PREFACE

Before 1951, only the figures of population of revenue villages were given in what were then called 'Village Handbooks'. But the decision to bring out the District Census Handbooks giving extracts from all the important census tables for every district of the State was taken for the first time in 1951. In addition to the census tables, the minimum information given in the Primary Census Abstract related to the area of the village, number of houses and households, total population, houseless and institutional population, literates, and agricultural and non-agricultural classes distributed under 8 main livelihood classes. Census statistics given in the Primary Census Abstract were further supplemented by the addition of useful administrative information on such items as post offices, railway stations, distance of bazzar from village, primary schools, village panchayats, co-operative society, etc. This was a unique achievement of the Indian Census giving as it did the basic demographic and economic information for the smallest administrative unit, namely, the village, and in some States, even for each hamlet and also for wards in towns and cities. The 1951 series of District Census Handbooks, however, varied in content and size from State to State depending upon the resources offered by the State Government. The Registrar General, therefore, desired that the Handbooks brought out during the Census of 1961 should contain certain minimum statistical data, maps and other useful information which should be uniformly adopted throughout the country. The matter was discussed at the conferences and seminars of the Superintendents of Census Operations before the contents of the various sections of the District Census Handbook were decided upon.

The Government of Gujarat at first proposed to include a very limited number of census tables in the District Census Handbook as against a very extensive and comprehensive coverage accepted for common adoption by the States. But on reviewing the matter on receipt of the recommendations of the third conference of Superintendents of Census Operations, the Government thought advisable to incorporate as many of the census tables as possible to enhance its usefulness. The result has been that the District Census Handbook of 1961 differs widely in the matter of content and coverage from that published after the Census of 1951 and contains a number of new features, examined below.

The District Census Handbook has been sub-divided into three parts, viz., :—

PART I—THE DISTRICT

(i) Introductory Essay

(ii) Brief Gazetteer of Place Names

PART II—STATISTICS

(i) Census Tables

(ii) Villagewise List of Industrial Establishments

(iii) Handicrafts Tables

(iv) Departmental or Official Statistics

PART III—VILAGE DIRECTORY

(i) Explanatory Note

(ii) Village Directory

(iii) Taluka Maps

Part I is entirely new. While all the items under Part II except that relating to the main Census Tables are added for the first time, the Village Directory Section has been enlarged by the inclusion of certain useful information and maps. Various items included in each of these three parts are listed below.

PART I—THE DISTRICT

(i) Introductory Essay

This is a new feature added for the first time. The district has been introduced by giving at the outset certain essential information about its geographical location, physical features, historical background, administrative

divisions, territorial changes, topography, soil, climate, temperature, rainfall, etc. Growth of population, its distribution between rural and urban areas, density, literacy, sex ratio, marital status, economic activities, etc., have been discussed with reference to census tables. Agriculture, livestock, social services, co-operation, transport and communications, facilities of education, medical relief, housing, labour, Community Development Programme, progress of plan schemes, etc., have also been reviewed in the light of available official statistics. In fine, all the essential details relating to the demographic, economic, social and cultural aspects as revealed by the census and departmental statistics have been examined to give a succinct account of the district as it stood in 1961.

(*ii*) *Brief Gazetteer of Place Names*

The gazetteer gives in brief information about all the places of historical or religious importance and interest in the district. While the historical background and other relevant details have been taken from the old District Gazetteers, information in respect of major irrigation projects townships, crafts, fairs and festivals, etc., have been separately collected and brought up-to-date in consultation with the Collectors.

PART II—STATISTICS

Part II contains (a) all the important Census Tables including those compiled from House-lists and (b) Official Statistics, furnished by the various State departments.

Census Statistics

The statement that follows compares the number of tables compiled in different census series with those selected by Government for reproduction in the District Census Handbook.

Details of tables compiled in 1961 Census and reproduced in District Census Handbook

Series	Description	Total No. of tables complied in 1961	Tables reproduced in District Census Handbook	
			Number	Particulars
1	2	3	4	5
A	General Population Tables	4	3	A-I and its Appendices I, II & III with sub-Appendices 1 & 2, A-III and A-IV with Appendix I and Special Appendix
B	Economic Tables	17	12	
	(i) General Economic Tables	9	7	B-I, B-III-Parts A & B, B-IV-Parts A, B & C, B-V, B-VII-Parts A & B, B-VIII-Parts A & B and B-IX
	(ii) Houschold Economic Tables	8	5	B-X, B-XI, B-XII, B-XVI and B-XVII
C	Social and Cultural Tables	8	7	C-I, C-II, C-III-Parts A & B, C-IV, C-V, C-VII, C-VIII-Parts A & B
D	Migration Tables	6	..	
E	Tables on Housing and Establishments	5	4	E-I, E-II, E-IV and E-V
SCT/SC/ST	Special Tables on Scheduled Castes and Scheduled Tribes	8	1	SCT-I-Parts A & B

Note :

Two more tables have been specially compiled from House-lists, viz., (i) Villagewise List of Industrial Establishments and (ii) Handicraft Tables.

Official Statistics

The picture the census statistics present will be incomplete without the official or departmental statistics reviewing the progress made by the various administrative departments during the past decennium. An attempt has, therefore, been made to compile important official statistics for publication in the District Census Handbook. These statistics which relate to the past ten years must be adjusted to the existing set-up of administration, if they are to be really useful and comparable. This, however, was not possible in spite of efforts to that effect. For, extensive changes in the territorial jurisdiction of districts and talukas have taken place during the last ten years, first as a result of integration in 1956 and then due to bifurcation on May 1, 1960 when Gujarat came into being as a separate political unit for the first time. Non-availability of the required data in case of most of the Princely States and Estates was another handicap. The task of compilation of official statistics was thus beset with innumerable difficulties. The proformae for the various statements numbering 49 as approved by Government and the Registrar General were circulated to all concerned Heads of Departments as early as July 1961. In view of the importance of these statistics, the Government by circular letter No. CNS-1461-A 2, dated the 27th July 1961 addressed to all the Heads of Departments had also directed that official statistics called for by the Superintendent of Census Operations should be furnished within two months through the Director, Bureau of Economics and Statistics, after thorough scrutiny by some responsible officer of the department along with a certificate to the effect that the data furnished are up-to-date, complete and authentic in all particulars. The delay, however, caused in furnishing correct and complete information by the departments delayed final compilation and resulted in protracted correspondence to rectify the discrepancies and incompleteness noticed during the course of verification at the Bureau. Non-availability of the required information for the various administrative units as at present constituted was another obstacle. The progress had, therefore, to be reviewed from time to time in a series of meetings with the Director, Bureau of Economics and Statistics and representatives of the departments concerned. The offices from which information was not received had to be frequently reminded by the Director, the Census Department and at times even by the Chief Secretary. Some of the tables proposed to be included could not be inserted or had to be revised either for want of receipt of timely information or owing to the non-availability or incompleteness of the data furnished. Where data for individual years are not available, they have been collected for the years 1950-51, 1955-56, 1960-61 which mark the commencement of the First, Second and Third Five Year Plans. Where statistics for these periods are not available, they are given only for the year 1960-61; and where the figures compiled are not available for the units as at present constituted, the clarification as to the unit to which they refer has been made in the footnote to the statements which also disclose the source of compilation.

PART III—VILLAGE DIRECTORY

The Village Directory or the Primary Census Abstract includes information regarding population, area, occupied houses, households, workers classified into nine industrial categories of workers and non-workers, Scheduled Castes and Scheduled Tribes, literates and educated, etc., for each village as well as for every ward and block of about 120 houses in each town. In addition it gives information on certain essential amenities existing in the village such as educational facilities, public health and medical facilities, supply of drinking water, electricity and its uses, etc., by means of abbreviations placed against the name of each village. This additional information has been compiled from the special 'village notes' devised for the purpose and collected through the Block Development Officers. They relate to the position as it existed about March 1961.

The figures of population of Scheduled Castes and Scheduled Tribes were given in 1951 for certain arbitrary tracts formed by the grouping of talukas. The result was that the administration was seriously handicapped in the absence of relevant particulars for the various administrative units of a district which were required oft and on for planning and other purposes. This lacuna has been removed on the present occasion by giving figures of Scheduled Castes and Scheduled Tribes for each village in the Primary Census Abstract. The talukas and villages given in the Village Directory are arranged in the order of their location code numbers.

Maps

The Village Directory is preceded by taluka maps showing villages by their location code numbers and dots varying according to the size of the village. Other items such as district or taluka headquarters, railway, National highway, State highway, local roads, post office, post and telegraph, canal, river, rest house, police station, etc., have been shown on the map with appropriate symbols. Two key maps, one for the State showing the district boundary and the position of the district in the State in hatching and the position of the taluka in the district in black and another key map for the district showing taluka boundary and the position of taluka in the district in hatching have also been included in the taluka map. In addition to taluka maps, a map of the district has also been given at the commencement of the Handbook showing the various items listed above for the taluka map and villages having population over 5,000. The key map given in the district map shows district boundary and the position of the district in the State in hatching.

The preparation of district and taluka maps and finalisation of area figures proved to be another handicap. The District Inspectors of Land Records had furnished tracings which had to be brought up-to-date in the light of changes in boundaries owing to integration on the one hand and bifurcation on the other. Frequent references and back references entered into at various levels, the Settlement Commissioner, Superintendents and District Inspectors of Land Records to remove the discrepancies and reconcile the inconsistencies noticed did not yield much result. The matter was, therefore, finally set at rest by calling a conference of Superintendents and District Inspectors of Land Records who did on-the-spot checking and verification and certified the correctness of the ultimate delimitation of boundaries and location of villages appearing in the taluka and district maps and accuracy of area figures entered in the Primary Census Abstract.

Paging

Each of the three parts of the District Census Handbook will have a separate series of page numbers starting with 1.

Alphabetical list of Villages

With a view to enable the reader to trace a village from the Village Directory, an alphabetical list of villages giving the names of villages and indicating their location code numbers, page number and serial number on the page at which they are printed has been given separately for each Taluka/Mahal at the commencement of the Handbook.

The Handbook

The contents of the District Census Handbook explained above have been finalised after frequent deliberations at various census conferences and seminars, and meticulous care as to their form, size and presentation. But these by themselves would not have been sufficient, had the Government not readily responded to the various suggestions made in this behalf. If I may say so, the Government had placed implicit faith in me, and accepted all the proposals made by me from time to time to add to the utility of this important compilation. It is hoped that the District Census Handbook in its present form will satisfy a growing demand for basic census data by ultimate territorial units and other background information about the district and also prove to be a useful book of reference to the administrative departments and the public.

The Government of Gujarat has taken a further decision namely to print the District Census Handbook also in the regional language of the State, viz., Gujarati. This will very much add to the utility of this publication. The Handbook in Gujarati will contain (i) Note introducing the district (ii) Alphabetical list of villages, (iii) Census tables, A-I, A-III and SCT-I, (iv) Village Directory with explanatory note and (v) District and Taluka maps.

Acknowledgements

Help in the compilation of the District Census Handbooks has been forthcoming from various quarters, to all of whom I am deeply indebted. I, however, wish to express my thanks to Shri V. Isvaran and Shri V. L. Gidwani, Chief Secretaries to Government and

Shri M. G. Shah, Deputy Secretary, General Administration Department for all the facilities they have given in their preparation and publication of these Handbooks. I am also obliged to the Bureau of Economics and Statistics for the services rendered in the compilation of Official Statistics furnished by the Heads of Departments and the checking of the statistical data in the draft-notes for the Introductory Essays prepared by the District Statistical Officers. My thanks are also due to Shri H. V. Desai, Settlement Commissioner, Superintendents of Land Records and District Inspectors of Land Records for their assistance in the finalisation of area figures and verification of district and taluka maps. Lastly I should place on record my gratitude to Shri Balwantray G. Mehta, Chief Minister of Gujarat, whose keen interest has to no small extent ensured the expeditious printing and publication of the District Census Handbooks.

Programme for the printing of District Census Handbooks has this time been very heavy indeed, more so as they are published both in Gujarati and English. The arrangements made by Shri B. A. Koreishi, Director, Government Printing and Stationery, and Shri G. J. Gonsalves, Deputy Director, for the printing of the voluminous work pertaining to the District Census Handbooks at the various Government and local presses, are thankfully acknowledged. The excellant work turned out by the Government Photo-zinco-graphic Press, Poona in printing district and taluka maps deserves special mention.

I would like to place on record the valuable contribution made by the members of the Census Organisation at various levels in bringing out the Handbook in its present form. Mention in particular should be made of Shri K. F. Patel, Deputy Superintendent of Census Operations, Shri J. D. Shah, Statistical Assistant, Shri H. S. Bhatt, in charge proof reading section and Shri K. D. Vaishnav and Shri L. S. Shrimali of draftsman section. Before I conclude I must pay tribute to the conscientious discharge of duties by the late Shri J. K. Patel, Special Mamlatdar whose services were placed by Government at the disposal of the Census Organisation, for supervising the printing of District Census Handbooks. It is a matter of great regret that his services were lost to us, as he was removed from our midst in the prime of his life owing to sudden heart failure.

Finally, the Registrar General has given such anxious thought and care since the inception of the Census Organization to ensure that the District Census Handbook which the Census of 1961 brings out is an up-to-date book of reference for the District by including all available useful data both census as well as official. I am grateful to him for the valuable suggestions made and guidance given by him in this important publication.

AHMEDABAD,
9th March, 1964.

R. K. TRIVEDI,
Superintendent of Census Operations,
Gujarat.

PART I

1 INTRODUCTORY ESSAY

2 GAZETTEER OF PLACE NAMES

INTRODUCTORY ESSAY

BHAVNAGAR DISTRICT

1 LOCATION AND PHYSICAL FEATURES

1.1 Boundaries, natural divisions, configuration

Bhavnagar district is situated on the south-east of the Peninsula of Kathiawar. It lies between 21°-18' and 22°-18' north latitude and between 71°-15' and 72°-18' east longitude. The district is bounded by Surendranagar and Ahmedabad districts on the north, Rajkot and Amreli districts on the west, Amreli district and Arabian Sea on the south and the gulf of Cambay on the east.

The physical features of the district differ widely at different places, being in some parts, such as the Bhal, a mere salt flat, while parts of the Sihor and Palitana range and hills in Kundla taluka show a country almost hilly. The coastal belt comprising of the parts of Bhavnagar-Ghogho, Talaja and Mahuva is flat and low lying in contrast to some of the other talukas and mahals of the interior.

1.2 Rivers, Lakes, Mountains & Marshes

Except Mahuva taluka the whole of the district drains towards the east and hence most of the rivers flow from west to east and meet the gulf of Cambay. The principal river of the district is the Shetrunji. Other perennial rivers of the district are the Rangholi and Kalubhar.

Amongst the artificial lakes of the district Gaurishanker, Khodiyar, and Sihor are worth mentioning. The first two lakes provide drinking water to Bhavnagar city while Sihor town receives its water supply from the third. It also supplements the water supply to Bhavnagar city, when necessity arises.

The district has two ranges of scattered hills, one located on the western border of Botad and Gadhada taluka in the north and the other running across the talukas of Kundla and Palitana. The highest is Shatrunjay or Shetrunja hill at Palitana. There are, besides, a large number of low hills scattered in Sihor and Talaja talukas and Ghogho mahal.

1.3 Soil

As the geographical formation of Saurashtra is of volcanic origin, the soils of this district are derived from trap rock with the exception of a few strips. The out-crop of granite rocks is visible at certain places like Talaja, showing that the original rock formation was of granite type but the volcanic effusions and spread of lava, followed by a long process of denudation, have created a basaltic topography. The black cotton soils which are not very deep are susceptible to erosion in the undulating areas in the interior of the district due to rains. The soils along the coastal belt are, however, deeper and more plain but due to their lowness get inundated by the ingress of sea water.

The soil of the district can be divided into five types :—

(i) Medium black soil in parts of Sihor, Songadh, Bhavnagar, Talaja, Mahuva, Palitana and Botad talukas and Umrala and Gadhada Mahals. This is the most predominant type of soil in the district and covers a major bulk of its area.

(ii) Coastal sandy alluvial soil in Mahuva taluka.

(iii) Light murram soil in elevated areas of Sihor, Bhavnagar, Songadh and Palitana talukas.

(iv) Clay lime soil in Gariadhar mahal.

(v) Clay alluvial soil of Bhal tract.

1.4 Climate and Temperature

The climate of the coastal areas, i.e., Mahuva and Talaja talukas in the south-eastern part of the district, is temperate,

while for the interior parts and especially the hilly tracts of the district the difference between the maximum and the minimum temperatures during the year is fairly high. During the cold weather which commences in October and lasts upto the end of February, the temperature reaches its minimum. During 1960 40°C (104°F.) was the highest temperature recorded in May at Bhavnagar while the minimum recorded there was 13.33°C. (55.99°F) in January. Details of maximum and minimum temperature during 1951-60 at Bhavnagar are given in Official Statistics Table No. 1.1 given in Part II of this Handbook.

1.5 Rainfall

The south-west monsoon brings rains to this district. The rainy season, which starts in the second fortnight of June, ends in the middle of September. The following table gives the rainfall figures for the last decade for Bhavnagar.

Annual Rainfall for Bhavnagar City, 1951-60

Year	Annual Rainfall	
	In Inches	In Centimetres
1	2	3
1951	N.A.	N.A.
1952	12.8	31.9
1953	30.4	76.1
1954	30.5	76.2
1955	25.0	62.4
1956	26.1	65.2
1957	N.A.	N.A.
1958	34.0	84.9
1959	40.8	102.1
1960	17.3	43.2

N.A.=Not available

Monthly rainfall figures for all these years are available in Official Statistics Table No. 1.2 published in Part II of this Handbook.

1.6 Famine and Scarcity

Though the rainfall in the district is fairly high to ensure a kharif harvest, it is the most ill-distributed with long breaks between two effective showers. At times, heavy downpour of rains results in damage to crops and soil. The annawari data which is not available for the period prior to Independence, shows that the scarcity conditions prevailed in different parts of the district during the years mentioned against them in the following statement.

	Taluka/Mahals	Years		
1	Bhavnagar	1950-51, 1957-58	1951-52,	1952-53,
2	Botad	1951-52,	1952-53	
3	Gadhada	1951-52,	1952-53	1955-56, 1957-58
4	Vallabhipur	1951-52,	1952-53,	1957-58
5	Palitana	1950-51,	1951-52	
6	Sihor	1951-52,	1952-53	
7	Talaja	1950-51,	1951-52	
8	Umrala	1950-51,	1951-52,	1952-53
9	Gariadhar	1951-52,	1952-53,	1955-56
10	Kundla	1950-51,	1951-52,	1952-53, 1955-56
11	Mahuva	1950-51,	1951-52	
12	Ghogho	1948-49,	1951-52,	1955-56

The Fact Finding Committee appointed by the former Government of Bombay has classified Sihor, Talaja and Palitana talukas, Ghogo mahal and part of Mahuva taluka (Kuntawada and Bagdana circles) as scarcity free areas while the Bhal area of Bhavnagar taluka, the whole of Gadhada taluka and the eastern part of Vallabhipur mahal as precarious areas, having scarcity conditions once in every six years. The remaining portions, viz., Umrala and Gariadhar mahals, Botad and Kundla talukas, Bhadrod and Mahuva circles of Mahuva taluka and western half of Vallabhipur mahal were found to have scarcity conditions once in every ten years.

1.7 Forest

According to the information furnished by the Chief Conservator of Forests, the area of forest in the district in 1961-62 is found to be 106.52 sq. miles. Out of these 11.07

sq. miles are protected forests and the remaining 95.45 sq. miles are unclassed forests.

2 ADMINISTRATIVE SET-UP

2.1 Historical Background

In the early Christian era, the famous Maitraka dynasty flourished from 5th to 8th century A.D. at Vallabhipur. Not only was the kingdom prosperous, but the capital was also a great seat of learning. It was an important centre of Buddhism, visited by the chinese traveller Huen Tsang. After the fall of Vallabhi in the 8th century and subsequent destruction probably owing to earthquakes, the history of the region is not eventful till the rise of Gohil Rajputs in the latter half of the thirteenth century.

Gohils, expelled from Ranpur in 1309 A.D. killed Koli Umo after whom Umrala was named. Their capital remained at Umrala till they conquered Sihor which was then inhabited by Audichya Brahmins. As a result of a dispute among them one of the sections called Visoji Gohil of Umrala for help. He defeated the other party and established his capital at Sihor in 1547. In 1723, Bhavsinhji-I, founded Bhavnagar and shifted his capital there with the twin objects of enabling himself to take to sea in the event of invasion and developing maritime trade of his state. Under a line of enlightened rulers and illustrious Divans, Bhavnagar became a progressive state and the new capital grew rapidly. Another branch of the Gohils who had established themselves at Gariadhar later shifted its headquarters to Palitana and ruled there till the integration of Palitana State in Saurashtra State in 1948.

At the time of the merger of the princely states in the State of Saurashtra in 1948, this district was formed by bringing together the territories of Bhavnagar, Palitana, Lathi, Vala, Jafrabad, Raisankali States and agency areas of Songadh, Dedan and Lakhapadar. It was then named Gohilwad district and was one of the five districts of the Part 'B' State of Saurashtra.

Ghogho, once a famous port, was under the rule of Rajput kings of Patan, and Piram then ruled by Bariya Kolis were conquered by Mokhadaji Gohil in 1325, but he was later on killed in a battle with Muhammed Tughlak who marched to put down his piracy. Ghogho was later restored to the son of Mokhadaji but was brought under Muslim rule by 1505, and finally passed under the British in 1805. Formerly a part of Ahmedabad district, it was included after Independence in Amreli district and finally in Bhavnagar district in 1959 after re-organisation of States.

2.2 Territorial Changes

On the reorganisation of States in 1956, the district became a part of the reorganised Bombay State. In July 1959, at the time of reorganisation of the districts of Saurashtra for smooth and better administration, large scale territorial changes in the boundaries of this district alongwith Amreli district were made with effect from 1-7-1959. Almost all villages of Rajula and Lilia mahals, the whole of Jafrabad Mahal and a few villages of Kundla taluka and Umrala and Gadhada mahals, were taken out from this districts to form part of the enlarged Amreli district; while Ghogho mahal of the Amreli district was added to this district, which was renamed Bhavnagar district. It formed part of Gujarat State on its formation into a separate State on 1st May 1960. The territorial changes which took place between the period 1951-1961 are given in sub-appendix 2 to Appendix I to Table A-I published in Part II of this Handbook.

2.3 Administrative Divisions

Bhavnagar is one of the districts of Rajkot Division of Gujarat State. For the purposes of revenue administration, the district is divided into 3 sub-divisions with 7 talukas and 5 mahals.

The details about the area and population in respect of these sub-divisions are given in the following table.

Administrative Divisions, 1961

Sl. No.	Sub-Division/ Taluka/Mahal	Area (in sq. miles)	No. of towns	No. of villages	Population		
					Total	Rural	Urban
1	2	3	4	5	6	7	8

9	Gariadhar	177.5	1	51	56,401	48,199	8,202
10	Kundla	470.1	1	81	129,726	98,675	31,051
	Mahuva Sub-Division	*805.4*	*2*	*252*	*253,070*	*213,271*	*39,799*
11	Mahuva	471.2	1	133	149,497	116,765	32,732
12	Talaja	334.2	1	119	103,573	96,506	7,067

Details of inhabited and uninabited villages, density and occupied houses are available in Census Table A-I published in Part-II of this Handbook

2.4 Revenue

The Collector is in charge of the general administration, law and order and civil supplies. He is assisted by a Personal Assistant in his office and 3 Deputy Collectors in charge of 3 sub-divisions having their head quarters at Bhavnagar, Palitana and Mahuva. There are 7 Mamlatdars in charge of 7 talukas and 5 Mahalkaris in charge of 5 mahals.

2.5 Land Tenures

In the villages of former Saurashtra State included in this district, owing to the feudal character of the economy at the time of States integration, there was a variety of tenures which could be broadly classified as under :

(i) Khalsa lands comprised of the areas of covenanting States where cash assessment was levied.

(ii) Khalsa lands comprised of the areas of the covenanting States where crop share or Bhagbatai system prevailed and;

(iii) Non-Khalsa lands held on Girasdari and Barkhali tenures, rent being levied mostly in crop-share. Different categories such as Mulgiras, Bhayat, Talukdari, etc., were broadly classified under Girasdari tenure. But land held asMulgiras was not alienated as it was held by the Girasdar even before the State came into being. Barkhali lands included grants to Devasthans, servants, etc., and other grants such as Inam, Jivai, Dharmada or Kherati, when the State's revenue was partly or wholly alienated. Girasdari tenure involved proprietory rights with or without the right of transfer with the permission of the Darbar, which the Barkhali did not.

In some of the above areas various obnoxious taxes and levies prevailed. After integration they were all abolished.

Occupancy rights were granted to holders of Khalsa lands, and where crop-share system prevailed it was converted into cash assessment in respect of both Khalsa and non-khalsa lands. Pending regular survey and settlement, the lands were broadly classified into good, medium and inferior and on the basis of average yield of 15 years, *udhad*, i.e., lump cash assessment was fixed for every *khata* or holding in those Khalsa villages where crop share system was in vogue.

2.6 Land Survey

In the Union Area* of Ghogho mahal, there is no change in respect of survey and settlement since 1947. The lands of each individual holding in this area have been surveyed and designated as survey numbers and their sub-divisions as *pot hissas*, *Pot-* numbers or *hissa* numbers. Their areas are worked out separately and recorded.

The method of survey used during the former State regime was to have a traverse laid down on the village boundaries with the help of theodolite. An *adhar line* with one or two supplementary *adhar lines* was then marked, whereafter detailed survey of each field by chain and cross-staff mehtod was carried out. The areas of each survey number and its sub-divisions and for each class of land comprised therein were separately entered in the Land Records under an indicative number, i.e., survey number the numbering of sub-divisions being subordinate to the number of parent survey number.

In case of former Baroda State area, the method of survey adopted was the *'chok mapni'* system according to which the whole area to be surveyed was laid down in choks of 32 chains which were further sub-divided into smaller blocks of 4 chains by 8 chains, each chain being equal to 80 ft. The rest of the method was the same as above.

All the unsurveyed areas have now been surveyed and there is no area in the district now which is unsurveyed.

2.7 Revenue Settlement

In case of Ghogho mahal, the soils of the survey numbers and sub-divisions are classified for the purposes of land revenue and land revenue settlement under the Bombay Land Revenue Code. The original settlement in this mahal was introduced in 1860. It was revised in the year 1892. Second Revision settlement has been introduced in this mahal in 1924-25, thereafter, no further revision settlement has taken place.

Soils of villages of former Bhavnagar State merged in this district were already classified. The system of classification in Bhavnagar State was the same as the Gujarat classification system according to which different classification values of soil subject to the standard valuation of 16 annas are worked out after taking into account the texture and depth of soils and their merits and demerits. A few villages of Navanagar (Jamnagar), Baroda and Junagadh States are also included in this district where also the system of classification was the same as Gujarat classification system. In respect of sub-soil factor however, the system followed in Navanagar ,(Jamnagar) State was of Pani-kasar (Kos-rate) according to which in addition to soil assessment, water assessment was levied at a rate per Kos per four acres. In case of former Junagadh State villages, an *ad hoc* system of soil classification was adopted, according to which soils were divided into two main classes, viz., 'Baret' (Dry crop) and 'Peet' (well irrigated). Each of these classes of land was sub-divided into Sarvotkrisht,Aval,Doyam, Soyam and Kanishta. The remaining villages of the various former States included in this district were not classified. In the year 1955-56 the Land Records Department of Saurashtra Government evolved a system of classification, which, though mostly analogous to the Gujarat classification system, slightly differed from it in respect of soil classes,and their values and details of sub-soil classification and average classification values. Instead of working out average classification values for each survey number or its sub-division, the areas with different classification values in the same survey number or sub-division were converted into area of 16 As. classification value. Unlike Gujarat classification system, well irrigated lands according to Saurashtra classification system were treated as bagayat lands. The sub-soil classification system was more or less similar to that of Gujarat

*Union Areas=Areas forming Part of the Pre-Independence distiricts of the Bombay Province.

classification system, but differed from the latter in so far as sub-soil classification scale was not related to soil classification values and 4 or 3 acres of land, as the case may be, we reconsidered as irrigable from each Kos or water bag on the existing wells instead of all the lands in the zone or 'Vaga' adjudged to have this facility. The above system of classification is continued, after States' reorganisation for villages where soils were not classified before or for villages where the soils, though classified before, are required to be re-classified. However, where soils of a part of a village are classified before and those of the remaining part are to be classified, the system followed in the part of the village is adopted for the rest of the village to maintain uniformity. The classification work is in progress and will be completed as a Plan scheme before the end of the Third Five Year Plan.

The villages of the former Bhavnagar, Jamnagar, Junagadh and Baroda States are settled and the villages of the rest of the States are unsettled. For deemed settled villages, remission of excess of the existing rates of assessment over the rates of assessment obtaining in the comparable Union Areas have been sanctioned with effect from 1959-60 under Land Revenue Rule 18 framed under Section 52 of Bombay Land Revenue Code allowing rates of assessment where they were lower to continue as they were. For other villages and areas not so deemed settled, Land Revenue Rule 17 was framed under Section 52 of Land Revenue Code. According to this rule, the villages were placed into homogeneous groups on consideration of the factors of physical configuration, climate and rainfall, prices and yields of principal crops and then for each of these groups, the comparable Union Areas determined on the basis of homogeneity of soil and crop pattern. The rates prevailing in the former States villages were then compared with the rates of the comparable Union Areas. In respect of classified Villages, the prevailing rates have not been respected, but if the assessment worked out by application of the comparable Union Area rates to the classification value is more than that prevailing or the existing assessment, the latter has been continued, and where the former was lower than the latter, the latter has been brought down to the level of the former. Where the lands are not scientifically classified, they are classified as good, medium and inferior, and 2/3rd of the rate for good lands has been applied to the medium lands and 1/3rd to the inferior lands. Well irriagted lands are considered as Bagayat and double the rate of dry crop lands in the group is considered as the rate for such lands. Assessments have been worked out accordingly for all the survey numbers and sub-divisions in the district and are recovered accordingly. In respect of unclassified villages, the existing rates are respected if they are lower than the comparable Union Areas rates, and brought to the level of the latter, where they are higher.

2.8 Agrarian Reforms

The Saurashtra Land Reforms Act and the Saurashtra Barkhali Abolition Act passed in 1951, did away with Girasdari tenure and all kinds of Barkhali tenures with effect from 1-9-'51 (*vide* Saurashtra Government Notification Revenue Department No. RD/N/1758 dated 18-5-'51). The land reforms legislation, besides abolishing inams and special tenures, provided for determination of cash assessment on the basis of arithmetic average of assessment leviable in the surrounding adjoining assessed Khalsa or non-khalsa lands or villages, until the villages in which such lands were situated were surveyed and settled. Non agricultural lands such as waste lands, grass lands, gaucharas, roads and rivers, etc., which formed part of the estates but did not vest in Government were acquired under the Saurshtra Estate Acquisition Act, 1952. All these steps of agrarian reforms have resulted in introducing Raiyatwari system, cash assessment on a systematic basis and fixity of tenure on a permanent basis for the whole of Saurashtra region. In Ghogho mahal also there was a number of villages held on Talukdari tenure. This tenure has also been abolished by the Bombay Talukdari Tenure Abolition Act, 1949.

Bombay Prevention of Fragmentation and Consolidation of Holdings Act has been applied in this district and schemes of consolidation of holdings have been made in the villages of Ghogho mahal comprised of Union Area of

the former province of Bombay. Action for implementation of this Act was started in the former Saurashtra State area of this district but it had soon to be withdrawn on account of agitation of the agriculturists on the ground of restriction over their rights on land. The matter is still under consideration of the State Government. The Gujarat Agricultural Lands Ceiling Act, 1960, has also been made applicable to this district.

2.9 Size of land holdings

Details regarding the sizes of land holdings and number of Khatedars in each size-group are shown in the table given below.

Size of land holdings, 31-3-1961

Size in acre groups	No. of holders	Percentage to total holders	Area held (in acres)	Percentage to total area held
1	2	3	4	5
Up to 5	12,151	16.08	40,416	2.67
Over 5 to 15	26,070	34.50	253,422	16.73
Over 15 to 25	18,005	23.83	371,274	24.51
Over 25 to 56	16,539	21.89	614,904	40.60
Over 56 to 108	2,522	3.33	180,892	11.94
Over 108	282	0.37	53,796	3.55
Total	**75,569**	**100.00**	**1,514,704**	**100.00**

Thus half of the land holders have holdings below 15 acres each, the other half having larger holdings. However, only 19.40 per cent of the total area is covered by the former, as against 80.60 per cent covered by the latter having larger holdings. The largest number of Khatedars is found in the size group 5 to 15 acres (34.5 per cent), while the largest area is accounted for by the size group 25 to 56 acres (40.6 per cent). The Government of Saurashtra had fixed 32 acres as the size of economic holdings for Gohilwad now called Bhavnagar district. Thus a large majority of the landholders have uneconomic holdings as more than 74.41 per cent of holders have less than 25 acres each, which account for more than 43.91 per cent of the total occupied land in the district.

2.10 Parliamentary and Assembly Constituencies

Under the Delimitation of Parliamentary and Assembly Constituencies Order, 1961, one seat is allotted to this district for the purpose of election to the House of the People and 8 seats for election to the State Assembly. The details of the territorial extent of the Parliamentary and Assembly constituencies are shown below.

Delimitation of Parliamentary and Assembly Constituencies

A

Parliamentary Constituencies

Sl. No.	Name of Constituency	Extent in terms of Assembly Constituencies
1	2	3
1	Bhavnagar	Palitana, Botad, Sihor, Bhavnagar Ghogho-Daskroi, Talaja-Datha and Mahuva.

B

Assembly Constituencies

Sl. No.	Name of Constituency	Extent of Constituency
1	2	3
1	Kundla	Kundla taluka
2	Palitana	Palitana taluka (excluding 18 villages of chok circle and 7 villages of Palitana circle of Palitana taluka) and Gariadhar mahal
3	Botad	Botad taluka and Gadhada mahal.
4	Sihor	Sihor taluka (excluding 26 villages of Tana circle of Sihor taluka) and 20 villages of Bhal circle of Bhavnagar taluka and Vallabhipur and Umrala mahals
5	Bhavnagar	Saher, Karchaliapara, Nawapara and Krishnanagar wards of Bhavnagar Municipality, and Dock estates (i.e. old and new Ports of Bhavnagar)
6	Ghogho-Daskori	Bhavnagar taluka [excluding Saher, Karchaliapara Nawapara and Krishnanagar wards of Bhavnagar municipality and Dock estates (i.e. old and new ports of Bhavnagar) and 20 villages of Bhal circle of Bhavnagar taluka] and Ghogho mahal (excluding Lakadia Village)
7	Talaja-Datha	Talaja-Datha taluka and 26 villages of Tana circle of Sihor taluka and 18 villages of Chok circle and 7 villages of Palitana circle of Palitana taluka and Lakadia village in Ghogho mahal
8	Mahuva	Mahuva taluka

2.11 Judiciary

The judicial set-up of the district comprises of one District and Sessions Judge, one Civil Judge (Sr. Division) and 12 Civil Judges (Jr. Division). The Sessions Judge is empowered to impose any sentence authorised by law, but any sentence of death subject to confirmation by the High Court. The District Judge has unlimited jurisdiction in Civil suits. Civil Judge (Sr. Division) and Judicial Magistrate is empowered to impose a sentence of imprisonment for a term not exceeding 2 years and fine not exceeding two thousand rupees. He has got unlimited jurisdiction in civil suits.

Civil Judges (Jr. Division) have jurisdiction up to Rs. 10,000 in civil suits.

2.12 Police

The total strength of civil police in 1960-61 amounted to 946 persons. There were 22 police stations and 23 police outposts in the district. The total number of cognisable offences investigated was 1,971. Thust here was 1 police per 3.78 sq. miles of area. The number of persons per police was 1,183 and the number of congisable offences investigated per police was 2.08.

The number of crimes by major class of offences in the district is extracted from Table No. 11.3 given in Part II of this Handbook. wherein details regarding number of persons acquitted or discharged and number of persons convicted will also be found.

Persons convicted by nature of offences, 1960-61

	Description of offence	No. of persons convicted
	1	2
1	Against Public tranquility	8
2	Affecting public health, safety, convenience, decency and morals	7
3	Affecting life	51
4	Hurt	35
5	Criminal force and assault	12
6	Rape	4
7	Theft	102
8	Criminal breach of trust	6
9	Criminal trespass	52
10	Under special and local laws	356

3 LOCAL SELF GOVERNMENT

3.1 Local Self Government Institutions

The Local Self Government Institutions in the State as on 1st April, 1961, which is the period covered by this Handbook are (1) Municipalities, (2) District Local Board (3) District School Board and (4) Gram Panchayats. But since the Panchayats Act has come into force from 1st April, 1963 replacing the existing District Local Boards by Jilla Panchayats and introducing democratic decentralisation at all levels, a short resume of the provisions of this Act as regards the new set-up, functions, finances, etc., will also be given-to-bring the position about administrative set up up-to-date.

3.2 Municipalities

At the end of 1960-61 there were 12 municipalities covering 12 towns with a population of 339,530. The average population per municipality was 28,294.

The following table shows area, population, income and expenditure of each municipality in the district.

Municipalities, area, population, income and expenditure for the year 1960-61

	Municipality	Area in sq. miles	Population	Income Rs.	Income per head	Expenditure Rs.	Expenditure per head
	1	2	3	4	5	6	7
1	Bhavnagar	9.08	171,039	3,517,981	20.57	3,848,029	22.50
2	Vallabhipur	1.25	6,908	47,771	6.92	36,323	5.26
3	Paliyad	0.17	5,134	40,573	7.90	42,491	8.28
4	Botad	4.00	26,168	339,577	12.98	232,612	8.89
5	Gadhada	3.00	9,123	80,303	8.80	48,346	5.30
6	Palitana	5.00	24,581	289,506	11.78	216,451	8.81
7	Sihor	1.25	15,263	241,354	15.81	237,183	15.54
8	Umrala	0.08	4,255	31,518	7.41	22,694	5.33
9	Gariadhar	0.29	8,202	92,840	11.32	88,335	10.77
10	Kundla	1.00	30,122	450,194	14.95	417,042	13.85
11	Mahuva	12.83	31,668	934,464	29.51	1,174,425	37.09
12	Talaja	5.50	7,067	150,822	21.34	172,444	24.40

Details regarding number of members, sources of income and heads of expenditure are available in Official Statistics Table No. 14.1 published in Part II of this Handbook.

The total income of all the 12 municipalities during 1960-61 amounted to Rs. 6,216,903 of which as much as Rs. 3,817,437 or 61.40 per cent came from rates and taxes. The income per head of population as per 1961 Census was Rs. 18.31. As against this, the total expenditure in 1960-61 of all municipalities amounted to Rs. 6,536,375 and average expenditure per head of population Rs. 19.25.

3.3 District Local Board

Gohilwad District Panchayat was constituted in 1956 under the Saurashtra District

Panchayats Act, 1956. On reorganisation of the district in 1959, the territorial jurisdiction of the panchayat was adjusted to the boundaries of the reconstituted district and the panchayat came to be known as Bhavnagar District Panchayat. It was renamed as Bhavnagar District Local Board on 11-4-1960. The Board was constituted of 35 members. Total income and expenditure of the Board during 1960-61 wear Rs. 1,655,289 and Rs. 1,223,927 respectively. The main sources of income were civil works, local rates, medical and land revenue and the major heads of expenditure were civil and public works and medical. The following table shows income and expenditure of the Bhavnagar District Local Board during 1960-61 under the different heads.

Income and expenditure of District Local Board 1960-61

Head	Income (in Rs.)	Head	Expenditure (in Rs.)
1	2	3	4
Land Revenue	183,650	Administration	102,981
Local rates	474,335	Education	5,442
Interest	81,946	Medical	283,543
Medtcal	322,844	Scientific and other minor departments	46,515
Scientific and other minor departments	42,336	Pension	483
Miscellaneous	53,011	Miscellaneous	97,230
Civil works	497,167	Civil Public Works	687,733

Details giving Income and Expenditure under different sources are available for the years 1960-61 in Official Statistics Table No. 14.2 published in Part II of this Hanbook.

3.4 Panchayat

The Saurashtra Gram Panchayat Ordinance 1949 was promulgated immediately after the integration of the former Indian States. According to the Ordinance, a Panchayat could be established (i) in any village with a population up to 2,000 and (ii) in villages prescribed by the Government having a population of over 2,000 and below 10,000. The panchayat was an autonomous body elected from the village assembly of adult residents of the village. A full-fledged panchayat functioned not only as an administrative and civic body of the village but also as the revenue collecting agency on behalf of the Government and a local judiciary for petty criminal offences and civil wrongs.

On the basis of their efficiency, the village panchayats were classified into 'A', 'B' and 'C' classes and functions delegated to them differed according to the class to which they belonged. The 'C' class panchayats had all the administrative powers and duties which were very extensive and did not leave out anything concerned with village civic life. The 'B' class panchayats had additional powers and duties for the collection of land revenue, wider powers to try some cases under the Indian Penal Code, the Cattle Trespass Act and the Vaccination Act. The 'A' class panchayats, in addition, tried suits for money due on personal loans and contracts not affecting any interest in immovable property when the amount did not exceed Rs. 100.

One of the main sources of revenue for the panchayats was a share in land revenue. Prior to 1st April, 1956, 'A', 'B' and 'C' class panchayats got respectively an annual grant of 30%, 25% and 17½% of land revenue. From 1st April, 1956, this was raised to 33%, 30% and 25% respectively for 'A', 'B', and 'C' class panchayats which levied either octroi or house tax. After the reorganisation of States in 1956, the Bombay Village Panchayats Act was passed to provide a unified law in place of the various legislations in existence in different parts of the State. This Act became operative from 1st June, 1959. According to it, the panchayats were divided into two classes 'A' and 'B' and the scale of grant-in-aid was also revised to 30% and 25% respectively.

The number of panchayats in the district at the end of 1960-61 was 845 covering all the villages of the district and one town, viz., Ghogho. Thus 100% of the rural population was covered under panchayats by 1960-61.

The number of panchayats in each taluka/mahal of the district together with their income and expenditure for the years 1950-51, 1955-56 and 1960-61 is given in the following table.

Income and expenditure of panchayats 1950-51, 1955-56 and 1960-61

Taluka/Mahal	No. of village panchayats			Income Rs.			Expenditure Rs.		
	1950-51	1955-56	1960-61	1950-51	1955-56	1960-61	1950-51	1955-56	1960-61
1	2	3	4	5	6	7	8	9	10
Total	**167**	**741**	**845**	**296,,870**	**1,323,851**	**2,894,240**	**236,867**	**828,398**	**1,975,214**
Bhavnagar	10	41	54	17,552	69,537	164,550	14,091	45,593	164,062
Ghogho	..	..	24	..	..	95,950	..	..	80,837
Vallabhipur	6	46	83	10,531	54,272	200,137	8,431	51,152	82,519
Botad	13	48	49	23,817	81,659	231,048	18,318	53,377	138,084
Gadhada	15	55	71	26,328	93,481	301,778	21,135	63,161	189,887
Palitana	.	80	86	..	135,880	202,250	..	88,960	152,455
Sihor	24	61	66	42,124	103,457	256,549	33,817	67,832	177,470
Umrala	11	40	42	19,307	67,841	184,446	15,499	44,480	109,009
Gariadhar	..	49	49	..	83,305	400,642	..	54,489	228,579
Kundla	23	90	78	41,369	152,641	411,858	32,580	99,580	277,671
Mahuva	25	122	129	43,880	296,913	237,522	35,226	138,665	178,611
Talaja	40	109	114	71,962	184,865	207,510	57,770	121,109	196,030

The above details are also available in Official Statistics Table No. 14.3 published in Part II of this Handbook.

The total income of all panchayats for the year 1960-61 was Rs. 2,894,240 while the total expenditure amounted to Rs. 1,975,214. The income and expenditure per head of population covered under panchayats were Rs. 3.75 and Rs. 2.56 respectively. The income and expenditure per panchayat were Rs. 3,425 and Rs. 2,338 respectively.

3.5 Present set-up under the Panchayat Act.

The Gujarat Panchayats Act has been brought into force in all the districts of Gujarat (except Kutch and Dangs districts) from 1st April, 1963. In the Kutch district, it has been brought into force with effect from 15th April, 1963. It is not yet made applicable to the Dangs district. In each district there are three tiers of the Panchayat Organisation, gram/nagar panchayats, taluka panchayats and district panchayat. Municipalities having population not exceeding 10,000 have been converted into gram panchayats and those having population exceeding 10,000 but not exceeding 20,000 have been converted into nagar panchayats gram/nagar panchayat is subordinate to the taluka panchayat, while a taluka panchayat is subordinate to the district panchayat according to the scheme of this Act.

According to the provisions of the Gujarat Panchayats Act, 1961, a gram panchayat consists of not less than 9 and not more than 16 members, while a nagar panchayat consists of not less than 15 and not more than 31 members. Provision has been made to reserve seats for women and members of Scheduled Castes and Tribes. A taluka panchayat consists of *ex*-officio, elected, co-opted and associate members. On account of the national emergency, interim district panchayats had to be constituted in April, 1963. Elections are now proposed to be held and elected district panchayats would be constituted towards the end of March, 1964 in the sixteen districts of the State.

The District Development Officer is the Chief Executive Officer in a district panchayat. He is borne on the cadre of the Indian Administrative Service (senior time scale) and is appointed by Government. The Chief Executive Officer of the taluka panchayat is the Taluka Development Officer, who is also appointed by Government. Both these officers are secretaries of their respective panchayats. These panchayats function through various committees, appointed for different groups of functions under the Act.

FUNCTIONS

The functions of three tiers of panchayats have been given very elaborately in the three schedules to the Act. In addition, the functions of collecting land revenue (including cesses) and dues recoverable as arreas of land revenue, levied and assessed by or

under the Land Revenue Code and all other functions and duties of a village accountant under the Land Revenue Code have been transferred to gram/nagar panchayats. The powers exercised and the functions and duties performed by the District School Board have been similarly transferred to the taluka and district panchayats and all primary schools have been placed under the control of taluka and district panchayats. A large number of functions such as registration of co-operative societies, approval of amendment to the bye-laws of co-operative societies, calling of or extending the period for the calling of annual general meeting of co-operative societies and such other functions which under the Co-operative Societies Act, were exercised by the Registrar, Co-operative Societies, have been transferred to district panchayats. Moreover, functions relating to agriculture, animal husbandry, public health and medical relief, social welfare, cottage industries and small scale industries and District Statistical Office, have been transferred on an agency basis to the district panchayats.

Staff

To enable the panchayats to carry out numerous activities entrusted to them, Government has transferred/deputed a number of its employees alongwith the functions transferred. The staff of the District School Boards and District Local Boards has also been transferred to taluka/district panchayats. It has been envisaged in the Act to constitute a panchayat service in connection with the affairs of panchayats and to maintain a uniform standard in the recruitment for panchayat service. A Panchayat Service Selection Board has been constituted for this purpose.

Funds

The panchayats have been given necessary funds to execute all schemes transferred to them. In addition, provision has been made in the Act, for various tiers of panchayat to levy taxes and fees. A gram or nagar panchayat subject to certain conditions can levy a tax on buildings, a pilgrim tax, a tax on fairs, festivals, and other entertainments, a tax on bicycles or vehicles drawn by animal, a sanitary tax, etc. It can also levy fee on markets, cart stands, tonga stands, the supply of water from wells and tanks for purposes other than domestic use and for cattle. The taluka panchayat and district panchayat can request Government for increase in stamp duty, whereupon grant-in-aid equal to the additional amount thus realised becomes payable to the panchayats. Moreover, provision has been made in the Act for making grants to the panchayats for its activities.

At present, the implementation of the Act is being done mostly through the Commissioner. They have been delegated with most of the powers of the State and exercise supervision over panchayats.

Provision has also been made in the Act under which the State Government will give grants to the panchayats on the basis of the average of the land revenue collected during the last three preceding years, after deducting therefrom the expenditure on the salaries and training of the secretaries of gram panchayats and village accountants and crediting 5 % of the amount to the State Equalisation Fund. 50% of the balance will be distributed among gram panchayats and nagar panchayats, 25% among taluka panchayats and 10% among the district panchayats. Out of the remaining 15% of the land revenue, 7½% will be carried to the District Equalisation Fund and 7½% to the Gram Encouragement Fund.

4 POPULATION

4.1 Growth of Population

In 1951, the population of the district as constituted in 1961 was 885,594. According to the 1961 Census, it increased to 1,119,435, an increase of 233,841 or 26.40 per cent, the highest during the last sixty years though a little lower than that observed in the case of Gujarat State which is 26.88 per cent. The decrease in the population during the decade 1911-21 is due to the "influenza epidemic of 1918-19 which wrought great havoc and had the most serious effect on population since the famine of 1899". The following table compares the growth rate in the district during the last sixty years.

Variation in Population during 1901-1961

Year	Population	Decade variation	Percentage decade variation
1	2	3	4
1901	519,982	..	..
1911	560,700	+ 40 718	+ 7.83
1921	550,328	— 10,372	— 1.85
1931	628,063	+ 77,735	+ 14.13
1941	764,235	+ 136,172	+ 21.68
1951	885,594	+ 121,359	+ 15.88
1961	1,119,435	+ 233,841	+ 26 40
1901 to 1961	..	+ 599,453	+ 115.28

Sexwise details are available in Census Table A-II published in Census of India, 1961, Volume V, Gujarat-Part II-A.

The unprecedented growth of numbers between 1951-61 can, however, be attributed to the decline in death rate, accompanied by steady improvements in medical and public health services available to the people since Independence.

OCCUPIED RESIDENTIAL HOUSES AND HOUSEHOLDS

The total number of occupied residential houses in the district is 181,154 or 4.86 per cent of the State. The average number of persons per occupied Census house in total, rural and urban areas of the State and district is given below.

Average number of persons per occupied census house, 1961

Total/Rural/Urban	State	District
1	2	3
Total	5.53	6.18
Rural	5.54	5.99
Urban	5.52	6.64

It will be seen that the average number of persons per occupied house in the district is higher than that of the State for its total, rural and urban areas.

The number of households in the district was, total 196,606, rural 131,221 and urban 65,385 and that of houses total 181,154, rural 128,071 and urban 53,083. The number of households per cent of houses, therefore, comes to 108.53, 102.46 and 123.18 for the total, rural and urban areas respectively. However, it is interesting to note that the total areas of Bhavnagar taluka have the highest percentage of households to the number of houses in the state, viz., 126.58 %. The average number of persons per household for total, rural and urban areas of the district comes to 5.69, 5.85 and 5.39 respectively.

4.2 Rural/Urban distribution

The criteria for determining whether a place was rural or urban varied from census to census and rendered such data incomparable. A uniform definition for urban areas was, therefore, adopted during the Census of 1961, by laying down that a place should be classified as urban, if it was (1) a municipality, cantonment or civil lines or, (2) had (a) a population of 5,000 or over and (b) 75 per cent or more of the total male population was dependent on non-agricultural pursuits.

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'Village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey Village which has got a separate entity and a distinct number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

4.2 (i) Rural Population

The total number of villages in the district is 894 of which 13 are uninhabited. The total rural population of the district is 767,006 giving an average of 871 persons per inhabited village. The proportion of rural population to the total population in the district (68.52%) is lower than the similar proportion for the State which is 74.23 per cent.

Percentage distribution of rural population by size group of villages, 1961

Size group	No. of villages	Percentage to total No. of villages	Rural Population	Percentage to total rural population
1	2	3	4	5
Less than 200	62	7.04	7,248	0 95
200-499	254	28.83	92,615	12 07
500-999	311	35.30	224,831	29.31
1,000-1,999	186	21.11	254,652	33 20
2,000-4,999	67	7.61	182,384	23.78
5,000-9,999	1	0.11	5,276	0.69
10,000 and above	..	..	..	..

Details of sexwise population for taluka/mahals are available in Census Table A-III published in Part II of this Handbook.

Out of 881 villages in the district 316 or 35.87 % fall in the class range less than 500, 497 or 56.41 % in the class range 500 to 1,999 and 68 or 7.72 % are large size villages (2,000 and above) covering 24.47 % of rural population. It is significant to note that more than half of rural population 57.67 per cent is concentrated in villages having population 1,000 and above. The concentration of rural population in medium and large size villages is manifest from these statistics.

4.2 (ii) Urban Population

Statement showing the number of towns classified by population is furnished below.

Number of towns classified by size groups during 1901 to 1961

	I		II		III		IV		V		VI	
	100,000 and above		50,000 to 99,999		20,000 to 49,999		10,000 to 19,999		5,000 to 9,999		Below 5,000	
Year	No. of Towns	Population	No. of Towns	Population	No. of Towns	Population	No. of Towns	Population	No. of Towns	Population	No. of Towns	Population
1	2	3	4	5	6	7	8	9	10	11	12	13
1961	1	176,473	..	..	4	114,532	1	15,263	6	41,906	1	4,255
1951	1	137,951	..	..	3	73,228	2	33,127	5	30,856	2	8,534
1941	1	102,851	..	..	1	22,058	4	62,413	1	6,785	3	12,710
1931	..	..	1	75,594	..	..	4	55,326	3	19,178	3	11,388
1921	..	..	1	59,392	..	..	2	29,122	4	29,927	5	18,691
1911	..	..	1	60,694	..	..	2	30,508	5	32,779	4	13,991
1901	..	..	1	56,442	..	..	3	40,450	3	20,357	5	22,473

Sexwise details for each town are available in Census Table A-IV published in Part II of this Handbook.

Out of the total population, 31.48 per cent live in urban areas, as against 25.77 per cent in the State. All the 13 places treated as towns in 1951 Census were covered under the definition of urban areas adopted in 1961 Census and as such no town was either added or declassified in this group.

The urban population of the district numbering 352,429 persons is spread over 13 towns of different sizes of which only one, viz., Bhavnagar comes under Class I and has population over 100,000. Of the rest, 4 are in Class III, i. e., size group 20,000 to 49,999 one falls under Class IV and has population above 10,000 and below 20,000 and 7 have population below 10,000. The average population of a town in Bhavnagar district is 27,110 persons as compared to 30,380 for the State though the proportion of urban population of the district is higher than that in the State.

4.3 Density

The area of the district in 1951 was 3,682.00 square miles or 5.18 per cent of the total area now comprising Gujarat. But in 1961 it was reduced to 3,575.4 square miles or 5.03 per cent of the total area of the State due to changes in the territorial jurisdiction of the district. The corresponding percentages of population for the district as constituted in 1961 are, however, found to be 5.45 in 1951 and 5.43 in 1961. The density of population is 313 persons per square mile as against 290 for the State. The urban density (7,246) for the district is naturally higher than the rural (217) where the pressure of population is comparatively less and the average density is worked out on the basis of the entire area within the revenue limits of the village and not of the village site. These densities differ for different parts of the district as also for its rural and urban areas as will be seen from the table that follows.

Population per square mile, 1961

State/District/ Taluka/Mahal	Population per square mile		
	Total	Rural	Urban
1	2	3	4
State	**290**	**218**	**7,194**
District	*313*	*217*	*7,246*
Bhavnagar	648	157	18,837
Ghogho	227	206	1,270
Vallabhipur	181	152	5,526
Botad	268	162	7,506
Gadhada	204	180	3,041
Palitana	327	242	4,916
Sihor	300	239	12,210
Umrala	289	261	53,188
Gariadhar	318	272	28,283
Kundla	276	210	30,122
Mahuva	317	255	2,551
Talaja	310	294	1,285

While working out the density of urban areas, the urban units for which area figures are not available have been ignored. Rural density is worked out on the basis of rural population only, though the area figures include the area of those urban units for which separate area figures are not available. The highest density (648) is found in Bhavnagar taluka and the lowest in Vallabhipur mahal, (181). In rural areas Talaja taluka has the highest (294) and Vallabhipur mahal the lowest (152) density. But among towns Umrala tops the list with 53,188 persons per sq. mile, the lowest being 1,270 for Ghogho.

4.4 Migration

The number of persons born (i) at the place of enumeration (ii) elsewhere in the district (iii) outside the district of enumeration but within Gujarat State and those (iv) born outside Gujarat State as per 1961 Census is given below.

Population by place of birth, 1961

Persons/ Males/ Females/	Total population	Born in			
		Place of enumeration	Elsewhere in the district	Out side the district but in the state	Out side the state
1	2	3	4	5	6
Persons	1,119,435	775,122	263,540	64,883	15,890
Males	577,729	475,985	71,574	21,764	8,406
Females	541,706	299,137	191,966	43,119	7,484
Percentages					
Persons	100.00	69.24	23.54	5.80	1.42
Males	100.00	82.39	12.39	3.77	1.45
Females	100.00	55.22	35.44	7.96	1.38

In case of 69.24 % of the population of the district, the place of enumeration is the same as the place of birth. This proportion for males is 82.39% as against 55.22 % for females owing to the migration of females after marriage, which appears to be mostly within the district. The proportion of females born outside the place of enumeration but within the district is as high as 35.44 per cent as compared to those born outside the district but within the State who account for 7.96% and those outside the State who account for 1.38 % only.

The percentage distribution of population born at the place of enumeration, born elsewhere in the district and outside the district by nine categories of economic activity and of non-workers is shown below.

Distribution of population by categories of workers and non-workers classified by place of birth, 1961

Place of birth	Categories of workers									
	I	II	III	IV	V	VI	VII	VIII	IX	X
	As Cultivator	As Agricultural labourer	In Mining, Quarrying, etc.	At House hold Industry	In manufacturing other than Household Industry	In Construction	In Trade and Commerce	In Transport, Storage & Communications	In Other services	Non-workers
1	2	3	4	5	6	7	8	9	10	11
District Total	**18.21**	**5.67**	**0.49**	**3.41**	**2.27**	**0.49**	2.30	**1.04**	**4.95**	**61.17**
Born at the place of enumeration	18.18	4.95	0.49	3.21	2.07	0.31	2.28	0.82	4.02	63.67
Elsewhere in the district	20.74	8.32	0.49	4.08	2.52	0.67	1.82	1.11	6.74	53.51
Outside the district	10.22	3.96	0.47	3.12	3.47	1.60	4.03	3.00	8.04	62.09

4.5 Sex Ratio

In 1961 the number of females per 1,000 males in the district was 938 which was lower than the similar ratio of 940 for the State. The corresponding rural and urban sex ratios for the district which were 942 and 929 respectively shows that the proportion of females was comparatively less in towns than in villages.

The following statement compares sex ratios in towns in 1951 and 1961.

Females per thousand males in urban areas, 1951 and 1961

State/District/Town	Sex ratio	
	1951	1961
1	2	3
State	**915**	**896**
District	*967*	*929*
Bhavnagar	924	917
Ghogho	1,189	1,186
Vallabhipur	1,010	925
Paliyad	995	963
Botad	992	925
Gadhada	972	936
Palitana	1,011	923
Sihor	994	964
Umrala	1,014	960
Gariadhar	977	959
Savarkundla	994	937
Mahuva	1,026	921
Talaja	1,047	956

The urban areas with a sex ratio lower than that for the district average are Bhavnagar, Vallabhipur, Botad, Palitana, and Mahuva. The ratios in respect of these towns appear to be significantly lower due to a variety of reasons which help concentration of male population. They are

(i) existence of manufacturing and processing units like textile mills, ginning presses, etc., and other small scale industries;

(ii) availability of employment due to the development of trade and commerce;

(iii) especially in the case of Bhavnagar, the development of the city as a port and a centre of education; and

(iv) pilgrim centre.

The higher female ratio in Ghogho is noteworthy as being mainly due to the absence of male members who go out to sea as sailors.

4.6 Age distribution

Table C-II given in Part II of this Handbook shows the distribution of the population by quinquennial age groups. Table C-IV gives single year age returns. Broad age groups are also given in tables B-I and C-II printed in Part II of this Handbook. Proportionate population figures by broad age groups in 1961 are compared separately for males and females with the corresponding proportions for 1951 for the district as constituted then in the table given below.

Percentage distribution of population by sex and age groups, 1951 and 1961

		Percentage of population by age groups			
		1951		1961	
	Age groups	Males	Females	Males	Females
	1	2	3	4	5
	Total (A to D)	**100.00**	**100.00**	**100.00**	**100.00**
	0-4	13.35	14.34	16.62	17.06
	5-14	29.41	27.13	28.20	26.33
A	0-14	42.76	41.47	44.82	43.39
	15-34	33.12	33.51	31.96	31.78
	35-59	19.51	18.73	18.60	18.82
B	15-59	52.63	52.24	50.56	50.60
C	60+	4.38	5.47	4.59	5.98
D	Age not stated	0.23	0.82	0.03	0.03

The proportion of both males and females in the age group 0-14 has increased during the decade owing to high birth rate which is responsible for an increase of 2.06 % in males and 1.92 % in females. But there is a slight decline in the proportion of males and females in the age group 15-34. The age group 35-59 registers a slight decline for males, while the proportion of females a slight increase during this period, probably due to the migration of adult workers to other areas.

4.7 Marital Status

According to the Census of 1961, 462,028 persons are returned as married, 228,535 males and 233,493 females. Never married persons account for 585,255 of the total population, males being 57.41 % and females 46.81 % of their respective population. The widowed are 6.26 % and divorced or separated constitute 0.18 % only. The following table shows the marital status of males and females in different age groups classified into (i) never married, (ii) married and (iii) widowed, divorced/separated and others.

Age and Marital Status, 1961

Age groups	Never married		Married		Widowed, divorced/separated and others	
	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total females
1	2	3	4	5	6	7
Total	**57.41**	**46.81**	**39.56**	**43.10**	**3.03**	**10.09**
0-9	100.00	100.00	...	...	...	...
10-14	98.41	95.07	1.58	4.90	0.01	0.03
15-19	81.95	39.56	17.85	59.97	0.20	0.47
20-24	37.96	5.25	60.97	93.52	1.07	1.23
25-29	12.76	1.06	85.57	96.27	1.67	2.67
30+	3.13	0.46	87.43	68.31	9.44	31.23

No person has been reported as married in age group 0-9 as all such persons were treated as unmarried at the time of sorting. But child marriages still persist in the age group 10-14 to the extent of 1.58% among males and 4.90 % among females. It is also noteworthy that among males the age of marriage has shifted and risen to 20 and above, as only 17.85 % of males in the age group 15-19 have been returned as married while the percentage rises to 60.97 in the age group of 20-24 and to 85.57 in the age group of 25-29. Corresponding proportions for females, however, show that 59.97 % of females in the age group 15-19 and 93.52 % in the age group 20-24 are married. Examination of the figures of widowed, divorced and separated discloses an interesting feature of marital life in the district, in that, they appear to be significant only after the age of 29. While females above 30 years account for 31.23 % in this category, males form 9.44 % of their population. These figures reveal a greater tendency towards remarriage on part of widowed males than widowed females among whom it is mostly avoided.

4.8 (i) Literacy & Education

According to the Census of 1951, there were 179,676 literates in the district of Gohilwad i.e., Bhavnagar as constituted then and formed 17.61 % of the total population. Percentage of male literates was then 24.97, while that of female literates 9.93. In 1961, the percentage of literacy rose to 27.43 % (38.33 % for males and 15.80 % for females). Percentage of literacy to total population by age and sex is given for total/rural/urban in the following table.

Literacy by age groups, 1961

Age groups	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8	9	10
All ages	**27.43**	**38.33**	**15.80**	**19.37**	**30.08**	**7.99**	**44.97**	**56.17**	**32.92**
5-14	32.27	41.39	21.87	23.76	34.28	11.81	50.57	56.13	43.67
15-34	37.77	52.59	21.88	26.94	41.77	11.14	59.95	74.55	44.09
35-59	29.61	44.24	14.20	20.33	33.38	6.61	49.15	67.03	30.23
60 +	19.68	35.29	6.91	13.16	25.27	2.95	35.73	61.40	16.23
Age not stated	17.24	27.01	4.82	16.43	26.42	4.38	29.17	33.33	16.67

Literates among children in the age group 5-14 constitute 32.27 %, of whom males account for 41.39 % and females 21.87 %. The highest literacy among persons and males is found to be in the age group 15-34 in total/rural/urban areas. The highest percentage of literacy among females is to be found in the age group 5-14 in rural areas of the district, but in the total and urban areas the percentage of female literacy is slightly higher in the next age group 15-34. The following table furnishes the sexwise details of literacy by rural/urban for each taluka/mahal of the district.

Rural/Urban literacy by sex, 1961

Taluka/Mahal		Literate and Educated: (Literates) number	Percentage of total population	Literate males	Percentage of total male population	Literate females	Percentage of total female population
1		2	3	4	5	6	7
Bhavnagar	R	11,174	20.53	8,925	31.67	2,249	8.57
	U	86,821	49.20	55,338	60.09	31,483	37.31
Ghogho	R	9,193	20.32	6,740	28.64	2,453	11.30
	U	1,794	32.78	1,279	51.10	515	17.34
Vallabhipur	R	8,288	24.32	6,411	36.28	1,877	11.44
	U	2,635	38.14	1,827	50.91	808	24.34
Botad	R	8,361	18.03	6,774	28.23	1,587	7.09
	U	12,514	39.98	8,287	51.12	4,227	28.01
Gadhada	R	12,856	20.49	9,976	30.86	2,880	9.47
	U	3,734	40.93	2,474	52.49	1,260	28.57
Palitana	R	10,013	15.34	8,295	24.61	1,718	5.44
	U	10,690	43.49	7,056	55.19	3,634	30.80
Sihor	R	13,289	22.62	10,447	34.04	2,842	10.13
	U	7,116	46.62	4,479	57.64	2,637	35.19
Umrala	R	8,990	22.50	6,927	33.43	2,063	10.73
	U	1,759	41.34	1,148	52.88	611	29.32
Gariadhar	R	10,174	21.11	8,355	33.59	1,819	7.80
	U	2,712	33.06	1,870	44.66	842	20.97
Kundla	R	20,533	20.81	16,343	32.34	4,190	8.70
	U	11,863	38.20	7,755	48.37	4,108	27.36
Mahuva	R	19,181	16.43	16,345	27.55	2,836	4.94
	U	13,555	41.41	9,010	52.87	4,545	28.97
Talaja	R	16,500	17.10	13,302	26 89	3,198	6.80
	U	3,297	46.65	2,094	57.96	1,203	34.83

It will be seen from the above table that in rural areas, the percentage of literacy is the highest (24.32%) in Vallabhipur mahal and the lowest in Palitana taluka (15.34%). The highest percentage of literacy for males (36.28%) as well as for females (11.44%) are also reported from the rural areas of Vallabhipur mahal. But these percentages are the lowest for males in Palitana taluka (24.61%) and for females in Mahuva taluka (4.94 %). But among urban areas, the percentage is the highest in Bhavnagar taluka (49.20 %) which also claims the highest percentage of literacy for males (60.09 %) as well as for females (37.31 %). Among towns, while Ghogho has the lowest percentage of total literates (32.78%) as well as of female literates (17.34 %), Gariadhar with (44.66 %) of male literates is the lowest.

4.8 (ii) Educational Institutions

The table below gives the number of various types of educational institutions in the district along with the number of students and teachers in 1960-61.

Number of educational institutions, students and teachers, 1960-61

Educational levels	Institutions	Teachers	Students
1	2	3	4
Primary	1,025	3,235	98,272
Secondary	52	675	15,856
Higher	3	88	1,617
Training Colleges	6	46	544
Other types	546	1,032	32,386

During 1960-61 there were 1,025 primary schools with 3,235 teachers and 98,272 pupils on their rolls. Of these, 860 schools were in rural areas, which covered 817 villages of the district. Villages having no schools numbered 64. Thus 92.74 per cent of the total villages of the district were provided with the facilities of primary education. There was one primary school per every 4.11 sq. miles of rural area. There were 62 students per 1,000 of rural population. The number of scholars per teacher and primary school in the rural areas worked out to 27.22 and 55.35 respectively.

There were 52 educational institutions with 675 teachers and 15,856 students imparting secondary education in the district. During 1960-61 there were 3 colleges, viz., an Arts and Science college, a Commerce college and a Mahila college, all of which are located at Bhavnagar. Shamaldas College where Mahatma Gandhiji studied for some time before proceeding to England was the first college to be started in Saurashtra. The number of teachers and students on the rolls of these colleges were 88 and 1,617 respectively. The Lok Bharti at Sanosara is a rural institute of higher education for students who complete their studies at basic-*cum*-post basic schools. Established in 1953, it pursues the ideals of Sarvodaya as envisaged by Mahatma Gandhiji. Besides these institutions,there were six training colleges and 546 other types of institutions in the district. The Bhavnagar City also has a Polytechnic and the Central Salt and Marine Reserarch Institute which is one of the National Laboratories run by the Government of India.

4.9 Languages

Table C-V in Part II of this Handbook shows the speakers of major languages for the district and each taluka/mahal separately. The distribution of speakers of each major language by rural and urban in the district is as under.

Distribution of speakers of major languages, 1961

Sl. No.	Major language	Percentage to total population			Percentage of each major language in	
		Total	Rural	Urban	Rural	Urban
1	2	3	4	5	6	7
	Total of all languages	**100.00**	**100.00**	**100.00**	..	..
1	Gujarati	98.50	99.81	95.65	69.43	30.57
2	Marathi	0.12	0.01	0.36	5.30	94.70
3	Hindi	0.14	0.03	0.38	15.70	84.30
4	Sindhi	0.80	0.03	2.48	2.77	97.23
5	Urdu	0.19	0.03	0.52	11.64	88.36
6	Marwari	0.08	0.06	0.12	51.84	48.16
7	Others	0.17	0.03	0.49	11.66	88.34

It will be seen from the above table that 98.50 per cent of the population in the district have Gujarati as their mother tongue. 69.43% of them live in rural areas and 30.57% in urban areas. The number of speakers of other languages is not significant. It is, however, noticed that the majority of persons speaking other languages such as Marathi, Hindi, Sindhi and Urdu are living in urban areas.

4.10 Religions

The following table gives distribution of religions.

Religions, 1961

Religions	Population	Percentage of total population
1	2	3
Total	**1,119,435**	**100.00**
Hindu	1,007,991	90.05
Muslim	73,679	6.58
Jain	36,204	3.23
Sikh	199	0.02
Christian	1,148	0.10
Other religions	214	0.02

It will be seen from the above table that 90.05% of the total population are Hindus, 6.58% Muslims and 3.23% Jains. Chirstians and Sikhs number 1,148 (0.10%) and 199 (0.02%) respectively while those following other religions and persuasions number 214 (0.02%).

4.11 Scheduled Castes and Scheduled Tribes

4.11 (i) Scheduled Castes,

The total population of Scheduled Castes as per 1961 Census is 50,534 which forms 4.51% of the total population of the district. The following table gives the figures of Scheduled Castes for total/rural/urban.

Scheduled Castes, 1961

Total/Rural/Urban	Persons	Percentage of total population
1	2	3
Total	**50,534**	**4.51**
Rural	36,047	4.70
Urban	14,487	4.11

The literate and educated among the Scheduled Castes number 7,468 and constitute 14.78% of the total population of Scheduled Castes of the district. The rural and urban

proportion among them is 11.68% and 22.49% of their population respectively in villages and towns. The working population accounts for 21,037 persons or 41.63% of their population in the district. Workers in special occupations like (i) tanning and currying of hides and skins and (ii) scavenging number 1,607 (3.18%) and 1,071 (2.12%) respectively of the total population of Scheduled Castes of the district.

Tables of SCT series in Census of India 1961 Volume V-Gujarat--Part V-A show details as to number of Scheduled Castes/ Tribes, industrial categories, marital status, religion, etc., for each Scheduled Caste/Tribe. Sex and percentage distribution of Scheduled Castes' population by rural/urban in the district is shown in the table given below.

Percentage distribution of Scheduled Castes population by rural/urban, 1961

Name of Scheduled Caste	Total population			Sex		Percentage to total population of the district			Percentage of each Scheduled Caste's population	
	T	R	U	M	F	T	R	U	R	U
1	2	3	4	5	6	7	8	9	10	11
Total	**50,534**	**36,047**	**14,487**	**25,342**	**25,192**	**4.51**	**3.22**	**1.29**	**71.33**	**28.67**
Bawa (Dedh) or Dedh-Sadhu	480	421	59	268	212	0.04	0.04	..	87.71	12.29
Bhangi or Rukhi	9,832	6,036	3,796	4,865	4,967	0.88	0.54	0.34	61 39	38.61
Chamar, Nalia or Rohit	12,000	9,646	2,354	5,966	6,034	1.07	0.86	0.21	80.38	19.62
Chamadia	48	48	..	20	28	N	N	..	100.00	..
Dangashia	31	31	..	14	17	N	N	..	100.00	..
Garmatang	116	116	..	64	52	0.01	0.01	..	100.00	..
Garoda	675	443	232	322	353	0.06	0.04	0.02	65.63	34.37
Hadi	3	3	..	2	1	N	N	..	100.00	..
Meghwal	4,721	4,119	602	2,364	2,357	0.42	0.37	0.05	87.25	12.75
Senva	1	..	1	1	..	N	..	N	..	100.00
Turi	27	14	13	12	15	N	N	N	51.85	48.15
Turi-Barot or Dedh-Barot	170	169	1	84	86	0.02	0.02	..	99.41	0.59
Vankar, Dhedh or Antyaj	19,751	12,769	6,982	10,017	9,734	1.77	1.14	0.63	64.65	35.35
Unclassified	2,679	2,232	447	1,343	1,336	0.24	0.20	0.04	83.31	16.69

N=Negligible

The predominant Scheduled Castes in the district are Vankar (including Dhedh or Antyaj) and Chamar (including Nalia or Rohit) having 31,751 souls or 2.84% of the total population of the district, of whom 70.60% live in villages.

4.11 (ii) Scheduled Tribes

The following table gives the figures of Scheduled Tribes in the district.

Population of Scheduled Tribes, 1961

Total/Rural/ Urban	Population	Percentage of total population
1	2	3
Total	**75**	**0 006**
Rural	4	0.001
Urban	71	0.020

The literate and educated among them number 34, of whom 4 are returned from rural areas and 30 from urban areas.

The only Scheduled Tribe residing in the district is Siddi which claims 75 or only 0.006% of the total population of the district and 0.003% of the Scheduled Tribes of the State.

5 HOUSING

5.1 Housing Census for the first time

In previous censuses, occupied census houses used as dwellings alone were numbered and listed. Non-residential houses such as shops, factories, workshops, temples, mosques, schools, sarais, office premises and business houses, etc., were not entered in the house-list, as it was not necessary to do so for the

purpose of enumeration. They have been brought under the purview of the 1961 Census when a regular housing census was taken for the first time with a view to account for all structures, dwellings or non-dwellings. With the adoption of a uniform house-list throughout the country, important data such as material of wall and roof, tenure status and number of rooms in case of households, number of persons per room and essential data such as name of the proprietor, products manufactured, number of persons employed and kind of fuel or power, if machinery is used in case of workshops and factories, have been collected for the first time on this occasion.

5.2 Types of Census houses and their uses

The following table gives the distribution of different types of Census houses and the uses to which they are put.

Census houses and the uses to which they are put, 1961

Sl. No.	Type of Census houses	Census houses	
		Number	Percentage to total No. of Census houses
1	2	3	4
	Total No. of Census houses	**290,174**	**100.00**
1	Vacant houses	30,145	10.39
2	Dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings	201,216	69.34
3	Shops and business houses	15,196	5.24
4	Factories, workshops and worksheds	3,443	1.18
5	Schools, places of entertainment, medical and social institutions	2,782	0.96
6	Hotels, restaurants and other miscellaneous houses	37,392	12.89

Out of a total of 290,174 houses, 69.34 per cent were used as dwellings, 10.39 per cent were vacant and the rest were used for non-residential purposes such as shops, business houses (5.24 %); factories and workshops (1.18 per cent); schools, places of entertainments and medical and other social institutions (0.96 per cent) and other miscellaneous uses as hotels, restaurants and other places, etc., (12.89). 72.81 per cent of the households lived in owned houses, and the rest in rented ones. In urban areas 41.19 % of the households live in houses of their own and 58.81 reside in rented houses as against 88.43 per cent and 11.57 per cent respectively in rural areas. The higher proportion of rented houses in urban areas indicates the increased demand of houses on the part of those attracted towards towns. An analysis of the material of wall and roof shows that the predominant materials were mud and burnt bricks and mud in case of walls and tiles in case of roof. The percentage of households having walls with mud and burnt bricks was 49.83 and 24.23 respectively. As many as 91.43 per cent of the total household had roofs covered with tiles, etc.

5.3 Households classified by number of members and rooms occupied

The most important classification, however, was one by the number of rooms in the houses occupied by sampled households, given in the following table.

Households classified by number of members and number of rooms occupied, 1961

(Based on 20 % Sample)

No. of rooms	Percentage to total households	Percentage to total members
1	2	3
No regular room	0.14	0.16
1 room	66.60	59.70
2 rooms	24.41	27.77
3 rooms	4.85	6.29
4 rooms	2.64	3.88
5 rooms or more	1.36	2.20

According to this classification 66.60 per cent of the households live in houses with one room and 24.41 per cent in houses with two rooms, and 8.85 per cent only in houses with more than 2 rooms. The population in the first two categories jointly account for 87.47 per cent of the total sample population. The number of members per room in households occupying houses with one room was 5.09 while that for households living in houses with 2 rooms was 3.23. These figures reflect growing over crowding and the inadequate housing facilities in the district as in the State as a whole.

5.4 Housing Societies

With a view to relieve the shortage of housing accommodation, Government has been

helping the formation of co-operative housing societies throughout the State. In Bhavnagar district, by the end of 1960-61, there were 100 co-operative housing societies with 2,979 members and a share capital of Rs. 6.74 lakhs. Under the industrial housing schemes formulated by the Government to relieve the shortage of housing in towns especially in the industrial and slum areas, 814 tenements were constructed at Bhavnagar and Mahuva.

6 AGRICULTURE

6.1 Land Utilisation

The utilisation of land resources forms a major item in any programme of economic planning in an economy which is predominantly agricultural. It reveals the various uses to which land is put and also indicates improved ways of exploitation of its resources for better production.

Land utilisation, 1956-57 and 1960-61

[in '00 Acres]

Sl. No.	Item	1956-57 Area in acres	1956-57 Percentage of total area	1960-61 Area in acres	1960-61 Percentage of total area
1	2	3	4	5	6
	Total geographical area	**26,062**	**100.00**	**22,721**	**100.00**
1	Area under cultivation	18,247	70.02	15,217	66.97
2	Area other than Cultivation	7,815	29.98	7,504	3,303
	(i) Cultivable waste, permanent pastures and other grazing lands, fallow lands and miscellaneous tree crops	4,864	18.66	4,548	20.02
	(ii) Others	2,951	11.32	2,956	13.01

Note :

The figures for the year 1956-57 are for the district as Constiuted then and not as constituted in 1961. Further details are available in Official Statistics Table No. 3.1 published in Part II of this Handbook.

Comparison between the previous years is not possible (i) in view of the changes in classification of land utilisation and (ii) territorial changes in the district. In 1960-61 the area under cultivation was 1,521,700 acres, i.e., 66.97% of the total geographical area and that not available for cultivaton for various reasons was 750,400 acres, i.e., 33.03% of the total geographical area.

6.2 Cropping Pattern

The changes in the cropping pattern during the quinquennium can be seen from the following table.

Percentage of area under different crops during 1956-57 and 1960-61

	Crop	1956-57	1960-61
	1	2	3
1	Rice	0.23	0.51
2	Wheat	4.32	5.63
3	Jowar	19.85	19.09
4	Bajri	25.65	19.41
5	Other cereals	0.04	0.02
	Total cereals	*50.09*	*44.66*
6	Tur	0.02	0.01
7	Gram	1.62	0.08
8	Other pulses	1.78	1.16
	Total pulses	*3.42*	*1.25*
9	Sugarcane	0.37	0.79
10	Fruit & Vegetables (excluding potatoes)	0.51	*0.73*
11	Condiments & Spices	0.75	1.18
12	Other food crops	0.01	..
	Total food crops	*55.15*	*48.61*
13	Groundnut	24.50	38.03
14	Sesamum	4.22	2.27
15	Castor seeds	0.01	..
16	Other oil seeds	0.11	0.05
	Total oil seeds	*28.84*	*40.35*
17	Cotton	10.91	4.53
	Total Fibres	*10.91*	*4.53*
18	Tobacco	0.01	..
	Total drugs and narcotics	*0.01*	..
19	Other non-food crops	5.09	6.51
	Total non-food crops	**44.85**	**51.39**
	Total area under crops	**100.00**	**100.00**

Details as to area and outturn for the years 1950-51 to 1960-61 for the above crops are available in Official Statistics Table No. 3.2 in Part II of this Handbook.

The principal food crops of the district are bajri, jowar and wheat, while groundnut and cotton are the main non-food crops. The percentage comparison of different crops indicates that the food crops are gradually declining from 55.15% in 1956-57 to 48.61% in 1960-61, with a corresponding gain of 6.54% in non-food crops. The major increase is noticed in the acreage under groundnut, which has risen from 457,300 in 1956-57 to 587,400 or 38.03% of the gross cropped area in 1960-61. Among food crops, area under bajri which covered 25.65% of the gross cropped area in 1956-57 decreased to 19.41% in 1960-61. The next in importance were jowar and wheat which covered 19.09% and 5.63% of the total cropped area in 1960-61.

7 LIVESTOCK

7.1 Livestock

According to the livestock censuses of 1951, 1956 and 1961, the cattle population of the district is found to be distritbuted as under.

Livestock, 1951, 1956 and 1961

Categories of livestock	1951	1956	1961
1	2	3	4
Total livestock	**619.440**	**776,920**	**808,109**
A *Bullocks and Cows*	207,947	309,249	347,486
1 Males over 3 years	77,930	126,281	152,207
2 Females over 3 years	75,278	83,379	97,437
(in milk)	(50,547)	(45,091)	(48,739)
3 Young stock	54,739	99,589	97,842
B *Buffaloes*	126,807	119,111	135,839
1 Males over 3 years	805	1,224	1,155
2 Females over 3 years	78,631	69,106	80,665
(in milk)	(59,440)	(39,863)	(41,844)
3 Young stock	47,371	48,781	54,019
C Sheep	159,249	186,268	195,146
D Goats	119,970	146,918	113,779
E Horses and Ponies	4,294	9,385	10,411
F Mules	2	6	145
G Donkeys	585	5,882	5,153
H Camels	585	101	150
I Pigs	1	..	..
J Poultry	3,906	21,064	21,282

The livestock population of the district has shown a steady increase during the decade which is a noteworthy feature of the district. It has increased from 619,440 in 1951 to 776,920 in 1956 and to 808,109 in 1961 registering an increase of 30.46 per cent during 1951-61. This increase is spread over almost all categories of livestock. Cows and bullocks have increased by 67.10 per cent. Though the total number of cows have increased by 29.44 per cent, there is a small decrease of 3.58 per cent in the number of milch cows. The number of bullocks and youngstock has, however, increased by 95.31 per cent and 78.74 per cent respectively. In the case of buffaloes, however, though there is an overall increase of 7.12 per cent, the number of milch buffaloes has declined by 29.60 per cent, male buffaloes over 3 years of age have increased by 43.48 per cent. Among other livestock, sheep have increased by 22.54 per cent while the number of goats which increased from 119,970 in 1951 to 146,918 in 1956, fell down to 113,779 in 1961, i.e., 5.17 per cent less than that at the beginning of the decade. Substantial increase is noticed in the number of horses and ponies (142.45 per cent) and donkeys (780.85 per cent). While the number of camels has declined from 585 in 1951 to 150 in 1961, poultry seems to be making a good headway in the district. From 3,906 in 1951, its number has progressively increased to 21,064 in 1956 and 21,282 in 1961, which represents a decennial increase of 444.85 per cent.

7.2 Agricultural Tools and Implements

The numbers of agricultural tools and implements in the district were found to have achieved an impressive increase during the decade. The number of ploughs which numbered 28,440 in 1951 increased to 59,107 in 1956 and 71,685 in 1961. The percentage increase in the number of wooden ploughs during this decade was 86.27, while the number of iron ploughs in 1961 was more than fifteen fold as compared to their number in 1951. Iron ploughs constituted 29.49% of the total ploughs in 1961. The number of carts in 1951 was 16.621 which rose to 34,659 in 1956 and 40,323 in 1961 registering an increase of 142.60 per cent during the period 1951-1961. Sugarcane crushers which numbered only 80 in 1951, rose to 617 in 1961. The number of oil engines also rose from 292 in 1951 to 678 in 1956 and 2,998 in 1961. The number of tractors also showed an increase from 1 in 1951 to 55 in 1961. This significant improvement in agriculture and animal husbandry in

the district illustrate the far-reaching effects of land reforms introduced by the Government of Saurashtra. The extraordinary increase in the numbers of bullocks, ploughs, oil engines, etc., testifies to the progressive nature of agriculture in the district.

7.3 Animal Husbandry and Veterinary Aid

There were 13 veterinary dispensaries in the district, one in each taluka/mahal headquarters town. Sihor taluka, however, has one more at Songadh. Besides these, there were 11 veterinary aid centres and one veterinary mobile dispensary in the district. During the Second Plan period 1,363 pedigree bulls were supplied to various needy centres in the district to improve the breed of cattle. There were three key village centres at Mahuva, Bhavnagar and Kundla functioning in the district in 1960-61. Measures for improving the breed of horses were taken up and 12 vali horses in the district were certified for the purpose.

7.4 Fishing

An extensive sea coast, a sea bed with uneven contours supported by the cool winter season and other oceanographical conditions offer a favourable position for the development of fishing industry in this district. According to the information supplied by the Directorate of Fisheries, there were 8 non-mechanised fishing boats at Bhavnagar at the end of the year 1960-61. Two fishermen's primary co-operative societies with 39 members were also functioning at this centre.

The important fisheries of the district are Bombay duck, Coilia, Prawns and mullet though the first variety only accounts for more than 60 per cent of the total landings. Efforts are being made to develop fishing industry by supplying equipments and mechanised crafts to the fishermen.

8 IRRIGATION

8.1 Sources of Irrigation

The principal source of irrigation in the district was wells which irrigated 137,200 acres, i.e., 93.84 % of the total land irrigated, viz., 146,200 acres within the district during 1960-61. The other sources of irrigation were Government canals and tanks which together irrigated 6.16% of the total irrigated land.

The district had only 72,500 acres of irrigated land in 1952-53 which increased to 130,800 acres in 1956-57 and constituted 7.2 % of the net cropped area. By the end of the Second Five Year Plan it had increased to 146,200 acres or 9.6 % of the net area sowrn during 1960-61.

8.2 Irrigation Projects

Before the formation of Saurashtra State there were four minor irrigation projects working in the district. These works consisted of artificial lakes constructed near Valavad, Ambala, Ramdhari and Badi Padva from which the water for irrigation was to be distributed. The fifth scheme, viz.. the Ranghola irrigation project was started in 1946 but was not completed at the time of the formation of Saurashtra State. All these schemes irrigated 3,726 acres of land. During the First Five Year Plan the minor irrigation schemes of Solmitaya and Surajwadi and the medium irrigation projects of Ranghola, Bhimdad, Chorwadla and Malan were completed. All these schemes together with the existing ones created an irrigation potential of about 26,000 acres at the end of the First Five Year Plan. Under the Second Five Year Plan 5 more irrigation works were taken up. Out of these 3 works, viz., (1) Thorali (2) Bhadrodi and (3) Ekalia Mahadev were minor irrigation projects, while the Rojki Irrigation Project with an irrigation potential of 3,800 acres was a medium irrigation project, expected to be completed during the Third Plan period. Under the Shetrunji Irrigation Project included in the Second Five Year Plan, a dam near Rajasthali about seven miles from Palitana has been constructed on the river Shetrunji. The project which is estimated to cost Rs. 6.74 crores is expected to irrigate 86,000 acres of land on completion.

9 CO-OPERATION

9.1 Co-operative Societies, their types, etc.

As regards co-operative movement in the district, some headway had been made during the times of Bhavnagar State and as such the district can be said to have a favourable climate for the growth of co-operative movement. During 1951, there were 400 co-operative societies in the district as constituted then. At the end of the Second Five Year Plan there were in all 772 primary co-operative societies with membership of 89,980.

There were 482 (62.44 %) credit societies (428 agricultural and 54 non-agricultural) with 71,610 (79.98%) members in 1960-61. The number of housing societies was 100 (12.95%) with a total membership of 2,979 (3.31%). There were 85 industrial co-operative societies and 12 marketing societies besides 36 farming societies functioning at the end of 1960-61.

9.2 Regulated markets

There were 4 regulated markets at Palitana, Savarkundla, Mahuva and Sihor, 12 marketing societies and 19 consumers co-operative stores in the district.

10 ECONOMIC ACTIVITY

10.1 Definitions

The criterion of income or economic independence was adopted for measuring the economy of the country during the past censuses. On the present occasion emphasis is on the work done or the economic activity pursued by an individual so that all people such as family workers and children who work but do not earn enough for their maintenance are also accounted for as workers. Another important change relates to the presentation of the economic data according to the nine industrial categories of workers and non-workers instead of the eight livelihood classes classified by self-supporting persons and their dependents in 1951.

Status of Employment

Persons doing work other than that as cultivator or Agricultural labourer or engaged in Household Industry have been classified into following four categories

(i) Employer (ii) Employee (iii) Single worker and (iv) Family worker. In view of the wide range of economic data included in this section, it will be useful to define in brief the various terms used.

(i) *An Employer* is a person who has to employ other persons in order to perform the nature of work undertaken by him.

(ii) *An employee* is a person who usually works under some other person for salary or wages in cash or kind.

(iii) *A Single Worker* is a person who works by himself but not as head of household in a household industry. He is not employed by anyone else and in his turn does not employ anybody else, not even members of his household except casually.

(iv) *A Family Worker* is a member of the household who works without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season.

Industries are classified as household and non-household. A household industry is defined as an industry which is not run on a scale of a registered factory and conducted by the head of the household himself and/or mainly members of the household at home or within the villages in rural areas and only at home in urban areas. Rest of the industries, viz., business, trade, profession or service are non-household industries.

10.2 Distribution of workers & non-workers

The following table gives the distribution of population by workers and non-workers.

Distribution of population by workers and Non-workers, 1961

Workers/Non-workers	Persons		Percentage to total population	
	State	District	State	District
1	2	3	4	5
Total Population	**20,633,350**	**1,119,435**	**100.00**	**100.00**
Workers	8,474,588	434,721	41.07	38.83
Non-Workers	12,158,762	684,714	58.93	61.17

The following Statement shows the distribution of workers into 9 industrial categories.

Distribution of workers and percentage to total workers, 1961

Sl. No.	Category of workers	Population		Percentage of total workers	
		State	District	State	District
1	2	3	4	5	6
1	As cultivator	4,519,060	203,854	53.32	46.89
2	As agricultural labourer	1,252,000	63,486	14.77	14.60
3	In mining, quarrying, livestock, forestry, fishing, hunting, plantation, orchards and allied activities	104,850	5,490	1.24	1.26
4	At household industry	555,606	38,155	6.56	8.78
5	In manufacturing other than household industry	536,159	25,461	6.33	5.86
6	In construction	90,043	5.465	1.06	1.26
7	In trade and commerce	411,156	25,722	4.85	5.92
8	In transport storage and communications	159,061	11,683	1.88	2.69
9	In Other services	846,653	55,405	9.99	12.74

The population of the district is distributed into workers and non-workers in the proportion of 38.83 and 61.17 respectively. Amongst the working population,cultivators account for 46.89% and agricultural labourers 14.60% only as against 53.32 % and 14.77 % respectively for the State. The striking feature of the economic pattern obtaining in the district as elsewhere in the State is predominantly agricultural as revealed by 61.49 % of workers engaged in agricultural pursuits. Next in order are other services(12.74%), household industry (8.78%), and manufacturing industries account for 5.86 per cent and trade and commerce 5.92%.

10.3 Class of Worker

Industrial classification by sex and class of worker of persons at work in household and non-household industry is shown in details in census Tables B-IV-A and B.

Persons at work in household industry

	Number	Percentage
Total	**38,155**	**100.00**
Employee	1,640	4.30
Others	36,515	95.70

As stated earlier, household industry is run mostly by members of the household, the need for having employees working for salary or wages being negligible.

Persons at work in non-household industry, trade, business, profession or service

	Number	Percentage
Total	**129,226**	**100.00**
Employers	12,611	9.76
Employees	55,477	42.93
Single workers	49,926	38.63
Family workers	11,212	8.68

It will be seen from the above figures that in non-household industries, trade, business, profession and services, 42.93% of the workers are employees as against 9.76% working as employers. Single workers account for 38.63% of the total workers, while family workers constitute 8.68% only.

10.4 Principal and Secondary Work

Principal work : In case of a person who is engaged in more than one productive activity, the principal work is the one on which the person spends most time.

Secondary work : The work which is the next in importance to his principal work which occupies most time is secondary work.

Persons working principally as cultivators, as agricultural labourers or at household industry and following any of these as secondary work as given in Table B-VII Part A are as under.

(A) Persons working principally as cultivators and doing secondary work:

(i) at household industry	4,158
(ii) as agricultural labourers	5,000

Persons working principally as agricultural labourers and doing secondary work:

(i) at household industry	657
(ii) as cultivator	1,013

Persons working principally at household industry and doing secondary work as

(i) Cultivator	1,793
(ii) Agricultutral labourer	1,426

(B) In Table B-VIII Part B persons working in non-household industry, trade, business, profession or service who are also engaged in Household industry are 433.

It is observed that out of 203,854 persons engaged as cultivators only 4,158 persons (i.e., 1.94 per cent) pursue household industry as subsidiary work as against 5,000 (2.45 per cent) engaged in agricultural labour to supplement their incomes. Among agricultural labourers also more workers are engaged in cultivation than at household industry as their subsidiary work. Amongst those following household industry as their principal work 8.44 per cent only are doing secondary work in agriculture either as cultivators or as agricultural labourers.

10.5 Occupational Classification

The two concepts, viz., industry and occupation are quite distinct, though often mistaken for each other. ' Industry ' means that sector of economic activity in which the earner is engaged, e.g., textile industry, automobile industry whereas the ' Occupation ' describes the exact function that an individual performs in that economic activity, e.g., fitter, carpenter, etc.

Table B-V in Part II shows the distribution of persons at work other than cultivation. This type of detailed classification based on National Classification of Occupations has been done for the first time in 1961. The percentage distribution for the State and the district is given below.

Percentage distribution of workers according to occupational Divisions, 1961

	Occupational Division	State	District
	1	2	3
0	Professional, technical and related workers	5.95	5.82
1	Administrative, executive and managerial workers	2.32	2.09
2	Clerical and related workers	6.41	6.01
3	Sales workers	13.88	14.49
4	Farmers, fishermen, hunter, loggers and related workers	11.73	12.96
5	Miners, quarrymen and related workers	0.58	0.42
6	Workers in Transport, Storage and commuincation occupations	4 24	4.78
7-8	Craftsmen, production, process workers and labourers not elsewhere classified	46.67	46.14
9	Service, sport and recreation workers	7.96	6.91
X	Workers not classified by occupation	0.26	0.38

The most important occupational divisions in the State as well as the district are division 7-8, craftsmen, production, process workers and labourers not elsewhere classified and division 4 farmers, loggers and related workers. The higher proportion of 12.96% in the district for occupational division 4 relating to farmers, fishermen, etc., against the corresponding proportion of 11.73 % in the State can be attributed to the greater percentage of persons in the rearing of cattle, etc., and other allied activities in rural areas.

10.6 Non-workers

Non-workers account for 684,714 persons, 275,381 males and 409,333 females. The distribution of non-workers by eight broad categories is shown in Table B-IX in Part II of this Handbook. Percentage distribution of non-workers by sex according to their type of activity is shown below for total/ rural/urban, 1961.

Distribution of non-workers according to type of activity, 1961

Sl. No.	Categories of Non-workers	Total/ Rural/ Urban	Males	Females
1	2	3	4	5
1	Full-time students	T	29.64	8.43
		R	23.16	4.54
		U	41.15	14.89
2	Household duties	T	0.35	44.67
		R	0.37	41.39
		U	0.32	50.12
3	Dependents, infants and disabled	T	65.65	45.25
		R	73.37	52.17
		U	51.92	33.75
4	Retired, rentiers, etc.	T	2.34	1.50
		R	1.80	1.77
		U	3.30	1.05
5	Beggars, vagrants	T	0.76	0.11
		R	0.84	0.11
		U	0.62	0.11
6	Inmates of penal, mental and charitable institutions	T	0.12	0.03
		R	0.04	0.01
		U	0.27	0.05
7	Persons seeking employment for the first time	T	0.47	N.
		R	0.19	N.
		U	0.97	0.01
8	Unemployed but seeking work	T	0.67	0.01
		R	0.23	0.01
		U	1.45	0.02

N=Negligible

The distribution pattern of non-workers among males and females is very dissimilar. Among male non-workers, 29.64 per cent are students and 65.65 per cent dependents, which jointly account for 95.29 per cent as aginst 8.43 per cent and 45.25 per cent respectively among females. Higher percentage of dependents among males is likewise explained by the general absence of household duties among males who account for 0.35 per cent only in this category against 44.67 per cent among females.

The higher percentage of full-time students in the urban sector as compared to rural is, however, explained by the greater consciousness and opportunity towns people have in the matter of education. The percentage of females engaged in household duties is found to be higher in urban areas than that in rural areas as womenfolk in villages in addition to their attending to household chores also participate in agriculture and household industry. While the percentage of unemployed persons seeking work is insignificant for males, that for females is practically nil.

11 INDUSTRIES AND POWER

11.1 Registered Factories

There were 248 registered factories in the district at the end of the year 1961 employing on an average 13,382 persons daily. Notable amongst these were cotton textile mills, rayon mills, re-rolling mills, sheet metal works, rubber factory, bone factory, salt works and factories for the manufacture of hydrogenated oil, matches, hume pipes and bicycle chains and spare parts working at Bhavnagar. Besides these, there are a pottery works at Sihor, a cotton textile mill at Mahuva and a Railway wagon workshop at Bhavnagar Para in addition to oil mills, cotton ginning mills and presses at various places in the district. From the point of view of employment offered cotton textiles industry was the most important which employed 5,886 (43.98%) in 27 units. The next in order of importance were food, drinks and tobacco (13.67%), metals and minerals (8.88%) and Government and local fund factories (7.85%). Besides these there were 51 engineering units employing 993 persons daily.

11.2 Joint Stock Companies

There were 61 joint stock companies functioning on the 31st March 1961 with authorised capital of Rs. 885.93 lakhs and subscribed capital of Rs. 402.86 lakhs. The authorised and subscribed capital per joint stock company comes to about Rs. 14.52 lakhs and about Rs. 6.60 lakhs respectively. The joint stock companies classified under (i) transport, communications and storage and (ii) food stuffs, textiles and leather products dominate the joint stock field with a total authorised capital of Rs. 581.04 lakhs and subscribed capital of Rs. 271.19 lakhs. While such companies constitute 34.43% of the total number of joint stock companies, their authorised and subscribed capital accounts for 65.59% of authorised and 67.32% of subscribed capital of all the joint stock companies floated in the district.

11.3 Banking

There has been a steady increase in the banking facilities available in the district since 1950-51.

The number of scheduled and co-operative banks in 1960-61 was 22 and 31 respectively. It is interesting to note that co-operative banks which were non-existing in 1950-51 numbered 31 in 1960-61.

11.4 Small Scale Industries

Besides registered factories and joint stock companies, there is a number of small scale industries and handicrafts in the district. Chief of them are snuff and brass and copperware at Sihor, lacquered wooden toys, cradles, etc., at Mahuva and pottery at Gadhada. Savarkundla is well-known for the manufacture of iron scales and Bhavnagar for its wooden pataras (chests)

There were 85 industrial co-operative societies (including 13 weavers' societies) in the district in 1960-61 with a membership of 4,064 persons, and share capital of Rs. 3.26 lakhs.

11.5 Electricity and Power

The biggest source of electric power is the Bhavnagar power house run by a private company. The other power generating stations in the district are located at Palitana, Gadhada, Botad, Mahuva, Sihor and Savarkundla. Amongst these the first five are owned by the Gujarat Electricity Board while that at Palitana is privately owned. The total number of towns and villages electrified in the district till the end of the Second Five Year Plan was 35, many of these having been electrified only during the Second Five Year Plan. Except Ghogho all taluka/mahal headquarters towns have electricity.

The utilisation of electricity has increased substantially during the Second Five Year Plan. From 5.726 million K.W.H. in 1950-51 it went up to 11.128 millions K.W.H. at the beginning of the Second Five Year Plan and reached 27.278 millions K.W.H. in 1960-61. The utilisation of electricity in industry has shown considerable rise from only 6.638 millions K.W.H. in 1955-56 to 17.298 millions K.W.H. in 1960-61 testifying to the greater demand made by industries on the use of electricity in recent times.

The table given below gives the pattern of utilisation of electricity in the district in the years 1950-51, 1955-56 and 1960-61.

Units of electricity sold, 1950-51, 1955-56 and 1960-61

[in million K.W.H.]

Year	Kilowatt hours sold to public for				Total utilisation of electricity
	Domestic consumption	Commercial light and small power	Industrial power	Other purposes	
1	2	3	4	5	6
1950-51	1.915	0.647	2.240	0.924	5.726
1955-56	2.535	1.116	6.638	0.839	11.128
1960-61	4.318	1.183	17.298	4.479	27.278

Note:

The information for private licensees included in this table relates only to those licensees for which the date have been furnished by the Electrical Engineer to Government, P.W.D., Government of Gujarat.

The foregoing figures show that the pattern of utilisation of electricity has radically changed in 1960-61 as compared to that in 1955-56.

11.6 Factories and workshops classified by power and no power used

Statistics of census houses used as factories, workshops and worksheds classified by power and no power used have been compiled for the first time during the Census of 1961 and extracted below for the State and district.

Factories and workshops classified by power and no power used, 1961

Power/Fuel	Rural/Urban	State		District	
		No. of factories, etc.	Percentage to total	No. of factories, etc.	Percentage to total
1	2	3	4	5	6
Total	**R**	**34,447**	**100.00**	**2,853**	**100.00**
	U	**45,686**	**100.00**	**2,134**	**100.00**
Electricity	R	1,248	3.62	18	0.63
	U	12,311	26.95	422	19.77
Liquid fuel	R	4,687	13.61	426	14.93
	U	1,282	2.81	113	5.30
Coal, wood and bagasse	R	3,039	8.82	316	11.08
	U	3,453	7.56	322	15.09
Other power	R	82	0.24	..	..
	U	85	0.18	7	0.33
No power	R	25,391	73.71	2,093	73.36
	U	28,555	62.50	1,270	59.51

The foregoing table is restricted to census houses used as factories and workshops classified by power and no power used in 1961. The percentage of factories using electricity in rural and urban areas of the district are proportionately less than those in the State. The proportion of factories using electrical power is less in villages than in towns, both in the district and the State, owing to the paucity of electric supply and industries in rural areas. The percentages of units using liquid fuel and coal, etc., were higher for the district as compared to their corresponding percentages in the State as a whole. The proportion of electricity is higher in towns because of its ready availability and tendency to eliminate other bulky fuels. But the proportion of liquid fuel is found to be higher in villages than in towns because of its extensive use for agricultural purposes in the large number of diesel engines, pumps, tractors, etc. The proportion of units using no power in the district was 67.44% as against 67.32% in the State. This proportion was higher both in rural and urban areas of the district as well as the State owing to the predominance of traditional crafts and industries in our economy.

12 TRANSPORT AND COMMUNICATIONS

12.1 Roads

The total road mileage in the district has steadily increased from 703 miles in 1950-51 to 1,057 in 1960-61, thus registering an increase of 50.50% during the decade. Though no National Highway passes through this district, Bhavnagar, the district headquarters is connected with Rajkot and Amreli through State highways. Ahmedabad is connected with it through a State highway meeting the Ahmedabad-Rajkot National Highway No. 8-A. During 1960-61, State highways measured 48.62 miles (4.60%) while other district and village roads 1,008.63 miles (95.40%). The average length of metalled and non-metalled roads per 1,000 sq. miles of the district works out to 126.63 and 169.07 miles respectively, while similar averages per 10,000 of population are 4.04 and 5.40 miles respectively.

12.2 Railways

The Bhavnagar State Railway, the first enterprise of its kind in Kathiawar was constructed in 1877-78 during the reign of Maharaj Sir Takhtasinhji. The railway lines were gradually extended till they measure 307.04 miles. The ports of Bhavnagar, Mahuva and Albert Victor were connected with these railway lines to facilitate booking of goods between railways and steamers. A narrow guage tramway operating between Bhavnagar and Talaja was opened in 1926 was later on extended up to Mahuva in 1938.

Out of 12 taluka/mahals in the district, railway lines pass through eleven taluka/mahals and 8 taluka/mahals headquarters are linked by one or the other of these lines. Taluka/mahal headquarters not served by railways are Ghogho, Vallabhipur, Umrala and Gariadhar.

The length of metre guage and narrow guage lines passing through the district was 156.54 miles and 67.25 miles respectively during 1960-61. There were in all 60 railway stations on these lines. The mileage of railways per 1,000 sq.

miles of area and per 10,000 of population are 62.59 and 2.00 miles respectively.

12.3 Ports

Bhavnagar, Mahuva, Talaja and Ghogho are the four ports of the district. Out of these Bhavnagar is the only intermediate port, the other three being classified as minor ports. Bhavnagar, which has an excellent position at the head of the Gulf of Cambay as well as a secure anchorage afforded by the excellent creek in its vicinity, has an iron screw pile jetty at the old harbour and a concrete jetty 882 ft. long, at the new one, constructed by the former Bhavnagar State as the old jetty was getting silted up. The concrete jetty facilitated ships to enter the harbour during the tide only. A modern lock gate 95' long and 73' wide at a cost of Rs. 90 lakhs was therefore constructed in 1961 to enable the steamers to remain in the harbour constantly. This has made it an all weather port. Foreign trade is carried out through all the ports except Ghogho which handles coastal traffic only. The important commodities imported through these ports were foodgrains, timber, building materials, kerosene, etc., the bulk of articles exported through these ports consisted of salt, oilseeds and groundnut seeds, etc. The volume of cargo handled at all these ports during the years 1950-51, 1955-56 and 1960-61 is given below.

Tonnage of cargo handled at the ports of Bhavnagar district, 1950-51, 1955-56 and 1960-61

Sl. No.	Name of the Port	1950-51	1955-56	1960-61
1	2	3	4	5
1	Bhavnagar	289,111	279,801	337,189
2	Mahuva	30,496	46,631	61,745
3	Talaja	9,838	14,880	22,504
4	Ghogho	1,813	7,003	13,225
	Total	331,258	348,315	434,663

Out of the total traffic handled at all these ports during 1960-61, the foreign traffic amounted to 197.769 tons or 45,50%. The major bulk of this traffic was handled at Bhavnagar port which accounted for 77.57% of the total.

No foreign passenger traffic is handled at any of these ports. Two ferry services viz.,(1)Bhavnagar Kala Talao and Madhia Ferry service and (2) Broach-Ghogho Ferry Service through sailing vessels (coastal) serving Bhavnagar port, carried 69,565 passengers during 1960-61.

12.4 Post and Telegraph

During the year 1960-61 there were 139 post offices, 14 telegraph and 16 telephone offices in the district. On an average there was one post office for 8,053 persons. By 1960-61 the telegraph as well as telephonic facilities were available at all the taluka/mahal headquarters except Ghogho and Gariadhar, which were served only by telegraph offices.

12.5 Air Services

Bhavnagar is an air port connected with Bombay through a daily air service.

13 MEDICAL AND PUBLIC HEALTH

13.1 Medical Institutions

The number of medical institutions in Bhavnagar district increased from 19 in 1951 to 27 in 1961. During 1961 there were 7 hospitals, 13 allopathic dispensaries and 7 Ayurvedic dispensaries in the district. The number of beds in these institutions in 1961 was 630 as against 416 in 1951. 18,749 indoor patients and 414,514 outdoor patients were treated in these hospitals and dispensaries during 1961. A T. B. hospital with 242 beds is also functioning at Amargadh.

13.2 Vital Statistics

The statement given below shows vital statistics of the district for the year 1957-60.

Birth Rate, Death Rate and Natural increase in Population, 1957-60.

Year	Birth rate	Death rate	Natural increase in population
1	2	3	4
1957	20.7	10.8	9.9
1958	19.4	10.4	9.0
1959	26.0	10.2	15.8
1960	22.0	9.2	12.8

The data on vital statistics available being incomplete and defective are useful for drawing general conclusions only. They indicate a fall in the death rate and rise in the rate of survival which can be reasonably attributed to improvement in medical and health facilities since Independence.

13.3 Health Centres

The different public health measures to check the incidence of various diseases in the district are (a) vaccination and revaccination (b) malaria control (c) primary health centres and maternity and child welfare centres in rural areas (d) water supply schemes and (e) family planning centres. During 1960-61 the population covered under malaria eradication scheme numbered 917,909. 18,860 persons were treated with B.C.G. Vaccine to protect them against the attack of tuberculosis. Under the programme of providing medical relief through primary health centres in rural areas 12 maternity and child health centres and 7 rural health centres were functioning in the district by the end of 1960-61 through which 86,710 and 52,418 patients were treated while 5,874 persons benefitted by five family planning centres working in the district.

13.4 Water Supply

In order to provide drinking water facilities to towns different water supply schemes were prepared after the formation of Saurashtra State.

(i) Bhavnagar City Water Supply Scheme

Bhavnagar City gets its water supply from Gaurishanker and Khodiyar lakes in normal times. Lakes of Sihor and Khodiyar are joined through a pipeline of 15" diameter to augment the water supply to Bhavnagar City in the event of scarcity. The scheme estimated to cost Rs. 38.85 lakhs will augment the water supply by laying new pipelines and construction of additional storage tanks at suitable places in the city. Rs. 20.60 lakhs have already been spent under the scheme.

(ii) Sihor Water Supply Scheme

In order to ensure regular water supply to Sihor town the scheme envisages drawing of water from a lake $1\frac{1}{2}$ miles away from Sihor, at an estimated cost of Rs. 17.67 lakhs.

(iii) Botad Water Supply Scheme

The scheme is designed to provide water from a well at the bottom of a tank, one mile away from Botad at an estimated cost of Rs. 13.70 lakhs.

The following schemes were also taken up for execution :

Name of the Scheme	Estimated cost. [Rs. in lakhs]
1	2
Palitana Water Supply Scheme	22.60
Savarkundla Water Supply Scheme	9.75
Mahuva Water Supply Scheme	15.60

Village Water Supply Schemes

Four village water supply schemes were under execution in the Second Five Year Plan. The water supply scheme for six villages round about Ratanpur estimated to cost Rs. 3.32 lakhs was a spill over of the First Plan, and those of Doliya, Jangar and Akala villages which could not be completed in the Second Plan period have been included in the Third Five Year Plan.

14 LABOUR AND SOCIAL WELFARE

14.1 Labour Welfare

In the former States merged in the State of Saurashtra there was no uniformity with regard to policy and legislation pertaining to labour. The adequacy or otherwise of welfare measures varied with the stage of enlightenment in the different States with one common feature of a generally apathetic attitude towards labour welfare or trade unionism.

Soon after integration, it was made clear in the first policy announcement made by the Government that it was wedded to a progressive labour policy, similar to the one followed by other States in India. Uniform labour legislation was enacted by adopting important labour laws of the State of Bombay. An adequate machinery for implementation and enforcement of these measures was created to put into effect the much needed welfare programme framed by the State.

The First Five Year Plan of Saurashtra in the sphere of labour welfare related mainly to training labour welfare workers, increasing facilities of labour centres and expanding administrative machinery. With a view to fostering

healthy trade unionism, provision was made for liberal grants-in-aid to unions for approved activities. So far as the unorganised sector was concerned, minimum wages were prescribed and predominantly labour areas were given special attention under the scheme of social education. Facilities of canteen, dining shed, creche, washing etc., were also provided to the labourers by enforcement of rules.

Conciliation machinery was set up under the Industrial Disputes Act, 1947 for the settlement of industrial disputes.

14.2 Labour Welfare Centres

In the district, there were six Government Labour Welfare Centres of which 2 were in class 'C' while the remaining 4 were in Class 'D'.These centres were located at Bhavnagar, Cahuva, Nari, Sihor and Botad. In a 'C' class centre provision is made for Bal Mandir, an adult literacy class and a library in addition to facilities for playing indoor and out-door games for the the members; while the activities in a 'D' class centre are restricted to out-door games in the initial stages which are then extended according to the demand by the members.

14.3 Industrial Housing

Under the industrial housing scheme formulated by Government of Saurashtra 500 tenements at Bhavnagar and 100 tenements at Mahuva were constructed at a total cost of Rs. 1,702,227 during the First Five Year Plan. During the Second Five Year Plan also 214 more tenements were constructed at Bhavnagar.

14.4 Juvenile Delinquency

One observation home for juvenile delinquents has been established in 1958 at Bhavnagar in which 109 cases were admitted during the year 1960-61.

14.5 Employment Exchange

The office of the Employment Exchange for Bhavnagar district was started at Bhavnagar in 1955. The number of candidates registered at and those placed in employment through this office during the years 1958-60 are given below.

Year	No. of candidates registered	No. of candidates placed in employment
1	2	3
1958	3,294	994
1959	4,384	713
1960	4,928	860

The scheme of collection of Employment Market information was also implemented during 1958 for studying the occupational distribution of manpower, its demand and supply at present and at future dates, prospective employment in different sectors, etc. Youth Employment Service started in 1960 is entrusted with the work of disseminating informatinion and advising and assisting the youths in choosing their vocations. 95 youths were given information required by them through the centre, while 66 other were advised in choosing their careers.

15 PRICE TRENDS

The average retail prices of important staple food-stuffs during each calendar month of 1961 collected for Bhavnagar, the district headquarters are given in Table No. 16.1 in Part II of this Handbook. The prices of rice, wheat and jowar which reached the maximum during the first three months of the year, showed a declining trend throughout the rest of the year. The prices of bajri which had shown an onward trend in the beginning of the year was the lowest in November.

The prices of gram and arhar dal fluctuated within a narrow range during the year while that of moong which reached its maximum in the month of June indicated a steep fall during the later months reaching its minimum in November. The price of udid also showed a downward trend in the earlier months of the year and declined during the later months of the year.

16 COMMUNITY DEVELOPMENT PROGRAMME

16.1 Community Development Programme

The Community Development Programme, a unique and bold effort to mobilise public enthusiasm and co-operation in rebuilding the rural economy of India was inaugurated in the district in October 1954, when the first development block was started in the district in Botad. The N. E. S. was considered a preparatory stage, breaking ground for effective intensification of effort to bring about the economic and social change in the community development stage of an area. The nucleus organisation set-up under the N. E. S. would continue as a permanent extension of the development department after the completion of the intensive C. D. stage. because of social backwardness of the region, the former

Saurashtra Government considered that there will be an unavoidable time-lag before the people could understand and appreciate the objectives behind the C.D./N.E.S. programme, and special efforts were necessary to obliterate past associations which hindered development of intimate understanding between the people and the Extension Services. A scheme of starting P. E. S. blocks, with a Skeleton extension staff was therefore intiated as a State scheme in addition to the all India programme of Community Development. During 1956-57, the Planning Commission appointed the Balawantray Mehta Committee to examine the working of the C. D. programme and related matters and to recommend measures for improving the quality, tone and content of the programme. In pursuance of the recommendations of this committee the existing distinction between N.E.S. stage, intensive development stage and the post-intensive stage was abolished with effect from 1-4-1958. all the blocks under the All India programme except blocks in the C. D. stage which had not completed their three years' period on 1-4-1958 were classified into stage I and stage II blocks with revised financial patterns and periods of operations. The Community Development blocks, on completing their period, will enter stage II. A stage I block has a five year period of operation with a ceiling of expenditure of Rs. 12 lakhs for this period. It is "The Intensive Development phase in which people's participation would be promoted as the method of Community Development and panchayats will be intimately connected with the formulation of the plans for their respective areas. The degree of success attained in the First Stage will be the evidence of the growth and functioning of self-reliant rural communities, which is the basic objective of the programme". Stage II of the programme, with a provision of Rs. 5 lakhs for 5 years will seek to intensify the operation of the method of Community Development in its fuller amplitude and will have greater emphasis on Community Development rather than on development programmes as such.

16.2 Coverage of Programme

The following table gives the type, area, villages and population covered under the programme by March, 1961.

Coverage under Community Development Programme by type of block

Sl. No.	Name of the Block	Date of inaugur-ation	No. of blocks of CPA pattern	Area covered in sq. miles 1961	No. of towns and villa-ges covered	Popu-lation 1961
1	2	3	4	5	6	7
Stage I						
1	Gadhada	1-4-1956	1.00	292.0	76	65,000
2	Savarkundla	2-10-1956	1.00	438.5	83	98,596
3	Sihor-Umrala	1-4-1957	1.00	311.5	118	94,956
4	Vallabhipur	1-4-1958	1.00	430.4	75	47,736
5	Mahuva	2-10-1959	1.50	475.3	134	148,409
6	Talaja	2-10-1960	1.00	324.0	120	78,740
Stage II						
1	Botad	1-1-1960	1.00	273.6	51	60,283

At the end of the year 1960-61 there were 6 stage I Blocks, and 1 stage II block in the district. These seven blocks covering eight talukas of the district included 657 villages with a population of 593,720 persons. Thus 74.57% of the villages and 53.04 % of the population of the district were covered by these blocks towards the end of the Second Plan period. Besides this, the talukas of Bhavnagar, Ghogho Palitana and Gariadhar were covered by Pre-Extension Blocks. Details regarding financial and physical achievements of Stage I and Stage II blocks of the district are available in Official Statistics Table No. 15.1 published in Part II of this Handbook.

17 FIVE YEAR PLANS

17.1 Progress of Plan Schemes

A brief review of some of the important schemes implemented under the First and Second Five Year Plans in Bhavnagar district is given below.

17.2 Agricultural and Animal Husbandry

The various schemes included under the subhead Agriculture were establishment of subsidised agricultural farms, distribution of super phosphate, manure mixture and san seeds, preparation of compost in municipal towns, establishment of seed multiplication farms, etc. The scheme for the establishment of seed multiplication farms was taken up in the Second Plan, when seed multiplication farms were established one each at all taluka/mahal head-quarters except Ghogho. The total expenditure incurred under this scheme amounted to Rs. 476,557.

By the end of the year 1960-61 improved seeds distributed through seven development blocks of the district weighed 245,962 B. Mds. The quantity of seeds distributed through Gadhada block being the highest, viz., 78,110 B. Mds. amongst all these blocks.

289,349 B. Mds. of fertilisers were also distributed through these blocks. Out of these Savarkundla block distributed 81,044 B. Mds. which was the maximum quantity distributed by any one block.

The improved seed of groundnut (A.H.32) which was developed by Amreli Agricultural Research Centre was introduced during the First Five Year Plan. The other types of improved seeds developed for groundnut were A.K. 12-24 and Punjab 1 A.H. 334 which also were distributed to the cultivators through co-operative societies and other private dealers. The total area covered by all these improved seeds progressively increased and measured 346,168 acres of land at the end of 1960-61.

In case of cotton also the improved variety of *Pratap* cotton was introduced in 1953-54 by the Saurashtra Government as it was found more suitable than the prevalent variety, viz., *Mathia.* A new variety, viz., *CJ* 73 *Sanjay* was introduced in 1959-60 as it was found superior to *Pratap* cotton. *CJ* 73 *Sanjay* variety, developed at Amreli centre, yields about 521 lbs. of cotton per acre which is higher than that of the other two varieties. It is proposed to cover the whole district by this variety within a period of five years, 23,091 acres having been covered in 1960-61.

During 1959-60 an Agricultural Research Centre at Vallabhipur was established to conduct experiments in dry farming. The Centre has a farm spread over 40 acres of land for this purpose. Since 1960-61 experiments regarding dry farming are being conducted systematically at the farm and their results are being studied at present for adopting the methods suitable for the areas where the rainfall is scanty and erratic.

17.3 Reclamation Scheme

Under Land Development, the Bhal Reclamation Scheme was the most important in the district. This is an ambitious scheme aiming at reclaiming 55,000 acres of land by stopping the ingress of tidal waters which turn vast areas of land into salt marshes. The scheme was started in the First Plan. The total expenditure during the first two Plans was Rs. 4,631,255. The work relating to the original scheme has been now completed. Further work on the scheme will be taken up after watching the results of the Pilot Polder Scheme which was taken up under the revised programme.

17.4 Minor Irrigation

Under minor irrigation the following schemes were implemented in the district.

1 Minor irrigation works,

2 Construction of new wells and repairs to old ones and

3 Subsidy for electric motors for agricultural purposes.

A provision of Rs. 1,756,600 was made for schemes under minor irrigation out of which Rs. 1,489,845 were spent during the Second Five year Plan.

17.5 Marketing

Two schemes, viz., (1) Development of Agricultural Marketing and (2) Development of Co-operative Marketing were taken up under the sub-head of Ware-housing and Marketing. Under the scheme "Development of Agricultural Marketing", regulated markets have been established at (1) Savarkundla (2) Palitana (3) Mahuva and (4) Botad. Under the scheme "Development of Co-operative Marketing" eleven purchase and sale unions have been established and loans and subsidies have been given for construction of medium sized and small sized godowns. The Government also invested Rs. 61,020 in the share capital of purchase and sale unions.

17.6 Veterinary Aids

Various schemes relating to veterinary aids, prevention of contagious diseases, breeding and improvement of livestock, etc., were taken up for implementation during the Second Five Year Plan when new veterinary dispensaries were opened in the following taluka/mahals (1) Gadhada, (2) Vallabhipur, (3) Talaja, (4) Sihor and (5) Gariadhar.

17.7 Soil Conservation

Under the scheme of soil conservation, 22,128 acres were bunded during the Second Plan period at an expenditure of Rs. 608,195. The work was mainly confined to Botad taluka and Gadhada mahal.

17.8 Co-operation

The important schemes implemented in the district under this sub-head were (1) Extension of Agricultural credit, (2) Co-operative Farming, (3) Lift Irrigation and (4) Cattle Breeding-*cum*-farming Societies.

17.9 Irrigation and Power

The Shetrunji Irrigation Project was a spill over project of the First Plan. It has an irrigable command of 86,000 acres of land. Of the total provision of Rs. 376 lakhs for the scheme Rs. 264 lakhs were spent during the Second Five Year Plan. The project when completed is estimated to yield additional production of 27,000 tons of food-grains.

Under medium irrigation projects the work on Rojki Irrigation Scheme was taken up during the Second Plan period. On completion, an area of 3,800 acres of additional land will be irrigated at an estimated cost of Rs. 27.0 lakhs. During the Second Plan Rs. 10.92 lakhs were spent on it.

17.10 Industries and Mining

The important schemes implemented in the Second Plan under this head were starting of (i) an emporium at Bhavnagar at an expenditure of Rs. 1.45 lakhs and (ii) training-*cum*-production centres one each for smithy, carpentry and leather work, involving an expenditure of Rs. 1.52 lakhs.

17.11 Transport and Communications

Schemes relating to the development of roads and ports of the district were taken up for implementation under this head during the Second Plan. An expenditure of Rs. 113.00 lakhs was incurred during the Second Five Year Plan when roads measuring 414 miles and 9 bridges and culverts were constructed.

17.12 Social Services

Under the sub-head of education important schemes implemented during the Second Plan were (1) training of primary school teachers, (2) opening of basic schools and (3) opening of multipurpose schools.

Under the schemes pertaining to health, during the First Five Year Plan 96 beds were added in the Gopanathaji Maternity Home and one isolation ward having 10 beds and a T. B. ward having 20 beds were constructed in Sir Takhtasinhji Hospital at Bhavnagar. 50 beds were added during the Second Plan in the T. B. Hospital at Amargadh which was also given grant-in-aid for after-care and rehabilitation centre for the *ex*-T. B. patients. The T. B. clinic at Bhavnagar was upgraded and 20 beds were added in Sir Takhtasinhji Hospital at Bhavnagar. Training facilities for nurses midwives, etc., were expanded and a number of primary health centres and maternity and child welfare centres have been started during the Second Plan. Other important schemes implemented under this sub-head were (1) National Malaria Eradication Programme and (2) Municipal and Rural Water Supply schemes.

17.13 Other Social Services

The schemes for the removal of untouchability, welfare of Backward Classes, Vimukta Jatis, etc., started in the First Five Year Plan were continued in the second Plan. Such schemes were implemented through the Saurashtra Backward Classes Board appointed by the Government of Saurashtra till 1959 when it was dissolved.

The following are some of the important measures for removal of untouchability and welfare of Scheduled Castes in the Second Five Year Plan. Under the scheme of providing better houses, financial help of Rs. 36,200 was given to 241 families for constructing better houses. 22 Harijan families were also given financial assistance up to Rs. 1,000 each for purchasing house-site land. Prizes were awarded to those gram panchayats who did outstanding work for removal of untouchability. Rs. 94,713 were spent after 12 Sanskar Kendras for Harijan children. 366 Harijan students were given assistance of Rs. 54,622 to enable them to saty in hostels. In addition to this, 612 students were given scholarships amounting to Rs. 26,100 for prosecuting their studies further. Ten adult education classes were conducted at the cost of Rs. 1,603. 284 patients were given help for taking medical treatment. 20 Chamar families were given assistance for *charmakund* at the rate of Rs. 100 each to enable them to work in healthier conditions.

Twenty youth clubs of Harijans were given a sum of Rs. 1,862 for purchasing sports equipments. Rs. 18,000 were given as assistance to village panchayats and other bodies for construction of water-seal latrines to obviate the necessity of manually carrying night-soil.

Under the schemes for Scheduled Tribes, financial assistance was given to 18 patients for medical treatment, besides providing medicine chest in their area. Six students were given scholarships, while Rs. 200 were given to two youth clubs for purchasing articles of sports.

Among Vimukta Jatis, 53 families were given assistance for adoption of better implements in their occupation of poultry-rearing. Six families were given tools for small scale industries and four Adodiya families were given wheel-barrows to enable them to work as pedlars. Two Sanskar Kendras were opened for the children of Vimukta Jatis. 50 students were given freeships and 4 others were given assistance for living in hostels. Financial assistance of Rs. 7,484 was also given to 31 families for their rehabilitation.

17.14 Small Savings

Increasing emphasis has been laid on mobilisation of small savings to augment the national resources for financing the development programme.

Efforts to this end made in the district are shown below for the year 1960-61.

	Nature of saving	Net Collection [Rs. in lakhs]
	1	2
1	Saving Certificates	6.16
2	Post Office Savings Bank deposits	15.77
3	Treasury Savings deposits	2.90
4	Annuity Certificates	..
5	Cumulative time deposits	0.15
	Total	**24.98**

18 IMPORTANT PLACE NAMES

18.1 Important Places

Important places in the district are :

1	Amargadh	T. B. Hospital
2	Ambla	A centre of basic education
3	Bhavnagar	A former State capital, an Intermediate port, centre of education, commerce and industry. All-India Central Salt and Marine Research Institute
4	Botad	Metal quarries and a business centre
5	Gadhada	An important seat of Swaminarayan Sect
6	Ghogho	A historical town, a flourishing port in ancient times
7	Gopnath	Temple of Gopnath Mahadev on seashore with salubrious climate
8	Mahuva	A port of importance in old times known for handicrafts and fruit plantations, famous for Jamadar variety of mangoes
9	Palitana	A place of pilgrimage for Jains, Siddhakshetra with numerous beautiful Jain temples on mount Shatrunjaya
10	Khodiar	Temple of Khodiar Mata and dam on the Khodiari river.
11	Sanosra	Lok-Bharati, a rural institute for higher education
12	Savarkundla	A centre of handicrafts especially manufacture of iron scales and khadi
13	Sihor	A historical town and former capital of Bhavnager State. It has Brahma kund built by Siddharaj Jayasinh and frescos in the old palace of the Maharaja
14	Talaja	Buddhists caves and Jain Temples.
15	Vallabhipur	A historical place. A seat of learning, centre of Buddhism and the capital of Maitrakas in 5th to 8th centuries.

Details of these and other places will be found in the Brief Gazetteer of place names given in this Handbook.

18.2 Ancient Monuments

Official Statistics Table No. 18.3 gives details of each ancient monument together with the name of the village, place of location, the period of architecture, brief description, etc.

18.3 Fairs and Festivals

Sixty-six important fairs and festivals are celebrated at different places in rural and urban areas of the district. The details regarding the place where it is held, name of the fair/festival, the date on which it is held/observed and the estimated congregation are shown in the Official Statistics Table No. 18.2 in Part II of this Handbook.

GAZETTEER OF PLACE NAMES

DISTRICT BHAVNAGAR

Abbreviations:

V.P.=Village Panchayat; G.P.=Group Panchayat; M=Municipality;
P=Population; N=North Latitude; E=East Longitude.

1 Amargadh—V. P. (Taluka Sihor), P. 2,017

It is 24 miles from Bhavnagar, one mile from Songadh and six miles from Sihor on the Rajkot-Bhavnagar State Highway. Formerly known as Jinthri, it has the famous K. J. Mehta T. B. Hospital, with 292 beds for consumptive patients. A rehabilitation centre for 50 patients has been constructed by the Government.

2 Ambla—V. P. (Taluka Sihor), P. 2,603.

It is on the Rajkot-Bhavnagar State Highway -23 miles from Bhavnagar. It is well known as a centre of basic education. The Lok-Shala named Gram Dakshinamurti, was founded by the eminent educationist, the late Shri Nanabhai Bhatt, who, influenced by the Gandhian thought, settled in this village after nearly 30 years of service in the field of education with the desire to spread basic education to rural areas. It is a Basic-*cum*-Post Basic residential school aiming at becoming a community school, with the guiding principles of character building, truth and service. Eight to ten similar other schools were also started in this region by other agencies on the same model. Students from such basic schools had no opportunities of higher education, to provide which, the Lok Bharati, an educational institution for higher education was started in Sanosara in 1953. Thus the Lok Bharti of Sanosara had its origin in the Gram Dakshinamurti at Ambla.

3 Bhadrod—V. P. (Taluka Mahuva), P. 3,429

It is situated on the Bhavnagar-Talaja-Mahuva Road, four miles north-east of Mahuva and on the western bank of the river Bhadrodi. It is believed that Shri Krishna, who was carrying away Rukmini, defeated her brother Rukmi at this place. The latter, humiliated and unable to return home on account of a vow not to return unless victorious, settled at this place and built a temple to Bhadreshwer Mahadev afetr whom the village was called Bhadra Nagar, later corrupted into Bhadrod. Walas, ousted from Talaja, about 1544 A. D., stayed here for some time. In 1744 it passed under Khasias, and finally under the former Bhavnagar State in 1784.

4 Bhal reclamation scheme or Pilot Polder Project, (Taluka Bhavnagar).

This scheme aims at reclaiming saline land in the Bhal area, a flat tract of about 250 square miles in Bhavnagar and Ahmedabad districts, having a population of about 15,000 persons. It is a delta region of many small rivers near the sea, with erratic rainfall. Sub-soil water is saline and the whole area has *khar* or saline land. To reclaim this land, Government has sanctioned this scheme called Pilot Polder Project which was undertaken by the Government of Saurashtra in consultation with experts deputed by the Dutch Government and subsequently continued in the Third Five Year Plan. It envisages the construction of an earthen bund 25 miles long and a waste weir 10,000 feet long to prevent flooding by see water and to preserve rain water which would wash away the salinity of the soil, thus rendering it fit for cultivation. During the Second Five Year Plan the Pilot Polder Project was taken up with the assistance of Dutch experts at an estimated cost of Rs. 30 lakhs. The remaining stages of the scheme will be taken up after watching the results of the Pilot Project for two or three years. By the end of the Second Five Year Plan an expenditure of Rs. 4,631,255 had been incurred on the scheme, which is estimated to cost Rs. 183 lakhs in all and benefit 55,000 acres of land, which is expected to yield about Rs. 12.5 lakhs worth of wheat annually.

5 Bhavnagar—M., P. 176,473, 21°-46' N., 72°-11E'

It is a port to the west of the Gulf of Cambay and terminus of the Surendranagar-Botad-Dhola-Bhavnagar metre gauge section and Bhavnagar-Talaja-Mahuva narrow gauge section of the Western Railway. It is also joined by a State Highway with Rajkot, and State Transport buses connect it with many towns around, while the municipality runs the city bus services. There is also a daily air service to Bombay. The river Gadhechi takes its rise from hills near the village of Sidsar four miles south-west of Bhavnagar and joins the Bhavnagar creek near the town.

Formerly the capital of the progressive State of Bhavnagar, it is the district headquarters of the district since 1948. Bhavnagar rulers were Suryavanshi Gohel Rajputs, originally from Marvad, who gave the name Gohilwad to the area now included in Bhavnagar district. They established their first capital at Umrala which was later shifted to Sihor. Bhavsinhji I founded Bhavnagar in 1723 on the site of the village Vadwa, now one of the wards in the city. The capital from Sihor was removed by him with the twin objects of enabling himself to take to sea in the event of an invasion, and developing maritime trade for his State. In both these objects he succeeded well and the new capital grew rapidly under a line of enlightened rulers and illustrious Divans like Gaurishanker (Gaga) Oza, Shamaldas Mehta and Sir Prabhashanker Pattani. The first municipality in Saurashtra was established in Bhavnagar town in 1872. Total prohibition was introduced in the State in 1919. A legislative assembly was constituted even before Independence and responsible Government was established on 15th January 1948. Bhavnagar was the first among States of Saurashtra to merge in the Indian Union after Independence.

Being a port, Bhavnagar is an important commercial and industrial centre. Cotton, silk and timber are the main items of its trade, while its industries include textile and rayon mills, power looms, flour mills, saw-mills, re-rolling mills and sheet metal works, rubber and bone factories, salt works and factories for the manufacture of hydrogenated oil and matches, G. I. and Hume pipes, fire-crackers, nails, bicycle chains and spare parts. There is also a public dairy. There are three to four factories which process yellow earth and Fuller's earth of good quality found in Bhavnagar Taluka. Numerous small engineering industries are flourishing in Bhavnagar. Laquered wooden toys and fruits, *Patara* (wooden chests) and cart-wheels are well-known handicraft products of Bhavnagar. An industrial estate with 38 sheds has been constructed under the Second Five Year Plan with sufficient land for expansion up to 144 sheds. Under the first and Second Five Year Plans 714 tenaments have also been built for industrial labourers at a total cost of Rs. 2,147,243. There is also a training school for artisans in lathe-turning and blacksmithy, carpentary and leather products. There is a modern market maintained by the municipality.

Bhavnagar is an intermediate port for coastal and foreign traffic with an iron jetty at the old harbour and a concrete jetty at the new one which has been constructed by the formar state as the old jetty was getting silted up. There is a workshop at the port and the railway line has been extended to the harbour. As described in the *statical Account of Bhavnagar* "From its excellent position at the head of the Gulf of Cambay as well as from the secure anchorage afforded by the excellent creek in its vicinity, it commenced at an early period to attract to itself no small share of the local trade of the Gulf". Formerly ships were able to enter the harbour at the concrete jetty only during tide time. In order to obviate this difficulty a lock-gate has been constructed in 1961, at a cost of Rs. 90 lakhs, which enables steamers to remain in harbour constantly. It is now an all weather port and handled 347,683 tons of cargo in 1961-62. The imports, which amounted to 229,482 tons included foodgrains, coal, timber, building materials, kerosene, iron and steel and cotton seeds. The main items of 118,201 tons of export cargo were salt, oil-cake, cotton and ground-nut seeds and oil. Foreign trade accounted for 40 per cent of the total tonnage. The railway line opened in 1880 has also contributed to the development of trade of Bhavnagar town and port commanding the shortest link with the hinterland. Bhavnagar, which was the headquarters of the Bhavnagar State Railway is now a divisional headquarters of the Western Railway, and has a railway workshop.

Bhavnagar has long been reputed as a centre of education, where the first college in Saurashtra, viz., the Shamaldas College was started, and where Mahatma Gandhiji studied for some time before proceeding to England. It has Arts, Science and Commerce colleges, a Polytechnic, a Mahila Vidyalaya (college for women), a primary teachers' training college and several boys' and girls' schools, a school for blind children and a co-operative training school. The Alfred High School is "an imposing building in the Indo-Saracenic style". The pioneering work done by the late Shri Gijubhai Badheka in the field of children's

education and by the late Shri Nanabhai Bhatt in basic education brought fame to the institution of Dakshinamurti founded by them. It has now been closed down, but the Bal Mandir movement initiated by Gijubhai has spread all over Gujarat. The Central Salt and Marine Chemical Research Institute, one of the national laberatories run by the Government of India conducts research in respect of production of pure salt and utilisation of by-products of salt manufacture. There are also the well equipped Barton Library, the District Library, a library for women and a museum. The Gandhi Smriti declared open in 1955 has a library of Gandhian literature, Gandhi picture gallery and museum and an open air theatre. Promoting social and cultural activties is also one of its aims and objects. Mahila Mandal is another notable institution. Numerous literators, artists, educationists and social and public workers have made Bhavnagar rich in culture and public life.

The chief medical institutions include Sir Takhtasinhji Hospital, Shri Gopnathji Maternity Hospital, and a leper hospital with 250 beds. There is also a nurses' training school. During the State regime, some beautiful public buildings were constructed. A town planning scheme having been undertaken in 1935, the well planned suburbs of Krishnanagar and Takhteshwer plot grew up rapidly as a result of availability of land at cheap rate and liberal loans for the construction of building at reasonable rates of interest and easy terms for repayment. Takhteshwer Mahadev is a beautiful marble temple on a small hillock and provides an excellent view of the city. Beautifully carved Ganga Chhatri is another temple in marbel in the middle of Gangajalia tank now used as a playground or meeting place. Both these temples are protected monuments. The Town Hall is an imposing edifice.

Bhavnagar has long been equipped with electricity, piped water supply, and underground drainage. It had the first modern water works with a filter plant in Saurashtra. Its water supply is drawn from Gaurishanker Lake, popularly known as Bor Talav supplemented by Khodiar Lake, both of which are beautiful picnic spots. The Gaurishanker Lake also has a terrace garden and children's park (Balodyan) with a variety of items of entertainment. The Victoria park close by is also a place for picnic.

6 Botad—M., P. 26,168. 22°- 10′ N., 71°-42′ E

It is a taluka headquarters situated on the confluence of the streams which together form the small river Utavali. A railway junction on Bhavnagar-Surendranagar metre gauge railway line from where a line branches off to Jasdan it is connected by bus services with Rajkot, Paliyad, Gadhada, Barvala, Dhandhuka and Ahmedabad. This fortified town is said to have been founded by the Jhalas of Kondh who were Bhayats of Halvad-Dhrangadhra.

Botad is known for its stone quarries and it is a big business centre, where agricultural produce of nearly a hundred nearby villages is brought. The main produce is cotton. There are cotton ginning and pressing factories which work for four to five months a year and provide employment to 400-500 workers. There are also the taluka and block officers, Civil and Criminal Courts, a primary health centre, a seed multiplication farm, a veterinary dispensary, a co-operative market yard for agricultural produce, a Government guest house, and a District Local Board *Dharmashala*. Botadkar, the famous Gujarati poet, was from Botad. Sarangpur, famous for its Hanuman and Swaminarayan temples (in Dholka taluka) is situated six miles from Botad.

7 Gadhada—M., P. 9,125

The headquarters of a mahal, is a terminus on the Ningala-Gadhada meter guage line branching off at Ningala from Botad-Bhavnagar railway section. Bus services connect it with Ahmedabad *via* Botad, and with Ningala, Jasdan, Dhola, Dhasa, Bhavnagar and Amreli. Originally held by Chudasamas of Bhadli, it was granted to Kathis who later became quite powerful, but lost it to Thakor Wakhatsinhji of Bhavnagar who defeated them in 1763 A.D.

Situated on the river Ghelo, Gadhada is famous for being one of the principal seats of the Vaishnavite sect called Swaminarayan, established in 1804 A.D. by Sahajanand Swami,

who was born in a Brahmin family in Chhapaia, near Ayodhya in Uttar pradesh, on *Chaitra Sud 9, V. S.* 1837 (A.D. 1781). After extensive pilgrimages he came to Loj in the former Junagadh State where he made Swami Ramanand his *guru*. Having been proclaimed an *Acharya* or the head of his followers by Swami Ramanand in 1801, he made Gujarat and Saurashtra the field of his religious reforms which were propagated by him vigourously and energetically. The times were of great political turmoil, but the influence of Sahajanand Swami sobered the turbulent Kolis and Kathis to a large extent weaning them away from lawlessness and outlawry. He was a practical idealist and not merely a philosopher, and by methodical organisation, he put his sect on a sound footing in Gujarat and Saurashtra. Because of his winning personality, saintly behaviour, and spiritual attainments, he was worshipped as an incarnation of God in his very life time. He has also been credited with several miracles, and was respected by leading personalities of the times, like the Gaekwad of Baroda and the Governor of Bombay. His social reforms include negation of animal sacrifice, female infanticides, Sati, and other social evils. His preaching had such a wide appeal that even Khojas and Jains became his disciples. However, he had retained the Varnashram arrangement in his sect. He died at Gadhada in V. S. 1886 (on 28th October, 1829). At all the principal places of pilgrimage of the sect, as also at the places visited and occupied by Swami Sahajanand, articles used and worn by him have been preserved with great care and devotion.

Sahajanand Swami adopted the Vishishtadvaita of Ramanuj as his religious philosophy, but also incorporated the devotion advocated by Vallabhacharya. Shikshapatri, the collection of the Swami's preachings in Sanskrit, is a code of moral instructions. It also contains practical-advice for conduct in daily life. The principle tenets are piety, non-violence, truth, abstension from non-vegetarian food,and intoxicating drinks. It advises avoidance of debts and regular keeping of accounts, forbids thefts and adultery, and enjoins toleration, and *brahmacharya*. Free association of sexes is not permitted and women have separate temples and congregations.

The temple of Gopi Nath Dev at Gadhada, built in 1829 A.D., is one of the biggest Swaminarayan temples. It is a fine piece of architecture with a high plinth, a spacious square, an assembly hall, and large *dharmashalas* with kitchens for Sadhus and pilgrims. Thousands of pilgrims from far and wide visit Gadhada for *darshan* every year.

Besides the mahal and block offices, Gadhada has a link court with Botad, a female teachers' training college, a primary health centre, a veterinary dispensary, high schools, a seed multiplication centre and a weaving and tailoring training centres for males and females. Sandalwood bead rosaries and necklaces are made here in large numbers, and used by devotees of Swaminarayan sect. Other important handicraft products are handloom cloth, small wooden boxes, soap, hand-made paper and tiles. Sahasra Dharo in the Ghelo river five miles from Gadhada is resorted to by pilgrims of Swaminarayan sect for a holy bath.

A big fair is held at Gadhada on Jal-jhilani Ekadashi, i.e., Bhadrapad sud 11 (September), which is an important festival for the Swaminarayan sect wherein more than 25,000 people participate.

8 Gariadhar—M., P. 8,202

It is a mahal headquarters seventeen miles in the west of Palitana, and connected by bus with Palitana, Dhasa, Damnagar, Lathi, Kundla, etc. It is an ancient place, having been mentioned in the Ain-i-Akbari and Mirat-i-Ahmedi as a *paraganah* of Sorath Sarkar, and was originally the capital of the rulers of Palitana in which State it continued till its integration in 1948. Besides the mahal and block offices, it has a primary health centre, veterinary hospital, a seed multiplication farm and Government and Local Board rest houses. Electricity is supplied from the grid system. There are a ginning factory and two important co-operative transport societies.

9 Ghelo Irrigation Scheme (Mahal Gadhada)

Included in the Third Five Year Plan as a spill-over work from the Second Plan, envisages the construction of a dam and a pick up weir across the river Ghelo near Itaria. The total estimated cost is Rs. 20.60 lakhs and irrigation potential 3,600 acres.

10 Ghogho—V. P., P. 5,472 21° -39' N., 72° -15' E.

It is a mahal headquarters and an ancient port in the south-east corner of Saurashtra peninsula, 40 miles from the head of the Gulf of Cambay, and eight miles from Bhavnagar with which it is connected by bus.

A flourishing port in ancient times, it is made famous in the Gujarati proverb "Lankani ladi ne Goghano var", (the bride from Lanka, i.e., Ceylon, and bridegroom from Ghogho), said to have been coined because a prince of this place embarked on his voyage to Ceylon where he married a Ceylonese princess. It was a big centre of sailors during the reign of the Rajput Kings of Patan. Mokhadaji Gohil of Umrala conquered it along with the Piram Bet from the Muslims in 1325, but was killed in a battle with emperor Muhammad Tughlak who marched to put down his piracy. Ghogho was restored to the son of Mokhdaji, but later on the Gohils migrated back to Umrala, and by 1503 it was under Muslims. A prosperous port trading with Malabar, Aden, etc., it was burnt by the Portuguese in their conflict with the Sultan of Gujarat in 1531 and again in 1546, Reviving after the decline of the Portuguese power, it passed under the Moguls in 1591. The English, though permitted in 1612, did not establish their factory there, as they found it too poor. In 1614 the Portuguese again ravaged it, but it retained its importance till early 18th century. Thereafter it frequently changed hands and finally passed under the British in 1803. Again it revived, and by 1819, some ships of 50-250 tons were built, and some new houses were constructed. By 1860-64 it was a principal port for cotton exports from Saurashtra. However, with the subsequent fall in cotton prices and advent of railways, its trade again decayed, and the little trade that remained was taken up by Bhavnagar. The sailors and laskars of Ghogho were once considered the best in India, but now all its former glory has faded. An indication of its past importance can, however, be seen from a street in the business locality of Bombay called Ghogho Street. Formerly in Ahmedabad District, Ghogho was included in Amreli district after Independence, and finally in Bhavnagar district after reorganisation Saurashtra and Bombay States.

There is one oil mill in Ghogho and white earth found in large doposits at different villages of this Mahal is exported. Ghogho is a minor port for coastal traffic which handled 10,886 tons of cargo in 1961-62. The main item of imports (469 tons) was animals; while the exports, amounting to 10,417 tons, included clay, animals and onions. Besides the mahal offices, there are the Port office, Customs office, a veterinary dispensary, two Government rest houses on the sea-coast, and a recently constructed District Local Board *dharmashala*. There is the well known and historical "Navkhanda Parshwanath" temple visited by many Jain pilgrims every years. Recently some 278 ancient Jain images of bronze, dating as far back as V. S. 1123 to V. S. 1578, have been discovered from an underground vault of this temple.

11 Gopnath (Taluka Talaja)

47 miles away from Bhavnagar and 15 miles from Talaja, is a well known Mahadev temple named after Gopsinhji Gohil of Rajpipla who built it. According to another version it was erected by the twelve brothers after whom the Bar Bhai Mohalla in Bombay is known. It is situated within Relia Gadhula G. P. It is mentioned in ancient Greek works, and called Papika in the Periplus of the Erythraean sea. The famous saint and poet Narsinh Mehta of Junagadh is believed to have performed penance here. Gopnath is the place resorted to by Gohil Rajputs including the ruling family of the former Bhavnagar State for the tonsorial ceremony of the sons. It has a pleasant climate and can be a good summer resort. It has a lighthouse and a good *dharmashala*. An annual fair on Shravan Vad 14 and Amavasya (August) in honour of Gopnath Mahadev attracts 6,000 pilgrims.

12 Gundi—V. P. (Taluka Bhavnagar), P. 503

It is situated on the northern bank of the river Maleshweri, 13 miles south-east of Bhavnagar and five miles from Ghogho. It is an ancient place, formerly called Gundigadh, probably from *Gundi* trees very common in the countryside. Koliyak, on the opposite bank of the river seems to have been a suburb of *Gundi* which is the more ancient of the two.

Nagar Brahmins who later migrated to Ghogho and thence to Bhavnagar had first settled at Gundi. Gundi-Koliyak is mentioned as a port in Ain-i-Akbari and Mirat-i-Ahmedi, but the port was actually at Hathab, two miles away.

13 Hathab—V. P. (Taluka Bhavnagar), P. 2,896

It is a sea resort with pleasant climate six miles south of Ghogho and about sixteen miles from Bhavnagar. Because of its excellent climate, the ruler of Bhavnagar had built a nice bungalow on the sea shore. This ancient village was the port of Gundigadh, where baked clay impressions of a coin of Swami Chashtana and another of Rudrasen, son of Virdama were found. It is believed to be the Astakampra known to the early Greek navigators, and mentioned as Astakapra in the Periplus of the Erythrasan Sea. The ancient temple of Bhadreshwer Mahadev, Nilkanth Mahadev, highly esteemed by Nagar Brahmins of Ghogho and Bhavnagar and a *shivling* of Nishkalank Mahadev on a rock near the mouth of the Gundi creek are well known shrines. The latter is believed to have been established by Pandavas who were at this place cleared of their sins of killing their own brothren the Kauravas. Popularly known by the 'corrupt form Nakalank, it means the Mahadev who frees one from all blemish. An annual fair held on Shravan Vad Amavasya (August) attracts about 20,000 people.

14 Janada—V. P. (Mahal Gadhada), P. 744

Six miles north-east of Gadhada, has a large well with inexhaustible supply of water where eighteen waterbags (*kos*) can work simultaneously all day round. Nearby Janada is a small irrigation tank, called Hamapar tank.

15 Katpar—V. P. (Taluka Mahuva), P. 2,685

Is is four miles from Mahuva on the sea shore near Mahuva port. It is believed that it was originally called Kundanpur, and was the capital of Raja Bhishmak, the father of Rukmini whom Shri Krishna married after defeating her brother Rukmi. Later on, the village was named Kanakavati Nagri after Kanaksen Chavda who settled there.

Most of the villagers are engaged as sailors on country crafts and steamers for about eight months in a year. There is an ancient temple of Bhavani Mata on the seashore between Katpar and Nikol villages, where two fairs are held every year on Shravan Vad I and *amavasya* (August), in which 2,000 to 3,000 people take part.

16 Khadadpar—V. P. (Taluka Talaja), P. 1,194

It is situated near Talaja and is twenty miles from Bhavnagar. It was conquered by Mokhdaji Gohil from Muslims after taking Umrala. Because of his interference with maritime trade, the emperor Muhammed Tughlak attacked him, and, according to a legend, Mokhdaji's body continued fighting even after he was beheaded and his head fell off in Ghogho. The body ultimately fell at Khadapar where his memorial stone now stands. The Chaitri fair on Chaitra sud 15 (April) is visited by 1,000 persons.

17 Khodiyar Mata (Taluka Sihor).

Is a well known shrine of the family goddess of the ruling house of the former Bhavnagar State. It is included in Rajpara V. P. (P 969) situated on the Khodiyari river. The temple which has 36 pillars and a vast *mandap*, is administered by a trust. It is much venerated in the area and visited in large number especially on Sundays and Tuesdays for *darshan* and picnic. Near the temple is a vast tank known as Khodiyar Tank. Built in 1935 at a cost of Rs. 338,045, it supplies water to Bhavnagar city and some villages of the Bhal area. Stone of good quality was found in the quarries of the village and used in building construction at Bhavnagar.

18 Koliyak—V. P. (Taluka Bhavnagar), P. 1,961

It is situated on the southern bank of the river Maleshweri, 13 miles south-east of Bhavnagar and five miles from Ghogho. It is so named after Kolis who orginally inhabited this area. It seems to have been, in ancient times, a suburb of Gundi or Gundigadh which is situated on the opposite bank of the river and with which it is mentioned in the Ain-i-Akbari and Mirat-i-Ahmedi. There is a fine

Adensonia (*Rukhdo*) about 35 to 40 feet in circumference between Koliyak and Hathab.

19 Mahuva—M., P. 32,732; 21°-6' N. 71°-49' E.

The headquarters of the taluka and sub-division, is an ancient port on the Arabian sea 55 miles south-west of Bhavnagar. Situated on the west bank of the river Malan, it is the terminal station of Dhasa-Rajula-Mahuva meter gauge railway line and also Bhavnagar-Talaja-Mahuva narrow gauge line.

Moherak and Madhumavati are the ancient names of Mahuva which is said to have been given in *inam* by the king Vikram to Bhavad Shah, whose son, Javad Shah was a contemporary of Kanaksen Chavda of Katpar. An inscripation dated 1381 A. D. in Sadavav, the step-well named after a *Waja* king Sud, shows that the town was held by Wajas. Later on, Mahuva was under the Sultans of Gujarat and in the inscription of Laxminarayan Temple at Mahuva dated 1444 A. D. it is referred to as Madhumavati. After the decline of the Mogul power, the Thanadar of Mahuva became independent in 1740 and after once changing hands the town was captured by Takore Wakhatsinhji of Bhavnagar in 1784. There is an old mosque at Mahuva containing an Arabic inscription dated Sur San 826 and also some old Jain temples of the 15th century.

Mahuva was an important port during the times of the Sultans of Gujarat and the Moguls. It is now a minor port open to coastal as well as foreign traffic with a lighthouse near the harbour. Its chief imports are building materials, timber, wood, cotton seeds, kerosene, iron and steel; while ground-nut, ground-nut oil (in export of which it ranked second among all ports), oil cake, salt and onion are the main items of export. The port handled 46,432 tons of cargo in 1961-62 divided almost equally among imports and exports. The foreign traffic accounted for 112 tons. Mahuva has rich garden land famous for its 'Jamadar' mangoes. Coconuts, betel leaves and other fruits are aslo grown here. The Government plantation at Mahuva is a century old and grows coconut, arecanut, mango, chiku and lemon. There is also a seeds farm in 70 acres which distributes 15,000 seedlings per year to cultivators. There are a spinning mill and oil mills. Mahuva is also well-known for its handicrafts of lacquered wood work and toys, ivory work, *surma*, handloom cotton textiles, and cart wheels. Besides sub-divisional and taluka offices, it has a technical high school, a good hospital, a veterinary dispensary and a Government guest house. A hundred tenements have been built during the First Five Year Plan at a cost of Rs. 241,165 for giving on subsidised rents to industrial labourers. The town is equipped with electricity and piped water supply.

20 Mithi Virdi—V. P. (Taluka Talaja), P. 610

It is situated about twenty miles from Bhavnagar, and two miles from Khadadpar. It is well known for its sweet water springs on the sea shore. Even though overflowed by sea water twice every day, the water from the springs remains sweet. There are also some minor sweet waters prings nearby whence its name, Mithi Virdi, which means sweet-spring, is derived.

21 Mota Khuntavda—V. P. (Taluka Mahuva), P. 4,037

It is situated on the southern bank of the river Malan about half a mile to the west of its confluence with Rojki and Liliyo and about twelve miles from Mahuva. It is said to have been settled by Hemgal and Gangait, the sons of Champraj Wala of Bhadrod. Hemgal betrayed his brother to Prince Fateh Khan, a former Governor of Mangrol who thereupon poisoned Gangait and built fort here. This gave to the village the name Khuntavda or the place of betrayal. On being attacked by Sultan Ahmed Shah, Fateh Khan fled to Shial Bet and his five wives threw themselves in a well which is since known as 'Panch Bibi-no-Kuwo' When Fateh Khan was captured and taken to Ahmedabad, Hemgal again occupied the village. After some generations, Ahirs established their rule over it, but lost it to the Muslims. After the decline of the Mogul power, it was laid waste by the Khumans of Kundla and repopulated in 1785-86 by Wakhatsinhji, the ruler of Bhavnagar.

There is a Budhist cave, locally known as Aghori Bava's cave, in the Chitradhar hill

about a mile away. There are also the remains of a fort and good Jain, Vaishnva and Swaminarayan temples.

A dam constructed in 1956 on the river Malan near this village, at a cost of Rs. 35 lakhs, has an irrigation potential of 5,600 acres, with a catchment area of 46.95 squre miles.

22 Nari—V. P. (Taluka Bhavnagar), P. 4,099

About five miles from Bhavnagar, is very well known for its fruit gardans which grow excellent pomegranates, guavas, etc. exported to cities like Bombay and Ahmedabad. Near the village there is a spring with inexhaustible supply of sweet water.

23 Palitana—M., P. 24,581

A taluka and subdivisional headquarters and the famous place of pilgrimage for Jains, is situated on the south bank of Khari, a tributory of the Shetrunji. It is a terminus of the Sihor-Palitana meter gauge railway section and also connected by bus with Bhavnagar and other nearby towns.

An ancient town, Palitana was a *Thana* under the Moguls. Later on, it became a separate State ruled over by Gohil Rajputs, who had first settled at Gariadhar. Till its integration in Saurashtra in 1948, it remained the capital of the State.

About a mile from the town is the famous Shetrunja (from Shatrunjaya) hill, one of the five most sacred hills of the jains who call it Siddhakshetra. Every Jain desires to visit Shetrunja at least once in his life time. The hill is 1977 feet high and its summit was originally divided into two peaks, but the valley between the two has been partially filled up. There are built steps right to the top and the climb takes about 1½ hours. The entire summit is covered with numerous Jain temples, which are monuments of archaeological interest The tallest, viz., the temple of Chaumukhji is visible from a distance of 25 miles. In all there are about 863 temples, five of them being considered the most important, vzi., Adinath, Kumarpal, Vimal Shah, Sampriti Raja and Chaumukhji, out of which again Adinath is said to have been built in 421 A. D., and is the most venerated. Most of the temples were built in the 11th century but destroyed in the 14th and 15th centuries and the present shrines were built in the 16th century. Magnificently built with marble, they are palatial and have beautiful carvings, the best of their kind in Gujarat. Because of these temples Burgess calls Palitana 'a city of temples'. From the top of the hill one can have a beautiful view of the surrounding hills and valleys and the river Shetrunji winding its way like a silver ribbon. There is a shrine of Angor Pir on the summit of the hill where childless women take a vow to offer miniature cradles for getting children. In the town proper there is a beautiful temple of Bhairavnath.

Palitana is well-known for its harmoniums, lever locks, and silver work, especially of the Jain *derasar* type. There are taluka, subdivisional and block offices, courts, a good hospital, a veterinary dispensary and four high schools. It is provided with piped water and electric supply.

Festivals are celebrated by Jains on the purnima of Kartik and Chaitra.

24 Paliyad—V. P. (Taluka Botad), P. 5,134

It is the second biggest village in Botad taluka, situated on the southern bank of the river Goma about ten miles north-west of Botad. It is a station on the Botad-Jasdan meter gauge railway section, connected by bus services to Surendranagar, Chotila, Jasdan and Rajkot. Before 1948 it was a separate estate of 17 villages. It was also the headquarters of a thana of the Kathiawar Agency. It is a flourishing trade centre and well-known for its leather industry. There is a middle school and a primary health sub-centre. It has also the well-known temple of Visaman Bhagat a Kathi saint and the *Samadhi*, of Apa Jiva Bhagat, of Songadh, visited by Kathis from all over Saurashtra. A fair is held on Bhadrapad Sud 2 (September) in honour of Jiva Bhagat when 10,000—15,000 people congregate.

The Goma irrigation scheme, included in the Third Fve Year Plan, is expected to irrigate about 5,410 acres at an estimated expenditure of Rs. 58.30 lakhs.

25 Piram (Mahal Ghogho), P. 17, 21°-35' N., 72.°.-34' E.

or Piram Bet is an island in the Gulf of Cambay, one and a half miles long and half a mile broad, situated four and a half miles south-east of Gogho and two and a half miles from the sea shore. The tide is quite powerful near Piram, having a speed of 12 miles per hour during high tide.

Though almost deserted, the island had some importance in old times as it commanded the water-routes to Cambay, Broach, Ghogho and Bhavnagar. Up to the 14th century, it was under Baraiya Kolis. In 1325 Mokhdaji Gohil of Umrala took it, but he was killed in a fight with Muhammad Tughlak who conquered it with a view to put down his piracy. Subsequent attempts to build a fort there did not succeed and a similar attempt in mid-eighteenth century by Mulla Muhammadali, a merchant of Surat also failed as people were unwilling to settle there. A lighthouse was later on built on the island from the stones of the old fort. Some traces of temples were discovered here and even an idol of sitting Buddha was found in 1836. Fossils of large ruminating animals, elephant, sea-horse, bullocks, antelopes, tortoise and big fish were also found at Piram in the same year.

26 Ranghola—V. P. (Mahal Umrala). P. 2,098

It is situated near Bhavnagar-Rajkot State Highway. The Ranghola Irrigation Scheme, originally started by the former Bhavnagar State, was completed by the Saurashtra Government. Its irrigation potential is 10,000 acres. The dam has been named Krishna Sagar Dam after His Highness Krishnakumarsinhji, the Maharaja of Bhavnagar.

27 Rojki Irrigation Scheme (Taluka Mahuva)

A dam has been built on the river Rojki near the village Nava Thorala, six miles from Khuntavda. The scheme, undertaken in 1959 at an estimated cost of Rs. 2,701,400 will have irrigation potential of 3,800 acres of land.

28 Sanosra—V. P. (Taluka Sihor). P. 3,606

It is on the Rajkot-Bhavnagar State Highway 13 miles away from Sihor and four miles from Sanosra station on the Bhavnagar-Dhola meter gauge section of the Western Railway. It was a flourishing village even a century ago, with a fine step-well and the temple of Sandhera Mahadev with a local legend associated with it. In the post-Independence period it has come into prominence with establishment in 1953 of Lok-Bharati, a rural institute for higher education by the late Shri Nanabhai Bhatt, a prominent educationist of Saurashtra. After the establishment of several lok Shalas (Basic-*cum*-post-basic schools) in Ambla and other villages, a need was felt for offering opportunities of higher education to students who completed their education in lok Shalas. As a result, the Lok Bharati came to be established, with a view to bring higher education to rural area, train village youth, conduct research in problems of rural areas and serve as an extension agent and cultural centre for rural folk. It aims at regenerating villages on lines of Sarvodaya as envisaged by Mahatma Gandhiji and conducts courses of higher education in agriculture, *goshala* management, rural crafts, humanities, agricultural extension and training teachers in Buniyadi Talim, etc.

29 Savar-Kundla—M., P. 31.051

Seventy miles south-west of Bhavnagar, is the headquarters of the taluka and a railway station on the Dhasa-Rajula-Mahuva meter gauge section. The township consists of Kundla town (P. 30,122) and the hamlet of Savar Samapadar (P. 929), between which flows the river Navli. It often changed hands from 1400 A. D., till it finally passed under Bhavnagar from the Khuman Kathis in 1790. The Khumans were so notorious for their raids that Meraman Khavas, the famous minister of Jamnagar attacked Kundla and laid it waste. A legend ascribes the origin of the river Navli to the blessings of Khodiyar Mata to Someshwer Kotiya, the son of a former ruler of Kundla who appeased the goddess by fasting and severe austerities for seven days, to alleviate sufferings from scarcity of water. She told him that a water-course would run where he poured cow's milk, but would stop if he looked back. The blessing came true, but the stream

stopped when the prince looked back. Its course is only four miles long. It is said that even in famine years its slender flow four feet broad and about four inches deep, continues up to this point.

Kundla is in a fertile tract growing cotton. It is famous for its handicrafts-saddles hand-woven rugs, woolen blankets, *Khadi*, and iron articles. It specialises in iron scales which are well-known and exported all over India. About 200 families are engaged in the manufacture of various iron articles including scales. Besides these industries Kundla also has oil miles, and has also made good progress in co-operative activities in the fields of oil-ghanis, weaving, retail grocery stores and road transport. There is also a workshop of the Small Industries Service Institute. Besides the taluka offices, it has a hospital and rest house. The town has electricity and a water supply scheme is under execution. The municipality runs a swimming pool. There are four *ghats* on the river, and in the dry season, shops are put up in the river bed which is 100-150 feet broad.

30 Shetrunji Irrigation Scheme (Taluka Palitana)

It is an important project of the region. Shetrunji the second biggest river of the Saurashtra peninsula, rises from the Chachai hill in Gir, runs a course of a hundred miles and meets the Gulf of Cambay near Sultanpur, six miles east of Talaja. A dam has been constructed in 1959 near Rajasthali, seven miles to the south of Palitana and the construction of the canal system is under way. With a catchment area of 1,667 square miles and a maximun capacity of 12,365 M.cft., it will irrigate 86,000 acres of cultivable land, at an estimated cost of Rs. 6.73 crores.

31 Sihor M., P. 15,263, 21°-43' N 72° E.

The headquarters of the taluka, is an ancient town, picturesquely situated on the slope of the Sihor range of hills and on the back of the river Gotami. Fourteen miles away from Bhavnagar, it is a railway junction on the Bhavnagar-Botad meter gauge section from where a branch line runs to Palitana. It is also well connected by bus services to important places round about.

Sihor is believed to date back to the eighth century A.D. It was originally called Saraswatpur. Later on, after king Sinhavarma, it was named Sinhapur, whence its present name has been derived. According to another legend, Vijaykumar, the son of Sinhavarma, went to Ceylon and named it Sinhaladwip. It is believed that Sihor was bestowed upon Audich Brahmins by Mulraj, the Solanki king of Patan. Later it was under the Sultans of Gujarat and then under the Mogul emperors. The old site of the town, now waste, is in the hills half a mile to the south. The two sects of Brahmins, viz., Janis and Ranas, who inhabited it, had a serious fight in which many persons were killed. The rival factions sought the help from the States of Gariadhar and Umrala respectively. The latter succeeded in the struggle and Visoji Gohil of Umrala established his capital at the present site in 1547 when the old site was abandoned. Sihor thus remained the capital of the Bhavnagar State till the city of Bhavnagar was founded in 1723. According to a popular belief, Nana Saheb Peshwa, a hero of the Indian Mutiny of 1857, lived incognito as a *Sanyasi* in his after life in the caves at Sihor under the name Dayanand Yogindra and breathed his last here. His *Samadhi* has been built here.

Sihor is surrounded by hills and a scrub forest where there used to be lions till 1854-55 when the last of them was shot. Sihor is also a holy place, the Brahma Kund near the southern wall of the city being mentioned in the Skanda Purana. There is a legend that Siddharaj Jaisinh was cured of leprosy by a bath in this *Kund*. Beyond the Dipdio Dhar or the Panther Ridge is the Gautama Kund named after Gautama Rishi who performed penance there and gave water from the *Kund* to faminestricken people for many years. Also named after him is the Gautameshwar Mahadev.

Half a mile from the town is the Sat Sheri situated at the site of ancient Sihor, which may be the relics of Surya Mandir, used as a *Chora* by the Brahmins in the old Sihor. Sat Sheri and the Brahma Kund are protected monuments belonging to the twelth century. There are excellent wall paintings in the Sihor fort depicting the Bhavnagar ruler Wakhatsinhji with battle scenes, armies, cavalries, etc. Govind, a notable Hindi poet belonged to Sihor.

Sihor is also famous for its handicraft and other products, viz., brass and copperware, snuff, mortar and *Pendas* (a sweet from milk). It has a Pottery works and oil mills. Good building stone is found in the Ranio hill. The town has taluka and block offices, a hospital, a veterinary dispensary, a seed multiplication centre, a town-hall, a maternity and child welfare centre, a guest house and *dharmashalas*. It has piped water supply and electricity.

An annual fair held at Brahma Kund on Bhadarvi Amas, i.e., Shravan Vad Amavasya (August) is visited by 6,000 people. Smaller congregations take place at Sukhnath Mahadev on the day of Divaso, i.e., Ashadh Vad Amavasya (July) and at Gautameshwer Mahadev on Gokulashtami (August).

32 Songadh—V.P. (Taluka Sihor), P. 3,767

Situated on the hill stream Utavali, is a station on the Bhavnagar-Dhola meter gauge railway section five miles from Sihor. It is also on the Rajkot-Bhavnagar State Highway and is served by State Transport Buses. Once an important place called Sonpuri, it was a thana and the headquarters of a Deputy Political Agent during the British regime. The climate of Songadh is considered to be very healthy. It has a Gurukul which runs two high schools, one of them for girls. Besides two Ashramas Charitravijaya Ratna Ashrama and another founded by Kanji Maharaj, there are also a primary teachers' training college and a primary health centre.

33 Sultanpur—V. P. (Taluka Talaja), P. 3,270

or Sartanpur, the port of Talaja is situated 6 miles to its south-east, and near the mouth of the river Shetrunji which rises in the Gir. It is connected with Talaja by a good road. There are some *Palias* dated 1555 A. D., probably raised in memory of warriors who died in battle. In the 18th century Bhavsinhji, king of Bhavnagar, ousted the Koli pirates from this place as they were interfering with the maritime trade of Bhavnagar. The Kolis withdrew to Talaja, from where they had to fly when raided by the Bhavnagar and British forces, which landed at Sultanpur as suggested by Akherajji, the ruler of Bhavnagar. Sultanpur is mentioned as one of the ports of Sorath in Mirat-i-Ahmadi. It is now a minor port with a good anchorage for small craft in three fathoms of water, and open to coastal as well as foreign traffic. In 1961-62, its traffic of 12,136 tons was entirely coastal. The main items of imports were timber, cotton seeds, and building materials, while the exports, almost double the imports in tonnage, included onions, salt and groundnut seeds and oil.

34 Surajvadi Irrigation Scheme (Taluka Kundla)

It was completed in 1953 at a cost of Rs. 35.84 lakhs. The dam constructed on the river Surajvadi is about two miles away from village Luvara. The project has an irrigation potential of about 4,000 acres.

35 Talaja—M., P. 7,067, 21°-22' N, 72°-4' E.

It is the headquarters of the taluka, 30 miles south of Bhavnagar. It is situated on the slope of a hill having a Jain temple at the top and the river Talaji, a tributery of the Shetrunji, flowing closeby. Talaja is a station on the Bhavnagar-Talaja-Mahuva narrow gauge railway section and is connected with Bhavnagar, Mahuva and other places by bus services also. It is said to derive its name from Talav Daitya, who resided in the hill and after whom it was called Taladhwa jagiri. The goddess Tulja Bhavani destroyed this *daitya*, who was harassing the people and was locally known as Kalvo Daitya. There are a cave and a temple of Talav Daitya, in which a lamp is lighted every Saturday. It is believed that the lamp remains unaffected by wind or rain. Talaja was originally ruled by Walas, who were later dispossessed by Wajas, the last of whom was cursed by a Charan Sati. Wajas were thereafter defeated by Baria Kolis, who indulged in piracy and the British forces, in co-operation with Bhavnagar State, succeeded in defeating them in 1771. However, Akherajji, the ruler of Bhavnagar, was not willing to accept it and it was, therefore, given to the Nawab of Cambay, who found it a troublesome possession. In 1773, Wakhatsinhji of Bhavnagar purchased Talaja from the Nawab.

In the hill are Buddhist caves, which are simple and without ornamental carving. They

belong to the fourth century, and are protected monuments. One of the caves is called the school of Narsinh Mehta, the famous Vaishnav devotee, who was born at this place. The caves were used as hiding places by pirates as late as 1823. Talaja is sacred to the Jains on account of the Jain temple on the hill, which is also a monument of archaeological interest.

Talaja is a walled town with tanks of sweet water at the foot of the hill. Good building stone is found at Talaja, which also has a coconut plantation. Besides the taluka offices, it has a veterinary dispensary and a municipal high school. Sultanpur is the port of Talaja and Gopnath and Mithi Virdi are pleasant spots on the sea coast nearby.

36 Umrala—M., P. 4,255, 21°-51' N., 71°-51' E.

The headquarters of a mahal, lies on the southern bank of the river Kalubhar 17 miles north-west of Sihor. It is connected by bus services with Dhola junction railway station five miles away and with Bhavnagar, Vallabhipur, Ningala, etc.

'Umarkot', to the bards, it is believed to be named after its founder Koli Umo. Gohils expelled from Ranpur killed Umo and occupied Umrala which remained their capital till they acquired Sihor in 1547. Thus it was the first capital of the Gohil dynasty of Bhavnagar. Another belief regarding Umrala is that it is named after an *Umbro* tree (figus glomerata). The village has fertile soils and its textile dyers were once famous for their skill. Besides the mahal offices, it has a seed research farm, a maternity home and a veterinary dispensary. The town draws its water supply from Ranghola tank and electric supply from the grid system. Well-known shrines of the town and neighbourhood are the Dholnath Mahadev on the Kalubhar river, Thapnath Mahadev on Thapa hill 6 miles away and Randal Mata's temple in a step-well at village Dadva four miles away, visited by many pilgrims. The Bhadarvi Amas fair at Dholnath Mahadev on Shravan Vad *Amavasya* (August) is visited by 5,000 people.

37 Uncha Kotda—V. P. (Taluka Mahuva) P. 133.

Picturesquely situated on the sea shore 46 miles south-west of Bhavnagar, was the capital of the Wajas after they were ejected from Somnath Patan and Una. Khimoji, one of the Wajas, was a pirate well-known for his daring. One mile north of the village, at Nicha Kotda, there is a well with water supply enough for working 32 *Kos* at a time.

38 Vallabhipur—M., P. 6,908

Better known as Vala, is a mahal headquarters situated on the river Ghelo about 22 miles north-west of Bhavnagar and is connected by a 12 miles metal road with Dhola Junction station on Bhavnagar-Botad meter gauge railway line.

A flourishing city in ancient times, it was the capital of a dynasty founded by Senapati Bhattarak of the Guptas which reigned supreme in Saurashtra for three centuries, from about 480 to 790 A.D. During this period it was a centre of Buddhism, a great seat of learning and culture and a very prosperous trading centre, probably with the sea nearby and perhaps a port itself. The Chinese traveller Hiuen Tsiang who visited it in about 640 A.D., found it a flourshing opulant city, possessing more than a hundred Buddhist monastries and about a hundred families having fortunes of more than a crore of rupees. The *Vidyapeeth* or university at Vallabhipur ranked among the best in India, along with that of Nalanda. There was also a Vallabhi era propagated by the Vallabhi rulers, which dated from 318 A.D. and seems to be the same as the Gupta era adopted by them out of respect for their masters. With the downfall of Vallabhi in the eighth century, Buddhism disappeared from the region. The city was destroyed by a foreign enemy, probably some of the early Arab Mahommedans, who, however, did not stay here after the conquest. The story told about its downfall is that the invaders were invited by Rank Kaku, a wealthy Marwadi merchant, who wanted to avange the insult on the last king Shiladitya VI for taking, by force, a golden comb studded with jewels from the merchant's daughter at the instance of his own daughter. Though the invaders withdrew,

its pristine glory never returned. There is a legend that the destruction of the city was due to the curse of the sage Dhundhalimal who was enraged as no one from the city gave him alms. It is considered possible that the city might have suffered serious inundation by the sea. Later on Vallabhipur was a possession of Vala Rajputs who claimed to be Suryavanshi, and who possibly derived their clan name from Vala town itself. Valas ruled here till they were driven out about the middle of the tenth century by Mulraj Solanki of Patan who gave it to Brahmins. In about 1260 A.D. Vala was conquered by the Gohils, who were in turn compelled to surrender it to Mahommedans, when they conquered Gujarat, in about 1297 A.D. It remained under the Muslim rulers till the death of Aurangzeb in 1707 A.D., after which Bhavsinhji, the founder of Bhavnagar took it and later gave it to Visoji, the founder of Vala house. It remained as a separate princely state till its integration in Saurashtra in 1948.

There are two ancient temples, viz., Sidheshwer and Budheshwar. Old coins, copper plates, seals and articles of antiquities found from the surrounding area are preserved in the Museum attached to the municipal library established during the time of the former Vala State. Some old sculptures in the town are also of archaeological interest.

Besides the mahal and block Offices, there are two seed multiplication farms, one high school, a Government guest house and one District Local Board *Dharmashala.* The Town has piped water supply and gets electric supply from the grid system. A fair is held on Shravan Vad *Amavasya* (August) every year in honour of Sidheshwer Mahadev where about 6,000 to 9,000 people congregate.

39 Vartej—V. P. (Taluka Bhavnagar), P. 5,276

It is a railway station on Botad-Bhavnagar meter gauge section, eight miles from Sihor and five miles from Bhavnagar with which it is connected by the Rajkot-Bhavnagar section of the State Highway served by regular bus services. Situated on the Maleshvari river, it has been a flourishing village and finds a mention in Mirat-i-Ahmedi. It is well-known for a large chemical works and for the excellent pomegranates and guavas grown in the garden lands of Vartej and neighbouring villages.

40 Zanzmer—V. P. (Taluka Talaja), P. 1,211

It is on the Gulf of Cambay 3 miles from Gopnath and 12 miles south of Talaja. Jhanjharsi Wala founded it and bestowed it on the Wajas. It is mentioned in the Mirat-i-Ahmedi. The Portuguese who conquered it, built a strong fort here and also fortified the two rocks Bhenslo and Bhensli, the former of which, surrounded by water at high tide, still bears traces of the old works. There is a fine *Wav* (step-well) dating back to the time of the Wajas.

PART II

1 CENSUS TABLES

2 OFFICIAL STATISTICS

A—GENERAL POPULATION TABLES

Out of 4 tables of A Series compiled at this Census, Tables A-I, A-III and A-IV giving area, houses and population, classification of villages and towns have been reproduced in the District Handbook. They are the same as those given in 1951. The most distinguishing features, however, are the various appendices and sub-appendices giving details of (a) 1951 territorial units constituting the present set-up of the district showing changes which have taken place during the decade, (b) villages with a population of 5,000 and over and towns with a population under 5,000, (c) houseless and institutional population, (d) 1951 population adjusted to 1961 administrative units, (e) new towns added in 1961, (f) towns in 1951 declassified in 1961 and (g) towns with their area and jurisdiction.

A-I—Area, Houses and Population

This table is more elaborate than that of 1951 as it gives in addition to area, houses and population, population per sq. mile, number of inhabited and uninhabited villages and number of towns. The data is given down to taluka/mahal with break-up for Total/Rural/Urban.

Brief Account of Changes in Area of the District from 1901 to 1961

Numerous changes have taken place since Independence in the areas of the districts, though the boundaries of various units comprised therein practically remained unchanged between 1901 and 1941. Three principal stages in which these changes have come about during the Post-Independence period are: (i) those that came in the wake of Independence after 1947; (ii) those that took place on the Reorganisation of States in 1956 and (iii) those that resulted from the bifurcation of the bilingual Bombay State in 1960.

Even after reorganisation in 1956, several territorial changes were effected in 1959, the details of which have been given in sub-appendix 2 to Appendix 1 to Table A-I alongwith the relevant notifications. Broad changes that have taken place in the territorial limits of the district between 1951 and 1961 are, however, listed below:—

Bhavnagar:—This district consists of former Gohilwad district less all villages of Rajula mahal except one, Jafrabad mahal, Lilia mahal, Lathi mahal, *minus* 12 villages, 17 villages of Kundla taluka, 2 villages of Umrala mahal and 2 villages of Gadhada mahal.

Ghogho mahal, 7 villages of Damnagar mahal and 3 villages of Rajula mahal of Amreli district were also included in it.

Rural and Urban Population

During the past censuses there was no uniformity in the criteria prescribed for distinguishing urban areas from the rural. The definition of 'town', therefore, varied from State to State and the places were treated as towns if, in the opinion of the State Government or the Superintendent of Census Operations, they were found to possess urban characteristics. It included all municipalities, cantonments, civil lines and all places with more than 5,000 population which, it was decided, to treat as towns on the ground that they possessed urban characteristics. This definition of 'town' has remained substantially unchanged since 1891. To the characteristics aforementioned, Baroda State, which has merged into Bombay State in 1949 and now forms part of the newly formed Gujarat State added one more according to which all the headquarters of talukas were treated as towns. In view, however, of the increasing importance of studying urbanisation in all its varied aspects, the Registrar General, at the very outset of 1961 Census, emphasised the need for a uniform treatment by strictly defining the concept of 'town'.

Town :

'Town' has been defined as a place having a municipality or a cantonment or a place with a population of 5,000 and over if 75 per cent of its male population is dependent on non-agricultural

pursuits. These tests were applied by the Collectors who furnished lists of places to be treated as towns in 1961, which were also got approved by the State Government and the Registrar General.

As against 13 places treated as towns in 1951, 13 qualify to be treated as urban according to the test prescribed by the Census of 1961.

Village :

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distinct number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

Census House :

Owing to the diversity of local conditions it was not possible in the past to lay down a uniform definition of a 'Census House' common to all parts of the country. The definition adopted till the Census of 1941 had two-fold connotation which emphasised either (i) the structural aspect, i.e., building or house or (ii) the social aspect, i.e., family or household. The former was defined as the residence of one or more families having a separate and independent entrance from the common way. But the social aspect was emphasised by defining a 'Household' as the home of the composite family with its resident dependents and servants. From 1881-1941, the Census Superintendents adopted the one or the other definition according to their convenience. A clear distinction was, however, drawn between a 'Census House' and a 'Census Household' in 1951 which gave a uniform meaning to the term 'Census House' or the 'Census Household' or the 'Family Unit'. The 'Census House' was defined as, 'a dwelling with a separate main entrance' and the 'Census Household' as 'all persons who live together in the same house and have a common mess'.

Though the definition of a 'Census House' introduced in 1951 was continued during the Census of 1961, it differs from that adopted by the Census of 1961 in that the latter is broad-based to include non-dwellings also. The house-list is thus an inventory of all structures or part of structures with a separate entrance.

The following definitions of the term 'Census House' given in the instructions for filling the house-list will clarify the position still further.

"A 'Census House' is a structure or a part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

A-III—Villages Classified by Population

This table classifies inhabited village only by size of population. After giving the total number of inhabited villages and rural population for every taluka/mahal, it shows the number of villages and population for the following seven categories, namely:—

(1) less than 200, (2) 200-499, (3) 500-999, (4) 1,000-1,999, (5) 2,000-4,999, (6) 5,000-9,999 and (7) 10,000 and above.

Table A-III of 1951 gives combined figures of inhabited towns and villages classified by population, while A-III of 1961 gives figures of villages only classified by population.

A-IV—Towns and Town-groups classified by Population in 1961 with Variation since 1941

This table gives statistics relating to the figures of population since 1941 showing the growth of each town from census to census. Percentage variation is given from decade to decade, not only for the towns,

but also for town-groups, where one or more urban units form a compact urban area. The total population of the town-group along with that of its constituent urban units is given under the class into which the town-group has been classified. Separate figures have, likewise, been given for municipal and non-municipal areas such as port area, suburban area, military area, railway colony, cantonment, etc., where a town is a combination of two or more such units. The following are the six classes into which the towns are grouped in Table A-IV according to the size of population :

Class	Population	Class	Population
I	100,000 and above	IV	10,000 to 19,999
II	50,000 to 99,999	V	5,000 to 9,999
III	20,000 to 49,999	VI	Less than 5,000

The areas of towns in sq. miles and sq. kilometres are also given in the table for 1961.

The term 'town' as defined at the Census of 1961 and its uniform adoption all over the country on the basis of certain specified tests have been explained under 'Urban and Rural Population' in the note to Table A-I.

'Town-group'—This is a new variant of the urban population which has been introduced for the first time on the present occasion. Large cities or expanding towns bring within their orbits new satellite towns, industrial areas or settlements interspersed by small bits of rural areas. Such urban areas, not necessarily municipal, are taken to form town-groups with the main city or town as one of the constituents.

'City'—Places having population of 100,000 and over either individually or as a town-group have been classified as cities.

A-I—AREA, HOUSES AND POPULATION

District/Taluka/Mahal	Total Rural Urban	Area in Sq. Miles	Area in Sq. Km.	Population per Sq. Mile	Number of Villages Inhabited	Number of Villages Uninhabited	Number of Towns	Number of Occupied Residential Houses	Population Persons	Population Males	Population Females

NOTE:

1 Population per sq. mile under Column 4 has been worked out on the area figures given by the State Survey Department given in Column 3 (a).

2 Under Column 4, population of those urban units, for which area figures are not available, is ignored for working out urban density. Rural density is worked out on the basis of rural population only though the area figures include areas of those urban units for which separate area figures are not available.

3 The sq. kilometres under Column 3(b) and density figures of urban areas of Taluka/Mahal and District under Column 4 are worked out using the area figures corrected up to 2 places of decimals obtained by adding the areas of the towns in the respective units. In addition to this, the figures relating to sq. kms. are further adjusted to make the Taluka/Mahal and District totals agree.

APPENDIX I

1951 TERRITORIAL UNITS CONSTITUTING THE PRESENT SET-UP OF DISTRICT AND EACH TALUKA/MAHAL

(Only those names/areas which have undergone changes since 1951 have been shown below)

District/ Taluka/Mahal	1951 territorial units	Details of gain in territories			Details of loss in territories			Net area Gain(+) Loss(—)	
			Area			Area			
		Brief description	Sq. Miles	Sq. Km.	Brief description	Sq. Miles	Sq. Km.	Sq. Miles	Sq. Km.

NOTE:

*(1) Under Bombay Government Resolution, R. D., No. T.L.C-3858-C dated 19-6-1959,

(a) Entire Ghogho mahal (224.7) was transferred from Amreli district to Bhavnagar district.

(b) The following 6 villages were transferred from Damnagar mahal of Amreli district to Vallabhipur mahal of Bhavnagar district.
Navagam (2.5), Italia (0.9), Ratanpur(4.5), Mevasa (6.7), Monpur (24.4) and Shahpur (4.1).

(c) Khijadia (2.8) village of Damnagar mahal of Amreli district was transferred to Gadhada mahal of Bhavnagar district.

(d) The following 17 villages were transferred from Kundla taluka of Bhavnagar district to Dhari taluka of Amreli district.
Shilana (5.3), Jamka (5.0), Khijadia (3.0), Sanalia (3.0), Halaria (5.0), Hularia (4.0), Bhath (3.0), Gigasan (6.0), Bhayavadar (3.0), Dahida (4.0),Dhasa Gopalgram (8.5), Dholarva (4.0), Manavav(5.0),Padargadh (6.0), Moti Garamali (4.0), Charkha (8.0) and Khathivadar(3.0).

(e) Rajula mahal (292.3) *minus* Biladi village (2.5) was transferred from Bhavnagar district to Amreli district.

(f) Entire Jafrabad mahal (148.6) was transferred from Bhavnagar district to Amreli district.

(g) Entire Lilia mahal (152.1) was transferred from Bhavnagar district to Amreli district.

(h) Lathi mahal (214.8) minus 1 town viz., Chital (14.9) and the following 17 villages were transferred to Amreli district :
Monapur (6.8), Rikadia (2.5), Shedubhar (9.0), Haripura (3.1), Surajpur (0.9), Anida (2.9), Bhandaria (2.1), Chosla (2.1), Dhasa (6.7),Jalalpur (8.9), Limbala (2.2), Malpara(2.1), Mandva (7.5),Mota Umrala (3.5), Nana Umrala (4.5), Patan (4.2) and Rasnal(3.8). Out of these, 1 town, viz., Chital and the first 5 villages were transferred to Amreli taluka of Amreli district and the remaining 12 villages were transferred to Gadhada mahal of Bhavnagar district.

(2) Under Saurashtra Government, Revenue Department Notification dated 25-8-1949, the following 3 villages were transferred from Umrala mahal of Bhavnagar district to Lathi taluka of the same district :—
Bhalvav (4.6), Bhatvadar (6.3) and Vikalia (5.8).

Subsequently the village Vikalia was transferred to Gadhada mahal of Bhavnagar district under Bombay Government Resolution, R. D., No. T.L.C-3858-C dated 19-6-1959.

(3) Under Bombay Government Resolution No. T.L.C-1959-26272-C, dated 30-3-1960, the following 3 villages were transferred from Rajula mahal of Amreli district to Mahuva taluka of Bhavnagar district :
Kankot (1.0), Pipalava-mota (1.4) and Pipalava-nana (0.6).

SUB-APPENDIX 2 TO APPENDIX 1-*Contd.*

(4) Under Saurashtra Government Notification No. REV/5, dated 23-4-1951, the following 2 villages were transferred from Gadhada mahal of Bhavnagar district to Babra taluka of Amreli district.

Barvala (3.6) and Nani Kundal (3.9).

† Under Bombay Government Resolution, R. D., No. T.L.C-3858-C dated 19-6-1959, entire Ghogho mahal (224.7) was transferred from Amreli district to Bhavnagar district.

§ Under Bombay Government Resolution, R. D., No. T.L.C-3858-C, dated 19-6-1959, 6 villages as above were transferred from Damnagar mahal of Amreli district to Vallabhipur mahal of Bhavnagar district.

‡ Under Saurashtra Government Notification No. REV-5-Formation 48 dated 9-10-1953, Salaiya village (3.3) was transferred from Gadhada mahal of Bhavnagar district to Botad taluka of the same district.

**(1) Under Bombay Government Resolution, R. D. No. T.L.C-3858-C dated 19-6-1959,
(a) 12 villages as above were transferred from Lathi mahal of Bhavnagar district to Gadhada mahal of the same district.
(b) Khijadia village (2.8) was transferred from Damnagar mahal of Amreli district to Gadhada mahal of Bhavnagar district.
(c) Vikalia village (5.8) was transferred from Lathi taluka of Bhavnagar district to Gadhada mahal of the same district.

(2) Under Saurashtra Government Notification No. REV/5, dated 23-4-1951, the following 2 villages were transferred from Gadhada mahal of Bhavnagar district to Babra taluka of Rajkot district:—
Barvala (3.6) and Nani Kundal (3.9).

(3) Under Saurashtra Government Notification No. REV/5 Formation-48 dated 9-10-1953, Salaiya village (3.3) was transferred from Gadhada mahal of Bhavnagar district to Botad taluka of the same district.

×(1) Under Saurashtra Government Notification RD/For/29 dated 5-7-1951, the following 12 villages were transferred from Sihor taluka of Bhavnagar district to Palitana taluka of the same district.

Samadhiala (3.9), Nonghanvadar (6.9), Khijadia (2.8), Nesdi (1.6), Navagam (1.6), Anida (6.6), Hanol (N. A.), Badali (3.5), Kumbhan (4.1), Khakharia (0.9), Sarod Juna (2.2) and Sarod Nava (2.1).

(2) Under Saurashtra Government Notification No. REV-5/For-28, dated 17-12-1951 and subsequent amendment No. H/P-1176 dated 20-2-1952, Depla village was transferred from Kundla taluka of Bhavnagar district to Palitana taluka of the same district.

(3) Under Saurashtra Government Notification No. RD/5/For/28, dated 12-52, Ralgaon village (3.6) was transferred from Palitana taluka of Bhavnagar district to Talaja taluka of the same district.

(4) Under Saurashtra Government Resolution No. RDV-Poz/29, dated 5-7-1951, 1 town-viz., Gariadhar and the following 51 villages were transferred from Palitana taluka of Bhavnagar district to form a new Gariadhar mahal :-

Anandpur (0.3), Bela (2.6), Bhammaria (9.7), Bhandaria (1.0), Ghomal (0.7), Damrala (0.9), Facharia (0.4), Ganeshgadh (1.0), Gujarada (1.5), Jalia Panasada (1.2), Jalvadar (0.6), Khardi (1.3), Khodvadri (0.7), Luvara (1.3), Mandvi (1.8), Mangadh (0.8), Manguka (0.5), Manpur (1.0), Manvilas (0.04), Mesanka (1.2), Morba (0.5), Mota Charodia (3.3), Nani Vavdi (1.9), Navagam (3.6), Pa (0.8), Pachhegam (1.5), Paldi (0.7), Panchtobra (1.2), Pansada (0.5), Parvadi (4.2), Moti Vavdi (3.4), Nana Charodia (0.6), Pipalva (0.5), Ranigam (2.0), Ratanvav (1.3), Rupavati (1.7), Samadhiala (1.6),Sandhkhakhra (1.0), Sarambhada (0.7), Saringpur (0.8), Satapada (2.3), Shivendranagar (0.6), Sitapur (0.5), Sukhpur (0.6), Surnagar (0.6), Surnivas (1.2), Survilas (0.6), Thansa (1.5), Tima (1.3), Velavadar (1.9) and Virdi (1.0).

×× Under Saurashtra Government Notification, RD/For/29, dated 5-7-1951, 12 villages as above were transferred from Sihor taluka of Bhavnagar district to Palitana taluka of the same district.

£ Under Saurashtra Government, Revenue Department Notification, dated 25-8-1949, the following 3 villages were transferred from Umrala mahal of Bhavnagar district to Lathi taluka of the same district.

Bhalvav (4.6), Bhatvadar (6.3) and Vikalia (5.8).

Subsequently the village Vikalia was transferred to Gadhada mahal of Bhavnagar district under Bombay Government Resolution, R. D., No. T.L.C-3858-C dated 19-6-1959.

££ Under Saurashtra Government Resolution No. RDV-Poz/29, dated 5-7-1951, 1 town, viz., Gariadhar and 51 villages as above were transferred from Palitana taluka of Bhavnagar district to form a new Gariadhar mahal.

@(1) Under Saurashtra Government Notification No. REV-5/For-28, dated 17-12-1951 and subsequent amendment No. H/P/1176 dated 20-2-1952 ,Depla village was transferred from Kundla taluka of Bhavnagar district to Palitana taluka of the same district.

(2) Under Bombay Government Resolution, R. D. No. T.L.C, 3858-C, dated 19-6-1959, 17 villages as above were transferred from Kundla taluka of Bhavnagar district to Dhari taluka of Amreli district.

@@(1) Under Bombay Government Resolution, R. D., No. T.L.C, 3858-C dated 19-6-1959, Biladi village (2.5) was transferred fromRajula mahal (now in Amreli district) of Bhavnagar district to Mahuva taluka of Bhavnagar district.

(2) Under Bombay Government Resolution No. T.L.C, 1959-26272-C dated 30-3-1960, the following 3 villages were transferred from Rajula mahal of Amreli district to Mahuva taluka of Bhavnagar district.

Kankot (1.0), Pipalva-mota (1.4) and Pipalva-nana (0.6).

¶ Under Saurashtra Government Notification No. RD/5/For/28, dated -12-1952, Ralgaon village (3.6) was transferred from Palitana taluka of Bhavnagar district to Talaja taluka of the same district.

SPECIAL APPENDIX

TOWNS WITH THEIR AREA AND JURISDICTION

District	Town (area in acres)	Jurisdiction with area in acres of each unit
1	2	3
BHAVNAGAR	1 Bhavnagar (5,811-2)	Part (5,811-2) of Bhavnagar village
	2 Ghogho (2,759-0)	Part (2,759-0) of Ghogho village
	3 Vallabhipur (800-0)	Part (800-0) of Vallabhipur village
	4 Paliyad (111-33)	Part (111-33) of Paliyad village
	5 Botad (2,560-0)	Part (2,560-0) of Botad village
	6 Gadhada (1,920-0)	Part (1,920-0) of Gadhada village
	7 Palitana (3,200-0)	Part (3,200-0) of Palitana village
	8 Sihor (800-0)	Part (800-0) of Sihor village
	9 Umrala (54-0)	Part (54-0) of Umrala village
	10 Gariadhar (183-37)	Part (183-37) of Gariadhar village
	11 Savarkundla (640-0)	Part (640-0) of Savarkundla village
	12 Mahuva (8,212-1)	Mahuva village (8,212-1)
	13 Talaja (3,520-0)	Part (3,520-0) of Talaja village

B—ECONOMIC TABLES

This series is divided into two parts, viz., (i) General Economic Tables and (ii) Household Economic Tables. Economic Tables of the 1961 Census cover a very large field of data and are more elaborate than any of their predecessors. The most important point to remember about the economic tables is that during the past censuses, income or economic independence was the test applied for measuring the economy of the country. Before 1961, economic activity was interpreted in terms of categories like economically independent or economically dependent, semi-dependent, earning dependents or non-earning dependents. In 1951, the economic classification was confined to the eight livelihood classes with stress on income rather than work or economic activity of the individual. The most significant departure that the Census of 1961 has made is the emphasis laid on work, so that all people who work, including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance have also been included as workers. Even the non-workers have been distributed into eight-fold categories according to the activities pursued by them. This change in concept will help obtain a realistic picture of the economic activity of those important sections of household workers who were left out of account in the past.

The Household Economic Tables on the other hand are an entirely new feature of the 1961 Census. They are prepared from household schedules by mechanical tabulation on the basis of 20 per cent sample and give all possible data relating to the extent of land under cultivation, nature of household industry, period of work in household industry and the persons employed either as family workers or as hired labourers.

Industrial and Occupational Classification

Another noteworthy feature of the General Economic Tables is the systematic classification of industries and occupations. For, the one introduced in 1951 was, as truly pointed out by the Registrar General, neither a purely industrial nor occupational classification of the population but a combination of both. The National Classification of Industries and Occupations adopted by the Government of India and followed on the present occasion classifies the economic data into 9 divisions, 45 major groups and 343 minor groups of industries and 11 divisions, 75 groups and 331 families of occupations as against a conglomeration of 10 divisions and 88 sub-divisions of services in 1951.

The following statement gives the categories of industrial workers adopted in the current census and the eight livelihood classes of 1951.

1961 Industrial Categories	1951 Means of Livelihood
	AGRICULTURAL CLASSES
I As Cultivators	I Cultivators of land wholly or mainly owned and their dependents
II As Agricultural Labourers	II Cultivators of land wholly or mainly unowned and their dependents
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	III Cultivating Labourers and their dependents
IV At Household Industry	IV Non-cultivating owners of land, agricultural rent receivers and their dependents
V In Manufacturing other than Household Industry	NON-AGRICULTURAL CLASSES
VI In Construction	Persons (including dependents) who derive their principal means of livelihood from
VII In Trade and Commerce	V Production other than cultivation
VIII In Transport, Storage and Communications	VI Commerce
IX In Other Services	VII Transport
X Non-workers	VIII Other services and miscellaneous sources

In 1951 the non-workers who were known as non-working dependents were classified according to the occupation of the person on whom they were dependent.

The non-working population is distributed separately for the first time according to eight types of activities, viz., (i) full time students or children attending school who do no other work, (ii) housewives and persons engaged in unpaid home duties, (iii) infants and other dependents including permanently disabled or old persons, (iv) retired persons, rentiers and others who are in receipt of income without doing any work, (v) beggars, vagrants and others of unspecified source of existence, (vi) convicts in jails or inmates of penal, mental or charitable institutions, (vii) persons not employed before but seeking employment for the first time and (viii) persons employed before but now out of employment and seeking employment.

Broadly speaking, workers of 1961 can be taken to be equal to self-supporting persons *plus* earning dependents of 1951 *minus* those in receipt of income without work such as rentiers, pensioners, beggars, etc.

In respect of persons who are workers, the information is available in Q. 8 Cultivators, Q. 9 Agricultural Labourers, Q. 10 Working at Household Industry and Q. 11 Working at Non-household Industry, Profession, Trade, Business or Service. Following extracts from the Manual of Instructions to Enumerators relating to Q. 8 to 12 on the basis of which the General Economic Tables are compiled will be helpful in appreciating the contents of these tables.

Q. *8 Working as Cultivator*

A person is said to be working as cultivator if he/she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share. Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations which are shown in Q. 10 or Q. 11 as the case may be.

Q. *9 Working as Agricultural Labourer*

A person is said to be working as Agricultural labourer when he works in another person's land only as a labourer without exercising any supervision or direction in cultivation for wages in cash, kind or share of produce. Also the labourer has no right or lease or contract on land on which he works, nor he is responsible for taking decision as to which crops to sow and when or taking the risks of cultivation.

Q. 10 Household Industry

A Household industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Household industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

Q. 11 Doing work other than 8, 9 or 10

Nature of work (occupation) is the exact function that a person performs in the economic sector in which he/she is engaged. This information was to be filled in Q. 10 (a) or 11 (a) of the individual slips. The 'industry' means that sector of economic activity in which the earner is engaged, and the name of that industry was recorded according to the name of the principal article produced, serviced or repaired. Specific instructions were given to record replies to Q. 11 (a) and 11 (b) as under :—

(1) In the case of married or grown up women who do any of the work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cow dung cakes, grass, etc., in addition to the usual household duties, such duties were fully described and 'HW' written in brackets after the full description.

(2) If a person makes the articles he sells, he was treated as maker and seller of them.

(3) The vague terms like scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher, etc., were not written.

(4) For labourers accustomed to work on various jobs, 'general labourer' was mentioned.

(5) Machine Operator.

The kind of machine used with its recognised name was given.

(6) Shop-keepers, Retail Dealers, Shop Assistants.

If a person was mainly engaged in selling, 'Dealer' was written and if assisting ' Shop Assistant ' or 'Salesman' was written. 'Wholesale' and 'Retail' was stated when the business was carried on in wholesale or in retail.

(7) The nature of transport was fully mentioned like air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by bullock, camel, etc.

(8) For a person engaged in Defence services, 'service of Central Government' was written.

(9) Domestic Services

In the case of any private servant, e.g., a cook or domestic servant, 'private or domestic servant' only was written. There was no industry in their case but in cases of persons employed in hotels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., were added.

Status of economically active persons

Economically active persons were divided into 4 classes (1) Employer (2) Employee (3) Single worker and (4) Family worker.

An 'employer' is that person who hires one or more persons in his work.

An 'employee' is that person who works under others for wages or salary in cash or kind.

A 'single worker' is that person who does his work without employing others except casually and without the help of the other members of the family except casually.

A 'family worker' is that person who is doing his work in own family without wages or salary in cash or kind.

Thus one more status of economically active person, viz., family worker is added against only first three in the previous census of 1951.

Q. 12 Activity, if not working

A person who is not working has been classified as non-worker. Non-workers are distributed separately according to eight types of activities already noticed above.

(i) General Economic Tables

There are in all 24 Economic Tables compiled in B-Series—16 General Economic Tables compiled from individual enumeration slips and 8 Household Economic Tables from household schedules on 20% sample basis. Out of the 16 General Economic Tables, the District Handbook reproduces the following 12.

B-I-Workers and Non-workers classified by sex and broad age-groups

Table B-I is the basic economic table furnishing the total population and 9 industrial categories of workers and non-workers. The data is presented for the district with total/rural/urban break-up.

The classification of workers and non-workers by broad age-groups, viz., 0-14, 15-34, 35-59 and 60 and above, is the special feature of 1961 census as these age-groups correspond to the different stages of life which have a special significance as regards capacity to work, viz., children, young persons, middle aged persons and old persons.

TABLE B-III-A AND B—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

This table which corresponds to the Table D-VII of 1951 is given in two parts—A & B. Part-A relates to the urban areas and Part-B relates to rural areas. The data in Part-A are presented for the district and that in Part-B down to taluka/mahal for rural areas.

In 1951, only literate and educated persons were classified into eight educational standards by 8 livelihood classes. No classification of illiterate persons into 8 livelihood classes was given in 1951; whereas in this Table, nine categories of workers and also non-workers are given for illiterate as well as for literates.

Non-technical diplomas and degrees have this time been distinguished from technical diplomas and degrees and separate information given also for each tenchincal degree.

TABLE B-IV—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK OTHER THAN CULTIVATION

This table corresponds to table B-III of 1951. It has been presented in three parts on the basis of the principal work of the persons. Part-A-relates to persons at work in Household Industry, classified by branch of industry and class of workers (employee and others). Figures for the district are given for Divisions and Major-groups for total/rural/urban and those for taluka/mahal for Divisions and rural areas only. Part-B pertains to persons at work in non-household industry, trade, business, profession or service, classified by branch of industry and class of workers (Employer, Employee, Single worker and Family worker). Figures for the district are given for Divisions and Major groups for total/urban and those for taluka/mahal figures for Divisions and rural areas only. The descriptions of divisions and major group will be found in the Annexure to the Villagewise List of Industrial Establishments. Part-C relates to persons at work at household as well as in non-household industry classified by branch of industry. Figures for the district are given for Divisions, Major groups and Minor groups with descriptions for total/urban and those for taluka/mahal for Divisions only and rural areas only.

Table B-III of 1951 furnished figures of self-supporting persons only whereas in this table all the persons who work including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance are included as workers. In 1951, there were three classes of workers. viz., Employer, Employee and Independent workers whereas in this table, workers are classified in four categories, viz., Employer, Employee, Single worker and Family worker, the definitions of which are already given before.

Appendix to Part-C shows in run on lines Minor Groups with the number of male and female workers separately for household industry and non-household industry in brackets having less than 1% of workers of the respective Division (0.5% for Divisions 2 & 3 combined) which are omitted from the table.

TABLE B-V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

This is a new table in which cross-tabulation of industry and occupation has been made for the first time. Figure for the district are given by Divisions, Groups and Families for total/urban and for taluka/mahal by Divisions only for rural areas.

Separate data are furnished for the persons working in household industry and other industrial categories as adopted in the Primary Census Abstract alongwith the Divisions, Groups and Families

giving code numbers and actual description. The National Classification of occupation followed in this table is in conformity with international usuage.

Appendix to this table shows in run on lines, families with the number of male and female workers followed by industrial categories having less than 1% of workers of the respective Division (0.5% for Divisions 7 & 8 combined) which are omitted from the main table.

While applying quality checks, some occupations appeared to have been classified under inappropriate industrial categories vis-a-vis the occupations or the nature of work done by persons in economic sector of their activity. Such cases are listed in an annexure to the table, indicating the appropriate industrial category in which they deserve to be classified.

TABLE B-VII PART-A--PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS, (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY, (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

TABLE B-VII PART-B—INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

In this Table figures are presented for the district for Divisions and Major groups with total/rural/urban break-up and those for taluka/mahal for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the Villagewise List of Industrial Establishments.

In a similar table B-II of 1951, there was cross-tabulation of self-supporting persons and earning dependents with reference to the secondary means of livelihood which was confined to 8 livelihood classes, while this table affords cross-tabulation between principal work in cultivation and household industry or *vice versa.*

Appendix to Table B-VII-A shows in run on lines Major Groups of household industry having secondary work, which are omitted from the table being less than 5% of major groups as principal work followed in each case by the number of industrial categories and number of males and females having secondary work separately for total/rural and urban population in brackets.

TABLE B-VIII PART-A—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN URBAN AREAS ONLY

TABLE B-VIII PART-B—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, AND EDUCATIONAL LEVELS IN RURAL AREAS ONLY

This is a new table prepared for the first time in 1961. It is in two parts. Part-A relates to urban areas and is presented for district. Part-B relates to rural areas and is presented down to taluka/mahal.

The classification of unemployed persons is shown separately for (i) those who are seeking employment for the first time and (ii) for those who were employed before but are now out of employment and seeking work. The age-groups given in the first case are quinquennial, viz., 15-19, 20-24, 25-29, 30-34 and 35+ modified in the second case as 15-19, 20-24, 25-34, 35-44, 45-59 and 60+.

In Part-A relating to urban areas information for unemployed persons is furnished for all educational levels, and in Part-B for educational levels up to matriculation and above.

TABLE B-IX—PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

This is a new table introduced for the first time. The table is presented for district with total/rural/urban break-up and for taluka/mahal for rural areas only. It classifies non-working population into 8 types of activities based on the recommendation of the United Nations Organisation. They are :—

1 Full time students

2 Persons performing household duties without wages

3 Dependents, infants and disabled persons
4 Retired persons, rentiers or persons of independent means
5 Beggars, vagrants, etc.
6 Inmates of penal, mental and charitable institutions
7 persons seeking employment for the first time
8 Persons employed before, but now out of employment and seeking work

(ii) HOUSEHOLD ECONOMIC TABLES

Out of the 8 Household Economic Tables complied at this census, 4 tables which are reproduced in the District Handbook are :—

TABLE B-X—SAMPLE HOUSEHOLDS (i) ENGAGED NEITHER IN CULTIVATION NOR HOUSEHOLD INDUSTRY, (ii) ENGAGED EITHER IN CULTIVATION OR HOUSEHOLD INDUSTRY BUT NOT IN BOTH AND (iii) ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY

(Based on 20% Sample)

This table is prepared for total, rural and urban for the district and for rural areas only for taluka/mahal.

Cultivation includes ownership, tenancy cultivation and agricultural labour. Household industry has been defined in the general note above.

TABLE B-XI—SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN RURAL AND URBAN AREAS SEPARATELY

(Based on 20% Sample)

For rural areas the data has been given down to taluka/mahal while that for urban areas has been given only for the district as a whole.

This table gives very useful data on the size of holdings and affords a cross-tabulation of names of local rights over land (interest), viz., (a) owned or held from Government, (b) held from private persons or institutions, (c) partly held from Government and partly from private persons, and size of holding, viz., less than 1; 1.0-2.4; 2.5-4.9; 5.0-7.4; 7.5-9.9; 10.0-12.4; 12.5-14.9; 15.0-29.9 ; 30.0-49.9, 50+ and unspecified.

TABLE B-XII—SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION ONLY CLASSIFIED BY SIZE OF LAND CULTIVATED AND NUMBER OF FAMILY WORKERS AND HIRED WORKERS IN RURAL AND URBAN AREAS SEPARATELY

(Based on 20% Sample)

For rural areas the data has been given down to taluka/mahal and that for urban area for the district as a whole. The information for households that are engaged only in cultivation has been cross-tabulated by number of persons engaged in cultivation and each prescribed size class of holding. Working strength in cultivation is further separated into family workers and hired workers when more than 1 person is engaged in cultivation.

TABLE B-XVI—SAMPLE PRINCIPAL HOUSEHOLD INDUSTRY CLASSIFIED BY PERIOD OF WORKING AND TOTAL NUMBER OF WORKERS ENGAGED IN HOUSEHOLD INDUSTRY IN ALL AREAS

(Based on 20% Sample)

This table is presented for the district with total/rural/urban break-up. The data in respect of house holds engaged in household industry only or both in household industry and cultivation has been given separately with the Divisions and Major groups of household industry. The household industry has been classified according to the period of working, viz.,

1-3 months, 4-6 months, 7-9 months, 10 months to one year. Under each duration period number of households, number of family workers and number of hired workers have also been given.

Appendix to this table shows in run on manner Major groups of household industry which are omitted from the table being less than 10% of the respective Division, giving the number of major groups, with or without cultivation, with period of working in abbreviation and the number of households in brackets separately for total, rural and urban.

TABLE B-XVII—SAMPLE HOUSEHOLDS CLASSIFIED BY (i) NUMBER OF MALE AND FEMALE MEMBERS BY SIZE OF HOUSEHOLDS AND (ii) ENGAGEMENT (a) NEITHER IN CUATIVATION NOR IN INDUSTRY (b) IN HOUSEHOLD INDUSTRY ONLY AND (c) IN CULTIVATION SUB-CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

The table is presented down to district and gives data for total/rural/urban. It is intended to give family sizes distributed according to single member, small, medium, large and very large families. Though a 'Census Household' is not the same as a 'family' and also includes unrelated persons living with the family during the census count, the table will give a general idea of the sizes of families as the number of families having outsiders is quite insignificant.

The table gives such economic data as (i) Households engaged neither in cultivation nor household industry, (ii) Households engaged in household industry only and (iii) Households engaged in cultivation by size of holding groups with the break-up of sample households into (i) Single member, (ii) 2-3 members, (iii) 4-6 members, (iv) 7-9 members and (v) 10 members and over.

Since the table is based on 20% sample, total number of households and household population are given in the following statement :—

Total Number of Households and Household Population

District	Total Rural Urban	Total No. of households	Total household Population		
			Persons	Males	Females
1	2	3	4	5	6

TABLE B-IV PART-C

B-IV PART-C—INDUSTRIAL CLASSIFICTAION BY SEX AND DIVISIONS, MAJOR GROUPS

Branch of Industry			Total Workers		
			Total		
Division, Major group & Minor group of I. S. I. C.			Persons	Males	Females
		1	2	3	4
Minor Group	239	Manufacturing of cotton, cordage, rope and twine	240	161	79
Major Group	24	Textile-Jute	15	13	2
	25	Textile-Wool	310	152	158
	26	Textile-Silk	179	175	4
	27	Textile-Miscellaneous	5,069	4,097	972
Minor Group	272	Embroidery and making of crepe lace and fringes	297	50	247
	273	Making of textile garments including raincoats and headgear	4,369	3,858	511
Major Group	28	Manufacture of Wood and Wooden Products	4,941	4,705	236
Minor Group	280	Sawing and planing of wood	392	377	15
	281	Manufacture of wooden furniture and fixtures	786	786	..
	282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	1,230	1,210	20
	283	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	395	392	3
	288	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	512	332	180
	289	Manufacture of other wood and allied products not covered above	1,509	1,493	16
Major Group	29	Paper and Paper Products	43	30	13
	30	Printing and Publishing	443	433	10
	31	Leather and Leather Products	4,358	3,793	565
Minor Group	310	Currying, tanning and finishing of hides and skins and preparation of finished leather	2,002	1,488	514
	311	Manufacture of shoes and other leather footwear	2,129	2,080	49
Major Group	32	Rubber, Petroleum and Coal Products	363	361	2
	33	Chemicals and Chemical Products	1,484	1,094	390
Minor Group	338	Manufacture of common salt	884	523	361
Major Group	34-35	Non-metallic Mineral Products other than Petroleum and Coal	4,687	3,153	1,534
Minor Group	340	Manufacture of structural clay products such as bricks, tiles	1,519	968	551
	343	Manufacture of structural stone goods, stone dressing and stone crushing	230	153	77
	350	Manufacture of earthernware and earthen pottery	2,505	1,658	847
Major Group	36	Basic Metals and their Products except Machinery and Transport Equipment	3,751	3,685	66

TABLE B-IV PART-C

B-IV PART-C—INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR GROUPS

Branch of Industry			Total Workers		
			Total		
Division, Major group & Minor group of I. S. I. C.			Persons	Males	Females
		1	2	3	4
Minor Group	360	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, roads	980	958	22
	365	Manufacture of brass and bell metal products	563	558	5
	368	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	276	262	14
	369	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cultery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in ajor groups 36, 37, 38 and 39).	1,649	1,631	18
Major Group	37	Machinery (All kinds other than Transport) and Electrical Equipment	226	213	13
	38	Transport Equipment	918	911	7
Minor Group	380	Manufacture assembly and repairing of locomotives	263	263	..
Major Group	39	Miscellaneous Manufacturing Industries	2,116	1,971	145
Minor Group	393	Manufacture of jewellery, silverware and wares using gold and other precious metals	1,361	1,352	9
	399	Manufacture and repair work of goods not assignable to any other group	555	424	131
**Division 4 Construction*			*5,465*	*4,435*	*1,030*
Major Group	40	Construction	5,465	4,435	1,030
Minor Group	400	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical sanitary installations	3,169	2,814	355
	401	Construction and maintenance of roads, railways, bridges, tunnels	1,185	859	326
	403	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam canal, tank, tubewells, wells	1,110	761	349
**Division 5 Electricity, Gas, Water and Sanitary Services*			*674*	*653*	*21*
Major Group	50	Electricity and Gas	633	615	18
Minor Group	500	Generation and transmission of electric energy	565	547	18
	501	Distribution of electric energy	57	57	..
	502	Manufacture of gas in gas works and distribution to domestic and industrial consumers	11	11	..
Major Group	51	Water Supply and Sanitary Services	41	38	3
Minor Group	510	Collection, purification and distribution of water to domestic and industrial consumers	35	33	2

APPENDIX

Families having less than 1% of the workers of the respective divisions (less than 0.5% in case of Division 7-8) only have been shown in this appendix. The following abbreviations have been used :—

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities

IV At Household Industry

V In Manufacturing other than Household Industry

VI In Construction

VII In Trade and Commerce

VIII In Transport, Storage and Communications

IX In Other Services

M=Males

F=Females

APPENDIX

Major groups of household industry where persons having secondary work as cultivation or agricultural labour, are less than 5% of the persons having the major group as principal work, have been shown in this appendix. The following abbreviations have been used :—

I—As Cultivator
II—As Agricultural Labourer
M=Males
F=Females

03 Total II (M1, F1), Rural II (M1, F1); 22 Total I (M20) II (M7, F1), Rural I (M20) II (M7, F1); 25 Total I (M1) II (M6, F1), Rural I (M1) II (M6, F1); 27 Total I (M57, F13) II (M11, F17), Rural I (M56, F13) II (M11, F17), Urban I (M1); 36 Total I (M44) II (M1), Rural I (M41) II (M1), Urban I (M3); 39 Total I (M11, F1) II (M1, F1), Rural I (M11, F1) II (M1, F1).

APPENDIX

Major groups of Household Industry which are less than 10 per cent of the respective divisions have not been shown in the main table which shows such divisions by an asterisk. Major groups thus dropped from the main table are given run on in this Appendix. The figure preceding the bracket represents the code number of the major group dropped from the Table. Alphabets given in brackets are abbreviations meant for different ranges of period of working in the Household Industries 'with' or 'without' cultivation as explained below. The numerical figure given after alphabet denotes the number of households in that particular range indicated by that alphabet.

Abbreviation			Class Range of Period of Working	Abbreviation			Class Range of Period of Working
A	means	with cultivation	1 to 3 months	E	means	without cultivation	1 to 3 months
B	,,	,,	4 to 6 ,,	F	,,	,,	4 to 6 ,,
C	,,	,,	7 to 9 ,,	G	,,	,,	7 to 9 ,,
D	,,	,,	10 months to 1 year	H	,,	,,	10 months to 1 year
X	,,	,,	Unspecified months	Y	,,	,,	Unspecified months

For example=District Bhavnagar Rural 20 (B-6, C-1, E-1, X-1, Y-4)

Figure 20 stands for major group 20 relating to "foodstuffs", B-6 means that there are 6 Households working in the class range of '4 to 6 months' in the Household Industry with cultivatin. C-1 means that there is 1 household working in the class range of '7 to 9 months' in the household industry with cultivation and E-1 means there is 1 household working in the class range of '1 to 3 months' in the Household Industry without cultivation; X-1 means that there is one household working for "unspecified months" in the Household Industry with cultivation and Y-4 means that there are 4 households working for "unspecified months" in the Household Industry without cultivation in the 'foodstuffs' industry in the rural areas of Bhavnagar District.

C-SOCIAL AND CULTURAL TABLES

This series contains 8 tables of which Table C-I has been prepared from Household Schedules, on the basis of 20 per cent sample. It gives information about composition of sample households according to marital status. All the other tables in this series are based on full count and give age, sex and education, separately for rural and urban areas, single year age returns, mother tongue in alphabetical order, religion and classification by literacy and industrial category of workers and non-workers among Scheduled Castes and Scheduled Tribes. All the tables of this series except Table C-VI have been reproduced in the District Census Handbook.

TABLE C-I—COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

The table is prepared from Part II Census Population Record of the Household Schedules for total, rural and urban areas of the district. A household means the entire groups of persons who commonly live together in the same census house and usually take their meals from a common mess. It thus includes outsiders residing with the family during enumeration. This table, therefore, gives the composition of a household by family and non-family member. Besides, the heads of the households and their spouses, other family members like married sons and other relations are given separately by sex and marital status.

TABLE C-II—AGE AND MARITAL STATUS

This table is presented for the district with rural/urban break-up while those for taluka/mahal for rural areas only. It corresponds to Table C-III of 1951 which was prepared on a 10% sample of the slips taken out at the time of initial stage of sorting, while this table is prepared on full count according to the quinquennial age groups recommended by the United Nations Organisation. In Table C-III of 1951 there were 3 categories of marital status, viz., unmarried, married and Divorced/Separated, whereas in this table are given five categories of marital status, viz., (1) never married, (2) married, (3) widowed, (4) divorced/separated and (5) unspecified. In 1951, the information regarding widowed or divorced was given jointly, whereas these two types of marital status are compiled separately this time.

Columns 14 and 15 relating to unspecified status have been deleted from the table. Such persons are 5 males and 5 females returned from rural areas.

TABLE C-III—AGE, SEX AND EDUCATION

It corresponds to Table C-IV of 1951 which was prepared on 10% sample. This table is prepared on full count this time and is presented in two parts—A and B for the district. In part-A broad educational levels up to matriculation and above are given for all areas. In Part-B educational levels are given in details with technical and non-technical diplomas, university degrees and technical degrees in urban areas only. In 1951, only sum total of all literate and illiterate persons was given, whereas in 1961, educational levels for literate persons are given in details.

TABLE C-IV—SINGLE YEAR AGE RETURNS

The Table is presented for the district with total/rural/urban break-up.

It corresponds to Table C-V of 1951 Census which was prepared on 10% sample. This table has been prepared on full count in 1961. The age in years completed on 1st March, 1961 has been given but the infants who did not complete one year on 1-3-1961 have been shown under the age group " O ".

TABLE C-V—MOTHER TONGUE

This table corresponds to Table D-I-(i) of 1951 in which languages and dialects as returned were shown in the descending order of number of speakers. This time all the languages as actually returned are arranged in the alphabetical order with population, persons, males, females, for total, rural and urban areas for the district and for rural areas for taluka/mahal.

'Mother tongue' is the language spoken in childhood by the person's mother to the person or the language spoken in the household.

TABLE C-VII—RELIGION

It is prepared separately for total, rural and urban areas of the district and for rural areas of talukas and mahals. This table corresponds to Table D-II of 1951, in which the figures of religions other than the eight main religions were grouped in the residuary category 'other religions', whereas in this table data are given for six main religions only, viz., Budhist, Christian, Hindu, Jain, Muslim, and Sikh and persons returned as professing other religions, sects and beliefs which could not be classfied under any of the religions have been grouped under "Other Religions and Persuasions".

TABLE C-VIII—SCHEDULED CASTES AND SCHEDULED TRIBES

PART A—CLASSIFICATION BY LITERACY AND INDUSTRIAL CATEGORY OF WORKERS AND NON-WORKERS AMONG SCHEDULED CASTES

PART B—CLASSIFICATION BY LITERACY AND INDUSTRIAL CATEGORY OF WORKERS AND NON-WORKERS AMONG SCHEDULED TRIBES

The table is presented for the district with total/rural/urban break-up and for taluka/mahal for rural areas only.

In this table total population of Scheduled Castes/Scheduled Tribes and their distribution by nine industrial categories of workers and also non-workers adopted in the Primary Census Abstract are shown by literate and illiterate.

Part A relates to Scheduled Castes and Part B to Scheduled Tribes.

E—HOUSING TABLES

The present Housing Census is the first of its kind in the history of the Indian Census organized on a uniform basis throughout the country alongwith the population Census of 1961. In the past Censuses, house-listing was purely an administrative arrangement. Only residential houses were numbered and listed with the name of the head of the household. However, during 1961 Census a comprehensive house-list for collecting detailed information regarding each census house and industrial establishment formed part of the statutory census schedules. The house-list form brought into use during the current Census has recorded data on housing such as type of houses, tenure status, material of wall and roof, number of rooms in a census household and of persons residing therein as well as essential data relating to establishments, workshops and factories, such as name of the establishment or proprietor, name of products, number of persons working and the kind of fuel or power, if machinery is used.

The following five housing tables have been compiled from the house-lists :—

E–I—Census House and the uses to which they are put

E–II—Tenure Status of Sample Census households living in Census houses used wholly or partly as dwelling

E–III—Census houses used as factories and workshops classified by industry, power and no power used and size of employment

E–IV—Distribution of Sample households living in Census houses used wholly or partly as dwelling by predominant material of wall and predominant material of roof

E–V—Sample households classified by number of members and by number of rooms occupied

Out of the five tables stated above, Tables E–I and E–III have been prepared on full count and Tables E-II, IV and V on the basis of 20 per cent sampled households. For the purposes of drawing the sample, the house-lists were arranged separately in the order of location code numbers in case of (i) rural areas of a taluka/mahal and (ii) urban areas other than towns with population of 50,000 and over for a district, and (iii) for every town with a population of 50,000 and over. The samples were marked continuously for all the house-lists thus arranged and the households left over at the end of the house-list after marking the last sample were carried over to the next house-list for sample selection.

Tables E–I, E–II, E–IV and E–V are given in the District Census Handbook for the district, taluka and towns with a population of 50,000 and over. But the data regarding number of establishments contained in Table E-III are separately compiled down to village and given in the Villagewise List of Industrial Establishments.

The explanatory note on each of the tables is given below :—

TABLE E–I—CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

Table E–I prepared on full count gives figures of census houses separately for total, rural and urban areas of the district, talukas, cities and towns with population of 50,000 and over, classified into different categories according to the uses to which they are put. Those found vacant at the time of house-listing have also been shown separately as such. The following are the various types of houses into which occupied houses have been classified :—

Dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, hotels, hostels, sarais, dharamshalas, tourist homes and inspection houses, shops excluding eating houses, business houses and offices, factories registered under the Factories Act and worksheds and workshops not so registered, schools and other educational institutions including training classes, coaching and shop classes, restaurants, sweetmeat shops and eating places, places of entertainment and community gathering

(Panchayat Ghar), public health and medical institutions, hospitals, health centres, doctor's clinics, dispensaries, etc.

Others

Occupied census houses which do not fall in any of the above categories have been classed as 'Others.

With a view to understand the significance of statistics incorporated in E Series of Tables, the concepts and definitions of the terms occuring in the table are given below :—

Census house

"A Census house is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance".

Census household

"A household is a group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevented them from doing so."

Shop

" A shop is a place where articles are sold for cash or for credit."

Workshop

" A workshop is a place where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold, and is not a factory registered under the Factories Act."

Following are some of the instances :—

Paper-making, shoe-making, tailoring, cycle-repairing, motor-servicing, halwai's shop, pottery-making, goldsmith, blacksmith, etc.

Factory

" A factory is a large workshop which has been registered under the Indian Factories Act."

Business houses

Business houses are those premises where transactions in money or other articles are taking place. Detailed explanation of all these will be found in the Introductory Chapter of the Report on Housing and Establishments.

TABLE E-II—TENURE STATUS OF SAMPLE CENSUS HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING

This table has been prepared on the basis of 20 per cent sample. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, and dwellings with other uses have been taken into account for the purpose of marking the samples. Shop-*cum*-dwellings and workshop-*cum*-dwellings are census houses which are partly used for residential or dwelling purposes and partly used as a shop or workshop. The total number of households given in column 4 of this table gives the total of such samples classified into the aforementioned four categories of dwellings, which have been further classfied according to their tenure status, whether owned or rented, for the district, talukas and towns with population of 50,000 or more as also for total/rural/urban.

TABLE E-IV—DISTRIBUTION OF SAMPLE HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING BY PREDOMINANT MATERIAL OF WALL AND PREDOMINANT MATERIAL OF ROOF

This table has been prepared on 20 per cent sample basis. Census Households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the sample. The total number of houses given in column 3 of this table gives the totals of all such sampled households. The material out of which most of the walls are made or where a house consists of separate structures, each of different materials, the material out of which the walls of the main bedrooms are made has been entered. The wall material has been classified into the following nine categories :—

(1) Grass, leaves, reeds or bamboo
(2) Timber
(3) Mud
(4) Unburnt bricks
(5) Burnt bricks
(6) C. I. Sheets or other metal sheets
(7) Stone
(8) Cement concrete
(9) All other material

The material out of which most of the outer roof exposed to the weather and not the ceiling is made, i. e., tiles, thatch, corrugated iron, zinc or asbestos cement sheets or concrete, etc., or in the case of multi storeyed building, the material out of which the intermediate floor or floors have been made, have been entered and classified into the following seven categories :—

(1) Grass, leaves, reeds, thatch, wood or bamboo
(2) Tiles, slate, shingle
(3) Corrugated iron, zinc or other metal sheets
(4) Asbestos cement sheets
(5) Brick and lime
(6) Concrete and stone slabs
(7) All other material

This table has been prepared for the district, talukas and cities and towns with population of 50,000 or more, as also for total/rural/urban.

TABLE E-V—SAMPLE HOUSEHOLDS CLASSIFIED BY NUMBER OF MEMBERS AND BY NUMBER OF ROOMS OCCUPIED

This table has been prepared on 20 per cent sample basis. Census Households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the samples. The figures given in column 3 of this table are the totals of all such sampled households. The sex break-up of the total number of members occupying such sampled households as also the total number of rooms in these households are shown separately. All the sampled households have been further classified into the following six categories :—

Households with

(i) no regular room
(ii) one room
(iii) two rooms
(iv) three rooms
(v) four rooms
(vi) five rooms or more

The classification of households into the above categories gives not only the number of households in each category, but also the number of occupants by sex. The units for which this table has been compiled are district, talukas and cities and towns with population of 50,000 or more, as also total/rural/urban.

SCT—SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

No special tables were prepared for Scheduled Castes and Scheduled Tribes in 1951. The only information that Table D-III of 1951 furnished was the aggregate strength of Scheduled Castes and Tribes for the district and certain arbitrary groups of talukas. In view, however, of the special safeguards provided for these classes under the Constitution, it was felt that a more detailed tabulation of the census data will furnish the basis necessary for the evaluation of the results of the various schemes implemented by the State under the Five Year Plans as also for the formulation of new ones. Special tables for Scheduled Castes and Scheduled Tribes have, therefore, been devised and presented in a separate series called SCT/SC/ST series.

The table reproduced from this series is SCT-I-Parts A & B, giving industrial classification of persons at work and non-workers by sex for Scheduled Castes and Scheduled Tribes. Total figures of Scheduled Castes and Scheduled Tribes have also been given for each village in the Village Directory.

Total population of Scheduled Castes and Scheduled Tribes for taluka/mahal with total/rural/urban break-up is given in Statements A and B.

SCT-I PART-A—INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES

Sl. No.	Name of Scheduled Caste	Total			Total Workers		WORKERS I As Cultivator		II As Agricultural labourer		III In Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting, Plantations, Orchards and Allied activities		IV At Household Industry		V In Manufacturing other than household Industry

VILLAGE-WISE LIST OF INDUSTRIAL ESTABLISHMENTS

This table gives important information about the total number of industrial establishments arranged in ascending order of minor groups of industries. It is compiled from the house-lists and presented in run on manner. Under the name of the district are arranged minor groups of industries showing total number of industrial establishments within brackets next to each minor group separately for total, rural and urban. The figures for taluka/mahal are likewise arranged separately for total/rural/urban. Then follows a list of villages in the order of the location code number given in the Village Directory, showing against each village minor group or groups of industries found in the village with the number of establishments shown within brackets against each minor group. Figures for towns are also shown separately in the same manner.

Industrial establishments have been classified according to the minor groups of industries given in the Standard Industrial Classification adopted by the Government of India reproduced in the Annexure. This will enable the reader to identify the industry to which a particular minor group relates.

INDUSTRIAL ESTABLISHMENTS

ANNEXURE

Standard Industrial Classification

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 0—Agriculture, livestock, forestry, fishing and hunting	
04	*Livestock and Hunting*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	Division 2 & 3 Manufacturing	
20	*Foodstuffs*	
	Production of rice, atta, flour, etc., by milling dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugar cane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	*Tobacco Products*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	*Textile-Cotton*	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile-Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	*Textile-Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile—Silk*	
	Spinning and weaving of silk textile in mill	260
	Dying and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	*Textile—Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garmets	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garmets including raincoats and headgear	273

ANNEXURE—*contd.*

Standard Industrial Classification-*contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
Division 2 & 3 Manufacturing—contd,		
27 Textile—Miscellaneaus—contd.		
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28 *Manufacture of Wood and Wooden Products*		
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys, artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29 *Paper and Paper Products*		
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade.	291
	Manufacture of products, such as paper bags, boxes, cards,envelops and moulded pulp goods from paper, paper board and pulp	292
30 *Printing and Publishing*		
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303

Major Group (Code)	Description	Minor Group (Code)
1	2	3
Division 2 & 3 Manufacturing—contd.		
31 *Leather and Leather Products*		
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwere	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur.	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32 *Rubber, Petroleum and Coal Products*		
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural of synthetic rubber including rubber raincoat	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33 *Chemicals and Chemical Products*		
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34 *Non-metallic Mineral Products other than Petroleum and Coal*		
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342

ANNEXTURE-*concld.*

Standard Industrial Classification

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2 & 3 Manufacturing—contd.	
34	*Non-metallic Mineral Products other than Petroleum and Cool*—contd.	
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminimum) such as tin can	367
	Er plating (including and welding of metal products	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	369

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2 & 3 Manufacturing—concld.	
37	*Machinery (All kinds other than Transport) and Electrical equipment*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	*Transport Equipment*	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand-drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clock.	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery artiles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399

LIST OF RURAL CRAFTS AND NUMBER OF PERSONS EMPLOYED IN PRODUCTION

The handicraft table is a new feature introduced in the District Census Handbook, in 1961 Census.

A detailed handicraft survey has been undertaken as a part of the censal programme. In States like Gujarat where the survey was conducted for selected crafts in selected centres, and not in each and every village, this handicraft table was to be compiled from the house-lists or the village notes. Accordingly, the information for this table was extracted from the house-lists adopting a 4 digit code for household industries circulated by Registrar General, India. The definition of household industry presented a problem, which was solved by including, on an adhoc basis, household industries having less than 5 workers for this purpose.

The table shows the number of villages/towns in which particular crafts are practised and number of persons engaged therein. The data are compiled separately for the rural and urban areas of each taluka/mahal, for each city or town in the district and consolidated for rural and urban areas of the district. Where there is only one city/town in a taluka/mahal, the data for the urban areas are given for the city/town as they are same for taluka/mahal.

URBAN

LIST OF RURAL CRAFTS AND NUMBER OF PERSONS EMPLOYED IN PRODUCTION

Major/Minor Group Industrial Code No.	Name of Craft	No. of Towns	No. of persons employed in production
1	2	3	4
	BHAVNAGAR DISTRICT*		
Major Gr. 20	*Foodstuffs*		*659*
Minor Gr. 200.1	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc.	13	234
205	Production of bread, biscuit, cake and other bakery production	1	2
207	Oil pressing ghani, kolhu or by small machines	11	152
209.2	Making of sweet-meats, laddu, peda, barphi, batasa, etc.	8	187
209.6	Making of dalmot, chanachur (jor) garam rewari, etc.	6	84
Major Gr. 21	*Beverages*		*27*
Minor Gr. 214.2	Production of aerated water such as sodawater, lemonade, etc.	1	17
215	Production of ice.	3	10
Major Gr. 22	*Tobacco products*		*115*
Minor Gr. 220	Manufacture of bidi	6	92
223	Manufacture of hookah tobacco	1	17
226	Manufacture of other tobacco products, n.e.c.	1	6
Major Gr. 23	*Textile-Cotton*		*262*
Minor Gr. 230	Cotton ginning, cleanig carding, pressing and baling	4	29
233.1	Dyeing of cloth (cotton) and yarn	1	3
234	Cotton cloth weaving in powerlooms	1	2
235	Cotton cloth weaving in handlooms	4	161
236	Manufacture of khadi textile in handlooms	1	34
237	Printing of cloth (cotton)	1	2
239.2	Making of thread, rope, cordage and twine (cotton)	4	31
Major Gr. 24	*Textile-jute*		*1*
Minor Gr. 244.6	Making of other products from jute and similar fibres such as hemp, mesta	1	1
Major Gr. 25	*Textile-Wool*		*142*
Minor Gr. 255	Weaving of woollen cloth in handloom such as blankets, rugs, pashmina, thulma, gudma, etc.	1	142
	BHAVNAGAR DISTRICT-*contd.*		
Major Gr. 27	*Textile-Miscellaneous*		*408*
Minor Gr. 273.1	Making of cap, hat, and other head-gears	2	4
273.3	Chrochet work (bora caps)	1	2
273.4	Making of textile garment including rain-coats and head-gears, n.e.c.	10	402
Major Gr. 28	*Manufacture of Wood and Wooden Products*		*256*
Minor Gr. 280	Sawing, plaining and milling of wood	5	28
281	Manufacture of wooden furniture and fixtures	8	45
284.8	Manufacture of photo frames and framing of photo paintings, etc.	1	1
289.3	Making of Cartwheels	1	19
289.4	Manufacture of other wood and allied products, n.e.c.	10	163
Major Gr. 29	*Paper and Paper Products*		*4*
Minor Gr. 291	Manufacture of pulp and paper by hand	1	4
Major Gr. 30	*Printing and Publishing*		*37*
Minor Gr. 302.1	Printing works, printing of handbills, invitation cards, etc.	4	37
Major Gr. 31	*Leather and Leather Products*		*267*
Minor Gr. 310.2	Currying tanning and finishing of hides and skins, preparation of finished leather	2	39
311.1	Making of leather boots, shoes or chappals (slippers, sandals)	10	225
314	Repair of shoes, chappals and other leather footwear	1	1
315	Repair of all other leather products except footwear	1	2
Major Gr. 32	*Rubber, Petroleum and Coal Products*		*13*
Minor Gr. 320	Vulcanising tyres and tubes	3	8
321	Manufacture of chappals from torn tyres and other rubber footwear	1	5
Major Gr. 33	*Chemicals and Chemical Products*		*56*
Minor Gr. 335.2	Manufacture of Agarbatti	1	4
336.1	Manufacture of soap and washing soda	6	48

* The total number of towns/cities in the district is 13.

OFFICIAL STATISTICS

LIST OF TABLES ON OFFICIAL STATISTICS

		Pages
1	RAINFALL AND TEMPERATURE :	
	1.1 Maximum and Minimum Temperature 1951-1960 at Headquarters Station, Bhavnagar	196-197
	1.2 Monthly Rainfall 1952-1956 and 1958-1960 at Headquarters Station, Bhavnagar	197
2	VITAL STATISTICS:	
	2.1 Birth and Death Rate based on Mid-year Population Estimates.	198
	2.2 Deaths from selected Causes, 1960	199
3	AGRICULTURE :	
	3.1 Land Utilization, 1956-57 and 1960-61	199
	3.2 Area and Outturn of Principal Crops, 1952-53, 1953-54 1956-57 and 1960-61	200
	3.3 Irrigation Potential and Utilization	201
	3.4 Area irrigated by Sources, 1952-53 1956-57 and 1960-61	202
	3.5 Area irrigated by Crops, 1952-53, 1956-57 and 1960-61	202
	3.6 Progress under Agricultural Extension in Various Development Blocks up to 31-3-1961	203
4	LIVESTOCK:	
	4.1 Livestock and Agricultural Implements 1951, 1956 and 1961	204
5	CO-OPERATION :	
	5.1 Number, Membership and Financial Position of Co-operative Banks and Societies, 1960-61	205
6	FISHERIES:	
	6.1 Fishing Centres, Landing Places and number of fishing boats according to size as on 31-3-1961	205
7	REGISTERED FACTORIES:	
	7.1 Number and Type of Registered Factories showing Average Employment 1961	206
8	ELECTRICITY:	
	8.1 Installed Capacity of Electricity, 1950-51, 1955-56 and 1960-61	206
	8.2 Consumption of Electricity according to purpose, 1950-51, 1955-56 and 1960-61	206
9	MEDICAL AND PUBLIC HEALTH :	
	9.3 Public Health Activities, 1960-61	207
10	EDUCATION:	
	10.1 Schools, Scholars and Teachers in Primary Schools in Rural Areas of Bhavnagar District, 1960-61	207
	10.2 Literacy and Education in Rural Areas of Bhavnagar District, 1960-61	208
	10.3 Number and Type of Educational Institutions, Number of Pupils and Teachers, 1950-51, 1955-56 and 1960-61	208
	10.4 Directory of High Schools and Colleges as on 31-3-1961	209
11	ADMINISTRATION :	
	(a) Police and Crimes :	
	11.1 Strength of Police, 1960-61	209
	11.2 Proportion of Area, Population and Cognizable Offences per Police, 1960-61	210
	11.3 Criminal Justice, Offences reported, Persons tried, convicted or acquitted for Seleted Offences, 1960-61	210
	(b) Jails :	
	11.4 Jails, 1951, 1956 and 1961	210
	(c) Registration:	
	11.5 Instruments registered and Value of Property transferred, 1951, 1956 and 1961	211-212
12	PLACES OF PUBLIC ENTERTAINMENT, PRESSES ; AND JOURNALS :	
	12.1 Newspapers published in Different Languages, 1950-51, 1955-56 and 1960-61	213
	12.2 Printing Presses, 1961	213
	12.3 Cinema Theatres, 1960-61	213
13	TRANSPORT AND COMMUNICATIONS :	
	13.1 Railway Mileages and Names of Railway Stations, 1960-61	214
	13.2 Road Mileages by Type of Surface and Category of Road, 1950-51, 1955-56 and 1960-61	214
	13.3 Tonnage of import and export cargo handled at different ports, 1950-51, 1955-56 and 1960-61	215
14	LOCAL BODIES:	
	14.1 Income and Expenditure of Municipalities, 1960-61	216
	14.2 Income and Expenditure of District Local Board, 1960-61	217
	14.3 Income and Expenditure of Panchayats, 1950-51, 1955-56 and 1960-61	217
15	COMMUNITY DEVELOPMENT :	
	15.1 Progress and Achievements of Community Development/National Extension Schemes Blocks up to year ending 31-3-1961	218
16	PRICES:	
	16.1 Average Retail Prices of Staple Foodstuff, 1961	219
17	JOINT STOCK COMPANIES; BANKS, INSURANCE AND SMALL SAVINGS :	
	(a) Joint Stock Companies :	
	17.1 Joint Stock Companies, 1960-61	219
	(b) Banking :	
	17.2 Scheduled and Non-scheduled Banks, 1950, 1955 and 1960	219
	17.3 Number and Type of Co-operative Banks, 1950-51, 1955-56 and 1960-61	220
	(c) Insuranee :	
	17.4 Life Insurance Policies issued and sum insured, 1957 to 1960	220
	(d) Small Savings :	
	17.5 Target and Net Collection of Small Savings, 1960-61	220
18	CALENDAR OF IMPORTANT EVENTS, FAIRS AND FESTIVALS AND ANCIENT MONUMENTS:	
	18.1 Calendar of Important Events	220
	18.2 Fairs and Festivals	221-223
	18.3 Ancient Monuments	223

OFFICIAL STATISTICS

Departmental statistics collected from various sources, viz., Administrative Departments, State and Central, Reserve Bank of India, Life Insurance Corporation, Gujarat Electricity Board, etc., have been included in the District Census Handbook for the first time, and distributed under 18 different sections listed below:—

1 Rainfall & Temperature
2 Vital Statistics
3 Agriculture
4 Livestock
5 Co-operation
6 Fisheries
7 Factories
8 Electricity
9 Medical & Public Health
10 Education
11 Administration
12 Public Entertainment and Presses and Journals
13 Transport and Communications
14 Local Bodies
15 Community Development
16 Prices
17 Joint Stock Companies, Insurance, Banks and Co-operative Societies
18 Important Events, Fairs and Festivals and Ancient Monuments

Uniform table numbers have been adopted in all the Handbooks. Wherever a particular table is not applicable to or could not be compiled for want of requisite information for any district, there will be a break in the sequence, owing to the omission of such a table from the Handbook.

To facilitate further reference, the source of the table as well as explanatory notes as to the units to which they refer and other particulars have been given at the foot of the table.

Abbreviations used are : N.A.=Not available; .. =Nil

Note :

(a) U=Urban; R=Rural

(b) Number of births per 1,000 of the total mid-year estimated population is calculated on the population of the district as then constituted.

(c) Number of deaths per 1,000 of the same sex is calculated on the mid-year estimated population of the district as then constituted.

(d) The information regarding number of births and deaths for the years 1951-1960 is furnished for the district as then constituted and the population for the years 1951 to 1960 has been estimated on the basis of average during the decade 1951-1960.

(e) Birth and death rates for the decade 1951-1960 are average birth and death rates.

Note :

1 In case of Hindu months column 4 shows the corresponding months according to Gregorian calendar also. Hindu months are mentioned according to Vikram Era.

2 In the Hindu calendar followed in Gujarat, months end with Amavasya, i. e., New moon and not Purnima, i. e., Full moon day.

3 ms. = Miles.

PART III

VILLAGE DIRECTORY

VILLAGE DIRECTORY

The Village Directory of 1961 Census is the same as the Primary Census Abstract given in the District Census Handbook of 1951 with the following additions and alterations :—

1. Information regarding Scheduled Castes and Scheduled Tribes which was given in 1951 by tracts of two to three talukas in a district has been given with sex break-up for each village.

2. The 8 livelihood classes of 1951 have been replaced by workers classified into the following nine industrial categories and also non-workers :—

I	Cultivator
II	Agricultural Labourer
III	Mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities
IV	Household Industry
V	Manufacturing other than Household Industry
VI	Construction
VII	Trade and Commerce
VIII	Transport, Storage and Communications
IX	Other Services and
X	Non-workers

3. Information on selected essential topics or amenities available in a village is also included.

Thus the Village Directory furnishes information on area in acres & gunthas, occupied houses, households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated and primary economic activity classified into above nine industrial categories and non-workers. This information is furnished for each village/ward of a town and also for each enumerator's block in a town, consisting of about 120 houses.

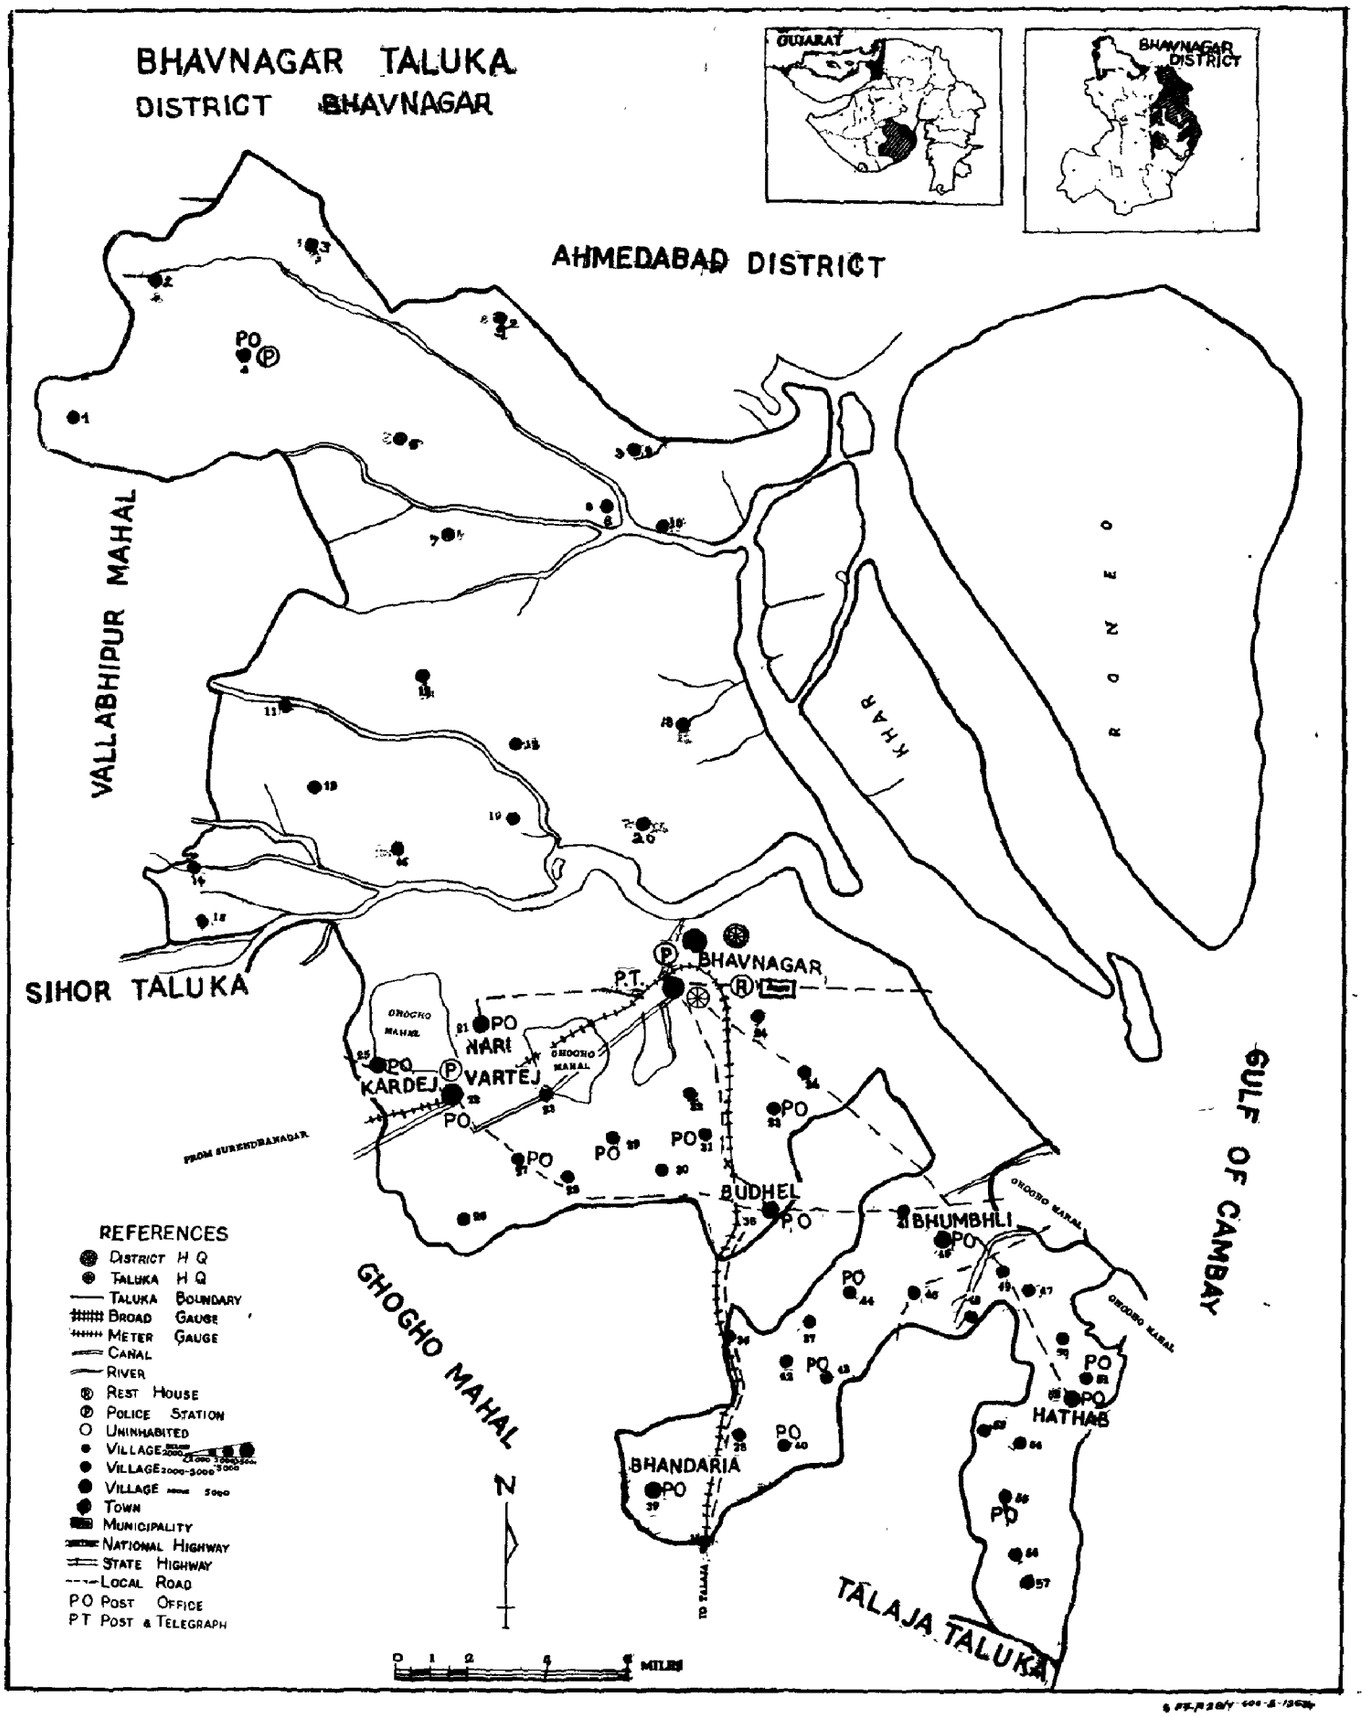

Like the Primary Census Abstract of 1951, the Village Directory gives area figures in Column 3 in acres as furnished by the Survey Department. While the figures of the number of houses and households given in Columns 4 and 5 have been compiled from the Household Schedules filled up for each household, information in Columns 6 to 36 has been compiled from the individual enumeration slips filled up during the course of census count. Information in Column 2 regarding Educational Institutions, Medical and Public Health facilities, Drinking Water facilities, Post & Telegraph Offices and Telephone facilities, and Rural Electricity has been collected from (*a*) the village notes specially devised for the purpose and filled in by Village Level Workers, Talaties and Panchayat Secretaries, and (*b*) the information supplied by the heads of the Departments concerned. The following abbreviations used in Column 2 signify the items shown against each :—

P	for	Primary School	S	for	Safe or Protected Water Supply including pipes, tube wells, etc.
M	for	Middle School			
H	for	High School	W	for	Well
C	for	Higher Institutions including Colleges	Riv	for	River
T	for	Technical Institutions	Tk	for	Tank
D	for	Dispensaries	Po	for	Post Office
Rhc	for	Rural Health Centre	To	for	Telegraph Office
Hos	for	Hospital	Tph	for	Telephone
Mp	for	Medical Practitioner	Ei	for	Electricity in Industrial use
Mcw	for	Maternity and Child Welfare Centre	Ea	for	Electricity in Agricultural use
			Ed	for	Electricity in Domestic use

The essential topics listed above have been presented run on against each village along with their number, where the amenities that exist are more than one. In other columns A=Acres, G=Gunthas, P=Persons, M=Males and F=Females.

In addition to a map for the district, taluka/mahal maps showing certain important information have also been prepared and placed at the commencement of the Village Directory for every taluka/mahal. In the taluka/mahal maps villages have been shown by their location code numbers assigned to them at the time of census operations and indicated against each village in the Alphabetical List of Villages given in the Handbook. Villages having population of 2,000 and above have been indicated by name. In the district maps Villages having 5,000 and more persons have been shown by names. Key maps given in the district and taluka maps show the positions of the district and taluka in hatches and black respectively.
