DISTRICT CENSUS HAND BOOKS

District Census Hand-books for each of the 43 Districts in Madhya Pradesh

PREFACE

The publication of District Census Hand-books, which was begun in the 1951 Census, represents a significant step in the process of making census statistics available for the smaller territorial units basic to executive and developmental administration. Apart from the fact that the proper implementation of policy depends on the ability of the administrative authorities concerned to quantify accurately the variables involved, it is at these levels that policies get really thoroughly tested; also, policies can fail—and probably have failed—because their statistical basis was weak. It is undoubtedly necessary that gaps in statistics at lower levels be filled as rapidly as possible. It was not possible at this Census to base all census statistics on the development block as the unit mainly because in 1961 there were many areas not till then covered by blocks. The coverage had become complete by about the middle of 1963 and it is not unlikely that the 1971 Census will recognise the block as the basic field unit as much for purposes of presentation as for operational purposes.

2. What we have tried to do in the 1961 Census Hand-books is to make them more informative by the inclusion of as many categories of non-census statistics as possible; some of these are climate, agriculture, co-operation, industry, banking, education, health etc. There is also an introductory note to each Hand-book high-lighting the more striking features. It has not been possible for the Census Organisation to check the accuracy of the figures supplied by various authorities; it is to be hoped that some other organisation, better equipped for the purpose, will take up this task.

3. For the seventeen districts of Mahakoshal (Part of erstwhile Madhya Pradesh) and for Panna and Tikamgarh districts of erstwhile Vindhya Pradesh, which are part of the present State of Madhya Pradesh, the area figures for districts and tahsils furnished by the Director of Land Records and presented in Table A-I are internally inconsistent in the sense that the tahsil areas do not add up to the district area. This inconsistency arose from the fact that, in the case of these districts, the district area includes, but the tahsil areas exclude, 'forest' area for which the tahsilwise breakup was not then available. Later on, while this Hand-book was in the press, the Director of Land Records brought out revised area figures for the year 1962-63 for tahsils and districts, which among other improvements, do not suffer from the defect of internal

inconsistency even in case of these nineteen districts. Revision of Table A-I on the basis of these area figures was not feasible at this late stage; the only alternative was to print these revised area figures also in this Hand-book.

4. One unfortunate fact about these Hand-books is that they became available to the users rather late in the decade. This is partly due to the considerable time required for the collection of information from various authorities and partly to difficulties in printing. Owing to the fact that State presses, with a heavy back-log of printing weighing down on them, would find it impossible to print all the District Census Hand-books themselves, arrangements have been made for printing them in private presses. If these Hand-books are to have a useful life of more than four or five years of inter-censal decennium, more expeditious methods for the collection of non-census statistics, for the preparation and checking of the manuscripts and for printing will have to be devised.

5. The Census Organisation is grateful to the Government of Madhya Pradesh for having been so kind as to undertake the publication of these Hand-books and to the Superintendent, Government Printing and his organisation—particularly the Assistant Superintendent, Printing, Government Regional Press, Indore and his staff—for the printing arrangements made. The inspiration behind this ambitious venture is that of our indefatigable Registrar General, Shri Asok Mitra, to whom we are all deeply grateful. Our thanks are also due to the various authorities who supplied us with all the necessary statistics.

NOTES AND EXPLANATIONS

This note gives the meanings and explanations of terms and concepts used in this Handbook. This is necessary because, without a proper grasp of the meanings of such simple concepts as building, house, household, worker, etc., it is not possible to appreciate the data presented in the Handbook. Thus, one who does not know that an unpretentious hut in the thick of Bastar forests with unplastered bamboo walls and a thatch roof and with space hardly enough for two cots is not a whit less of a building than the Indian versions of the skyscrapers in one of the metropolitan cities, or that a central jail housing all manner of criminals and shady characters is as much a household as the household of the most pious and god-fearing citizen in the State, may not be able to appreciate what exactly the figures represent. Besides explaining the terms and concepts, the note also contains brief notes on the salient and peculiar features of some of the Census tables presented in this Handbook.

Census.—The Census in India is a decennial operation taking place in February-March of the first year of every decade. It ensures coverage of *all* members of the population irrespective of age. The operations constituting a *Census* involve, besides counting of heads, the counting of numerous attributes of the person counted. These are demographic, social, economic and cultural in nature. The number of these attributes regarding which information is recorded has been increasing from census to census and is limited only by considerations of cost, time and organisation.

Population.—The important thing about a population is that it is dynamic. It is a constantly changing entity. These changes take place by the natural processes of birth and death as well as by migration. A statement of population has therefore little sense unless the point of time to which it relates is also stated. A population figure is correct only for a particular point of time; and, even though in practice one may omit to indicate this point of time, one should none the less be clear about it. The population figures presented herein refer to the sunrise of 1st March, 1961, unless otherwise stated.

Rural-Urban Classification:—Data collected at a Census is usually presented separately for the rural and urban areas. A 'town' or a 'town-group' constitutes an urban area. A 'town' in the 1961 Census was either (i) a municipality, cantonment or corporation; or (ii) a habitation with a population at least of 5,000 with atleast three-fourths of the adult male population being engaged in non-agricultural pursuits. The rural-urban classification, being operationally cardinal and prior in point of time to the census count, had to be tackled earlier and a list of 219 towns in the State was therefore, prepared much earlier than the census proper. This included 28 habitations which were tentatively treated as towns, the intention being that, after the 1961 Census data became available, their cases would be re-examined. Later on, however, no modification was made in the list, even though 7 towns did not satisfy either the minimum population criterion or the one based on the ratio of non-agricultural adult males being 75% or greater. These are Gogaon in West Nimar, Datla Bandhi in Chhindwara (both under 5,000 in population); and, Icchawar, Patan, Pendra, Akaltara, Arang respectively in Sehore, Jabalpur, Bilaspur, Bilaspur, and Raipur Districts (not satisfying the economic criterion). The reason for not disturbing the original list of towns was that as many as 14 habitations which did not satisfy one or the other of the criteria laid down earlier managed to sneak into the list of towns as municipalities, and inclusion of seven more such towns was not supposed to introduce greater demographic distortion than was already present. The cases of Chachaura-Binaganj town in Guna District and Sardarpur-Rajgarh in Dhar District are peculiar in that each of these two municipal towns consists of two distinct habitations separated by 2 miles in the first and 3 miles in the second case.

All areas, which were not urban were rural. They consisted of 'villages'. A very large majority of the census villages were 'revenue villages', which had well demarcated or recognised boundaries, and which included not only the inhabited portion (or portions) but also agricultural land and uninhabited waste (or other) lands. The census village was thus not synonymous with a habitation or a dwelling; in fact, a village could contain two or more distinct habitations separated by considerable distances known variously as 'tola' or 'mazra' or 'para'. Besides, in many districts there were forest villages, situated inside Reserved forests and without clearly demarcated boundaries. The areas entered against these villages in the Village Directory are thus only approximate. It is to be noted that being, as observed by Martin [Census Superintendent (old) Madhya Pradesh, 1911 and Census Commissioner for India, 1921] arbitrary and irregular units of

area, carved out chiefly for revenue and administrative purposes, there are many revenue villages which do not have any habitation. They are not, therefore, of much demographic interest, and their inclusion in the Village Directory is only for a proper tally of area aggregates.

A—General Population Tables:

There are four main tables and three appendices in this series.

Table A-1.—This table presents the basic figures relating to area, houses and population separately for the rural and urban areas of each district, each tahsil, and for each city, towngroup or town. The area figures used in the table for the district and the tahsils are those furnished by the State Director of Land Records. In case of the district, the area figures furnished in 1962 by the Surveyor-General, India are also given. The Surveyor-General does not furnish area figures for tahsils. In case of cities and towns the area figures are furnished by the local urban authority (if any) in charge of the municipal administration, or by the local revenue authorities. Except in case of Raipur and Sagar districts, there is no agreement between the area figures for the district furnished by the Director of Land Records and the Surveyor-General, India. These differences arise principally from the differences in the methods adopted by the two agencies in measuring and computing the area.

In the case of eighteen districts (Bastar, Raipur, Durg, Raigarh, Bilaspur, Surguja, Balaghat, Seoni, Chhindwara, Mandla, Narsimhapur, Jabalpur, Sagar, Hoshangabad, Betul, East Nimar, Tikamgarh and Panna), only the district 'total' and 'rural' figures for area include the forest area; the figures for forest area were not available for individual tahsils in these districts, and hence the tahsilwise area figures for these districts do not include forest area. This fact is important particularly for appreciating the district and tahsil population density figures of these districts. The population density (*i.e.*, persons per square mile) given in column 4 of the table is calculated on the basis of the figures of area supplied by the State Directorate of Land Records.

Occupied Residential House.—This is a Census house which was actually occupied at the time of enumeration for residential purposes either partly or fully. The concept of 'Census house' together with the allied concepts of 'building' and 'household' are dealt with later in this note.

Town Group.—The introduction of the concept of "towngroup" is a new feature of the 1961 Census. One kind of 'towngroup' has its basis in what may be called demographic prognosis, this being that a particular group of towns is situated in such a way, and exhibits some interconnecting features of such a kind, that they can be considered a single demographic entity whose organic nature is likely to become more and more evident in the future. Examples are: Bhopal City with Bairagarh in the West and Heavy Electricals Township in the East; and Durg Town and Bhilai Industrial Township. The other type of towngroup is a group only in name in the sense that it represents a group of localities which geography unites but definition separates. Examples are Sagar Towngroup consisting of Sagar Municipality and Sagar Cantt., and Jabalpur Towngroup (consisting of Jabalpur Corporation, Jabalpur Cantt. and Khamaria). In both these instances, the urban complex is single and continuous, but as each corporation or cantonment is a separate town by definition, it gets split up in the Census into more than one town. In Madhya Pradesh there are six towngroups in all; three of them belong to the first type: Bhopal in Sehore District: Murwara in Jabalpur District and Durg in Durg District; the other three belong to the second type, Pachmarhi in Hoshangabad District, Sagar in Sagar District and Jabalpur in Jabalpur District.

Houseless & Institutional Population:—"Houseless population" means those who did not live and were not enumerated, in Census-houses at the last Census. Obviously these swell the ranks of the social destitutes who, to speak in every day parlance do not have even a roof over their heads, but live under the shade of trees or bridges or on pavements. "Institutional population" means the population that was enumerated in institutions at the last census *i.e.*, in hostels, jails, boarding houses, hospitals etc.

Class of Towns.—Towns are classified into six classes as below according to their population sizes:—

Class	*Population range*
I	100,000 and above
II	50,000—99,999
III	20,000—49,999
IV	10,000—19,999
V	5,000—9,999
VI	Below 5,000

Towns of Class I are also known as Cities.

"Status" of a town means the authority in charge of its local urban administration. Thus a town could have a Municipal Corporation; a Municipality, a Cantonment Board, a Gram Panchayat, a Town or Notified Area Committee, etc.

B—(*i*) *General Economic Tables.*—This series includes 22 tables containing information on certain economic aspects of the population. The concepts involved have undergone significant changes as compared with the 1951 and earlier Censuses. In the 1951 and earlier censuses or at any rate in the last few censuses income or economic independence (and dependence) were treated as the criteria for denoting the economic status of a person. Separate account used to be taken of all persons who were economically independent and of those who were economically dependent. An intermediate category of economic semi-independence was also introduced in the 1931 Census. This consisted of the 'earning dependents' of the 1951 Census and even there the element of income was present. This income-based classification seems to have not infrequently resulted in a suppression of information relating to those who worked in household economic activities but did not actually earn any income like men other than the head of the household and women of the family or children working at the family cultivation or cottage industry but not earning any incomes. The 1961 Census introduced the concept of work and totally abandoned the 'income' approach. Thus all people who worked (*i.e.*, were "economically active") including family workers who were not in receipt of any income, & working children who did not earn enough for their maintenance were treated as workers. On the other hand such persons as a receiver of rents on immovable property, or of interest on securities deposited in a bank, and doing no other work, were treated as non-workers. Persons professionally engaged in anti-social activities (*i.e.*, thieves, robbers, prostitutes, beggars, etc.) were, however, not treated as workers. The approach to the concept of "work" was pragmatic and numerous illustrations were given to clarify the concept. The basis of work was held to be satisfied in the case of seasonal work *i.e.*, work at cultivation, livestock, dairying or household industry if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work was satisfied if the person was employed during any of the fifteen days preceding the day on which he was visited by the Census enumerator. A person who was working but was absent from his work during those fifteen days or for a longer period owing to illness or other causes was treated as worker. Work included not only actual physical work but also effective supervision and direction of work.

The Working Categories:—The primary classification of the population is by means of a simple dichotomy into workers and non-workers. The former is further sub-divided into nine sub-classes or working categories of the Census. These are listed below; the correspondence with the Standard National Industrial Classification is also indicated.

	CENSUS WORKING CATEGORY	CORRESPONDING DIVISION OR MAJOR GROUP OR MINOR GROUP OF NIC
I	Workers in cultivation	Minor Groups 000, 001, 002, 003, 004,
II	Agricultural Labourers ...	The same as in I above
III	Workers in mining, quarrying, live-... stock, forestry, fishing, hunting and plantations, orchards and allied activities	Major Groups 01, 02, 03 and 04 and Division 1; Minor Groups 005, 006, 007, 008, 009 (if not classifiable as household industry)
IV	Workers in household industry ...	Minor Groups 005 to 009, 013, 014, 015, 020 to 026, 031, 032, 040 to 048, 107, Divisions 2 & 3 (excepting Minor Groups 201, 217, 218, 232, 252, 260, 290, 324, 325, 338 and 380) if on a household scale
V	Workers in manufacturing other ... than household industry	Divisions 2 & 3
VI	Workers in construction ...	Division 4
VII	Workers in Trade and Commerce ...	Division 6
VIII	Workers in Transport Storage ... and Communications	Division 7
IX	Workers in other services ...	Divisions 5, 8 & 9

The only term requiring explanation is household industry, the others being self-explanatory. As regards household industry, a three-fold test was laid down, *viz*:—

(a) "Household Industry" should consist of manufacture, processing or servicing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.

(b) "Household Industry" should be on the household scale where the workers mainly will be the Head of the household himself and/or members of the household, the role of hired workers from outside being of secondary importance. Thus, in any Household Industry, members of the household should be in a position to lend a hand in the industry whenever they find the time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a *registered factory* but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

(c) Location also is important, for proximity decides participation by members of the household. In a village this participation is possible if the Household Industry is located at home or within the village because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such free movement is not possible, and therefore, for household industry in urban areas we should consider only those industries which are located or at least the major part of whose work is located at home.

Class of Worker:—A worker, other than a cultivator, agricultural labourer or a worker at household industry could be: (i) an Employer, that is, who hires one or more persons in his work; (ii) an Employee, that is, who does his work under others for wages or salary in cash or kind; (iii) a Single Worker, that is, who is doing his work without employing others, except casually, and without the help of other members of the family, except casually (this includes workers working as members of a co-operative); and (iv) a Family Worker, that is, who is doing his work in his own family without wages or salary in cash or kind. A person could be an employee in a household industry also.

PRINCIPAL AND SECONDARY WORKER:

Table B-VII Part A and Part B involve the concepts of principal and secondary work. For every worker the principal work had to be indicated in the case of a person who was engaged in more than one work, and also the secondary work if he was engaged in two or more than two productive activities. The concepts of primary and secondary work had nothing to do with the income accruing to a person from his work. The principal work of a person was that activity which took up most of his time; similarly the secondary work (in case a person was engaged in two or more than two kinds of work) was that which took up less time than the principal work but greater than the other kinds of work. Unless specifically stated to the contrary in the table heading itself the tables in the Handbook are based on the principal work of a person.

Non-workers:—The non-working section of the population also was divided into eight classes according to the nature of their activities. Thus a non-worker could be (i) a full time student or child attending school, (ii) a person engaged in home duties (like a housewife or other adult female who does no other work) (iii) dependent including an infant or child not attending school, a person permanently disabled from work because of illness or old-age; (iv) a retired person who is not employed again, rentier, a person living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work and who does no other work; (v) a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence; (vi) a convict (not an undertrial who was to be recorded for the work he did before being admitted to Jail); (vii) persons who were seeking employment for the first time; and (viii) persons who previously had worked, but were out of employment, and were again seeking work.

Education Levels:—A person was treated as illiterate if he did not satisfy the test of literacy, this meaning the ability both of reading and writing. The test of reading was held to be satisfied if a person could read printed matter or easily legible manuscripts. The test of writing was the ability to write a simple letter. The minimum educational level is primary or junior basic, and this includes all persons who have passed this examination but have not passed the next higher level examination *i.e.*, matriculation or higher secondary. Persons who had formal schooling but had not passed the primary or junior basic level examination were literates without any educational levels. A person belonging to any particular educational level means a person who has passed the examination denoting that level.

INDUSTRIAL AND OCCUPATIONAL CLASSIFICATION OF WORKERS:

Workers have also been classified according to their occupation and industry. The concepts of 'industry' and 'occupation' are of fundamental importance in connection with all economic activity and it is necessary that they should not be confused with each other. By "industry" is meant the sector of economic activity in which a worker is engaged *e.g.*, the textile industry, mining industry, etc., whereas by 'occupation' is meant the exact function that a worker performs in that sector *e.g.*, fitter, carpenter, typist, etc. Occupation thus is "a trade, profession or type of work performed by an individual independent of the worker's industry, status or years of experience".

THE INDIAN STANDARD INDUSTRIAL CLASSIFICATION (I. S. I. C.):

The industrial classification used in some of the economic tables of this hand-book is the 'Standard Industrial Classification' prepared by the Ministry of Labour and Employment, Government of India. Under this scheme of classification, the whole range of economic activity is divided into nine 'divisions', and a code number is given to each. The first digit of the code number of any specific economic activity stands for the 'Division' under which that activity is classified. Each division is then divided into a number of major groups not exceeding ten. The first and second digits of the code number represent the division and the major group into which an economic activity is classified. Each major group is again sub-divided into a number of minor-groups not exceeding ten, and the first, second and third digits in the code number of any economic activity represent the division, the major group and the minor group into which it is classified. To illustrate, the industrial 'code', '261', represents an economic activity corresponding to minor group 261 in major-group 26 of Division 2. A reference to the Standard Industrial Classification will show that the minor group code stands for the economic activity 'Dying and bleaching of silk' in the major group 'Textiles Silk' of the Division: 'Manufacturing'. The 'Divisions', 'Major Groups' and 'Minor Groups' of the Standard Industrial Classification are printed immediately after this note as Appendix I.

NATIONAL CLASSIFICATION OF OCCUPATIONS (NCO):

Table B-V gives the occupational classification by sex of persons at work other than cultivation. This classification is based on the 'National Classification of Occupations' prepared by the Ministry of Labour and Employment, Government of India. Each *occupation* is represented by a code number containing a number of digits (extending in the NCO upto 5). We have used only the three digit Code number for classifying occupation. All occupations are divided into ten divisons to each of which a digit is allotted. The first digit of the code number of an occupation stands for the 'Division' into which it is classified. Each division is then sub-divided into a number of groups not exceeding ten. The first and second digits of the code number represent the 'Division' and 'Group' into which an occupation is classified. Each group again is divided into a number of families not exceeding ten and the first three digits of the code number stand for the division, group and family into which an occupation is classified. To illustrate, the code number 911 stands for the family 911 (Cooks, cook-bearers, domestic and institutional) included in the Group 91 (Housekeepers, Cooks, Maid and related workers) included in the 'Division' 9 (Service, Sport and Recreation workers). The Divisions, Groups, and Families of the National Classification of Occupations are printed after this note as Appendix II.

It may be mentioned that the three digit industrial code can easily be extended into a four-digit code on the principles illustrated earlier to secure greater precision in the classification of the economic activitity of a worker. This has in fact been done in case of workers at household industry, and these four-digit code numbers have been used in Table B XIV Part B.

B—(ii) Household Economic Tables:—Tables belonging to this series differ from others in two respects: (i) they have been prepared from information recorded on the household schedules, while the other tables are prepared from information recorded on the individual slips; (ii) whereas the other tables are based on the total population, the tables in this series are prepared from the data contained in a 20% sample of all households. The instructions for selecting the sample are reproduced below:—

"Every fifth household from the starting random household will be selected to make a 20% sample. The sample household will be marked continuously for rural areas of a tahsil/taluka and for urban areas of a district *i.e.*, households left over in a household pad should be carried over to the next household schedule pad for the selection of sample households.

"Before making the sample households the household schedule pads should be arranged in the order of location code numbers of villages in a Taluka or Tahsil in the case of a rural area and in the order of location code numbers of towns in a district for urban areas. The first sample household should be chosen randomly among the first five households in the first household schedule pad and stamped (s) as selected. This random number (random start) should be chosen separately for rural areas of each taluka/tahsil and for

the urban area of the district. From the first random household every fifth household should be continuously stamped as selected..... The sample should be continuously marked for all the pads of villages in a tahsil and urban areas in a district. If in a particular household schedule pad at the end, some households (these will be four or less) are left after marking of the sample household, the housedolds left over should be carried over to the next household schedule pad and the appropriate household in that pad should be marked as a sample household".

C.—Social and Cultural Tables:

This series contains 8 tables of which Table C-1 is prepared from data abstracted from the 20% sample of households.

Marital Status:—As regards marital status a person could be (i) never married, (ii) married, (iii) widowed and (iv) divorced or separated. The figures given do not necessarily indicate the legal position. Thus, persons who lived together as man and wife and who were regarded as such by society were treated as 'married' even though there might not be any legally valid marriage between them.

Age.—The age of a person was recorded in completed years as on the last birth day at the time of enumeration, so that a child who had not completed a year of its existence was recorded as of age '0' Inspite of the best efforts, distortion of ages is common phenomenon in Indian Census. This distortion is ascribable to the combined effect of a variety of causes like, for example, digit-preference, age-bias and estimation error and its most obvious manifestation is the heaping of the ages at digits ending in 0 or 5 and in even rather than in odd numbers.

Mother Tongue:—Mother tongue is the language spoken in childhood by a person's mother to the person, or mainly spoken in the household.

Religion:—Separate figures are given only for the six main religions: Hindu, Muslim, Jain, Sikh, Christian and Buddhist. Figures for persons professing other religions have been clubbed together under the head: Other Religions and persuasions'

Scheduled Castes and Scheduled Tribes:—In view of the constitutional safeguards guaranteed to persons belonging to scheduled castes and scheduled tribes with a view to ameliorate their social and economic condition, basic census figures are for the first time being published separately for each scheduled caste and scheduled tribe. A scheduled caste or a scheduled tribe means a caste or a tribe included in the Order issued by the President of India under Articles 341 (1) and 342 (1) of the Constitution, amended, if necessary in accordance with Articles 341 (2) and 342 (2) thereof. It should be remembered that the population of a particular scheduled caste or tribe as given in the tables does not necessarily mean the entire population of that caste or tribe in the district. This is so because scheduling of a caste or tribe under the Constitution is *territorial* so that a caste or a tribe scheduled in a district, (or a tahsil or tahsils of a district) is not necessarily a scheduled caste in other districts (or other tahsils of the same district). Thus Gond is a scheduled tribe in all tahsils of Jabalpur District except Jabalpur Tahsil so that the figures for Gond population in Jabalpur District exclude the Gonds of Jabalpur Tahsil. Secondly, some of the scheduled tribes have not been given independent status in some parts of the State by the Order but have been clubbed together with some major tribe, while, in other parts of the State, they have not been so clubbed but have been included as distinct scheduled tribes. Thus, in the districts of the Mahakoshal region of the State, the tribe Agaria has been clubbed, along with many another, with Gond as the latter's sub-tribe. In these districts, therefore, figures relating to Agaria tribe, whose ethnic identity with Gond is controversial, do not appear independently in the tables of these districts, but are included in the figures for Gond. In the Vindhya Pradesh region, however, Agaria is Scheduled tribe in its own right and in the districts belonging to that region Agaria population appears separately in the relevant tables.

Religion of Scheduled Castes and Tribes:—A scheduled caste can exist only in Hindu and Sikh religions and in no other religion. A scheduled tribe, however, may be found in any religion.

E—Housing Tables:—The Handbook includes five tables on housing. In using these tables, it should be remembered that they are prepared from the data on households abstracted from the 'Houselists'. Tables E-I and E-III are based on the full count while table E-II, E-IV and E-V are prepared from a 20% sample of households entered in the Houselists. Houselisting was non-synchronous with census proper, having taken place in the month of September-October, 1960, about five month before the reference date of the Census. Also, the population of households entered in the houselists is not necessarily identical with the population of households in respect of which household schedules were filled at the time of the Census. Thus the samples of households drawn from the household schedule, and from the house lists are different samples.

The instruction for drawing the 20% sample of households from the houselists are reproduced below:—

"Before marking the sample households the Houselists should be arranged in order of location code numbers in the case of rural areas for tahsil etc., and in the case of urban areas other than towns with population of 50,000 and over. In the case of towns with population of 50,000 and over the Houselists should be arranged in order of blocks. The first sample household should be chosen randomly among the first five households in the first Houselist. From that every fifth household from the first random household should be continuously marked..... The sample should be marked continuously for all the Houselists. If in a particular Houselist at the end two households are left after the marking of the sample households then these households should be carried over to the next Houselist and the third household in that list should be marked as sample households".

Census House and Census Households:—The concepts of "building" "house" and "household" are important and differ somewhat from their connotations in common speech. A building refers to the entire structure on the ground. A census house is a structure or part of structure inhabited or vacant or a dwelling, a shop, a shop-*cum*-dwelling or place of business, workshop, school etc., with a separate entrance. A census house was thus a building, or part of a building with a separate entrance. A census house could have a variety of uses, residential as well as non-residential; or it might be vacant (at the time of houselisting).

A household was defined as "a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so." A household necessarily lived in a census house or part of a census house. The definition of a household was broad enough to include all persons living together in a census-house and dining from the same kitchen, even if they were not related to one another. Such were the institutional households, like jails, hostels, hospitals etc. The house in which a household lived could either be owned or rented. All census-houses which were not owned by the households living in them were treated as 'rented' even though no rent was being actually paid.

"Factory" and "Workshop":—As is clear from its definition, a Census house could be a workshop. A workshop is a place where some kind of production, repair or servicing goes on, or where goods or articles are made and sold. A bigger workshop which was either registered under the Indian Factories Act or was of the scale of a registered factory was returned as a factory. For a manufacturing, repairing or servicing establishment to be registered under the Indian Factories Act, it should have ten or more workers if using power and twenty or more workers if not using power.

VILLAGE DIRECTORY AND ITS APPENDICES:

Village Directory:—The Village Directory corresponds to the Primary Census Abstract of the 1951 Census. It gives for each village of the district: (a) information relating to area, census houses, households, scheduled castes and scheduled tribes and literacy; and (b) the classification of the population into workers and non-workers, and again 'workers' into their 'Industrial Categories' separately for both the sexes. For facilitating comparison with the Census Handbook of 1951 the serial number at which the village is to be found in 1951 Handbook is also given. A new feature introduced in this Census is the presentation of additional information about each village relating to schools, hospitals, child and maternity welfare centres, medical practitioners, electricity, post and telegraph offices etc. This has been done by entering symbols against the name of each village. Another novel feature is the presentation in eleven appendices of useful information relating to villages and towns *i.e.*, industrial establishments, places situated on bus routes, or within five miles of a railway station, places having pucca wells, markets, public reading rooms, drains etc.

To enable the reader to locate the village in the Village Directory without much difficulty, an alphabetical index of village names is given. This gives for each village the 1961 location code number of the village (in the Village Directory, villages are arranged according to their Location Code Numbers); and its location code number in the 1951 Hand-book.

APPENDIX—I

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into

9 Divisions

45 Major Groups

343 Minor Groups

The divisions, major groups and minor groups with their Code numbers are listed below.

Major Group (Code)	Description	Minor Group (Code)
	Division O—Agriculture, Livestock, Forestry, Fishing and Hunting.	
00	Field Produce and Plantation Crops:—	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines & orchards	006
	Production of wood, bamboo, cane reeds, thatching grass etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 & flowers) not covered above	009
01	Plantation Crops:—	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
02	Forestry and Logging:—	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	Fishing:—	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	Livestock and Hunting:—	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax, and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047

Major Group (Code)	Description	Minor Group (Code)
	Production of other animal husbandry products such as skin, bone, ivory & teeth	048
	Division 1—Mining and Quarrying:—	
10	Mining and Quarrying:—	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and Quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
	Division 2 & 3—Manufacturing:—	
20	Foodstuffs:—	
	Production of rice, atta, flour, etc. by milling, Dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur, from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	Beverages:—	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice-cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	Tobacco Products:—	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacoo	225
	Manufacture of other tobacco products	226
23	Textile—Cotton:—	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239

Major Group (Code)	Description	Minor Group (Code)
24	Textile—Jute:—	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	Textile—Wool:—	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	Textile—Silk:—	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	Textile—Miscellaneous:—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of water-proof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding, and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	Manufacture of Wood and Wooden Products:—	
	Sawing and planing of wood	280
	Manufacture of wooden furniture & fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows.	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys, artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	Paper and paper Products:—	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	Printing and Publishing:—	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301

Major Group (Code)	Description	Minor Group (Code)
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stiching, sizing and other allied work connected with binding industry	303
31	Leather and Leather Products:—	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by Code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather foot-wear	314
	Repair of all other leather products except footwear	315
32	Rubber, Petroleum and Coal Products:—	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	Chemicals and Chemical Products:—	
	Manufacture of basic industrial chemicals such as acids, alkalis & their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals & chemical products not covered above (including inedible oils and fats)	339
34	Non-metallic Mineral Products other than Petroleum and Coal:—	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery:—	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357

Major Group (Code)	Description	Minor Group (Code)
35	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	Basic Metals and their products except Machinery and Transport Equipment:—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and *alloys in basic forms*	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating, (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39).	369
37	Machinery (All kinds other than transport) and Electrical Equipment:—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	Transport Equipment:—	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by Code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats, and manufacture of marine engines	386
	Manufacture & repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles	389
39	Miscellaneous manufacturing Industries:	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of Musical Instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, pen-holder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
	Division 4—Construction	
40	Construction:—	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403
	Division 5—Electricity, Gas, Water and Sanitary Services	
50	Electricity and Gas:—	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of Gas in gas works and distribution to domestic and industrial consumers	502
51	Water Supply and Sanitary Services:—	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
	Division 6—Trade and Commerce	
60	Wholesale Trade:—	
	Wholesale trading in cereals and Pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish dairy products eggs, poultry and other foodstuff (not covered else where)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
61	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
62	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products	621
63	Wholesale trading in paper and other stationery goods	630

Major Group (Code)	Description	Minor Group (Code)
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64	Retail Trade:—	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in food stuffs like sweetmeats, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
65	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piecegoods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, headgear such as hat, umbrellas, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobiloil and allied products	655
66	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and papers	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
67	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo cane, bark and thatches	672
	Retail trading in other building materials	673
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689

Major Group (Code)	Description	Minor Group (Code)
69	Trade and Commerce Miscellaneous:—	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
Division 7.—Transport, Storage and Communication:		
70	Transport:—	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	Services incidental to transport such as packing, carting travel agency	710
72	Storage and Ware Housing:—	
	Operation of storage such as warehouses	720
	Operation of storage such as cold-storage	721
	Operation of storage of other type	722
73	Communication:—	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
Division 8.—Services:		
80	Public Services (This does not include Govt., Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing & operation of financial institution each of which is classified in the appropriate industry groups):—	
	Public Services in Union and State army including territorial corps and volunteer corps	800
	Public Service in Navy	801
	Public Service in Air Force	802
	Public Service in Police	803
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of Quasi-Government organisation, municipalities, local boards, etc.	805
	Public service in administrative departments and offices of State Governments	809
81	Educational and Scientific Services:—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institutions not capable of classification under any individual group	812
82	Medical and Health Services:—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic particulars	820
	Veterinary services rendered by organisations and individuals	821

Major Group (Code)	Description	Minor Group (Code)
83	Religious and Welfare Services:—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for promotion of welfare of the community such as relief societies red-cross organisation for the collection and allocation of contribution for charity	832
84	Legal Services:—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organizations and individuals	841
85	Business Services:—	
	Engineering services rendered by professional organisations or individuals	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as of those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news agency, news paper correspondent, columnist, journalists, editors, authors	853
86	Community Services and Trade and Labour Associations:—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political, and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens etc.	862
87	Recreation Services:—	
	Production of motion picture and allied services such as processing editing etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor etc. racing.	873
88	Personal Services:—	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry services rendered by organisations and individuals, (this includes all types of cleaning, dyeing, bleaching, dry cleaning services)	883
	Hair dressing, other services rendered by organisation and individuals such as those by barber, hairdressing saloon and beauty shops	884
	Services rendered by portrait and commericial photographic studios	885
89	Services (not elsewhere classified):—	
	Services rendered by organisations or individuals not elsewhere classified	890
	Division 9—Activities not adequately descirbed:	
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900
	Fresh entrants to the Labour Market	999

APPENDIX—II

NATIONAL CLASSIFICATION OF OCCUPATIONS

(Code Structure)

Which classifies occupations into

331 Occupational Families (three-digit code numbers)

75 Occupational Groups (two-digit code numbers)

11 Occupational Divisions (one-digit code numbers)

Note I.—The Classification does not provide separate code numbers for Apprentices, Foremen and Instructors (in-plant only). These may be classified by giving the prefixes of "A", "B", or "C" respectively before the code number of the occupation which is being learned, supervised or instructed.

Note II.—n. e. c.—not elsewhere classified.

DIVISIONS, GROUPS AND FAMILIES

0 *Professional, Technical and Related Workers*:

00 Architects, Engineers and Surveyors:—

- 000 Architects
- 001 Civil Engineers (including overseers)
- 002 Mechanical Engineers
- 003 Electrical Engineers
- 004 Chemical Engineers
- 005 Metallurgical Engineers
- 006 Mining Engineers
- 007 Surveyors
- 009 Architects, Engineers and Surveyors, n. e. c.

01 Chemists, Physicists, Geologists and other Physical Scientists:—

- 010 Chemists, except Pharmaceutical Chemists
- 011 Pharmaceutical Chemists
- 012 Physicists
- 013 Meteorologists
- 014 Geologists and Geophysicist
- 015 Mathematicians
- 019 Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.

02 Biologists, Veterinarians, Agronomists & Related Scientists:—

- 020 Biologists and Animal Scientists
- 021 Veterinarians
- 022 Sliviculturists
- 023 Agronomists and Agricultural Scientists
- 029 Biologists, Veterinarians, Agronomists and Related Scientists, n.e.c.

03 Physicians, Surgeons and Dentists

- 030 Physicians and Surgeons, Allopathic
- 031 Physicians, Ayurvedic
- 032 Physicians, Homeopathic
- 033 Physicians, others
- 034 Physiologists
- 035 Dentists
- 039 Physicians, Surgeons and Dentists, n.e.c.

04 Nurses, Pharmacists and other Medical & Health Technicians:—

- 040 Nurses
- 041 Midwives and Health Visitors
- 042 Nursing Attendants and Related Workers
- 043 Pharmacists and Pharmaceutical Technicians
- 044 Vaccinators
- 045 Physiotherapists, Masseurs and Related Technicians
- 046 Sanitation Technicians
- 047 Optometrists and Opticians
- 049 Medical and Health Technicians, n.e.c. (excluding Laboratory Assistants see 091).

05 Teachers:—

- 050 Teachers, University
- 051 Teachers, Secondary Schools
- 052 Teachers, Middle and Primary Schools
- 053 Teachers, Nursery and Kindergarten Schools
- 059 Teachers, n.e.c.

06 Jurists:—

- 060 Judges and Magistrates
- 061 Legal Practitioners and Advisers
- 062 Law Assistants
- 069 Jurists, and Legal Technicians (including Petition Writers)

07 Social Scientists and Related Workers:—
- 070 Economists
- 071 Accountants and Auditors
- 072 Statisticians and Actuaries
- 073 Geographers
- 074 Psychologists
- 075 Personnel Specialists
- 076 Labour and Social Welfare Workers
- 077 Sociologists and Anthropologists
- 078 Historians, Archeologists, Political Scientists and Related Workers
- 079 Social Scientists and Related Workers, n.e.c.

08 Artists, Writers and Related Workers:—
- 080 Authors
- 081 Editors, Journalists and Related Workers
- 082 Translators, Interpreters and Language Specialists
- 083 Painters, Decorators and Commercial Artists
- 084 Sculptors and Modellers
- 085 Actors and Related Workers
- 086 Musicians and Related Workers
- 087 Dancers and Related Workers
- 089 Artists, Writers and Related Workers n.e.c.

09 Draughtsmen, and Science and Engineering Technicians, n.e.c.
- 090 Draughtsmen
- 091 Laboratory Assistants
- 099 Science and Engineering Technicians, n.e.c.

0X Other Professional, Technical and Related Workers:—
- 0X0 Ordained Religious Workers
- 0X1 Non-ordained Religious Workers
- 0X2 Astrologers, Palmists and Related Workers
- 0X9 Other Professional, Technical and Related Workers, n.e.c.
- 0X4 Geographers

1 *Administrative, Executive and Managerial Workers*
- 0X3 Librarians, Archivists and Related *Workers*:

10 Administrators and Executive Officials, Government:—
- 100 Administrators and Executive Officials, Central Government (All Defence Services Personnel to be included in this family)
- 101 Administrators and Executive Officials, State Government
- 102 Administrators and Executive Officials, Local Bodies.
- 103 Administrators and Executive Officials, Quasi-Government
- 104 Village Officials
- 109 Administrators and Executive Officials, Government, n.e.c.

11 Directors and Managers, Whosesale and Retail Trade:—
- 110 Directors and Managers, Wholesale Trade
- 111 Directors and Managers, Retail Trade

12 Directors, Managers and Working Proprietors, Financial Institutions:—
- 120 Directors, Managers and Working Proprietors, Banks
- 121 Directors, Managers and Working Proprietors, Insurance
- 129 Directors, Managers and Working Proprietors, Financial Institutions,

13 Directors, Managers and Working Proprietors, other:—
- 130 Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling
- 131 Directors, Managers and Working Proprietors, Construction
- 132 Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary.
- 133 Directors, Managers and Working Proprietors, Manufacturing
- 134 Directors, Managers and Working Proprietors, Transport and Communication
- 135 Directors, Managers and Working Proprietors, Recreation, Entertainment and Catering Services
- 136 Directors, Managers and Working Proprietors, Other Services
- 139 Directors, Managers and Working Proprietors, n.e.c.

2 *Clerical and Related Workers*:

20 Book-keepers and Cashiers:—
- 200 Book-keepers, Book-keeping and Accounts Clerks
- 201 Cashiers
- 202 Ticket Sellers and Ticket Inspectors including ushers and Ticket Collectors (excluding those on moving transport)

21 Stenographers and Typists:—
- 210 Stenographers
- 211 Typists

22 Office Machine Operators:
- 220 Computing Clerks and Calculating Machine Operators
- 221 Punch Card Machine Operators
- 229 Office Machine Operators, n.e.c.

28 Clerical Workers, Miscellaneous:—
- 280 General and other Ministerial Assistants and Clerks
- 289 Miscellaneous Office Workers including Record keepers, Moharrers, Diaphers, Packers and Binders of office papers.

29 Unskilled Office Workers:—
- 290 Office Attendants, Ushers, Hall Porters etc. n.e.c.

3 *Sales Workers*:

30 Working Proprietors, Wholesale and Retail Trade:—
- 300 Working Proprietors, Wholesale Trade
- 301 Working Proprietors, Retail Trade

31 Insurance and real estate salemen, salesmen of securities and services, and auctioneers:—
- 310 Agents and Salesmen, Insurance
- 311 Agents, Brokers and Salesmen, Real Estate
- 312 Brokers and Agents, Securities and Shares
- 313 Auctioneers
- 314 Valuers and Appraisers
- 319 Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c.

32 Commercial Travellers and Manufacturers' Agents:—
- 320 Commercial Travellers
- 321 Manufacturers' Agents
- 329 Commercial Travellers and Manufacturers' Agents, n.e.c.

33 Salesmen, Shop Assistants and Related Workers:—
- 330 Salesmen and Shop Assistants, Wholesale and Retail Trade
- 331 Hawkers, Pedlars and Street Vendors
- 339 Salesmen, Shop Assistants and Related Workers, n.e.c.

34 Money-Lenders and Pawn-Brokers:—
- 340 Money-Lenders (including Indigenous Bankers)
- 341 Pawn-Brokers

4 *Farmers, Fishermen, Hunters, Loggers and Related Workers*:

40 Farmers and Farm Managers:—
- 400 Cultivators (Owners)
- 401 Cultivators (Tenants)
- 402 Farm Managers, Inspectors and Overseers
- 403 Planters and Plantation Managers
- 404 Farmers and Farm Managers, Animals, Birds and Insects Rearing
- 409 Farmers and Farm Managers, n.e.c.

41 Farm Workers:—
- 410 Farm Machinery Operators
- 411 Farm Workers, Animals, Birds and Insects Rearing
- 412 Gardeners (malis)
- 413. Tappers (Palm, Rubber trees, etc.)
- 414 Agricultural Labourers
- 415 Plantation Labourers
- 419 Farm Workers, n.e.c.

42 Hunters and Related Workers:—
- 420 Hunters
- 421 Trappers
- 429 Hunters and Related Workers, n.e.c.

43 Fishermen and Related Workers:—
- 430 Fishermen, Deep Sea
- 431 Fishermen, Inland and Coastal Waters
- 432 Conch and Shell gatherers, Sponge and Pearl Divers
- 439 Fishermen and Related Workers, n.e.c.

44 Loggers and other Forestry Workers:—
- 440 Forest Rangers and Related Workers
- 441 Harvesters and Gatherers of Forest Products including lac (except logs)
- 442 Log Fellers and Wood Cutters
- 443 Charcoal Burners and Forest Product Processors
- 449 Loggers and other Forestry Workers, n.e.c.

5 *Mines, Quarrymen and Related Workers*:

50 Miners and Quarrymen:—
- 500 Miners
- 501 Quarrymen

502 Drillers, Mines and Quarries
503 Shot Firers
509 Miners and Quarrymen, n.e.c.

51 Well Drillers and Related Workers:—
510 Well Drillers, Petroleum and Gas
511 Well Drillers, other than Petroleum and Gas

52 Mineral Treaters:—
520 Mineral Treaters

59 Miners, Quarrymen and Related Workers, n.e.c.:—
590 Miners, Quarrymen and Related Workers, n.e.c.

6 *Workers in Transport and Communication Occupations*:

60 Deck Officers, Engineer Officers and Pilots, Ship:—
600 Deck Officers and Pilots, Ship
601 Ship Engineers

61 Deck and Engine-room Ratings (Ship), Barge Crews and Boatmen:—
610 Deck Ratings (Ship), Barge Crews and Boatmen
611 Engine-Room Ratings, Firemen and Oilers, Ship

62 Aircraft Pilots, Navigators and Flight Engineers:—
620 Aircraft Pilots
621 Flight Engineers
622 Flight Navigators

63 Drivers and Firemen, Railway Engine:—
630 Drivers
631 Firemen

64 Drivers, Road Transport:—
640 Tramcar Drivers
641 Motor Vehicle and Motor Cycle Drivers
642 Cycle Rickshaw Drivers and Rickshaw Pullers
643 Animal Drawn Vehicle Drivers
649 Drivers, Road Transport, n.e.c. (including Palki and Doli Bearers)

65 Conductors, Guards and Brakesmen (Railway):—
650 Conductors
651 Guards
652 Brakesmen

66 Inspectors, Supervisors, Traffic Controllers, Despatchers, Transport:—
660 Inspectors, Supervisors and Station Masters
661 Traffic Controllers
662 Signalmen and Pointsmen

67 Telephone, Telegraph and Related Telecommunication Operators:—
670 Telephone Operators
671 Telegraphists and Signallers
672 Radio Communication and Wireless Operators
673 Teleprinter Operators
679 Telephone, Telegraph and Related Tele-Communication Operators, n.e.c.

68 Postmen and Messengers:—
680 Postmen
681 Messengers (including Dak Peons)

69 Workers in Transport and Communication Occupations, n.e.c.
690 Ticket Sellers, Ticket Inspectors, including Ushers and Ticket Collectors on moving Transport
691 Conductors, Road Transport
692 Workers in Transport Occupations, n.e.c.
693 Inspectors, Traffic Controllers and Despatchers, Communications
694 Workers in Communication Occupation, n.e.c.

7-8 *Craftsmen, Production Process Workers, and Labourers not elsewhere classified*:

70 Spinners, Weavers, Knitters, Dyers and Related Workers:—
700 Fibre Preparers, Ginners, Cleaners, Scourers, etc.
701 Blow-room Workers and Carders
702 Spinners, Piecers and Winders
703 Warpers and Sizers
704 Drawers and Weavers
705 Pattern Card Preparers (excluding Printers)
706 Bleachers, Dyers and Finishers
707 Knitters and Lace Makers
708 Carpet Makers and Finishers
709 Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.

71 Tailors, Cutters, Furriers and Related Workers:—
- 710 Tailors, Dress Makers and Garment Makers
- 711 Hat and Head-gear Makers
- 712 Furriers
- 713 Upholsterers and Related Workers
- 714 Pattern Makers, Markers and Cutters, Textile Products, Leather Garments and Gloves
- 715 Sewers, Embrioderers and Darners, Textile and Fur Products
- 719 Tailors, Cutters, Furriers and Related Workers, n.e.c.

72 Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers:—
- 720 Shoe Makes and Shoes Repairers
- 721 Cutters, Lasters, Sewers, Footwear and Related Workers
- 722 Harness and Saddle Makers
- 729 Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers, n.e.c.

73 Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers:—
- 730 Furnacemen, Metal
- 731 Annealers, Temperers and Related Heat Treaters
- 732 Rolling Mill Operators, Metal
- 733 Blacksmiths, Hammersmiths and Forgemen
- 734 Moulders and Coremakers
- 735 Metal Drawers and Extruders
- 739 Furnacemen, Rollers, Drawers, Moulders and Related Metal-Making and Treating Workers n.e.c.

74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers:—
- 740 Precision Instrument Makers, Watch and Clock Makers and Repairmen
- 741 Jewellers, Goldsmiths and Silversmiths
- 742 Jewellery Engravers

75 Tool-Makers, Machinists, Plumbers, Welders, Platers and Related Workers:—
- 750 Fitter-Machinists, Tool-makers and Machine Tool Setters
- 751 Machine Tool Operators
- 752 Fitter-Assemblers and Machine Erectors (Except Electrical and Precision Instrument Fitter-Assemblers)
- 753 Mechanics-Repairmen (Except Electrical and Precision Instrument Repairmen)
- 754 Sheet Metal Workers
- 755 Plumbers and Pipe Fitters
- 756 Welders and Flame Cutters
- 757 Metal Plate and Structural Metal Workers
- 758 Electro-Platers, Dip-Platers and Related Workers
- 759 Tool-Makers, Machinists, Plumbers, Welders, Platers and Delated Workers, n.e.c. (including Metal-engravers other than printing)

76 Electricians and Related Electrical and Electronics Workers:—
- 760 Electricians, Electrical Repairmen and Related Electrical Workers
- 761 Electrical and Electronics Fitters
- 762 Mechanics-Repairmen, Radio and Television
- 763 Installers and Repairmen, Telephone and Telegraph
- 764 Linemen and Cable Jointers
- 769 Electricians and Related Electrical and Electronics Workers, n.e.c.

77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers:—
- 770 Carpenters, Joiners, Pattern Makers (Wood)
- 771 Shipwrights and Body Builders
- 772 Sawyers and Wood Working Machinists
- 773 Coach and Body Builders
- 774 Cart Builders and Wheel Wrights
- 775 Cabinet Makers
- 779 Carpenters, Joiners, Cabinet Makers, Coopers. and Related Workers, n.e.c.

78 Painters and Paper Hangers:—
- 780 Painters and Paper Hangers

79 Bricklayers, Plasterers and Construction Workers n.e.c.:—
- 790 Stone Cutters, Stone Carvers and Stone Dressers
- 791 Bricklayers, Flasterers, Masons
- 792 Glaziers

793 Cement Finishers and Terrazzo and Mosaic Workers
794 Hut Builders and Thatchers
795 Well Diggers
799 Bricklayers, Plasterers and Construction Workers, n.e.c.

80 Compositors, Printers, Engravers, Book-Binders and Related Workers:—
800 Type-setting Machine Operators
801 Compositors
802 Proof-Readers and Copy Holders
803 Printers (Paper)
804 Printers (Textile)
805 Photo-Litho Operators, Photo-lithographers
806 Engravers, Etchers & Block Makers (Printing)
807 Stereotypers
808 Book Binders
809 Compositors, Printers, Engravers, Book-Binders and Related Workers, n.e.c.

81 Potters, Kilnmen, Glass and Clay Formers and Related Workers:—
810 Furnacemen, Kilnmen and Ovenmen
811 Potters, and Related Clay Formers
812 Blowers and Benders, Glass
813 Moulders and Pressers, Glass
814 Grinders, Cutters, Decorators and Finishers
815 Pulverisors and Mixers, Cement, Clay and other Ceramics
819 Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.

82 Millers, Bakers, Brewmasters and Related Food and Beverage Workers:—
820 Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers
821 Crushers and Pressers, Oil Seeds
822 Dairy Workers (Non-Farm)
823 Khandsari, Sugar and Gur Makers
824 Bakers, Confectioners, Candy and Sweetmeat Makers
825 Makers of Aerated Water and Brewers
826 Food Canners, Preservers and Related Workers
827 Butchers
828 Coffee and Tea Blenders and Related Workers
829 Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.

83 Chemical and Related Process Workers:—
830 Batch and Continuous Still Operators
831 Cookers, Roasters and other Heat Treaters, Chemical and Related Processes
832 Crushers, Millers and Calenderers Chemical and Related Processes
833 Paper Pulp Preparers
834 Paper Makers
839 Chemical and Related Process Workers, n.e.c.

84 Tobacco Preparers and Products Makers:
840 Curers, Graders and Blenders, Tobacco
841 Cigarette Machine Operators
842 Cheroot, Cigar and Bidi Makers
843 Snuff and Zarda Makers
849 Tobacco Preparers and Product Makers, n.e.c.

85 Craftsmen and Production Process Workers n.e.c.
850 Basketry Weavers and Related Workers
851 Tyre Builders, Vulcanisers and Related Rubber Products Makers
852 Plastics Products Makers
853 Tanners, Fellmongers, Pelt Dressers and Related Workers
854 Photographic Dark Room Workers
855 Makers of Musical Instruments and Related Workers
856 Paper Products Makers
859 Craftsmen and Production Process Workers, n.e.c.

86 Testers, Packers, Sorters and Related Workers:—
860 Checkers, Testers, Sorters, Weighers and Counters
861 Packers, Labellers and Related Workers

87 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers:—
870 Operators, Stationary Engines and Related Equipment

871 Boilermen and Firemen
872 Crane and Hoist Operators
873 Riggers and Cable Splicers
874 Operators of Earth-moving and Other Construction Machinery, n.e.c.
875 Materials-handling Equipment Operators
876 Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment
879 Stationary Engine, and Excavating and Lifting Equipment Operators and Related Workers, n.e.c.

89 Labourers, n.e.c.:—
890 Loaders and Unloaders
899 Labourers, n.e.c.

9 *Service, Sports and Recreation Workers.*

90 Fire Fighters, Policemen, Guards and Related Workers:—
900 Fire Fighters and Related Workers
901 Police Constables, Investigators and Related Workers
902 Customs Examiners, Patrollers and Related Workers
903 Watchmen and Chowkidars
909 Fire Fighters, Policemen, Guards, and Related Workers, n.e.c.

91 House Keepers, Cooks, Maids and Related Workers:—
910 House Keepers, Matrons, Stewards (Domestic and Institutional)
911 Cooks, Cook-Bearers (Domestic and Institutional)
912 Butlers, Bearers, Waiters, Maids and other Servants (Domestic)
913 Ayas, Nurse-maids
919 House-Keepers, Cooks, Maids, and Related Workers, n.e.c.

92 Waiters, Bartenders and Related Workers
920 Waiters, Bartenders and Related Workers (Institutional)

93 Building Care-Takers, Cleaners and Related Workers:—
930 Building Care-Takers
931 Cleaners, Sweepers and Watermen

94 Barbers, Hairdressers, Beauticians and Related Workers:—
940 Barbers, Hairdressers, Beauticians and Related Workers

95 Launderers, Dry Cleaners and Pressers:—
950 Laundrymen, Washermen and Dhobies
951 Dry-cleaners and Pressers

96 Athletes Sportsmen and Related Workers:
960 Athletes, Sportsmen and Related Workers

97 Photographers and Related Camera Operators:—
970 Movie Camera Operators
979 Other Photographers

99 Service, Sports and Recreation Workers, n.e.c.:—
990 Embalmers and Undertakers
999 Service, Sport and Recreation Workers, n.e.c.

X *Workers not Classifiable by occupation*

X0 Workers without occupations:—
X00 Workers without occupations: Matriculates and above
X08 Workers without occupations: Literates
X09 Workers without occupations: Others

X8 Workers Reporting Occupation Unidentifiable or Unclassifiable:—
X80 Workers reporting occupations unidentifiable or unclassifiable

X9 Workers not Reporting Occupation:—
X90 Workers not Reporting occupation.

INTRODUCING THE DISTRICT

By
K. S. Bhatnagar
Deputy Superintendent of Census Operations, Madhya Pradesh

The District

Bhind district, in Gwalior division is situated in the northern corner of the State, between latitudes 25° 55′ and 26° 48′ north and longitudes 78° 12′ and 79° 05′ east. The district lies in the plains and its elevation is between 500′ to 600′, above sea level. It was once known as Bhind-Bhadawar-being the capital of Bhadauria clan of Rajputs who were its rulers. It was also a district of former Gwalior State. It is bounded by Morena and Gwalior district in south-west, Datia district in south, Jalaun district of U.P. in east, Etawah district of U. P. in north and Agra district of U. P. in north-west. The district is criss crossed by the Chambal, the Sindh, the Kunwari, the Pahuj, the Vaisali and number of nallahs and small rivulets.

The Historical Background :

The district is named after Bhind (26° 33′ north 78° 50′ east) its main town. In the seventeenth and eighteenth century it was ruled by Bhadauria Rajputs, who are said to belong to the Chauhan dynasty. In the eighteenth century it came under the possession of Scindias who ruled it till 28th May 1948, when it became a district in Madhya Bharat and continued as such on the formation of Madhya Pradesh.

Another distinguished clan of the region was the Jats who, in the earlier part of eighteenth century captured Gohad, (26° 26′ north and 78° 29′ east) now a tahsil head quarters in the district. The fort at Gohad had been a scene of intermittent fighting. It remained under the Bhadaurias from 1707 to 1739 when the Jats captured it from them. The Jat Rana of Gohad commenced service under the Peshwa and with his help, following the confusion at the time of the battle of Panipat, he captured Gohad. Later the Rana of Gohad became an ally of the British who gave the fortress at Gwalior to him. This however rankled Mahadji Scindia who re-captured it. The family of Rana of Gohad migrated to Dholpur in Bharatpur district of Rajasthan where they became the rulers, In the eighteenth century the district came into the hands of Scindias.

In its present form the district was constituted in 1948, after the formation of Madhya Bharat. During the time of Gwalior State it consisted of four tahsils *viz* (1) Bhind, (2) Gohad, (3) Mehgaon, (4) Lahar. Apart from the villages of above tahsils another nineteen (19) villages were added to the district :—fourteen (14) from Alampur of Mahdidpur district of Holkar State, three from Vindhya Pradesh and one each from Rajasthan and Jalaun district of Uttar Pradesh. During the present decade one depopulated village from Bhander tahsil was transferred to Lahar; but for this change the district has remained unchanged.

THE PHYSICAL FEATURES

Forests :—

Barring Shajapur district in Bhopal division in which there is no area under forests, Bhind has returned an area of 5,076 acres or 7.93 sq. miles under forests* and ranks forty-second in forest area. There is a small range at Barohi which falls under Morena forest sub-division. The forest areas are confined to ravines along the Chambal, the Kunwari, and the Sindh. The ravines contain only scrub growth and the forest is mostly dry deciduous thorn type and commercially unimportant.

Flora :

The following trees are found :—*babul* (*Acacia arabica*), *khair* (*Acacia catechu*), *kardhai* (*Anogeissus pendula*), *dhow* (*Anogeissus latifolia*), *reonja* (*Acacia lencophloea*), *neem* (*Melia indica*), *salai* (*Boswellia serrata*), *palas* (*Butea frondosa*), *bar* (*Ficus bengalensis*), *gular* (*Ficus glomerata*), *peepal* (*Ficus religiosa*), *sheesham* (*Dalbergia sissu*), *teak* (*Tectona grandis*), *am* (*Mangifera indica*), *imli* (*Tamarindus indica*), *sirsa* (*Albizzia lebererk*).

*Source—Director of Land Records, Madhya Pradesh.

Among the smaller trees the following are easily found :—*amaltas* (*Cassia fistula*), *ber* (*Ziziphus jujuba*), *ghont* (*Ziziphus xylopara*), and *kachhnar* (*Bauhunia variegata*). Shrubs, climbers and grasses of common types are also met with. Most of the timber described above is planted and used locally for agricultural purposes. Teak has only recently been introduced. Neem and babul are the other valuable species. Most of the other species are used for satisfying the needs of the population for small timber and fuel.

Fauna :

Forest being scarce, wild life is very limited. An occasional *panther* (*Felis pardus*) may still be found but *hynaes* (*Hyaena stiriata*) known as *lakkad baggha*, *jackal* (*Canis aureus*), *fox* (*Vulpes bengalensis*) may be easily met with near the villages. A few *sambhars* (*Cervus axis*) may still be found although they are becoming scarce.

Domestic animals like the bullocks, buffalos, cows, horses, donkeys, mules, dogs, and cats are found in the district. The cultivators also buy these from the local melas and from Gwalior. Bullocks are used for ploughing.

Among the birds the common house *crow* (*Coruns splendeus*), the *bulbul*, the *myna* (*Eulabes intermedia*), *fowl*, the *blue rock-pegion* (*Columba intermedia*) the *green pegion* (*Corcopus phornico-pterus*), *grey partridge* (*Ortygornts pondicerinus*), the *crane* (*Grus antigone*) and the common teal are easily found.

Snakes of all description including the cobra and vipers along with scorpions and centipedes. Alligators and crocodiles are found in the Chambal, the Sindh and the Kunwari rivers. Besides these fishes *viz. bharoli* (*Gadusia chapra chapra* (*Ham*), *patela* (*Notopterus notopterus* (*Pauas*), *jhalar* (*Barilius barila* (*Ham*), *Mahseer* (*Tortor* (*Ham*), *bawas* (*Catla catla* (*Ham*), *rohu* (*Lobeo rohita* (*Ham*), *natera* (*Liza corsula* (*Ham*, *sanwal* (*Channo striatus* (*Bi*).

The Rivers :

The district is criss-crossed by a number of rivers and nullahs. The Chambal forms the northern boundary of the district and the State, Apart from the Chambal the other main rivers are the Sindh, the Kunwari, the Vaisali and the Pahuj.

The Chambal

The Chambal also known as the Charmawati or the Charmanwati tn the ancient texts rises in Indore district in Janapao spur of the Vindhyas at 22° 27′ north and 75° 41′ east, at a point 2,803′ above sea level, and flows through Indore, Dhar, Ujjain, Ratlam, Mandsaur districts of Madhya Pradesh; enters Rajasthan where in Kotah district a dam has been constructed across it and finally re-enters Madhya Pradesh in Morena district flows through it forming the State border with Rajasthan and Uttar Pradesh; and after flowing along the borders of the district finally joins the Yamuna.

The Kunwari :

The river flows through Bhind and Mehgaon tahsils. Its total length in the district is 73 miles and is perennial. not navigable.

The Sindh :

The river Sindh flows from Datia into Bhind district. It forms the boundary between Lahar and Bhind tahsils.

The Vaisali ;

The Vaisali rises in Gwalior district and flows for about 25 miles in Gohad tahsil, 12 miles in Bhind tahsil and about 33 miles in Mehgaon, following an easterly course, turning north in some places and finally sweeps east to join the Sindh.

The Pahuj

The river flows through Datia and Bhind districts forming the State boundary with Jalaun district of Uttar Pradesh. It joins the Sindh.

The General Topography :

The general flow of the rivers is towards south-east where they feed the Yamuna. The district marks the beginning of the plains—the plains of the Ganga-Yamuna which spread themselves out in the Uttar Pradesh. The slope being gradual and country generally undulating, hills are few. The flow of the rivers and the consequent soil erosion has caused vast strips of deep ravines—ravines that run for miles long and few miles deep along the heavily eroded banks of the river :—ravines that are lament of the police and a haven for the dacoits;— ravines that in turn have hewed the characteristics of the district ;—ravines that have made men sturdy and fiery in disposition;—ravines that defy all modes of transport and communications and finally ravines that render even the appearance of toposheet map interesting, though also a little fear

some, Locally known as 'behad' these ravines are found along all the banks of the rivers and rivulets, despite the fact that the slope is very gradual. Thus the 'behad' is an integral part of the district shaping the destiny of its population.

The district exhibits the following characteristics (a) the plains between the rivers and (b) the river basin and banks forming deep ravines. The plains are thickly populated, closely cultivated and devoid of any forests. The rivers and tributaries carrying fine alluvial soil during the rains form huge ravines. The rivers run tortuous beds with high banks cut up by rivulets.

The Geology :

There are practically no mineral resources in the district. The nature and depth of alluvial soil shows only coarse and sandy silt with occasional beds of clay and *kankar*. There are a few small stone quarries near Gohad. Apart from these brick earth is also found. Towards the south-western portion Bundelkhand gneiss is present in some parts. The soil being shallow and often mixed with boulders retains very little moisture.

The Climate :

The seasons are well marked and vary between extremes. Rains set in by early July. The district receives about 30" rainfall annually. During the last decade it averaged 735 mm. or 29.3"; the highest rainfall being 1193.1 mm. in 1958 and the lowest 672.4 mm. in 1954. The bulk of the rain is received in July, August and September. During these months the weather generally remains sultry and humid. The weather begins to change by the middle of October and it grows cooler. The months of December and January are the coolest ones when it becomes very cold. The cold season is typically like the severe northern Indian dry type of winter when temperature is known to fall upto 2° C. The months of February and March are comparatively mild but it begins to grow warm by April and the months of May and June are the hottest months when hot winds—*loo* sweep through fiercely and the mercury touches 45° C. The summer is particularly severe.

II

THE ADMINISTRATIVE SET UP.

The Representation of the District in the Parliament and State Legislature :

The district returns one member on the Scheduled Castes seat to the Parliament, The Parliamentary Constituency is comprised of (i) Gohad, (ii) Attair, (iii) Bhind and (iv) Mehgaon; Legislative Constituencies from the district along with (v) Joura, (vi) Morena, (vii) Dimni and (viii) Ambah Legislative Constituencies of Morena district. The remaining legislative constituencies of the district *viz.* (i) Ron and (ii) Lahar are tagged on the Gwalior Parliamentary Constituency which returns one member on the general seat.

For the State Legislature the district elects six members one each from the following constituencies :— (i) Gohad tahsil, (ii) Attair (part of Bhind tahsil) (iii) Bhind tahsil (remaining portion), (iv) Mehgaon (excluding one patwari circle), (v) Ron (including patwari circle left out in iv), (vi) Lahar (Scheduled Caste). Thus out of six elected members one is from Scheduled Caste.

The Revenue Administration :—

From the State time there exists a complete separation of the Executive from the Judiciary. Thus the Collector who is also the District Magistrate is not directly responsible for the administration of Justice, a duty enjoined upon the Sessions Judge, who also has his headquarters at Bhind. The district has four tahsils *viz.* (i) Gohad, (ii) Mehgaon, (iii) Bhind and (iv) Lahar. Each tahsil, under the Land Revenue Code, 1959, is a sub division and is placed in the charge of a Sub-Divisional Officer who also is the Sub-Divisional Magistrate, in which capacity he assists the Collector in maintaining law and order. The Sub-Divisional Officer is either a Deputy Collector or an Assistant Collector. All the Sub-Divisional Officers stay at the district headquarters. A tahsil is placed in the charge of a tahsildar who is assisted by a deputy or naib. The Collector is also the Chief Revenue Authority of the district and in this capacity is responsible for collecting and depositing the land revenue and other Government moneys. He also causes the papers partaining to Land Records to be prepared and kept up-to-date. For these duties there are four deputies who assist him. The other revenue staff assisting him is given in inset table.

Statement showing the other revenue staff assisting the Collector

District.	No. of tahsils	No. o revenue Inspector's Circles.	No. of patwari Halkas
Bhind	4	16	365

For every village a patel or village headman has been appointed and he collects and pays to the Government the land revenues. For this work he is paid remuneration at the following rates.

Table—*Showing Remuneration paid to Patel*

Land Revenue & Miscellaneous Revenue collected			Rates.
1. On the first	Rs. 1,500	6 P	in the rupee.
2. On the second	Rs. 1,500	4 P	,,
3. On the third	Rs. 1,500	3 P	,,
4. On the fourth	Rs. 1,500	2 P	,,
5. For the balance exceeding	Rs. 6,000	1 P	,,

Provided that the annual remuneration of any patel in respect of any village shall not be less than Rs. 36.00. The remuneration is paid from the treasury once each year. Besides these, the Collector is also the chief representative of the Government and in this capacity looks after the co-ordination of developmental activities of all the departments in general, exercising a supervisory control. The Sub-Divisional Magistrates hear cases under the Preventive Chapters of Criminal Procedure Code and thus help the District Magistrate to maintain law and order. The district has some very peculiar and by no means enviable problems *viz.* the dacoity menace, which render the task of the police executive and judiciary very onerous and at times very difficult. This peculiar aspect of the administration is discussed under dacoity.

The Police Department :

The Superintendent Police who is in the overall charge of the administration of the department, is assisted by one Assistant and three Deputy Superintendents. There are 19 Police stations giving one Police station for every 33,746 persons. Besides this Special Armed Force (SAF) battalions have been deputed to comb out the ravines and the adjoining areas and curb the dacoity in the region. The SAF is deployed in varying strength depending on the anti-dacoity operations. One SAF battalion has however been permanently located at Bhind. The battalion is commanded by an officer of the rank of a Superintendent of Police (corresponding to a Major or in some cases even a Lieutenant Colonel).

The Dacoity :

The region has been subjected to depradations of dacoits, robbers or thugs since ages. The majestic Chambal, surrounded by yawning chasms and gaping 'behads' which seem to keep company with the river, on its last journey to meet the Yamuna, provide an ideal setting to this murky banditry, in a big way. Even during the Mughal times the powerful administration failed to curb this menace. The British regime which followed next met with only sporadic successes, despite Colonel Sleeman's campaigns. The able Maharaja Madhav Rao Scindia of Gwalior also attempted to solve the problem, went to the extent of offering general amnesty and even met some of ring leaders near Shivpuri, but all this was of no avail. Lately in summer of 1960 Acharya Vinoba Bhave, led a 'pad yatra' (march on foot) through the district. It was proclaimed as a 'mercy mission' designed to 'change the hearts'. Some dacoits surrendered, others did not; but the problem remained.

The Operational Area :

In northern Madhya Pradesh the area of the operations of the gangs is mostly confined to Bhind, Morena, Gwalior, Datia, Shivpuri and northern parts of Guna district. The adjoining district of Agra in Uttar Pradesh is also considerably affected by the gang movements. Other districts in Uttar Pradesh also affected are Etawah, Jalaun and Jhansi. Dholpur subdivision in Bharatpur district of Rajasthan is like Agra considerably affected. To a lesser extent Kotah and Sawai—Madhopur districts in Rajasthan are also affected. The Chambal forms the State's borders with Uttar Pradesh and Rajasthan; and border areas are generally more safe specially when pressure is mounted from one side. This feature also contributes to the complicated situation.

Crime Statistics

The statistics of some crimes are given below :—

Year	Dacoity	Robbery	Kidnapping Abduction	Murders	Riots
1	2	3	4	5	6
1951	10	12	4	32	11
1952	28	21	1	42	23
1953	43	17	7	34	14
1954	62	15	14	28	...
1955	71	11	5	45	2
1956	98	11	2	53	19
1957	57	21	21	67	19
1958	50	42	25	54	21
1959	33	59	37	51	27
1960	36	69	69	46	39
Total	488	278	185	452	175

During the years 1954-55 and 56 the number of dacoits rose very high. In August 1955 Mansingh was shot dead in a police encounter. Among the dacoits, he occupied a unique position, for in many villages he was highly respected for qualities of character. The elimination of Mansingh marked a distinct phase in the stiuation, for there-after the police steadily succeeded in eliminating some of the other gangs. The year 1950 represents a sudden spurt in dacoity. This is partly due to the fact that as the pressure from the police mounted, the dacoits while fleeing and in sheer desparation committed more crimes. In 1957 and 1958 over fifty dacoities were committed, but the downward is obvious. It would be inaccurate to suggest that dacoities were ever eliminated, but the statistics for the period reveal a slightly downward trend. At an average 48.8 dacoities and 27.8 robberies are committed each year.

Murder and Kidnapping :

Since 1955 the number of murders committed have gone up and at an average 45.1 murders are committed each year. Kidnapping for ransom has lately become a favourite practice with dacoits, for it enables them to extort enough money to maintain themselves and at the same time cause sufficient harassment to the parties concerned. Failure to pay ransom money means certain death, although negotiations for fixing the ransom money are permissible. The number of kidnappings since 1956 seems to strengthen the above observation.

The Arrest, Elimination and Surrender of Dacoits :

The table below gives the details of the arrest, elimination and surrender of the dacoits.

Year	Dacoits		
	Arrested	Shot Dead	Surrendered
1951	7	5	...
1952	24	4	...
1953	20	1	...
1954	19	6	...
1955	132	37	...
1956	161	13	2
1957	177	40	7
1958	100	8	18
1959	41	22	22
1960	92	13	41

Till 1955 the number of dacoits who surrendered was very few and it went up to 41 in 1959. The increase in number has been steady. In the matter of dacoits shot dead the year 1955 again appears to be a turning point for it was by this time that the organised efforts of the Police began to yield some results and the progress seems to have been well maintained. The surrendering of dacoits has been an old practice. It is only after 1955 that some surrendered; prior to that a feeling of self confidence amongst themselves prevented them from doing so. The high figure of 1960 is due to Acharya Vinoba Bhave's 'pad yatra' on the change of heart mission.

Some Important Gangs :

From the district came of the most notorious dacoits of the region; the very mention of their names revives in the villagers some blood chilling memories. Although Mansingh hailed from Kheda Rathor in Bah tahsil of Agra, Bhind was in his operational area and it was at village Kakrai in the district, on 24th August 1955 that he met his end, after felling, Sepoy Govind Bahadur Thapa, whose bullet mowed him. Among others of lesser note came Sultan Singh, a terror in his own days, eliminated in 1955, followed by Pahada also eliminated in 1955. Gabbar, the dreaded nose cutter, who was killed in 1958 came from Gohad tahsil. Kalla, who succeeded Pahada was eliminated in 1959. Other listed gangs who hailed from the district are as follows :—

S. No.	Name of the Gang	Year of elimination	
1.	Mansingh Bijpuri	Arrested in	1957
2.	Tantia Kachhi	,,	1957
3.	Kudanaiya Kachhi	Eliminated	1957
4.	Laisingh	,,	1960
5.	Shripala	,,	1962
6.	Lachhi	,,	1962
7.	Bahadura Gujar	,,	1963
8.	Sikandar	,,	1964

Out of these dacoits Sultansingh was associated with Putli, the dancing girl who took to banditry and remained in the gangs of Pahada and Kalla. Putli was killed in an encounter near Gormi. In no other district have so many persons ever taken to banditry. Bhind is certainly unique in this respect and the population too seems to have accepted this as a part of their lives, for Bhind and dacoity seem to go together.

The Judiciary :

At the head of the judiciary is the Sessions Judge whose jurisdiction extends over Morena district as well. He is assisted by three Additional District and Sessions Judges, an Additional District Magistrate (Judicial) and three Second Class Civil Judges who are also First

Class Magistrates at Bhind, Lahar and Gohad with link court for Mehgaon. All the Additional District and Sessions Judges and the Additional District Magistrate (Judicial) stay at Bhind. The criminal work in the district is particularly heavy and so the courts are packed both with cases and clients.

The Health Department :

The Civil Surgeon is in the over all charge of the Medical Department in the district. He is assisted by an Additional Civil Surgeon and Medical Officers who look after the dispensaries.

The Irrigation Department :

An Executive Engineer looks after the activities of the department. The main work in hand at present is the remodelling of Bhind canals, which it is hoped will boost up the irrigation considerably.

The Public Works Department :

An Executive Engineer looks after the construction and maintenance of building and roads. He is assisted by three Sub Divisional Officers.

The Agriculture Department :

The District Agricultural Officer looks after the activities of the department. He extends advice to the Block officials and also supervises their programmes. An Assistant Soil Conservation Officer is also posted to Bhind to look after the work of soil conservation. (Please also see under the Pattern of Occupation and Cultivation).

The National Extension Service Coverage :

There are six development blocks covering the district, with a view to ensure a co-ordinated development of the villages. The table below gives the coverage.

S. No.	Name of the Block	Date of Commencement.	Area in sq. miles	Villages covered.	Remarks
1.	Lahar	2-10-54	260	174	Stage II
2.	Attair	1- 4-56	257	185	Stage II
3.	Mehgaon	1- 4-57	374	204	Stage II
4.	Gohad	2-10-59	397	266	Stage I
5.	Bhind	1- 4-61	266	104	Stage I
6.	Mihona (Ron)	2-10-62	156	83	Stage I

The first block was started at Lahar on 2nd October 1954 and since then the coverage has been steady. At the head of each Block is a Block Development Officer.

The Industries :

Recently a Deputy Director of Industries has been posted in the district. He looks after the departmental activities with particular reference to small scale industries.

The Co-operation ;

All loans advanced to cultivators are through the Co-operative Societies. The co-operative movement covers nearly 36% of the population. During the Second Five Year Plan 15 large sized, 4 marketing, 10 better farming and 144 service societies have already been organised and 8 godowns have been constructed. Besides this two branches of Co-operative Bank were also opened.

Local Bodies :

Urban :—There are four municipalities in the district *viz.* Bhind, Mehgaon, Lahar and Gohad. The municipality at Bhind was constituted in 1902 and is the oldest in the district. It the erstwhile Madhya Bharat, Bhind Municipality was in Class I* Category and the others were in Class II. The municipal councillors and the President of these Committees are elected. The President is assisted by a Chief Executive Officer in each municipality.

Rural :—For the rural areas (1) Gram Panchayats, (2) Kendra Panchayats, (3) Mandal Panchayats and (4) Nyaya Panchayats have been constituted. All villages are covered by gram-panchayats which are constituted for one or more villages. The panchas are elected directly on basis of adult franchise and by secret ballot. A group of gram-panchayats—generally coterminus with a Block, is placed under a Kendra Panchayat. At the apex a Mandal Panchayat is established.

The Nyaya Panchayats :

The Nyaya Panchayat as the name suggests is a lawfully constituted court which tries and disposes of petty civil and criminal cases. This ensures speedier and cheaper justice to the rural population.

The table below gives the details of the local bodies in the district :—

**Municipalties with a population of 15,000 persons or above according to 1951 Census or with an income of Rs. 75,000 or above were Class I Municipalities. The rest were Class II.*

Distt.	Gram Panchayats.	Kendra Panchayats.	Mandal panchayats.	Nyaya panchayats.
Bhind	316	6	1	16

Regarding Panchayats :

The duties of a gram panchayat are generally of an executive nature and are multifarious in number. The local development works are also being entrusted to them. A few of them are also made responsible for the collection of land revenue. Their main source of income is (i) the grant-in-aid given by the government. (ii) fines and forfeitures (if collected by them), (iii) sale proceeds of various items like dung, dead cattle etc. The Nyaya Panchayat however is purely a judicial body.

Education :

The District Education Officer looks after the schools in the district. During the decade the number of schools of all categories have gone up. There are 665 primary schools, 86 middle schools, 29 Higher Secondary Schools and one College (Also please see Literacy p. xlix.)

Besides the above, the offices of the District Publicity Officer, the District Statistical Officer, the Employment Exchange are also located.

III
THE PEOPLE

The Growth of Population—

The total population is 641,169 persons—346,797 males and 294,372 females. During the last sixty years the population has grown by 48.32% only, which is very low as compared to the State 92% or Gwalior Division 55·27%. The growth of the population in the last sixty years is indicated below :—

Table—Showing Variation in Population 1901—61

District	Year	Persons	Decade Variation +Increase —Decrease	Percentage Variation		
				Bhind	Gwalior Division	Madhya Pradesh
1	2	3	4	5	6	7
Bhind	1901	432,296	...	...	...	...
	1911	412,684	— 19,612	— 4.54	— 0 48	+15.30
	1921	393,849	— 18,835	— 4.56	— 4.83	— 1.38
	1931	430,376	+ 36,527	+ 9.27	+ 9.51	+11.39
	1941	494,059	+ 63,683	+14.80	+14.03	+12.34
	1951	527,978	+ 33,919	+ 6.87	+ 7.51	+ 8.67
	1961	641,169	+113,191	+21.44	+22.12	+24.17
	1901—1961			**+48.32**	**+55.27**	**+92.00**

The district suffered very heavily in the two decades following 1901 mainly due to famine in 1905—06 which was preceded by a severe frost in 1904—05. The Census Commissioner of Gwalior State wrote :—* "From Bhind and Sheopur districts a large number of people migrated to the plateau and many never returned but settled down in fertile spots in the southern part of Isagarh (present Guna) and in Bhilsa (present Vidisha). while on tour in these last named *zilas* one is often asked if one has seen the Bhind or Sheopur village, from which some settler in the plateau originally came. The very high rate of increase in the Bhilsa *zila* is due partly to such immigration." Even after the famine the subsequent years were rather lean and so the district could not recover. Thus famine caused population to migrate to the southern part of the State.

The decade 1911—21 proved even worse. It opened with a plague in 1911—12 and in 1913—14 there was a drought and scarcity in northern part of Gwalior State. To climax all this, came the year 1919—20 when there was a famine and influenza epidemic which literally decimated, the population. The Census Commissioner wrote :—**

**The Central India State Census Series, V.1 I, Gwalior State, Census Report for 1911, Part I & II, Text and Tables by H.M. Bull, Census Commissioner, Gwalior State, p. 14.*

***Census of India, 1921. Vol. XX, Gwalior, Report and Tables, page 8 by Janki Nath Datta, Census Commissioner, Gwalior State.*

"Undoubtedly each part of the State was more or less affected by the hard condition of the decade described above. But the distressing economic conditions told more heavily upon the low-lying than upon the plateau and the hilly tracts". (Lowlying regions represent the present Bhind, Morena and Gwalior districts). Once these disastrous decades (1901—11, 1911—21) in which along with Bhind, Morena also suffered a loss of population passed, the growth of population has been maintained in a steady manner. Thus in the succeeding decades the district decade variation accords fairly very well with the division and the State growth. Whereas the rural population of the district has increased by 41.68% during the last sixty years, the urban population shows an increase of 256.2% and yet another feature is that the urban areas never lost population except in 1911. During the present decade the urban population has shown an increase of 98.06% as against the divisional and State increase of 36.52% and 47.70% respectively. This is mainly due to increase in the number of towns in the district. In 1951 there were two towns *viz.* (i) Bhind and (ii) Gohad whereas in 1961 two new towns *viz.* (i) Mehgaon and (ii) Lahar were added thus bringing the number to four towns. The growth in the rural area is 41.68% which is well below the divisional and State figures of 44.36% and 80.13% respectively.

The Tahsils, Towns and Villages :

There are four tahsils *viz.* (1) Bhind, (2) Mehgaon, (3) Gohad and (4) Lahar in the district. The tahsil headquarters in each case is a town ; and there are only four towns, the table below gives the number of towns and villages along with the density of population.

District/ Tahsil	No. of Villages				Area in sq. miles	Persons per sq. mile
	Total	popu-lated	Depopu-lated	Towns		
1	2	3	4	5	6	7
Bhind District	**952**	**898**	**54**	**4**	**1,719**	**373**
Bhind	290	272	18	1	530	436
Gohad	206	198	8	1	397	296
Mehgaon	203	200	3	1	374	353
Lahar	253	228	25	1	418	385

Thus from the above it would appear that Bhind is the biggest tahsil in every way, in area, in number of villages and in density of population. The number of depopulated villages is highest in Lahar and least in Mehgaon.

The Towns :

There is one Class III (population 20,000 to 49,999 persons) town *viz*, Bhind 28,208, one Class IV (population 10,000 to 19,999 persons) *viz.* Gohad, 10,289, one Class V (population 5,000 to 9,999 persons) *viz*, Lahar 5,575 and one Class VI (population less than 5,000 persons) *viz.* Mehgaon 3,581. The last two have been treated as towns for the first time. Bhind and Gohad have been treated as towns continuously since 1901. The total urban population 47,653 persons lives in 3.1 sq. mile area ; thus returning a density of 15,128 persons to a sq. mile, which is much higher than the division and State figures of 9,789 and 6,428 respectively. It appears that the area figures are not very accurate and so they do not convey a correct picture of the crowding, which on the face of it appears very great.

The Villages :

There are 952 villages in the district out of which only 54 are depopulated. Incidentally the percentage of depopulated villages is comparatively low being only 5.45% whereas in Gwalior division it is 11.16%. Another unique feature of the district is that the population per village is 713.9 persons as against 432.85 persons in Gwalior division and 394.03 in the State. This is considerably higher. Even in the Gwalior State the district had returned the highest population density. In area a village in the district is 1.80 sq. mile or 1152 acres which is much less than the corresponding figure of 2.31 sq. miles or 1478.40 acres for Gwalior division.

During the decade there have been no major changes in the district except that one village from Bhander tahsil of Gwalior district was transferred to Lahar tahsil. During this period the number of deserted villages has gone up by five (one of which was received on transfer).

The table below gives the details regarding the depopulated villages.

District/ Tahsil	Number of depopulated villages	
	1951	1961
1	2	3
Bhind District	**49**	**54**
Lahar Tahsil	26	25
Mehgaon Tahsil	6	3
Gohad Tahsil	2	8
Bhind Tahsil	15	18

In Bhind and Gohad tahsils the number of depopulated villages have gone up. One of the main and continuing reasons for the villages becoming depopulated is the fear of dacoit gangs. Another noticeable tendency of the region that people show a preference for staying in bigger villages preferably with a police station. It is not uncommon for people to move away from the interior region to bigger villages after receiving threats from some gangs. In a few cases they are even obliged to give up cultivation.

Size of the Villages :

On a rough average a village in the district sustains greater population than villages of other districts.

The table below gives the population per village for the district, division and the State.

District/ Division/ State	Population per village
1	2
Bhind District	713.9
Gwalior Division	432.95
Madhya Pradesh	394.03

In the district itself Bhind tahsil has returned 745.44 persons per village which is the highest. The inset table below gives the comparative figures :—

Tahsil	Population per village
1	2
Bhind	745.44
Gohad	541.32
Mehgaon	642.05
Lahar	680.53

There are two villages with a population of over 5,000 persons *viz.* Akoda and Kanawar—both in Bhind Tahsil.

The Houses :

Whereas during the decade population has increased by 21.44% the number of occupied houses have gone up by 28.79% thus relieving some congestion, which is fairly high even now. The inset table gives the position.

Year	Population	Occupied houses			
		No. of occupied houses	Persons per occupied house	1951-61 Variation (+) (—)	Percentage of variation
1	2	3	4	5	6
1951	527,978	81,083	8.51	...	...
1961	641,169	104,424	6.14	23,341	28.79

The figure of 6.14 persons per occupied house is greater than the division figure of 5.77 or the State figure 5.20. Barring Gwalior district where there are 6.86 persons per occupied house, Bhind represents the highest congestion in the division. As between the rural and urban area, the congestion is greater in the rural areas, the figures being :—

District	Total	Persons per occupied house	
		Rural	Urban
Bhind	6.14	6.19	5.55

Among the tahsils Bhind is again most congested; the figures being :—

	Persons per occupied house
Bhind	6.50
Gohad	6.03
Mehgaon	6.04
Lahar	6.05

In the remaining three tahsils the congestion is more or less the same.

Density of population :

(Please also see under the Tahsils, Towns and Villages.)

Barring Indore district with 530 persons to a sq. mile, Bhind with 373 persons is the most densely populated district in the state. In the case of Indore however 40.01% population is living in the urban area (mostly in the city of Indore and Mhow) and 59.99% in rural areas, but in case of Bhind only 7.43% of the population lives in urban areas and 92.57% in rural areas. Thus the urban area does not contribute substantially to the total population. In case of Indore therefore much of the congestion is due to its urban areas. In the rural areas the density of population in Indore is much less. A comparison of density figures for the tahsils of the above two districts only confirms the above.

Table—Showing Rural density in tahsils of Indore and Bhind districts.

District	Rural Persons per sq. mile	Tahsil	Rural Persons per sq. mile
1	2	3	4
Indore	224	Indore	245
		Mhow	230
		Sawer	225
		Depalpur	202
Bhind	346	Bhind	384
		Mehgaon	344
		Lahar	371
		Gohad	270

Thus the high density of population in Indore district is mainly due to the urban areas.

Whereas there are 6.19 persons per occupied house in rural areas of Bhind district, Indore has only 5.51, although the congestion per occupied house is much greater being 6.95 as against 6.14 in Bhind. This again emphasises the importance of urban areas in Indore.

The proportion of sexes ;

Males have always outnumbered the females in this region and this traditional pattern persists. This even aroused a suspicion that females infanticide might have been practised. It was about this that JWD Johnstone wrote in his 1901 Report :—

"The low proportion of females in the plain country lying in the northern parts of the State (this represents Bhind, Morena and Gwalior districts of today) might suggest a possibility of the existence of infanticide, and it is true that Thakurs of these parts have been suspected of still following the practices, but the district officers do not admit its existence ; and the Rajputs as a whole shew an excess of females".*

The tradition persisted and 30 years later the Census Commissioner for India, writing on sex ratio among Rajputs observed :—

"The next worst Rajput ratios are those of the Bhadauria and Tonwar Rajputs of Gwalior State which are 634 and 622 females per thousand males respectively and these are also so low to appear extremely suspicious of the same thing**, being very much lower than the ratio (754) for the Hindu Rajputs of Jammu and Kashmir†".

In 1931 the State Census Commissioner‡ was of the opinion that because the population of the 'lower castes' was small in Morena and Bhind districts and also because these castes generally return more females than the so called 'upper castes', therefore the number of females per thousand males is less. Ranglal further gives six causes of low proportion of females. They are :—

(1) Infanticide (which he rules out)
(2) Neglect of female children
(3) Evil effects of early marriage and pre-mature child bearing
(4) High birth rate and primitive methods of midwifery
(5) Hard treatment accorded to women, specially widows
(6) Hard work done by women.

Regarding (2) he conceded that female children are comparatively more neglected than males and consequently suffer. Female is a liability. As for other reasons they apply in some measure but gradually the evils of (3) and (4) are being countered, yet there has not been any appreciable difference in the sex ratio, which today is below the 1911 figure. In the last sixty years the number of females per one thousand has varied between 851 and 835.

Changes in the Proportion of Sexes.

The table below gives the changes in the proportion of sexes from 1901 onwards.

Unit		Females per 1,000 males						
		1961	1951	1941	1931	1921	1911	1901
Madhya Pradesh	T	953	967	970	973	974	986	...
	R	970	975	980	983	984	991	...
	U	956	907	882	962	978	913	...
Gwalior Division	T	866	880	865	862	861	861	...
	R	870	877	870	867	864	883	...
	U	849	898	860	828	831	866	897
Bhind District	T	849	843	839	835	835	857	...
	R	854	844	840	836	836	851	...
	U	790	826	880	812	826	844	870

**Census of India, 1901, Vol. XXI, Gwalior—Part I, JWD Johnstone, Census Commissioner. Gwalior State, page 58.*

***Dr. J H. Hutton was referring to :—(i) tendency to omit reporting females births ; (ii) tendency to neglect female children ; (iii) The possibility of infanticide in remote areas, particularly in referring to Jammu and Kashmir where the Govt. in 1930 took special measures to suppress suspected female infanticide in certain Rajput villages.*

† Census of India, 1931, Vol. I India, Part I—Report, J.H. Hutton, Census Commissioner, for India, p. 196.

‡ Census of India, 1931, Vol. XXII—Part I, by Ranglal, Census Commissioner, Gwalior, pp. 95—98.

Thus there have not been any appreciable change in the sex composition of the district in the last sixty years. In the urban area however the number of females has been going down, and during the current decade it reached its nadir. There are fewer females per thousand males in Bhind than in Gwalior division and State. Excepting Morena district in Gwalior division, Bhind has returned least number of females per 1,000 males. Thus as one goes south in the State the number of females tends to increase.

Age Tables :

The table below gives the age and sex structure of the district and the corresponding data for the State :—

	Percentage of Population						Sex Ratio Females per 1,000 males	
	Bhind			State				
Age-group	P	M	F	P	M	F	Bhind	State
1	2	3	4	5	6	7	8	9
0— 4	15·8	15·1	16·6	16·4	8·2	8·2	932	996
5— 9	14·3	14·2	14·4	14·3	7·3	7·0	864	966
10—14	10·6	11·4	9·7	10·1	5·5	4·6	723	847

A.N.S.	*0·0*	*0.0*	*0·0*	0·1	N	N	*576*	*898*

The age data is based on ungraded ages whereas the quinquennial groupings suppress the effect of age-heapings in multiples of five, hence it is better to confine comparison to the broad age-groups 0-14, 15-29, 30-59 and 60+ which roughly correspond to children, young persons, middle aged persons and old persons. It therefore follows that 40.7% or 2/5 of the population is in the young age-group of 0-14 years, and another one-third 33.3% in the 15-34 group. Thus a little over 74% of the population is in the younger age-group. In the 35-59 age-group there are 20.6% or one-fifth of the total population. In the 60+ age-group there are 5.4% only.

From the above it also appears that the age-group conform to the general pattern of the State. The population being youthful is likely to grow in the coming years.

The Proportion of Females :

In the age-group 0-4 there are 932 females per 1000 males, the figure is higher than 849, the district figure. This indicates slightly higher rate of female births, in the last decade. In the 10-14 age-group there are only 723 females per 1000 males which is indeed very low. In 15-34 age-group there are 877 females, per 1000 males, the figure compares favourably with the district figure. The ratio sinks further in 35-59 age-group. Only in the 70 and above age-group do we have some preponderence of females.

The table below gives the percentage distribution of 100 persons in 1951—1961.

Table—Showing percentage distribution of 100 persons in 1951 and 1961 into broad age-groups

Age-group	1951			1961		
	P	M	F	P	M	F
1	2	3	4	5	6	7
0—14	37.5	20·2	17·3	40·7	22·0	18·7
15—34	35·2	18·8	16·4	33·2	17·7	15·5
35—59	25·0	14·1	10·9	23·3	13·0	10·3
60+	2·3	1·2	1·1	2 8	1·4	1·4
A.N.S.	0 0	0·0	0·0	0·0	0·0	0·0

Where as the 1951 data is based on 10% sample of the population, the 1961 data is based on total population. In this, while making comparison we are assuming that the 10% data of 1951 represented the universe, with this presumption the comparison is offered.

In 1961 there are more children in (0-14 age-group) their percentage having gone upto 40.7% ; however in the 15-34 and 35-59 age-groups there has been a slight decrease of 2.% and 1.7% respectively. In old age-group there has been a slight increase from 2.3% in 1951 to 2.8% in 1961 which suggests the increased longevity.

Vital Statistics :

In 1953 the Madhya Bharat State Government promulgated the Madhya Bharat Births, Deaths, Marriages Registration Act 1953 basing it on a similar Act of 1886 of the Government of India, making the registration of births and deaths compulsory, but it was never enforced. The position regarding the maintenance of vital statistics therefore has been far from satisfactory. During the decade, under the existing laws the municipalities and the panchayats were required to maintain statistics of births and deaths. Both these local bodies have not been able to keep any accurate statistics and the position remained practically the same as was described by Ranglal in 1955*. In the Report of Operations Connected with the Improvement of Population Data M. B. 1952, he wrote :—

"The arrangement for the registration of births and deaths are unsatisfactory even in large municipal towns. The Director's Report as to the agency responsible for the reporting of the deaths in urban areas is silent. All that is known is that generally the responsibility has been laid either on members of the deceased or on sweepers or on both."

Whereas the position was bad enough in the municipalities, it was much worse in the case of panchayats; Kendra panchayats were made responsible to arrange for the registration of births, deaths and marriages in their jurisdiction, provided it could find funds, for the purpose. The Gram panchayats were supposed to record births and deaths and send the figures monthly to the Mandal Panchayats through the Kendra Panchayats which submitted returns to the Deputy Director of Health Services. The municipalities also sent these returns to the Deputy Director concerned who after consolidation sent it to the Director, Health Services. The panchayats obviously failed to grasp the importance of this duty and no regular records were maintained and the result was that no statistics worth the name were ever compiled.

The births and deaths statistics of the municipalities are generally those that are made available to them by the Government or municipal hospitals and such others as may have been collected by their Health Department. The coverage is by no means full, as many births and deaths are never reported. There being no supervising agency, it is impossible to verify the accuracy. In 1952 when an experimental Census of births and deaths was conducted in Madhya Bharat the results were as follows—

1	Period covered by Census	...	30-10-1951 to 18-10-1952
2	Period for which figures were supplied by the Health Department	...	1-11-1951 to 31-10-1952

Births and Deaths rates per 1,000 of population calculated on basis of :—

	Result of experimental Census		Figures supplied by Health Deptt.	
	Births	Deaths	Births	Deaths
1	2	3	4	5
State of Madhya Bharat	33.0	18.8	10.4	6.5
Low land division (which includes Gwalior, Bhind and Morena districts)	28.3	13.5	7.9	3.1

* *Census of India, Paper No.* 2—1955, *Sample of Census of Births and Deaths,* 1952-53.

The absence of accurate statistics causes great difficulty in estimating the annual rate of natural increase, no wonder it was then estimated at between 1·4 to 1·6 percent annually.

Literacy :

The district has returned 17·41% literates in 1961 as against 9.97% in 1951. The figure of 17·41% represents the highest literacy figures excepting Gwalior district in the division and compares favourably with the State figure of 17.13%. Much of the progress is due to the concerted development programmes of expansion of education facilities.

The details regarding literacy are :—

	Percentage of Literates		
	Total	Males	Females
1	2	3	4
Total	17.41	27.8	5.1
Rural	15.93	26.18	3.93
Urban	35.81	47.66	20.82

Among the females in the rural area very few are literates. Even in urban area the literacy figure of 35·81% is on the lower side as excepting Datia 33.03% all other districts of the State have returned a higher percentage. For the rural areas however the figure of 15.93% literates is the highest in the Gwalior division, even Gwalior district with 14.31% literates in rural areas is next.

Comparing literacy with the neighbouring districts Bhind stands out next only to Gwalior. The table below gives the details :—

S. No.	District	Percentage of literates			Rank
		Persons	Males	Females	
1	2	3	4	5	6
1	Morena	14.9	23.7	4.4	3
2	Bhind	17.4	27.8	5.1	2
3	Gwalior	27.9	39.0	14.9	1
4	Datia	14.9	24.4	4.3	3
5	Shivpuri	11.6	19.0	3.2	4

The growth of educational facitities during the two plan periods is mainly responsible for the upward trend in literacy.

Mother tongues :

The distrtct has returned twenty-one languages as its mother tongue. Languages with 100 speakers or above are :—Hindi 634,363; Urdu 2,161; Punjabi 2,552 Marathi 467; Marwari 377 and Bundelkhandi 321.

In 1951 fifteen languages including Western Hindi with nine dialects and Rajasthani with four dialects were returned as mother tongue.

Some of the notable changes are :—

(a) Increase of Urdu speakers from 362 in 1951 to 2 161 in 1961.

(b) Increase of speakers of Punjabi from 1,515 in 1951 to 718 (Punjabi) and 1,834 (Gurumukhi).

(c) Decrease in speakers of Rajasthani from 846 to 61 and

(d) For the first time 52 speakers have been returned as speakers of English.

The table below gives the percentage of speakers of Hindi, Urdu, Punjabi and Gurumukhi which are the more prominent of the mother tongue.

Table—*Showing the percentage of speakers of more prominent languages in Bhind district to population (641,169).*

Mother tongue	No. of speakers	Percentage
Hindi	634863	99.02
Urdu	2116	0.34
Punjabi	718	0.11
Gurumukhi	1,834	0.29

The table below gives the decade variation in speakers of Hindi.

Table—*Showing decade variation in speakers of Hindi*

Year	No. of Speakers	Decade Variation	Percentage
1951	524,720	...	...
1961	634,863	+110,143	+20.99

From the above it appears that there has not been much of a change in the composition of Hindi speakers in the district.

The Religion :

In 1951 the following five religions were returned. Hindus, Muslims, Jains, Sikhs and Christians. During the decade apart from the above five, Buddhists (6) and

others (1) have also been returned. The decade variation religion-wise is as follows :—

Table—*Showing Decade Variation in Population—Bhind district 21.44*

Col.	Religion	1951-61 Percentage Decade Variation	Rank
1	2	3	4
1	Hindus	13.42	5
2	Muslims	34.55	3
3	Sikhs	70.92	2
4	Jains	31.99	4
5	Christians	500	1

Although Christians have shown a 500% increase, but their number has increased form 4 to 24 only. Among the Sikhs the rise has been of fairly high order. Muslims and Jains have shown an increase of 34.55% and 31.99% respectively during the decade; although there have not been any marked migration to Bhind. The growth rate of Hindus has been well below the district rate of growth. There are no apparent reasons to account for this.

The table below gives the details of all religions returned :—

Table—*Showing Religions Returned*

Name of District	Total Persons	Hindus	Muslims	Jains	Sikhs	Christians	Buddhists	Others
1	2	3	4	5	6	7	8	9
Bhind	641,169	610,116	19,269	9,350	2,398	24	10	2

During the decade the religious composition of the district changed slightly. The inset table below gives the details :—

Table—*Showing 100 Persons Classified by Religion (1951-1961).*

Year	Total	Hindus	Muslims	Jains	Sikhs	Christians.
1	2	3	4	5	6	7
1951	100	95.68	2.71	1.34	0.27	Nil
Rank		1	2	3	4	
1961	100	95.16	3.00	1.46	0.38	Nil

The increase in % of Muslims by .29% Jains by .12 and Sikhs by .11 is balanced by reduction of .52% of in Hindus.

The inset table below gives females per 1000 males for each religion. Hindus return the highest number and Muslims the lowest.

Table—*Showing Females per 1000 Males Religionwise*

District	Hindus	Muslims	Jains	Sikhs
1	2	3	4	5
Bhind	849	836	841	842

The Migration :

Out of 641,169 persons, 437,619 or 68.25% are born in the place of enumeration and another 124,592 or 19.43% in the district of enumeration. Thus the district itself contains 87·68% of the population. Another 30,083 or 4.67% are born in districts contiguous to Bhind. These districts are Morena, 13,842, Gwalior 10,860 and Datia 5,381, persons. Of the persons who are born outside the State, those born in districts of Uttar Pradesh are the highest being 41,836 or 6.52% out of 44,980.

These figures reveal that a vast majority of the population born in the district stays in it. Some population from Uttar Pradesh has come over to the district. This is mostly from the adjoining districts. Only 3,457 persons who are born in other districts of the State were found in Bhind during the last enumeration and almost an equal number 3,144 hail from such parts other than Uttar Pradesh. It would be difficult to get and idea of persons born in Bhind but enumerated elsewhere excepting in the contiguous districts of Morena and Datia.

Scheduled Castes and Tribes :

The Scheduled Castes and Tribes were enumerated in accordance with the Scheduled Castes and Scheduled Tribes List (Modification) Order, 1956. The district has returned 134,439 persons—71,021 males and 63,418 females or 20.97% of the population as Scheduled Castes. There are only 477 persons 245 males and 232 females who have been returned as Scheduled Tribes. Thus in number the tribal population is quite insignificant. The spread out of the Scheduled Castes is as follows :—

Table—*Showing the tahsilwise population of Scheduled Castes*

Tahsil	Persons	Males	Females	Percentage to total population		
				Persons	Males	Females
1	2	3	4	5	6	7
Bhind	43,193	22,986	20,207	18.70	18.29	19.19
Gohad	31,581	16,852	14,729	26.88	26.46	27.38
Mehgaon	24,812	12,910	11,902	18.80	18.04	19.70
Lahar	34,853	18,273	16,580	21.68	21.28	22.15

The concentration of the Scheduled Castes in Gohad is quite obvious, for the Scheduled Castes total is over one-fourth of the population. They mostly live in the rural areas. The main castes among them are :—(only castes returning a population of 1,000 persons or above, are described in descending order).

The Chamar, Bairwa, Bhambi, Jatav, Mochi or Regar :—Numerically the biggest caste in the district. There are 100,142 persons or 74.49% of the total Scheduled Castes. The Chamars are also known by the various synonyms given above. Traditionally they represent the workers in leather, hides and skins. Of late however the customary pattern has undergone a great change as is obvious from the fact that out of a total of 41,304 workers as many as 34,244 or 79.99% have returned cultivation as their primary occupation, followed by another 4,674 persons or 10.92% of workers engaged as agricultural labourers. Thus out of 100 workers as many as 90.91% are engaged either as cultivators or as agricultural labourers. This is followed by 2,156 persons or 5.04% engaged in 'Other services'. The other important occupations returned are Household Industry (which includes worker in leather and hides) 665 persons and workers in constructions 557 persons. It is also interesting to observe that only 35 persons are engaged in tanning and currying of hides. Thus the traditional worker in leather and hides had broken away from the past; in favour of other occupations. The Chamars have also returned 427 workers per thousand which is higher than the district figure of 378.

The Koli or Kori :

Traditionally they were the weaver caste. They number 16,698 persons or 12.42% of the total Scheduled Castes in the district. They are mostly working as cultivatiors. 4,144 persons—3,052 males and 1,092 females; agricultural labourers 954 persons—609 males and 285 females; household industry 890 persons—545 males and 345 females and in other services 770 persons—650 males and 120 females. They live mostly in rural areas.

The Bhangi or Mehtar :

This caste is traditionally known as the sweepers and ranked very low in the heirarchy. They number 7,323 persons or 5.45% of the Scheduled Caste population and 847 persons—501 males and 346 females are engaged in scavenging. Other occupations returned by them are Other Services 2,003 persons which includes scavenging, cultivation 875 persons and workers as agricultural labourers 298 persons.

The Khatik :

The word Khatik is derived from the sanskrit 'khattika' meaning a butcher or a hunter. Therefore traditionally it is a functional caste of butchers and vegetable sellers. They are living mostly in the rural areas; 3,343 persons out of 3,870 or 2.28% of the Scheduled Castes live in rural areas where they work as cultivators. 747 persons 661 males and 86 females; as agricultural labourers 116 persons—80 males and 36 females; at the household industry 124 persons—113 males and 11 females; in other services 82 persons 76 males and 6 females and in trade and commerce 57 persons—55 males and 2 females. In the urban areas they are engaged in trade and commerce 64 persons 58 males and 6 females; in cultivation 33 persons—30 males and 3 females and household industry 32 persons—31 males and 1 female.

The Dhanuk :

The word Dhanuk is derived from sanskrit 'dhanuksa' meaning an archer. Thus they were archers or watchmen and later assigned other menial tasks. They number 3,184 persons or 2.47% of the Scheduled Caste population. They are now working as cultivators 697 persons—610 males and 87 females; in other services 345 persons—161 males and 184 females and as agricultural labourers 127 persons—111 males and 16 females.

The Barohar or Basod :

The Basods were workers in bamboos. In the district their number is 2,358 persons or 1·75% of the Scheduled Castes population and they work as cultivators 671 persons—453 males and 218 females; agricultural labourers 162 persons 118 males and 44 females; in the household industry 87 persons—44 males and 43 females; and in other services 234 persons—101 males and 133 females.

The Scheduled Tribes :

Only 477 persons from the following Scheduled Tribes have been returned from the district—Gond 108, Korku 196, Saheriya 172 and Unclassified 1.

The Working Force :

The district has returned fewer number of workers *viz.* 378 persons for every one thousand of population. In this respect Bhind occupies forty second position out of forty-three; the last being that of Gwalior with 370 workers. The table below gives the comparative position :—

Table—Showing the number of workers per one thousand persons

State/ Division/ District	Total Rural Urban	Total Population			Total Workers		
		Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8
Madhya	T	1,000	1,000	1,000	523	602	440
Pradesh	R	1,000	1,000	1,000	552	616	486
	U	1,000	1,000	1,000	349	524	145
Gwalior	T	1,000	1,000	1,000	437	589	262
Division	R	1,000	1,000	1,000	464	607	298
	U	1,000	1,000	1,060	309	502	83
Bhind	T	1,000	1,000	1,000	378	586	134
District	R	1,000	1,000	1.000	383	591	139
	U	1,000	1,000	1,000	327	528	72
Morena	T	1,000	1,000	1,000	446	605	225
District	R	1,000	1,000	1,000	456	613	269
	U	1,000	1,000	1.000	336	524	102

From the above it follows that there are proportionately less number of workers in the district. Among females the number of workers returned is indeed very few even in rural areas; there being only 139 workers in the rural areas. Generally women do not work and it is also not considered proper for them to work. Thus the number of female worker is considerably less. A further analysis of workers amongst women reveals that there are only 39,425 female workers and out of this number 15,373 female workers or 38·99% of the total workers are from the Scheduled Castes. Among the Scheduled Castes out of a population of 63,418 females, only 15,373 or 20.97% have been returned as workers as against the district figure of 13.4%. Even here the percentage of workers among the Scheduled Caste is generally below the average, the castes which form 20·97% of population contribute 38·99% of female workers, which emphasises that among the Scheduled Castes more females have been returned as workers.

The rural areas have returned greater number of workers as compared to the urban areas. This follows the general pattern, but it may be noted here that there are only 72 female workers per 1,000 females. Leaving Gwalior (57) and Indore (69) the figure is the lowest in the State.

The Occupational Pattern :

The table below gives the pattern of occupation :—

Total Workers 242,615 persons.

Category of work		Number of workers in the category (persons)	Percentage to total No. of workers	Rank
	1	2	3	4
I	As Cultivator	195,314	80.50	1
II	As Agricultural Labourer	11,016	4.54	3
III	In Mining, Quarrying Livestock, Forestry, Fishing, Hunting and Plantation, Orchards and allied activities	1,314	0.54	8
IV	At Household Industry	7,201	2.97	4
V	In Manufacturing other than Household Industry	1,771	0.73	6
VI	In Construction	1,518	0.63	7
VII	In Trade & Commerce	5,667	2.34	5
VIII	In Transport, Storage and Communications	687	0.28	9
IX	In other Services	18,649	7.47	2
			100.00	

It therefore follows that cultivation is the main occupation of the people, followed by workers in Other Services and as agricultural labourers.

Cultivation :

Out of a total area of 1,719 sq. miles 775,163 acres

or 65·21% of the surface was under cultivation in 1960-61. This is a fairly high percentage hence there is a lot of pressure on the land. During the decade the area net sown has gone up by 9.55%. Inset table gives the details of net area sown.

Year	Net area sown in acres	+Increase —Decrease	Percentage decade variation
1	2	3	4
1950—51	7,07,603		
1960—61	7,75,163	+ 67,560	+ 9.55

Incidentally the 1960-61 figures are the highest for the decade.

The cultivation is mostly of the dry type for 65,380 acres or 8.43% of the net area sown is irrigated. The total area sown more than once is only 18,865 acres or 2·43% of the net area sown. Thus the cultivator depends almost entirely on the rainfall. As compared to the Kharif or winter crops more of Rabi or summer crops are sown. In 1960-61 the following were the main crops :—Gram sown in 224,811 acres constituting 29·00% of the total crops sown.

Wheat	147,492	acres constituting	19·03%;
Bajra	83,962	acres constituting	10·83%;
Jowar	71,758	acres constituting	9·26%;
Barley	68,346	acres constituting	8·81%;
Tur	51,485	acres constituting	6·64%;
Rape and Mustard	44,506	acres constituting	5·74%;
Rice	26,302	acres constituting	3·39% and
Linseed	6,589	acres constituting	0·85%.

From the above it also follows that cereals and millets from a bulk of the crops followed by pulses; together these food crops cover 88·88% of the cropped area. The area under non-food crops is only 10·54%.

The statement below gives the distribution of 100 acres among the major crops of the district.

Area under crops in each Tahsil of Bhind District ,or the year 1960—61
Distribution of 100 Acres among the major crops for district and Tahsils separately

S.No.	Area sown under	District	Tahsil			
		Bhind	Gohad	Bhind	Mehgaon	Lahar
1	2	3	4	5	6	7
	Total cropped Area	**100.00**	**100.00**	**100.00**	**100.00**	**100.00**
1	Rice	3.19	9.41	0.01	3.52	0.01
2	Jowar	9.04	5.96	8.85	9.33	12.17
3	Bajra	10.57	1.07	18.31	6.33	15.75
4	Wheat	18.58	35.33	9.48	21.23	8.93
5	Barley	8.61	1.91	13.77	5.71	12.50

	Net Area sown	97.62	94.52	99.58	96.47	99.74

The Crops :

Gram—Gram had been sown in the district in a considerable area—which during the decade varied from 203,248 acres in 1954-55 to 248,901 acres in 1959-60. It occupies the highest area, under a single crop. It is unirrigated excepting for 15,380 out of 224,811 acres which received the benefit of irrigation.

Wheat—Wheat is the second major crop of the district the acreage varying from 93,140 in 1951—52 to 147,492 in 1960—61. Only 17,767 acres or 12.04% were irrigated in 1960—61. There has been a steady rise in the acreage and a slight fall in acreage under Jowar.

Bajra—The acreage under bajra has been more or less the same varying from 78,053 acres in 1956—57 to 97,976 in 1952—53. Excepting in the above year when the figure rose high the variation has been more or less steady.

Jowar—The area under jowar has been showing a steady decrease. It was 94,988 in 1951—52 touched the peak figure of 107,461 acres in 1954—55 crashed to 61,843 acres in 1958—59 and although there was a slight increase in the following years, yet the downward trend is unmistakable. It is entirely unirrigated and among the tahsils of the district Lahar shows a greater proportion of area under jowar.

Tur (Arhar)—The area under tur has not fluctuated much. It has generally varied between 43,873 acres in 1951—52 to 51,485 in 1960—61 except for one year *viz.* 1954—55 when it rose to 62,514 acres. The area under tur is proportionately high in Lahar tahsil being 9.45%.

Rice—Rice is sown in 26,302 acres or 3.39% of the cropped area in 1960—61. The area has been showing a steady increase during the decade. The 1960—61 figures expressed the highest acreage in the decade.

Rape and Mustard:—Mustard has been grown in fair quantity in the district. During the decade however acreage under mustard shows a downward trend. It was 62,517 acres in 1951—52 and fell to 33,699 acres in 1953—54. Since then, although it has shown a slight increase in the following years, yet the acreage under it was no where near the former figure.

Linseed—The area under linseed has remained more or less constant varying from 5,443 acres in 1954—55 to 8,088 acres in 1959—60.

Other Crops :

These are sugar-cane potatoes, condiments, fruits and vegetables and til. The acreage under these crops is comparatively little.

Sugar-cane—The area under sugar-cane had always been very little. In 1960—61 it was sown in 1,126 acres and the highest acreage was 2,435 in 1951—52. The variation has been considerable for in 1953—54, 1954—55, and 1958—59, 1959—60 it fell to 814,897 606 and 823 respectively. Of the total 938 acres were irrigated. There are no sugar mills round about, the nearest would be at Dabra in Gwalior district, about 77 miles away from Bhind.

Condiments and Spices—Condiments and Spices were grown in 936 acres in 1960—61 ; the acreage has shown a slight downward trend during the decade. The main spices are garlic, onions, coriander and ginger.

Potatoes—The area under potatoes has shown a steady rise in the decade. From 982 acres in 1951—52 it went upto 1,507 in 1959—60.

All Fruits and Vegetables—The acreage under 'All fruits and vegetables' has been going down steadily. It was 3,344 in 1951—52 and has come down to 2,440 acres in 1960—61.

The district has not returned any area under maize. Another noticeable feature is that ground-nut is sown in nearly a dozen or less acres. The area under cotton has reached the rock bottom.

The pattern of cultivation in the district may be summarised thus : Half the area 50.00% is sown with cereals and millets ; a little over one-third the area 38.89% with pulses; a little less than one—tenth 9.76% with oil—seeds and fibres constitute 0.17% an almost negligible portion.

Irrigation ;

The total irrigated area is 65,380 acres or 8.43% of the net area sown. The area under irrigation has shown an unsteady trend. It rose to 87,836 acres in 1952—53 and came down to 62,250 in 1957—58. The details regarding the sources of irrigation are indicated below :—

Total Showing sources of irrigation and area irrigated in acres

Total	Wells	Canals	Tanks	Other sources
65,380	5,996	57,075	1,957	352

From the above it is clear that the canals are the main source for irrigation. At present there is a net work of canals from Pagara Dam in Morena district. The district has forty miles of these canals. The Chambal Canals when completed will irrigate Bhind, Mehgaon, and parts of Gohad tahsils. The re-modelling of Bhind Canals has also been in progress for some time. Lahar tahsil would benefit, if water from Matatila Dam in Jhansi district are made available.

There are no major tanks in the district. Some of the minor ones are :—(1) Birdhanpura, (2) Akora, (3) Akha, (4) Kinnora, (5) Boora—kale, (6) Bisalpura, (7) Madhavpura, (8) Laban, (9) Har-ki-Jamah, (10) Gaura-Bhind.

Leather buckets—*Charas* is used for irrigation from wells. Pumps have also been installed, by a few cultivators.

Soils :

Geologically the district comes under "Northern Gwalior Section". There are four ranges in the district and from east to west they belong to Kaimur, Lower Rewah, Upper Rewah and Lower Bhander series. They are capped by massive heads of sandstones. The soil types are :—

(a) Kheda-Mar-Silica-submerged Dhumet.
(b) Sandy loam, and clay loam and the soil erosion is considerable due to wind and water.

Soil Erosion and Conservation—

The problem of soil erosion is a very serious challenge and along with dacoity, defies all human attempts. For Bhind is a district of dacoits, rivers and ravines, where wind, water and sand smell of blood—warm blood.

The Ravines :

The high banks of the Chambal, the Kunwari, the Sindh and other rivers and rivulets, have been cut up, as water flowed over them, carrying the precious silt and sand into the Yamuna and beyond. The yawning crevices, the gaping fissures with sparse vegetation seem to run on relentlessly and as the unmerciful sun blazes on the parched up land, covered with sand which lies uneasily waiting to be carried away by rains leaving the earth-sans sand, without the fertile soil—the life giving force to the earth.

Added to this the cutting of trees and shrub growth has left the country-side wild, and perhaps on way to becoming a desert ; Some of these ravines are as deep as 100 feet extending inland to distances varying from half a mile to two miles forming irregular gullies and also unable to support any real vegetation.

The severity of the problem was realised as far back in 1919, when a commission under Shri Bapurao Pawar Sar Soobah (Commissioner) was appointed to look into it the problem. On the receipt of the recommendation of Behad Commission another Committee was formed in 1924 to study the problems. As a result afforestation scheme was introduced in 1924—25 and continued upto 1931—32 by which time 1,260 acres were afforested. In 1946 Dr. Radha Kamal Mukerjee Economic Adviser to the former Gwalior State suggested contour bunding ; the work was also carried on during the Five Year Plans. In the third Five Year Plan there is a further provision to continue the work and the same is in progress.

The Agricultural Labourers :

There are 11,016 persons—8,056 males and 2,960 females constituting 4.54% of the workers who are engaged as Agricultural labourers. Most of the arduous work is done by the males and females are employed for lighter work such as weeding or cutting of the crops. The labourers form two distinct categories (a) the casual labourers (b) the premanent ones. The mode of payment usually takes the following form :—

(a) Daily wages in cash or grains ;
(b) Daily refreshments, which sometimes includes meals, along with some payment in cash or kind ;
(c) Cash payment either annually or six monthly made to the permanent labourers.

The Permanent Labourers :

Cultivators owning 20 acres or above sometimes engage labourers on a permanent basis. The payment is usually in cash and is stipulated at about Rs 360/- to Rs. 400/- per year. Besides this petty gifts are also given to the labourer.

The Casual Labourers :

The services of a casual labourer are obtained for a particular task e. g. cutting of the crop or weeding. They are paid partly in cash and partly in kind. At the time of the cutting of the crops the latter mode of payment is preferred The rate of payment varies from Rs. 1.75 to Rs. 2.25 for a male labourer and Rs. 1.25

to Rs. 1.75 for a female labourer. In the last few years the wages have been going up. The wages when paid in kind amount to about Rs. 1.50 to Rs. 2.00 depending upon the prices. A casual labourer is required to put in about 10 hours of work each day. The labourers are becoming scarcer each year.

Workers in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.

There are 1,314 persons—1,055 males and 259 females or 0.54% of the total workers in this category. There are no forests or mines in the district, hence in this category there are very few workers, The tahsil-wise break-up for this category is as follows :—

District/ Tahsil	T R U	Persons	Males	Females
1	2	3	4	5
Bhind District	T	**1,314**	**1,055**	**259**
	R	**1,108**	**867**	**241**
	U	**206**	**188**	**18**
Bhind Tahsil	T	348	315	33
Gohad Tahsil	T	397	322	75
Mehgaon Tahsil	T	204	175	29
Lahar Tahsil	T	365	243	122

The calling is mostly rural and confined to the males in general and could further be classified as follows :—

S. No.	Code No. of I.S.I.C.	Description	Number of workers P	M	F
1	2	3	4	5	6
1	009	Production of other agricultural produce (including fruits and roots not covered by code 006* and flowers) not covered above.	320	198	122
2	040	Production and rearing of live stock (large heads only) mainly for milk and animal power such as cow, buffalo, goat.	762	693	69
3	107	Quarrying of stone (including slate) clay, sand, gravel, limestone.	133	83	50

In other categories the number of workers is negligible. Another feature of the workers in this category is the preponderence of males.

Workers in the Household Industry :

The district has returned 7,201 persons—5,364 males and 1,837 females or 2.97% of the total workers. The details are :—

District/ Tahsil	T R U	Persons	Males	Females	Percentage to total Workers
1	2	3	4	5	6
Bhind District	T	**7,201**	**5,364**	**1,837**	...
	R	**5,971**	**4,472**	**1,499**	...
	U	**1,230**	**892**	**338**	...
Bhind Tahsil	T	2,365	1,894	471	32.84
Gohad Tahsil	T	1,616	1,142	474	22.44
Mehgaon Tahsil	T	1,071	748	323	14.84
Lahar Tahsil	T	2,149	1,580	569	29.84

The household industries are mostly concentrated in rural areas; Bhind and Lahar tahsils have greater number of workers in these industries. Following the general pattern of district fewer females have been returned as workers.

The main idustries along with the number of workers is as follows.

Code No.	Description of the Household Industry	No. of workers P	M	F	Percentage to total workers in Household Industry.
1	2	3	4	5	6
040	Production and rearing of livestock (large heads only) for milk and animal power such as buffalo, cow, goat.	**618**	**573**	**45**	**8.58**
200	Production of rice atta, flour etc. by milling, de husking and processing of crops.	310	214	96	4.30
207	Production of edible oils and fats (other than hydrogenated oils).	534	180	454	7.41
209	Production of other food products, such as sweetmeat and condiments, muri, murki chira, khoi, cocoa, chocolate.	176	162	14	2.44
231	Cotton spinning (other than mills).	303	94	210	4.20
235	Cotton weaving in handlooms.	529	347	182	7.34

**ISIC Standard Industrial Classification adopted by Government of India.*
Minor Group 006 Production of fruits and nuts in plantation trees and orchards.

Code No.	Description of the Household Industry	No. of workers P	M	F	Percentage to total workers in Household Industry.
1	2	3	4	5	6
273	Making of textile garments including raincoats and head gears.	733	666	67	10.73
282	Manufacture of structural wooden goods (inculuding treated timber) such as beams posts, doors, windows.	707	693	14	9.81
288	Manufacture of material from cork, bamboo, cane, leaves and other allied products.	537	325	212	7.45
311	Manufacture of shoes and other leather foot wear.	396	338	58	5.48
350	Manufacture of earthenware and earthen pottery.	826	619	207	11.47
369	Manufacture of sundry hardwares and G I pipe, wire net, bolt, screw, bucket cutting, etc.	461	353	108	6.48
393	Manufacture of jewellery, silver ware and wares using gold and other precious metals.	236	234	2	3.27

(Only industries with 100 workers or above have been considered).

The household industries are therefore fairly diverse and in not one of them are there more than 11.47% workers. Also only 1,230 persons or 17.08% are in the urban areas. Thus the household industries are spread out mostly in the rural areas.

Workers in Manufacturing other than Household Industry.

There are 1,771 persons—1,725 males and 46 females or 0.73% of the total workers in this category. Out of these 1,628 persons, 1,610 males and 18 females or 91.92% are in urban areas. As is obvious from the above there are very few industries in the district and these are concentrated in urban areas. The different categories in which these workers are engaged are :—

Code No.	Brief description of work	No. of Workers P	M	F	Percentge to total workers of the category.
1	2	3	4	5	6
200	Production of atta, rice, flour, etc. by milling of food crops.	156	140	16	8.80
207	Production of edible fats & oils (other than hydrogenated oils).	81	81	1	4.57
209	Production of other food products sweetmeats and condiments etc.	182	182	...	10.27
273	Making of textile garments including raincoats and headgear.	303	301	3	17.00
282	Manufacture of structural wooden goods, like beams, posts and doors etc.	120	120	...	6.77

(Industries with 75 or more workers only have been considered).

There are two dal and oil mills in Bhind. Apart from these there are hardly any industries. Another noticeable feature is that the number of female workers is very few.

Workers in Construction :

There are 1,518 workers—1,484 males and 34 females constituting 0 63% of the total workers in this category. These are employed in the following capacities :—

Category	Description of work	No. of workers P	M	F	Percentage to total workers of the category.
1	2	3	4	5	6
400	Construction and maintenance of buildings including erections, flooring, decorative constructions, electrical and sanitary installations.	899	893	6	59.22
401	Construction and maintenance of roads, railways, bridges, tunnels.	333	305	28	21.94
403	Construction and maintenance of water-ways, and water reservoirs, such as bund, embankments, dam, canals, tanks, tube-wells, wells.	286	286	...	18.84

Workers in construction are mainly engaged in construction of buildings and nearly half of them 424 persons—421 males and 3 females are in urban areas. From the above it is obvious that there are not many workers engaged in construction.

Workers in Trade and Commerce :

There are 5,667 persons—5,263 males and 404 females or 2.34% in this category; out of which 2,002 persons—1,966 males and 36 females or 35.33% are in Bhind town. The total workers in urban area are 2,950 persons—2,866 males and 84 females or 50.57% of the category. Thus trade and commerce is mostly an urban calling. The chief categories are (only categories of 500 persons or above have been considered) :—

Code No.	Brief Description	No. of Workers P	M	F	Percentage to total workers of the category.
1	2	3	4	5	6
600	Wholesale trading in cereals and pulses.	498	498	...	8.79
640	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices etc.	2,809	2,782	22	49.57
650	Retail trade in fibres, yarns, dhoti, saree etc.	548	544	4	9.67
689	Retail trade in goods unspecified.	640	549	91	11.29

Wholesale trade in cereals and pulses is confined to urban areas only for as many as 474 traders are from towns. Retail trade in cereals, pulses, vegetables, etc. is spread over the entire district. Retail trade in yarn is concentrated in urban areas. From the above it is obvious that there is not much of trade and commerce in the district; the little trade that exists, follows the conventional pattern where traders sell miscellaneous goods required in a district of agricultural economy.

Workers in Transport Storage and Communications :

There are 687 persons—685 males and 2 females or 0.28% of the workers in this category. This low figure emphasises, how few persons work in this category. Out of the total, 500 workers are in Bhind tahsil and 348 of them in the city. Thus in the tahsil itself 69.6% are concentrated in Bhind town and of the total in the category 72.78% in the tahsil. The minor groups of the above are (minor groups of 50 persons or above considered) :—

Code No.	Brief description	No. of Workers			Percentage to total workers of the category
		P	M	F	
1	2	3	4	5	6
701	Transporting by tramway and bus service.	87	87	...	12.66
702	Transporting by motor vehicles (other than omnibus).	99	99	...	14.41
703	Transporting by road, through other means of transport such as hackney carriage, bullock-carts, ekka.	105	103	2	15.28
704	Animal transporting by animals such as horses etc.	118	118	...	17.18
705	Transporting by man such as carrying of rickshaw.	83	83	...	12.00
730	Postal, telegraphic, wireless and signal.	127	127	...	18.49

In the group 701 there are 53 persons who hail from the urban areas. These are the persons engaged in the running of the bus services, of which there has been a rapid growth. There are only 42 persons working in the railways.

In 1951 in this category there were only 304 persons 302 males and 2 females. There is a rare consistency about the two females. The figure now stands at 687 persons—685 males and 2 females. In postal services there were 23 employees in 1951 as against 127 at present which again indicates the rapid growth of the department, in terms of the employees.

The Other Services :

There are 18,127 persons—14,864 males and 3,263 females or 7.47% of the total workers who have been returned in this category. Apart from cultivation this category has the highest number of workers. The growth in the decade has been as follows. The 1951 figure has been arrived at by adding the following divisions in classification Division 8—Health, Education and Public Administration and Division 9—Services not elsewhere specified. The 1961 figure is for Division 8—Services which partly includes divisions 8 & 9 of 1951.

Workers in Other Services

Year	Persons	Males	Females	Increase Decrease (+) (—)	Percentage Variation (+) (—)
1	2	3	4	5	6
1951	8,104	7,311	793	...	...
1961	18,127	14,864	3,263	+10,023	+123.61%

The main minor groups in which persons are engaged are :—

Minor Group	Brief description	No. of workers			Percentage to total workers of category.
		P	M	F	
1	2	3	4	5	6
803	Public Service in Police.	1,756	1,756	...	9.69
809	Public Services in Administrative departments and offices of State Government.	1,623	1,607	16	8.95
811	Educational Services such as those rendered by colleges schools and similar non-technical instutions.	2,462	2,238	224	13.59
820	Public Health and Medical Service.	708	304	404	...
872	Recreational Services rendered by organisations and individuals like the such as those of theatres, opera companies ballet and dancing parties etc.	531	477	54	2.93
883	Laundry Services etc. rendered by organisation & individuals.	1,184	549	635	6.53
884	Hair dressing, other services, rendered by organisation and individuals etc.	733	733	...	4.04
900	Activities unspecified and not adequately described.	5,428	4,525	903	29.94

In the Police Department the increase has been as follows :—

Policemen excluding Chowkidars.

Year	Persons	Increase	Percentage Variation (+) (—)
1	2	3	4
1951	613		
1961	1,756	+1,143	+186.5

In the Educational Services the various categories in which there has been an increase are as follows :—

Category of Workers.	Year	Persons	Males	Females	Increase	Percentage
1	2	3	4	5	6	7
Educational and Research Services	1951	897	834	63	...	...
	1961	2,462	2,238	224	+1,565	174.5

In 1951 there were 830 teachers—779 males and 51 females; as against this there are 2,378 teachers—2,176 males and 202 females and 578 teachers—481 males and 97 females are in the urban areas. This alone shows an increase of 174.47%. Most of the incresase is due to the expansion of educational facilities in the State. An increase of 174.47% is indeed very considerable.

The growth of the medical services has been as follows :—

Medical and Health Services

Year	P	M	F	Increase	Percentage (+) (−)
1951	227	128	99	...	...
1961	708	304	404	+481	+211.89

The increase is therefore quite considerable. The females in this category who are working as nurses, midwives and dais out-number men in this service. There has been an all round increase in the number of workers of the category.

The Non-Workers :

There are 398,554 persons—143,607 males and 254,947 females who have been returned as non-workers. The position of non-workers vis-a-vis the division and the State is as follows :—

State/ Division District	Total Rural Urban	Total Population			Total Non-Workers		
		Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8
Madhya Pradesh	T	1,000	1,000	1,000	477	398	560
	R	1,000	1,000	1,000	448	384	514
	U	1,000	1,000	1,000	651	476	855
Gwalior Division	T	1,000	1,000	1,000	563	411	738
	R	1,000	1,000	1,000	536	393	702
	U	1,000	1,000	1,000	691	498	917
Bhind District	T	1,000	1,000	1,000	622	414	836
	R	1,000	1,000	1,000	617	409	861
	U	1,000	1,000	1,000	673	472	928

From the above it is obvious that the number of workers in the district is less. As far as women are concerned they are much less. Even among the males the number of non-workers is fairly high being 411 per 1,000 males.

The Details reg: Non-Workers :

The non-workers were classified into eight categories the details of which are given in the table below :—

Persons not at work classified by the type of activity

Category	Persons	Percentage
Total non-workers.	394,554	100.00
Full time students.	44,177	11.08
Household duties.	134 779	33.83
Dependents Infants and Disabled	216,852	54.41
Retired, Rentier or independent means.	886	0.22
Beggars and Vagrants.	1,591	0.40
Inmates of Institutions.	32	Negli.
Persons seeking employment for the first time.	142	0.04
Persons employed before but now out of employment and seeking work.	81	0.02

As may be expected dependents, infants and disabled persons form the bulk of non-workers and further it is the 0--14 age group which constitutes the highest number there being 197,560 persons—97,627 males and 99,933 females or 91.10% of the group. This is followed by 133,779 persons—or 33.83% of the total. In this group there are 12 males and 134,767 females—indicating an exclusive monopoly of the females. The bulk of them come from 15--34 and 35--59 are-groups, returning 78,039 and 39,266 females or 57.90% and 29.13% of the group respectively. There are 44,177 persons who have been returned as full time students. These are mostly in 0--14 age--group although a few 7,585 persons have also been returned in 15–34 age-group. Beggers and vagrants constitute 0.40% of the population.

IV

COMMUNICATIONS

The Rail-link :

The only rail link in the district is the narrow guage 2′ or 24″ guage connecting Bhind to Gwalior. Once it was the part of Scindia State Railways, it has now been taken over by the Central Railways. There are two trains each day from Gwalior to Bhind and vice versa. The time taken is nearly 4 hours for a distance of 84 kms. Passengers therefore prefer to travel by buses which take about 2 to 3 hours. The nearest air port is at Maharajpur, Gwalior. There is practically no air traffic for this part.

The Roads :

No National Highway passes through the district. Bhind is connected to Gwalior by an all weather State Highway which goes upto Etawah. There is however no bridge and so it remains cut off from the commencement of rains to early winter. Communications to Lahar also get cut off owing to no high level bridge over the river Sindh. An all weather road however connects Bhind to Morena via Mehgaon The total mileage of the State Highway is 154 miles and 1 furlong. The district and other roads total 151 and 63 miles respectively. Out of these 107 miles is black topped.

A point to be noted regarding the State of communications in the district is that on many of the district roads, there are no high level bridges, which cut off the district or tahsil headquarters from other places. This causes great inconveniences and adds considerably to the already difficult problem of administering the district.

Apart from this another 84 miles of roads have been included in the third Five Year Plan. Three bridges viz. Murawali and Sindh bridges on Bhind—Bhander road and Vaisali bridge on Gohad—Tehra road are also likely to be taken up during the Plan period. Road distances to other districts are as follows :—(a) Morena via. Mehgaon 99 kms., (b) Gwalior 83 kms., (c) Etawah 36 kms. (d) Datia 142 kms.

Telegraphs and Telephones :

At Bhind there exists a telephone exchange, private phones and public call offices have also been provided at Lahar, Mehgaon and Gohad. Besides the above there are number of post offices spread over the entire district. The table below gives the number of post offices each tahsilwise.

District/ Tahsil	Total Population	Total No. of post offices	Total No. of villages	Villages per post office	Population per post office
1	2	3	4	5	6
Bhind Dist.	**641,169**	**107**	**898**	**8**	**5,992**
Bhind Tahsil	230,969	36	272	8	6,416
Gohad ,,	117,471	10	198	20	11,747
Mehgaon ,,	131,992	31	200	6	4,258
Lahar ,,	160,737	30	228	8	5,358

During the decade there has been considerable expansion in the postal facilities.

Besides the above the police have their own wireless net work spread over the entire district, for carrying out the anti-dacoity operations.

References :

For the compilation of the note the following books were freely referred to. For an earlier account of the district Gwalior State Gazetteer by C.E. Luard still remains one of the most helpful sources. For an appreciation of the demographical changes in the district the following Census Publications have been referred to.

1. Census of India, 1901, Volume XXI, Gwalior, Part I, Report, by JWD Johnstone, Census Commissioner, Gwalior State ;
2. The Central India State Census Series, Volume I, Gwalior State, Census Report, 1911, Text and Tables, Part I & II, By H. M. Bull, M.A., (Cantab) Census Commissioner, Gwalior State ;
3. Census of India, 1921, Volume XX, Gwalior, Report and Tables, by Janki Nath Datta, Census Commissioner, Gwalior State ;
4. Census of India, 1931, Volume XXII, Gwalior, Report and Tables, Part I & II, by Ranglal, B.A., Census Commissioner, Gwalior State ;
5. Census of India, 1941 Volume XX, Gwalior, Part II, Tables, by Ranglal, B.A., Census Commissioner, Gwalior State ;
6. Census of India, 1951, Volume XV, Madhya Bharat & Bhopal, Part II—A, Tables, by Ranglal, B.A., Census Commissioner ;

7. Census of India, 1951, Volume XV, Madhya Bharat & Bhopal, Part II—B, Economic Tables, by Ranglal, B.A., Census Commissioner ;
8. Census of India, 1961, Volume VIII, Madhya Pradesh, Part II—A, General Population Tables, by G. Jagathpathi, I.A.S.,
9. Census of India, 1961, Paper No. 1 of 1962, 1961 Census, Final Population Tables ;
10. Census of India, Paper No. 2—1955, Sample Census of Births & Deaths, 1952—53 ;

Besides these, the district officers specially the Collector Bhind has been of very great help in furnishing the material for the above note. I am particularly grateful to Shri T. K. Parchure, District Statistical Officer, Bhind, who took great pains and collected the relevant information for the district.

THE SUMMING UP

The District and Statistics :

The district occupies an 1.01% surface of the State, but returns 1.98% population which indicates its being more thickly populated. It has accordingly returned 373 persons to a sq. mile., only second to Indore 570 per sq. mile. It ranks forty first in area but twenty-fourth in population; but in the matter of growth of population in the last sixty years it comes thirty sixth in position. More than double in area when compared to the smallest district Datia, it sustains over three times its (Datia's) population. A little less than nine times smaller than Bastar, it sustains a little more than half of the latter's population. Its nearest equals in area are Ratlam, Tikamgarh and Narsimhapur all of which sustain much lesser population. This thus emphasises the pressure of population in the district.

The People :

An increase of 48.32% in sixty years may to a family planning expert, appear an ideal rate of growth, but this in background of the general growth appears very poor. The two decades 1901—11 and 1911—21 were particularly unkind to the growth of population and the district lost heavily. Population migrated to the more congenial south—to the Malwa Plateau, where famines and epidemics were few and life generally less difficult. After 1921 there has been a steady growth. Males have all along outnumbered the females and the region has been torn by strife and unsettled conditions-conditions which shaped the destiny of the people and are reflected in the composition of the population ; for males were desired for fighting and females were a liability if captured. Thus grew the thinking on the issue the region returned lesser number of females.

During the decade the literacy improved, the religious composition remained practically the same although the rate of growth among the Muslims was somewhat high being 34.55%. The occupational pattern continues to remain agricultural ; although there has been an increase in the workers in 'Other Services'. There has practically been no change in the matter of industries. There has been some progress in literacy and the educational institutions in the indistrict have expanded. The participation rate in the district is low. There are few Scheduled Castes and practically no Scheduled Tribes, also the members of "other castes" (which signifies castes other than Scheduled Castes and Tribes) do not return females as workers. All these factors are thus responsible for such low participation rate.

The Dacoity :

In some form or the other dacoity has existed in this region since ages and though for a short while the incidence appears to go down, but the district is never free from it. Living with the dacoits thus becomes a part of life. It would not be incorrect to assert that of all the districts in the State, Bhind has produced the highest number of listed dacoits.

LIST OF IMPORTANT PLACES

1. *Amaha* : (26° 59′ N and 78° 53′ E; pop. 1,264)

A small village in Lahar tahsil about a mile south of Daboh. It is said that it was the scene of battle between Prithviraj Chouhan and Chandellas.

2. *Atter* : (26° 45′ N and 78° 15′ E; pop. 2,888)

A big village in Bhind tahsil, formerly a tahsil headquarters. There is an ancient fort, which was ruled by Bhadaurias before being captured by the Marathas. An NES Block has also been located here. An ancient fort reflects the Bhadaurian days of power. Situated near the Chambal, Atter strategically must have been an important place.

3. *Bhind* : (26° 33′ N and 78° 50′ E; pop. 28,208)

The district headquarters was also known as Bhind Bhadauria, being the capital of Bhadauria Rajputs. It came under Scindia's power in the eighteenth century. There are no industries in the town which is important as an administrative centre. A municipality was first established in 1902. Apart from roads it is connected by the narrow gauge railway from Gwalior.

4. *Birgama Simar* : (26° 26′ N and 78° 44′ E; pop. 2,042)

Situated on the bank of Vaisali river in Mehgaon tahsil, a fair on Shivratri is held each year at an ancient Mahadeva temple.

5. *Daboh* : (26° 5′ N and 78° 55′ E ; pop. 3,812).

It was once a tahsil headquarters. The Bundelas had built a tank near the village.

6. *Gohad* : (26° 26′ N and 78° 29′ E ; pop. 10,289)

The town was once included in Tawarghar district ; it is now a tahsil headquarters. It is situated on the right bank of the Vaisali river. It was under the Bhadaurias, from whom Rana Bhim Singh Jat wrested it. Rana Bhim Singh served the Peshwa and after the battle of Panipat, captured the redoubtable Gwalior fort. In 1784 it was captured by the Scindia.

The big fort, which to-day houses the courts, the tahsil and other offices was built by Rana Chattrapati Singh. It is about $2\frac{1}{2}$ miles from Gohad Road Railway station and can also be reached by road from Bhind and Gwalior.

7. *Lahar* : (26° 12′ N and 78° 52′ E ; pop. 5,575).

A tahsil headquarters situated about 28 miles south of Bhind. It was a Kachhwaha stronghold and was heroically captured by Major Popham, who earlier also had captured Gwalior. It is connected to Bhind by a road and remains cut off during the rains.

8. *Mehgaon* : (26° 29′ N and 78° 39′ E ; pop. 3,081).

Mehgaon a town and the tahsil headquarters is situated on Gwalior-Bhind road, about 33 miles from Gwalior. It is also reached by the narrow gauge railway. Its importance is mainly administrative.

APPENDIX I

INDUSTRIAL ESTABLISHMENTS

Note :—This appendix has been prepared from information abstracted from the houselists. It is arranged first districtwise; that is, under the name of the district have been arranged the industries in ascending order of minor groups; showing the total number of establishments within brackets next to each minor group. The information has been shown by total, *rural and urban separately. The figures for the tahsil follow the figures for the district as a whole. The total, rural* and urban figures for each tahsil for each minor group of industry showing the number of establishments in each in brackets have been persented first. Then follows the list of the villages in the order of their location code numbers with the location code number appearing first, followed by the name of the village. Against each village is shown the minor group or minor groups of industry found in the village with the number of establishments in that minor group shown within brackets against each minor group. For towns, figures have been presented separately for each ward, the number of ward being given first, followed by the industrial code numbers etc. as in the case of villages.

The following examples will make the above Note clear :—

Bhind District Total 200 (238) signifies that there are 238 establishments in Bhind District pertaining to Minor Group 200, which stands for "Production of rice, atta, flour etc. by milling, dehusking and processing of crops and foodgrains". Bhind Tahsil Total 206 (6) signifies that there are 6 establishments in Bhind Tahsil pertaining to Minor Group 206, which stands for "Production of butter, ghee, cheese and other dairy products". Village 1 Kochhpura 283 (1) signifies that in Village Kochhpura which has 1 as its Location code number there is one establishment pertaining to Minor Group 283, which stands for "Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures". Bhind Town, Ward No. 1 207 (6) signifies that there are 6 establishments located in Ward No. 1 of Bhind Town pertaining to Minor Group 207 which stands for "Production of edible fats and oils (other than hydrogenated oils)".

BHIND DISTRICT

4 LAHAR TAHSIL

Urban

Nil

Rural

Location code number and name of Village :

197 Murawali.

APPENDIX IX

TOWNS AND VILLAGES HAVING DRAINS

1 BHIND TAHSIL

Urban

Location code number and name of Town :

I BHIND

Ward Nos. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11.

Rural

Nil

2 GOHAD TAHSIL

Urban

Nil

Rural

Location code number and name of Village :

157 Loharpura.

3 MEHGAON TAHSIL

Urban

Location code number and name of Town :

II MEHGAON

Ward Nos. 1, 2, 4.

Rural

Location code number and name of Village :

191 Parghena.

4 LAHAR TAHSIL

Urban

Location code number and name of Town :

IV LAHAR

Ward No. 1

Rural

Nil

APPENDIX X

TOWNS AND VILLAGES IN WHICH WEEKLY OR FORTNIGHTLY MARKETS ARE HELD TOGETHER WITH THE DAYS ON WHICH HELD

1 BHIND TAHSIL

Urban

Location code number and name of Village :

I BHIND

Ward No. 6 (Sunday)

Rural

Location code number and name of Village :

11 Udotgarh (Saturday), **78** Ridoli (Four times in a year, Sunday), **79** Udann Kheda (Sunday), **85** Sakraya (Sunday), **108** Bhimpura (Saturday), **161** Pipari (Friday), **176** Aitahar (Thursday),

2 GOHAD TAHSIL

Urban

Location code number and name of Town :

III GOHAD

Ward No. 1 (Thursday).

Rural

Location code number and name of Village :

6 Ehno (Wednesday), **9** Rai Ki Pali (Monday), **38** Bir Khadi (Tuesday), **39** Nonera (Monday), **157** Loharpur (Sunday), **174** Mau (Sunday).

APPENDIX X—*Concld.*

TOWNS AND VILLAGES IN WHICH WEEKLY OR FORTNIGHTLY MARKETS ARE HELD TOGETHER WITH THE DAYS ON WHICH HELD

3 MEHGAON TAHSIL

Urban

Location code number and name of Town :

II MEHGAON

Ward No. 2 (Wednesday).

Rural

Location code number and name of Village :

5 Kachnaw Khurd (Monday), **11** Pachera (Friday), **24** Gormi (Wednesday), **29** Sikroda (Sunday), **32** Liloi (Monday), **36** Pratappura Gormi (Monday), **38** Nunhad (Thursday), **47** Alokhar (Friday) **52** Manhad (Wednesday), **66** Soni (Sunday), **148** Jarsena (Thursday in July and Aug), **173** Kanathar (Saturday), **181** Kamanpura (Friday), **186** Amayan (Friday),

4 LAHAR TAHSIL

Urban

Location code number and name of Town :

IV LAHAR

Ward No. 1.

Rural

Location code number and name of Village :

21 Gorai (Tuesday), **22** Raruwa No. 1 (Monday), **33** Indurkhi (Thursday), **36** Ron (Monday and Thursday), **38** Nodha (Friday), **56** Machhand (Thursday), **57** Biswari (Wednesday). **64** Bohara (Saturday), **66** Banthari (Sunday), **67** Mihona (Wednesday), **79** Katha (Friday), **98** Rahawali Ubari (Monday and Thursday), **107** Ajnar (Thursday), **136** Jamuha (Sunday), **154** Aswar (Thursday), **176** Tola (Monday), **190** Rampura (Thursday), **208** Alampur (Tuesday and Saturday), **219** Daboh (Wednesday).

APPENDIX XI

TOWNS AND VILLAGES HAVING CO-OPERATIVE SOCIETIES TOGETHER WITH THE DESCRIPTION OF THE SOCIETY

Note—In this Appendix (i) C.C.S. stands for Co-operative Credit Society, (ii) M.P.S. for Multi-Purpose Society, (iii) I.C.S. for Industrial Co-operative Society and (iv) 'O' stands for Other Societies.

PART II

OTHER DISTRICT STATISTICS

This part contains some useful official statistics pertaining to the district collected and compiled from various agencies [the agency or source is indicated below each Table or Statement] and from official publications. These are presented under the following heads :—

1 Rainfall

2 Economic Statistics :—
- (a) Agricultural
- (b) Prices and Wages
- (c) Live-stock
- (d) Co-operation, Banking and Insurance

3 Administrative Statistics

4 Progress of Community Development Programme

5 Educational Statistics

6 Health, Medical and Vital Statistics :—
- (a) Health and Medical
- (b) Vital Statistics

7 Communications

8 Miscellaneous
