FOREWORD

Publication of the District Census Handbooks (DCHs) was initiated after the 1951 Census and is continuing since then with some innovations/ modifications after each decennial Census. This is the most valuable district level publication brought out by the Census Organisation on behalf of each State Govt./Union Territory administration. It *inter-alia* provides data/information on some of the basic demographic and socio-economic characteristics and on the availability of certain important civic amenities/facilities in each village and town of the respective districts. This publication has thus proved to be of immense utility to the planners, administrators, academicians and researchers.

The scope of the DCH was initially confined to certain important census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town (ward-wise) of the district. The DCHs published after the 1961 Census contained a descriptive account of the district, administrative statistics, census tables and Village and Town Directories including PCA. After the 1971 Census, two parts of the District Census Handbooks (Part-A comprising Village and Town Directories and Part-B comprising Village and Town PCA) were released in all the States and Union Territories. The third part, Part C of the District Census Handbooks comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States/UTs due to considerable delay in compilation of relevant material. In 1981, some new features alongwith the restructuring of the formats of Village and Town Directory were introduced in the DCHs. These were published in two parts for each district after the 1981 Census. While Part-A comprised Village and Town Directories, the PCA of villages and towns (ward-wise) including Scheduled Caste and Scheduled Tribe PCA upto tehsil/town level were provided in Part-B. To illustrate, all the amenities except electricity, were brought together in the Village Directory and if an amenity was not available in the referent village, the distance in broad ranges from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time in the Village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directories also, keeping in view the requirements of the Minimum Needs Programme, a Statement IV-A on slums was provided so as to enable the planners to chalk out the programmes for providing better civic and other amenities in the slums. In this Statement details on civic and other amenities were reported for the slums of Class I and Class II towns. Apart from this, one column on the Scheduled Castes and Scheduled Tribes population and another on adult literacy classes/centres were added in Statements IV and V respectively.

The manner of presentation of the DCHs for the 1991 Census is by and large the same as followed in 1981. However, the format of PCA has been restructured slightly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers has been given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age-group has also been included in PCA for the first time with a view to enabling data users to compute more realistic literacy rates as all children below 7 years of age have been treated as illiterate at the time of the 1991 Census. It is expected that the above mentioned modifications will help the planners in chalking out more effective developmental programmes.

One of the most important innovations is the 1991 Census is the Community Development Block-level presentation of data in the Village Directory and PCA instead of the traditional Tahsil/Taluk/PS level presentation. It is expected that the presentation of Village Directory and PCA data at C.D.Block level will help the planners in formulation of micro-level developmental plans, as the C.D.Block is the lowest administrative unit for developmental planning.

In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/floppies or from the published records, both the computer and manual codes for each village have been provided for the 1991 Census along with the corresponding codes of 1981.

This publication is a joint venture of the State Govt./UT administration and the Census Organisation. The data have been collected and compiled under the direction of Ms. Sobha Nambisan, Director of Census Operations, Karnataka on behalf of the State Govt. administration which has borne the cost of printing. The task of planning, designing and coordination of the publication was initiated by Dr.K.P.Ittaman, former Deputy Registrar General (Social Studies) and Shri M.M.Dua, Joint Director. For the sake of uniformity in presentation of information/data and for preparation of analytical note depicting the salient features emerging from a micro-level analysis of Census/non-Census data, a model District Census Handbook from each State and Union Territory was thoroughly scrutinised in the Social Studies Division under the guidance of Shri M.K.Jain, the present Deputy Registrar General (S.S.). This task was carried out by Shri A.K.Singh, Deputy Director who was assisted by S/Shri V.K.Jain and Hariram, Investigators and staff. Technical guidance in the preparation of the maps was initially provided by Dr.B.K.Roy, former Deputy Registrar General (Map) and later by Mrs. Minati Ghosh, the present Deputy Registrar General (Map).

I am thankful to all those who have contributed to this project.

New Delhi
June 11, 1992.

A.R.Nanda
Registrar General, India

PREFACE

In the foreword to the 1991 series of the District Census Handbooks, Sri A.R.Nanda, I.A.S., the Registrar General and Census Commissioner, India, has traced the history of the District Census Handbooks. He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain the salient data on the population for every village and town as revealed by the 1991 Census. They also contain a wealth of information regarding these villages and towns which, although not part of the population census, throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information has also considerable importance in the context of planned development.

The District Census Handbook is therefore divided into two parts: Part A containing information regarding each village and town (Village Directory and Town Directory) which is not census data and part B which contains the data on the population collected during the 1991 Census - the Primary Census Abstract. The data published in Part B was collected in February 1991 at the time of the population census. This data was then manually tabulated in the Regional Tabulation Offices set up for the purpose. Subsequently, as a part of the countrywide project taken up in collaboration with the National Informatics Centre, the Primary Census Abstract data was computerised. The data for Part B of the District Census Handbook was therefore available on tape for the entire country by November 1992. The State Informatics Officer of the National Informatics Centre at Bangalore supplied the print-outs of the Primary Census Abstract data which helped us to bring out the Part B portion of the District Census Handbook of each district fairly quickly.

The process of data collection for the Village Directory and the Town Directory (Part A) commenced in early 1990 and continued till the middle of 1992. For operational convenience, the Village Directory format was divided into two portions, one relating to the area and land use particulars and the other relating to the amenities available in each village. The relevant formats were mailed to the Deputy Commissioners of Districts and Chief Secretaries of Zilla Parishads for obtaining the villagewise particulars. Similarly the Town Directory formats were mailed to the Deputy Commissioners and Commissioners of Corporations. The villagewise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the 1981 District Census Handbooks.

Since the Primary Census Abstract data was available on the computer, it was decided to publish the District Census Handbooks in two separate volumes, with Part B appearing in print first.

In the preparation of the District Census Handbooks the role of the Census Directorate is that of data collector. For accomplishing this task we have had the ready co-operation of the staff of different departments of the State Government. The cost of printing of the District Census Handbooks is borne by the Government of Karnataka.

I take this opportunity to offer my grateful thanks to all the officers and officials who have been actively involved in the compilation of this volume.

I am thankful to Shri A.Venkateshan, the State Informatics Officer, National Informatics Centre, Bangalore for all the assistance he and his staff members have rendered for computerisation of the data and for preparation of the camera ready copy of the manuscripts of all the Districts.

I am deeply grateful to Shri A.R.Nanda, I.A.S., the Registrar General, India for the benefit I have derived by way of guidance and advice. I express my thanks to Shri M.K.Jain, the present Deputy Registrar General (SS) as well as to Mrs. Minati Ghosh, Deputy Registrar General (Map).

Lastly, I am thankful to the Government of Karnataka for having readily agreed to bear the cost of printing these District Census Handbook volumes and to the Director of Printing, Stationery and Publications for the keen interest he has evinced in bringing out these publications.

Bangalore,

ANALYTICAL NOTE

Brief History of the District Census Handbook :-

The District Census Handbook series was, for the first time, included in the census publication programme at the 1951 census in order to satisfy the growing demand for micro-level data by the administrators, the planners and the other census data users. The District Census Handbooks sought to replace 'Part IV - Taluk Tables' and 'Part V - Village Tables' of the earlier censuses and to present the basic demographic and economic data in the form of 'Primary Census Abstract' in respect of each and every village and town within the jurisdiction of the district concerned. In addition, these volumes were to contain a set of statistical tables based on the census data in respect of the district and its constituent taluks and towns.

At the 1961 census, the scope of the District Census Handbook was greatly enlarged by incorporating in it - (i) a descriptive account of the district, (ii) a set of non-census tables dealing with the administrative statistics of the district for a decade, (iii) taluk and town level census tables on economic and socio-cultural aspects and (iv) the village and urban (census enumeration block level) Primary Census Abstract containing the ninefold industrial classification of workers. In a somewhat general way, information on the availability of certain basic amenities in villages and towns, such as the sources of drinking water and educational institutions, was also presented in these volumes. These general guidelines were, by and large, followed in Karnataka too. However, the scope of the District Census Handbooks of 3 out of the then existing 19 districts, namely Bangalore, Dharwar and Mysore, was confined to the publication of the village-wise and urban (census enumeration block wise) Primary Census Abstract only.

The 1971 census witnessed an overall improvement in the matter of compilation as well as presentation of the data. A country-wide uniformity in approach and a comprehensive coverage are the hall marks of this series of publications. In 1971, the District Census Handbook was split up into three portions - (i) Part A - consisting of land use data on villages and also the data on the nature and extent of amenities and services available in the villages and towns of the district - presented in the form of Village Directory and Town Directory respectively, (ii) Part B - consisting of the Primary Census Abstract (including the nine-fold industrial classification of workers) for the district, the taluks, the towns, the villages and the census enumeration blocks in case of towns; and (iii) Part C - consisting of an analytical note based on an analysis of the census data as well as the non-census data included in the volume, a set of tables depicting the administrative statistics in minute detail, a set of statistical tables based on the census data in respect of the district and the constituent taluks and towns thereof besides a set of tables generated on the basis of the villagewise census data in association with the villagewise data on the availability of amenities. The main objective was to present a comprehensive and intelligible portrait of the district and an overview of the developmental programmes implemented in the district during the preceding decade. Publication of the District Census Handbooks was planned in such a way as to minimise the delay inherent in the compilation of a voluminous mass of data gathered from different sources. Accordingly, 'Part A', comprising the Village Directory and the Town Directory for the finalisation of which there was no apparent need to wait till the completion of the tabulation of the data gathered at the census, was to be published first and 'Part B', consisting of the Village/Urban Primary Census Abstract was to be released next. A lower priority was assigned to 'Part C' for the obvious reason that besides administrative statistics it was to include a set of socio - demographic and economic tables generated on the basis of the data gathered at the census and an analytical note prepared thereof. In Karnataka, however, 'Part A' and 'Part B' portions of the District Census Handbooks were combined together and published in a single volume for each district except Bangalore. In the case of Bangalore District, since it was felt that the size of such a combined volume would be unweildy, Part A and Part B were published separately. As regards 'Part C', compilation of data took more time than anticipated and, in addition, there was an inordinate delay in executing the printing job at the State

Directorate of Printing. As a result, only a portion of Part C (depicting some of the census tables) relating to Bangalore District was published somewhat belatedly and the proposal to publish the remaining portion of Part C for Bangalore District as well as the entire portion of Part C for the other districts was finally abandoned.

Instead of witnessing an expansion as in the past two censuses the scope of the 1981 series of the District Census Handbooks was curtailed to a considerable extent in that it was confined to the publication of Village Directory, Town Directory and the Village/Urban Primary Census Abstract. Thus, at the initial stage itself there was no proposal to compile and publish the administrative statistics and the various socio-demographic and economic tables based on the census data, that is, the portion which constituted 'Part C' of the 1971 series. But for this change, the approach in 1981 regarding uniformity and comprehensiveness were very much the same as in 1971. In order to avoid delay in publication, as in the past, the District Census Handbook was proposed to be published in two parts, namely, 'Part A' consisting of the Village Directory and Town Directory and 'Part B' consisting of the Village/Urban Primary Census Abstract besides the Special Primary Census Abstracts at taluk/town level in respect of the Scheduled Castes and Scheduled Tribes population of the district.

At the 1981 census, the contents of the Village Directory and the Town Directory were slightly enlarged and the formats were restructured. In the Village Directory all the amenities except power supply were brought together under a broad heading with the provision that 'in case an amenity is not available in the referent village, the distance to the nearest place where that particular amenity is available may be indicated in broad ranges'. A new item 'approach to the village' was included. In the remarks column, a provision was made to report the number of copies of newspapers in circulation in the village as also the number of motor cars, the number of motor cycles and the number of tractors available in the village. Further, in order to examine whether there is any correlation between the availability of amenities and the population size of a village, an additional column was provided in the Village Directory to indicate the population and number of households. The contents of Part A were further enlarged by including two appendices, namely, a list of villages not having any amenities and a distribution of villages according to the proportions of Scheduled Castes and Scheduled Tribes in the total population of the village. The Town Directory formats were also modified by the addition of a few items such as class of town, population, Scheduled Castes and Scheduled Tribes population, decadal growth rate of population, working women's hostel, adult literacy classes/centres, storage system regarding drinking water supply etc., and also by providing for recording the information about the nearest place (and distance) having educational, medical and fire-fighting facilities in case such a facility is not available in the referent town. As compared to 1971, while one statement indicating religion-wise population of the town was dropped, another statement to provide information about the amenities available in notified slums in Class I and Class II towns was added. As regards the Primary Census Abstract of towns, the urban block-wise presentation of data was given up and details were presented only upto the level of Wards/Divisions. However, information on the number of persons belonging to Scheduled Castes and Scheduled Tribes was furnished for each census enumeration block within the town in the form of an appendix and an annexure thereto provided the description of the boundaries of each census enumeration block. Further, instead of the nine-fold classification of workers adopted at the 1971 census, on this occasion the classification was restricted to 4 categories. In Karnataka, in 1981 also, both Part A and Part B portions of the District Census Handbooks were published together in a single volume for each district. However, because of certain technical compulsions, all the information relating to Scheduled Castes and Scheduled Tribes was excluded from the main formats and was presented separately at the end in the form of a Supplement (separate booklets were brought out in the case of Bidar and Mandya Districts).

2. Scope of the 1991 District Census Handbooks:

As in 1981, in 1991 too, the District Census Handbooks are proposed to be brought out in two portions, namely Part A consisting of the Village Directory and the Town Directory and Part B

consisting of the Village/Urban ward-wise Primary Census Abstract in addition to the District Primary Census Abstract and the Special Primary Census Abstract in respect of the Scheduled Castes and Scheduled Tribes. Though, the scope of the 1991 series of the District Census Handbooks has, by and large, remained the same as in 1981, a few significant changes have been made in the Village Directory format as well as the Primary Census Abstract format. In Karnataka, unlike at the previous censuses, on this occasion, the 'Part A' and 'Part B' portions of the District Census Handbooks of each district are being brought out in separate volumes.

The manner of presentation of data has also undergone a significant change in that the Village Directory and the Primary Census Abstract data are presented according to the location of villages and towns within the jurisdiction of a Community Development Block rather than their location within a taluk*. In other words, the traditional practice of taluk-level presentation of data has now been givenup in preference to the Community Development Block level presentation of data which is considered as more meaningful in the present day context. Since C.D.Block is the lowest administrative unit for developmental planning, the choice of the C.D. Block as the unit for data presentation is expected to help the planners in formulating micro-level developmental plans. Another innovation at the 1991 census is the arrangements made for the dissemination of the data in collaboration with the National Informatics Centre through its country-wide computer network. In the published volumes of the District Census Handbooks, therefore, the computer codes assigned to the villages in the 1991 census and the corresponding codes in 1981 are presented so as to facilitate the data users who may prefer to use the data either from magnetic tapes or floppies.

(i) Village Directory :

The Village Directory format adopted for the 1991 series has 18 columns. When examined with reference to the 1981 format it will be noticed that two columns have now been left out - while one of these columns refers to the 'staple food' the other refers to the 'remarks' under which, information about the places of religious, historical or archaeological interest in the village as also information about the number of copies of newspapers in circulation, the number of motor cars, motor-bicycles and tractors available in villages was published in 1981. As compared to 1981, there is no change in the scope and coverage of the information presented in the 18 columns of which 8 are devoted for amenities and 6 are meant for indicating the area of the village and the land use pattern. The remaining four columns are meant for indicating the location code and name of the village, total population and the number of households enumerated in the village and the name of the nearest town as also the distance to that town. The aspects covered under the amenities are: educational, medical, sources of drinking water supply, postal and telegraph, weekly market, communication, nature of approach road and power supply. Further, if a village did not have any educational facility at all, instead of merely reporting the fact and stopping at that, an indication of the distance (in ranges) that the villagers have to traverse to reach a place with educational facilities (at the basic level) is reported. The same procedure of reporting is adopted regarding medical facilities, drinking water supply, postal and communication as well as weekly market facilities. The distance ranges adopted for reporting are the same as in 1981, namely -5 km, 5 - 10 km and 10+km. In an explanatory note, which precedes the presentation of the Village Directory Statements, details about the abbreviations used under various columns are furnished.

---

* *In Karnataka, the "Taluk Panchayat Samiti" corresponds to the Community Development Block, and for the sake of maintaining uniformity with the all-India pattern, the term C.D.Block has been used throughout in the District Census Handbooks. The jurisdiction of a Taluk Panchayat Samiti is coterminus with that of the corresponding Taluk but excludes the statutory towns.*

The main agency which has furnished the villagewise information on amenities is the Zilla Parishad which in turn has collected the relevant particulars through its field formations, namely the Chief Executive Officers (i.e., the Block Development Officers) of the various *Taluk Panchayat Samitis*. These details were examined for consistency as well as with reference to the particulars reported in 1981 and cases of deterioration or of abnormal developments were referred back for reverification and rectification. For instance, as compared to 1981, for several villages, Wells and Tanks did not find a mention as a source of drinking water supply. When referred back, the concerned Chief Executive Officers clarified that in most of these cases, the drinking water wells of yester years have either dried up or fallen into disuse on account of the increasing number of borewells drilled in such villages and also because of the implementation of the National Rural Water Supply Scheme, the Mini-Water Supply Scheme and Accelerated Water Supply Scheme etc. So also regarding the availability of pucca approach road facility several instances of deterioration were noticed. Such cases too were referred back so that the factual data may be verified again and reported for publication. Information about the number of educational institutions, nature of government run medical institutions and postal, phonocom and telegraph facilities as furnished by these officers have been cross-checked with the data obtained from the concerned Departments as well to ensure a higher level of reliability.

In case of uninhabited villages, i.e., villages which returned 'nil' population at the 1991 census count, except the name and the total area no other information is furnished. Instead of putting a dash under each column to indicate this fact, the word 'uninhabited' is printed along the line.

In order to facilitate easy reference, an alphabetical list of villages is given at the begining in respect of each C.D.Block. This list indicates the code numbers assigned to the villages for purposes of census enumeration as well as the computer codes assigned (at the stage of computerisation) as also the corresponding codes according to the 1981 census. At the end of the Village Directory the following appendices are given:- C.D. Block-wise abstract of amenities; list of villages not having any amenities except Drinking Water, land utilisation data in respect of non-municipal towns and distribution of villages according to the proportion of Scheduled Castes population and Scheduled Tribes population.

(ii) Town Directory :

As in 1981, in 1991 too, there are seven statements which furnish information on the following aspects - growth history; physical aspects and locational particulars; municipal finance; civic and other amenities; civic amenities available in the notified slums of Class I and Class II towns; medical, educational, recreational and cultural facilities; and trade, commerce, industry and banking. The scope of the various column headings adopted in 1981 has remained unchanged in 1991. However, in Statement-I, slight modifications have been made to accomodate the 1991 census data - an additional column is provided for indicating the 1991 population and the growth rate registered by the town during the decade 1981-91. In Statement-I an additional column has been provided for indicating the name of the C.D.Block within the jurisdiction of which the referent town is located. It may be incidentally mentioned that, in Karnataka, the civic bodies functioning in the Statutory Towns do not fall within the administrative jurisdiction of the C.D.Blocks (i.e., Taluk Panchayat Samitis).

In the Town Directory statements, the towns are arranged in an alphabetical order of their names and the aggregate particulars about urban agglomerations if any in the district have also been furnished in the same order. Where an urban agglomeration includes two or more independent towns, the names of these constituent towns are shown in the correct sequence as per the alphabetical arrangement of their names. But, the details which ought to have been furnished in the subsequent columns have been skipped with a view to avoiding repetition. Instead, immediately after the name of the town, a cross reference is given by printing the message "see ..... urban agglomeration". The name of the core town of the urban agglomeration too appears at its correct sequence with the legend printed thereafter and immediately below that, i.e., in the next line the same name with the suffix urban agglomeration appears again without bearing any

serial number. Against this name the cumulative totals for the urban agglomeration as a statistical unit are presented wherever such a procedure is relevant and meaningful. This line is then followed by those relating to the constituent towns of the urban agglomeration starting with the name of the core town and followed by the others arranged in an alphabetical order of their names. This procedure, it may be recalled, is the same as that adopted in 1971 as well as in 1981 and this enables one to have a fairly good assessment of the data relating to the smaller civic administrative units that form part of the larger unit and also of the aggregate data relating to the larger unit itself. In case there are 'outgrowths' which are not 'urban areas' in their own right, the particulars relating to such areas are merged with the data relating to the concerned core town. Such towns which have 'outgrowths' are marked out by an asterisk mark and for all purposes, the term 'town' would cover the core town as well as its outgrowths. In an appendix the names of the revenue villages which have been identified as outgrowths and the population thereof are indicated separately. In the case of villages certain parts of which are regarded as outgrowths while the other parts are considered as 'rural', the data relating to the outgrowths (i.e., the urban component) is included in the Town Directory statements and the data pertaining to the rest of the portion retained in the rural frame appears in the Village Directory. In Statements II, III and VI where it is not relevant to combine the data for the urban agglomeration as a whole, the legend 'see the constituent towns' is printed against the name of the urban agglomeration instead of allowing the entire line to remain blank.

The particulars furnished in Statement I which deals with the growth history are entirely based on the current as well as the previous censuses. As such, this has been compiled in the Census Directorate without seeking information from the concerned civic bodies. The details presented in the remaining statements have been furnished mainly by the concerned civic authorities such as the Municipal Commissioners, Chief Officers of towns, Secretaries of Mandal Panchayats, Administrative Officers etc. Except for the information regarding municipal finance, most of the information on other apsects had to be gathered by the civic authorities from several offices and institutions located in the town through correspondence and or by deputing officials for the purpose. The particulars so furnished were scrutinised in the first stage and cases of abnormal variations as compared to the situation in 1980 and also inconsistencies were referred back to the reporting agency for reverification and rectification so as to ensure that the details now given in the Town Directory represent the factual position.

The scope of the information presented under various columns and the abbreviations used are explained in a note which precedes the presentation of the Town Directory statements.

(iii) Primary Census Abstract :

The Primary Census Abstract is presented village-wise in the case of 'rural' areas and town-wise (upto ward or division level) in the case of urban areas. The outgrowths of a town are treated at par with a ward or division of the core town irrespective of the number of census enumeration blocks into which it is constituted. Within the district, the Community Development Blocks are arranged in the alphabetical order of their names in English and covered one after the other in that order. For each C.D.Block, the total figures with the rural-urban break-up is given first and this is followed by the village-wise data and then by the ward-wise data for the towns if any, within the jurisdiction of the C.D.Block. In the case of a village of which only a portion has been incorporated in a town or has been recognised as an outgrowth of a town, the details relating to only that portion which is not so incorporated or so recognised but has been retained in the rural frame is presented under various columns. The names of villages (and their respective areas) which are fully included in urban areas or have been recognised as outgrowths of towns for purposes of the 1991 Census (but are retained in the jurisdictional lists of the Survey and Settlement authorities) if any within the boundaries of the C.D.Block are indicated in the flyleaf which precedes the PCA statement for the C.D.Block

After presenting the PCA data for all the villages and towns covered by the C.D.Blocks in the district,

the PCA data relating to all the urban areas of the district (i.e., statutory as well as non-statutory towns) are furnished. For this purpose, the towns/urban agglomerations are arranged in an ascending order of their location code numbers. And, for each town the ward or division-wise details are presented here.

In Karnataka, as already mentioned, the jurisdiction of a C.D.Block is coterminus with that of the Taluk of the same name, but excludes the areas incorporated in statutory towns and cities. By and large, a C.D.Block corresponds to the rural areas of the taluk. However, if there are any non-municipal census towns and areas which have been identified as outgrowths of statutory towns within the jurisdiction of the taluk, then such towns and outgrowths are also regarded as lying within the jurisdiction of the concerned C.D.Block. The PCA particulars relating to such units are presented under the concerned C.D.Blocks against the urban category and are repeated again at the end under the caption 'District Urban'.

In the case of an urban agglomeration, the aggregate figures obtained by the addition of the data relating to the constituent towns and outgrowths thereof if any are presented against its name. Thereafter, the data for the constituent towns starting from the core town including the location code, are presented in a continuous sequence. In case a town has outgrowths (which are not towns in their own right) in the first line the aggregates relating to the core town as well as its outgrowths are given and this is then followed by the details relating to the core town and the outgrowths separately. Each outgrowth is treated at par with a municipal ward or division while presenting the ward-wise PCA for towns.

3. Brief note on Census concepts :

Census taking is a massive operation carried out in a short span of time with the active participation of a very large number of census enumerators. The reference moment for the 1991 census count is the sunrise of March 1, 1991. However, the enumeration of the population was spread over a period of 20 days from 9-2-1991 to 28-2-1991 followed by a revisional round from 1-3-1991 to 5-3-1991 for updating the population count with reference to the sunrise on March 1, 1991. The questionnaires canvassed by the enumerators, namely the Household Schedule and the Individual Slip are brief in their wordings and the concepts used for purposes of the 1991 Census Operations and the manner in which the schedules are to be filled in have been explained in a booklet entitled Instructions to Enumerators for filling up the Household Schedule and the Individual Slip. Some of the important concepts and the relevant explanations are indicated in the following paragraphs.

(i) **Urban areas** :- The definition adopted in 1961 and adhered to in 1971 as well as in 1981 (though with a slight modification regarding the classification of fishing and forestry) has been retained for the 1991 census also. According to this definition the urban areas include :

i) all places with a Municipality, Corporation, Cantonment Board or Notified Town Area Committees, etc.

ii) all other places which satisfy the following criteria :

a) a minimum population of 5,000

b) atleast 75 per cent of the male working population engaged in non-agricultural pursuits and

c) a density of population of at least 400 per square kilometre (1000 per square mile)

d) all places which, though not satisfying the above criteria, had pronounced urban characteristics.

(ii) **Urban Agglomeration**: This concept, which replaced the concept of 'town-group' in 1971, has been retained for the 1991 census. It has been observed that very often railway colonies, university campuses, port areas, military camps and large residential colonies etc., come up quite adjacent to, but situated outside the statutory limits of cities and towns. Such areas may not by themselves qualify to be treated as towns. But if they form a continuous spread with the town they are outgrowths of the town and deserve to be treated as urban. Such towns together with their outgrowths have been treated as one urban unit called "urban

agglomeration". An urban agglomeration may consist of :

a) A city with continuous outgrowth (the part of outgrowth being outside the statutory limits but falling within the boundaries of the adjoining village or villages);

b) One town with similar outgrowths or two or more adjoining towns with their outgrowths as in (a) ; or

c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Geographical contiguity with the statutory limits of the core town is the main factor in determining whether or not a nearby satellite town or an outgrowth is to be included in the urban agglomeration. This is purely a statistical concept and for carrying out the actual census, the administrative jurisdictions of the city or the towns concerned as well as of the outgrowths have been kept quite intact. The data are presented for the urban agglomeration as a whole and also severally for each of the constituent units.

(iii) **Rural areas - i.e., villages** : Areas which are not classified as 'urban' according to the definition given above constitute the rural areas. The basic unit for rural areas is the revenue village which has definite surveyed boundaries. In the case of unsurveyed villages, the boundaries as determined by the local usage have been adopted. The revenue village may consist of a single nucleated settlement or comprise of several settlements or clusters of houses located at several places within the territorial limits of the village or the village may not be having any human settlements at all (i.e., it may be totally uninhabited). The census village and the revenue village are identical in the matter of jurisdiction. However, there are a few exceptions to this general rule:

1) When the main settlement of the village with or without the surrounding open lands is constituted into an urban area, the remaining tracts of the revenue village are together treated as a separate unit for purposes of census i.e., the truncated portion itself is considered as an independent revenue village.

2) When outlying portions of certain revenue villages are incorporated into the limits of urban areas by a Government Notification such areas, whether populated or not, are excluded from the revenue village concerned and the village boundaries are redefined for census purposes.

3) Revenue villages which are completely incorporated in the limits of urban areas or else, are submerged completely under reservoir projects but are still retained in the jurisdictional lists of the Survey and Settlement authorities pending a resurvey and such other procedures, are taken note of as revenue villages but are omitted for census purposes i.e., these are not treated as census villages. Similarly, entire revenue villages, which have been identified as outgrowths of urban areas for purposes of 1991 census are treated not as census villages but as urban areas. The names of such villages, if any, in a Taluk/C.D.Block are indicated in a fly leaf.

4) If there are forest areas that do not form part of any of the revenue villages then such areas are identified clearly and the smallest administrative unit into which such forest areas are divided (eg.Forest Beat) is reckoned as the census village. A Forest Range may consist of several such census villages. (In Karnataka this phenomenon is noticeable only in Kollegal Taluk of Mysore District).

(iv) **Census Enumeration Block** : The smallest unit adopted for census taking is the Census Enumeration Block. Generally, the towns and cities are divided into wards or divisions and, wherever such units exist, their distinctive identities have been maintained. The geographical area comprised in each such ward or division or, the town in its entirety, is constituted into several blocks in such a way that every bit of land specifically stands included in one or the other enumeration block and also that there is no over-lapping of areas. In the urban areas, the Census Enumeration Blocks are constituted in such a way that each such Block contains about 120 households covering a population of about 600 persons. However, in view of the condition that

each block should have clear-cut boundaries easily recognisable on the field, blocks which are either larger or smaller than the norm have also been constituted. In the case of non-municipal towns, if the town boundaries are not specifically notified, the jurisdiction of the entire revenue village concerned is regarded as the jurisdiction of the town as well. In the case of towns which are under the administration of Mandal Panchayats, the Panchayat jurisdiction need not necessarily be identical with the jurisdiction of the non-municipal census town.

In the case of villages, depending upon the population data based on the Houselisting Operations carried out during 1990, each village has been constituted into one or more number of Census Enumeration Blocks. The work-load norm for the rural areas is 150 households covering an approximate population of 750 persons. However, numerous Census Enumeration Blocks with below-norm population have been constituted and a single enumerator has quite often been entrusted with the enumeration work in 2 or more contiguous blocks so as to ensure that the aggregate population is quite close to the norm. Further, in each village care has been taken to ensure that no bit of land belonging to that village is left out of consideration while constituting the Blocks. Each hamlet or island, if any, found within the jurisdiction of the village - irrespective of its population size - has been constituted into a separate Block in order to maintain its geographical identity. Further, even the villages known to be uninhabited at the time of houselisting operations have been constituted into separate blocks. In other words, a complete coverage of the territorial jurisdiction of each and every village has been ensured.

(v) **Location Code Number** : Every State in the Country, every District in the State, every Taluk or Town in the District, every C.D. Block (or its equivalent) in the District, every village in the taluk and every ward or division in the city or town and every enumeration block in the village or town is assigned a number in a particular order for carrying out the census enumeration. When these numbers are written side by side in the same order, starting from the State and separated by an oblique mark, the identity of any particular census enumeration block can be known quite easily. The numbers assigned are in Arabic numerals, except in the case of towns in which case Roman numerals have been adopted. For assigning the location code numbers the States in the Country, the Districts in the State, the Towns in the District and the Taluks/C.D.Blocks in the District are arranged in the alphabetical order of their names. The villages in a taluk are organised into revenue circles or hoblis for administrative purposes and each such unit will have a headquarter town or village. The identity of such units is maintained while assigning the location code numbers. Starting from the circle of which the Taluk Headquarters happens to be the Circle headquarters as well, the villages in its jurisdiction are serially numbered by proceeding in a clockwise direction or in a serpentine manner starting from the north-west corner. After exhausting all the villages in that circle, the villages of the adjacent circle are assigned numbers in the same manner. The numbering of villages run continuously for the Taluk through the different Circles or Hoblis.

The entire set of the 1991 census data relating to the village directory and the village/urban ward-wise PCA has been computerised. For this purpose a separate code structure has been developed. The computer codes assigned to the villages in each Taluk or C.D.Block are indicated in the alphabetical list of villages along with the corresponding location code numbers assigned for enumeration purposes. So also particulars about the codes assigned to towns are indicated in the alphabetical list of towns which precedes the presentation of the PCA statements in respect of the urban areas of the district.

(vi) **Building** : A building is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, worksheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-*cum*-residence, workshop-*cum*-residence, office-*cum*-residence, etc.

(vii) **Census House** : A 'census house' is a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

(viii) **Household** : A 'household' is a group of persons who commonly live together and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of households having unrelated members are boarding houses, messes, hostels, residential hotels, rescue homes, jails, *ashramas* etc. These are called 'Institutional Households'. There may be one member households, 2 member households or multi-member households. For census purposes, each one of these types is regarded as a 'household'. If a group of persons who are unrelated to each other live in a census house but do not have their meals from the common kitchen, they would not constitute an institutional household. Each such person would be treated as a separate household. The important link in finding out whether there is a household or not is a common kitchen. There may be a household which does not have a house to live in and may temporarily dwell on the roadside pavement, in hume pipes, temples, *mantaps*, platforms etc., or move about from place to place resting underneath shade-bearing trees, pavements and verandahs of public or private buildings. Such households, referred to as 'Houseless Households' for census purposes, were enumerated on the night of February 28, 1991.

ix) Criteria for enumeration of a person in a particular household :

1) All those who normally stay and are present in that household during the entire period of enumeration i.e., from February 9 to February 28, 1991 (both days inclusive);

2) All those who are known to be normally residing and had actually stayed during a part of the enumeration period (February 9 - 28, 1991) but are not present at the time of the enumerator's visit ;

3) Also those who are known to be normally residing and are not present at the time of the enumerator's visit but are expected to return before February 28, 1991 and

4) Visitors who are present in the household censused and are away from the place(s) of their usual residence during the entire enumeration period. For the purpose of enumeration such visitors will be treated as normal residents of the household in which they are actually found during the enumeration period provided they have not been enumerated elsewhere.

(x) **Literate** : A person who can both read and write with understanding in any language is 'literate'. A person who can merely read but cannot write, is not 'literate'. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All children of the age of 6 years or less are treated as illiterate.

(xi) **Workers and Non-workers** : For census purposes 'work' is defined as 'participation in any economically productive activity'. Such participation may be physical or mental in nature and would involve not only actual work but also effective supervision and direction of work. It also includes unpaid work on farm or in family enterprise. The reference period for determining whether a person is a worker or a non-worker is the year i.e., the 365 days, preceding the date of enumeration. The criterion is liberal and, even a person who has participated in the production of goods and services for a very brief period is entitled to be categorised as a worker. Depending upon the nature of his or her activity during the reference period, every person enumerated at the census is classified as either a worker or a non-worker.

Among 'workers' however there are two categories:

Main Workers : Those who have worked for a major part of the year i.e., for 183 days or more (6 months or more) during the reference period even though this may be in broken spells and in different occupations.

Marginal Workers : Those who have not worked for a major part of the year under reference i.e., those who have worked for less than six months (i.e., for less than 183 days) during the entire reference period.

In view of the past experience that women are often classified as non-workers because of non-reporting of their work or as those who have not worked for a major part of the year, special efforts have been made at the 1991 census for eliciting accurate information by asking probing questions.

In respect of main workers as also marginal workers, further details on the sector of economy in which they worked, the actual nature of work done by them, their employment status (i.e., employer, employee, unpaid family worker or own account single worker) have been gathered at the census.

Important terms such as cultivators, agricultural labourers and household industry are explained below.

a) **Cultivators:** For purposes of census, a person is working as a cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation as well. A person who has given out his or her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct the cultivation of land, will not be treated as 'cultivator'. Similarly, a person working in another person's land for wages in cash or kind or a combination of both will not be treated as ' cultivator'.

Cultivation involves ploughing, sowing and harvesting. For certain reasons, the growing of certain crops is not considered as cultivation and a person engaged in growing of such crops is not regarded as a cultivator. A person can be classified as cultivator or not, *only on the basis of the crops grown*. The growing of the following crops is considered as cultivation.

1. Cereal and Millet crops : Paddy, wheat, jowar, bajra, maize, ragi, barley, etc.
2. Pulses : Arhar, gram, kesari, moong, masur, urd, etc.
3. Fibre crops : Raw cotton, jute, mesta, sunhemp and kindred crops.
4. Oil Seeds : Sesamum, ground-nut, rape seed, mustard, linseed, sunflower, castor, etc.
5. Cash crop : Sugarcane

The growing of the following crops *is not considered* as cultivation :

1. Plantation crops : Tea, coffee, rubber, tobacco, pepper, cardamom, etc.
2. Edible nuts (other than groundnut) : Walnut, almond, cashewnut, etc.
3. Fruits : Bananas, apples, grapes, mangoes, oranges etc.
4. Coconut
5. Ganja, cinchona, opium and medicinal plants.
6. Betel nuts (areca)
7. Flowers
8. Roots and tubers, chillies and spices
9. Vegetables
10. Other crops not specifically included under cultivation.

b) **Agricultural Labourer** : A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation. The agricultural labourer has no right of lease or contract on the land on which he or she works.

c) **Household Industry** : Household Industry is defined as an industry conducted by the head of the household himself or herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in the case of urban areas. The larger proportion of workers in a household industry would consist of members of the household including the head. The industry

should not be run on the scale of a registered factory which would qualify to be registered under the Indian Factories Act. Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. The goods produced should not be exclusively for consumption by the household itself but should be wholly or partly for sale.

d) **Other Workers** : All workers, i.e., those who have been engaged in some economic activity during the reference period of last one year, who are not Cultivators or Agricultural Labourers or workers in Household Industry were categorised as 'Other Workers' (OW) at the time of census enumeration and further details about the nature of industry, trade or service in which they were engaged were gathered by the enumerators. On the basis of this descriptive information, at the tabulation stage, each such worker has been further categorised as belonging to one or the other of the following Industrial Categories based on Revised National Industrial Classification - 1987.

III Workers in livestock, forestry, fishing, hunting, plantations, orchards and allied activities;

IV Workers in mining and quarrying activities;

V(b) Workers in manufacturing, processing, servicing and repairs which are carried on as other than household industry;

VI Workers in construction;

VII Workers in trade and commerce;

VIII Workers in transport, storage and communications, and

IX Workers in other services.

(xii) **Non-workers** : All those who have not at all participated in any economic activity during the reference period of one year preceding the date of enumeration are classified as non-workers.

Depending upon the manner in which such non-workers engaged themselves for most of the time during the reference period of one year they are classified into one or the other of the following six categories at the time of census enumeration itself. However, the Primary Census Abstract presented in this volume does not furnish details according to the categories of non-workers but indicates the total number of non-workers by sex.

a) **Household duties** : This covers all persons who are engaged in unpaid home duties and who do no other work or have not done any work at all during the last one year.

b) **Students** : This will cover all full-time students including children attending school.

c) **Dependents** : This category includes all dependents such as infants, children not attending school and permanently disabled from work because of illness or old age. Dependents will include even able bodied persons who cannot be categorised in any other category of non-workers but are dependent on others.

d) **Retired Persons or Rentiers** : A person who has retired from service and is doing no other work i.e., not employed again in some full time work or not engaged in some other work such as cultivation, business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he or she does not have to work, will come under this category.

e) **Beggars** : This will cover beggars, vagrants or cases such as persons without indication or source of income and those with unspecified sources of subsistence who are not engaged in any economically productive work.

f) **Inmates of Institutions** : This will cover convicts in jails or inmates of a penal, mental or charitable institution even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing, etc., in such institutions. But an undertrial prisoner enumerated in a jail would be recorded for the work he or she was doing before he or she was apprehended. Similarly, a person temporarily in a hospital or similar institutions would be recorded for the kind of work he or she was doing before he or she was admitted into the hospital or institution. But, for a long-term undertrial prisoner or convict in a prison or for long-term inmates of penal or charitable or mental institutions, the person's previous work would not be taken into consideration. A person will be considered as 'Long-term' inmate if he or she is in such an institution for 6 months or more.

4. Brief History of the District*

Belgaum district has several places of historical importance and a few which are identified with places mentioned in Hindu mythological accounts. Saundatti-Yellamma, for example, is identified as the place where Parashurama, the VI incarnation of Lord Vishnu, beheaded his own mother at the behest of his father, sage Jamadagni. The narrative further states that when his immensely pleased father granted him with a boon, Parashurama asked for and got his mother restored to life at this very spot. Legends associate Yedur and Godchi villages with the events mentioned in the Daksha Yajnya and the exploits of Veerabhadra. About the early historical period, it may be mentioned that Halashi (located in Khanapur taluk) was the capital of the early Kadambas, Saundatti was the capital of the Rattas and Kakati near Belgaum is identified by some historians as the original abode of the famous Kakatiyas of Warangal.

Belgaum district is believed to have formed part of the ancient *Kuntala Desha*. During the early historical period, from 327 B.C. to 229 A.D., the Satavahanas had established their supremacy over parts of the present Andhra Pradesh and Karnataka including the Kuntala Desha. Evidence discovered in the adjacent districts of Bijapur and Dharwad clearly indicate that this part of the country formed part of the early Chalukyan Kingdom (550-610 A.D.) and then of the Western Chalukyan Kingdom. In 760 A.D., when Rashtrakutas over-threw the western Chalukyas, along with the rest of the Chalukyan domains, Belgaum district, then known as *Kundi Three Thousand*, also came under the control of the Rashtrakutas. For about 4 centuries from 850 A.D., the Ratta Mahamandaleshvaras or Rattas for short, administered large portions of Belgaum district at first as the chief feudatories of the Rashtrakutas, then as the subordinates of the Goa Kadambas and finally, from 1170 A.D., as independent monarchs. The Ratta dynasty was founded by Merada and his son Prathivarma, who were originally priests. Rashtrakuta King Krishna II formally invested Prathivarma with the rank and title of Mahamandaleshvara and entrusted him with the administration of a large territory. The capital of the Rattas was located at Sugandavarti which corresponds to the modern Saundatti-Yellamma town, till it was moved to Velugrama i.e., Belgaum, in about 1208 A.D. An inscription found at Hannikeri near Sampgaon refers to this shifting of the capital and mentions that the Rattas acquired *Velugrama Seventy* from the Kadambas by conquest. The over-throw of the Rattas by the Yadavas of Devagiri is mentioned in a grant of VII Yadava King Krishna which is dated in 1253 A.D., and is found at Byahatti in Dharwad district. By 1250 A.D., the Yadavas had established their sway over entire Belgaum district and their supremacy in this region lasted till they were finally over-thrown by Allauddin Khilji in 1320 A.D. In 1327 A.D., emperor Muhammed-bin-Tughlak subdued Karnataka and appointed two of his noblemen to administer these territories from their respective headquarters at Hukeri and Raybag. However, this position did not last long. Within a few years of its founding, the Vijayanagara empire extended its sway over Belgaum district as well. However, from this period till 1472 A.D., there was constant rivalry between the Vijayanagar Kings and the Bahamani Sultans for possession of the territories around Belgaum. In 1357 A.D., the Bahamani Kingdom was organised into four divisions and that which stretched from Gulbarga to Dabhol in Ratnagiri in the West and to Raichur and Mudgal in the south was placed under Malik-Serif-Uddin Ghore. Southern parts of Belgaum, including the Belgaum Fort, and Goa however acknowledged the suzerainty of the Vijayanagar Kings. This position changed in 1470

*Source :- *Gazetteer of India - Karnataka State - Belgaum District, Bangalore 1987 and District Census Handbook, 1981, Belgaum District.*

A.D., when Muhammed Gilani, a Governor under the Bahamani Sultan, captured Goa. On this occasion, the Bankapur chief tried to recapture Goa with the reinforcements from Vijayanagar Kings whereupon the Bahamanis mounted an attack on Belgaum Fort. Karna Raja, who stoutly defended the fort, was finally vanquished and with this, the whole of Belgaum district came under Bahamani rule.

In 1478 A.D., the Bahamani Kingdom was reorganised into eight *tarafs*, each with a governor. The western parts, including the fort at Belgaum, came under the governorship of Fakru-ul-Mulk. About a decade later, the governors of Junnar and Bijapur provinces virtually threw off their allegiance to the Bahamani Sultans. About this time, Bahadur Gilani, the governor of Konkan rebelled against his master and with his headquarters at Sankeshvar, seized Goa and Belgaum. Yusuf Adil Shah, the Bijapur governor sent an army against Gilani and re-established his supremacy. Gilani himself was killed during this campaign and his estate became a part of the possessions of the Bijapur Kingdom which soon emerged as an independent power. In 1510 A.D., the Portuguese wrested Goa from the control of Bijapur. In 1511 A.D., the Bijapur King, Ismail Adil Shah appointed Khusru Turk as the governor of Belgaum and, in appreciation of his services to the Kingdom, conferred on him the title 'Asad Khan' as well. Asad Khan administered Belgaum for about 38 years and came to be regarded as a saint. He was succeeded by his son Mohammed Kishwar Khan.

The success of the confederate forces of the Bijapur, Bidar, Golkonda and Ahmednagar Sultanates against the Vijayanagar at the battle of Talikote in 1565 A.D., (which took place at Rakkasa Tangadgi), was followed by a period of general disorder and disruption of authority because of the jealousies that arose amongst the conquerers in sharing the spoils. Taking advantage of the chaotic situation, Vitta Gowda seized a few strategic forts in Belgaum district and its neighbourhood, established himself at Torgal as a semi-independent ruler and refused to accept the suzerainty of Bijapur kings. In 1573 A.D., Ali Adil Shah began his campaign and subdued the rulers at Dharwad and Bankapur who too had assumed independence, captured Vitta Gowda and put him to death, thereby establishing the supremacy of the Bijapur Kingdom in the entire Belgaum district. From this period, till the entire Bijapur Kingdom was conquered by Aaurangzeb in 1686 A.D., Belgaum district, by and large, remained under Bijapur rule. However, the Maratha inroads into the District began by about 1659 A.D., when Shivaji followed up his success near Pratapgad by seizing the fort of Panpala and, with it, the Kolhapur district including the Sankeshvar region of Belgaum district. Indu Rao Ghorpade held Hukeri and Raybag from 1668 A.D. On his way to Hubli, in 1673 A.D., Shivaji plundered Hukeri and Raybag and took large territories in Belgaum district into his possession. After the fall of Bijapur in 1686 A.D., the Marathas were practically driven out of Belgaum district by the Moghuls.

The Moghul rule in this part of the country was purely of a military nature and it did not last long. The emperor appointed Abdul Rahuf Khan as a Mansabdar and granted him administrative powers over 22 *mahals* including Belgaum and Torgal. Abdul Rahuf Khan who had his headquarters first at Bankapur and then at Savanur, was content to entrust the revenue management of his territories to the hereditary officers such as the *Desais*. The death of emperor Aurangzeb in 1707 A.D., led to the establishment of two Maratha Principalities under two of Shivaji's grandsons - Satara under Sahu and Kolhapur under Sambhaji. In 1719 A.D., Sahu received imperial grants from the emperor which conferred on him the right to collect *chaut* or one-fourth and *Sardeshmukhi* or one-tenth of the revenues of the six Deccan provinces including Belgaum. In 1723 A.D., Nizam-ul-mulk, the Viceroy of Deccan interfered to suppress the disturbances in the Bijapur province, took Athni and the fort of Belgaum and then appointed the Nawab of Savanur as the Governor or *Subedar* of

this region. Though Sahu had received the imperial grant to levy a fourth and a tenth of the revenues of all lands formerly held by the Moghuls, the power of the local chiefs of Kolhapur and Savanur was so great that the Maratha forces scarcely ventured to cross the Krishna river. In 1726 A.D., on the pretext of collecting these revenues, Peshva Baji Rao marched into Karnataka and plundered places as far south as Shrirangapattana. In 1730 A.D., under a treaty between the chiefs of Satara and Kolhapur the country between the Krishna and the Tungabhadra was assigned to Kolhapur. In the meantime, the Savanur Nawab, who was subordinate to the Nizam, gradually acquired a large territory. In 1746 A.D., he ventured to resist the authority of the Marathas to collect their due share of the revenue of this region. This resistence led to a Maratha invasion in 1747 A.D., when the Nawab was forced to yield large tracts of lands to the Peshva. Belgaum Fort passed to Peshvas in 1756 A.D., and in 1763 A.D., Peshva Madhav Rao subdued the Desai of Hukeri In 1764 A.D., Haidar Ali of Mysore marched against Savanur and reduced the Nawab into submission while his general Fazl Ullah Khan took Dharwad and overran the country as far north as the Krishna. This resulted in a counter-attack by the Peshva, whereupon Haidar Ali was compelled to retreat. Once again during 1776-78 Haidar Ali invaded these territories. Later in 1790, during the reign of Tipu Sultan, the Marathas formed an offensive alliance with the British and mounted an attack under Parashuram Bhau and a detachment of the British troops under Captain Little. On this occasion, the whole of Bombay Karnataka region passed to the Marathas and remained in their possession till 1818 when General Munro captured Belgaum and ushered in the British era. For a couple of decades that followed, the hereditary chiefs and estate-holders were allowed to administer their respective territories under the suzerainty of the British. In 1824 A.D., the Desai of Kittur, who did not have a son, adopted a boy and named him as his successor. The British masters however refused to accept the right of the adopted child to the Chieftaincy and in accordance with the 'doctrine of lapse' demanded the surrender of Kittur. This was resented by the widowed queen, Rani Chennamma, who raised the banner of revolt against the British Raj. She put up a valiant fight against the mighty British who finally succeeded in annexing Kittur. In 1829 A.D., there was a second rebellion in Kittur under the leadership of Sangolli Rayanna. This was also put down and Rayanna was captured and put to death at Nandagad of Khanapur taluk. In 1830, the then Governor of Bombay Province brought under the Regulations, the territories of Bombay-Karnataka region which had been acquired either by conquest from the Marathas or by treaty and agreement from other States. These territories were formed into a district (and named after Dharwad) which was divided into two Collectorates in 1836. The headquarters of the northern Collectorate was actually shifted to Belgaum in 1838. In 1840, following the death of the local chief, Nipani lapsed to the British and in 1842, another estate belonging to a representative of the divided family of the Miraj Peshvas also lapsed to the British. There were unsuccessful rebellions in Kolhapur and Savantavadi in 1844 and then again in 1857. Babasaheb of Nargund who was arrested in the jungles of Torgal in 1858 was tried at Belgaum on the charge of murdering Manson, the political Agent, sentenced and hanged to death on the Haystack Hills at the outskirts of Belgaum City. The British rule came to an end in August 1947 and, with the merger of the princely States in 1948 and the consequent integration of areas, the boundaries of Belgaum district were redefined. In 1956, as a consequence of the reorganisation of States, the then Belgaum district excluding Chandgad

taluk came to be included in the erstwhile Mysore State. This enlarged Mysore State has since been re-named as Karnataka and Belgaum city happens to be the headquarters of a Revenue Division the jurisdiction of which extends over the districts of Belgaum, Bijapur, Dharwad and Uttar Kannad, i.e., the territories which formerly belonged to the Bombay Province.

3. Location and Physical Aspects*

Belgaum district is located in the north-western corner of Karnataka State. It is a frontier district of the State and is bounded on the south-west by Goa; on the west, north-west and north by the districts of Ratnagiri, Kolhapur and Sangli of Maharashtra State; on the east by Bijapur district, and on the south by the districts of Dharwad and Uttar Kannad. It may be incidentally noted that the jurisidiction of this district extends over 2 villages (of Belgaum taluk) which are located a few km away from the district borders and are surrounded by lands belonging to Kolhapur district of Maharashtra State.

The landscape of Belgaum district mainly consists of vast stretches of plains studded with solitary hills, most of which are flat-topped and are adorned with fortifications. The western fringe, particularly in the south, is at a relatively higher elevation. The district may be divided into four natural divisions. The western belt, which is quite narrow, is characterised by a rugged terrain. The extreme west is in fact a succession of valleys running between the spurs that stretch out from the Sahyadri range. In this zone, the rainfall is moderate to heavy and the climate is damp and cool and the vegetation is abundant. The northern belt consists of plateaus of poor soils and is characterised by a dry climate. Amidst the plains there are some low rolling hills which are generally devoid of tree-growth. The banks of the rivers and streams are, however, flanked with rich black-cotton soil. The central belt is separated by the Belgaum hills on the west and, further east, by a succession of low sandstone ranges. The Ghataprabha valley, which has its origins in the Western Ghats changes here into a waving plain broken by lines of low hills. The southern belt presents a mixed landscape : while the lands west of the Malaprabha valley are covered by rugged hills and forests, the lands in the eastern zone are more open and consist of level ground broken by gentle slopes and an occasional mass of granite. Black-cotton soil is the predominant type of soil noticeable in this belt. Towards the east, the terrain is broken by low hills on which stand the remnants of old forts. The slopes of most of these hills are covered with brush wood and prickly pear and, at several places, these slopes have been brought under cultivation as well.

Two great spurs, which may be identified as the North Ghataprabha and the North Malaprabha, cross Belgaum district from west to east and form the watersheds that divide the Ghataprabha basin from the Krishna basin in the North and the Malaprabha basin in the south. The North Ghataprabha spur rises near Savantvadi in Maharashtra and runs through the district as far as Chikodi. Of the numerous hills in this range, a mention may be made of the following : Vallabhghad (170 metres), Adigudda (192 metres), Julapengudda (222 metres), Nagarahalgudda (260 metres), Jogigudda (267 metres) and the Nagarapanchamigudda (119 metres). The North Malaprabha spur starts from Jolkat pass, 35 km west of Belgaum, and rises into a high ridge near Kasargudda. Besides these two principal ranges, there are three other spurs of some importance. These are Mahipalgad ridge about 16 km north-west of Belgaum, the Bailur ridge about 22 km south-west

*Source : *Gazetteer of India - Karnataka State - Belgaum District - Bangalore - 1987 and District Census Handbook, 1981, Belgaum District.*

of Belgaum and the Jamboti ridge about 16 km west of Belgaum. The Mahipalgad ridge is about 915 metres high and the ascent is easy. The Bailur ridge is a table-topped mass and represents the highest point in the district (1064 metres MSL). The Jamboti ridge has the peak of Kiruvalegudda or Gorakhnath hill (640 metres MSL). In addition to these spurs, there are several detached hills in different parts of the district. The chief hills in the northern zone around Athni are : Junapalagudda (305 metres above the plains), Bagedgudda (813 metres MSL), Manikere ridge (750 metres MSL) and Katharigudda (867 metres MSL). In the southern tracts, a mention may be made of the following hills : Bhimgad (rugged in terrain and fortified, rises 550 metres above the plains and consists of a double line of broken hills), Dongaragavigudda, Samshergudda and Bijangigudda besides Deshnur hills, Bailhongal hills, Saundatti hills and the Parasgad hills.

The Krishna, the Ghataprabha and the Malaprabha are the principal rivers which flow across the district from west to east and drain the waters in its northern, central and southern tracts respectively. The Krishna river has its fountainhead in the temple of Mahadev at the foot of the steep hills that form the Mahadev range in the Western Ghats north of Mahabaleshvar. The river, which has a total length of 1400 km traverses through the States of Maharashtra, Karnataka and Andhra Pradesh. Within Belgaum district, however, the river flows for a distance of about 70 km only. On entering the district near the north-eastern corner of Yedur village, the river flows south-west and then takes a U turn, receives the waters of the Dudhganga from the west and flows eastwards along the southern borders of Yedur, Manjari and Ingali villages of Chikodi taluk. Thereafter, the river forms the natural boundary between the taluks of Athni and Raybag, cuts across Athni taluk and then again it forms the natural boundary between Athni taluk and Jamakhandi taluk of Bijapur district. In Raybag taluk, it receives the waters of Halhalla from the south and, in Athni taluk, the Agrani rivulet flows into it. The Krishna finally leaves the district near Junjarwad in the south-eastern corner of Athni taluk. The Ghataprabha originates in Sundargad in the Western Ghats, flows east for about 60 km through Maharashtra State before it touches the southern borders of Shettihalli village of Hukeri taluk, and continues its eastward course, forms the natural boundary between the taluks of Hukeri and Belgaum and then proceeds in a north-eastern course across the taluks of Hukeri and Gokak covering a total distance of about 70 km before it leaves the district near Awaradhi village. This river receives the waters of the Tamraparni, Markandeya and Hiranyakeshi rivers. Near Gokak town, the Ghataprabha cuts through a range of sandstone hills and cascades down a cliff, about 53 metres high, to form the famous Gokak Falls. The waters of this river have been harnessed for purposes of irrigation by erecting a weir near Dupdhal and a dam near Hidkal. The Malaprabha rises in the Chorla Ghats near Kanakumbi, about 16 km west of Jamboti village of Khanapur taluk. The river flows east for about 20 km, turns south-east and after covering about 13 km gradually takes an almost north-eastern course and cuts across the taluks of Sampgaon, Parasgad and Ramdurg. About 6 km north of Saundatti-Yellamma town, the river passes through a gorge known as 'Peacock Gorge' or 'Navilu Tirtha'. Near this spot, a dam has been built across the river to form a large reservoir for storage of water for purposes of irrigation. Before the river leaves the district near Sangal it receives the waters of Bennihalla, Tuparinala and a few other streams. In addition to these three major rivers, the district has several small rivers and streams of considerable importance. Markandeya river which rises near Bailur in Khanapur taluk is an important tributary of the Ghataprabha. Dudhganga which originates in the Western Ghats is joined by Vedganga and finally flows into the Krishna near Yedur. The Sogal stream rises near Sogal in Parasgad taluk, passes through a depression in quartzite ridge and forms what is popularly known as the Sogal Falls before it joins the Malaprabha. Mahadayi is the only west-flowing river of the district. It has its origin

near Degaon village of Khanapur taluk, receives the waters of Bhandurnala before it enters the Goa territory, where it assumes the name Mandovi and finally flows into the Arabian Sea.

The rock formations of the district chiefly consist of the Dharwars, gneisses, Kaladgi series and the Deccan trap. The Dharwars are mostly seen in the western parts of Khanapur and also in the taluks of Belgaum and Sampgaon. These rocks are represented by schists, phyllites, quartzites and banded ferrugenous quartzites. The gneissic system consists of different types of granite and gneisses which ultimately give rise to clay. Rock formations belonging to this system are found in the southern parts of the district. The Kaladgi series are represented by sandstone, quartzite, conglomerates, haematite, dolomite and lime stone. Sandstone and quartzite are particularly noticeable in the taluks of Ramdurg, Parasgad, Gokak and Belgaum in the form of low ridges. The Deccan Traps occupy a major portion of the district, especially in the northern and the eastern parts. The chief varieties found here are the basalt, amygdaloid trap, vasicular trap and the clayey trap. The upper layers of the trap are generally capped by beds of laterite and clay. The economic minerals found in the district include iron, manganese, bauxite, limestone and clay besides sand and stone which too are being commercially exploited.

Belgaum district receives an average annual rainfall of 748.7 mm. The amount of rainfall decreases as one moves from west to east. At Khanapur in the west, the average annual rainfall is 1683.6 mm whereas at Raybag in the east, the average annual rainfall is 509.5 mm. The average number of rainy days too decreases as one moves from west to east. About 68 per cent of the annual rainfall precipitates during the south-west monsoon season which lasts from June to September. July happens to be the month with the heaviest downpour. In the western portion of the district the rainfall is reliable and the seasonal conditions are fairly good and are helpful to agriculturists. In the eastern sector, however, the rainfall is not only scarce but also capricious. A redeeming feature is that these tracts are endowed with black soils which have a high moisture-retentive capacity. Furthermore, in these parts, under the Ghataprabha and the Malaprabha projects, large tracts of lands have, in recent years, been provided with assured canal irrigation facilities.

The climate of Belgaum district is, by and large, quite healthy and agreeable. Within the district, the eastern zone has a dry climate characterised by a hot summer. The Khanapur-Belgaum zone has a more moist climate. The year is usually divided into four seasons. The period from March to May is reckoned as the summer season and usually April happens to be the hottest month. During this month, the mean maximum temperature reaches 35.7 degrees celsius and the mean minimum touches 19.5 degrees celsius. On individual days, at times the mercury touches the mark of 41 degrees celsius. During May, the oppressive heat is relieved by sharp showers. The rainy season starts during June and lasts till the end of September. During May and June, the nights are warmer than in April. The months of October and November are regarded as the months constituting the post-monsoon season which is noted for heavy fogs and misty mornings. Winter sets in during December and lasts till the end of February. December is the coldest month of the year and on individual days the minimum temperature would be as low as 7 degrees celsius. This period coincides with the driest part of the year and the skies are usually bright and clear.

6. Administrative divisions and jurisidictional changes during the decade 1981-1991

Belgaum district forms part of the Belgaum Division which is one of the four Administrative Divisions into which the State is organised. The headquarters of this Division are located in Belgaum City and its jurisdiction extends over the districts of Belgaum, Bijapur, Dharwad and Uttar Kannad. The district is divided into 10 taluks which are grouped into three Revenue Sub-Divisions with

headquarters at Belgaum, Chikodi and Bailhongal respectively. While the Belgaum Sub-Division has its jurisdiction over the taluks of Belgaum, Khanapur and Hukeri, the Chikodi Sub-Division covers the taluks of Chikodi, Athni and Raybag and the Bailhongal Sub-Division includes the taluks of Gokak, Parasgad, Ramdurg and Sampgaon.

During the decade 1981-91, the south-western boundary line of the district, as also that of Khanapur taluk, has undergone a slight change due to the transfer of certain territories (measuring about 20 square kilometres) to the neighbouring Supa taluk of Uttar Kannad district. In order to rehabilitate the families affected by the Kalinadi Hydro-Electric Project, lands belonging to the revenue villages of Adahalli and Shitawade in full and a portion of Akrali village were transferred from Khanapur taluk to Supa taluk. This apart, within the district itself, there has been a slight readjustment of the boundary line that demarcates the taluks of Chikodi and Hukeri as a result of the constitution of a new revenue village named Kamtyanahatti. This new village belongs to Chikodi taluk and consists of lands which formerly belonged to Bennihalli and Karoshi villages of Chikodi taluk as well as the lands belonging to Yadgud village of Hukeri taluk. At the village level, in Raybag taluk, Shirapur village has now been broken up into two revenue villages and while the main village is continued under the old name itself, the splinter is named 'Paramanandawadi'. But for these minor adjustments, the district has not witnessed any major jurisdictional changes.

For purposes of Development Planning and implementation of the Programmes, Zilla Parishads have been constituted in the State. Accordingly a Zilla Parishad having jurisdiction over Belgaum district (excluding statutory urban areas) has been constituted for Belgaum district also. Under this Zilla Parishad there are ten Taluk Panchayats (named after the headquarters of the ten taluks of the district) and the jurisdiction of each Taluk Panchayat is coterminus with the general administrative jurisdiction of the taluk of the same name but excludes the areas incorporated in the statutory towns or cities located if any within the taluk concerned. Thus, all villages as also places classified as non-municipal Census towns or as outgrowths of statutory towns at the 1991 Census come under the jurisdiction of the taluk panchayats. 'Taluk Panchayat' is analogous to the unit more popularly known as the 'Community Development Block' throughout the country. In order to conform to the All India pattern in the presentation of the 1991 Census data, instead of the term 'Taluk Panchayat' the term 'C.D.Block' has been made use of at appropriate contexts in this volume.

According to the 1991 Census, there are 22 towns and 1164 villages in the district. As compared to the position in 1981, there has been a net increase in the number of towns by two and a net decrease in the number of villages by fourteen. For purposes of the 1991 Census, while Sambre an erstwhile town has been declassified, three erstwhile villages viz., Hindalge, Hidkal and Dhupdal, have been classified as non-municipal Census towns. In the case of villages, while 7 villages which are contiguous with the limits of Belguam City Corporation have been recognised as outgrowths of the city and hence transferred from the rural to the urban category, another set of 5 villages of Parasgad taluk have been deleted as these have lost their identity due to submersion under the backwaters of the Malaprabha Project and 2 more villages have now been omitted as these have been transferred to the neighbouring district of Uttar Kannad. During the decade, two new villages have been constituted in the district and the process of classification of places as urban or rural has affected 11 revenue villages. The net result is a decrease in the total number of villages at the 1991 Census. The following statement indicates the talukwise distribution of the towns and villages of the district and also indicates the reasons for changes in the number of villages, if any, in the taluks concerned.

Statement showing the number of villages/towns in each taluk of the District, decadal variations if any and reasons thereof.

Sl.No.	Taluk	Total No. of Villages according to the list finalised for		No. of Towns as per census list	Reasons for variation in the No. of Villages between 1981 and 1991 census
		1991 Census	1981 Census		
1	2	3	4	5	6
1	Athni	89	89	1	
2	Belgaum	131	124	3	Sambre a town of 1981 Census has now been declassified and added to the list of villages of 1991 Census. Hindalge, erstwhile village has now been treated as an urban area i.e., as NMCT. Hence it is omitted from the 1991 Census list of villages. The following seven villages of 1981 Census have now been treated as urban being the outgrowths of Belgaum City : 1. Belgaum (Rural), 10. Matche, 12. Peeranawadi, 18. Benakanahalli, 52. Kangralli(KH), 54. Kakti and 56. Kangralli(BK). Hence these villages are omitted from the 1991 Census list of villages.
3	Chikodi	102	103	3	A new village Kamtyanatti (38) has been constituted by altering the revenue limits of Bennihalli(31) and Karoshi (48) villages of Chikodi taluk and Yadgud (28) of Hukeri taluk. Hence the difference.
4	Gokak	108	107	5	Dhupadal village of 1981 Census has now been treated as an urban area i.e. as a NMCT. Hence it is omitted from the 1991 Census list of villages.
5	Hukeri	121	120	3	Hidkal village of 1981 Census has now been treated as an urban area i.e. as a NMCT. Hence it is omitted from the 1991 Census list of villages.
6	Khanapur	221	219	2	Adhalli and Shitawade villages of 1981 Census have now been transferred to Supa taluk of Uttar Kannad district along with a part of Akralli village to constitute a new village named Ramanagar to rehabilitate the families affected by the Kalinadi Project (vide Notification No.RD 24 LRD 80 dated 24.6.1982). Hence the difference.
7	Parasgad	123	118	1	The following five villages of 1981 Census are now sub-merged under the backwaters of the Malaprabha Project and have lost their individual identity: 1.Garihalli, 2.Hadagali, 3.Gujlarkop, 4.Kuganari and 5.Kuslapur. Hence these are omitted from the 1991 Census list of villages.
8	Raybag	54	55	2	Paramanandawadi (30) village has been newly constituted by altering the limits of Shiragur (29) village. Hence the difference.
9	Ramdurg	103	103	1	-
10	Sampgaon	126	126	1	-
Total		1178	1164	22	-

Particulars about the villages which are fully or partly included within the limits of the towns of the district are presented in the following statement.

$. The remaining portion of this village constitutes a seperate non-municipal census town.

% A portion i.e., 719.51 hectares is included in Belgaum Contonment Board and remaining portion i.e., 552.10 hectares is treated as urban being the outgrowth of Belgaum City.

@ The remaining portion of these villages are treated as urban being the outgrowths of Belgaum City.

* A portion i.e. 126.37 hectares is included in the limits of Gokak Falls (NAC).

** A portion i.e. 265.75 hectares is included in the limits of Gokak Falls (NAC).

7. Brief Analysis of Data

(i) Area and Population

According to the Surveyor General, India, the total geographical area of Belgaum district is 13,415 square kilometres. However, according to the village records, as reported by local officers, the aggregate area of the villages and towns of the district is 13,441 square kilometres. The marginal difference between the two figures is attributable to the difference in the methods employed by the two agencies for computing the area of the district. Incidentally it may be mentioned that the smallest unit for which the area figures are furnished by the Surveyor General is the district and that these figures have been adopted at the 1991 Census at the district level. Further, it may be incidentally noticed that in 1981 too, the area of this District was furnished as 13,415 square kilometres by the Surveyor General. It is obvious that the minor change which has occurred after 1981, namely, the transfer of an area of 19.65 square kilometres from Belgaum district to the neighbouring Uttar Kannad district has not yet been regularised in the official records perhaps because of the time-consuming procedure involved in the process. At the taluk level, the village records - based on which the local officers have reported the area figures - constitute the main source of information. This reported geographical area of the district is unevenly distributed among the 1164 villages and 22 towns comprised in the 10 taluks into which the district is constituted. The average geographical area of a taluk of Belgaum district works out to 1344 square kilometres. Among the taluks, Athni is the largest (1996 square kilometres) and Raybag is the smallest (959 square kilometres). These two which occupy the extreme positions among the 10 taluks of the district respectively account for 14.85 per cent and 7.13 per cent of the total area of the district. The taluks of Khanapur, Parasgad and Gokak are fairly large in size and account for 12.87 per cent, 11.76 per cent and 11.46 per cent respectively of the total area of the district. Apart from Raybag, Hukeri is the only taluk which has an area of less than a thousand square kilometres. The area of this small taluk constitutes 7.38 per cent of the total area of the district with a share of just 7.72 per cent in the total.. Belgaum taluk also belongs to the category of small taluks of the district.

According to the 1991 Census, the total population of Belgaum district is 3,583,606 persons. The talukwise distribution of this population, presented in Table 4, indicates that the most populous taluk of the district is Belgaum (675,677 persons) followed by Chikodi (487,633 persons) and Gokak (441,339 persons). These three relatively large-sized taluks respectively account for 18.85 per cent, 13.61 per cent and 12.31 per cent of the total population of the district. Athni, the taluk with the largest area, ranks next to Gokak and its share in the total population of the district comes to 10.67 per cent. The aggregate population of these 4 taluks constitutes as much as 55.44 per cent of the total population of the district. Raybag, which is the smallest taluk in terms of geographical area holds the seventh rank in the matter of population size and accounts for 7.90 per cent of the population of the district. Parasgad (7.65 per cent) and Khanapur (6.05 per cent) are small taluks in terms of population size and Ramdurg which has a population of 203,241 persons (5.67 per cent) is the smallest taluk of the district. The foregoing analysis reveals that there is no correlation between the area of a taluk and its population.

(ii) Rural-Urban Composition

Amongst the 3,583,606 persons enumerated in Belgaum district at the 1991 Census, 2,741,820 persons have been returned from the rural areas and the remaining 841,786 persons have been returned from the urban areas. In terms of percentages, it may be observed that the rural-residents and the urban-residents i.e., the rural and the urban components of the population, respectively constitute 76.51 per cent and 23.49 per cent of the total population of the district. Talukwise particulars given in Table 4, indicate the presence of rural as well as urban categories of population in all the ten taluks of the district. At the taluk level, the rural component is the highest in Athni taluk (91.62 per cent) and the least in Belgaum taluk (40.44 per cent). The proportion of the rural-resident population exceeds the 90 per cent mark in the taluks of Khanapur (90.16 per cent)

and Athni (91.62 per cent); lies between 80-90 per cent in the six taluks of Sampgaon (89.09 per cent), Raybag (88.12 per cent), Parasgad (87.91 per cent), Ramdurg (85.41 per cent), Hukeri (84.12 per cent) and Chikodi (80.62 per cent); lies between 70-80 per cent in the taluk of Gokak and, as already indicated, it is below 50 per cent in Belgaum taluk. Since the urban and the rural components of the population are complimentary to each other, the taluks with a high proportion of rural-resident population have correspondingly low proportion of urban-resident population. Thus, the urban-component is less than 10 per cent in the population of 2 taluks (viz., Athni and Khanapur), lies between 10-20 per cent in 6 taluks and is above 20 per cent in the other 2 taluks (reaching a maximum of 59.56 per cent in the case of Belgaum taluk).

The jurisdiction of the rural areas of the taluk corresponds to that of the Taluk Panchayat of the same name (i.e. C.D.Block of the same name). Table 1, gives a taluk-wise (i.e., C.D.Block-wise) distribution of the rural population of Belgaum district by sex and also indicates the number of villages within the jurisdiction of each taluk (C.D.Block).

Table 1 : Population and Number of Villages, 1991

Sl. No.	Name of C.D.Block/ Taluk-Rural	Population of Villages			No.of Villages	
		Persons	Males	Females	Total	Inhabited
1	2	3	4	5	6	7
1	Athni	350181	180786	169395	89	89
2	Belgaum	273265	139573	133692	124	122
3	Chikodi	393116	201932	191184	103	102
4	Gokak	329153	167595	161558	107	107
5	Hukeri	259656	131666	127990	120	111
6	Khanapur	195402	98099	97305	219	218
7	Parasgad	241013	122794	118219	118	105
8	Raybag	249357	129262	120095	55	55
9	Ramdurg	173590	88115	85475	103	103
10	Sampgaon	277087	140352	136735	126	126
	District Rural	2741820	1400174	1341646	1164	1138

At the 1991 Census count, 26 villages, constituting 2.23 per cent of the 1164 villages in Belgaum district, have returned a 'nil' population. These uninhabited villages are found in 5 out of the 10 taluks. The largest concentration of such villages is noticeable in Parasgad taluk, which alone accounts for 13 out of the 26, and it is followed by Hukeri which has a tally of 9 villages. These two taluks account for 84 per cent of the total number of uninhabited villages of the district. It may be incidentally mentioned that most of these uninhabited villages represent cases of depopulation due to submersion of lands under irrigation projects being implemented in these two taluks. Of the remaining 4 uninhabited villages, 2 are in Belgaum taluk and the other 2 are located in the taluks of Chikodi and Khanapur. The 1138 inhabited villages i.e., populated villages of the district, are unevenly distributed among the 10 taluks. The range of variation is quite large - while Raybag has just 55 villages (or 4.8 per cent of the total), Khanapur has as many as 218 villages (or 19.2 per cent of the total). In terms of number of villages, the taluks of Sampgaon and Belgaum are fairly large while Athni with 89 villages ranks among the small taluks. Areawise, Athni is the largest taluk and Khanapur ranks next to it and while the former is located in the north-eastern portion of the district the latter is located in the south-western corner. Raybag taluk lies to the south-west of Athni taluk. The number of villages is less than the taluk average of 114 in as many as 7 out of the 10 taluks of the district.

Table 1 discloses that the average rural population of a taluk of Belgaum district is 274,182 and also that the taluk-rural population exceeds this average in the case of only 4 out of its 10 taluks. Chikodi is the most populous taluk and Athni ranks next to it. These two taluks account for 14.34 per cent and 12.77 per cent of the rural population of the district and are followed by the taluks of Gokak (12.00 per cent) and Sampgaon (10.11 per cent). Khanapur, which is the largest taluk in terms of number of inhabited villages holds the 9th place among the 10 taluks in the matter of population size. Raybag, which is the smallest taluk in terms of geographical area and number of villages has a slightly larger population and holds the 7th rank. Ramdurg, which has a population of 173,590 happens to be the smallest taluk and its share in the rural population of the district works out to a mere 6.33 per cent. The taluk-wise contribution to the rural population of the district varies between 6.33 per cent in Ramdurg and 14.34 per cent in Chikodi.

The urban-resident population of the district too is most unevenly distributed among the 22 towns

of the district. Townwise population figures, by sex, are presented in Table 2.

Table 2 : Population and Number of Towns, 1991

Sl.No.	Name and Civic Administration Status of Towns	Population		
		Persons	Males	Females
1	2	3	4	5

17	Nipani (CMC)	51,624	26,030	25,594
18	Ramdurg (TMC)	29,651	15,057	14,594
19	Raybag (TMC)	12,408	6,481	5,927
20	Sadalgi (TMC)	15,614	8,040	7,574
21	Sankeshwar (TMC)	27,244	13,969	13,275
22	Saundatti-Yellamma (TMC)	33,138	16,889	16,249
	District Urban	841,786	433,831	407,955

Note : Following abbreviations are used in Col.2 regarding Civic Administration Status :-
MC : Municipal Corporation;
CMC : City Municipal Council;
TMC : Town Municipal Council;
CB : Cantonment Board;
NAC : Notified Area Committee;
NMCT : Non-Municipal Census Town.

The average population of a town of Belgaum district works out to 38,263 persons. Table 2 reveals that amongst the 22 towns of the district only 3 have an above-average population. These towns are Belgaum, Gokak and Nipani. The population of these three towns constitute 43.86 per cent, 6.19 per cent and 6.13 per cent respectively of the urban population of the district. Belgaum is the most populous town and Gokak ranks next to it. At the other end, Hidkal is the smallest town and its population, which is incidentally less than 5000, constitutes a negligible 0.52 per cent of the urban population of the district. A grouping of the 22 towns according to the proportion of the population of the town to the total urban population of the district, by ranges, indicates the following position-

(i) Less than 1 per cent : 3 towns [Hidkal, Londa and Dhupdal]

(ii) 1 - 2 per cent : 6 towns [Gokak Falls, Hindalge, Khanapur, Konnur, Raybag and Ramdurg]

(iii) 2 - 3 per cent : 3 towns [Hukeri, Kudachi and Belgaum Cantonment]

(iv) 3 - 4 per cent : 6 towns [Athni, Chikodi, Mudalgi, Ramdurg, Sankeshvar and Saundatti-Yellamma]

(v) 4 - 5 per cent : 1 town [Bailhongal]

(vi) 5 per cent and above : 3 towns [Belgaum, Gokak amd Nipani]

A size-group classification of the towns indicates that Belgaum belongs to Class I category (population of 100,000 plus); Gokak and Nipani belong to Class II category (50,000-99,999); Athni, Belgaum Cantonment, Bailhongal, Chikodi, Kudachi, Mudalgi, Ramdurg, Sankeshwar and Saundatti-Yellamma (9 towns in all) belong to Class III category (20,000-49,999); Gokak Falls, Hukeri, Khanapur, Konnur, Raybag and Sadalgi (6 towns in all) belong to Class IV category (10,000-19,999); Dhupadal, Hindalge and Londa belong to Class V category (5000-9999) and Hidkal belongs to Class VI category (below 5000). It is thus obvious that in terms of population size this district has very small, small, medium, large and very large towns within its jurisdiction.

(iii) Classification of new places as towns, de classification and or merger of old towns during the decade 1981-91

For purposes of 1991 Census, Sambre a town in 1981 Census has been declassified and at the same time Hindalge, Hidkal and Dhupdal which were villages at the 1981 Census have been classified as towns. The net effect of this process is an increase in the number of towns in the district which has moved up from 20 in 1981 to 22 in 1991. In addition, the fact that the city of Belgaum has

grown beyond its statutory limits has been recognised at the 1991 Census and a few places around the city which were treated as villages at the 1981 census have now been classified as 'urban'. Being the out-growths of a city, these places are not independent towns but are appendages of the city and the entire complex bears the nomenclature 'Belgaum Urban Agglomeration'. Particulars about the towns added during the decade as also about the declassification and or merger of erstwhile towns are presented in the following table.

Table 3 : New Towns/Towns Declassified, Merged in 1991 Census

Particulars	Name of Town	Population
1	2	3
(a) Added	(1) Dhupdal	7473 (1991 Census)
	(2) Hidkal	4361 (1991 Census)
	(3) Hindalge	9282 (1991 Census)
(b) Declassified	(1) Sambre	6309 (1981 Census)
(c) Wholly merged with some other town	Nil	-

It may be recalled that for purposes of 1981 Census, Sambre was classified as a non-statutory town as it satisfied the conditions prescribed for classifying a place as urban on the basis of the 1971 Census data. After 1981, this place did not acquire the statutory status of a town and the 1981 Census further disclosed that this place no longer satisfied the empirical criteria laid down for classifying a place as urban for purposes of 1991 Census. As a result, Sambre had to be declassified. Names of places (i.e., erstwhile villages in this case) which have now been recognised as the out-growths of Belgaum City and the population thereof as per 1991 Census are as follows : (i) Kakati-9546, (ii) Peeranawadi - 8495, (iii) Matche - 7057, (iv) Kangrali (KH)-6145, (v) Kangrali (BK)-5922, (vi) Benakanahalli-4789 and (vii) Belgaum Rural-824.

(iv) Decadal variation in Population, 1981-1991

A comparative nb idea about the decadal variation in the population of Belgaum district and its constituent taluks may be had from the details furnished in Table 4. In this table, the proportions of urban population of each unit to the total population according to the Censuses of 1981 and 1991 are also indicated.

Table 4 : Decadal change in distribution of Population

Taluk	Population						Percentage decadal variation (1981-91)			Percentage of urban population	
	1981			1991							
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1981	1991
1	2	3	4	5	6	7	8	9	10	11	12
1 Athni	327613	300064	27549	382222	350181	32041	16.67	16.70	16.31	8.41	8.38
2 Belgaum	551814	245133	306681	675677	273265	402412	22.45	11.48	31.22	55.58	59.56
3 Chikodi	422259	343776	78483	487633	393116	94517	15.48	14.35	20.43	18.59	19.38
4 Gokak	359561	267414	92147	441339	329153	112186	22.74	23.09	21.75	25.63	25.42
5 Hukeri	272111	232548	39563	308659	259656	49003	13.43	11.66	23.86	14.54	15.88
6 Khanapur	185444	166999	18445	216719	195402	21317	16.86	17.01	15.57	9.95	9.84
7 Parasgad	222770	196366	26404	274151	241013	33138	23.06	18.52	25.50	11.85	12.09
8 Raybag	212992	184866	28126	282962	249357	33605	32.85	34.89	19.48	13.21	11.88
9 Ramdurg	167759	140204	27555	203241	173590	29651	21.15	23.81	7.61	16.43	14.59
10 Sampgaon	258117	231652	26465	311003	277087	33916	20.49	19.61	28.15	10.25	10.91
District	2980440	2309022	671418	3583606	2741820	841786	20.24	18.74	25.37	22.53	23.49

During the decade, Belgaum district has witnessed a net addition of 603,166 persons of whom 432,798 persons (i.e. 71.75 per cent) are residing in rural areas and the remaining 170,368 persons (i.e. 28.25 per cent) are residing in urban areas. At the taluk level, the net addition, in terms of number of persons, varies between 31,275 and 123,863 respectively in the case of Khanapur and Belgaum. Next to Belgaum, Gokak taluk has registered the highest addition (81,778) followed by Raybag (69,970). These 3 taluks account for 45 per cent of the net addition to the population of the district.

Table 4 reveals that the district has registered a growth rate of 20.24 per cent during the decade. It may be incidentally noticed that this growth rate is slightly lower than the overall decadal growth rate returned by the State which is 21.12 per cent. Among the taluks, Raybag tops the list with a decadal growth rate of 32.85 per cent and is followed by Parasgad (23.06 per cent). The decadal growth rate is above the district average in the case of 6 taluks (including the 2 mentioned above) and is well below this mark in the case of remaining taluks. This rate happens to be the least viz., 13.43 per cent, in the case of Hukeri taluk and quite low in the case of Athni taluk which is the second largest taluk of the district in terms of population size.

The rural-urban categorisation of the population of the district shows that the decadal growth rate registered by the rural population (which constitutes 76.51 per cent of the total population of the district) is significantly lower than that registered by the urban population. Generally the growth rate for the urban areas tends to be higher than that for the corresponding rural areas. The decadal growth rates for the urban and rural areas of Karnataka State as such are 29.62 per cent and 17.66 per cent respectively. Evidently, the growth pattern noticed in Belgaum during the decade 1981-91, by and large conforms to the general trend noticed in the State. The talukwise details reveal that such a conformity at the taluk level is noticeable in the case of only 5 out of the 10 taluks. The difference in percentage points between the decadal growth rates registered by the urban and the rural categories of population is the least in the case of Athni taluk (Rural-16.70 per cent; Urban-16.31 per cent) and the highest in the case of Belgaum taluk (Rural-11.48 per cent and Urban-31.22 per cent).

An examination of the decadal growth rate for the rural areas of various taluks shows that this rate is above the district average of 18.74 per cent in 4 taluks and also that it touches the highest mark of 34.89 per cent in the case of Raybag. On the other hand, Belgaum taluk has returned the lowest rate of 11.48 per cent and the position of Hukeri taluk (11.66 per cent) does not appear to be in any way better than that of Belgaum. Chikodi and Raybag, which, in terms of rural population, are the largest and the smallest taluks of the district, have respectively registered a growth rate of 14.35 per cent and 23.81 per cent and occupy the eighth and the second rank respectively when the taluks are arranged in a descending order of the decadal growth rate.

If the decadal growth rates registered by the urban areas of various taluks of the district is examined, it is noticed that this rate is higher than the district average of 25.37 per cent in the case of only 3 taluks and also that it touches the highest mark of 31.22 per cent in the case of Belgaum taluk. At the other end, Ramdurg has registered the lowest growth rate of 7.61 per cent. With the exception of Ramdurg, all the other taluks have registered a growth rate of above 15 per cent. It may be incidentally mentioned that in this taluk there has been no change in the number of towns during the decade and that the only town in Ramdurg taluk has experienced a sluggish growth for reasons which are not quite explicit.

(v) Trends of Urbanisation

The proportion of urban population to the total population of an unit is an important measure of urbanisation. According to Table 4, the level of urbanisation of Belgaum district has moved up during

the decade. The proportion of urban population to the total population of the district has increased from 22.53 per cent in 1981 to 23.49 per cent in 1991. However, this progress has not been shared uniformly by the constituent taluks. It is clear from Table 4, that this proportion has, in fact, decreased from the 1981 level in the case of 5 out of the 10 taluks. This decline is quite marginal in the taluks of Athni, Gokak and Khanapur and is significant in the taluks of Raybag (decline by 1.33 percentage points) and Ramdurg (decline by 1.84 percentage points). Though Gokak taluk has witnessed an addition of a new town at the 1991 Census it has suffered a marginal fall in the proportion of its urban population. On the other hand, Belgaum - the taluk which has the largest concentration of urban population of the district - has witnessed a remarkable increase by 3.98 percentage points over the decade and it is followed by Hukeri taluk where the increase is of the order of 1.34 percentage points. In the case of the other 3 taluks the increase is only nominal. In the case of Belgaum taluk, the adverse effect due to the deletion of Sambre has been nullified by the addition of Hindalge to the 1991 list of towns. Evidently Belgaum city has experienced a heavy gain in its population. The urban spread has crossed the statutory limits of the Municipal Corporation as a result of which it became necessary to identify the contiguous outgrowths and constitute the Belgaum Urban Agglomeration by including all such areas as appendages to the city. In the case of Hukeri taluk, the increase is partly attributable to the addition of a new town viz., Hidkal at the 1991 Census.

The number of towns within a taluk or a district is also an important index of urbanisation. On this count too, Belgaum district has achieved some progress during the decade. As has already been mentioned, while one of the towns as per 1981 Census has now been declassified, as many as 3 places have been classified as towns for purposes of 1991 Census and, in addition, 7 erstwhile villages around Belgaum City have now been recognised as the outgrowths of the city and accorded urban status (though not as independent towns). The taluks for which the index of urbanisation has improved during the decade are Gokak and Hukeri - the number of towns has moved up from 4 to 5 and from 2 to 3 in the taluks of Gokak and Hukeri respectively.

(vi) Population size of villages

The rural-resident population of Belgaum district is dispersed among 1138 inhabited villages spread unevenly over ten taluks (C.D.Blocks). The average population of a village of Belgaum district works out 2409 persons. At the taluk level, however, this average is as low as 896 in Khanapur taluk which has the largest number of inhabited villages, viz., 218 out of the 1138 and has a population of 195,402 persons. The only other taluk where this average is below 2000 is Ramdurg (1685 persons) which incidentally is the smallest taluk of the district in terms of population. At the other end, this average is quite close to the 4000 mark in the case of Athni (3934 persons) as also in the case of Chikodi (3854 persons). It may be recalled that Chikodi and Athni are the first and second most populous taluks of the district. The only other taluk which has an above-average population is Gokak (3076 persons). The average population of a village exceeds the district average of 2409 in the case of 4 taluks and falls short of this mark in the case of the remaining 6 taluks. It is evident that the number of persons inhabiting a village is subject to considerable variations within the district. A distribution of the 1138 villages by population size class is given in Table 5.

Table 5 reveals that in a district having villages with an average population of 2409, there are several villages with a small and very small population. Villages with less than 500 inhabitants each constitute as much as 11.78 per cent of the total number of villages. Such villages are found in all the taluks except Athni and the largest concentration (viz. 82 out of the 134) of such villages is found in Khanapur taluk which is located in the south-western corner of the district and is known for its hilly terrain, moderate-to-heavy rainfall and dense vegetation.

Table 5 : Percentage distribution of villages by population ranges, 1991

Taluk/C.D.Block	No. and Percentage of inhabited villages	No. and percentage of villages in each range (figures in paranthesis indicate percentage of villages in each range)					
		Less than 200	200 - 499	500 -1999	2000 - 4999	5000 - 9999	10,000 & above
1	2	3	4	5	6	7	8
1. Athni	89	-	-	29	41	12	7
	(100.00)			(32.58)	(46.08)	(13.48)	(7.86)
2. Belgaum	122	5	8	59	37	11	2
	(100.00)	(4.10)	(6.56)	(48.36)	(30.33)	(9.01)	(1.64)
3. Chikodi	102	-	1	35	39	19	8
	(100.00)		(0.98)	(34.31)	(38.24)	(18.63)	(7.84)
4. Gokak	107	1	3	49	32	18	4
	(100.00)	(0.94)	(2.80)	(45.79)	(29.91)	(16.82)	(3.74)
5. Hukeri	111	1	5	55	37	13	-
	(100.00)	(0.90)	(4.51)	(49.55)	(33.33)	(11.71)	
6. Khanapur	218	26	56	119	14	3	-
	(100.00)	(11.93)	(25.69)	(54.59)	(6.42)	(1.37)	
7. Parasgad	105	1	8	57	29	8	2
	(100.00)	(0.95)	(7.62)	(54.29)	(27.62)	(7.62)	(1.90)
8. Raybag	55	-	1	14	23	12	5
	(100.00)		(1.82)	(25.45)	(41.82)	(21.82)	(9.09)
9. Ramdurg	103	1	11	62	26	2	1
	(100.00)	(0.97)	(10.68)	(60.20)	(25.24)	(1.94)	(0.97)
10. Sampgaon	126	4	2	74	35	9	2
	(100.00)	(3.17)	(1.59)	(58.73)	(27.78)	(7.14)	(1.59)
District	1138	39	95	553	313	107	31
	(100.00)	(3.43)	(8.35)	(48.59)	(27.51)	(9.40)	(2.72)

Medium-sized villages constitute the single largest group and account for 48.59 per cent followed by large villages which are quite numerous and account for another 27.51 per cent. Very large villages, each with 5,000 inhabitants or more, are found in substantial numbers in all the taluks of the district. Table 5 highlights the fact that among the 1138 inhabited villages of the district as many as 31 have returned a population of 10,000 plus and also that such villages are met with in 8 out of its 10 taluks. The taluks in which the proportion of 10,000 plus village exceeds the 5 per cent mark are Raybag (9.09 per cent), Athni (7.86 per cent) and Chikodi (7.84 per cent). The talukwise particulars further disclose the fact that among the taluks of the district, Khanapur strikes a different note, for in this taluk 37.62 per cent of the villages have less than 500 inhabitants each and only 3 villages (1.37 per cent) have 5000 inhabitants or more as compared to the corresponding district average of 11.78 per cent and 9.40 per cent respectively.

(vii) Density of population

According to the 1991 Census, the overall density of population in Belgaum district is 267 persons per square kilometre. The rural-urban break up shows that the density figures for the rural and urban areas of the district work out to 209 persons per square kilometre and 2834 persons per square kilometre respectively. These figures may be compared with the corresponding averages for Karnataka State which are - 236 persons per square kilometre for total population, 166 persons per square kilometre for the rural population and 3257 persons per square kilometre for the urban population. In conformity with the general pattern, in Belgaum district too, the urban areas are more densely populated than the corresponding rural areas.

The taluk-level data for rural areas reveals that the density of population varies between 113 persons per square kilometre in Khanapur taluk and 314 persons per square kilometre in Chikodi taluk. The other taluks where the density is lower than the district-rural average are : Ramdurg (143), Parasgad (154) and Athni (175). Belgaum taluk (rural areas) which has a density of 289 persons per square kilometre ranks next only to Chikodi and is followed closely behind by the taluks of Hukeri (265 persons) and Raybag (262 persons).

As in the matter of population, in the matter of geographical area also the villages of the district differ from each other to a considerable extent. Density of population at the village level is an important tool for comparative analysis. Accordingly, a distribution of the 1138 populated villages of the district by density ranges is presented in Table 6 which does not need any further elucidation.

Table 6 : Distribution of villages by density ranges

Range of Density (population per sq.km)	Total no. of villages in each range	Percentage of villages in each range
1	2	3
- 10	12	1.05
11 - 20	10	0.88
21 - 50	51	4.48
51 - 100	139	12.22
101 - 200	332	29.17
201 - 300	271	23.81
301 - 500	236	20.74
501 and above	87	7.65
Not known	-	-
All ranges	1138	100.00

(viii) Sex Ratio

Among the 3,583,606 persons enumerated at the 1991 Census in Belgaum district, 1,834,005 are males and the remaining 1,749,601 are females. The sex ratio, expressed as the 'number of females per thousand males' for the district works out to 954. This figure is significantly lower than the average sex ratio for the State which is 960. It may be of interest to note that in 1981, the sex ratio for the district was 957 and that for the State was 963. As between 1981 and 1991, there is a definite decline in the sex ratio at the All India level too - the sex ratio has moved down from 933 in 1981 to 927 in 1991. Evidently the phenomenon of declining sex ratio noticed in most parts of the country during the decade is noticeable in Belgaum district too.

The rural-urban break-up of the population shows that the sex ratio is generally higher in the rural areas than that in urban areas. The sex ratio for the rural areas of Belgaum district works out to 958 whereas that for the urban areas works out to 940. An examination of the data relating to the rural areas at the taluk level (i.e. C.D.Block level), presented in Table 7, discloses that the sex ratio is the least in Raybag taluk (929) and the highest in Khanapur taluk. Chikodi and Athni which are the first and the second most populous taluks of the district have returned a sex ratio of 947 and 937 respectively. These figures are considerably lower than the district-average for the rural areas. Next to Khanapur, Sampgaon taluk has returned the highest sex ratio of 974 and it is closely followed by the taluks of Hukeri (972) and Ramdurg (970).

Table 7 : Sex Ratio for Rural Population of C.D.Blocks, 1991

Sl.No.	Name of C.D.Block/Taluk	No. of females per 1000 males
1	2	3
1	Athni	937
2	Belgaum	958
3	Chikodi	947
4	Gokak	964
5	Hukeri	972
6	Khanapur	992
7	Parasgad	963
8	Raybag	929
9	Ramdurg	970
10	Sampgaon	974
	District Rural	958

The sex ratio for the urban areas of the district as such is 940. However, as may be noticed from Table 8, there are considerable differences in this matter at the town level. Among the 22 towns of the district, 15 have returned a sex ratio which is equal to or higher than the district average and the highest sex ratio returned is 1013 noticeable in the case of Dhupdal - a small non-statutory town newly added to the list of towns at the 1991 Census. Apart from Dhupdal, no other town has such a high sex ratio, for the second highest figure is 983 noticeable in the case of Nipani - a large sized statutory town with a history of several decades. The sex ratio is the least (778) in the case of Belgaum Cantonment and very low (866) in the

case of Hindalge. It may be incidentally mentioned that both these places are adjacent to Belgaum City which has returned a sex ratio of 933, and also that since these 3 places together constitute an urban agglomeration named after Belgaum, the overall sex ratio for this urban complex comes to 921. The sex ratio for the urban agglomeration gives a relatively fair assessment of the overall urban situation in and around Belgaum City.

Table 8 : Sex Ratio for Towns, 1991

* Includes the population of outgrowths.

(ix) Scheduled Castes

At the 1991 Census, 406,955 persons in a total population of 3,583,606 persons enumerated in Belgaum district have returned themselves as belonging to the Scheduled Castes. Of them, it may be further noted 325,338 (i.e. 79.94 per cent) are residing in villages and the remaining 81,617 (i.e. 20.06 per cent) are residing in towns. In terms of proportions, the Scheduled Castes constitute 11.36 per cent of the total population of the district, 11.87 per cent of the rural population and 9.70 per cent of the urban population. In Karnataka State as a whole, the Scheduled Castes are seen to constitute as much as 16.38 per cent of the total population. Evidently, the size of the Scheduled Castes component in the population of Belgaum district is significantly lower than that in the State. As in the case of several other demographic characteristics, in this matter too there are considerable differences at the taluk-rural level as also at the town level.

If the villages of the district are classified according to the proportion of Scheduled Castes population to the total population of the village concerned by ranges, the distribution of the villages would be as shown in Table 9.

Table 9 : Proportion of Scheduled Castes Population to Total Population in villages, 1991

Percentage range of Scheduled Castes population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
0-5	296	28.46
6-10	301	28.94
11-15	199	19.14
16-20	129	12.40
21-30	83	7.98
31 and above	32	3.08
All ranges	1040	100.00

Persons belonging to the Scheduled Castes are found in 1040 out of the 1138 inhabited villages, i.e., in 91.39 per cent of the villages of the district. The relative strength of the Scheduled Castes in the village population is only nominal in 28.46 per cent of the villages where they constitute 5 per cent or less and may be regarded as somewhat impressive in 11.06 per cent of the villages in which their share exceeds 20 per cent. It is clear from Table 9 that the rural Scheduled Castes population is unevenly scattered all over the district and it is only in 8.61 per cent of the villages that they are totally absent.

Townwise information furnished in Table 10, which is given below, reveals that the persons belonging to the Scheduled Castes are found in varying numbers in all the towns of the district. Their largest concentration in numerical strength is noticeable in Belgaum City which alone accounts for 30.96 per cent of the urban-resident Scheduled Castes population of the district. The other important centres of their concentration are Nipani (9.70 per cent) and Athni (7.71 per cent).

Table 10 : Percentage of Scheduled Castes Population in towns, 1991

	District Urban	841786	81617	9.70

* Includes the population of outgrowths

The proportion of the Scheduled Castes population to the total population of the town is greater than the district urban average of 9.70 per cent in the case of 15 towns and is below this average in the case of the remaining 7 towns. This proportion reaches a maximum of 21.39 per cent in the case of Dhupdal, a small non-statutory town and is quite high in the towns of Athni (19.64 per cent) and Raybag (19.28 per cent) as well. On the other hand, this proportion is quite low in the towns of Bailhongal (7.01 per cent), Khanapur (6.92 per cent), Belgaum (6.84 per cent) and Gokak (6.50 per cent) and touches the minimum of 5.53 per cent in the case of Saundatti-Yellamma town.

(x) Scheduled Tribes

Out of the 3,583,606 persons enumerated in Belgaum district at the 1991 Census, 83,076 persons have returned themselves as belonging to the Scheduled Tribes. The rural-urban break up indicates that among these persons, 65,247 are residing in the rural areas and the remaining 17,829 are residing in the urban areas. The Scheduled Tribes constitute 2.32 per cent of the total population of the district. This figure is considerably lower than the State average which is 4.26 per cent. The proportion of Scheduled Tribes to the rural and urban segments of the population of the district work out to 2.38 per cent and 2.12 per cent respectively.

If the villages of the district are classified according to the proportion of the Scheduled Tribes population to the total population of the village concerned, the distribution would be as shown in Table 11 which is given below. At the outset it may be noted that the persons belonging to the Scheduled Tribes are to be found in only 372 villages (i.e., 32.69 per cent) out of the 1138 inhabited villages of the district. The Table further discloses that in 68.82 per cent of these 372 villages, their presence is only nominal, for in these villages they constitute hardly 5 per cent of the population. There are, however, as many as 18 villages (4.84 per cent) among these 372, where the Scheduled Tribes account for more than 50 per cent of the population of the village concerned.

Table 11: Proportion of Scheduled Tribes Population to Total Population in Villages, 1991

Percentage range of Scheduled Tribes Population to total Population	No. of villages in each range	Percentage of villages in each range
1	2	3
0-5	256	68.82
6-15	53	14.25
16-25	22	5.91
26-35	13	3.49
36-50	10	2.69
51 and above	18	4.84
All ranges	372	100.00

The urban-resident Scheduled Tribes population of the district is unevenly distributed among its 22 towns. As in the case of Scheduled Castes, in this case also, Belgaum, the most populous town of the district happens to be the chief centre of concentration. Out of the 17,829 urban resident persons belonging to the Scheduled Tribes in the district, 7677 persons, constituting 43.06 per cent of the total, are residing in Belgaum City. The other important centres where they are found in sizeable numbers are Konnur (2730 persons or 15.31 per cent), Gokak (1503 persons or 8.43 per cent) and Gokak Falls (1282 persons or 7.19 per cent). Their numerical strength is less than one hundred in the towns of Hidkal, Kudachi, Mudalgi, Raybag and Sadalgi. Townwise particulars are presented in Table 12.

Table 12 : Percentage of Scheduled Tribes Population in Towns, 1991

	District Urban	841786	17829	2.12

* Includes the population of outgrowths

The proportion of the Scheduled Tribes in the total population of the town is less than one per cent in as many as 9 towns and is negligibly small in Sadalgi town (0.03 per cent). This proportion lies between 1.00 and 1.99 per cent in the case of 5 towns and ranges between 2.00 and 3.99 per cent in the case of 4 towns. In Belgaum the most populous town of the district, the Scheduled Tribes constitute 2.08 per cent of the population. Table 12 further discloses that the proportion of the Scheduled Tribes is the highest viz. 18.28 per cent in Konnur town and is fairly high in Gokak Falls (NAC). These two towns belong to Gokak taluk and are located quite close to each other.

(xi) Literacy

According to the 1991 Census, out of the 3,583,606 persons enumerated in Belgaum district 619,475 are in the 0-6 age-group. At the 1991 Census, all these children in the 0-6 age-group are, by definition, treated as illiterate. They are, therefore, to be excluded while computing the literacy rates. Accordingly, since 1,571,044 persons in a total population of 2,964,131 persons aged 7 years or upwards have returned themselves as literate, the literacy rate for Belgaum district works out to 53.00 per cent. The sexwise break up shows that among the literates 1,011,113 are males and 559,931 are females. The literacy rates for the male and female segments of the population (excluding 0-6 age-group) work out to 66.65 per cent and 38.69 per cent respectively. These literacy rates for Belgaum district may be compared with the corresponding rates for Karnataka which are 56.04 per cent for total population, 67.26 per cent for males and 44.34 per cent for females. The literacy rates returned by Belgaum district are significantly lower than the state averages, especially regarding the literacy rate for females.

The particulars relating to the rural areas indicate that the 1,045,451 literates enumerated therein constitute 46.47 per cent of the rural population in the 7 plus age-group. Within the rural category there is a large difference between the literacy rates

returned by the male and female segments of the population which are 61.23 per cent and 31.07 per cent respectively. Taluk-level (i.e., C.D.Block level) data set out in Table 13 provide a comparative idea about the magnitude of the inter-taluk differences regarding the total as well as sexwise literacy rates.

Table 13 : Literacy Rates for Rural Population of Taluks (C.D.Blocks) by sex, 1991 (Excluding children in the age-group 0-6)

Sl.No.	Name of Taluk/C.D.Block	Percentage of Literates		
		Persons	Males	Females

10	Sampgaon	49.41	64.02	34.48
	District Rural	46.47	61.23	31.07

Among the taluks, Chikodi has returned the highest rate of 55.55 per cent for the total population as also the highest rates of 70.59 per cent and 39.65 per cent for the male and female segments of its population. The taluks of Khanapur and Belgaum occupy the next two places when the taluks are arranged in a descending order of the literacy rates. It is only in these 3 taluks that total literacy rate exceeds 50 per cent, the male literacy rate exceeds 65 per cent and the female literacy rate exceeds 35 per cent. At the other end, Raybag taluk has returned the lowest literacy rates of 36.09 per cent, 48.84 per cent and 22.33 per cent respectively for the total, male and female categories of population. The position of Gokak taluk is better only in comparison to that of Raybag.

The literacy rate for the urban population of the district (excluding 0-6 age-group) is 73.59 per cent. The literate among the males and their counterparts among the females constitute 83.54 per cent and 62.99 per cent respectively.

Table 14 : Literacy Rates for towns, 1991 (excluding children in the age-group 0-6)

Sl.No.	Name and Civic Administration Status of Town	Percentage of Literates		
		Persons	Males	Females
1	2	3	4	5
1	Athni(TMC)	69.06	80.69	57.08
2	Bailhongal (TMC)	69.43	81.64	56.77
3	Belgaum (CMC)*	80.81	88.82	72.20

21	Sankeshwar (TMC)	70.96	82.75	58.62
22	Saundatti-Yellamma (TMC)	63.21	75.82	50.10
	District Urban	73.59	83.54	62.99

* Includes the population of out-growths.

Townwise data on literacy rates by sex presented in Table 14 shows that in respect of total population, the towns of Hindalge and Mudalgi have returned the highest (81.26 per cent) and the lowest (42.18 per cent) literacy rates. The proportion of literates is below the 50 per cent mark in only one town viz., Mudalgi, out of the 22 towns of the district. A broad grouping of the other 21 towns shows that the literacy rate lies between 50-60 per cent in only one town viz., Kudachi; lies between 60-70 per cent in 9 towns; lies between 70-75 per cent in 3 towns and exceeds 75 per cent in the remaining 8 towns including Belgaum city which has returned a literacy rate of 80.81 per cent - a figure slightly lower than that returned by Hindalge. If the literacy rates for males are examined it is noticed that it varies between 55.29 per cent in Mudalgi and 88.82

per cent in Belgaum city. This rate is below 70 per cent in the towns of Kudachi and Mudalgi; lies between 70-80 per cent in the 6 towns of Dhupdal, Hukeri, Konnur, Saundatti-Yellamma, Sadalgi and Gokak; lies between 80-85 per cent in the 7 towns of Athni, Bailhongal, Belgaum Cantonment Board, Londa, Ramdurg, Raybag and Sankeshwar; and exceeds 85 per cent in the remaining 7 towns including Hindalge which has returned a rate of 87.13 per cent and occupies the 4th place among the 22 towns. If the position regarding female literacy is examined it is seen that the literacy rate varies between 28.50 per cent in Mudalgi and 74.28 per cent in Hindalge. The proportion of literates in the female population aged 7 plus is below 40 per cent in one town viz., Mudalgi; lies between 40-50 per cent in the 4 towns of Hukeri, Konnur, Kudachi and Sadalgi; lies between 50-60 per cent in the 7 towns of Athni, Bailhongal, Dhupdal, Gokak, Ramdurg, Sankeshwar and Saundatti-Yellamma; lies between 60-70 per cent in the 8 towns of Belgaum Cantonment Board, Chikodi, Gokak Falls, Hidkal, Khanapur, Londa, Nipani and Raybag and exceeds 70 per cent in the remaining 2 towns including Belgaum City where the female literacy rate is 72.20 per cent.

(xii) Main Workers, Marginal Workers and Non-workers

Every person enumerated at the 1991 Census has been classified either as a main worker or as a marginal worker or as a non-worker depending on whether or not the person concerned participated in any economic activity and, if he or she did participate, the total duration of such participation in terms of days during the reference period of one year preceding the date of enumeration. According to such a classification, in the total population of Belgaum district, 1,340,802 persons (37.41 per cent) are main workers, 176,924 persons (4.94 per cent) are marginal workers and the remaining 2,065,880 persons (57.65 per cent) are non-workers. The corresponding figures for Karnataka State are 38.45 per cent, 3.54 per cent and 58.01 per cent respectively. A broad comparison of the two sets of figures indicates that though the proportion of main workers in Belgaum district is marginally lower than the State average, that of marginal workers is considerably higher. Consequently, the proportion of non-workers in Belgaum district is lower than the State average.

The sexwise break-up shows that in the male population of the district, 53.86 per cent are main workers, 0.55 per cent are marginal workers and the remaining 45.59 per cent are non-workers. On the other hand, in the female population, these 3 categories constitute 20.18 per cent, 9.53 per cent and 70.29 per cent respectively. Evidently, the male segment of the population contains a much larger proportion of workers than its female counterpart and this conforms to the general pattern noticeable in the State and lends support to the traditional image of the male as the main bread-winner of the family.

Within the district there are considerable variations in the proportions of main workers, marginal workers and non-workers returned by the rural areas and the urban areas respectively. As compared to 39.52 per cent in the rural population, the main workers in the urban population constitute 30.57 per cent - a difference of 9 percentage points which is quite significant. The marginal workers are also found in a relatively high proportion in the rural population (6.16 per cent) than in the urban population (0.93 per cent). Within each of these categories, viz., rural and urban, there are differences among the various administrative units such as taluks and towns. A comparative idea about the variations among the taluks (C.D.Blocks) may be had from the particulars presented in Table 15.

Table 15 : Percentage of Main Workers, Marginal Workers and Non-Workers for Rural Population of Taluks (C.D.Blocks), 1991

Sl. No	Name of the Taluk/C.D. Block	Percentage of											
		Main Workers to Total Population			Marginal Workers to Total Population			Total Workers to Total Population			Non-Workers to Total Population		
		P	M	F	P	M	F	P	M	F	P	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13	14

3	Chikodi	37.85	56.76	17.89	7.50	0.57	14.82	45.35	57.33	32.71	54.65	42.67	67.29
4	Gokak	39.60	54.83	23.79	8.52	1.13	16.19	48.12	55.96	39.98	51.88	44.04	60.02
5	Hukeri	37.90	54.37	20.95	6.20	0.51	12.05	44.10	54.88	33.00	55.90	45.12	67.00
6	Khanapur	42.87	54.73	30.90	4.13	0.38	7.90	46.99	55.11	38.80	53.01	44.89	61.20
7	Parasgad	41.76	54.61	28.42	5.93	0.52	11.54	47.69	55.13	39.96	52.31	44.87	60.04
8	Raybag	35.95	54.32	16.18	4.43	0.39	8.78	40.38	54.71	24.96	59.62	45.29	75.04
9	Ramdurg	44.58	53.87	35.01	4.16	0.49	7.93	48.74	54.36	42.94	51.26	45.64	57.06
10	Sampgaon	40.54	55.65	25.03	6.37	1.15	11.73	46.91	56.80	36.76	53.09	43.20	63.24
	District Rural	39.52	55.18	23.17	6.16	0.62	11.95	45.68	55.80	35.12	54.32	44.20	64.88

The proportion of main workers exceeds the 40 per cent mark in 5 taluks and happens to be the highest in the case of Ramdurg taluk (44.58 per cent). The only other taluk where this proportion is above the district average is Gokak (39.60 per cent). This proportion is the least in the case of Raybag taluk (35.95 per cent). The sexwise particulars reveal that though Ramdurg has returned the highest proportion for the total population it holds the bottom-most ranking when the proportion of main workers in the male population is examined. The proportion of main workers varies between 53.87 per cent in Ramdurg taluk and 56.76 per cent in Chikodi taluk. In this matter, with a tally of 56.00 per cent, Belgaum ranks next to Chikodi. The range of variation is comparatively narrow. On the other hand, the proportion of main workers in the female population varies between 16.18 per cent in Raybag taluk and 35.01 per cent in Ramdurg taluk. The range of variation is quite wide. Like Raybag, Chikodi (17.89 per cent) and Athni (16.78 per cent) have returned very low proportions. On the contrary, this proportion is fairly high (30.90 per cent) in Khanapur taluk. Evidently, the proportions of main workers returned by the taluks of the district do not conform to any particular pattern.

Marginal workers are found among males as well as females in the rural areas of each and every taluk of the district. The proportion of marginal workers to the total population varies between 4.13 per cent in Khanapur and 8.52 per cent in Gokak and the average for the district is 6.16 per cent. This proportion is fairly high in the taluks of Chikodi (7.50 per cent) and Athni (6.42 per cent) and quite low (4.16 per cent) in Ramdurg. Sexwise particulars indicate that the disparity between the proportions of marginal workers in the male and female segments of the rural population is quite large. As compared to 0.62 per cent among males, among females the marginal workers constitute 11.95 per cent. In the case of males, this proportion is the highest in Sampgaon taluk (1.15 per cent) followed by Gokak taluk (1.13 per cent) and the least in Athni taluk (0.33 per cent). In the case of females, the proportion of marginal workers is the highest (16.19 per cent) in Gokak taluk and the least in Khanapur taluk (7.90 per cent). This proportion is fairly high in the taluks of Chikodi (14.82 per cent) and Athni (12.92 per cent) and quite low in the taluks of Ramdurg (7.93 per cent) and Raybag (8.78 per cent).

As may be noticed in Table 15, the proportion of total workers to total population varies between

40.38 per cent in Raybag taluk and 48.74 per cent in Ramdurg taluk and the average for the district is 45.68 per cent. Since the categories of workers and non-workers are complimentary to each other, the proportion of non-workers is seen to vary between 51.26 per cent in Ramdurg taluk and 59.62 per cent in Raybag taluk. The proportion of non-workers varies within a narrow margin of 42.67 per cent in Chikodi taluk and 45.64 per cent in Ramdurg taluk in the case of males and a wide margin of 57.06 per cent in Ramdurg taluk and 75.04 per cent in Raybag taluk in the case of females.

A townwise percentage distribution of the urban population of the district by sex, according to the categories of main workers, marginal workers and non-workers is set out in the following table, viz., Table 16.

Table 16 : Percentage of Main Workers, Marginal Workers and Non-Workers in Towns, 1991

Sl.No.	Name and Civic Administratio Status of Town	Percentage of											
		Main Workers to Total Population			Marginal Workers to Total Population			Total Workers to Total Population			Non-Workers to Total Population

22	Saundatti-Yellamma (TMC)	35.61	52.04	18.53	0.62	0.12	1.15	36.23	52.16	19.68	63.77	47.84	80.32
	District Urban	30.57	49.60	10.33	0.93	0.32	1.58	31.50	49.92	11.91	68.50	50.08	88.09

* Includes the population of out-growths.

In the urban population of the district as a whole the main workers constitute 30.57 per cent. Among the towns, Sadalgi has returned the highest proportion of main workers viz., 41.54 per cent. It is followed by Mudalgi (39.47 per cent) and Saundatti-Yellamma (35.61 per cent). This proportion is the least (23.96 per cent) in Gokak Falls and quite low in the towns of Raybag (26.21 per cent), Chikodi (26.57 per cent), Londa (26.66 per cent) and Hidkal (26.67 per cent). The range of variation is quite large. In Belgaum, the most populous town of the district, the main workers constitute 29.24 per cent whereas in Nipani, the second most populous town, they constitute as much as 35.25 per cent.

The disparity between the proportion of workers among the males and the females is highly pronounced in the urban areas. As against 49.60 per cent among the males, among females the main workers constitute just 10.33 per cent. In the case of males, this proportion is seen to vary between 42.53 per cent in Hindalge and 57.92 per cent in Sadalgi whereas in the case of females, the variation is between 2.90 per cent in Kudachi and 24.21 per cent in Mudalgi. Apart from Mudalgi, the other towns where this proportion is above 20 per cent are Nipani and Sadalgi.

Marginal workers are met with in varying proportions in all the towns of the district. Sadalgi town has returned the highest proportion of marginal workers (5.35 per cent) and it is followed by Hindalge (3.35 per cent). In addition, there are 4 towns where this proportion is above the district urban average of 0.93 per cent. This proportion is less than 0.50 per cent in 4 towns including Gokak Falls where it is as low as 0.09 per cent. The sexwise details reveal that there are marginal workers among males in all the towns of the district except Mudalgi. The proportion of marginal workers among males varies between 0.05 per cent in Raybag and 4.02 per cent in Hindalge. In the case of Sadalgi which has returned the highest proportion for the total population, this proportion is as low as 0.66 per cent. The proportion of marginal workers in the female population of the towns is seen to vary between 0.05 per cent in Gokak Falls and 10.32 per cent in Sadalgi town. The average for the urban areas of the district is 1.58 per cent. This proportion is lower than the district average in the case of 16 out of the 22 towns and the highest proportion next to that returned by Sadalgi is just 3.53 per cent noticeable in the case of Konnur town.

If the proportion of total workers to total population of the towns is examined it is noticed that it varies between 24.05 per cent in Gokak Falls and 46.89 per cent in Sadalgi and the average is 31.50 per cent. The range of variation covering 22 percentage points is quite wide. Table 16 discloses that the proportion of non-workers in the towns is the least (53.11 per cent) in Sadalgi and the highest (75.95 per cent) in Gokak Falls. This proportion is below 60 per cent in the towns of Sadalgi and Mudalgi, lies between 60-70 per cent in the case of 13 towns and lies between 70-75 per cent in the 6 towns of Chikodi, Gokak, Hidkal, Kudachi, Londa and Raybag and exceeds 75 per cent in only one town viz., Gokak Falls.

The foregoing analysis of the data regarding workers and non-workers in different rural areas of the district as also in the towns of the district discloses that the variations amongst the various units are quite wide and that these variations do not conform to any particular pattern.

-oOo-

DISTRICT PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

EXPLANATORY NOTE

The Primary Census Abstract furnishes, in a nutshell as it were, vital information on the basic demographic and economic composition of the population. This statement, referred to as PCA, summarises the whole mass of data gathered at the Census. The smallest geographical unit with a clearly defined boundary identifiable on the field that has been delineated for ensuring cent per cent coverage of the area under the jurisdiction of various administrative units is the Census Enumeration Block. The details gathered in the household schedules in respect of each and every person enumerated in each such block have been meticulously tabulated to prepare this Primary Census Abstract. The tabulation has been done entirely by manual processing of the data at the Regional Tabulation Offices. The village PCA is derived from the Block PCA and in case of urban areas, the Block PCA has yielded the ward and Town PCA. In turn, the Taluk (Rural) and Taluk (Urban) as well as Taluk (Total) PCA statements as well as the C.D.Block-wise PCA Statements are built up on the basis of Village-wise and Town-wise data. This process goes on until it yields the data for higher and higher administrative divisions, such as the District and the State, culminating at the apex in the form of a single line statement for the country. The entire edifice thus rests on the information contained in the household schedules filled up by the enumerator.

The District Primary Census Abstract is presented immediately after this Explanatory Note. This statement gives the aggregate figures for the district with the rural-urban break up, the aggregate figures for each C.D.Block (with the rural-urban break up) and the aggregate figures for each town/urban agglomeration within the district. It is important to note that the lowest unit for which the data are presented here is the C.D.Block and not the traditional taluk*. Thereafter the C.D.Blocks within the district are taken up one by one in the alphabetical order of their names. For each C.D.Block, an alphabetical list of villages (which indicates the code numbers assigned to villages in 1991 as well as the corresponding code numbers assigned in 1981) precedes the presentation of the village-wise PCA followed by the ward-wise PCA in respect of towns and outgrowths if any within the jurisdiction of the concerned C.D.Block. After thus exhausting all the C.D.Blocks in the district, the town/urban agglomerations are covered one by one in the ascending order of their location code numbers without regard to the fact whether any of these towns or portions thereof (eg. outgrowths) have already been covered under one or the other of the Community Development Blocks. As in 1981, on this occasion too, the PCA has been compiled separately in respect of the Scheduled Castes and Scheduled Tribes Population of the District. The District PCA for Scheduled Castes and for Scheduled Tribes are presented after the PCA for the urban areas. The pattern of presentation of data in these two statements is the same as that adopted for presentation of data in the District PCA.

It may be recalled that in Karnataka the term Community Development Block is not in vogue and that its equivalent is the Taluk Panchayat Samiti. The jurisdiction of each Taluk Panchayat Samiti is coterminus with that of the corresponding Taluk but excludes the statutory towns. In other words, the administrative jurisdiction of a Taluk Panchayat Samiti covers all the villages of the Taluk (as listed out for the 1991 census) as also the villages or parts thereof which have been classified as non-municipal towns for purposes of the 1991 census and the revenue villages or portions thereof which have been identified as outgrowths of statutory towns and have therefore been excluded from the purview of Rural PCA. It is important to remember that in this statement, the particulars relating to the non-municipal towns (such as those administered by Mandal Panchayats) and those relating to the outgrowths (places which are not towns in their own right) are repeated - for these appear once below the concerned C.D.Block and again under the 'urban areas' of the district.

** For purposes of comparison with 1981 data the Taluk wise District PCA with Rural - Urban breakup is given in Appendx I.*

The Primary Census Abstract has 21 main columns to furnish information about the name of the unit, area, number of occupied residential houses, number of households, population, number of persons in the age-group of 0-6, number of persons belonging to Scheduled Castes and Scheduled Tribes, number of literates, number of main workers and their distribution among nine industrial categories, number of marginal workers and the number of non-workers. In the District PCA, each column indicating the data on population characteristics is sub-divided into 3 columns in order to indicate the total as well as the sex-wise break-up whereas in the village/town PCA, each such column (with the exception of Total Population and Population in the 0-6 age group) is sub-divided into two columns to indicate the sex-wise break-up only.

It may be mentioned at this juncture that for each town/urban agglomeration in the district, information regarding the total population, Scheduled Castes Population and Scheduled Tribes Population of each census enumeration block as also the particulars regarding the boundaries of each Census Enumeration Block have been compiled and are kept for the census data users' reference in the Library of the Office of the Director of Census Operations, Karnataka.

COLUMN 1 : Location Code Number :- The location code number assigned to the village or the town as the case may be is entered in this column.

COLUMN 2 :- Name of Village/Town/Ward :- The name of the village or the town as finally adopted for the 1991 census purposes is entered in this column. The towns and cities are often divided into smaller geographical segments called wards, mohallas or divisions for purposes of administration. Such units bear distinctive locality names or specific numbers. It is this name or the number of the ward or its equivalent unit that is mentioned here in the case of towns.

Irrespective of whether a town is divided into administrative wards or not, every town is invariably constituted into territorial divisions for the conduct of civic elections. This delimitation of constituencies is done as an essential and preliminary process of civic elections scheduled to be held periodically. So, in some cases the name or number reported in this column refers to such territorial divisions and not to administrative divisions.

COLUMN 3 : Area of the Village in Hectares and of Town in Square Kilometres :- For the villages, the area is reported here in hectares upto two places of decimal and for the towns, as also the wards or divisions thereof, the area figures are furnished in square kilometres upto two places of decimal. It may be incidentally mentioned here that for none of the towns in the State, Ward/Division-wise area figures are available. If the area figures are not available for any reason, a dash (-) is entered in this column.

COLUMN 4 : Number of Occupied Residential Houses :- A 'Census House' could be wholly residential or partly residential or else completely non-residential according to the use to which it is put. All census houses enumerated as either wholly or partly residential at the time of the census count are added together to get the data for the block and from thence to derive the data for higher units. Houses found vacant at the time of the census count are not reckoned as occupied residential houses. The information for this column has been compiled from the Abridged Houselists.

COLUMN 5 : Number of Households :- This information too is compiled from the Abridged Houselists. The actual total number of households including the 'normal', 'institutional' and the 'houseless' that were enumerated at the census count is mentioned in this column. Generally, the number of households in any unit would be equal to or more than the occupied residential houses in that unit because of the houseless households that one may come across in that unit and also because of the occasional instances of two or more households sharing a common census house.

COLUMNS 6, 7 AND 8: Total Population (including Institutional and Houseless Population):- The total population as on the reference date is furnished in column 6 while in the next two columns the sex-wise break-up is given. The institutional population refers to such of those who were enumerated in institutions like hostels, chummeries, hospitals, prisons etc. The houseless persons

represent those who were enumerated on the night of 28th February 1991 at the places where they were found at that time, provided they had not already been enumerated elsewhere.

COLUMNS 9, 10 and 11 : Population in the age group (0 - 6) :- The total number of children belonging to the age-group of 0-6 in the total population as also the number of males and females among them are reported under these three columns. This information is of considerable significance since all such children are regarded as illiterate at the 1991 Census.

COLUMNS 12 AND 13 : Scheduled Castes :- Number of males and females belonging to Scheduled Castes is indicated in these two columns. Whether a person belongs to a Scheduled Caste or not has been determined with reference to the List of Scheduled Castes in Karnataka according to the Scheduled Castes and Scheduled Tribes (Amendment) Order 1976 (Act No. 108 of 1976) (See Appendix). Scheduled Castes may belong to either the Hindu or the Sikh or the Buddhist religion.

COLUMNS 14 AND 15 : Scheduled Tribes :- Number of males and females belonging to Scheduled Tribes is reported under these columns. Whether a person belongs to a Scheduled Tribe or not has been determined with reference to the 'List of Scheduled Tribes in Karnataka' according to the Scheduled Castes and Scheduled Tribes (Amendment) Order 1976 (Act No.108 of 1976) (See Appendix for the list). Scheduled Tribes may belong to any religion.

COLUMNS 16 AND 17 : Literates :- Sex-wise break up of the total number of persons who are literate, irrespective of their levels of educational attainments is given in these two columns. By definition a literate is a person who can both read and write with understanding in any language. It is important to note that for purposes of the 1991 census by definition all children in the 0 - 6 age group are regarded as illiterate. Even if such a child is going to school and has picked up reading and writing a few odd words it is treated as illiterate.

COLUMNS 18 AND 19 : Total Main Workers:- A worker is a person who participates in economically productive work. The reference period for judging whether a person is a worker or not in the year preceding the day of enquiry. If a person had worked even for one day during this entire period he or she is entitled to be classified as a worker. If for any such worker the period of work is 183 days or more then that person is a main worker. On the other hand, if such period is less than 183 days then that worker is a marginal worker. In columns 18 and 19 the total number of main workers is furnished sex-wise and a sex-wise break up of these main workers according to the nine-fold 'industrial classification of workers' is presented in the next 20 columns i.e., from column 20 to column 39.

COLUMNS 20 AND 21 : Cultivators (Category-I) :- These two columns give out the number of male and female workers who satisfy the conditions laid down in the definition of a cultivator. A cultivator may be an employer, a single worker or an unpaid family worker. Participation in work may be by way of physical labour or by way of supervision and direction. The lands cultivated may be owned by the household or taken on lease for payment in money or kind or share in the produce. Cultivation, as already emphasised involves ploughing, sowing and harvesting and allied activities in the production of cereals and millet crops, pulses, raw jute and kindred fibres, sugarcane, tapioca and oil seeds.

COLUMNS 22 AND 23 : Agricultural Labourer (Category -II) :- A person who works in another person's land for wages in money or kind or share and does not have any lease or contract on the land on which he or she works is an agricultural labourer. In this case too, the crops grown on the lands are quite pertinent and the difference between a cultivator and an agricultural labourer lies in the fact that the former works on his own or leased in lands as an independent worker while the latter works for wages having no right whatsoever on the lands on which he works. The sex-wise break-up of such workers is given in these two columns.

COLUMNS 24 AND 25 : Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities (Category - III) :- A sex-wise break up of the workers who were mainly engaged in activities connected with livestock rearing, forestry

and logging, hunting, fishing, plantations, orchards etc., is given under these columns.

COLUMNS 26 AND 27 : Mining and Quarrying (Category - IV) :- A sex-wise break up of the workers mainly engaged in activities connected with mining and quarrying is given under these columns.

COLUMNS 28 AND 29 : Manufacturing, Processing, Servicing and Repairs - Household Industry (Category - V[a]) :- Household industry belongs to the broad category of 'manufacturing, processing, servicing and repairs' and represents a particular sector therein. Household industry is generally conducted by the head of household himself or herself and or mainly by the members of the household, at home or within the village in the case of those dwelling in rural areas and only within the residential premises occupied by the household in the case of those living in urban areas. A person may be a labourer or a petty employee in the household industry run by some other household. By and large the household industry is carried on by individuals on a small scale with or without the assistance of family members all of whom work as unpaid family workers and the entire earnings are treated as family income.

COLUMNS 30 AND 31 : Manufacturing, Processing, Servicing and Repairs - Non-household Industry (Category - V[b]) :- A sex-wise break up of the workers who were engaged in manufacturing, processing, servicing and repair activities in establishments which do not qualify to be classified as household industry as defined above {category V(a)} is given here.

COLUMNS 32 AND 33 : Construction (Category-VI) :- Workers engaged in construction, maintenance, upkeep, repair and similar activities of buildings, roads, railways, bridges, dams, canals, electrical and water supply installations, communication systems etc., are shown under this category.

COLUMNS 34 AND 35 : Trade and Commerce (Category - VII) :- In these two columns the number of male and female workers engaged in wholesale or retail trade in goods or engaged in dealing with insurance, stocks and shares, banking and financial institutions etc., either as proprietors or in any other capacity are indicated.

COLUMNS 36 AND 37 : Transport, Storage and Communications (Category - VIII) :- A sex-wise breakup of the workers in establishments such as railways, road transport, transportation by water-ways or by air, postal and telegraphs, telecommunications etc., which are engaged in transport, storage and communication activities is given in these columns.

COLUMNS 38 AND 39 : Other Services (Category - IX) :- This residuary category includes employees of the Central and State Governments, local bodies and other organisations and institutions engaged in educational, scientific, medical and health services, religious and welfare services, community services, recreational services, personal services and other miscellaneous activities not covered in the 8 categories specified above.

COLUMNS 40 AND 41 : Marginal Workers :- Males and females who are workers but have worked for less than 183 days during the reference year are reported under these two columns. Such workers, irrespective of the economic sector in which they work, are considered together and reported here.

COLUMN 42 AND 43 : Non-workers :- Irrespective of age and sex, all those who are not economically active are non-workers and a sex-wise break-up of such persons is given in these two columns. The aggregate of the main workers, marginal workers and non-workers would be equal to the total population of that unit.

NOTE 1 : The area figure for the district given under column No.4 against "Total" represents "Geographical Area" and has been furnished by the Surveryor General, India. The figures for the urban areas are either those supplied by civic administration authorities of the towns or compiled and supplied by the Director of Survey, Settlement and Land Records or compiled in this Directorate on the basis of the available records pertaining to the delimitation of urban units. Area figures for Rural Areas are derived by subtracting the Total Urban Area from the Total Area of the District.

The total of the area figures of all the C.D.Blocks/Taluks in the district will not tally with the district figures (except urban), because the area figures for C.D.Blocks/Taluks represent the land-use area based on village wise area figures as reported by the Local Officers. The total area of the taluk includes the area of the statutory as well as non-statutory towns within the jurisdiction of the concerned taluk. The total area of the C.D.Block is derived by subtracting the area of the statutory town or towns (within the jurisdiction of the concerned taluks) from the total area of the taluk.

2 : Outgrowths of towns in urban agglomerations are denoted by letter "OG".

3 : The following abbreviations have been used to indicate the Civic Administration Status of Town.

MC : Municipal Corporation
CMC : City Municipal Council
TMC : Town Municipal Council
NAC : Notified Area Committee
CB : Cantonment Board
SB : Sanitary Board
MP : Mandal Panchayat
NMCT : Non-Municipal Census Town

BELGAUM C.D. BLOCK

NOTE :

The following revenue villages of Belgaum taluk which had been assigned location code numbers have since been classified as outgrowths of Belgaum City.

L.C.No.	Name of the village
1	Belgaum
10	Matche
12	Peeranawadi
18	Benkanahalli
52	Kangrali (KH)
54	Kakti
56	Kangrali (BK)

Hence these villages do not find a mention in the alphabetical list of villages as well as in the PCA statement. This explains the gap in location code numbers noticed in the list of villages and the PCA statement of Belgaum C.D. Block. However these units appear in the urban category as part of Belgaum Urban Agglomeration.

62. Mahar, Taral, Dhegu Megu
63. Mahyavanshi, Dhed, Vankar, Maru Vankar
64. Maila
65. Mala
66. Mala Dasari
67. Mala Hannai
68. Mala Jangam
69. Mala Masti
70. Mala Sale, Netkani
71. Mala Sanyasi
72. Mang, Matang, Minimadig
73. Mang Garudi, Mang Garodi
74. Manne
75. Masthi

76. Mavilan
77. Meghval, Menghvar
78. Moger
79. Mukri
80. Mundala
81. Nadia, Hadi
82. Nalkadaya
83. Nalakeyava
84. Nayadi
85. Pale
86. Pallan
87. Pambada
88. Panchama
89. Panniandi
90. Paraiyan, Paraya
91. Paravan
92. Raneyar
93. Samagara
94. Samban
95. *Sapari*
96. Sillekyathas
97. Sindhollu, Chindollu
98. Sudugadu Siddha
99. Thoti
100. Tirgar, Tirbanda
101. Valluvan

SCHEDULED TRIBES

1. Adiyan
2. Barda
3. Bavacha, Bamcha
4. Bhil, Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave
5. Chenchu, Chenchwar
6. Chodhara
7. Dubla, Talavia, Halpati
8. Gamit, Gamta, Gavit, Mavchi, Padvi, Valvi
9. Gond, Naikpod, Rajgond
10. Gowdalu
11. Hakkipikki
12. Hasalaru
13. Irular
14. Iruliga
15. Jenu Kuruba
16. Kadu Kuruba
17. Kammara (in South Kanara District and Kollegal Taluk of Mysore District)
18. Kaniyan, Kanyan (in Kollegal Taluk of Mysore District)
19. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
20. Kattunayakan
21. Kokna, Kokni, Kukna
22. Koli Dhor, Tokre Koli, Kolcha, Kolgha
23. Konda Kapus
24. Koraga
25. Kota
26. Koya, Bhine Koya, Rajkoya
27. Kudiya, Melakudi
28. Kuruba (in Coorg District)
29. Kurumans
30. Maha Malasar
31. Malaikudi
32. Malasar
33. Malayekandi
34. Maleru
35. Maratha (in Coorg District)
36. Marati (in South Kanara District)
37. Meda
38. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
39. Palliyan
40. Paniyan
41. Pardhi, Advichincher, Phanse Pardhi
42. Patelia
43. Rathawa
44. Sholaga
45. Soligaru
46. Toda
47. Varli
48. Vitolia, Kotwalia, Barodia
49. Yerava

Appendix III - PUBLICATION PLAN

The 1991 Census tables will be published in 33 separate series of volumes for All - India and for each State and Union Territory. The publication series is as follows:

Series No

1. India

In each of these series (for all - India and each State/Union Territory) the different series of tables (A Series - General Population Tables, B - Series - General Economic Tables, etc.,) will be brought out as different Parts. Apart from these, District Census Handbooks will be published for each district in the country. These will contain the PCA data for the district, the village and town primary census abstract and the village and town directories. The latter comprise compilations of statistics, external to census relating to the villages and towns, which in conjunction with census data will be very useful to data users.

For all - India and for each State and Union Territory, the census tabulations and reports will be published according to the following plan:

Part No. and subject covered	Sub-part No. if any, and the topics covered
1	2
Part I - Administration Report (for Office use only)	Part I-A - Administration Report Enumeration
	Part I-B - Administration Report Tabulation
Part II - General Population Tables	Part II-A - General Population Tables - A-Series
	Part II-B - Primary Census Abstract
Part III - General Economic Tables	Part III-A - B-Series tables of first stage which will be brought out on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
	Part III-B - B-Series tables of second stage which will be brought out on full count. The data relating HHI, OW, Marginal Workers and Non-workers seeking/available for work will be entered on full count basis.
Part IV - Social and Cultural Tables	Part IV-A - C-Series tables of first stage covering age, sex and marital status, composition of population, single year age returns, educational levels, school attendance and bilingualism.
	Part IV-B - C-Series tables covering mother tongue, religion of population and household composition.

Part V - Migration Tables	Part V-A - D-Series tables of first stage covering tables based on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories. Part V-B - D-Series tables of second stage covering occupational classification of migrant workers. These tables are based on full count.
Part VI - Fertility Tables	F-Series tables of first stage which will be brought out on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
Part VII - Tables on Houses and Household Amenities	H - Series tables covering census houses and the uses to which these are put, construction material of wall, roof and floor of the census houses occupied by households, tenure status of the house occupied and number of living rooms, household size, housing facilities like drinking water, electricity and toilet available to households and the fuel used by the household for cooking. These tables will also cover tables on Scheduled Castes and Scheduled Tribes. This volume will contain analytical notes also.
Part VIII - Special Tables on Scheduled Castes and Scheduled Tribes	This part will contain SC and ST series of tables for Scheduled Castes and Scheduled Tribes respectively. The data relating to Scheduled Castes and Scheduled Tribes will be entered on full count basis in the third stage and SC/ST tables will be processed on the computer on full count. These will cover population of each Scheduled Caste/Tribe, industrial categories of main and marginal workers, non-workers seeking/available for work and those who never worked before, educational level, school attendance, age, sex and marital status, composition of Scheduled Castes and Scheduled Tribes. In addition to these, the fertility tables relating to SC/ST are also covered. These tables also cover for Scheduled Tribes, their composition by religion, mother tongue and bilingualism.
Part IX - Town Directory, Survey Report on Towns and Villages	Part IX - A - Town Directory Part IX - B - Survey Report on selected Towns Part IX - C - Survey Report on selected Villages Ethnographic notes and special studies on Scheduled Castes and Scheduled Tribes

Part XI - Census Atlas	Union and State/Union Territory Census Atlases
Part XII - District Census Handbook	Part XII - A - Village and Town Directory
	Part XII - B - Village and Town wise Primary Census Abstract

The following special papers are also planned and will be published as and when they are ready as 1991 Census papers :

(a) Special studies taken up by the Directors of Census Operations

(b) Special Areas Surveys

(c) Special Tables for Standard Urban Areas

(d) Language Survey Reports

(e) Post Enumeration Check Report

(f) Age Tables

(g) Life Tables

(h) Reports on estimates of inter-censal birth and death rates using 1981-1991life tables and age data

(i) Development of Vital Statistics in India

Besides these special papers, some monographs based on 1991 Census data on subjects of topical interest to be prepared by scholars will be brought out as 1991 Census monographs.

It is also proposed to carry out some special studies of 1991 Census data in collaboration with other organisations and the results of such studies will be published as occasional papers of the 1991 Census.

It is also proposed to disseminate census tabulations and the basic data in machine readable forms such as magnetic tapes, diskettes, floppies, etc.

The District Census Handbooks will be available for sale at the Government Central Press, Bangalore and the other publications at the Office of the Director of Census Operations, Karnataka, Bangalore and the Manager of Publications, Civil Lines, New Delhi - 6.
