ALPHABETICAL LIST OF VILLAGES xiii–xx

PART I

(i) **Introductory Essay** 1–33

(1) Location and Physical Features, (2) Administrative Set-up, (3) Local Self Government, (4) Population, (5) Housing, (6) Agriculture, (7) Livestock, (8) Irrigation, (9) Co-operation, (10) Economic Activity, (11) Industries and Power, (12) Transport and Communications, (13) Medical and Public Health, (14) Labour and Social Welfare, (15) Price Trends, (16) Community Development, (17) Five Year Plans, (18) Important Place Names

(ii) **Gazetteer of Place Names** 34–43

PART II

(i) **Census Tables**

A-GENERAL POPULATION TABLES

Note 3–5

Table A-I — Area, Houses and Population 6

Appendix I — 1951 Territorial units constituting the present set-up of district and each taluka/mahal . 7

Sub-Appendix I to Appendix I — Area for 1951 and 1961 for those municipal towns which have undergone changes in area since 1951 Census 8

Sub-Appendix 2 to Appendix I — District/Taluka/Mahal showing 1951 population according to territorial jurisdiction in 1951, changes in area and the population involved in those changes 8

Appendix II — Number of Villages with a population of 5,000 and over and towns with a population under 5,000 9

List — Places with a population of under 5,000 in 1951 which were treated as towns in 1951, but have been omitted from the list of towns in 1961 9

Appendix III — Houseless and Institutional Population 9

Table A-III — Villages classified by population 10–11

Table A-IV — Towns and Town-groups classified by population in 1961 with variation since 1941 . . 12

Appendix I — New Towns added in 1961 and Towns in 1951 declassified in 1961 13

Note — Particulars of 1951 Census towns declassified in 1961 13

Special Appendix — Towns with their area and jurisdiction 13

B (i)-GENERAL ECONOMIC TABLES

Note 15–21

Table B-I — Workers and Non-workers classified by sex and broad age-groups 22

Table B-III

Part A — Industrial classification of Workers and Non-workers by educational levels in Urban areas only 23

Part B — Industrial classification of Workers and Non-workers by educational levels in Rural areas only 24–26

Table B-IV

Part A — Industrial classification by sex and class of worker of persons at work at Household Industry 27–29

Part B — Industrial classification by sex and class of worker of persons at work in non-household industry, trade, business, profession or service 30–33

Part C — Industrial classification by sex and divisions, major groups and minor groups of persons at work other than cultivation 34–41

Appendix 42–43

		Pages
Table B-V	Occupational classification by sex of persons at work other than cultivation . . .	44–67
Appendix	. . . . .	68–69
Annexure	Appropriate Industrial Categories of Occupational Families	69
Table B-VII		
Part A	Persons working principally (i) as Cultivators (ii) as Agricultural labourers or (iii) at Household Industry classified by sex and by Secondary work (i) at Household Industry (ii) as Cultivator or (iii) as Agricultural labourer	70–72
Appendix	. . . . .	72
Table B-VII		
Part B	Industrial classification by sex of persons working in non-household industry, trade, business, profession or service who are also engaged in household industry	73–77
Table B-VIII		
Part A	Persons unemployed aged 15 and above by sex, broad age-groups and educational levels in Urban areas only	78–79
Part B	Persons unemployed aged 15 and above by sex and educational levels in Rural areas only .	78–79
Table B-IX	Persons not at work classified by sex, broad age-groups and type of activity . . .	80–83
B (ii)-HOUSEHOLD ECONOMIC TABLES		
Table B-X	Sample Households (i) engaged neither in cultivation nor household industry, (ii) engaged either in cultivation or household industry but not in both and (iii) engaged both in cultivation and household industry for all areas	84
Table B-XI	Sample Households engaged in cultivation classified by interest in land and size of land cultivated in Rural and Urban areas separately	84–85
Table B-XII	Sample Households engaged in cultivation only classified by size of land cultivated and number of family workers and hired workers in Rural and Urban areas separately . .	86–93
Table B-XVI	Sample Principal household industry classified by period of working and total number of workers engaged in household industry in all areas	94–97
Appendix	. . . . .	98
Table B-XVII	Sample Households classified by (i) number of male and female members by size of households and (ii) engagement (a) neither in cultivation nor in industry (b) in household industry only and (c) in cultivation sub-classified by size of land cultivated	99
C-SOCIAL AND CULTURAL TABLES		
Note	. . . . .	101–102
Table C-I	Composition of Sample Households by relationship to head of family Classified by size of land cultivated	103
Table C-II	Age and Marital Status	104–107
Table C-III		
Part A	Age, Sex and Education in all areas	108
Part B	Age, Sex and Education in Urban areas only	109
Table C-IV	Single Year Age Returns	110
Table C-V	Mother Tongue (Alphabetical order)	111–112
Table C-VII	Religion	113
Table C-VIII	Scheduled Castes and Scheduled Tribes	
Part A	Classification by Literacy and Industrial Category of Workers and Non-workers among Scheduled Castes	114
Part B	Classification by Literacy and Industrial Category of Workers and Non-workers among Scheduled Tribes	115

PREFACE

Before 1951, only the figures of population of revenue villages were given in what were then called 'Village Handbooks'. But the decision to bring out the District Census Handbooks giving extracts from all the important census tables for every district of the State was taken for the first time in 1951. In addition to the census tables, the minimum information given in the Primary Census Abstract related to the area of the village, number of houses and households, total population, houseless and institutional population, literates, and agricultural and non-agricultural classes distributed under 8 main livelihood classes. Census statistics given in the Primary Census Abstract were further supplemented by the addition of useful administrative information on such items as post offices, railway stations, distance of bazzar from village, primary schools, village panchayats, co-operative society, etc. This was a unique achievement of the Indian Census giving as it did the basic demographic and economic information for the smallest administrative unit, namely, the village, and in some States, even for each hamlet and also for wards in towns and cities. The 1951 series of District Census Handbooks, however, varied in content and size from State to State depending upon the resources offered by the State Government. The Registrar General, therefore, desired that the Handbooks brought out during the Census of 1961 should contain certain minimum statistical data, maps and other useful information which should be uniformly adopted throughout the country. The matter was discussed at the conferences and seminars of the Superintendents of Census Operations before the contents of the various sections of the District Census Handbook were decided upon.

The Government of Gujarat at first proposed to include a very limited number of census tables in the District Census Handbook as against a very extensive and comprehensive coverage accepted for common adoption by the States. But on reviewing the matter on receipt of the recommendations of the third conference of Superintendents of Census Operations, the Government thought advisable to incorporate as many of the census tables as possible to enhance its usefulness. The result has been that the District Census Handbook of 1961 differs widely in the matter of content and coverage from that published after the Census of 1951 and contains a number of new features, examined, below.

The District Census Handbook has been sub-divided into three parts, viz., :-

PART I—THE DISTRICT

(i) Introductory Essay

(ii) Brief Gazetteer of Place Names

PART II—STATISTICS

(i) Census Tables

(ii) Villagewise List of Industrial Establishments

(iii) Handicrafts Tables

(iv) Departmental or Official Statistics

PART III—VILLAGE DIRECTORY

(i) Explanatory Note

(ii) Village Directory

(iii) Taluka Maps

Part I is entirely new. While all the items under Part II except that relating to the main Census Tables are added for the first time, the Village Directory Section has been enlarged by the inclusion of certain useful information and maps. Various items included in each of these three parts are listed below.

PART I—THE DISTRICT

(i) *Introductory Essay*

This is a new feature added for the first time. The district has been introduced by giving at the outset certain essential information about its geographical location, physical features, historical background, administrative divisions, territorial changes, topography, soil, climate,

temperature, rainfall, etc. Growth of population, its distribution between rural and urban areas, density, literacy, sex ratio, marital status, economic activities, etc., have been discussed with reference to census tables. Agriculture, livestock, social services, co-operation, transport and communications, facilities of education, medical relief, housing, labour, Community Development Programme, progress of Plan schemes, etc., have also been reviewed in the light of available official statistics. In fine, all the essential details relating to the demographic, economic, social and cultural aspects as revealed by the census and departmental statistics have been examined to give a succinct account of the district as it stood in 1961.

(ii) *Brief Gazetteer of Place Names*

The gazetteer gives in brief information about all the places of historical or religious importance and interest in the district. While the historical background and other relevant details have been taken from the old District Gazetteers, information in respect of major irrigation projects, townships, crafts, fairs and festivals, etc., have been separately collected and brought up-to-date in consultation with the Collectors.

PART II--STATISTICS

Part II contains (a) all the important Census Tables including those compiled from House-lists and (b) Official Statistics, furnished by the various State departments.

Census Statistics

The statement that follows compares the number of tables compiled in different census series with those selected by Government for reproduction in the District Census Handbook.

Details of tables compiled in 1961 Census and reproduced in District Census Handbook

Series	Description	Total No. of tables compiled in 1961	Tables reproduced in District Census Handbook	
			Number	Particulars
1	2	3	4	5
A	General Population Tables . .	4	3	A-I and its Appendices I, II & III with sub-Appendices 1 & 2, A-III and A-IV with Appendix I and Special Appendix
B	Economic Tables . . .	17	12	
	(i) General Economic Tables .	9	7	B-I, B-III-Parts A & B, B-IV-Parts A, B & C, B-V, B-VII-Parts A & B, B-VIII-Parts A & B and B-IX
	(ii) Household Economic Tables .	8	5	B-X, B-XI, B-XII, B-XVI and B-XVII
C	Social and Cultural Tables . .	8	7	C-I, C-II, C-III-Parts A & B, C-IV C-V, C-VII, C-VIII-Parts A & B
D	Migration Tables . . .	6	..	
E	Tables on Housing and Establishments.	5	4	E-I, E-II, E-IV and E-V
	SCT/SC/ST Special Tables on Scheduled Castes and Scheduled Tribes .	8	1	SCT-I-Parts A & B

Note :

Two more tables have been specially compiled from House-lists, viz., (i) Villagewise List of Industrial Establishments and (ii) Handicrafts Tables.

Official Statistics

The picture the census statistics present will be incomplete without the official or departmental statistics reviewing the progress made by the various administrative departments during the past decennium. An attempt has, therefore, been made to compile important official statistics for publication in the District Census Handbook. These statistics which relate to the past ten years must be adjusted to the existing set-up of administration, if they are to be really useful and comparable. This, however, was not possible in spite of efforts to that effect. For, extensive changes in the territorial jurisdiction of districts and talukas have taken place during the last ten years, first as a result of integration in 1956 and then due to bifurcation on May 1, 1960 when Gujarat came into being as a separate political unit for the first time. Non-availability of the required data in case of most of the Princely States and Estates was another handicap. The task of compilation of official statistics was thus beset with innumerable difficulties. The proformae for the various statements numbering 49 as approved by Government and the Registrar General were circulated to all the concerned Heads of Departments as early as July 1961. In view of the importance of these statistics, the Government by circular letter No. CNS-1461-A2 dated the 27th July 1961 addressed to all Heads of Departments had also directed that official statistics called for by the Superintendent of Census Operations should be furnished within two months through the Director, Bureau of Economics and Statistics, after thorough scrutiny by some responsible officer of the department along with a certificate to the effect that the data furnished are up-to-date, complete and authentic in all particulars. The delay, however, caused in furnishing correct and complete information by the departments delayed final compilations and resulted in protracted correspondence to rectify the discrepancies and incompleteness noticed during the course of verification at the Bureau. Non-availability of the required information for the various administrative units as at present constituted was another obstacle. The progress had, therefore, to be reviewed from time to time in a series of meetings with the Director, Bureau of Economics and Statistics and representatives of the departments concerned. The offices from which information was not received had to be frequently reminded by the Director, the Census Department and at times even by the Chief Secretary. Some of the tables proposed to be included could not be inserted or had to be revised either for want of receipt of timely information or owing to the non-availability or incompleteness of the data furnished. Where data for individual years are not available, they have been collected for the years 1950-51, 1955-56, 1960-61 which mark the commencement of the First, Second and Third Five Year Plans. Where statistics for these periods are not available, they are given only for the year 1960-61; and where the figures compiled are not available for the units as at present constituted, the clarification as to the unit to which they refer has been made in the footnote to the statements which also disclose the source of compilation.

PART III—VILLAGE DIRECTORY

The Village Directory or the Primary Census Abstract includes information regarding population, area, occupied houses, households, workers classified into nine industrial categories of workers and non-workers, Scheduled Castes and Scheduled Tribes, literates and educated, etc., for each village as well as for every ward and block of about 120 houses in each town. In addition, it gives information on certain essential amenities existing in the village such as educational facilities, public health and medical facilities, supply of drinking water, electricity and its uses, etc., by means of abbreviations placed against the name of each village. This additional information has been compiled from the special 'village notes' devised for the purpose and collected through the Block Development Officers. They relate to the position as it existed about March 1961

The figures of population of Scheduled Castes and Scheduled Tribes were given in 1951 for certain arbitrary tracts formed by the grouping of talukas. The result was that the administration was seriously handicapped in the absence of relevant particulars for the various administrative units of a district which were required oft and

on for planning and other purposes. This lacuna has been removed on the present occasion by giving figures of Scheduled Castes and Scheduled Tribes for each village in the Primary Census Abstract. The talukas and villages given in the Village Directory are arranged in the order of their location code numbers.

MAPS

The Village Directory is preceded by taluka maps showing villages by their location code numbers and dots varying according to the size of the village. Other items such as district or taluka headquarters, railway, national highway, State highway, local roads, post office, post and telegraph, canal, river, rest house, police station, etc., have been shown on the map with appropriate symbols. Two key maps, one for the State showing the district boundary and the position of the district in the State in hatching and the position of the taluka in the district in black and another key map for the district showing taluka boundary and the position of taluka in the district in hatching have also been included in the taluka map. In addition to taluka maps, a map of the district has also been given at the commencement of the Handbook showing the various items listed above for the taluka map and villages having population over 5,000. The key map given in the district map shows district boundary and the position of the district in the State in hatching.

The preparation of district and taluka maps and finalisation of area figures proved to be another handicap. The District Inspectors of Land Records had furnished tracings which had to be brought up-to-date in the light of changes in boundaries owing to integration on the one hand and bifurcation on the other. Frequent references and back references entered into at various levels, the Settlement Commissioner, Superintendents and District Inspectors of Land Records to remove the discrepancies and reconcile the inconsistencies noticed did not yield much result. The matter was, therefore, finally set at rest by calling a conference of Superintendents and District Inspectors of Land Records who did on-the-spot checking and verification and certified the correctness of the ultimate delimitation of boundaries and location of villages appearing in the taluka and district maps and accuracy of area figures entered in the Primary Census Abstract.

PAGING

Each of the three parts of the District Census Handbook will have a separate series of page numbers starting with 1.

ALPHABETICAL LIST OF VILLAGES

With a view to enable the reader to trace a village from the Village Directory, an alphabetical list of villages giving the names of villages and indicating their location code numbers, page number and serial number on the page at which they are printed has been given separately for each Taluka/Mahal at the commencement of the Handbook.

THE HANDBOOK

The contents of the District Census Handbook explained above have been finalised after frequent deliberations at various census conferences and seminars, and meticulous care as to their form, size and presentation. But these by themselves would not have been sufficient had the Government not readily responded to the various suggestions made in this behalf. If I may say so, the Government had placed implicit faith in me, and accepted all the proposals made by me from time to time to add to the utility of this important compilation. It is hoped that the District Census Handbook in its present form will satisfy a growing demand for basic census data by ultimate territorial units and other background information about the district and also prove to be a useful book of reference to the administrative departments and the public.

The Government of Gujarat has taken a further decision, namely, to print the District Census Handbook also in the regional language of the State, viz., Gujarati. This will very much add to the utility of this publication. The Handbook in Gujarati will contain (i) Note introducing the district, (ii) Alphabetical list of villages, (iii) Census Tables A-I, A-III and SCT-I, (iv) Village Directory with explanatory note and (v) District and Taluka maps.

ACKNOWLEDGEMENTS

Help in the compilation of the District Census Handbooks has been forthcoming from various quarters, to all of whom I am deeply indebted. I, however, wish to express my thanks to Shri V. Isvaran and Shri V. L. Gidwani, Chief Secretaries to Government, and Shri M. G. Shah, Deputy Secretary, General Administration Department for all the facilities they have given in their preparation and publication of these Handbooks. I am also obliged to the Bureau of Economics and Statistics for the services rendered in the compilation of Official Statistics furnished by the Heads of Departments and the checking of the statistical data in the draft-notes for the Introductory Essays prepared by the District Statistical Officers. My thanks are also due to Shri H. V. Desai, Settlement Commissioner, Superintendents of Land Records and District Inspectors of Land Records for their assistance in the finalisation of area figures and verification of district and taluka maps. Lastly I should place on record my gratitude to Shri Balwantray G. Mehta, Chief Minister of Gujarat, whose keen interest has to no small extent ensured the expeditious printing and publication of the District Census Handbooks.

Programme for the printing of District Census Handbooks has this time been very heavy indeed, more so as they are published both in Gujarati and English. The arrangements made by Shri B. A. Koreishi, Director, Government Printing and Stationery, and Shri G. J. Gonsalves, Deputy Director, for the printing of the voluminous work pertaining to the District Census Handbooks at the various Government and local presses, are thankfully acknowledged. The excellent work turned out by the Government Photo-zincographic Press, Poona in printing district and taluka maps deserves special mention.

I would like to place on record the valuable contribution made by the members of the Census Organisation at various levels in bringing out the Handbook in its present form. Mention in particular should be made of Shri K. F. Patel, Deputy Superintendent of Census Operations, Shri J. D. Shah, Statistical Assistant, Shri H. S. Bhatt, in charge proof reading section and Shri K. D. Vaishnav and Shri L. S. Shrimali of draftsman section. Before I conclude I must pay tribute to the conscientious discharge of duties by the late Shri J. K. Patel, Special Mamlatdar whose services were placed by Government at the disposal of the Census Organisation, for supervising the printing of District Census Handbooks. It is a matter of great regret that his services were lost to us, as he was removed from our midst in the prime of his life owing to sudden heart failure.

Finally, the Registrar General has given such anxious thought and care since the inception of the Census Organization to ensure that the District Census Handbook which the Census of 1961 brings out is an up-to-date book of reference for the District by including all available useful data both census as well as official. I am grateful to him for the valuable suggestions made and guidance given by him in this important publication.

R. K. TRIVEDI,
Superintendent of Census Operations,
Gujarat.

AHMEDABAD,
9th March, 1964.

PART I

1 INTRODUCTORY ESSAY

2 GAZETTEER OF PLACE NAMES

INTRODUCTORY ESSAY

SURENDRANAGAR DISTRICT

1 LOCATION AND PHYSICAL FEATURES

1.1 Boundaries and Natural Divisions

Surendranagar is one of the districts forming part of Rajkot division of Gujarat State. It lies roughly between 22°–8′ to 23°–3′ North latitude and 71° to 72° East longitude. It is bounded on the north by the Runn of Kutch and Banaskantha district. To its south are parts of the districts of Ahmedabad and Bhavnagar, on the west it is bounded by Rajkot district and on the east again by Ahmedabad district.

1.2 Configuration

Saurashtra has two ranges of mountains in the north and south. The greater part of these ranges is merely a moderate elevation of the land. The hills in this district belong to the north-east chain of the Kathiawar Peninsula, the noteworthy among them being Chotila which is 1,200 feet high and conical in size. The south-west part of the district has many small hills and elevations of smaller altitude. The northern part of the district adjoins the Runn of Kutch, a flat saline and barren tract. The soils in Wadhwan, Lakhtar, Halvad and Dasada talukas are alkaline in nature.

1.3 Rivers

Among the principal rivers of the district, the river Limbdi Bhogavo passes through the limits of Chotila, Sayla and Limbdi talukas. The river Wadhwan Bhogavo passes through the limits of Chotila, Sayla, Muli, Wadhwan and Limbdi talukas. The rivers of Sukhbhadar (72 miles) and Vansar pass through the talukas of Sayla and Halvad. The river Falku passes through Muli and Dhrangadhra talukas and Brahmini passes through Muli and Halvad talukas. Beside these rivers, there are other small rivers like Kankawati, Chandrabhaga and Umai which have course of less than 50 miles. On account of their short and rugged course and shallow beds, most of them have a rapid run-off and are dangerous in monsoon, particularly under heavy rainfall. As these rivers have seasonal flow, it is only possible to utilise the waters of these rivers through dams across these rivers and thereby impound their flow for irrigation purposes. In the first plan, one eastern dam on river Brahmini at a distance of 8 miles from Halvad has been constructed. The construction of a storage reservoir across the river Bhogavo at a site near village Naika in Muli taluka was also undertaken in the Second Plan.

1.4 Soil

The five main types of soils in Surendranagar are alluvial, thin sandy, thin poor, medium black and red soil. The medium black soil is the most predominant variety of soil in the district. This type of soil is highly retentive of moisture and is sticky and is, therefore, best suited for cultivation of cotton. Cotton is, therefore, one of the important cash crops of the district. In some parts of the district, especially parts of Dasada and Lakhtar talukas, soil is formed by receded sea and, therefore, naturally has comparatively greater degree of salinity. In Dhrangadhra, soil is formed from sandstone and hence soil is thin and sandy and exposed to erosion. Red soil is found in parts of Halvad and Dhrangadhra talukas where the soil is poor and light, and grows only inferior type of millets and pulses.

1.5 Climate and Temperature

The south-west monsoon winds from the Arabian Sea striking against the mountains and hills in the district bring rains to the district from the end of June to the end of September. The cold weather commences from October and lasts upto the end of February. The hot weather commences from the beginning of March and lasts upto the end of June. These are the three main seasons but the extremes of temperature in the hot and cold seasons with low rainfall make the climate of the district dry and healthy. The maximum temperature recorded at Limbdi during 1960 was 46.11° C or 115.0° F in May and the minimum 6.67° C or 44.01° F in January.

1.6 Rainfall

The rainy season starts generally in June and lasts upto the end of September. The rainfall is not high in any part of this district and suffers from irregularity and uneven distribution during the season. The following table gives the rainfall figures for 1960 at the headquarters station. Surendranagar.

Monthly Rainfall at the headquarters station Surendranagar, 1960

Month	Monthly rainfall	
	In Inches	In Centimetres
1	2	3
January	..	..
February	..	..
March	..	..
April	..	..
May	..	..
June	5.0	12.8
July	6.9	17.4
August	0.2	0.5
September	3.8	9.6
October	..	..
November	..	..
December	..	..

Monthly rainfall figures are given in Official Statistics Table 1.2 published in Part II of this Handbook.

1.7 Famine and Scarcity

According to the report of the Fact Finding Committee appointed by the Government of Bombay in 1958–60, the years 1948–49, 1951–52, 1952–53 were bad years in most of the talukas of this district. Except Chotila taluka which was affected once, all other talukas were affected twice or thrice in the last ten years. According to the annavari data of the last 10 years, i.e., 1948 to 1958 for Chotila taluka, three villages of this taluka had 2 to 2½ suspensions of land revenue, 8 villages had 1½ suspensions and 23 villages had one full suspension, while all the rest had ½ or no suspension. Though this area is backward and highly lacks adequate facilities for irrigation and drinking water, the incidence of scarcity being not enough to justify its classification as scarcity area, the committee did not consider Chotila as scarcity area. In the opinion of the committee all talukas of this district, except Dasada and Chotila, are scarcity areas of class B where there has been a total crop failure once every 6 years. Chotila is regarded as free while Dasada would be regarded as precarious area of class A, i.e., there has been a total crop failure in the area once every 3 years.

1.8 Forests

According to the information furnished by the Chief Conservator of Forests, Gujarat State, the area of forest in the district in 1961-62 is found to be 45.05 sq. miles, out of which 0.22 sq. miles are reserved forests, 18.97 sq. miles protected forests and 25.86 sq. miles are unclassed forests.

2 ADMINISTRATIVE SET-UP

2.1 Historical Background

As a result of integration of States in 1948, the former Indian States of Dhrangadhra, Limbdi, Wadhwan, Lakhtar, Sayla, Chuda, Muli, Bajana, Patdi and the Thanas of Vanod, Vithalgadh, Zainabad, Rajpur, Anandpur (K. S. Hathi Desa), Anandpur (K. S. Desa Jiva), Chotila, Bhoika, Zinjhuwada, Dasada and part of Raisankli merged into the former State of Saurashtra and former part of its Zalawad district. Consequent upon reorganisation of States in 1956, it became part of the Bombay State and renamed Surendranagar district on 19-6-1959. It formed part of Gujarat State, when the latter came into existence as a result of bifurcation of the bilingual Bombay State on 1st May, 1960.

Reviewing the historical background of various princely States included in this district, it is found that the chiefs of Dhrangadhra were Jhala Rajputs, originally a sub-division of the Makvana family claiming descent from Markand Rishi. They are said to have ruled at Keranti, a village in Sindh. Abhesinghji, son of Raja Sahib Chandrasinhji of Halvad received Lakhtar for maintenance from the Dhrangadhra Gadi and founded the house of Lakhtar in the beginning of the 16th Century. The Limbdi house of the former Limbdi State sprang from Harpaldev, the common ancestor of the rulers of Dhrangadhra and Limbdi houses. It was Verisalji, the son of Aderaji, who removed the capital to Limbdi.

The Parmars who emigrated from Thar Parker in Sindh were permitted by Visaldev, the Vaghela Raja of Wadhwan to encamp on the bank of the Bhogavo river close to the spot where Muli now stands. After the reign of Solankis of Patan, Wadhwan came into the hands of a branch of the Vaghelas who were dispossessed by the Muslims, whereafter it fell into the hands of the Jhalas of Halvad. The original owners of Than are said to have been the Babarias whom the Parmars ousted. The Parmars were followed by the Kathis who made Than their headquarters. In A. D. 1690 Kartalab Khan, the Viceroy of Gujarat, dispersed the Kathis and destroyed the temple of the Sun God worshipped by them. Thereafter, Than remained a Muslim *Thanah* till the Mogul power waned. It then fell into the hands of the Jhalas of Halvad. Originally a holding of the Sodha Parmars, Chotila was conquered from Jagasio Parmar by the Khachar Kathis in 1565. Most of the Khachar Kathis trace their origin to the Chotila house, one of the twenty States and estates comprising this district.

The former state of Bajana was founded by the fugitive Jats driven away from Sindh by its ruler. The Sultan of Ahmedabad bestowed 24 villages on their leader Malik Hedoji for their prowess in the capture of the Champaner fortress. As Malik Haidar khan (one of the Jat leaders) established himself there, Bajana and its neighbourhood came to be known as Nahani Jatvar or little Jatvar. The talukdars of Dasada were Multani Maleks descendants of Malek Bakhan, one of the Thanahdars who lived and prospered in the time of Sultan Ahmed of Gujarat (A. D. 1411-1443). For a long time, Dhandhalpur was in the possession of the *Babarias* who were expelled in A. D. 1790 by Godada Khavad. The Khavads are said to be the off-spring of a Jhala of the Patdi house named Khavadaji who married a Kathi lady.

2.2 Territorial Changes

This district was a part of the former Saurashtra State till Independence (1947). After the merger of that State with the State of Bombay in 1956, the district became part of Bombay State and formed part of Gujarat State on its formation into a separate State on lst May, 1960. The territorial changes which took place between the period 1951-1961 are given in Sub-appendix 2 to appendix I to Table A-I in Part II and those that took place after 28-2-1961 in an Annexure at the end.

2.3 Administrative Divisions

Surendranagar is one of the districts of Rajkot division of Gujarat State. For the purposes of revenue administration, the district is divided into three sub-divisions with nine talukas. The details about the area and population in respect of these sub-divisions are given in the following table.

Administrative Divisions, 1961

Sl. No.	Sub-Division/ Taluka/Mahal	Area (in sq. miles)	No. of towns	No. of villages	Population		
					Total	Rural	Urban
1	2	3	4	5	6	7	8
	District Total	**3,927.6**	**11**	**671**	**663,206**	**477,564**	**185,642**
	Total for Wadhwan Sub-division	*1,064.9*	*5*	*219*	*226,583*	*129,127*	*97,456*
1	Wadhwan	303.5	2	46	126,060	50,354	75,706
2	Muli	356.6	1	60	44,668	37,131	7,537
3	Chotila	404.8	2	113	55,855	41,642	14,213
	Total for Dhrangadhra Sub-division	*1,616.4*	*2*	*231*	*228,848*	*186,847*	*42,001*
4	Dhrangadhra	526.4	1	64	86,257	53,780	32,477
5	Halvad	469.0	1	68	52,859	43,335	9,524
6	Dasada	621.0	..	99	89,732	89,732	..
	Total for Limbdi Sub-division	*1,246.3*	*4*	*221*	*207,775*	*161,590*	*46,185*
7	Limbdi	607.5	2	101	125,192	95,241	29,951
8	Lakhtar	273.6	1	44	41,357	32,925	8,432
9	Sayla	365.2	1	76	41,226	33,424	7,802

Details of inhabited and uninhabited villages, density and occupied houses are available in Census Table A-I published in Part II of this Handbook.

2.4 Revenue

The Collector is in charge of the general administration, law and order and civil supplies. He is assisted by a Personal Assistant in his office and Deputy Collectors in charge of 3 sub-divisions having their headquarters at Wadhwan, Dhrangadhra and Limbdi. There are 9 mamlatdars in charge of 9 taluka offices.

2.5 Revenue Settlement

On merger and integration of 222 princely States which formerly comprised what was known as Kathiawad on the west coast of India, Union of Saurashtra came into existence with effect from 15-4-1948 as a Part 'B' State, divided into five districts for administrative purposes. Surendranagar (known as Zalawad upto 30-6-1959) was one of the districts. The district is comprised of nine talukas and 675 villages.

The method of survey used during the former State regime was to have a traverse laid down on the village boundaries with the help of theodolite, then to have an Adhar line and one or two supplementary Adhar lines and then to do detailed survey of each field by chain and cross staff method. The areas of each survey number and its sub-divisions and for each class of land comprised therein are separately entered in the land records under an indicative number, i.e., Survey number the numbering of sub-divisions being subordinate to the number of parent survey number.

No area in this district now remains unsurveyed except one village of Muli taluka where survey was half done and remained to be completed.

The soil of villages of former Wadhwan State merged in this district was classified according to the Gujarat system of classification during the former Wadhwan State regime, but in respect of sub-soil classification, the classification values adopted were 50 per cent higher than those adopted under the Gujarat system. This point was examined in 1959-60 and on consideration of comparatively smaller amount involved in sub-soil assessment and the low cost of construction of wells in the area, it was decided not to disturb the existing sub-soil classification values. For the classification of the lands of the various former State villages which were not classified, the Land Records Department of Saurashtra evolved a system of classification,which though mostly analogous to the Gujarat Classification system differed slightly from it in respect of soil classes and their values and details of sub-soil classification and average classification values. Instead of working out average classification values for each survey number or its sub-division, the area with different classification values in the same survey number or sub-division were converted into area of 16 As. classification value unlike Gujarat classification system. Well irrigated lands according to Saurashtra classification system were treated as bagayat lands. The sub-soil classification system was more or less similar to that of Gujarat classification system, but differed from the latter in so far as the sub-soil classification scale is not related to soil classification values and 4 or 3 acres of land as the case may be is considered as irrigable from each *Kos* or water bag on the existing well instead of all the lands in the Zone or Vaga adjudged to have this facility. The above system of classification was continued after States reorganisation for villages where soils were not classified before or for villages where the soils, though classified before, were required to be re-classified. However, where soils of a part of a village were classified before and those of the remaining part were to be classified, the system followed in the part of the village was adopted for the rest of the village to maintain uniformity. The classification work is in progress and will be completed as a plan scheme before the end of the Third Five Year Plan.

The villages of former, Wadhwan and Limbdi States were declared as deemed settled villages.

The villages of the rest of the former States were unsettled. For deemed settled villages, remission of excess of then existing rates of assessment over the rates of assessment obtaining in the comparable *Union Areas have been sanctioned with effect from 1959-60 under Land Revenue Code 18 framed under Section 52 of the Land Revenue Code allowing rates of assessment where they were lower to continue as they were. For other villages and areas not so deemed settled, Land Revenue Code 17 is framed under Section 52 of Bombay Land Revenu Code According to this rule, the villages were placed into homogeneous groups on consideration of the factors of physical configuration, climate and rainfall, price and yields of principal crops and then for each of t ese groups, the Comparable Union Area were determined on the basis of homogeinity of soil and crop pattern. The rates prevailing in the former State villages were then compared with the rates of Comparable Union Areas. In respect of classified villages, the prevailing rates have not been respected but if the assessment worked out by application of the Comparable Union Areas rate to the classification value is more than that prevailing i.e., the existing assessment, the latter has been continued and where the former was Lower than the latter, the latter has been brought down to the level of the former. Where the lands are not scientifically classified, they are classified as good, medium and inferior and 2/3rd of the rate for good lands has been applied to the medium land and 1/3rd to the inferior lands. Well irrigated lands are considered as bagayat and double the rate of dry crop land in the group is considered as the rate for such lands. Assessments have been worked out accordingly for all the survey numbers and sub-divisions in the district and are recovered accordingly. In respect of unclassified villages, the existing rates are respected if they were lower than the Comparable Union Areas rates and were brought to the level of the latter, where they were higher.

2.6 Agrarian Structure and Land Reforms

Owing to the feudal character of the agricultural economy at the time of States integration, there were a variety of tenures which could be broadly classified as under:–

(i) Khalsa lands comprised of the areas of covenanting States where cash assessment was levied.

(ii) Khalsa lands comprised of the areas of the covenanting States where crop share or bhagbatai system prevailed, and

(iii) Non-Khalsa lands held on Girasdari and Barkhali tenures where rent was levied mostly in crop share and where the State's revenue was partly or wholly alienated in favour of Bhayats, Devasthans, Servants, etc.

In the last category, there were different species, viz., Mulgirasia, Bhayati, Talukdari and so on, which could be broadly lumped as Girasdari and Inam, Jivai, Dharmada or Kherati grants which could be lumped as Barkhali. The former involved the proprietory rights whereas the latter did not.

In all the above areas, various obnoxious taxes and levies prevailed. After integration, they were all abolished. The immediate problems before Saurashtra Government were, grant of permanent rights to tenants and conversion of crop share into cash assessment in respect of Khalsa and Non-Khalsa lands and establishment of single tenure system. On formation of the Saurashtra State, Occupancy rights to tenants of Khalsa lands were granted. Pending regular survey and settlement, the lands were broadly classified into good, medium and inferior and on the basis of the average of yields of 15 years, *udhad*, i. e., lump cash assessment was fixed for every Khata or holding in Khalsa villages under crop share system.

Saurashtra Land Reforms Act and Saurashtra Barkhali Abolition Act were passed in 1951,

* Union Areas = Areas forming part of the Pre-Independence districts of the Bombay Province

which did away with Girasdari tenure and all kinds of other inams respectively. Both of these Acts have been brought into force with effect from 1-9-1951 (vide Saurashtra Government's Revenue Department Notification No. RD/N/1758 dated 18-5-1951). These Acts also provided for determination of cash assessment on the basis of arithmetic average of assessment leviable in the surrounding adjoining assessed Khalsa or Non-Khalsa lands or villages until the villages in which such lands were situated were surveyed and settled. Even yet, some estates other than agricultural lands, e. g., Waste lands, Grass lands, Gauchars, Roads and Rivers, etc., which did not vest in Government, remained and they were acquired under the Saurashtra Estate Acquisition Act, 1952. All these steps have achieved Raiyatwari system for the whole of Saurashtra. The Bombay Prevention of Fragmentation and Consolidation of Holdings Act, 1947 has also been applied in the district, and Consolidation of Holdings was started, but it had to be soon withdrawn on account of agitation of the people on the ground of restriction over their rights on the land. The matter is under the consideration of the State Government. The Gujarat Agriculture Lands Ceiling Act, 1960, has also been made applicable to this district.

2.7 Parliamentary and Assembly Constituencies

Under the Delimitation of Parliamentary and Assembly Constituencies Order, 1961, 1 seat is allotted to this district for the purpose of election to the House of the people and 5 seats for the State Assembly. The details comprising the territorial extent of the Parliamentary and Assembly Constituencies are shown below.

Delimitation of Parliamentary and Assembly Constituencies

A

Parliamentary Constituencies

Sl. No.	Name of Constituency	Extent in terms of Assembly Constituencies
1	2	3
1	Surendranagar	Dasada, Wadhwan, Limbdi, Chotila Dhrangadhra, Morvi and Wankaner

B

Assembly Constituencies

Sl. No.	Name of Constituency	Extent of Constituencies
1	2	3
1	Dasada	Dasada and Lakhtar talukas
2	Wadhwan	Wadhwan taluka
3	Limbdi*	Limbdi taluka
4	Chotila	Chotila, Sayla and Muli talukas
5	Dhrangadhra	Dhrangadhra and Halvad talukas

* This seat is reserved for Scheduled Castes

2.8 Judiciary

The judicial set-up of the district comprises of 1 District and Sessions Judge, 1 Civil Judge, (Sr. Division) and 8 Civil Judges (Jr. Division). As Sessions Judge he is empowered to impose any sentence authorised by law, but any sentence of death subject to confirmation by the High Court. The District Judge has unlimited jurisdiction in civil suits. The Civil Judge (Sr. Division) and Judicial Magistrate is empowered to impose a sentence of imprisonment for a term not exceeding 2 years and fine not exceeding two thousand rupees. He has got unlimited jurisdiction in civil suits. Civil Judges (Jr. Division) have jurisdiction upto Rs. 10,000 in civil suits.

2.9 Police

The total strength of civil police in 1960-61 amounted to 656 persons. There were 17 police stations and 17 police outposts in the district. The total number of cognisable offences investigated was 1,219. Thus there was 1 police per 5.99 sq. miles of area. The number of persons per police was 1,011 and the number of cognisable offences investigated per police was 1.86.

The number of crimes by major class of offences in the district is extracted from Official Statistics Table 11.3 given in Part II of this Hand book, wherein other details regarding number of persons acquitted or discharged and number of persons convicted will also be found.

ersons convicted by nature of offences, 1960-61

Description of offence	No. of persons convicted
1	2
Against public tranquility	1
Affecting life	17
Hurt	23
Wrongful restraint and Wrongful Confinement	8
Criminal force and assault	4
Theft	62
Criminal breach of trust	5
Criminal trespass	11
Under special and local laws	259

3 LOCAL SELF GOVERNMENT

3.1 Local Self Government Institutions

The Local Self Government institutions in the State as on 1st April, 1961, which is the period covered by this Handbook are (1) Municipalities, (2) District Local Board, (3) District School Board and (4) Gram Panchayats. But since the Panchayats Act has come into force from 1st April, 1963 replacing the existing District Local Boards by Jilla Panchayats and introducing democratic decentralisation at all levels, a short resume of the provisions of this Act as regards the new set-up, functions, finances, etc., will also be given to bring the position about administrative set-up up-to-date.

3.2 Municipalities

At the end of 1960-61 there were 11 municipalities covering 11 towns with a population of 185,362. The average population per municipality was 16,851. The following table shows area, population, income and expenditure of each municipality in the district.

Municipalities, area, population, income and expenditure for the year, 1960–61

Municipality	Area in sq. miles	Population	Income Rs.	Income per head	Expenditure Rs.	Expenditure per head
1	2	3	4	5	6	7
Total	**38.17**	**185,362**	**2,921,110**	**15.76**	**3,310,743**	**17.86**
Surendranagar	1.88	48,602	940,723	19.36	969,553	19.95
Wadhwan	7.11	27,104	216,690	7.99	211,980	7.82
Muli	14.30	7,537	37,700	5.00	27,129	3.60
Thangadh	0.10	7,753	126,559	16.32	105,539	13.61
Chotila	4.60	6,460	101,108	15.65	83,619	12.94
Limbdi	2.00	21,801	421,052	19.31	576,859	26.46
Chuda	1.25	8,150	52,718	6.47	173,786	21.32
Lakhtar	2.50	8,432	67,279	7.98	127,375	15.11
Sayla	0.93	7,802	47,558	6.10	63,746	8.17
Dhrangadhra	4.00	32,197	804,095	24.97	883,820	27.45
Halvad	4.00	9,524	105,625	11.09	87,337	9.17

Details regarding number of members, sources of income and heads of expenditure are available in Official Statistics Table 14.1 published in Part II of this Handbook.

The total income of all the 11 municipalities during 1960–61 amounted to Rs. 2,921,110 of which as much as Rs. 2,045,776 or 70.03 per cent came from rates and taxes. The income per head of population as per 1961 census was Rs. 15.76. As against this, the total expenditure in 1960–61 of all municipalities amounted to Rs. 3,310,743 and average expenditure per head of population Rs. 17.86.

3.3 District Local Board

Total income and expenditure of the Board during 1960-61 were Rs. 876,142.00 and Rs. 722,224.00 respectively. The main sources of income are medical and land revenue and the major heads of expenditure are civil and public works and medical and education. The following table shows income and expenditure of the Surendranagar District Local Board during 1960-61 under different heads.

Income and expenditure of District Local Board, 1960-61

Head	Income (in Rs.)	Head	Expenditure (in Rs.)
1	2	3	4
Total	**876,142**	**Total**	**722,224**
Land revenue .	117,000		
Local rates . .	521	Administration .	71,877
Interest . .	53,750

3.4 Panchayats

The number of panchayats in the district at the end of 1960-61 was 607 covering 648 villages and towns. 35 of these panchayats were group panchayats. 572 villages had independent panchayats. The number of panchayats in each taluka of the district together with their income and expenditure for the year 1950-51, 1955-56 and 1960-61 is given in the following table.

Income and expenditure of Panchayats, 1950-51, 1955-56 and 1960-61

Taluka	No. of village Panchayats			Income (in Rs.)			Expenditure (in Rs.)		
	1950-51	1955-56	1960-61	1950-51	1955-56	1960-61	1950-51	1955-56	1960-61
1	2	3	4	5	6	7	8	9	10
Total	**49**	**453**	**607**	**122,242**	**1,005,199**	**1,637,056**	**26,680**	**548,779**	**1,232,943**
Wadhwan	4	41	46	13,188	105,564	204,504	4,271	52,254	96,153
Muli	1	48	54	2,515	64,175	100,073	..	27,943	71,181
Chotila	..	54	93	..	39,010	82,381	..	19,290	61,977
Limbdi	11	61	94	49,266	235,619	328,854	7,958	117,837	274,264
Lakhtar	4	37	41	12,046	82,482	90,952	4,100	36,537	77,376
Sayla	..	42	64	..	38,511	146,882	..	19,793	61,093
Dhrangadhra	7	50	63	13,574	147,299	139,314	2,815	96,311	172,439
Halvad	..	42	65	..	80,760	162,482	..	53,710	109,918
Dasada	17	78	87	31,653	211,779	381,614	7,536	125,104	308,542

The above details are also available in Official Statistics Table 14.3 published in Part II of this Handbook.

The total income of all panchayats for the year 1960-61 was Rs. 1,637,056 while the total expenditure amounted to Rs. 1,232,943. The income and expenditure per head of population covered under panchayats were Rs. 4.52 and Rs. 3.41 respectively. The income and expenditure per panchayat were Rs. 2,697 and Rs. 2,031 respectively.

3.5 Present set-up under the Panchayat Act

The Gujarat Panchayats Act has been brought into force in all the districts of Gujarat (except Kutch and Dangs districts) from 1st April, 1963. In the Kutch district, it has been brought into force with effect from 15th April, 1963. It is not yet made applicable to the Dangs district. In each district there are three tiers of the Panchayat Organisation, gram/nagar panchayats, taluka panchayats and district panchayat. Municipalities having population not exceeding 10,000 have been converted into gram panchayats and those having population exceeding 10,000 but not exceeding 20,000 have been converted into nagar panchayats. A gram/nagar panchayat is subordinate to the taluka panchayat, while a taluka panchayat is subordinate to the district panchayat according to the scheme of this Act.

According to the provisions of the Gujarat Panchayat Act, 1961, a gram panchayat consists of not less than 9 and not more than 16 members, while a nagar panchayat consists of not less than 15 and not more than 31 members. Provision has been made to reserve seats for women and members of Scheduled Castes and Tribes. A taluka panchayat consists of ex-officio, elected, co-opted and associate members. On account of the national emergency, interim district panchayats had to be constituted in April, 1963. Elections are now proposed to be held and elected district panchayats would be constituted towards

the end of March, 1964 in the sixteen districts of the State.

The District Development Officer is the Chief Executive Officer in a district panchayat. He is borne on the cadre of the Indian Administrative Service (senior time scale) and is appointed by Government. The Chief Executive Officer of the taluka panchayat is the Taluka Development Officer, who is also appointed by Government. Both these officers are secretaries of their respective panchayats. These panchayats function through various committees, appointed for different groups of functions under the Act.

FUNCTIONS

The functions of three tiers of panchayats have been given very elaborately in the three schedules to the Act. In addition, the functions of collecting land revonue (including cesses) and dues recoverable as arrears of land revenue, levied and assessed by or under the Land Revenue Code and all other functions and duties of a village accountant under the land revenue code have been transferred to gram/nagar panchayats. The powers exercised and the functions and duties performed by the District School Board have been similarly transferred to the taluka and district panchayats and all primary schools have been placed under the control of taluka and district panchayats. A large number of functions such as registration of co-operative societies, approval of amendment to the bye-law of co-operative societies, calling of or extending the period for the calling of annual general meeting of co-operative societies and such other functions which under the Co-operative Societies Act, were exercised by the Registrar, Co-operative Societies, have been transferred to district panchayats. Moreover, functions relating to agriculture, animal husbandry, public health and medical relief, social welfare, cottage industries and small scale industries and District Statistical Office, have been transferred on an agency basis to the district panchayats.

STAFF

To enable the panchayats to carry out numerous activities entrusted to them, Government has transferred/deputed a number of its employees alongwith the functions transferred. The staff of the District School Boards and District Local Boards has also been transferred to taluka/district panchayats. It has been envisaged in the Act to constitute a panchayat service in connection with the affairs of panchayats and to maintain a uniform standard in the recruitment for panchayat service. A Panchayat Service Selection Board has been constituted for this purpose.

FUNDS

The panchayats have been given necessary funds to execute all schemes transferred to them. In addition, provision has been made in the Act, for various tiers of panchayat to levy taxes and fees. A gram or nagar panchayat subject to certain conditions can levy a tax on buildings, a pilgrim tax, a tax on fairs, festivals and other entertainments, a tax on bicycles or vehicles drawn by animals, a sanitary tax, etc. It can also levy fee on markets, cart stands, tanga stands, for the supply of water from wells and tanks for purposes other than domestic use and for cattle. The taluka panchayat and district panchayat can request Government for increase in stamp duty. Moreover, provision has been made in the Act for making grants to the panchayats for its activities.

At present, the implementation of the Act is being done mostly through the Commissioner. They have been delegated with most of the powers of the State and exercise supervision over panchayats.

Provision has also been made in the Act under which the State Government will give grants to the panchayats on the basis of the average of the land revenue collected during the last three preceding years, after deducting therefrom the expenditure on the salaries and training of the secretaries of gram panchayats and village accountants and crediting 5 per cent of the amount to the State Equalisation Fund. 50 per cent of the balance will be distributed among gram panchayats and nagar panchayats, 25 per cent among taluka panchayats and 10 per cent among the district panchayats. Out of the remaining 15 per cent of

the land revenue, 7½ per cent will be carried to the District Equalisation Fund and 7½ per cent to the Gram Encouragement Fund.

4 POPULATION

4.1 Growth of Population

In 1951, the population of the district as constituted in 1961, was 506,359. According to the 1961 Census the same has gone up by 156,847 and increased to 663,206 or 30.98 per cent, the highest during the last sixty years and also higher than that observed in the case of Gujarat State which is 26.88 per cent. The following table compares the growth rate in the district during the last sixty years.

Variation in population during 1901 to 1961

Year	Population	Decade variation	Percentage decade variation
1	2	3	4
1901	302,870	..	..
1911	340,394	+ 37,524	+ 12.39
1921	347,606	+ 7,212	+ 2.12
1931	382,102	+ 34,496	+ 9.92
1941	429,171	+ 47,069	+ 12.32
1951	506,359	+ 77,188	+ 17.99
1961	663,206	+156,847	+ 30.98
1901 to 1961	..	+360,336	+118.97

Sexwise details are available in Census Table A-II published in Census of India, 1961 Volume V-Gujarat-Part II-A.

The pace of growth observed since 1911 has been more rapid after 1931. The unprecedented growth of numbers between 1951-61 can, however, be attributed to the decline in death rate, accompanied by steady improvements in medical and public health services available to the people since Independence.

OCCUPIED RESIDENTIAL HOUSES AND HOUSEHOLDS

The total number of occupied residential houses in the district is 112,149 or 3.01 per cent in the State. The average number of persons per occupied census house in total, rural and urban areas of the State and district are given below.

Average number of persons per occupied Census house, 1961

Total/Rural/Urban	State	District
1	2	3
Total	**5.53**	**5.91**
Rural	5.54	5.81
Urban	5.52	6.19

It will be seen that the average number of persons per occupied census house in the district is higher than that of the State for its total, rural and urban areas.

The number of households in the district was total 122,392, rural 85,744 and urban 36,648 and that of houses, total 112,149, rural 82,175 and urban 29,974. The number of households per cent of houses, therefore, comes to 109.13, 104.34 and 122.27 for the total, rural and urban areas respectively. The average number of persons per household for total, rural and urban areas of the district comes to 5.42, 5.57 and 5.07 respectively.

4.2 Rural/Urban distribution

The criteria for determining whether a place was rural or urban varied from census to census and rendered such data incomparable. A uniform definition for urban areas was, therefore, adopted during the Census of 1961, by laying down that a place should be classified as urban if it was (1) a municipality, cantonment or civil lines or, (2) had (a) a population of 5,000 or over and (b) 75 per cent or more of the total male population was dependent on non-agricultural pursuits.

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'Village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distinct number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

4.2 (i) Rural Population

The total number of villages in the district is 661 of which 10 are uninhabited. The total rural population of the district is 477,564 giving an average of 722 persons per inhabited village. The proportion of rural population (72.01 per cent) to the total population in the district is lower than similar proportion in the State which is 74.23 per cent.

Percentage distribution of rural population by size group of villages, 1961

Size group	No. of villages	Percentage to total No. of villages	Rural population	Percentage to total rural population
1	2	3	4	5
Less than 200	97	14.68	13,097	2.74
200-499	221	33.43	75,142	15.74
500-999	209	31.62	151,550	31.73
1,000-1,999	97	14.67	129,046	27.02
2,000-4,999	36	5.45	100,786	21.11
5,000-9,999	1	0.15	7,943	1.66
10,000 and above	..	..	..	..

Details of sexwise population for talukas are available in Census Table A-III published in Part II of this Handbook.

48.11 per cent of villages in the district fall in the class range less than 500, while 46.29 per cent of the total have population varying from 500 to 1,999, and only 5.60 per cent of them are large size villages (2,000 and above) covering 22.27 per cent of rural population. It is significant to note that the small size villages is the general feature of this district, though majority of the rural population reside in medium and large size villages.

4.2 (ii) Urban Population

Statement showing the number of towns classified by population is furnished below.

Number of towns classified by size groups during 1901 to 1961

	I		II		III		IV		V		VI	
	100,000 and above		50,000 to 99,999		20,000 to 49,999		10,000 to 19,999		5,000 to 9,999		Below 5,000	
Year	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population	No. of towns	Population
1	2	3	4	5	6	7	8	9	10	11	12	13
1961	..	..	..	..	4	129,984	..	..	7	55,658	..	..
1951	..	..	..	..	3	83,364	1	18,292	7	46,703	2	8,390
1941	..	..	..	..	2	42,889	2	32,441	6	39,991	..	..
1931	..	..	..	..	..	..	4	62,959	6	35,061	..	..
1921	..	..	..	..	..	..	4	56,931	5	28,037	1	4,775
1911	..	..	..	..	..	..	3	41,482	5	31,180	2	9,694
1901	..	..	..	..	..	..	4	54,733	5	27,259	1	3,767

Sexwise details of each town are available in Census Table A-IV published in Part II of this Handbook.

Nearly 185,642 or 27.99 per cent of the total population lives in urban areas, as against 25.77 per cent in the State. The number of towns in 1951 which was 13 has come down to 11 in 1961 owing to declassification of some of them as a result of change in the definition of urban areas. According to this definition, Dasada and Patdi which were treated as urban in 1951 were declassified and treated as rural in 1961.

The urban population of the district, numbering 185,642 persons is spread over 11 towns of different sizes of which only 4 towns come under class III, i.e., size group 20,000 to 49,999 and the rest in class V, i.e., size group 5,000 to 9,999. The average population of a town in Surendranagar district is 16,876 persons as compared to 30,380 for the State. The extent of urbanisation is thus found to be little more than that obtaining in the State as a whole.

4.3 Density

The area of the district in 1951 was 3,509 square miles or 4.94 per cent of the total area of Gujarat. In 1961, it was 3,927.6 square miles or 5.53 per cent of the total area of the State due to changes in the territorial jurisdiction of the district. The corresponding percentages of population for the district as constituted in 1961 are, however, found to be 3.1 per cent in 1951 and 3.2 per cent in 1961. The average density of population is 169 persons per square mile as against 290 for the State. The urban density (4,344) is naturally higher than the rural (123) where the pressure of population is comparatively less and the average density is worked out on the basis of the entire area within the revenue limits of the village and not of the village site. These densities differ for different parts of the district as also for its rural and urban areas as will be seen from the table that follows.

Population per square mile, 1961

State/District/ Taluka	Population per square mile		
	Total	Rural	Urban
1	2	3	4
State	**290**	**218**	**7,194**
District	*169*	*123*	*4,344*
Wadhwan	415	171	8,421
Muli	125	108	527
Chotila	138	104	3,024
Limbdi	206	158	9,216
Lakhtar	151	121	3,373
Sayla	113	92	8,389
Dhrangadhra	164	103	8,049
Halvad	113	93	2,381
Dasada	144	144	..

While working out the density of urban areas, the urban units for which area figures are not available have been ignored. Rural density is worked out on the basis of rural population only, though the area figures include the area of those urban units for which separate area figures are not available. The highest average density (415) is found in Wadhwan taluka and the lowest 113 in Sayla and Halvad talukas. In rural areas Wadhwan has the highest (171) and Sayla taluka the lowest (92) density. But among towns Wadhwan tops the list with 8,421 persons per sq. mile, the lowest being 527 persons for Muli.

4.4 Migration

The number of persons born (i) at the place of enumeration, (ii) elsewhere in the district, (iii) outside the district of enumeration but within Gujarat State and those (iv) born outside Gujarat State as per 1961 Census is given below.

Population by place of birth, 1961

Persons/ Males/ Females	Total population	Born in			
		Place of enumeration	Elsewhere in the district	Outside the district but in the State	Outside the State
1	2	3	4	5	6
Persons	663,206	435,146	153,693	67,150	7,217
Males	341,301	271,540	44,444	21,266	4,051
Females	321,905	163,606	109,249	45,884	3,166
Percentages					
Persons	100.00	65.61	23.17	10.13	1.09
Males	100.00	79.56	13.02	6.23	1.19
Females	100.00	50.83	33.94	14.25	0.98

In case of 65.61 per cent of the population of the district, the place of enumeration is the same as the place of birth. This proportion for males is 79.56 per cent, as against 50.83 per cent for females owing to the migration of females after marriage, which appears to be mostly within the district. For the proportion of females born outside the place of enumeration but within the district is as high as 33.94 per cent as compared to those born outside the district but within the State which account for 14.25 per cent and those outside the State which account for 0.98 per cent only.

The percentage distribution of population born at the place of enumeration, born elsewhere within the district and outside the district by nine categories of economic activity and of non-workers is shown below.

Distribution of population by categories of workers and non-workers classified by place of birth, 1961

Place of birth	Categories of workers									
	I	II	III	IV	V	VI	VII	VIII	IX	X
	As Cultivator	As Agricultural labourer	In Mining, Quarrying, etc.	At Household Industry	In Manufacturing other than Household Industry	In Construction	In Trade and Commerce	In Transport, Storage and Communications	In Other Services	Non-workers
1	2	3	4	5	6	7	8	9	10	11
District Total	**18.54**	**4.75**	**0.66**	**3.87**	**2.52**	**0.35**	**1.87**	**0.61**	**4.58**	**62.25**
Born at the place of enumeration	19.75	4.53	0.68	3.74	1.91	0.24	1.69	0.33	3.44	63.69
Elsewhere in the district	18.80	6.14	0.72	4.53	3.65	0.51	2.07	0.73	6.18	56.67
Outside the district	10.99	3.15	0.48	3.27	3.75	0.65	2.51	1.92	7.91	65.37

4.5 Sex Ratio

In 1961, the number of females per 1,000 males in the district was 943 which was higher than the similar ratio of 940 for the State. The corresponding rural and urban sex ratios for the district which were 939 and 953 respectively show that the proportion of females was comparatively less in towns than in villages.

The following statement compares sex ratios in towns in 1951 and 1961.

Females per thousand males in urban areas, 1951 and 1961

State/ District/ Town	Sex Ratio	
	1951	1961
1	2	3
State	**915**	**896**
District	*1,007*	*953*
Surendranagar	933	900
Wadhwan	1,079	998
Thangadh	983	975
Chotila	1,006	933
Limbdi	1,032	949
Chuda	1,057	999
Lakhtar	1,042	987
Sayla	1,010	987
Dhrangadhra	1,001	954
Halvad	1,086	1,055
Muli	950	917

The urban areas with a sex ratio lower than that for the district average are Surendranagar, Chotila and Muli. The sex ratio in towns which was very high in 1951, has come down in 1961, though it is still higher than that obtaining in the urban areas of State as a whole due to the low degree of urbanisation in this district. Halvad is having a very high sex ratio of 1,055, as males from that place go out to business centres like Zaria, Africa and Calcutta, etc., for earning their livelihood. Muli has a considerably low sex ratio of 917, as it is a pilgrim centre with a preponderance of male sadhus of the Swaminarayan sect.

The higher female ratio in Halvad, Chuda and Wadhwan is mainly due to the absence of male members who have migrated to towns and big cities for business or service.

4.6 Age Distribution

The following tables given in Part II of this Handbook give data regarding ages as under.

Table C-II shows the distribution of the population by quinquennial age-groups. Table C-IV gives single year age returns. Broad age-groups are also given in Tables B-I and C-II printed in Part II of this Handbook. Proportionate population figures by broad age-groups in 1961 are compared separately for males and females with the corresponding proportions for 1951 for the district as constituted then.

Percentage distribution of population by sex and age-groups, 1951 and 1961

	Percentage of population by age-groups			
	1951		1961	
Age-groups	Males	Females	Males	Females
1	2	3	4	5
Total A to D	**100.00**	**100.00**	**100.00**	**100.00**
0–4	13.41	13.90	16.92	17.45
5–14	28.43	27.26	28.10	26.40
A 0–14	41.84	41.16	45.02	43.85
15–34	34.56	34.58	31.53	31.47
35–59	19.37	19.05	19.20	19.15
B 15–59	53.93	53.63	50.73	50.62
C 60+	4.21	5.20	4.21	5.49
D Age not stated	0.02	0.01	0.04	0.04

The proportion of both males and females in the age-group 0–14 has increased during the decade owing to high birth rate which is responsible for an increase of 3.18 per cent in males and 2.69 per cent in females. But there is a slight decline in the proportion of males and females in the age-groups 15–34 and 35–59. This may perhaps be due to the migration of adult workers to other areas.

4.7 Marital Status

According to the Census of 1961, 276,455 persons are returned as married, 136,570 males and 139,885 females. Never married persons account for 193,637 of the total population, males being 56.74 per cent and females 46.84 per cent of their respective population. The widowed

are 0.21 per cent and divorced or separated constitute 6.17 per cent only. The following table shows the marital status of males and females in different age-groups classified into (i) never married, (ii) married and (iii) widowed, divorced/separated and others.

Age and Marital Status, 1961

Age-groups	Never Married		Married		Widowed, divorced/separated and others	
	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total females	Percentage of males to total males	Percentage of females to total females
1	2	3	4	5	6	7
Total	**56.74**	**46.84**	**40.01**	**43.45**	**3 25**	**9 71**
0- 9	100.00	100.00	..	..	..	..
10–14	97.88	92.59	2.11	7.39	0.01	0.02
15–19	79.82	38.79	19.86	60.80	0.32	0.41
20–24	35.95	4.02	62.74	94.89	1.31	1.09
25–29	10.54	0.80	87.50	96.75	1.96	2.45
30+	3.24	0.36	86.84	69.27	9.92	30.37

It will be seen from the above table that no person has been reported as married in the age-group 0–9 as all such persons were treated as unmarried at the time of sorting. But the child marriages still persist in the age-group 10–14 to the extent of 2.11 per cent for males and 7.39 per cent for females. It is also note-worthy that among males the age of marriage has shifted and risen to 20 and above, as only 19.86 per cent of males have been returned as married in the age-group 15–19, while the percentage rises to 62.74 in the age-group of 20–24 and to 87,50 per cent in the age-group of 25–29. Corresponding proportions for females, however, show that 60.80 per cent of females in the age-group 15–19 and 94.89 per cent in the age-group 20–24 are married. In other words, in case of females, though the date of marriage has advanced, it has not gone much beyond 15-19 years, when most of them get married. Examination of the figures of widowed, divorced or separated discloses an interesting feature of marital life in the district in that, they appear to be significant only after the age of 29. While females above 30 years account for 30.37 per cent in this category, males form 9.92 per cent of their population. These figures reveal a greater tendency towards remarriage on the part of widowed males than widowed females among whom it is mostly avoided.

4.8 (i) Literacy and Education

According to the Census of 1951, there were 93,528 literates in the district of Surendranagar as constituted then and formed 18.86 per cent of the total population. Percentage of male literates was then 26.43, while that of female literates 10.97 per cent. In 1961, the percentage of literacy rose to 24.52 (33.83 per cent for males and 14.66 per cent for females). Percentage of literacy to total population by age and sex is given for total/rural/urban in the following table.

Literacy by age-groups, 1961

Age-groups	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8	9	10
All ages	**24.52**	**33.83**	**14.66**	**16 90**	**25.93**	**7.29**	**44.13**	**54.28**	**33.47**
5–14	28.88	36.41	20.39	20.45	29.19	10.62	50.40	54 75	45 45
15–34	33.35	45.99	19.92	23.04	35.36	10.04	58.68	71.86	44.47
35–59	26.88	39.61	13.35	18.60	30.06	6.07	47.97	65.08	30.98
60+	20.29	35.26	8.11	13.17	24.38	3.75	36.28	61.22	17.46
Age not stated	13.31	18.49	7.58	11.76	14.29	6.67	14.79	25.45	8.05

Literates among children in the age-group 5-14, constitute 28.88 per cent of males account for 36.41 per cent and females 20.39 per cent. The highest literacy among persons and males is found to be in the age-group 15-34 in total/rural/urban areas. The highest percentage of literacy among females is to be found in the age-group 5-14 in total, rural and urban areas of the district.

The following table furnishes the details of literacy by rural/urban for each taluka of the district.

Rural/Urban literacy by sex, 1961

Taluka		Literate and Educated					
		Literates number	Percentage of total population	Literate males	Percentage of total male population	Literate females	Percentage of total female population
1		2	3	4	5	6	7
Wadhwan	R	9,966	19.79	8,193	31.44	1,773	7.30
	U	36,035	47.60	22,693	57.96	13,342	36.50
Muli	R	5,662	15.25	4,515	23.45	1,147	6.42
	U	2,492	33.06	1,651	41.99	841	23.33
Chotila	R	3,587	8.61	2,833	13.15	754	3.75
	U	5,529	38.90	3,582	49.28	1,947	28.03
Limbdi	R	17,413	18.28	13,603	27.73	3,810	8.25
	U	13,322	44.48	8,523	55.85	4,799	32.67
Lakhtar	R	6,137	18.64	4,605	27.37	1,532	9.52
	U	3,140	37.24	2,139	50.40	1,001	23.90
Sayla	R	3,443	10.30	2,710	15.57	733	4.58
	U	2,383	30.54	1,524	38.81	859	22.17
Dhrangadhra	R	9,221	17.14	7,497	27.23	1,724	6.57
	U	15,104	46.51	9,102	54.78	6,002	37.84
Halvad	R	6,824	15.75	5,441	24.31	1,383	6.60
	U	3,910	41.05	2,374	51.22	1,536	31.42
Dasada	R	18,458	20.57	14,463	31.30	3,995	9.18
	U	..	..	..	..	..	..

It will be seen from the above table that in rural areas the percentage of literacy for total is the highest (20.57 per cent) in Dasada taluka and the lowest in Chotila taluka (8.61 per cent). Among males, the highest literacy (31.44 per cent) is returned from Wadhwan taluka while the lowest (13.15 per cent) from Chotila taluka. Among females, the highest literacy (9.52 per cent) is in Lakhtar taluka and the lowest (3.75 per cent) in Chotila taluka. But among urban areas, the literacy percentage is the highest (47.60 per cent) in Wadhwan taluka where the highest percentage 57.96 of male literates is also found. Dhrangadhra claims the highest percentage of urban female literates (37.84 per cent), the lowest being (22.17 per cent) in Sayla.

4.8 (ii) Educational Institutions

The table below gives the number of various types of educational institutions in the district alongwith the number of students and teachers in 1960-61.

Number of educational institutions, students and teachers, 1960-61

Educational levels	Institutions	Teachers	Students
1	2	3	4
Primary . .	638	1,959	54,738
Secondary .	42	356	8,283
Higher . .	1	29	517
Special . .	14	76	1,701

Primary, Secondary, Higher and Special Institutions

In 1960-61, there were 638 primary schools in the district of which 661 were in rural areas. 551 or 83.36 per cent of the total number of villages have schools. Villages having no schools number 110 or 16.64 per cent of which 44 were in Chotila, 25 in Sayla, 11 in Dasada, 10 each in Muli and Halvad, 5 in Lakhtar, 2 each in Limbdi and Dhrangadhra and 1 in Wadhwan taluka. Area served per school in rural areas worked out to be 6.83 sq. miles. Number of students per primary school in rural areas was 49 and number of students per teacher 24. There were 58 students in primary schools per 1,000 of rural population. In 1960-61, there were 42

secondary institutions with 336 teachers and 8,283 pupils, giving an average of 23 pupils per teacher. There was only one institution for higher education namely, M. P. Shah Arts and Science College, Surendranagar with 29 teachers and 517 students on the role. In 1960-61, there were 14 special schools which include balmandirs, training college, etc., having 76 teachers and 1,701 students.

4.9 Languages

Table C-V in Part II of this Handbook shows the population of major languages for the district and each taluka separately. The distribution of speakers of each major language by rural and urban in the district is as under :

Distribution of speakers of major languages, 1961

Sl. No.	Major language	Percentage of total population			Percentage of each major language in	
		Total	Rural	Urban	Rural	Urban
1	2	3	4	5	6	7
	Total of all languages	**100.00**	**100.00**	**100.00**	**72,01**	**27.99**
1	Gujarati	98.60	98.96	97.67	72 27	27.73
2	Marathi	0.11	0.03	0.33	20 42	79.58
3	Hindi	0.32	0.12	0.83	26 88	73 12
4	Sindhi	0.08	0 02	0.23	18.70	81.30
5	Urdu	0.64	0.68	0.53	76.73	23.27
6	Kachchhi	0.08	0.09	0.07	75.71	24 29
7	Others	0.17	0.10	0.34	43 95	56 05

It will be seen from the above table that 98.60 per cent of the population in the district have Gujarati as their mother tongue. 72.27 per cent of them live in rural areas and 27.73 per cent in urban areas. The number of speakers of other languages are not significant.

4.10 Religions

The following table gives distribution of religions.

Religions, 1961

Religions	Population	Percentage of total population
1	2	3
Total	**663,206**	**100.00**
Hindu	592,415	89.33
Muslim	42,942	6.47
Jain	27,309	4.12
Sikh	112	0.02
Christian	389	0.06
Other religions	39	N.

N=Negligible

It will be seen from the above table that 89.33 per cent of the total population are Hindus, 6.47 per cent Muslims and 4.12 per cent Jains. Sikhs and Christian forms 0.02 per cent and 0.06 per cent respectively. Among others 8 are Buddhists and 31 follow other religions and persuasions.

4.11 Scheduled Castes and Scheduled Tribes

4.11 (i) Scheduled Castes

The total population of Scheduled Castes as per 1961 Census is 66,444 which forms 10.02 per cent of the total population of the district. The following table gives the figures of Scheduled Castes for total/rural/urban.

Scheduled Castes, 1961

Total/Rural/Urban	Persons	Percentage of total population
1	2	3
Total	**66,444**	**10 02**
Rural	54,019	11.31
Urban	12,425	6.69

The literate and educated among the Scheduled Castes number 7,970 and constitute 12.00 per cent of the total population of Scheduled Castes of the district. The rural and urban proportion among them is 10.24 per cent and 19.63 per cent of their population respectively in villages and towns. The working population accounts for 28,270 persons or 42.55 per cent of their population in the district. Workers in special occupations like (i) tanning and currying of hides and skins and (ii) scavenging number 1,124 (1.69 per cent) and 771 (1.16 per cent) respectively of the total population of Scheduled Castes of the district.

Tables of SCT series in Census of India 1961 Volume V-Gujarat Part V-A show details as to number of Scheduled Castes/Tribes, industrial categories, marital status, religion, etc., for each Scheduled Caste/Tribe. Sex and percentage distribution of Scheduled Castes population by rural/urban in the district is shown n the table given below.

Percentage distribution of Scheduled Castes population by rural/urban, 1961

Name of Scheduled Caste	Total population			Sex		Percentage to total population of the district			Percentage of each Scheduled Castes population	
	T	R	U	M	F	T	R	U	R	U
1	2	3	4	5	6	7	8	9	10	11
Total	**66,444**	**54,019**	**12,425**	**33,650**	**32,794**	**10.02**	**8.15**	**1.87**	**81.30**	**18.70**
Bawa (Dedh) or Dedh Sadhu	649	481	168	323	326	0.10	0.07	0.03	74.11	25.89
Bhangi or Rukhi	7,084	4,978	2,106	3,581	3,503	1.07	0.75	0.32	70.27	29.73
Chamadia	770	698	72	411	359	0.12	0.11	0.01	90.65	9.35
Chamar, Nalia or Rohit	15,960	12,377	3,583	8,038	7,922	2 41	1.87	0.54	77.55	22.45
Dangashia	1,497	1,452	45	747	750	0.22	0.22	..	96.99	3.01
Garoda	1,398	988	410	709	689	0.21	0.15	0.06	70.67	29.33
Hadi	103	..	103	42	61	0.01	..	0.01	..	100.00
Meghwal	2,657	2,285	372	1,331	1,326	0.40	0 34	0.06	86.00	14.00
Senva	1,657	1,657	..	810	847	0.25	0.25	..	100.00	..
Thori	24	..	24	9	15	..	..	..	..	100.00
Turi	133	115	18	61	72	0.02	0.02	..	86.47	13.53
Turi Barot & Dedh Barot	638	403	235	320	318	0.10	0.06	0.04	63.17	36.83
Vankar, Dhedh or Antyaj	32,544	27,264	5,280	16,613	15,931	4.91	4.11	0.80	83.78	16.22
Unclassified	1,330	1,321	9	655	675	0.20	0.20	..	99 32	0.68

The predominant Scheduled Castes in the district are Vankar, Dhedh or Antyaj having 32,544 souls or 4.91 per cent of the total population of the district, of whom 83.78 per cent live in villages and 16.22 per cent in towns.

4.11 (ii) Scheduled Tribes

Scheduled Tribes claim 3,153 or only 0.48 per cent of the total population of the district and 0.23 per cent of the Scheduled Tribes of the State.

The following table gives the figures of Scheduled Tribes in the district.

Population of Scheduled Tribes, 1961

Total/Rural/ Urban	Population	Percentage of total population
1	2	3
Total	**3,153**	**0.48**
Rural	2,921	0.61
Urban	232	0.12

The literate and educated among them number 110 or 3.49 per cent of whom 104 are returned from rural areas and 6 from urban areas.

5 HOUSING

5.1 Housing Census for the first time

In previous censuses, occupied census houses used as dwellings alone were numbered and listed. Non-residential houses such as shops, factories, workshops, temples, mosques, schools, sarais, office premises and business houses, etc., were not entered in the house-list, as it was not necessary to do so for the purposes of enumeration. They have been brought under the purview of the 1961 Census when a regular housing Census was taken for the first time with a view to account for all structures, dwellings or non-dwellings. With the adoption of a uniform house-list throughout the country, important data such as material of wall and roof, tenure status and number of rooms in case of households, number of persons per room and essential data such as name of the proprietor, products manufactured, number of persons employed and kind of fuel or power, if machinery is used in case of work-shops and factories, have been collected for the first time on this occasion.

5.2 Types of Census houses and their uses

The following table gives the distribution of different types of census houses and the uses to which they are put.

Census houses and the uses to which they are put, 1961

Sl. No.	Type of Census houses	Census houses: Number	Census houses: Percentage to total No. of Census houses
1	2	3	4
1	**Total No. of Census houses**	**188,975**	**100.00**
2	Vacant houses . .	22,666	12.00
3	Dwellings, shop-*cum*-dwellings workshop-*cum*-dwellings .	125,050	66.17
4	Shops and Business houses .	7,322	3.87
5	Factories, workshops and worksheds . , .	2,632	10.39
6	Schools, places of entertainment, medical and social institutions	1,618	0.86
7	Hotels, restaurants and other miscellaneous houses .	29,687	15.71

Out of a total of 188,975 houses, 66.17 per cent were used as dwellings, 12.00 per cent were vacant and the rest were used for non-residential purposes such as shops, business houses (3.87 per cent); factories and workshops (10.39 per cent); schools, places of entertainments and medical and other social institutions (0.86 per cent) and other miscellaneous uses as hotels, restaurants and other places, etc. (15.71 per cent). 80.19 per cent of the households lived in owned houses and the rest (19.81 per cent) in rented ones. In urban areas 52.04 per cent of the households live in houses of their own and 47.96 per cent reside in rented houses. The percentage of rented houses in urban areas is greater than in rural areas. The higher proportion of rented houses in urban areas indicates the increased demand of houses on the part of those attracted towards towns. An analysis of the material of wall and roof shows that the predominant materials were burnt bricks and mud in case of walls and tiles in case of roof. The percentage of households having walls with mud and burnt bricks was 44.66 per cent and 5.04 per cent respectively. Households having roofs covered with tiles, etc., accounted for 91.52 per cent and those with corrugatell iron sheets 1.27 per cent.

5.3 Households classified by number of members and rooms occupied

The most important classification, however, was one by the number of rooms in the houses occupied by sample households, given in the following table.

Households classified by number of members and number of rooms occupied, 1961

(Based on 20% Sample)

No. of rooms	Percentage of total households	Percentage of total members
1	2	3
No regular room	0.12	0.12
1 room .	62.83	56.29
2 rooms .	27.46	31.18
3 rooms .	5.56	6.63
4 rooms .	2.73	3.76
5 rooms or more	1.30	2.02

According to this classification, 62.83 per cent of the households lived in houses with one room, 27.46 per cent in houses with two rooms and 9.59 per cent only in houses with more than two rooms. The population in fiirst two classes jointly account for 90.29 per cent of the total sample population. The number of members per room in households occupying houses with one room was 4.91 while that for households living in houses with 2 rooms was 3.11. These figures amply reflect growing overcrowding and the inadequate housing facilities in the district as in the State as a whole.

5.4 Housing Societies

There were 109 housing societies with a membership of 2,763 and share capital of Rs. 1,013,000.

6 AGRICULTURE

6.1 Land Utilisation

The utilisation of land resources forms a major item in any programme of economic planning in an economy which is predominantly agricultural. It reveals the various uses to which land is put and also indicates improved ways of exploitation of its resources for better production.

Land utilisation, 1956-57 and 1960-61

Sl. No.	Item	1956-57 Area in acres	1956-57 Percentage of total area	1960-61 Area in acres	1960-61 Percentage of total area
1	2	3	4	5	6
1	**Total geographical area**	**2,488,300**	**100.00**	**2,565,500**	**100.00**
2	Area under cultivation	1,549,700	62.28	1,633,400	63.67
3	Area other than cultivation	938,600	37.72	932,100	36.33
	(i) Cultivable waste, permanent pastures and other grazing lands	246,400	9.90	237,500	9.26
	(ii) Others	692,200	27.82	694,600	27.07

Note:

The figures for the year 1956-57 are for the district as constituted then and not as constituted in 1961. Further details are available in Official Statistics Table 3.1 published in Part II of this Handbook.

Comparison between the previous Censuses is not possible (i) in view of the changes in classification of land utilization and (ii) territorial changes in the district. In 1960-61 the area under cultivation was 1,633,400 acres or 63.67 per cent the total geographical area and that put to uses other than cultivation 932,100 or 36.33 per cent. Of the latter 237,500 is cultivable waste, permanent pastures and grazing lands and 694,600 barren and uncultivable lands.

6.2 Cropping Pattern

The changes in the cropping pattern during the quinquennium can be seen from the following table.

Percentage of area under different crops during 1956-57 and 1960-61

	Crops	1956-57	1960-61
	1	2	3
1	Rice Paddy	0.07	0.10
2	Wheat	4.55	2.58
3	Jowar	18.59	18.86
4	Bajri	19.38	16.36
5	Other cereals	0.24	0.17
	Total cereals	*42.83*	*38.07*
6	Gram	1.26	0.25
7	Other pulses	1.71	0.91
	Total pulses	*2.97*	*1.16*
8	Sugarcane	0.01	0.02
9	Fruit and Vegetables (excluding potatoes)	0.03	0.17
10	Condiments and Spices	0.07	0.09
11	Other food crops	0.01	0.01
	Total food crops	**45.92**	**39.52**
12	Groundnut	3.13	10.28
13	Sesamum	2.36	1.84
14	Castor seeds	N	..
15	Linseeds	..	0.06
	Total oil seeds	*5.49*	*12.18*
16	Cotton	46.69	45.42
17	Other fibres	..	0.13
	Total fibres	*46.69*	*45.56*
18	Other non-food crops	1.90	2.75
	Total non-food crops	**54.08**	**60.48**
	Total area under crops	**100.00**	**100.00**

Details as to area and outturn for the years 1950-51 to 1960-61 for the above crops are available in Official Statistics Table 3.2 in Part II of this Handbook.

Among crops, cotton (45.42 per cent), Jowar (18.86 per cent), Bajri (16.36 per cent) and Groundnut (10.28 per cent) account for (90.92 per cent) of the total cropped area. The principal food crops of the districts are Jowar, Bajri and Wheat. Cotton and Groundnut are the main non-food crops. The percentage comparision of different crops indicates that the cropping pattern has changed as there is a significant decline in food crops from 45.92 per cent in 1956-57 to 39.52 per cent in 1960-61, with a corresponding increase in non-food crops which have risen from 54.08 per cent in 1956-57 to 60.48 per cent in 1960-61. These data reveal a definite tendency towards

growing more cash crops than food-crops. Cash crops like Cotton and Groundnut are the main crops which account for 55.40 per cent of the total cropped area as against (35.22 per cent) for Jowar and Bajri.

6.3 Crop Calendar

The months of sowing and harvesting of different crops are given below.

Grop Calendar

Name of crop 1	Months of sowing 2	Months of harvesting 3
Wheat	October-November	March-April
Jowar	June-July	October-November
Bajri	June-July	October-November
Ground nut	June-July	October-November
Cotton	June-July	January-March

7 LIVESTOCK

7.1 Livestock

According to the livestock censuses of 1951, 1956 and 1961, the cattle population of the district is found to be distributed as under.

Livestock, 1951, 1956 and 1961

Categories of livestock 1	1951 2	1956 3	1961 4
Total livestock . .	**467,856**	**569,573**	**529,827**
A Bullocks and Cows	160,203	241,756	250,772
1 Males over 3 years	75,953	92,122	104,367
2 Females over 3 years	59,118	73,810	80,836
(in milk)	(44,993)	(39,253)	(36,750)
3 Young stock .	25,132	75,824	65,569
B Buffaloes . .	54,881	62,861	76,680
1 Males over 3 years	352	820	848
2 Females over 3 years	40,835	33,479	42,697
(in milk)	(30,635)	(20,026)	(21,673)
3 Young stock .	13,694	28,562	33,135
C Sheep . .	154,599	130,748	98,858
D Goats . .	92,346	118,088	88,649
E Horses and Ponies	5,020	9,087	10,198
F Mules . .	20	70	39
G Donkeys . .	300	6,684	4,454
H Camels . .	477	272	177
I Pigs . .	10	7	..

The livestock population of the district increased by 21.74 per cent from 467,856 to 569,573 during the first quinquennium 1951-56, but fell down by 6.98 per cent from 569,573 in 1956 to 529,827 in 1961. Bullocks and cows, however, show uniform increase throughout the decade in both males and females over three years, although females in milk have decreased a little in 1961. The increase in young stock among bullocks and cows is 300 per cent in 1956 over their population in 1951 but there is a noticeable decrease in 1961. Male buffaloes over 3 years are continuously increasing during the last decade. Female buffaloes had decreased in 1956 but again increased in 1961 above their population in 1951. It is to be noted that while the population of sheep is continuously going down since 1951 that of goats has gone down between 1951-61. Horses and ponies have more than doubled during the decade. The decrease in number of camels is significant. But donkeys which had unparalleled increase from 300 in 1951 to 6,684 in 1956, have gone down to 4,454 in 1961.

7.2 Agricultural Tools and Implements

The number of wooden ploughs rose from 15,000 in 1951 to 32,017 in 1956 and to 37,588 in 1961. But the number of iron ploughs has been found to be decreasing as they fell down to 447 in 1956 and to 240 in 1961 from 1,200 in 1951. The number of carts in 1951 was 18,848 which increased to 21,827 in 1956 and to 25,459 in 1961. Number of sugercane-crushers in the district were 87 in 1951, 112 in 1956 and 80 in 1961. Oil engines which were 290 in 1951, fell to 91 in 1956 and rose to 584 in 1961. The number of tractors also rose from 20 in 1956 to 48 in 1961. Oil ghanis have remained steady in last decade.

8 IRRIGATION

8.1 Area Irrigated

In 1960-61, the net area irrigated was 36,700 acres or 2.2 per cent of net area sown as against 15,300 or 1.2 per cent of the net area sown in 1952-53. Main crops under irrigation are cotton, wheat, jowar and fodder crops. During the decade, there is a significant change in the proportion of food crops and non-food crops under irrigation. Area of total food and non-food crops under irrigation in 1950-51 was 12,900 and 2,400 acres respectively, as against 19,000 and 17,900 acres respectively in 1960-61. The area of cotton under

irrigation during the decade has gone upto 16,000 acres in 1960-61 as compared to 2,400 acres only in 1950-51 and in case of wheat, it has increased to 12,500 from 7,800 acres during the same period.

9 CO-OPERATION

9.1 Co-operative Societies and their types, etc.

Before the formation of Saurashtra State in the year 1948, the co-operative movement in the Surendranagar district had almost no footing. The Bombay Co-operative Societies Act was applied to the district in 1948 whereafter the co-operative movement has registered a steady progress in this area by playing an important role in its economy. At the end of the Second Five Year Plan (1960-61), the total number of co-operative societies was 563 with a membership of 53,502 and working capital of Rs. 528.02 lakhs. Of the various types of societies, agricultural credit societies numbering 271 with a membership of 29,273 persons and working capital of Rs. 170.41 lakhs, dominated the co-operative field. Next in order were 109 Housing Societies with 2,763 members and working capital of Rs. 52.58 lakhs, followed by other industrial societies, the membership of which was 2,695 and working capital of Rs. 29.41 lakhs.

Establishment of a spinning mill at Limbdi with 409 members and working capital of Rs. 71.52 lakhs is a noteworthy achievement made in the field of co-operation not only in this district but also in the State. Averages per society of working capital, worked out to Rs. 93,000, of loans Rs. 56,000 and of membership 95 persons.

10 ECONOMIC ACTIVITY

10.1 Definitions

The criterion of income or economic independence was adopted for measuring the economy of the country during the past censuses. On the present occasion emphasis is on the work done or the economic activity pursued by an individual so that all people such as family workers and children who work but do not earn enough for their maintenance are also accounted for as workers. Another important change relates to the presentation of the economic data according to the nine industrial categories of workers and non-workers instead of the eight livelihood classes classified by self-supporting persons and their dependants in 1951.

STATUS OF EMPLOYMENT

Persons doing work other than that as cultivator or Agricultural labourer or engaged in Household Industry have been classified into following four categories :- (i) Employer, (ii) Employee, (iii) Single worker and (iv) Family worker. In view of the wide range of economic data included in this section, it will be useful to define in brief the various terms used.

(i) *An Employer* is a person who has to employ other persons in order to perform the nature of work undertaken by him.

(ii) *An Employee* is a person who usually works under some other person for salary or wages in cash or kind.

(iii) *A Single Worker* is a person who works by himself but not as head of household in a household industry. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually.

(iv) *A Family Worker* is a member of the household who works without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season.

Industries are classified as household and non-household. A household industry is defined as an industry which is not run on a scale of a

registered factory and conducted by the head of the household himself and/or mainly members of the household at home or within the villages in rural areas and only at home in urban areas. Rest of the industries, viz., business, trade, profession or service are non-household industries.

10.2 Distribution of workers & non-workers

The following table gives the distribution of population by workers and non-workers.

Distribution of population by workers and Non-workers, 1961

Workers/Non-workers	Persons		Percentage to total population	
	State	District	State	District
1	2	3	4	5
Total Population	**20,633,350**	**663,206**	**100.00**	**100.00**
Workers	8,474,588	250,367	41.07	37.75
Non-workers	12,158,762	412,839	58.93	62.25

The following statement shows the distribution of workers into 9 industrial categories.

Distribution of workers and percentage to total workers, 1961

Sl. No.	Category of workers	Population		Percentage of total workers	
		State	District	State	District
1	2	3	4	5	6
1	As cultivators	4,519,060	122,981	53.32	49.12
2	As agricultural labourer	1,252,000	31,510	14.77	12.59
3	In Mining, quarrying, livestock, forestry, fishing, hunting, plantation, orchards and allied activities	104,850	4,407	1.24	1.76
4	At household industry	555,606	25,639	6.56	10.24
5	In manufacturing other than household industry	536,159	16,729	6.33	6.68
6	In construction	90,043	2,328	1.06	0.93
7	In trade and commerce	411,156	12,421	4.85	4.96
8	In transport, storage and communications	159,061	4,004	1.88	1.60
9	In other services	846,653	30,348	9.99	12.12

The population of the district is distributed into workers and non-workers in the ratio of 37.75 : 62.25 per cent. Amongst the working population, cultivators account for 49.12 per cent and agricultural labourers 12.59 per cent only as against 53.32 and 14.77 per cent respectively for the State. The striking feature of the economic pattern obtaining in the district as elsewhere in the State is predominantly agricultural as revealed by 61.71 per cent of workers engaged in agricultural pursuits. Next in order are other services (12.12 per cent) and the household industry (10.24 per cent) and manufacturing industries (6.88 per cent).

10.3 Class of worker

Industrial classification by sex and class of worker of persons at work in household and non-household industry as shown in details in census Tables B-IV-A and B is as under :-

Persons at work in household industry

	Persons	Percentage
Total	**25,639**	**100.00**
Employees	417	1 63
Others	25,222	98 37

As stated earlier, household industry is run mostly by members of the household, the need for having employees working for salary or wages being negligible.

Persons at work in non-household industry, trade, business, profession or service

	Persons	Percentage
Total	**70,237**	**100.00**
Employers	5,645	8.04
Employees	31,408	44.72
Single workers	25,974	36.98
Family workers	7,210	10.26

It will be seen from the above figures that in non-household industries, trade, business, profession or service, employees (31,408) predominate

and account for nearly ⅓ of the workers engaged in these categories wherein single workers account for 25,974 family workers 7,210 and employers 5,645 only.

10.4 Principal and secondary work

Principal work : In case of a person who is engaged in more than one productive activity, the principal work is the one on which the person spends most time.

Secondary work : The work which is the next in importance to his principal work which occupies most time is secondary work.

Persons working principally as cultivators, as agricultural labourers or at household industry and following any of these as secondary work as given in Table B-VII Part-A of this Handbook, are as under.

(A) Persons working principally as cultivators and doing secondary work–

(i) at household industry .	3,245
(ii) as agricultural labourers .	1,358

Persons working principally as agricultural labourers and doing secondary work–

(i) at household industry . .	307
(ii) as cultivator . . .	244

Persons working principally at household industry and doing secondary work–

(i) as cultivator . . .	947
(ii) as agricultural labourer .	691

(B) In Table B-VII Part-B persons working in non-household industry, trade, business, profession or service who are also engaged in household industry are 173.

Persons who are working principally as cultivators and to whom household industry is a secondary activity are proportionally larger, probably due to the fact that small holders of land prefer to take up household industry as their secondary means of livelihood rather than go in as agricultural labourer. Similarly the fact that a large proportion of workers at household industry work at cultivation to supplement their income also brings out the complementary nature of cultivation and household industries.

10.5 Occupational Classification

The two concepts, viz., industry and occupation are quite distinct, though often mistaken for each other. 'Industry' means that sector of economic activity in which the earner is engaged, e.g., textile industry, automobile industry, whereas the 'occupation' describes the exact function that an individual performs in that economic activity, e.g., fitter, carpenter, etc.

Table B-V in Part II of this Handbook shows the distribution of persons at work other than cultivation. This type of detailed classification based on National Classification of Occupations has been done for the first time in 1961. The percentage distribution for the State and the district is given below ;–

Percentage distribution of workers according to occupational divisions, 1961

Occupational Division 1	State 2	District 3
0 Professional, technical and related workers . .	5.95	5.68
1 Administrative, executive and managerial workers . .	2.32	2.43
2 Clerical and related workers	6.41	5.20
3 Sales workers . . .	13.88	11.79
4 Farmers, fishermen, hunters, loggers and related workers .	11.73	11.50
5 Miners, quarrymen and related workers . .	0.58	0.99
6 Workers in transport, storage and communication occupations . . .	4.24	3.61
7–8 Craftsmen, production process workers and labourers not elsewhere classified .	46.67	52.05
9 Service, sport and recreation workers . . .	7.96	6.52
X Workers not classified by occupation . . .	0.26	0.23

Excepting cultivation the most important occupational divisions in the State as well as the district are divisions 7–8, craftsmen, production process workers and labourers not elsewhere classified and division 3 sales workers.

10.6 Non-workers

Non-workers account for 412,839 persons, 279,975 males and 132,864 females. The distribution of non-workers by eight broad categories is shown in Table B-IX in Part II of this Handbook. Percentage distribution of non-workers by sex according to their type of activity is shown below for total/rural/urban, 1961.

Distribution of Non-workers by sex and type of activity, 1961

Sl. No.	Categories of Non-workers	Total/Rural/ Urban	Males	Females
1	2	3	4	5
1	Full-time students	T	25.71	7.59
		R	19.83	3.56
		U	38.29	16.00
2	Household duties	T	0.22	44.15
		R	0.27	42.21
		U	0.12	48.18
3	Dependants, infants and disabled	T	70.01	47.08
		R	77.28	53.21
		U	54.44	34.30
4	Retired, rentiers, etc.	T	1.95	1.01
		R	1.08	0.86
		U	3.81	1.32
5	Beggars, vagrants	T	0.82	0.13
		R	0.95	0.14
		U	0.54	0.10
6	Inmates of penal, mental and charitable institutions	T	0.28	0.03
		R	0.14	0 01
		U	0.57	0.08
7	Persons seeking employment for the first time	T	0.38	N
		R	0.19	N
		U	0.79	N
8	Unemployed but seeking work	T	0.63	0.01
		R	0.26	0.01
		U	1.44	0.02

N=Negligible

The distribution pattern of non-workers among males and females is very dissimilar. Among male non-workers, 25.71 per cent are students and 70.01 per cent dependants, who jointly account for 95.72 per cent as against 7.59 and 47.08 per cent respectively among females. Higher percentage of dependants among males is likewise explained by the general absence of household duties among males who claim 0.22 per cent in this category against 44.15 per cent among females.

The higher percentage of full-time students in the urban sector as compared to rural is, however, explained by the greater consciousness and opportunity town people have in the matter of education. The percentage of females engaged in household duties is found to be higher in urban areas than that in rural areas, as women folk in villages in addition to their attending to household chores also participate in agriculture and household industry. While the percentage of unemployed persons seeking work is insignificant (0.63) for males, that for females is 0.01.

11 INDUSTRIES AND POWER

11.1 Registered Factories

There were 133 registered factories in the district at the end of the year 1960, employing on an average 11,471 persons daily. From the point of view of employment offered, Gins and Presses are the most important industry in the district. There were 71 Gins and Presses in the district employing on an average 3,554 persons or 30.98 per cent of the total factory employment per day.

Next in importance to Gins and Presses is food, drinks and tobacco industry with 23 units which employed 2,052 persons and constituted 17.89 per cent of the total employment in factories. Important amongst the rest are the engineering, metal and minerals. Four Government and local fund factories provide employment to 1,145 persons. There were three Government and private power houses in the district.

11.2 Joint Stock Companies

There were 20 joint stock companies functioning on the 31st March, 1961 with authorised capital of Rs. 41,731,800 and subscribed capital of Rs. 19,198,350. The authorised and subscribed capital per joint stock company comes to about Rs. 2,086,540 and about Rs. 999,918 respectively. The joint stock companies classified as processing and manufacturing of metals, chemicals and products thereof dominate the joint stock field with a total authorised capital of Rs. 30,500,000 and subscribed capital of Rs. 12,156,300. While such companies constitute 10 per cent of the total number of joint stock companies, their authorised and subscribed

capital account for 73.09 per cent of authorised and 63.32 per cent of subscribed capital of all the joint stock companies floated in the district.

11.3 Banking

There has been a steady increase in the banking facilities available in the district since 1950-51. The number of scheduled and co-operative banks in 1960-61 was 17 and 5 respectively. It is interesting to note that while there was not a single co-operative bank in the beginning of the First Plan, such institutions number 5 in 1960-61.

11.4 Small Scale Industries

The important small scale industries of the district are manufacture of copper and brass wares. Important centres of these industries are Surendranagar, Wadhwan and Limbdi. There were 65 industrial co-operative societies, with membership of 4,268 persons and share capital worth Rs. 9.44 lakhs.

One industrial training centre had started functioning in June 1958 at Surendranagar for imparting training in the hereditary professions, such as carpentry, blacksmithy, etc. Number of persons trained during the third term in the courses of weldermen, wiremen and fitters was 32.

11.5 Electricity and Power

Zalawad Electricity Supply Company and Gujarat Electricity Board are the chief source of electric power in the district in addition to a power house located at Limbdi.

The utilisation of electricity has increased substantially during the Second Five Year Plan. From 3.408 millions K. W. Hs. in 1950-51 it has gone up to 4.468 million K. W. Hs. at the beginning of the Second Five Year Plan and shot up to 9.590 million K. W. Hs. in 1960-61.

The utilisation of electricity under industrial power has shown considerable rise from only 2.197 million K. W. Hs. in 1955-56 to 7.098 million K. W. Hs. in 1960-61 revealing the greater demand made by industries on the use of electricity in recent times.

Table given below gives the pattern of utilisation of electricity in the district in the years 1950-51, 1955-56 and 1960-61.

Units of electricity sold, 1950-51, 1955-56 and 1960-61

['000 K.W.H.]

Year	Kilowatt hours sold to public for: Domestic consumption	Commercial light and small power	Industrial power	Other purposes	Total utilisation of electricity
1	2	3	4	5	6
1950-51	*1.299	0.195	1.633	0.281	3.408
1955-56	*1.683	0.218	2.197	0.370	4.468
1960-61	*1.433	0.507	7.098	0.552	9.590

* Includes figures of commercial use also in case of those private licence-holders who have not furnished separate figures for domestic and commercial consumption.

The foregoing figures show that the pattern of utilisation of electricity has radically changed in 1960-61 as compared to that in 1955-56.

11.6 Factories and workshops classified by power and no power used

Statistics of census houses used as factories, workshops and worksheds classified by power and no power used have been compiled for the first time during the census of 1961 and extracted below for the State and district.

Factories and workshops by type of power and no power used, 1961

Power/ Fuel	Rural/ Urban	State: No. of factories, etc.	State: Percentage of total	District: No. of factories, etc.	District: Percentage of total
1	2	3	4	5	6
Total	**R**	**34,447**	**100.00**	**1,073**	**100.00**
	U	**45,686**	**100.00**	**1,780**	**100.00**
Electricity	R	1,248	3.62	3	0.28
	U	12,311	26.95	233	13.09
Liquid fuel	R	4,687	13.61	206	19.20
	U	1,282	2.81	53	2.98
Coal, wood and bagasse	R	3,039	8.82	187	17.43
	U	3,453	7.56	144	8.09
Other power	R	82	0.24	6	0.56
	U	85	0.18	4	0.22
No power	R	25,391	73.71	671	62.53
	U	28,555	62.50	1,346	75.62

The foregoing table is restricted to census houses used as factories and workshops classified by power and no power used in 1961. Factories using electricity in rural and urban areas of the district are proportionately less than those in the State. The proportion of factories using electrical power is less in villages than in towns, both in the district and the State, owing to the paucity of electric supply and industries in rural areas. The use of liquid fuel in the villages is more in this district than in the rural areas of the State. The proportion, however, of fuels other than electricity is observed to be higher in villages than in towns. The proportion of units using no-power is obviously much higher both in rural and urban areas in the State as well as in the district owing to predominance of traditional crafts and industries in our economy.

12 TRANSPORT AND COMMUNICATIONS

12.1 Roads

The facilities of transport and communications play a vital role in the economic development of a region. Their importance has increased manifold with the development made in various spheres of economic activity. The following statement indicates the progress of road mileage in Surendranagar district.

Types of roads, 1950-51 and 1960-61

Types of roads	Mileage	
	1950–51	1960–61
1	2	3
National Highway .	21.00	68.63
State Highway .	22.25	25.75
Other district roads .	151.50	439.18
Village roads	28.00	245.15

On the eve of the First Five Year Plan, total rural mileage was 222.75 which has increased to 778.71 in the year 1960-61. In 1950-51, there was National Highway No. 8A passing through 21 miles of this district, which has increased to 25.75 miles in 1960-61. Classifying the road mileage in the district into metalled and non-metalled surface, it is noticed that out of the total mileage of 778.71 miles, 217.54 miles or 27.94 per cent are metalled and 561.17 or 72.06 per cent non-metalled as against the corresponding mileage of 90.38 or 40.57 per cent and 132.37 or 59.43 per cent in 1950-51 under these categories. All weather motorable roads have thus increased by 127.16 miles or 140.69 per cent during the decade.

12.2 Railways

The equally important mode of transport and communications is railways. There are 23.33 k.m. of broad-guage line, 307.86 k.m. of metre guage lines and 27.30 k.m. of narrow-guage lines in the district as on 31st March 1961. All talukas are connected by rail.

12.3 Post and Telegraphs

There were 111 post offices in 1960-61 covering 672 villages and towns. The number of villages without post office was 560. The number of telephone offices was 14, while that of postmen 47. The offices with post and telegraph facilities numbered 14. The population served per post office comes to 5,975 and per postman, 14,111. There were 340 letter boxes in the district.

13 MEDICAL AND PUBLIC HEALTH

13.1 Medical Institutions

During 1960, medical facilities in the district were provided by the State through 130 medical institutions, which include 5 hospitals, 61 dispensaries, 7 rural health centres and 57 ayurvedic dispensaries. The staff in these institutions consisted of 93 doctors and 31 nurses. The number of beds in the district was 368 and the number of indoor and outdoor patients treated was 117,604 and 2,065,140 respectively.

13.2 Vital Statistics

The statement given below shows vital statistics of the district for the year 1957-60

Birth Rate, Death Rate and Natural Increase in population, 1957–60

Year	Birth rate	Death rate	Natural increase in population
1	2	3	4
1957	39.3	11.2	28.1
1958	21.0	8.0	13.0
1959	30.3	10.6	19.7
1960	27.4	8.8	18.6

The data on vital statistics available being incomplete and defective are useful for drawing general conclusions only. They indicate a fall in the death rate and rise in the rate of survival which can be reasonably attributed to improvement in medical and health facilities since Independence.

13.3 Health Centres

The different public health measures to check the incidence of various diseases in the district are (a) vaccination and revaccination (b) Malaria control (c) Primary Health Centres and Maternity and Child Welfare Centres in rural areas (d) water supply schemes and (e) family planning centres.

Under the National Malaria Eradication Scheme, D. D. T. powder was sprayed twice a year during 1958-61 in all the villages and towns, as a part of the special campaign started under this programme. Accordingly, every fortnight inspection rounds were conducted in each village and town and medical aid was provided to patients suffering from malaria.

14 LABOUR AND SOCIAL WELFARE

14.1 Labour welfare

Three trade unions sponsored labour activities during 1960-61. 75 industrial disputes were filed under Industrial Disputes Act, 1947. No strike or lock out had been reported during the period. The labour welfare centres are located one each at Surendranagar, Dhrangadhra and Thangadh.

14.2 Employment Exchange

There is one employment exchange catering to the needs of the district. The number of persons on live-register in 1958 was 1,192 which had increased to 1,574 in 1960. Corresponding figures of vacancies notified were 419 and 918,642 persons were given placements by the employment exchange in 1960.

14.3 Welfare of Backward Classes

The post-independence period witnessed intensive efforts towards the sphere of economic uplift, education, housing, etc. The progress in the direction is marked by the functioning of 12 Sanskar Kendras and 2 Balwadis for the backward class children. Assistance in terms of subsidies and loans was given in addition to grant-in-aid for agricultural tools, implements and seeds. Loans were also advanced to them for construction and repairs of water wells, building houses and extra-curricular activities.

14.4 Juvenile Delinquency

Delinquent boys and girls of minor ages are kept under observation in the remand home at Wadhwan. The institution offers shelter to aged people in the district.

15 PRICE TRENDS

The average retail prices of important foodstuff during each Calendar month of 1961 collected for Surendranagar, the headquarters of the district are given in Table No. 16.1 in Part II of this Handbook.

The prices of superior cereals like Rice and Wheat were the highest in the month of January and February respectively. The prices of Wheat were more or less steady from July to November, 1961. The prices of inferior cereals, viz. Jowar and Bajri were the highest in the month of June and August; in the pulses, Gram recorded the highest prices in the month of January and February. The price of Arhar (Dal) was highest in the month of March, where as Moong and Udid registered the highest prices in months of January and October respectively.

16 COMMUNITY DEVELOPMENT

16.1 Community Development Programme

The Community Development Programme, a unique and bold effort to mobilise public enthusiasm and cooperation in rebuilding the rural economy of India was inaugurated in the district in October, 1953. The programme since then has undergone various organisational changes as a result of the recommendations of the Balawantray Mehta Committee, appointed by the Planning Commission in 1957 to examine the working of the C. D. programme and related

matters and to recommend measures for improving the quality, tone and content of the programme. In pursuance of the recommendations of this committee the existing distinction between N.E.S. stage, intensive development stage and the post-intensive stage was abolished with effect from 1-4-1958. All the Blocks under the All India programme except Blocks in the C.D. stage which had not completed their three year's period on 1-4-58 were classified into stage I and stage II Blocks with revised financial patterns and periods of operations. The Community Development Blocks, on completing their period, will enter stage II. A stage I Block has a five year period of operation with a ceiling of expenditure of Rs. 12 lakhs for this period. It is "The Intensive Development phase in which people's participation would be promoted as the method of Community Development and panchayats will be intimately connected with the formulation of the Plans for their respective areas. The degree of success attained in the First Stage will be the evidence of the growth and functioning of self-reliant rural communities, which is the basic objective of the programme." Stage II of the programme with a provision of Rs. 5 lakhs for 5 years will seek to intensify the operation of the method of Community Development in its fuller amplitude and will have greater emphasis on Community Development rather than on Development Programme as such.

16.2 Coverage of Programme

The following table gives the type, area, villages and population covered under the progr-amme by March 1961.

Coverage under Community Development Programme by type of Block

Type of Block	Date of inauguration	No. of block of CPA pattern	Area covered in sq. miles 1961	No. of towns and villages covered	Population 1961
1	2	3	4	5	6
STAGE I					
Limbdi	Oct., 1956	1.00	607.5	103	125,192
Dasada	Oct., 1957	1.00	621.0	99	89,732
Dhrangadhra	Oct., 1957	1.00	526.4	65	86,257
Sayla	April 1958	1.00	365.2	77	41,226
STAGE II					
Chotila	Oct., 1953	1.00	404.8	115	55,855
Muli	Oct., 1954	1.00	356.6	61	44,668
Per-Extention blocks					
Wadhwan-Lakhtar	Feb., 1955	1.00	303.5	48	126,060
Halvad	April., 1956	1.00	469.0	69	52,859

By April, 1958 the entire district was covered under the programme.

The total expenditure incurred till that date amounted to Rs. 3,845,000 as against people's contribution of Rs. 1,171,000 or 30.46 per cent of the total expenditure. The physical and financial progress achieved under the first and second stage of blocks up to the year ending 31st March, 1961 have been given in Official Statistics Table No. 15.1 published in Part II of of this Handbook.

17 FIVE YEAR PLANS

17.1 Achievements

The decade 1951-61 roughly corresponds to the First and Second Five Year Plans. Achievements gained as a result of implementation of the Second Five Year Plan at the district level can be observed from the following table showing expenditure incurred during that Plan period.

Headwise expenditure during the Second Five Year Plan

Head	Expenditure	Percentage to total expenditure
1	2	3
Agriculture, Community Development and Co-operation . .	15,819,000	30.34
Irrigation and Electricity	14,204,000	27.24
Transport and Communications . . .	10,429,000	20.00
Industries and Mining .	1,396,000	2.68
Social Services	10,289,000	19.74
Total . . .	**52,137,000**	**100.00**

Of the total expenditure of Rs. 521.37 lakhs incurred during the Second Plan, Agriculture, Community Development and Co-operation appropriated 30.34 per cent, followed by Irrigation and Electricity 27.24 per cent, Transport and Communications 20.00 per cent, and Social Services 19.74 per cent. The highest percentage of total expenditure incurred on Agriculture, Community Development and Co-operation indicates the stress laid on schemes of rural development during the Plan Period.

The physical achievements under different heads have been evaluated as follows:-

Since agriculture is the mainstay of the people in the district, the development schemes relating to agriculture included distribution of improved seeds, fertilisers and pesticides to the farmers and aimed at increasing irrigation facilities, construction of new wells including repair to old ones and grant of loans to cultivators for productive purposes. Thus during the Second Plan two new agricultural aid centres, one at Kanpur (Sayla taluka) and the other at Surajdeval (Chotila taluka) were started. 7 seed-multiplication centres were functioning at the end of the Second Plan. Experiments in dry farming were conducted at a centre organised at Nana Kundhasar village of Chotila taluka, where variety of seeds were also tried for increasing the yield. An agriculture school with 47 pupils was started in 1960-61 at Halvad. That the scheme of contour bunding has gathered momentum is evident from the coverage of 7,000 acres of land every year during the last two years of the Second Plan.

17.2 Animal Husbandry

The number of veterinary dispensaries in the district during the Second Plan was 11 as against 5 in the First. One mobile dispensary was also functioning for meeting with the veterinary needs of remote villages. Eight poultry farms were functioning during the Second Plan and a sum of Rs. 4,880 was advanced for poultry development. With a view to foster better breed of horses, 6 Kathiawari sires were certified and their owners given grant-in-aid of Rs. 30 per month. For improvement of cattle breed 132 pedigree bulls were certified and a sum of Rs. 36,202 was spent for their maintenance.

17.3 Irrigation

This district was devoid of any irrigation facilities prior to the First Five Year Plan. Various new schemes of medium and minor irrigation were completed in the two Plans. By 31-7-1961 a total area of 37,445 acres was brought under irrigation as against 21,739 acres in 1956.

17.4 Co-operation

The district is having the first co-operative spinning mill in Gujarat. This is the Second mill in the whole of India employing about 500 workers per day. There are 450 co-operative societies in the district with total membership of 38,028 and share capital of Rs. 3.76 crores as on 30th June 1961.

17.5 Education

The district has made much headway in the field of education as is evident from the amount of Rs. 5,352,454 spent during the Second Plan as against Rs. 3,272,318 in the First Plan. One arts and science college, one technical high school, 20 secondary schools, 638 primary schools and 5 training colleges were functioning besides one Industrial training centre at the end of the Second. Plan.

17.6 Transport and Communications

As a result of repairs of old roads and construction of new roads and bridges, facilities of transport and communication improved a great deal. The road mileage in the Second Plan had increased by 243.58 miles over 535.13 miles of the First Plan. The construction of 3 major and 1 minor bridges and 260 nallahs was carried out at a cost of Rs. 104.29 lakhs during the Second Plan.

7.7 Electricity

Before the commencement of the First Plan, the consumption of electricity was 3,408 thousand K.W.H. which rose to 4,468 thousand K.W.H. by the end of the First Plan and more than doubled by rising to 9,590 thousand K.W.H. at the end of the Second Plan.

17.8 Small Savings

The net collection in 1960-61 has exceeded the target fixed at Rs. 15.00 lakhs for the district by Rs. 1.73 lakhs. Headwise break up of Small Savings into savings certificates, post office savings bank deposits, treasury savings deposits, and cumulative time deposits can be had from Official Statistics Table No. 17.5 printed in Part II of this Handbook.

18 IMPORTANT PLACE NAMES

18.1 Important Places

Important places in the district are:

Anandpur — Anandpur surrounded by Thanga hills, has a temple of Ananteshvar Mahadev which is as believed by some to have been built by Sidhraj Jaysinh though according to the bards it was founded in 1068 A.D. by Chudasama Anand or Anant.

Dhrangadhra — Dhrangadhra was the capital of the former Dhrangadhra State. It is known for its sand stones of variegated colours useful for building purposes, copper and brass vessels, stone hand-mills, pottery, good bullocks and salt. Dhrangadhra Chemical Works are the most important heavy chemical industry manufacturing soda ash. It is also a military headquarters. The RajMahal, Mayur Bhavan and Man Mahelat, etc., are worth visiting.

Halvad — Halvad was once the capital of the Dhrangadhra State. A beautiful palace built on the bank of a fine lake called Samatsar is also well-known for its beautiful wood work. The *Palia* near cremation ground and the Sundari Bhavani temple date back to the 15th century and are preserved as protected monuments.

Khambhada — It owes its fame to the shrine of the Khambhadio Nag, worshipped by the snake charmers called Vadis, a nomadic tribe.

Limbdi — Limbdi was formerly the capital of the Limbdi State. The first of its kind in Gujarat and the second in the whole of India, a spinning and weaving mill run on a co-operative basis was started in Limbdi with 3,000 spindles in 1958.

Ranagadh — Ranagadh is inhabited by Padhars, members of a Scheduled Tribe, famous for their vigorous and rhythmic folk dances. At a distance of one mile from this place, is Nalsarovar, where all facilities for tourists exist. This lake is famous for flamingoes Pelican and a variety of other birds coming from Siberia and other distant parts of the world during the period from December to March.

Rangpur — It is famous for the temple of Hinglaj Mata, said to have been founded by the Padharias, a Scheduled Tribe.

The excavations at Rangpur have revealed the existence of the post-Harappan culture, certain elements of which continued undisturbed in Saurashtra in spite of waves of migration into this territory.

Surendranagar — It was known as Wadhwan Camp of the British Political Agent. It is the headquarters of the Surendranagar district.

Thangadh — It is well-known for its pottery works and pendas, a variety of sweets prepared from milk.

Wadhwan — It was the capital of the former Wadhwan State. There is an ancient Madhavav. It is the place where Ranak Devi committed *Sati* when brought there as a captive by Sidhraj Jayasinh after slaying her husband Rakhengar, ruler of Junagadh and her two sons.

Details of these and other places will be found in the Brief Gazetteer of Place Names given in this Handbook.

18.2 Ancient monuments

Official Statistics Table No. 18.3 gives details of each ancient monument together with the name of the village, place of location, the period of architecture, brief description, etc.

18.3 Fairs and Festivals

About 50 important fairs and festivals are celebrated at different places in rural and urban areas of the district. The details regarding the place where it is held, name of the fair/festival, the date on which it is held/observed and the estimated congregation are shown in the Official Statistics Table No. 18.2

ANNEXURE

DISTRICT SURENDRANAGAR

Territorial changes after 1st March, 1961

Taluka	Village amalgamated	Whether amalgamated village is deserted of inhabited	Village with which amalgamated	Government orders	Remarks
1	2	3	4	5	6
..	..	..	..	..	As per G.R., R and AD. No. TLC 1262/64994–L, dated 30-12-62 Village Korangadh of Lakhtar taluka of Surendranagar district is transferred to Viramgam taluka of Ahmedabad district. Date of effect 1-1-1963.

GAZETTEER OF PLACE NAMES

DISTRICT SURENDRANAGAR

V. P.=Village Panchayat; G. P.=Group Panchayat; M.=Municipality;
P=Population; N.=North Latitude; E.=East Longitude.

1 Anandpur, G.P. (Taluka Chotila), P. 1,847, 22° 10′ N; 71° 05′ E.

This village is about fifteen miles south of Chotila which is a railway station on the Than–Chotila metre-gauge branch of the Surendranagar–Rajkot railway section. It is surrounded by the Thanga hills some of which are higher than one thousand feet. In former times it was an outpost of Anhilvad kings. The temple of *Ananteshvar Mahadev* is, therefore, believed by some to have been built by Sidhraj Jayasinh though the bards say that it was founded in 1068 A. D. by Chudasama Anand or Anant who also built a large temple and named it *Ananteshvar* subsequently called *Anteshvar* which is a monument of archaelogical interest. The village became uninhabited in about 1264 A. D. and was not repopulated till A. D. 1608 when the Kathis settled there. In 1881 it belonged to the Khachar Kathis, a branch of the Kathis of Chotila.

The neighbourhood of Anandpur is famous for excellent Kathi horses.

Fourteen miles away from Anandpur, there is a temple known as *Thangnath Mahadev's* temple which people visit particularly in the month of *Shravan* (July–August).

2 Bajana, V. P. (Taluka Dasada), P. 3,369, 23° 6′ N; 71° 49′ E.

Bajana is situated on the southern shore of the Little Rann of Kutch, near its south-east corner. It is five miles south of the Patdi railway station on the Ahmedabad–Kharaghoda broad-gauge section of the Western Railway.

The Jats who were driven away from Sindh by its ruler managed to reach the Mandav hills near Than, then in possession of the Parmars of Muli who agreed to aid them. They are said to have maintained themselves in the hills for some time against the attack of the Sindh army which had pursued them on their flight from Sindh. Later on, the Jats went to Ahmedabad and paid their respects to the Sultan who employed them in the siege of Champaner where they distinguished themselves by their prowess. After the capture of the Champaner fortress, the Sultan bestowed 24 villages on their leader Malik Hedoji. As Malik Haidar Khan (one of the Jat leaders) established himself there, Bajana and its neighbourhood came to be known as *Nahani Jatvar* or little Jatvar.

There are two large tanks at Bajana.

With a view to prevent the Little Rann of Kutch from advancing southward and from converting cultivable lands into sandy soil a continuous row of trees has been planted along the southern boundary of the Little Rann and also in the interior. These trees which were first planted at Bajana, Zinzawada and Tikkar villages have converted saltish and marshy lands into a forest area. The experiment is so successful that, if one stands near this row of trees one does not feel that the Rann is in the vicinity.

3 Bhogavo, (1) Nayka (now known as Gautamgadh) Irrigation Project (Taluka Muli)

By constructing an earthen dam, 6,600 feet long, across the Bhogavo river, near the Nayka village now known as Gautamgadh of the Muli taluka, 4,200 acres of lands of the Nayka, Kukda, Lankhdi, Godavari, Shekhpar, Paroli, Malod and other villages have been brought under irrigation. The aggregate length of the main canal and the subsidiary channels is 31.25 miles and the

total increase in the growth of foodgrains is estimated at 1,400 tons.

4 Bhogavo, (2) (Wadhwan Bhogavo) Irrigation Project (Taluka Wadhwan).

An earthen dam has been constructed near Surendranagar across the Bhogavo river. The project is expected to irrigate 1,500 acres of land by means of 10 miles of irrigation canal and channels which will yield an estimated increase of 300 tons of foodgrains. This project is also the source of water supply to Surendranagar, Wadhwan city and Joravarnagar.

5 Bhrugupur (Bhadakawa), V. P. (Taluka Limbdi), P. 2,293

This is an ancient village seven miles from Limbdi, a railway station on the Bhavnagar-Surendranagar metre-gauge section of the Western Railway, having derived its name from the famous sage *Bhrugu Rishi.* Bhadakawa is believed to be a very old place which had *Ashrams* of *Bhrugu* and other saints on the banks of the rivers Vansol and Nagadkiyo. The *Gangvo kund* near *Gangeshwar Mahadev* is considered to be holy, where people take bath and immerse the ashes of the dead kinsmen. The Village Panchayat organises a fair, called *Gangava fair* on *Bhadrapad, Vad* 15 (September) when about 5,000 to 6,000 persons congregate. Another fair called *Jasma-Odan* fair is held on *Shravan Sud 11* (August) when about 1,000 persons of the Od community and others take part and visit the shrine of Jasma, a *Sati* of Od caste associated with the history of Sidhraj Jaysinh of Patan.

6 Brahmani Irrigation Project, (Taluka Halvad),

Nearly nine miles from Halvad, an earthen dam 8,700 feet in length has been constructed with a view to irrigating 27,000 acres of land by means of a canal and subsidiary channels measuring 75 miles in length. The increase in the foodgrain on account of this scheme is estimated at about 8,000 tons.

7 Chokadi, V.P. (Taluka Limbdi), P. 2,155

Five miles west of Chuda, a railway station on the Surendranagar-Bhavnagar metre-gauge section, Chokadi is famous for the shrine of *Charmalyo Nag*, one of the few shrines dedicated to snake worship in the peninsula.

8 Chotila, M., P. 6,460, 22° 30′ N; 71° 30′ E.

Being on the National highway is connected by bus with Ahmedabad as well as Rajkot and is a railway station on the Than-Chotila metre-gauge branch of the Surendranagar-Rajkot section of the Western Railway and is the headquarters of the Chotila taluka.

In ancient times, Chotila was called Chotgad. It is situated at the foot of the Chamund Hill which is surmounted by the temple of *Chamunda Mata* at a height of 1,173 feet. There is also a temple of *Lord Shiva* known as *Zaria Mahadev* five miles north of Chotila, where water springs from the hill and flows over the *Shivling*. Originally a holding of the Sodha Parmars, Chotila was conquered from Jagasio Parmar by the Khachar Kathis in 1566. Most of the Khachar Kathis trace their origin to the Chotila house, one of the twenty States and estates comprising Surendranagar district.

Chotila has taluka offices, a municipality, a high school, a civic dispensary, a veterinary dispensary, a primary health centre and a family planning centre. There is electricity in the town and a public garden. It is a marketing centre from which *ghee* is exported in a large quantity.

9 Chuda, M. (Taluka Limbdi), P. 8,150

It is a railway station on the Surendranagar-Bhavnagar metre-gauge section of the Western Railway.

It was formerly the headquarters of the class III State of Chuda in Jhalavad district. Its climate, though hot and dry, is healthy and its soil is fertile and water good. There are, in Chuda, a high school, a primary health centre, a family planning centre and a public garden.

10 Dasada, V. P., P. 4,435

This place is seven miles from Patdi, a railway station on the Viramgam-Kharaghoda broad-gauge section of the Western Railway. It is connected with Surendranagar and Dhrangadhra

by district roads on which State Transport buses run *via* Dasada.

Dasada was the headquarters of the *Thandar* of the Dasada *Thana* of the former Eastern Kathiawar Agency. Dasada taluka is one of the twenty states and estates which are now included in the Surendranagar district. The talukdars of Dasada were Multani Maleks descended from Malek Bakhan one of the Thanadars who lived and prospered in the time of Sultan Ahmed of Gujarat (A. D. 1411-1443). They were divided into two classes-*viz.*, the descendents of Malek-ul-Huda who were called *Gadhsath* and the descendents of Malek Ahmadji who were called *Baharsath*, the former living inside the fort or *gadh* and the latter outside it.

Dasada is now the headquarters of the Dasada taluka. It has a Government dispensary and a secondary school run by the village Panchayat.

On *Janmashtmi* (August) a fair is held in Dasada when about 2,500 people from surrounding villages congregate.

11 Dhandhalpur, V. P. (Taluka Sayla), P. 1,310, 22° 25′ N; 21° 25′ E.

It is ten miles east of Chotila, a railway station on the Than-Chotila metre-gauge branch of the Surendranagar-Rajkot section of the Western Railway.

For a long time Dhandhalpur was in the possession of the *Babarias* who were expelled in A. D. 1790 by Godad Khavad. The *Khavads* are said to be the off spring of a Jhala of the Patdi house, named Khavadji who married a Kathi lady.

It is said that while on her way to Dholka, Minal Devi, the wife of Karan Solanki of Anhilvad Patan, halted at Dhandhalpur to visit the "*Sidh*" or saint who resided there. She delivered a son who, the hermit said, would be a great sovereign. In gratitude to the *Sidh*, Minal Devi named her son, Sidhraj. When Sidhraj was the king of Gujarat, he built the fort of Dhandhalpur and constructed the tank of *Adalu* to commemorate his birth at that place which was at that time the frontier town of the Anhilvad Kingdom.

There is a twelve feet high idol of saint *Ghungalinath* in Dhandhalpur where a fair attended by about 1,500 people from the surrounding villages is held annually on *Bhadrapad Sud 7*, (August).

12 Dhrangadhra, M., P. 32,477, 22° 30′ N; 71° 30′ E.

This is an important town, being a railway station on the Surendranagar-Halvad metre-gauge section of the Western Railway and situated on the river Falku.

It was the capital of the former Dhrangadhra State which is one of the 20 States constituting the Surendranagar District.

The chiefs of Dhrangadhra are Jhala Rajputs, originally a sub-division of the Makwana family, who claim to be descended from *Markand Rushi* and who are said to have ruled at Keranti, a village in Sindh. Makwana Harpaldev resided in Patdi. A mad elephant one day broke into the courtyard where his children were playing. His wife, a daughter of Pratap Solanki, managed to rescue her children by extending her arm from a window and catching them up and, as "catching" means "Jhalvun", her children were called Jhalas. This Solanki lady died in A. D. 1115. She is worshipped as *Shakti* or Goddess by all the Jhalas. After her death Harpaldev left Patdi. In 1782, Jasvantsinhji, son of Gajsinghji, made Dhrangadhra the chief town of the Jhalas. At the time of Colonel Walker's settlement in A. D. 1807-1808, the Dhrangadhra territory was in an impoverished condition on account of the frequent incursions of the Jats and the Mianas. After the Agency was established in 1,820, it gradually recovered from its exhausted State and steadily improved.

The name Dhrangadhra is probably derived from the Sanskrit *Dharang*, stone, and *Dhara*, holder, as the place abounds in stone quarries. The town is entirely built of Dhrangadhra stone and has three fine gates. At present Dhrangadhra is the headquarters of the Taluka and the sub-division of the same name. All the taluka and sub-divisional offices are stationed there. It has

two libraries, three gardens, a general hospital and the Prankunverba Women's Hospital both run by Government, a veterinary hospital and private dispensaries. Dhrangadhra is equipped with electricity. There are in this town the following four social centres:- (1) The Majur Kalyan Kendra, (2) Mahila Mandal, (3) The Meghji Pethraj Chhatralaya and (4) The Backward Classes Social Welfare Centre. Besides High schools, two colleges viz., the Teachers' Training College and the Technical Teaching College are the important educational institutions in the town.

The Dhrangadhra Chemical Works Ltd., (Heavy chemical industry) manufacturing soda ash, the Parshuram Pottery Works, two ginning factories, the Saurashtra Metal and Mechanical Works, an Ice factory and three oil mills are the industrial activities in the town. Dhrangadhra is known for its sand stones of variegated colours, useful for building purposes, copper and brass vessels, stone hand-mills, pottery, good bullocks and salt.

Dhrangadhra is also a military headquarters.

The palace called Raj Mahal, the guest house known as Mayur Bhavan, the building of the former State called Man Mahelat which now houses all the local offices of the State Government, two courts and the municipal office, the lakes called Jagasar and Mansar, the garden called Masaheb's garden, the Step-well named Makuba's Vav, the big tower one hundred years old are worth visiting.

Among the religious places are the Ram Mahel, the Shakti temple, the Shitala temple, the Jain Derasar, the Deshal Bhagat's *chhapari*, the temples of Ram, Ranchhodji, Krishna, Baldev, Rokadia Hanuman and Swami Narayan.

On *Gokulashtmi* a fair is organised by the Municipality from the 7th to 10th day of the dark half of *Shravan* (August) when about 21,000 people from the Dhrangadhra taluka assemble.

13 Halvad, M., P. 9,524, 23° 1′ N; 71° 13′ E.

A railway station on the Surendranagar-Halvad metre-gauge section of the Western Railway, Halvad was once the capital of the Dhrangadhra State. The name "Halvad" is said to have been derived from "*Hal*" meaning a "plough" "*Vat*" meaning "like", as the old town resembled a plough in shape.

At present Halvad is the headquarters of the taluka of that name. The town has electricity. There are in Halvad an agricultural research station and an agricultural training school, a dispensary, a veterinary hospital, a primary health and family planning centre, a Government high school and a Government aided private school known as the Panchal Pragatigrah for girls.

A beautiful palace built on the bank of a fine lake called Samatsar is also well-known for its beautiful wood work. The *Palia* near cremation ground and the *Sundari Bhavani* temple date back to the 15th century and are preserved as protected monuments. There is a number of "*Sati*" memorial stones and some old temples among which there is one of *Shakti Mata.*

On *Gokulashtmi* on 7th, 8th and 9th days of the dark half of the month of *Shravan* (August) a fair is held at Halvad to celebrate the birth-day of *Lord Krishna.* the congregation at the fair numbering about 4,000 people.

14 Kankavati. V., P. (Taluka Dhrangadhra), P. 1,328, 21° 20′ N; 71° 35′ E.

This village is about eighteen miles from Dhrangadhra, a railway station on the Surendranagar-Halvad metre-gauge section of the Western Railway.

This is a very old village and is said to have been one of the twelve villages granted by Ra-Naughan of Junagadh to a Charan woman named Varudi. There are some old *Sati* memorial stones (*Palias*) raised to commemorate Makwana ladies. There is also an old Matri *Vav* (step-well) having plenty of water in it. Relics of old gates with architecture of 15th century and the Bhimora caves with architecture of 3rd century are protected monuments.

15 Khambhada, V.P. (Taluka Dhranadhgra), P. 692, 22°-50′ N; 71°-30′ E.

This village is situated about eight miles south of Dhrangadhra on the State highway from Surendranagar to Dhrangadhra, *via* Sitapur. It owes its fame to the shrine of the *Khambhadio Nag* or Snake which is just outside the northern gate of the village. The history of the *Khambhada Nag* is that there were seven brothers, Rajputs of the Chavda clan, who resided in the Bhal district with their only sister, Lachhubai. Their village was attacked by plunderers who drove away the cattle. The seven brothers pursued the plunderers to recover the cattle but all of them died fighting in different places, viz., Shiani, Devdholera, Talsana, Tavi, Khambhada, Bechara and Dhavana. On their death they all became snakes and are worshipped as such. Their sister miraculously became a *Sati* in all the seven places at one and the same time. When any of these seven *Nags* is addressed, he is called brother of Lachhubai. These snakes are worshipped by the snake charmers who are called *Vadis*, a nomadic tribe. At Khambhada a fair is held at the *Khambhadia Dev* on the second Monday of *Shravan* (July) when about 3,000 people from the Dhrangadhra taluka congregate.

16 Kharaghoda, V. P. (Taluka Dasada), P. 4,587

It is a railway station on the Viramgam-Kharaghoda broad-gauge section of the Western Railway. It adjoins the Little Rann of Kutch on its south east. Here are located the well-known salt works where the Hindustan Salt Works manufacture salt on a large scale in an area of 23,367 acres. The manufacturing process consists of digging wells about 30 feet deep and filling the salt pans with brine. Salt is then prepared by natural evaporation. Sodium content in this salt is higher and used for soda ash.

17 Khodu, V. P. (Taluka Wadhwan), P. 2,083, 22°-45′ N; 71°-25′ E.

This village is about fifteen miles to the north-west of Wadhwan. There is a very old *Sati* monument at Khodu on which it is recorded that in *Samvat* 1141 (1085 A. D.) the mother of one Joshi Viha became a *Sati* on the second day of the dark half of *Shravan*, the best among the months. The rest of the inscription was illegible even in 1884. Another inscription runs as follows:-

" In *Samvat*-1544 *Shravan Sud 8th*, Thursday, Ran Shri Surdasdev son of Ran Shri Vagh the famous lord of Jhalavad died. To commemorate his death on this spot, his mother Purandi has erected this temple. The mason who built it was named Bhota.

18 Kuda, V. P. (Taluka Dhrangadhra), P. 819, 21°-35′ N; 72°-15′ E.

This is a small village on the southern boundary of the Rann of Kutch and on the east bank of the small river called Godra. It is about thirteen miles north-west of Dhrangadhra and fifteen miles north-east of Halvad.

It is famous for its salt-works which export salt even to places outside Gujarat.

19 Lakhtar, M., P. 8,432

This is a railway station on the Viramgam-Okha metre-gauge railway section between Viramgam and Surendranagar.

It was the capital of the Lakhtar State which is one of the twenty States and estates which merged in the Union of Kathiawar States, later known as Saurashtra and included in Zalawad district now called Surendranagar district. Abhyesinghji, son of Raj Sahib Chandrasinghji of Halvad received Lakhtar for maintenance from the Dhrangadhra Gadi and founded the house of Lakhtar in the beginning of the 16th century. Abhyesinghji was succeeded by his son Vajerajji who was a devoted worshipper of *Ranchhodji*. Lakhtar is, therefore, sometimes called *Ranchhodpuri*. The images of Ranchhodji brought by Vajerajji from his maternal uncle at Dungarpur were kept in the Lakhtar Darbargadh.

Lakhtar is surrounded by a fort-wall. It is a thriving centre of cotton trade, and now the headquarters of the Lakhtar taluka. The town has a municipality which has provided it with

electricity, a high school and a library. There are at Lakhtar a civil hospital and a veterinary dispensary.

20 Limbdi, M, P. 21,801

Limbdi is a railway station on the Surendranagar-Bhavnagar metre gauge section of the Western Railway. It is about fourteen miles south-east of Wadhwan city and ninety miles north-west of Bhavnagar, situated on the north bank of the Limbdi-Bhogavo river.

Limbdi was previously the capital of the Limbdi State which is one of the States now comprising the Surendranagar district. The Limbdi house sprang from Harpaldev, the common ancestor of the rulers of Dhrangadhra and Limbdi houses. It was Verisalji, the son of Aderajji, who removed the capital to Limbdi. The British Government assumed the management of Limbdi in 1867 as the mother of minor chief Jasvantsinghji did not conduct the State affairs satisfactorily but restored it to Jasvantsinghji in 1876 after his return from England which he visited in company with Mr. Macnaghten, the Principal of the Rajkumar college at Rajkot.

Limbdi played an important role in the freedom-movement, especially in the struggle for democratic rule organised by the people against the princely regime. Limbdi is now the headquarters of the Limbdi taluka and the Limbdi sub-Division where all the taluka and sub-divisional offices are located. It has got electricity, piped water supply, a well equipped civil hospital, a public garden, a high school, a maternity home and a veterinary dispensary. Limbdi is well-known for its copper and brass vessels and is also a snuff grinding centre.

The first of its kind in Gujarat and the second in the whole of India, a spinning and weaving Mill run on a co-operative basis was started in Limbdi with 3,000 spindles in 1958. The number of spindles has thereafter increased to 11,872. All of them are working since June 1960, when the Mill began to receive electric power from the Sabarmati Grid Station. About 500 workers are employed in the Mill and about 9,000 bales of cotton yarn are produced every year. There are some power-looms also for producing silk, art-silk and cotton. The Co-operative Spinning and Weaving Mills and the Gandhi Smruti Mandir are places worth seeing.

21 Limbdi, Bhogavo Irrigation Project, (Taluka Sayla)

For this project a dam and a reservoir have been constructed in the river Limbdi Bhogavo near the village Thoriali of the Sayla taluka, to irrigate about 8,000 acres land by means of an irrigation canal and subsidiary channels, the aggregate length of which is 38 miles. Increase in food production is estimated at 2,700 tons.

22 Muli, M., P. 7,537, 22° 35′ N; 71° 25′ E.

Under the name of Muli Road, this is a railway station on the Viramgam-Okha narrow-gauge section of the Western Railway, situated between Surendranagar and Than, about thirteen miles south-west of Surendranagar on the eastern bank of the Bhogavo river.

Muli was the chief town of the former Muli State, one of the twenty States and estates now forming the Surendranagar district. The Parmars who emigrated from Thar Parker in Sindh were permitted by Visaldev, the Vaghela Raja of Wadhwan, to encamp on the bank of the Bhogavo river close to the spot where Muli now stands. At that time, there was a *"nes"* on this spot, belonging to a Rabari woman named Muli who used to supply milk to the Parmars. Later, when the present town was founded on the site of her hamlet, they named it Muli after her.

At present, Muli is the headquarters of the Muli taluka. The town is supplied with electricity. There are, in Muli, a high school, a hospital, a maternity home, a veterinary dispensary, a health centre and a family planning centre.

A dam recently constructed across the river Bhogavo, near Muli, provided irrigation facilities to lands in the neighbourhood. Muli was forme-

rly famous for saddle-cloths and leather water-bags manufactured locally.

Swaminarayan Mandir, monument of *Sati* Jambai, *Mandav rai* temple (a Sun temple built in memory of the Parmar Chiefs who settled in the Mandav hills) and the *Kamdhenu Mandir* are places of religious interest.

The trustees of the *Swaminarayan* temple organise two fairs-one the *Vasant Panchami Fair* on *Magha Sud 5* (January) to celebrate the advent of spring, when about 10,000 persons from the surrounding villages congregate, and the other on *Shravan Vad 8* (August) to celebrate the birthday of *Lord Krishna*, known as the *Janmashtmi* fair which is attended by about 3,000 persons.

23 Patdi. V. P. (Taluka Dasada), P. 7,943

It is an old town, enclosed by a fortwall, on the Viramgam–Kharaghoda broad-gauge section of the Western Railway. It was the chief seat of the former Patdi State now included in the Surendranagar district. It is a salt industrial centre with the offices of two of the four co-operative societies of Agarias (labourers working in salt pans) manufacturing salt in the salt-pans made in the Rann of Fatepur, Verai and Degan, situated therein.

On *Shravan Vad* 7 and 8 (August) a fair called *Bahucharaji's* fair is held at Patdi, when about 6,000 persons congregate.

24 Rajsitapur, V. P. (Taluka Dhrangadhra), P. 2,534

This is a railway station on the Surendranagar-Halvad metre-gauge section of the Western Railway, about thirteen miles south-east of Dhrangadhra and eleven miles to the north-west of Surendranagar. It was founded during the rule of Jhalakdevji between A. D. 1185 and 1210 and was named *Sitha* after the name of an Ahirani who had become a *Sati*. The village is surrounded by an old wall, which was erected between 1846 and 1849 A. D. There is a large monastery of Shaivite *Bavas* (ascetics) who also adore Ambaji.

25 Ranagadh, V. P. (Taluka Limbdi), P. 2,147

Thirty miles from Surendranagar, Ranagadh is inhabited by Padhars, members of a Scheduled Tribe, who are famous for their vigorous and rhythmic folk dances. At one mile from Ranagadh there is Nalsarovar, where all facilities for tourists such as Rest House equipped with water and Electricity exist. Nalsarovar is famous for seeing pelican birds coming from Siberia during the period from December to March.

26 Rangpur, V. P. (Taluka Limbdi), P. 1,623

Rangpur is situated on the western shore of the Nalsarovar and about eighteen miles to the north-east of Limbdi. It is famous for the temple of *Hinglaj Mata* said to have been founded by the *Padharias, a Scheduled Tribe.*

The excavations at Rangpur have revealed the existence of the post Harappan culture in Saurashtra, certain elements of which continued undisturbed in Saurashtra in spite of waves of migration into this territory. They go to show that though the Harappan settlements slowly deteriorated from well-planned and well-built townships into small villages, the traditions of their ceramic and other arts were preserved undisturbed.

27 Sayla, M., P. 7,802, 22° 30′ N; 71° 25′ E.

It is the terminus on the narrow-gauge Joravarnagar-Sayla branch of the Bhavnagar-Surendranagar metre-gauge section of the Western Railway. At present the headquarters of the Sayla taluka, it was the seat of the former Sayla State now included in the Surendranagar district. It is situated on the bank of a large and fine tank known as Mansarovar which is said to have been built by Siddharaj Jaysingh. Its climate is healthy.

There are a high school, a primary health and family-planning centre, a dispensary and two municipal gardens. Sayla has been provided with electricity. This place is famous for the temple of *Ramchandra* built by one Lala Bhagat, where visitor and ascetics are given free food by way

of charity. Sayla is often called Bhagat's village. On *Shravan Vad* 7 and 8 (August) a fair is organised by the trustees of the temple to celebrate the birthday of *Lord Krishna* when nearly 5,000 people assemble.

28 Shiyani, V. P. (Taluka Limbdi), P. 3,367

It is situated half a mile north of Wadhwan Bhogavo river, twelve miles east of Wadhwan, and nine miles north of Limbdi. The town which is ancient was called Shianinagari nearly eleven hundred years ago.

It is one of the most ancient possessions of the Limbdi house of which it was for a short time the capital in the seventeenth century. It is mentioned in the *Ain-i-Akbari* as one of the three *'parganahs'* under Jambu, viz., Jambu, Limbdi and Shiyani. There is an inscription in the Jain temple at that town, dated *Samvat* 1076, showing that certain images of *Shantinath* and other *Tirthankers* were installed by Parakh Jutha Madhavji at Shianinagari in that year. The temple is, however, said to have been built by *Sampriti Raja* (a very early Jain convert) as stated in the Jain *Kalpsutra*, in the *Shatrunjaya-Udhara* and the *Gautama Parakrama.*

29 Sundari, V. P. (Taluka Halvad), P. 491

This place is just near the irrigation dam on the river Brahmani, which is about nine miles from Halvad, a railway station on the Surendranagar-Halvad metre-gauge section of the Western Railway.

Important as a religious and ancient place, it has a temple of *Sundari Mata*, the *"Kuldevi"* or family deity of Kandorna Modh Vaniks and Brahmins. According to a legend the *Pandavas* had stayed here and it is in pursuance of this legend that the idols of the *Pandavas* have been installed at this site which has been preserved as a protected monument. It is also said to be the place where *Kanva Rishi* had his *Ashram.*

30 Surendranagar, M. (Taluka Wadhwan), P. 46,802

This is an important railway junction from which the metre-gauge sections, viz., (i) the Surendranagar-Okha, (ii) the Surendranagar-Bhavnagar and (iii) the Surendranagar-Halvad Sections of the Western Railway branch off in different directions of Saurashtra.

Surendranagar was previously known as Wadhwan camp and was the headquarters of the British Political Agent. The Political Agent withdrew from the Wadhwan Camp and restored it to the Wadhwan ruler in 1946. It was then re-named Surendranagar in 1948 after the name of the ruler Shri Surendrasinhji of Wadhwan State, now comprised in the Surendranagar district.

This town played an important part in the struggle for freedom and was an important centre of passive resistence during various political movements.

At present it is the headquarters of the Surendranagar district where all the district offices such as the Collector's office, the District and Sessions Judge's court, the District Police Superintendent's office, etc., are situated.

The town is provided with electricity. It has several high schools (some of them in Joravarnagar which is a residential suburb with a population of 2,660 recently developed near Surendranagar), an arts and science college, an *Adhyapan Mandir*, *a Stri Pragati Mandal* and a *Stri Sikhshatmak Kendra* run by the municipality, four clubs, the Rangam theatres and the *Bhartiya Kala Mandir* for dramatic and musical activities, the Vidya Mandal, an orphanage, a *Vruddashram*, a town-hall known as *Rambhaben* Town-Hall, a district library run by Government and two others-one at Surendranagar and the other at Joravarnagar-run by the municipality, hospitals, a colony for Harijans and a labour welfare centre.

The town is the largest business centre in the district and is growing, day by day, as a result of a number of new industrial enterprises which are being started since Independence. There are two Industrial estates running on co-operative basis and providing accomodation to 240 factories.

There are four cotton ginning factories, six groundnut oil mills, three power loom factories, a cotton weaving mill known as Kanti cotton mills, the Scientific Mechanic works, the Parmar Mechanics, the Laxman Kadwa concern, the Vora Industries, the Saurashtra Pipe Ltd., the Samarat Industries, the Cast Iron Foundry and Krishna Cast Iron Factory, the Saurashtra Mechanical works at Joravarnagar, several soap factories an important industry in the town and a big factory of clinical thermometers which has been recently started.

Among the important co-operative Institutions are the Surendranagar District Central Co-operative Bank, the Surendranagar District Industrial Co-operative *Sangh* Ltd., and the Gujarat State salt producing Co-operative *Sangh* Ltd.

There are many temples, a *Khoja Khana*, two mosques, two tombs of Muslim saints and a Christian Presbyterian church in the town.

31 Talsana, V.P. (Taluka Lakhtar), P. 1,847, 22° 45′ N; 71° 50′ E.

Talsana is about twenty miles north-east of Limbdi and nine miles south-east of Lakhtar and is situated in the Nalkantha or low lying area in the vicinity of the Nal lake.

The village is known for the temple or shrine of *Nag dev* (Snake God).

A fair is held at Talsana on *Bhadrapad Vad* 15 (September) when about 1,500 persons from the neighbouring villages congregate at the temple of *Hanumanji*.

32 Thangadh, M. (Taluka Chotila), P. 7,753, 22° 30′ N; 71° 10′ E.

Than is a railway junction on the Viramgam-Okha metre-gauge section of the western Railway, from which the Than-Chotila branch starts. It is situated on the west bank of the tributary of Maha river fifteen miles north of Chotila. The town is surrounded by a fort wall.

The original owners of Than are said to have been the Babarias whom the Parmars ousted. The Parmars were followed by the Kathis who made it their headquarters. In A. D. 1690 Kartalab Khan, the Viceroy of Gujarat, dispersed the Kathis and destroyed the temple of the Sun God worshipped by them. Thereafter, Than remained a Muslim *Thanah* till the Mogul power waned. It then fell into the hands of the Jhalas of Halvad.

The town is equipped with electricity, and is well-known for its pottery works and *pendas*, a variety of sweets prepared from milk. There are many small lakes of which the "*Pritam*" and the "*Kamal*" tanks in which *Lord Krishna* and his consort had bathed were once famous. But at present they are not known by these names. Five miles north of Than there is the temple of *Trinetreshwar* (three-eyed God, *Shiva*) which is a protected monument. There are also the temple of Snake God *Vasuki* and the shrine of *Bandia Beli*.

A fair is held at the temple of *Trinetreshwar* on 4, 5, and 6 of *Sud* (bright half) of *Bhadrapad* (August) when about 50,000 persons assemble every year and take bath in an old *Kund* (reservoir) where a fish was pierced by Arjun with his arrow.

33 Tikar, V. P. (Taluka Halvad), P. 2,660

It is a village on the bank of the river Bambhan about a mile from the southern shore of the Little Rann of Kutch. It was founded in A. D. 1328 by Raja Meghpalji and is named after the Gujarati word "Tekaro" meaning an elevation, since it is situated on a rising ground. Tikar is known as being the headquarters of the "*Pavaiyas*" (eunuchs) who are devotees of *Bahucharaji* and whose principal monstery in Kathiawar is located at this place. It has a fine Jain temple built in A.D. 1837 by Sanghvi Hima Surchand.

The village is also famous for earthen vessels and *chophals* (cotton coverlets). Natural salt is also found here.

34 Umarda, (Taluka Muli), P. 1,077, 22° 35′ N; 71° 20′ E.

It is situated on the southern bank of the Bhogavo river, about seven miles south-west of Muli. It is supposed to have been founded about 280 years ago and to have derived its name from a grove of *Umra* trees which flourished in those

days. There is a temple sacred to *Bileshwar Mahadev* where a fair is held on every Monday of *Shravan* (July-August) when about 1,500 persons assemble.

35 Vagadia, V. P. (Taluka Muli), P. 1,672

This village is situated about ten miles from Muli, a railway station on the Viramgam-Okha metre-gauge section of the Western Railway.

A pottery works has been established at this place since 1952.

36 Vanod, V. P. (Taluka Dasada), P. 2,865, 23° 25′ N; 71° 55′ E.

It is about 10 miles north-east of Dasada and 18 miles north-east of Patdi. It is said to have been founded by and named after the celebrated King Vanraj Chavda of Anhilpur Patan the Shrine of whose *Kuldevi Vanav Mata* is situated close to this village.

37 Wadhwan, M. P. 27,104, 22° 30′ N; 74° 0′ E.

Wadhwan city is a railway station on the Bhavnagar-Surendranagar metre-gauge line of the Western Railway.

After the reign of Solankis of Patan, Wadhwan came into the hands of a branch of the Vaghelas who were dispossessed by the Muslims, whereafter it fell into the hands of the Jhalas of Halvad. Wadhwan is the place where Ranak Devi committed *Sati* when brought there as a captive by Sidhraj Jayasinh after slaying her husband Ra' Khengar, ruler of Junagadh and her two sons. Her *Raliyo* or memorial stone, still stands on the southern bank of the Bhogavo river.

Previously the capital of the former Wadhwan State, at present it is the headquarters of the Wadhwan taluka. There are a Government hospital, a veterinary dispensary and high schools. The town is equipped with electricity. Wadhwan is well-known for its brass and copper vessels industry and is a centre of trade in metal and cotton.

There is an ancient *Vav* (step-well) called "*Madhavav*" bearing the inscription that it was built in the *Samvat* year 1350, 1294 A. D., by Madhav, a Nagar Brahmin, the Minister of Karan Ghelo, the last of the Anhilwad Kings. His statue along with that of his wife can be seen in the *Vav*. There is another more ancient *Vav* known as "*Gangavav*" the origin of which is stated to be *Samvat* year 1225, A. D. 1169. Both the step wells are preserved as protected monuments.

38 Zinzuwada, V. P. (Taluka Dasada), P. 4,143, 23° 21′ N; 71° 42′ E.

It is about twelve miles north of Kharaghoda, a railway station on the Viramgam–Kharaghoda broad-gauge line of the Western Railway. It is said that Zinzuwada was founded by one Jhunjho, a Rabari, who founded a hamlet after his name. He is said to have advised king Karan's queen Minal Devi to entreat the hermit of Jhilanand, a small island in the adjacent Rann, for begetting a son. Eventually Minal Devi gave birth to Sidhraj who when he became the king showed much kindness to Jhunjho. Another story ascribes the derivation of the name Zinzuwada to "*Jhanjhva*", a mirage, and this is very probable, as mirages are of frequent occurence at Zinzuwada which is at the head of the Little Rann of Kutch.

This antique place has an old fort and well-built cut-stone reservoir or tank. The old gates of the ruined outer fortifications are very fine specimens of ancient Hindu architecture and are preserved as protected monuments. Many of the stones in the fortifications bear the inscriptions of Mahan Shri Udal popularly known as Udo Mantri, who is said to be the minister of king Sidhraj Jayasing of Anhilwad Patan.

Plantations of 'Vilayati Baval' (Prosopis Juliflora) have been raised at Zinzuwada to stop the further advance of the Rann and prevent desert sands from spoiling cultivable lands.

Salt is manufactured at Zinzuwada and exported to Uttar Pradesh, Bihar, Bhopal and Orissa.

There is an old sacred *Kund* at the temple of *Jhilkeshwar Mahadev* where a fair attended by about 3,000 persons from the villages of the Dasada taluka is held annually on *Vad* 15 of the month *Bhadrapad* (September).

PART II

1 CENSUS TABLES

2 OFFICIAL STATISTICS

A—GENERAL POPULATION TABLES

Out of 4 tables of A Series compiled at this Census, Tables A-I, A-III and A-IV giving area, houses and population, classification of villages and towns have been reproduced in the District Handbook. They are the same as those given in 1951. The most distinguishing features, however, are the various appendices and sub-appendices giving details of (a) 1951 territorial units constituting the present set-up of the district showing changes which have taken place during the decade, (b) villages with a population of 5,000 and over and towns with a population under 5,000, (c) houseless and institutional population, (d) 1951 population adjusted to 1961 administrative units, (e) new towns added in 1961, (f) towns in 1951 declassified in 1961 and (g) towns with their area and jurisdiction.

A-I—AREA, HOUSES AND POPULATION

This table is more elaborate than that of 1951 as it gives in addition to area, houses and population, population per sq. mile, number of inhabited and uninhabited villages and number of towns. The data is given down to taluka/mahal with break-up for Total/Rural/Urban.

Brief Account of Changes in Area of the District from 1901 to 1961

Numerous changes have taken place since Independence in the areas of the districts, though the boundaries of various units comprised therein practically remained unchanged between 1901 and 1941. Three principal stages in which these changes have come about during the Post-Independence period are : (i) those that came in the wake of Independence after 1947; (ii) those that took place on the Reorganisation of States in 1956 and (iii) those that resulted from the bifurcation of the bilingual Bombay State in 1960.

Even after reorganisation in 1956, several territorial changes were effected in 1959, the details of which have been given in sub-appendix 2 to Appendix 1 to Table A-I alongwith the relevant notifications. Broad changes that have taken place in the territorial limits of the district between 1951 and 1961 are, however, listed below :-

Surendranagar :-This district consists of the former Zalawad district and one town and one village of Ahmedabad district.

Rural and Urban Population

During the past censuses there was no uniformity in the criteria prescribed for distinguishing urban areas from the rural. The definition of 'town', therefore, varied from State to State and the places were treated as towns if, in the opinion of the State Government or the Superintendent of Census Operations, they were found to possess urban characteristics. It included all municipalities, cantonments, civil lines and all places with more than 5,000 population which, it was decided, to treat as towns on the ground that they possessed urban characteristics. This definition of 'town' has remained substantially unchanged since 1891. To the characteristics aforementioned, Baroda State, which has merged into Bombay State in 1949 and now forms part of the newly formed Gujarat State added one more according to which all the headquarters of talukas were treated as towns. In view, however, of the increasing importance of studying urbanisation in all its varied aspects, the Registrar General, at the very outset of 1961 Census, emphasised the need for a uniform treatment by strictly defining the concept of 'town'.

Town :

'Town' has been defined as a place having a municipality or a cantonment or a place with a population of 5,000 and over if 75 per cent of its male population is dependent on non-agricultural pursuits. These tests were applied by the Collectors who furnished lists of places to be treated as towns in 1961, which were also got approved by the State Government and the Registrar General.

As against 13 places treated as towns in 1951, 11 qualify to be treated as urban according to the test prescribed by the Census of 1961. The loss of 2 is accounted for by declassification of 2 towns as villages as shown in Statement A.

STATEMENT A

Urban areas of classes V & VI of 1951 eliminated in 1961 with population of 1951 and 1961

Class	Name and number of towns	Population	
		1951	1961
V	Patdi	6,072	7,943
VI	Dasada	3,597	4,435

Village:

'Village' is a revenue village which is an administrative rather than a demographic unit. The definition of the term 'village' has practically remained the same during the entire census period. In short, it is a revenue or cadastral survey village which has got a separate entity and a distinct number assigned to it in the revenue records of the State. It may consist of a single village with a cluster of houses or a number of hamlets with separate clusters of houses. In forest areas it may even consist of scattered houses situated on the field within the boundaries of the village. It may be inhabited or uninhabited.

Census House:

Owing to the diversity of local conditions it was not possible in the past to lay down a uniform definition of a 'Census House' common to all parts of the country. The definition adopted till the Census of 1941 had two-fold connotation which emphasised either (i) the structural aspect, i.e., building or house or (ii) the social aspect, i.e., family or household. The former was defined as the residence of one or more families having a separate and independent entrance from the common way. But the social aspect was emphasised by defining a 'Household' as the home of the composite family with its resident dependents and servants. From 1881–1941, the Census Superintendents adopted the one or the other definition according to their convenience. A clear distinction was, however, drawn between a 'Census House' and a 'Census Household' in 1951 which gave a uniform meaning to the term 'Census House' or the 'Census Household' or the 'Family Unit'. The 'Census House' was defined as, 'a dwelling with a separate main entrance' and the 'Census Household' as 'all persons who live together in the same house and have a common mess'.

Though the definition of a 'Census House' introduced in 1951 was continued during the Census of 1961, it differs from that adopted by the Census of 1961 in that the latter is broad-based to include non-dwellings also. The house-list is thus an inventory of all structures or part of structures with a separate entrance.

The following definitions of the term 'Census House' given in the instructions for filling the house-list will clarify the position still further.

"A 'Census House' is a structure or a part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

A-III—VILLAGES CLASSIFIED BY POPULATION

This table classifies inhabited villages only by size of population. After giving the total number of inhabited villages and rural population for every taluka/mahal, it shows the number of villages and population for the following seven categories, namely:—

(1) less than 200, (2) 200-499, (3) 500-999, (4) 1,000-1,999, (5) 2,000-4,999, (6) 5,000-9,999 and (7) 10,000 and above.

Table A-III of 1951 gives combined figures of inhabited towns and villages classified by population, while A-III of 1961 gives figures of villages only classified by population.

A-IV—TOWNS AND TOWN-GROUPS CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1941

This table gives statistics relating to the figures of population since 1941 showing the growth of each town from census to census. Percentage variation is given from decade to decade, not only for the towns, but also for town-groups, where one or more urban units form a compact urban area. The total population of the town-group along with that of its constituent urban units is given under the class into which the town-group has been classified. Separate figures have, likewise, been given for municipal and non-municipal areas such as port area, suburban area, military area, railway colony, cantonment, etc., where a town is a combination of two or more such units. The following are the six classes into which the towns are grouped in Table A-IV according to the size of population :

Class	Population	Class	Population
I	100,000 and above	IV	10,000 to 19,999
II	50,000 to 99,999	V	5,000 to 9,999
III	20,000 to 49,999	VI	Less than 5,000

The areas of towns in sq. miles and sq. kilometres are also given in the table for 1961.

The term 'town' as defined at the Census of 1961 and its uniform adoption all over the country on the basis of certain specified tests have been explained under ' Urban and Rural Population' in the note to Table A-I.

'Town-group'—This is a new variant of the urban population which has been introduced for the first time on the present occasion. Large cities or expanding towns bring within their orbits new satellite towns, industrial areas or settlements interspersed by small bits of rural areas. Such urban areas, not necessarily municipal, are taken to form town-groups with the main city or town as one of the constituents.

'City'—Places having population of 100,000 and over either individually or as a town-group have been classified as cities.

NOTE :

1 Population per sq. mile under Column 4 has been worked out on the area figures given by the State Survey Department given in Column 3(a).

2 Under Column 4, population of those urban units, for which area figures are not available, is ignored for working out urban density. Rural density is worked out on the basis of rural population only though the area figures include areas of those urban units for which separate area figures are not available.

3 The sq. kilometres under Column 3(b) and density figures of urban areas of Taluka/Mahal and District under Column 4 are worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of the towns in the respective units. In addition to this, the figures relating to sq. kms. are further adjusted to make the Taluka/Mahal and District totals agree.

APPENDIX I

1951 TERRITORIAL UNITS CONSTITUTING THE PRESENT SET-UP OF DISTRICT AND EACH TALUKA/MAHAL

(Only those names/areas which have undergone changes since 1951 have been shown below)

District/ Taluka/Mahal	1951 territorial units	Details of gain in territories	Area		Details of loss in territories	Area		Net area Gain (+) Loss (—)	
		Brief description	Sq. Miles	Sq. Km.	Brief description	Sq. Miles	Sq. Km.	Sq. Miles	Sq. Km.
1	2	3	4	5	6	7	8	9	10
SURENDRANAGAR DISTRICT	As in 1951	1 town, viz.,Patdi, and Kharaghoda village (Sl. No. 75) transferred from Viramgam taluka of Ahmedabad district	19.0	49.42	..	..	..	+19.0	+49.2
Wadhwan	As in 1951	(i) Bala village (Sl. No. 4) transferred from Lakhtar taluka	6.2	16.1	..	..	..	+12.7	+32.9
		(ii) Bhadreshi village (Sl. No. 3) transferred from Dhrangadhra taluka	6.5	16.8	..	..	..	..	..
Muli	As in 1951	2 villages viz., Kuntalpur (Sl. No. 34) and Kalmad (Sl. No.28) transferred from Dhrangadhra taluka	18.7	48.4	..	..	..	+18.7	+48.4
Lakhtar	As in 1951	..	..	..	Bala village (Sl. No. 4) transferred to Wadhwan taluka	6.2	16.1	—6.2	—16.1
Dhrangadhra	As in 1951	..	..	..	(i) Bhadreshi village (Sl. No. 3) transferred to Wadhwan taluka	6.5	16.8	—25.2	—63.2
					(ii) 2 villages viz., Kuntalpur (Sl. No. 34) and Kalmad (Sl. No. 28) transferred to Muli taluka	18.7	48.4	..	..
Dasada	As in 1951	1 town viz., Patdi and Kharaghoda (Sl.No.73) transferred from Viramgam taluka of Ahmedabad district	19.0	49.2	..	..	..	+19.0	+ 49.2

SUB-APPENDIX 1 TO APPENDIX I

AREA FOR 1951 AND 1961 FOR THOSE MUNICIPAL TOWNS WHICH HAVE UNDERGONE CHANGES IN AREA SINCE 1951 CENSUS

District	Municipal Town	Area in Sq. Miles		Remarks
		1951	1961	
1	2	3	4	5
Surendranagar	Surendranagar	1.00	1.88	Jurisdictional Change
	Thangadh	0.08	0.10	Jurisdictional Change

	9 Sayla (595-0)	Part (595-0) of Sayla village
	10 Dhrangadhra (2,560-0)	Part (2,560-0) of Dhrangadhra village
	11 Halvad (2,560-0)	Part (2,560-0) of Halvad village

B—ECONOMIC TABLES

This series is divided into two parts, viz., (i) General Economic Tables and (ii) Household Economic Tables. Economic Tables of the 1961 Census cover a very large field of data and are more elaborate than any of their predecessors. The most important point to remember about the economic tables is that during the past censuses, income or economic independence was the test applied for measuring the economy of the country. Before 1961, economic activity was interpreted in terms of categories like economically independent or economically dependent, semi-dependent, earning dependents or non-earning dependents. In 1951, the economic classification was confined to the eight livelihood classes with stress on income rather than work or economic activity of the individual. The most significant departure that the Census of 1961 has made is the emphasis laid on work, so that all people who work, including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance have also been included as workers. Even the non-workers have been distributed into eight-fold categories according to the activities pursued by them. This change in concept will help obtain a realistic picture of the economic activity of those important sections of household workers who were left out of account in the past.

The Household Economic Tables on the other hand are an entirely new feature of the 1961 Census. They are prepared from household schedules by mechanical tabulation on the basis of 20 per cent sample and give all possible data relating to the extent of land under cultivation, nature of household industry, period of work in household industry and the persons employed either as family workers or as hired labourers.

Industrial and Occupational Classification

Another noteworthy feature of the General Economic Tables is the systematic classification of industries and occupations. For, the one introduced in 1951 was, as truly pointed out by the Registrar General, neither a purely industrial nor occupational classification of the population but a combination of both. The National Classification of Industries and Occupations adopted by the Government of India and followed on the present occasion classifies the economic data into 9 divisions, 45 major groups and 343 minor groups of industries and 11 divisions, 75 groups and 331 families of occupations as against a conglomeration of 10 divisions and 88 sub-divisions of services in 1951.

The following statement gives the categories of industrial workers adopted in the current census and the eight livelihood classes of 1951.

1961 Industrial Categories	1951 Means of Livelihood
	AGRICULTURAL CLASSES
I As Cultivators	I Cultivators of land wholly or mainly owned and their dependents
II As Agricultural Labourers	II Cultivators of land wholly or mainly unowned and their dependents
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	III Cultivating Labourers and their dependents
IV At Household Industry	IV Non-cultivating owners of land, agricultural rent receivers and their dependents
V In Manufacturing other than Household Industry	NON-AGRICULTURAL CLASSES
VI In Construction	Persons (including dependents) who derive their principal means of livelihood from
VII In Trade and Commerce	V Production other than cultivation
VIII In Transport, Storage and Communications	VI Commerce
IX In Other Services	VII Transport
X Non-workers	VIII Other services and miscellaneous sources

In 1951 the non-workers who were known as non-working dependents were classified according to the occupation of the persons on whom they were dependent.

The non-working population is distributed separately for the first time according to eight types of activities, viz., (i) full time students or children attending school who do no other work, (ii) housewives and persons engaged in unpaid home duties, (iii) infants and other dependents including permanently disabled or old persons, (iv) retired persons, rentiers and others who are in receipt of income without doing any work, (v) beggars, vagrants and others of unspecified source of existence, (vi) convicts in jails or inmates of penal, mental or charitable institutions, (vii) persons not employed before but seeking employment for the first time and (viii) persons employed before but now out of employment and seeking employment.

Broadly speaking, workers of 1961 can be taken to be equal to self-supporting persons *plus* earning dependents of 1951 *minus* those in receipt of income without work such as rentiers, pensioners, beggars, etc.

In respect of persons who are workers, the information is available in Q. 8 Cultivators, Q. 9 Agricultural Labourers, Q. 10 Working at Household Industry and Q. 11 Working at Non-household Industry, Profession, Trade, Business or Service. Following extracts from the Manual of Instructions to Enumerators relating to Questions 8 to 12 on the basis of which the General Economic Tables are compiled will be helpful in appreciating the contents of these tables.

Q. 8 Working as Cultivator

A person is said to be working as cultivator if he/she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share. Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations which are shown in Q. 10 or Q. 11 as the case may be.

Q. 9 Working as Agricultural Labourer

A person is said to be working as Agricultural labourer when he works in another person's land only as a labourer without exercising any supervision or direction in cultivation for wages in cash, kind or share of produce. Also the labourer has no right or lease or contract on land on which he works, nor he is responsible for taking decision as to which crops to sow and when or taking the risks of cultivation.

Q. 10 Household Industry

A Household industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Household industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

Q. 11 Doing work other than 8, 9 or 10

Nature of work (occupation) is the exact function that a person performs in the economic sector in which he/she is engaged. This information was to be filled in Q. 10 (a) or 11(a) of the individual slips. The 'industry' means that sector of economic activity in which the earner is engaged, and the name of that industry was recorded according to the name of the principal article produced, serviced or repaired. Specific instructions were given to record replies to Q. 11(a) and 11(b) as under :—

(1) In the case of married or grown up women who do any of the work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cow dung cakes, grass, etc., in addition to the usual household duties, such duties were fully described and 'HW' written in brackets after the full description.

(2) If a person makes the articles he sells, he was treated as maker and seller of them.

(3) The vague terms like scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher, etc., were not written.

(4) For labourers accustomed to work on various jobs, 'general labourer' was mentioned.

(5) Machine Operator.

The kind of machine used with its recognised name was given.

(6) Shop-keepers, Retail Dealers, Shop Assistants.

If a person was mainly engaged in selling, 'Dealer' was written and if assisting 'Shop Assistant' or 'Salesman' was written. 'Wholesale' and 'Retail' was stated when the business was carried on in wholesale or in retail.

(7) The nature of transport was fully mentioned like air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by bullock, camel, etc.

(8) For a person engaged in Defence services, 'service of Central Government' was written.

(9) Domestic Services.

In the case of any private servant, e.g., a cook or domestic servant, 'private or domestic servant' only was written. There was no industry in their case but in cases of persons employed in hotels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., were added.

Status of economically active persons

Economically active persons were divided into 4 classes (1) Employer (2) Employee (3) Single worker and (4) Family worker.

An 'employer' is that person who hires one or more persons in his work.

An 'employee' is that person who works under others for wages or salary in cash or kind.

A 'single worker' is that person who does his work without employing others except casually and without the help of the other members of the family except casually.

A 'family worker' is that person who is doing his work in own family without wages or salary in cash or kind.

Thus one more status of economically active person, viz., family worker is added against only first three in the previous census of 1951.

Q. 12 Activity, if not working

A person who is not working has been classified as non-worker. Non-workers are distributed separately according to eight types of activities already noticed above.

(i) General Economic Tables

There are in all 24 Economic Tables compiled in B-Series—16 General Economic Tables compiled from individual enumeration slips and 8 Household Economic Tables from household schedules on 20% sample basis. Out of the 16 General Economic Tables, the District Handbook reproduces the following 12.

B-I—Workers and Non-workers classified by sex and broad age-groups

Table B-I is the basic economic table furnishing the total population and 9 industrial categories of workers and non-workers. The data is presented for the district with total/rural/urban break-up.

The classification of workers and non-workers by broad age-groups, viz., 0-14, 15-34, 35-59 and 60 and above, is the special feature of 1961 census as these age-groups correspond to the different stages of life which have a special significance as regards capacity to work, viz., children, young persons, middle aged persons and old persons.

TABLE B-III-A AND B—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

This table which corresponds to the Table D-VII of 1951 is given in two parts—A & B. Part-A relates to the urban areas and Part-B relates to rural areas. The data in Part-A are presented for the district and that in Part-B down to taluka/mahal for rural areas.

In 1951, only literate and educated persons were classified into eight educational standards by 8 livelihood classes. No classification of illiterate persons into 8 livelihood classes was given in 1951; whereas in this Table, nine categories of workers and also non-workers are given for illiterates as well as for literates.

Non-technical diplomas and degrees have this time been distinguished from technical diplomas and degrees and separate information given also for each technical degree.

TABLE B-IV—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK OTHER THAN CULTIVATION

This table corresponds to table B-III of 1951. It has been presented in three parts on the basis of the principal work of the persons. Part-A relates to persons at work in Household Industry, classified by branch of industry and class of workers (employee and others). Figures for the district are given for Divisions and Major groups for total/rural/urban and those for taluka/mahal for Divisions and rural areas only. Part-B pertains to persons at work in non-household industry, trade, business, profession or service, classified by branch of industry and class of workers (Employer, Employee, Single worker and Family worker). Figures for the district are given for Divisions and Major groups for total/urban and those for taluka/mahal figures for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the Villagewise List of Industrial Establishments. Part-C relates to persons at work at household as well as in non-household industry classified by branch of industry. Figures for the district are given for Divisions, Major groups and Minor groups with descriptions for total/urban and those for taluka/mahal for Divisions only and rural areas only.

Table B-III of 1951 furnished figures of self-supporting persons only whereas in this table all the persons who work including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance are included as workers. In 1951, there were three classes of workers, viz., Employer, Employee and Independent workers whereas in this table, workers are classified in four categories, viz., Employer, Employee, Single worker and Family worker, the definitions of which are already given before.

Appendix to Part-C shows in run on lines Minor Groups with the number of male and female workers separately for household industry and non-household industry in brackets having less than 1% of workers of the respective Division (0.5% for Divisions 2 & 3 combined) which are omitted from the table.

TABLE B-V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

This is a new table in which cross-tabulation of industry and occupation has been made for the first time. Figures for the district are given by Divisions, Groups and Families for total/urban and for taluka/mahal by Divisions only for rural areas.

Separate data are furnished for the persons working in household industry and other industrial categories as adopted in the Primary Census Abstract alongwith the Divisions, Groups and Families giving code numbers and actual description. The National Classification of occupation followed in this table is in conformity with international usuage.

Appendix to this table shows in run on lines, families with the number of male and female workers followed by industrial categories having less than 1% of workers of the respective Division (0.5% for Divisions 7 & 8 combined) which are omitted from the main table.

While applying quality checks, some occupations appeared to have been classified under inappropriate industrial categories vis-a-vis the occupations or the nature of work done by persons in economic sector of their activity. Such cases are listed in the annexure to the table, indicating the appropriate industrial category in which they deserve to be classified.

TABLE B–VII PART-A—PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS, (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY, (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

TABLE B-VII PART-B—INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

In this table figures are presented for the district for Divisions and Major groups with total/rural/urban break-up and those for taluka/mahal for Divisions and rural areas only. The descriptions of divisions and major groups will be found in the Annexure to the Villagewise List of Industrial Establishments.

In a similar table B-II of 1951, there was cross-tabulation of self-supporting persons and earning dependents with reference to the secondary means of livelihood which was confined to 8 livelihood classes, while this table affords cross-tabulation between principal work in cultivation and household industry or *vice versa*.

Appendix to Table B-VII-A shows in run on lines Major Groups of household industry having secondary work, which are omitted from the table being less than 5% of major groups as principal work followed in each case by the number of industrial categories and number of males and females having secondary work separately for total/rural and urban population in brackets.

TABLE B-VIII PART-A—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN *URBAN AREAS ONLY*

TABLE B-VIII PART-B—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN *RURAL AREAS ONLY*

This is a new table prepared for the first time in 1961. It is in two parts. Part-A relates to urban areas and is presented for district. Part-B relates to rural areas and is presented down to taluka/mahal.

The classification of unemployed persons is shown separately for (i) those who are seeking employment for the first time and (ii) for those who were employed before but are now out of employment and seeking work. The age-groups given in the first case are quinquennial, viz., 15-19, 20-24, 25-29, 30-34 and 35+ modified in the second case as 15-19, 20-24, 25-34, 35-44, 45-59 and 60+.

In Part-A relating to urban areas information for unemployed persons is furnished for all educational levels, and in Part-B for educational levels upto matriculation and above.

TABLE B-IX—PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

This is a new table introduced for the first time. The table is presented for district with total/rural/urban break-up and for taluka/mahal for rural areas only. It classifies non-working population into 8 types of activities based on the recommendation of the United Nations Organisation. They are :—

1 Full time students
2 Persons performing household duties without wages
3 Dependents, infants and disabled persons
4 Retired persons, rentiers or persons of independent means
5 Beggars, vagrants, etc.
6 Inmates of penal, mental and charitable institutions
7 Persons seeking employment for the first time
8 Persons employed before, but now out of employment and seeking work

(ii) HOUSEHOLD ECONOMIC TABLES

Out of the 8 Household Economic Tables compiled at this census, 4 tables which are reproduced in the District Handbook are :—

TABLE B-X—SAMPLE HOUSEHOLDS (i) ENGAGED NEITHER IN CULTIVATION NOR HOUSEHOLD INDUSTRY, (ii) ENGAGED EITHER IN CULTIVATION OR HOUSEHOLD INDUSTRY BUT NOT IN BOTH AND (iii) ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY

(Based on 20% Sample)

This table is prepared for total, rural and urban for the district and for rural areas only for taluka/mahal.

Cultivation includes ownership, tenancy cultivation and agricultural labour. Household industry has been defined in the general note above.

TABLE B-XI—SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN RURAL AND URBAN AREAS SEPARATELY

(Based on 20% Sample)

For rural areas the data has been given down to taluka/mahal while that for urban areas has been given only for the district as a whole.

This table gives very useful data on the size of holdings and affords a cross-tabulation of names of local rights over land (interest), viz., (a) owned or held from Government, (b) held from private persons or institutions, (c) partly held from Government and partly from private persons, and size of holding, viz., less than 1; 1.0-2.4; 2.5-4.9; 5.0-7.4; 7.5-9.9; 10.0-12.4; 12.5-14.9; 15.0-29.9; 30.0-49.9; 50 + and unspecified.

TABLE B-XII—SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION ONLY CLASSIFIED BY SIZE OF LAND CULTIVATED AND NUMBER OF FAMILY WORKERS AND HIRED WORKERS IN RURAL AND URBAN AREAS SEPARATELY

(Based on 20% Sample)

For rural areas the data has been given down to taluka/mahal and that for urban area for the district as a whole. The information for households that are engaged only in cultivation has been cross-tabulated by number of persons engaged in cultivation and each prescribed size class of holding. Working strength in cultivation is further separated into family workers and hired workers when more than 1 person is engaged in cultivation.

TABLE B-XVI—SAMPLE PRINCIPAL HOUSEHOLD INDUSTRY CLASSIFIED BY PERIOD OF WORKING AND TOTAL NUMBER OF WORKERS ENGAGED IN HOUSEHOLD INDUSTRY IN ALL AREAS

(Based on 20% Sample)

This table is presented for the district with total/rural/urban break-up. The data in respect of households engaged in household industry only or both in household industry and cultivation has been given separately with the Divisions and Major groups of household industry. The household industry has been classified according to the period of working, viz.,

1-3 months, 4-6 months, 7-9 months, 10 months to one year. Under each duration period number of households, number of family workers and number of hired workers have also been given.

Appendix to this table shows in run on manner Major groups of household industry which are omitted from the table being less than 10% of the respective Division, giving the number of major groups, with or without cultivation, with period of working in abbreviation and the number of households in brackets separately for total, rural and urban.

TABLE B-XVII—SAMPLE HOUSEHOLDS CLASSIFIED BY (i) NUMBER OF MALE AND FEMALE MEMBERS BY SIZE OF HOUSEHOLDS (ii) ENGAGEMENT (a) NEITHER IN CULTIVATION NOR IN INDUSTRY, (b) IN HOUSEHOLD INDUSTRY ONLY AND (c) IN CULTIVATION SUB-CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

The table is presented down to district and gives data for total/rural/urban. It is intendend to give family sizes distributed according to single member, small, medium, large and very large families. Though a 'Census Household' is not the same as a 'family' and also includes unrelated persons living with the family during the census count, the table will give a general idea of the sizes of families as the number of families having outsiders is quite insignificant.

The table gives such economic data as (i) Households engaged neither in cultivation nor household industry, (ii) Households engaged in household industry only and (iii) Households engaged in cultivation by size of holding groups with the break-up of sample households into (i) Single member, (ii) 2-3 members, (iii) 4-6 members, (iv) 7-9 members and (v) 10 members and over.

Since the table is based on 20% sample, total number of households and household population are given in the following statement :

Total Number of Households and Household Population

District	Total Rural Urban	Total No. of households	Total household Population		
			Persons	Males	Females
1	2	3	4	5	6
Surendranagar	Total	122,392	663,206	341,301	321,905
	Rural	85,744	477,564	246,266	231,298
	Urban	36,648	185,642	95,035	90,607

B-I—WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

Minor Group	343	Manufacture of structural stone goods, stone dressing and stone crushing	312	201	111
	350	*Manufacture of earthenware and earthen pottery*	2,722	1,951	771
	351	Manufacture of chinaware and crockery	1,002	694	308
Major Group	36	Basic Metals and their Products except Machinery and Transport Equipment	1,766	1,732	34
Minor Group	360	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	557	552	5
	365	Manufacture of brass and bell metal products	486	464	22
	369	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which, cannot be classified in major groups 36, 37, 38 and 39)	466	464	2
Major Group	37	Machinery (All kinds other than Transport) and Electrical Equipment	139	139	..
	38	Transport Equipment	272	272	..
	39	Miscellaneous Manufacturing Industries	1,476	1,443	33
Minor Group	393	Manufacture of jewellery, silverware and wares using gold and other precious metals	1,177	1,176	1
	399	Manufacture and repair work of goods not assignable to any other group	184	152	32
**Division 4*		*Construction*	*2,328*	*2,084*	*244*
Major Group	40	Construction	2,328	2,084	244
Minor Group	400	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical & sanitary installations	1,452	1,355	97
	401	Construction and maintenance of roads, railways, bridges, tunnels	641	554	87
	403	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	232	172	60
**Division 5*		*Electricity, Gas, Water and Sanitary Services*	*429*	*423*	*6*
Major Group	50	Electricity and Gas	394	392	2
Minor Group	500	Generation and transmission of electric energy	354	352	2
	501	Distribution of electric energy	36	36	..
Major Group	51	Water Supply and Sanitary Services	35	31	4
Minor Group	510	Collection, purification and distribution of water to domestic and industrial consumers	16	15	1
	511	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	19	16	3
**Division 6*		*Trade and Commerce*	*12,421*	*11,964*	*457*
Major Group	60-63	Wholesale Trade	1,211	1,194	17
Minor Group	600	Wholesale trading in cereals and pulses	339	338	1
	639	Wholesale trading in all goods not covered above	344	342	2
Major Group	64-68	Retail Trade	10,558	10,125	433
Minor Group	640	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	4,504	4,265	239
	644	Retail trading in tobacco, bidi, cigarettes and other tobacco products	699	693	6
	645	Retail trading in fuel such as coke, coal, firewood and kerosene	132	107	25
	646	Retail trading in food stuffs like sweetmeat, condiments, cakes, biscuits,etc.	554	540	14
	650	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piecegoods of cotton, wool, silk and other textiles)	1,295	1,260	35

B-IV PART-C—INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR

Branch of Industry			Total Workers		
			Total		
Division, Major group & Minor group of I. S. I. C.			Persons	Males	Females
1			2	3	4
Minor Group	664	Retail trading in other household equipment not covered above	454	428	26
	689	Retail trading in goods unspecified	1,973	1,901	72
Major Group	69	Trade and Commerce Miscellaneous	652	645	7
Minor Group	692	Stocks, shares and futures	214	213	1
	695	Banking and similar type of financial operation	264	261	3
*Division 7		*Transport, Storage and Communication*	*4,004*	*3,964*	*40*
Major Group	70-71	Transport	3,632	3,597	35
Minor Group	700	Transporting by railways	2,146	2,136	10
	701	Transporting by tramway and bus service	324	324	..
	702	Transporting by motor vehicles (other than omnibus)	547	545	2
	703	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	298	292	6
	704	Animal transporting by animals such as horses, elephant, mule, camel	150	144	6
	705	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	145	134	11
Major Group	73	Communication	372	367	5
Minor Group	730	Postal, telegraphic, wireless and signal communications	334	330	4
*Division 8		*Services*	*25,458*	*19,763*	*5,695*
Major Group	80	Public services (This does not include Govt., Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)	6,496	5,967	529
Minor Group	803	Public service in Police	939	938	1
	804	Public service in administrative departments and offices of Central Government	738	666	72
	805	Public service in administrative departments and offices of quasi-government organisation, municipalities, local boards, etc.	1,941	1,588	353
	809	Public service in administrative departments and offices of State Governments	2,878	2,775	103
Major Group	81	Educational and Scientific Services	2,600	1,861	739
Minor Group	811	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	2,527	1,815	712
Major Group	82	Medical and Health Services	753	585	168
Minor Group	820	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners	690	537	153
Major Group	83	Religious and Welfare Services	1,411	1,287	124
Minor Group	831	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	1,113	1,030	83
Major Group	84	Legal Services	152	152	..
	85	Business Services	211	209	2
	86	Community Services and Trade and Labour Associations	175	158	17
	87	Recreation Services	236	231	5
	88	Personal Services	3,381	2,945	436
Minor Group	880	Services rendered to households such as those by domestic servants, cooks	693	395	298
	882	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	1,158	1,060	98
	884	Hair dressing, other services rendered by organisation and individuals such as those by barber, hairdressing saloon and beauty shops	1,107	1,107	..
Major Group	89	Services (not elsewhere classified)	10,043	6,368	3,675
Minor Group	890	Services rendered by organisations or individuals not elsewhere classified	10,043	6,368	3,675
Division 9		*Activities not adequately described*	*4,461*	*2,878*	*1,583*
Major Group	90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	4,461	2,878	1,583
Minor Group	900	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	4,461	2,878	1,583

APPENDIX

Minor Groups having less than 1% of workers of the respective division and less than 0.5% in case of Minor Groups of division 2 & 3 only have been shown in this Appendix. The following abbreviations have been used:—'HI' for Household Industry, NHI' for Non-household Industry, 'M' for Males and 'F' for Females.

B-V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

Note: Families having less than 1% of the workers of the respective division, (less than 0.5% in case of families of Division 7–8) have not been shown in this table but are given in the appendix to this table. Divisions thus affected are marked with an asterisk (*).

APPENDIX

Families having less than 1% of the workers of the respective Divisions (less than 0.5% in case of Division 7-8 only) have been shown in this appendix. The following abbreviations have been used :—

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities
IV At Household Industry
V In Manufacturing other than Household Industry
VI In Construction
VII In Trade and Commerce
VIII In Transport, Storage and Communications
IX In Other Services

M=Males F=Females

APPENDIX

Major groups of household industry where persons having secondary work as cultivation or agricultural labour, are less than 5% of the persons having the major group as principal work, have been shown in this appendix. The following abbreviations have been used:—

I—As Cultivator
II—As Agricultural Labourer
M=Males
F=Females

20 Total I (M13,F1) II (M1), Rural I (M9) II (M1), Urban I (M4, F1); 22 Total I (M1), Urban I (M1); 25 Total I (M4) II (M6,F5), Rural I (M4) II (M2), Urban II (M4,F5); 27 Total I (M18,F5) II (M2,F2), Rural I (M18,F5) II (M2,F2); 28 Total I (M58) II (M4,F5), Rural I (M58) II (M4,F4), Urban II (F1); 34-35 Total I (M40,F2) II (M4,F4) Rural I (M34,F1) II (M4,F4), Urban I (M6,F1); 39 Total I (M1), Rural I (M1).

APPENDIX

Major groups of the Household Industry which are less than 10 per cent of the respective divisions have not been shown in the main table, which shows such divisions by an asterisk. Major groups thus dropped from the main table are given run on in this Appendix. The figure preceding the bracket represents the code number of the major group dropped from the Table. Alphabets given in brackets are abbreviations meant for different ranges of period of working in the Household Industries 'with' or 'without' cultivation as explained below. The numerical figure given after alphabet denotes the number of households in that particular range indicated by that alphabet.

Abbreviation			Class Range of Period of Working	Abbreviation			Class Range of Period of Working
		with				without	
A	means	cultivation	1 to 3 months	E	means	cultivation	1 to 3 months
B	,,	,,	4 to 6 ,,	F	,,	,,	4 to 6 ,,
C	,,	,,	7 to 9 ,,	G	,,	,,	7 to 9 ,,
D	,,	,,	10 months to 1 year	H	,,	,,	10 months to 1 year
X	,,	,,	Unspecified months	Y	,,	,,	Unspecified months

For example :—District Surendranagar–Rural 20 (B–6, C–1, E–1, X–1, Y–4)

Figure 20 stands for major group 20 relating to "foodstuffs", B–6 means that there are 6 households working in the class range of '4 to 6 months' in the household industry with cultivation. C–1 means that there is 1 household working in the class range of '7 to 9 months' in the household industry with cultivation and E–1 means that there is 1 household working in the class range of '1 to 3 months' in the household industry without cultivation; X–1 means that there is one household working for "unspecified months" in the household industry with cultivation and Y–4 means that there are 4 households working for "unspecified months" in the household industry without cultivation in the 'foodstuffs' industry in the rural areas of Surendranagar district.

The list of major groups thus dropped from the main table of Surendranagar district is given below.

C—SOCIAL AND CULTURAL TABLES

This series contains 8 tables of which Table C-I has been prepared from Household Schedules, on the basis of 20 per cent sample. It gives information about composition of sample households according to marital status. All the other tables in this series are based on full count and give age, sex and education, separately for rural and urban areas, single year age returns, mother tongue in alphabetical order, religion and classification by literacy and industrial category of workers and non-workers among Scheduled Castes and Scheduled Tribes. All the tables of this series except Table C-VI have been reproduced in the District Census Handbook.

TABLE C-I—COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

The table is prepared from Part II Census Population Record of the Household Schedules for total, rural and urban areas of the district. A household means the entire groups of persons who commonly live together in the same census house and usually take their meals from a common mess. It thus includes outsiders residing with the family during enumeration. This table, therefore, gives the composition of a household by family and non-family member. Besides, the heads of the households and their spouses, other family members like married sons and other relations are given separately by sex and marital status.

TABLE C-II—AGE AND MARITAL STATUS

This table is presented for the district with rural/urban break-up while those for taluka/mahal for rural areas only. It corresponds to Table C-III of 1951 which was prepared on a 10% sample of the slips taken out at the time of initial stage of sorting, while this table is prepared on full count according to the quinquennial age-groups recommended by the United Nations Organisation. In Table C-III of 1951 there were 3 categories of marital status, viz., unmarried, married and Divorced/Separated, whereas in this table are given five categories of marital status, viz., (1) never married, (2) married, (3) widowed, (4) divorced/separated and (5) unspecified. In 1951, the information regarding widowed or divorced was given jointly, whereas these two types of marital status are compiled separately this time.

Columns 14 and 15 relating to unspecified status have been deleted from the table. Such persons are 3 males returned from rural and urban areas.

TABLE C-III—AGE, SEX AND EDUCATION

It corresponds to Table C-IV of 1951 which was prepared on 10% sample. This table is prepared on full count this time and is presented in two parts—A and B for the district. In Part-A broad educational levels up to matriculation and above are given for all areas. In Part-B educational levels are given in details with technical and non-technical diplomas, university degrees and technical degrees in urban areas only. In 1951, only, sum total of all literate and illiterate persons was given, whereas in 1961, educational levels for literate persons are given in details.

TABLE C-IV—SINGLE YEAR AGE RETURNS

The Table is presented for the district with total/rural/urban break-up.

It corresponds to Table C-V of 1951 Census which was prepared on 10% sample. This table has been prepared on full count in 1961. The age in years completed on 1st March, 1961 has been given but the infants who did not complete one year on 1-3-1961 have been shown under the age-group "0".

TABLE C-V—MOTHER TONGUE

This table corresponds to Table D-I-(i) of 1951 in which languages and dialects as returned were shown in the descending order of number of speakers. This time all the languages as actually returned are arranged in the alphabetical order with population, persons, males, females, for total, rural and urban areas for the district and for rural areas for taluka/mahal.

'Mother tongue' is the language spoken in childhood by the person's mother to the person or the language spoken in the household.

TABLE C-VII—RELIGION

It is prepared separately for total, rural and urban areas of the district and for rural areas of talukas and mahals. This table corresponds to Table D-II of 1951, in which the figures of religions other than the eight main religions were grouped in the residuary category 'other religions', whereas in this table data are given for six main religions only, viz., Budhist. Christian, Hindu, Jain, Muslim Sikh and persons returned as professing other religions, sects and beliefs which could not be classified under any of the religions have been grouped under "Other Religions and Persuasions".

TABLE C-VIII—SCHEDULED CASTES AND SCHEDULED TRIBES

PART-A—CLASSIFICATION BY LITERACY AND INDUSTRIAL CATEGORY OF WORKERS AND NON-WORKERS AMONG SCHEDULED CASTES

PART-B—CLASSIFICATION BY LITERACY AND INDUSTRIAL CATEGORY OF WORKERS AND NON-WORKERS AMONG SCHEDULED TRIBES

This table is presented for the district with total/rural/urban break-up and for taluka/mahal for rural areas only.

In this table total population of Scheduled Castes/Scheduled Tribes and their distribution by nine industrial categories of workers and also non-workers adopted in the Primary Census Abstract are shown by literate and illiterate.

Part A relates to Scheduled Castes and Part B to Scheduled Tribes.

C-I—COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

Total Rural Urban	Total No. of sample house-holds	Total sample household population			Composition of Households										
					Heads of households		Spouses of Heads of households		Married relations			Never married, widowed and divorced or separated relations		Unrelated persons	
		Persons	Males	Females	Males	Females	Males	Females	Sons	Other Males	Other Females	Males	Females	Males	Females

E—HOUSING TABLES

The present Housing Census is the first of its kind in the history of the Indian Census organized on a uniform basis throughout the country alongwith the population Census of 1961. In the past censuses, house-listing was purely an administrative arrangement. Only residential houses were numbered and listed with the name of the head of the household. However, during 1961 Census a comprehensive house-list for collecting detailed information regarding each census house and industrial establishment formed part of the statutory census schedules. The house-list form brought into use during the current Census has recorded data on housing such as type of houses, tenure status, material of wall and roof, number of rooms in a census household and of persons residing therein as well as essential data relating to establishments, workshops and factories, such as name of the establishment or proprietor, name of products, number of persons working and the kind of fuel or power, if machinery is used.

The following five housing tables have been compiled from the house-lists:—

E–I—Census Houses and the uses to which they are put

E–II—Tenure Status of Sample Census households living in Census houses used wholly or partly as dwelling

E–III—Census houses used as factories and workshops classified by industry, power and no power used and size of employment

E–IV—Distribution of Sample households living in Census houses used wholly or partly as dwelling by predominant material of wall and predominant material of roof

E–V—Sample households classified by number of members and by number of rooms occupied

Out of the five tables stated above, Tables E–I and E–III have been prepared on full count and Tables E–II, IV and V on the basis of 20 per cent sampled households. For the purposes of drawing the sample, the house-lists were arranged separately in the order of location code numbers in case of (i) rural areas of a taluka/mahal, and (ii) urban areas other than towns with population of 50,000 and over for a district and (iii) for every town with a population of 50,000 and over. The samples were marked continuously for all the house-lists thus arranged and the households left over at the end of the house-list after marking the last sample were carried over to the next house-list for sample selection.

Tables E–I, E–II, E–IV and E–V are given in the District Census Handbook for the district, taluka and towns with a population of 50,000 and over. But the data regarding number of establishments contained in Table E–III are separately compiled down to village and given in the Villagewise List of Industrial Establishments.

The explanatory note on each of the tables is given below :—

TABLE E–I—CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

Table E–I prepared on full count gives figures of census houses separately for total, rural and urban areas of the district, talukas, cities and towns with population of 50,000 and over, classified into different categories according to the uses to which they are put. Those found vacant at the time of house-listing have also been shown separately as such. The following are the various types of houses into which occupied houses have been classified :—

Dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, hotels, hostels, sarais, dharamshalas, tourist homes and inspection houses, shops excluding eating houses, business houses and offices, factories registered

under the Factories Act and worksheds and workshops not so registered, schools and other educational institutions including training classes, coaching and shop classes, restaurants, sweetmeat shops and eating places, places of entertainment and community gathering (Panchayat Ghar), public health and medical institutions, hospitals, health centres, doctors' clinics, dispensaries, etc.

Others

Occupied census houses which do not fall in any of the above categories have been classed as 'Others'.

With a view to understand the significance of statistics incorporated in E Series of Tables, the concepts and definitions of the terms occurring in the table are given below :—

Census house

"A Census house is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

Census household

"A household is a group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so."

Shop

"A shop is a place where articles are sold for cash or for credit."

Workshop

"A workshop is a place where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold, and is not a factory registered under the Factories Act."

Following are some of the instances :—

Paper-making, shoe-making, tailoring, cycle-repairing, motor-servicing, halwai's shop, pottery-making, goldsmith, blacksmith, etc.

Factory

"A factory is a large workshop which has been registered under the Indian Factories Act."

Business houses

Business houses are those premises where transactions in money or other articles are taking place. Detailed explanation of all these will be found in the Introductory Chapter of the Report on Housing and Establishments.

TABLE E–II—TENURE STATUS OF SAMPLE CENSUS HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING

This table has been prepared on the basis of 20 per cent sample. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, and dwellings with other uses have been taken into account for the purpose of marking the samples. Shop-*cum*-dwellings and workshop-*cum*-dwellings are census houses which are partly used for residential or dwelling purposes and partly used as a shop or workshop. The total number of households given in column 4 of this table gives the total of such samples classified into the aforementioned four categories of dwellings, which have been further classified according to their tenure status, whether owned or rented, for the district, talukas and towns with population of 50,000 or more as also for total/rural/urban.

TABLE E-IV—DISTRIBUTION OF SAMPLE HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING BY PREDOMINANT MATERIAL OF WALL AND PREDOMINANT MATERIAL OF ROOF

This table has been prepared on 20 per cent sample basis. Census households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the sample. The total number of houses given in column 3 of this table gives the totals of all such sampled households. The material out of which most of the walls are made or where a house consists of separate structures, each of different materials, the material out of which the walls of the main bedrooms are made has been entered. The wall material has been classified into the following nine categories :-

(1) Grass, leaves, reeds or bamboo
(2) Timber
(3) Mud
(4) Unburnt bricks
(5) Burnt bricks
(6) C. I. Sheets or other metal sheets
(7) Stone
(8) Cement concrete
(9) All other material

The material out of which most of the outer roof exposed to the weather and not the ceiling is made, i.e., tiles, thatch, corrugated iron, zinc or asbestos cement sheets or concrete, etc., or in the case of multi-storeyed building, the material out of which the intermediate floor or floors have been made, have been entered and classified into the following seven categories :-

(1) Grass, leaves, reeds, thatch, wood or bamboo
(2) Tiles, slate, shingle
(3) Corrugated iron, zinc or other metal sheets
(4) Asbestos cement sheets
(5) Brick and lime
(6) Concrete and stone slabs
(7) All other material

This table has been prepared for the district, talukas and cities and towns with population of 50,000 or more, as also for total/rural/urban.

TABLE E-V—SAMPLE HOUSEHOLDS CLASSIFIED BY NUMBER OF MEMBERS AND BY NUMBER OF ROOMS OCCUPIED

This table has been prepared on 20 per cent sample basis. Census Households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses have been taken into account for the purpose of marking the samples. The figures given in column 3 of this table are the totals of all such sampled households. The sex break-up of the total number of members occupying such sampled households as also the total number of rooms in these households are shown separately. All the sampled households have been further classified into the following six categories :-

Households with

(i) no regular room
(ii) one room
(iii) two rooms
(iv) three rooms
(v) four rooms
(vi) five rooms or more

This classification of households into the above categories gives not only the number of households in each category, but also the number of occupants by sex. The units for which this table has been compiled are district, talukas and cities and towns with population of 50,000 or more, as also total/rural/urban.

SCT—SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

No special tables were prepared for Scheduled Castes and Scheduled Tribes in 1951. The only information that Table D-III of 1951 furnished was the aggregate strength of Scheduled Castes and Tribes for the district and certain arbitrary groups of talukas. In view, however, of the special safeguards provided for these classes under the Constitution, it was felt that a more detailed tabulation of the census data will furnish the basis necessary for the evaluation of the results of the various schemes implemented by the State under the Five Year Plans as also for the formulation of new ones. Special tables for Scheduled Castes and Scheduled Tribes have, therefore, been devised and presented in a separate series called SCT/SC/ST/ series.

The table reproduced from this series is SCT-I-Parts A & B, giving industrial classification of persons at work and non-workers by sex for Scheduled Castes and Scheduled Tribes. Separate figures of Scheduled Castes and Scheduled Tribes have also been given for each village in the Village Directory.

Total population of Scheduled Castes and Scheduled Tribes for taluka/mahal with total/rural/urban break-up is given in Statements A and B.

SCT-I PART-A—INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES

Sl. No.	Name of Scheduled Caste	Total			Workers											
					Total Workers		I As Cultivator		II As Agricultural labourer		III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting, Plantations, Orchards and Allied activities		IV At Household Industry		V In Manufacturing other than household Industry

VILLAGE-WISE LIST OF INDUSTRIAL ESTABLISHMENTS

This table gives important information about the total number of industrial establishments arranged in ascending order of minor groups of industries. It is compiled from the house-lists and presented in run on manner. Under the name of the district are arranged minor groups of industries showing total number of industrial establishments within brackets next to each minor group separately for total, rural and urban. The figures for taluka/mahal are likewise arranged separately for total/rural/urban. Then follows a list of villages in the order of the location code number given in the Village Directory, showing against each village minor group or groups of industries found in the village with the number of establishments shown within brackets against each minor group. Figures for towns are also shown separately in the same manner.

Industrial establishments have been classified according to the minor groups of industries given in the Standard Industrial Classification adopted by the Government of India reproduced in the Annexure. This will enable the reader to identify the industry to which a particular minor group relates.

ANNEXURE

Standard Industrial Classification

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 0–Agriculture, livestock, forestry, fishing and hunting	
04	*Livestock and Hunting*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	Division 2&3–Manufacturing	
20	*Foodstuffs*	
	Production of rice, atta, flour, etc., by milling dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3–Manufacturing–contd	
21	*Beverages–contd.*	
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	*Tobacco Products*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	*Textile–Cotton*	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile–Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	*Textile–Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile–Silk*	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266

ANNEXURE–*contd.*

Standard Industrial Classification–*contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3–Manu acturing–contd.	
27	*Textile–Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products, not covered above	279
28	*Manufacture of Wood and Wooden Products*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products, not covered above	289
29	*Paper and Paper Products*	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3–Manufacturing–contd.	
30	*Printing and Publishing*	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and orther aticles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber, Petroleum and Coal Products*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	*Chemicals and Chemical Products*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts, not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338

ANNEXURE–*concld.*

Standard Industrial Classification–*concld.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3- Manufacturing–contd.	
33	*Chemicals and Chemical Products–contd.*	
	Manufacture of other chemicals and chemical products, not covered above (including inedible oils and fats)	339
34	*Non-metallic Mineral Products other than Petroleum and Coal*	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products, not elsewhere specified	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	369

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 2&3-Manufacturing–concld.	
37	*Machinery (All kinds other than Transport) and Electrical equipment*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	*Transport Equipment*	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above [such as animaldrawn and hand-drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles, not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399

LIST OF RURAL CRAFTS AND NUMBER OF PERSONS EMPLOYED IN PRODUCTION

The handicraft table is a new feature introduced in the District Census Handbook, in 1961 Census.

A detailed handicraft survey has been undertaken as a part of the censal programme. In States like Gujarat where the survey was conducted for selected crafts in selected centres, and not in each and every village, this handicraft table was to be compiled from the house-lists or the village notes. Accordingly, the information for this table was extracted from the house-lists adopting a 4 digit code for household industries circulated by Registrar General, India. The definition of household industry presented a problem, which was solved by including, on an *ad hoc* basis, household industries having less than 5 workers for this purpose.

The table shows the number of villages/towns in which particular crafts are practised and number of persons engaged therein. The data are compiled separately for the rural and urban areas of each taluka/mahal, for each city or town in the district and consolidated for rural and urban areas of the district. Where there is only one city/town in a taluka/mahal, the data for the urban areas are given for the city/town as they are same for taluka/mahal.

URBAN

LIST OF RURAL CRAFTS AND NUMBER OF PERSONS EMPLOYED IN PRODUCTION

Major/Minor Group Industrial Code No.	Name of Craft	No. of Towns	No. of persons employed in production
1	2	3	4
	SURENDRANAGAR DISTRICT*		
Major Gr. 20	*Foodstuffs*		*425*
Minor			
Gr. 200.1	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc.	11	192
207	Oil pressing ghani, kolhu or by small machines	7	39
209.2	Making of sweetmeats, laddu, peda, barphi, batasa, etc	7	186
209.6	Making of dalmot, chana-chur (jor) garam, rewari, etc.	2	8
Major Gr. 21	*Beverages*		*14*
Minor			
Gr. 210.2	Manufacture of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	2	4
214.2	Production of aerated water such as sodawater, lemonade, etc.	2	4
215	Production of ice	2	6

	16.1 Average Retail Prices of Staple Foodstuff, 1961	188
17	JOINT STOCK COMPANIES, BANKS, INSURANCE AND SMALL SAVINGS:	
	(a) Joint Stock Companies:	
	17.1 Joint Stock Companies, 1960-61	188
	(b) Banking:	
	17.2 Scheduled and Non-scheduled Banks, 1950, 1955 and 1960	188
	17.3 Number and Type of Co-operative Banks, 1950-51, 1955-56 and 1960-61	189
	(c) Insurance:	
	17.4 Life Insurance Policies issued and sum insured, 1957 to 1960	189
	(d) Small Savings:	
	17.5 Target and Net Collection of Small Savings, 1960-61	189
18	CALENDAR OF IMPORTANT EVENTS, FAIRS AND FESTIVALS AND ANCIENT MONUMENTS:	
	18.1 Calendar of Important Events	189
	18.2 Fairs and Festivals	190-191
	18.3 Ancient Monuments	192

OFFICIAL STATISTICS

Departmental statistics collected from various sources, viz., Administrative Departments, State and Central, Reserve Bank of India, Life Insurance Corporation, Gujarat Electricity Board, etc., have been included in the District Census Handbook for the first time, and distributed under 18 different sections listed below :—

1 Rainfall & Temperature
2 Vital Statistics
3 Agriculture
4 Livestock
5 Co-operation
6 Fisheries
7 Factories
8 Electricity
9 Medical & Public Health
10 Education
11 Administration
12 Public Entertainment and Presses and Journals
13 Transport and Communications
14 Local Bodies
15 Community Development
16 Prices
17 Joint Stock Companies, Insurance, Banks and Co-operative Societies
18 Important Events, Fairs and Festivals and Ancient Monuments

Uniform table numbers have been adopted in all the Handbooks. Wherever a particular table is not applicable to or could not be compiled for want of requisite information for any district, there will be a break in the sequence, owing to the omission of such a table from the Handbook.

To facilitate further reference, the source of the table as well as explanatory notes as to the units to which they refer and other particulars have been given at the foot of the table.

Abbreviations used are : N.A.=Not available; ..=Nil

TABLE 1.1

MAXIMUM AND MINIMUM TEMPERATURE, 1951–1960 AT LIMBDI

[In Centigrade]

Month	Mean Maximum	Highest	Mean Minimum	Lowest

Note :

(a) U=Urban; R=Rural

(b) Number of births per 1,000 of the total mid-year estimated population is calculated on the population of the district as then constituted.

(c) Number of deaths per 1,000 of the same sex is calculated on the mid-year estimated population of the district as then constituted.

(d) The information regarding number of births and deaths for the years 1951-1960 is furnished for the district as then constituted and the population for the years 1951 to 1960 has been estimated on the basis of average during the decade 1951-1960.

(e) Birth and death rates for the decade 1951-1960 are average birth and death rates.

Note :

1 Area figures are given in terms of '00 acres and outturn in terms of '00 tons.

2 Outturn of sugarcane is recorded in terms of '00 tons of gur.

3 Outturn of cotton is recorded in terms of bales of 392 lbs. each.

4 Information for the years 1950-51, 1951-52, 1954-55 and 1955-56 is not available.

5 Information for the years 1952-53, 1953-54, 1956-57 and 1960-61 relates to the district as then constituted.

Note :

1 In case of Hindu months column 4 shows the corresponding months according to Gregorian calendar also. Hindu months are mentioned according to Vikram Era.

2 In the Hindu calendar followed in Gujarat, months end with Amavasya, i.e., New moon and not Purnima, i.e., full moon day.

3 ms.=Miles.

PART III

VILLAGE DIRECTORY

VILLAGE DIRECTORY

The Village Directory of 1961 Census is the same as the Primary Census Abstract given in the District Census Handbook of 1951 with the following additions and alterations :—

1. Information regarding Scheduled Castes and Scheduled Tribes which was given in 1951 by tracts of two to three talukas in a district has been given with sex break-up for each village.

2. The 8 livelihood classes of 1951 have been replaced by workers classified into the following nine industrial categories and also non-workers :—

I	Cultivator	V	Manufacturing other than Household Industry
II	Agricultural Labourer	VI	Construction
III	Mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities	VII	Trade and Commerce
		VIII	Transport, Storage and Communications
		IX	Other Services and
IV	Household Industry	X	Non-workers

3. Information on selected essential topics or amenities available in a village is also included.

Thus the Village Directory furnishes information on area in acres & gunthas, occupied houses, households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated and primary economic activity classified into above nine industrial categories and non-workers. This information is furnished for each village/ward of a town and also for each enumerator's block in a town, consisting of about 120 houses.

Like the Primary Census Abstract of 1951, the Village Directory gives area figures in Column 3 in acres as furnished by the Survey Department. While the figures of the number of houses and households given in Columns 4 and 5 have been compiled from the Household Schedules filled up for each household, information in Columns 6 to 36 has been compiled from the individual enumeration slips filled up during the course of census count. Information in Column 2 regarding Educational Institutions, Medical and Public Health facilities, Drinking Water facilities, Post & Telegraph Offices and Telephone facilities, and Rural Electricity has been collected from (*a*) the village notes specially devised for the purpose and filled in by Village Level Workers, Talaties and Panchayat Secretaries, and (*b*) the information supplied by the heads of the Departments concerned. The following abbreviations used in Column 2 signify the items shown against each :—

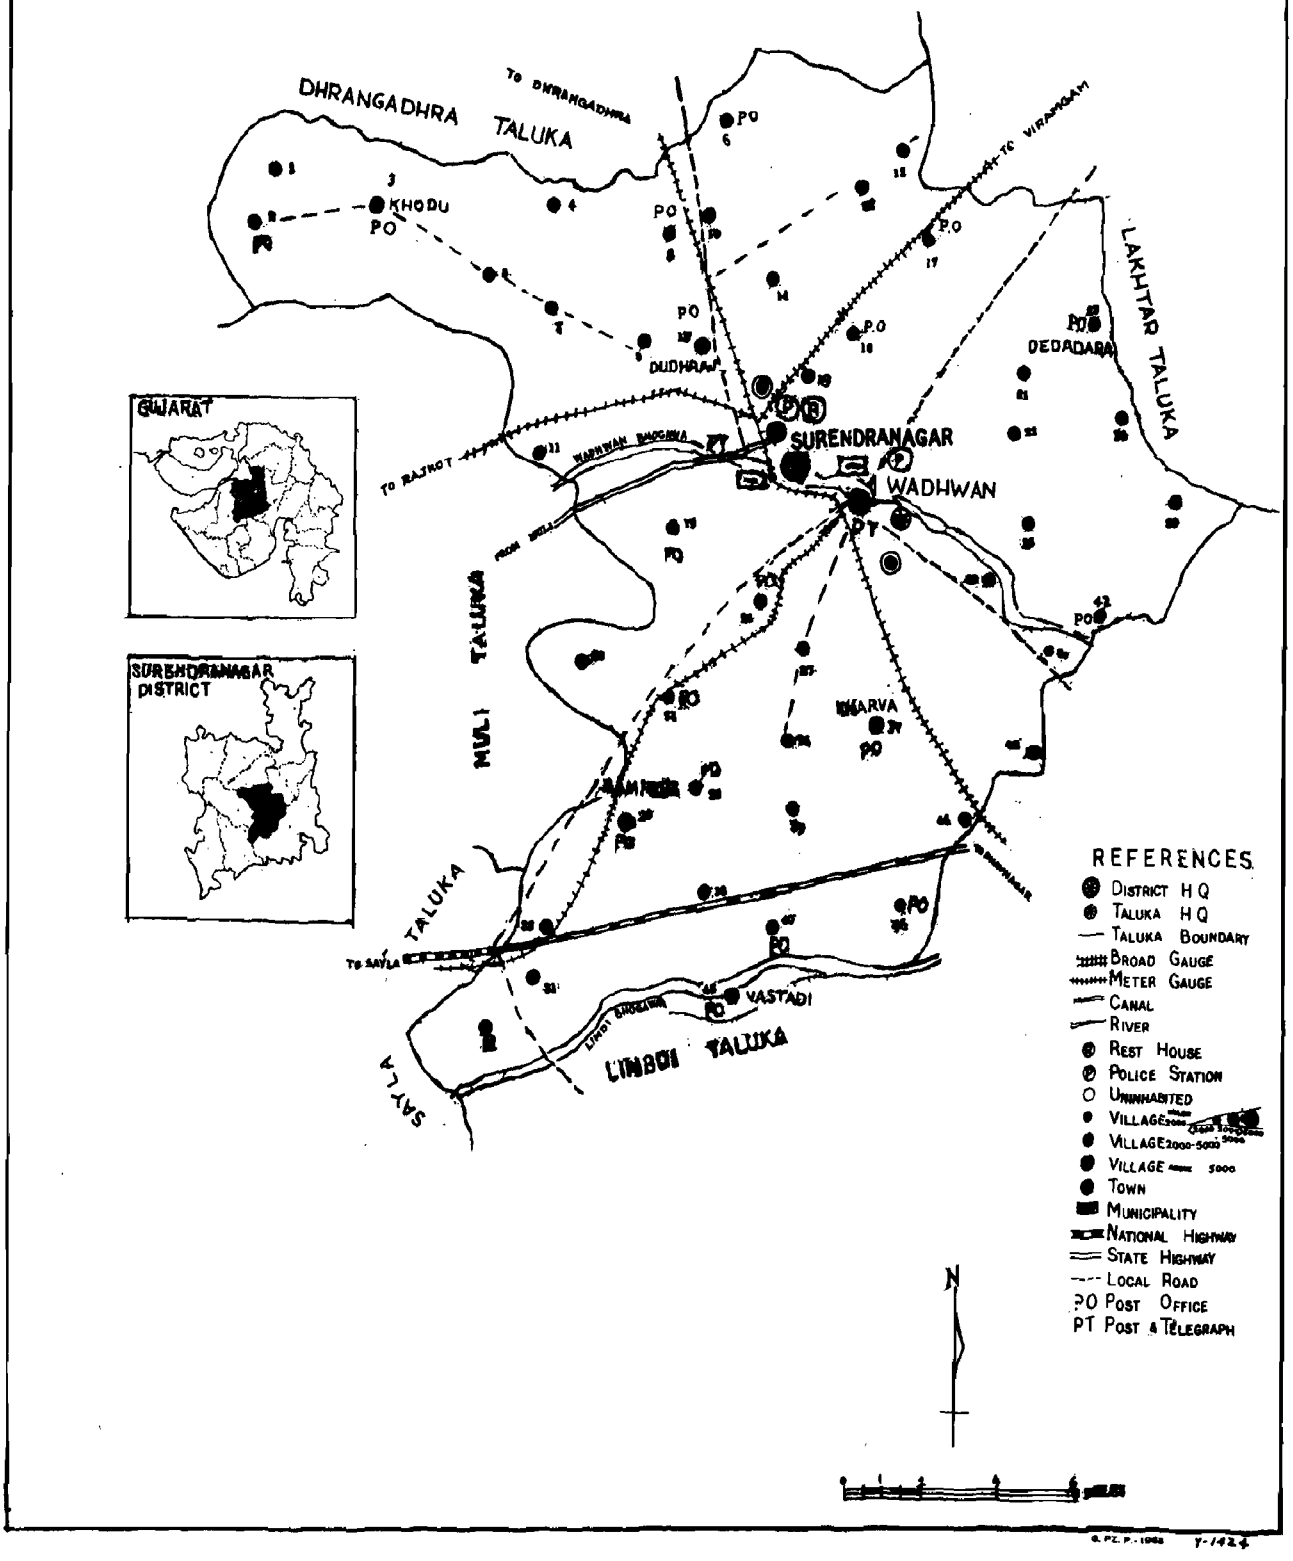

P	for	Primary School	S	for	Safe or Protected Water Supply including pipes, tube wells, etc.
M	for	Middle School			
H	for	High School	W	for	Well
C	for	Higher Institutions including Colleges	Riv	for	River
T	for	Technical Institutions	Tk	for	Tank
D	for	Dispensaries	Po	for	Post Office
Rhc	for	Rural Health Centre	To	for	Telegraph Office
Hos	for	Hospital	Tph	for	Telephone
Mp	for	Medical Practitioner	Ei	for	Electricity in Industrial use
Mcw	for	Maternity and Child Welfare Centre	Ea	for	Electricity in Agricultural use
			Ed	for	Electricity in Domestic use

The essential topics listed above have been presented run on against each village along with their number, where the amenities that exist are more than one. In other columns A=Acres, G=Gunthas, P=Persons, M=Males and F=Females.

In addition to a map for the district, taluka/mahal maps showing certain important information have also been prepared and placed at the commencement of the Village Directory for every taluka/mahal. In the taluka/mahal maps villages have been shown by their location code numbers assigned to them at the time of census operations and indicated against each village in the Alphabetical List of Villages given in the Handbook. Villages having population of 2,000 and above have been indicated by name. In the district maps Villages having 5,000 and more persons have been shown by names. Key maps given in the district and taluka maps show the positions of the district and taluka in hatches and black respectively.
