DCH-10	..	Jullundur			

PREFACE

The reports and statistical volumes pertaining to the 1961-census fall under three broad groups on the basis of territory coverage. The All-India Reports and Tables compiled in the office of the Registrar General, India, encompass the ntire country. The reports compiled by the State Superintendents relate to individual States and Centrally Administered Territories. The third group consists of District Census Handbooks, the scope of which is limited to individual Districts, and they give information for each town and village. The Handbooks were compiled by the Superintendent of Census Operations, Punjab, but the State Government has undertaken their publishing.

The District Census Handbooks were published for the first time at the 1951-census. They proved very useful with the officers, working in Community Development Blocks, Tahsils and Districts, and were consulted in connection with elections, as also by students of social sciences interested in local problems. This Handbook contains the essential census data for each village and town (according to wards) in the District. Besides, some other useful information has been included in it, thus making it a self-contained book of reference for the District.

The book is divided into four parts. Part I consists of four chapters. Chapter I introduces the District, giving information on its location, physical features, climate, fauna and flora, towns and places of interest, a brief history of the District and its administrative machinery. In Chapter II are discussed the use of land, main crops and irrigation, industries, trade and commerce, and communications. In Chapter III the salient features of population are discussed. Chapter IV deals with social and developmental activities, and achievements during the First and Second Five-Year Plans.

In Part II are presented the statistics secured from various Government Departments relating to rainfall, temperature, land utilisation, irrigation, area and yield of principal crops, livestock, industry, co-operation, education, printing and publishing, entertainments, medical and health, births and deaths, transport and communications, community development activities, banks and insurance, and justice. At the end appears a Table on the fairs and festivals in the District.

The Tables relating to the 1961-census are presented in Part III. Part IV contains a Directory of Villages and Towns, showing which among them have educational institutions, hospitals and dispensaries, post and telegraph offices, electrification and protected water-supply; area; number of occupied residential houses and households living therein; population; persons belonging to Scheduled Castes and Scheduled Tribes; number of literate and educated persons; number of workers in nine broad industrial categories; and number of non-workers.

The book contains several maps. There is a map of the District showing the administrative boundaries, roads and railways, rivers and canals, and location of towns. Another map shows the distribution of population; the population of towns is shown by proportionate circles, and of rural areas by dots. For each Tahsil in the District two types of maps have been prepared, one showing the location of social amenities, and the second showing the boundaries of villages and towns. These maps were prepared by Shri Malkiat Singh.

This publication is the outcome of the joint efforts of a large number of workers and Government Departments, and grateful acknowledgement is made of the help received from them. Within the Census Organisation mention needs to be made of Shri Jaswant Singh Dilawary, Statistical Assistant, and Sarvshri Vishwa Mittar and Jaswant Lal Asstt. Compilers for preparing the Tables appearing in Part II, under the supervision of Shri T.P.Garg, P.C.S., Deputy Superintendent of Census Operations; and of Shri Goverdhan Dass Singla, Statistical Assistant, and Sarvshri Joginder Nath Suri and Dharam Paul Jain, Computors, for preparing the Tables appearing in Parts III and IV, under the supervision of Shri Pawan Kumar, Tabulation Officer. Sarvshri Joginder Nath Suri and Ajab Lal Kakkar helped in correcting the proofs in the press.

Shri Sita Ram, P.C.S., Deputy Superintendent of Census Operations, Punjab, paid a number of visits to the Bhatinda District, and after collecting information by personal observations and discussions with a large number of persons, produced the draft of this Handbook.

My thanks are due also to Shri K.C. Kuriyan, Controller of Printing and Stationery, and his Deputy, Shri P.S. Walia, for their personal attention in the printing of the book.

PART I

INTRODUCTION TO THE DISTRICT

CHAPTER I

INTRODUCTION

Bhatinda is one of the four Districts constituting the Patiala Civil Division. It has three Tahsils, Faridkot, Bhatinda and Mansa, all having the status of Sub-Division. there are two Sub-Tahsils in Bhatinda Tahsil, viz. Phul and Nathana. According to the 1961—census the population of the District is 1,055,177 on an area of 2,658.2 square miles. There are in the District 680 villages including 15 uninhabited ones and 14 towns among which Bhatinda is the headquarters.

Name, Location and Boundaries.—The District lies in the West Indo-Gangetic plain between 29° 32′ 40″ and 30° 50′ 10″ North latitude and 74° 28′ 20″ and 75° 46′ 35″ East longitude. It is bounded by Ferozepur and Moga Tahsils in the north, Muktsar and Sirsa Tahsils in the west, Fatehabad and Hissar Tahsils in the south and Sangrur and Barnala Tahsils in the east.

Area (Table A-I)*.—According to the Surveyor General, India, the area of the District is 2,658.2 square miles, but according to the Director of Land Records, Punjab, it comes to 2,706 square miles. The difference between the two sets of figures is due to the different methods of measurement adopted by the two agencies. In this text, unless otherwise stated, the area figures supplied by the Director of Land Records, Punjab, have been utilized and they are referred to also as the figures according to the village papers.

Among the three Tahsils of the District, the area is divided as follows :—

Tahsil	*Area (square miles)*		
	Total	Rural	Urban
Faridkot	561.8	557.1	4.7
Bhatinda	1,256.2	1,242.6	13.6
Mansa	840.2	835.7	4.5
Total	2,658.2	2,635.4	22 8

The District occupies the 7th position in area among the nineteen Districts of the State, the largest District with an area of 6,292.3 square miles is Kangra and the smallest occupying an area of 575.2 square miles is Simla.

PHYSICAL FEATURES

The District does not have any striking natural features. It is an alluvial plain ; its greatest length is 100 miles and greatest breadth 42 miles. The land in the greater part of the District is sandy.

The western part of the Faridkot area is called *Athar*, which is generally sandy with ridges of sand hills in many places. The eastern part is called *Utar*. It is more level and fertile. The depth to water here varies from 90 to 160 feet and the well water is sweet while in the *Athar* it is generally brackish and is found 25 to 45 feet below the surface. The *Danda* or old bank of the Sutlej separates the *Athar* from the *Utar*. That river is said to be once flowing quite near Faridkot.

The general drainage of the District is towards Ghaggar, and the result is that flood water flowing from the surrounding areas of Ferozepur and Sangrur Districts finds its way through the District. Floods have been causing great damage here of late, necessitating the construction of a vast net work of drains.

Prominent varieties of soil in the District are, clay loam, loam, sandy loam, sandy and sand dunes. The area of clay loam soils is very small and is considered very fertile. Loamy soils are more suitable for cotton, *bajra*, sugarcane, wheat and *sarson*. Large areas, however, consist of sandy loam soils which give good crops if

*Page 145.

organic matter is added. Sandy soils are considered suitable for gram under barani conditions. Sand dunes are unfit for crops, but the area under them is not much. Sub-soil water, particularly in the western part of the District, contains high percentage of salts and is unfit for irrigation and drinking. Canal irrigation is on the increase. The floods in recent past have resulted in sub-soil water table rising in parts of Phul, Faridkot, Mansa and Budhlada Blocks. This has created problem of water-logging and *kallar* formation.

River system and Drains.—There is no major river flowing in the District. However, the Ghaggar runs through the southern trip of Mansa Tahsil and then averts into Hissar District where it is known as *nali*. It enters Mansa Tahsil at village Hengna from Fatehabad Tahsil and leaves it near village Rorki. The main volume of water into the Ghaggar comes through a depression called Sunam Choa. The volume of water in the river is considerable during the rainy season and causes a lot of damage in the low-lying areas along its banks.

The important drains designed to control the floods in the District are the Bareta drain, the Sirhind Choa, the Bahadar Singh Wala Drain, the Lasara nala, the Chand Bhan Drain, and the Mudki Golewala Drain.

Bareta Drain.—This drain runs for 14 miles in the District. Its out-fall is to be in Ghaggar river and it will also serve to drain out the water of Sunam *choa* into the Ghaggar.

Sirhind Choa.—It is also known as Sunam Wala Choa. It has its source near Rupar, and flowing through the areas of Fatehgarh Sahib, Bhiwanigarh and Sunam spreading over the country about Jakhepal and Dharamgarh, it gets lost in the sands of Hissar. The *choa* probably flows the alignment of the canal which was constructed by Feroze Shah Tuglak in 1361 A.D. It is proposed to give proper dimensions to this natural drainage to fight floods.

Bahadur Singh Wala Drain.—This drain is intended to save the Bhikhi area from floods, and runs through the District for 12.2 miles.

Lasara nala.—This natural drain originates in Ludhiana District, and after passing through the territories of Ludhiana, Patiala and Sangrur Districts, it enters Bhatinda District near the village Jethuke and leaves it near the village Kharak Singhwala and finally falls into the Ghaggar. Of the vast catchment area of the *nala*, 738 sq. miles lie in 33 villages of the Bhatinda District. Channelisation of Lasara Nala would be a very beneficial anti-flood measure in the area.

Golewala drain, Mudki drain, Langiana drain, Mari drain, Smadh Bhai drain and Chand Bhan drain are the principal drains passing througn Faridkot Sub-Division which have been constructed to meet the problem of floods in the surrounding area.

Canals.—The District is served by three canal systems : the Sirhind Feeder, the Sirhind canal and the Bhakra canal. The Sirhind Feeder irrigates a portion of Faridkot Tahsil. The main source of irrigation in the District, however, is the Sirhind canal. All the three branches, namely, the Abohar branch, the Bhatinda branch and the Kotla branch irrigate the District. The Bhakra canal system also serves a small area in the District.

Geology.—The District is of no geological importance. Some *kankar* (calcarious nodules) is found here and there, particularly in Utar, and is used for road-making or is burnt for lime. Black clay from which bricks are made occures in small quantities. Fine white clay is also found which is used for white-washing.

Archaeology.—There is a big old fort at Bhatinda built on a raised ground, 660 feet square and 118 feet high. A *gurdwara* associated with Guru Gobind Singh is inside the fort. The town of Faridkot has also an old fort which remained a bone of contention between rival chieftains for centuries. There are a number of important Sikh *gurdwaras* in the District. The most important of them is the *Damdama Sahib* at Talwandi Sabo, of which a little more detailed description will be given later. Other *gurdwaras* are located at Kot Kapura, Dhilwan Kalan, Bhikhi, Behbal Kalan (*Tibbi Sahib*), Matta (*Guru Ki Dhab*), *Jaitu* (*Gangsar* and *Tibbi Sahib*), the *Jand Sahib* near Mudahar and the *Gurdwara Lakhi Jangal* near Mehma Sarja. The *Gurdwaras* at Jaitu played an important role in the national struggle of which mention will be made later. There is a Hindu temple at Maisar Khana where *melas* are held during the *Navratras*. The *Dera Baba Farid*, associated with the saint of that name is a notable shrine in Faridkot, and it is held in high esteem by all classes.

CLIMATE

The District falls in the north-west dry region of Punjab. Situated far away from the Himalayas, it shares meagrely in rainfall. The Rajasthan desert is not far away and its heat, sand and dust storms influence its weather greatly; the District has a very hot summer, mild rainy season and dry but bracing winter. In recent years a certain amount of change has been noted in this pattern of weather so that there might be a fury of rains and floods at times when fromerly it used to be a long dry spell and *vice versa* Floods have been of late more frequent.

The temperature begins to rise from early March and it goes on rising till it crosses 114° F in June. Hot winds blow over the land and dust storms are frequent particularly in the south-west portion. The monsoonic rains commence in July with accentric breaks and last up to September. Sometimes the rains continue even later than that and cause floods. The days are hot and sultry but the nights get cooler as the season wears on. The flood waters, canals and drains create swampy and malarious conditions, the Ghaggar being the chief offender because of its over-flowing over vast areas. Towards the middle of September or early October, the weather turns fine and by the end of October mild cold season sets in. November to February are cold, December and January being the coldest. Light frost may also be experienced as also mild rains. In March the spring season sets in with the return of short pleasant weather.

Temperature.— Table 1* is a record of temperature at Bhatinda town on monthly basis for 1960. It would be seen that the hottest days are of May and June and the coldest of December and January. There is much variation in temperature between the seasons, and even within a span of twenty four hours.

Rainfall.— In Table 2† are shown the amount of rainfall, number of rainy days in each month, and the average monthly rainfall from 1956 to 1960 for the Tahsil headquarters at Faridkot, Bhatinda and Mansa. The annual average figures are reproduced below.

Town	Average annual rainfall inches
Faridkot	16.7
Bhatinda	18.2
Mansa	21.0

The rainfall is restricted for the most part to the period July to September. There is some rain in January, and the remaining months are mostly dry.

Fauna.— During the times of princely States, the District had some sanctuaries of wild life which was the privilege of the selected few to use for shooting game. With the disappearance of the princely States and with them the rigidity of rules regarding preservation of wild life, those sancturaries have almost disappeared, and consequently not much of wild life is left now. Cultivation is extending and more and more of waste land is being reclaimed. The liberal grant of fire arms and shooting lincences is eliminating the wild animals. Black buck and deer are now scarce and so also wild pigs. *Nilgai* is, however, found in herds at some places and is a nuisance to crops because its killing is generally a religious taboo. Foxes, jackals, wild cats, hares and monkeys are as common as in other Districts of Punjab. The commoner wild birds include peacocks, partridges, quails, sand grouse, pigeons and snipes. Flood waters accumulating in depressions attract ducks seasonaly. These depressions or lakes and some village ponds are used for rearing fish by the Fisheries Department. The cobra and the *karait* are among the venomous snakes found in the District.

Flora.— The District has vegetation of an arid region akin to Ferozepur District. But with the increased irrigation facilities, soil conditions are changing and consequently the flora is also showing variation from the arid type to that of the semi-moist type. *Wan* and *beri* trees are found, and so are *kikar, kharil, jand, dek, reru, phalai* and *pilu*. The scrub lands are, however, disappearing before the advancing cultivation. Good plantations chiefly of *shisham* are being reared by the Forest Department along the rail routes, canal banks and road sides. Growth of trees is also being encouraged along the village circular roads and even in the fields. These plantations help in arresting the advance of sand and the desiccating effect of hot winds, and provide protection to crops. The *pipal* and *nim* are planted near wells and ponds near villages principally for their shade. *Frans* is common near village sites and is used for roofing. *Sarkanda* is a useful reed and is found in clumps in water-logged areas. *Dub* is also found here and there and is relished by the cattle. *Aak* is a widely distributed weed as also *pohli* which defies eradication. *Piaji* is common in irrigated areas. *Bui, khip, tumba, lathia, churi sarota* and *bel* are found in dry tracts. The narcotic *dhatura* flourishes on the rubbish heaps nearabout the village *abadi*. The fruit trees are oranges, *malta*, lime pomegranate, *jaman*, banana, mangoes and guava.

HISTORY

Bhatinda as a District came into existance with the formation of PEPSU in 1948. Bhatinda and Mansa Tahsils till then formed part of Patiala State, and Faridkot Tahsil of Faridkot State. Thehis tory of Bhatinda and Mansa Tahsils consequently followed the fortunes of Patiala State and the history of Faridkot Tahsil the history of Faridkot State. The following account has been extracted from the Phulkian State Gazetteer of 1904 (Pages 188—90) giving the history of Bhatinda and the surrounding areas.

*Page 51. †Page 52.

"Bhatinda is of great antiquity, but its earlier history is very obscure it having been confused with Sirhind, Bhatia and Ohind. According to the Khalifa Muhammad Hasan's History of Patiala its ancient name was Bikramagarh. Bhatinda is said in the Hindu annals to have been Jaipal's capital and place of residence, which Mahmud captured. Tabarhindh was, in all probability the old name of Bhatinda. This is distinctly asserted in the *Labb-ut-Tawarikh*, according to Raverty. Another form was Batrind, and this is found in *Ibn Batuta*. The earliest mention of Tabarhindh occurs in the Jami-ul-Hakayat written about 607 H. or 1211 A.D. It is called Tabarhindh or in two MSS. Barhindh or Tarindh (? Batrindh). In the *Tabaqat-i-Nasiri* Tabarhindh is repeatedly mentioned. It was taken by Muizz-ud-Din (Shihab-ud-Din) Ghori, who took the fortress of Tabarhindh and advanced to encounter Rai Kolha Pithora at Tarain. Here Muizz-ud-Din was defeated and forced to retreat to Lahore. But in this connection Tabarhindh would appear to be Sirhind, whose position on the high road to Delhi via Tarain, now Tarawari Azimabad in the Karnal District, renders it highly probable that Sirhind and not Bhatinda is meant, though it is by no means certain that Sirmnd had been founded at that time. Farishta is most explicit according to Briggs. He says that Mahmud after defeating Jaipal marched from Peshawar and reduced Bitunda (probably Ohind or Waihind): then that he entered Multan by the route of Bitunda (probably Bhatia, certainly not Bhatinda as a glance at the map will show).

The *Aina-i-Barar Bans* preserves the following traditions:—Bhatinda was built by Bhati Rao, son of Bal Band, who in 336 Sambat became ruler of the Punjab, and to whom the foundation of Bhatner is also ascribed.

The Barah and Punwar Rajputs, jealous of the rising power of Bija Rao, plotted his destruction. They offered Dev Raj, son of Bija Rao, a daughter of the Barah chief in marriage, and to this Bija Rao agreed, but when the wedding procession entered the fort of Bhatinda he was assassinated by the Barah chief, who seized the fortress, which was then known as Bikramagarh. Dev Raj, then 8 years old, was saved by a camelman.

During the reign of Rai Patho Rai, Rao Hem Hel Bhatti gradually overran the territories of Bhatner and Bhatinda.

Rawal Jaitshi, in addition to vast numbers of infantry, posted 10,000 horses at each of the forts of Pogal, Hansi, Bhatner and Bhatinda.

Muhammad of Ghor deputed Nawab Mahbub Khan, Bara-Hazari, against Jaisalmer. At that time Rana Padamrath, a descendant of Rao Hem Hel, ruled over Hansi and Hissar, and Rao Mangal another descendant held Bikramagarh. The latter, leaving the fortress in charge of Anand Rao, his son, led a large force to Jaisalmer. Mangal Rao was killed in battle with Muhammad of Ghor, and Anand Rao died during the siege of Bhatinda, which was invested for four years. In Sambat 1422, Muhammad of Ghor conquered Bhatinda fort At this time Rao Khewa, son of Anand Rao, held Hissar. According to Munshi Zaka Ulla, Altamsh made Ebak Lamgaj, *amir* of Bhatinda.

Altunia, governor of Tabarhindh (Bhatinda probably) revolted against Sultana Raziya, daughter of Altamsh. She marched against him, but her Turk nobles revolted and she was consigned to Altunia as a prisoner. He subsequently married her, and after their defeat by the Imperial forces she fled to Bhatinda.

Raverty in his translation of the *Tabaqat-i-Nasiri* says that Mirza Mughal Beg in his account of the Lakkhi Jangal avers that Bhatinda, also called Whatinda, is the name of a territory with a very ancient stronghold of the same name, which was the capital of the Chahil (Jat) tribe. Lakkhi, son of Jundha Bhatti, having been converted to Islam during an invasion of Sultan Mahmud of Ghazni, received the title of Rana Lakkhi and was removed here with his tribe, where they founded 350 or 360 villages. At that time the Ghaggar flowed past Bhatner into the Indus, and the country was watered by two or three considerable rivers (T.N., pages 79 and 80 notes).

Kabaja (probably Qabacha) extended his rule from Sind eastward to Tabarhindh, Kuhram and Sarsuti, and Tabarhindh with Lahu (probably Lahore) and Kuhram formed the object of his struggles with Altamsh.

Under Altamsh Malik Taj-ud-Din, Sanjar-i-Gazlak Khan, Sultani Shamsi, was *malik* of Tabarhindh. Malik Sher Khan-i-Sunqar retired towards Turkistan, leaving Uch, Multan and Tabarhindh in the hands of dependents. Muhammad Shah obtained possession of these fiefs and they were made over to Arsalan Khan, Sanjara-i-Chist. On his return Sher khan endeavoured, but without success to recover Tabarhindh. He was, however, induced to appear at Delhi, where Tabarhindh was restored to him. Tabarhindh was, however, soon bestowed on Malik Nasrat Khan, Badar-ud-Din Sunqar together with Sunam, Jhajhar, Lakhwal and the country as far as the ferries in the Beas.

In 1239 A.D. Malik Ikhtiyar-ud-Din, Karakash, Khan-i-Aetkin, became superintendent of the crown province (*khalisa*) of Tabarhindh under Altamsh. He was Altunia's confederate, and on the assassination of Ikhtiyar-ud-Din he induced Raziya to marry him.

On the accession of Ala-ud-Din, Masud Shah, Tabarhindh was entrusted to Malik Nazir-ud-Din Muhammad, of Bindar.

Ala-ud-Din assigned the fortress of Tabarhindh and its dependencies to Malik Sher Khan in fief and he led a force from it against the Qarlighs in Multan. Sher Khan repaired Bhatinda and Bhatner.

Bhatinda was conquered by Maharaja Ala Singh with the aid of the Sikh confederacy (*dal*) in about 1754 A.D."

The fortress was in the possession of Sardar Jodh, and from him it passed into the hands of his nephew Sukh Chain Singh, a Sabo Jat. Maharaja Amar Singh sent a force against it, following in person shortly afterwards. The town was taken, and Sardar Sukh Das Singh and Hazari Bakht Singh Purbia left with a considerable force to reduce the fort, while the Maharaja returned to Patiala. Kapur Singh, son of Sukh Chain Singh, surrendered and evacuated the fort in 1828 Sambat.

Since the conquest of Bhatinda by Maharaja Ala Singh its history has formed a part and parcel of Patiala State.

The history of Faridkot State appears at pages 2 to 19 of the Faridkot State Gazetteer of 1907. To begin with, the territory was ruled over by Punwar Rajputs and then by Bhati Rajputs. Raja Mokalsi, a Bhati Rajput, is said to have founded Mokalhar and constructed the fort here some 700 years ago. He changed the name of the fort to Faridkot after the name of the noted saint Baba Farid. Barars who came out of the wedlock of a Bhati Chieftain with a Jat woman founded the Phulkian families and Faridkot family. *Chaudhriat* was conferred on Sanghar of the Faridkot family by Akbar and the true branches of his family settled near about Kot Kapura and Faridkot. They were constantly at loggerheads and when Maharaja Ranjit Singh came into power he favoured the Faridkot Branch but he was so covetous of the illaqa that he parted with it most unwillingly when in 1809 he was made to give up all his possession on this side of the Sutlej by the Britishers. Raja Bhar Singh of Faridkot sided with Britishers during the First Sikh War and one of the rewards given to him was the State of Kot Kapura. He was made Raja and the position of the family was further strengthened when it sided with the Britishers during the Second Sikh War and the Mutiny of 1857.

On attainment of Independence, Faridkot was one of the eight States which joined to form the Patiala and East Punjab States Union. It was then that the District of Bhatinda came into existence.

TOWNS AND PLACES OF INTEREST

Bhatinda [Area 8.00 sq. miles: Pop. (1961) 52,253].—98 miles from Patiala towards the west, this town lies in 30° 13′ N latitutde and 75° east longitude. It occupies a central place in the tract popularly known as *jangal* and is connected by *pucca* roads with all important towns and markets of the area. It is a big railway junction for the Bhatinda-Rajpura, Bhatinda-Ferozepur, Bhatinda-Hindumalkot, Bhatinda-Hanumangarh, Bhatinda-Rewari, and Bhatinda-Delhi railway lines.

As has already come under the section dealing with History of the District, Bhatinda has a long and chequred history. It is said that the town takes its name jointly from the names of a Rajput ruler Binai Pal and his *wazir* Thanda Ram. The town was conquered by Maharaja Ala Singh near about 1754 A.D. and since then has followed the history of Patiala State. With the formation of PEPSU, Faridkot was first made the headquarters of Bhatinda District, but a little later they were shifted to Bhatinda and they continue to be there to this day

The old fort with the Gurdwara of Guru Gobind Singh within it is the principal place of historical interest in the town. The District Offices and Courts are housed in beautiful buildings which are post-Independence constructions, on one side of the town. The Tahsil and the Police Station are inside the town. A civil hospital, a maternity hospital, a T.B. clinic and a veterinary hospital are there. Among the educational institutions are the Rajindra College, three higher secondary schools for girls, one run by Government and the other two managed by private bodies and three higher secondary schools for boys, all privately managed. There are two industrial training schools, one for boys and the other for girls. The Bhupindra Flour Mills is the biggest industrial unit in the town. It also contains a number of cotton ginning and pressing units. An Industrial Estate has been set up in recent years. Bhatinda is a big grain market which is regulated by a Marketing Committee. Wheat, gram, *gur*, *shakkar* and cotton both American and *desi* are the principal arrivals in the market.

The town has a Class I Municipal Committee. It started as a Small Town Committee in the late Patiala State which was later converted into a Municipal Committee, consisting of elected and nominated members. It became a completely elected body in the PEPSU regime. The latest elections were held in February, 1961, returning 30 members including the President. The income of the Committee in 1964-65 was Rs. 1,176,000 and the expenditure Rs. 1,155,000. Octroi, house tax, water tax, show tax and rents are the main sources of income and public health, water supply and municipal works are the main items of expenditure. Streets are electrified, the roads are pucca and the lanes are also metalled or brick-laid. Known for scarcity of water, Bhatinda in the initial stages used to depend on wells and hand pumps for its water supply. Since 1956, a centralised water supply scheme from tubewells has come into existence at a cost of about Rs. 9 lakhs. An underground sewerage scheme estimated to cost about 13 lakhs is in progress. A Part-time Medical Officer of Health is in charge of the public health activities. The Committee has a fire brigade and maintains two parks, one of which is a Ladies Park. There are three cinema houses in the town.

Faridkot [Area 2.42 sq. miles: Pop. (1961) 26,735.]—This town is about 20 miles south of Ferozepur and 41 miles north of Bhatinda. It is connected by metalled roads with Ferozepur, Zira, Kot Kapura and *via* Kot Kapura with Moga, Muktsar, Jaitu and Bhatinda. It is a railway station on the Bhatinda-Ferozepur section.

Faridkot is stated to have been founded by Raja Mokalsi some 700 years ago. He named it Mokal Har and built a fort here. There is another version according to which the fort existed long before even Rai Hem Hel, and ancestor of Mokalsi under whom the Bhattis had overrun the area for the first time from the south. Mokalsi was erecting the fort or perhaps carrying out its repairs, when Baba Farid, the saint, was forced to work on it as a labourer. The story goes that it was noticed that the basket full of mud which the saint was supposed to carry on his head did not rest on the head but kept about a foot nigher, thereby giving no burden to the saint. This miracle brought the Raja to his knees and he begged pardon of the saint. It is said that the saint made the following observation at that time:

"ਦੇਖਿਆ ਤੇਰਾ ਮੋਕਲਹਰ, ਬਾਹਰਮੁਖ ਅੰਦਰ ਡਰ, ਫਰੀਦਕੋਟ, ਬੰਦਿਆਂ ਚ ਖੋਟ, ਪਾਣੀ ਦੀ ਟੋਟ, ਘਟੇ ਦੀ ਲੋਟ ਪੋਟ।"

(I have seen thy Mokal Har. Outwardly there is prosperity but inwardly fear reigns. The people of Faridkot are un-truthful. There is dearth of water but plenty of dust).

The name of the place was changed to Faridkot after the name of the saint, and it continued to remain the capital during the reigns of Mokalsi's sons, and later of Barars ever since the princely State of Faridkot took its shape in the time of Raja Pahar Singh after the conclusion of the First Sikh War. On the formation of PEPSU, Faridkot remained the headquarters of the newly formed Bhatinda District for sometime. Now it is the headquarters of the Sub-Division and Tahsil of that name.

The people of Faridkot at first used to live in the fort, but in 1837, a town was laid out beyond its walls and the people were settled there. In 1885, bazars were built on an improved plan and the town assumed a fine look. The succeeding rulers made improvements and additions more or less in a planned way so that the town today presents the appearance of a planned town. The Fort and the *dera* of Baba Farid located just near the fort are the main places of historical importance in the town. The saint is held in high esteem by all residents and they pay respect at the *dera* every Thursday. A big fair is held here on 8th Asoj which is supposed to be the birthday of the saint. The Palace, the Guest House, the *smadhs* of the ruling family, the Secretariat of the erstwhile Farikdot State in which now courts and offices are housed, and the clock tower are other places of interest in the town. Some three miles from the town is a Borstal Institution and Juvenile Jail for adolescent deliquents. Among educational institutions are the Brajindra College, the Government Training College, the Industrial Training Institute, the Balbir High School, the Kamla Nehru Jain Higher Secondary School, the Khalsa High School and the Mahatma Gandhi Middle School. There is not much of industrial activity in the town except for a few small units of cotton ginning and oil extraction. The grain market attracts wheat, gram, *bajra*, *gur*, *gowara*, cotton, *sarson* and linseed.

The town has a Municipal Committee (Class II), with an income of Rs. 286, 000 and expenditure of Rs. 307,000. Octroi and rents from municipal property, consisting of shops in the Municipal Market arround the clock tower, are the main sources of income. Public health, public safety, water supply and education are among more imporatnt items of expenditure. The Committee gives grants to four schools, maintains a *yunani* dispensary and gives contribution towards the Mental Hospital, Amritsar, and the T.B. Clinic at Bhatinda. Streets are mostly electritied. Water supply scheme is in vogue since the princely days. The Committee has not yet taken it over and makes payment for its maintenance to the Public Health Department, augmenting the supply with hand

pumps wherever necessary. There is a scheme to obtain water supply from canal water at an estimated cost of Rs.22 lakhs. Surface drains exist and sullage water is disposed of through disposal works at three points. A scheme for underground sewerage at an estimated cost of Rs. 18 lakhs is under consideration. The Committee maintains two gardens, a third one is being maintained by the Horticulture Department.

There is a stadium at Faridkot known as the Victory Stadium, constructed at a cost of about Rs. 200,000 by the Maharaja a few year before Independence. It has a seating capacity for over five lakhs and is provided with a track of 400 metres and a special *pucca* cycle track. Situated in front of the Brajindra College it is a perfectly laid out stadium. But it is not being maintained properly. Its roofed part houses the Faridkot Club, a batallion of the N.C.C. and the Geography Department of the Brajindra College.

Mansa [Area 2.50 sq. miles : Pop. (1961) 22,473].—Mansa is a railway station on the Bhatinda-Delhi section. It is connected by bus service with Patiala, Bhatinda, Sirsa and Barnala. It is said to have been founded by a saint, Bhai Gurdas whose *smadh* still exists and where a fair is held annually. Mansa is now the head-quarters of the Sub-Division and Tahsil of the same name. It is an old grain market and has expanded after Partition. Now there are two grain markets, the old and the new, and the principal goods marketed are gram, wheat, *bajra*, *gur* and *shakkar*, cotton (mainly *desi*), *gowara sarson* and *taramira*. There are three big units of cotton ginning and Pressing and a few others for pressing cotton. Some *dal* units are also running as also two ice factories. Making of *desi jutis* is an old industry of the place. Agricultural implements are also manufactured on a small scale. There are two Government hospitals, one of them being exclusively for women. There are also a veterinary hospital, two cinema houses, one *gurdwara* and three small temples. The Nehru Memorial College is coming up a little away from the town. Other educational institutions are the Government High School for girls, the Government Middle School for boys, the Khalsa High School, the Gandhi Higher Secondary School, and the Jain Girls High School.

The Municipal Committee in the town dates back to 1952. It is a class II Municipal Committee with 15 members. The estimated budget of the Committee for 1965-66 comprised an income of Rs. 404,000 and expenditure of Rs. 362,000. The income is mainly from octroi and municipal property. Public health, public safety and municipal works are the main items of expenditure. There is electric street lighting and almost all streets are metalled or brick-laid. Hand pumps supply water but a regular water supply scheme costing about Rs. 12 lakhs is in progress, as also an underground sewerage scheme costing over Rs. 4 lakhs. A part-time Medical Officer of Health is in charge of the public health activities. The Committee runs an Anti-rabic centre as also a crafts centre for girls where mostly tailoring and embroidery are taught. The Committee has contributed one lakh towards the Nehru Memorial College, and maintains a small library and reading room, as also a park.

Kot Kapura [Area 1.00 sq. mile : Pop. (1961) 32,021].—This town is seven miles south of Faridkot and 34 miles north of Bhatinda. It is a railway station on the Bhatinda-Ferozepur section, and is connected by metalled roads with Moga, Ferozepur, Muktsar and Bhatinda.

It was founded by Kapura, one of the fore-fathers of the princely ruling family of Faridkot State, at the suggestion of a famous Hindu ascetic, Bhai Bhagtu. Kapura had succeeded to the *Chaudhriat* bestowed on his family by the Mughal Darbar at Delhi and when Guru Gobind Singh, before the battle of Muktsar, visited him and asked for his assistance, he declined to help him or to allow him to stay with him. Guru Gobind Singh cursed Kapura, saying that he would die at the hands of his friends, the Turks (Mughals), who would put human excreta into his mouth, and stayed in the town elsewhere where now a Gurdwara associated with the Guru stands. Kapura, however, allowed Guru's family who was following the Guru to stay with him for the night and entertained them. But this does not appear to have much softened the curse of the Guru. Isa Khan, the owner of the fort and village of that name was Kapura's great rival and enemy but failed to make him yield. He then patched up with him and invited him to a banquet where he treacherously assassinated him. But it is said that Kapura could not die till Isa Khan administered human excreta to his mouth when he came to know Guru Gobind Singh's curse on Kapura. Kapura's sons avenged the murder of their father with a heavy hand, killed Isa Khan and plundered his fort. Kapura's descendents held Kot Kapura and Faridkot separately till the Britishers made Pahar Singh the chief of Faridkot Raja and bestowed Kot Kapura on him, as a reward for his assistance in the First Sikh War of 1845.

Kot Kapura is a flourishing grain market and industrial centre. Wheat, gram, *bajra*, *sarson*, *gur*, *gowara* and cotton come here for sale. Among industrial units in the town are a few units for ginning and pressing cotton, and concerns manufacturing nails, cycle parts and tractor parts. Among places of historical importance are a fort, now in ruins, and the place where Raja Wazir Singh used to say his prayers. The educational institutions in the town are two Government Higher Secondary Schools, one for boys and the other for girls, the Gandhi Memorial High School, and the S.D. Middle School for girls. There are also a Government Leather Tanning centre, a civil hospital, a veterinary hospital, a telephone exchange, a post office and a cinema.

A Class II Municipal Committee functions in the town. The municipal budget for 1965-66 showed an income of Rs. 427,000 and expenditure of Rs. 473,000. The main income of the Committee is derived from octori and municipal property. Public health, water supply and public safety are main items of expenditure. For its water supply, the town depends on wells and hand pumps. A water supply scheme which is in progress will cost Rs. 17 lakhs. There are surface drains and the sullage water pours out at different points. A part-time Medical Officer of Health is incharge of the public health activties. There are electric lamps in the streets though at places kerosene oil lamps are also used. Street pavement is complete in the market area but not in the rest of the town where there are still some kacha streets. The Committee maintains a fairly good library and the Lajpat Rai Municipal Park. Another Municipal Park is also coming up.

Jaitumandi (Area 1.25 sq. miles : Pop. (1961) 17,170).—It lies 30° 26′ north latitude and 74° 56′ east longitude, 20 miles south of Kot Kapura and 26 miles north of Bhatinda. It has a railway station on the Bhatinda-Ferozepur section and is also connected by pucca roads with Kot Kapura, Moga, Barnala and Bhatinda.

The town was founded by Jaitu, a Jat of the Sidhu *got*. The Jaitu *Morcha* is very well known in the freedom struggle of the country. Maharaja Ripudman Singh of Nabha was dethroned by the Britishers in January 1923, mainly on account of his extremely patriotic feelings. This raised a wave of popular resentment throughout his State, rather all over Punjab. Processions and meetings were arranged at many places and *Akhand Paths* started in *Gurdwaras* for the restoration of the *gaddi* of the Maharaja. In these meetings and prayers, the Britishers saw a challenge to their authority and unleashed a reign of terror to suppress popular wave. The Gangsar was one of those Gurdwaras where such recitation of Granth Sahib had started All those leading these gatherings were imprisoned but this flared the flames further. Jathas of volunteers began to pour into the town to court arrest. The culminating piece of brutality was the machine-gunning of a Jatha of 500 in February, 1924, when they wanted to raise their religious Banner at the Tibbi Sahib Gurdwara at Jaitu. Scores fell as martyres to the firing and to this many correspondents including Dr. Saifu-ud-Din Kichlu were witnesses. Pandit Jawahar Lal Nehru and Gidwani Sahib reached the spot to see things for themselves. They too were arrested and sentenced to 2½ years rigorous imprisonment. Pandit Nehru was confined in the Nabha Jail where several compatriots arrested in this connection perished under the iron heel of the foreign rule.

Jaitu is a good market for wheat, gram, *gur*, cotton (desi and American), cotton seed, sarson and *taramira*.

A Class II Municipal Committee functions in the town. During 1960-61, the income of the Committee amounted to Rs. 235,000, derived chiefly from octroi and rents from municipal property. The expenditure for the year amounted to Rs. 244,000 of which the principal items were Public health, public safety, water supply and municipal works. A modern water supply estimated to cost over 16 lakhs of rupees is under construction. All the streets in the Mandi are pucca, even those in the Jaitu village which has since been included within the Municipal limits of the town are also being paved. Surface drains exist. There is electric street lighting and at places patromax gas lamps are provided. The Committee maintains a municipal park. There is a cinema house here, as also a small fort. Civil hospital, veterinary hospital, female hospital, post office, telephone exchange are places of public utility in the town.

Damdama Sahib (Area 10,971 acres: Pop. (1961) 5,557). The village of Talwandi popularly known as Damdama Sahib is situated 18 miles south of Bhatinda town along a metalled road. It is the venue of a colourful Baisakhi fair. After his fiercest battles with the Mughals at Anandpur, Chamkaur and Muktsar, Guru Gobind Singh retired to the jungles of Malwa. He relaxed and took *dam* (rest) at Talwandi Sabo and hence its name Damdama Sahib. The Guru stayed here for nine months. He made the place a centre for spreading his mission and hence its name *Guru Ki Kashi*. He redictated *Ad Granth* here and called the place Khalsa da Takhat (throne of the Khalsa). A seal was prepared bearing the letters "*Akal Sahai Guru Gobind Singh Ji Ki Jagha, Takhat Damdama Ji*" (God may help the place of Guru Gobind Singh, the throne of Damdama). All important documents issued by the Guru from this place were embossed with this seal and it is preserved to this date.

The place had been visited earlier by Guru Teg Bahadur, the father of Guru Gobind Singh. Damdama Sahib is the headquarters of the *Nihangs*. There are here ten Gurdwaras and three tanks. The Gurdwaras are Manji Sahib dedicated to Guru Teg Bahadur, Manji Sahib dedicated to Guru Gobind Singh, Takhat Shri Guru Kashi, Likhan sar, Jandsar, Mata Sahib Kaur and Mata Sundri, Ber Sahib, Chhauni Nihangan, Sant Atar Singh, Guru Teg Bahadur and Mahal Sar. The tall Gurdwara called Takhat Shri Guru Kashi, where Guru Gobind Singh set up his throne, is the most important among these places. Baba Dip Singh was appointed by Guru Gobind as the first *garanthi* here and a *burj* in his name stands to this day. The seal of Guru Gobind Singh referred to above, his sword, and a musket and a mirror which were presented to Guru Gobind Singh by his followers and also a *Khanda* (a big dagger) belonging to Baba Dip Singh are shown to the pilgrims at this place where Granth Sahib is recited non-stop day and night. It is said that the pens used while writing the Ad Granth were thrown in a talk where Gurdwara Likhan Sar has come up. Scholars and writers pay obeisance to the shrine so that they may be blessed with superior writing power. A treasure-trove was discovered near a *jand* tree with which Guru Gobind Singh paid Salaries to his army, and at that spot.

Gurdwara Jand Sar was built. Gurdwara Sant Atar Singh takes its name from Sant Atar Singh of Mastuana with whose efforts it was constructed. Guru Gobind Singh played Hola Mohalla and displayed his feats of martial skill at the place where Gurdwara Mahal Sar has come up and where now the *Nihangs* play Hola Mohalla.

The three tanks are : Nanaksar Sarovar, Akalsar Sarovar and Gurusar Sarovar. The first named tank is associated with Guru Nanak Dev who is said to have visited this village in 1510 A.D. during his second *pad yatra* (foot journey) to Rajputana. The Akalsar Sarovar is associated with Guru Gobind Singh and a sip of water from it is believed to be a safeguard against any disease and scourage. The Gurusar Sarover is said to have been dug up under the orders of Guru Teg Bahadur. It is said that as predicted by the Guru a pitcher of nectar was dug out from here which the *devtas* (gods) had hidden under the ground from the *asurs* (demons) in their struggle described in the scriptures. The Guru threw back the pitcher into the tank and it is now considered very auspicious to take a holy dip in the tank.

ADMINISTRATIVE MACHINERY

Deputy Commissioner and his Assistants.—The District is in the over-all charge of a Deputy Commissioner. He continues to be the hub of the District administration. As District Magistrate, he is responsible for maintaining law and order, and is head of the District Police, Magistracy (executive) and Prosecuting Agency. As Collector, he is in charge of the revenue administration and is responsible for the collection of land revenue and other Government dues. He is the highest revenue judicial authority in the District. He is the Registrar of transactions of immovable property. He is the executive head of the civil administration and all departments in the District, which otherwise have their own officers, look to him for guidance and co-ordination. He plays an important role in the administration of the Municipal Committees, Market Committees, and Community Development Blocks as also in the administration of Panchayats, Panchayat Samitis, and Zila Parishad. He is responsible for the execution of development and planning schemes in the District and co-ordinates the activities of the various nation building departments. He has to keep his fingers on the pulse of the people and presents such of their grievances to Government as he himself cannot redress.

In these multifarious duties, the Deputy Commissioner is assisted by a number of Assistant Comissioners and Extra-Assistant Commissioners, and other officers at the District headquarters and at the Sub-Divisional and Tahsil level. The General Assistant helps him in the executive and administrative functions at the headquarters. He controls the office of the Deputy Commissioner and is incharge of the Establishment Branch, the Nazarat Branch, the Record and Issue Branch, the Miscellaneous Branch and the Copying Agency. At the moment (November, 1965) he is also in charge of the Emergency work created by hostilities with Pakistan and such other emergent work as floods. He also looks after the *Dharam Arth* Branch which deals with some religious places—gurdwaras, mosques, temples—which were formerly looked after by the PEPSU Government and still continue to be the charge of the Government. He also deals with the complaints and inquiries which are received from the Government and the public.

The District Development and Panchayat Officer looks after the work relating to the Community Development and the Panchayati Raj institutions at the District level. He is incharge of Elections work at the District level, as also of the work relating to the Low Income Group and Middle Income Group Housing Schemes and the District Relief Fund.

There are two Executive Magistrates who, besides dealing with security cases as Magistrates Ist Class, deal with the work of some of the branches of the Deputy Commissioner's office. One Executive Magistrate helps the Deputy Commissioner in the work relating to the various Local Bodies working in the District and District revenue accounts. The other Executive Magistrate looks after rehabilitation and registration work and Saddar Kanungo's work.

The Deputy Commissioner is also the Registrar of the District for the registration of all the documents pertaining to the transfer of immovable property in the District and also for the performance of all other duties laid upon him by the Indian Registration Act. The Tahsildars and Naib-Tahsildars work as sub-Registrars within their respective jurisdictions

As District Magistrate, the Deputy Commissioner is not concerned with the disposal of criminal judicial cases, as the Judiciary is separate from the Executive in the District. His functions are limited to law and order side, like the cases under Part IV of the Criminal Procedure Code. In this work he is assisted by the Sub-Divisional Magistrates and Executive Magistrates.

Sub-Divisions and Tahsils.—There are three Tahils in the District : Faridkot, Bhatinda and Mansa. Phul and Nathana are Sub-Tahsil within Bhatinda Tahsil. All these three Tahils now stand converted into Sub-Divisions, each under the charge of a Sub-Divisional Officer (Civil) who is of the rank of an

Assistant or an Extra-Assistant Commissioner. His powers vis-a-vis the Sub-Division are analogous to those of the Deputy Commissioner vis-a-vis the District, though he exercises these powers in consultation with and without detriment to the authority of the Deputy Commissioner. He is responsible for law and order, revenue administration, development work and other administrative and executive work in his Sub-Division. The Tahsildars and Naib-Tahsildars in the Sub-Division work under him assisted by Office Kanungos and a number of Field Kanungos, and Patwaris. A *Fatwar* circle is the smallest unit of revenue administration and is in the charge of a Patwari.

The Revenue Agency is helped in the villages by *lambardars* and village *chawkidars.* The *lambardar* collects the land revenue and deposits it in the Tahsil sub-Treasury or the local branch of the State Bank of India, and helps the administration generally, assisted by the village *chawkidar.* In return, he gets *pachotra,* which is a sum equal to 5 per cent of the land revenue collections made by him.

Judiciary.—In the District Judiciary stands separated from Executive since 1951, and the administration of justice both on the civil and criminal side is headed by a District and Sessions Judge. A Chief Judicial Magistrate and a number of Judicial Magistrates work under him. The criminal work is assigned to the various Judicial Magistrates police-station-wise; as Sub-Judges they exercise their powers within the prescribed pecuniary limits.

Government cases in the Civil Courts and in the Sessions' Courts are represented by District Attorney and Assistant District Attorney who are controlled by the Legal Remembrancer. They are assisted by Public Prosecutors appointed by the Government from amongst the members of the Bar. The Prosecuting Agency conducts the criminal cases for the State in the Courts of the Magistrates. There are well-organised Bars at the District and the Sub-Divisional headquarters.

Police.—The District Police administration is under a Superintendent of Police who functions under the administrative control of the Deputy Inspector-General of Police, Patiala Range, Patiala. The sanctioned strength of the staff under him on 31st December, 1960, consisted of 4 Deputy Superintendents of Police, 6 Inspectors, 39 Sub-Inspectors, 61 Assistant Sub-Inspectors, 101 Head Constables, 781 Foot Constables (Table 44).*

The smallest unit of Police adminsitration is the Police Station serving a number of villages or a town or part of a town. It is in the charge of a Sub-Inspector and in some cases an Inspector. On 31st December, 1960, there were 20 Police Stations and one Police Out Post in the District. The Police Stations are located at Bhatinda, Nahianwala, Raman, Balianwali, Phul, Nathana, Sangat, Kot Fateh, Maur, Dayalpura, Faridkot, Faridkot Sadar, Kot Kapura, Jaitu, Mansa, Budhlada, Bhikhi, Sardulgarh, Bareta and Boha.

The Prosecuting Agency consisting of a number of Prosecuting Sub-Inspectors and a Prosecuting Deputy Superintendent of Police also works under the administrative control of the Superintendent of Police.

The C.I.D. staff in the District works under the Deputy Inspector-General, C.I.D., Punjab.

Jails.—There are two jails in the District. The District Jail at Bhatinda and the Borstal Institution and Juvenile Jail, Faridkot. The former is the usual type of jail maintained in a District but the latter is a special type of institution meant for the detention and training of adolescent deliquents. Both the jails are under the charge of a Superintendent, who is assisted by Deputy and Assistant Superintendents, a Welfare Officer, a Medical Officer and a number of Head Warders and Warders. The Jail hospital at each of these jails is under the charge of a Medical Officer where qualified staff looks to the health and medical problems of the prisoners. The facilities of canteen, library and radio set are also available to the prisoners. Arrangements also exist to give them education. Vocational training in different crafts is also given and there are small farms attached to these jails where agricultural operations are carried on by the inmates of jails

Community Development.— The entire District is now covered by the Community Development programme. In 1961, there were 8 National Extension Service Blocks; Bhatinda, Phul East, Phul West, Sangat, Talwandi Sabo, Faridkot, Kot Kapura and Jhunir. Three more Blocks at Nathana, Mansa and Budhlada, were created later. The Development programme in each Block is looked after by a Panchayat Samiti which is elected from amongst he members of the Village Panchayats. The Block Development and Panchayat Officer is not supposed to have any administrative functions but he helps the Panchayat Samiti in its development schemes under the overall guidance and supervision of the Deputy Commissioner and the Sub Divisional Officer (Civil) concerned. In his work the Block Development and Panchayat Oficer is assisted by a number of extension officers belonging to different departments like Panchayats, Co-operation, Agriculture, Industries. At the lowest rung of the Extension Service scheme are the Village Level Workers and Lady Social Workers who handle developmental activities at the village level.

*Page 84.

Zila Parishad, Panchayat Samitis and Panchayats—There was no District Board in the District. Now a Zila Parishad with a non-official Chairman has been formed. Members of the Zila Parishad are elected by the Panchayat Samitis. There is a Panchayat Samiti looking after the development programme in each N.E.S. Block. Its members are elected from amongst the members of the village Panchayats which form the basic units of the decentralised form of authority in the country-side. Detailed working and sphere of activities of these organisations of local-self Government in the rural areas has been discussed in Chapter IV.

Other Departments.—Practically all State Government Departments have their offices in the District. The District Industries Officer with his headquarters at Bhatinda looks after the industrial activities in the District. The District Education Officer, with separate wings for girls education and boys education looks after the education of boys and girls at the school stage in the District. The Medical and Public Health activities are supervised by the Chief Medical Officer of the District. There is a District Animal Husbandry Officer. The District Food and Supplies Controller looks after the procurement, movement and distribution of food supplies and other controled commodities. The District Welfare Officer looks after the social and economic development of Scheduled Castes and Backward Classes. The District Public Relation Officer acts as a link between the District Officers and press on the one side, and the administration and the people on the other. The District Agriculture Officer is to guide the farmers in proper cultivation of land, to supply artificial manures of good quality and also to provide good quality seeds for the cultivation of their land. The different systems of canals are under the charge of separate Superintending Engineers and Executive Engineers. The construction and maintenance of drains and other anti-flood measures in the District are also under the charge of an Executive Engineer. Another Execusive Engineer looks after the construction and maintenance of roads and buildings in the District. Similarly there are Divisions looking after Electricity requirements, water supply and sewerage schemes (for towns). The Assistant Registrar Co-operative Societies, looks after the co-operative societies in the District. The District Excise and Taxation Officer looks after the Excise administration and the collection of such taxes as Entertainment Duty, Sales Tax and the like. Among other District Officers are the District Employment Officer, the District Statistical Officer and the District Sports Officer.

Local Bodies. (Table 38)*—There are 14 Municipal Committees in the District; the one at Bhatinda is Class I; those at Faridkot, Kot Kapura, Jaitumandi, Gonianamandi, Rampura Phul and Mansa are Class II; those at Bhucho Mandi, Kot Fateh, Ramanmandi, Sangat, Maurmandi, Budhlada and Baretamandi are Class III.

*Page 78.

CHAPTER II

ECONOMY

This chapter is divided into four sections, dealing with: A—Agriculture, Irrigation and Livestock; B—Industries; C—Trade & Commerce; and D—Communications.

A—AGRICULTURE

The economy in the District is primarily agricultural. At the 1951 census, 77.4 per cent were enumerated as agricultural classes dependent upon agriculture in one way or the other; at the 1961 census, 68.7 per cent of the total working force were cultivators and agricultural labourers. By and large the land is suitable for growing all sorts of crops, and irrigation facilities are on the increase. The peasantry is sturdy and hardworking and is exploiting the opportunities offered to them under the Five Year Plans. They are making increasing use of improved seeds, implements, fertilizers and the know-how which the Government is making available to them through its various agencies.

There are three agricultural Classes: proprietors, tenants, and labourers. Most of the cultivators are peasant proprietors, owning and cultivating their own land. Their number has swelled in recent years, partly as a result of the various land reforms introduced in the post-Independence period. Feudal institutions like *jagirdari* and *biswedari* have been liquidated. The occupancy tenants have become full-fledged proprietors. Similarly such of the tenants-at-will who were able to purchase land under the law have also become proprietors. Ceilings on holdings have been prescribed and the surplus land left with the landlords is being made over to the landless cultivators on payment of compensation prescribed by law. For fear of being deprived of their land, many landlords have taken to self-cultivation and as they would like to avoid tenants, they are adopting mechanical means of farming which augurs well for the future of agriculture in the District. The tendency among landlords to do without tenants has, however, resulted in turning many former tenants, who could not afford to buy land even when the law affords them the opportunity, into mere agricultural labourers.

LAND UTILIZATION

Total geographical area.—Table 3* shows the geographical area of the District in acres and its classification according to use, in terms of quinquennial average figures from 1951 to 1961. The difference in the total area figures over a period of time has been due to inclusion of Nathana Sub-Tahsil and other territorial adjustments and re-measurement of land. The average total geographical area of the District increased from 1,432, 655 acres in 1951 to 1,678,187 acres in 1961 (according to the average based upon the village papers).

Forests.—Before the rapidly extending cultivation the area under forests has been greatly reduced. In 1961, it was 1,856 acres out of the total area of 1,678, 187 acres. This is an alarmingly small slice and should be a matter of great concern in the interest of the overall economy, and concerted efforts will have to be made to make good the defficiency. One good step in this direction has been to make over the management of road sides, canal banks, and strips of land along the railway lines, to the Forest Department for growing and maintaining tree plantations therein. Plantation of *shisham* is being done by the Forest Department on many strips of land.

Land not available for cultivation—This includes absolutely barren and uncultivable land, which cannot be brought under plough or the land under buildings, roads, railways and water or otherwise appropriated for non-agricultural purposes. The area in this category is 78,122 acres or 4.7 per cent of the total area. More and more of land would appear to be coming under this category due to the constructions going on under the Five Year Plans.

Other uncultivated land excluding fallow lands.—This denotes land available for cultivation whether not taken up for cultivation, or abandoned later, and includes culturable wastes other than fallows, permanent pastures and other grazing lands, and lands under miscellaneous tree crops and grooves not included under net area sown.

*Page 53.

In the canal irrigated areas and areas along drains which over-flow during rainy season, the problem of water logging is a big menace and the land is being spoiled by the appearance of salts popularly known as *kallar or thor*. Large areas have been affected by water-logging in Phul, Faridkot, Budhlada and Mansa N.E.S. Blocks. The problem has been aggravated by the untimely rains and floods in recent years. As explained in the section on 'Drainage' the gentle slope towards the District invites surface water from the adjoining Districts of Ferozepur. Ludhiana, Sangrur and Patiala. The Drainage Department is fighting this trouble by constructing a net work of drains described in chapter I. In addition, individuals and Panchayats are granted loans and grants by the Government for reclamation of land, for purchase of tractors and for installation of tube-wells, and pumping sets. As a result of these various measures, vast areas are being reclaimed both by the farmers individually and the village Panchayats collectively. As a result the area of the uncultivated land (excluding fallow lands) has been reduced from 91,493 acers in 1951 to 28,127 acres in 1961.

Cultivated area.—In revenue terminology a land is called cultivated if it has had even one sowing during the previous four harvests. The cultivated area thus consists of (i) current fallows and (ii) net sown area. The position of the cultivated area in the District may be studied with the help of the following figures —

	Quinquennial average	
	1948—53	1958—63
Current fallow (acres)	176,305	40,237
Percentage to total area	12.31	2.40
Net sown area (acres)	1,106,028	1,529,845
Percentage to total area	77.20	91.16
Cultivated area (acres)	1,282,333	1,570,082
Percentage to total area	89.51	93.56

In the State as a whole, cultivated area forms 65 per cent of the total area. The corresponding figure for Bhatinda District works out to 89.57. The small percentage of fallow lands is another feature to be noted for the District. With the growing emphasis on intensive cultivation, the practice of taking crops from the same plots successively for a number of years is coming into vogue. And there is nothing wrong in it for agricultural research has proved that with good manuring and judicious rotation of crops, it is seldom necessary to allow land to lie fallow.

IRRIGATION

The annual rainfall in the District is about 19 inches, which is erratic and confined mostly to the monsoons. Hence necessity of artificial irrigation. Irrigation in the Distict is had from canals, wells and of late from tubewells and pumping sets. The net irrigated area in the District increased from 574,596 acres in 1951 to 728,520 in 1961. The latter figure constituted 47.6 per cent of the net sown area (Table 5)*

Canal irrigation.—The main source of irrigation are the canals. All the three branches of the Sirhind Canal, namely, the Kotla, Bhatinda and Abohar Branches serve the District. The construction of the Sirhind Feeder has necessitated the remodelling of the channels not only lying to its west but also of those lying to its east so that water in the western and lower channels is supplied by the Sirhind Feeder and in the eastern and upper channels by the three branches of the Sirhind canal. Many new distributaries like Bhaini and Surakhpur have been constructed and other distributaries and branches are on way to construction under the Five Year Plans. The Bhakra Canal system has also contributed to canal irrigation in the District though to a small extent.

More and more land is coming under canal irrigation in the District. The canal irrigated area during the years 1948-53 was 567,392 acres; it increased to 716, 220 acres during 1958-63 which forms 98 3 per cent of the total net irrigated area in the District.

Wells.—Irrigation from wells plays a minor part in the District. Water in many parts of the District is very low from the surface and is brackish and unsuitable for irrigation. Well irrigation is practised in a limited number of villages in the Phul, Rampura, Nathana, Faridkot, Mansa, Budhlada and Jhunir N.E.S. Blocks. Tubewells and pumping sets do not appear to be of much help in the District. The area under well irrigation in the District was 7,204 acres in 1951 and it marked a small increase to 9,920 acres in 1961. There were also 2,140 acres under tubewells in 1961.

*Page 54.

Crops irrigated (*Table* 6)*.—The Table shows that both food crops and non-food crops avail of irrigation facilities. During 1958-63, out of a total irrigated area under all crops of 986,557 acres, as much as 535,301 acres were under food crops, chiefly wheat (280,976 acres), pulses (159,561 acres), and sugarcane (6,160 acres). Among non-food crops, cotton occupied 260,217 acres, and most of the remaining area was sown with fodders and oil-seeds.

Crops (*Table* 7)**.—As elsewhere in the State, there are two principal harvests in the District : *rabi* (*hari*), and *kharif* (*sawani*). The *rabi* or spring harvest consists of wheat, gram, barley, oilseeds, fodder crops, potatoes and winter vegetables. It is sown in October-November and harvested from mid-March to mid-May. The *kharif* or autumn harvest consists of rice, maize, sugarcane, cotton, most pulses, *bajra* and vegetables like chillies, onions and gourd. It is sown in June-August and is reaped from early September to late December. Sugarcane and cotton are sown a little earlier. Some crops come in between these two harvests. For example, *toria* matures late in December and is classed as *zaid* (extra) *kharif*. Similarly tobacco and melons are harvested late in June and are classed as *zaid* (extra) *rabi*.

As between the two main harvests, the area devoted to *rabi* crops is a little more than that devoted to *kharif* crops. The preponderance of *rabi* over the *kharif* is due to the extensive irrigation facilities. In Districts where land is dependent entirely on rains, *kharif* is the major harvest because rains occur mostly during the monsoon months.

Wheat.—Among foodgrains, wheat is the most important. It is the staple diet of the people and is sown all over the District. It is sown both under irrigated and *barani* conditions but mostly under the former. With improvement in irrigation facilities, the acreage under wheat increased from 227,656 acres in 1951 to 388,634 acres in 1961.

The District was estimated to produce 191 thousand tons of wheat in 1960-61, giving it sixth position among the Districts of the State, the District of the highest production being Ferozepur (362 thousand tons) and of the lowest production Lahaul & Spiti (less than 500 tons). Yield per acre in the District worked out to 1,214 lbs. in 1961 which was more than the State average of 1,070 lbs.

Bajra.—Another important food grain of the District is *bajra*. It is the principal *kharif* food crop and is grown all over the District. Although it is generally sown under canal irrigated conditions, timely monsoon rains greatly help in putting larger area under the crop. Though the total production of the crop in the District is fairly large, the yield per acre is modest.

Other cereals.—Barley, *jowar*, maize and rice are the other cereals cultivated in the District. Barley is sown on light sandy soils where wheat crop cannot give good yields, or when it becomes too late for sowing wheat crop due to shortage of canal water supply at the sowing time. Maize, *jowar* and rice are subsidiary *kharif* crops. Maize is sown under irrigated conditions, and of late there appears a trend in increasing its acreage with the growing preference for late hybrid varieties such as Ganga No. 1 and Ganga No. 2. Rice cultivation is conspicous for absence in the District there being only 567 acres devoted to it.

Pulses.—The pulses grown in the District are gram, *mash*, *moong*, *moth* and *massar*. Gram is a stiff rival of wheat in light sandy soils in unirrigated areas; both the crops have the same growing season, but the former gives over the latter because of its less water requirements. Gram is an important cash crop and from area point of view occupies the first position in the District. It is sown mostly under *barani* conditions and is well distributed throughout the District. In 1960-61, the total production of the crop was 140 thousand tons, and the yield per acre 585 lbs.; in respect of production the District occupied 5th position and in respect of yield per acre 16th position, among the Districts of the State; the total production was the highest in Hissar (518 thousand tons) and the yield per acre was the highest in Karnal (1,002 lbs. per acre).

Fruits and vegetables.—Vegetables are grown on a very limited scale chiefly near the towns, though the area devoted to them is extending.

The area under orchards is also very limited. High temperature, stormy winds, unsuitability of the sub-soil water for irrigation and inadequacy of canal water supply are the limiting factors for the development of horticulture in the District. Still the Government is encouraging the laying out of orchards by granting enhanced canal water supply, loans and grants. The technical know-how to farmers is supplied by the Horticulture Inspector and Plant Protection Inspectors. The Government Nursery at Faridkot supplies plants to farmers of the varieties suited to the area at reasonable rates. The environments in the District are suitable for the cultivation of citrus plants, particularly Malta. Some 80 per cent of the area under orchards in the District is occupied by *malta*. Guava and pomegranate are also cultivated. Of late, grape has also been introduced.

*Page 54. **Page 55.

Sugarcane.—Sugarcane is not an important crop in the District, occupying as it does some six thousand acres. There is no sugar mill in or near the District, so the cane produce is converted into *gur* and *shakkar*. Lack of irrigation facilities is a great limiting factor for increased production of this crop, though it is finding favour in the water-logged areas.

Condiments and spices.—Chillies is a minor commercial crop, raised mostly in Mansa Tahsil.

Oilseeds.—Rape and mustard are the most important oilseeds grown in the District. Then comes sesamum. Groundnut is grown on a small area.

Cotton.—Cotton is the most important commercial crop of the District. Both American and *desi* varieties are cultivated. Introduced in early fifties, the American varieties soon became popular and their production outgrew that of the *desi* variety. However, it is very sensitive to unfavourable conditions, and so of late the *desi* variety is being preferred in areas subject to floods and water-logging. The total area under cotton (both American and *desi* varieties) multiplied three times between 1951 and 1961, from 84,172 acres to 263,808 acres.

CROPPING PATTERN

Three systems of cropping are in vogue: *dofasli harsala, dofasli dosala* and *ekfasli harsala. Dofasli harsala* is double cropping, without allowing fallow. It usually takes the form of maize in *kharif* followed by wheat, gram or fodder in *rabi*. If the *kharif* be cotton, it is followed by *senji* or *methra* in *rabi*. This rotation is most common in irrigated areas. On some wells near the towns, sometimes three crops of vegetables or fodders are raised in a year.

The *dofasli dosala* consists in taking two successive crops of *rabi* and *kharif* and then letting the land fallow for a full year. This system is practised on lands irrigated by canals and also on firmer *barani* lands, but it is not popular and is frequently upset by failure of rains.

The *ekfasli harsala* means one crop in a year, which is mostly the *rabi*. This practice is in vogue in *barani* areas. If the soil is pure sand, the crop grown is gram. If good soil lies under the sand, a mixture of wheat and gram is grown year after year.

Crop-mixtures.—Mixed crops are quite familiar particularly in *barani* tracts. There are various reasons which prompt such mixed sowing. Gram and wheat are sown mixed to provide against the uncertainty of weather. If the rains favour, then the wheat comes up better, but should they be inadequate then at least gram may be expected to give some yield. A sprinkling of *sarson* is given in wheat fields; *sarson* so sown is removed early for green fodder and wheat is allowed to grow in full strength. Melons are sown with cotton and removed before the cotton shades the ground. It is also a common practice to grow pulses which do not acquire height alongwith *kharif* cereals e.g. maize and *mash, jowar* and *gowara, bajra* and *moong*, barley and *masoor*.

Mechanised cultivation.—The average size of holdings in the District is not big enough to offer encouragement to mechanised farming. But due to scarcity of labour and high wages, spread of education among the cultivators and their improved condition because of high prices of agricultural commodities, the number of progressive farmers is increasing and they are taking to improved agricultural implements like tractors, Hindustan ploughs, Maston ploughs, Punjab Junior and Senior Single Row Cotton Drills, Bar Harrows, automatic Rabi Drills, wheat thrashers and fodder cutters. Old implements are being replaced by modern implements in accordance with their utility and scope for use. The iron stirring plough which is being supplied by the State at 50 per cent subsidy is becoming quite popular. Improved Cotton Drills are common. In 1961, the District had 38,852 iron ploughs against the total of 478,122 in the State, 307 oil engines with pumping sets out of a total of 8,156 in the State, and 21 electric pumps for tube-wells out of a total of 8,784 in the State. The number of tractors in the District rose from 413 in 1956 to 1,153 in 1961.

Livestock (*Table* 11)*.— The District can boast of a fairly rich cattle wealth. At the 1961 cattle census, the total livestock in the District was 806,181 which gave it sixth position among the nineteen Districts of the State with Ferozepur topping the list (11,444 hundreds) and Simla coming at the bottom (939 hundreds). The quinquennium 1956-61 witnessed a slight increase of about 4,000 in the livestock of the District from 802,616 in 1956 to 806,181 in 1961. This may be due to the shrinkage of pasturage being not so conspicuous in the District as it has been in some other Districts where the number of livestock has declined. Where there is reduction in pastures, increasing recourse to stall feeding is being had and preference is given to quality over quantity. Between the two censuses 1956 and 1961, the increase is note-worthy among buffaloes and cattle. Horses and ponnies, sheep and goats registered a noticeable decrease.

*Page 57.

The local breeds of buffaloes and cattle are good, particularly the buffaloes which give good yield of milk. For improvement of livestock the breeds selected are the *Hariana* cows and *murrah* buffaloes. *Hariana* bulls purchased from the Government Livestock Farm, Hissar, are being distributed to the Panchayats. Two Artificial Insemination Centres have been established, one at Bhatinda and the other at Baja Khana with 6 key villages attached to each centre.

Four Sheep and Wool Extension Centres have been started at Kot Shamir, Phulu Mithi, Baja Khana and Talwandi Sabo from where pedigree rams are issued to the sheep breeders in the mating season. After the season is over, the rams are taken back by the centres. Government is taking steps also towards the development of fisheries. Suitable ponds are stocked with fish fingerlings of Rohu, Mori and Katla species and the Panchayats are being encouraged to take the work upon themselves, the Government supplying them the fry on cost. The Panchayats are given grants-in-aid and loans to improve the condition of ponds where fish-culture is carried on.

Bullocks and bulls (other than breeding bulls) constitute a bulk of the cattle, due to their use in cultivation work. The breeding bulls count (1961) 791 against 81,197 cows above three years of age, which means 103 cows to a bull. Apparently bulls other than the recognised breeding bulls are also put in service, which factor militates against improving the quality of animals.

Buffaloes.—The bovine population showed increase from 195,619 in 1956 to 251,950 in 1961. According to the latter figure, the number of buffaloes per thousand human beings comes to 239 which gives the District 6th position among the Districts of the State. The corresponding highest figure of 281 is claimed by Kapurthala District and the lowest figure of 151 by Simla District.

The female buffaloes preponderate among the bovines since male buffaloes are not good at ploughing The buffalo does much better than cow on stall feeding, and gives a better return for her up-keep.

Horses and ponnies.—There was a decrease from 4,153 in 1956 to 2,395 in 1961 in these animals. For this the introduction of speedier modes of travel appears to be primarily responsible.

Donkeys and mules.—These animals are used as beasts of burden, particularly for carrying earth and bricks, but as now motor vehicles are increasingly available for the purpose, the demand for these animals has declined.

Sheep and goats.—The rearing of sheep and goats received a set-back on Partition due to the migration of the Muslims who mainly maintained them. Even the last two livestock censuses have not arrested the decline in these animals for which there is great demand both for meat and wool. The sheep decreased from 119,168 in 1956 to 110,153 in 1961, and the goats from 196,896 to 115,000

Camels.—The camel is very popular for transport and ploughing in dry and sandy areas like Bhatinda. It is a rough forager and would subsist on any shrub and stand any amount of heat and drought. In 1961, there were 31,418 camels in the District against 31,276 in 1956. In camels, the District ranks next only to Hissar (72,054).

Pigs.—A few Harijans in and around urban areas rear pigs, the number of these animals being 820 in 1961.

Poultry.—Poultry stock has shown a decrease between 1956 and 1961 from 106,614 to 104,993. The number of poultry per thousand human beings came to 99 in 1961 which gave the District 6th position among the Districts of Punjab. Patiala occupied the first position (192) and Mahendragarh last (15).

Livestock Diseases.—Except for the water-logged areas and the low-lying areas which are easily flooded and where water stagnates, the District is healthy for the livestock. The most common contagious disease during the rainy season is Haemorrhagic Septicaemia which is commonly known as *Gal-ghotu*. so called because of its characteristic symptom of a swelling in the throat. It often proves fatal. Foot and mouth diseases (*Rora*) and Black Quarter (*Phar-Sujan*) also occur. Goiter and Liver Rot are found among the sheep and goats and Surra among the equines and camels.

The prevention and cure of livestock diseases are in the hands of a well organised Veterinary Department. Before Independence, the only veterinary hospitals in the District were located at Bhatinda, Mansa, and Faridkot, but after Independence there has been rapid expansion in the number. As on 31st December, 1960, there were as many as 15 Veterinary Hospitals and 29 Dispensaries in the District in addition to a number of First Aid Centres at the headquarters of Gram Sewaks all over the District. The veterinary Hospitals are under the charge of qualified Veterinary Assistants and the Dispensaries work under trained veterinary compounders.

B—INDUSTRIES

During the princely regime, there was not much industrial activity in the District. Village industries like handloom weaving, oil crushing by wooden *ghanis*, manufacture of ordinary agricultural implements, *desi* shoe making, *ban*-making, manufacture of *gur* and *shakkar* existed, making the village life very much self-sufficient. Calico printing and *phulkari* making were also in vogue. The industrial life of the towns was also marked by dearth of capital investment and machinery. Bhatinda, Kot Kapura, Rampura Phul and Mansa still carry on manufacture of *durris* of floral designs. Kot Kapura is associated with weaving of *khes* and *chaddars*, and Sardulgarh and Talwandi Sabo with calico printing. There is a colony of potters at Bhatinda. Kot Kapura, Faridkot, Jaitu, Mansa and Bhatinda produce *juties* (country shoes). *Ban* making is done at Faridkot and Bhatinda. Kot Kapura and Rampura still produce *phulkaris*.

A number of steps have been taken for the development of industries under the Five Year Plans. Under the First Five Year Plan an industrial training centre was set up at Kot Kapura and a sum of Rs. 30,000 was advanced as loans for the development of industries. In the Second Five Year Plan two Industrial Training Centres, one each at Bhatinda and Faridkot were set up and an industrial school for girls at Bhatinda was also started. Two centres were started for imparting training in shoe and soap making in the rural areas and large sums were advanced as loans and grants to various parties. Similar encouragement has continued under the Third Five Year Plan and Industrial Estates have been set up in Bhatinda town and Panj Grain village. But, all said and done, the District is still behind many others in industry. The flour mill at Bhatinda is the only large unit; other units are mostly of small scale, concerned with cotton ginning and pressing, agricultural implements, cycle and cycle parts, sewing machine and parts, steel re-rolling, wood and machine screws, electrical goods, surgical instruments, hosiery, rubber goods, conduit pipes, automobile parts, plastic goods, radio assembly, salt refining, steel furniture and salt-petre refining.

(i) LARGE SCALE INDUSTRY

Dating back to the princely days, M/s Bhupindra Flour Mills Private Ltd., Bhatinda is the only large scale unit of industry in the District with an investment of two lacs of rupees. In 1964-65, its total production was estimated at over Rs. 15 lakhs and it employed 20 workers.

(ii) SMALL SCALE UNITS

Cotton ginning and pressing.—Because of cotton grown extensively in the District, cotton ginning and pressing has developed fairly well. In 1964-65, there were 45 units which turned out 173,900 bales with the help of 1,700 workers. Another off-shoot of this progressing industry are a number of units engaged in the repair and even manufacture of ginning machine parts and pressing machinery.

Agricultural implements and machine tools.—As many as 521 units were working in the line in 1964-65. Wheat thrashers are manufactured in nine among these units. Since there are a number of tractors working in the District, servicing workshops exist practically in all towns. Two units have come up at Bhatinda for re-conditioning of diesel engines and fuel injection equipments. One automobile spare parts manufacturing unit has also gone into production at Bhatinda with the assistance provided by the Government. Tractor trollies are being manufactured at Faridkot, Kot Kapura, Bhatinda and in the Rural Industrial Development centre, Panj Garain.

Cycle and cycle parts.—There are three units engaged in the manufacture of cycle parts and their assembling, one at Bhatinda and two at Kot Kapura. Their production during 1960-61 was worth over Rs. 2 lakhs.

Sewing machine and parts.—M/s R.H. Mechanical Works, Industrial Estate Bhatinda, is engaged in the assembly and repair work of sewing machines. Their output in 1964-65 was 271 sewing machines.

Steel re-rolling mill.—There are five re-rolling mills in the District, four at Jaitu and one at Rampura. During 1964-65, they employed 185 workers and produced 6,733 tons of wares

Wood and machine screws.—There is only one unit in the line and its production in 1964-65 exceeded Rs. 54 thousand.

Electric goods.—M/s Hind Insulated Co. Bhatinda manufactures insulated cable and M/s Prince Electrical Works, Kot Kapura, manufactures brass electrical bulb holders.

Rubber goods.—There are three units in the line manufacturing *chapals* and straps. Their production during 1964-65 amounted to over Rs. 2 lakhs.

Radio transisters and sound equipment.—There are 12 units engaged in the assembly of radio sets but the dearth of imported raw material and components is very much standing in the way. Their production during 1965-66 was estimated at a little under Rs. 20 thousand.

Other small scale units.—M/s Bhatinda Pipe and Co. manufacture conduit pipes. Three units manufacture plastic goods such as baby toys and geometrical instruments. M/s Tin Printing and Tin-containing industry, Bhatinda, produce tin-containers. M/s Jain Tiles, Bhatinda, manufacture floor tiles. M/s Friends Chemical and Co., Kot Kapura, are engaged in the refining of salt-petre. One concern at Kot Kapura manufactures steel furniture.

Village Industries.—The tendency to keep villages self-sufficient has encouraged rural industries of diverse sorts, such as handloom weaving, leather tanning, *desi* shoe-making, carpentry, *gur* and *shakkar* making, *ban* and rope making. *Khadar* and various kinds of *kheses* are the main products of the hand weaving industry. Shoe-making, carpentry and pottery are traditional cottage industries. *Ban* and rope making is also an old village industry. M/s Golewala Khandsari at Golewala is the only unit in the District engaged in the manufacture of *khandsari*, besides *gur*.

STATE AID TO INDUSTRIES

The State Bank of India and other concerns make available working capital and provide financial aids to the manufacturers. The Government also provides financial aid in the form of loans, subsidies and grants-in-aid. The Industries Department issues essentiality certificates for granting Import Licences for raw materials, machinery and their components. It also arranges procurement and distribution of coal, coke, cement, iron and steel. It provides technical guidance for starting new industries and imparts industrial training at its various institutions. A Government Leather Tanning centre is imparting training at Kot Kapura. A Leather & Shoe-making centre is coming up at Rampura for training in shoe-making. The Rural Development centre at Panjgarain Kalan manufactures agricultural implements including thrashers and tractor trollies.

An Industrial Estate with 20 sheds has been set up at Bhatinda where sheds are given to the industrialists on monthly rental basis. The Rural Industrial Estate at village Panj Garain Kalan has 8 sheds. Rural Industrial Estates are proposed to be set up in village Rampura and at Faridkot. A Rural Industrial Development Centre for light engineering goods is also proposed for village Sandhwan in Faridkot Block.

C—TRADE AND COMMERCE

This District is surplus in agricultural produce which is disposed of in the twelve regulated markets listed below.

Market	Important commodities brought for sale.
1. Faridkot	Wheat, gram, *bajra*, *gur*, *gowara*, cotton and oil-seeds.
2. Kot Kapura	Wheat, gram, *bajra*, *gur*, *gowara*, cotton and *sarson*.
3. Jaitumandi	Wheat, gram, *gur*, cotton and *sarson*.
4. Gonianamandi	Wheat, gram, *gur* and cotton.
5. Bhatinda	Wheat, gram, *gur*, cotton, and oil-seeds.
6. Bhucho Mandi	Wheat, gram, *gur*, *gowara* and cotton.
7. Rampura Phul	Wheat, gram, *bajra gur*, cotton and oil-seeds.
8. Maur & Kot Fateh	Wheat, gram, *bajra*, *gur*, cotton and oil-seeds.
9. Ramanmandi	Wheat, gram, *gur* and cotton.
10. Mansa	Wheat, gram, *bajra*, *gur*, *gowara*, cotton and oil-seeds.
11. Budhlada	Wheat, gram, *bajra*, *gur*, *gowara*, cotton and oil-seeds.
12. Baretamandi	Wheat, gram, *bajra*, cotton and *sarson*.

The farmers employ mostly carts for bringing their produce to the markets, but trucks and tractor trollies have of late become quite popular. Co-operative Marketing Societies have been organised in all these markets who sell goods brought by their members which is a step towards eliminating middle-men. These societies have constructed godowns and give storage facilities to their members.

The principal exports from the District are wheat, wheat flour, gram, *bajra*, *gowara*, *gur* and cotton. Wheat, gram and cotton find a good market in Kerala, Madras and Maharashtra and some traders of these States have set up their agencies in the District to conduct purchases for them. With the opening of spinning mills at Abohar and Malout in the adjoining Ferozepur District, some of the cotton produced in the District is being utilised within the State. Among the export of manufactured articles, cycles and cycle parts are worth mention. The principal imports of the District are salt, sugar, kerosene oil, motor spirits, metals, gunny bags, cotton piece goods, warm cloth and machinery. Bhatinda town carries on wholesale business in cloth. A District Wholesale Society has been organised in the District since 1957. It deals in seeds, fertilizers, agricultural implements and insecticides and carries on transactions on behalf of its Member Societies after charging a nominal commission.

D—COMMUNICATIONS

The District is very well served by railways. The road development received fillip under the Five-Year Plans and all important towns and markets now stand connected by pucca roads. Postal, telegraphic and telephone services are also well spread out.

Railways.—Bhatinda is one of the biggest railway junctions in the State from where lines fan out in various directions. Bhatinda-Ferozepur section serves the northern part of the District and the important markets lying on it are Jaitumandi, Kot Kapura and Faridkot. Kot Kapura is connected through Fazilka via Muktsar. Bhatinda-Hindumal Kot section serves the western part of the District. Bhatinda-Hanumangarh section serves the south west of the District and Sangat is an important market situated on it. Bhatinda-Sirsa section of the Bhatinda-Rewari line serves Bhatinda and Mansa Tahsils in the south and Shergarh and Raman are the important markets situated on it. Bhatinda-Jakhal section passes through Bhatinda and Mansa Tahsils in the west and Maur, Mansa, Budhlada and Bareta are the important markets of the District situated on it. Bhatinda-Rajpura line serves the Bhatinda Tahsil in the west and Rampura Phul is an important market on it. The 33 railway stations located in the District are listed in Table 35.*

Roads (*Table* 33†).—The post-Independence period has seen a considerable expansion in road construction in the District, as is borne by the following figures:—

Year	*Road mileage*		
	Total	Metalled	Unmetalled
1950-51	138	110	28
1955-56	171	171	...
1959-60	358	254	64

The road mileage per 1,000 pupulation was 0.54 in the District in 1959-60. The corresponding figure for the entire State of Punjab was 0.75. In the same year length of roads per 100 sq. miles of area in the District worked out to 15.47 as against 25.65 for Punjab; this gave the District the 17th position among the Districts of the State, the first position being occupied by Simla District (388.89) and the last position by Mahendragarh District (14.64).

The roads are maintained by the Public Works Department and Local Bodies. Most of them are maintained by the former and they include the State Highways and the District Major and Minor Roads. There is no National Highway passing through the District, but there are three State Highways, namely Malout-Bhatinda road, Moga-Kot Kapura road and Kot Kapura-Muktsar road. Their length within the District was 56.76 miles and were metalled. The Major District Roads are also all metalled, their length being 34.25 miles. They are Ferozepur-Faridkot section, Faridkot-Kot Kapura road, Bhadaur-Barnala-Baja Khana road, Baja Khana-Jaitu section, Bhatinda-Kot Kapura section, Bhatinda-Talwandi Sabo road, Sunam-Kot Shamir section. The Minor District Roads cover 233.83 miles, 158.32 metalled and 75.51 unmetalled. No road is maintained by the Zila Parishad but the Municipal Committees maintain 71.41 miles of which 40.43 are metalled and 30.98 unmetalled.

Road Transport.—Though motor vehicles are becoming increasingly popular, yet the bullock carts still hold the sway in the country-side. A recent improvement introduced is the uses of pneumatic tyres in place of the tradltional wooden wheels. But the innovation has yet to popularize itself.

*Page 76. †Page 74.

With the improvement and extension of roads and the indigenous cycle industry, push-cycles are being used as extensively in villages as in towns.

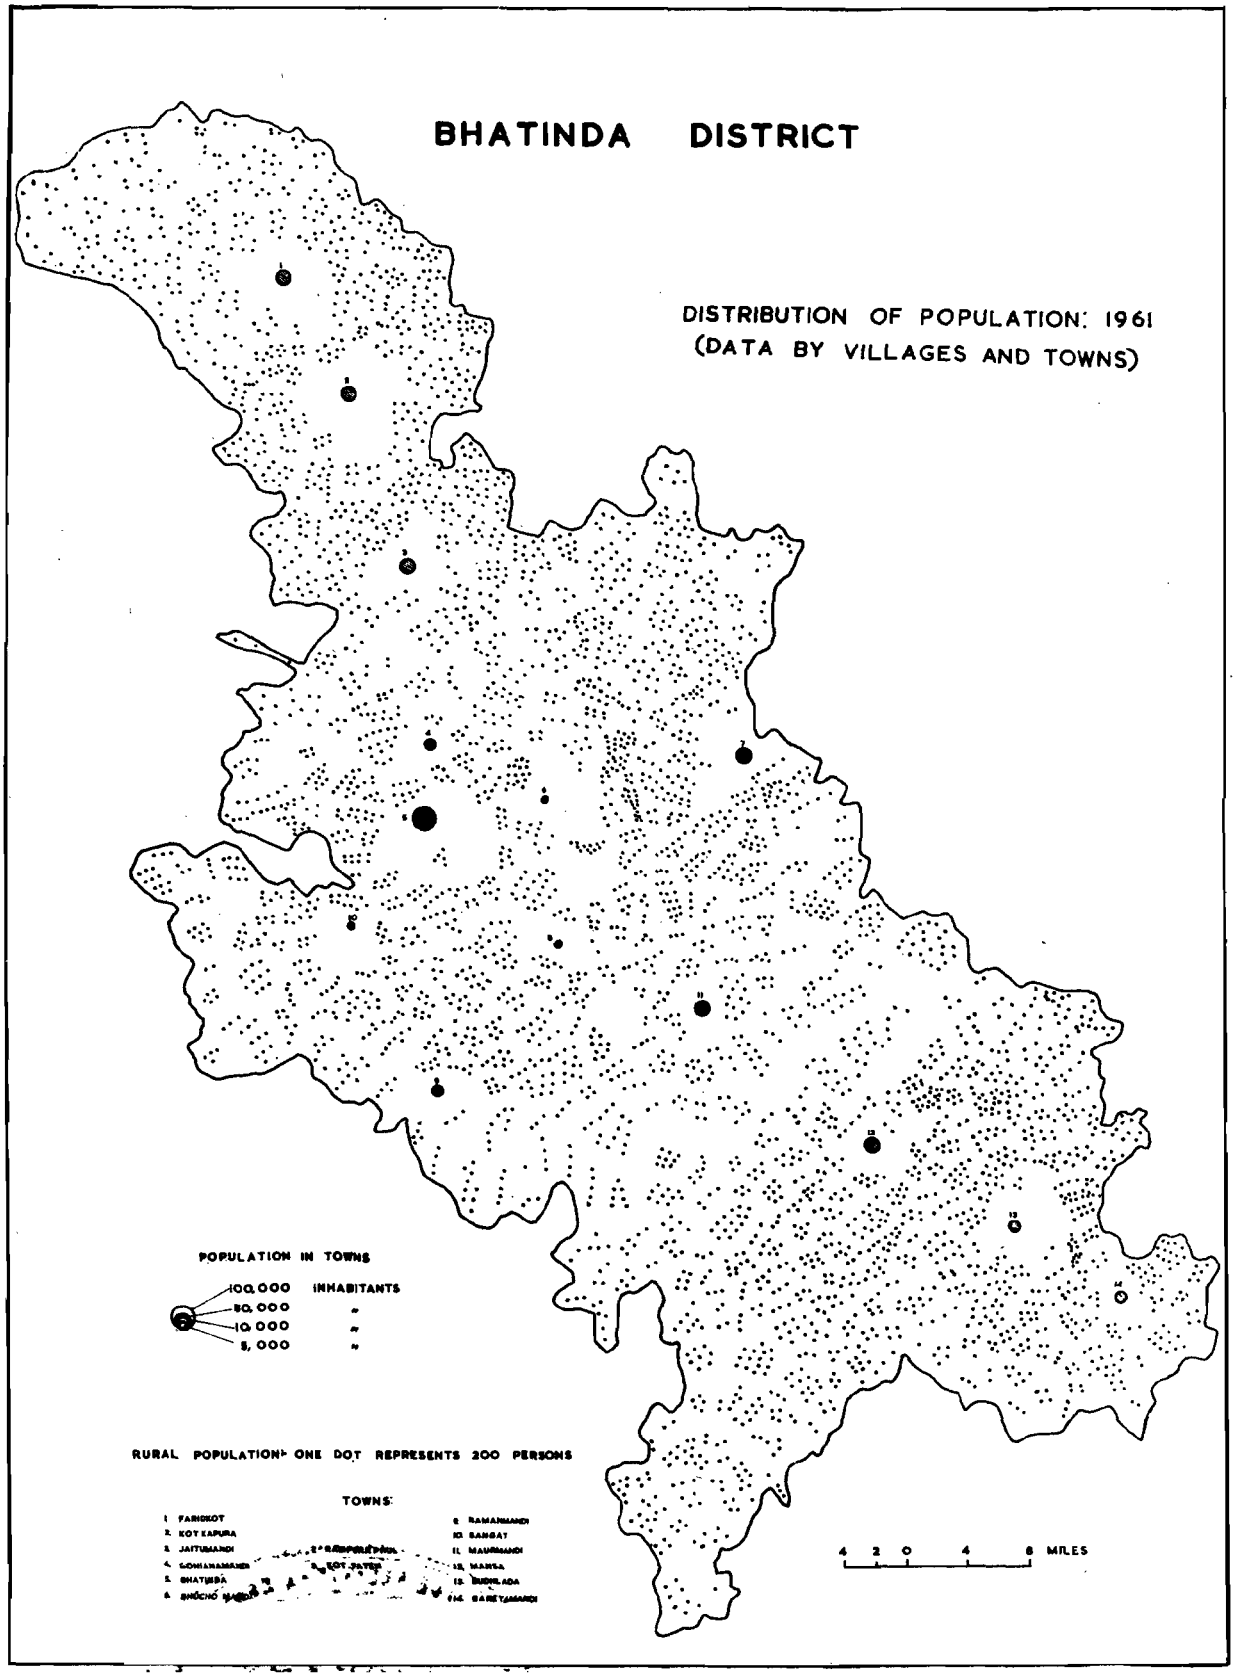

A remarkable feature of the post-Independence period has been a rapid decline in the use of *tongas* and *ekkas* drawn by horses. This is primarily due to the emergence of the cycle-rickshaws, which are cheaper and easier to maintain. The horse-carts, however, still countinue to be used on the roads in the country-sides, though as conveyance in towns not many of them are to be seen. Tempoes (three-wheeled vehicles) have also lately been put on roads and they are becoming popular in the rural areas as a cheap and swift means of conveyance.

Different types of motor vehicles on roads in the District on 31st March, 1960, were 1,013 as against 33,795 in the State. This gave 12th position to the District among the Districts of the State. Ambala occupied the topmost position with its corresponding figures of 4,725 and Mahendragarh the last with its figure of 200.

Post, telegraph and telephones:—The number of post offices in the District on 31st March, 1961, was 157: 33 in Faridkot Tahsil, 72 in Bhatinda Tahsil, and 52 in Mansa Tahsil (Table 34)*.

Apart from separate telegraph offices, telegraph facilities are available at a number of post offices. Telephone Exchanges function at Bhatinda, Bareta, Bhucho Mandi, Budhlada, Faridkot, Goniana, Jaitu, Kot Kapura, Mandi Phul, Mansa, Maur and Ramanmandi.

CHAPTER III

POPULATION

Part III of this book contains Tables relating to the 1961-census. These Tables are preceded by an exhaustive note explaining their arrangement and the terms used. Hence only the broad facts thrown up by these statistics are stated below.

On the sun-rise of 1st March, 1961, Bhatinda District had 1,055, 177 persons, giving it 12th position among the Districts of Punjab : Ferozepur District occupied the first position (1,619,116) and Lahaul & Spiti District the last (20,453).

Growth of population (Table A-II)*.— The figures of population of the District as at present constituted, are not available for the censuses before 1951. During the decade 1951— 61, the population rose from 786,889 to 1,055,177 showing a decennial percentage increase of 34.09. The corresponding percentage for the Punjab State was 25.86. The various health measures taken by the Government under the Plans have succeeded in reducing the death rate whereas the birth rate has gone up. The rapid expansion of agriculture and industry under the Plans are other factors contributing to the high rate of growth in population.

Density of population.— Punjab has, on an average, 429 persons to a square mile, with Jullundur as the most thickly populated (914) & Lahaul & Spiti District as the most sparsely populated (6). The number of persons per square mile in Bhatinda District works out to 397 which gives the District 16th position amongst the 19 Districts of the State.

The relative density of the Tahsils for the census years 1951 and 1961 is as follows :—

Tahsil	DENSITY	
	1951	1961
Faridkot	321	432
Bhatinda	289	392
Mansa	288	381

There is a bigger gap in the density of human population between rural and urban areas in the District than in the Punjab as a whole. The mean density in Punjab is 429 persons per square mile : 346 in rural areas and 9,476 in urban areas. The corresponding figures for Bhatinda District are 397, 316 and 9,827, respectively. As between the Tahsils, Faridkot has the lowest rural density (300). Corresponding figures for Bhatinda and Mansa Tahsils are 308 and 338, respectively. Urban density is the highest in Faridkot Tahsil, *viz.* 16,258. Then come Mansa and Bhatinda Tahsils with 8,474 and 8,063 respectively (Table A-I)†.

Villages (Tables A-I & A-III)**.—The District has 680 villages of which 15 are uninhabited (*be-charag*). The distribution of the un-inhabited villages Tahsilwise is : Faridkot 6, Bhatinda 5, and Mansa 4.

The number of persons per inhabited village works out to 1,251 in the District as compared to 763 in Punjab as a whole. The average population per village in the Tahsils is : Bhatinda 1,467, Mansa 1,161, and Faridkot 1,063. There is a preponderance of middle sized villages. Only 22 villages have population less than 200 each. Another 86 villages have population between 200—499. The population of 227 villages ranges between 500—999 and of 222 villages between 1,000—1,999. There are 102 villages whose population ranges between 2,000—4,999; of these 56 are in Bhatinda Tahsil 27 in Mansa Tahsil, and 19 in Faridkot Tahsil. There are 6 villages in the District (3 in Bhatinda Tahsil, 2 in Mansa and one in Faridkot) whose population ranges between 5,000—9,999. There is no village in the District with population 10,000 and above.

Towns. In Table A-IV† are given the particulars of 14 towns of the District. There is no Class I town (population one lakh and above) in the District. Bhatinda is a Class II town (50,000—99,999). It is an important trading centre and a prospering town. Its population has more than doubled between 1941 (24,833)

*Page 147.**Pages 145 and 148.†Page 149.

and 1961 (52,253). Kot Kapura, Faridkot and Mansa come in the category of Class III towns (20,000—49,999). Kot Kapura and Faridkot showed a slight decrease in population between 1941 and 1951, viz. 4.38 and 1.93 per cent. This may be an after effect of Partition. But both these towns have since more than made up this deficiency. Kot Kapura has shown an overall increase from 20,584 in 1941 to 32,021 in 1961 and Faridkot from 20,375 in 1941 to 26,735 in 1961. Among Class IV towns (10,000—19,999) are Rampura Phul, Jaitumandi, and Maurmandi. Jaitumandi showed a decrease of 33.35 per cent between 1941 and 1951 probably due to Partition, but between 1951 and 1961, it has shown an increase of 125.30 per cent ; similarly Maurmandi has shown an increase of 184.48 per cent between 1951 and 1961. Ramanmandi, Budhlada, Gonianamandi, and Baretamandi fall in the category of Class V towns (5,000—9,999). They all have shown an upward trend in population during the decade 1951—61, the increase of Gonianamandi of 104.00 per cent being noteworthy. Kot Fateh, Bhucho Mandi and Sangat come in the category of Class VI towns (below 5,000) ; all of them were classified as towns for the first time at the 1951 census, as also Baretamandi, Gonianamandi, Ramanmandi, and Maurmandi, and this classification has been upheld at the 1961 census.

78.8 per cent of the total population lives in villages and 21.2 per cent in towns. The corresponding figures for Punjab are 79.9 and 20.1. The towns in the District are a little more congested than an average town of the State, the urban density of the District being 9,827 as against 9,476 of Punjab. Kot Kapura is the most congested town in the District and has 32,021 persons, to a square mile. The urban density of the remaining towns in the descending order is 25,387 for Kot Fateh, 23,452 for Rampura Phul, 13,736 for Jaitumandi, 13,394 for Bhucho Mandi, 11,048 for Faridkot, 10,944 for Maurmandi, 10,447 for Ramanmandi, 8,989 for Mansa, 8,620 for Budhlada, 8,054 for Gonianamandi, 7,041 for Baretamandi, 6,532 for Bhatinda and 1,916 for Sangat.

Sex ratio.—Out of the total population of 1,055,177 of the District, 574,549 are males and 480,628 females i.e. a ratio of 54 : 46.

The number of females per thousand males comes to 837 as against 864 for Punjab and 941 for the Indian Union. This gives 15th position to the District among the Districts of the State, where Kangra comes on top with its figures of 987 and Simla at the bottom with its corresponding figure of 731.

During the decade 1951—61 there has been a slight recession in the sex-ratio in the District, as the following figures would show :

Year	FEMALES PER THOUSAND MALES	
	Bhatinda District	Punjab
1951	838	858
1961	837	868

Among the three Tahsils, Faridkot Tahsil leads with 849 females per thousand males, followed by Bhatinda and Mansa Tahsils with their respective figures of 835 and 829. Sex ratio for rural areas of the District works out to 837 and for urban areas to 834. The corresponding figures for 1951 were 840 and 831, respectively. Thus whereas urban areas show an improvement over the decade in favour of females, rural areas show a decline.

Age Composition.—In Table C-II* the 1961 population of the District is distributed into various age groups. With view to comprehending the comparative strength of these groups a Table is presented on the next page in which totals have uniformly been taken as 1,000.

*Page 214.

DISTRIBUTION OF 1,000 PERSONS OF EACH SEX BY AGE GROUPS

Age group	Total Population			Rural		Urban	
	Persons	Males	Females	Males	Females	Males	Females
1	2	3	4	5	6	7	8
All ages	1,000	1,000	1,000	1,000	1,000	1,000	1,000
0—9	305.91	297.11	316.43	296.21	314.52	300.43	323.55
10—14	124.07	121.66	126.94	122.05	127.94	120.22	123.22
15—19	90.93	91.11	90.72	91.22	91.33	90.70	88.44
20—24	85.50	84.71	86.44	82.70	83.89	92.19	95.94
25—29	75.51	75.34	75.72	73.83	74.41	80.96	80.60
30—34	60.54	59.52	61.76	57.98	60.71	65.25	65.66
35—39	45.64	45.74	45.53	44.41	44.83	50.68	48.13
40—44	49.27	49.33	49.18	49.29	49.80	49.49	46.87
45—49	36.78	38.86	34.30	38.98	34.66	38.43	32.94
50—54	40.90	44.15	37.02	45.53	38.17	39.01	32.76
55—59	19.64	21.96	16.87	22.62	17.32	19.49	15.17
60—64	28.15	30.21	25.67	31.96	26.80	23.71	21.48
65—69	10.81	12.49	8.81	13.22	9.14	9.76	7.59
70+	26.06	27.50	24.34	29.74	26.31	19.19	17.02
Age not stated	0.29	0.31	0.27	0.26	0.17	0.49	0.63

Too much reliance cannot be placed on the inferences to be drawn from the above Table since a District is a small geographical area and the inflow and outflow of population as disturbing factors may be appreciable. With this reservation some inferences are noted below.

The age pyramid has a broad base and tapers rather obliquely : 306 persons per thousand of the population are below the age of 10 and 85 of the age 55 years and above. Roughly speaking 4 out of every 10 persons are below the age of 15, 5 in the age-groups 15 years to below 55 and one past the age of 55. Males below the age of 15 years are 419 per thousand males ; corresponding figure for females is 443. For ages between 15 and below 55 years, the males count 489 per thousand males and females 481 per thousand females. In ages 55 years and above the males are 92 and females 76.

It is a daily observation that a large number of persons shift from villages to towns for study and livelihood. The low paid among them leave their families in their village homes and live in the towns by themselves. When past the age of useful work, some among them return to villages. The effect of this type of movement is reflected in the statistics of rural and urban age composition. For age-groups below 15, 15 to below 55, and 55 and above, the distribution among males is 418, 484 and 98 per thousand males in the rural areas, and 421, 507, and 72 in the urban area. The corresponding figures for females are 442, 478 and 80 in the rural area and 447, 491 and 61 in the urban area.

In Table C-II* persons in different age-groups are further classified according to their marital status. To comprehend the significance of these figures one thousand males and one thousand females for the District as a whole and for rural and urban areas are distributed below according to marital status.

1,000 MALES AND FEMALES CLASSIFIED ACCORDING TO MARITAL STATUS

Marital Status	Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
Total	1,000	1,000	1,000	1,000	1,000	1,000
Never married	598.41	501.70	603.18	500.27	580.70	507.04
Married	358.72	428.98	352.04	428.76	383.54	429.80
Widowed	41.22	67.59	43.14	69.23	34.07	61.46
Divorced or Seperated	1.19	1.15	1.29	1.25	0.83	0.78
Unspecified status	0.46	0.58	0.35	0.49	0.86	0.92

It will be seen that in the District as a whole 60 per cent of males and 50 per cent of females are unmarried. The higher number of unmarried males is due to shortage of females which aspect has been studied earlier. Correspondingly there is a higher proportion of the married among females than among the males

The proportion of married males is higher in towns than in villages but the proportion of married females is nearly the same in villages and towns.

Marriage in this country is universal and there is always an explanation for an old bachelor or spinster. In the following Table, unmarried males and females are expressed in terms of 1,000 males and females.

AGE COMPOSITION OF 1,000 NEVER MARRIED MALES AND FEMALES

Age group	Rural		Urban	
	Males	Females	Males	Females
All ages	1,000	1,000	1,000	1,000
0—9	491.09	628.69	517.37	638.11
10—14	199.11	242.15	204.08	234.75
15—19	127.85	107.20	138.96	108.02
20—24	64.99	18.38	73.94	16.30
25—29	35.30	2.03	23.55	1.03
30—34	16.26	0.57	9.05	0.35
35—39	11.46	0.24	6.32	0.29
40—44	12.88	0.23	6.30	0.06
45—49	9.22	0.08	5.06	0.04
50—54	10.73	0.08	5.46	0.04
55—59	5.29	0.02	2.40	0.00
60—64	7.28	0.03	2.84	0.08
65—69	2.76	0.03	1.64	0.04
70+	5.56	0.07	2.39	0.04
Age not stated	0.22	0.20	0.64	0.85

*Page 214.

It will be seen that there are 65 bachelors per thousand males in villages who are past the age of 34 years, and there are 3 spinsters per thousand females who are past the age of 24 years, in rural areas. The corresponding figures for urban areas are 32 and 2, respectively.

Literacy.—Three Tables labelled as C-III* give information on literacy by age groups, sex, and for total, rural and urban areas of the District. The position is summarised below.

LITERATES PER THOUSAND PERSONS ABOVE THE AGE OF FIVE YEARS

Educational Level	Bhatinda District		Punjab	
	Males	Females	Males	Females
Total	1,000	1,000	1,000	1,000
Illiterate	685	886	611	831
Literate	315	114	389	169
Literate (without educational level)	165	64	167	85
Primary or Junior Basic	115	43	166	70
Matriculation and above	35	7	56	14

Roughly speaking, only one male out of three, and one female out of nine can at least read and write—the test adopted for literacy at the 1961 census. About half this number had passed the Primary or Junior Basic and higher standard. One male in 29 and one female in 146 had crossed the Matriculation level.

The ruralites have a considerable leeway to make up in order to come in line with the urbanites in the matter of education. In the towns of Bhatinda District there are 549 per thousand males and 299 per thousand females who are literate but in the villages they are as few as 252 and 64 respectively. This feature is common throughout the State where the literacy per thousand is 654 for males and 432 for females in towns and 319 for males and 104 for females in the rural areas.

Mother tongue (Table C-V)†.—As many as 40 languages were reported as mother tongue in the Dstrict. Punjabi predominated, the second place went to Hindi and the third place to Baori, as the following Table would show :—

DISTRIBUTION OF 1,000 PERSONS BY MOTHER TONGUE

Punjabi	832
Hindi	166
Baori	1
Urdu	N
Other languages	1

Religion (Table C-VII)**.—Distribution per thousand persons in the District, according to religion, is shown below ;—

	Number	Per thousand
Total population	1,055,177	1,000
Sikhs	762,677	723
Hindus	285,967	271
Muslims	3,340	3
Jains	2,209	2
Christians	956	1
Buddhists	23	N
Religion not stated	5	N

*Pages 218 and 219. †Page 220. **Page 222. N=means negligible.

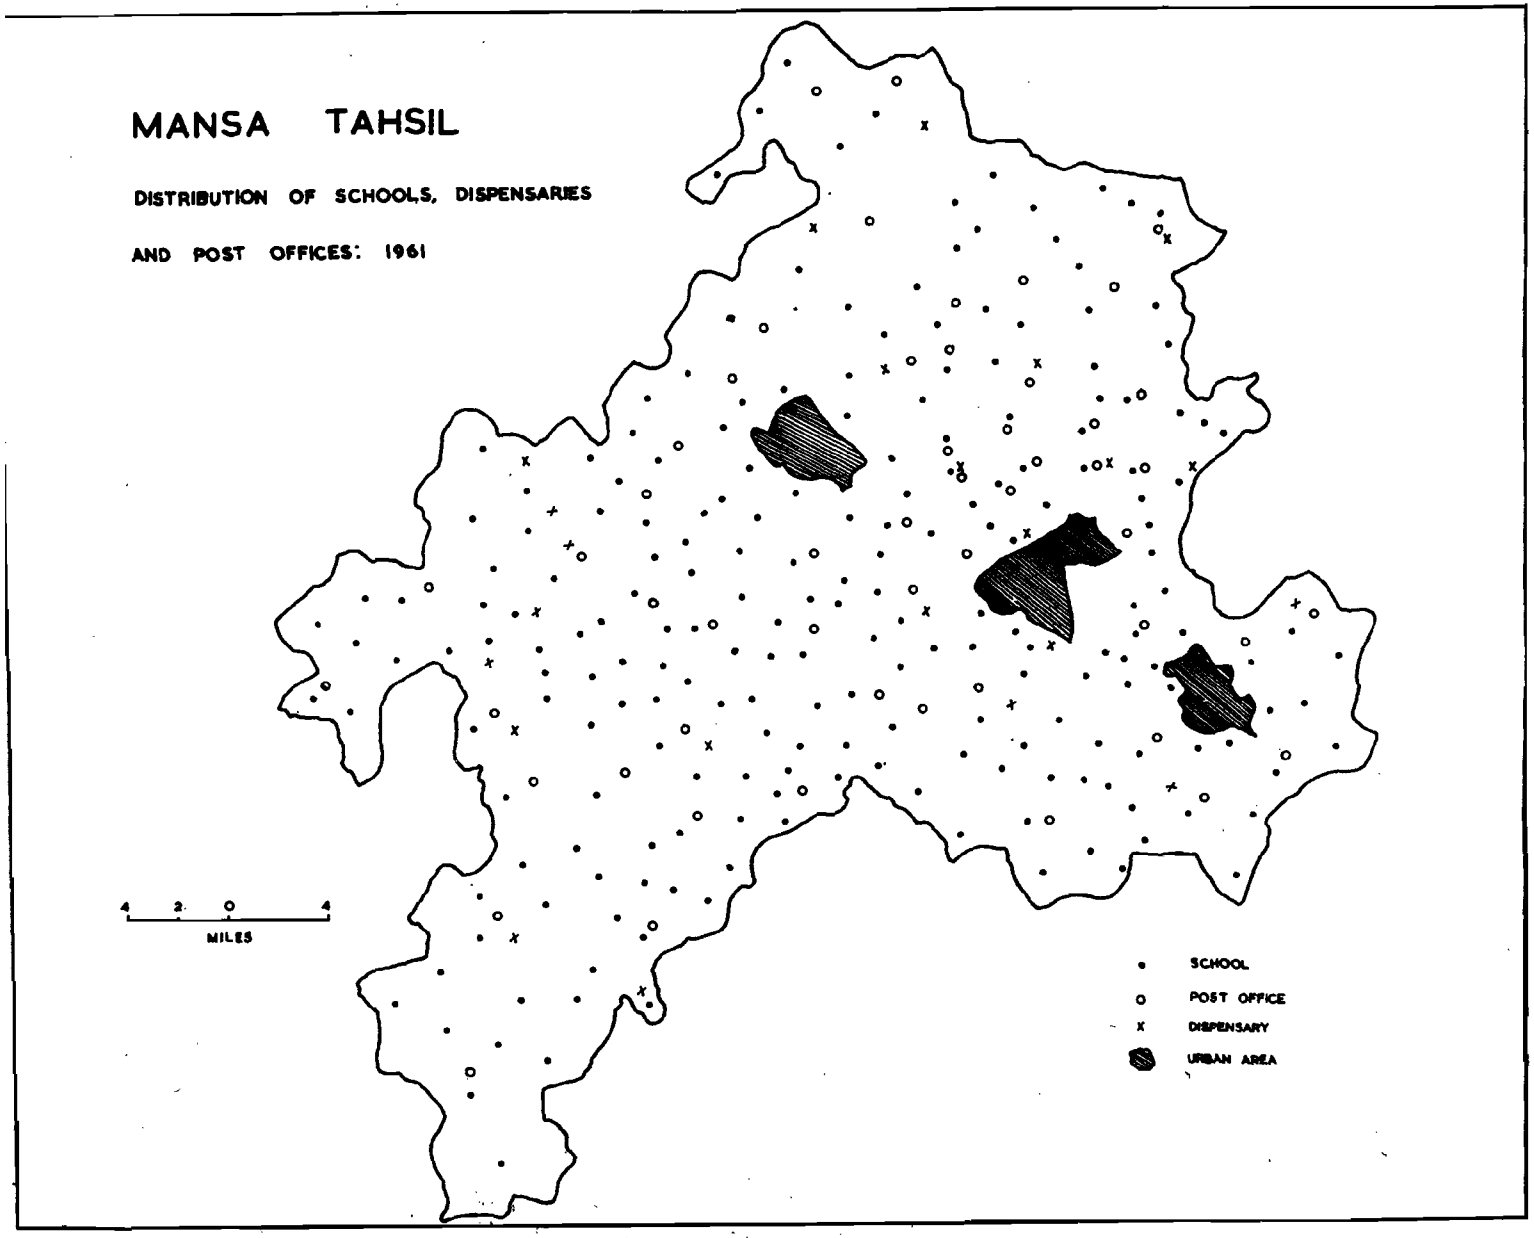

DISTRIBUTION OF 1,000 PERSONS BY EACH INDUSTRIAL CATEGORY

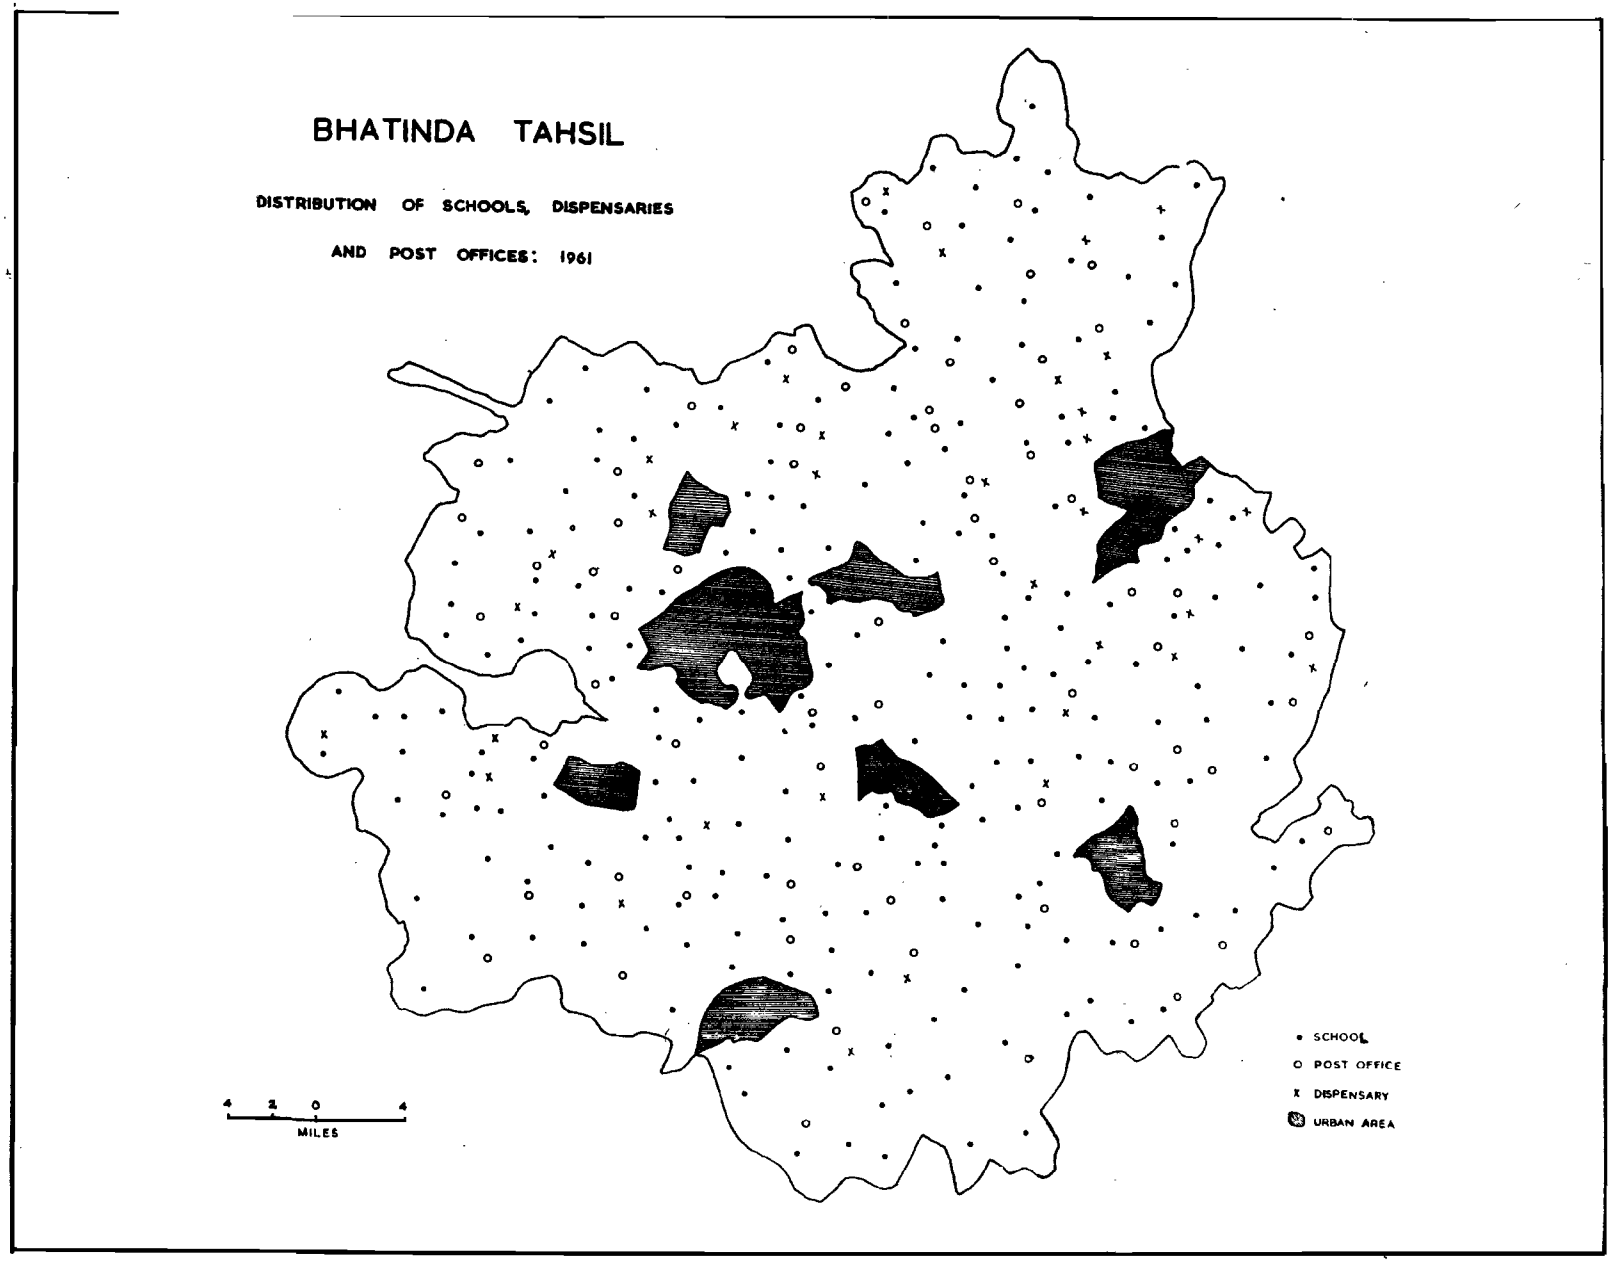

Industrial category	Bhatinda District			Punjab		
	P	M	F	P	M	F
Total population	1,000	1,000	1,000	1,000	1,000	1,000
Non-workers	658	443	916	650	471	858
Workers	342	557	84	350	529	142
As Cultivator	193	308	56	197	274	107
As Agricultural Labourer	42	70	7	27	44	6
In Mining, Quarrying, Livestock, etc.	4	8	N	3	6	1
At Household Industry	24	37	9	27	39	13
In Manufacturing	9	16	1	17	31	2
In Construction	6	11	1	7	12	1
In Trade & Commerce	22	39	1	19	35	N
In Transport	7	12	N	7	13	N
In Other Services	35	56	9	46	75	12

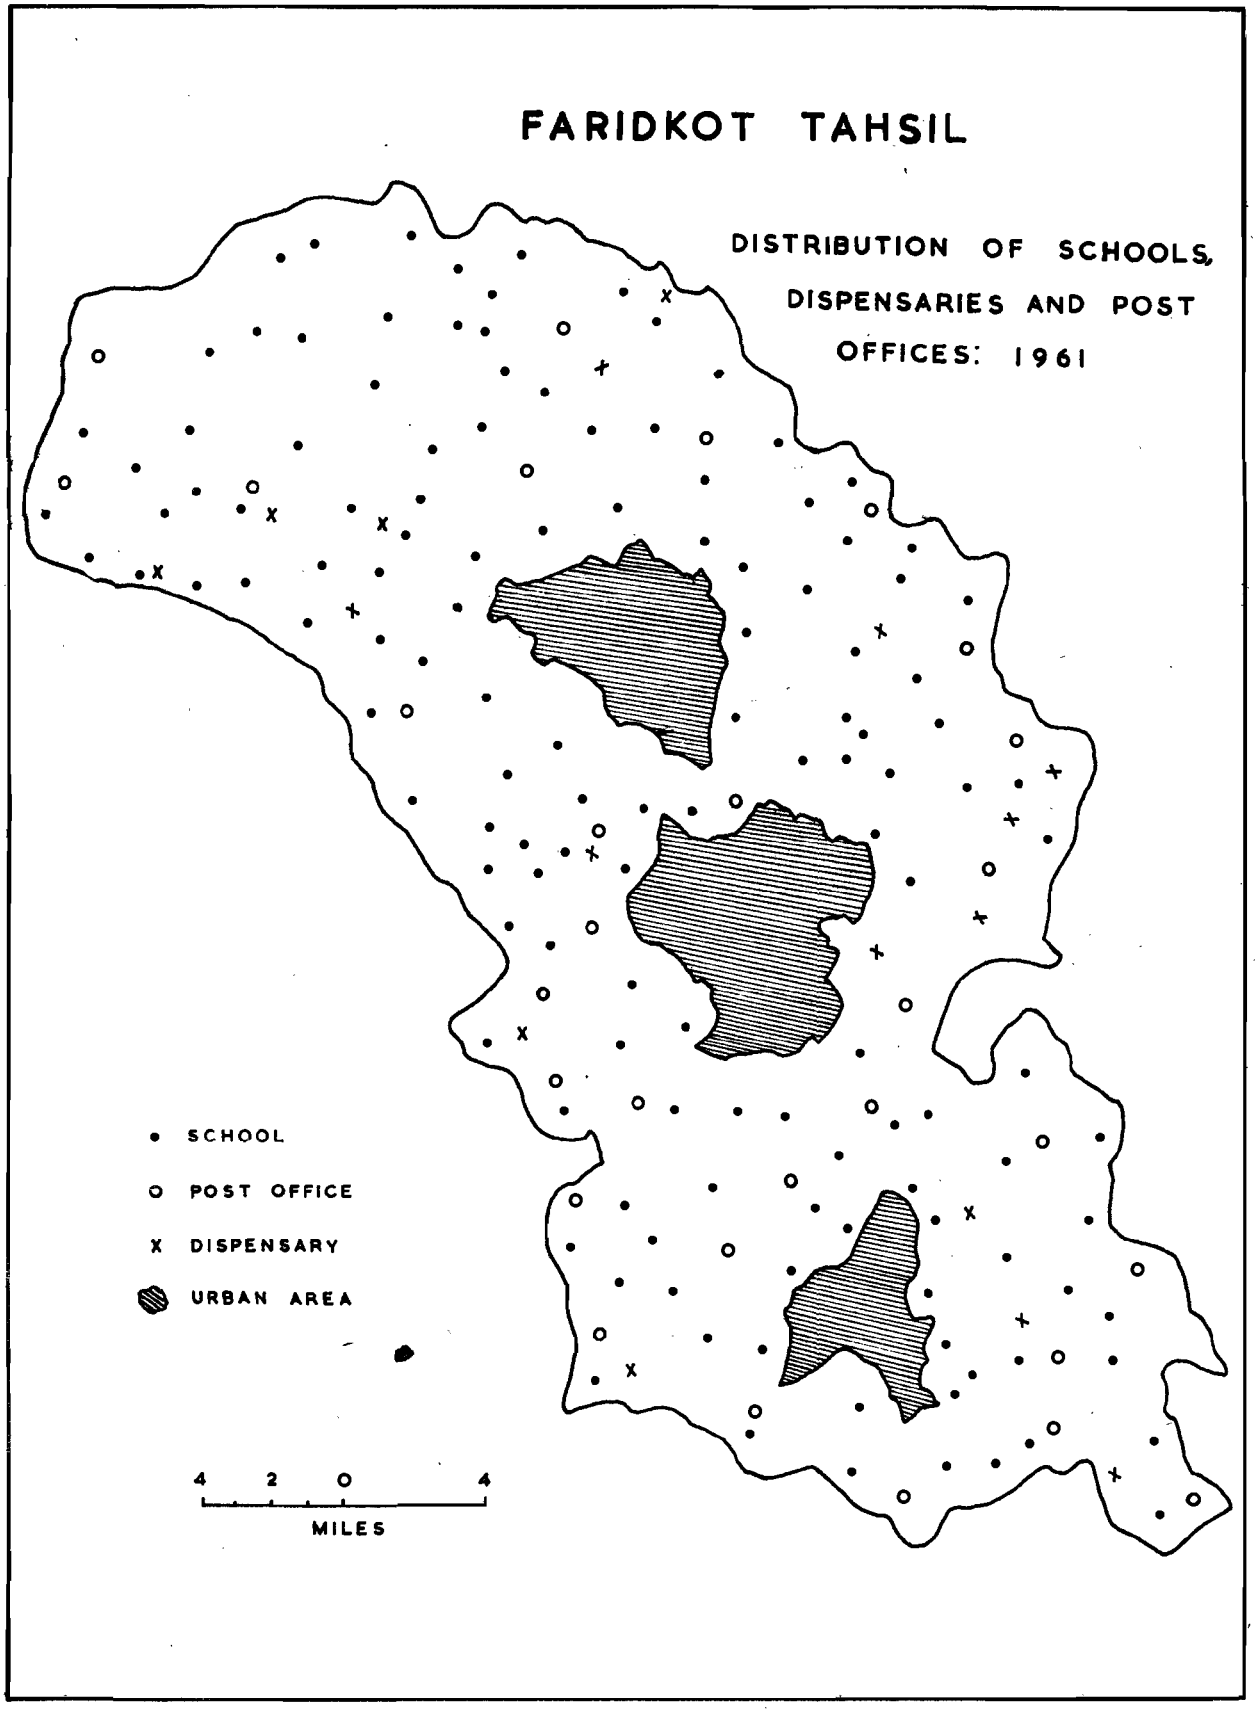

It will be seen that in Bhatinda District, of every 1,000 persons the number of workers is 342 and the remaining 658 are non-workers. The corresponding figures for Punjab are 350 and 650 respectively. The percentage of male workers in he District (55.7) is slightly higher than that in the State (52.9) ; but the percentage of female workers is very much less (8.4) in the District than in the State (14.2) and is worth notice. This smaller percentage of female participation may be due to some sections of the people still considering it derogatory to let their women folk do any gainful work except the routine household duties or due to the women folk being innocent of any pursuit or profession except the routine household duties.

Agricuture (peasant proprietors, tenants and agricultural labourers) absorbs 235 persons per thousand in the District as against 224 in the State. The percentage of Agricutural Labourers is also higher (4.2) in the District than in the State (2.7), due to the larger proportion of big land holdings.

The proportion of population working in Industry (Household and other type) is smaller in the District (3.3 per cent) than in the State (4.4 per cent) Construction, Trade & Commerce, Transport and Other Services also absorbed a fairly large proportion (7.0 per cent), though a little less than in the State (7.9 per cent).

CHAPTER IV
SOCIAL AND DEVELOPMENTAL ACTIVITIES

Education (Tables 17 to 19)*—.—Bhatinda has been backward District educationally, though since Independence it has made considerable progress. In 1951, the literacy percentage in the District was 9.25, which rose to 18.9 in 1961. The following statement shows the pace of progress during the decade 1951-61, chiefly under the impact of the Five-Year Plans.

	Schools		Scholars	
1951-52	Boys	Girls	Boys	Girls
Primary Schools	204	18	8,265	1,847
Middle Schools	23	7	2,948	870
High Schools	23	3	8,415	2,018
Total	**250**	**28**	**19,628**	**4,735**
1956-57				
Primary Schools	525	21	21,742	5,309
Middle Schools	40	14	7,653	3,690
High Schools	38	10	23,817	5,916
Total	**603**	**45**	**53,212**	**14,915**
1960-61				
Primary Schools	532	49	18,344	5,614
Middle Schools	40	5	7,119	2,991
High Schools	46	6	20,771	4,463
Higher Secondary Schools	4	2	4,867	2,325
Total	**622**	**62**	**51,101**	**15,393**

The school going boys past five years and below fifteen years in age are 33.1 per cent of the male population but the girl students in that age group are 11.5 per cent. Female education has come to occupy its own only after Independence. Female literacy at the 1951-census was 2.7 per cent but at the 1961-census it was 9.5 per cent. For this increase, Government efforts under the Five Year Plans are primarily responsible.

Despite free and compulsory education up to primary standard, the Scheduled Castes and the Backward Classes, particularly those inhabiting the rural areas, are still not enthusiastic about education. Government provides free education for them up to M.A. standard in Government institutions. Free books, free-ships, stipends and scholarships are awarded to the students belonging to these classes in all institutions including colleges under the various schemes sponsored by the State and Union Governments. Examination fees charged from them are refunded to them, and some seats for them are reserved in the professional and technical institutions.

Pre-primary schools.—There is one Government Nursery School at Faridkot. Besides there is one Model School at Faridkot and another at Bhatinda. ***Balwadis*** or nurseries are also being encouraged in the villages by the Block Development authorities

Primary and Basic schools.—Almost every village where there is a Panchayat has been provided with a primary school. With the introbuction of compulsory primary education the number of such schools is ever on the increase. The traditional 4 years' course has been converted into 5 years' course which is mostly in the hands of basic-trained staff. In the latest order of things, these schools are the responsibility of the Block Education Officer Their number in the District, in 1960-61, was 581 (532 for boys and 49 for girls) and the number of students studying therein was 18,344 boys and 5,614 girls.

* Pages 64 to 68.

Middle schools– In some cases primary and middle schools functioning at one station have been amalgamated. Lower middle schools have mostly been up-graded to Middle Standard. The middle schools are under the District Education Officer. Their number in the District, in 1960-61, was 45 (40 for boys and 5 for girls and the number of scholars studying therein was 7 119 boys and 2,991 girls.

High/Higher Secondary schools.– The latest Government policy is to convert High schools into Higher Secondary schools as soon as necessary staff and equipment are available. In 1960-61, the number of High and Higher Secondary schools in the District was 58, in which 32,426 students (25,638 boys and 6,788 girls) were receiving education.

Arts and Science colleges (Table 19)* .—There are only two Arts and Science colleges in the District, namely the Government Rajendra College, Bhatinda, and the Government Brajindra College, Faridkot. They had 458 boys and 26 girls on their rolls in 1951, and 1,277 boys and 181 girls in 1960. The Nehru Memorial college is coming up at Mansa.

Professional and Technical education.– The District has the following facilities of education in the field of agriculture, industrial training, and teacher's training.

Nursing.– There is a training centre for turning out Auxiliary Nurse Midwives at Faridkot. Besides, untrained *dais* are trained at the various Health Centres. A Commerce College (Bikram Commerce College) had also been started in Faridkot in 1945, but it was shifted to Patiala in 1955.

Agriculture.– An Agriculture College under the aegis of the Shiromani Gurdwara Prabandhak Committee is coming up at Talwandi Sabo.

Industrial Training (*Table* 18)**.– There was only one Government Industrial School for girls in the District at Bhatinda in 1960, with 57 students on its rolls. Since then a Government Industrial School for boys has also been set up at Bhatinda.

Teachers' training.– The Basic Training College at Faridkot is an institution of its own kind in the State. It trains teachers in Basic Education. It started working in 1960 with 32 boys and 11 girls on its rolls. There are two J.B.T. training institutes in the District at Faridkot, one for men and the other for women. J.B.T. classes are also attached to a number of Government and private schools.

Adult education.– A programme of social education has been introduced in the District. Some Adult-Education Centres are being run under the control of the District Social Education Officer. The Block Development authorities also run adult literacy centres.

Physical Education.—In High Schools and Higher Secondary Schools, physical education is organised under the guidance of a Physical Director or a Physical Training Instructor. Mass drill, mass marching and play-for all are arranged either at the opening of the schools or after the schools close. Major games are organised in the evening. Annual District and inter-District tournaments are held. Scouting also is encouraged. In Middle Schools and Primary Schools, the work of physical education is done by one of the school teachers and is directed from the District headquarters. Smaller children are taught action songs, motion stories and games. The colleges have their own Physical Training Instructors and regular teams in various sports and games. They participate in inter-College and inter-University sports.

N.C.C. and A.C.C. are important activities in schools and colleges. The National Discipline Scheme is also in force in the District.

There are associations in the District for games like football, cricket, hockey, volleyball, *kabaddi* and athletics. They are affliated to the District Olympic Association. They organise tournaments in the District and select players for inter-District and inter-State competitions. A District Sports Officer is there on behalf of the Government to help promote the various sports activities in the District.

Cultural activities.—There are no institutions devoted to impart training in fine arts like music and painting. There is, however, provision for teaching these subjects in most of the girls schools as a part of the curriculum. Many schools and colleges have dramatic clubs, fine arts societies and the like where students get direction and instructions in drawing, dancing, dramas, elocution etc. The colleges have literary societies which bring out college magazines. The Social Welfare Department and the Public Relations Department are also supposed to promote cultural activities.

*Page 68. **Page 66.

The United Theatre Bhatinda is an important cultural organisation which claims to have done creative work for the folk theatre of Punjab. They have produced a number of folk operas and dramas which they have staged in Punjab, Delhi and other States. Clubs also exist in some of the towns where both officials and non-officials assemble and pass their leisure.

Cinemas (Table 22)* .—There were 9 permanent cinema houses in the District in 1951-52; by 1954-55 the number increased to 10 and by 1956-57 to 11. But in 1958-59, the number dwindled to 9 and the same number continued in 1959-60. In addition to these permanent places of entertainment, moving talkies, theatrical societies and circuses visit the District off and on. Besides providing entertainment to the public, such activities bring a handsome income to the State Exchequer. The proceeds from the Entertainment Tax amounted to a little over Rs. 119 thousand in 1951-52 and Rs. 155 thousand in 1959-60.

Libraries.—With the spread of education, the Libraries are becoming popular. The municipal Committees maintain small public Libraries. All colleges and schools have their libraries for the use of the students and the teaching staff. Libraries and reading rooms are also maintained by the District Public Relations Department at various places in rural areas.

Newspapers and journals—Table 21** contains a list of thirteen newspapers, magazines and periodicals which were published in the District in 1961. According to the subjects with which they deal, their distribution is as follows:

General interest, news and current affairs	5
School and College magazines	5
Education	1
Films	1
Religion and Philosophy	1
Total	13

It is significant to note that with the exception of one, all these newspapers and magazines have been started after Independence.

Printing presses.—Particulars of 17 printing presses in the District are given in Table 20*†. Six are located in Bhatinda, three each in Kot Kapura and Faridkot, two each in Mandi Phul and Mansa, and one in Budhlada. All the presses are electrically worked.

Radios (Table 23)†.—Radio is gaining in popularity and there is hardly a village without a receiving set owned individually or by the panchayats. In 1961, 5,828 broadcast receiving licences were issued in the District.

Fairs and Festivals.—Particulars of the fairs and festivals held in the District are given in Table 52††. The fairs in which attendance is 10,000 and above are: the Dussehra at Faridkot, Kot Kapura and Jaitumandi; the Diwali and the *Shahidi Divas* (martyrdom day) at Jaitumandi; Baisakhi in village Jandwala in Tahsil Faridkot; the *Shahidi Mela* (martyrdom fair) in village Matta in Tahsil Faridkot; Dussehra at Bhatinda, Rampura Phul and Ramanmandi; the cattle fair at Maurmandi; Mela Mai Sarkhana at the village of that name in Bhatinda Tahsil: Baisakhi at Talwandi Sabo (Damdama Sahib) in Tahsil Bhatinda; Lohri at village Jassi Bagwali in Tahsil Bhatinda; Dussehra and the Mela Baba Bhai Gurdas at Mansa; and the Mela Mata Rani in village Kulana in Tahsil Mansa.

There are a number of prominent Gurdwaras in the District dedicated to the visits of the various Sikh Gurus, particularly Guru Hargobind, Guru Teg Bahadur and Guru Gobind Singh. Fairs are regularly held at these Gurdwaras in which thousands and thousands of Sikhs and Hindus from all over the country participate. The most important of them all is Baisakhi at Talwandi Sabo, which in reverence to Guru Gobind Singh is called Damaama Sahib because he is said to have taken rest (dam) and stayed here for some nine months after the battle of Muktsar. Guru Gobind Singh named it Guru Ki Kashi and dictated the sacred Granth Sahib at this place, and made it a centre of Sikh religion and culture. The fair in the name of the goddess in village Mai Sarkhana in Tahsil Bhatinda is largely attended. It is said that the flame of *Latan Wali* goddess with its shrine at Kangra, appeared at this place on the prayers of a *sadhu* and some villagers of this village who had gone all the way to Kangra to pay their respects to the goddess. The spot of the flame is said to be now covered by the temple of the goddess. The shrine of Baba Farid, the saint after whom Faridkot is named, is held in esteem by all communities and a big annual fair is held there in the month of Asoj. Cattle fairs form an important part in the economy of the District and they are regularly held at various markets there.

Social Welfare activities.—Social Welfare Officers are working at the District and Tahsil headquarters under the State Social Welfare Department. They look after the interests of the Scheduled Castes, Denotified Tribes (*Vimukt Jatis*) and Backward Classes in various ways. A number of schemes are being run under the Union and State Governments under which loans and grants are given to these castes and classes for acquiring land,

* Page 71. **Page 70. † Page 71. †† Page 90. *†Page 70.

building houses, drinking-water facilities, agricultural implements and bullocks. Community Welfare Centres are opened for them, which are serving as light houses for the uplift of these backward sections of society. Their children are taught there good manners and crafts. Adult classes are also held to teach crafts. They are also given loans to start trade and industry. Reservation of seats in the various educational institutions is arranged for them and they are given stipends, books, etc., to do their education.

A number of non-official agencies are also working among the Scheduled Castes and Backward Classes for their welfare, such as the Depressed Classes League, the Vimukt Jatis Sudhar Sabha, Backward Classes League, Harijan Sewak Sangh and Hind Sweapers Sewak Samaj. There are other voluntary organisations working in the District which render assistance and guidance to the poor and the needy in their respective spheres. The Indian Red Cross Society has a branch in the District. The All India Women's Organisation for Moral and Social Hygiene, which looks after the fallen and forsaken women and helps the administration in the checking of immoral traffic, has also a branch in the District. The Bharat Sewak Samaj is also functioning in the District.

Political activities.—The princes never countenanced political awakening among their subjects and put down any agitation in the political field with an iron hand. In this the British rulers gave them all support. But still the patriots in these feudal pockets did raise their heads and contributed their mite in the National Struggle for Independence. Jaitu Morcha of 1923-24 in which scores of patriots fell to the firing of machine guns by the Britishers has already been mentioned. S. Surain Singh of village Lambwali was one of the martyrs who had fallen at this firing. S. Hardit Singh and S. Hira Singh of village Puhla of Nathana Sub-Tahsil and S. Inder Singh of Karamgarh Chhatran had been arrested in connection with this very agitation and had died in the jail at Nabha due to the atrocities perpetuated on them. Another movement in which patriots from Bhatinda District gave their lives was the Namdhari agitation of 1872. S. Ram Singh and S. Sham Singh of Jogain Tahsil Mansa were among those who were shot dead at Malerkotla under the orders of the British rulers. Praja Mandals whose ideology was the same as that of the Indian National Congress were also organised in these princely States. Sewa Singh Thikriwala who had founded the Praja Mandal in Patiala State languished and perished in the jail of Patiala State in the pursuit of his objective, in the late 30's. Tara Singh of village Maur, Tahsil Faridkot, was a prominent worker of Faridkot Praja Mandal. He was arrested alongwith his brother and met the same fate in the jail in Faridkot State in 1944. On the attainment of Independence, the Praja Mandals of these princely States merged with the Indian National Congress and became its local units. Other political parties have also entered the District and like the Congress have their branches there and fight elections enthusiastically both for the State Assembly and the Parliament. Elections are also held for Municipal Committees, Zila Parishad, Panchayat Samitis and Village Panchayats and they are also hotly contested though more on local prejudices and personal popularity than on any political programme or ideology. There is reservation of seats for the Scheduled Castes for Parliament, Assembly, Panchayat Samiti and Gram Panchayat seats. The following Table shows the representation of the various politicial parties in the District at the various General Elections since 1952.

Year	Name of political party	No. of M. Ps. elected	No. of M.L. As. elected	*Number of votes in the District*		*Number of votes polled*		*Percentage of votes polled to total votes*

* For double member Kapurthala-Bhatinda constituency.

Medical and Public Health (Tables 24 to 30)*.—With the spread of education and scientific treatment of human ills coming nearer the reach of the people, the methods of faith-cure and quackery are taken resort to by fewer people now. Homoeopathy is practised by a few practitioners in towns. Ayurvedic and Unani systems are, however, liked by the people because of the simpler and familiar medicines prescribed. They were patronised by the rulers of the erstwhile Patiala and Faridkot States and are now receiving due recognition from Government. The number of Ayurvedic/Unani dispensaries in the District increased from 6 in 1951-52 (with 6 Vaids/Hakims) to 17 in 1960-61 (with 18 Vaids/Hakims), Table 25**.

The allopathic system was adopted by the rulers of the former princely States at first for their own households, and then extended as a system of medical relief to their subjects. But up to Independence such facilities were very meagre. Since Independence a large number of dispensaries have been established and the older ones properly equipped. Gradually the preventive aspect was also given due place by the opening of Primary Health Centres in various Blocks. These Health Centres provided services like medical relief, control of communicable diseases, maternity and child welfare and improvement of environmental sanitation. The total number of hospitals and dispensaries in the District in 1960-61 was 36: State Public 31, Railway 2, Canal 2, and subsidised 1 (Table 24†). The District Medical and Health Services were administered by two officers, namely, the Civil Surgeon and the District Medical Officer of Health. Broadly speaking, the Civil Surgeon looked after curative services whereas the District Medical Officer of Health was concerned with all preventive and promotive health services. Since July, 1964, the administrative set up of the Medical and Health Services has been revised. Now all medical and public health activities are under the control of the Chief Medical Officer who is assisted by two Deputies, one on the Medical side and other on the Health side.

Some specific diseases and their treatment.

(i) *Tuberculosis.*—Tuberculosis is one of the prime disease of the District. The pulmonary form is the commonest. To root it out, more emphasis is being laid on the preventive side of the disease than on the curative side. The B.C.G. vaccination campaign is in progress. A very good T.B. Clinic has been set up in Bhatinda. Arrangements for the treatment of the disease also exist in all the bigger hospitals of the District.

(ii) *Leprosy.*—It is not a problem in the District. Whatever stray cases are seen come from outside.

(iii) *Cholera.*—It is not an endemic disease in the District. It is mostly imported and is associated with the mass gatherings such as the Kumbh fair at Hardwar and the Solar Eclipse fair at Kurukshetra. Special preventive measures are adopted on the occasion of these fairs. Tanks are chlorinated, *kacha* drains and anti-fly measures are provided and anti-cholera inoculation is made compulsory for all the pilgrims attending the fair. Special Medical Inspection posts are established to detect and prevent importation of diseased persons. If any case is reported, all out efforts are made to contain the disease and prevent it from spreading.

(iv) *Small-pox.*—Due to ignorance and prejudice, people would no get their children vaccinated and when a case occurs the carelessness of those whose duty is to report that case to the authorities concerned results in the spreading of the disease. The Health authorities give the necessary education and warning to the people through their propaganda machinery and also take punitive action against the defaulters under the Vaccination Act and the Epidemic Diseases Act. They carry out a regular programme of vaccination and re-vaccination and the incidence of the disease is very much on the decline. Still it would appear that there is a tendency for the disease to appear in epidemic form once in a span of five to six years. Towards the removal of this disease, the Government of India have launched the National Small-pox Eradication Programme under which mass vaccination is conducted and the District is covered by that scheme.

(v) *Malaria.*—The water-logged and flooded areas bring about malaria. The District has been brought under the National Malaria Eradication Programme. An Anti-Malaria Officer with full compliment of staff works in the District and carries on surveillance operations side by side with spraying operations. In 1960-61, the number of the towns and villages so sprayed numbered 643 involving 163,120 houses, 858,732 persons, and an expenditure of Rs. 184,272. The activities of the Malaria Unit have brought the mortality and morbidity due to malaria almost to the base line.

(vi) *Trachoma.*—A high percentage of population is reported to be affected by this disease but there is no specialised agency to combat it apart from the relief provided in the general hospitals and dispensaries.

(vii) *Gastro-intestinal diseases.*—Due to defective water supplies and lack of proper environmental sanitation such diseases are quite common. A small beginning has been made to fight these diseases by installing water pumps, providing sanitary latrines and disinfection of the sources of drinking water.

*Pages 71 and 72. **Page 71. †Page 71.

(viii) *Fluorosis*—The incidence of this disease is fairly high in certain parts of the District due to the fluorine content of water from the wells being above the optimum level. The disease produces changes in teeth and bones and in advanced cases bones thicken and the body becomes stiff resulting in paralysis and pre-mature death. The preventive measure taken by the Government to combat this disease is to supply canal water for drinking purposes in place of well water. Special attention is now being given to protected water supply and sewerage both in the rural and urban areas. Separate Public Health Divisions have been set up to execute these schemes. Water-supply schemes have been launched or augmented by the Committees which could afford it. These schemes are, however, costly and some Municipal Committees cannot afford to undertake them even when help is forthcoming from Government. In such cases the Committees can at best provide hand-pumps. The Public Health Division helps the committees in constructing drains underground or over-ground whenever necessary funds are forthcoming. In the rural areas pavement and drainage of streets and installation of hand-pumps is being encouraged by the Community Development staff. The villages, however, leave much to be wanted in respect of sanitation. Fly nuisance, mosquito nuisance, waste water nuisance and heaps of filth and rubbish are common features of village life yet. In the area covered by Police Stations Sangat and Raman, people use pond water for drinking purposes which is very unhygienic.

Medical facilities.—As already stated, the number of hospitals and dispensaries in the District, in addition to Ayurvedic dispensaries, was 36 in 1960-61. They provided 334 beds (195 in the male wards and 139 in the female wards). With the spread of education, there is better awareness towards treatment of ailments in earlier stages. A large number of persons seek treatment at the various hospitals and dispensaries. Their number was 453, 044 in 1953 and 359,295 in 1960. This was in addition to the patients treated in the Ayurvedic/Unani dispensaries.

The area covered per medical institution in the District works out to 70.0 sq. miles and the population served per medical institution comes to 31,185. This gives 16th position to the District among the Districts of Punjab in regard to the population served and 15th position in regard to area served, per medical institution, Simla District occupying the first position in both respects, its corresponding figures being 13.1 sq. miles and 6,515 persons.

Crime.—The District is notorious for violent crime. There are numerous party factions resulting in murders. The position worsened after Partition, so that it became imperative to impose President's Rule in PEPSU in 1953. This had a salutary effect and the law and order situation is now fairly normal.

Table 43* shows the results of trials in the criminal courts from 1951 to 1960. The number of cases brought to trial has throughout been fairly high. The peak was reached in 1952 when 2,273 cases including those pending from previous years were brought before the courts for trial involving 3,905 persons of whom 1,779 were acquitted and 1,193 convicted. The smallest number of 910 cases was brought to trial in 1957 involving 1,999 persons of whom 535 were acquitted and 853 convicted. As the decade rolled by there was larger number of convictions than acquittals which shows better investigation and firmer grip of the forces of law and order over crime. The figures of individual crimes during the same period (1951 to 1960) would show that the incidence of crime in the District has been fairly high throughout. The largest number of 143 murders were committed in 1951 and the smallest of 36 murders in 1956. As many as 17 dacoities were committed in 1952 but subsequently there has been great improvement and there has been no dacoity continuously from 1956 to 1960. Burglaries, robberies and thefts were also the heaviest in 1951 but subsequent years showed considerable improvement. Cases of kidnapping were recorded throughout the decade except in 1960. Illicit distillation, opium smuggling and possession of illicit arms continue at a fairly high rate despite big detection and seizures. Illicit distillation is very paying and is carried on in the hide-outs provided by numerous depressions, channels, drains and groves of reeds. Opium is smuggled from Rajasthan and Uttar Pradesh. Illicit arms are chiefly smuggled from Rajasthan.

DEVELOPMENT ACTIVITIES

The following account relates to the trinity of *Samoohik Vikas, Sehkari Samaj* and *Panchayati Raj*, i. e., Community Development, Co-operatives, and Panchayats.

Community Development (Table 39)†.—The administrative set up of the community development work has already been given in chapter I. By now (November, 1965) the entire rural area of the District is covered by N.E.S. Blocks.

* Page 84. † Page 80.

The object of the Community Development is to improve the whole texture of rural life by organising aself-generating process of change and growth. People's participation and contribution in it is of prime importance. It is not easy to assess this contribution because mostly it takes the shape of manual labour which is difficult to evaluate. However, it cannot be gain said that the Community Development Programme has on the whole met with popular support and is slowly changing the face of the villages. The achievement of these Blocks cannot be set out in exact terms, but a broad outline of their activities is given below.

The cultivators are supplied with improved seeds, improved implements and fruit plants. New strains of crops with better yielding capacity and resistance to diseases and pests are developed at the research centres. Improved seeds are multiplied on the various seeds-multiplication farms and then distributed through the agency of co-operatives. Green-manure seeds and fertilizers are supplied to the cultivators on subsidy basis. The farmers are encouraged to dig up and maintain compost pits. The Community Development authorities also help the farmers in reclaiming land and laying out model farms.

Financial assistance is given for constructing and repairing percolation wells, and installing pumping sets and tubewells.

Improved animals like Nili buffalo bulls, Sahival cow bulls, cow bulls of Hariana breed, are supplied to the villagers. Artificial insemination centres have been set up. Improved varieties of fowls are also supplied to encourage poultry-farming.

Health and sanitation activities cover opening of new hospitals, primary health centres, rural dispensaries, Child Welfare and Maternity Centres, construction of drains, dry latrines and smokeless *chulhas* and pavement of streets, installation of hand pumps and construction of wells for drinking water.

Educational activities cover starting of new schools, upgrading of old schools, conversion of schools into basic type, and construction and repairing of school buildings. In adult literacy centres, men and women are encouraged to learn the three Rs. Libraries and reading rooms are also started, and the young villagers are encouraged to organise themselves into youth clubs. *Mahila Samitis* are organised for the welfare of the womenfolk. Children's parks and *balwadis* (nurseries) are started for the benefit of children. *Panchayatghars* and Community Centres and Community listening radio sets are provided for the benefit of the community at large.

People are encouraged to construct *kacha* roads, to repaire old ones and to convert the *kacha* roads into pucca ones and also to construct culverts on these roads.

The villagers are encouraged to organise themselves into Credit Societies. Industrial Societies, Farming Societies, and Service Societies of various kinds, and to actively participate in the activities of these societies.

Village and small scale industries are encouraged by setting up demonstration-cum-training centres at which the villagers are trained in various arts and crafts. The Community Development authorities have also tried to set up model villages to serve as examples for other villages.

CO-OPERATION

(*Tables* 15 & 16)*.—Partition damaged the co-operative societies badly and put the entire movement out of gear. Deposits accumulated over long years of hard labour and effort were lost overnight. The mass migration of Muslim members suddenly depleted the ranks of societies and the loans advanced to them became bad debts. The movement, however, did not take long to recover from that rude shock and has taken appreciable strides as the following statement would show:—

	1956-57		1959-60	
Societies	Number	Membership	Number	Membership
Primary Societies	987	32,964	1,320	63,258
Banks and Banking Unions	3	1,030	2	1,315
Agricultural Credit Societies	585	20,919	744	43,707
Agricultural Non-Credit Societies	155	5,119	194	7,980
Non-Agricultural Credit Societies	132	3,990	135	4,803
Non-Credit Societies	270	8,555	438	14,851

* Pages 61 and 62.

In the struggle for saving the agriculturists from the exploitation by private financiers, the Agricultural Credit Societies form the pivot in the Co-operative movement. These Societies include the habit of thrift and with that end in view, they mobilize rural savings, so that they serve the twin purpose of thrift and credit. Another feature of these societies is that non-credit worthy elements of the rural community like the Harijans are not denied the facilities of credit. There are some credit societies whose membership and loan operations are confined exclusively to the Harijans.

In 1956-57, there were 585 Agricultural Credit Societies with a membership of 20,919 and working capital of 3,456 thousand rupees; they issued loans amounting to Rs 1,866 thousand. By 1959-60, their number went upto 744 with a membership of 43,707 and working capital of 6,701 thousand rupees; in that year they advanced loans to the tune of 3,923 thousand rupees.

According to the latest policy of the Government, the Agricultural Credit Societies are being converted into Service Co-operatives whose object, besides advancing credits, is to undertake the distribution of production requirements like fertilizers, improved seeds, improved agricultural implements. They also market produce through the marketing societies organised in the regulated markets and also maintain light machinery, spray pumps etc. for common use of the members.

The number of Agricultural Non-Credit Societies increased from 155 in 1956-57 to 194 in 1959-60. Their membership increased from 5,119 in 1956-57 to 7,980 in 1959-60 and working capital from Rs. 573 thousand in 1956-57 to Rs. 2,820 thousand in 1959-60. They advanced loans amounting to Rs. 42 thousand in 1956-57 and Rs. 2,154 thousand in 1959-60.

The Non-Agricultural Credit Societies provide finances to artisans, traders, salary earners and persons in low income group in the urban areas. In 1956-57, when their number was 132, the membership was limited to 3,890 and the working capital to 565 thousand rupees. In 1959-60, their number was 135 with a membership of 4,803 and working capital of 687 thousand rupees, the loans issued by them being 407 thousand rupees.

Marketing Co-operatives of primary producers are being organised in all the important *mandis* of the District. Their number had increased from 11 in 1956-57 to 15 in 1959-60 and membership from 1,026 in the former year to 2,536 in the latter year. Besides functioning as commission agents in the markets for marketing of produce of the area, these societies also purchase wheat and other commodities for the government whenever required. With a view to aiding supply and marketing operations, the co-operatives are encouraged to acquire godowns. Apart from ordinary godowns, storage facilities are also being provided by the Co-operative Societies to their members in the shape of cold stores.

The Milk Supply Societies increased from 4 in 1956-57 to 12 in 1959-60; their membership was 54 in the former year and 177 in the later year.

Small scale and cottage industries are also encouraged to organise themselves on co-operative basis. The industries covered are handloom weaving, leather tanning, shoe-making, cycle parts and the like. There were 5 weaver's societies with a membership of 160 in 1956-57. The corresponding figures in 1959-60 were 16 and 332, respectively. The number of other industrial societies rose from 37 (membership 669) in 1956-57 to 111 (membership 1,719) in 1959-60.

Farming Societies are also organised in the District. Their number rose from 13 in 1956-57 to 25 in 1959-60, the membership for the corresponding years being 482 and 639, respectively.

Women Societies are also organised. Mostly they are thrift societies and provide finance for keeping deposits. They also undertake training and production in handicrafts and cottage industries like soap and oil-making.

Panchayat Raj—Waves after waves of foreign invaders in the past made depredations into this country but failed to make any permanent impression on the Indian way of life and culture. With the passage of time, their influences got sub-merged into the vast ocean of Indian culture of which our villlage Panchayats were the biggest repositories. The Bristish regime did a great harm to this country by substituting the Panchayats with a centralized bureaucratic system of administration. If India was to regain her lost glory, it was strongly felt, the Panchaytas must be revived. Mahatma Gandhi drew pointed attention to this basic necessity. He wrote "India's Independence must begin at the bottom. Thus every village will be republic or a panchayat having full powers. In this structure composed of innumerable villages there will be ever widening never ascending circles. Life will not be a pyramid with the apex sustained by the bottom. But it will be an oceanic circle, whose centre will be the individual always ready to perish for the village". Other leaders shared this view, and accordingly the organisation of village Panchayats was made one of the Directive Principles of the State Policy in the Constitution of India.

The Punjab Gram Panchayat Act, 1952, as amended up-to-date and the Punjab Panchayat Samitis and Zila Parishad Act, 1961, form the corner stones of the Panchayati Raj in the State. The structure consists of three

tiers namely a Panchayat at the village level, a Panchayat Samiti at the Block or Tahsil level and a Zila Parishad at the District level. All these three institutions are organically linked with each other by means of indirect elections. They are one superior to the other but do not constitute heirarchy, where one is subordinate to the other. They have clearly defined spheres of activities and have independent and distinct sources of revenue. This enables them to function without losing their initiative and self-reliance.

Gram-Panchayats.—A village Panchayat has an average strength of 5 to 9 members including a Sarpanch, elected by adult franchise. There is adequate representation for women and for members of the Scheduled Castes. In case no woman is elected as Panch, one is co-opted as additional Panch. The election to the Panchayat is held by secret ballot and its term is three years. The number of the village Panchayats in the District was 626 in 1960-61 in all with 3,966 members.

The Panchayats are expected to provide cheap and ready justice. On the criminal side, they have been given powers to try certain minor offences like petty thefts, hurt, affaray, and commission of public nuisance. They are under the control of the Session Judge, who can hear appeals from their orders, and transfer cases from one Panchayat to another. On the civil and revenue side, the Panchayats have been given powers to try civil and revenue judicial cases within certain pecuniary limits, and in respect of these cases they are under the control of the District Judge and the Collector, respectively.

Most of the villages are faction-ridden. The system of elections appears to have accentuated this factional spirit and the Panchayat proceedings are often marred by group rivalries and group feelings. These are perhaps pangs of birth, and with the spread of education, proper guidance and maturity of public opinion, it is hoped the things will improve. A pleasant feature, however, is that most of the cases coming up before the Panchayats are compromised, thus promoting harmony among the village community.

Besides, the Panchayats look to the requirements of their respective areas in regard to agriculture, education, animal husbandry, public health and sanitation including water-supply, works of public utility, games and sports, industries, medical health and relief to the poor. They are expected to arrange 50 per cent of the cost of local development works, in cash, kind or labour, and with the help of the concerned departments, they have done some really useful work in education, sanitation, provision of libraries and community listening sets, construction of *Panchayatghars*, building of dispensaries, planting of trees, play-grounds and children parks, construction of village appraoch roads, and culverts, pavement of streets, construction, repair and remodelling of wells for drinking water, and remodelling and repairing of ponds.

The village common lands now vest in the Panchayats. They receive a percentage of land revenue collection in the villages under their charge and grants from Government and sometimes from local bodies. They levy House Tax and professions Tax, and raise voluntry contributions. The fines and penalities they impose are also transferred to their funds. In 1960-61, the total income of the Panchayats in the District was Rs. 982 thousand and their total expenditure on education and libraries, public works, health, agriculture and veterinary services, administration and other miscellaneous items amounted to Rs. 823 thousand (Table 37)*.

Panchayat Samitis.—There is a Panchayat Samiti for each N.E.S. Block. It consists of (i) 16 members, elected by the Panches and Sarpanches, (ii), two members elected by the co-operative societies, and (iii) one member elected by the Market Committees. Besides, every M.L.A. with his constituency in the Block and such members of the Punjab Legislative Council as the Government may specify, work on the Samiti as associate members. Two women interested in social work and four persons belonging to the Scheduled Castes, if not elceted otherwise, work as co-opted members. The S.D.O. (Civil) and the Block Development and Panchayat Officer of the Block, work as *ex-officio* members. The Chairman and the Vice-Chairman are elected from among the elected members for a term of three years.

The Panchayat Samitis provide and make arrangements for carrying out the requirements of the area under their jurisdiction in respect of agriculture, animal husbandry and fisheries, health and rural sanitation, communication, social education, co-operation, and such other miscellaneous duties as development of cottage and small scale industries and other local development for the formulation and execution of Community Development Programme.

The sources of income with the Samiti are the local rate, fee derived from public institutions like schools and markets, fee from fairs and shows, rents and profits accruing from properties vested in it, and such moneys and grants which the Government may place at its disposal. The Samiti can, with the permission of the Zila Parishad, impose any tax which the State Legislature has power to impose under the Constitution.

Zila Parishad.—The Zila Parishad consists of the Chairman of every Panchayat Samiti, two members elected by each Panchayat Samiti, every M.P., M.L.A., M.L.C., representing the District or any part thereof, and the Dputy Commissioner. Two women and five members belonging to the Scheduled Castes, if not elected otherwise, are co-opted as members. The Parishad has a Chairman, and a Vice-Chairman, elected by the elected members for three years.

*Page 77.

The Parishad consolidates and co-ordinates the plans prepared by the Panchayat Samitis, examines and approves the budgets of the Panchayat Samitis and advises the Government in regard to Panchayats and Panchayat Samitis and keeps a watch over agricultural and production programmes and construction works.

The income of the Parishad accrues from Central or State Government funds allotted to it, grants from all-India bodies and institutions for the development of cottage, village and small-scale industries, share of the land cess, state tax or fees, income from endowments and such conttibutions as the Zila Parishad may levy on the Panchayat Samitis.

EXPLANATORY NOTE

The scope of the District Census Handbook has been enlarged this time, so as to include statistics on variety of subjects listed below. The material was collected from the concerned departments and the co-operation from them is acknowledged in the form of a foot note under each Table.

There are in all 52 Tables in this Part grouped under the following heads:—

Rainfall and Temperature	Tables 1 & 2
Agriculture	Tables 3 to 10
Livestock and Implements	Tables 11 & 12
Industry	Tables 13 & 14
Co-operation	Tables 15 & 16
Education	Tables 17 to 19
Printing and Publishing	Tables 20 & 21
Entertainments	Tables 22 & 23
Medical and Health	Tables 24 to 30
Vital Statistics	Tables 31 & 32
Transport and Communications	Tables 33 to 36
Local Administration	Tables 37 to 39
Banks, Insurance and Savings	Tables 40 to 42
Justice and Administration	Tables 43 to 49
Miscellaneous	Tables 50 & 51
Fairs and Festivals	Table 52

RAINFALL AND TEMPERATURE

Table 1 gives information regarding mean maximum, mean minimum, highest maximum and lowest minimum temperatures, mean relative humidity, mean wind speed, number of days of dust storm, thunder and hail storms, recorded at Bhatinda for each month for the year 1960.

Table 2 presents monthly and annual rainfall and the number of rainy days separately during five years ending 1960, for the various stations in the District. In the last column has been shown the average rainfall in each month during the years 1956 to 1960. These figures are very interesting, since they bring out the seasonal distribution of rains.

The rainfall figures have been given in inches, but the annual figures have been shown also in centimetres. Rainfall records are maintained at various important stations in the District.

AGRICULTURE

Table 3 shows the utilisation of land in the District for the period 1951 and 1961. Information has been worked out for the quinquenniums centring around the Census years 1951 and 1961. In this case the year is the agricultural year, ending with the 30th June.

The classification of area has been made according to the following schemes:—

(i) *Geographical area* represents the total land area as worked out from the Surveyor General and Village Papers. The changes in the area may be due to territorial adjustments, or remeasurements of land.

(ii) *Forests* include all area actually under forests, whether State owned or private, and administered as forests.

(iii) *Land not available for cultivation* comprises land put to non-agricultural uses, barren and uncultivable land like mountains, river and canal beds, roads and railway lines, building, etc.

(iv) *Other uncultivable land* includes (a) culturable wastes and other fallows (b) permanent pastures and other grazing lands, and (c) land under miscellaneous tree crops and groves, not included under net area sown.

Category (a) comprises land which can be brought under cultivation which has not yet been cultivated or has remained uncultivated successively for more than four years. Category (b) includes all such lands which are used permanently for grazing or collection of grass. Category (c) includes lands bearing fruit orchards and other plantations.

(v) *Fallow land* is of two types : First lands which remained out of cultivation for a period not less than one year but not more than 4 years, second lands which are left fallow up to one year only (current fallows).

(vi) *Net area sown* is the area on which sowing is actually done during the course of a year.

(vii) *Area sown more than once* is that portion of the net sown area which was sown more than once in a year.

(viii) *Total cropped area* is the gross area under all crops in a year, and is the total of net area sown and area sown more than once.

The sources of information for this Table are the Indian Agricultural Statistics (Volume I and II) and the Annual Season and Crop Reports published by the Director of Land Records, Punjab.

Table 4 shows assessment circle-wise classification of land in the District for 1960-61: total area according to Village Papers; area under forests; area not available for cultivation, area available for cultivation, and cultivated area according to means of irrigation. No publication has so far given such a useful and comprehensive data. It is for the first time that such information was collected.

Table 5 presents net, area irrigated, from (1) Government canals, (2) private canals, (3) tanks, (4) tubewells, (5) other wells and other sources. The information is presented for the same quinquenniums as selected for Table 3.

Table 6 presents gross area irrigated under various food and non-food crops in the District, for selected quinquenniums during 1951-61.

Table 7 shows area under principal crops in the District for quinquenniums during 1951-61. The principal crops have been classified into three categories: (I) Basic food crops, (II) Other food crops and (III) Non-food crops

Table 8 presents the average yield per acre of principal crops in the District: rice, wheat, *jowar*, *bajra*, maize, barley, gram, potatoes, sugar-cane, chillies, sesamum, rape, mustard and cotton. Information is given for 12 years ending 1960-61, and the yield figures are in terms of lbs. per acre.

Table 9 presents wholesale prices of various agricultural products like the rice (unhusked), wheat, barley *jowar*, *bajra*, maize, gram, rape seed, til, *gur*, unginned cotton, etc, as obtaining in the market at Bhatinda. Prices are in terms of rupees and maunds, and are for each month, 1957 to 1960.

Table 10 presents arrival of various agricultural commodities for sale in different regulated markets in the District during the year ending 30th June, 1961.

LIVESTOCK AND IMPLEMENTS

Table 11 presents figures for livestock and poultry for the District for the years 1956 and 1961. Poultry includes hens, cocks, chickens, ducks, drakes and ducklets.

Table 12 provides information on agricultural implements and machinery for the District and each Tahsil for 1951, 1956 and 1961. The information is collected along with quinquennial livestock census, conducted by the Director of Land Records, Punjab.

INDUSTRY

Table 13 relates to the working of registered factories during the years 1956, 1958 and 1960.

Table 14 gives particulars about registered factories in Bhatinda District as on 31st December, 1961. It also gives detailed information regarding the number of workers and nature of work.

CO-OPERATION

Table 15 presents information on various types of co-operative societies in the District. Particulars are given of the number of societies, their membership, working capital and loans issued. The figures relate to the years 1956-57 to 1959-60.

Table 16 gives the number and membership of various types of non-credit co-operative societies in the District during 1956-57 to 1959-60.

EDUCATION

Table 17 presents the progress of school education in the District during the years 1951-52 to 1960-61. Information has been given separately for Primary, Middle, High and Higher Secondary schools. Part (a) of the Table shows the number of schools and Part (b) the number of scholars for boys and girls schools.

Table 18 presents for each industrial school in the District scholars studying during the year 1960.

Table 19 gives the number of Arts and Science and Professional colleges in the District during the years ending 1960.

PRINTING AND PUBLISHING

Table 20 relates to printing presses in the District working in 1960: the year of declaration the language/ language in which the matter can be printed, the number of printing machines and the power used.

Table 21 lists the news papers, magazines and periodicals published in the District during 1961: the place of publication, the year of establishment, the language, the number of copies printed, retail selling price, and its main interest. The publications have been arranged according to the frequency of their circulation.

ENTERTAINMENTS

Table 22 shows the number of Cinema Houses in the District during the year 1951-52 to 1959-60.

Table 23 shows the number of Broadcast Receiving Licences issued in the District during the calendar years 1959, 1960 and 1961.

MEDICAL AND HEALTH

Table 24 shows the number of hospitals and dispensaries in the District as on 1st January, 1961, and the number of beds for each type of hospital and dispensary.

Table 25 shows the number of hospitals and dispensaries providing Ayurvedic treatment in the District during the years 1951 to 1961 and the number of 'Vaids' and 'Hakims' working there.

Table 26 shows the cases treated and expenditure incurred by each maternity and child welfare centre in the District during the calendar year 1960.

Table 27 presents the work done and expenses incurred by the Malaria Control Unit from 1953 to 1961 in the District.

Table 28 informs about the number of persons sterilized and other steps undertaken by the Family Planning Centres in the District during 1960-61.

Table 29 shows the location of the Primary Health Units and Centres and Rural Health Centres as on 1st October, 1961.

Table 30 shows prosecutions under Pure Food Act in the District during 1960.

VITAL STATISTICS

Table 31 shows the number of births, deaths sexwise as recorded in the District during the years 1957 to 1960.

Table 32 gives the number of deaths classified according to different causes and of infant mortality for the years 1957 to 1960.

TRANSPORT AND COMMUNICATIONS

Table 33 gives road mileage in the District as on the 31st March, 1961. Information is categorised according to the roads maintained by Public Works Department and *Zila Parishad* and by the Municipal Committees; according to National Highways, State Highways, Major District Roads, Minor District Roads and Village Roads; and according to metalled and unmetalled roads.

Table 34 gives a list of Post Offices in the District as on 31st March, 1961.

Table 35 is a list of railway stations located in the District.

Table 36 is a polymetrical Table showing distances as between different places in the District.

LOCAL ADMINISTRATION

Table 37 shows the working of *panchayats* in the District during 1960-61: number of *panchayats*, their members, beneficial and judicial activities, and income and expenditure.

Table 38 deals with Local Bodies in the District as on 31st March, 1961. It gives information for each Local Body, area served, population, the number of members and income and expenditure during 1960-61.

Table 39 shows the community development activities in the District as on 31st March, 1961: for each Block, its stage, area, number of villages and population covered, Government expenditure and people's participation in terms of money in the First and Second Five-Year Plans, and achievements in different spheres.

BANKS, INSURANCE AND SAVINGS

Table 40 shows the various banks operating in different towns of the District as on the 31st March, 1961.

Table 41 shows the number of new insurance policies issued and sum assured annually in the District from 1957 to 1960.

Table 42 gives a detailed account of various small saving schemes launched and progress achieved in the District during 1957-58 to 1960-61.

JUSTICE AND ADMINISTRATION

Table 43 gives information regarding criminal justice, cases tried and persons convicted in the District annually from 1951 to 1960.

Table 44 shows the sanctioned strength of Police and the number of Police Stations in the District as on the 31st December, 1960.

Table 45 gives information about jails and their inmates classified according to the periods of sentence in the District as on the 31st December, 1960.

Table 46 shows the receipts from State Excise duties, Sales Tax, Entertainment Tax and Motor Spirit Tax in the District annually from 1950-51 to 1959-60.

Table 47 presents land revenue receipts in the District during 1951-52 to 1959-60.

Table 48 shows transactions in land by sales, mortgages, redemption and gifts and exchanges during 1956-57 to 1960-61.

Table 49 presents the number of instruments registered and value of property transferred in the District annually from 1956 to 1960.

MISCELLANEOUS

Table 50 presents important events occured in each Tahsil of the District during the period 1953-61.

Table 51 shows the monuments and better known places of worship or tourist interest in rural areas of the District, arranged according to Tahsil. Information is also given about its distance from nearest railway station and whether any fair is held there.

FAIRS AND FESTIVALS

Table 52 relates to fairs and festivals. The material for this Table was collected from a number of agencies; Headmasters of schools, *Patwaris*, Police Stations, District Officers of Health, and Municipal Committees.

The fairs and festivals are arranged for villages in Tahsils according to the H.B. numbers. Information is given for each fair relating to the date on which it falls, duration, its significance and any legend connected with it, mode of observance and other entertainments, approximate number of visitors and the distance they come from, whether restricted to any particular castes or observed generally, and the commodities sold.

Source.—Tahsildars.

(*) includes (i) Land put to non-agricultural uses.
(ii) Barren and unculturable land.

(†) includes (i) Culturable waste.
(ii) Permanent pastures and other grazing lands.
(iii) Land under miscellaneous tree crops and groves not included in net sown area.

(‡) Includes (i) Net sown area and
(ii) Current fallow land.

	Shivratri	Sawan Badi 13 (July-August) One day	Religious
	Janam Ashtami	Bhadon Badi 8 (August-September) One day	Religious
	Doodha Dhari fair	On Phagan Shivratri day (February-March) One day	Religious. In memory of a local saint named Doodha Dhari who practised severe penance and lived on milk only

*Associted with the visit of Guru Gobind Singh to this place and the prayer to him of Mian Hussain Khan Sayyad who lived Popular belief is that if barren women take bath in the tank in the local Gurdwara they start begetting children.

†It is said that Raja Hamir Singh of Faridkot ordered the construction of a fort at Faridkot for which *begar* (forced labour) happened to visit Mokal Hara as Faridkot was then called. He too was arrested to do the forced labour. He showed a miracle the miracle with his own eyes and begged pardon from the saint for his folly : At that time the hands of the saint were smeared with Faridkot and to this day a memorial to his memory stands there where the people pay homage every Thursday.

††The legend goes that Kala Singh *alias* Kala Mahar, a resident of village Chuha Sarhali, was very brave and used to graize cows Mahar did no have anything to offer. In the meantime, a dry buffalo of brown colour stood by his side. At the instance of Guru Gorakh and sugar). All except Kala Mahar, took the *kheer*, but at last, Guru Gorakh Nath succeeded in persuading him to take it. It is believed

Once Kala Mahar lent his high milk yielding buffalo to his Bhatti Muslim friend. But the latter grew avaricious and instead of came out breaking open all doors and he took it home. The Muslim friend wanted to kill him when he was asleep, but he could not succeeded and cut off his head. The headless body got up and killing all the Muslims in the way, reached the place where down dead. People constructed *mari* (shrine) in his honour and began to worship him.

in this village to bless him with salvation. The prayer was granted and when Mian Hussain died, a fair began to be held at his tomb.

for three to four days was to be exacted even from passers by, guests staying with any body in his territory and saints. Beba Farid and it was that the container in which he carried mortar for the construction would rest some two feet above his head. The Raja saw mortar which he rubbed off against *Jand* tree. The tree still bears the marks. The saint asked the Raja to name Mokal Hara as

and buffaloes. One day when he was grazing his cattle, Guru Gorakh Nath suddenly came there and asked for *bhandara* (meals). Kala Nath, Kala Mahar started milking it and it gave milk. Another miracle was that the milk turned into *kheer* (a preparation of milk, rice that by taking the *kheer* Kala Mahar acquired spiritual powers of Guru Gorakh Nath.
returning it in due time, told Kala Mahar that it had died. Kala Mahar did not believe it, and called out for the buffalo, and the buffaloe because Kala Mahar slept with his eyes wide open. The Muslim friend tried hard to find out how he could kill Kala Mahar and at last he now a fair is held. Here an unknown woman saw the headless body fighting and she raised hue and cry. At this the headless body fell

*It is said that, about 200 years ago, Bhai Gurdas, Sindhu by sub-caste, and hailing from village Dhingar in Bhatinda saw an old woman protested that if he was so sympathetic towards the *fakirs*, he could himself become one. At this, Bhai Gurdas left Gurdas blessed them saying that the place where they were was fit for settling. Consequently not only that family but many raised a small temple. About 25 years ago, a tank was also constructed here.

EXPLANATORY NOTE

The Tables presented below have been prepared from the data collected during the 1961-census. Some of the Tables give information up to Tahsil and Town level, and have been prepared exclusively for this volume. Tables A-IV, B-III (Part A), B-VI, B-VIII (Part A), C-III (Part B) and SCT-III (Part A) give information only for urban areas : Tahsilwise Tables for urban areas could not be prepared since sorting of slips was done for non-city urban areas of the District as a single unit. Slips for the five cities in the State were, however, sorted separately. The Tables have been grouped under suitable series and are explained below.

A—SERIES : GENERAL POPULATION TABLES

These Tables deal with distribution of population in 1961 and its growth since 1901. There are four Tables and three Appendices in this series.

Table A-I shows area both in square miles and square kilometres ; number of villages, inhabited and uninhabited ; number of towns ; number of occupied houses ; and population for the District, each Tahsil and Town, with sex break-up. The figures for towns have been given below the Tahsils in which they are located. Figures are given for the total, rural and urban areas, separately.

The area figures for the District and Tahsils were obtained from the Director of Land Records, Punjab, and those for urban areas from the respective Local Bodies. Rural figures were worked out by substracting the urban figures from the total area figures.

Occupied residential house refers to those houses which were actually used for residence, either exclusively or jointly with some other use. Thus vacant houses and houses used for shops, factories, workshops, offices, etc., have not been included in these figures.

In the 1961-census an *urban area* or *town* was defined as a place having a local administration, such as Municipal Committee or Cantonment Board, or an area treated as a town because of its having (a) population exceeding 5,000, and (b) at least 75 per cent of its male workers were engaged in non-agricultural pursuits.

Persons were enumerated according to the place of their residence and not their place of work, except in the case of visitors who were enumerated wherever the enumerators met them and on inquiry were told that such persons had not been enumerated before. The population so recorded in towns has been styled as *Urban population* and the rest as *Rural population.*

Village, as in previous censuses, refers to an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government had otherwise declared as an 'estate'. This definition of village is identical with that of '*mauza*' under section 3(l) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to a residential site. In hills, cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as '*mauza*', but the smaller units are called '*tikkas*' in Kangra District except in Kulu where the revenue estate is termed as '*kothi*' and the smaller unit is '*phati*'. In Lahaul & Spiti District the revenue estate is referred to as '*kothi*' and its components as '*gaon*'.

Appendix I shows the territorial changes which took place during the decade 1951-61. Such Tahsils as had not undergone any change of area during the decade have not been mentioned in the Appendix.

Appendix II shows the number and population of villages each having 5,000 or more persons, and towns with population under 5,000. The population living in such big villages and towns of small size has also been shown as percentage of total, rural and urban population, under columns 4 and 7.

Appendix III relates to the houseless and institutional population.

Members of wandering tribes, tramps, pavement dwellers and others who do not live as households comprise the *houseless population.* These persons were enumerated on the night between the 28th February and 1st March, 1961.

Residential institutions such as, jails, hostels, hotels and boarding houses, were treated as households, and their inmates were treated as members of these households. Policemen and Defence personnel living in barracks or under canvas, and taking their meals from a common kitchen, were also treated as *institutional population.*

Table A-II shows the population of the District at the time of censuses from 1901 to 1961, and variations in population—in absolute figures and percentage—in each decade. The population figures for the previous censuses have been adjusted according to the 1961 territory of the District.

In **Table A-III** the villages have been graded according to the size of population as shown below, and for each group the number of villages and their population have been shown.

Villages with population—

(a) less than 200 ;

(b) 200 to 499 ;

(c) 500 to 999 ;

(d) 1,000 to 1,999 ;

(e) 2,000 to 4,999 ; and

(f) 5,000 or more.

The term 'village' has already been defined.

Table A-IV shows the population of each town since 1941. The absolute and percentage variations during the two decades have also been worked out. Where a town was not treated as such in any earlier census, its population for that census has not been shown in this Table.

Where two or more towns are adjacent and together form a compact urban unit, their combined population as a town group has also been worked out.

B—SERIES: ECONOMIC TABLES

The Tables of this series relate for the most part to economic activities : thirteen among them deal with the population as individuals and the other nine as households. The population has been distributed in the first instance into Workers and Non-workers. The Workers have been classified into (a) nine industrial categories, further sub-divided into major and minor groups as listed in the "Indian Standard Industrial Classification" (Annexure A) adopted by the Government of India, and (b) according to occupations listed in the "National Classification of Occupations" (Annexure B).

In earlier censuses income or economic independence was taken as the criterion for measuring the economy of the country. Account was made of all the persons who were economically independent and those who were economically dependent. An intermediate category of semi-dependence was introduced from the 1931-census. This category was called 'working dependent' in 1931, 'partly dependent' in 1941 and 'earning dependent' in 1951. A radical change was made in 1961 on the basis of classification of population, discarding economic independence in favour of work.

In the 1961-census a person was classed as worker if engaged in seasonal work and worked at least for an hour a day throughout the greater part of the working season. If engaged in any trade, profession or service, the basis of work was satisfied if the person was employed during any of the fifteen days preceding the enumeration. Of course, the concept of work covered also supervision and direction of work.

A person who was working but was absent from work due to illness or other reasons was also counted as a worker. A person who was offered work but did not actually join was, however, taken as a non-worker. Persons under training as apprentices with or without stipends or wages were also recorded as workers.

An adult woman who was engaged in household duties but did no other productive work to directly augment the family resources was not considered to be a worker. But if in addition to her household work she engaged herself in an activity, such as rice-pounding for sale or wages, domestic service for wages, collecting and selling grass or firewood, or making and selling cow-dung cakes, she was treated as a worker. Persons like beggars, pensioners, agricultural or non-agricultural royalty or rent or dividend receivers, who earned an income but were not participating in any productive work were not treated as workers unless they also worked in cultivation, industry, trade, profession, business or service.

A public or social service worker actively engaged in public service or furthering the cause of a political party was recorded as a worker.

The census questionnaire did not have any question to determine the position about a person being fully or partially employed.

A person doing more than one work was classed under the principal work which consumed a larger portion of his working time, and not according to the work which brought him a major portion of income.

Table B-I gives figures for workers and non-workers according to sex and broad age groups. Workers have been classified into the following nine industrial categories :—

(1) as cultivators ;
(2) as agricultural labourers ;
(3) in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities ;
(4) at household industry ;
(5) in manufacturing other than household industry ;
(6) in construction ;
(7) in trade and commerce ;
(8) in transport, storage and communications ; and
(9) in other services.

Cultivator is a person who is engaged in cultivation on his own or rented land, i.e., an owner-cultivator or tenant.

Agricultural labourer is a person who works on another person's land for wages in cash, kind or share of produce.

Household Industry is an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas.

Construction refers to construction and maintenance of buildings, roads, railways, bridges, canals, etc.

The other five categories are self-explanatory.

Non-worker is a person who is not at work, as defined above.

Table B-III (Part A) has been prepared only for the urban areas and gives the classification of workers and non-workers by educational levels. Workers have been distributed further into nine industrial categories.

In the 1961-census, the test for literacy was ability to read and write a simple letter. A person who fulfilled this test was taken as *literate*. In case he had attained any educational standard, the highest examination passed was recorded in the enumeration slip.

These qualifications have been grouped into six educational levels. The sixth level 'Technical Degree or Diploma equal to Degree or Post-Graduate Degree' is sub-divided into seven groups.

Table B-III (Part B) relates to rural areas, and the educational levels are confined only to (i) Primary or Junior Basic, and (ii) Matriculation or above.

Table B-IV (Part A) shows the distribution of workers engaged in household industry by sex and class of workers. They have been divided further into branches of industry listed in the "Indian Standard Industrial Classification" (Annexure A). Figures have been given for total, rural and urban areas for the District. Tahsil figures are only for rural areas, and up to the industrial Divisions. Major Groups which do not have any figures, have been excluded from this Table. In columns 5 and 6 the workers, who work as employees in the household industry run by others, have been shown. 'Others' under columns 7 and 8 include workers, who work at their own household industries.

Table B-IV (Part B) shows the distribution of workers engaged in industrial categories III, V, VI, VII, VIII and IX. Workers have further been divided into various Divisions and Major Groups according to the "Indian Standard Industrial Classification" (Annexure A). Material is given only for total and urban areas. Figures for rural areas have not been given in order to save space. Workers have further been classified into employers, employees, single workers and family workers.

An *employer* is a person who employs other persons in order to perform economic activity in which he is engaged.

An *employee* is a person who works under others for wages or salary in cash or kind. Persons who are employed as Managers, Superintendents, Agents, etc., and in that capacity employ or control other workers on behalf of their employers have also been taken as employees.

Singal worker is a person who works of his own accord without employing others and without the help of other members of the family. This includes members of co-operatives also.

Family worker is a person who works in his own family without wages or salary.

Table B-IV (Part C) shows the distribution of all workers, other than cultivators and agricultural labourers into various Industrial Divisions, Major Groups and Minor Groups of "Indian Standard Industrial Classification" (Annexure A). The number of workers in each Division, Major Group or Minor Group has been divided further into workers in household industry and workers in non-household industries. Material is given only for total and urban areas. Tahsil figures for rural areas are given up to Industrial Divisions. Major and Minor Groups, which do not employ any worker, have not been included in this Table.

Table B-V gives the distribution of persons at work, other than cultivators and agricultural labourers, according to their occupation. Occupations have been divided into various Divisions, Groups and Families according to the "National Classification of Occupations" (Annexure B). Break-up according to Industrial categories has also been shown for each Occupational Division, Group and Family. Total and urban figures have been given for the District. But in the case of Tahsils, rural figures have been given only up to Occupational Divisions.

Table B-VI presents the distribution of workers, other than those engaged in cultivation. This has been prepared only for urban areas and up to the Divisions of the "National Classification of Occupations" (Annexure B). Persons of each Occupational Division have been further classified by broad age groups and educational levels.

Table B-VII has been prepared into two parts. **Part-A** is a cross tabulation of persons whose principal and secondary work are any two of (i) cultivation, (ii) agricultural labour, or (iii) household industry. **Part-B** gives data of the persons who are principally engaged in non-household industry, trade, business, profession or service but have household industry as secondary work.

This Table has been prepared separately for total, rural and urban population for the District. For Tahsils, figures have been given only for Industrial Divisions and that too for rural areas.

Table B-VIII has been prepared in two parts : **Part-A** for urban areas, and **Part-B** for rural areas. They show the distribution of unemployed persons aged 15 and above, by educational levels. The unemployed persons are the total of columns 19 to 22 of Table B-IX.

In **Part-A**, unemployed persons have been further divided into two groups : (i) seeking employment for the first time ; and (ii) persons employed before but now out of employment and seeking work. These groups have been divided into different age groups also. **Part-B** gives Tahsil wise information also.

Table B-IX relates to non-workers and gives their distribution into the following eight types of activities by broad age groups :—

(i) wholetime students doing no other work ;

(ii) persons engaged in unpaid home duties ;

(iii) dependents, including children not attending school, and persons permanently disabled from work because of illness or old age ;

(iv) retired persons, not employed again, rentiers and other persons of independent means without having to work ;

(v) beggars, vagrants or independent women without an indication of their source of income ;

(vi) convicts in jail or inmates of a penal, mental or charitable institutions ;

(vii) persons seeking employment for the first time ; or

(viii) persons employed before but now out of employment and seeking work.

Separate figures have been given for total, rural and urban areas for the District and only rural figures in case of Tahsils.

HOUSEHOLD ECONOMIC TABLES

Household Economic Tables (B-X to B-XVII) have been prepared from a 20 per cent sample of household schedules. In the census history, information for the household as a whole has been collected for the first time.

The Household Schedule consists of two parts. In **Part-I**, after recording the name of the head of the household and whether he belonged to a Scheduled Caste or Scheduled Tribe, the following particulars were recorded about the household.

A. If the household was engaged in cultivation, the area of land with it under ownership and tenancy, and any portion of holding given out to others for cultivation. Information about area rented out was also recorded for the households who owned land and had given the entire holding to others for cultivation.

B. If the household was engaged in household industry, the nature of the industry and the number of the months in a year it was conducted ; and

C. Number of members of the household and any hired workers pursuing household cultivation, household industry, or both these activities.

Part II was filled in from Individual Slips of the persons residing in that household.

Table B-X contains information on sampled households which have been divided into the following four categories :—

(i) engaged neither in cultivation nor household industry ;
(ii) engaged in cultivation only ;
(iii) engaged in household industry only ; and
(iv) engaged both in cultivation and household industry.

The number of households given in column 3 if multiplied by 5 will not tally with that given in the Primary Census Abstract, because the schedules relating to institutions were not taken into account for drawing the sample.

In **Table B-XI** the sampled households, engaged in cultivation, have been classified by interest in land and size of land cultivated. This Table has been prepared for rural and urban areas separately. Interest in land is of the following three types :—

(i) owned or held from Government ;
(ii) held from private persons or institutions for payment in money, kind or share ; and
(iii) partly owned or held from Government, and partly from private persons for payment in money, kind or share.

These types of interest in land have been cross tabulated by different sizes of land holdings.

Table B-XII classifies the cultivating households by (1) size of land cultivated, and (2) number of family and hired workers engaged in cultivation. Sex break-up of the family workers has also been given.

Table B-XIII shows the distribution of sampled households engaged both in cultivation and household industry, into different sizes of land holding. separately for rural and urban areas of the District. Household industries have been divided into Major Groups according to "Indian Standard Industrial Classification" (Annexure A).

Table B-XIV has been prepared into two parts, separately for total, rural and urban population of the District. In **Part-A** the households have been distributed by nature of household industry and number of persons engaged into the following five size groups :—

(i) 1 person ;
(ii) 2 persons ;
(iii) 3 to 5 persons ;
(iv) 6 to 10 persons, and
(v) more than 10 persons.

This part gives data up to Major Groups, while **Part-B** gives the distribution to Minor Groups. Col. 2 gives description of the industry.

Table B-XV is similar to Table B-XII, but relates to such households as were engaged simultaneously in cultivation and household industry.

Table B-XVI attempts distribution of sample households engaged in household industry, according to period of working and number of persons engaged therein, separately for total, rural and urban areas of the District. Data in respect of households engaged in household industry only or both in household industry and cultivation has been given separately.

Table B-XVII distributes the household according to the number of their members. For rural areas the following additional information has been given:—

(i) households engaged neither in cultivation nor household industry;

(ii) those in household industry only;

(iii) those engaged in cultivation; and

(iv) distribution of cultivating households according to the size of their operational holdings.

C—SERIES: SOCIAL AND CULTURAL TABLES

Eight Tables dealing with social and cultural aspects such as age, marital status, literacy and education, language, religion appear under this series. Table C-I has been prepared from a 20 per cent sample of the household schedules, while other Tables are prepared on full count from the individual slips.

Table C-I shows the composition of sampled households according to relationship to the head of the family. Size of operational holdings with the households is also shown for rural areas on the same lines as in **Table B-XVII.**

Table C-II presents data on age and marital status for total, rural and urban population of the District, and for rural population only in the case of Tahsils. Marital status has been divided into (i) never married; (ii) married; (iii) widowed; and (iv) divorced or separated. In 1961-census, quinquennial age groups, as recommended by the United Nations for population census, have been adopted.

Age groups 0-4 and 5-9 have been combined since all the persons up to the age of 9 have been treated as never married.

From this Table, it can be ascertained whether proportions, in various marital status conditions, have increased or decreased since the last census and whether any trend is observed in the age of marriage. This also gives an account of mortality in each marital status and also in different age groups. Data in col. 9 on married females by age groups can be utilised for forcasting the future births. In 1951-census this Table was prepared on 10 per cent sample, but this time on a full count.

Table C-III has three parts: **Part-A** for all areas; **Part-B** for urban areas; and **Part-C** for rural areas. Population in various age groups has been classified according to educational levels. The educational levels for all areas and rural areas are the same whereas for urban areas they have been further divided into various groups since education is more pronounced and diversified in urban areas.

Table C-V shows the distribution of population by mother tongue separately for total, rural and urban population in the District and for rural population in the Tahsils.

Mother Tongue was defined as the language spoken by the person's mother to the person in his childhood or mainly spoken in the house. If the mother died in a child's infancy, the language mostly spoken in the person's home in childhood was recorded.

A Table on bilingulism has also been prepared in 1961-censns This Table is not included in this Volume, and may be found in Part II-C (i) of Punjab Census Report.

Table C-VII shows the distribution of population according to six main religions, for total, rural and urban areas of the District. All other religions have been grouped under "Other". Tahsilwise figures have also been given for rural areas.

Table C-VIII shows the distribution of Scheduled Caste population according to literacy and nine industrial categories of workers and non-workers separately for total, rural and urban population in the District.

Scheduled Castes are the castes listed in the Scheduled Castes and Scheduled Tribes List Modification Order (Ministry of Home Affairs Notification No. SRO/2477-A, dated the 29th October, 1956). These castes, in Punjab, are:—

1 Throughout the State :—

(1) Ad Dharmi; (2) Bangali; (3) Barar, Burar or Berar; (4) Batwal; (5) Bauria or Bawaria; (6) Bazigar; (7) Balmiki, Chura or Bhangi; (8) Bhanjra; (9) Chamar, Jatia Chamar, Rehgar, Raigar, Ramdasi or Ravidasi; (10) Chanal; (11) Dagi; (12) Dhanak; (13) Dumna, Mahasha or Doom; (14) Gagra; (15) Gandhila or Gandil, Gondola; (16) Kabirpanthi or Julaha; (17) Khatik; (18) Kori or Koli; (19) Marija or Marecha; (20) Mazhabi; (21) Megh; (22) Nat; (23) Od; (24) Pasi; (25) Perna; (26) Pherera; (27) Sanhai; (28) Sanhal; (29) Sansi, Bhedkut or Manesh; (30) Sapela (31) Sarera; (32) Sikligar; and (33) Sirkiband.

2. Throughout the State except the Districts of Patiala, Bhatinda, Mahendragarh, Kapurthala and Sangrur :—

(1) Darain; (2) Dhogri, Dhangri or Siggi; and (3) Sansoi

3. In the Districts of Patiala, Bhatinda, Mahendragarh, Kapurthala and Sangrur :—

Deha, Dhaya or Dhea.

D—SERIES : MIGRATION TABLES

Six Tables were prepared on this subject. Migration has been inferred from the place of birth, a question asked from each individual during the 1961-census. Two allied questions were whether the birth place was a rural or urban area, and the duration of residence at the place of enumeration if born elsewhere.

In this book only one Table has been included ; the other Tables are to be found in Part II-C (ii) of the Punjab Census Report.

Table D-II presents the figures for persons born (1) at place of enumeration, (2) elsewhere in the District, (3) in other Districts of the State, (4) in other States of India, and (5) in other countries. Births have been classified into rural and urban areas. This information when studied with the place of enumeration sheds an interesting light on the movement of population from villages to towns and *vice versa*.

E—SERIES : HOUSING TABLES

Prior to 1961-census, the preparation of houselists differed from State to State since the main idea was to prepare the framework for conducting the census. In the 1961-census, one uniform pattern for houselist has been adopted. In the houselist, data on housing such as material of wall, roof, number of rooms, the uses to which they are put, as well as data relating to establishments such as the names of the establishments and the products produced, number of persons working, and kind of fuel and power used and number of males and females living therein in case it was used as dwelling, was collected. Five Tables have been prepared in this series from the data so collected. Tables E-I and E-III have been prepared on full count and the other three Tables on 20 per cent sample out of the dwellings. **Table E-III**, which gives the number of workshops and factories in each industry by kind of fuel and size of employment, has not been given here for want of space. Instead, a running statement, showing the number of establishments in each industry for each village and town has been given. Industries have been shown according to code numbers of the "Indian Standard Industrial Classification" reproduced at Annexure 'A'. Other Tables present data for the District and its Tahsils for total, rural and urban areas, separately, as well as for towns with a population of 50,000 or more. Urban figures of each Tahsil are inclusive of town figures, if any shown thereunder.

Table E-I shows the distribution of census houses according to the use they are put to. Column 4 gives the number of "vacant houses" which are found vacant at the time of houselisting.

In the earlier censuses the "*census house*" was defined as a dwelling with a separate main entrance. In the 1961-census the concept of "census house" was made broad as to cover any "structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-cum-dwelling, or a place of business, workshop, school, etc., with a separate entrance".

Table E-II prepared on 20 per cent sample shows the distribution of census households living in census houses according to their tenure status. Houses lived in by the owners were classed as "owned" and the houses lived in any other capacity were shown as "rented."

Table E-IV has been prepared from a 20 per cent sample and distributes the houses according to the predominant material going into the construction of walls and the roof.

Where a house consisted of separate structures, each of different materials, the material out of which the walls of the main bed-rooms had been built, was recorded. The roofs were classified on the same basis. In case of multi-storeyed buildings, the intermediate floor or floors have been taken as the roofs of the lower floors.

Table E-V has also been prepared on 20 per cent sample, and shows the distribution of households according to number of rooms occupied by them, such as no regular room, one room, two rooms, three rooms, four rooms, and five rooms or more. The number of persons comprising the households have also been given according to the number of rooms they occupied.

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

The Constitution of India has provided special safeguards for the members of the Scheduled Castes and President of India has notified the Castes which fall in the list of Scheduled Castes for this purpose. This list has been given in the explanatory note to Table C-VIII above. Hence it has been found desirable to give information in regard to these Castes separately, though they have been included in the general population Tables.

According to the Presidential Order referred to above the Scheduled Tribes are found in this State only in Lahaul & Spiti District. Similar Tables have also been prepared for them and may be found in the State Census Report, Part V-A, and District Census Handbook for Lahaul & Spiti.

Table SCT-I classifies into workers and non-workers the number of each Scheduled Caste, giving further details according to nine industrial categories of workers. Since most of the members of the Scheduled Castes are engaged in special types of occupations, such as "tanning and curring of hides and skins" and "scavanging," number of persons following these occupations have also been given under columns 27 to 30.

Table SCT-II presents data for each caste according to age and marital status. The age groups adopted are 0—14, 15—44, and 45+.

Table SCT-III has been prepared in two parts, dealing with urban and rural areas, respectively. In this Table members of each caste have been classified according to educational levels.

Table SCT-IV furnishes data for each caste according to religion, separately for rural and urban areas of the District. Members of the Scheduled Castes can only be either Hindus or Sikhs, so their religion-wise break-up is confined to these two religions.

Table SCT-V has been prepared on 20 per cent sample from the households, showing their distribution according to interest in land cultivated and size of operational holdings.

Table SC-I classifies the members of the Scheduled Castes who are not at work by the type of activity according to educational levels. Only three activities of non-workers out of the eight adopted for the general population (given in the note for Table B-IX) have been taken and others have been lumped together under 'Others' in columns 11 and 12.

ANNEXURE 'A'

INDIAN STANDARD INDUSTRIAL CLASSIFICATION

Major Group (Code)	Description	Minor Group (Code)
Division 0—Agriculture, livestock, forestry, fishing and hunting—		
00	*Field Produce and Plantation Crops—*	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize.	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugar-cane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines and orchards	006
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	009
01	*Plantation Crops—*	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
02	*Forestry and Logging—*	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	*Fishing—*	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch shells, sponges by gathering or lifting from sea, river pond	032
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 1—Mining and Quarrying		
10	*Mining and Quarrying—*	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
Division 2 & 3—Manufacturing		
20	*Foodstuffs—*	
	Production of rice, atta, flour, etc., by milling, dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugar-cane in mills	201
	Production of indigenous sugar, gur from sugar-cane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages—*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits, and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	*Tobacco Products—*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	*Textile-Cotton—*	
	Cotton ginning, cleaning, pressing and baling	230

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—contd.		
23	*Textile Cotton*—concld.	
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in powerlooms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile-Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	*Textile-Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mills	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile-Silk*—	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by powerloom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage rope and twine	266
27	*Textile-Miscellaneous*—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—contd.		
28	*Manufacture of Wood and Wooden Products—*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixture	283
	Manufacture of other wooden products such as utensils, toys, artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from corks, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	*Paper and Paper Products—*	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	*Printing and Publishing—*	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block-making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products—*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber Petroleum and Coal Products—*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not coverd elsewhere	326

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—contd.		
33	*Chemicals and Chemical Products*—	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparation, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and material (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34-35	*Non-metallic Mineral Products other then Petroleum and Coal*—	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stoneware, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, belt, screw, bucket, cutlery (this will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in Major Groups 36, 37, 38 and 39)	369

INDIAN STANDARD INDUSTRIAL CLASSIFICATION– contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3 Manufacturing—concld.		
37	*Machinery (All kinds other than Transport) and Electrical Equipment*—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	*Transport Equipment*—	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture fo marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal-drawn and hand-drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*—	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
Division 4—Construction		
40	*Construction*—	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of waterways and water reservoirs such as bund, embankments, dam, canal, tank, tube-wells, wells	403

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 5—Electricity, Gas, Water and Sanitary Services—		
50	*Electricity and Gas—*	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502
51	*Water Supply and Sanitary Services—*	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
Division 6 —Trade and Commerce —		
60-63	*Wholesale Trade—*	
	Wholesale trading in cereals and pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other foodstuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk, and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf) coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.,	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil, and allied products	617
	Wholesale trading in other household equipment not covered above	618
	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane thatches and similar products	621
	Wholesale trading in paper and other stationery goods	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64-68	*Retail Trade—*	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644

INDIAN STANDARD INDUSTRIAL CLASSIFICATION– contd.

Major Group (Code)	Description	Major Group (Code)
Division 6—Trade and Commerce– concld.		
64-68	*Retail Trade*—concld.	
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in foodstuffs like sweetmeat, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piece-goods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, headgear such as hat, umbrella, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobil oil and allied products	655
	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and paper	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo, cane, bark and thatches	672
	Retail trading in other building materials	673
	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce Miscellaneous*—	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks share and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fans, microphone, rickshaw, etc.	699
Division 7—Transport, Storage and Communication		
70	*Transport*—	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 7 –Transport, Storage and Communication—concld.		
70	*Transport*—concld.	
	Transporting by man such as carrying of luggage, hand-cart driving, rickshaw pulling, cyclerickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	Services incidental to transport such as packing, carting travel agency	710
72	*Storage and Warehousing*—	
	Operation of storage such as warehouses	720
	Operation of storage such as cold storage	721
	Operation of storage of other type	722
73	*Communication*—	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
Division 8—Services—		
80	*Public Services*—(This does not include Government, Quasi-Government or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)—	
	Public services in Union and State army including territorial corps and volunteer corps	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public services in administrative departments and offices of Central Government	804
	Public services in administrative departments and offices of Quasi-Government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Government	809
81	*Educational and Scientific Services*—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institution not capable of classification under any individual group	812
82	*Medical and Health Services*—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homoeopathic practi ioners	820
	Veterinary services rendered by organisations and individuals	821

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—concld.

Major Group (Code)	Description	Minor Group (Code)
Division 8—Services—concld.		
83	*Religious and Welfare Services*—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, (this includes missions, ashrams and other allied organisations)	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red cross organisation for the collection and allocation of contributions for charity	832
84	*Legal Services*—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organisations and individuals	841
85	*Business Services*—	
	Engineering services rendered by professional organisations or individuals	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news agency, newspaper correspondent, columnist, journalist, editor, authors	853
86	*Community Services and Trade and Labour Associations*—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library	861
	Community services, such as those rendered by public libraries, museums, botanical and zoological gardens, etc.	862
87	*Recreation Services*—	
	Production of motion picture and allied services such as processing editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc. racing	873
88	*Personal Services*—	
	Services renderd to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry services rendered by organisations and individuals, (this includes all types of cleaning, dyeing, bleaching, dry cleaning, services)	883
	Hair dressing, other services rendered by organisations and individuals such as those by barber, hair dressing saloon and beauty shops	884
	Services rendered by portrait and commercial photographic studios	885
89	*Services (not elsewhere classified)*—	
	Services rendered by organisations or individuals not elsewhere classified	890
Division 9—Activities not adequately described—		
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900

ANNEXURE 'B'

NATIONAL CLASSIFICATION OF OCCUPATIONS

Occupational Group (Code)	Description	Occupational Family (Code)
Division 0	**—Professional, Technical and Related Workers—**	
00	*Architects, Engineers, and Surveyors—*	
	Architects	000
	Civil Engineers (including overseers)	001
	Mechanical Engineers	002
	Electrical Engineers	003
	Chemical Engineers	004
	Metallurgical Engineers	005
	Mining Engineers	006
	Surveyors	007
	Architects, Engineers and Surveyors, n.e.c.	009
01	*Chemists, Physicists, Geologists and other Physical Scientists—*	
	Chemists except Pharmaceutical chemists	010
	Pharmaceutical Chemists	011
	Physicists	012
	Meteorologists	013
	Geologists and Geophysists	014
	Mathematicians	015
	Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.	019
02	*Biologists, Veterinarians, Agronomists and Retated Scientists—*	
	Biologists and Animal Scientists	020
	Veterinarians	021
	Silviculturists	022
	Agronomists and Agricultural Scientists	023
	Biologists, Veterinarians, Agronomists and Related Scientists, n.e.c.	029
03	*Physicians, Surgeons, and Dentists—*	
	Physicians and Surgeons, Allopathic	030
	Physicians, Ayurvedic	031
	Physicians, Homoeopathic	032
	Physicians, Others	033
	Physiologists	034
	Dentists	035
	Physicians, Surgeons and Dentists, n.e.c.	039
04	*Nurses, Pharmacists and other Medical and Health Technicians—*	
	Nurses	040
	Midwives and Health visitors,	041
	Nursing Attendants and Related Workers	042
	Pharmacists and Pharmaceutical Technicians	043
	Vaccinators	044
	Physiotherapists, Masseurs and Related Technicians	045
	Sanitation Technicians	046
	Optometrists and Opticians	047
	Medical and Health Technicians, n.e.c. (excluding Laboratory Assistants, see 091)	049

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 0—Professional, Technical and Related Workers—concld.		
05	*Teachers—*	
	Teachers, University	050
	Teachers, Secondary Schools	051
	Teachers Middle and Primary Schools	052
	Teachers, Nursery and Kindergarten Schools	053
	Teachers, n.e.c.	059
06	*Jurists—*	
	Judges and Magistrates	060
	Legal Practitioners and Advisers	061
	Law Assistants	062
	Jurists and Legal Technicians, n.e.c.(including Petition writers)	069
07	*Social Scientists and Related Workers—*	
	Economists	070
	Accountants and Auditors	071
	Statisticians and Actuaries	072
	Geographers	073
	Psychologists	074
	Personnel Specialists	075
	Labour and Social Welfare Workers	076
	Sociologists and Anthropologists	077
	Historians, Archeologists, Political Scientists and Related Workers	078
	Social Scientists and Related Workers, n.e.c.	079
08	*Artists, Writers and Related Workers—*	
	Authors	080
	Editors, Journalists and Related Workers	081
	Translators, Interpreters and Language Specialists	082
	Printers Decorators and Commercial Artists	083
	Sculptors and Modellers	084
	Actors and Related Workers	085
	Musicians and Related Workers	086
	Dancers and Related Workers	087
	Artists, Writers and Related Workers, n.e.c.	089
09	*Draughtsmen, and Science and Engineering Technicians, n.e.c.—*	
	Draughtsmen	090
	Laboratory Assistants	091
	Science and Engineering Technicians, n.e.c.	099
0X	*Other Professional, Technical and Related Workers—*	
	Ordained Religious Workers	0X0
	Non-ordained Religious Workers	0X1
	Astrologers, Palmists and Related Workers	0X2

	Other Professional, Technical and Related Workers, n.e.c.	0X9

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 1—Administrative, Executive and Managerial Workers—		
10	*Administrators and Executive Officials, Government—*	
	Administrative and Executive Officials, Central Government	100
	Administrators and Executive Official State Government	101
	Administrators and Executive Officials Local Bodies	102
	Administrators and Executive Officials, Quasi-Government	103
	Village Officials	104
	Administrators and Executive Officials, Government, n.e.c.	109
11	*Directors and Managers, Wholesale and Retail Trade-*	
	Directors and Managers, Wholesale Trade	110
	Directors and Managers, Retail Trade	111
12	*Directors, Managers and Working Proprietors, Financial Institutions—*	
	Directors, Managers and Working Proprietors, Banks	120
	Directors, Managers and Working Proprietors, Insurance	121
	Directors, Managers and Working Proprietors, Financial Institutions, n.e.c.	129
13	*Directors, Managers and Working Proprietors, Others—*	
	Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling	130
	Directors, Managers and Working Proprietors, Construction	131
	Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary	132
	Directors, Managers and Working Proprietors, Manufacturing	133
	Directors, Managers and Working Proprietors Transport and Communication	134
	Directors, Managers and Working Proprietors, Recreation, Entertainment and Catering Services	135
	Directors, Managers and Working Proprietors, Other Services	136
	Directors, Managers and Working Proprietors, n.e.c.	139
Division 2—Clerical and Related Workers—		
20	*Book-keepers and Cashiers—*	
	Book-keepers, Book-keeping and Accounts Clerks	200
	Cashiers	201
	Ticket Sellers, Ticket Inspectors including Ushers and Ticket Collectors, (excluding those on moving transport)	202
21	*Stenographers and Typists—*	
	Stenographers	210
	Typists	211
22	*Office Machine Operators—*	
	Computing Clerks and Calculating Machine Operators	220
	Punch Card Machine Operators	221
	Office Machine Operators, n.e.c.	229
28	*Clerical Workers, Miscellaneous—*	
	General and other Ministerial Assistants and Clerks	280
	Miscellaneous Office workers including Record keepers, Muharrers, Despatchers, Packers and Binders of office papers	289

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 2—Clerical and Related Workers—concld.		
29	*Unskilled Office Workers*—	
	Office Attendants, Ushers, Hall-porters, etc., n.e.c.	290
Division 3—Sales Workers—		
30	*Working Proprietors, Wholesale and Retail Trade*—	
	Working Proprietors, Wholesale Trade	300
	Working Proprietors, Retail Trade	301
31	*Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers*—	
	Agent and Salesmen, Insurance	310
	Agents, Brokers and Salesmen, Real Estate	311
	Brokers and Agents, Securities and Shares	312
	Auctioneers	313
	Valuers and Appraisers	314
	Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c.	319
32	*Commercial Travellers and Manufacturers' Agents*—	
	Commercial Travellers	320
	Manufacturers' Agents	321
	Commercial Travellers and Manufacturers' Agents, n.e.c.	329
33	*Salesmen, Shop Assistant and Related Workers*—	
	Salesmen and Shop Assistants, Wholesale and Retail Trade	330
	Hawkers, Pedlars and Street Vendors	331
	Salesmen, Shop Assistants and Related Workers, n.e.c.	339
34	*Money-lenders and Pawn-brokers*—	
	Money-lenders (including Indigenous Bankers)	340
	Pawn-brokers	341
Division 4—Farmers, Fishermen, Hunters, Loggers and Related Workers—		
40	*Farmers and Farm Managers*—	
	Cultivators (Owners)	400
	Cultivators (Tenants)	401
	Farm Managers, Inspectors and Overseers	402
	Planters and Plantation Managers	403
	Farmers and Farm Managers, Animals, Birds and Insects Rearing	404
	Farmers and Farm Managers, n.e.c.	409
41	*Farm Workers*—	
	Farm Machinery Operators	410
	Farm Workers, Animals, Birds and Insects Rearing	411
	Gardeners (Malis)	412
	Tappers (Palm, Rubber trees, etc.)	413
	Agricultural Labourers	414
	Plantation Labourers	415
	Farm Workers, n.e.c.	419

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 4—Farmers, Fishermen, Hunters, Loggers and Related Workers—concld.		
42	*Hunters and Related Workers*—	
	Hunters	420
	Trappers	421
	Hunters and Related Workers, n.e.c.	429
43	*Fishermen and Related Workers*—	
	Fishermen, Deep Sea	430
	Fishermen, Inland and Coastal Waters	431
	Conch and Shell Gatherers, Sponge and Pearl Divers	432
	Fishermen and Related Workers, n.e.c.	439
44	*Loggers and Other Forestry Workers*—	
	Forest Rangers and Related Workers	440
	Harvesters and Gatherers of Forest Products including lac (except logs)	441
	Log Fellers and Wood Cutters	442
	Charcoal Burners and Forest Product Processers	443
	Loggers and other Forestry Workers, n.e.c.	449
Division 5—Miners, Quarrymen and Related Workers—		
50	*Miners and Quarrymen*—	
	Miners	500
	Quarrymen	501
	Drillers, Mines and Quarries	502
	Shot Firers	503
	Miners and Quarrymen, n.e.c.	509
51	*Well Drillers and Related Workers*—	
	Well Drillers, Petroleum and Gas	510
	Well Drillers, other than Petroleum and Gas	511
52	*Mineral Treaters*—	
	Mineral Treaters	520
59	*Miners, Quarrymen and Related Workers, n.e.c.*—	
	Miners, Quarrymen and Related Workers, n.e.c.	590
Division 6—Workers in Transport and Communication Occupations—		
60	*Deck Officers, Engineer Officers and Pilots, Ship*—	
	Deck Officers and Pilots, Ship	600
	Ship Engineers	601
61	*Deck and Engine-room Ratings (Ship), Barge Crews and Boatmen*—	
	Deck Ratings (Ship), Barge Crews and Boatmen	610
	Engine-room Ratings, Firemen and Oilers, Ship	611

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 6—Workers in Transport and Communication Occupations—concld.		
62	*Aircraft Pilots, Navigators and Flight Engineers—*	
	Aircraft Pilots	620
	Flight Engineers	621
	Flight Navigators	622
63	*Drivers and Firemen, Railway Engine—*	
	Drivers	630
	Firemen	631
64	*Drivers, Road Transport—*	
	Tramcar Drivers	640
	Motor Vehicle and Motor Cycle Drivers	641
	Cycle Rickshaw Drivers and Rickshaw Pullers	642
	Animal Drawn Vehicle Drivers	643
	Drivers, Road Transport, n.e.c. (including Palki and Doli Bearers)	649
65	*Conductors, Guards and Brakesmen (Railways)—*	
	Conductors	650
	Guards	651
	Brakesmen	652
66	*Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport—*	
	Inspectors, Supervisors and Station Masters	660
	Traffic Controllers	661
	Signalmen and Pointsmen	662
67	*Telephone, Telegraph and Related Telecommunication Operators—*	
	Telephone Operators	670
	Telegraphists and Signallers	671
	Radio Communication and Wireless Operators	672
	Tele-printers Operators	673
	Telephone, Telegraph and Related Telecommunication operators, n.e.c.	679
68	*Postmen and Messengers—*	
	Postmen	680
	Messengers (including Dak Peons)	681
69	*Workers in Transport and Communication Occupations, n.e.c.—*	
	Ticket Sellers, Ticket Inspectors including Ushers and Ticket Collectors on moving transport	690
	Conductors, Road Transport	691
	Workers in Transport Occupations, n.e.c.	692
	Inspectors, Traffic Controllers and Despatchers, Communications	693
	Workers in Communication Occupations, n.e.c.	694

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.—		
70	***Spinners, Weavers, Knitters, Dyers and Related Workers—***	
	Fibre Preparers, Ginners, Cleaners, Scourers, etc.	700
	Blow-room Workers and Carders	701
	Spinners, Piecers and Winders	702
	Warpers and Sizers	703
	Drawers and Weavers	704
	Pattern Card Preparers	705
	Bleachers, Dyers and Finishers (excluding Printers)	706
	Knitters and Lace Makers	707
	Carpet Makers and Finishers	708
	Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.	709
71	***Tailors, Cutters, Furriers and Related Workers—***	
	Tailors, Dress Makers and Garment Makers	710
	Hat and Head-gear Makers	711
	Furriers	712
	Upholsterers and Related Workers	713

	Stone Cutters, Stone Carvers and Stone Dressers	790
	Bricklayers, Plasters and Masons	791
	Glaziers	792
	Cement Finishers and Terrazzo and Mosaic Workers	793
	Hut Builders and Thatchers	794
	Well Diggers	795
	Bricklayers, Plasterers and Construction Workers, n.e.c.	799
80	*Compositors, Printers, Engravers, Book-binders and Related Workers—*	
	Type-setting Machine Operators	800
	Compositors	801
	Proof-readers and Copy Holders	802
	Printers (Paper)	803
	Printers (Textile)	804
	Photo-litho Operators, Photo-lithographer	805
	Engravers, Etchers and Block Makers (Printing)	806
	Stereotypers	807
	Book-binders	808
	Compositors, Printers, Engravers, Book-binders and Related Workers, n.e.c.	809
81	*Potters, Kilnmen, Glass and Clay Formers and Related Workers—*	
	Furnacemen, Kilnmen and Ovenmen	810
	Potters and Related Clay Formers	811
	Blowers and Benders, Glass	812
	Moulders and Pressers, Glass	813
	Grinders, Cutters, Decorators and Finishers	814
	Pulverisors and Mixers, Cement, Clay and other Ceramics	815
	Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.	819

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen Production Process Workers, and Labourers, n.e.c.—contd		
82	*Millers, Bakers, Brewmasters and Related Food and Beverage Workers—*	
	Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers	820
	Crushers and Pressers, Oil Seeds	821
	Dairy Workers (Non-Farm)	822
	Khandsari, Sugar and Gur Makers	823
	Bakers, Confectioners, Candy and Sweetmeat Makers	824
	Makers of Aerated Water and Brewers	825
	Food Canners, Preservers and Related Workers	826
	Butchers	827
	Coffee and Tea Blenders and Related Workers	828
	Millers, Bakers, Brewemasters and Related Food and Beverage Workers, n.e.c.	829
83	*Chemical and Related Process Workers—*	
	Batch and Continuous Still Operators	830
	Cookers, Roasters and Other Heat Treaters, Chemical and Related Processes	831
	Crushers, Millers and Calenderers, Chemical and Related Processes	832
	Paper Pulp Preparers	833
	Paper Makers	834
	Chemical and Related Process Workers, n.e.c.	839
84	*Tobacco Preparers and Products Makers—*	
	Curers, Graders and Blenders, Tobacco	840
	Cigarette Machine Operators	841
	Cheroot, Cigar and Bidi Makers	842
	Snuff and Zarda Makers	843
	Tabacco Preparers and Products Makers, n.e.c.	849
85	*Craftsmen and Production Process Workers, n.e.c.—*	
	Basketry Weavers and Related Workers	850
	Tyre Builders, Vulcanisers and Related Rubber Products Makers	851
	Plastic Products Makers	852
	Tanners, Fellmongers, Pelt Dressers and Related Workers	853
	Photographic Dark Room Workers	854
	Makers of Musical Instruments and Related Workers	855
	Paper Products Makers	856
	Craftsmen Production Process Workers, n.e.c.	859
86	*Testers, Packers, Sorters and Related Workers—*	
	Checkers, Testers Sorters, Weighers and Counters	860
	Packers, Labelers and Related Workers	861
87	*Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers—*	
	Operators, Stationary Engines and Related Equipment	870
	Boilermen and Firemen	871
	Crane and Hoist Operators	872
	Rigger and Cable Splicers	873
	Operators of Earth-moving and Other Construction Machinery, n.e.c.	874

Notes.—1.† The sq. km. and density figures of urban areas of Tahsil/District are worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the Table. In addition to this, the area figures relating to sq. km. are further adjusted to make the Tahsil/District totals tally.

2. Towns treated as such for the first time in 1951-census which continue as Towns in 1961-census are shown with an asterisk (*) on their left.

3. The following abbreviation has been used for the status of a Town:—

M.C.=Municipal Committee.

APPENDIX I TO TABLE A-I

Statement showing 1951 territorial units constituting the present set up of District and Tahsils

District/Tahsil	Name	Area
1	2	3
Bhatinda District	**Bhatinda District**	**2,272·0**
	Plus:— (i) Entire Phul Sub-Tahsil transferred from Phul Tahsil of former Barnala District	(+)230·0
	(ii) Entire Nathana Sub-Tahsil transferred from Ferozepur Tahsil of Ferozepur District	(+)180·0
Faridkot Tahsil	Faridkot Tahsil	562·0
Bhatinda Tahsil	Bhatinda Tahsil	846·0
	Plus:— (i) Entire Phul Sub-Tahsil transferred from Phul Tahsil of former Barnala District	(+)230·0
	(ii) Entire Nathana Sub-Tahsil transferred from Ferozepur Tahsil of Ferozepur District	(+)180·0
Mansa Tahsil	Mansa Tahsil	864·0

APPENDIX TO TABLE B-IV PART C

Minor Groups having less than 1 per cent of Workers of the respective Division, (less than 0·5 per cent in case of Minor Groups of Division 2 & 3), have been shown in this Appendix. The following abbreviations have been used :—

HI = Household Industry ; NHI = Non-Household Industry ; M = Males ; and F = Females.

Bhatinda District

005 : Total NHI (M33, F6), Urban NHI (M33, F6). **006** : Total HI (M1), NHI (M105, F1), Urban HI (M1), NHI (M105, F1). **007** : Total NHI (M6, F2), Urban NHI (M6, F2). **015** : Total NHI (M61, F1). **020** : Total NHI (M73), Urban NHI (M59). **021** : Total NHI (M3), Urban NHI (M1). **022** : Total NHI (M6), Urban NHI (M6). **023** : Total HI(M1), NHI (M72, F1), Urban HI (M1), NHI (M72, F1). **025** : Total NHI (M9), Urban NHI (M1). **026** : Total NHI(M24, F2), Urban NHI (F2). **031** : Total NHI (M59), Urban NHI (M4). **043** : Total HI(M8), NHI (M1, F1), Urban NHI (M1, F1). **045** : Total NHI (M1), Urban NHI (M1). **047** : Total NHI (M1). **048** : Total HI (M19), NHI (M1), Urban HI (M14). **201** : Total NHI (M44, F1), Urban HI(M6). **203** : Total HI (M6, F1), NHI (M7, F2), Urban HI (M5, F1), NHI (M7, F2). **204** : Total NHI (M10), Urban HI (M10). **205** : Total HI (M34), NHI (M29), Urban HI (M30), NHI (M27). **206** : Total HI (M17, F4), NHI (M22), Urban HI (M16, F4), NHI (M22). **207** : Total HI (M63, F6), NHI (M41), Urban HI (M9, F1), NHI (M32). **208** : Total NHI (M1), Urban NHI (M1). **210** : Total HI (M1), Urban HI (M1). **214** : Total HI(M1), NHI (M11), TABLE B-V

OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

Note.—Families having less than 1 per cent of the workers of the respective Division (less than 0·5 per cent in case of Families of Division 7-8), have not been shown in this Table, but are given in the Appendix to this Table. Divisions thus affected are marked with an asterisk (*).

Division, Group and Family Category		Total Workers					
		Total			Urban		
		Persons	Males	Females	Persons	Males	Females

APPENDIX TO TABLE B-V

Families having less than 1 per cent of Workers of the respective Division, (less than 0.5 per cent in case of Families of Division 7-8), have been shown in this Appendix. The following abbreviations have been used :—

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities
IV At Household Industry
V In Manufacturing other than Household Industry
M=Males
VI In Construction
VII In Trade and Commerce
VIII In Transport, Storage and Communications
IX In Other Services
F=Females

APPENDIX TO TABLE B-XIII

Major Groups of Household Industry having less than 10 per cent of the figures of the respective Division, have been shown in this Appendix. The following abbreviations have been used:—

A means	Less than 1 Acre
B means	1.0— 2.4 Acres
C means	2.5— 4.9 Acres
D means	5.0— 7.4 Acres
E means	7.5— 9.9 Acres
F means	10.0—12.4 Acres
G means	12.5—14.9 Acres
H means	15.0—29.9 Acres
I means	30.0—49.9 Acres
J means	50+ Acres
K means	Unspecified

SAMPLE HOUSEHOLDS ENGAGED ONLY IN HOUSEHOLD INDUSTRY CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY

(Based on 20 per cent Sample)

PART B —Households classified by Minor Groups of Principal Household Industry

Code No. of I.S.I.C.	Household Industry (Description)	Number of Households		
		Total	Rural	Urban
1	2	3	4	5
	Bhatinda District			
	All Industries	**2,317**	**1,822**	**495**
0090	Production of other agricultural produce (including fruits and nuts not covered by 006 and flowers) not covered above	1	1	..
0401	Rearing of goat for milk and animal power	45	42	3
0402	Rearing of buffalo for milk and animal power	5	2	3
0403	Rearing of cows for milk and animal power	1	1	..
0404	Rearing of camels and other big domestic animals	1	1	..
0405	Production and rearing of livestock mainly for milk and animal power, n.e.c.	315	290	25
0411	Sheep breeding and rearing	110	108	2
0421	Rearing and production of pigs and goats (mainly for slaughter)	2	1	1
0431	Poultry keeping and production of eggs	2	1	1
0484	Production of other animal husbandry products such as skin, ivory, teeth and hair, etc.	1	..	1
2001	Production of flour by village chakkies or flour mills by grinding wheat, maize, gram, etc.	24	16	8
2006	Parching of grains	45	35	10
2021	Gur and khandsari making from sugarcane and palm	19	19	..
2031	Manufacture of achar, pickles, chutney and murabba	2	..	2
2050	Production of bread, biscuit, cake and other bakery products	3	..	3
2060	Production of butter, cream, ghee, cheese, chhana, khowa and other dairy products	1	..	1
2070	Oil pressing ghani, kohlu or by small machines	3	2	1
2091	Confectionery	5	1	4
2092	Making of sweetmeats, laddu, peda, barphi, batasa, etc.	21	8	13
2093	Sattu, bhunja, papar, barri, danauri, tilauri, sewai, apalam, etc.	3	..	3
2094	Making of chura or chira, muri, murki, khoi	1	..	1
2095	Making of chat	3	1	2
2150	Production of ice	2	..	2
2200	Manufacture of bidi	1	..	1
2300	Cotton ginning, cleaning, carding, pressing and baling	21	16	5
2310	Cotton spinning (by charkha and takali)	41	38	3
2331	Dyeing of cloth (cotton) and yarn	13	7	6
2350	Cotton cloth weaving in handlooms	334	283	51
2360	Manufacture of khadi textile in handlooms	21	17	4
2370	Printing of cloth (cotton)	4	3	1
2410	Jute spinning and weaving mats, asanis, etc.	1	1	..
2446	Making of other products from jute and similar fibres such as hemp, mesta	1	1	..
2530	Spinning of wool by charkha and takali	1	1	..
2701	Making of durries	3	3	..
2721	Embroidery and making of phulkari	3	..	3
2723	Traditional embroidery	2	1	1
2728	Making of other embroidery products, n.e.c.	3	1	2
2732	Traditional garments	221	170	51
2741	Weaving of khes, bed covers, curtains, pillow cases and table cloth, cloth bags, etc.	7	4	3
2743	Manufacture of other made up textile goods like mattress, quilt, rezai, etc., n.e.c.	2	2	..
2800	Sawing planing and milling of wood	2	2	..
2810	Manufacture of wooden furniture and fixtures	3	..	3
2820	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	2	..	2
2831	Carpentary works concerned with repairs of agricultural implements (wood)	67	59	8
2832	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipments and fixtures	1	1	..
2842	Manufacture of wooden utensils, artware and decorative wooden boxes (patras)	1	1	..
2847	Marquetry boxes (inlay work)	3	..	3
2849	Manufacture of other wooden products, n.e.c.	71	51	20
2850	Manufacture of match splinters, ply wood and veneers	1	1	..
2882	Making of rope mats, etc., from moonj and sewai grass and making of cadjar for thatching purposes	54	5	49
2884	Making of sirki, moora and chhaj	20	4	16
2885	Making of baskets and broomsticks	19	17	2
2887	Caning of chairs	1	..	1
2888	Making of chicks, cuscus-tatti and fans, sticks and poles from bamboo	1	..	1
2889	Manufacture of other articles from leaf, cane, bamboo, cork and other allied products, n.e.c.	3	1	2

TABLE B-XIV—concld.

SAMPLE HOUSEHOLDS ENGAGED ONLY IN HOUSEHOLD INDUSTRY CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY

(Based on 20 per cent Sample)

PART B—Households classified by Minor Groups of Principal Household Industry

Code No. of I.S.I.C.	Households Industry (Description)	Number of Households		
		Total	Rural	Urban
1	2	3	4	5
	Bhatinda District—concld.			
2893	Making of cart wheels	1	1	..
2921	Making of envelopes and paper bags	1	..	1
3101	Flaying, processing of hides and skins including taxidermy	6	5	1
3102	Currying, tanning and finishing of hides and skins, preparation of finished leather	22	7	15
3111	Making of leather boots, shoes or chappals (slippers, sandals)	386	320	66
3130	Manufacture of leather products such as leather upholstery suitcases, pocket-books, cigarette and key cases, purses, saddlery, whip, acquaducts (kos), charsa and other articles	3	3	..
3140	Repair of shoes, chappals and other leather foot wear	22	17	5
3330	Manufacture of fireworks and other explosives such as patak a,etc.	1	..	1
3357	Manufacture of medicines (ayurvedic, unani, etc.) and pharmaceutical preparations	1	..	1
3361	Manufacture of soap and washing soda	5	3	2
3395	Manufacture of other chemicals products, n.e.c.	3	3	..
3401	Making of bricks	28	27	1
3412	Manufacture of cement jali and tiles	1	..	1
3500	Making of earthenware such as pottery, etc.	120	104	16
3672	Making of articles from tin sheets	1	..	1
3675	Manufacture of other metal products (excluding iron, brass, bell metal, aluminium), n.e.c.	1	..	1
3683	Engraving, embossing, polishing and welding of metal products	4	3	1
3691	Manufacture of agricultural implements such as ploughshare, khurpi, kudal, etc.	49	43	6
3694	Making and repairing of locks and trunks	3	1	2
3695	Cutlery	1	..	1
3698	Foundry industry (including blacksmithy)	25	17	8
3700	Manufacture of mechanical water pumps, tubewell pumps, air pumps, etc.	1	1	..
3772	Manufacture of charging batteries	1	..	1
3820	Manufacture of body of trucks and buses including carpentary and joinery work involved	1	..	1
3840	Repairing and servicing of automobiles	2	..	2
3851	Manufacture of cycle parts and accessories such as saddle, seat frame and gear, etc.	1	..	1
3880	Repair of cycle and rickshaw	23	10	13
3890	Manufacture of animal drawn and hand drawn vehicles such as bullock cart, tamtam, lagadi, palaki cab, wheel-barrow, hand-barrow, etc.	4	3	1
3920	Repairing, and servicing of watches and clocks	4	1	3
3932	Goldsmithy	38	25	13
3933	Manufacture of jewellery, silverware and wares using gold and other precious metal and precious and semi-precious stones	1	1	..
3938	Bidriware industry	1	..	1
3939	Manufacture of jewellery, silverwares, etc., n.e.c.	1	1	..
3940	Manufacture, repairing and tuning of musical instruments such as harmonium, tabla, sitar, bansuri, etc.	1	..	1
3999	Making and repairing of goods, n.e.c.	11	7	4

n. e. c.=Not elsewhere classified.

APPENDIX TO TABLE B-XVI

Major Groups of Household Industry having less than 10 per cent of the figures of respective Division, have been shown in this Appendix. The following abbreviations have been used :—

In addition to Cultivation		Without Cultivation	
A means	1—3 Months	E means	1—3 Months
B means	4—6 Months	F means	4—6 Months
C means	7—9 Months	G means	7—9 Months
D means	10 Months to 1 Year	H means	10 Months to 1 Year
X means	Months not stated	Y means	Months not stated

Bhatinda District

00 Total (H-1), Rural (H-1) ; **20** Total (A-6, D-24, X-2, E-15, F-5, G-2, H-102, Y-6), Rural (A-6, D-21, X-2, E-15, F-5, H-57, Y-5), Urban (D-3, G-2, H-45, Y-1) ; **21** Total (G-1, H-1), Urban (G-1, H-1) ; **22** Total (H-1), Urban (H-1) ; **24** Total (H-2), Rural (H-2) ; **25** Total (H-1), Rural (H-1) ; **29** Total (H-1), Urban (H-1) ; **33** Total (D-2, F-1, G-1, H-6, Y-2), Rural (D-2, F-1, G-1, H-3, Y-1), Urban (H-3, Y-1) ; **34-35** Total (A-3, B-5, C-1, D-3, X-1, E-10, F-26, G-15, H-94, Y-4), Rural (A-3, B-5, C-1, D-3, X-1, E-10, F-24, G-15, H-79, Y-3), Urban (F-2, H-15, Y-1) ; **36** Total (A-3, B-1, C-1, D-56, X-2, E-1, F-1, G-1, H-79, Y-2), Rural (A-3, C-1, D-55, X-2, E-1, F-1, G-1, H-60, Y-1), Urban (B-1, D-1, H-19, Y-1) ; **37** Total (D-1, H-2), Rural (H-1), Urban (D-1, H-1) ; **38** Total (A-1, B-2, C-1, D-4, F-1, H-28, Y-2), Rural (B-2, C-1, D-4, H-12, Y-1), Urban (A-1, F-1, H-16, Y-1) ; **39** Total (A-1, B-2, C-1, D-13, X-1, E-1, F-4, G-3, H-48, Y-1), Rural A-1, B-2, C-1, D-12, X-1, F-3, G-2, H-30), Urban (D-1, E-1, F-1, G-1, H-18, Y-1).

Notes.—1. Mother tongues printed in italics belong to Countries outside the Indian Sub-continent.
2. Names occuring after hyphen(-) have been introduced by the Linguist to indicate groupings.
3. Asterisk (*) means that the Mother tongue is unclassified in Linguistic Survey of India.
4. Daggar (†)denotes that the Mother tongue though classified in Linguistic Survey of India is either tentatively reclassified or considered unclassifiable by the Linguist.
5. Asterisk and dagger (*†)denote that the Mother tongue is unclassified by Grierson but is tentatively classified by the Linguist.

PART IV

DIRECTORY

Information is presented separately for each tahsil of the District as under :

A. Village Directory (Rural Areas); and

B. Town Directory (Urban Areas).

CONTENTS

		PAGE
Faridkot Tahsil	: Villages	256
	: Towns	264
Bhatinda Tahsil	: Villages	270
	: Towns	282
Mansa Tahsil	: Villages	292
	: Towns	302
Alphabetical List of Villages in Bhatinda District		307

EXPLANATORY NOTE

1. In this Part are presented for each Village and Town in the District, its area and 1961 population, classified bysex and main industrial categories. The term '*village*', in all censuses from 1901, has been used for an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government has otherwise declared as an '*estate*'. This definition of village is identical with that of *mauza*' under section 3(1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to residential sites. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as '*mauza*' but the smaller units are called '*tikkas*' in Kangra District, except in Kulu where the revenue estate is termed as '*kothi*' and the smaller units as '*phati*'. In Lahaul & Spiti District, the revenue estate is referred to as '*kothi*' and its smaller component as '*gaon.*'

2. Villages having no population have been shown as '*Uninhabited*'. They have been retained in the Directory since they bear Hadbast numbers.

3. In the Village Directory, villages are presented Tahsil-wise, and within a Tahsil in order of their Location Code Numbers. The Code Numbers were assigned for the purpose of 1961-census work, as far as possible arranging the villages from north-west to south-east. The Hadbast numbers are shown in **Column 2.** The Tahsil map shows the location of each village identified by its Hadbast number.

4. The town Directory, appearing after the Village Directory of each Tahsil, presents Census figures for all towns in that Tahsil, giving details for their Wards/Blocks. An Urban area or Town is a place having local administration, such as Municipal Committee or Cantonment Board, or has been treated as a Town because of its having :

(a) a population of over 5,000 ; and

(b) 75 p.c. or more of male workers there engaged in non-agricultural occupations.

5. **Column 3** gives information on '*amenities*' based on the '*Village Notes*' prepared by the *Patwaris* at the time of the 1961-census. These '*Village Notes*' contain several useful items of information which it has not been possible to present in this Directory for want of space. The *amenities* mentioned, relate to education, medical facilities, post and telegraph, safe water-supply and electrification, and are indicated by the following abbreviations :—

P—Primary School ;
M—Middle School;
H—High School ;
C—College, including Higher Institution;
T—Technical Institution ;
D—Dispensary ;
Rhc—Rural Health Centre ;
Hos—Hospital ;
Mp—Medical Practitioner ;
Mcw—Maternity and Child Welfare Centre ;
Po—Post Office ;
P&T—Post and Telegraph Office ;
S—Safe or Protected supply of drinking water ;
E(A)—Electricity for Agricultural use ; and
E(D)—Electricity for Domestic use.

Information on 'amenities' was not collected for urban areas.

6. **Column 6** shows geographical area, information for which was obtained from the Village Papers as supplied by the Deputy Commissioners in the case of rural areas. The information for urban areas was obtained from local authorities, and wherever possible checked from the records of the Department of Local Self-Government.

7. **Column 5** relates to '*occupied houses*', *i.e.*, houses used as dwellings, or conjointly as dwellings and for some other purpose, *e.g.*, shop-cum-dwellings. **Column 6** shows the number of '*households*'. A '*household*' means the entire group of persons who commonly live together in the same house, and take their meals from the common kitchen or mess.

8. **Columns 10 to 13** present the number of persons belonging to Scheduled Castes and Scheduled Tribes as notified in Government of India, Ministry of Home Affairs communication No. S.R.O. 2477-A, dated the 29th October, 1956 and published as "The Scheduled Castes and Scheduled Tribes Lists Modification Order, 1956".

9. **Columns 14 and 15** give the number of literate and educated persons. A '*literate*' person was taken as one who could read and write a simple letter. In case he had passed a written examination as proof of an eduational standard, he was recorded as '*educated.*'

10. **Columns 16 to 37** present figures for '*Workers*' and '*Non-workers*'. For the definition of the term '*Worker*' and a '*Non-worker*' and description of the categories of workers, the reader may see the Explanatory Note to Part III in this volume. The nine categories of workers have been denoted by roman numerals :

I—Working as cultivator (owner cultivator or tenant);

II—Working as agricultural labourer ;

III—Working in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities ;

IV—Working at household industry ;

V—Working in manufacturing other than household industry ;

VI—Working in construction ;

VII—Working in trade and commerce ;

VIII—Working in transport, storage and communications ; and

IX—Working in other services.
