INTRODUCTION

District Barnala.

Physical Aspects.

(*a*) *Name and derivation.*

The present-day Barnala district comprises the erstwhile Malerkotla State, a part of erstwhile Patiala and Nabha State and some area transferred to it from the Ludhiana district (40 villages covering an area of 125.63 square miles). The district takes its name from its headquarters' town Barnala, "refounded in 1722 by Baba Ala Singh, Raja of Patiala, it remained the capital of the State until the foundation of the town of Patiala in 1763, and the hearths of its founder are still revered by people." I

(*b*) *Boundaries and area.*

The district is bounded as below :—

North	...	Ludhiana district.
South	...	Bhatinda and Sangrur districts.
East	...	Patiala and Fatehgarh Sahib districts.
West	...	Bhatinda district.

The district is situated between 30° 06′ 40″ and 30° 40′ 50″ North and 75° 06′ 30″ and 76° 07′ 55″ East.

From the point of view of population it stands 3rd, and from the point of view of area it stands 5th among the eight districts of the Patiala and East Punjab States Union.

The entire area is an alluvial plain without any river or streams in it. The soil of the eastern part is loamy while as one proceeds to the west the soil gets more and more sandy.

Geology.

There is no importance of the area from the geological point of view.

STATEMENT EXPLAINING THE TABLES APPEARING IN A DISTRICT CENSUS HANDBOOK.

In the 1951 Census, in addition to the sorting of the slips to produce the tables, essential Census information relating to every person enumerated in every village and every town/ward has been incorporated in a National Register of Citizens which has been preserved as an unpublished administrative register for purposes of reference during the inter census decade.

Some changes have been made between the procedures for tabulation adopted at the 1931 and earlier censuses and at the present census. These are explained below :—

1. SUBSTITUTION OF ECONOMIC CLASSIFICATION FOR CLASSIFICATION BASED ON RELIGION :—

In the past, Census slips were, at the very out set sorted on the basis of religion, and the figures of population by religion thus obtained were the basis of village statistics. The separation of slips by religion and sex was maintained throughout the sorting operation ; and thus certain Census characteristics were cross tabulated by religion. During the present census, the slips have been sorted in the first instance, into the following eight livelihood classes of the population :—

AGRICULTURAL CLASSES.

I. **Cultivators of land wholly or mainly owned and their dependants.**

II. **Cultivators of land wholly or mainly unowned and their dependants**

III. **Cultivating labourers and their dependants.**

IV. **Non-cultivating owners of land ; agricultural rent receivers and their dependants.**

NON-AGRICULTURAL CLASSES.

Persons (Including dependants) who derive their principal means of livelihood form :—

V. **Production other than cultivation.**

VI. **Commerce.**

VII. **Transport.**

VIII. **Other services and miscellaneous sources.**

The resulting figures have been given in the Primary Census Abstracts which serve as the basis for village statistics.

2. THE CONCURRENT 10% SAMPLE.

The Age (Sample) Tables have been prepared from the enumeration slips by taking a 10% sample, out of the population excluding the displaced persons. Separate figures for displaced persons are given in the Handbook in all important tables.

3. PRESERVATION OF CENSUS RECORDS OF REGISTERS

In the past, the abstract (first prepared in the process of sorting and compilation) was used for compiling village statistics, which were retained as unpublished administrative records by same States and printed and published by others. At the present Census, the following *data* are included in the District Census Handbook and printed and published as such :—

i. **Introduction to the District Census Handbook.**

ii. **District Census Tables (furnishing district *data* with break up for Census tracts, within the district).**

iii. **Census Abstracts : (a) Primary Census Abstracts (b) Occupational Abstracts and (c) census abstracts of Small Scale Industries.**

The following tables have been included in the Handbook.

A. GENERAL POPULATION TABLES.

1. Area, Houses and Population.

(The area figures in this table have been supplied by the Deputy Commissioner of the district and hence do not tally with the area figures maintained by the Survey Department : No. of houses are those which were found to be occupied at the time of house numbering by the revenue staff ; un-occupied houses do not figure in the table.)

VARIATION IN POPULATION DURING FIFTY YEARS.

II. (The population figures given in this table for the previous censuses have been adjusted, taking into consideration the adjustment of enclaves during the period 1941-51. Population of area transferred to and/or from each tahsil have been added to or substracted from the population of that tahsil for the census 1901 to 1941.

III. Towns and villages Classified by Population.

IV. Towns Classified by Population with Variation Since 1901.

V. Towns arranged territorially with Population by Livelihood Classes.

(In this table figures for livelihood classes I to III have not been given separately but have been clubbed together.)

B. ECONOMIC TABLES.

I. Livelihood Classes and Sub-Classes.

(Non-earning dependants in this table mean economically passive persons *i. e.* who do not earn anything; and earning dependants implies a person who is semi-active, *i. e.* whose earning do not suffice his living and who has, therefore, to depend upon others; Self-supporting persons mean economically active persons *i. e.* who do not depend upon others, and are at least able to maintain themselves.)

II. SECONDARY MEANS OF LIVELIHOOD.

Non-earning dependants do not have secondary means of livelihood. An earning dependant is maintained partly by the income of some other person and partly by his own; the source which gives him some income is taken to be his secondary means of livelihood for purposes of this table. A self supporting person may have more than one means of livelihood in some cases; the second best source of income has been given in this table as his secondary means of livelihood.)

III. EMPLOYERS, EMPLOYEES AND INDEPENDANT WORKERS.

(The self supporting persons in non-agricultural classes have been classified in this table as Employers, Employees and Independant workers and are distributed in the various Divisions and Sub-divisions of Industries and Services. The fly-leaf of this table gives the number of self-supporting persons who are economically passive *e. g.* persons living principally on pensions, remittance, scholarships and fund, inmates of jails, asylums, almhouses and beggars and vagrants. To economise paper and labour no space has been provided in the table for those divisions and sub divisions in which no self supporting persons fall.)

C. HOUSE-HOLD AND AGE (SAMPLE) TABLES.

I. Household (size and composition). This table has not been published in the handbook.

II. Livelihood Classes by age Groups.

III. Age and Civil Condition.

IV. Age and Literacy.

V. Single year age-returns. (Infants below 1 year of age have been shown under the age " 0 ".)

D. SOCIAL AND CULTURAL TABLES.

I. Language. This table has not been published in the handbook.

II. Religion.

III. Scheduled castes and tribes. (The fly-leaf of this table gives the number of Anglo-Indians which have been included in the figures of Christians in Table D-II).

IV. Migrants. (The fly-leaf of this table gives the number of people born in countries outside India but enumerated in this district.)

V. Displaced persons. (For Census purposes, a displaced person was taken to mean any person who has entered India having left or been compelled to leave his home in Western Pakistan on or after the 1st March, 1947, or his home in Eastern Pakistan on or after the 15th October, 1946, on account of civil disturbances or the fear of such disturbances or on account of the setting up of the two Dominions of India and Pakistan. But some persons, who had migarted to India from Western Pakistan even before 1st March, 1947, returned themselves as diplaced persons at the time of census taken for the simple reason that they had left their immovable property in Pakistan : such persons have also been included in the defination of 'Displaced Person'

VI. NON-INDIAN NATIONALS.

(This table was not prepared in the previous censuses ; it has been based on a suggestion made by the U. N. population Commission.)

VII. LIVELIHOOD CLASSES, BY EDUCATIONAL STANDARDS.

(This table is also new and is designed to show the distribution of educated man-power among the different livelihood classes.)

SUMMARY FIGURES BY DISTRICTS.

(This table furnishes selected *data* by Tahsil/tract in the district. The area figures given in this table have been furnished by the Deputy Commissioner of the district and the 1941 population figures has been given after giving effect to the adjustment of enclaves.)
