Originating in the 19th century perhaps as an occupational craft, the embroidery work of the Kutch and Saurashtra regions was in its heyday one of the loveliest of the folk arts of Gujarat. Over a period of time the craft had acquired sufficient sophistication and regional and caste associations to facilitate its classification into as many as twenty two schools, five major and three minor ones and fourteen others obtaining in the Kutch and Saurashtra regions respectively.

The work is known to have been done mostly for personal use, till it was exploited for commercial purposes in later years. It is commonly done in free hand, but the use of wooden blocks for printing the basic design of motifs to be embroidered is not unknown.

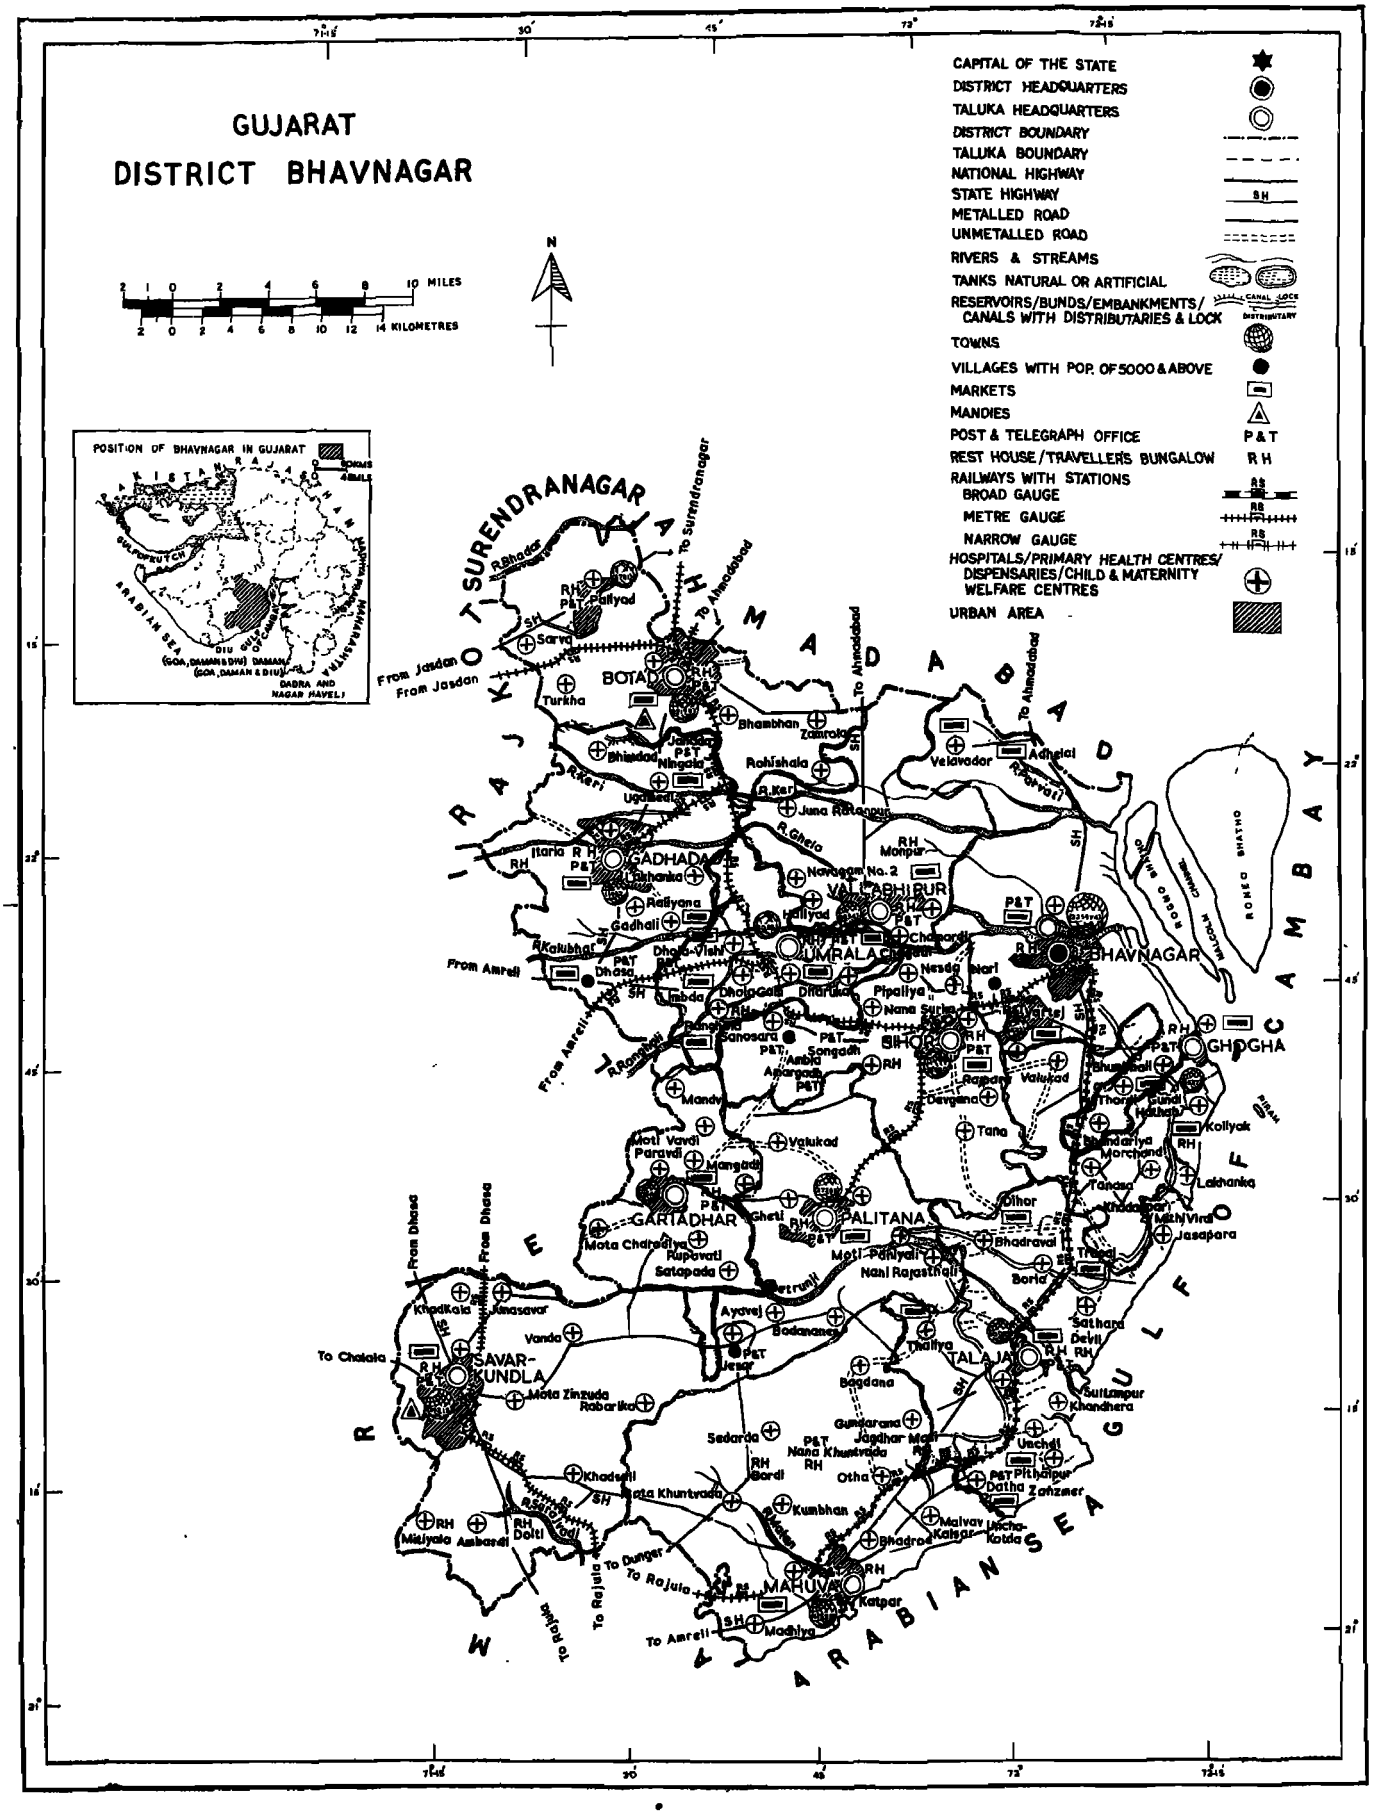

The detailed work on the chakla displayed on this volume identifies the specimen with the Mochi school of Saurashtra, rather than of Kutch, the latter of which was marked by greater simplicity.

The accent on articles of war, like helmets, daggers and spears in the extreme centre surrounded by caparisoned horses and elephants bespeak of royal patronage or commission. The borders revert to the common motifs of human figures, floral designs, birds and animals and geometric forms.

The intricacy of the work, while frowned upon by connoisseurs, nevertheless testifies to a mastery of the craft.

(Block from an ink tracing by K. D. Vaishnav, Geographer, from a photograph).

PREFACE

The District Census Handbooks are being published regularly since 1951. Earlier they were brought out under the name of "Village Handbooks" and contained only the population totals. They are prepared by the Census Organisation on behalf of the State Government and published by the latter. They are the first to be published in the series of 1971 Census publications, which are now to follow. The need for making available to the State Government, the Census data as early as possible after the taking of the count, has been recognised since long. It is a matter of deep satisfaction that the present volume is being published within a year of the taking of the Census.

The data collected during 1971 Census was tabulated initially at three Regional Tabulation Offices at Surat, Rajkot and Bhavnagar for rural areas and one more Tabulation Office at Ahmedabad which dealt with the slips of urban areas only. The data abstracted at the Regional offices was brought to Ahmedabad where it was compiled for the State as a whole and is now being published.

The District Census Handbook contains primary data upto the village level for rural areas and enumerator's block level for urban areas. It is for the first time that in 1971 Census we are giving information about urban areas of the State in a separate part called the "Town Directory". We are also giving comprehensive information about rural areas in the "Village Directory". This is further supplemented by the Alphabetical List of Villages for facility of reference.

It has been decided to bring out the District Census Handbooks of 1971 in three parts as under :—

Part A

(1) Town Directory

(2) Village Directory

Part B

(1) Urban Block and Villagewise Primary Census Abstract

Part C

(1) Analytical Report

(2) Administrative Statistics

(3) Census Tables

It was originally decided that each part would be brought out separately. But since the data for parts A and B has been prepared almost at the same time, it is decided to combine these parts into one volume. Part C which has to await the collection of official statistics from various Departments of the State Government and preparation of Census Tables, would be published separately.

The Town Directory consists of information about the status, growth history and functional category of towns and their physical aspects, location, Municipal finances, civic and other amenities like sewerage, protected water supply, fire fighting service, electrification etc. It also contains information about medical, educational, recreational and cultural facilities available at the towns. Detailed information about trade, commerce, industry and banking is also provided here. The population of the towns according to 1971 Census by religion and Scheduled Caste and Scheduled Tribe is furnished here. The Town Directory is a new feature of 1971 Census and the above information has been compiled in it for the first time.

The Village Directory contains comprehensive information about the amenities available at the village such as educational and medical, supply of electric power, drinking water facility, communication through road, rail, kutcha road, pucca road and bus route, existence of post, telegraph and telephone facilities, etc. Further information about staple food, area under various

uses like forest, cultivable land, source and extent of irrigation, cultivable waste and name of the nearest town and its distance, day on which 'bazar' is being held, if any, and its importance from religious, historical and archaeological point of view is recorded here.

The Primary Census Abstract contains information about the number of occupied residential houses and households, total population including houseless and institutional population, literacy, Scheduled Caste and Scheduled Tribe population and the distribution of working population into nine industrial categories of workers and non-workers.

The Analytical Report in Part C takes note of the social, economic and demographic changes which have occurred in the District during the last ten years. The administrative statistics are obtained from various Departments of the State Government and presented in this part which also incorporates a few of the tables generated from the data derived during 1971 Census.

There are 217 towns in Gujarat and 18,709 villages. Compilation of data for such a large number of units within such a short time was indeed a formidable task. The terms and definitions used in the schedules of the Directories were carefully studied and detailed instructions with explanatory notes, about the manner in which they were to be filled, and the source from which data was to be collected were issued by this Directorate to the Taluka Development Officers. The collection of land use data and tallying of area figures for each administrative unit presented an uphill task. The Settlement Commissioner and Director of Land Records was requested in August 1969 to confirm some of the presumptions and furnish necessary guidelines to this Organisation as to how the various figures required could be culled out from the revenue forms maintained at village level.

The printed forms of Village Directories were sent to the Taluka Development Officers with a request that they should be filled by the village officials and scrutinised at taluka level by the Statistical Assistant before returning to this office. The Development Commissioner and the Director, Bureau of Economics and Statistics, issued firm instructions to the field staff to ensure that the information was filled and scrutinised with the utmost care. After this information was received in the Census Directorate, it was subjected to a very close and rigorous checking by a cell which was specially created for the purpose. There were a number of points on which further probe became necessary, where the information was found to be incomplete or inconsistent. Our greatest hurdle was the reconciliation of area figures as reported by the village officials and those reported by the District Inspector of Land Records. A series of meetings had to be held at each District Headquarter, where the Deputy Director in charge of the District Census Handbook Unit had to remain present and point out the glaring inconsistencies reported to the Taluka Development Officers and District Inspectors of Land Records. Thanks to the dedicated efforts of all concerned, we were ultimately able to reconcile completely the area figures for each Village, Taluka and District.

It was noticed that there were minor differences in the spellings of village names reported by the Mamlatdar, Taluka Development Officer and District Inspector of Land Records. Similar differences were also noticed in the total number of villages reported by each agency. These discrepancies were reconciled on the basis of the list of villages published by Revenue Department, information obtained from taluka offices and other published sources. Location code number was given to each administrative unit at the time of taking of the Census in order to avoid repetition of their names.

The Census Directorate had obtained village-wise data relating to drinking water facility, primary and secondary school, post, telegraph and telephone, electrification etc, from the concerned Departments. The data reported in the Village Directory was cross-checked with the

official data to make it accurate and upto date. The data so processed was ultimately posted in the Village and Town Directory statements and typed in four copies. The typed data was again compared with the original manuscripts by a special cell handpicked for the purpose. The taluka totals for the area and amenities have been struck for each column. A number of inset tables have been prepared and included in the note to the District Census Handbook, as desired by the Registrar General, India.

The Town Directory statements were likewise scrutinised by a special cell in the Directorate, and the local authorities were asked to reconcile incomplete or inconsistent information wherever necessary. On account of the instructions issued by the Director of Municipalities, these references received immediate attention. The figures reported by the Municipalities have been cross checked with available statistical data.

Maps

No District Census Handbook can be complete unless it is accompanied by District and Taluka maps. We have, therefore, included at the beginning of each volume a District map showing the taluka boundaries, location of towns and large villages with population size 5000 +, communications, water features etc., and an inset map showing the position of the District in the State in hatching. A Taluka map is inserted before the Primary Census Abstract of each taluka, indicating the boundaries of each village and town within the taluka and the location code number of each village. The villages have been shown by dots of various sizes. One key map showing the location of the taluka within the District in hatching, and another key map showing the position of the District in the State have been inserted here. The urban area is hatched in both the District and Taluka maps, and is further represented by a sphere of varying size according to population.

The District and Taluka maps show several particulars by use of an appropriate symbol.

The preparation of District and Taluka maps, containing such varied information was a task of no small magnitude. The District Inspectors of Land Records had considerable difficulty even in preparing the basic maps and authenticating them. The problem was solved by requesting the Settlement Commissioner and Director of Land Records to call the District Inspectors of Land Records personally to the Office of Director of Census Operations and reconcile all the discrepancies pointed out to them and asking them to authenticate the same on the spot as far as possible, after due verification.

ACKNOWLEDGEMENTS

Compilation of such a large mass of data is impossible without the active help and co-operation of State Government. I am deeply indebted to Shri L. R. Dalal, ICS, Chief Secretary to Government of Gujarat, for agreeing to extend whatever help was sought for. I would like to make a special mention of the warm and wholehearted co-operation which was throughout extended by Shri K. V. Bhatt, Deputy Secretary in the General Administration Department, who was looking after the subject of Census. Whether it was a matter of sanction of staff or for supply of typewriters, or for additional funds for printing of the District Census Handbook volumes, it always received his most immediate attention and sanction was never denied or delayed. He showed a deep understanding of the problems of an organisation like ours, which could function in the State effectively only with the full backing of the State Government.

Shri P. B. Buch, Director of the Bureau of Economics and Statistics, Government of Gujarat, placed at my disposal the entire resources at his command for any work connected with Census. Not only he spared me a few of his best officers and men but his valuable guidance in the matter of presentation of data at several places has served us in good stead. He issued instructions to the District Statistical Officers to attend to

the collection and scrutiny of any Census data and its timely submission, as if it wa Bureau's own work. We were always assured that we could fall back upon the resources of the Bureau unreservedly in time of need. But for the wholehearted and most willing cooperation of the Bureau at all levels, the District Census Handbook volumes would not have been what they are today.

I also owe a deep debt of gratitude to Shri U. M. Bhatt, IAS, the then Settlement Commissioner and Director of Land Records for his help in finalising the meanings of terms and definitions used in the Village Directory. It is a matter of deep regret that he is no more with us today. His successor, Shri B. R. Mane Patil, IAS, was equally enthusiastic and helpful and but for the keen interest he took in the finalisation of District and Taluka maps, we would have been placed in serious difficulty.

My sincere and heartfelt thanks are due to the Collectors of the Districts for the wholehearted response I have received from them towards the efficient conduct of Census Operations. The interest and energy evinced by them in organising this vast operation is indeed praiseworthy. Their active participation and involvement in the programme had a far reaching effect on the countless enumerators and supervisors working under them. Their direct interest in the training programme has vastly improved the quality of our returns. The Assistant / Deputy Collectors working under them were made responsible for the urban areas of their jurisdiction. The Mamlatdars and Chief Officers of Municipalities who were appointed as Charge Officers of rural and urban areas respectively bore the real brunt of the work, and displayed great zeal and enthusiasm in shouldering these additional responsibilities. To the Commissioners of Ahmedabad and Surat Corporations I am particularly indebted for providing excellent accommodation for housing the Regional Tabulation Offices. To the Special Charge Officers of Railways, Police, S.R.P., Irrigation Colonies and Forest Department and others I express my gratitude for the readiness with which they stood by us. Last but not the least, my grateful thanks are due to a large number of young boys and girls, coming from schools and colleges, to work as Sorters, Compiler Checkers and Supervisors, for the hard work they put in under difficult conditions of work. They displayed a very high sense of discipline and duty and enabled us to complete our work, at every stage, according to the deadlines set. I have no doubt the traditions of hard and systematic work they have imbibed will serve them in good stead and they will advance in life. They carry our best wishes with them wherever they go.

The District Development Officers who helped us so much in collection of data at the village level through the Taluka Development Officers and the District Statistical Officers working under them, who arranged for the scrutiny of the Town and Village Directory schedules at the taluka level through the Statistical Assistants, deserve a special mention. Had the basic work not been done by them accurately we would have been faced with a serious problem at the time of compilation. To the Heads of various other Departments, who always responded readily to any request made to them for help, I am also indebted. Limitation of space prevents me from making a separate mention of each one of them.

Shri G. J. Gonsalves, Director of Government Printing and Stationery, Government of Gujarat, who very kindly undertook to arrange the printing of some of the District Census Handbooks at Government presses and others through private presses had always been helpful in solving our difficult problems of printing. I hereby acknowledge the valuable help, guidance and assistance rendered by him in the matter of printing. Thanks are also due to the Manager, Government Photo Litho Press, Ahmedabad, at which all the District and Taluka maps as also the cover page have been printed. The care and patience with which they have attended to this work, has beautified our volumes to no small extent and increased their utility to the reader greatly.

Shri Hashim Ali Sayed, Printing Inspector, whose services were obtained on deputation from the Director, Government Printing and Stationery, rendered exemplary service by looking after the entire printing arrangement. His initiative, drive, and readiness to assume responsibility were a source of great strength to us. Everything he handled, he did perfectly well, and knew his job inside out.

I wish to place on record the valuable contribution made by my colleagues in bringing out this volume. Shri K. F. Patel, Deputy Director of Census Operations (HQ) was looking after this section before a separate staff was sanctioned by the State Government, headed by Shri S. C. Merh, Deputy Director from the Bureau of Economics and Statistics. Even after the creation of this separate cell, there were many occasions on which I had to look to him for help on account of the experience gained by him during 1961 Census. He never objected to the encroachments made on his time and energy, in spite of the fact that they were sometimes substantial. Shri S. C. Merh, Deputy Director of Census Operations (DCHB) put in hard and gruelling hours of work in spite of indifferent health to catch up with the time schedule which was once upset. Shri S. M. Shelke, Research Assistant, from the Bureau working under him, undertook almost the entire burden of Town Directories in addition to other work. Shri S. M. Nayak, Assistant Director of Census Operations, put in an indefatigable effort to ensure accuracy of the data at every stage and successfully coordinated the work throughout. The enthusiasm and energy displayed by Shri C. P. Vyas, Assistant Director of Census Operations, in the matter of preparation of inset tables for District Census Handbook volumes and several other matters connected with it deserve a special mention. The interpretation of the data of the Town and Village Directory is his personal contribution. Shri R.M. Pancholi, Statistical Assistant, prepared the inset tables to be included in the Town and Village Directory. Shri K. M. Patel, Tabulation Officer put in a very strenuous effort for the reconciliation of area figures and final checking of maps. Kr. Fateh Singh Jasol, IAS, Deputy Director of Census Operations, Urban Tabulation Unit, took upon himself, as a labour of love, the scrutiny of work with regard to the preparation of District and Taluka maps and the selection of different motifs which now decorate different volumes of the District Census Handbook. He involved himself in this work with the ardency and fervour so characteristic of him and greatly relieved me of the anxiety on this account. Shri K. D. Vaishnav, Geographer, and his team of draftsmen have produced excellent District and Taluka maps by working on them again and again to incorporate details which were pointed out or received after the maps were once prepared. Shri N. S. Bhatt, Statistical Assistant, has checked them thoroughly. Shri B. I. Patel, Tabulation Officer, in charge of the Central Tabulation Unit took upon himself the entire responsibility for the scrutiny of Primary Census Abstracts and their typing in record time. He discharged his duties with diligence and a high sense of duty. I had in him a pillar of strength on which I could lean for work demanding precision and exactitude. His capacity to turn out work at optimum efficiency in the face of time schedules rigidly set merits avowal. Shri V. A. Dhagia, Tabulation Officer, proved himself a stalwart by shouldering the burden not only of work entrusted to him, but part of the burden of every section, including the Map Section, and rendere yeoman's service. Both the Central Tabulation Units benefited greatly by the care and attention bestowed on them by Shri K. F. Patel, Deputy Director of Census Operations (HQ), whose trained eye could detect the slightest inaccuracy or inconsistency in compilation or presentation. It was due to this team work that we were able to compile such faultless data with admirable speed, and were the first to send the Primary Census Abstracts of all the Districts of the State in one bunch to the Registrar General's Office at New Delhi. Shri Patel's patience and thorough handling of work has yielded rich dividends to us. I have relied heavily on the expertise, acumen and experience of my colleagues and they have undoubtedly

given their best to the Organisation, for which I am deeply indebted to them.

Limitations of space prevent me from making an individual mention of all those who have contributed to the making of this volume so complete and faultless to all of whom I wish to express my sincere thanks.

Finally, I would like to express my very deep gratitude to Shri A. Chandra Sekhar, IAS, Registrar General, India and Dr. B. K. Roy Burman, Deputy Registrar General (Social Studies) for the valuable guidance received from them from time to time. The amount of advance thinking and planning done by them on the subject has now resulted in the production of volumes which will be of lasting value and interest to the general reader, research worker, scholar, administrator and academician.

C. C. DOCTOR,
Director of Census Operations,
Gujarat.

AHMEDABAD
1st March, 1972.

PART X-A

TOWN AND VILLAGE DIRECTORY

TOWN AND VILLAGE DIRECTORY

The Town and Village Directory of the District Census Handbook 1971 differs widely in content and presentation from the corresponding volume of 1961. The earlier volumes mainly contained the Primary Census Abstract for each village for rural area and town/ward/enumerator's block for urban area and was supplemented by some additional information which was collected from (a) village notes specially devised for the purpose and (b) information supplied by Heads of Departments on certain amenities. It was presented in Col. 2 in run on fashion for each village and town followed by the Primary Census Abstract in the remaining columns.

The Town and Village Directory of 1971 Census is presented in Part A of the District Census Handbook. An attempt has been made to interpret the data thrown up in the Town and Village Directories at the beginning under the heading "Introductory Note on Town and Village Directory".

Part B of the District Census Handbook contains purely the Primary Census Abstract.

A number of abbreviations have been used in both the Directories to facilitate presentation. The abbreviations used in each statement of the Town Directory are given below in Statement A. Statement B gives a list of abbreviations used in Village Directory.

STATEMENT A
List of Abbreviations used in the Town Directory

STATEMENT I

Column : 5

1.	Corporation	...	C	5.	Cantonment Board	...	CB

INTRODUCTORY NOTE ON TOWN AND VILLAGE DIRECTORY

1. History of District Census Handbook

In 1941, the population figures were exhibited according to communities in the "Village Handbooks" published by the erstwhile Government of Bombay. In 1951, the basis of classification of the Census was changed from a social to an economic one and the figures were given in the Primary Census Abstract according to eight Livelihood Classes. The Primary Census Abstract contained the basic information in respect of every village and town. A decision to bring out the District Census Handbooks giving the Primary Census Abstract and important Census tables for every district of the State was taken for the first time in 1951. Census statistics given in the Primary Census Abstract related to the area of the village, number of houses and households, total population, houseless and institutional population, literates and agricultural and non-agricultural classes distributed, under eight main Livelihood Classes. These census statistics were further supplemented by the addition of useful administrative information on the availability of amenities in villages and towns on items like post offices, railway stations, the distance of a bazar from the village, primary schools, village panchayats, cooperative societies, etc. This was a unique achievement of the Indian Census. The 1951 series of District Census Handbooks, however, varied in content and size from State to State depending upon the resources offered by the State Governments. It was, therefore, decided during the Census of 1961 that the District Census Handbooks of 1961 Census should contain a certain minimum of statistical data, maps and other useful information to be adopted uniformly throughout the country. Thus the District Census Handbook of 1961 Census differed widely in the matter of content and coverage from that published in the 1951 Census. The District Census Handbooks of 1961 were sub-divided into the following three parts :—

PART I—THE DISTRICT

(i) Introductory Essay
(ii) Brief Gazetter of place names

PART II—STATISTICS

(i) Census Tables
(ii) Villagewise list of Industrial Establishments
(iii) Handicraft Tables
(iv) Departmental or Official Statistics

PART III—VILLAGE DIRECTORY

(i) Explanatory Note
(ii) Village Directory
(iii) Taluka Maps

Besides Census data, the 1961 District Census Handbooks covered villagewise and townwise information on the availability of different types of amenities such as educational facilities, public health and medical facilities, supply of drinking water, electricity and its uses etc., shown by means of abbreviations placed against the name of each village. Thus. in the 1961 Census an attempt was made to make the District Census Handbooks more informative.

During the 1971 Census, efforts have been made to compile both census and non-census statistics in a uniform manner under an enlarged perspective. The District Census Handbook of 1971 Census has been divided into three sub-parts with a view to making the census and non-census information available to the data users as quickly as possible. Part A of the District Census Handbook contains the Town Directory and Village Directory. Part B contains the Primary Census Abstracts and Part C contains the Introductory Essay, Official Statistics, Census tables, etc. The details of the contents in each of the parts are described in the following paragraphs.

2. Scope of District Census Handbook 1971

The District Census Handbooks are the only publications which incorporate the data down to the village and block level of a town, which are urgently and frequently required by the data users. They are constantly referred to for several purposes by the administrator, planner, policy-maker and academician. The delay in the publication of the District Census Handbooks would reduce the value of these very useful publications. In order to avoid delay in the publication the District Census Handbooks of 1971 are sub-divided into three parts, two of which are combined in one volume, and the third published separately. The details of the content of each of the parts are as follows :—

Part A : Town and Village Directory

Part A contains the non-census statistics of each village and town. The Town Directory portion furnishes the data for each town in the district in seven statements covering (1) the status of the civic administration and the functional category of towns and the growth of population since 1901 (2) physical aspects and location; (3) civic finances; (4) civic and other amenities (5) medical, educational, recreational and cultural facilities ; (6) trade, industry, commerce and banking facilities and (7) population by religion.

The Village Directory Section of Part A gives particulars of amenities available for each village in the matter of educational and medical

institutions, power supply, drinking water facilities, post and telegraph facilities, communications, particulars of land use, weekly markets and places of religious, historical and archaeological interest in the village.

Part B : Primary Census Abstract

Part B gives for each village and for each block and ward of a town the primary census data incorporating area of the town in square kilometres, and of village in acres and gunthas the number of occupied residential houses, the number of households, total population and its break up by sex, scheduled caste and scheduled tribe population, literate population, and working population by nine broad industrial categories namely (1) cultivators, (2) agricultural labourers, (3) those working in livestock, forestry, fishing, plantations, etc., (4) mining and quarrying, (5) manufacturing, processing, servicing and repairing, (6) in constructions, (7) in trade and commerce, (8) transport, storage, and communications, and (9) in other services and the non-working population.

Part C : Administrative Statistics and Report

Part C would incorporate the administrative statistics, pertaining to the district in various fields of development. The census tables pertaining to the district regarding mother tongue, religion, migration, etc., will also be reproduced here. A write up indicating the changes in the socio-economic and demographic characteristics of the district in the last decade would also be given.

The non-census data of the village directory and town directory were collected from the local bodies. The villagewise details regarding different types of amenities available at the village, land use data and other information were collected in the village directory form through the Taluka Panchayat Offices. These forms were filled by the village officials and were scrutinised by the Statistical Assistants at the Taluka level. The District Statistical Officers supervised the work and carried out percentage scrutiny. The details regarding the number of villages having post and telegraph facilities in the State, those connected with electric power supply, those having all weather and fair weather bus facilities and those without drinking water facilities etc. were obtained from the concerned departments by the Office of the Director of Census Operations. The information recorded in the village directory forms was cross checked with the data obtained from concerned departments, confirmed and made up-to-date.

The non-census data for each of the towns were obtained from the municipal authorities in case of municipal towns and for other towns the data were obtained from the concerned Nagar and Gram Panchayats. The information received from the concerned municipalities and panchayats was scrutinised and cross checked with other published official statistics for a few items where ever it was possible.

3. Note on Town Directory

A. The list of urban areas, for the purpose of 1971 Census, was finalised in consultation with the State Government. The following criteria were applied for the purpose of determining any area as an urban area.

(1) All places where there is a Municipal Corporation, or a Municipality or a town committee, or a Notified area or a Cantonment Board have been treated as urban areas.

(2) The remaining places were recognised as enjoying urban characteristics and declared urban areas only if the following conditions were fulfilled.

(a) The estimated population at 1971 Census should be at least 5000.

(b) The density of population per sq. kilometre should not be below 400.

(c) 75 per cent of the male working population should follow non-agricultural pursuits, and,

(d) In the opinion of the Director of Census Operations any other place where predominant urban characteristics are noticed.

B. The town directory has been complied in the following seven statements for all the urban areas of a District. For presentation of the data all the towns of a district are arranged in alphabetical order. In Appendix I to the Town Directory all the towns of a district are arranged according to their location code numbers. The details of the data covered in these statements are given below :—

Statement I

Statement I gives the details relating to the status of the towns, growth history of towns since 1901 and their functional categories of towns in 1961 Census and 1971 Census.

Statement II

This statement gives details of physical aspects and location of the towns. Under physical aspects are given details relating to altitude of the towns (in metres) annual rainfall (in m. ms) and minimum and maximum temperature (in centigrade). The statement also gives the details of distance of the towns from the nearest city with population of 1 lakh and above, from State Headquarters, from District Headquarters, subdivisional and Taluka Headquarters, from the nearest railway station and bus route. It also gives the details as to whether or not the town has

a navigable river or canal within 10 km. and the name of sea port within 50 km.

Statement III

This statement gives details of civic finance for the year 1968-69. It covers the receipts under different heads like receipt through taxes, receipt derived from Municipal property and powers, Government grant, loans, advances and other sources. It also covers the items of expenditure on different heads like general administration, public safety, public health and convenience, public works, public institutions and others.

Statement IV

This statement gives details about civic and other amenities. It covers information on the type of road with length, system of sewerage/drainage, number of latrines by types, method of disposal of night soil, source and capacity of protected water supply and availability of fire fighting services. The statement also gives details of the number of electric connections by types.

Statement V

This statement gives details relating to medical, educational, recreational and cultural facilities in the town. Details relating to medical institutions by types and the number of beds in each type of institutions are also covered. Details regarding different types of educational institutions are given. It also covers details relating to facilities of stadia, cinemas, auditoria or drama halls and libraries.

Statement VI

This statement covers the details relating to trade, commerce, industry and banking. The statement gives details of three most important commodities imported in the town, three important commodities exported from the town and three important commodities manufactured in the town. It also gives details of the number of banks and cooperative credit societies.

Statement VII

This statement gives the population of the town by religion. Data for this table is extracted from 1971 Census data.

C. In Bhavnagar district 14 areas have been declared as urban areas during 1971 Census. During 1961 Census there were 13 urban areas. Vartej has been classified as town for the first time during 1971 Census. No town of 1961 Census has been declassified during 1971 Census.

D. There are no town agglomerations in the district. However, three towns viz., Bhavnagar, Mahuva and Savarkundla have outgrowths in their surrounding areas. A list of such outgrowths is given in Appendix II to the Town Directory.

Details of Standard Urban Areas in the district are as under :—

District	Standard Area and Component Units	Civic Status	Area in Km².
1	2	3	4
Bhavnagar	Total Bhavnagar (SUA)		N. A.
	Urban Components		
	Bhavnagar City		N. A.
	Bhavnagar	M	90.16
	Ruva Village (Part)		N. A.
	Vartej	V. P.	20.46
	Total Urban group		N. A.
	Rural Components		
	Nari		12.84
	Sampara		3.16
	Sidsar		12.76
	Adhewada		9.76
	Malanka		5.07
	Tarsmiya		1.85
	Akwada		66.27
	Ruva		6.12
	Chitra, Fulsar	Included in the limits of Bhavnagar Municipality.	
	Total Rural group		117.83

Note on Statement I

Townwise details relating to status, growth history and functional categories are given by arranging the towns in alphabetical order. The civic administration status of each town has been recorded in column 5 of the statement by using the following abbreviations.

Status	Abbreviation
1. Corporation	C
2. Municipality	M
3. Town Committee/Town Area Committee/Board	TC
4. Notified area Committee/ Council	NAC
5. Cantonment Board	CB
6. Nagar Panchayat/Panchayat	P
7. Non-municipal/Non-Town Committee/Non-Panchayat Committee	NM

Five towns in the district have municipalities and 9 towns have panchayats. (Two towns have nagar panchayats and 7 have gram panchayats). With the implementation of the Panchayat Act in Gujarat from 1-4-1963 places having a population of more than 10,000 but less than 20,000 have been given the status of Nagar Panchayats and those having a population of less than 10,000 persons have been notified as Gram Panchayats. It can be seen from the statement that there is only one town in the district having a population of more than one lakh. There is no town having a population between 50,000 and 99,999. There is no change in the number of towns having a population of more than 20,000 but less than 50,000 which numbered 4 in 1961. Those having a population of more than 10,000 but less than 20,000 number four as against one in 1961 and those having a population of more than 5,000 but less than 10,000 are 5 as against 6 in 1961. There is no town having a population below 5,000 during 1971 as against one during 1961 Census.

Columns 14 and 15 of the Statement give the functional category of the towns according to 1961 Census and 1971 Census. The method adopted for determining the functional category is uniform for 1961 (Atlas Volume) and 1971 Census. The functional categories are worked out on the basis of the following formula.

The nine Industrial Categories of workers adopted in 1971 Census are grouped into five sectors as follows.

		Categories
(1)	Agricultural and its allied activities	I, II, III & IV
(2)	Industrial including construction	V, VI
(3)	Trade & Commerce	VII
(4)	Transport, Storage & Communications	VIII
(5)	Other Services	IX

The percentage of workers under each of the above five groups to total working population is worked out for each town. These towns are then classified according to their percentage values which will determine the characteristic of the town as Primary activity industrial, commercial, transport and service, etc., on the following basis.

(i) If one sector of the economy absorbs more than two-fifth of the total working population (i. e. more than 40 per cent) then the town would be designated by that particular industrial category which is found predominant, e. g. Industrial, commercial, transport, service or primary.

(ii) If the percentage falling under any one industrial category is less than 40, then the next predominant industrial category is taken into account, so that their total reaches three fifths of the working population i. e. 60 per cent. Such a town would then be designated as industry-*cum*-service town or commerce-*cum*-transport town etc., as the figures may indicate.

(iii) If the total of any two categories does not come upto 60 per cent, then the third predominant industrial category in order of merit is taken into account and after 60 per cent of the working population is accounted for the town is designated as industry-*cum*-service-*cum*-transport town and so on.

On the above basis each of the towns has been assigned functional categories. Table No. 1 below gives the distribution of towns by different functional categories. It would be seen that four towns have one functional characteristic, five towns have two and rest five have three characteristics.

TABLE No. 1

Distribution of towns by functional categories

Functional Category 1971	Number of Towns
1	2
1. One Characteristic :	
(a) Primary activities	4
	4
2. Two Characteristics :	
(a) Primary activities-*cum*-Industry	1
(b) Industry-*cum*-Primary activities	1
(c) Industry-*cum*-Services	2
(d) Services-*cum*-Commerce	1
	5
3. Three Characteristics :	
(a) Primary activities-*cum*-Industry-*cum*-Commerce	1
(b) Industry-*cum*-Primary activities-*cum*-Commerce	1
(c) Commerce-*cum*-Services-*cum*-Primary activities	1
(d) Transport-*cum*-Services-*cum*-Industry	1
(e) Services-*cum*-Commerce-*cum*-Industry	1
	5
Total	14

Note on Statement II

This statement gives the physical aspects and the location particulars of towns. Particulars regarding data on the altitude of the towns have been obtained from the Director, Survey of India, Western Circle, Abu. Details regarding temperature and rainfall have been obtained from

the Director General of Observatories, Meteorological Department, Government of India and the Regional Meteorological Centre, Colaba, Bombay. However, data on rainfall and temperature were not available from the above offices for many towns. In such cases data have been collected from local sources, and remarks to that effect are given at the footnote of the statement.

The District can be conveniently divided into two parts, the western part comprising of two ranges of scattered hills, one running across Savarkundla and Palitana talukas and the other located on the western border of Botad and Gadhada talukas. In contrast to this the eastern part comprising of Bhal and coastal areas is flat and low lying. The towns falling in the western tract are Savarkundla, Paliyad, Botad, Gariadhar, Gadhada and Palitana which are on higher altitude. The maximum altitude is at Savarkundla (155 metres) and the minimum (57.91 metres) at Palitana. The towns in the eastern tract are Vallabhipur, Umrala, Sihor, Vartej, Bhavnagar, Ghogha, Talaja and Mahuva. The maximum altitude is found at Sihor (38.71 metres), the lowest being at Ghogha (5 metres). The rainfall varies considerably from town to town. The minimum rainfall (133 m. m.) was recorded at Botad whereas the maximum (750 m. m.) was recorded at Paliyad, during the year 1969. The climate of the district as a whole is extreme except the coastal areas in the south-west parts of Mahuva and Talaja talukas where it is temperate. In the interior parts of the district, especially in the hilly tracts the climate is hot and arid in summer and cold in winter. The temperature rises above 40° C in summer. The mercury goes down below 10° Centigrade during winter. (9.3° C at Vallabhipur in the year 1969).

Road distance of Bhavnagar, the district headquarter as well as the nearest city having more than one lakh population, from the towns of the district varies from a minimum of 10 km. (Vartej) to a maximum of 153.0 km. (Savarkundla). 6 towns are within 50 km. from Bhavnagar whereas 4 towns are within 100 km. from this city. Rest of the towns are more than 100 km. away from Bhavnagar. Gandhinagar the State Headquarters is far away from all the towns of the district. The nearest town from Gandhinagar is Umrala (194 km.). The only other town within 200 km. from the State Headquarters is Vallabhipur (195.4 km.). 7 towns are within a distance group of 200 to 300 km. from Gandhinagar. The farthest town from Gandhinagar is Mahuva (382.0 km.). 5 towns of the district are not connected by rail. Gariadhar town is far off (25.0 km.) from its rail head Damnagar, whereas Dhola the rail head for Umrala town is at a distance of 8 km. only. The distance from the respective rail heads for the rest of the towns varies from a minimum of 16.0 km. to a maximum of 19.0 km. All the towns are connected by bus. There is no navigable river or canal in the district. There are as many as 4 intermediate/minor ports in the district. They are Bhavnagar, Ghogha, Sartanpur (known as Talaja-Sartanpur) and Mahuva. Palitana, Sihor, Umrala, Vallabhipur and Vartej are within 50 km. from one or the other port of the district. Rest of the towns are more than 50 km. away from the ports.

Note on Statement III

This statement gives details of town finance. In district five towns have municipalities, two town have Nagar Panchayats and seven towns have Gram Panchayats. The following table shows the per capita receipt and expenditure by size class of town.

TABLE No. 2

Per capita receipt and expenditure by size class of towns

Size Class of Town	No. of Towns	Per capita Receipt (Rs.)			Per capita Expenditure (Rs.)			
		Total Receipt	Receipt through taxes	Receipt from all other sources	Total expenditure	Expenditure on public health and conveniences	Expenditure on public institutions	Expenditure on all other aspects
I 100,000 and over	1	45.22	18.67	26.55	44.31	14.83	...	29.48
II 50,000 to 99,999	...	...	...	...	...	...	...	...
III 20,000 to 49,999	4	51.04	17.27	33.77	50.78	14.17	7.48	29.13
IV 10,000 to 19,999	4	23.75	12.30	11.45	28.19	4.58	2.04	21.57
V 5,000 to 9,999	5	11.41	5.39	6.02	10.72	2.04	2.61	6.07
VI Below 5,000	...	...	...	...	...	...	...	...

It would be seen from the above table that the per capita total receipts is highest in Class III towns, being Rs. 51.04 followed by Class I towns wherein it is Rs. 45.22. The per capita total receipts falls considerably in Class IV and Class V towns. Per capita receipts through taxes diminishes *pari passu* with decrease in the population size of the towns. It is highest in Class I towns (Rs. 18.67) closely followed by Class III towns (Rs. 17.27). The lowest per capita receipts through taxes is found in Class V towns where it is Rs. 5.39. Per capita receipts from all other sources is highest in Class III towns (Rs. 33.77) followed by Class I town (Rs. 26.55). The lowest per capita receipts from other sources is lowest in the Class V towns (Rs. 6.02). It would also be seen from the expenditure side of the table that the per capita expenditure is highest in Class III towns being Rs. 50.78. It is followed by Class I town in which it is Rs. 44.31. The lowest per capita expenditure is found in the Class V towns (Rs. 10.72). The per capita expenditure on public health and conveniences diminishes *pari passu* with the decline in population size of towns. The highest expenditure is recorded in Class I town (Rs. 14.83) closely followed by Class III towns (Rs. 14.17). It falls heavily in Class IV and Class V towns being very low in the Class V towns (Rs. 2.04 only).

As regards expenditure on public institutions, it is observed that the per capita expenditure on public institutions is highest in Class III towns (Rs. 7.48). It is very low in Class IV towns (Rs. 2.04) and Class V towns (Rs. 2.61). A diminishing trend is observed regarding expenditure on other aspects, the highest being in Class I towns (Rs. 29.48) closely followed by Class III towns (Rs. 29.13). The lowest (Rs. 6.07) is noticed in Class V towns.

Note on Statement IV

Statement IV shows the civic and other amenities available in the town. The following abbreviations are used in the statement.

Column 3

Road Length	Abreviation
1. Pucca Road	PR
2. Kutcha Road	KR

Column 4

System of sewerage/drainage

1. Sewer	S
2. Open Surface Drainage	OSD
3. Kutcha Drainage	KD
4. Cess Pool	CS
5. Pit System (or soak pits)	PT

Column 8

Method of disposal of night soil

1. Head Load	HL
2. Baskets	B
3. Wheel Barrows	WB
4. Septic Tank Latrines	ST
5. Sewerage	S
6. Soak Pits or Leaching Pits	PT
7. Tractor, Trailor, Trolleys or Night Soil Tankers	T

Column 9

Source of protected water supply

1. Tap Water	T
2. Tube Well	TW
3. Well Water	W
4. Tank Water	TK
5. River	R
6. Fountain	F
7. Canal	C
8. Others	O

'It would be seen from the statement that 6 towns in the district have sewers for drainage of waste water. Two towns have open surface drainage system whereas four towns have soak pit system for drainage of waste water. Two towns viz., Palitana and Paliyad have no sewerage/ drainage system. It would also be seen from columns 5, 6 and 7 that water borne latrines are found in all towns except Vallabhipur. In most of the towns water borne latrines outnumber service latrines. In Bhavnagar, Gariadhar, Palitana and Savarkundla, however, other types of latrines show preponderance over water borne latrines. Sewers for disposal of night soil are found in 4 towns viz., Bhavnagar, Botad, Mahuva and Talaja, whereas wheel barrows are used to transport night soil in three towns. Tractor trailors or night soil tankers are used in four towns. Head load system is prevalent in only one town viz., Paliyad. Septic tank latrines are noticed in Gadhada town, which by themselves solve the problem of disposal of night soil.

Tap water is provided in seven towns, whereas wells provide drinking water in five towns. In one town drinking water is provided by tanks. Only one town viz., Ghogha has no protected water supply. Fire fighting service is available in 8 towns. Six towns viz., Gadhada, Gariadhar, Ghogha, Paliyad, Umrala and Vartej are devoid

of this facility. All the towns of the district are electrified.

Details regarding domestic, commercial. industrial and other connections are given in the statement. The following definitions have been applied for each of the terms used :—

1. Domestic

(i) Heat and Power

Service to a household : supply to cooking ranges, refrigerators, air conditioners, etc., used in the household.

(ii) Lights and Fans

Service to a house which needs only lighting and fan connections.

2. Commercial

(a) Heat and Power

The same as 1 (i) except that the use is for commercial purposes i. e. shops, restaurants, etc.

(b) Lights and Fans

Same as 1 (ii) above except that the use is for commercial purposes i. e. shops, restaurants, etc.

3. Industrial

Power service to any installation at

(i) Low and Medium voltage

Upto 100 HP load for use in establishments such as flour mills, oil mills, ice factories, etc.

(ii) High voltage

Connections given for industrial purpose at a voltage of 11 KV and above.

4. Street lighting

Power service given for providing light in the streets of village or town.

5. Others

(i) Irrigation and Agricultural dewatering

Power given to farmers for pumping water for agricultural purpose.

(ii) Public water supply and sewerage pumping

Power service given for pumping and/or preparation of potable water supply in villages/towns and for pumping sewerage in the villages or towns.

Note on Statement V

The statement gives details relating to medical, educational, recreational and other cultural facilities in the town. In the case of medical institutions only Government, Semi-Government and charitable institutions have been covered. The abbreviations used in the statement to denote the various types of medical and educational institutions are explained below ;—

Column 3

Type of medical institutions	Abbreviation
1. Hospital	H
2. Dispensary	D
3. T. B. Clinic	TBC
4. Health Centre	HC
5. Nursing Home	NH
6. Maternity Centre	M
7. Child Welfare Centre	CW
8. Family Planning Centre	FC
9. Other Medical Institutions	O

Column 5

Type of College	Abbreviation
1. Arts College only	A
2. Science College only	S
3. Commerce College only	C
4. Arts & Science College only	AS
5. Combined Arts Science and Commerce College	ASC
6. Arts & Commerce College only	AC
7. Law College	L
8. Law & Education College	LE

There is no town without one or the other type of medical facility Hospital facilities are available in five towns Four towns have maternity centres, one town has tuberculosis clinic. Eleven towns have family planning centres and an equal number of towns have health centres The following table gives particulars of the number of beds available in each town.

TABLE No. 3

Medical Facilities

Sl. No.	Name of Town	No. of beds in medical institutions	No. of beds per 1000 population
1.	Bhavnagar	839	3.71
2.	Botad	28	0.87
3.	Gadhada	11	0.92
4.	Gariadhar	10	0.94
5.	Ghogha	...	...
6.	Mahuva	121	2.91
7.	Palitana	35	1.28
8.	Paliyad	...	...
9.	Savarkundla	71	1.81
10.	Sihor	20	1.08
11.	Talaja	12	1.20
12.	Umrala	...	...
13	Vallabhipur	30	3.64
14.	Vartej	8	1.23
	Total	1,185	2.64

The total number of beds in the medical institutions of the towns of the district number 1.185. The highest number of beds (839) is to be found in Bhavnagar, followed by Mahuva (121) and Savarkundla (71). The rest of the towns have beds varying from a minimum of 8 in Vartej to a maximum of 35 at Palitana. It can be seen that Vartei, Gariadhar, Gadhada, Talaja and Sihor are lowest in the ladder. The District average for all the towns shows that there are 2.64 beds per 1000 population. Bhavnagar, Mahuva and Vallabhipur, are above the district average whereas the rest of the towns are below the district average.

No town of the district has a medical or an Engineering College. Only Bhavnagar City has a Polytechnic. Only three towns have non-technical colleges. Rest of the towns are devoid of any college facilities. Five towns have other recognised shorthand, typewriting or other such vocational institutions.

Primary and Secondary school facilities are available in all the towns of the district. The following table gives details of the number of Primary and Secondary schools per 1000 population.

TABLE No. 4

Higher Secondary and Primary schools per 1000 population

Sl. No.	Name of the Town	Number per 1000 population: Higher Secondary school	Number per 1000 population: Primary school
1.	Bhavnagar	0.119	0.252
2.	Botad	0.031	0.311
3.	Gadhada	0.167	0.418
4.	Gariadhar	0.094	0.376
5.	Ghogha	0.153	0.613
6.	Mahuva	0.072	0.337
7	Palitana	0.146	0.402
8.	Paliyad	0.174	0.348
9.	Savarkundla	0.077	0.357
10.	Sihor	0.108	0.646
11.	Talaja	0.200	0.599
12.	Umrala	0.198	0.396
13.	Vallabhipur	0.121	0.364
14.	Vartej	0.153	0.307
	Average	0.111	0.325

The average number of higher secondary schools per 1000 population for all the towns is 0.111. It can be seen that the following towns viz., Bhavnagar, Gadhada, Ghogha, Palitana, Palivad. Talaja, Umrala, Vallabhipur and Vartej are above this average whereas the remaining are below the average.

The average number of primary schools per 1000 population for all the towns comes to 0.325. Eleven towns are above the average whereas only Bhavnagar, Botad and Vartej fall below the average.

Only two towns of the district have a stadium each. Cinemas are found in six towns only. Auditoria or drama halls are found in five towns. Public libraries are available in all the towns except Ghogha and Paliyad.

Notes on Statement VI

Statement VI gives details relating to trade, commerce, industry and banking in the towns. All the towns of the district have banking facilities. Agricultural as well as non-agricultural cooperative credit societies are also found in all the towns of the district except Paliyad and

Vartej where there are no non-agricultural credit societies. Being an intermediate port Bhavnagar is an important commercial and industrial centre. Important industries of Bhavnagar are textile and rayon mills, bone factories, sheet metal works, salt works, power looms, flour mills, saw mills, re-rolling mills, factories for the manufacture of vanaspati (hydrogenated groundnut oil), G. I. and hume pipes, fire crackers, nails, bicycle chains and spare parts. Numerous small engineering industries are also flourishing in Bhavnagar. Lacquered wooden toys and fruits, wooden chests and cart-wheels are well known handicrafts of Bhavnagar. Bones collected from various parts of the district and marine salt manufactured on the sea coast at and around Bhavnagar are important commodities exported.

The district is of one of the important groundnut producing area. One therefore finds oil mills in almost all the towns of the district. Groundnut oil is manufactured in as many as seven towns of the district.

Mahuva is minor port dealing mainly in coastal traffic. Groundnut oil is the most important commodity manufactured in this town. Mahuva is also well known for its handicrafts of lacquered wood work and toys, ivory work, handloom cotton textiles and cart wheels. Savarkundla is also famous for its hand-woven rugs, woollen blankets, *khadi*, *charkha* and iron articles. It specialises in manufacture of iron scales which are exported all over India. Sihor is famous for its snuff and brass and copper ware. It has a pottery works well known for manufacture of sanitary-ware and oil mills.

Other commodities manufactured in the towns of the district are oil engines in Botad and Mahuva, gur and khandsari in Gariadhar and handloom cloth and silver ornaments in Umrala.

The district is also a cotton producing area and one finds cotton exported from six towns of the district. Timber, cocoanut and mango is exported from Mahuva whereas fish is exported from Ghogha. Wheat is an important commodity exported from Vallabhipur which is situated in the Bhal tract well known for quality Wheat production.

It would also be seen that in most of the towns the articles of daily consumption like foodgrains, sugar, cloth and cutlery are important commodities imported.

Notes and Explanations on Village Directory

A brief outline on each of the statement of the Town Directory has been given in the earlier pages. The Handbook also incorporates, besides the town directory, villagewise particulars regarding different types of amenities and land use data for 1969 for each of the villages in the district in the village Directory Section of the Handbook. In Bhavnagar district there are 889 villages distributed in 12 talukas. The following is the distribution of the villages in the various Talukas/Mahals of the District :—

Sl. No.	Name of Taluka/Mahal	Number of Villages
1	Bhavnagar	59
2	Ghogha	47
3	Talaja	118
4	Mahuva	133
5	Palitana	93
6	Umrala	42
7	Vallabhipur	59
8	Sihor	80
9	Botad	51
10	Gariadhar	51
11	Gadhada	75
12	Kundla	81
	Total	889

Only two talukas cover more than 100 villages, whereas the remaining talukas have less than 100 villages each. Mahuva taluka has the largest number of villages with 133 whereas Umrala has the least number of villages with only 42.

The following abbreviations have been used in the Village Directory Section of the Handbook for the terms listed in col. 2 of the statement below :—

Column Number	Item	Abbreviation
4	Primary School	Pr.S
	Secondary School	Sec.S
	College	C
	Industrial School	IS
	Training School	Tr.S
	Other Educational Institutions	OS
5	Hospital	H
	Maternity Home/ Centre	M
	Child Welfare Centre	CW
	Health Centre	HC
	Dispensary	D
	Family Planning Centre	FC

Column Number	Item	Abbreviation
6	Electricity for any purpose	E
	Electricity for agricultural purpose only	E(Ag)
7	Tap Water	T
	Well	W
	Tank	Tk
	Tube Well	TW
	River	R
	Fountain	F
	Canal	C
	Other	O
	Not Available	N. A.
8	Pucca Road	PR
	Kutcha Road	KR

	Whole Year	WY
	Fair Season	FS
9	Post Office	PO
	Telegraph Office	TO
	Post & Telegraph Office	PTO
	Telephone	Phone
12	Government Canal	C
	Private Canal	C
	Tube Well	TW
	Other Wells	W
	Tank	Tk
	River	R
	Waterfall	WF
	Other Sources	O

(a) Taluka abstract of amenities

A talukawise Abstract of the educational, medical and other amenities available at the villages is given in an Appendix to the Village Directory. It can be seen from the Abstract that 853 villages have primary school facilities. There are thus only 36 villages without primary schools of which 10 are deserted villages. The details of villages without a primary school are as follows :—

Sl. No.	Name of Taluka/ Mahal	Number of villages without primary school	Number of deserted villages
1	Bhavnagar	5	1
2	Ghogha	1	...
3	Talaja	6	2
4	Mahuva	4	...
5	Palitana	3	1
6	Umrala	...	...
7	Vallabhipur	6	4
8	Sihor	5	1
9	Botad	2	...
10	Gariadhar	2	1
11	Gadhada	1	...
12	Kundla	1	...
	Total	36	10

Only 35 villages or 3.98 per cent of the total villages of the district have secondary schools and 54 or 6.14 per cent of the total have other educational institutions.

It can be seen that only 123 villages or 14.0 per cent have dispensaries. Only one village has the facility of hospital and 13 villages have maternity homes. Only 17 villages have child welfare centres. 44 villages have primary health centres (including sub-centres) and 45 villages have family planning centres. Thus only a limited number of villages in the district have medical facilities.

Only 166 or 18.89 per cent of the total villages of the district are electrified.

Ordinary surface wells are the main source of drinking water facility. Only 104 villages or 11.83 per cent of the total have tap water supply. Other sources of water supply include tanks (131 villages) and rivers (300 villages).

Only 182 villages or 20.71 per cent of the total are connected with pucca road. 346 villages or 39.36 per cent have post offices, and only 9 villages have both post and telegraph offices. 17 villages in the district have telephones.

(b) Bus Facilities

The details of villages connected by bus services have been incorporated in the village directory. Bus facility is considered to be available at the village if a bus stop is available within one mile from the village.

The following table shows that just a little over a quarter (25.6 per cent) of the villages are connected by bus services throughout the year. The percentage of villages having this amenity only during the fair season is 44.25 per cent. There are 265 other villages (30.15 per cent of the total villages) devoid of this amenity. A taluka-wise break up of villages enjoying this amenity throughout the year and during the fair season only is given below.

Villages Connected by Bus Services

Name of Taluka/ Mahal	Total No. of inhabited villages	No. of villages having bus facilities for the whole year	No. of villages having bus facilities during fair season only	No. of villages without bus facilities
1	2	3	4	5
Bhavnagar	58(100)	21(36.21)	35(60.34)	2(3.45)
Ghogha	47(100)	15(31.92)	11(23.40)	21(44.68)
Talaja	116(100)	18(15.52)	53(45.69)	45(38.79)
Mahuva	133(100)	51(38.34)	52(39.10)	30(22.56)
Kundla	81(100)	23(28 40)	58(71.60)	...(...)
Gariadhar	50(100)	7(14.00)	43(86.00)	...(...)
Palitana	92(100)	9(9.78)	2(2.17)	81(88.05)
Sihor	79(100)	20(25.32)	29(36.71)	30(37.97)
Umrala	42(100)	9(21.43)	24(57.14)	9(21.43)
Ghadhada	75(100)	20(26.67)	35(46.66)	20(26.67)
Botad	51(100)	21(41.18)	20(39.21)	10(19.61)
Vallabhipur	55(100)	11(20.00)	27(49.09)	17(30.91)
Total @	879(100)	225(25.60)	389(44.25)	265(30.15)

(@ 10 uninhabited villages are not included).

(Figures in brackets indicate percentage of total villages in each taluka).

It would be seen that the percentage of villages connected by bus services throughout the year varies from a minimum of 9.78 per cent in Palitana taluka to a maximum of 41.18 per cent in Botad taluka. Bhavnagar taluka (36.21 per cent), Ghogha taluka (31.92 per cent), Mahuva taluka (38.34 per cent), Kundla taluka (28.40 per cent), Gadhada taluka (26.67 per cent) and Botad taluka (41.18 per cent) are above the district average while the remaining talukas fall below the district average.

It would be also seen that quite a large number of villages enjoy bus facilities only during fair season. The percentage of such villages varies from a minimum of 2.17 per cent in Palitana taluka to a maximum of 86.00 per cent in Gariadhar taluka. Bhavnagar, Talaja, Kundla, Gariadhar, Umrala, Gadhada and Vallabhipur are above the district average whereas the rest fall below it.

There are 265 villages in the district which do not yet enjoy this amenity throughout the year. It would be seen that Palitana (81 villages) Talaja (45 villages), Mahuva (30 villages) and Sihor (30 villages) have significant number of villages without this facility. In Kundla and Gariadhar talukas there is no such village while in the rest of the talukas it varies from 2 in Bhavnagar taluka to 21 in Ghogha.

(c) Distribution of villages by area

The distribution of villages by their areas is given in the following table in 8 size groups.

TABLE No. 5

Distribution of the villages by their areas in acres

Sl. No.	Area in Acres	Number of villages
1	2	3
1.	50 Acres or less	...
2.	51 — 100	...
3.	101 — 200	1 (0.11)
4.	201 — 500	17 (1.94)
5.	501 — 1000	104 (11.85)
6.	1001 — 2000	329 (37.47)
7.	2001 — 5000	356 (40.55)
8.	5001 acres and above	71 (8.08)
	Total @	878 (100.00)

@ Total number of villages in the district are 889. 11 villages whose area is amalgamated with other villages are not included.

(Figures in brackets indicate percentage.)

It would be seen from the above table that highest number of villages are in the 2001-5000 acres group accounting for more than 40 per cent of the total number of villages. 329 or 37.47 per cent of the total villages fall in the area group 1001-2000. These two groups together account for 78 per cent of the total villages. 11.85 per cent villages fall within the acre group 501-1000. Only 18 or 2.05 per cent villages have area below 500 acres, whereas only 8.08 per cent villages have area more than 5000 acres. There are no villages having area less than 200 acres.

(d) Distribution of Villages by educational amenities

Table No. 6 below shows the distribution of villages having educational amenities by distance from the nearest town.

TABLE No. 6

Distribution of villages having educational amenities by distance from the nearest town

Sl. No.	Distance from the nearest town	Number of villages	Number of villages having: Primary school	Middle school	Higher secondary school	College	Others
1	5 km. or less	81	79 (97.53)	...	...	...	9 (10.84)
2	6 — 10 km.	200	193 (96.50)	...	8 (4.00)	...	18 (9.00)
3	11 — 15 km.	216	211 (97.69)	...	10 (4.63)	...	13 (6.02)
4	16 — 25 km.	250	241 (96.40)	...	13 (5.20)	1 (0.40)	12 (4.80)
5	26 — 50 km.	130	128 (98.46)	...	4 (3.08)	...	2 (1.54)
6	51 — 100 km.	2	1 (50.00)	...	...	...	...
7	101 — 200 km.	...	...	...	...	...	...
8	201 km. and above	...	...	...	...	...	...
	Total	@ 879	853 (97.04)	...	35 (3.98)	1 (0.11)	54 (6.14)

@ (10 uninhabited villages are not included)
Figures in brackets indicate percentage to total number of villages in each distance group.

It would be seen from the table that the percentage of villages having primary schools in each group to the total number of villages in that group increases *pari passu* with the increase in distance from the nearest town except distance group of 16 to 25 km. It is 97.53 in the first group (less than 5 km.) whereas it is 98.46 in the distance group 26 to 50 km. Similarly it would be seen that the proportion of villages having secondary schools increases *pari passu* with the increase in distance of villages from the nearest town upto the distance group of 16 to 25 km. the highest percentage being in the same group (5.20). There are no secondary schools in the first and last three distance groups. A definite diminishing trend is observed, however, in case of other schools where it is found that the highest percentage is in the villages within a distance of 5 km. from the nearest town (10.84) and gradually diminishes as the distance from the nearest town increases and reaches the lowest point (1.54) in the distance group of 26.50 km.

(e) Medical facilities

Distribution of medical institutions per 100 sq. km. is given in the following table.

TABLE No. 7

Medical facility per 100 sq. km.

Sl. No.	Name of Taluka/ Mahal	Total area (in sq. km.)	No. of medical institutions of any kind per 100 sq. km.
1	Bhavnagar	1,462	0.9
2	Ghogha	437	2.3
3	Talaja	870	3.9
4	Mahuva	1,220	2.7
5	Kundla	1,209	3.3
6	Gariadhar	485	4.3
7	Palitana	735	1.5
8	Sihor	721	4.4
9	Umrala	407	3.2
10	Gadhada	897	1.1
11	Botad	749	1.9
12	Vallabhipur	594	2.0

It would be seen that the highest number of medical institutions per 100 sq. km. is 4.4 in Sihor taluka closely followed by Gariadhar taluka (4.3) and Talaja taluka (3.9). The lowest number of medical institutions per 100 sq. km. is found in Bhavnagar taluka where it is only 0.9. It would also be seen that Gadhada, Palitana and Botad talukas alongwith Bhavnagar taluka are lowest in the ladder. Rest of the talukas have medical institutions per 100 sq. km. varying from a minimum of 2.0 in Vallabhipur Mahal to a maximum of 3.3 in Kundla taluka.

(f) Electricity

Only 166 villages have electricity. The distribution of these villages by their distance from the nearest town is as under :—

TABLE No. 8

Distribution of villages with electricity and distance from the nearest town

Sl. No.	Distance from the nearest town	Total No. of villages	No. of villages with electric power supply
1	2	3	4
1	5 km. or less	81	28 (34.57)
2	6 — 10 km.	200	46 (23.00)
3	11 — 15 km.	216	41 (18.98)
4	16 — 25 km.	250	41 (16.40)
5	26 — 50 km.	130	10 (7.69)
6	51 — 100 km.	2	...
7	101 — 200 km.	...	...
8	201 km. and above	...	...
	Total	@ 879	166 (18.89)

@ 10 uninhabited villages are not included.
(Figures in brackets indicate percentage to total number of villages in each distance group).

It would be seen that the percentage number of villages with power supply to the total number of villages in each distance group diminishes *pari passu* with the increase in the dis-

tance from the nearest town, the highest percentage being in the villages within a distance of 5 km. from the nearest town (34.57) followed by the next distance group of 6-10 km. being 23.00. The lowest percentage is found in the distance group of 26-50 km. (7.69).

(g) Communications

The following table gives the distribution of villages having different types of communication facilities by distance from the nearest town.

TABLE No. 9

Distribution of villages with different communication facilities and distance from the nearest town

Sl. No.	Distance from the nearest town	No. of villages	Number of villages connected by					
			Pucca Road	Kutcha Road	Pucca road and river	Pucca road and rail	Kutcha road and rail	Others
1	2	3	4	5	6	7	8	9
1	5 km. or less	81	22 (27.16)	52 (64.20)	..	5 (6.17)	2 (2.47)	..
2	6 — 10 km.	200	43 (21.50)	136 (68.00)	..	10 (5.00)	10 (5.00)	1 (0.50)
3	11 — 15 km.	216	38 (17.59)	161 (74.54)	..	4 (1.85)	13 (6.02)	..
4	16 — 25 km.	250	36 (14.40)	198 (79.20)	..	10 (4.00)	6 (2.40)	..
5	26 — 50 km.	130	12 (9.23)	114 (87.69)	..	2 (1.54)	2 (1.54)	..
6	51 — 100 km	2	..	2 (100.00)	..	..	..	..
7	101 — 200 km.	..	..	..	..	..	..	..
8	201 km. and above	..	..	..	..	..	..	..
	Total	@ 879	151 (17.18)	663 (75.43)	..	31 (3.53)	33 (3.75)	1 (0.50)

@ 10 Uninhabited villages are not included.
(Figures in brackets indicate percentage of the total number of villages in each distance group)

It would be seen from the above table that the percentage of villages having pucca road facilities diminishes *pari passu* with the increase in the distance of villages from the nearest town. The highest (27.16) being in the villages within a distance of 5 km. from the nearest town followed by the next distance group of 6-10 km. where it is 21.50. The lowest percentage is found in the distance group of 26-50 km. (9.23). As regards the kutcha road facility it is observed that the percentage increases *pari passu* with the increase in the distance of villages from the nearest town the lowest being in the first distance group (64.20) and the highest being in the distance group of 50-100 km. (100.00 per cent).

In case of combined pucca road and rail facility a diminishing trend is observed with the increase in the distance from the nearest town, the highest percentage (6.17) being in the villages within a distance of 5 km. from the nearest town and the lowest (1.54) being in the distance group of 26-50 km. No trend is. however, observed in case of combined kutcha road and rail facility, wherein it would be seen that the highest percentage of villages having this facility is in the distance group of 11 to 15 km. (6.02), the minimum being in the distance group of 26-50 km. (1.54). It is also very low in the villages within 5 km. from the nearest town (2.47).

(h) Number of Post Offices

The following table gives the distribution of post offices per 100 sq. km.

TABLE No. 10

Number of Post Offices per 100 sq. km.

Sl. No.	Name of taluka/ Mahal	Total area in sq. km.	Number of post offices per 100 sq. km.
1	2	3	4
1	Bhavnagar	1,462	1.4
2	Ghogha	437	3.7
3	Talaja	870	3.8
4	Mahuva	1,220	4.2
5	Kundla	1,209	4.5
6	Gariadhar	485	5.4
7	Palitana	735	4.1
8	Sihor	721	3.1
9	Umrala	407	4.7
10	Gadhada	897	3.5
11	Botad	749	3.2
12	Vallabhipur	594	3.0

It would be seen from the above table that the highest number of post offices per 100 sq. km. is in Gariadhar taluka, followed by Umrala taluka (4.7), Kundla taluka (4.5), Mahuva taluka (4.2) and Palitana taluka (4.1). The lowest number of post offices per 100 sq. km. is in Bhavnagar taluka (1.4). In the rest of the talukas the number of post offices per 100 sq. km. vary from a minimum of 3.0 in Vallabhipur Mahal to a maximum of 3.8 in Talaja taluka.

(i) Staple Food

Bajri, Jowar and Wheat constitute the staple food of the District. Rice is also a staple food of some villages in Talaja, Mahuva, Sihor and Gariadhar talukas. The following figures give details of staple food in each taluka.

Distribution of Villages by staple food

Sl. No.	Name of taluka	Number of villages reporting staple food				
		Bajri	Jowar	Wheat	Rice	Maize
1	2	3	4	5	6	7
1	Bhavnagar	57	55	44	1	..
2	Ghogha	47	47	16	4	..
3	Talaja	117	103	92	42	..
4	Mahuva	133	108	98	44	..
5	Palitana	92	79	42	13	..
6	Umrala	42	39	41	5	..
7	Vallabhipur	48	52	54	..	..
8	Sihor	78	66	78	22	..
9	Botad	51	50	51	16	..
10	Gariadhar	49	42	47	33	..
11	Gadhada	75	75	74	9	..
12	Kundla	81	35	75	9	..

(j) Land use

The following table gives the percentage of average cultivable waste per village to average cultivated land per village by distance from the nearest town. The cultivable waste land includes pastures and grazing land and area under miscellaneous trees and groves but does not include orchards.

TABLE No. 11

Percentageof average cultivable waste per village to average cultivated land per village by distance group from the nearest town

Sl. No.	Distance from the nearest town	No. of villages	Total cultivated land (in acres)	Average cultivated land per village (in acres)	Total cultivable waste (in acres)	Average cultivable waste per village (in acres)	Percentage of average cultivable waste per village to average cultivated land per village
	2	3	4	5	6	7	8
1	5 km. or less	81	106,051	1,309.3	16,058	198.2	15.14
2	6 — 10 km.	200	332,676	1,663.4	51,185	255.9	15.38
3	11 — 15 km.	216	385,777	1,786.0	61,047	282.6	15.82
4	16 — 25 km.	250	455,082	1,820.3	92,554	370.2	20.34
5	26 — 50 km.	130	249,318	1,917.8	52,852	406.6	21.20
6	51 — 100 km.	2	4,051	2,025.5	199	99.5	4.91
7	101 — 200 km	..	..	..	..	..	..
8	201 km. and above	..	..	..	..	..	..
	Total	879	1,532,955	1,744.0	273,895	311.6	17.87
	uninhabited villages	10	4,881	..	1,371	..	..
	Grand Total	889	1,537,836	1729.8	275,266	309.6	17.90

It would be seen from column 5 of the table that the average cultivated land per village increases *pari passu* with the increase in the distance from the nearest town, the lowest being in the villages within a distance of 5 km. where it is 1309.3 acres per village, and the highest being in the distance group of 51-100 km. (2025.5 acres). Average cultivable waste per village also increases *pari passu* with the increase in the distance from the nearest town, with the exception in the distance group of 51 to 100 km. where it is lowest (99.5 acres). The highest average cultivable waste per village is found in distance group of 26-50 km. (406-8 acres).

The percentage of average cultivable waste per village to average cultivated land increases *pari passu* with the increase in the distance from the nearest town. It increases from 15.14 per cent in the first distance group of those situated within 5 km. to the nearest town to 21.20 in the distance group of 26-50 km. It is, however, exceptionally low in the distance group of 51-100 km. (4.91).

N. A.=Not available

Note :—

Rainfall and temperature data for Bhavnagar city have been obtained from the Director General of Observatories, Meteorological Department, Government of India. For the rest of the towns the data have been obtained locally.

As the temperature figures for Gariadhar town are not available the temperature figures of Palitana which is the nearest town have been adopted. Similarly, the temperature figures for Ghogha, Umrala and Vartej not being available, those of Bhavnagar have been adopted for Ghogha and Vartej and of Gadhada for Umrala.

Note :—
The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate number of Primary, Secondary and other Schools. The figures in bracket under Cols. 5 to 9 indicate the number of villages having those particular amenities.
The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—
The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.
The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

* Area of village Raliya is included in that of the village Gadhula (L. C. No. 105).

Note:—

The figures in the last line indicate taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other Schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :-

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

* Includes A. 1,986 G. 11 of Gangavada.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

PART X-B

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

Primary Census Abstract of 1971 Census provides information in respect of each village in rural area and town/ward/enumerator's block in urban area. It gives information about the area of the village in acres and towns in square kilometres, number of occupied residential houses and households, total population with sex break-up (including Houseless and Institutional Population) and population of Scheduled Castes and Scheduled Tribes, literate and educated persons. The entire population of each village/urban enumerator's block is divided into nine industrial categories of workers and non-workers as under :—

I Cultivators

II Agricultural Labourers

III Livestock, Forestry, Fishing, Hunting & Plantations, Orchards & Allied Activities

IV Mining and Quarrying

V Manufacturing, Processing, Servicing and Repairs
- (a) Household Industry
- (b) Other than Household Industry

VI Construction

VII Trade and Commerce

VIII Transport, Storage and Communications

IX Other Services

X Non-workers

The sexwise break-up of total workers (industrial category I to IX) have been presented, in addition to similar break-up for each industrial category of Worker and Non-worker.

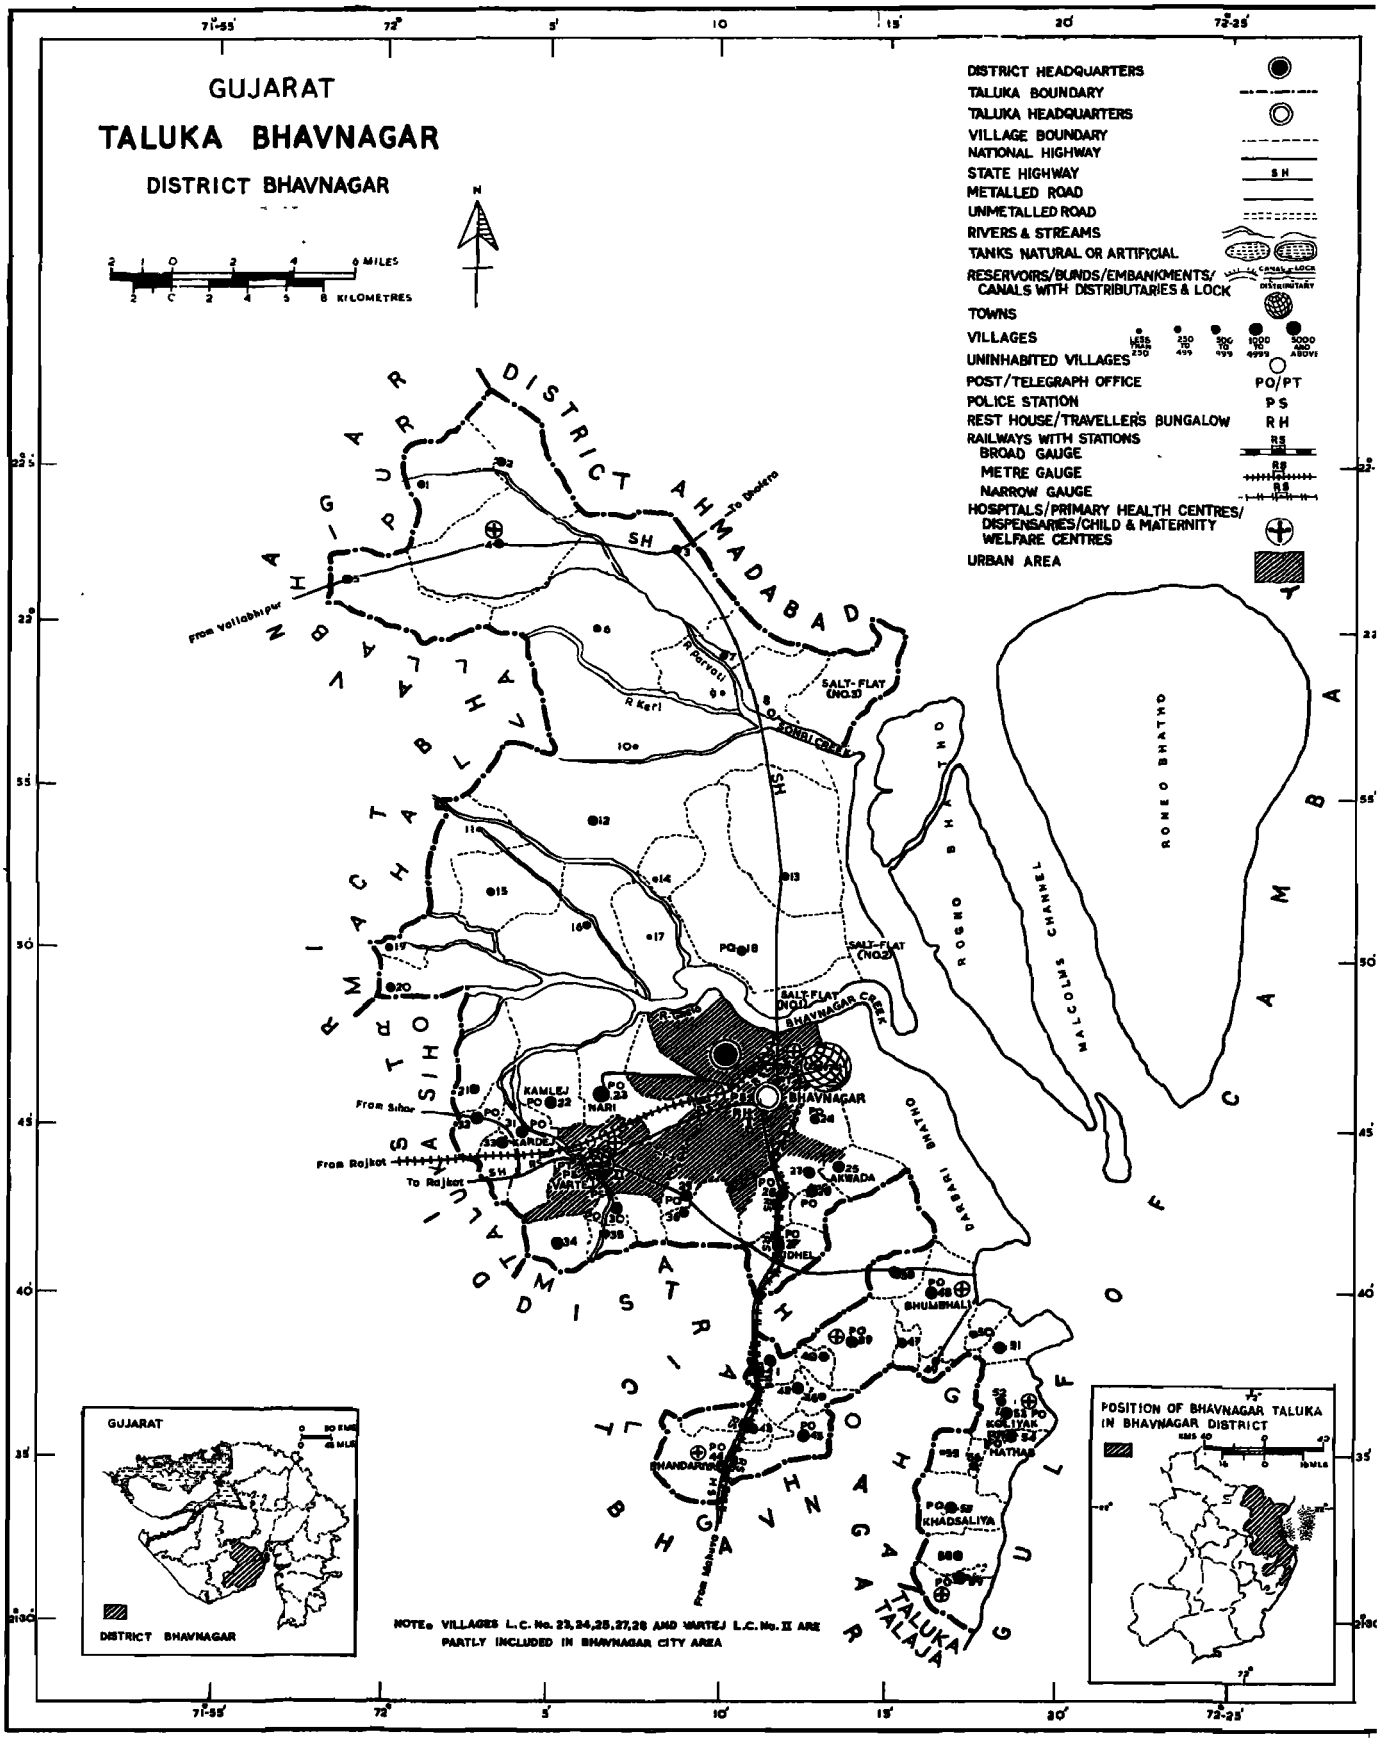

The following abbreviations have been used in the Primary Census Abstract for facility of presentation :-

1	Municipal Corporation	MC
2	Municipality	M
3	Non-Municipal Area	NM
4	Nagar Panchayat	NP
5	Village Panchayat	VP
6	Cantonment	Cantt.
7	Not Available	N A
8	Outgrowth	O G

The following conversion factor has been used for converting acres into Km.^{2}

Acres x 0.004047 = Km.^{2}

* These represent provisional 'geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local bodies. Area figures for rural area are derived by substracting the urban area from the total area of the District. The total of the area figures of the Talukas/Mahals will not tally with the district figures because the former represent 'land use' area and are derived from the figures supplied by the Director of Land Records.

** Includes area of Kharland No. 3.

† Includes area of Kharlands No. 1, 2 and 4 (Ragno-Bhatho).

†† 16 –00 Acres have been included in Bhavnagar City.

‡ 563–12 Acres have been included in Bhavnagar City.

‡‡ A part of this Village containing population 616 has been included in Bhavnagar City Agglomeration on page No. 24.

§Includes the area of Darbari Bhatho.

@ 151–27 Acres have been included in Bhavnagar City.
