ACKNOWLEDGEMENTS

At the 1971 Census it has been our endeavour to compile both Census and non-Census statistics at the village and block level in a uniform manner. To ensure that these statistics are available to the users as soon as these are sifted and compiled, the District Census Handbook has been divided into three parts This is the first part of the series, the Village and Town Directory, which mostly comprises non-Census data

We are deeply indebted to the State Government for their everwilling and prompt help to us at all stages. The District Census Handbooks are being published by us on their behalf. I wish to express my gratitude to Sri M. Lal, Chief Secretary to U.P. Government, for all the guidance and facilities afforded to us in the conduct of Census in this State. I am also grateful to Sri P. C. Pandey, Secretary, G. A. D. (Now Commissioner, Rohilkhand Division, Bareilly) and his successor, Sri A. P. Dixit, for the facilities given by them in sorting out various administrative matters relating to the publication of these Handbooks. I am extremely thankful to the District Officers for their whole-hearted co-operation in furnishing the desired information and the District Census Officers for their hard work and sustained efforts in collecting the same.

The programme for the printing of District Census Handbooks has been heavy indeed, more so as three parts are being published, one in Hindi and two in English. The arrangements made by Sri A. Dar, Superintendent, Printing and Stationery, U. P., Allahabad for the printing of these volumes, are thankfully acknowledged Joint Superintendent, Sri J. S. Gupta, I/c New Government Press Aishbagh, Lucknow has also been extremely helpful in bringing out the maps

In the Census Office, everyone has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I am grateful to Sri K. S. Sinha, Deputy Director, Headquarters, the Tabulation Officer and other staff of the Technical Section, who have shared the burden and helped in bringing out these Handbooks.

I must also express my gratitude to Sri A Chandrasekhar, Registrar General, India, Sri K. D. Ballal and Dr. B. K Roy Burman, Deputy Registrars General and Sri K. K Chakravorty, Central Tabulation Officer for their constant help and guidance despite their own heavy preoccupations.

INTRODUCTORY NOTE

1. History of District Census Handbook.

It has been customary to bring out vital statistics at most of the Censuses. A list showing the population of villages in each district was published after the 1891 Census. Such information was, however, not brought out in 1901 Village Directories were prepared for all districts in 1911, but could be published only for thirteen due to the outbreak of the First World War At the 1921 Census, these were published for all districts in the form of District Census Statistics. In 1931 villagewise statistics were compiled but could not be published owing to financial stringency, resulting in loss of valuable data At the 1941 Census, restricted tabulation was undertaken in the wake of the Second World War, but the utility of Census statistics was recognised and these were published. The District Census Handbook in its present form was brought out at the 1951 Census, and was published alongwith another volume titled District Population Statistics In 1961 Census, attempts were made to render the District Census Handbook more informative, as in addition to Census data pertaining to each village, data about its level of develoment and amenities were also collected. At the 1971 Census, efforts have been made to compile both Census and non-Census statistics at village/town level in a uniform manner with an enlarged scope

As the District Census Handbook makes Census statistics available for the smaller territorial units, it is constantly referred to for several purposes of administration, demarcation of electoral constituencies, planning the development and so on. To ensure that these statistics are available to the users early, the District Census Handbook has been divided for being published separately into three parts :

Part A : Town and Village Directory

Part B : Village and Town-wise Primary Census Abstract

Part C : Analytical Report and Administrative Statement—District Census Tables.

2. Scope of District Census Handbook.

Part A of the Handbook comprises the Town and Village Directory. In village Directory, particulars of amenities in regard to Education, Medical, Power supply, drinking water supply, Post and telegraph and Communications have been given. Besides, it contains land-use statistics, days of weekly markets and places of religious, historical or archaeological interest in each village The Town Directory comprising seven statements throws light on the status of the town, its origin, growth of population, functional category, location and physical aspects, Municipal finances, Civic and other amenities, Medical and Educational facilities and statistics pertaining to Trade, Commerce, Industry and Banking. Apart from these, it also gives the distribution of population of the town by Religion and Scheduled Castes/Scheduled Tribes

Part B represents data down to village level for rural area and block level for towns. It contains the Primary Census Abstract which incorporates figures of area, number of occupiedd resiential houses and households, total population and its break-up by sex,

scheduled caste and scheduled tribe, literate population, working population by nine broad industrial categories of cultivators, agricultural labourers, workers engaged in forestry and livestock etc., in mining and quarrying, in manufacture or repair, in construction, in trade and commerce, in transport and communications and in other services as well as the non-working population.

Part C deals with the administrative statistics pertaining to the district in all field of development. The Census tables pertaining to language, religion, migration and economic activities are being reproduced in this part A write up indicating changes in socio-economic and demographic characteristics of the district during the last decade is also being included in it.

3. Town Directory given in Part A presents data for all the Census towns of the district There is no uniformly accepted definition of a town. The historical, political, cultural and administrative considerations are generally taken as criteria for rural-urban classification. An urban area, in contradistinction to the rural, comprises a large majority of inhabitants who are engaged in industrial and non-agricultural activities. In addition to its size, population and occupational characteristics, an urban area provides such facilities as transportation, banking, commercial and technical services, community facilities and other civic services. According to the State Government, all Municipal Corporations, Municipal Boards, Cantonment Boards, Notified Areas and Tow Areas are considered as town, and according to thier average annual income from their own resources, these have been classified into different classes of local bodies. The Criteria adopted under the Census Operations is slightly different from the State Government In 1971 Census all places satisfying the following conditions have been treated as Towns :—

1. All Municipal Corporations, Municipal Boards, Cantonments & Notified Areas.

2- All localities though not in themselves local bodies but forming part of a city or town agglomeration.

3. Other places satisfying all the three undermentioned conditions :

   (i) Population exceeds 5,000.

   (ii) At last 75% of the male working population engages in non-agricultural pursuits, and

   (iii) The density of population exceeds 1,000 persons per sq mile (386 persons per sq. km.).

The information given in the Town Directory relates to the year 1969. The data has been presented in the following seven statements :

(a) Statement I—This statement presents the population of the towns at the end of each decade from 1901 to 1971, the Civic status of the towns and their functional categories at 1961 and 1971, Censuses The functional categories given in columns 14 and 15 have been determined on the basis of the predominant functional character of the town,

to derive which, the working population under the broad industrial categories has been regrouped into five broad functional classifications: —

(i) Primary Activities-Categories I, II, III, & IV
(ii) Industry-Categories V (a) V (b) and VI
(iii) Trade and Commerce-Category VII
(iv) Transport-Category VIII, and
(v) Services Category IX

For each town, the percentage of workers under each of the aforesaid classes to total workers is worked out, and where the workers under one of the classes comprise 40% or more of the total workers, the town is taken as mono-functional. In other cases, the next predominant occupation is taken into account and if the total of the two comes to 60% or above, the town is designated as bi-functional. If the total does not yield 60%, the third predominant occupation is also taken and such a town is treated as multi-functional.

The notations used in column 5 of the statemnt are :

C—Municipal Corporation

M—Municipal Board

NAC—Notified Area Committee

TC—Town Area Committee

CB—Cantonment Board

(b) **Statement II**—This statement gives the physical aspects and location of towns. The annual rainfall, maximum and minimum temperature, nearest City with its distance, name of district and tahsil headquarters, railway stations and bus routes etc., have been indicated

(c) **Statement III**—It reveals the municipal finances for the year 1968-69. The receipts through taxes and others sources alongwith the expenditure on general administration, public works and conveniences have been given therein.

(d) **Statement IV**—In this statement, the Civic and other amenities available in the town have been shown such as the system of sewerage, drainage, the number of latrines and method of disposal of night soil, the source and capacity of protected water supply, fire fighting service and electrification. (f) Statement VI—This statement contains information relating to trade, commerce, industry and banking facilities in the towns The names of important commodities manufactured, imported and exported, the number of Banks and agricultural as well as non-agricultural credit societies are given in the statement. The commodities mentioned therein are those having the highest value in currency. In a few cases, if the town is famous for manufacturing or exporting some particular item, even though the money value is not high, such items have been included.

(g) Statement VII—The census table C-VII giving distribution of population by religion and scheduled castes/scheduled tribes has been reproduced in this statement While sex--wise following of the more common religions viz Hinduism, Islam, Buddhism, Jainism, Sikhism and Christianity has been given separately, the persons belonging to other religions and pursuations have been shown in columns 15 and 16 under the heading of Others'

(5) Village Directory reveals the general living conditions of peasantry and the over all development that has taken place in the countryside The amenities available within each village in the field of education, medical and health, power-supply, drinking water, communications, post and telegraph have been given in columns 4 to 9 of this directory. Besides, the information relating to staple food, distance from nearest town, days of market/hat and places of religious, historical or archaeological interest is also given in the statement If the village is un-inhabited or power is being used for agricultural purpose only, these characteristics have been indicated in the remarks column

The land use statistics are constantly in demand for Agricultural production programme. These statistics have been given in columns 11 to 15 under the headings (i) Forest, (ii) Irrigated, (iii) Unirrigated, (iv) Cultivable waste and (v) Area not available for cultivation In column 12, the irrigated area under different sources of irrigation has been separately given.

The villages have been arranged according to the code numbers allotted to them at 1971 Census. The information has been presented with the help of the following abbreviations :

The District

A—Town Directory

(a) **Statement I**—Ballia has three urban areas including Reoti which has newly been added to the list of towns in 1971. The functional distribution of towns is as below :—

Table 1

Functional Category	Name of Towns
Primary Activities	Reoti N. A.
Services-*cum*-commercial	Ballia M .B.
Commercial-*cum*-Industay-*cum*-services	Rasra N.A.

Reoti is mono-functional town with 76.39% of the working population engaged in Primary Activities.

Ballia is a bi-functional town. Service class pre-dominates with 39.70% of working population followed by persons engaged in commerce accaunting for 26.19%.

Rasra is a multi-functional town with 30.55%, 26.70% and 23.60% of working population engaged in Commercial, Industrial group and Service class activities respectively.

(b) **Statement II**—The physical and locational aspects have been covered in this statement. The data of annual rainfall and minimum and maximum temperature for Reoti Rasra were not available with the Director of Meteorological Centre, Delhi so the Information given in Col. 4 to 6 relates to the observatory at Ballia.

(c) **Statement III**—The Per Capita receipt and expenditure by the local bodies in the three towns is as below :—

Table 2

Class of Towns	No. of Towns	Per Capita Receipt (Rs.) Total Receipt	Receipt through Taxes etc.	Receipt from all other sources	Per Capita Expenditure (Rs.) Total expenditure	Expenditure on public health and conveniences	Expenditure on public institutions	Expenditure on all other aspects

Class III 20,000 to 49,999 (Ballia	1	21.25	5.19	16.06	22.25	3 18	2 99	16 08
Class IV 10,000 to 19,999 (Reoti)	2	5.61	0.59	5.02	3.63	0.91	—	2 72

The per capita receipt of Class I.I, and IV towns is Rs. 21 25 and 5 61 respectively. Against this the per capita expenditure is Rs. 22.25 and 3.63 respectively.

(d) **Statement IV**—All the towns in the district have protected water supply and road lighting arrangement is available in Rasra and Ballia. Fire fighting service is not available in any of the towns. There is no arrangement of mechanical transport for removing night soil.

(e) **Statement V**—All the towns of the district have medical institutions. The total beds in the medical institutions in all the thsee towns of the district number 183. The maximum number of 165 is in Ballia and minimum of 4 in Reoti.

The number of beds per 1,000 population has been shown in the following table :—

Table 3

Total No of beds in Medical Institutions	No of beds per 1,000 population
183	2.51

Both Ballia and Rasra have degree colleges. One polytechnic and two recognised shorthand and typing institutions are located in Ballia. Primary, Middle and Higher secondary schools facilities are available in all the towns ofthe district. The following table gives thedetailes of the number of schools per 1000 population.

Table 4

Name of Town	No. per 1,000 population		
	Higher Secondary	Middle	Primary
Ballia	0.13	0.06	0.51
Rasra	0.07	0.21	0.36
Reoti	0.09	0.17	0.17

Two Cinema halls are located in Ballia. Facility of public libraries is available in Ballia and Rasra.

(f) Statement VI—Wheat is the main article exported from Ballia and Rasra.

Main articles manufactured in Ballia and Rasra are Khandsari and earthanpots respectively.

(g) Statement VII—The population of all the urban areas is mainly comprised of Hindus (84.75%) and Muslims (14.91%). The percentage growth of Hindu population of these towns during last decade is 46.76 which is higher than that of Muslim population (36.09%).

The percentage of scheduled Caste persons is (7.84%) and that of Scheduled Tribes (0.01%) in the populatation of all the towns taken together.

VILLAGE DIRECTORY

(a) According to their area in acres the villages have been stratified in the following table :—

Table 5

Area (in acres)	No. of Villages	Percentage
50 acres or less	372	15.26
51-100	430	17.64
101-200	605	24.83
201 500	652	26.75
501-1000	238	9.77
1001-2000	103	4.23
2001 5000	32	1.31
5001 acres and above	5	0.21
Total	2 437*	100.00

*Exclusive of 45 villages for which information is not available

It is evident from the above table that the number of villages having an area of more than 200 acres but not more than 500 acres is highest accounting for a percentage of 26·75. Thereafter, the number of villages goes on decreasing as the size of villages increases There are 5 villages having an area exceeding 5,000 acres. As regards smaller villages, there are 372 having an area of less than 50 acres.

(b) The distribution of villages having educational institutions is given in the following table :—

Table 6

Distance from the nearest town (in kms.)	Total No of villages	No of villages having

Total	2,437*	659	109	58	—	..

*Exclusive 45 villages for which information is not available.

The above table shows that the largest number of villages having institutions (269) including Higher Secondry Schools exist in the villages situated a distance of 26 to 50 kilometres from the nearest town. The villages which lie within 51 to 100 kms. have the least number of institutions (9). The table exhibit that the number of educational institution in a particular distance group is high or low in accordance with the number of total villages in that distance group.

(c) 59 villages in district Ballia have hospitals. If all kinds of medical institutions including dispensaries, health centres etc., are taken into account, 156 villages out of 2,437 have medical institutions.

The following table presents the number of medical institutions per 100 Sq. Kms.

Table 7

(d) 581 villages are electrified in the district out of 24,37 villages. Their percentage comes to 23 84.

The largest number of electrified villages (254) lie in Tahsil Rasra and minimum in Tahsil Ballia (159). The power supply in villages with reference to their distanc from the nearest town is given in the following table :--

Table 8

Distance from the nearest town (in kms.)	Total No. of villages	Number of villages with Electric Power supply

The percentage of electrified villages to the total villages is highest 36.07 for those situated within a radius of 5 kilometres and the minimum percentage of 6.25 is for those situated at a distance of 51 to 100 kms. from the nearest town.

(e) As many as 4.72% villages of the district are connected by rail, 26.26% are connected by pucca road and 1.56% by kachcha and pucca roads. The percentage of villages having only *kachcha* roads is 9.77%. The nature of communications have been shown in the following table, where the villages have been classified according to their distance from the nearest town.

(g) Wheat and Rice are the staple food of the district.

(h) The cultivated area is 78.08 per cent of the total rural area of the district, of which 43.73 per cent is irrigated area.

The following table shows the average cultivated land, average cultivable waste and its percentage to average cultivated area per village. The villages in this table have again been classified *according to their distance from the nearest town.*

*Exclusive of 45 villages for which information is not available.

The average area of cultivated land per village is highest (690) in the distance group of 51 to 100 kms. followed by (292) in the distance group of 26 to 50 kms. It is lowest (212) in the distance group 0 to 5 kms. and 16 to 25 kms. The average cultivable waste per village is highest in the distance group of 51 to 100 kms. The average area of cultivable waste per village is lowest (18) in the distance group 0 to 5 kms. The percentage of average cultivable waste to average cultivated land per village is highest (17.00) in the distance group 11 to 15 kms. whereas it is lowest (8.43) in the case of villages in the distance group 0 to 5 kms. from the nearest town.

Foot Note :—

Following the Trivedi Award to determine the boundaries of U. P. and Bihar, the Bihar-U. P. (Alteration of Boundaries) Act 1968 (Act XXIV of 1968) came into force on 10th June 1970. The boundary strip maps published by the Survey of India under this Act formed the basis for transfer of territories between the two states The villages were generally identified with the help of these maps and in few cases where the local habitations could not be located with reference to the names given on the maps, these were based on the reports of the local officers. Accordingly 14 villages (2 wholly and rest partly) were transferred from Bansdih Tahsil to Bihar state and 31 villages (7 wholly and rest partly) were transferred from Bihar state to Bansdih Tahsil. The lists of such villages are given bellow :—

According to the Survey map prepared under the Trivedi Award a small portion between pillers No. 74/4 and 75 in sheet No 8 of Village Diara Nauabad lies in U. P. But the Local Officers of Bihar state claim that the village lies wholly in Bihar. The Registrar General decided that without prejudice to the respective claims of the State Governments this village which is uninhabited may be shown in Bihar

2. The area figures and entries in Cols. 4 to 18 of village marked (@) which have been partly tranrferred to Bihar state, relate to the entire village as the separate figures relating to the part villages are not available. However. the informations for villages Diara Maniar Tukra I (Code No 248) and Mahazi Gondauli (Codo No. 266) which have been pratly transferred to Bihar State are being shown in Bihar state as the population of these villages has gone over to that state.

3. The area figures and entries in Cols. 4 to 18 of the villag marked ($) which have been partly transferred from Bihar to U. P. are not available with U. P.

4. Names of the villages transfered from Bihar to U. P. and vice-versa are based generally on the boundary strip maps published by the Survey of India under the Bihar-U. P. (Alteration of Boundaries) Act 1968 (Act XXIV of 1968)

Foot Note :—

Following the Trivedi Award to determine the boundaries of U. P. and Bihar, the Bihar-U. P. (Alteration of Boundaries) Act 1968 (Act XXIV of 1968) came into force on 10th June, 1970. The boundary strip maps published by the Survey of India under this Act formed the basis for transfer of territories between the two states The villages were generally identified with the help of these maps and in few cases where the local habitations could not be located with reference to the names given on the maps, these were based on the reports of the local officers. Accordingly 30 villages (6 wholly and rest partly) were transferred from Ballia Tahsil to Bihar state and 68 villages (93 wholly and rest partly) were transferred from Bihar state to Ballia Tahsil. The lists of such villages are given below :—

According to the Survey map prepared under the Trivedi Award a small portion near pillar No 13–A in sheet No. 2 of Village Isarpur lies in U. P. But the Local Officers of Bihar state claim that the village lies wholly in Bihar. The Registrar General decided that without prejudice to the claims of the respective State Governments this village which is uninhabited may be shown in Bihar.

2. The area figures and entries in Cols. 4 to 18 of village marked (@) [which have been partly tranrferred to Bihar state,] relate to the entire village as the separate figures relating to the part villages are not available. However, the informations for villages Khawaspur (CodeNo. 809) which has been pratly transferred to Bihar State is being shown in Bihar for the whole villages as most of the population has been transferred to that state.

3. The area figures and entries in Cols. 4 to 18 of the villages marked ($) which have been partly transferred from Bihar to U. P. are not available with U. P. However the information for villages Chakki Nauranga Ojhwalia Diara Isarpur Naubarar Umarpur Diara which have been partly transferred from Bihar to U. P. are being shown in U. P. as population of these villages have come over to this state.

4. Names of the villages transfered from Bihar to U. P. and vice-versa are based generally on the boundary strip maps published by the Survey of India under the Bihar-U. P. (Alteration of Boundaries) Act 1968 (Act XXIV of 1968)

5. Village Suremanpur Harnarayan which was identified from the boundary strip maps published by the Survey of India under the Bihar-U. P,

(Alteration of Boundaries) Act 1968 (Act XXIV of 1968) as one which should remain in Bihar, has been shown in U. P. as the records of this village had already been transferred from Bihar to U. P. on the basis of the report of local officers and the Census Data of that village had been incorporated in that of U. P.

6. The figures of village Sheopur Diar whose records were transferred from Bihar to U. P. have been included in village Sheopur Diar Numbari (Location Code No. 817) in Bailia Tahsil.
