuzhikanom

44. *Kuzhikanom* means and includes transfer by a landlord to another called *kuzhikanomdar* of garden lands or other lands or both with the fruit-

bearing trees if any standing thereon at the time of the transfer for the enjoyment of those trees and for the purpose of planting such fruit-bearingt rees thereon. The rights of the *kuzhikanomdar* is the same as that of a *kanomdar*.

Kanom-Kuzhikanom

45. *Kanom-Kuzhikanom* means and includes transfer by a landlord to another called *kanom-kuzhikanomdar* of garden lands or other lands or of both with the fruit-bearing trees, if any, standing thereon at the time of the transfer for the enjoyment of those trees and for the purpose of planting such fruit-bearing trees thereon the incidents of which transfer include

(a) right in the transferee to hold the said lands liable for consideration paid by him or due to him which consideration is called *kanartham* and

(b) the liability of the transferor to pay to the transferee interest on the *kanartham* unless otherwise agreed to by the parties.

Customary Verumpattom

46. Customary *verumpattomdar* means any *verumpattomdar* who, before the commencement of the Malabar Tenancy (Amendment) Act, 1951, Madras (Madras Act XXXIII of 1951) was entitled by the custom of the locality in which the land is so situate to possession of the said land for a definite period of years and for whose continuance thereon after the termination of that period, for a further period, a renewal fee had to be paid to the landlord as an incident of the tenure; customary *verumpattom* is the holding of the 'customary *verumpattomdar*' Both the *kanom-kuzhikanomdar* and the customary *verumpattomdar* have substantialy the same rights as the *kanomdar*' or *kuzhikanomdar*.

Kudiyiruppu

47. *Kudiyiruppu* means and includes the site of any residential building the site or sites of other buildings appurtenant thereto, such other lands as are necessary for the convenient enjoyment of such residential building and the easements attached thereto but does not include an, *ulkudi* or *kudikidappu*. The tenant enjoys fixity of tenure. The right is heritable and transferable if the tenant is actually cultivating. He is evictable on the grounds mentioned in the case of *kanom* and in addition, on non-payment of rent within three months of the due date. The tenant also enjoys the right of purchase from the immediate landlord if the *kudiyiruppu* has been occupied by him for not less than 10 years.

Separate Kudiyiruppu

48. Separate *kudiyiruppu* means a *kudiyiruppu* which is a sole property comprised in the holding and the tenant has the same right as that of a tenant of a *kudiyiruppu*.

Separable Kudiyiruppu

49. This means a *kudiyiruppu* which is included with other property in a holding and which is not a necessary for the convenient enjoyment as usual of any other part of the holding. The tenant has, the same right as that of the tenant of a *kudiyiruppu*.

Cultivating Verumpattom

50. A *verumpattomdar* means a tenant other than a *kanomdar*, *kanom-kuzhikanomdar* or *kuzhikanomdar* of a holding for agricultural purposes and cultivating *verumpattomdar* in respect of a holding means any *verumpattomdar* who, not being a *jenmi*, intermediary or customary *verumpattomdar* of that holding has expressly or impliedly, contracted to cultivate the lands in that holding, and actually cultivates the same. Cultivating *verumpattom* means a holding of cultivating *verumpattomdar*. He has the same rights as that of a tenant of a *kudiyiruppu* except that of the right of purchase.

Ulkudi

51. This means a hut in any portion of a land outside Fort Cochin in the occupation of a person who has been permitted by the person entitled to possession of such land to occupy the hut and who otherwise has not interest in such land. The tenant has no fixity of tenure. Protected *ulkudi* means an *ulkudi* which has been in the continuous occupation of the holder or of any member of his *tarvad*, *tavazhi*, *'illom kudumba kavaru* or family for not less than one year.

Kudikidappu

52. *Kudikidappu* means a hut in any portion of a land in Fort Cochin in the occupation of a person who has been permitted by the person entitled to possession of such land to occupy the hut and who otherwise has no interest in such land. Both the tenants

of protected *ulkudi* and *kudikidappu* enjoy fixity of tenure.

After the enactment of the Kerala Land Reforms Act, 1963

53. The Kerala Land Reforms Act, 1963, repealed the Kerala Agrarian Relations Act, 1960, the Malabar Tenancy Act, 1929, the Cochin Verumpattomdars Act, VIII of 1118, the Madras cultivating Tenants (Payment of Fair Rent) Act, 1956, and the Travancore Cochin Prevention of Eviction of Kudikidappukars Act, 1955, and enacted a single statute governing the relationship between landlord and tenant throughout the State.

Exemptions from the Provisions regarding Tenancies

54. Subject to certain provisos, the provisions regarding tenancies in this Act are not applicable to (i) leases of lands or buldings or both belonging to or vested in the Government of Kerala or the Government of any other State in India or the Government of India or a local authority or a Corporation owned or controlled by any of the above Governments, (ii) leases only of buildings and the site thereof with the land, if any, appurtenant thereto, (iii) leases of land or of buildings or of both specifically granted for industrial or commercial purposes, (iv) tenancies of land or buildings or of both created by the Administrator-General or the official Trustee or an official Receiver or officer appointed by a Court of Wards, or by any person holding under or deriving titles from any of the officers or the Court, (v) tenancies in respect of land or buildings or of both created by mortgagees in possession or by persons deriving title from such mortgagees except a cultivating tenant holding land in the taluks of Hosdrug or Kasaragod to which the Malabar Tenancy Act, 1929, did not extend under a lease granted before 15th February 1961 by a usufructuary mortgage as defined in the transfer of Property Act, 1882, (vi) tenancies in respect of land or of buildings or of both created by persons having only life interest or other limited interest in it, (vii) leases of private forests except where a person was entitled to fixity of tenure immediately before 21st January 1961 under any law then in force, (viii) tenancies in respect of plantations exceeding thirty acres in extent, (ix) tenancies in respect of *kayal patasekharams* of Kuttanad area specified in Schedule IV of the Act so long as such *patasekharams* are used for the cultivation of paddy or such other crops as may be notified by Government, (x) tenancies in respect of sites, tanks and premises of any temple, mosque or church including sites on which religious ceremonies are conducted and sites of office buildings and other buldings attached to such temple, mosque or church created by the owner, trustee or manager of such temple, mosque or church, (xi) lands transferred for felling trees and (xii) any transaction relating only to the usufruct of trees or to the tapping of cocoanut or other palm-trees or to the tapping of rubber trees. The exemption mentioned above in respect of Government leases is subject to the proviso that in the case of *kandukrishi* lands sub-leased by a tenant holding such lands under Government, the provisions of Sections 13 to 26 of the Act shall, so long as the lease granted by the Government subsists apply to the tenants holding under the sub-lease as they apply to tenants holding lands other than Government lands. In respect of the exemption relating to tenancies created by the Administrator-General etc., mentioned above, the exemption shall cease to apply to any tenancy created by the Court of Wards, where the landlord on whose behalf the tenancy was created does not terminate the tenancy by a registered notice within a period of six months from the date on which the property was released from the Superintendence of the Court of Wards. Provisions of Sections 13 to 26 of the Act, relating to fixity of tenure will apply to exemptions granted to tenancies created by mortgagees in possession or by persons deriving title from such mortgagees or by persons having only life interest or other limited interest in the land or buildings or both so long as the mortgage or the life interest or other limited interest subsists. Where a tenancy is created by a *nissanthathi kavaru* as defined in the Madras Aliyasanthana Act, 1949, in respect of lands or buildings or both over which the *nissanthathi kavaru* has only a life interest the exemption will apply only regarding Sections 53 to 72 and not others governing tenancies. In the case of tenancies in respect of agricultural lands which are treated as plantations under sub-clause C of section 44 of Section 2 of the Act the exemption referred to supra shall apply only to Sections 53 to 72 of the Act. Provisions of Sections 4 to 53 and 73 and 74 of the Act will apply to tenancies in respect of *kayal patasekharams* of the Kuttanad area in spite of the exemption mentioned about them supra. The Government are also given limited powers of exemption under the Act.

The Scope and Objects of the Act

55. The main objects of the Kerala Land Reforms Act, 1963 are:—

1 To confer fixity of tenure on tenants;

2 To fix the fair rent in respect of a holding;

3 To confer the right of purchase of the land lords' rights, title and interest on the cultivating tenants;

4 To define the rights and liabilities of *kudikidappukars*; and

5 To place a ceiling on the ownership and possession of land and provide for the disposal of excess land

There are also some provisions of secondary importance in addition to the above.

Fixity of Tenure
Tenants and Tenancies

56. For a proper appreciation of the provisions relating to tenancies as a whole the definitions of tenants and tenancies are of supreme importance. A tenant means any person who has paid or has agreed to pay rent or other consideration, for his being allowed by another to possess and enjoy the land of the latter, and includes an intermediary, a *kanomdar*, a *kanom-kuzhikanomdar*, *a kuzhikanomdar* a *mulgenidar*, a *verumpattomdar* of any description (including a customary *verumpattomdar)*, the holder of a *chalgeni* lease, the holder of a *kudiyiruppu*, the holder of a *vaidageni* lease, an *odacharthudar* or a person claiming under an *odacharthudar* who was actually cultivating on the 11th day of April 1957 and was continuing to cultivate at the commencement of this Act, the land or any portion of the land to which the *odacharthu* relates, a mortgagee with possession of the immovable property situate in Cochin if the property comprised in the mortgage consists of agricultural land other than planted with rubber, coffee, tea or cashew and the interest on the mortgage amount is less then forty percent of the total rent fixed in the mortgage document, a mortgagee with possession of immovable property situate in Cochin if the property comprised in the mortgage consists of agricultural land, he was by himself or through any member of his family or *tarwad* holding the property comprised in the mortgage as a *verumpattomdar* on or after 1st *Chingom* 1111 and the *verumpattom* was terminated after 1st *Chingom* 1111 and before the commencement of this Act but he continued in possession of the property without interruption by himself or through any member of his family or *tarwad*, as a mortgagee with possession from the date of such termination till the commencement of this Act, any person who, on 11th April 1957 was cotinuously in occupation of the land of another situate in Malabar for not less than two years, honestly believing himself to be tenant and continued to be in occupation of such land at the commencement of this Act, any person who, by virtue of the provisions of Section 6 of the Kerala Stay of Eviction Proceedings Act, 1957, was entitled to cultivate any *nilam* after 11th April 1957 and was cultivating the *nilam* at the commencement of this Act, a tenant who, on or after 11th April 1957, was holding land less in extent than the ceiling area and had executed a deed surrendering his leasehold right to the landlord but had not actually transferred possession of the land to the landlord before the commencement of this Act, a *punam* or *kumri* cultivator, a licensee in Kuttanad area, a *varomdar* a *vechupakuthidar*, and a person holding land situate in any part of the Hosdurg or Kasaragod taluks to which the Malabar Tenancy Act, 1929, did not extent under a transaction described in the document evidencing it as *bhogya*, *otti*, *nattotti*, *arwar*, *illidarwar* or *krithasartha illidarwar*, but not being a usufructuary mortgage as defined in the Transfer of Property Act, 1882. Where, in a document a person is described as a *sambalapattomdar*, *sambala chittudar* or *coolipattomdar* in respect of any *nilam* situate in the Kasaragod district he shall be presumed to be a tenant unless it is proved that he has not undertaken any risk of cultivation. A cultivating tenant means a tenant who is in actual possession of, and is entitled to cultivate, the land comprised in the holding. *Kanom* means the transfer for consideration, in money or in kind or in both, by a landlord of an interest in specific immovable property to another person for the latter's enjoyment, whether described in the document evidencing the transaction as *kanom* or *kanapattom* the incidents of which transfer include:-

(a) a right in the transferee to hold the said property liable for the consideration paid by him or due to him;

(b) the liability of the transferor to pay to the transferee interst on such consideration unless otherwise agreed to by the parties; and

(c) payment of *michavaram* or customary dues or renewal on the expiry of any specified period,

and, in areas other than Malabar, includes such transfer of interest in specific immovable property which is described in the document evidencing the transaction as *otti*, *karipanayam*, *panayam*, *nerpanayam* or by any other name and which has the incidents specified in sub-clauses (a) and (b) above and also the following incidents:—

(i) renewal on the expiry of any specified period; and

(ii) payment of customary dues

Kanapattom or any other demise governed by the Travancore Jenmi and Kudiyan Act of 1071 or the Kanom Tenancy Act, 1955, is not a *kanom* for the purposes of this Act. Where there has been no stipulation in the document evidencing the transaction for renewal on the expiry of any specified period, but there has been a renewal or payment of renewal fees it shall be deemed that there had been a provision for such renewal in the document. *'Kanom-kuzhikanom'* means and includes a transfer by a landlord to another person of garden lands or of other lands or of both, with the fruit-bearing trees, if any, standing thereon at the time of the transfer, for the enjoyment of those trees and for the purpose of planting such fruit-bearing trees thereon, the incidents of which transfer include–

(a) a right in the transferee to hold the said lands liable for the consideration paid by him or due to him which consideration is called *kanarthnam* and

(b) the liability of the transferor to pay to the transferee interest on the *kanartham* unless otherwise agreed to by the parties.

A usufructuary mortgage as defined in the Transfer of Property Act, 1882, (Central Act 4 of 1882) is not a *kanom kuzhikanom*. *Kudiyiruppu* means a holding or part of a holding consisting of the site of any residential building, the site or sites of other buildings appurtenant thereto, such other lands as are necessary for the convenient enjoyment of such residential building and easements attached thereto but does not include a *kudikidappu*. *Kuzhikanom* means and includes a transfer by a landlord to another person of garden lands or of other lands or of both with the fruit-bearing trees, if any, standing thereon, at the time of the transfer, for the enjoyment of those trees and for the purpose of planting such fruit-bearing trees thereon but shall not include a usufructuary mortgage as defined in the transfer of property Act, 1882. *Punam* or *kumri* cultivation means fugitive or intermittent cultivation of paddy on dry lands in Malabar and *punam* or *kumri* cultivator means a person who has raised crops by *punam* or *kumri* cultivation in any year between 1953 and 1959 and where there are successive cultivators in respect of the same land the cultivator who raised crops last by such cultivation during the said period. Holder of a *chalgani* lease means a lessee or sub-lessee of specified immovable property situate in the taluk of Hosdrug or Kasaragod in the district of Cannanore who has contracted either expressly or impliedly to hold the same under a lease, whether for a specified period or not. *Mulgeni* means a tenancy inperpetuity at a fixed invariable rent created in favour of a person called *mulgenaar*. *Vaidageni* means a lease for a term of years. *Varam* means an agreement for the cultivation of *nilam* with paddy and sharing the produce made between the owner and the person who undertakes cultivation under such arrangement and includes the arrangements known as *pathivaram*, *pankuvaram* and *panku pattom;* and *varamaar* means the person who undertakes cultivation under a *varam* agreement. *Vechupakuthy* means a transaction where under a landowner permits another person to be in joint possession with him of any land with the following stipulations:—

(i) *Vechupakuthidar* shall improve the land within a specified period;

(ii) at the end of the period so specified

(a) the land shall be partitioned between the landowner and the *vechupakutnidar;*

(b) upon such partition all the rights of either party over the portion of the land set apart for the other shall stand transferred to and vest in the other; and

(iii) during the period between the date of the transaction aforesaid and the partition of the land the *vechupakuthidar* shall pay to the landowner such rent as may be specified. *Verumpattomdar* means a lessee or sub-lessee of immovable property, whether called *verumpattomdar* or *venpattomdar* who has expressly or impliedly contracted to hold the same under a lease with or without security for rent and includes a *tharikuthukaran* in the Palghat district but does not include a *kanomdar*, a *kanom-kuzhikanomdar* or *kuzhikanomdar*. Customary *verumpattomdar* means any

verumpattomdar of immovable property situate in any area to which the Malabar Tenancy Act, 1929, extended, who before the commencement of the Malabar Tenancy (Amendment) Act, 1951, was entitled by the customs of the locality in which the land was situated to possession of the said land for a difinite period of years, and for whose continuance thereon, after the termination of that period, for a further period, a renewal fee had to be paid to the landlord as incident of the tenure.

Fixity of Tenure

57. The Act confers fixity of tenure on every tenant in respect of his holding except where the tenant holds under a landlord who is a member of the Armed Forces or is a seaman if the tenancy was created by such landlord within a period of three months before he became a member of the Armed Forces or Seaman or where the tenant holds under the legal representative of the landlord.

Resumption is allowed in the following cases:—

(a) For the purpose of extending a place of public religious worship provided the Collector of the district certifies that the same is so needed;

(b) For the *bona fide* purpose of constructing a building for the residence of a landlord (other than a *sthani* or the trustee or owner of a place of public religious worship) or any member of his family;

(c) For the *bona fide* purpose of cultivation by the landlord (other than a *sthani* or the trustee or the owner of a place of public religious worship) or any member of his family.

(d) In respect of agricultural lands interspersed within the boundaries of the area cultivated with plantation crops, where such holding or part thereof is necessary for the purposes of plantation; and

(e) If the tenant of the agricultural lands mentioned under (d) above wilfully commits any act of material waste in the plantantion.

In the case of (b) above resumption is allowed only up to 20 cents where resumption is sought on behalf of one person and up to 50 cents where it is sought on behalf of two or more persons. The total extent of land in the possession of the landlord shall not be raised above five standard acres and the total extent of land in the possession of the tenant shall not be reduced below 20 cents in the case of such resumptions. Any land held by a member of a Scheduled Caste or Scheduled Tribe as tenant is exempted from such resumption. In the case of resumption under (c) above the total extent of land in the possession of the landlord shall not be raised above the ceiling area and the total extent of land in the possession of the cultivating tenant shall not be reduced below the ceiling area by such resumption. The resumption is allowed only from a tenant who is in possession of land above the ceiling area. A small holder (other than a *sthani* or the trustee or owner of a place of public religious worship) is however, allowed to resume from his tenant a portion of the holding not exceeding one half provided that by such resumption the total extent of land in the possession of the small holder shall not be raised above four standard acres or four acres in extent whichever is greater and that except as provided in sub-section 2 and 3 of Section 53 of the Act no land shall be resumed from a tenant who was entitled to fixity of tenure in respect of his holding immediately before 21st January 1961 under any law there in force. A "small holder" means a landlord who does not have interest in land exceeding eight standard acres of 24 acres in extent, whichever is less, as owner, intermediary or cultivating tenant, or in two or more of the above capacities so however that the extent of non-resumable land in his possession as owner or as cultivating tenant, or partly as owner and partly as cultivating tenant does not exceed four standard acres or four acres in extent whichever is greater. A person who was in possession of, or had interest in, land exceeding the limits mentioned above before 1st December 1957 but such extent of land was reduced to the said limits or below by Partition or transfer effected after the above date shall not be deemed to be a small holder nor shall such partition or transfer entitle the allottee or transferee to exercise the rights of a small holder in respect of the land allotted or transferred to him.

No resumption of a *kudiyiruppu* is allowed whether it is sought by small holder or not. Subject to certain exemptions a time limit of one year from the commencement of the Act has been fixed for

preferring applications for resumption. The Act also contains provision for the grant of compensation for improvements and solatium to the tenant from whom any land is resumed.

58. An application for restoration by a cultivating tenant from whom land was resumed for construction of a residential building or for personal cultivation or on the ground of the land being necessary for purposes of plantation will lie if within 3 years of such resumption the person who resumed the land fails without reasonable excuse to use the land for the purpose for which it was resumed. The restoration is allowed only subject to certain limitations enjoined by the Act.

Fair Rent

59. The fair rent in respect of a holding is the rent payable by the cultivating tenant to his landlord and it shall be the rent calculated at the rates specified in Schedule III applicable to the class of lands comprised in the holding, or the contract rent whichever is less. Where the fair rent in respect of a holding has been determined under any law in force immediately before 21st January 1961, the fair rent so determined shall be deemed to be the contract rent. Where a cultivating tenant or an intermediary is holding under a small holder, the fair rent shall, at the option of the small holder, be the rent calculated at the rates specified in Schedule III applicable to the class of lands comprised in the holding; or where the fair rent in respect of the holding has been determined under any law in force immediately before 21st January 1961 such fair rent, or, where the fair rent has not been so determined 75 per cent of the contract rent. The fair rent payable by a cultivating *kanomdar* or a cultivating customary *verumpattomdar* shall not exceed the *michavaram* payable by such *kanomdar* or the rent payable by such customary *verumpattomdar* as the case may be. Where any land included in a holding is set apart for communal purposes, and is used for such purposes, the extent of the land so set apart shall not be taken into account in fixing the fair rent of such holding. The cultivating tenant or any landlord may apply in the prescribed form to the Land Tribunal for determining the fair rent in respect of a holding. Where in respect of a holding there is an intermediary at the commencement of this Act and as a result of the determination of the fair rent there has been a reduction or increase in the rent payable by the cultivating tenant the rent payable by the intermediary to his landlord shall be reduced or increased in the same proportion as the rent to which he was entitled was reduced or increased. The landlord and the tenant are competent to agree as to what shall be the fair rent payable and where such an agreement is filed with the Land Tribunal, the latter shall pass orders determining such agreed rent as the fair rent. Where the rent payable has not been determined by the Land Tribunal the landlord shall be entitled to receive and the tenant shall be bound to pay the rent that was payable immediately before the commencement of this Act. In the case of a *varomdar* such rent shall mean the average of the share of the landlord in the produce for the three years immediately preceding such commencement, or, where the *varomdar* was not cultivating the land continuously for the said period of three years, the share of the landlord for the year in which the *varomdar* cultivated the said land immediately before such commencement. Where there has been a damage to, or failure of crops, owing to causes beyond the control of the tenant in any holding, the tenant shall be entitled to a remission of the rent payable by him in proportion to the extent of such damage or failure. The remission is to be ordered by the District Collector or any other officer authorised by Government by notification in the Gazette.

Purchase of Landlord's rights by Cultivating Tenants

60. The Act enables the cultivating tenants entitled to fixity of tenure to purchase the landlord's rights in the holding. The provisions in this respect have, however, not yet been fully enforced. A summary of the salient provisions in this respect is given below. A cultivating tenant (including the tenant of a *kudiyiruppu*) who is entitled to fixity of tenure under Section 13 is also entitled to purchase the right, title and interest of the landowner and the intermediaries, if any, in respect of the land comprised in the holding provided he or the family of which the cultivating tenant is a member does not own an extent of land not less than the ceiling area. Where he or the family of which he is a member owns land less than the ceiling area the right of purchase is allowed only to the extent of land as will, together with the land already owned, make up the ceiling area. If the landlord is entitled to resume any portion of the holding and he applies for such resumption the right of purchase will extent only to the

remaining area. Where the landowner or an intermediary is a small holder and the cultivating tenant was entitled to fixity of tenure immediately before 21st January 1961 under any law then in force the cultivating tenant shall not be entitled to purchase the right, title and interest of the landowner and the intermediaries unless the cultivating tenant agrees in writing that the small holder may exercise the right of resumption in respect of the holding under Section 17. In the event of such agreement the small holder shall, not withstanding anything contained in the second proviso to Section 17 and not withstanding the expiry of the period fixed under clause (1) of Section 18 for making application for resumption, be entitled to exercise the right of resumption and the cultivating tenant shall be entitled to purchase the right, title and interest of the landowner and the intermediaries in respect of the remaining part of the holding left after resumption. An application for the purchase of landlord's right shall be made by the cultivating tenant to the Land Tribunal. The purchase price payable by the cultivating tenant shall be the aggregate of:—

(i) sixteen times the fair rent in respect of the holding or part thereof to which the purchase relates;

(ii) the value of structures, wells and embankments of a permanent nature belonging to the landowner or the intermediaries, if any, and

(iii) one half of the value of the timber trees belonging to the landowner or intermediaries, if any.

The Act provides for the apportionment of such price between the landlord and intermediaries, if any. The Land Tribunal shall pass orders, where the purchase is to be allowed, allowing the application for purchase and specify details relating to the purchase price, the value of encumbrances etc., and the amount payable to the landowner and each of the intermediaries after deducting the value of the encumbrances of the claim for maintenance or alimony. The purchase price shall be payable in sixteen equal instalments. But were the purchase price is less than Rs. 160 the number of instalments shall be so fixed by the Land Tribunal that the amount payable in each instalment shall not be less than Rs. 10. It shall be open to the cultivating tenant to pay the entire price in a lump in which case the amount payable shall be only 75 per cent of the purchase price. The purchase price payable will bear interest at 4½ per cent per annum from the date on which the right, title and interest from the landowner and intermediaries vested in the cultivating tenants. Where the purchase price is paid in instalments the second and subsequent instalments shall be deposited together with interest on the amount outstanding on the date of deposit. A cultivating tenant shall be liable to pay rent to his landlord until he makes the deposit.

61. Where in respect of a holding the landowner or the intermediary is a religious, charitable or educational institution of a public nature such institution is given the option to choose as to whether the right' title and interest of the institution in respect of the holding may be permitted to be purchased from the institution by the cultivating tenant on payment of the purchase price or such right, title and interest should be vested in the Government in consideration of the payment of an annuity in perpetuity by the Government. The annuity payable to the institution in the latter case shall be a sum equal to the annual rent which the institution was entitled to receive immediately before 21st January 1961 after deducting 2½ per cent thereof by way of collection charges. Where in respect of a holding held by a tenant referred to in Sections 4, 5, 6, 7, 8, 9, 10 or 11 there was no stipulation for payment of any rent immediately before 21st January 1961 the annuity shall be an amount equal to 4½ per cent of 16 times the fair rent in respect of the holding. The Government shall pay the annuity payable to the institution, every year in perpetuity. Where, however, the right, title and interest of the institution are subject to any encumbrance the value of the encumbrance shall be paid to the holder of the encumbrance and 5 per cent of the value of the encumbrance shall be reduced from the annuity and the balance, if any, alone shall be paid to the institution.

62. Where the value of the encumbrance is more than 20 times the annuity if there is only one encumbrance 20 times the annuity shall be paid to the holder of the encumbrance and if there are more than one encumbrance 20 times the value of encumbrances shall be paid to the holders thereof in their order of priority and no amount by way of annuity shall be payable to the institution. The filing of an application by a religious, charitable or educational institution of a public nature under sub-section (1) of Section 66 or the vesting of the right, title and interest of the institution in the Government under sub-section (5) of Section 66 of the Act, shall not affect the right of the

cultivating tenant to purchase such right, title and interest in accordance with the provisions 53–64 of the Act already referred to. Where a cultivating tenant does not apply for a purchase of the right, title and interest vested in the Government under Section 66 tenant holding directly under the religious, charitable or educational institution of a public nature shall continue as tenant under the Government. The Act contains provisions for scaling down the arrears of rent in accordance with the schedule given under Section 73. After the commencement of this Act no tenancy shall be created in respect of any land. But where any landowner is a minor or a widow or an unmarried woman or a divorced woman or a person incapable of cultivating the land by reason of any physical or mental disability or a serving member of the Armed Forces or Seaman such person may create a tenancy, but the tenant shall not be entitled to a right of purchase. Any tenancy created in contravention of the above provision shall be invalid.

Rights and Liabilities of Kudikidappukars

63. A *kudikidappukaran* means a person who has neither a homestead nor any land as owner or as tenant in possession, on which he could erect a homestead and

(i) who has been pemitted with or without an obligation to pay rent by a person in lawful possession of any land to have the use and occupation of a portion of such land for the purpose of erecting a homestead; or

(ii) who has been permitted by a person in lawful possession of any land to occupy, with or without the obligation to pay rent, a hut belonging to such person and situate in the said land but otherwise has no interest in the land; and

kudikidappu means the land or the homestead or hut so permitted to be erected or occupied together with the easements attached thereto. A person shall not be deemed to be a *kudikidappukaran* if the aforesaid permission, was granted after the 11th of April 1957 by a mortgagee in possession or by a tenant from whom the land in which the *kudikidappu* is situate is liable to be resumed. A person shall not also be deemed to be a *kudikidappukaran* if the permission was granted in respect of any hut not belonging to him and situate in a plantation or in any area of land which is appurtenant to a mill, factory or workshop and in connection with the employment of such person in the plantation, mill, factory or workshop unless he was, immediately before the commencement of the Act, entitled to the rights of a *kudikidappukaran* or the holder of a protected *ulkudi* or *kudikidappu* under any law then in force. A hut means any dwelling house which was constructed at a cost not exceeding Rs. 400 or could have at the time of costruction yielded a monthly rent not exceeding Rs. 4. Any person who was in occupation of a *kudikidappu* on the 11th day of April 1957 and who continues to be in such occupation at the commencement of the Act, shall be deemed to be in occupation of such *kudikidappu* with permission as required above. Also, where any *kudikidappukaran* secures any mortgage with permission over the land in which the *kudikidappu* is situated his *kudikidappu* right shall revive on the redemption of the mortgage, provided that he has at the time of the redemption neither a homestead nor any land, either as owner or as tenant in possession, on which he could erect a homestead. No *kudikidappukaran* shall be evicted from his *kudikidappu* except on the ground that he has alienated his right of *kudikidappu* to another person or he has rented or leased out his *kudikidappu* to another person or he has ceased to reside in the *kudikidappu* continuously for a period of two years or he has another *kudikidappu* or has obtained ownership and possession of land for erecting a homestead. A *kudikidappukaran* shall not be deemed to have ceased to reside in a *kudikidappu* notwithstanding the fact that he was not actually residing therein if any of his near relatives viz., husband or wife, children, grandchildren, father, mother, brother or sister who was residing with him in the *kudikidappu* for a continuous period of not less than one year continues to reside in the *kudikidappu*. A person in possession of the land on which there is a homestead or hut in the occupation of a *kudikidappukaran* may, if he *bona fide* requires the land for building purpose for himself or any member of his family including major sons and daughters or for purposes in connection with a town planning scheme approved by the competent authority or for any industrial purpose require the *kudikidappukaran* to shift to a new site belonging to him subject to the following conditions:—

(i) the landowner shall pay to the *kudikidappukaran* the price of the homestead, if any, erected by the *kudikidappukaran*;

(ii) the new site shall be fit for erecting a homestead and shall be within a distance of one mile from the existing *kudikidappu*

(iii) the extent of the new site shall be the extent of the *kudikidappu* subject to a minimum of 3 cents and a maximum of 10 cents and

(iv) the landholder shall transfer ownership and possession of a new site to the *kudikidappukaran* and shall pay him the reasonable cost of shifting the *kudikidappu* to the new site.

Where the above conditions are complied with the *kudikidappukaran* shall be bound to shift to the new site.

64. Where a person does not hold more than 25 cents of land and there is a hut in the occupation of a *kudikidappukaran* on such land he may, if he requires the land occupied by such hut for constructing a building for his own residence apply to the Government for acquisition of land to which the *kudikidappu* may be shifted whereupon Government after collecting the cost of acquisition from the applicant may acquire the land and give possession of the land to the *kudikidappukaran* and require him to shift to the said land. The *kudikidappukaran* shall then be bound to shift to the new site. But he will be entitled to the expenses as determined by an officer authorised by Government to be reasonably required to shift to the new site. The site acquired for the purpose shall be subject to a minimum of 3 cents and a maximum of 10 cents. Again, where the owner of the land in which there is a *kudikidappu* considers that the *kudikidappu* is so located as to cause inconvenience to him he may require the *kudikidappukaran* to shift to another part of his land provided that the site to which the *kudikidappu* is required to be shifted is fit for the location of the *kudikidappu* and the owner of the land transfers to the *kudikidappukaran* ownership and possession of land equal to the extent of the existing *kudikidappu* subject to a minimum of 3 cents and a maximum of 10 cents and pay the price of the homestead, if any, erected by the *kudikidappukaran* and the cost of shifting the *kudikidappu*. The Act scales down the arrears of rent payable by a *kudikidappukaran* to one year's rent or the actual amount in arrears whichever is less and fixes the maximum of the future rent.

Restriction on ownership and possession of land in excess of ceiling area and disposal of excess lands

65. The next salient provisions of the Act relate to the ceiling of ownership and possession of land and the disposal of excess lands. These provisions have not been enforced so far. Subject to the exemptions given under Section 81 of the Act the ceiling area of land has been fixed to be 12 standard acres in the case of an adult unmarried person or a family consisting of not more than 5 members; and 12 standard acres increased by one standard acre for each member in excess of 5, so however that the total extent of ceiling area shall not exceed 20 standard acres in the case of a family consisting of more than 5 members. The ceiling area shall in no case be less than 15 acres in extent or more than 36 acres in extent. All the lands owned or held individually by the members of a family or jointly by some or all of the members of such family shall be deemed to be owned or held by the family. In calculating the extent of land owned or held by a family or an adult unmarried person the shares of the members of the family or the adult unmarried person, as the case may be, in the lands owned or held by a co-operative society or by an institution or by a joint family shall be taken into account. Where a person has two or more legally wedded wives living, the husband, one of the wives named by him for the purpose and their unmarried minor children shall be deemed to be one family; and the other wife or each of the other wives and their unmarried minor children shall be deemed to be a separate family. An adult unmarried person shall include a divorced husband or divorced wife who has not remarried, provided that if such divorced husband or divorced wife is the guardian of any unmarried minor child, he or she together with such unmarried minor child shall be deemed to be a family. It shall be lawful for any adult member in a family to own or hold land in excess of the ceiling area to the extent necessary to make up the ceiling area of his lineal descendants other than his minor unmarried children who are alive on the date notified under sub-section (i) of Section 83 and who would inherit his lands on his death provided that the aforesaid adult member shall take into account all acquisitions of lands or interests in land made by such lineal descendants or the members of their families for fixing the total extent that such adult member shall be entitled to own or hold from time to time and shall be bound to surrender the excess. In the case of lineal descendants who are members of other families the ceiling area shall be that applicable to their families. Where a family or an adult unmarried person owns or holds land in excess of the ceiling area on the notified date such excess land shall be surrendered by the person

who is competent to do so within such time and to such authority as may be prescribed. Where, however, any person who *bona fide* believes that the ownership or possession of any land owned or held by him or by the members of his family is liable to be purchased by the cultivating tenant or to be resumed by the landowner or the intermediary under provisions of this Act, the extent of the land so liable to be purchased or to be resumed shall not be taken into account in calculating the extent of land to be surrendered. The Land Board is to finally determine the extent of land liable to be surrendered. Where ownership or possession or both of any land is surrendered by or assumed from a person or is vested in the Government under Section 86 or 87 such person shall be entitled to compensation. Where the rights of an intermediary are extinguished, such intermediary shall also be entitled to compensation. The compensation payable to an owner for the surrender or assumption of ownership and possession of land shall be 55 per cent of the market value of the land and improvements, if any, thereon. The compensation payable to the landowner, the intermediary or cultivating tenant for the surrender, assumption, vesting in the Government or extinguishment of their rights shall be the portion of 55 per cent of the market value of the land and improvements, if any, thereon that will fall to his share if such values are apportioned among the landowner, cultivating tenant and intermediary, if any, in respect of the land according to the following provisions

(1) the portion of the compensation for any building or other improvements shall be set apart to the person to whom such building or other improvement belongs;

(2) ninety per cent of the portion of the compensation for the site of any homestead or hut in the occupation of a *kudikidappukaran* shall be deducted from the total amount of compensation;

(3) the balance remaining after deducting the amounts referred to in clauses (i) and (ii) shall be apportioned among the landowner, the intermediaries and the cultivating tenant in proportion to the profits derivable by them from the land immediately before the surrender, assumption or vesting in the Government, as the case may be. "Profits derivable from the land" shall be deemed to be equal to (i) in the case of a landowner, the rent which he was entitled to get from the tenant holding immediately under him; (ii) in the case of an intermediary, the difference between the rent which he was entitled to get from his tenant and the rent for which he was liable to his landlord; and (iii) in the case of a cultivating tenant the difference between the net income and the rent payable by him. The rent payable by the cultivating tenant and the intermediary for this purpose shall be as calculated under the provisions of this Act.

(4) Where a mortgagee in possession surrenders possession of the land mortgaged to him;

(i) where the ownership of the land mortgaged has been surrendered by the owner of the land, the mortgagee shall be treated as a holder of an encumbrance in respect of the land, and the encumbrance shall be discharged as provided in Sections 91 and 92;

(ii) in other cases, the Government shall pay to the mortgagee the amount to which he would have been entitled under clause (1) if the ownership of the land mortgaged had been surrendered to the Government, and hold the land as mortgagee with possession with all the rights and liabilities of the mortgagee.

60. The compensation or the amount of encumbrance, as the case may be, shall be paid either in cash or negotiable bond redeemable in 16 years and carrying interest at the rate of $4\frac{1}{2}$ per cent per annum with effect from the date on which the ownership or possession or both of the land has or have vested in the Government under Section 86 or Section 87 or partly in cash and partly in such bonds in such manner as may be prescribed. The Act also makes provision for payment of advance towards compensation. Where the landowner whose ownership of land is vested in the Government or the intermediary whose rights are extinguished under sub-section 4 of Section 86 was a small holder and the cultivating tenant of the holding was entitled to fixity of tenure immediately before 21st January 1961 under any law then in force the ownership or possession or both of such land vested in the Government shall be assigned to such small holder. Where there are more than one such small holder in respect of such land the small holder nearest to the cultivating tenant shall have priority for such assignment. The purchase price payable by the the small holder for assignment of the ownership or possession or both of the land shall be 55 per cent of the market value of such rights. The purchase price shall be payable either in a lump or 16 equal annual instalments. Any person who does not possess any land or possesses only less than 5 acres of land in extent may apply to the Land Board for assignment on registry of lands to him. The Land Board shall,

after reserving in each village the lands necessary for public purposes, assign on registry the remaining lands vested in the Government as specified below:—

(1) The holdings in which there are *kudikidappukars* shall, as far as possible, be assigned to such *kudikidappukars;*

(2) out of the remaining area available for assignment;

(a) fifty per cent shall be assigned to the landless agricultural labourers of which one-half shall be assigned to the landless agricultural labourers belonging to Scheduled Castes or Scheduled Tribes residing in the same village or adjacent villages;

(b) twenty-five per cent shall be assigned to small holders and other landlords who are not entitled to resume any land;

(c) the remaining twenty-five per cent shall be assigned to the cultivators who do not possess more than 5 acres of land in extent. In assigning lands under this sub-section to the persons specified in sub-clauses (a), (b), and (c), above, first preference shall be given to ex-servicemen belonging to the respective classes, and, subject as above, preference shall be given to co-operative societies formed by persons specified in the respective sub-clauses. Where the excess land that is available for assignment is either *kayal* or *kole nilam,* such land shall be assigned only to co-operative societies formed by landless agricultural labourers. For the above purpose a *kudikidappukaran* or a tenant of a *kudiyiruppu* shall be deemed to be a landless agricultural labourer if he does not possess any other land.

(3) The Land Board shall not assign to any person more than 5 acres in extent of land. Where a person possesses any land, only so much land as will make the extent of land in his possession five acres shall be assigned to him.

67. The purchase price of land assigned on registry shall be an amount equal to 55 per cent of the market value of the land and improvements, if any, thereof and shall be payable either in lump or in 16 equal annual instalments. The assignment shall be made on payment of the purchase price either in lump or the first instalment thereof. Where the purchase price is payable in instalments, the amount outstanding after payment of each instalment shall bear interest at the rate of 4½ per cent per annum. The Land Board shall, subject to such rules as may be made by Government in this behalf, manage the lands vested in them until they are assigned under Sections 94 and 96 by making arrangement for their cultivation and protection. The Act has invalidated certain voluntary transfers effected after the date of publication of the Kerala Land Reforms Bill, 1963, in the Gazette.

68. From the nature of the provisions of the Kerala Land Reforms Act, 1963, it would be seen that this statute does not affect land tenures not specifically mentioned in it. Such tenures are not, therefore, affected by the Kerala Land Reforms Act, 1963.

Agriculture

69. The cultivation of soil forms the occupation of an immense majority of the people of the district, as indeed in other parts of the State. This district has 8.38 per cent of the cropped area of Kerala State. The following statement gives the classification of land in the district for the period 1955-56 to 1960-61.

Statement 5

LAND UTILISATION *

Classification of land	Area in acres					
	1955-56	1956-57	1957-58	1958-59	1959-60	1960-61

Percentage of cropped area of the district to the total cropped area of the State	8.05	8.13	8.47	8.38	8.31	8.38

Paddy, cocoanut, cashewnut, tapioca are the chief crops of this district.

(a) Paddy

73. Paddy is by far the most important food crop and occupies about 52 per cent of the cropped area of the district. The area and production of area in 1960-61 come to 13.1 and 11.8 per cent of the total area and production of paddy in the State respectively. Paddy is cultivated in three seasons in an year viz., Autumn (*Kanni* or *Viruppu*) Winter (*Kumbhom* or *Mundakan*) and Summer (*Punja*). The first crop is purely a rainfed crop. The seeds are sown in May and harvested during the months of August, September or October largely depending upon the variety of seeds sown. In the low lying paddy fields transplantation takes place in June-July. Crops sometimes suffer very much due to heavy rain, and the resultant high flood and sometimes due to insufficient and irregular rains. Sowing of seeds of Mundakan crop starts in the montn of August while its harvesting period begins in the month of December. Generally the crop fails in the event of failure of north-east or retreating monsoon. The period of the *punja* or the third crop is between January and April, the driest period of the year. During this season germinated seeds are directly sown in the paddy fields, already ploughed and puddled. An important feature of the paddy cultivation of this district is the '*kole*' cultivation. The area brought under the '*kole*' cultivation comes to about 25 sq. miles and it is distributed among Chowghat, Trichur and Mukundapuram taluks. In the Malabar District Gazetteer it is described thus:- "At the close of the rains the water which in the monsoon is ten or twelve feet deep is drained off the portions to be cultivated into the numerous channels, which, separated from fields or *kolas* by substantial fences of watties and mud intersect the lake, by means of mechanically operated pumps. Agricultural operations begin in November and the fences are repaired and strengthened. The water is then drained off, until the fields are ready for the plough and seedlings can be planted out. As the season advances and the sun grows hotter, water has to be pumped back from the channels into the fields to save the crops from withering; but with the first thunder showers in April, harbingers of the south-west monsoon, the struggle with the rising floods begins again; and it is only by ceaseless labour day and night that the water can be kept under control and the crops saved. The soil in the bed of the lake is largely silt brought down by rivers and streams from the surrounding high country and splendid crops not seldom reward this remarkable industry. But the cost of cultivation is very high and the crops is extremely precarious. At times the fences are breached by an early burst of the monsoon, and the ripening crop is drowned, and often a large area is reaped simply by heading the stalks from boats". The present cultivation method in the *kole* lands as described in the Village Survey Monograph on Anthicad (1961 Census) is reproduced below:-"With the laterite soil brought in boats from the eastern villages the bunds are constructed in the beginning of December. After the installation of the pump sets the dewatering operation is started by about 15th December and completed by the first week of February. On an average one horse power is required for dewatering 8 acres of *kole*. The water level in the canal is kept at the optimum point by suitably opening or closing the strikes or Enammakkal regulator. The land is ploughed twice and the field left for aeration for about two weeks. The fields get dried during this period since summer has already started A little water is now let in and the land harrowed twice with a toothed harrow and germinated seeds broadcasted at the rate of 10 *paras* (1 *para*=800 cubic inches) per acre. The most suitable seeds for the type of soil available in the *kole* land is a variety locally called *cheera* another variety called *chemmavu* and Pls 10 (*Thekkencheera*). Four days before sowing, the seed is put in a screw-pine basket and kept immersed in water for 24 hours. Then it is taken out from water and kept somewhere for three days mounting weights on it Just before sowing it is spread out on the ground and water sprinkled. By this time the seeds would have germinated. The sowing is done in about 3 inches of water which, however, shall be pumped out after 24 hours from sowing. The field is kept dry for 10 to 12 days during which period the seeds sprout and healthy seedlings shoot out four or five leaves each. Now water is again let in and the level maintained until a week before harvesting. The maintenance of water level is necessary not only to sustain the growth of the paddy plants but also to suppress a type of weed called *mangu* which is common in *kole* lands. Between 25th and 30th day after sowing a weeding operation is carried out and manure at the rate of 1½ to 2 cwts. per acre applied. Experts are of the view that it is better to apply the manure in two instalments, one after the weeding and the second at the time of flowering, but this practice has been adopted only by

some of the progressive cultivators. Application of half-baked lime is highly recommended by the Agriculture Department in order to counter the acidity of the soil but as in Kuttanad this advice has not been taken very seriously. Even in the absence of any manuring, the *kole* lands yield a rich crop ranging from 10 to 14 fold on account of the silt deposit received every year and the consequent high organic content of the soil. If manure is applied at the proper dosage the yield is enhanced even to 20 fold in many areas. The water stored in the canal is exhausted very quickly but now the flow from Peechi dam takes over and keeps up the level in the paddy fields. All the seeds adopted in *kole* cultivation are short term ones and generally can be harvested after three months. Therefore, the harvest falls towards the end of April, well before the monsoon".

74. The crop-cutting surveys conducted by the State Statistics Department gives the following results in respect of area and yield per acre of paddy and production of rice in tons for the agricultural year ending with June 1961.

* Source:—Department of Statistics, Kerala

75. In 1089 M. E. (1913-14) the Government of Cochin have started three Demonstration farms at Irinjalakuda, Viyyur, and Wadakkanchery. The Government opened the Central Farm at Ollukara in 1916-17 to demonstrate scientific and improved farming practices by use of improved implements and scienti-

fic techniques to distribute elite planting meterial of all plants to the cultivators and to conduct research work on various cultivation and manurial problems.

76. Elaborate research works for the evolution of improved strains of paddy suitable for the different regions with particular emphasis on the control of pests, diseases etc., were started from 1958-59 onwards. The results of the experiments conducted on paddy in 1958-59 is as follows*:—

Pure Line Selection

(i) Single plant selection

484 single plants from bulk planting of Cheradi, a popular second crop variety of mid-laterite belt was selected based on earliness, panicle length, number of effective tillers, etc. The selection was carried over to the succeeding years for further studies.

(ii) Progeny row trial

(a) First crop—60 cultures of Alwaye Aryan, 50 of local Aryan, 46 of Vattan, 103 of Chembavu, 82 of Kolappala and 80 of Vellarel were under progeny row trial during the first crop season of the year. Based on general mean of the cultures including the standards, 16 cultures from the Alwaye Aryan, 15, local Aryan, 8 from Vattan and 19 each from Chembavu and Vellarel were carried forward for preliminary yield trial next year. Since the cultures of Kolappala did not perform better than the standard these were proposed to be repeated under progeny row next year.

(b) Second Crop

Tirinjavella (70 cultures), Kochadi Karaya (68 cultures) were under road row trial. 30 cultures from each of these were carried forward for further trial in the second crop season of the next year.

(iii) Preliminary yield trial

Twelve cultures of local Aryan, 14 of Chembavu and 20 of Vattan were under preliminary yield trial during the first crop of the year under report. Mean yield of cultures of Chembavu and local Aryan were not statistically significant while that Vattan had given significant result. Twenty-four cultures of Chembavu, 23 of Chitteni and 18 of Athiyan were under preliminary yield trial during the second crop season. Treatment effects were significant only in chembavu and Athiyan. Since Chetteni cultures did not give significant difference the trial was proposed to be repeated. Seventeen types which were found coming up well in observational trials were put under trial in 3 series, Out of the three, the treatment effects were significant in two, but the difference in yields between the types were below C.D. and hence the experiments are to be repeated for confirmation. The types in these series are given below:—

Ist series—PTB. 21, SM. 26, Mundakutty, Sarkarkutty, Chitteni and Cherumaniyan. PTB. 21 was the best among the lot.

IInd series—The types included in this series were PTB. 18, Mundakakutty, Nellodan, Mundakankutty. Mundakankutty performed best and significantly different from others while the remaining types were on par.

III series- Thekken cheera, Mundakakutty, Vallakoli, PTB. 10 and PTB. 16 were the types studied. The treatment effects were not significant.

(iv) Varietal trials

(a) First crop varieties have beeen classified into 4 main groups according to the duration, i.e., early, lower medium, medium and late.

Ist Group	CK. 10, TKM. 6, PTB. 10, PTB. 28, PTB. 31, ADR. 10 and CH. 62
2nd Group	PTB. 7, OTB. 22, PTB. 23, PTB. 24. PTB. 25, ADR. 14, Vattan and Chembavu
3rd Group	PTB. 8, PTB. 9, PTB. 26, PTB. 32, MO. 1, and Local Thavalakannan
4th Group	PTB.1, PTB. 2, Alwaye Aryan, Local Aryan

PTB. 10 which gave the maximum yield (1,136 lb. per acre) was found to be superior to all other strains in the Ist group, PTB. 7 (2,411 lb. per acre) in the second group PTB. 9 and 32 (1,977 lb. and 1,944 lb. per acre) on par but outyielding others in the third group and PTB. 2 (2,657 lb. per acre) in the 4th group.

(b) Second crop varieties have beeen grouped into two series:—

Series I PTB. 12, Chittani, PTB. 20, Chembavu, PTB. 28, GEB. 24, and PTB. 21

* Administration Report of Agricultural Department 1958-59 Page 26-28

Series II PTB. 4, 16, 27, 33, UR. 19, Athiyan and chitteni.

Chembavu (2,708 lb. per acre) was found to be superior to all other strains except PTB. 21 in series I and PTB. 4 (2,572 lb. per acre) was observed to be superior to all other and significantly different from others in series II. The trials are proposed to be continued next year also for confirmatory result.

(v) Hybridization

(a) First crop To induce dormancy in PTB.10 a popular cosmopolitan strain throughout the State an hybridization scheme with PTB. 10 and Kochuvithur was started. The F. C. crossed seeds, 35 in numbers were collected for further studies.

(b) Second crop UR.19 although a very good yielder and popular in Onattukara is highly su-sceptible to blast. Co. 4 is a resistan strain but unsuitable for direct cultivation in this region. With a view to transfer the resistance of Co. 4 to UR 19 a programme of crossing of these was initiated. The crossed seeds 20 in number were collected for further studies.

(vi) Agronomic trials:— In order to test the performances of Sahasralingam a season bound variety of profuse tillering habit and reported to yield as much as the combined yield of first and second crops of other varieties an experiment was laid out for the first time with the following treatments replicated 8 times.

(1) Normal Virippu cropping with PTB. 7 during Virippu and Chitteni during Mundakan season

(2) Sahasralingam sown in April-May planted in July-August

(3) Normal Virippu crop with PTB. 7 followed by Sahasralingam planted as a second crop

(4) Planting of mixed crop of Sahasralingam and usual PTB. 7 with seedlings raised in the nursery mixing seeds of Sahasralingam and PTB. 7 in the ratio of 1:3.

Treatment 4, i. e., planting mixed seedlings of Sahasralingam and PTB. 7 gave the maximum yield (3,578 lb. per acre) followed by 3, 2 and 1.

(b) Cocoanut

77. Economically the most important crop, the cocoanut palm grows practically in all areas of the district. Cocoanut palm, otherwise known as *Deva vriksham* or *Kalpavriksham* thrives best on the alluvial deposits of silt and sand found on the coast in the vicinity of estuaries and backwaters but it also flourishes with careful cultivation on the lower slopes of laterite hills of the interior which dominate the paddy fields. This district has a total area of 88,898 acres under cocoanut cultivation coming 7.2 per cent of the State area under cocoanuts in 1960-61. In the same year the district has produced 231 million nuts.

78. A sample survey (2nd round) sponsored by the Indian Central Cocoanut Committee was conducted by the State Statistics Department during 1960—61. According to the preliminary report of the survey the area under cocoanut cultivation of this district comes to 12.7 per cent of the total area under cocoanuts in the State. There is considerable variation between the official figures furnished in the previous paragraph and the estimated survey figures. The survey gave the following results on the average annual yield and income from an acre of pure cocoanut plot in this district:—

Average number of bearing palm per acre	60
Average yield from a bearing palm	35
Total yield from an acre	2,100
Price of 100 cocoanuts	Rs. 23.50
Total income from an acre of pure plot	Rs 493.50

79. The month-wise production of cocoanuts reduced to percentages for this district for 1960-61 are as follows:—

Statement 12

MONTH-WISE PERCENTAGE OF PRODUCTION

Month	Percentage of production
Total	100.00
July 1960	2.74
August ,,	4.39
September ,,	6.33
October ,,	5.85
November ,,	6.39
December ,,	7.55
January 1961	9.64
February ,,	12.35
March ,,	16.49
April ,,	10.75
May ,,	10.48
June ,,	7.04

80. 62.7 per cent of the total cocoanut palms are of bearing status, while the rest belong to the non-bearing group. The following statement presents the distribution of cocoanut palms with respect to age and bearing status reduced to percentages. The number of palms taken for the detailed study is about 7,000.

Statement 13

PERCENTAGE DISTRIBUTION OF COCOANUT PALMS BY BEARING STATUS

Age-group of palm	Percentage distribution		
	Total	Bearing	Non-bearing
Below 5 years	26.26	..	26.26
5— 9 ,,	11.36	2.90	8.46
10—14 ,,	11.63	10.24	1.39
15—19 ,,	2.38	1.90	0.43
20 years and above	48.37	47.67	0.70

81. The subjoined statement gives the various methods of disposal of cocoanuts in the district:—

Statement 14

PERCENTAGE OF HARVESTED PRODUCE USED FOR VARIOUS PURPOSES

Type of disposal	Percentage of total harvested produce
Total	**100.00**
i Home consumption	8.45
ii Religious purpose	0.79
iii Sold as cocoanuts	88.49
iv Converted into copra	0.86
v Other purposes	1.41

(c) Cashewnut

82. Cashewnut is one of the profitable dried fruits of the district. 'Cashew, the french transilteration of the Native Brazilian word *akaju*, is applied in India and Ceylon to the valuable species botanically known as *Anacardium occidentale*. During the ascendancy of the Portuguese in the East, under the name *Kaja*, which is now universal, it was introduced by them from the tropical sea-board of the north-east of the continent of South America to the fertile maritime districts of Western India..... It got naturalised in process of time to the granite sands, laterite earths, and alluvial silts of western India in an atmosphere of charged with warmth and moisture and has runeven wild throughout the forests of the plains that border the Arabian Sea.'* This tree practically grows in all parts of the district and particularly in Talappilly, Trichur and Mukundapuram taluks. This district ranks third in the State in respect of area and production of cashewnut the other districts being Kozhikode and Quilon. This district has an area of 21, 949 acres and a production of 13,622 tons. The harvesting period of cashewnuts begins in February and extends up to May. The peak season is March-April. The main processing centres of cashewnuts in this district are Trichur, Irinjalakuda and Kunnamkulam.

(d) Tapioca

83. Next in importance to rice, tapioca forms the chief staple food of the people of this district. This district has 18,860 acres under tapioca cultivation in 1960-61 which comes to 3.15 per cent of the total area under tapioca in the State. This important tuber crop thrives in all kinds of soils. This district has produced 52, 201 tons of tapioca in 1960-61 against the State production of 16,56,500 tons.

(e) Rubber

84. The cultivation of rubber was first introduced into this district in 1905 with the opening of the plantation in the Palappilly forests. It was followed by the starting of new plantations at Vellanikkara. Slowly but steadily the area of cultivation of rubber has increased. At present (in 1960-61) this district has an area of 15,469 acres under rubber with a production of 2,358 tons.

85. A table showing the production of important crops is given as appendix 4. The consumer price index numbers are furnished in appendix 5 and the prices of important commodities are given in appendix 6.

Irrigation

86. The important irrigation projects are Cheerakuzhi, Vazhani, Peechi and Chalakudi.

87. The Cheerakuzhi irrigation scheme envisages three schemes. The construction of a river regulator (open weir) across the Cheerakuzhi (Gayathri) river at Kuzhippillipra, about a mile upstream of Cheerakuzhi Bridge, is the first among them. A head regulator at the off-take of the main canal in the left bank

* The Travancore State Manual V. Nagam Aiya, Vol. II, Page 56

is the second important scheme on this project. The main canal in the left bank of the river has a length of 15⅜ miles. The length of branch canals comes to 23½ miles. These channels with a net work of distributaries when completed will irrigate the paddy fields of Killimangalam, Venganellur, Panjal, Pynkulam, Cheruthuruthy, Nedumpara and Desamangalam villages of Talappilly taluk.

88. The construction work of Vazhani, the only irrigation dam intended to benefit almost the entire lands in the Keecheri river basin, was completed and inaugurated on December 6, 1959. This earthen dam 85 feet high with a length of 2,440 feet was constructed across the Keecheri (Wadakkancherry) river at a place called Vazhani, 7 miles east of Wadakkancherry railway station. The only main canal, i. e. left bank main canal, has a length of 23 miles 7 furlongs while the total length of branch canals comes to 14 miles It has a total ayacut of 12,800 acres.

89. The construction work of Peechi Irrigation Dam across the Manali river, tributary of Karuvannur river, was originally started by the Cochin Government in 1947 and after the integration of the princely States of Travancore and Cochin this scheme was included in the First Five Year Plan. The water was first set out from this dam for irrigation in 1953 and the full storage of the reservoir was obtained in July 1957. This gravity masonry dam has a length of 750 feet, a height of 132 feet above the deepest foundation and a storage capacity of 3,900 million cubic feet. This project has two main canals viz., right bank canal and left bank canal. The right bank canal has a length of 23 miles with a bed width of 12 feet. The total length of the branch canals comes to 47 miles. The main left bank canal has a length of 28 miles with a bed width of 12 feet 9 inches. The area benefited by this project is 46,000 acres of which 20,000 acres of *kole* lands, 10,000 acres of double crop lands, 4,000 acres of single crop lands and 12,000 acres of waste lands. Peechi with its beautiful gardens and parks with attractive fountains and cascades and the artificial swimming pool, is also an important holiday resort.

90. Another major irrigation scheme is the Chalakudi Irrigation Scheme, the construction of which was started in 1949. The purpose of this scheme is to divert the water of the Chalakudi river for supporting the existing paddy cultivation and to aid the conversion of large areas of dry lands on either side of the river into paddy fields. The scheme is intended to benefit the Mukundapuram and Alwaye taluks. This scheme is carried out in two stages. The first stage consists of the execution of all the works on the two banks of the river to the east of the Cochin-Shoranur railway line, while the second stage consists of the extention of the canal system to areas lying to the west of the railway line. The first stage which was taken up during the First Five Year Plan consists of the construction of a weir across the river located at Tumbermuzhi, 11 miles east of Chalakudi, and a portion of the canal system to irrigate an area of 28,400 acres. The canal system constructed during the first stage was 35 miles of main canals and 93 miles out of 101 miles of branch canals. During the Second Five Year Plan the balance of 8 miles of branch canals of the first stage of construction and other minor improvements were done besides the Second stage construction work of 17 miles of main canal and 61 miles of branch canals intended to benefit an area of 26,250 acres By the end of 1957-58 almost all the items of work had been completed.

91. Besides the above major schemes there are a number of medium, minor and lift-irrigation schemes. Muriyad, Moorkanad canal (Mukundapuram taluk, area benefited 6,000 acres), Illikkal regulator (Talappilly and Chowghat taluks, area benefited 400 acres) and Kandikulam Padam (Talappilly taluk, area benefited 200 acres) are the completed medium irrigation schemes.

Live-stock

92. The following statement gives the number of live-stock and poultry according to the 1961 Census for the district:-

Statement 15

LIVE-STOCK AND POULTRY, 1961*

Category		1961 Live-stock Census	Percentage
Total Live-stock		**405,383**	**100.00**
I CATTLE	TOTAL	207,681	51.23

*Source:— Department of Animal Husbandry, Kerala

93. A detailed taluk-wise classification of the live-stock and poultry as per the 1961 Live-stock Census is given in appendix 7. Another table giving the taluk wise figures of agricultural machinery and implements is furnished in appendix 8.

Educational Institutions

(a) General Education

94. The system of State education on modern lines was started during the time of Col. Munro. At his instance a proclamation was issued in 1818 establishing 33 Malayalam schools, one in each village 'with the avowed object of training up young men for State service as writers and accountants'. In 1832 these Sirkar Vernacular schools were abolished 'because they were not an improvement on the old village schools'. In 1835 Dewan Sankarasubbayya established six Malayalam schools, one in each taluk; though they were soon eclipsed by English schools they lingered on till 1890. The first English school in the district was opened in 1837. By 1875 Government English schools were started in all important centres in the district such as Irinjalakuda and Kunnamkulam. These schools were gradually raised to Lower Secondary schools and later on to High Schools. The first Sirkar Girls school was opened in 1887 at Trichur in commemoration on the Jubilee of Queen Victoria. The decision to give grants-in-aid to private agencies in 1889 encouraged the starting of several private, primary and secondary schools. The educational reforms introduced in the present century in the district is described in the *Trichur District Gazetteer* as follows: 'In 1911 there were eight upper secondary schools in the present Trichur district of which 5 were Sirkar schools, two aided and one an unaided one. One of the Sirkar schools was a Girls High School. Apart from these upper secondary schools, there were many lower secondary, primary and special schools run by both the Government and private agencies. The special schools offered instruction in needle-work, mat-making, embroidery, rosary-making, shoe-making, lace-making etc. Towards the end of 1910 a good beginning was made in the direction of Technical Education by the opening of a Government Industrial and Technical school at Trichur. Female education also received special attention. With a view to ensuring continuity of policy in educational matters and to placing the department on a sound footing, an Education Code containing full and clear instruction for the guidance of all branches of the Department was drawn up in 1911 by the Cochin Government. The working of the code in succeeding years showed very satisfactory results and the number of schools and scholars showed an appreciable increase. The period between 1911 and 1932 forms another important period in the history of educational progress in the district. Expenditure in connection with education increased considerably and the number of schools and pupils showed an upward trend. In 1921 the Cochin Education Code was revised by a special committee. Private agencies were encouraged to open and maintain schools, especially those intended for primary education. Secondary education made rapid progress. Various changes were made in the curriculam of studies by introducing several new subjects such as Botany, Agriculture and Typewriting in the school final scheme and students were encouraged to take them as optionals. A beginning was made in the Dalton plan of work which had been introduced in the upper secondary forms of the Sirkar Boys High school, Trichur and in some of the other high schools in the district and the pupils as well as the guardians expressed general satisfaction with its working. At the same time medical inspection of school children was introduced in all the high schools in the district. Again, students' co-operative societies were started in most of the secondary schools in order to create a spirit of co-operation among the school children. The Boy Scout movement was formally inaugurated

in 1923 with His Highness the Maharaja of Cochin as Patron and Chief Scout. The expansion of primary education among the masses received considerable attention of Government during the period. The number of primary schools, both Sirkar and private, has increased very much. The maintenance of separate institutions for boys and girls was discouraged and boys and girls were freely admitted in the same schools. With a view to giving vocational instruction to school children, a number of Rural Industrial Schools were opened throughout the district In these schools those pupils who passed out of the primary schools were given instruction in cottage industries suitable to the locality'. The educational system has undergone remarkable changes during the last decade especially after the formation of Kerala State. The duration of school course was raised from 11 to 12 years in 1956-57. Thus, the primary grade covered by the first eight standards, the initial five being lower primary, while the rest upper primary. Standards IX to XII constituted the secondary grade. The admission to schools was restricted to pupils who attained the age of 5½ or over in 1958-59. During this year the number of years of primary education was once again reduced from 8 to 7 thus re-introducing the 11 year duration of course again. In 1959-60 ten year course of study was introduced by admitting pupils who had passed the new IV and V standards of primary schools to the VI standard. The upper primary sections of high schools were permitted to conduct standard V eventhough standard V was allowed to continue in certain primary schools. At present standards I to IV constitute the lower primary section , while standards V to VII t he upper primary. The secondary school has standards VIII to X.

95. Out of 16 lakhs of persons in the district about half of them are literate and educated persons. Of those 433,028 are males and 361,754 are females. This gives a literacy percentage of 48.47 for total, 55.18 for males and 42.30 for females.

96. The following statement gives the number of school-going children by age-groups for this district during the academic years 1950-51, 1955-56 and 1960-61.

Statement 16

SCHOOL-GOING CHILDREN*

Age-group	1950-51	1955-56	1960-61

(b) Higher Education

99. This district has nine colleges affiliated to the University of Kerala in 1960-61. Of these 5 are Arts and Science Colleges, 3 are Professional Colleges and a Sanskrit College. The oldest Arts and Science College in the district is the St. Thomas College, Trichur. On 3rd June 1919 this college was opened as a Second Grade College in Arts, affiliated to the University of Madras with 93 students and 5 members on the staff. The Rt. Rev. Dr. John Menacherry, Vicar Apostalic

of Trichur was its Patron and founder. In 1925 it was upgraded as a First Grade College. In 1957 this College was affiliated to the University of Kerala. This college has a good library containing more than 15,000 volumes. The St. Mary's College, Trichur which began in 1946, was affiliated to the University of Madras till 1957. This First Grade College for women is conducted by the Carmelite Sisters of the Trichur Diocese and is administered by a managing committee consisting of eight members. The college was affiliated to the University of Kerala in 1957. The total strength of students has increased from 194 in 1946 to 808 in 1960. At present this college provides hostel accommodation for 375 students. The Kerala Varma College, Trichur, was started on 17th August 1947 with the temporary affiliation granted by the Madras University. The administration of the college was under a committee but in December 1947 it was transferred from the committee to a senatus called the 'Sree Kerala Varma College Senatus'. The Cochin Devaswam Department took over this institution on 8th November 1948. With the integration of the Cochin and Travancore States on 1st July 1949 the Cochin Devaswam was placed under a Board and the control of the college was vested in the Board. This college was fully affiliated to the University of Kerala in 1958-59. The Little Flower College, Guruvayur, started on 1st July 1955 with a strength of 72 students, was affiliated to the University of Madras. This college which was housed in the Little Flower Convent High School building was subsequently shifted to the present newly constructed spacious building in July 1956. This institution was affiliated to the University of Kerala in June 1957. In the same year it was elevated to the status of a first Grade College. The strength of the college during 1960-61 stands at 333. The Christ College, Irinjalakuda started in June 1956 is under the management of the Carmelite Fathers. The total strength of the college in 1960-61 is 626 of which 200 students are staying in the college hostels. The Sahitya Deepika Sanskrit College the only institution of its kind in the district, is located at Pavaratty. It was originally started as a village school in April 1909. In 1913 the school got recognition from the Government of Madras to open elementary classes. The first batch of students to the Madras Government Sanskrit Entrance Examination was presented in 1925. In 1932, Sahitya Siromani and Sanskrit Vidwan classes were introduced. The University of Madras gave affiliation to these courses in 1934. In 1938, Malayala Vidwan classes were also opened. This college was affiliated to the University of Kerala in 1957. The Government Training College, Trichur was started in July 1945. On the eve of the integration of Travancore and Cochin States in 1949 the college was closed up as a measure of retrenchmen and it was re-established in 1951 and affiliated to the University of Travancore. The Engineering College, Trichur was established as a Government institution in July 1958. The college offers degree course in Civil Mechanical and Electrical Engineering. This institution was affiliated to the University of Kerala in 1958. The Kerala Veterinary College, Trichur, was originally started in August 1955, attached to the District Agricultural Farm at Mannuthi. After 3 years it was shifted to the present building. The college runs a four year course in Animal Husbandry and Veterinary subjects leading to the Degree of Bachelor of Veterinary Science of the Kerala University. The subjoined statement gives the number of colleges, students and teachers for the period 1950-51 to 1960-61.

A list of colleges as on 1st April, 1961 is furnished as appendix 9.

(C) Professional & Technical Schools

100. The Maharajas Technological Institute, Trichur was established in 1946. This institute provides diploma courses in Civil, Mechanical and Electrical Engineering. The two private polytechnics are situated at Alagappanagar and at Valapad. The Alagappanagar Polytechnic situated 8 miles south of Trichur was established on 13th July 1956. This institution is managed by the Director, Alagappa Chettiar Educational Trust, Karaikudi. It presents students for the diploma in Civil, Electrical and Mechanical Engineering. Sree Rama Polytechnic Valapad located 14 miles away from Trichur town was started on 18th August, 1959. The only Junior Technical School in the district in 1960-61 is situated at Kunnamkulam. The table showing the number of polytechnics with their strength and staff is furnished in appendix 10.

Public Health

101. The Ditsrict Hospital at Trichur, formerly known as the Civil Hospital, is the oldest hospital in the district. It was established on 18th January, 1875. Hospitals at Irinjalakuda and Kunnamkulam were opened in 1888 and in Chalakudy in 1893. The hospital at Chalakudy was converted into a Secondary Health Centre on 18th November, 1953, with a view to intensify the health activities of the Kunnathunad-Chalakudy Community Project areas. Dispensary at Chowghat was founded in 1887. It was upgraded as a Government Hospital in 1957 when it was taken over by the Government from the Malabar District Board. The Maternity Hospital, Trichur was established in 1915. The present Mental Hospital was started as a Lunatic Asylum in 1892. It was converted as a Mental Hospital in 1914. The Leprosy Hospital at Koratty was originally started in 1909 as a Leper Asylum at Venduruthy Island of Ernakulam district. Subsequently it was shifted to Koratty. This institution was taken over by the Government in 1955. The Government dispensary at Kunnamkulam started in 1888 was upgraded as a hospital in 1953. The following statement gives the names of Government allopathic institutions as on Ist April 1961:-

The number of medical institutions, patients treated in various hospitals and dispensaries are furnished in appendix 11.

Vital Statistics

103. The registration of vital statistics was initiated in the old Cochin State in 1071 M. E. (1895-96). The rules were framed and published in the Sirkar Gazette prescribing the method to be adopted in effecting the registration. The registration was carried out by the Proverthy officers. Proverthy was the administrative unit for purposes of registration. In the Chowghat area, which was part of Malabar district, the registration of births and deaths was governed by the Births and Deaths Act of 1899 (Madras Act III of 1899). The primary agency of collecting the vital statistics in this taluk was the village officer, known as Adhikari. The Regulation II of 1905 issued by the Government of Cochin made registration of births and deaths compulsory. In pursuance to this regulation registrars of births and deaths were appointed in 1907. At present the registration in the municipal areas are conducted by the municipal commissioners while for rural areas it is done by the Health Inspectors of the Department of Health Services. The following statement gives the number of births and deaths and their rates for the period 1959 and 1960:—

Statement 22

BIRTH AND DEATH RATES *

Year	Estimated mid-year population*	Number of live births	Birth rate	Number of deaths	Death rate
1959	1,588,714	28,699	18.06	8,255	5.20
1960	1,619,234	27,503	16.99	7,176	4.43

* Population figures are furnished by Registrar General

104. The following statement gives the distribution of deaths according to age-groups:—

Statement 23

DEATHS BY AGE-GROUPS

Age-group	1959	1960
Total	8,255	7,176
Below 1 year	1,310	953
1- 4 years	1,331	1,079
5- 9 ,,	344	291
10-14 ,,	185	146

Other causes	5,838	3.68	4,966	3.07

Electric Power

106. There are two hydro-electric projects in the district viz., Poringalkuthu and Sholayar. The Poringalkuthu Hydro-electric scheme was originally started in 1946 and it contemplates the development of power from the Chalakudy river. The first stage was the construction of a dam and connected water conductor system and installation of 3 generators of 8,000 kw. each. The second stage consists of the installation of the fourth generator of 8,000 kw. thus raising the capacity of the Power House to 32,000 kw. A storage dam of 86 feet high was constructed across the Chalakudy river below Anakayam valley about 28 miles east of Chalakudy. It has a storage capacity of 1,130 million cubic feet. The water from this reservoir is diverted through a tunnel 4,029 feet long and 144 sq. feet in sectional area to a power house located on the left bank of the river by penstocks 2,600 feet long

with a gross head of 595 feet. Water from the penstocks drives the four reaction turbines operating under a gross head of 595 feet. Each of the turbines drives a 8,000 kw. alternator. Four transformers each of 10 MVA-11/66/110 kw. are provided to step up the voltage for transmission to Chalakudy and from there the supply is connected to the State Grid. The project was formally inaugurated and put into commercial use in May 1957. The fourth generating set was put into commercial use from 7th February 1960.

107. The Sholayar Hydro-electric project with an installed capacity of 54,000 kw. is the second power project in the Chalakudy river. This scheme envisages the construction of a 150 feet high masonry dam in the Sholayar, tributary of the Chalakudy river, at a place about one mile from Ambalapara to give a storage reservoir of 4,580 million cubic feet. The water from this reservoir will be directed to a head works consisting of 23 feet high weir 2½miles lower down the river and thence to a short tunnel 1,200 feet long driven across the Ambalapara bridge and dropped in Anakayam valley. The penstock line will be 3,500 feet long will consist of three pipe lines each 58″×52″. The generating station will have 3 generators each 18,000 kw. with necessary transformers and switch gear. The tail water from this scheme which will be about 380 cusecs flow directly into the Poringalkuthu left bank scheme reservoir. This additional flow of water into the reservoir can be made use to develop 15,200 kw. of additional power at Poringalkuthu Left Bank station. The work of construction of the masonry dam was inaugurated on 27th November 1960 and has been in good progress since.

108. The Poringalkuthu Right Bank scheme envisages the construction of a dam further upstream of the present dam at Anakkayam. This scheme with an estimated power potential of 130,000 kw. at 60 per cent load factor is proposed in the Third Five Year Plan. The proposed power station will be located very near to the Left Bank Power Station.

109. The Poringalkuthu Left Bank generating station is connected with Chalakudy by 110 kv. line D. C. operating at 66 kv. The two 66 kv. sub-stations in this district are located at Chalakudy and at Viyyur. 66 kv. sub-stations will be constructed at Cranganore, Puthukad and at Kandassankadavu. The 110 kv. double circuit line connecting Chalakudy with Shoranur is under construction. One circuit of this line will be initially operated at 66 kv. The construction work of 110 kv. sub-station at Chalakudy is under progress.

Communications

110. In 1861, exactly a century back, Francis Day observed about the means of communications in the district as follows: "The usual mode of travelling is by the *Monchel* or Palanquin carried by bearers each of whom receives 4 pies a mile, by bullock or buffaloe carts which are paid one anna 9 pies a mile and by boats of every description from the comfortable cabin to the little snake boat, which can go up very shallow streams[1]". The conditions have since been changed much. For purposes of convenience the communication facilities of this district have been broadly classified as follows:-

(a) Roads

111. At the time of his invasion of the Travancore Lines, Tippu Sultan is said to have constructed a temporary road from Pazhayannur to Chalakudy via. Mullurkara and Trichur for transporting his heavy field pieces. The condition of these roads deteriorated after the retreat of Tippu Sultan. The foundation of the modern development of roads was laid by Dewan Sankara Warrier during the period 1840–56. These roads were only earthen roads and they passed through almost all important places. The road connecting Trichur with Coimbatore was inaugurated in 1844. 'When one fine morning 12 bullock carts laden with goods from Coimbatore arrived at Trichur, where most people had not seen such a conveyance before, there was by all accounts more excitement in the place than when railway train passed through it 58 years later[2]. All the roads constructed under the administration of Sankara Warrier were metalled and improved by his son Dewan Sankunny Menon. The remarkable progress in the construction of roads acheived by these two Dewans were further extended by the able Dewans like P. Rajagopalachari, A. R. Banerji, J. W. Bhore, C. G. Herbert and R. K. Shanmugam Chetty. A road committee was formed in 1914 to formulate a definite policy on the expansion of road construction. Based on the recommendations of this committee many roads were constructed. Of these, roads from Trichur to Kandassankadavu, Triprayar to Enamakkal, Mala to Annamanada and Mala to Krishnankotta are the more important. At present this district has a net work of roads. The subjoined statement gives a classification and the present length of roads:—

1 Land of the Perumals, Francis Day, 1861, P 407
2 Cochin State Manual. C. Achyuta Menon

A polymetric table of distances are furnished in appendix 14

(b) Railways

113. In 1898 the Madras Railway Company on behalf of the Cochin Sirkar undertook the construction of a narrow gauge railway line connecting Shoranur and Ernakulam. The preliminary survey and plans were soon got ready and in October 1899 the Travancore Government was requested to make the necessary acquisition arrangement of the region in which the railway line passes through the Travancore State. The construction was started before the end of 1899 and it took about three years to complete the work. The railway was opened for goods traffic on 2nd June 1902 and for all kinds of traffic on 16th July 1902. The initial cost of construction of this railway line was about Rs. 70 lakhs. Consequent on the development of Cochin Harbour this narrow gauge railway line was converted into a broadgauge railway line during the period 1930-35. It was extended to Cochin Harbour Terminus in 1940. The Southern Railway enters the district at Cheruthuruthy and traverses through Talappilly, Trichur and Mukundapuram taluks. The extreme railway stations of this district are Vettikattiri and Koratty Angadi. Facilities provided at various railway stations are furnished in appendix 15.

(c) Canals

114. The chief canals of this district are Ponnani canal, Conolly canal, Shanmugham canal and Puthenthodu. The Ponnani canal which starts from Ponnani is joined with Chetwai backwaters the length being only 2½ miles. The navigation route from Chetwai to Edathuruthy lies through Kanhirapuzha backwaters. At Edathuruthy, it again enters Conolly canal up to Chenthrapani, 4 miles south. From Chenthrapani to Ala and from Ala to Cochin the navigation route is made up of backwaters. The Shanmugham canal with a length of 4 miles is a branch of the Conolly canal and terminates at Irinjalakuda. The Puthenthodu joins Karanchira with Trichur.

(d) Ports

115. Cranganore, the 'Muziris' of ancient writers was a flourishing port for several centuries but now it has fallen into decay on account of the blocking of the mouth of Periyar river by sand banks and the development of Cochin Harbour.

(e) Postal

116. Most of the villages have post offices. The number of post offices has increased from 258 in 1952-53 to 321 in 1960-61. A list of post offices is furnished in appendix 16.

(f) Telegraph

117. There are altogether 38 telegraph offices in this district. The names of places where they are located along with the year of opening are furnished below:-

§ Long distance public call office

†† Source:— Director of Posts and Telegraphs, Kerala

Cheruthuruthy and Thiruvilwamala long distance public call offices which lie in this district are attached to Shoranur and Ottapalam exchanges respectively. A table showing the number of connections provided during the period 1957-58 to 1960-61 is given separately in appendix 17.

Industries

119. According to the housing and establishment tables based on the houselists prepared in 1960 in connection with the 1961 Census there are 6,022 factories and workshops in the district against 58,365 in the State. The above factories and workshops in the district engage 36,684 workers. The following statement gives the taluk-wise number of industrial establishments in the district:-

Statement 30

DISTRIBUTION OF INDUSTRIAL ESTABLISHMENTS

District/Taluk	Number of industrial establishments			Percentage distribution		
	Total	Rural	Urban	Total	Rural	Urban
Trichur District	**6,022**	**4,393**	**1,629**	**100.00**	**100.00**	**100.00**
Chowghat taluk	1,377	1,035	342	22.86	23.56	20.99
Cranganore ,,	525	525	..	8.72	11.95	..
Mukundapuram taluk	1,316	982	334	21.85	22.35	20.50
Talappilly ,,	773	501	272	12.84	11.41	16.70
Trichur ,,	2,031	1,350	681	33.73	30.73	41.81

The most industrially developed taluk in the district is Trichur. Chowghat and Mukundapuram are the other two taluks which have more than 1,000 industrial establishments.

120. The important ten industries of this district in the order of the volume of employment are furnished below.

1	Manufacture of tiles and bricks	4,828
2	Production of rice, atta, flour etc. by milling, dehusking and processing of crops and food grains	2,626
3	Manufacture of bidi	2,451
4	Manufacture of coir and coir products	2,336
5	Cotton spinning and weaving in mills	2,155
6	Processing of cashewnuts and canning of fruits	1,573
7	Slaughtering and preservation of fish	1,522
8	Production of edible fats and oils	1,385
9	Tailoring	1,228
10	Manufacture of cotton thread	1,200

The manufacture of tiles and bricks is the foremost industry in the district. Mainly depending on the suitability of clay this industry is concentrated in places like Amballur, Karuvannur, Ollur and Pudukad.

121. In the order of the number of industrial establishments, the industries based on food-stuffs and beverages and textiles are the important ones.

(i) Food-stuffs and Beverages

122. Under this broad classification there are two major groups viz, 20 and 21 of the Standard Industrial Classification. The number of industrial establishments with volume of employment as per the Housing and Establishment Tables in this district are furnished in the statement given hereunder.

Statement 31

DISTRIBUTION OF FOOD-STUFFS AND BEVERAGES INDUSTRIES BY TYPE OF WORK AND VOLUME OF EMPLOYMENT

Description	Number of industrial establishments	Volume of employment
Production of copra	261	885
Processing of arecanuts	20	110
Rice mill	490	1,474
Production of rice, flour etc. by handpounding	42	157
Production of gur from sugarcane	2	4
Processing of cashewnuts	4	1,356
Canning of fruits	3	217
Slaughtering of cattle	14	19
Preservation of fish	531	1,503
Bakery	84	268
Production of dairy products	2	2
Oil mill	102	1,254
Extraction of oil by country chuck	40	131
Manufacture of 'aval', 'appalam' etc.	91	290
Manufacture of brandy	1	14
Manufacture of soda water, lemonade etc.	82	204
Manufacture of ice	1	4
Manufacture of ice cream	2	4
Processing of tea	1	74
Processing of coffee	20	54
Manufacture of syrup	1	1

(ii) Textiles

123. Major groups 23 to 27 of the Standard Industrial Classification represent the textile establishments. The number of establishments with the volume of employment under the above major groups as per the Housing and Establishment Tables are given below:-

Statement 32

CLASSIFICATION OF TEXTILE INDUSTRY BY TYPE OF WORK AND VOLUME OF EMPLOYMENT

Description	Number of industrial establishments	Volume of employment
Cotton ginning, cleaning, pressing etc.	2	194
Cotton spinning other than in mills	22	251
Cotton spinning and weaving in mills	1	2,155
Dyeing and bleaching of cotton	3	12
Handloom weaving	163	938
Manufacture of Khadi textiles by handloom	12	182
Printing of cotton textiles	1	4
Manufacture of cotton thread	1	200
Repairing of gunny bags	1	1
Making of hosiery goods	2	235
Tailoring	632	1,228
Manufacture of coir and coir products	267	2,336
Manufacture of umbrellas	1	251
Repairing of umbrellas	27	48

Majority of workers under this group are workers engaged in coir and coir products. These industries are concentrated in Chowghat and Cranganore taluks followed by Trichur and Mukundapuram taluks.

Size of Employment

124. The statement showing number of industrial establishments distributed among various taluks by size of employment is given below:—

Statement 33

INDUSTRIES CLASSIFIED BY SIZE OF EMPLOYMENT

District/Taluk	Total	Size of employment: 1 person	2–5 persons	6–9 persons	10–19 persons	20–49 persons	50–99 persons	100 persons and above
Trichur District	**6,022**	**2,361**	**2,742**	**420**	**261**	**154**	**61**	**23**
Chowghat taluk	1,377	696	539	43	72	20	7	..
Cranganore ,,	525	154	261	82	21	6	..	1
Mukundapuram ,,	1,316	496	636	54	45	43	29	13
Talappilly ,,	773	345	338	55	18	14	3	..
Trichur ,,	2,031	670	968	186	105	71	22	9

125. As per the above statement there are 23 industrial establishments with more than 100 workers and above. The following statement gives the actual number of persons employed in these industries classified by type of fuel used:—

Statement 34

INDUSTRIES WITH 100 PERSONS AND ABOVE CLASSIFIED BY TYPE OF FUEL USED

Description	Number of factories	Number of persons employed by kind of fuel or power used: Total	Electricity	No power
Processing of cashewnuts	3	1,342	..	1,342
Canning of fruits	1	108	108	..
Oil mill	1	283	283	..
Cotton ginning, cleaning, pressing etc.	1	120	120	..

Manufacture of cotton thread	1	1,200	1,200	..
Making of hosiery goods	1	200	200	..
Manufacture of umbrellas	1	251	251	..
Manufacture of plywood	2	225	225	..
Manufacture of matches	1	120	120	..
Manufacture of tiles and bricks	8	990	990	..
Manufacture of small machine tools and machine parts	1	287	287	..
Repairing and servicing of motor vehicles	1	653	653	..

The number of factories and workshops classified by industry, power and no power and size of employment are given in Table E-III of Volume VII–Part IV-Report on Housing and Establishment Tables. The village-wise and town-wise number of industrial establishments are furnished in the Village Directory. A table showing the important centres of handicrafts with the meterials used and particulars of products is furnished in appendix 18. A separate table showing the annual average earnings of workers engaged in tile,rice and oil mills, timber, textile, plantation, motor transport, press, bidi, matches, cashew, soap, chemicals, engineering and thread manufacturing industries are furnished in appendix 19.

Registered factories

126. This district has 296 registered factories during the year ending 30th June 1961. The following statement gives the classification of these factories by capacity of employment:-

Statement 35

REGISTERED FACTORIES SHOWING THE CAPACITY OF EMPLOYMENT

Description	Total	Number of factories by capacity of employment									
		Less than 20 persons	20 persons	50 persons	100 persons	200 persons	250 persons	500 persons	750 persons	975 persons	2,000 persons

Strikes and Lock-outs

128. Two tables, one showing the industrial disputes resulting in work stoppages for the period 1957 to 1960 and another showing the number of industrial disputes by causes for the period 1957 to 1960 are given in appendix 20 and 21 respectively.

Fisheries

129. This district has a sea-coast of 32 miles. The villages bordering the Arabian Sea are Manathala Kadapram, Engandiyur, Vadanapally, Thalikulam' Nattika, Cha-Palliprom, Kaipamangalam, Perinha' nam, Koolimattam and Padinhare Vemballur of Cho_ wghat taluk and Edavilanga, Eriyad and Azhicode villages of Cranganore taluk. The fish curing yards of this district are located at Puthankadapuram, Blangad, Kadapram, Vadanapally, Nattika and Kodumbi The fishermen in the district are generally poor and backward in education. There are separate schools in all the important fishing villages for the education of fishermen's children. There are no factories in this district connected with fishing industry:-

130. A survey conducted by the department of fisheries on fishermen's assets and liabilities in 1957-58 reveals the following:-

Statement 37

ASSETS AND LIABILITIES OF FISHERMEN *

Item		Trichur District	Kerala State
Average household size		5.5	6.4

The achievements under all the blocks together for the period 1956-57 to 1960-61 are given in appendix 22

Revenue

132. Statements of the following items of revenue have been given in appendices 23 to 27

1. Receipts under excise revenue for the period 1950-51 to 1960-61

2. Sales tax revenue for the period 1950-51 to 1960-61

3. Agricultural income tax and super-tax for the period 1957-58 to 1960-61

4. Incidence of land revenue assessment for the period 1950-51 to 1960-61

5. Receipts under entertainment tax for the period 1950-51 to 1959-60

Local Self Government

133. Local Self Government consists of three important institutions viz., Municipalities, District Board and Panchayats.

(a) Municipalities

134. This district has three Municipalities—Trichur, Irinjalakuda and Kunnamkulam. Trichur, the oldest Municipality of the district was constituted in 1921 by the Cochin Municipal Regulation of 1096 K. E. Prior to the declaration of this town as a Municipal town there was a Sanitary Board functioning till 1910 and thereafter a Town Council. The Irinjalakuda Municipality was formed in 1112 K. E. (1937) while the Kunnamkulam Municipality was constituted in 1124 K. E. (1949). "In 1910 the Government of Cochin passed the Municipal and Sanitary Improvement Regulation of 1085 K. E. (1910) according to which the Sanitary Boards were reconstituted into Town Councils for the conservancy and sanitary improvement of the urban areas. The regulation was promulgated on the pattern of the Madras District Municipalities Act of 1884. The Regulation conferred powers of taxation on the Town Councils. In the early stages these councils were nominated bodies with nominated presidents. In 1093 K. E. (1918) they were made partly elected and partly nominated

with elected Presidents. Later the Regulation of 1085 K. E. (1910) was repealed in 1921 when the Cochin Municipal Regulation (Regulation XI of 1096) was passed. By the new regulation the councils were sufficiently enlarged to consist of elected and nominated members in the ratio of 2:1. The nominated members included officials and non-officials. The officials were chosen from different departments Eg. Assistant Engineer of the Local Public Works Department, Civil Surgeon etc. Extensive powers of taxation so as to include tax on property (house and land), profession, vehicles and animals were conferred on the council. Remunerative enterprises such as markets, cart stands, public baths etc. were also permitted to be maintained by the councils. They were given powers to license various trades within the town limits. A large measure of autonomy was excercised by the Chairman and the council in the expenditure of municipal funds. Another important reform in the field of Municipal Administration was introduced with the enactment of the Cochin Municipal Act XVIII of 1113 K. E. (1938 A. D). The new Act fixed the strength of the council on the basis of population. The nominated element was limited to 1/5th of the total strength. Provision was made for the election of both the Chairman and Vice-Chairman, of whom the latter was expected to function in the absence of the former. A noteworthy feature of this Act is that for the first time provision was made for the appointment of a full-time commissioner by the Government. The commissioner became the chief executive officer of the Municipality, and the Chairman was shorn of the executive powers formerly vested in him. The taxing powers of the Municipalities were also enhanced. In 1939 the Municipalities were authorised to levy tax on entertainments conducted within their respective jurisdictions. The Cochin Municipal Act of 1113 K. E. was amended by the Act XVIII of 1952 which widened the franchise". The Kerala Municipalities Act 1960 which was brought into force on 1st September 1961 now govern the municipalities of the district. The income and expenditure of these municipalities are given in appendices 28 and 29.

(b) District Boards

135. The Malabar District Board established in 1859 governed the local administration of the present Chowghat taluk till the enactment of the Kerala Panchayats Act 1960. A brief account of the growth of this institution is furnished in the District Census Hand books for Cannanore, Kozhikode and Palghat districts.

(c) Panchayats

136. The Village Panchayat Regulation was passed into law during the dewanship of J. W. Bhore (1914-1919). The Panchayats thus formed were reconstituted on the basis of an Act passed by Travancore-Cochin Legislative Assembly in 1950 (Travancore-Cochin Panchayat Act II of 1950). The new Panchayats based on this Act came into force on 15th August 1953. The Panchayats of Chowghat taluk was governed by the Madras Village Panchayat Act of 1950. Both these Acts were replaced by the Kerala Panchayat Act of 1960. Some of the provisions of this Act were enforced with effect from 20th June 1960. The income and expenditure of Panchayats of this district are furnished in appendices 30 and 31.

Co-operative Societies

137. The Co-operative Societies Regulation was passed in 1913 during the regime of Sir A. R. Banerji. The number of co-operative societies in this district along with the number of members, share capital, expenditure, reserve, working capital and loan issued for the year ending 30th June 1961 are furnished below:-

Statement 39

Printing Presses and Periodicals

144. The number of printing presses in the district has increased from 74 to 86 during the period 1950-51 to 1960-61. There are 4 Malayalam dailies, 3 Malayalam fortnightlies, 12 Malayalam and 1 English magazines and one quarterly periodical. A detailed statement in respect of these items is given in appendix 35.

Entertainments

145. The particulars regarding the cinema theatres, filims exibited, the number of shows and the number of tickets issued from 1955-56 to 1960-61 for the district are given in appendix 36.

Employment Exchange Activities

146. The Employment Exchange activities for the years 1959-60 and 1960-61 are furnished in appendix 37.

Important Events

147. A statement giving the list of important events by taluks is given in appendix 38.

Occupied Houses and Households

148. Occupied residential houses of this district have increased by 88.19 per cent during the period 1921-61 against the State growth rate of 93.10 per cent. The percentage decade variations for the last four decades do not show any considerable fluctuations but the figure for 1961 is slightly higher than the figures for the previous decades. The introduction of liberal

housing schemes as part of our Five Year Plans has largely contributed to this notable increase in houses. The percentage decade variations of houses in the urban areas of the district show a steady decreasing trend. The following statement gives the number of occupied houses by rural-urban distribution for the last five censuses with their decade variations:-

Statement 45

VARIATION OF OCCUPIED CENSUS HOUSES

Census Year	Total		Rural		Urban	
	Number	Percentage decade variation	Number	Percentage decade variation	Number	Percentage decade variation
1921	141,147	..	132,572	..	8,575	..
1931	164,725	+16.70	150,872	+13.80	13,853	+61.55
1941	191,649	+16.34	172,757	+14.51	18,892	+36.37
1951	217,661	+13.57	192,780	+11.59	24,881	+31.70
1961	265,621	+22.03	236,911	+22.89	28,710	+15.39

149. The density of occupied houses in the rural areas per 100 sq. miles showed an increase from 17,347 in 1951 to 21,448 in 1961 while in the urban areas the density of occupied houses per sq. mile has decreased from 969 in 1951 to 886 in 1961.

150. The following statement gives the number of persons per 1,000 occupied houses in the district by rural-urban distribution for five censuses:-

Statement 46

PERSONS PER 1,000 OCCUPIED HOUSES FOR THE LAST FIVE CENSUSES

Census Year	Persons per 1,000 occupied houses		
	Total	Rural	Urban
1921	5,573	5,543	6,026
1931	5,840	5,790	6,384
1941	5,842	5,788	6,336
1951	6,260	6,217	6,599
1961	6,174	6,138	6,466

151. The number of persons per occupied census house for each taluk as per the 1961 Census is furnished below:-

Statement 47

PERSONS PER OCCUPIED CENSUS HOUSE BY TALUKS

Taluk	Persons per occupied census house		
	Total	Rural	Urban
Chowghat	6.05	6.01	6.47
Cranganore	6.13	6.13	..
Mukundapuram	6.10	6.07	6.49
Talappilly	5.81	5.84	5.63
Trichur	6.39	6.37	6.49

Trichur taluk has the largest number of persons per occupied census house, while Talappilly taluk has the lowest.

152. For every 100 occupied residential houses in the district there are 105 households. The following statement gives the proportion of households to occupied houses for both rural areas and for towns:-

Statement 48

PROPORTION OF HOUSEHOLD TO OCCUPIED CENSUS HOUSES

Rural areas		Urban areas	
Taluk	Proportion of households to occupied houses	Town	Proportion of households to occupied houses
Chowghat	1.02	Chalakudi	1.03
Cranganore	1.08	Chowghat	1.02
Mukundapuram	1.05	Irinjalakuda (Municipal)	1.04
Talappilly	1.05	Kunnamkulam (Municipal)	1.03
Trichur	1.06	Pazhanji	1.01
		Trichur (Municipal)	1.05
		Wadakkancherry	1.02

153. During the period of house numbering operations conducted in 1960 in connection with the 1961 Census a wealth of details like the uses to which the census houses are put, tenure status, material of wall and roof, the number of persons and rooms per household etc. was collected. The following statement gives the distribution of 1,000 census houses in the district classified by uses to which they are put:-

Statement 49

DISTRIBUTION OF CENSUS HOUSES BY CATEGORIES AND BY RURAL-URBAN AREAS

Category of census house	Distribution of 1,000 census houses			Distribution of 1,000 census houses between rural and urban	
	Total	Rural	Urban	Rural	Urban

(x) Places of entertainment and community gathering	1	1	1	725	275
(xi) Public health and medical institutions, hospitals, health centres, doctor's clinics, dispensaries etc.	2	2	4	750	250
(xii) Others	9	8	20	736	264

154. An analysis of 20 per cent sample households by tenure status, wall and roof material and number of persons and rooms per household gives very valuable data. The following statement presents the taluk-wise distribution of households by owned and rented tenure status of dwellings:-

Statement 50

DISTRIBUTION OF 1,000 HOUSEHOLDS BETWEEN OWNED AND RENTED TENURE STATUS OF THEIR DWELLINGS BY TALUKS

District/Taluk	Total		Rural		Urban	
	Owned	Rented	Owned	Rented	Owned	Rented
Trichur District	**874**	**126**	**898**	**102**	**680**	**320**
Chowghat taluk	929	71	930	70	919	81
Cranganore ,,	954	46	954	46	..	..
Mukundapuram ,,	882	118	900	100	667	333
Talappilly ,,	914	86	932	68	807	193
Trichur ,,	782	218	832	168	498	502

Members of about 22 per cent of total house holds in Trichur taluk live in rented houses. This percentage is lowest in Cranganore taluk. Members of more than half of the households live in rented houses in the Trichur municipal town.

155. Mud is used as the principal wall material in the rural areas of the district. Larger percentage of households of Chowghat and Cranganore taluks use grass leaves, reeds, etc. as the chief wall material. In the urban areas of the district stone is the predominant material of wall. This position holds good in regard to all the taluks of the district which have urban areas, the only exception is in respect of Chowghat taluk where the principal wall material is mud. The following statement shows the distribution of 1,000 households by predominant material of wall of their dwellings:—

Statement 51

TALUK-WISE DISTRIBUTION OF 1 000 HOUSEHOLDS BY PREDOMINANT MATERIAL OF WALL OF THEIR DWELLINGS

Material of wall	Trichur district		Chowghat taluk		Cranganore taluk	Mukundapuram taluk		Talappilly taluk		Trichur taluk	
	Rural	Urban	Rural	Urban	Rural	Rural	Urban	Rural	Urban	Rural	Urban
Grass, leaves, reeds or bamboo	127	51	350	274	448	67	30	23	9	35	2
Timber	7	2	24	1	11	4	5	..	..	N	2
Mud	467	342	300	526	33	378	247	764	446	566	243
Unburnt bricks	14	..	N	..	..	22	..	6	..	26	..
Burnt bricks	71	15	77	..	103	102	69	14	..	69	1
C. I. sheets or other metal sheets	N	..	..	..	..	N	..	..	..	..	..
Stone	314	590	249	198	405	427	649	193	545	304	751
Cement concrete	..	N	..	1	..	..	..	..	..	..	1
All other material	N	..	..	..	..	N	..	..	..	..	..

N—Negligible

156. The same sample households were analysed to study the predominant material of roof. Grass, leaves, reeds, thatchwood and bamboo are used as the predominant material of roof in the rural areas of all the taluks except in Trichur taluk where houses with tile tops dominate. The following statement shows the taluk-wise distribution of 1,000 households by predominant material of roof of their dwellings:-

Statement 52

TALUK-WISE DISTRIBUTION OF 1,000 HOUSEHOLDS BY PREDOMINANT MATERIAL OF ROOF OF THEIR DWELLINGS

Material of roof	Trichur district		Chowghat taluk		Cranganore taluk	Mukundapuram taluk		Talappilly taluk		Trichur taluk	
	Rural	Urban	Rural	Urban	Rural	Rural	Urban	Rural	Urban	Rural	Urban
Grass, leaves, reeds, thatch wood and bamboo	649	433	905	810	893	604	446	653	658	451	107
Tiles, slate, shingle	346	564	95	183	106	380	548	347	342	548	891
Corrugated iron, zinc or other metal sheets	2	N	..	2	..	5	..	..	..	..	..
Asbestos, cement sheets	3	1	..	..	N	11	3	..	..	..	..
Brick and lime	N	N	N	..	..	..	..	..	..	..	1
Concrete and stone slabs	N	2	..	5	1	N	3	N	..	1	1
All other material	N	..	..	..	..	N	..	..	..	..	..

N—Negligible

157. The sample households selected for the study of the predominant material of wall and roof were taken to assess the number of rooms per household and number of persons per household and number of persons per room. The subjoined statement gives the distribution of 1,000 census households according to number of rooms occupied.

Statement 53

DISTRIBUTION OF 1,000 HOUSEHOLDS BY NUMBER OF ROOMS OCCUPIED

District/Taluk	No regular room	One room	Two rooms	Three rooms	Four rooms	Five rooms and more
Trichur District	**7**	**267**	**369**	**180**	**82**	**95**
Chowghat taluk	11	121	442	217	96	113
Cranganore „	..	75	377	349	99	100
Mukundapuram „	1	392	327	146	67	67
Talappilly „	14	310	419	136	55	66
Trichur „	6	242	325	189	106	132

158. The number of persons per room and per household in the district are 2.44 and 6.10 respectively. The number of persons per room and per household in the district for rural and urban areas are furnished below.-

Statement 54

NUMBER OF PERSONS PER ROOM AND NUMBER OF PERSONS PER HOUSEHOLD

Number of rooms	Number of persons per room			Number of persons per household		
	Total	Rural	Urban	Total	Rural	Urban
Total	**2.44**	**2.50**	**2.04**	**6.10**	**6.08**	**6.34**
One room	5.01	4.99	5.14	5.01	4.99	5.14
Two rooms	2.95	2.95	3.02	5.91	5.89	6.04
Three rooms	2.19	2.19	2.21	6.57	6.56	6.63
Four rooms	1.80	1.82	1.73	7.22	7.27	6.92
Five rooms and more	1.25	1.30	1.08	8.11	8.23	7.66

Growth of Population

159. The total population of Trichur district according to the 1961 Census count is 1,639,862. The population of this district has shown an increase of 148.89 per cent during 1901-61 against the State increase of 164.27 per cent. The following statement gives the population and percentage decade variation for the last seven censuses:-

Statement 55

VARIATION IN POPULATION

Census Year	Population	Percentage decade variation
1901	658,873	..
1911	742,707	+ 12.72
1921	786,564	+ 5.91
1931	961,965	+ 22.30
1941	1,119,565	+ 16.38
1951	1,362,665	+ 21.71
1961	1,639,862	+ 20.34

Even though the population has been on the increase the growth rates show fluctuations between decades. The district growth rates have been lower than the State percentage decade variations in all the censuses except during the decades 1901-11, 1921-31 and 1931-41. This district ranks seventh in respect of area and last in respect of population in 1961. The population growth of this district may be compared with the adjacent districts;-

Statement 56

RATE OF GROWTH COMPARED WITH ADJACENT DISTRICTS

District	Rate of growth		Average annual growth rate
	1901-61	1951-61	1901-61
Coimbatore	92.88	12.78	1.5
Ernakulam	177.96	21.55	3.0
Kottayam	264.49	30.52	4.4
Palghat	81.80	13.51	1.4
Trichur	148.89	20.34	2.5

160. All the taluks of the district have lower population growth rates than that of the State increase of 24.76 per cent during 1951-61. Trichur taluk has the highest population increase since 1921 followed by Mukundapuram taluk. The growth rate of Mukundapuram taluk during the last decade is almost equal to the State growth rate. The 1951-61 decade variation and percentage increase of population since 1921 Census for each of the taluk are as follows:-

Statement 57

TALUK-WISE GROWTH RATE OF POPULATION

Taluk	Decennial growth rate 1951-61	Percentage increase 1921-61
Chowghat	+ 15.37	+ 71.74
Cranganore	+ 15.52	+ 96.46
Mukundapuram	+ 24.49	+ 128.55
Talappilly	+ 15.68	+ 87.82
Trichur	+ 22.93	+ 142.08

161. The following statement gives the rural-urban population and decade variation for the last seven censuses:-

Statement 58

GROWTH OF POPULATION BY RURUL-URBAN CLASSIFICATION

Census year	Rural		Urban	
	Number	Percentage decade variation	Number	Percentage decade variation
1901	627,674	..	31,199	..
1911	702,098	+ 11.86	40,609	+ 30.16
1921	734,888	+ 4.67	51,676	+ 27.25
1931	873,528	+ 18.87	88,437	+ 71.14
1941	999,868	+ 14.46	119,697	+ 35.35
1951	1,198,483	+ 19.86	164,182	+ 37.16
1961	1,454,210	+ 21.34	185,652	+ 13.08

The growth rate in the urban areas during the decade 1951-61 is lowest when campared to the previous decades. In 1961, 4 towns of 1951 have been declassified in the place of a newly added town.

Population by Taluks

162. The population of 1.6 million is distributed among five taluks of the district. Here are the taluk-wise population figures.

Statement 59

POPULATION BY TALUKS, 1961

District/Taluk	Population			Percentage distribution		
	Persons	Males	Females	Persons	Males	Females
Trichur District	**1,639,862**	**784,736**	**855,126**	**100.00**	**100.00**	**100.00**
Chowghat taluk	301,109	138,535	162,574	18.36	17.65	19.01
Cranganore ,,	90,293	43,631	46,662	5.51	5 56	5.46
Mukundapuram ,,	466,957	227,135	239,822	28.47	28.95	28.04
Talappilly ,,	319,588	149,963	169,625	19.49	19.11	19.84
Trichur ,,	461,915	225,472	236,443	28.17	28.73	27.65

Mukundapuram is the most populous taluk in the district, followed by Trichur taluk. Next to North Wynad taluk, Cranganore is the smallest taluk in the State in respect of population. Talappilly, Chowghat and Cranganore taluks have population below the average population of a taluk in the district.

Rural-urban Distribution of Population

163. The following statement gives the distribution of persons per 10,000 population for rural and urban areas for the district.

Statement 60

DISTRIBUTION OF 10,000 POPULATION BY RURAL-URBAN CLASSIFICATION

Census Year	Rural		Urban	
	No of persons to 10,000 total population of the district	No. of persons to 10,000 rural population of the State	No. of persons to 10,000 total population of the district	No. of persons to 10,000 urban population of the State
1901	9,526	1,056	474	686
1911	9,453	1 060	547	774
1921	9,343	1,032	657	759
1931	9,081	1,017	919	965
1941	8,931	1,016	1,069	1,001
1951	8,795	1,022	1,205	899
1961	8,868	1,013	1,132	727

164. The following statement shows the rural-urban distribution of population on a taluk-wise basis as per the 1961 Census:-

Statement 61

DISTRIBUTION OF RURAL-URBAN POPULATION BY TALUKS

District/Taluk	Number		Rural			Urban		
	Rural villages	Towns	Population	Percentage of rural population to total rural population of the district	Percentage of rural population to total rural population of the State	Population	Percentage of urban population to total urban population of the district	Percentage of urban population to total urban population of the State
Trichur District	239†	7	**1,454,210**	**100.00**	**10.13**	**185,652**	**100.00**	**7.27**
Chowghat taluk	30	1	272,206	18.72	1.89	28,903	15.57	1.13
Cranganore ,,	9	..	90,293	6.21	0.63	..	..	..
Mukundapuram ,,	56	2	427,758	29.41	2.98	39,199	21.11	1.54
Talappilly ,,	72†	3	275,076	18.92	1.92	44.512	23.98	1.74
Trichur ,,	72	1	388,877	26.74	2.71	73,038	39.34	2.86

† Of these, one village is uninhabited

Of the total rural revenue villages given in the above statement one village viz., Kunnamkulam is uninhabited. The urban portion of this village lies in Kunnamkulam municipal town and it is inhabited. The rural portion of this village is constituted by paddy fields of Kakkad and Kizhur karas. Trichur is the only town in the district with a population of above 50,000. The other towns are distributed among the other population classes.

Population by Natural Regions

165. More than 10 lakhs of people live in the midland region. The Chowghat taluk lies entirely in the lowland region and it accounts 60 per cent of total population under lowland region in the district. Mukundapuram, Talappilly and Trichur taluks have highland regions. Of these the highland region of Trichur taluk is depopulated. The following statement gives the actual population and their percentages in the different regions of the district by taluks:—

Statement 62

POPULATION BY NATURAL REGIONS

District/Taluk	Highland		Midland		Lowland	
	Actual	Percentage	Actual	Percentage	Actual	Percentage
Trichur District	**66,798**	**100.00**	**1,072,766**	**100.00**	**500,298**	**100.00**
Chowghat taluk	..	..	..	..	301,109	60.19
Cranganore ,,	..	..	13.042	1.21	77,251	15.44
Mukundapuram ,,	10,219	15.30	434,374	40.49	22,364	4.47
Talappilly ,,	56,579	84.70	263,009	24.52	..	..
Trichur ,,	Uninhabited		362,341	33.78	99,574	19.90

166. There is no town in the highland region. The Cranganore taluk is the only taluk in this district having no urban area. Chowghat is the only town in the urban areas of lowland region. Trichur municipal town accounts for 47 per cent of the urban population of the midland region. The following statement presents the distribution of population by natural regions and by rural-urban classification:-

Statement 63

DISTRIBUTION OF POPULATION BY NATURAL REGIONS AND BY RURAL-URBAN CLASSIFICATION

District/Taluk	Highland	Midland		Lowland	
	Rural	Rural	Urban	Rural	Urban
Trichur District	**100.00**	**100.00**	**100.00**	**100.00**	**100.00**
Chowghat taluk	..	..	..	57.75	100.00
Cranganore ,,	..	1.43	..	16.39	..
Mukundapuram ,,	15.30	43.14	25 01	4.74	..
Talappilly ,,	84.70	23.85	28.40	..	..
Trichur ,,	Uninhabited	31.58	46.59	21.12	..

Population Density

167. The number of persons per sq. mile in the district has increased from 579 in 1901 to 1,442 in 1961. The subjoined statement gives the taluk-wise population density for the last five censuses:-

Statement 64

POPULATION DENSITY BY TALUKS

District/Taluk	1921	1931	1941	1951	1961
Trichur District	**692**	**846**	**985**	**1,198**	**1,442**
Chowghat taluk	1,767	2,076	2,277	2,631	3,035
Cranganore ,,	1,630	2,007	2,285	2,644	3,202
Mukundapuram ,,	402	507	592	738	919
Talappilly ,,	665	791	919	1,079	1,248
Trichur ,,	777	975	1,194	1,531	1,882

Cranganore taluk has the highest population density in 1961 with 3,202 persons per sq. mile. It is followed by another lowland taluk, Chowghat, with 3,035 persons per sq. mile. Even though the density of population in 1961 of Mukundapuram taluk has doubled since 1921 it has the lowest population density among the different taluks of the district. This is largely due to the terrain of the taluk which has an area of 265.12 sq. miles under reserve forests.

168. The following statement further classifies the population density by natural regions:-

Statement 65

POPULATION DENSITY BY NATURAL REGIONS, 1961

District/Taluk	Highland *	Midland			Lowland		
	Rural	Total	Rural	Urban	Total	Rural	Urban
Trichur District	**176**	**1,834**	**1,642**	**5,853**	**2,887**	**2,811**	**5,125**
Chowghat taluk	..	..	..	..	3,035	2,908	5,125
Cranganore ,,	..	1,716	1,716	..	3,750	3,750	..
Mukundapuram ,,	39	1,878	1,770	4,833	1,911	1,911	..
Talappilly ,,	831	1,400	1,255	3,230	..	..	..
Trichur ,,	..	2,293	1,890	14,936	2,382	2,382	..

* No urban area

Only 176 persons live in a sq. mile area of the highland region of the district, as against 1,834 persons in the midland and 2,887 persons in the lowland. Among the regions of the five taluks of the district, the lowland region of cranganore taluk has the highest population density of 3,750 persons per sq. mile.

169. The succeeding paragraphs give a classification of population density by natural regions at the village level and at the town level.

A-Rural Areas

(i) Highland region

170. The highland region of this district consists of 14 revenue villages. All these villages lie in Talappilly taluk. The highland regions of Mukundapuram and Trichur taluks are confined to the unsurveyed areas which lie outside the village boundaries. None of the villages has a population density of less than 250. Two villages coming in the population density range of 250-499 are Vennur village with 327 persons per sq. mile and Pulacode village with 447. Only six villages have a density of population of bove 1,000. They are Palayannur (1,015), Kurumala (1,092), Mayannur (1,238), Vadakkethara(1,308), Kaniyarcode (1,569) and Chelakkara (3,931). The following statement sets out the number of revenue villages coming under different density ranges:-

Statement 66

CLASSIFICATION OF INHABITED RURAL HIGHLAND VILLAGES BY DENSITY RANGES

Population density per sq. mile	Number of inhabited rural villages
Total	**14**
Less than 250	..
250—499	2
500—749	2
750—999	4
1,000 and above	6

(ii) Midland region

171. The midland villages have comparatively higher population densities. There are 166 villages in the midland region of which one village is uninhabited. The urban portion of this village is populated. Chiyyaram with 6,947 persons per sq. mile, Koorkancherry with 5,236, Ollur with 4,690 are the highly populated villages in this region. Villages with a population density of less than 500 are Punkunnam with 30 persons per sq. mile, Wadakkancherry with 38, Attur with 255 and Pelakad with 438. The following statement presents the distribution of 165 inhabited midland villages by different density ranges:—

Statement 67

CLASSIFICATION OF RURAL INHABITED MIDLAND VILLAGES BY DENSITY RANGES

Population density per sq. mile	Number of inhabited rural villages
Total	**165**
Less than 500	4
500— 999	20
1,000—1,499	34
1,500—1,999	55
2,000—2,499	29
2,500—2,999	9
3,000—3,499	5
3,500—3,999	6
4,000 and above	3

(iii) Lowland region

172. All the villages in this district have a population density of above 1,000 persons per sq. mile except 2 villages of Trichur taluk viz., Pullu with 408 and Erava with 9410. Lokamaleswaram village with a population density of 5,266 is the most populous village in the lowland region and the second most

populous rural village in the district. The other three villages with a population density of above 4,000 are Pavaratty with 4,762, Methala 4,812 and Padiyam 4,108.

Statement 68

CLASSIFICATION OF RURAL LOWLAND VILLAGES BY DENSITY RANGES

Population density per sq. mile	Number of rural villages
Total	59
Less than 1,000	2
1,000—1,999	12
2,000—2,999	18
3,000—3.499	17
3,500—3,999	6
4,000 and above	4

B-Urban Areas

173. Of the seven towns in the district six are situated in the midland region. Chowghat town which lies in the lowland region, has a population density of above 5,125. Among the municipal towns of the district, Trichur town has 14,936 persons per sq. mile followed by Kunnamkulam with 6,048 and Irinjalakuda with 4,783. The following statement gives the population density of each town of the district in the order of densities:-

Statement 69

POPULATION DENSITY OF TOWNS BY NATURAL REGIONS

Midland		Lowland	
Town	Persons per sq. mile	Town	Persons per sq. mile
Wadakkancherry	2,512	Chowghat	5,125
Pazhanhi	2,571		
Irinjalakuda (Municipal)	4,783		
Chalakudy	4,902		
Kunnamkulam (Municipal)	6,048		
Trichur (Municipal)	14,936		

Sex-ratio

174. The sex-ratio (number of females per 1,000 males) shows a steady increase in the district from 1901 to 1951. In 1961 it shows a declining trend. The following statement compares the sex-ratio for the last seven censuses for the total, rural and urban areas:-

Statement 70

SEX-RATIO 1901-61

Census year	Total	Rural	Urban
1901	1,003	1,003	997
1911	1,008	1,010	976
1921	1,051	1,053	1,028
1931	1,075	1,079	1,027
1941	1,081	1,086	1,039
1951	1,102	1,108	1,064
1961	1,090	1,093	1,065

175. The subjoined statement gives the taluk-wise sex-ratio for both rural and urban areas:-

Statement 71

TALUK-WISE SEX-RATIO FOR 1951 AND 1961 BY RURAL-URBAN CLASSIFICATION

	1951			1961		
Taluk	Total	Rural	Urban	Total	Rural	Urban
Chowghat	1,173	1,173	..	1,174	1,176	1,148
Cranganore	1,063	1,075	1,054	1,069	1,069	..
Mukundapuram	1,070	1,072	1,045	1,056	1,058	1,034
Talappilly	1,129	1,128	1,145	1,131	1,131	1,132
Trichur	1,077	1,084	1,048	1,049	1,056	1,012

176. Sex-ratio can further be analysed by natural regions. The highland regions have exceptionally low sex-ratios when campared to midland and lowland regions. The highland and midland regions of Talappilly taluk have more or less the same sex-ratio.

Statement 72

SEX-RATIO BY NATURAL REGIONS, 1961

	Highland	Midland			Lowland		
District/Taluk	Rural	Total	Rural	Urban	Total	Rural	Urban
Trichur District	**1,036**	**1,068**	**1,072**	**1,050**	**1,145**	**1,144**	**1,148**
Chowghat taluk	..	..	..	..	1,174	1,176	1,148
Cranganore „	..	1,074	1,074	..	1,069	1,069	..
Mukundapuram „	637	1,064	1,067	1,034	1,139	1,139	..
Talappilly „	1,130	1,131	1,131	1,132	..	..	..
Trichur ..	Uninhabited	1,030	1,034	1,012	1,121	1.121	..

A further analysis of the rural areas at the village level and the urban areas at the town level is attempted below:-

A-Rural Areas

(i) Highland region

177. All the 14 villages in this district have preponderance of females over males. Pampady and Kondazhi villages top the list with a sex-ratio of 1,185 each. Vennur village in this region has the lowest sex-ratio of 1,038 females per 1,000 males.

(ii) Midland region

178. Of the 165 inhabited rural revenue villages only 11 villages have greater number of males over females. They are Wadakkancherry village (818) of Talappilly taluk, Punkunnam (700) Viyyur (827), Velappaya (933), Mannamangalam (936) Aranattukara (958), Vilvattam (964), Panancherry (976) and Ollukara (991) villages of Trichur taluk and Kizhakkumuri (964) and Kuruvilassery (999) villages of Mukundapuram taluk. Anjur village of Talappilly taluk has the highest sex-ratio of 1,265 females per 1,000 males.

(iii) Lowland region

179. All the 59 lowland villages in the district have preponderance of females over males. Of these, Orumanayur village of Chowghat taluk records 1,380 females for every 1,000 males. This village has the unique distinction of having the maximum sex-ratio in the district.

B-Urban Areas

180. All the towns in the district except Chalakudy town have greater number of females over males. Kunnamkulam town commands with 1,150 closely followed by Chowghat with 1,148. The following statement illustrates this:-

Statement 73

SEX-RATIO IN TOWNS BY NATURAL REGIONS

Midland		Lowland	
Town	Sex-ratio	Town	Sex-ratio
Kunnamkulam (Municipal)	1,150	Chowghat	1,148
Pazhanhi	1,122		
Wadakkancherry	1,119		
Irinjalakuda (Municipal)	1,078		
Trichur (Municipal)	1,012		
Chalakudy	977		

181. The single year sex-ratios under 10 years show that the number of boys are higher than girls in all the ages except at the age 9. The sex-ratio is highest in the age-group 25-29. The following statement presents the sex-ratio under different age-groups:-

Statement 74

SEX-RATIO BY AGE-GROUPS

Age/ Age-group	Sex-ratio	Age/ Age-group	Sex-ratio
Under 1 year	984	20-24	1,279
1	955	25-29	1,300
2	970	30-34	1,216
3	998	35-39	1,141
4	973	40-44	1,093
5	964	45-49	1,120
6	956	50-54	1,105
7	991	55-59	1,120
8	922	60-64	1,153
9	1,007	65-69	1,151
10-14	990	70 +	1,221
15-19	1,123		

182. In Trichur district males outnumber females in all the Industrial categories of workers except in respect of workers engaged as agricultural labourers and at household industry. Among the taluks of the district this position holds good only in Chowghat and Cranganore taluks. In the case of other taluks there are more females only in the category of agricultural labourers. The maximum number of females is in the category of household industry of Chowghat taluk with 3,275 females per 1,000 males. The following statement gives the sex-ratio classified by industrial categories of workers and non-workers:-

Statement 75

SEX-RATIO CLASSIFIED BY INDUSTRIAL CATEGORIES

District/Taluk	Total	Workers									Non-workers
		I	II	III	IV	V	VI	VII	VIII	IX	
Trichur District	**524**	**390**	**1,374**	**134**	**1,481**	**290**	**52**	**64**	**97**	**576**	**1,562**
Chowghat taluk	578	337	1,442	102	3,275	425	8	21	79	513	1,605
Cranganore ,,	567	368	1,680	89	3,012	346	34	67	114	369	1,474
Mukundapuram ,,	454	350	1,070	156	941	343	70	52	176	555	1,574

Trichur ,,	473	450	1,723	164	561	241	58	81	63	585	1,524

183. Sex-ratios by major religions are furnished below:-

Statement 76

SEX-RATIO BY MAJOR RELIGIONS

Religion	Sex-ratio
Christians	1,036
Hindus	1,100
Muslims	1,155

Age

184 The population of the district may be broadly divided into five categories, viz., infants and young children, boys and girls, young men and women, middle aged men and women and elderly persons. More than 30 per cent of the total population of the district is claimed by 'young men and women'. Among the elderly persons there are 51 centenarians of whom 20 are males The oldest woman in the district is aged 115. The following statement presents the percentage under each category to the total population of the district:-

Statement 77

DISTRIBUTION OF POPULATION BY BROAD CATEGORIES

Category	Age-group	Percentage
Infants and young children	0— 4	15.2
Boys and girls	5—14	26.8
Young men and women	15—34	30.5
Middle aged men and women	35—54	18.3
Elderly persons	55 and above	9.2

185. The following statement gives the percentages of males to total males and percentages of females to total females for total, rural and urban areas:-

Statement 78

PERCENTAGE OF MALES AND FEMALES IN EACH AGE-GROUP TO TOTAL MALES AND FEMALES IN THE DISTRICT

Age/ Age-group	Total		Rural		Urban	
	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total females
Under 1 year	3.19	2.89	3.23	2.90	2.92	2.81
1	3.22	2.82	3.27	2.85	2.80	2.59

Age not stated	0.01	0.02	0.01	0.02	0.01	0.01

Marital Status

186. More than 63 per cent of the males and 52 per cent of the females are never married persons. The distribution of population by marital status is given hereunder:-

Statement 79

DISTRIBUTION OF 1,000 PERSONS OF EACH SEX BY MARITAL STATUS

Marital status	Total	Rural	Urban
I Males	1,000	1,000	1,000
i Never married	632	630	643
ii Married	345	347	336
iii Widowed	19	19	18
iv Divorced or separated	4	4	3
v Unspecified	N	N	..
II Females	1,000	1,000	1,000
i Never married	521	518	544
ii Married	355	358	331
iii Widowed	104	104	111
iv Divorced or separated	19	19	14
v Unspecified	1	1	..

Religion

187. More than 63 per cent of the total population of the district are returned as Hindus. Christians account for 25 per cent of the total population while Muslims record about 12 per cent. The following statement gives the distribution of population in the district by religions as per the 1961 Census:-

Statement 80

DISTRIBUTION OF POPULATION BY RELIGIONS

Religion	Number			Percentage distribution		
	Total	Rural	Urban	Total	Rural	Urban
All religions	1,639,862	1,454,210	185,652	100.00	100.00	100.00
Budhists	14	14	..	N	N	..
Christians	412,052	346,494	65,558	25.13	23.83	35.31

Trichur ,,	117,565	30.23	256,716	66.02	14,584	3.75

Literacy and Education

189. About 48.5 per cent of the total population of this district are literates and educated against the State ratio of 46.8 per cent. The percentage of literacy of Trichur district has shown an increase from 42.64 in 1951 to 48.47 in 1961. Among the taluks of the district Chowghat taluk has recorded a higher increase while Trichur taluk the lowest. A statement giving the growth of literacy for the district and taluks for 1951-61 is given below:-

Statement 82

GROWTH OF LITERACY, 1951-61

District/Taluk	Total literates		Percentage of literates to the total population		Variation in literacy 1951-61	Proportion of literates to total literates in the district, 1961
	1951	1961	1951	1961		
Trichur District	**580,987**	**794,782**	**42.64**	**48.47**	**+ 5.83**	**100.00**
Chowghat taluk	106,722	143,997	40 89	47.82	+ 6.93	18.12
Cranganore ,,	31,574	44,009	42.35	48.74	+ 6.39	5.54

A-Rural Areas

191. The 239 revenue villages which constitute the rural areas of the district fall under three natural regions. Of these the rural portion of Kunnamkulam village lying in the midland region is returned as uninhabited. The remaining 238 villages are taken for detailed study. Among them 190 villages have a literacy rate of above 40 per cent. The subjoined statement gives the number of villages classified under six literacy ranges and by natural regions in each taluk:-

Statement 84

RURAL INHABITED VILLAGES CLASSIFIED BY PERCENTAGE OF LITERACY

District/Taluk by natural regions	Number of villages under percentage ranges of literacy					
	Less than 20 per cent	20–29 per cent	30–39 per cent	40–49 per cent	50–59 per cent	60 per cent and above

8	Pulacode	(„ „)	36.13
9	Mannamangalam	(Trichur taluk)	36.47
10	Kondazhi	(Talappilly „)	36.68
11	Chiranellur	(„ „)	39.05
12	Padinhare Vemballur	(Chowghat „)	39.35
13	Nedumpura	(Talappilly „)	39.61

194. Out of 7.6 lakhs females in the rural areas of the district about 4.5 lakhs are illiterates. Considering the lower percentages of literacy the female literacy rates are grouped under eight percentage ranges. The following statement sets out the number of rural villages classified under these ranges:-

Statement 90

RURAL INHABITED VILLAGES CLASSIFIED BY PERCENTAGE OF FEMALE LITERACY

Distriot/Taluk	No. of villages under percentage ranges of literacy							
	Less than 10 per cent	10-14 per cent	15-19 per cent	20-29 per cent	30-39 per cent	40-49 per cent	50-59 per cent	60 per cent and above

As seen from the above statement 22 villages have a literacy rate of above 50 per cent. They are distributed among all the taluks of the district except Chowghat. Following are these villages:-

Statement 91

HIGH FEMALE LITERACY VILLAGES

	Village		Percentage of literacy
1	Punkunnam	(Trichur taluk)	57.14
2	Thaikad	(Chowghat ,,)	56.31
3	Padinjare Chalakudy	(Mukundapuram ,,)	55.84
4	Adat	(Trichur ,,)	55.18
5	Iringaprom	(Chowghat ,,)	54.62
6	Muringur	(Mukundapuram ,,)	54.25
7	Karamucku	(Trichur ,,)	53.57
8	Kuttur	(,, ,,)	52.01
9	Vadukkemuri	(,, ,,)	51.97
10	Kaduppassery	(Mukundapuram ,,)	51.97
11	Poyya	(Cranganore ,,)	51.58
12	Alappad	(Trichur ,,)	51.56
13	Nettissery	(,, ,,)	51.53
14	Veloorkara	(Mukundapuram ,,)	51.10
15	Irimbranellur	(Chowghat ,,)	50.79
16	Cherpu	(Trichur ,,)	50.71
17	Kurumpilavu	(,, ,,)	50.58
18	Methala	(Cranganore ,,)	50.55
19	Thoravu	(Mukundapuram ,,)	50.48
20	Chowghat	(Chowghat ,,)	50.44
21	Brahmakulam	(,, ,,)	50.25
22	Anthicaud	(Trichur ,,)	50.05

Only three villages have a female literacy rate of less than 20 per cent. They are arranged in the ascending order of female literacy.

Statement 92

LOW FEMALE LITERACY VILLAGES

	Village		Percentage of literacy
1	Thalasseri	(Talappilly taluk)	13.75
2	Vennur	(,, ,,)	15.60
3	Elanad	(,, ,,)	18.06

B-Urban Areas

195. Trichur Municipal town has the highest percentage of literacy with 63.99 per cent. The total male and female literacy rates of all the seven towns are given below:-

Statement 93

LITERACY IN TOWNS

Town	Midland: Percentage of literacy			Lowland: Percentage of literacy		
	Total	Male	Female	Total	Male	Female
Trichur (Municipal)	63.99	68.82	59.23			
Irinjalakuda (Municipal)	60.86	66.33	55.78			
Chalakudy	60.39	66.71	53.93			
Kunnamkulam (Municipal)	58.35	62.93	54.37			
Pazhanhi	54.40	58.66	50.61			
Wadakkancherry	48.46	54.66	42.92			
Chowghat				49.98	57.31	41.73

Literacy by Age, Sex and Education

(a) Illiterates

196. There are 845,080 illiterates in this district of whom 351,708 are males.

(b) Literates

197. The population in the age-group 0-4 has to be excluded from the total population for calculating the effective rate of literacy. The effective literacy percentage of this district comes to 57.15 in 1961. The following statement furnishes the number of literates by educational levels and effective rates of literacy:-

Statement 94

LITERATES BY EDUCATIONAL LEVEL AND EFFECTIVE RATES OF LITERACY

Educational level	Persons	Percentage to total literates	Effective rate of literacy (per cent)
Total literates	**794,782**	**100.00**	**57.15**
Literates (without educational level)	527,233	66.34	37.91
Primary or Junior Basic	210,426	26.47	15.13
Matriculation and above	57,123	7.19	4.11

The effective literacy rates for males and females are furnished below:-

Statement 95

EFFECTIVE RATES OF LITERACY BY SEX

Educational level	Effective rate of male literacy (per cent)	Effective rate of female literacy (per cent)
Total literates	65.74	49.41
Literates (without educational level)	43.87	32.55
Primary or Junior Basic	16.55	13.85
Matriculation and above	5.32	3.01

Languages

198. In the district as a whole, about 98 per cent of the people have Malayalam as their mother-tongue The following are the figures for the first five languages in the district.

Statement 96

PRINCIPAL LANGUAGES

	Mother tongue	Total speakers
1	Malayalam	1,599,234
2	Tamil	24,003
3	Telugu	5,284
4	Konkani	3,599
5	Kannada	1,889

Birth Place

199. Persons belonging to all the States and Union Territories of India except the Union Territories of Goa, Daman & Diu, Dadra Nagar Haveli N. E. F. A. Nagaland and Tripura and the territory of Sikkim were returned during the enumeration of this district. Persons born in Burma, Ceylon, China, Indonesia, Iran, Iraq, Japan, Nepal, Pakistan, Saudi Arabia, Singapore, Malaya and British Borneo, Thailand, Turkey, Fiji Islands, France, Germany (West), Netherlands, Norway, Spain, Ethiopia, U. A. R., Brazil United Kingdom, Union of South Africa, Canada, Australia, and United States of America were also enumerated in this district. The following statement gives the number of persons born within and outside the State:-

Statement 97

PLACE OF BIRTH

	Place of birth	Total	Rural	Urban
I	Within the state of enumeration			
	(a) Born within Trichur district	1,558,923	1,389,245	169,678
	(b) Born in other districts of the State	72,361	58,560	13,801
II	States in India beyond the State of enumeration	6,505	4,628	1,877
III	Born in countries in Asia beyond India (including U. S. S. R.)	1,601	1,338	263
IV	Countries in Europe (excluding U. S. S. R.)	35	29	6
V	Countries in Africa	39	22	17
VI	Countries in North America and South America	6	2	4
VII	Countries in Oceania	11	5	6
VIII	Born at Sea	..	..	..
IX	Unclassifiable	381	381	..

Workers and Non-workers

200. In the earlier Indian Censuses, or at least at the last few Censuses, income or economic independence was recognised as the criterion for measuring the economy of the country. Account was made of all persons who were economically independent and of all those who were economically dependent. An intermediate category of economic semi-dependence was also introduced from the 1931 Census onwards. This category was called 'working dependent' in the 1931 Census, 'partly dependent' in 1941 and 'earning dependent' in 1951 and even here an element of income was introduced. It was felt that the strict application of the criterion of income or economic independence suppressed those who worked in family economic activities but did not actually earn an income like men other than the head of the household and women of the family or children working at cultivation or cottage industries of the household. In the 1961 Census, therefore, stress has been laid on work so that all people who work including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance are also reckoned as workers. Work includes not only actual work but also effective supervision and direction of work. In the 1951 Census population was divided into eight livelihood classes. In this Censues instead of the eight livelihood classes of 1951 workers

are grouped under nine industrial categories as follows:-

I Working as cultivator;
II Working as Agricultural Labourer;
III Working in Mining, Quarrying, Live-stock Forestry, Fishing, Hunting and Plantations, Orchards and allied activities;
IV Working at household Industry;
V Working in Manufacturing other than Household Industry;
VI Working in Construction,
VII Working in Trade and Commerce;
VIII Working in Transport, Storage and Communications; and
IX Working in Other Services

201. Only 33.2 per cent of the population in the district constitute workers. Of these 5.50 per cent are engaged as Cultivators, 5.06 per cent as Agricultural Labourers, 2 48 per cent in Mining, Quarrying, Live stock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities, 3.21 per cent at Household Industry, 3.08 per cent in Manufacturing other than Household Industry, 0.44 per cent in Construction, 2.04 per cent in Trade and Commerce, 0.96 per cent in Transport, Storage and Communications and 10.43 per cent in other services. The following statement gives the distribution of every thousand persons in each taluk into workers and non-workers by sex:-

Statement 98

DISTRIBUTION OF 1,000 PERSONS IN EACH TALUK INTO WORKERS AND NON-WORKERS BY SEX

District/Taluk	Workers			Non-workers		
	Persons	Males	Females	Persons	Males	Females
Trichur District	**332**	**455**	**219**	**668**	**545**	**781**
Chowghat taluk	305	420	207	695	580	793
Cranganore ,,	338	446	236	662	554	764
Mukundapuram ,,	327	463	199	673	537	801
Talappilly ,,	373	484	275	627	516	725
Trichur ,,	325	452	204	675	548	796

Workers

202. 5.4 lakhs of the total population of this district are workers. The following statement gives the distribution of workers. The percentage of workers is highest in the industrial category of 'other services'.

Statement 99

DISTRIBUTION OF WORKERS BY INDUSTRIAL CATEGORIES AND SEX

	Industrial category of workers	Persons		Males		Females	
		Number	Percentage	Number	Percentage	Number	Percentage
	Total workers	**544,439**	**100.00**	**357,232**	**100.00**	**187,207**	**100 00**
I	As Cultivators	90,276	16.58	64,938	18.18	25,338	13.54
II	As Agricultural Labourers	83,031	15.25	34,982	9.79	48,049	25.67
III	In Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities	40,718	7.48	35,919	10.06	4,799	2.56
IV	At Household Industry	52,592	9.66	21,199	5.93	31,393	16.77
V	In Manufacturing other than Household Industry	50,533	9.28	39,184	10.97	11,349	6.06
VI	In Construction	7,220	1.33	6,862	1.92	358	0.19
VII	In Trade and Commerce	33,377	6 13	31,368	8.78	2,009	1.07
VIII	In Transport, Storage and Communications	15,665	2.88	14,286	4.00	1,379	0.74
IX	In Other Services	171,027	31.41	108,494	30.37	62,533	33.40

The industrial categories may be broadly classified into the following sectors of industry:-

i Primary sector—Industrial categories of I, II and III

ii Secondary sector-Industrial categories IV, V and VI

iii Tertiary sector—Industrial categories VII, VIII and IX

Based on the above classification this district has 39 per cent workers under the primary, 20 per cent under secondary and the remaining in the tertiary sector. The following statement illustrates this:—

Statement 100

DISTRIBUTION OF 1,000 WORKERS IN EACH TALUK BY SECTORS OF INDUSTRY AND SEX

District/Taluk	Primary			Secondary			Tertiary		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
Trichur District	**393**	**380**	**418**	**203**	**188**	**230**	**404**	**432**	**352**
Chowghat taluk	266	309	191	286	176	477	448	515	332
Cranganore ,,	246	318	118	376	206	676	378	476	206
Mukundapuram ,,	468	461	484	171	173	166	361	366	350
Talappilly ,,	522	480	588	128	150	92	350	370	320
Trichur ,,	323	280	414	208	234	154	469	486	432

All the taluks except Talappilly taluk have less than 50 per cent of total workers in the primary sector. In the secondary sector Cranganore taluk leads with 38 per cent, while in the tertiary sector Trichur taluk comes with 47 per cent.

203. The distribution of every 1,000 workers in each industrial category in the district by age-group is given in the subjoined statement. Workers in the age-group 15-34 lead those in other age-groups in all the industrial categories except in regard to workers engaged as Cultivators and in Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities. In these cases larger number of workers are engaged in the age-group 35-59.

Statement 101

DISTRIBUTION OF 1,000 WORKERS IN EACH INDUSTRIAL CATEGORY BY BROAD AGE-GROUPS

Industrial category of workers	Age-group					
	Total	0-14	15-34	35-59	60+	Age not stated
Total workers	**1,000**	**27**	**491**	**414**	**68**	**N**
As Cultivators	1,000	8	384	458	150	N
As Agricultural Labourers	1,000	24	540	394	42	N
In Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and other allied activities	1,000	30	404	458	108	N
At Household Industry	1,000	46	512	381	61	N
In Manufacturing other than Household Industry	1,000	38	588	339	35	N
In Construction	1,000	14	544	387	55	N
In Trade and Commerce	1,000	14	470	459	57	N
In Transport, Storage and Communications	1,000	12	531	430	27	N
In Other Services	1,000	32	507	414	47	N

N—Negligible

204. More than 36 per cent of workers in the age-group 60 and above are returned as cultivators. The following statement gives the distribution of 1,000 workers in each age-group by industrial categories:—

Statement 102

DISTRIBUTION OF 1,000 WORKERS IN EACH AGE-GROUP BY INDUSTRIAL CATEGORIES

Industrial category of workers	Age-group 0–14	15–34	35–59	60+	Age not stated
Total workers	**1,000**	**1,000**	**1,000**	**1,000**	**1,000**
As Cultivators	51	130	183	365	116
As Agricultural Labourers	138	168	145	94	137
In Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and other allied activities	84	61	83	118	11
At Household Industry	166	101	89	87	63
In Manufacturing other than Household Industry	133	111	76	47	137
In Construction	7	15	12	11	10
In Trade and Commerce	32	59	68	51	105
In Transport, Storage and Communications	13	31	30	11	42
In Other Services	376	324	314	216	379

205. The position in respect of male workers in each age-group in regard to their distribution among the industrial categories is given in the following statement.

Statement 103

DISTRIBUTION OF 1,000 MALE WORKERS IN EACH AGE-GROUP BY INDUSTRIAL CATEGORIES

Industrial category of workers	Age-group 0–14	15–34	35–59	60+	Age not stated
Total male workers	**1,000**	**1,000**	**1,000**	**1,000**	**1,000**
As Cultivators	60	141	194	390	103
As Agricultural Labourers	133	108	89	76	138
In Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and other allied activities	137	86	108	133	17
At Household Industry	106	64	52	56	35
In Manufacturing other than Household Industry	137	133	93	53	172
In Construction	11	22	18	13	17
In Trade and Commerce	52	89	94	59	121
In Transport, Storage and Communications	18	44	42	14	69
In Other Services	346	313	310	206	328

206. The following statement presents the distribution of 1,000 female workers in each age-group by the industrial category of workers:-

Statement 104

DISTRIBUTION OF 1,000 FEMALE WORKERS IN EACH AGE-GROUP BY INDUSTRIAL CATEGORIES

Industrial category of workers	Age-group 0–14	15–34	35–59	60+	Age not stated
Total female workers	**1,000**	**1,000**	**1,000**	**1,000**	**1,000**
As Cultivators	40	111	162	271	135
As Agricultural Labourers	144	270	259	165	135
In Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and other allied activities	19	19	31	62	..
At Household Industry	241	164	163	203	108
In Manufacturing other than Household Industry	127	74	41	25	81
In Construction	2	3	1	N	..
In Trade and Commerce	7	7	14	20	81
In Transport, Storage and Communications	6	9	5	2	..
In Other Services	414	343	324	252	460

N— Negligible

207. The following statement gives the distribution of 1,000 workers in rural areas of the district and each taluk by industrial categories:-

Statement 105

DISTRIBUTION OF 1,000 WORKERS IN THE RURAL AREAS OF THE DISTRICT AND EACH TALUK BY INDUSTRIAL CATEGORY OF WORKERS

District/Taluk (Rural areas only)	Industrial category of workers									
	Total	I	II	III	IV	V	VI	VII	VIII	IX
Trichur District	**1,000**	**177**	**164**	**78**	**102**	**87**	**13**	**52**	**25**	**302**
Chowghat taluk	1,000	91	65	111	208	82	5	67	29	342
Cranganore ,,	1,000	56	22	168	303	66	7	77	69	232
Mukundapuram ,,	1,000	248	162	82	49	100	17	38	23	281
Talappilly ,,	1,000	208	306	41	65	43	12	38	12	275
Trichur ,,	1,000	157	148	60	73	119	15	63	27	338

Chowghat, Mukundapuram and Trichur taluks have greater percentages of workers engaged in 'other services' compared to other categories while Cranganore taluk has larger percentage of workers at Household Industry and Talappilly taluk has a greater percentage of Agricultural Labourers.

208. In all the towns of the district largest percentage of workers are engaged in 'other services'. The following statement gives the distribution of workers in each town of the district by industrial categories:-

Statement 106

DISTRIBUTION OF 1,000 WORKERS IN TOWNS UNDER EACH INDUSTRIAL CATEGORY OF WORKERS

Town	Industrial category of workers									
	Total	I	II	III	IV	V	VI	VII	VIII	IX
Chalakudy	1,000	86	24	17	58	187	31	132	90	375
Chowghat	1,000	48	44	155	55	137	11	103	37	410
Irinjalakuda (Municipal)	1,000	98	52	18	55	148	14	162	49	404
Kunnamkulam (Municipal)	1,000	70	84	21	50	159	20	135	38	423
Pazhanhi	1,000	126	113	139	73	49	14	75	18	393
Trichur (Municipal)	1,000	30	9	8	32	161	22	191	85	462
Wadakkancherry	1,000	143	168	25	72	70	24	76	49	373

209. The distribution of workers by educational levels are worth analysing. 63 per cent of male cultivators are literates without any educational qualification. Majority of male as well as female agricultural labourers are illiterates. In the remaining industrial categories the proportions of literate male workers without educational qualification to total male workers are higher while among female workers illiterates claim the highest proportion. The male and female workers in different industrial categories classified by educational levels per 1,000 male and female workers are furnished in the following statement:—

Statement 107

DISTRIBUTION OF 1,000 MALE AND 1,000 FEMALE WORKERS IN EACH INDUSTRIAL CATEGORY IN RURAL AREAS BY EDUCATIONAL LEVELS

Industrial category workers	Total		Educational levels: Illiterate		Literate (without educational level)		Primary or Junior Basic		Matriculation and above	
	M	F	M	F	M	F	M	F	M	F
Total workers	**1,000**	**1,000**	**325**	**656**	**518**	**267**	**110**	**45**	**47**	**32**
As Cultivators	1,000	1,000	192	436	630	485	141	72	37	7
As Agricultural Labourers	1,000	1,000	618	788	350	184	31	28	1	N
In Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and other allied activities	1,000	1,000	393	610	486	304	107	79	14	7
At Household Industry	1,000	1,000	334	691	551	255	110	52	5	2
In Manufacturing other than Household Industry	1,000	1,000	183	504	672	425	116	57	29	14
In Construction	1,000	1,000	243	702	632	255	91	14	34	29
In Trade and Commerce	1,000	1,000	196	667	571	254	177	65	56	14
In Transport, Storage and Communications	1,000	1,000	294	690	548	250	114	28	44	32
In Other Services	1,000	1,000	372	650	430	216	100	39	98	95

N:—Negligible

210. The following statement sets out the distribution of 1,000 male and 1,000 female workers in the urban areas by educational levels:-

Statement 108

DISTRIBUTION OF 1,000 MALE AND 1,000 FEMALE WORKERS IN EACH INDUSTRIAL CATEGORY IN URBAN AREAS BY EDUCATIONAL LEVELS

	Educational levels	Total M	Total F	Industrial category of workers: I M	I F	II M	II F	III M	III F

211. 57 per cent of the total workers excluding cultivators and agricultural labourers are returned as craftsmen, production process workers and labourers not elsewhere classified. A detailed classification of workers excluding cultivators and agricultural labourers into occupational divisions along with their total number and sex-wise distribution are given below:-

Statement 109

WORKERS (EXCLUDING CULTIVATORS AND AGRICULTURAL LABOURERS) BY OCCUPATIONAL DIVISIONS

Occupational division	Workers			Percentage distribution		
	Persons	Males	Females	Persons	Males	Females
All Divisions	**371,132**	**257,312**	**113,820**	**100.00**	**100.00**	**100.00**
1 Professional, technical and related workers	23,891	14,969	8,922	6.44	5.82	7.84
2 Administrative, executive and managerial workers	13,273	12,530	743	3.58	4.87	0.65
3 Clerical and related workers	10,766	9,994	772	2.90	3.88	0.68
4 Sales workers	30,512	28,583	1,929	8.22	11.11	1.69
5 Farmers, fishermen, hunters, loggers and related workers	39,973	35,135	4,838	10.77	13.65	4.25
6 Miners, quarrymen and related workers	1,727	1,686	41	0.46	0.65	0.04
7 Workers in transport and communication occupations	8,890	8,821	69	2.40	3.43	0.06
8 Craftsmen, Production process workers and labourers not elsewhere classified	211,781	129,654	82,127	57.06	50.39	72.16
9 Service, sport and recreation workers	29,572	15,283	14,289	7.97	5.94	12.55
10 Workers not classifiable by occupation	747	657	90	0.20	0.26	0.08

Non-Workers

212. The non-working population of this district comes to 9.7 per cent of the total non-workers of the State. Of the 10.95 lakhs non-workers about 6.68 lakhs are females. The following statement shows the distribution of non-workers by age-group:—

Statement 110

DISTRIBUTION OF NON-WORKERS BY AGE-GROUPS AND SEX

Age-group	Total Non-workers			Distribution per 1,000		
	Persons	Males	Females	Persons	Males	Females
All ages	1,095,423	427,504	667,919	1,000	1,000	1,000
0-14	673,876	340,252	333,624	615	796	500
15-34	232,785	55,993	176,792	213	131	265
35-59	119,778	11,934	107,844	109	28	161
60+	68,829	19,279	49,550	63	45	74
Age not stated	155	46	109	N	N	N

N—Negligible

213. Among the non-working population about 41 per cent are dependants, infants and disabled persons.

Statement 111

DISTRIBUTION OF 1,000 TOTAL, MALE AND FEMALE NON-WORKERS IN THE DISTRICT BY TYPE OF ACTIVITY AND BY RURAL AND URBAN AREAS

		Total			Rural			Urban		
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
	Total workers	**1,000**	**1,000**	**1,000**	**1,000**	**1,000**	**1,000**	**1,000**	**1,000**	**1,000**

215. In the rural areas of the district about 41 per cent of educated unemployed persons aged 15 and above have attained and educational qualification of 'Matriculation and above'. Among females this percentages goes up to about 69 per cent. The statement given hereunder shows the unemployed persons in the rural areas of the district under the age-group 15 and above and their distribution by sex and educational levels:-

Statement 113

PERSONS UNEMPLOYED AGED 15 AND ABOVE IN RURAL AREAS BY SEX AND BY EDUCATIONAL LEVELS

Educational level	Unemployed persons aged 15 and above			Percentage distribution		
	Persons	Males	Females	Persons	Males	Females
Total unemployed	**14,834**	**10,987**	**3,847**	**100.00**	**100.00**	**100.00**
Illiterate	1,207	974	233	8.14	8.87	6.06
Literate (without educational level)	4,172	3,769	403	28.12	34.30	10.47
Primary or Junior Basic	3,416	2,854	562	23.03	25.98	14.61
Matriculation and above	6,039	3,390	2,649	40.71	30.85	68.86

216. Out of 3,317 total unemployed persons in the urban areas in the age-group 15 years and above 2,325 persons are seeking employment for the first time. The following statement furnishes the number unemployed persons of 15 years and above in the urban areas of the district seeking employment (whether for the first time or not) by sex and educational levels:-

Statement 114

PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX AND EDUCATIONAL LEVELS IN URBAN AREAS

Educational level	Total unemployed			Seeking employment for the first time			Persons employed before but now out of employment and seeking work		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females

Household Economic Data

217. Up to and inclusive of the Census in 1951 the economic tables were confined to the population as such and did not extend to household units. But in the 1961 Census certain items of economic data relating to the households as such were collected in addition to the economic data pertaining to each individual of the household. The data thus collected in respect of households related to household cultivation and household industry. The household cultivation for this purpose was defined to cover plots or parcels of land which are cultivated by the household itself, i. e. lands which lie within the village or in an adjacent village or within such a distance as to enable the household to work on the land or actively supervise its cultivation. If, however, the head of the household insisted that he was cultivating the land situated at a distance from his household, his statement was accepted and such land also was treated as coming within the scope of household cultivation. Cultivation for purposes of the above definition was taken to involve ploughing, sowing and harvesting and consists of the production of cereal crops (including Bengal gram) such as rice, wheat, jower, bajra, maize, roots and tubers like potato, yam, beet, sugarcane etc.; production of pulses such as arhar, moong, mazur urd, khesari, other grams; production of raw jute, raw cotton and kindred fibre crops. It does not include the following:

A—Other Field Produces

1 Production of other crops including vegetables not covered by the above items
2 Production of fruits and nuts in plantations, vines and orchards (like cocoanut, areca-nut, cashewnut etc.)
3 Production of wood, bamboo, cane, reeds thatching grass etc.
4 Production of juice by tapping palms
5 Production of other agricultural produces (including fruits and nuts not covered by Sl. No. 2 and flowers) not covered above.

B—Plantation Crops

1 Production of tea in plantation

2 Production of coffee in plantation

3 Production of rubber in plantation

4 Production of tobacco in plantation (does not include tobacco which is cultivated in rotation with other cereal crops, in which case it would go under cultivation)

5 Production of ganga, cinchona, opium, poppy, saffron etc.

6 Production of other plantation crops not covered above (under this category cardamom has been included as a plantation crop)

218. Household industry was defined as an industry not on the scale of registered factory conducted by the head of the household himself and/or mainly by the members of the household at home or within the village in rural areas and only at home in urban areas. The particulars given in the following paragraphs are based on the data tabulated from a 20 per cent sample of household schedules.

219. Households engaged neither in household cultivation nor in household industry come to above 68 per cent of the total sample households taken for detailed study. The households of the above category also tops the list in both rural and urban areas. The following statement illustrates this:-

Statement 115

DISTRIBUTION OF 1,000 SAMPLE HOUSEHOLDS AMONG (i) ENGAGED NEITHER IN HOUSEHOLD CULTIVATION NOR IN HOUSEHOLD INDUSTRY (ii) ENGAGED EITHER IN HOUSEHOLD CULTIVATION OR IN HOUSEHOLD INDUSTRY BUT NOT IN BOTH; AND (iii) ENGAGED BOTH IN HOUSEHOLD CULTIVATION AND HOUSEHOLD INDUSTRY IN THE DISTRICT

		Total	Rural	Urban
	All households	1,000	1,000	1,000
1	Households engaged neither in household cultivation nor in household industry	677	659	824
2	Households engaged in household cultivation only	231	244	128
3	Households engaged in household industry only	81	85	44
4	Households engaged both in cultivation and household industry	11	12	4

220. The above statement may be further analysed at the taluk level for rural areas:—

Statement 116

DISTRIBUTION OF 1,000 SAMPLE HOUSEHOLDS IN THE RURAL AREAS OF THE DISTRICT (i) ENGAGED NEITHER IN HOUSEHOLD CULTIVATION NOR IN HOUSEHOLD INDUSTRY (ii) ENGAGED EITHER IN HOUSEHOLD CULTIVATION OR IN HOUSEHOLD INDUSTRY BUT NOT IN BOTH; AND (iii) ENGAGED BOTH IN HOUSEHOLD CULTIVATION AND HOUSEHOLD INDUSTRY

		Chowghat taluk	Cranganore taluk	Mukundapuram taluk	Talappilly taluk	Trichur taluk
	Total sample households	1,000	1,000	1,000	1,000	1,000
1	Households engaged neither in household cultivation nor in household industry	646	640	626	659	711
2	Households engaged in household cultivation only	149	102	329	277	224
3	Households engaged in household industry only	183	238	37	57	54
4	Households engaged both in household cultivation and household industry	22	20	8	7	11

221. An analysis of the distribution of households by the type of interest in land cultivated shows that in the district the largest percentage of households engaged in household cultivation are only tenants of private persons or institutions. The next largest percentage of households are those cultivating land either owned or held from Government only. The statement showing the percentage distribution of sample households cultivating in the district by interest in land cultivated is given hereunder:-

Statement 117

PERCENTAGE DISTRIBUTION OF SAMPLE CULTIVATING HOUSEHOLDS IN THE DISTRICT CLASSIFIED BY INTEREST IN LAND

Interest in land cultivated	Total	Rural	Urban
Total sample households	**100.00**	**100.00**	**100.00**
Owned or held from Government	19.69	18.16	44.33
Held from private persons or institutions for payment in money, kind or share	61.50	62.82	40.29
Partly held from Government and partly held from private persons for payment in money, kind or share	18.81	19.02	15.38

222. Among the households in the district cultivating land owned or held from Government 41 per cent cultivate land in the slab of less than 1 acre. The percentage of households shows a declining trend with the increasing slabs of size of land cultivated except in slabs 10.0—12.4 acres and 15.0-29.9 acres. In regard to households held from private persons or institutions for payment in money, kind or share the percentage of households progressively declines with the increasing slabs of the size of land with the exceptions of 1.0 to 2.4 acres and 15.0 to 29.9 acres. In respect of households cultivating land partly held from Government and partly from private persons or institutions for payment in money, kind or share also shows a declining trend with the increasing slabs of size of land with the exception in the slabs of less than 1 acre, 2.5—4.9 acres and 15.0 - 29.9 acres. The following statement illustrates the households cultivating land under each type of interest by size of land cultivated in the district:-

Statement 118

PERCENTAGE OF SAMPLE HOUSEHOLDS CULTIVATING LAND UNDER EACH TYPE OF INTEREST BY SIZE OF LAND CULTIVATED IN THE DISTRICT

Size of land in acres	Percentage of households cultivated: Owned or held from Government	Held from private persons or institutions for payment in money, kind or share	Partly held from Government and partly from private persons or institutions for payment in money, kind or share
Total Sample Households	**100 00**	**100.00**	**100.00**
Less than 1 acre	41.30	37.80	8.44
1.0—2.4 acres	34.14	39.20	31.10
2.5 -4.9 ,,	15.46	16.06	32.44
5.0—7.4 ,,	5.23	4.44	13.95
7.5—9.9 ,,	1.12	1 07	6.08
10.0—12.4 ,,	1.20	0.78	3.12
12.5—14.9 ,,	0.27	0.20	1.66
15.0—29.9 ,,	0.85	0.30	2.64
30.0—49.9 ,,	0.19	0.07	0.41
50.0+	0.08	0.03	0.16
Unspecified	0.16	0.05	..

223. Among the total workers engaged in household cultivation only 64.3 per cent are family workers and the rest hired workers. 95·1 per cent of total family workers and 93.9 per cent of hired workers in the above households live in the rural areas. Taking the workers engaged in both household cultivation and household industry 70.4 per cent workers are returned as family workers, while the rest are hired workers. In the rural areas of the district the percentage of family workers and hired workers in the category of households engaged both in household cultivation and household industry are 95.7 per cent and 93.0 per cent respectively.

224. The percentage of hired workers to total workers employed by the households engaged in household cultivation only shows an increasing trend with the increase in size of land cultivated except in respect of slab 50.0 acres and above. In the case of households engaged both in household cultivation and household industry the percentage of hired workers to total workers shows an increasing trend with the increase in the size of land cultivated except in respect of slab 7.5—9.9 acres. The following statement illustrates this:—

Statement 119

THE AVERAGE NUMBER OF FAMILY AND HIRED WORKERS AND THE PERCENTAGE OF HIRED WORKERS OUT OF THE TOTAL WORKERS ENGAGED BY THE SAMPLE HOUSEHOLDS IN HOUSEHOLD CULTIVATION ONLY AND HOUSEHOLDS ENGAGED BOTH IN HOUSEHOLD CULTIVATION AND HOUSEHOLD INDUSTRY

Size of land	Households engaged in household cultivation only				Households engaged both in household cultivation and household industry			
	Average number of			Percentage of hired workers to total workers	Average number of			Percentage of hired workers to total workers

225. The number of households engaged in household industry classified by the principal household industry in the district has been given in Table B-XIV of this volume. The following statement shows the first ten ranks of household industries on the basis of this table:-

Statement 120

THE FIRST TEN RANKS OF HOUSEHOLD INDUSTRIES IN THE DISTRICT BASED ON 20 PER CENT SAMPLE OF HOUSEHOLD SCHEDULES

Rank	Household Industry
I	Manufacture of materials from cork, bamboo, cane, leaves and other allied products
II	Manufacture of coir and coir products
III	Manufacture of jewellery, silverware and wares using gold and other precious metals
IV	Production of other food products such as sweetmeat and condiments, muri, murki, chira, choi, cocoa, chocolate, toffee, lozenges
V	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery
VI	Cotton weaving in handlooms
VII	Manufacture of earthenware and earthen pottery
VIII	Manufacture of cotton nets
IX	Manufacture of bidi
X	Making textile garments including raincoats and headgear

226. The largest percentage of households in all the three categories of households given in the following statement have 4—6 members while the lowest percentage is confined to single member households. The following statement sets out the percentage of sample households classified by size and participation in household cultivation or household industry in rural areas:-

Statement 121

PERCENTAGE OF SAMPLE HOUSEHOLDS CLASSIFIED BY SIZE AND PARTICIPATION IN HOUSEHOLD CULTIVATION OR IN HOUSEHOLD INDUSTRY IN RURAL AREAS OF THE DISTRICT

Size of sample households	Percentage of		
	Households engaged neither in household cultivation nor in household Industry	Households engaged in household Industry only	Households engaged in household cultivation
Total sample households	100.00	100.00	100.00
Single member households	3.94	1.94	1.35
2—3 members	18.54	17.12	9.38
4—6 ,,	45.30	45.66	36.39
7—9 ,,	25.02	26.03	34.21
10 members and over	7.20	9.25	18.67

GAZETTEER

Chowghat Taluk (Area: 99.2 sq. miles, Population: 301,109)

227. Chowghat taluk was part of Ponnani taluk of Malabar district till 1st January 1957. This new taluk was bounded on the north by Ponnani taluk, on the east by Talappilly, Trichur and Mukundapuram taluks, on the south by Cranganore taluk and on the west by the Arabian Sea. The chief crops of this taluk are paddy and cocoanut.

Chetwai

228. Chetwai is situated five miles due south of Chowghat. Dutch were the first to settle here. They ceded Chetwai to Zamorin and conducted a commercial treaty with him in 1691 after the war between the Dutch supported by Zamorin and the Confederates (Rajas of Parur, Mangad, Manakkulam, the Karyakars of Perattuvithi and the *Madampies* of Karapuram). After ten years, in 1701, Zamorin declared war against Cochin. The Dutch came to the help of Cochin and this war lasted nine years and it was ended by a treaty concluded in 1710 according to which Chetwai and Pappinivattam came again to the possession of the Dutch They began to construct a fort here. This action of the Dutch humiliated the Zamorin and he with the moral support of the English strategically captured the fort in 1715 and hoisted the Union Jack. The Dutch again attacked Chetwai and they formally took possession of Chetwai Fort on April 10, 1717 and it was named as Fort William. In 1740 the French tried to capture it but this attempt was promptly foiled. On 8th October 1776 Sirdarkhan, the Mysore General, marched against the Dutch stronghold as a prelude to his attack on Cranganore. Sirdarkhan captured the whole of the Island including Chetwai and Pappinivattom and the territory of Cranganore (except the Dutch fort). Till 1790 Chetwai was the scene of fierce battle between the Dutch on one side and Haider Ali and subsequently Tipu Sultan on the other. Chetwai Island inclusive of Cranganore and Patinellaralayam was leased to Cochin a few months before the treaty between the Raja of Cochin and the English East India Company was signed on 6th January 1791.

Chowghat

229. Chowghat, the headquarters of Chowghat taluk is located 22 miles north-west of Trichur on the bank of Canoli Canal. There is a famous mosque at Manathala. Attached to the mosque is a *jaram* or mausoleum of Haidros Kutty, Haider Ali's lieutenant. Another mausoleum, very near to Chowghat mosque, marks the scene of his death who fought against his master (Haider Ali) in utter disregard of his methods of oppression. Half a mile from Chowghat on the road to Enamakkal at Palayur is located the ancient Romo-Syrian church founded by St. Thomas in 52 A. D According to tradition this is one of the seven churches founded by St. Thomas, the Apostle. The other six churches are located at Niranam, Quilon, Chayil, Kokkamangalam, Maliankara and Kottakawe. The Malabar District Gazetteer gives the following account on the famous church at Palayur. 'The congregation from the priest downwards implicitly believe in the tradition, and assert that the Apostle preached in the church. The legend as related in a folk song still sung by Syrian Christian women at their work is briefly as follows. On his way from Arabia to Mylapore in the guise of an architect, St. Thomas landed at Chetwai and travelled through Palayur. He passed the temple of the Talliyil Devaswom and entered into conversation with some Namboothiri Brahmans who were bathing in the temple tank. The Brahmans told him of their gods, and boasted how by their powerful *Mantrams* they could make them do their will. St. Thomas replied by challenging to call upon their gods, if they were true gods, to make the water they were throwing over their bodies remain suspended in the air. Brahmans laughed at the idea; but when at the Apostle's bidding the water of the tank rose and stood up in one column they were instantly converted and baptized then and there. The rest of the Brahmans thus put to shame deserted Palayur in a body'. This church has even today preserved the sacred vessels and other articles said to have been used in the temple which is believed to have been converted into the church. The St. Sebastian Perunnal conducted here in February is attended by thousands of devotees. Very near to the church is situated the remnants of a Jewish Synagogue.

Enamakkal

230. Enamakkal is connected with Chowghat by road and Chetwai by river. A dam of the same name protects the cultivation in the bed of Trichur lake from salt water. An embankment of hewn stone about 200 feet long is said to have been constructed by the united efforts of the Zamorin and Raja of

Cochin sometime in the 18th century. In 1802 Mr. Drummond, Assistant Collector of Malabar partially destroyed this bund under an erraneous expectation of benefiting the neighbouring places also. But contrary to his expectations salt water entered and large areas of lands were thrown out of cultivation. 'Various attempts were made especially in 1822 and 1842 to construct a dam on the original plan. A project for a new dam lower down the river at Chetwai was proposed, and between 1855 and 1858 the work was taken in hand. The idea was abandoned, however, after Rs. 35,000/-had been wasted, and since then the original dam has been patched up at the joint expense of the British Government'. Here is also an old Syrian Christian church.

Guruvayoor

231. Guruvayoor, situated 21 miles north-west of Trichur connected by a good motorable road. It is an important Vaishnavite Pilgrim centre. The Guruvayoor temple, more than six centuries old is square in shape and is encircled by strong and lofty walls. There are imposing *Gopurams* on the eastern and western sides of this temple. 'The porch and its pillars are elaborately carved with the heads of elephants and bulls and other sculptures in bold relief and its walls are covered with fresco paintings depicting the adventures of Arjuna. On the outer walls of the *Sreekovil* (Sanctum Sanctorum) of the temple there is an abundance of mural paintings, unparallelled in their beauty and artistic splendour. The *Kreedas* of Krishna are depicted on the walls in charming colours.' There are many legends attached to this temple. One legend says that Udhawa at the behest of Lord Krishna handed over the idol of Vishnu that was being worshipped by Vasudeva, to Brihaspathi. *Brahaspathi* with the help of *Vayu* consecrated the idol here. Because *Guru* (Brahaspathi) and *Vayu* installed the idol the place came to be known as Guruvayoorpuram and subsequently Guruvayoor. The idol is made up of 'Patala Anjanam'. At the time of invasion of Tipu Sultan the temple authorities took this idol to Ambalapuzha and kept there for two years. In commemmoration of this a *Naivedya* is arranged daily at Guruvayoor by the Travancore Maharaja. But Tipu Sultan and his lieutenant Hidros Kutti showed great interest in the temple affairs and instituted a big fund for daily *Naivedya* to the Lord. Pujas and religious ceremonies are done here strictly in accordance with the vedic rites laid down by Adi Sankara. Of festivals of this temple *Ashtamirohini, Mandalam, Ekadasi* and *Utsavam* are the most important. *Ekadasi* festival, which is held annually in *Vrischikam* (November—December) attracts thousands of pilgrims. The name of this temple is connected with Melpathoor Narayana Bhattathiri and Poonthanam, two illustrious sons of Kerala. Melpathoor, who flourished during the second half of the 16th century and the first half of the 17th century, wrote the immortal and devotional work *Narayaneeyam* consisting of 1,036 verses dealing with the major incidents narrated in the *Bhagavatha Puranam*. Poonthanam, an illustrious contemporary of Melpathoor lived between 1547-1640. In his spiritual ecstasy he wrote three memorable and splendid works *Gnanappana, Srikrishna Karnamrutham* and *Santhanagopalam*. The Guruvayoor Satyagraha is a memorable event in the history of a country-wide movement for temple entry and abolition of untouchability. With the blessings of Mahatma Gandhiji the Satyagraha was started on 1st November 1931. The trustee of the temple, the Zamorin, suspended the Pujas and closed the temple. The Satyagraha continued for about eleven months and it was discontinued in response to Gandhiji's wishes. A referendum was held and more than 77 per cent of the Hindus expressed themselves in favour of temple entry. Only after 15 years, ie. in 1946, the temple was thrown open to Harijans.

Kottapadi

232. Kottapadi about 2 miles north-west of Guruvayoor is now the seat of Punnathur family. The Talappilly Rajas who were originally namboothiries lost caste for having committed the crime of maa-slaughter and became Nambidies. After many years this family was divided into four *Tawazhies* viz., Kakkad, Punnathur, Ayinikunu and Manakulam. Punnathur Fort or Kotta is the residence of Punnathur Nambidi. This was constructed between 1754 and 1758 A. D. The area round the *Kotta* is known as Kottapadi and now it is an important place. 'There are a *Kalari* and *Natakasala* besides the building. The door leading into the *Nadumuttam* is adorned with the most intricate and skillful carvings. The estate record rooms contain a wealth of old documents written on cadjan in *Kolezhuthu* characters. Among the most interesting are ancient treatises on carpentary and the cure of snake-bite and various old *Kanam* and other deeds dating from as far back as 1736 A. D.'

Mammiyur

233. There is a famous Siva temple here. One legend goes that Lord Siva himself directed *Guru* and *Vayu* to install the idol of Vishnu at Guruvayoor and after blessing their efforts Siva himself had taken His abode at Mammiyur very near to Guruvayur. Mammiyur is the seat of Little Flower College run by the Sisters of the Clarist congregation of the Trichur Diocese.

Mathilakam

234. Mathilakam is situated 13 miles from Irinjalakuda and it is named after the ancient temple Trikanna Mathilakam. 'This place is the Kunavayil Kottam where according to the *Silappathikaram* the great scholar Ilango Adikal, the younger brother of Senguttuvan, is alleged to have resided'. The temple here is believed to have founded by Parasurama. Mathilakam was a Jaina stronghold in the early centuries. It was a great centre of learning and culture but now it contains practically no traces of its ancient glory.

Pavaratti

235. Situated about 4 miles to the east of Guruvayoor, Pavaratti is an educational centre. The most important institution, known as Sahitya Deepika Sanskrit College, is located here. The *Perunnal* festival of the St. Joseph's Parish Shrine is celebrated here every year on the third Saturday and Sunday coming after the Easter. Lakhs of devotees assemble here to celebrate this festival.

Triprayar

236. Situated nine miles south of Chetwai and 14 miles south-west of Trichur Triprayar has an ancient temple dedicated to Sri Ramachandra. This temple has a large circular *Sreekoil* which has about 175 square feet of old frescos. Now the temple is under the management of Cochin Devaswom Board. The *Triprayar Ekadasi* held for three days in *Vrischigam* attracts large number of devotees every year.

Cranganore Taluk (Area: 28·2 sq. miles, Population: 90,293)

237. Cranganore, the smallest taluk in the Kerala State, is bounded on the north by Chowghat taluk, on the east by Mukundapuram taluk on the south by Parur taluk separated by Periyar river and on the west by the Arabian sea. The soil is sandy and it is very favourable for the growth of the cocoanut palms.

Cranganore

238. Cranganore is a historic place with antiquity. It had been a very important place for over twenty centuries. The Phoenicians, the Jews, the Syrians, the Egyptians, the Greeks and the Romans carried lucrative trade with Kerala through this ancient port. "None of these nations, however, ventured to take the direct route across the open sea; they carried the merchandize slowly along the coast to Aden, whence it was distributed in the neighbouring countries. But when the Romans, with the beginning of their rule in Egypt, B. C. 30, succeeded to the eastern trade, they were not long in revolutionising the maritime trade of the period by discovering, in the words of Pliny 'a compendious route whereby India was brought so near that a trade thither became very lucrative'. The Roman trade with Kerala was on a more extensive scale than that of their predecessors and was kept up for over two centuries'' Cranganore was a good harbour in ancient times. The unprecedented floods occured in 1341 A. D., formed the Cochin backwaters and by this Cochin port rose to importance. St. Thomas, the Apostle, is believed to have landed at Malianka a place very near Muzhiris in 52 A. D. and converted several Brahmins and others. A decade ago a shrine was built at Azhicode in pious memory of the first landing of the Apostle in India. It has now begun to attract large numbers of devotees from all parts of Kerala especially on the St. Thomas Day. Here is an ancient temple dedicated to Kuramba Bhagavathi, believed to have been founded by the mythical Chera emperor, Senguttuvan in the Sangam age to commemorate the martyrdom of Kannaki. 'Kannaki is depicted as the ideal wife in the celebrated legend of Kovalan and Kannaki presented in the Tamil epic *Silappathikaram*. Senguttuvan enshrines here as the Goddess of Chastity. The annual festival called 'Bharani' is being celebrated here with religious fervour and devotion in the Malayalam month of *Meenam* with the pious hope that the pilgrimage undertaken in these occasions are potent enough to safeguard the pilgrims, their relatives and friends from the perilous attack of small-pox. The chief offering of this Kali temple till 1954 was the sacrifice of cocks. This was stopped in 1954 in pursuance of the provisions of the Travancore-Cochin Animal and Birds Sacrifices Prohibition Act of 1953 (Act VII of

1953). Another feature of this festival was the recitation of a series of obscene and vulgar ballads, known as *Poorappattu*, by the pilgrims all along the way combined with drunk revelry. This has been prohibited by the Government in the recent years to the relief of the refined. Muslims also claim importance to Cranganore on the ground that it was this ancient city that welcomed the Islam for the first time in Kerala from where it spread as a living faith throughout Kerala. Traditions say that Cheraman Perumal, meeting by chance a group of muslim pilgrims, embraced Islam and left for Mecca. 'But the story of the Perumal's conversion to Islam based on the unacceptable evidence of *Keralolpathi* which was written only as recently as the 17th or 18th century A. D. has to be rejected as unhistorical. Nevertheless, like Christianity and Judaism, Islam too gained a foothold in Cranganore under the patronage of the enlightened and tolerant Chera monarchs. Most pr bably, the first mosque in Kerala was established in the Trichur district at Cranganore.' Cranganore with the Nattika firka on the north is virtually an island. Very recently this island was connected with the mainland by the construction of the Pullut Bridge. A fishing centre is being developed rap dly at Azhicode and already about 40 mechanised fishing boats are engaged in deep sea fishing. The development scheme of the Government envisages the construction of a boat building yard and an ice plant at Azhicode for which land acquisition proceedings are in progress. At present there are six high schools. The Junior Technical School was opened in September 1961.

Kottapuram

239. Kottapuram is an historically important place. This historical fort of the Portuguese is situated a furlong to the east of Kottapuram landing place, and it was constructed by the Portuguese in 1523 when they thought first of making Cranganore the seat of their chief power in Malabar.

Thiruvanchikulam

240. The most important historical site in the district is Thiruvanchikulam. The Cheras under Kulasekhara Varman re-established their political ascendancy about 800 A. D. and they chose Thiruvanchikulam, which is also called Makotai, Muyirikodu, Mahodayapuram, Mahodayapattanam and Vanchi in literature and inscriptions, as their capital. This second Chera Empire flourished till the beginning of the 12th century A. D. and they exercised their authority almost over the whole of Kerala The Thiruvanchikulam temple is dedicated to Siva and it is said to have been founded by the Saivite Saint Sundara Murti Nayanar and his royal friend Cheraman Perumal Nayanar. 'There are old frescos on the walls of this temple covering about 100 square feet. The temple contains not merely the usual images which one finds in Siva temples but also metallic representations of Sundara Murti and Cheraman Perumal'. The Cheraman Paramba is situated very near to the ancient temple of Thiruvanchikulam. This place is also known as Gotramaleeswaram and Allal Perinkovilakam. 'Today the Cheraman Paramba presents the picture of a deserted place, but it is a site which has a special importance of its own in the history of ancient Kerala. The Archaeological Department of the erstwhile Cochin State conducted certain trial excavations here in 1945-46. More than thousand relics were discovered from this place. These included pottery and shreds of different shapes and sizes, copper and iron objects, painted China pieces and lead balls'.

Mukundapuram Taluk (Area: 508.1 sq. miles, Population 466,957)

241. Mukundapuram taluk, the largest taluk in the district, is bounded on the north by Trichur, Alathur and Chittur taluks, on the east by Pollachi taluk of Coimbatore district, on the south by Devicolam, Kunnathunad, Alwaye and Parur taluks and on the west by Cranganore and Chowghat taluks. The chief crops are rice, cocoanut, tapioca and areca-nut.

Adur

242. Adur is situated three miles north-west of Koratti Angadi Railway Station and on the side of the Chalakudy river. This place is famous for the Annamanada temple. There was a long standing dispute between the rulers of Cochin and Travancore in regard to the sovereignty of this temple. This dispute was finally settled only in 1882 when the arbitrator appointed by the Madras Government finally decided this dispute in favour of Cochin. By this arbitration the sovereignty of the temple was vested with Cochin while the right of management of temple affairs was vested with Travancore. But twenty years later the Travancore ruler transferred this right to the Cochin ruler. About a mile to the interior to the east of Chalakudi-Anjal Road is situated the portion of Nedumcotta or the Travancore Lines. The Leprosy

Hospital and J & P Coats Ltd., (Jumna Thread Mills) are situated here. Steps are being taken to start a Government of India Press at Koratty. There is an old Catholic Church at Koratty dedicated to St. Mary. The *Perunnal* is celebrated in the Malayalam month of *Kanni* (the first Sunday coming after 10th October) every year and attracts lakhs of devotees from all the neighbouring districts. This church, dedicated to Mother Mary and venerably called as *Koratti Muthi*, is administered by the Arch Diocese of Ernakulam. This famous church contains beautiful pieces of wooden architecture and they are very attractive.

Chalakudy

243. Chalakudy, an important railway station on the Ernakulam-Shoranur broad gauge line, is situated on the right bank of the Chalakudy river. It is an important timber business centre. Historically also Chalakudy is famous. Tippu Sultan had used Chalakudy as his base during his operations against the Krishnakotta (Nedumkotta or Travancore Lines). The picturesque Adirappalli Waterfalls on the Chalakudy river is very near to the town. Chalakudy is connected with Poringalkuthu and Sholayar, the two important Hydro-Electric Projects.

Irinjalakuda

244. Situated five miles west of Irinjalakuda Railway Station, Irinjalakuda is the headquarters of Mukundapuram taluk. The Koodalmanickam temple is one of the ancient temples of the district and it is dedicated to Bharata, the brother of Sree Rama. The right of nomination of *Tachudaya Kaimal*, the head of the temple, was a subject of long standing dispute between Travancore and Cochin until the settlement in 1901. 'In the Koodalmanickam temple at Irinjalakuda there are several inscriptions in *Vattezhuthu* and Malayalam. Some of these records are of historical importance. One of them is assigned to the 11th regnal year of Emperor Sthanu Ravi. It consists of 13 lines and is engraved on a granite slab approximately 3′ x 5′ lying in the inner *Prakara* of the temple to the north of the *Sreekovil*. The inscription records a transaction which took place in the 11th regnal year of King Sthanu Ravi, when the *Parataiyars* and *Elaiyar* came to an agreement regarding temple affairs in the presence of the Emperor himself. The agreement sought to restrict the powers of the *Uralar* by prohibiting them from leasing out lands according to their will and pleasure'. The annual festival in this temple is conducted in the month of *Medom* (April-May). In addition to this temple there are two Catholic Churches and a Mosque. Irinjalakuda is also the birth place of Unnayi Warrier, the celebrated poet of the 18th century. He spent the greater part of his life at Trivandrum and he wrote the famous *Nalacharitham Attakkatha*. In commemoration of his memory the enlightened public of Irinjalakuda had now started the 'Unnayi Warrier Smaraka Kalanilayam'. The Irinjalakuda Municipal town was constituted in 1937. The Christ College, Irinjalakuda, the only First Grade College in the Mukundapuram taluk, was started in June 1956. Irinjalakuda is an important trading centre in cashewnut, areca-nut and pepper.

Karupadanna

245. Situated six miles south of Irinjalakuda and on the West Coast Canal, Karupadanna was a place of great commercial importance in olden times. Its importance was lost by the inauguration of Shoranur-Ernakulam railway line in 1902. Karupadanna is also an historically important place. 'It is believed by many scholars that this place must have been the Karur which has been referred to in the accounts for Ptolemy and Tamil poets as an alternate name for Vanji, the capital of the first Chera Empire'.

Mala

246. Situated eight miles south-east of Irinjalakuda, Mala was once the seat of black jews. 'The Ambalakad convent, one of the largest monasteries in the district, is situated, near Mala. Close to the monastery are to be seen the remains of the once famous seminary of Chembalur (St. Paul's village), bounded by Jesuit priests in the sixteenth century. One of the first printing presses in the whole of India was set up in the seminary and the first Malayalam book was printed here about the year 1577'. About a mile from Mala is situated the *Pampummekkatt mana*. This *mana* or house of the *Pampummekkatt* Namboothiri has full of snakes and he is regarded as the priest of serpent worship in all Kerala. It is also believed that he has the privilege of removing a serpent grove from one place to another.

Poringalkuthu

247. Situated about 30 miles east of Chalakudy town, Poringalkuthu is famous as the first hydro-electric project in the erstwhile Cochin State and it

contemplates the development of power from the Chalakudy river at a total cost of Rs. 399 lakhs.

Pudukkad

248. Pudukkad is an important centre of tile industry in the district. The Alagappa textiles is situated about 3 miles east of the railway station. The Alagappanagar Polytechnic which was established in July 1956 is an important institution here.

Sholayar

249. Sholayar is the second power scheme taken up for execution in the Chalakudy river basin and it is located 17 miles south of Poringalkuthu. The project is on the Sholayar, a tributary of Chalakudy river.

Talappilly Taluk (Area: 256.0 sq. miles, Population: 319,588)

250. Talappilly, the second largest taluk in the district, is bounded on the north by Ponnani and Ottapalam taluks, on the east by Alathur taluk, on the south by Trichur taluk and on the west by Chowghat and Ponnani taluks. The chief crops are rice, tapioca, cocoanut, ginger and rubber. Areca-nut is also grown extensively.

Arthat

251. Situated two miles south of Kunnamkulam, Arthat is an important place for mat-making, rattan work and pottery. Here is an old and famous Jacobite Syrian church, the possession of which was a subject of prolonged dispute between Jacobites and Reformed Syrians. The legendary says that during the invasion of Tippu Sultan he had invaded Arthat church, plunged the ornaments and other valuable properties of the church and camped inside the church for some days.

Chelakkara

252. Situated five miles east of Mullurkara railway station and in the midst of fertile fields, Chelakkara was the seat of the powerful Pisharody chief, Totassery *Talachennavar* of Perathuvithi who was deprived of his estates in 1767 for submission to the Zamorin. In 1762 a pitched battle was fought between the Travancore and Cochin forces on the one side and the Zamorins's forces on the other. A mile to the north of Chelakkara is Parya Venganellur temple. The Kaliarode *Palli* which is a sacred place for Muslims is situated five miler north-east of Chelakkara.

Cheruthuruthy

253. Situated on the left bank of Bharathapuzha and about 20 miles from Trichur, Cheruthuruthy is the modern centre of artistic revival. Poet Laureate Vallathol Narayana Menon, who translated Rigveda and Valmeeki Ramayana into Malayalam, founded the *Kerala Kala Mandalam*, the famous dance centre, to encourage the study of the ancient arts of Kerala such as Kathakali—the famous pantomime dance-drama and Mohiniattam. It has had outstanding teachers like Guru Kunchu Kurup and Ramunni Menon and has produced a number of well known persons like Krishnan Nair, Ramankutty and Gopinath to name but a few. The river is here spanned by a road bridge and on the other side is the Shoranur Railway Junction. A tourist bunglow is proposed to be constructed here. Mat-making is the main industry of this region.

Chowannur

254. Situated two miles north-east of Kunnamkulam, Chowannur is said to have once been a great educational centre where Namboodiri youths were given training in Sanskrit. The *Sabha Mutt*, an institution managed by the Cochin Devaswom Board imparts education in Sanskrit to a small number of pupils. The main industries of this locality are rattan work and oil pressing.

Kunnamkulam

255. Kunnamkulam is an important centre of the Jacobites and contains some of their famous churches. It is also one of the centres of the Church Mission Society. Printing, book-binding, spinning and weaving are the important trades here. In addition to oil mills, rice mills, civil engineering and industrial institutions it is also an important areca-nut trading centre. The Kunnamkulam Municipality was established in 1949.

Kuthampilly

256. Situated four miles south-west of Lakkidi railway station and two miles to the west of Thiruvilwamala, Kuthampilly is a famous handloom-weaving centre. Most of these weavers are *Chetans* or *Devanga Chettis* of Mysore, who left their State on account of Tippu's religious persecution in the end of the

eighteenth century. Different varieties of cloths, saris, shirtings etc. are exported from here day by day.

Mullurkara

257. Situated sixteen miles from Trichur by rail Mullurkara was the seat of the Manakot Nair who was the chief of Ayirunad. He was dispossessed of his estates about 1740 for accepting the Zamorin's suzerainty and those estates were taken over by Paliath Achan. There is a fort believed to have been built by Paliath Achan in 1740 to protect his territory from Zamorin's attacks.

Pazhanhi

258. Pazhanhi, an important non-municipal town in the district, is a famous centre of areca-nut trade in the State. Rattan work and crushing of copra are the other main industries of this town.

Pazhayannur

259. Situated eleven miles to the east of the Mullurkara railway station, Pazhayannur is famous for a well known Bhagavathi temple the tutelary deity of the Cochin Royal family. It is also an important industrial centre. The main industries are cotton weaving, mat-making and pottery. The Cheerakuzhi Regulator is also situated here.

Porkulam

260. Situated two miles north of Kunnamkulam, Porkulam is historically an important place. This place is also known as Vedakkad meaning the forest of Vedas because the famous poets like Uddanda Sastri and Kakkasseri Bhattatiri lived here. It was also the birth place of the Payyur Bhattatiris. Porkulam is also an important place of pre-historic relics. 'The port-hole cist at Porkulam is a clear one with a bench inside it. Three dilapidated cists are found in the vicinity of Porkulam, two of them surrounded by a common stone circle'. Port-hole cist is "an underground box-like structure made first by scooping out a rectangular chamber in the laterite and then lining the floor and the sides with granite slabs and lastly by covering the whole with a granite roof-slab. The trapezoidal port-hole in the eastern orthostat is externally blocked by a separate smaller slab on the outside. On the ground surface the cist is surrounded by a stone-circle, of dressed laterite boulders".

Thiruvilwamala

261. Situated on the left bank of Bharathapuzha, one mile to the south of Lakkidi railway station, Thiruvilwamala is famous for its temple which is built on the top of an extensive granite hill. This temple is dedicated to Rama and Lakshmana. The annual *Ekadasi* festival is held here in February-March which attracts thousands of pilgrims. Rattan-work, weaving and manufacture of bricks are the important industries here.

Wadakkancherry

262. Situated on the bank of the Wadakkancherry river and an important railway station in the Shoranur-Ernakulam section of the Southern Railway, Wadakkancherry is the headquarters of Talappilly taluk. The Vazhani Irrigation Project is located 6 miles east of Wadakkancherry railway station. The dam which is constructed across the Wadakkancherry river has a capacity of 640 million cubic feet. This project was inaugurated on 6th December 1959. The forest area surrounding the Vazhani lake formed by the dam has been declared as a wild life sanctuary and the project is being developed as a tourist centre.

Trichur Taluk (Area: 145.5 sq. miles, Population: 461,915)

263. Trichur taluk is bounded on the north by Talappilly taluk, on the east by Alathur taluk, on the south by Mukundapuram taluk and on the west by Chowghat taluk. The taluk contains most of the *kolè* lands of the district. The chief crops are rice, cocoanut, rubber, tapioca and areca-nut.

Anthicad

264. Situated 12 miles south-west of Trichur on the bank of Enamakkal lake, Anthicad was formerly the headquarters of Enamakkal when it was a separate taluk. This place has got large acres of land under *kole* cultivation.

Arattupuzha

265. Situated nine miles to the south of Trichur, Arattupuzha is a well known place on account of the *Pooram* festival celebrated here in the month of *Medom*. 'Idols from 41 temples in the neighbourhood of the village including the Arattupuzha temple and the Amman Tiruvadi temple at Cherpu are brought

at night in procession to this village on rows of gaily caparisoned elephants to the accompaniment of music, trumpets, tom-tom, illumination and magnificent display of fire-works. When the processions meet there before break of the dawn there are as many as fifty or sixty elephants. It is probable that Arattupuzha was so called because all the deities taken in procession had their 'arat' (holy immersion) in the waters of the Arattupuzha river. Thousands of people attend this magnificent and colourful ceremony.

Mannuthy

266. Situated four miles east of Trichur town limit Mannuthy is famous for its Government Agricultural Farm. The Government Veterinary College and the Refresher Training Centre are also situated here.

Mulankunnathukavu

267. Mulankunnathukavu formerly known as Killannur is situated six miles north of Trichur on the way to Shoranur. There is an ancient and well endowed temple dedicated to Sastha and this place is known after the name of the temple. The Kerala Varma Sanatorium, one of the important sanatoria in the whole State, is situated here. The Mahalekshmi Cotton Mills is also located here.

Ollur

268. Situated three miles to the south of Trichur Ollur is an important industrial centre. This place is well known for its tiles, rice mills and timber industries. Another important small scale industry is the polishing of imported synthetic stones from Switzerland. After polishing and processed these imitation stones are re-exported to foreign countries. The only Industrial Estate of the district is located here. There is an ancient and famous Roman Catholic Church here. The *Perunnal* festival of this church is celebrated in every year during the month of *Thulam*.

Peechi

269. Fourteen miles east of Trichur is situated the Peechi dam constructed across the Manali river. This dam of 700 feet long and 134 feet high supplies 4,000,000 gallons of drinking water to the Trichur Municipal town, controls floods in the Karuvannur river basin and affords navigation facilities. In addition to this it has got a beautiful botanical garden and park provided with attractive fountains and cascades. An Engineering Research Institute containing models of dams, harbours, power projects etc. was opened here in June 1960. It is developing as a tourist centre.

Perumanam

270. Situated six miles to the south of Trichur Perumanam is famous for its Siva Temple, one of the largest and best endowed in this district. It was formerly under the management of a *Yogiatripad*, elected and consecrated by the *Namboothiri yogam* of Perumanam. 'A large part of Trichur taluk was for long under the domination of *Yogiatripads*, the ecclesiastical heads of the Vadakkunathan and Perumanam *Devaswoms*. The *Yogiatripads* were elected and consecrated by the Namboothiri *yogams* of the respective places. Under their leadership the Namboothiri families of Trichur and Perumanam were playing an active part against the ruler of Cochin in his wars against the Zamorin of Calicut. Hence after the expulsion of the Zamorin from Trichur in 1762 drastic action was taken against these families by the Raja of Cochin. The institutions of *Yogiatripads* was discontinued and the management of Trichur and Perumanam *Devaswoms* were taken over by the Government. The Namboothiri *yogams* were reduced to impotence.' In the middle of the 18th century the temple and its properties forming the endowment for the mid-day service in the temple had been for a long time under the Raja of Parur and on the cession of Parur to Trivandrum in 1764 Travancore claimed some rights of management in the temple and exercised them for several years. The dispute between Travancore and Cochin about these rights was settled only in 1882, when Travancore got the right of managing the midday service endowment. After some years, however, Travancore surrendered it to Cochin. There are some mural paintings believed to belong to 17th and 18th centuries on the *Srikovil* of this temple.

Trichur

271. Trichur is the headquarters of the taluk and also of the district. This beautiful town is built around a hillock crowned by the famous Vadakkunathan (Siva) temple, the largest, best endowed and

ancient temple of the district. It is surrounded by thick and lofty walls with massive *gopurams* on four sides. Outside the walls there is an open ground, about 65 acres in extent, popularly known as *Thekkinkad Maidan*. There are three main shrines in the temple of which the central shrine contains old mural paintings dating from 16th and 17th centuries which depict the battle scenes from the *Mahabharathi*, a few decorative designs and two paintings of Siva including the *Tandava* dance. The temple is a classic example of the Kerala style of architecture. Most of the temple buildings particularly the *gopurams* (with celebrately ornamented gables), the *Koothampalam* and central shrines contain exquisite vignettes of wood carving. Till the middle of the 18th century the temple was managed by *Yogiatripads* elected and consecrated by the Namboothiri *yogam* of Trichur. After the expulsion of Zamorin in 1762, the management of the temple was taken over by the Government. The annual *Pooram* festival is celebrated here in the month of *Medom* (April-May) and it attracts lakhs of people from all parts of Kerala. Trichur is an important centre of Syrian Christians. The Puthen Palli is a fine modern church which blends Indian and Gothic architecture. Trichur was the scene of many historical events, including its capture and occupation, by the Zamorin during 1750-60, by Hyder Ali's General Sardan Khan in 1776, and by Tippu in 1789. In 1774, the town and palace were fortified by mud walls and trenches. A detachment of Madras Infantry was stationed here from 1809 till 1860. Trichur owe its present importance to Raja Rama Varma (Sakthan Tampuran—1789-1805). He cleared the surrounding forests and encouraged the merchants to settle down here. The Town Hall, an imposing building, contains a Chitralayam and a picture gallery where mural paintings from all parts of the State are copied and exhibited. A museum and zoo are housed in the Public Gardens. Three colleges for General Education are situated here. It is also the centre of Kerala Sahitya Academi and Kerala Sangeeta Nataka Academi. The chief industries are cotton textiles, timber, rice milling, printing, engineering works, bricks and tiles.

Urakam

272. Urakam, a village contiguous to Perumanam is well-known for its Amma Tiruvadi temple. In the war between Cochin and Calicut, Urakam fell into Zamorin's hands more than once. Early in the 18th century, a pitched battle was fought here in which the Calicut forces were defeated.

**This table includes area, houses and population of unsurveyed forest areas also.

Note:—1 Under columns 3 (a) and 3(b). (a) represents the area figures furnished by Surveyor General of India, and
(b) represents the area figures furnished by the State Survey Department. The urban areas are based on the area of individual towns furnished by the local authorities. The rural area for a district is obtained by subtracting the urban area from the State Survey area.

2 The sq. km. and density figures of urban areas of District/State are worked out using the area figures corrected upto two places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the table. In addition to this the figures relating to sq. km. are further adjusted to make the District/State totals agree.

3 Population per sq. mile has been calculated on area figures supplied by State Survey Office.

§ These two are only portions of two villages consisting of paddy field and uncultivated land lying in the rural areas. The urban portions of these villages lying in two municipal towns are inhabited.

(ii) TRICHUR DISTRICT TABLES

A - General Population Tables

A-I AREA, HOUSES AND POPULATION

Fly-leaf

Effect of States Reorganisation in 1956

1. Kerala State was formed with effect from 1st November 1956 as per the States Reorganisation Act, 1956 (Central Act 37 of 1956). Sections 4 and 5 of the States Reorganisation Act, 1956 fixing the territories are extracted below:-

"4. As from the appointed day, there shall be added to the State of Madras the territories comprised in the Agastheeswaram, Thovala, Kalkulam and Vilavancode taluks of Trivandrum district and the Shencottah taluk of Quilon district; and thereupon:-

(a) the said territories shall cease to form part of the existing State of Travancore-Cochin;

(b) the territories comprised in the Agastheeswaram, Thovala, Kalkulam and Vilavancode taluks shall form a separate district to be known as Kanya Kumari district in the State of Madras; and

(c) the territories comprised in the Shencottah taluk shall be included in, and become part of Tirunelveli district in the State of Madras.

5. (1) As from the appointed day, there shall be formed a new Part A State to be known as the State of Kerala comprising the following territories, namely:-

(a) the territories of the existing State of Travancore-Cochin, excluding the territories transferred to the State of Madras by section 4; and

(b) the territories comprised in—

(i) Malabar district, excluding the islands of Laccadive and Minicoy and

(ii) Kasaragod taluk of South Kanara district; and thereupon the said territories shall cease to form part of the States of Travancore-Cochin and Madras respectively.

(2) The territories specified in clause (b) of subsection (i) shall form a separate district to be known as Malabar district in the State of Kerala".

Territorial changes between 1951 and 1961

2. The changes in jurisdiction of taluks, villages etc. between 1951 and 1961 are as follows:-

i Transfer of Edavilanga bits 1 & 2, Poyya, Madathumpadi and Pallipuram villages of Mukundapuram taluk to Cranganore taluk on 1st October 1956.

ii Addition of Kottapuram kara covered by Sy. Nos. 314, 315 and 316 of Vadakkekara village of Parur taluk to Methala village of Cranganore taluk on 1st October 1956

iii Addition of Puthenchira village of Parur taluk to Mukundapuram taluk on 1st October 1956

iv Addition of Fort Cochin taluk and newly formed Chowghat taluk to Trichur district on 1st January 1957 as per notification number SRN 3-29174/56 dated 19th December 1956

v Transfer of Parur, Kunnathunad and newly formed Alwaye, Cochin and Kanayannur taluks to the newly formed Ernakulam district on 1st April 1958 as per notification number C. No. 13879-B2/58 dated 24-3-1958. (Details of the constitution of Alwaye, Cochin and Kanayannur taluks and the formation of Ernakulam district are furnished in the District Census Handbook for Ernakulam district)

Area Figures

3. The area figures of the district given by the Surveyor General, India is 1,149 sq. miles. The figure does not tally with the area figures given by the Director of Survey and Land Records, Kerala, which is 1,137.02 sq. miles. The area figures given in this handbook are those furnished by the State Director of Survey and Land Records. In regard to municipal towns the figures for area have been furnished by the respective municipal commissioners in consultation with the Director of Survey, District Collector and Tahsildars. The area figures of non-municipal towns are supplied by the concerned Tahsildars.

Definition of urban area — A historical survey

4. It has not been possible to adopt a uniform definition of urban area throughout the world. It differs from country to country, even in the highly industrialized West. The first census in Cochin was taken in 1820 followed by similar Censuses in 1836, 1849 and 1858 prior to the commencement of the Imperial Census. These furnished only rough estimates of population. After the commencement of the

Imperial Census the first census held in Cochin was in 1875 followed by subsequent Censuses in 1881 and thereafter every 10 years. Till 1891 no attempt had been made to census the urban population separately. It was in 1891 only that for the first time the towns of Cochin were censused as such. Although the limits of each town was defined, no definite principle seems to have been followed in their selection. Though the town, as a term, was of vague application, it was admitted that the minimum of 5,000 inhabitants was absolutely necessary to constitute it. But this minimum, by itself, was not taken to classify a place as a town. Size, compactness and certain architectural, commercial or industrial features were also considerations which weighed with the authorities in selecting a town. A collection of numerous buildings near each other within a limited area, together with good roads and buildings and shops for the continuous supply of goods, especially manufactured goods, was also regarded as essential. Judged by these standards Irinjalakuda and Trichur were treated as towns in 1891 when the enumeration of the urban population as such was for the first time attempted in the Cochin State. In 1901 Kunnamkulam was added to this list of towns. There was no addition of town in the Census of 1911. In 1921 Cranganore was treated as a Census town for the first time. The 1931 Census of Cochin followed the Imperial definition of the town which treated

(i) every municipality of whatever size;

(ii) all civil lines not included within the municipal limits;

(iii) every cantonment and

(iv) every other continuous collection of houses permanently inhabited by not less than 5,000 persons as a town.

Chalakudy and Wadakkancherry were newly treated as census towns and the towns which existed in the previous censuses were continued as such. In such cases the area selected as a town was limited to about a sq. mile in extent. A town for the purposes of the Census of 1941 was defined to include.

(i) every municipality and

(ii) every other continuous collection of houses which having regard to the character of the population, the relative density, importance as a centre of trade and other amenities may be deemed to have urban characteristics.

The Census Commissioner of India had instructed that while there would not be any objection for Provincial Superintendents to treat a place as a census town irrespective of its population, for the purposes of all-India comparison only those places with a population of more than 5,000 should be considered as urban. Ollur and Pazhanhi are treated as census towns for the first time in this census. Both of them had only a population of less than 5,000. Ollur had from every other point of view the characteristics of a town. Pazhanhi besides having other urban characteristics was one of the more important centres of arecanut trade in the State. The other places which were treated as census towns in the previous census continued. During the inter-census period of 1941-51 the States of Travancore and Cochin were integrated into Travancore-Cochin State. The places which were treated as towns for the first time in 1951 are Azhicode and Eriyad. All the towns which existed in 1941 also continued as towns in 1951. Owing to the growing importance of urbanisation, the 1961 Census laid down a three fold criterion for the classification of an area as a town besides corporations, municipalities, civil lines and cantonments which were automatically recognised as towns. According to this criterion, only places with a minimum population of 5,000 persons and a density of not less than 1,000 persons per sq. mile with at least 75 per cent of the male population engaged in non-agricultural pursuits that should be recognised as a town. The population, density and extent of male population engaged in non-agricultural pursuits were to be determined with reference to the census figures of 1951. In view of the new definition of a town adopted in this census 4 towns viz., Cranganore, Eriyad, Azhicode and Ollur were declassified as rural. Exceptions were however allowed where an area may have a population of less than 5,000 but has definite urban characteristics and amenities. Similarly where a place was treated as a town in 1951, but is not eligible to be treated as a town in 1961, if the State Government desired that it should be treated as a town in 1961, it was considered as an exceptional case. Pazhanhi, Wadakkancheri, Chalakudi and Chowghat were the towns that did not satisfy the criterion. Of these Pazhanhi, Wadakkancherry and Chalakudi were census towns in 1951. Chowghat was treated as a town for the first time in 1961 because of its growing importance. Chowghat has the distinction of being a well known place of pilgrimage because of the Guruvayur temple. In view of the proposal to treat this place as a pilgrim centre and to constitute a township in this area this place was treated as a town. All these cases of exceptions

were included in the list with the concurrence of the State Government.

5. The following statement gives the number of towns for the various censuses.

Progress of Census towns since 1901

1901	1911	1921	1931	1941	1951	1961
3	3	4	6	8	10	7

Census Village

6. For the purposes of the 1961 Census a village means a revenue village. These villages have karas, muris or desoms as the constituent units in most cases. Unlike in the previous censuses the karas, muris or desoms have not been treated as census villages in 1961. Tables A–I and A–III are given on the basis of revenue villages. However, in view of the different definitions of a census village adopted in the previous censuses a special Table A–III is given furnishing the number of census villages according to the definition of census village in 1951 Census also i. e., according to number of karas, muris or desoms. Trichur district has 244 villages out of which 5 villages lie wholly in towns and 21 partly in towns. The particulars of this item are given in statement No. 1 of Part A supra.

Census House

7. A census house is a structure or part of a structure inhabited or vacant, giving on the road or a common stair case or a common courtyard leading to a main gate or enjoying a separate entrance. It may be a dwelling, a shop, a shop–cum–dwelling, a workshop–cum–dwelling or a place of business, workshop, school etc.

Occupied Residential House

8. An occupied residential house is a census house occupied by one or more census households and includes a shop–cum–dwelling, workshop–cum–dwelling and a dwelling with other uses. Even where more than one household occupy one census house, it is considered as only one occupied residential house.

Natural Divisions

9. Since 1901 the territories comprising Malabar district and Kasaragod taluk of the South Kanara district came under the sixth natural division of Madras designated as West Coast Division. There was no further sub division on the basis of meteorological or geographical features. In the Cochin State no natural divisions were formed in any of the censuses. The reason for this has been given in the Census Report of 1931 of Cochin as follows:—

"With the diversity in its physical features it is no doubt possible to divide the State for statistical purposes into district areas or Natural Divisions in which the natural features are more or less homogenous, but the small area of Cochin will neither warrant such divisions nor justify the time and labour involved in the preparation of separate statistics for each of them". By 1951 the integration of Travancore and Cochin had already taken place. In the Census of 1951 of Travancore–Cochin, therefore, the classification of the State into three natural divisions viz., Highland, Midland and Lowland, was followed, "the highland comprising the Ghats which gradually decrease in height as they go west", "the midland or the central belt consisting of series of uplands and plains which sink gradually in level towards the west" and "the lowland or littoral tract". The above classification was followed down to the level of the revenue villages, a procedure adopted for the first time in the Census Report of Travancore in 1941. In none of the Census Reports referred to above the contour lines which divide the natural division have been given. In the present Census natural divisions are formed based on the contour lines, the whole state being divided into three natural divisions based on the following criterion:—

(i) Highland consisting of areas lying 250 feet and over above the mean sea level

(ii) Midland comprising of areas lying between 25 feet and 250 feet above the mean sea level

(iii) Lowland consisting of the areas falling below 25 feet above the mean sea level

Since the contour maps of the Survey of India for Kerala shows the contours only upto 50 feet, it was inevitable that the determination of the areas falling in the classification of lowland had to be done with reference to the reports of the Municipal Commissioners and Tahsildars who had necessarily to depend upon a certain amount of approximation for the purpose. There are, indeed, some revenue villages lying partly in one classification and partly in another. In all such cases the village was classified according to the category in which its major portion fell. In the case of towns also the same principle was followed. It could be said with some amount of gratification, but not without some reservation due to the non-availability of contour maps below 50 feet above the

mean sea level, that for the first time in Kerala, the classification by natural divisions has been done on the basis of contour lines.

APPENDICES

Appendix I

10. This appendix gives the 1951 territorial units constituting the present set up of Trichur district down to taluk level. All notified changes that have taken place since 1951 Census are incorporated in this Appendix.

11. The revised area figures, based on the latest village-wise figures furnished by the Director of Survey and Land Records, were adopted for preparing this Appendix.

12. The symbol number 1 is assigned to the newly constituted Chowghat taluk. The Annexure to Appendix I gives the details involved in this change with reference to the 1951 District Census Handbooks.

13. The sub-appendix to Table A-I shows the area of Trichur, Kunnamkulam and Irinjalakuda municipal towns which had undergone changes in area since 1951.

Appendix II

14. Appendix II to Table A-I shows the number of villages with a population of 5,000 and towns with a population under 5,000 for each taluk. There is no town in the district with a population of less than 5,000 in 1961.

Appendix III

15. Appendix III to Table A-I furnishes figures of house-less and institutional population. An institution is a place where unrelated persons are living together.

**This table includes area, houses and population of unsurveyed forest areas also.

† The sq. km. and density figures of urban areas of taluk/district are worked out using the area figures corrected upto two places of doeimals obtained by adding the areas of the towns in the respective units and not using the area figures given in the table. In addition to this the figures relating to sq. km. are further adjusted to make the taluk/district/state totals agree. The sum of areas given separately for Highland, Midland and lowland areas for each taluk in each of the two categories — Total and Rural—will differ slightly from the consolidated figures given for the taluk as a whole. This is due to differences in computation at the level of decimals for the natural divisions of each taluk.

New towns in 1961 are printed in *italics*.

£ This is only portion of a village consisting of paddy field and uncultivated land lying in the rural area. The urban portion of the village lying in Kunnamkulam Municipal town is inhabited.

M. Municipal N. M. Non-Municipal

A–I AREA, HOUSES AND POPULTION

APPENDIX I

Statement showing 1951 *territorial units constituting the present set-up of Trichur district*

Note:–Only those territorial units which have undergone changes since 1951 have been shown in this Appendix. The area figures of several taluks given in the A–I table of 1951 Census do not tally with the total area of the ultimate units given in the rural and urban statistics of the District Census Handbooks. These discrepancies are not also seen explained anywhere. Hence these area figures have not been accepted for purposes of this Appendix. Instead, the area figures arrived at in consultation with the Director of Survey and Land Records, Kerala, District Collector, Municipal Commissioners and Tahsildars have been adopted. The area figures of portions transferred to this state exhibited in this Appendix will not, therefore, agree with those furnished by the Superintendents of Census Operations, Madras and Mysore.

District/Taluk	1951 Territorial units	Details of gain in territories: Brief description	Area in sq. miles	Area in sq. km.	Details of loss in territories: Brief description	Area in sq. miles	Area in sq. km.	Net area (Gain '+', Loss '–'): sq. miles	sq. km.

A-II VARIATION IN POPULATION DURING FORTY YEARS

Fly-leaf

Adjustments of Population

1. Table A-II furnishes the variation in population for the last five Censuses from 1921 to 1961 adjusted according to the present jurisdiction of the district. A full account of the territorial changes between 1951 and 1961 affecting the jurisdiction of the district and taluks are given in the fly-leaf to Table A-I supra. The districts were brought up-to-date as in 1961 on the basis of these changes. Where the territorial changes affected the units within the district the population figures were available in the District Census Handbooks for 1951 Census if such changes related to the entire tracts or units adopted for that census. Except in the case of urban areas such units went down to the level of villages and desoms. Where, however, the changes affected either an entire urban tract or the ultimate rural unit which may be a village or desom, as the case may be, the population of the affected portion had to be estimated. For purposes of this estimation in the case of the 1951 population it was assumed that the proportion of the population of the affected portion to the total population of that particular unit is the same as the proportion of the area of that affected portion bore to the total unit. Hence, the formula adopted for estimating the 1951 population in the case of areas affected by changes was,

$$\frac{\text{Area of the affected portion}}{\text{The area of the entire unit}} \times \text{Population of the entire unit}$$

In estimating the male and female population of such affected portions the same sex-ratio which existed in the case of the entire unit was applied to the affected portions also.

2. In estimating the population of this district for 1941 wherever the population figures were not available as such for any portion of a unit affected by the territorial changes it was assumed that the proportion of the population of that affected portion to the population of the whole unit as per the 1951 Census was applicable to the previous census also. Thus the formula applied was,

$$\frac{\text{The population of the entire unit in the 1941 Census}}{\text{The population of the entire unit in the 1951 Census}} \times \text{The population of the affected portion in the 1951 Census}$$

The same formula was applicable to the previous Censuses *mutatis mutandis* i. e. for the year 1951 the Census year prior to the one for which the population had to be fixed was substituted and for the year 1941 the year of the particular Census for which the population had to be estimated was given. For purposes of sex distribution the proportion applicable for the entire unit in the previous census was made applicable for the affected portion in the concerned census also.

Appendix

3. The Appendix to Table A-II furnishes the areas and population affected by each territorial change of jurisdiction since 1951. The foot-notes of this appendix give the dates of transfers.

* Area figures under columns 2, 3, 5 and 6 relate to the area figures by the State Survey Department.

** From Ist October 1956 territorial redistribution in respect of taluks and villages in the Trichur district was effected for the purpose of administration of the revenue Department. On the same date the new taluks Cochin, Kanayannur and Alwaye were formed. From the Ist January 1957 Chowghat taluk (Portion of Ponnani taluk of Malabar district) and Fort Cochin taluk of Malabar district were transferred to the Trichur district. On 15-3-1957 five villages of Ponnani taluk were transferred to the existing Chowghat taluk. With effect from Ist April 1958 a new district by name, 'Ernakulam' with head quarters at Ernakulam comprising the taluks of Alwaye, Parur, Kunnathunad Kanayannur and Cochin of Trichur district and Muvattupuzha and Thodupuzha taluks of Kottayam district was formed.

§ Chowghat taluk was formerly part of Ponnani taluk of Malabar district. This new taluk was formed on Ist January 1957 and was added to Trichur district on the same date.

£ On Ist October 1956 Edavilanga bits 1 & 2, Poyya, Madathumpady and Pallipuram villages of Mukundapuram taluk and Kottapuram kara of Vadakkekara village of Parur taluk were added to the Cranganore taluk.

† On Ist October 1956 Puthenchira village of Parur taluk was added to this taluk while Edavilanga bits 1 & 2, Poyya, Madathumpady and Pallipuram villages transferred to Cranganore taluk.

A-III VILLAGES CLASSIFIED BY POPULATION

Fly-leaf

1. The definition of village has been given in the fly-leaf to table A–I. Besides table A–III which gives the revenue villages by population sizes another table furnishing the distribution of muris / desoms according to the population sizes has also been given as a special table A–III.

2. The statement given below shows the percentages of population of each taluk living in villages of various population sizes:–

Percentages of population living in villages of various population sizes with reference to the total rural population in each taluk, 1961

District/Taluk	Less than 200	200-499	500-999	1,000-1,999	2,000-4,999	5,000-9,999	10,000 and above

SPECIAL TABLE A-III MURIS/DESOMS CLASSIFIED BY POPULATION

Fly-leaf

The 1961 Census village (i.e. revenue village has muris/desoms as its constituent units. These constituent units have been treated as census villages in the previous census. This necessitated the preparation of a special table A–III. This table gives the figures for the number and population of muris/desoms in the following population groups:—

1	Population of less than	200		Persons
2	,,	200—	499	,,
3	,,	500—	999	,,
4	,,	1,000—	1,999	,,
5	,,	2,000—	4,999	,,
6	,,	5,000—	9,999	,,
7	,,	10,000 and above		,,

A-III VILLAGES CLASSIFIED

A-IV TOWNS (AND TOWN-GROUPS) CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1901

Fly-leaf

Definition of Town

1. In the fly-leaf to the table A-I supra the definitions of town accepted in the various censuses up to 1961 have been furnished.

Classification of Cities and Towns

2. The towns are classified according to their population as given below:—

Class	I	Towns with a population of	100,000 and above
Class	II	Towns with a population of	50,000—9,999
Class	III	Towns with a populatton of	20,000—49,999
Class	IV	Towns with a population of	10,000—19,999
Class	V	Towns with a population of	5,000— 9,999
Class	VI	Towns with a population of less than	5,000

Changes in classification of towns with their status

3. The following statement gives the changes in the classification of towns from 1901 to 1961.

Changes in classification of towns, 1901—1961

	Town	Census year						
		1961	1951	1941	1931	1921	1911	1901
1	Pazhanhi	IV(T)	VI(T)	VI(T)	..	..	..	..
2	Kunnamkulam	IV(M)	IV(M)	IV(T)	IV(T)	V(T)	V(T)	V(T)
3	Wadakkancherry	IV(T)	V(T)	V(T)	V(T)	..	..	..
4	Trichur	II(M)	II(M)	II(M)	III(M)	III(M)	III(M)	IV(T)
5	Chowghat	III(T)	..	..	..	..	..	..
6	Irinjalakuda	III(M)	IV(M)	IV(M)	IV(T)	V(T)	V(T)	V(T)
7	Chalakudy	IV(T)	IV(T)	V(T)	V(T)	..	..	..
8	Azhicode	D	V(T)	..	..	..	..	..
9	Cranganore	D	IV(T)	IV(T)	V(T)	V(T)	..	..

T—Town D—Declassified Town M—Municipal Town

Appendices

Appendix I

4. Appendix I to table A-IV gives the area and population of the new towns added in 1961 and the 1951 towns which have been declassified in 1961. Note A to this appendix furnishes the names, areas and population of the 1951 villages which consitute the newly added towns of 1961. Note B to this appendix shows the name of town which has ceased to be town in 1961 with the name, area and population of the village or villages into which it has relapsed in 1961.

Appendix II

5. Appendix II to table A-IV furnishes the jurisdiction of all seven towns based on the 1961 set up.

Appendix III

6. Appendix III to table A-IV shows the list of places which were taken into account for striking class total of population at some census or other but which were excluded from reckoning in certain censuses when they did not enjoy urban status.

A-IV TOWNS (AND TOWN-GROUPS) CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1901

Name of Town/ Town group	Status of Town	Year	Persons	Decade variation	Percentage decade variation	Males	Females
1	2	3	4	5	6	7	8

		1951	**4,581**	— 3,798	— 45.33	**2,152**	**2,429**

Note:— 1 Towns treated as such for the first time in 1961 are printed in *italics*.

2 Area figures given in column 1 relate to 1961 Census.

3 The total for any class in any past census has been worked out as the total of towns of that particular class in that particular census. They include towns which might have been individually withdrawn from urban status in a preceeding or succeeding census.

4 Status of Town given in column 2 relates to 1961.

A-IV TOWNS (AND TOWN-GROUPS) CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1901

APPENDIX I

New towns added in 1961 and towns in 1951 declassified in 1961

[Name of town treated as such for the first time in 1961 (vide column 1) is printed in *italics*]

New town added in 1961					Towns in 1951 which has been declassified as rural in 1961				
	Area		Population			Area		Population	
Name of Town	Sq. miles	Sq. km.	1961	1951	Name of Town	Sq miles	Sq. km.	1961	1951
1	2	3	4	5	6	7	8	9	10
Chowghat	5.64	14.61	28,903	18,602	Cranganore	1.73	4 48	N. A.	12,862
					Eriyad	3.67	9.51	14,275	11,892
					Azhicode	2.79	7.23	9,483	7,119
					Ollur	0.59	1.53	N. A.	5,827

N. A. denotes not available

Note A—*Statement showing the names of towns which have been newly added in 1961 with the name and population as in 1951 of each village constituting the town*

	Constituent villages			
		1951		
Name of new town	Name	Location code number	Area in Sq. miles	Population
1	2	3	4	5
Chowghat	1 Manathala	R. 211-91	3.44	12,224
	2 Chowghat	R. 211-92	Included in R. 211-91 and R. 211-93	1,822
	3 Guruvayur	R. 211-93	2.21*	4,556

R—denotes rural tract number

* This area figure has been subsequently revised in 1961 Census.

Note B—*Statement showing the name of town which has ceased to be town in 1961 with the name, area and population of the village or villages into which it has relapsed in 1961*

	Constituent villages			
		1961		
Name of 1951 Census town declassified in 1961	Name	Location code number	Area in sq. miles	Population
1	2	3	4	5

Azhicode	Azhicode	4-4-5	2.80	9,483

Note:—Details regarding Cranganore and Ollur towns are not available

A-IV TOWNS (AND TOWN-GROUPS) CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1901

APPENDIX II

Details of constitution of towns with their area and jurisdiction

Note:- In this Appendix the jurisdiction of towns based on the 1961 set up is taken into account. The jurisdiction of certain towns given in this appendix is different from that given in Note A to Appendix I to table A-IV as the latter is based on the 1951 set up.

Town with area in acres		Jurisdiction with area in acres of each unit
1		2
Pazhanhi	(4,165.74)	Kattakampal (2,198.71) and Pazhanhi (1,967.03) villages
Kunnamkulam (Municipal)	(1,720.99)	Portion of Kunnamkulam village (1,622.59) and portion of Kavanam chitturkara (31.60) in Chowannur village, portions of Anaikad and Kanipayyoor karas (62.69) of Kanipayyoor village and portion of Anjur village (4.11)
Wadakkancherry	(2,928.41)	Wadakkancherry village excluding the reserve forest (2,683.88), Paruthipara muri (167.57) of Enkakad village and Ottupara Angadi (76.96) of Kumaranellur village
Trichur (Municipal)	(3,130.81)	Angadi, Poothole, Kizhakkumpattukara, Paramekkvu, Veliyannur, Chirakkal and Kottapuram desoms and portions of Chembukavu and Poonkunnam desoms in Trichur village (2,017.63); portion of Peringavu desom (92.10) in Peringavu village; portions of Thrikkumaramkudam and Kanattukara desoms (209.49) in Ayyanthole village; portion of Kurkkancherry desom (200.89) in Kurkkancherry village; portion of Chellakottukara desom (156.92) in Chiyyaram village; portions of Nellikunnu and Paravattani desoms (95.97) in Ollukkara village, portions of Aranattukara and Poothole desoms (350.01) in Aranattukara village and portion of Nellikunnu desom (7.80) in Nadathara village
Chowghat	(3,608.83)	Guruvayur (1,408.78) and Manathala (2,200.05) villages
Irinjalakuda (Municipal)	(2,991.80)	Portions of Irinjalakuda (1,297.48), Manavalassery (1,481.40) Karalam (23.37) and Pullur (188.86) villages and a portion of Kattungalchira desom (0.69) of Porathissery village
Chalakudy	(2,200.00)	Kizhakke Chalakudy village (1,901.65) and Padinjare Chalakudy muri (298.35) of Padinjare Chalakudy village

Note:- Town treated as such for the first time in 1961 is printed in *italics*.

A-IV TOWNS (AND TOWN-GROUPS) CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1901

APPENDIX III

List of places which were taken into account for striking class totals of population at some census or other but which were excluded from reckoning in certain censuses when they did not enjoy urban status
(None of the towns in this list had urban status in 1961)

Town	Population					
	1901	1911	1921	1931	1941	1951
1	2	3	4	5	6	7
Cranganore	.	..	5,805	6,866	10,876	12,862
Eriyad	..	..	..	..	..	11,892
Azhicode	..	..	..	..	..	7,119
Ollur	..	..	..	..	4,975	5,827

B-ECONOMIC TABLES

NOTE

The 17 Economic Tables of 1961 Census are divided into two parts viz., (i) General Economic Tables (B-I to B-IX) prepared from individual slips and (ii) Household Economic Tables (B-X to B-XVII) prepared from 20 per cent sample Household Schedules. All the above tables pertaining to this district are presented in this volume except Table B-II which deals with 'workers and non-workers in cities, town-groups and towns arranged territorially classified by sex and broad age-groups'. This table is furnished as Table B-II in 'Volume VII—Kerala State—Part II-B—General Economic Tables'. The concepts and definitions of workers, non-workers etc. are also explained in that volume.

B-I WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

Fly-leaf

1. Table B-I given for the total, rural and urban areas for the district is the basic economic table showing the total population, the total number of workers, the classification of workers into nine industrial categories and non-workers by sex and broad age-groups. The age-groups adopted for the tables are 0-14, 15-34, 35-59, 60+ and 'age not stated. The age-groups correspond to the different stages of life which have special significance with reference to capacity to work, viz., children, young persons, middle-aged persons and elderly persons. The corresponding table in the 1951 Census gives the distribution of population by eight livelihood classes and their further sub-divisions into self supporting persons, earning dependants and non-earning dependants. There was no classification by age-groups in that table. The Livelihood classes under which the population was grouped in 1951 were the following:—

I Cultivators of land wholly or mainly owned and their dependants

II Cultivators of land wholly or mainly unowned and their dependants

III Cultivating labourers and their dependants

IV Non-cultivating owners of land; agricultural rent receivers and their dependants

V Persons engaged in production other than cultivation and their dependants

VI Persons engaged in Commerce and their dependants

VII Persons engaged in Transport and their dependants

VIII Persons engaged in other services and miscellaneous sources and their dependants

2. As it was felt that the strict application of the criterion of income or economic independence suppressed those who worked in family economic activity but did not actually earn an income like men other than the head of the household and women of the family or children working in cultivation or cottage industries of the household, the classification of the population into self-supporting persons and earning and non-earning dependants has been given up in the table for 1961. All persons who work including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance are treated as workers and grouped under the following industrial categories instead of the eight livelihood classes in 1951 referred to above:—

I Working as cultivator

II Working as Agricultural Labourer

III Working in Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities

IV Working at Household Industry

V Working in Manufacturing other than Household Industry

VI Working in Construction

VII Working in Trade and Commerce

VIII Working in Transport, Storage and Communications

IX Working in Other Services

The non-workers have been classified under the following categories and dealt with in Table B-IX:—

1 Full-time students or children attending school who do no other work

2 Persons engaged in unpaid home duties who do no other work such as make articles at home for sale, or wages, nor help regularly even part-time in family cultivation, industry, trade or business

3 Dependants including infants and children not attending schools and persons permanently disabled from work because of illness or old age

4 Retired persons not employed again, rentiers, persons living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work

5 Beggars, vagrants, independent women without indication of source of income or others of unspecified sources of existence

6 Convicts in jails and inmates of penal, mental and charitable institutions

7 Persons seeking employment for the first time

8 Persons employed before, but were out of employment and were seeking work during the reference period

B-III INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

Fly-leaf

1. This table presents the data relating to literacy and educational levels of the working population under the nine industrial categories and of the non-working population. It enables to assess the literacy and educational levels of the workers as well as the non-workers. The table is divided into two parts, Part-A dealing with urban areas and Part-B dealing with rural areas of the district.

2. Besides giving the number of illiterates and literates (without educational level) in both urban and rural areas, the remaining literates of these areas are classified as follows:—

Urban

1 Primary or Junior Basic
2 Matriculation or Higher Secondary
3 Technical diploma not equal to degree
4 Non-technical diploma not equal to degree
5 University degree or Post-graduate degree other than technical degree
6 Technical degree or diploma equal to degree or Post-graduate degree
  (i) Engineering
  (ii) Medicine
  (iii) Agriculture
  (iv) Veterinary and Dairying
  (v) Technology
  (vi) Teaching and
  (vii) Others

Rural

1 Primary or Junior Basic
2 Matriculation and above

3. All persons who have ability to read and write with understanding, i. e., to read any simple letter with felicity and write any simple letter with understanding are considered literates. Those who have passed Lower Primary or Junior Basic but have not passed Matriculation, Higher Secondary, S. S. L. C. or E. S. L. C. come under the category of Primary or Junior Basic and all those who have passed Matriculation, Higher Secondary, S. S. L. C. or E. S. L. C. come under the category of Matriculation or Higher Secondary.

4. In connection with the enumeration of technical personnel, degrees in science subjects like Physics, Mathematics, Chemistry, Geology, Geo-Physics, Geography ete., have been recognised as technical degrees. These do not come under the specific items (i. e. i to vi) covered by 'technical degree or diploma equal to degree or post-graduate degree'. Hence wherever the subject of graduation or post-graduation has been given, these have been included under 'Others' (i. e. vii) in the urban areas. This accounts for the high percentage of 'others' coming under 'technical degree or diploma equal to degree or post-graduate degree'.

B-IV INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKERS OF PERSONS AT WORK OTHER THAN AT CULTIVATION

Fly-leaf

1. This table contains the sex-wise distribution of non-agricultural workers according to their principal work by divisions, major groups and minor groups of Indian Standard Industrial Classification (I. S. I. C.) issued by the Ministry of Labour and Employment, Government of India, following the International Standard Industrial Classification recommended by the U. N. O. The minor groups 000 to 004 and 999 of the I. S. I. C. do not appear in this table because of the exclusion of cultivators, agricultural labourers and non-workers in this table. Industrial minor groups 000 to 004 relate to agriculture and the minor group 999 to fresh entrants to the labour market who are treated as non-workers. The table is prepared in three parts, Parts A and B containing figures up to divisions and major groups only and Part C giving figures for minor groups also.

2. In table B-IV Part-A which is prepared for the total, rural and urban areas of the district, the workers principally engaged in household industry are divided into 'Employees' and 'Others' for each of the divisions 0, 1 and 2 & 3 and their major groups. For the rural areas the figures by divisions are furnished down to taluk level. The study of household industry is a special feature of the 1961 Census.

3. Table B-IV Part-B is prepared for total and urban areas of the district. For the rural areas the figures by divisions are furnished down to taluk level. Here the non-agricultural workers engaged in non-household industries are classified into 'Employer', 'Employee', 'Single worker' and 'Family worker' according to their participation in work. This distribution is available for each of the divisions and major groups of the I. S. I. C.

4. Table B-IV Part-C presents the combined as well as separate sex-wise figures of persons working in household industry and non-household indurtry by divisions, major groups and minor groups of I. S. I. C. for the total and urban areas of the district. For the rural areas the figures by divisions are furnished down to taluk level. [B-IV Part-C (i)] In this table those minor groups the figures of which are less than 1 per cent of the respective divisions (less than 0.5 per cent in the case of divisions 2 & 3) have been omitted. The figures of such minor groups are shown in the appendix at the end of the table.

5. The corresponding table of 1951 Census viz., Table B-III, gives the number of self-supporting persons in non-agricultural livelihood classes by 10 divisions and 88 sub-divisions according to the Indian Census Economic Classification (I. C. E. C.) classified into 'Employers', 'Employees' and 'Independent workers' according to the economic status. Under the I. C. E. C. scheme the unit of classification was in every case the individual. This scheme bears more resemblance to the occupational classification given in the table B-V of 1961 than to the I. S. I. C. scheme followed in table B-IV of 1961. Under the I. S. I. C. scheme the unit of classification is the organised establishment, the classification of every member of the establishment being according to the classification of the establishment based on the commodity produced or the service performed as a result of the work of the establishment.

6. It may be seen from the table that the figures under Minor group 900 - 'Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified' - are considerably large in both rural and urban areas of all districts. Most of these entries relate to those returning their nature of work as 'general coolies' or 'general labourers' and the nature of industry as 'no fixed place of work'.

7. The list of Indian Standard Industrial Classification by divisions, major groups and minor groups is reproduced below:—

Indian Standard Industrial Classification

This classification groups the industries into

9	Divisions
45	Major Groups
343	Minor Groups

The divisions and major groups with their Code numbers are listed below:—

DIVISIONS

0	Agriculture, Live-stock, Forestry, Fishing and Hunting
1	Mining and Quarrying
2 & 3	Manufacturing
4	Construction

5 Electricity, Gas, Water and Sanitary services
6 Trade and Commerce
7 Transport, Storage and Communication
8 Services
9 Activities not adequately described

MAJOR GROUPS

Division 0 Agriculture, Live-stock Forestry, Fishing and Hunting

00 Field produce and Plantation crops
01 Plantation crops
02 Forestry and Logging
03 Fishing
04 Live-stock and Hunting

Division 1 Mining and Quarrying

10 Mining and Quarrying

Division 2 & 3 Manufacturing

20 Foodstuffs
21 Beverages
22 Tobacco products
23 Textile-cotton
24 Textile-jute
25 Textile-wool
26 Textile-silk
27 Textile-miscellaneous
28 Manufacture of wood and wooden products
29 Paper and paper products
30 Printing and publishing
31 Leather and leather products
32 Rubber, petroleum and coal products
33 Chemicals and chemical products
34-35 Non-metallic mineral products other than petroleum and coal
36 Basic metals and their products except machinery and transport equipment
37 Machinery (all kinds other than Transport) and electrical equipment
38 Transport equipment
39 Miscellaneous manufacturing industries

Division 4 Construction

40 Construction

Division 5 Electricity, Gas, Water and Sanitary Services

50 Electricity and Gas
51 Water supply and sanitary services

Division 6 Trade and Commerce

60-63 Wholesale Trade
64-68 Retail Trade
69 Trade and Commerce Miscellaneous

Division 7 Transport, Storage and Communication

70-71 Transport
72 Storage and Warehousing
73 Communications

Division 8 Services

80 Public Services
81 Educational and Scientific Services
82 Medical and Health Services
83 Religious and Welfare Services
84 Legal Services
85 Business Services
86 Community Services and Trade and Labour associations
87 Recreation Services
88 Personal Services
89 Services (not elsewhere classified)

Division 9 Activities not adequately described

90 Activities unspecified and not adequately described. (This includes new entrants to the labour market)

(Classification and Code numbers at the 3 digit level in respect of minor groups are shown below)

Division 0 Agriculture, Live-stock, Forestry, Fishing and Hunting

Major Group (Code)	Description	Minor Group (Code)
00	FIELD PRODUCES AND PLANTATION CROPS—	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003

Major Group (Code)	Description	Minor Group (Code)
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines and orchards	006
	Production of wood, bamboo, cane, reeds, thatching grass, etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	009
01	PLANTATION CROPS—	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
02	FORESTRY AND LOGGING—	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	FISHING—	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	LIVE-STOCK AND HUNTING—	
	Production and rearing of live-stock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	Division 1 Mining and Quarrying	
10	MINING AND QUARRYING—	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
	Division 2 & 3 Manufacturing	
20	FOODSTUFFS—	
	Production of rice, atta, flour, etc., by milling dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	202

Major Group (Code)	Description	Minor Group (Code)
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	BEVERAGES—	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice-cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	TOBACCO PRODUCTS—	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	TEXTILE-COTTON—	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	TEXTILE-JUTE—	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	TEXTILE-WOOL—	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	TEXTILE-SILK—	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	TEXTILE-MISCELLANEOUS—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hoisery and other knitted fabrics and garments	271
	Embroidery and making of crepe, lace and fringes	272
	Making of textile garments including raincoats and headgear	273

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	MANUFACTURE OF WOOD AND WOODEN PRODUCTS—	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	PAPER AND PAPER PRODUCTS—	
	Manufacture of pulp from wood, rags, waste paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, waste paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper; paper board and pulp	292
30	PRINTING AND PUBLISHING—	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making, and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	LEATHER AND LEATHER PRODUCTS—	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	RUBBER, PETROLEUM AND COAL PRODUCTS—	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	CHEMICALS AND CHEMICAL PRODUCTS—	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fireworks	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34–35	NON-METALLIC MINERAL PRODUCTS OTHER THAN PETROLEUM AND COAL—	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	BASIC METALS AND THEIR PRODUCTS EXCEPT MACHINERY AND TRANSPORT EQUIPMENT—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, pods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	369
37	MACHINERY (ALL KINDS OTHER THAN TRANSPORT) AND ELECTRICAL EQUIPMENT—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379

Major Group (Code)	Description	Minor Group (Code)
38	TRANSPORT EQUIPMENT—	
	Manufacture, assembling and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail-road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles, engine parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles	389
39	MISCELLANEOUS MANUFACTURING INDUSTRIES—	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
	Division 4 Construction	
40	CONSTRUCTION—	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of waterways and water reservoirs such as bund, embankments, dam, canal, tank, tube-wells, wells	403
	Division 5 Electricity, Gas, Water and Sanitary Services	
50	ELECTRICITY AND GAS—	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502
51	WATER SUPPLY AND SANITARY SERVICES—	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
	Division 6 Trade and Commerce	
60–63	WHOLESALE TRADE—	
	Wholesale trading in cereals and pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other foodstuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics, and textile products such as garments, hessian, gunny bag, silk and wollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607

Major Group (Code)	Description	Minor Group (Code)
	Wholesale trading in straw and fodder	608
	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products	621
	Wholesale trading in paper and other stationery goods	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64-68	RETAIL TRADE—	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood, and kerosene	645
	Retail trading in foodstuffs like sweet meat condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piece-goods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, head-gear such as hat, umbrella, shoes, and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobil oil and allied products	655
	Retail trading in wooden, steel, and other metallic furniture and fittings	660
	Retail trading in stationery goods and paper	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipments not covered above	664
	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo, cane, bark and thatches	672
	Retail trading in other building materials	673
	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681

Major Group (Code)	Description	Minor Group (Code)
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramaphone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	TRADE AND COMMERCE MISCELLANEOUS—	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
	Division 7 Transport, Storage and Communication	
70–71	TRANSPORT—	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
	Services incidental to transport such as packing, carting travel agency	710
72	STORAGE AND WARE HOUSING—	
	Operation of storage such as ware houses	720
	Operation of storage such as cold storage	721
	Operation of storage of other type	722
73	COMMUNICATION—	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
	Division 8 Services	
80	PUBLIC SERVICES— (This does not include Government, Quasi-Government or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing, and operation of financial institution each of which is classified in the appropriate industry groups)	
	Public services in Union and State Army including territorial corps and volunteer corps	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of quasi-government organisation, municipalities, local boards etc.	805
	Public services in administrative departments and offices of State Governments	809

Major Group (Code)	Description	Minor Group (Code)
81	EDUCATIONAL AND SCIENTIFIC SERVICES—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institutions not capable of classification under any individual group	812
82	MEDICAL AND HEALTH SERVICES	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homoeopathic practitioners	820
	Veterinary services rendered by organisations and individuals	821
83	RELIGIOUS AND WELFARE SERVICES—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams aud other allied organisations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity	832
84	LEGAL SERVICES—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organisations and individuals	841
85	BUSINESS SERVICES—	
	Engineering services rendered by professional organisations or individuals	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors	853
86	COMMUNITY SERVICES AND TRADE AND LABOUR ASSOCIATIONS—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens, etc.	862
87	RECREATION SERVICES—	
	Production of motion picture and allied services such as processing, editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc., racing	873
88	PERSONAL SERVICES—	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881

Major Group (Code)	Description	Minor Group (Code)
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry services rendered by organisations and individuals. (This includes all types of cleaning, dyeing, bleaching, dry cleaning services.)	883
	Hair dressing, other services rendered by organisations and individuals such as those by barber, hairdressing saloon and beauty shops	884
	Services rendered by portrait and commercial photographic studios	885
89	SERVICES (NOT ELSEWHERE CLASSIFIED)—	
	Services rendered by organisations or individuals not elsewhere classified	890
	Division 9 Activities not adequately described	
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900
	Fresh entrants to the Labour Market	999

B-IV PART-C INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR GROUPS AND MINOR GROUPS OF PERSONS AT WORK OTHER THAN CULTIVATION

APPENDIX

Minor groups having less than 1% of workers of the respective Division, (less than 0·5% in case of minor groups of Division 2 & 3) have been shown in this appendix. The following abbreviations have been used:—

HI = Household Industry

NHI = Non-Household Industry

M = Males

F = Females

B-V OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

Fly-leaf

1. This table gives the distribution of non-agricultural workers by sex according to the 'National Classification of Occupations' issued by the Ministry of Labour and Employment, Government of India, which classifies occupations into 331 families, 75 groups and 11 divisions. A few modifications as mentioned below have been made in the National Classification of Occupations while classifying the economic data in this table.

(i) The familly OX4 relating to Geographers has been deleted and code 073 assigned to them. Actuaries coming under the family 073 according to the National Classification of Occupations have been brought under 072 statisticians.

(ii) The families 400—owner cultivators, 401—cultivating tenants, 414—Agricultural labourers and the major group XO—Workers without occupations of the National Classification of Occupations have been omitted because of the exclusion of cultivators, agricultural labourers and non-workers for the purpose of classification in this table.

(iii) The code number 063 given to Jurists and Legal Technicians n. e. c. (including petition writers) in the National Classification of Occupations has been changed to 069.

(iv) The family 673—Teleprinter operators has been newly added.

Under this scheme each individual is classified on the basis of the nature of his (or her) work irrespective of the nature of establishment where he (or she) works. Each of these divisions, groups and families is cross-classified with the 7 non-agricultural Industrial categories (categories III to IX).

2. The cross-classification of occupation with industry is a peculiarity of the 1961 Census and this being the first time that such an attempt is made there are some occupational families which appear incongrous *vis-a-vis* the industrial category in which they have placed. Such instances are given below suggesting the more appropriate categories to which they should belong:-

APPROPRIATE INDUSTRIAL CATEGORIES OF OCCUPATIONAL FAMILES

Code No.	Description of the family	Industrial Category as given in the table	Total		Urban		Appropriate Industrial category
			Males	Females	Males	Females	
1	2	3	4	5	6	7	8
021	Veterinarians	V	..	2	..	..	III or IX
300	Working proprietors, Wholesale trade	V	2	..	1	..	VII
		IX	1	..	1	..	
301	Working proprietors, Retail trade	IX	79	4	77	4	VII
312	Brokers and Agents Securities and shares	IX	14	..	2	..	III, V, VII, or VIII
319	Insurance and Real Estate Salesmen, Salesmen of securities	IX	28	..	1	..	VII
320	Commercial Travellers	IX	2	.	2	..	VII
439	Fishermen and Related workers n. e. c.	V	1	6	..	..	III or IV
		VII	48	2	48	..	
672	Radio communication and Wireless Operators	V	1	..	..	..	VIII or IX
700	Fibre Preparers, Ginners, Cleaners, Scources etc.	VII	2	4	..	4	IV or V
702	Spinners, Piecers & Winders	VII	..	1	..	1	IV or V
704	Drawers & Weavers	VII	1	..	1	..	IV or V
709	Spinners,Weavers, Knitters, Dyers and Related workers, n. e. c.	VII	3	1	..	1	IV or V

3. In spite of the limitations pointed out above, this table will be of much use in giving an idea about the variety of occupations and the employment opportunities under different industries.

4. In this table those Occupational families the figures of which are less than 1 per cent of the respective Divisions (less than 0.5 per cent in the case of Division 7-8) have been omitted giving the figures of those families in the appendix at the end of the table.

B-V OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

Note:—Families having less than 1% of the workers of the respective division (less than 0.5% in case of families of Division 7–8) have not been shown in this table, but are given in the appendix to this table. Divisions thus affected are marked with an asterisk (*)

B-VI OCCUPATIONAL DIVISIONS OF PERSONS AT WORK OTHER THAN CULTIVATION CLASSIFIED BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN URBAN AREAS ONLY

Fly-leaf

This table is prepared only for the urban areas of the district. This gives the distribution of non-agricultural workers in the 11 occupational divisions of National classification of occupations by educational levels and broad age-groups. The changes made in the N. C. O. for the purpose of B-V table are applicable in the case of this table also. The educational levels given in the table are the same as those given in table B-III Part-A and the age-groups are those followed in table B-I. The age-groups correspond to different stages of life which have special significance with reference to the capacity to work, viz., children, young persons, middle-aged persons and elderly persons. This table gives very valuable data in assessing the under employment among educated persons and also provides useful information about those occupations which attract educated personnel. In this table the figures for age-groups of total workers under each occupational division have not been given by age-groups.

B-VI OCCUPATIONAL DIVISIONS OF PERSONS AT WORK OTHER THAN CULTIVATION CLAS

B-VII PART-A PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER PART-B INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

Fly-Leaf

1. This table which is prepared in two parts, viz., Part-A and Part-B, gives information on secondary work. Tables B-VII Part-A and Part-B are tabulated for total, rural and urban areas of the district. For rural areas it is presented by divisions down to taluk level. Workers who have no secondary work are excluded from this table.

2. Part-A of the table is prepared in the case of workers who are principally engaged

(i) as cultivator
(ii) as agricultural labourer or
(iii) at household industry

and who are also additionally engaged in any of the above three categories of work. Workers who are principally engaged at household industry are also given by divisions and major groups of I. S. I. C. This table is important as it shows the extent to which cultivation is supplemented by household industry or *vice versa*.

3. Part-B of the table presents data on the basis of cross-tabulation of principal and secondary work *in the case of persons who are principally engaged in* non-household industry, trade, business, profession or service and also additionally working at household *industry*. The household industries and non-household industries are further classified according to divisions and major groups of I. S. I. C. From this table the extent of influence of principal work on the nature of secondary work can be studied.

4. In Table B-VII Part-A the major groups of those industries where the persons engaged in auxiliary work are less than 10 per cent of the persons having that particular major group as principal work in Table B-IV Part-A have been omitted on the basis of the figures of total area. These major groups are shown in the appendix.

B-VII PART-A PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

Note:—Major groups of household industry, where persons having secondary work as cultivation or agricultural labour, are less than 5% of the persons having the major group as principal work, have not been shown in this table, but are given in the appendix to this table. Divisions thus affected are marked with an asterisk (*)

APPENDIX

Major groups of household industry where persons having secondary work as cultivation or agricultural labour, are less than 5% of the persons having the major group as principal work, have been shown in this appendix. The following abbreviations have been used:—

ii—Cultivator

iii—Agricultural Labourer

M—Males

F—Females

B-VIII PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS

Fly-leaf

1. This is a very important table which provides information on persons aged 15 and above who are unemployed by sex and educational levels in rural and urban areas of the district. The table will be useful for purposes of planning for employment and also for assessing the available man power. It is divided into two parts. Part – A relates to urban areas and is presented for the district. Part-B relates to rural areas and is presented down to taluk level.

2. Part-A of the table gives the distribution of persons seeking employment for the first time in the age-groups 15–19, 20–24, 25–29, 30–34 and 35+ and also the distribution of persons who were employed before but now out of employment and seeking work in the age-groups 15–19, 20–24, 25–34, 35–44, 45–59 and 60+ by educational levels, as given in Table B–III Part –A.

3. Part – B of the table presents the distribution of unemployed persons aged 15 and above by the same educational levels as given in Table B – III Part – B.

B-IX PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

Fly-leaf

1. This table gives the type of activities of non-workers. Non-workers are classified into 8 categories which are given in fly-leaf to table B-I. It is the first time in the history of Indian Census that information on the activities of non-workers are collected and tabulated. Any study of workers and non workers is likely to be incomplete without getting detailed data on the type of activities of non-workers, especially when the figures of non-workers are more than 50 per cent of the total population.

2. The excess of student population in the age-group 0–14 of this table over the literates in the age-group 5–14 of Table C–III of this volume is due to the student population in the lower standards of the primary schools, nursery schools and kintergarten schools who do not know how to read and write with understanding.

B-XI SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN RURAL AND URBAN AREAS SEPARATELY

Fly-leaf

This table gives a cross classification of the cultivating households consisting of households engaged in cultivation only and households engaged in both cultivation and household industry by the interest in land and the size of land cultivated. The interest in land is classified into (a) owned or held from Government (b) held from private persons or institutions for payment in money, kind or share or (c) partly held from Government and partly from private persons for payment in money, kind or share. The size of holdings is grouped under less than 1 acre, 1.0–2.4 acres, 2.5–4.9 acres, 5.0–7.4 acres, 7.5–9.9 acres, 10.0–12.4 acres, 12.5–14.9 acres, 15.0–29.9 acres, 30.0–49.9 acres, 50+ acres and size unspecified. The table is prepared for the rural and urban areas of the district and for the rural areas of taluks.

B-XII SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION ONLY CLASSIFIED BY SIZE OF LAND CULTIVATED AND NUMBER OF FAMILY WORKERS AND HIRED WORKERS IN RURAL AND URBAN AREAS SEPARATELY

Fly-leaf

This table shows the classification of households engaged in cultivation only according to the number of persons engaged in cultivation by the size of holding groups in acres. The number of persons engaged in cultivation are grouped under 1 person, 2 persons, 3–5 persons, 6–10 persons, more than persons and unspecified. In the case of households where more than 1 person is working, the number of family workers and hired workers have been shown separately. The table is prepared for the rural and urban areas of the district and for the rural areas of taluks.

B-XIII SAMPLE HOUSEHOLDS ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY SHOWING SIZE OF LAND CULTIVATED CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY IN RURAL AND URBAN AREAS SEPARATELY

Fly-leaf

1. This table shows the distribution of households engaged in both cultivation and household industry by the size of land cultivated. The household industries are classified according to divisions and major groups of Indian Standard Industrial Classification (I. S. I. C.). The table is prepared for rural and urban areas of the district.

2. The major groups of household industry having less than 10% of the figures of the respective divisions are not given in this table. A mark of asterisk (*) is given on such divisions and the figures of those major groups are shown in the appendix to this table.

APPENDIX

Major groups of Household Industry which are less than 10 per cent of the respective division have not been shown in the main table which shows such divisions by an asterisk. Major groups thus dropped from the main table are given run on in this Appendix. The figure preceding the bracket represents the code number of the major group dropped from the table. Alphabets given in brackets are abbreviations meant for different ranges of holdings in acres as explained below. The numerical figure given after the alphabet denotes the number of households in that particular range indicated by that alphabet.

Abbreviation	*Class Ranges of land in acres*	*Abbreviation*	*Class Ranges of land in acres*
A	means Less than 1 acre	G	means 12.5 — 14.9 acres
B	„ 1.0 — 2.4 acres	H	„ 15.0 — 29.9 „
C	„ 2.5 — 4.9 „	I	„ 30.0 — 49.9 „
D	„ 5.0 — 7.4 „	J	„ 50.0 + „
E	„ 7.5 — 9.9 „	K	„ Unspecified „
F	„ 10.0 — 12.4 „		

The list of major groups dropped from the main table is given below:—

RURAL:-

21 (B-1); 22 (A-2, B-3); 23 (A-15, B-23, C-10, D-1); 31 (C-1); 32 (C-1, G-1); 33 (A-7, B-7, C-5, D-1); 34 & 35 (A-8 B-6, C-1, D-2); 36 (A-9, B-3, C-1).

URBAN:-

22 (A-1); 23 (A-1); 27 (B-1); 28 (B-1); 33 (B-1).

B-XIV SAMPLE HOUSEHOLDS ENGAGED ONLY IN HOUSEHOLD INDUSTRY CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY IN ALL AREAS

Fly-leaf

1. This table prepared in two parts gives the classification of households engaged only in household industry by divisions, major groups and minor groups of I. S. I. C. for total, rural and urban areas of the district. Part-A of the table shows for each division and major group of I. S. I. C. the number of households according to the number of persons engaged in household industry. The number of persons engaged in household industry are grouped under 1 person, 2 persons, 3-5 persons, 6-10 persons and more than 10 persons.

2. In Table B-XIV Part-A major groups of household industry having less than 10% of the figures of the respective divisions are not given in the table. A mark of asterisk (*) is given on such divisions and the figures of those major groups are shown in the appendix to this table.

3. Part-B of the table gives the number of households engaged only in household industry by each minor group of I. S. I. C.

B-XIV SAMPLE HOUSEHOLDS ENGAGED ONLY IN HOUSEHOLD INDUSTRY CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY IN ALL AREAS

APPENDIX

Major groups of Household Industry which are less than 10 per cent of the respective division have not been shown in the main table, which shows such divisions by an asterisk. Major groups thus dropped from the main table are given run on in this Appendix. The figure preceding the bracket represents code number of the major group dropped from the table. Alphabets given in brackets are abbreviations meant for class ranges of persons engaged in the household industry as explained below. The numerical figure given after alphabet denotes the number of households in that particular range indicated by that alphabet.

Abbreviation		*Class range of persons*
A	means	1 person
B	„	2 persons
C	„	3—5 persons
D	„	6—10 persons
E	„	More than 10 persons
F	„	Unspecified

The list of major groups dropped from the main table is given below:

392	Assembling and repairing of watches and clocks	2	1	1
393	Mannfacture of jewellery, silverware and wares using gold and other precious metals	229	199	30
395	Manufacture of stationary articles not covered elsewhere such as pencil, penholder, fountain pen	1	1	..
396	Manufacture of sports goods	1	1	..
399	Manufacture and repair work of goods not assignable to any other group	32	25	7

B-XV SAMPLE HOUSEHOLDS ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY CLASSIFIED BY SIZE OF LAND IN RURAL AND URBAN AREAS SEPARATELY

Fly-leaf

1. This table shows the classification of households engaged in both cultivation and household industry by the size of land cultivated and the number of persons engaged in household industry. In the case of households where more than 1 person is engaged in household industry the number of family workers and hired workers have been given separately. The table is prepared for the rural areas of the district and taluks and the urban areas of the district.

2. This table shows the relationship between the scale of household industry and the scale of cultivation.

B-XVI SAMPLE PRINCIPAL HOUSEHOLD INDUSTRY CLASSIFIED BY PERIOD OF WORKING AND TOTAL NUMBER OF WORKERS ENGAGED IN HOUSEHOLD INDUSTRY *IN ALL AREAS*

Fly-leaf

1. This table shows the classification of households engaged in household industry by the period of working grouped under 1–3 months, 4–6 months, 7–9 months and 10 months to 1 year. Under each of these groups the number of households, the number of family workers by sex and the number of hired workers are given. The information is available for each of the divisions and major groups of principal household industry. Households engaged in household industry have been divided into those "with cultivation" and "without cultivation". The table is prepared for total, rural and urban areas of the district.

2. Major groups of household industry having less than 10% of the figures of the respective divisions have been omitted in this table. Such divisions are marked with an asterisk (*) and the figures of those major groups are shown in the appendix to this table.

3. This table furnishes valuable data on the seasonality of various household industries.

B-XVI SAMPLE PRINCIPAL HOUSEHOLD INDUSTRY CLASSIFIED BY PERIOD OF WORKING AND TOTAL NUMBER OF WORKERS ENGAGED IN HOUSEHOLD INDUSTRY *IN ALL AREAS*

APPENDIX

Major groups of Household Industry which are less than 10 per cent of the respective divisions have not been shown in the main table which shows such divisions by an asterisk. Major groups thus dropped from the main table are given run on in this Appendix. The figure preceding the bracket represents the code number of the major group dropped from the table. Alphabets given in brackets are abbreviations meant for different ranges of period of working in the Household Industries *'with' or 'without' cultivation* as explained below. The numerical figure given after alphabet denotes the number of households in that particular range indicated by that alphabet.

Abbreviation			Class range of period of working
A	means	with cultivation	1 to 3 months
B	,,	,,	4 to 6 ,,
C	,,	,,	7 to 9 ,,
D	,,	,,	10 months to 1 year
X	,,	,,	Unspecified
E	,,	without cultivation	1 to 3 months
F	,,	,,	4 to 6 ,,
G	,,	,,	7 to 9 ,,
H	,,	,,	10 months to 1 year
Y	,,	,,	Unspecified

The list of major groups dropped from the main table is given below:—

Trichur District

Total:— 00 (A-1, B-1, H-2); 02 (H-1); 21 (C-1, F-2, G-1, H-7); 22 (C-1, D-5, F-5, G-13, H-84, Y-4); 23 (B-3, C-2, D-45, E-19, F-69, G-31, H-236, Y-7); 29 (H-1); 30 (F-1, H-4, Y-1); 31 (D-1, F-1, H-16, Y-1); 32 (C-1, D-1, H-1); 33 (A-5, B-3, C-2, D-11, E-4, F-16, G-8, H-25, Y-2); 34–35 (A-1, B-1, D-15, E-2, F-14, G-4, H-145, Y-5); 36 (B-2, C-11, D-2, F-2, G-6, H-199, Y-6); 38 (H-1); 39 (A-3, B-20, C-9, D-39, X-4, E-1, F-22, G-11, H-224, Y-7).

Rural:— 00 (A-1, B-1, H-1); 02 (H-1); 21 (C-1, F-2, G-1, H-6); 22 (C-1, D-4, F-4, G-13, H-69, Y-4); 23 (B-3, C-2, D-44, E-17, F-66, G-30, H-228, Y-7); 29 (H-1); 30 (H-2, Y-1); 31 (D-1, H-14, Y-1); 32 (C-1, D-1, H-1); 33 (A-5, B-3, C-2, D-10, E-4, F-12, G-7, H-21, Y-2); 34–35 (A-1, B-1, D-15, E-1, F-13, G-4, H-138, Y-5); 36 (B-2, C-11, F-1, G-5, H-185, Y-6); 39 (A-3, B-18, C-5, D-38, X-4, E-1, F-20, G-10, H-189, Y-7).

Urban:— 00 (H-1); 21 (H-1); 22 (D-1, F-1, H-15); 23 (D-1, E-2, F-3, G-1, H-8); 30 (F-1, H-2); 31 (F-1, H-2); 33 (D-1, F-4, G-1, H-4); 34–35 (E-1, F-1, H-7); 36 (D-2, F-1, G-1, H-14); 38 (H-1); 39 (B-2, C-4, D-1, F-2, G-1, H-35).

B-XVII SAMPLE HOUSEHOLDS CLASSIFIED BY SIZE AND PARTICIPATION IN HOUSEHOLD CULTIVATION OR INDUSTRY

Fly-leaf

1. This table shows the classification of households in the 3 groups viz, (i) Households engaged neither in cultivation nor in household industry (ii) Households engaged in household industry only and (iii) Households engaged in cultivation, by the size of households such as households having single member, 2-3 members, 4-6 members, 7-9 members and 10 or more members. The number of male and female members of the households in each of these groups also are given. The households engaged in cultivation are further classified by the size of land cultivated. The table is prepared for the total, rural and urban areas of the district.

2. The total number of households and the total household population in the total, rural and urban areas of the district are given below. The total number of households is the same as that given in the Primary Census Abstract and the total household population is the total population as per P. C. A. excluding houseless and institutional population.

Total Rural Urban	Number of households	Household population		
		Persons	Males	Females

C—SOCIAL AND CULTURAL TABLES

NOTE

1. Eight Tables constitute the Social and Cultural Tables of 1961 Census. Of these tables, Table C-1 has been prepared from 20 per cent sample Household Schedules. All the other tables are based on full count. The eight tables are

C-I	Composition of sample households
C-II	Age and Marital Status
C-III	Age, Sex and Education
C-IV	Single Year Age Returns
C-V	Mother tongue
C-VI	Bilingualism
C-VII	Religion
C-VIII	Classification of literacy and Industrial category of workers and non-workers of Scheduled Castes/Scheduled Tribes

All the tables of this series are presented in this volume except C-IV and C-VI. These tables are published in " Volume VII-Kerala State-Part II C-Cultural and Migration Tables ".

2. In addition to the above eight tables there are eight tables relating to technical personnel. They are furnished as appendices to Table C-III in 'Volume VII-Kerala State-Part II C-Cultural and Migration Tables'.

C-I COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

Fly-leaf

1. This table gives the family composition of households which has been prepared on a 20 per cent sample basis from the household schedule separately for the total, rural and urban areas of the district. The members in the household have been divided into two groups viz. family members and non-family members. Among the family members heads of households and their spouses have been given by sex. Married relations have been classified into married sons, other married males and other married females. Never married, widowed and divorced or separated relations also have been given by sex. Similarly sex-wise figures of non-family members or unrelated members are given. This table will be of sociological interest indicating the strength of the joint family system.

2. Though the above table gives only the composition of households, the corresponding table C-I of 1951 Census gives both the size and composition of households which was based on a 0.1 per cent sample households prepared from the National Register of Citizens. But in the case of Travancore-Cochin State, this table was prepared from a 4 per cent sample households.

3. In this Census the size of the households (based on 20 per cent sample) has been given separately as Table B-XVII.

C-II AGE AND MARITAL STATUS

Fly-leaf

1. This table gives the sex-wise distribution of population by age-groups and marital status for the total, rural and urban areas of the district. For rural areas, it is presented down to taluk level. The age-groups followed in this table are 0-9, 10-14, 15-19, 20-24, 25-29, 30-34, 35-39, 40-44, 45-49, 50-54, 55-59, 60-64, 65-69, 70+ and 'age not stated' which conform to international standards.

2. The corresponding table at the 1951 Census (Table C-III Age and Civil Condition) was prepared on 10 per cent sample unlike the present one done on full count.

3. The marital status groupings in 1961 Census and the civil condition groupings in the 1951 Census are given below:—

Marital Status 1961	*Civil Condition 1951*
1 Never married	1 Unmarried
2 Married	2 Married
3 Widowed	3 Widowed or divorced
4 Divorced or Separated	
5 Unspecified Status

C-III AGE, SEX AND EDUCATION

Fly-leaf

1. This table gives the sex-wise distribution of population by age-groups and educational levels for the district. It is divided into three parts Part-A dealing with all areas, Part-B dealing with urban areas and Part-C dealing with rural areas. The age-groups followed in all the three parts are 0–4, 5–9, 10–14, 15–19, 20–24, 25–29, 30–34, 35–44, 45–59, 60 + and 'age not stated'.

2. The classification of educational levels are different for rural and urban areas. Besides giving the number of illiterates and literates (without educational level) the remaining literates are classified as follows:—

Urban

1 Primary or Junior Basic
2 Matriculation or Higher Secondary
3 Technical diploma not equal to degree
4 Non-technical diploma not equal to degree
5 University degree or post-graduate degree other than technical degree
6 Technical degree or diploma equal to degree or post-graduate degree
  (i) Engineering
  (ii) Medicine
  (iii) Agriculture
  (iv) Veterinary and Dairying
  (v) Technology
  (vi) Teaching
  (vii) Others

Rural

1 Primary or Junior Basic
2 Matriculation or Higher Secondary

3. All persons who have ability to read and write with understanding, i. e., to read any simple letter with felicity and write a simple letter with understanding, are considered literates. Those who have passed Lower Primary or Junior Basic but have not passed Matriculation, Higher Secondary, S. S. L. C. or E. S. L. C., come under the category of Primary or Junior Basic and all who have passed Matriculation, Higher Secondary, S. S. L. C. or E. S. L. C. come under the category of Matriculation or Higher Secondary.

4. In connection with the enumeration of technical personnel, degrees in science subjects like Physics, Mathematics, Chemistry, Geology, Geo-Physics, Geography etc., have been recognised as technical degrees. These do not come under the specific items covered by ' technical degree or diploma equal to degree or post-graduate degree'. Hence whereever the subject of graduation has been given these have been included under 'others' in the urban areas. This accounts for the higher percentage of 'others' coming under 'technical degree or diploma equal to degree or post-graduate degree'.

C-V MOTHER TONGUE

Fly-leaf

This table which corresponds to table D-I Language (i) Mother tongue of 1951 Census gives the sex-wise distribution of the population under different mother tongues for the total, rural and urban areas of the district and upto taluk level for rural areas. This is finalised in consultation with the Linguist of Registrar General's Office. The following notes have also been prepared by the Linguist:—

NOTE 1

1. The following mother tongues arranged in alphabetical order in Col. 1 of the statement given below as per Table C-V have been classified in the Linguistic Survey of India. The Linguistic Survey of India classification Number is mentioned against each mother tongue in column 3.

2. If in column 3 no classification Number is given against any mother tongue of Col. 1 then it would mean that the name refers to either old or middle Indo Aryan language or a language group or branch or family name from the Linguistic Survey of India.

3. Wherever a tongue is mentioned in column 3 it is to be understood that the mother tongue is either a dialect or another name or form of the tongue mentioned against it in column 1 which in its turn has been classified by the Linguistic Survey of India in the appropriate place for that tongue.

4. If in column 1, there is a tongue which bears no classification number in the Linguistic Survey of India then in column 2 the name of the classified language or group will be given of which the mother tongue of column 1 is either a dialect or another name or form. In such a case the number of classified language of column 2 has been given in column 3.

5. In column 2 standardized spellings according to Linguistic Survey of India has been given against each mother tongue of column 1.

Alphabetical order of mother tongues classified by the Linguistic Survey of India		Classified name in the Linguistic Survey of India	Classification Number in the Linguistic Survey of India
1		2	3
1	Banarasi	Western Bhojpuri	525
2	Bengali	Bengali	529
3	Coorgi/Kodagu	Kodagu/Coorgi	301
4	Gujarati	Gujarati	652
5	Hindi	Hindi	586
6	Hindustani	Hindostani	582
7	Kachchhi	Kachchhi	451
8	Kannada	Kanarese	296 Karandi, Kumbar cf. Note 2
9	Konkani	Konkani	494 cf. Note 2, Kudubi cf. Note 2
10	Malayalam	Malayalam	293 Pania
11	Marathi	Marathi	455
12	Marwari	Marwari	713
13	Nagari-Malayalam	Nagari	654 cf. Note 2
14	Naiki-Banjari	Banjari	771
15	Nepali	Naipali	781 Gorkhali
16	Punjabi	Punjabi	632 Sikhi
17	Sanskrit	Sanskrit	
18	Saurashtra	Patanuli	674
19	Sindhi	Sindhi	445
20	Tamil	Tamil	285
21	Telugu	Telugu	319
22	Tulu	Tulu	302
23	Urdu	Urdu	585

NOTE 2

The following mother tongues arranged in alphabetical order as per Table C-V and are indicated by asterisk and dagger or a dagger alone in that Table have been tentatively classified or reclassified by the Linguist in the manner stated below:—

(T) against the mother tongue in column 1 indicates that it has been tentatively classified, (TR) means that it has been tentatively re-classified by the Linguist.

Alphabetical order of the mother tongues indicated by asterisk and dagger or a dagger alone in Table C-V		Manner in which tentatively classified or re-classified by the Linguist
1		2
1 Chettibhasha — Konkani	(T)	Konkani, a language of the Southern Group of Outer Sub-Branch of the Aryan Sub-Family
2 Gouda Saraswata	(T)	Konkani, a language of the Southern Group of Outer Sub-Branch of the Aryan Sub-Family
3 Konkani	(TR)	A language of the Southern Group of Outer Sub-Branch of the Aryan Sub-Family
4 Kudubi	(TR)	Konkani, a language of the Southern Group of Outer Sub-Branch of the Aryan Sub-Family
5 Kumbar	(TR)	Malayalam
6 Moopan	(T)	Konkani, a language of the Southern Group of Outer Sub-Branch of the Aryan Sub-Family
7 Nagari - Malayalam	(TR)	Malayalam
8 Oda	(T)	Malayalam

NOTE 3

Mother tongues outside the Indian Sub-Continent which have been printed in italics in the table have been arranged by the Linguist according to (a) mother tongues of other Asian Countries and (b) mother tongues of each of the other Continents in the following manner:—

1	2
Other Asian Countries	Arabic/Arbi Burmese Ceylonese/Simelu/Singhalese Japanese Mahl/Maldivian Malai/Malay/Malaya/Malayan
Europe	Dutch English Norwegian Portuguese

NOTE 4

The following mother tongues which appear in the table have been found unclassifiable by the Linguist for want of any dependable information on them so far.

Nil

NOTE 5

Column 2 shows variant spellings or forms of mother tongue returns which are rationalized to the names given against them in column 1.

Rationalized forms of names of mother tongues as listed in Table C-V	Variant forms of the names of mother tongues recorded during enumeration and/or transcription
1	2
Banarasi	Benarese
Chettibhasha-Konkani	Chetty, Chettibhasha

C-VII RELIGION

Fly-leaf

The distribution of population by sex under different religions is given in this table. In the table the figures of only six major religions in India have been shown. The remaining beliefs have been clubbed into 'other religions and persuations' the details of which are presented in the supplement to the table. This table corresponds to table D–II Religion of 1951 Census.

C-VIII SCHEDULED CASTES AND SCHEDULED TRIBES

Fly-leaf

1. This table is prepared in two parts, Part-A dealing with Scheduled Caste population and Part-B dealing with Scheduled Tribe population. These give the sex-wise distribution of Scheduled Castes and Scheduled Tribes into literates and illiterates and also into workers in the nine industrial categories and non-workers for total, rural and urban areas of the district and for rural area by taluks.

2. The corresponding Table of 1951 (Table D-III Scheduled Castes and Scheduled Tribes) shows only the population of Scheduled Castes and Scheduled Tribes without their livelihood pattern.

PART-A CLASSIFICATION BY LITERACY AND INDUSTRIAL CATEGORY

D--MIGRATION TABLES

NOTE

Seven tables in this series present the migration trends analysed on the reports of the 1961 Census. They are—

D-I	Non-Indian Nationals
D-II	Place of birth
D-III	Migrants classified by place of birth and duration of residence in place of enumeration
D-III A	Migrants from other States and outside India (less than 5 years of duration) classified by age-groups
D-IV	Migrants in cities classified by sex, broad age-groups, educational levels and in case of workers also by occupational divisions and groups
D-V	Cities showing population born locally, migrants from rural areas and migrants from other towns and cities
D-VI	Distribution of Industrial categories of workers and non-workers by place of birth

All the above tables are published in "Volume VII—Kerala State—Part II C—Cultural and Migration Tables".

E—HOUSING AND ESTABLISHMENT TABLES

NOTE

The data for these tables have been compiled from the Houselists prepared for the 1961 Census. The Housing and Establishment Tables are presented in the following five tables:—

E-I	Census houses and the uses to which they are put
E-II	Tenure status of sample census households living in census houses used wholly or partly as dwelling (based on 20% sample)
E-III	Census houses used as factories and work shops classified by industry, power and no power used and size of employment
E-IV	Distribution of sample households living in Census houses used wholly or partly as dwelling by pre-dominant material of wall and pre-dominant material of roof (based on 20% sample)
E-V	Sample households classified by number of members and number of rooms occupied (based on 20% sample)

All the above tables are published in "Volume VII—Kerala State—Part IV A & B—Report of Housing and Establishment Tables".

SCT, SC & ST—SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

NOTE

The tabulation of Scheduled Castes and Scheduled Tribes in 1961 was based on the 'Scheduled Castes and Scheduled Tribes Lists (Modification) order, 1956' issued by the President of the Indian Union. According to this list the following are the names of Scheduled Castes and Scheduled Tribes:—

	Scheduled Castes		*Scheduled Tribes*
Throughout the Kerala State			
1	Chakkiliyan	1	Irular or Irulan
2	Kuravan, Sidhanar	2	Kadar
3	Nayadi	3	Muthuwan, Mudugar or Muduvan
4	Pallan		
5	Paraiyan, Parayan (Sambavar)		
6	Valluvan		
Throughout the State *except* Kasaragod taluk of Malabar District			
1	Kanakkan or Padanna		
2	Panan		
Throughout the State *except* Malabar District (excluding Kasaragod taluk)			
1	Paravan		
Throughout the State *except* Malabar District			
1	Ayyanavar	1	Eravallan
2	Bharatar	2	Hill Pulaya
3	Boyan	3	Kanikaran or Kanikkar
4	Domban	4	Kochuvelan
5	Kakkalan	5	Malai Arayan
6	Kavara	6	Malai Pandaram
7	Kootan (Koodan)	7	Malai Vedan
8	Mannan (മണ്ണാൻ)	8	Malakkuravan
9	Padannan	9	Malayan
10	Palluvan	10	Malayarayar
11	Pathiyan	11	Mannan (മന്നാൻ)
12	Perumannan	12	Palleyan
13	Pulayan or Cheramar	13	Palliyar
14	Thandan	14	Ulladan (Hill dwellers)
15	Ulladan	15	Uraly
16	Uraly	16	Vishavan
17	Vallon		
18	Vannan		
19	Velan		
20	Vetan		
21	Vettuvan		
In Malabar District			
1	Adi Andhra	1	Adiyan
2	Adi Dravida	2	Arandan
3	Adi Karnataka	3	Kammara
4	Ajila	4	Kattunayakan
5	Arunthathiyar	5	Konda Kapus
6	Baira	6	Kondareddis
7	Bakuda	7	Koraga
8	Bandi	8	Kota
9	Bellara	9	Kudiya or Melakudi
10	Chamar or Muchi	10	Kurichchan

	Scheduled Castes		*Scheduled Tribes*
In Malabar District—*concld.*			
11	Chandala	11	Kurumans
12	Cheruman	12	Maha Malasar
13	Godagali	13	Malasar
14	Godda	14	Malayekandi
15	Gosangi	15	Palliyan
16	Holeya	16	Paniyan
17	Kadaiyan	17	Pulayan
18	Kalladi		
19	Karimpalan		
20	Koosa		
21	Kudumban		
22	Maila		
23	Mavilan		
24	Moger		
25	Mundala		
26	Nalakeyava		
27	Pambada		
28	Panchama		
29	Puthirai Vannan		
30	Raneyar		
31	Samagara		
32	Samban		
33	Semman		
34	Thoti		
In Malabar District (excluding Kasaragod taluk)			
1	Gavara		Kurumbas
2	Malayan		
3	Pulaya Vettuvan		
In Kasaragod taluk of Malabar District			
1	Bathada		Marati
2	Hasla		
3	Nalkadaya		

SCT-I INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES AND SCHEDULED TRIBES

Fly-leaf

1. This table prepared in twop arts, Part–A dealing with Scheduled Castes and part–B dealing with Scheduled Tribes, gives for each caste and tribe separately for rural and urban areas of the district and the sex-wise distribution of population into workers in the nine industrial categories and non workers.

2. Part-A also gives the sex-wise number of workers in each Scheduled Caste engaged in special occupations like 'Tanning and currying of hides and skins' and 'Scavenging'.

3. The following statement presents the taluk–wise distribution of Scheduled Castes and Scheduled Tribes by rural–urban distribution and by sex.

Total population of Scheduled Castes and Scheduled Tribes, 1961

SCT-II AGE AND MARITAL STATUS FOR SCHEDULED CASTES AND SCHEDULED TRIBES

Fly-leaf

This table prepared in two parts, part-A dealing with Scheduled Castes and Part-B dealing with Scheduled Tribes, gives sex-wise distribution of each Scheduled Caste and Scheduled Tribe by broad age-groups and marital status for the district. The age-groups and marital status followed in the table are given below:—

Age-groups

(i) 0—14
(ii) 15—44
(iii) 45 and above
(iv) Age not stated

Marital status

(i) Never married
(ii) Married
(iii) Widowed
(iv) Divorced or separated
(v) Unspecified status

SCT-III SCHEDULED CASTES AND SCHEDULED TRIBES CLASSIFIED BY EDUCATIONAL LEVELS

Fly-leaf

1. This table prepared separately for urban and rural areas of the district gives the sex-wise distribution of literacy and educational levels of each Scheduled Caste and Scheduled Tribe.

2. The data relating to urban areas are given in Part A (i) and Part A (ii), the former dealing with Scheduled Castes and the latter dealing with Scheduled Tribes. The classification of literacy levels is furnished below:—

1 Illiterate
2 Literate (without educational level)
3 Primary or Junior Basic
4 Matriculation or Higher Secondary
5 Technical diploma not equal to degree
6 Non-technical diploma not equal to degree
7 University degree or post-graduate degree and
8 Technical degree or diploma equal to degree or post-graduate degree

3. The data relating to rural areas are given in Part B (i) dealing with Scheduled Castes and Part-B (ii) dealing with Scheduled Tribes. The population of each Caste and Tribe is classified into

1 Illiterate
2 Literate (without educational level)
3 Primary or Junior Basic and
4 Matriculation and above.

SCT-III PART-A (i) EDUCATION *IN URBAN AREAS ONLY* FOR SCHEDULED CASTES

Name of Scheduled Caɔɪs	Total		Illiterate		Literate (without educational level)		Educational levels: Primary or Junior Basic		Matriculation or Higher Secondary		Technical diploma not equal to degree		Non-technical diploma not equal to degree		University degree or post-graduate degree other than technical degree		Technical degree or diploma equal to degree or post-graduate degree

SCT-IV RELIGION FOR SCHEDULED CASTES AND SCHEDULED TRIBES

Fly-leaf

This table prepared in two parts, Part-A dealing with Scheduled Castes and Part-B dealing with Scheduled Tribes gives the classification of each Scheduled Caste and Scheduled Tribe according to their religion for the rural and urban areas of the district. In this district the Scheduled Castes belong to Hindu religion only and hence Table SCT-IV Part A is not presented as the required information is available in Table SCT-I Part A.

SCT-V SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN RURAL AREAS ONLY FOR MEMBERS OF SCHEDULED CASTES AND SCHEDULED TRIBES

Fly-leaf

This table gives data in respect of households of members of Scheduled Castes and Scheduled Tribes in a 20 per cent sample of all households in rural areas of the district. It is prepared in two parts, Part–A dealing with Scheduled Castes and Part–B dealing with Scheduled Tribes. This table gives the number of cultivating households and their distribution according to the interest in land cultivated such as—

1 Owned or held from Government

2 Held from Private persons or institutions for payment in money, kind or share

3 Partly held from Government and partly from private persons for payment in money, kind or share

SCT-V PART-A SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED *IN RURAL AREAS ONLY* FOR MEMBERS OF SCHEDULED CASTES

(Households of members of Scheduled Castes in a 20 per cent sample of all households)

Interest in land cultivated	No. of cultivating households	Households engaged in cultivation by size of land in acres: Less than 1	1.0-2.4	2.5-4.9	5.0-7.4	7.5-9.9	10.0-12.4	12.5-14.9	15.0-29.9	30.0-49.9	50+	Unspecified

PART C

VILLAGE DIRECTORY

PRIMARY CENSUS ABSTRACT

Fly-leaf

1. The Primary Census Abstract is presented down to block level for urban areas and desom or muri level for rural areas.

Occupied Census House

2. A census house is a structure or part of a structure, inhabited or vacant, giving on the road or a common staircase or a common courtyard leading to a main gate or enjoying a separate entrance. It may be a dwelling, a shop, a shop-cum-dwelling, a workshop-cum-dwelling, or a place of business· workshop, school etc. A census house that is inhabited is an occupied census house.

Dwelling

3. A dwelling is a census house used exclusively for residential purposes.

Shop–cum–dwelling

4. A shop-cum-dwelling is a census house used both as a shop and as a residence.

Workshop–cum–dwelling

5. A census house used both as a workshop and as a residence is a work-shop-cum-dwelling

Household

6. A household is a group of persons,who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so.

Literacy and Education

7. For purposes of enumeration the ability to read and write was recognised as the test of literacy. The test applied for reading was the ability to read any simple letter either in print or in manuscript and that for writing was ability to write a simple letter. Persons who could both read and write and have also passed a written examination or examinations as a proof of the educational standard attained were taken as educated persons.

Workers and Non-workers

8. A worker was defined for the purposes of this census as a person working as a cultivator, or an agricultural labourer, or working at household industry, or may be doing any other productive work, or working in any possible combination of the above four categories of work. The basis of work was deemed to be satisfied in the case of seasonal work like cultivation, live-stock, dairying, household industry etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce, the basis of work was deemed to be satisfied if the person was employed during any of the fifteen days preceding the day of enumeration. A person who was working but absent from his work during the fifteen days preceding the day on which enumerated, or even exceeding the period of fifteen days due to illness or other causes was treated as worker. Work includes not only actual work but also effective supervision and direction of work· Persons under training as apprentices with or without stipend or wages were also regarded as workers. An adult woman who was engaged in household duties but was doing no other productive work to augment the family's resources was not considered as a worker. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale or wages or in domestic services for wages for others or minding cattle or selling firewood etc., or any such work, she was treated as a worker. Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or divident receivers, who might have been earning an income but were not participating in any productive work, were not treated as workers unless they also worked in cultivation, industry, trade, profession, business or commerce. A public or social service worker who was actively engaged in public service activity or a political worker who was also actually engaged in furthering the political activity of his party was regarded as a worker. A person was considered to be working as cultivator, if, he or she, was engaged either as employer, single worker or family worker in cultivation of land or supervision or direction of cultivation of land owned or held from Government, institutions or private persons. A person was considered agricultural labourer if he was working in another person's land only as labourer without exercising any supervision or direction in cultivation for wages in cash, kind or share such as a share of produce. He should have no right or lease or contract on land on which he works, nor should he be responsible for taking decisions as to which crop to sow and when, or taking the risks of cultivation. A person was considered as working in household industry if the industry comes within the definition of the household indusiy. A worker may be an employer, i. e., a person who hires one or more persons in his work, or an employee i. e., who does his work under others for wages or salary in cash or kind, or a single worker, i. e., who is doing his work without employing others except casually and without the help of other members of the family except casually, or a family worker i e. a member who works without receiving wages in cash or kind, in an industry business or trade, conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. The following explanations of these categories or workers were accepted for census enumerations :-

(i) An employer is not only responsible for his own personal work but also for giving work to others in the business run by him. But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

(ii) There may be persons who are employed as managers, superintendents, agents etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(iii) A single worker is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. The definition of a single worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co-operative. Each one of the partners or members of such producers' co-operatives is a 'single worker'.

(iv) An industry in which a family worker is engaged should be on a scale larger than what is earned in Household Industry in Question 10 whether run at home or away from home in town or village and even away from village in rural areas and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relatives.

For purposes of enumeration, non-workers were persons who were not engaged in any productive work. Thus a person who had been offered work but had not actually joined, or an adult woman who was engaged in household duties but was doing no other productive work to augment the family's resources, or persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who were earning an income but were not participating in any productive work were all treated as non-workers. The non-workers are sub-grouped into eight categories according to the nature of their activity as given below :—

1 Full time students or children attending school who do no other work
2 Persons engaged in unpaid home duties who do no other work such as make articles at home for sale, or wages, nor help regularly even part-time in family cultivation, industry, trade or business
3 Dependents including infants and children not attending schools and persons permanently disabled from work because of illness or old age
4 Retired persons not employed again, rentiers, persons living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work
5 Beggars, vagrants, independent women without indication of source of income or others of unspecified source of existence
6 Convicts in jails, inmates of penal, mental and charitable institutions
7 Persons seeking employment for the first time.
8 Persons employed before, but were out of employment and were seeking work during the reference period

The following industrial classification has been adopted for the primary economic classification of population :—

I Working as Cultivator
II Working as Agricultural Labourer
III Working in Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities
IV Working at Household Industry
V Working in Manufacturing other than Household Industry
VI Working in Construction
VII Working in Trade and Commerce
VIII Working in Transport, Storage and Communications
IX Working in Other Services
X Non-workers

Household Industry

9 For purposes of enumeration an industry was considered to be a household industry if it was below the scale of a registered factory conducted by the head of the household himself and or mainly by members of the household at home or within a village in rural areas and only at home in urban areas. The industry should have embraced production, processing, servicing or repairing and included making and selling of goods. The following three tests were laid down to determine whether an industry is a household industry or not :—

(a) Household industry should embrace manufacturing, processing, servicing or repairing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.

(b) Household industry should be on a household scale where the workers mainly will be the head of the household himself and members of the household, the role of hired workers from outside being of secondary importance. Thus, in any household industry, members of the household should be in a position to lend a hand in the industry whenever they find time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a registered factory but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

(c) Location is also important for proximity decides participation by members of the household. In a village this participation is possible if the household industry is located at home or within the village, because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such a free movement is not possible and, therefore, in urban areas, only those industries which are located at home can be considered for purposes of household industry. Where, however, part of the work is done outside the house e.g., preparing and dyeing the yarn for weaving or winding into warp and woof or cleaning metal surfaces before electroplating in baths, it should still be considered a household industry, even in urban areas, as the main operation of weaving or of electroplating is conducted within the house and only one or two operations are conducted outside.

(iii) INDUSTRIAL ESTABLISHMENTS

INDUSTRIAL ESTABLISHMENTS

The description of the codes used in the succeeding pages is furnished below:—

Code	Description
048	Manufacture of gut from intestinees of cattles
200.1	Production of copra
200.2	Proceesing of arecanut
200.3	Rice and flour mill
200.4	Production of rice, flour etc., by hand-pounding
200.5	Processing of cardamom, ginger, pepper etc.
201	Production of sugar from sugarcane in mills
202	Production of indigenous sugar, gur from sugarcane and production of sugar candy
203.1	Canning and preservation of fruits and production of jam, jelly etc.
203.2	Processing and preservation of cashewnuts
204.1	Slaughtering of cattle
204.2	Preservation of fish, frog's legs etc.,
205	Bakery
206	Production of dairy products
207.1	Oil mill including sharkliver oil factories
207.2	Extraction of oil by ghani
208	Manufacture of hydrogenated oil
209	Manufacture of 'avil' (beaten rice), 'appalam' etc.,
210	Production of brandy, vinegar etc.,
214	Manufacture of sodawater, lemonade etc.,
215	Manufacture of ice
216	Manufacture of icecream
217	Processing, packing and distribution of tea
218	Processing, grinding, packing and distribution of coffee
219	Manufacture of syrup (beverages)
220	Manufacture of bidi
221	Manufacture of cigar
224	Manufacture of tobacco snuff
225	Manufacture of chewing tobacco
230	Cotton ginning, cleaning, pressing etc.
231	Cotton spinning other than in mills
232	Cotton spinning and weaving in mills
233	Dyeing and bleaching of cotton
234	Cotton weaving in powerlooms
235	Handloom-weaving
236	Khadi weaving in handloom
237	Printing of cotton textiles
239	Manufacture of cotton thread, rope, twine etc.,
241	Jute spinning
244	Manufacture of jute products including repairing of gunny bags
264	Weaving of silk by handloom
271	Manufacture of hosiery goods
272	Making of embroidery products
273	Tailoring
274	Manufacture of quilts and matress
277	Manufacture of coir and coir products
278.1	Manufacture and assembling of umbrellas and production of spare-parts of umbrellas
278.2	Repairing of umbrellas
280	Sawing of wood
281	Manufacture of wooden furniture and fixtures
282	Manufacture of structural wooden goods such as doors, beams etc.,
283	Manufacture of wooden industrial goods such as parts of handlooms, ambarcharka, bobbins etc.,
284	Manufacture of wooden utensils, photo-frames, and photoframing toys etc.,
285	Manufacture of veneer, plywood and match splinters
286	Manufacture of plywood products such as tea-chest etc.,
287	Manufacture of wooden boxes and packing cases
288	Cane industry including basket-weaving etc.,
289	Manufacture of miscellaneous wooden articles such as sticks, sandals, rulers etc.
290	Manufacture of papar and paper-board in mills
291	Manufacture of paper-board and paper by hand
292	Making of paper boxes, bags, envelopes etc.,
300	Printing and publishing of newspapers and periodicals
301	Printing and publishing of books
302	Miscellaneous printing works including type cutting
303	Book-binding
310	Currying, tanning and finishing of leather, hides and skins
311	Manufacture of leather shoes and chappals
313	Manufacture of leather producte such as suitcase, bags etc.
314	Repairing of leather shoes and chappals
320.1	Manufacture of tyres and tubes
320.2	Retreading of tyres
320.3	Vulcanising and repairing of tyres and tubes

Code	Description
322	Manufacture of rubber gloves etc.
323	Manufacture of rubber products such as rubber-sheets, nipple and rubber shoes including smoke-rubber
330	Manufacture of chemicals such as sodium silicate, copper sulphate, lotion, caustic soda, insecticides etc.,
331	Manufacture of paints, varnish, indigo, dhobi-blue, dyes, colours etc.,
332	Manufacture of fertilizers, like bone-meal, Ammonium sulphate etc.,
333	Manufacture of crackers and fire works
334	Manufacture of matches
335.1	Manufacture of pharmaceuticals, chemicals, ayurvedic medicines etc.,
335.2	Manufacture of 'agarbathi' and other cosmetics
336	Manufacture of soaps
337	Manufacture of plastic products such as name plates etc.,
339	Manufacture of lemongrass oil, cashewnut shell oil, ink-powder, candle etc.,
340	Manufacture of bricks and tiles
341.1	Manufacture of cement
341.2	Manufacture of cement products such as well-kerbs, tubs, tubes, closets etc.,
342	Manufacture of lime
343	Manufacture of structural stone goods, stone crushing, stone-carving, stone dressing, marble carving etc.,
344	Manufacture of stone wares
345	Manufacture of stone images
350	Pottery
351.1	Manufacture of chinaware and crockery
351.2	Manufacture of large containers of chinaware
355	Manufacture of clay models
357.1	Manufacture of glass and glass products
357.2	Manufacture of glass products such as mirrors
359	Manufacture of non-metallic mineral products such as titanium dioxide, pigments, rayon and cellilose, ilmenite, monosite and imitation diamonds
362	Manufacture and repairing of fire arms and weapons
364	Manufacture of iron and steel furniture
365	Manufacture and repairing of brass and bell metal products
366	Manufacture of aluminium utensils and other products
367	Manufacture of tincans and copper vessels
368	Electroplating, tinplating, welding etc.
369	Manufacture of agricultural implements, screws etc. (blacksmithy and foundary)
370	Manufacturing, assembling, and repairing of machinery such as water pumps, oilmill chuck etc.
372	Manufacture of small machine tools and machine parts
373	Manufacture of sewing machine parts and assembling and repairing of sewing machines
374	Manufacture of electrical machinery and repairing of electric motors, armature winding etc.
375.1	Manufacture of electric fans
375.2	Repairing of electric fans
377	Charging and repairing of batteries
378	Repairing of radios, mocrophones etc.
379	Manufacture of electric meters, production of electric and allied products, repairing and servicing of electrical appliances etc.
380	Repairing of locomotives
382	Body-building of motor vehicles
383	Manufacture and repairing of mytor engine parts and accessories
384	Servicing and repairing of motor vehicles
385.1	Manufacture of cycles
385.2	Manufacture of cycle parts and accessories
386.1	Manufacture and repairing of boats and barges
386.2	Repairing of boats
388	Repairing of bicycles
389	Manufacture and repairing of animal-drawn and hand-drawn vehicles
390	Repairing of photographic equipment, spectacles etc.
391	Manufacture of medical instruments
392	Repairing of watches and clocks
393	Manufacture of jewellery
394	Manufacture, repair and tuning of musical instruments
395	Manufacture of pen, pencil, pen-holders, rubber stamps etc.,
396	Manufacture of sports goods, balloons etc.
399.1	Ivory-carving and ivory works
399.2	Miscellaneous industries.

INDUSTRIAL ESTABLISHMENTS

[This table gives the total number of industrial establishments arranged in ascending order of minor groups. The first figure is the number of minor group and the figure within brackets is the number of establishments.]

Trichur District

Towns:— Irinjalakuda (Municipal) 200.1(1), 200 2(1), 200.3(9), 200.4(1), 204.1(1), 205(2), 207.1 (11), 207.2(1), 209(2), 214(6), 218(4), 220(2), 230(1), 231(1), 235(2), 273(15), 278.2(1), 280(2), 281(5), 287(1), 302(11), 311(5), 320.3(1), 333(2), 334(1), 335.1(2), 336(2), 350(6), 365(16), 369(10), 378(2), 384(1), 388(9), 392(4), 393(18). Chalakudy 200.3(10), 200 4(1), 205(4), 209(5), 214(5), 218(3), 220(5), 273(14), 277(1), 278.2(1), 280(8), 281(8), 284(2), 285(1), 287(4), 288(4), 302(4), 303(1), 311(2), 313(3), 320.3(4), 334(2), 335.1(4), 340(2), 342(3), 350(8), 351.2(1), 365(1), 367(10), 368(1), 369(14), 379(2), 384(10), 388(5), 392(5), 393(17).

(iv) INDEX OF VILLAGES AND MURIS/DESOMS

INDEX OF VILLAGES AND MURIS DESOMS

The Names of the Census villages viz., revenue villages and of the census muris/desoms are given in full capitals and in lover case respectively. Wherever a census village has only one muri/desom and that bears the same name of the village the muri/desom has been omitted.

Sl. No.	Alphabetical list of village/muri/desom	Sl. No. in the Primary Census Abstract	No. according to Census Location Code
