INTRODUCTION.

District Bhatinda.

Physical Aspects.

Names and derivation.

The district takes its name from that of the town of Bhatinda also called Gobindgarh, an important railway junction on the South Punjab Railway. The district headquarters are, however, situated at Faridkot. Bhatinda is a town of great antiquity, as would appear from the following description taken from the Punjab states Gazetteer Vol. XVII-A of Phulkian states 1904.

"Bhatinda is of great antiquity but its earlier history is very obscure, it having been confused with Sirhind, Bhatia and Ohind. According to Khalifa Mohammad Hussain's History of Patiala, its ancient name was Bikramagarh, Bhatinda is said in the Hindu annals to have been Jaipal's Capital and place of residence, which Mahmud captured".

"Bhatinda was conquered by Maharaja Ala Singh with the aid of the Sikh confederacy in about 1754 A. D."

With the formation of the Patiala and East Punjab States Union on 5th May, 1948, the district of Bhatinda along with other seven districts, came into existance, on 20th August, 1948 with 3 Tahsils Faridkot, Bhatinda and Mansa. It consists of erstwhile Faridkot State two Tahsils Bhatinda and Mansa of the erstwhile Patiala State, and certain parts of esrtwhile Jind and Nabha States.

Boundaries and situation.

To its North lies the district of Ferozepur, to the South the district of Hissar, to the East the District of Barnala and Sangrur and the Sub-Division of Moga of the Ferozepur district and to the West Tahsil Muktsar of Ferozepur and Tahsil Sirsa of District Hissar.

The district is situated between 29° 32'-40" and 30° 50' 10" North and 74° 28'-20" and 75° 46'-35" East.

The greatest length of the district is 100 miles and the greatest width 42 miles.

Area.

According to the figures supplied by the Survey of India Department. The area of the district comes to 2312·8 square miles. Its population, according to the 1951 Census, has been ascertained to be 6,66,809 persons. In area as well as in population, the district stands first among the eight districts of the Patiala and East Punjab States Union.

The district is like a wedge in between Tahsils Muktsar and Sirsa of Ferozepur and Hissar district, respectively on the West and Tahsils Moga, Phul and Sunam of Ferozepur, Barnala, and Sangrur districts respectively on the East. The entire area is an alluvial plain and the soil is mostly sandy. Except for three branches namely Kotla Branch, Bhatinda Branch and Abohar Branch of Sirhind Canal, there are no other physical features which deserve any mention except the Dandah or the old bank of Sutlej River which separates Hithar from the Uttar. It is said that the River Sutlej once flowed a mile from Faridkot.

Geology.

The district is situated in the Trans-Gangetic Plain (Pepsu Division) and it is an alluvial plain which has no importance from geological point of view-

5. **Archaeology.**

There is a very large and an old fort at Bhatinda built on a raised ground. It is a square in shape each side being 660' long having 36 bastions nearly 118' high. There is a Gurdwara of Guru Gobind Singh inside the fort. The town of Faridkot has also an old fort which remained a bone of contention between rival chieftains for centuries. The Sikh- Gurdwaras are situated at Kot Kapura, Dhillwan Kalan, Bhikhi, Behbal Kalan, (Tibbi Sahaib) Matta (Guru-ki-Dhab) Jaitu (Gangsar and Tibbi Sahib) Talwandi Sabo (Dam Dama Sahib) near Madahar (Jand Sahib) and near Mehma Sarja, (Gurdwara Lakhi Jungle). There is a Hindu Temple at Maisarkhana where half yearly Melas are held on every 6th Navaratra. Chhila Bala Farid in Faridkot town is another noteable place wich is held in high esteem by all and sundry. Ramiana, Galla, Kot Kapura, Rama Mandi, Dhillwan and near Kesarwala.

Climate.

The climate is hot and dry. In summer the area has fre quent dust storms.

Rain Fall.

The rainfall is very little and the average comes to about 14

History.

Tibarhindh was, in all probablity, the old name of Bhatinda. In Sambat 1422 Mohammad of Ghaur conquered Bhatinda fort. Altimash made one of his nobles Amir of Bhatinda. Mention is also made of Bhatinda in connection with Sultana Razia, daughter of Altmash, who was imprisoned in the fort Alla-ud-Din assigned the fortress of Bhatinda to Malik Sher Khan who repaired the fort of Bhatinda in 1754 A. D. Maharaja Ala Singh conquered this fort of Bhatinda and since then the history of Bhatinda has been entirely connected with the history of the Patiala dynasty.

STATEMENT EXPLAINING THE TABLES APPEARING IN A DISTRICT CENSUS HANDBOOK.

In the 1951 Census, in addition to the sorting of the slips to produce the tables, essential Census information relating to every person enumerated in every village and every town/ward has been incorporated in a National Register of Citizens wnich has been preserved as an unpublished administrative register for purposes of reference during the inter census decade.

Some changes have been made between the procedures for tabulation adopted at the 1931 and earlier censuses and at the present census. These are explained below :—

1. SUBSTITUTION OF ECONOMIC CLASSIFICATION FOR CLASSIFICATION BASED ON RELIGION :—

In the past, Census slips were, at the very out set sorted on the basis of religion, and the figures of population by religion thus obtained were the basis of village statistics. The separation of slips by religion and sex was maintained throughout the sorting operation ; and thus certain Census characteristics were cross tabulated by religion. During the present census, the slips have been sorted in the first instance, into the following eight livelihood classes of the population :—

AGRICULTURAL CLASSES.

I. **Cultivators of land wholly or mainly owned and their dependants.**

II. **Cultivators of land wholly or mainly unowned and their dependants**

III. **Cultivating labourers and their dependants.**

IV. **Non-cultivating owners of land ; agricultural rent receivers and their dependants.**

NON-AGRICULTURAL CLASSES.

Persons (Including dependants) who derive their principal means of livelihood form :—

V. **Production other than cultivation.**

VI. **Commerce.**

VII. **Transport.**

VIII. **Other services and mi scellaneous sources.**

The resulting figures have been given in the Primary Census Abstracts which serve as the basis for village statistics.

2. THE CONCURRENT 10% SAMPLE.

The Age (Sample) Tables have been prepared from the enumeration slips by taking a 10% sample, out of the population excluding the displaced persons. Separate figures for displaced persons are given in the Handbook in all important tables.

3. PRESERVATION OF CENSUS RECORDS OF REGISTERS.

In the past, the abstract (first prepared in the process of sorting and compilation) was used for compiling village statistics, which were retained as unpublished administrative records by same States and printed and published by others. At the present Census, the following *data* are included in the District Census Handbook and printed and published as such :—

i. **Introduction to the District Census Handbook.**

ii. **District Census Tables (furnishing district *data* with break up for Census tracts, within the district).**

iii. **Census Abstracts : (a) Primary Census Abstracts (b) Occupational Abstracts and (c) census abstracts of Small Scale Industries.**

The following tables have been included in the Handbook.

A. GENERAL POPULATION TABLES.

1. Area, Houses and Population.

(The area figures in this table have been supplied by the Deputy Commissioner of the district and hence do not tally with the area figures maintained by the Survey Department : No. of houses are those which were found to be occupied at the time of house numbering by the revenue staff ; un-occupied houses do not figure in the table.)

VARIATION IN POPULATION DURING FIFTY YEARS.

II. (The population figures given in this table for the previous censuses have been adjusted, taking into consideration the adjustment of enclaves during the period 1941-51. Population of area transferred to and/or from each tahsil have been added to or substracted from the population of that tahsil for the census 1901 to 1941.

III. **Towns and villages Classified by Population.**

IV. Towns Classified by Population with Variation Since 1901.

V. Towns arranged territorially with Population by Livelihood Classes.

(In this table figures for livelihood classes I to III have not been given separately but have been clubbed together.)

B. ECONOMIC TABLES.

I. Livelihood Classes and Sub-Classes.

(Non-earning dependants in this table mean economically passive persons *i. e.* who do not earn anything ; and earning dependants implies a person who is semi-active, *i. e.* whose earning do not suffice his living and who has, therefore, to depend upon others ; Self-supporting persons mean economically active persons *i. e.* who do not depend upon others, and are at least able to maintain themselves.)

II. SECONDARY MEANS OF LIVELIHOOD.

Non-earning dependants do not have secondary means of livelihood. An earning dependant is maintained partly by the income of some other person and partly by his own ; the source which gives him some income is taken to be his secondary means of livelihood for purposes of this table. A self supporting person may have more than one means of livelihood in some cases ; the second best source of income has been given in this table as his secondary means of livelihood.)

III. EMPLOYERS, EMPLOYEES AND INDEPENDANT WORKERS.

(The self supporting persons in non-agricultural classes have been classified in this table as Employers, Employees and Independant workers and are distributed in the various Divisions and Sub-divisions of Industries and Services. The fly-leaf of this table gives the number of self-supporting persons who are economically passive *e. g.* persons living principally on pensions, remittance, scholarships and fund, inmates of jails, asylums, almhouses and beggars and vagrants. To economise paper and labour no space has been provided in the table for those divisions and sub divisions in which no self supporting persons fall.)

C. HOUSE-HOLD AND AGE (SAMPLE) TABLES.

I. Household (size and composition). This table has not been published in the handbook.

II. Livelihood Classes by age Groups.

III. Age and Civil Condition.

IV. Age and Literacy.

V. Single year age-returns. (Infants below 1 year of age have been shown under the age " 0 ".)

D. SOCIAL AND CULTURAL TABLES.

I. **Language.** This table has not been published in the handbook.

II. **Religion.**

III. **Scheduled castes and tribes.** (The fly-leaf of this table gives the number of Anglo-Indians which have been included in the figures of Christians in Table D-II).

IV. **Migrants.** (The fly-leaf of this table gives the number of people born in countries outside India but enumerated in this district.)

V. **Displaced persons.** (For Census purposes, a displaced person was taken to mean any person who has entered India having left or been compelled to leave his home in Western Pakistan on or after the 1st March, 1947, or his home in Eastern Pakistan on or after the 15th October, 1946, on account of civil disturbances or the fear of such disturbances or on account of the setting up of the two Dominions of India and Pakistan. But some persons, who had migarted to India from Western Pakistan even before 1st March, 1947, returned themselves as diplaced persons at the time of census taken for the simple reason that they had left their immovable property in Pakistan : such persons have also been included in the defination of ' Displaced Person ').

VI. NON-INDIAN NATIONALS.

(This table was not prepared in the previous censuses ; it has been based on a suggestion made by the U. N. population Commission.)

VII. LIVELIHOOD CLASSES, BY EDUCATIONAL STANDARDS.

(This table is also new and is designed to show the distribution of educated man-power among the different livelihood classes.)

SUMMARY FIGURES BY DISTRICTS.

(This table furnishes selected *data* by Tahsil/tract in the district. The area figures given in this table have been furnished by the Deputy Commissioner of the district and the 1941 population figures has been given after giving effect to the adjustment of enclaves.)
