Section I Village Directory

1.	**Chittaranjan Police Station.**	
	(i) Alphabetical List of Villages	43
	(ii) Village Directory Statement	44
2.	**Salanpur Police Station.**	
	(i) Alphabetical List of Villages.	46
	(ii) Village Directory Statement.	48
3.	**Kulti Police Station.**	
	(i) Alphabetical List of Villages.	57
	(ii) Village Directory Statement.	58

4. Hirapur Police Station.

(i) Alphabetical List of Villages. 65

(ii) Village Directory Statement. 66

5. Asansol Police Station.

(i) Alphabetical List of Villages. 71

(ii) Village Directory Statement. 72

6. Barabani Police Station.

(i) Alphabetical List of Villages. 77

(ii) Village Directory Statement. 78

7. Jamuria Police Station.

(i) Alphabetical List of Villages. 84

(ii) Village Directory Statement. 86

8. Raniganj Police Station.

(i) Alphabetical List of Villages. 95

(ii) Village Directory Statement. 96

9. Ondal Police Station.

(i) Alphabetical List of Villages 101

(ii) Village Directory Statement. 102

10. Faridpur Police Station.

(i) Alphabetical List of Villages. 108

(ii) Village Directory Statement. 110

11. Durgapur Police Station

(i) Alphabetical List of Villages. 117

(ii) Village Directory Statement. 118

12. New Township Police Statoin.

(i) Alphabetical List of Villages. 123

(ii) Village Directory Statement. 124

13. Kaksa Police Station.

(i) Alphabetical List of Villages. 126

(ii) Village Directory Statement. 128

14. Bud-Bud Police Station.

(i) Alphabetical List of Villages. 139

(ii) Village Directory Statement. 140

15. **Ausgram Police Station.**
(i) Alphabetical List of Villages. 149
(ii) Village Dirctory Statement. 152

16. **Galsi Police Station.**
(i) Alphabetical List of Villages. 168
(ii) Village Directory Statement. 170

17. **Khandaghosh Police Statement.**
(i) Alphabetical List of Villages. 184
(ii) Village Directory Statement. 186

18. **Raina Police Station.**
(i) Alphabetical List of Villages. 198
(ii) Village Directory Statement. 202

19. **Jamalpur Police Station**
(i) Alphabetical List of Villages. 226
(ii) Village Directory Statement. 228

20. **Memari Police Station.**
(i) Alphabetical List of Villages. 242
(ii) Village Directory Statement. 246

21. **Barddhaman Police Station.**
(i) Alphabetical List of Villages 271
(ii) Village Directory Statement. 274

22. **Bhatar Police Station.**
(i) Alphabetical List of Villages. 292
(ii) Village Directory Statement. 294

23. **Mangalkote Police Station.**
(i) Alphabetical List of Villages. 306
(ii) Village Directory Statement. 308

24. **Ketugram Police Station.**
(i) Alphabetical List of Villages. 322
(ii) Village Directory Statement. 324

25. **Katwa Police Station.**
(i) Alphabetical List of Villages. 239
(ii) Village Directory Statement. 342

26. **Manteswar Police Station.**

(i) Alphabetical List of Villages. 359

(ii) Village Directory Statement. 362

27. **Purbasthali Police Station.**

(i) Alphabetical List of Villages. 379

(li) Village Directory Statement 382

28. **Kalna Police Station.**

(i) Alphabetical List of Villages. 402

(ii) Village Directory Statement 406

Appendix—I Police Stationwise Abstract of Amenities 428

Appendix—II Land utilisation data in respect of Non-Municipal Towns. 432

Appendix—III Police Stationwise List of Villages where no amenities are available. 434

Appendix—IV List of Villages according to the proportion of Scheduled Castes and Scheduled Tribes to the total population by ranges. 439

SECTION—II TOWN DIRECTORY

Statement—I Status and growth history 508

Statement—II Physical Aspects and location of Towns, 1979 520

Statement—III Municipal Finance, 1978-79 528

Statement—IV Civic and other amenities 1979 536

Statement—IV A Civic and other amenities in notified Slums 1979 546

Statement—V Medical, Educational, Recreational and cultural Facilities 1979 548

Statement—VI Trade, Commerce, Industry and Banking, 1979 562

Appendix Towns Showing Their outgrowth with Population. 570

FOREWORD

The district census hand book (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part—A related to village and town directory, Part—B to village and town PCA and Part—C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres, and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class—I and Class—II towns (Statement IV—A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of town into consideration. The addition of the colums on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part—A of the volume contains village and town directory and Part—B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Police Station/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non census data in relation to the infrastructure has been introduced to enhance its value. The District and Police Station level maps depicting the boundaries and other impotant features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been colleeted and compiled in the state under the direction of Shri S. N. Ghosh, I.A.S. the Director of Census operations, West Bengal on behalf of the State Government which has borne the cost of printing. The task of planning, designing, and co-ordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar Genaral (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research officer. I am thankful to all who have contributed in this project.

P. PADMANABHA
Registrar General, India

New Delhi
the 26th April, 1982

PREFACE

The District Census Handbook compiled by the Census Directorate, West Bengal, on behalf of the Govt. of West Bengal, containing Census Statistics besides other invaluable data of importance for use by the State Govt., district administration, research scholars and various other data-users owes its origin to 1951 Census. The present publication of 1981 Census is fourth in the series.

The Census of 1981 was conducted in February, 1981 with sunrise of 1st March, 1981 as reference date under the stewardship of Shir S. N. Ghosh, Director of Census Operations, West Bengal. The credit for the success of the operation goes entitely to Shri Ghosh. However, before the report could be finalised, Shri Ghosh had to resume his duties under the Govt. of West Bengal in public interest. The presnt publication is the product of his dedicated labour, immaculate planning and sterling administrative capabilities. Without the active involvement and inspiring leadership of Shri Ghosh, the present publication would have been a still birth.

The Census Statistics in the form of Village and Town Directory inclued in the publication relate to the district of Barddhaman. A brief analytical note with a number of inset tables based on Census data, included in this publication, will hopefully meet the requirements of the readers.

As mentioned earlier, the 1981 Census operation in West Bengal was conducted by Shri S. N. Ghosh, as Director of Census Operations under the inspiring captaincy of Shri P. Padmanabha, former Registrar General and ex-officio Census Commissioner of India whose imaginative planning, enthusiastic support and electrifying guidance led us to successful completion of an undoubtedly difficult operation. We silently recall the contribution of Shri Padmanabha.

Shri V. S. Verma, the present Resistrar General, India has been guiding us soon after his assumption of office in 1983 to oversee the timely completion of the project. Without his active support, deep understanding and mature guidance, the publication would not have progressed much. We are greteful to Shri Verma.

We grajefully recall the help, guidace and advice received from Shri V. P. Pandey, Joint Registrar General, India in technical and administrative matters relating to this project.

Dr. N. G. Nag, Deputy Registrar General (Social Studies) and his colleagues has provided us technical guidance and scholarly assistances right from the start of the project. We acknowledge our debt to him and his colleagues.

We are also indebted to Shri K. K. Chakraborty former Deputy Registrar General (C & T) and Shri N. Rama Rao, Asstt Registrar General, for their helpful suggestions. Dr. B. K. Roy, Deputy Registrar General (Map) had provided us excellent support and guidance in cartographic matters. We are indebted to him.

The data presented in the volume were collected at grass-root level by the District Magistrate, Barddhaman (Principal Census Officer) and his innumerable colleagues including the Charge Superintendents. We acknowledge their contributions to the preparations of this valume.

The final tabulation and compilation of data have been done by the Central Tabulation Unit of this office under the supervision of Sri S. K. Guha, Investigator, first under the guidance and supervision of Shri M. N. Sarkar, Asstt. Director of Census Operation, (since retired) and later under Shri A. K. Dutta, Deputy Director of Census Operations, West Bengal. Without their sincere efforts the data could not have been finalised. The analytical note was prepared by Shri S. K. Guha, Investigator and scrutinised, edited and finalised by Shri A. K. Dutta, Deputy Director of Census Operations, West Bengal. The publication is a silent testimony to their labour and love.

The printing work was supervised very efficiently by Shri S. K. Guha, Investigator, unper the able guidance of Sri A. K. Dutta, Deputy Director without whose direct involvement the publication could not have seen the light of the day. We recall Shri Datta's effective contribution with admiration.

There were also officials who had contributed to the project from behind the curtatin. Among officials of the State Government who had helped us in various stages of the publication are Shri K. J. Basu Roy Chaudhury, WBCS and Shri B. Bhattacharyya, WBCS, both Deputy Secretaries to the Govt. of West Bengal Home (C & E) Department, Writers' Buildings, Calcutta and their colleagues to whom we pay our tribute. Mention should also be made of the Controller of Stationery, Govt. of West Bengal, for kindly providing us the necessary printing materials.

Lastly, we must express our appreciation to Aparajita Print House, 91/A, Baithakkhana Road, Calcutta-700 009 for the printing of this Publication.

Sukumar Sinha
Joint Director of Census Operations,
West Bengal

	Uninhabited		3,088	109
Number of Towns			291	49

ANALYTICAL NOTE

ANALYTICAL NOTE

It has been the tradition of the Indian Census to present the census data under the two broad divisions termed urban and rural.

The definition of an urban unit at the 1981 Census is as follows :

(a) All places with a Corporation, Municipality, Town Committee, Notified Area, Cantonment.

(b) All other places which satisfied the following criteria :

(i) A population of 5,000 as the minimum,

(ii) Density per square kilometre would be a minimum of 400, and

(iii) At least 75% of the male working force should be engaged in non-agricultural pursuits.

Apart from town/city the 1971 concept of urban agglomeration is also adopted for the 1981 Census. An urban agglomeration means a stretch of urban area covering more than one municipality/town/urban outgrowth within a geographically contiguous urban continuum. An urban agglomeration shows how a particular area has had geographically continuous urbanisation.

Mention may be made in this connection of urban outgrowths. The concept of urban outgrowth has come into force for the first time in 1981 Census. The outgrowth, which must necessarily be contiguous to an urban area, is itself an urban area in so far as it fulfills the last two criteria of being an urban unit, but it falls short on the population front, *i. e.* it would have a population of less than 5,000 but more than 600.

All other areas which are not covered by the definition of urban as stated above will be treated as Rural.

Census House :

We defined the Census house in the following manner : "A census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc. used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both". Actually to make the concept understandable and applicable in field we had to introduce the concept of singleness of use. What, as per the above definition, would be a census house otherwise might not be so if there is no singleness of use.

Household :

We defined household as follows : "The household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or household of unrelated persons or having a mix of both".

Scheduled Castes/Scheduled Tribes :

We have our own list of scheduled castes and scheduled tribes notified for our state only. If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by a synonym or generic name of

a caste or a tribe, the information was noted if it found place in the notified list. All efforts were given to ascertain the correct name of the scheduled caste or tribe as found in the notified list. For a household belonging to scheduled castes or scheduled tribes, religion of the head of household was also examined. Scheduled caste population are found only among the Population belonging to Hindu and Sikh religions but the scheduled tribe population may belong to any religion.

Literates :

In the census terminology, a person who can both read and write with understanding in any language is to be taken as literate. A man who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum education standard. All the children of the age of four years or less were treated as illiterate even if the child was attending a school or might have picked up reading and writing.

Careful attention was also given while collecting information on educational atainment of individuals. The highest education level attained by the person enumerated was recorded. This information is vital for manpower planning.

Main Workers :

The definition of worker difference between 1971 and 1981 and the system of dividing the entire population by application of the concept of worker has also undergone a very important change. Earlier in 1961 and then in 1971 the total population was divided into two categories mutually exclusive of each other They were workers and non-workers respectively. But in 1981, this dichotomy has been replaced by a trichotomy with three categories mutually exclusive of each other, viz. main workers, marginal worker and non-workers.

The 1961 Census definition of worker was as follows:

"The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you (Enumerator) visited the "Household". In 1971, the following definition was applied : "A worker is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work. The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had any such regular work on any one of the days during this reference period and this has been returned as his main activity the person will be categorised accordingly..... ...There are certain types of work which are not carried on throughout the year such as cultivation, livestock keeping, plantation work, some types of household industry etc. A person's main activity should be ascertained with reference to such work in last one year even if he was not economically active in the week prior to enumeration".

Further, those who did not do any work in the manner described above, yet did some work to come under the category of secondary worker. As per 1971 definition, it was to cover "cases like persons performing household duties or students who may not be engaged in any other economically productive work at all, as also those who, though basically are performing household duties or students etc., for the purpose of their main activity, still participated in some other economic activity such as helping the household in several items of work, as in cultivation, or in household industry, or in looking after the cattle, in attending to family business etc., but not to the extent as a full time work. Such participation will be considered as secondary work of those persons.....participation of work that goes to augment the income of the household will only be treated as economic activity".

In 1981 Census any one who has done any work at all during the last one year is a worker. The definition of work as participation in any economically productive activity either in physical or mental way remain more or less the same as in 1971. But this time the population has been classified into three main groups, each mutually exclusive of the others. The main workers are those who have worked major part of the year preceding the enumeration. In other words, the main worker is somebody who has done economically productive work for at least 183 days during the year preceding enumeration. All workers have been categorised in four distinct parts viz. (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industries and (iv) Other Workers in 1981 Census. This is a major departure from the 1971 categories of workers. In 1971 Census the workers were divided in nine categories.

Marginal Workers :

The marginal workers are those who have worked any time at all in the year preceding enumeration but have not worked for a major part of the year. In other words, marginal workers are those who participated in economically productive work for less than 183 days during the year preceding Enumeration.

Non-Workers :

.Non-workers are those who have not done any economically productive work at all during the last one year All non-workers have been divided into seven categories in 1981 Census. They are (i) Students, (ii) Household duties, (iii) Rentiers/Retired persons, (iv) Beggers etc., (v) Inmates of Institutions, (vi) Dependents and (vii) Others.

District Census Handbook:

The District Census Handbook was started printing from 1951 census. The Government and the Development agencies felt necessity of the data at micro-level for the social and economic development all over the country during the post independence era. Until then, the compilation of data was limited to ditsrict, police station and town levels only. In 1951, it was extended to the mouza level.

The publication programme of district census handbook of 1951 continued undisturbed in 1961 also and it was enlarged with the introduction of official statistics.

The major changes in the District Census Handbook publication were introduced in 1971. The District Census Handbook 1971 was divided into three parts viz. Part XA, Part XB and Part XC. The first part dealt with village and town directories. In Village Directory the villagewise data on amenities available was given and information in respect of each town was given in the Town Directory. The Part XB consists of Village and Town wise (Ward wise for municipalities, town committes, and all statutory towns) Primary Census Abstract of the concerned district.

The third part i. e. Part XC dealt with the non-census data and social, economic and cultural tables. All the three parts were printed either in two valumes i. e. Part XA & XB and part XC or in three valumes part XA, part XB and part XC separately according to size of the districts.

The scope of District Census Handbook 1981 has been enlarged considerably specially in relation to the amenities available in the villages and towns and landuse pattern in villages and non-municipal towns The collection of data on recognised slums of Class I and Class II towns of the state is a new addition of 1981 in the Town Directory portion of the District Census Handbook. The format of the primary census abstract have been restructured due to the change of economic questions. The data on marginal workers collected through the canvassing of individual slips is an important addition. Workers have been categorised in four sectors instead of nine in 1971.

Scope of Village Directory :

A twenty column format was canvassed during 1981 census period for collection of data from each and every mouza within each police station. This is called village directory. The mouzas within a police station have been represented in order of their location codes. This twenty column format has been divided in four parts. The column nos. 1-4 represent general information, column nos. 5-14 represent amenities available, column nos. 15 to 19 are meant for landuse pattern and the column 20 contains special information in respect of historical, archaeological and religious interest about the mouza. At the end of each police station, the totalling has been done for column nos. 3 to 6 and 15 to 19. If any amenity is not available in the village a dash (—) has been marked in the relevant column and next to it the distance of the nearest place where the facility is available has been given in the broad ranges.

The following systems were followed for indicating educational institutions, if any, located within the villages. The abreviations used for the educational institutions are also given below :—

1. Primary or Elementary School (P)
   All nursery, kindergarten, pre-basic, pre-primary, Junior Basic School upto Class V and Primary School upto Class IV have been included in this group.
2. Junior Secondary or Middle School (M)
   All schools from Class V to Class VIII including Junior Madrasa upto Class VIII have been noted in this group.

3. Secondary School (H)
   All schools upto Class X including the schools providing Senior Cambridge Course and High Madr upto Class X have been treated as high school.

4. Higher Secondary School (PUC)
   All educational institutions where the education is imparted for Class XI and XII have been marked for this group.

While collecting the data according to the pattern as stated above certain limitations were imposed. We have considered only those institutions which are recognised by any competent authority and the specific classes of a school upto which recognition has been given. In case of composite schools like secondary schools with middle classes and primary classes or middle schools with primary classes, the relevant groups of classes have been treated separately, e. g., a composite school having classes upto XII (Twelve) has been divided as follows :—

Classes from	I	to	IV	...	(P)
"	V	to	VIII	...	(M)
"	IX	to	X	...	(H)
"	XI	to	XII	...	(PUC)

It is to be noted that by dint of the above kind of division, we are not going by how many educationa institutions physically exist within a village, but by occupying of classes each group being treated as a school of its kind. It is also to be noted that the said groupings will hold true irrespective of the educational institution they belong to. For example, the grouping marked as PUC i. e. Class XI and Class XII may physically belong to a college, but for the purpose of the Village Directory, these two classes taken together has constituted one unit of PUC., the rest of the classes has been treated as a college.

5. College (C)
   Any college with the disciplines of Arts, Science and Commerce have been grouped here.

6. Industrial School (I)

7. Training School (Tr)

8. Adult literacy Class/Centre (AC)

9. Other Educational Institutions (O)
   (Sanskrit tole, senior basic school, Makhtab etc. have been noted as others).

It is needless to mention once again that in sl. no. 5 to 9 the institutions having recognition from any competent authority have been taken into account.

In case of more than one institution of a type in the village, the number of institutions have been indicated

in brackets. If any of the educational institutions as stated above is located in a village, the existence of other types of educational institutions located in nearest village (S) have not been collected. Suppose, a primary school is functioning in the village, but there is no middle or high school in the village und reference, in this case we have not indicated the distance of the nearest place where a middle school for high school exists. Similarly, if there is a high school only in a particular village, no efforts are given or collecting distance of a nearest place where a primary or middle school exists. The distance by range of nearest place where educational facility is available have been collected from villages having no facility of any of the above mentioned nine categories of educational institutions.

In the medical fields there are a variety of amenities. These are indicated with abbreviations whether within the village exists any of the following medical institutions :—

Hospital	. .	H
Maternity Home	. .	MH
Child Welfare Centre	. .	CWC
Health Centre	. .	HC
Primary Health Centre	. .	PHC
Primary Health Sub-centre	. .	PHS
Dispensary	. .	D
Family Planning Centre	. .	FPC
TB Clinic	. .	TB
Registered Private Practitioner	. .	RP
Community Health Worker	. .	CHW
Others	. .	O

The information have been colleeted in respect of those institutions only which are organised and/or aided by Government/Semi-Government/Public bodies/Local bodies/Social Service Agencies like the missioneries. The institutions run by private individuals have not been covered. But the information on Registered Private Practitioners of any branch have been noted. If there are more than one facility in the village, the, same have been indicated in a ppropriate abbreviation. In case of more institutions of a type in the villages the number of institutions have been indicated against the abbreviations in bracket. Where no amenity is available within the village, a dash (—) has been shown in relevant column and any of the facilities as given above available in a nearest place have been noted showing the distance in broad ranges.

The sources of drinking water available within the village have been indicated by codes as follows :—

Tap	. .	T	Fountatin	. .	F
Well	. .	W	Canal	. .	C
Tank	. .	TK	Lake	. .	L
Tubewell	. .	TW	Spring	. .	S

Hand Pump	HP	Nallah . .	N
River water	R	Others . .	O

If there are more than one source of drinking water in the village, the same have been indicated in appropriate abbreviations in the relevant column. In absence of any source of drinking water in the village, a dash has been given in the relevant column and next to it the distance in broad ranges of the nearest place where any of the aforesaid facilities is available has been given.

The Post & Telegraph amenities available within the village have been collected by codes as given below.

The Post Office includes Branch and Sub Post Offices also. The villages having no facilities in respect of Post & Telegraph, have been marked by dash (—) in the relevant column and next to it the distance in broad ranges of the nearest place where any of the facilities as given below is available has been noted.

Post Office	. .	PO
Telegraph Office	. .	TO
Post & Telegraph Office	. .	PTO
Telephone connection	. .	Phone

The information on hat, market have been collected for each village. The day(s) of the week on which market/hat is held have been taken into account. Where the market/hat is held daily in a village, it has been recorded as "daily'. In absence of hat/market in the village, the distance in broad ranges of the nearest place have been shown where it is held.

It has been looked whether the village is served by any mode of public transport like bus, rail and waterways and the abbreviations adopted for this purpose are given below :—

Bus	. .	BS
Railway Station	. .	RS
Navigable waterways (including river, canal etc.)	. .	NW

It there is more than one facility in the village, these have been indicated separately by individual codes as given above. If no facility is available within the village, a dash is shown in the column and next to it in brackets, the distance in broad ranges of the nearest place where the facility is available is given.

Approach to the village refers to the state of roads leading to the village from the communication centre. The approach to village have been indicated by following abbreviations :—

Pucca Road	. .	PR
Kuccha Road	. .	KR
Navigable River	. .	NR
Navigable Canal	. .	NC
Navigable Waterway (other than river or canal)		NW

If there is more than one approach to a viliage, the same has been given by appropriate codes in the relevant column.

The name of the nearest town and its distance in kilometers from the village has been collected. The nearest town so indicated may not be located within the state of West Bengal, this may be located in the neighbouring state also. The operational conveniences have only been taken into consideration while collecting this information. Only those towns have been considered, which have been declared urban according to 1981 Census.

The facilities of power supply have been collected from the village where it is available in the following codes :—

Electricity for Domestic consumption	ED
Electricity for Agricultural consumption	E. Ag.
Electricity for other purposes like industrial, commercial etc.	EO
Electricity for all purposes listed above	EA

Whcre the power is consumed for more then one purpose, this has been indicated accordingly.

The staple food, only in terms of grains, consumed by the majority population of the village during the major portion of the year have been recorded. The grains may be rice, wheat, jawar, maize etc. Sometimes a combination of these grains have been consumed by the villagers as the staple food. In that case, it has been indicated as reported.

The landuse pattern of the village has been presented in five broad categories. These are as follows :—

1. Forest : –This includes all lands classed as forests under any legal enactment dealing with forests. This may be owned by the state or by any private individual. Land maintained as potential forest land have also been treated as forests. Any area used for any other purpose but situated within the forest so defined, is treated as 'forest'.

2. Irrigated land :—It relates to the land which has actually been irrigated under different types of irrigation for the purpose of cultivation. The sourcewise break-up of area in hectares under different systems of irrigation has been given. The codes in respect of sources have been noted as under :—

Government Canal	. .	GC
Private Canal	. .	PC
Well (without electricity)	. .	W
Well (with electricity)	. .	WE
Tube well (without electricity)	. .	TW
Tubewell (with electricity)	. .	TWE
Tank	. .	TK

Lake	. .	L
River	. .	R
Waterfall	. .	WF
Others	. .	O

3. Unirrigated land :—All areas under rainfall crops or under dry rice cultivation have been classified as unirrigated areas.

4. Culturable Waste :—It is defined as the lands within cultivated holds have not been cultivated during the current year and last five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles. Land under thatching grasses, bamboo/ bushes and other groves for fuels etc., which are not included under orchards or forests and land grazing, meadows have also been included in this category.

5. Area not available for cultivation :—This stands for barren, uncultivable land and land put to non-agricultural use. Barren and unculturable lands cover land within cultivable holdings which cannot be brought under cultivation without incurring a high cost. Land put to non-agricultural use stands for all lands occupied by buildings, roads and railways or under water, e.g. rivers and canals etc.

Any important place of religious, historical and archaeological interest within the village have also been mentioned in the village directory. Information on the number of copies of newspapers coming in the village, and motor cycles / scooters / cars / Jeeps and tractors available in the village have been mentioned accordingly and denoted the following codes :—

Newspapers	. .	N
Motor cycles/scooters	. .	M
Cars/Jeeps	. .	C
Tractors	. .	T

In addition to the information that have been collected through Block Development Office, the following four appendices to the Village Directory have also been compiled :

I. Police Stationwise abstract of educational, medical and other amenities,
II. Land utilisation data in respect of non-municipal (non-statutory) Census Towns,
III. Police Stationwise list of villages where no amenities are available.
IV. Police Stationwise list of villages according to the proportion of scheduled castes/scheduled tribes population by ranges.

The first two appendices have been provided for obtaining actual position regarding various amenities available in the police station and as well in the district and the land utilisation pattern in the non-municipal

census towns which have been treated urban by virtue of the criteria prescribed for urban units. Appendix III has been devised for planning input in areas where basic infrastructure is lacking. Appendix IV has been prepared for the purpose of planning of welfare programmes for scheduled castes and scheduled tribes at micro-level, particularly in relation to the area development oriented programmes.

Scope of Town Directory :

The Town Directory has been prepared for all the statutory towns like, Municipal Corporation (MC), Municipalities (M), Notified Areas (NA), Town Committees (TC) and Cantonment areas as well as the non statutory census towns (NM) including the outgrowths. The particulars about each town have been presented in seven statements each dealing with a particular set of information. The information so collected in the seven statements is independent of each other. The statement IV A is a new addition in town directory statements. It covers the information regarding demographic, civic and other amenities available in the notified or recognised slums having a population of 50,000 or more. The towns having outgrowths have been identified with the asterisk mark (*) and information available on outgrowths for each statement have been included with the information of core town. In some cases we have failed to give information as detailed in the statements. In that case information not available (NA) has been quoted in the respective column.

The population of each town during 1981 Census has been considered for determining the class of towns. All the towns have been divided into six classes according to the range of population. They are as follows :

1.	Population one lakh and above	. . Class I
2.	Population from 50,000 to 99,999	. . " II
3.	Population from 20,000 to 49,999	. . " III
4.	Population from 10,000 to 19,999	. . " IV
5.	Population from 5,000 to 9,999	. . " V
6.	Population less than 5,000	. . " VI

A brief discussion on seven statements is given below :

Statement I

This statement provides some basic data based on the primary census Abstract. It deals with the status and growth history of the town. The column nos. 1 to 5 give information on class, civic status, name of the town and its location code with the police station the town belongs to. The area of the town in square kilometer has also been given. The column nos. 6 to 19 give demographic information of the town. Where the town did not have any urban status for the reference year (s), a 'dash' (—) has been given under these column(s). The decadal growth in percentage has been shown below the population figures from column nos. 8 to 15. The status of the statutory towns has been fixed as on April 1980.

Statement II

The statement deals with the physical aspects and location of the town as on April 1980. This statement is divided into two. First dealing with the climatological data which include rainfall and maximum-minimum temperature. The information on climatological aspects are not available in respect of some of the towns. In that case the information noted from the nearest place where it is available. This alternative however, could not be followed uniformly due to the fact that the data are not available for the nearest place even. In such cases the information not available (NA) has been stated. In the second part i. e. in column nos. 6 to 12 the locational particulars have been stated for the referrent town.

Statement III

Data on municipal finances for the year 1978-79 have been presented relating to the civic administration of the statutory bodies. The information in respect of the non-municipal census towns have also been collected wherever available and have been shown in the statement. The information on finances have been collected from the concerned local body. In case of non-municipal census towns, the information has been collected from the panchayat. The non-municipal census town having no information has been marked with information not available (N. A.).

Statement IV

This statement contains 19 columns. The column nos. 1 to 5 provide general information of the town and the column nos. 6 to 19 deal with the amenities having in the referrent town. Where the town is not served by the fire fighting services of its own, the name of the nearest place from where the referrent town gets services has been given. In absence of any of the public amenities as referred to in col. 6 to 19 the relevant column has been depicted suitably like dash (—) which means amenities not available and information not available (NA) respectively.

Statement IV A

Information about notified or recognised slums have been given in this statement. The information is limited to the slums located in class I and class II towns only. The civic and other amenities that are being available to the slum-dwellers have been given in this statement. In case of more than one slum in a town, it has been spelt-out separately and the information have been submitted separately for each slum.

Statement V

This statement deals with the medical, educational, recreational and cultural fecilities existed in the town as on 1979. If there is more than one institution of any type, it has been indicated within bracket in number. In case of medical institutions, the institutions run by the private doctors have not been taken into account. The institutions run by or aided by Government, Semi-Government, Local Bodies, Charitable Institutions, Social Service Agencies like Missionaries etc. have been counted. Where these facilities were not available, the

distance of the nearest place where these facilities are available has been noted. The Family Planning Centres attached to hospitals or Maternity and Child Welfare Centres or Primary Health Centres have been treated as separate units. The Maternity and Child Welfare Centres, Venereal Disease Clinic, Chest Clinic and Leprosy Clinic etc. have been treated as independent institutions and indicated in "Others" category of medical institutions.

While presenting the data on educational institutions, the same procedure as in village directory has been follfowed in respect of the school and college education. The column 6 includes educational institution like Teachers' Training Collage, Basic Training College etc. The information on short hand, typewriting and other vocational training institutions have been given in column 10. In this case only the recognised institutions have been considered. The "rocognised" means recognised by any statutory authority— like the education department, commerce department, labour department etc. of the Government or Semi-Government or autonomous bodies, Public sector projects like municipality, corporation etc.

The vocational institutions like Music/Dancing School, Art College, Painting/Clay-modelling institutions etc. have been covered under column 10. The Institutions which are not included in cols. 6 to 14 have been taken in col. no. 15 under 'Others'. The columns 17—20 deal with the recreational and cultural facilities of the town.

Statement VI

This statement contains particulars of Trade, Commerce and Industry of the town. It also depicts information on Banking institutions like Banks, Agricultural Credit Societies and non-agricultural credit societies.

The details of abbreviations used in different statements of Town Directory are given below :—

Brief history of the district

Barddhaman derives its name from the sanskrit word Vardhamana implies a place which is growing and prospering. East India Company took over the district of Barddhaman in 1760. The present area of the district, was carved out from an area which also included the present district of Bankura. Formerly Bankura was known as Western Barddhaman, sans the parts of Hugli and Birbhum. In 1805, a new district came into being named as Jungle Mahals comprising the western parganas of Senpahari and Sergarh which are now in the Asansol subdivision of the district Barddhaman together with the territory now included in Bankura. The parganas were afterwards restored to Barddhaman when the district of Bankura was formed in 1833. In 1820, the District Hugli was formed into a separate district. This also resulted in the variation in the areas and boundaries of Barddhaman and Hugli. In 1827, the area of the district increased again from 7316.72 sq. kms. to 9292.88 sq. kms. with the transfer of areas from Manbhum, Bankura and Hugli to this district. In 1872, the police stations of Sonamukhi, Kotalpur and Indus were retransferred to Bankura from Barddhaman and the Jahanabad subdivision was transferred to Medinipur. The district assumed more or less its present boundaries in that year although minor transfers to and from the district continued to occur. The sub-divisions of Kalna and Katwa have remained more or less constant in their area and configuration since 1820, while the sadar subdivision assumed its present shape about the year 1879. The Asansol subdivision took shape towards the end of the nineteenth Century. Its headquarters used to be at Raniganj from where it was transferred to Asansol in 1906.

Physical Aspects :

The district Barddhaman is situated between 22°56′ and 23.53.′ north latitude and between 86°48′ and 88°25′ east longitude. The distriet contains an area of 7024.0 sq. kms.

The district lies between the Ajoy and Bhagirathi or Hugli rivers. It is bounded on the north by the Santal Parganas of Bihar, Birbhum and Murshidabad districts , on the east by Nadia ; on the south by Hugli and Bankura, and on the West by Puruliya. Ajoy separates the district on the North from Birbhum and Murshidabad districts forming a natural boundary line till shortly before its junction with the Bhagirathi , while on the south the Damodar, running parallel to the Ajoy for a considerable portion of its course, forms the main boundary. On the west, the Barakar passes along the north-western boundary for a few kilometres before its confluence with the Damodar and divides the district from Puruliya. On the east, the Hugli or Bhagirathi forms the main boundary with Nadia but Nabadwip town on the right bank of the river belongs to Nadia district. The south-western boundary marches with the Bankura district. The natural boundaries formed by the rivers to the north, east and south are fairly constant and there have been no major changes over the period.

Major characteristics of the district.

1. In the district Barddhaman 30, 949 hectares of the total land were covered by forest in 1972-73. These forest areas are broadly classified into Reserved Forests, Protected forests and unclassified state forests and lands. 329 hectares of land were under reserved forests, 21,359 hectares were under protected forests and 9261 hectares were covered by unclassified state forests and lands during the same reference period.

2. The district Barddhaman has the pride of having as many as 107 coal mines within its juristdiction. The coals are being mined in Raniganj Coalfield since the year 1800. It has been estimated that the Coking Coal has been reserved in Raniganj Coalfield about 82 million tonnes upto the tonnes of 304·8 metres and 250 million tonnes upto the tonnes 609.6 metres. Besides there are vast reserves of superior non-coking and inferior quality coals in these areas.

The total out-put of coal In Raniganj coalfield during the year 1981 was 20.4 thousand tonnes which was 16·03 percent of the all-India output. In 1981, the total raising of coal in Raniganj Colfield was 19, 951, 251 tonnes, the total value of which were 3,337, 283 thousand rupees. During the same year the coal despatched to the extent of 18, 129, 407 tonnes for 597, 360 tonnes. Of the 107 mines in Barddhman, 6 had no output in 1981, 32 had the output of 120, 001 to 180, 000 tonnes. 15 mines raised 180, 001 to 240, 000 tonnes, 10 mines raised 240001 to 300. 000 tonnes and 19 mines produced coal from 300, 001 to 600, 000 tonnes. On the lower side, the output of 3 mines was 7201 to 30, 000 tonnes 5 mines had the output of 30001 to 60, 000 tonnes, 8 mines produced 60001 to 84000 and 9 mines raised coal from 84001 to 120000 tonnes in 1981. Regarding the production, despatches and stock etc. of soft coke made at collieries in 1981, 5 mines raported that they made 288643 tonnes coke during the year 1981 and despatched coke 275460 tonnes. The total value of the coke worked out 43548 thousand rupees.

Raniganj coalfield also contains large reserves of iron ore occurring chiefly as nodules. Good quality fire clay occurs in the Barakar stage of the Raniganj coalfield. The clay occurs in the form of seams

very much like coal. Such clays are found both above and below the coal seams, as bands in coalseams and also separately in the sand stone sequence.

Besides the fire clays, various other types of useful clays occur at several places in the Raniganj coalfield belt, of which, the pottery clays of the Ronei and the light coloured brick clays of Durgapur deserved special mention.

Inexhaustible deposits of sand, well suited for the purpose of sand-stowing in the collieries are found on the beds of the Demodar, Barakar and the Ajay.

3. The entire district derives its power from West Bengal State Electricity Board. All the 49 towns in the district have been electrified and out of 2570 inhabited villages, 966 villages have been provided with electricity which accounts for 37.59 percent. The information in this regard for 7 villages of Bud Bud police station are not available.

4. The classification of landuse area in district Barddhaman as in 1976-77 is given below :—

A)	Net cropped area	472.63 thousand hectares
B)	Land put to non-agricultural uses	120.83 ,,
C)	Barren and unculturable waste	0.79 ,,
D)	Permanent pasture and other grazing land	0.09 ,,
E)	Miscellaneous tree crops and groves	8.21 ,,
F)	Culturable waste	47.39 ,,
G)	Other Fallow land	4.29 ,,
H)	Current Fallow	15.37 ,,

5. After the promulgation of the West Bengal Land Reforms Act 1955, the Zamindary system has been abolished and tenancy system has undergone a radical changes keeping in line with the agrarian reforms. The interests of the Bargadars (share croppers) are primarily looked into and their lawful claims are upheld.

6. The district Barddhaman is predominantly an agricultural district which is properly known as the granary of West Bengal. According to 1981 Census 53.82 percent of the total workers of the district depends on agriculture (i.e. cultivators and agricultural labourers). In the year 1976-77, the total area covered under the production of foodgrains was 553.5 thousand hectares. Rice was cultivated in 493.1 thousand hectares of land, wheat in 36.7 thousand hectares, pulses in 23.4 thousand hectares, oilseeds in 8·4 thousand hectares and the miscellaneous crops like potato, sugarcane etc. in 24.5 hectares of land. In respect of fibrecrops, jute and masta were cultivated in 14·3 thousand hectares of land.

The total foodgrains produced during the year 1976-77 were 857.0 thousand tonnes, of which cereals produced to the extent of 845.2 thousand tonnes. Of the cereals, 765.3 thousand tonnes were rice and 79.7 thousand tonnes wheat. The fibres produced during the same year i.e, 1976-77 were 145.1 thousand bales, of which jute produced was 136.8 thousand bales (180 kgs. in each thousand bale) masta and 7.4.

thousand bales. A small quantity of sunhemp ie 0.9 thousand bales was also produced in the district the during reference year.

The yields per hectare of land during the year 1976-77 were 1552 kgs. for rice and 2172 kgs. for wheat. The district has a very good net work of irrigation facilities. The main sources of irrigation are Governmant canals, Tanks, wells and tubewells. The Mayurakshi canals— a major irrigation project, covered an area of 15081 hectares in the district in 1976-77. 254657 hectares of land were irrigated by Damodar Valley Barrage - another major irrigation project of the state.

7. The Asansol subdivision of the district is one of the major industrial regions in the state of West Bengal. The most important of which is Durgapur which has been built up as an industrial complex of the state. A large number of large sized industries has come up in the Durgapur township. Besides, three important steel works are found at Kulti, Hirapur and Burnpur. Likewise, locomotive works at Chittaranjan, a big alluminium works at J. K. Nagar, a large paper mill at Raniganj are the important industries that deserve mention. Till 1977, the following registered factories were found in the district, the names of which are given below :

Name of Industries	Number
1. Manufacture of pasturised milk in bottles	1
2. Bread making	1
3. Manufacture of edible oils and fats e.g. Mustared oil, groundnut oil, til oil etc.	15
4. Manufacture of ice	3
5. Distilling, rectifying and blending of spirits	1
6. Production of country liquor and toddy	1
7. Cotton spinning and weaving	1
8. Weaving of cotton textiles in powerlooms	4
9. Manufacture of custom made wearing apparel	1
10. Sawing and planning of wood (other than plywood)	7
11. Manufacture of wooden boxes barrels etc. except of plywood	1
12. Manufacture of structural wooden goods (including treated timber)	1
13. Manufacture of wooden furniture & fixture	2
14. Manufacture of paper	1
15. Manufacture of paperboards and strawboards (machine made)	1
16. Printing, publishing and allied activities like envelop printing, picture postcard printing, embossing etc.	2
17. Plastic moulded industrial accessories (like knols, radio cabinet fixtures etc)	1

18.	Manufacture of other coal and coalter products	3
19.	Manufacture of basic heavy inorganic chemicals	5
20.	Manufacture of basic heavy organic chemicals	1
21.	Manufacture of organic fertilisers	I
22.	Manufacture of indigo	1
23.	Manufacture of fire bricks	3
24.	Manufacture of refractories	6
25.	Manufacture of furnace linning bricks (acidic, basic and neutral)	3
26.	Manufacture of hollow glassware (bottles, jars etc)	2
27.	Manufacture of sheet and plate glass	1
28.	Manufacture of glasswood	1
29.	Manufacture of optical glass	1
30.	Manufacture of cement	1
31.	Manufacture of lime	1
32.	Stone dressing and stone crussing	1
33.	Manufacture of hume pipes and other cement and concrete products (including slabs, poles, pillars and screens)	21
34.	Manufacture of graphite products such as electrodes crucibles etc.	1
35.	Manufacture of iron and steel	2
36.	Manufacture of special steel	1
37.	Manufacture of casting and forgings	14
38.	Manufacture of structurals	2
39.	Manufacture of others (foundries for casting and forging iron and steel)	2
40.	Melting and refining of metel (copper)	1
41.	Wire drawing	1
42.	Making of brass and rolling into basic form	1
43.	Manufacture of others (fabricated metal products)	8
44.	Manufacture of structural metal products	4
45.	Manufacture of furniture and fixtures primarily of metal	1
46.	Manufacture of bolts and nuts	1
47.	Manufacture of utensils	1
48.	Manufacture of springs	1
49.	Manufacture of light agricultural machinery and equipment	1
50.	Manufacture of earth moving machinery	2

51.	Manufacture of parts and accessories of heavy machinery etc.	1
52.	Manufacture of boilers and steam generating plant	1
53.	Manufacture of sugar machinery	1
54.	Manufacture of general items of non-electrical machinery etc.	2
55.	Manufacture of size separation units—screens classifiers etc.	1
56.	Manufacture of others including general jobbery engineering	5
57.	Manufacture of switch gears	1
58.	Manufacture of insulated wires and cables	2
59.	Manufacture of others under electrical machinery, apparatus etc.	1
60.	Manufacture of electric locomotives	1
61.	Manufacture of railway wagons	2
62.	Manufacture of parts and accessories of railway wagons and coaches	1
63.	Manufacture of others under rail road equipments	1
64.	Manufacture of parts and accessories of motor vehicles and parts	1
65.	Manufacture of bicycle	1
66.	Manufacture of forklifts and other material having equipment	1
67.	Generation of transmission of electric energy	6
68.	Distribution of electric energy to household industrial and commercial and other users	6
69.	Manufacture of gas in gasworks and distribution through mains to household, industrial, commercial and other users	1
70.	Water supply i.e. collection, purification and distribution of water	5
71.	Pipeline transport	2
72.	Cold Storage	8
73.	Storage and warehousing not elsewhere classified	1
74.	Flour milling (by power machine)	2
75.	Rice Milling (by power machine)	87
76.	Manufacture of automatic, capstans, turrets and lathes	1
77.	Sanitation connected with public Health e.g. garbage clearance etc.	2
78.	Education services rendered by technical or vocational colleges, schools and other institutions	1 1
79.	Laundry, laundry services, dyeing and plants	3
80.	Electrical repair shop	2
81.	Repair of motor, vehicles and motor cycles	7
83.	Repair of enterprises not elsewhere classified	3

Apart from the aforsaid registered factories, registered small scale industrial units numbering 7649 (as on 31.3.77) have also been located in the different parts of the district.

(8) The principal commodity for trade in the district is rice. Rice is exported from the district to other districts of the state. Jute, potato and green vegetables are also exported in varrying quantities.

(9) The district is well connected by rail and road. The district headquarters Barddhaman is connected by rail and road with the state headquarters Calcutta. The District headquarters Barddhaman and the subdivisional headquarters Asansol—both are being railway junctions. The main line of Eastern Railway traverses the district, as well as the loop and chord lines, branching north at Khana junction and Sitarampur. At Ondal, a branch of the Eastern Railway main line connects Suri, the district headquarters of Birbhum. The Grand Trunk Road passes through the district from Calcutta. The road traverses the district of 160 kilometers running parallel with the Eastern Railway main line. There is another long road connecting the district headquarters Barddhaman with Katwa—the subdivisional headquarters of the district. The length of the road is about 56 kilometers. The road from Barddhaman to Kalna which is about 55 kilometers in the length generates from the district headquarters Barddhaman. The road from Barddhaman to Bankura is about 17 kilometers. As in 1977, the district had 1408 kilometers Extra Municipal Roads maintained by public works and public works (Roads) departments. During the same reference year the district Barddhaman possessed 2364 kms Extra Municipal Roads which was being maintained by the Zilla Parishad. Whereas, as per 1976 records the municipalities of the district of Barddhaman owned 319·01 kms road length.

Places of Religious, Historical or Archaeological and Tourist Interest.

The district has several important ancient monuments and temples. Among the temples. a group of 108 sivalingam temples were found in Nawabhat (J. L. No. 16) which were built in 1788. A very fine specimen of brick temple of Bengal hut type tradition with superb terracotta clay tiles is found in the village Kanchannagar (J. L. No. 26). Both the temples are in the sadar police station. Likewise, Sivanidevi temple, the temple of Gopeswar Mahadeva, the temple of Gopinath and the temple of Madan-Gopal Jiu are all located in the village Kulingram (J. L. No. 118) under the police station Jamalpur. Deuliya temple is situated in the village Deule (J. L. No. 137) in the police station Memari. The stone temple at Ganrui (J. L. No. 3) is another important temple is found in police station Asansol, fine stone temples at Begunia, in Barakar town and the temple Kalyaneswari in the village Debipur (J. L. No. 1) are situated in Kulti police station, Whereas the Pandeveswar temple in the village Baidyanathpur (J. L. No. 5) of the police station Ondal, the beautifully built brick temple known as the temple of Ichhay Ghosh in the village Gourangapur (J. L. No. 28) of the police station Kaksa, the Gopeswar temple situated at Uttar Goara (J. L. No. 93) in Kalna police station, a few very old temples, one of which dedicated to Siva in Manteswar police station, the pithasthans in the villages Khirgram and Kogram (J. L. Nos. 128 and 58 respectively) in the police station Mangalkot and the temple of Billeswar or Billanath in Mouza Charkhi (J. L. No. 76) in the police station Ketugram are the other temples deserving particular mention.

In Barddhaman town, the tombs of Sher Afgan, Kutb-ud-din Pir Bahram Sekha and Khoja Anwar Shah are places of historical importance. The remains of the fort of Ramananda Thakur in the village Kulingram (J. L. No. 118) in the police station Jamalpur are the relics of the part. The remnant of an ancient

tomb at Bhalki village (J. L. No. 101) in Ausgram police station, a ruined stone fort known as Raja Narottam fort in the village Churulia (J. L. No. 6) of Jamuria police station, the remains of the tiny fort in Kaksa town, the Rajgarh fort in the village Rajgarh of the police station Kaksa, the old muslim fort, the tomb of Majlis Saheb in Kalna town are the other important places in the district, The remains of the Rajas of Barddhaman from Abu Rai to Jagat Ram Rai are preserved in a building called Samajbari in Dainhat town.

ANALYSIS OF DATA

It is a Census tradition to analyse certain data on Social and demographic information collected during census enumeration and from ancillary project like Town Directory and village Directory. The District census Handbook 1951 and 1961 were decorated with such analysis which were most attractive to the scholars. The District Census Handbook 1981 follows the same manner as in 1951 and 1961. A large number of inset tables has been prepared on Town Directory, Village Directory and primary Census Abstract to make the analysis more scientific and acceptable.

Table—1 DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITIES

Note—Information from Seven Villages of Bud Bud Police Station are not available

TABLE—1

Table 1 deals with the distribution of villages according to the availability of different amenities. Looking at the district as a whole 82.57 percent of the inhabited villages of the district are served with educational facilities. Police Stationwise the highest percentage of villages having educational facility is in Ketugram (99.15). This percentage is found lowest in Salanpur Police Station i.e. 50.77 percent.

Regarding medical facilities in the villages of the district 13.81 percent of the inhabited villages are provided with medical facilities of any type or the other. The highest percentage of the inhabited villages served with medical facilities is in Ausgram Police Station i.e. 33.10 percent. This percentage is found lowest in Mongalkote followed by Kalna (4.65 and 4.76 percent).

98.95 percent of the inhabited villages of the district are covered by the drinking water facilities. There are 16 Police Station in the district where all the villages have drinking water facilities.

There are 21.44 percent of the inhabited villages of the district served with either Postal or Postal & Telegraph both within the limits of the villages. The highest percentage of villages served with Postal & Telegraph facilities is in Bhatar Police Station i.e. 35.24 percent.

7.94 percent of the inhabited villages of the district have markets/Hats.

It is seen from the table that 33.62 percent of the inhabited villages of the district have got communication facilities. The highest percentage of such villages is found in Barabani i.e. 74.00 percent.

29.53 percent of the inhabited villages of the district are approachable by Pucca Road. The highest percentages of inhabited villages approachable by Pucca Road from the nearest communication point are found 74.36 and 72.00 percent of the villages of Kulti and Barabani Police Stations.

37.63 percent of the inhabited villages of the district have electricity. It may be noted here that 79.89 percent of the inhabited villages of Purbasthali Police Station and 77.21 percent inhabited villages of Monteswar Police Station have the privilege of having Power Supply.

TABLE—2

Table 2 presents data in respect of the proportion of rural population served by different amenities. It is seen from the table that 91.70 percent of the rural population of the district have been provided with educational opportunities. Among the Police Stations, Durgapur and New Township provide education to the 100 percent of their population. In the police stations of Ketugram and Raniganj, the proportions of rural population served by the education facilities to the extent of 99.92 & 99·46 percent respectivly.

24.50 percent of the rural population of the district of Barddhaman have medical facilities. Among the police stations this percentage is highest in Barabani by 48.12 percent & lowest in Kalna by 6.47 percent. There are 16 Police Stations in the district where entire rural population are enjoying the facilities of drinking water. At the district level 99.47 percent of the total rural population are served with the drinking water. The lowest proportion of 86.00 percent of rural population in Bud Bud police station have the facilities of the drinking water.

Regarding the post & telegraph facilities in the rural area of the district, 40.86 percent to the total rural population are served with post & telegraph facilities. Market/Hat comprises 18.64 percent of the total rural population. Communication facilities lead to 43.55 percent. 38·50 percent of the total rural popula tion of the district have the privilege of having approach by Pucca Road. At the district level 46·41 percent of the rural population are equiped with electricity. Police stationwise Bhatar tops the list by 58.53 percent in respect of the post & telegraph. Ketugram with the proportion of 32.27 percent in respect of Market/Hat and Kulti with proportion of 86.91 percent for communication, supersede the proportions of other police stations.

TABLE—3

Table 3 provides informations o those villages which do not have one or the other amenitie in the villages but they are available at a distance by different ranges. It is seen from the table that 17.16 percent of the total inhabited villages of the district do not have any type of educational institutions in the villages, but the educational facilities are available within 5 Kilometers for 99.09 percent of them. 85.91 percent of the total inhabited villages of the district are deprived of medical facility. 73.10 percent of such villages have it within a radious of 5 Kilometers only. Among the rests 20.65, and 86.25 percent are served by the medical facilities available at the distance beyond 5 Kilometers and above 10 Kilometers respectively. There are only 0.78 percent of the inhabited villages which have no drinking water facilities but these villages get such facility of drinking water within 5 Kilometers of distance.

2012 inhabited villages which worked out to 78.29 percent of the inhabited villages have no postal & telegraph facilities, but 94.23 percent of them enjoy such facilities within a radious of 5 Kilometers only. The facilities like Market/Hat and communication are not available in 91.79 and 66.11 percent of the total inhabited villages respectively. It may be noted here that 80.58 percent of the villages without any Market/Hat get this facility within 5 Kilometers from their respective jurisdiction. In case of communication 46.14 percent of the villages without communication facility get it within 5 Kilometers only.

Table—4 DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

Distance range from the nearest Town (in km.)	Number of Inhabited Villages in each range	No. (with Percentage) of Villages having amenity of

TABEL—4

Table 4 shows the distribution of villages according to the distance from the nearest town and availability of different amenities. It is observed from the table that 14 villages are located at a distance of 51 kilometers or more from the nearest town. 13 of them which accounts for 92.86 percent have the educational institutions. It is observed from the table that a uniform pattern has been followed in respect of percentage of medical institutions situated at a different range of distances from the town except 51 plus. The lowest proportion of medical facilities i.e. 7.14 percent of the villages is found at a distance 51 kilometers or more.

It has already been narrated in the foregoing analysis that the drinking water facilities are highly satisfactory in the villages of the district. Further to note that 100 percent of the inhabited villages beyond 51 kilometers or more from the nearest town have drinking water sources. The major proportion of villages which have Post & Telegraph facilities, Market/Hat and communication opportunities in the villages fall in the distance range of 16-50, (23.38%) 6-15 (8.28) and upto 5 kilometers (55.55%) respectilvey. The highest proportion (52.27%) of villages approachable by Pucca Road fall in the distance range of 0-5 kilometers. The villages having power supply have been concentrated to a largest extent in the distance range of 51 plus (85.71%).

TABLE—5

Table 5 gives distribution of villages according to population ranges and amenities available. The table shows that the largest number of villages have been concentrated in the population range of 500-1999. 88.96 percent of the villages in this range have educational facilities. Of the villages with the population of 5000 and above, 54.24 percent of them have medical facilities. 100 percent of the villages in this range have drinking water facilities. It would be observed from the table that larger the size of the villages greater the amenities available.

Table—6

MAIN STAPLE FOOD IN THE MAJORITY OF VILLAGES IN EACH POLICE STATION

Sl. No.	Name of Police Station	Main Staple food
1	2	3
1	Chittaranjan	Rice and Wheat

29	Kalna	210	33,884·87	75·72	61.87
	Total :	2,570	642378·79	75·74	59·35

TABLE—7

Table 7 relates the distribution of villages of Barddhaman district according to land use. Out of a total area of 642378.79 hectares for inhabited villages of the district, the cultivable area is 75.74 percent of which 59.35 percent is irrigated. The percentage of the total irrigated area among the police stations of the ditrict is found highest in Bhatar i,e. 87.10 followed by Khandaghosh (81.22) & Galsi (81.08). Salanpur Police Station has recorded the lowest irrigated area among the potice stations of the district i.e 2.28 percent. The percentage of cultivable area to total area is remarkable in Mongalkote (84.56) police station while the lowest has been recorded in the police station Raniganj (15.54).

Table—8 GROWTH, DENSITY AND SEX-RATIO OF URBAN POPULATION

DISTRICT

Census Year	Total Population	Urban Population	%Urban Population	Decadal Percentage Variation on Urban Population	Density (Population Per Sq. K.M.)	Sex-ratio (No. of Female per 1,000 Males)
1	2	3	4	5	6	7
1951	2,191,667	323,941	14·48	+45·16	3,215	777
1961	3,082,846	561,078	18·20	+73·20	2,569	699
1971	3,916,174	891,990	22·78	+58·98	2,851	785
1981	4,835,388	1,421,169	29·39	+59·33	2,989	815

TABLE—8

Table 8 gives information of growth, density, sex-ratio of Urban population in the district in relation to the state. The percentage of urban population works out to 29.39 percent in 1981 which is the highest in relation to the three previous censuses. It may be noted here that 27 new towns have come into existance in the district of Barddhaman over 1971. Considering the decadal veriation of urban population, 1961 recorded the highest variation (73.20). The decadal variation in 1981 is 59.33 percent which is obviously higher than 1971.

IN THE DISTRICT IN RELATION TO THE STATE

STATE WEST BENGAL

Total Population	Urban Population	%Urban Population	Decadal Percentage Variation of Urban Population	Density (Population Per Sq. K.M.	Sex-ratio (No. of Female per 1,000 Males)
8	9	10	11	12	13
26,299,980	6,281,642	23·88	+32·52	5,180	660
34,926,279	8,540,842	24·45	+35·97	5,009	701
44,312,011	10,967,033	24·75	+28·41	5,624	751
54,580,647	14,446,721	26·47	+31·73	5,462	819

The density per Sq. Km. and sex-ratio of the district in 1981 are 2989 & 815 respectively. On the other hand the state has lower proportion of urban population (26.47) and the lower proportion of decadal variation (31.73) in comparison to the district. But the density of urban population per Sq. Km and sex-ratio at the state level are higher than the district. The figures are 5462 and 819 respectively.

TABLE—10

The per capita receipt & expenditure in the urban units of the district have been worked out in the table 10. Of the 49 towns in the district, the information of 29 towns are not available. The receipt & expenditure of Chittaranjan-a Railway town—is maintained by the Railway anthority for the entire Railway establishment, so the sepatate accounts for the town area is not available. Per capita receipt & expenditure have been calculated on 19 towns only from where these information are available. Among the 19 towns the per capita reeeipt (79·23) is noticed highest in Katwa municipality followed by Raniganj municipality (56.19). The lowest per capita receipt is found in Kulti and Outer Burnpur-both non-municipal towns. Katwa municipality tops in respect of the per capita expenditure among the 19 towns (60.57). Raniganj ranks second with 50.42 per capita expenditure. The lowest per capita expenditure is observed in the town Kulti and Outer Burnpur with 0.07.

TABLE—11

Table 11 gives information on schools per ten thousand population in the towns of the district. There are in all 1421169 inhabitants in the urban areas of the district and they have been provided with the Higher Secondary/PUC institutions to the extent of 0.65 per ten thousand population. The highest number of such institutions per ten thousand population comes to 1.49 in Chak Bankola while the lowest is in Kulti with 0.24. In case of Secondary the over all position of the district per ten thousand population works out to 1.05. Townwise, the highest number of Secondary institutions is noticed in Hindustan Cables town (3.88). Likewise, Junior Secondary/Middle and Primary institutions per ten thousand population are also highest in Hindustan Cables town. The district figures for Junior Secondary/Middle and Primary institutions per ten thousand population in the urban sectors of the district are 1·35 & 4.17 respectively.

TABLE—12

Table 12 depicts the picture of number of beds in medical institutions per one thousand population in the towns of the district. Of the 49 towns of the district only 19 towns have the privilege of having medical institutions with beds. Number of beds in medical institutions per 1000 population comes to 3.42 at district level. Townwise, the highest number of beds per 1000 population is noticed in Burnpur town (14.69). The second position in respect of the beds in medical institutions goes to Barddhaman with 3.76. Guskara—a non-mnnicipal town of the district has 0.80 beds for every 1000 inhabitants of the district which is the lowest of all the towns.

Table—13 PROPORTION OF SLUMS POPULATION IN TOWNS
