JODHPUR:
PRINTED AT THE GOVERNMENT PRESS
1956

# PREFACE

The Census Reports in olden times were printed one for the whole Province of Rajputana and another for Ajmer–Merwara. Some of the Principal States now merged in Rajasthan published their own reports. This time the State Census Reports have been published in the following volumes: —

1. Part I A .. Report.
2. Part I—B .. Subsidiary Tables and District Index of Non-Agricultural Occupations.
3. Part I—C .. Appendices.
4. Part II—A .. General Population Tables, Household and Age Sample Tables, Social and Cultural Tables, Table E Summary Figures by Administrative Units, and Local 'KA' Infirmities.
5. Part II—B .. Economic Tables.

They contain statistics down to the district level.

The idea of preparing the District Census Handbook separately for each district was put forward by Shri R. A. Gopalaswami, I. C. S., Registrar General, India, and ex-officio Census Commissioner of India, as part of a plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the district census tables and census abstracts prepared during the process of sorting and compilation should be bound together in a single manuscript volume, called the District Census Handbook, and suggested to the State Governments that the Handbook (with or without the addition of other useful information relating to the district) should be printed and published at their own cost in the same manner as the village statistics in the past. In accepting, this suggestion, the Government of Rajasthan decided to print and publish the more important portion of statistical data relating to the district and to preserve the rest of the records in a manuscript volume for any future use, to which they may be put.

This Handbook contains five General Population Tables of A Series, three Economic Tables of B Series fi e Household and Age Tables of C Series, seven Social and Cultural Tables of D Series, one table E giving summary for the district and tehsils, a local table 'KA' showing infirmities by a e groups and an Index of Non-agricultural Occupations. Each table contains an explanatory note necessary for the proper understanding of the figures. The numbers given to the tables in this Handboo correspond to those given in State Census Reports.

Village I irectories were published for the first time in 1931 by a few States of Rajputana. The example was followed by all the States in 941. They contained for each village the population figures by religion and also some other useful information. They were bound in a volume one for each State. This time the Village Directories are also incorporeted in this Handbook under the name of "Primary Census Abstract and Village Directory" which show the basic population figures separately for each village or town-ward classified by livelihood classes instead of religion and also some information of general nature.

Opportunity has been taken to put in a short introductory note detailing the salient points connected with the district, such as the physical features, climate, rainfall, irrigation and drainage facilities, roads and other communications, agriculture education, industries and other matters of general interest. The information contained in the introductory note is based on the material furnished by Collectors of districts and Departments of Government.

In addition to the above, some figures of general interest and arreview of population figures have also been incorporated.

The scheduled date for the publication of the Handbooks as prescribed by the Registrar General, India was "Not later than March 1952" but practical experience showed its publication by that time an impracticability. Even the compilation of the tables together with its final touch could not be completed by that time. Then came the question of printing which proved to be a huge task. There 25 districts in Rajasthan and 1 in Ajmer. The total number of printed pages turned out to be nearly 9,000. The Government Presses were

already over-burdened with the printing work of other departments and in the printing of Census Publications priority was given to Central Government Publications *i. e.* the State Census Reports. The result was that till March, 1954, for 14 out of 26 districts the P. C. A. and Village Directory could not be printed especially because the press had no stock of small type which was essential for their printing. It was, therefore, decided to publish the Handbooks in two volumes Part I, consists of Introduction, a brief review of population figures and;

1. General Population Tables (A—I to A - V),

2. Economic Tables (B—I to B—III),

3. Household and Age (Sample) Tables (C—I to C—V),

4. Social and Cultural Tables (D—I to D—VII),

5. E—Summary figures by Administrative Units,

6. Local Table 'KA' Infirmities, and

7. District Index of Non-Agricultural Occupations.

Part II contains only Primary Census Abstract and Village Directory.

The Handbooks of the Ajmer, Sirohi and Jhalawar Districts are however being published in one volume, because they have been completed by this time.

While every care has been taken to ensure the correctness of figures and village names, certain mistakes might have crept in. I shall be grateful if they are brought to my notice.

Y. L. Dashora

# BARMER DISTRICT

## INTRODUCTION

### Physical Aspects

**(a) Position, Area and Boundaries.**

1. This district comprises of four tehsils grouped into 2 sub-divisions of (1) Barmer and (2) Balotra. The first includes the tehsils of Barmer and Sheo, the second, the tehsils of Pachpadra and Siwana. It is situated in the south-west of Rajasthan, between north latitude 70°.5′ and 72°.5′ and east longitude 25°.4′ and 26°.2′. It is bounded on the north by Jaisalmer and Jodhpur districts, on the east by Jodhpur, Pali and Jalore districts, on the south by Jalore district and on the west by Pakisthan (Sindh). The total area of the district is 9,734 square miles, according to the Surveyor General of India.

**(b) Configuration.**

2. The district is a part of the Thar Desert of which it has been said, "there are more spears than speargrass heads and blades of steel grow better than blades of corn". The district generally is sterile, sandy and inhospitable. The salient features of the country are the sand hills, which in some places rise to an altitude of three to four hundred feet, the northern and western portions form part of the desert stretching to Sindh and Jaisalmer. The country here resembles an undulating sea of sand; an occasional oasis is met with, but water is exceedingly scarce. There is a small off-shoot of the Aravallies in the east; the highest being Chhapan-ka-Pahar near Siwana (3,129 feet). the tehsils of Barmer (commonly known as Mallani) and Sheo are a dreary waste covered with sand hills of all shapes and sizes.

**(c) Rivers.**

3. The only river in the district is the Luni which enters the district in tehsil Siwana and passing through Pachpadra and Barmer Tehsil pursues, its tortuous course of about 80 miles, till it passes into Jalore District and thence to the Rann of Cutch. In heavy floods, which occur however, very rarely, to which local name *Rel* is given, the crops of wheat, gram and barley, sown on the thus saturated soil are abundant after the rains, generally speaking, the water found in the bed of the Luni and in the wells along its banks is sweet and aburdant, but the stream is as capricious as it is erratic. On one bank it may be a blessing; on the other a curse; this is seen in the two villages in the Gura estate; one bank is rich with crops and the other is arid and hard. On one bank the stream flows over sand and the water is sweet, on the other, over a hard bottom and is brine. The important villages situated on the Luni are Jasol, Sindhari and Nagar.

**(d) Lakes.**

4. There is no lake in this district. Small collections of water, locally known as '*pars*' are used for bed cultivation of wheat after heavy rainfall. When the beds are dried, wells are dug to the depth of 8 to 24 ft.

**(e) Geology.**

5. Fuller's earth, existing in beds 20 to 80 ft. below the surface is found in villages Kapurdi, Alamsariya about 14 and 7 miles respectively from Barmer town. Sand-stones and conglome-rates with traces of fossil leaves occur at Barmer and specially within the fuller's earth.

**(f) Botany.**

6. There are no trees in this district except the common ones such as *Kair*, *Khejra* (Prosopis spicigera) *Rohira* (Tecomma Undulata), Kumat, *Jal*, *Ber* (Zizyphus jujuba), *Babul*, *Phog* (Calligonum), *Ak* and *Nim*, which are considered the bounties of nature and are made the best use of, in every way. They are used both as medicine and as food. The varieties of grasses found are *Bhurut*, *Siwan*, *Duria*, *Murath*, *Sania*, and *Khimp*, the first three are grazed by the cattle and the pod of *Bhurut* is also used by men, its flower is prickly and gives rise to a proverb '*Bhurut Lagela*' which means to set a quarrel. The last three are used for thatching purposes.

**(g) Fauna.**

7. Wolves, jackals and foxes; are common, leopards are rare, pigs are occasionally seen. The deer abound on the banks of the rivers. Ravine deer are seen here and there, and antelope only in the vicinity of Jasol; hares are not numerous. Among game birds are the large bastard, the grey partidge, the grey quail, and the painted sandgrouse. There are no fish in this district. Barmer is famous for its horses specially of Nagar and Gura breed Good cows are also some times available.

**(h) Climate and Rainfall.**

8. The climate is dry but healthy, strong hot winds blow in the months of April, May and June but the nights are fairly cool; and after the first showers of rains the climate becomes pleasant. The droughts are very common, but blights are rare. The average annual rainfall is 7 to 11 inches. Vide Appendix 'A'.

**(i) Underground water level.**

9. Water is found some 200 to 300 ft. below the surface. It is usually brackish and in some places poisonous to men and cattle to which *Palar* (rain water) alone acts as an antidote. The rain water which is collected in *nadis* or small tanks is generally used upto March, but when the drinking water becomes scarce or poisonous the people are put to a great inconvenience. They have then to fetch water from 4 to 5 miles distance on carts and camels.

## II. History.

10. There is no separate history of the three tehsils, *viz.*, Sheo, Pachpadra, and Siwana, the history of Jodhpur is their history. Barmer Tehsil is of historical importance; it justly claims to be cradle of the Rathor race in Rajputana. In the beginning of the thirteenth century, Rao Sihaji and his son Asthanji having conquered Kher (now a ruined village near Jasol) and the adjoining tract called Mevo from the Gohel Rajputs, planted the standard of the Rathors amid the sand hills of Luni. The eighth in succession from Sihaji was Rao Salkha, in whose time, about the middle of the fourteenth century—a separation took place. Salkha had three sons, Mallinath, Viramdeo and Jetmal. A portion of the tribe followed the fortunes of Viramdeo whose son Chonda captured Mandore from Parihar Rajputs in 1381 and whose descendants ruled first there and subsequently at Jodhpur, the rest remained on the banks of the Luni with Salkha's eldest son Mallinath, after whom this part began to be called Mallani.

11. Succession being by the law of equal partition, the country became minutely sub-divided among the descendants of Mallinath, and the dissensions and blood-feuds thereby created, offered the chiefs of Jodhpur opportunities to interfere and establish their over lordship. The district was for centuries one continual scene of anarchy and confusion and the inhabitants were described as, "more savage and lawless than the neighbouring Khosas of the desert"; the Jodhpur Darbar when called upon to repress their excess, expressed their inability to do so; under these circumstances it became necessary for the British Government to occupy Mallani in 1836 and restore order by reducing the principal Thakurs. The territory was subsequently held in trust by the British Government, the rights of the Jodhpur Chief being recoginsed and, as the Darbar gave increasing evidence of sound administration, its jurisdiction was gradually restored to the Jodhpur Darbar, namely military in 1845, Civil in 1891 and Criminal in 1898.

12. Before the formation of the Rajasthan State this district formed part of the Jodhpur State, all the four tehsils were called Hakumats, and the Hakim of each Hakumat was directly under the control of the Government ( Council of State ) for executive duties and under the High Court for civil and criminal work.

**Historical & Archaeological places & Monuments.**

13. The ruins of many ancient magnificent temples at Kher, Nagar ( Jasol ) Juna, Kheraru and Chohtan in a half delapidated state remind the visitor of the architectural skill and grandeur of the bygone years.

**Ruins of Kheraru.**

14. Two miles towards the south, there lie, in the tangle of woods, the mouldering remnants of the ancient city of Kheraru, which had once been the capital of Punwars. The signs of human habitation are found near and far, in as much as the people regard village Sivani itself to be one of its streets. The ruins of 3 or 4 temples commemorate the past glory of Kheraru, their columns exhibit to view their architectural skill and artistic workmanship. There are some inscriptions on these monuments of the bygone ages, which unfortunately are worn out and impaired by the hands of time like the columns themselves but still they reveal some history of their times.

15. In one of the temples, which is the first sight to encounter a traveller from Siyani, and which surpasses all others in the beauty and finish of its architecture, there are 4 inscriptions, but none of them is complete in itself.

## III. The People

**Towns & Villages.**

16. There are 3 towns and 771 villages in this district (In tehsil Barmer 503, in Sheo 74, in Pachpadra 105 and in Siwana 89). dialect exist in the Barmer and Balotra towns only.

**Language.**

17. The principal language of this district is Marwari, a dialect of Rajasthani. Other dialects are Bagri ad Dhundhari (Jaipuri); Sindhi and Panjabi are spoken by immigrants who have settled as displaced persons.

**Religion.**

18. The majority of the Hindus are Shaktas but Shevites and Veshnuies also are found in some portions. Alamji as well as Bankal Mata and Pabuji are held in great veneration and temples dedicated to them are found in different parts of the district. The Joshis are worshippers of Balark (Sun). Jain temples are also seen here and there. The stone slabs representing Goga (Snake) are also common as the proverb goes "*Goga ne Khejri Gaon Gaon.*"

**Dress.**

19. The males generally wear Dhotis with one corner untastened, *Bandi* *Kamri* (a sort of half Angarkha) and *Potia* (a sort of turban). The females use *Ghagra* (petticoat) *Kanchli* (bodice) and *Orni* over the head with which the body is also covered. The village people are neither clean in dress nor in appearance because water is scarce as the proverb goes "*Dhol Dhamaka Pani nikle andh Kunwan; Jita Minkha Bhuten Jera bina hi munwan*" (the water in wells is too deep and the men look like ghosts even while alive).

**Dwellings.**

20. There are some Pacca houses in Jasol, Barmer, Balotra, Pachpadra, Siwana, Mokalsar, Khandap, Bisala, Nagar and Gudah but elsewhere the mud houses with thatched roofs or beehive shaped huts are mostly seen. In the western part, where the Sindhis reside, even huts are rare. If a Sindhi be questioned about not building any dwelling, he would say "*Do din ki zindgi ke waste kiyun jhonpri banain*" (for a transient life, should a hut be made) although as a matter of fact they enjoy more longevity than others. In the house numbering of recent Census the numbers were marked on the grinding stones (*Ghatti*), *Ralis* and other torn pieces of cloth. The people generally live in outlying settlements called *Dhanis*, which are collections of mud huts in the jungle or in the confines of a village near a well or pool.

**Rituals on Marriages and Deaths.**

21. The marriage ceremonies of Hindu and Mohamedans of this district are performed according to their usual customs; the expenses are kept very low. Widow marriage among Hindus is allowed in the low classes and Natayat Rajputs only. The Hindus mostly cremate their dead. The Mohamedans always practice inhumation.

## IV. Economic

### (a) AGRICULTURE

**General Condition.**

22. The area is mostly a sandy tract improving gradually from a mere desert in the west to comparatively fertile land along the eastern border. The tehsils of Barmer and Sheo consist of "Dhora" which is made up of coarse ground which consists of a very poor kind of soil and requires frequent rest. The area is truly speaking a pastoral agricultural area where people mostly rear cattle and also cultivate land. Both the crops depend upon monsoon. If the rainfall is abundant the Luni river overflows its banks and wheat is grown in Rabi. In a considerable portion of the district there is only one harvest, the Kharif (called Sawnu) and the principal crops are *Bajra, Moth* and *Gwar*. Some portion of Siwana tehsil is a double cropped area where wheat and barley are also grown in Rabi or Unhalu Crops. For the Kharif crop, ploughing operations begin with the first fall of rains. Either a camel or a pair of bullocks is yoked to each plough but sometimes donkeys or buffaloes are also used. The main agricultural classes are Jats, Kalbis, Brahmins, Purohits and also to some extent Rajputs and Mahajans.

**Agricultural Statistics.**

23. Agricultural statistics are available for a portion of Khalsa area, ( *i.e.*, land paying revenue direct to the State) measuring 489 sq. miles. Of this 132 sq. miles were cultivated in 1950 as shown below:— *Bajra* 89 sq. miles, *Jawar* 3 sq. miles, Wheat 4 sq. miles, *Til* 5 sq. miles and Barley 31 sq. miles.

**Banking facilities.**

24. The general condition of the agriculturists is fairly good. There is very little indebtedness among them. The village Baniya is their banker at the time of need. There are nine Co-operative Societies in this district and the Sub-Inspector of the Co-operative Department is stationed at **Barmer.**

**Live-Stock.**

25. The main wealth of this district consists of large herds of camels, cattle or flocks of sheep, which roam over its sandy wastes and thrive admirably in the dry climate. The best riding camels come from Sheo and are known as Rama Thalia; they are said to cover 80 or even 100 miles in a night, their prices range from Rs. 800/- to 1200/-. Barmer is remarkable for its breed of milch, cows and horses. The latter are noted for their hardiness and ease of pace. The best bread of horses, is found in Nagar and Gura. There is a veterinary hospital at Barmer.

**Fairs.**

26. The following fairs are held in the district:—

**Tehsil Barmer.**

**(i) Tilwara Fair.**

Tilwara is a celebrated name in the history of **Mallani.** It lies 10 to 12 miles to the north-east of Jasol and 2 miles from Tilwara Station on the banks of Luni River. The temple in which the effigy of Mallinath is carved on a stone is the principal object of adoration. A fair called *Chaitri ka Mela* in the month of *Chait* is annually held for about a fortnight. Many bullocks, camels, horses etc., change hands and the attendance is usually larger than at any other fair in Marwar. Rawal Mallinath the "devinity of the Mallani" is the patron God of the Rathors. Traders come from far and wide to make purchases. The Tehsildar Barmer collects the revenue of the fair on behalf of the Government.

**(ii) Nakora Parashnath.**

Village Nagar lies about 6 miles from Balotra to the east of Jasol at the feet of the hills, which surround it like a natural wall. This Mela is held on *Posh Badi* 10 every year to celebrate the date of birth of Parashnathji a Tirthankar of Jains. There are 3 jain temples dedicated to Parashnathji, Shantinathji and Adeshwar Bhagwan (Rikhabdeoji). It is attended by thousands of Jains from all parts of India. The management of the temple is in the hands of a Committee called "Shri Sangh". There are proper arrangement for the accomodation etc., of the pilgrims visiting the place.

**(iii) Kapleshar Bishen-pagalia Suiya Fair.**

This fair is held at Chohtan, 32 miles from Barmer on the Somvati Amavshya day. In a valley in one of the hillocks over-hanging Chohtan there is a temple of Kapleshar Mahadeva and a pond of water called Kapal-tirath. The temple was a fine edifice but it is now in ruins. A mile ahead Kapaleshwar high up in the mountains there is another holy place called "Bishan Pagalia", there is a white stone with the foot-prints of a man on it, which are believed to be those of *Vishnu Bhagwan.* In another valley about half a mile from the houses of Jagirdars is a place called Suiya where there is a temple of Mahadeo. At all these three places, there are springs (*Jharnas*) of water. Pilgrims from far and near visit this place at the time of the fair, stay there for a day or two and go round all the three places and sprinkle the holy water of these *Tiraths* on their body.

**Tehsil Siwana.**

**(i) Panch Tirthi.**

There are five places, *viz* , Devanadi, Goda, Sharkeshwar, Haldeshwar and Hinglaj, where there are Hindu temples of Mahadeoji etc. People go round all the five places. All these places are situated on the hills called Chhapan Ka-Bhakar.

This is held in the Siwana fort on *Sawan Sud* 2 every year in memory of the hero who saved the fortress from annihilation during Moghal period.

**(ii) Kalyan Singhji ka Mela.**

**(b) Rents, Wages & Prices.**

27. The rates of rent in Sewaj soil are 1/4th, 1/5th or 1/6th share, and those in the Thal area, where *Bajra, Mung* and *Moth* are grown are 1/6th, 1/7th and 1/8th of the produce. A fixed sum is sometimes recovered from Rajput cultivators for land cultivated by one *Hal*. At present the wage of an unskilled labourer is Re. 1/4/– per day. The prices of the chief grains are; *bajra* Rs. 16/– to Rs. 20/-per maund, wheat Rs. 22/- to Rs. 27/- per maund.

**(c) Forests.**

28. There is no forest in the district and the only forest tree found is *Khair* ( Acacia catechu).

**(d) Mines and Minerals.**

29. There is no mineral in this district except fuller's earth which is found in abundance in Kapurdi, Alawsariya 14 and 7 miles respectively from Barmer. This is used for washing the hair and when mixed with macerated paper is utilised for making small utensils.

**(e) Industry.**

30. This district is famous for its salt lake of Pachpadra. This is one of the biggest industries which is run by the Government of India. The Salt Lake has an area of about 10 Sq. miles and unlike that at Sambhar, is not dependent on the rainfall for the production of salt, as the brine springs are perennial. The yearly out-turn is about 35,000 tons. The method of manufacture is peculiar to the locality. Pits of an average length of 280 feet with their banks sloped to an angle of 45° are dug in the bed to a depth of about 11 feet until the subterranean springs of brine have been tapped, and these become filled to a depth of about 3 feet with a strong brine. Crystallisation is promoted by throwing branches of the thorny *Morali* (Lyim europaeum) into the pits as soon as the formation of an overset of salt indicates that precipitation has commenced. During the great heat of April, May and June the evaporation of the brine is rapid and as this proceeds and salt is precipitated, more brine flows in until the pit is filled with salt to a depth of about 3 feet which takes place in two years. The salt is then ready for removal and having been cut out in sections the crystals are shaken off the thorny branches and stored in oblong heaps on the bank. The out-turn from a pit averages about 370 tons every second year, and crop after crop is thus obtained. Almost all the salt manufactured here is removed by the Northern Railway, which has a branch line running from Balotra to the works. The other industries are as follows:—

**(i) Ghee Industry.**

Barmer is a centre of *ghee* and has got a very big and flourishing market from where supply of *Ghee* is made to practically all the area of the covenanted State of Jodhpur, which now forms a division of Rajasthan.

**(ii) Hand-printings and Hand-dyeing Industry at Barmer and Balotra.**

The printed cloth from this district had formerly a very big market in Sindh, but since the partition of India the industry now practically is on its last legs, as the printed cloth cannot now be exported to Pakistan.

**(iii) Weaving Industry**

Weaving is an important branch of the ordinary village industry, but nothing beyond coarse cotton and woollen cloth is adapted, the principle manufactures are cloths mixture of cotton and wool; woollen blankets, small rugs of camel hair and horse and camel saddlery.

**(f) Trade and Commerce.**

31. There are no weekly market days. The most flourishing markets in the district are as follows:—

Barmer for *ghee* and hand-dyed and hand-printed cloth Balotra for hand-dyed and hand-printed cloth, Baitu for *ghee*. For wool, there is no market in the district. It is available both from Barmer and Sheo tehsils at a number of villages.

**(g) Means of Communication.**

32. Railway runs through the district from Ajit in Siwana tehsil right upto Munabao in Sheo tehsil on Pakistan border. There is a branch line from Samdari upto Kaniwara which passes through Siwana tehsil upto Mokalsar. There is also a branch line from Balotra to Pachpadra salt lake passing through Pachpadra town, which is the headquarters of the tehsil of the same name. The names of railway stations in this district are given in Appendix B.

The following Bus Services run in the district:—

1. Barmer to Khundal, via Sheo.
2. Barmer to Chohtan.
3. Barmer to Guda.
4. Balotra to Madpura.
5. Balotra to Sindhari Guda
6. Balotra to Mokalsar, via Siwana.
7. Munabao to Pakistan Border.
8. Samdari–Khandap–Bhadrajan.

33. There is no metalled road in the whole of the district; however, there are gravel roads as below: —

1. Barmer to Khundal, via Sheo.
2. Barmer to Jodhpur, via Sheo and Shergarh.
3. Barmer to Chohtan, (still incomplete).
4. Balotra to Madpura, via Pachpadra—connects Jodhpur–Shergarh Road.
5. Balotra to Sindhari.
6. Balotra to Mokalsar via Siwana.

The total mileage of the gravel roads is 278. The only Dak bungalow in the district is at Siwana. The only conveyance available in the district is camel. There are no public conveyances such as horse carriages or motors; bullock carts as public conveyance is used in some parts of Siwana and Pachpadra tehsils.

**(h) Telegraph and Post Offices.**

34. There are post offices at Barmer and Balotra and branch post offices at Jasol, Baitu, Kavas, Ramsar, Utarlai and Jasai in tehsil Barmer, Gadra Road, Gunga Lilma and Sheo in Tehsil Sheo, Pachpadra city, Patodi, Parlu, Janiyana and Pachpadra Salt Lake in Pachpadra tehsil and Mokalsar, Samdari and Siwana in Siwana tehsil. There is a trunk telephone exchange at Barmer and also at Balotra along with telegraph offices.

**(i) amines.**

35. In every 10 years, seven years are famine years in the district. A local proverb tells one to expect "One leap year in three and one famine year in eight" and it has proved true. The famine of 1939–40 was one of the severest on record. For the last three years, there has been acute famine in the district with the result that a number of cheap grain shops had to be opened and also a number of famine relief works were started. The total amount spent on famine relief works in 1950 is Rs. 1,75,735/—.

**(j) Flood.**

36. Balotra town, which is surrounded on four sides by Luni River is always in danger of floods whenever there are heavy rains and the river is in spates.

## V. Administration

**General Administration.**

37. After the formation of Rajasthan the former Hakumats were converted into tehsils. The Collector who is also the District Magistrate is the head of the administration with Barmer town as his headquarters. The district is divided into four tehsils, *viz.*, Barmer, Sheo, Pachpadra (Balotra) and Siwana. For criminal work there are three first class Magistrates (two sub-divisional Magistrates and one Extra Magistrate). For Civil work there are two Munsiffs in the district—one at Barmer for Barmer and Sheo tehsils and the other at Balotra for Pachpadra and Siwana Tehsils. There is also a District and Sessions Court at Balotra.

Rajasthan has adapted nearly all the laws of Government of India.

**Finance.**

38. The normal revenue of the district is about Rs. 2,95,000/- and the expenditure Rs. 1,69,000/- The chief sources of revenue are land revenue, customs, tributes from Jagirdars and succession fees. The main items of expenditure are civil administration, police, public works and education. Of 775 villages in the district only 42 are Khalsa, *i.e.*, paying land revenue to the Government of Rajasthan. The rest of the land is held by Jagirdars or as religious or as charitable grants. The Jagirdars of Barmer pay a Foujbal of Rs. 9,963/13/3 and of Sheo Rs. 2,403/-. The rest of the Jagirdars pay *Rekh Chakri* etc. demands amounting to Rs. 34,655/8/9 annually. In the Khalsa area cash rent is in force but in Jagir area the system is by *Latai* that is produce is collected near villag s and duly measured and weighed, and according to the rent fixed, the Jagirdar takes his share. The share fluctuates on the proportion of the out-turn of the year. The Government cash rent is collected through Patwaries, whose work is supervised by the Revenue Inspectors and the tehsildar. Revenue Law is administered on the basis of the Tenancy and Land Revenue Acts promulgated by the Covenanting State of Jodhpur in the year 1949. The cultivators are being persuaded to grow as much food as they possibly can, but the area, which solely depends on rain can not be expected to give better results than what the usual produce is.

## VI. Public Works

39. There is an Assistant Engineer, with headquarters at Barmer who is incharge of the public works of the district; there is one Overseer at Barmer and another at Balotra.

## VII. Protection

40. Barmer being on Pakistan border is very important from the military point of view. The Government of India has posted military at important places.

41. Barmer district is under a Superintendent of police with headquarters at Barmer. He has two Deputy Superintendents to assist him, who are also stationed at Barmer. Balotra is the headquarters of an Inspector of police. In all, there are 13 police stations and 19 police out-posts as per Appendix "C".

## VIII. Education

42. As regards education, this district is in a backward condition. Some 50 years back, there were very few men in the district who could read and write Hindi even and they were chiefly *Charans* and *Bhats* ( Geneologists and Bards ) who used to recite songs and other melodies in order to please the Rajput Sardars and some Mahajans, who acted as *Kamdars* of the Jagirdars. To diffuse education among the masses, Vernacular Schools were started first at Barmer and then at Jasole ( in 1867 ) but as the people were quite apathetic, no great improvement was made, the boys turned out being chiefly Mahajans and Brahmans only. But through the well directed endeavours of the Government, the people have now turned their attention to education and it is a matter of great satisfaction that the sons of the soil are now not behind others in reaping the advantages of education.

43. There are High Schools in Barmer and Balotra and Middle Schools at Barmer and Siwana. There are also one Vernacular Primary, 29 Lower Primary and four Girls' Schools in the district. The Girls' Schools at Barmer impart education upto 5th standard. Recently a Patwari Training School has been opened in Barmer. A list of Schools is given in Appendix D.

## IX. Public Health

44. The people are generally healthy and are of strong constitution. Fever, Spleen and Guinea Worm are the common diseases. Epidemics are rare. There are three allopathic hospitals, one each at Barmer, Balotra and Siwana. The total number of Ayurvedic Aid posts is 7 which are located at Sheo, Jasol, Balotra, Pachpadra, Patodi, Siwana and Samdari. Besides them there is a Maternity and Child Welfare Centre and also a Health Centre at Barmer. There are 8 Vaccination Centres in this district, *viz.*, at Barmer, Chohtan, Guda, Baitu, Ramsar, Jasol, Balotra and Siwana.

45. There is a Veterinary Hospital at Barmer and Aid posts at Balotra and Sheo. There are a few private practitioners at Barmer and Balotra. There are ten vaccinators in the district, headquarters at different places.

## X. Local Self Government

46. In this district there are two Municipalities one at Barmer and the other at Balotra. The members of the municipality are elected on adult franchise. The total number of Village Panchayats is 31, which are practically defunct. A list of Municipalities and villages with Gram Panchayats is in Appendix E.

## XI. Miscellaneous

47. The staff of the following Government of India Departments are stationed in this district :—

(1) The Central Land Customs and Excise Departments, because, Barmer district is connected with Pakistan at a distance of about 170 miles, Barmer is the headquarters of Assistant Superintendent, who is assisted by three Supervisors and a large number of examiners to examine the goods of passengers coming from and going to Pakistan. There is also a nucleus staff at Munabao which is the terminus of the railway line from Pakistan. The searches are held at Barmer while the staff at Munabao merely checks the goods.

**Locust Department**

48. Since this desert area offers opportunity of extensive breeding in the Dhoras the Government of India has deputed the Locust Technical Officer as well as a Locust Warning Officer with a permanent office at Barmer. The Locust invasion in 1950 was heavy which resulted in great loss to the crops. All the expenses of the desert area in connection with Anti Locust Compaign is borne by the Government of India. Last year about Rs. 45,000 were spent through local agencies in connection with Anti Locust measures. Six outposts in this area have been established for fighting menace.

**Materiological Department**

49. There is an observatory of Materiological Department at Barmer.

## APPENDIX A.

Average rainfall is as under:—

| Tehsil | Average Rainfall in Inches |
|---|---|
| Barmer. | 13·7 |
| Sheo. | 7·3 |
| Pachpadra. | 11·32 |
| Siwana. | 10·59 |

## BARMER DISTRICT

## REVIEW OF POPULATION FIGURES

**Introduction.**

1. This district is situated in the south-west of Rajasthan between 70° 5′ and 72° 5′ east longitudes and 25° 4′ and 26° 2′ north latitudes. It is bounded on the north by Jaisalmer and Jodhpur districts, on the east by Jodhpur, Pali and Jalore districts, on the south by Jalore district and on the west by Pakistan (Sind). The district generally is sterile, sandy and inhospitable. The salient features of the country are the sand hills, which in some places rise to an altitude of three to four hundred feet. The northern and western portions form part of a sandy desert stretching to Sind and Jaisalmer.

2. The district has 2 sub-divisions and four tehsils. This district being on Pakistan border, the Government of India has posted military regiments at Jasai, Gadra-Road and Munabao. There are 13 police stations and 20 police out-posts.

**Population.**

3. This district consists of 3 towns and 731 villages having a population of 441,368 persons (males 236,160 and females 205,208) of whom only 32,767 persons or 7. 4 per cent. reside in urban units and the rest in rural ones. This district stands 17th in respect of population among the districts of Rajasthan, vide Annexure "A". A majority of villages are of the smallest size with a population below 500 persons. The only towns are 3-(a) Barmer (b) Balotra and (c) Pachpadra.

4. The population of this district as composed on March 1st, 1951, according to the census of 1941, was 363,297(males 194,420 and females 168,877). The last decade has witnessed an increase of 78, 071 or 21·5 per cent., vide Annexure "B". Its growth is above the average growth of Rajasthan by 6·6 per cent. This growth in urban units has been 49 per cent., while that in the rural units is only 19·7 per cent. This is mainly due to the settlement of the majority of displaced persons in towns.

**Area and density.**

5. The area of this district as supplied by Surveyor General for India is 10,150 5 square miles. It thus covers 7·8 per cent. of the total area of the State and stands second in respect of area, when compared with the other districts of Rajasthan vide Annexure "C". The Director of Land Records, Rajasthan, states the area of this district to be 9,734 sq. miles. It has a density of 43 persons per sq. mile. It was 36 in 1941. Its density is much below the average density of Rajasthan which is 117 and also below that of Jodhpur division (62) of which it forms a part vide Annexure "D" and "F".

**Occupied houses, households, family composition and sex ratio.**

6. The number of occupied houses in this district is 80,240 which are inhabited by 85, 240 households, (74,173 houses occupied by 78,428 households in rural areas and 6,067 houses occupied by 6,812 households in urban units). The number of persons per occupied house in 1951, is 5·5 (5·5 in rural and 5·4 in urban units). The same was the proportion in 1941. The average number of persons in a household is 5·2 persons in rural and 4·8 in urban units. The household population of Barmer district is 438,330 (405,563 in rural and 32, 767 in urban units), i.e., only 3,038 less than the total population. This last figure represents the houseless persons and inmates of institutions etc. The number of females per thousand males in this district is 869 in total population and 869 in household population. It was 869 in 1941, (vide Annexure "E"). In the rural units it is 866 and in the urban units it is 902.

**Literacy.**

7. The number of total literates is 27, 435, i.e., 62 per thousand (males 26,070 or 110 per thousand and females 1,365 or 6·6 per thousand).

The condition is different in rural from urban units as depicted in the inset table.

| Number of literates per thousand | | | |
|---|---|---|---|
| | Persons | Males | Females |
| Rural .. | 47 | 85 | 3·7 |
| Urban .. | 248 | 434 | 42 |

**Principal means of livelihood.**

8. The strength of persons depending directly or indirectly upon agriculture as their principal means of livelihood is 341,655. They form 77·4 per cent. of the total population. But if we take out of consideration those who are not directly in touch with land, i. e., non-cultivating owners of land and their dependants the percentage of actual agriculturists and their dependants comes to 76·4. Amongst the agriculturists the largest percentage is that of cultivators of land wholly or mainly unowned and their dependants, who form 66·4 per cent. This seems to be due to the mis-understanding on the part of the enumerators who in some cases entered as cultivators of unowned land such persons as paid rent to the Government thinking the Government to be the owner of the land. Cultivators of land wholly or mainly owned and their dependants rank second forming a percentage of 9·1. The cultivating labourers and the non-cultivating owners form 0·9 and 1 per cent. respectively. The last is the economically inactive population. Non-agricultural category forms only 22·6 per cent. and amongst themselves the great majority of them depend upon other services and miscellaneous sources. They form 8·8 per cent. of the general population. Industrialists are almost equally prominent being 7·6 per cent. and traders come next being 5·7 per cent. Transport industry is very insignificant as it supports only 0·6 per cent.

9. In the rural units the agricultural classes form 83 per cent. of the population and the non-agricultural classes 17 per cent. Amongst the agriculturists, cultivators of unowned land and their dependants form 71·3 per cent., owner cultivators and their dependants form 9·7 per cent., cultivating labourers and non-cultivating owners with their dependants form about 1 per cent. each. Of the non-agricultural cateogry the largest majority belong to those depending upon other services and miscellaneous sources, being 7·4 per cent. Industrialists are 5·7 per cent., traders 3·4 per cent. and the number of persons engaged in transport industry is very insignificant being 0·4 per cent.

10. The position in the urban units is that in the agricultural class owner cultivators form 1·9 per cent. of the population and cultivators of unowned land form 4·6 per cent. The number of cultivating labourers and non-cultivating owners of land with their dependants are 0·2 and 0·3 per cent. respectively. The non-argicultural category forms 93 per cent. and amongst themselves the great majority are traders being 33·4 per cent. Industrialists are almost equally prominent being 30·7 per cent. and the number of persons depending upon other services and miscellaneous sources form 25·5 per cent. Transport industry engages only 3·3 per cent. of the population.

**Dependence.**

11. Amongst owner cultivators 35·6 per cent. are self supporting, 7·2 per cent. are earning dependants and 56·9 per cent. are non-earning dependants. Out of the persons who are engaged in cultivation of unowned land, 42·7 per cent. are self supporting, 10·9 per cent. are earning dependants and 46·4 per cent. are non-earning dependants. Amongst the cultivating labourers 38·6 per cent. are self-supporting, 13·5 per cent. are earning dependants and 47·9 per cent. are non-earning dependants. Out of the non-cultivating owners of land and those receiving agricultural rent 39·1 per cent. are self supporting, 4·4 per cent. are earning dependants and 56·5 per cent. are non-earning dependants.

12. Out of the persons employed in industries, i. e., production other than cultivation, 35·3 per cent. are self supporting, 13·5 per cent. are earning dependants and 51·2 per cent. are non-earning dependants. Amongst traders 29·6 per cent. are self-supporting, 2·5 per cent. are earning dependants and 67.9 per cent. are non-earning dependants. Amongst those engaged in transport industry 47·6 per cent. are self supporting, 3·7 and 48·7 per cent. are earning dependants and non-earning dependants respectively. Out of the persons whose means of livelihood is other services and miscellaneous sources, 29 per cent. are self supporting, 6·4 per cent. are earning

dependants and 64·6 per cent. are non-earning dependants.

13. Economically inactive persons can be grouped into two categories:—

**Economically inactive persons.**

(a) Those who earn their livelihood without any activity, e.g., pension and stipend holders, receivers of rent from land or buildings or interest, (b) or those whose activities are un-economic in their nature, e. g., beggars, prostitutes etc. The number of such persons in this district is 1,526 (1,103 males and 423 females). They form 0·3 per cent. of the total population of the district. Their further details are given in District economic table B. III. Employers, employees and independant workers in industries and service by Divisions and Sub-divisions.

**Language.**

14. The principal language of this district is Marwari, a dialect of Rajasthani spoken by 414,150 persons, i.e., 94 per cent. of the total population; other dialects Bagri or Shekawati and Dhundhari or Jaipuri are spoken by 580 and 452 persons respectively who form a percentage of 0·13 and 0·10 respectively. Those who speak Harauti and Mewari are very insignificant, that is, 3 and 2 persons only respectively. Those who speak Hindi and Urdu, are 13,456 and 1,488 with a percentage of 3·4 and 0·3 respectively. Speakers of Sindhi and Gohati are 6,792 or 1·5 per cent. and 4,122 or 0·9 per cent. respectively.

**Religion.**

15. A vast majority of the people of this district are Hindus being 85·5 per cent., next come Muslims who are 11·8 per cent. Jainism ranks 3rd in the district having 2·7 per cent. of the population as its followers. Christians and Sikhs combined form even less than 0·1 per cent.

**Scheduled Castes.**

16. The population of scheduled castes enumerated in this district is 10,375, i. e., 2·3 per cent. of the total population and there is none belonging to scheduled tribes. A list of scheduled castes notified by the Government of India is appended herewith (Annexure "G").

**Migrants.**

17. Of the persons enumerated in this district 87·5 per cent. are born in the district itself, 10·6 per cent. are born in other districts of Rajasthan. For districtwise details of the above items see District table D IV (Migrants). Persons born outside Rajasthan are 1,587, i. e., 0·4 per cent. and those born outside India are 6,872, i. e., 1·5 per cent. only. Most of them are born in areas now known as Pakistan adjoining the district to a great extent and have come here as displaced persons.

**Displaced persons.**

18. The number of displaced persons in this district is 6,698 who have immigrated from West Pakistan ( 26 in 1946, 4,789 in 1947 1,155 in 1948, 392 in 1949 and 336 in 1950 ). Majority of them, that is, 2,534 or 37·8 per cent. are traders. Industrialists rank second being 1,724, i.e., 25·7 per cent., followed by those depending on 'other services and miscellaneous sources' that is, 1,420 or 21·3 per cent. There are 650 or 9·7 per cent. cultivators of unowned land. Cultivators of owned land are 260 that is 3·8 per cent Transport Industry supports 1·3 per cent. only. The cultivating labourers and non-cultivating owners of land, agricultural rent receivers and their dependants are very insignificant being 0·2 and 0·02 per cent. respectively.

**Infirmities.**

19. In this district the total number of persons afflicted by infirmities, i. e., the blind, the deaf-mutes, the insane and the lepers. are 596, that is, 1·35 per thousand. Blindness is the most prominent the number being 440, i. e., 1 per thousand. Persons afflicted by the rest of the infirmities are very much less than 1 per thousand. The total number of the blind in the age group 55 and over is 262, i.e., 59·5 per cent. of the total blind persons of the district.

# DEFINITIONS AND KEY TO SYMBOLS

**Definitions.**

*Tract*:—In past censuses the census figures were tabulated by administrative units *i.e.* districts, tehsils, etc. This time in almost all tables the figures have been represented by units which have been technically called "TRACTS". Tracts are of three kinds, (1) all villages of a sub-division taken together form one rural tract, (2) all towns (which are not cities) in a district taken together form an "urban non-city tract" and (3) every city is an "urban city tract" or in short "city tract". A list of tracts comprised in each district has been given in the handbook of the district.

*Town*:—A "Town" has been defined as every municipality, every cantonment or every village which had a population of 5,000 or over in 1941 or any other village which was treated as a town for special reasons by the State Census Superintendent.

*City*:—A "City" is normally defined as a town with a population of one lac or over, but this definition has been relaxed in Rajasthan, and towns with a population of 50,000 or over have also been treated as cities, to bring the definition in uniformity with the one adopted in the Municipal Act.

*Village*:—A "Village" means a revenue **mauza** whose revenue is realised under a separate name. It includes all hamlets attached to it.

*House*:—A "House" has been defined as every structure made of any material which is actually used as human habitation or if not so used is capable of being so used, which has separate main entrance from the street, lane, by-lane, etc. It includes structures of all kinds such as residential houses, temples, mosques, offices, etc. The minimum which was necessary for qualifying a structure to be classed as a house was at least two walls and a roof made of any material.

*Occupied House*:—"Occupied houses" were those which were used actually for the residence of human beings.

*Household*:—A "Household" has been defined to mean and include all persons living in one and the same house and dining at a common mess irrespective of their blood relationship *e. g.* servants residing with their masters and taking meals in their kitchen were treated as members of the master's household. On the contrary even nearest relatives as husband or wife were treated as separate families if for any reason they happened to live in separate buildings and dine at separate kitchens.

*Household Population*:—"Household Population" means persons living in numbered houses as members of a commensal family including guests and servants. It does not include (a) houseless persons or (b) inmates of institutions like jails, hospital, dak bungalows, boarding houses, orphanages, sarais, dharmashalas, police lines, military lines, asylums, etc.

*Displaced persons*:—A "Displaced person" was defined as "a person who migrated from Western Pakistan after 1st March, 1947 or from Eastern Pakistan after 15th October, 1946 due to communal disturbances or fear of disturbances or due to partition of India and Pakistan. Children born to such persons after their migration to India were not to be treated as displaced persons."

*Ward*:—A "ward" was defined as municipal ward in case of municipal towns. In non-municipal towns wards have been made arbitrarily by the Census Department.

*Means of Livelihood*:—In former censuses it was customary to represent the basic population data by community or religion. This time an innovation has been made and in most of the tables the figures are published by means of livelihood groups. All occupations have been classified under eight broad classes and given code numbers which are as follows—

I—Cultivators of land wholly or mainly owned and their dependants.

II—Cultivators of land wholly or mainly unowned and their dependants.

III—Cultivating labourers and their dependants.

IV—Non-cultivating owners of land, agricultural rent receivers and their dependants.

Persons (including dependants) who derive their principal means of livelihood from—

V—Production other than cultivation.

VI—Commerce.

VII—Transport.

VIII—Other services and miscellaneous sources.

N.B.—In most of the Tables, the m/l class number is only given instead of describing the class.

*Code No*:—In the enumeration stage a set of location code numbers was prescribed to identify each inhabited spot, where by the districts were numbered serially within the State, tehsils within a district and cities, towns and villages within a tehsil. Similarly houses were numbered within a village and households within each house. Hamlets were given sub-numbers under the number of the parent village.

**Key to Symbols**

| | |
|---|---|
| M/L | =Means of livelihood. |
| T | =Total. |
| R | =Rural. |
| U | =Urban. |
| P | =Persons. |
| M | =Males. |
| F | =Females. |
| S. D. R | =Sub-Division Rural. |
| U. N. C. | =Urban Non-City. |

Letter "M" when used with the name of a city indicates Municipality; letters "T. B.", Town Board; "N. A.", Notified Area.

## A. III.—Towns and Villages

**Explanatory Note:—**

This table deals with the towns as well as villages taken together. They have been classed according to population into classes have been shown separately for the district as a whole and for each tehsil. The only villages with a population of 5,000 and over are

| Serial No. | Administrative Unit | Total number of inhabited towns and villages | Total population | | | Towns and Total | | |
|---|---|---|---|---|---|---|---|---|
| | | | Persons | Males | Females | Number | Males | Females |

# A. IV.—Towns classified by Population with Variation since 1901

**Explanatory Note:—**

This table compares the population of towns as ascertained at the Census of 1951 with their population in the last 5 censuses.

The number of class in which these towns fall is shown under the name of each town. The figures of the previous censuses have been given against such towns only which were towns in the decades concerned.

The nature of the local body functioning in each town is shown in the brackets after the name of town wherever such body is functioning.

In this table the cities and towns have been classified and arranged according to population under six classes namely:—

| | | |
|---|---|---|
| I | .. | 100,000 and over |
| II | .. | 50,000 to 100,000 |
| III | .. | 20,000 to 50,000 |
| IV | .. | 10,000 to 20,000 |
| V | .. | 5,000 to 10,000 |
| VI | .. | Less than 5,000 |

| Town and Year | Tehsil | Persons | Variation | Males | Variation | Females | Variation |

## A. V.—Towns arranged Territorially with Population by Livelihood Classes

**Explanatory Note:—**

This table gives the number of persons ( including dependants ) in each town according to principal means of livelihood, instead of religion as in past censuses, but means of livelihood classes I to III have been clubbed together and they have been shown in the columns No. 15 and 16 after the non-agricultural classes.

The towns have been arranged according to population. The nature of the local body functioning in each town is shown in brackets after the name of the town wherever such body is functioning.

LIVELIHOOD CLASSES

| Serial No. | Name of Town | Population | | | Non-Agricultural Classes: Persons (including dependants) who derive their principal means of livelihood from | | | | | | | | Agricultural Classes | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | V.—Production other than cultivation | | VI.—Commerce | | VII.—Transport | | VIII.—Other services and miscellaneous sources | | IV.—Non-cultivating owners of land; agricultural rent receivers and their dependants | | I, II & III—Cultivators, cultivating labourers and their dependants | |
| | | Persons | Males | Females | Males | Females | Males | Females | Males | Females | Males | Females | Males | Females | Males | Females |
| | (1) | (2) | (3) | (4) | (5) | (6) | (7) | (8) | (9) | (10) | (11) | (12) | (13) | (14) | (15) | (16) |

## B. ECONOMIC TABLES

1. In the 1951 Census, the economic classification was substituted for the classification based on religion.

2. The people have been divided into two broad livelihood categories, *viz.*, the Agricultural Classes and the Non-Agricultural Classes.

3. There are four Agricultural Classes, defined as below:—

I–Cultivators of land, wholly or mainly owned; and their dependants.

II–Cultivators of land, wholly or mainly unowned; and their dependants.

III–Cultivating labourers; and their dependants, and

IV–Non-cultivating owners of land; agricultural rent receivers; and their dependants.

4. There are four Non-Agricultural Classes, defined as comprising all persons (including dependants) who derive their principal means of livelihood from:—

V–Production other than cultivation.

VI–Commerce.

VII–Transport.

VIII–Other services, and miscellaneous sources.

5. All these classes have been referred to as Means of Livelihood Classes or in brief M/L Classes.

NOTE.—(a) Land is deemed to be owned if it is held on any tenure (by whatever name it is known locally) which carries with it the right of permanent occupancy for purposes of cultivation". Such right should be heritable. It may be (but need not necessarily be) also transferable.

(b) A "Cultivator" ( Livelihood Class I or II ) is distinguished from a "Cultivating Labourer" (Livelihood Class III) as the person who takes the responsible decisions which constitute the direction of the process of cultivation. All cultivating labourers are employees of cultivators.

(c) The classification of a person employed in any non-agricultural enterprise or establishment is based on the nature of his own work, not on the nature of the enterprise or establishment concerned. Thus, for instance not all railway employees are classifiable under Livelihood Class VII (Transport). Those employed in Railway workshops are classifiable under Livelihood Class V and those employed on constructional services under Livelihood Class VIII.

6. Livelihood Sub-Classes:—Each of the eight M/L Classes has been divided into three sub-classes, with reference to their economic status as below:—

(i) Self-supporting persons;

(ii) Non-earning dependants: and

(iii) Earning dependants.

### Economically active, semi-active and passive persons

7. All non-earning dependants are economically passive. They include persons performing house-work or other domestic or personal services for other members of the same family household. But they do not include "unpaid family workers or persons who take part along with the members of the family household in carrying on cultivation or a home industry as a family enterprise".

8. All earning dependants are economically semi-active only. Though they contribute to the carrying on of economic activities, the magnitude of their individual contribution is deemed to be too small to justify their description as economically active.

9. All self-supporting persons are, ordinarily, economically active. But there are certain classes and groups which constitute an exception to this rule. These are mentioned below:—

(i) The self-supporting persons of Agricultural Class IV.

(ii) The following groups of self-supporting persons who are included in non-agricultural Class VIII and derive their principal means of livelihood from miscellaneous sources ( otherwise than through economic activity):—

(a) Non-working owners of non-agricultural property,

(b) Pensioners and remittance holders,

(c) Persons living on charity and other persons with unproductive occupations, and

(d) inmates of penal institutions and asylums.

## Classification of Economic activities and Economically active persons

10. Economic activities may be defined as including all activities of which the result is the production of useful commodities or the performance of useful services; but not including the performance of domestic or personal services by members of a family household to one another.

11. The most important among all economic activities is the cultivation of land (or the production of the field crops). It stands in a category by itself. All other economic activities may be regarded as falling in another category which may be referred to as "Industries and Services". All these activities may be classified with reference to the nature of the commodity produced or service performed. Under the present scheme, all industries and services are classified in 10 divisions; and these divisions are sub-divided into 88 sub-divisions. The scope of activities included in each sub-division is indicated by its title.

12. Economically active persons engaged in cultivation, are either cultivators or cultivating labourers *i. e.*, they are persons of sub-class (i) of agricultural classes I to III.

13. Economically active persons engaged in industries and services are classifiable in the divisions and sub-divisions. All persons included in each sub-division are further divisible into three sections *viz.*,

(i) Employers,

(ii) Employees, and

(iii) Independent workers.

14. In effecting this classification, no account has been taken of whether the classified person was actually employed or unemployed on the date of enumeration He has been allocated to that particular description of economic activity from which he has been in fact deriving a regular (that is non-casual) income, as his principal means of livelihood.

## The Tables

15. The Economic tables for the State as a whole with break-up for Natural Divisions and districts will be found in Report Part II–B of the Census of India, 1951, Volume X, Rajasthan and Ajmer. It also contains a full discussion of the Indian Census Economic Classification Scheme and its comparison with International Standard Industrial Classification Scheme evolved by the United Nations Organisation. This Hand book contains the above tables for this district in which they are published down to tract level.

16. The replies recorded in the census slips against census questions 9, 10 and 11 have been used for classifying every enumerated person within the frame work of Economic Classification of people described above. The results have been exhibited in the three tables.

(a) Economic Table I .. Livelihood classes and sub-classes

(b) Economic Table II .. Secondary means of livelihood.

(c) Economic Table III .. Employers, employees, and independent workers in industries and services by divisions and sub-divisions.

**Economic Table I.**

17. This table is the result of the record of replies to the census question No. 9 (1). It shows the distribution of population in the eight livelihood classes and 3 sub-classes of each livelihood Class. A complete picture has been presented of economically active, semi-active and passive persons.

**Economic Table II.**

18. It specifies the number of self-supporting persons in each of the 8 classes mentioned above, who have more than one means of livelihood and cross classifies them according to the nature of such secondary means of livelihood under the same eight classes. It also displays the number of earning dependants who supplement (with their own activities) the resources provided for their maintenance by the persons on whom they are dependant. The economic activity of the economically semi-active persons whereby they supplement the above resources has been shown in this table. The replies recorded in the slips against census question 11 showing the occupation of semi-active persons as also the secondary means of livelihood of self-supporting persons (with more than one occupation) othey than the principal means of livelihood, are the basis of this table

**Economic Table III.**

19. This table is limited to economically active persons only. Self-supporting persons engaged in industries and services have been classified under 10 divisions and sub-divisions thereof. They have been further divided under each division and sub-division into three categories "Employers", "Employees" and "Independent Workers".

(a) M/L Class V (Production other than cultivation) corresponds to divisions 0 to 4. (0) Primary industries not elsewhere specified; 1—Mining and quarrying; 2—Processing and manufacture foodstuffs, textiles, leather and products thereof; 3—Processing and manufacture metals, chemicals and products thereof; 4-Processing and manufacture not elsewhere specified).

(b) M/L Class VI (Commerce) corresponds to division 6 (Commerce).

(c) M/L Class VII (Transport) corresponds to sub-divisions 7·1 to 7·4 of division 7 (Transport, storage and communications).

(d) M/L Class VIII (Other services and miscellaneous sources) includes Division 5 (Construction and utilities), Division 7 (Transport, storage and Communication) with the exception of sub-divisions 7·1 to 7·4; Division 8 (Health, education and public administration) and Division 9 (Services not elsewhere specified). It also includes other miscellaneous sources of livelihood, *e. g.*, income from investment, pensions and family remittances, proceeds of begging and other unproductive activities. These are not, however, included in Economic Table III which is limited to industries and services. Hence there is a difference to this extent between the total self-supporting persons of the non-agricultural classes in Economic Table I and the total of this table. The reconciliation has been affected by entries of economically inactive persons with the following further classification at the end of the table (columns Nos. 798 to 807).

(i) Persons living principally on income from non-agricultural property.

(ii) Persons living principally on pensions, remittances, scholarships and funds.

(iii) Inmates of jails, asylums, and alms-houses.

(iv) Recipients of doles.

(v) Beggars and vagrants.

(vi) All other persons living principally on income derived from non-productive activities.

20. The unit of classification is the organised "Establishment". The commodity produced or the service performed as a result of the work of the organised establishment is the criterion for classifying the establishment. The classification of the establishment is the classification of every member of the establishment.

21. As regards "Employees", all persons engaged, in production, commerce or transport (and not being domestic servants) have been classified under the appropriate sub-divisions with reference to their own activity, and without reference to that of their employer. Domestic servants have all been classed in one sub-division without reference to the nature of their work. All other employees (including all managerial and supervisory employees, clerks, messengers watchmen and unskilled labourers of every description) have been classified with reference to the commodity produced or services rendered by their employers.

## B. I—Livelihood Classes

## C.—HOUSEHOLD AND AGE (SAMPLE) TABLES

*Explanatory Note*:--This series consists of the following tables:—

C. I Household (Size and Composition).
C. II Livelihood Classes by Age Groups.
C. III Age and Civil Conditions.
C. IV Age and Literacy.
C. V Single Year Age Returns.

All these tables have been prepared on sample basis. In Table C. I nearly 1 in 1,000 households has been selected as sample from the National Register of Citizens. In other tables 10% sample has been taken from the enumeration slips pertaining to general population excluding displaced persons population.

### C. I.—Household (Size and Composition)

*EXPLANATORY NOTE*:—This table shows for each census tract the total number of households, household population, the sample households population, and the size and composition of households in the sample household population.

The figures are arranged under two broad groups:—
(i) Size of households.
(ii) Composition of households.
in (i) Households have been called:—
(a) "Small" if the number of inmates is 3 or less.
(b) "Medium" if the number of inmates is between 4 and 6.
(c) "Large" if the number of inmates is between 7 and 9.
(d) "Very large" if the number of inmates is 10 or more.
in (ii) the inmates in a household are described under three heads:—
(a) Relationship to the head of the household.
(b) Number in broad age groups.
(c) Civil condition.

# E—Summary Figures by Administrative Units.

*Explanatory Note:*—In this table area, population, density and the distribution of population by livelihood classes are shown for the district and each Tehsil with the corresponding rural and urban break-up.

The figures of area against each unit have been entered as supplied by the District Officer. The total area of the district as supplied by the Surveyor General, India has been given against the name of the district within brackets.

There are only 2 Sub-divisions in this district. The density of 1941 has been calculated on the present area figures of the District. Density figures for tehsils have been worked out for total area of the tehsil only without rural-urban split-up because the area figures of most of the towns were not available.

| Serial No. | Administrative unit | Area in sq. miles | Population | | | | Percentage Variation | | Density | |

## District Index of Non-Agricultural Occupations.

This Table is prepared from the Sorter's Ticket 2. This is a sort of supplement to Economic Table B-III and provides further details of the occupational groups mentioned therein.

The Sorter's Ticket 2 was prepared in accordance with the instructions to the Sorters reproduced below:—

**1.** *Preparation.*—You have to prepare Sorter's Ticket 2 only if you have slips relating to any of the livelihood class V, VI, VII or VIII. You are to deal only those slips which relate to self-supporting persons. The slips relating to non-earning dependants or earning dependants would have been separated already and should not be used at this stage.

**2.** *First operation.*—You have first to deal the slips with reference to the principal means of livelihood recorded against question 10. Your Supervisor will give you a list of "M/L (Means of Livelihood) sub-groups"* in the order of importance for which you have to sort. Select not more than ten Pigeon-holes and affix labels bearing the names of the "M/L sub-groups" (written out in full) as given to you. The number of M/L sub-groups given to you will generally exceed ten. You should reserve one or two Pigeon-holes for throwing slips which are not covered by the M/L sub-groups shown on the labels. You should then deal the slips with reference to the answer recorded against question 10. In doing so, put together slips containing entries which are written in either identical or very similar terms to each of the labelled "M/L sub-groups". If you are in doubt whether an entry, in any case is very similar or not to the labelled M/L sub-groups, consult the Supervisor. Finish the sorting for one set of M/L sub-groups. Then distribute the slips of one set into individual occupations. Now count the number and "enter" the name and number in columns (2) and (3) of Sorter's Ticket 2. Keep the unsorted slips separate. This completes the first stage of the first operation.

**3.** *First operation (succeeding stages).*—You should then take up the slips that remain to be sorted. You should deal them again for the remaining M/L sub-groups given to you in same manner as in the first operation. The operations should be repeated successively until all the slips are sorted for all the M/L sub-groups given to you. You may find slips where the M/L as recorded in question 10 does not fall under any of the sub-groups given to you. You should deal these slips separately in the manner explained above and enter the name and number in the Sorter's Ticket. This completes the first operation. You should keep separate the bundle for each M/L sub-group.

**4.** *Special instructions regarding non-productive means of livelihood.*—Livelihood class VIII will contain slips of persons who derive their income otherwise than through Productive activity. They include all self-supporting persons against whom the answer to question 9, Part two, is '0'. They should be treated as a distinct group, not falling under any of the prescribed divisions and sub-divisions; and sorted under the following sub-groups, viz.—

(*i*) Persons living principally on income from non-agricultural property.
(*ii*) Persons living principally on pensions, remittances, scholarships and funds.
(*iii*) Inmates of jails, asylums, alms houses and recipients of doles.
(*iv*) Beggars and vagrants.
(*v*) All other persons living principally on income derived from non-productive activities.

**5.** *Second operation.*—For this operation the slips mentioned in Paragraph 4 are excluded. You have to deal the remaining slips with reference to the answer recorded in the second compartment of question 9. Affix labels to three Pigeon-holes, the labels being marked

---

* *List of M/L sub-groups.*—Separate lists of sub-groups should be prepared for use in sorting each of the four different livelihood classes V to VIII. These lists should be compiled on the basis of (a) scrutinizing of entries found to occur frequently in the National Register of Citizens and (b) results for trial sorting by Supervisor and Compiler-checkers.

"Employer", "Employee" and "Independent worker". Take the bundle for each M/L sub-group and deal them into the three Pigeon-holes. You will find "म" for "Employer", "नो" for "Employee" and "खुद" for "Independent worker" recorded in the second compartment of question 9. If you find that there is no entry you should take the order of your Supervisor. When you have completed the sorting for a M/L sub-group's you should count the number in each Pigeon-hole and enter in Columns (4) to (6) of the Sorter's Ticket according as the Pigeon-hole relates to "Employer", "Employee" and "Independent worker" respectively.

6. *Second operation (succeeding stages).*—You should take each of the other bundles for M/L sub-groups and deal them in the same manner as in the second operation; you should enter the result in the relevant columns of the Sorter's Ticket.

7. *Conclusion.*—You have now completed all operations necessary for Sorter's Ticket 2. Re-combine all the male slips and all the female slips.

If you are sorting sample slips or slips for displaced persons you should proceed to Sorter's Ticket 3.

If you are sorting general slips you should proceed to Sorter's Ticket 6.

After the Sorter completed the ticket and after due check by the Compiler-checker and the Supervisor, the Ticket was handed over to the tabulation clerk to fill in the Group Code numbers in column (1) of the form of Sorter's Ticket 2 given below.—

**Form of Sorter's Ticket 2**

| *Group Code Number* | *Full name of means of livelihood (sub-groups and occupations)* | *Total* | *Employer* | *Employees* | *Independent worker* |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |

The group code numbers were adopted from the Indian Census Economic Classification Scheme given in Part II—B of the Report.

**Accuracy of Figures**

A perusal of this Index shows incredible figures, against certain occupations. This is due to vague entries in the slips regarding the occupations contrary to instructions in some cases and entries with correct details in others. The result was that in the tabulation stage the only slips which contained correct details of occupations were sorted under the correct sub-group and its details, while those with vague entries were placed in the wider groups.

Another point to be borne in mind is that not all persons following an occupation have been shown against it in the Index, but those who followed it as a Principal means of livelihood. Thus if a Ticket Collector derived a greater part of his income from rent of agricultural or other land or building and some income only from his service as Ticket Collector, he would not be shown as Ticket Collector.

The third point to be kept in mind is that these figures, represent only self-supporting persons and not those who are partly dependants, thus a young boy who sits at a 'Pan shop' and gets some pay from the shop-keeper which is not sufficient to support him, he has to depend upon his father's income mostly. Such a man would not appear under the occupation "Service on Betel Shop".

The last but most important defect in the figures is due to difference in the terminology prevalent in the different areas of Rajasthan describing an occupation and also partly due to want of exercise of proper care in the tabulation stage that names showing same and similar occupations have been shown as different occupations for example "Halwai's shop" and "sweet-meat selling" have been shown as different occupations. In order, therefore, to find out the actual strength of self-supporting persons following a particular occupation as their principal means of livelihood, figures against all such occupations should be totalled.

On the whole, this Index removes the defects pointed out in the Census Tables published in the previous Census that they do not show actual occupations but their groups only.

# Index of Non-Agricultural Occupations.

## Persons deriving their income as principal means of livelihood from occupations given in column 3.
