PREFACE.

The Census Reports in olden times were printed one for the whole Province of Rajputana and another for Ajmer Merwara. Some of the Principal States now merged in Rajasthan published their own reports. This time the State Census Reports have been published in the following volumes ;—

1. *Part I-A* Report.

2. *Part I-B* Subsidiary Tables and District Index of Non-Agricultural Occupations.

3. *Part I-C* Appendices.

4. *Part II-A* General Population Tables, Household and Age (Sample) Tables, Social and Cultural Tables, Table E Summary Figures by Administrative Units, and local 'KA' infirmities.

5. *Part II-B* Economic Tables.

They contain statistics down to the district level.

The idea of preparing the District Census Handbook separately for each district was put forward by Shri R. A. Gopalaswami, I. C. S., Registrar General, India, and ex-Officio Census Commissioner of India, as part of a plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the district census tables and census abstracts prepared during the process of sorting and compilation should be bound together in a single manuscript volume, called the District Census Handbook, and suggested to the State Governments that the handbook (with or without the addition of other useful information relating to the district) should be printed and published, at their own cost, in the same manner as the village statistics in the past. In accepting this suggestion, the Government of Rajasthan decided to print and publish the more important portion of statistical data relating to the district and to preserve the rest of the records in a manuscript volume for any future use, to which they may be put.

This Handbook contains five General Population Tables of A Series, three Economic Tables of B Series, five Household and Age Tables of C Series, seven Social and Cultural Tables of D Series, one table E giving summary for the district and tehsils, a local table 'KA' showing infirmities by age groups and an Index of Non-agricultural Occupations. Each table contains an explanatory note necessary for the proper understanding of the figures. The numbers given to the tables in this Handbook correspond to those given in State Census Reports.

Village Directories were published for the first time in 1931 by a few States of Rajputana. The example was followed by all the States in 1941. They contained for each village the population figures by religion and also some other useful information. They were bound in a volume one for each State. This time the Village Directories are also incorporated in this Handbook under the name of " Primary Census Abstract and Village Directory " which show the basic population figures separately for each village or town-ward classified by livelihood classes instead of religion and also some information of general nature.

Opportunity has been taken to put in a short introductory note detailing the salient points connected with the district, such as the physical features, climate, rainfall, irrigation and drainage facilities, roads and other communications, agriculture, education, industries and other matters of general interest. The information contained in the introductory note is based on the material furnished by Collectors of districts and Departments of Government.

In addition to the above, some figures of general interest and a review of population figures have also been incorporated.

The scheduled date for the publication of the Handbooks as prescribed by the Registrar General, India, was, " Not later than March, 1952 " but practical experience showed its publication by that time an impracticability. Even the compilation of the tables together with its final touch could not be completed by that time. Then came the question of printing which proved to be a huge task. There are 25 districts in Rajasthan and 1 in Ajmer. The total number of printed pages turned out to be nearly 9000. The Government Presses were already over burdoned with the printing work of other departments and in the printing of census publications priority was given to Central Government Publications *i.e* the State Census Reports. The result was that till March, 1954, for 14 out of 26 districts the P. C. A. and Village Directory could not be printed specially because the press had no stock of small type which was essential for their printing. It was, therefore, decided to publish the handbooks in two volumes. Part I, consists of introduction, a brief review of population figures and,

(1) General population Tables (A-I to A-V.)

(2) Economic Tables (B-I to B-III)

(3) Household and Age (Sample) Tables (C-I to C-V)

(4) Social and Cultural Tables (D-I to D-VII)

(5) E-Summary figures by Administrative Units.

(6) Local Table ' K.A ' infirmities, and

(7) District Index of Non-Agricultural Occupations.

Part II contains only Primary Census Abstracts and Village Directory.

The Handbooks of the Ajmer, Sirohi and Jhalawar Districts are, however, being published in one volume because they have been completed by this time.

While every care has been taken to ensure the correctness of figures and village names, certain mistakes might have crept in. I shall be grateful if they are brought to my notice.

BHARATPUR DISTRICT.

INTRODUCTION.

I.—Physical Aspects.

(a) Position Area and Boundary.

1. Bharatpur District has been formed of two covenanting States of Bharatpur and Dholpur.

There has been some territorial change as a result of transfer of the following villages to and from the unit :—

Serial No.	Name of Village	Population 1941	Transferred From	To
1	Nagda Bohru	368	Tehsil Bharatpur	U. P.
2	Nagri	263	„ „	„

This district is the eastern portion of the Rajasthan State. It lies between 26° 22′ and 27° 50′ North latitudes and 76° 53′ and 78° 17′ East longitudes. Its area is 3,132·6 square miles as supplied by the Surveyor General of India. It is bounded on the north by Gurgaon District of the Punjab, on the east by Gurgaon (Punjab) as well as by Agra and Mathura Districts of Uttar Pradesh, on the south by Gwalior (Madhya Bharat) and Sawai Madhopur Districts and on the west by the Alwar and Sawai Madhopur Districts.

(b) Configuration.

2. Bharatpur and Nadbai Tehsils are level, Kaman Tehsil and Pahari Sub-tehsil are to some extent level. Bayana and Rupbas Tehsils are considerably diversified by hills. The general aspect is that of immense alluvial plain, fairly well wooded and cultivated, with detached hills in north, a hilly and broken district (called the Dang) in the south and low narrow ranges on parts of the western and north-eastern frontiers. The highest hill in the district is in the west near Alipur, 1,357 feet above the sea. A range of sandstone hills runs from near the Dholpur City in a south-westerly direction attaining at one place an altitude of 1,117 feet above the sea; these hills as well as those further to the west are mostly bare of vegetation and rocky.

(c) Rivers.

3. The only perennial river flowing in the district is the Chambal. It flows from south-west to north-east along the southern and eastern borders of the district. The other rivers are the Banganga or Utangan, the Gambhir, the Kakan, the Rupa Rel and the Parvati. They usually cease to flow about two months after the rainy season is over.

The Banganga enters the district on the western border of Weir Tehsil and flows about 95 miles due east to the Agra border. It feeds many important works of irrigation, the most well-known of which are the Uchdin and Pathena Canals which eventually fall

in Ajan Band in the Bharatpur Tehsil. The Gambhir enters the district at the south-western corner and flows for about 35 miles first east and next north-east to Kurksa where it joins the Banganga. The Kakan was formerly the chief affluent of the Gambhir but it was most effectively dammed by the Bareta Band. The Rupa Rel comes from the Thana Ghazi hills in the Alwar District and on entering this district near Gopalgarh is held up by the Sikri Band. The Parvati rises in Karauli close to the western border and after a sinuous north-easterly course of about 60 miles falls into the Banganga.

(d) Lakes.

4. There are four lakes in the district, (1) Moti Jheel situated about 2 miles west of Bharatpur City and is used for irrigation purposes, (ii) Keola Deo Jheel situated about 4 miles south-east of Bharatpur City; it is famous for duck shoot, (iii) Madal Jheel situated on the northern border is filled by Rupa Rel river; it is used for irrigation purposes, and (iv) Jheel-ka-Bara, situated about 5 miles north of Bayana town under the hill.

(e) Geology.

5. The formation of Bharatpur District is almost entirely of the sedimentary class. The exposed rocks in the district may be divided into three classes (i) alluvial, (ii) Vindhyan, and (iii) quartzite, as mentioned below:—

(*i*) *Alluvial* —Bharatpur forms part of the alluvial basin of the Ganga and the Jamuna. Consequently the great majority of the exposed rocks are alluvial consisting of modern alluvial deposit with blown sand, which the wind carries from the desert of Rajasthan, and occasionally forms into mounds on the leeward of some natural inequality in the surface. Portions of the Dholpur and Rajaskhera Tehsils are covered by the alluvium of the Chambal which has excavated a broad valley and extensive plateau formed of nearly horizontal upper Vindhya sandstones.

(*ii*) *Vindhyan*—Vindhyan occurs in the range which runs from Fatehpur Sikri towards Hindaun. The range belongs to the upper Vindhyan Division and two of its sub-divisions-the Bhander and Rewa-are represented, the former extensively. The main range is found of upper Bhander, consisting almost entirely of sandstone of various texture and colour, varying from a very fine rock to almost conglomerate. The prevailing colour is brick red with white spots or streaks, sometimes green and yellowish white, occuring sometimes in alternative beds of considerable thickness The ridge which runs parallel with and to the west of, the above range in paragana Rudawal is probably formed of Rewa: this appears likely both from the character of the stone and the dip of the strata-the general characteristics of the Rewa being coarse greyish white, while those of Bhander are fine red, spickled and streaked with white. In some places these differences are well marked, in others they merge into each other. The ridge consists of sandstone in massive strata and false – bedded flags. Usually hard and compact occasionally vitrified and reddish and yellowish in colour. In some places, thick shaly beds, mostly quartz or silex, but sometimes clay, are found. Some specimens of the sandstone approach to conglomerate the pebbles being quartz or red jasper and the matrix purple. Other specimens are more like breccia.

(*iii*) *Quartzite*—The hills west of Bayana and divided from the Sidgir Pahar by the catchment basin of the Gambhir river, are formed of quartzite sandstone interstratified with trap and shale. All the hills in the north and west are of the same character, with lime-stone horn blinde transition slate, silicious beds, schists and ferruginous conglomerates.

(f) Botany.

6. The forests are dry and somewhat of an open type for the most part being thorn forests. Babul (Acacia arabica), Faras (Tamarix orientalis), Chonkra (Prosopis spicigera), Karel (Capparis aphylla), Nim (Melia azadirachta), Dhau (Anoyeissus pendula) etc. are generally found in the district, besides various kinds of wild shrubs which are used as fodder for the cattle.

(g) Fauna.

7. Tigers, leopards, bears, sambhar, hyaenas, neelgai, wild hog and wolves are found in the forests. Ghana near Bharatpur is the heaven of Duck shooters.

(h) Climate, Temperature and Rainfall.

8. The climate of the Bharatpur unit (consisting of Sub-divisions Bharatpur, Deeg and bayana) is generally damp and moist, and consequently unhealthy while that of the Dholpur Sub-division is generally healthy. The maximum and minimum temperature recorded in Bharatpur during 1949 was :—

	Maximum Temperature	*Minimum Temperature.*
Bharatpur	116°F	42°F

The mean temperature at Dholpur varies from 96°F in May to 60°F in January. The average annual rainfall for the whole district is between 25 and 30 inches.

(i) Underground Water Level

9. The depth at which water is found in the wells ranges from 10 to 65 feet.

II. History.

10. As the Bharatpur District has been formed of the two covenanting States of Bharatpur and Dholpur the histories of the two States are given below:—

Bharatpur State.

11. The northern part of the State (now Bharatpur unit consisting of Sub-divisions Bharatpur, and Bayana) was held by the Tanwar Rajputs who ruled at Delhi and the southern by the Jadon Rajputs who had their capital at Bayana. During the invasion of Mahmud of Ghazni in the 11th century, a Jadu Rajput, Bijeypal, ruled in Bayana, and his conduct in endeavouring to forcibly secure a Mohammadan girl is said to have led to Bayana being stormed and captured in 1031 A. D. by Mahmud Salar, nephew of the Sultan. Bijaipal was killed in battle, but the fort is said to have been soon after recovered by the Rajputs. It was again stormed successfully by the famous Abu Bakar Kandhari in A. D. 1047. Abu Bakar was killed fighting and his tomb is still pointed out close to Bayana. Thenceforward Bayana seems to have been held by the rulers of Delhi. At the end of the fifteenth century the local Governor rebelled against Sikander Lodi, who after capturing Bayana founded a new city at Sikandra, a few miles to the south, the ruins of which are still to be seen. This city was situated, like Bayana, at the foot of the hills and covered the entrance to the mighty fort or series of forts which crown the crests, and have even now a circumference of 7 miles. Successive conquerors, Hindu and Mohammadans had devoted their energy to the strengthening of this splendid natural stronghold.

12. Babar writing in 1526 describes Bayana as one of the most famous forts in India. The combined Rajputs forces, advancing northwards to encounter the Moghul invaders expelled the garrison left by Babar and took possession of the fort, and it was 20 miles to the north-east at Khanwa in Rupbas that Babar put a seal to his conquests and hopelessly shattered the last attempt of the great Rajput confederacy to recover the empire of Hindustan by a complete victory over the Rajput forces under Rana Sanga of Mewar. This victory is known commonly as that of Fatehpur-Sikri, which place is however about 10 miles distant from the battle field. His son Humayun wrested the fort of Bayana from the Lodis in 1535, and from that date to the rise of the Jat power it was held by the Moghuls.

13 The territory included in the north of the former Bharatpur State belonged originally to the domain of the Tanwar Rajputs, who reigned at old Delhi or Indera-prastha, and passed from them with their empire into the possession of the Pathan and Moghul Empires of Delhi. Under Moghul rule the tract was generally attached to the Subah or Province of Agra, but the few tehsils Gopalgarh, Nagar, Pahari, and Kaman were with the rest of the turbulent Mewat country often placed under the charge of and at times were under the administration of the Maharaja of Jaipur, one of the great feudatories of the Empire.

14. The rulers of Bharatpur claim to have been originally Jadu Rajputs, the descendants of Krishna. Suc, a Jadu Rajput, the 78th in descent from Krishna, is said to have migrated from Bayana to the Deeg jungles and founded the village of Sinsini, named after Sinsina, the genus loci or tutelary deity. Balchand the fourth in descent from him, was a noted freebooter, and in one of his marauding expeditions made prisoners of a Jat of the Dagar clan and his wife from Hindaun (now in Jaipur) and brought them to his house in Sinsini. Having no children by his own wife, he took the Jat woman into his

harem and had two sons by her, Bije and Sije. These were regarded as Jats and expelled from the Rajput brotherhood. Having no 'got' of their own they took the name of Sinsinwar, from their paternal village, and from them are descended the famous Sinsinwar Jats.

15. These early Jats were 'Ishmaelities' of the jungles, whose sole occupation was plunder The first to emerge into the light of history was Brijh, the fourth in descent from Bal Chand, who in the latter half of the seventeenth century made himself conspicuous by plundering the baggage of the Imperial forces on their way to and from the Deccan, and finally captured the Moghul fort of Auw, a few miles south of Deeg. This was however soon recaptured, and an Imperial force was sent against the Jat stronghold of Sinsini, which was captured at the beginning of the eighteenth century after a bloody resistance. Brijh himself and his fourth son Bhao Singh, ancestor of the ruling family were killed in the attack, but the Jats proudly assert that five of the king's sons were also slain with him in the gateway. Prior to this another branch of the family in the persons of Raja Ram, a nephew of Brijh, had established itself in Thun and became master of forty villages. Raja Ram was summoned to Delhi to do homage to the Emperor. According to local tradition he assembled his tribesmen, and agreed that they should share in whatever fortune should bring him. He was well-received in Delhi and in return for his promise to refrain from plundering, is said to have been given the gaddi of Mathura and a grant of 575 villages. On his return he distributed these villages as Inams among his followers on condition of military service. This was the origin of the present Inam grants which are so prominent a feature of the Bharatpur tenures. Raja Ram soon returned to his predatory habits, and was soon afterwards killed in a conflict with the Imperial forces. His son Fatteh Singh had not the capacity required for a leader of the Jats. They therefore set him aside in favour of the famous Churaman, the seventh son of Brijh. Churaman now became the acknowledged leader of the Jats in Thun and Sinsini. He built forts in both places, and possessed himself of Kumher, Deeg, and other places of importance. At this time another Jat named Rustam had established himself at Bharatpur, built a fort, and begun marauding expeditions after the traditionary Jat style. Churaman united his forces with those of Khem Karan, son of Rustam, and the allied bands were now so strong that they were able to attack the Imperial garrisons and cut off the communications of Delhi with Ajmer, Gwalior, and Agra. So redoutable had the Jats now become that the Emperor Farukh Siyar in 1714 endeavoured to conciliate them. To Churaman he gave the title of Bahadur Khan with a Jagir of the five paraganas of Nagar, Kathumbar (now in Alwar), Nadbai (in Akheygarh), Heylak (in Bharatpur), and Auw (in Deeg); while Khem Karan received the 5 paraganas of Rupbas, Bharatpur, Ikran (in Bharatpur), Mala, and Baroli (Agra). Upon this they ceased plundering for a time, but hereditary inclinations were too strong and opportunities too tempting, for the Jats to adopt a life of peace. They soon resumed their successful career of plunder under Churaman, and in 1718 the Raja of Jaipur was despatched with a strong force to overcome him. Thun and Sinsini were invaded, but the Jats showed the same valour in defending their mud walls which won for them so much celebrity a century later, and after several unsuccessful assaults the Raja raised the siege and returned to Jaipur. According to Todd and Elphinstone the Jats had been reduced to extremities, and Thun was about to capitulate when the Sayad Wazirs of the Empire, who were at the head of a faction opposed to the Jaipur Raja, made peace direct with the Jat Envoy in Delhi, and the Raja thereupon retired in disgust. This is corroborated by the fact that a year later in 1720 Churaman supported the Wazirs against the Emperor Muhammad Shah, for which he received a reward of 200,000 gold mohurs and in return he murdered the Governor of Agra, who was hostile to the Wazirs. To avenge this outrage Raja Jai Singh of Jaipur was appointed Governor of Agra and he made preparations to attack Churaman in overwhelming force. Meantime Churaman had quarrelled with his son Mokham Singh. On returning from the chase one day he found the fort of Thun shut against him, and in despair the " Cincinnatus of the Jats " took poison by swallowing a diamond (1722 A.D.)

16. His son Mohkam Singh was a profligate. His first step was to imprison Badan Singh, the son of Bhao Singh, whom he feared as a rival. The Jats insisted on the release of Badan Singh, who fled to the Imperial camp, and invited Jai Singh (with the consent of the great body of jats, it is said,) to attack Thun and expel Mohkam Singh. Aided by a strong faction among the Jats, Jai Singh captured Thun after a six months' siege, and Mohkam Singh fled for his life. He had previously laid a mine of gunpowder to blow up the fort and his assailants when they should enter it, but Badan Singh forewarned the Jaipur Raja of the stratagem and thus saved him from annihilation. For his services he was proclaimed Raja of Deeg, on condition of paying tribute to Delhi, in

1722, which year therefore marks the recognition of Bharatpur as a separate State. He made Deeg his capital, built the older palace there, erected the forts and palaces of Kumher and Weir, and extended his territory to the present southern boundary of the State. He had twenty six sons of whom the eldest, Suraj Mal, became defacto ruler in his father's lifetime. Sixteen sons left issue, and these are the founders of the 'Solah kotris' or sixteen houses that still hold jagirs and 'inams' dating back to the reign of Badan Singh. They are known as Thakurs, while other Jats of the Sinsinwar 'got' are styled Faujdars. Badan Singh after his accession appears to have left the affairs of State to his capable and successful son Suraj Mal, who raised the Jat power to its zenith. In 1733 he captured the fort of Bharatpur from Khem Karan, the rival Jat Chief, and laid the foundation of the present capital by building the present fort and moat. His subsequent career is a part of the history of Hindustan. In 1753 he sacked Delhi; in 1754 he successfully repelled the combined attack of the Imperial forces, aided by Holkar and Jaipur, from Deeg and Bharatpur; and again signally defeated Holker at Kumher. The dispute as to the succession to the Jaipur throne was decided in favour of Isri Singh by the influence of Suraj Mal's sword.

17. From the death of Badan Singh in 1755, Suraj Mal ruled as Maharaja in his own right till his death in 1763, and at this period was probably at the head of the most formidable force in India. His crowning and most brilliant achievement was the capture of Agra in 1761, (which the Jats held till 1774,) together with the soverignity of the Agra and Mathura Districts, most of the present Alwar District, and parts of Gurgaon and Rohtak. Suraj Mal met his death in 1763 at the hands of a squadron of the Imperial force while making a fool-hardy attempt to hunt in the Imperial domains.

18. His son and successor, Jawahir Singh, possessed the valour without the capacity of his father. In 1764, with the help of the Sikhs from the Punjab, he plundered Delhi and added Jhajjar, Bahadurgarh, and Rewari, with a considerable part of the present Gurgaon and Rohtak Districts, to the Jat possessions. During his short reign he lived chiefly in the Agra palace, where it was his whim to sit on the black marble throne of Jahangir, and here he was murdered at the instigation of the Raja of Jaipur in 1768.

19. From the death of Jawahir Singh the power of the Jats began to decay and their dominions to contract. The process was hastened by family dissensions, the increasing influence of the Maharattas on the politics of Hindustan, and the rise of a powerful rival in the Chief of the new born Rajput State of Alwar, to whom the Alwar fort was surrendered by the Bharatpur forces in 1775, and who by the end of the century succeeded in expelling the Jats from the northern paraganas of Alwar.

20. In 1771 the Maharattas expelled the Jats from all their conquests east of the Jamna. In 1774 Najaf Khan recaptured Agra for the Emperor. The contest for the Regency between Nawal Singh and Ranjit Singh during the minority of Keshri Singh (1769-77) gave the Imperial Wazir, who espoused the cause of the latter, and opportunity for re-establishing Moghul supremacy. By the defeat of Nawal Singh at Barsana and the capture of Deeg in 1775 he broke the power of the Jats and re-annexed all their territory, except the Bharatpur paragana which was left to Keshri Singh, to the Moghul dominions. The fortunes of the Jats, which were now at their lowest ebb, were partially restored by the Rani Kishori, the widow of the great Suraj Mal. Her personal appeal to Najaf Khan obtained the restoration to Ranjit Singh in 1777 of 10 out of 14 (now reduced to 10) paraganas which now form the State. To this period is attributed the origin of the chauth form of tenure in several Jat estates. For some years Ranjit Singh held these 11 parganas under the protection of the Minister Najaf Khan. The latter died in 1782, and his successor, Mirza Shaffi was murdered at Deeg in 1783 with the connivance of Ranjit Singh, who took advantage of the dissensions between the Moghuls to recover his lost territory. This brought him into collision with Madho Rao Scindhia. The latter at this time, though posing as the Deputy of his nominal master the Peshwa, who in turn claimed to be merely the chief noble of the Empire, was rapidly becoming the master of Hindustan.

21. On behalf of the Emperor, Scindhia in 1784 again forfeited Ranjit Singh's possessions, but on the petition of Rani Kishori 11 parganas, including Deeg, yielding a revenue of 10 lakhs per annum, were again restored in 1785. Thenceforward Ranjit Singh attached himself faithfully to the cause of Scindhia and loyally co-operated with Scindhia's French Generals, De Boigne and Perron. He rewarded Ranjit Singh's services

at this time by the grant of 3 parganas valued at 4 lakhs per annum, thus making up the Bharatpur State to 14 parganas. This constitutes its present extent The boundaries of the former Bharatpur State (consisting of Bharatpur, Deeg and Bayana Sub-divisions) were therefore storeotyped at the close of the 18th century.

22. The early years of the 19th century were marked by the final struggles of the Maharattas and the British for the supremacy of India. On 29th August 1803, Scindhia's forces under Perron were defeated at Aligarh by Lord Lake. On the 14th September Lake occupied Delhi, and the French Generals Perron and Bourgnien surrendered. Lake then returned to the siege of Agra, which was begun on 7th October. Ranjit Singh on 29th September, 1803 concluded an offensive and defensive alliance with the British, and on 4th October, joined the British camp at Agra with 5,000 horses. This force contributed towards the fall of Agra, and Ranjit Singh was rewarded by the grant of 5 parganas, *viz*:—

Katumbar, Kishangarh,	now in Alwar.
Rewari,	now in Gurgaon.
Gokal, Sahar,	now in Mathura.

The Bharatpur contingent again took part in the battle of Laswari in Alwar on 1st November, 1803, when the remnants of Scindhia's army were annihilated by Lord Lake.

23. In 1804 war broke out between the British and Jaswant Rao Holkar, to whom Ranjit Singh, in defiance of his engagements, and unfortunately for himself and his State, allied himself. Holkar, when defeated by Lord Lake in Farrukhabad on 17th November, fled across the Jamuna and took refuge in Deeg with his Jat allies, Lake atonce besieged the city. On the 24th December, the Maharattas and Jats evacuated Deeg and fell back on Bharatpur. The first siege of Bharatpur, from 3rd January to 22nd February 1805, is matter of history. It was interrupted by Ranjit Singh's suing for peace, which was concluded on 17th April 1805. By the new treaty of that date the five parganas granted to Ranjit Singh in October 1803 were resumed, and he was made to pay an indemnity of 20 lakhs, but was confirmed in the possession of the remaining 14 paraganas constituting the present State (Aitchison's Treaties, Volume III, Pages 216-218).

24. Ranjit Singh died in December 1805, and was succeeded by his son Randhir Singh. On the death of the latter in 1823, his brother Baldeo Singh succeeded. He died in 1825, leaving a minor-son. Balwant Singh, whose right to succeed was aknowledged by the British Government, but was contested by his uncle's sons, Madho Singh and Durjan Sal. The latter seized the throne and imprisoned Balwant Singh. A British force under Lord Combermere marched against Bharatpur on behalf of the rightful heir. After a determined resistance the city was taken by storm on 18th January 1826. Durjan Sal was made prisoner and despatched to Allahabad (his descendants now reside at Benares); Balwant Singh was formally recognised as Maharaja under the regency of his mother and the superintendence of a British Political Agent during the minority; the charges of the war 25½ lakhs were made payable by the Bharatpur State, and the prize money from the plunder of the city, amounting to £ 481,100, was distributed among the victorious army. In 1835, on Balwant Singh's coming of age, the Agency was withdrawn, and the detachment of British troops stationed at Bharatpur recalled Balwant Singh ruled till his death in 1853 when he was succeeded by his infant son Maharaja Jaswant Singh.

25. During the days of the Indian Mutiny, Bharatpur State rendered loyal assistance to the British Government, Bharatpur troops attacking and dispersing the mutiners when ever they appeared in the vicinity of the Bharatpur State.

26. Maharaja Jaswant Singh died on 12th December, 1893, after a rule of forty years, and was succeeded by his son Ram Singh, from whom however, owing to his intemperate habits governing powers were taken in 1895.

27. In June 1900 Maharaja Ram Singh shot his servant dead and was deposed from the Gaddi. His infant son Kishan Singh who was born on the 4th October, 1899 from the late Maharani Girraj Kuar, second wife of Ram Singh, was proclaimed Maharaja on the 27th August, 1900. Maharaja Kishan Singh was educated at the Mayo College, Ajmer, except for a short interval in England during 1914 when he studied at Wellington.

28. He died in 1929 and was succeeded by his eldest son Brijendra Singh, the present Maharaja, who was born on the 1st December 1918. His Highness received education in England for about 7 years from 1929 to 1936. He was invested with ruling Powers in October, 1939. He continued to rule the State until it merged into Matsya Union on 17th, March 1948. The Matsya State subsequently merged into the Rajasthan State on 15th May, 1949.

Dholpur.

29. Little is known of the early history of the country forming the State of Dholpur. Local traditions affirm that it was ruled by the Tanwar Rajputs, who had their seat at Delhi from the 8th to the 12th century. In 1450 it had a Raja of its own but in 1501 the fort of Dholpur was taken by the Mohammedans under Sikander Lodi. In 1527 after a strenuous resistance, the fort was captured by Babar, and with the surrounding country passed under the sway of the Mughals, being included by Akbar in the province of Agra. During the dissensions which followed the death of Aurangzed in 1707 Raja Kalyan Singh Bhadoria obtained possession of Dholpur, and his family retained it till 1761 after which it was taken successively by the Jat Raja Suraj Mal of Bharatpur, by Mirza Najaf Khan in 1775, by Scindhia in 1782, and by the British in 1803. It was restored to Scindhia by the treaty of Sarji Anjangaon but in consequence of new arrangements was again occupied by the British. Finally in 1806 the territories of Dholpur, Bari and Rajakhera were handed over to Maharaj Rana Kirat Singh, ancestor of the present chief of Dholpur in exchange of his state of Gohad which ceded to Scindhia. The first Maharaj Rana of Dholpur was Kirit Singh; his son Bhagwant Singh succeeded in 1836 and ruled till his death in 1873. The third chief was Nihal Singh grand-son of Bhagwant Singh; he died in 1901 and was succeeded by his eldest son Ram Singh.

In April 1948 the Dholpur State merged into the Matsya Union which Union ultimately merged into the Rajasthan State in May, 1949.

Historical and Archaeological places of interest.

Deeg.

30. Headquarters of the Sub-division and tehsil of the same name in the district of Bharatpur, situated in 27° 28′ *N*. and 77° 20′ *E*. about 23 miles north-west of Bharatpur city. Deeg is a place of great antiquity. It came into the possession of Jats about the beginning of the eighteenth century but was wrested from them in 1776 by Najf Khan after a twelve months' siege. It was subsequently restored to Maharaja Ranjit Singh of Bharatpur. The town is famous for the palaces built by Suraj Mal. They are constructed of a fine grained sandstone. They consist of a quadrangle, the centre of which is a garden laid out with fountains. To the east is a large masonary tank, to the south a marble hall and reservoir, to the north a large building called Nand Bhawan with an exquistively carved wooden ceiling, and to the west a building called Bhopal Bhawan, the rear face of which looks out on a large tank. This range of buildings surpasses all palaces in Rajasthan in respect of grandeur of conception and beauty of detail.

Kaman.

31. Kaman is a very old town situated in 27° 39′ *N* and 77° 16′ *E*. 35 miles north-west of Bharatpur city. Being a portion of the Brij country where Krishna resided in early life, it is sacred to Hindus Its former name is said to have been Brahanpore but Raja Kam Sen, the maternal grandfather of Krishna changed it after his own name to Kama. Being now included in the Bans such as Brindaban, Mahaban, etc., it is also called Kamban, and is visited annually in pilgrimage by large numbers of Vaishnav Hindus in the month of Bhadon known as Banyatra. There exist the remains of curious old temples consisting of 84 pillars named Chaurasia Khamba and it is said that these pillars are never correctly numbered. Kama was formerly under the Jaipur chiefs and it was in the time of Maharaja Jawahir Singh that it was added to the Bharatpur territory. There is a tank at Kama, named Bimal Kund surrounded on all sides by temples and a Chhatri built in the memory of Raja Kanak Sen stands on the bank of a tank. Kaman is situated on rising ground and surrounded on the south by Jheels and contains remnants of many Pukka buildings.

Rupbas.

32. Rupbas is the headquarters of the tehsil of the same name in the Bayana Sub-division of Bharatpur District Rupbas was founded by Rup Singh, originally a descendant of the Chittor Maharana, but converted to Islam in the reign of Akbar the Great, subsequently called Mian Rup. being one of the favourite associates of the Emperor and holding

Khanwa as fief. He built a palace and a beautiful tank which are still n existence, though the former in a dilapidated condition, the palace being now used as the Tehsil Office. Rupbas is very near to Fatehpur Sikri, the country residence of Akbr, was used by the Emperor as a shooting box. Raised slabs of stone or chabuttras are still to be found in the channah close by (which used to be extensive forests and servedas large game preserves in the neighbourhood of Rupbas), from which the Emperor used to shoot.

33. There exists here also a garden with a handsome little building constructed by Maharaja Balwant Singh. Village Khanwa in this tehsil is famous for the great battle field of Sanga Rana and Babar, described in connection with Bayana. It was founded by Khan Mahommed Pathan 1,050 years ago, and is still inhabited by his descendants, called Gaddies who claim to be Pathans but are converts from Hinduism. In this pargana and only eight miles from the town are the famous Bansi and Paharpur quarries of sand stone.

III. The People.

(a) Towns & Villages.

34. There are 17 towns and 1,838 villages in this district.

(b) Language.

35. The principal language of the district is Western Hindi (Brij Bhasha). Other dialects are Rajasthani, Punjabi, Dangi and Mewati.

(c) Food, dress & dwellings.

36. The staple food of the district is Bajra, Jawar, Bejhar (Barley and Gram mixed) and pulses. Wheat is used by a few persons, specially in the urban areas. The Hindu males use Dhoti, Kurta or shirt, and Safa or Pagri, while the Hindu females use Ghagra and Loogri. The Mohammadan males generally use Pajama, Kurta and Safa, while females use Churidar Pajama and Dupatta. The well-to-do persons use Achkans and Coats also. The people in the rural areas generally live in Kachha houses made of stones and clay with thatched roofs. Well-to-do people live in houses made of bricks or stones and lime with Pucca stone roof.

(d) Rituals at birth death and marriages.

37. Among the Hindus the birth of a male child is considered to be felicitous and on this occasion people indulge in rejoicings.

38. The Hindus mostly cremate their dead. The dead bodies of the infants and of the children below 5 years of age who die of small pox and typhoid are buried. On the death of the aged persons, big funeral processions are taken out to the cremation ground, and the bones and ashes of the dead are sent to the sacred Ganga for immersion. On the 12th day Brahmans are fed. Mosar (death feast) is also given to the caste fellows and friends on the 13th or any subsequent day. The Mohammedans always practice inhumation. On the 40th day after death the Chehlum ceremony is held in which the relatives and friends are invited to dine.

39. Marriages are performed according to the customs of the societies to which the people belong. Among the well-to-do higher classes of Hindus, the father of the bride has, in addition to the dowry, to give presents, to the bridegroom and his father. Widow marriage is customary among Jats, Menas, Gujars etc.

(e) Games & amusements.

40. Kabbaddi, Gilidanda, Kushti (wrestling), long jump, high jump, volley ball, tug of war are the usual-games enjoyed by the people. Dancing and singing of local tunes are the main amusements for the rural area while cinemas for the urban areas.

(f) Nomenclature.

41. The names of men and women are generally after the names of gods, rivers and days of the week Names of male children are given by Brahman priests in a Namkaran Sanskar locally known as Daston. The people of warrior tribes such as Rajputs, Gujars and Jats add 'Singh' to the names of males.

(g) Fairs and Festivals.

42. The important fairs held in the district are:—

1. Banyatra fair at Deeg, where a big cattle fair and an exhibition is also held on this occasion.
2. Jaswant cattle fair and exhibition in the Bharatpur city during the Dasehra (October) week.
3. Sarad fair commencing on Ashwin Shukla 5 and ending on Dewali, held in Dholpur.
4. Deochhatt fair on Bhadon Shukla 6 held in Dholpur.

The main festivals among Hindus are Dewali, Shiv Ratri, Holi, Akshey Teej, Gangor, Rakshabandhan, Janmashtmi and Dasehra. Muslims observe Shabebarat the two Ids, Moharrum, and Bara Wafat.

(h) Beliefs. superstitions.

IV.—Economic.

(a) Agriculture: 46. Agriculture is the main stay of the people in this district. The soil varies in different parts, but except in the vicinity of the sandstone range, is generally excellent. The soils are divided into various classes such as Chahi, Nehri, Chahi Serabi, Nehri, Serabi, Khatli, Dehri Riparail, Dehri, Barani, Baryad etc. The high prices of agricultural products in the last few years has improved the lot of agriculturists. Strain on the land has also simultaneously increased but the methods used in agriculture are still primitive.

Agricultural classes: 47. The principal agricultural classes in the district are Jats, Rajputs, Gujars, Brahmans, Ahirs, Dhakars, Lodhas, Minas, Malis Jatavs (chamars) and Kachis among Hindus and Meos Muslims-Rajputs, Khanjadas, Sheikh, Saiyed etc., among Mohammedans. 77% of the total number of estates are held by Hindu agriculturists who are chiefly Jats (33%), Gujars (18%), Brahmans (10%), and 23% are held by Mohammedans, of which Meos alone are 20%. Tenancy consists mostly of Jats, Gujars, Mohammedans Ahirs, Lodhas minas and meos. Jatavs form major portion of Landless labour.

Principal crops: 48. Kharif (Autumn) and Rabi (Spring) are the two main crops. Extra Rabi is also grown to some extent where irrigation facillities are available in abundance, but extra Rabi consist of vegetable crops only. Kharif mainly includes millets, pulses, sesamum, tobacco and hemp, while Rabi consists of wheat, barley, gram, rape, mustard seed and Zeera. Kharif sowing starts immediately after the rains near about the middle of June and finished by the end of July. Kharif crops are harvested from the middle of October to end of November. Rabi sowings take place from October to middle of November and Rabi crops are harvested from middle of March to middle of April. The Malis keep their fields permanently under crops. They grow vegetables of different kinds.

Banking facilities: 49. In the Bharatpur Unit (consisting of Sub-divisions Bharatpur, Deeg and Bayana) the village money lenders have to a considerable extent been replaced by co-operative Department. The Co-operative movement in the former Bharatpur State was initiated iu 1915. The movement gradually gained a firm foothold and inspired unshakable confidence in the minds of the public. The following types of societies existed in the Bharatpur Unit *on 30-6-1950:*—

S. No.	Type of Societies	Number of societies	Number of members	Working capital
1	2	3	4	5
1.	Central Non-credit	6	761	155,225
2.	Agricultural Credit	555	12,935	645,883
3.	Agricultural Non-credit	74	1,296	8,639
4.	Non-agricultural Credit	32	694	38,045
5.	Non-agricultural non-credit	22	428	322,647

The Co-operative Department has been carrying on the tree plantation campaign on Janamashtami day for a number of years, and also planted a large number of trees in pursuance of the move of Government of India in the month of September, 1950. The Co-operative societies also played a great role in giving fillip to the 'Grow more food campaign' by reclaiming a considerable land, sowing improved varieties of seeds and carrying on necessary propaganda for this cause.

50. Commission shops exist in 5 important mandies of the Bharatpur unit (Consisting of Sub-divisions Bharatpur, Deeg and Bayana). They render valuable service to the agriculturists in saving them from the exploitation of the middlemen. Here the agriculturists bring their produce and obtain reasonable price for it without incurring other charges that are levied by the shopkeepers.

51. No Co-operative societies exist at present in the Dholpur Sub-division, and the agriculturists have to approach to the local money lenders for loans when needed.

Live Stock.

52. The live-stock in this district consist of oxen, buffaloe, sheep and goats, horses, camels and donkeys. Ample pasture land is available for the cattle.

Irrigation.

53. The well-known Bunds are (i) Sikri Bund in Nagar, (ii) Ajan Bund in Bharatpur, (iii) Bareta Bund in Bayana and Rupbas Tehsils. These Bunds are used for irrigation purposes. Important canals used for irrigation purposes in the district are (i) Pathena, (ii) Uchaim, (iii) Pichuna, (iv) minor canals from Sikri Bund of the Bharatpur district and (v) Jam canal of Indian territory. Irrigation is done in the following ways :—

(*i*) Inundation either directly from rivers or by way of bed sub-mergence and out side sub-mergence from bunds fed by these rivers and inundation from bunds fed by local catchment.

(*ii*) Area irrigated from tanks by means of canals run for Rabi irrigation.

(*iii*) *Irrigation done by wells:*—Water is lifted by Charas (leather buckets) worked by bullocks. Water is also lifted by Dhenklies, Persian wheels and pumping sets are becoming popular of late.

Agricultural Pests.

54. The crops often fall victim to various pests and Fungii, and the notable among them is roli or rust (red small germ eating into the vitals of the grains) effecting the wheat and barley crops, Uska which cuts the grain stem away. Rats are a danger in Bhur Barani (Sandy area) and along the foot of the hills. Locust menace also occurs every nine or ten years. The last locust attack was in 1950 when about 25 per cent of the standing crops of wheat and barley in Tehsils Bayana and Weir were damaged.

Agricultural Department.

55. Head office of the Rajasthan Agriculture Department is at Bharatpur (in March 1951). There is a District Office with a good number of field staff to look into the fields of cultivation in different Tehsils.

(b) Rents, wages and prices.

56. Rents on agricultural land are recovered at annas three to Rs. 3/8 per bigha according to the nature of the soil and fixed by the Revenue Settlement Department. The wages of an unskilled labourer vary from Re. 1 to Rs. 2 per day while those of the skilled labourer range from Rs. 2/8 to Rs. 4/8 per day. The prices of food grains prevailing in 1950 are shown below :—

Wheat	....	....	Rs. 18 per maund.
Barley	....	....	Rs. 13 ,,
Gram	....	....	Rs. 11 ,,
Bajri	....	....	Rs. 13 ,,
Jowar	....	....	Rs. 11 ,,
Moong and Urad		....	Rs. 14 to 15 per maund.

(c) Forests.

57. The main forest products are hay, firewood, charcoal and the minor forest products are gum, honey, wax, Taindu leaves, Khus and Khus oil.

Every year efforts are made to grow Babul and prosopisis Juli-Flora by trench and maunds sowing.

58. The Divisional Forests Officer with headquarters at Bharatpur supervises the forests of 7 ranges namely Bharatpur, Baretha, Dholpur, Alwar, Sariska, Rajgarh and Karauli, of which the first three ranges are in the Bharatpur district.

(d) Mines & Minerals.

59. Only building stones and mill stones are quarried in this district.

(e) Arts and Manufactures.

60. (i) Utensils and various kinds of clay pots of good quality are manufactured in Tehsil Nagar (ii) Fans from Sandalwood are prepared at Bharatpur. (iii) Agricultural implements are manufactured by the Black-smiths of Deeg.

Famines & Floods.

68. The severe famines of 1877, 1896-97 and 1899-1900 are still remembered by the present generations. The district had to face serious scarcities in 1911, 1921, 1931-1932 and 1241-42 It would thus appear that famines of minor or major nature have been taking place every tenth year. As a result of proper maintenance of the bunds and the existing irrigation facilities and inauguration of new schemes, the chances of major famines in the future are remote.

There had been abnormal floods in 1917, 1924 and 1942.

V—Administration.

69. Before the covenanting States of Bharatpur and Dholpur merged into the Matsya Union in March, 1948, the administration of the two States was carried on by their respective rulers with the assistance of Chief Minister and Counsil of Ministers. On the merger of the two States in the Matsya Union the Bharatpur State was made a district, and Dholpur State was also made a separate District from 1st November, 1948. In April 1949 the Matsya Union merged into Rajasthan and Dholpur District was reduced to a sub-division in Bharatpur District.

The district is now divided into 4 Sub-divisions, 12 Tehsils and 4 Sub-Tehsils as below:—

Name of Sub-division	*Name of Tehsil*	*Name of Sub-Tehsil*
1. Bharatpur	(i) Bharatpur	(i) Kumher.
	(ii) Nadbai	
2. Deeg	(iii) Deeg	
	(iv) Kaman	(ii) Pahari
	(v) Nagar	
3. Bayana	(vi) Bayana	
	(vii) Weir	
	(viii) Rupbas	
4. Dholpur	(ix) Dholpur (Gird)	
	(x) Baseri	(iii) Sir Mathura.
	(xi) Bari.	(iv) Sepau
	(xii) Raja Khera.	

The administration of the district is now in the hands of the Collector who is also a District Magistrate. Each Sub-division is under the charge of a Sub-Divisional Officer and Assistant Collector who is also the Sub-Divisional Magistrate, I Class. Each Tehsil is under the charge of a Tehsildar who is Magistrate of the Second or Third Class, and each Sub-Tehsil is under the charge of a Naib-Tehsildar who is not invested with magisterial powers. The Revenue suits are filed in the courts of the Collector, Sub-Divisional Officers and Tehsildars according to their nature or monetary jurisdiction. Land revenue is recovered by two instalments in a year. 1st instalment is recovered from 15th November to 31st December and the 2nd instalment from 1st to 31st May.

Land Revenue in the Bharatpur unit (consisting of Sub-division, Bharatpur Deeg and Bayana) is recovered by the Lambardars from the Khewatdars, according to the Fard Bachh prepared by the Patwari and given to the Lambardar, two weeks before the half-yearly period of the recovery begins. Receipts duly witnessed by the Patwaris are issued by the Lambardars to the Khewatdars. The Lambardars pay the amounts into Government Treasury, and the Patwari keeps accounts in proper registers. The Qanungo, Girdawars and Thesilders check the accounts.

The Revenue demands as finally fixed and assesed in the latest Settlement amounts to Rs 2,126,392 in the Bharatpur unit and about Rs 1,500,000 in the Dholpur Sub-division.

Besides the land revenue, Malba charges and cesses are recovered at certain percentages of the revenue demand in the Bharatpur unit. The village Lambardar gets 5% as commission on the recoveries of land revenue and Rs 3/2/– per cent of the irrigation charges recovered by him.

Besides the Collector, Sub-Divisional Officers and Tehsildars who exercise criminal powers, the following judicial Courts also exist in the district:—

The functions of the Panchayats are given in the Panchayat Act.

XI.—Miscellaneous.

Rehabilitation.

85. The partition of India in 1947 into Indian Dominion and Pakistan gave a novel and tremendous problem to both the countries and one of the important aspects of the problem was voluntary exchange of. population which is a typical event in the History of the worldf Muslim population of this district left for Pakistan and there was complete evacuation of their houses and land. Naturally therefore their arose an ample opportunity in this district, for rehabilitation of displaced persons coming from Pakistan. About 7,704 families (consisting of 28,177 persons) coming from Pakistan were settled in urban and rural areas according to the various schemes suggested by the Central Government.

86. *Urban Units.*—Capital of the former Bharatpur State situated in 27° 13′ North and 77° 30′ East, 34 miles west of Agra. Bharatpur is said to have been originally founded by Rustom a Jat of Sograya clan about 250 years ago when it was only a small mud fort. In 1733 Maharaja Surajmal took it from Khem Karan the son of Rustom, and improved it, building the larger fort and also the earthworks around the city. It was named Bharatpur after Bharat, the brother of Rama of Ayodhya, whose other brother Lachman is worshipped as the family diety by the chief and whose name also engraved in the State Coat of arms and Seals. The name of Rama is usually repeated in ordinary complements by the people of Bharatpur as "Ram Ram Sahib."

Bharatpur.

87. In the north-west of the town is a masonary stone fort of square dimensions occupying a prominent situation, with high walls and surrounded by a moat about 200 feet wide, very deep and containing large quantities of fish. The palaces forming the residence of the Maharaja and his family are within the Fort.

88. The fort of Bharatpur is celebrated for having baffled the attacks of Lord Lake in 1805 and for its capture by Lord Combermere on 18th January, 1826.

89. The noteworthy buildings in the city are (*i*) two temples, one of Lachmanji, particular diety of the Ruling family and the other dedicated to Ganga, generally sacred to all Hindus, and (*ii*) the Jamma Masjid.

90. This town was the capital of the former Dholpur State and is now the headquarters of a Sub-division and a Tehsil in the Bharatpur District. It is situated in 26° 42′ North and 77° 53′ East on the bank of river Chambal. The original town is supposed to have been built in the beginning of the eleventh century, a little to the south of the present capital, by Raja Dholan (or Dhawal) Deo, a Rajput of the Tonwar clan, after whom it was called Dholdera or Dhawalpuri. It was taken by Sikander Lodi in 1501 and by Babar in 1526. His son Hamayun is supposed to have moved the site of the town farther to the north to avoid the encroachments of the Chambal. An enclosed and to some extent fortified, Sarai was built in the reign of Akbar, and close to it is a handsome mausoleum erected in memory of Sadiq Muhammad Khan, one of Akbar's Generals who died here about 1597. The religious temples at Machkund and Purani Chhaoni and the historical fort of Shergarh are situated within the radius of 3 miles.

SCHEME OF CENSUS TABLES.

Census Tables Prepared this time fall under the following six broad groups:—

A General Population Tables.
B Economic Tables.
C Household and Age (Sample) Tables.
D Social and Cultural Tables.
E Summary Table.
F Local Table.

There are five Tables under General Population Tables. These are:—

A I Area, Houses and Population.
A II Variation in Population during fifty years.
A III Towns and Villages Classified by Population.
A IV Towns Classified by Population with variations since 1901.
A V Towns arranged territorially with Population by Livelihood Classes.

Economic Tables comprise of three separate Tables. These are:—

B I Livelihood Classes and sub-classes.
B II Secondary Means of Livelihood.
B III Employers, Employees and Independent Workers In Industries and Services by Divisions and Sub-Divisions.

There are five Tables in the Group of Household and Age (sample) Tables. These are:—

C I Household (size and composition).
C II Livelihood Classes by Age Groups.
C III Age and Civil Condition.
C IV Age and Literacy.
C V Single year age Returns.

They have been prepared on sample basis.

Social and Cultural Tables consist of seven Tables. These are:—

D I Languages; D I (i) Mother Tongue; D I (ii) Bilingualism.
D II Religion.
D III Scheduled Castes and Scheduled tribes.
D IV Migrants.
D V Displaced Persons by Livelihood Classes.
D VI Non-Indian Nationals.
D VII Educational Standards.

There is only one summary Table:—

E Summary figures by Administrative Units.

There is only one local table:—

(क) Infirmities.

DEFINITIONS AND KEY TO SYMBOLS.

Definitions.

Tract:—In past censuses the census figures were tabulated by administrative units i.e. districts, tehsils etc. This time in almost all tables the figures have been represented by units which have been technically called "TRACTS". Tracts are of three kinds, (1) all villages of a sub-division taken together form one rural tract; (2) all towns (which are not cities) in a district taken together form an "urban non-city tract" and (3) every city is an "urban city tract" or in short "city tract". A list of tracts comprised in each district has been given in the handbook of the district.

Town:—A "Town" has been defined as every municipality, every cantonment or every village which had a population of 5,000 or over in 1941 or any other village which was treated as a town for special reasons by the State Census Superintendent.

City:—A "City" is normally defined as a town with a population of one lac or over, but this definition has been relaxed in Rajasthan, and towns with a population of 50,000 or over have also been treated as cities, to bring the definition in uniformity with the one adopted in the Municipal Act.

Village:—A "Village" means a revenue **mauza** whose revenue is realised under a separate name. It includes all hamlets attached to it.

House:—A "House" has been defined as every structure made of any material which is actually used as human habitation or if not so used, is capable of being so used, which has separate main entrance from the street, lane, by-lane, etc. It includes structures of all kinds such as residential houses, temples, mosques, offices, etc. The **minimum**, which was necessary for qualifying a structure to be classed as a house, was at least two walls and a roof made of any material.

Occupied House:—"Occupied houses" were those which were used actually for the residence of human beings.

Household:—A "Household" has been defined to mean and include all persons living in one and the same house and dining at a common mess irrespective of their blood relationship e.g. servants residing with their masters and taking meals in their kitchen were treated as members of the master's household. On the contrary even nearest relatives as husband or wife were treated as separate families if for any reason they happened to live in separate buildings and dine at separate kitchens.

Household Population:—"Household Population" means persons living in numbered houses as members of a commensal family including guests and servants. It does not include (a) houseless persons or (b) inmates of institutions like jails, hospitals, hostels, dak bungalows, boarding houses, orphanages, sarais, dharmashalas, police lines, military lines, asylums, etc.

Displaced person:—A "Displaced person" was defined "as a person who migrated from Western Pakistan after 1st March 1947 or from Eastern Pakistan after 15th October 1946 due to communal disturbances or fear of disturbances or due to partition of India and Pakistan. Children born to such persons after their migration to India were not to be treated as displaced persons.

Ward:—A "Ward" was defined as municipal ward in case of municipal towns. In non-municipal towns wards have been made arbitrarily by the Census Department.

Means of Livelihood:—In former censuses it was customary to represent the basic population data by community or religion. This time an innovation has been made and in most of the tables the figures are published by Means of Livelihood groups. All occupations have been classified under eight broad classes and given code numbers which are as follows:—

I . . Cultivators of land wholly or mainly owned and their dependants.

II Cultivators of land wholly or mainly unowned and their dependants.

III Cultivating labourers and their dependants.

IV Non-cultivating owners of land, agricultural rent receivers and their dependants.

Persons (including dependants) who derive their principal means of livelihood from:—

V Production other than cultivation.

VI Commerce.

VII Transport.

VIII Other services and miscellaneous sources.

N. B.—In most of the Tables, the m/l class number is only given instead of describing the class.

Code No.—In the enumeration stage a set of location code numbers was prescribed to identify each inhabited spot, whereby the districts were numbered serially within the State, tehsils within a district and cities, towns or villages within a tehsil. Similarly houses were numbered within a village and households within each house. Hamlets were given sub-numbers under the number of the parent village.

A.—GENERAL POPULATION TABLES

A.-I.—Area, Houses and Population

Explanatory Note

This table shows the number of villages, towns, occupied houses and rural population for each of the tehsils of the District. Serial No. 1 contains the aggregate corresponding figures for the district as a whole.

The figures of area against each unit have been entered as supplied by the District Officer. They represent the total of unit, rural as well as urban, as separate figures for urban units were not available. The total area of the district, as supplied by the Surveyor General of India, has been given within the brackets against the name of district. The tehsilwise area could not be made available from Surveyor General's Office.

There are 12 Tehsils in this District.

(1) Bharatpur. (4) Nagar. (7) Weir. (10) Dholpur.
(2) Nadbai. (5) Kaman. (8) Rupbas. (11) Raja Khera.
(3) Deeg. (6) Bayana. (9) Baseri. (12) Bari.

A. IV—Towns Classified by Population with Variation since 1901.

Explanatory Note.

This table shows the population of the towns of the district for the last five Censuses by sex. It also gives the variation in the population from decade to decade along with the net variation since 1901.

In this table the cities and towns have been classified and arranged according to population under six classes namely:—

I	100,000 and over.
II	50,000 and 100,000
III	20,000 and 50,000
IV	10,000 and 20,000
V	5,000 and 10,000
VI	Less than 5,000

The class in which the individual town falls is shown under the name of the town.

The nature of the local body functioning in each town is shown in the bracket after the name of the town wherever such body is functioning.

In this district 7 fresh towns have been added in this census namely:—

(1) Nadbai. (4) Baseri. (7) Pahari.

(2) Nagar. (5) Rupbas Cantt.

(3) Sar Mathura. (6) Sepau.

A. V.—Towns Arranged Territorially with Population by Livelihood Classes.

EXPLANATORY NOTE:—

This table gives the number of persons (including dependants) in each town according to principal means of livelihood instead of religion as in past censuses, but means of livelihood classes I to III have been clubbed together and they have been shown in columns No. 15 and 16 after the non-agricultural classes.

(a) The towns have been arranged according to population. The nature of local body functioning in each town is shown in brackets after the name of the town wherever such body is functioning.

B. ECONOMIC TABLES.

1. In the 1951 Census, the Economic classification was substituted for the classification based on Religion.

2. The people have been divided into two broad livelihood categories, viz, the Agricultural Classes and the Non-Agricultural Classes.

3. There are four Agricultural Classes, defined as below :—

I Cultivators of land, wholly or mainly owned and their dependants.

II Cultivators of land, wholly or mainly unowned and their dependants.

III Cultivating labourers and their dependants, and

IV Non-cultivating owners of land; agricultural rent receivers and their dependants.

4. There are four Non-Agricultural Classes, defined as comprising all persons (including dependants) who derive their principal means of livelihood from :—

V Production other than cultivation.

VI Commerce.

VII Transport.

VIII Other services, and miscellaneous sources.

5. All these classes have been referred to as Means of Livelihood Classes or in brief M/L Classes.

NOTE.—(*a*) Land is deemed to be owned "if it is held on any tenure (by whatever name it is known locally) which carries with it the right of permanent occupancy for purposes of cultivation." Such right should be heritable. It may be (but need not necessarily be) also transferable.

(*b*) A "Cultivator" (Livelihood Class I or II) is distinguished from a "Cultivating Labourer" (Livelihood class III) as the person who takes the responsible decisions which constitute the direction of the process of cultivation. All cultivating labourers are employees of cultivators.

(*c*) The classification of a person employed in any non-agricultural enterprise or establishment is based on the nature of his own work, not on the nature of the enterprise or establishment concerned. Thus for instance not all railway employees are classifiable under Livelihood Class VII (Transport). Those employed in Railway workshops are classifiable under Livelihood Class V and those employed on constructional services under Livelihood Class VIII.

6. Livelihood Sub-Classes :—Each of the eight M/L Classes has been divided into three sub- classes, with reference to their economic status as below :—

(*i*) Self-supporting persons ;

(*ii*) Non-earning dependants ; and

(*iii*) Earning dependants.

Economically active, semi-active and passive persons :—

7. All non-earning dependants are economically passive. They include persons performing house-work or other domestic or personal services for other members of the same family household. But they do not include "unpaid family workers or persons who take part along with the members of the family household in carrying on cultivation or a home industry as a family enterprise".

8. All earning dependants are economically semi-active only. Though they contribute to the carrying on of economic activities, the magnitude of their individual contribution is deemed to be too small to justify their description as economically active.

9. All selfsupporting persons are, ordinarily, economically active. But, there are certain classes and groups which constitute an exception to this rule. These are mentioned below :—

(*i*) The selfsupporting persons of agricultural class IV.

(*ii*) The following groups of selfsupporting persons who are included in non-agricultural class VIII and derive their principal means of livelihood from miscellaneous sources (otherwise than through economic activity) :—

(*a*) Non-working owners of non-agricultural property,

(*b*) Pensioners and remittance holders,

(*c*) Persons living on charity and other persons with unproductive occupations, and

(*d*) inmates of penal institutions and asylums.

Classification of Economic activities and Economically active persons :—

10. Economic activities may be defined as including all activities of which the result is the production of useful commodities or the performance of useful services but not including the performance of domestic or personal services by members of a family household to one another.

11. The most important among all economic activities is the cultivation of land (or the production of the field crops). It stands in a category by itself. All other economic activities may be regarded as falling in another category which may be referred to as "Industries and Services". All these activities may be classified with reference to the nature of the commodity produced or service performed. Under the present scheme, all industries and services are classified in 10 divisions ; and these divisions are sub-divided into 88 sub-divisions. The scope of activities included in each sub-division is indicated by its title.

12. Economically active persons engaged in cultivation, are either cultivators or cultivating labourers i. e., they are persons of sub-class (*i*) of agricultural classes I to III.

13. Economically active persons engaged in Industries and Services are classifiable in the divisions and sub-divisions. All persons included in each sub-division are further divisible into three sections viz.,

(*i*) Employers.

(*ii*) Employees, and

(*iii*) Independent Workers.

14. In effecting this classification, no account has been taken of whether the classified person was actually employed or unemployd on the date of enumeration. He has been allocated to that particular description of economic activity from which he has been in fact deriving a regular (that is non-casual) income, as his principal means of livelihood.

The Tables.

15. The Economic tables for the State as a whole with break-up for Natural Divisions and districts will be found in Report Part II B of the Census of India 1951, Volume X, Rajasthan and Ajmer. It also contains a full discussion of the Indian Census Economic Classification Scheme and its comparison with International Standard Industrial Classification Scheme evolved by the United Nations Organisation. This Handbook contains the above tables for this district in which they are published down to tract level.

16. The replies recorded in the census slips against census questions 9, 10 and 11 have been used for classifying every enumerated person within the framework of Economic Classification of people described above. The results have been exhibited in the three tables.

(a) Economic Table I .... Livelihood classes and sub-classes.

(b) Economic Table II ... Secondary means of livelihood.

(c) Economic Table III ... Employers, employees, and independent workers in industries and services by divisions and sub-divisions.

Economic Table I.

17. This table is the result of the record of replies to the census question No. 9 (1). It shows the distribution of population in the eight livelihood classes and 3 sub-classes of each livelihood class. A complete picture has been presented of economically active, semi-active and passive persons.

Economic Table II.

18. It specifies the number of selfsupporting persons in each of the 8 classes mentioned above, who have more than one means of livelihood and cross classifies them according to the nature of such secondary means of livelihood under the same eight classes. It also displays the number of earning dependants who supplement (with their own activities) the resources provided for their maintenance by the persons on whom they are dependant. The economic activity of the economically semi-active persons whereby they supplement the above resources has been shown in this table. The replies recorded in the slips against census question 11, showing the occupation of semi-active persons as also the secondary means of livelihood of selfsupporting persons (with more than one occupation) other than the principal means of livelihood, are the basis of this table.

Economic Table. III.

19. This table is limited to economically active persons only. Selfsupporting persons engaged in Industries and Services have been classified under 10 Divisions and sub-divisions thereof. They have been further divided under each division and sub-division into three categories "Employers" "Employees", and "Independent Workers".

(a) M/L Class V (Production other than cultivation) corresponds to Division 0 to 4 (0-Primary industries not elsewhere specified, 1-Mining and quarrying; 2-Processing and manufacture-foodstuffs, textiles, leather and products there of; 3-Processing and manufacture metals, chemicals and products there of; 4-Processing and manufacture not elsewhere specified).

(b) M/L class VI (Commerce) corresponds to Division 6 (Commerce).

(c) M/L class VII (Transport) corresponds to sub-divisions 7·1 to 7·4 of division 7 (Transport, storage and communications).

(d) M/L class VIII (Other services and miscellaneous sources) includes Division 5 (Construction and utilities), Division 7 (Transport storage and Communication) with the exception of sub-division 7·1 to 7·4; Division 8 (Health, education and public administration) and Division 9 (Services not elsewhere specified). It also includes other miscellaneous sources of livelihood e.g. income from investment, pensions and family remittances, proceeds of begging and other unproductive activities. These are not, however, included, in Economic Table III which is limited to industries and services. Hence there is a difference to this extent between the total self-supporting persons of the non-agricultural classes in Economic Table I and the total of this table. The reconciliation has been affected by entries of economically inactive persons with the following further classification at the end of the table (columns No. 799 to 808).

(i) Persons living principally on income from non-agricultural property.

(ii) Persons living principally on pensions, remittances, scholarships and funds,

(iii) Inmates of jails, asylums and alms-houses.

(iv) Recipients of doles.

(v) Beggars and vagrants.

(vi) All other persons living principally on income derived from non-productive activities.

20. The Unit of Classification is the organised "Establishment". The commodity produced or the service performed as a result of the work of the organised establishment is the criterion for classifying the establishment. Tne classification of the establishment is the classification of every member of the establishment.

21. As regards "Employees", all persons, engaged, in production, commerce or transport (and not being domestic servants) have been classified under the appropriate sub-divisions with reference to their own activity, and without reference to that of their employer. Domestic servants have all been classed in one sub-division without reference to the nature of their work. All other employees (including all managerial and supervisory employees, clerks, messengers, watchmen and unskilled labourers of every description) have been classified with reference to the commodity produced or services rendered by their employers.

22. In this table occupational returns under some of the sub-divisions are nil and the columns pertaining to such sub-divisions have been omitted for the sake of economising space, hence there are breaks in the serial number of columns.

C.—HOUSEHOLD AND AGE (SAMPLE) TABLES.

Explanatory Note:—This series consists of the following tables:—

C. I Household (size and composition)
C. II Livelihood Classes by Age Groups.
C. III Age and Civil Conditions.
C. IV Age and Literacy.
C. V Single Year Age Returns.

All these tables have been prepared on sample basis. In table C. I nearly 1 in 1000 households has been selected as sample from the National Register of Citizens. In other tables 10% sample has been taken from the enumeration slips pertaining to general population excluding displaced persons population.

C—I—Household (size and composition)

EXPLANATORY NOTE:—This table shows for each census ract the total number of households, household population, the sample households population, and the size and composition of households in the sample household population.

The figures are arranged under two broad groups:—

(i) Size of households.
(ii) Composition of households.

in (i) households have been called.

(a) "Small" if the number of inmates is 3 or less.
(b) "Medium" if the number of inmates is between 4 and 6.
(c) "Large" if the number of inmates is between 7 and 9,
(d) "Very large" if the number of inmates is 10 or more.

in (ii) the inmates in a household are discribed under three heads,

(a) Relationship to the head of the household.
(b) Number in broad age groups.
(c) Civil condition.

C. IV.—Age and Literacy

Explanatory Note:—This table shows the literacy by age groups of the sample population. The figures of illiterates include those of partially literates i. e. those who can read a simple letter in any script but cannot write one. Literate means one who can both read and write a simple letter in any script.

District Index of Non-Agricultural Occupations.

This Table is prepared from the Sorter's Ticket 2. This is a sort of supplement to Economic Table B. III and provides further details of the occupational groups mentioned therein.

The Sorter's Ticket 2 was prepared in accordance with the instructions to the Sorters reproduced below :—

1. *Preparation.*—You have to prepare Sorter's Ticket 2 only if you have slips relating to any of the livelihood class V, VI, VII or VIII. You are to deal only those slips which relate to self-supporting persons. The slips relating to non-earning dependants or earning dependants would have been separated already and should not be used at this stage.

2. *First operation.*—You have first to deal the slips with reference to the Principal means of livelihood recorded against question 10. Your Supervisor will give you a list of "M/L (Means of livelihood) sub-groups"* in the order of importance for which you have to sort. Select not more than ten Pigeon-holes and affix labels bearing the names of the "M/L sub-groups" (written out in full) as given to you. The number of M/L sub-groups given to you will generally exceed ten. You should reserve one or two Pigeon-holes for throwing slips which are not covered by the M/L sub-groups shown on the lables. You should then deal the slips with reference to the answer recorded against question 10. In doing so, put together slips containing entries which are written in either identical or very similar terms to each of the labelled "M/L sub-groups." If you are in doubt whether an entry, in any case is very similar or not to the labelled M/L sub-groups, consult the Supervisor. Finish the sorting for one set of M/L sub-groups. Then distribute the slips of one set into individual occupations. Now count the number and "enter" the name and number in columns (2) and (3) of Sorter's Ticket 2. Keep the unsorted slips separate. This completes the first stage of the first operation.

3. *First operation (succeeding stages).*—You should then take up the slips that remain to be sorted. You should deal them again for the remaining M/L sub-groups given to you in same manner as in the first operation. The operations should be repeated successively until all the slips are sorted for all the M/L sub-groups given to you. You may find slips where the M/L as recorded in question 10 does not fall under any of the sub-groups given to you. You should deal these slips separately in the manner explained above and enter the name and number in the Sorter's Ticket. This completes the first operation. You should keep separate the bundle for each M/L sub-group.

4. *Special instructions regarding non-productive means of livelihood.*—Livelihood class VIII will contain slips of persons who derive their income otherwise than through Productive activity. They include all self-supporting persons against whom the answer to question 9, Part two, is 'O'. They should be treated as a distinct group, not falling under any of the prescribed divisions and sub-divisions; and sorted under the following sub-groups, viz.—

(*i*) Persons living principally on income from non-agricultural property.
(*ii*) Persons living principally on pensions, remittances, scholarships and funds.
(*iii*) Inmates of jails, asylums, alms houses and recipients of doles.
(*iv*) Beggars and vagrants.
(*v*) All other persons living principally on income derived from non-productive activities.

5. *Second operation.*—For this operation the slips mentioned in Paragraph 4 are excluded. You have to deal the remaining slips with reference to the answer recorded in the second compartment of question 9. Affix labels to three Pigeon-holes, the labels being marked "Employer", "Employee" and "Independent worker". Take the bundle

---

* *List of M/L sub-groups.*—Separate lists of sub-groups should be prepared for use in sorting each of the four different livelihood classes V to VIII. These lists should be compiled on the basis of (a) scrutinizing of entries found to occur frequently in the National Register of Citizens and (b) results of trial sorting by Supervisor and Compiler-checkers.

for each M/L sub-group and deal them into the three Pigeon-holes. You will find "मा" for "Employer" "नो" for "Employee" and "खद" for "Independent worker" recorded in the second compartment of question 9. If you find that there is no entry you should take the order of your Supervisor. When you have completed the sorting for a M/L sub-groups you should count the number in each Pigeon-hole and enter in Columns (4) to (6) of the Sorter's Ticket according as the Pigeon-hole relates to "Employer", "Employee" and "Independent worker" respectively.

6. *Second operation (succeeding stages).*—You should take each of the other bundles for M/L sub-groups and deal them in the same manner as in the second operation; you should enter the result in the relevant columns of the Sorter's Ticket.

7. *Conclusion.*—You have now completed all operations necessary for Sorter's Ticket 2. Re-combine all the male slips and all the female slips.

If you are sorting sample slips or slips for displaced persons you should proceed to Sorter's Ticket 3.

If you are sorting general slips you should proceed to Sorter's Ticket 6.

After the Sorter completed the ticket and after due check by the Compiler-checker and the Supervisor, the ticket was handed over to the tabulation clerk to fill in the Group Code numbers in column (1) of the form of Sorter's Ticket 2 given below.—

Form of Sorter's Ticket 2.

The group code numbers were adopted from the Indian Census Economic Classification Scheme given in Part II – B of the Report.

Accuracy of Figures.

A perusal of this index shows incredible figures, against certain occupations. This is due to vague entries in the slips regarding the occupations contrary to instructions in some cases and entries with correct details in others. The result was that in the tabulation stage the only slips which contained correct details of occupations were sorted under the correct sub-group and its details, while those with vague entries were placed in the wider groups.

Another point to be borne in mind is that not all persons following an occupation have been shown against it in the Index, but those who followed it as a Principal means of livelihood. Thus if a Ticket Collector derived a greater part of his income from rent of agricultural or other land or building and some income only from his services as Ticket Collector, he would not be shown as Ticket Collector.

The third point to be kept in mind is that these figures, represent only self-supporting persons and not those who are partly dependants, thus a young boy who sits at a 'Pan shop' and gets some pay from the shop keeper which is not sufficient to support him, he has to depend upon his father's income mostly. Such a man would not appear under the occupation "Service on Betel Shop."

The last but most important defect in the figures is due to difference in the terminology prevalent in the different areas of Rajasthan describing an occupation and also partly due to want of exercise of proper care in the tabulation stage that name showing same and similar occupations have been shown as different occupations for example 'Halwai's shop" and "sweet-meat selling" have been shown as different occupations. In order therefore to find out the actual strength of self-supporting persons following a particular occupation as their principal means of livelihood, figures against all such occupations should be totalled.

On the whole, this index removes the defects pointed out in the Census Tables published in the previous Census that they do not show actual occupations but their group only.
