PREFACE.

The Census Reports in olden times were printed one for the whole Province of Rajputana and another for Ajmer Merwara. Some of the Principal States now merged in Rajasthan published their own reports. This time the State Census Reports have been published in the following volumes:—

1. *Part I-A* Report.

2. *Part I-B* Subsidiary Tables and District Index of Non-Agricultural Occupations.

3. *Part I-C* Appendices.

4. *Part II-A* General Population Tables, Household and Age (Sample) Tables, Social and Cultural Tables, Table E Summary Figures by Administrative Units, and local 'KA' infirmities.

5. *Part II-B* Economic Tables.

They contain statistics down to the district level.

The idea of preparing the District Census Handbook separately for each district was put forward by Shri R. A. Gopalaswami, I. C. S., Registrar General, India, and ex-Officio Census Commissioner of India, as part of a plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the district census tables and census abstracts prepared during the process of sorting and compilation should be bound together in a single manuscript volume, called the District Census Handbook, and suggested to the State Governments that the handbook (with or without the addition of other useful information relating to the district) should be printed and published, at their own cost, in the same manner as the village statistics in the past. In accepting this suggestion, the Government of Rajasthan decided to print and publish the more important portion of statistical data relating to the district and to preserve the rest of the records in a manuscript volume for any future use, to which they may be put.

This Handbook contains five General Population Tables of A Series, three Economic Tables of B Series, five Household and Age Tables of C Series, seven Social and Cultural Tables of D Series, one table E giving summary for the district and tehsils, a local table 'KA' showing infirmities by age groups and an Index of Non-agricultural Occupations. Each table contains an explanatory note necessary for the proper understanding of the figures. The numbers given to the tables in this Handbook correspond to those given in State Census Reports.

Village Directories were published for the first time in 1931 by a few States of Rajputana. The example was followed by all the States in 1941. They contained for each village the population figures by religion and also some other useful information. They were bound in a volume one for each State. This time the Village Directories are also incorporated in this Handbook under the name of "Primary Census Abstract and Village Directory" which show the basic population figures separately for each village or town-ward classified by livelihood classes instead of religion and also some information of general nature.

Opportunity has been taken to put in a short introductory note detailing the salient points connected with the district, such as the physical features, climate, rainfall, irrigation and drainage facilities, roads and other communications, agriculture, education, industries and other matters of general interest. The information contained in the introductory note is based on the material furnished by Collectors of districts and Departments of Government.

In addition to the above, some figures of general interest and a review of population figures have also been incorporated.

The scheduled date for the publication of the Handbooks as prescribed by the Registrar General, India, was, " Not later than March, 1952 " but practical experience showed its publication by that time an impracticability. Even the compilation of the tables together with its final touch could not be completed by that time. Then came the question of printing which proved to be a huge task. There are 25 districts in Rajasthan and 1 in Ajmer. The total number of printed pages turned out to be nearly 9000. The Government Presses were already over burdoned with the printing work of other departments and in the printing of census publications priority was given to Central Government Publications *i.e.* the State Census Reports. The result was that till March, 1954, for 14 out of 26 districts the P. C. A. and Village Directory could not be printed specially because the press had no stock of small type which was essential for their printing. It was, therefore, decided to publish the handbooks in two volumes. Part I, consists of introduction, a brief review of population figures and,

(1) General population Tables (A-I to A-V.)

(2) Economic Tables (B-I to B-III)

(3) Household and Age (Sample) Tables (C-I to C-V)

(4) Social and Cultural Tables (D-I to D-VII)

(5) E-Summary figures by Administrative Units.

(6) Local Table ' K.A ' infirmities, and

(7) District Index of Non-Agricultural Occupations.

Part II contains only Primary Census Abstracts and Village Directory.

The Handbooks of the Ajmer, Sirohi and Jhalawar Districts are, however, being published in one volume because they have heen completed by this time.

While every care has been taken to ensure the correctness of figures and village names, certain mistakes might have crept in. I shall be grateful if they are brought to my notice.

Y. L. DASHORA.

DEFINITIONS AND KEY TO SYMBOLS

Definitions.

Tract:—In past censuses the census figures were tabulated by administrative units i.e. districts, tehsils etc. This time in almost all tables the figures have been represented by units which have been technically called "TRACTS". Tracts are of three kinds, (1) all villages of a sub-division taken together form one rural tract; (2) all towns (which are not cities) in a district taken together form an "urban non-city tract" and (3) every city is an "urban city tract" or in short "city tract". A list of tracts comprised in each district has been given in the handbook of the district.

Town:—A "Town" has been defined as every municipality, every cantonment or every village which had a population of 5,000 or over in 1941 or any other village which was treated as a town for special reasons by the State Census Superintendent.

City:—A "City" is normally defined as a town with a population of one lac or over, but this definition has been relaxed in Rajasthan, and towns with a population of 50,000 or over have also been treated as cities, to bring the definition in uniformity with the one adopted in the Municipal Act.

Village:—A "Village" means a revenue **mauza** whose revenue is realised under a separate name. It includes all hamlets attached to it.

House:—A "House" has been defined as every structure made of any material which is actually used as human habitation or if not so used, is capable of being so used, which has separate main entrance from the street, lane, by-lane, etc. It includes structures of all kinds such as residential houses, temples, mosques, offices, etc. The **minimum**, which was necessary for qualifying a structure to be classed as a house, was at least two walls and a roof made of any material.

Occupied House:—"Occupied houses" were those which were used actually for the residence of human beings.

Household:—A "Household" has been defined to mean and include all persons living in one and the same house and dining at a common mess irrespective of their blood relationship e.g. servants residing with their masters and taking meals in their kitchen were treated as members of the master's household. On the contrary even nearest relatives as husband or wife were treated as separate families if for any reason they happened to live in separate buildings and dine at separate kitchens.

Household Population:—"Household Population" means persons living in numbered houses as members of a commensal family including guests and servants. It does not include (a) houseless persons or (b) inmates of institutions like jails, hospitals, hostels, dak bungalows, boarding houses, orphanages, sarais, dharmashalas, police lines, military lines, asylums, etc.

Displaced person:—A "Displaced person" was defined as a person who migrated from Western Pakistan after 1st March 1947 or from Eastern Pakistan after 15th October 1946 due to communal disturbances or fear of disturbances or due to partition of India and Pakistan. Children born to such persons after their migration to India were not to be treated as displaced persons.

Ward:—A "Ward" was defined as municipal ward in case of municipal towns. In non-municipal towns wards have been made arbitrarily by the Census Department.

Means of Livelihood:—In former censuses it was customary to represent the basic population data by community or religion. This time an innovation has been made and in most of the tables the figures are published by Means of Livelihood groups. All occupations have been classified under eight broad classes and given code numbers which are as follows:—

I . . Cultivators of land wholly or mainly owned and their dependants.

II Cultivators of land wholly or mainly unowned and their dependants.

III Cultivating labourers and their dependants.

IV Non-cultivating owners of land, agricultural rent receivers and their dependants.

Persons (including dependants) who derive their principal means of livelihood from:—

V Production other than cultivation.

VI Commerce.

VII Transport.

VIII Other services and miscellaneous sources.

N. B.—In most of the Tables, the m/l class number is only given instead of describing the class.

Code No.—In the enumeration stage a set of location code numbers was prescribed to identify each inhabited spot, whereby the districts were numbered serially within the State, tehsils within a district and cities, towns or villages within a tehsil. Similarly houses were numbered within a village and households within each house. Hamlets were given sub-numbers under the number of the parent village.

A. IV—Towns Classified by Population with Variation since 1901

Explanatory Note

This table shows the population of the towns of the district for the last five Censuses by sex. It also gives the variation in population from decade to decade along with the net variation since 1901.

In this table, the cities and towns have been classified and arranged according to population under six classes namely :—

I	100,000 and over.
II	50,000 to 100,000
III	20,000 to 50,000
IV	10,000 to 20,000
V	5,000 to 10,000
VI	Less than 5,000

The class in which the individual town falls is shown under the name of the town.

The nature of the local body functioning in each town is shown in the brackets after the name of the town wherever such body is functioning.

In this district 2 fresh towns have been added in this census namely.

(1) Gangapur (2) Gulabpura

EXPLANATORY NOTE:—

This table gives the number of persons (including dependants) in each town according to principal means of livelihood instead of religion as in past censuses, but means of livelihood classes I to III have been clubbed together and they have been shown in columns No. 15 and 16 after the non-agricultural classes

B ECONOMIC TABLES.

1. In the 1951 Census, the Economic classification was substituted for the classification based on Religion.

2. The people have been divided into two broad livelihood categories, viz, the Agricultural Classes and the Non-Agricultural Classes.

3. There are four Agricultural Classes, defined as below :—

I Cultivators of land, wholly or mainly owned, and their dependants.

II Cultivators of land, wholly or mainly unowned, and their dependants.

III Cultivating labourers and their dependants, and

IV Non-cultivating owners of land; agricultural rent receivers, and their dependants.

4. There are four Non-Agricultural Classes, defined as comprising all persons (including dependants) who derive their principal means of livelihood from :—

V Production other than cultivation.

VI Commerce.

VII Transport.

VIII Other services, and miscellaneous sources.

5. All these classes have been referred to as Means of Livelihood Classes or in brief M/L Classes.

NOTE.—(*a*) Land is deemed to be owned "if it is held on any tenure (by whatever name it is known locally) which carries with it the right of permanent occupancy for purposes of cultivation." Such right should be heritable. It may be (but need not necessarily be) also transferable.

(*b*) A "Cultivator" (Livelihood Class I or II) is distinguished from a "Cultivating Labourer" (Livelihood class III) as the person who takes the responsible decisions which constitute the direction of the process of cultivation. All cultivating labourers are employees of cultivators.

(*c*) The classification of a person employed in any non-agricultural enterprise or establishment is based on the nature of his own work, not on the nature of the enterprise or establishment concerned. Thus for instance not all railway employees are classifiable under Livelihood Class VII (Transport). Those employed in railway workshops are classifiable under Livelihood Class V and those employed on constructional services under Livelihood Class VIII.

6. Livelihood Sub-Classes :—Each of the eight M/L Classes has been divided into three sub- classes, with reference to their economic status as below :—

(*i*) Self-supporting persons ;

(*ii*) Non-earning dependants ; and

(*iii*) Earning dependants.

Economically active, semi-active and passive persons :—

7. All non-earning dependants are economically passive. They include persons performing house-work or other domestic or personal services for other members of the same family household. But they do not include "unpaid family workers or persons who take part along with the members of the family household in carrying on cultivation or a home industry as a family enterprise".

8. All earning dependants are economically semi-active only. Though they contribute to the carrying on of economic activities, the magnitude of their individual contribution is deemed to be too small to justify their description as economically active.

9. All self-supporting persons are, ordinarily, economically active. But, there are certain classes and groups which constitute an exception to this rule. These are mentioned below :—

(*i*) The self-supporting persons of agricultural class IV.

(*ii*) The following groups of selfsupporting persons who are included in non-agricultural class VIII and derive their principal means of livelihood from miscellaneous sources (otherwise than through economic activity) :—

(*a*) Non-working owners of non-agricultural property,

(*b*) Pensioners and remittance holders,

(*c*) Persons living on charity and other persons with unproductive occupations, and

(*d*) inmates of penal institutions and asylums.

Classification of Economic activities and Economically active persons :—

10. Economic activities may be defined as including all activities of which the result is the production of useful commodities or the performance of useful services but not including the performance of domestic or personal services by members of a family household to one another.

11. The most important among all economic activities is the cultivation of land (or the production of the field crops). It stands in a category by itself. All other economic activities may be regarded as falling in another category which may be referred to as " Industries and Services ". All these activities may be classified with reference to the nature of the commodity produced or service performed. Under the present scheme, all industries and services are classified in 10 divisions ; and these divisions are sub-divided into 88 sub-divisions. The scope of activities included in each sub-division is indicated by its title.

12. Economically active persons engaged in cultivation, are either cultivators or cultivating labourers i. e., they are persons of sub-class (*i*) of agricultural classes I to III.

13. Economically active persons engaged in Industries and Services are classifiable in the divisions and sub-divisions. All persons included in each sub-division are further divisible into three sections viz.,

(*i*) Employers.

(*ii*) Employees, and

(*iii*) Independent Workers.

14. In effecting this classification, no account has been taken of whether the classified person was actually employed or unemployd on the date of enumeration. He has been allocated to that particular description of economic activity from which he has been in fact deriving a regular (that is non-casual) income, as his principal means of livelihood.

The Tables.

15. The Economic tables for the State as a whole with break-up for Natural Divisions and districts will be found in Report : Part II B of the Census of India 1951, Volume X, Rajasthan and Ajmer. It also contains a full discussion of the Indian Census Economic Classification Scheme and its comparison with International Standard Industrial Classication Scheme evolved by the United Nations Organisation. This Handbook contains the above tables for this district in which they are published down to tract level.

16. The replies recorded in the census slips against census questions 9, 10 and 11 have been used for classifying every enumerated person within the framework of Economic Classification of people described above. The results have been exhibited in the three tables.

(a) Economic Table I .... Livelihood classes and sub-classes.

(b) Economic Table II .... Secondary means of livelihood.

(c) Economic Table III .... Employers, employees, and independent workers in industries and services by divisions and sub-divisions.

Economic Table I.

17. This table is the result of the record of replies to the census question No. 9 (1). It shows the distribution of population in the eight livelihood classes and 3 sub-classes of each livelihood class. A complete picture has been presented of economically active, semi-active and passive persons.

Economic Table II.

18. It specifies the number of self-supporting persons in each of the 8 classes mentioned above, who have more than one means of livelihood and cross classifies them according to the nature of such secondary means of livelihood under the same eight classes. It also displays the number of earning dependants who supplement (with their own activities) the resources provided for their maintenance by the persons on whom they are dependant. The economic activity of the economically semi-active persons whereby they supplement the above resources has been shown in this table. The replies recorded in the slips against census question 11, showing the occupation of semi-active persons as also the secondary means of livelihood of selfsupporting persons (with more than one occupation) other than the principal means of livelihood, are the basis of this table.

Economic Table. III.

19. This table is limited to economically active persons only. Self-supporting persons engaged in Industries and Services have been classified under 10 Divisions and sub-divisions thereof. They have been further divided under each division and sub-division into three categories "Employers" "Employees", and "Independent Workers".

(a) M/L Class V (Production other than cultivation) corresponds to Division 0 to 4 (0 Primary industries not elsewhere specified, 1-Mining and quarrying; 2-Processing and manufacture-foodstuffs, textiles leather and products there of; 3-Processing and manufacture metals, chemicals and products there of; 4-Processing and manufacture not elsewhere specified).

(b) M/L class VI (Commerce) corresponds to Division 6 (Commerce).

(c) M/L class VII (Transport) corresponds to sub-divisions 7·1 to 7·4 of division 7 (Transport, storage and communications).

(d) M/L class VIII (Other services and miscellaneous sources) includes Division 5 (Construction and utilities), Division 7 (Transport storage and Communication) with the exception of sub-division 7·1 to 7·4; Division 8 (Health, education and public administration) and Division 9 (Services not elsewhere specified). It also includes other miscellaneous sources of livelihood e.g. income from investment, pensions and family remittances, proceeds of begging and other unproductive activities. These are not, however, included, in Economic Table III which is limited to industries and services. Hence there is a difference to this extent between the total self-supporting persons of the non-agricultural classes in Economic Table I and the total of this table. The reconciliation has been affected by entries of economically inactive persons with the following further classification at the end of the table (columns No. 798 to 807).

(i) Persons living principally on income from non-agricultural property.

(ii) Persons living principally on pensions, remittances, scholarships and funds,

(iii) Inmates of jails, asylums and alms-houses.

(iv) Recipients of doles.

(v) Beggars and vagrants.

(vi) All other persons living principally on income derived from non-productive activities.

20. The Unit of Classification is the organised "Establishment". The commodity produced or the service performed as a result of the work of the organised establishment is the criterion for classifying the establishment. The classification of the establishment is the classification of every member of the establishment.

21. As regards "Employees", all persons, engaged, in production, commerce or transport (and not being domestic servants) have been classified under the appropriate sub-divisions with reference to their own activity, and without reference to that of their employer. Domestic servants have all been classed in one sub-division without reference to the nature of their work. All other employees (including all managerial and supervisory employees, clerks, messengers, watchmen and unskilled labourers of every description) have been classified with reference to the commodity produced or services rendered by their employers.

22. In this table occupational returns under some of the sub-divisions are nil and the columns pertaining to such sub-divisions have been omitted for the sake of economising space, hence there are breaks in the serial number of columns.

District Index of Non-Agricultural Occupations.

This Table is prepared from the Sorter's Ticket 2. This is a sort of supplement to Economic Table B. III and provides further details of the occupational groups mentioned therein.

The Sorter's Ticket 2 was prepared in accordance with the instructions to the Sorters reproduced below :—

1 *Preparation.*—You have to prepare Sorter's Ticket 2 only if you have slips relating to any of the livelihood class V, VI, VII or VIII. You are to deal only those slips which relate to self-supporting persons. The slips relating to non-earning dependants or earning dependants would have been separated already and should not be used at this stage.

2. *First operation.*—You have first to deal the slips with reference to the Principal means of livelihood recorded against question 10. Your Supervisor will give you a list of "M/L (Means of livelihood) sub-groups"* in the order of importance for which you have to sort. Select not more than ten Pigeon-holes and affix labels bearing the names of the "M/L sub-groups" (written out in full) as given to you. The number of M/L sub-groups given to you will generally exceed ten. You should reserve one or two Pigeon-holes for throwing slips which are not covered by the M/L sub-groups shown on the lables. You should then deal the slips with reference to the answer recorded against question 10. In doing so, put together slips containing entries which are written in either identical or very similar terms to each of the labelled "M/L sub-groups." If you are in doubt whether an entry, in any case is very similar or not to the labelled M/L sub-groups, consult the Supervisor. Finish the sorting for one set of M/L sub-groups. Then distribute the slips of one set into individual occupations. Now count the number and "enter" the name and number in columns (2) and (3) of Sorter's Ticket 2. Keep the unsorted slips separate. This completes the first stage of the first operation.

3. *First operation (succeeding stages).*—You should then take up the slps that remain to be sorted. You should deal them again for the remaining M/L sub-groups given to you in same manner as in the first operation. The operations should be repeated successively until all the slips are sorted for all the M/L sub-groups given to you. You may find slips where the M/L as recorded in question 10 does not fall under any of the sub-groups given to you. You should deal these slips separately in the manner explained above and enter the name and number in the Sorter's Ticket. This completes the first operation. You should keep separate the bundle for each M/L sub-group.

4. *Special instructions regarding non-productive means of livel hood.*—Livelihood class VIII will contain slips of persons who derive their income otherwise than through Productive activity. They include all self-supporting persons against whom the answer to question 9, Part two, is 'O'. They should be treated as a distinct group, not falling under any of the prescribed divisions and sub-divisions; and sorted under the following sub-groups, viz.—

(*i*) Persons living principally on income from non-agricultural property.
(*ii*) Persons living principally on pensions, remittances, scholarships and funds.
(*iii*) Inmates of jails, asylums, alms houses and recipients of doles.
(*iv*) Beggars and vagrants.
(*v*) All other persons living principally on income derived from non-productive activities.

5. *Second operation.*—For this operation the slips mentioned in Paragraph 4 are excluded. You have to deal the remaining slips with reference to the answer recorded in the second compartment of question 9. Affix labels to three Pigeon-holes, the labels being marked "Employer", "Employee" and "Independent worker". Take the bundle

* *List of M/L sub-groups.*—Separate lists of sub-groups should be prepared for use in sorting each of the four different livelihood classes V to VIII. These lists should be compiled on the basis of (a) scrutinizing of entries found to occur frequently in the National Register of Citizens and (b) results of trial sorting by Supervisor and Compiler-checkers.

for each M/L sub-group and deal them into the three Pigeon-holes. You will find "मा" for "Employer" "नो" for "Employee" and "खुद" for "Independent worker" recorded in the second compartment of question 9. If you find that there is no entry you should take the order of your Supervisor. When you have completed the sorting for a M/L sub-groups you should count the number in each Pigeon-hole and enter in Columns (4) to (6) of the Sorter's Ticket according as the Pigeon-hole relates to "Employer", "Employee" and "Independent worker" respectively.

6. *Second operation (succeeding stages).*—You should take each of the other bundles for M/L sub-groups and deal them in the same manner as in the second operation; you should enter the result in the relevant columns of the Sorter's Ticket.

7. *Conclusion.*—You have now completed all operations necessary for Sorter's Ticket 2. Re-combine all the male slips and all the female slips.

If you are sorting sample slips or slips for displaced persons you should proceed to Sorter's Ticket 3.

If you are sorting general slips you should proceed to Sorter's Ticket 6.

After the Sorter completed the ticket and after due check by the Compiler-checker and the Supervisor, the ticket was handed over to the tabulation clerk to fill in the Group Code numbers in column (1) of the form of Sorter's Ticket 2 given below.—

Form of Sorter's Ticket 2.

Group Code Number	*Full name of means of livelihood (sub-groups and occupations)*	*Total*	*Employer*	*Employee*	*Independent worker*

The group code numbers were adopted from the Indian Census Economic Classification Scheme given in Part II – B of the Report.

Accuracy of Figures.

A perusal of this index shows incredible figures, against certain occupations. This is due to vague entries in the slips regarding the occupations contrary to instructions in some cases and entries with correct details in others. The result was that in the tabulation stage the only slips which contained correct details of occupations were sorted under the correct sub-group and its details, while those with vague entries were placed in the wider groups.

Another point to be borne in mind is that not all persons following an occupation have been shown against it in the Index, but those who followed it as a Principal means of livelihood. Thus if a Ticket Collector derived a greater part of his income from rent of agricultural or other land or building and some income only from his services as Ticket Collector, he would not be shown as Ticket Collector.

The third point to be kept in mind is that these figures, represent only self-supporting persons and not those who are partly dependants, thus a young boy who sits at a 'Pan shop' and gets some pay from the shop keeper which is not sufficient to support him, he has to depend upon his father's income mostly. Such a man would not appear under the occupation "Service on Betel Shop."

The last but most important defect in the figures is due to difference in the terminology prevalent in the different areas of Rajasthan describing an occupation and also partly due to want of exercise of proper care in the tabulation stage that name showing same and similar occupations have been shown as different occupations for example "Halwai's shop" and "sweet-meat selling" have been shown as different occupations. In order therefore to find out the actual strength of self-supporting persons following a particular occupation as their principal means of livelihood, figures against all such occupations should be totalled.

On the whole, this index removes the defects pointed out in the Census Tables published in the previous Census that they do not show actual occupations but their group only.
