BANASKANTHA DISTRICT

Showing Taluka and Peta boundaries

1951 DISTRICT CENSUS HANDBOOK

DISTRICT BANASKANTHA

Banaskantha is a new district created out of the former Indian States of Palanpur, Radhanpur, Wav, Tharad, Terwada, Thara, Virpur, Deodar and Varahi and the old thanas of Varahi, Santalpur, Deodar (including Suigam sub-thana), and Kankrej. Later Varahi and Santalpur states and thanas were trans erred to Mehsana district, and Abu district and Abu Road and Dilwara tehsils of. the former Sirohi state were added to this district.

The district had a 1951 population of 748,796 and an area of 4394·6 square miles, according to the area figure furnished by the Surveyor General of India.

This Handbook contains tables for Banaskantha district, compiled after the 1951 Census of India. The main results of the 1951 Census are embodied in the State Tables published for the States of Bombay, Saurashtra and Kutch. In this Handbook, the data are exhibited in greater detail. The numbers given to tables in this publication correspond to those given in the State Census Report. The following tables for the district have, however, not been included in this Handbook. :—

A—II Variation in population during fifty years.

A—IV Towns classified by population with variations since 1901.

D—IV Migrants.

In the E-Summary table, in this Handbook, some columns have been omitted.

In the case of the C-series of tables, except C-I, the data were extracted on the basis of a sample count of approximately 10% of the census slips, instead of a full count of all the slips. The C-I table was prepared from a four per cent sample of the households recorded in the National Register of Citizens relating to each town or village.

In 1941, the population figures were exhibited according to communities in the "Village Handbooks" published by the Government of Bombay. In 1951, the basis of classification at the Census, was changed from a social to an economic one, and the figures for villages given in the Primary Census Abstracts and in tables A–V, B-I, B-II, C-II and E are according to the following eight Livelihood Classes:—

Agricultural Classes

I Cultivators of land, wholly or mainly owned; and their dependants.

II Cultivators of land, wholly or mainly unowned; and their dependants.

III Cultivating labourers; and their dependants.

IV Non-cultivating owners of land; agricultural rent receivers; and their dependants.

Non-Agricultural Classes

Persons (including dependants) who derive their principal means of livelihood from :—

V Production other than cultivation.

VI Commerce.

VII Transport

VIII Other services and miscellaneous sources.

Dependants, whether earning or non-earning, were classified at the census according to the principal means of livelihood of the persons on whom they were dependant.

The Primary Census Abstracts, which contain basic information in respect of every village and town, have been arranged according to talukas and petas units into which every district is divided for administrative purposes. The taluka was, however, too small a unit to adopt for preparing the main census tables. Therefore, in the B, C and D-series of tables figures have been given for tracts and not for talukas and petas. Before sorting the census slips and tabulating the results, tracts were formed by combining the rural and urban areas of two or more talukas or petas. The tracts into which Banaskantha district was divided for this purpose are shown below:—

Rural Tracts

(1) Rural areas of Palanpur, Deesa and Dhanera talukas.

(2) Rural areas of Danta and Abu Road talukas and Vadgam Peta.

(3) Rural areas of Tharad, Wav, Deodar and Kankrej talukas.

Urban Tracts

(1) Urban areas of Tharad, Deesa, Palanpur and Abu Road talukas.

Urban areas comprise the towns shown in table A–V.

Shortly before the 1951 population census, a census of Small Industries was taken, and the results of this census are given in the table called "Small Scale Industries Census-Employment in Establishments", included in this Handbook.

The intention was to find out something about Cottage and Home Industries and small workshops. The larger establishments, that is, power-using establishments with 10 or more workers and non-power using establishments with 20 or more workers, were excluded from the scope of the enquiry as they now submit returns under the Factory Act.

The enquiry did not concern itself also with workers functioning on their own and not employing other people, except when looms were used. Otherwise the concept was of an enquiry which embraced all forms of associate activity where articles were produced, repaired or otherwise treated for sale, use or disposal.

	Taluka or Peta		Area in square miles	Villages	Towns	Occupied Houses		
						Total	Rural	Urban
	1		2	3	4	5	6	7
	Total	...	**3,985.6**	**1,331**	**5**	**143,536**	**132,006**	**11,530**
1	Abu Road	...	**303.8**	82	2	9,498	6,635	2,863
2	Danta	...	341.8	183	...	6,927	6,927	...
3	Deesa	...	620.6	148	1	21,831	19,551	2,280
4	Deodar	...	323.3	136	...	11,335	11,335	...
5	Dhanera	...	432.7	130	...	13,211	13,211	...
6	Kankrej	...	304.4	104	...	12,375	12,375	...
7	Palanpur	...	530.8	184	1	29,053	23,593	5,460
8	Tharad	...	420.9	133	1	11,156	10,229	927
9	Vadgam	...	214.7	110	...	15,821	15,821	...
10	Wav	...	492.6	121	...	12,329	12,329	...

Note:—1. In the primary census abstracts the area figure of each village is given. The arithmetical totals of these areas however do not add up to the area figures supplied by the Collector for talukas & petas. In column 2 of this table & column 2 of the E-Summary Table the area figures of talukas & petas supplied by the Collector from the annual land revenue return District Form No. 1 have been utilised because for the taluka or peta as a whole, the figure supplied by the collector is assumed to be more accurate than the arithmetical total of the area figures for villages.

2. The number of villages shown in column 3 is the number of revenue villages excluding uninhabited villages and villages which form part of municipal areas.

3. The number of towns given in column 4 is the number of towns shown in table A-I. In general, a town means a municipal area, cantonment area or a place which has a population of 5,000 or more persons and exhibits urban characteristics.

SUB—DIVISIONS

BANASKANTHA

2. The census definitions of the terms employer, employee and independent worker were as follows :—

Employer : A person who had necessarily to employ other persons in order to carry on the business from which he secured his livelihood. (Thus, if a person employed a cook or other person for domestic service, he was not to be recorded as an employer merely for that reason.)

Employee : A person who ordinarily worked under some other person for a salary or a wage in cash or in kind, as a means of earning a livelihood.

Independent Worker : A person who was not employed by anyone else and who did not also employ anyone else in order to earn his livelihood.

DISTRICT INDEX OF NON-AGRICULTURAL OCCUPATIONS

DISTRICT BANASKANTHA

This index shows the number of self-supporting persons, males and females, having as their principal means of livelihood, the productive occupations shown in the index.

The index should be read with Economic table B—III. There were 3,881 self-supporting persons who derived their principal means of livelihood from unproductive activities as mentioned in the note to that table.

The group code numbers shown in column '2' of the index are the numbers given to the various occupations under the Indian Census Economic Classification Scheme.

Occupation	Group Code No.	Population

Primary Census Abstracts.

These abstracts show figures of population according to eight livelihood classes for every town and village. In the case of most municipal areas, figures have been given for wards as well. These abstracts are in essence a village directory, with the data exhibited according to livelihood classes instead of communities as in 1941.

The area figures given in column 3 have been obtained from the District Inspector of Land Records of Banaskantha or from local records The total area of Banaskantha district as calculated by the Surveyor General India, is 4,394·6 square miles.

The figures given in columns 4 and 5 and 9 to 12 have been extracted from the National Registers, prepared by enumerators after the census, These Registers consisted of a transcription of the replies to the more important census questions in respect of every person enumerated. Figures of literates according to tracts, derived from the census slips, shown in table D-VII, are more reliable than the village figures derived from the National Registers. The census slip on which the replies to the census questions were recorded was the main document. The National Register was merely a copy. In addition, mistakes seem to have occurred while extracting literacy figures for villages in the Tabulation Office. The percentage of literacy in the district was 7.17% according to table D-VII. It was 6.91% according to the 10% sample table C-IV and 6.36% according to the figures Abstracted from the Primary Census Abstracts.

Information contained in columns 29 to 33 has been extracted from the data collected for each village by the Bombay District Gazetteers (Revision) Editorial Board.

The following abbreviations have been used in the abstract :—

M. for Municipality.
P. S. for Primary School.
V. P. for Village Panchayat.
C. C. S. for a Co-operative Credit Society.
C. S. for a Co-operative Society of any other kind.
Sun. for Sunday.
Mon. for Monday.
Tues. for Tuesday.
Wed. for Wednesday.
Thurs. for Thursday.
Fri. for Friday.
Sat. for Saturday.

NOTE :—The total area figure for the taluka supplied by the Collector from the annual land revenue return District Form No. 1 is 194,433 acres i.e. 303.8 sq. miles.

This figure does not agree with the arithmetical total of the area figures for villages given in column 3 of the Abstract. but it may be taken to be more accurate for the taluka as a whole than the arithmetical total of village areas.

Literates		Agricultural Classes

	Total for villages & taluka	**347.0**	**6,927**	**8,400**	**40,669**	**21,168**	**19,501**	**1,563**	**999**

Note.— The total area figure for the taluka supplied by the Collector from the annual land revenue return District Form No. 1 is 218,782 acres i. e. 341.8 sq. miles. This figure does not agree with the arithmetical total of the area figures for villages given in column 3 of the Abstract, but it may be taken to be more accurate for the taluka as a whole than the arithmetical total of the village areas.

Note.— The total area figure for the taluka supplied by the Collector from the annual land revenue return District Form No. I, is 397,163 acres i. e. 620.6 sq. miles. This figure does not agree with the arithmetical total of the area figures for villages given in column 3 of the Abstract, but it may be taken to be more accurate for the taluka as a whole than the arithmetical total of the village areas.

	Total for villages and taluka	**345.4**	**11,335**	**11,527**	**65,003**	**33,625**	**31,378**	**189**	**118**

NOTE :—The total area figure for the taluka supplied by the Collector from the annual land revenue return District Form No. 1 is 206,932 acres i.e. 323.3 sq. miles.
This figure does not agree with the arithmetical total of the area figures for villages given in column 3 of the Abstract but it may be taken to be more accurate for the taluka as a whole than the arithmetical total of thevillage area figures.

Note.— The total area figure for the taluka supplied by the Collector from the annual land revenue return District Form No. 1, is 276,946 acres i. e. 432.7 sq. miles. This figure does not agree with the arithmetical total of the area figures for villages given in column 3 of the Abstract, but it may be taken to be more accurate for the taluka as a whole than the arithmetical total of the village areas.

Total for villages and taluka	...	**272.9**	**12,375**	**12,580**	**66,422**	**34,567**	**31,855**	**65**	**43**

NOTE :—The total area figure for the taluka supplied by the Collector from the annual land revenue return District Form No. 1 is 194,823 acres i.e. 304.4 sq. miles.
This figure does not agree with the arithmetical total of the area figures for villages given in column 3 of the Abstract, but it may be taken to be more accurate for the taluka as a whole than the arithmetical total of the village areafigures.

NOTE :—The total area figure for the taluka supplied by the Collector from the annual land revenue return District Form No. 1 is 339,680 acres i.e. 530.8 sq. miles.
This figure does not agree with the arithmetical total of the area figures for villages given in column 3 of the Abstract, but it may be taken to be more accurate for the taluka as a whole than the arithmetical total of the village area figures.

NOTE :—The total area figure for the taluka supplied by the Collector from the annual land revenue return District Form No. 1 is 269,293 acres i.e. 420.9 sq. miles.
This figure does not agree with the arithmetical total of the area figures for villages given in column 3 of the Abstract but it may be taken to be more accurate for the taluka as a whole than the arithmetical total of the village area figures.

Total for villages and peta		**158.9**	**15,821**	**16,180**	**73,413**	**36,501**	**36,912**	**263**	**171**

Note.— The total area figure for the peta supplied by the Collector from the annual land revenue return District Form No. 1, is 137,410 acres i. e. 214.7 sq. miles. This figure does not agree with the arithmetical total of the area figures for villages given in column 3 of the Abstract, but it may be taken to be more accurate for the peta as a whole than the arithmetical total of the village area figures.

	Total for villages and taluka	**503.8**	**12,329**	**12,953**	**68,766**	**35,258**	**33,508**	**157**	**122**

NOTE :—The total area figure for the taluka supplied by the Collector from the annual land revenue return District Form No. 1 is 315,283 acres i.e. 492.6 sq. miles.
This figure does not agree with the arithmetical total of the area figures for villages given in column 3 of the Abstract, but it may be more correct.

Notes—(1) The Census of Small Scale Industries was done by revenue officers in addition to their normal work. It was not done simultaneously in all talukas and districts, nor was it possible to give any special training to the staff engaged on this census. In the result, the accuracy of the data furnished by this census cannot be guaranteed. The figures may, however, be regarded as illustrative of the nature of the small-scale industries carried on in the District.

(2) Males under 15 were classified as boys and females under 15 as girls.
